The operation of the Declaratory Judgment Act is procedural only. By passage of the Act, Congress enlarged the range of remedies available in the federal courts but it did not extend their subject-matter jurisdiction. Thus there must be an independent basis of jurisdiction, under statutes equally applicable to actions for coercive relief, before a federal court may entertain a declaratory judgment action.

<sup>3</sup> 10 C. Wright and A. Miller, Federal Practice and Procedure § 2766, 841 (1973) (footnotes omitted).

Likewise, 28 U.S.C. § 1343(4) does not afford subject-matter jurisdiction to a federal court over claims brought under 42 U.S.C. § 1983. Section 1343(4) affords subject-matter jurisdiction to the federal court only over those claims which are brought under "any Act of Congress providing for the protection of civil rights. . . ." "Standing alone, § 1983 clearly provides no protection for civil rights since . . . § 1983 does not provide any substantive rights at all." *Chapman v. Houston Welfare Rights Organization*, 441 U.S. 600, 618, 99 S.Ct. 1905, 1916, 60 L.Ed.2d 508 (1979).

<sup>4</sup> In fact, the complaint alleges that "[t]his cause of action arises under the First and Fourteenth Amendments to the United States Constitution . . . ." See Complaint at 2. This Court has previously explained that no implied cause of action exists under either the first or fourteenth amendments, at least when the first amendment is applied to persons acting under color of state law. The very purpose for enacting 42 U.S.C. § 1983 was to provide a remedy to vindicate the rights afforded by the federal Bill of Rights when persons acting under color of state law violated those rights. It would be incongruous to imply a remedy where Congress has expressly afforded a remedy. See *Strong v. Demopolis City Board of Education*, 515 F.Supp. 730, 732 n. 1 (S.D.Ala.1981) (per Hand, J.).

<sup>5</sup> "[T]he existence of a claim for relief under § 1983 is 'jurisdictional' for purposes for invoking 28 U.S.C. § 1343, even though the existence of a meritorious constitutional claim is not similarly required in order to invoke jurisdiction under 28 U.S.C. § 1331. See *Bell v. Hood*, 327 U.S. 678, 682 [66 S.Ct. 773, 776, 90 L.Ed. 939] (1946); *ML Healthy City School District v. Doyle*, 429 U.S. 274, 278-79 [97 S.Ct. 568, 571-72 (1977)]." *Monell v. Department of School Services*, 436 U.S. 658, 716, 98 S.Ct. 2018, 2048, 56 L.Ed.2d 611 (1978).

<sup>6</sup> At the start the Court should acknowledge its indebtedness to several constitutional scholars. If this opinion will accomplish its intent, which is to take us back to our original historical roots, then much of the credit for the vision lies with Professor James McClellan and Professor Robert L. Cord. Their work and the historical sources cited in their work have proven invaluable to the Court in this opinion. See R. Cord, *Separation of Church and State: Historical Fact and Current Fiction* (1982); P. McGuigan & R. Rader, *A Blueprint for Judicial*

*Reform* (eds. n.d.); J. McClellan, *Joseph Story and the American Constitution*, 118-159 (1971) (Christianity and the Common Law).

<sup>7</sup> McClellan, *The Making and the Unmaking of the Establishment Clause*, in *Blueprint for a Judicial Reform* 295 (P. McGuigan & R. Rader eds. n.d.) (quoting J. Story, III, *Commentaries on the Constitution* § 1871 (1833) (emphasis added)).

<sup>8</sup> *Id.*

<sup>9</sup> *Id.* at 300. Professor McClellan documents in great detail the political struggle which raged through the various colonies during the Revolution and afterwards to disestablish certain religions throughout the colonies. The establishment of one religion over another in the respective colonies was purely a political matter. The political strength of the various followers determined which religion was established. Like any other political decision, when the political strength of the minorities reached that of the majority, the state disestablished what had formerly been the majority religion. See e.g., *id.* at 301-308.

<sup>10</sup> *Id.* at 307.

<sup>11</sup> *Id.*

<sup>12</sup> *Id.* at 311. Professor McClellan cites numerous examples in which the states required adherence to a Christian religion. For instance, witnesses were considered competent to testify only if they affirmed a belief in the existence of a Christian God. *Id.*

<sup>13</sup> R. Cord, *supra* note 5, at 23.

<sup>14</sup> R. Cord, *supra* note 5, at 24 (quoting *Debates in the Federal Convention of 1787* as reported by James Madison, *Documents Illustrative of the Formation of the Union of the American States* (Washington, D.C.: Government Printing Office, (1927) 295-96 (emphasis in original)).

<sup>15</sup> *Id.* at 24-25.

<sup>16</sup> *Id.*

<sup>17</sup> The views of James Madison are often cited by those who insist upon absolute separation between church and state. Madison was one of the drafters of the first amendment. An uncritical, cursory examination of some of Madison's writings would lead one to the conclusion that Madison favored absolute separation between church and state. However, to reach this conclusion is to misunderstand the views of Mr. Madison.

As Professor Cord explains in his book, Madison was concerned only that the federal government should not establish a national religion. Nondiscriminatory aid to religion and support for various Christian religions was not viewed by Madison as unlawful. See R. Cord, *supra* note 5, at 25-26 (examining drafts of the establishment clause submitted by Madison).

<sup>18</sup> Professor Cord explains in great detail the circumstances surrounding this presidential proclamation. See R. Cord, *supra* note 5, at 27-29.

<sup>19</sup> Professor Cord discusses in detail a document which Madison wrote late in his life known as the *Detached Memoranda*. Some historians have taken the *Detached Memoranda* as a blanket condemnation of religious proclamation issued by Presidents Jefferson, Madison, and Jackson. From this, some historians argue that James Madison believed that absolute separation was mandated by the establishment clause. The Supreme Court has relied upon the *Detached Memoranda* to justify its position of absolute separation in *Abington School District v. Schempp*, 374 U.S. 203, 225 (1963) ("[I]n the words of Madison, 'it is proper to take alarm at the first experiment on our liberties.'").

Professor Cord suggests that the *Detached Memoranda* reflected nothing more than a shift in Madison's views as he grew older. The *Detached Memoranda* was written long after Madison had left office and long after the first amendment had been drafted. R. Cord, *supra* note 5, 29-36.

The explanation of Professor Cord that Madison is an old man, no longer in office, who regretted some of his past actions, is, to the Court, reasonable. Not all historical facts can easily be squared. Professor Cord emphasizes his point by analogizing to something which former President Nixon might write upon reflecting on his tenure as president. It would be odd, hypothesizes Professor Cord, if Mr. Nixon were to publish a book in his later years which concluded that taping conversations, without all parties being aware of the recording, is morally wrong and clearly a flagrant violation of the constitutional right to privacy. It would be nonsense, in the view of Professor Cord, for a Nixon biographer to conclude that Richard Nixon believed that the surreptitious tapings of conversations in the Oval Office were immoral and unconstitutional. R. Cord,

*supra* note 5, at 36. Similarly, it is faulty to judge what Madison believed to be the scope of the establishment clause at the time he drafted the clause by looking to views expressed late in his life when there are numerous expressions of his intent contemporaneous with the period in which the establishment clause was drafted.

<sup>20</sup> R. Cord, *supra* note 5, at 37-39.

<sup>21</sup> R. Cord, *supra* note 5, at 40 (quoting Letter to a Presbyterian Clergyman (1808)).

<sup>22</sup> Professor Cord chronicles the federal support provided to the Moravian Brethren at Bethlehem in Pennsylvania. The function of the Brethren was to civilize the Indians and to promote Christianity. First passed on July 27, 1787, the resolution supporting the Brethren was supported by every President, including Thomas Jefferson. The legislation supporting the Brethren was sectarian in character. Professor Cord reads this history to conclude that had this sort of interaction between church and state been thought to be unconstitutional then certainly the early Congresses and Presidents would not have authorized expenditure of federal money. R. Cord, *supra* note 5, at 39-46.

<sup>23</sup> R. Cord, *supra* note 5, at 47.

<sup>24</sup> *Id.*

<sup>25</sup> Since the states were historically free to establish a religion it follows that some irritation by non-believers or those in the religious minority was a necessary consequence of establishment. The complaint alleges that "[a]ll of the minor Plaintiffs are exposed to ostracism from their peer group class members if they do not participate in these daily devotional activities." Complaint at 5. The children "all have suffered and continue to suffer severe emotional distress from being forced to participate, via peer group pressure, in devotional observances orchestrated by the defendants." *Id.* at 7. This psychological pressure naturally flows anytime a state takes an official position on an issue. It does make an establishment unconstitutional. For example, laissez-faire industrialists feel coerced when a state adopts tough environmental laws. Unemployed workers feel pressure from peer groups when the unemployed worker takes advantage of a state labor law which allows him to cross a union picket line to break a strike. Someone, somewhere, feels coerced or pressured anytime the state takes a position. The Constitution, however, does not protect people from feeling uncomfortable. A member of a religious minority will have to develop a thicker skin if a state establishment offends him. Tender years are no exemption.

<sup>26</sup> Fairman, *Does the Fourteenth Amendment Incorporate the Bill of Rights?* 2 Stan.L.Rev. 5 (1949).

<sup>27</sup> Mr. Justice Black spent nearly twenty years mulling over the criticisms leveled by Professor Charles Fairman. Finally, he had this to say:

What I wrote [in *Adamson v. California*, 332 U.S. 46, 47 [67 S.Ct. 1672, 1673, 91 L.Ed. 1903] (1947).] in 1947 was the product of years of study and research. My appraisal of the legislative history [which surrounded the adoption of the fourteenth amendment and upon which Mr. Fairman relied so heavily] followed 10 years of legislative experience as a Senator of the United States, not a bad way, I suspect, to learn the value of what is said in legislative debates, committee discussions, committee reports, and various other steps taken in the course of passage of bills, resolutions, and proposed constitutional amendments. My Brother Harlan's objections to my *Adamson* dissent history, like that of most other objectors, relies most heavily on a criticism written by Professor Charles Fairman and published in the *Stanford Law Review*, 2 Stan.L.Rev. 5 (1949). I have read and studied this article extensively, including the historical references, and am compelled to add that in my view it has completely failed to refute the inferences and arguments that I suggested in my *Adamson* dissent. Professor Fairman's "history" relied very heavily on what was "not" said in the state legislatures that passed on the Fourteenth Amendment. Instead of relying on this kind of negative pregnant, my legislative experience has convinced me that it is far wiser to rely on what "was" said, and most importantly, said by the men who actually sponsored the Amendment in the Congress. I know from my years in the United States Senate that it is to men like Congressman Bingham, who steered the amendment through the House, and Senator Howard, who introduced it in the Senate, that members of Congress look when they seek the real meaning of what is being offered. And they vote for or against a bill based on what the sponsors of that bill and those who oppose it tell them it means.

The historical appendix to my "Adamson" dissent leaves no doubt in my mind that both its sponsors and those who opposed it believed the Fourteenth Amendment made the first eight amendments of the Constitution (the Bill of Rights) applicable to the states.

*Duncan v. Louisiana*, 391 U.S. 145, 165-66, 88 S.Ct. 1444, 1455-56, 20 L.Ed.2d 491 (1968) (Black, J., dissenting).

Charles Fairman "conclusively disproved Black's contention, at least, such as the weight of the opinion among disinterested observers." A. Bickel, *The Least Dangerous Branch* 102 (1962). Along with Alexander Bickel, Professor Raoul Berger agrees that Charles Fairman's analysis was right on the mark. R. Berger, *Government by Judiciary: The Transformation of the Fourteenth Amendment*, 137 n. 11 (1977).

<sup>27</sup> For example, Professor Raoul Berger cites several cases which recite this common principle of construction. See e.g., *Wright v. Vinton Branch*, 300 U.S. 440, 463, S.Ct. 556, 562, 81 L.Ed. 736 (1937); *Wisconsin Railroad Commission v. C.B. & Q. RR. Co.*, 257 U.S. 563, 589, 42 S.Ct. 232, 238, 66 L.Ed. 371 (1922). See R. Berger, *supra* note 26, at 136-37 & 137 n. 13.

<sup>28</sup> Professor Fairman has quoted exhaustively from the Congressional Globe. The various speeches of Congressman Bingham made in support of the fourteenth amendment are quoted in detail. See Fairman, *Does the Fourteenth Amendment Incorporate the Bill of Rights?* 2 Stan.L.Rev. 5, 24-25 (1949).

The analysis of Professor Fairman is attacked vigorously by William Crosskey, then a professor of law at the University of Chicago Law School. Crosskey, *Charles Fairman, "Legislative History," and the Constitutional Limitations on State Authority* 22 U.Chi.L.Rev. 1 (1954). Crosskey quotes at length from the Bingham article and from the *Congressional Globe* in an effort to discredit the explanation offered the historical facts by Professor Bingham.

The debate between the two scholars was pitched. Much of Crosskey's analysis consisted of little more than *ad hominem* attacks on Professor Fairman. The attacks were answered in a reply article written by Professor Fairman. Fairman, *A Reply to Professor Crosskey*, 22 U.Chi.L.Rev. 144 (1954). After reading the original articles of both Fairman and Crosskey, the rebuttal of Fairman, and many other articles on the question, the Court is persuaded that the weight of the disinterested scholars supports the analysis of Professor Fairman. The work of Professor Crosskey impresses the Court as being designed to reach a result. Namely, Crosskey was interested in providing a constitutional basis to support the desegregation decision of the United States Supreme Court in *Brown v. Board of Education*, 347 U.S. 483, 74 S.Ct. 686, 98 L.Ed. 873 (1954). For instance, in an effort to explain a serious ambiguity in a Bingham speech, Professor Crosskey explains that the speech would make perfect sense if one assumes that Bingham had been reading directly from a text of the Constitution, that he had a copy of the document in his hand and that he was waving the copy while he spoke in Congress. "You're fudging, Professor Crosskey! You don't know that Bingham had been reading from the Constitution," Fairman, *A Reply to Professor Crosskey*, 22 U.Chi.L.Rev. 144, 152 (1949).

One scholar, Michael Kent Curtis, argues that Professor Raoul Berger has improperly analyzed the incorporation question by blindly following the lead of Charles Fairman and ignoring the work of William Crosskey. Curtis, *The Bill of Rights as a Limitation on State Authority: A Reply to Professor Berger*, 16 Wake Forest L.Rev. 45 (1980). No lesser a light than Henry M. Hart, Jr., then a professor of law at Harvard Law School, remarked that "[t]he Don Quixote of Chicago breaks far too many lances in his on-slaughts upon the windmills of constitutional history to permit detailed review of each adventure." Hart, *Book Review*, 67 Harv.L.Rev. 1456 (1954). While the comment was, strictly speaking, directed to a recently released book by Professor Crosskey, the thrust of the comment holds true for the scholarship of Professor Crosskey. Professor Henry Hart had little use for the typical analytical method employed by Professor Crosskey: slanderous, *ad hominem* attacks on those historical actors who supported views contrary to those which Professor Crosskey expected to find in a historical record. Professor Hart compared Professor Crosskey to Senator Joseph McCarthy from Wisconsin. *Id.* at 1475 ("In the true hit-and-run style popular-

ized by the Senator from the adjacent state to the north, [Wisconsin being north of Illinois] Professor Crosskey, having made [the] ugly charge [that James Madison deliberately, not inadvertently, falsified some of his notes in 1836 to suit his own purposes at that time], promises to consider in a later volume whether it is true.") Professor Hart is of the general opinion that the scholarship of Professor Crosskey amounted to little more than "a confident tone, nice printing, and an abundance of notes and appendices referring to obscure documents and esoteric word meanings." *Id.* at 1486.

<sup>29</sup> R. Berger, *supra* note 26, at 147 (footnotes omitted).

<sup>30</sup> R. Berger, *supra* note 26, at 147-48 (quoting *Congressional Globe* 2764-65).

<sup>31</sup> Crosskey, *Charles Fairman, "Legislative History" and the Constitutional Limitations on State Authority*, 22 U.Chi.L.Rev. 1 (1954). In particular, Professor Crosskey is critical of the newspaper examination conducted by Professor Fairman. By Crosskey's count, Fairman and Flack together examined ten newspapers. *Id.* at 100-101. Crosskey points out that there were nearly 5,000 newspapers in circulation in 1870. Thus, if Flack and Fairman examined only ten of these newspapers then, concludes Crosskey, the two ignored a substantial source of evidence in their inquiry. Certainly, at the least, according to Crosskey, neither Flack nor Fairman are entitled to make any conclusions about what the newspapers of the day reflected as the popular understanding of the effect of the fourteenth amendment.

The Court has studied the Crosskey criticism of Professor Fairman and rejects it. The work of the two scholars serves as the cornerstone for both camps in the debate vel non whether the fourteenth amendment was intended to incorporate the federal Bill of Rights. Compare R. Berger, *supra* note 26, 134-156 (rejecting incorporation of the federal Bill of Rights) with Curtis, *The Bill of Rights as a Limitation on State Authority: A Reply to Professor Berger*, 16 Wake Forest L.Rev. 45 (1980) (following Crosskey).

<sup>32</sup> C. Fairman, *supra* note 25 at 86 (quoting N.H. Const. art. 6 (1793)).

<sup>33</sup> It is always difficult to wade through the mass of historical research which has been done on both sides of the issue. For instance, while the defendant-intervenor introduced Professor Robert L. Cord's book, *Separation of Church and State: Historical Fact and Current Fiction* in support of the historical record upon which they are relying, Professor Cord concludes, in part, that a) the fourteenth amendment did incorporate the establishment clause against the states, *id.* at 101, and b) the Lord's Prayer, being distinctly Christian in character, or any other prayer which is readily identified with one religion rather than another is impermissible under the establishment clause, *id.* at 162-65.

The Court rejects the conclusion of Professor Cord that the fourteenth amendment incorporated the establishment clause against the states. Professor Cord uncritically adopted the analysis of the United States Supreme Court in reaching his conclusion. In only a footnote does Professor Cord refer to the scholarship of Professor Charles Fairman; then only does Professor Cord note that there has been some "controversy" surrounding the incorporation issue.

Assuming arguendo that the establishment clause had been incorporated against the states then Professor Cord would be correct in his conclusion that any activity which is religiously identifiable would be barred. See *infra* note 41 for the Court's discussion regarding secular humanism.

<sup>34</sup> In *Barron v. City of Baltimore*, the Court noted:

But it is universally understood, it is a part of the history of the day, that the great revolution which established the Constitution of the United States was not effected without immense opposition. Serious fears were extensively entertained that those powers which the patriot statesmen who then watched over the interests of our country, deemed essential to union, and to the attainment of those invaluable objects for which union was sought, might be exercised in a manner dangerous to liberty. In almost every convention by which the Constitution was adopted, amendments to guard against the abuse of power were recommended. These amendments demanded security against the apprehended encroachments of the general government—not against those of the local governments.

In compliance with a sentiment thus generally expressed, the quiet fears were thus extensively en-

tertained, amendments were proposed by the required majority in congress, and adopted by the States. These amendments contained no expression indicating an intention to apply them to the state governments. This court cannot so apply them. *Barron v. City of Baltimore*, 32 U.S. (7 Pet.) 243, 250, 8 L.Ed. 672 (1883) (emphasis added).

<sup>35</sup> *Justices of the Supreme Court of New York v. United States*, 65 U.S. (9 Wall.) 274, 19 L.Ed. 658 (1870).

<sup>36</sup> In part the seventh amendment provides that "no fact tried by a jury, shall be otherwise reexamined in any Court of the United States, than according to the rules of the common law." U.S. Const. amend. VII.

<sup>37</sup> Abraham Lincoln once said, "'Stand with anybody that stands right, Stand with him while he is right and part with him when he does wrong.'" Jaffa, *In Defense of Political Philosophy*, 34 National Review 36 (1982) (emphasis in original).

<sup>38</sup> While stare decisis has more force in cases which determine the meaning of statutes as opposed to interpreting the Constitution, the Supreme Court has frequently reversed itself where it thinks an earlier decision involving the construction of a statute is in error. In *Monell v. Department of Social Services*, 436 U.S. 658, 98 S.Ct. 2018, 56 L.Ed.2d 611 (1978), the Supreme Court identified four factors which it considers when faced with the question whether to overrule a prior decision which involves a statute. The factors are: 1) whether the decisions in question misconstrued the meaning of the statute as revealed in its legislative history; 2) whether overruling the decisions would be inconsistent with more recent expressions of congressional intent; 3) whether the decisions in question constituted a departure from prior decisions; and 4) whether overruling these decisions would frustrate legislative reliance on their holdings. *Id.* at 695-701, 98 S.Ct. at 2038-2041.

<sup>39</sup> Mr. Justice Stevens recently addressed the problem whether a court should follow authority which it believes to have been incorrectly decided. In a case which involved the construction of a statute, parents of Negro school children sued under the Civil Rights Act of 1866 (now 42 U.S.C. § 1982) for alleged discriminatory admission to private schools, which discrimination was based solely upon race. *Runyon v. McCrary*, 427 U.S. 160, 96 S.Ct. 2586, 49 L.Ed.2d 415 (1976). The statute upon which the suit was based, 42 U.S.C. § 1981, was passed prior to the adoption of the fourteenth amendment. It provides in part that "[a]ll persons within the jurisdiction of the United States shall have the same right in every State . . . to make and enforce contracts . . . as enjoyed by white citizens. . . ." In *Runyon* two children were denied admission to private schools in Virginia solely because they were Negro. The Supreme Court held that section 1981 prohibits private, commercially-operated, nonsectarian schools from denying admission to prospective students solely because of race. Mr. Justice Stevens concurred in the opinion of the Court, but his thoughts on stare decisis are noteworthy.

Mr. Justice Stevens felt compelled to join the opinion of the Court based upon a prior decision of the Court, *Jones v. Alfred H. Mayer Co.*, 392 U.S. 409, 88 S.Ct. 2186, 20 L.Ed.2d 1189 (1968). However, the language of the Civil Rights Act of 1866 and its historical setting left "no doubt in [Mr. Justice Stevens'] mind that the construction of [42 U.S.C. § 1982] would have amazed the legislators who voted for it." *Runyon v. McCrary*, 427 U.S. at 189, 96 S.Ct. at 2603. Given a clean slate Mr. Justice Stevens would have allowed private, commercially-operated, nonsectarian schools the right to deny admission to prospective students solely because of race. He would have reached this result not because he thought that it was socially preferable to the result reached by the Supreme Court, but simply because the intent of Congress and the legislative history surrounding the adoption of 42 U.S.C. § 1981 mandated such a result.

Where Mr. Justice Stevens was unwilling to dissent from his brethren in a case involving statutory construction, this Court feels a stronger tug from the Constitution which it has sworn to support and to defend.

<sup>40</sup> Professor Fairman has summarized concisely in several pages all of the stones and pebbles which could conceivably be relied upon to support the conclusion that the fourteenth amendment intended to incorporate the federal Bill of Rights against the states. See Fairman, *supra* note 25, 134-35.

<sup>41</sup> One of the first of these considerations is whether the teachers and those students who

desire to express the simple prayers have any rights to freedom of speech. Compare what the Court observed in the order which granted the preliminary injunction in the companion case, 82-0792-H, against the state on the first amendment right of students to pray at school, 544 F.Supp. 727 at 732-33. The evidence in the case demonstrates that the school board took no active part in any decision made by the teachers to utilize the simple prayer that they have. The school board nor any of the official body of the school administration encouraged or discouraged these teachers from exercising their own will in the matter. Nor does the evidence indicate that those students who opted for this type of exercise were coerced into participating or not participating.

In dealing with matters religious the exercise of first amendment rights are highly circumscribed. The same does not appear to be true in dealing with first amendment rights in expressing one's opinions in all other matters whether they be expressions of moral concern or immoral concern.

The second major area that this Court must concern itself with should this judgment be reversed is that raised by the evidence produced by the intervenors dealing with other religious teachings now conducted in the public schools to which no attention has apparently been directed and to which objection has been lodged by the intervenors.

There are many religious efforts abounding in this country. Those who came to these shores to establish this present nation were principally governed by the Christian ethic. Other religions followed as the population grew and the ethnic backgrounds were diffused. By and large, however, the Christian ethic is the predominant ethic in this nation today unless it has been supplanted by secular humanism. Delos McKown, witness for the plaintiff, expressed himself as believing that secular humanism has been more predominant through the years than we have imagined and indeed was more akin to the beliefs of George Washington, Thomas Jefferson, Benjamin Franklin, and others of that era. Delos McKown also testified that secular humanism is not a religion, though he ultimately waffled on this point. The reason that this can be important to the decision of this Court is that case law deals generally with removing the teachings of the Christian ethic from the scholastic effort but totally ignores the teaching of the secular humanist ethic. It was pointed out in the testimony that the curriculum in the public schools of Mobile County is rife with efforts at teaching or encouraging secular humanism—all without opposition from any other ethic—to such an extent that it becomes a brainwashing effort. If this Court is compelled to purge "God is great, God is good, we thank Him for our daily food" from the classroom, then this Court must also purge from the classroom those things that serve to teach that salvation is through one's self rather than through a deity. Indeed, the Supreme Court in *Abington School District v. Schempp*, 374 U.S. 203, 225, 83 S.Ct. 1560, 1573, 10 L.Ed.2d 844 (1963) (quoting *Zorach v. Clauson*, 343 U.S. 306, 314, 72 S.Ct. 679, 684, 96 L.Ed. 954) (1952), noted that "the State may not establish a 'religion of secularism' in the sense of affirmatively opposing or showing hostility to a religion, thus preferring those who believe in no religion over those who do believe."

That secular humanism is a religion within the definition of that term which the "high wall" must exclude is supported by the finding in *Torcaso v. Watkins*, 367 U.S. 488, 495 n. 11, 81 S.Ct. 1680, 1684 n. 11, 6 L.Ed.2d 982 (1961), which recognized that secular humanism is a religion in the traditional sense of the word and also in the statement of the 276 intellectuals who advocate the doctrine of secular religion as delineated in the *Humanist Manifesto I and II*. (Defendant-intervenor exhibit # 10).

Textbooks which were admitted into evidence demonstrated many examples in the way this theory of religion is advanced. The intervenors maintain that their children are being so taught and that this Court must preclude the Mobile County School Board from continuing to advance such a religion or in the alternative to allow instruction in the schools that would give a child an opportunity to compare the ethics of each religion so as to make their own credibility or value choices. To this extent, this Court is impressed that the advocacy of the intervenors on the point of necessity makes them parties plaintiff and to this extent they should be realigned as such inasmuch as both object to the teaching of certain religions.

This Court is confronted with these two additional problems that must be resolved if the appellate

courts adhere to their present course of interpreting history as did Mr. Justice Black. Should this happen then this Court will hunker down to the task required by the appellate decisions. A blind adherence to Justice Black's absolutism will result in an engulfing flood of other cases addressed to the same point raised by intervenors. The Court will be called upon to determine whether each book or any statement therein advances secular humanism in a religious sense, a never-ending task. Already the involvement of this Court with determining state activities in such things as prison cases, occupies one-third of its docket. This Court can anticipate no less of a burgeoning docket brought about by this incursion into what is legitimately a state concern.

The founding fathers were far wiser than we. They were content to allow the peoples of the various states to handle these matters as they saw fit and were patient in permitting the processes of change to develop orderly by established procedure. They were not impatient to bring about a change because we think today that it is the proper course or to set about to justify by misinterpretation the original intent of the framers of the Constitution. We must remember that "He, who reigns within Himself, and rules passions, desires, and fears, is more a king" Milton, *Paradise Regained*. If we, who today rule, do not follow the teachings of history then surely the very weight of what we are about will bring down the house upon our head, and the public having rightly lost respect in the integrity of the institution, will ultimately bring about its change or even its demise.

By Mr. SYMMS (for himself and Mr. McCURE):

S. 214. A bill to direct the Federal Energy Regulatory Commission to issue an order with respect to Docket No. EL-85-38-000; to the Committee on Energy and Natural Resources.

#### SWAN FALLS AGREEMENT BILL

● Mr. SYMMS. Mr. President, on behalf of myself and Senator McCURE, I am introducing legislation which directs the Federal Energy Regulatory Commission to issue an order with respect to Docket No. EL-85-38-000. My colleagues may remember this matter as the "Swan Falls Agreement" amendment which passed the Senate and the other body as part of the National Appliance Energy Conservation Act of 1986. Unfortunately, however, the President did not sign that measure for reasons unrelated to the Swan Falls amendment. The President, in fact, indicated his support for the amendment and urged that its purpose be carried out administratively if possible.

While I thank the President for his support and also the cooperation of Chairman Hess at the Federal Energy Regulatory Commission [FERC], I believe a legislative solution provides greater certainty than an administrative one in this instance. The bill I am introducing today will provide that solution and that certainty. It simply directs FERC to issue an appropriate order, within 90 days, which insulates the agreement between the State of Idaho and Idaho Power Co. from two specified causes for challenge. It is identical to the amendment which passed both Houses of Congress last year, and to the legislation being introduced in the other body by Congressmen STALLINGS and CRAIG.

It is my hope that this bill can be acted upon quickly and sent to the

President. It is an important piece of legislation for Idaho, and has the support of the State, its congressional delegation, and the administration.●

By Mr. SASSER:

S. 215. A bill to amend chapter 13 of title 18 of the United States Code; to the Committee on the Judiciary.

#### DESTRUCTION OR THEFT OF PROPERTY USED FOR RELIGIOUS PURPOSES

● Mr. SASSER. Mr. President, I rise today to introduce legislation that would make the willful damaging of a cemetery, a building used for religious purposes, or any religious article contained therein a Federal crime.

There is no right that we Americans cherish more dearly than our right to freedom of religion. The right to freely exercise our religious beliefs is one of the fundamental tenets of our national foundation and this right is explicitly guaranteed in our Constitution.

America has a long and proud history of religious tolerance. However, incidences of violence—vandalism, destruction, and theft—directed against certain religious groups do occur. For example, in 1980, the small gold box containing the remains of St. Herman of Alaska, the only American saint of the Orthodox Church of America, was stolen from St. Tikhon's Orthodox Monastery in South Canaan, PA. The theft of those remains which are so significant to the Orthodox Church in this country constitutes an act of violence against the Orthodox Church.

Reports from New York document the theft of Torahs from synagogues in Brooklyn. Those most sacred scrolls of the Jewish faith are virtually priceless. The production of a Torah requires years of painstaking work. But, more importantly, the theft itself is an act of violence against the Jewish faith. In addition to such thefts are the far too frequent cases of arson and fire bombings or attempted fire bombings of Jewish religious institutions. It is no wonder that many Americans are feeling compelled to spend increasing sums of money on security devices to protect their places of worship.

The Federal Government is charged with the responsibility of protecting the constitutional right of all Americans to freely exercise their religion, and yet the Federal Government lacks adequate power to investigate these and other incidences of violence against religious institutions.

Mr. President, this is a matter of concern to all Americans. No religious institution is safe if all religious institutions are not fully protected and the rights of all Americans to practice their religion freely is threatened if any American's right is so threatened. Who can forget the violence against religious minorities in Germany which preceded the wave of violence against

Jews, Catholics, and Protestants during World War II? We must take every measure to insure that all Americans can worship freely and without fear of violations of the sanctity of their religious institutions.

The bill I am introducing today would help the Federal Government to meet its responsibility of guaranteeing this basic freedom by adding a new section to title 18 of the United States Code. That section would make it a Federal crime for any person to willfully damage a cemetery, a building used for religious purposes or religious articles contained in those places. It would also make the attempt to commit such destruction a crime punishable by Federal law. The penalties are graded on the basis of the seriousness of such offenses. First, there is a general penalty of \$10,000 and/or 5 years imprisonment. Second, \$15,000 in fines and/or 15 years imprisonment where bodily injury results. Finally, a maximum of life imprisonment is to be imposed where death results.

Mr. President, this is a strong bill with stiff penalties aimed at curbing these heinous crimes. The time has come to put those who would destroy or dishonor sacred places on notice that they will be subject to justice by the Government of the United States.

Mr. President, I ask unanimous consent that the text of S. 215 be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 215

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That chapter 13 of title 18 of the United States Code is amended by adding at the end the following new section:

"§ 247. Destruction or theft of property used for religious purposes

"Whoever, whether or not acting under the color of law, with the intent to injure, intimidate, or interfere with any person or any class of persons in the free exercise of religion secured by the Constitution or laws of the United States, or because of having so exercised the same, willfully vandalizes, sets fire to, tampers with, or in any other way damages or destroys any cemetery, any building or other real property used for religious purposes, or any religious article contained therein, or takes and carries away, with intent to steal, any religious article contained in any cemetery, or any building or other real property used for religious purposes, or attempts to do any of the same, shall be fined not more than \$10,000, or imprisoned not more than five years, or both; and if bodily injury results shall be fined not more than \$15,000, or imprisoned not more than fifteen years, or both; and if death results, shall be subject to imprisonment for any term of years or for life."

Sec. 2. The table of sections for chapter 13 of title 18 of the United States Code is amended by adding at the end the following new item:

"247. Destruction or theft of property used for religious purposes".

By Mr. PRESSLER:

S. 217. A bill to reform the tort law doctrine of joint and several liability; to the Committee on the Judiciary.

#### JOINT AND SEVERAL LIABILITY TORT REFORM

● Mr. PRESSLER. Mr. President, I rise today to introduce legislation which I believe is essential to any tort reform effort. My bill focuses on an issue I have been involved in for many years—joint and several liability reform.

Tort reform is one of the most important consumer issues of this decade. The present law in this area has led to increased product, service, and insurance costs, and has substantially hampered innovation in the United States. Current joint and several liability laws around the United States have been chief among the culprits in causing our current liability crisis. No country in the world is subjected to this confused state of affairs, and it has put us at a substantial competitive disadvantage in the area of world trade. Prompt, effective reform is essential.

We have been struggling for years in an attempt to devise a formula which is strong enough to provide meaningful relief to American consumers, yet sensitive enough to protect plaintiffs' rights. Much work remains, but this legislation is a step in the right direction.

Throughout the Commerce Committee debates on product liability reform during the last Congress, I placed special emphasis on the problem relating to joint and several liability.

Joint and several liability works to hold one person responsible for the conduct of another. It leads to substantial injustice to largely innocent defendants, consumers, and taxpayers. It works to increase the costs of products and services, and puts substantial pressure on local governments to either increase taxes or eliminate public facilities and services. It fails to punish the true wrongdoers. And it creates a great deal of uncertainty in assessing tort liability.

As presently applied in many States, the doctrine of joint and several liability has gone far beyond its original common law purpose. Originally, the doctrine was applied when two or more defendants had conspired together in a manner that resulted in an injury to the plaintiff. They were, in effect, equally at fault and equally to blame for the harm inflicted. There was no practical way to allocate the relative fault of each party's actions. The doctrine was later expanded to hold responsible all parties involved in causing the harm, regardless of whether they acted "in concert" or independently of each other.

This expansion seems to be the result of the old common law courts' reluctance to allocate fault. A party was responsible either for all the harm

inflicted—regardless if there was 1 or 20 actors—or none of it. In order to avoid the admittedly unfair result of this all-or-nothing rule, the courts allowed the injured plaintiff to collect from anyone who could pay. Logically, the plaintiffs would always go to the defendant with the deepest pocket.

But today the notion that courts are unable to allocate fault is universally rejected. Courts in virtually every State apportion fault in some manner. Although we have the ability to determine and apportion the relative degree of fault, we continue to apply this artificial doctrine of joint and several liability. A party who is determined only 1 percent at fault can be and often is held liable for 100 percent of the damage award. Under the present system, the parties causing the harm get off scot-free. We no longer punish the wrongdoers. We punish parties for having the deepest pockets.

Although most people would agree that this makes little logical sense, I am afraid that in the past many of them thought this was not such a bad system because it affected only the rich corporations. Unfortunately, that is not what happens. Let me explain the real effects of the current joint and several liability doctrine:

First, it is not only the big corporations that pay the bill. Cities, counties, States and other local governments are becoming the most popular candidates for joining into a lawsuit. Small businesses that are responsible enough to carry insurance are equally threatened. It is the average citizen who ultimately pays the claim, either through increased taxes, loss of service, higher product prices, increased insurance premiums, community business failures, or in some other way. The point is, as any economist will tell you, that the "big corporation" theory rarely reflects the real world.

Second, the current system discourages safety. Not only does it allow the real culprits to escape liability, it encourages them to act irresponsibly. Why buy insurance? Why worry about delivering a safe product? Just set up a fly-by-night operation or create a phony corporate subsidiary; make all the money you can until somebody sues; pass the buck or declare bankruptcy; and start all over again, making the same unsafe product and endangering the same innocent people.

Third, the present joint and several liability doctrine has been identified as one of the leading causes of skyrocketing insurance premiums—not only in the context of product liability but across the board. This is why companies and cities with even the most glowing safety records must pay insurance rates as though they were "high-risk" customers. They not only have to insure against their own actions, but

those of everyone with whom they come in contact or who happen to cross their border.

Fourth, those who, for all practical purposes, the ordinary person would consider free of any true fault are being sued for the sole reason that they have money—or more accurately, because they have access to money or the ability to extract it from others. Cities are being sued in automobile accidents because their street lights are not bright enough. Balloon manufacturers are being sued because they did not prevent a pilot from flying into a telephone line on a windy day years after he had purchased the aircraft. Motorcycle seat manufacturers are being sued because they did not manufacture a seat that would make the passenger stick to it when the motorcycle collided with a car. And the list goes on and on. No reasonable person would call this justice.

I could go on and on with a litany of the problems associated with this doctrine. But I think the point has been made. The innocent are being punished while the wrongdoers are rewarded. Safety incentives are being tossed out the window. The lawyers are getting rich, and the man on the street is paying the tab.

But I am encouraged by the fact that more and more people are catching on to the game. They understand what is happening and they do not like it. They are demanding change and this is one area in particular that they have stressed. I held two hearings last year in South Dakota on the issue of liability insurance. The need to change the inequities and injustices resulting from the present application—or perversion if you will—of the doctrine of joint and several liability was the one reform most often and most emphatically urged. This call was not coming from the captains of industry or the deep-pocket corporations some would like to have us believe. It was coming from the small businessmen, the county and city officials, and the ordinary citizen who a few years ago had never heard of the doctrine.

But with all of its inadequacies today, it is clear that the original intent and application of the doctrine was just. It would be a serious blunder to return to the days when a plaintiff was denied deserving relief simply because he or she could not identify which of the negligent actors committed the wrong or that any one party was responsible for the harm inflicted. Under the widely accepted doctrine of comparative negligence, that result is not necessary today and it would not be the result under my bill.

The legislation I am proposing eliminates the joint and several liability doctrine as applied today but continues to hold all parties severally liable to the full extent of their own actions.

In effect, parties continue to be fully liable for all their actions.

The only thing it changes is that parties would no longer be liable for what the court determines is the fault of others. If the court finds a party's actions to cause 10 percent of the harm, that party is liable for 10 percent of the damages awarded. If it causes 100 percent of the harm, it is liable for 100 percent of the damages. It is that simple.

I do not mean to imply this legislation is inconsequential. I am well aware of the significance and magnitude of the impact this change would have on present case law. Indeed, I would be disappointed if it did not have a major impact on the mess created under the present system.

There remains one very important question which needs to be addressed. What happens to the plaintiff when the party who is largely at fault has no means to pay and does not carry adequate insurance coverage? It is very true that under my bill not all plaintiffs would be compensated to the extent they are today in some cases. The answer, to be very blunt about it, is that they will not always be fully compensated when the party at fault cannot pay. The sad fact of life is that there will always be those kinds of cases. But to use the present joint and several liability doctrine in an attempt to compensate the plaintiff makes little more sense than to send the witness of a robbery to jail because we cannot find the robber.

I realize there are those who would say that there should be social policy that allows the injured party to be compensated to the full extent of his or her injury. I am not here to argue against that today. But what I would argue is that if we do make such a policy decision, we should also accept the responsibility to compensate the injured party rather than artificially passing it along to a substantially innocent third party. To say that because someone was 1-percent responsible for the harm justifies holding that party 100-percent responsible for the damages ducks the issue, particularly in the context of civil cases.

We have got to return some sense of responsibility to the system. I think we all realize our tort system has gotten out of hand. We need to address it in a thorough manner.

During last year's Commerce Committee proceedings, we made substantial progress in reforming this inequitable doctrine. Let me explain a little of the background on that issue, and outline my intentions. The committee adopted a joint and several liability amendments which essentially abrogated joint and several liability with two important qualifications: The reform was limited to (1) noneconomic damages, and (2) it applies only in cases involving a product liability

action. This was a political compromise. But as a practical matter, it has not gone far enough. I am introducing a bill today which would extend the reform to all damages—economic and noneconomic—and it would apply to all cases involving a claim of personal injury, property damages, and wrongful death.

Let me say that although I am introducing this bill today, I remain open to further suggestions and refinement. I am not inextricably wed to this approach. I know there are strong feelings on the part of some that we should not venture beyond the realm of product liability actions in Federal tort reform proposals. Additionally, there may be some who do not want to extend the reform beyond the noneconomic damages compromise. I am sensitive to both of those concerns and continue to welcome suggestions in those and other areas.

Mr. President, I ask unanimous consent that that full text of my bill be reproduced in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 217

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Joint and Several Liability Reform Act of 1987".*

#### SEVERAL LIABILITY FOR DAMAGES

SEC. 2. (a)(1) Except as provided in paragraph (2) of this subsection, in any civil action alleging injury to a person, damage to property, or death of a person, the liability of each defendant for damages shall be several only and shall not be joint. Each defendant shall be liable only for the amount of damages allocated to such defendant in direct proportion to such defendant's percentage of responsibility as determined under subsection (b) of this section. A separate judgment shall be rendered against such defendant for that amount.

(2) In any case where the parties are found to have engaged in concerted action, the liability of each defendant shall be joint and several.

(b) For purposes of this section, the trier of fact shall determine the proportion of responsibility of each party for the claimant's harm.

(c)(1) If a claimant has released any defendant or potential defendant from liability for the claimant's harm, or if a defendant is unable (despite exercising all practicable means) to join any other person as a defendant in such action, the trier of fact shall, in determining the proportion of responsibility under subsection (b) of this section, consider the liability of any person not a party to the action if the defendant is able to prove that any such person caused the claimant's harm.

(2) If a claimant has released any defendant or potential defendant from liability for the claimant's harm, the total amount of responsibility for the claimant's harm shall be reduced by the proportion of responsibility of any such released defendant or potential defendant.

(d) As used in this section, the term "concerted action" means any action consciously and intentionally taken by two or more defendants which resulted in the harm alleged in such civil action. It does not mean consciously parallel action.●

By Mr. HEINZ:

S. 218. A bill to amend the Federal Financing Bank Act of 1973 to establish a Federal Credit Program Revolving Fund under the direction of the Secretary of the Treasury with overall authority for Federal credit activity, including borrowing and credit management; to the Committee on Banking, Housing, and Urban Affairs.

#### FEDERAL FINANCING BANK ACT

● Mr. HEINZ. Mr. President, today I am reintroducing legislation I proposed in the last Congress to correct deficiencies in Federal credit management that originate, in part, in the budget accounting for credit programs. As we all know, current budget accounting distorts the cost of credit to the Government by scoring direct loans the same as direct spending programs that yield no reflows and treating guarantees as free goods until defaults occur. The confusion of revolving funds and Government corporations that are used to manage Federal credit both mask its cost and often remove programs from the discipline of the annual budget process. With federally assisted lending accounting for one-seventh of all lending in U.S. credit markets last year, it is imperative that these problems be resolved.

I believe that the only way to correct these problems and distortions is through fundamental and comprehensive reform of the mechanisms by which the Federal Government accounts for and manages credit. My efforts to rationalize the budget treatment of the Export-Import Bank in the charter extension passed last Congress convinced me that, while there is significant interest in credit reform, it can only work if implemented for all credit programs. This bill, identical to the language of S. 2428, the Federal Credit Program Revolving Fund Act, would implement such a reform.

I am pleased to note that the Administration has embraced this concept in the 1988 budget. In his budget statement, the President highlights the "grave inefficiencies in our credit programs" and calls upon Congress "to enact legislation whereby the true cost to the economy of Federal credit programs would be counted in the budget." I believe that passage of the legislation I am introducing would both remove existing distortions in Federal credit decisions and improve the management of Federal credit programs.

My bill amends the Federal Financing Bank Act to establish a central loan fund within the Treasury Department to fund all Federal credit programs. This fund will serve as Federal

credit manager, accepting subsidy payments and fees from agencies and raising funds for loan disbursements and claim payments under their programs. As an arm of the Treasury, the fund will have access to efficient Treasury borrowing and will be able to tap, and further develop, the agency's expertise about the credit markets. This type of expertise will be essential to the fund's ability both to assess accurately the subsidy costs agencies must pay for the fund's services and to sell or reinsure agency loans and guarantees in the market where this is deemed appropriate.

In addition to its role in managing financial aspects of Federal credit, the fund will be responsible for improved data collection on Federal credit, more effective debt collection efforts, and otherwise implementing improvements in Federal credit management practices as appropriate.

Each credit program would continue to service its loans or guarantees and to set credit program policies and eligibility guidelines according to its respective legislative mandate. The level of credit activity which could be undertaken by any program would be as provided in annual appropriations. Each program would seek budget authority to cover the subsidy cost of its planned level of credit activity, as well as a credit limitation on the total amount of new loan, guarantee or insurance activity to be undertaken for the fiscal year. The subsidy appropriation would be paid to the central loan fund as loan disbursements were made or guarantees issued, in return for the fund taking on the credit obligation. All disbursements, claims, repayments, assets, and liabilities arising from the credit activity would be the responsibility of the fund. New credit activity could be undertaken by an agency only to the extent possible within the smaller of the limits set by the subsidy appropriation or the credit limitation provided by the Congress.

Through this mechanism, the full economic cost—the subsidy—of credit programs would be considered by the Congress when deciding on new credit activity levels. Congress would also be able to compare accurately the economic cost of spending and credit programs, permitting informed and accurate tradeoffs between these two types of government activity.

Furthermore, making subsidy payments up front would ensure full advance funding of the credit programs, including provision for adequate reserves to cover loan or guarantee defaults without further recourse to appropriations. This pay-as-you-go approach for credit programs would ensure that Congress and the taxpayers are fully aware of the cost of Federal credit, with no costs hidden from view.

Principles for the operation of the central loan fund would be established so as to avoid abuses such as occurred with the original Federal Financing Bank. First, the fund would be counted within the budget totals. Second, payment of the appropriate subsidy would have to be made to the fund up front. Third, subsidy calculations would be updated regularly and, where appropriate, set through market loan sales or reinsurance so that underpricing to hide costs would be extremely unlikely. Overall, these principles would ensure that the fund could impose no additional cost on U.S. taxpayers as a result of its operations that were not already reflected in appropriated subsidies for individual credit programs.

I believe that this plan represents the type of workable, sensible credit reform that is long overdue. It would make sense under any circumstances, but is especially critical at a time when we must make major reductions in Federal programs to meet budget deficit targets. We cannot permit programs to enjoy an advantage or suffer a disadvantage in the budget wars simply on the basis that their costs are hidden or they are inaccurately priced. A dollar cut from a loan program appears to save as much as a grant dollar cut, but it really saves only a fraction of a dollar net of fees and repayments. This overstatement of cost creates a bias against credit that could result in reductions in vital Federal activity in return for illusory budget savings.

We must have effective control of Federal credit. We must also ensure that our efforts to exercise control over Federal spending results in sensible budget choices and the intended deficit reductions. My bill would achieve these objectives. Now that the President has embraced the objectives of my proposed legislation in his 1988 budget, I look forward to the support of the administration for my bill and to working with them to win the support of the Congress as well.

One area where caution must be exercised is asset sales. The administration appears enthusiastic about asset sales as a credit management and budget reduction technique, and the Congress has now embraced the concept as well. My bill recognizes that some asset sales and reinsurance of guarantees may be appropriate, in particular to establish subsidy levels. However, the administration notes that there may be "policy or programmatic constraints to asset sales" that may make them impossible and we all recognize the danger of a "fire sale" or Federal assets at deep discounts that would create unnecessary losses to the taxpayer. Great care must be exercised to ensure that meaningful reform is implemented that does not mask budget gimmickry to artificially

reduce deficits or waste taxpayer dollars.

I believe that we can achieve such a reform through passage of my bill during the 100th Congress. I urge your support for this legislation. ●

By Mr. SASSER:

S. 219. A bill to amend the Trade Act of 1974 to reform the procedures for relief from injury caused by import competition and unfair trade practices; to the Committee on Finance.

#### TRADE PROCEDURES REFORM ACT

● Mr. SASSER. Mr. President, today I am introducing legislation to streamline our trade relief procedures. This legislation is part of an overall effort to restore America's position in world markets.

This year we are facing a trade deficit of \$170 million—up from a record \$148 million last year. Many of our most basic industries are under siege from foreign competition. Whole communities are being rocketed as plants close or lay off large numbers of workers. If left unabated, this trend threatens to undermine our industrial base and our future economic stability.

We must attack our trade deficit on several fronts. We must pursue both short- and long-term solutions to the trade deficit. In the short term, we must recognize that certain industries need relief in order to become competitive. In the long term we must act in several areas. We must reduce the budget deficit and reduce interest rates. We must amend laws which inhibit exports. We must improve our standing in the world marketplace through enhanced scientific and technical research and education.

However, first things first. The bill I am introducing today is designed to make our trade laws effective and usable. We need to redefine subsidies for the purpose of trade actions. Many current practices simply aren't included in current law. We need to limit import surges by importers just before duties are assessed in subsidy or dumping cases.

We also need to improve the procedures for deciding section 201 cases. Specifically, we need to look at adjustments to the injury causation standard and limiting Presidential alternatives to granting relief. Current options, such as unfair trade filings and multinational negotiations, leave the President too much room to do nothing—no matter how flagrant the trade violation.

The plain fact is that right now our trade laws are not working. You can prove your case at each step of the way. You can even convince the International Trade Commission to recommend relief. But still the administration won't act. Even when you win, you can't win.

We have seen trade agreements that are ignored—or the quotas simply

given away in trade negotiations. We have seen airtight dumping and market disruption cases stymied because the Government finds one pretext or another not to act.

When Congress wrote the current trade laws it intended they be used. We did not intend them as a rhetorical statement whose practical application was to be avoided at all costs. But that's what's happening.

Some economists have estimated that over the past several years, because of the trade deficit, perhaps 2 to 3 million American jobs have been exported overseas.

For those of us who are elected officials, however, these figures are more than mere statistics. They represent real people and real jobs. The closing of a factory can be devastating to a local community. Many such facilities are located in rural areas. They are often the major employer in the area—areas which have few alternative employment opportunities.

As I travel around Tennessee, I continually see the effects of imports on our citizens. I talk to individuals who have lost their jobs in the communities where they have lived and worked for years. So, for me, the import issue is a very personal one.

There is a flip side to imports, of course, and that is exports. I am convinced that the engine for U.S. economic growth in the future is going to be the export market. For that reason, I have joined with my colleagues in establishing the congressional competitiveness caucus. The caucus will provide a framework to develop bipartisan legislation that will address competitiveness problems. We simply must find ways to get more U.S. goods into the world marketplace.

Many markets for goods and services are already global in scope and more are becoming so every day. Competition is no longer limited to companies within a given domestic market. Participants from every corner of the world now jockey for position in virtually all markets.

Evidence of that new fact of economic life is a more than twelvefold increase in world trade in the past 20 years. Moreover, nearly half of all trade flows are now accounted for by internal transfers of multinational corporations. It is a fact that markets, production, and innovation are interconnected by worldwide transactions.

We must do more to create the kind of environment that will encourage U.S. competitiveness in this global marketplace. It is not a simplistic matter of unleashing our corporate and technological genius on the world. As a member of the International Finance and Monetary Policy Subcommittee of the Banking Committee, I have heard chapter and verse about the competitive environment facing U.S. companies. And while I believe we

need to continue our support for such measures as the Export-Import Bank to counter foreign-government export subsidies, I realize that is not enough.

We must strengthen our national competitive performance in the creation, application and, protection of technology. We must increase the cooperation among companies, governments, and universities. We must train our young people to function in a global economy.

So, Mr. President, the legislation I am introducing today to streamline trade relief procedures is a first step in developing a coherent trade policy. I am confident that that the 100th Congress will move swiftly on trade legislation and I welcome this much needed debate.

I ask unanimous consent that the text of my bill be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 219

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Trade Procedures Reform Act of 1987".

#### TITLE I—RELIEF FROM INJURY CAUSED BY IMPORT COMPETITION

##### SEC. 101. INVESTIGATIONS UNDER SECTION 201 OF TRADE ACT OF 1974.

Subsection (b) of section 201 of the Trade Act of 1974 (19 U.S.C. 2251(b)) is amended—

(1) by inserting "domestic production facilities" after "operate" in paragraph (2)(A);

(2) by striking out subparagraph (B) of paragraph (2) and inserting in lieu thereof the following:

"(B) with respect to the threat of serious injury—

"(i) a decline in sales or market share in the domestic industry concerned;

"(ii) a higher and growing inventory in the domestic industry concerned (whether maintained by domestic producers, wholesalers, or retailers);

"(iii) a downward trend in production, profits, wages, or employment (or increasing underemployment) in the domestic industry concerned;

"(iv) any combination of coordinated foreign government actions, whether carried out severally or jointly, that—

"(I) are bestowed on a specific enterprise, industry, or group thereof the effect of which is to assist the beneficiary to become more competitive in the export of any class or kind of merchandise, and

"(II) causes, or threatens to cause, serious injury to the domestic industry concerned;

"(v) the existence of preliminary or final affirmative antidumping or countervailing duty determinations under section 303 or title VII of the Tariff Act of 1930 with respect to any merchandise that is produced by the domestic industry concerned;

"(vi) the extent to which firms in the domestic industry concerned are unable to maintain existing levels of expenditures on research and development; and

"(vii) the extent to which the United States market is the focal point for diversion of exports of the article that is the sub-

ject of the investigation by reason of restraints on exports of such article to, or on imports of such article into, the markets of any foreign country;"

(3) by striking out "may" in paragraph (3)(A) and inserting in lieu thereof "shall"; and

(4) by adding at the end thereof the following new paragraph:

"(8) For purposes of this section, imports of like or directly competitive articles by domestic producers in an industry shall not be considered a factor indicating the absence of serious injury, or threat thereof, to such industry."

#### SEC. 102. ACCELERATED PROCEDURES FOR PERISHABLE PRODUCTS.

Section 201 of the Trade Act of 1974 (19 U.S.C. 2251) is amended by striking out subsection (f) and inserting in lieu thereof the following new subsection:

"(f)(1) If a petition is filed with the Commission under subsection (a) regarding a perishable product and alleges injury from imports of that product, the petition may also be filed with the Secretary of Agriculture with a request that emergency relief be granted under paragraph (3) with respect to such article.

"(2) Within 14 days after the filing of a petition with the Secretary of Agriculture under paragraph (1)—

"(A) if the Secretary of Agriculture has reason to believe that—

"(i) a perishable product is being imported into the United States in such increased quantities as to be a substantial cause of serious injury, or threat thereof, to the domestic industry producing a perishable product like or directly competitive with the imported product, and

"(ii) emergency action is warranted, the Secretary of Agriculture shall advise the President and recommend that the President take emergency action, or

"(B) the Secretary of Agriculture shall publish a notice of his determination not to recommend the imposition of emergency action and advise the petitioner.

"(3) Within 7 days after the President receives a recommendation submitted by the Secretary of Agriculture under paragraph (2) to take emergency action, the President shall—

"(A) issue a proclamation that—

"(i) proclaims an increase in, or imposition of, any duty on the article causing serious injury, or threat of serious injury, to such industry,

"(ii) proclaims a tariff-rate quota on such article,

"(iii) proclaims a modification of, or imposition of, any quantitative restriction on the imports into the United States of such article, or

"(iv) takes any combination of the actions described in clauses (i), (ii), or (iii), or

"(B) publish a notice of his determination not to take emergency action.

"(4) Any emergency relief proclaimed under paragraph (3) shall cease to apply—

"(A) upon the proclamation of import relief under section 203(a);

"(B) on the day on which the President makes a determination under section 202(b)(1) not to impose import relief;

"(C) in the event of a report of the Commission containing a negative finding under subsection (b), on the day the Commission's report is submitted to the President; or

"(D) whenever the President determines that, because of changed circumstances, such relief is no longer warranted.

#### SEC. 103. PRESIDENT REQUIRED TO IMPLEMENT RECOMMENDED RELIEF.

(a) IN GENERAL.—Subsection (c) of section 203 of the Trade Act of 1974 (19 U.S.C. 2253(c)) is amended to read as follows:

"(c)(1)(A) If the President determines under section 202(b)—

"(i) to provide import relief which is not the import relief found to be necessary by the Commission under section 201(d)(1)(A), or

"(ii) not to provide any import relief,

the President shall submit to the Congress on the same day the document required under paragraph (1) or (2) of subsection (b) is submitted a draft of a bill described in subparagraph (B).

"(B) Any bill submitted by the President under subparagraph (A) shall—

"(i) contain—

"(I) a provision waiving the application of paragraph (2) with respect to the findings of the Commission contained in a specific report submitted under section 201(d)(1), and

"(II) provisions implementing the import relief, if any, that the President has determined under section 202(b) to take with respect to such report.

"(ii) be introduced by the majority leader of each House of the Congress (by request) on the first day on which such House is in session after the date such draft is submitted to the Congress, and

"(iii) be treated as an implementing bill for purposes of subsections (d), (e), (f), and (g) of section 151.

"(2) If the President determines under section 202(b)—

"(A) to provide import relief which is not the import relief found by the Commission under section 201(d)(1)(A) to be necessary to prevent or remedy the injury caused by imports, or

"(B) not to provide any import relief, the President shall, on the date that is 90 days after the date on which a draft bill is required to be submitted to the Congress under paragraph (1), proclaim the increase in, or imposition of, any duty or other import restriction on the imported article which was found to be necessary by the Commission under section 201(d)(1)(A)."

(b) ELIMINATION OF PRESIDENTIAL DISCRETION TO TERMINATE.—Subsection (h) of section 203 of the Trade Act of 1974 (19 U.S.C. 2253(h)) is amended—

(1) by striking out paragraph (4), and

(2) by redesignating paragraph (5) as paragraph (4).

#### TITLE II—ELIMINATION OF UNFAIR TRADE PRACTICES

##### SEC. 201. MISCELLANEOUS AMENDMENTS TO SECTION 301 OF THE TRADE ACT OF 1974.

(a) BURDEN ON COMMERCE.—Section 301 of the Trade Act of 1974 (19 U.S.C. 2411) is amended—

(1) by inserting "(or threatens to burden or restrict)" after "restricts" in subsection (a)(1)(B)(ii),

(2) by striking out "or instrumentality" each place it appears, and

(3) by striking out "purpose of this section" in subsection (e) and inserting in lieu thereof "purpose of this chapter".

(4) by adding at the end of subsection (e) the following new paragraphs:

"(7) BURDEN ON UNITED STATES COMMERCE.—Acts, policies, and practices of a foreign country which burden United States commerce include, but are not limited to—

"(A) acts, policies, and practices which have an adverse effect on trade between the United States and another foreign country,

"(B) the subsidization of exports of such foreign country that results in the displacement of United States exports to another foreign country,

"(C) the imposition of import restrictions or export performance requirements that result in the diversion of the exports of another foreign country to United States markets, and

"(D) the enforcement of trade restraining agreements that result in the diversion of the exports of another foreign country to United States markets.

"(8) FOREIGN COUNTRY.—Any foreign instrumentality, or any territory or possession of a foreign country, that is administered separately for customs purposes shall be treated as a separate foreign country.

(b) NEGOTIATED SETTLEMENTS; DENIALS OF GENERALIZED SYSTEM OF PREFERENCES.—Subsection (b) of section 301 of the Trade Act of 1974 (19 U.S.C. 2411(b)) is amended—

(1) by striking out the period at the end of paragraph (2) and inserting in lieu thereof "; or", and

(2) by adding at the end thereof the following new paragraphs:

"(3) enter into binding agreements with such foreign country that fully offset or eliminate any burden or restriction on United States commerce resulting from the acts, policies, or practices of such foreign country described in subsection (a)(1)(B); or

"(4) withdraw, or refrain from proclaiming under title V—

"(A) the designation of such foreign country as a beneficiary developing country, or

"(B) the designation of any product of such foreign country as an eligible article."

(c) UNREASONABLE PRACTICES.—Paragraph (3) of section 301(e) of the Trade Act of 1974 (19 U.S.C. 2411(e)(3)) is amended—

(1) by inserting "(or any combination thereof)" after "or practice" in the second sentence, and

(2) by inserting "(including protection of any industry in its formative stages)" after "opportunities" in subparagraph (A).

##### SEC. 202. ACTIONS IN RESPONSE TO INVESTIGATIONS UNDER TITLE III OF THE TRADE ACT OF 1974.

(a) IN GENERAL.—Section 304 of the Trade Act of 1974 (19 U.S.C. 2414) is amended to read as follows:

"SEC. 304. ACTIONS IN RESPONSE TO INVESTIGATIONS.

"(a) DETERMINATION OF UNFAIR PRACTICES.—

"(1) IN GENERAL.—By no later than 90 days after the date on which an investigation is initiated under section 302, the Trade Representative shall determine on the basis of such investigation whether—

"(A) the United States is being denied any rights to which the United States is entitled under any trade agreement, or

"(B) any act, policy, or practice of a foreign country is described in section 301(a)(1)(B).

"(2) NOTICE OF DETERMINATIONS.—By no later than 90 days after the date on which an investigation is initiated under section 302, the Trade Representative shall submit to the President and publish in the Federal Register—

"(A) the determination made under paragraph (1) with respect to such investigation, and

"(B) if such determination is affirmative, a list of foreign goods and services (and their aggregate value) that could be subject to actions under subsection (b) or (c) of section 301 to enforce the rights and to offset

or eliminate the acts, policies, and practices which were the subject of such affirmative determination.

**"(b) ACTION REQUIRED TO BE TAKEN.—"**

**"(1) IN GENERAL.**—Except as otherwise provided in this subsection, the President shall, by no later than the date that is 15 months after the date any investigation is initiated under section 302, take whatever actions under subsections (b) and (c) of section 301 that are necessary to—

**"(A)** enforce all rights, and

**"(B)** offset or eliminate all acts, policies, and practices,

which were the subject of an affirmative determination made under subsection (a)(1) with respect to such investigation.

**"(2) DELAY IN TAKING ACTIONS.**—The President may delay taking action under paragraph (1) for a period not to exceed 90 days if—

**"(A)** either—

**"(i)** in the case of an investigation initiated under section 302(b), the petitioner requests such delay, or

**"(ii)** in the case of an investigation initiated under section 302(c), such delay is requested by the domestic industry that would benefit from enforcement of the rights, or elimination of the acts, policies, and practices, that were the subject of the affirmative determination under subsection (a)(1), and

**"(B)** such request is based on a determination made by the person making such request that adequate progress is being made to enforce such rights or to eliminate or reduce such acts, policies, and practices.

**"(3) EXCEPTIONS.**—The President shall not be required to take action under subsection (b) or (c) of section 301 by reason of paragraph (1)—

**"(A)** after the affirmative determination has been made under subsection (a)(1), the President subsequently determines such affirmative determination was incorrect or is no longer valid, or

**"(B)** an agreement is entered into with the foreign country involved and—

**"(i)** representatives of the domestic industry described in paragraph (2)(A)(ii) and the petitioner, if any, agree that such agreement adequately offsets or eliminates the acts, policies, and practices and enforces the rights which were the subject of such affirmative determination, or

**"(ii)** the President and either—

**"(I)** the representatives of such industry, or

**"(II)** the petitioner,

agree that such agreement adequately offsets or eliminates the acts, policies, and practices and enforces the rights which were the subject of such affirmative determination.

**"(4) CONSIDERATION OF GATT DETERMINATIONS.**—If any determination made by the Contracting Parties under the dispute settlement procedures of the General Agreement on Tariffs and Trade conflicts with, or differs from, a determination made by the Trade Representative under subsection (a)(1), the Trade Representative shall review the determination made under subsection (a)(1) for purposes of advising the President with regard to a determination under paragraph (3)(A).

**"(c) REVIEW OF NECESSITY.—"**

**"(1) IN GENERAL.**—If—

**"(A)** a particular action has been taken under subsection (b) or (c) of section 301 by reason of subsection (b)(1) continuously during any 7-year period, and

**"(B)** neither the petitioner nor any representative of the domestic industry described in subsection (b)(2)(A)(ii) has submitted to the Trade Representative during the last 60 days of such 7-year period a written request for the continuation of such action, such action shall terminate at the close of such 7-year period.

**"(2) NOTICE OF POTENTIAL TERMINATION.**—The Trade Representative shall notify by mail the petitioner and representatives of the domestic industry described in subsection (b)(3)(B) of any termination of action by reason of paragraph (1) at least 60 days before the date of such termination.

**"(3) FORMAL REVIEW.**—If a request is submitted under paragraph (1)(B) to continue taking a particular action under subsection (b) or (c) of section 301, the Trade Representative shall conduct a review of—

**"(A)** the effectiveness of—

**"(i)** such action, and

**"(ii)** other actions that could be taken (including actions against other products or services),

in achieving the objectives described in subsection (b)(1), and

**"(B)** the effects of such actions on the United States economy, including consumers.

The Trade Representative shall submit a report on such review to the President and to the Congress and shall include in such report any modifications the Trade Representative suggests in the actions taken under subsections (b) and (c) of section 301 as a result of such review."

**(b) CONFORMING AMENDMENTS.—**

(1) The table of contents for the Trade Act of 1974 is amended by striking out the item relating to section 304 and inserting in lieu thereof the following:

"Sec. 304. Actions in response to investigations."

(2) Subsection (b) of section 301 of the Trade Act of 1974 (19 U.S.C. 2411(b)) is amended—

(A) by inserting ", or upon the application of section 304(b)(1)" after "subsection (a)", and

(B) by striking out "in such subsection" and inserting in lieu thereof "in subsection (a)".

**SEC. 203. COMPENSATION AUTHORITY.**

Section 123 of the Trade Act of 1974 (19 U.S.C. 2133) is amended—

(1) by striking out "section 203" and inserting in lieu thereof "chapter 1 of title II or chapter 1 of title III", and

(2) by adding at the end thereof the following new subsection:

"(e) The provisions of this section shall apply by reason of action taken under chapter 1 of title III only if the President determines that action authorized under this section is necessary to meet the international obligations of the United States."

By Mr. SYMMS (for himself, Mr. NICKLES and Mr. McCLURE):

S. 220. A bill to require the voice and vote of the United States in opposition to assistance by international financial institutions for the production of commodities or minerals in surplus, and for other purposes; to the Committee on Foreign Relations.

**THE FOREIGN AGRICULTURAL INVESTMENT REFORM ACT**

Mr. SYMMS. Mr. President, today I am introducing in behalf of myself, my colleague from Oklahoma, Mr. NICK-

LES, and the other Senator from Idaho, Mr. McCLURE, a bill entitled the "Foreign Agricultural Investment Reform Act," commonly known as the FAIR bill.

This legislation addresses counterproductive and destructive use of American tax dollars by international financial institutions such as the World Bank, the International Monetary Fund, et cetera. Let me give you an example of what I mean.

The Asian Development Bank recently proposed a \$35 million loan to Burma for the production of edible oil from groundnuts. That oil is expected to be sold for \$1.80 per kilogram. Because soybean and palm oils are in huge oversupply on world markets, selling near 65 cents per kilogram, strong tariffs and import controls will be needed in order to get the Burmese to buy the groundnut oil. The project will be carried out under the direction of the Socialist Program Party in Burma. The result of this loan will be loss of United States soybean oil exports, creation of a Socialist industry with no hope of profitability in the free market, and all at the expense of American taxpayers and Burmese consumers who must pay triple the world price for edible oil.

These loans do not "develop" underdeveloped countries. Hearings of the Joint Economic Committee on the FAIR bill confirmed this last year. Note, for example, that in the last 5 years, Brazil increased its export volume 56 percent, and yet, at the same time, its revenues increased only 25 percent while external debt rose 33 percent. Chile is an even better example. While its export volume, fueled by billions of tax dollars, increased 21 percent, its export revenue actually fell 23 percent. In the meantime, Chilean debt rose 43 percent.

A recent Congressional Research Service report cites debt service as the major motivation behind Argentina's current agricultural export initiatives. The fact is that many countries are now engaged in agricultural and mineral production just so they can pay the interest on their debts. The cost to the people and the environment is tremendous. I'd like to quote from an article in the latest edition of Sierra magazine, entitled, "All in the Name of AID."

In Botswana, an \$18 million World Bank project aims to increase beef production for export by almost 50 percent, despite the country's severe overgrazing problems. In Zimbabwe and Zambia, 56,000 people were displaced . . . by the World Bank's Kariba Dam, because the lands they moved to could not support the additional population, many became dependent on food relief. In Bangladesh, the Chittagong hill tribes were displaced . . . In one five-year period at the beginning of the decade, more than 400,000 people were forcibly displaced by World Bank water projects.

The bill I am introducing today takes these problems head on. It gives the U.S. Executive Directors to these international financial institutions new guidelines by which to approve loans. It discourages loans for production of commodities and minerals already in surplus, and encourages the banks to find private investors who are willing to invest in the future of the country. It imposes strong sanctions against the banks that ignore these guidelines. It also requires that our own U.S. foreign aid take the form of U.S.-produced commodities in lieu of cash wherever possible. It is certainly a piece of legislation long overdue, and I urge my colleagues to cosponsor it, and move quickly on its consideration.

Mr. NICKLES. Mr. President, today Congress reconvenes to forge a legislative schedule that needs to address the continuing crisis experienced throughout the agriculture community. Changes in farm programs and agriculture credit are in order. But even with the best of changes in these areas, until we stop our tax dollars from subsidizing our foreign competition, the future of our Nation's most basic industries remains bleak at best.

Today Senator STEVE SYMMS and I reintroduce our legislation, the Foreign Agricultural Investment Reform Act, known as the FAIR Act for short. The goal is simple. The FAIR Act aims to stop a foreign policy fiasco funneling U.S. tax dollars through international lenders which subsidize the foreign competition of American agricultural and mineral producers.

We have passed the FAIR Act three times in the Senate, but it has been blocked from consideration by the full House. The only RECORD vote on the measure occurred October 25, 1985, when the Senate passed the FAIR Act 65 to 13 as an amendment to the Food Security Act of 1985.

On July 22, 1986, the Senate unanimously adopted the FAIR Act as an amendment to legislation reauthorizing the Export-Import Bank. When that legislation died in the House, the Senate passed the FAIR Act's provisions for the third time on September 26, 1986, as an amendment to a revived Exim reauthorization bill. In conference language simply restated existing policy was adopted, providing no reform of the foreign investment practices which have plagued American agriculture and mining industries.

We have seen the reports of low-interest million dollar loans to our foreign agriculture competitors. One such instance my colleagues may recall involved a \$350 million World Bank loan to Argentina. This loan, made in April 1985, carried an interest rate of 8.5 percent for 15 years with a 3-year grace period. According to the World Bank's own press release, the loan was structured to boost Argentina's exports of soybeans, corn, wheat, sor-

ghum, and sunflowers. This is just one example of how billions of dollars, many our own, are being used unfairly against American agriculture.

Clearly, it is appalling that foreign farmers are being subsidized with our tax dollars while Oklahoma farmers are in the most dire straits since the Great Depression. The loan subsidies can give the foreign competition a substantial advantage in allowing them to sell more of their goods on the world market, further reducing U.S. exports.

Because we contribute about 20 percent of the funding to the World Bank and other international lenders we do have a say in how our money is spent. But, our influence over individual loans hinges on taking a tough stance and obtaining a general change in lender philosophy. Under the FAIR Act, if a bank wants to subsidize the competition of U.S. agriculture or mineral producers with cheap loans, they won't do it with our money. As the loan moves through the approval process, our U.S. delegates to the Bank's board would be required to vote against objectionable loans. If the loan is approved despite our opposition, U.S. assistance is withheld until commitments to eliminate such objectionable foreign investments are obtained.

The bill we are introducing attacks a related problem involving foreign aid giveaways. Presently, U.S. tax dollars are being granted to foreign nations with little or no strings attached, allowing them to buy from others when the goods and services are readily available from American industry.

Counter to domestic agriculture policy goals, this process increases surpluses and decreases sales. The FAIR Act would amend the Foreign Assistance Act of 1961 with the common-sense approach of providing economic assistance with commodities rather than cash. Any country that receives a cash transfer would be monitored to determine that the funds are used to purchase goods produced or grown in the United States.

In summary, we have an opportunity to correct a serious problem. For far too long the agriculture producers of our Nation have been the object of our own Government's bad policies involving foreign aid. This legislation will certainly not erase the dilemma faced by the American farmer. It will, however, cause substantive reforms in the current foreign aid system and will return some equity to the U.S. farmers, miners and taxpayers in the world market.

Only through persistence can we win this fight for American taxpayers, agriculture producers and mineral producers. With this in mind, I urge my colleagues to join Senator SYMMS and I in support of this needed legislation.

By Mr. RIEGLE:

S. 221. A bill to establish within the Department of Agriculture an Office of Emergency Aid for Farm Families to provide grants to States for emergency services to farm families, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

#### FARM FAMILY EMERGENCY PROTECTION ACT

● Mr. RIEGLE. Mr. President, today I am introducing the Farm Family Emergency Protection Act of 1987. This legislation will help meet a need which exists in farm communities throughout the Nation.

There is a crisis in agriculture which shows few signs of ending in the near future. Commodity prices remain at historic low levels, bankruptcies, farm failures and economic stress is found in all States and in all commodities. Exports no longer provide the markets for our crops as they did in the last decade; the value of exports has dropped more than 45 percent since 1981.

While accurate data is difficult to obtain, estimates show that more than 125,000 farms are in danger of foreclosure, with credit difficult if not impossible to obtain for many more families. It is clear that hundreds of thousands of people may no longer be farming in the coming years, and we must address that fact in much the same fashion that we have faced readjustments in other industries.

Farmers do not generally have the same spectrum of services and support available to them, which is available to industrial employees. There is no unemployment compensation; Aid to Families with Dependent Children is difficult to obtain due to eligibility requirements tailored to urban dwellers rather than bankrupt farmers; and perhaps most importantly medical insurance is either canceled or lapses putting entire families at risk of illness or even death. Even critical emergency care must be weighed against the potential cost of treatment or upon the chances of receiving charity.

The legislation that I am introducing would authorize \$15 million to provide eligibility to farm families for Medicaid, cash grants under the AFDC Program, moving and relocation assistance and job counseling, training and search.

Mr. President, we cannot ignore the fact that behind the statistics are thousands of hard-working families who having lost their entire livelihood have no assistance to ease their transition to new careers. The legislation that I am introducing is a small but critical element in providing this assistance, and I ask unanimous consent that the legislation be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 221

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

## SECTION 1. SHORT TITLE.

This Act may be cited as the "Farm Family Emergency Protection Act of 1986".

## SEC. 2. DEFINITIONS.

As used in this Act, unless the context requires otherwise:

(1) **DIRECTOR.**—The term "Director" means the Director of the Office appointed under section 4(b)(1).

(2) **OFFICE.**—The term "Office" means the Office of Emergency Aid for Farm Families established under section 4(a).

(3) **SECRETARY.**—The term "Secretary" means the Secretary of Agriculture.

(4) **STATE.**—The term "State" means each of the 50 States.

(5) **STATE AGENCY.**—The term "State agency" means the agency of the government of a State that has the responsibility for the administration of the State plan submitted under section 9 in the State.

## SEC. 3. ELIGIBILITY.

(a) **CRITERIA.**—To be eligible to receive emergency services under this Act, a person must—

(1) be a farmer or rancher who is—  
(A) engaged primarily and directly in farming or ranching in a State;

(B) a citizen of the United States;

(C) an owner or operator of not larger than a family farm or ranch; and

(D) in a state of economic crisis because the farmer or rancher has—

(i) declared bankruptcy; or

(ii) been forced to liquidate property as the result of foreclosure on a loan, mortgage, or lien; or

(2) a member of the family of a farmer or rancher described in paragraph (1) who is related by blood or marriage to the farmer or rancher and who resides with the farmer or rancher.

(d) **DURATION.**—A person described in subsection (a) shall be eligible to continue to receive emergency services under this Act until the date that is 36 months after the date the farmer or rancher, or a member of the family of the farmer or borrower, first received services under the Act.

## SEC. 4. OFFICE OF EMERGENCY AID TO FARM FAMILIES.

(a) **ESTABLISHMENT.**—There is established within the Department of Agriculture the Office of Emergency Aid for Farm Families.

(b) **DIRECTOR.**—

(1) **APPOINTMENT.**—The Office shall be headed by a Director of the Office of Emergency Aid for Farm Families, who shall be appointed by, and under the direction and supervision of, the Secretary.

(2) **LEVEL V CLASSIFICATION.**—Section 5316 of title 5, United States Code, is amended by adding at the end thereof the following new item:

"Director of the Office of Emergency Aid for Farm Families, Department of Agriculture".

(c) **FUNCTIONS.**—It shall be the function of the Office to—

(1) evaluate and approve or disapprove plans of operations submitted by States under section 9 for providing emergency services to eligible farm families;

(2) allocate funds and make payments to State agencies for emergency services to eligible farm families in accordance with this Act;

(3) coordinate emergency services provided to eligible farm families under this Act

with other assistance provided to the families to avoid duplication;

(4) maintain records, and provide an annual report to Congress, on the demand for emergency services under this Act and the administration of this Act; and

(5) perform such other functions as are necessary to carry out this Act.

## SEC. 5. AUTHORIZATION FOR APPROPRIATIONS.

Subject to section 11, for the purpose of making allotments to States to carry out the activities described in sections 8 and 9, there are authorized to be appropriated \$15,000,000 for each fiscal year.

## SEC. 6. ALLOTMENTS.

From the amounts appropriated under section 5 for each fiscal year, the Director shall allot to each State that demonstrates to the Director a need for such allotment an amount that bears the same ratio to the total amount appropriated under such section for such fiscal year as the number of farms in the State (as measured by the latest census of agriculture published by the Secretary of Commerce) bears to the number of farms in all States that demonstrate to the Director a need for such allotments.

## SEC. 7. PAYMENTS UNDER ALLOTMENTS TO STATES.

The Director shall make payments, as provided by section 6503(a) of title 31, United States Code, to each State from its allotments under section 6 from funds appropriated under section 5.

## SEC. 8. USE OF ALLOTMENTS.

(a) **IN GENERAL.**—Amounts paid to a State under section 7 from its allotments shall be used to provide emergency services to eligible farm families in accordance with this section.

(b) **MEDICAL ASSISTANCE.**—

(1) **IN GENERAL.**—Subject to paragraph (2), a State agency shall provide to an eligible farm family medical assistance of the type described in section 1905(a) of the Social Security Act (42 U.S.C. 1396d(a)) for medical expenses incurred by the family for which the family does not otherwise receive reimbursement.

(2) **FULL FEDERAL FUNDING.**—Notwithstanding section 1905(b) of such Act, the Federal medical assistance percentage for medical assistance provided under paragraph (1) shall be 100 percent.

(c) **SOCIAL SERVICES.**—

(1) **CASH ASSISTANCE.**—If an eligible farm family is headed by a farmer or rancher who is not otherwise employed, a State agency shall provide to the family cash assistance in an amount that is equivalent to the amount of aid provided under the State plan approved under the aid to families with dependent children program established under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.).

(2) **HOME ENERGY ASSISTANCE.**—A State agency shall provide to an eligible farm family home energy assistance that is similar to assistance provided under the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8601 et seq.).

(3) **HOUSING ASSISTANCE.**—

(A) **MOVING EXPENSES.**—If an eligible farm family is required to sell or liquidate the primary residence of the family as the result of an economic crisis referred to in section 3(a)(1)(D), a State agency shall reimburse the family in an amount not to exceed \$1,000 for any moving or relocation expenses incurred by the family as the result of the crisis.

(B) **RENTAL EXPENSES.**—A State agency may provide a family described in subpara-

graph (A) with an additional subsidy for rental expenses incurred by the family as the result of the crisis.

(4) **FAMILY SERVICES.**—A State agency may establish centers to provide to eligible farm families professional, self-help, or other forms of—

(A) stress management assistance;

(B) family financial planning assistance; and

(C) educational counseling.

(d) **EMPLOYMENT ASSISTANCE.**—

(1) **IN GENERAL.**—A State agency shall offer to an eligible farm family—

(A) employment counseling;

(B) job search assistance;

(C) day care for a preschool child; and

(D) before and after school care for a child below the age of 13.

(2) **JOB SKILLS TRAINING.**—A State agency may establish a program to provide job skills training to eligible farm families.

(e) **NUTRITION ASSISTANCE.**—A State agency shall conduct outreach activities to inform eligible farm families of the availability of nutritional assistance under Federal, State, and local nutritional programs such as—

(1) the food stamp program established under the Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.) (including the availability of expedited coupon issuance to eligible households described in section 11(e)(9) of such Act (7 U.S.C. 2020(e)(9)));

(2) the school lunch and school breakfast programs established under the National School Lunch Act (42 U.S.C. 1751 et seq.) and the Child Nutrition Act of 1966 (42 U.S.C. 1771 et seq.) respectively;

(3) the summer food service program for children established under section 13 of the National School Lunch Act (42 U.S.C. 1761);

(4) the special supplemental food program for women, infants, and children established under section 17 of the Child Nutrition Act of 1966 (42 U.S.C. 1786); and

(5) the temporary emergency food assistance program established under the Temporary Emergency Food Assistance Act of 1983 (7 U.S.C. 612c note).

## SEC. 9. STATE PLANS.

(a) **REQUIREMENT.**—To be eligible to receive an allotment under section 6, a State must submit for approval by the Director an annual plan of operation specifying the manner in which the grant will be used to provide emergency services to eligible farm families in accordance with this Act.

(b) **COMPONENTS.**—A State plan of operation required under subsection (a) shall—

(1) designate an agency of State government as the State agency responsible for the administration of the plan in the State;

(2) provide emergency services to eligible farm families in accordance with section 8;

(3) establish an outreach program for providing emergency services to eligible farm families; and

(4) contain such other provisions as are determined appropriate by the Director.

## SEC. 10. REGULATIONS.

The Secretary shall issue such regulations as are necessary to carry out this Act.

## SEC. 11. TERMINATION DATE.

The authority provided under this Act shall terminate 5 years after the date of enactment of this Act.

By Mr. RIEGLE:

S. 222. A bill to strengthen the program for grants to States for dependent care programs, and for other pur-

poses; to the Committee on Labor and Human Resources.

STATE DEPENDENT CARE GRANTS AMENDMENTS ACTS

● Mr. RIEGLE. Mr. President, today I am introducing legislation to enhance the Dependent Care State Grant Program which I first proposed in the 97th Congress. The bill I am introducing today would remove the prohibition, in certain circumstances, against using funds under this grant program for operating expenses. This will aid communities in their efforts to provide before and after school child care and assistance to parents and guardians who are searching for quality dependent care services. The first type of child care program that is funded by the Dependent Care State Grant Program is before the after school care for children in schools or community facilities for all children who are by State law provided free public education. A second type of program is a resource and referral service to assist parents and guardians in finding quality care for children and dependents of all ages, including elderly and disabled persons. S. 222 would permit States to use grant funds to cover the operating costs of both types of programs that were established or improved with dependent care State grants.

S. 222 permits the use of funds for the operating costs of before and after school programs for the purpose of enabling children whose families are unable to meet the expense of program fees to participate in the program. A recent survey revealed that before or after school programs have not been established in many communities due to a concern that ongoing operating costs could not be covered by parents' payment of program fees. Both predominantly low-income communities and ones that have a mix of low and middle income families are likely to encounter difficulties in maintaining before and after school child care programs. In the absence of operating funds for programs in such communities, the provision of "start-up" funds fails to meet the need for school age child care.

The availability of affordable, high quality school age child care is of vital importance to all children, and especially important to low-income children. Research suggests that low-income children are more likely to suffer negative effects of caring for themselves on a regular basis without adult supervision. These negative consequences include serious behavior and academic problems that can severely jeopardize a child's health development. For all children, even a relatively low risk of serious problems associated with self-care is unacceptable. It has been estimated that at least 5 million school age children are in self-care; if only 1 percent experience physical harm in fires, accidents, or as-

saults, the net effect would be at least 50,000 physical casualties. If only 10 percent of these children experience serious fear, that means potential psychological harm to 500,00 children.

Mr. President, S. 222 would help ensure that more children whose parents have limited resources for child care would be able to benefit from before and after school child care programs. This legislation would also permit the use of dependent care State grants to fund the operation of resource and referral systems. Like direct service child care programs, resource and referral systems require funds for ongoing operating expenses. The services these systems provide are extremely valuable to parents and guardians who are seeking high quality care for dependent persons. Resource and referral services educate consumers about the characteristics of quality care, increasing the likelihood that all forms of dependent care in a community will adhere to high standards in meeting the needs of different age groups and individuals with special needs. Resource and referral services may also provide technical assistance to providers of dependent care and offer other means of enhancing the quality of care. For most families in need of dependent care, a resource and referral service means the difference between guessing at what might be an adequate care arrangement and making an informed choice about a dependent care service that best meets the needs of the individual in care and the family.

The use of dependent care State grants to fund the operation of before and after school child care programs and resource and referral systems will extend both the availability and quality of dependent care for children, elderly, and disabled persons. In order to carefully assess the use of dependent care State grants for future planning, S. 222 also specifies important information that States will provide to the Secretary of Health and Human Services about the children and other dependents that are served by the program. This legislation is an important step encouraging the planning of future efforts to ensure that excellent dependent care is available to families.

Mr. President, I ask unanimous consent that this bill be printed in full in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 222

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SHORT TITLE

SECTION 1. This Act may be cited as the "State Dependent Care Grants Amendments Act of 1987".

OPERATION COSTS OF AFTER SCHOOL CARE PROGRAMS AUTHORIZED.

SEC. 2. (a)(1) Section 670D(b)(1) of the State Dependent Care Development Grants Act (hereafter in this Act referred to as the "Act") is amended by inserting after "establishment" a comma and the following: "operation".

(2) Section 670D(b)(1) of the Act is further amended by adding at the end thereof the following new sentence:

"Amounts so paid to a State and used for the operation of such child care services shall be designed to enable children, whose families lack adequate financial resources, to participate in before or after school child care programs."

(3) Section 670D(f) of the Act is amended by inserting after "expand" a comma and the following: "operate".

(b) Section 670D(d) of the Act is amended—

- (1) by striking out clause (1);
- (2) redesignating clause (2) of such section as clause (1);
- (3) striking out clause (3);
- (4) redesignating clause (4) as clause (2); and
- (5) redesignating clause (5) as clause (3).

REPORT BY GRANT RECIPIENTS

SEC. 3. (a) Section 670E(c) of the Act is amended—

(1) by inserting "(1)" after the subsection designation;

(2) by adding at the end thereof the following new paragraph:

"(2) The chief executive officer of each State shall include in such report—

"(A) the number of children served in before and after school child care programs assisted under the subchapter;

"(B) the characteristics of the children so served including age levels, handicapped condition, income level of families in such programs;

"(C) the salary level and benefits paid to employees in such child care programs;

"(D) the number of clients served in resource and referral systems assisted under this subchapter;

"(E) the characteristics of clients served in resource and referral systems assisted under this subchapter, including age categories (including children and the elderly) and disability categories; and

"(F) the income level of families served by the resource and referral systems assisted under this subchapter."

(b) Section 370E(c)(1) of the Act (as redesignated by subsection (a) of this section) is amended by striking out "September 30, 1987" and inserting in lieu thereof "September 30, 1991".

By Mr. GORE:

S. 223. A bill to establish the Food and Drug Administration by law, and for other purposes; to the Committee on Labor and Human Resources.

FOOD AND DRUG ADMINISTRATION ACT

● Mr. GORE. Mr. President, for more than a century, the Food and Drug Administration has stood for solid protection of our food supply and medicines. But in recent years, outside meddling and bureaucratic infighting have paralyzed the agency. Last year I introduced legislation to save the FDA and it passed the Senate twice but failed to reach the President's desk.

Today I am reintroducing that legislation and I hope we can act on it quickly before the health of the American people is needlessly endangered.

From the Pure Food and Drugs Act of 1906 to the Infant Formula Act of 1980, Congress has always turned to the FDA to ensure and enhance the public health. The agency developed a worldwide reputation for professionalism and expertise.

Now that hard-earned reputation is in jeopardy. The current administration has launched a quiet assault on one of the finest health protection organizations in the world. High ranking bureaucrats in other agencies have reversed prudent decisions made by FDA scientists. At the same time, the Office of Management and Budget wants to cripple the FDA by cutting funds for enforcement and research.

Morale among FDA professionals is at an all-time low. Worse still, special interests and partisan politics have replaced sound scientific policy. The administration has hampered the FDA's ability to safeguard the public health.

Consider the case of Reyes' Syndrome, a rare but deadly childhood disease that has long been linked to aspirin. In 1982, the FDA proposed a label for aspirin bottles to warn parents to consult a doctor before administering the drug to children with chicken pox or flu. But the Office of Management and Budget blocked that proposal until just last month. In the meantime, several drug companies began to print the label voluntarily, and the number of deaths from Reyes' Syndrome dropped dramatically. Yet we will never know how many children's lives were lost in the bureaucratic shuffle.

Federal approval of over-the-counter drugs has also become bogged down in the bureaucracy. One of the FDA's principal responsibilities is to provide a prompt review of new drugs to make sure they are safe and effective. In an unsuccessful effort to accelerate approval, the current administration has included the Office of Management and Budget and the Department of Human Services in the process—even though those agencies lack the expertise to make sound scientific judgments. Instead of getting drugs onto the market more quickly, the administration has actually slowed things down. Drug manufacturers and the American people both suffer when the Administration plays politics instead of sticking to science.

In an effort to break this logjam, the legislation I am introducing will protect the FDA from the taint of bureaucratic infighting.

The legislation would give the FDA an independent Commissioner, appointed by the President. An independent Commissioner will answer to Congress and the American people, not to several other agencies in the ad-

ministration. While the FDA would remain part of the Department of Health and Human Services, its head would no longer be subject to the political pressure now exerted by HHS and OMB.

The bill would also clarify the FDA's place in the executive process, by restoring most authority over FDA matters to the Commissioner. The Secretary of HHS would maintain the right to be notified on significant issues.

We cannot afford to let redtape stand in the way of public safety. It's time to protect the FDA from petty politics, so that it can get back to the business of protecting the health of the American people.

I urge all of my colleagues to support this legislation. It is identical to the bill we passed on the last day of the 99th Congress.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 223

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Food and Drug Administration Act of 1987".*

#### FINDINGS

##### SEC. 2. The Congress finds that—

- (1) the public health has been effectively protected by the presence of the Food and Drug Administration during the last eighty years;
- (2) the presence and importance of the Food and Drug Administration must be guaranteed; and
- (3) the independence and integrity of the Food and Drug Administration need to be enhanced in order to ensure the continuing protection of the public health.

#### ESTABLISHMENT OF ADMINISTRATION BY LAW

SEC. 3. (a) There is established in the Department of Health and Human Services the Food and Drug Administration (hereinafter in this section referred to as the "Administration"). The Administration shall be headed by a Commissioner of Food and Drug (hereinafter in this section referred to as the "Commissioner"). The Commissioner shall be appointed by the President by and with the advice and consent of the Senate and shall serve at the pleasure of the President. The Administration shall be administered under the supervision and direction of the Commissioner. The Commissioner shall, in consultation with the Secretary of Health and Human Services (hereinafter in this section referred to as the "Secretary") appoint a Deputy Commissioner and such Associate Commissioners and Directors of functional centers, bureaus, and other administrative units as shall be needed for the effective and efficient discharge of the authorities and functions administered by the Commissioner.

(b)(1) Except as otherwise provided in this subsection, there are transferred to, and vested in, the Commissioner all of the authorities and functions delegated to the Commissioner or to the Assistant General Counsel of the Food and Drug Division by section 5.10 of title 21, Code of Federal Reg-

ulations, as of the date of enactment of this section, without regard to any reservation prescribed by section 5.11 of title 21, Code of Federal Regulations. The office of the Assistant General Counsel of the Food and Drug Division of the Office of General Counsel within the Office of the Secretary is transferred to the Food and Drug Administration and redesignated the Office of Chief Counsel. The Secretary may delegate to the Commissioner such additional authorities and functions as the Secretary deems appropriate.

(2) The Secretary may require the Commissioner to notify the Secretary of any decisions of the Commissioner which—

(A) establish procedural rules applicable to a general class of foods, drugs, cosmetics, medical devices, or other subjects of regulation; or

(B) present highly significant public issues involving the quality, availability, marketability, or cost of one or more foods, drugs, cosmetics, medical devices, or other subjects of regulations.

(c) The provisions of the third sentence of subsection (a) shall apply to any individual appointed to the position of Commissioner of Food and Drugs after the date of enactment of this section.

(d) The Commissioner of Food and Drugs may, without regard to the provisions of title 5, United States Code, governing appointments in the competitive service and without regard to the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates, establish such technical and scientific review groups as are needed to carry out the functions of the Administration, including functions under the Federal Food, Drug, and Cosmetic Act, and appoint and pay the members of such groups, except that officers and employees of the United States shall not receive additional compensation for service as members of such groups.

(e)(1) Section 5316 of title 5, United States Code, is amended by striking out the item relating to the Commissioner of Food and Drugs, Department of Health and Human Services.

(2) Section 5315 of such title is amended by adding at the end thereof the following new item:

"Commissioner of Food and Drugs, Department of Health and Human Services".

#### By Mr. D'AMATO:

S. 224. A bill to amend and extend programs under the Urban Mass Transportation Act of 1964; to the Committee on Banking, Housing, and Urban Affairs.

#### FEDERAL MASS TRANSIT IMPROVEMENT ACT

● Mr. D'AMATO. Mr. President, I rise to introduce legislation to reauthorize the Federal Mass Transit Program. My bill, the Federal Mass Transit Improvement Act of 1987, will provide the framework and vital funding for the continuation of this valuable program.

At the end of fiscal year 1986, the Federal Mass Transit Program administered by the Urban Mass Transportation Administration [UMTA] expired. A modest proposal to extend the program for another 4 years was successfully added to S. 2405, the Federal-Aid Highway Act of 1986. However, that

bill died in conference at the close of the 99th Congress.

The legislation that I am introducing today, would extend the Federal Public Transit Program for another 4 years—through the end of fiscal year 1990.

This legislation would reauthorize the funding levels for the mass transit account, section 3, at \$1.75 billion per year for the life of the bill, an annual increase of \$650 million. The Formula Grant Program, section 9, would be reauthorized through 1990 at the following levels: \$2.15 billion for fiscal year 1987; \$2.201 billion for fiscal year 1988; \$2.255 billion for fiscal year 1989; and \$2.312 billion for fiscal year 1990. The basic structure of the Federal Transit Program would not be disturbed; however, congressional intent regarding UMTA's implementation of the program would be clarified, and various program elements would be improved.

One of the most important features of the bill is the creation of the "balanced investment fund" within the section 3 program. This \$200 million fund would be available to small urban—population 1 million or under—and rural grantees for discretionary capital projects. None of the funds provided under this program would be available to urbanized areas which receive funds for rail modernization or for construction of new rail systems or extensions.

The balanced investment fund would enable the Federal Government to distribute the moneys more equitably in the user fee-funded section 3 program to smaller transit grantees. As under the existing program, section 3 funds may not be used for operating expenses. Recipients of grants under the balanced investment fund would be able to finance projects for the acquisition, construction, reconstruction, and improvement of buses and vans, and for bus and van-related facilities. This innovative approach will help unify transit advocates by giving grantees of all sizes more of a stake in the total Federal program.

Some of the other provisions in the legislation were a part of predecessor legislation, S. 352—the Public Transit Improvement Act. These provisions include:

#### MULTIYEAR CONTRACTS

UMTA could make agreements for advance construction under the section 3 program. This is similar to letters of intent and full-funding contracts which historically have been used in conjunction with new start projects. Existing letters of intent and full-funding contracts would not be affected by this section. The purpose of this new funding mechanism is to enable grantees to better plan their construction budgets and to maximize the value of the Federal dollars they receive;

#### ASSOCIATED CAPITAL ITEMS

This section would reduce the measure of current fair market value of rolling stock and expand the definition of items to be considered as associated capital costs in order to provide adequate funding to protect the Federal investment in rolling stock;

#### LEASED PROPERTY

Grants for construction projects also would be made available to finance cost-effective leasing projects. This section would permit transit grantees to capitalize the practice of leasing major capital cost items such as heavy equipment, computers, and telephone systems; and

#### CRIME PREVENTION AND SECURITY

In order to underscore the importance of crime prevention and security programs undertaken by transit operators, this section would explicitly authorize UMTA to make grants for such programs. Funding is to be provided as necessary, but no funds may be used for operating expenses. In addition, funds may be applied for by mass transit operators which have internal security personnel, as well as by operators which have formal agreements with local law enforcement units to provide security within the mass transit system.

The Federal Mass Transit Improvement Act also incorporates a section on project management oversight of major capital projects. This section was based on S. 1931, which was the subject of an April 9, 1986, hearing by the full Committee on Banking. This section would require transit grantees to submit project management plans as a precondition to receiving Federal aid. Such plans must, at a minimum, include well-planned budgets, documentation of personnel qualifications, procedures for quality control and quality assurance, and an orderly system for recordkeeping. The language included in this bill incorporates revisions that arose from the committee hearing.

Other provisions of particular interest are the sections dealing with privatization. Language has been included to assure, that receipt of Federal transit aid does not interfere with a transit grantee's basic ability to make local choices regarding the participation of private mass transportation companies in the provision of mass transit services. We agree that the goal of cost-effective involvement of private sector transit services is desirable where it leads to better or enhanced service for the riding public. However, Federal transit grants should not be conditioned on the extent or amount of service or functions to be carried out by various private providers. These are issues which localities are best able to decide and to implement in a workable fashion.

In order to provide an opportunity for private sector participation in the

Federal Transit Program, a special demonstration program is contained in the bill. This program sets aside up to \$25 million to finance transit projects to develop, implement, and evaluate innovative techniques for private sector involvement in all aspects of public mass transit operations. Transit operators will be able to apply for these funds to carry out local initiatives that promise to enhance and improve transit services. This program will benefit transit grantees, private mass transit service providers, and, most importantly, the riding public without disrupting the continued provision of vital transit services.

There are many other items of interest in this legislation that will lead to a better Federal Transit Program. Many of them are fine tunings of existing law, such as provisions to assist smaller transit systems with respect to operating assistance, limitations regarding State use of section 9 funds, and equitable treatment or rural transit grantees concerning items that qualify for local matching funds.

This legislation builds upon the firm foundation established by the Surface Transportation Assistance Act of 1982, and will lead to a better transit program for all Americans. I urge our colleagues to support this bill and to press for its speedy consideration.

Mr. President, I ask that the text of this bill be printed in its entirety in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 224

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SHORT TITLE

SECTION 1. This Act may be cited as the "Federal Mass Transit Improvement Act of 1986".

#### AGREEMENTS FOR ADVANCE CONSTRUCTION

SEC. 2. Section 3(a)(4) of the Urban Mass Transportation Act of 1964 is amended to read as follows:

"(4)(A) Notwithstanding any other provision of law, the Secretary is authorized, in connection with the initial funding of a project under this section, to establish a basis for multi-year financing of such project through the issuance of a multi-year project obligation to the recipient. At least 30 days prior to the issuance or amendment of any such obligation under this paragraph, the Secretary shall notify, in writing, the Committee on Public Works and Transportation of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate, of the proposed issuance of such an obligation.

"(B) An obligation issued under this paragraph shall stipulate the Secretary's maximum future participation in the financing of a defined project, including an estimated annual rate of participation, and the total amount so stipulated shall, when issued for a new fixed guideway project, be sufficient to complete an operable segment. The total amount of future Federal expenditures con-

tained within all such multi-year obligations shall not exceed 75 per centum of the aggregate contract authority amounts authorized in section 21(a)(2)(B), nor shall the amounts estimated for use in any fiscal year exceed 75 per centum of the amounts authorized for that fiscal year. Amounts necessary to finance continued commitments to projects defined in subparagraph (C) shall be subtracted from such percentage. The total amount covered by such multi-year obligations shall not exceed any limitation that may be specified in an appropriations Act. Nothing in this paragraph affects the validity of Letters of Intent or Full Funding Contracts issued prior to the date of enactment of the Federal Mass Transit Improvement Act of 1986.

"(C) Funding for projects covered by letters of intent or letters of commitment issued, and full funding contracts executed prior to the date of enactment of the Federal Public Transportation Act of 1982 may be funded under this section while not precluding the funding of a portion of such projects using section 9 capital funds unless such funding would impair the recipient's ability to fund routine capital projects under this section. The Secretary shall, as part of the approval of the use of such funds, determine that sufficient funds exist for the recipient to complete and place into revenue service an operable segment. Notwithstanding the provisions of section 4(a), the Federal share of any project under this section covered by a full funding contract, Letter of Intent, or Letter of Commitment in effect on the date of enactment of the Federal Public Transportation Act of 1982, or those projects within the federally agreed upon scope for the Washington, District of Columbia, metropolitan area transit system (as of such date) shall not be altered.

"(D) Ninety days prior to the commencement of each fiscal year, the Secretary shall publish in the Federal Register a table indicating the aggregate and annual estimated amounts contained in all outstanding multi-year obligations entered into as of that date. Based on this table, the Secretary shall prepare and publish, prior to the commencement of the fiscal year, an apportionment of funds necessary to sustain projects approved under subparagraph (A) for the coming year. Such funds shall be released to the recipients on the first day of the fiscal year and may be obligated by the recipients to meet project costs or to be applied to the payment of principal and interest on bonds, notes, or other obligations issued by the recipients to finance project costs. Federal obligations under this paragraph shall be charged to the budget year in which funds are released to recipients."

#### BALANCED INVESTMENT FUND

Sec. 3. Section 3(a) of the Urban Mass Transportation Act of 1964 is amended by adding at the end thereof the following:

"(7)(A) The Secretary is authorized to make grants to States and local public bodies, in the amount of \$200,000,000 in each of fiscal years 1987, 1988, 1989, and 1990, for the purposes of financing the acquisition, construction, reconstruction, and improvement of buses and vans and bus and van-related facilities.

"(B) Not less than 50 per centum of such funds shall be made available to urbanized areas of 200,000 to 1,000,000 population; not less than 37.5 per centum to urbanized areas of 50,000 to 200,000 population; and not less than 12.5 per centum for non-urbanized areas as authorized for capital purposes only under section 18 of this Act.

"(C) None of the funds provided for in this paragraph shall be made available to urbanized areas receiving grants for rail modernization or construction of new rail systems or extensions."

#### NEW START PROJECTS

SEC. 4. Section 3 of the Urban Mass Transportation Act of 1964 is amended by adding at the end thereof the following new subsection:

"(i) No grant or loan for construction of a new fixed guideway system or extension of any fixed guideway system may be made under this section unless the Secretary has first ensured that the applicant has prepared an evaluation of the proposed project. The evaluation shall include at least the following information:

"(1) The results of complete alternatives analysis and preliminary engineering studies.

"(2) A cost-effectiveness evaluation.

"(3) The anticipated local economic development resulting from the construction and operation of the proposed project, including local provisions to capture the benefits of such development for the long-term benefit of mass transit services through the use of special assessment districts or other value capture mechanisms.

"(4) Documentation of the local financial commitment to participate in the construction, maintenance, and operation of the system or extension.

In identifying the data to be assembled for the evaluation required under this section, the Secretary shall also consider such other factors as the Secretary deems appropriate. The Secretary shall, not later than 180 days after the date of enactment of this subsection, issue guidelines for the preparation of information necessary to assist in evaluating projects. Such guidelines shall be developed in full consultation with public mass transportation interests, and shall be submitted at least 60 days before implementation to the Committee on Public Works and Transportation of the House of Representatives, and to the Committee on Banking, Housing, and Urban Affairs of the Senate. None of the provisions of this section shall apply to projects to enhance a fixed guideway system unless the contemplated project will result in an extension of the fixed guideway of more than one mile for revenue service purposes. Nothing in this subsection shall be interpreted to provide for a numerical ranking of proposed projects or for comparing one project with another in any report assembled with data prepared pursuant to this subsection."

#### SUBSTITUTE PROJECTS

SEC. 5. Section 4(g) of the Urban Mass Transportation Act of 1964 is amended—

(1) by striking out "and" after "1985,";

(2) by inserting "and such sums as may be necessary for fiscal years 1987, 1988, 1989, and 1990," after "1986,".

#### 4(h)(1) REPORTS

SEC. 6. Section 4(h)(1) of the Urban Mass Transportation Act of 1964 is amended—

(1) by striking out "On or before the twentieth day of each calendar quarter" and inserting in lieu thereof "Not later than 30 days after the close of each quarter of each fiscal year";

(2) by striking out "Congress" and inserting in lieu thereof "the Committee on Public Works and Transportation and the Committee on Appropriations in the House of Representatives, and the Committee on Banking, Housing, and Urban Affairs and

the Committee on Appropriations in the Senate";

(3) by redesignating clauses (1) through (5) as clauses (A) through (E), respectively;

(4) by striking out "and" before "(E)";

(5) by striking out the period and inserting in lieu thereof "; and"; and

(6) by adding at the end thereof the following:

"(F) a status report on the execution of grant contracts and the establishment of Letter of Credit or other reimbursement authority for sums already obligated for each State, designated recipient and applicant."

#### LIMITATION OF APPROPRIATIONS

SEC. 7. Section 4(i) of the Urban Mass Transportation Act of 1964 is amended by striking out "using sums available pursuant to section 4(c)(3)(A) of this section" and inserting in lieu thereof "using sums not to exceed \$9,000,000 in each of fiscal years 1987, 1988, 1989, and 1990".

#### USE OF LAPSED SECTION 5 FUNDS

SEC. 8. Section 5(o) of the Urban Mass Transportation Act of 1964 is amended by adding at the end thereof the following new sentence: "Sums apportioned under this section after October 1, 1982, and remaining unobligated at the end of fiscal year 1986 shall be added to the amount available for apportionment under section 9 of this Act for fiscal year 1987, and made available as provided by section 9(p)."

#### FUNDING OF PARTIAL PROGRAM OF PROJECTS

SEC. 9. Section 9(e)(2) of the Urban Mass Transportation Act of 1964 is amended by adding at the end thereof the following new sentence: "A grant may be made under this section to carry out, in whole or in part, a program of projects."

#### LEASED PROPERTY

SEC. 10. Section 9(j) of the Urban Mass Transportation Act of 1964 is amended by inserting after the first sentence the following: "Grants for construction projects under this section shall also be available to finance the leasing of facilities and equipment for use in mass transportation service, subject to such regulations limiting such grants to leasing arrangements which are more cost effective than acquisition or construction as the Secretary shall prescribe not later than 90 days after the date of enactment of the Federal Mass Transit Improvement Act of 1986."

#### DEFINITION OF ASSOCIATED CAPITAL ITEM

SEC. 11. The last sentence of section 9(j) of the Urban Mass Transportation Act of 1964 is amended—

(1) by striking out "and materials" and inserting in lieu thereof ", tires, tubes, materials, and supplies"; and

(2) by striking out "1 per centum" and inserting in lieu thereof "one-half of 1 per centum".

#### REVENUE RETENTION

SEC. 12. Section 9(j) of the Urban Mass Transportation Act of 1964 is amended by adding at the end thereof the following: "Net income received from the use, lease, or sale of airspace or adjacent property acquired as a result of a project funded under this section or section 3(a)(1) or such income derived from the disposal of fungible items such as gravel, rail ties, or rail and excluding rolling stock, which have been fully depreciated over their useful lives shall be totally retained by the recipient for projects eligible under this section or section 3(a)(1) of this Act. The Secretary may not award any grant or make any loan

under this Act on the condition that such net income must be used to finance a part of any project for which funding is sought under this Act, or to reimburse the United States for grants or loans made pursuant to this Act. Nor shall the Secretary use such net income in any calculation of net project cost under section 4(a)."

#### OPERATING ASSISTANCE FOR SMALL URBANIZED AREAS

SEC. 13. The first sentence of section 9(k)(2) of the Urban Mass Transportation Act of 1964 is amended by striking out "95 per centum" and inserting in lieu thereof "100 per centum".

#### NEWLY URBANIZED AREAS

SEC. 14. The last sentence of section 9(k)(2) of the Urban Mass Transportation Act of 1964 is amended by inserting "authorized" after "its".

#### FUND LIMITATION

SEC. 15. Section 9(m) of the Urban Mass Transportation Act of 1964 is amended by adding at the end thereof the following new subparagraph:

"(3) No funds apportioned to urbanized areas with populations of less than 200,000 may be used to pay the expenses of any State's management or administration of grant programs for such urbanized areas, except in the case in which a statewide or regional agency or instrumentality is responsible under state laws for the financing, construction, and operation, directly by lease, contract, or otherwise, of public transportation services.

#### TRANSFER OF FUNDS

SEC. 16. Section 9(n)(1) of the Urban Mass Transportation Act of 1964 is amended—

- (1) by inserting "other" before "urbanized";
- (2) by inserting "within the State" after "urbanized areas";
- (3) by striking out "with populations of 300,000 or less under this section";
- (4) by inserting "approval by" after "may make such transfers only after";
- (5) by striking out "consultation with" after "may make such transfers only after approval by";
- (6) by inserting "elected" after "local", and
- (7) by inserting "or if funding is within 90 days of lapsing and no approvable grant applications are pending" after "(d)" in the second sentence.

#### USE OF LAPSED SECTION 9A AND SECTION 9 FUNDS

SEC. 17. Section 9(o) of the Urban Mass Transportation Act of 1964 is amended by striking out the period at the end of the second sentence and inserting "not later than 30 days after the end of the third fiscal year following the initial year of apportionment."

#### APPORTIONMENT OF FORMULA FUNDS

SEC. 18. Section 9 of the Urban Mass Transportation Act of 1964 is amended by adding at the end thereof the following new subsection:

"(p) Funds appropriated to carry out this section for any fiscal year shall be fully apportioned for the purposes of, and in accordance with, the provisions of this section not later than the tenth day following the date on which such funds are appropriated. The Secretary shall publish apportionments of such appropriated funds, including individual apportionments for each urbanized area above 50,000 population as well as the amount attributable to each State of a

multi-state urbanized area, on the apportionment date established in the preceding sentence."

#### RULEMAKING

SEC. 19. (a) Section 12(a) of the Urban Mass Transportation Act of 1964 is amended—

- (1) by inserting "(1)" after "Sec. 12. (a)"; and
- (2) by adding at the end thereof the following:

"(2) The Secretary shall prepare an agenda listing all areas in which he intends to propose rules governing activities under this Act within the following 12 month period. The Secretary shall transmit such agenda to the Committee on Public Works and Transportation of the House of Representatives, and the Committee on Banking, Housing, and Urban Affairs of the Senate within one hundred and twenty days after the effective date of this subsection and annually thereafter. Except for emergency rules, the Secretary shall give interested persons not less than 60 days to participate in the rulemaking through submission of written data, views, or arguments with or without the opportunity for oral presentation, except when the Secretary for good cause finds that public notice and comment are unnecessary due to the routine nature or matter of insignificant impact of the rule, or that an emergency rule should be promulgated. The Secretary may extend the 60-day period if he determines that such period is insufficient to permit diligent persons to prepare comments or that other circumstances justify an extension of such period. An emergency rule shall terminate 120 days after the date on which it is promulgated."

(b) Section 12(c) of such Act is amended—

- (1) by striking out "and" at the end of paragraph 10;
- (2) by striking out the period at the end of paragraph (11) and inserting in lieu thereof a semicolon; and
- (3) by adding at the end thereof the following:

"(12) the term 'rule' means the whole or part of the Secretary's statement of general or particular applicability designed to implement, interpret, or prescribe law or policy or to describe the organization, procedure, or practice requirements of the Secretary in carrying out provisions of this Act; and

"(13) the term 'emergency rule' means a rule which is temporarily effective prior to the expiration of the otherwise specified periods of time for public notice and comment under this section and which was duly promulgated by the Secretary pursuant to a finding that a delay in the effective date thereof would (A) seriously injure an important public interest, (B) substantially frustrate legislative policy and intent, or (C) seriously damage a person or class of persons without serving any important public interest."

#### OVERHAUL-RECONSTRUCTION

SEC. 20. (a) Section 12(c)(1) of the Urban Mass Transportation Act of 1964 is amended by inserting "(A)" after "such term also means" and by inserting before the semicolon at the end thereof the following: ", (B) any bus remanufacturing project which extends the economic life of a bus eight years or more, and (C) any project for the overhaul of rolling stock (whether or not such overhaul increases the useful life of the rolling stock)".

(b) Section 9(j) of such Act is amended—

- (1) by inserting "(1)" before "Grants"; and

(2) by adding at the end the following new paragraph:

"(2) A project for the reconstruction (whether by employees of the grant recipient or by contract), of any equipment and materials each of which, after reconstruction, will have a fair market value no less than one half of 1 percent of the current fair market value of rolling stock comparable to the rolling stock for which the equipment and materials are to be used shall be considered a project for construction of an associated capital maintenance item under this section."

(c) The first sentence of section 9(k)(1) of such Act is amended by striking out "shall not exceed" the first place it appears and inserting in lieu thereof "shall be".

(d) Section 3(a)(2)(A)(iii) of such Act is amended by inserting before the period the following: ", and will maintain such facilities and equipment".

#### CERTIFICATION

SEC. 21. Section 15 of the Urban Mass Transportation Act of 1964 is amended by adding the following new subsection:

"(d) The Secretary shall certify the sampling techniques used by applicants or persons seeking grants under section 5 or 9 of this Act within 120 days of enactment of this subsection. The Secretary shall certify the sampling techniques of newly urbanized areas within 120 days of submission to the Secretary of such sampling documentation."

#### RURAL TRANSPORTATION EQUITY

SEC. 22. Section 18(e) of the Urban Mass Transportation Act of 1964 is amended by adding at the end thereof the following:

"For the purpose of this subsection, the term 'Federal funds or revenues' does not include funds received by a recipient of funds under this section pursuant to a service agreement with a State or local social service agency or a private social service organization."

#### USE OF FUNDS

SEC. 23. Section 18(e) of the Urban Mass Transportation Act of 1964 is amended by adding at the end thereof the following:

"No restrictions may be placed on the use of the Federal share for the payment of operating expenses except as provided herein."

#### APPLICABILITY OF PRIVATIZATION REQUIREMENTS

SEC. 24. (a) Section 3(e)(2) of the Urban Mass Transportation Act of 1964 is amended by inserting after "to the maximum extent feasible," the following: "consistent with State and local laws and policies."

(b) The first sentence of section 8(e) of such Act is amended to read as follows: "The plans and programs required by this section shall encourage, to the maximum extent feasible, consistent with State and local laws and policies, the participation of private enterprise, giving consideration to issues of quality, reliability, safety, capability of private entities, cost, and other factors as may be determined locally."

(c) Section 8 of such Act is further amended—

- (1) by inserting "(1)" after "(e)"; and
- (2) by adding at the end thereof the following:

"(2) Guidance or regulations issued under this section of the Act shall be provided for review to the Committee on Appropriations of both the House and the Senate, and to the House Committee on Public Works and Transportation and the Senate Committee on Banking, Housing, and Urban Affairs at

least 120 days before implementation. Such guidance or regulations shall be made available to recipients of funds under this Act, in final form, no later than 6 months prior to the beginning of the fiscal year for which they are to be applied."

(d) Section 9(f) of such Act is amended by inserting before the last sentence thereof the following: "Nothing in this section shall require the conduct of a separate process of notification and comment for private providers or other interested parties, beyond the requirements contained in this subsection or subsection (f)."

(e) Section 12(d) of such Act is amended—

(1) by inserting "or prescribe" after "to regulate";

(2) by inserting "the choice of mass transportation service provider, or the level of service," after "mode of operation"; and

(3) by striking out "section 3" and inserting in lieu thereof "this Act, to condition the approval of a grant under this Act on the methods or means by which providers of mass transit services or functions are selected, or on the extent or amount of service or functions to be carried out by various private mass transportation service providers."

(f) Section 12 of such Act is amended by adding at the end thereof the following new subsection:

"(h) None of the provisions of this Act shall be construed to limit the ability of recipients of Federal financial assistance under this Act to determine the extent and amount of mass transit service or functions to be carried out by private enterprise."

#### PRIVATIZATION DEMONSTRATION

SEC. 25. The Urban Mass Transportation Act of 1964 is amended by adding at the end thereof the following new section:

#### "PRIVATIZATION DEMONSTRATION"

"Sec. 23. (a) The Secretary may use not to exceed \$25,000,000 of funds made available by section 21(b) for each fiscal year to total finance grants to States, persons, or designated recipients of funding under this Act, for the purposes of developing, implementing, and evaluating innovative techniques for private sector involvement in all aspects of public mass transit operations. Projects to be financed under this section shall, at minimum, analyze the public-private relationships in terms of cost comparison techniques, contract relationships, specification and performance standards, and the long-range impacts on transit service cost and service quality resulting from the involvement of the private sector. Not less than 90 per centum of funds made available pursuant to this subsection may be awarded by the Secretary to designated recipients of programs funded by this Act.

"(b) The Secretary shall make an annual report to the Committee on Public Works and Transportation of the House of Representatives, and the Committee on Banking, Housing, and Urban Affairs of the Senate, to document the results of projects financed by this subsection. The Secretary shall, within 120 days of enactment of the subsection, issue guidelines on the implementation of this subsection. Such guidance shall include a mechanism to establish a clearing-house function for the collection and dissemination of information developed by projects funded by this subsection."

#### AUTHORIZATION FOR APPROPRIATIONS

SEC. 26. (a) Section 21(a)(1) of the Urban Mass Transportation Act of 1964 is amended—

(1) by striking out "and" after "1985"; and

(2) by inserting "\$2,150,000,000 for fiscal year 1987, \$2,201,000,000 for fiscal year 1988, \$2,255,000,000 for fiscal year 1989, and \$2,312,000,000 for fiscal year 1990" after "1986".

(b) Section 21(a)(2)(B) of such Act is amended by striking out the period and inserting in lieu thereof "and \$1,750,000,000 in each of fiscal years 1987, 1988, 1989, and 1990. Funding authorized under this subparagraph, excluding amounts made available in accordance with sections 3(a)(7), 4(i), 8, 16(b)(2), and 11(b) shall, in each fiscal year, be allocated as follows:

"(i) Not less than 10 per centum shall be available for the replacement, rehabilitation, and purchase of buses and related equipment and the construction of bus-related facilities.

"(ii) Not less than 40 per centum shall be available to finance grants and loans for rail modernization.

"(iii) Not less than 40 per centum shall be available to finance grants and loans for construction of new fixed guideway systems and extensions to fixed guideway systems.

"(iv) Not less than 10 per centum shall be available to finance grants and loans for any purpose under section 3 of this Act."

(c) Section 21(a)(4) of such Act is amended by inserting "1987, 1988, 1989, and 1990" after "1986".

(d) Section 21(a)(5) of such Act is amended—

(1) by striking out "and" after "1985";

(2) by inserting "and \$63,750,000 shall be used in each of the fiscal years 1987, 1988, 1989, and 1990" after "1986"; and

(3) by adding at the end thereof the following new sentence: "Not less than 85 per centum of funds available under this paragraph shall be directly apportioned to, and made available to, all urban areas of more than 50,000 population."

(e) Section 21(b) of such Act is amended—

(1) by striking out "and" after "1985"; and

(2) by striking out the period after "1986" and inserting in lieu thereof "and \$50,000,000 in each of fiscal years 1987, 1988, 1989, and 1990."

(f) Section 21(a)(2) of such Act is amended by adding at the end thereof the following new subparagraph:

"(D) Appropriations made available pursuant to subparagraph (B) of this paragraph shall be obligated in a manner so that the amount of the total budget authority which remains available to the Secretary at the beginning of the last quarter of any fiscal year does not exceed 30 per centum of the total amount available. Not more than 15 per centum of the total amount available pursuant to subparagraph (B) shall be obligated during any month in the last quarter of each fiscal year. The Secretary may waive the requirements of the preceding sentences if the Secretary determines that such action is necessary to avoid a serious disruption in carrying out programs or activities financed by subparagraph (B) of this paragraph."

(g) Section 21 of such Act is amended by adding at the end thereof the following new subsection:

"(c) UNIVERSITY TRANSPORTATION CENTERS.—

"(1) AMOUNT OF FUNDS.—There shall be available to the Secretary to carry out section 11(b) of this Act for each of fiscal years 1987, 1988, 1989, and 1990 \$1,000,000 out of the Mass Transit Account of the Highway Trust Fund.

"(2) CONTRACT AUTHORITY.—Notwithstanding any other provision of law, approval by

the Secretary of a grant with funds made available by paragraph (1) shall be deemed a contractual obligation of the United States for payment of the Federal share of the cost of the project.

"(3) EXEMPTION FROM OBLIGATION CEILING.—Funds made available out of the Mass Transit Account of the Highway Trust Fund by this subsection shall not be subject to any obligation limitation.

"(4) PERIOD OF AVAILABILITY.—Funds made available by this subsection shall remain available until expended."

#### PROJECT MANAGEMENT OVERSIGHT

SEC. 27. The Urban Mass Transportation Act of 1964 is amended by inserting at the end thereof the following new section:

#### "PROJECT MANAGEMENT OVERSIGHT"

"SEC. 24. (a)(1) The Secretary may use as much as is necessary of the funds made available for each fiscal year by sections 21(a)(1), 21(a)(2)(B), and 4(g) of this Act, and section 14(b) of the National Capital Transportation Act of 1969 to contract with any person for the performance of project management oversight. Any contract entered into under this subsection shall provide for the payment by the Secretary of 100 per cent of the cost of carrying out the contract.

"(2) Each recipient of assistance under this Act or section 14(b) of the National Capital Transportation Act of 1969 shall provide a contractor chosen by the Secretary in accordance with paragraph (1) such access to its construction sites and records as may be reasonably required.

"(b) As a condition of Federal financial assistance for a major capital project under this Act or the National Capital Transportation Act of 1969, the Secretary shall require the recipient to prepare and, after approval by the Secretary, implement a project management plan which meets the requirements of subsection (c).

"(c) At a minimum, a project management plan shall provide for—

"(1) adequate recipient staff organization complete with well-defined reporting relationships, statements of functional responsibilities, job descriptions, and job qualifications;

"(2) a preliminary budget covering the project management organization, appropriate consultants, property acquisition, utility relocation, systems demonstration staff, audits, and such miscellaneous payments as the recipient may be prepared to justify;

"(3) a target construction schedule;

"(4) a document control procedure and recordkeeping system;

"(5) a change order procedure which includes a documented, systematic approach to the handling of construction change orders;

"(6) organizational structures, management skills, and staffing levels required throughout the construction phase;

"(7) quality control and quality assurance functions, procedures, and responsibilities for construction and for system installation and integration of system components;

"(8) materials testing policies and procedures;

"(9) internal plan implementation and reporting requirements;

"(10) criteria and procedures to be used for testing the operational system or its major components; or

"(11) periodic updates of the plan, especially with respect to such items as project budget and project schedule, financing, patronage estimates, and where applicable,

the status of local efforts to enhance patronage in cases where patronage estimates are contingent, in part, upon the success of such efforts; and

"(12) the recipient's commitment to make monthly submissions of project budget and project schedule to the Secretary.

"(d) Not later than 120 days after the date of enactment of the Federal Mass Transit Improvement Act of 1986, the Secretary shall promulgate such rules as may be necessary to implement the provisions of this section, and shall submit such rules at least 120 days before implementation to the Committee on Public Works and Transportation of the House of Representatives and to the Committee on Banking, Housing, and Urban Affairs of the Senate for review. Such rules shall, at a minimum, include the following:

"(1) A definition of the term 'major capital project' for the purpose of subsection (b). Such definition shall exclude projects for the acquisition of vehicles or other rolling stock, or for the performance of vehicle maintenance or rehabilitation.

"(2) A requirement that, in order to maximize the transportation benefits and cost savings associated with project management oversight, such oversight shall begin during the preliminary engineering stage of a project. The requirement of this paragraph shall not apply if the Secretary finds that it is more appropriate to initiate such oversight during another stage of the project.

"(e) The Secretary shall approve a plan submitted pursuant to subsection (b) within 60 days following its submittal. In the event that approval cannot be completed within 60 days, the Secretary shall inform the recipient of the reasons therefor and as to how much more time is needed for review to be completed. If a plan is disapproved, the Secretary shall inform the recipient of the reasons therefor."

#### CRIME PREVENTION AND SECURITY

SEC. 28. The Urban Mass Transportation Act of 1964 is amended by adding at the end thereof the following new section:

#### "CRIME PREVENTION AND SECURITY

"SEC. 25. From funds made available pursuant to section 21 of this Act, the Secretary is authorized to make grants to public mass transit systems for crime prevention and security. None of the provisions of this Act may be construed to prohibit the financing of projects under this section where law enforcement responsibilities are vested in a local public body other than the grant applicant. Such grants may not be used for payment of operating expenses."

#### UNIVERSITY TRANSPORTATION CENTERS

SEC. 29. (a) Section 11(b) of the Urban Mass Transportation Act of 1964 is amended to read as follows:

"(b) UNIVERSITY TRANSPORTATION CENTERS.—

"(1) GRANTS FOR ESTABLISHMENT AND OPERATION.—In addition to grants authorized by subsection (a) of this section, the Secretary shall make grants to one or more nonprofit institutions of higher learning to establish and operate one regional transportation center in each of the ten Federal regions which comprise the Standard Federal Regional Boundary System.

"(2) RESPONSIBILITIES.—The responsibilities of each transportation center established under this subsection shall include, but not be limited to, the conduct of infrastructure research concerning transportation and research and training concerning transportation of passengers and property

and the interpretation, publication, and dissemination of the results of such research.

"(3) APPLICATION.—Any nonprofit institution of higher learning interested in receiving a grant under this subsection shall submit to the Secretary an application in such form and containing such information as the Secretary may require by regulation.

"(4) SELECTION CRITERIA.—The Secretary shall select recipients of grants under this subsection on the basis of the following criteria:

"(A) The regional transportation center shall be located in a State which is representative of the needs of the Federal region for improved transportation services and facilities.

"(B) The demonstrated research and extension resources available to the grant recipient for carrying out this subsection.

"(C) The capability of the grant recipient to provide leadership in making national and regional contributions to the solution of both long-range and immediate transportation problems.

"(D) The grant recipient shall have an established transportation program or programs encompassing several modes of transportation.

"(E) The grant recipient shall have a demonstrated commitment to supporting ongoing transportation research programs with regularly budgeted institutional funds of at least \$200,000 per year.

"(F) The grant recipient shall have a demonstrated ability to disseminate results of transportation research and educational programs through a statewide or regionwide continuing education program.

"(G) The projects which the grant recipient proposes to carry out under the grant.

"(5) MAINTENANCE OF EFFORT.—No grant may be made under this section in any fiscal year unless the recipient of such grant enters into such agreements with the Secretary as the Secretary may require to ensure that such recipient will maintain its aggregate expenditures from all other sources for establishing and operating a regional transportation center and related research activities at or above the average level of such expenditures in its two fiscal years preceding the date of enactment of this subsection.

"(6) FEDERAL SHARE.—The Federal share of a grant under this subsection shall be 50 percent of the costs of establishing and operating the regional transportation center and related research activities carried out by the grant recipient.

"(7) NATIONAL ADVISORY COUNCIL.—

"(A) ESTABLISHMENT; FUNCTIONS.—The Secretary shall establish in the Department of Transportation a national advisory council to coordinate the research and training to be carried out by the grant recipients, to disseminate the results of such research, to act as a clearinghouse between such centers and the transportation industry, and to review and evaluate programs carried out by such centers.

"(B) MEMBERS.—The council shall be composed of the directors of the regional transportation centers and 19 other members appointed by the Secretary as follows:

"(i) Six officers of the Department of Transportation one of whom represents the Office of the Secretary, one of whom represents the Federal Highway Administration, one of whom represents the Urban Mass Transportation Administration, one of whom represents the National Highway Traffic Safety Administration, one of whom represents the Research and Special Programs Administration, and one of whom

represents the Federal Railroad Administration.

"(ii) Five representatives of State and local governments.

"(iii) Eight representatives of the transportation industry and organizations of employees in such industry.

A vacancy in the membership of the council shall be filled in the manner in which the original appointment was made.

"(C) TERM OF OFFICE; PAY; CHAIRMAN.—Each of the members appointed by the Secretary shall serve for a term of five years. Members of the council shall serve without pay. The chairman of the council shall be designated by the Secretary.

"(D) MEETINGS.—The council shall meet at least annually and at such other times as the chairman may designate.

"(E) AGENCY INFORMATION.—Subject to subchapter II of chapter 5 of title 5, United States Code, the council may secure directly from any department or agency of the United States information necessary to enable it to carry out this subsection. Upon request of the Chairman of the council, the head of such department or agency shall furnish such information to the council.

"(F) TERMINATION DATE INAPPLICABLE.—Section 14 of the Federal Advisory Committee Act shall not apply to the council.

"(8) ADMINISTRATION THROUGH OFFICE OF SECRETARY.—Administrative responsibility for carrying out this subsection shall be in the Office of the Secretary.

"(9) ALLOCATION OF FUNDS.—The Secretary shall allocate funds made available to carry out this subsection equitably among the Federal regions.

"(10) TECHNOLOGY TRANSFER SET-ASIDE.—Not less than 5 percent of the funds made available to carry out this subsection for any fiscal year shall be available to carry out technology transfer activities."

(b)(1) Section 4(d) of such Act is amended by striking out "per fiscal year for each of the fiscal years ending September 30, 1985, and September 30, 1986," and inserting in lieu thereof "for the fiscal year ending September 30, 1985."

(2) Section 11(a) of such Act is amended by inserting "GRANT PROGRAM.—" before "The Secretary".

#### By Mr. D'AMATO:

S. 225. A bill to amend title II of the Social Security Act to protect the benefit levels of individuals becoming eligible for benefits in or after 1979 by eliminating the disparity (resulting from changes made in 1977 in the benefit computation formula) (between those levels and the benefit levels of persons who become eligible for benefits before 1979; to the Committee on Finance.

#### SOCIAL SECURITY ACT

● Mr. D'AMATO. Mr. President, I rise today in an attempt to rectify an enormous injustice in our Social Security Program. I appeal to my colleagues' sense of fairness and compassion to undo a serious inequity in payments to a select group of our senior citizens.

In the 99th Congress, I introduced S. 1060, a bill designed to provide equitable Social Security payments for those individuals born between 1917 and 1921. To my dismay, the promise of security to our Nation's senior citizens

did not receive the priority attention it deserved. The needs of our parents and grandparents did not, cannot, and will not fade silently away. Thus, I am again introducing legislation that will give hope to those members of our society born in the "notch" years.

The notch was an ill-conceived solution to what was an already poorly designed Social Security formula. In 1973, the Board of Trustees of the Social Security Trust Funds revealed that recent computations of forthcoming benefits were grossly incorrect. In the simplest of terms, future adjustments for benefits had been doubly indexed for inflation. This double indexing was largely responsible for a 1977 projection of a long-range deficit equal to approximately 40 percent of the projected cost of the program. Obviously, something had to be done. The result, however, was cruel and unfair.

In 1977, Social Security legislation was passed that would deny future security to thousands of senior citizens. After realizing that the previously incorrect formula would both bankrupt the system and pay disproportionately high benefits to some recipients, there was a tremendous movement backward. A new formula was calculated for the payment of benefits to individuals becoming eligible after 1978. Less than 2 full years after this change there was a further downward adjustment of benefits. This was not a great deal of time for those who were about to retire to change plans. The effect was devastating.

When the dust had settled, it was clear that if you reached 62 years of age after January 1, 1979, your hopes of a secure retirement had been dashed. Although attempts were made to lessen the impact for those immediately facing retirement—those born between 1917 and 1921—the ball had already started to roll downhill. If you were born January 1, 1917, and your neighbor was born December 31, 1916, you could be certain that even if all other factors were the same, you would receive lower benefits based on your date of birth alone.

This arbitrary inequity sealed the fate of many unsuspecting senior citizens who would now spend their so-called years of leisure short of good housing, proper medical attention, and even decent meals. A society certainly falters when, for the sole purpose of balancing budgets, it neglects the need of those who have given of themselves in times of war and times of peace. This type of action is not the mark of a great nation.

As great a damage as has been done, however, it is not too late to rectify this situation and to send the message that we still care. My legislation would compensate for some of this lost income by incorporating 3 more years of employment after age 62 for computation in Social Security benefits. This

would be made available for those who reached 62 in 1979 or later. It also would establish an income ceiling of \$29,700 for those 3 years after eligibility starts, and allow for a lump-sum retroactive payment for those who have forgone their rightful benefits since 1979. The \$29,700 income ceiling allows for a justifiable benefit increase now. Moreover, since this figure remains constant, it prevents mammoth escalations in the future with ample time for these future retirees to plan for their retirement years.

Every day we delay in our efforts to correct the notch we risk missing the chance to return these benefits to those who deserve them. Will this Government abandon those who fought so hard to survive the Great Depression and to save our country in World War II? Does a free and strong nation respond to its elderly with inequitable rewards? I urge my colleagues to join me in this struggle, and I ask unanimous consent that my bill be printed in the RECORD in its entirety.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 225

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) section 215(a)(4) of the Social Security Act is amended—*

(1) by striking out "who had wages or self-employment income credited for one or more years prior to 1979" in subparagraph (B) and inserting in lieu thereof "who has 27 or more quarters of coverage based on wages and self-employment income credited for years prior to 1979";

(2) by striking out "prior to 1984" in clause (i) of subparagraph (B) and inserting in lieu thereof "after December 1978";

(3) by inserting "as in effect in December 1984" after "section 215(d)" in clause (ii) of subparagraph (B); and

(4) by striking out the last sentence.

(b) The first sentence of section 215(a)(5) of such Act is amended—

(1) by striking out "(other than an individual described in paragraph (4)(B))";

(2) by striking out "except that," and inserting in lieu thereof "except that (A)"; and

(3) by inserting before the period at the end thereof the following: ", and (B) in the case of an individual described in paragraph (4)(B), such individual's average monthly wage shall be computed as provided by subsection (b)(4)".

SEC. 2. The first sentence of section 215(b)(4) of the Social Security Act is amended by striking out "except that" and all that follows and inserting in lieu thereof the following: "except that—

"(A) paragraph (2)(A) (as then in effect) shall be deemed to provide that the number of an individual's 'benefit computation years' may not exceed 25;

"(B) paragraph (2)(C) (as then in effect) shall be deemed to provide that an individual's 'computation base years' may include only calendar years in the period after 1950 (or 1936 if applicable) and prior to 1979, plus the 3 calendar years after 1978 for which the total of such individual's wages

and self-employment income is the largest; and

"(C) the 'contribution and benefit base' (under section 230) with respect to remuneration paid in (and taxable years beginning in) any calendar year after 1981 shall be deemed to be \$29,700."

SEC. 3. Section 215(f)(7) of the Social Security Act is amended by striking out "For purposes of recomputing a primary insurance amount determined under subsection (a) or (d) (as so in effect) in the case of an individual to whom those subsections apply by reason of subsection (a)(4)(B)" and inserting in lieu thereof the following: "For purposes of recomputing a primary insurance amount determined under subsection (a) (as so in effect) in the case of an individual to whom that subsection applies by reason of subsection (a)(4)(B)(i) as in effect after December 1978, the average monthly wage shall be determined as provided by subsection (b)(4). For purposes of recomputing a primary insurance amount determined under subsection (d) (as so in effect) in the case of an individual to whom that subsection applies by reason of subsection (a)(4)(B)(ii)".

SEC. 4. Section 215(i)(4) of the Social Security Act is amended by striking out "(but the application" and all that follows down through "paragraph (4) of that subsection)".

SEC. 5. (a) Section 215(a)(7)(A) of the Social Security Act is amended by inserting "or (by reason of paragraph (4)(B)(i)) under section 215(a) as in effect in December 1978" after "under paragraph (1) of this subsection" in the matter preceding clause (i).

(b)(1) Section 215(a)(7)(B)(i) of such Act is amended by striking out the first sentence and inserting in lieu thereof the following: "In applying subparagraph (A) in the determination of an individual's primary insurance amount, there shall first be computed (I) in the case of an individual whose primary insurance amount would be computed under paragraph (1) of this subsection, an amount which is equal to the individual's primary insurance amount under that paragraph, reduced by substituting (for purposes of this computation) the applicable percent specified in clause (ii) of this subparagraph for the percentage of the individual's average indexed monthly earnings established by subparagraph (A)(i) of paragraph (1), or (II) in the case of an individual whose primary insurance amount would be computed under section 215(a) as in effect in December 1978 by reason of paragraph (4)(B)(i) of this subsection, an amount which is equal to the individual's primary insurance amount under that section, reduced by a percentage equivalent to the percentage reduction which (as determined under regulations prescribed by the Secretary) would occur under subclause (I) if such primary insurance amount were a primary insurance amount under paragraph (1) of this subsection."

(2) The second sentence of section 215(a)(7)(B)(i) of such Act is amended by inserting "or (by reason of paragraph (4)(B)(i)) under section 215(a) as in effect in December 1978" after "under paragraph (1) of this subsection".

(3) The third sentence of section 215(a)(7)(B)(i) of such Act is amended by inserting "or (by reason of paragraph (4)(B)(i)) under section 215(a) as in effect in December 1978," after "under paragraph (1) of this subsection".

Sec. 6. (a) The amendments made by this Act shall be effective as though they had been included or reflected in section 201 of the Social Security Amendments of 1977.

(b) In any case where an individual is entitled on the date of the enactment of this Act to old-age insurance benefits under title II of the Social Security Act which were computed—

(1) under section 215 of that Act as in effect (by reason of the Social Security Amendments of 1977) after December 1978, or

(2) under section 215 of that Act as in effect prior to January 1979 by reason of subsection (a)(4)(B) of such section (as amended by the Social Security Amendments of 1977),

the Secretary of Health and Human Services (notwithstanding section 215(f)(1) of the Social Security Act) shall recompute such individual's primary insurance amount so as to take into account the amendments made by this Act, and shall pay to such individual in a lump sum any additional amount to which such individual is entitled (for the period beginning with the first month for which such individual was entitled to such benefits and ending with the month preceding the first month with respect to which such recomputation is effective) by reason of such amendments. No recomputation of an individual's primary insurance amount under the preceding sentence shall have the effect of reducing or otherwise affecting any monthly insurance benefit which is payable under title II of the Social Security Act to any other person on the basis of such individual's wages and self-employment income for any month before January 1985.

By Mr. D'AMATO:

S. 226. A bill to promote the safety of children receiving day care services by establishing a national program for the licensing of child day care providers, establishing a clearinghouse for information with respect to criminal records of employees of day care centers, and establishing a hotline for reporting of abuse of children receiving day care services, and for other purposes; to the Committee on Finance.

#### NATIONAL CHILD PROTECTION ACT

● Mr. D'AMATO. Mr. President, I rise to reintroduce the National Child Protection Act. The National Child Protection Act will assure the safety and healthy development of our children. It helps to identify abusers and prevents this serious crime confronting our children and families.

During the 99th Congress, I introduced the National Child Protection Act to promote national guidelines for the safe and healthy development of our children. The Secretary of the U.S. Department of Health and Human Services would work with a panel of 12 experts and representatives in developing guidelines for day care centers. The National Child Protection Act promotes uniform data gathering on the incidence and reports of child sexual abuse.

We can no longer wait, nor can we take the chance that these incidents will not occur again. We need to have a national reporting system of cases of

sexual abuse, this national listing of abusers would be available to day care centers and to law enforcement agencies, not to the general public.

Mr. President, this reporting mechanism will decrease the incidence of sexual abuse. A child molester would not be able to transfer from center to center or from State to State and continue to abuse children. The reporting system would be uniform at all centers and in each State. There would be no disparity in the data collected. Nationwide, there would be a uniform reporting system on sexual abusers.

To assure a comparable reporting system in each State, the U.S. Department of Health and Human Services would provide guidelines for all States to follow. The States would be responsible for making certain that every day care center follows the same procedures. A toll free (800) phone number would be available 24 hours a day, 7 days a week, for anyone to report the abuse of a child. It is a national priority that we have this nationwide system.

Some States have taken it upon themselves to assure the safety and welfare of our children. For example, bills have been passed in State legislatures that allow the conviction of a child molester solely on the basis of the victim's testimony. Other States have taken additional steps. However, many day care facilities are monitored loosely. Many only require minimal health standards. Some do not have licensing requirements. Licensing regulations vary widely from State to State and are often subject to change. The U.S. Department of Health and Human Services, along with the panel set up by this legislation, would set uniform guidelines.

Moreover, the National Child Protection Act is designed to combat child sexual abuse. It is a part of our continuing effort to encourage States to send a message to child molesters. These criminals must know that we do not, and will not, condone, nor will we tolerate, the molestation of our children in day care centers or anywhere else.

To make certain that these criminals get the message and the punishment that they deserve, I believe we need stricter penalties for those convicted of child sexual abuse. Stricter penalties are the only way to make certain that these criminals are discouraged from destroying the lives of our children. Judges should have the ability to provide stiff sentences for this horrible crime. Clearly, this would help eliminate child sexual abuse.

I commend the Northeast Conference on the Judiciary on Child Sexual Abuse for taking a leadership role on behalf of our children. The increased attention that this group has brought to the atrocity of child sexual abuse is

vital to the general well-being of American children and families.

If one child is molested or sexually abused, that is one too many. However, with the National Child Protection Act and the participation of groups like the Northeast Conference on the Judiciary on Child Sexual Abuse, we can make progress toward ending the exploitation and abuse of children. Together we can educate parents and children about the shocking crime of child sexual abuse. Together, we fight not only for our children and their protection, but for the protection of all children. Therefore, I hope my colleagues will join me in supporting the speedy passage of the National Child Protection Act.

Mr. President, we are a nation whose children are at risk. Working together we can, and will, stop this American tragedy.

Finally, Mr. President, I ask unanimous consent that the full text of this legislation be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 226

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SHORT TITLE

SECTION 1. This Act may be cited as the "National Child Protection Act".

#### AMENDMENT TO TITLE XX

SEC. 2. Title XX of the Social Security Act is amended by adding at the end thereof the following new section:

#### "LICENSING AND INFORMATION WITH RESPECT TO PROVIDERS OF CHILD DAY CARE SERVICES"

"SEC. 2008. (a) As a condition for receiving any funds under this title, a State must have in effect a program under which—

"(1) the State will require the licensing and monitoring of all providers of child day care services in accordance with the standards established by the Secretary pursuant to subsection (b);

"(2) the State will provide information to the Secretary with respect to all individuals providing child day care services or employed by providers of child day care services, and with respect to all individuals convicted of child abuse, child molesting, or similar crimes, in accordance with subsection (e); and

"(3) the State will have in effect a toll-free telephone hotline for the reporting of any allegations of child abuse, child molesting, or similar acts committed by any individual providing child day care services or by any employee of a provider of child day care services, in accordance with subsection (d).

"(b)(1) The Secretary shall by regulation establish standards and guidelines for State licensing and monitoring of providers of child day care services. Such standards and guidelines shall assure the safety, health, and developmental potential of children while receiving child day care services, and shall promote the social, emotional, physical, and cognitive growth of such children while receiving such services. The Standards and guidelines shall include provisions for

assuring that only adequately trained individuals provide such services.

"(2) The Secretary shall determine a uniform definition of 'child day care services', and of a 'provider of child day care services', which shall apply for purposes of this section, and which will assure that the maximum feasible number of children shall be protected under the provisions of this section.

"(c)(1) The Secretary shall establish a national file of the names, addresses, and social security numbers of all individuals convicted of crimes involving child abuse, child molestation, or such similar acts which the Secretary determines ought to be included in such file for the purpose of protecting children receiving child day care services.

"(2) Each State shall report to the Secretary the name, address, and social security number of any individual convicted in such State of child abuse, child molestation, or a similar act which the Secretary has determined under paragraph (1) ought to be included in the national file. For purposes of this paragraph the Secretary shall establish a uniform reporting system which shall apply to all the States.

"(3) Each State shall require that no individual or provider may be licensed to provide child day care services in such State if such individual, or any employee of such provider, has been convicted of a crime which has been reported (by any State) to the Secretary and is contained in the national file. Each State must, for purposes of ensuring compliance with this subsection, request the Secretary to check the names of each individual seeking a license to provide child day care services, and each employee of a provider seeking such a license, against the list of names contained in the national file, prior to granting such license.

"(d) Each State shall establish a toll-free telephone hotline for the reporting of any allegations of child abuse, child molestation, or any similar act designated by the Secretary for inclusion in the national file, committed by an individual providing child day care services, or by an employee of a provider of such services. The State must provide follow-up investigation of each such allegation in accordance with standards established by the Secretary under regulations.

"(e)(1) There is established an 'Advisory Panel on Child Protection', hereafter in this section referred to as the 'Panel'. The Panel shall consist of 13 members as follows:

"(A) four members appointed by the President, one of whom shall be designated as the Chairman;

"(B) four members appointed by the Speaker of the House of Representatives;

"(C) four members appointed by the President pro tempore of the Senate (upon recommendation of the Majority Leader and the Minority Leader); and

"(D) the Secretary of Health and Human Services, ex officio.

"(2) It shall be the duty of the Panel to advise the Secretary with respect to the standards and guidelines issued under this section, and to propose any recommendations for changes in such standards and guidelines which may be appropriate.

"(3) Members of the Panel who are not employees of the United States shall be appointed without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, and shall be compensated at a per diem rate established by the Secretary for each day (including traveltime) during which they are

engaged in the actual business of the Panel. Any member of the Panel engaging in the actual business of the Panel away from his home or place of business may be allowed travel expenses (including per diem in lieu of subsistence) as authorized by section 5703 of title 5, United States Code, for persons in the Government service employed intermittently.

"(4) The Secretary shall make available to the Panel such clerical and other assistance, and any pertinent data prepared by the Secretary, as the Panel may require to carry out its functions."

#### EFFECTIVE DATE

SEC. 3. (a) The Secretary of Health and Human Services shall promulgate all regulations required under section 2008 of the Social Security Act within 90 days after the date of the enactment of this Act.

(b) The requirements of section 2008 of the Social Security Act shall apply to States beginning 180 days after the date of the enactment of this Act.●

#### By Mr. D'AMATO:

S. 227. A bill to amend the Securities Exchange Act of 1934 to impose additional restraints on corporate tender offers, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

#### INTRODUCING THE TENDER OFFER REFORM ACT OF 1987

● Mr. D'AMATO. Mr. President, in the weeks subsequent to the revelation of the Ivan Boesky insider trading scandal, many of my colleagues have been advocating reforms of the laws governing corporate takeover activity. I applaud my colleagues for their interest in this area of the law because I have also been advocating amendments to the Williams Act. In fact, I have been advocating for reform of the Federal securities laws governing corporate takeovers for several years. I regret that it took an event as tragic as the Boesky scandal to bring to the attention of many of my colleagues the need for amendments to the Williams Act.

Today I am introducing three proposals that will amend the Securities Exchange Act of 1934 ("Exchange Act"). The proposals could have easily been combined into one legislative package. The first legislative proposal addresses the issues attendant to the laws governing corporate takeovers. The second and third proposals address issues attendant to insider trading. I have chosen to introduce them separately to emphasize the differences between reform of the laws governing corporate takeovers and reform of the laws prohibiting insider trading.

Such a distinction is required because many commentators have cited the Boesky scandal as the justification for drastic reform of the laws governing corporate takeovers. In drafting responsible legislation addressing the abuses of insider trading and certain abusive practices employed in contests for corporate control takeovers—especially hostile takeovers, I think that a

distinction must be made between those who trade on inside information in the context of takeovers and those who engage in conduct which contravenes the Williams Act. Therefore, I have introduced separate legislative proposals which are designed to remedy separate deficiencies in the securities laws.

Students of tender offer reform should recognize the legislation which I introduce today because it is almost identical to the legislation (S. 1907, The Tender Offer Reform Act of 1985) which I introduced on December 6, 1985. Although this legislation received little notice from my colleagues (except those colleagues who have subsequently introduced proposals similar to those contained in S. 1907) at the time of its introduction, it received much favorable comment from members of the securities bar advocating amendments to the Williams Act. It was also the only piece of comprehensive tender offer reform legislation introduced in either body during the 99th Congress. Furthermore, it addresses many, if not all, of the concerns recently expressed by my colleagues regarding the regulation of corporate takeover activity. For example, it limits the practice of greenmail and the payment of golden parachutes; it makes it more difficult for corporate raiders to engage in two-tier and partial takeovers; it requires those acquiring 5 percent or more of a company's stock to announce almost immediately their position in a particular security; it provides for simplified disclosure of the terms and conditions of a takeover to shareholders; and it restricts the usage of unconventional tender offers which have been undertaken in a deliberate attempt to avoid the requirements of the Williams Act. The purpose of this legislation is to further the original goals of the Williams Act by increasing shareholder protection while maintaining the balance between bidders and targets which the authors of the Williams Act desired to create.

The one substantive change to this bill as introduced last year is the deletion of the provision which prohibited the use of discriminatory tender offers such as that employed by Unocal Corp. This provision has not been included because the SEC has promulgated a rule, commonly referred to as the all-holders rule, that accomplishes the purposes of that provision of my previous legislative proposal.

This bill does not include provisions previously contained in section 4(a)(7)(i) of S. 1907. That section would have required that tender offers be made to all shareholders equally; all shareholders would have to be included in a tender offer, and all shareholders would receive compensation at the same level. This section is no

longer necessary because the Securities and Exchange Commission apparently recognized the wisdom of adopting a provision similar to section 4(a)(7)(i) and utilized its rulemaking power under the Securities Exchange Act of 1934 to adopt rules providing for these same protections; amended rule 13e-4(f) now provides "all holders" and "best price" safeguards for tender offers by issuers, and new Rule 14d-10 provides such requirements for third party tender offers.

The Exchange Act provides authority for the Commission to adopt these safeguards. For example, under section 23(a), the Commission is authorized to adopt rules necessary or appropriate to implement the provisions of that act. The new all holders and best price provisions are in furtherance of the purposes of the Williams Act amendments to the Exchange Act, adopted in part to eliminate discriminatory treatment among security holders who may desire to tender their shares. With clear agency rulemaking, there no longer is any need for legislative action on these points.

The Tender Offer Reform Act of 1987 provides a comprehensive legislative response to the issues raised in the public debate on corporate takeover activity. This debate has been waged in earnest in Congress, the courts, corporate boardrooms, and the SEC in recent years. The legislation addresses the many issues that have arisen from the increase in corporate takeover activity in the last 4 years. I would hope that my colleagues will take a keen interest in tender offer reform during the committee's examination of the issue of tender offer reform, this bill and other legislative proposals which undoubtedly will be introduced.

Within the last few years, contests for corporate control have become a more frequent phenomena on the American business scene. Once the private domain of a handful of investment bankers, lawyers, and corporate executives, takeover contests have become an increasingly popular spectator sport. The publicity surrounding several recent multibillion dollar acquisitions has familiarized the public with a glossary of new terms including, among others, golden parachutes, greenmail, bear hugs, shark repellent, poison pills, pac man defense, scorched earth defense, lock ups, leg ups, silver wheel chairs, crown jewels, and white knights. These terms have been used to describe the various offensive and defensive tactics which may be employed to effectuate or prevent a change in corporate control.

Contests for corporate control have been conducted with the intensity of military campaigns, with the futures of large and small companies and the economies of affected communities hanging in the balance. Elaborate

strategies and ingenious tactics have been developed to facilitate takeover attempts and to defend against them. Skirmishes are fought in company boardrooms, in shareholders' meetings and, with increasing regularity, in the courts.

The "problems" attendant to takeovers are in the forefront of corporate law and have spawned much congressional inquiry. As chairman of the Securities Subcommittee of the Senate Banking Committee, I conducted hearings on the long-term effects of takeover activity on the credit and capital markets. The adequacy of the existing Federal regulation of the takeover process, the Williams Act, in maintaining a balance between acquiring and target companies was also examined. Although the hearings were held on April 3 and 4, and June 6 and 12, 1985, (See, S. Hrg. 99-187), I have continued to expend considerable effort to develop an appropriate legislative response to the issues raised during those hearings and to the issues presented by recent court decisions affecting the application of the Williams Act.

During the subcommittee's hearings and throughout its subsequent inquiry, the complexities attendant to the regulation of battles for corporate control have become apparent. For example, a tremendous divergence of opinion exists with regard to the threshold question: Is the Williams Act working? Some contend that Congress is compelled to act because the abusive tactics employed by raiders and defenders demonstrate a breakdown in the rules that govern corporate takeover activity. Others contend that the Williams Act is functioning properly and that few, if any, changes are needed.

In devising an appropriate legislative response, several issues must be addressed. Foremost among them is determining the causes of the current increase in takeover activity and whether the causes are amendable to legislative solutions. In testimony received by the subcommittee, the increase in takeover activity has been attributed to the depressed value of a target's stock price caused by international competition, a relatively strong dollar, fluctuating interest rates, and declining rates of inflation; economic forces that have driven the restructuring of many U.S. industries rendering them susceptible to takeover; the availability of credit to finance these transactions; the prevailing legal and business climate that permits combinations to take place with little risk of Government interference; and the advantages in the Tax Code that subsidizes debt over equity, thus encouraging the use of debt financing for acquisitions. If these are the causes of the recent increase in takeover activity, then amending the securities laws will not

necessarily provide an appropriate legislative response.

Another possible solution would be to regulate the various offensive and defensive tactics employed in struggles for corporate control. There are numerous reasons why Congress should not attempt to ban specific tactics. Congressional prohibitions which preclude management from engaging in certain activities interject the Federal Government into the corporate decisionmaking process. Congress should be wary of needless intrusions into corporate boardrooms where it neither should feel comfortable, nor welcome. This is an area of regulation that traditionally has been left to State legislatures and to the application of the business judgment rule by State and Federal courts. Further, legislation which discourages takeover attempts necessarily interjects Congress into decisionmaking regarding the proper allocation of credit and capital. These decisions are best left to the efficiencies of the financial markets.

By addressing individual tactics, Congress also risks unbalancing the present legislative framework to favor either bidders or targets. Any action which favors one group over another is at the very best an implicit judgment that tender offers are either good or bad—a judgment which we, like the authors of the Williams Act, should refrain from making. Moreover, congressional activity in such a rapidly evolving area of the law may be either premature, tardy, or totally unnecessary. Court decisions, shareholder actions, amendments to corporate charters and by-laws subject to shareholder approval, and stock exchange rules may provide adequate solutions to many of the concerns raised by those urging Congress to ban certain offensive and defensive tactics.

The testimony of the numerous witnesses was distinguished by the considerable expertise they provided to the subcommittee and by their failure to agree on an appropriate regulatory or legislative response to the various offensive and defensive tactics employed in takeover battles. Despite this general disagreement, a consensus did emerge that the imperative objective of any amendments to the Williams Act must be to increase shareholder protections. The protections to shareholders intended by the act have been eroded by recent developments and legal interpretations of the rules governing the takeover process. Shareholder protection can be enhanced by making what may be considered procedural, rather than substantive change to the Federal securities laws governing takeovers. Procedural changes to the regulation of takeover activity are entirely consistent with the legal framework of the Federal securities laws.

The determination of an appropriate legislative response to the issues addressed at the hearings of the Securities Subcommittee has been greatly influenced by the legislative history of the Williams Act. In 1968, Congress enacted the Williams Act to provide a framework for the regulation of corporate takeovers in the national marketplace. The Williams Act was designed to fill a gap in the securities statutes to ensure that investors and target companies had adequate information and opportunity to make investment decisions in transactions designed to cause, or resist, a substantial shift of ownership away from the existing securities holders. The Williams Act was not intended to discourage or encourage takeover activity or to provide management or any other group with special privileges or advantages over another. The act was not designed to regulate the conduct of management or bidders or the tactics they employed to thwart or effectuate a takeover. The Williams Act sought to avoid tipping the scales either in favor of management or in favor of the bidder; to require full and fair disclosure to shareholders; to provide the bidder and management equal opportunity to participate in a tender offer. We should not stray too far from these principles unless Congress is willing to make normative judgments concerning the appropriateness of corporate decisions.

This legislation contains amendments to the Williams Act consistent with the original intent of that act's authors. The proposed legislation modifies the act to ensure that it continues to protect investors and the public interest without placing undue impediments that thwart honest and lawfully conducted takeover transactions. Legitimate corporate takeover activity will not suffer by the enactment of this legislation. The modification of the disclosure requirements of section 13 and 14 of the Exchange Act combined with the procedural modifications contained in the legislation will benefit investors and discourage pure financial plays.

Prudence dictated the development of a balanced legislative response unless we are determined to impede the tender offer process. Legitimate tender offers, as distinguished from greenmail or pure financial plays, have a disciplining effect on incumbent management. Tender offers also provide economic benefits to the shareholders of a target who wish to participate in the offer. However, it is a difficult task to draft legislation which discerns between offers that may be considered pure financial plays and restrict these without simultaneously impeding legitimate takeover activity. Moreover, restrictions on legitimate takeovers imposed by the Congress designed to reduce or elimi-

nate takeover activity could deprive shareholders of potential opportunities to participate in an offer. The imposition of across-the-board restrictions on specific offensive and defensive tactics which would inhibit or promote such transactions involves Government interference in the free market's determination of credit and capital allocation.

Finally, it is not clear that substantive changes in the Federal securities laws governing tender offers would have any clear benefits for stockholders or for the economy in general. Contrary to claims that takeovers force corporate managers to sacrifice long-term investment planning for short-term profits, there has been no conclusive demonstration that tender offers are detrimental to the economy. Further, little conclusive evidence exists that demonstrates that tender offers have a disruptive effect on domestic credit and capital markets. There is evidence, however, which suggests that economic factors such as interest rates, inflation, the present structure of Federal corporate taxation, and consumer demands influence corporate planning to a far greater extent than the fear of corporate raiders. Therefore, it is preferable to allow individual companies to decide whether and how they want to acquire other companies or to protect themselves than to have the Federal Government impose rigid restrictions which govern corporate conduct during takeover battles.

Ideally, the legislation described below satisfies the objectives that the subcommittee intended to accomplish when it began its inquiry. Some critics will attack it as unresponsive to the needs of the beleaguered incumbent managements threatened by the spectre of a hostile raider looming just beyond the horizon. Others will contend that the legislation represents an unwarranted Federal intrusion into the marketplace. They see no merit in any regulation that diminishes a shareholder's ability to reap the rewards to be gained from corporate raiders who claim that they are compelled to act out of concern for the shareholders best interest and to promote economic efficiencies, rather than a desire for personal profit.

To these critics I would respond that neither this legislation, nor the Williams Act is designed to protect the jobs of incumbent managements or to ensure the success of a hostile offer by removing every impediment management may place in a raider's path. This legislation is not intended to benefit either target managements or bidders. The intended beneficiaries of this legislation are the shareholders affected by contests for corporate control. Shareholder protections will be enhanced by this legislation because it creates a more orderly process

through which substantial portions or entire corporations are bought and sold in the trading market.

This legislation is needed to ensure that shareholders will be able to make well informed investment decisions on the disposition of their holdings in a corporation subject to a takeover. The legislation is not intended to promote or impede takeover activity because, frankly, the Federal securities laws were not designed and should not be employed to affect the economic policy of this country. Such public policy decisions which limit corporate takeover activity may ultimately prove justified, however, such changes should not be implemented through the "backdoor" by amending the Federal securities laws. Thus I strongly urge prompt and favorable consideration of this legislation by my colleagues. I ask unanimous consent that the explanation and analysis of the bill and the bill be printed in the RECORD.

#### EXPLANATION AND ANALYSIS

Section 1 of the bill states that the bill may be cited as the "Tender Offer Reform Act of 1987."

Section 2(a) amends the reporting requirements of section 13(d) of the Securities Exchange Act of 1934—Exchange Act. Currently, under section 13(d) of the Exchange Act, any person who acquires more than 5 percent of a class of equity securities of an issuer must, within 10 days after acquiring more than 5 percent, notify the issuer and file with the Securities and Exchange Commission [SEC] a statement containing certain information about the acquirer's background, the source and amount of funds used to make the acquisition, any intentions to acquire control of the issuer, and other information prescribed by statute or Commission rules.

Section 13(d) in its present form permits the notification and filing to occur as many as 10 days after the 5-percent threshold is exceeded. The 10-day threshold has frequently failed to supply stockholders, the trading markets, and the public with timely information about the identity and intentions of the purchaser. The 10-day interim filing period between the purchase of more than 5 percent and the reporting of the acquisition has been used to the unfair advantage by acquirers who continue to buy large amounts of securities before notifying the issuer, the SEC and the trading markets. Recent acquisitions demonstrate that the 10-day filing period allows an acquirer to gain controlling interest in a company before the company and the trading markets were notified of the acquisitions.

Section 2(a) eliminates the 10-day interim filing period by requiring that a person, who acquires more than 5 percent of a class of equity securities,

publicly announce that acquisition and file the materials presently required by the Exchange Act with the SEC, the issuer and to each exchange upon which the security is traded within 24 hours of the acquisition. The acquiror is then precluded from acquiring additional securities of the same class for 2 business days after the acquisition that caused the acquiror's obligation to file the report, or such shorter period as the SEC may prescribe.

Section 2(a)(2) specifies the information that must be contained in the public announcement required by section 2(a)(1).

Section 2(b) permits the SEC to exempt by rule, regulation or order certain acquirors from the terms and conditions of section 2(a) if the SEC determines that such an exemption is in the public interest.

Section 3(a) and 3(b) are technical and amend sections 13(d)(3) and 13(g)(3) of the Exchange Act. Sections 3(a) and 3(b) apply the provisions of sections 13(d)(3) and 13(g)(3) of the Exchange Act to groups acting in concert for the purpose of voting securities. Although the statute currently applies to groups acting in concert for certain purposes, this section clarifies the application of the statute to groups acting in concert for the purpose of voting securities.

Section 4 amends section 14 of the Exchange Act, section 14 of the Exchange Act is commonly referred to as the Williams Act. Sections 4(a)(1) and 4(a)(2) are technical in nature.

Section 4(a)(3) adds a new provision to the Williams Act. This section is designed to effectuate the original purpose of the Williams Act by requiring that the shareholders of a company subject to a takeover receive adequate information of the offer in a comprehensible form. Under section 14(d) of the Exchange Act, a person making a tender offer for, or a request or invitation for tenders of any class of any equity security registered pursuant to section 12 of the Exchange Act must file certain information with the Commission and publish information for shareholders of the securities sought by the acquiror.

An examination of the materials that shareholders received pursuant to a tender offer demonstrated that, while these tender offer materials provided adequate disclosure in accordance with the technical requirements of the Williams Act and SEC regulations, the materials were often of little use to shareholders. The information contained in the tender offer materials received by shareholders is not easily comprehended by the average investor or in some cases by sophisticated investors and market professionals. In the absence of any clear explanation of the offer, investors must reply on

information about the offer as provided by the media.

Although such reliance may not be misplaced, the intent of the Williams Act was to ensure that shareholders received an explanation of the terms and conditions of an offer from the offeror. Although shareholders are literally bombarded with information about the offer, well informed investment decisions are difficult where these tender offer materials prove incomprehensible.

Section 4(a)(3) resolves the shareholders' dilemma by requiring that an executive summary of the material terms and conditions of a tender offer be provided in addition to or included in the other tender offer materials received by shareholders. The information to be provided in this summary is described in the subsections of section 4(a)(3). The acquiror must publicly announce any change of the information contained in these subsections. These provisions require that shareholders receive a brief explanation of the information similar to the information presently provided to the Commission pursuant to the requirement of schedule 14D.

Subsection 4(a)(3)(ii) is specifically designed to address the issue of valuing the price of two-tier tender offers. The subcommittee has received testimony citing the potential confusion and the pressures experienced by shareholders and confronted by a two-tier offer. This subsection is intended to require the bidder to provide information concerning its valuation of the second step of a two-tier offer and an explanation or accounting of the determination of the value ascribed to the second step payment where that payment is not an all cash offer.

Subsection 4(a)(3)(vi) is designed to address issues related to an acquiror's intentions to liquidate or merge the issuer or make any other change in its business or corporate structure. The acquiror would also be required to disclose its intentions to relocate material portions of the issuer's business activities, including its principal executive office and other major restructurings that would affect the issuer's management or employees. This provision does not require a statement of the effects of a change in corporate control upon the relevant community or communities. Therefore, it should be viewed as a corporate impact statement rather than as a community statement.

Subsection 4(a)(3) is not designed to create a new legal cause of action in addition to those that presently exist under the disclosure provisions of the Exchange Act. It is designed to ensure that shareholders receive more adequate and useful disclosure of the terms and conditions of a tender offer and its effects on the target corporation.

Section 4(a)(4) amends section 14(d) by adding a new paragraph that extends the minimum offering period for tender offers. The minimum offering periods required by section 4(a)(4) distinguish between tender offers for any and all outstanding shares of a company's stock and two-tier tender offers and an offer for less than all of the outstanding shares of a company's stock, partial offers. The minimum offering period for tender offers for any and all of a company's outstanding share will be 30 calendar days. The minimum offering period for two tier tender offers and partial offers will be 40 calendar days. Under current SEC regulations, the minimum offering period for all tender offers is 20 business days. Section 4(a)(4) shall not apply to an issuer tender offer, if it is not made in anticipation of or in response to another person's offer.

The extension of the minimum offering period is designed to benefit shareholders by providing them more time to consider and to assimilate information regarding a takeover attempt. The extension of the minimum offering period will also provide the SEC a greater opportunity to examine a tender offer prior to the termination of an offer and to determine whether the offer was made in compliance with the Williams Act. Hopefully, the extension of the minimum offering period will discourage the use of abusive defensive tactics by a target's management who often feel compelled to employ these tactics in an effort to buy time. The extension of the minimum offering period provides a target's management with a greater opportunity to solicit higher alternative bids. These higher bids and the higher premiums provide another benefit to shareholders.

The distinction between the 30-day minimum offering period provided for any and all offers and the 40-day minimum offering period provided for two-tier and partial offers is justified due to the more complex nature of latter two types of bids. Given the terms and conditions of an any/all offer, 30 calendar days should provide shareholders sufficient time to receive and consider tender offer materials and to make an informed investment decision. Given the notice to the market and target shareholders by the initial any and all bid, shareholders should have sufficient time to receive and consider these materials and to make an informed investment decision if the minimum offering period for a subsequent competing bid is 20 calendar days. The minimum offering period in section 4(a)(4) also contains a provision that prevents the termination of a subsequent competing bid prior to the expiration of the initial offer.

By comparison, the terms and conditions of two-tier and partial offers

present shareholders with more complex investment decisions. Current regulations under the Williams Act make little regulatory distinction between full, partial and two-tier offers. Witnesses appearing before the committee argued that the use of two-tier and partial offers should be restricted or banned.

Opponents of two-tier and partial offers argued that these offers coerced shareholders into making investment decisions against their will. Others argued that partial offers provided positive economic effects and that two-tier offers provided shareholders of a target company higher premiums than offers with no second steps. Moreover, empirical evidence provided to the subcommittee demonstrated that the blended value of the premiums received in a two-tier offer were higher than premiums paid for cash offers. However, the reasons advanced by those advocating the equal treatment of any and all, partial and two-tier offers did not outweigh concerns with respect to the potentially coercive elements of partial and two-tier bids.

Rather than prohibit the use of partial and two-tier offers, prohibitions inconsistent with the underlying legal philosophy of the Williams Act, the minimum offering period is extended to 40 calendar days. This extension should eliminate the more coercive elements of these offers by providing shareholders more time to evaluate the value of partial and two-tier offers and the consequences that participation in or a failure to participate in such offers would have on the value of their holdings. The distinction in the minimum offering periods between any all and partial and two-tier offers operates as a regulatory disincentive against use of partial and two-tier offers in contests for corporate control.

When a subsequent bid is made pursuant to an initial partial or two-tier offer, section 4(a)(4) requires that the subsequent offer remain open for a minimum of 30 calendar days. Given the notice to the market and target shareholders by the initial bid, shareholders should have sufficient time to make an informed investment decision if the minimum offering period for a subsequent competing bid is 30 calendar days. The subsequent bid will not be allowed to terminate prior to the expiration date of the initial bid.

Section 4(a)(7) adds a new subsection (f) to section 14(d) of the Exchange Act to prohibit the award of golden parachute agreements. Present subsections (f) and (g) have been redesignated as subsections (l) and (m) respectively. This provision prohibits an issuer, during a tender offer, from entering for amending agreements that increase directly or indirectly, the current or future compensation of any officer or director. The practice of

awarding golden parachutes during the pendency of a tender offer presents the appearance of self-dealing by the management of a target company at the expense of its shareholders. The prohibition extends to provisions "whether or not independent on any event or contingency." Thus, the prohibition affects termination agreements, large salary increases or stock options if they are precipitated by a tender offer.

This section neither prevents the hiring of new officers or directors, nor increases in compensation, if such actions resulted from an agreement predating a tender offer. The prohibition does not apply to routine compensation agreements undertaken in the normal course of business. Golden parachute agreements adopted in the normal course of business that are disclosed to shareholders are not prohibited. Such agreements do not exemplify the type of abusive self-dealing the legislation would curb. Although recent amendments to the Tax Code discourage golden parachute payments by increasing the tax imposed upon them, additional legislation is required to prohibit golden parachute agreements adopted during a contest for corporate control.

Section 4(a)(7)(g) adds a new section (g) to section 14 of the Exchange Act. This section limits a corporation's ability to make greenmail payments. Greenmail constitutes a repurchase, at a significant premium, of a block of an issuer's stock held by a person threatening a takeover. The payment of greenmail is unfair to a company's shareholders because it unjustly rewards the recipient of the greenmail payment at the expense of the remaining shareholders. Such payments are in effect discriminatory offers that exclude a substantial majority of a company's shareholders. This section prohibits a company from purchasing its securities at a price above the average market price of the securities during the 30 preceding trading days from any person who has held more than 5 percent of its outstanding shares for less than 6 months. The payment of greenmail to a person covered by this section would be permitted upon the approval of a majority of the shareholders or the company's making an equal offer to its other shareholders.

Section 4(a)(7)(h) provides a new subsection (h) to section 14 of the Exchange Act. This subsection authorizes the Commission to grant exemptions from new sections 14(f) and 14(g) of the Exchange Act. This section enables the SEC to use its exemptive authority to: First, prevent unintended or inequitable results; second, avoid the application of these sections to transactions which do not present the abuses or consequences that this legislation is designed to address; and third, provide for flexible administra-

tion in a rapidly evolving area of the law, consistent with the SEC's investor protection mandate.

Section 4(a)(7)(i) adds a new section 14(i) to the Williams Act that addresses the issues raised by large open market purchases that affect corporate control. The takeover contests between the Limited and Carter Hawley Hale Stores and Hanson Trust PLC and SCM Corp. are examples of large purchases that were determined not to constitute conventional or unconventional takeovers. In both cases, large percentages of a target's share and the corresponding ownership interests were transferred in transactions that were not considered as conventional or unconventional tender offers and were therefore considered to be outside of the coverage of the Williams Act.

The SEC challenged the legality of the purchase program of Carter Hawley Hale and argued that the company's purchases constituted an unconventional tender offer. In *SEC versus Carter Hawley Hale Stores Inc.*, the court allowed the purchase of a large percentage of a target company's shares in a short time without requiring compliance with the Williams Act even where the purchase program was undertaken to defeat an offer conducted in accordance with that statute. The decision in *Hanson Trust PLC versus SCM Corp.*, suggests that a bidder can begin a tender offer thereby calling into play market forces that facilitate large accumulations of a target's stock, and then terminate the offer to take advantage of the market forces to purchase quickly an amount of stock in the open market that affects corporate control. This decision also suggests that an equal opportunity for shareholders to participate in tender offer transactions is not a goal of the Williams Act and that sophisticated investors do not need the protections of the act. The decision demonstrates a fundamental failure of the court to comprehend the purpose of the investor protections provided by the Williams Act. This section should clarify any judicial misconstructions of the Williams Act. The act is designed to treat all shareholders equally regardless of their level of sophistication and to ensure that all shareholders accorded the opportunity to participate in an offer at the same terms and for the same price.

Open market purchases that constitute unconventional tender offers merit regulation because a purchaser can effectively acquire control of a corporation without paying the premium that usually accompanies such acquisitions. The shareholders are thereby denied the opportunity to realize a control premium. Further, some shareholders are either entirely excluded from participating in the purchase or prevented from having their shares

taken up on a pro rata basis as would be the case in a tender offer conducted in compliance with the Williams Act.

Section 4(a)(7)(i) limits the inequities suffered by shareholders in open market purchase programs that result in changes in corporate control by placing limitations on an acquiror's ability to acquire control by huge open market purchases that are not subject to the Williams Act. This section prohibits the acquisition of more than 2 percent in open market purchases of a company's outstanding securities in the calendar year after a person acquires beneficial ownership of 20 percent of a company's outstanding shares. The acquiror can continue to acquire 2 percent through open market purchases in each subsequent calendar year. Any acquisition above the 2-percent level in a calendar year once the 20-percent threshold has been reached can only be accomplished through a tender offer.

The 2-percent acquisition level is designed to permit acquisitions that are not substantial. Therefore, the requirements of this subsection do not apply to any acquisition or proposed acquisition when combined with all other acquisitions effected during the preceding 12 calendar months does not exceed 2 percent of the outstanding shares.

This section also contains exemptions that apply to: First, acquisitions by gift, inheritance, bequest or other involuntary; second, acquisitions by a statutory merger or combination consummated under the laws of the issuer's state of incorporation; or third, any acquisition that the SEC by rule or regulation exempts in the public interest and consistent with the protection of investors. The exemptive language in this section and the other sections of the legislation grant the SEC the authority to exempt any transaction if the particular transaction will not change or influence control of the issuer or otherwise is not comprehended with the purposes of the Williams Act or the amendments to that act contained in this legislation.

Section 4(b)(k)(1) amends section 14 of the Exchange Act by defining persons for purposes of subsections (d), (e), (f), (g), and (i) of section 4(a) to include a group of persons, utilizing language similar to current section 14(d)(2). The statute thus makes explicit that the definition, which the Commission has interpreted as applying to current section 14(e), governs all tender offer provisions.

Section 4(b)(k)(2) provides that in determining for purposes of subsections (d), (g), and (j) of section 4(a), what constitutes a specified percentage of a class of any security, of the class shall be determined to consist of the outstanding securities of the class,

exclusive of securities held for the issuer or any subsidiary of the issuer.

Section 5 states that none of the provisions of the legislation limit the SEC's authority to supplement proration, withdrawal or minimum offering periods. The SEC has, and has exercised this authority under existing law.

The effective date of the legislation will be the date of enactment. The legislation does not apply to any tender offer that commences prior to the date of enactment.

Section 6 is intended to address the issues generated by the increased usage of high yield, noninvestment grade bonds as a corporate finance technique. A great deal of publicity about the use of high yield, noninvestment grade bonds has been generated by the use of these bonds to finance hostile corporate takeovers. Critics of the issuance of these bonds contend that they may not be suitable investments for the depository institutions, pension funds and other financial institutions that invest their assets through the purchase of these bonds. Supporters of high yield, noninvestment grade bonds counter such criticisms by contending that: First, the overwhelming majority of these bonds are used to finance corporate activity other than hostile takeovers; second, these bonds have a significantly lower default rate than commercial bonds and other direct investments of the affected depository institutions; and third, relatively few depository institutions are permitted to purchase these bonds and that these bonds have not eroded the safety and soundness of these institutions.

At present, several legislative proposals have been introduced that would curb investment in high yield, noninvestment grade securities. Legislation that requires the imposition of these restrictions may ultimately prove necessary. However, attempts to develop an adequate legislative solution to curb investment in these bonds proved difficult due to a lack of information regarding the performance of investments in these bonds. Before restrictions are imposed that affect the issuance of and the investment in these bonds, further information is required to help us determine the nature of such restrictions or limitations.

The suitability of investments in high yield, investment grade securities addressed is a topic that should be addressed in the Banking Committee's continued deliberations on tender offer reform.

The ability of Federal regulators to limit or restrict investment by federally insured depository institutions in such bonds should also be reviewed. These Federal agencies are empowered to restrict or prohibit any unsafe or unsound practices that would contribute to a weakness in an insured insti-

tution's financial condition. Prudence dictates that, before such investments are limited or prohibited and issuers suffer the unintended consequences of such restrictions, the breadth and depth of the market in high yield, noninvestment grade bonds be determined. Further, before legislation is enacted, Congress should consider expanding the scope of the supervision and enforcement powers of the regulatory agencies. Such an expansion of powers provides a more flexible approach to the regulation of investments in these securities. The information required in the study mandated by section 6 should provide Congress with timely and adequate data upon which to base its legislative deliberations.

Section 6 requires the Comptroller General, in coordination and consultation with the Securities and Exchange Commission, the Federal Home Loan Bank Board, the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, the Federal Savings and Loan Insurance Corporation, the Federal Deposit Insurance Corporation, the Secretary of the Treasury and the Secretary of Labor to study the issuance and investment in high yield, noninvestment grade bonds for the 5 years prior to the enactment of this act, including:

First, the identity and rating—as determined by Moody's, Standard and Poor's or other nationally recognized bond rating house—of the issuers of these bonds;

Second, the identity of the major purchasers of these bonds including, but not limited to, federally insured depository institutions;

Third, the percentage of the total amount of high yield, noninvestment grade bonds that are issued as a method of financing corporate takeovers;

Fourth, the identity of the purchasers including, but not limited to, federally insured depository institutions, that invest in high yield, noninvestment grade bonds that are issued as a method of financing corporate takeovers;

Fifth, the purposes of which high yield, noninvestment grade bonds are issued other than for financing corporate takeovers;

Sixth, a summary and analysis of the adequacy of current State and Federal laws that regulate investment in high yield, noninvestment grade bonds, by investors including, but not limited to, federally insured depository institutions and pension funds and;

Seventh, a review of the impact of the issuance of and investment in high yield, noninvestment grade bonds upon corporate debt as it relates to Federal monetary policy.

The study will be submitted to Congress within 120 days after the date of enactment of this legislation.

By Mr. D'AMATO:

S. 228. A bill to amend title 10, United States Code, to permit members of the Armed Forces, under certain circumstances, to wear items of religious apparel while in uniform; to the Committee on Armed Services.

#### RELIGIOUS APPAREL IN THE ARMED FORCES

● Mr. D'AMATO. Mr. President, I rise today to introduce legislation to allow military personnel to wear certain religious apparel. In the last Congress, I sponsored S. 2269, cosponsored by my good friend, the junior Senator from New Jersey. An amendment to the defense authorization bill which encompassed S. 2269 was narrowly defeated on the Senate floor. Although this legislation was incorporated into the House version of the defense authorization bill, the provision, unfortunately, was dropped from a House-Senate conference.

This bill corrects an injustice affirmed last year by the Supreme Court. On March 25, the Supreme Court ruled 5 to 4 in favor of a lower court ruling that the Department of Defense was within its rights in not allowing the wearing of a yarmulke indoors by military personnel.

The case, *Goldman versus Weinberger*, involved an Air Force officer who, though serving as a psychologist, was an ordained Rabbi. As an Orthodox Jew, Capt. S. Simcha Goldman wore his yarmulke at all times. The Air Force insisted that this was not within regulations. The case eventually reached the Supreme Court.

Mr. President, the bill I am introducing today offers a reasonable solution to this problem. This bill would amend chapter 45 of title 10 of the United States Code to allow the wearing of all neat, unobtrusive, and conservative religious apparel. Specifically, the bill allows members of the Armed Forces to wear any neat, conservative, and unobtrusive item of apparel if the wearing of such apparel is part of the religious observance of the member, unless the wearing of such apparel interferes with the performance of the member's military duties.

This legislation would not only resolve cases involving the wearing of the yarmulke, but also allow military personnel of any religion to wear, within reason, appropriate religious apparel. I believe the Air Force and the Department of Defense interpreted too strictly regulations that prevented Captain Goldman from wearing his yarmulke indoors. Indeed, the Supreme Court's less than unanimous decision on this specific case left much room for debate. It is uncertain whether the Supreme Court would have affirmed the lower courts decision if Goldman had not joined the

Air Force of his own choice. I question whether we can afford to preclude a certain group within our society from voluntary military service because of their centuries-old legitimate religious beliefs concerning the wearing of certain types of religious apparel.

For this reason, Mr. President, I feel it is necessary for a legislative solution. Obtrusive and possibly interfering apparel should not be allowed, especially if such apparel would hinder the effectiveness of the service man or woman. In addition, religious apparel should not hinder the effectiveness of other military personnel. This is straightforward legislation that further strengthens the right of freedom of religion in this country. I have discussed this legislation with many groups, including the Anti-Defamation League. Our Armed Forces should not be in the position of completely dictating what religious behavior is acceptable.

Mr. President, I urge my colleagues to join with me on this important piece of legislation, and I urge its quick passage into law. I also ask unanimous consent that the full text of this legislation be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 228

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. AUTHORIZATION FOR MEMBERS OF THE ARMED FORCES TO WEAR ITEMS OF RELIGIOUS APPAREL WHILE IN UNIFORM

(a) IN GENERAL.—Chapter 45 of title 10, United States Code, is amended—

(1) by redesignating section 774 as section 775; and

(2) inserting after section 773 the following new section:

#### "§ 774. Wearing religious apparel

"(a) Except as provided in subsection (b), a member of the armed forces may wear an item of religious apparel while wearing the uniform of the member's armed force if—

"(1) the wearing of the item of apparel is part of the religious observance of the religious faith practiced by the member; and

"(2) the item of apparel is neat, conservative, and unobtrusive.

"(b) The Secretary concerned may prohibit a member from wearing an item of religious apparel while wearing the uniform of the member's armed force if the Secretary determines that the wearing of such item significantly interferes with the performance of the member's military duties."

(b) CLERICAL AMENDMENTS.—The table of chapters at the beginning of such chapter is amended—

(1) by redesignating the item relating to section 774 as 775; and

(2) by inserting below the item relating to section 773 the following new item:

"774. Wearing religious apparel."

By Mr. D'AMATO:

S. 229. A bill to provide for adherence with the MacBride principles by

United States persons doing business in Northern Ireland; to the Committee on Finance.

#### NORTHERN IRELAND FAIR EMPLOYMENT PRACTICES ACT

● Mr. D'AMATO. Mr. President, I rise today to introduce legislation to help correct a discriminatory injustice in another part of the world, Northern Ireland. Enactment of this legislation, entitled the Northern Ireland Fair Employment Practices Act, will deter efforts to use the workplace as an arena of discrimination in Northern Ireland. I first offered this legislation, cosponsored by my good friend the senior Senator from Arizona, in October of last year.

Last year, the Senate handed the President a rare foreign policy defeat by overriding his veto on legislation applying additional sanctions on South Africa. Congress overwhelmingly decided to follow rhetoric with action by applying economic sanctions against a government that maintains a policy of rampant discrimination.

Today, we have the same opportunity to fight discrimination in Northern Ireland. The Northern Ireland Fair Employment Practices Act incorporates the MacBride principles, which are modeled after the famous Sullivan principles, the incipient effort to apply United States pressure to change the system of apartheid in South Africa. The MacBride principles are named in honor of Sean MacBride, winner of the Noble Peace Prize and cofounder of Amnesty International.

This legislation does not call for disinvestment. It does, however, enlist the cooperation of United States companies active in Northern Ireland in the campaign to force the end of discrimination in the workplace. Specifically, this bill would incorporate the following principles:

First, eliminating religious discrimination in managerial, supervisory, administrative, clerical, and technical jobs and significantly increasing the representation in such jobs of individuals from underrepresented religious group;

Second, providing adequate security for the protection of minority employees at the workplace;

Third, banning provocative sectarian and political emblems from the workplace;

Fourth, publicly advertising all job openings and undertaking special recruitment efforts to attract applicants from underrepresented religious groups, and establishing procedures to identify and recruit minority individuals with potential for further advancement, including managerial programs;

Fifth, establishing layoff, recall, and termination procedures which do not favor particular religious groupings;

Sixth, abolishing job reservations, apprenticeship restriction, and differential employment criteria which discriminate on the basis of religious or ethnic origin;

Seventh, developing and expanding upon existing training and educational programs that will prepare substantial numbers of minority employees for managerial, supervisory, administrative, clerical, and technical jobs; and

Eighth, appointing a senior management staff member to oversee the U.S. company's compliance with the principles described above.

One of the most prominent and painful means of perpetrating acts of discrimination is through employment. Therefore, it is at the workplace in Northern Ireland, which can be used to either foster or eliminate discrimination, where we should focus our efforts to break the back of this awful practice. The unemployment rate for the area is hovering around 20 percent, 50 percent in predominately Catholic neighborhoods. Improving the employment opportunities for those discriminated against will help factor out economic reasons for the current strife in Northern Ireland and, hopefully, will begin the process toward a peaceful resolution to the problems there.

The United States is Northern Ireland's largest single investor. There are over 20 United States companies operating in Northern Ireland, and only 5 of them operate in Catholic sections. Most of these United States companies now directly or indirectly support the systematic anti-Catholic discriminatory practices in Northern Ireland. My legislation will end this shameful record. It not only will enlist these companies in the effort to wipe out discrimination at the workplace in Northern Ireland, but it also will help enlighten other nations which do business in Northern Ireland.

Mr. President, I truly believe that this body must address this important issue in the near future. I plan to fight to have this bill passed during this session of Congress, and I look to my colleagues to join me in this worthy effort.

Mr. President, I ask unanimous consent that the text of my bill be printed in the RECORD in its entirety.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 229

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Northern Ireland Fair Employment Practices Act."

#### SEC. 2. FINDINGS.

The Congress finds the following:

(1) Overall unemployment in Northern Ireland exceeds 20 per centum.

(2) Unemployment in some neighborhoods of Northern Ireland comprised of religious minorities has exceeded 50 per centum.

(3) In the past ten years 27 per centum of Northern Ireland's industrial jobs have disappeared.

(4) Economic conditions in Northern Ireland have contributed to the emigration in recent years of more than seven thousand people each year.

(5) The Industrial Development Organization for Northern Ireland lists twenty-five firms in Northern Ireland which are controlled by United States persons.

(6) Many of these firms have become de facto partners in discriminating against religious minorities in employment practices and conditions.

(7) A comprehensive study of the discriminatory practices of United States businesses in Northern Ireland by the Reverend Brian Brady, the former head of the religion department at Saint Joseph's College in Belfast, noted that in the average manufacturing company controlled by a United States person in Northern Ireland, 18.8 per centum of the employees are Catholic and 73.2 per centum are Protestant, a work force ratio that is disproportionate to the number of Catholics and Protestants in the general population of Northern Ireland, which is 38 per centum Catholic and 62 per centum Protestant.

(8) The religious minority population of Northern Ireland is frequently subject to discriminatory hiring practices by United States businesses which have resulted in a disproportionate number of minority individuals holding menial and low-paying jobs and alarmingly high layoffs of minority employees in times of recession.

(9) The MacBride Principles are a nine point set of guidelines for fair employment in Northern Ireland which establishes a corporate code of conduct to promote equal access to regional employment but does not require disinvestment or demand quotas on imports.

#### SEC. 3. RESTRICTION ON IMPORTS.

An article from Northern Ireland may not be entered, or withdrawn from warehouse for consumption, in the customs territory of the United States unless there is presented at the time of entry to the customs officer concerned documentation indicating that the enterprise which manufactured or assembled such article was in compliance at the time of manufacture with the principles described in section 5.

#### SEC. 4. COMPLIANCE WITH FAIR EMPLOYMENT PRINCIPLES.

(a) COMPLIANCE.—Any United States person who—

(1) has a branch or office in Northern Ireland, or

(2) controls a corporation, partnership, or other enterprise in Northern Ireland,

in which more than twenty people are employed shall take the necessary steps to insure that, in operating such branch, office, corporation, partnership, or enterprise, those principles relating to employment practices set forth in section 5 are implemented and the Fair Employment Act of Northern Ireland is complied with.

(b) REPORT.—Each United States person referred to in subsection (a) shall submit to the Secretary—

(1) a detailed and fully documented annual report, signed under oath, on showing compliance with the provisions of this Act; and

(2) such other information as the Secretary determines is necessary.

#### SEC. 5. MACBRIDE PRINCIPLES.

The principles referred to in section 4, which are based on the MacBride Principles, are as follows:

(1) Eliminating religious discrimination in managerial, supervisory, administrative, clerical, and technical jobs and significantly increasing the representation in such jobs of individuals from underrepresented religious groups.

(2) Providing adequate security for the protection of minority employees at the workplace.

(3) Banning provocative sectarian and political emblems from the workplace.

(4) Advertising publicly all job openings and undertaking special recruitment efforts to attract applicants from underrepresented religious groups, including—

(A) establishing procedures to assess, identify, and actively recruit minority individuals with potential for further advancement; and

(B) identifying those minority individuals who have high management potential and enrolling them in accelerated management programs.

(5) Establishing layoff, recall, and termination procedures which do not favor particular religious groupings.

(6) Providing equal employment for all employees, including implementing equal and nondiscriminatory terms and conditions of employment for all employees, and abolishing job reservations, apprenticeship restrictions, and differential employment criteria, which discriminate on the basis of religion or ethnic origin.

(7) Developing training programs that will prepare substantial numbers of minority employees for managerial, supervisory, administrative, clerical, and technical jobs, including—

(A) expanding existing programs and forming new programs to train, upgrade, and improve the skills of all categories of minority employees;

(B) creating on-the-job training programs and facilities to assist minority employees to advance to higher paying jobs requiring greater skills; and

(C) establishing and expanding programs to enable minority employees to further their education and skills at recognized educational facilities.

(8) Appointing a senior management staff member to oversee the United States person's compliance with the principles described in this section.

#### SEC. 6. WAIVER OF PROVISIONS.

In any case in which the President determines that compliance by a United States person with the provisions of this Act would harm the national security of the United States, the President may waive those provisions with respect to that United States person. The President shall publish in the Federal Register each waiver granted under this section and shall submit to the Congress a justification for granting each such waiver. Any such waiver shall become effective at the end of ninety days after the date on which the justification is submitted to the Congress unless the Congress, within that ninety-day period, adopts a joint resolution disapproving the waiver. In the computation of such ninety-day period, there shall be excluded the days on which either House of Congress is not in session because of an adjournment of more than three days to a day certain or because of an adjournment of the Congress sine die.

(b) CONSIDERATION OF RESOLUTION—

(1) Any resolution described in subsection (a) shall be considered in the Senate in accordance with the provisions of section 601(b) of the International Security Assistance and Arms Export Control Act of 1976.

(2) For the purpose of expediting the consideration and adoption of a resolution under subsection (a) in the House of Representatives, a motion to proceed to the consideration of such resolution after it has been reported by the appropriate committee shall be treated as highly privileged in the House of Representatives.

#### SEC. 7. DEFINITIONS AND PRESUMPTIONS.

(a) **DEFINITIONS.**—For the purposes of this Act—

(1) the term "United States person" means any United States resident or national and any domestic concern (including any permanent domestic establishment of any foreign concern);

(2) the term "Secretary" means the Secretary of Commerce;

(3) the term "Northern Ireland" includes the counties in Antrim, Armagh, Londonderry, Down, Tyrone, and Fermanagh; and

(b) **PRESUMPTION.**—A United States person shall be presumed to control a corporation, partnership, or other enterprise in Northern Ireland if—

(2) the United States person beneficially owns or controls (whether directly or indirectly) 25 per centum or more of the voting securities of the corporation, partnership, or enterprise, if no other person owns or controls (whether directly or indirectly) an equal or larger percentage;

(3) the corporation, partnership, or enterprise is operated by the United States person pursuant to the provisions of an exclusive management contract;

(4) a majority of the members of the board of directors of the corporation, partnership, or enterprise are also members of the comparable governing body of the United States person;

(5) the United States person has authority to appoint the majority of the members of the board of directors of the corporation, partnership, or enterprise; or

(6) the United States person has authority to appoint the chief operating officer of the corporation, partnership, or enterprise.

By Mr. D'AMATO:

S. 230. A bill to amend the Securities Exchange Act of 1934 with request to the use of nonpublic information; to the Committee on Banking, Housing, and Urban Affairs.

S. 231. A bill to amend the Securities Exchange Act of 1934 with respect to the use of nonpublic information; to the Committee on Banking, Housing, and Urban Affairs.

#### SECURITY EXCHANGE ACT

● Mr. D'AMATO. Mr. President, one of my proudest achievements as the chairman of the Securities Subcommittee of the Senate Banking Committee in the previous two Congresses was the passage of the Insider Trading Sanctions Act of 1984 [ITSA]. This act enabled Federal prosecutors to impose substantial civil and criminal fines upon those who trade in our securities markets while in possession of material, nonpublic information.

Although the act became law in 1984, one provision that I advocated was not included in the final legisla-

tion. This provision would have provided a definition of insider trading. I still maintain the belief that such a definition is required to clarify the law governing insider trading. A broad definition of insider trading will enable market professionals and individual investors to discern what activities are proscribed by law and which are permitted. Further, such a definition will provide the Securities and Exchange Commission to prosecute a variety of insider trading cases without relying on contested legal theories which must be used to satisfy the Supreme Court's standards enounced in *Chiarella v. U.S.* 445 U.S. 222 (1980) and *Dirks v. SEC*, 463 U.S. 646 (1983).

After the Supreme Court's decisions in *Chiarella* and *Dirks*, cases in which the Court rejected SEC arguments based upon section 10(b) of the Securities Exchange Act of 1934 (Exchange Act), significant gaps exist in the SEC's regulation of, and in civil liability for, trading on the basis of material, nonpublic information. The guidelines developed by lower courts since *Dirks* for insider trading liability are not always consistent and do not set a uniform standard to provide both the enforcers and market participants with sufficient guidance regarding the application of sections 10(b) and 14(e)—in the context of tender offers—of the Exchange Act to insider trading violations. Given the spate of criminal prosecutions, the enactment of the ITSA, and the Supreme Court's recent decision holding that garden-variety securities fraud may be subject to private treble damage actions under RICO, more guidance seems justified.

In fact, the Supreme Court has implicitly, if not explicitly, invited the Securities and Exchange Commission (Commission) to define more precisely what activities constitute insider trading rather than rely on its current practice of defining insider trading on a case-by-case basis. In *Dirks* versus SEC, the Court criticized the Commission for propounding insider trading theories on a case-by-case basis as a practice which it views as "inherently imprecise." 463 U.S. at 658 n. 17. The Court reasoned that this situation is in need of remedy because such "imprecision prevents parties from ordering their actions in accord with legal requirements. Unless the parties have some guidance as to where the line is between permissible and impermissible disclosures and uses, neither corporate insiders nor analysts can be sure when the line is crossed." *Id.* Noting the need for greater clarity in the meaning of insider trading, the Court also observed that "without legal limitations, the market participants are forced to rely on the reasonableness of the SEC's litigation strategy, but that can be dangerous \* \* \*." *Id.* at 664, n. 24.

I do not cite this decision to criticize the SEC. The SEC's recent settle-

ments with Dennis Levine and Ivan Boesky are perhaps the most publicized examples of the excellent work that the Commission has been doing to prosecute illegal insider trading. There is no question that the activities engaged in by Levine and Boesky fall within the scope of the accepted meanings of insider trading. Rather, I cite this case for three reasons. First, I, like the Court, believe that some clarity regarding the meaning of insider trading is required. Second, I am afraid that the Court, in its recent grant of certiorari in the case of *Winans* versus United States, may once again, as it did in *Chiarella* and *Dirks*, reject the Commission's arguments as to what activities constitute illegal insider trading because the law fails to define more precisely actions that constitute violations of the Federal securities laws. Finally, the *Dirks* decision suggests that the appropriate legislative response in this area of the law is to enact a definition of what activities constitute illegal insider trading. Since the revelation of the SEC's case against Boesky, many of my colleagues on Capitol Hill have clamored for legislative reform in this area. The two legislative proposals that I introduce today which define insider trading provide an appropriate and adequate legislative response.

Congress has already responded to the problem of insider trading by increasing the severity of the penalties that can be imposed upon those guilty of insider trading in the Insider Trading Sanctions Act. Perhaps we could increase the severity of the penalty and therefore the level of deterrence if insider trading is made a capital offense. However, this is not a reasonable legislative response, nor does it satisfy the concerns expressed by the Supreme Court in *Dirks*. What is needed is a means by which the Commission can more effectively and expeditiously prosecute insider traders. The proposals that I introduce today will hopefully provide such a means.

The need for a definition, in short, can satisfy the Court's need for clarity and relieve the Commission of the task of straining to prosecute inside traders on a case-by-case basis. A definition of illegal insider trading would resolve the dilemma confronting the SEC's prosecution of insider trading cases—a dilemma which ironically is created by the law which is used as the basis for insider trading prosecutions.

Thus, trading on the basis of material, nonpublic information per se does not constitute fraud in violation of section 10(b) and rule 10b-5. Under rule 10b-5, the gravamen of the violation is not the trading but the failure to fulfill a duty to disclose when there is such a duty in connection with the trading. Where there is a duty to dis-

close, silence may be fraudulent and thus actionable under section 10(b). It is this application that limits indirectly the ability of insiders and certain others to trade on the basis of material, nonpublic information. The principal difficulty that the Commission has confronted in prosecuting certain "insiders" is that a duty to disclose does not necessarily exist whenever the underlying policy justification for an insider trading prohibition dictates that it should.

Since section 10(b) of the Exchange Act is a broad antifraud provision not directed specifically to insider trading, confusion and uncertainty exist as to how the elements of section 10(b) are to be applied in insider trading cases. For example, after *Chiarella* and *Dirks*, does an insider's duty to disclose or abstain still apply to all contemporaneous market traders in the security or only to the person with whom the insider trades? What must a tippee know, or be reckless in not knowing, to be liable under section 10(b) cases, or is it more appropriate to apply a "facts of special significance" test? Exactly how does a plaintiff prove reliance or causation in insider trading and tipping cases?

The Commission's task in prosecuting insiders has also been complicated by the fact that the term insider trading is somewhat misleading. After the Supreme Court decisions in *Dirks* and *Chiarella*, the Commission has been required to develop several legal theories to prosecute individuals who are not typically considered insiders. The cases in which the Commission and private litigants have sought to impose liability under existing law have not been limited to insiders, at least as that term is commonly understood, and not all defendants have been traders—those who "tip" others who then trade, for example. Indeed, as in cases of misuse of advance knowledge of tender offers, now covered by rule 14(e)-3, and market manipulation cases like *Zweig versus Hearst Corp.*, the information in questions has not come from insider the issuer at all, but rather has been external "market" information not yet generally known. That the phrase "insider trading" describes so imperfectly the conduct to be proscribed is a clear signal at the outset that this area of the law is not well defined.

With this in mind, it is no small challenge to describe concisely and analyze the state of the law under section 10(b) and rule 10(b)-5 as it relates to trading on the basis of nonpublic information. It is not an overstatement that the Supreme Court's decisions in *Chiarella* and *Dirks* undercut the theoretical foundations of prior decisional law in this area. Those two decisions plainly rejected the notion that anyone possessing material, nonpublic information had a duty, arising from

that possession alone, to abstain from trading unless and until the information was disclosed or became immaterial. The transformation of the law has not, however, ended with those two decisions. Since then, many lower courts have with remarkable tenacity, if not intellectual consistency, found or developed alternative theoretical bases for imposing liability that are only plausibly in step with the Supreme Court's two recent rulings.

The Commission has been compelled to argue and the lower courts have accepted these theories because the *Dirks* and *Chiarella* requirement that a fiduciary or similar relationship exist between the individual trading and shareholders has left significant gaps in the regulation of trading by nearly all persons who are not insiders of the corporation in whose securities they are trading. For example, the Commission has argued and the lower courts have accepted several legal theories developed in response to the Supreme Court's decisions in *Chiarella* and *Dirks*. Legal theories of insider trading that the Commission has successfully argued in the lower courts can be briefly described as the: First, fiduciary duty to shareholders theory; second, misappropriation theory; and third, tipper-tippee theory. The Commission's innovative use of these legal theories is justified to remedy those specific instances of abuse to reach results that seem fair in individual cases. However, I fear that the Supreme Court, in its consideration of the *Winans* appeal, may again reject the arguments of the Commission. Therefore, I am compelled to initiate a legislative response to avoid a similar result in the future simply because the Court requires more guidance on the meaning of illegal insider trading.

I believe that in the wake of the *Boesky-Levine* scandal that Congress can and should confront the basic policy question of what uses of informational advantage are to be forbidden, rather than leaving the law primarily to case-by-case development under present section 10(b) and rule 10b-5. Such a legislative proposal may be required because, while further regulations through the SEC's rulemaking process would be useful, such regulations may have an uncertain statutory basis to the extent that it departs from the fraud bases of section 10(b) and 14(e) of the 1934 act.

The first legislative proposal that I introduce today, the Insider Trading Definition Act of 1987, specifies with considerable particularity what conduct by insiders misappropriators, tippees, and tippees is prohibited. It builds on existing case law, provides a clear statutory predicate for liability now imposed under the judge-made misappropriation theory, and resolves several important uncertainties in the present case law. The second proposal,

the Insider Trading Reform Act of 1987, is a less specific approach that sets forth a clear legislative policy, provide a sound basis for further development of the law and for such clarifying regulations as the SEC may adopt. Both proposals contain provisions which would, for the first time, hold firms liable for civil money penalties if they knew or should have known that their employees were engaging in illegal insider trading.

These proposals, which are drawn largely from the Report on Insider Trading of the American Bar Association's Committee on Federal Regulation of Securities, are intended to be a starting point. The adoption of either proposal in their present form or as modified would represent a marked improvement over existing law. The proposal of two statutes addressing the same issue is in itself, a recognition that, like all statutes, neither will satisfy everyone or remove every ambiguity. However, these two alternatives demonstrate that it is possible to bring greater order and predictability to the law.

I urge my colleagues to consider and lend their support to enacting this legislation or similar proposals. The time to express shock about the abuses of insider trading has come and gone. The time to act to provide the Commission with the tools to expedite the prosecution of miscreants is at hand. The passage of this legislation will send a clear message to the courts and hopefully to those considering trading on inside information who hope to escape prosecution on the basis of a legal technicality.●

By Mr. WILSON:

S. 232. A bill to permit placement of a privately funded statue of Haym Salomon in the Capitol Building or on the Capitol Grounds and to erect a privately funded monument to Haym Salomon on Federal land in the District of Columbia; to the Committee on Rules and Administration.

HAYM SALOMON MEMORIAL ACT

Mr. WILSON. Mr. President, I am introducing legislation today to recognize the contributions of Haym Salomon, an American patriot regarded as the symbol of American Jewish participation in the struggle for American independence.

This legislation will permit both the placement in the Capitol of a statue honoring Haym Salomon and the erection of a national monument to Haym Salomon on Federal land in the District of Columbia.

Haym Salomon was an American patriot in the true sense of the word. He was born into a Jewish family in Poland and emigrated to America in search of the political and economic freedoms that have become the hallmark of our Nation. Upon arriving in

America, Salomon quickly joined the independence effort as a member of the "Sons of Liberty." He was instrumental in raising the money necessary to finance the American War of Independence by contributing both his personal resources and his skills as a financier and broker to the cause.

As a result of his commitment to the American Revolution, Haym Salomon was arrested, as a spy, by the British Government in 1776 and again in 1778. Although he was able to escape, Salomon died of an illness contracted during his imprisonment.

While Haym Salomon has long been honored as a financial statesman, we can recognize him today as representing not only himself but all American Jewish patriots who contributed their resources and committed themselves to the cause of freedom. To this end, my bill allows the placement of a statue in consultation with the Architect of the Capitol and a monument in conjunction with the National Commission on Fine Arts and the National Capitol Planning Commission.

Mr. President, it is important to note that the funds for both the statue and the monument will be raised privately and at no expense to the Federal Government. The "American Jewish Patriots and Friends of Haym Salomon" is a new organization which is organizing a nationwide drive to raise the funds for the statue and monument.

Mr. President, this legislation is a much deserved tribute to our Nation's greatest Jewish patriot from the Revolutionary War. I invite my colleagues to join in honoring Haym Salomon.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 232

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Haym Salomon Memorial Act of 1985".

#### SEC. 2. STATEMENT OF FINDINGS.

The Congress finds that—

(1) Haym Salomon was an American patriot of Polish and Jewish background and a member of the Sons of Liberty;

(2) Haym Salomon was a revolutionary patriot who was instrumental in raising the money needed to finance the American War of Independence;

(3) Haym Salomon contributed his own resources and skill as a financier and broker to the cause of liberty during the American War of Independence and the early years of the United States;

(4) after the American War of Independence was over, Haym Salomon died insolvent from an illness he contracted during the conflict while imprisoned by the British for his patriotic activities;

(5) Haym Salomon contributed much of his own resources to the United States, an amount which will never be precisely known

due to the loss and destruction of records during the war of 1812;

(6) Haym Salomon has long been recognized as the symbol of American Jewish participation in, and contribution to, the American War of Independence;

(7) despite Haym Salomon's great and selfless service to the cause of liberty, no national monument or statue has ever been erected in his honor; and

(8) it is only fitting and proper to honor Haym Salomon through the placement of a statue of him in the Capitol Building or on the Capitol Grounds and the erection of a monument to him on Federal land within the District of Columbia.

#### SEC. 3. PLACEMENT OF STATUE.

(a) **AUTHORITY TO PLACE STATUE AT CAPITOL.**—The American Jewish Patriots and Friends of Haym Salomon may place in the Capitol Building or on the Capitol Grounds a suitably designed statue of Haym Salomon acquired by such organization. The Architect of the Capitol shall make any arrangements necessary for the placement of such statue and supervise such placement.

(b) **APPROVAL OF SITE SELECTION.**—Selection of a site for such statue shall be subject to the approval of the Architect of the Capitol.

#### SEC. 4. ERECTION OF MONUMENT.

(a) **AUTHORITY TO ERECT MONUMENT.**—The American Jewish Patriots and Friends of Haym Salomon may erect a monument to honor Haym Salomon on Federal land in the District of Columbia.

(b) **APPROVAL OF SITE SELECTION, DESIGN, AND CONSTRUCTION PLANS.**—Selection of a site for, design of, and plans for the construction of, such memorial shall be subject to the approval of the National Commission on Fine Arts and the National Capitol Planning Commission.

#### SEC. 5. EFFECTIVE DATE.

This Act shall take effect on the date of the enactment of this Act.

By Mr. BOREN (for himself and Mr. BINGAMAN):

S. 233. A bill to amend the Internal Revenue Code of 1986 to encourage increased production of domestic crude oil, and for other purposes; to the Committee on Finance.

#### INTERNAL REVENUE CODE

● Mr. BOREN. Mr. President, during the 99th Congress I spoke many times, often at some length, about the developing problems in our domestic energy industries. In July 1985, I spoke about the problems we would face if the price of crude oil were to drop sharply. In fact I introduced legislation to establish an oil import fee to protect against those very problems. In July 1985, the price of oil was around \$31 per barrel and we had over 2,000 rigs looking for oil and natural gas in the United States. As a nation in July 1985, we were importing approximately 24 percent of our energy needs from foreign sources, with only 45,000 barrels per day from Saudi Arabia.

Now, Mr. President, in January 1987, at the beginning of the 100th Congress, the very problems I spoke of have occurred. The United States is importing almost 40 percent of our energy needs from foreign sources, including over 685,000 barrels per day

from Saudi Arabia—over a 1,500-percent increase. The price of crude oil fell to a low of \$9.75 and is now struggling to maintain some stability in the midteens. We have seen unemployment jump into the double digits in Oklahoma, Texas, and Louisiana. These, however, are not the most important indicators. The most ominous figure I can imagine for the U.S. energy future is our domestic rig count. From a high of over 4,500 just a short 6 years ago, the U.S. rig count fell to an all time low of 663 on July 14, 1986. Today the rig count is barely over 950.

What then does the future hold? Our ability to produce over the next 3 or 4 years has already been determined. If we could barely replace reserves with 4,500 rigs operating, it should be obvious what will happen to our production with only 950 rigs actively looking for oil and natural gas. Our ability to produce beyond the short term must be questioned. Four years ago there were over 7,000 students pursuing degrees in geology, petroleum engineering, and geophysics. Last fall that number had dropped to 3,000. Where will the next generation of technicians come from? Are we even willing to spend the money necessary to develop the next generation of technology? If we are not careful, as a nation we will soon find ourselves in the very same trap that was laid for us during the Arab oil embargo in 1973.

And so, Mr. President where does that leave us? In my opinion we have but one option for the short term. We must preserve existing domestic production. I am not proposing today that we establish new incentives to drill for more oil. Rather, I am only suggesting ways that might keep the stripper well in Kansas, the heavy oil well in California, or even the natural gas well in Michigan operational and flowing. We must not allow our existing production to suffer at the hands of a foreign leader who, I might add, does not play by the same economic rules as an independent producer in Seminole County, OK.

My specific proposals include: First, an emergency energy package of tax items designed to encourage the continued production of existing domestic wells; second, the repeal of the windfall profit tax; and third, the imposition of an excise tax on foreign oil priced under \$18 per barrel.

I have asked my distinguished colleague from Texas, the chairman of the Finance Committee, Senator BENTSEN to allow my subcommittee to hold hearings on these important issues at the earliest possible date. I remain hopeful that with prompt action by the 100th Congress we can begin to mitigate some of the damage visited upon our domestic energy industry over the past 18 months.●

● Mr. BINGAMAN. Mr. President, I am pleased today to join my distinguished colleague from Oklahoma, Senator BOREN, in introducing a bill to assist the domestic oil and gas industry.

#### CURRENT SITUATION

The Nation and our domestic oil and gas industry face an uncertain future—uncertain because of lower prices, over-supply, and increased competition from lower priced imports of crude and petroleum products. The industry has been forced to cut back its activity—signaling a loss of employment and a weakening of the industry's infrastructure. Capital expenditure programs have dropped by 50 percent since 1981. Drilling activity reached a 46-year low in August. Deputy Secretary of Energy William Martin testified before the Senate Energy and Natural Resources Committee in September that of the 8 to 10 million barrels per day of surplus capacity available in the free world, only 5 percent comes from non-OPEC nations. More disturbing was a statement by former National Security Director John Poindexter that by the early 1990's we are likely to see imports rise to over 50 percent of domestic consumption.

#### THE FACTS

Oil and natural gas make up two-thirds of the energy used in the United States, and efforts to develop alternative energy sources have fallen short of expectations. This country uses more oil and gas than any other nation. In 12 of the past 15 years, Americans have used up their proved oil and natural gas reserves faster than new supplies were discovered. That resulted in a new loss of \$10.6 billion barrels of oil and more than 97 trillion cubic feet of gas—the equivalent of wiping out all of the current oil reserves in Texas and Louisiana and all of the current gas reserves in Louisiana, Texas, and California. At 1985 rates of production, our country's proved oil reserves will be exhausted in 10 years and U.S. natural gas reserves will be gone in a dozen years. This means that most of the oil and gas we will need in the late 1990's and beyond still must be found and developed.

As our country's proved reserves dwindle, oil production is decreasing, oil consumption is increasing, and U.S. dependence on foreign oil has risen to about 40 percent of deliveries in recent months. Oil imports in September were about 2.1 million barrels a day higher than a year earlier, with the largest part of the increase coming from OPEC sources.

#### NEW MEXICO

In my home State of New Mexico, the picture is very bleak. New Mexico is the fifth largest oil and gas producing State in the Nation in terms of

total quantity and has suffered from the decline of oil and gas prices. Oil prices have declined from \$26 a barrel last January to \$11 in July, with a gradual increase since then to \$15. Natural gas prices fell from \$2.47 a barrel in January to \$1.64 in September with the current price at about \$1. Revenues generated by the industry showed a 25-percent drop in 1986. The total value of New Mexico's oil and gas activity has dropped 46 percent in the past year. Employment by the industry dropped from a low of 13,200 in 1985 to 9,000 in October 1986. The number of drilling rigs are down to an average of 29 compared with 71 last year. And of the States' bankruptcies, estimated to be 2,500 for 1986, one-fourth occurred in those counties where most of the States' oil and gas is produced. Clearly, effective action is needed to correct the decline of the industry.

#### LEGISLATION

The legislation we introduce today will help restore life to this important domestic industry. Let me review the provisions of this legislation. The bill includes repeal of the transfer rule, repeal of the 50 percent of net income limitations, and a change in the rate of percentage depletion. It also calls for permits expensing of geological and geophysical costs, and calls for repeal of the IDC recapture rule. Each of these provisions will help restore some vitality to the struggling oil and gas industry.

#### REPEAL TRANSFER RULE

Current law provides that when an independent producer buys proven producing property from an integrated major, that property is not eligible for windfall profit tax exemption or percentage depletion. Repeal of the transfer rule would allow independents to benefit from percentage depletion and any WPT exemption that may exist. This would benefit both the integrated companies by encouraging them to sell uneconomic properties, rather than abandoning them, and provide additional incentives to independents to purchase and to continue to produce these properties.

#### REPEAL OF THE 50 PERCENT OF NET INCOME LIMITATION

Current law provides that the percentage depletion deduction is limited to not more than 50 percent of the net income of an eligible producing property. Repeal of this section would stimulate additional cash-flow to those producers who still have income-producing properties.

#### CHANGE THE RATE OF PERCENTAGE DEPLETION

Current law provides for a 15-percent rate for percentage depletion. Increasing the rate would serve to increase cash-flow for eligible independent producers, again assuming that the property is producing a net income. To spread the benefit of such

a change, the definition of eligible producer should be expanded to include all producers and mineral owners of marginal properties—that is stripper and tertiary. This change would encourage the integrated producers to maintain their stripper production and not abandon those marginal wells.

#### PERMIT EXPENSING OF GEOLOGICAL AND GEOPHYSICAL COSTS

These costs of searching and testing for oil are capitalized under present law. However, they are ordinary and necessary costs of doing business, which arguably should be deducted when incurred. If these costs were deductible, the cost of exploration would be reduced and paperwork would be reduced.

#### REPEAL THE IDC RECAPTURE RULE

Under current law, the gain on the sale of a producing property is characterized as ordinary income to the extent of any intangible drilling cost previously taken. By repealing this provision, the basis used to calculate gain on a sale of property will not be reduced and consequently the gain will be smaller, as will taxes paid on that gain.

#### CONCLUSION

Our energy security depends on the revitalization of the domestic oil and gas industry. I ask my colleagues to consider this legislation carefully, to help this industry recover. ●

#### By Mr. CRANSTON:

S. 234. A bill to increase the amount of capital available to financial institutions and other agricultural lenders for loans to farmers by providing a secondary market for farm mortgages through the establishment of a federally chartered corporation, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

#### FARM MORTGAGE MARKETING CORPORATION ACT

Mr. CRANSTON. Mr. President, today I am reintroducing a bill to set up a secondary market for agriculture real estate loans. The bill embodies recommendations of the joint task force of the American Bankers Association and the Independent Bankers Association of America. A companion bill will be introduced by my distinguished colleague in the House, Congressman RICHARD LEHMAN.

The purpose of the legislation is the stabilization and enhancement of the flow of capital for long-term financing of agricultural real estate loans. This new corporation, as proposed in the bill, would be similar to other existing secondary market intermediaries such as the Federal Home Loan Mortgage Corporation [FHLMC], the Federal National Mortgage Association [FNMA], and the Student Loan Marketing Association [Sallie Mae]. All of these entities enhance access to credit by the pooling of loans from cash scarce areas of the country and selling

securities represented by the pools to cash surplus areas of the country. I believe this bill will help significantly in making more affordable long-term financing available to farmers.

Under the bill, secondary market entities will purchase mortgage loans from qualified agricultural lenders, repackage them as securities and sell them in the capital market to institutional investors such as pension funds, insurance companies and other large investors. The bulk of agriculture real estate loans are farmers guaranteed home loans. Today there is no liquidity in the agricultural loan market—when times get tough, bank lenders stop lending. This proposal could be used to shift the emphasis from costly direct lending by the Farmers Home Administration to lending through the guaranteed loan process via commercial banks. Many more commercial banks would become interested in long-term agricultural lending if they knew there was a viable secondary market for those loans. One of the biggest benefits of a secondary market for farm loans is liquidity for commercial banks that may want to make local loans but do not have adequate funding to hold on to the loans. A secondary market will benefit farmers by bringing new money into the agricultural land lending business, increasing competition and driving down interest rates. A number of entities, including insurance companies and commercial banks, have loanable funds available, but restrict their volume of farm mortgages to avoid tying up large portions of their available loan funds for the 20 to 30 years it takes an individual farmer to pay off his mortgage. By being able to sell farm loans immediately into the secondary market, a farm bank can improve its capital, roll its funds over for new farm lending and increase fees from origination and servicing of the loans.

The secondary market is basically a private sector operation, but the Federal Government needs to be involved to structure its guarantee so such a market can work. My bill would provide \$200 million in stock as seed capital to get the corporation started. The Treasury capital would be repaid by the mortgage sellers who would be required to buy equity in the corporation. Ultimately the debt would be retired and the corporation would be privately owned by its share holders. This bill embodies a very simple concept that has already proven successful in providing a stable source of capital to meet the needs of the Nation in areas of housing and education.

There are, of course, as with any new idea a great number of concerns which need to be addressed before a final bill is passed. I hope that the introduction of this proposal can be the focal point for more in-depth discussions on what further steps need to be

taken to make this idea workable. I consider this bill a first step in that process. We have seen that the creation of a secondary market facility for mortgages has been the single most important development in expanding the flow of credit to the U.S. mortgage market. I think it is time to move forward and explore the suitability of the concept to the Farm Credit System. While the enactment of this proposal will not solve the existing problems in our Farm Credit System, I believe that its enactment will help us avoid, in the future, the credit crunch faced today by the farm segment of our economy.

I ask unanimous consent that the following be printed in the RECORD. The bill and section-by-section analysis and a statement by Robert Eberhardt, chairman of the California Bankers Association Agricultural Task Force.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### S. 234

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Farm Mortgage Marketing Corporation Act of 1987".

#### SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—The Congress hereby finds that—

(1) economic stability would be enhanced and the availability of long-term credit for agricultural borrowers would be ensured if a mechanism to access secondary markets was created; and

(2) economic stability would be enhanced and the liquidity of investment funds available to lend to agricultural borrowers by financial institutions and other agricultural lenders would be ensured by providing a secondary market for the purchase of sound agricultural real estate mortgages.

(b) PURPOSE.—It is the purpose of this Act to establish a quasi-private corporation chartered by the Federal Government which will purchase and insure agricultural mortgages and sell pools of such agricultural mortgages in order to—

(1) facilitate the availability of long-term credit for agricultural borrowers;

(2) provide liquidity for financial institutions and other agricultural lenders; and

(3) provide an institutional mechanism to allow capital markets to invest in and provide funding for agricultural loans.

#### SEC. 3. ESTABLISHMENT OF CORPORATION.

There is hereby established a corporation to be known as the Farm Mortgage Marketing Corporation.

#### SEC. 4. BOARD OF DIRECTORS.

(a) NUMBER AND APPOINTMENT.—

(1) 5 MEMBERS.—The powers of the Corporation shall be vested in the Board of Directors which shall consist of 5 members.

(2) INTERIM APPOINTED BOARD.—Until a determination is made by the President under paragraph (3), the Board of Directors shall be composed of the following members:

(A) The Comptroller of the Currency.

(B) The Chairman of the Federal Deposit Insurance Corporation.

(C) 3 members appointed by the President, by and with the advice and consent of

the Senate, from among individuals who have substantial experience and expertise in the fields of agricultural lending and mortgage investments and are representative of agricultural lending institutions.

(3) REGULAR ELECTED BOARD.—When in the judgment of the President, sufficient common stock of the Corporation has been sold to qualified agricultural lenders, the interim Board shall turn over the affairs of the Corporation to regular Board members elected from holders of common stock.

(b) TERMS.—

(1) APPOINTED MEMBERS.—Directors appointed by the President shall serve at the pleasure of the President until their successors have been elected pursuant to subsection (a)(3).

(2) ELECTED MEMBERS.—Directors shall be elected for a term ending on the date of the next annual meeting of the common stockholders of the Corporation.

(3) VACANCY.—

(A) ELECTED MEMBER.—Any elective seat on the Board shall be filled by the Board, but only for the unexpired portion of the term.

(B) APPOINTED MEMBER.—Any appointive seat which becomes vacant shall be filled by the President in the manner provided in subsection (a)(2).

(c) CHAIRPERSON.—The Chairperson of the Board shall be designated by and from among the members of the Board.

(d) MEETINGS.—The Board shall meet semiannually at the call of its Chairperson to determine the general policies which shall govern the operations of the Corporation. A majority of members of the Board shall constitute a quorum.

(e) EMPLOYMENT OF STAFF.—

(1) APPOINTMENT.—The Board may appoint and fix the pay of such personnel as the Board considers appropriate.

(2) APPLICABILITY OF CERTAIN CIVIL SERVICE LAWS.—The staff of the Board may be appointed without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, and may be paid without regard to the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates, except that no individual so appointed may receive pay in excess of the maximum annual rate of basic pay in effect for the Senior Executive Service pursuant to section 5382 of such title.

#### SEC. 5. PURCHASE AND SALE OF MORTGAGES.

(a) IN GENERAL.—

(1) AUTHORITY TO PURCHASE.—Except as provided in subsection (c), the Corporation may purchase, and make commitments to purchase, farm mortgage loans from any qualified agricultural lender.

(2) AUTHORITY TO SELL.—The Corporation may sell or otherwise dispose of, any farm mortgage or interest in a mortgage purchased under paragraph (1).

(3) CERTIFICATION OF APPLICATIONS.—The Corporation shall receive applications for the certification of qualified agricultural lenders for the purpose of this Act and establish criteria for determining the eligibility of an agricultural lender for certification.

(b) AGREEMENTS FOR SERVICING MORTGAGES.—The Corporation may enter into agreements with the seller of any farm mortgage which the Corporation purchases, or with any qualified agricultural lender, to further provide for the servicing of such mortgage.

(c) **LIMITATIONS.**—No farm mortgage may be purchased by the Corporation under this section unless—

(1) the seller of the mortgage agrees—

(A) to retain a participation of not less than 10 percent in the mortgage; or

(B) to repurchase or replace the mortgage upon demand of the Corporation during such period and under such circumstances as the Association may require when the borrower is in default with respect to such mortgage only if there are no reserves established to cover losses on such mortgages.

(2) at the time of purchase—

(A) the outstanding principal balance of the mortgage is less than 80 percent of the value of the property securing the mortgage; or

(B) the portion of the unpaid balance of the mortgage is in excess of 80 percent of the value securing the mortgage is guaranteed or insured by a qualified insurer, as determined by the Association.

(d) **MORTGAGE-BACKED SECURITIES.**—

(1) **ISSUANCE AUTHORIZED.**—To provide a greater degree of liquidity to the farm mortgage investment market and as an additional means of financing the operations of the Corporation, the Corporation may issue and sell securities which provide for the payment of principal and interest in relation to payments of principal and interest on farm mortgages purchased and held by the Corporation under this section.

(2) **TERMS AND CONDITIONS.**—Securities issued under this subsection shall have such term to maturity and bear such rate of interest as the Corporation may prescribe with the approval of the Secretary of the Treasury.

(3) **PRIVATE ISSUANCE OF PAYMENTS.**—The Corporation shall issue or purchase from private sources commitments to insure the timely payment of principal and interest to purchasers of the securities backed by farm mortgages held by the Corporation.

(4) **NOT EXEMPT SECURITIES.**—No security issued by the Corporation under this subsection shall be—

(A) an exempted security under section 3 of the Securities Act of 1933; or

(B) an exempted security within the meaning given to such terms of section 3(a)(12) of the Securities Exchange Act of 1934.

(5) **MINIMUM AMOUNT ESTABLISHED FOR FARM MORTGAGES BACKING SECURITIES.**—The Corporation shall at all times hold such number of farm mortgages as may be necessary to enable the Corporation to make timely principal and interest payments on securities issued under this subsection from the principal and interest payments received by the Association with respect to such mortgages.

(6) **NOTICE THAT SECURITIES ARE NOT FEDERALLY GUARANTEED.**—The Corporation shall insert such language in each security issued under this subsection as the Corporation determines to be appropriate to clearly indicate that—

(A) the payment of principal and interest with respect to such security is not guaranteed by the United States; and

(B) the security does not constitute a debt or obligation of the United States or any agency or instrumentality of the United States other than the Association; and

(C) the securities issued under this section shall be deemed non-bank eligible for the purposes of underwriting, selling and distribution.

(7) **REPURCHASE AUTHORIZED.**—The Corporation may repurchase in the open market

any security issued under this subsection at any time and at any price.

(e) **CLASSIFICATION OF SELLERS FOR CERTAIN PURPOSES.**—

(1) **CLASSIFICATION AUTHORIZED.**—The Corporation may establish a system for classifying sellers of farm mortgages, or qualified agricultural lenders which services such mortgages, according to type, size, location, assets, or on such other basis the Corporation may consider appropriate.

(2) **PURPOSES OF CLASSIFICATION.**—The Corporation may take any classification system established under paragraph (1) into account and may distinguish between classes established under such system in prescribing regulations and imposing charges or fees.

**SEC. 6. CAPITALIZATION.**

(a) **INITIAL CAPITALIZATION; GENERAL PROVISIONS.**—

(1) **INITIAL CAPITALIZATION.**—The Corporation shall have capital stock of \$200,000,000 subscribed by the Secretary of the Treasury from funds appropriated for such purchase.

(2) **SHAREHOLDER VOTING RIGHTS.**—Owners of common stock shall be vested with all voting rights, each share being entitled to one vote with rights of cumulative voting at all elections of directors.

(3) **UNRESTRICTED TRANSFERABILITY.**—The free transferability of the common stock at all times to any person shall not be restricted except that, as to the Corporation, it shall be transferable only on the books of the Corporation.

(b) **CONTRIBUTIONS TO CAPITAL; FEES.**—

(1) **REQUIRED CONTRIBUTIONS ALLOWED.**—The Corporation may accumulate funds for its capital surplus account by requiring each mortgage seller to make nonrefundable capital contributions equal to not more than 2 percent of the unpaid principal amounts or mortgages purchased by the Corporation from such seller.

(2) **FEES.**—The Corporation may impose charges or fees in such amounts as may be necessary to meet all costs and expenses incurred in connection with the administration of this Act.

(c) **MANAGEMENT OF CAPITAL AND EARNINGS.**—

(1) **TRANSFER TO GENERAL SURPLUS ACCOUNT.**—All earnings from the operations of the Corporation shall be transferred annually to its general surplus account.

(2) **TRANSFER TO RESERVES.**—At any time, funds of the general surplus account may, at the discretion of the Board, be transferred to reserves.

(3) **DIVIDENDS.**—Any dividends paid by the Corporation on stock issued under this section shall be charged against the general surplus account.

(d) **STOCK FOR CONTRIBUTIONS TO CAPITAL.**—

(1) **CONTRIBUTIONS BY MORTGAGE SELLERS.**—The Corporation shall issue, from time to time to each mortgage seller, its common stock evidencing any capital contributions made by such seller pursuant to subsection (b).

(2) **OTHER CONTRIBUTIONS.**—In addition to the shares of common stock issued under paragraph (1), the Corporation may issue additional shares of common stock in return for any other contributions to capital or capital and surplus.

(e) **RETIREMENT OF STOCK.**—The Corporation may at any time retire any stock of the Corporation which was purchased by the Secretary of the Treasury.

**SEC. 7. POWERS OF THE CORPORATION.**

(a) **IN GENERAL.**—The Corporation shall have the following powers:

(1) To adopt, alter, and use a corporate seal.

(2) To have succession until dissolved by an Act of Congress.

(3) To prescribe such regulations as may be necessary to carry out the provisions of this Act.

(4) To make and perform contracts, agreements, and commitments.

(5) To borrow, give security, pay interest or dividends, and issue notes, debentures, bonds, preferred stock, or other obligations or securities under terms and conditions which the Corporation may prescribe.

(6) To settle, adjust, compromise, and release any claim, demand, or right of, by, or against the Corporation, whether in whole or in part and with or without consideration or benefit to the Corporation.

(7) To sue and be sued in its corporate capacity, against to prosecute or defend any action brought by or against the Corporation in any State or Federal court of competent jurisdiction.

(8) To acquire, hold, and dispose of any property.

(9) To determine the Corporation's expenditures and the manner in which such expenditures shall be incurred and paid.

(10) To exercise such incidental powers which are not inconsistent with the provisions of this Act and are necessary to carry out the purposes of this Act.

**SEC. 8. DEFINITIONS.**

For purposes of this Act—

(1) **CORPORATION.**—The term "Corporation" means the Farm Mortgage Marketing Corporation established under section 3.

(2) **BOARD.**—The term "Board" means the Board of Directors of the Corporation.

(3) **FARM MORTGAGE.**—The term "farm mortgage" means any loan to an agricultural producer which—

(A) is secured by fee-simple or leasehold mortgage with status as a first lien on agricultural real estate located in the United States;

(B) is originated after the date of enactment of this Act; and

(C) is an obligation of—

(i) an individual who is a citizen of the United States; or

(ii) any person other than an individual a majority interest in which is held by individuals who are citizens of the United States, whose training or farming experience is sufficient, under criteria established by the Corporation, to assure a reasonable likelihood that such loan will be repaid according to its terms.

(4) **AGRICULTURAL REAL ESTATE.**—The term "agricultural real estate" means a parcel or parcels of land used for the production of one or more agricultural commodities or products and consisting of a minimum acreage or producing minimum annual receipts as determined by the Corporation;

(5) **QUALIFIED AGRICULTURAL LENDER.**—The term "qualified agricultural lender" means any bank, business and industrial development company, savings and loan institution, commercial finance company, trust company, credit union, insurance company, or other person approved by the Corporation.

(6) **SECURITY.**—The term "security" has the meaning given to such term in section 3(a)(10) of the Securities Exchange Act of 1934.

# SEC. 9. DESIGNATION OF ASSOCIATION AS MIXED-OWNERSHIP GOVERNMENT CORPORATION.

Section 9101(2) of title 31, United States Code, is amended by adding at the end thereof the following new subparagraph:

"(K) The Farm Mortgage Marketing Corporation."

## SEC. 10. AUTHORIZATION.

There is authorized to be appropriated to the Secretary of the Treasury for any fiscal year beginning after September 30, 1986, not to exceed \$200,000,000 for the purchase of stock of the Corporation to carry out the provisions of this Act.

### "FARM MORTGAGE MARKETING CORPORATION ACT OF 1987"

It is the intent of this Act to establish a secondary market entity similar to those which already serve the needs of the nation's housing and education sectors. This secondary market mechanism will serve as a means of enhancing and stabilizing the flow of capital for long-term financing of agricultural real estate credit needs by serving as a conduit between primary commercial agricultural lenders and the capital markets.

#### SECTION BY SECTION SUMMARY

**SECTION 1. TITLE.**—"Farm Mortgage Marketing Corporation Act of 1987".

**SEC. 2. FINDINGS AND PURPOSE.**—The purpose of this Act is to establish a quasi-private organization chartered by the Federal Government to purchase and insure agricultural mortgages from commercial agricultural lenders and to sell pools of agricultural mortgages to the capital market. Such a secondary market entity will facilitate the availability of long-term credit for agricultural borrowers and provide liquidity for financial institutions and other agricultural lenders.

**SEC. 3. ESTABLISHMENT OF CORPORATION.**—There is hereby established a corporation to be known as the Farm Mortgage Marketing Corporation.

**SEC. 4. BOARD OF DIRECTORS.**—The Act establishes a five-member Board of Directors. An initial interim Board will be appointed by the President, with the advice and consent of the Senate, and be comprised of the following: the Comptroller of the Currency, the Chairman of the Federal Deposit Insurance Corporation (FDIC), and three appointees with expertise and training in agricultural lending and mortgage investments. When sufficient common stock of the Corporation has been sold to qualified lenders, the interim Board shall turn over the affairs of the Corporation to a regular Board elected from among the holders of the stock.

**SEC. 5. PURCHASE AND SALE OF MORTGAGES.**—The Corporation, with certain limitations, may purchase farm mortgages from any qualified agricultural lender and dispose of those mortgages through the issuing of securities.

The Corporation may purchase farm mortgages if the mortgage seller agrees to retain a 10 percent participation in the mortgage, or to repurchase or replace the mortgage upon demand by the Corporation if the borrower defaults on the loan. In addition, at the time of the purchase of the mortgage, the outstanding principal balance of the mortgage must be less than 80 percent of the value of the property securing the mortgage, or the portion of the unpaid balance of the mortgage in excess of 80 percent is guaranteed by or insured by a qualified insurer. No repurchase shall be required on defaulted loans if there are suffi-

cient reserves established to cover such losses.

The Corporation shall issue securities which provide for the payment of principal and interest on farm mortgages purchased and held by Corporation.

**SEC. 6. CAPITALIZATION.**—The Corporation shall be initially capitalized by the purchase of \$200,000,000 in stock by the U.S. Treasury. In addition the Corporation shall have the authority to require that each mortgage seller make a nonrefundable capital contribution equal to not more than two percent of the unpaid principal amounts of the mortgages purchased from the seller, charge appropriate fees to meet all costs and expenses, and issue stock in return for any contribution to capital and capital surplus accounts.

The Corporation may at any time retire any stock of the Corporation which was purchased by the Treasury.

**SEC. 7. POWERS OF THE CORPORATION.**—The Corporation will have the authority to prescribe such regulations to carry out the provisions of the Act and meet the normal obligations of the Corporation.

**SEC. 8. DEFINITIONS.**—Defines the terms of the Act.

"Farm mortgage" is defined as any loan to an agricultural producer which is secured by a fee-simple or leasehold mortgage with status as a first lien on agricultural real estate originated after the date of enactment of this Act and which is an obligation of a person who is a citizen or business entity whose majority interest are citizens of the United States.

"Qualified agricultural lender" is defined as meaning any bank, business and industrial development company, savings and loan institution, commercial finance company, trust company, credit union, insurance company, or other person approved by the Corporation.

**SEC. 9. Designation of Corporation as mixed-ownership Government Corporation.**

**SEC. 10. AUTHORIZATION OF APPROPRIATIONS.**—\$200,000,000 shall be appropriated beginning after September 30, 1987.

#### STATEMENT OF ROBERT M. EVERHARDT

Mr. Chairman and members of the Subcommittee, the California Bankers Association welcomes this opportunity to join in a united front with other banking organizations in commenting upon the agricultural credit crisis. We are pleased to outline the concerns of the California banking industry regarding the credit crisis facing the farm community in California and to provide you and your colleagues with our views on action needed to assist the farm community in our state.

The California Bankers Association established a task force in late 1985 to address the agricultural credit crisis in California. The problems of agriculture in the Midwest had been well publicized. Less was known, however, about the financial condition of California agriculture. For this reason, the CBA sponsored a survey of the agricultural portfolio statistics of the commercial banks in our state. Attached to this testimony are the results of our survey, which was released in April of this year. In summary, the results of the survey show that the percentage of loans made to California farmers which are under stress is similar to the stress on loans made to farmers in other parts of the country. The results of this survey reaffirm the need to address issues which we see as barriers to commercial bank lending to agriculture in California. Since

the recommendations attached to our survey refer only to general criteria which should be followed in agricultural policy, I would like to outline several specific problems which should be addressed by Congress.

First, I would like to dispel a myth about the corporate farm in California. Of the corporate farms in California, 97 percent are family owned and operated. Many families have lived on their land for several generations, but since they are "corporations", Washington tends to view them as underserving of the benefits of federal agricultural policy. Another myth that is prevalent is that the small farmer has it tough and the large or corporate farmer has it easy. If you are losing money on every bale of cotton you sell, you cannot make it up in volume! Because of this myth about the family farmer, federal programs such as Farmers Home Administration loan programs have not been as helpful to California borrowers as they could be because the program restrictions fail to recognize the realities of California agriculture. The definition of family farmers must be changed in order to allow farmers in California to have access to FmHA loan programs. The current restrictions could, for example, be replaced with programs which allow for size limitations based on census data for geographical areas or for particular crops. Such programs, which could be patterned after programs used by HUD for FHA loan guarantees and by SBA for small business loans, would appear to make more sense than the current restrictions.

Another misnomer I would like to dispel is that a bank must be an Ag bank to be heavily involved in agricultural lending. My own bank, The Bank of Stockton, which is the largest "independent bank" ag lender in California, is not a Ag bank by OCC, FDIC or Federal Reserve Board definition. Our bank has 11.5 percent of our \$500 million loan portfolio in agriculture, but we do not meet the Ag bank standard. Of the 161 California banks who were lenders to agriculture in 1985, only three are classified as Ag banks and their loans accounted for less than \$30 million of the nearly \$5 billion in ag lending in California last year. Despite this, we still see efforts to restrict access to federal credit programs to farmers who borrow from Ag banks. For example, the banking regulators' recent decisions to establish a capital forbearance program for Ag and Energy banks discriminates against California farmers and their lenders. At this time, no California banks—to my knowledge—have taken advantage of the capital forbearance program and, in view of the restrictions, it is doubtful that any banks here in our state will.

Congress must play a role in encouraging all lenders to continue lending to agriculture. Unfortunately, Congress is in the process of taking a step in the other direction at this time. Legislation to establish a special category of bankruptcy for family farmers has passed both the House and Senate. H.R. 2211 and S. 2249, the Family Farmer Bankruptcy Act will: (1) increase the cost of credit; (2) be hailed as a solution to the ag credit crisis and will give false hope to many farmers; and (3) ignores the fact that if reorganization is possible, it is usually achieved through workouts prior to the filing of bankruptcy.

Congress can take a giant step forward to encourage commercial banks, insurance companies and others to continue lending to agriculture. Through an institutional sec-

ondary market for farm real estate loans, farmers will have other options than the Federal Land Bank. During recent years, the Federal Land Bank has dominated the market for mortgage loans because it has access to the secondary market through bond sales. If commercial banks and other lenders are able to compete in the farm mortgage market through a government sponsored market, all entities will be better served. We believe that the limited federal dollars needed to establish a secondary market, which will have the confidence of investors, will be wisely spent. Such an investment now could significantly lower costs which the federal government might incur if commercial banks and other lenders fail to offer farmers options to the current system of financing farmland. Our Association considers a secondary market for farm real estate loans a high priority. We applaud Congressman Lehman's initiative in this regard and look forward to working with him and the Congress in the establishment of a secondary market.

In conclusion, we would like to thank the Subcommittee for holding hearings on this important issue. Our Association is pleased to join with the American Bankers Association and the Bank of America in presenting our views to you.

By Mr. WILSON (for himself and Mr. CRANSTON):

S. 235. A bill to amend the Clean Air Act to provide that the Administrator of the Environmental Protection Agency shall have authority to regulate air pollution on and over the Outer Continental Shelf; to the Committee on Environment and Public Works.

#### CLEAN AIR ACT

● Mr. WILSON. Mr. President, I am joined today by my colleague from California in introducing legislation designed to strengthen the mandate to the Environmental Protection Agency to ensure that the air we breathe is clean air.

EPA's ability to meet Clean Air Act standards has been thwarted for the last 9 years because of its lack of jurisdiction over air emissions emanating from oil and gas production operations on the U.S. Outer Continental Shelf—or what is known as the OCS. Ever since 1978, these emissions have been loosely regulated by the Department of the Interior.

What this bill does is simple. It amends the Clean Air Act to transfer jurisdiction of OCS air quality from the Department of the Interior to the EPA where it belongs. This transfer of authority makes good sense for three important reasons.

First, this bill removes the inherent conflict of interest that the Interior Department has in being charged with exploiting our OCS oil and gas resources on the one hand and protecting our environment on the other. This existing situation is analogous to asking the automobile industry to engage in a program of self-regulation to reduce carbon monoxide emissions. EPA has justifiably been given the responsibility to regulate automobile

emissions, and so should it have the responsibility to regulate oil production emissions on the Federal OCS.

Second, and as a corollary to the first reason for this bill, the Interior Department is not set up to give OCS air quality issues the serious attention that they deserve. Having dealt extensively with the Interior Department for the last 4 years on the general subject of OCS oil and gas development, I can assure my colleagues that the Department's expertise is heavily weighted toward geologists, engineers, and planners.

EPA, on the other hand, has a single and sole mission—the protection of our environment. It is staffed with some of the country's finest air quality control scientists and has been working in this field for over 15 years now.

Third, and most important, the existing regulatory framework is not adequately protecting air quality. Under the Outer Continental Shelf Lands Act Amendments of 1978 [OCSLA], the Interior Department is required to regulate offshore oil and gas industry emissions only to the extent that they "significantly affect" onshore air quality. The effect of this mandate is to provide a double standard for the oil industry. Instead of subjecting oil and gas operations in Federal OCS waters to the same stringent air quality control requirements as those under which onshore industry labors, the offshore industry is allowed to operate under a weaker set of emission standards.

A perfect example of this double standard is a pending case offshore Santa Barbara where Exxon seeks to expand its offshore operations by constructing several new platforms to supplement its existing production. Initially, Exxon sought to expand its operations in such a way as to pipe its offshore oil ashore for initial processing and preparation for transport. When confronted, however, with strict air quality control requirements proposed by Santa Barbara County for its offshore platforms, Exxon decided to alter its expansion plans and now proposes to expand its offshore operations completely offshore in Federal waters where the county has no air quality jurisdiction.

Exxon openly admits that its reason for altering its expansion plans is to avoid the more stringent onshore air quality controls that Santa Barbara is required to propose in its duty to meet Clean Air Act requirements. By keeping its production operations completely offshore, Exxon need only meet the less burdensome and less expensive Interior Department air standards.

It has never been clear to me why the offshore industry should be effectively exempted from making the effort required to achieve the attainment of clean air onshore. In Califor-

nia, the problem of dirty air is especially acute. The prevailing onshore winds bring OCS emissions ashore and aggravate an already bad air quality situation where the entire southern coast of California is in nonattainment under the Clean Air Act for ozone and other ambient air quality standards.

A recent EPA study has concluded that existing offshore operations in the Santa Barbara Channel appears to account for approximately 10 percent of the ozone formation in the area. This particular study was conducted on one of the few days that Santa Barbara County was in attainment for the ozone standard, and additional work is being completed to determine the offshore industry's contribution to ozone formation on nonattainment days.

A 10 percent contribution to a bad air quality situation is by no means insignificant. If the offshore industry were subject to the same air quality standards as the onshore industry, we could expect better air quality.

But as it stands now, the offshore industry is free from the more stringent onshore air quality standards, and perhaps more importantly, is free from the sanctions that apply to onshore sources that are located in nonattainment areas. Existing law may require a construction ban for large areas of southern California by the end of this year for failure to meet ambient air quality standards, yet the offshore industry won't be covered by these sanctions even though oil and gas platform operations contribute to the degradation of the southern California air.

In short, when new onshore construction may effectively be shut down in furtherance of Clean Air Act standards, the offshore industry will still be allowed to construct new production platforms and thereby aggravate the air pollution problem that we are trying to clean up.

What this bill does is extend the Clean Air Act out over the OCS and subjects air emissions of the Federal OCS to the same kind of regulation that onshore emissions are subjected to under the Clean Air Act. It strikes the ambiguous "significantly affect" language from the OCSLA and squarely places the administrative responsibility to assure clean air in the hands of the EPA rather than splitting that responsibility with the Interior Department. This legislation recognizes that air basins know no boundaries, and that it makes sense to incorporate meteorological and topographical considerations into an integrated plan to achieve clean air rather than pretending that some kind of invisible wall separates Federal OCS air from onshore air quality.

As Congress turns to the reauthorization of the Clean Air Act, I think this legislation especially timely and hope that I will be able to look for-

ward to early hearings before the Environment Committee.

I ask unanimous consent that the text of the bill be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 235

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) title III of the Clean Air Act is amended by adding at the end thereof the following new section:*

**"OUTER CONTINENTAL SHELF**

"SEC. 327. (a) For purposes of protection of ambient air quality of any state, the Administrator by regulation shall provide that any source of an air pollutant or pollutants resulting from an activity regulated under authority of the Outer Continental Shelf Lands Act (OCSLA) (43 U.S.C.A. 1334 et seq.) being performed on the Outer Continental Shelf (OCS), in the waters above the OCS, or on the waters above the OCS meets all the requirements of the Clean Air Act that would be applicable to such source if it was carried out in the State or local jurisdiction adjacent to such source. For purposes of this subsection, the OCS shall have the same meaning as that given at section 201(a) of the OCSLA.

"(b) For purposes of subsection (a), the adjacent State or adjacent local jurisdiction is that State or local jurisdiction that is closest to the OCS source. The Administrator shall decide which State or local jurisdiction shall be considered the adjacent State or local jurisdiction.

"(c) In carrying out the provisions of subsection (a), the Administrator shall ensure that such sources do not prevent or interfere with the attainment or maintenance of any ambient air quality standards established by any State or local government to the extent that such standards are contained in its State implementation plan.

"(d) In carrying out the responsibilities under subsection (a), the Administrator shall require to the extent practicable and feasible comparable regulation of OCS and similar non-OCS sources."

(b) Section 204(a)(8) of the Outer Continental Shelf Lands Act is amended by inserting ", until such time as the Administrator of the Environmental Protection Agency has promulgated regulations under section 327 of the Clean Air Act" immediately after "of the State".

By Mr. DOLE (for himself, Mr. COCHRAN, Mr. HELMS, Mr. BOSCHWITZ, Mr. LUGAR, Mr. WILSON, and Mr. McCONNELL):

S. 236. A bill to amend the National School Lunch Act to improve the administration for the commodity distribution program, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

**COMMODITY DISTRIBUTION PROGRAM REFORM ACT**

Mr. DOLE. Mr. President, today, along with several of my colleagues on the Agricultural Committee, I am introducing legislation to provide the authority to improve the current commodity distribution system, as it relates to the school lunch and other

child nutrition programs. I am pleased to have Senators COCHRAN, BOSCHWITZ, HELMS, and LUGAR join me as cosponsors.

**BACKGROUND**

For some time now, this commodity distribution system has been criticized as being unwieldy, inefficient, and too cumbersome to administer. For many months, various concerned groups, including the National School Food Service Association [NSFSA], and many traditional commodity groups, have met with officials from the U.S. Department of Agriculture in an attempt to come up with recommendations for improvement. These groups are to be commended for their constructive approach to the problems involved.

**CRITICISM OF EXISTING PROGRAM**

Opponents of the Commodity Distribution Program claim that USDA commodities are inconsistent in quality, not packaged in useable sizes and forms, and are delivered on a schedule that is inconsistent with the needs of recipient agencies. These elements make the program administratively inefficient. When commodities are distributed in damaged or poor condition, they are not easily replaced. Further, these commodities are often not consistent with the dietary guidelines for Americans, published by USDA.

**NEED FOR CLARIFICATION OF STATUTORY AUTHORITY**

Mr. President, one of the observations that has emerged as a result of these meetings with the Department of Agriculture is that the commodity distribution program does not have the statutory base that applies to the other food and nutrition programs. Without the necessary statutory authority, it would be difficult for USDA to implement many of the recommendations for improvement that have been made. In short, the Department needs additional authority to correct the deficiencies that have been identified in the current system.

The distribution of various foods and commodities by the Secretary of Agriculture is authorized by a variety of laws, including section 32 of the Agricultural Adjustment Act, section 416 of the Agricultural Act of 1949, section 4(a) of the Agriculture and Consumer Protection Act of 1973, sections 6 and 17(b) of the National School Lunch Act, section 311 of the Older Americans Act of 1965, and section 409 of the Disaster Relief Act of 1965.

This legislation will provide the language to assure proper administration of the program, and clarify the USDA's authority to make changes that will improve the distribution of commodities to nutrition programs utilizing these commodities. The Senator from Kansas is pleased to introduce this bill, because it is something that the administration believes will be helpful in its efforts to address the

existing problems. I ask that a copy of a letter from Agriculture Secretary Richard Lyng be included in the RECORD at this point.

**CONCLUDING REMARKS**

Mr. President, it is my hope that this legislation, which is not the least bit controversial, will be given speedy consideration by the Agriculture Committee and its new leadership. As we move into the 100th Congress, I look forward to working with the new committee chairman, Senator LEAHY. When the Senator from Kansas was chairman of the Nutrition Subcommittee during a time when tough budget decisions needed to be made in 1981 and 1982, I was pleased to have the cooperation and support of the Senator from Vermont.

There are some tough issues to be addressed with regard to many of the programs under the Agriculture Committee's jurisdiction. Solutions will require a strong bipartisan spirit of cooperation to do what needs to be done to assist the Nation's farmers. I understand that there is bipartisan support for the goals of this bill, and expect that the committee will act expeditiously to correct the current flaws in the Commodity Distribution Program.

I ask unanimous consent that a copy of the bill's text be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 236

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. SHORT TITLE.**

This Act may be cited as the "Commodity Distribution Program Reform Act of 1987".

**SEC. 2. FINDINGS AND DECLARATION OF POLICY.**

(A) FINDINGS.—Congress finds that—

(1) the Secretary of Agriculture currently distributes various foods and agricultural commodities to Federal, State, and private agencies for use in schools, child care institutions, nonprofit summer camps for children, charitable institutions, correctional institutions, nutrition programs for the elderly, other eligible recipient agencies, and for the assistance of needy persons;

(2) the distribution of various foods and commodities by the Secretary is authorized by a variety of laws, including section 32 of the Act entitled "An Act to amend the Agricultural Adjustment Act, and for other purposes" (7 U.S.C. 612c), section 4(a) of the Agriculture and Consumer Protection Act of 1973 (7 U.S.C. 612c note), section 416 of the Agricultural Act of 1949 (7 U.S.C. 1431), sections 6 and 17(b) of the National School Lunch Act (42 U.S.C. 1755 and 1766(b)), section 311 of the Older Americans Act of 1965 (42 U.S.C. 5179), and section 409 of the Disaster Relief Act of 1965 (42 U.S.C. 3030a);

(3) the distribution of commodities authorized by such laws is an important part of the mission of the Secretary of Agriculture; and

(4) the distribution of commodities is inextricably linked to the agricultural support programs administered by the Secretary.

(b) **DECLARATION OF POLICY.**—It is the policy of Congress—

(1) to support the commodity distribution program as an effective means to remove surplus commodities;

(2) to provide nutritional high quality foods to recipient agencies for the assistance of needy persons;

(3) to improve the program in accordance with the findings of the "Evaluation of Alternatives to Commodity Donation in the National School Lunch Programs", and other recommendations for improvement in the administration of the commodity distribution program; and

(4) to adopt such policies as are necessary to make the commodity distribution program more efficient and responsive to the eligible recipient institutions and needy persons relying on the program.

#### SEC. 3. COMMODITY DISTRIBUTION PROGRAM REFORMS.

Section 14 of the National School Lunch Act (42 U.S.C. 1762a) (as amended by section 4403 of the Child Nutrition Amendments of 1986 (Public Law 99-661)) is amended by adding at the end thereof the following new subsections:

"(h)(1) The Secretary shall develop specifications for commodities distributed by the Department of Agriculture that will assure products of the quality, size, and form that is most useful to eligible recipient agencies, taking into account the duty of the Secretary to remove surplus stocks of the Commodity Credit Corporation.

"(2) The Secretary shall, to the extent practicable, make food items available in optional package sizes and forms.

"(3) The Secretary shall make available the product specifications to State agencies and eligible recipient agencies.

"(4) The Secretary shall develop and implement an ongoing field testing program for present and anticipated commodity purchases to test product acceptability with program participants. Test results shall be taken into consideration in deciding which commodities, and in what form those commodities, should be provided to recipient agencies.

"(i) Food items and commodities distributed by the Secretary shall, to the maximum extent practical, be consistent with the dietary guidelines published by the Secretary of Agriculture and the Secretary of Health and Human Services.

"(j)(1) Commodities distributed to eligible recipient agencies that are not found to be in good condition shall be replaced. On receiving a commodity that is not in good condition, a recipient agency shall expeditiously notify the State agency of such condition. The State agency shall take all necessary steps to ensure that such commodity is expeditiously replaced.

"(2) The Secretary shall establish procedures governing the handling of commodity items that are not in good condition when received by recipient agencies.

"(3) The Secretary shall establish a system to monitor the age and condition of commodities that are stored by the Secretary, to assure acceptable quality.

"(k)(1) The Secretary shall establish schedules for the distribution of commodities and products consistent with the needs of eligible recipient agencies, taking into account the duty of the Secretary to remove surplus stocks of the Commodity Credit Corporation.

"(2) The Secretary shall monitor the delivery systems used by State agencies and require State agencies to implement an ef-

fective delivery system for the intrastate delivery of donated commodities and products. The Secretary shall establish a value of donated commodities and products to be used by State agencies in the allocation of charging of commodities against entitlements.

"(l) The Secretary shall distribute to all recipient agencies suggested recipes for the use of donated commodities and products. Such recipe cards shall be updated on a regular basis to take into consideration changes in the dietary guidelines and the commodities that are distributed.

"(m) The Secretary shall issue such regulations as are necessary to carry out this section, including regulations concerning—

"(1) approval of reasonable intrastate fees that are charged local recipient agencies;

"(2) performance standards;

"(3) procedures for commodity allocations;

"(4) delivery schedules; and

"(5) procedures for local recipient agencies to return commodities delivered not in conformity with product specifications of the Secretary.

"(n) The Secretary shall take such actions as are necessary to assure that regional offices of the Department of Agriculture interpret policies and regulations uniformly across the United States."

#### SEC. 4. EFFECTIVE DATE.

This Act, and the amendment made by this Act, shall become effective July 1, 1987.

By Mr. THURMOND (for himself, Mr. METZENBAUM, and Mr. SPECTER):

S. 237. A bill to amend section 207 of title 18, United States Code, to prohibit Members of Congress and officers and employees of any branch of the U.S. Government from attempting to influence the U.S. Government or from representing or advising a foreign entity for a proscribed period after such officer or employee leaves Government service, and for other purposes; to the Committee on the Judiciary.

#### INTEGRITY IN POST EMPLOYMENT ACT

● MR. THURMOND. Mr. President, Today, I am introducing tough, forceful legislation that will restrict post employment activities by certain former Federal officials, applying limitations to lobbying or communications on behalf of paying clients. This legislation substantially strengthens the current law on post-employment activity by former Federal officials. The bill provides a uniform, straightforward, and enforceable way to prevent those who are employed by the Federal Government from leaving public service and marketing their access and influence for financial gain. In addition, the legislation prevents Federal employees from vending sensitive information vital to national interests to foreign interests for profit.

Clear threats arise out of the abusive use of access and influence and the vending of sensitive information: First, damage to the integrity of government, as undue and improper influence is brought to bear on decision-making processes; second, erosion of public confidence in the operation of the Government, as the American

people sense former employees are exerting, or appear to be exerting, improper influence on current Government decisions; and third, jeopardy to the national interests, as some former employees advise foreign clients based on sensitive information gained while in positions of trust with the Federal Government.

This legislation was originally introduced in the 99th Congress on April 17, 1986, and referred to the Judiciary Committee. Senator HOWARD M. METZENBAUM and Senator PAUL SIMON immediately joined in this effort. A substitute amendment was proposed by Senator METZENBAUM, Senator SIMON, and me. When this bill came before the full Judiciary Committee, at that time, members of the committee voiced their concerns about the scope of the bill. As chairman of the Judiciary Committee, I appointed an ad hoc subcommittee to further consider this legislation and to submit a report to me. The subcommittee was composed of Senator ORRIN HATCH as chairman, Senator CHARLES MCC. MATHIAS, Senator PAUL LAXALT, Senator JOSEPH BIDEN, Senator METZENBAUM, and Senator SIMON. On June 26, 1986, the subcommittee's recommendations were offered as a substitute amendment by Senator HATCH during an executive session of the Committee on the Judiciary. The ad hoc subcommittee's substitute amendment was adopted by a voice vote of the full Judiciary Committee, with only one member asking to be recorded in opposition to the bill. This substitute amendment is the legislation I am reintroducing today.

Under the compromise amendment adopted by the committee, the bill would:

Establish a 3-year ban on the Government's highest ranking officials—including Cabinet members and most of their principal deputies, Members of Congress, the top 25 White House aides, and sitting Federal judges and justices—from lobbying or working for a foreign entity after they leave Government service.

Provide a 2-year moratorium on all Government employees with a Civil Service rating of GS-16 or greater and commissioned officers of a uniform service assigned to a pay grade of O-7 or above, from lobbying their former agency on behalf of a foreign entity.

Create a two-tiered prohibition on domestic lobbying by former Government employees. Under this provision, those designated high-ranking officials prohibited from employment with foreign entities, which includes Cabinet members and most of their principal deputies, Members of Congress, the top 25 White House aides, and sitting Federal judges and justices, could not lobby any branch of the Federal Government for 18 months after leaving office.

Individuals holding jobs with a civil service rating of GS-16 and above or commissioned officers of a uniform service assigned to a pay grade of O-7 or above, could not lobby their former agency or department for 1 year.

In addition, this legislation maintains the lifetime ban in current law that prohibits all executive branch employees from lobbying on any issue in which they had a personal and substantial involvement while in Government service.

Under the compromise bill, foreign entities are defined as foreign governments, foreign political parties, or organizations substantially controlled by either. Also, exemptions are included to allow employment and lobbying by former Government officials for foreign governments for certain charitable, scholastic, or humanitarian purposes.

Maximum criminal penalties of \$250,000 in fines and 5-year prison terms, or both, are included in the measure, as well as a provision mandating that anyone convicted of violating the foreign entities provision will be required to forfeit all proceeds derived from those violations.

The amended bill would become effective 6 months after the legislation is signed into law.

In conclusion, I believe S. 2334, my original bill introduced on April 17, 1986, was a starting place for Congress to consider much-needed changes to the weak, confusing, and oftentimes conflicting laws governing former Members and Federal officials who lobby the Government or work for a foreign entity. The compromise substitute fine tunes the original proposal.

When we face a serious problem such as the misuse of influence and access or vending of sensitive information vital to National interests, we have two alternatives—do nothing, or take steps to resolve the problem. I believe we must take action to prevent irreparable damage to our Nation and to restore public confidence and integrity in our system of government. It is time that public service be just that—not merely a stepping stone for future employment or profit. This legislation will help to ensure that future Federal officials serve their country—not themselves or foreign interests.●

By Mr. THURMOND:

S. 238. A bill to amend section 534 of title 28, United States Code, to allow railroad police and private university or college police access to Federal Government criminal identification records; to the Committee on the Judiciary.

ACCESS TO FEDERAL GOVERNMENT CRIMINAL RECORDS TO CERTAIN POLICE

● Mr. THURMOND. Mr. President, the bill I am introducing would permit railroad police and private university or college police to have access to the

Federal Government criminal identification records maintained at the National Crime Information Center [NCIC]. I originally introduced this bill in the 99th Congress because I believe it is vital to private university and college police and railroad police. The Federal Government criminal identification records would contribute immeasurably toward their ability to perform their services in protecting the welfare of patrons and campus students as well as protecting cargo shipments.

The information in question was restricted by Federal regulation in 1975 to organizations which are recognized specifically as agencies of either the Federal or State government. Prior to this limitation, railroad police and university and college police had total access, across most of the Nation, to all criminal arrest files maintained by the Federal Bureau of Investigation.

After the restriction, an anomaly existed. Universities and colleges which were recognized as State agencies, and had a police force, continued to receive approval for receiving the necessary information. Those police forces which represented large campuses across the United States, on behalf of private universities or colleges, were denied access to the criminal history files by virtue of the fact that they were "private", not State, agencies.

Railroad police were confronted with a similar circumstance. Each year, the President's Conference on Transportation charged the railroad police to enforce strictly Federal regulations governing cargo shipments. However, they were restricted from access to criminal history records that would enable them to carry out this direction. In other words, the Justice Department was advocating a strong stand to protect cargo movements and needed the railroad police to help the Department achieve it, but denied them access to the most valuable tool for assistance.

The efforts of the railroad police and the university and college police to regain access to the NCIC files were joined in 1982 by the International Association of Chiefs of Police [IACP].

In a letter to Mr. Norman Chadwick, executive director of the IACP, Director of the FBI William Webster stated that he does not oppose Federal criminal history access by those agencies, that is, the railroad police and the university and college police, in the many States where they are granted full "peace officer" status by State statute. He further wrote that he thinks it incongruous that such a legal prohibition exists.

Legal counsel for the Law Enforcement Assistance Administration [LEAA] supported that statement. In the early days of LEAA, they had determined that railroad police were, in fact, a part of the criminal justice

spectrum in all States in which they had full police powers granted by the State government, even though they were not recognized as "State agencies." Further, the railroad police, in States where they were so empowered, could participate in any LEAA-funded program without jeopardizing the funding of that program.

Mr. President, this legislation would not open the criminal files to all groups or institutions that employ any form of security officer. Rather, it is limited to railroad police and university or college police who perform the administration of criminal justice pursuant to a State statute and which allocate a substantial part of their annual budget to the administration of criminal justice. This bill mandates that each police department or agency meets the minimum standards for a police officer in its respective State. This is the same criterion which applies to police forces which are recognized as State agencies and have access to the NCIC files now.

Your attention is called to the fact that there are over 34,000 railroad police and university and college police officers in the United States, commissioned in nearly all of the States within our Nation, who do enforce the law. Railroad police, in particular, enforce passenger/patron safety, tenants, and properties, as well as protect the billion dollar railroad movements of freight and valuable commodities across the land. University police are charged with protecting the vast investments in educational facilities, properties, roads, the welfare of students and faculty, tenants and service people.

Both the railroad police and the university and college police function in areas where the general public must spend a portion of its every day. Nearly all of them are covered by mandatory police training laws and attend State police academies. Access to criminal history files for both of these entities would provide additional law enforcement services to the Nation and to the communities in which they are located. I strongly urge my colleagues to support this measure.●

By Mr. THURMOND:

S. 239. A bill to establish an Intercircuit Panel, and for other purposes; to the Committee on the Judiciary.

INTERCIRCUIT PANEL OF U.S. APPEALS COURTS

● Mr. THURMOND. Mr. President, I rise today to introduce legislation to establish an Intercircuit Panel of the United States Courts of Appeal. This legislation is very similar to S. 704 which I introduced in the 99th Congress and which was approved by the Senate Judiciary Committee on June 12, 1986.

Over the past several decades, the workload of the Federal judiciary has increased dramatically. This increase has occurred as our society has become a far more litigious one, and as the laws of our Nation have become far more numerous and complex.

Since 1950, Congress has acted to meet the increasing demands upon the judiciary by increasing the number of Federal district judges from 211 to 758 and the number of circuit court of appeals judges from 65 to 226. While these increases have helped to ease the burden in the Federal and district courts, little has been done to ease the burden that has been placed on the Supreme Court, which today continues to operate at its original, nine-member size.

Mr. President, each year the burden on the Supreme Court seems to become more acute. In 1953, there were 1,463 cases on the docket of the Court. In 1984, there were more than 5,000 cases on the docket. Over the same period, the number of signed opinions increased from 65 to 139.

In the last dozen years, several major independent commissions have studied the problem of a severely overcrowded Supreme Court docket and have concluded that a new tribunal is imperatively needed.

This legislation would establish, for a 5-year trial period, such a tribunal to be known as the Intercircuit Panel of the United States. The panel would be composed of nine U.S. circuit court judges, to be selected by the Supreme Court. Members of the panel could be active, or senior status, judges.

Meeting biannually in Washington, DC, the panel would serve as a court of limited jurisdiction, reviewing only those cases referred to it by the Supreme Court. The Supreme Court would only be authorized to refer to the panel those cases in which a conflict exists among circuits.

The Supreme Court would have discretion in selecting the cases for resolution by the panel and would retain authority after the panel decides a case in order to grant further review in the case when it deems such review appropriate. It is expected that the panel would generally operate under the same rules and procedures, and parties would enjoy the same rights, that apply in cases under review of the Supreme Court.

Mr. President, this proposal was enthusiastically endorsed by Chief Justice Warren Burger during his tenure as Chief Justice. In his confirmation hearings last year, current Chief Justice William Rehnquist expressed strong support for an intercircuit tribunal.

Creation of this panel appears to be the most effective and least offensive solution to this problem. Under the bill, the panel would be utilized—to the extent desired by the Supreme

Court—for a period of 5 years. Congress would, of course, have the option to reauthorize the panel, with or without changes, after a careful assessment of its impact on the Supreme Court and the entire judicial system. Should the Supreme Court become dissatisfied with the effectiveness of the panel at any point in the 5-year period, it could terminate the panel simply by deciding not to send any additional cases to the panel.

I urge my colleagues to join me in supporting this necessary reform.●

By Mr. MURKOWSKI:

S. 240. A bill to amend title 38, United States Code, to increase the rates of disability compensation for disabled veterans and the rates of disability compensation for disabled veterans and the rates of dependency and indemnity compensation for surviving spouses and children of veterans; to the Committee on Veterans' Affairs.

VETERANS' COMPENSATION COST-OF-LIVING  
ADJUSTMENT ACT

● Mr. MURKOWSKI. Mr. President, I rise to introduce a bill which would provide a cost-of-living adjustment for the disability compensation and dependency and indemnity compensation [DIC] paid to veterans with service-connected disabilities and the survivors of individuals who die while in service or due to a service-connected cause.

If enacted, this proposed legislation would increase the rates of disability compensation and DIC by 3.9 percent, the most recent CBO projection for the percentage increase in the cost of living for fiscal year 1987. The increase would be effective December 1, 1987. In addition to increasing the basic monthly rates for compensation and DIC the bill would also increase, by the same percentage, the additional compensation received by certain severely disabled veterans and the additional compensation or DIC paid to veterans and surviving spouses for the benefit of the veterans' dependents.

Disability compensation is intended to offset the impairment to a veteran's earning ability resulting from any disability or disease incurred or aggravated while a servicemember was on active duty or, in the case of some diseases, during a presumptive period following active duty. DIC is paid to the survivors of servicemembers who die while on active duty due to any cause or who subsequently die due to any disease or disability which was incurred or aggravated while on active duty. The survivors of veterans who die due to any cause, after being totally disabled for 10 or more years because of a service-connected disability, also receive benefits at the DIC rate.

Clearly those Americans with the most deserving call on the Nation's resources, those who were injured in the service of their country, are included

in the 2½ million recipients of veterans' disability compensation and DIC. For this reason it is critical that these benefits be adjusted to reflect changes in cost-of-living. Since these benefits are not automatically indexed like the pension benefits available to veterans over age 65 or who are disabled due to non-service-connected causes, it is necessary that the Congress each year enact legislation to provide a cost-of-living adjustment. Mr. President, based on current economic projections this bill would provide the necessary protection from increases in the cost-of-living and I urge my colleagues to join me in supporting this important legislation.●

By Mr. D'AMATO:

S. 241. A bill to amend the Truth in Lending Act; to the Committee on Banking, Housing, and Urban Affairs.

CREDIT CARD DISCLOSURE ACT

● Mr. D'AMATO. Mr. President, I am introducing the Credit Card Disclosure Act of 1987 in response to concerns that were addressed in a hearing on this subject conducted by the Committee on Banking, Housing, and Urban Affairs during the 99th Congress.

My feelings on the rates that issuers of credit cards charge is no secret. At a time when the cost of funds to banks have fallen dramatically, these cost savings have not been reflected in the rates that credit card holders are charged. The card issuers are gouging the public by charging an average rate of 17.93 percent while the discount rate, the cost of funds to the banks, has been recently lowered to 5.5 percent. I find it unconscionable that some banks charge credit card interest rates as high as 22.2 percent when their cost of funds is 15 points lower. They are earning excessive profits at the expense of the consumer.

Although the banking industry supported raising interest rate levels when it was to their benefit, it is now opposed to lowering interest rates to realistic and responsible rates when consumers will benefit. Despite this opposition, I remain committed to seeing that credit card interest rates are lowered.

To restore price competition to the marketplace, I believe that the public needs to know where the best credit card rates can be found. The hearings demonstrated that there may be intense competition among credit card issuers for market share. However, there is little price competition among the 10 largest issuers of credit cards. For example, the highest rate charged by 1 of these 10 issuers is 22.2 percent and the lowest is 17.8 percent. Most of the rates are clustered in the area between 18 percent and 22 percent. These figures demonstrate the absence of price competition between the major issuers of credit cards.

To increase price competition in this market, and to respond to concerns that the interest rate alone does not reveal the true costs of credit cards to consumers. I am introducing legislation designed to remove the conspiracy of silence maintained by card issuers that prevents cardholders from finding credit cards with the lowest effective interest rates. Under this bill the card issuer is required to disclose:

First, the annual percentage rate used to determine a finance charge on any balance;

Second, the length of the grace period, if any;

Third, any minimum or fixed amount imposed as a monthly or other periodic finance charge; and

Fourth, any annual or other charge or fee required to be paid for the use of any credit card account.

Armed with this knowledge, cardholders will begin to exercise some economic power by choosing the cards that are most beneficial to them.

Card issuers are also required to transmit information regarding the relevant terms and conditions of the credit card to the Federal Reserve Board. The Board would then be required to make this information available to the public upon request and to report this information to the Congress once a year.

The most important feature of the bill requires that these terms and conditions of credit card issuance are disclosed upon the application or solicitation forms that card issuers send through the mail to entice unsuspecting consumers into accepting these preapproved forms of credit. During the hearings we discovered that oftentimes consumers learn of the real costs of their credit cards only after they have been hooked. If consumers have adequate information regarding the real costs of credit cards, then hopefully they will shun unsolicited applications and seek the cards with the lowest rates. Ideally, this form of competition will force those presently gouging the public to lower their rates or forfeit a large share of their market. I believe that such disclosure will work due to the overwhelming response we received after the committee hearing during which we cited the existence of several card issuers with rates as low as 10.5 percent.

I believe that enactment of my bill will further enhance the price competition that has already been set in motion by our hearings. Therefore I urge my colleagues to give serious consideration to this bill to ensure prompt passage.

I ask unanimous consent that the bill be printed in its entirety in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 241

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Credit Card Disclosure Act of 1987".

#### SEC. 2. DISCLOSURE IN CREDIT CARD APPLICATIONS.

Section 127 of the Truth in Lending Act (15 U.S.C. 1637) is amended by adding at the end thereof the following:

"(c) In any application to open any credit card account, or in any solicitation which offers to open such an account without the need for an application to be completed, a card issuer shall disclose—

"(1) the annual percentage rate used to determine a finance charge on any balances;

"(2) the time period (if any) within which any credit extended by means of that credit card may be repaid without incurring a finance charge, or if no such time period is provided, the creditor shall disclose such fact;

"(3) any minimum or fixed amount imposed as a monthly or other periodic finance charge; and

"(4) any annual or other charge or fee required to be paid for the use of the credit card account."

#### SEC. 3. REPORTING TO THE BOARD OF GOVERNORS.

Section 136 of the Truth in Lending Act (15 U.S.C. 1646) is amended—

(1) by redesignating subsection (b) as subsection (c);

(2) by inserting after subsection (a) the following new subsection:

"(b) The issuer of any credit card shall submit quarterly to the Board the information required to be disclosed by section 127(c). The Board shall make such information available to the public upon request, and shall report such information annually to Congress."; and

(3) by striking out "subsection (a)" in subsection (c), as redesignated, and inserting in lieu thereof "subsections (a) and (b)".

#### SECTION-BY-SECTION ANALYSIS

Currently, section 127 of the Truth in Lending Act (15 U.S.C. § 1637) requires disclosure of certain information regarding an open-end consumer credit plan before opening an account. This has been interpreted by the Federal Reserve Board in 12 C.F.R. § 226.5(b)(1) as requiring disclosure "before the first transaction is made under the plan." Thus, disclosure is not required in the application. Section 2 of this bill requires additional disclosure in an application for a credit card, as it is at the application stage that most consumers make the decision to obtain a credit card. However, less information is required in the application than must currently be disclosed before the first transaction, since the goal of such disclosure is to permit easy comparisons between credit card plans.

The information to be disclosed pursuant to this amendment must meet the requirements to section 136 of the Truth in Lending Act (15 U.S.C. § 1646), which requires information to be disclosed "clearly and conspicuously, in accordance with regulations of the Board." Moreover, that section also requires the terms "annual percentage rate" and "finance charge" to be more conspicuous than other information except that relating to the identity of the creditor.

Under section 136 of the Truth in Lending Act (15 U.S.C. § 1646), the Board is authorized to collect, publish, and provide limited dissemination to the public of annual per-

centage rates charged for nonsale credit by creditors, and it may require such creditors to submit the information to the Board. Section 3 amends this provision by adding a requirement that credit card issuers submit the annual percentage rate, along with grace periods, minimum finance charges, and annual fees, to the Board, which will make such information available to the public upon request and in an annual report to Congress. This will provide a means for better disclosure of information regarding credit cards, contributing to the efficient working of the market.●

By Mr. D'AMATO:

S. 242. A bill to amend the Truth in Lending Act to impose a ceiling on credit card interest rates; to the Committee on Banking, Housing, and Urban Affairs.

#### CREDIT CARDHOLDER PROTECTION ACT

● Mr. D'AMATO. Mr. President, I rise today to reintroduce legislation designed to limit the amount of interest credit card companies can charge on an outstanding balance. I believe that the time has come for the consumer to be treated fairly. For too long now, many issuers of credit cards have taken advantage of cardholders.

American consumers are becoming more and more dependent on credit cards as a source of currency when they purchase goods. So widely used are credit cards that soon the Internal Revenue Service may permit the American taxpayer to pay his Federal taxes using a credit card.

Lenders are taking advantage of consumer dependence on credit cards. The average interest rate charged on credit card purchases is currently 17.93 percent, with some companies charging as much as 22.2 percent, while the prime rate is a mere 7.5 percent. I am hard pressed to believe that the average credit card issuer requires a 10.4-percent margin over the prime rate to cover the risks and costs involved in issuing credit cards.

Since 1980, while the average interest rate charged on credit card balances has grown from 17.6 percent to 17.93 percent, the prime rate has dropped from 20.5 percent to 7.5 percent, the discount rate has dropped from 14 percent to 5.5 percent, and the T-bill rate has dropped from 14 percent to 5.56 percent.

Why is it that only one rate has moved in the opposite direction from the others? Why is the average credit card interest rate the only commonly used interest rate that has failed to respond to improvements in our economy? What exactly is going on here?

What is going is an inequity—an inequity which must be addressed and which must be addressed now. Although a few major banks have begun to take steps to reduce the interest rate charged on credit cards, there is yet to be a major movement. Credit card users must not be taken advantage of any longer.

In response to this inequity, I am proposing again the Credit Cardholder Protection Act. This legislation has three major components. First, and most importantly, the bill will place a cap—or ceiling—on the legal interest rate a credit card company can charge.

A Federal ceiling on credit card interest rates would be established at 4 points over the Internal Revenue Service charges on late tax payments and pays on tardy refunds. The IRS rate is a compilation of prime interest rates from the previous 3 months and is recomputed on a quarterly basis. The current IRS rate is 8 percent, making the legal cap on credit under this bill 12 percent. This alone would save consumers over \$4.7 billion a year.

The use of the IRS rate has several advantages. This rate already has bank profit built in. Thus, the extra 4 percentage points built into the credit card interest rate cap I am proposing more than adequately will provide for the costs and risks involved in issuing credit cards. The IRS rate is subject to change only once every 3 months. Thus, while the interest rate ceiling will reflect fluctuations in the economy, it will provide consumers with sufficient stability to plan their budgets well in advance.

The second part of my bill requires full disclosure of interest rates and fees by credit card companies. Currently, many credit card applications have little specific information pertaining to the interest rate that will be charged and the annual fees the cardholder will incur upon receiving the card.

Under my bill, all credit card applications will have to state the current interest charges and the annual fees charged for possessing the card. My bill also will require that these rates and fees be reported monthly to the Federal Reserve Board for publication.

Many consumers now are unaware of what they are being charged on their credit cards. Disclosure of this information on the initial credit card application will educate the consumer and, by using the publication which will be made available by the Federal Reserve Board, consumers will have the ability to shop for the best credit card for their own individual needs.

Finally, my bill would require the Consumer Advisory Council at Federal Reserve to send to the Congress yearly a report analyzing the credit card industry. The report should analyze issues specifically concerning the credit card industry. In particular, the impact the new interest rate cap will have on consumers and on credit card companies.

I believe my bill is an effective solution to the problem of excessive charges by credit card issuers. It takes quick action—it does not wait for a study to initiate the action. The interest rate cap is based on a nationwide

compilation of the prime rate and fluctuates only once every 3 months, rather than monthly, providing for a stable, understandable rate which reflects variations in the economy. My bill will best inform the public as they shop for the best credit card for their needs.

There is no question that banks have a vested interest in credit card legislation—this interest is profit. Many banks now engage in a conspiracy of silence to conceal the fact that they are reaping huge profits by charging excessively high interest rates on credit card accounts, thereby taking advantage of an uninformed public.

Mr. President, in closing, I would like to reemphasize the Senator's intention to address this injustice swiftly and equitably. I urge my colleagues to accept my proposal, and I ask unanimous consent that my legislation be printed in its entirety in the *RECORD* at the conclusion of my remarks.

There being no objection, the bill was ordered to be printed in the *RECORD*, as follows:

S. 242

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Credit Cardholder Protection Act".*

Sec. 2. Section 107 of the Truth in Lending Act (15 U.S.C. 1606) is amended by adding at the end thereof the following:

"(f) The annual percentage rate applicable to an extension of credit obtained by use of a credit card may not exceed by more than 4 percentage points the rate established under section 6621 of the Internal Revenue Code of 1954, as determined by the Board."

Sec. 3. Section 127 of the Truth in Lending Act (15 U.S.C. 1637) is amended by adding at the end thereof the following:

"(c) A card issuer shall clearly and conspicuously disclose on initial applications for a credit card—

"(1) the annual percentage rate applicable to extensions of credit by means of that credit card or the means for determining that rate; and

"(2) any annual or other fee imposed for the issuance or use of that credit card.

Each card issuer shall report monthly to the Board for publication the average annual percentage rate and the amount of any annual or other fee applicable during the preceding month to its credit card accounts."

Sec. 4. Section 703(b) of the Equal Credit Opportunity Act (12 U.S.C. 1691b(b)) is amended—

(1) by inserting "(1)" after "(b)"; and  
(2) by adding at the end thereof the following:

"(2) The Council shall transmit annually to the Congress a report that describes and analyzes the costs and risks involved in issuing credit cards, the percentage of credit card customers that have their cards revoked for non-payment or delinquent payments, revenues derived from interest rates charged by credit card issuers, revenues derived from annual fees and application fees, and the impact that the provisions of sec-

tion 107(f) of this Act will have on consumers and card issuers."•

By Mr. DIXON (for himself, Mr. GLENN, Mr. DANFORTH, and Mr. KENNEDY):

S. 243. A bill to amend the United States Housing Act of 1937 to permit tenant management of public housing; to the Committee on Banking, Housing, and Urban Affairs.

PUBLIC HOUSING RESIDENT MANAGEMENT ACT

• Mr. DIXON. Mr. President, together with my distinguished colleagues, Senators GLENN, DANFORTH, and KENNEDY, I am reintroducing legislation to permit tenant management of public housing.

I continue to have hope that we can make public housing in this country a decent place for low- and moderate-income families to live. Tenant management demonstration projects have proven that the overall living conditions of public housing tenants can be improved.

The Public Housing Resident Management Act of 1987 which we offer today would provide an alternative to residents of public housing to manage their own housing conditions. Additionally, it is intended to offer a valuable return on investment for taxpayers.

The act would permit a majority of tenant households in a public housing project to approve the establishment of a resident council, which would determine the feasibility of establishing a resident management corporation. Under contract with the local public housing agency, the management corporation would manage the housing project. Additionally, the act would permit management corporations to retain profits from improved rent collections in order to establish business enterprises that employ tenants or to provide better project maintenance and operation.

As a protection against loss and theft, the act would require each management corporation to provide fidelity bonding and insurance and an annual audit of its books and records. As an incentive to increase flexibility for tenant-managed projects, management corporations may be provided with comprehensive improvement assistance for project renovations.

In order to allay the fears of some of my colleagues, let me stress that this act does not displace current tenants. It does not provide for tenant resident ownership. It does not relieve the Federal Government of its housing programs. It does not require tenant management of public housing. Instead, the act would increase the flexibility of the residents of those public housing projects who choose tenant management.

Since the 1970's—on an experimental basis—tenants have managed at

least one public housing development in the cities of Boston, Rochester, St. Louis, Louisville, Jersey City, New Orleans, and Washington, D.C. However, tenant management is still a new concept to many public housing tenants and to most taxpayers.

Due to the success of tenant-managed projects with which I am familiar, I believe that public housing tenants should be granted the flexibility provided for in this bill. Improvements ascribed to tenant management include higher morale among tenants, decreased vandalism and maintenance problems with consequent lowering of operating costs, decreased rent delinquency resulting in an increase in project income, decreased public assistance caseloads, development of business ventures and jobs, and formation of day care centers and health clinics. Overall, these public housing communities have become safer and more stable.

Tenant management first came to my attention on September 10, 1985, when I hosted a reception for concerned residents from Cabrini-Green, a 14,000 inner-city residence complex in the City of Chicago. The residents were in Washington to study first hand an example of successful tenant-managed public housing at Kenilworth Parkside, an inner-city district complex. While here, the residents and other concerned Illinois constituents requested that I introduce resident management legislation as a possible solution to some of their multiple community problems.

The same concern was expressed by representatives of the Leclaire Courts development which is currently negotiating an agreement with the Chicago Housing Authority to become the first tenant management corporation in Chicago. This Congress, I am again offering the tenant management of public housing proposal in response to requests from constituents, along with my general interest in trying a new concept to improve the housing conditions of public housing residents, while wisely investing our scarce tax dollars.

Recently, graphic illustrations about problems that plague public housing projects appeared in the Chicago Sun Times, the Chicago Tribune, and Time magazine. While I realize that tenant management will not solve all of the problems mentioned in the publications or associated with public housing, I believe that this act would provide a mechanism for an alternative to solving many of the problems.

Mr. President, I urge my colleagues to join Senators GLENN, DANFORTH, KENNEDY, and me in cosponsoring this legislation, and I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 243

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Public Housing Resident Management Act of 1987".

#### SEC. 2. PUBLIC HOUSING RESIDENT MANAGEMENT.

The United States Housing Act of 1937 is amended by adding at the end thereof the following new section:

##### "PUBLIC HOUSING RESIDENT MANAGEMENT"

"SEC. 20. (a) PURPOSE.—The purpose of this section is to encourage increased resident management of public housing projects, as a means of improving existing living conditions in public housing projects, by providing increased flexibility for public housing projects that are managed by residents by—

"(1) permitting the retention, and use for certain purposes, of any revenues exceeding operating and project costs; and

"(2) providing funding, from amounts otherwise available, for technical assistance to promote formation and development of resident management entities.

##### "(b) PROGRAM REQUIREMENTS.—"

"(1) RESIDENT COUNCIL.—As a condition of entering into a resident management program, the elected resident council of a public housing project shall approve the establishment of a resident management corporation. The resident management corporation and the resident council may be the same organization, if the organization complies with the requirements applicable to both the corporation and council. If there is no elected resident council, a majority of the households of the public housing project shall approve the establishment of a resident council to determine the feasibility of establishing a resident management corporation to manage the project.

"(2) PUBLIC HOUSING MANAGEMENT SPECIALIST.—The resident council of a public housing project, in cooperation with the public housing agency, shall select a qualified public housing management specialist to assist in determining the feasibility of, and to help establish, a resident management corporation and to provide training and other duties agreed to in the daily operations of the project.

"(3) BONDING AND INSURANCE.—Before assuming any management responsibility for a public housing project, the resident management corporation shall provide fidelity bonding and insurance, or equivalent protection, in accordance with regulations and requirements of the Secretary and the public housing agency. Such bonding and insurance, or its equivalent, shall be adequate to protect the Secretary and the public housing agency against loss, theft, embezzlement, or fraudulent acts on the part of the resident management corporation or its employees.

"(4) MANAGEMENT RESPONSIBILITIES.—A resident management corporation that qualifies under this section, and that supplies insurance and bonding or equivalent protection sufficient to the Secretary and the public housing agency, shall enter into a contract with the public housing agency establishing the respective management rights and responsibilities of the corporation and the public housing agency. Such contract may include specific terms govern-

ing management personnel and compensation, access to public housing projects records, submission of and adherence to budgets, rent collection procedures, tenant income verification, tenant eligibility determinations, tenant eviction, the acquisition of supplies and materials, and such other matters as may be appropriate.

"(5) ANNUAL AUDIT.—The books and records of a resident management corporation operating a public housing project shall be audited annually by a certified public accountant. A written report of each audit shall be forwarded to the public housing agency and the Secretary.

"(c) COMPREHENSIVE IMPROVEMENT ASSISTANCE.—Public housing projects managed by resident management corporations may be provided with comprehensive improvement assistance under section 14 for purposes of renovating such projects in accordance with such section. If such renovation activities (including the planning and architectural design of the rehabilitation) are administered by a resident management corporation, the public housing agency involved may not retain, for any administrative or other reason, any portion of the assistance provided pursuant to this subsection.

##### "(d) OPERATING SUBSIDY AND PROJECT INCOME.—"

"(1) CALCULATION OF OPERATING SUBSIDY.—Notwithstanding any provision of section 9 or any regulation under such section, and subject to the exception provided in paragraph (3), the portion of the operating subsidy received by a public housing agency under section 9 that is allocated to a public housing project managed by a resident management corporation shall not be less than the public housing agency per unit monthly amount provided in the previous year as determined in an individual project basis.

"(2) CONTRACT REQUIREMENTS.—Any contract for management of a public housing project entered into by a public housing agency and a resident management corporation shall specify the amount of income expected to be derived from the project itself (from sources such as rents and charges) and the amount of income funds to be provided to the project from the other source of income of the public housing agency (such as operating subsidy under section 9, interest income, administrative fees, and rents).

##### "(3) CALCULATION OF TOTAL INCOME.—"

"(A) Subject to subparagraph (B), the amount of funds provided by a public housing agency to a public housing project managed by a resident management corporation may not be reduced during the 3-year period beginning on the date of the enactment of the Housing Act of 1987 or on any later date on which a resident management corporation is first established for the project.

"(B) If the total income of a public housing agency (including the operating subsidy provided to the public housing agency under section 9) is reduced or increased, the income provided by the public housing agency to a public housing project managed by a resident management corporation shall be reduced or increased in proportion to the reduction or increase in the total income of the public housing agency, except that any reduction in operating subsidy that occurs as a result of fraud, waste, or mismanagement by the public housing agency shall not affect the funds provided to the resident management corporation.

##### "(4) RETENTION OF EXCESS REVENUES.—"

"(A) Any income generated by a resident management corporation of a public hous-

ing project that exceeds the income estimated for purposes of this subsection shall be excluded in subsequent years in calculating (i) the operating subsidies provided to the public housing agency under section 9; and (ii) the funds provided by the public housing agency to the resident management corporation.

"(B) Any revenues retained by a resident management corporation under subparagraph (A) shall be used for purposes of improving the maintenance and operation of the public housing project or for establishing business enterprises that employ residents of public housing.

"(e) RESIDENT MANAGEMENT TECHNICAL ASSISTANCE AND TRAINING.—

"(1) FINANCIAL ASSISTANCE.—To the extent budget authority is available for section 14, the Secretary shall provide financial assistance to resident management corporations or resident councils that obtain, by contract or otherwise, technical assistance for the development of resident management entities, including the formation of such entities, the development of the management capability of newly formed or existing entities, the identification of the social support needs of residents of public housing projects, and the securing of such support.

"(2) LIMITATION ON ASSISTANCE.—The financial assistance provided under this subsection with respect to any public housing project may not exceed \$100,000.

"(3) FUNDING.—Of the amounts available for financial assistance under section 14 for fiscal year 1988, the Secretary may use not more than \$1,500,000 to carry out this subsection."

● Mr. GLENN. Mr. President, I rise today to join my distinguished colleague from Illinois, Senator DIXON, in reintroducing the Public Housing Resident Management Act. This bill provides an option for tenant management of public housing projects. It has been demonstrated that involvement of tenants in maintenance, improvement, and management of public housing has had a positive effect on the building, environment, and quality of life in such developments.

I believe that we need to provide an opportunity for public housing tenants to take responsibility for managing their own housing conditions. It must be noted that this concept will not work everywhere and in many areas of my State I would not even recommend resident management. Most housing authorities in Ohio are well maintained and managed. However, this legislation does permit a majority of adult public housing tenants, who are committed to the goals of tenant management, to establish a resident council. This council will determine the feasibility of establishing a resident management corporation.

As a protection against loss and theft, the bill requires management corporations to provide fidelity bonding and insurance, or their equivalents. It also requires an annual audit of the books and records of each corporation, with a written report of the audit to go to the public housing agency and the Secretary of Housing and Urban Development.

Tenant-management, while it is a relatively new approach, is by now means a cure-all for the problems that exist today in the whole area of public housing. I would like to make it perfectly clear that this legislation provides an option for tenant management. It does not divest the Federal Government of its responsibility and support for housing programs. We need more help from the Federal Government, not less.

I urge my colleagues to join Senator DIXON and myself in granting public housing tenants the flexibility of choosing tenant management.

● Mr. DANFORTH. Mr. President, I am pleased to be a cosponsor of the Public Housing Resident Management Act of 1987 which allows tenant management of public housing projects. Tenant management has been enormously successful in St. Louis, MO. The Cochran Gardens project began a management experiment of this kind in 1976. The project has undergone extensive rehabilitation and is now in the best condition of any public housing in St. Louis.

Cochran Gardens is a conventional public housing development. It is a high-rise, family complex that houses 3,250 residents in 12 buildings. The community is virtually all black, with the average income being \$4,000. More than 80 percent of the households are headed by a single female.

The development was built in 1952. By the 1960's, it was suffering from uncontrollable gang violence, mismanagement and conditions of physical disrepair. In 1969, the St. Louis Housing Authority became the target of an unprecedented rent strike, leading to forced negotiations and a creative new tenant management program. In 1976, the Cochran Tenant Management Corp. began to manage the site.

The Cochran Tenant Management Corp. has a board of directors to which five residents are elected by the tenants every 3 years. The board sets policy, provides planning direction, and sponsors all management programs. Each board member chairs one of five TMC committees: Maintenance, security, social services, recreation, and economic development. The tenants are given on-the-job management training, allowing them to learn about rent collections, security, lease and grievance procedures, maintenance and custodial services, and tenant selection.

This new system has proven that public housing can be well managed, despite severe operating deficits. The trained residents have enforced community developed standards, creating a safe environment and improving living conditions. Difficult management decisions which traditionally have been avoided are now being made and accepted by the residents.

Tenant management has had a significant impact on the project and on the lives of its inhabitants. There have been extensive renovations including the establishment of a new community center that sponsors athletic events, talent shows, field trips, and employment-related activities. Since the beginning of this new style of management, reported crime has lessened substantially, vacancy rates have decreased from 250 to 50, and rent collection rates have risen. The project has created many new jobs and has become a vehicle for training and employing those who otherwise would not be in the job market. Tenant management thus offers an opportunity for people to free themselves from the cycle of welfare dependency.

Based on this enormously successful tenant management experiment, I urge the passage of the Public Housing Resident Management Act of 1987.

By Mr. DIXON:

S. 244. A bill to amend the Federal Deposit Insurance Act; to the Committee on Banking, Housing, and Urban Affairs.

#### AGRICULTURAL BANK ASSISTANCE ACT

● Mr. DIXON. Mr. President, I am today reintroducing the Agricultural Bank Assistance Act. This legislation is based on the Farm Credit Relief Act and other agricultural bank legislation that I introduced in the last Congress.

This bill is limited. It is a simple attempt to ensure that hard-pressed agricultural banks and their farmer-customers get the kind of assistance they need. It is a long overdue acknowledgment that the remedies, both administrative and legislative, that have been tried so far do not adequately respond to the financial crisis in our agricultural communities.

That crisis is devastating American agriculture and our rural economy. The terrible, unsupportable weight of farm debt is suffocating the family farm. Farmers now owe more than \$186 billion, and the simple truth is that continued too-low prices for agricultural products mean that more and more farmers are unable to service that debt.

Farm prices are still down, and the value of farm land has dropped by as much as 40 percent or even more. Bankruptcies, however, are way up, and unless we are able to provide some badly needed assistance, the current appalling bankruptcy rate is likely to go much, much higher.

Unless we act, many of our Nation's full-time farmers will be wiped out. We needed to act 2 years ago. We cannot afford any further delay if we are to save the many family farmers that deserve our help. The shakiest of these midsized farmers owe nearly a third of total farm debt, an amount

that compares with the Latin American debt held by the Nation's largest banks.

Farm debt, however, unlike foreign debt, is not held largely by money center banks. It is held by the Nation's more than 4,200 agricultural banks. These banks are small in size, but they are of vital importance to their communities.

While they do not hold the bulk of long-term debt, agricultural banks are a major source of operating and other short-term loans. According to the Comptroller of the Currency, banks hold about 40 percent of the short-term debt. This is a serious problem because while many farmers have the resources to service their mortgage debt, many can no longer also meet their short-term debt obligations.

Agricultural banks are therefore also under serious strains, and the evidence is that their problems are becoming more severe. We had 138 bank failures last year—the highest number since the Great Depression—and a disproportionate number of those failing were agricultural banks. This trend appears to be continuing. Over 1,100 banks—an alltime record—are on the Federal regulators problem list. There were 120 bank failures in 1985, the majority of which were agricultural banks, and there will probably be well over 150 bank failures this year.

This trend is especially troubling because historically agricultural banks are among the strongest in our financial system. Agricultural banks traditionally have a very strong capital base, and they have followed the kind of prudent banking practices that have protected their depositors.

As strong as they are, however, agricultural banks are not immune from a crisis in the overall agricultural economy. There is no way they could be immune. More than 1,700 banks have more than 50 percent of their portfolios in agricultural loans, and that figure greatly understates the true dimensions of the problem since it does not include loans to agribusiness and other rural businesses dependent on a strong and profitable agricultural sector.

What we need, therefore, are solutions directed toward helping both farmers and the agricultural banks that serve them. It makes no sense to help the banks alone if that help does not permit them to continue to play an active role in their local communities. And farmers clearly need help to restructure their debts so that they are not forced off the land or put in the position of being tenant farmers on what was their land.

This bill, Mr. President, is an attempt to provide assistance and needed flexibility for both farmers and their lenders. It does not pretend to be a complete solution to the problems of either, but it will provide

needed transitional assistance as more fundamental, long-term solutions are put into place. We need to make it possible for farm exports to begin expanding again. We need to restore the opportunity to make a profit to American farmers. We need to bring interest rates down to more reasonable levels. But all these things will take time; time that many of our farmers and rural financial institutions do not have unless we are able to act soon on appropriate safety net protections.

The provisions of this bill ought to be a component of this safety net. It will permit banks to negotiate with farmers on appropriate debt restructuring, restructuring that will leave farmers with payments they can meet while bringing the banks greater financial returns than foreclosure would. It helps ensure that farmers aren't forced off their land, and helps the banks retain customers that they want to retain, customers that they have had a good relationship with over the years and who, with this help, will be good customers again. It does not require any bank to act to restructure loans. It simply permits banks to take actions, with the approval of Federal regulators, that banks believe are in their interests and which will benefit hard-pressed but fundamentally sound farmers.

The heart of the legislation is a provision that permits agricultural banks to write down loans from their book value to their fair market value. Banks can do this now, but under current law, they must deduct the amount written off from their capital all at once. Even though agricultural banks are well-capitalized, they cannot withstand losses of this magnitude, so banks are forced to foreclose rather than write down loans. This benefits neither the banks nor the farmers.

Current law forces banks to try not to acknowledge the extent of their problems, because any losses in a loan portfolio must be written off against capital at the time they are recognized. Now in normal business conditions that is sound practice. In the current crisis situation in our agricultural economy, however, the pressure on agricultural bank capital it creates is so great that it actually adds to the problems facing both farmers and banks. Losses on agricultural loans can cause reductions in bank capital. That reduction can force a bank to call in more loans, generating more losses, forcing still further reductions in bank capital, and so on, in a destructive cycle that could destroy both the bank and many basically sound American farmers. At the very least, banks may have to withdraw as lenders to their communities with all the problems that the loss of such a major source of credit always causes.

Amortizing the losses, however, creates an incentive for banks to deal

with their problems in a way that can help to minimize those losses. I do not suggest this step lightly. I recognize the seriousness of this proposal, but administrative remedies attempted by banking industry regulators have failed to solve the problem. The only alternative to this kind of package is direct assistance—and with our budget problems, it is difficult to see how that kind of help could be provided.

The bill also permits eligible banks to amortize their losses on the reduced value of farmland they acquired in the process of handling an agricultural loan where the bank is still holding the property but must write-down the asset value of the land on its books. This provision will help reduce the continued downward pressure on agricultural land prices, and assist banks in managing the swollen land portfolios many of them now hold.

Let me say in conclusion that this proposal, if enacted, will work to provide needed assistance for American farmers who deserve our help. It will also provide assistance for agricultural banks, who through no fault of their own, are being squeezed by the ongoing agricultural crisis, permitting these fundamentally sound banks to weather this storm.

This bill will not solve all the problems facing farmers and their community banks. It is scaled back from the original legislation I offered in 1985. However, it will still work effectively for farmers and bankers.

We have provided special assistance for financial institutions in the past, most recently for foreign loans and for the housing industry. We have assisted the Farm Credit System and are considering further assistance. I think agricultural banks and their farmer-customers are just as deserving of the assistance of the U.S. Senate.

Agricultural banks and their farmer-borrowers must not be forgotten as we work on shoring up the Farm Credit System. Agricultural banks play a crucial role in rural America. These banks and their farmer-customers desperately need our help. I urge my colleagues to join me in working to see that this legislation is quickly enacted. I ask unanimous consent that an explanation of the bill and a copy of the legislation be included at this point in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 244

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Agricultural Bank Assistance Act of 1987".*

SEC. 2. Section 13 of the Federal Deposit Insurance Act (12 U.S.C. 1823) is amended by adding at the end thereof the following:

"(j)(1) The appropriate Federal banking agency shall permit an agricultural bank to

take the actions referred to in paragraph (2) if it finds that there is no evidence that fraud or criminal abuse on the part of the bank led to the losses referred to in paragraph (2).

"(2)(A) Any loss on any qualified agricultural loan that an agricultural bank would otherwise be required to show on its annual financial statement for any year between December 31, 1986, and January 1, 1992, may be amortized on its financial statements over a period of not to exceed 10 years, as specified in regulations issued by the appropriate Federal banking agency.

"(B) An agricultural bank may reappraise the value of any real estate or other property, real or personal, that it acquired coincident to the making of a qualified agricultural loan and that it owned on January 1, 1987, and any such additional property that it acquires prior to January 1, 1992. Any loss that such bank would otherwise be required to show on its annual financial statements as the result of such reappraisal may be amortized on its financial statements over a period of not to exceed 10 years, as specified in regulations issued by the appropriate Federal banking agency.

"(3) The appropriate Federal banking agency may issue regulations implementing this subsection with respect to banks that it supervises.

"(4) As used in this subsection—

"(A) the term 'agricultural bank' means a bank which is significantly involved in agricultural lending, as determined by the appropriate Federal banking agency, and the deposits of which are insured by the Federal Deposit Insurance Corporation; and

"(B) the term 'qualified agricultural loan' means a loan made to finance the production of agricultural products or livestock in the United States, a loan secured by farmland or farm machinery, or such other category of loans as the appropriate Federal banking agency may deem eligible."

#### AGRICULTURAL BANK ASSISTANCE ACT OF 1987 EXPLANATION OF PROVISIONS

The bill would permit a commercial bank which is significantly involved in agricultural lending to amortize, over a period up to 10 years, two kinds of losses resulting from its lending activity to agriculture (provided that such losses did not result from fraud or criminal abuse on the part of the bank). The two kinds of losses eligible for multi-year amortization are:

(1) Losses on agricultural loans, whereby in the absence of the bill the bank would have to charge off the entire loss in the immediate year that it is recognized.

*Example:* An agricultural bank makes an operating loan to a farmer who owes \$100,000 on the loan. A bank regulatory agency classifies the loan, so that \$30,000 of loss must be recognized by the bank in 1987. Without the bill, the bank must charge off \$30,000 in 1987; with the bill, the bank may charge off \$3,000 per year during 1987-1996.

(2) Losses on reduced value of property (mostly farmland) which a bank acquired in the process of handling an agricultural loan, whereby the bank still holds the property but must devalue it as an asset.

*Example:* An agricultural bank acquires 200 acres of farmland in 1986 in a farm debt workout situation. At the time acquired, the land was valued at \$2,000 per acre (\$400,000), but in 1987 is appraised and revalued at \$1,500 per acre (\$300,000). Without the bill, the bank asset value of the land would be reduced by \$100,000 in 1987; with the bill, the bank may reduce the asset

value of the land by \$10,000 per year in 1987-1996.

The bill provides for a 5-year period (1987-1991), during which losses that are recognized of the two kinds described above could be stretched out over a period up to 10 years. The bill should result in no cost to the U.S. Treasury, since the banks themselves would absorb the losses over the period of time that is provided.

The amortized farm loan loss accounting will help agricultural banks to remain competitive suppliers of credit to farmers, by permitting the banks to absorb part of their farm lending losses over a period of time sufficient for the agricultural economy and the banks' earnings to have an opportunity to recover. Once the banks' net earnings recovered, the retained earnings and capital position of the agricultural banks could be fully replenished.●

By Mr. BENTSEN (for himself and Mr. BURDICK):

S. 245. A bill to provide for the reimbursement of States for advance construction of highways; to the Committee on Environment and Public Works.

#### ADVANCE CONSTRUCTION

● Mr. BENTSEN. Mr. President, I am introducing today a bill entitled "Advance Construction" which will provide for the reimbursement of States for advance construction work they have conducted on federally approved highways. We have gone over 90 days now with no new federally authorized highway funds. Over half of the States have depleted their Federal highway funds in one or more funding categories. We need to take whatever steps we can to provide some relief to the construction industry which is hard hit by the lack of construction work and to the highway users of this Nation who have paid for and need better roads. I believe that my bill will provide some help and I urge my fellow Senators to join me in passing this important piece of legislation.

My bill provides for advance construction funding for all categories of Federal-aid highway projects when a State has used its apportionment and allocation funds or obligation authority or demonstrates that it will use its obligation authority. Under present law, advance construction is not permitted on noninterstate highways or when a State has used its obligation authority or has insufficient obligation authority. Under my bill, States may proceed with advance construction up to an amount equal to their existing unobligated fund balance plus expected apportionments from current year authorizations, plus an amount equal to the State's apportionment for one additional fiscal year. Under present law advance construction is not permitted if it will exceed a State's expected apportionment from existing authorizations. Put simply, this bill would expand the conditions under which a State can proceed with an advance construction project in any of

several categories and raises the limit to which a State can carry out advance construction work and be qualified for Federal reimbursement.

I would also like to point out that this bill does not add any cost to the Federal-aid highway program. All funds ultimately reimbursed to the States for advanced construction projects will come out of their regular apportionments.

Mr. President, I know the highway department in my State of Texas strongly supports this program expansion. I would assure my colleagues that this amendment does not require any State to do anything unless that State decides it to be in its own best interests.●

By Mr. LAUTENBERG (for himself and Mr. BRADLEY):

S. 246. A bill to provide for a Veterans' Administration outpatient satellite clinic in central or southern Jersey; to the Committee on Veterans' Affairs.

#### VA OUTPATIENT CLINIC IN CENTRAL SOUTHERN NEW JERSEY

● Mr. LAUTENBERG. Mr. President, on the first day of the 100th Congress, I rise to introduce a bill along with my colleague, Senator BRADLEY, to authorize the establishment of a Veterans' Administration satellite outpatient clinic in central or southern New Jersey. I have introduced this bill on the first day of the session as an indication of the high priority I attach to assuring that this clinic becomes a reality for New Jersey in the 100th Congress.

Quality medical care that is accessible to the veteran is one of the commitments we made to our men when we sent them off to fight. But New Jersey veterans are getting the short end of the stick. With only one outpatient facility in my State, veterans either have an inordinate wait for service or a long drive to the nearest outpatient clinic.

Since January 1985, I have urged the Veterans' Administration to approve funding for a satellite outpatient clinic for New Jersey. The facility would provide minor surgery, fill pharmaceutical needs, and provide local diagnostic services for veterans in counties not effectively served by the one outpatient clinic in Newark.

The need for this facility to provide additional medical care for New Jersey's veterans is critical, and that need has long been acknowledged by the Veterans' Administration. The 1984 VA MEDIPP study recognized that the establishment of an ambulatory care facility in New Jersey is the highest priority in the entire VA medical district IV. District IV encompasses New Jersey, Delaware, and parts of Maryland and Pennsylvania.

The level I approval for the funding of this clinic indicates that the Chief Medical Director and the Administrator of the VA concur in medical district IV's assessment of the need for this clinic. The level II approval indicates that an outpatient clinic has been designated as the appropriate facility to meet that need.

I had expected that level III approval, a request for funding in the budget, would be forthcoming this year. However, although the Chief Medical Director told me last year that he expected and hoped funding for the New Jersey clinic would be included in this year's budget, I have today learned it was not.

The VA's own statistics clearly demonstrate the need for this clinic. They show that parts of New Jersey are capable of generating over 52,000 visits per year by veterans to an outpatient facility, while the VA minimum threshold for placement of a clinic is only 15,000 visits annually.

Numbers tell only part of the story. The nearly 1 million New Jersey veterans currently must use the one outpatient facility in the State located in Newark. It has been plagued by continual staffing shortages and equipment breakdowns. Moreover, the need for an additional facility can only increase since the elderly population in New Jersey is growing at a tremendous rate. That growth will certainly place even further stress on a veterans' network that is already chronically overtaxed.

Mr. President, many elderly or severely disabled veterans suffer from infirmities which make it difficult or impossible for them to drive or use public transportation to obtain medical treatment in distant VA facilities. Without the establishment of the outpatient facility called for in my legislation, these veterans will be forced to continue to travel long distances for outpatient care at the VA hospitals in Lyons, Philadelphia, or East Orange, or the single VA clinic in Newark, or do without medical care altogether.

Some veterans in central and southern New Jersey must travel 2 hours each way to obtain veterans services, and then endure a 3- to 6-hour wait at the clinics. Waiting a full day to receive medical care cannot be what we had in mind when we set up the VA medical care system to take care of those who served our Nation so proudly.

New Jersey's veterans should not wait another year for work to begin on this clinic, which is the VA's highest priority in medical district IV.

I pledge to make funding for this clinic my No. 1 veterans priority on the Senate Budget Committee, and the Senate Appropriations Subcommittee on HUD and Independent Agencies, which oversees the Veterans' Administration budget.

I urge my colleagues to approve this bill, and make sure that New Jersey veterans do not have to wait any longer to receive the medical care they so desperately need, and that our society promised them.

Mr. President, I ask unanimous consent that a copy of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 246

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That the Administrator of Veterans' Affairs is authorized (1) to establish a Veterans' Administration outpatient satellite clinic facility in New Jersey; and (2) to construct or acquire by donation, purchase, lease, or otherwise a facility suitable for such purpose. Such facility shall be located in the central or the southern part of the State.

SEC. 2. There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this Act.●

#### By Mr. CRANSTON:

S. 247. A bill to designate the Kern River as a national wild and scenic river; to the Committee on Energy and Natural Resources.

#### ADDITION OF THE KERN RIVER TO THE NATIONAL WILD AND SCENIC RIVERS SYSTEM

Mr. CRANSTON. Mr. President, I introduce for appropriate reference a bill to add 151 miles of the north and south forks of the Kern River in California to the National Wild and Scenic Rivers System. The legislation is identical to S. 2544, which I sponsored in the 99th Congress.

The north fork of the Kern designated under this bill includes 78.5 miles from its headwaters in Sequoia National Park to the Tulare/Kern County line. This river segment has been studied by the Forest Service for inclusion in the Wild and Scenic Rivers System and in its January 19, 1982, report the Forest Service identifies this entire stretch as possessing "outstandingly remarkable esthetic and other resource values" and recommends designation.

The 72.5 miles of the south fork from its headwaters to the southern boundary of the Domelands Wilderness have long been recognized as qualifying for the Wild and Scenic Rivers System. Although there's been no formal wild and scenic study, the National Rivers Inventory of January 1982 identified the south fork of the Kern River as a potential candidate for the Wild and Scenic Rivers System. Further the draft forest plan for the Sequoia National Forest issued in November 1985 identifies the entire segment as eligible for designation.

The existing Southern California Edison diversion facility on the north fork would not be affected by the designation. Also the boundaries for the south fork have been drawn to con-

form with the Domelands Wilderness boundary to allow consideration of the proposed Bloomfield Ranch Project No. 4805 for which a license application has been filed with FERC.

I am aware that some property owners along the north fork of the Kern River are concerned about possible condemnation of their lands. However, under the Wild and Scenic Rivers Act, where the Federal Government already owns more than 50 percent of the total land—as in the case of the Kern—condemnation can be used only to acquire scenic and access easements, not fee title. Additionally, section 16(c) of the act provides that a scenic easement cannot affect, without the owner's consent, any regular use exercised prior to the date of acquisition.

Mr. President, this bill has the strong support of 23 environmental organizations—American Rivers Conservation Council, California League of Women Voters, California Trout, California Native Plant Society, California Wilderness Coalition, California Sportfishing Protective Alliance, Defenders of Wildlife, Environmental Defense Fund, Friends of the River, Kern River Fly Fishermen, Merced Canyon Committee, National Audubon Society, National Parks and Conservation Association, Natural Resources Defense Council, Outdoors Unlimited, Pacific Coast Fly Fishermen, Porterville Area Environmental Council, Planning and Conservation League, Sierra Club, Tulare Audubon Society, WATER, Western River Guides Association, and the Wilderness Society.

In addition, editorials in support of the bill have appeared in the Los Angeles Times, Bakersfield Californian, San Francisco Chronicle, Fresno Bee, and Oakland Tribune.

Mr. President, I ask unanimous consent that the text of the bill be printed at this point in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 247

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That section 3(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1274(a)) is amended by adding the following new paragraphs at the end:

"(59) NORTH FORK KERN RIVER, CALIFORNIA.—The segment of the main stem from the Tulare-Kern County line to its headwaters in Sequoia National Park, as generally depicted on a map entitled "Proposed North Fork Kern River", numbered fs-59 and dated March, 1986; to be administered by the Secretary of Agriculture; except that those portions of the river within the boundaries of the Sequoia National Park shall be administered by the Secretary of the Interior. With respect to the portions of the river segments designated by this paragraph which are within the boundaries of Sequoia National Park, the requirements of subsection (b) of this section shall be fulfilled by the Secretary of the Interior through appropriate revisions to the gener-

al management plan for the park, and the boundaries, classification, and development plans for such portions need not be published in the Federal Register. Such revision to the general management plan for the park shall assure that no developments or use of park lands shall be undertaken that is inconsistent with the designation of such river segments as a wild river. For the purposes of the segment designated by this paragraph, there are authorized to be appropriated for fiscal years commencing after September 30, 1986, such sums as may be necessary for the acquisition of lands and interests therein and for development.

"(60) SOUTH FORK KERN RIVER, CALIFORNIA.—The segment from its headwaters in the Inyo National Forest to the southern boundary of the Domelands Wilderness in Sequoia National Forest, as generally depicted on the Proposed Boundary Map, numbered fs-60, and dated March, 1986; to be administered by the Secretary of Agriculture. For the purposes of the segment designated by this paragraph, there are authorized to be appropriated for fiscal years commencing after September 30, 1986, such sums as may be necessary for the acquisition of lands and interests in lands and for development."

By Mr. LAUTENBERG (for himself, Mr. MOYNIHAN, Mr. GRASSLEY, Mr. SIMON, Mr. WILSON, Mr. SPECTER, and Mr. BRADLEY):

S. 248. A bill to amend title 10, United States Code, to permit members of the Armed Forces to wear, under certain circumstances, items of apparel not part of the official uniform; to the Committee on Armed Services.

#### WEARING OF RELIGIOUS APPAREL IN THE MILITARY

● Mr. LAUTENBERG. Mr. President, today I rise to introduce legislation to permit the wearing of neat and conservative religious apparel in the military. I am pleased to be joined by Senators MOYNIHAN, GRASSLEY, SIMON, WILSON, SPECTER, and BRADLEY as original cosponsors. Under my legislation, which is identical to an amendment I offered last year on the Senate floor, such apparel would be permitted only if it does not significantly interfere with the performance of military duty. Language identical to this bill was adopted by the House last year, and was narrowly defeated in the Senate last year by a vote of 51 to 49.

This legislation responds to the Supreme Court's 5-to-4 decision in *Goldman* against Weinberger. In *Goldman*, the Court held that the military's perceived need for uniformity of dress, and for discipline, overrode the first amendment right of an Orthodox Jewish serviceman, Dr. Goldman, to fulfill his traditional Jewish obligation by wearing a skullcap. This bill would permit Dr. Goldman to serve his country while at the same time allowing him to remain true to his religion. And it would permit others like him, of whatever faith, to do the same.

Because this legislation, and this issue, is broader than any one religion.

It concerns the right of people of all faiths to serve their country without having to forsake their religious beliefs and practices. It would affirm the religious and ethnic diversity that have made America strong, not weak.

The primary philosophical objection to this bill has been that wearing visible items of religious apparel may threaten the military uniformity necessary in building unit cohesion. While I appreciate and agree with the importance of unit cohesion and esprit de corps in the Armed Forces, I do not believe that wearing neat, conservative, and unobtrusive religious apparel threatens this principle.

To the contrary, it would strengthen morale by affirming that the military is a humane and tolerant institution. And as Justice Brennan made clear in his moving dissent to the majority opinion in *Goldman*, allowing religious apparel to be worn with a U.S. military uniform is an eloquent reminder that the shared and proud identity of U.S. servicemen embraces and unites religious and ethnic pluralism.

Although uniformity is claimed as an important value the services easily permit other manifestations of religious diversity. Service members attend Christian, Islamic, Jewish, and other religious services. Barracks mates see Mormons wearing temple garments, and Catholics wearing crosses and scapulars. It is obvious that our services are made up of people from different faiths and ethnic backgrounds, and that diversity is America's greatest asset. It is no secret, nor should it be.

Further, I should point out that the record here and abroad on the wearing of religious apparel supports my position. In the *Goldman* case, for example, it was established that Captain Goldman himself, as well as many other members of the armed services, had worn skullcaps for many years in the military service without any apparent disruption, difficulty, or adverse impact on military effectiveness.

And the dissenting Justices pointed out there was no evidence in the record that the discipline of the Armed Forces would be subverted if Orthodox Jews are allowed to wear skullcaps with their uniforms, nor did the Air Force offer any basis for such a contention as a general proposition.

Further, for years, our own Army accepted Sikhs and allowed them to wear their turbans for decades. It still allows them to reenlist under those conditions. Would an Army that believed that the wearing of turbans impaired morale permit these Sikhs to enlist year after year? I think not.

The Army has stopped enlisting Sikhs since its lawyers voiced concern that if the Army tolerated Sikh turbans, it would have to allow saffron robes as well. So in changing its enlistment policy toward recruits who wear

turbans as a matter of religious practice, the Army was objecting not to turbans but to saffron robes. It is my position that the wearing of robes might interfere with the performance of military duty, and would therefore probably not be permitted under the terms of this amendment. However, that would be a decision left for the services to make in the first instance, as would all decisions under this amendment.

There is ample evidence from other countries that wearing religious apparel does not interfere with the fighting spirit of the military unit. The Israeli Defense Forces, for example, have many servicemen who go into battle wearing skullcaps. After successes in four separate wars, it is hard to argue that the yarmulke in any way interfered with their ability to wage successful war.

Furthermore, research by the Congressional Research Service indicates that in Canada, New Zealand, and India, Sikh and Jewish soldiers are permitted to wear their religious headwear and their religious artifacts with other standard items of clothing.

In the United Kingdom, Sikh members of the services are permitted to wear turbans, and to keep their hair long, if they choose. And the Queen's Regulations for the Royal Air Force, which generally require all personnel to remove their headdress while on duty before a judge or magistrate, specifically exempt members of the Jewish faith or other religions which require the head to be covered on solemn occasions.

Our own experience, and that of other countries on this question speaks for itself. There is simply no evidence that the wearing of visible religious apparel interferes with uniformity or unit cohesion.

Our citizens in uniform should not be deprived of their basic constitutional rights, such as the free exercise of religion, the minute they enter the military. There must be a compelling and supportable argument justifying such a prohibition. None has been made.

Some of the services have argued that the neat and conservative standard will be hard to apply, forcing them to make delicate and difficult distinctions between religious garb. But the services have a successful record of using the neat and conservative standard to distinguish acceptable from unacceptable jewelry. If we can make this distinction for neat and conservative jewelry, why can't we make it for religious apparel.

Certainly, the wearing of apparel central to the practice of one's religious beliefs is more important and worthy of review than the wearing of jewelry. The Air Force permits the wearing of up to three rings and one

identification bracelet of neat and conservative but nonuniform design. This jewelry is permitted even if, as is often the case with rings, it associates the wearer with a denominational school or a religious or secular fraternal organization. These items are not deemed to be unacceptably divisive. I cannot see why religious apparel that is neat and conservative would be.

In closing, I want to emphasize, once again, that this legislation is not confined to the wearing of skullcaps, but addresses the wearing of any item of apparel that is part of the member's religious observance. The amendment states:

In order to preserve constitutional rights to the free exercise of religion, a member of the Army, Navy, Air Force or Marine Corps may wear any neat and conservative item of apparel if the wearing of such apparel is part of the religious observance of the member, unless the wearing of such apparel significantly interferes with the performance of the member's military duties.

I urge my colleagues to approve this legislation so that the practice of religion and service to one's country need not be in conflict.

Mr. President, I ask unanimous consent that a copy of this bill appear in the RECORD following my remarks.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 248

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. WEARING RELIGIOUS APPAREL NOT PART OF THE OFFICIAL UNIFORM.**

(a) IN GENERAL.—Chapter 45 of title 10, United States Code, is amended—

(1) by redesignating section 774 as section 775; and

(2) inserting after section 773 the following new section:

**“§ 774. Wearing religious apparel**

“(a) Except as provided in subsection (b), a member of the armed forces may wear an item of religious apparel if—

“(1) the wearing of the item of apparel is part of the religious observance of the religious faith practiced by the member; and

“(2) the item of apparel is neat and conservative.

“(b) The Secretary concerned may prohibit a member from wearing an item of religious apparel if the Secretary determines that the wearing of such item significantly interferes with the performance of the member's military duties.”.

(b) CONFORMING AMENDMENTS.—The table of chapters at the beginning of such chapter is amended—

(1) by redesignating the item relating to section 774 as 775; and

(2) by inserting below the item relating to section 773 the following new item:

“774. Wearing religious apparel.”.

By Mr. DODD (for himself and Mr. SPECTER):

S. 249. A bill to grant employees parental and temporary medical leave under certain circumstances, and for

other purposes; to the Committee on Labor and Human Resources.

**PARENTAL AND TEMPORARY MEDICAL LEAVE ACT OF 1987**

● Mr. DODD. Mr. President, today I am introducing a bill to establish something we have gone without in this country for far too long: namely, a national policy on parental leave. The “Parental and Medical Leave Act of 1987” would promote the economic security of families by providing for parental leave upon the birth, adoption, or serious illness of a child, and temporary medical leave when a serious health condition prevents a parent from working.

Because such leave would be unpaid, it will not add to the deficit nor to the economic burdens carried by employers. Yet it will provide parents with continuing health benefits and a most important assurance: that of a job when they are ready to return to work. I am pleased to have Senator ARLEN SPECTER of Pennsylvania join me in sponsoring this important legislation.

I introduced identical legislation, S. 2278, on April 9, 1986, and had encouraged my colleagues to give it due consideration during the 99th Congress. Given the critical importance of children and families to the future development and security of this Nation, it is imperative we consider this pro-family measure during the 100th Congress. As the new chairman of the Subcommittee on Children and Families on the Committee on Labor and Human Resources, I intend to schedule hearings on this legislation as quickly as possible. Similar legislation will be reintroduced in the House of Representatives by Representatives SCHROEDER and CLAY.

The critical need for a national policy on parental leave has been underscored by the Yale Bush Center in child development and social policy, in a project focusing on infant care leave policies here and abroad. As director Ed Zigler or the Yale Bush Center in my State of Connecticut has pointed out so well, the time has come when we can no longer ignore the changing demographics of our work force.

Today, close to half of all mothers with infants under 1 year of age work outside of the home. That figure has doubled since 1970 and shows no signs of abating. In fact, 85 percent of all women working outside of the home are likely to become pregnant at some point during their child-bearing years. As a result, child care for infants is the fastest growing, most expensive form of supplemental care in this country.

These percentages translate into a total today of 24 million children under age 13 with mothers working outside of the home. In a report entitled the “Subtle Revolution,” the urban institute predicts that over the

next 5 years, an additional 5 million children will have mothers joining the labor force.

The reasons behind this demographic revolution are quite simple: Mothers are entering the work force out of economic necessity. Two out of every three women working outside of the home today are either the sole providers for their children or have husbands who earn less than \$15,000 a year. In 1983, 25 percent of the married women in the work force had husbands earning less than \$10,000; 50 percent under \$20,000 and nearly 80 percent less than \$30,000. In short, these women's wages are critical to the support of their families.

As founder and cochairman of the Senate children's caucus, I have heard and seen first hand the adverse consequences of forcing parents to choose between their children and their jobs. One new parent took an unpaid leave from her job in a retail store, only to find when she returned after her 6 weeks checkup at the doctor's that she had been replaced by a new employee. Another parent had arranged to adopt a child under the condition that she stay at home with that child for 6 months. When her employer refused to grant her more than 2 weeks leave, the agency turned down her request to become an adoptive parent. Unfortunately, the list of such cases appears endless in contrast to the comparatively small group of employees who are able to obtain leave to stay at home for a short time with a new child.

The United States is the only industrialized nation without a policy to guarantee parents who want to stay home temporarily with a new child that their jobs will be waiting for them when they are able to return to work. This is a most dubious distinction, given the importance of the economic security of families to the defense and overall security of any nation. Our economic summit partners, Canada, France, Britain, Japan, West Germany, and Italy, have already recognized this connection between the economic security of families and national security. In having established national parental leave policies, they have more in common with the Soviet Union than they do with us. Likewise, a whole host of developing nations, including Haiti and the Philippines, have national policies on maternity leave firmly in place.

We know that children do not fare well when their parents undergo economic stress: Children of the unemployed are three times more likely to suffer abuse than other children. Neither do children thrive when their parents are suffering from physical and emotional exhaustion in their efforts to work full-time and incorporate a new infant into the family.

In a survey of women in the New Haven area in my State of Connecticut, Yale researchers found that the vast majority of working mothers said they had to return to work sooner than they felt was suitable. They returned out of fear of losing their jobs, jobs their families depend upon.

Even though many physicians assert it takes a woman 6 to 8 weeks to recover from a normal, safe delivery, the typical working mother returns to her job after 3 to 4 weeks. She returns before recovering fully from childbirth, let alone coping with the dramatic changes in finances, scheduling, and family relationships that go along with caring for a new infant.

The Pregnancy Discrimination Act of 1978 mandates that all serious health conditions related to pregnancy be treated like all other short-term serious health conditions. However, only five States have temporary disability insurance policies. Likewise, only half of all private employers offer short-term disability coverage to assist mothers recovering from a complicated delivery or fathers recuperating from surgery.

The "Parental and Medical Leave Act of 1987" provides for up to 6 months of temporary medical leave for both mothers and fathers. Just as importantly, it provides for up to 4 months parental leave to give a mother or father time to integrate a new child into the family or to care for a child who is seriously ill. Although such leave is unpaid, health benefits will be assured as will a job when the parent is ready to return to work.

In endeavoring to assist parents, we must not forget the plight of employers, especially small businessmen and women to whom a stable work force can mean the difference between failure and success. For this reason, my bill exempts small businesses with fewer than 15 employees. The small business exemption is an issue which should be addressed in the Senate hearings, along with a number of other provisions which appear in the House bill but not the Senate bill.

In closing, Mr. President, the need for a national policy on parental leave is clear. I urge my colleagues to join me in sponsoring the "Parental and Medical Leave Act of 1987." For if we are to assure a strong, healthy future for coming generations of Americans, caring for your child can no longer mean losing your job.

I ask unanimous consent that the text of the bill be printed in the RECORD in its entirety.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 249

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Parental and Medical Leave Act of 1987".

(b) TABLE OF CONTENTS.—

#### TITLE I—GENERAL REQUIREMENTS FOR PARENTAL AND TEMPORARY MEDICAL LEAVE

- Sec. 101. Findings and purposes.
- Sec. 102. Definitions.
- Sec. 103. Parental leave requirement.
- Sec. 104. Temporary medical leave requirement.
- Sec. 105. Certification.
- Sec. 106. Employment and benefits protection.
- Sec. 107. Prohibited acts.
- Sec. 108. Administrative enforcement.
- Sec. 109. Enforcement by civil action.
- Sec. 110. Investigative authority.
- Sec. 111. Relief.
- Sec. 112. Notice.

#### TITLE II—PARENTAL LEAVE AND TEMPORARY MEDICAL LEAVE FOR CIVIL SERVICE EMPLOYEES

- Sec. 201. Parental and temporary medical leave.

#### TITLE III—ADVISORY PANEL ON PAID PARENTAL AND MEDICAL LEAVE

- Sec. 301. Establishment.
- Sec. 302. Duties.
- Sec. 303. Membership.
- Sec. 304. Compensation.
- Sec. 305. Powers.
- Sec. 306. Termination.

#### TITLE IV—MISCELLANEOUS PROVISIONS

- Sec. 401. Effect on other laws.
- Sec. 402. Effect on existing employment benefits.
- Sec. 403. Regulations.
- Sec. 404. Effective dates.

#### TITLE I—GENERAL REQUIREMENTS FOR PARENTAL AND MEDICAL LEAVE

##### SEC. 101. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds that—

(1) the number of two-parent households in which both parents work and the number of single-parent households in which the single parent works are increasing significantly;

(2) it is important for the development of children and the family unit that fathers and mothers be able to participate in early childrearing and the care of children who have serious health conditions;

(3) the lack of employment policies to accommodate working parents forces many individuals to choose between job security and parenting; and

(4) there is inadequate job security for employees who have serious health conditions that prevent the employees from working for temporary periods.

(b) PURPOSES.—It is the purpose of this Act—

(1) to balance the demands of the workplace with the needs of families;

(2) to promote the economic security and stability of families; and

(3) to entitle employees to take reasonable leave for medical reasons, for the birth or adoption of a child, and for the care of a child who has a serious health condition, without the risk of termination or retaliation by employers.

##### SEC. 102. DEFINITIONS.

As used in this title:

(1) COMMERCE.—The terms "commerce" and "industry or activity affecting commerce" mean any activity, business, or industry in commerce or in which a labor dis-

pute would hinder or obstruct commerce or the free flow of commerce, including "commerce" and any activity or industry "affecting commerce" within the meaning of the Labor Management Relations Act, 1947 (29 U.S.C. 141 et seq.).

(2) EMPLOY.—The term "employ" has the same meaning given the term in section 3(g) of the Fair Labor Standards Act of 1938 (29 U.S.C. 203(g)).

(3) EMPLOYEE.—The term "employee" has the meaning given the term in section 3(e) of the Fair Labor Standards Act of 1938, except that—

(A) the term does not include any Federal officer or employee covered under subchapter III of chapter 63 of title 5, United States Code; and

(B) the term includes permanent part-time employees.

(4) EMPLOYER.—The term "employer"—

(A) means any person who employs 15 or more employees and is engaged in commerce or in any industry or activity affecting commerce;

(B) includes—

(i) any person who acts directly or indirectly in the interest of an employer to one or more employees; and

(ii) any successor in interest of such an employer; and

(C) includes any public agency, as defined in section 3(x) of the Fair Labor Standards Act of 1938 (29 U.S.C. 203(x)), except that employees of any such agency shall be considered employees engaged in commerce.

(5) EMPLOYMENT BENEFITS.—The term "employment benefits" means all benefits provided or made available to employees by an employer, including group life insurance, health insurance, disability insurance, sick leave, annual leave, educational benefits, and pensions, regardless of whether the benefits are provided by a policy or practice of an employer or by an employee benefit plan as defined in section 3(3) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1002(1)).

(6) PERSON.—The term "person" has the same meaning given the term in section 3(a) of the Fair Labor Standards Act of 1938 (29 U.S.C. 203(a)).

(7) REDUCED LEAVE SCHEDULE.—The term "reduced leave schedule" means leave scheduled for fewer than the usual number of hours of an employee per workweek or hours per workday.

(8) SECRETARY.—The term "Secretary" means the Secretary of Labor.

(9) SERIOUS HEALTH CONDITION.—The term "serious health condition" means an illness, injury, impairment, or physical or mental condition that involves—

(A) inpatient care in a hospital, hospice, or residential medical care facility; or

(B) continuing treatment or continuing supervision by a health care provider.

(10) SON OR DAUGHTER.—The term "son or daughter" means a biological, adopted, or foster child, stepchild, legal ward, or child of a de facto parent, who is under 18 years of age.

(11) STATE.—The term "State" has the same meaning given the term in section 3(c) of the Fair Labor Standards Act of 1938 (29 U.S.C. 203(c)).

##### SEC. 103. PARENTAL LEAVE REQUIREMENT.

(a) IN GENERAL.—(1) An employee shall be entitled to 18 workweeks of parental leave during any 24-month period—

(A) as the result of the birth of a son or daughter of the employee;

(B) as the result of the placement, for adoption or foster care, of a son or daughter with the employee; or

(C) in order to care for the employee's son or daughter who has a serious health condition.

(2) The leave may be taken on a reduced leave schedule. Under the schedule—

(A) the total period during which the 18 workweeks may be taken may not exceed 36 consecutive workweeks; and

(B) the leave shall be scheduled so as not to disrupt unduly the operations of the employer.

(3) In the case of a child who has a serious health condition, the leave may be taken intermittently when medically necessary.

(b) **UNPAID LEAVE PERMITTED.**—Except as provided in subsection (c), leave granted under subsection (a) may consist of unpaid leave.

(c) **RELATIONSHIP TO PAID LEAVE.**—(1) If an employer provides paid parental leave for fewer than 18 weeks, the additional weeks of leave added to attain the 18-week total may be unpaid.

(2) An employee may elect to substitute any accrued paid vacation leave, personal leave, or other appropriate paid leave for any part of the 18-week period.

#### SEC. 104. TEMPORARY MEDICAL LEAVE REQUIREMENT.

(a) **IN GENERAL.**—(1) Any employee who, as the result of a serious health condition, becomes unable to perform the functions of the position of the employee, shall be entitled to temporary medical leave. The entitlement shall continue for as long as the employee is unable to perform the functions, except that the leave shall not exceed 26 workweeks during any 12-month period.

(2) The leave may be taken intermittently when medically necessary.

(b) **UNPAID LEAVE PERMITTED.**—Except as provided in subsection (c), leave granted under subsection (a) may consist of unpaid leave.

(c) **RELATIONSHIP TO PAID LEAVE.**—(1) If an employer provides paid temporary medical leave or paid sick leave for fewer than 26 weeks, the additional weeks of leave added to attain the 26-week total may be unpaid.

(2) An employee may elect to substitute accrued paid vacation leave, sick leave, or other appropriate paid leave for any part of the 26-week period.

#### SEC. 105. CERTIFICATION.

(a) **IN GENERAL.**—An employer may require that a claim for parental leave under section 103(a)(1)(C), or temporary medical leave under section 104, be supported by certification issued by—

(1) the duly licensed health care provider of the son, daughter, or employee, whichever is appropriate; or

(2) any other health care provider determined by the Secretary to be capable of providing adequate certification.

(b) **SUFFICIENT CERTIFICATION.**—The certification shall be considered sufficient if it states—

(1) the date on which the serious health condition commenced;

(2) the probable duration of the condition; and

(3) the medical facts within the knowledge of the provider regarding the condition.

#### SEC. 106. EMPLOYMENT AND BENEFITS PROTECTION.

(a) **RESTORATION TO POSITION.**—(1) Any employee who exercises any right provided under section 103 or 104 shall be entitled, on return from the leave—

(A) to be restored by the employer to the position held by the employee when the leave commenced; or

(B) to be restored to a position with equivalent status, benefits, pay, and other terms and conditions of employment.

(2) The taking of leave under this title shall not result in the loss of any benefit accrued before the date on which the leave commenced.

(3) Except as provided in subsection (b), nothing in this section shall be considered to entitle any restored employee to—

(A) the accrual of any seniority or benefits during any period of leave; or

(B) any right or benefit other than any right or benefit to which the employee would have been entitled had the employee not taken the leave.

(b) **MAINTENANCE OF HEALTH BENEFITS.**—During any period of leave taken under section 103 or 104, health benefits of an employee shall be maintained for the duration of the leave at the level at which the benefits would have been maintained if the employee had continued in employment continuously from the date the employee commenced the leave until the date the employee is restored under subsection (a).

#### SEC. 107. PROHIBITED ACTS.

(a) **INTERFERENCE WITH RIGHTS.**—(1) It shall be unlawful for any employer to interfere with, restrain, or deny the exercise of or the attempt to exercise, any right provided under this title.

(2) It shall be unlawful for any employer to discharge or in any other manner discriminate against any individual for opposing any practice made unlawful by this title.

(b) **INTERFERENCE WITH PROCEEDINGS OR INQUIRIES.**—It shall be unlawful for any person to discharge or in any other manner discriminate against any individual because the individual—

(1) has filed any charge, or has instituted or caused to be instituted any proceeding, under or related to this title;

(2) has given or is about to give any information in connection with any inquiry or proceeding relating to any right provided under this title; or

(3) has testified or is about to testify in any inquiry or proceeding relating to any right provided under this title.

#### SEC. 108. ADMINISTRATIVE ENFORCEMENT.

(a) **IN GENERAL.**—The Secretary shall issue such rules and regulations as are necessary to carry out this section, including rules and regulations concerning service of complaints, notice of hearings, answers and amendments to complaints, and copies of orders and records of proceedings.

(b) **CHARGES.**—(1) Any person (or person, including a class or organization, on behalf of any person) alleging an act that violates this title may file a charge respecting the violation with the Secretary. Charges shall be in such form and contain such information as the Secretary shall require by regulation.

(2) The Secretary shall serve a notice of the charge on the person charged with the violation not more than 10 days after the Secretary receives the charge.

(3) A charge may not be filed more than 1 year after the last event constituting the alleged violation.

(c) **INVESTIGATION; COMPLAINT.**—(1) Within the 60-day period after the Secretary receives any charge, the Secretary shall investigate the charge and issue a complaint based on the charge or dismiss the charge.

(2) If the Secretary determines that there is a reasonable basis for the charge, the Sec-

retary shall issue a complaint based on the charge and promptly notify the charging party and the respondent as to the issuance.

(3) If the Secretary determines that there is no reasonable basis for the charge, the Secretary shall dismiss the charge and promptly notify the charging party and the respondent as to the dismissal.

(4) The charging party and the respondent may enter into a settlement agreement concerning the violation alleged in the charge. To be effective such an agreement must be determined by the Secretary to be consistent with this title.

(5) On the issuance of a complaint, the Secretary and the respondent may enter into a settlement agreement concerning a violation alleged in the complaint, except that any such settlement may not be entered into over the objection of the charging party.

(6) If, within the 60-day period referred to in paragraph (1), the Secretary—

(A) has not issued a complaint under paragraph (2);

(B) has dismissed the charge under paragraph (3); or

(C) has not approved or entered into a settlement agreement under paragraph (4) or (5),

the charging party may bring a civil action under section 109.

(7) The Secretary may issue and serve a complaint alleging a violation of this title on the basis of information and evidence gathered as a result of an investigation initiated by the Secretary pursuant to section 110.

(8) On issuance of a complaint, the Secretary shall have the power to petition the United States district court for the district in which the violation is alleged to have occurred, or in which the respondent resides or transacts business, for appropriate temporary relief or a restraining order. On the filing of any such petition, the court shall cause notice of the petition to be served on the respondent. The court shall have jurisdiction to grant to the Secretary such temporary relief or restraining order as the court considers just and proper.

(d) **RIGHTS OF PARTIES.**—(1) In any case in which a complaint is issued under subsection (b), the Secretary shall, not less than 5 days and not more than 30 days after the complaint is issued, cause to be served on the respondent a copy of the complaint.

(2) Any person filing a charge alleging a violation of this title may elect to be a full party to any complaint filed by the Secretary alleging the violation. The election must be made before the commencement of a hearing.

(e) **CONDUCT OF HEARING.**—(1) The Secretary shall prosecute any complaint issued under subsection (b).

(2) An administrative law judge shall conduct a hearing on the record with respect to a complaint issued under this title. The hearing shall be conducted in accordance with sections 554, 555, and 556 of title 5, United States Code, and shall be commenced within 60 days after the issuance of the complaint.

(f) **FINDINGS AND CONCLUSIONS.**—(1) After a hearing is conducted under this section, the administrative law judge shall promptly make findings of fact and conclusions of law, and, if appropriate, issue an order for relief as provided in section 111.

(2) The administrative law judge shall inform the parties, in writing, of the reason for any delay in making the findings and conclusions if the findings and conclusions

are not made within 60 days after the conclusion of the hearing.

(g) **FINALITY OF DECISION; REVIEW.**—(1) The decision and order of the administrative law judge shall become the final decision and order of the Secretary unless, on appeal by an aggrieved party taken not more than 30 days after the action, the Secretary modifies or vacates the decision, in which case the decision of the Secretary shall be the final decision.

(2) Not later than 60 days after the entry of the final order, any person aggrieved by the final order may obtain a review of the order in the United States court of appeals for the circuit in which the violation is alleged to have occurred or in which the employer resides or transacts business.

(3) On the filing of the record with the court, the jurisdiction of the court shall be exclusive and its judgment shall be final, except that the same shall be subject to review by the Supreme Court of the United States on writ of certiorari or certification as provided in section 1254 of title 28, United States Code.

(h) **COURT ENFORCEMENT OF ADMINISTRATIVE ORDERS.**—(1) If a respondent does not appeal an order of an administrative law judge under subsection (g)(2), the Secretary may petition the United States district court for the district in which the violation is alleged to have occurred, or in which the respondent resides or transacts business, for the enforcement of the order of the administrative law judge, by filing in the court a written petition praying that the order be enforced.

(2) On the filing of the petition, the court shall have jurisdiction to make and enter a decree enforcing the order of the administrative law judge. In the proceeding, the order of the administrative law judge shall not be subject to review.

(3) If, on appeal of an order under subsection (g)(2), the United States court of appeals does not reverse or modify the order, the court shall have the jurisdiction to make and enter a decree enforcing the order of the administrative law judge.

#### SEC. 109. ENFORCEMENT BY CIVIL ACTION.

(a) **RIGHT TO BRING CIVIL ACTION.**—(1) Subject to the limitations in this section, an employee or the Secretary may bring a civil action against any employer to enforce this title in any appropriate court of the United States or in any State court of competent jurisdiction.

(2) A civil action may be commenced under this subsection without regard to whether a charge has been filed under section 108(b).

(3) No civil action may be commenced under paragraph (1) if the Secretary—

(A) has approved a settlement agreement under section 108(c)(4), in which case no civil action may be filed under this subsection if the action is based on a violation alleged in the charge and resolved by the agreement; or

(B) has issued a complaint under section 108(c)(2) or 108(c)(7), in which case no civil action may be filed under this subsection if the action is based on a violation alleged in the complaint.

(4) Notwithstanding paragraph (3)(A), a civil action may be commenced to enforce the terms of any such settlement agreement.

(5)(A) Except as provided in subparagraph (B), no civil action may be commenced more than 1 year after the date on which the alleged violation occurred.

(B) In any case in which—

(i) a timely charge is filed under section 108(b); and

(ii) the failure of the Secretary to issue a complaint or enter into a settlement agreement based on the charge (as provided under section 108(c)(6)) occurs more than 11 months after the date on which any alleged violation occurred,

the employee may commence a civil action not more than 30 days after the date on which the employee is notified of the failure.

(6) The Secretary may not bring a civil action against any agency of the United States.

(b) **VENUE.**—An action brought under subsection (a) in a district court of the United States may be brought—

(1) in any appropriate judicial district under section 1391 of title 28, United States Code; or

(2) in the judicial district in the State in which—

(A) the employment records relevant to the violation are maintained and administered; or

(B) the aggrieved person worked or would have worked but for the alleged violation.

(c) **NOTIFICATION OF THE SECRETARY; RIGHT TO INTERVENE.**—A copy of the complaint in any action brought by an employee under subsection (a) shall be served on the Secretary by certified mail. The Secretary shall have the right to intervene in a civil action brought by an employee under subsection (a).

(d) **ATTORNEYS FOR THE SECRETARY.**—In any civil action brought under subsection (a), attorneys appointed by the Secretary may appear for and represent the Secretary, except that the Attorney General and the Solicitor General shall conduct any litigation in the Supreme Court.

#### SEC. 110. INVESTIGATIVE AUTHORITY.

(a) **IN GENERAL.**—To ensure compliance with this title, or any regulation or order issued under this title, subject to subsection (c), the Secretary shall have the investigative authority provided under section 11(a) of the Fair Labor Standards Act of 1938 (29 U.S.C. 211(a)).

(b) **OBLIGATION TO KEEP AND PRESERVE RECORDS.**—An employer shall keep and preserve records in accordance with section 11(c) of such Act.

(c) **REQUIRED SUBMISSIONS GENERALLY LIMITED TO AN ANNUAL BASIS.**—The Secretary may not under this section require any employer or any plan, fund, or program to submit to the Secretary any books or records more than once in any 12-month period, unless the Secretary has reasonable cause to believe there may exist a violation of this title or any regulation or order issued pursuant to this title, or is investigating a charge brought pursuant to section 108.

(d) **SUBPOENA POWERS, ETC.**—For purposes of any investigation conducted under this section, the Secretary shall have the subpoena authority provided under section 9 of the Fair Labor Standards Act of 1938 (29 U.S.C. 209).

(e) **DISSEMINATION OF INFORMATION.**—The Secretary may make available to any person substantially affected by any matter that is the subject of an investigation under this section, and to any department or agency of the United States, information concerning any matter that may be the subject of the investigation.

#### SEC. 111. RELIEF.

(a) **INJUNCTIVE RELIEF.**—(1) On finding a violation under section 108 by a person, an

administrative law judge shall issue an order requiring the person to cease and desist from any act or practice that violates this title.

(2) In any civil action brought under section 109, a court may grant as relief any permanent or temporary injunction, temporary restraining order, or other equitable relief as the court considers appropriate.

(b) **MONETARY DAMAGES.**—Any employer that violates this title shall be liable to the injured party in an amount equal to—

(1) any wages, salary, employment benefits, or other compensation denied or lost to the employee by reason of the violation, plus interest on the total monetary damages calculated at the prevailing rate; and

(2) an additional amount equal to the greater of—

(A) the amount determined under paragraph (1), as liquidated damages; or

(B) general or consequential damages.

(c) **ATTORNEYS' FEES.**—A prevailing party (other than the United States) may be awarded a reasonable attorneys' fee as part of the costs, in addition to any relief awarded. The United States shall be liable for costs in the same manner as a private person.

(d) **LIMITATION.**—Damages awarded under subsection (b) may not accrue from a date more than 2 years before the date on which a charge is filed under section 108(b) or a civil action is brought under section 109.

#### SEC. 112. NOTICE.

(a) **IN GENERAL.**—Each employer shall post and keep posted, in conspicuous places on the premises of the employer where notices to employees and applicants for employment are customarily posted, a notice, approved by the Secretary, setting forth excerpts from, or summaries of, the pertinent provisions of this title and information pertaining to the filing of a charge.

(b) **PENALTY.**—Any employer who willfully violates this section shall be fined not more than \$100 for each separate offense.

#### TITLE II—PARENTAL LEAVE AND TEMPORARY MEDICAL LEAVE FOR CIVIL SERVICE EMPLOYEES

##### SEC. 201. PARENTAL AND TEMPORARY MEDICAL LEAVE.

(a) **IN GENERAL.**—(1) Chapter 63 of title 5, United States Code, is amended by adding at the end thereof the following new subchapter:

##### "SUBCHAPTER III—PARENTAL AND TEMPORARY MEDICAL LEAVE

"§ 6331. Definitions

"For purposes of this subchapter:

"(1) 'employee' means—

"(A) an employee as defined by section 6301(2) of this title (excluding an individual employed by the government of the District of Columbia); and

"(B) an individual under clause (v) or (ix) of such section;

whose employment is other than on a temporary or intermittent basis;

"(2) 'serious health condition' means an illness, injury, impairment, or physical or mental condition that involves—

"(A) inpatient care in a hospital, hospice, or residential medical care facility; or

"(B) continuing treatment, or continuing supervision, by a health care provider; and

"(3) 'child' means a biological, adopted, or foster child, stepchild, legal ward, or child of a de facto parent, who is under 18 years of age.

**"§ 6332. Parental leave**

"(a) Leave under this section shall be granted on the request of an employee if the leave is requested—

"(1) as the result of the birth of a child of the employee;

"(2) as the result of the placement for adoption or foster care of a child with the employee; or

"(3) in order to care for employee's child who has a serious health condition.

"(b) Leave under this section—

"(1) shall be leave without pay;

"(2) may not, in the aggregate, exceed the equivalent of 18 administrative workweeks of the employee during any 24-month period; and

"(3) shall be in addition to any annual leave, sick leave, temporary medical leave, or other leave or compensatory time off otherwise available to the employee.

"(c) An employee may elect to use leave under this section—

"(1) immediately before or after (or otherwise in coordination with) any period of annual leave, or compensatory time off, otherwise available to the employee;

"(2) under a method involving a reduced workday, a reduced workweek, or other alternative work schedule;

"(3) on either a continuing or intermittent basis; or

"(4) any combination thereof.

**"§ 6333. Temporary medical leave**

"(a) An employee who, because of a serious health condition, becomes unable to perform the functions of the position of the employee shall, on request of the employee, be entitled to leave under this section.

"(b) Leave under this section—

"(1) shall be leave without pay;

"(2) shall be available for the duration of the serious health condition of the employee involved, but may not, in the aggregate, exceed the equivalent of 26 administrative workweeks of the employee during any 12-month period; and

"(3) shall be in addition to any annual leave, sick leave, parental leave, or other leave or compensatory time off otherwise available to the employee.

"(c) An employee may elect to use leave under this section—

"(1) immediately before or after (or otherwise in coordination with) any period of annual leave, sick leave, or compensatory time off otherwise available to the employee;

"(2) under a method involving a reduced workday, a reduced workweek, or other alternative work schedule;

"(3) on either a continuing or intermittent basis; or

"(4) any combination thereof.

**"§ 6334. Job protection**

"An employee who uses leave under section 6332 or 6333 of this title shall be entitled to be restored to the position held by the employee immediately before the commencement of the leave.

**"§ 6335. Prohibition of coercion**

"(a) An employee may not directly or indirectly intimidate, threaten, or coerce, or attempt to intimidate, threaten, or coerce, any other employee for the purpose of interfering with the exercise of the rights of the employee under this subchapter.

"(b) For the purpose of this section, 'intimidate, threaten, or coerce' includes promising to confer or conferring any benefit (such as appointment, promotion, or compensation), or taking or threatening to take

any reprisal (such as deprivation of appointment, promotion, or compensation).

**"§ 6336. Health insurance**

"An employee enrolled in a health benefits plan under chapter 89 of this title who is placed in a leave status under section 6332 or 6333 of this title may elect to continue the health benefits enrollment of the employee while in leave status and arrange to pay into the Employees Health Benefits Fund (described in section 8909 of this title), through the employing agency of the employee, the appropriate employee contributions.

**"§ 6337. Regulations**

"The Office of Personnel Management shall prescribe regulations necessary for the administration of this subchapter. The regulations prescribed under this subchapter shall be consistent with the regulations prescribed by the Secretary of Labor under title I of the Parental and Medical Leave Act of 1987."

(2) The table of contents for chapter 63 of title 5, United States Code, is amended by adding at the end thereof the following:

**"SUBCHAPTER III—PARENTAL AND TEMPORARY MEDICAL LEAVE**

"6331. Definitions.

"6332. Parental leave.

"6333. Temporary medical leave.

"6334. Job protection.

"6335. Prohibition of coercion.

"6336. Health insurance.

"6337. Regulations."

(b) EMPLOYEES PAID FROM NONAPPROPRIATED FUNDS.—Section 2105(c)(1) of title 5, United States Code, is amended by striking out "53" and inserting in lieu thereof "53, subchapter III of chapter 63."

**TITLE III—ADVISORY PANEL ON PAID PARENTAL AND MEDICAL LEAVE**

**SEC. 301. ESTABLISHMENT.**

(a) ESTABLISHMENT.—There is established an Advisory Panel to be known as the Advisory Panel on Paid Parental and Medical Leave (hereinafter in this title referred to as the "Panel").

**SEC. 302. DUTIES.**

The Panel shall—

(1) compile and review, to the extent practicable, all studies of existing and proposed methods designed to provide workers with full or partial salary replacement or other income protection during periods of temporary medical leave, parental leave, and leave for care of dependents;

(2) conduct, where it deems appropriate, research activities;

(3) within 2 years after the date on which the Panel first meets, submit a report to Congress, including legislative recommendations concerning implementation of a system of salary replacement for temporary medical leave and parental leave.

**SEC. 303. MEMBERSHIP.**

(a) COMPOSITION.—The Panel shall be composed of 15 members appointed not more than 60 days after the date of the enactment of this Act as follows:

(1) Three Senators shall be appointed by the majority leader of the Senate, in consultation with the minority leader of the Senate.

(2) Three members of the House of Representatives shall be appointed by the Speaker of the House of Representatives, in consultation with the minority leader of the House of Representatives.

(3) The Secretary of Health and Human Services.

(4) The Secretary of Labor.

(5) Seven members shall be appointed jointly by the majority leader of the Senate and the Speaker of the House of Representatives. The members shall be appointed by virtue of demonstrated expertise in relevant family and temporary disability issues.

(b) VACANCIES.—Any vacancy on the Panel shall be filled in the same manner in which the original appointment was made.

(c) CHAIRPERSON AND VICE CHAIRPERSON.—The Panel shall elect a chairperson and a vice-chairperson from among the members of the Panel.

(d) QUORUM.—Eight members of the Panel shall constitute a quorum for all purposes, except that a lesser number may constitute a quorum for the purpose of holding hearings.

**SEC. 304. COMPENSATION.**

(a) PAY.—Members of the Panel shall serve without compensation.

(b) TRAVEL EXPENSES.—Members of the Panel shall be allowed reasonable travel expenses, including a per diem allowance, in accordance with section 5703 of title 5, United States Code, while performing duties of the Panel.

**SEC. 305. POWERS.**

(a) MEETINGS.—The Panel shall first meet not more than 30 days after the date by which all members are appointed. The Panel shall meet thereafter on the call of the chairperson or a majority of the members.

(b) HEARINGS AND SESSIONS.—The Panel may hold such hearings, sit and act at such times and places, take such testimony, and receive such evidence as the Panel considers appropriate. The Panel may administer oaths or affirmations to witnesses appearing before the Panel.

(c) ACCESS TO INFORMATION.—The Panel may secure directly from any Federal agency information necessary to enable the Panel to carry out this Act. On the request of the chairperson or vice chairperson of the Panel, the head of the agency shall furnish the information to the Panel.

(d) DIRECTOR.—The Panel may appoint an Executive Director from the personnel of any Federal agency to assist the Panel in carrying out the duties of the Panel.

(e) USE OF SERVICES AND FACILITIES.—On the request of the Panel, the head of any Federal agency may make available to the Panel any of the facilities and services of the agency.

(f) PERSONNEL FROM OTHER AGENCIES.—On the request of the Panel, the head of any Federal agency may detail any of the personnel of the agency to assist the Panel in carrying out the duties of the Panel.

**SEC. 306. TERMINATION.**

The Panel shall terminate 30 days after the date of the submission of the final report of the Panel to Congress.

**TITLE IV—MISCELLANEOUS PROVISIONS**

**SEC. 401. EFFECT ON OTHER LAWS.**

(a) FEDERAL LAWS.—Nothing in this Act shall be construed to modify or affect any Federal law prohibiting discrimination on the basis of race, religion, color, national origin, sex, age, or handicapped status.

(b) STATE AND LOCAL LAWS.—Nothing in this Act shall be construed to supersede any provision of any State and local law that provides greater employee parental or medical leave rights than the rights established under this Act.

## SEC. 402. EFFECT ON EXISTING EMPLOYMENT BENEFITS.

(a) **MORE PROTECTIVE.**—Nothing in this Act shall be construed to diminish the obligation of an employer to comply with any collective-bargaining agreement or any employment benefit program or plan that provides greater parental and medical leave rights to employees than the rights provided under this Act.

(b) **LESS PROTECTIVE.**—The rights provided to employees under this Act may not be diminished by any collective bargaining agreement or any employment benefit program or plan.

## SEC. 403. REGULATIONS.

The Secretary shall prescribe such regulations as are necessary to carry out title I.

## SEC. 404. EFFECTIVE DATES.

(a) **IN GENERAL.**—Titles I, II, and IV, and the amendments made by title II, shall become effective 6 months after the date of enactment of this Act.

(b) **ADVISORY PANEL.**—Title III shall become effective on the date of enactment of this Act.●

By Mr. HUMPHREY (for himself, Mr. ROTH, Mr. SYMMS, Mr. ZORINSKY, and Mr. HELMS):

S. 250. A bill to prevent fraud and abuse in HUD programs; to the Committee on Banking, Housing, and Urban Affairs.

## HOUSING INCOME VERIFICATION ACT

● Mr. HUMPHREY. Mr. President, today I introduce legislation, the Housing Income Verification Act of 1987, that will go far in the fight for effective delivery of Federal assistance in one of the Government's larger agencies, the Department of Housing and Urban Development [HUD].

According to HUD, every year, at least \$200 million is wasted in oversubsidy payments to participants in HUD programs. An oversubsidy occurs when an individual should under the law receive a Federal subsidy for housing of, say, \$300 per month, but, since he or she does not report income fully and honestly, that individual receives \$400 per month. The oversubsidy in this instance amounts to \$100 per month. That means \$1,200 per year. This is \$1,200 that could be used either to reduce the Federal operating subsidy to the local public housing authority or to provide help to some other individual truly in need of assistance.

Mr. President, this practice is wrong. Congress should do what it can to stop it.

The legislation I am proposing suggests a straightforward solution to the problem of fraud and abuse. Under my proposal, the Department of Housing and Urban Development would be granted access to the Social Security numbers of those individuals who participate in any HUD program which involves loans, grants, interest or rental assistance of any kind, or mortgage or loan insurance. For those programs involving initial or periodic review or an applicant's or participant's income, applicants and participants would be required to sign a con-

sent form authorizing the verification of salary and wage information pertinent to eligibility for, or level of, benefits. Through the Social Security numbers and consent forms, HUD would be able to access the State employment records in order to verify wage and unemployment compensation information.

Mr. President, I introduced similar legislation last year, along with several of my colleagues as part of a 15 bill package implementing several Grace Commission recommendations. A similar proposal was also included in the Senate version of the Housing reauthorization bill. Since that time, the proposal has been refined and reworked with interested parties.

Housing eligibility verification is one of the top priorities of the Department of Housing and Urban Development. The Congress should also take up the cause. With huge deficits, it has become even more critical to target each and every Federal dollar as effectively as possible. Mr. President, that is precisely what this bill proposes. I urge my colleagues to join me in support of the Income Verification Act.

Mr. President, I ask unanimous consent that a copy of my bill appear in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

## S. 250

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Income Verification Act of 1987".*

## PREVENTING FRAUD AND ABUSE IN HOUSING AND URBAN DEVELOPMENT PROGRAMS

SEC. 2. (a) **DISCLOSURE OF SOCIAL SECURITY AND EMPLOYER IDENTIFICATION NUMBERS.**—As a condition of initial or continuing eligibility for participation in any program of the Department of Housing and Urban Development involving loans, grants, interest, or rental assistance of any kind, or mortgage or loan insurance, and to assure that the level of benefits provided under these programs is proper, the Secretary may require that an applicant or participant (including members of an applicant's or participant's household) disclose his or her social security number or employer identification number to the Secretary.

(b) **APPLICANT AND PARTICIPANT CONSENT.**—As a condition of initial or continuing eligibility for participation in any program of the Department of Housing and Urban Development involving initial and periodic review of an applicant's or participant's income, and to assure that the level of benefits provided under the program is proper, the Secretary may require that an applicant or participant (including members of an applicant's or participant's household) sign a consent form approved by the Secretary authorizing the Secretary, or the public housing agency or owner responsible for determining eligibility or level of benefits, to verify salary and wage information of a current or previous employer pertinent to the applicant's or participant's eligibility or level of benefits. This consent form may not

be used to request taxpayer return information protected by section 6103 of the Internal Revenue Code of 1954.

(c) **DEFINITIONS.**—As used in this section:

(1) The term "Secretary" means the Secretary of Housing and Urban Development.

(2) The terms "applicant" and "participant" shall have such meaning as the Secretary by regulation shall prescribe. Such terms shall not include persons whose involvement is only in their official capacity, such as State or local government officials and officers of lending institutions.

(3) The term "public housing agency" means any agency described in section 3(b)(6) of the United States Housing Act of 1937.

(d)(1) **ACCESS TO STATE EMPLOYMENT RECORDS.**—Section 303 of the Social Security Act is amended by adding at the end thereof the following new subsection:

"(h)(1) The State agency charged with the administration of the State law—

"(A) shall disclose, upon request and on a reimbursable basis, to officers or employees of the Department of Housing and Urban Development, any of the following information contained in the records of the State agency, with respect to individuals applying for or participating in any housing assistance program administered by the Department—

"(i) wage information, and

"(ii) whether an individual is receiving, has received, or has made application for, unemployment compensation, and the amount of any such compensation being received (or to be received) by such individual; and

"(B) shall establish such safeguards as are necessary (as determined by the Secretary of Labor in regulations) to insure that information disclosed under subparagraph (A) is used only for the purpose of determining an individual's eligibility for benefits, or the amount of benefits, under a housing assistance program of the Department of Housing and Urban Development.

"(2) Whenever the Secretary of Labor, after reasonable notice and opportunity for hearing to the State agency charged with the administration of the State law, finds that there is a failure to comply substantially with the requirements of paragraph (1), the Secretary of Labor shall notify such State agency that further payments will not be made to the State until the Secretary of Labor is satisfied that there is no longer any such failure. Until the Secretary of Labor is so satisfied, he shall make no further certification to the Secretary of the Treasury with respect to such State."

(2)(A) **APPLICANT AND PARTICIPANT PROTECTIONS.**—In order to protect applicants for and recipients of benefits under the programs of the Department of Housing and Urban Development from the improper use of information obtained pursuant to the requirements of section 303(h) of the Social Security Act from the State agency charged with the administration of the State unemployment compensation law, no Federal, State, local, or public housing agency, or owner responsible for determining eligibility or level of benefits, receiving such information may terminate, deny, suspend, or reduce any benefits of an individual until such agency or owner has taken appropriate steps to independently verify information relating to—

(i) the amount of the wages or unemployment compensation involved,

(ii) whether such individual actually has (or had) access to such wages or benefits for his own use, and

(iii) the period or periods when, or with respect to which, the individual actually received such wages or benefits.

(B) Such individual shall be informed by the agency or owner of the findings made by the agency or owner on the basis of such verified information, and shall be given an opportunity to contest such findings, in the same manner as applies to other information and findings relating to eligibility factors under the program.

(3)(A) Any person who knowingly and willfully requests or obtains any information concerning an individual pursuant to the authority contained in section 303(h) of the Social Security Act under false pretenses, or any person who knowingly and willfully discloses any such information in any manner to any individual not entitled under any law to receive it, shall be guilty of a misdemeanor and fined not more than \$5,000. The term "person" as used in this paragraph includes an officer or employee of the Department of Housing and Urban Development, an officer or employee of any public housing agency, or any owner (or employee thereof).

(B) Any individual affected by (i) a negligent or knowing disclosure of information referred to in this section or in section 303(h) of the Social Security Act about such person, by an officer or employee of any public housing agency or owner (or employee thereof), which disclosure is not authorized by this section or section 303(h), or (ii) any other negligent or knowing action that is inconsistent with this section or section 303(h) of the Social Security Act (or regulations promulgated thereunder), may bring a civil action for damages and such other relief as may be appropriate against any officer or employee of any public housing agency or owner (or employee thereof) responsible for any such unauthorized action, and the district court of the United States in the district in which the affected individual resides, or in which such unauthorized action occurred, or in which the individual alleged to be responsible for any such unauthorized action resides, shall have jurisdiction in such matters. Appropriate relief that may be ordered by such district courts shall include reasonable attorney fees and other litigation costs.

(4)(A) The amendment made by subsection (d)(1) shall take effect on September 30, 1988, except that at the initiative of a State or the State agency of the State, and with the approval of the Secretary of Labor, the amendment may be made effective in such State on any date prior to September 30, 1988, which is more than 90 days after the date of enactment of this section.

(B) The effective dates of subsections (d)(2) and (d)(3) shall be 90 days after the date of enactment of this section.●

By Mr. BRADLEY (for himself and Mr. LAUTENBERG):

S. 251. A bill to designate certain segments of the Maurice, the Manantico, and the Manumuskin Rivers in New Jersey as study rivers for inclusion in the National Wild and Scenic Rivers System; to the Committee on Energy and Natural Resources.

#### DESIGNATION OF CERTAIN WILD AND SCENIC RIVERS AREAS

● Mr. BRADLEY. Mr. President, it is my pleasure to send the following bill

to the desk on behalf of myself and my colleague from New Jersey, Senator LAUTENBERG. This legislation is identical to a bill I introduced last Congress. Its purpose is to direct the Department of the Interior to study the potential addition of the Maurice River, the Manantico Creek, and the Manumuskin River in southern New Jersey to the National Wild and Scenic Rivers System. Companion legislation is being again introduced by Congressman WILLIAM HUGHES in the House of Representatives.

Mr. President, the National Wild and Scenic Rivers Act, enacted in 1968, offered the first Federal protection for the Nation's rapidly disappearing network of free-flowing rivers and streams. This landmark law preserves selected rivers and river corridor landscapes which possess outstanding scenic, recreational, historic, and cultural values. I believe the Maurice, Manumuskin, and Manantico Rivers are just those kind of unique resources. As early as 1977, each of these rivers was recommended for inclusion in the national inventory of scenic rivers by the commissioner of the New Jersey Department of Environmental Protection.

The Maurice River has its headwaters in small tributaries in Gloucester and Salem Counties. In its progress toward the Delaware Bay, the river meanders through wooded and wetland terrain. As the river nears the bay, it widens and becomes tidal. The river winds in broad loops past the communities of Laurel Lake, Port Elizabeth, Mauricetown, Dorchester, Leesbury, Shell Pike, and Vivalre. The Manantico and Manumuskin Rivers also have a rich diversity, passing through fresh water wetlands, swamp forest, upland forest, and local communities.

These rivers host a variety of plant and animal life, including a number of threatened and endangered species. Additionally, this river area is lauded as one of the finest for canoeing in the coastal region and is recognized for its pristine water quality.

Mr. President, those who live in southern New Jersey would like to assure that the rivers' water quality and recreational opportunities are maintained through sound planning and management. The Wild and Scenic Rivers Act would help provide this protection through the development of a management plan. The proposed study has the support of all the local municipalities.

Last session, time ran out before the bill could be passed by the Senate. However, in my discussions with various Senators, I believe there was a consensus that this bill could be addressed quickly in committee and moved to the Senate floor. This session I will be working to insure the swift and, I trust, favorable consider-

ation of this bill by my colleagues in the Senate.

Mr. President, the Wild and Scenic Rivers Act has been successful in preserving a number of our Nation's free-flowing rivers. The Maurice, Manantico and Manumuskin Rivers are excellent candidates for the preservation and protection afforded by this act. I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 251

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. DESIGNATION AS STUDY RIVERS.

Section 5(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1276(A)) is amended by adding at the end thereof the following:

"(92) MAURICE, NEW JERSEY.—The segment from Shell Pile to the point three miles north of Laurel Lake.

"(93) MANUMUSKIN, NEW JERSEY.—The segment from its confluence with the Maurice River to the crossing of State Route 49.

"(94) MANANTICO CREEK, NEW JERSEY.—The segment from its confluence with the Maurice River to its source.●

● Mr. LAUTENBERG. Mr. President, I am pleased to join my colleague from New Jersey, Senator BRADLEY, in introducing legislation to designate sections of three New Jersey rivers for inclusion in the National Wild and Scenic Rivers System. This bill would name certain segments of the Maurice, Manumuskin, and Manantico Rivers in New Jersey as study rivers. This is the first step in the wild and scenic designation process. Our distinguished colleague in the House of Representatives, BILL HUGHES, is introducing the companion measure today.

Mr. President, this is the same bill that Senator BRADLEY and I introduced late in the 99th Congress. In the closing days of the session, it was not possible to have this important measure considered. But our desire, and the desire of the local community, to see these valuable rivers protected did not end with the session. These rivers still deserve the protection offered by inclusion in the Wild and Scenic Rivers System. By introducing this bill at the outset of the 100th Congress, it is my hope to see the process of protecting these rivers begin quickly.

The Wild and Scenic Rivers Act, enacted in 1968, expressed the national policy of balancing the need for dams and other construction at appropriate sections of rivers with the need to preserve selected rivers and sections of rivers in their free-flowing condition. It was the intent of Congress to protect such rivers and the natural resources surrounding them, for their scenic, recreational, historic, cultural, and other outstanding qualities. There are currently 68 rivers in the wild and scenic system.

The Maurice, Manumuskin, and Manantico Rivers are located in a sparsely developed region in the southern portion of New Jersey. The Manumuskin is a tributary to the Maurice River which flows into the Delaware River Bay. Together, these rivers possess some of the most delicate species of animal and plant life in the State.

The Maurice contains many of the physical remnants of New Jersey's once prosperous oyster harvesting and processing industry. Many species of reptiles and amphibians, including the threatened and endangered tiger salamander, and corn and pine snakes, inhabit the Maurice. This type of environment is unique to New Jersey and represents an important part of the Atlantic coastal landscape.

The water quality of the Manumuskin River is of the highest in the State. The Manumuskin encompasses a diverse stretch of wetlands, swamp forests and upland forests. It is the site of an historic church which dates back to the American Revolution. One species of plant found along the Manumuskin appears in only five locations throughout the world. This fall, thousands of migrating waterfowl, rail birds, and bobolink will stop along the river.

Large portions of the Maurice, Manumuskin, and Manantico lie within the boundaries of the Pinelands National Reserve, one of our most valuable natural resources. In the last session, we were successful in having portions of the Great Egg Harbor River designated as a study river. I look forward to its eventual addition to the wild and scenic system. Inclusion of these rivers within the system would complement that effort, and enhance protection of these areas in cooperation with the Federal, State, and local efforts through the Pinelands Comprehensive Management Plan.

Local support for the protection of these rivers is overwhelming. My constituents have been working hard to preserve and protect important portions of the Maurice, Manumuskin, and Manantico Rivers. The National Park Service strongly supports inclusion of these rivers in the wild and scenic rivers system. Designation of these rivers by the Park Service as study rivers would represent the culmination of years of efforts by local individuals, the State of New Jersey, conservation groups, and the Federal Government who wish to preserve them for the enjoyment of residents and visitors alike.

Mr. President, last October I spent a day touring these rivers. It was a day I'll not soon forget. On the tour, we saw a tremendous abundance of wildlife, including the endangered national symbol, the bald eagle. This is an area of great natural beauty. It's part of our State that we New Jerseyans are

most proud of. It's a side of New Jersey many people do not know exists. I want to make sure that future generations will be able to see and enjoy this area as I have.

I urge my colleagues to support this legislation, and I look forward to working with the local communities, the State of New Jersey, and the Park Service in protecting these important natural resources.●

By Mr. DECONCINI (for himself and Mr. McCAIN):

S. 252. A bill to establish a San Pedro Riparian National Conservation Area; to the Committee on Energy and Natural Resources.

#### SAN PEDRO RIPARIAN NATIONAL CONSERVATION AREA

● Mr. DECONCINI. Mr. President, I am introducing legislation today that I sponsored in the 99th Congress which will establish special protection for a unique riparian ecosystem in southern Arizona known as the San Pedro Riparian Area. Lands along a 31-mile stretch of the San Pedro River in western Cochise County, AZ, comprise some of the most valued riparian, wildlife, archaeological, paleontological, scientific, cultural, and recreational resources in the Southwest. Intense national interest in this area sparked action by the Bureau of Land Management to acquire riparian lands along the San Pedro. On March 7, 1986, title to these lands was turned over to the Bureau of Land Management through a land exchange initiative with the private owner, Tenneco Inc. Since that time, the BLM has closed the 43,371 acres of land to the public while it formulates an interim land management policy for these important public lands.

The legislation I am sponsoring today, with my good friend from Arizona, Senator McCAIN, will place the San Pedro Riparian Area under the management of a national conservation area of the Bureau of Land Management. The lands will be managed to protect the fragile resource values but will be open to the public for recreation and other uses on a controlled basis.

Mr. President, in previous years individuals and organizations came to me seeking land and water conservation funds to acquire the lands now comprising the San Pedro River Riparian Area. Two years ago, estimates on the cost to acquire this area ranged from \$20 to \$30 million. Through the initiative of the Bureau of Land Management, the Federal Government now owns these lands and can manage them to protect the resources and assure public enjoyment for the years to come. I commend the BLM for its foresight and leadership in acquiring and protecting these lands. In times when all of us are gravely concerned about spiraling Federal deficits, it is

good to see actions undertaken that respond to our public land needs without deepening the Federal budgetary problems. Dean Bibbes, the Arizona State director for the BLM, is largely responsible for this achievement and deserves substantial credit.

The 43,371 acres of land along the San Pedro River are rich in wildlife and significant cultural resources. The area provides habitat to the largest diversity of reptiles, birds, and mammals found in the United States and North America. Mexican birds, whose northern range is southeastern Arizona, use the area and species like the Harris hawk, the black hawk, the zone-tailed hawk, gray hawk, aplomado falcon, and the elegant trogon are prevalent. Experts estimate that the area includes 161 species of birds, 80 species of mammals, a dozen fish species, and about 68 species of reptiles and amphibians.

Equally important are the abundance of cultural and historic resources found in the area. There are 110 known archaeological sites including the famous and highly significant Paleo Indian sites dating to 11,000 years ago, the Presideo of Santa Cruz de Terrante (Quiburi), Murray Springs, and the Escapule site. This is one of the few areas within the United States where known sites of the period between the prehistoric and historic occupation of the Southwest still exist. While many of these sites must be carefully preserved, they do afford excellent opportunities for interpretation and education for the public.

While the Bureau of Land Management has existing authority under the Federal Land Policy and Management Act of 1976 to manage these lands, because of the fragile nature of the significant resources and the need to ensure the proper protection and use of the area for the years to come, I believe special consideration should be afforded this area by the designation of the San Pedro Riparian Area as a national conservation area. Under the legislation I propose today, the San Pedro lands will be managed primarily to conserve and protect the riparian, aquatic, wildlife, archaeological, paleontological, scientific, cultural, educational, and recreation resources of the area. None of the lands will be eligible for disposal and the Secretary will be directed to work with the public to develop a long-term management policy for the national conservation area. The Secretary shall have the authority to enter into cooperative agreements with State and local agencies like the Arizona Game and Fish Department, Arizona State Parks and private organizations who may have special management expertise and concern for the preservation of the area. Subject to valid existing rights, the area will be withdrawn from min-

eral entry and livestock grazing. Because of the environmental importance of this area, an Advisory Council will be established to advise and recommend to the Secretary of the Interior the appropriate practices for the development and implementation of the management plan for this area. Also, because there have been concerns about the BLM's ability to sufficiently manage and protect this area under the designation of a national conservation area, I have included a provision which requires the Secretary of the Interior to submit a report to the appropriate committees of the House and the Senate within 5 years of the date of enactment of the act and every 10 years thereafter, on the implementation of the terms of the act. That report is to include a detailed statement on the condition of the resources and the BLM's ability to achieve the management objectives outlined in the bill.

Mr. President, through the initiative taken by Dean Bibbes of the BLM and through the permanent management authority offered to the San Pedro area in this legislation, a unique area of diverse resources, breathtaking beauty, and historic values will be preserved and protected for all Americans to enjoy for the years to come. The cooperation and continued work by experts and citizens in Arizona, working with the BLM, will assure this goal.

In order to adopt a permanent management plan for this important area this year, it is my hope that the Energy and Natural Resources Committee will take expeditious action on this measure early in the session and report the bill intact. The bill I am introducing today is virtually identical to the bill which passed the House of Representatives in the 99th Congress. One minor change involves the expansion of the boundary to take in 48,707 acres. Last year, despite the strong support of the entire Arizona congressional delegation for this designation, the legislation was stalled because of concerns about grazing language and the issue of Federal reserve water rights. My position on both of these issues has not changed from the previous Congress. The BLM is currently honoring a lease issued by Tenneco to a grazing allottee through 1987. After that time, the BLM has no intentions of issuing any Federal grazing permits for this area because of its desire to undertake extensive research and evaluation on the land in the absence of grazing. A provision has been included in the legislation restricting livestock grazing in the San Pedro area for a period of 15 years. On the subject of Federal reserve water rights, I have specifically excluded language on this subject in order to afford all parties an opportunity to address this matter in an equitable fashion if and when the issue of water rights should become a

question in the future. I know of no way at this time to quantify how much water in this desert riparian area will be necessary to accommodate a minimum flow to protect the area in perpetuity.

The support for this legislation continues to be widespread. I hope the committee will take the appropriate steps to protect this area early in the 100th Congress.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 252

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. ESTABLISHMENT OF SAN PEDRO RIPARIAN NATIONAL CONSERVATION AREA.

(a) **ESTABLISHMENT.**—In order to protect the riparian area and the aquatic, wildlife, archeological, paleontological, scientific, cultural, educational, and recreational resources of the Public lands surrounding the San Pedro River in Cochise County, Arizona, there is hereby established the San Pedro Riparian National Conservation Area (hereafter in this Act referred to as the "conservation area").

(b) **AREA INCLUDED.**—The conservation area shall consist of public lands as generally depicted on a map entitled "San Pedro Riparian National Conservation Area—Proposed" dated July 1986, comprising approximately 48,707 acres.

(c) **MAP.**—As soon as is practicable after enactment of this Act, a map and legal description of the conservation area shall be filed by the Secretary of the Interior (hereafter in this Act referred to as the "Secretary") with the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Energy and Natural Resources of the United States Senate. Each such map shall have the same force and effect as if included in this Act. Such map shall be on file and available for public inspection in the Office of the Director of the Bureau of Land Management, Department of the Interior, and in the Bureau of Land Management offices of the State Director for Arizona, and the district office responsible for the management of the conservation area.

#### SEC. 2. MANAGEMENT OF CONSERVATION AREA.

(a) **GENERAL AUTHORITIES.**—The Secretary shall manage the conservation area in a manner that conserves, protects, and enhances the riparian area and the aquatic, wildlife, archeological, paleontological, scientific, cultural, educational, and recreational resources of the conservation area. Such management shall be guided by this Act and, where not inconsistent with this Act, by the provisions of the Federal Land Policy and Management Act of 1976 (hereinafter in this Act referred to as "FLPMA").

(b) **USES.**—The Secretary shall only allow such uses of the conservation area as he finds will further the primary purposes for which the conservation area is established. Except where needed for administrative or emergency purposes, the use of motorized vehicles in the conservation area shall only be allowed on roads specifically designated for such use as part of the management plan prepared pursuant to section 3 of this Act. The Secretary shall have the power to implement such reasonable limits to visitation and use of the conservation area as he finds appropriate for the protection of the

resources of the conservation area, including requiring permits for public use, or closing portions of the conservation area to public use.

(c) **LIVESTOCK.**—In order to provide an opportunity for the study, evaluation, and monitoring of riparian areas in the absence of livestock grazing, the Secretary shall not, subject to valid existing contractual rights, issue any permit for the grazing of livestock on lands designated as part of the conservation area by this Act for a period of 15 years from the date of enactment of this Act.

(d) **WITHDRAWALS.**—Subject to valid existing rights, all Federal lands within the conservation area are hereby withdrawn from all forms of entry, appropriation, or disposal under the public land laws; from location, entry, and patent under the United States mining laws; and from disposition under all laws pertaining to mineral and geothermal leasing and all amendments thereto.

(e) **ENFORCEMENT.**—Any person who violates any provision of this Act or any regulation promulgated by the Secretary to implement this Act shall be subject to a fine of up to \$10,000, or imprisonment for up to one year, or both.

#### SEC. 3. MANAGEMENT PLAN.

(a) **DEVELOPMENT OF PLAN.**—No later than 2 years after the enactment of this Act, the Secretary shall develop a comprehensive plan for the long-range management and protection of the conservation area. The plan shall be developed with full opportunity for public participation and comment, and shall contain provisions designed to assure protection of the riparian area and the aquatic, wildlife, archeological, paleontological, scientific, cultural, educational, and recreation resources and values of the conservation area.

(b) **RECOMMENDATIONS.**—The Secretary shall, in the comprehensive plan referred to in subsection (a), develop recommendations to Congress on whether additional lands should be included in the conservation area.

(c) **COOPERATIVE AGREEMENTS.**—The Secretary may enter into cooperative agreements with appropriate State and local agencies, pursuant to section 307(b) of FLPMA, to better implement the plan developed pursuant to subsection (a).

(d) **RESEARCH.**—In order to assist in the development of appropriate management strategies for the conservation area, the Secretary may authorize research on matters including the environmental, biological, hydrological, and cultural resources of the conservation area, pursuant to section 307(a) of FLPMA.

#### SEC. 4. ADVISORY COMMITTEE.

(a) **ESTABLISHMENT.**—The Secretary shall establish a San Pedro Riparian National Conservation Area Advisory Committee, whose purpose shall be to advise the Secretary with respect to the preparation and implementation of the comprehensive, long-range plan required pursuant to section 3 of this Act.

(b) **REPRESENTATION.**—There shall be 7 members of the Committee, who shall be appointed by the Secretary. Members of the Committee shall be appointed for terms of 3 years, except that of the members first appointed 2 shall be appointed for terms of 1 year and 3 shall be appointed for terms of 2 years. The Secretary shall appoint one member from nominations supplied by the Governor of the State of Arizona, and one member from nominations supplied by the Supervisors of Cochise County, Arizona. The other members shall be persons with

recognized backgrounds in wildlife conservation, riparian ecology, archeology, paleontology, or other disciplines directly related to the primary purposes for which the conservation area was created.

#### SEC. 5. LAND ACQUISITION.

The Secretary may acquire lands or interests in lands within the boundaries of the conservation area by exchange, purchase, or donation, except that any lands or interests therein owned by the State or local government may be acquired by donation or exchange only. Any purchase or exchange of lands to be added to the conservation area shall require the consent of the owner of those lands or rights.

#### SEC. 6. REPORT TO CONGRESS.

No later than five years after the enactment of this Act, and every ten years thereafter, the Secretary shall report to the Committee on Interior and Insular Affairs of the House of Representatives and the Committee on Energy and Natural Resources of the United States Senate, on the implementation of this Act. Such report shall include a detailed statement on the condition of the resources within the conservation area and of the progress of the Bureau of Land Management in achieving the purposes of this Act.

#### SEC. 7. AUTHORIZATION.

There are hereby authorized to be appropriated such sums as may be necessary to carry out the provisions of this Act.■

By Mr. DECONCINI (for himself and Mr. McCain):

S. 253. A bill to convey Forest Service land to Flagstaff, AZ; to the Committee on Energy and Natural Resources.

#### TRANSFER OF CERTAIN FEDERAL LANDS TO FLAGSTAFF, AZ

■ Mr. DECONCINI. Mr. President, I am sponsoring legislation today which will authorize the Secretary of Agriculture to convey 134.57 acres of Forest Service land to the city of Flagstaff, AZ. The bill I am introducing today is identical to the bill which was reported by the Energy and Natural Resources Committee in the 99th Congress. It conveys Forest Service land to the city of Flagstaff for use as a public park. It contains a provision specifying that the land must be used for open space and public recreation, otherwise the land will revert to the Federal Government.

The land identified for transfer in the bill will go to the city without consideration except for the administrative costs of transferring title to the land. The lands to be transferred are presently being utilized by the city of Flagstaff for a public park known as Thorpe Park, under special use permit. The Forest Service has no plans to use the lands for other purposes. The city would like to make major improvements to the Thorpe Park lands. However, if the city has to pay the costs to acquire the Forest Service property, it will have to forgo recreational improvements on the land until some time well into the future. Since the lands will be managed for public purposes and because they are

presently being used by the city for those purposes, it makes sense to me that the lands ought to be transferred to the city. The city can then make its own decisions on future improvements and management of the lands which will be best for public use.

It is my hope that this legislation will receive expeditious consideration by the Energy and Natural Resources Committee. I ask unanimous consent that the full text of the bill appear in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 253

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) subsection (b)(1) of section 1 of Public Law 96-581, relating to land conveyances in the State of Arizona, is amended by striking out "Any conveyances" and inserting in lieu thereof "Except as provided in subsection (c), any conveyances".*

(b) Subsection (c) of section 1 is amended to read as follows:

"(c)(1) Of the tract of land described in subsection (a) of this section, the Secretary shall offer to sell at the fair market value as determined on December 23, 1980, to the Flagstaff Medical Regional Center, Flagstaff, Arizona, not to exceed 18.25 acres immediately adjacent to said Flagstaff Medical Regional Center and shall convey, without consideration, except for administrative costs associated with the preparation of title and legal description, to the city of Flagstaff, Arizona, 134.57 acres, under special use permit in effect on the date of enactment of this Act to the city of Flagstaff.

"(2) Title to any real property acquired by the city of Flagstaff pursuant to this section shall revert to the United States if the city attempts to convey or otherwise transfer ownership of any portion of such property to any other party or attempts to encumber such title, or if the town permits the use of any portion of such property for any purpose incompatible with the purposes specified in paragraph (3) of this section.

"(3) Real property conveyed to the city of Flagstaff pursuant to this section shall be used for public open space, park and recreational purposes.

"(4) Except for any land to be conveyed to the Flagstaff Medical Regional Center and the city of Flagstaff, the Secretary shall solicit public offers for the remaining lands and improvements authorized under subsection (a) of this section. All offers shall be publicly opened at the time and place stated in the solicitation in accordance with the administrative requirements of the Secretary. The Secretary shall consider price and land values before entering into agreements or land exchanges with any party whose offer conforming to the solicitation notice is determined by the Secretary to be the most advantageous to the Government. Notwithstanding any other provision of this Act, the Secretary may reject any offer if the Secretary determines that such rejection is in the public interest."■

By Mr. DIXON:

S. 254. A bill to provide a one-time amnesty from criminal and civil tax penalties and 50 percent of the interest penalty owed for certain taxpayers

who pay previous underpayments of Federal tax during the amnesty period, to amend the Internal Revenue Code of 1954 to increase by 50 percent all criminal and civil tax penalties, and for other purposes; to the Committee on Finance.

#### TAX AMNESTY DELINQUENCY ACT OF 1987

■ Mr. DIXON. Mr. President, I have been very pleased by the many indications of support for a national tax amnesty. When I first introduced tax amnesty legislation, S. 203, in the 99th Congress, the ranks of those willing to take a serious look at the idea were very thin. The successful tax amnesties conducted by my own State of Illinois, however, and the States of Massachusetts, California, and New York have had a real impact. Their experience demonstrated the potential of this idea at the national level.

It is true that Federal tax collection efforts are more sophisticated than those of the States. However, compliance with the Federal tax laws is declining, and almost one-fifth of the taxes legally owed and due the United States are currently not being collected. This tax gap currently amounts to roughly \$100 billion a year, and it grows every year as the percentage of taxpayers who comply with our Nation's tax laws continues to fall.

We have made substantial efforts to improve compliance levels in recent years, but they have not been effective in reducing the tax gap. One of the reasons for that lack of success is that Congress and the administration reduced the personnel levels at the Internal Revenue Service to levels that makes it impossible for them to effectively administer tax compliance, in spite of the fact that each additional revenue agent returns 10 to 12 times his or her salary to the Government in the form of additional tax revenues. The percentage of returns being audited has fallen in the last 15 years from almost 5 percent to slightly over 1 percent.

These figures indicate that even with the Federal Government's significant enforcement efforts, there is a large and growing amount of revenue not being collected, and a lot of room for significantly tougher enforcement actions. Given the enormous size of the Federal tax gap, the Federal Government would not need to be anywhere near as proportionately successful as Illinois or Massachusetts, for example, to collect many billions of dollars in additional revenue.

Revenues from a tax amnesty/enforcement package can be used to help reduce our budget deficits, and to help preserve high-priority Federal programs that are currently facing drastic cuts or even elimination. A tax amnesty/tougher enforcement program, because it is not a new tax or a tax increase for honest taxpayers of any

kind, can help break the current budget gridlock by making it possible to comply with the Gramm-Rudman-Hollings deficit reduction targets while preserving our ability to meet both essential defense and domestic needs.

There is considerable debate on how much revenue a Federal tax amnesty might produce. The Senate Budget Committee in the last Congress used an estimate of \$8.6 billion. My own estimate is that it could produce \$20 billion or more.

In 1981, Federal tax collections were more than \$81 billion below what they would have been if every taxpayer had paid his or her legal tax obligations. Individual taxpayers failed to report to the Internal Revenue Service almost \$250 billion in income that year.

Unfortunately, 1981 is not an unusual year. The tax gap was more than \$28 billion in 1973, or approximately double the budget deficit of \$14 billion that year, and it has increased steadily since then. The Treasury Department estimates that the tax gap—the difference between the amount of tax that would be collected with 100 percent compliance with our Nation's tax laws and what is actually collected—was \$92 billion or more in 1985, and believes that level could rise to between \$386 to \$473 billion by the turn of the century.

Congress has recognized the growing compliance problem these numbers represent and has taken a number of actions to try to correct it. During consideration of Senate Concurrent Resolution 32, the fiscal year 1986 budget resolution, the Senate adopted, by an overwhelming vote of 93 to 5, a resolution offered by the distinguished Senator from Massachusetts, Senator KERRY, urging the taxwriting committees to act to strengthen tax compliance. The Tax Reform Act also contained a number of provisions designed to improve tax compliance.

Congress has also been part of the problem, however. We have let IRS manpower levels erode in the past few years. IRS personnel levels are only now returning to their 1980 levels, and are still grossly inadequate to cover the increase in workload caused by increased complexity and the increasing number of tax returns being filed. Further, there have been at least 19 major changes in the tax laws in the past 22 years. The Tax Code has become so complicated that over 44 percent of all taxpayers are now using paid preparers, up from 37 percent just 2 years ago. The complexity and rapid pace of change has encouraged the growth of the perception that the Tax Code is unfair, and therefore helped to undermine the voluntary compliance that our tax laws fundamentally depend upon.

The Tax Reform Act was, in no small part, an attempt to deal with the

interrelated problems of fairness, complexity, and noncompliance. In fact, the administration's original tax reform proposal was titled "The President's Tax Proposals to the Congress for Fairness, Growth, and Simplicity."

In my view, perhaps the most crucial measure of the success of any tax reform is its impact on future compliance. If taxpayers believe the Tax Reform Act really simplifies the Tax Code and makes it fairer, than the slide in voluntary compliance levels will be reversed.

Tax reform, however, speaks only to future compliance. It does nothing about collecting even some part of the billions and billions of dollars that the tax system failed to collect in the past. Neither will increased collection efforts by the Service result in the payments of the vast majority of these outstanding delinquent balances. The IRS has stated that it would take an additional 200,000 agents or even more to track down and collect a significant part of the tax gap, and that kind of police State option is something that no one, including the IRS wants.

That does not mean, though, that there is no way to recover any part of the tax gap from prior years. There is a mechanism that has been used successfully in a number of States, including Massachusetts and my own State of Illinois. That mechanism is known as tax amnesty.

Amnesty is a simple concept. It provides an opportunity for delinquent taxpayers to fully pay their overdue tax liability without being subject to criminal or civil prosecution. Fourteen States—Illinois, Massachusetts, New York, Connecticut, Kansas, Alabama, Texas, Missouri, Minnesota, North Dakota, New Mexico, Arizona, California, and Idaho—have already enacted, and in many cases implemented, tax amnesty programs.

Illinois, for example, collected approximately \$150 million, far more than the \$20 million the State department of revenue originally estimated. Massachusetts collected over \$72 million, and in California, over 130,000 delinquent taxpayers came forward.

The State programs were not giveaways. They did not reward tax cheaters. The State programs were balanced; they increased compliance efforts and penalties for noncompliance after the amnesty period. The State programs resulted in placing additional taxpayers back on the rolls, and in additional tax collections that the States would not otherwise have received.

While I recognize the enormous differences between the State and national tax systems, I believe a national Tax Amnesty Program could be effective and ought to be considered. I am therefore today reintroducing the Federal Tax Amnesty Delinquency Act.

My bill establishes a 6-month amnesty period, to begin on July 1 after the bill is enacted. The amnesty period would cover all tax years through 1985 still subject to collection by the IRS—and I understand that the Service, in some circumstances, can go back 7 years or more.

All taxpayers would be eligible for the amnesty with some limited exceptions: First, those involved with the IRS in administrative or judicial proceedings before the amnesty period begins; second, those under criminal investigation where the IRS has referred the matter to the Justice Department before the amnesty period begins; and third, those who make false or fraudulent representations in attempting to take advantage of the amnesty.

The amnesty itself would be simple and straightforward. It would include amnesty from criminal and civil penalties and from 50 percent of any interest penalty owed. It would, however, apply only to legal-source income. Taxes due on income resulting from criminal activity would not be covered by the amnesty.

All Federal taxes would be included under the amnesty, not just the income tax.

The amnesty provisions are generous and provide a substantial incentive for taxpayers to take advantage of the amnesty period. However, the bill does not rely just on carrots; it also contains a couple of substantial sticks.

First, it increases all tax-related civil and criminal penalties, including money fines and jail terms, by 50 percent. The tougher penalties would apply to any tax year after 1986, and after the amnesty period, to any open tax year. Of course, the increased penalties would not apply to cases pending on the date of enactment where a judgment was entered before that date.

Second, the bill authorizes such funds as are necessary to add 3,000 additional revenue agents to the IRS, an increase of about 20 percent in the agent force. Adding agents can be extremely cost effective, because each additional agent can bring in as much as 12½ times his salary in additional tax revenue. In fact, the IRS has told me that agents can bring in as much as 40 times their salary, depending on where enforcement efforts are concentrated.

The bill also authorizes the funds the Treasury will need to administer and publicize the amnesty program. The State experience demonstrates that wide publicity can significantly enhance the effectiveness of an amnesty program.

I believe in the amnesty concept. I was greatly disappointed that the Tax Reform Act did not include a one-time amnesty provision. Amnesty and tax

reform fit very well together. It is not yet too late, though, to take advantage to the benefits of tax amnesty as we phase in the new Tax Reform Act. I urge my colleagues to carefully examine the amnesty concept. I remain confident that a thorough and fair-minded review will result in enactment of a Federal tax amnesty by large, bipartisan majorities in both the House and the Senate. I look forward to working with the Members of the Senate toward that objective. Mr. President, I ask unanimous consent that a copy of the bill be printed at this point in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 254

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

# SECTION 1. SHORT TITLE.

This Act may be cited as the "Federal Tax Delinquency Amnesty Act of 1987".

## SEC. 2. WAIVER OF CRIMINAL AND CIVIL PENALTIES AND 50 PERCENT OF INTEREST PENALTY.

(a) GENERAL RULE.—In the case of any underpayment of Federal tax for any taxable period, the taxpayer shall not be liable for any criminal or civil penalty (or addition to tax) or 50 percent of any interest penalty provided by the Internal Revenue Code of 1954 with respect to such underpayment if—

- (1) during the amnesty period—
- (A) the taxpayer files a written statement with the Secretary which sets forth—
- (i) the name, address, and taxpayer identification number of the taxpayer,
- (ii) the amount of the underpayment for the taxable period, and
- (iii) such information as the Secretary may require for purposes of determining the correct amount of the underpayment for the taxable period, and
- (B) the taxpayer agrees to a waiver of any restriction on the assessment or collection of such underpayment,
- (2) when filing the statement described in paragraph (1), the taxpayer pays the amount of the underpayment shown on such statement, and
- (3) not later than 30 days after the date on which the taxpayer is notified by the Secretary of the amount which equals 50 percent of the interest payable with respect to the underpayment (and the amount of any tax delinquent amount with respect to the taxpayer), the taxpayer pays the full amount of such interest (and such tax delinquent amount).

(b) INSTALLMENT PAYMENT OF TAX PERMITTED IN CERTAIN CASES.—The requirements of paragraphs (2) and (3) of subsection (a) shall be treated as met if—

(1) the taxpayer in the statement filed under subsection (a)(1) requests the privilege of making installment payments under this subsection, and

(2) the taxpayer enters into an agreement with the Secretary for the payment (in installments) of the amounts required to be paid under paragraphs (2) and (3) of subsection (a) within 30 days after contacted by the Secretary for purposes of entering into such an agreement (or in any case where the Secretary determines that permitting the payment in installments of such amounts is not appropriate, the taxpayer

pays the entire amount of such amounts within 30 days after notified by the Secretary of such determination).

(c) AMOUNT OF UNDERPAYMENT DISPUTED.—If the amount under paragraph (3) of subsection (a) is disputed by the taxpayer, such amount must be paid within the period described in subsection (a). If the taxpayer is entitled to a refund as a result of the resolution of the dispute through normal administrative and judicial procedures, the Secretary shall refund the amount plus interest at the 6-month Treasury bill rate in effect as of the date the dispute is resolved.

(d) AMNESTY NOT TO APPLY IN CERTAIN CASES.—

(1) WHERE TAXPAYER CONTACTED BEFORE STATEMENT FILED.—Subsection (a) shall not apply to any underpayment of Federal tax for any taxable period to the extent that before the statement is filed under subsection (a)(1)—

- (A) such underpayment was assessed,
- (B) a notice of deficiency with respect to such underpayment was mailed under section 6212 of the Internal Revenue Code of 1954, or
- (C) the taxpayer was informed by the Secretary that the Secretary has questions about the taxpayer's tax liability for the taxable period.

(2) WHERE FRAUD IN SEEKING AMNESTY OR WHERE CRIMINAL INVESTIGATION PENDING.—Subsection (a) shall not apply to any taxpayer if—

- (A) any representation made by such taxpayer under this section is false or fraudulent in any material respect, or
- (B) a Justice Department referral (within the meaning of section 7602(c)(2) of the Internal Revenue Code of 1954) is in effect with respect to such taxpayer as of the time the statement is filed under subsection (a)(1).

(3) ILLEGAL SOURCE INCOME.—Subsection (a) shall not apply to any underpayment of Federal tax with respect to income resulting from a criminal offense under Federal, State, or local law.

(e) DEFINITIONS AND SPECIAL RULES.—For purposes of this section—

(1) AMNESTY PERIOD.—The term "amnesty period" means the 6-month period which begins on July 1, 1987, or on the first July 1 after the date of the enactment of this Act.

(2) FEDERAL TAX.—The term "Federal tax" means any tax imposed by the Internal Revenue Code of 1954.

(3) TAXABLE PERIOD.—

(A) IN GENERAL.—The term "taxable period" means—

- (i) in the case of a tax imposed by subtitle A of the Internal Revenue Code of 1954, the taxable year, or
- (ii) in the case of any other tax, the period in respect of which such tax is imposed.

(B) SPECIAL RULE FOR TAXES WITH NO TAXABLE PERIOD.—In the case of any tax in respect of which there is no taxable period, any reference in this section to a taxable period shall be treated as a reference to the taxable event.

(4) ADDITION TO TAX INCLUDES ADDITIONAL AMOUNT.—The term "addition to tax" includes any additional amount.

(5) SECRETARY.—The term "Secretary" means the Secretary of the Treasury or his delegate.

(6) FORM OF STATEMENT.—Any statement under subsection (a)(1) shall be filed in such manner and form as the Secretary shall prescribe.

(7) NOTICE TO RELATED PERSONS TREATED AS NOTICE TO THE TAXPAYER.—

(A) IN GENERAL.—For purposes of subsection (d)(1)(C), any notice to a related person with respect to a matter which may materially affect the tax liability of the taxpayer for any taxable period shall be treated as notice to the taxpayer with respect to such taxable period.

(B) RELATED PERSON.—For purposes of subparagraph (A), the term "related person" means—

(i) any person who during the taxable period bore a relationship to the taxpayer described in section 267(b) of the Internal Revenue Code of 1954,

(ii) any partnership in which the taxpayer was a partner during the taxable period, or

(iii) any S corporation (as defined in section 1361 of such Code) in which the taxpayer was a shareholder during the taxable period.

(f) PERIODS FOR WHICH AMNESTY AVAILABLE.—The provisions of this section shall apply only to underpayments of Federal tax for taxable periods ending before January 1, 1986 (or, in the case of a tax for which there is no taxable period, taxable events before January 1, 1986).

(g) ADDITIONAL AUTHORIZATIONS.—

(1) AMNESTY PROGRAM.—There are authorized to be appropriated such sums as are necessary to administer the amnesty program, using special efforts to publicize such program including direct-mail contacts and radio, television, and print-media advertising.

(2) ADDITIONAL IRS AGENTS.—There are authorized to be appropriated such sums as are necessary to employ 3,000 additional Internal Revenue Service agents.

## SEC. 3. CRIMINAL AND CIVIL TAX PENALTIES INCREASED BY 50 PERCENT.

(a) CIVIL PENALTIES.—

(1) Paragraphs (2) and (3) of section 6651(a) of the Internal Revenue Code of 1954 (relating to failure to file tax return or to pay tax) are each amended by striking out "0.5 percent" each place it appears and inserting in lieu thereof "0.75 percent".

(2) The following provisions of such Code are each amended by striking out "1 percent" each place it appears and inserting in lieu thereof "1.5 percent".

(A) Section 6657 (relating to bad checks).

(B) Subsection (b) of section 6706 (relating to original issue discount information requirements).

(C) Paragraph (2)(B)(i) of section 6707(a) (relating to failure to register tax shelter).

(3) The following provisions of such Code are each amended by striking out "5 percent" each place it appears and inserting in lieu thereof "7.5 percent".

(A) The heading and paragraph (1) of section 72(q) (relating to 5-percent penalty for premature distributions from annuity contracts).

(B) Paragraph (5)(A)(i) of section 6013(b) (relating to joint return after filing separate return).

(C) Paragraph (1) of section 6038(c) (relating to penalty of reducing foreign tax credit).

(D) Subsection (a)(1) of section 6651 (relating to failure to file tax return or to pay tax).

(E) Subsection (a)(3)(A)(ii) and (g)(3)(B) of section 6652 (relating to failure to file certain information returns, registration statements, etc.).

(F) Paragraph (1) of section 6653(a) (relating to failure to pay tax).

(G) Subsection (a) of section 6656 (relating to failure to make deposit of taxes or overstatement of deposits).

(H) Subsection (a) of section 6677 (relating to failure to file information returns with respect to certain foreign trusts).

(I) Subsection (a) of section 6689 (relating to failure to file notice of redetermination of foreign tax).

(4) The following provisions of such Code are each amended by striking out "10 percent" each place it appears and inserting in lieu thereof "15 percent".

(A) Subsection (m)(5)(B) and (o)(2) of section 72 (relating to annuities; certain proceeds of endowment and life insurance contracts).

(B) Paragraph (1) of section 408(f) (relating to additional tax on certain amounts included in gross income before age 59½).

(C) Paragraph (1) of section 6038(c) (relating to penalty of reducing foreign tax credit).

(D) Paragraph (3)(A)(i) of section 6652(a) (relating to returns relating to information at source, payments of dividends, etc., and certain transfers of stock).

(E) Subsection (a) of section 6661 (relating to substantial understatement of liability).

(F) Section 6683 (relating to failure of foreign corporation to file return of personal holding company tax).

(5) The following provisions of such Code are each amended by striking out "10 percent" each place it appears and inserting in lieu thereof "15 percent".

(A) Subsection (b) of section 6659 (relating to addition to tax in the case of valuation overstatements for purposes of the income tax).

(B) Subsection (b) of section 6660 (relating to addition to tax in the case of valuation understatement for purposes of the estate or gift taxes).

(6) Subsection (a) of section 6700 of such Code (relating to promoting abusive tax shelters, etc.) is amended by striking out "20 percent" and inserting in lieu thereof "30 percent".

(7) The following provisions of such Code are each amended by striking out "20 percent" each place it appears and inserting in lieu thereof "30 percent".

(A) Subsection (b) of section 6659 (relating to addition to tax in the case of valuation overstatements for purposes of the income tax).

(B) Subsection (b) of section 6660 (relating to addition to tax in the case of valuation understatement for purposes of the estate or gift taxes).

(8) The following provisions of such Code are each amended by striking out "25 percent" each place it appears and inserting in lieu thereof "37.5 percent".

(A) Subsection (b) of section 6038B (relating to notice of certain transfers to foreign persons).

(B) Paragraphs (1), (2), and (3) of section 6651(a) (relating to failure to file tax return or to pay tax).

(C) Paragraph (1) of section 6656(b) (relating to overstated deposit claims).

(9) Subsection (f) of section 6659 of such Code (relating to addition to tax in the case of valuation overstatements for purposes of the income tax) is amended by striking out "30 percent" and inserting in lieu thereof "45 percent".

(10) The following provisions of such Code are each amended by striking out "30 percent" each place it appears and inserting in lieu thereof "45 percent".

(A) Subsection (b) of section 6659 (relating to addition to tax in the case of valuation overstatements for purpose of the income tax).

(B) Subsection (b) of section 6660 (relating to addition to tax in the case of valuation understatement for purposes of the estate or gift taxes).

(11) The following provisions of such Code are each amended by striking out "50 percent" each place it appears and inserting in lieu thereof "75 percent".

(A) Paragraph (5)(A)(ii) of section 6013(b) (relating to joint return after filing separate return).

(B) Paragraph (2) of section 6332(c) (relating to enforcement of levy).

(C) Subsection (c) of section 6652 (relating to failure to report tips).

(D) Subsection (a)(2), (b)(1), (b)(2), and (e) of section 6653 (relating to failure to pay tax).

(12) Subsection (b) of section 6697 of such Code (relating to assessable penalties with respect to liability for tax of qualified investment entities) is amended to read as follows:

"(b) 75-PERCENT LIMITATION.—The penalty payable under this section with respect to any determination shall not exceed 75 percent of the amount of the deduction allowed by section 860(a) for such taxable year."

(13) Subsection (a) of section 6651 of such Code (relating to failure to file tax return or to pay tax) is amended by striking out "100 percent" and inserting in lieu thereof "150 percent".

(14) The following provisions of such Code are each amended by inserting "150 percent of" after "equal to" each place it appears.

(A) Subsection (a) of section 6672 (relating to failure to collect and pay over tax, or attempt to evade or defeat tax).

(B) Section 6684 (relating to assessable penalties with respect to liability for tax under chapter 42).

(C) Subsection (a) of section 6697 (relating to assessable penalties with respect to liability for tax of qualified investment entities).

(D) Subsection (a) of 6699 (relating to assessable penalties relating to tax credit employee stock ownership plans).

(15) Paragraph (1) of section 6621(d) of such Code (relating to interest on substantial underpayments attributable to tax motivated transactions) is amended by striking out "120 percent" and inserting in lieu thereof "180 percent".

(16) Subsection (a) of section 6675 of such Code (relating to excessive claims with respect to the use of certain fuels) is amended by striking out "Two times" and inserting in lieu thereof "Three times".

(17) Subsection (b) and (e) of section 6652 of such Code (relating to failure to file certain information returns, registration statements, etc.) is amended by striking out "\$1" and inserting in lieu thereof "\$1.50".

(18) The following provisions of such Code are each amended by striking out "\$5" each place it appears and inserting in lieu thereof "\$7.50".

(A) Section 6657 (relating to bad checks).

(B) Subsection (a) of section 6687 (relating to failure to supply identifying numbers).

(C) Subsection (a) of section 6687 (relating to failure to supply information with respect to place of residence).

(D) Paragraph (2) of section 6695(e) (relating to failure to file correct information return).

(19) The following provisions of such Code are each amended by striking out "\$10" each place it appears and inserting in lieu thereof "\$15".

(A) Subsections (d), (i), and (j) of section 6652 (relating to failure to file certain infor-

mation returns, registration statements, etc.).

(B) Subsection (a) of section 6675 (relating to excessive claims with respect to the use of certain fuels).

(20) The following provisions of such Code are each amended by striking out "\$25" each place it appears and inserting in lieu thereof "\$37.50".

(A) Subsections (f), (g)(2), and (h) of section 6652 (relating to failure to file certain information returns, registration statements, etc.).

(B) Subsection (a), (b), and (c) of section 6695 (relating to other assessable penalties with respect to the preparation of income tax returns for other persons).

(21) The following provisions of such Code are each amended by striking out "\$50" each place it appears and inserting in lieu thereof "\$75".

(A) Paragraphs (1) and (2) of section 6652(a) (relating to returns relating to information at source, payments of dividends, etc., and certain transfers of stock).

(B) Section 6674 (relating to fraudulent statement or failure to furnish statement to employee).

(C) Subsection (a), (b), and (c) of section 6676 (relating to failure to supply identifying numbers).

(D) Subsection (a), (b), and (c) of section 6678 (relating to failure to furnish certain statements).

(E) Section 6690 (relating to fraudulent statement or failure to furnish statement to plan participant).

(F) Subsection (a) of section 6693 (relating to failure to provide reports on individual retirement accounts or annuities).

(G) Subsection (d) of section 6695 (relating to other assessable penalties with respect to the preparation of income tax returns for other persons).

(H) Subsection (b)(1) of section 6698 (relating to failure to file partnership return).

(I) Subsection (b)(1) of section 6704 (relating to failure to keep records necessary to meet reporting requirements under section 6047(e)).

(J) Subsection (a) of section 6706 (relating to original issue discount information requirements).

(K) Paragraph (2) of section 6707(b) (relating to failure to furnish tax shelter identification number).

(L) Subsection (a) of section 6708 (relating to failure to maintain lists of investors in potentially abusive tax shelters).

(22) The following provisions of such Code are each amended by striking out "\$100" each place it appears and inserting in lieu thereof "\$150".

(A) Subsection (as) of section 6651 (relating to failure to file tax return or to pay tax).

(B) Paragraph (3)(A)(iii) of section 6652(a) (relating to returns relating to information at source, payments of dividends, etc., and certain transfers of stock).

(C) Section 6686 (relating to failure to file returns or supply information by DISC or FSC).

(D) Section 6688 (relating to assessable penalties with respect to information required to be furnished under section 7654).

(E) Subsection (a) of section 6694 (relating to understatement of taxpayer's liability by income tax return preparer).

(F) Paragraph (1) of section 6695(e) (relating to failure to file correct information return).

(G) Paragraph (1) of section 6707(b) (relating to failure to furnish tax shelter identification number).

(23) Subsection (c) of section 6708 of such Code, as added by section 612(d)(1) of Deficit Reduction Act of 1984 (relating to penalties with respect to mortgage credit certificates) is amended by striking out "\$200" and inserting in lieu thereof "\$300".

(24) The following provisions of such Code are each amended by striking out "\$500" each place it appears and inserting in lieu thereof "\$750".

(A) Subsection (a) of section 6602 (relating to false information with respect to withholding).

(B) Subsection (b) of section 6694 (relating to understatement of taxpayer's liability by income tax return preparer).

(C) Subsection (f) of section 6695 (relating to other assessable penalties with respect to the preparation of income tax returns for other persons).

(D) Subsection (a) of section 6702 (relating to frivolous income tax return).

(E) Subsection (a) of section 6705 (relating to failure by broker to provide notice to payors).

(F) Paragraph (2)(A) of section 6707(a) (relating to failure to register tax shelter).

(25) The following provisions of such Code are each amended by striking out "\$1,000" each place it appears and inserting in lieu thereof "\$1,500".

(A) Paragraphs (1) and (2) of section 6038(b) (relating to dollar penalty for failure to furnish information).

(B) Paragraphs (1) and (2) of section 6038A(d) (relating to penalty for failure to furnish information).

(C) Subsection (b) and (e)(2) of section 6652 (relating to failure to file certain information returns, registration statements, etc.).

(D) Subsection (a) of section 6679 (relating to failure to file information returns with respect to certain foreign trusts).

(E) Subsection (a) of section 6679 (relating to failure to file returns, etc. with respect to foreign corporations or foreign partnerships).

(F) Section 6685 (relating to assessable penalties with respect to private foundation annual returns).

(G) Section 6686 (relating to failure to file returns or supply information by DISC or FSC).

(H) Section 6692 (relating to failure to file actuarial report).

(I) Subsection (a) of section 6700 (relating to promoting abusive tax shelters, etc.).

(J) Subsection (b)(1) of section 6701 (relating to penalties for aiding and abetting understatement of tax liability).

(K) Subsection (a) of section 6708, as added by section 612(d)(1) of Deficit Reduction Act of 1984, (relating to penalties with respect to mortgage credit certificates).

(26) Subsection (c) of section 6708 of such Code, as added by section 612(d)(1) of Deficit Reduction Act of 1984 (relating to penalties with respect to mortgage credit certificates) is amended by striking out "\$2,000" and inserting in lieu thereof "\$3,000".

(27) The following provisions of such Code are each amended by striking out "\$5,000" each place it appears and inserting in lieu thereof "\$7,500".

(A) Subsections (d), (e)(1), and (i) of section 6652 (relating to failure to file certain information returns, registration statements, etc.).

(B) Section 6673 (relating to damages assessable for instituting proceedings before the tax court primarily for delay, etc.).

(28) The following provisions of such Code are each amended by striking out "\$10,000" each place it appears and inserting in lieu thereof "\$15,000".

(A) Paragraph (2)(A) of section 6038(c) (relating to penalty of reducing foreign tax credit).

(B) Subsection (h) of section 6652 (relating to failure to file certain information returns, registration statements, etc.).

(C) Subsection (b)(2) of section 6701 (relating to penalties for aiding and abetting understatement of tax liability).

(D) Paragraph (2) of section 6707 (relating to failure to register tax shelter).

(E) Subsection (b) of section 6708, as added by section 612(d)(1) of Deficit Reduction Act of 1984, (relating to penalties with respect to mortgage credit certificates).

(29) Subsection (f) of section 6652 of such Code (relating to failure to file certain information returns, registration statements, etc.) is amended by striking out "\$15,000" and inserting in lieu thereof "\$22,500".

(30) Subsection (e) of section 6695 of such Code (relating to other assessable penalties with respect to the preparation of income tax returns for other persons) is amended by striking out "\$20,000" and inserting in lieu thereof "\$30,000".

(31) Paragraph (2) of section 6038A(d) of such Code (relating to penalty for failure to furnish information) is amended by striking out "\$24,000" and inserting in lieu thereof "\$36,000".

(32) The following provisions of such Code are each amended by striking out "\$25,000" each place it appears and inserting in lieu thereof "\$37,500".

(A) Paragraph (3) of section 6652(g) (relating to returns, etc., required under section 6039C).

(B) Section 6686 (relating to failure to file returns or supply information by DISC or FSC).

(C) Subsection (d) of section 6695 (relating to other assessable penalties with respect to the preparation of income tax returns for other persons).

(33) The following provisions of such Code are each amended by striking out "\$50,000" each place it appears and inserting in lieu thereof "\$75,000".

(A) Paragraphs (1) and (3)(B) of section 6652(a) (relating to returns relating to information at source, payments of dividends, etc., and certain transfers of stock).

(B) Subsection (a) of section 6676 (relating to failure to supply identifying numbers).

(C) Subsection (a) of section 6678 (relating to failure to furnish certain statements).

(D) Subsection (b)(2) of section 6704 (relating to failure to keep records necessary to meet reporting requirements under section 6047(e)).

(E) Subsection (a) of section 6708 (relating to failure to maintain lists of investors in potentially abusive tax shelters).

#### (b) CRIMINAL PENALTIES.—

(1) Paragraph (3) of section 9012(e) of such Code (relating to kickbacks and illegal payments) is amended by striking out "125 percent" and inserting in lieu thereof "187.5 percent".

(2) Subsection (b) of section 7212 of such Code (relating to attempts to interfere with administration of internal revenue laws) is amended by striking out "\$500" and inserting in lieu thereof "\$750", and by striking out "double" and inserting in lieu thereof "triple".

(3) The following provisions of such Code are each amended by striking out "\$1,000" each place it appears and inserting in lieu thereof "\$1,500".

(A) Section 7204 (relating to fraudulent statement or failure to make statement to employees).

(B) Subsections (a) and (b) of section 7205 (relating to fraudulent withholding exemption certificate or failure to supply information).

(C) Section 7209 (relating to unauthorized use or sale of stamps).

(D) Section 7210 (relating to failure to obey summons).

(E) Section 7211 (relating to false statements to purchasers or lessees relating to tax).

(F) Subsection (b) of section 7213 (relating to unauthorized disclosure of information).

(G) Subsection (a) of section 7216 (relating to disclosure or use of information by preparers of returns).

(4) Subsection (a) of section 7212 of such Code (relating to attempts to interfere with administration of internal revenue laws) is amended by striking out "\$3,000" and inserting in lieu thereof "\$4,500".

(5) The following provisions of such Code are each amended by striking out "\$5,000" each place it appears and inserting in lieu thereof "\$7,500".

(A) Subsection (a) of section 7212 (relating to attempts to interfere with administration of internal revenue laws).

(B) Subsection (a) of section 7213 (relating to unauthorized disclosure of information).

(C) Subsection (b) of section 7214 (relating to offenses by officers and employees of the United States).

(D) Subsection (a) of section 7215 (relating to offenses with respect to collected taxes).

(E) Section 7231 (relating to failure to obtain license for collection of foreign items).

(F) Section 7232 (relating to failure to register or false statement by manufacturer or producer of gasoline or lubricating oil).

(G) Subsections (a)(2), (b)(3), (f)(3), and (g)(2) of section 9012 (relating to criminal penalties).

(6) The following provisions of such Code are each amended by striking out "\$10,000" each place it appears and inserting in lieu thereof "\$15,000".

(A) Section 7202 (relating to willful failure to collect or pay over tax).

(B) Section 7207 (relating to fraudulent returns, statements, or other documents).

(C) Section 7208 (relating to offenses relating to stamps).

(D) Subsection (a) of section 7214 (relating to offenses by officers and employees of the United States).

(E) Section 7240 (relating to officials investing or speculating in sugar).

(F) Section 7241 (relating to willful failure to furnish certain information regarding windfall profit tax on domestic crude oil).

(G) Subsection (c)(3), (d)(2), and (e)(2) of section 9012 (relating to criminal penalties).

(H) Subsections (b)(2), (c)(2), and (d)(2) of section 9042 (relating to criminal penalties).

(7) The following provisions of such Code are each amended by striking out "\$25,000" each place it appears and inserting in lieu thereof "\$37,500".

(A) Section 7203 (relating to willful failure to file return, supply information, or pay tax).

(B) Subsection (a) of section 9042 (relating to criminal penalties).

(8) Section 7207 of such Code (relating to fraudulent returns, statements, or other documents) is amended by striking out "\$50,000" and inserting in lieu thereof "\$75,000".

(9) The following provisions of such Code are each amended by striking out "\$100,000" each place it appears and inserting in lieu thereof "\$150,000".

(A) Section 7201 (relating to attempt to evade or defeat tax).

(B) Section 7203 (relating to willful failure to file return, supply information, or pay tax).

(C) Section 7206 (relating to fraud and false statements).

(10) The following provisions of such Code are each amended by striking out "\$500,000" each place it appears and inserting in lieu thereof "\$750,000".

(A) Section 7201 (relating to attempt to evade or defeat tax).

(B) Section 7206 (relating to fraud and false statements).

(11) Section 7209 of such Code (relating to unauthorized use or sale of stamps) is amended by striking out "6 months" and inserting in lieu thereof "9 months".

(12) The following provisions of such Code are each amended by striking out "\$1 year" each place it appears and inserting in lieu thereof "1.5 years".

(A) Section 7203 (relating to willful failure to file return, supply information, or pay tax).

(B) Section 7204 (relating to fraudulent statement or failure to make statement to employees).

(C) Section 7205 (relating to fraudulent withholding exemption certificate or failure to supply information).

(D) Section 7207 (relating to fraudulent returns, statements, or other documents).

(E) Section 7210 (relating to failure to obey summons).

(F) Section 7211 (relating to false statements to purchasers or lessees relating to tax).

(G) Subsection (a) of section 7212 (relating to attempts to interfere with administration of internal revenue laws).

(H) Subsection (b) of section 7213 (relating to unauthorized disclosure of information).

(I) Subsection (a) of section 7215 (relating to offenses with respect to collected taxes).

(J) Subsection (a) of section 7216 (relating to disclosure or use of information by preparers of returns).

(K) Section 7231 (relating to failure to obtain license for collection of foreign items).

(L) Section 7241 (relating to willful failure to furnish certain information regarding windfall profit tax on domestic crude oil).

(M) Subsections (a)(2), (b)(3), (f)(3), and (g)(2) of section 9012 (relating to criminal penalties).

(13) The following provisions of such Code are each amended by striking out "2 years" each place it appears and inserting in lieu thereof "3 years".

(A) Subsection (b) of section 7212 (relating to attempts to interfere with administration of internal revenue laws).

(B) Section 7240 (relating to officials investing or speculating in sugar).

(14) The following provisions of such Code are each amended by striking out "3 years" each place it appears and inserting in lieu thereof "4.5 years".

(A) Section 7206 (relating to fraud and false statements).

(B) Subsection (a) of section 7212 (relating to attempts to interfere with administration of internal revenue laws).

(15) The following provisions of such Code are each amended by striking out "5 years" each place it appears and inserting in lieu thereof "7.5 years".

(A) Section 7201 (relating to attempt to evade or defeat tax).

(B) Section 7202 (relating to willful failure to collect or pay over tax).

(C) Section 7208 (relating to offenses relating to stamps).

(D) Section 7213 (relating to unauthorized disclosure of information).

(E) Subsection (a) of section 7214 (relating to offenses by officers and employees of the United States).

(F) Section 7232 (relating to failure to register, or false statement by manufacturer or producer of gasoline or lubricating oil).

(G) Subsections (c)(3), (d)(2), and (e)(2) of section 9012 (relating to criminal penalties).

(H) Section 9042 (relating to criminal penalties).

(C) OTHER PENALTIES.—

(1) Section 7273 of such Code (relating to penalties for offenses relating to special taxes) is amended by inserting "double the amount of" after "equal to".

(2) The following provisions of such Code are each amended by striking out "double" each place it appears and inserting in lieu thereof "triple".

(A) Section 7268 (relating to possession with intent to sell in fraud of law or to evade tax).

(B) Section 7270 (relating to insurance policies).

(C) Section 7273 (relating to penalties for offenses relating to special taxes).

(3) Section 7273 of such Code (relating to penalties for offenses relating to special taxes) is amended by striking out "\$10" and inserting in lieu thereof "\$15".

(4) The following provisions of such Code are each amended by striking out "\$50" each place it appears and inserting in lieu thereof "\$75".

(A) Section 7271 (relating to penalties for offenses relating to stamps).

(B) Section 7272 (relating to penalty for failure to register).

(5) Subsection (c) of section 7275 of such Code (relating to penalty for offenses relating to certain airline tickets and advertising) is amended by striking out "\$100" and inserting in lieu thereof "\$150".

(6) The following provisions of such Code are each amended by striking out "\$500" each place it appears and inserting in lieu thereof "\$750".

(A) Section 7268 (relating to possession with intent to sell in fraud of law or to evade tax).

(B) Section 7269 (relating to failure to produce records).

(7) The following provisions of such Code are each amended by striking out "\$1,000" each place it appears and inserting in lieu thereof "\$1,500".

(A) Section 7261 (relating to representation that retailers' excise tax is excluded from price of article).

(B) Section 7262 (relating to violation of occupational tax laws relating to wagering—failure to pay special tax).

(8) Section 7262 of such Code (relating to violation of occupational tax laws relating to wagering—failure to pay special tax) is amended by striking out "\$15,000" and inserting in lieu thereof "\$7,500".

(d) EXCISE TAX PENALTIES.—

(1) Subsection (a)(1) of section 4701 of such Code (relating to tax on issuer of registration—required obligation not in registered form) is amended by striking out "1 percent" and inserting in lieu thereof "1.5 percent".

(2) The following provisions of such Code are each amended by striking out "2½ per-

cent" each place it appears and inserting in lieu thereof "3.75 percent".

(A) Subsection (a)(2) of section 4941 (relating to taxes on self-dealing).

(B) Subsection (a)(2) of section 4945 (relating to taxes on taxable expenditures).

(C) Subsection (a)(2) of section 4951 (relating to taxes on self-dealing).

(D) Subsection (a)(2) of section 4952 (relating to taxes on taxable expenditures).

(3) Section 4981 of such Code (relating to excise tax based on certain real estate investment trust taxable income not distributed during the taxable year) is amended by striking out "3 percent" and inserting in lieu thereof "4.5 percent".

(4) The following provisions of such Code are each amended by striking out "5 percent" each place it appears and inserting in lieu thereof "7.5 percent".

(A) Subsection (a)(1) of section 4941 (relating to taxes on self-dealing).

(B) Subsection (a)(1) of section 4943 (relating to taxes on excess business holdings).

(C) Subsections (a) and (b)(2) of section 4944 (relating to taxes on investments which jeopardize charitable purpose).

(D) Subsection (a) of section 4953 (relating to tax on excess contributions to black lung benefit trusts).

(E) Subsection (a) of section 4971 (relating to tax on prohibited transactions).

(F) Subsection (a) of section 4975 (relating to tax on prohibited transactions).

(5) Subsection (a) of section 4973 of such Code (relating to tax on excess contributions to individual retirement accounts, certain section 403(b) contracts, and certain individual retirement annuities) is amended by striking out "6 percent" each place it appears and inserting in lieu thereof "9 percent".

(6) The following provisions of such Code are each amended by striking out "10 percent" each place it appears and inserting in lieu thereof "15 percent".

(A) Subsection (a)(1) of section 4945 (relating to taxes on taxable expenditures).

(B) Subsection (a)(1) of section 4951 (relating to taxes on self-dealing).

(C) Subsection (a)(1) of section 4952 (relating to taxes on taxable expenditures).

(D) Subsection (b)(1) of section 4978 (relating to tax on certain dispositions by employee stock ownership plans and certain cooperatives).

(7) Subsection (a) of section 4942 of such Code (relating to taxes on failure to distribute income) is amended by striking out "15 percent" and inserting in lieu thereof "22.5 percent".

(8) The following provisions of such Code are each amended by striking out "25 percent" each place it appears and inserting in lieu thereof "37.5 percent".

(A) Subsection (a)(1) of section 4911 (relating to tax on excess expenditures to influence legislation).

(B) Subsection (b)(1) of section 4944 (relating to taxes on investments which jeopardize charitable purpose).

(9) Subsection (a) of section 4977 of such Code (relating to tax on certain fringe benefits provided by an employer) is amended by striking out "30 percent" and inserting in lieu thereof "45 percent".

(10) The following provisions of such Code are each amended by striking out "50 percent" each place it appears and inserting in lieu thereof "75 percent".

(A) Subsection (b)(2) of section 4941 (relating to taxes on self-dealing).

(B) Subsection (b)(2) of section 4945 (relating to taxes on taxable expenditures).

(C) Subsection (b)(2) of section 4951 (relating to taxes on self-dealing).

(D) Subsection (b)(2) of section 4952 (relating to taxes on taxable expenditures).

(E) Subsection (a) of section 4974 (relating to excise tax on certain accumulations in individual retirement accounts or annuities).

(11) The following provisions of such Code are each amended by striking out "100 percent" each place it appears and inserting in lieu thereof "200 percent".

(A) Paragraph (6)(A) of section 857(b) (relating to method of taxation of real estate investment trusts and holders of shares or certificates of beneficial interest).

(B) Subsection (b) of section 4942 (relating to taxes on failure to distribute income).

(C) Subsection (b)(1) of section 4945 (relating to taxes on taxable expenditures).

(D) Subsection (b)(1) of section 4951 (relating to taxes on self-dealing).

(E) Subsection (b)(1) of section 4952 (relating to taxes on taxable expenditures).

(F) Subsection (b) of section 4971 (relating to taxes on failure to meet minimum funding standards).

(G) Subsection (b) of section 4975 (relating to tax on prohibited transactions).

(H) Subsection (a) of section 4945 (relating to taxes with respect to funded welfare benefit plans).

(12) The following provisions of such Code are each amended by striking out "200 percent" each place it appears and inserting in lieu thereof "300 percent".

(A) Subsection (b)(1) of section 4941 (relating to taxes on self-dealing).

(B) Subsection (b) of section 4943 (relating to taxes on excess business holdings).

(13) Paragraph (5) of section 857(b) of such Code (relating to method of taxation of real estate investment trusts and holders of shares or certificates of beneficial interest) is amended by inserting "2 times" after "equal to".

(14) The following provisions of such Code are each amended by striking out "\$5,000" each place it appears and inserting in lieu thereof "\$7,500".

(A) Subsection (d)(2) of section 4944 (relating to taxes on investments which jeopardize charitable purpose).

(B) Subsection (c)(2) of section 4945 (relating to taxes on taxable expenditures).

(15) The following provisions of such Code are each amended by striking out "\$10,000" each place it appears and inserting in lieu thereof "\$15,000".

(A) Subsection (c)(2) of section 4941 (relating to taxes on self-dealing).

(B) Subsection (d)(2) of section 4944 (relating to taxes on investments which jeopardize charitable purpose).

(C) Subsection (c)(2) of section 4945 (relating to taxes on taxable expenditures).

#### (e) EFFECTIVE DATES.—

(1) IN GENERAL.—Except as provided in this subsection, the amendments made by this section shall apply to taxable years beginning after December 31, 1986 (or, in the case of a tax for which there is no taxable period, taxable events occurring after such date).

(2) AMNESTY PERIOD.—At the expiration of the amnesty period described in section 2, in the case of any taxpayer remaining liable for any underpayment of Federal tax, the amendments made by this section shall apply to any taxable year (or any taxable event occurring during such taxable year) for which any period of limitation has not expired.

(3) EXCEPTION.—Paragraphs (1) and (2) shall not apply to any judicial or adminis-

trative proceeding with respect to any underpayment of Federal tax pending on the date of enactment of this Act in which a judgment was entered before such date.●

By Mr. BOREN (for himself and Mr. BINGAMAN):

S. 255. A bill to repeal the windfall profit tax on domestic crude oil; to the Committee on Finance.

#### REPEAL OF WINDFALL PROFITS TAX

● Mr. BINGAMAN. Mr. President, I am pleased to join my distinguished colleague from Oklahoma, Senator BOREN, in introducing legislation to repeal the windfall profits tax. The tax was passed in 1980, at a time when oil prices had skyrocketed, following actions of the OPEC cartel.

Today we have an entirely different set of circumstances. The oil industry is not paying a windfall profits tax, because the price is not high enough to trigger the tax and they do not have any profits. Additionally, there are significant costs associated with the paperwork required to meet the administrative requirements of the tax. It is ridiculous to require companies to spend millions of dollars on paperwork to report to the Government that they do not owe anything. Now is the time to repeal this tax.

The tax has done nothing to help us combat imports. It is only a tax on domestic producers. It is not a tax on imports. And it is these imports that have displaced domestic production and contributed to our negative balance of payments and the negative balance of trade we currently are experiencing in this country—last year, over a \$50 billion deficit in oil.

#### NEW MEXICO

New Mexico is the fifth largest oil and gas-producing State in the Nation in terms of total quantity and has suffered from the decline of oil and gas prices. Oil prices have declined from \$26 a barrel last January to \$11 in July, with a gradual increase since then to \$15. Natural gas prices fell from \$2.47 a barrel in January to \$1.64 in September with the current price at about \$1. Revenues generated by the industry showed a 25-percent drop in 1986. The total value of New Mexico's oil and gas activity has dropped 46 percent in the past year. Employment by the industry dropped from a low of 13,200 in 1985 to 9,000 in October 1986. The number of drilling rigs are down to an average of 29 compared with 71 last year. And of the State's bankruptcies, estimated to be 2,500 for 1986, one-fourth occurred in those counties where most of the State's oil and gas is produced. Clearly, effective action is needed to correct the decline of the industry.

#### CONCLUSION

I don't have to describe in great detail the current condition of our struggling oil industry. One can easily evaluate the status of this industry in

which 86 percent of its drilling rigs are not pumping oil, and the only profits come from refining and distributing imported oil. Our independent producers, the backbone of our exploration efforts in this country, are in severe financial straits. These problems threaten our ability to meet future energy needs domestically. We must acknowledge that the future of the industry is bleak unless we in the Congress take some positive steps to help this important industry recover. The repeal of the windfall profits tax is one such step.

I ask my colleagues to help us take that step to begin to revitalize the oil industry that is so critical to our future.●

By Mr. DIXON (for himself, Mr. PROXMIRE, Mr. GRASSLEY, Mr. LEVIN, and Mr. RIEGLE):

S. 257. A bill to correct imbalances in certain States in the Federal tax to Federal benefit ratio by reallocating the distribution of Federal spending, and for other purposes; to the Committee on Governmental Affairs.

● Mr. DIXON. Mr. President, I rise today to reintroduce "The State Minimum Return Act of 1987," along with my colleagues, Senators PROXMIRE, GRASSLEY, LEVIN, and RIEGLE. This act will correct imbalances in the amount of Federal spending that certain States receive in return for the tax dollar they send to Washington.

Although this bill contains complex language and provisions, I want to assure my colleagues and the taxpayers of the United States, at the outset, that the bill does not require any increases in spending. Rather, the bill reallocates funds among States within existing spending limits, so as not to increase the deficit.

This bill addresses a very important issue which has caused real hardship in my State of Illinois, and in many other States, principally in the Midwest and Northeast. In 1985, for example, Illinois received only 68 cents in Federal spending for each tax dollar it sent to the Federal Government. For the past 50 years, this ratio has been well below \$1. The unfortunate truth is that Illinois and other disadvantaged States are sending billions of dollars to Washington every year that they never see again.

Many of these disadvantaged States were among those that suffered most during the recession of 1982. They are the States whose economies are growing more slowly than the national average. They can ill afford the ongoing drain of billions of dollars to Washington.

Federal fiscal policy must be changed. It should not be designed to make a bad situation worse. Rather, it should lend a hand to States whose

economies have needed the most help in the recent past.

The bill I am introducing will adjust Federal spending in the categories of Government contracts and grant programs. Contracts and grants accounted for \$275 billion of the Federal budget in fiscal 1984, and are the chief sources of imbalances among States. These spending categories help stimulate economic growth, creating jobs and spurring private investment. Grants and contracts cause a "ripple effect" in the economy of a community. The award of a Government contract not only creates jobs in the company in which the work is performed. It also increases business and creates jobs in local companies supplying goods to the contractor.

Grant programs that will be eligible for this 10-percent adjustment include those administered by the Departments of Interior, Transportation, Agriculture—except farm income supports—the Environmental Protection Agency, Housing and Urban Development, and the U.S. Army Corps of Engineers. These are the grants that create jobs and economic growth in States and communities.

For grant programs that require an income test to determine eligibility for assistance, such as aid to families with dependent children, this bill will require an increase of 1 percent per year in the share of each eligible State. This increase will ease the fiscal burdens on the State governments of eligible States, which share the cost of these programs; let me add that the bill requires that benefit levels for needy individuals in all States may not be reduced as a result of a shift in the Federal share of these program funds among States.

Disadvantaged States will also receive additional moneys in the area of Federal contracts. With respect to competitive procurements and non-competitive procurements, the head of each Federal agency will be required to award a contract to a firm that will do the work in a disadvantaged State if it submits a bid that is lower or equivalent to a bid from a firm that would do the work elsewhere. This means that if a metal cabinet for a Government office or a rubber fuel line for an Air Force plane can be made in Illinois more cheaply, or at the same price, than it can be made in a State that gets more than its fair share of spending from the Federal Government, that cabinet or fuel line is going to be made in Illinois by workers and businesses in Illinois.

What is being suggested here is a reallocation of Federal moneys among the States, rather than the creation of a new Government spending program. In addition, in order not to penalize the needy and other citizens who currently receive direct Government benefits in all States, the bill will not

affect payments to individuals by the Federal Government. Such programs as Social Security, Food Stamps, supplemental security income, Pell grants, lower income housing assistance, veterans assistance, black lung disability, guaranteed student loan interest subsidies, retirement payments for railroad workers, and Federal workers' compensation, retirement and disability, and employee life and health insurance will not be affected by the bill.

The State Minimum Return Act is an attempt to develop the comprehensive approach we need to end what amounts to a multibillion dollar penalty being paid each year by Illinois and many other States. By any measure, there is every reason that these States should be getting back their fair share of the Federal budget.

I urge my colleagues to join me in this effort to help these disadvantaged States get back a fair share of their tax dollars.

I ask unanimous consent that the bill and a summary be printed at this point in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### S. 257

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "State Minimum Return Act of 1987".*

#### STATEMENT OF POLICY

SEC. 2. It is the purpose of this Act to provide, within existing budgetary limits, authority to reallocate the distribution of certain Federal spending to various States in order to ensure by the end of fiscal year 1992 that each State receive in each fiscal year an amount of Federal expenditures equal to a minimum of 90 percent of the Federal tax burden attributable to such State for such fiscal year.

#### DEFINITIONS

SEC. 3. As used in this Act—

(1) The term "Director" means the Director of the Office of Management and Budget.

(2) The term "Federal agency" means any agency defined in section 551(1) of title 5, United States Code.

(3) The term "State" means each of the several States and the District of Columbia.

(4) The term "historic share" means the average percentage share of Federal expenditures received by any State during the most recent three fiscal years.

(5) The term "Federal expenditures" means all outlays by the Federal Government as defined in section 3(1) of the Congressional Budget and Impoundment Control Act of 1974 (2 U.S.C. 622(1)).

(6) The term "Federal tax revenues" means all revenues collected pursuant to the Internal Revenue Code of 1954.

(7) The term "need-based program" means any program which results in direct payment to individuals and which involves an income test to help determine the eligibility of an individual for assistance under such program.

#### DESIGNATION OF ELIGIBLE STATES

SEC. 4. (a) Any State shall be eligible for a positive reallocation of Federal expendi-

tures described in section 5 and received by such State under section 7(a), if such State, for any fiscal year, has a Federal expenditure to Federal tax ratio which is less than 90 percent.

(b) Any State shall be eligible for a positive reallocation of Federal expenditures described in section 5 and received by such State under paragraph (1) of section 7(a), if such State, for any fiscal year, has a Federal expenditure to Federal tax ratio which is less than 100 percent but greater than or equal to 90 percent.

(c) During each fiscal year, the Director after consultation with the Secretary of the Treasury and the Director of the Census Bureau, shall determine the eligibility of any State under this section using the most recent fiscal year data and estimated data available concerning Federal tax revenues and Federal expenditures attributable to such State. The Secretary of the Treasury shall determine the attribution of Federal tax revenues to each State after consultation with the Comptroller General of the United States.

(d) For purposes of determining the eligibility of any State under subsection (c), any water or power program in which the Federal Government, through Government corporations, provides water or power to any State at less than market price shall be taken into account in computing such State's Federal expenditure to Federal tax ratio by characterizing as an imputed Federal expenditure the difference between the market price and the program's actual price of providing such water or power to such State.

#### DESIGNATION OF REALLOCABLE FEDERAL EXPENDITURES

SEC. 5. All Federal expenditures in any fiscal year shall be subject to reallocation to ensure the objective described in section 2 with respect to eligible States designated under section 4, except for such expenditures with respect to the following:

(1) Water and power programs which are described in section 4(d).

(2) Compensation and allowances of officers and employees of the Federal Government.

(3) Maintenance of Federal Government buildings and installations.

(4) Offsetting receipts.

(5) Programs for which the Federal Government assumes the total cost and in which a direct payment is made to a recipient other than a governmental unit. Such programs include:

(A) Social Security, including disability, retirement, survivors insurance, unemployment compensation, and Medicare, including hospital and supplementary medical insurance;

(B) Supplemental Security Income;

(C) Food Stamps;

(D) Black Lung Disability;

(E) National Guaranteed Student Loan interest subsidies;

(F) Pell grants;

(G) lower income housing assistance;

(H) social insurance payments for railroad workers;

(I) railroad retirement;

(J) excess earned income tax credits;

(K) veterans assistance, including pensions, service connected disability, non-service connected disability, educational assistance, dependency payments, and pensions for spouses and surviving dependents;

(L) Federal workers' compensation;

(M) Federal retirement and disability;

(N) Federal employee life and health insurance; and

(O) farm income support programs.

#### REALLOCATION AUTHORITY

SEC. 6. (a) Notwithstanding any other provision of law, during any fiscal year the head of each Federal agency shall, after consultation with the Director, make such reallocations of expenditures described in section 5 to eligible States designated under section 4 as are necessary to ensure the objective described in section 2.

(b) Notwithstanding any other provision of law and to the extent necessary in the administration of this Act, the head of each Federal agency shall waive any administrative provision with respect to allocation, allotments, reservations, priorities, or planning and application requirements (other than audit requirements) for the expenditures reallocated under this Act.

(c) The head of each Federal agency having responsibilities under this Act is authorized and directed to cooperate with the Director in the administration of the provisions of this Act.

#### REALLOCATION MECHANISMS

SEC. 7. (a) Notwithstanding any other provision of law, for purposes of this Act, during any fiscal year reallocations of expenditures required by section 6 shall be accomplished in the following manner:

(1)(A) With respect to procurement contracts, and beginning in fiscal year 1990 subcontracts in excess of \$25,000, the head of each Federal agency shall—

(i) identify qualified firms in eligible States designated under section 4 and disseminate any information to such firms necessary to increase participation by such firms in the bidding for such contracts and subcontracts,

(ii) in order to ensure the objective described in section 2, increase the national share of such contracts and subcontracts for each eligible State designated under section 4(a) by 10 percent each fiscal year, and

(iii) thirty days after the end of each fiscal year, report to the Director regarding progress made during such fiscal year to increase the share of such contracts and subcontracts for such eligible States, including the percentage increase achieved under clause (ii) and if the goal described in clause (ii) is not attained, the reasons therefor.

Within ninety days after the end of each fiscal year, the Director shall review, evaluate, and report to the Congress as to the progress made during such fiscal year to increase the share of procurement contracts and subcontracts the preponderance of the value of which has been performed in such eligible States.

(B) With respect to each fiscal year, if any Federal agency does not attain the goal described in subparagraph (A)(ii), then during the subsequent fiscal year such agency shall report to the Director prior to the awarding of any contract or subcontract described in subparagraph (A) to any firm in an ineligible State the reasons such contract or subcontract was not awarded to any firm in an eligible State.

(C) In the case of any competitive procurement contract or subcontract, the head of the contracting Federal agency shall award such contract or subcontract to the lowest bid from a qualified firm that will perform the preponderance of the value of the work in an eligible State designated under section 4 if the bid for such contract or subcontract is lower or equivalent to any bid from any qualified firm that will per-

form the preponderance of the value of the work in an ineligible State.

(D) In the case of any noncompetitive procurement contract or subcontract, the head of each Federal agency shall identify and award such contract or subcontract to a qualified firm that will perform the preponderance of the value of the work in an eligible State designated under section 4 and that complete such contract or subcontract at a lower or equivalent price as any qualified firm that will perform the preponderance of the value of the work in an ineligible State.

(E) For purposes of this paragraph, in the case of any procurement contract or subcontract, any firm shall be qualified if—

(i) such firm has met the elements of responsibility provided for in section 8(b)(7) of the Small Business Act as determined by the head of the contracting Federal agency to be necessary to complete the contract or subcontract in a timely and satisfactory manner, and

(ii) with respect to any prequalification requirement, such firm has been notified in writing of all standards which a prospective contractor must satisfy in order to become qualified, and upon request, is provided a prompt opportunity to demonstrate the ability of such firm to meet such specified standards.

(F) In order to reallocate expenditures with respect to subcontracts as required by subparagraph (A), each Federal agency shall collect necessary data to identify such subcontracts beginning in fiscal year 1987.

(2)(A) With respect to need-based programs, any eligible State designated under section 4(a) shall receive 101 percent of such State's historic share with respect to such programs.

(B) With respect to all other expenditures described in section 5, including all grants administered by the Department of Transportation, the Department of the Interior, the Department of Agriculture, the Environmental Protection Agency, and the United States Army Corps of Engineers, and funds provided under general revenue sharing, any eligible State designated under section 4(a) shall receive 110 percent of such State's historic share with respect to such expenditures.

(b)(1) Except as provided in paragraph (2), no reallocation shall be made under this section with respect to expenditures for any program to any State in any fiscal year which results in a reduction of 10 percent or more of the amount of such expenditures to such State.

(2) No reallocation shall be made under subsection (a)(2)(A) with respect to expenditures for any need-based program to any State in any fiscal year which results in a reduction of 1 percent or more of the amount of expenditures to such State for any such program.

(c) No reallocation shall be made under the provisions of this Act which will result in any Federal expenditure to Federal tax ratio of any State being reduced below 90 percent.

(d) With respect to any need-based program eligible for reallocation under subsection (a)(2)(A), notwithstanding any reallocation of such program funds that may be mandated under this section, no State or eligible governmental unit may reduce program benefits to the ultimate beneficiaries of such program or change such program's eligibility requirements because of such reallocation of funds.

#### AMENDMENTS

SEC. 8. No provision of law shall explicitly or implicitly amend the provisions of this Act unless such provision specifically refers to this Act.

#### EXTENSION OF FEDERAL FUNDS REPORT ACT

SEC. 9. Subsection (a) of section 3 of the Consolidated Federal Funds Report Act of 1982 (31 U.S.C. 6102 note) is amended by striking out "and 1985" and inserting in lieu thereof "1985, 1986, 1987, 1988, 1989, 1990, 1991 and 1992".

#### STUDY

SEC. 10. (a) The Secretary of the Treasury or a delegate of the Secretary shall conduct a study on the impact of Federal spending, tax policy, and fiscal policy on State economies and the economic growth rate of States and regions of the United States.

(b) The report of the study required by subsection (a) shall be submitted to Congress not later than December 31, 1985.

#### EFFECTIVE DATE

SEC. 11. The provisions of this Act shall take effect for fiscal years beginning after the date of the enactment of this Act.

#### THE STATE MINIMUM RETURN ACT OF 1987

##### SUMMARY

The State Minimum Return Act reallocates spending to States that send more money in taxes to the Federal government than they receive in Federal spending.

States that receive Federal expenditures that amount to less than 90 percent of the amount the state's residents pay in Federal taxes will receive additional funds in the spending categories of grants-in-aid and procurement contracts.

States that receive Federal expenditures that amount to between 90 percent and 100 percent of the amount the state's residents pay in Federal taxes will receive additional funds in the spending category of procurement contracts.

A state's eligibility will be determined by the Office of Management and Budget, in consultation with the Census Bureau regarding Federal expenditures and the Treasury regarding tax revenues.

All spending categories are included for the purpose of determining eligibility, including subsidies given for water and power programs through Government corporations.

Each state must receive an amount of Federal spending that is at least 90 per cent of the amount of federal taxes each state's residents pay by fiscal 1992.

In order to ensure that all states meet the 90 per cent standard, all eligible states must receive an annual increase of 10 per cent in its share of the national total in the categories of grants-in-aid and/or procurement contracts. This 10 per cent increase applies only to those grants that are not allocated based on income tests for individuals. Such grants that are eligible for the 10 per cent reallocation include those administered by the Departments of Transportation, Interior, Agriculture (except farm income supports), the Environmental Protection Agency and the U.S. Army Corps of Engineers.

For grant programs that require an income test, eligible states will receive an annual increase of 1 per cent in their share of the national total.

No state shall incur an annual reduction of more than 10 per cent in its share of contracts and eligible grants, or an annual re-

duction of more than 1 per cent in its share of income-based grants.

Procurement contracts will be relocated to firms in eligible states if two conditions are met: (1) if the firm submits a bid that is lower or equivalent to a bid of a firm in an ineligible state, and (2) if the firm will perform the bulk of the contract in an eligible state.

In the event that sufficient contracts are not reallocated each year, the head of the contracting agency that has not met the requirement will have to report to OMB before awarding any contract to a firm in an ineligible state in the following year as the reasons why that contract was not awarded to a firm in an eligible state.

The Secretary of the Treasury is required to conduct a study of the impact of Federal spending, tax, and fiscal policies on state economies and the economic growth rate of states and regions.■

By Mr. D'AMATO:

S. 258. A bill to amend and extend laws relating to housing and community development; to the Committee on Banking, Housing, and Urban Affairs.

HOUSING AND COMMUNITY DEVELOPMENT ACT  
OF 1987

● Mr. D'AMATO. Mr. President, I rise to introduce a bill that addresses many of the housing concerns we discussed during the 99th Congress. These and other housing and community development issues need to be addressed during the 100th Congress. This legislation, offered as a catalyst for this effort, includes some items that were contained in the various housing bills of the 99th Congress, such as H.R. 1, H.R. 3500, S. 1730, S. 1913, and S. 2507.

This legislation in no way encompasses all current housing and community development program needs. Rather, it reflects an attempt to include only a few items that need immediate consideration. Hopefully, other items not included in this legislation also will be addressed during the 100th Congress.

It is my hope that this bill serves as a starting point for housing legislation during this session of Congress. It contains a limited number of timely program amendments and new initiatives that should be enacted this year. It includes the Nehemiah Housing Program, as well as a homeless shelter program. I introduced these programs last year and worked with many of my colleagues in developing them.

The Nehemiah Housing Program permits families that otherwise would not be able to purchase a home to achieve homeownership. It provides a grant of up to \$15,000 to families in distressed neighborhoods.

To date, 501 Nehemiah homes have been completed in New York. There are 266 homes now under construction, and 1,200 sites committed for future construction. In the successful Nehemiah Program in Brooklyn, sponsored by the East Brooklyn Churches, 50 percent of the Nehemiah buyers come from assisted housing. Families that replace the new Nehemiah home-

owners have an average income of \$6,500. Thus, the Nehemiah Program helps the poorest of families and frees-up housing for the less fortunate.

Those who argue that this program needs to be targeted more narrowly are missing important points. First of all, most of the Nehemiah occupants are low income; 99 percent of the participants are first-time homeowners. The median income for participants in New York is approximately \$24,000, and 50 percent of new homeowners come from assisted housing; 35 percent of the participants in Brooklyn are from public housing, which has made 175 public housing units available for the homeless and other low-income individuals; and 15 percent of the participants previously were receiving other Federal assistance, such as section 8, which has made 75 units available for others.

The reason why Nehemiah-type housing will be purchased primarily by lower income families is due to the fact that there are restrictions in the bill on the type of neighborhoods in which this housing can be located. It is unlikely that these neighborhoods will attract many families with incomes near the eligibility limit. The preponderance of funds in any metropolitan area must be from families with income below 95 percent of median income. Few families above this category want to purchase in the area unless they have a special attachment to the neighborhood, such as growing up in the neighborhood or having relatives in the area—and there is nothing wrong with wanting to stay in a neighborhood near relatives.

The U.S. Department of Housing and Urban Development's assessment of the Nehemiah Program is hardly based on sufficient data to comment on the merits of the Nehemiah Program. HUD's study was mostly based on a telephone survey of 10 cities. This does not compare with the hands-on assessments made by officials of numerous cities and localities who have visited the Nehemiah Brooklyn site and have expressed an interest in replicating the Brooklyn effort.

This program would allow cities the flexibility to develop cost-effective housing that would work in other communities. The legislation should not be modified to hamper cities from using the resources available to them to provide safe and decent housing. Many will not have the same kind of city, State, and private assistance that was provided in Brooklyn, but this does not mean that they should not have the opportunity to create Nehemiah housing. We should commend them and provide the assistance necessary to strengthen our neighborhoods by allowing the Nehemiah program to expand and revitalize our cities nationwide.

The Saturday, July 19, 1986, editorial in the New York Times summarizes this point well. It states: "Give Nehemiah a National Test." The Nehemiah approach is founded on fundamental American values of ownership, equity, and family stability. The savings are enormous to the Federal Government if we consider the \$120,000 cost for one new unit of public housing. This same amount would buy 12 new Nehemiah homes—if the average no-interest second mortgage is \$10,000—in addition, 6 freed-up units of public housing would be made available for a total of 18 housing units for the cost of 1 new unit of public housing.

Mr. President, we have every reason to believe that this program, which I sponsored in the Senate as S. 1913 and subsequently included in S. 2507, provides residents with new hope and incentive to work and to save. With the pride of homeownership, residents will fight crime and drugs in their communities. Organized homeowners demand, and have received, better police protection and better park and other community services. They have become active in health care and the quality of life in the entire community which benefits the poorest of neighborhoods.

Other provisions in this bill include a Community Development Block Grant entitlement transition, as well as authorization of, and amendments, to the Urban Development Action Grant [UDAG] Program. I hope my colleagues will join me in considering the merits of expanding the UDAG Program so that low interest guaranteed loans can be provided to our cities; UDAG could be provided in the form of grants, loans, and low interest loan guarantees. This effort would be at no additional cost to the Government, while providing enormous benefits to a multitude of cities.

My bill also extends the Home Mortgage Disclosure Act, and restricts various fees and charges. Mr. President, I firmly believe that our Nation will benefit from the housing and community development provisions included in this bill. As I have stated on numerous previous occasions, it is noteworthy that, for more than the past 50 years, the Federal Government has played a major role in advancing national housing policies in its partnership with the housing industry. We have provided Federal tax incentives to promote homeownership and the availability of affordable housing. Government assistance has been provided in establishing specialized financial institutions. Government chartered thrift institutions have channeled funds into housing and have given homebuyers access to affordable mortgage credit. Programs also have been developed to revitalize and renovate our communities.

If our cities and neighborhoods are to continue to grow and prosper, the Federal Government must continue to play an important role in housing. Therefore, I hope that my colleagues will join me in supporting this legislation.

Mr. President, we must not destroy the economic development that has been initiated in our communities. Instead, we must give each community an opportunity to continue to expand and develop. The efforts made by our cities and neighborhoods are worthy of the assistance provided in this bill.

Mr. President, I ask unanimous consent that the full text of my bill be printed in the *RECORD* at the conclusion of my remarks.

Thank you, Mr. President.

There being no objection, the bill was ordered to be printed in the *RECORD*, as follows:

S. 258

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Housing and Community Development Act of 1987".*

#### TITLE I—COMMUNITY DEVELOPMENT

Sec. 101. National Nehemiah Housing Opportunity program.

Sec. 102. CDBG entitlement transition.

Sec. 103. Urban development action grants.

#### TITLE II—MORTGAGE CREDIT AND MISCELLANEOUS PROVISIONS

Sec. 201. Mortgage limits for multifamily projects in high cost areas.

Sec. 202. GNMA mortgage-backed securities limitations.

Sec. 203. Fees and charges.

Sec. 204. Home Mortgage Disclosure Act extension.

Sec. 205. Purchase of Second Mortgage.

#### TITLE III—HOMELESS ASSISTANCE

Sec. 301. Definitions.

#### PART 1—EMERGENCY FOOD AND SHELTER PROGRAM

Sec. 311. National board.

Sec. 312. National board transition.

Sec. 313. Distribution of program funds.

Sec. 314. Agency responsibilities.

Sec. 315. Local boards.

Sec. 316. Local homeless assistance plan.

Sec. 317. Service providers.

Sec. 318. Use of funds.

Sec. 319. Limitation on certain costs.

Sec. 320. Program guidelines.

Sec. 321. Authorization.

Sec. 322. Surplus food distribution.

#### PART 2—TRANSITION TO INDEPENDENCE DEMONSTRATION PROJECT

Sec. 331. Authority to make grants.

Sec. 332. Application for grants.

Sec. 333. Allocation of grants.

Sec. 334. Program requirements.

Sec. 335. Regulations.

Sec. 336. Reports to Congress.

Sec. 337. Authorization.

#### TITLE I—COMMUNITY DEVELOPMENT

##### NATIONAL NEHEMIAH HOUSING OPPORTUNITY PROGRAM

Sec. 101. (a) Section 105(a) of the Housing and Community Development Act of 1974 is amended—

(1) by striking out "and" at the end of paragraph (17);

(2) by striking out the period at the end of paragraph (18) and inserting in lieu thereof a semicolon; and

(3) by adding at the end thereof the following new paragraphs:

"(19) provision of assistance to facilitate new construction or substantial reconstruction in instances in which persons of low- and moderate-income own and occupy a home that the grantee determines is not suitable for rehabilitation."

(b)(1) It is the purpose of this subsection (A) to encourage homeownership by families in the United States who are not otherwise able to afford homeownership; (B) to undertake a concentrated effort to rebuild the depressed areas of the cities of the United States and to create sound and attractive neighborhoods; and (C) to increase the employment of neighborhood residents.

(2) For the purposes of this subsection:

(A) The term "Fund" means the Nehemiah Housing Opportunity Fund established in paragraph (9)(A).

(B) The term "home" means any 1- to 4-family dwelling. Such term includes any dwelling unit in a condominium project or cooperative project consisting of not more than 4 dwelling units, any townhouse, and any manufactured home.

(C) The term "lower income families" has the meaning given in such term in section 3(b)(2) of the United States Housing Act of 1937.

(D) The term "metropolitan statistical area" means a metropolitan statistical area as established by the Office of Management and Budget.

(E) The term "nonprofit organization" means a private corporation, or other private nonprofit legal entity, that is approved by the Secretary as to financial responsibility.

(F) The term "Secretary" means the Secretary of Housing and Urban Development.

(G) The term "State" means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, the Trust Territory of the Pacific Islands, and any other territory or possession of the United States.

(H) The term "substantial rehabilitation" means—

(i) rehabilitation involving costs in excess of 60 per centum of the maximum sale price of a home assisted under this title in the market area in which it is located; or

(ii) the rehabilitation of a vacant, uninhabitable structure.

(I) The term "unit of general local government" means any borough, city, county, parish, town, township, village, or other general purpose political subdivision of a State.

(3) The Secretary may provide assistance to nonprofit organizations to carry out Nehemiah housing opportunity programs in accordance with the provisions of this subsection. Such assistance shall be made in the form of grants. Applications for assistance under this subsection shall be made in such form, and in accordance with such procedures, as the Secretary may prescribe.

(4)(A) Any nonprofit organization receiving assistance under this subsection shall use such assistance to provide loans to families purchasing homes constructed or substantially rehabilitated in accordance with a Nehemiah housing opportunity program approved under this subsection.

(B) Each loan made to a family under this subsection shall—

(i) be secured by a second mortgage held by the Secretary on the property involved;

(ii) be in an amount not exceeding \$15,000;

(iii) bear no interest; and

(iv) be repayable to the Secretary upon the sale or other transfer of such property.

(5)(A) Assistance provided under this subsection may be used only in connection with a Nehemiah housing opportunity program of construction or substantial rehabilitation of homes.

(B) Each family purchasing a home under this subsection shall—

(i) have a family income on the date of such purchase that is not more than whichever of the following is higher:

(I) 115 per centum of the median income for a family of 4 persons in the metropolitan statistical area involved; or

(II) the national median income for a family of 4 persons; and

(ii) and shall not have owned a home during the 3-year period preceding such purchase.

(C)(i) Each family purchasing a home under this subsection shall make a downpayment of not less than 10 percent of the sale price of such home, or of such greater amount determined by the nonprofit organization involved to be appropriate.

(ii) Any downpayment made shall accrue interest from the date on which such downpayment is made through the date of settlement, at a rate not less than the passbook rate. Such interest shall be paid by the nonprofit organization involved to the family purchasing the home for which such downpayment was made.

(D) No family purchasing a home under this subsection may lease such home.

(6)(A) No proposed Nehemiah housing opportunity program may be approved by the Secretary under this subsection unless the nonprofit organization involved demonstrates to the satisfaction of the Secretary that—

(i) it has consulted with and received the support of residents of the neighborhood in which such program is to be located; and

(ii) it has the approval of each unit of general local government in which such program is to be located.

(B) Each nonprofit organization applying for assistance under this subsection shall submit to the Secretary an estimated schedule for completion of its proposed Nehemiah housing opportunity program, which schedule shall have been agreed to by each unit of general local government in which such program is to be located.

(C) Minimum participation. No nonprofit organization receiving assistance under this subsection may commence any construction or substantial rehabilitation (except with respect to homes to be constructed or substantially rehabilitated for the purpose of display) until not less than 25 percentum of the homes to be constructed or substantially rehabilitated are constructed for sale to purchasers who intend to live in such homes and the required downpayments are made.

(D) The Secretary may not provide any assistance under this subsection to any nonprofit organization unless such organization demonstrates the financial feasibility of its proposed Nehemiah housing opportunity program, including the availability of non-Federal public and private funds.

(E) A Nehemiah housing opportunity program may be approved under this subsection only if it provides that—

(i) the number of homes to be constructed or substantially rehabilitated under such program will not be less than whichever of the following is less:

(I) the greater of (a) 50 homes; or (b) 0.25 percentum of the number of existing dwelling units in the unit of general local government that provides the most assistance to such programs; or

(II) 250 homes;

(ii) each home constructed or substantially rehabilitated under such program will comply with—

(I)(a) applicable local building code standards or

(b) in any case in which there is not an applicable local building code, a nationally recognized model building code mutually agreed upon by the sponsoring nonprofit organization and the Secretary; and

(II) the energy performance requirements established under Section 526 of the National Housing Act;

(iii) all homes constructed or substantially rehabilitated under such program will be located in census tracts, or identifiable neighborhoods within census tracts, in which the median family income is not more than 80 percent of the median family income of the area in which such program is to be located, as such median family income and area are determined for purposes of assistance under section 8 of the United States Housing Act of 1937;

(iv) all homes constructed or substantially rehabilitated under such program will be concentrated in a single neighborhood and located on contiguous parcels of land, except that if the unit of general local government in which the project is located certifies that such land cannot be made available for a program of the size required by subparagraph (E)(i)(I), homes may be constructed in a single identifiable neighborhood if the program provides for construction or substantial rehabilitation of homes on not less than 20 percent of the lots in such neighborhoods; and

(v) sales contracts entered into under such program will contain provisions requiring repayment of any loan made under this subsection upon the sale or other transfer of the home involved, unless the Secretary approves a transfer of such homes without repayment (in which case the second mortgage held by the Secretary on such home shall remain in force until such loan is fully repaid).

(7)(A) In selecting Nehemiah housing opportunity programs for assistance under this subsection from among eligible programs, the Secretary shall make such selection on the basis of the extent to which—

(i) non-Federal public or private entities will contribute land necessary to make such program feasible;

(ii) non-Federal public and private financial or other contributions (including tax abatements, waivers of fees related to development, waivers of construction, development, zoning requirements, and direct financial contributions) will reduce the cost of homes constructed or substantially rehabilitated under each program;

(iii) each program will produce the greatest number of units for the least amount of assistance provided under this subsection, taking into consideration the cost difference among different market areas;

(iv) each program is located in a neighborhood of severe physical and economic blight (and, in determining the degree of physical blight, the Secretary shall consider the condition (but not age) of the housing, other buildings, and infrastructure, in the neighborhood of the proposed program);

(v) each program uses construction methods that will reduce the cost per square foot

below the average construction cost in the market area involved; and

(vi) each program provides for the involvement of local residents in the planning, and construction or substantial rehabilitation, of homes.

(B) To the extent that non-Federal public entities are prohibited by the law of any State from making any form of contribution described in clause (i) or (ii) of subparagraph (a), the Secretary shall not consider such form of contribution in evaluating such program.

(8)(A) Following the selection of any Nehemiah housing opportunity program for assistance under this subsection, the Secretary shall reserve sufficient amounts in the Nehemiah Housing Opportunity Fund for such assistance.

(B) Distribution of Assistance. Following the sale of any home constructed or substantially rehabilitated under a Nehemiah housing opportunity program selected for assistance under this subsection, the Secretary shall provide to the sponsoring organization an amount equal to the amount of the loan made to the family purchasing such home. Such amount shall be provided not more than thirty days after the sale of such home.

(C) The assistance provided to any non-profit organization under this subsection may not exceed \$15,000 per home.

(9)(A) There hereby is established in the Treasury of the United States a revolving fund, to be known as the Nehemiah Housing Opportunity Fund. The Fund shall be available to the Secretary, to the extent approved in appropriation Acts, for purposes of providing assistance under paragraph (3).

(B) The Fund shall consist of—

(i) any amount appropriated under paragraph (12);

(ii) any amount received by the Secretary under paragraph (4)(B)(iv); and

(iii) any amount received by the Secretary under subparagraph (C).

(C) Any amount in the Fund determined by the Secretary to be in excess of the amount currently required to carry out the provision of this subsection shall be invested by the Secretary in obligations of, or obligations guaranteed as to both principal and interest by, the United States or any agency of the United States.

(10) The Secretary shall annually prepare and submit to the Congress a comprehensive report setting forth the activities carried out under this subsection. Such report shall include—

(A) an analysis of the characteristics of the families assisted under this subsection during the preceding year, including family size, number of children, family income, sources of family income, race, age, and sex;

(B) an analysis of the market value of homes purchased under this subsection during the preceding year;

(C) an analysis of the non-Federal public and private financial or other contributions made during the preceding year to reduce the cost of homes constructed or substantially rehabilitated under each program;

(D) an analysis of the sale prices of homes under this subsection during the preceding year;

(E) an analysis of the amounts of the grants made to programs under this subsection during the preceding year; and

(F) any recommendations of the Secretary for modifications in the program established by this subsection in order to ensure the effective implementation of such program.

(11) The Secretary shall issue such regulations as may be necessary to carry out the provisions of this subsection. Any such regulations shall be issued in accordance with section 553 of title 5, United States Code, notwithstanding the provisions of subsection (a)(2) of such section.

(12) There are authorized to be appropriated such sums as may be provided by a fiscal year 1986 appropriation Act. Any amount appropriated under this paragraph shall be deposited in the Nehemiah Housing Opportunity Fund, and shall remain available until expended.

#### CDBG ENTITLEMENT TRANSITION

SEC. 102. Section 102(a)(4) of the Housing and Community Development Act of 1974 is amended by adding at the end thereof the following new sentence: "Any city classified as a metropolitan city pursuant to the first or second sentence of this paragraph that no longer qualifies as a metropolitan city under such first or second sentence in a fiscal year beginning after fiscal year 1986, shall retain its classification as a metropolitan city for that fiscal year and the succeeding three fiscal years."

#### URBAN DEVELOPMENT ACTION GRANTS

SEC. 103. (a) Section 119(a) of the Housing and Community Development Act of 1974 is amended by striking out the last sentence and inserting in lieu thereof the following: "There are authorized to be appropriated to carry out the provisions of this section not to exceed \$366,000,000 for fiscal year 1988, and such sums as may be necessary for fiscal year 1989. Any amount appropriated under the preceding sentence shall remain available until expended."

(b)(1) Section 119(d) of the Housing and Community Development Act of 1974 is amended—

(A) by indenting clauses (A) and (B) of paragraph (1);

(B) by striking out "as the primary criterion," in clause (A);

(C) by striking out clause (C) of paragraph (1) and inserting in lieu thereof the following:

"(C) at least the following other criteria:

"(i) the extent to which the grant will stimulate economic recovery by leveraging private investment;

"(ii) the number of permanent jobs to be created and their relation to the amount of grant funds requested;

"(iii) the proportion of permanent jobs accessible to lower income persons and minorities, including persons who are unemployed;

"(iv) the impact of the proposed activities on the fiscal base of the city or urban county and its relation to the amount of grant funds requested;

"(v) the extent to which State or local government funding or special economic incentives have been committed;

"(vi) the extent to which the project is located in the portion of the applicant city or urban county with the highest comparative degree of economic distress and the project will directly improve the quality of housing or employment opportunities for low and moderate income residents of that portion;

"(vii) the extent to which the project will produce goods or services the majority of which can be expected to be exported from the applicant's economy; and

"(viii) to the extent the Secretary deems appropriate, the extent to which other Federal assistance is to be made available shall be considered in applying the criteria referred to in clauses (i), (ii), (iv) of this subparagraph;

"(D) additional consideration for the extent to which the project, in the determination of the Secretary, would—

"(i) retain jobs which would be lost without the provision of a grant under this section; and

"(ii) relieve the applicant's most pressing employment or residential needs by—

"(I) reemploying workers in a skill that has recently suffered a sharp increase in unemployment locally,

"(II) retraining recently unemployed residents in new skills, or

"(III) providing training to increase the local pool of skilled labor; and

"(E) additional consideration for projects with the following characteristics:

"(i) projects to be located within a city or urban county to which no grant under this section was made during the preceding twelve-month period; and

"(ii) twice the amount of the additional consideration provided under clause (i) in the case of a grant for projects to be located in cities or urban counties to which no grant under this section was made during the preceding twenty-four month period."; and

(D) by adding at the end thereof the following:

"(3) The Secretary may not award a grant under paragraph (1) unless he determines that the project would have a substantial impact on physical and economic development of the city or urban county, that the proposed activities are likely to be accomplished in a timely fashion within the grant amount available, and that the city or urban county has demonstrated performance in housing and community development programs.

"(4) The Secretary shall award points to each application as follows:

"(A) not more than 35 points on the basis of the factors referred to in subparagraph (A) of paragraph (1);

"(B) not more than 35 points on the basis of the factors referred to in subparagraph (B) of paragraph (1);

"(C) not more than 30 points on the basis of the factors referred to in subparagraph (C) of paragraph (1), of which not more than 3 points in the aggregate shall be awarded for the factors referred to in clauses (vi) and (vii) of subparagraph (C);

"(D) not more than 3 additional points as the Secretary deems appropriate for projects described in subparagraph (D) of paragraph (1); and

"(E) not more than 2 additional points as the Secretary deems appropriate for projects described in subparagraph (E) of paragraph (1).

"(5) The Secretary shall distribute grant funds under this section so that to the extent practicable during each funding cycle—

"(A) two-thirds of the funds are first made available utilizing all of the criteria set forth in paragraph (1); and

"(B) one-third of the funds is then made available solely on the basis of the factors referred to in subparagraphs (C), (D), and (E) of paragraph (1).

"(6) In determining the score to be awarded each of the criteria under subparagraphs (C), (D), and (E) for applications for grants for housing activities, the Secretary shall compare such applications only with other applications for grants for housing activities. For purposes of this subparagraph, an application shall be considered an application for a grant for housing activities if such application proposes that—

"(A) not less than 51 per centum of all funds available for the project shall be used for dwelling units and related facilities; and

"(B) not less than 20 per centum of all funds used for dwelling units and related facilities shall be used for dwelling units to be occupied by persons of low and moderate income.

"(7)(A) For each fiscal year, the Secretary shall hold—

"(i) 3 competitions for grants under paragraph (1) for cities not described in the first sentence of subsection (i) (relating to small cities) and urban counties; and

"(ii) 3 competitions for cities described in the first sentence of subsection (i) (relating to small cities).

"(B) Each competition for grants described in any clause of subparagraph (A) shall be for an amount equal to the sum of—

"(i) approximately one-third of the funds available for such grants for the fiscal year;

"(ii) any funds available for such grants in any previous competition that are not awarded; and

"(iii) any funds available for such grants in any previous competition that are recaptured."

(2) Notwithstanding any provision of section 119 of the Housing and Community Development Act of 1974, for purposes of funding decisions made before February 1, 1986, the Secretary of Housing and Urban Development shall give additional consideration, equal to the points otherwise awarded under clause (C) of paragraph (1) of section 119(d) of the Housing and Community Development Act of 1974, as amended by paragraph (1) of this subsection, in the case of a project to be located in a city or urban county to which no grant under section 119 of such Act was made during the preceding twenty-four month period if such project has met the criteria for preliminary approval in the three consecutive funding cycles immediately preceding the date of enactment of this paragraph.

(3) The provisions of paragraphs (1)(E), (4)(E), and (5) of section 119(d) of the Housing and Community Development Act of 1974, as amended by paragraph (1) of this subsection, and the provisions of paragraph (2) of this subsection shall take effect on the date of enactment of this Act, except that in applying section 119(d)(5)(b) of such Act prior to the issuance of implementing regulations under the second sentence of this paragraph, the Secretary shall exclude those criteria for which regulations are required to be issued. The remainder of the amendments made by paragraph (1) shall take effect upon the issuance of implementing regulations, which the Secretary shall issue not later than four months after the date of enactment of this Act.

(4)(A) Not later than March 15, 1987, the Secretary of Housing and Urban Development shall prepare and submit to the Congress a comprehensive report evaluating the eligibility standards and selection criteria applicable under section 119 of the Housing and Community Development Act of 1974. Such report shall evaluate in detail the standards and criteria specified in such section that measure the level or comparative degree of economic distress of cities and urban counties. Such report shall also evaluate in detail the extent to which the economic and social data utilized by the Secretary in awarding grants under such section is current and accurate, and shall compare the data used by the Secretary with other available data. The Secretary shall make

recommendations to the Congress on whether or not data should be collected by the Federal Government in order to fairly and accurately distribute grants under such section based on the level or comparative degree of economic distress. The Secretary shall also make recommendations on whether or not existing data should be collected more frequently in order to ensure that timely data is used to evaluate grant applications under such section. Such report shall also describe in detail the standard and criteria utilized by the Secretary to evaluate project quality under paragraphs (C), (D), (E) of section 119(d)(1) of such Act.

(B) Not later than the expiration of the three-month period following the date of the final competition for grants for fiscal year 1987 under section 119 of the Housing and Community Development Act of 1974, the Secretary of Housing and Urban Development shall prepare and submit to the Congress a comprehensive report describing the effect of the amendments made by this section on—

(i) the targeting of grant funds to cities and urban counties having the highest level or degrees of economic distress;

(ii) the distribution of grant funds among regions of the United States;

(iii) the number and types of projects receiving grants; and

(iv) the per capita funding levels for each city, urban county, or identifiable community described in section 119(p) of such Act, receiving assistance under that section.

(c) Section 119(f) of the Housing and Community Development Act of 1974 is amended by adding at the end thereof the following: "In any case where the project proposes the repayment to the applicant of the grant funds, such funds shall be made available by the applicant for economic development activities which are or would be eligible activities under this section or section 104. The applicant shall annually provide the Secretary with a statement of the projected receipt and use of repaid grant funds during the next year together with a report acceptable to the Secretary on the use of such funds during the most recent preceding full fiscal year of the applicant."

(d) Section 119(n)(1) of the Housing and Community Development Act of 1974 is amended by adding at the end thereof the following: "Such term also includes the counties of Kauai, Maui, and Hawaii in the State of Hawaii, except that in the case of such counties grants shall be made only to assist projects that, in the determination of the Secretary, are located in and will improve the employment base of urban areas within such counties."

(e) Section 119(r) of the Housing and Community Development Act of 1974 is amended by striking out "among programs" and inserting in lieu thereof "against projects"; and is further amended by striking out "In" and inserting in lieu thereof "Except as provided in subsection (D)(6), in".

(f) On or before July 1, 1987 the Secretary of Housing and Urban Development shall report to the Congress any recommendations as to legislation that may be needed or desirable in the implementation of Section 119(h) of the Housing and Community Development Act of 1974.

## TITLE II—MORTGAGE CREDIT AND MISCELLANEOUS PROVISIONS

### MORTGAGE LIMITS FOR MULTIFAMILY PROJECTS IN HIGH COST AREAS

SEC. 201. Section 207(c)(3), the second proviso of section 213(b)(2), the first proviso of section 220(d)(3)(B)(iii), section 221(d)(3)(ii), section 221(d)(4)(ii), section 231(c)(2) and section 234(e)(3) of the National Housing Act are each amended by striking out "not to exceed 75 per centum" and all that follows through "involved" in such an area" and inserting in lieu thereof the following: "not to exceed 110 percent in any geographical area where the Secretary finds that cost levels so require and by not to exceed 140 percent where the Secretary determines it necessary on a project-by-project basis, but in no case may any such increase exceed 90 percent where the Secretary determines that a mortgage purchased or to be purchased by the Government National Mortgage Association in implementing its special assistance functions under section 305 of this Act (as such section existed immediately before November 30, 1983) is involved". Section 221(d)(4)(ii) of the National Housing Act of 1934 is amended by striking out "\$19,406"; "\$22,028"; "\$26,625"; "\$33,420"; "\$37,870"; "\$20,962"; "\$24,030"; "\$29,220"; "\$37,800"; and "\$41,494" and inserting in lieu thereof, "25,228"; "\$28,636"; "\$34,613"; "\$43,446"; "\$49,231"; "\$27,251"; "\$31,239"; "\$37,986"; "\$49,140" and "\$53,942", respectively.

### GNMA MORTGAGE-BACKED SECURITIES LIMITATIONS

SEC. 202. Section 306(g)(2) of the Federal National Mortgage Association Charter Act is amended by striking out "and 1985" and inserting in lieu thereof "1985, 1986, and 1987".

### FEES AND CHARGES

SEC. 203. (a)(1) No fee, premium or other charge shall be assessed or collected by the United States (including any executive department, agency, or independent establishment thereof) on or with regard to loans, guarantees or insurance provided by the Secretary of Housing and Urban Development unless such fee, premium or other charge is established at no greater than an amount, if any, that reasonably could be expected to compensate the United States with respect to such activities for such actual administrative expenses and anticipated losses on actual experience.

(2) Any fee, premium or other charge in effect as of November 1, 1985, shall be deemed to be in compliance with paragraph (1) of this subsection.

(b) No risk premium or loan fee may be assessed or collected by the Secretary of Housing and Urban Development or any other Federal agency directly or indirectly from the borrower with regard to a loan made by the Secretary under section 312 of the Housing Act of 1964.

(c) No fee, premium or other charge shall be assessed or collected by the United States (including any executive department, agency, or independent establishment thereof) on or with regard to the purchase, acquisition, sale, pledge, issuance, guarantee or redemption of any mortgage, asset, obligation, trust certificate of beneficial interest or other security by the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation, or a Federal Home Loan Bank; *Provided, however*, That nothing herein shall prohibit incidental imposition of any reasonable and appropriate fee or charge pursuant to section 304(c) or

309(g) of the Federal National Mortgage Association Charter Act, section 303(c) of the Federal Home Loan Mortgage Corporation Act, or section 11(i) of the Federal Home Loan Bank Act.

(3)(A) No fee or charge in excess of six basis points (other than fees or charges for the issuance of commitments or miscellaneous administrative fees that do not exceed the level set for such fees by the Government National Mortgage Association as of September 1, 1985) may be assessed or collected by the United States (including any executive department, agency or independent establishment of the United States) on or with regard to any guaranty of the timely payment of principal or interest on trust certificates or securities backed or based on mortgages that are secured by one- to two-family dwellings, and insured by the Federal Housing Administration pursuant to title II of the National Housing Act, or which are insured or guaranteed under the Serviceman's Readjustment Act of 1944 or chapter 37 of title 38 of the United States Code, or title V of the Housing Act of 1949. The fees charged for the guaranty of securities or trust certificates backed or based on all other types of mortgages, as authorized by other provisions of law shall be set by the Government National Mortgage Association at a level adequate to create reserves sufficient to meet anticipated claims based on actuarial analysis, and for no other purpose. The Secretary of Housing and Urban Development shall certify to Congress ninety days prior to any increase in these fees that the fees charged (or the proposed increases) are solely for the purposes specified in the preceding sentence.

(B) Fees or charges for the issuance of commitments or miscellaneous administrative fees shall remain at the level set for such fees as of September 1, 1985. Any increases in these fees shall be reasonably related to the cost of administering the program, and for no other purpose. The Secretary shall certify to Congress ninety days prior to any increase in these fees that the fees charged (or the proposed increases) are solely for the purposes specified in the preceding sentence.

(4) Section 203(c) of the National Housing Act is amended to read as follows:

"(C) The Secretary is authorized to fix premium charges for the insurance of mortgages under the separate sections of this title but in the case of any mortgage such charge shall not be more than 3.8 per centum of the principal obligation of the loan or mortgage involved. The fee charged for the insurance of mortgages under this title shall be set by the Secretary at a level adequate to create reserves sufficient to meet anticipated claims based on actuarial analysis, and for no other purpose, except: that premium charges fixed for insurance (1) under sections 245, 247, 251, 252 or 253 or any other financing mechanism providing alternative methods for repayment of a mortgage that is determined by the Secretary to involve additional risk, or (2) under subsections (n) and (k) are not required to be the same as the premium charges for mortgages insured under the other provisions of this section."

(d) This section shall not be deemed to authorize any fee, premiums or other charge in excess of that allowable under another statute or to authorize any fee, premium or other charge to be imposed that is not authorized under any other statute.

## HOME MORTGAGE DISCLOSURE ACT EXTENSION

SEC. 204. Section 312 of the Home Mortgage Disclosure Act of 1975 is amended by striking out "1987" and inserting in lieu thereof "1989".

### PURCHASE OF SECOND MORTGAGES

SEC. 205. (a) Paragraph (5)(A) of Section 302(b) of the Federal National Mortgage Association Charter Act is amended by deleting the phrase "until October 1, 1987,".

(b) Paragraph (4)(A) of Section 305(a) of the Federal Home Loan Mortgage Corporation Act is amended by deleting the phrase "until October 1, 1987,".

## TITLE III—HOMELESS ASSISTANCE

### DEFINITIONS

SEC. 301. For the purpose of this title—

(1) the term "emergency shelter" means an entire facility, or that part of a facility, which is used or designated to be used to provide temporary housing to not fewer than twenty individuals;

(2) the term "operating costs" means expenses incurred by States, local governments, and private nonprofit organizations operating transitional housing for the homeless with respect to—

(A) the administration, maintenance, minor repairs, and security of such housing;

(B) utilities, fuel, furnishings, and equipment for such housing; residents of such housing; and

(C) the conducting of the assessment of supportive services to residents of such housing; and

(D) the provision of supportive services to the residents of such housing;

(3) the term "private nonprofit organization" means a secular or religious organization described in section 501(c) of the Internal Revenue Code of 1954 which is exempt from taxation under subtitle A of such code, and which has an accounting system and a voluntary board, and practices nondiscrimination in the provision of assistance;

(4) the term "Secretary" means the Secretary of Housing and Urban Development;

(5) the term "State" means any of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, or any territory or possession of the United States;

(6) the term "supportive services" means assistance to the residents of transitional housing in obtaining permanent housing, medical and psychological counseling and supervision, employment counseling, referral to job training, nutritional counseling, and such other services essential for establishing independent living as the Secretary determines to be appropriate. Such term includes the provision of assistance to the residents of transitional housing in obtaining other Federal, State, and local government assistance available for such person, including mental health benefits, employment counseling, referral to job training programs, and medical assistance; and

(7) the term "transitional housing" means a single- or multi-family structure suitable for the provision of housing and supportive services for not more than 15 homeless persons, who cannot presently live independently without supportive services in a supervised residential setting but who are believed capable of transition to independent living with 6 months of assistance in a stable environment.

# PART 1—EMERGENCY FOOD AND SHELTER PROGRAM

## NATIONAL BOARD

SEC. 311. (a) The Director of the Federal Emergency Management Agency shall, as soon as practicable after September 30, 1986, constitute a national board for the purpose of carrying out an emergency food and shelter program.

(b) The national board shall consist of seven members. The United Way of America, the Salvation Army, the National Council of Churches of Christ in the United States of America, the National Conference of Catholic Charities, the Council of Jewish Federations, Incorporated, the American Red Cross, and the Federal Emergency Management Agency shall each designate a representative to sit on the national board.

(c) The representative of the Federal Emergency Management Agency shall chair the national board.

## NATIONAL BOARD TRANSITION

SEC. 312. (a) The national board constituted by the Director of the Federal Emergency Management Agency, pursuant to section 311, shall continue to be authorized until March 30, 1987, and on such date, the personnel, property, records, and undistributed program funds of such national board shall be transferred to the national board constituted under subsection (b).

(b) On or before March 30, 1987, the Secretary of Housing and Urban Development shall constitute a national board for the purpose of carrying out an emergency food and shelter program. This national board shall consist of the same representatives, or their successors, of the same organizations as the national board constituted pursuant to section 311(b), except that the Secretary of Housing and Urban Development shall designate a representative to replace the Federal Emergency Management Agency representative. Such national board shall assume authority on March 30, 1987.

## DISTRIBUTION OF PROGRAM FUNDS

SEC. 313. The national boards constituted pursuant to sections 311 and 312(b) shall determine how program funds are to be distributed to individual localities. The national board shall identify localities having the highest need for emergency food and shelter assistance, based on unemployment and poverty rates and such other need-related data as the national boards deem appropriate, determine the amount and distribution of funds to these localities, and ensure that funds are properly accounted for.

## AGENCY RESPONSIBILITIES

SEC. 314. (a) The Director of the Federal Emergency Management Agency shall award a grant for such amount as Congress appropriates for this program to the national board constituted pursuant to section 311 within thirty days after the beginning of fiscal year 1987, for the purpose of providing emergency food and shelter to needy individuals through private nonprofit organizations and through units of local government.

(b) The Director of the Federal Emergency Management Agency, or his representative, shall have the following responsibilities: provision of guidance, coordination, and staff assistance to the national board in carrying out the program; and cooperation and coordination with the Secretary of Housing and Urban Development in the conducting of an audit of program funds awarded to the national board constituted pursuant to section 311 or transferred to

the national board constituted pursuant to section 312(b). The responsibilities of the Director of the Federal Emergency Management Agency with respect to this program shall end with the completion of the audit for program funds distributed during fiscal year 1987.

(c) The Secretary of Housing and Urban Development shall award a grant for such program to the national board constituted pursuant to section 312(b) within thirty days after the beginning of fiscal years 1988 and 1989, for the purpose of providing emergency food and shelter to needy individuals through private nonprofit organizations and through units of local government.

(d) The Secretary of Housing and Urban Development shall have the following responsibilities: provision of guidance, coordination, and staff assistance to the national board in carrying out the program; and the conducting of an audit of program funds awarded to and transferred to the national boards constituted pursuant to sections 311 and 312(b).

(e)(1) In carrying out the responsibilities under subsection (d), the Secretary shall coordinate activities with the Federal Interagency Task Force on Food and Shelter, chaired by the Secretary of Health and Human Services, to identify vacant and surplus Federal facilities which could be renovated or converted for use as emergency shelter facilities for the homeless.

(2) Not later than three months after the end of fiscal year 1987, the Secretary shall submit to the Congress a report on obstacles, if any, including agency rules or procedures, to the availability of vacant and surplus Federal facilities for renovation or conversion to use as emergency shelter facilities for the homeless, with recommendations for legislative or administrative changes to overcome such obstacles.

## LOCAL BOARDS

SEC. 315. (a) Each locality designated by the national boards constituted pursuant to sections 311 and 312(b) shall constitute a local board for the purpose of determining how program funds allotted to the locality will be distributed. The local board shall consist, to the extent practicable, of representatives of the same organizations as the national boards, except that the mayor or other appropriate heads of government will replace the Federal Emergency Management Agency or Department of Housing and Urban Development member; organizations providing services on a locality wide basis should also be allowed to serve on the local board. The chair of the local board shall be elected by a majority of the members of the local board. Local boards are encouraged to expand participation of other private nonprofit organizations on the local board.

(b) Local boards shall have the following responsibilities: determining which private nonprofit organizations or public organizations of the local government in the individual locality shall receive grants to act as service providers; monitoring recipient service providers for program compliance; reallocation of funds among service providers; ensuring proper reporting; and coordinating with other Federal, State, and local government assistance programs available in the locality.

(c) Prior to March 30, 1987, local boards constituted pursuant to subsection (a) shall be accountable to the national board constituted pursuant to section 311. On and after March 30, 1987, local boards constituted pursuant to subsection (a) shall be account-

able to the national board constituted pursuant to section 311(b).

## LOCAL HOMELESS ASSISTANCE PLAN

SEC. 316. (a) At the end of each fiscal year, each local board shall submit to the national board constituted pursuant to section 312(b), a plan describing programs, goals, and objectives for providing assistance to the homeless in that locality. The plan shall be developed in cooperation with the local government head represented on the local board.

(b) The local plan shall address the following subjects: description of existing shelter, mass feedings, and food bank activities in that locality, including activities not receiving assistance under this subtitle; use and availability of all public and private resources in the locality to assist the homeless; coordination of all public and private services and resources in that locality to assist the homeless; coordination among all shelter providers in the locality to use all available shelter space for the homeless; and preservation of low-income housing in the locality.

(c) The local plan shall be placed on file in the office of the local government head represented on the local board and shall be made available to the public. The local plan shall be forwarded to that individual locality's representatives in Congress. The national board shall maintain files of local plans and make them available upon request to other localities.

(d) The preparation and submission of the local plan shall be regarded as the legal duty of the local board, but failure to do so shall not be grounds for the withholding of funds appropriated under this title from that locality. Any citizen residing in the locality in which such local board is constituted shall have standing in the Federal district court of jurisdiction to seek an order compelling the preparation and submission of the local plans as required by this section. The substance and contents of the local plan shall be within the sole discretion of the local board and shall not be subject to administrative or judicial review.

## SERVICE PROVIDERS

SEC. 317. Designation by the local board of a service provider to receive program funds should be based upon a private nonprofit organization's or unit of local government's ability to deliver emergency food and shelter to needy individuals and such other factors as are deemed appropriate to program objectives by the local board.

## USE OF FUNDS

SEC. 318. (a) The national boards constituted by sections 311 and 312(b) may authorize the following use of funds to address the emergency food and shelter needs of needy individuals:

(1) Expenditures necessary to purchase emergency food and shelter for needy individuals, to supplement and extend currently available resources and not to substitute or reimburse ongoing programs and services; and

(2) expenditures necessary to conduct minimum rehabilitation of existing mass shelter or mass feeding facilities to make facilities safe, sanitary, and bring them into compliance with local building codes.

(b)(1) Local boards are authorized to expend up to 25 percent of the funds allotted to that locality for substantial renovation or conversion, but no acquisition or new construction, of buildings for use as emergency shelter facilities to provide additional

shelter space. Such expenditures shall be made in the form of noninterest bearing advances, repayment of which shall be waived if—

(A) the applicant utilizes the building as an emergency shelter facility for not less than the 10-year period following the completion of such renovation or conversion, or

(B) the Secretary determines that such facility is no longer needed to provide shelter to the homeless and approves use of the building for another charitable purpose for the remainder of such 10-year period. If the recipient of such advance fails to comply with the conditions for such a waiver, the recipient shall repay to the Secretary in cash the full amount of the advance received on such terms as the Secretary shall require. It shall be the responsibility of the local board to obtain documentation, signed by the responsible official, showing that the recipient of such advance is aware of and agrees to the conditions of its receipt.

(2) Local boards are encouraged to provide, to the neighborhood in which a new emergency shelter facility is to be located, adequate notice and an opportunity to comment. Local boards are also encouraged to achieve the widest possible distribution of emergency shelters throughout the locality to avoid a disproportionate burden on any one section or neighborhood of the locality.

#### LIMITATION ON CERTAIN COSTS

SEC. 319. Not more than 3 percent of the total appropriation for this program each year may be expended for the costs of administration.

#### PROGRAM GUIDELINES

SEC. 320. (a) The national boards constituted pursuant to sections 311 and 312(b) shall establish written guidelines for carrying out this program, including methods for identifying localities with the highest need for emergency food and shelter assistance; methods for determining amount and distribution to these localities; eligible program costs, with the aim of providing emergency essential services based on currently existing needs; and responsibilities and reporting requirements of the national boards, local boards, and service providers.

(b) These guidelines shall be published annually, and whenever modified, in the Federal Register. The national boards shall not be subject to the procedural rulemaking requirements of subchapter II of chapter 5 of title 5, United States Code.

(c) Guidelines established by the national board constituted pursuant to section 311 shall continue in effect until modified or revoked by that board or by the national board constituted pursuant to section 312(b).

#### AUTHORIZATION

SEC. 321. (a) To carry out this part, there are authorized to be appropriated such sums as may be approved in an appropriation Act for fiscal year 1987, \$88,000,000 in fiscal year 1988, and \$91,000,000 in fiscal year 1989.

(b) Any appropriated funds not obligated in a fiscal year shall remain available for obligation during the following fiscal year.

#### SURPLUS FOOD DISTRIBUTION

SEC. 322. The Commodity Credit Corporation shall process and distribute surplus commodities acquired by the corporation for the purpose of carrying out the food distribution and emergency shelter program in cooperation with the national boards constituted pursuant to sections 311 and 312(b).

### PART 2—TRANSITION TO INDEPENDENCE DEMONSTRATION PROJECT AUTHORITY TO MAKE GRANTS

SEC. 331. (a) The Secretary of Housing and Urban Development shall make grants to States, local governments, or private nonprofit organizations for the operation of demonstration projects to develop and apply innovative approaches in providing transitional housing and supportive services to the homeless to assist them in the transition to independent living.

(b) Grants under subsection (a) may be made in the form of—

(1) annual payments for operating expenses of transitional housing, not to exceed 75 percent of the annual operating expenses of such housing;

(2) technical assistance in establishing and operating transitional housing and providing supportive services to the residents of such housing to assist them in the transition to independent living; and

(3) a one-time only non-interest bearing advance, not to exceed \$100,000, for the purposes of acquiring, rehabilitating, or acquiring and rehabilitating an existing structure for use in providing transitional housing, if the applicant agrees to utilize such structure as transitional housing for not less than 5 years. Repayments of such advance shall be waived if the applicant utilizes the structure as transitional housing for not less than the 10-year period following the initiation of operation of such transitional housing facility, or if the Secretary determines that such structure is no longer needed for use as transitional housing and approves the use of such structure for another charitable purpose for the remainder of such 10-year period. If the applicant fails to comply with the conditions for waiver of repayment, the applicant shall repay to the Secretary in cash the full amount of the advance received on such terms as the Secretary shall require.

(c) Grants made under this section are to be used to supplement and extend currently available resources and not to substitute or reimburse ongoing programs and services.

#### APPLICATIONS FOR GRANTS

SEC. 332. Each application for a grant submitted by a State, local government, or private nonprofit organization shall contain—

(1) documentary material demonstrating that such applicant has the ability and resources necessary to operate transitional housing;

(2) documentary material describing the program and supportive services intended to be provided in such transitional housing, including the innovative quality of the proposed program;

(3) documentary material demonstrating that the State, local government, or private nonprofit organization involved has provided the emergency food and shelter program local board, constituted pursuant to section 315, if such local board has been constituted in the locality where the proposed transitional housing will be located, an opportunity to comment with respect to this application, and a statement as to whether the local board approves or disapproves of such application and its reasons for any disapproval; and

(4) such other information or material as the Secretary shall establish.

#### ALLOCATION OF GRANTS

SEC. 333. In selecting States, local governments, or private nonprofit organizations

for assistance in providing transitional housing under this title, the Secretary shall consider—

(1) the innovative quality of the proposal to provide transitional housing and supportive services to the homeless to assist them in the transition to independent living;

(2) the ability of the State, local government, or private nonprofit organization to develop and operate transitional housing for homeless persons and to provide supportive services to the residents of such housing;

(3) the need for such transitional housing and supportive services in the locality to be served; and

(4) such other factors as the Secretary determines to be appropriate for purposes of carrying out the demonstration project established in this Act in an effective and efficient manner.

#### PROGRAM REQUIREMENTS

SEC. 334. (a) Each State, local government, or private nonprofit organization receiving assistance under this part shall agree—

(1) to operate transitional housing assisting residents in the transition to independent living and generally limiting the stay of individual residents to not more than six months;

(2) to conduct an assessment of the supportive services required by the residents of such transitional housing to assist them in the transition to independent living;

(3) to employ a full-time residential supervisor with sufficient expertise to provide, or supervise the provision of, supportive services to the residents of such housing;

(4) to keep and make available to the Secretary such records of the expenditure of funds as the Secretary may require by rule; and

(5) to comply with such other terms and conditions as the Secretary may establish for purposes of carrying out the demonstration project established by this part in an effective and efficient manner.

(b) Each homeless individual residing in transitional housing assisted under this part shall pay as rent an amount determined in accordance with the provisions of section 3(a) of the United States Housing Act of 1937.

#### REGULATIONS

SEC. 335. Not later than 120 days following the date of enactment of this Act, the Secretary shall issue such regulations as may be necessary to carry out the provisions of this part.

#### REPORTS TO CONGRESS

SEC. 336. (a) The Secretary shall submit to Congress—

(1) not later than three months after the end of each of the fiscal years 1987 and 1988, an interim report summarizing the activities carried out under this part during such fiscal year and setting forth any preliminary findings, conclusions, or recommendations of the Secretary as a result of such activities; and

(2) not later than six months after the end of fiscal year 1989, a final report summarizing all activities carried out under this part and setting forth any findings, conclusions, or recommendations of the Secretary as a result of such activities.

(b) Such interim and final reports shall address—

(1) the cost of operating transitional housing and providing supportive services to the homeless to assist them in the transition to independent living;

(2) the various types of transitional housing assisted under this part, including innovative approaches to assisting the homeless in the transition to independent living;

(3) the social, financial, and other advantages and disadvantages of transitional housing and supportive services as a means of assisting the homeless;

(4) the success of transitional housing programs assisted under this part, as measured in terms of placement of homeless individuals in permanent housing, placement in employment, and reductions in welfare dependency; and

(5) such other findings, conclusions, and recommendations as the Secretary deems appropriate with regard to assisting the homeless in the transition to independent living.

#### AUTHORIZATION

SEC. 337. To carry out this part, there are authorized to be appropriated such sums as may be approved in an appropriation Act for fiscal year 1987, and \$15,000,000 in each of the fiscal years 1988 and 1989. Any amount appropriated under this section shall remain available until expended.●

By Mr. CHILES:

S. 259. A bill to create a Department of Trade, to promote economic growth and trade expansion, to open foreign markets, to enhance the competitiveness of United States firms, and for other purposes; to the Committee on Governmental Affairs.

#### TRADE EXPANSION ACT

● Mr. CHILES. Mr. President, I am introducing today the Trade Expansion Act of 1987.

We are at an economic turning point in our history. After years of drift and indecision, a new sense is developing in this country that we are sliding behind our world competition. And much of the reason for inertia has been an inability to assert our historic economic power.

Economic power is the ability to deliver a rising standard of living on a sustainable basis. In the modern world, one of the keys to rising standard of living is providing good jobs by producing goods and services for export.

And we have been lagging on that score. Within the last month or so, the administration has taken some belated, piecemeal steps to show the United States has been victimized by foreign trade barriers long enough. But the steps have no pattern, no organized force behind them.

We must do better and that's the reason for the Trade Expansion Act I'm introducing today.

The United States must take practical steps toward a vigorous system of open and fair world trade.

We must not be shy about insisting on the removal of foreign trade barriers to the sale of our goods abroad. But neither should we be shy about facing up to the fact that some of our problems are self-inflicted.

The administration has, in the past, rejected the findings of the International Trade Commission that our

copper and footwear industries have been damaged by foreign trade practices. It did nothing to help our machine tool industry until it was too late.

We have not monitored predatory practices of our competitors, nor have we systematized our approach to making our own laws foster our trade prospects.

It seems to me, Mr. President, that if we can put American astronauts on the Moon's Sea of Tranquility, we ought to be able to put American goods on the Sea of Japan.

One of our most nagging problems in the arena of trade is political. Everytime someone counsels getting this country in shape to compete, someone else is sure to call it protectionism. That's nonsense.

In this country, we believe in equal opportunity. We expect no less in the world marketplace. There is a vast difference between competition and protection.

Protection is negative, passive, a fortress mentality. Competition demands agility, imagination, and activism. We must demand competition, promote exports, and make the most of our opportunities.

Accordingly, the Trade Expansion Act of 1987 would create a cabinet-level Department of Trade in the executive branch. The Trade Secretary would be responsible for developing, coordinating, and implementing trade policy. The Secretary would become the chief advocate for U.S. trade interests.

The new Department would combine the functions of the U.S. Trade Representative with the many trade-related and industrial functions of the Department of Commerce.

The Export-Import Bank, the International Trade Commission, and the Overseas Private Investment Corporation would be transferred to the Department.

The bill would also establish a Trade Committee in the Executive Office of the President comprised of the Secretaries of Trade, Commerce, Agriculture, State, Labor, and Treasury to assist the President in carrying out his functions under the trade laws.

The Trade Expansion Act would require the Secretary of Trade to inventory the effects on American exports of lifting foreign trade barriers. This inventory will serve as a reference point for setting bottom-line access goals to foreign markets. If other nations are unwilling to open their markets in accordance with those goals, the United States will take the action necessary to make up the shortfall by limiting the amount of foreign imports into this country.

The bill would require us to identify and remove our own barriers to trade to show good faith, and keep us from tying our own hands. We have many

government policies in our country that have proven to be barriers to our own producers in the search for foreign markets. We must work to remove those barriers.

The bill directs the Export-Import bank to work with state agencies in the promotion of exports to produce a truly national effort.

It seeks to improve U.S. agricultural trade through export incentive programs, and seek ways to increase the competitive potential of American farmers.

The bill would streamline procedures for American industries damaged by imports. It would also require the Trade Secretary to automatically implement their decisions unless overridden by the President.

The bill also instructs the Secretary of Trade to monitor foreign industries which engage in predatory practices. It would protect the creativity of American intellects by prohibiting trade with foreign firms whose goods are manufactured as a result of the illegal use of U.S. patents. In that sense, it also protects America's investment in research and development.

Beyond these items, the President would be instructed to enter into negotiations to strengthen GATT with regard to services, agricultural trade, technology, and investments.

It would also involve the U.S. Treasury and the Federal Reserve Board in an effort to find ways to ease the international debt crisis.

And at the heart of the bill is the idea of promoting growth and economic power—not just through expanding exports—but through serious work on the problems of deficits and consumption affecting the nations of the world.

We begin this work to invigorate world trade. And we start it because we value the benefits that dynamic and competitive partnership can bring to this Nation and all others who join the effort.

America is a proud and strong country. We have great latent power to shape our own future. We have used it before. We must use it again. And we must use it now.

Mr. President, I ask unanimous consent that a more detailed explanation of the bill be printed at this point in the RECORD.

There being no objection, the summary was ordered to be printed in the RECORD, as follows:

#### THE TRADE EXPANSION ACT OF 1987— SECTION-BY-SECTION SUMMARY

##### TITLE I—CREATING A DEPARTMENT OF TRADE

Creates a cabinet-level Department of Trade in the executive branch to develop, coordinate, and execute trade policy—becoming the chief advocate for U.S. trade interests.

The new Department combines the functions of the U.S. Trade Representative with the many trade-related and industrial functions of the Department of Commerce.

The Export-Import Bank, the International Trade Commission, and the Overseas Private Investment Corporation are transferred to the Department.

Establishes a Trade Committee in the Executive Office of the President comprised of the Secretaries of Trade, Commerce, Agriculture, State, Labor, and Treasury to assist the President in carrying out his functions under the trade laws.

#### TITLE II—OPENING FOREIGN MARKETS

Requires the Secretary of Trade to calculate the potential increase in U.S. exports from lifting foreign trade barriers. These amounts form the basis for export goals and timeliness for countries whose barriers are a significant impediment to U.S. exports.

Sets export goals for Japan leading to a \$10 billion increase in U.S. exports at the end of three years.

Failure to meet the export goals would result in the foreign country being denied access to the U.S. market by the amount of the shortfall from the target.

In initiating Section 301 cases (unfair trade barriers), the Secretary of Trade is instructed to focus not only on the most egregious practices, but to also consider the ability of smaller exporters to pursue their own remedies.

#### TITLE III—SUPPORTING U.S. EXPORT EFFORTS

Establishes a \$300 million "war chest" administered by the Department of Trade to counter mixed credits and other forms of subsidized financing. Prohibits funding of projects that would increase excess supply of goods or commodities in U.S. or global markets.

Requires the Trade Department to identify existing U.S. barriers to U.S. exports and report to Congress on the increased value of exports that could be expected from their removal.

Revises Foreign Corrupt Practices Act by replacing the imprecise "reason to know" standard with a cleaner "knowledge standard". Strengthens enforcement of FCPA by doubling penalties. Requires Secretary of Trade to review impact of FCPA on U.S. exports.

Mandates competitiveness impact statements for major legislative or regulatory initiatives by federal agencies. In addition, the Congressional Budget Office will monitor committee-reported bills to identify those which would have a major impact on the international trade of the United States.

Instructs U.S. directors to multilateral development banks to aid procurement opportunities for U.S. firms.

Directs the Export-Import bank to work with state agencies that promote exports to establish procedures for consultation and coordination of efforts. Assures that these state agencies have ready access to the Trade Department's trade data bank (see Title IX).

Requires diplomatic missions to facilitate U.S. export efforts.

#### TITLE IV—AGRICULTURAL TRADE

Directs the Secretary of Agriculture to conduct research to enhance the competitiveness of U.S. agricultural commodities. Mandates studies of U.S. comparative advantage, new developments in research conducted by foreign countries, and the level of export subsidization by foreign governments.

Authorizes the Secretary of Agriculture to conduct an export quality incentive program using export PIK commodities. The government would provide commodities in exchange for each 1 percent improvement

in grain quality above the standard contract.

Directs the Secretary of Agriculture to issue an annual report summarizing the impact of actions taken by the USTR on U.S. exports of agricultural commodities.

#### TITLE V—RELIEF FROM INJURY CAUSED BY IMPORTS

Streamlines section 201 procedures for industries damaged by imports. Requires the International Trade Commission's recommendation to be automatically implemented unless overridden by the President.

Has section 201 relief accompanied by adjustment measures aimed at restoring the competitiveness of the damaged industry.

Temporary relief under section 201 would be in the form of tariffs or auctioned quotas, so that the "surplus" created by the protection flows to the Treasury rather than foreign producers. Does not include antitrust exemption as a remedy under Section 201.

Monitors impact of imports on technologies, components, and outputs critical to U.S. economic or national security interests.

#### TITLE VI—RESISTING PREDATORY TRADE PRACTICES

Instructs the Trade Department to monitor for foreign industries which engage in predatory competition (such as protecting an industry while building a large export capacity).

The Trade Department would monitor the flow of these industries' products to the U.S. and submit to Congress a report identifying cases of excessive increases in sales.

Requires the Trade Department to monitor the investment in the U.S. by foreign countries engaging in unfair trade practices.

Mandates study of foreign financial and regulatory systems on ability of U.S. businesses to compete in domestic and foreign markets.

Restricts access of foreign nationals and firms from countries which violate U.S. patents to U.S. research and educational facilities.

Adopts language of S. 1543 which strengthens the protection of intellectual property rights by prohibiting foreign firms from selling goods in the U.S. whose manufacture involves the illegal use of U.S. process patents.

Calls for sufficient funding for personnel to vigorously enforce U.S. trade laws.

#### TITLE VII—INTERNATIONAL TRADE NEGOTIATIONS

Instructs the President to enter into international trade negotiations to create or strengthen the GATT articles with regard to trade in services, agricultural trade, technology and related processes, intellectual property rights, investments.

Creates a negotiating objectives revision of GATT procedures to allow unilateral actions to enforce panel recommendations; to enable independent, nongovernment experts to arbitrate disputes; and to develop scientific, market-related estimates of trade potentials from trade concessions. Calls for the strengthening of GATT as an institution through tougher enforcement mechanisms and streamlined procedures.

Calls for international agricultural negotiations to remove unreasonable health and safety standards used as barriers to U.S. agricultural exports, and to establish strict, enforceable definitions of agricultural subsidies.

#### TITLE VIII—INTERNATIONAL DEBT CRISIS

Requires the U.S. Treasury and the Federal Reserve Board, in consultation with the

International Monetary Fund and the World Bank, to report on the options for ameliorating the international debt crisis.

The report will consider the options for debt repayment flexibility conditioned on an increased role for the private sector in the indebted countries, appropriate monetary, fiscal and regulatory policies, movement toward membership in and adherence to the GATT articles.

Calls on industrialized countries which benefit from a U.S. defense presence to play a greater financial role in supporting the international institutions which aid indebted countries.

Instructs the Administration to evaluate the feasibility of selling surplus agricultural and other commodities in exchange for local currencies, goods, or services (countertrade) in indebted countries where hard currency supplies are low.

#### TITLE IX—TRADE INFORMATION

Mandates that the Trade Department develop and maintains a centralized trade data bank with information on foreign economies and market opportunities (including countertrade), foreign business practices, laws and regulations, and information on specific industrial sectors.

Requires gathering and dissemination of trade data on a state-by-state basis, allowing the determination of value-added by a particular state.

Establishes a new service in the Trade Department aimed at meeting the information needs of particular U.S. firms—with the companies sharing the cost.

#### TITLE X—ECONOMIC GROWTH AND TRADE EXPANSION

Instructs the President to negotiate with foreign countries:

to coordinate macroeconomic adjustment, with reductions in the U.S. budget deficit matched by the expansion of foreign economies.

to base their economic growth on a balance of external and domestic demand, recognizing that exclusive reliance on export-led growth creates trade imbalances which increase protectionist pressures and undermine the world trade system.

to work with the United States and international organizations to pursue a pro-growth strategy to resolving the international debt crisis.

#### NEW ELEMENTS TO TRADE EXPANSION ACT OF 1987

(1) Creates a cabinet-level Department of Trade in the executive branch to develop, coordinate, and execute trade policy—becoming the chief advocate for U.S. trade interests.

(2) Establishes bottom-line export goals for Japan leading to a \$10 billion increase in U.S. exports at the end of 3 years. Failure to meet the goals would result in Japanese goods being denied access to the U.S. market by the extent of the shortfall.

(3) Based on numerical calculations of the potential for increased U.S. exports from removal of foreign trade barriers, requires the Trade Department to set bottom-line export goals for at least three countries in the year following enactment.

(4) Prohibits the Export-Import Bank from financing projects that would result in an excess supply of goods or commodities in U.S. or world markets.

(5) Requires the Department of Trade to monitor the impact of imports on technologies, components, or final products critical

to U.S. economic or national security interests.

(6) Requires the Department of Trade to monitor investments in the U.S. by foreign countries engaging in unfair trade practices.

(7) Mandates the study of foreign financial and regulatory systems (including anti-trust) on ability of U.S. businesses to compete in domestic and foreign markets.

(8) Allows restriction of access of foreign nationals and firms from countries which violate U.S. patents to U.S. research and educational facilities.

(9) Creates GATT negotiating objectives which allow: unilateral actions to enforce panel recommendations; creation of panels of independent, nongovernmental experts to arbitrate trade disputes; development of scientific, market-related estimates of trade potentials from tariff and other concessions.

(10) Calls for international agricultural negotiations to remove unreasonable foreign health and safety standards which impede U.S. exports, and to establish strict, enforceable definitions of agricultural subsidies.

(11) Expands data bank of Department of Trade to include information on opportunities for countertrade (barter) both by official and private parties.

(12) Requires gathering of trade data on a state-by-state basis, allowing the determination of value-added of a particular state.●

By Mr. THURMOND (for himself, Mr. CHILES, Mr. HATCH, Mr. TRIBLE, Mr. D'AMATO, Mr. HELMS, Mr. WILSON, Mr. GRASSLEY, and Mr. DECONCINI):

S. 260. A bill to reform procedures for collateral review of criminal judgments, and for other purposes; to the Committee on the Judiciary.

#### REFORM OF HABEAS CORPUS PROCEDURES

● Mr. CHILES. Mr. President, I am pleased to join the distinguished Senator from South Carolina, Senator THURMOND, in introducing a bill to reform procedures for collateral review of criminal judgments. This bill amends the statute governing the writ of habeas corpus used by State and Federal prisoners to challenge a court criminal conviction on constitutional grounds. The purpose of this bill is to cure the current flagrant abuse of the writ, which in many cases is used to subvert a State court's conviction or delay the imposition of a sentence. This abuse clogs the courts with frivolous claims that have oftentimes already been litigated in the State courts and potentially overshadow those claims that are meritorious. This legislation is a modified version of habeas corpus reform legislation which I coauthored in 1981 and have cosponsored in every Congress since then. While the Senate passed this legislation in 1984, the House of Representatives' version was never acted upon. I believe that the time is ripe to enact legislation to correct the current abuse of the writ.

The right to challenge one's incarceration by use of petition for habeas corpus is grounded in our Constitution. However, the current statutory

framework providing guidelines for use of the writ allows for much abuse. According to the Florida attorney general's office, studies indicate abuse of the writ may take several forms. The most frequently cited form of abuse is when prisoners bring petitions many years after conviction. Other prisoners choose to raise new issues or allege different facts which could have been presented at the State court trial or on direct appeal. The potential result is a neverending cycle of appeals. The legislation we introduce today forestalls the use of these tactics and instills the notion of finality of judgment into our State criminal justice systems.

Support for habeas corpus reform is widespread. It is endorsed by members of the Federal bench, the U.S. Department of Justice, and the National Association of Attorneys General. In speaking before the American Bar Association, Chief Justice Burger stressed the need for finality of judgment in our criminal justice system as a means of deterrence to crime. The current machinery robs the system of justice of finality or certainty. The Supreme Court has also signaled the need for reform. In its last term, the decisions interpreting the scope of habeas review evidence a move in the direction sought by the legislation we propose. As a further comment on the present system, one noted authority describes State prisoners' use of the habeas petition as a form of occupational therapy.

Specific examples of abuse abound in my own State of Florida. In 1960, Floyd Halzapfel plead guilty to the first degree murders of a Florida circuit judge and his wife. Halzapfel told the State trial court his plea was free and voluntary and he understood the consequences of his plea. In 1969, he sought in State court to vacate the judgment and sentence he received claiming, among other things, his plea was involuntary, and he was not informed of his right to appeal. After a full evidentiary hearing on these issues, the State court denied the prisoner's motion. The denial was affirmed by the appellate court.

Over 9 years later, in 1978, Halzapfel filed a second motion to vacate in State court. He raised the same issues he had raised in 1969, and added a new charge—that his court appointed counsel had been ineffective. An additional hearing was held on the new claim in 1979. Based on the findings of that hearing and the 1969 hearing, the State court denied the second motion to vacate. In 1980, the State appellate court affirmed the lower court's denial.

In 1981, 21 years after his original conviction, Halzapfel filed a petition for habeas corpus relief in a Federal district court. In bringing this suit, he combined the claims already litigated in State court 12 years earlier with the

claims he had litigated 3 years earlier. Clearly, his delay in bringing this suit imposed a great burden on the State's case, since two key witnesses, attorneys, had died prior to the Federal appeal. Both attorneys could testify concerning the voluntariness of the prisoner's confession. Halzapfel should have raised these issues in the original State proceedings when the facts, witnesses, and evidence were readily available and when the State court could correct any recognized errors.

Perhaps the premier beneficiary of our system's lack of finality is another Florida prisoner, Willie Darden, whom Justice Burger has described as the recipient of review "by 95 judges over 13 years." Darden, who was originally convicted in 1976 and sentenced to death in 1979 continues to make appeals, and is a classic example of a prisoner who has taken undue advantage of the availability of Federal review of State court proceedings.

The current system operates in such a way as to suggest that a prisoner, duly convicted in a "full and fair" State proceeding, can challenge that conviction time and time again, for years or even decades after his State court conviction became final. This system results in an erosion of public confidence in the criminal justice system. It undermines the notion of finality of judgment. Habeas cases relitigate the same facts and issues that were decided in the State courts, either at trial or on direct appeal. Moreover, Federal review of issues that have already been "fully and fairly" adjudicated in State court proceedings give rise to a presumption of inadequacy to State court proceedings. This has caused a great deal of friction between the State and Federal courts. Furthermore, the sheer volume of petitions filed is a strain on the resources of our courts. To the extent that our prosecutors, defense attorneys and judges devote their time and effort to reviewing and processing these petitions, we dilute the resources of the courts, and ironically actually hurt those who have valid habeas claims.

There are five major components of the bill which would amend the current statutory scheme relating to habeas corpus appeals by State prisoners. The first provision relates to the degree of deference accorded by a Federal habeas court to State court adjudication of legal issues that have been "fully and fairly" adjudicated. Under current law, a Federal habeas court is automatically required to make its own determination of legal issues regardless of how "fully and fairly" adjudicated in State court proceedings. Rather than making an automatic de novo review of legal issues mandatory, our proposal would impose a limited standard of review which would condition the granting of relief on the pri-

sioner's demonstrating that the State process was inadequate does not meet the "full and fair" standard and that he or she deserves a new hearing, the prisoner must demonstrate that a minimum standard of reasonableness is not met by the State court, or that the State adjudication was not conducted in accordance with Federal rights that are embodied in the notion of due process and equal protection. Readjudication would also be allowed if new evidence of substantial importance to the decision is produced which could not have been obtained through the exercise of reasonable diligence.

Review under this provision assumes that the claim presented was decided on the merits in State court proceedings. If not, the propriety of considering this claim would fall under another provision governing access to Federal habeas corpus.

Our proposal modifies current law regarding the standard of review for State findings of fact similar to standard of review for State court determinations of legal issues. This bill prohibits any redetermination of facts unless the habeas petitioner can establish that a specified defect existed in the State proceeding. It also tightens up the conditions themselves to ensure that needless redetermination of facts does not occur.

Another provision sets a uniform standard for review by a Federal habeas court when ruling on a prisoner's failure to raise a constitutional issue in accordance with State procedures. The intent behind this provision is to accord due deference to State procedures. More specifically, this provision codifies the "cause and prejudice" standard articulated in *Wainwright versus Sykes* in cases where there is a State procedural default. In order to obtain relief in a procedural default context, a prisoner must establish that actual prejudice resulted from the alleged denial of the right asserted and that the prisoner's failure to raise the claim is excused because it was a result of State action, or that the right asserted was newly recognized by the Supreme Court, or that the factual predicate of the claim could not have been discovered through the exercise of reasonable diligence prior to the default.

Another proposal in this bill creates a statute of limitations of 1 year for filing habeas petitions for State prisoners, running from the time that State remedies are exhausted. This assures that habeas claims are filed and considered while the evidence is still readily accessible and is designed to remedy cases such as the example regarding the case of Halzapfel mentioned earlier. There are exceptions to this general rule in cases where State action prevented the prisoner from filing a habeas petition, or the petitioner is asserting newly recognized

rights, or where the factual predicate of the claim could not have been discovered earlier through the exercise of reasonable diligence.

Mr. President, I think this bill will infuse the present system of filing habeas petitions with a measure of finality and certainty. I believe it will go a long way toward eliminating the filing of claims that are without merit or frivolous while guaranteeing those individuals with legitimate habeas petitions review in Federal court. I am pleased to join with Senator THURMOND in his efforts to secure this long overdue remedy.●

By Mr. MATSUNAGA (for himself, Mr. CRANSTON, and Mr. WILSON):

S. 261. A bill to authorize the establishment of a Peace Garden on a site to be selected by the Secretary of the Interior; to the Committee on Energy and Natural Resources.

#### ESTABLISHMENT OF PEACE GARDEN

● Mr. MATSUNAGA. Mr. President, I am introducing today, with the co-sponsorship of Senators CRANSTON and WILSON of California, a bill to authorize the establishment of a Peace Garden in the Nation's Capital. Our Senate bill is identical to the House bill introduced in the 99th Congress by a Congressman GEORGE MILLER of California, and passed by the House in the closing days of the last Congress. Under its provisions, a new garden, dedicated to the ideal of peace, would be established in the District of Columbia on a site selected by the Secretary of the Interior, subject to the approval of the Commission on Fine Arts and the National Capital Planning Commission.

The garden would be designed and constructed by the Peace Garden Project, Inc., a nonprofit corporation chartered in the State of California. This organization will undertake to raise private funds for the design, construction and maintenance of the Peace Garden, so that the garden will not cost the taxpayers of this Nation 1 penny.

Mr. President, in a city filled with memorials to the great patriots who have died to protect freedom and our democratic way of life, it seems to me to be entirely appropriate that we should have a garden dedicated to the ideal of peace—a place of serenity and beauty for contemplation and meditation on the attainment of mankind's highest, yet most elusive goal. I urge the early consideration of this bill.

Mr. President, I ask unanimous consent that the text of the bill be printed at this point in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 261

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. ESTABLISHMENT OF PEACE GARDEN.

The Secretary of the Interior, acting through the Director of the National Park Service is authorized to enter into an agreement with the Peace Garden Project, Incorporated (a nonprofit corporation organized under the laws of the State of California) pursuant to which the Peace Garden Project, Incorporated may construct a garden to be known as the "Peace Garden" on a site on Federal land in the District of Columbia to honor the commitment of the people of the United States to world peace. The site for the Peace Garden shall be selected by the Secretary of the Interior, subject to the approval of the Commission of Fine Arts and the National Capital Planning Commission.

#### SEC. 2. PROCEDURES AND DOCUMENTATION.

(a) PROCEDURES.—The site selection, design and construction of the Peace Garden shall comply with all procedures, rules, policies, and provisions of law applicable to the establishment of commemorative works on Federal land in the District of Columbia.

(b) DOCUMENTATION.—The agreement under section 1 shall require that the Peace Garden Project, Incorporated provide complete documentation of the design and construction of the Peace Garden to the Director of the National Park Service. Such documentation shall be permanently maintained.

#### SEC. 3. PREPARATION AND APPROVAL OF DESIGN PLANS.

The agreement under section 1 shall require the Peace Garden Project, Incorporated to be responsible for the preparation of the design plans for the Peace Garden. Such plans shall be subject to the approval of the Secretary of the Interior, the Commission of Fine Arts, and the National Capital Planning Commission.

#### SEC. 4. APPROVAL FOR COMMENCEMENT OF CONSTRUCTION

The Peace Garden Project, Incorporated may not commence construction of the Peace Garden until both of the following conditions have been met:

(1) The Secretary of the Interior has determined that the full amount of funds estimated to be necessary for the completion of such construction in accordance with the design plans approved under section 3 are available from non-Federal sources.

(2) An additional amount equal to 10 percent of the estimated construction cost has been made available from non-Federal sources to the Secretary of the Interior to provide for maintenance of the Peace Garden.

#### SEC. 5. MAINTENANCE.

The Secretary of the Interior shall, upon the completion of the construction of the Peace Garden, maintain the garden. Notwithstanding any other provision of law, the Secretary may retain and use for such purpose the monies made available under paragraph (2) of section 4.

#### SEC. 6. PAYMENT OF EXPENSES.

The United States may not pay any expense of the construction of the Peace Garden except that technical advice may be provided by the Secretary of the Interior as he deems necessary.

#### SEC. 7. EXPIRATION OF AUTHORITY.

The authority to establish the Peace Garden under this Act shall expire at the

end of the 5-year period beginning on the date of enactment of this Act, unless construction of such garden begins during such period.

By Mr. FORD:

S. 262. A bill for the relief of land grantors in Henderson, Union, and Webster Counties, to the United States, and their heirs; to the Committee on the Judiciary.

#### RELIEF OF KENTUCKY LAND GRANTORS

● Mr. FORD. Mr. President, today I am reintroducing a bill and a resolution which would grant private relief which seeks compensation for the oil, gas, and mineral rights for which the owners of land condemned in 1942 for Camp Breckinridge were never paid. The companion resolution would refer the entire matter to the Commissioners of the Court of Claims for fact finding and their report.

These pieces of legislation which determine the legal and moral responsibility of the Government to a group of Kentuckians who sold land to our Government in good faith and have now discovered that their faith was misplaced. We in Congress are increasingly called upon to respond to our constituents' waning confidence in our Government. Passage of this legislation by the Senate would be a positive step toward bridging the credibility gap. In simple terms, this bill seeks compensation for land condemned by the United States so that Camp Breckinridge could be established, land for which many families were paid less than \$100 per acre.

Camp Breckinridge consisted of some 36,000 acres in a rural farming section of Henderson, Union, and Webster Counties, KY. The land was condemned in 1942 and used for a military training camp during World War II and the Korean conflict. With the declaration of war on the Axis powers, the United States was involved in a war of new, and at the time, unknown dimensions. The need for immediate action by the United States in Europe and the Pacific was desperate and properly trained troops were needed without delay. Hence, getting the camp in working order in the shortest possible time became the Government's objective.

To some extent, this necessity for quick action explains the callous attitude displayed by the Government and the cavalier manner in which the 1,500 families who stood between the Government and an operating training camp were treated. It is an explanation but not an excuse. Some residents were ordered to evacuate in 2 or 3 weeks time. Some notices of eviction were tacked on porch columns to avoid the problem of facing the owners. The appraisers were equally pressed for time. Farms were appraised, not by walking the metes and bounds, but by viewing the property from a car parked in a driveway. There are other

accounts which have grown more bitter with the passage of time.

Similar stories are not uncommon in condemnation situations. In most cases condemnation is simply a very unpleasant experience. No one, regardless of their patriotism, likes to have his property taken. An understanding of the necessity of private sacrifice for the public good rarely makes the situation more palatable. The constitutional guarantee that no property will be taken without just compensation is the only factor in the whole equation designed to relieve the anguish of those forced to leave their homes and farms for the public good.

However, in this situation, there was not just compensation as required by the fifth amendment of the U.S. Constitution. This may seem unlikely when the various court battles fought by the former owners of the camp are considered, but through a combination of factors, the Government managed to acquire this property at an unreasonably low price. The Government's negotiators who handled the purchase of the camp property were instructed to obtain the property at the best price for the Government. This was an admirable instruction. However, in their zeal to carry it out, the negotiators seem to have forgotten the constitutional stricture placed upon their actions, namely, that the compensation must be just.

The land involved was fertile farmland with the necessary accoutrements for housing 1,500 families and producing a living for them by farming. Also there had been coal mining activity in the area for years. Oil wells were in existence at the time on some of the property in question. There were oil leases outstanding on approximately 70 percent of the property.

Despite this, the Corps of Engineers publicly stated that the oil and gas leases were "of nuisance value only" and subtracted the meager amounts paid for the leases from the valuation of the properties. This completely ignored the very real possibility of substantial continued income to owners of property on which wells might in the future be located. In the end, many of the property owners received less for their land than they had invested to make it productive and nothing for the future value of their oil leases.

The obvious question in response to this information is, "Why didn't the owners fight the condemnation appraisals in court?" There are several answers to that question, some of which reflect very badly on the good faith of the U.S. Government. The major reason involved the Surplus Property Acts of 1939 and 1944. These laws provided a third priority repurchase right for the owners of property condemned by the United States which later became surplus.

This priority followed a first priority for other Federal agencies and a second priority for State and local governments since it is obviously better to fill governmental property needs with Government property than to visit the trauma of condemnation on a new set of property owners. When this repurchase privilege was provided by Congress, it was expressly created on a temporary basis, each of the laws expiring by its own terms at the end of 5 years unless it were extended by an act of Congress. Hence, the repurchase priority which did exist was anything but a guarantee that the property would be returned to the former owners.

This was not the story told the owners by the governmental negotiators. The property owners were told they would be able to repurchase their property at the end of the war. There was no mention of only a third priority or that it was effective only if the property were declared surplus and refused by other Government agencies.

Furthermore, the owners were strongly encouraged not to contest the Government appraisals of their property because that appraised value would be the price they would pay when they would be allowed to repurchase the property after the war. This can be characterized as intentional misrepresentation or, as some have implied, fraud.

It is generally assumed that our legal system provides remedies for such wrongs. In this situation, the law was all on the Government's side. In all of the documents prepared by the Government, the owners conveyed a fee simple absolute to the United States. Having conveyed everything to the Government, the former owners had no rights left.

These written documents could not be disputed by oral evidence and the Government had never made any of its promises in writing. The case of *Harrison v. Phillips*, 282 F.2d 927 (5th Cir. 1960) highlights the legal cul-de-sac faced by the former owners. The plaintiff, Harrison, based his case on statements by Coast Guard officials who condemned his property in Texas, which was identical to those made by the negotiators in Kentucky. Even though such representations were made, the Government

... would not be bound by any representations made by ... its negotiators since they did not have authority to bind the United States to reconvey the property on a priority basis ... Any statements made by the negotiators were clearly beyond the scope of their authority and not binding upon the government (*Harrison*, at p. 208).

There were other more basic reasons why many of the owners did not contest their appraisals. They were told that they would receive their compensation immediately if they did not contest. For those who followed this

advice, the payment was often a year away. For those who chose to contest, the last suits were not completed until after the war had been over for 2 years.

In retrospect, all of this may seem inconsequential or simply water under the bridge, but think for a moment of the difficulties of moving a farming operation to new land when one-quarter of the land in the county in question has just been removed from the market and prices have risen accordingly for remaining land, when no compensation has yet been received, and when the completely disrupted farming operation is the only source of income. The thought is not pleasant. In this situation, many simply could not afford to contest the appraisals.

The hardships and indignities of the move were endured with a mixture of bitterness, patriotism, and faith that the separation from land and home would not be a long one. During the Korean conflict, the camp was used again by the military but it was not until 1962 that it was finally declared surplus Government property. It seemed that the hopes of the owners would at last be fulfilled. However, injustice was to win in the end. In 1949, the third repurchase priority of the Surplus Property Act of 1944 expired. No notice of this event had been given to any of the former owners although they had been in continuous contact with the Government concerning the property. Further offense had been given the owners in 1957 when the Government leased two tracts of the property for productive oil wells.

In 1962, when it was learned that the camp was to be sold, the former owners sought to exercise their promised repurchase priority only to learn that the land was to be sold at public auction and that the supposedly worthless oil, gas, and mineral right were to be auctioned separately in seven tracts. These proposed actions were fought through the Federal court system concluding with the denial of certiorari by the Supreme Court. Thus, the former land owners lost their legal efforts to repurchase their property in 1968.

The last of the Camp Breckinridge property was sold in 1969. The dollar figures for this whole transaction are astounding. The owners of the property received \$3,100,000 for the 36,000 acres of land, housing for 1,500 families, and the fencing and buildings necessary to farm this amount of land. When the Government sold the land, oil, and coal rights in the 1960's, it received approximately \$40 million in return. Thus, the U.S. Government held property for 10 years after its last public use and made a \$37 million profit with the help of broken promises. While I admire the ability to make a profit fairly, the Government

of this country should not be in the business of making a profit by breaking its promises, legally authorized or not, and doing so at the expense of the individual citizens of this Nation.

As we have noted, the owners of Camp Breckinridge land fought their case to the highest court in the land. The sixth circuit court of appeals held against the owners, asserting that their interest in the land began only after its oil resources were discovered. These resources have never been the sole interest of those who owned the land on which the camp was built, but even if they were, these resources were well known long before the condemnation by the Government, contrary to the assertions of the court of appeals. Furthermore, the Government considered these leases of sufficient value to bring separate condemnation proceedings to obtain them, after the war was over.

At the time of the initial condemnation proceedings, the Corps of Engineers estimated that there were oil exploration leases outstanding on 65 to 70 percent of the land. Under these leases, small amounts ranging from \$1 to \$5 per acre were paid for explanation rights and the owners retained a one-eighth overriding royalty on all oil production. To date, in excess of 60 million dollars worth of oil has been extracted from the Camp Breckinridge land. The wells are still pumping on this land where the Corps of Engineers said that the oil leases were of simply nuisance value. This is the same land to which the Government sold oil and coal rights in 1965 for \$32 million.

I do not find the continued interest of the former owners at all out of place. Nor do I find it greedy or unpatriotic. In fact, I find it quite admirable that this group has refused to be completely defeated by the numerous setbacks and injustices through which they have suffered and have once again sought relief from the Congress, the arbiter of last resort.

To aid their cause, I am introducing a private relief bill seeking compensation in the amount of \$32 million, the amount for which the Government sold the oil, gas, and mineral rights it acquired for free.

Along with this bill, I am also introducing a Senate resolution seeking to refer this matter to the Commissioners of the Court of Claims for a thorough and objective review of the situation and a recommendation as to the amount to which the former owners are "equitably due" from the United States.

I firmly believe that the circumstances surrounding the creation of Camp Breckinridge and subsequent Government action should be given a full hearing. This hearing should go to the heart of the injustice done the former owners and consider all evi-

dence presented rather than revolving around the principles of agency and being inhibited by such legalities as the parole evidence rule.

These are obviously very important parts of our legal system but they should never be used to insulate from exposure Government conduct that some might describe as fraudulent. It is for situations such as this that private relief and congressional reference procedures have been developed over the years. They are only applicable when there is no other remedy.

Cases such as this one, when sent to the Commissioners of the Court of Claims by congressional reference, are judged by the standard of the Government's "broad moral responsibility," *Sherman Webb et al. v. United States*, 192 Ct. Cl., 925 (1970), and the pleas are addressed to the conscience of the sovereign. We should never be hesitant to subject the actions of the Government to review before such a standard. The amount of money potentially involved should not frighten us away from action but should make us more determined to give the former owners an opportunity to obtain justice.

Furthermore, we should neither rely on the absence of precedent for cases of this size nor refrain from acting for fear that we will establish a precedent for the future. Rather, we should be eager to establish a precedent for redress any time the Government of the United States has perpetrated injustice upon its citizens.

The action of this Chamber on the resolution I am submitting today will be but the first step toward such redress. Upon referral to the Commissioners of the Court of Claims, they will report to us on their findings. Upon receipt of their report, the Senate and House will be called on to make a final decision. I feel very strongly about this issue. I urge my colleagues to support this effort. While I realize that I have set a goal which will be difficult to achieve, I also realize that the former owners have been fighting this battle for over 30 years.

We pride ourselves for standing tall in the name of justice. What justice is there in a government that does not keep its promise? These people gave up good agricultural acreage, the potential for oil and mineral rights, homesteads that had been passed from generation to generation. They trusted the Government representatives who told them they would have the chance to buy back their land after the war. Unfortunately, this did not prove to be true.

Now, four decades later my constituents are looking to this body to right this wrong, to give them just compensation for land that, had not World War II intervened, would be a viable

part of the economy of Kentucky and the Nation in 1987.

Mr. President, I, in introducing this bill, call on my Senate colleagues to join in passing a piece of legislation that will renew the confidence of a group of patriotic citizens who have felt the sting of injustice.●

By Mr. HUMPHREY:

S. 263. A bill to amend the Tennessee Valley Authority Act; to the Committee on Environment and Public Works.

#### TENNESSEE VALLEY AUTHORITY ACT

● Mr. HUMPHREY. Mr. President, today I am introducing legislation that proposes a number of long-overdue reforms at the Tennessee Valley Authority [TVA].

During the 98th and 99th Congresses, it was my privilege to serve as chairman of the Subcommittee on Regional and Community Development which had oversight responsibilities for TVA. During that time, I became familiar with the agency, its history, its mission and the challenges which it now faces.

When the original Tennessee Valley Authority Act was signed into law in 1933, the intent was to lift the seven-State Tennessee Valley Region out of economic depression. More than 50 years later, TVA remains, operating the Nation's largest electric utility as well as regional and community development programs.

Mr. President, whatever successes lie in TVA's past, they are greatly overshadowed by an enormous crisis facing the agency now. TVA's multibillion-dollar nuclear program, financed through the Federal Government, has been shaken by safety-related concerns. For well over a year, the agency's operating reactors have been shut down, and construction on four other reactors has been halted.

It has long been my view that what lies at the root of the present crisis facing the Tennessee Valley Authority is a systemic problem arising from very serious flaws in the enacting legislation. Indeed, as testimony before the subcommittee suggested, the agency has frequently found itself in trouble over the years and, I believe, those troubles can be traced to these same fundamental problems.

Because of a variety of odd institutional arrangements incorporated into the act, TVA is effectively shielded from direct accountability to the Congress, to the executive, to the marketplace and, least of all, to the 7 million people it is supposed to serve. For example, because of TVA's access to the Federal Financing Bank—an entity of the U.S. Treasury—it is able to borrow virtually as much money as it needs whenever it needs it without any oversight at all from the executive or the Congress. Needless to say, a tidy arrangement—unless of course, you are a

ratepayer who is stuck holding the bag for \$1 billion investment that should never have been made.

My bill proposes eight reforms that would open small, but very important, windows of accountability at TVA:

First, reduce terms of members of TVA Board of Directors: Presently, the three members of the Board of Directors serve for a term of 9 years. This bill proposes to reduce the term of Directors to 3 years. Reducing the length of the terms of members of the Board will significantly increase accountability at TVA. Under this plan, a new Board member would have to be nominated by the President, and confirmed by the Senate every year. Because the nomination process offers the Congress one of the few opportunities to effect policy at TVA, this change will increase Congress' ability to speak to problems at TVA on a regular basis.

Second, limit number of terms a Board member can serve to two: Presently, members of the Board of Directors can serve an unlimited number of 9-year terms. This has the potential to lead to even more removed accountability. With the reduction of length of terms to 3 years, it will be particularly important that no member would be able to serve more than two terms or 6 years.

Third, reduce TVA's bond ceiling to \$18 billion: Under present law, the TVA bond ceiling is \$30 billion. To date, the Agency has borrowed about \$16 billion from the Federal Government. The Agency has made plans to repay only a small portion of that amount. The present debt ceiling will enable the Agency to continue borrowing heavily, and thus accumulating even more debt, for many years to come. The effect of reducing the bond ceiling to \$18 billion would be to require TVA to come before Congress to request an increase before it could embark on any major new construction program.

Fourth, restrict TVA's access to the Federal Financing Bank: By forcing TVA to borrow exclusively from the private sector, the agency will be subjected to the same scrutiny by the investment community as other utilities in the Nation. TVA's unrestrained access to FFB funds may have led to unwise investment decisions that may not have withstood careful analysis by outside investors.

Fifth, require TVA to repay outstanding debt owed to the Federal Government: At present, TVA owes more than \$14 billion in obligations to the U.S. Treasury. By requiring TVA to repay the debt, the American taxpayer will be guaranteed that the investment in TVA will be recouped.

Sixth, codify office of inspector general: in January 1986, the TVA Board wisely established an office of inspector general. However, the TVA inspec-

tor general is outside the inspector general system established for Government agencies by the Inspector General Act of 1978. This provision would simply establish the office of inspector general under the terms of the Inspector General Act.

Seventh, mandate that TVA power decisions be subject to regulatory review: State utility boards would have the power to review all utility-related decisions made by the TVA Board of Directors.

Eighth, remove TVA's self-authorizing powers: by removing TVA's present exemption from the authorization process, TVA programs will be subject to the same scrutiny by the authorizing committees of the Congress as other agencies of the Federal Government.

Mr. President, I believe strongly that until reforms such as these are enacted, TVA will likely continue to face difficult times. No agency of the Government should be above basic principles of accountability.

Until these reforms are enacted, the citizens of the Tennessee Valley may legitimately ask who may be held accountable for the costly mistakes which have been made. Today, unfortunately, the answer is no one. They had no direct voice in the selection of the Board of Directors, the individuals who made the key decisions, and there is no formal means for the public to seek their removal. They had no voice in any regulatory proceeding, because there were none. They had no direct means to effect the decisions of the Board members. Even their directly elected Members of Congress can have no voice in the decisions which the Agency makes since it is exempt from the congressional authorization process. And, through the relationship with the Federal Financing Bank [FFB], TVA has effectively cut itself off from the discipline of the private marketplace.

It is this wall of unaccountability which my bill seeks to begin to break down. Each of the provisions which I have described will create a new window of citizen, congressional, and marketplace accountability for the Agency.

Mr. President, I believe that had these reforms been enacted years ago, the Tennessee Valley Authority would be a far healthier agency than it is today. Interestingly, however, TVA's strongest supporters, both inside the Congress and out, are loathe to opening the TVA Act for any reason. They fear destroying the special nature of the Agency. Ironically, their reluctance to examine critically TVA may devastate the very thing they are trying to save.

I ask unanimous consent that a copy of my bill be reprinted in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

**S. 263**

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. SHORT TITLE.**

This Act may be cited as the "Tennessee Valley Authority Fiscal Responsibility and Accountability Act of 1987".

**SEC. 2. BOARD OF DIRECTOR ACCOUNTABILITY.**

(a) **LENGTH OF TERMS.**—Subsection (b) of section 2 of the Tennessee Valley Authority Act of 1933 (16 U.S.C. 831a(b)) is amended by—

(1) inserting "(1)" after "(b)"; and  
(2) striking out the second sentence and inserting in lieu thereof the following:

"(2) Members of the board appointed after the date of enactment of the Tennessee Valley Authority Fiscal Responsibility and Accountability Act of 1987 shall be appointed as follows:

"(A) the successor to the first member whose term expires after such date shall be appointed for 1 year;

"(B) the successor to the second member whose term expires after such date shall be appointed for two years; and

"(C) the successor to the third member whose term expires after such date shall be appointed for three years. Any member of the board appointed after the member appointed under the provisions of clause (C) shall serve for a term of three years."

(b) **LIMIT OF TERMS.**—Subsection (b) of section 2 of the Tennessee Valley Authority Act of 1933 (as amended by subsection (a) of this section) is further amended by adding at the end thereof the following:

"(3) Any member of the board appointed after the date of enactment of the Tennessee Valley Authority Fiscal Responsibility and Accountability Act of 1987 shall serve no more than two terms."

**SEC. 3. REDUCTION OF BOND CEILING.**

The first sentence of subsection (a) of section 15d. of the Tennessee Valley Authority Act of 1933 (16 U.S.C. 831n-4(a)) is amended by striking out "\$30,000,000,000" and inserting in lieu thereof "\$18,000,000,000".

**SEC. 4. TENNESSEE VALLEY AUTHORITY BORROWING FROM PRIVATE MARKETPLACE ONLY.**

Section 15d. of the Tennessee Valley Authority Act of 1933 (16 U.S.C. 831n-4) is amended by adding at the end thereof the following new subsection:

"(i) Notwithstanding any other provision of this Act, obligations issued or guaranteed by the Corporation may not after the date of enactment of the Tennessee Valley Authority Fiscal Responsibility and Accountability Act of 1987 be purchased by the Federal Financing Bank."

**SEC. 5. PAYMENT OF BONDS ON A TIMELY BASIS.**

The first sentence of the fourth undesignated paragraph of subsection (a) of section 15d. of the Tennessee Valley Authority Act of 1933 (16 U.S.C. 821n-4(a)) is amended by striking out the period at the end thereof and inserting in lieu thereof the following: "and shall be paid on a timely basis."

**SEC. 6. PERMANENT INSPECTOR GENERAL FOR TENNESSEE VALLEY AUTHORITY.**

(a) **AMENDMENT TO SECTION 2.**—Clause (1) of section 2 of the Inspector General Act of 1978 (5 U.S.C. App. 3) is amended by inserting before "and the Department of State" the following: ", the Tennessee Valley Authority".

(b) **AMENDMENT TO SECTION 11.**—Section 11 of the Inspector General Act of 1978 is amended—

(1) in clause (1) by inserting after "Transportation" the following: ", the Board of Directors of the Tennessee Valley Authority"; and

(2) in clause (2) by inserting after "the Small Business Administration," the following: "the Tennessee Valley Authority."

**SEC. 7. TENNESSEE VALLEY AUTHORITY SUBJECT TO STATE REGULATION.**

The Tennessee Valley Authority Act of 1933 is amended by inserting at the end thereof the following new section:

"Sec. 32. the Corporation shall be subject to regulation by a State as if the Corporation is a private utility subject to regulation by such State except that no State may interfere with the obligations of the Corporation imposed by this Act or any other provision of Federal law."

**SEC. 8. REPEAL OF EXEMPTION FROM AUTHORIZATION PROCESS.**

Section 27 of the Tennessee Valley Authority Act of 1933 (16 U.S.C. 831z) is repealed.●

By Mr. HUMPHREY (for himself, Mr. PROXMIER, Mr. ARMSTRONG, Mr. HELMS, Mr. GARN, and Mr. GRAMM):

S. 264. A bill to amend the Internal Revenue Code of 1986 to deny status as a tax-exempt organization, and as charitable contribution recipient, for organizations which perform, finance, or provide facilities for abortions; to the Committee on Finance.

**INTERNAL REVENUE CODE**

● Mr. HUMPHREY. Mr. President, on behalf of Mr. PROXMIER, Mr. ARMSTRONG, Mr. HELMS, Mr. GRAMM, Mr. GARN, and on my own behalf, today I am introducing a bill proposing to eliminate the tax-exempt and tax-deductible status of organizations performing, financing, or providing facilities for abortion.

The Federal Government currently subsidizes scores, if not hundreds, of clinics and organizations whose nominal business includes the provision of family planning services to the poor, and whose primary industry often is no more than performing abortions. Many of these clinics are both exempt from paying taxes and are charitable contribution recipients—able to receive tax-deductible contributions.

This bill will eliminate both the tax-exempt and the tax-deductible status of organizations and clinics that perform abortions, finance them, or provide facilities for the performance of abortions. Organizations that perform an abortion to save the life of the mother will not be precluded from retaining their prior tax-exempt status. This "exception" is identical to the Hyde amendment "exception" with which my colleagues are no doubt familiar. The language of this bill was offered in amendment form on the floor of the Senate during the 99th Congress.

The Congress has consistently opposed the direct use of Federal moneys

to pay for abortions. In fact, the embodiment of this policy, the Hyde amendment, was first enacted in 1976, and has been enacted every year since. The Hyde amendment prohibits the use of Federal tax dollars provided under the Medicaid Program for reimbursements to the various States for the direct costs of abortion, and for related costs, including lab fees and hospitalization costs. Language similar to the Hyde amendment has governed the use of Federal funds in other Federal programs and agencies, including, but not limited to, the Department of Defense, the Legal Services Corporation, Indian Health Services, Federal employees' health benefits insurance, and the Peace Corps.

These continued restrictions on abortion funding indicate that the American people refuse to provide public funds for the costs of abortion and abortion-related services. The Congress, wisely I believe, has firmly supported the desire of the American people with restrictions in statute and in appropriations.

Moreover, the Supreme Court, in *Harris versus McRae* and *Progeny*, has upheld the right of Congress to withhold such funding for abortion. In a 1980 decision, the Court held that Congress may refuse to subsidize abortions under the Medicaid Program, even while subsidizing childbirth, because the Government maintains a legitimate interest in childbirth and in the unborn child. Refusing to subsidize abortion is, of course, rationally related to that interest.

The Court applied the lower level rational basis test rather than higher level strict scrutiny, even though abortion is considered a fundamental right, because the Hyde amendment—limiting Federal funding of abortions under Medicaid—"places no governmental obstacle in the path of a woman who chooses to terminate her pregnancy, but rather, by means of unequal subsidization of abortion and other medical services, encourages alternative activity deemed in the public interest."

And yet, at the same time, Congress continues to permit the indirect subsidization of abortion with Federal funds. This has been achieved through the tax subsidization of some nonprofit organizations which are currently engaged in financing or providing abortions. These very organizations which are unable to submit abortion claims for reimbursement under Medicaid, receive Federal tax exemptions and Federal tax deductions under section 501 of the Internal Revenue Code.

Mr. President, abortion clinics are being subsidized by the American people through this Nation's Federal tax system, at a time when the Congress has refused to provide direct cash outlays to the same clinics. Clearly Congress has the right and the obli-

gation to discontinue this back-door financing of an activity so offensive to many of this Nation's citizens.

In 1983, the Supreme Court made clear that conferring tax-exempt status or eligibility for tax-deductible contributions constitutes one form of Government subsidy. In the words of the Supreme Court—

Both tax exemptions and tax deductibility are a form of subsidy that is administered through the tax system. A tax exemption has much the same effect as a cash grant to the origination of the amount of tax it would have to pay on its income. Deductible contributions are similar to cash grants of the amount of a portion of the individual's contributions.

Mr. President, I note several provisions in this bill that were widely misunderstood when the legislation was last debated. First, nothing in this bill will preclude any free-speech activity related to abortion. The legislation I have proposed does not address counseling and referral for abortion, and so leaves untouched those lobbying and "educational" groups which merely propound ideas regarding the subject of abortion.

Second, I wish to note that this bill does not preclude organizations such as hospitals which currently perform or provide facilities for abortion, from restructuring the corporation so that all of its other functions remain tax exempt and charitable contributions to such functions remain tax deductible to the donor.

Finally, I wish to note that, while the Supreme Court itself has not ruled on the matter specifically, at least two Federal courts have determined that hospitals are under no affirmative obligation to perform abortions. In addition, the church amendment governing funds made available under the Public Health Service Act, including "Hill-Burton" funds, allows organizations to refuse to perform or assist in the performance of abortions where this would violate the moral convictions or religious beliefs of the institution.

Mr. President, I am proud to introduce this bill today, on behalf of myself and my colleagues. I am confident that it has been drafted in a manner that will withstand court scrutiny, and I am confident that, while expressing a firm moral principle, it will have little harmful effect on the provision of health services not related to abortion. This bill will end the indirect subsidization of abortion with public funds. It will reaffirm congressional commitment to the promotion and support of childbirth, and will restate our legitimate interest in the protection of the lives of the unborn.

I encourage my colleagues to cosponsor this bill and to support efforts to bring the bill for a vote.

I ask unanimous consent that a copy of the bill be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 264

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. DENIAL OF TAX BENEFITS FOR ORGANIZATIONS WHICH PERFORM, FINANCE, OR PROVIDE FACILITIES FOR ABORTIONS.**

(a) **DENIAL OF TAX-EXEMPT STATUS.**—Section 501 of the Internal Revenue Code of 1986 (relating to exemption from tax on corporations, certain trusts, etc.) is amended by redesignating subsection (n) as subsection (o) and by inserting after subsection (m) the following new subsection:

"(n) **DENIAL OF EXEMPTION FOR ORGANIZATIONS WHICH PERFORM, FINANCE, OR PROVIDE FACILITIES FOR ABORTIONS.**—An organization shall not be treated as described in subsection (a) if such organization performs, finances, or provides facilities for any abortion, except where the life of the mother would be endangered if the fetus were carried to term."

(b) **DENIAL OF ELIGIBILITY FOR CHARITABLE CONTRIBUTION.**—

(1) **INCOME TAX.**—Section 170(c) of the Internal Revenue Code of 1986 (defining charitable contribution) is amended by adding at the end thereof the following: "For purposes of this section, such term does not include a contribution or gift to or for the use of any organization which performs, finances, or provides facilities for any abortion (within the meaning of section 501(n))."

(2) **ESTATE TAX.**—

(A) **IN GENERAL.**—Section 2055 of such Code (relating to transfers for public, charitable, and religious uses) is amended by redesignating subsection (g) as subsection (h) and by inserting after subsection (f) the following new subsection:

"(g) **DENIAL OF DEDUCTION FOR CONTRIBUTIONS TO ORGANIZATIONS WHICH PERFORM, FINANCE, OR PROVIDE FACILITIES FOR ABORTIONS.**—No deduction shall be allowed under this section for a transfer to or for the use of any organization which performs, finances, or provides facilities for any abortion (within the meaning of section 501(n))."

(B) **TECHNICAL AMENDMENTS.**—

(1) Subparagraph (E) of section 2106(a)(2) of such Code (relating to transfers for public, charitable, and religious uses from taxable estates of nonresidents not citizens) is amended by striking out "section 2055(e)" and inserting in lieu thereof "subsections (e) and (g) of section 2055".

(2) Subparagraph (F)(ii) of section 2106(a)(2) of such Code is amended by striking out "section 2055(g)" and inserting in lieu thereof "section 2055(h)".

(3) **GIFT TAX.**—Section 2522 of such Code (relating to charitable and similar gifts) is amended by redesignating subsection (e) as subsection (f) and by inserting after subsection (d) the following new subsection:

"(e) **DENIAL OF DEDUCTION FOR CONTRIBUTIONS TO ORGANIZATIONS WHICH PERFORM, FINANCE, OR PROVIDE FACILITIES FOR ABORTIONS.**—No deduction shall be allowed under this section for a gift to or for the use of any organization which performs, finances, or provides facilities for any abortion (within the meaning of section 501(n))."

(c) **EFFECTIVE DATES.**—

(1) **ABORTIONS AFTER DATE OF ENACTMENT.**—The amendments made by this section shall take into account only abortions (within the

meaning of section 501(n) of the Internal Revenue Code of 1986 as added by this section) performed after the date of the enactment of this Act.

(2) **SUBSECTION (a).**—The amendments made by subsection (a) shall apply to taxable years ending after the date of the enactment of this Act.

(3) **SUBSECTION (b).**—The amendments made by subsection (b) shall apply to estates of decedents dying, and gifts made, after the date of the enactment of this Act.●

By Mr. HUMPHREY (for himself, Mr. ROTH, Mr. SYMMS, and Mr. ZORINSKY):

S. 265. A bill to require executive agencies of the Federal Government to contract with private sector sources for the performance of commercial activities; to the Committee on Governmental Affairs.

**FEDERAL GOVERNMENT PRIVATE SECTOR CONTRACTS**

● Mr. HUMPHREY. Mr. President, today I am introducing legislation which will promote competition when the Government seeks to contract for the procurement of goods or services with a Federal agency or a private firm. This legislation would require that cost comparisons be conducted prior to the awarding of a Federal contract for commercial activities.

The idea of contracting-out to the private sector is not new. The Office of Management and Budget [OMB] does have a program which directs agencies to contract-out for goods and services if, after conducting a detailed cost comparison between in-house suppliers and private firms, they find it is more economically efficient to do so. However, this program, based on OMB circular A-76, is simply an executive directive and does not carry with it the force of law.

Although the existing A-76 Program requires agencies to conduct cost comparisons in order to determine whether to contract-out, it has become apparent over the years that many agencies are simply ignoring the directive. A recent OMB study shows that of 22 agencies reporting, 50 percent did not award any service contracts as a result of the review, and they did not complete any cost comparison studies during fiscal year 1982 through fiscal year 1985.

One agency which has successfully contracted-out is, interestingly, the Department of Defense [DOD]. In fiscal year 1984, DOD completed 257 cost comparisons. As a result, 131 contracts were awarded to private bidders and 126 were awarded to in-house organizations. The contractors achieved approximately \$43.8 million in savings—a cost reduction of 33 percent. Even the contracts that remained in-house realized savings of 18 percent, or some \$21.8 million, as a direct result of competition with the private sector. If the Department of Defense is able

to implement successfully the A-76 Program, there is no reason for the failure of other agencies to follow suit.

Mr. President, the purpose of this legislation is to generate competition in the cost-comparison process. With competition as a motivator, both in-house and private organizations can be expected to streamline their operations to achieve optimal efficiency.

Whether the commercial activity remains within the agency or is awarded to a private bidder, cost savings through competition will surely result. A recent Congressional Budget Office report, based on fiscal year 1985 statistics, found that when a contract was awarded to a private firm, the average savings to the Government for a particular activity was approximately 37 percent. Similarly, when the contract was awarded in-house, an average savings of 20 percent resulted solely from the cost comparison itself.

Here are just two examples of the cost savings which were achieved simply by conducting cost comparisons. A contract for operation of 12 Navy oceanographic research vessels, awarded at about \$79 million for a 3-year performance period, was \$66 million less than the most recent cost to the Government of operating the activity with Federal employees, for a savings of 45.4 percent. In another case, the Coast Guard contracted for food services freeing up to 226 Federal civilian positions and saving the taxpayer \$7.6 million per year.

Mr. President, the United States has historically had great faith in the value of the competitive, free marketplace. And with good reason: When the marketplace has been allowed to work, competition has produced an efficient and thriving economy. Unfortunately, our own Federal Government has not caught on to the idea that competition breeds efficiency. Both the American taxpayer and the Government should reap the benefits associated with market competition—better quality goods and services at lower costs.

Mr. President, in light of the enormous Federal deficit there is no better time than now to enact this legislation. It is both simple and straightforward. It does not contain any provisions which would give unfair advantage to either the in-house or private sector bid. The bill simply promotes the concept of competition, thus taking a small step toward efficiency in Government.

I ask unanimous consent that a copy of the bill be reprinted in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 265

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. DEFINITIONS.

For the purposes of this Act—

(1) the term "executive agency" has the same meaning as is provided in section 4(1) of the Office of Federal Procurement Policy Act (41 U.S.C. 403(1));

(2) the term "commercial activity" includes—

(A) any activity which provides goods or services which can be procured from a responsive and responsible profitmaking business concern; and

(B) such other activity as the Director may prescribe by regulation; and

(3) the term "Director" means the Director of the Office of Management and Budget.

#### SEC. 2. REQUIREMENT TO CONTRACT WITH PRIVATE SECTOR SOURCES.

(a) IN GENERAL.—Except as provided in subsections (b) and (c), an executive agency may not start or conduct any commercial activity in the executive agency to provide goods or services for the use of or on behalf of the agency if such goods or services can be procured from any responsive and responsible profitmaking business concern.

(b) EXCEPTIONS.—(1) An executive agency may start or conduct a commercial activity in the executive agency if the head of the executive agency, after considering all direct and indirect costs of starting or conducting such activity, determines in accordance with the cost of accounting principles and the procedures prescribed by the Director under section 3 that there is a clearly identified and demonstrated economic advantage to the Federal Government to start or conduct such activity.

(2) The Director may prescribe additional limited exceptions to the requirement set out in subsection (a) when appropriate to protect the interests of the Federal Government.

#### SEC. 3. REGULATIONS.

The Director shall—

(1) prescribe regulations and take such other actions as may be appropriate to carry out section 2;

(2) require in the regulations that each head of an executive agency, in making a determination under section 2(b)(1) in the case of an activity, consider all direct and indirect costs of starting or conducting such activity in the executive agency; and

(3) in consultation with certified public accountants employed in the private sector, prescribe in the regulations generally accepted cost accounting principles and simple procedures for each head of an executive agency to apply in making a determination under section 2(b)(1).

By Mr. HUMPHREY (for himself, Mr. GRAMM, Mr. ZORINSKY, Mr. SYMMS, and Mr. HELMS):

S. 266. A bill to amend the Service Contract Act to reform the administration of such act, and for other purposes; to the Committee on Labor and Human Resources.

#### SERVICE CONTRACT ACT

● Mr. HUMPHREY. Mr. President, today I am introducing the Service Contract Reform Act of 1987. The Congressional Budget Office [CBO] has estimated that enactment of this legislation would save the Federal Government at least \$1.2 billion in outlays over a 5-year period. Importantly, these savings will be obtained

without undermining the intent of the Service Contract Act.

The Service Contract Act of 1965 [SCA] was enacted to protect the wages and benefits of service employees hired by private contractors to supply services to the Federal Government. The law is similar to other Federal prevailing wage legislation such as the Davis-Bacon Act, and is designed to ensure that covered employees will be paid wages and benefits that are consistent with the wages paid to similar jobs within the same locality. The Service Contract Act is supposed to prevent service employers from successfully bidding a Government contract by undercutting the local wage rate.

Unfortunately, over the years, misapplication and misinterpretation of the law's provisions, as well as its burdensome wage determination procedures and paperwork requirements, have resulted in unnecessary service procurement costs to the Federal Government. For example, the Grace Commission estimated that the Service Contract Act raises the Government's cost of procuring services by as much as \$1.5 billion a year. Similarly, a 1983 report by the General Accounting Office found so many needless costs associated with the act that GAO recommended outright repeal.

This legislation does not repeal the SCA. Rather, it is intended to preserve the basic intent of the Service Contract Act—that is, to protect the wages and benefits of service employees working on Government contracts—while at the same time implementing reforms that will substantially reduce excess costs that have resulted from shortcomings in the original law.

The Service Contract Reform Act of 1987 contains five basic provisions which modify the law as it now stands:

First, the bill raises the contract coverage threshold from \$2,500 to \$200,000. The act currently requires that employees working under Government service contracts valued at over \$2,500 be paid prevailing wages and benefits as determined by the Secretary of Labor. The contract threshold level has remained at \$2,500 since the SCA was enacted in 1965, despite increases in inflation that now make such an amount insignificant in relative terms.

CBO reports that nearly 90 percent of the estimated dollar volume subject to the SCA is in contracts in excess of \$200,000. Raising the threshold from \$2,500 to \$200,000 exempts only an estimated \$1.2 billion out of a total of \$11.7 billion in contract dollars from SCA coverage. At the same time, increasing the threshold will exempt numerous small contracts from the law's redtape, thus substantially reducing the high administrative costs associated with the act. More importantly,

raising the threshold will increase participation in the contract process by small businesses, who presently avoid bidding Government service contracts because of redtape and arbitrary wage determinations. Because these small businesses are likely to be almost exclusively local employers, the purpose of the law in protecting local prevailing wages and benefits will be ensured. CBO estimates that raising the threshold to \$200,000 would produce a 5-year savings in outlays of some \$244 million.

Second, the bill codifies the Department of Labor's (DOL) 1983 regulation which strictly interprets the act as only applying to a contract "The principal purpose of which is to furnish services in the United States through service employees." This simply means that a contract will not be covered by the SCA unless the principal purpose of the contract as a whole is to provide services. Prior to revising the regulation in 1983, the DOL applied the act to separate line items and specifications for services in contracts which were not otherwise principally for the purpose of furnishing services. This overly broad interpretation resulted in extending the act's coverage well beyond what Congress originally intended. By codifying the 1983 revised regulation, we will be assured that the original congressional intent is preserved.

Third, the bill amends the SCA to provide that any wages and fringe benefits provided for in a successor contract shall apply for purposes of the SCA unless the Secretary of Labor establishes that such wages are not prevailing within the locality where the work is performed. The current language of the act operates in practice to require that union wage rates in an existing service contract become the floor for all succeeding contracts. The provision was inserted in the original law to prevent union busting through the Government procurement process. Although the law states that the predecessor contract rates do not apply where the Secretary finds that they are substantially at variance with local prevailing rates—for example, where the union rates are much higher than wages paid for similar jobs within an area, the process for making such a finding is so burdensome and time consuming that it has proved to be totally useless.

The bill simplifies and makes the successor contract provision meaningful by permitting the successor contract wage rates to take effect—even if they are not the same as the union rates in the predecessor contract—unless the successor contract wages are not prevailing within the locality where the work is performed. If the Secretary of Labor can show that such rates are not prevailing, then the rates in the predecessor contract would

automatically replace the rates in the successor contract. For example, a contractor could not get around a union by bringing in low-paid employees to perform the services if those rates were not similar to rates paid to other service employees within the area. Thus, the bill preserves the original purpose of the successor contract provision by assuring that prevailing rates will be paid while minimizing the disruption to wages and benefits in successor contracts.

Fourth, the bill defines the terms "prevailing rates" and "locality." The original law did not define these key terms, and there has been considerable confusion since the SCA was enacted as to what they mean and how they should be applied. Experience has shown that the Labor Department's interpretation of these terms has frequently led to wage rate determinations far in excess of local prevailing rates. Both GAO and the Grace Commission found in their comprehensive reports on the SCA that DOL routinely sets wage and benefit rates inconsistent with local prevailing rates, thereby adding substantially to the cost of Government procurement.

Under the bill, prevailing rate is defined to mean the entire range of wages and benefits paid to similar jobs working in the area where the service contract is performed. If the contract wage rate falls within the range of wages shown to be paid within the contract's geographic area, the rate is deemed to be prevailing for purposes of the SCA. For example, if it is shown that the rates paid to food service workers within an area range from \$4.50 to \$6.50 an hour, any contract rate within that range would be considered prevailing. It should be stressed that this is a minimum rate. Thus, in the example, any rate less than \$4.50 would not qualify as prevailing, but any rate over \$6.50 would qualify if the service contract was awarded to the contractor paying such rates. The bill's definition of prevailing rate assures that local prevailing rates will be applied to service contracts, thereby protecting the basic intent of the Service Contract Act. At the same time, the possibility that prevailing rate determinations will be distorted is substantially reduced. Finally, it is important to note that in no case would the prevailing rate ever be set lower than the current Federal minimum wage.

The term "locality" is defined by the bill to mean "the particular urban or rural subdivision of a State in which work is performed." Because the law requires that the Labor Secretary set wages in accordance with prevailing rates for service employees within the locality where the work is performed, it is important to assure that the Secretary interprets locality to, in fact, mean what it is supposed to mean. For

example, such a definition will prevent the importation of traditionally higher urban wage rates to a rural subdivision, and vice versa. Again, the definition will help to ensure that local prevailing rates are applied.

Fifth, the bill changes the SCA to require the Secretary of Labor to make wage and fringe benefit determinations only with respect to service contracts under which 25 or more service employees are to be employed. Current law requires such determinations on any service contract employing five or more service employees. This proposed change to the law, similar to the proposed contract threshold dollar increase, is designed to improve administration and enforcement of the act by relieving the Secretary's obligations with respect to small service contracts affecting very small populations of workers.

Mr. President, I believe that the proposals incorporated in this legislation are reasonable. After more than 20 years, it is time to revise this statute to make it more efficient and cost effective without undermining its original intent.

I ask unanimous consent that a copy of my bill be reprinted in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 266

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Service Contract Reform Act of 1987."

#### SEC. 2. MINIMUM CONTRACT SIZE.

The matter preceding paragraph (1) of section 2(a) of the Service Contract Act of 1965 (41 U.S.C. 351(a)) is amended by striking out "\$2,500" and inserting in lieu thereof "\$200,000".

#### SEC. 3. PRINCIPAL PURPOSE RULE.

(a) IN GENERAL.—Section 2 of the Service Contract Act of 1965 (41 U.S.C. 351) is amended by adding at the end thereof the following new subsection:

"(c) This Act shall apply only to a contract the principal purpose of which is to furnish services and shall not apply to a contract provision for services contained in a contract if the principal purpose of the contract is not to furnish services."

(b) CONFORMING AMENDMENT.—The matter preceding paragraph (1) of section 2(a) of such Act is amended by striking out "Every" and inserting in lieu thereof "Subject to subsection (c), every".

#### SEC. 4. PREDECESSOR CONTRACTS.

Section 4 of the Service Contract Act of 1965 (41 U.S.C. 353) is amended by striking out subsection (c) and inserting in lieu thereof the following new subsection:

"(c) A contractor or subcontractor under a contract, that succeeds a contract subject to this Act and under which substantially the same services are furnished, shall not be required to pay any service employee under such contract the wages and fringe benefits, and any prospective increases in wages and fringe benefits provided for in a collective bargaining agreement as a result of arm's-

length negotiations, to which such service employees would have been entitled if the employees were employed under the predecessor contract, unless the Secretary determines that the wages and fringe benefits under the successor contract are less than the prevailing wages and fringe benefits in the locality in which the work is to be performed."

#### SEC. 5. DEFINITIONS.

Section 8 of the Service Contract Act of 1965 (41 U.S.C. 357) is amended—

(1) by redesignating subsections (a), (b), (c), and (d) as subsections (d), (e), (a), and (f), respectively; and

(2) by inserting after subsection (a) (as so redesignated) the following new subsections:

"(b) The term 'locality' means the particular urban or rural subdivision of a State in which work is to be performed.

"(c) The term 'prevailing rates', as used in paragraphs (1) and (2) of section 2(a), includes the rate of the entire range of wages and benefits paid to corresponding classes of service employees in the locality in which work is to be performed."

#### SEC. 6. WAGE AND FRINGE BENEFIT DETERMINATIONS OF SECRETARY.

(a) IN GENERAL.—Section 10 of the Service Contract Act of 1965 (41 U.S.C. 358) is amended to read as follows:

"Sec. 10. The Secretary shall make determinations of minimum monetary wages and fringe benefits for the various classes or service employees under paragraphs (1) and (2) of section (a) with respect to a service contract order which more than 25 service employees are to be employed."

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply with respect to contracts entered into after September 30, 1987.

By Mr. HUMPHREY (for himself, Mr. GRASSLEY, Mr. HECHT, Mr. GRAMM, Mr. NICKLES, Mr. HELMS, and Mr. SYMMS):

S. 267. A bill to limit the uses of funds under the Legal Services Corporation Act to provide legal assistance with respect to any proceeding or litigation which relates to abortion; to the Committee on Labor and Human Resources.

#### LEGAL SERVICES CORPORATION ACT

● Mr. HUMPHREY. Mr. President, on behalf of my distinguished colleagues, Mr. GRASSLEY, Mr. HECHT, Mr. GRAMM, Mr. NICKLES, Mr. HELMS, and Mr. SYMMS, and on my own behalf, I introduce a bill that would limit the use of funds provided under the Legal Services Corporation [LSC] Act for the provision of legal assistance on any matter relating to abortion.

Mr. President, the majority of Americans today oppose the use of their tax dollars to fund abortions. The U.S. Supreme Court, in its 1980 *Harris versus McRae* decision, and in the progeny of this ruling, has decreed that Congress cannot be compelled to use Federal tax money to pay for abortion. Indeed, the Court noted, Congress has a legitimate interest in not funding abortion, for the legislature has an interest in promoting childbirth.

Since 1976, the Congress, without exception, has refused to fund abor-

tions and abortion-related services under the Federal Medicaid Program. In addition, the Congress has annually passed legislation restricting the use of Federal funds to pay for abortion under Treasury, Postal, Peace Corps, Defense, and other Federal employee insurance programs.

Each of these restrictions assures that the American taxpayer will not be required to pay for abortions, fund activities designed to assist in the procurement of abortions, or fund activities related to the procurement of abortions—such as pathology reports, hospitalization, et cetera, our bill is thoroughly consistent with these restrictions.

In this legislation, we propose that: No funds made available by the Corporation under this subchapter, either by grant or contract, may be used "To provide legal assistance with respect to any proceeding or litigation which relates to abortion."

Mr. President, it is important to note that language currently exists in the Legal Services Corporation Act of 1974 that restricts some litigation of abortion. That language reads:

No funds made available by the Corporation under this subchapter, either by grant or contract, may be used \* \* \* to provide legal assistance with respect to any proceedings or litigation which seeks to procure a nontherapeutic abortion or to compel any individual or institution to perform an abortion, or provide facilities for the performance of an abortion, contrary to the religious beliefs or moral convictions of such individual or institution.

In the past, however, Legal Services Corporation grantees have chosen to interpret narrowly the restrictions provided in the act—so narrowly that there is some question regarding what some of the grantees would recognize as binding. Unfortunately, some of the LSC grantees have taken the ambiguous language now found in the 1974 act, and used it as a back-door opportunity to engage in almost unlimited abortion litigation and related activities.

Thus, there is a need to clarify the current restrictions. Both Houses of Congress have recognized this and included language similar to this bill in the fiscal year 1986 and fiscal year 1987 Commerce, Justice, State appropriations bills. The bill I am introducing today will make these expanded restrictions permanent.

Specifically, this bill will:

Apply to any person or entity receiving any funds made available by the Corporation under the act.

Restrict the use of Federal and private, but not other public funds concerning abortion-related legal activities by LSC grantees. This restriction on the use of private funds is consonant with current restrictions on LSC abortion activities and other restrictions found in section 2996(f)(b) of the Legal Services Act.

Apply to any form of proceeding or litigation involving abortion—legal assistance in preparation for or during administrative or other hearings, amicus briefs, actual litigation and the like.

The abuse of the existing restrictions on abortion involvement under the LSC Act by grantees has been intolerable. In fact, the existing restrictions have proven all but useless.

Consequently, LSC grantees have engaged in litigation against statutes limiting abortion funding, against parents seeking to retain their rights to consult with their children, against laws limiting the number of abortions a State should be forced to fund, and more.

I cite several cases where legal services grantees have, I believe, overstepped the provisions in the act which prohibited abortion litigation. In the late 1970's, grantees launched a number of attacks on statutes limiting State and Federal funding of abortions:

In *Preterm versus Dukakis*, a Boston grantee challenged a Massachusetts law limiting State funding of abortions.

In *Zbaraz versus Quern*, a Chicago grantee helped overturn a similar Illinois statute and force abortion funding.

In *Stopczynski versus Milliken*, a Michigan grantee filed an amicus brief in favor of a veto of a Michigan statute limiting abortion funding.

In *Planned Parenthood versus Leo Hegstrom*, an Oregon grantee litigated to overturn a State law limiting the number of abortions for any one woman that would be publicly funded.

Similar abortion funding cases have been litigated in Ohio, Idaho, California, Louisiana, and Pennsylvania. In addition, in *Valley Family Planning versus North Dakota*, grantees litigated to allow family planning clinics receiving title X funds to refer for abortions. And in *Doe versus Jennings*, a Pittsburgh grantee acted to force a local jail to transport an inmate to a hospital for an abortion.

There is no doubt that legal services grantees and attorneys have in recent years engaged in abortion litigation less frequently than they did several years ago, though I suspect that a number of potential violations of current restrictions remain uninvestigated. But I attribute this improved compliance not to modified grantee behavior, but to increased vigilance and improved oversight by the National Legal Services Corporation. I fear that, should the Corporation no longer enforce current restrictions, grantees would in fact revert to previous patterns of abortion activity. This bill would make permanent the restrictions favored by Congress in its annual appropriations provisions, and it would

eliminate the loopholes exploited by grantee attorneys.

Mr. President, legal services grantees have shown a frequent disregard for their congressional mandate, all at the expense of the American public. With this bill we have the opportunity to close the loopholes we never imagined could exist and end the use of taxpayer funds to support abortion litigation.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 267

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 1007(b)(8) of the Legal Services Corporation Act is amended to read as follows:*

"(8) to provide legal assistance with respect to any proceeding or litigation which relates to abortion;"

By Mr. HUMPHREY:

S. 268. A bill to amend title 5, United States Code, to provide child adoption benefits for Federal Government employees; to the Committee on Governmental Affairs.

S. 269. A bill to amend title 10, United States Code, to provide child adoption benefits for members of the Armed Forces; to the Committee on Armed Services.

#### CHILD ADOPTION BENEFITS FOR GOVERNMENT EMPLOYEES

● Mr. HUMPHREY. Mr. President, today I am introducing legislation to provide adoption benefits for Federal Government employees and members of the Armed Forces.

One of the cruelest barriers to adoption is cost. The desire to form a family is fundamental to us all, no matter what our economic circumstances. But for those who form their family through adoption, cost is a necessary and important consideration and sometimes an impediment.

The costs involved in adopting today are similar to what those people incur when they have children biologically—the costs for a delivery, prenatal care for the mother, and the baby's care in the hospital. The chief difference is that there is no insurance coverage to help cover the adoption charges. In addition, there may be charges for foster care for infants from the time they are released from the hospital nursery until placement, costs involved in preadoption and postadoption counseling, and legal fees. The average fee, in 1985, for those who adopted through a nonprofit agency, was at least \$6,000. When transportation or other special fees are required, as in many adoptions from other countries, the costs are even higher.

In development of employee benefit plans, employers in the private sector are recognizing the inequity of provid-

ing insurance coverage for a biological birth but giving no help to an employee who adopts a child, and are providing adoption benefit plans for their employees.

An adoption benefits plan is an employer-sponsored program that financially assists or reimburses employees for expenses related to the adoption of a child and/or provides for paid leave for the adoptive parent employee. A growing number of corporations—almost 50 at latest count—are establishing an adoption benefits plan for their employees.

A representative sample of these companies follows: Acacia Mutual Life Insurance Co.; American Can Co.; Bank of America; Campbell Soup Co.; Honeywell; Humana Inc.; Intermetrics; IBM; Control Data Corp.; Deseret Mutual Benefit Association; Digital Equipment Corp.; Eli Lilly & Co.; Emery World Wide Corp.; Felt Products; First Pennsylvania Bank; Foote, Cone & Belding Communications, Inc.; Gannett Co.; G.D. Searle & Co.; General Mills, Inc.; Hallmark Cards, Inc.; Hewitt Associates; International Minerals & Chemical; Johnson Wax; Lincoln National Life Insurance Co.; Pfizer Inc.; Pitney Bowes; the Procter & Gamble Co.; Signode Industries, Inc.; Smithkline Beckman Corp.; Temple, Barker & Sloane; Time, Inc.; Victor F. Weaver Co., Inc.; and Xerox Corp.

Similar to corporations, State and local governments are developing adoption benefit plans for their employees. For example, Philadelphia has an adoption leave policy and the State of Illinois has recently developed a plan to reimburse adoptive parents for adoption expenses and to ensure insurance coverage for adopted children.

The National Adoption Center in Philadelphia has pioneered ways to increase corporate involvement through its adoption in the workplace program. In addition, the National Committee for Adoption in Washington, DC, has worked extensively with employers on adoption benefits. The number of companies offering adoption benefits nearly tripled between 1980 and 1984, from 10.3 to 27.5 percent of firms surveyed by catalyst, a national research organization. I expect adoption benefits will become an accepted standard for major companies within 5 years.

Mr. President, it is time for the Federal Government to bring its employee benefits plan up to date. The two bills I am now introducing will do just that by providing adoption benefits for Federal Government employees and members of the Armed Forces. Benefits provided to each group are identical.

A maximum benefit of \$2,000 will be paid for expenses incurred in the adoption of any child. Reimbursement will be provided for qualifying adop-

tion expenses incurred in the adoption of a child under 16 years of age.

Qualifying adoptions include an adoption by a single person, infant adoption, adoption of a child with special needs—a child who is older, in a sibling group, mentally, physically, or emotionally disabled, or a member of a minority group—and intercountry adoption, but do not include an adoption in which one of the adopting parents is the biological parent of the adopted child.

"Qualifying adoption expenses" are defined as reasonable and necessary expenses directly related to the legal adoption of a child and include public and private agency fees; placement fees, including fees charged adoptive parents for counseling; legal fees, including court costs; medical expenses; expenses relating to pregnancy and childbirth for the biological mother; temporary foster care charges; and transportation expenses relating to the adoption.

Mr. President, there are several factors employers consider in deciding to provide adoption benefits. First is the equity consideration I have already mentioned. Employees with a biological birth receive pregnancy benefits, adoptive parents receive no such benefits and often their expenses are larger.

A second consideration is the positive image adoption benefits will create of an employer sensitive to the different ways families may be built. A third consideration is the goodwill generated and employee morale boosted, which will far exceed the costs of the benefit since adoptions are infrequent.

Although the States have primary jurisdiction over adoption, the Federal Government does relate to adoption in a number of programs. Chief among these are the Adoption Opportunities Program established by the Child Abuse Prevention and Treatment and Adoption Reform Act of 1978 (P.L. 95-266), the Adoption Assistance Program established by the Adoption Assistance and Child Welfare Act of 1980 (P.L. 96-272), and funding for adoption services under the Adolescent Family Life Act of 1981. In recent years through the national special needs adoption initiative, the Department of Health and Human Services has actively promoted adoption, especially the adoption of children with special needs.

Furthermore, this administration has emphasized the importance of strengthening family values. Recently Constance Horner, Director of the Office of Personnel Management, issued new personnel guidance urging heads of departments and agencies to formulate policies on leave for parental and family responsibilities—including leave for adoption—that are com-

passionate and flexible for the employee. Legislation providing limited reimbursement for adoption expenses to adoptive parents who are Federal Government employees and members of the Armed Forces will complement the Federal policy on adoption leave and further enhance the role of the Federal Government as a family oriented employer.

On a panel addressing the issue of adoption benefits at the first hearing of the Congressional Coalition on Adoption last April, Dorcas Hardy, who was then the Assistant Secretary for Human Development Services of the Department of Health and Human Services, testified that "every employer should offer adoption benefits." Dorcas Hardy is right. It is time for the Federal Government to join the growing number of employers in the private and public sectors who provide adoption benefits to their employees. I ask unanimous consent that the two bills be printed in the RECORD as follows:

There being no objection, the bills were ordered to be printed in the RECORD, as follows:

#### S. 268

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Federal Employee Adoption Benefits Act of 1987".

#### SEC. 2. REIMBURSEMENT FOR ADOPTION EXPENSES OF FEDERAL GOVERNMENT EMPLOYEES.

(a) IN GENERAL.—Subpart G of part III of title 5, United States Code, is amended by adding at the end the following new chapter:

#### "CHAPTER 91—MISCELLANEOUS EMPLOYEE BENEFITS

"9101. Child adoption benefits.

"§ 9101. Child adoption benefits

"(a) An employee of the Federal Government shall be reimbursed, as provided in this section, for the qualifying adoption expenses incurred by the employee in the adoption of a child under 18 years of age.

"(b) Adoptions for which expenses may be reimbursed under this section include an adoption by a single person, an infant adoption, an intercountry adoption, and an adoption of a child with special needs (as defined in section 473(c) of the Social Security Act (42 U.S.C. 673(c)), but do not include an adoption in which one of the adopting parents is the biological parent of the adopted child.

"(c) Benefits may be paid under this section in the case of an adoption only after the adoption is final.

"(d) A benefit may not be paid under this section for any expense paid from any funds received by an employee under any other Federal Government or State or local government adoption benefits program.

"(e)(1) Not more than \$2,000 may be paid to an employee under this section for expenses incurred in the adoption of any child.

"(2) Not more than \$5,000 may be paid to an employee under this section for all adoptions by such employee in any calendar year.

"(f)(1) Except as provided in paragraphs (2) and (3) of this subsection, the Director of the Office of Personnel Management shall prescribe regulations to carry out this section.

"(2) The Speaker of the House of Representatives and the President pro tempore of the Senate shall prescribe regulations to carry out this section with respect to Congressional employees.

"(3) The Director of the Administrative Office of the United States Courts shall prescribe regulations to carry out this section with respect to employees of the Judicial branch.

"(g) As used in this section:

"(1) 'Employee' includes—

"(A) an individual paid as described in section 2105(c) of this title; and

"(B) an employee described in section 2105(e) of this title.

"(2) 'Qualifying adoption expenses'—

"(A) means reasonable and necessary expenses which are directly related to the legal adoption of a child, but only if such adoption is arranged—

"(i) by a State or local government agency which has responsibility under State or local law for child placement through adoption;

"(ii) by a nonprofit, voluntary adoption agency which is authorized by State or local law to place children for adoption; or

"(iii) through a private placement; and are not incurred in violation of Federal, State, or local law;

"(B) includes—

"(i) public and private agency fees, including adoption fees charged by an agency in a foreign country;

"(ii) placement fees, including fees charged adoptive parents for counseling;

"(iii) legal fees, including court costs;

"(iv) medical expenses, including hospital expenses of a newborn infant, medical care furnished the adopted child before the adoption, and physical examinations for the adopting parents;

"(v) expenses relating to pregnancy and childbirth for the biological mother, including counseling, transportation, and maternity home costs;

"(vi) temporary foster care charges when payment of such charges is required to be made immediately before the child's placement; and

"(vii) except as provided in subparagraph (C)(ii) of this paragraph, transportation expenses relating to the adoption; and

"(C) does not include any expenses incurred—

"(i) in the adoption of a child who was conceived—

"(I) by artificial insemination;

"(II) by embryo transplantation;

"(III) by in vitro fertilization; or

"(IV) in so-called 'surrogate parenthood', including conception by any person who serves as a surrogate voluntarily and without remuneration; or

"(ii) for any adopting parent's travel outside the United States, unless such travel—

"(I) is required by law as a condition of a legal adoption in the country of the child's origin;

"(II) is necessary for the purpose of assessing the health and status of the child to be adopted; or

"(III) is necessary for the purpose of escorting the child to be adopted to the United States or the place where the adopting employee is stationed."

(b) CONFORMING AMENDMENTS.—(1) The heading of such subpart is amended to read as follows:

"Subpart G—Annuities, Insurance, and Miscellaneous Benefits".

(2) The analysis at the beginning of such part is amended—

(A) by striking out the item relating to subpart G and inserting in lieu thereof the following:

"Subpart G—Annuities, Insurance, and Miscellaneous Benefits";

and

(B) by inserting after the item relating to chapter 89 the following:

"91. Miscellaneous Employee Benefits . . . 9101".

#### S. 269

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Federal Adoption Benefits Act of 1987".

#### SEC. 2. REIMBURSEMENT FOR ADOPTION EXPENSES OF MEMBERS OF THE ARMED FORCES.

(a) IN GENERAL.—Chapter 53 of title 10, United States Code, is amended by adding at the end the following new section:

#### "§ 1051. Child adoption benefits

"(a) The Secretary concerned shall reimburse a member of the armed forces, as provided in this section, for the qualifying adoption expenses incurred by the member in the adoption of a child under 18 years of age.

"(b) Adoptions for which expenses may be reimbursed under this section include an adoption by a single person, an infant adoption, an intercountry adoption, and an adoption of a child with special needs (as defined in section 473(c) of the Social Security Act (42 U.S.C. 673(c)), but do not include an adoption in which one of the adopting parents is the biological parent of the adopted child.

"(c) Benefits may be paid under this section in the case of an adoption only after the adoption is final.

"(d) A benefit may not be paid under this section for any expense paid from any funds received by a member of the armed forces under any other Federal Government or State or local government adoption benefits program.

"(e)(1) Not more than \$2,000 may be paid to a member of the armed forces under this section for expenses incurred in the adoption of any child.

"(2) Not more than \$5,000 may be paid to a member of the armed forces under this section for all adoptions by such member in any calendar year.

"(f) The Secretary of Defense shall prescribe regulations to carry out this section.

"(g) As used in this section, 'qualifying adoption expenses'—

"(1) means reasonable and necessary expenses which are directly related to the legal adoption of a child, but only if such adoption is arranged—

"(A) by a State or local government agency which has responsibility under State or local law for child placement through adoption;

"(B) by a nonprofit, voluntary adoption agency which is authorized by State or local law to place children for adoption; or

"(C) through a private placement; and are not incurred in violation of Federal, State, or local law;

"(2) includes—

"(A) public and private agency fees, including adoption fees charged by an agency in a foreign country;

"(B) placement fees, including fees charged adoptive parents for counseling;

"(C) legal fees, including court costs;

"(D) medical expenses, including hospital expenses of a newborn infant, for medical care furnished the adopted child before the adoption, and for physical examinations for the adopting parents;

"(E) expenses relating to pregnancy and childbirth for the biological mother, including counseling, transportation, and maternity home costs;

"(F) temporary foster care charges when payment of such charges is required to be made immediately before the child's placement; and

"(G) except as provided in clause (3)(B), transportation expenses relating to the adoption; and

"(3) does not include any expenses incurred—

"(A) in the adoption of a child who was conceived—

"(i) by artificial insemination;

"(ii) by embryo transplantation;

"(iii) by in vitro fertilization; or

"(iv) in so-called 'surrogate parenthood', including conception by any person who serves as a surrogate voluntarily and without remuneration; or

"(B) for any adopting parent's travel outside the United States, unless such travel—

"(i) is required by law as a condition of a legal adoption in the country of the child's origin, or is otherwise necessary for the purpose of qualifying for the adoption of a child;

"(ii) is necessary for the purpose of assessing the health and status of the child to be adopted; or

"(iii) is necessary for the purpose of escorting the child to be adopted to the United States or the place where the adopting member of the armed forces is stationed."

(b) **CONFORMING AMENDMENT.**—The table of sections at the beginning of such chapter is amended by adding at the end the following:

"1051. Child adoption benefits."

**SEC. 3. EFFECTIVE DATE.**

The amendments made by this Act shall take effect on October 1, 1987.

By Mr. HUMPHREY:

S. 270. A bill to provide a transition period for the full implementation of the Nonrecurring Adoption Expenses Reimbursement Program; to the Committee on Finance.

**ADOPTION EXPENSES REIMBURSEMENT PROGRAM**

● Mr. HUMPHREY. Mr. President, today I am introducing legislation to provide a transition period during which the tax deduction for expenses related to the adoption of a child with special needs will be retained until procedures for direct reimbursement under the new tax bill can be established.

One of the great accomplishments of the 99th Congress was the tax reform bill. I supported tax reform, but I have concerns about the immediate effect one of its provisions will have on adoptive parents and on the movement of children out of the foster care system into permanent homes.

According to the Department of Health and Human Services, an estimated 276,000 children are in foster care, and at least 36,000 of these children are legally free and waiting for adoptive homes. Many of the 36,000 are children with special needs; that is, children who are older, in sibling groups, mentally, physically or emotionally disabled, or members of minority groups.

Financial considerations are a necessary concern for parents who adopt any child. The adoptive parents entitled to this reimbursement are the individuals and couples who give a permanent home to children who need it most. They are people who are willing to take on large responsibilities in order to build a family and bring joy to a child who needs a home.

Congress has recognized the need to encourage, and reduce the financial burdens associated with, special needs adoption. Until January 1987 this was accomplished through an itemized tax deduction. The 1986 tax reform law repealed this deduction and substituted a direct payment for adoptive parents of special needs children.

My concern is that while adoptive parents lost the tax deduction at the end of 1986, the new system under which States directly reimburse parents for adoption expenses is a long way from being in place.

Under the Reconciliation Act of 1981, Congress provided an itemized deduction for up to \$1,500 of expenses incurred by an individual in the legal adoption of a child with special needs. Deductible expenses included reasonable and necessary adoption fees, court costs, and attorney fees.

Because of limitations in available data, we do not know exactly how many adoptive parents have utilized the adoption expenses deduction. But we do know the number of special needs adoptions has risen in recent years, and the number of children in foster care has dropped. Undoubtedly many factors have contributed to this progress in special needs adoptions, but clearly the tax deduction helps reduce one important barrier to adoption, the cost.

The Senate tax reform bill retained the adoption expenses deduction, but the conference agreement followed the House bill in repealing the deduction. In place of the deduction, the final tax bill amends the Adoption Assistance Program in title VI-E of the Social Security Act to provide matching funds as an administrative expense to reimburse adoptive parents for their one-time adoption expenses when they adopt, in accordance with State and local law, a child with special needs. The repeal of the deduction takes effect for taxable years beginning with 1987 and the direct payment substitute for the deduction is to be ef-

fective for adoption expenditures made after December 31, 1986.

The Federal Government, State title IV-E adoption agencies, and private adoption agencies will all be involved in working out procedures to guarantee reimbursement to eligible adoptive parents. According to adoption experts, the Department of Health and Human Services will have to issue regulations under the title IV-E Adoption Assistance Program. Unwittingly, because of the necessary delay before the plan can be implemented, we may be leaving these families and children out in the cold with no financial help.

Mr. President, the adoption expenses tax deduction was straightforward and simple, and procedures and forms were well established under the Tax Code. The implementation of a new system of direct reimbursement is anything but simple. This legislation I am proposing will provide a transition period during which the adoption expenses tax deduction will be retained until final regulations implementing the Nonrecurring Adoption Expenses Reimbursement Program are issued. This will guarantee that adoptive parents will not suffer delays while administrators struggle to develop a reimbursement system.

I ask that the bill be printed in the RECORD as follows:

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 270

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. TRANSITION PERIOD FOR FULL IMPLEMENTATION OF NONRECURRING ADOPTION EXPENSES REIMBURSEMENT PROGRAM.**

(a) **IN GENERAL.**—Section 151 of the Tax Reform Act of 1986 (relating to effective dates) is amended by adding at the end thereof the following new subsection:

"(f) **ADOPTION EXPENSES.**—

"(1) **IN GENERAL.**—The amendments made by section 135 shall apply to taxable years beginning after December 31 of the calendar year in which final regulations are issued to implement the reimbursement of nonrecurring adoption expenses under any adoption assistance agreement under subtitle E of title IV of the Social Security Act.

"(2) **DENIAL OF DOUBLE BENEFIT.**—No deduction shall be allowed with respect to amounts paid for adoption expenses directly related to the legal adoption of a child with special needs under section 222 of the Internal Revenue Code of 1986 to any taxpayer receiving reimbursement for such amounts under any adoption assistance agreement under subtitle E of title IV of the Social Security Act."

(b) **EFFECTIVE DATE.**—The amendment made by this section shall take effect as if included in section 151 of the Tax Reform Act of 1986.

By Mr. HUMPHREY:

S. 271. A bill to amend section 1001 of the Public Health Service Act to permit family planning projects to

offer adoption services; to the Committee on Labor and Human Resources.

#### PUBLIC HEALTH SERVICE ACT

● Mr. HUMPHREY, Mr. President, today I am introducing legislation to amend title X of the Public Health Service Act to allow family planning clinics to provide, at their discretion, adoption services.

For too long, our image of family planning has been exclusively family planning through the prevention of pregnancy, the limiting of family size, or the spacing of pregnancies. It is time to recognize the importance of planning families through adoption for children born to parents unable to care for them and for couples who would otherwise be unable to establish a family.

If a young, single woman becomes pregnant, she may not know much about adoption, and the counselors she encounters may be poorly informed also. Even if a single woman considers adoption, she may dismiss it prematurely as too expensive or too difficult, and instead choose to have an abortion or raise her child out-of-wedlock. No pregnant woman should ever be coerced into releasing her child for adoption, but she should be allowed to make an informed decision, after considering all of her alternatives.

Most pregnant teens do not get a chance to consider and do not understand the adoption process. A recent study by Edmund V. Mech of the school of social work at the University of Illinois at Urbana-Champaign showed a significant adoption gap among counselors. Mech found that counselors believe that most pregnant adolescents will not choose to place their child for adoption, use nondirective counseling techniques, and rarely initiate discussion of the adoption option. As a result, adoption often is not considered as an alternative in the counseling of pregnant adolescents and the young woman is not given any information about adoption.

Title X is currently the largest Federal program dealing with the problem of teenage pregnancy, and more than a third of the individuals served by this program are adolescents. In a recent report on teenage pregnancy, the National Research Council noted this fact and stressed that adoption should be an option for pregnant adolescents. The report acknowledged the many agencies involved in a teenager's pregnancy—including family planning clinics for pregnancy testing, health and social service facilities for services during pregnancy, labor and delivery, and counsel and supportive services after the birth—and stated that the "fragmentation of needed services may serve as a disincentive for some pregnant teenagers to make adoption plans."

The Council's report also included the recommendation that "public agencies, in cooperation with the private sector, explore ways of strengthening adoption services, including (1) improved decision counseling for pregnant teenagers and (2) development of effective models for providing comprehensive care to pregnant girls who choose adoption as an alternative to parenthood." This legislation is a much needed start in that direction.

Mr. President, I introduced similar legislation in the 99th Congress. During the Labor and Human Resources Committee markup of S. 881, the Family Planning Amendments of 1986, similar language was approved as an amendment offered by Senator GRASSLEY. The committee also approved a perfecting amendment by Senator METZENBAUM to require that any adoption services provided shall be nondiscriminatory. Senator METZENBAUM's amendment improves this legislation and I have added his amendment to the original language in the current bill.

To clarify the intent of the Labor and Human Resources Committee in agreeing on this provision, I include the following statement on the adoption services amendment from the committee report on the Family Planning Amendments of 1986, S. 881 (Report 99-297):

The legislation contains a new provision which permits title X projects to offer adoption services. The provision does not require that family planning projects offer adoption services; projects may determine whether they wish to offer adoption services in addition to the counseling, and referral upon request, which are included in the existing title X guidelines. The committee does not intend any changes in the general mission of the title X law or projects, nor any diminution of Federal support for grantees or projects not electing to expand their services.

The definition of adoption services is vague to allow flexibility in services family planning providers may offer. Examples of services include, but are not limited to, adoption education programs, training, counseling, referral and placement services. The committee does not intend the use of subcontracting for these services. During Senate Committee on Labor and Human Resources deliberation over this amendment a reference was made to the Family Health Council of Western Pennsylvania as an example of a program which provides adoption services. Secondly, it is the intention of the committee that when adoption services includes placement services, as in the Family Health Council example, those placement services are offered only by a project which has obtained a child placement license. The committee does not intend to authorize the expenditure of title X funds for placement services except when such placement services are offered by a title X project which is also a licensed child placing agency. Where State adoption licensing requirements do not exist, such services must be provided in compliance with State laws regarding adoption services.

The legislation also provides that services offered are to be nondiscriminatory as to

race, color, religion, or national origin. This amendment is not intended to affect the applicability of any existing Federal provision intended to prevent discrimination on the basis of these or other factors. The language is not intended to prohibit agencies from taking into account all relevant factors in deciding to place a child in a setting which is in the child's best interest. However, adoption services should not be denied nor significantly delayed on the basis of factors specified. This amendment is not intended to prevent discrimination on the basis of these other factors.

For the purposes of this new provision, projects are defined as delegate agencies or service sites.

Although S. 881 was reported out of the Labor and Human Resources Committee, no action was taken on the bill before Congress adjourned. I am hopeful that any reauthorization of the Title X Family Planning Program in the 100th Congress will once again include this adoption provision.

Mr. President, adoption is a positive alternative for women, particularly adolescents, with unintended pregnancies. Since family planning clinics are often the first point of contact between these women and the health care system after they have, or suspect they have, become pregnant, these clinics are the most important places to provide information about adoption.

This provision authorizing adoption services would not substantially divert funds from current family planning services. The provision is written in permissive language, it does not force any grantee to offer adoption services; rather, it merely clarifies that grantees may do so.

Since the title X statute requires that grantees provide a comprehensive range of family planning services, this provision could not result in the funding of adoption only service projects. I suspect that in most cases, those grantees who decide to provide adoption services would provide information and counseling services, which are not expensive. Even with regard to counseling and referral, this provision would not result in substantial diversion of program funds, since projects are currently required under certain circumstances to provide counseling and referral for adoption. Except in rare circumstances, actual adoption placement services would continue to be provided by existing adoption or social service agencies.

This legislation clarifies policy regarding adoption services in title X projects. Research has shown that adoption is more likely to be discussed by counselors in a social agency setting than by counselors in a health provider setting. This provision will help to emphasize the role that health care providers can play in discussing and encouraging adoption.

Mr. President, adoption has been called the loving option. I urge my col-

leagues to support this effort to help ensure that adoption does not become the forgotten option because of a lack of information.

I ask unanimous consent that the bill be printed in the *RECORD* as follows:

There being no objection, the bill was ordered to be printed in the *RECORD*, as follows:

S. 271

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 1001(a) of the Public Health Service Act is amended by inserting after the first sentence the following new sentences: "Such projects may also offer adoption services. Any adoption services provided under such projects shall be nondiscriminatory as to race, color, religion, or national origin."*

By Mr. HUMPHREY (for himself and Mr. HELMS):

S. 272. A bill to require certain individuals who perform abortions to obtain informed consent; to the Committee on Labor and Human Resources.

By Mr. HUMPHREY (for himself and Mr. HELMS):

S. 273. A bill to require certain individuals who perform abortions to obtain informed consent; to the Committee on Labor and Human Resources.

#### ABORTION CONSENT

● Mr. HUMPHREY. Mr. President, over the past year I have devoted considerable time and resources to publicizing a medical condition which increasingly has demanded attention from many concerned citizens. That condition is known as "postabortion trauma"—a term encompassing the many psychological and physical complications arising from abortion.

Postabortion trauma, particularly in the last several years, has come to light as a medical problem with serious and recognizable symptoms. Prior to the early 1970's, abortions were not performed in sufficient numbers for the ill-effects of abortion to be widely recognized or understood. But, following the *Roe versus Wade* decision in 1973, the number of abortions rose sharply to over 1.5 million a year, and as time passed, allowing many psychological and long-term abortion complications to manifest themselves, we have begun to observe increasing numbers of women who suffer from post-abortion trauma.

Since the early 1960's, abortion advocates called for the legalization of abortion in order that all women would enjoy safe abortion. Abortion is now legal "on demand" at any time in a pregnancy, and yet women across the Nation suffer in ever greater numbers the physical and emotional injury caused by abortion. A number of physicians and researchers have investigated this trend in the late 1970's and

early 1980's. More recently, private, nonprofit organizations have begun compiling a comprehensive list of the numerous studies and articles devoted to the subject.

Information about this issue has been publicized by "American Victims of Abortion" and "Women Exploited by Abortion"—two organizations devoted to counseling women who have suffered the ill-effects of postabortion trauma. These two groups are also committed to alerting the public to the potential and actual health hazards inherent in abortion. W.E.B.A. and A.V.A. members are primarily women who have experienced some of the tragic side effects of the abortion procedure.

The subsequent introduction of legislation relating to this issue—in the 99th Congress this included bills S. 2420 and S. 2791—drew scores of letters from women who themselves had suffered postabortion trauma. Most of these letters attribute much of their resentment about the abortion decision to the fact that they were not presented adequate information, or were misinformed about the abortion. These women now describe difficulties including subsequent premature births, cervical weakness, periodic or complete sterility, and miscarriages. They detail emotional ailments such as eating disorders, nightmares, depression and suicidal tendencies. They reveal guilt and anger, obsession with the dead child and a resulting failure to relate emotionally to the spouse and other children. They describe turning to alcohol and drugs.

The bills I am introducing today are revised versions of S. 2791, an informed consent bill I introduced late last year. Let me emphasize that the bills concern informed consent, and not parental information issues such as parental consent or parental notification. Parental information legislation would mandate the involvement of parents in the abortion decision of their minor daughter. These are important and worthwhile matters, but they are not the subject of the legislation before us now. Rather, these bills relate to the informing of any woman, minor or adult, about the abortion procedure, possible complications of the abortion, alternatives to abortion, and/or about the development of the unborn child.

Informed consent for any other medical surgery is standard procedure in the medical profession. Physicians are expected to conscientiously inform their patients about an operation, the risks of the operation, and alternatives to the procedure. However, while abortionists claim to counsel prospective patients prior to performing the abortion, currently there are no Federal requirements mandating that informed consent be sought prior to an abortion.

Today I introduce two bills that would allow women to be informed of the potential for postabortion trauma. One bill applies only to medical personnel who receive Department of Health and Human Services funds for the provision of health services. The other bill applies to those personnel receiving Department of Defense funds. Each bill applies to those personnel who, within the scope of their employment, perform an abortion on a woman. These persons must ensure that the pregnant woman has received the general information necessary to give written "informed consent" to the abortion. The bills also require that general information relevant to a woman's abortion decision be printed by the departments and that the information be available to the public. It does not require that any literature be provided to the woman, or that printed information be supplied by the doctor.

Medical personnel who fail to comply with the bills' requirements would be unable to receive Federal funds for the provision of health services. More importantly, any woman who is injured as a result of the medical personnel's failure to comply with this requirement, will be entitled to bring a cause of action for appropriate relief in Federal court.

Concerns have been raised about the constitutionality of such informed consent requirements following the recent Supreme Court decision in *Thornburgh versus American College of Obstetricians and Gynecologists*. In fact, I have revised the informed consent bill I introduced before the *Thornburgh* decision, in two ways in order to comply with the Court's opinion. However, it is important to note that the concept of informed consent has not been invalidated by the Court, even in this latest progeny of *Roe versus Wade*. Rather, in *Thornburgh*, the Court recognized that: A requirement that the woman give what is truly a voluntary and informed consent, as a general proposition, is, of course, proper and is surely not unconstitutional.

Supreme Court decisions prior to *Thornburgh*; namely, *City of Akron versus Akron Center for Reproductive Health* and *Planned Parenthood of Central Missouri versus Danforth*, have also upheld the concept of requiring informed consent from women contemplating abortion.

So, the Supreme Court has not invalidated the concept of informed consent, but rather has implied certain principles that must be respected in order for informed consent legislation to withstand court scrutiny:

Informed consent legislation may only require the provision of information that is relevant to the consent, thus advancing a legitimate interest.

The law's intent may not be to dissuade a woman from having an abortion. Instead, it must further a State's legitimate interest in promoting the health of the woman.

The informed consent provisions may not require a rigid body of information be provided to the woman. The physician must have flexibility to meet the particular needs of the woman, and may not be required to present what she considers extraneous information.

The informed consent statute must not make the physician an agent of the Government, by requiring that he or she distribute printed information, even upon the request of the woman.

I believe that this informed consent legislation has been drafted in accordance with the strictures outlined in the Thornburgh decision:

This legislation is not intended to limit the access of women to abortion, nor to limit the number of abortions procured each year by American women. The bills in no way restrict a woman's ability to procure an abortion. It is likely that some, indeed many, of the 1.5 million women undergoing legal abortions each year throughout the entire 9 months of pregnancy, have not been adequately informed about the procedure they are undergoing. Indeed, some of these women have been misinformed and lied to about the consequences and risks of their abortion. As a result, many of these women will possibly decline to procure an abortion once they have been adequately and accurately been informed about the abortion they originally sought.

Averting the procurement of abortions, however, is merely a side effect resulting from the alerting of women to the potential ill-effects caused by abortion. In fact, the intent of these bills is nothing more than the protection of the health of women who are considering abortion without being advised of the potential ill-effects to their health.

I have already described some of the identified health risks associated with abortion. Clearly, then, legislation aimed at informing women of the health hazards of abortion can only promote the health of this Nation's women.

I have eliminated the prior requirement that a specific body of information be provided to women by medical personnel before the abortion. The bills require only that the physician provide general information in a manner that will properly inform the woman. The physician is free from providing a "rigid" set of information to the woman, but nevertheless retains the responsibility to appropriately assess the needs of the woman and to properly inform her of various aspects of the abortion.

I have eliminated a requirement that printed information regarding alternatives to abortion be provided by the physician. However, in light of the vast numbers of letters from women pleading for improved information about alternatives to abortion, the bills require the Departments to print such information and make them available to the public. Such information should include listings of some of the thousands of pregnancy centers around the Nation that provide access to prenatal care, support, and counseling beyond the term of the pregnancy, and should refer to the hundreds of adoption centers around the Nation providing counseling and adoption placement services at no expense or at minimal cost. The Departments must also provide information about abortion procedures and some of the potential complications that might arise, and information regarding fetal development.

Mr. President, the need for informed consent is clear. The health of many women in this Nation is at stake. And beyond this, we must ensure that all women considering abortion are making an informed choice. I ask my colleagues to consider this: of what use is a right, if the information to use it wisely is withheld? Any choice made on an uninformed or misinformed basis is no choice at all.

Mr. President, I ask unanimous consent that the bills as introduced be printed in the CONGRESSIONAL RECORD.

There being no objection, the bills were ordered to be printed in the RECORD, as follows:

#### S. 272

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Informed Consent Act".*

#### DEFINITIONS

SEC. 2. For purposes of this Act, the term—

(1) the term "abortion" means the use of any instrument, medicine, drug, or any other substance or device, to terminate the pregnancy of a woman known to be pregnant, with an intention other than to increase the probability of a live birth, to preserve the life or health of the child after live birth, or to remove a dead fetus;

(2) the term "Department" means the Department of Health and Human Services;

(3) the term "Federal financial assistance" means any type of Federal financial assistance for the provision of health services which is provided directly by the Department to a recipient or which is provided through a recipient of such assistance from the Department to another individual or entity, and includes grants, contracts, loans, cooperative agreements, and reimbursements and payments for services;

(4) the term "informed consent" means the consent to an abortion by a pregnant woman after such woman is provided with all information necessary in order to enable such woman to intelligently exercise their judgment with respect to the abortion by reasonably balancing the probable risks of

the abortion against the probable benefits of the abortion;

(5) the term "pregnant woman" means any woman who is pregnant and, with respect to factors other than age, is legally capable of giving valid consent to the performance of an abortion; and

(6) the term "Secretary" means the Secretary of Health and Human Services.

#### INFORMED CONSENT REQUIRED

SEC. 3. (a) No individual who—

(1) is employed in a hospital, clinic, institution, or facility which provides health care services and is owned or operated by the Department;

(2) is employed by a hospital, clinic, institution, or facility which receives any Federal financial assistance; or

(3) receives any Federal financial assistance, shall, within the scope of employment of such individual, perform an abortion on a pregnant woman unless such individual has, prior to the performance of such abortion, complied with the provisions of this section.

(b) An individual to whom subsection (a) applies shall, prior to performing an abortion on a pregnant woman—

(1) ensure that such woman has been given sufficient information to enable such woman to give informed consent to the abortion; and

(2) obtain the written certification of such woman that her consent to the abortion is informed, has been freely given, and is not the result of coercion.

(c) Any written certification obtained from a pregnant woman under subsection (b)(2) shall be confidential, and may not be released to any person other than—

(1) such woman;

(2) the individual who performed the abortion; or

(3) any other individual who is required to consent to the abortion pursuant to law, unless such woman provides written consent to the release of such certification to any other person or a Federal or State court issues an order requiring the release of such certification to any other person.

(d)(1) The Secretary shall promulgate rules and procedures to ensure that officers and employees of any hospital, clinic, institution, or facility described in subsection (a) comply with this Act.

(2) The head of each hospital, clinic, institution, or facility described in subsection (a)(2) shall—

(A) promulgate rules and procedures to ensure that officers and employees of such hospital, clinic, institution, or facility comply with this Act; and

(B) take appropriate actions to monitor and enforce compliance by such officers and employees with this Act and such rules and procedures.

#### MEDICAL EMERGENCY EXCEPTION

SEC. 4. The provisions of subsections (a) and (b) of section 3 shall not apply in the case of an abortion performed on a pregnant woman, if the woman's physician determines, in the exercise of such physician's best medical judgment, that a medical emergency exists that complicates the woman's pregnancy in a manner which requires an immediate abortion.

#### ENFORCEMENT

SEC. 5. (a) The Secretary shall monitor compliance with this Act by individuals, hospitals, clinics, institutions, and facilities subject to this Act. If the Secretary determines that such an individual, hospital, clinic, institution, or facility has failed to

comply with this Act, the Secretary shall provide a written notice to such individual, hospital, clinic, institution, or facility which—

(1) specifies such determination; and  
(2) states that unless such individual, hospital, clinic, institution, or facility complies with this Act within 15 days after the receipt of such notice, all Federal assistance provided to such entity will be terminated.

(b) Any individual, hospital, clinic, institution, or facility which receives a written notice under subsection (a), may, within 30 days after the receipt of such notice, request the Secretary for a hearing with respect to—

(1) the determination of the Secretary under subsection (a);

(2) compliance by such individual, hospital, clinic, institution, or facility with this Act; and

(3) the termination of Federal assistance to such individual, hospital, clinic, institution, or facility pursuant to this Act.

(c) If the Secretary receives a request for a hearing under subsection (b), the Secretary shall schedule a hearing in response to such request within 30 days after receiving such request. Such hearing shall be conducted on the record in accordance with sections 554 through 559 of title 5, United States Code.

#### LEGAL ACTIONS

**SEC. 6.** Any individual who is aggrieved by the failure of an individual subject to this Act to provide the informed consent required by this Act, or by the failure of a hospital, clinic, institution, or facility subject to this Act to comply with this Act, may bring an action for appropriate relief in the district court of the United States in which such individual resides or in which such failure occurred.

#### INFORMATIONAL MATERIALS

**SEC. 7. (a)** Within 120 days after the date of enactment of this Act, the Secretary shall prepare and make available to the public, materials which contain—

(1) a description of the various methods of abortion;

(2) a description of the medical risks, both physical and psychological, associated with abortion;

(3) a description of the probable anatomical and physiological characteristics of the unborn child at two-week gestational increments from fertilization to full term, including information on the unborn child's ability to survive outside the mother's womb; and

(4) information concerning the availability of financial assistance and social services, including a comprehensive list of (A) public and private agencies, including adoption agencies, which are available to assist a woman through pregnancy, childbirth, and the period of dependency of her child or children, (B) the addresses and telephone numbers of such agencies, and (C) a description of the services offered by each such agency.

(b) The Secretary shall prepare the materials required by subsection (a) in each language used by a significant portion of the population of the United States.

(c) The Secretary shall make the materials required by subsection (a) available to the public without charge.

(d) The Secretary shall annually review and update the materials required by subsection (a).

#### SEVERABILITY

**SEC. 8.** If any provision of this Act or the application thereof to any person or circumstance is held invalid, neither the remainder of this Act nor the application of such provision to other persons or circumstances shall be affected thereby.

#### S. 273

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Informed Consent Act".*

#### DEFINITIONS

**SEC. 2.** For purposes of this Act, the term—

(1) the term "abortion" means the use of any instrument, medicine, drug, or any other substance or device, to terminate the pregnancy of a woman known to be pregnant, with an intention other than to increase the probability of a live birth, to preserve the life or health of the child after live birth, or to remove a dead fetus;

(2) the term "Department" means the Department of Defense.

(3) the term "informed consent" means the consent to an abortion by a pregnant woman after such woman is provided with all information necessary in order to enable such woman to intelligently exercise her judgment with respect to the abortion by reasonably balancing the probable risks of the abortion against the probable benefits of the abortion;

(4) the term "pregnant woman" means any woman who is pregnant and, with respect to factors other than age, is legally capable of giving valid consent to the performance of an abortion; and

(5) the term "Secretary" means the Secretary of Defense.

#### INFORMED CONSENT REQUIRED

**SEC. 3. (a)** No individual who is employed in a hospital, clinic, institution, or facility which provides health care services and is owned or operated by the Department

shall, within the scope of employment of such individual, perform an abortion on a pregnant woman unless such individual has, prior to the performance of such abortion, complied with the provisions of this section.

(b) An individual to whom subsection (a) applies shall, prior to performing an abortion on a pregnant woman—

(1) ensure that such woman has been given sufficient information to enable such woman to give informed consent to the abortion; and

(2) obtain the written certification of such woman that her consent to the abortion is informed, has been freely given, and is not the result of coercion.

(c) Any written certification obtained from a pregnant woman under subsection (b)(2) shall be confidential, and may not be released to any person other than—

(1) such woman;

(2) the individual who performed the abortion; or

(3) any other individual who is required to consent to the abortion pursuant to law, unless such woman provides written consent to the release of such certification to any other person or a Federal or military court issues an order requiring the release of such certification to any other person.

(d)(1) The Secretary shall (A) promulgate rules and procedures to ensure that officers and employees of any hospital, clinic, institution, or facility described in subsection (a) comply with this Act; and

(B) take appropriate actions to monitor and enforce compliance by such officers and employees with this Act and such rules and procedures.

#### MEDICAL EMERGENCY EXCEPTION

**SEC. 4.** The provisions of subsections (a) and (b) of section 3 shall not apply in the case of an abortion performed on a pregnant woman, if the woman's physician determines, in the exercise of such physician's best medical judgment, that a medical emergency exists that complicates the woman's pregnancy in a manner which requires an immediate abortion.

#### ENFORCEMENT

**SEC. 5.** The Secretary shall monitor compliance with this Act by individuals, hospitals, clinics, institutions, and facilities subject to this Act.

#### LEGAL ACTIONS

**SEC. 6.** Any individual who is aggrieved by the failure of an individual subject to this Act to provide the informed consent required by this Act, or by the failure of a hospital, clinic, institution, or facility subject to this Act to comply with this Act, may bring an action for appropriate relief in the district court of the United States in which such individual resides or in which such failure occurred.

#### INFORMATIONAL MATERIALS

**SEC. 7. (a)** Within 120 days after the date of enactment of this Act, the Secretary shall prepare and make available to the public, materials which contain—

(1) a description of the various methods of abortion;

(2) a description of the medical risks, both physical and psychological, associated with abortion;

(3) a description of the probable anatomical and physiological characteristics of the unborn child at two-week gestational increments from fertilization to full term, including information on the unborn child's ability to survive outside mother's womb; and

(4) information concerning the availability of financial assistance and social services, including a comprehensive list of (A) public and private agencies, including adoption agencies, which are available to assist a woman through pregnancy, childbirth, and the period of dependency of her child or children, (B) the addresses and telephone numbers of such agencies, and (C) a description of the services offered by each such agency.

(b) The Secretary shall prepare the materials required by subsection (a) in each language used by a significant portion of the population of the United States.

(c) The Secretary shall make the materials required by subsection (a) available to the public without charge.

(d) The Secretary shall annually review and update the materials required by subsection (a).

#### SEVERABILITY

**SEC. 8.** If any provision of this Act or the application thereof to any person or circumstance is held invalid, neither the remainder of this Act nor the application of such provision to other persons or circumstances shall be affected thereby.

By Mr. HUMPHREY (for himself and Mr. HELMS):

S. 274. A bill to restrict the use of Federal funds available to the Bureau

of Prisons to perform abortions; to the Committee on the Judiciary.

PROHIBITION OF USE OF FEDERAL FUNDS FOR  
ABORTIONS IN PRISONS

● **Mr. HUMPHREY.** Mr. President, I introduce today a bill prohibiting the use of Federal funds by the Justice Department, through its agency, the Bureau of Prisons, to pay for abortions procured by Federal prison inmates.

Regulatory authority providing for bureau involvement with abortion can be found in title 28 of the Code of Federal Regulations. Section 551.20 states:

The Bureau of Prisons provides an inmate with medical and social services related to birth control, pregnancy child placement, and abortion. The warden shall ensure compliance with the applicable law regarding these matters.

Section 551.24 specifies the following:

(a) The inmate has the responsibility for deciding to have an abortion or bear the child.

(b) The warden shall provide medical, religious and social counseling to aid the inmate in making the decision to have an abortion or bear the child.

(c) An inmate shall sign a statement of responsibility for the decision to have an abortion or bear the child.

(d) At the inmate's request, medical staff shall arrange for the abortion to take place at a hospital or clinic outside the institution.

The statutory authority obligating the Bureau of Prisons to manage Federal correctional institutions and to "provide for the safekeeping, care, and subsistence of all persons" incarcerated in those institutions. 18 U.S.C. 4042. Section 4007 authorizes funding for the care of the prisoners, requiring that "the expenses attendant upon the confinement of persons arrested or committed under the laws of the United States \* \* \* shall be paid out of the Treasury of the United States in the manner provided by law." 18 U.S.C. 4007. The regulations cited above are intended to carry out this authority.

Actual funds for prisoner abortions, however, are provided by annual Commerce, Justice, State appropriations bills. In the past, efforts have been made to restrict this funding. Most notable of these was a Dornan amendment to the fiscal year 1986 appropriations bill, which would have prohibited the use of Federal funds to pay for most abortions. That language provided that:

None of the funds contained in this act shall be used to perform abortions except where the life of the mother would be endangered if the fetus were carried to term.

This bill was passed by the House, but was ultimately rejected by the Senate. However, in fiscal year 1987, the House and the Senate agreed to language prohibiting some Federal funding of prisoner abortions. The House passed a dramatically more re-

strictive version of the Dornan amendment by a wide margin. That language prohibited the use of Federal funds to pay for an abortion, to provide facilities for the performance of an abortion, or to pay for travel expenses, staff escorts, or housing related to the procuring of an abortion. The Senate Appropriations Subcommittee deleted the language from the Senate version of the bill, and following the chaotic climax to that Congress' bungling of the budget, when the Commerce appropriations bill was rolled into the continuing resolution with every other appropriations bill, there was no vote on the original House language or on the subcommittee deletion.

The resulting compromise governing appropriations for the current fiscal year dictates that no funds be expended for the abortion itself, except in cases where the life of the mother would be endangered, or where the pregnancy was the result of a rape.

Under the policy existing prior to the passage of these appropriations measures, the Bureau of Prisons reportedly paid for 37 elective—not medically necessary, but elective—abortions in fiscal year 1985, 33 in fiscal year 1984, 41 in fiscal year 1983, 21 in fiscal year 1982, 21 in fiscal year 1981 and 14 in fiscal year 1980. Dozens of additional therapeutic and spontaneous abortions were also paid for during that same period. The average cost of the abortions was between \$500 and \$750.

The number of abortions, and the Federal funds devoted to paying for them may appear insignificant in and of themselves. Nevertheless, any Federal funding of elective abortion represents a radical departure from the current Federal practice under the Hyde amendment and its progeny of paying for abortion only when the life of the mother is physically and imminently endangered by a pregnancy. I applaud the recent progress made in bringing the Bureau of Prisons more nearly in compliance with Federal policy governing the funding of abortion and abortion-related services under the Departments of Defense and Health and Human Services, and for Federal employees' health benefits, Peace Corps volunteers, Indian Health Services and the Legal Services Corporation. But I firmly believe that the Bureau of Prisons abortion funding policy must be consistent with current Medicaid policy under the Hyde amendment, and I intend this bill to accomplish that goal.

While the Supreme Court has not directly addressed the issue of funding for Federal inmate abortions, lower courts have issued related opinions in at least three cases:

In *Doe v. Jennings*, No. 79-681D (W.D. PA. May 23, 1979), a county jail warden refused to allow an inmate to obtain a first-trimester abortion with-

out a court order. The district court ordered that the inmate be transported for an abortion, but that she fund the procedure.

In *Commonwealth of Virginia v. Doe*, No. 13899-13905 (Cir. Ct. Arlington County, March 1, 1979), the officials of the Arlington County jail refused to allow an inmate to obtain an abortion although a clinic would perform the abortion without charge. The court ordered that the inmate be allowed to receive an abortion as long as the expense would not be borne by the county.

In *Lett versus Witworth*, the court ordered that the plaintiff be allowed to have a second-trimester abortion at a hospital, although no ruling was made on payment for the procedure. In this instance, the County Welfare Department paid for the abortion.

Despite these generally favorable rulings on similar issues, a number of arguments have been raised against restrictions on the funding of abortions for prison inmates who are often too poor to pay for health care, and who are wards of the State. While no one can accurately anticipate how the Supreme Court will rule in this area, I believe that it is important to note the similarities between the issue of withholding abortion funding for prisoners, and doing so for the poor—a related issue on which the Court has ruled.

Opponents of this legislation note that incarcerated persons retain their fundamental constitutional rights, including the right to adequate medical care, and the right to have an abortion.

Although there may be a right to abortion, the Supreme Court has held in *Harris versus McRae* and its progeny, that there is no accompanying right to public funding for the exercise of the right to abortion. The Court noted in *Harris* that abortion differs from other medical procedures: "No other procedure involved the purposeful termination of potential life." The Court, then, has granted a right to abortion, found within the penumbra of the right to privacy, to all women, including incarcerated women. It has refused, however, to grant poor women the right to funding for their abortion.

Opponents also argues that the legislation creates an absolute barrier to indigent prisoners seeking abortions.

The Court, in reviewing abortion restrictions similar to those found in this bill, has focused on barriers raised by the State in obstructing a woman's access to abortion. The Court has emphasized that barriers not of the Government's making are not the responsibility of the Government. The Court further ruled that indigency was not a barrier erected by the Government. This bill does not address a woman's right to an abortion. It only concerns

whether the abortion shall be funded by the Government. The bill does not erect an absolute barrier to abortion: As with the Hyde amendment restricting Medicaid funding for abortion, friends, family, or clinics serving indigent women are not precluded from paying for the abortion.

Opponents further argue that the eighth amendment to the Constitution prohibits cruel and unusual punishment. As a result, they argue that the Bureau of Prisons must provide a standard of medical care including publicly funded abortions.

It is true that the Government must provide prisoners with food, shelter, and minimum adequate medical treatment. Indeed, courts have ruled that this constitutional right to care arises whenever there is a serious medical need, such as physical danger to the life of the mother. However, inmates are not entitled to Federal funding of a variety of discretionary care available to the general public. Elective abortions are, by definition, discretionary, and funding for such activities need not be provided by the Government.

In short, the issue is not the standard of medical care to be provided to prisoners or the right of a prisoner to an abortion. Instead the issue concerns whether taxpayers must be compelled to pay for elective abortions and the deliberate destruction of innocent human life. We have refused to do so for over a decade under the Hyde amendment, and we should no longer do so in the Federal prisons system.

I ask unanimous consent that the bill as introduced be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 274

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That chapter 301 of Title 18 of the United States Code is amended to add the following new section:

"SEC. . None of the funds available to the Bureau of Prisons shall be used to perform abortions, except where the life of the mother would be endangered if the fetus were carried to term."

By Mr. WILSON: (for himself and Mr. CRANSTON):

S. 275. A bill to amend the Wild and Scenic River Act; to the Committee on Energy and Natural Resources.

#### WILD AND SCENIC RIVERS ACT

● Mr. WILSON. Mr. President, I rise today to introduce for myself and my colleague from California, Senator CRANSTON, a bill to designate segments of the main stem and the south fork of the Merced River in California as part of the National Wild and Scenic Rivers System. I believe that this river—which flows out of the famed Yosemite Valley—represents just the

kind of river that the Wild and Scenic Rivers Act of 1968 was intended to protect.

This bill reflects the draft recommendations of the National Forest Service as included in the draft environmental impact statement for the proposed forest land and resource management plan for the Sierra National Forest. It calls for 82 miles of the main stem of the river, from its source in Yosemite National Park to Lake McClure, and 43 miles of the south fork of the Merced, from its source in Yosemite to the confluence with the main stem, to be included in the National Wild and Scenic Rivers System. I am pleased to introduce this measure which represents the culmination of an extensive study conducted by the National Forest Service, the Bureau of Land Management, and the National Park Service. I commend those involved in the development of the draft environmental impact statement for their spirit of dedication and cooperation which allowed this comprehensive proposal for the Merced and its south fork to become a reality.

The Merced River and its south fork travel almost 125 miles in their journey from the 12,000 foot peaks of Yosemite's Clark Range down to the quiet waters of Lake McClure, only 800 feet above sea level in the Sierra Nevada foothills. The banks of both the main stem and the south fork are rich in rare vegetation, and in the spring, a brilliant array of flowers carpet the steep canyon walls of the river. The area surrounding the river abounds in cultural heritage and is well known for its fascinating gold rush history. Over 1 million park visitors enjoy the Merced River and its south fork. They come to experience the thrill of rafting its rapids, to fish its waters, and to witness its extraordinary beauty.

The draft Forest Service recommendations that are embodied in this bill are supported by area businessmen, the Merced Canyon Committee, and many other local residents. The opportunity to protect this river has arisen in part because of the fine work done by the Merced Canyon Committee and others who have flushed out and resolved the potential problems that might have arisen from wild and scenic designation of the river. What has emerged from this long examination process is a draft Forest Service recommendation that allows new tourist business possibilities while at the same time preserving something very special. I am not aware of any major hydroelectric development potential that would be precluded by this legislation.

Mr. President, I am proud to introduce this bill which will ensure permanent protection for this unique and most deserving river. I believe that addition of the Merced and its south fork

with complement beautifully the fine work that Congress did a little over 2 years ago in adding the Merced's sister river to the north—the Tuolumne River—to the National Wild and Scenic Rivers System. I ask unanimous consent that the text of the bill be printed at this point in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 275

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

Section 3(a) of the Wild and Scenic Rivers Act (16 U.S.C. 1271-1287) as amended is further amended by inserting the following new paragraph:

"( ) MERCEDES, CALIFORNIA.—The main river from its source on the south side of Mount Lyell in Yosemite National Park to the point of maximum flood control storage of Lake McClure, consisting of approximately 82 miles, and the South Fork of the river from its source near Triple Divided Peak in Yosemite National Park to the confluence with the main stem, consisting of approximately 43 miles, both as generally depicted on the map entitled 'Merced and So. Fork Merced Rivers' contained in the Appendices of the Draft Environmental Impact Statement for the Sierra National Forest published by the United States Department of Agriculture in 1986; to be administered by the Secretary of Agriculture and the Secretary of the Interior. After consultation with State and local governments and the interested public and within two years from the date of enactment of this paragraph, the Secretary shall take such action as is required under subsection (b) of this section. For fiscal years commencing after September 30, 1987, there are authorized to be appropriated such sums as may be necessary to implement the provisions of this subsection."

By Mr. NICKLES:

S. 276. A bill to amend the Internal Revenue Code of 1954 to impose a fee on the importation of crude oil or refined petroleum products; to the Committee on Finance.

#### CRUDE OIL IMPORT FEE

● Mr. NICKLES. Mr. President, imports of crude oil and petroleum products are threatening our national security interests. The latest numbers published by the Energy Information Administration indicate that net imports during the first 352 days of 1986 averaged 5.3 million barrels per day, about 24 percent above the average for the same period in 1985.

The United States now relies on imports for about 40 percent of its needs. We have returned to the same degree of reliance on foreign crude that we had during 1973, and all indications are that our reliance on foreign oil will increase further. For this reason, I am sponsoring legislation today to impose a fee on oil imports. This legislation is identical to S. 2886, which I introduced last year.

The measure that I am introducing today would place a fee on imported

crude oil equal to the difference in international prices for crude oil and \$20. It would impose an additional fee on imported products equal to the oil fee plus \$3.

This oil import fee will go a long way toward reversing our dependency on OPEC and bolstering our domestic oil and gas industry. The domestic energy industry is clearly in a depression. It is therefore imperative that we focus not just on the import fee proposal but on the Federal Government's entire energy policy. Accordingly, I am also introducing today a measure to repeal the windfall profit tax.

By the fall of 1986, world oil prices had fallen to less than half what they were the year before, and to less than a third of the price levels of 1983. This decline in oil prices has not been caused by the demise of OPEC but by the calculated strategy of a couple of major exporting nations trying to manipulate the market for future gain. Therefore, we don't see pure market principles at work but calculated maneuvers by Government entities to increase their control over the world oil market.

I believe it would be unwise for our Government to sit idly by and allow countless American producers and refiners to go bankrupt while the Saudis and others are tightening the screws on oil producing countries. As a bare minimum, let's require that they pay at least the same tax that our domestic producers have been forced to pay since 1980. The average windfall profit tax for the lower 48 States has averaged more than \$5 per barrel since passage of the windfall profit tax.

An oil equalization fee would be a first step toward regaining the losses we have suffered in years past at the hands of OPEC. Let us not lose this present opportunity to make a positive change.●

By Mr. THURMOND (for himself, Mr. HATCH, Mr. TRIBLE, Mr. D'AMATO, Mr. HELMS, Mr. WILSON, Mr. SPECTER, Mr. DeCONCINI, and Mr. GRASSLEY):

S. 277. A bill to establish constitutional procedures for the imposition of the sentence of death, and for other purposes; to the Committee on the Judiciary.

By Mr. THURMOND (for himself, Mr. HATCH, Mr. TRIBLE, Mr. HELMS, Mr. WILSON, Mr. DeCONCINI, and Mr. ZORINSKY):

S. 278. A bill to amend title 18 to limit the application of the exclusionary rule; to the Committee on the Judiciary.

#### DEATH PENALTY

● Mr. THURMOND. Mr. President, today, as the 100th Congress convenes, I am introducing three bills similar to

ones that I introduced during the last Congress. These bills address important issues with regard to the administration of the criminal laws in this country: The establishment of constitutional procedures for the imposition of the death penalty for certain Federal offenses, Federal habeas corpus review of State criminal convictions, and the use of the exclusionary rule in Federal criminal trials. Similar bills passed the Senate by overwhelming margins in the 98th Congress; however, the full Senate did not have the opportunity to consider these measures in the last Congress. Passage of these measures is long overdue.

#### DEATH PENALTY

The first of these bills would establish constitutional procedures for the imposition of the death penalty.

Currently, numerous Federal statutes provide that a sentence of death may be imposed if a person is found guilty. However, the reality is that the death penalty cannot be imposed because constitutional procedures for imposing such a sentence do not exist. In 1972, the Supreme Court, in *Furman versus Georgia*, ruled that the existing death penalty statutes were unconstitutional because the jury was allowed to use its unfettered discretion in determining whether a sentence of death should be imposed. This decision rendered the Federal death penalty inoperative. Subsequently, in a series of landmark decisions handed down in 1976, the Supreme Court determined that the death penalty was constitutional when imposed under certain procedures specifically designed to guard against the jury using its unfettered discretion.

The Supreme Court has subsequently handed down many decisions which have clarified circumstances under which the death penalty may be imposed. Efforts have also been underway in the Senate since 1977 to establish procedures for the imposition of the death penalty which pass constitutional muster.

The bill that I am offering today comports with the constitutional requirements outlined by the Supreme Court. The bill sets up a bifurcated process which the factfinder must follow when determining whether a sentence of death is justified. This process consists of a hearing to determine the guilt or innocence of the defendant and a second hearing to determine whether to impose the death penalty on a guilty defendant.

In order to seek a sentence of death, the attorney for the Government would be required to give notice to the defendant a reasonable time before the trial that the Government intends to seek a sentence of death. The attorney for the Government must also identify in that notice the statutory aggravating factor or factors the Government intends to prove. The sen-

tencing hearing would be held before the same jury which determined that the defendant was guilty; or if the defendant requests and the attorney for the Government agrees, the trial judge alone.

If a verdict of guilty is returned, the factfinder, in its deliberation held after the sentencing hearing, would have to make a series of determinations before a sentence of death could be imposed.

First, depending upon the crime involved, the factfinder must determine that special threshold requirements exist. If none is found to exist, then a sentence other than death would have to be imposed.

Second, if the required threshold factors are found to exist, the jury—or judge—would have to make special findings as to the existence of statutory aggravating and mitigating factors presented at the sentencing hearing. Every member of the jury must believe at least one of the presented statutory aggravating factors exists, but only those factors believed to exist by a majority of the jury would be considered in the final weighing. A majority of the jury must also feel that a specific mitigating factor exists in order for it to be considered in the final deliberation. If no statutory aggravating factors are found to exist, then a sentence other than death would have to be imposed.

Finally, if at least one common statutory aggravating factor is found to exist by a majority of the jury, the deliberation moves to a third step. Here the jury—or judge—must weigh all the statutory aggravating and mitigating factors found to exist along with any nonstatutory aggravating and mitigating factors presented at the sentencing hearing. After weighing all of these factors, the jury—or judge—would then decide whether the death penalty should be imposed. This bill, as amended by the Judiciary Committee, during the 99th Congress, also contains a new provision which prohibits the imposition of a sentence of death on a person who was less than 18 years of age at the time of the offense.

In addition to establishing constitutional procedures for the imposition of the death penalty, this bill also authorizes the death penalty for the first time for the following offenses: (1) Certain attempts to assassinate the President and (2) murder by a Federal prisoner serving a life term in a Federal correctional institution. These provisions were contained in the bill as approved by the Judiciary Committee.

In addition, I have included the following provisions for the first time: (1) To authorize a sentence of death for a person who, while engaged in a continuing criminal enterprise, causes the death of another person. This provision is similar to a provision included

in the drug bill last Congress. As many of my colleagues will recall, that provision was overwhelmingly approved by the House, but was unfortunately dropped during Senate consideration of the drug bill. (2) A provision sometimes referred to as the Klinghoffer amendment—that authorizes the death penalty in hostage-taking situations where death results to the hostage, or to a person attempting to rescue a hostage or apprehend the hostage takers. (3) To authorize the death penalty for two related offenses first enacted by the Comprehensive Crime Control Act of 1984 regarding murder for hire and murder in aid of racketeering activity.

The death penalty is not a new issue. In the 98th Congress, the Senate approved a death penalty bill which is essentially the same as the bill that I am offering today. That bill passed by an overwhelming vote of 63 to 32. It has been more than 10 years since the Supreme Court determined that the death penalty was constitutional, and we should not go another moment without the ability to fully implement our laws for the protection of our law-abiding citizens.

#### HABEAS CORPUS REFORM

The second bill I am introducing here would reform Federal habeas corpus and collateral attack procedures. This will minimize Federal judicial interference with State criminal convictions, promote finality of such convictions, and deal with common abuses typical of habeas prisoner petitions. In the 97th Congress, the Senate passed a bill identical to the one I am introducing today by an overwhelming vote of 67 to 9. I introduced that same bill in the 99th Congress; however, no action was taken.

This bill proposes amendments to various sections of chapter 153 of title 28 of the United States Code, and a related rule of appellate procedure. Its objectives are to establish a more appropriate scope and function for Federal habeas corpus for State prisoners, accord more appropriate weight to State interests in finality and orderly procedures in criminal adjudication, improve the efficiency of habeas corpus litigation and appellate review of such litigation, and effect certain corresponding improvements in the operation of collateral remedies for Federal prisoners. The proposed amendments would change the operation of Federal collateral remedies in several respects.

First, the proposed amendments would preclude granting relief with respect to matters that have been fully and fairly adjudicated in State proceedings. This important change would enhance the finality of State criminal adjudications and avoid duplicative litigation of claims that have already been adequately considered and decided.

Second, the proposed amendments would generally bar the consideration of claims that have not been properly raised in State proceedings, provided the State has afforded the petitioner an opportunity consistent with the requirements of Federal law to raise his claims in the State proceedings.

Third, the proposed amendments would establish a 1-year limitation period for the filing of habeas corpus petitions by State prisoners, which would generally run from the time of exhaustion of State remedies. This limitation period would bar petitions in cases in which the passage of time has made reliable adjudication of the petitioner's claims or retrial of the petitioner difficult or impossible. The limitation period would also advance the policies supporting finality and repose in criminal adjudication.

Fourth, the proposed amendments would clearly state that a Federal habeas court can deny a petition on the merits without requiring prior exhaustion of State remedies, thereby avoiding the waste of judicial resources that results when a person presenting a frivolous petition is sent back to the State courts to exhaust State remedies.

Fifth, the proposed amendments would vest in the judges of the courts of appeals exclusive authority to issue certificates of probable cause for appeal in habeas corpus proceedings. This would entrust the decision concerning the propriety of an appeal to the judges who are in the best position to determine if there is a realistic likelihood of reversal. It would also avoid duplicative consideration of the suitability of a case for appeal, first by a district judge, and then by a circuit judge.

Sixth, the proposed amendments would make similar changes in the law governing applications for collateral relief by Federal prisoners pursuant to 28 U.S.C. 2255 in the areas of appeal, procedural default and time limitation.

#### EXCLUSIONARY RULE

The third of these bills would codify an exception to the exclusionary rule, an exception which has been recognized by the Supreme Court. It also contains a provision with regard to the application of the exclusionary rule for violations of Federal statutes and rules.

A bill similar to this bill passed the 98th Congress by a vote of 63 to 24. I reintroduced that bill in the 99th Congress; however, no action was taken.

The exclusionary rule is a judiciary created remedy for Government violations of the fourth amendment. More simply, if evidence is obtained in violation of the fourth amendment prohibition against illegal search and seizure then that evidence will be excluded in a criminal trial. The rationale behind this remedy is to deter law enforce-

ment officers from violating the fourth amendment by excluding illegally seized evidence. Unfortunately, as we have seen in recent years, the exclusionary rule can provide a "loop-hole" which often results in the release of the accused on a basis other than the merits of the underlying criminal charge. I do not believe that law enforcement officers should be allowed to randomly enter our homes or private places and search without just cause.

However, as the Supreme Court has recognized, there are certain instances in which the application of the exclusionary rule is not justified.

The bill I am introducing today recognizes one of those instances. It would allow the admission of evidence, which is later determined to have been illegally seized, in a criminal trial, if the evidence is obtained, with or without a warrant, by a law enforcement officer acting with an objectively reasonable belief that his conduct conforms with the fourth amendment. This bill would in essence, codify the 1984 Supreme Court decision in *United States versus Leon* with respect to searches pursuant to a warrant, and extend the application of the *Leon* rationale to warrantless searches.

Also, for the first time, this bill includes a provision which would provide that the exclusionary rule should not be invoked for violation of a Federal statute or rule of procedure if the underlying violation does not reach constitutional proportions. The exclusionary rule would be applied if the statute or rule specifically provides for its application. This is an issue that the Supreme Court has not considered thoroughly. However, as we have seen, the exclusion of evidence most often results in the release of the accused. This is a high price to pay for nonconstitutional violations. Therefore, I think it wise to preclude the use of the exclusionary rule in these situations unless Congress so provides.

The three bills I have introduced today would make important reforms in our criminal justice system. These bills have been the subject of many hearings in previous Congresses and I hope that the Senate will act without delay in the 100th Congress to approve these measures.

I ask unanimous consent that the text of the bills be printed in the CONGRESSIONAL RECORD.

There being no objection, the bills were ordered to be printed in the RECORD, as follows:

S. 277

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That title 18 of the United States Code is amended—*

(a) by adding the following new chapter after chapter 227:

## "CHAPTER 228—DEATH SENTENCE

"Sec. 2

"3591. Sentence of death.

"3592. Factors to be considered in determining whether a sentence of death is justified.

"3593. Special hearing to determine whether a sentence of death is justified.

"3594. Imposition of a sentence of death.

"3595. Review of a sentence of death.

"3596. Implementation of a sentence of death.

"3597. Use of State facilities.

"§ 3591. Sentence of death.

"A defendant who has been found guilty of—

"(a) an offense described in section 794 or section 2381 of this title;

"(b) an offense described in section 1751(c) of this title, if the offense, as determined beyond a reasonable doubt at the hearing under section 3593, constitutes an attempt to kill the President of the United States and results in bodily injury to the President or comes dangerously close to causing death of the President; or

"(c) any other offense for which a sentence of death is provided, if the defendant, as determined beyond a reasonable doubt at the hearing under section 3593—

"(1) intentionally killed the victim;

"(2) intentionally inflicted serious bodily injury that resulted in the death of the victim; or

"(3) intentionally participated in an act, contemplating that the life of a person would be taken or intending that lethal force would be used in connection with a person, other than one of the participants in the offense, and the victim died as a direct result of the act;

shall be sentenced to death if, after consideration of the factors set forth in section 3592 in the course of a hearing held pursuant to section 3593, it is determined that imposition of a sentence of death is justified; provided that no person may be sentenced to death who was less than eighteen years of age at the time of the offense.

§ 3592. Factors to be considered in determining whether a sentence of death is justified

"(a) MITIGATING FACTORS.—In determining whether a sentence of death is justified for any offense, the jury, or if there is no jury, the court, shall consider each of the following mitigating factors and determine which, if any, exist:

"(1) the defendant's mental capacity was significantly impaired, although the impairment was not such as to constitute a defense to prosecution;

"(2) the defendant was under unusual and substantial duress, although not such duress as would constitute a defense to prosecution; and

"(3) the defendant was an accomplice whose participation in the offense was relatively minor.

The jury, or if there is no jury, the court, shall consider whether any other mitigating factor exists.

"(b) AGGRAVATING FACTORS FOR ESPIONAGE AND TREASON.—In determining whether a sentence of death is justified for an offense described in section 3591(a), the jury, or if there is no jury, the court, shall consider each of the following aggravating factors and determine which, if any, exist:

"(1) the defendant has previously been convicted of another offense involving espionage or treason for which either a sen-

tence of life imprisonment or death was authorized by statute;

"(2) in the commission of the offense the defendant knowingly created a grave risk of substantial danger to the national security; and

"(3) in the commission of the offense the defendant knowingly created a grave risk of death to another person.

The jury, or if there is no jury, the court, may consider whether any other aggravating factor exists.

"(c) AGGRAVATING FACTORS FOR HOMICIDE AND FOR ATTEMPTED MURDER OF THE PRESIDENT.—In determining whether a sentence of death is justified for an offense described in section 3591 (b) or (c), the jury, or if there is no jury, the court, shall consider each of the following aggravating factors and determine which, if any, exist:

"(1) the death, or injury resulting in death, occurred during the commission or attempted commission of, or during the immediate flight from the commission of, an offense under section 751 (prisoners in custody of institution or officer), section 794 (gathering or delivering defense information to aid foreign government), section 844(d) (transportation of explosives in interstate commerce for certain purposes), section 844(f) (destruction of Government property in interstate commerce by explosives), section 1118 (prisoners serving life term), section 1201 (kidnaping), or section 2381 (treason) of this title, or section 902 (i) or (n) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1472 (i) or (n)) (aircraft piracy);

"(2) the defendant has previously been convicted of another Federal or State offense resulting in the death of a person, for which a sentence of life imprisonment or a sentence of death was authorized by statute;

"(3) the defendant has previously been convicted of two or more Federal or State offenses, punishable by a term of imprisonment of more than one year, committed on different occasions, involving the infliction of, or attempted infliction of, serious bodily injury or death upon another person;

"(4) the defendant, in the commission of the offense, knowingly created a grave risk of death to one or more persons in addition to the victim of the offense;

"(5) the defendant committed the offense in an especially heinous, cruel, or depraved manner;

"(6) the defendant procured the commission of the offense by payment, or promise of payment, or anything of pecuniary value;

"(7) the defendant committed the offense as consideration for the receipt, or in the expectation of the receipt, of anything of pecuniary value;

"(8) the defendant committed the offense after substantial planning and premeditation to cause the death of a person or commit an act of terrorism; or

"(9) the defendant committed the offense against—

"(A) the President of the United States, the President-elect, the Vice President, the Vice-President-elect, the Vice-President-designate, or, if there is no Vice President, the officer next in order of succession to the office of the President of the United States, or any person who is acting as President under the Constitution and laws of the United States;

"(B) a chief of state, head of government, or the political equivalent, of a foreign nation;

"(C) a foreign official listed in section 1116(b)(3)(A) of this title, if he is in the United States on official business; or

"(D) a Federal public servant who is a

judge, a law enforcement officer, or an employee of a United States penal or correctional institution—

"(i) while he is engaged in the performance of his official duties;

"(ii) because of the performance of his official duties; or

"(iii) because of his status as a public servant.

For purposes of this subparagraph, a 'law enforcement officer' is a public servant authorized by law or by a Government agency or Congress to conduct or engage in the prevention, investigation, or prosecution of an offense.

The jury, or if there is no jury, the court, may consider whether any other aggravating factor exists:

"§ 3593. Special hearing to determine whether a sentence of death is justified

"(a) NOTICE BY THE GOVERNMENT.—If, in a case involving an offense described in section 3591, the attorney for the government believes that the circumstances of the offense are such that a sentence of death is justified under this chapter, he shall, a reasonable time before the trial, or before acceptance by the court of a plea of guilty, or at such time thereafter as the court may permit upon a showing of good cause, sign and file with the court, and serve on the defendant, a notice—

"(1) stating that the government believes that the circumstances of the offense are such that, if the defendant is convicted, a sentence of death is justified under this chapter; and

"(2) setting forth the aggravating factor or factors that the government, if the defendant is convicted, proposes to prove as justifying a sentence of death.

The court may permit the attorney for the government to amend the notice upon a showing of good cause.

"(b) HEARING BEFORE A COURT OR JURY.—If the attorney for the government has filed a notice as required under subsection (a) and the defendant is found guilty of an offense described in section 3591, the judge who presided at the trial or before whom the guilty plea was entered, or another judge if that judge is unavailable, shall conduct a separate sentencing hearing to determine the punishment to be imposed. Prior to such a hearing, no presentence report shall be prepared by the United States Probation Service, notwithstanding the provision of Rule 32(e) of the Federal Rules of Criminal Procedure. The hearing shall be conducted—

"(1) before the jury that determined the defendant's guilt;

"(2) before a jury impaneled for the purpose of the hearing if—

"(A) the defendant was convicted upon a plea of guilty;

"(B) the defendant was convicted after a trial before the court sitting without a jury;

"(C) the jury determined the defendant's guilt was discharged for good cause; or

"(D) after initial imposition of a sentence under this section, reconsideration of the sentence under this section is necessary; or

"(3) before the court alone, upon the motion of the defendant and with the approval of the attorney for the government. A jury impaneled pursuant to paragraph (2) shall consist of twelve members, unless, at any time before the conclusion of the hearing, the parties stipulate, with the approval of the court, that it shall consist of a lesser number.

“(C) PROOF OF MITIGATING AND AGGRAVATING FACTORS.—At the hearing, information may be presented as to any matter relevant to the sentence, including any mitigating or aggravating factor permitted or required to be considered under section 3592. Information presented may include the trial transcript and exhibits if the hearing is held before a jury or judge not present during the trial. Any other information relevant to a mitigating or aggravating factor may be presented by either the attorney for the government or the defendant, regardless of its admissibility under the rules governing admission of evidence at criminal trials, except that information may be excluded if its probative value is substantially outweighed by the danger of creating unfair prejudice, confusing the issues, or misleading the jury. The attorney for the government and the defendant shall be permitted to rebut any information received at the hearing, and shall be given fair opportunity to present argument as to the adequacy of the information to establish the existence of any aggravating or mitigating factor, and as to the appropriateness in the case of imposing a sentence of death. The attorney for the government shall open the argument. The defendant shall be permitted to reply. The attorney for the government shall then be permitted to reply in rebuttal. The burden of establishing the existence of any aggravating factor is on the government, and is not satisfied unless the existence of such a factor is established beyond a reasonable doubt. The burden of establishing the existence of any mitigating factor is on the defendant, and is not satisfied unless the existence of such a factor is established by a preponderance of the information.

“(d) RETURN OF SPECIAL FINDINGS.—The jury, or if there is no jury, the court, shall consider all the information received during the hearing. It shall return a special finding as to each mitigating and aggravating factor, concerning which information is presented at the hearing, required to be considered under section 3592. The jury must find the existence of a mitigating or aggravating factor by a unanimous vote, although it is unnecessary that there be a unanimous vote on any specific mitigating or aggravating factor if a majority of the jury finds the existence of such a specific factor.

“(e) RETURN OF A FINDING CONCERNING A SENTENCE OF DEATH.—If, in the case of—

“(1) an offense described in section 3591(a), an aggravating factor required to be considered under section 3592(b) is found to exist; or

“(2) an offense described in section 3591(b) or (c), an aggravating factor required to be considered under section 3592(c) is found to exist;

the jury, or if there is no jury, the court, shall then consider whether all the aggravating factors found to exist sufficiently outweigh all the mitigating factors found to exist to justify a sentence of death, or, in the absence of a mitigating factor, whether the aggravating factors alone are sufficient to justify a sentence of death. Based upon this consideration, the jury by unanimous vote, or if there is no jury, the court, shall return a finding as to whether a sentence of death is justified.

“(f) SPECIAL PRECAUTION TO ASSURE AGAINST DISCRIMINATION.—In a hearing held before a jury, the court, prior to the return of a finding under subsection (e), shall instruct the jury that, in considering whether a sentence of death is justified, it shall not consider the race, color, national origin,

creed, or sex of the defendant. The jury, upon return of a finding under subsection (e), shall also return to the court a certificate, signed by each juror, that consideration of the race, color, national origin, creed, or sex of the defendant was not involved in reaching the juror's individual decision.

#### “§ 3594. Imposition of a sentence of death

“Upon a finding under section 3593(e) that a sentence of death is justified, the court shall sentence the defendant to death. Upon a finding under section 3593(e) that a sentence of death is not justified, or under section 3593(d) that no aggravating factor required to be found exists, the court shall impose any sentence other than death that is authorized by law. Notwithstanding any other provision of law, if the maximum term of imprisonment for the offense is life imprisonment, the court may impose a sentence of life imprisonment without parole.

#### “§ 3595. Review of a sentence of death

“(a) APPEAL.—In a case in which a sentence of death is imposed, the sentence shall be subject to review by the court of appeals upon appeal by the defendant. Notice of appeal must be filed within the time specified for the filing of a notice of appeal. An appeal under this section may be consolidated with an appeal of the judgment of conviction and shall have priority over all other cases.

“(b) REVIEW.—The court of appeals shall review the entire record in the case, including—

“(1) the evidence submitted during the trial;

“(2) the information submitted during the sentencing hearing;

“(3) the procedures employed in the sentencing hearing; and

“(4) the special findings returned under section 3593(d).

#### “(c) DECISION AND DISPOSITION.—

“(1) If the court of appeals determines that—

“(A) the sentence of death was not imposed under the influence of passion, prejudice, or any other arbitrary factor; and

“(B) the information supports the special finding of the existence of an aggravating factor required to be considered under section 3592;

it shall affirm the sentence.

“(2) In any other case, the court of appeals shall remand the case for reconsideration under section 3593.

“(3) The court of appeals shall state in writing the reasons for its disposition of an appeal of a sentence of death under this section.

#### “§ 3596. Implementation of a sentence of death

“A person who has been sentenced to death pursuant to the provisions of this chapter shall be committed to the custody of the Attorney General until exhaustion of the procedures for appeal of the judgment of conviction and for review of the sentence. When the sentence is to be implemented, the Attorney General shall release the person sentenced to death to the custody of a United States marshal, who shall supervise implementation of the sentence in the manner prescribed by the law of the State in which the sentence is imposed. If the law of such State does not provide for implementation of a sentence of death, the court shall designate another State, the law of which does so provide, and the sentence shall be implemented in the latter State in the manner prescribed by such law. A sen-

tence of death shall not be carried out upon a woman while she is pregnant.

#### “§ 3597. Use of State facilities

“A United States marshal charged with supervising the implementation of a sentence of death may use appropriate State or local facilities for the purpose, may use the services of an appropriate State or local official or of a person such an official employs for the purpose, and shall pay the costs thereof in an amount approved by the Attorney General.”

(b) by repealing sections 3566 and 3567;

(c) in the chapter analysis of part II, by adding the following new item after the item relating to chapter 227:

“228. Death sentence ..... 3591”;

and

(d) in the section analysis of chapter 227, by amending the items relating to sections 3566 and 3567 to read as follows:

“3566. Repealed.

“3567. Repealed.”

SEC. 2. Section 34 of title 18 of the United States Code is amended by changing the comma after the words “imprisonment for life” to a period and deleting the remainder of the section.

SEC. 3. Section 794(a) of title 18 of the United States Code is amended by changing the period at the end of the section to a comma and by adding immediately thereafter the words “except that the sentence of death shall not be imposed unless the jury or, if there is no jury, the court, further finds that the offense directly concerned nuclear weaponry, military spacecraft or satellites, early warning systems, or other means of defense or retaliation against large-scale attack; war plans; communications intelligence or cryptographic information; or any other major weapons system or major element of defense strategy.”

SEC. 4. Section 844(d) of title 18 of the United States Code is amended by striking the words “as provided in section 34 of this title”.

SEC. 5. Section 844(f) of title 18 of the United States Code is amended by striking the words “as provided in section 34 of this title”.

SEC. 6. Section 844(i) of title 18 of the United States Code is amended by striking the words “as provided in section 34 of this title”.

SEC. 7. The second paragraph of section 1111(b) of title 18 of the United States Code is amended to read as follows:

“Whoever is guilty of murder in the first degree shall be punished by death or by imprisonment for life.”

SEC. 8. Section 1116(a) of title 18 of the United States Code is amended by striking the words “any such person who is found guilty of murder in the first degree shall be sentenced to imprisonment for life, and”.

SEC. 9. Chapter 51 of title 18 of the United States Code is amended—

(a) by adding at the end thereof the following:

#### § 1118. Murder by a Federal prisoner

“(a) Whoever, while confined in a Federal correctional institution under a sentence for a term of life imprisonment, murders another shall be punished by death by life imprisonment without the possibility of parole.

“(b) For the purposes of this section—

“(1) ‘Federal correctional institution’ means any Federal prison, Federal correctional facility, Federal community program center, or Federal halfway house;

"(2) 'term of life imprisonment' means a sentence for the term of natural life, a sentence commuted to natural life, an indeterminate term of a minimum of at least fifteen years and a maximum of life, or an unexecuted sentence of death;

"(3) 'murders' means committing first degree or second degree murder as defined by section 1111 of this title."; and

(b) by amending the section analysis to add:

"1118. Murder by a Federal prisoner."

Sec. 10. Section 1201 of title 18 of the United States Code is amended by inserting after the words "or for life" in subsection (a) the words "and, if the death of any person results, shall be punished by death or life imprisonment".

Sec. 11. The last paragraph of section 1716 of title 18 of the United States Code is amended by changing the comma after the words "imprisonment for life" to a period and deleting the remainder of the paragraph.

Sec. 12. Subsection (c) of section 1751 of title 18 of the United States Code is amended to read as follows:

"(c) Whoever attempts to kill or kidnap any individual designated in subsection (a) of this section shall be punished (1) by imprisonment for any term of years or for life, or (2) by death or imprisonment for any term of years or for life, if the conduct constitutes an attempt to kill the President of the United States and results in bodily injury to the President or otherwise comes dangerously close to causing death of the President."

Sec. 13. The second to the last paragraph of section 1992 of title 18 of the United States Code is amended by changing the comma after the words "imprisonment for life" to a period and deleting the remainder of the section.

Sec. 14. Section 2031 of title 18 of the United States Code is amended by deleting the words "death, or".

Sec. 15. Section 2113(e) of title 18 of the United States Code is amended by striking the words "or punished by death if the verdict of the jury shall so direct" and inserting in lieu thereof the words "or if death results shall be punished by death or life imprisonment".

Sec. 16. Section 903 of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1473), is amended by striking subsection (c).

Sec. 17. The provisions of chapter 228 of title 18 of the United States Code, as added by this Act, shall not apply to prosecutions under the Uniform Code of Military Justice (10 U.S.C. 801).

Sec. 18. Section 1203 of title 18 of the United States Code is amended by inserting after the words "or for life" in subsection (a) the words "and, if the death of any person results, shall be punished by death or life imprisonment".

Sec. 19. Subsection (a) of section 1952A of title 18 of the United States Code is amended by deleting the words "and if death results, shall be subject to imprisonment for any term of years or for life, or shall be fined not more than \$50,000, or both" and inserting in lieu thereof "and if death results, shall be punished by death or life imprisonment, or shall be fined not more than \$250,000, or both".

Sec. 20. Paragraph (1) of subsection (a) of section 1952B of title 18 of the United States Code is amended to read as follows: "for murder, by death or life imprisonment, or a fine of not more than \$250,000, or both; and for kidnapping, by imprisonment for

any term of years or for life, or a fine of not more than \$250,000, or both";.

Sec. 21. Section 408 of the Controlled Substances Act (21 U.S.C. 848) is amended by inserting a new subsection (c), as follows:

"(c) Any person who engages in a continuing criminal enterprise shall be fined in accordance with subsection (a) and imprisoned for life or sentenced to death if, while so engaged, such person causes the death of another person."

S. 278

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Exclusionary Rule Limitation Act of 1987".*

SEC. 2. (a) Chapter 223 of title 18, United States Code, is amended by adding the following two sections:

§3508. Limitation of the fourth amendment exclusionary rule

"Evidence which is obtained as a result of a search or seizure shall not be excluded in a proceeding in a court of the United States on the ground that the search or seizure was undertaken in an objectively reasonable belief that it was in conformity with the fourth amendment. A showing that evidence was obtained pursuant to and within the scope of a warrant constitutes prima facie evidence of such a reasonable belief, unless the warrant was obtained through intentional and material misrepresentation.

§3509. General limitation of the exclusionary rule

"Except as specifically provided by statute or rule of procedure, evidence which is otherwise admissible shall not be excluded in a proceeding in a court of the United States on the ground that the evidence was obtained in violation of a statute or rule of procedure, or of a regulation issued pursuant thereto."

(b) The table of sections of chapter 223 of title 18, United States Code, is amended by adding at the end thereof:

"3508. Limitation of the fourth amendment exclusionary rule.

"3509. General limitation of the exclusionary rule."

By Mr. SPECTER (for himself and Mr. DODD):

S. 280. A bill to provide, through greater targeting, coordination, and structuring of services, assistance to strengthen severely economically disadvantaged individuals and families by providing greater opportunities for employment preparation which can assist in promoting family economic stability; to the Committee on Labor and Human Resources.

By Mr. SPECTER (for himself and Mr. DODD):

S. 281. A bill to amend part A of title IV of the Social Security Act to promote the transition of severely economically disadvantaged individuals to unsubsidized employment; to the Committee on Finance.

#### WELFARE REFORM LEGISLATION

Mr. SPECTER. Mr. President, today, my distinguished colleague Senator DODD and I are reintroducing major welfare reform legislation which will help severely disadvantaged families get off the welfare rolls and place

them on the payrolls. The two-part initiative, the "Opportunities for Employment Preparation Act" and the "Aid to Families and Employment Transition Act" better utilizes existing Job Training Partnership Act [JTPA] funds and Aid to Families With Dependent Children [AFDC] and Medicaid benefits to provide an employment preparation and supportive service package to enable long-term welfare recipients to obtain jobs and support their families.

These bills were first introduced on June 19, 1986, as S. 2579, the "Opportunities for Employment Preparation Act" and S. 2579, the "Aid to Families and Employment Transition Act." Congressman JACK KEMP introduced companion legislation (H.R. 5064 and H.R. 5065) in the House on the same day.

These bills are an outgrowth of work which Rev. Leon H. Sullivan, founder and chairman of Opportunities Industrialization Centers of America [OIC], and I began in the 97th Congress when I introduced and gained passage of legislation to help provide literacy and job training for severely disadvantaged youth. That legislation is now title IIIA of the Carl Perkins Vocational Education Act, and represents the first time in history that community based training organizations were given a specific title in vocational education legislation.

Following the success of title IIIA, Reverend Sullivan and I discussed his concerns about the need for welfare families to receive job training during a meeting in my office on February 4, 1986. I offered my assistance in addressing this problem, and together with Reverend Sullivan and Mr. John E. Jacob, president and chief executive officer of the National Urban League, developed the legislation which Senator DODD and I are reintroducing today.

Mr. President, although the Job Training Partnership Act has had notable success in providing job training, it is an acknowledged fact that programs often train and place those who are easiest to serve, and who often would have obtained jobs without Government intervention. Thus, those most in need, those most at risk for long-term Government dependency, often are left untouched by the job training opportunities that exist.

While the most severely economically and educationally disadvantaged remain unserved, millions of Federal Job Training Partnership Act funds remain unspent. As of June 30, 1986, \$750 million in JTPA title IIA funds and \$220 million for training dislocated workers had not been spent. Already some of my colleagues are viewing the job training carryover as a means of helping to reduce the deficit. Some of us would like to believe that

these unspent funds are not needed for job training purposes. I vehemently disagree. What is needed is an outreach and feeder mechanism to enable us to better reach the hard-core disadvantaged. This is the purpose of the "Opportunities for Employment Preparation Act."

Under this legislation, the Job Training Partnership Act would be amended to allow community-based training organizations such as Opportunities Industrialization Centers of America [OIC], the National Urban League, 70,001, National Puerto Rican Forum, National Council of La Raza, Ser-Jobs for Progress, and the United Way of America, to conduct outreach efforts targeted to AFDC recipients of longer than 2 years and to two parent families where the principal breadwinner has not had steady employment for over 2 years. Potential trainees who need it would participate in a pre-training program to provide them with the basic skills and orientation necessary to enable them to obtain maximum benefit from the education or training program they will enter. The pretraining services offered will include:

Skills assessments for participants.  
Registration with the Bureau of Employment Security.

An 8-week internship for participants with no work experience, or who wish to try a different type of work setting. The internship is preceded by a structured job search and interview process.

Educational preparation and basic skills development to increase literacy and computational skills.

Programs to strengthen the attitude and motivation of youth toward the world of work.

Parenting, home and family living skills and nutrition and health education targeted to teenage parents.

Guidance and counseling to assist participants with occupational choices and with the selection of employment preparation programs.

Counseling and information and referral to assist participants experiencing personal or family problems, which may cause severe stress, and lead to poor performance, or dropping out of training.

Following the pretraining program, participants will be able to go on to employment training, including vocational and adult education, or community college programs. Another skills assessment will be conducted, and the participant can then participate in on-the-job-training [OJT] and other appropriate services available under the Job Training Partnership Act.

The Aid to Families and Employment Transition Act amends title IV of the Social Security Act to provide that AFDC beneficiaries making the transition to unsubsidized employment shall have the first year of salary ex-

cluded from determination of AFDC eligibility. Further, AFDC benefits will not be forfeited in a family where a second parent returns to the household, if at least one parent participates in an employment preparation program.

In addition, it provides that persons making a transition to unsubsidized employment shall maintain Medicaid coverage until eligible for an employer health plan, or for a period not to exceed 15 months.

Mr. President, our country is engaged in a vigorous debate about the future of Federal welfare policy. Many solutions are being offered to help better the lives of long-term Government dependents. I submit that, in the short and long run, the most meaningful way to help the poor is to provide them with the education, training and transition support services that will enable them to embrace the work ethic, earn their way with jobs and skills, and live in dignity as full members of our society.

In 1987, an estimated 4 million families will receive AFDC. Many of these families will be on our welfare rolls for 8 or more years unless they are given the opportunity to receive the training they need to compete for jobs. Easing the transition from welfare to the workplace will help us move more families off the rolls more quickly and, I am convinced, ultimately more than make up for any initial expense of these changes.

It is concern for our most severely disadvantaged families which has prompted me to develop and introduce this legislation. Together with Reverend Sullivan, Mr. John Jacob, and Dr. Douglas Glasgow, vice president of the National Urban League, a package has been developed which can serve as a cornerstone of Federal efforts to prepare the poor for jobs and self-reliance.

Our Nation cannot afford the long-term costs of failing to create training and employment opportunities for the poor. The only way America will be able to continue to compete in the world's markets is if it makes maximum use of a productive, well-trained work force. A better trained, more highly skilled work force would mean spending fewer Federal dollars on welfare programs while returning higher tax revenues.

Mr. President, the task before us is clear. We must provide greater opportunities for training, embrace policies which help create employment, and strengthen efforts to equalize opportunities so that poor families can get a hand up instead of being forced into receiving the traditional handout. This legislation which Senator DODD and I are introducing today is a vital first step in that process.

Mr. President, I ask unanimous consent that my statement, a letter sum-

marizing the legislation, a news release indicating private sector support, a newspaper article discussing the legislation, and the text of the bills be printed in the RECORD at this point.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 280

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Opportunities for Employment Preparation Act of 1987".*

#### STATEMENT OF PURPOSE

SEC. 2. It is the purpose of the amendments made by this Act to provide, through greater targeting, coordination, and structuring of services, assistance to strengthen severely economically disadvantaged individuals by providing greater opportunities for employment preparation which can assist in promoting family economic stability.

#### DEFINITION

SEC. 3. Section 4 of the Job Training Partnership Act (hereafter referred to in this Act as the "Act") is amended by adding at the end thereof the following new paragraph:

"(29) The term 'severely economically disadvantaged' means individuals—

"(A) who receive benefits under a State plan approved under part A of title IV of the Social Security Act, relating to aid to families with dependent children, for a period of 2 years or more prior to the date on which the determination is made and includes individuals who are parents of young children who have left the household of the family, lived separately from the family, and returned to the family unit;

"(B) who have been unemployed or who have been without steady employment for a period of 2 years or more prior to the date on which the determination is made; and

"(C) who are not eligible under title III of this Act."

#### TARGETED ASSISTANCE FOR SEVERELY ECONOMICALLY DISADVANTAGED INDIVIDUALS AUTHORIZED

SEC. 4. (a) Section 104(b) of the Act is amended—

(1) by redesignating clauses (7), (8), (9), and (10) as clauses (8), (9), (10), and (11), respectively; and

(2) by adding after clause (6) the following new clause:

"(7) a description of the procedures and methods of carrying out the outreach and training activities for severely economically disadvantaged individuals required by section 109;"

(b) Part A of title I of the Act is amended by adding at the end thereof the following new section:

#### "TARGETED ASSISTANCE FOR SEVERELY ECONOMICALLY DISADVANTAGED INDIVIDUALS"

"SEC. 109. (a) The job training program in each service delivery area shall establish a feeder system utilizing community based organizations such as OIC, the National Urban League, the National Council of La Raza, 70,001, National Puerto Rican Forum, Ser-Jobs for Progress, the United Way of America, and other community-based organizations of demonstrated effectiveness to conduct outreach and provide preemployment services to severely economically disadvantaged individuals in order to provide

such individuals greater access to and benefit more fully from employment opportunities and placement available under this Act and to prepare such individuals for gainful employment.

"(b) The outreach and feeder system established by subsection (8) of this subsection shall include—

"(1) skills assessment for participants and assistance to participants with respect to the selection and referral for education and training;

"(2) registration with the Bureau of Employment Security;

"(3) preemployment training including an internship not to exceed 8 weeks;

"(4) employment training including vocational adult, and community college and other postsecondary programs; and

"(5) on-the-job training and other employment preparation activities available under this Act.

"(c)(1) Preemployment training required by clause (3) of subsection (b) shall include structured search for an internship with a private organization or public agency. Each participant must search and interview for placement from a list of options provided by community-based organizations. The internship shall be designed for program participants with no previous work experience, or who need or wish to try a different type of work setting.

"(2) preemployment services under subsection (b) provided may include—

"(A) educational preparation and basic skills development to increase literacy and computational skills;

"(B) programs designed to strengthen the attitude and motivation of youth to achieve and succeed in the world of work;

"(C) guidance and counseling to assist participants with occupational choices and with the selection of employment preparation programs;

"(D) counseling and information, referral, and follow-up to assist participants experiencing personal or family problems, which may cause severe stress, and lead to poor performance or dropping out of the program; and

"(E) parenting, and home and family living skills, including nutrition and health education, targeted to teenage parents.

"(3) The outreach and preemployment services required by this section may be offered in any service delivery area pursuant to an arrangement that includes one or more community based organizations and appropriate State and local public agencies.

"(d) Participants in training activities under this section shall receive supportive services, including child care and transportation assistance, notwithstanding any other provision of this Act relating to cost limitations or expenses.

"(e) The performance standards for the program authorized by this section shall be the performance standards prescribed for youth under section 106(b)(2) of this Act.

"(f) Notwithstanding any other provision of law, unless enacted in the express limitation of this subsection, the amount of any benefits received under this Act (including scholarships and educational assistance) by a participant in the program authorized by this section shall not result in the loss of or the decrease in any other benefits (including AFDC and food stamps) to which the participant is entitled under any other provision of Federal law."

"(c) Section 121(b) of the Act is amended—

"(1) by redesignating paragraphs (3) and (4) as paragraphs (4) and (5), respectively; and

"(2) by adding after paragraph (2) the following new paragraph:

"(3) The plan shall include a description of the agreement between the private industry council, the public welfare or public assistance agency of the State, and the designated community based organizations involved in the targeted assistance required by section 109, together with the manner in which the State will coordinate vocational education, adult education, other training programs authorized by Federal law, and employment preparation programs to benefit the participants of the program authorized by section 109."

#### S. 281

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Aid to Families and Employment Transition Act of 1987".

#### SEC. 2. AFDC EARNED INCOME DISREGARD FOR SEVERELY ECONOMICALLY DISADVANTAGED INDIVIDUALS.

Section 402(a)(8)(A) of the Social Security Act is amended.

(1) by striking "and" at the end of clause (vi); and

(2) by inserting after clause (vii) the following:

"(viii) notwithstanding clause (v), shall disregard—

"(I) the income of any child, relative, or individual specified in clause (ii) that is derived from a program established pursuant to the amendments made by the Opportunities for Employment Preparation Act of 1987, and

"(II) the income of an individual specified in subclause (I) that is derived from unsubsidized employment obtained pursuant to the program specified in such subclause, for the 12-month period following the initial placement of the individual, and"

#### SEC. 3. MEDICAID COVERAGE FOR SEVERELY ECONOMICALLY DISADVANTAGED INDIVIDUALS.

Section 402(a)(37) of the Social Security Act is amended—

(1) by inserting "(A)" after "(37)"; and

(2) by adding at the end the following:

"(B) provide that, in any case where a family would cease to receive aid under the plan but for subclause (II) of paragraph (8)(A)(viii), such family shall continue to be eligible for medical assistance under title XIX for the period beginning with the first day of the 12-month period specified in such subclause and ending with the earlier of (i) the date on which the family becomes eligible to participate in a group health plan maintained by an employer, or (ii) the last day of the 3-month period immediately following such 12-month period."

#### SEC. 4. AFDC COVERAGE FOR CERTAIN 2-PARENT FAMILIES.

Section 402 of the Social Security Act is amended by adding at the end the following:

"(i) The term 'dependent child' shall, notwithstanding section 406(a), include a needy child who meets the requirements of section 406(a)(2), who lives with both parents, and at least one of the parents is a participant in a program established pursuant to the amendments made by the Opportunities for Employment Preparation Act of 1987 or is

in the 12-month period specified in subsection (a)(8)(A)(viii)(II)."

#### SEC. 5. EFFECTIVE DATE.

(a) IN GENERAL.—Except as provided in subsection (b), the amendments made by this title shall become effective on the date of the enactment of this Act.

(b) EXCEPTION.—If a State agency administering a plan approved under part A of title IV of the Social Security Act or under title XIX of such Act demonstrates, to the satisfaction of the Secretary of Health and Human Services, that it cannot, by reason of State law, comply with the requirements of an amendment made by this Act to which the effective date specified in subsection (a) applies, the Secretary may prescribe that, in the case of such State, the amendment will become effective beginning with the first month beginning after the close of the first session of such State's legislature ending more than 30 days after the date of the enactment of this Act. For purposes of the preceding sentence, the term "session of a State's legislature" includes any regular, special, budget, or other session of a State legislature.

#### NATIONAL URBAN LEAGUE, INC.,

*New York, NY, July 14, 1986.*

DEAR COLLEAGUE: At the invitation of Senator Arlen Specter (R-PA), the National Urban League (NUL) and the Opportunities Industrialization Center of America (OIC) became primary authors to a new legislative initiative designed to better target and coordinate needed employment related services to the long term employed and long term AFDC (Aid to Families with Dependent Children) recipients. On June 19, 1986, this welfare reform initiative was introduced as a package of two bills in both the Senate and House. The bills are entitled: the Opportunities for Employment Preparation Act of 1986 (S. 2578)/(H.R. 5064), and the Aid to Families and Employment Transition Act of 1986 (S. 2579)/(H.R. 5065). Senator Specter was joined by Senator Moynihan (D-NY) in introducing the two bills in the Senate, and Congressman Kemp (R-NY) was joined by Congressman Gray (D-PA) in introducing the companion bills on the House side.

#### REFORM FROM A COMMUNITY BASED PERSPECTIVE

As community based service organizations, the National Urban League and the Opportunities Industrialization Centers of America are well acquainted with the types of barriers (such as lack of education, training, support services) that can prevent individuals and families from establishing a solid base in our country's economic infrastructure. Our organizations share the belief that families and individuals who face multiple roadblocks to economic self sufficiency should benefit from programs that are aimed at reducing barriers to labor market entry. We believe this new legislative initiative will improve the existing capability of the Job Training Partnership Act (JTPA) and the AFDC program in reaching those families and individuals most in need of services, and accelerate their entry into employment.

#### WHAT YOU CAN DO

The NUL and OIC urge your support of the Opportunities for Employment Preparation Act of 1986 (S. 2578) (H.R. 5064) which has been referred to the Senate Committee on Labor and Human Resources and the House Committee on Education and Labor,

and the Aid to Families and Employment Transition Act of 1986 (S. 2579) (H.R. 5065) which has been referred to the Senate Committee on Finance and the House Committee on Ways and Means, respectively. Please contact Senators and Representatives from these committees and inform them of your support.

Activate your national network by contacting your members and urging them to let their respective Senators and Representatives know of their support for these bills.

Attached, please find a comprehensive information packet on the two bills. For further assistance, please contact Bob McAlpine, Congressional Liaison for the National Urban League at (202) 898-1604, or Maurice Dawkins, Director of OIC Government Relations at (202) 775-8405.

Sincerely,

JOHN E. JACOB,  
President and Chief  
Executive Officer,  
National Urban  
League.

REV. LEON H. SULLIVAN,  
Chairman, OIC of  
America.

#### CHESEBROUGH-POND'S URGES PRIVATE SECTOR SUPPORT FOR WELFARE REFORM LEGISLATION

WASHINGTON, DC, September 25.—Chesebrough-Pond's Inc. today called upon major corporations and business groups to lend their support to federal legislation that would reform the nation's welfare program.

At a breakfast briefing here, Chesebrough executives outlined the objective of legislation introduced by Senators Arlen Specter and Patrick Moynihan and Congressmen Bill Gray and Jack Kemp. The bills target the severely economically disadvantaged and set up a training program supported by welfare benefits to get these people into productive jobs.

In appealing for private sector support, Kenneth R. Lightcap, Vice President of Public Affairs and Investor Relations for Chesebrough, said, "This proposed legislation establishes a plan to put people on payrolls and take them off the welfare roll. To succeed, it will need backing from the business community and that is what we're trying to bring about. Community-based organizations such as the National Urban League and Opportunities Industrialization Centers will play a key role in the program as well," he added.

"It is significant and highly important," Lightcap said, "that these proposals will not cost taxpayers more. The program will not be putting more people on welfare; instead, we will be dealing more effectively in moving current recipients to unsubsidized employment."

A major feature of the legislation removes the disincentive for welfare recipients to take employment. Current benefits, such as food stamps, would be continued for recipients. In addition, aid to families with dependent children would be continued even with an unemployed able-bodied male in the household as long as one parent is involved in the training program.

"To the contrary, current policies promote the disintegration of the family unit by denying these benefits," Lightcap said.

Senators Specter and Moynihan introduced S. 2578 and S. 2579 on June 19 and companion bills were introduced in the House of Representatives by congressmen Kemp and Gray the same day. The bills were referred to committee and are awaiting action.

Chesebrough-Pond's, headquartered in Westport, Connecticut, is a diversified manufacturer and marketer of products for the health and well-being of families throughout the world. Chesebrough's Consumer Products Group includes such popular brand names as Ragu, Prince, Bass, Vaseline, Pond's, Intensive Care, Cutex, Cachet, Wind Song, Aviance, Q-Tips, Aziza and Rave. Chesebrough's Chemical Products Group (Stauffer Chemical Company) manufactures and markets a wide range of agricultural and food products, as well as chemical products and services. Worldwide sales for 1985 were approximately \$2.7 billion.

[From the Pittsburgh Post Gazette June 17, 1986]

#### INCENTIVES—SPECTER'S PLAN OFFERS HAND TO WELFARE RECIPIENTS

(By Daniel Weiss)

WASHINGTON.—Sen. Arlen Specter announced yesterday he will introduce legislation that would offer welfare recipients basic education courses and economic incentives to join job training programs.

The legislation, to be introduced today, targets recipients of Aid to Families with Dependent Children, who the Philadelphia Republican said are discouraged by present regulations from seeking work.

Costs of the bill would be paid by unused funds in the Job Training Partnership Act, the senator said.

The Rev. Leon Sullivan, founder of the Opportunities Industrialization Centers in Philadelphia, an urban assistance group, joined Specter in unveiling the bill, calling it an "ominous program for welfare reform in the country."

The measure would allow AFDC recipients to receive payments through their first year of new employment and would continue Medicaid payments for up to 15 months—until the worker was covered by his employer's health plan.

Pennsylvania's welfare system would change slightly under the bill. The state already offers medical payments for up to nine months to former welfare recipients, said Joe Kintz spokesman for the Pennsylvania Department of Public Welfare.

Also, Pennsylvania requires that welfare recipients who start work lose their payments when their combined incomes and resources exceed the state's economic eligibility criterion. Specter's bill would continue payments for one year regardless of the recipient's income.

Specter also said the measure would strengthen two-parent households in allowing parents to live together and continue receiving AFDC, as long as one parent is in a job training program or working.

Under current law, only households with one parent qualify for AFDC. Pennsylvania and 25 other states already allow the parents to live together and receive payments, as long as their combined earnings and resources are still below the state's poverty level.

In Pennsylvania, a family of four earning \$1,339 a month or less qualifies for welfare, Kintz said. In March 1986, there were 193,435 households—590,514 individuals—on AFDC in the state.

AFDC, a cost-sharing program between the federal government and the states, costs Pennsylvania more than \$29 million a year, while the federal government's share is more than \$37 million a year, according to Welfare Department figures.

In addition to providing economic incentives, Specter's bill directs community

groups to teach basic skills like reading, writing and mathematics to people before they go into job training programs. The measure also directs the groups to offer child care for working mothers.

By Mr. RIEGLE:

S. 282. A bill to amend the Internal Revenue Code of 1986 to permit individuals to receive tax-free distributions from an individual retirement account or annuity to purchase their first home, and for other purposes; to the Committee on Finance.

#### FIRST-TIME HOMEBUYER OPPORTUNITY ACT

● Mr. RIEGLE. Mr. President, I am introducing today the First-Time Homebuyer Opportunity Act, which I believe will bring homeownership within the reach of thousands of additional American families. This bill would allow people to use funds in their individual retirement accounts to help them purchase a first home.

The dream of owning their own home has motivated generations of American families. For most Americans, homeownership has been the only realistic way to build family assets and provide a nest egg for their retirement years. I believe homeownership contributes enormously to the quality of our community life and the stability of our society.

A welcome drop in interest rates in recent years has created a new surge in home buying. That is a development we all applaud. Realtors and mortgage lenders have rarely been busier. The homebuilding industry has had reason for new confidence. Thousands of families have taken this opportunity to improve the quality of their housing. All of that is good for homeowners and good for the economy.

The glare of this good news tends to obscure the fact that Americans who don't already own a home remain at a significant disadvantage. And that disadvantage will widen now that interest rates are beginning to raise home prices. Families who sell one home when they go to buy another can use their tax-deferred capital gains to help with the downpayment and other closing costs. But a young family that is seeking to buy their first home often finds that the benefits of lower interest rates are largely offset by higher housing prices, downpayments, and closing costs.

Mr. President, I believe it is in the national interest to bring homeownership within the reach of all American families who want it and are willing to work for it.

Unfortunately, the country's recent performance on homeownership is not as good as it should be or even as good as it has been in the past. Here is some evidence.

First, the rate of homeownership has been declining every year since 1980 after having previously risen

steadily since the end of the Second World War. The percentage of young families between the ages of 25 and 29 who own their own home fell from 43.1 percent in 1975 to 34.3 percent in 1985. For households in the 30 to 34 age group, the homeownership rate fell from 62.3 percent to 53.6 percent during the same period.

Second, families are having to wait longer and longer before they can buy their home, the age of a typical first-time home buyer has been rising at a disturbing rate for several years.

Third, families buying their first home are having to rely more heavily on a second income to make homeownership possible. In 1985, 68.7 percent of all first-time homebuyers relied on a second income, compared to 65.2 percent in 1983.

The U.S. League of Savings Institutions recently found that "in spite of the recent improvements in affordability, home ownership is becoming more difficult to achieve."

Mr. President, enactment of the First-time Homebuyers Act would provide important assistance to thousands of Americans who are still trying to buy their first home. The bill would permit individuals to withdraw funds from their individual retirement accounts or annuities without penalty if the funds are used to buy a principal residence within 90 days of the withdrawal.

This bill is designed to increase savings for homeownership and to provide the kind of assistance that is most important to first-time homebuyers. An individual could not withdraw funds under my bill unless they had been invested in the IRA for at least 12 months. The total amount of homeownership withdrawals for each individual could not exceed \$10,000 in the aggregate across all taxable years. An individual's tax basis in a property would be reduced by the amount of any withdrawal. For reasons of administrative feasibility, those who have not had an ownership interest in a principal residence for 3 years would be considered first-time homebuyers.

Impact of new tax bill targeting the benefits on middle income people.

Mr. President, the Riegle bill places no new burden on the U.S. Treasury. Its effect would be to make investment in a first home a permitted form of IRA investment. Individuals already have wide latitude in investing their IRA funds: stocks, bonds, real estate investment trusts, certificates of deposit and other forms of financial assets. It is ironic that investment in a person's own home is not already a permitted form of investment since homeownership has long proven to be one of the best ways for most Americans to build up assets for their retirement years.

The Riegle bill uses a proven incentive to save for home investment. It

would give American first-time homebuyers help that has for many years been available to people in Germany, Canada, Japan, France, the United Kingdom and other industrial nations.

Mr. President, I believe the bill I introduced today provides a straightforward, efficient way to enable many more Americans to share in the dream of homeownership. I believe the bill deserves prompt consideration in the Senate, and I invite my colleagues to cosponsor it.●

By Mr. MOYNIHAN:

S. 283. A bill to require the General Accounting Office to conduct a study of the benefits and costs of modifying coverage under the Medicare Program to include different levels of extended care; to the Committee on Governmental Affairs.

MODIFIED COVERAGE OF EXTENDED CARE SERVICES UNDER MEDICARE

● Mr. MOYNIHAN. Mr. President, in the early 20th century, shorter lifespans made unnecessary many of today's specialized institutions for the care of the elderly and chronically ill. In 1900, only about 1 out of every 25 Americans reached the age of 65. Sick or disabled older Americans could usually depend on assistance from family, friends, or religious or charitable organizations.

Today, 11 percent of the Nation's population is over age 65. By the year 2030, the United States is projected to have about 55 million elderly, more than twice as many as today. Among the elderly, the proportion of the "old-old"—age 75 plus—will increase even faster than the "young-old"—aged 65-74. Today, 38 percent of those age 65-plus are also over age 75; more than 9 percent are age 85-plus. By the year 2000, the age 75 group will constitute 45 percent and those age 85-plus will represent 12 percent of those over age 65.

These population shifts will have dramatic implications for future public policy. As the number of older Americans increases, so too, will the cost for long-term care for the elderly, particularly institutional care.

The Medicare Program has been the primary provider of health-care services for the elderly and disabled. However, Medicare is generally not regarded as a program providing significant support for long-term care. Its coverage is focused primarily on acute care, particularly hospital and surgical care. For example part A covers up to 100 days of skilled nursing facility [SNF] services following a hospital stay of at least 3 consecutive days. The benefit is further limited in that the patient must be in need of skilled nursing care on a daily basis for treatment related to a condition for which he or she was hospitalized. The SNF benefit is subject to a daily patient copayment after the 20th day of the care. The program

pays for neither intermediate care facility [ICF] services—care less intense than SNF level care—nor custodial care in a nursing home. Medicare does pay for some community-based long-term care services, primarily home health services.

A very limited Medicare SNF benefit coupled with the problem of inappropriate placement in many nursing homes, has reduced the effectiveness of this service to beneficiaries. Conservative estimates are that between 10 and 40 percent of those in institutions are being served at inappropriate levels of care. Usually they do not need the highly skilled level of care provided in a hospital or SNF as opposed to an ICF. Costs associated with keeping long-term care patients occupying a high cost hospital, rather than a lower cost nursing home bed can be very high. Several years ago, two counties on Long Island, NY, with 500 patients a day backlogged in hospitals, figured the annual waste at \$25 million.

Despite the fact that many nursing home residents may be inappropriately placed according to medical criteria, most observers feel it would be difficult to deinstitutionalize large numbers of current residents. About 50 percent of nursing home patients are diagnosed as senile; nearly 50 percent of those in institutions lack any family or friends to help them live in the community.

Mr. President, this legislation simply asks the Comptroller General of the United States to conduct a study of the benefits and costs of modifying coverage under the Medicare Program to include different levels of extended care; and to report the results of the study to the Congress prior to December 31, 1987.

I ask unanimous consent that the text of the bill be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 283

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. STUDY OF MODIFIED COVERAGE OF EXTENDED CARE SERVICES UNDER THE MEDICARE PROGRAM.

(a) STUDY REQUIRED.—The Comptroller General of the United States shall conduct a study of the benefits and costs of modifying coverage under the Medicare program to include different levels of extended care. The study shall evaluate—

(1) the benefits and costs of providing coverage for intermediate care facility services and other health-related facility services, taking into account the effect of such coverage on the utilization of other services, the effect on the Medicaid program and social service programs, and the appropriateness of various numbers of days of care to be covered;

(2) the types of patients (by diagnosis, age, and health status) who would benefit from such coverage; and

(3) possible payment methodologies for different levels of extended care, including the effect on possible capitated payment systems for extended care.

(b) **REPORTS.**—The Comptroller General shall report the results of the study required by subsection (a) to the Congress prior to December 31, 1987.●

By Mr. KENNEDY (for himself, Mr. COHEN, Mr. BYRD, Mr. PACKWOOD, Mr. ADAMS, Mr. BAUCUS, Mr. BIDEN, Mr. BINGAMAN, Mr. BRADLEY, Mr. BURDICK, Mr. CHAFEE, Mr. CRANSTON, Mr. DANFORTH, Mr. DECONCINI, Mr. DIXON, Mr. DODD, Mr. DURENBERGER, Mr. EVANS, Mr. GLENN, Mr. HARKIN, Mr. HEINZ, Mr. HOLLINGS, Mr. INOUE, Mr. JOHNSTON, Mr. KERRY, Mr. LAUTENBERG, Mr. LEAHY, Mr. LEVIN, Mr. MATSUNAGA, Mr. METZENBAUM, Ms. MIKULSKI, Mr. MITCHELL, Mr. MOYNIHAN, Mr. PELL, Mr. PROXMIER, Mr. RIEGLE, Mr. ROCKEFELLER, Mr. SARBANES, Mr. SIMON, Mr. SPECTER, Mr. STAFFORD, Mr. WEICKER, and Mr. WIRTH):

S.J. Res. 1. A joint resolution proposing an amendment to the Constitution of the United States relative to equal rights for women and men; to the Committee on the Judiciary.

#### EQUAL RIGHTS AMENDMENT

● Mr. KENNEDY. I welcome this opportunity on behalf of myself and 42 other Senators to reintroduce the equal rights amendment, and to reaffirm my strong commitment to making ERA part of the Constitution of the United States.

This year, America commemorates the 200th anniversary of the Constitution. In that document and the Bill of Rights, the Founders established a society based on the goals of individual liberty, equality, and the rule of law. In the two centuries since then, the American people have worked hard to advance the noble values embodied in the Constitution and make them a reality for all Americans. Although we can be proud of the strides we have made toward realizing the goals of the Constitution in these 200 years, it is a national disgrace that equality for women is not yet enshrined in our Constitution.

The ERA is the mandate for the Federal Government and for every State to ensure equality in both the law and the life of this land. The need for a constitutional guarantee of equal rights for all citizens remains compelling. Existing statutory prohibitions against sex discrimination have failed to give women basic educational and employment opportunities equal to men in our society. An unconscionable wage gap between the earnings of men

and women persists in our work force. In 1984, the median earnings of year-round, full-time workers were \$14,780 for women and \$23,218 for men, with women earning approximately 64 cents for every dollar earned by men. Women with college degrees continue to earn less than males who have not completed high school, and most working women are clustered in 20 occupations at the lower end of the pay scale.

In education, the dismantling of the statutory protection against sex discrimination afforded by title IX of the Education Act Amendments of 1972, in the wake of the Supreme Court's decision in *Grove City College versus Bell* highlights the fragile nature of statutory prohibitions against discrimination. The impact of title IX on the growth and development of women's sports is one of the great success stories of the past decade. In 1972, there were 32,000 women participating in college athletics; by 1983 the number of female college athletes had soared to 150,000. During that same period, expenditures for women's athletic programs at NCAA schools increased from \$4 million annually to \$116 million.

Significant numbers of American women triumphed in the summer Olympics in Los Angeles—but the Supreme Court in *Grove City* has now stripped the mandate from the law which provided the opportunities for them to become Olympic champions. Since the Court's decision, the U.S. Department of Education's Office for Civil Rights has closed, limited, or suspended 79 cases of alleged sex discrimination in education and failed to initiate countless others. Nothing less than the broad constitutional prohibition against discrimination in ERA can effectively end the continued bias against women in our society.

Female heads of households continue to dominate the bottom rungs of the economic ladder because of inequalities in laws governing the family. In 1984, one in four children was living with a single parent and in 95 percent of those cases, that parent was the mother. The July 1983 census report found that while the poverty rate for married couple families in 1982 was nearly 8 percent, it was almost five times that high for single-parent female-headed families. Studies reveal that in the first year after a divorce, the mother and children's living standard declined by 73 percent, while the father's living standard increased by 42 percent. And only one in four custodial parents, 95 percent of whom are women, receive regular child support payments. Significant numbers of American families will continue to live in poverty until women achieve economic equality in our society.

For older women, the economics of sex discrimination is the most devastating. Seventy-one percent of our Na-

tion's elderly citizens living at or below the poverty level are women. The median annual income of elderly women in American is \$5,000. These senior citizens must live their golden years in fear and deprivation. Their plight is a compelling argument for the adoption of the ERA.

The road to ratification will not be easy. But the extraordinary importance of the effort gives us new strength to see the struggle through to the final victory, so that as we begin our third century of constitutional government, the ERA will take its rightful place in the Constitution of the United States. A new Congress begins today—and a new battle to achieve this historic goal begins as well.

Mr. President, I ask unanimous consent that the text of the resolution may be printed in the *RECORD*.

There being no objection, the joint resolution was ordered to be printed in the *RECORD*, as follows:

#### S.J. RES. 1

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the following article is proposed as an amendment to the Constitution of the United States, which shall be valid to all intents and purposes as part of the Constitution when ratified by the legislatures of three-fourths of the several States within seven years from the date of its submission by the Congress:*

#### "ARTICLE —

"SECTION 1. Equality of rights under the law shall not be denied or abridged by the United States or by any State on account of sex.

"SECTION 2. The Congress shall have the power to enforce, by appropriate legislation, the provisions of this article.

"SECTION 3. This amendment shall take effect two years after the date of ratification."●

● Mr. BIDEN, Mr. President, it is my pleasure to rise today to express my support for the equal rights amendment.

Mr. President, in the past few years, opponents of the equal rights amendment have waged an impressive campaign of intimidation in order to insure that the necessary 38 States would not ratify the ERA. A list of possible horrible consequences of the ERA, no matter how farfetched, have been paraded before the public to dissuade them of the ERA's merits.

Opponents of the ERA have even gone so far as to celebrate the so-called death of ERA. They are convinced that the issue of equal rights for women is dead. But Mr. President the equal rights amendment is very much alive, as alive as the ideal it represents: equal justice under law. ERA will remain alive until the inequalities between men and women in this society are redressed.

Mr. President, a number of my colleagues have spoken and will speak on the equal rights amendment, and the

various reasons its passage is so important. But I will be specific, if I may. I will address my comments to the equal rights amendment and the criminal justice system.

In some States a man finding his wife in the act of adultery may kill her on the spot and face a reduced charge of manslaughter. If the situation were reversed, however, and his wife had found him in a similar situation, she would not have the heat of passion defense available to her and would have to face trial on charges of murder.

Several States punish prostitutes but do not punish those who seek out and pay for their services.

The Mann Act prohibits transporting females across State lines for any immoral purpose but does not protect males in the same manner.

Many States have no statutory rape laws protecting young boys.

Many States have no law recognizing the possibility that forcible rape can be committed by a husband against his wife, regardless of the circumstances and the degree of coercion involved.

Many States still mandate intermediate sentences for women, while providing for minimum and maximum sentences for men. This is done in the belief that women are more amenable to rehabilitation than men. What this leads to, however, are situations in which women must serve either much longer or much shorter sentences than men for the same offense.

The U.S. Civil Rights Commission, in a report issued in December 1978, concluded that women in prison generally receive far less vocational training and job placement assistance than men; and that the training offered in women's prisons tends to be sex-stereotyped, tracking women into lower paying, more traditional jobs.

In each of the aforementioned cases, Federal and State laws have the effect of discriminating against one or the other of the sexes. And in each of these cases, the equal rights amendment could result in the elimination of discrimination, sometimes merely by changing one or two words in the law in order to make it "sex-neutral." The Mann Act could be made to hold members of both sexes accountable for their actions by treating both prostitutes and patrons in a sex-neutral manner.

Mr. President, it is simply not enough to claim that existing laws already give sufficient protection against sex discrimination. As we have seen, many existing laws actually embody such discrimination.

Nor is it enough to claim that the Constitution already provides sufficient protection against sex discrimination. In a recent opinion, Mr. Justice Powell wrote: "The Court has never viewed sex as inherently suspect or as comparable to radical or ethnic classification for the purpose of equal

protection statutes." Let us further remember, Mr. President, that it took a half century following passage of the 14th amendment to grant women one of the most basic American rights of all: the right to vote. Remember, too, that for years after passage of the 14th amendment, many States still had laws prohibiting women from owning property and from holding certain Federal jobs. The history of the 14th amendment, with regard to equal protection of the sexes is, at best, uneven.

Mr. President, for all these reasons, I am looking forward with great anticipation to Senate action on the ERA. The American people, by an overwhelming majority, want to take positive action on this great commitment to equal justice. Let us listen to the people and take that action. ●

● Mr. COHEN. Mr. President, over 60 years ago, in 1923, the first equal rights amendment was introduced in the Congress. The amendment stipulated that "Men and women shall have equal rights throughout the United States and every place subject to its jurisdiction."

Today, history will record another introduction of the same idea, that "Equality of rights under the law shall not be denied or abridged by the United States or by any State on account of sex." Once again, we will repeat the words of Elizabeth Cady Stanton and Susan B. Anthony, that "Men, their rights and nothing more; women, their rights and nothing less."

Lord Macauley once described our Constitution as "all sail and no anchor." I disagree with him but I fear that we may find his description applicable to the fight for equal opportunities and equal rights for women. I believe that the Constitution is the anchor to the laws of the land. Perhaps more than that, it is the Constitution that charts when our laws should point. Without the ERA, whatever laws are passed to further the equality of women will be all sail and no anchor.

Since 1972, when Congress first approved the ERA, there have been many changes in the laws of the land, passed by Congress and State legislatures, or mandated by the courts. Yet, there is nothing in the Constitution to secure these laws. A persistent argument against the ERA has been that the amendment is unnecessary, that the rights which it would grant have been or are being granted by judicial decision or statute. Others have argued that expanded interpretations of the 14th amendment would guarantee the rights to women which the ERA would guarantee.

Perhaps the perception of legal necessity for ratification of the ERA has diminished since 1972. Yet what if we discover that the changes made over the last 15 years are like Lord Macau-

ley's sails? Where will they take us when the tack changes? We must remember that despite changes in the law, what we seek through ratification of the ERA is the guarantee of fundamental rights, and the anchor for those laws.

This year marks the 200th anniversary of the Constitution of the United States. In February 1787, Congress authorized a Constitutional Convention to revise the Articles of Confederation. In May, the delegates to the Convention assembled in Philadelphia and began drafting the Constitution.

In one of Abigail Adams' letters to her husband John, she encouraged him to modify the British laws and customs that dictated the near total subordination of a woman's status and identity to that of the man. She asked him to "remember the ladies."

Something happened on the way to the Convention. Neither Adams, nor Jefferson, nor Madison, nor Hamilton seemed to remember the ladies; they were not included in the Constitution, and since then, for the past 200 years, American women have been struggling to secure the basic constitutional rights that are guaranteed to men, ones that we accept as self-evident.

It is written in the Declaration of Independence that "We hold these truths to be self-evident, that all men are created equal." Regrettably, we have learned through the painful experiences of history, including a bloody Civil War, that not all men were created equal in the eyes of the law and it took the 13th and 14th amendments to declare that the color of one's skin was not a rational or fair determination of one's rights.

I submit that the equal rights amendment will be no more redundant for women than the 13th and 14th amendments were for ethnic or racial minorities. The ERA is much more than a symbolic gesture, but if it were only symbolic it would be no less important. Our lives, our values, our social conscience are strongly influenced by symbols.

The heart of the matter is that not just for years, not just for generations, but for centuries, women have been regarded as being less deserving of full and equal rights and responsibilities. Because of their sex, a majority of the citizens in our society, regardless of their physical or intellectual ability, regardless of their potential for social contributions, are granted different rights, are stereotyped, and suffer greater prejudices.

Centuries of discriminatory policies have denied women the right to equal participation and responsibility in our society. Without passage of a constitutional amendment, these inequalities will continue. Women will not achieve equality under the law.

The need for the ERA is no less urgent today than it was over 60 years ago when the first equal rights amendment was introduced in Congress. Women are entitled to nothing less than full equality of rights in the Constitution. It is my fervent hope that we will see the equal rights amendment in place as the 27th amendment to the Constitution in the very near future. ●

● **Mr. PACKWOOD.** Mr. President, we will soon celebrate on January 11, 1987, the birthday of one of this century's foremost fighters for women's equality: Alice Paul. Sixty-four years have passed since Ms. Paul first authored the equal rights amendment in 1923. Ms. Paul saw the ERA introduced in every session of Congress since then until it passed both Houses in 1972. Her own words best describe why Congress should approve the ERA:

A national amendment is the most effective way to establish equality of rights for men and women throughout the country. The amendment would, at one stroke, compel both Federal and State governments to observe the principle of Equal Rights since the Federal Constitution is the supreme law of the land.

Alice Paul spent her entire life fighting to win passage of the ERA. I am proud to carry on that struggle for equality by adding my name as a cosponsor to the very same ERA. There is no doubt in my mind that someday Ms. Paul's dream will be realized. It is a matter of time, not lack of dedication of principle, before the ERA becomes an integral part of the law of our land.

The Equal Rights Amendment is a fundamental statement of our democratic ideals. But, unfortunately, history demonstrates that fundamental rights have often been achieved only by virtue of long-term concerted efforts. The Magna Carta and our Bill of Rights are themselves the result of persistent struggles to guarantee basic rights and freedom from abuse by the Government. The more recent civil rights movement and the struggle for women's suffrage are poignant reminders that equal rights have not been readily granted to blacks or women. Though a difficult course, some goals have been achieved: Sixty years of tenacity and courage by women and men led to the adoption in 1920 of the 19th amendment granting women the right to vote.

The 64 years of struggle to pass the ERA has been just as long but like the struggle to pass the 19th amendment, it has endured and it will be successful. As 1987 marks the beginning of the celebration of the bicentennial of the U.S. Constitution, we must now more than ever continue the struggle with courage, diligence, and persistence until ERA is a reality. Women and men committed to equal justice

will not rest until the equal rights amendment is adopted as part of the U.S. Constitution.

Women's roles in our society have changed. The clock will not turn back. The women of this country, and the men who care, will not tolerate a return to the time when women were relegated to the sidelines of our society—when blatant discrimination and barriers to equal opportunities deprived women of the chance to reach their full potential—whether in the home or in a career.

Much progress has been made in recent years toward ending discrimination against women: The Equal Pay and Equal Credit Acts, ensuring parity and pay and credit; the Civil Rights act, forbidding discrimination in employment; and title IX, ensuring equality in education. These are great achievements. But they are a piecemeal approach to an enormous problem. As laws directed to specified subjects, they cannot address comprehensively the many kinds of discrimination women face everyday. A constitutional amendment is the simple statement of equality for all.

The American Bar Association explained the need for ERA this way:

No ordinary statute can provide the bedrock protection assured by a constitutional amendment. No court decision can provide that protection, for the courts can interpret, but they may not amend the Constitution.

ERA is a self-evident principle of simple justice. It would not prevent anyone, man or woman, from living the kind of life they want. It would not force anyone, man or woman, to live according to rules dictated by others. ERA is the only permanent insurance that all of us can have an equal chance.

No time limit can be placed on the pursuit of equality and justice for all Americans. Opponents of ERA must realize that those of us who seek true equality for all people will never allow the equal rights amendment to die. We will not give up the struggle. We will not give in. We will continue until all Americans, and especially the 51.4 percent who are female, are truly "We are the People." ●

● **Mr. METZENBAUM.** Mr. President, once again I am pleased to join as a cosponsor of the equal rights amendment to the U.S. Constitution.

There is no question that an ERA ought to be a part of the Constitution already. Over 50 percent of our population is female. Surely, as a nation committed to equal justice under law, we should include in our Constitution a guarantee against sex discrimination.

The ERA I am cosponsoring is a simple, straightforward assertion of basic human rights. It states:

Equality of rights under the law shall not be denied or abridged by the United States or by any State on account of sex.

We cannot, with a clear conscience, continue to deny to over half our citizens this basic legal protection. This time we must be sure that the ERA is not only approved by the 100th Congress, but also ratified by the State legislatures.

We need an ERA. Those who say we don't haven't looked at the evidence.

There are still State and Federal laws which contain gender-based distinctions. Some of these laws have been held constitutional, and others remain on in our laws books. An ERA is necessary to completely eliminate the effect of these laws. An ERA would also require—and encourage legislative reform.

An ERA would also give women clear—and permanent protection against discrimination in public employment. Historically, both Federal and State Governments maintained explicit, gender-based discrimination in public employment. Though most explicit barriers have been stricken, these historical distinctions are perpetuated in informal and subtle ways. Patterns and practices of gender discrimination continue, reinforced and legitimized by past traditions and the stereotyping which has resulted from these traditions. In addition, most State and Federal employment discrimination laws do permit gender distinctions.

The result is that women are not only excluded from certain occupations but their income is diminished as well. Women have achieved some protection against employment discrimination through Federal and State laws, but some gender-based distinctions are permitted by employment discrimination laws. An ERA would outlaw all discrimination in public employment. Women would enjoy more employment opportunities and State and Federal Governments would more fully receive the benefit of their services and talents.

An ERA would also outlaw gender-based discrimination in public education. Historically, Federal, State, and local government required and/or approved explicit, gender-based distinctions in public education. Though few explicit barriers remain, patterns and practices of gender discrimination continue to exist.

Discrimination in education has adversely affected women. It has limited, and continues to limit, the intellectual and developmental possibilities of women. Discrimination in education has limited, and continues to limit, the employment and income opportunities of women and their families. The effects of past and present discrimination in education are manifested in the dramatic sex segregation of many oc-

cupations<sup>1</sup> and the substantially lower wages women receive.<sup>2</sup>

An ERA would make gender-based discrimination in education unlawful. An ERA would also empower Congress to eliminate the present and past effects of discrimination in education.

State laws have also restricted the economic and social opportunities of women through the maintenance of gender-based, stereotypical distinctions which have been traditionally embodied in family and marital law. An ERA would outlaw these distinctions as well.

A recent Carnegie Foundation report rejects the view that occupational segregation and income disparities have resulted solely from the free choices women make in an open market. On the contrary, says the report, the evidence "suggests . . . that women face discrimination and institutional barriers in their education, training, and employment. Often the opportunities some encounter . . . constrain their choices to a narrow set of alternatives."<sup>3</sup>

The status of women in our society is due in part to the historical inequality which governments have sponsored and condoned for many years.

An ERA would add to the Constitution a mandate to end sex discrimination, the roots of which reach deeply into every part of the society. A constitutional amendment will provide additional and needed power to eliminate root and branch, past and present sex discrimination from our society.

<sup>1</sup> A 1985 Carnegie Report funded by the Department of Education and Department of Labor shows that about 50 percent of all men and women work in jobs which are essentially segregated. Women are still 98.8 percent of the secretaries, 75.4 percent of the elementary school teachers, 89.7 percent of the bookkeepers, 83.5 percent of the cashiers, 88 percent of the waiters, 72.7 percent of the sales workers, 95.9 percent of the registered nurses, and 87.8 percent of the nursing aides. Overall, among the 503 occupations listed in the 1980 census, 275 were greater than 80 percent male or female. New York Times, December 12, 1985, at A20, Col. 1.

<sup>2</sup> Thirteen percent of all families in this country live below the poverty level; 36 percent of all female headed households have income below the poverty level. U.S. Department of Commerce, Bureau of the Census Statistical Abstract of the United States 1985 455(1984).

The 1986 Carnegie Report also states that women still earn about 60 cents to every dollar earned by men. The report noted that in 1981, the median salary for women who worked full time throughout the year was \$12,001, compared to a median male salary of \$20,260. White women over 18 earned about 60 percent of the salary of white men, while black women earned about 54 percent of the salary of white men. The report states that sex segregation in occupations accounts for much of this disparity.

A Stanford study released this year found that the income of women doubled in the last quarter century, but their average hourly pay was still 50 percent less than that of men. Washington Post, April 18, 1986, at C11, Col. 1. This Stanford University researcher concluded that women's gains have been offset by other factors which contribute to economic well being. ". . . The net result is certainly no improvement over the last 25 years . . . everything that I said goes double for blacks." Id.; 232 Science 459 (April 25, 1986).

<sup>3</sup> See footnote 1, supra.

Some say that we can leave this business of sex equality to the courts. This we cannot do. I would be the first to say that the courts, especially the Supreme Court, have done a great deal to guarantee sex equality under our Constitution. But when I look closely at these decisions, I see a great deal of division over the role of the judiciary in guaranteeing sex equality. The judges are divided over the amount of scrutiny they ought to give gender classifications. As a result, the scope of constitutional protection against sex inequality seems to vary with the circumstances and with the composition of our courts. The passage of an ERA is necessary to clarify our Constitution and to give guidance to the judges. The passage of an ERA is necessary to make it clear that sex inequality is unconstitutional inequality.

The passage of the ERA would not eliminate the role of the courts in guaranteeing sex equality. The courts would be called upon to interpret the ERA, and to decide upon the constitutionality of statutes passed pursuant to the ERA. The courts would be an important partner in the fight to guarantee sex equality. But Congress and the American people must take the lead and enact a clear constitutionally required standard of sex equality.

Others say we ought to let Congress and the States guarantee sex equality by statute. But a statutory approach is simply not adequate.

For a variety of reasons, statutes which include gender-based distinctions remain on the books. States do continue to pass laws which permit gender-based distinctions. Perhaps these phenomena occur because women are not well represented in this legislature. In 1971, women were 2.8 percent of the Members of Congress; in 1986 they are still less than 5 percent. In 1971, women made up only 4.7 percent of the State legislatures, in 1985 they were merely 14.8 percent. But whatever the reason for the persistence of these statutes, an ERA would have a nullifying effect.

We cannot wait for legislatures to eliminate discriminatory statutes or to outlaw discriminatory State policies. Statutes alone are inadequate because the legislative process is affected by the perception that some gender-based distinctions are acceptable under the 14th amendment. As a result, legislators who support gender distinctions as a matter of policy draw comfort and solace from the state of constitutional uncertainty. An ERA would eliminate the perception that sex inequality is constitutionally acceptable. An ERA would require that legislatures set aside their personal feelings and enforce a clear constitutional mandate.

An ERA is also necessary because statutory guarantees currently in effect may be repealed by Congress and State legislatures. The viability of

this legislation depends upon shifting legislative majorities while an ERA would embody in our constitution a permanent guarantee of sex equality.

Surely we all agree that women deserve to be equal partners in this constitutional enterprise. We have waited too long to take this giant step toward meaningful equal justice under law. Only a constitutional amendment will suffice.

What better way to celebrate the bicentennial year of our Constitution than to ratify the ERA. All over America we will celebrate our constitution, a constitution which has endured 200 years. We will talk about the giant strides we have made in constitutional governance, and we will discuss the great strides we have made toward equal justice under law for all people. But what will the women of this country celebrate? A half century struggle to achieve constitutional equality? A half century of uncertain constitutional status? We have waited long enough. It is time that we included women as equal partners in this constitutional enterprise. Let's celebrate this bicentennial year by ratifying the ERA.

Thank you Mr. President.●

By Mr. INOUE (for himself and Mr. MATSUNAGA):

S.J. Res. 2. Joint resolution to proclaim the month of March 1987 as National Social Work Month; to the Committee on the Judiciary.

#### NATIONAL SOCIAL WORK MONTH

● Mr. INOUE. Mr. President, today Senator MATSUNAGA and I are introducing a joint resolution to proclaim the month of March 1987 as National Social Work Month.

Mr. President, our Nation's social workers have a long and proud tradition of reaching out to serve those in our society who are most in need. All too often, we take them for granted and forget the many years of training and the decades of community service which their profession personifies. It is, therefore, with a great deal of pleasure that we introduce this resolution today.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the joint resolution was ordered to be printed in the RECORD, as follows:

#### S.J. RES. 2

Whereas it is fitting that Americans express their appreciation to the many thousands of dedicated men and women in all parts of our Nation who have, with creativity, resourcefulness, and true professionalism, devoted their lives to helping those in need;

Whereas social workers stand on the front line in the battle against deprivation, dependency, and disease, providing services to the poor, support to the ill and vulnerable, and treatment to the mentally ill;

Whereas the profession of social work, born in the turn-of-the-century social activism that spawned child labor laws, humane working environments, and voting rights for women, has evolved into a multifaceted profession whose well-trained practitioners serve the public in schools, hospitals, nursing homes, government and private social service agencies, corporations, unions, private practice and other settings;

Whereas the National Association of Social Workers, recognizing that children are America's most important resource and that all our children should have the opportunity they need to succeed, has launched a public service campaign entitled "Children in Poverty—Is a Fair Chance Too Much to Ask?"; Therefore be it

*Resolved*, That, in recognition of the many contributions of the social work profession to the welfare of our society, the Congress, by (Senate/House) joint resolution, authorizes and requests the President to proclaim the month of March 1987, as "National Social Work Month," and urges all Americans to take part in the profession's effort to enable all our children, including the poor, to be productive, contributing members of society.

By Mr. DOLE:

S.J. Res. 3. Joint resolution proposing an amendment to the Constitution relating to a Federal budget and tax limitation; to the Committee on the Judiciary.

#### FEDERAL BUDGET TAX LIMITATION

Mr. DOLE. Mr. President, at the beginning of this 100th Congress, it is important to focus on the issues that really matter. That's why for this Senator, it is extremely gratifying to have the opportunity to state the case for a balanced budget amendment to the Constitution of the United States. I know my colleagues are aware of my conviction that this constitutional change is essential to the long-term fiscal health of this Nation. I hope at least two-thirds of them will share my conviction: Unfortunately, that was not quite the case in the 99th Congress.

Mr. President, I am reintroducing the balanced budget amendment today in the form I prefer: Putting limits on both deficit spending and the tax burden. But I am open to other formulations, and this language certainly is not written in stone.

At the outset, let me acknowledge the extraordinary efforts of those who have kept this issue on the front burner over the years, led by my good friend STROM THURMOND. Senator THURMOND has worked tirelessly for this kind of fundamental fiscal reform: And he has been a true believer on this issue, literally for decades and he led the good fight for this amendment in the last Congress. The leadership of the distinguished ranking member of the Constitution Subcommittee, ORRIN HATCH, has been equally critical to this struggle. Senator HATCH has been constantly in the trenches on behalf of the balanced budget amendment and has not wavered for one

moment from his devotion to this cause. In the 99th Congress together with his colleagues on the Judiciary Committee, DENNIS DECONCINI and HOWELL HEFLIN, Senator HATCH has forged a compromise that should have gained overwhelming bipartisan support; and I am sorry we did not prevail.

#### A SINGLE PRINCIPLE

Mr. President, the amendment I am introducing embodies a simple principle: In the normal situation, outlays of the Federal Government should not exceed receipts. This amendment just requires that to allow a deficit, Congress must, by three-fifths vote, authorize a specific excess of outlays over receipts. And to preserve a bias in favor of controlling spending we say that increases in the level of taxation cannot be passed except by a majority of all Members of the House and Senate; not just those present and voting.

This amendment presents the Congress with an historic opportunity. This proposed constitutional amendment would restore a proper balance to the way we conduct the fiscal affairs of the Government. It is not a quick fix, a response to a sudden shift in public opinion, or an attempt to evade our assigned duties under the Constitution with regard to decisions on taxing and spending. This is an idea that has been around for quite some time, but that has gained momentum in recent years because of the growing realization that there is something fundamentally wrong with the way we conduct fiscal policy.

Fundamental problems demand fundamental solutions. Those of us who have worked to develop a responsible constitutional amendment over the years have not taken lightly our duty to respect the form and the spirit of the basic law of the land. The language of this amendment is appropriate to the Constitution. It is not premised on any particular economic philosophy, but rather on the belief that Congress ought to make specific decisions on fiscal policy and be held accountable for those decisions. The amendment requires that we follow consistent procedures in setting fiscal policy, and establishes firm parameters to govern those procedures. That is all there is to it, and it is something we very much need.

#### A POPULAR MANDATE

The American people clearly are convinced that our fiscal house is not in order. Popular concern over runaway budgets is the reason why the drive for a constitutional convention to draft a fiscal restraint amendment is only a few States short of its goal. Polls consistently show that 70 to 80 percent of the American people support a balanced budget amendment. No one should maintain that we ought to take certain steps just because they

are popular; but in this case it seems that the people are ahead of the politicians. They understand that congressional spending habits have to be put under a firm limitation, and that only new procedures, externally imposed, can do the job.

Mr. President, for these and many other reasons I urge my colleagues to support this amendment. The language of this proposal has been developed over a number of years. There has been a conscious effort to draft an amendment that could enjoy broad bipartisan support while having sufficient force to make a real difference in our national life. I believe this effort has been successful.

I would also suggest that this amendment, if approved by Congress, is not the end of the story. It is the beginning. Legislative implementation and compliance will be a complex and difficult matter—we should not deceive ourselves on that point. And we are learning from the experience of the Gramm-Rudman-Hollings law that enforcement is not a simple matter. But it can and will be done once we have a clear constitutional obligation to fulfill. We can demonstrate our willingness and ability to follow through on this amendment by moving swiftly to meet the fiscal 1988 targets for Gramm-Rudman.

Serious action on the deficit will convince the American people that we are serious about the budget problem and that this constitutional amendment will be given full force and effect. Our actions on each of these matters will have a major impact now and for years to come. Let us be sure that we make the right choice.

By Mr. D'AMATO (for himself and Mr. RIEGLE):

S.J. Res. 5. A joint resolution designating June 14, 1987, as "Baltic Freedom Day"; to the Committee on the Judiciary.

#### BALTIC FREEDOM DAY

● Mr. D'AMATO. Mr. President, I rise today to introduce a joint resolution, with the support of the distinguished Senator from Michigan, designating June 14, 1987, as "Baltic Freedom Day." The purpose of this measure is straightforward, and that is to express Congress' continued outrage over the Soviet Union's obdurate subjugation, oppression, and Russification of the Baltic people of Lithuania, Latvia, and Estonia.

June 14, 1987, will mark the 47th anniversary of the United States nonrecognition policy toward the Soviet's illegal occupation of Lithuania, Latvia, and Estonia. The steadfastness of this policy shall not diminish with time. Indeed, it will remain a sensitive issue of United States-Soviet relations until the Soviet Union releases its Red hand from the throats of these Baltic

States. I can only hope that we will continue to be as steadfast in this policy as our Baltic friends have been in their pursuit of freedom.

Lithuania, Latvia, and Estonia each proclaimed their independence in 1918 and for 22 years they nurtured their newly found freedom—a freedom previously denied them by more powerful, more aggressive neighbors. For centuries before 1918, control over the Baltic people had gone back and forth between Germany and Russia. In 1918, the Baltic people, however, took a stand on behalf of their self-determination, and, in 1920, the Soviet Union promised to recognize their independence.

The cultural life of the Baltic people blossomed and their system of education made tremendous strides. These embryonic Republics were developing into strong agrarian societies. Politically, minorities were guaranteed cultural and political rights. They were recognized throughout the world for their religious and lingual tolerance and for their desire to live in peace. The Baltic people loved their newly found freedom.

As time reveals all truths, however, it now is clear to us and to the world that the Soviet Union's promise in 1920, through legitimate peace treaties with each Baltic State, was as hollow as any they have made before or since that time. By signing those peace treaties, the Soviet Union promised to "voluntarily and forever" renounce its sovereign rights over the territories of Lithuania, Latvia, and Estonia and to recognize without reservation their "independence, autonomy, and sovereignty."

In 1940, the Soviet Union began its attempt to smother Baltic freedom. The Red Army stormed into Lithuania, rolled over Latvia, forced its way into Estonia, and seized control of all three nations. The Soviets then established in each nation a puppet regime which unanimously passed a "request" for incorporation into the Soviet Union. Late in 1940, these "requests" were enacted in Moscow.

As we all know, for a state to govern its people, that state needs first to have the consent of its people—or that state will fall. This is part of a democratic foundation. For the time being, the Soviet Union may have control over the people of Lithuania, Latvia, and Estonia. But, without the consent of these freedom-loving people, the Soviet Union inevitably will become the object of its own folly. When that day comes, the Soviet Union will begin to feel the pain and the suffering it has so cruelly inflicted upon the Balts since their illegal and forced incorporation.

The Soviet occupation began with a series of arrests and imprisonments that swelled into the tens of thousands. On the evening of June 14,

1941, with terror gathering momentum, they began a massive deportation program. Between 1944 and 1949, hundreds of thousands of Baltic people were herded into freight cars and exiled to distant parts of the Soviet Union. Those countless native Balts who were considered potential foes of communism were branded "enemies of the people" and were replaced by new settlers from the Soviet Union.

The Soviet Union quickly centralized its governing authorities in each of the Baltic Republics and continued the Russification process according to plan. All private institutions were nationalized, farms were collectivized, and the entire wealth of each of these "would-be" free peoples became State property. The Soviet Union assumed control over the production and distribution of all goods and products, over all means of transportation, over communications, printing, and the press. People were forbidden to leave their countries and were barred from all coastal towns and border areas.

Under Stalin, Khrushchev, Brezhnev, Andropov, Chernenko, and now Gorbachev, thousands of Lithuanians, Latvians, and Estonians have been slaughtered, deported, exiled, and imprisoned in slave-labor camps or committed to psychiatric institutions. These ruthless dictators have pursued a Russification policy which has denied the Baltic people the most basic of human rights. What the Soviets have done clearly flies in the face of the United Nations Universal Declaration on Human Rights and the Helsinki Final Act.

Despite repeated professions of support for the principles embodied in the Final Act, the Soviets have continued to blatantly violate the rights to self-determination guaranteed the Baltic people. As this act affirms, "All people always have the right, in full freedom, to determine, when and as they wish, their internal and external political status, without external interference, and to pursue as they wish their political, economic, social and cultural development."

In recent years, Soviet disdain for the Helsinki accords has been revealed in their stepped-up repression of Lithuanians, Latvians, and Estonians. Dr. Algirdas Statkevicius, a member of the Lithuanian Helsinki Monitoring Group, has been sentenced to compulsory psychiatric treatment for engaging in "anti-Soviet agitation and propaganda." Fathers Alfonsas Svarinckas and Sigita Tamkanicinas have been persecuted and imprisoned for their defense of believers' rights. In addition, Juris Brimeisters, a Latvian Social Democrat, is serving a 15-year sentence in a strict regime camp for his political convictions. We also must not forget Dr. Yuri Kuk, a courageous Estonian human rights activist, who died of a hunger strike in a tran-

sit prison where he had been placed as a result of "anti-Soviet agitation and propaganda."

While great, the degree and depth of Soviet denial of basic human and civil rights is not as deep as the Baltic people's desire for freedom and independence. The Balts' deeply rooted love of freedom and steadfast belief in the principles of independence have enabled them to endure Communist hegemony and suppression. They have lasted through years of Soviet subjugation, oppression, and Russification. Their spirit will not be broken, and their struggle for self-determination will continue.

Mr. President, the departing chairman of the Commission on Security and Cooperation in Europe, I remain deeply concerned about the Soviet Union's continuing human rights violations in Lithuania, Latvia, and Estonia. We, the Congress and the Nation, are all concerned—and rightfully so. As a party to the United Nations Charter and as a signatory of the Helsinki accords, the Soviet Union has pledged its respect for human rights and fundamental freedoms. As much, the Soviet Union must accept the political and legal obligations that these agreements entail.

When we celebrate June 14, 1987, as "Baltic Freedom Day," it is fitting and proper that we remind the Soviet Union of these obligations. I urge my colleagues to join me in support of this resolution to reaffirm our love for freedom and our commitment to the principles of independence for all peoples, for ourselves, and especially for our Baltic friends who have been forced to live their absence.

Mr. President, I ask unanimous consent that the full text of my joint resolution be printed in the RECORD.

There being no objection, the joint resolution was ordered to be printed in the RECORD, as follows:

S.J. Res. 5

Whereas the people of the Baltic Republics of Lithuania, Latvia, and Estonia have cherished the principles of religious and political freedom and independence;

Whereas the Baltic Republics have existed as independent, sovereign nations belonging to and fully recognized by the League of Nations; and

Whereas the people of the Baltic Republics have individual and separate cultures, national traditions, and languages distinctively foreign to those of Russia;

Whereas the Union of the Soviet Socialist Republics (U.S.S.R.) in 1940 did illegally seize and occupy the Baltic Republics and by force incorporate them against their national will and contrary to their desire for independence and sovereignty into the U.S.S.R.;

Whereas the U.S.S.R. since 1940 has systematically removed native Baltic peoples from their homelands by deporting them to Siberia and caused great masses of Russians to relocate in the Baltic Republics, thus threatening the Baltic cultures with extinction;

Whereas the U.S.S.R. has imposed upon the captive people of the Baltic Republics an oppressive political system which has destroyed every vestige of democracy, civil liberties, and religious freedom;

Whereas the people of Estonia, Latvia, and Lithuania find themselves today subjugated by the U.S.S.R., locked into a union they deplore, denied basic human rights, and persecuted for daring to protest;

Whereas the U.S.S.R. refuses to abide by the Helsinki Accords which the U.S.S.R. voluntarily signed;

Whereas the United States stands as a champion of liberty, dedicated to the principles of national self-determination, human rights, and religious freedom, and opposed to oppression and imperialism;

Whereas the United States, as a member of the United Nations, has repeatedly voted with a majority of that international body to uphold the right of other countries of the world, including those in Africa and Asia, to determine their fates and be free of foreign domination; and

Whereas the U.S.S.R. has steadfastly refused to return to the people of the Baltic States of Latvia, Lithuania, and Estonia, the right to exist as independent republics separate and apart from the U.S.S.R. or permit a return of personal, political, and religious freedoms:

Now, therefore, be it

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,* That the Congress of the United States recognizes the continuing desire and the right of the people of Lithuania, Latvia, and Estonia for freedom and independence from the domination of the U.S.S.R. deplors the refusal of the U.S.S.R. to recognize the sovereignty of the Baltic Republics and to yield to their rightful demands for independence from foreign domination and oppression and that the fourteenth day of June 1985, the anniversary of the mass deportation of Baltic peoples from their homelands in 1941, be designated "Baltic Freedom Day" as a symbol of the solidarity of the American people with the aspirations of the enslaved Baltic people and that the President of the United States be authorized and requested to issue a proclamation for the observance of Baltic Freedom Day with appropriate ceremonies and activities.

● **Mr. RIEGLE.** Mr. President, I am pleased to join my colleague, Senator D'AMATO, in introducing a joint resolution calling for the declaration of June 14, 1987, as Baltic Freedom Day.

As the Senate sponsor of this resolution on two previous occasions, I commend my colleague from New York for his initiative in introducing this important piece of legislation on the first day of the 100th Congress.

June 14, 1987, will mark the 47th year of Soviet occupation of Latvia, Lithuania, and Estonia. The U.S. Government, through its nonrecognition policy, and the American people, through their tireless activism, have consistently rejected Soviet occupation of the Baltic States, and will continue to do so.

We must not permit the past 47 years of Soviet repression in the Baltic States to dull our sensitivity to the injustices imposed upon the citizens of those nations. The leaders in the

Kremlin must know that Americans will never accept the status quo, and that we will continue to support the Baltic people in their efforts to secure their fundamental human rights.

The annual commemoration of Baltic Freedom Day, as called for in this resolution, is an important demonstration of American solidarity with the aspiration of the people of Latvia, Lithuania, and Estonia for freedom, and I urge its prompt and unanimous approval by the Senate. ●

By Mr. DIXON:

S.J. Res. 6. A joint resolution proposing an amendment to the Constitution authorizing the President to disapprove or reduce an item of appropriations; to the Committee on the Judiciary.

PRESIDENT MAY DISAPPROVE OR REDUCE  
CERTAIN APPROPRIATIONS

● **Mr. DIXON.** Mr. President, I am today reintroducing a joint resolution proposing a constitutional amendment authorizing the President to disapprove or reduce individual items of appropriations, subject to a majority vote override. I am also reintroducing legislation to expand the President's rescission authority because action on the constitutional amendment will necessarily take a substantial period of time, and we need the benefits to be garnered from the item veto now.

I do not propose this constitutional amendment and expanded rescission authority lightly, but I am convinced we need fundamental changes in our budgeting procedures if we are ever to restore fiscal discipline to the Federal Government. Deficits are out of control. Our budget deficit was \$220 billion in fiscal 1986. It is likely to be substantially smaller in fiscal year 1987, perhaps as low as \$174 billion. Unfortunately, the reduction is not due to fundamental budget reform, however, but rather to budgetary "blue smoke and mirrors." Further, a \$175-billion deficit is \$30 billion over the fiscal year 1987 Gramm-Rudman-Hollings target of \$144 billion, and the prospects for meeting the 1988 target of \$108 billion, and balancing the budget by 1991 are even less rosy. Budgetary legerdemain will not solve our ongoing fiscal crisis; fundamental reform of our budget processes is required if Federal deficits are to be controlled over the long run.

Solving our budget problems will require strong action in a number of areas. I am convinced that adding an item veto provision to our Constitution is probably the single most important action we could take if we really want to end the deficit nightmare.

The item veto has a long and distinguished history. It first appeared in the Confederate constitution. In the years since the Civil War it has been included in the constitutions of 43 of the 50 States. The States gave their

Governors this authority because it was needed, because it strengthens their budget processes, and because it works. No State that has adopted the item veto has ever repealed it.

While the idea has demonstrated its merit at the State level, however, it has never seriously been considered at the Federal level. Numerous item veto proposals have been introduced in Congress since the first one in 1876. At least seven different Presidents have requested item veto authority. But none of these proposals or requests has ever been sent to the States or been acted on by either the House or the Senate.

Mr. President, it is long past time to change that situation, and act on an item veto provision that helps restore the President's veto power. I say restore because the truth is that the Presidential veto is now a much weaker weapon than it once was.

Under our Constitution, a President can only veto an entire bill. He or she cannot veto individual items of spending within the bill—the veto is an all or nothing proposition. When our Constitution was written, that was a reasonable and workable balance of powers between the legislative and executive branches. Government was smaller and simpler. Over the past two centuries, though, Congress has tipped the balance in its favor and substantially eroded the President's veto power. The growth in Government, together with the increasing use of omnibus legislation, now make it significantly more difficult for a President to play the role envisioned by the Nation's founders.

Increasingly, a President has the choice of either shutting down the Government, or signing into law billions of dollars of spending which he or she does not support. Last year, for example, all Government spending was included in a single omnibus bill instead of the 13 annual appropriation bills that Congress usually acts on to exercise its control over Government spending.

More and more, Congress attaches controversial items to must bills in an effort to make it more difficult for a President to use his veto power. Logrolling, and packaging good and bad programs into a single omnibus bill, have become a way of life.

These practices are near and dear to the hearts of many legislators, but they work to undermine our ability to budget in a fiscally sound and responsible manner. They are clearly wasteful, extravagant, and destructive.

Congress will never resolve the deficit problems, Mr. President, if it continues this business as usual approach. Congress must surrender some of the prerogatives it has accumulated over the years, and allow at least a partial

restoration of the President's veto power.

Many Members, as well as those who benefit from the current way of doing things, may not want to surrender all the power they have gained. To ensure that the proper balance of powers between the legislative and executive branches of Government is maintained—to ensure no possibility of the creation of an imperial Presidency—I am proposing only a partial restoration, giving the President item veto authority, but allowing Congress to override it by a simple constitutional majority.

Under my proposal, a President would have to choose: either veto an entire bill, forcing Congress to attempt to override by two-thirds vote, or use the item veto, recognizing that it would be easier for Congress to override.

Stated another way, it simply allows a President to put the Congress on record, to see whether there is in fact majority support for certain individual items of spending in an omnibus bill. As we all know too well, most Members of Congress have never seen and do not know about many of the literally thousands of individual items in the hundreds of pages of appropriations bills enacted every year. We rely on staff, and the knowledge, character, and ability of the Senators and Representatives that are the subcommittee chairmen and ranking members that handle the bills. Yet all these items are presumed to have majority support because they were included in a major bill that majorities in both the House and the Senate supported.

If a President opposes an item, why shouldn't he or she have the right to ask the Congress to go on record, and to determine whether the majority that is presumed to exist actually exists? In the early days of our Republic, Presidents often effectively had that right because bills were narrower and did not deal with more than one subject. We have now reached the point, however, where a single appropriations bill contains over \$558 billion in spending authority, a practice which I believe usurps the President's constitutionally mandated role in the legislative process.

Majority override means that a President could not overturn strong congressional support for a single item through use of the item veto and the support of one-third plus one in either the House or the Senate. Only the veto of an entire bill would take a two-thirds vote to override. An item veto would be sustained if the President commanded majority support, and would be overturned if the item had majority backing.

Mr. President, the Line-Item Rescission Act is based on similar principles. I am introducing this proposal reluctantly because I believe a constitution-

al amendment is the better way to proceed. Further, some of the past rescission proposals would have given the President unilateral rescission authority, thus effectively giving a President two bites at the same apple. Under these proposals a President could sign a bill and rescind various items of spending. Congress would have to effectively act on a new bill repassing the items to overturn the rescission, and this action would be subject to Presidential veto, requiring a two-thirds vote to override.

My proposal is merely a small expansion of authority already available to Presidents under the Budget Act. It does not give a President unilateral rescission authority. It is designed to make the rescission mechanism as close to a majority override line-item veto constitutional provision as is possible through statutory means while not violating constitutional principles. It can be put into effect far more quickly than a constitutional change, and would provide at least part of the benefits of the constitutional amendment.

The legislation permits a President to defer items of spending contained in an appropriations bill for 60 days while Congress considers rescission resolutions under expedited procedures. Each rescission resolution would cover a single item and would have to be voted on separately, as the veto of an individual item would be.

Both Houses of Congress would have to vote on the resolution or resolutions within 60 days of their transmittal to Congress by a President. If the President had majority support the resolution would pass and the item would be rescinded. If the item had majority support, the spending would go forward without being subject to further Presidential veto.

The rescission resolutions would not be amendable since veto messages are not amendable, and the expedited procedures would guarantee a vote on the resolutions. This provision, of course, is different from the way a veto message is considered. There is no guarantee that a veto message will be voted on at all. However, a veto is effective unless overturned by both Houses of Congress while a rescission is effective only when approved in both Houses. The combination of the limited deferential authority, and the expedited procedures guaranteeing a vote, is necessary to ensure that Congress faces the issues raised by a President's opposition to particular items.

Neither the item veto constitutional amendment nor the Line-Item Veto Rescission Act is a cure-all for the budget problems we are facing, Mr. President. Dealing with the deficit will require action in every area of the budget, action that will be difficult and distasteful. However, either proposal can and will make a real differ-

ence. If a Federal item veto with majority override works as well at the Federal level as it does in my own State of Illinois, it could save \$27 billion a year or more.

I urge the Senate to consider these proposals very carefully. I am convinced that the result of this fair and reasonable examination will be enactment of a Line-Item Veto Rescission Act and early submission of the constitutional amendment to the States for ratification. I look forward to working with my colleagues toward these objectives. Mr. President, I ask unanimous consent that a copy of the bill and the joint resolution be printed at this point in the RECORD.

There being no objection, the joint resolution and bill was ordered to be printed in the RECORD, as follows:

S.J. RES. 6

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled (two-thirds of each House concurring therein), That the following article is proposed as an amendment to the Constitution of the United States, which shall be valid to all intents and purposes as part of the Constitution if ratified by the legislatures of three-fourths of the several States within seven years after its submission to the States for ratification:*

"ARTICLE —

"The President may reduce or disapprove any item of appropriation in any Act or joint resolution, except any item of appropriation for the legislative branch of the Government. If an Act or joint resolution is approved by the President, any item of appropriation contained therein which is not reduced or disapproved shall become law. The President shall return with his objections any item of appropriation reduced or disapproved to the House in which the Act or joint resolution containing such item originated. The Congress may, in the manner prescribed under section 7 of the article I for Acts disapproved by the President, reconsider any item disapproved by the President, reconsider any item disapproved or reduced under this section, except that only a majority vote of each House shall be required to approve an item which has been disapproved or to restore an item which has been reduced by the President to the original amount contained in the Act or joint resolution."

S. 256

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Line-Item Rescission Act of 1985".*

SEC. 2. EXPEDITED CONSIDERATION OF CERTAIN PROPOSED RESCISSIONS.

(a) IN GENERAL.—Part B of title X of the Congressional Budget and Impoundment Control Act of 1974 is amended by redesignating sections 1013 through 1017 as sections 1014 through 1018, respectively, and inserting after section 1012 the following new section:

"EXPEDITED CONSIDERATION OF CERTAIN PROPOSED RESCISSIONS

"SEC. 1013. (a) TRANSMITTAL OF SPECIAL MESSAGE.—The President may, on the same calendar day the President approves any ap-

proportion bill, transmit to both Houses of the Congress, for consideration in accordance with this section, one or more special messages proposing to rescind all or part of any item of budget authority provided in the appropriation bill.

**"(b) CONTENTS OF SPECIAL MESSAGE.—**

"(1) No special message may be considered in accordance with this section if the special message proposes to rescind more than one item of budget authority.

"(2) Each special message transmitted under subsection (a) shall specify, with respect to the item of budget authority (or part thereof) proposed by the message to be rescinded, the matters referred to in paragraphs (1) through (5) of section 1012(a).

"(3) Each special message transmitted under subsection (a) shall be accompanied by a draft bill or joint resolution that would, if enacted, rescind the budget authority proposed to be rescinded.

**"(c) PROCEDURES.—**

"(1)(A) On the day on which a special message proposing to rescind an item of budget authority is transmitted to the House of Representatives and the Senate under subsection (a), the draft bill or joint resolution accompanying such special message shall be introduced (by request) by the majority leader of the House of the Congress in which the appropriation Act providing the budget authority originated. If such House is not in session on the day on which a special message is transmitted, the draft bill or joint resolution shall be introduced in such House, as provided in the preceding sentence, on the first day thereafter on which such House is in session.

"(B) A draft bill or joint resolution introduced in the House of Representatives or the Senate pursuant to subparagraph (A) shall be referred to the Committee on Appropriations of such House. The committee shall report the bill or joint resolution without substantive revision (and with or without recommendation) not later than 20 calendar days of continuous session of the Congress after the date on which the bill or joint resolution is introduced. A committee failing to report a bill or joint resolution within the 20-day period referred to in the preceding sentence shall be automatically discharged from consideration of the bill or joint resolution, and the bill or joint resolution shall be placed on the appropriate calendar.

"(C) A vote on final passage of a bill or joint resolution introduced in a House of the Congress pursuant to subparagraph (A) shall be taken on or before the close of the 30th calendar day of continuous session of the Congress after the date of the introduction of the bill or joint resolution in such House. If the bill or joint resolution is agreed to, the Clerk of the House of Representatives (in the case of a bill or joint resolution agreed to in the House of Representatives) or the Secretary of the Senate (in the case of a bill or joint resolution agreed to in the Senate) shall cause the bill or joint resolution to be engrossed, certified, and transmitted to the other House of the Congress on the same calendar day on which the bill or joint resolution is agreed to.

"(2)(A) A bill or joint resolution transmitted to the House of Representatives or the Senate pursuant to subparagraph (C) of paragraph (1) shall be referred to the Committee on Appropriations of such House. The committee shall report the bill or joint resolution without substantive revision (and with or without recommendation) not later than 20 calendar days of continuous session

of the Congress after the bill or joint resolution is transmitted to such House. A committee failing to report the bill or joint resolution within the 20-day period referred to in the preceding sentence shall be automatically discharged from consideration of the bill or joint resolution, and the bill or joint resolution shall be placed upon the appropriate calendar.

"(B) A vote on final passage of a bill or joint resolution transmitted to a House of the Congress pursuant to subparagraph (C) of paragraph (1) shall be taken on or before the close of the 30th calendar day of continuous session of the Congress after the date on which the bill or joint resolution is transmitted to such House. If the bill or joint resolution is agreed to in such House, the Clerk of the House of Representatives (in the case of a bill or joint resolution agreed to in the House of Representatives) or the Secretary of the Senate (in the case of a bill or joint resolution agreed to in the Senate) shall cause the engrossed bill or joint resolution to be returned to the House in which the bill or joint resolution originated, together with a statement of the action taken by the House acting under this paragraph.

"(3)(A) A motion in the House of Representatives to proceed to the consideration of a bill or joint resolution under this section shall be highly privileged and not debatable. An amendment to the motion shall not be in order, nor shall it be in order to move to reconsider the vote by which the motion is agreed to or disagreed to.

"(B) Debate in the House of Representatives on a bill or joint resolution under this section shall be limited to not more than 10 hours, which shall be divided equally between those favoring and those opposing the bill or joint resolution. A motion further to limit debate shall not be debatable. It shall not be in order to move to recommit a bill or joint resolution under this section or to move to reconsider the vote by which the bill or joint resolution is agreed to or disagreed to.

"(C) Motions to postpone, made in the House of Representatives with respect to the consideration of a bill or joint resolution under this section, and motions to proceed to the consideration of other business, shall be decided without debate.

"(D) All appeals from the decisions of the Chair relating to the application of the Rules of the House of Representatives to the procedure relating to a bill or joint resolution under this section shall be decided without debate.

"(E) Except to the extent specifically provided in the preceding provisions of this subsection, consideration of a bill or joint resolution under this section shall be governed by the Rules of the House of Representatives applicable to other bills and joint resolutions in similar circumstances.

"(4)(A) A motion in the Senate to proceed to the consideration of a bill or joint resolution under this section shall be privileged and not debatable. An amendment to the motion shall not be in order, nor shall it be in order to move to reconsider the vote by which the motion is agreed to or disagreed to.

"(B) Debate in the Senate on a bill or joint resolution under this section, and all debatable motions and appeals in connection therewith, shall be limited to not more than 10 hours. The time shall be equally divided between, and controlled by, the majority leader and the minority leader or their designees.

"(C) Debate in the Senate on any debatable motion or appeal in connection with a

bill or joint resolution under this section shall be limited to not more than 1 hour, to be equally divided between, and controlled by, the mover and the manager of the bill or joint resolution, except that in the event the manager of the bill or joint resolution is in favor of any such motion or appeal, the time in opposition thereto, shall be controlled by the minority leader or his designee. Such leaders, or either of them, may, from time under their control on the passage of a bill or joint resolution, allot additional time to any Senator during the consideration of any debatable motion or appeal.

"(D) A motion in the Senate to further limit debate on a bill or joint resolution under this section is not debatable. A motion to recommit a bill or joint resolution under this section is not in order.

"(d) AMENDMENTS PROHIBITED.—No amendment to a bill or joint resolution considered under this section shall be in order in either the House of Representatives or the Senate. No motion to suspend the application of this paragraph shall be in order in either House, nor shall it be in order in either House for the Presiding Officer to entertain a request to suspend the application of this paragraph by unanimous consent.

"(e) REQUIREMENT TO MAKE AVAILABLE FOR OBLIGATION.—Any item of budget authority proposed to be rescinded in a special message transmitted to the Congress in accordance with subsection (a) shall be made available for obligation unless, not more than 60 days after the transmittal of the special message, both Houses of the Congress have agreed to the bill or joint resolution accompanying such special message.

"(f) DEFINITIONS.—For purposes of this section—

"(1) 'item' means any numerically expressed amount of budget authority set forth in an appropriation bill;

"(2) 'appropriation bill' means any general or special appropriation bill, and any bill or joint resolution making supplemental, deficiency, or continuing appropriations; and

"(3) 'appropriation Act' means any appropriation bill that has been approved by the President and becomes law."

**(b) CONFORMING AMENDMENTS.—**

(1) Section 1011(5) of the Congressional Budget and Impoundment Control Act of 1974 is amended—

(A) by striking out "1012, and" and inserting in lieu thereof "1012, the 20-day periods referred to in paragraphs (1)(B) and (2)(A) of section 1013(c), the 60-day period referred to in section 1013(e) and";

(B) by striking out "1012 during" and inserting in lieu thereof "1012 or 1013 during";

(C) by striking out "of 45" and inserting in lieu thereof "of the applicable number of"; and

(D) by striking out "45-day period referred to in paragraph (3) of this section and in section 1012" and inserting in lieu thereof "period or periods of time applicable under such section".

(2)(A) Section 1011 of such Act is further amended—

(i) in paragraph (4) by striking out "1013" and inserting in lieu thereof "1014"; and

(ii) in paragraph (5)—

(I) by striking out "1016" and inserting in lieu thereof "1017"; and

(II) by striking out "1017(b)(1)" and inserting in lieu thereof "1018(b)(1)".

(B) Section 1012 of such Act is amended—

(i) by striking out "1012 or 1013" each place it appears and inserting in lieu thereof "1012, 1013, or 1014";

(ii) in subsection (b)(1) by striking out "1012" and inserting in lieu thereof "1012 or 1013";

(iii) in subsection (b)(2) by striking out "1013" and inserting in lieu thereof "1014"; and

(iv) in subsection (e)(2)—

(I) by striking out "and" at the end of subparagraph (A),

(II) by redesignating subparagraph (B) as subparagraph (C),

(III) by striking out "1013" in subparagraph (C) (as so redesignated), and

(IV) by inserting after subparagraph (A) the following new subparagraph:

"(B) he has transmitted a special message under section 1013 with respect to a proposed rescission; and";

(C) Section 1015 of such Act is amended by striking out "1012 or 1013" each place it appears and inserting in lieu thereof "1012, 1013, or 1014";

(D) Section 1016 of such Act is amended by striking out "or 1013(b)" and inserting in lieu thereof "1013(e), or 1014(b)".

(E) Section 1012(b) of such Act is amended by adding at the end thereof the following new sentence: "The preceding sentence shall not apply to any item of budget authority proposed by the President to be rescinded under this section that the President has also proposed to rescind under section 1013 and with respect to which the 60-day period referred to in subsection (e) of such section has not expired."

(3) The table of sections for subpart B of title X of the Congressional Budget and Impoundment Control Act of 1974 is amended—

(A) by redesignating the items relating to sections 1013 through 1017 as items relating to sections 1014 through 1018; and

(B) by inserting after the item relating to section 1012 the following new item:

"Sec. 1013. Expedited consideration of certain proposed rescissions."

#### SEC. 3. APPLICATION.

The amendments made by this section shall apply to items of budget authority (as defined in subsection (f)(1) of section 1013 of the Congressional Budget and Impoundment Control Act of 1974, as added by section 2 of this Act) provided by appropriation Acts (as defined in subsection (f)(3) of such section) that become law after the date of the enactment of this Act.

By Mr. THURMOND (for himself, Mr. HATCH, Mr. NICKLES, Mr. GRAMM, Mr. McCONNELL, and Mr. HELMS):

S.J. Res. 7. Joint resolution proposing an amendment to the Constitution of the United States relating to voluntary school prayer; to the Committee on the Judiciary.

#### SCHOOL PRAYER

● Mr. THURMOND. Mr. President, today I am introducing the voluntary school prayer constitutional amendment, a bill identical to S.J. Res. 73, which I introduced in the 98th Congress at the request of the President and reintroduced as S.J. Res. 3 in the 99th Congress. This proposed amendment to the Constitution has received strong support on both sides of the aisle and, as President Reagan has re-

peatedly emphasized, is of vital importance to our Nation. It would restore the right to pray voluntarily in the public schools—a right which was freely exercised under our Constitution until the 1960's, when the Supreme Court ruled to the contrary.

Until the Engel and Abington School District decisions, the establishment clause of the first amendment was generally understood only to prohibit the Federal Government from officially approving, or holding in special favor, any particular religious faith or denomination. In crafting that clause, our Founding Fathers sought to prevent what had originally caused many colonial Americans to emigrate to this country—an official, State religion. At the same time, they sought, through the free exercise clause, to guarantee to all Americans the freedom to worship God without Government interference or restraint. In their wisdom, they recognized that true religious liberty precludes the Government from both forcing and preventing worship.

As Supreme Court Justice William Douglas once stated: "We are a religious people whose institutions presuppose a Supreme Being." Nearly every President since George Washington has proclaimed a day of public prayer. Moreover, we, as a nation, continue to recognize the Deity in our Pledge of Allegiance by affirming that we are a nation "under God." The coins in our pockets are inscribed with the motto, "In God We Trust." In this body, we begin our workday with the comfort and stimulus of voluntary group prayer—such a practice has been constitutionally upheld recently by the Supreme Court. It is absurd that the opportunity for the same beneficial experience is denied to the boys and girls who attend public schools. This situation simply does not comport with the intentions of the framers of the Constitution and is, in fact, antithetical to the rights of our youngest citizens to freely exercise their respective religions. It should be changed, without further delay.

If ratified by the States, this amendment to the Constitution would clarify that it does not prohibit vocal, voluntary prayer in the public schools and other public institutions. It emphatically states that no person may be required to participate in any prayer. The Government would be precluded from drafting school prayers. This well-crafted amendment meets with the approval of the overwhelming majority of Americans. During the 98th Congress, it fell only 11 votes short of the 67 necessary for approval in the Senate. I strongly urge my colleagues to support prompt consideration and approval of this bill during the 100th Congress.

Mr. President, I ask unanimous consent that a copy of the voluntary

school prayer constitutional amendment be printed in the RECORD.●

There being no objection, the joint resolution was ordered to be printed in the RECORD, as follows:

#### S.J. RES. 7

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled (two-thirds of each House concurring therein):* That the following article is hereby proposed as an amendment to the Constitution of the United States, which shall be valid to all intents and purposes as part of the Constitution if ratified by the legislatures of three-fourths of the several States within seven years from the date of its submission to the States by the Congress:

#### "ARTICLE—

"Nothing in this Constitution shall be construed to prohibit individual or group prayer in public schools or other public institutions. No person shall be required by the United States or by any State to participate in prayer. Neither the United States nor any State shall compose the words of any prayer to be said in public schools."

By Mr. HEFLIN:

S.J. Res. 8. Joint resolution proposing an amendment to the Constitution altering Federal budget procedures; to the Committee on the Judiciary.

#### FEDERAL BUDGET PROCEDURE ALTERATIONS

● Mr. HEFLIN. Mr. President, once again history is repeating itself. Every Congress since I have been elected as a U.S. Senator, the first bill I have introduced proposed a constitutional amendment to balance the Federal budget. Since that time, I and many of my colleagues have worked to formulate a consensus approach to curb Federal spending. In the 96th Congress, I joined with several Senators on Senate Joint Resolution 126 which was defeated in the Judiciary Committee by a margin of one vote. During the 97th Congress the Senate passed a constitutional amendment to balance the Federal budget, Senate Joint Resolution 58, on August 4, 1982, obtaining 69 votes. Unfortunately, the House failed to pass the amendment.

In the 98th Congress, the Senate Judiciary Committee passed Senate Joint Resolution 5 but the amendment was never considered by the full Senate. In the 99th Congress, the Senate Judiciary Committee reported two separate constitutional amendments to balance the budget. On March 6, the Senate began debate on Senate Joint Resolution 225. March 25 brought yet another historic vote on the constitutional amendment to balance the budget. The final vote was 66 to 34, one vote short of the necessary two-thirds requirement. And today we begin the 100th Congress.

It is with a sense of frustration and urgency that I rise to introduce a Senate joint resolution once again proposing a constitutional amendment to require the Federal Government to

achieve and maintain a balanced budget.

The helter-skelter fiscal irresponsibility demonstrated during the past 25 years have convinced me that the Congress of the United States and the administration do not have the will power to cut Government spending and balance the Federal budget without a constitutional amendment providing the necessary discipline. Just yesterday the President of the United States sent a \$1 trillion budget to the Congress. But to say that one branch of Government is any more responsible than another for our Federal deficit is useless rhetoric. The time for fingerpointing and blame is past. Each branch of Government, each elected official, each American citizen must shoulder some part of the responsibility for the Federal deficit because each of us in our own way makes demands upon the Federal Government and upon its limited resources.

At some point, we must say "enough." This is not a time for rhetoric but a time for a harsh taste of reality. Our Nation cannot survive if we continue to maintain our current fiscal policy. We are not only a debtor nation, we are the world's largest debtor nation and it is time to put our fiscal house in order.

For much of the history of this great Nation, a balanced Federal budget was part of our "unwritten constitution." In the first 100 years of this Republic a surplus budget was the norm. On December 31, 1790, during the First Congress, the total debt was \$75.5 million. That was a debt incurred in part by our fight for independence. For the years 1789 to 1791 there was a Federal surplus of \$150,000 and Federal spending totalled \$4.3 million. Today for fiscal year 1987 it is estimated that the Federal Government will spend over \$1 trillion. It has been estimated that the Federal deficit will be \$173.2 billion at the end of fiscal year 1987 and the estimated gross Federal debt for 1987 is \$2,370.9 billion.

In 1789, Thomas Jefferson warned, "The public debt is the greatest of dangers to be feared by a republican government." Somewhere we've lost sight of our forefathers' admonitions.

A brief overview of the past 25 years leaves one shaking his head in amazement. In 1962, Government spending was estimated at \$106.8 billion; the Federal deficit was \$7.1 billion; the gross Federal debt was \$303.3 billion. Five years later in 1967 Government spending had increased to \$157.5 billion; the Federal deficit, \$8.6 billion; the gross Federal debt, \$341.3 billion. Ten years later in 1977, Government spending had increased to \$409.2 billion; the Federal deficit had increased to \$53.6 billion; and the gross Federal debt was \$709.1 billion. Today, as I have mentioned earlier, the Government is estimated to be spending over

a trillion dollars a year, amassing a deficit of close to \$200 billion a year.

As the debt grows the interest required in paying the principal consumes an ever-increasing share of the Federal budget. The net interest on the national debt for 1987, which is the interest after subtracting the money that the Government owes itself, is estimated between \$137 and \$157 billion. That is just the yearly interest on the national debt. It takes almost 14 percent of our Federal budget just to pay the net interest on the debt. If you include the interest that the Government owes itself, the interest on the public debt for 1987 is estimated at \$191.8 billion.

I know there are those who feel that the Gramm-Rudman-Hollings law enacted by the 99th Congress is sufficient to address our fiscal concerns. But Gramm-Rudman-Hollings, while very worthy legislation and a laudable goal, is a statutory response to a crisis that demands constitutional resolve. Gramm-Rudman-Hollings is a 5-year response to our fiscal past. It requires a zero deficit by the year 1991, but it only requires one balanced budget—in 1991. A constitutional amendment will secure our fiscal future and require a balanced budget as a fiscal norm.

According to the Washington Post of Saturday, January 3, 1987:

The Congressional Budget Office predicts that the Nation's gross national product will grow in real terms at about an annual rate of 3 percent somewhat higher than in 1986. Inflation, according to the CBO estimates, will rise from the 1986 rate of about 1 percent to 4.4 percent a year from now.

The CBO also estimates that the Federal deficit for the current fiscal year which ends in September will be \$74.5 billion, almost \$24 billion higher than its forecast last August.

If the CBO estimate is accurate, the fiscal 1987 deficit will be substantially higher than the \$144 billion target established by the Gramm-Rudman-Hollings balanced budget law.

I believe there is only one answer: A constitutional amendment. An amendment that requires a two-thirds vote in each House of Congress and most importantly, ratification by three-fourths of the States of this great Nation. A constitutional amendment will truly be a united effort, bringing the Nation together in support of a common goal. Many of my colleagues argue that if we possessed a stronger discipline, then a constitutional amendment would be unnecessary. I do not disagree with the sentiment of this statement, just the reality. The problem is deeper than individual resolve. It is the institutional structure that encourages response to individual need without counting the cost to the greater good.

I cannot promise that the amendment I am offering today is a panacea for the all the economic tragedies plaguing our country, but it is a part

of the pledge that I made to the people of Alabama when I came to the U.S. Senate, to bring Federal spending under control. It is a pledge that I have tried to honor during my tenure as a U.S. Senator and it is a pledge that I intend to honor.

The amendment I am offering today is not a perfect amendment and there will be and should be changes to the language, but there must be a beginning point to the discussions and it is my hope that this amendment will be a starting point.

Section 1 of the proposed amendment requires a three-fifths vote of each House of Congress before the Federal Government can engage in deficit spending. This requirement establishes the norm that spending will not exceed receipts in any fiscal year. If the Government is going to spend money, it should and must have the money on hand to pay for the goods and services required. Under this section, Congress would be required to adopt an initial statement in each fiscal year, in which outlays do not exceed receipts.

Section 2 of the amendment addresses the enforcement problem with a constitutional amendment to balance the budget. It provides that there will be no increases in the public debt to fund any excess of outlays over receipts, unless Congress shall by law and by vote of three-fifths of the whole number of each House of Congress provide for such an increase.

Section 3 requires a majority vote of the whole number of each House of Congress any time Congress votes to increase revenues. This puts elected officials on record for any tax increase necessary to support increased Federal spending.

Section 4 provides for the submission by the President of a balanced budget to Congress; or if the President cannot submit a balanced budget, a requirement that the President submit a statement explaining why the budget is unbalanced.

My greatest concern with past constitutional amendments to balance the budget has been the restrictive nature of the provisions allowing for a waiver of the requirements of a balanced budget if a declared war is in effect. While this exception to the rule of a balanced budget is necessary, in my judgment, it does not go far enough.

The United States has engaged in only five declared wars, yet the United States has engaged in hostilities abroad which required no less commitment of human lives or American resources than in declared wars. There have been throughout the history of our Nation approximately 200 instances where the United States has used military forces abroad in situations of conflict to protect or promote U.S. interests. Not all of these would

move Congress to seek a waiver of the requirements for a balanced budget but Congress should at least have the flexibility within the mandates of the constitutional amendment to provide for our Nation's security.

Section 5 automatically waives the provisions for any fiscal year in which a declaration of war is in effect. My amendment also allows Congress to waive the provisions if the United States is engaged in military conflict which causes an imminent and serious military threat to national security, which is declared by joint resolution adopted by a majority of the whole number of each House of Congress. Such joint resolution must be signed by the President and become law.

Mr. President, economic stability is not a partisan issue. Deficit spending cannot be blamed on one branch of government or one political party. It has simply been a way of life that must now be corrected.

But in our attempts to balance the Federal budget, we must remember that these problems did not arise over night, nor can they be solved over night. My legislation offers not a cure-all, but a blueprint for progress and stability.

Today we have a chance to turn our rhetoric into reality and draw upon the potential of the leaders and citizens of this Nation to begin work on a constitutional amendment of which we can all be proud. The States have indicated their willingness to take over this responsibility if we are unsuccessful. Thirty-two States have petitioned Congress under a provision of article five of the Constitution to call a Constitutional Convention to consider a balanced Federal budget. With the addition of two more States, Congress will have abdicated its responsibility to another body, something which has never been occurred in the history of our Nation.

During the debates on the adoption of the Constitution Benjamin Franklin spoke some very profound words: "Much of the strength and efficiency of any Government, in procuring and securing happiness to the people, depends on opinion—on the general opinion of the goodness of the Government as well as the wisdom and integrity of its Governors."

It is time that we let wisdom and integrity once again be the motto of our fiscal policy. Our forefathers protected our future. Our debt to future generations is no less. And in no way should it be any more.

Mr. President, I request that a copy of the joint resolution be printed in the RECORD following my remarks.

There being no objection, the joint resolution ordered to be printed in the RECORD, as follows:

S.J. RES. 8

*Resolved by the Senate and House of Representatives of the United States of America*

*in Congress assembled, (two-thirds of each House concurring therein), That the following article is proposed as an amendment to the Constitution of the United States, which shall be valid to all intents and purposes as part of the Constitution if ratified by the legislatures of three-fourths of the several States within seven years after its submission to the States for ratification:*

SECTION 1. Prior to each fiscal year, Congress shall adopt a statement of receipts and outlays for that year in which total outlays are no greater than total receipts. Congress may amend such statement provided revised outlays are no greater than revised receipts. Whenever three-fifths of the whole number of each House of the Congress shall deem it necessary, Congress in such statement may provide for a specific, excess of outlays over receipts by a vote directed solely to that subject. The Congress and the President shall ensure that actual outlays do not exceed the outlays set forth in such statement.

SEC. 2. The public debt of the United States shall not be increased to fund any excess of outlays over receipts for any fiscal year, unless three-fifths of the whole number of each House of Congress shall provide, by law, for such an increase.

SEC. 3. Any bill to increase revenue shall become law only if approved by a majority of the whole number of each House of Congress by rollcall vote.

SEC. 4. Prior to each fiscal year, the President shall submit a proposed budget to Congress for that fiscal year in which total outlays are no greater than total receipts. The President may also recommend an alternative budget in which total outlays exceed total receipts, which shall be accompanied by a detailed explanation of the need for such excess.

SEC. 5. The provisions of this article are automatically waived for any fiscal year in which a declaration of war is in effect.

The provisions of this article may be waived for any fiscal year in which the United States is engaged in military conflict which causes an imminent and serious military threat to national security and is so declared by a joint resolution, adopted by a majority of the whole number of each House of Congress, which becomes law. Afterwards any waiver adopted shall be by a joint resolution of like requirements.

SEC. 6. This article shall take effect for the fiscal year 1991 or for the second fiscal year beginning after its ratification, whichever is later.

By Mr. SARBANES (for himself, Mr. GLENN, Mr. GORE, Ms. MIKULSKI, Mr. TRIBLE, and Mr. WARNER):

S.J. Res. 9. Joint resolution to designate the week of March 1, 1987, through March 7, 1987, as "Federal Employees Recognition Week"; to the Committee on the Judiciary.

#### FEDERAL EMPLOYEES RECOGNITION WEEK

● Mr. SARBANES. Mr. President, today I am introducing a joint resolution requesting the President to proclaim the week beginning March 1, 1987, and ending on March 7, 1987, as "Federal Employees Recognition Week."

I am indeed proud to bring special attention to the dedicated individuals who have chosen public service as a career and through years of hard work

have helped to contribute to our Nation's growth and prosperity. As public servants, Federal workers take pride in their work, setting examples for all of America. The men and women who make up the Federal work force have made significant contributions to improve the quality of life and provide essential services for Americans; in the protection and preservation of the environment, in advancements in medical research and space, in highway and air safety, in the defense of our Nation, and through the Combined Federal Campaign, Federal workers contribute to many nonprofit community organizations and charities as well.

Only a year ago, seven public servants who sought to broaden our understanding of science and our environment, suffered a tragic fate abroad the *Challenger II*. The extraordinary risks undertaken by the men and women of the *Challenger* team is characteristic of the individuals who typically chose public service as a career. And, I am pleased today to introduce legislation which recognizes and acknowledges the invaluable contributions to a better world and brighter future that Federal employees have made to our Nation and urge you to join my colleagues; Senators GLENN, GORE, MIKULSKI, TRIBLE, and WARNER in supporting this resolution.●

By Mr. THURMOND (for himself, Mr. NICKLES, Mr. McCAIN, Mr. KASTEN, Mr. HECHT, Mr. ARMSTRONG, Mr. PROXMIER, Mr. SIMPSON, Mr. HELMS, Mr. HUMPHREY, Mrs. KASSEBAUM, Mr. GRASSLEY, and Mr. WALLOP):

S.J. Res. 10. Joint resolution disapproving the recommendations of the President relating to rates of certain officers and employees of the Federal Government; to the Committee on Governmental Affairs.

#### PRESIDENTIAL RECOMMENDATIONS

Mr. THURMOND. Mr. President, today I rise to introduce a resolution that disallows any salary increases for Members of Congress, high-level Federal officials, and Federal judges.

The Commission on Executive, Legislative, and Judicial Salaries has recommended substantial salary increases for these public officials. President Reagan in his budget submission for 1987 has reduced the substantial amounts recommended by the Commission, but has, nevertheless, recommended increases. Unless Congress disapproves the recommendation by a joint resolution within 30 days following transmittal of the President's budget, it will take effect automatically as provided by the omnibus continuing resolution for fiscal 1986.

At present, our national debt exceeds \$2 trillion. The Congressional Budget Office estimates that nearly

\$170 billion was added to this already huge national debt in the last fiscal year. Gramm-Rudman-Hollings, which passed overwhelmingly in the 99th Congress, was an expression of political will to achieve a balanced budget. This salary proposal is contrary to that policy.

Stated simply, it is not the appropriate time for Members of Congress to vote themselves or any other high-level public servants a pay raise. All current Members of Congress, top level officials and Federal judges were well aware of their salaries when they entered public service. All chose to serve the public with no promise of greater remuneration.

During this critical time when we are trying to cut Government spending, we must not ask those on Social Security, welfare, military retirement, and others to accept less while we take more.

I urge my colleagues to vote in favor of this resolution which will disapprove salary increases for Members of Congress, high-level Federal officials, and Federal judges.

In short, Mr. President, our citizens want Congress to spend more time raising Cain about these outrageous deficits and stop thinking about raising our pay. This entire issue could backfire if we are not careful. I would venture to guess that there is a good amount of sentiment in this Nation for a pay cut for Members of Congress if we do not get busy with solving our budgetary crisis.

Mr. President, I ask unanimous consent that Members be allowed to add their names as original cosponsors through Monday, January 12.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. THURMOND. Mr. President, I ask unanimous consent that a copy of this resolution be printed in the RECORD.

Mr. HELMS. Mr. President, I'm pleased to join my good friend, the distinguished Senator from South Carolina [Mr. THURMOND], in introducing the joint resolution of disapproval of the President's recommended pay increases for Members of Congress, high-level Federal officials, and Federal judges.

Mr. President, a pay increase for Members of Congress is an exceedingly controversial issue—and rightly so. The vast majority of Americans who will be taxed to pay for this increase make nowhere near as much money as their Senator or Congressman.

Because the issue is so controversial, Congress created a system under which Members of Congress and Federal workers can get an automatic pay raise without a vote in Congress. When their constituents complain, every Member can assert that he or she had nothing to do with that pay increase and would never have voted

for such a thing. That's a copout, Mr. President, and Senator THURMOND and I want to give Senators an opportunity to vote on the matter.

Mr. President, Congress has the responsibility for controlling the Nation's purse strings, and Congress should not be allowed to evade that responsibility by placing it in the lap of the President of the United States. That, however, is exactly what has been done. President Reagan has been unfairly placed in the difficult position of taking sole responsibility for proposing a major pay increase for Federal employees while Members of Congress sit here and throw sanctimonious darts at him for failing to reduce the Federal deficit.

While I recognize the compromise that President Reagan has attempted to reach by drastically reducing the pay increases recommended by the Quadrennial Commission, the fact remains that he should not have the responsibility of making that decision in the first place. This pay increase should not be allowed to go into effect automatically.

Mr. President, if Members of Congress are willing to vote themselves a raise, fine. I will not vote with them, but they certainly have the right to do so. It is unconscionable, however, that Senators and other Federal workers could receive a hefty pay raise without even one vote on it in Congress. For that reason, I join Senator THURMOND in introducing this resolution to disapprove of the President's recommendation. Furthermore, I plan to offer legislation that Senator THURMOND and I have introduced in the past to revise the process so that we place accountability for fiscal decisions back where it belongs—on Congress.

There being no objection, the joint resolution was ordered to be printed in the RECORD, as follows:

S.J. RES. 10

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, The recommendations of the President relating to rates of pay for offices and positions within the purview of section 225(f) of the Federal Salary Act of 1967, as included (pursuant to section 225(h) of such Act) in the budget transmitted to the Congress for fiscal year 1988, are disapproved.*

By Mr. THURMOND (for himself, Mr. HATCH, Mr. SIMON, Mr. SIMPSON, Mr. GRASSLEY, Mr. JOHNSTON, Mr. SPECTER, Mr. MCCONNELL, Mr. HUMPHREY, Mr. GRAMM, Mr. D'AMATO, Mr. COCHRAN, Mr. LUGAR, Mr. KASTEN, Mr. QUAYLE, Mr. HELMS, Mr. ZORINSKY, Mr. NICKLES, and Mr. BOREN):

S.J. Res. 11. Joint resolution proposing an amendment to the Constitution relating to a Federal balanced budget; to the Committee on the Judiciary.

#### FEDERAL BALANCED BUDGET

Mr. THURMOND. Mr. President, I send to the desk a bill to provide a balanced budget constitutional amendment to mandate a balanced budget.

I send a series of bills and ask that Members be allowed to become original cosponsors by Monday, as I stated, January 12.

Another one is to establish the inter-circuit panel of the U.S. court of appeals.

Another is to allow prayer in public schools.

Another is a resolution creating a new Senate rule for impeachment of convicted felons.

Another one is a bill to allow railroad police and private university college police access to Federal Government criminal identification records.

Another is with reference to the Integrity and Post Employment Act of 1978 which is commonly known as the lobbying bill.

And the last one is a package of criminal bills including the habeas corpus, death penalty and exclusionary rule.

Mr. President, as I said, I request that the Members be allowed to be added as original cosponsors through Monday, January 12, on all of these bills that I have just introduced.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. THURMOND. Thank you.

Mr. President, today I am introducing legislation to amend the U.S. Constitution to require the Federal Government to achieve and maintain a balanced budget. This proposal is very similar to Senate Joint Resolution 225 which was considered by the Senate during the 99th Congress.

As all of my colleagues are aware, amendment of our supreme law is a very serious endeavor. It is an action which should be reserved for those instances when it becomes necessary to protect the fundamental rights of our citizens or to ensure the survival or effectiveness of our system of government.

Mr. President, I believe that the effectiveness, indeed, the very survival of our system of government has become jeopardized by an irrational and irresponsible pattern that has developed and become entrenched in Federal fiscal policy over the last half-century. Because of this fiscal policy, those liberties and opportunities of our present and future citizens, which we have come to regard as sacred, are seriously threatened.

For many years, I have believed, as have many other Members of Congress, that the way to reverse the misguided fiscal direction of the Federal Government is by amending the Constitution to mandate, except in extraordinary circumstances, balanced Federal budgets. The threat posed to

our Nation's security by the ever-worsening Federal budgetary condition is, I believe, a distinct danger. It makes appropriate, indeed, necessitates a solution in the form of a constitutional amendment.

In the past we have been told by the opponents of the balanced budget constitutional amendment that self-imposed congressional restraint is what is needed to solve our fiscal woes—not a constitutional amendment. The fact is, however, that in the face of frightening deficits, Congress has not proven that it is capable of such restraint. Regrettably, congressional efforts at self-imposed limitations in the form of statutes or budget resolutions have failed to provide sorely needed fiscal responsibility.

What is needed today—indeed, what is long overdue—is an addition to our most basic and supreme law which establishes balanced budgets as a fiscal norm, rather than a fiscal abnormality.

A balanced budget constitutional amendment is necessary because only such an amendment can exert the sort of external constraint and limitation upon Congress which will enable it to resist those pressures. No Congress could ignore its dictates, reverse its effect, or dodge its intent.

Mr. President, the recent history of the Federal Government is, by now, all too well known:

Congress has balanced the Federal budget only once in the last 26 years.

The level of annual budget deficits has grown enormously over this period of time. Since 1970, the United States has incurred the 12 largest peacetime deficits in the history of the Nation.

In 1985, the total national debt of the United States soared to more than \$2 trillion and continues to increase rapidly.

Federal spending, which first surpassed \$100 billion in the years of the Kennedy administration 24 years ago, and which first surpassed \$200 billion only 15 years ago, now has surpassed \$1 trillion annually. It used to be said that Federal deficits were not such a bad thing because "we owed it to ourselves." Some argued that deficits could even be useful by "stimulating" the economy. However, it is clear today to virtually every reasonable observer, of whatever political or philosophical persuasion, that deficit spending has negative consequences—and those consequences are disastrous.

As a result of a quarter century of virtually unchecked deficit spending, this Nation has suffered periods of historically unprecedented levels of unemployment, periods of double digit levels of inflation, periods of catastrophically high interest rates, and periods of declining levels of national investment and productivity.

Mr. President, continued deficit spending by the Federal Government

will undoubtedly lead the Nation to new periods of economic stagnation and decline. The tax burdens which today's deficits will place on future generations of American workers is staggering. We must reverse the fiscal course of the Federal Government, and I believe that a constitutional amendment is the best way to do it.

During my early years in the Senate, I introduced several constitutional amendments to require enactment of balanced budgets. None of those proposals were acted on by the Judiciary Committee. In the 96th Congress, I joined with several Senators on Senate Joint Resolution 126, a constitutional amendment to balance the budget which was defeated narrowly by the Judiciary Committee on March 15, 1980, by a vote of 9 to 8.

During the 97th Congress, I introduced, along with a number of cosponsors, Senate Joint Resolution 58, a balanced budget constitutional amendment which was approved by the Senate on August 4, 1982. Less than 2 months later, a similar measure was considered by the full House of Representatives and secured the support of a clear majority of the body, although it fell short of the requisite two-thirds vote.

During the 98th Congress, along with many cosponsors, I introduced Senate Joint Resolution 5, a proposal nearly identical to Senate Joint Resolution 58 which had been approved by the Senate the preceding year. Senate Joint Resolution 5 was reported by the Judiciary Committee, but was not considered by the full Senate.

On January 3, 1985, I introduced Senate Joint Resolution 13, a resolution identical to Senate Joint Resolution 5 from the 98th Congress. On July 11, 1985, the Judiciary Committee voted 11-7 to favorably report a streamlined Senate Joint Resolution 13 to the Senate.

During May, June, and July of 1985, as the Judiciary Committee debated the provisions of Senate Joint Resolution 13, some members of the committee expressed a desire to further simplify the proposed constitutional amendment. On July 11, 1985, in addition to reporting Senate Joint Resolution 13, the committee voted 14-4 to report an alternative resolution which I proposed along with Senators HATCH, DeCONCINI, and SIMON. That resolution, Senate Joint Resolution 225, was considered by the Senate in March of 1986 and received 66 of the 67 votes needed for approval.

The provisions of this proposal are not complicated. Its operative section simply states:

Outlays of the United States for any fiscal year shall not exceed receipts to the United States for that year, unless three-fifths of the whole number of both Houses of Congress shall provide for a specific excess of outlays over receipts.

Mr. President, the balanced budget amendment proposal has been supported by many in this body who hold widely varying political views. Its supporters share an unyielding commitment to restoring sanity to a spending process which is out of control and hurling our Nation headlong toward disaster. I am hopeful that we be successful in fulfilling our commitment by submitting this amendment to the States for ratification.

● Mr. HATCH. Mr. President, today I rise to address perhaps the most important issue facing our Nation—the national debt.

"The public debt is the greatest of dangers to be feared by a republican government."

"Once the budget is balanced and the debts paid off, our population will be relieved from a considerable portion of its present burdens and will find . . . additional means for the display of individual enterprise."

Today I am introducing the balanced budget amendment to the Constitution. But what may be surprising to some is that the two quotations above are not recent statements by current proponents of the proposed amendment. The first statement was made by Thomas Jefferson and the second by Andrew Jackson. The two quotes illustrate an important truth: no concept is more a part of traditional American fiscal policy than that of the balanced budget. Throughout most of the Nation's history, the requirement of budget balancing under normal economic circumstances was considered part of what has been called our "unwritten constitution."

Influenced by individuals such as Adam Smith, David Hume, and David Ricardo, the drafters of the Constitution and their immediate successors at the helm of the new government strongly feared the effects of public debt. Even Alexander Hamilton and Thomas Jefferson, who had widely diverse perspectives on the role of the Federal Government, were in agreement that, whatever debt happened to be accrued by a nation, it ought to be repaid within some prescribed period of time.

Early American Presidents were in virtually unanimous agreement on the dangers of excessive public debt. Consequently, for approximately 150 years of our history—from 1789 to 1932—balanced budgets or surplus budgets were the norm. While budget procedures had little of their present organization, the concept of a balanced budget was accepted widely as the hallmark of fiscal responsibility. Those deficits that did occur—during wartime or during the most severe recessions—normally were compensated for by subsequent surpluses.

Between 1932 and 1960 the rigid rule of annual balanced budgets gave way

to a fiscal policy in which balanced budgets remained an overall objective but in which deficit spending nevertheless was viewed as a tool occasionally useful to effect appropriate economic results. New economic theories had emerged that placed great weight upon the ability of the Federal Government to manage fiscal policy through deficits and surpluses.

However, a real turning point in the history of U.S. fiscal policies occurred during the 1960's. Even the Keynesian objective of balancing surplus years with deficit years succumbed to the idea of regular, annual uncompensated-for deficits.

During the past two decades, the Federal Government has run deficits in all but a single year. The deficits have come during good times and they have come during bad times. They have come from Presidents who have pledged themselves to balanced budgets and they have come from Presidents whose fiscal priorities were elsewhere. They have come from Presidents of both parties.

Even more alarmingly, the magnitude of these deficits has increased enormously. For the seven fiscal years ending in 1967, the total deficit was approximately \$91 billion. For the seven fiscal years ending in 1981, the total deficit was approximately \$450 billion. The total national debt stands just over \$2 trillion, with nearly two-thirds of that total incurred during the past decade alone.

#### MAGNITUDE OF FEDERAL DEBT

The number 2 trillion is too clean and simple sounding to communicate the implications of our staggering debt. In 1975, before this recent borrowing spree, the Federal debt amounted to approximately \$2,500 per person, and the annual interest charges cost roughly \$250 per taxpayer. Only 1 year ago, the Federal debt amounted to over \$8,000 per person, with annual interest charges exceeding \$1,300 per taxpayer. By 1990, according to 1985 Congressional Budget Office projections, the debt could reach \$12,000 per person, and annual interest charges of \$2,300 per taxpayer. Even if the Government adheres to its newly enacted deficit ceilings for the next 5 years, the debt would still reach \$10,000 per person, with interest charges of \$2,000 per taxpayer. These last figures—which must be considered optimistic—would mean a fourfold increase in per-capita debt, and an eightfold increase in annual interest charges per taxpayer, since 1975. This gives a better picture of the actual magnitude of the debt. It still does not describe, however, the human implications. The human implications are that our children are being shackled with an insurmountable burden as a result of our largess. Over time, the disproportionate burdens imposed on today's children and their children by

a continuing pattern of deficits will include some combination of the following:

First, increased taxes; second, reduced public welfare benefits; third, reduced public pensions; fourth, reduced expenditures on infrastructure and other public investments; fifth, diminished capital formation, job creation, productivity enhancement, and real wage growth in the private economy; sixth, higher interest rates; seventh, higher inflation; eighth, increased indebtedness to and economic dependence on foreign creditors; and ninth, increased risk or default on the Federal debt.

Perhaps the most significant effect of today's unrestrained borrowing, however, will be a reduction in the political choices available to future governments of this Nation. From 1952 through 1975, the interest cost on the Federal debt consumed between 6.7 percent and 8.3 percent of annual revenues. Since then, that percentage has risen steadily. By 1986, interest costs consumed 18 percent of annual revenues.

In 1986, 87 percent of Federal Government expenditures were financed by tax revenues, and the remaining 22 percent by borrowing. Of this situation, one could say that the American people were getting a dollar's worth of government for every 78 cents' worth of taxes. But at what cost? Future taxpayers—including today's children—face the sad prospect of receiving 78 cent's worth of government for every dollar's worth of taxes.

#### SUMMARY

Efforts to secure a constitutional rule to require a balanced Federal budget and to limit the growth of Federal spending have intensified as the Federal Government's persistent failure to balance its budget has produced debt of over \$2.1 trillion and as the Federal share of the economy has continued to increase.

In a large measure, the Nation's economic problems are attributable to these facts. Unacceptable levels of inflation and unemployment, as well as enormous foreign trade imbalances, can be traced directly or indirectly to the fiscal policies and practices of the National Government.

This balanced budget amendment will reestablish constitutional limitations upon Federal spending and deficit practices that existed in earlier years through an array of formal and informal constitutional provisions and which have been eroded over the course of recent years. The abandonment of the "unwritten constitution" requirement of balanced budgets, the passage of the 16th amendment, and the development of new judicial doctrines concerning the Federal spending authority are some of the features that have contributed to the present situation in which there is insufficient

external constraint upon the ability of Congress to spend.

Specifically, the proposed amendment addresses a serious spending bias in the present fiscal process arising from the fact that Members of Congress do not have to cast votes in behalf of new taxes in order to accommodate new spending programs. Rather than having to cast such politically disadvantageous votes, Congress has been able to resort to increased levels of deficit spending or to allow the tax system, through "bracket creep," to produce annual, automatic tax increases.

Members of Congress, thus, have been free to respond to the concentrated pressures of spending interest groups—and reap the political advantages of doing so—without having to reap concomitant political disadvantages by reducing spending programs favored by some other spending interests or by expressly raising taxes.

The result is that spending continues inexorably to rise whatever the genuine will of the people. This result is an essentially undemocratic and unresponsive process that enables Members of Congress to avoid ultimate accountability for their spending and taxing decisions. This institutional bias requires a constitutional solution.

The text of the balanced budget amendment follows:

#### TEXT OF THE BALANCED BUDGET AMENDMENT WITH CONSENSUS TAX AMENDMENT

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, (two thirds of each House concurring therein), That the following article is proposed as an amendment to the Constitution of the United States, which shall be valid if ratified by the legislatures of three-fourths of the several States within seven years after its submission to the States for ratification:*

#### ARTICLE —

SECTION. 1. Outlays of the United States for any fiscal year shall not exceed receipts to the United States for that year, unless three fifths of the whole number of both Houses of Congress shall provide for a specific excess of outlays over receipts.

SEC. 2. Any bill to increase revenue shall become law only if approved by a majority of the whole number of both Houses of Congress by rollcall vote.

SEC. 3. The Congress may waive the provisions of this article for any fiscal year in which a declaration for war is in effect.

SEC. 4. This article shall take effect in 1991 or for the second fiscal year beginning after its ratification, whichever is later.

#### CONCEPTS OF THE BALANCED BUDGET AMENDMENT

The balanced budget amendment proposes to overcome this spending bias by restoring the linkage between Federal spending and taxing decisions. It does not propose to read any specific level of spending or taxing forever into the Constitution and it does not propose to intrude the Constitution into the day-to-day spending and

taxing decisions of the representative branch of the Government. It merely proposes to create a fiscal environment in which the competition between the tax-spenders and the taxpayers is a more equal one—one in which spending decisions will once more be constrained by available revenues.

Section 1 of the amendment would establish a balanced budget as a norm of Federal fiscal policy. It could be overcome, however, by three-fifths votes in both Houses of Congress. Section 2 of the amendment would prohibit Congress from raising taxes and increasing the Federal Government's share of the national economy unless Members of Congress were willing to go on record.

This amendment is not a panacea for the economic problems of the Nation. The amendment is, however, a necessary step toward securing an environment more conducive to honest and accountable fiscal decision-making.

The balanced budget amendment represents both responsible economic policy and responsible constitutional policy. Passage of this resolution would constitute an appropriate response by Congress to the pending applications by nearly two-thirds of the States for a Constitutional Convention on this issue.

This amendment is in agreement with President Ronald Reagan who stated in 1980:

Excessive Federal spending and deficits have become so engrained in Government today that a constitutional amendment is necessary to limit this spending. I shall continue to emphasize the need for such an amendment.

In his most recent State of the Union Address, the President also said:

Once we've made the hard choices, we should lock in our gains with a balanced budget amendment to the Constitution.

#### NEED FOR BALANCED BUDGET CONSTITUTIONAL AMENDMENT

The primary purpose of this amendment is to correct a bias in the present political process in behalf of ever-increasing levels of Federal Government spending. Whether such spending is financed by higher taxes or new debt, it has woeful economic consequences. High interest rates, and the resulting decline in investment and productivity, as well as unacceptable levels of unemployment, all follow when the Government uses an excessive share of the Nation's resources, leaving too little for productive use by the private sector. If the Federal Reserve Board attempts to reduce these economic problems by increasing the money supply faster than increases in the supply of goods and services, inflation results.

While it is true that much of the enormous growth in Federal Government spending over the past two decades

may be a response to evolving notions of the role of the public sector on the part of the American citizenry—that is, a genuine shift in the will and desire of the people—it is my contention that a substantial part of this growth stems from far less benign factors.

In short, the American political process is defective insofar as it is skewed toward artificially high levels of spending, that is, levels of spending that do not result from a genuine will and desire on the part of the people. It is skewed in this direction because of the characteristics of the fiscal order that have developed in this country in recent decades. It is a fiscal order in which Members of Congress have every political incentive to spend money and almost no incentive to forego such spending. It is a fiscal order in which spending decisions have become increasingly divorced from the availability of revenues.

#### GRAMM-RUDMAN AND A CONSTITUTIONAL AMENDMENT TO BALANCE THE BUDGET

The enactment of Gramm-Rudman does not diminish the need for a constitutional amendment requiring a balanced budget. Gramm-Rudman does not purport to correct the structural bias in favor of deficit spending that would be offset by a constitutional amendment.

The proposed constitutional amendments to balance the Federal budget correct the inherent structural bias within our political system causing chronic deficit spending. Gramm-Rudman implements that fundamental principle over the next 5 years, but it neither corrects the systemic biases in our political system nor purports to make that policy permanent. Accordingly, even if Congress and the President successfully meet the worthy objectives of the Gramm-Rudman statute over the next few years, the symptoms may have been temporarily relieved, but the cancer will linger to flare up later.

The spending bias in our fiscal processes is caused by the absence of linkage between taxing and spending decisions. Members of Congress, however well intentioned, simply do not have to cast votes in behalf of new taxes in order to accommodate new spending. Rather than casting politically disadvantageous votes, they may either resort to increased levels of deficit spending funded by borrowing or allow the tax system, through bracket creep, to produce annual, automatic tax increases. Over the next 5 years, Gramm-Rudman effectively addresses the deficits caused by these systemic flaws, but a constitutional amendment is necessary to permanently correct the flaws.

In a democracy, constitutions establish the structure of government by imposing restraints on the behavior of those who represent them. For years,

the body politic has suffered from the removal of constraints upon Congress imposed explicitly or assumed implicitly by the Framers of the Constitution. Consequently, the Federal Government has run a deficit in 24 of the past 25 years. Since 1970, the United States has incurred the 11 largest peacetime deficits in the history of the Nation with 9 deficits over the past decade in excess of \$50 billion. Consequently, Congress had to take the unprecedented steps prescribed by Gramm-Rudman. In this sense, Gramm-Rudman is itself a testament to the need for constitutional restraint. Thus, an amendment to the Constitution would reimpose, explicitly, those constraints as only a constitutional amendment can.

Although Gramm-Rudman statutorily mandates a balanced budget, a constitutional amendment is required for the following reasons:

Gramm-Rudman does not purport to correct the structural bias in favor of deficit spending that would be offset by a constitutional amendment.

Gramm-Rudman is only intended to deal with a temporary crisis, whereas a constitutional amendment corrects a bias that has caused deficits in 47 of the past 54 budget cycles. The deficit spending bias is not a problem that has lasted, nor will last, only 5 years. In other words, the system is "broke" and will not be finally "fixed" in 5 years. It demands a permanent constitutional solution. See attached chart for documentation of deficit spending caused by structural bias.

Ultimately no Congress can bind a succeeding Congress by simple statute. Already press accounts and some of our colleagues have suggested spending and taxing pressures could cause Gramm-Rudman to be circumvented or changed. The success of deficit reduction efforts in the next 5 years and beyond may depend on stronger medicine than a statute can supply. Put another way, no statutory measure can contain provisions requiring a greater or more onerous voting rule for its repeal than for its adoption. Any balanced budget statute can be repealed, in whole or in part, by the simple expedient of adopting a new statute. Statutory limitations remain effective only as long as no majority coalition forms to overcome such statutory constraints. The virtue of a constitutional amendment is that it can invoke a stronger rule to overcome the spending bias.

Gramm-Rudman has put the Nation on the road to recovery. In the absence of constitutional underpinnings, however, Gramm-Rudman or any other statutory prescription faces challenges that may compromise enforcement.

By analogy: Several Senators could propose legislation to change statuto-

ry law relating to ratifying treaties, expelling Members of either House of Congress, or proposing constitutional amendments—all of which are current constitutional provisions requiring supermajority votes. This hypothetical legislation could set up elaborate mechanisms to ensure that treaties or constitutional amendment proposals get careful congressional scrutiny or that accused Members of Congress get due process. Even if such legislation were enacted, the new bill would not eliminate the need for the constitutional supermajority requirements in each of these areas. Similarly the current constitutional amendment proposals are intended to endow the voting of an unbalanced budget with the same solemn consideration now required for treaties. Because disconnecting outlays from revenues has consequences at least as sweeping as most treaties, a constitutional supermajority requirement is warranted regardless of current statutory attempts to balance the budget.

#### CONCENTRATED BENEFITS-DISPERSED COSTS

It is important first to understand what some economists and political scientists have described as the "concentrated benefit-dispersed cost" phenomenon. This describes the fact that the benefits of any given spending program normally are concentrated within a relatively small class of beneficiaries, while the costs of such a program are dispersed throughout a relatively large class of persons, that is, the taxpayers. Thus, those parties who benefit from a particular spending measure stand to benefit greatly while those who bear the costs are affected insignificantly. Authur Burns, former Chairman of the Federal Reserve Board, described it in these terms:

The proximate causes of this governmental bias are quite clear. In general, spending programs are more popular with people than higher taxes. The potential beneficiaries of a spending program are often a numerical minority, but they have a stronger incentive to keep informed, to organize, and to lobby for their favorite program than those who bear the cost have to oppose it. The rising cost of political campaigns and the concurrent proliferation of fundraising committees put intense pressure on legislators to vote for spending programs favored by such groups. We may, in fact, be entering an era in which governmental processes are overwhelmed by the naked demands of increasingly well-organized and effective interest groups. It is this concern that has led me to look with favor on even preemptory devices for offsetting the existing bias toward larger Federal spending and borrowing—AEI Economist, April 1979.

The competition, then, between the tax-spenders and the taxpayers is a highly unequal one; it is not at all surprising that the former should prevail so frequently. It is simply not worth the while of the individual taxpayer to spend as much time and effort to save himself a few cents or a few dollars on

some program as it is for spending interests to secure millions or even billions of dollars for themselves. The spending interests tend to be intense and passionate in focusing upon individual spending measures likely to accrue to their benefit, while those who logically would be the most concerned about such spending, the taxpayers, tend to be diffuse and unorganized. Spending interests are politically visible and articulate and able to reward or punish legislators with their organized electoral support or nonsupport. Meanwhile, taxpayers are politically inarticulate, only barely able to perceive their self-interest in the context of isolated pieces of legislation. It is only when the spending programs are aggregated that the taxpayer begins to feel the full impact of such spending. Thus, it is only natural that legislators, however sincerely committed to fiscally responsible public policies, should be sensitive and responsive to the concerns of those who lobby for new or expanded spending initiatives. As Prof. Charles Baird of the University of California at Hayward has observed:

Whenever Government programs are considered one by one, there is a bias toward Government growth. Each program has a well-defined constituency that receives positive benefits therefrom. In many cases, the benefits from a particular program to a particular person represent a large part of that person's total income, while the tax cost to the beneficiary of that program is minuscule. Such direct beneficiaries of program A therefore are strongly motivated to organize work and lobby for the adoption and growth of that program. There is no countervailing incentive for taxpayers in general to organize, work, and lobby against program A in isolation because any individual taxpayer's share of program A is minuscule. Since elected representatives inevitably respond to lobbying efforts, there is a high probability that program A will be adopted even if the sum of the benefits therefrom are less than the sum of the costs.

The purpose of the balanced budget amendment is to create a more equal competition between spending interests and taxpayer interests by reducing the structural bias toward higher spending within the Federal fiscal system that contributes to the current imparity. By reducing the bias, and creating a more neutral environment within which this competition can take place, the representative processes will be more responsible and accountable to the genuine desires and interests of the public at large with respect to levels of public expenditures. As Prof. Allan Meltzer of Carnegie-Mellon University has observed—

Only by changing the ground rules under which spending decisions are made can we expect to obtain the outcome which people desire.

The proposed amendment addresses an important element of the spending bias: The access Members of Congress have to deficit spending. This enables

Members of Congress to avoid having to vote new taxes in order to finance new spending.

#### DEFICIT SPENDING

A principal cause of the spending bias involves the virtually unlimited access that Members of Congress have to deficit spending. As the "unwritten Constitution" requirement of budget balance has been disregarded in recent years, Members of Congress no longer are constrained in their ability to increase spending by the concomitant need to increase ordinary revenues. Permissible levels of spending no longer are defined, as they traditionally have been, by levels of revenue available. In consequence, Members of Congress are free to obtain the resulting political advantages, without having either to: First, reduce spending for some other spending interest and incur the resulting political disadvantages, or second, increase tax revenues and incur the resulting political disadvantages.

Members of Congress do not have to reduce levels of spending for one program in order to accomplish increases in other programs because there is no effective limit as to how much Congress may spend in its budget. Once the traditional linkage has been severed between spending and revenues, there is no need for Members to establish priorities as between alternative spending proposals; each can be satisfied simply by increasing the level of the deficit. The availability of deficit spending enables Members to avoid the hard political decision of having to choose among spending proposals and thereby ensure for themselves some element of political disadvantage as well as political advantage.

Members of Congress do not have to increase revenues in order to accommodate increased spending because levels of spending no longer are related in any meaningful way to levels of revenue. Thus, not only is there no need for Congress to antagonize any other spending interest in the process of supporting a given spending measure, but there is no need to antagonize taxpayers generally by appearing to raise their tax burdens. Again, there is no element of political disadvantage Members of Congress are required to incur in order to reap the political advantages of responding to the spending interests.

In this respect, the availability of unlimited deficit spending allows the political costs of spending measures to be deferred in time, while enabling the political benefits to be enjoyed immediately. While the benefits of the measure usually will be understood immediately by its beneficiaries, the costs—in the form of higher future taxes, higher future inflation, and higher future interest rates—usually will be evident only at some remote

time. Indeed, there may be no political costs whatsoever unless those who suffer from these economic ills are sophisticated enough to understand the cause-effect relationship between the earlier spending and the later symptoms.

#### APPROACH OF THE BALANCED BUDGET AMENDMENT

In seeking to reduce the spending bias in our present system—the unlimited availability of deficit spending—the major purpose of the balanced budget amendment is to ensure that, under normal circumstances, votes by Congress for increased spending will be accompanied either by votes: first, to reduce other spending programs or second, to increase taxes to pay for such programs. For the first time since the abandonment of the traditional balanced budget requirement, Congress will be required to cast some politically difficult vote as a precondition for a politically attractive vote to increase spending.

Section 1 of the proposed amendment would address the spending bias—unlimited access by Members of Congress to deficit spending—by requiring a three-fifths vote of each House of Congress before the Federal Government could engage in such spending. Such a procedure would not prohibit deficit spending, but would simply reestablish, as a norm, a budget in balance rather than one in deficit. A consensus greater than a normal majority would be required to violate this norm. Unless such a consensus existed, Congress would be bound in its spending by its available revenues and would be forced to account for new spending in one program area by either reduced spending in another program area or by increased taxes. The political advantages resulting from support for new spending then would be matched, at least to some degree, by countervailing political disadvantages.

Section 2 of the proposed amendment would reinforce section 1 and further link tax spending and tax raising by requiring both Houses of Congress to approve any bill to increase revenues by a constitutional majority. In the absence of clear constitutional majority and Presidential consent, a tax increase could not cause the public sector to grow at the expense of the private. Though while section 1 would ensure, as a norm, that Federal spending is matched by Federal revenues, section 2 would ensure that such revenues are not raised without political accountability for Members of Congress. It would also make it less likely that the budget would be regularly balanced at increasingly high levels of taxation. Before Congress could make available to itself greater amounts of revenue for new spending initiatives, it would have to stand up in view of the

public and place itself on record in behalf of such increased revenues.

As a result, the amendment effects a subtle, but important, change in the psychology of the budget process. Under the present system, each spending interest, in effect, competes with the taxpayers to raise the total ante in the Federal Treasury. Under a system, however, in which some form of spending ceiling is in effect, these same interests suddenly will be competing with one another in order to ensure themselves a certain proportion of a fixed ante in the Federal Treasury. Not only will spending interests have to convince Congress that their favored programs merit funding at a certain level, but they will, in addition, have to establish the priority of their programs. A spending ceiling comprised of something beyond mere congressional self-restraint will force Members of Congress to view spending requests in terms of relative desirability, not simply in terms of whether or not a program is desirable at all. An element of competition among the spending interests will be introduced into the budget process, undoubtedly to the long-term interests of those who finance the spending programs favored by these interests.

Thus, the proposed amendment would make it easier for well-meaning, but beleaguered, Members of Congress to exercise fiscal responsibility in making their policy decision. There would be an external constraint, something beyond their own ability to resist the importunities of the spending interests, upon which they could rely. As Prof. Roger Freeman of the Hoover Institution has noted:

It is not that Members of Congress do not wish to produce a balanced budget but that under the circumstances they can only do so at a grave political risk to their survival. They need a defense against excessive demands which allows them to say "no" to a multitude of pressure groups. Such a defense cannot be built by statute because any act of Congress can be amended or repealed by this Congress or the next. Only a constitutional amendment can impose credible and effective spending restraints.

Prof. James Buchanan goes on to elaborate:

The fault lies not in the bad intentions of elected politicians. The basic causes for the dramatic, and readily observable, shift in U.S. fiscal habits after World War II and notably after 1960 are not hard to identify. Keynesian teachings had succeeded in effectively repealing an important element of the unwritten fiscal Constitution within which American politics had been carried out throughout almost two centuries of its history.

In summary, the purpose of the balanced budget amendment is to eliminate political process which allows Members to avoid having to vote for higher taxes in order to pay for higher spending and to establish a more genuinely neutral environment within which the budget competition occurs.

The proposed amendment does not define what constitutes or what does not constitute a responsible budget, but only defines the institutional framework within which such budgets can be put together. Rather than Federal Government spending increasing inexorably, whatever the desires of the citizenry, the amendment would ensure that such spending is set at levels more reflective of their genuine desires.

Mr. D'AMATO. Mr. President, I am pleased to join my distinguished colleague, the chairman of the Judiciary Committee, Senator THURMOND, and again become an original cosponsor of legislation to establish a constitutional amendment requiring a balanced Federal budget.

The balanced budget amendment passed the Senate in the 97th Congress, but was rejected by the House. In the 98th Congress, the legislation was bottled up in the Senate Judiciary Committee by the foes of budgetary reform, while the House refused to consider the balanced budget amendment. In the 99th Congress, however, the Senate failed to pass Senate Joint Resolution 225 by only a single vote. Hopefully, this will be the Congress during which we finally pass this needed reform through both Houses of Congress.

The immensity of our Federal budget woes is reaching crisis proportions. The fiscal year 1987 budget deficit may still exceed \$100 billion. Budgetary reform should be the first order of business. This is why I actively support legislation to establish a constitutional amendment requiring a balanced budget. I strongly believe that a balanced budget amendment is the only means to force Congress to cut spending. We need this club. We must act now.

By Mr. CRANSTON:

S. J. Res. 12. Joint resolution to establish a national policy for the taking of predatory or scavenging mammals and birds on public lands, and for other purposes; to the Committee on Environment and Public Works.

#### TAKING OF PREDATORY ANIMALS ON PUBLIC LANDS

Mr. CRANSTON. Mr. President, I introduce for appropriate reference a bill to establish a national policy for the taking of scavenging mammals and birds on public lands, and for other purposes.

The bill I introduce today—as in previous Congresses—addresses three critical issues in national wildlife management, especially management policies as they relate to predators and prey. One is the need to establish, within the broad parameters of wildlife management policies, a clear understanding and recognition of the interdependency of predator and prey;

a second is the need to establish a national policy for the taking of predators or scavengers—mammals or birds—on public lands, a policy that reflects a thorough understanding of these interdependent relationships; and a third is the need to set forth a series of clear, statutory procedures for the taking of predators on public lands. These procedures must be responsive to the right of all Americans to know how wildlife management policies relevant to predators are being carried out on lands that are owned by the public and managed in the national interest.

Predators and scavengers in the environment are indispensable. Every ecosystem has predatory forms of life. Few animal species, except larger predators themselves, are completely free from predation.

We are beginning, through studies in ecology and evolutionary biology, to understand just how important predators are in the ecosystem. We are learning to see predators not just as obstacles to the flourishing of life, but as vital components in the chain of life that includes man. In fact, in this chain, predators have a niche every bit as important to the survival of the Earth's species as any other part of that chain.

Just as the introduction of exotic species can adversely affect the balance of an ecosystem, so can the removal of predators. predators are known to be vital to keeping plant-eating populations from overgrazing consequently disrupting the food chain within an ecosystem. Without predators, prey populations tend to expand beyond the ability of an ecosystem to sustain that population. Predator populations themselves are kept in check by a system of natural controls, including the size of the prey population.

Predators, too, are powerful evolutionary forces on their prey. In fact, as naturalist Stephen Jay Gould points out, natural history to a large extent is a tale of different adaptations to avoid predation.

It's not unusual, for example, to see a squirrel dart almost purposefully in front of a car, often with fatal results for the animal. In its moment of panic, the squirrel holds its bushy tail over its back and zigzags wildly on the road. Actually, the animal is responding the same way it does when fleeing a predator, and while the technique is faulty for escaping cars, a pursuing hawk is likely to either miss the squirrel entirely or grasp only the tail instead of the animal.

The morning dove is one of the commonest bird species in North America. The dove also knows the value of dodging when attempting an escape, and doves play tricks with their tails, too. The morning dove is quite drab in coloration, except that each tail feath-

er is tipped in white. As the bird flees, its outspread tail presents a vibrant semicircle of white spots—a target, in effect, to catch a predator's eye. But to grasp a dove's tail is to receive a loose bunch of feathers instead of a struggling dove.

But escape is not the only way species deal with predation. Another ploy is the phenomenon of predator satiation, where a species will flourish with such speed and in such numbers that the predators' ability to deplete an entire species is simply overwhelmed. Such species expansions occur in relatively short bursts, and then subside, and the theme of nature—balance—reigns once more.

The point is, if predators were suddenly taken from the environment, one very powerful factor would be removed from the ecological balance which nurtures animal and plant life on Earth. Animal species became adapted to survival through all kinds of environmental factors, including natural populations of predators which themselves are continually refining their own adaptations through this same process of evolution. This system accounts for what we see reverse as life on Earth. It is a system that is remarkably effective, and with which we tamper at our peril.

This is not to say that individual predators cannot be removed from the environment. They can be, and sometimes they must be. But the wholesale slaughter of predator species carries with it the long-range threat of impeding the survival-by-adaptation of significant animal species. By implication, we impede human progress. Animal species, of which man is one, are interdependent.

Wildlife managers often attempt to duplicate the quantitative impact of predation through establishing hunting seasons geared to remove the "harvestable surplus" of an animal population. However, wildlife managers cannot duplicate the qualitative impact of predation in any practical sense. For example, a tiger may attempt 30 kills before finally succeeding. Likewise, a falcon may pursue two dozen quarry before making a kill. Each unsuccessful attempt means the adaptations of the prey were sufficient to keep it alive. Each successful kill represents a prey individual that was carrying some fatal disadvantage—physical incapability, age, injury, disease, or some unknown quality which might be generalized as "bad luck." Thus, predators exert consistent pressures on the prey that are beneficial to the health of the prey population. Wildlife professionals are increasingly sensitive to the indispensable presence of natural predator populations.

Mythology about predators still persists. Some people still swear that wolves, cougars, or other predators are capable of obliterating, for example,

the deer population in a given region or State. Such assertions are simply not supported by the facts. Predator-prey systems have persisted throughout the millenia, and both predators and prey species have evolved mechanisms which tend to keep the whole system operating as long as favorable environmental conditions persist.

Fluctuations in prey populations can actually be reduced by the presence of predators. As a case in point, the moose population in Isle Royale National Park, an island ecosystem in Lake Superior, persisted, unevenly, for many years in the absence of wolves. The population was observed to rise steeply for a time and then crash abruptly when available browse was exhausted. This cycle was observed at least twice in the early 20th century. Wolves eventually colonized the island by crossing the winter ice. What researching later observed was that both predator and prey populations steadied themselves through their interactions: The moose population neither rose as high nor fell as low in the presence of the wolves, and the wolf population itself held relatively steady year after year.

For the wolf, pack structure is the key to balance between predator and environment. If prey species decline, the wolf pack feels the stress of limited food supplies. Stress is reflected in increased friction between pack members. Eventually, some pack members may be ejected from the pack to face uncertain survival odds on their own.

Even in the best of conditions, the social order of the pack permits only the dominant male and dominant female to mate; each pack produces only one litter of pups in a season. In times of stress, however, the pups are the first to die, thus maximizing the chances of survival of the adult pack unit upon which the wolves depend so heavily. The pack structure is best interpreted as an adaptation which enables the wolf to take prey larger and stronger than a single wolf, which maximizes the survivability of each pack member, and which keeps the wolf from out-eating the available prey.

Many other predators and scavengers show adaptations as sophisticated as those of the wolf. There are predators capable of exploiting almost every form of life. Ospreys dive after fish; black-footed ferrets—now critically endangered—prey on burrowing prairie dogs beneath the Earth; the pine martin races after squirrels in the trees. In every case, the predator is an important component of the ecosystem, and every effort should be made to understand and protect this natural order.

The policies of the Federal Government regarding predators must be viewed in this context.

The Federal Government is charged with stewardship over our 450 million acre public domain heritage. The land is held in trust for all Americans, and is properly administered under multiple-use guidelines.

The traditional framework for wildlife management involving "resident" species, or most wildlife other than migratory birds, involves State fish and wildlife agencies operating under cooperative agreements with the Bureau of Land Management. Eagles and other raptors, wild horses and burros, and marine mammals are administered under Federal law on both State and Federal land.

The State-Federal cooperative agreements have created an acceptable and proper basis for wildlife management activities. The States have done a good job of organizing their wildlife departments and administering wildlife restoration projects, hunting seasons, and research programs.

Where public lands are involved, the Federal Government has the responsibility to respect and uphold the public interest. Public land managers and wildlife managers operating on public land must not lose sight of this fundamental tenet. Further, decisions involving major public land programs must be evaluated in light of the impact on public values. Such an evaluation must involve both the Federal Government and the public.

The bill I introduce today provides an adequate system for review and decision on national predator policies and action. I believe it will provide a comprehensive examination of Federal policy with regard to predators, and that such an examination will help us avoid costly, nonproductive management mistakes—mistakes that derive substantially from a continuing failure to comprehend the essential relationship between predator and prey.

Mr. President, I ask unanimous consent that the text of my resolution and a section-by-section analysis be printed at this point in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### S.J. RES. 12

Whereas article IV, section 3, clause 2 of the Constitution vests authority in the Federal Government to "make all needful Rules and Regulations respecting the Territory or other Property belonging to the United States," and

Whereas predators and scavengers are indispensable to the health and stability of natural ecosystems and to prey species in particular, and

Whereas the extermination of predators has resulted in dramatic instability of prey populations and attendant habitat deterioration, and

Whereas there is no evidence that nonhuman predation alone is a cause of extinction of prey, and

Whereas organisms tend to be closely adapted to their environment by evolution,

whereby their survival ability is greatest, and

Whereas evolution occurs in response to changing environmental parameters, including the living and nonliving components of the ecosystem, and

Whereas a thorough understanding of the interdependent relationship between predator and prey is essential to sound wildlife and land use planning at all levels of government, and furthermore,

Whereas the Convention on International Trade in Endangered Species of Wild Fauna and Flora, as ratified by the United States Senate, stipulates that native species of wildlife should be maintained throughout their range at a level consistent with their role in the ecosystems in which they occur: Now, therefore, be it

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,* That all taking of predators or scavengers naturally occurring on public lands for all or part of their life cycles is hereby prohibited unless such taking is approved according to the requirements of sections 3 or 4 of this joint resolution.

SEC. 2. For the purposes of this Act, the following definitions apply:

"Predators" include individuals of any species of bird or mammal that regularly capture or consume other vertebrate species.

"Wildlife" includes all species of the animal kingdom (persisting for all or part of their life cycles on ecosystems of the United States, its coastal waters, or adjacent islands) which are covered by the provisions of this Act.

"Public lands" means any lands belonging to the United States of America on which regulations regarding taking of wildlife covered by this Act are or may become less restrictive than those herein provided.

"Species" includes any subspecies of wildlife covered by this Act and any other group of wildlife covered by this Act of the same species or smaller taxa in common special arrangement that interbreed when mature.

"Person" means an individual, corporation, partnership, trust, association, or any other private entity, or any officer, employee, agent, department or instrumentality of the Federal Government, of any State or political subdivision thereof, or of any foreign government.

"Take" means to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or attempt to engage in any such conduct, for any purpose, any wolf, predator, or other form of wildlife covered by this Act, excluding taking for subsistence purposes.

"Scavengers" include individuals of any species of bird or mammal that naturally feed upon the remains of dead vertebrate species.

An "ecosystem" is the basis ecological unit including the living organisms, the nonliving environment, and the interactions between individual organisms, between species, and between organisms and the environment.

A "secretary" is the head of a Federal agency having land management responsibilities, including the Secretary of the Interior, the Secretary of Agriculture, the Secretary of Defense, the head of the Tennessee Valley Authority, and others.

SEC. 3. Proposed actions by any person involving the taking of predators or scavengers naturally occurring on public lands of the United States may be carried out

(unless prohibited by other statute or regulation) even though the taking can be reasonably expected to have significant impacts on the specific wildlife covered by this Act, other species of wildlife covered by this Act, or the ecosystems of which the wildlife is a part, if proposals for such actions—

(a) are submitted to the Secretary having primary jurisdiction over the public land on which the taking will occur at least one hundred and twenty days prior to the date such taking is to commence; and

(b) are described by notice in the Federal Register, allowing at least sixty days for public comment; and

(c) will, if carried out, maintain that species at a level consistent with its role in the ecosystem in which taking is to occur, protecting and maintaining the indispensable relationship between predator and prey species and the ecosystem, and be in overall public interest; and

(d) are approved in writing by the Secretary after consideration of public comment and consultation with the President's Council on Environmental Quality and with the Director of the United States Fish and Wildlife Service before any taking is carried out.

SEC. 4. The Secretary shall enforce the provisions of this Act and shall, in consultation with the President's Council on Environmental Quality, promulgate such regulations as he deems necessary and appropriate to carry out the provisions, including enforcement, of this Act: *Provided*, That all mammals or birds shot or captured contrary to the provisions of this section, or of any regulation issued hereunder, and all guns, aircraft, and other equipment used to aid in the shooting, attempting to shoot, capturing, or harassing of any mammal or bird in violation of this section or of any regulation issued hereunder shall be subject to forfeiture to the United States: *And provided further*, That the Secretary or head of any Federal agency who has issued a lease, license, permit, or other agreement to any person who is convicted of a violation of this Act or of any regulation issued hereunder may immediately cancel each such lease, license, permit, or other agreement. The United States shall not be liable for the payment of any compensation, reimbursement, or damages in connection with the cancellation of any lease, license, permit, or other agreement pursuant to this section.

SEC. 5. Nothing herein shall be construed in any way to amend or otherwise alter the requirements of the National Environmental Policy Act of 1969, the Marine Mammal Protection Act of 1972, or the Endangered Species Act of 1973, as amended.

SEC. 6. There are hereby authorized to be appropriated such sums as may be necessary to carry out the provisions of this Act.

#### SECTION-BY-SECTION ANALYSIS

##### SECTION 1. PREAMBLE

Section 1 of the bill states the intent of the resolution is to establish a national policy for the taking of predatory or scavenging mammals and birds on public lands; set forth findings; and prohibits the taking of predators or scavengers unless pursuant to specified requirements.

##### SECTION 2. DEFINITIONS

Section 2 of the bill defines the terms used in the Act, including predators, scavengers, and take.

## SECTION 3. REQUIREMENTS FOR PERMISSIBLE TAKINGS

Section 3 of the bill sets forth procedures under which the taking of predators or scavengers may be carried out.

## SECTION 4. ENFORCEMENT AND REGULATORS

Section 4 calls upon the Secretary of the appropriate Department to promulgate regulations and enforce requirements. Sets forth penalties for violations of the Act.

## SECTION 5. RELATION OF THE ACT TO EXISTING LAW

Section 5 of the Act is specified not to amend or alter the National Environmental Policy Act of 1969, the Marine Mammal Protection Act of 1972, or the Endangered Species Act of 1973, as amended.

## SECTION 6. AUTHORIZATION

Section 6 provides such sums as may be necessary to carry out the provisions of the Act.

By Mr. SYMMS:

S.J. Res. 13. Joint resolution proposing an amendment to the Constitution of the United States with respect to the English language; to the Committee on the Judiciary.

## ENGLISH IS OFFICIAL LANGUAGE

Mr. SYMMS. Mr. President, last November 4, California voters overwhelmingly approved a constitutional amendment, proposition 63, designating English as the State's official language. The lopsided 73- to 27-percent vote came after the citizen initiative qualified for the ballot with the signatures of more than 1 million voters.

California now becomes the eighth State to declare English as its official language. In November 1984, the voters of California passed another citizen initiative by a 71- to 29-percent vote which directed Gov. George Deukmejian to call upon Congress and the President to put an end to bilingual ballots.

Mr. President, today I wish to reintroduce the English language amendment which first came before this body in 1981 through the sponsorship of Senator S.I. Hayakawa. Since that time the American people have enthusiastically embraced this movement. I am sure that most of you in this body have received numerous letters from constituents about the ELA, as it is known. As the English language movement continues to generate momentum, I know you will receive even more inquiries. More than 25 States are expected to act on bills in 1987 that will designate English as their official language.

An analysis of the California vote shows that proposition 63 was approved by a strong bipartisan vote that crossed every ethnic and racial line, and it's easy to understand why.

Americans take considerable pride in their Nation; not just those born in the United States, but those who have immigrated here to start a new life and learn a new culture and language. They know that "opportunity" in their adopted nation is spelled in

"English." They, like many native-born Americans, often feel like a stranger in their adopted country because of our confusing language policies.

Mr. President, English is our common language—the tie that binds us all as citizens of one nation. Yet, as Senator Hayakawa recently pointed out, some politicians and ethnic leaders oppose giving English any legal protection. They continue to demand the use of other languages by government: Mandatory bilingual ballots, bilingual education that doesn't emphasize English, and other divisive measures.

The English language amendment will not regulate the use of other languages in private contexts; first amendment rights are still guaranteed. Nor will it discourage foreign languages from being taught as academic subjects, nor their use in diplomacy, circumstances where safety is a consideration, or to obstruct justice.

The intent of the English language amendment is to ensure that English will be the official language of the United States, and that our non-English-speaking citizens will become part of the American mainstream as soon as possible. We seek to ensure that Federal programs, such as bilingual education, do not foster a system of American apartheid, but that they teach English as rapidly as possible.

Mr. President, we have read about the problems which our neighbors to the north in Canada have experienced because of Federal language policies, but few of us are aware of the severe language crisis that has occurred in Belgium. Because of it, last fall Prime Minister Wilfried Martens offered his resignation to the King, and Minister of the Interior Charles-Ferdinand Nothomb actually resigned.

This latest friction between the country's Flemish and French speakers came to a head when the French-speaking mayor of a small city refused to take a test to demonstrate his knowledge of Flemish. Provincial authorities dismissed Mayor Jose Happart, but he appealed to the Council of State. The Council ruled against him, thus precipitating a new crisis in the national coalition government that precariously balances the country's divided language interests.

Similar language disputes twice contributed to the fall of national governments in Belgium in the seventies. The current controversy is considered especially bitter, since it has come to light that Mayor Happart own top honors in Flemish in his high school class.

Mr. President, as elected representatives of this great Nation; we must do all that is within our power to ensure that we do not duplicate the experiences of Canada, Belgium, and numerous other countries with different languages.

Mr. President, the ELA proclaims a broad principle, English is the language of the United States, and enjoys a special status in this country that sets it apart from all other languages.

I invite my colleagues to join me and the American people in securing this basic principle in our Constitution.

Mr. President, I ask unanimous consent that the text of the joint resolution be printed in the RECORD.

There being no objection, the joint resolution was ordered to be printed in the RECORD, as follows:

## S.J. Res. 13

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the following article is proposed as an amendment to the Constitution of the United States, which shall be valid to all intents and purposes as part of the Constitution if ratified by the legislatures of three-fourths of the several States within seven years after its submission to the States for ratification:*

## "ARTICLE—

"Sec. 1. The English language shall be the official language of the United States.

"Sec. 2. The Congress shall have the power to enforce this article by appropriate legislation."

By Mr. HELMS:

S.J. Res. 14. Joint resolution to designate the third week of June of each year as "National Dairy Goat Awareness Week"; to the Committee on the Judiciary

## NATIONAL DAIRY GOAT AWARENESS WEEK

● Mr. HELMS. Mr. President, I am today introducing a joint resolution to designate the third week of June of each year as "National Dairy Goat Awareness Week."

For more than 5,000 years, dairy goats have supplied mankind with food and shelter. Dairy goats were an important part of the necessities that the early settlers brought to these shores. As pioneers moved across our land, dairy goats went with them. These animals have always been a part of the typical American farm in every region of the United States. Today there are over 250,000 dairy goats in this country.

The modern dairy goat is ideally suited to today's changing farm scene. A mature female weighs about 150 pounds, yet milks an average of 14 times her body weight in a 305-day lactation. Exports of these efficient, structurally sound animals increase each year.

While goat milk, ice cream, and yogurt are sold in various parts of the United States, the best known goat milk product is goat cheese or Chèvre. During the last decade there has been a tremendous increase in consumer interest in domestic goat cheeses. The number of domestic producers of Chèvre has increased dramatically, and there is an extraordinary array of American-made goat cheeses today.

These facts are well known to dairy goat breeders, but few consumers are aware of the role played by the dairy goat in the American economy. Passage of this resolution designating the second Saturday through the third Saturday of June, National Dairy Month, as "Dairy Goat Awareness Week" will do much to educate the American people to the potential of dairy goats and their products.●

By Mr. RIEGLE:

S.J. Res. 16. Joint resolution to designate the period commencing on April 5, 1987, and ending on April 11, 1987, as "World Health Week," and to designate April 7, 1987, as "World Health Day"; to the Committee on the Judiciary.

#### WORLD HEALTH WEEK

● Mr. RIEGLE. Mr. President, today I am again privileged to introduce Senate Joint Resolution 16 designating April 7, 1987, as "World Health Day" and the week of April 5, 1987, as "World Health Week."

In the 99th Congress I introduced and the Senate passed Senate Joint Resolution 226, calling for the week of April 6, 1986, to be designated "World Health Week" and the day of April 7, 1986, "World Health Day." This year the American Association for World Health has again requested that we sponsor the week beginning April 5, 1987, as "World Health Week" and April 7, 1987, as "World Health Day." Since 1949, April 7 has been designated "World Health Day" around the world. This day is to promote better health care for all people and to draw attention to the World Health Organization's goal of health for all by the year 2000. Good health is essential for all people to be able to lead socially and economically productive lives.

Mr. President, this joint resolution would help educate many in our society about important world health facts and the actions we must take to reach major health goals in the United States and around the globe. It will call attention to the plight of people in some Third World countries where as many as 4 out of every 5 children die before they reach the end of childhood and to changing lifestyles in the United States that can increase a person's chances of avoiding cancer, heart disease, and lung disorders. The activities of "World Health Week" give voice and support to the basic objectives for healthy living around the world. These objectives include the minimum requirement of safe water and adequate sanitary facilities; immunization against diphtheria, tetanus, poliomyelitis, measles, mumps, rubella, and tuberculosis; and access to local health care for all populations, including the availability of preventative health education and trained health practitioners.

The World Health Organization continues to direct international health activities. The constant surveillance control, and eradication of disease; the collaboration of research; and the collection, dissemination, and exchange of health care data are all directed and supported by the World Health Organization. In this country, the American Association of World Health serves to increase our awareness of these issues surrounding world health care needs and of the special health priorities of the United States. In declaring April 7, 1987, as "World Health Day," and the week of April 5, 1987, as "World Health Week," it is our hope that this resolution will heighten our awareness of what must be done to make ourselves and all other people in the world healthier. One cannot just wish for good health and hope that it happens. To help make health for all a reality by the year 2000, I urge my colleagues to join with me in cosponsoring this resolution.

Mr. President, I ask unanimous consent that this joint resolution be printed in full in the RECORD immediately following my remarks.

There being no objection, the joint resolution was ordered to be printed in the RECORD, as follows:

#### S.J. RES. 16

Whereas the health of a nation depends upon the health of its people;

Whereas a principle enunciated in the Constitution of the World Health Organization (hereafter in this resolution referred to as "WHO"), and accepted by the United States is, that improvements in the health of the people of our Nation contributes to world health, and world health contributes to the health of our Nation;

Whereas the United States is an active member of the WHO and has both benefited from and contributed to the achievements of such;

Whereas the nations of the world are committed to the WHO goal of "Health For All By The Year 2000";

Whereas primary health care is recognized as a key to the attainment of the WHO goal;

Whereas essential elements of primary health care are health education and awareness, prevention and treatment of common diseases and illnesses, basic sanitation, and adequate nutrition;

Whereas the WHO has established April 7, of each year as World Health Day, to call attention to what individuals and governments can do to further the health of people everywhere, and the American Association of World Health has sponsored and assisted in this endeavor;

Whereas the national theme for World Health Day 1987 is "Healthy Living: Everyone a Winner" which focuses on healthy lifestyles, thus reflecting the growing conviction that greater emphasis should be placed on positive actions that individuals and communities can take to protect and promote health, and

Whereas the global theme for World Health Day 1987 will be "Immunization: A Chance for Every Child" which will emphasize immunization as a first step to healthy living; and

Whereas it has been custom for the President to call attention to World Health Day each year in the form of a public message regarding such: Now, therefore, be it

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,* That the period commencing on April 5, 1987, and ending on April 11, 1987, is designated as "World Health Week", and April 7, 1987, is designated as "World Health Day", and the president is authorized and requested to issue a proclamation calling upon the people of the United States to observe the above Week and Day with appropriate programs, ceremonies, and activities.

#### SENATE CONCURRENT RESOLUTION 1—PROVIDING FOR AN ADJOURNMENT OF THE SENATE AND THE HOUSE OF REPRESENTATIVES

Mr. BYRD submitted the following concurrent resolution which was considered and agreed to:

#### S. CON. RES. 1

*Resolved by the Senate (the House of Representatives concurring),* That when the Senate adjourns on Tuesday, January 6, 1987, Wednesday, January 7, 1987, Thursday, January 8, 1987 or Friday, January 9, 1987, pursuant to a motion made by the Majority Leader, or his designee, in accordance with this resolution, it stand adjourned until 12 o'clock meridian on Monday, January 12, 1987, and that when the House of Representatives adjourns on Thursday, January 8, 1987, pursuant to a motion made by the Majority Leader, or his designee, in accordance with this resolution, it stand adjourned until 12 o'clock meridian on Tuesday, January 20, 1987, or until 12 o'clock meridian on the second day after Members are notified to reassemble pursuant to section 2 of this concurrent resolution, whichever occurs first.

SEC. 2. The Speaker of the House, after consultation with the Minority Leader of the House, shall notify the Members of the House to reassemble whenever, in his opinion, the public interest shall warrant it.

#### SENATE CONCURRENT RESOLUTION 2—EXPRESSING THE SENSE OF THE CONGRESS REGARDING THE NEED FOR THE NEGOTIATION OF AN INTERNATIONAL AGRICULTURAL CONSERVATION RESERVE TREATY

Mr. PRESSLER submitted the following concurrent resolution; which was referred to the Committee on Foreign Relations:

#### S. CON. RES. 2

Whereas worldwide grain supplies are at a record level of 350 million metric tons—almost two years of grain imports;

Whereas world food production has increased at a rate of 2.5 percent during the 1980s world farm output has increased at a rate of over 3 percent annually;

Whereas approximately one fifth of the world's cropland is experiencing an intolerable rate of soil erosion;

Whereas the cost of farm programs is at record levels in many nations;

Whereas agricultural export markets are declining due to increased productivity in food importing nation; and

Whereas other grain exporting nations have expressed a need to limit agricultural production; Now, therefore, be it

*Resolved by the Senate (the House of Representatives concurring),* that (a) it is the sense of the Congress that the President should initiate multilateral negotiations with all major agricultural commodity exporting nations to establish an international agricultural conservation reserve to reduce worldwide grain surpluses and control soil erosion.

(b) The basis for such an international agricultural conservation reserve should be:

(1) All signatory nations shall agree not to bring any virgin land into crop production and to return a certain percentage of cropland to its natural state and keep the land out of production for a minimum of 10 years. The amount of land to be taken out of production shall be large enough to bring grain supplies in line with demand while still maintaining an adequate emergency food reserve.

(2) Cropland would have to be taken out of production and sound conservation practices implemented on the land to control soil erosion. Land taken out of production would not have to be classified as highly erodible.

(3) An emergency provision would allow a portion of the land of all signatory nations to be put back in production if stocks fell below the level established for the emergency food reserve.

(4) Individual nations could return a portion of their land to production if their production did not meet domestic consumption.

(5) A coordinated international food aid program could be included.

● **Mr. PRESSLER.** Mr. President, today I am introducing a sense of the Congress resolution urging the administration to initiate multilateral negotiations with all major agricultural exporting nations to establish an international agricultural conservation reserve to reduce grain surpluses and control soil erosion. The current record grain surpluses, the high cost of farm programs and export subsidies, declining export markets and worldwide soil erosion problems provide a unique opportunity and need to reach such an agreement.

My resolution expresses the sense of the Congress that the administration should initiate multilateral negotiations on an international agricultural conservation reserve program. Such an agreement would require all grain exporting nations to agree not to bring any virgin land into production and to return an equal percentage of their cropland to grass or other natural cover. The land would have to be held out of production for a minimum of 10 years. The agreement should also include a provision for an internationally coordinated food aid program. Each nation would be required to contribute a certain percentage of production for food aid. Emergency provisions would be included to allow land to be brought back into production if a shortage of grain occurred or a nation's production fell below domestic

consumption. Such an agreement would benefit all nations. The French Minister of Agriculture recently called for a similar international production control agreement and some Western European political parties have expressed interest in this proposal.

Today, worldwide carryover grain stocks are at a record level of 350 million metric tons. The surplus has resulted from increased production and declining export demand. Historically, agricultural production has increased at a rate of 2.5 percent annually. During the 1980's world farm production has increased at a rate of over 3 percent. Food production has outpaced world food demand. More specifically, in the U.S. farm output has increased annually by 2.4 percent during the past 10 years. During the same time period the U.S. population has grown at a 1-percent annual rate. The result is a 1.4-percent increase in surplus food production annually. This 1.4 percent of food production must either be stockpiled or exported. To export the 1.4-percent annual surplus, agricultural exports would have to increase at an annual rate of 5 percent. A 5-percent growth in exports would not reduce the surplus built up in previous years.

On the other hand, if the United States annually reduced production to compensate for the growth in productivity, an estimated 39 million acres, in addition to current set-aside program acres, would have to be taken out of production. All other major agricultural exporting nations face a similar problem. This does not take into consideration the potential increased production of other nations and possible declines in export demand. For example, in 1983 the United States diverted 83 million acres under the PIK Program while other nations increased production and total world grain production actually increased. This illustrates not only the need for a land diversion program, but also demonstrates that unilateral production controls will be unsuccessful in reducing world grain stocks.

The huge grain surpluses and intense competition for exports has dramatically increased farm program costs in the United States and other grain exporting nations. Last year the United States spent \$25.6 billion in farm program payments. The European Economic Community spent \$25 billion and Canada recently announced a special grains program which will make an additional \$1 billion in income payments to farmers over the next 6 months. None of these countries can afford to continue to subsidize farmers at this rate.

Soil erosion is also a serious worldwide environmental problem. Approximately one-fifth of the world's cropland is experiencing an intolerable rate of soil erosion. Millions of acres of

cropland are lost annually to severe soil erosion and the productivity of millions of additional acres continues to deteriorate. All nations have land under cultivation that never should have been plowed or cleared of trees. A 10-year conservation reserve program would make great strides in the control of worldwide soil erosion. The conservation and environmental benefits from such a program would help to assure future generations of an adequate food supply.

Current farm policies throughout the world encourage farmers through subsidies to deplete valuable soil resources to grow crops already in surplus at prices below the cost of production. These policies are forcing farmers out of business and dramatically increasing Government farm support costs. Farmers and taxpayers of grain exporting nations in effect are subsidizing food importing nations. So long as world grain stocks remain at record levels, farm prices will remain depressed and farm program costs will stay high. An international agricultural conservation reserve program is the only effective means of reducing grain production and increasing farm prices. I ask my colleagues to join in support of this resolution to urge the administration to initiate multilateral negotiation of an international agricultural conservation agreement. ●

#### SENATE CONCURRENT RESOLUTION 3—TO ENCOURAGE THE CONGRESS TO ENSURE THAT SUFFICIENT FUNDS ARE PROVIDED UNDER TITLE I OF THE ELEMENTARY AND SECONDARY EDUCATION ACT OF 1965, AS MODIFIED BY CHAPTER 1 OF THE EDUCATION CONSOLIDATION AND IMPROVEMENT ACT OF 1981, TO MEET THE NEEDS OF ALL ELIGIBLE EDUCATIONALLY DISADVANTAGED STUDENTS

Mr. MOYNIHAN submitted the following concurrent resolution; which was referred to the committee on Labor and Human Resources:

##### S. CON. RES. 3

Whereas only approximately 40 percent of the eligible educationally disadvantaged students nationwide receive services under title I of the Elementary and Secondary Education Act of 1965 as modified by chapter 1 of the Education Consolidation and Improvement Act of 1981; and

Whereas the cost of serving eligible students has increased in recent years; and

Whereas, the original intent of this program was to aid all children with family incomes below the Federal poverty standard; and

Whereas, the value to society of educating our young people cannot be overemphasized: Now, therefore, be it

*Resolved by the Senate (the House of Representatives concurring),* It is the sense of the Congress that when reauthorizing ap-

appropriations for compensatory education for disadvantaged children under title I of the Elementary and Secondary Education Act of 1965, as modified by chapter 1 of the Education Consolidation and Improvement Act of 1981, the Congress should take into account the number of eligible students who are not served by the program authorized by that title and the additional costs of providing services to such students.

● Mr. MOYNIHAN. Mr. President, I rise today to introduce a concurrent resolution which urges the Congress to increase funding for the chapter 1 Compensatory Education Program. One of the important tasks facing this new Congress will be the reauthorization of the Elementary and Secondary Education Act, and within that context will be much debate over the chapter 1 program. Given the anticipated efforts to reauthorize and reform chapter 1, this resolution expresses the sense of the Congress that funding for this program be increased to provide for the thousands of children who are not being served under existing funding levels.

This program provides Federal funds for remedial reading and math classes to educationally disadvantaged children. The original intent of this program—first enacted under the 1965 Elementary and Secondary Education Act—was to aid children with family incomes below the Federal poverty standard, children who showed low academic achievement.

The history is a simple one.

President Kennedy established a task force in the Executive Office to study the issue of poverty and its effect on educational achievement. He proposed general legislation in this area—which later emerged as the outline for the war on poverty declared by President Johnson—which included providing Federal funds to school districts—local educational agencies—to improve the academic skills of educationally disadvantaged students.

This idea was incorporated into the Elementary and Secondary Education Act of 1965 signed into law by President Johnson. He and the Congress undertook to provide additional reading and math courses to children in need of extra help.

But is it working? Is it reaching those that need it most? I think not. Unfortunately, the best estimates show that the program is only reaching approximately 45 percent of those children who are eligible to receive assistance from it. The Senate Committee on Appropriations, in its report for fiscal year 1987, wrote:

Virtually all parties involved in and knowledgeable about chapter 1, except the Department of Education, estimate that fewer than one-half of those eligible are served.

The committee was obviously concerned that the Department of Education is underestimating the number of children in need of services and consequently underestimating the amount

of funds necessary to provide chapter 1 services to all that need them.

In addition to the problems which exist in trying to reach all those children, the Supreme Court decision, *Aguilar versus Felton*, has presented special problem for those children who are enrolled in parochial schools and are eligible for chapter 1 services. In *Felton*, the Court held that it was unconstitutional to provide chapter 1 services on parochial school grounds. As a result of this decision, many of these children have been unable to receive extra help in math and reading courses at "neutral sites," as required by the Supreme Court, due to the increased costs of providing such sites.

The effect on my own State of New York has been profound. Before *Felton*, there were 40,000 students enrolled in parochial schools receiving remedial services under the chapter 1 program. Since the *Felton* decision took effect—New York City was granted a 1-year delay for compliance until September 1986—almost 12,000 parochial students in New York City are not receiving services for which they are eligible. In the upstate region of New York State, 7,500 out of 15,000 students are not receiving services for which they are eligible.

The increase in funding urged by this resolution is intended to be used to both expand the number of students served in public schools and to cover the new additional costs of providing services to parochial school students. Clearly there is a need for substantial increases in funding; both Congress and the administration recognize it—now we must act upon it.

The value of educating our young people cannot be overemphasized. In addition to the immediate benefit to individual students and their families, our society as a whole is collectively strengthened by an educated work force. For those that claim that such services are too costly, the investment worthless, I would point to the fact that the more poor people who can move out of the ranks of poverty with an education, the less we will bear the costs of supporting these individuals.

If we fail to recognize the need to educate our Nation's children—a need that is not currently being met—we fail in our responsibility as elected officials entrusted with the public well-being. The Federal Government must meet this growing demand by authorizing additional funds to serve all eligible children, not half, not two-thirds, but all of them. I urge my colleagues to pass this resolution so that we can accomplish this goal.●

#### SENATE CONCURRENT RESOLUTION 4—RELATING TO TAX-EXEMPT 501(c)(3) BONDS

Mr. MOYNIHAN submitted the following concurrent resolution; which

was referred to the Committee on Finance:

#### S. CON. RES. 4

Whereas private nonprofit colleges, universities, hospitals, and other section 501(c)(3) organizations serve important public functions in the national interest, equivalent to those served by similar public institutions;

Whereas higher education and health-care have become capital intensive undertakings, requiring significant debt financing;

Whereas the availability of tax-exempt financing to private nonprofit colleges, universities, and hospitals on a parity with their public counterparts has been a long-standing Federal policy which should continue; and

Whereas the Internal Revenue Code has in the past recognized the public purposes served by private nonprofit colleges, universities, and hospitals by classifying such institutions as "exempt persons" for purposes of tax-exempt financing: Now, therefore, be it

*Resolved by the Senate (the House of Representatives concurring), That it is the sense of the Congress that the tax-exempt bonds of private nonprofit colleges, universities, hospitals, and other section 501(c)(3) institutions should not be classified as "private activity" bonds in the Internal Revenue Code of 1986.*

● Mr. MOYNIHAN. Mr. President, I rise today to introduce a concurrent resolution calling upon Congress to undo what should never have been done in the first place: The classification of tax-exempt bonds of private nonprofit educational institutions and hospitals as "private activity" bonds. The tax-exempt bond provisions of the Tax Reform Act of 1986 imposed this label on bonds issued on behalf of such nonprofit institutions, collectively known as section 501(c)(3) organizations, thereby obscuring the long-standing recognition in the Internal Revenue Code of the public purposes served by these institutions.

Prior law tax-exempt bond provisions treated private nonprofit colleges, universities, and hospitals in large part the same as governmental entities. Governmental units and 501(c)(3) organizations were both classified as "exempt persons"—an explicit recognition in the code of the important public purposes served by the latter.

The 1986 act's elimination of the "exempt person" category and the classification of nonprofit institutions' bonds as "private activity" bonds has changed the status of these bonds, and the resolution I introduce today calls upon Congress to restore their former status. I will soon introduce legislation that would accomplish this end.

Last year's historic tax reform legislation included a substantial revision of the tax-exempt bond provisions of the Internal Revenue Code. This was one aspect of the legislation of particular concern to me, and as a member of the Senate Finance Committee and later the committee on

conference, I worked very hard to preserve one principle in the law of tax-exempt financing: That tax-exempt bonds should remain available to private, nonprofit colleges, universities, and hospitals on a parity with their public counterparts.

This principle had long been embodied in the Tax Code, in recognition of the public purposes served by private educational, charitable, religious, and other nonprofit institutions—known in the Internal Revenue Code as “section 501(c)(3)” organizations, a reference to the code provision granting them tax-exempt status. In 1968, when Congress first enacted provisions designed to limit the use of tax-exempt financing by private, nongovernmental enterprises, a critical distinction was made. The new restrictions were to apply to the activities of everyone except “exempt persons.” An exempt person was thereupon defined as: a governmental unit, or an organization described in section 501(c)(3)—section 107(a) of the Revenue Adjustment Act of 1968, amending section 103 of the Internal Revenue Code of 1954.

Now here we had something important. Private educational, charitable, and other nonprofit institutions are said to be imbued with a public purpose such that they were specifically equated for tax-exempt bond purposes with sovereign institutions of government. This was an immunity, if you like, of the largest consequence. And this deemed equivalence of 501(c)(3) organizations and governmental units was preserved in all critical respects in subsequent revisions of the law in this area—perhaps most significantly in 1984, when statewide volume limits were imposed on most nongovernmental tax-exempt bonds.

The Internal Revenue Code's explicit recognition in 1968 of the public purpose served by private nonprofit colleges and hospitals, and the parity in tax-exempt financing that flowed from it, coincided with the elimination of other forms of Federal support for the capital needs of these institutions. The HUD-sponsored College Housing Program, which had provided low-interest loans to private educational institutions to finance capital needs through the 1960's, was being phased out at the end of that decade. Similarly, tax-exempt financing for private nonprofit hospitals has filled the gap left by the termination of the Hill-Burton program of Federal grants and low-interest loans for these institutions.

But the principle of permitting tax-exempt bonds for private nonprofit colleges, universities, and hospitals on a parity with their public counterparts came under attack during the last Congress, starting with the administration's tax reform proposals. Both the initial Treasury Department plan

of November 1984 and the revised plan endorsed by the President in May 1985 would have eliminated tax-exempt financing for 501(c)(3) organizations. And the tax reform bill passed by the House of Representatives, though not repealing tax-exempt bonds for 501(c)(3) organizations, would nevertheless have substantially restricted them, while leaving similar public institutions unfettered.

I, along with other like-minded Members of this body, fought to preserve parity between public and private nonprofit educational and health-care facilities. In most crucial respects we were successful. Under the Senate tax reform bill, and the bill ultimately agreed to by the conference committee and enacted into law, both governmental and section 501(c)(3) bonds may be advance refunded on the same basis. Unlike the case with other tax-exempt bonds, the interest on governmental and section 501(c)(3) bonds is excluded from the minimum tax. Finally, governmental and section 501(c)(3) bonds are exempt from the statewide volume limitations—although the new law imposes a “per institution” limit on the amount of bonds that any 501(c)(3) organization that is not a hospital may have outstanding.

Yet the final bill made a very disturbing change in the status of 501(c)(3) institutions for purposes of tax-exempt financing. The “exempt person” status, previously shared by governmental units and section 501(c)(3) organizations, was eliminated, and the bonds of section 501(c)(3) organizations were to be classified henceforth as “private activity” bonds. Thus obliterated was an important symbol of the Tax Code's recognition of the public purposes served by private 501(c)(3) organizations engaged in educational, health care, and similar nonprofit pursuits.

The implications for future restrictions on tax-exempt financing for 501(c)(3) institutions are ominous. Those of us who were concerned about this were successful in getting a disclaimer of sorts added to the final legislation, section 1302 of the Tax Reform Act of 1986, which states that—

Nothing in the treatment of section 501(c)(3) bonds as private activity bonds under the amendments made by this title shall be construed as indicating how section 501(c)(3) bonds will be treated in future legislation, and any change in future legislation applicable to private activity bonds shall apply to section 501(c)(3) bonds only if expressly provided in such legislation.

The resolution which I introduce today expresses the intent of the Congress to undo the classification of 501(c)(3) bonds as “private activity” bonds. Specific legislation to accomplish this result is currently being drafted, and I will introduce it as soon as it is ready.

The goal of the legislation contemplated by today's resolution is to preserve the level playing field between public and private institutions serving in the fields of education, health care, and medical research. The extent of the private nonprofit sector's contributions in these fields in this country is unique. The beginnings of higher education in America were private sector initiatives. It was almost two centuries before State-sponsored institutions appeared. In time State institutions would enroll the greater proportion of students, but private colleges and universities continue to be vigorous and typically growing institutions. American higher education is unique in the degree to which its major research institutions are “private”—about an even split—and to the extent that the private sector contains so many of the most sought after small undergraduate institutions.

The role of private nonprofit hospitals is also a central one. Private nonprofit institutions constitute 60 percent of our Nation's community hospitals—non-Federal, short-term, general hospitals—and 70 percent of all community hospital beds. Private nonprofit hospitals provide a disproportionate amount of services on the forefront of medical technology, such as organ transplants, open-heart facilities, radiation therapy, and genetic counseling. Moreover, most of our Nation's medical education and research is conducted in nonprofit hospitals.

Preservation of equal access to tax-exempt financing is a critical element in maintaining the vigor of private initiatives in higher education and health care, for both are now “capital intensive” undertakings. A recent National Science Foundation study of the country's private Ph.D.-granting universities estimated that more than 26 percent of these institutions needed capital expansion for research facilities between now and 1991 will have to be financed through tax-exempt bonds. In short, in this era of capital intensive research, to use David A. Spence's term, restricting the financing opportunities of private institutions in relation to their public counterparts could lose us a legacy of two and three centuries over one or two generations.

The future capital needs of private nonprofit hospitals are also extensive. In my own State of New York, nonprofit hospitals will require about \$2.5 billion in capital expansion over the next 2 years—for modernization and replacement of facilities, not expansion of bedspace. The comparable figure for public institutions is \$1 billion.

The resolution which I introduce today, and the legislation that will shortly follow, will insure that tax-exempt financing remains available to

these most important institutions on a parity with their public counterparts.●

**SENATE CONCURRENT RESOLUTION 5—TO REQUEST THE PRESIDENT TO TAKE APPROPRIATE ACTIONS TOWARD THE ESTABLISHMENT OF A CO-OPERATIVE INTERNATIONAL RESEARCH PROGRAM WITH RESPECT TO THE GREENHOUSE EFFECT**

Mr. GORE submitted the following concurrent resolution; which was referred to the Committee on Foreign Relations:

**S. CON. RES. 5**

Whereas scientists have documented a continuing increase in the concentration of carbon dioxide and greenhouse gases in the atmosphere of the Earth, which may result in a phenomenon known as the greenhouse effect;

Whereas scientists predict that the greenhouse effect could have many adverse effects on the Earth, including—

(1) changes in climatic patterns which could cause alterations in agricultural productivity and patterns of land use; and

(2) the melting of glacial ice, resulting in a rise in sea levels worldwide;

Whereas human activities, including the burning of fossil fuels, are primarily responsible for the increase in the concentration of carbon dioxide and the release of other greenhouse gases in the atmosphere;

Whereas all nations may be adversely affected if the greenhouse effect occurs, and each nation has an interest in protecting the Earth from this environmental threat; and

Whereas the magnitude of the impact of the occurrence of the greenhouse effect has been investigated by scientists and is only beginning to be understood: Now, therefore be it

*Resolved by the Senate (the House of Representatives concurring), That*

(a) The United States should promote and support—

(A) domestic and international research efforts with respect to the greenhouse effect and its impact;

(B) studies of methods to reduce the rate of increase in the concentration of carbon dioxide and greenhouse gases in the atmosphere of the Earth; and

(C) efforts to prevent degradation of the environment of the Earth by the greenhouse effect;

(2) the President is requested to take all appropriate actions, in cooperation with any international organization which the President determines to be appropriate, to establish a long-term study, beginning with a 1-year cooperative international research program, with respect to the greenhouse effect with the purposes of—

(A) increasing the worldwide dissemination of information with respect to the causes of the greenhouse effect and methods to alleviate or avoid the effect;

(B) coordinating the research efforts of the participating nations with respect to the greenhouse effect;

(C) fostering cooperation among nations to develop more extensive research efforts with respect to the greenhouse effect;

(D) preparing a report on the accomplishments of the program;

(E) identifying the potential alternative policies necessary to avoid a buildup of greenhouse gases beyond levels which could have catastrophic results; and

(F) developing a long-term plan for future research efforts with respect to the greenhouse effect;

(3) any such Program established by the President should be started during or before the calendar year 1991, which year shall be known as the "International Year of the Greenhouse Effect"; and

(4) the participation of the United States in any such program established by the President should be planned and coordinated on behalf of the United States by the Chairman of the National Academy of Sciences and the Secretary of Energy.

● Mr. GORE. Mr. President, today I am reintroducing legislation to establish the International Greenhouse Effect Year. The purpose of this measure is to expand and focus scientific research efforts on the greenhouse effect and its consequences for society.

Modern man has acquired the technology to catastrophically alter the fragile atmosphere of our planet. The release of carbon dioxide, from burning fossil fuels, and other greenhouse gases, from high technology applications, could have the insidious long-term effect of warming the globe. The buildup of these gases traps radiation, causing the atmosphere to heat up—a phenomenon known as the greenhouse effect. If today's worst-case scenarios become tomorrow's facts, we may have only a few decades in which to ameliorate the impact—which could range from drought in the Midwest to floods on both coasts.

At first glance, the greenhouse effect may sound more like the plot of a bad science fiction novel than a serious environmental issue deserving immediate public policy review. But given its serious and potentially drastic impacts, Federal research and study efforts must place the highest priority on solving the mysteries surrounding the greenhouse effect. Otherwise future generations may experience a science fiction horror story come true.

I am proposing legislation that would decrease the scientific uncertainties and provide us more information on the greenhouse effect. This concurrent resolution calls for the establishment of an international year of scientific study of the greenhouse effect, and requests the President to take steps to launch a worldwide cooperative program. That would be just the beginning, as many of the studies would continue for years.

The legislation would first, coordinate and promote domestic and international research efforts on both the scientific and policy aspects of this problem; second, identify strategies to reduce the increase of carbon dioxide and other greenhouse gases; third, study ways to minimize the impact of the greenhouse effect; and fourth, establish long-term research plans.

The concept of an international year of study has been used successfully in the past. In fact, the best and most complete collection of data based on atmospheric concentrations of carbon dioxide began in 1957 as a result of the International Geophysical Year. At that time a sampling station was established on Mona Loa, HI. Today scientists are still collecting data from that station.

Mr. President, I believe this bill will significantly improve national and international research coordination and cooperation. In time, it will produce the vital data Congress needs to make the appropriate policy decisions regarding the greenhouse effect. I urge my colleagues to support this legislation.●

**SENATE CONCURRENT RESOLUTION 6—EXPRESSING THE SENSE OF THE CONGRESS WITH RESPECT TO THE DENIAL OF HEALTH INSURANCE COVERAGE FOR DISABLED ADOPTED CHILDREN**

Mr. HUMPHREY submitted the following concurrent resolution; which was referred to the Committee on Labor and Human Resources:

**S. CON. RES. 6**

Whereas at least 36,000 children in this country are free for adoption and are living in foster care waiting for a permanent home;

Whereas many of these children are physically, mentally, or emotionally disabled;

Whereas some insurance companies deny health insurance to a disabled adopted child on the basis that the disability of the child is a preexisting condition;

Whereas the actions of these insurance companies impose a significant barrier to the adoption of these children because few prospective adoptive parents can afford to take the risk of adopting a child who will not be covered by health insurance;

Whereas under State law in this country, adoption severs the legal ties between the adopted child and his or her birth parents, and creates a legal relationship with the adoptive parents;

Whereas in every State, State law has established that an adopted child has the same legal status as a biological child for all intents and purposes;

Whereas these insurance companies would cover a biological child with the same disability born to the adoptive parents;

Whereas by denying health insurance coverage to disabled adopted children, the insurers are discriminating against adopted children and establishing a policy contrary to State law on adoption; and

Whereas the barriers to adoption that deny children a permanent home and prevent couples from establishing families should be eliminated: Now, therefore, be it

*Resolved by the Senate (the House of Representatives concurring), That it is the sense of Congress that the Congress—*

(1) opposes discrimination in health insurance against adopted children;

(2) urges insurance companies to treat adopted children identically to biological children as mandated by State law; and

(3) calls upon State legislatures to enact legislation that specifically requires health insurance contracts to cover adopted children of the insured, subscriber, or enrollee on the same basis as other dependents, with such coverage to be effective from the date of placement for the purpose of adoption.

● **Mr. HUMPHREY.** Mr. President, today I am introducing a concurrent resolution expressing the sense of the Congress with respect to the denial of health insurance coverage for disabled adopted children.

For over a year now, I have been actively promoting adoption through specific legislation and through the congressional coalition on adoption. In the course of this effort, I have learned of the numerous barriers to adoption from experts in the adoption field and individuals and couples who have been involved with the adoption process.

One such barrier arises when insurance companies deny health insurance to a disabled adopted child on the basis that the disability, whether it be physical, mental, or emotional, is a preexisting condition. Few prospective parents can afford to take the risk of adopting a child who will not be covered by health insurance.

This past April, at the first hearing of the congressional coalition on adoption, several witnesses on a panel devoted to health care for adoption of children with special needs discussed this problem. One witness, Mrs. Linda Sacra, representing the Texas Council on Adoptable Children, spoke of a case which involved a baby born prematurely who showed a brain mass on a CAT-scan several days after birth. The prospective adoptive parents wanted to proceed with the adoption but, because their insurance company refused to cover any costs associated with the brain mass on the grounds that it was a preexistent condition, the adoption plan was disrupted. I am told there are many cases like this, involving both infants and older children.

A second witness, Mrs. Mary Ann Kuharski, who is both an adoptee and an adoptive parent working on adoption and foster care issues in Minnesota, testified about a Minnesota law which guarantees equal rights for adopted children in health and accident insurance coverage. The Minnesota statute encourages couples to adopt children with disabilities by providing that they will not be denied health insurance coverage for the child from the date of placement in their home. Under this law, if the child would be covered if he or she were a biological child, then the adopted child must also be covered.

Mr. President, that makes good sense to me. Under State law in this country, adoption severs the legal ties between the adoptee and his or her birth parents, and creates a legal relationship with the adoptive parents. In every State except Illinois, by statute,

an adopted child has, for all intents and purposes, the same status as a biological child. Illinois cases have established the same law. According to adoptive parents and child advocates, some insurers simply choose to ignore these laws, and in essence discriminate against adopted children by refusing to provide health care coverage for disabilities which existed before the adoption.

According to the best information available, only eight States have statutes specifically dealing with health insurance coverage for adopted children, and some of those may not be strong enough to prevent completely this discrimination. In addition, if the statute does not specify that coverage must be provided from the time of placement, an insurance company may choose to provide coverage from the date of the finalization of the adoption or later. There is little or no case law on this subject in any State.

According to the Department of Health and Human Services, at least 36,000 children are free for adoption and waiting for a permanent home. Many of these children are disabled. Some are eligible for Medicaid and thus their health care would be covered whether they are in a foster home or an adoptive home. For those who are not eligible for Medicaid, financing of their health care may impose a significant barrier to their adoption.

Through adoption laws, all States have said to adoptive parents, "This child is your child, like any other child born to you." As parents we accept and love, and the insurance companies cover, our biological children with any congenital conditions or abnormalities they may have. Since the State law says an adopted child is to be treated identically to a biological child, why should a health insurance plan not cover a disabled adopted child when it would cover a biological child with the same disability? By denying health insurance coverage to disabled adopted children, insurers are discriminating against adopted children and establishing a policy contrary to State law on adoption.

Mr. President, I have no interest in meddling in insurance policy or in encouraging the Federal Government to dictate policy in insurance matters to State legislatures. But Congress has repeatedly recognized the need to encourage special needs adoption, particularly through the Adoption Opportunities Program established by the Child Abuse Prevention and Treatment and Adoption Reform Act of 1978 (Public Law 95-266), and the Adoption Assistance Program established by the Adoption Assistance and Child Welfare Act of 1980 (Public Law 96-272).

I have been told this problem of obtaining health insurance is pervasive

and constitutes a serious barrier to special needs adoption. I believe Congress has a responsibility to point out the inequity in this situation and to encourage the insurance industry and the State legislatures to take steps to solve the problem.

The concurrent resolution I am introducing today makes it clear that Congress first, opposes discrimination in health insurance against adopted children; second, urges insurance companies to treat adopted children identically to biological children as mandated by State law; and third, calls upon State legislatures to enact legislation that specifically requires health insurance contracts to cover adopted children of the insured, subscriber, or enrollee on the same basis as other dependents, with such coverage to be effective from the date of placement for the purpose of adoption.●

#### SENATE RESOLUTION 1—FORMING THE PRESIDENT THAT A QUORUM OF EACH HOUSE IS ASSEMBLED

Mr. BYRD submitted the following resolution; which was considered and agreed to:

##### S. RES. 1

*Resolved*, That a committee consisting of two Senators be appointed to join such committee as may be appointed by the House of Representatives to wait upon the President of the United States and inform him that a quorum of each House is assembled and that the Congress is ready to receive any communication he may be pleased to make.

#### SENATE RESOLUTION 2—FORMING THE HOUSE THAT A QUORUM OF THE SENATE IS ASSEMBLED

Mr. BYRD submitted the following resolution; which was considered and agreed to:

##### S. RES. 2

*Resolved*, That the Secretary inform the House of Representatives that a quorum of the Senate is assembled and that the Senate is ready to proceed to business.

#### SENATE RESOLUTION 3—ELECTING SENATOR JOHN C. STENNIS AS PRESIDENT PRO TEMPORE OF THE U.S. SENATE

Mr. BYRD (for himself and Mr. THURMOND) submitted the following resolution; which was considered and agreed to:

##### S. RES. 3

*Resolved*, That John C. Stennis, a Senator from the State of Mississippi, be, and he is hereby, elected President of the Senate pro tempore, to hold office during the pleasure of the Senate, in accordance with rule I, paragraph 1, of the Standing Rules of the Senate.

**SENATE RESOLUTION 4—NOTIFYING THE PRESIDENT OF THE ELECTION OF A PRESIDENT PRO TEMPORE**

Mr. BYRD submitted the following resolution; which was considered and agreed to:

**S. RES. 4**

*Resolved*, That the President of the United States be notified of the election of John C. Stennis, a Senator from the State of Mississippi, as President pro tempore.

**SENATE RESOLUTION 5—CONGRATULATING SENATOR JOHN C. STENNIS ON HIS ELECTION AS PRESIDENT PRO TEMPORE**

Mr. BYRD (for himself and Mr. DOLE) submitted the following resolution; which was considered and agreed to:

**S. RES. 5**

*Resolved*, That the Majority Leader and the Minority Leader of the Senate, on behalf of the Senate, congratulate John C. Stennis, a Senator from the State of Mississippi, upon his election as President pro tempore of the United States Senate.

**SENATE RESOLUTION 6—NOTIFYING THE HOUSE OF THE ELECTION OF A PRESIDENT PRO TEMPORE**

Mr. BYRD submitted the following resolution; which was considered and agreed to:

**S. RES. 6**

*Resolved*, That the House of Representatives be notified of the election of John C. Stennis, a Senator from the State of Mississippi, as President pro tempore.

**SENATE RESOLUTION 7—ELECTING WALTER J. STEWART AS SECRETARY OF THE SENATE**

Mr. BYRD submitted the following resolution; which was considered and agreed to:

**S. RES. 7**

*Resolved*, That Walter J. Stewart be, and he is hereby, elected Secretary of the Senate, beginning January 6, 1987.

**SENATE RESOLUTION 8—NOTIFYING THE PRESIDENT OF THE UNITED STATES OF THE ELECTION OF A SECRETARY OF THE SENATE**

Mr. BYRD submitted the following resolution; which was considered and agreed to:

**S. RES. 8**

*Resolved*, That the President of the United States be notified of the election of the Honorable Walter J. Stewart as Secretary of the Senate.

**SENATE RESOLUTION 9—NOTIFYING THE HOUSE OF REPRESENTATIVES OF THE ELECTION OF A SECRETARY OF THE SENATE**

Mr. BYRD (for himself and Mr. INOUE) submitted the following resolution; which was considered and agreed to:

**S. RES. 9**

*Resolved*, That the House of Representatives be notified of the election of the Honorable Walter J. Stewart as Secretary of the Senate.

**SENATE RESOLUTION 10—ELECTING HENRY KUUALOHA GIUGNI AS THE SERGEANT AT ARMS AND DOORKEEPER OF THE SENATE**

Mr. BYRD (for himself and Mr. INOUE) submitted the following resolution; which was considered and agreed to:

**S. RES. 10**

*Resolved*, That Henry Kuualoha Giugni, of the State of Hawaii, be, and he is hereby, elected Sergeant at Arms and Doorkeeper of the Senate.

**SENATE RESOLUTION 11—ELECTING DAVID J. PRATT AS SECRETARY FOR THE MAJORITY OF THE SENATE**

Mr. BYRD submitted the following resolution; which was considered and agreed to:

**S. RES. 11**

*Resolved*, That David J. Pratt be, and he is hereby, elected Secretary for the Majority of the Senate.

**SENATE RESOLUTION 12—ELECTING HOWARD GREENE AS SECRETARY FOR THE MINORITY OF THE SENATE**

Mr. DOLE submitted the following resolution; which was considered and agreed to:

**S. RES. 12**

*Resolved*, That Howard Greene be, and he is hereby, elected Secretary for the Minority of the Senate.

**SENATE RESOLUTION 13—FIXING THE HOUR OF DAILY MEETING OF THE SENATE**

Mr. BYRD submitted the following resolution; which was considered and agreed to:

**S. RES. 13**

*Resolved*, That the hour of daily meeting of the Senate be 12 o'clock meridian unless otherwise ordered.

**SENATE RESOLUTION 14—TO AMEND PARAGRAPHS 2 AND 3 OF RULE XXV**

Mr. BYRD submitted the following resolution; which was considered and agreed to:

**S. RES. 14**

*Resolved*, That Rule XXV, paragraph 2, of the Standing Rules of the Senate is amended as follows:

Strike the figure after "Agriculture, Nutrition, and Forestry" and insert in lieu thereof "18";

Strike the figure after "Armed Services" and insert in lieu thereof "20";

Strike the figure after "Banking, Housing, and Urban Affairs" and insert in lieu thereof "18";

Strike the figure after "Commerce, Science, and Transportation" and insert in lieu thereof "20";

Strike the figure after "Energy and Natural Resources" and insert in lieu thereof "19";

Strike the figure after "Environment and Public Works" and insert in lieu thereof "16";

Strike the figure after "Foreign Relations" and insert in lieu thereof "20";

Strike the figure after "Governmental Affairs" and insert in lieu thereof "14";

Strike the figure after "Judiciary" and insert in lieu thereof "14";

Sec. 2. Paragraph 3(a) of rule XXV of the Standing Rules of the Senate is amended as follows:

Strike the figure after "Budget" and insert in lieu thereof "24";

Strike the figure after "Rules and Administration" and insert in lieu thereof "16";

Strike the figure after "Veterans Affairs" and insert in lieu thereof "11";

Strike the figure after "Small Business" and insert in lieu thereof "18".

Sec. 3. Paragraph 3(c) of Rule XXV of the Standing Rules of the Senate is amended as follows:

Strike the figure after "Indian Affairs" and insert in lieu thereof "8".

**SENATE RESOLUTION 15—TO AMEND PARAGRAPH 4 OF RULE XXV OF THE STANDING RULES OF THE SENATE**

Mr. BYRD submitted the following resolution; which was considered and agreed to:

**S. RES. 15**

*Resolved*, That paragraph 4 of Rule XXV is amended by striking all after subparagraph (g) and inserting in lieu thereof the following:

"(h)(1) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Armed Services and the Committee on Energy and Natural Resources may, during the Hundredth Congress, also serve as a member of the Committee on Governmental Affairs so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(2) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Rules and Administration may, during the Hundredth Congress, also serve as a member of the

Committee on Veterans Affairs and the Committee on Intelligence so long as his service as a member of each of such committees is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 3(a) and 3(b).

"(h)(3)(A) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Banking, Housing and Urban Affairs and the Committee on Foreign Relations may, during the Hundredth Congress, also serve as a member of the Committee on Labor and Human Resources so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(3)(B) A Senator who during the Hundredth Congress may serve as a member on those committees listed in subparagraph (a), as well as a member on the Special Committee on Aging, may, during the Hundredth Congress, also serve as a member of the Committee on the Budget so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than two committees listed in paragraph 3.

"(h)(4) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Appropriations and the Committee on Agriculture, Nutrition and Forestry may, during the Hundredth Congress, also serve as a member of the Committee on Labor and Human Resources so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(5)(A) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Armed Services and the Committee on the Judiciary may, during the Hundredth Congress, also serve as a member of the Committee on Labor and Human Resources so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(5)(B) A Senator who during the Hundredth Congress serves on the Committee on Armed Services, the Committee on the Judiciary, and the Committee on Labor and Human Resources, and who serves as chairman of a committee listed in paragraph 2, may serve as chairman of two subcommittees of all committees listed in paragraph 2 of which he is a member.

"(h)(6)(A) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Agriculture, Nutrition, and Forestry and the Committee on Appropriations may, during the Hundredth Congress, also serve as a member of the Committee on the Judiciary so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(6)(B) A Senator who during the Hundredth Congress serves on the Committee on Agriculture, Nutrition and Forestry, the Committee on Appropriations, and the Committee on the Judiciary, and who serves as chairman of a committee listed in para-

graph 2, may serve as chairman of two subcommittees of all committees listed in paragraph 2 of which he is a member.

"(h)(7) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Energy and Natural Resources and the Committee on the Judiciary may, during the Hundredth Congress, also serve as a member of the Committee on Labor and Human Resources so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(8) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Environment and Public Works and the Committee on Finance may, during the Hundredth Congress, also serve as a member of the Committee on Governmental Affairs so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(9) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Agriculture, Nutrition and Forestry and the Committee on Finance may, during the Hundredth Congress, also serve as a member of the Committee on Governmental Affairs so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(10) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Banking, Housing and Urban Affairs and the Committee on Commerce, Science and Transportation may, during the Hundredth Congress, also serve as a member of the Committee on Finance so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(11)(A) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Appropriations and the Committee on Banking, Housing and Urban Affairs, may, during the Hundredth Congress, also serve as a member of the Committee on Governmental Affairs so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(11)(B) A Senator who during the Hundredth Congress may serve as a member on those committees listed in subparagraph (a), as well as a member of the Committee on the Budget, may, during the Hundredth Congress, also serve as a member of the Committee on Small Business so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than two committees listed in paragraph 3(a) and 3(b).

"(h)(12) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on the Judiciary and the Committee on Labor and Human Resources may, during the Hundredth Congress, also serve as a member of the Committee on Foreign Relations so long as his service as a member of each such committee

is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(14) A Senator whose term begins on January 3, 1987 may serve as a member of the Committee on Commerce, Science and Transportation and the Committee on Foreign Relations and may, during the Hundredth Congress, also serve as a member of the Committee on Labor and Human Resources so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(14) A Senator whose term begins on January 3, 1987 may serve as a member of the Committee on Appropriations and the Committee on Environment and Public Works and may, during the Hundredth Congress, also serve as a member of the Committee on Labor and Human Resources so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2."

#### SENATE RESOLUTION 16—TO AMEND PARAGRAPH 4 OF RULE XXV OF THE STANDING RULES OF THE SENATE

Mr. DOLE submitted the following resolution; which was considered and agreed to:

##### S. RES. 16

*Resolved*, That paragraph 4 of Rule XXV is amended by adding at the end of paragraph (h) the following:

"(h)(15) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on the Judiciary, the Committee on Labor and Human Resources, the Committee on Armed Services, and the Committee on Veterans Affairs may, during the Hundredth Congress, serve as a member of the Committee on the Judiciary, the Committee on Labor and Human Resources, the Committee on Armed Services, and the Committee on Veterans Affairs so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(16) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Appropriations, the Committee on Commerce, Science and Transportation, the Committee on Governmental Affairs, and the Committee on Rules and Administration may, during the Hundredth Congress, serve as a member of the Committee on Appropriations, the Committee on Commerce, Science and Transportation, the Committee on Governmental Affairs, and the Committee on Rules and Administration so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(17) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Finance, the Committee on Governmental Affairs, and the Select Committee on Intelligence may, during the Hundredth Congress, also serve as a member of the Joint Economic Com-

than two committees listed in paragraph 3(a) and 3(b).

"(h)(34) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Energy and Natural Resources, the Committee on Foreign Relations, the Committee on Veterans' Affairs, and the Select Committee on Intelligence may, during the Hundredth Congress, serve as a member of the Committee on Energy and Natural Resources, the Committee on Foreign Relations, the Committee on Veterans' Affairs, and the Select Committee on Intelligence so long as his service as a member of each of such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 3(a) and 3(b).

"(h)(35) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Appropriations, the Committee on Governmental Affairs, and the Committee on Small Business may, during the Hundredth Congress, serve as a member of the Committee on Appropriations, the Committee on Governmental Affairs, the Committee on Small Business, and the Committee on the Budget so long as his service as a member of each of such committees is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 3(a) and 3(b).

"(h)(36) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Agriculture, Nutrition and Forestry, the Committee on Armed Services, the Special Committee on Aging and the Joint Economic Committee may, during the Hundredth Congress, serve as a member of the Committee on Agriculture, Nutrition and Forestry, the Committee on Armed Services, the Committee on Commerce, Science and Transportation, the Special Committee on Aging, and the Joint Economic Committee so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2, and as a member of more than two committees listed in paragraph 3(a) and 3(b)."

#### SENATE RESOLUTION 17— MAKING MAJORITY PARTY APPOINTMENTS TO SENATE COMMITTEES FOR THE 100TH CONGRESS

Mr. BYRD submitted the following resolution; which was considered and agreed to:

##### S. RES. 17

*Resolved*, That the following shall constitute the majority party's membership on the standing committees for the 100th Congress, or until their successors are chosen:

Committee on the Judiciary: Mr. Thurmond, Mr. Hatch, Mr. Simpson, Mr. Grassley, Mr. Specter, and Mr. Humphrey.

Committee on Labor and Human Resources: Mr. Hatch, Mr. Stafford, Mr. Quayle, Mr. Thurmond, Mr. Weicker, Mr. Cochran, and Mr. Humphrey.

#### SENATE RESOLUTION 19— MAKING MAJORITY PARTY APPOINTMENTS TO SENATE COMMITTEES IN PARAGRAPH 3(a), (b), AND (c) OF RULE XXV

Mr. BYRD submitted the following resolution; which was considered and agreed to:

##### S. RES. 19

*Resolved*, that the following shall constitute the majority party's membership on the committees named in paragraph 3(a), (b), and (c) of Rule XXV for the 100th Congress, or until their successors are appointed:

Committee on the Budget: Mr. Chiles (Chairman), Mr. Hollings, Mr. Johnston, Mr. Sasser, Mr. Riegle, Mr. Exon, Mr. Lautenberg, Mr. Simon, Mr. Sanford, Mr. Wirth, Mr. Fowler, Mr. Conrad, and Mr. Dodd.

Committee on Rules and Administration: Mr. Ford (Chairman), Mr. Pell, Mr. Byrd, Mr. Inouye, Mr. DeConcini, Mr. Gore, Mr. Moynihan, Mr. Dodd, and Mr. Adams.

Committee on Small Business: Mr. Bumpers (Chairman), Mr. Nunn, Mr. Sasser, Mr. Baucus, Mr. Levin, Mr. Dixon, Mr. Boren, Mr. Harkin, Mr. Kerry, and Ms. Mikulski.

Committee on Veterans Affairs: Mr. Cranston (Chairman), Mr. Matsunaga, Mr. DeConcini, Mr. Mitchell, Mr. Rockefeller, and Mr. Graham.

Select Committee on Ethics: Mr. Heflin (Chairman), Mr. Pryor, and Mr. Sanford.

Select Committee on Indian Affairs: Mr. Inouye (Chairman), Mr. Melcher, Mr. DeConcini, Mr. Burdick, and Mr. Daschle.

Special Committee on Aging: Mr. Melcher (Chairman), Mr. Glenn, Mr. Chiles, Mr. Pryor, Mr. Bradley, Mr. Burdick, Mr. Johnston, Mr. Breaux, Mr. Shelby, and Mr. Reid.

# SENATE RESOLUTION 20— MAKING MINORITY PARTY AP- POINTMENTS TO SENATE COM- MITTEES FOR THE 100TH CON- GRESS AND DESIGNATING RANKING MEMBERS OF SUCH COMMITTEES

Mr. DOLE submitted the following resolution; which was considered and agreed to:

## S. RES. 20

*Resolved*, That the following shall constitute the minority party's membership on those Senate committees listed below for the 100th Congress, or until their successors are appointed:

**Budget:** Mr. Domenici (ranking member), Mr. Armstrong, Mrs. Kassebaum, Mr. Boschwitz, Mr. Symms, Mr. Grassley, Mr. Kasten, Mr. Quayle, Mr. Danforth, Mr. Nickles, and Mr. Rudman.

**Rules and Administration:** Mr. Stevens (ranking member), Mr. Hatfield, Mr. McClure, Mr. Helms, Mr. Warner, Mr. Dole, and Mr. Garn.

**Small Business:** Mr. Weicker (ranking member), Mr. Boschwitz, Mr. Rudman, Mr. D'Amato, Mr. Kasten, Mr. Pressler, Mr. Wallop, and Mr. Bond.

**Veterans Affairs:** Mr. Murkowski (ranking member), Mr. Simpson, Mr. Thurmond, Mr. Stafford, and Mr. Specter.

**Select Committee on Ethics:** Mr. Rudman (ranking member), Mr. Helms, and Mrs. Kassebaum.

**Special Committee on Aging:** Mr. Heinz (ranking member), Mr. Cohen, Mr. Pressler, Mr. Grassley, Mr. Wilson, Mr. Domenici, Mr. Chafee, Mr. Durenberger, and Mr. Simpson.

**Select Committee on Indian Affairs:** Mr. Evans (ranking member), Mr. Murkowski, and Mr. McCain.

# SENATE RESOLUTION 21—EX- PRESSING THE SENATE'S GRATITUDE FOR THE PRESI- DENT'S EXCELLENT HEALTH AND BEST WISHES FOR HIS SPEEDY RECOVERY

Mr. BYRD (for himself, Mr. DOLE, and Mr. GLENN) submitted the following resolution; which was considered and agreed to:

## S. RES. 21

Whereas President Ronald Reagan underwent an operation to correct a painful prostate condition at the National Naval Medical Center in Bethesda, Maryland yesterday as well as the removal of four small intestinal growths found during a routine colonoscopic examination;

Whereas all medical reports available at this moment indicate that the President is in excellent health and unfailing good humor; and

Whereas the President has alleviated our concerns and relieved the anxieties of our whole nation by his openness and candor with respect to the medical procedures to be performed and the results following the completion of the medical procedures; Now, therefore, be it

*Resolved*, That the United States Senate expresses its heartfelt thanks for the continued excellent health of our President and our best wishes for his continued excellent health in the years to come.

# SENATE RESOLUTION 22—COM- MENDING THE COMMUNITY OF CHASE, MD FOR ITS AS- SISTANCE TO THE RESCUE WORKERS AND THE SURVI- VORS OF THE AMTRAK TRAIN ACCIDENT OF JANUARY 4, 1987

Mr. BYRD (for himself, Mr. DOLE, Mr. SARBANES, and Ms. MIKULSKI) submitted the following resolution; which was considered and agreed to:

## S. RES. 22

Whereas a tragic Amtrak train accident occurred in Chase, Maryland, on Sunday, January 4, 1987;

Whereas the impact at nearly 100 miles per hour of the passenger train and a Conrail freight train resulted in the deaths of 15 passengers and injuries to at least 170 others;

Whereas the people of Chase, Maryland, without hesitation mobilized to provide aid and comfort to the injured;

Whereas residents scaled the fence separating them from the railroad tracks and assisted passengers in their escape from the burning wreckage;

Whereas other residents opened their homes to the survivors, providing clothes and allowing phone calls to concerned relatives in such far away places as Australia, Trinidad and Tobago;

Whereas the local community building was immediately transformed into a center providing food and shelter to the passengers and rescue workers; Now, therefore, be it

*Resolved*, That the United States Senate hereby commends the community of Chase, Maryland, for its spontaneous outpouring of assistance to the rescue workers and the passengers of the ill-fated Amtrak train.

# SENATE RESOLUTION 23—ESTAB- LISHING A SELECT COMMIT- TEE TO INVESTIGATE AND STUDY ACTIVITIES WITH RE- SPECT TO THE DIRECT OR IN- DIRECT SHIPMENT OR PROVI- SION OF ARMS TO IRAN AND THE USE OF THE PROCEEDS OF ANY SUCH TRANSACTION

Mr. BYRD (for himself, Mr. DOLE, Mr. INOUE, and Mr. RUDMAN) submitted the following resolution; which was considered and agreed to:

## S. RES. 23

*Resolved*,

### ESTABLISHMENT OF THE SELECT COMMITTEE

SECTION 1. (a) There is established a select committee of the Senate to be known as the Select Committee on Secret Military Assistance to Iran and the Nicaraguan Opposition (hereafter in this resolution referred to as the "select committee").

(b) The purpose of the select committee is—

(1) to conduct an investigation into, and study of, all matters which have any tendency to reveal the full facts about—

(A) any activity of—

(i) the National Security Council or of any member or staff thereof,

(ii) any other department, agency, or entity of the United States Government or of any officer or employee thereof,

(iii) any foreign government, or of any agency or instrumentality thereof, or of any officer or employee thereof, or

(iv) any other individual, group, corporation, which relates to—

(I) the direct or indirect sale, shipment, or other provision of arms, or the direct or indirect provision of materiel, funds, or other assistance, to Iran,

(II) the use of the proceeds from any transaction described in subclause (I) to provide assistance to any faction or insurgency in Nicaragua or in any other foreign country, or to further any political purpose or activity within the United States, or to further any other purpose of any nature whatsoever,

(III) the generation and use of any other money, item of value, or service to provide assistance to the Nicaraguan democratic resistance, or

(IV) the provision or coordination of support for persons or entities engaged as insurgents in armed conflict with the Government of Nicaragua,

in order to determine whether any such activity was illegal, improper, unauthorized, or unethical;

(B) any other activity, circumstance, materiel, or transaction having a tendency to prove or disprove that any official of the United States Government, or any other person, acting either individually or in combination with others, engaged in any activity which was illegal, improper, unauthorized, or unethical, in connection with any activity described in subclause (I), (II), (III), or (IV) of clause (A) or in connection with the operations described in clause (C); and

(C) the suitability of the structure and operations of the National Security Council, and persons serving as staff, consultants, or agents thereto, for any function related to the formulation, implementation, or conduct of American national security policy; and

(2)(A) to make such findings of fact as are warranted and appropriate;

(B) to make such recommendations, including recommendations for new legislation and amendments to existing laws and any administrative or other actions, as the select committee may determine to be necessary or desirable; and

(C) to fulfill the Constitutional oversight and informing function of the Congress with respect to the matters described in this section.

(c) For purposes of this section, the term "Iran" includes the Government of Iran, any agency or instrumentality thereof, any officer or employee thereof, or any person purporting to represent the Government of Iran or any agency or instrumentality thereof, any national of Iran, or any person located in Iran.

### MEMBERSHIP AND ORGANIZATION OF THE SELECT COMMITTEE

SEC. 2. (a)(1) The select committee shall consist of eleven members of the Senate, six of whom shall be appointed by the President pro tempore of the Senate from the majority party of the Senate upon the recommendation of the Majority Leader of the Senate, and five of whom shall be appointed by the President pro tempore of the Senate from the minority party of the Senate upon the recommendation of the Minority Leader of the Senate.

(2) Vacancies in the membership of the select committee shall not affect the authority of the remaining members to execute the functions of the select committee and shall be filled in the same manner as original appointments to it are made.

(3) For the purpose of paragraph 4 of rule XXV of the Standing Rules of the Senate, service of a Senator as a member, chairman, or vice chairman of the select committee shall not be taken into account.

(b)(1) The chairman of the select committee shall be selected by the Majority Leader of the Senate and the vice chairman of the select committee shall be selected by the Minority Leader of the Senate. The vice chairman shall discharge such responsibilities as the select committee or the chairman may assign.

(2) A majority of the voting members of the select committee shall constitute a quorum for reporting a matter or recommendation to the Senate except that the select committee may fix a lesser number as a quorum for the purpose of taking testimony before the select committee or for conducting the other business of the select committee.

(c)(1) The select committee shall promptly adopt rules and procedures not inconsistent with the rules and procedures of the Senate.

(2) The rules and procedures of the select committee shall—

(A) govern the proceedings of the select committee; and

(B) consistent with section 6 of this resolution—

(i) provide for the security of the records of the select committee and the protection of classified information and materials; and

(ii) prevent the unauthorized disclosure of information and materials obtained by the select committee in the course of its investigation and study.

#### STAFF OF THE SELECT COMMITTEE

SEC. 3. (a)(1) to assist the select committee in its investigation and study, the chairman, after consultation with the vice chairman and the approval of the select committee, shall appoint the committee staff.

(2) All staff shall work for the select committee as a whole, shall report to the chairman and vice chairman and, except as otherwise provided by the select committee, shall be under the direction of the chairman.

(b) To assist the select committee in its investigation and study, the Senate Legal Counsel and Deputy Senate Legal Counsel shall work with and under the jurisdiction and authority of the select committee.

(c) The Majority and Minority Leaders of the Senate may each designate one staff person to serve on the staff of the select committee to serve as their liaison to the select committee.

(d) The Comptroller General of the United States is requested to provide from the General Accounting Office whatever personnel, investigatory, material, or other appropriate assistance may be required by the select committee.

#### PUBLIC ACTIVITIES OF THE COMMITTEE

SEC. 4. (a) Consistent with—

(1) the rights of persons subject to investigation and inquiry,

(2) considerations of national security, including the protection of sources and methods of intelligence gathering and analysis, and

(3) the interests of the relationship of the United States with other nations,

the select committee shall make every effort to fulfill the right of the public and the Congress to know the essential facts and implications of the activities of officials of the United States Government and other persons and entities with respect to the

matters under investigation and study as described in section 1.

(b) In furtherance of the public's and Congress' right to know, the select committee—

(1) shall hold, as it considers appropriate, open hearings;

(2) may make interim reports to the Senate as it considers appropriate; and

(3) shall make a final comprehensive public report to the Senate which contains a description of all relevant factual determinations consistent with subsection (a) of this section and section 1(b)(2) and which contains recommendations for new legislation and other actions pursuant to the goal of an open, lawful, and effective conduct of American national security policy and, when necessary, lawful intelligence activities in support of American national security policy.

(c) The decision as to what matters shall be heard in closed or open session shall be determined by the select committee in accordance with paragraph 5(b) of rule XXVI of the Standing Rules of the Senate.

#### POWERS OF THE SELECT COMMITTEE

SEC. 5. (a) The select committee shall do everything necessary and appropriate under the laws and Constitution of the United States to make the investigation and study specified in section 1.

(b) The select committee is authorized to issue subpoenas for obtaining testimony and for the production of documentary or physical evidence. A subpoena may be authorized and issued by the select committee, acting through the chairman or any other member designated by the chairman, and may be served by any person designated by such chairman or other member anywhere within or without the borders of the United States to the full extent permitted by law. The chairman of the select committee, or any other member thereof, is authorized to administer oaths to any witnesses appearing before the committee.

(c) The select committee may exercise the powers conferred upon committees of the Senate by sections 6002 and 6005 of title 18, United States Code.

(d) The select committee is authorized to do the following:

(1) To employ and fix the compensation of such clerical, investigatory, legal, technical, and other assistants as the select committee considers necessary or appropriate.

(2) To sit and act at any time or place during sessions, recesses, and adjournment periods of the Senate.

(3) To hold hearings for taking testimony under oath or to receive documentary or physical evidence relating to the matters and questions it is authorized to investigate or study.

(4) To require by subpoena or order the attendance, as witnesses before the select committee or at depositions, of any person who may have knowledge or information concerning any of the matters the select committee is authorized to investigate and study.

(5) To take depositions and other testimony under oath anywhere within the United States or in any other country, to issue orders by the chairman or any other member designated by the chairman which require witnesses to answer written interrogatories under oath, to make application for issuance of letters rogatory, and to request, through appropriate channels, other means of international assistance, as appropriate.

(6) To issue commissions and to notice depositions for staff members to examine witnesses and to receive evidence under oath administered by an individual authorized by local law to administer oaths. The select committee, acting through the chairman, may authorize and issue, and may delegate to designated staff members the power to authorize and issue, commissions and deposition notices.

(7) To require by subpoena or order—

(A) any department, agency, entity, officer, or employee of the United States Government,

(B) any person or entity purporting to act under color or authority of State or local law, or

(C) any private person, firm, corporation, partnership, or other organization,

to produce for its consideration or for use as evidence in the investigation or study of the select committee any book, check, canceled check, correspondence, communication, document, financial record, paper, physical evidence, photograph, record, recording, tape, or any other material relating to any of the matters or questions such committee is authorized to investigate and study which they or any of them may have in their custody or under their control.

(8) To make to the Senate any recommendations, including recommendations for criminal or civil enforcement, which the select committee may consider appropriate with respect to—

(A) the willful failure or refusal of any person to appear before it, or at a deposition, or to answer interrogatories, in obedience to a subpoena or order;

(B) the willful failure or refusal of any person to answer questions or give testimony during his appearance as a witness before such committee, or at a deposition, or in response to interrogatories; or

(C) the willful failure or refusal of—

(i) any officer or employee of the United States Government,

(ii) any person or entity purporting to act under color or authority of State or local law, or

(iii) any private person, partnership, firm, corporation, or organization,

to produce before the committee, or at a deposition, or at any time or place designated by the committee, any book, check, canceled check, correspondence, communication, document, financial record, paper, physical evidence, photograph, record, recording, tape, or any other material in obedience to any subpoena or order.

(9) To procure the temporary or intermittent services of individual consultants, or organizations thereof, in the same manner and under the same conditions as a standing committee of the Senate may procure such services under section 202(i) of the Legislative Reorganization Act of 1946 (2 U.S.C. 72a(i)).

(10) To use on a reimbursable basis, with the prior consent of the Government department or agency concerned and the Committee on Rules and Administration of the Senate, the services of personnel of such department or agency.

(11) To use, with the prior consent of the chairman of any other Senate committee or the chairman of any subcommittee of any committee of the Senate, the facilities or services of any members of the staff of such other Senate committee whenever the select committee or its chairman considers that such action is necessary or appropriate to enable the select committee to make the in-

vestigation and study provided for in this resolution.

(12) To have access through the agency of any members of the select committee, staff director, chief counsel, or any of its investigatory assistants designated by the chairman, to any data, evidence, information, report, analysis, document, or paper—

(A) which relates to any of the matters or questions which the select committee is authorized to investigate or study;

(B) which is in the custody or under the control of any department, agency, entity, officer, or employee of the United States Government, including those which have—

(i) the power under the laws of the United States to investigate any alleged criminal activities or to prosecute persons charged with crimes against the United States; or

(ii) the authority to, or which in fact has, conducted intelligence gathering or intelligence activities,

without regard to the jurisdiction or authority of any other Senate committee; and

(C) which will aid the select committee to prepare for or conduct the investigation and study authorized and directed by this resolution.

(13) To report violations of any law to the appropriate Federal, State, or local authorities.

(14) To expend, to the extent the select committee determines necessary and appropriate, any moneys made available to such committee by the Senate to make the investigation, study, and reports authorized by this resolution.

(e) The level of compensation payable to any employee of the select committee shall not be subject to any limitation on compensation otherwise applicable to an employee of the Senate.

#### PROTECTION OF CONFIDENTIAL AND CLASSIFIED INFORMATION

Sec. 6. (a)(1) Before being given access to any classified information, any member of the staff of, or consultant to, the select committee shall have the appropriate security clearance and a need to know such information. The chairman of the select committee shall decide which select committee staff members and consultants are required to have security clearances.

(2) All staff members and consultants shall, as a condition of employment, agree in writing to abide by the conditions of an appropriate nondisclosure agreement promulgated by the select committee.

(3) The case of any Senator who violates the security procedures of the select committee may be referred to the Select Committee on Ethics of the Senate for the imposition of sanctions in accordance with the rules of the Senate. Any staff member or consultant who violates the security procedures of the select committee shall immediately be subject to removal from office or employment with the select committee or shall be subject to such other sanction as may be provided in the rules of the select committee.

(b)(1) Any classified information obtained by the select committee either directly from the Executive branch of the United States Government, through the Select Committee on Intelligence of the Senate, or by other means, shall be disclosed only in the same manner in which such information may be disclosed under the provisions of section 8 of Senate Resolution 400 (Ninety-fourth Congress, second session), except that references to the Select Committee on Intelligence in such section shall be deemed to be

references to the select committee established under this resolution.

(2) The select committee shall make suitable arrangements, in consultation with the Select Committee on Intelligence of the Senate, for the physical protection and storage of classified information provided to the select committee.

(3) Upon the termination of the select committee pursuant to section 9 of this resolution, all records, files, documents, and other materials in the possession, custody, or control of the select committee, under appropriate conditions established by such committee, under appropriate conditions established by such committee, shall be transferred to the Select Committee on Intelligence of the Senate.

#### RELATION TO OTHER INVESTIGATIONS

Sec. 7. (a) In order to—

(1) expedite the thorough conduct of the investigation and study authorized by this resolution,

(2) promote efficiency among all the various investigations underway in all branches of the United States Government, and

(3) engender a high degree of confidence on the part of the public regarding the conduct of such investigation,

the select committee is encouraged—

(A) to seek the full cooperation of all relevant investigatory bodies, and

(B) to seek access to all information which is acquired and developed by such bodies.

(1) The Select Committee on Intelligence is hereby directed to prepare and provide to the select committee, in closed session, a report of its investigation into matters described in section 1 of this resolution, which report shall include a summary of the testimony and chronology of events developed by the Select Committee on Intelligence, together with a listing of unresolved questions and issues which it recommends be pursued by the select committee as soon as possible, and the select committee may release as much of the information in such report to the public as it deems advisable, consistent with the interest of the public and national security, and is deemed by the committee to be in the public interest after a determination by such committee that the public interest would be served by such disclosure.

(2) The select committee, through its members and appropriate staff, shall be provided full access to all records, files, documents and other materials in the possession, custody, or control of the Select Committee on Intelligence of the Senate, obtained or produced by the Select Committee on Intelligence of the Senate with respect to any matter described in section 1 of this resolution.

(3) All subpoenas issued by the Select Committee on Intelligence of the Senate on any matter described in section 1 of this resolution shall continue in force and may be enforced by the select committee as if issued by the select committee.

(c) The Senate requests that any independent counsel appointed pursuant to chapter 39 of title 28, United States Code, to investigate any matter related to a matter described in section 1 of this resolution, make available to the select committee, as expeditiously as possible, all documents and information which may assist the select committee in its investigation and study.

#### SALARIES AND EXPENSES

Sec. 8. Such sums as are necessary shall be available from the contingent fund of the Senate out of the Account for Expenses for Inquiries and Investigation for payment of

salaries and other expenses of the select committee under this resolution, which shall include sums which shall be available for the procurement of the services of individual consultants or organizations thereof, in accordance with section 5(d)(9). Payment of expenses shall be disbursed upon vouchers approved by the chairman of the select committee, except that vouchers shall not be required for the disbursement of salaries paid at an annual rate.

#### REPORTS; TERMINATION

Sec. 9. (a)(1) The select committee shall make a final public report to the Senate of the results of the investigation and study conducted by such committee pursuant to this resolution, together with its findings and any recommendations at the earliest practicable date, but not later than August 1, 1987, provided that on or before August 1, 1987 a privileged motion made by the Majority Leader to be debatable no more than 1 hour, in the usual forum, shall be in order, namely, "I move that the time be extended from August 1, 1987 to October 30, 1987 for reinvestigation by and final report of the select committee." The select committee shall also submit to the Senate such interim reports as its considers appropriate.

(2) The final report of the select committee may be accompanied by whatever classified or confidential annexes are necessary to protect classified or confidential information, particularly intelligence sources and methods.

(b) After submission of its final report, the select committee shall conclude its business and close out its affairs as expeditiously as practicable.

#### SENATE RESOLUTION 24—TO PROVIDE THAT SUBSTITUTE AMENDMENTS BE CONSIDERED AS FIRST DEGREE AMENDMENTS UNDER CLOTURE

Mr. BYRD submitted the following resolution, which was ordered to lie over under the rule:

##### S. RES. 24

*Resolved*, That the third paragraph of paragraph 2 of Rule XXII of the Standing Rules of the Senate is amended by inserting the following immediately after the words "first degree" in the second sentence—"which under cloture an amendment in the nature of a substitute shall be considered as an amendment in the first degree".

#### SENATE RESOLUTION 25—TO ESTABLISH A PROCEDURE IN ORDER TO OVERTURN THE CHAIR ON QUESTIONS OF GERMANENESS UNDER CLOTURE

Mr. BYRD submitted the following resolution, which was ordered to lie over under the rule:

##### S. RES. 25

*Resolved*, That the third paragraph of paragraph 2 of Rule XXII of the Standing Rules of the Senate is amended by adding the following new sentence:

"Whenever an appeal is taken under this rule from a decision of the Presiding Officer on the question of germaneness of an amendment, the vote necessary to overturn the decision of the Presiding Officer shall be three-fifths of the Senators duly chosen and sworn—except on a measure or motion

to amend the Senate rules, in which case the necessary vote shall be two-thirds of the Senators present and voting."

# SENATE RESOLUTION 26—TO LIMIT LEGISLATIVE AMENDMENTS TO GENERAL APPROPRIATIONS BILLS

Mr. BYRD submitted the following resolution, which was ordered to lie over under the rule:

S. RES. 26

*Resolved*, That Rule XVI, paragraph 4, of the Standing Rules of the Senate is amended—

(1) by inserting "(a)" after "4"; and  
(2) by adding at the end of such paragraph the following new subparagraph:

"(b) If a point of order is made by any Senator against an amendment to a general appropriations bill on the ground that such amendment proposes general legislation or proposes a limitation or restriction not authorized by law and is to take effect or cease to be effective upon the happening of a contingency, it shall not be in order to raise the defense of germaneness unless there is House legislative language to which that amendment could be germane remaining in the bill.

# SENATE RESOLUTION 27—TO PROVIDE FOR GERMANENESS OR RELEVANCY OF AMENDMENTS

Mr. BYRD submitted the following resolution; which was considered and ordered to lie over under the rule:

S. RES. 27

*Resolved*, That Rule XV of the Standing Rules of the Senate is amended—

(1) by inserting after "MOTIONS" in the caption a semicolon and the following: "GERMANENESS";

(2) by adding at the end thereof the following new paragraph:

"6. (a) At any time during the consideration of a bill or resolution, it shall twice be in order during a calendar day to move that no amendment, other than the reported committee amendments, which is not germane or relevant to the subject matter of the bill or resolution or to the subject matter of an amendment proposed by the committee which reported the bill or resolution, shall thereafter be in order. The motion shall be privileged and shall be decided after one hour of debate, without any intervening action, to be equally divided and controlled by the Majority Leader and the Minority Leader or their designees.

"(b) If a motion made under subparagraph (a) is agreed to by an affirmative vote of three-fifths of the Senators present and voting, then any floor amendment not already agreed to (except amendments proposed by the Committee which reported the bill or resolution) which is not germane or relevant to the subject matter of the bill or resolution, or the subject matter of an amendment proposed by the Committee which reported the bill or resolution, shall not be in order.

"(c) When a motion made under subparagraph (a) has been agreed to as provided in subparagraph (b) with respect to a bill or resolution, points of order with respect to questions of germaneness or relevancy of amendments shall be decided without

debate, except that the Presiding Officer may entertain debate for his own guidance prior to ruling on the point of order. Appeals from the decision of the Presiding Officer on such points of order shall be decided without debate.

"(d) Whenever an appeal is taken from a decision of the Presiding Officer on the question of germaneness of an amendment, or whenever the Presiding Officer submits the question of germaneness or relevancy of an amendment to the Senate, the vote necessary to overturn the decision of the Presiding Officer or hold the amendment germane or relevant shall be three-fifths of the Senators present and voting. No amendment proposing sense of the Senate or sense of the Congress language that does not directly relate to the measure or matter before the Senate shall be considered germane."

# SENATE RESOLUTION 28—TO WAIVE READING OF AMENDMENTS UNDER CLOTURE

Mr. BYRD submitted the following resolution; which was considered and ordered to lie over under the rule:

S. RES. 28

*Resolved*, That rule XII of the Standing Rules of the Senate is amended by striking the last sentence of paragraph 2 and inserting in lieu thereof the following:

"After cloture is invoked, the reading of any amendment, including House amendments, shall be dispensed with."

# SENATE RESOLUTION 29—TO PROVIDE FOR ELECTRONIC VOTING IN THE SENATE

Mr. BYRD submitted the following resolution; which was considered and ordered to lie over under the rule:

S. RES. 29

*Resolved*, That rule XII of the Standing Rules of the Senate is amended—

(1) by striking the first clause of paragraph 1 and inserting in lieu thereof the following: "Except as provided in paragraph 5 of this rule, when the yeas and nays are ordered,"

(2) by adding at the end thereof the following new paragraphs:

"5. Whenever the Majority Leader, with concurrence of the Minority Leader, shall determine, the names of Senators voting upon any roll call shall be recorded by electronic device. Senators shall have not more than fifteen minutes from the beginning of the roll call to have their vote recorded.

"6. The Majority Leader, with concurrence of the Minority Leader, may announce that any recorded vote that is scheduled to or does occur immediately after another recorded vote shall be no longer than five minutes in duration."

# SENATE RESOLUTION 30—TO RE-AUTHORIZE AND REDESIGNATE THE SENATE ARMS CONTROL OBSERVER GROUP

Mr. BYRD (for himself and Mr. DOLE) submitted the following resolution; which was considered and agreed to:

S. RES. 30

*Resolved*, That the bipartisan group of Senators designated by S. Res. 86, 99th Con-

gress (agreed to February 18, 1985) is hereby redesignated and reauthorized to act during the 100th Congress as official observers on the United States delegation to any formal arms reduction or control negotiations to which the United States is a party (which group shall hereinafter be referred to as the "Senate Observer Group") and S. Res. 86, 99th Congress is hereby amended. The Group shall be headed by four Senators, serving as Co-Chairmen, two from the Majority party, to be appointed by the Majority Leader, Robert C. Byrd, and two from the Minority party, to be appointed by the Minority Leader, Robert Dole, one from each party to be appointed as Administrative Co-Chairman. The Majority and Minority Leaders shall serve on the Group in an ex officio capacity, and shall each appoint, in addition three other Senators to serve as members of the Group. The appointments shall be made in writing to the President pro tempore of the Senate.

Only Senators appointed as members of the Group may participate in official travel and activities of the Group. In the event that either the Majority Leader or the Minority Leader does not travel on an official trip of the Observer Group, he may designate one other Senator not a member of the Group to travel and participate in the activities of the Group in his stead. Any vacancy occurring in the Senate Arms Control Observer Group shall be filled in the same manner in which the original appointment was made."

Sec. 2. (a) The Senate Observer Group is authorized, from funds made available under section 3, to employ such staff (including consultants at a daily rate of pay) in the manner and at a rate not to exceed that allowed for employees of a standing committee of the Senate under paragraph (3) of section 105(e) of the Legislative Branch Appropriation Act, 1968 (2 U.S.C. 61-1(e)), and incur such expenses as may be necessary or appropriate to carry out its duties and functions. Payments made under this section for receptions, meals, and food-related expenses shall be authorized, however, only for those actual expenses incurred by the Senate Observer Group in the course of conducting its official duties and functions, provided, that notwithstanding any other provision of this Resolution, such amounts received as reimbursement for such expenses shall not exceed \$6,000 in any fiscal year. Amounts received as reimbursement for such food expenses shall not be reported as income, and the expenses so reimbursed shall not be allowed as a deduction under title 26 of the United States Code. This provision is effective with respect to expenditures incurred on or after February 28, 1985.

(b) Each Co-Chairman of the Senate Observer Group is authorized to designate a professional staff member. The designated Group staff shall also include, a secretary selected by, and responsible to, the Majority, and a secretary selected by, and responsible to, the Minority. The funds necessary to compensate any such staff member who is an employee of a Senator or of a Senate Committee, who has been designated to perform service for the Senate Observer Group, such staff member shall continue to be paid by such Senator or such Committee, as the case may be, but the account from which such staff member is paid shall be reimbursed for his services (including agency contributions when appropriate) out of funds made available under section 3(a) of this resolution. The four professional staff members, authorized by this subsection,

shall serve all the members of the Senate Observer Group, and carry out such other functions as their respective Co-Chairmen may specify.

(c) The Majority and Minority Leaders may each designate one staff member to serve the Observer Group. Funds necessary to compensate leadership staff shall be transferred from the funds made available under section 3(b) of this resolution to the perspective account from which such designated staff member is paid.

"(d) All foreign travel of the Group shall be authorized solely by the Majority and Minority Leaders, upon the recommendation of the Administrative Co-Chairmen. Participation by staff members in authorized foreign travel by the Group, access to all official activities and functions of the Group during such travel, and access to all classified briefings and information made available to the Group during such travel, shall be limited exclusively to delegation members with appropriate clearances. No travel or other funding shall be authorized by any Committee of the Senate for the use of staff, other than delegation staff, in regard to above mentioned activities, without the written authorization of the Majority Leader and the Minority Leader to the Chairman of such Committee."

SEC. 3. (a) The expenses of the Senate Observer Group shall be paid from the contingent fund of the Senate, out of the account of Miscellaneous Items, upon vouchers approved jointly by the Chairmen for Administrative purposes (except that vouchers shall not be required for the disbursement of salaries of employees who are paid at an annual rate). For any fiscal year, not more than \$400,000 shall be expended for staff (including consultants) and for expenses (excepting expenses incurred for foreign travel).

(b) In addition to the amount referred to in section 3(a), for any fiscal year, not more than \$150,000 shall be expended from the contingent fund of the Senate, out of the account for Miscellaneous Items, for Leadership staff as designated in section 2(c) for salaries and expenses (excepting expenses incurred for foreign travel).

(c)(1) Of the amount authorized in section 3(a), an amount not to exceed \$50,000 may be spent by the Senate Observer Group, with the prior approval of the Committee on Rules and Administration, to procure the temporary services (not in excess of one year) or intermittent services, including related and necessary expenses, of individual consultants, or organizations thereof, to make studies or advise the Senate Observer Group.

(2) Such services in the cases of individuals or organizations may be procured by contract as independent contractors, or in the case of individuals by employment at daily rates of compensation not in excess of the per diem equivalent to the highest gross rate of compensation which may be paid to a regular employee of a standing committee of the Senate. Such contracts shall not be subject to the provisions of section 3709 of the Revised Statutes (41 U.S.C. 5) or any other provisions of law requiring advertising.

(3) Any such consultant shall be selected by the Administrative co-chairman acting jointly. The Senate Observer Group shall submit to the Committee on Rules and Administration information bearing on the qualifications of each consultant whose services are procured pursuant to this subsection, including organizations, and such

information shall be retained by the Senate Observer Group and shall be made available for public inspection upon request.

# SENATE RESOLUTION 33—TO PROVIDE FOR THE PAYMENT OF SEVERANCE PAY TO CERTAIN DISPLACED SENATE COMMITTEE EMPLOYEES AND TO AUTHORIZE PAYMENT FOR ACCUMULATED LEAVE TO CERTAIN TERMINATED EMPLOYEES IN OFFICES OF SENATORS WHO HAVE CEASED TO SERVE AS MEMBERS OF THE SENATE

Mr. BYRD (for himself, Mr. DOLE, Mr. FORD, and Mr. STEVENS) submitted the following resolution; which was considered and agreed to:

## S. RES. 33

Resolved, That (a) for purposes of this resolution:

(1) The term "committee" means a standing, select, joint, special committee, or commission of the Senate, whose funds are disbursed by the Secretary of the Senate.

(2) Except as otherwise specifically provided in this resolution, the terms "committee chairman" and "ranking minority member" mean the chairman and ranking minority member of a committee as of the beginning of the One Hundredth Congress.

(3) The term "eligible staff member" means an individual who—

(A) was a member of a staff of a committee, or subcommittee thereof, on January 2, 1987, and

(B) during the calendar year 1986, was an employee of the Senate for at least one hundred and eighty-three days (whether or not his service was continuous).

(4) The term "displaced staff member" means an eligible staff member whose service as an employee of the Senate is terminated on or after January 2, 1987, solely and directly as a result of the reorganization of the staff of a committee caused by the transition to a Senate in which a majority of Senators are members of the Democratic Party, and who is certified as a displaced staff member by the committee chairman and ranking minority member of such committee.

(b)(1) The committee chairman and ranking minority member of each committee shall certify to the Committee on Rules and Administration the name of each displaced staff member of such committee before the later of—

(A) January 16, 1987, or

(B) the tenth day after the date on which the displaced staff member's service is terminated.

(2) A certification under this subsection shall be made no later than February 28, 1987.

(c) Under regulations prescribed by the Committee on Rules and Administration, and subject to the succeeding provisions of this resolution, each displaced staff member shall be entitled, upon application to the Secretary of the Senate and approval by the Committee on Rules and Administration, to be paid severance pay in one lump-sum payment in an amount equal to one month's basis pay.

(d) Severance pay under this resolution shall be paid from any available funds in the appropriation account entitled "Miscellaneous Items" within the contingent fund of the Senate.

(e) In the event of the death of a displaced staff member, any unpaid severance pay to which the displaced staff member is entitled shall be paid to the widow or widower of the displaced staff member on, if there is no widow or widower of such deceased displaced staff member, to the heirs at law or next of kin of such deceased displaced staff member.

(f) Severance pay paid under this resolution shall not be treated as compensation for purposes of any provision of title 5, United States Code, or of any other law relating to benefits accruing from employment by the United States, and the period of entitlement to such pay shall not be treated as a period of employment for purposes of any such provision or law.

(g) For purposes of this resolution, the Office of the Secretary of the Senate and the Office of the Sergeant at Arms and Doorkeeper of the Senate, with respect to funds appropriated under the heading, "Salaries, Officers, and Employees", shall be considered a committee.

(h) For purposes of the preceding provisions of this resolution, the term "displaced staff member" also includes an eligible staff member (as defined in subsection (a)(3)) whose service as an employee of the Senate is terminated on or after January 2, 1987, as a result of reorganizations (or consolidations) of committees of the Senate or of the cessation of service by a Senator who on November 4, 1986, was serving as chairman or ranking minority member of a committee or a subcommittee thereof, and who is certified as a displaced staff member by the committee chairman and ranking minority member of such committee.

(i)(1) Subject to the succeeding provisions of this resolution, whenever the service of an individual who is an employee in a Senator's office or in the President pro tempore of the Senate's office is terminated because the Senator's service as a Member of the Senate ceases or the President pro tempore's service ceases (as the case may be), such individual shall be entitled to be paid in a lump sum for such accumulated leave, not in excess of thirty days, as the Senator in whose office he was employed shall certify to the Secretary of the Senate to be due to such individual, or (in the case of an individual who is an employee in the President pro tempore's office) as the President pro tempore shall certify to the Secretary of the Senate to be due to such individual.

(2) No employee shall be entitled to a lump-sum payment under this subsection unless—

(A) he was an employee in a Senator's office or in the President pro tempore's office on or after November 1, 1986,

(B) his position in such office was terminated after such date and prior to January 6, 1987, and

(C) he was an employee of the Senate for at least one hundred and eighty-three days during calendar year 1986 (whether or not such service was continuous).

(3) The provisions of this subsection shall not apply to any individual who, at the time his service was terminated, was an employee in the office of a Senator who was appointed to fill an unexpired term.

(4) The amount payable to any individual under this subsection shall be paid from any available funds in the appropriation account entitled "Miscellaneous Items" within the contingent fund of the Senate.

(j) The amount of any payment to which an individual is entitled under this resolu-

tion shall be reduced (but not below zero) by an amount equal to the product of—

(1) the daily rate of basic pay of the individual on which such payment is based, multiplied by

(2) the number of days on which the individual is employed by the United States Government or the District of Columbia during the period beginning on the date of separation from service with respect to which the payment is being made and ending on the last day of the period for which the payment is being computed.

(k) Any payment under this resolution shall be made on the basis of the rate of basic pay of the individual on which such payment is based as of—

(1) November 1, 1986, or

(2) if such individual was not employed by the Senate on such date, on the first day preceding such date on which such individual was employed by the Senate.

(l)(1) Any application for a payment under this resolution shall be made before April 30, 1987.

(2) In the case of an employee of the Office of the Secretary of the Senate or of the Office of the Sergeant at Arms and Doorkeeper of the Senate who is separated from employment (and certified) after February 28, 1987, and before August 1, 1987, any application under this resolution shall be made before September 12, 1987.

#### SENATE RESOLUTION 34—RELATING TO LEGISLATIVE ASSISTANCE FOR SENATORS

Mr. BYRD (for himself, Mr. DOLE, Mr. FORD, and Mr. STEVENS) submitted the following resolution; which was considered and agreed to:

S. RES. 34

*Resolved*, That subsection (b) of section 111 of the Legislative Branch Appropriation Act, 1978 (P.L. 95-94) shall not be effective during the 100th Congress.

#### SENATE RESOLUTION 35—THE REAPPOINTMENT OF MICHAEL DAVIDSON AS SENATE LEGAL COUNSEL

Mr. BYRD (for himself and Mr. DOLE) submitted the following resolution; which was considered and agreed to:

S. RES. 35

*Resolved*, That the reappointment of Michael Davidson to be Senate Legal Counsel made by the President pro tempore of the Senate this day is effective as of January 3, 1987, and the term of service of the appointee shall expire at the end of the One Hundred First Congress.

#### SENATE RESOLUTION 36—TO REFER S. 108 ENTITLED "A BILL FOR THE RELIEF OF WALTER CHANG" TO THE CHIEF JUDGE OF THE U.S. CLAIMS COURT FOR A REPORT THEREON

Mr. INOUE submitted the following resolution; which was referred to the Committee on the Judiciary:

S. RES. 36

*Resolved*, That the bill (S. 108) entitled "A bill for the relief of Walter Chang" now

pending in the Senate, together with all the accompanying papers, is referred to the Chief Judge of the United States Claims Court. The Chief Judge shall proceed with the same in accordance with the provisions of sections 1492 and 2509 of title 28, United States Code, and report thereon to the Senate, at the earliest practicable date, giving such findings of fact and conclusions thereon as shall be sufficient to inform the Congress of the nature and character of the demand as a claim, legal or equitable, against the United States or a gratuity and the amount, if any, legally or equitably due the claimant from the United States.

#### SENATE RESOLUTION 37—EXPRESSING THE SENSE OF THE SENATE THAT THE PRESIDENT SHOULD ENCOURAGE FOREIGN GOVERNMENTS TO RATIFY, ACCEPT, OR APPROVE THE CONVENTION ON THE PHYSICAL PROTECTION OF NUCLEAR MATERIALS

Mr. GLENN submitted the following resolution; which was referred to the Committee on Foreign Relations:

S. RES. 37

Whereas the Convention on the Physical Protection of Nuclear Materials, opened for signature at Vienna and New York on March 3, 1980 (hereafter in this preamble referred to as the "Convention"), by its own terms requires the deposit of 21 instruments of ratification, acceptance, or approval before the Convention may enter into force;

Whereas the Convention has not entered into force for lack of the requisite number of ratifications, acceptances, or approvals; and

Whereas the Convention represents an important step toward international cooperation to prevent nuclear terrorism: Now, therefore, be it

*Resolved*, That it is the sense of the Senate that the President should make vigorous efforts to encourage the governments of signatory countries to ratify, accept, or approve the Convention on the Physical Protection of Nuclear Materials, which was opened for signature at Vienna and New York on March 3, 1980.

SEC. 2. The Secretary of the Senate shall transmit a copy of this resolution to the President.

Mr. GLENN. Mr. President, as I said in a statement on the floor of the Senate last October, we all know that terrorism is a growing and increasingly significant factor in the international system. The growth of terrorism, coupled with the proliferation of nuclear facilities and nuclear weapons, adds up to the most frightening and potentially destabilizing threat of modern times—nuclear terrorism. The thought of terrorists or revolutionaries acquiring the capability to develop nuclear explosive devices or to obtain and disperse radioactive materials is deeply sobering but must be confronted.

All nations in the international community, particularly the developed nations of the West, must be concerned with the rising specter of nuclear terrorism. In modern societies in which government monopolizes both the or-

ganized use of force and the control of nuclear weapons and nuclear materials, the citizenry must look to the state to prevent and combat the threat of nuclear terrorism.

The thought of nuclear weaponry or materials in the hands of individuals such as Mu'ammarr Qadhafi is staggering. It would be wrong to think that terrorists could not bring themselves to use such weapons of mass destruction. Technological knowledge, such as that needed to create a nuclear explosive device, is a free good that spreads with the number of states that acquire such knowledge. The next several decades are likely to see a proliferation of nations acquiring nuclear capability. With the growth of nuclear proliferation will come the increased likelihood that these nuclear nations will lose their nuclear weapons, materials, or knowledge to terrorists or unstable revolutionary groups. It is highly unlikely that terrorism and the threat of nuclear terrorism is merely a passing phenomenon. The trend toward the politicization of religion, the increase in ethnic and nationalistic sentiments, and the increasing dichotomy between the haves and have nots in the world point toward its increase as a means of political protest and persuasion.

While terrorist access to nuclear materials represents the most obvious harbinger of nuclear terrorism, several additional factors point to the increased possibility of nuclear terrorism.

As has already been mentioned, the fanaticism which seems to grip terrorists would not preclude their willingness to use nuclear weaponry or materials. The essence of effective terrorism is the use or threat of using force indiscriminately. It is the randomness of applying violence that makes such acts so terrifying. The extraordinary zeal of Islamic fundamentalists is an excellent modern day example of the fervor that can grip a terrorist or terrorist movement. Islamic zealots, willing to drive a truck full of explosives into the American Embassy in Beirut, Lebanon display how far fanatics are willing to go to destroy a perceived enemy. These terrorists' belief in their cause, combined with their unshakable conviction that God is on their side and that their suicide mission will automatically gain them entry into Paradise is alien to most Americans. But if such terrorists are willing to make such sacrifices to kill so many, it is within the realm of possibility to think they might utilize nuclear terrorism to attain their goals.

Another factor that points to the possibility that terrorists might use nuclear weapons, closely linked to the previous factor, is the terrorist's apparent insensitivity to orthodox deterrence. A terrorist is someone who is unwilling to abide by social norms and

what is generally conceived as being rational behavior. It stands to reason that terrorists gauging the costs and benefits of nuclear terrorism might completely ignore the fear of retaliation against them or the particular cause they espouse. Traditional deterrence, therefore, may have little if any appreciable effect on prospective nuclear terrorists. This dilemma underscores one of the greatest difficulties in dealing with any form of terrorism—combating the threat of terrorism without resorting to tactics that undermine a free society's institutions.

A third factor that points to the increased possibility of nuclear terrorism is the cooperation and collaboration among terrorist groups. This phenomenon has been primarily evident in the volatile Middle East where Qadhafi's regime encourages and supports numerous terrorist groups around the world and the Popular Front for the Liberation of Palestine [PFLP] which has collaborated with numerous terrorist groups from such diverse areas as Germany, Latin America, and Japan. This interterrorist cooperation has several implications. First, such cooperation among terrorist groups greatly increases the opportunities for terrorists to acquire nuclear weapons and materials. Since cooperation increases opportunities for sharing capital resources and expertise, obtaining nuclear weapons and materials is greatly enhanced when acquisition takes the form of self-development from raw fissionable materials. Second, interterrorist cooperation is likely to encourage the proliferation of nonstate nuclear devices, creating a network whereby such weapons can be spread across national borders. Third, interterrorist cooperation will be likely to increase the benefits to be derived from advanced training in the deployment and use of nuclear weaponry and materials. Finally, cooperation among terrorist groups is likely to foster reciprocal privileges such as safe-havens and forged documents which would be needed for successful nuclear terrorist operations.

The final factor that points to the increased possibility of nuclear terrorism is the increased tolerance and support of terrorism within the international system. States that support terrorism, such as Khomeini's Iran and Qadhafi's Libya, do so with the belief that terrorism serves their national interests. Terrorists are undoubtedly considered as useful tools in the struggle for power and influence in the global system. Terrorism seems to be increasingly viewed by some states as a surrogate for conventional warfare.

The attraction of terrorism to extremist states seems certain to persist and grow.

#### AMERICA'S SUSCEPTIBILITY TO NUCLEAR TERRORISM

The United States is an ideal target for terrorism. America's extensive communications system provides the terrorist or terrorist group what it desires more than anything else—publicity for its cause. The enormous media coverage that would occur after a nuclear terrorist threat became public would effectively rivet national attention on the terrorists and their espoused cause and the ensuing hysteria could virtually compel the Government to succumb to terrorist demands. America's vast expanses and widespread transportation system would provide the terrorist with numerous safe havens and rapid mobility which would permit escape from apprehension. In particular, the United States is the world's foremost modern, technological society, which makes it especially susceptible to the threat of nuclear terrorism.

America's densely populated cities provide the most vivid example of the vulnerability of a technological society. Some years ago, the entire city of New York lost all power after an upstate power transformer was hit by lightning and a technician failed to make the correct circuit adjustment. The city was virtually incapacitated for the duration of the blackout and crime rose dramatically. It is not difficult to imagine what kind of impact the use or threatened use of nuclear material would have on a large urban area.

America is a free society which justifiably prides itself on its openness and civil liberties. This very aspect of the United States makes it an appealing target for nuclear terrorism. The terrorist would not be subject to the constant surveillance and scrutiny that is evident in more repressive societies that lessen the opportunity to accumulate the knowledge and materials to commit an act of nuclear terrorism. The Iranian hostage crisis also demonstrated the enormous prestige to be derived by a comparatively weak power incapacitating the United States. America stands as a symbol of strength in the international system and to be able to successfully extort demands from the most powerful nation in the world would be considered by many to be a considerable temptation.

Since World War II, it has been established that thousands of pounds of uranium and plutonium, materials needed for the construction of a nuclear device, have not been accounted for in the United States. Most experts agree that it is entirely possible for individuals to construct a crude nuclear device.

The threat of exploding a homemade nuclear device is not the only possibility. Terrorists may explode a crude nuclear weapon without warn-

ing in an effort to avoid detection and capture, and even misidentify themselves in the hope of igniting domestic repression or international chaos. One can only imagine the damage to be wrought a 1-kiloton weapon, 20 times less powerful than the Hiroshima bomb, exploded outside the Capitol Building during a State of the Union Message. The U.S. Government would virtually cease to exist.

Another dimension to the threat of terrorism with nuclear weapons is the possibility that a terrorist group would steal a weapon from the U.S. arsenal of over 30,000 nuclear devices stockpiled in more than 100 military installations in the United States and abroad. While there is enormous security surrounding American nuclear weapons around the world, and while most American nuclear devices have highly sophisticated devices to prevent their unauthorized explosion, the possibility still exists that these nuclear weapons could fall into the hands of terrorists and be detonated.

Protection of America's far-flung nuclear arsenal is hampered by their wide dispersal around the globe where American security systems are dependent on the security systems of the host nation which are of varying reliability. Also, the weakness of local law enforcement agencies in most parts of the United States means that they are of little help in assisting Federal authorities in the event of a nuclear weapon theft.

Radiation dispersal devices in the hands of terrorists pose another serious threat to the United States. Radiation dispersal devices, in contrast to nuclear weapons, require less expertise, nuclear material, and production time by a terrorist group. Dispersal of a highly toxic carcinogen such as plutonium could have a devastating effect on the American public. The U.S. Atomic Energy Commission, predecessor of the current Nuclear Regulatory Commission and the Department of Energy, has estimated that the release of 4.4 pounds of plutonium oxide in fine powder form would result in 100 percent probability of developing lung or bone cancer up to 1,800 feet from the area of release, and a 1-percent risk of developing such cancer up to 40 miles downwind.

For the nuclear terrorist, the dispersion of nuclear material would undoubtedly be an attractive means to obtain his political ends. Authorities would be virtually unable to prevent the release of plutonium when it could be effectively dispersed over a wide, dense area by using such a simple device as a leaking container attached to the underside of a vehicle or dropping it from a tall building. Construction of such a dispersal device would require only a basic knowledge of nuclear chemistry and would thereby

lessen the risks inherent in forming a larger terrorist network to design and assemble a nuclear weapon. Also, the enormous social and economic chaos that would certainly result after the announcement of radiation leakages would be tempting to terrorists in possession of plutonium.

The increased production of plutonium is another inducement to terrorists. A 1,000 megawatt light-water nuclear power reactor generates an estimated 440 pounds of plutonium each year—an appealing target to terrorists.

A third possible target for nuclear terrorists in the United States is a nuclear facility itself. While the construction of nuclear power reactors has slowed in the United States in the past decade, it is likely to grow in the future and with that growth is the increased risk that a terrorist group will seek to damage a nuclear facility in order to precipitate a radiation release.

#### CONFRONTING THE THREAT OF NUCLEAR TERRORISM

Mr. President, some individuals believe that it is essential to eradicate the conditions that spawn terrorism. It is argued that greater attention should be given to the legitimate economic, social, and political grievances of individuals in the United States and throughout the world as a viable means of combating terrorism and thereby reducing the threat of nuclear terrorism.

Undeniably, the injustices of the international system require attention, but to attempt to correct these grievances as the sole means of combating the menace of terrorism and the threat of nuclear terrorism is naive and unrealistic. When a neighborhood is confronted with a rising crime rate, the community does not initiate a study of the reasons for the criminals' behavior, but undertakes a program of increased vigilance and deterrence. The same is true of the nuclear threat to the United States.

As I have discussed, the threat of nuclear terrorism in the United States is real and growing. The American military's protection of the U.S. nuclear arsenal, private enterprise's control of nuclear materials pursuant to the regulations of the Nuclear Regulatory Commission, and the Nuclear Emergency Search Team's ability to trace nuclear terrorist threats all provide considerable security from the threat of nuclear terrorism, yet no safeguard can be considered completely "fail safe."

The United States is not a secure island, but a major force in a highly diverse international system whose members have widely divergent views as to what constitutes acceptable national behavior. As terrorism increases and nuclear knowledge, weapons, and materials spread throughout the world, the United States is increasing-

ly likely to be the site of a nuclear terrorist incident. We must do everything we can to insure that such a catastrophic possibility does not occur.

#### THE REPORT OF THE INTERNATIONAL TASK FORCE ON THE PREVENTION OF NUCLEAR TERRORISM

Mr. President, on June 25, 1986, the Nuclear Control Institute of Washington, DC, issued a report by the International Task Force on the Prevention of Nuclear Terrorism. I believe that this report contains important suggestions on one of the most serious threats confronting the United States today. The report contains numerous recommendations dealing with, among other things, the protection of nuclear weapons, nuclear materials, and nuclear facilities.

Mr. President, today I rise to offer a resolution that states that it is the sense of the Senate that the President should make vigorous efforts to encourage the governments of signatory countries to ratify, accept, or approve the Convention on the Physical Protection of Nuclear Materials. This is identical to the resolution I introduced toward the end of the 99th Congress.

This treaty, although chiefly directed to shipments of peaceful nuclear materials between nations, does define a large range of nuclear terrorist acts and require parties to make them criminal offenses and to provide for the prosecution or extradition of offenders under domestic law. The convention, which applies to "nuclear material used for peaceful purposes while in international transport," was agreed to in 1980 but has not come into force because only 18 of the required 21 States, including the United States, have ratified it. The Convention on the Physical Protection of Nuclear Materials represents an important step toward international cooperation to prevent nuclear terrorism.

Mr. President, I ask unanimous consent that a copy of the treaty be printed in the RECORD.

There being no objection, the treaty was ordered to be printed in the RECORD, as follows:

#### CONVENTION ON THE PHYSICAL PROTECTION OF NUCLEAR MATERIAL

The States Parties to This Convention, Recognizing, the right of all States to develop and apply nuclear energy for peaceful purposes and their legitimate interests in the potential benefits to be derived from the peaceful application of nuclear energy,

Convinced of the need for facilitating international co-operation in the peaceful application of nuclear energy,

Desiring to avert the potential dangers posed by the unlawful taking and use of nuclear material,

Convinced that offenses relating to nuclear material are a matter of grave concern and that there is an urgent need to adopt appropriate and effective measures to ensure the prevention, detection and punishment of such offenses,

Aware of the Need for international co-operation to establish, in conformity with the

national law of each State Party and with this Convention, effective measures for the physical protection of nuclear material,

Convinced that this Convention should facilitate the safe transfer of nuclear material,

Stressing also the importance of the physical protection of nuclear material in domestic use, storage and transport,

Recognizing, the importance of effective physical protection of nuclear material used for military purposes, and understanding that such material is and will continue to be accorded stringent physical protection,

Have Agreed as follows:

#### ARTICLE 1

2. With the exception of articles 3 and 4 and paragraph 3 of article 5, this Convention shall also apply to nuclear material used for peaceful purposes while in domestic use, storage and transport.

3. Apart from the commitments expressly undertaken by States Parties in the articles covered by paragraph 2 with respect to nuclear material used for peaceful purposes while in domestic use, storage and transport, nothing in this Convention shall be interpreted as affecting the sovereign rights of a State regarding the domestic use, storage and transport of such nuclear material.

#### ARTICLE 3

Each State Party shall take appropriate steps within the framework of its national law and consistent with international law to ensure as far as practicable that, during international nuclear transport, nuclear material within its territory, or on board a ship or aircraft under its jurisdiction insofar as such ship or aircraft is engaged in the transport to or from that State, is protected at the levels described in Annex I.

#### ARTICLE 4

1. Each State Party shall not export or authorize the export of nuclear material unless the State Party has received assurances that such material will be protected during the international nuclear transport at the levels described in Annex I.

2. Each State Party shall not import or authorize the import of nuclear material from a State not party to this Convention unless the State Party has received assurances that such material will during the international nuclear transport be protected at the levels described in Annex I.

3. A State Party shall not allow the transit of its territory by land or internal waterways or through its airports or seaports of nuclear material between States that are not parties to this Convention unless the State Party has received assurances as far as practicable that this nuclear material will be protected during international nuclear transport at the levels described in Annex I.

4. Each State Party shall apply within the framework of its national law the levels of physical protection described in Annex I to nuclear material being transported from a part of that State to another part of the same State through international waters or airspace.

5. The State Party responsible for receiving assurances that the nuclear material will be protected at the levels described in Annex I according to paragraphs 1 to 3 shall identify and inform in advance States which the nuclear material is expected to transit by land or internal waterways, or whose airports or seaports it is expected to enter.

6. The responsibility for obtaining assurances referred to in paragraph 1 may be

transferred, by mutual agreement, to the State Party involved in the transport as the importing State.

7. Nothing in this article shall be interpreted as in any way affecting the territorial sovereignty and jurisdiction of a State, including that over its airspace and territorial sea.

#### ARTICLE 5

1. States Parties shall identify and make known to each other directly or through the International Atomic Energy Agency their central authority and point of contact having responsibility for physical protection of nuclear material and for co-ordinating recovery and response operations in the event of any unauthorized removal, use or alteration of nuclear material or in the event of credible threat thereof.

2. In the case of theft, robbery or any other unlawful taking of nuclear material or of credible threat thereof, States Parties shall, in accordance with their national law, provide co-operation and assistance to the maximum feasible extent in the recovery and protection of such material to any State that so requests. In particular:

(a) a State Party shall take appropriate steps to inform as soon as possible other States, which appear to it to be concerned, of any theft, robbery or other unlawful taking of nuclear material or credible threat thereof and to inform, where appropriate, international organizations;

(b) as appropriate, the States Parties concerned shall exchange information with each other or international organizations with a view to protecting threatened nuclear material, verifying the integrity of the shipping container, or recovering unlawfully taken nuclear material and shall:

(i) co-ordinate their efforts through diplomatic and other agreed channels;

(ii) render assistance, if requested;

(iii) ensure the return of nuclear material stolen or missing as a consequence of the above-mentioned events.

The means of implementation of this co-operation shall be determined by the States Parties concerned.

3. States Parties shall co-operate and consult as appropriate, with each other directly or through international organizations, with a view to obtaining guidance on the design, maintenance and improvement of systems of physical protection of nuclear material in international transport.

#### ARTICLE 6

1. States Parties shall take appropriate measures consistent with their national law to protect the confidentiality of any information which they receive in confidence by virtue of the provisions of this Convention from another State Party or through participation in an activity carried out for the implementation of this Convention. If States Parties provide information to international organizations in confidence, steps shall be taken to ensure that the confidentiality of such information is protected.

2. States Parties shall not be required by this Convention to provide any information which they are not permitted to communicate pursuant to national law or which would jeopardize the security of the State concerned or the physical protection of nuclear material.

#### ARTICLE 7

1. The intentional commission of:

(a) an act without lawful authority which constitutes the receipt, possession, use, transfer, alteration, disposal or dispersal of nuclear material and which causes or is

likely to cause death or serious injury to any person or substantial damage to property;

(b) a theft or robbery of nuclear material;

(c) an embezzlement or fraudulent obtaining of nuclear material;

(d) an act constituting a demand for nuclear material by threat or use of force or by any other form of intimidation;

(e) a threat:

(i) to use nuclear material to cause death or serious injury to any person or substantial property damage, or

(ii) to commit an offense described in subparagraph (b) in order to compel a natural or legal person, international organization or State to do or to refrain from doing any act;

(f) an attempt to commit any offense described in paragraphs (a), (b) or (c); and

(g) an act which constitutes participation in any offense described in paragraphs (a) to (f) shall be made a punishable offense by each State Party under its national law.

2. Each State Party shall make the offenses described in this article punishable by appropriate penalties which take into account their grave nature.

#### ARTICLE 8

1. Each State Party shall take such measures as may be necessary to establish its jurisdiction over the offenses set forth in article 7 in the following cases:

(a) when the offense is committed in the territory of that State or on board a ship or aircraft registered in that State;

(b) when the alleged offender is a national of that State.

2. Each State Party shall likewise take such measures as may be necessary to establish its jurisdiction over these offenses in cases where the alleged offender is present in its territory and it does not extradite him pursuant to article 11 to any of the States mentioned in paragraph 1.

3. This Convention does not exclude any criminal jurisdiction exercised in accordance with national law.

4. In addition to the State Parties mentioned in paragraphs 1 and 2, each State Party may, consistent with international law, establish its jurisdiction over the offenses set forth in article 7 when it is involved in international nuclear transport as the exporting or importing State.

#### ARTICLE 9

Upon being satisfied that the circumstances so warrant, the State Party in whose territory the alleged offender is present shall take appropriate measures, including detention, under its national law to ensure his presence for the purpose of prosecution or extradition. Measures taken according to this article shall be notified without delay to the States required to establish jurisdiction pursuant to article 8 and, where appropriate, all other States concerned.

#### ARTICLE 10

The State Party in whose territory the alleged offender is present shall, if it does not extradite him, submit, without exception whatsoever and without undue delay, the case to its competent authorities for the purpose of prosecution, through proceedings in accordance with the laws of that State.

#### ARTICLE 11

1. The offenses in article 7 shall be deemed to be included as extraditable offenses in any extradition treaty existing between States Parties. States Parties undertake to include those offenses as extradita-

ble offenses in every future extradition treaty to be concluded between them.

2. If a State Party which makes extradition conditional on the existence of a treaty receives a request for extradition from another State Party with which it has no extradition treaty, it may at its option consider this Convention as the legal basis for extradition in respect of those offenses. Extradition shall be subject to the other conditions provided by the law of the requested State.

3. States Parties which do not make extradition conditional on the existence of a treaty shall recognize those offenses as extraditable offenses between themselves subject to the conditions provided by the law of the requested State.

4. Each of the offenses shall be treated, for the purpose of extradition between States Parties, as if it had been committed not only in the place in which it occurred but also in the territories of the States Parties required to establish their jurisdiction in accordance with paragraph 1 of article 8.

#### ARTICLE 12

Any person regarding whom proceedings are being carried out in connection with any of the offenses set forth in article 7 shall be guaranteed fair treatment at all stages of the proceedings.

#### ARTICLE 13

1. States Parties shall afford one another the greatest measure of assistance in connection with criminal proceedings brought in respect of the offenses set forth in article 7, including the supply of evidence at their disposal necessary for the proceedings. The law of the State requested shall apply in all cases.

2. The provisions of paragraph 1 shall not affect obligations under any other treaty, bilateral or multilateral, which governs or will govern, in whole or in part, mutual assistance in criminal matters.

#### ARTICLE 14

1. Each State Party shall inform the depositary of its laws and regulations which give effect to this Convention. The depositary shall communicate such information periodically to all States Parties.

2. The State Party where an alleged offender is prosecuted shall, wherever practicable, first communicate the final outcome of the proceedings to the States directly concerned. The State Party shall also communicate the final outcome to the depositary who shall inform all States.

3. Where an offense involves nuclear material used for peaceful purposes in domestic use, storage or transport, and both the alleged offender and the nuclear material remain in the territory of the State Party in which the offense was committed, nothing in this Convention shall be interpreted as requiring that State Party to provide information concerning criminal proceedings arising out of such an offense.

#### ARTICLE 15

The Annexes constitute an integral part of this Convention.

#### ARTICLE 16

1. A conference of States Parties shall be convened by the depositary five years after the entry into force of this Convention to review the implementation of the Convention and its adequacy as concerns the preamble, the whole of the operative part and the annexes in the light of the then prevailing situation.

2. At intervals of not less than five years thereafter, the majority of States Parties may obtain, by submitting a proposal to this effect to the depositary, the convening of further conferences with the same objective.

## ARTICLE 17

1. In the event of a dispute between two or more States Parties concerning the interpretation or application of this Convention, such States Parties shall consult with a view to the settlement of the dispute by negotiation, or by any other peaceful means of settling disputes acceptable to all parties to the dispute.

2. Any dispute of this character which cannot be settled in the manner prescribed in paragraph 1 shall, at the request of any party to such dispute, be submitted to arbitration or referred to the International Court of Justice for decision. Where a dispute is submitted to arbitration, if, within six months from the date of the request, the parties to the dispute are unable to agree on the organization of the arbitration, a party may request the President of the International Court of Justice or the Secretary-General of the United Nations to appoint one or more arbitrators. In case of conflicting requests by the parties to the dispute, the request to the Secretary-General of the United Nations shall have priority.

3. Each State Party may at the time of signature, ratification, acceptance or approval of this Convention or accession thereto declare that it does not consider itself bound by either or both of the dispute settlement procedures provided for in paragraph 2. The other States Parties shall not be bound by a dispute settlement procedure provided for in paragraph 2, with respect to a State Party which had made a reservation to that procedure.

4. Any State Party which has made a reservation in accordance with paragraph 3 may at any time withdraw that reservation by notification to the depositary.

## ARTICLE 18

1. This Convention shall be open for signature by all States at the Headquarters of the International Atomic Energy Agency in Vienna and at the Headquarters of the United Nations in New York from 3 March 1980 until its entry into force.

2. This Convention is subject to ratification, acceptance or approval by the signatory States.

3. After its entry into force, this Convention will be open for accession by all States.

4. (a) This Convention shall be open for signature or accession by international organizations and regional organizations of an integration or other nature, provided that any such organization is constituted by sovereign States and has competence in respect of the negotiation, conclusion and application of international agreements in matters covered by this Convention.

(b) In matters within their competence, such organizations shall, on their own behalf, exercise the rights and fulfill the responsibilities which this Convention attributes to States Parties.

(c) When becoming party to this Convention such an organization shall communicate to the depositary a declaration indicating which States are members thereof and which articles of this Convention do not apply to it.

(d) Such an organization shall not hold any vote additional to those of its Member States.

5. Instruments of ratification, acceptance, approval or accession shall be deposited with the depositary.

## ARTICLE 19

1. This Convention shall enter into force on the thirtieth day following the date of deposit of the twenty first instrument of ratification, acceptance or approval with the depositary.

2. For each State ratifying, accepting, approving or acceding to the Convention after the date of deposit of the twenty first instrument of ratification, acceptance or approval, the Convention shall enter into force on the thirtieth day after the deposit by such State of its instrument of ratification, acceptance, approval or accession.

## ARTICLE 20

1. Without prejudice to article 16 a State Party may propose amendments to this Convention. The proposed amendment shall be submitted to the depositary who shall circulate it immediately to all States Parties. If a majority of States Parties request the depositary to convene a conference to consider the proposed amendments, the depositary shall invite all States Parties to attend such a conference to begin not sooner than thirty days after the invitations are issued. Any amendment adopted at the conference by a two-thirds majority of all States Parties shall be promptly circulated by the depositary to all States Parties.

2. The amendments shall enter into force for each State Party that deposits its instrument of ratification, acceptance or approval of the amendment on the thirtieth day after the date on which two thirds of the States Parties have deposited their instruments of ratification, acceptance or approval with the depositary. Thereafter, the amendment shall enter into force for any other State Party on the day on which that State Party deposits its instrument of ratification, acceptance or approval of the amendment.

## ARTICLE 21

1. Any State Party may denounce this Convention by written notification to the depositary.

2. Denunciation shall take effect one hundred and eighty days following the date on which notification is received by the depositary.

## ARTICLE 22

The depositary shall promptly notify all States of:

- (a) each signature of this Convention;
- (b) each deposit of an instrument of ratification, acceptance, approval or accession;
- (c) any reservation or withdrawal in accordance with article 17;
- (d) any communication made by an organization in accordance with paragraph 4(c) of article 18;
- (e) the entry into force of this Convention;
- (f) the entry into force of any amendment to this Convention; and
- (g) any denunciation made under article 21.

## ARTICLE 23

The original of this Convention, of which the Arabic, Chinese, English, French, Russian and Spanish texts are equally authentic, shall be deposited with the Director General of the International Atomic Energy Agency who shall send certified copies thereof to all States.

## ANNEX I

## LEVELS OF PHYSICAL PROTECTION TO BE APPLIED IN INTERNATIONAL TRANSPORT OF NUCLEAR MATERIAL AS CATEGORIZED IN ANNEX II

1. Levels of physical protection for nuclear material during storage incidental to international nuclear transport include:

(a) For Category III materials, storage within an area to which access is controlled;

(b) For Category II materials, storage within an area under constant surveillance by guards or electronic devices, surrounded by a physical barrier with a limited number of points of entry under appropriate control or any area with an equivalent level of physical protection;

(c) For Category I material, storage within a protected area as defined for Category II above, to which, in addition, access is restricted to persons whose trustworthiness has been determined, and which is under surveillance by guards who are in close communication with appropriate response forces. Specific measures taken in this context should have as their object the detection and prevention of any assault, unauthorized access or unauthorized removal of material.

2. Levels of physical protection for nuclear material during international transport include:

(a) For Category II and III materials, transportation shall take place under special precautions including prior arrangements among sender, receiver, and carrier, and prior agreement between natural or legal persons subject to the jurisdiction and regulation of exporting and importing States, specifying time, place and procedures for transferring transport responsibility;

(b) For Category I materials, transportation shall take place under special precautions identified above for transportation of Category II and III materials, and in addition, under constant surveillance by escorts and under conditions which assure close communication with appropriate response forces;

(c) For natural uranium other than in the form of ore or ore-residue, transportation protection for quantities exceeding 500 kilograms U shall include advance notification of shipment specifying mode of transport, expected time of arrival and confirmation of receipt of shipment.

IN WITNESS WHEREOF, the undersigned, being duly authorized, have signed this Convention, opened for signature at Vienna and at New York on 3 March 1980.

## SENATE RESOLUTION 38—ESTABLISHING A SPECIAL COMMITTEE ON FAMILIES, YOUTH, AND CHILDREN

Mr. MOYNIHAN submitted the following resolution; which was referred to the Committee on Rules and Administration.

## S. RES. 38

Whereas the family is the fundamental social unit and family formation and the successful rearing of youth and children may be more difficult than ever before in our nation's history;

Whereas the weakening of the traditional family unit constitutes a sensitive and complex social problem involving intense unhappiness of men, women, and children;

Whereas family instability and deteriorating family relationships are destructive of the physical and mental health and economic well-being, especially of youth and children, but also of many other members of unstable or broken families;

Whereas family instability is substantially associated with the impoverishment of children and increasing rates of teenage alcohol and drug abuse, adolescent pregnancy, teen-age suicide, and juvenile delinquency;

Whereas more than one-fifth of the children in the United States today live in poverty as measured by the Census Bureau;

Whereas the poverty rate for children particularly young children under age 6, is far higher than that for any other age group;

Whereas one-third of all children now being born in the United States may expect to be on public assistance before reaching age eighteen;

Whereas the generation long trend toward increasing child dependency on public assistance, child abandonment, child abuse, and child exploitation is to be resisted and reversed;

Whereas it is essential to address the nation's alarming rate of family disintegration and raise the public and governmental levels of understanding of the problems of families, youth, and children;

Whereas it is imperative that government and private policies strengthen families and foster responsibility by addressing the causes of family disintegration, and assisting and encouraging preventive measures;

Whereas commencing with the establishment of the Children's Bureau of 1912, the executive branch has maintained a continuous if not always vigorous concern for the welfare of families, youth, and children;

Whereas policies affecting families, youth, and children are considered and acted upon by several different standing committees; and

Whereas it is necessary to enhance the Senate's ability to conduct comprehensive oversight of Government and congressional activities affecting families, youth, and children: Now, therefore, be it

*Resolved*, That (a)(1) there is established a special committee of the Senate to be known as the Special Committee on Families, Youth, and Children (hereafter in this resolution referred to as the "special committee"). The special committee shall be composed of eleven members appointed by the President pro tempore from the recommendations of the Minority Leader and the Majority Leader. Six members shall be appointed from the majority party and five members shall be appointed from the minority party.

(2) The President pro tempore shall designate a member of the special committee recommended by the Majority Leader to serve as chairman.

(b)(1) A majority of the members of the special committee shall constitute a quorum for the transaction of business, except that the special committee may fix a lesser number as a quorum for the purpose of taking testimony.

(2) Vacancies in the membership of the special committee shall not affect the authority of the remaining members to execute the functions of the committee, and shall be filled in the same manner as original appointments are made.

(3) The special committee shall adopt rules of procedure not inconsistent with the rules of the Senate governing standing committees of the Senate.

(c) The chairman may establish such subcommittees of the special committee as he considers appropriate, but each such subcommittee shall be composed of not less than four members.

SEC. 2. (a) It shall be the duty of the special committee to—

(1) make a full and complete study of the impact of government policies on families, children and adolescents, including the problems of health, income maintenance, welfare, education, employment, care of dependents of all ages, nutrition, adoption, foster care, and other concerns of children, adolescents, and families generally; and

(2) study the use of practicable means of encouraging the development of public and private programs and policies which will assist families, youth, or children.

(b) The special committee shall submit an annual report, and such other reports as the special committee considers necessary, to the Senate on the results of any investigation and review conducted under subsection (a).

(c) No proposed legislation shall be referred to the special committee, and such committee shall not have the power to report by bill or otherwise have any legislative jurisdiction.

SEC. 3. (a) For the purposes of this resolution, the special committee is authorized to—

(1) make expenditures from the contingent fund of the Senate;

(2) employ personnel;

(3) hold hearings;

(4) sit and act at any time or place during the sessions, recesses, and adjourned periods of the Senate;

(5) require, by subpoena or otherwise, the attendance of witnesses and the production of correspondence, books, papers, and documents;

(6) take depositions and other testimony;

(7) procure the services of individual consultants or organizations thereof, in accordance with the provisions of section 202(i) of the Legislative Reorganization Act of 1946; and

(8) with the prior consent of the department or agency of the Federal Government concerned and the Committee on Rules and Administration, use on a reimbursable basis the services of personnel of any such department or agency.

(b) With the consent of the chairman of any other committee of the Senate, the special committee may utilize the facilities and the services of the staff of such other committee of the Senate, or any subcommittee thereof, whenever the chairman of the special committee determines that such action is necessary and appropriate.

(c) The chairman of the special committee or any member thereof may administer oaths to witnesses.

(d) Subpoenas authorized by the special committee may be issued over the signature of the chairman or any member of the special committee designated by the chairman, and may be served by any person designated by the member signing the subpoena.

SEC. 4. Expenses of the special committee under this resolution shall be paid from the contingent fund of the Senate upon vouchers approved by the chairman of the special committee, except that vouchers shall not be required for the disbursement of salaries of employees paid an annual rate.

SEC. 5. The committee list of paragraph (3)(c) of rule XXV of the Standing Rules of the Senate is amended by inserting at the end thereof the following:

"Special Committee on Families, Youth, and Children..... 11."

Mr. MOYNIHAN. Mr. President, there is no matter more important to the Nation's future than the condition of its families and the prospects for its youth. This is a simple proposition, and I dare say one with which all of my colleagues would agree.

By a variety of indices, the condition of our families—and more particularly, the prospects for our children—appear increasingly threatened. If we are in agreement upon the importance of such matters, we may agree that they warrant the attention of the Members of this Chamber.

Thus, on this first day of the 100th Congress, I rise to introduce legislation establishing by a Special Committee on Families, Youth, and Children, a committee whose mandate will be to study the issues relating to families and to encourage public and private programs and policies to assist them.

Nearly 20 years ago, in an introduction to a paperback edition of Alva Myrdal's "Nation and Family," I wrote:

In the nature of modern industrial society no government, however firm might be its wish, can avoid having policies that profoundly influence family relationships. This is not to be avoided. The only option is whether these will be purposeful, intended policies or whether they will be residual, derivative in a sense, concealed ones.

This proposition was clear then as now.

The Senate needs an official focal point for these important matters. Family concerns are no one's concern at present. Our distinguished and recently retired colleague, Senator Mathias, referred eloquently to this need:

Just about every social, economic and ideological unit in the country has a lobby and a respondent government policy—except our most basic unit, the family.

An example or two illustrates the problem. Last February 5, Budget Director James C. Miller III, a trained economist and a meticulous scholar, appeared before the Senate Budget Committee to present the President's budget for fiscal year 1987. The first fact his testimony called attention to was that "... family income is at an all-time high."

Yet, in fact, Dr. Miller had it wrong. Personal income had risen, and various other indices also, but family income had not. Indeed, median family income peaked in 1973; by 1985, it was a mere \$399 more than it had been in 1970. Over a 15-year stretch, median family income has remained flat.

Never in our history has there been such a long period with no improvement in family income. In postwar America, we never went 3 years without reaching a new record. That is, until 1973. As astonishing as this trend is, apparently no one at OMB knew or

cared enough to notice the Director's mistake.

An isolated example? I would have hoped so. But some months later, Dr. Janet Norwood, our distinguished Commissioner of Labor Statistics, testified before the Finance Committee. I asked her what we were to make of the fact that family income has been flat for the last 15 years.

Dr. Norwood replied that there were all manner of problems with the statistics, that it might very well be the result of smaller households and more older people, whose lower average incomes tend to pull down the overall trend, and so on.

This response was baffling. Again, in fact, per capita income increased slowly, in real terms, between 1973 and 1984. At the same time, however, mean family income decreased over the same time period and, most noteworthy, families with children fared worst: Between 1973 and 1984, mean real income for all families declined by 8.3 percent—from \$32,206 in 1973 to \$29,527 in 1984. About 3 percent of that decline came in the 6 years between 1973 and 1979, with the bulk of the decline, over 5 percent, coming in the 5 years from 1979 to 1984.

If some of our most distinguished and competent public officials are unaware of these trends in family well-being, then who is paying attention? At one time, the Government paid closer attention to these matters.

President Theodore Roosevelt created one of the first official forums expressly to explore the problems of children in 1909, when he assembled a special White House Conference on the Care of Dependent Children. Three years later, the Federal Government acting on the recommendation of that conference, established the Children's Bureau in the Department of the Interior. The Bureau was given the charge to "report upon all matters pertaining to the welfare of children and child life," which in those early days included:

The questions of infant mortality, the birth rate, physical degeneracy, orphanage, juvenile delinquency and juvenile courts, desertion and illegitimacy, dangerous occupations, accidents and diseases of children of the working classes, employment . . . and such other facts as have a bearing upon the health, efficiency, character, and training of children.

Real progress has been achieved in addressing many of these problems over the past 75 years, but many of them—particularly those related to poverty and family disintegration—have actually intensified.

It is chilling to note that over 20 percent of our Nation's children, some 12.8 million, now live below the poverty line. And a number of reliable sources estimate that fully one-third of all American children born in 1980 are likely to be on welfare [AFDC] at some point before reaching age 18.

In contrast—and perhaps owing to the early work of the Senate Special Committee on Aging—poverty among elderly Americans has been vastly reduced. Unhappily, children have taken their place as the poorest age group in our society. Taking into account the value of noncash benefits, elderly poverty in 1984 was about 2.6 percent, compared to 17.5 percent for children under age 6. The startling conclusion: Poverty among the very young in America was seven times greater than that for the old.

Year-to-year increases in the poverty rates of children have been linked to a range of economic factors, including the rapid inflation of 1979-80 and the serious recessions of 1980 and 1981-82. But over the last two decades, rising poverty among children has been principally associated with one particular change in family structure: the rise in female-headed households. In his 1984 Presidential address to the Population Association of America, University of Pennsylvania Prof. Samuel H. Preston spoke of "the earthquake that shuddered through the American family in the past 20 years."

In 1984, for the first time, there were more female-headed families—3.5 million—than married-couple families in poverty. The pattern persisted in 1985, the most recent year for which such data exist. Indeed, the poverty rate for female-headed families is five times as high as that for married-couple families. This dramatic fact has devastating consequences for children: More than half—54 percent—of all children living in female-headed families are poor; two-thirds of black children in female-headed families are poor and three-fourths of children of Spanish-origin in such families are poor. The relationship between poverty and the rise in female-headed homes is such that the Congressional Research Service estimates that if the proportion of children in female-headed households had not increased over the past 25 years, there could have been 3 million fewer children in poverty in 1983.

There is plentiful evidence of the ominous trend in the American family structure. For example, a Census Bureau report released last summer indicates that single-parent families with children now account for more than one-quarter of all family groups, almost double the 1970 proportion of 13 percent. Arthur Norton and Paul Glick forecast that 60 percent of all children born today can expect to live in a one-parent family before reaching age 18. In a 1984 study prepared for the Department of Health and Human Services, Mary Jo Bane and David Ellwood estimate that by 1994, 87 percent of all black youth and 46 percent of all white youth under age 18 will have spent some part of their childhoods in a single-parent family.

Mr. President, I do not claim that a Special Committee on Families, Youth, and Children will solve these problems, but it will help us to better understand them.

In the Senate, responsibility for the legislative issues pertaining to American families and children has long been splintered among numerous different standing committees and subcommittees—by some counts as many as 10 standing Senate committees are involved in one way or another.

Mr. President, I joined Senator Denton last year in offering the legislation of which I speak today. On July 23, 1986 the Committee on Rules and Administration held a lengthy hearing on the resolution, to which we invited scholars, statisticians and family and child care providers. Their testimony provided a code of sorts to an array of issues surrounding American families and our youth. Each witness came forth with facts new to members of the committee, the most notable of which bear repeating.

Dr. Preston, highly regarded demographer at the University of Pennsylvania, described to the committee a demographic trend which most certainly deserves our attention:

We are bearing, on average, only half as many children per woman as we were 30 years ago. The fertility rate has been below the replacement level for 14 straight years now and has been stuck at a level of 1.8 children per woman for a decade. At this level we either begin declining in population size or accept more immigrants.

The distinguished Urie Bronfenbrenner of Cornell also appeared before the committee to plead the case for attention to the subject of family. Our divorce rate is the highest in the world: 1½ times that of our nearest competitor, the U.S.S.R. Our rate of teenage pregnancy is not only the highest in the world, but "in contrast to every other modern nation, is now no longer being reduced." His testimony, stocked with fascinating and little known bits of data in which the Senate most assuredly should take an interest, left off:

Mr. Chairman, many persons today no longer read, and hence cannot recall those prophetic words from the Book on which our civilization is based; I quote from Exodus 21:5: "The sins of the fathers shall be visited upon the children even unto the third and fourth generation."

Each witness, some representing his own views and others speaking on behalf of large membership organizations, stressed one overarching theme: The Senate must begin to more carefully evaluate the effects of legislative policy on American families; and it should establish a committee mandated specifically to do so.

The idea to create a special committee is not new to the Congress. A similar committee has been operating, most effectively, in the House for 4

years now, providing that body and its Members with valuable research and analysis of all matters pertaining to American families and children.

Like the House committee, the Senate special committee which I propose would have no legislative jurisdiction. It would function as an oversight committee, studying and evaluating the entire range of problems and Government policies that affect families and children.

It is time that the U.S. Senate—whose individual Members are deeply concerned with the problems facing American families and children today—make an institutional commitment to the study of these issues and to an examination of possible remedies.

In the rush of business at the end of the 99th Congress, the Rules Committee failed to report the resolution to the full Senate. In offering it again today, I am confident the initiative will enjoy the broad bipartisan support it had last year and will receive favorable action by the full Senate early in the 100th Congress.

#### SENATE RESOLUTION 39—ESTABLISHING A SPECIAL COMMITTEE ON YOUNG AMERICANS AND FAMILIES

Mr. DODD (for himself and Mr. SPECTER) submitted the following resolution; which was referred to the Committee on Rules and Administration:

##### S. RES. 39

Whereas children now constitute the poorest age-group in this country, with one out of every four children under the age of six and more than one out of every five children under the age of eighteen living in poverty;

Whereas childhood poverty results in a greater risk of abuse and neglect, injury, malnourishment, poor health, and even death;

Whereas poor children who survive face a greater risk of dropping out of school, becoming teen parents, and remaining economically disadvantaged;

Whereas the greatest risk to health, safety, and well-being of some 14,000,000 children nationwide is poverty;

Whereas a significant number of children and adolescents living in families with incomes above the poverty line are also at risk of being left during the day or after school without adult supervision, becoming the victims of abuse and neglect, experiencing health and mental health problems, running away from home, dropping out of school, abusing drugs and alcohol, attempting suicide, committing juvenile offenses, parenting children themselves, and ending up unemployed.

Whereas the future development and security of this nation depends upon the one out of every three Americans who is a child under the age of eighteen;

Whereas Federal policies have not kept pace with the economic, demographic, and social changes affecting the families in which close to 64,000,000 American children live;

Whereas one of the biggest changes since 1970 has been the movement of women into the workforce out of economic necessity, such that two out of every three women working outside of the home now provide the sole support or critical economic support for their families;

Whereas more than 24,000,000 children under the age of 13 now live in families where the mothers work outside of the home and close to half of all mothers with infants under the age of one are in the workforce;

Whereas given such numbers are expected to continue to rise, policies are needed to integrate work and family life and to address both the skyrocketing demand for quality, affordable childcare and for parental leave which enables parents to incorporate infants and adopted children into their families;

Whereas any Federal focus on the special needs of children and youth must recognize families as an irreplaceable part of the solution and priority must be given to cost-effective, preventive strategies aimed at providing and improving public and private supports;

Whereas addressing the needs of American children also entails giving priority to those who have no parents because of death or disease, who must be removed from their families because of abuse or neglect, who are rejected by their families because of economic, physical or emotional handicaps and those without families who are eligible for adoption;

Whereas policies affecting children and their families are under the jurisdiction of several, different standing committees in the Senate; and

Whereas it is essential to improve the Senate's ability to conduct comprehensive oversight of Federal, State, and local government and congressional activities affecting young Americans and families: Now, therefore, be it

##### Resolved.

#### SECTION 1. ESTABLISHMENT OF THE SPECIAL COMMITTEE.

(a)(1) There is established a special committee of the Senate to be known as the Special Committee on Young Americans and Families (hereafter in this resolution referred to as the "special committee"). The special committee shall be composed of eleven members appointed by the President pro tempore from the recommendations of the Majority Leader and the Minority Leader. Six members shall be appointed from the majority party and five members shall be appointed from the minority party.

(2) The President pro tempore shall designate a member of the special committee recommended by the Majority Leader to serve as chairman.

(b)(1) A majority of the members of the special committee shall constitute a quorum for the transaction of business, except that the special committee may fix a lesser number as a quorum for the purpose of taking testimony.

(2) Vacancies in the membership of the special committee shall not affect the authority of the remaining members to execute the functions of the committee, and shall be filled in the same manner as original appointments are made.

(3) The special committee shall adopt rules of procedure not inconsistent with the rules of the Senate governing standing committees of the Senate.

(c) The chairman may establish such subcommittees of the special committee as he

considers appropriate, but each such subcommittee shall be composed of not less than four members.

#### SEC. 2. DUTIES OF THE SPECIAL COMMITTEE.

(a) It shall be the duty of the special committee to make a full and complete study of—

(1) the impact of government policies on families, children, and adolescents and families, including—

(A) the problems of childhood poverty, child care, child abuse and neglect, health and mental health, disabling conditions, education, employment, and child welfare services;

(B) the special needs of minority children; and

(C) other concerns related to the well-being and future well-being of young Americans and families.

(2) the use of practicable means of encouraging the development of public and private policies and programs assisting children, youth or families.

(b) The special committee shall submit an annual report, and such other reports as the special committee considers necessary, to the Senate on the results of any investigation and review conducted under subsection (a).

(c) No proposed legislation shall be referred to the special committee, and such committee shall not have the power to report by bill or otherwise have any legislative jurisdiction.

#### SEC. 3. POWERS OF SPECIAL COMMITTEE

(a) For the purposes of this resolution, the special committee is authorized to—

(1) make expenditures from the contingent fund of the Senate;

(2) employ personnel;

(3) hold hearings;

(4) sit and act at any time or place during the sessions, recesses, and adjourned periods of the Senate;

(5) require, by subpoena or otherwise, the attendance of witnesses and the production of correspondence, books, papers, and documents;

(6) take depositions and other testimony;

(7) procure the services of individual consultants or organizations thereof, in accordance with the provisions of section 202(i) of the Legislative Reorganization Act of 1946; and

(8) with the prior consent of the department or agency of the Federal Government concerned and the Committee on Rules and Administration, use on a reimbursable basis the services of personnel of any such department or agency.

(b) With the consent of the chairman of any other committee of the Senate, the special committee may utilize the facilities and the services of the staff of such other committee of the Senate, or any subcommittee thereof, whenever the chairman of the special committee determines that such action is necessary and appropriate.

(c) The chairman of the special committee or any member thereof may administer oaths to witnesses.

(d) Subpoenas authorized by the special committee may be issued over the signature of the chairman or any member of the special committee designated by the chairman, and may be served by any person designated by the member signing the subpoena.

#### SEC. 4. EXPENSES OF SPECIAL COMMITTEE

Expenses of the special committee under this resolution shall be paid from the contingent fund of the Senate upon vouchers approved by the chairman of the special

committee, except that vouchers shall not be required for the disbursement of salaries of employees paid an annual rate.

**SEC. 5. AMENDMENT TO THE STANDING RULES OF THE SENATE**

The committee list of paragraph (3)(c) of rule XXV of the Standing Rules of the Senate is amended by inserting at the end thereof the following:

"Special Committee on Families, Youth, and Children

**SENATE RESOLUTION 39—ESTABLISHING A SPECIAL COMMITTEE ON YOUNG AMERICANS AND FAMILIES**

Mr. DODD (for himself and Mr. SPECTER) submitted the following resolution; which was considered and agreed to:

**S. RES. 39**

Mr. DODD. The future development and security of this Nation depends upon the 64 million Americans who are children under the age of 18. I am therefore introducing today a resolution to establish a Special Committee on Young Americans and Families within the Senate. I am pleased to have Senator SPECTER join me in sponsoring this legislation.

The need for a comprehensive review of congressional activities and Federal, State, and local government policies and programs relating to the 1 out of every 3 Americans who is a child was developed during the past two sessions of Congress by the Senate children's caucus. Cochaired by Senator SPECTER and myself, this bipartisan caucus of 34 Members held hearings on a wide range of issues affecting children and families, including the first comprehensive hearings on latch-key children, childhood injuries, and child sexual abuse. In addition, the caucus held hearings during the 98th and 99th sessions of Congress on gifted and talented children, high school dropouts, teenage parenthood, children in poverty, child welfare services, and children at risk. As a direct result of many of these hearings, Members went back to their authorizing and appropriating committees and passed important legislation, from child care initiatives to new measures to prevent and treat child abuse.

In short, the record established by the Senate children's caucus highlights the value of conducting comprehensive oversight of Federal, State, and local government and congressional activities affecting the children and families who will determine the future of this Nation. Such oversight should include coordinated studies of the problems of childhood poverty, child care, child abuse and neglect, health and mental health, disabling conditions, education, employment, child welfare services, the special needs of minority children, and other concerns related to the well-being of children and families. I therefore urge my col-

leagues to join me in sponsoring this legislation to establish a Special Committee on Youth Americans and Families to carry out such oversight.

I ask unanimous consent that the text of this legislation be printed in the RECORD in its entirety.

**SENATE RESOLUTION 40—TO PROVIDE FOR ELECTRONIC VOTING IN THE SENATE**

Mr. BYRD submitted the following resolution; which was referred to the Committee on Rules and Administration

**S. RES. 40**

*Resolved*, That Rule XII of the Standing Rules of the Senate is amended—

(1) by striking the first clause of paragraph 1 and inserting in lieu thereof the following: "Except as provided in paragraph 5 of this rule, when the yeas and nays are ordered,"

(2) by adding at the end thereof the following new paragraphs:

"5. Whenever the Majority Leader, with concurrence of the Minority Leader, shall determine, the names of Senators voting upon any roll call shall be recorded by electronic device. Senators shall have not more than fifteen minutes from the beginning of the roll call to have their vote recorded.

"6. The Majority Leader, with concurrence of the Minority Leader, may announce that any recorded vote that is scheduled to or does occur immediately after another recorded vote shall be no longer than five minutes in duration."

**SENATE RESOLUTION 41—TO PROVIDE FOR GERMANENESS OR RELEVANCY OF AMENDMENTS**

Mr. BYRD submitted the following resolution; which was referred to the Committee on Rules and Administration.

**S. RES. 41**

*Resolved*, That Rule XV of the Standing Rules of the Senate is amended—

(1) by inserting after "motions" in the caption a semicolon and the following: "germaneness";

(2) by adding at the end thereof the following new paragraph:

"6. (a) At any time during the consideration of a bill or resolution, it shall twice be in order during a calendar day to move that no amendment, other than the reported committee amendments, which is not germane or relevant to the subject matter of the bill or resolution or to the subject matter of an amendment proposed by the committee which reported the bill or resolution, shall thereafter be in order. The motion shall be privileged and shall be decided after one hour of debate, without any intervening action, to be equally divided and controlled by the Majority Leader and the Minority Leader or their designees.

"(b) If a motion made under subparagraph (a) is agreed to by an affirmative vote of three-fifths of the Senators present and voting, then any floor amendment not already agreed to (except amendments proposed by the Committee which reported the bill or resolution) which is not germane or relevant to the subject matter of the bill or

resolution, or the subject matter of an amendment proposed by the Committee which reported the bill or resolution, shall not be in order.

"(c) When a motion made under subparagraph (a) has been agreed to as provided in subparagraph (b) with respect to a bill or resolution, points of order with respect to questions of germaneness or relevancy of amendments shall be decided without debate, except that the Presiding Officer may entertain debate for his own guidance prior to ruling on the point of order. Appeals from the decision of the Presiding Officer on such points of order shall be decided without debate.

"(d) Whenever an appeal is taken from a decision of the Presiding Officer on the question of germaneness of an amendment, or whenever the Presiding Officer submits the question of germaneness or relevancy of an amendment to the Senate, the vote necessary to overturn the decision of the Presiding Officer or hold the amendment germane or relevant shall be three-fifths of the Senators present and voting. No amendment proposing sense of the Senate or sense of the Congress language that does not directly relate to the measure or matter before the Senate shall be considered germane."

**SENATE RESOLUTION 42—TO LIMIT LEGISLATIVE AMENDMENTS TO GENERAL APPROPRIATIONS BILLS**

Mr. BYRD submitted the following resolution; which was referred to the Committee on Rules and Administration:

**S. RES. 42**

*Resolved*, That Rule XVI, paragraph 4, of the Standing Rules of the Senate is amended—

(1) by inserting "(a)" after "4"; and

(2) by adding at the end of such paragraph the following new subparagraph:

"(b) If a point of order is made by any Senator against an amendment to a general appropriations bill on the ground that such amendment proposes general legislation or proposes a limitation or restriction not authorized by law and is to take effect or cease to be effective upon the happening of a contingency, it shall not be in order to raise the defense of germaneness unless there is House legislative language to which that amendment could be germane remaining in the bill.

**SENATE RESOLUTION 43—TO ESTABLISH A PROCEDURE IN ORDER TO OVERTURN THE CHAIR ON QUESTIONS OF GERMANENESS UNDER CLOTURE**

Mr. BYRD submitted the following resolution; which was referred to the Committee on Rules and Administration:

**S. RES. 43**

*Resolved*, That the third paragraph of paragraph 2 of Rule XXII of the Standing Rules of the Senate is amended by adding the following new sentence:

"Whenever an appeal is taken under this rule from a decision of the Presiding Officer on the question of germaneness of an amendment, the vote necessary to overturn the decision of the Presiding Officer shall

be three-fifths of the Senators duly chosen and sworn—except on a measure or motion to amend the Senate rules, in which case the necessary vote shall be two-thirds of the Senators present and voting.”.

**SENATE RESOLUTION 44—TO PROVIDE THAT SUBSTITUTE AMENDMENTS BE CONSIDERED AS FIRST DEGREE AMENDMENTS UNDER CLOTURE**

Mr. BYRD submitted the following resolution; which was referred to the Committee on Rules and Administration:

S. RES. 44

*Resolved*, That the third paragraph of paragraph 2 of Rule XXII of the Standing Rules of the Senate is amended by inserting the following immediately after the words “first degree” in the second sentence—, which under cloture an amendment in the nature of a substitute shall be considered as an amendment in the first degree”.

**SENATE RESOLUTION 45—TO WAIVE READING OF AMENDMENTS UNDER CLOTURE**

Mr. BYRD submitted the following resolution; which was referred to the Committee on Rules and Administration:

S. RES. 45

*Resolved*, That rule XXII of the Standing Rules of the Senate is amended by striking the last sentence of paragraph 2 and inserting in lieu thereof the following:

“After cloture is invoked, the reading of any amendment, including House amendments, shall be dispensed with.”.

**SENATE RESOLUTION 46—EXPRESSING THE SENSE OF THE SENATE REGARDING TAX RATES**

Mr. DOLE (for himself, Mr. WALLOP, Mr. GRASSLEY, Mr. QUAYLE, Mr. ROTH, Mr. DURENBERGER, Mr. KASTEN, Mr. SYMMS, Mr. RUDMAN, Mr. HATCH, Mr. TRIBLE, Mr. BOND, Mr. GRAMM, Mr. HECHT, Mr. ARMSTRONG, Mr. WILSON, Mr. STEVENS, Mr. D'AMATO, Mr. THURMOND, Mr. SIMPSON, Mr. NICKLES, Mr. COCHRAN, Mr. DOMENICI, and Mrs. KASSEBAUM) submitted the following resolution; which was referred to the Committee on Finance:

S. RES. 46

Whereas, the Tax Reform Act of 1986 was enacted only after nearly two years of Congressional study and deliberation, and

Whereas, the most fundamental principle of tax reform has been the reduction or elimination of special tax benefits in order to reduce tax rates for all taxpayers, and

Whereas, taxpayers have a right to expect Congress to hold to its promise to reduce tax rates in return for elimination of special tax benefits, rather than to use tax reform as a disguised effort to raise taxes: Now, therefore, be it

*Resolved*, That it is the sense of the Senate that the income tax rates provided in the Tax Reform Act of 1986 should not be raised or delayed.

Mr. DOLE, Mr. President, today I am introducing a resolution expressing the sense of the Senate that the tax rates reduced by the Tax Reform Act of 1986 should not be increased, or delayed.

It seems a little strange that a resolution of this nature should be necessary. The Senate twice voted overwhelmingly in favor of the Tax Reform Act. And the House agreed to the conference report by a lopsided margin, as well. However, the suggestions keep on coming that we can solve the deficit problem, or somehow make the Tax Code more fair, by raising rates.

Mr. President, I am confident that those suggestions do not represent the view of the Senate; and this resolution will give us an opportunity to express what our position really is.

This resolution is not just a political document. It is an effective way to let the American people know that the policy concerns which drove the tax reform legislation still are the policy of the new Senate.

**RATE REDUCTION WAS FUNDAMENTAL TO THE TAX REFORM ACT**

The fundamental concept behind the Tax Reform Act is that special tax breaks for some taxpayers should be sacrificed in order that all taxpayers could benefit from lower rates. This concept was central to tax reform right from the beginning. It was included in the original Treasury Department report to the President. It was the major feature of both the President's proposal and the House tax reform bill.

But the importance of rate reduction was dramatized best in the Senate. At one point, many people thought tax reform was dead in the Senate. It may well have been if the Finance Committee had not reported out a bill with tax rates which were even lower than those proposed by the President. That rate structure passed the Senate by a vote of 97 to 3. Without those rates, I believe tax reform would have been in serious jeopardy.

Evidence for this point of view is found in the Senate vote on the conference report. The rates in the conference report were one point higher than those contained in the Senate bill. Yet the Senate agreed to the conference report by a vote of 74 to 23. This was still an impressive, bipartisan endorsement, but it was a major change, considering the one-point difference in the rates.

**TAXPAYERS CONSIDER RATE REDUCTION AN ESSENTIAL PART OF TAX REFORM**

In many people's minds, this trade-off of base-broadening for lower rates is tax reform. Nobody wanted to give up a tax break he or she was using to reduce tax liability. As we all know, the discussion about what tax breaks should be curtailed occupied most of the debate in both Houses. But most

taxpayers, and most of us, thought it would be real reform if we were able to reduce rates dramatically in return for repealing or limiting special tax breaks.

**THE SENATE'S PROMISE**

However, with the talk of raising rates, it is not surprising that taxpayers might be a little cynical. I remember some of the letters I received from constituents who feared that Congress would quickly raise rates soon after tax reform was signed into law. I told those who asked me that I supported a revenue neutral tax reform bill. I am sure that many of my colleagues told their constituents the same thing. It would be a breach of faith if we reneged on our promises that tax reform would be revenue neutral just by doing it in two steps. We would not deserve the trust of the American taxpayer if we ignored last year's promises when the first opportunity arose.

Mr. President, I urge my colleagues to join in this resolution and give the Americans assurance that we will not raise tax rates just as they begin to be phased in this year.

**SENATE RESOLUTION 47—REGARDING S. 262**

Mr. FORD submitted the following resolution; which was referred to the Committee on the Judiciary.

S. RES. 47

*Resolved*, That the bill (S. 262) entitled for the relief of the grantors of certain lands in Henderson, Union, and Webster Counties, Kentucky, to the United States and their heirs now pending in the Senate, together with all accompanying papers, is referred to the Chief Commissioner of the United States Court of Claims. The Chief Commissioner of Sections 1492 and 2509 of title 28, United States Code, and report back to the Senate, at the earliest practicable date, giving such findings of fact and conclusions that are sufficient to inform Congress of the amount, if any, legally or equitably due to the United States to the claimants individually.

**SENATE RESOLUTION 48—FOR IMPEACHMENT OF CONVICTED FELONS**

Mr. THURMOND submitted the following resolution; which was referred to the Committee on the Judiciary.

S. RES. 48

*Resolved*, At the end of the Rules of Procedure and Practice in the Senate when sitting on Impeachment Trials add the following new rule:

XXVII, Whenever articles of impeachment are exhibited in the Senate against any person who has been convicted of a felony in the State or Federal courts of the United States, the Presiding Officer shall designate, with the approval of the Senate, a time for the yeas and nays to be taken on the articles of impeachment against such person: *Provided, however*, That prior to such vote, there shall be six hours of consideration of the articles; two hours of which

shall be reserved for the managers of the impeachment, two hours of which shall be reserved for the accused or the representative of the accused, and two hours of which shall be reserved for deliberation and debate by members. If the impeachment is not sustained by the votes of two-thirds of the members present, a judgment of acquittal shall be entered; but if the person accused of such a felony conviction should be convicted by two-thirds of the members present, the Senate shall proceed to pronounce judgment, and a certified copy of such judgment shall be deposited in the office of the Secretary of the Senate.

Mr. THURMOND. Mr. President, just a few months ago, Members of the Senate were painfully reminded that at this time, under current constitutional law, it is possible for certain officers of the United States who are appointed by the President with the advice and consent of the Senate to continue to receive a salary after being convicted of a felony. In order to remove these officers from the Federal payroll, if they are unwilling to resign, it is necessary that they be impeached—a process which can occupy valuable time and resources of the Congress.

The Congress now has the power to impeach officers of the Government who have committed treason, bribery, or other high crimes and misdemeanors. However, when the courts of the Nation have found an official guilty of a serious crime, it should not be necessary for Congress to retry the official prior to his removal from the Federal payroll.

Mr. President, one way to address this intolerable situation would be by amending the Constitution. However, at hearings conducted late in the 99th Congress, several distinguished witnesses expressed the view that a satisfactory remedy to this problem might exist short of amendment of the Constitution. Primarily, their suggestion was that Congress, through the impeachment process, provide for an expedited impeachment procedure in the case of an accused who has been convicted of a felony. I believe this may be an appropriate alternative means of addressing this dilemma. It was, in fact, an approach which I proposed to several of my colleagues with regard to the impeachment proceeding of Judge Harry Claiborne and which I introduced as a proposed Senate rule late in the last Congress.

Today, therefore, I am reintroducing a resolution which would add a new Senate rule to provide for expedited impeachment proceedings when the accused has been convicted of a felony. I am hopeful that it will receive the careful consideration of my colleagues.

# SENATE RESOLUTION 49—TO ESTABLISH A COMMISSION ON SENATE OPERATIONS AND FISCAL PROCEDURES TO MAKE RECOMMENDATIONS FOR IMPROVING THE BUDGET PROCESS.

Mr. MOYNIHAN submitted the following resolution; which was referred to the Committee on Rules and Administration:

## S. RES. 49

Whereas in the course of the past two decades Congress has faced a succession of political or fiscal crises involving issues of constitutional prerogatives and institutional arrangements;

Whereas the content of specific questions has ranged from the Presidential right to impound appropriated funds to Congressional responsibility to provide revenues adequate to fund mandated activities;

Whereas the Senate has initiated a succession of major institutional innovations, including the Congressional Budget and Impoundment Control Act of 1974 and the Balanced Budget and Emergency Deficit Control Act of 1985;

Whereas an effect of the Congressional Budget and Impoundment Control Act of 1974 has been to add a third level of committee consideration of budget matters, with the inevitable atrophy of the authorization committees where the process once began;

Whereas an effect of the Balanced Budget and Emergency Deficit Control Act of 1985 would be to deprive Congress altogether of its most precious power and solemn responsibility to lay taxes and direct expenditures;

Whereas these successive responses have not resolved difficulties and may indeed have compounded them;

Whereas the annual budget cycle has become an exercise in crisis management rather than fiscal policy, with individual appropriations bills a thing of the past and continuing resolutions increasingly incompressible and often enacted after the start of the relevant fiscal year;

Whereas necessary increases in the debt ceiling have become occasions on which the Senate has adopted ever more complex devices for accomplishing fiscal policy goals, in part due to the threat of inaction which would plunge the nation into bankruptcy;

Whereas one day this threat may not work and the government will cease operations;

Whereas what in other contexts has been called a crisis of the regime could truly be approaching the United States even as we commence to celebrate two hundred years of unparalleled constitutional stability;

Whereas preoccupation with the ever multiplying profusion of dates certain whereby the various budget procedures must absolutely be completed, but which never are completed, has succeeded only in ensuring that serious sustained consideration of issues of foreign and domestic policy has all but atrophied in the Senate;

Whereas various reforms in Senate procedure have been suggested as corrective measures;

Whereas an organized inquiry into our present incapacity might stimulate a more general debate; and,

Whereas it is a long established practice to create Senate, House, or Joint commissions to deal with special occasions or special issues, some sixty-four having been es-

tablished over the past twenty-five Congresses, many with a mix of public and private members; Now, therefore, be it

*Resolved*, That (a)(1) there is established a commission of the Senate to be known as the Commission on Senate Operations and Fiscal Procedures (hereafter in this resolution referred to as the "commission"). The commission shall be composed of fifteen members appointed by the President pro tempore from the recommendations of the Majority Leader and the Minority Leader. Eight members shall be sitting Senators, four members shall be former Senators, and three members shall be distinguished lay persons, including former Senate staff members.

(2) The President pro tempore shall designate a member of the commission recommended by the Majority Leader to serve as chairman.

Sec. 2. (a) It shall be the duty of the commission to—

(1) inquire into the causes of the recent breakdown of the budget process; and

(2) study the alternatives for improving the budget process

(b) The commission shall submit a report to the Senate including its findings and recommendations not later than December 31, 1987.

Mr. THURMOND. Mr. President, I rise today to introduce Senate Resolution 49, a resolution to establish a Commission on Senate Operations and Fiscal Procedures.

My purpose: To have a group of Senators, former Senators, and lay persons investigate the causes of the recent breakdown of the budget process, study alternatives for improving the budget process, and submit to the Senate a report including its findings and recommendations by the end of 1987.

The need for such a study is clear. Last year all 13 individual appropriations bills were lumped together into one continuing resolution. That is evidence enough that something has gone wrong with the process envisioned when Congress approved the Congressional Budget and Impoundment Control Act of 1974. At that time, it was thought that the Budget Committees would focus on the Federal fisc, and the authorizing and appropriating committees would work within the overall budgetary limits set by Congress in first one, and then a second budget resolution for each fiscal year. Appropriations bills were, of course, expected to be passed prior to the start of the new fiscal year.

By fiscal year 1980, Congress routinely failed to meet the timetable established by the 1974 Budget Act. The first budget resolution could not be agreed to by May 15, and passage of the second budget resolution slipped from September 15 into November. Starting with consideration of the fiscal year 1983 budget resolution, Congress gave up altogether the practice of passing a second budget resolution—by tradition, the first was made

binding if a second resolution was not approved.

According to the Congressional Research Service, Congress is becoming less successful at having its appropriations bills enacted prior to the start of the fiscal year. In fiscal year 1977, all 13 regular appropriations bills had been enacted. The numbers proceed to drop off to nine in fiscal year 1978, five in fiscal year 1979, three in fiscal year 1980, one in fiscal year 1981, none in fiscal year 1982, one in fiscal year 1983, four in fiscal year 1984, four in fiscal year 1985, three in fiscal year 1986, and none in fiscal year 1987.

In 1985, Congress radically altered the budget process by passing the Gramm-Rudman-Hollings law. Congress gave up. Rather than evaluate the economy, and the budget throughout each budget cycle, economic assumptions about growth, inflation, interest rates, unemployment, oil prices, and such were made an implicit part of the law through the specific deficit targets. If Congress and the President could not agree on a way in which to meet the deficit targets, Congress had provided an automatic mechanism make the cuts. All programs subject to cuts would be treated equally, with the priorities of the past becoming the priorities of the future.

We ought to examine how we got to the point where Congress passed a major revision of the budget process without so much as one committee hearing. We should investigate why the process broke down to the point that Congress voted overwhelmingly to give up its constitutional responsibility and right to make choices about how to spend the moneys it raises.

There have been several suggestions made about how best to remedy the failure of the process. Some propose a biennial budget cycle; others propose making the concurrent resolution on the budget into a joint resolution, requiring the President's signature. Still others would abolish the existing framework and start anew. We ought to have a rational debate about such alternatives, and that is what this resolution seeks to obtain.

#### SENATE RESOLUTION 50—IN SUPPORT OF CANADIAN-AMERICAN COMPREHENSIVE TRADE NEGOTIATIONS

Mr. MOYNIHAN submitted the following resolution; which was referred to the Committee on Finance:

S. RES. 50

Whereas,

(1) The United States-Canada bilateral trade relationship is of vital importance to both countries since:

(a) the U.S.-Canadian trade relationship is the largest in the world, with bilateral merchandise trade exceeding \$100 billion;

(b) Canada and the U.S. are each other's largest export market;

(c) approximately 2 million jobs in each country depend on exports to the other country;

(d) more than three-quarters of Canada's exports—representing one-third of her GNP—are sent to the U.S.;

(e) more than one-fifth of United States' exports are sent to Canada and approximately 85 percent of these are manufactured goods;

(f) More than 75% of direct foreign investment in Canada is by the United States while Canadian direct investment in the U.S. is the third largest source of foreign investment funds.

(2) Although trade between the U.S. and Canada is relatively free, both countries could benefit from expanded trade in goods and services.

(3) A comprehensive bilateral trade agreement encompassing tariff and non-tariff matters presents the best opportunity of resolving trade problems which threaten expanded trade between the two countries:

(a) although by 1987, when the Tokyo Round Tariff reductions have been fully implemented, approximately 80 percent of Canada's exports to the U.S. and 65 percent of U.S. exports to Canada will enter duty free, further reductions in remaining Canadian tariffs (on average 9 percent) and U.S. tariffs (on average 4-5 percent) could further promote trade;

(b) an agreement could also address Canadian non-tariff barriers such as government procurement policies, state monopolies, technical standards, and processing requirements, as well as restrictions on investment and services, product subsidization and failure to protect intellectual property rights; and

(c) an agreement could also address Canadian concerns with securing access to the U.S. market which may be denied as a result of the imposition of import limitations or government policies on procurement or investment, as well as developing more predictable rules under which bilateral trade is conducted and future disputes might be settled.

(4) On September 26, 1985, Canadian Prime Minister Brian Mulroney announced his decision to pursue a comprehensive trade agreement "involving the broadest possible package of mutually beneficial reductions in tariff and nontariff barriers" to trade in goods and services and President Reagan immediately welcomed Mulroney's proposal for the negotiation of a comprehensive trade agreement.

(5) Informal discussions between representatives of the two countries occurred through May 1986 and formal negotiations were begun in June 1986.

(6) Representatives of the two countries have met for discussions six times and, while progress has been made, further discussion is required and resolution of the issues remains elusive.

(7) Expressions of support for the negotiation of an agreement would be helpful in expediting the process. Now therefore be it

*Resolved*, That it is the sense of the Senate that the representatives of the United States should proceed on an expedited and priority basis to conclude the negotiation of a mutually beneficial comprehensive bilateral trade agreement between the United States and Canada.

Mr. MOYNIHAN. Mr. President, today I introduce a resolution to express the sense of the Senate that the United States representatives currently discussing a comprehensive trade

agreement with their Canadian counterparts proceed on an expedited and priority basis to achieve a mutually beneficial agreement. Formal negotiations between the United States and Canada began in June 1986, and representatives of the two countries have met for discussions six times. While progress has been made, further discussion is necessary to address the many unresolved issues.

My simple hope is that the resolution will provide much needed support for the negotiation of an agreement that holds the promise of promoting trade between the two countries and of resolving outstanding trade problems.

Our trade relationship with our friends to the north long has been insufficiently appreciated. The United States-Canada bilateral relationship is the largest in the world, reaching \$117 billion in 1985 and approximately that level in 1986. We are each other's largest export markets, and approximately 2 million jobs in each country depend on exports to the other country. These are relations which surpass the problem of the day or year such as lumber or corn. And so it is with great interest that I follow and support efforts by our two countries to strengthen and expand that trading relationship.

At the March 18, 1985, summit meeting in Quebec City between President Reagan and Canadian Prime Minister Brian Mulroney, the two leaders pledged to explore all possible ways to reduce and eliminate barriers to trade between the two countries.

Six months later, on September 26, 1985, Canadian Prime Minister Mulroney informed the House of Commons of his decision to pursue a new comprehensive trade agreement with the United States "involving the broadest possible package of mutually beneficial reductions in tariff and nontariff barriers" to trade in goods and services.

President Reagan welcomed Prime Minister Mulroney's proposal for a bilateral trade agreement and on October 28, 1985, Secretary of State Schultz met with Canadian Foreign Minister Joe Clark to tell him of the administration's desire to begin formal bilateral negotiations early in 1986.

The President then notified Congress of his intention to negotiate an agreement and sought "fast-track" authority for legislation to implement any agreement. Under existing law, if neither the Senate Finance Committee or the House Ways and Means Committee disapproves of the negotiations, then the President is authorized to submit to Congress legislation implementing such an agreement under "fast track" procedures that prohibit amendment and set strict deadlines for congressional review and action.

The House Ways and Means Committee never voted on the question of granting fast-track authority, so the question of disapproval was never put forth. The Senate Finance Committee, however, did vote on April 23, 1986. By a 10-to-10 vote, the committee defeated a resolution to disapprove of fast-track authority.

So, while the Senate Finance Committee approved fast-track authority, it does so by the barest of margins. And this, I fear, may have contributed to the lack of progress being made in those negotiations.

As an early and ardent supporter of the negotiations, this was most distressing. I have said often that such an agreement not only offers the prospect of expanded trade benefiting both countries, but it is also perhaps the best way of resolving many outstanding and serious trade problems.

I do believe, however, that the committee's vote last April was at least as much a referendum on the administration's trade nonpolicy as on the desirability of an agreement. While I quite agree that we should disagree with the administration's failure to take serious action to address our trade problem, I do not think it wise to hold progress in our bilateral negotiations hostage to such a reversal in the administration's policy.

Therefore, I ask my colleagues to support this resolution so that we might send a strong signal to the United States and Canadian negotiators that the Congress supports the process, and to provide a much needed lift to a lagging negotiation that is vital to the economic welfare of both the United States and Canada.

#### SENATE RESOLUTION 51—IN SUPPORT OF JAPANESE-AMERICAN "MOSS" AUTO PARTS NEGOTIATIONS

Mr. MOYNIHAN submitted the following resolution; which was referred to the Committee on Finance:

S. RES. 51

Whereas:

(1) serious inequity now exists with respect to the procurement of automobile parts by American and Japanese automobile manufacturers;

(2) if US markets are to remain open, American automobile parts manufacturers must be given a fair and equal opportunity to make sales to Japanese automobile manufacturers located in Japan and in the US;

(3) the current bilateral market-oriented, sector specific ("MOSS") talks concerning trade in automobile parts represent an opportunity to address closed procurement policies by the Japanese without the need for unilateral trade action by the US; Now, therefore, be it Resolved, That it is the Sense of the Senate, that:

(1) any agreement should provide US automobile parts manufacturers with the opportunity to:

(a) compete on an equal basis in the face of traditional Japanese automobile manu-

facturer-supplier relationships by requiring the Government of Japan to support import development programs for US suppliers;

(b) compete on an equal basis for the after-market in replacement and repair parts for Japanese cars, including freedom from formal or informal government barriers; and

(c) obtain the same information at the same time that is available to Japanese automobile parts manufacturers about automobile parts purchasing by Japanese auto manufacturers on a company and product category basis; and

(2) the success of the agreement will be measured by the increase in sales of US automobile parts.

Mr. MOYNIHAN. Mr. President, today I introduce a resolution to express the sense of the Senate in support of a current trade negotiation of vital importance—the auto parts talks under the auspices of the market-oriented, sector-specific process.

Auto parts production is a major U.S. industry employing 621,000 in about 2,000 firms in 1984. There are over 160 firms in New York State alone.

Unfortunately, however, the auto parts industry has declined in the last 8 years or so. From 1978 to 1984 employment in the industry fell 15 percent and the real value of shipments fell 14 percent.

Like many troubled United States industries, the decline in the auto parts industry is attributable to international flows of auto parts, specifically from Japan. The total United States balance of trade in auto parts moved from a surplus of \$2.2 billion in 1978 to a deficit of \$2.8 billion in 1985. The deficit just from January 1978-85, the United States trade deficit in auto parts with Japan—by far our largest—increased 225 percent, from \$860 million to \$2.8 billion. Our auto parts trade deficit with Japan alone through August 1986 is \$2.4 billion.

We are consuming more Japanese auto parts for primarily three reasons: The increase of imported Japanese cars containing mostly Japanese parts; the establishment of Japanese auto and auto parts plants in the United States; and foreign sourcing by United States auto makers.

However, there is an important difference between the United States auto parts industry and many other troubled United States industries—the United States auto parts industry is competitive in price and quality with Japanese producers. A study conducted for the Commerce Department by Booz, Allen & Hamilton, Inc., based on interviews with 95 supplier executives, finds that "cost and product quality are not the issues which suppliers identify as major impediments" to the Japanese auto parts market. So what then impedes United States sales of auto parts?

The primary impediment to sales by United States parts producers to Japanese vehicle manufacturers is the

long-term "family like" traditional suppliers. This relationship—known as "keiretsu" in Japan—has resulted in impenetrable and noncompetitive commerce between Japanese assembly plants and their suppliers.

The Booz, Allen study finds that—

The major barriers affecting United States automotive suppliers attempting to sell to Japanese OEM's [original equipment markets] are cultural understanding, nationalism, pre-sourcing practices and their effect conditions.

In addition, the 1986 report of foreign trade barriers issued by the U.S. Trade Representative reports:

The prerequisite for selling most functional auto parts to Japanese auto makers is to become, in effect, part of their "family" of suppliers.

As a result, United States auto parts manufacturers supply less than 1 percent of the original equipment market in Japan, and less than 20 percent of the parts used for Japanese auto production in the United States. Similar problems exist for United States access to the Japanese after-market—the market for automotive replacement parts.

Naturally, the U.S. Government has been concerned about this situation and is currently engaged in negotiations with Japan concerning the use of American-made auto parts in Japanese assembly plants in the United States and Japan.

These negotiations are part of the market-oriented, sector-selective [MOSS] process under the category of transportation issues. The talks began on August 20, 1986, in Tokyo.

Unfortunately, although some progress has been made in these talks, United States negotiators report that Japan is resistant to taking meaningful action. Specifically, Japan will not acknowledge that "family like" business relationships hinder United States auto parts sales and Japan will not agree that the success of the talks should be measured by increased sales of American parts.

The resolution I introduce today would simply convey to Japan the concern of the Senate on this important matter, and express its support for the negotiations already underway.

The bill would express the sense of the Senate that: A serious inequity exists in the area of auto parts trade; if U.S. markets are to remain open, U.S. parts manufacturers must be given fair and equal opportunity to sell their products; the MOSS talks represent an opportunity to address these problems; and the success of pursuing this goal can only be measured by the degree to which sales of American made auto parts increase.

I am confident that the U.S. auto parts industry can grow and prosper if it is allowed fair access to international markets. A Japanese market domi-

nated by closed procurement is not acceptable, and I urge my colleagues to support me in expressing to the Japanese Government and automotive industry the concern of the Senate on this matter.

**SENATE RESOLUTION 52—TO EXPRESS THE SENSE OF THE SENATE REGARDING THE URBAN DEVELOPMENT ACTION GRANT PROGRAM**

Mr. LAUTENBERG (for himself, Mr. Dobb, and Mr. Dixon) submitted the following resolution; which was referred to the Committee on Appropriations:

S. Res. 52

Whereas the economic development of urban communities large and small is an essential national objective;

Whereas Congress has appropriated \$225 million for the Urban Development Action Grant Program in Fiscal Year 1987;

Whereas the Urban Development Action Grant Program provides jobs, tax revenues and economic revitalization to areas of the nation with high unemployment, particularly among minorities; and

Whereas the Urban Development Action Grant Program leverages private sector investment in our nation's urban communities;

Now, Therefore, be it Resolved, That  
(1) the proposed rescission of 205.4 million of the Fiscal Year 1987 appropriations for the Urban Development Action Grant Program is rejected.

**SENATE RESOLUTION 53—TO EXPRESS THE SENSE OF THE SENATE REGARDING THE COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM**

Mr. LAUTENBERG (for himself, Mr. Dobb, and Mr. Dixon) submitted the following resolution; which was referred to the Committee on Appropriations:

S. Res. 53

Whereas local and community development is a matter of national concern and a national priority;

Whereas Congress has appropriated \$3 billion for fiscal year 1987 for community development block grants to units of general local government and states to fund local community development programs;

Whereas the Community Development Block Grant program has become an essential component of local governments' efforts to maintain and develop their communities;

Whereas local governments have assumed the current appropriation for these grants as part of their budget planning;

Whereas local governments have been forced to make significant adjustments as a result of the termination of the General Revenue Sharing program and reductions in other forms of federal assistance;

Now, therefore be it Resolved, That  
(1) The proposed rescission of \$375.2 million of the Fiscal Year 1987 appropriation for community development block grants is rejected.

Mr. LAUTENBERG. Mr. President, today I am introducing two sense of

the Senate resolutions in opposition to the proposed rescission of fiscal year 1987 funding for the Urban Development Action Grant and Community Development Block Grant Programs. I am joined by my distinguished colleagues from Connecticut [Mr. Dobb] and Illinois [Mr. Dixon].

The Congress faces many difficult choices this year as we seek to reduce the Federal budget deficit. Many vital domestic programs will face drastic reductions, while others are threatened with rescissions of spending already agreed to by Congress.

The administration's budget strikes at the heart of Federal programs which have been essential to local government. The administration would rescind \$375 million in funds from the CDBG Program and \$205 million from the UDAG Program. These include funds that are already a part of the budget plans of our cities. They are funds that have been committed to provide public services and rebuild economies.

Mr. President, we successfully defeated a similar proposal by the administration in its fiscal year 1986 budget request. Again, we are faced with a retreat from a commitment made by the Federal Government to the cities. The proposed rescission says that the Federal Government will no longer be a partner in rebuilding urban America.

I oppose this disastrous dismantling of the Federal-local partnership, a partnership which has been fashioned over the years on a bipartisan basis. I oppose the consequences which will follow from this action—the termination of housing initiatives, the reduction in police and fire personnel, the reduction in street maintenance. Congress intended for these programs to be funded at a level which will allow revitalization of our cities to continue. I intend to see that these benefits are realized.

Mr. President, I oppose these rescissions and I urge my colleagues to join in an effort to reject this ill-conceived policy.

**NOTICE OF MEETING OF COMMITTEE ON RULES AND ADMINISTRATION**

Mr. FORD. Mr. President, I wish to announce that the Committee on Rules and Administration will meet to organize on Thursday, January 15, 1987, at 9:30 a.m., in SR-301. At this meeting, the committee plans to adopt its rules of procedure and to select members for the Joint Committee on Printing and the Joint Committee on Congress on the Library.

The committee will also be considering legislative and administrative items currently pending on its agenda, including an original resolution authorizing expenditures by the Committee

on Rules and Administration for fiscal year 1987.

For further information regarding this meeting, please contact Carole Blessington of the Rules Committee staff on 224-0278.

**ADDITIONAL STATEMENTS**

**PRIVATE ENFORCEMENT OF UNFAIR COMPETITION STATUTES**

● Mr. D'AMATO. Mr. President, I am pleased again to be an original cosponsor of legislation which provides for private enforcement of U.S. unfair competition statutes in an attempt to fend off the ever-increasing problem of predatory trade practices utilized by many of our trading partners. This needed legislation, introduced by my distinguished colleague from Pennsylvania, will create a private right of action for victims of unfair trade practices.

Mr. President, I was dismayed and shocked as I heard witnesses describe to me the illegal and unfair practices of our trading partners at Joint Economic Committee hearings I chaired on international trade relations during the 99th Congress. These practices include foreign nations subsidizing targeted industries, dumping their products in the U.S. marketplace, and using fraudulent methods to circumvent U.S. customs laws. The use of these methods continues to be detrimental to U.S. businesses as these foreign nations capture an ever larger share of our market.

U.S. companies neither discourage, nor fear competition; but they must not be forced to compete against those who insist upon using illegal methods of competition. For this reason alone, we need to strengthen our present trade laws to provide U.S. companies a swift and viable remedy to correct these injustices.

Mr. President, I believe that this legislation will be a significant step forward in correcting these unfair trade practices. The creation of a private right of action will allow private parties to immediately file suit in Federal district court or the Court of International Trade and seek a speedy remedy, namely an injunction.

Mr. President, a look at our spiraling trade deficit—which most likely will exceed \$170 billion for 1986—should serve as a constant reminder that we need the type of action that this legislation offers. I urge my colleagues to expeditiously act on this important legislation before it is too late. ●

### A PLEA ON BEHALF OF NAUM MEIMAN

● Mr. SIMON. Mr. President, recently, our former colleague Gary Hart returned from Moscow with wonderful news. He was informed by Soviet officials that Inna Meiman, who is suffering from inoperable cancer, would be allowed to travel to the West for treatment.

For nearly a year I have been formally asking the Soviet Government to let Inna and her husband, Naum Meiman, leave Moscow so Inna would have a chance to live. Soviet doctors have said there is nothing more they can do for her.

Daily, I have been inserting statements in the CONGRESSIONAL RECORD on her behalf.

I was delighted to hear the news that Inna is being allowed to leave. But I urge the Soviets to allow Naum to travel with her, which Soviet officials have yet to permit.

The Kremlin has said that Naum cannot leave, claiming his former position as a scientist makes him a security risk. Naum says his work was done more than 30 years ago, making that charge ridiculous.

Inna is weak and critically ill. She needs the loving support of her husband to make the trip.

It is not too much to ask.●

### STARS AND STRIPES FOREVER

● Mr. WILSON. Mr. President, while the rest of official Washington concerns itself with the ship of state, I would like to pay tribute to another kind of sailing vessel. Every Californian knows that the future begins in our home State. In less than a month, that future will include the greatest trophy in the world of competitive sailing. The America's Cup will soon be California's proudest ornament.

Why am I so confident in my forecast? Well, I am from San Diego. And San Diegans who may not have heard of PETE WILSON know all about Dennis Conner. And not just from his American Express ads. Fact is, millions of people who may not be able to distinguish between a spinnaker and a line drive are rooting for Dennis and the crew of the *Stars and Stripes* to bring the Auld Mug back where it belongs. For more than 3 years, California's nautical favorite son has steered a steady course. His already impressive credentials have been enhanced by a tough series of races against a dozen other challengers—including two superb contenders from California, San Francisco's *U.S.A.* and the *Eagle*, which nested in Newport Beach.

When the semifinal series began last week, just 12 races stood between *Stars and Stripes* and racing immortality. As of today, it is four down, eight to go. So bring on the *Kiwis*, with their "plastic fantastick." There is

nothing plastic about the *Stars and Stripes*.

On January 31, the world's attention will be focused Down Under. That is when we will all discover that an Aussie and his Cup are soon parted. In the meantime, I want to extend my personal congratulations to that not so old salt—Dennis Conner. I would like to invite Americans everywhere to join in support of this patriotic endeavor. And finally, I would like to issue an open invitation to San Diego—future home of the America's Cup and site of the 1990 Cup races.●

### J. WILLIAM BELANGER

● Mr. KERRY. Mr. President, over the holidays Massachusetts lost one of its most effective advocates for workers and one of our most able leaders of organized labor—Mr. J. William Belanger.

Bill Belanger was the first president of the Massachusetts AFL-CIO, the Director of Employment Security for the Commonwealth of Massachusetts, and the Federal Director for Unemployment Insurance for New England. But the citizens of Massachusetts will remember Bill Belanger as the competent, compassionate, and constant champion of the working men and women of our State. Whether the issue was worker safety, fair unemployment benefits, equal employment opportunity, help in educating workers' children or housing our families, Bill was there to craft a well conceived programmatic and political strategy and to deliver its benefits to the workers who he always represented.

Bill Belanger will be missed by all of us. He was a citizen who never forgot his roots or abandoned his values. His legacy is a quality of working life in Massachusetts that is a little better for all our people because he came our way and cared so deeply.

Mr. President, I ask that the Boston Globe obituary of December 14, 1986, commemorating Mr. Belanger's death be printed at this point in the RECORD.

The article follows:

[From the Boston Sunday Globe, Dec. 14, 1986]

J. WILLIAM BELANGER, PRESIDENT OF MASSACHUSETTS AFL-CIO FROM 1958-64

J. William Belanger, 79, of Naples, Fla., the first president of the Massachusetts AFL-CIO and a former Boston resident, died Friday in Naples Community Hospital of natural causes.

Mr. Belanger became the first president of the Massachusetts American Federation of Labor and Congress of Industrial Organizations in 1958. He remained in the position until 1964, when he became director of employment securities for Massachusetts.

He was chairman of the Massachusetts CIO Political Action Committee from 1948 until the CIO merged with the AFL 10 years later.

Mr. Belanger was also active in civic and political activities. He was a delegate to the national conference of the International

Labor Organization in Geneva in 1958 and was a supporter and adviser to Presidents Kennedy and Truman. He supported political leaders such as former U.S. House Speaker John McCormack and Sen. Edward M. Kennedy.

Mr. Belanger was a Massachusetts delegate to the Democratic national conventions in 1952, 1956 and 1960.

He was an adviser to the U.S. Commission on Civil Rights and to the Massachusetts Commission on Discrimination in Housing during the early 1960s.

During World War II, he was a member of the New England regional office of the War Labor Board, the Wage Stabilization Board and the War Manpower Commission from 1942 to 1946.

Mr. Belanger was a member of the Truman Library Committee and vice chairman of the United Fund of Greater Boston.

Born in Newmarket, NH, he lived in the Rhode Island and in the Boston area for many years. He had moved to Naples only two months ago.

Said Harvey Friedman, a former colleague at the AFL-CIO: "He got his education by working, like all the people he represented. He didn't need a formal university education."

He leaves his wife, Bernice (Fledrick) of Naples; two sons, J. William Jr. of South Dartmouth, Mass., and Roger Belanger of Fort Myers, Fla.; four sisters, Amanda Patry, Florida Montminy, Anna Belanger and Alma Sylvester, all of Rhode Island; three grandchildren and several nieces and nephews.

A memorial service will be held Monday, Dec. 15, at 11 a.m. in Naples Memorial Gardens, Naples.●

### APPLIANCE EFFICIENCY STANDARDS

● Mr. WEICKER. Mr. President, I rise today in support of the National Appliance Energy Conservation Act of 1987. This act is the same as the legislation passed unanimously last year by both Houses of the Congress except that two nongermane sections of last year's legislation, regarding issues under consideration by the Federal Energy Regulatory Commission, have been dropped from the bill.

It was with great disappointment that I learned of the President's pocket veto of last year's bill despite unanimous congressional approval, a recommendation for enactment by the Department of Energy and broad support for the bill by the appliance industry, environmental and consumer groups, and the States.

In the President's Memorandum of Disapproval he pointed out that current law already provides for Federal appliance efficiency standards and he stated that "I think current law is preferable." However, the memorandum fails to recognize two problems with the current law.

First, the President failed to point out that under current law appliance standards were to have been promulgated over 5 years ago. The current law, which the President would prefer, is the same law that this administra-

tion has successfully avoided implementing for those 5 years—it is not any wonder that he prefers it over this act, which would be self-implementing.

Second, the Memorandum of Disapproval states that the Federal standards to be imposed under current law "would preempt existing State law." This is simply not correct. Under current law the administration may grant States waivers from Federal preemption and, in fact, the administration has granted such waivers to every State which has requested one. This policy has led to a growing patchwork of conflicting State-by-State appliance efficiency regulations which are making it impossible for appliance manufacturers to plan, produce and market their products. The National Appliance Energy Conservation Act would solve this problem with the current law by requiring Federal preemption of State appliance standards.

Mr. President, this legislation achieves two broad objectives, either of which continue to be compelling reasons for its enactment.

First, this bill would establish uniform national appliance energy efficiency standards which would preempt the growing number of separate and conflicting State standards. Such preemption greatly reduces the regulatory burdens that separate State standards place on the appliance industry.

Second, this bill would significantly reduce the Nation's demand for electricity. Such a reduction in energy demand will assist the Nation in meeting future energy needs and in reducing our growing dependence on foreign energy resources.

How soon we forget the energy crisis of the seventies. We should not kid ourselves, the energy crisis is still out there and it is certain to be a chronic national problem. This legislation is the single largest step we are now in a position to take to prepare ourselves to meet that challenge. I sincerely hope that this administration will not continue to bury its head in the sand, but will recognize that energy efficiency standards are a valid and essential part of a national energy policy.

The history of appliance efficiency standards goes back to 1975, when Congress passed the Energy Policy and Conservation Act [EPCA]. EPCA directed the Department of Energy to consider the establishment of appliance energy efficiency standards in response to the energy crisis which the Nation then faced.

In 1978, the Congress amended EPCA to require the Department of Energy to establish appliance energy efficiency standards. However, in 1983 the Department ruled that no standards were economically justified. This "no-standard" standard was challenged in court and in July 1985, the D.C. District Court of Appeals ruled

against the Department and ordered that substantive standards must be issued. Unfortunately, it will be at least 2 years before the Department can promulgate new standards. In the meantime, the court ruling and current DOE practice allow the 50 States to establish their own State regulations regarding appliance energy efficiency. States are continuing to enact their own regulations which result in a growing patchwork of separate and conflicting regulations. This patchwork of State-by-State regulations has made a nightmare of the design, production, and marketing plans of the Nation's appliance manufacturers.

One excellent example of the problems which have resulted from this patchwork of regulations is a small but growing traffic in "smuggled" appliances; particularly in my region of the country. Appliance retailers have already found that customers are willing to drive to other States in order to purchase cheaper and less efficient appliances. It is obvious that uniform national standards would substantially reduce the current regulatory burden on the appliance industry.

It was in an effort to develop such National standards that representatives of the appliance industry began negotiations with representatives of the environmental community in early 1986. The National Appliance Energy Conservation Act embodies the agreement reached in those negotiations.

The interest of the environmental community in these negotiations was to assure that EPCA would provide for actual energy conservation and that there would be no further delay in the implementation of standards.

It is currently estimated that approximately 18 percent of the Nation's energy is consumed by major home appliances. Although it is difficult to specifically quantify how much energy would actually be saved by enactment of this measure, because the legislation would require efficiency improvements on the order of 20 percent for many appliances, it is clear that energy savings would be significant.

I have often stated my concern that the Nation has failed to develop an energy policy capable of dealing with the Nation's pressing energy problems. Energy conservation must remain and be strengthened as an integral part of our national energy policy. This act is a long overdue addition to that policy.

Mr. President, this legislation continues to have broad support from industry, environmental, and consumer groups, utilities, and the States. It was passed unanimously by both Houses of Congress last year and was recommended by the Department of Energy for enactment. The reasons for enacting the National Appliance Energy Conservation Act remain compelling and I urge my colleagues to, once

again, pass it swiftly and unanimously. ●

## SALARY RECOMMENDATION FOR FEDERAL EXECUTIVE OFFICEHOLDERS

● Mr. SYMMS. Mr. President, recently President Reagan announced his salary recommendations for top-level officeholders in the Federal Government. While the President's recommendation is a substantial cut in the salary increases recommended by the Commission on Executive, Legislative, and Judicial Salaries, I believe Congress should vote to disapprove this salary increase.

At a time when American workers are being retrained for a new job market and accepting lower wages to make American industry more competitive on the world market, I believe it would be intolerable for Congress to approve salary increases for top Federal officeholders. The American people want their representatives to set an example of fiscal austerity that will lead us toward a balanced Federal budget.

I ask that Donald Lambro's article on this subject, which appeared in the December 12, 1986 edition of the Washington Times, be printed in the RECORD following my remarks.

The article follows:

[From the Washington Times, Dec. 22, 1986]

### NOT THE BEST TIME TO UP THOSE SALARIES

(By Donald Lambro)

A federal commission wants the government, which just ended the fiscal year \$221 billion in the red, to raise the salaries of members of Congress and executive-level officials by up to 80 percent.

The proposal by the Commission on Executive, Legislative, and Judicial Salaries came as no surprise to anyone. This panel has been recommending gigantic pay increases for as long as anyone can remember, peddling the dubious theory that better pay equals better government.

What is surprising, though, is that a panel of presumably well-educated people can recommend full-throttle pay raises totaling \$150 million at a time when the government is in its worst fiscal mess in decades.

Not only has the U.S. Treasury compiled the highest one-year deficit in its history, it faces a string of deficits for at least the next four years, even under the best of circumstances.

The pay-raise recommendation also comes at a time when the government's board of directors—the Congress—is calling on the country to endure substantial sacrifices in key social welfare programs in order to cut the deficit.

Imagine, if you will, a corporation that had not balanced its budget in more than a quarter of a century and was facing an ocean of red ink in the coming years. Imagine that this company was proposing the sale of some of its assets and closing down or deeply cutting dozens of its subsidiaries to improve its balance sheet. Now imagine that this firm hired some consultants to advise the company on future pay scales

and they proposed that the board of directors and top executives grant themselves massive pay raises.

Obviously, no business in its right mind would even think of doing such a thing. If they did, the stockholders would likely vote the entire crew out of office.

Yet not only is this the same situation facing our government, it is precisely what is being recommended by the quadrennial pay commission.

The panel proposes, among other things, that the salaries of Cabinet secretaries be raised from \$88,800 to \$160,000, an 80.2 percent increase; that members of Congress be raised from \$77,400 to \$135,000, or 74.4 percent; that Appeals Court judges be raised from \$85,700 to \$135,000, or 57.5 percent; and that District Court judges be raised from \$81,100 to \$130,000, or 60.3 percent.

In support of its proposals the commission argues that top officials must make excessive "financial sacrifices" to take Cabinet and sub-Cabinet posts in the executive branch.

In fact, most Cabinet officials are people who have already achieved upper-income levels in their respective careers and are obviously willing to make such "sacrifices" to take prestigious government posts that will either cap or further advance their careers.

For persons accepting lower-level undersecretary and assistant secretary posts, these jobs very often represent a pay increase or a career advancement.

In virtually all of these appointed posts the officials find their value in the private sector is measurably enhanced because of their government service.

As for the judiciary, despite the 67 judges who have supposedly resigned from the bench for economic reasons since 1969, there's still a long line of highly qualified candidates hungry for judicial appointments. Not only are circuit and district judges relatively well-paid, they have their jobs and their salaries for life.

Some members of Congress may complain that it's tough getting by on \$77,400 a year, but the pay—which jumps to nearly \$80,000 next year—is pretty good when you consider that Congress is out on some recess or holiday for several months each year.

Moreover, most members supplement their salaries through speaking honorariums and other income; and their inflation-protected pension plan is considered "the luxury liner" of government pensions.

All this, of course, doesn't rule out the reasonable proposition that men and women who are running multibillion-dollar bureaucracies should be paid something more than they're getting now. And perhaps there is need for modest adjustment among other top government officials, too.

But this is not the time to be fattening the salaries of top government officials. Let's get Uncle Sam's fiscal house in order first, then we'll talk about pay raises.●

#### LAND AND WATER CONSERVATION FUND

● Mr. BINGAMAN. Mr. President, I rise to speak about a matter that is of great importance to all Americans who want to preserve and protect our unique natural resources. As we gradually deplete our nonrenewable resources, I believe it is imperative that we conserve a portion of our valuable land and water resources. Therefore, I take great pride in joining my distin-

guished colleague from Louisiana, Senator JOHNSTON, in the introduction of a bill to renew authorization for the land and water conservation fund, and commend him for his efforts in the past as the Senate's leading advocate for the land and water conservation fund. I look forward to working with him as chairman of the Energy and Natural Resources Committee, as we seek reauthorization of the fund.

As a result of the leadership and foresight of former New Mexico Senator, Clinton P. Anderson, and the efforts of the Conservation Congress, the land and water conservation fund was first created in 1964 to provide a source of funds for land acquisition, planning and development of recreation facilities. Through the fund, money is available at the Federal level—to the National Park Service, Bureau of Land Management, Forest Service, and Fish and Wildlife Service—and 50/50 matching grants are provided to State and local governments. More specifically, the land and water conservation fund provides for protection of lands and water for public outdoor recreation, including acquisition of new areas and additions to already established parks, forests, wildlife areas, and other areas. The types of resources eligible for acquisition include, but are not limited to, those providing water-based recreation, areas that provide special recreation opportunities such as flood plains and wetlands, natural areas, and outstanding scenic areas, urban day-use recreation areas and general parklands. The act also authorizes the development of outdoor recreation resources through the construction of trails, aquatic facilities, campgrounds, general recreation resources, sanitary facilities and a wide range of other projects. The fund also provides support for the required statewide comprehensive outdoor recreation planning process which guides outdoor recreation programs in each State.

The land and water conservation fund is supported by revenue from Federal surplus property sales, motorboat fuel taxes, Federal entrance and user fees, and, most importantly, lease and royalty receipts from Outer Continental Shelf mineral development. One of the major philosophies behind this fund was that as the Nation depleted its finite oil and gas reserves, a portion of the income from that extraction should be reinvested for public benefit by purchasing and preserving other natural and cultural resources. The National Park Service administers the land and water conservation fund and reports annually to Congress on the status of the program and on State funding priorities. The Park Service also provides guidance and program coordination.

Authorization for the addition of funds to the land and water conserva-

tion fund is set to expire in 1989. Until then \$900 million will be credited to the fund each fiscal year. This is a small portion of the \$5.3 billion total revenue expected from offshore mineral leasing in fiscal year 1987.

The land and water conservation fund money is made available through an annual appropriation by Congress. Unfortunately in recent years administration requests and congressional appropriations have lagged far behind the authorized amount in the fund, leaving a substantial unappropriated balance. This balance currently exceeds \$4 billion.

The land and water conservation fund has proven extremely successful and represents the best in public policy. It has resulted in the preservation of many areas of natural and historical significance. Almost 3 million acres of Federal land have been acquired with \$3 billion since the origin of the fund. In addition, almost \$3 billion has been appropriated and matched by the States for planning, development and acquisition designed to improve the quantity and quality of outdoor recreation in this country. During the past two decades, land and water conservation fund State assistance grants have made possible completion of more than 32,000 conservation or outdoor recreation projects nationwide and resulted in the protection of more than 2 million acres of State and local open space lands for conservation and recreation proposed. According to the National Park Service, 63 percent of the total stateside funds obligated have gone to locally sponsored projects which provide close-to-home recreational opportunities.

In light of the remaining needs for acquisition, I would urge my colleagues to give careful consideration to this legislation. The environmental integrity and multiple use capacity of our public lands should not be compromised. We must strike a balance between the various interest groups so that land and water preservation is not sacrificed. I believe that through careful management of a land and water conservation program, our most valuable environmental resources can be preserved for the benefit of future generations.

With the land and water conservation fund set to expire in 1989, it is clearly time to take effective action. I am pleased that the President's Commission on America's Outdoors recognized the importance of the land and water conservation fund by recommending the establishment of a permanent trust fund. Converting the land and water conservation fund to a trust fund could eventually make it entirely self sufficient on interest income, thereby eliminating the need for Federal or royalty appropriation. I

believe that this concept should be thoroughly discussed so that an efficient means of preserving valuable environmental and recreational land can be achieved.

Reauthorization is an important first step toward creation of a permanent land and water conservation fund. I encourage my colleagues to support this legislation.●

#### NEW MEXICO STATEHOOD

● Mr. BINGAMAN. Mr. President, on this date in 1912 statehood was granted to New Mexico. Repeated attempts to deny its entry into the Union had failed and New Mexico became the 47th State.

In its territorial days, New Mexico had a Governor who once lamented: "Poor New Mexico; so far from heaven, so close to Texas." On this anniversary of statehood, I am happy to contradict that territorial Governor and say that while we are very close to Texas, it is a proximity we enjoy; and, as for being far from heaven goes, he was wrong about that, too.

Geographically interesting, rich in history, culture, and natural resources, home of many distinguished citizens, New Mexico is a vigorous contributor to the fabric of this Nation. Those of us who call it home love it. In her classic novel, "Death Comes for the Archbishop," Willa Cather expressed what is for many of us the essence of the beauty and spirit of New Mexico. "He had noticed," wrote Miss Cather, "that this peculiar quality in the air of new countries vanished after they were tamed by man and made to bear harvests \* \* \* that lightness, that dry aromatic odor \* \* \* one could breathe that only on the bright edges of the world, on the great grass plains or the sagebrush desert \* \* \*. Something soft and wild and free; something that whispered to the ear on the pillow, lightened the heart, softly, softly picked the lock, slid the bolts, and released the prisoned spirit of man into the wind, into the blue and gold, into the morning, into the morning!"

As Miss Cather discerned, it is a special place. On this special day I am pleased to join my fellow New Mexicans in saluting those who made statehood possible and those who make it such a fine place to call home.●

#### ORDERS FOR MONDAY

Mr. BYRD. Mr. President, I ask unanimous consent that on Monday, following the prayer and the recognition of the two leaders under the standing order which has now been entered, Mr. PROXMIRE be recognized for 5 minutes; that there then be a period for the transaction of routine morning business for not to exceed the period

for the morning hour, that no resolutions come over under the rule; that the call of the Calendar Rule 8 be waived; that Senators be permitted to speak during the period for the transaction of routine morning business for not to exceed 5 minutes each; and that at the conclusion of the morning hour the Senate stand in recess until the hour of 5 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOLE. Mr. President, I thank the distinguished majority leader.

Mr. BYRD. Mr. President, it would not be my intention to proceed under rule VII on Monday to make any motions to proceed so there will not be a nondebatable motion to proceed to take up anything on Monday during the morning hour or during morning business.

The PRESIDING OFFICER. The Record shall so show.

Mr. DOLE. Mr. President, I thank the distinguished majority leader.

Let me indicate that I think we have had a good first day. There has been a lot of things accomplished.

I thank Members on this side of the aisle for their cooperation on working out the differences on the select committee and also for the cooperation of certainly the distinguished majority leader and others.

I was also listening to the statements of both the distinguished senior Senator from Oklahoma, Senator BOREN, and the majority leader on campaign finance reform.

I would only indicate at this time that it is a matter that I feel should be addressed. There are a number of concerns that many Americans have and there are a number of concerns that contributors have. There are a number of concerns that candidates have.

There is a perception of special interest influence in political campaigns, regardless of party and regardless of candidate.

I do not believe there will be any effort to stall any such legislation.

Again, if we proceed as I hope we can on issues of this kind that affect all of us, we who might be candidates and who have been candidates and who are in public office, if there is a willingness to try to work it out together, we can. We actually came quite close last year, as the distinguished Senator from Oklahoma pointed out earlier. There was a lot of discussions and a lot of debate. We had some votes.

The distinguished Senator from Minnesota, Senator BOSCHWITZ, and the distinguished Senator from Pennsylvania, Senator HEINZ, had some good proposals and many proposals came from the Democratic side.

So I want the Record to reflect that there is not an inclination on this side

that this Senator knows of to say, "Well, we don't want campaign finance reform." I think there does need to be hearings, need to be discussions, need to be debates and, hopefully, some agreement on areas that should be addressed and hopefully they can be addressed in the next year or at least this session.

I thank the distinguished majority leader.

Mr. BYRD. Mr. President, I thank the distinguished Republican leader.

#### NOTIFICATION TO THE PRESIDENT

Mr. BYRD. Mr. President, the distinguished minority leader and I, in accordance with the order of the Senate earlier today, talked to the President and informed the President that the Senate was in session, that a quorum had been established and that the Senate was ready to do business. The President expressed a desire to work with and cooperate with the Congress. He stated that he had sent his budget to us, fulfilling his promise that he would send the budget up on January 6th rather than early February as had earlier been planned by the administration. He stated his belief in his budget.

Mr. DOLE and I indicated that we were ready to cooperate and we would go to work immediately on the budget. We stated that Mr. CHILES, the chairman of the Budget Committee, and Mr. DOMENICI, the ranking member, are proceeding with hearings on the budget tomorrow.

The President was in excellent spirits, seemingly. Mr. DOLE and I expressed our happiness that the reports concerning his health and his operations have been positive and good. Both of us expressed our good wishes concerning his early return to full strength. I think it was a very positive and fine exchange, brief though it was.

Mr. President, does the distinguished Republican leader wish to add anything concerning our discussion with the President?

Mr. DOLE. Only to the extent that I think, as we observed meeting with the press, that the President seemed strong and vibrant and alert. I think it was an indication that he feels as good as he can right now. It is a painful operation, I am informed. But he expects to be back in action in the next few days.

Mr. BYRD. As I stated after our discussion, Mr. President, I hope that I feel as well 30 years from now.

#### SENATE'S ACCOMPLISHMENTS ON THE FIRST DAY OF THE 100TH CONGRESS

Mr. BYRD. Mr. President, today the

Senate has created a select committee to investigate the arms shipment to Iran and other matters.

The Senate adopted a resolution calling attention to the continuing Soviet occupation of Afghanistan, the continuing efforts to subjugate a brave and courageous people in that country of Afghanistan, and calling on the Soviet Union to permit the world press to come into Afghanistan to observe just what is going on so that the outside world can know the truth as to what is happening in Afghanistan even in fuller measure than we already know what is going on.

The Senate adopted a resolution extending the life of the arms control observer group that has been doing a good job in attending the arms control negotiations in Geneva and elsewhere.

The campaign finance reform bill has been introduced. Several other bills and resolutions have been introduced today and several resolutions having to do with rules changes have been introduced and are on the Calendar of Motions and Resolutions Over, Under the Rule.

The bill to clean up the Nation's water has been reintroduced carrying

the same phraseology and verbiage that were included in the conference report on the clean water bill late last year, a bill which was vetoed by the President. The distinguished Republican leader has also advanced a clean water bill. Both of those bills are on the Calendar. I would expect the Senate to reach those bills next week, very early in the week, hopefully.

We have had two rollcall votes. The attendance was good today. The newly elected Senators were sworn in and the President pro tempore for the 100th Congress, Mr. JOHN C. STENNIS of Mississippi, presided over the Senate with great dignity and skill.

We were honored by the presence of the Vice President in opening the Senate today.

The Senate elected a Secretary of the Senate, a secretary for the majority, a secretary for the minority, and a Sergeant at Arms. All in all, I think it has been a good day.

I wish to express my gratitude to the distinguished Republican leader for his cooperation today and for his support, without which the progress that has been made would not have been made.

#### ADDING SENATOR MATSUNAGA AS A COSPONSOR OF SENATE RESOLUTION 10

Mr. BYRD. Mr. President, I ask unanimous consent that Mr. MATSUNAGA, who presently presides over this body with a degree of skill, dignity, poise, good humor and courtesy so "rare as a day in June", have his name added, at his request, as a cosponsor of the resolution, Senate Resolution 10, electing the Sergeant at Arms, Mr. Henry Giugni, who comes from the great State of Hawaii.

The PRESIDING OFFICER. Without objection, the request is granted.

#### ADJOURNMENT UNTIL MONDAY, JANUARY 12, 1987

Mr. BYRD. Mr. President, if there be no further business to come before the Senate, I move, in accordance with the provisions of Senate Concurrent Resolution 1, that the Senate stand in adjournment until 12 noon on Monday next.

The motion was agreed to; and at 7:48 p.m., the Senate adjourned until Monday, January 12, 1987, at 12 noon.
