"(a)(1) In any action brought under section 4025 of this title, the court shall, on motion of the Administrator made before the expiration of the time specified for the filing of an answer to a complaint filed pursuant to subsection (b) of such section, allow a single remand of a case to the Administrator for further review by the Administrator. If such review is not completed within 90 days after the date of such remand, the matter shall be returned to the court for its action.

"(2)(A) At any time after the Administrator files an answer, the court may, in the exercise of its discretion, remand the case to the Administrator for further action by the Administrator.

"(B) If either party shall apply to the court for leave to adduce additional evidence and shall show to the satisfaction of the court that such additional evidence is material and that there is good cause for granting such leave, the court shall remand the case to the Administrator and order such additional evidence to be taken by the Administrator.

"(C) In the case of a remand under subparagraph (A) or (B) of this paragraph, the court may specify a reasonable period of time within which the Administrator shall complete the required action.

"(d) After a case is remanded to the Administrator under subsection (a) of this section, and after further action by the Administrator, including consideration of any additional evidence, the Administrator shall modify, supplement, affirm, or reserve the findings of fact or decision, or both, and shall file with the court any such modification, supplementation, affirmation, or reversal of the findings of fact or decision or both, as the case may be, and certified copies of any additional records and evidence upon which such modification, supplementation, affirmation, or reversal was based. Any such modification, supplementation, affirmation, or reversal of the findings of fact or decision shall be reviewable by the court only to the extent provided in section 4026 of this title.

#### § 4028. Survival of actions

"Any action brought under section 4025 of this title shall survive notwithstanding any change in the person occupying the office of Administrator or any vacancy in such office.

#### § 4029. Appellate review

"The decisions of a district court pursuant to this chapter shall be subject to appellate review by the courts of appeals and the Supreme Court of the United States in the same manner as judgments in other civil actions."

(b) The table of sections at the beginning of such chapter is amended—

(1) by inserting before the item relating to section 4001 the following new item:

#### "SUBCHAPTER I—GENERAL

and

(2) by adding after the item (added by section 108(b) of this Act) relating to section 4011 the following new items:

#### "SUBCHAPTER II—JUDICIAL REVIEW

"4025. Right of review; commencement of action.

"4026. Scope of review.

"4027. Remands.

"4028. Survival of actions.

"4029. Appellate review."

SEC. 303. Section 1346(d) of title 28, United States Code, is amended by inserting before the period at the end thereof a comma and "except as provided in subchapter II of chapter 71 of title 38".

#### TITLE IV—ATTORNEYS' FEES

SEC. 401. Section 3404 is amended by striking out subsection (c) and inserting in lieu thereof the following:

"(c) The Administrator shall approve reasonable attorneys' fees to be paid by the claimant to attorneys for representation before the Veterans' Administration in connection with a claim for benefits under laws administered by the Veterans' Administration, but in no event shall such attorneys' fees exceed—

"(1) for any claim resolved prior to or at the time that a final decision of the Administrator is first rendered, \$10; or

"(2) for any claim resolved after such time—

"(A) if the claimant and an attorney have entered into an agreement under which no fee is payable to such attorney unless the claim is resolved in a manner favorable to the claimant, 25 percent of the total amount of any past-due benefits awarded on the basis of the claim; or

"(B) if the claimant and an attorney have not entered into such an agreement, the lesser of—

"(i) the fee agreed upon by the claimant and the attorney; or

"(ii) \$500, or such greater amount as may be specified from time to time in regulations which the Administrator shall prescribe based on changed national economic conditions subsequent to the date of enactment of this subsection, except that the Administrator may, in the Administrator's discretion, determine and approve a fee in excess of \$500, or such greater amount if so specified, in an individual case involving extraordinary circumstances warranting a higher fee.

"(d)(1) If, in an action brought under section 4025 of this title, the matter is resolved in a manner favorable to a claimant who was represented by an attorney, the court shall determine and allow a reasonable fee for such representation to be paid to the attorney by the claimant. When the claimant and an attorney have entered into an agreement under which the amount of the fee payable to such attorney is to be paid from any past-due benefits awarded on the basis of the claim and the amount of the fee is contingent on whether or not the matter is resolved in a manner favorable to the claimant, the fee so determined and allowed shall not exceed 25 percent of the total amount of any past-due benefits awarded on the basis of the claim.

"(2) If, in an action brought under section 4025 of this title, the matter is not resolved in a manner favorable to the claimant, the court, taking into consideration the likelihood at the time such action was filed that the claimant would prevail, may determine

and allow a reasonable fee not in excess of \$750 to be paid to the attorney by the claimant for the representation of such claimant.

"(e) To the extent that past-due benefits are awarded in proceedings before the Administrator or a court, the Administrator shall direct that payment of any attorneys' fee that has been determined and allowed under this section be made out of such past-due benefits, but in no event shall the Administrator withhold for the purpose of such payment any portion of benefits payable for a period subsequent to the date of the final decision of the Administrator or court making such award.

"(f) The provisions of this section shall apply only to cases involving claims for benefits under the laws administered by the Veterans' Administration, and such provisions shall not apply in cases in which the Veterans' Administration is the plaintiff or in which other attorneys' fee statutes are applicable.

"(g) For the purposes of this section—

"(1) the terms 'final decision of the Administrator' and 'claim for benefits' shall have the same meaning provided for such terms, respectively, in section 4025(a) of this title; and

"(2) claims shall be considered as resolved in a manner favorable to the claimant when all or any part of the relief sought is granted.

"(h) In an action brought under section 4025 of this title, the court may award to a prevailing party, other than the Administrator, reasonable attorneys' fees and costs in accordance with the provisions of subsection (d) of section 2412 of title 28, as in effect on the day before the effective date of the repeal of such subsection (as provided in section 204(c) of the Equal Access to Justice Act (Public Law 96-481; 94 Stat. 2329; 28 U.S.C. 2412 note))."

Sec. 402. Section 3405 is amended—

(1) by striking out "or" after "title,"; and  
(2) by striking out "him" and inserting in lieu thereof "such claimant or beneficiary, or (3) with intent to defraud, in any manner willfully and knowingly deceives, misleads, or threatens a claimant or beneficiary or prospective claimant or beneficiary under this title with reference to any matter covered by this title".

#### TITLE V—EFFECTIVE DATES

Sec. 501. This Act and the amendments made by this Act shall take effect on the first day of the first month beginning not less than 180 days after the date of enactment of this Act.

Sec. 502. A civil action authorized in subchapter II of chapter 71 of title 38, United States Code (as added by section 302(a) of this Act) may be instituted to review decisions of the Board of Veterans' Appeals rendered on or after April 1, 1987.

● Mr. SASSER. Mr. President, I am pleased to again join as an original cosponsor of the Veterans' Administration Adjudication Procedure and Judicial Review Act. This bill will allow veterans the right to seek judicial review of final claim decisions made by the Veterans' Administration and will raise to a reasonable amount the current \$10 cap on legal fees for attorneys who represent veterans.

The United States has always placed a special emphasis on caring for its veterans. Veterans' benefits have traditionally encouraged many fine young men and women to join the

Armed Forces. Yet, despite all the Federal programs and benefits offered veterans, current law relegates veterans to second-class citizenship as they try to secure their lawful benefits and services.

A 1933 law prohibits a veteran from taking the Veterans' Administration to court after a final decision has been made on his or her claim by the Board of Veterans Appeals. As a result, veterans who have grievances involving VA benefits do not have the same rights as other citizens to their day in court. Although the VA system works well for many veterans, it is becoming increasingly clear that it does not work well in a number of claims, such as those filed by veterans suffering from exposure to agent orange and atomic radiation.

In addition, an 1864 statute limits legal fees in veterans' benefits cases to \$10. While this limit was important to protect Civil War veterans from rapacious lawyers, today, it effectively denies veterans legal representation as they pursue their claims within the VA system. Thus, it is clear that if we are going to allow veterans the right of judicial review, we should also raise the limit on legal fees to a reasonable amount to ensure that veterans have adequate legal representation in court.

The legislation we offer today removes the legal barriers veterans presently face in fighting to obtain benefits denied them by the VA. Similar legislation has passed the Senate the last four Congresses. It is my hope that we can overcome obstacles to enacting this measure in the 100th Congress. I believe we must enact this legislation promptly and I urge my colleagues in the Senate to continue their support for this important bill.

It is time that we allowed our veterans the basic right to have their day in court. It is a right that all American citizens deserve, most especially our veterans.●

By Mr. CRANSTON (for himself, Mr. MURKOWSKI, Mr. MATSUNAGA, Mr. DECONCINI, Mr. MITCHELL, Mr. ROCKEFELLER, Mr. GRAHAM, Mr. COHEN, and Mr. HOLLINGS):

S. 12. A bill to amend title 38, United States Code, to remove the expiration date for eligibility for the educational assistance programs for veterans of the All-Volunteer Force; and for other purposes; to the Committee on Veterans' Affairs.

#### NEW GI BILL CONTINUATION ACT

Mr. CRANSTON. Mr. President, as the chairman of the Committee on Veterans' Affairs, I am today introducing S. 12, the proposed "New GI Bill Continuation Act." Joining with me as original cosponsors of this measure are the former chairman and now ranking minority member of the committee, the Senator from Alaska [Mr. MUR-

KOWSKI], as well as my fellow committee members from Hawaii, Arizona, Maine, West Virginia, and Florida, Senators MATSUNAGA, DECONCINI, MITCHELL, ROCKEFELLER, and GRAHAM, and the Senator from Maine [Mr. COHEN]. This measure would provide for the continuation—beyond the current June 30, 1988, eligibility expiration date—of both the program of educational assistance for members of the All-Volunteer Force under chapter 30 of title 38, United States Code, popularly known as the "New GI Bill," and the program of educational assistance for members of the Selected Reserve under chapter 106 of title 10, United States Code.

Mr. President, these programs were enacted in title VII of the Department of Defense Authorization Act, 1985 (Public Law 98-525), derived from legislation authored by the chairman of the House Committee on Veterans' Affairs and also a senior member of the House Armed Services Committee, Mr. MONTGOMERY, in the House and from legislation that I, along with Senators ARMSTRONG, COHEN, and others sponsored in this body. Under current law, the programs are established as a 3-year test of the recruitment and retention value of the educational assistance they offer. Under the chapter 30 program, a servicemember entering on active duty for the first time during the 3-year period from July 1, 1985, through June 30, 1988, who does not, upon entering on active duty, decline to participate in the program is entitled to basic educational assistance benefits—generally, \$300 a month for 36 months for a total of \$10,800—in exchange for completion of a 3-year tour of active duty. Alternatively, an individual who completes a 2-year tour of active duty and 4 years' service in the Selected Reserve is entitled to 36 months of basic educational assistance benefits of \$250 a month. These basic benefits are paid for and administered by the Veterans' Administration. In return, the servicemember incurs a nonrefundable, \$100-per-month, reduction in pay during the first 12 months of the service period. In addition, the service branches may offer recruits various kickers and other enrichments in order to enhance recruitment in critical skill areas or to encourage longer enlistments. These supplemental benefits are administered by the Veterans' Administration but are paid for by the individual service branch.

Under the chapter 106 program, with respect to the Selected Reserves, all reservists who enlist, reenlist, or extend for a period of not less than 6 years during the test period can receive a noncontributory educational benefit of up to \$5,040 for undergraduate college education. These benefits are administered by the Veterans' Ad-

ministration but paid for by the Department of Defense.

According to Department of Defense data, as of September 30, 1986, there were 205,548 participants in the chapter 30 programs and 34,613 in the chapter 106.

Our bill would provide for the indefinite continuation of these programs by elimination of the June 30, 1988, termination date of the period during which an individual must, in order to earn new GI bill benefits, enter on active duty, because a member of the Armed Forces, enlist or reenlist in the Selected Reserves, or extend his or her Selected Reserve service.

Mr. President, the chapter 30, new GI bill, program replaced the much less attractive Post-Vietnam Era Veterans' Educational Assistance Program—known as "VEAP"—which initially was suspended during the test period by Public Law 98-525 but now has been terminated for new enrollments by section 309 of Public Law 99-576, the Veterans' Benefits Improvements and Health-Care Authorization Act of 1986. Similarly, the chapter 106 program replaced a much less attractive program of educational assistance for the Selected Reserves which offered fewer benefits to fewer individuals.

As a coauthor of legislation in the Senate that helped lead to the enactment of the new GI bill, I have long believed in the value of educational assistance benefits as an effective tool for recruitment and retention in the All-Volunteer Armed Forces. I continue to believe it is vital that we do everything necessary to make the All-Volunteer Force work and to avoid recourse to conscription to meet our uniformed services personnel needs. The last thing our Nation needs at this point—especially for its young people—is a return to the divisiveness that inevitably accompanies a military draft.

In addition, I consider veterans' educational assistance a highly beneficial investment in our human resources by contributing to the educational development of the young men and women who serve in our Nation's military. The enormous contributions that have been made by the three predecessor GI bills to our Nation through the education and training of our citizenry and the increased productivity, gross national product, and tax revenues produced thereby are well known. The original World War II bill, signed into law on June 22, 1944, is often said to have had more impact on the American way of life than any law since the Homestead Act. Almost 20 million veterans have trained under GI bill programs since World War II.

In a March 1986 report entitled "The New GI Bill: Potential Impact of Ending it Early," the General Accounting Office discussed the recruit-

ment and retention aspects of the administration's proposal submitted in connection with its fiscal year 1987 budget to terminate the new GI bill prior to the end of the test period. In the report, the GAO noted that, since the benefits are greater under the new GI bill than under VEAP and the Government pays a much greater proportion of the benefits, certain budgetary savings will always be produced by proposing termination of the new GI bill. However, the GAO also stated:

While the potential impact of the New GI Bill on recruiting cannot be conclusively determined, Army statistics show a marked recruiting improvement since the New GI Bill was started on July 1, 1985. In addition, data obtained from the Reserve and National Guard components of the Army and Air Force show other improvements in enlistment, reenlistment, and extension statistics since the start of the New GI Bill.

Mr. President, although it may be that the impact of the new GI bill on Armed Forces recruitment and retention cannot at this time be conclusively determined, I believe that additional study and analysis will demonstrate clearly that the impact of the new GI bill is a positive one.

Certainly, some substantial data already exist in support of maintaining the new GI bill. For example, the new GI bill allows recruiters to penetrate the college-oriented market of young people. Not only does the use of educational benefits to recruit college-oriented young people benefit our Armed Forces, but it also benefits our country in terms of the development of a more highly educated labor force. As reported by the Department of Labor, in 1984 workers with college degrees had median earnings of \$27,777. Workers who had completed only high school had median earnings of \$18,350 and those with fewer than 4 years of high school earned only \$14,776. There is no question that increased taxes paid over a lifetime of work on increased income repays many times the cost of the education borne by the taxpayer.

In addition, analyses conducted by the U.S. Army Recruiting Command show that educational assistance is the most cost-effective means of getting high-quality recruits—that is, recruits in mental categories I through III-A. According to a recent survey conducted by the Army, 35 percent of today's recruits cite the educational benefits as their principal reason for enlisting. Recruits in the upper-level mental category, the high-quality individuals our Armed Forces increasingly need, are attracted by educational benefits, not bonuses. Indeed, the Army survey found that the prospect of money for college is now the leading reason young men and women enlist, replacing a negative motivation: inability to get a civilian job. The effectiveness of the new GI bill in this regard is evidenced by the fact that Army high-quality contracts increased 10 percent

during the first 12 months of the program's operation.

For the Reserve components, the new GI bill has had an even greater recruiting impact with respect to quality. High-quality recruits in the Army Reserve components increased 24 percent for the first 12 months of the new GI bill. High school graduate recruits in Army Reserve components increased 9 percent and 6-year enlistments increased 28 percent during the same period.

Mr. President, according to Lt. Gen. Robert M. Elton, Deputy Chief of Staff for Personnel for the Army, if the new GI bill were to be terminated or expire the result would be an annual reduction of 6,000 high school graduates in the upper-mental category. This in turn would increase attrition by 1,400 losses at a cost in excess of \$25 million. In addition, the termination of the new GI bill could contribute to a return to the difficulties experienced in recruitment and retention so prevalent in our Armed Forces during the late 1970's and early 1980's. For example, in fiscal year 1980, 57 percent of non-prior-service accessions were in the category IV mental category as compared with only 4 percent category IV's recruited during fiscal year 1986.

The new GI bill's value as a recruiting tool for our Armed Forces has recently been highlighted in an article entitled "GI Bill, Once a Reward, Is Now a Lure to Sign Up," which appeared in the December 5, 1986, *New York Times*.

Mr. President, I request unanimous consent that this article be printed in the *RECORD* at the conclusion of my remarks.

#### RESPONSE

Mr. CRANSTON. Mr. President, in summary, the new GI bill serves not only as an incentive to attract high quality young people into our Armed Forces and their Reserve components but also as a prudent, wise, and cost-effective investment in our Nation's human resources and a time-proven effective transition mechanism for members of our Armed Forces who elect to return to civilian life. There is no reason to perpetuate any uncertainty about the future of this program. I believe it would be very difficult to design a better, more cost-effective program than the new GI bill. It clearly should be made a part of the permanent framework of benefits provided to those who serve the Nation in our Armed Forces and taken into consideration on a continuing basis by those responsible for planning how best to meet the recruitment and retention needs of those forces.

Mr. President, before concluding my remarks, I want to take a moment to offer my congratulations to the administration for reversing its position

on this issue. Last year, as I noted, the administration proposed in its fiscal year 1987 budget to terminate the new GI bill entirely. This year, in its fiscal year 1988 request, the administration has indicated that it will submit legislation to make the program a permanent recruitment and retention program for the Department of Defense. However, I note that we are not in complete agreement on this issue as the administration will propose that the Department of Defense be responsible for all funding of the program. I reject that approach and continue to believe that the VA should bear at the portion of the costs for basic benefits—that it does under current law—for what is, at least in part, a readjustment benefit.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD at this point prior to the New York Times article together with an article that appeared in the January 5, 1987, issue of the Veterans of Foreign Wars' Washington Action Reporter entitled "The New GI Bill."

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 12

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "New GI Bill Continuation Act".

#### SEC. 2. CONTINUATION OF THE ALL-VOLUNTEER FORCE VETERANS' EDUCATIONAL ASSISTANCE PROGRAM.

(a) Section 1411(a)(1)(A) of title 38, United States Code, is amended by striking out "during the period beginning on July 1, 1985, and ending on June 30, 1988," and inserting in lieu thereof "after June 30, 1985."

(b) Section 1412(a)(1)(A) of such title is amended by striking out "during the period beginning on July 1, 1985, and ending on June 30, 1988," and inserting in lieu thereof "after June 30, 1985."

#### SEC. 3. CONTINUATION OF EDUCATIONAL ASSISTANCE FOR MEMBERS OF THE SELECTED RESERVE.

Sec. 4. Section 2132(a)(1) of title 10, United States Code, is amended by striking out "during the period beginning on July 1, 1985, and ending on June 30, 1988" and inserting in lieu thereof "after June 30, 1985".

[From the New York Times, Dec. 5, 1986]

#### G.I. BILL, ONCE A REWARD, IS NOW A LURE TO SIGN UP

(By Richard Halloran)

WASHINGTON, Dec. 4.—At the end of World War II, Congress voted the first G.I. Bill of educational benefits to help transition back to civilian life for those who had served. Later the bill was extended to those who served in Korea and Vietnam.

Since the end of the draft and the advent of all-volunteer services in 1973, however, the purpose of the G.I. Bill has fundamentally changed. It has become less a reward and more an incentive to attract young recruits to all the services.

Today, halfway through a three-year test of a new version of the G.I. Bill, the Army has found in a survey that the prospect of money for college is now the leading reason young men and women enlist, replacing a negative motivation: inability to get a civilian job. The next reason given is to learn a skill.

#### BIG RISE IN PARTICIPATION

Army officers also say that 85 percent of new recruits today sign up for the new bill—they must commit to it at the beginning of their service—as against 38 percent under the old Veterans Educational Assistance Program, which ran from 1977 to 1985.

Perhaps most important, the officers report, the new bill has been a key reason that more than 90 percent of those enlisting today are high school graduates, who drill sergeants say make better soldiers than non-graduates.

"From the Army's standpoint," said Maj. Gen. William G. O'Lesky, director of military personnel management, "the test has been eminently successful."

But there are costs. The Government's contribution to benefits under the new bill is higher than it was under the Educational Assistance Program, although less than it was under the still earlier G.I. Bill. For a three year stint in the Vietnam War, the Government paid the veteran \$16,128 in benefits; under the 1977-85 program, that dropped to \$5,400; the new G.I. Bill costs the Government \$9,600.

The new bill costs little now because few young people have served long enough to begin drawing benefits. For this fiscal year, the outlay will be only \$400,000. By 1993, according to Army projections, it will have jumped to \$400 million a year.

#### LESS THAN CIVILIAN GRANTS

As against Government aid to education for civilians, however, that is a relatively small sum. The Department of Education's budget last year for Pell Grants cost the taxpayers \$3.9 billion.

Another cost of the G.I. Bill over the long run is that it does not help, and many hinder, efforts to retain experienced soldiers. The prospect of a large sum of money to help pay for college gives bright young people an incentive to leave.

But Army officers argue that their service, unlike the Navy and Air Force, which need many technicians, wants large numbers of "grunts," or combat soldiers, for a relatively short period. Only a small portion need be retained as sergeants. In addition, the Army offers bonuses for young men and women who enlist for four years and learn a needed skill. They can earn another bonus by re-enlisting.

Until 1977, all educational benefits under the G.I. Bill were paid by the Government. After that, each soldier, sailor, air force member or marine elected to contribute from \$25 to \$100 a month while in the service. The Government matched that, \$2 for each \$1 contribution, for a maximum benefit of \$8,100.

But that program did little to overcome a military pay scale that lagged behind the civilian sector. Barely half of the Army's recruits in the late 1970's were high school graduates and the service met quotas only by enlisting people who passed the armed forces entrance tests with the lowest acceptable scores.

Then Congress in 1979 authorized the Army, but not the other services, to offer extra payments, known in the military as "kickers," to attract high school graduates

and those who could score well. The added benefits were \$8,000 for a two-year tour of service and \$12,000 for three years.

The kickers, along with substantial raises in the early 1980's, improved recruiting. But many in Congress were still dissatisfied. That led to the new G.I. Bill, which became effective in July 1985, with a test to run until June 1988.

#### BENEFITS PAID FOR 3 YEARS

Today, a young person entering the Army or any of the other services must choose the G.I. Bill the day he or she joins and agree to contribute \$100 a month of the \$573 base pay for the first 12 months of service. After two years, the soldier's benefit is \$9,000; for three years, \$10,800. In either case, the benefits are paid monthly for 36 months while the ex-soldier is in an accredited college.

On top of the G.I. Bill is the Army's College Fund, the kicker a recruit may earn for enlisting in the combat arms, such as infantry, armor or artillery, for which only men are eligible. But men and women both may earn kickers by agreeing to train for a specialty the Army needs, including tank mechanic, electronic warfare specialist and parachute rigger. A soldier who serves for four years can leave with \$25,200 in benefits.

The Army also began in 1985 to offer benefits to men and women who completed two years of college. They may enlist for two years in a specialty the army needs, then return to college in the Reserve Officers Training Corps for two years with a benefit worth \$21,000.

[From the VFW Washington Reporter, January 1987]

#### THE NEW G.I. BILL

(By Cooper T. Holt)

The Veterans of Foreign Wars should take great pride in the important role it has played in the development of the new GI Bill.

No doubt about it, the new GI Bill is, across the board, the best educational incentive the Department of Defense has to offer today.

Further, it is a low cost and highly patriotic means for this nation's young people, who could not otherwise afford it, to further their education and then fully achieve their potential both as mature individuals and as informed citizens.

All this is accomplished while providing the necessary high quality personnel to maintain our all volunteer armed forces.

Even so, a dark cloud in the form of certain Administration and OMB officials who view this highly beneficial program as overly generous has fallen over the new GI Bill. These shortsighted bureaucrats maintain the program is too expensive.

The VFW is incredulous at this assertion. The new GI Bill is dollar-for-dollar the most cost-effective means of recruitment now in existence. The Army has stated that the new GI Bill is saving it about \$234 million a year in military personnel costs.

These savings come from attracting more intelligent and highly motivated people into the military. These bright, hardworking recruits pose fewer disciplinary problems and are more likely to complete their initial obligation.

This reduces wear and tear on equipment and brings down the overall training cost. Simply keeping high quality personnel in the military for the whole enlistment saves money because it cost \$10,000 to recruit an

individual. Additional money is saved by not having to duplicate the training for a new person.

The VFW would point to the fact that the size of this program in dollars in return for service to the nation pales in significance when compared to the massive Pell Educational Grant program of close to \$4 billion annually.

Pell grants are provided with no expectation of service to the nation whatsoever in contrast to the new GI Bill which directly benefits both the participant and the country.

Now the all volunteer armed forces are generally regarded as a success. But it is generally understood that the military will come under pressure in the next five years because of fewer potential recruits and less money.

The pool of those 17 to 20 years old is shrinking. But late 1991 there will be just over 13 million in this age group, down from 17.5 million in 1980, that means the services will have to draw a higher percentage from the available pool.

At the same time, budget pressures are eroding many of the bonuses and financial incentives the Pentagon relies on to attract a soldier. Even after accounting for the recently approved 3 percent pay increase, enlisted soldiers and sailors next year will be paid 9.6 percent less than the Defense Department, figures they could earn in the private sector. That's the biggest gap in 10 years.

Compounding these problems is the uncertainty about the continued existence of the GI Bill educational benefit program. According to the Army, 35 percent of today's recruits cite educational benefits as their principal reason for enlisting. Additionally, according to a 1985 new recruit survey, 43 percent, of the high quality recruits—those most needed to maintain the high-tech armed forces—would not have joined except for the GI Bill and Army college fund.

Thus, the future not only of the new GI Bill but also the all volunteer armed forces might depend on whether the armed services can convince White House budget planners that the educational benefits program can pay for itself by improving recruit quality and reducing turnover in personnel. The Veterans of Foreign Wars, for its part, stands ready to do everything in its power to ensure the continuation of this invaluable readjustment benefit for those young men and women who have chosen to serve in the armed forces.

Along with providing a highly motivated and capable armed forces, drawn from a full cross section of the population, the new GI Bill's indirect benefit to the nation is also profoundly felt. For example, the country benefits from a more highly educated populace. As reported by the Department of Labor in 1984, workers with college degrees had median earnings of \$27,800. Those who had completed high school had median earnings of about \$18,400 and those with fewer than four years of high school earned only about \$14,800. Increased taxes paid on increased income more than repays the cost of this educational benefit.

As I have already stated, recruitment problems will become more severe through the years because of the continuing decline in the 18-year-old population. It will be necessary to recruit one out of every two eligible noncollege males by the early 1990s.

Furthermore, the manpower ceilings now in place increase the importance of recruiting quality young people as the nation seeks

to maintain its worldwide commitments. It is more important than ever to value quality over quantity in the recruiting process.

With this in mind, the VFW points to the fact that the Army has estimated that the loss of the new GI Bill would result in an annual reduction of 6,000 upper half high school graduates. This would in turn increase annual attrition by 1,400 at a cost of more than \$25 million. The Army expects a 10% lower job performance from those who replace the lost high quality personnel.

Quite honestly I just cannot see how the armed forces or the nation can afford to let this invaluable, educational and recruiting program go by the boards for lack of funding.

Our nation is served best by an educational incentive which most improves our people resource. Participation rates indicate that the new GI Bill is the incentive our military personnel will use the most and will therefore provide the greatest improvement to society as a whole. To my mind the time is right to make the new GI Bill permanent. With the termination of VEAP, the lackluster former educational assistance incentive program, a permanent new GI Bill is imperative.

As it stands right now, the new GI Bill is scheduled to expire in July of 1988. This in itself is hurting military recruitment since it is causing uncertainty about the continued wellbeing of the program.

As a readjustment mechanism for veterans returning to civilian life, an incentive to attract high quality young people into military service and a prudent investment in our nation's human resource, it will be difficult to design a better program than the new GI Bill. The cost of this program, when compared with the direct and indirect benefit to the nation, is finally very small indeed. In fact, there are few things that this nation has undertaken which have been so very profitable in both the short and long term. The armed forces and the nation cannot afford to have the new GI Bill killed. It is time to include it as a line item in the President's budget.

● **Mr. MURKOWSKI.** Mr. President, I rise to join with my colleague, Senator CRANSTON, who today again assumes the responsibilities of the chairmanship of the Committee on Veterans' Affairs, in introducing legislation which would make permanent the current veterans' education pilot program popularly known as the New GI Bill. I urge my colleagues to join me in supporting this important step in continuing the Nation's long and distinguished tradition of rewarding, and providing for the readjustment to civilian life, of those who secure and protect our freedom.

Balancing the obligations of the Nation to individual citizens against the obligations of individual citizens to their Nation is one of this body's most important functions. This interlocking tapestry of duty and responsibility is perhaps nowhere more vivid than in the protection of our independence and liberty.

The United States has no obligation more fundamental than ensuring that the freedoms and opportunities we enjoy are protected from those who would destroy them by force of arms.

To meet this obligation to its citizens the Nation must impose upon them a corresponding duty to support the Armed Forces which defend both the Nation and the Constitution which protects our liberties. At times, that support must take the form of service in the Armed Forces.

When circumstances compel us to call Americans to arms we, in turn, have a responsibility to provide for the readjustment to civilian life of those who have protected our liberty. Veterans' benefits are one of the major tools we have to meet this responsibility.

In the early years of the Republic, we provided former soldiers with grants of land. This was a generous and appropriate benefit for an agricultural economy. In subsequent years we provided old age pensions for former soldiers. This was a generous and appropriate benefit in an era when Social Security was still a dream. Since World War II, we have provided education benefits to our returning servicemembers. In a nation increasingly dependent upon the knowledge and skills of its citizens, such a benefit works to the advantage of society as well as the veteran. In an economy where the future of an individual is dependent on his or her education, such a benefit allows an individual to prepare for a productive and independent life. An education benefit is uniquely appropriate to assist veterans in their readjustment to civilian life and to provide the United States with the productive and skilled citizens we will need to succeed in the highly competitive international economy we can expect to face in the future.

The education benefits of the original GI bill were limited to veterans who were called up during time of war. Thus, veterans of World War II and Korea received education benefits; veterans who served only during the peacetime period between World War II and Korea did not. In 1966, when the Vietnam-era GI bill was enacted, eligibility was retroactively extended to veterans of the peacetime period between the Korean conflict and the Vietnam era. The provision of education benefits for veterans of peacetime service acknowledged two changes in the defense of our Nation. First, we no longer maintain only a small professional military during times of peace. We must maintain large standing Armed Forces, ready for action at all times. This means that at any one time we must call upon millions of Americans to wear the uniform of the Armed Forces. In addition, service during peacetime is not always peaceful. The men and women of our Armed Forces have always stood ready to defend our liberty without regard to whether the Nation was at peace or war. However, rarely have peacetime

servicemembers been required to attain and sustain a level of readiness and operational tempo comparable to that of today.

Rarely have peacetime servicemembers been subject to armed attack as they are today. Rarely have peacetime servicemembers been required to be ready to make the transition from peacetime to wartime on such short notice. We can be proud that the men and women who wear the uniforms of our Armed Forces are successfully meeting the challenges of the eighties. We must, however, remember the interwoven tapestry of reciprocal responsibility and duty created by their service. Mr. President, at the moment I speak, the men and women of our Armed Forces are on duty in defense of this body, the Constitution which created it, and the Nation which sustains us all. Their service imposes on this body an obligation to provide the tools for transition to civilian life when their service is completed. An education benefit is the ideal tool for that task. The Education Program created by chapter 30 of title 38, United States Code, commonly known as the New GI Bill, is the ideal education benefit to meet this need.

The new GI bill was conceived and created with the benefit of the experience and knowledge gained through the operation of the veterans' education programs which preceded it. The new GI bill is voluntary. Only those servicemembers who desire to participate in the program do so. Participants in the new GI bill do not make contributions to fund their participation. Instead, they elect to receive a lower rate of pay for the first year of their service. In comparison with earlier veterans' education programs the value of the educational opportunity created by the new GI bill is enhanced by both the servicemember's voluntary decision to participate and by the short-term sacrifice represented by the lower rate of monthly pay. A servicemember who knows that an honorable discharge will create an opportunity for education is more likely to provide enthusiastic and honorable service than one whose enlistment was motivated by the prospect of immediate gratification from a bonus or high rate of pay. In addition, the servicemember is more likely to derive long-term advantage from an investment in education than from the pleasures and objects which can be purchased with ready cash. This advantage, like the advantage to the Nation of skilled, knowledgeable citizens, will last throughout the individual's lifetime.

The new GI bill differs from the education program which preceded it in several important points. It provides a significantly greater monthly amount to the student in training. Thus, it is more likely to be successful in attracting recruits whose future

plans include postsecondary education. Participation requires accepting a reduced rate of pay rather than making refundable contributions. Thus, the benefit is more likely to be used, providing both the individual and the Nation with the benefits of postsecondary education. In contrast with earlier programs it is voluntary; only those who want it will get it.

The new GI bill has been in operation since July 1985. It is successful. Representatives of the Armed Forces responsible for recruiting cite it as one of their most valuable tools in recruiting the high quality young men and women they need to ensure our Armed Forces will continue to be able to meet the challenges of the eighties. In addition to its success in this short-term goal, the new GI bill will also, as I have already mentioned, provide the long-term benefits of education to both the participants and the Nation.

I expect to see another, more subtle benefit accrue to the Nation and the Armed Forces as a result of the continued availability of the new GI bill. In his book, "The Straw Giant," Arthur Hadley describes what he calls the Great Divorce between those who make the decisions that guide all segments of our society and those who have served in the Armed Forces. In short, he is describing the costs that we all pay when decisionmakers have no military experience. Since education is a basic prerequisite for those who would seek decisionmaking positions; failure to provide an education benefit to former servicemembers would only perpetuate a condition which threatens to weaken our society and Armed Forces. The new GI bill is an important step in the necessary process of ensuring that those who have served in our Armed Forces will be able to obtain the education necessary to participate in the decisions that shape American life; not just at the highest levels of national power but also on the shop floor, in small businesses, in school, church, labor, and fraternal organizations, in the media and on the street. It is critical for the Nation's understanding of the capabilities and limits of military power that the graduates of America's higher education include those who have served in the Armed Forces.

Mr. President, it is clear the new GI bill should be a permanent program. The time to act is now. Under current law, individuals who enter the Armed Forces on or after July 1, 1988, will have no veterans' education program available to them. This year, Congress will be making decisions on the 1988 budget. This year, recruiting officers will be making decisions on their plans and strategies for recruiting the young men and women they will need to continue to meet the defense challenges of the eighties and nineties. This year, the young men and women of America

will be making decisions about their future. If Congress fails to act quickly, these decisions will be made to fit a world in which, on July 1, 1988, there will be no veterans' education program.

Mr. President, I have discussed the reasons why failure to provide a veterans' education program would ill serve the Nation. I ask my colleagues to note that the joint introduction of this bill by my distinguished colleague Senator CRANSTON, the new chairman of the Committee on Veterans' Affairs, and myself as ranking minority member, is a strong signal that support for this measure is not a partisan issue. The new GI bill enjoys strong support on both sides of the aisle and in both bodies of Congress. I am confident this body will soon have an opportunity to make this important program a permanent one. I urge my colleagues to join with Senator CRANSTON and myself in supporting this important step toward providing the veterans' readjustment and education benefit needed by the Nation, the Armed Forces, and by individual veterans. ●

By Mr. CRANSTON (for himself and Mr. WILSON):

S. 13. A bill to amend the Export Administration Act of 1979 to require the establishment and operation of the western regional export licensing office; to the Committee on Banking, Housing, and Urban Affairs.

WESTERN REGIONAL EXPORT LICENSING OFFICE  
ACT

Mr. CRANSTON. Mr. President, I am reintroducing today a bill to create a western regional Office of Export Administration. Our current export licensing policy is a significant and major impediment to our country's overall competitiveness. At a time of record high trade deficits, we must take action to make our businesses and our workers more competitive. We must look especially hard at those areas in which the Federal Government hampers export activities. U.S. export licensing practices is one of these areas.

I propose establishing a second export licensing office in the western region to alleviate the enormous administrative burdens the current licensing system places upon American businesses. There is presently one office, located in Washington, DC, which is responsible for issuing all export licenses. The second proposed office will also operate under the jurisdiction of the U.S. Department of Commerce and will have the authority to issue export licenses for all controlled products and commodities for export as designated by the Export Administration Act.

This proposal deals with only part of the export licensing problem: The administrative procedures businesses

must contend with to obtain an export license. The source of many licensing problems stems from U.S. export control policy—the statutes and regulations that govern U.S. products for export. Export control policy has a major impact on U.S. competitiveness. Over the past decade, the Federal Government has increased the administrative and competitive burden on exporters through stricter licensing requirements, export controls and total embargoes. It is alarming to me to see reports that leading foreign electronic equipment manufacturers are beginning to redesign their products to incorporate fewer U.S. components. They cite the administrative complexity of the controls for increasing the cost of U.S. technology exports, delaying deliveries and creating business uncertainty.

Our costly and restrictive export licensing practices are mortgaging our future.

I support export controls on commercial goods and technologies when these items have critical military significance and are not otherwise available to controlled countries. But I vigorously oppose controls that impair our ability to compete in worldwide markets and do not provide a comparable national security benefit. Some of my colleagues and I are exploring changes to the Export Administration Act that will address the substantive concerns of U.S. exporters. We are seeking the advice and suggestions of those most knowledgeable about the situation and intend to embody the results in subsequent legislation.

The administrative burdens we place upon U.S. exporters is substantial. In fiscal year 1985, the Department of Commerce's Office of Export Administration received 125,000 license requests. Twenty-five percent came from my home State of California. The fastest growing markets for high-technology products are the newly industrializing economies on the Pacific Rim. California and other Western States can be expected to be on the leading edge of capturing those markets. The export potential in this area is enormous. Demand from the modernizing Asian countries for electronic technology is expected to grow for the foreseeable future. These facts alone justify a Department of Commerce export licensing presence on the west coast.

The President's Commission on Industrial Competitiveness estimated that the combined export licensing costs of the Departments of Commerce, Defense, State, and Energy was \$30 million in 1984. It estimated that industry's annual expenditure was \$35 to \$40 million. One-third of this expenditure was due to controls imposed upon U.S. business with respect to our Cocom partners—a group of 15 countries that cooperate in restricting strategic exports to the Soviet Union and

other Eastern bloc or controlled countries. The Commission also noted that licensing delays for exports of generally allowable technology to non-Cocom nations averaged 4 to 6 months in the United States. That delay was 2 months in France and the United Kingdom, and 1 month in Japan. As these numbers show, the competitive disadvantage to the United States is clear.

With a staff of only 280 individuals, the Office of Export Administration is required to handle not only tens of thousands of licensing requests—a number that is steadily increasing—but, in addition, is required to issue and monitor multiple-transaction licenses, issue commodity classification rulings and provide interpretive advice on a complex regulatory scheme. Although the staffing level has increased at the Office of Export Administration, I do not believe it is adequate to meet the demands we have placed upon it.

The Department of Commerce is aware of many of the deficiencies in the licensing process and has made considerable improvements in the processing time for license applications—even in the wake of budget cuts. In testimony before the House Foreign Affairs Subcommittee on International Economic Policy and Trade, Dr. Paul Freedenberg, Assistant Secretary of Commerce for Trade Administration, testified that in the second quarter of fiscal year 1986, the average processing time for a free world case was 21 days. For exports to Cocom member countries, the cases are being processed on average in 2 weeks. I note, however, that these time periods do not reflect either the time to log in an application or the time to mail a license after it has been validated. This adds days—even weeks—to the total processing time. If a referral to the Department of Defense is required or there are questions about the classification of an item, for example, this can add months to the processing time. My intent in pointing this out is not to undercut the achievements and real improvements at the Department of Commerce, but to emphasize that the improvements may be overstated and highlight the need to make further inroads in expediting the licensing process. Although it is true that we have reduced the time it takes for businesses to obtain a routine license, we still must compete with nations like Japan, Canada, France, or Great Britain that have virtually no waiting period.

Other hidden delays arise when applications are returned for incomplete information. When licensing personnel determine a license application is deficient in any respect, for example, that a form lacks one or more required details, the license is not held until the applicant is notified and asked to

submit corrected documentation. Instead, the entire license application is returned without action to the applicant by mail. The application may have been lodged at the Office of Export Administration for weeks before any review, and it may take several more weeks for the rejected application to be processed, mailed and received by an applicant in the United States. The situation for a foreign application for a reexport request can be much worse. Licensing documents destined for foreign applicants generally are sent by diplomatic pouch to the U.S. Embassy, which then mails them to the applicant—a process that can take an additional 5 or 6 weeks.

Unfortunately, these delays occur all too frequently. In fiscal year 1986, for example, the Department of Commerce returned without action 20,673 licenses—or in 1 out of 7 cases. We often fail to recognize the costs involved in handling incomplete applications in this way—costs accrue to both the exporter and to the Commerce Department. The loss of several months time to a business in this rejection process can create a commercial emergency where one did not otherwise exist. And since the Office of Export Licensing treats the resubmitted license as a new license, it must incur startup costs for that application all over again. Better communication and better access to licensing officials could help improve efficiency.

There are many other cases in which the exporter is often unable to establish meaningful contact with the reviewing agency to obtain guidance about either the prospects for a favorable licensing decision or the manner in which an application should be prepared.

I believe a west coast licensing office could improve public access to licensing officials so that businesses that want to export can receive timely advice on whether an item can be exported. As a general policy, the Office of Export Administration does not issue what it calls hunting licenses. By this it means a license to export based merely on a business inquiry or a person's desire to obtain foreign business. There must be an order from a foreign person or firm for a particular product or technical data before the export licensing office will consider any business' application. I find this attitude astounding. We should be welcoming potential exporters with open arms and make it convenient for U.S. businesses that want to make money overseas. Yet we ask business to spend considerable time and resources to obtain orders overseas when they do not even know if they will be permitted to export their goods.

Mr. President, I sympathize with the limited resources of the Commerce Department, but I find this lack of access

unacceptable. The Federal Government should be aggressively helping our exporters. We must recognize how much we hurt U.S. exporters by these actions and the numerous ways we undermine our own competitiveness. I am talking about an attitude. I am talking about providing a disincentive to U.S. exporters that want to do business overseas. I am talking about making it almost impossible for small- and medium-sized high-technology businesses to export. In the long run, Mr. President, we are talking about the global competitiveness of the U.S. high-technology industries.

In part, the Commerce Department's closed-door policy represents an attempt to preserve the scarce time of its limited number of licensing officers and other policy personnel for actual review of license applications. The end result of this policy, however, is often inefficiency and delay. Exporters have difficulty in negotiating satisfactory conditions for approval of a license and in determining what supporting technical or other information is required for speedy evaluation of an application. If we would foster communication and a front door approach to the problems, we could reduce these delays.

All of the difficulties I have described are aggravated by an overloaded licensing system that creates problems for applicants and licensing officials alike. I believe that maintaining a west coast office of export licensing would improve the office's review function for western exporters. It would certainly improve public access to licensing officials so that businesses that want to export can receive timely advice on whether an item can be exported.

The Federal Government's attitude toward its exporters and potential exporters is inexcusable. We should be doing everything possible to help our exporters produce wealth. But we constantly throw obstacles before our competitive businesses when they try to export overseas. Mr. President, we shoot ourselves in the foot every step of the way. We are strangling exporters with redtape, bureaucracies, inconsistent policies, and a stubborn unwillingness to support our own people. We tell businesses they must fill out numerous forms, get the approval of the Department of Commerce, that may, in turn, need the approval of the Department of Defense, the Department of State, or the Department of Energy. Not only that, but should the company that received the U.S. product want to export to another company, it must ask the permission of the U.S. Government. We are the only Cocom member that legally enforces export controls over a licensed item after it has been exported.

Because trade has never been a central part of our domestic economic

policy, we do not look at the problems from the viewpoint of the exporter. We do not look at the problems from the vantage point of the competitor. More often than not, trade takes a backseat behind every other consideration.

My proposal is straightforward: tell our businesses that we are with them. Provide them with the bare essential—decent access to a licensing process that the U.S. Government requires of them. We can send business a message that we want them to succeed and that we will help in any way possible.

To a California business executive the message is just the opposite. Washington is light years away. Not only does it often fail to recognize that the Pacific has surpassed the Atlantic in terms of trade, but it must be forced to respond to the business needs of the west coast. Last year, for example, as part of the Export Administration Act update, we had to require that the Office of Export Licensing remain open to accommodate the time difference between the east and the west coasts. We should not have to legislate these changes. The Federal Government should work for the good of the entire Nation.

When an eastern-based business runs into a licensing snag, it takes half a day to fly down to Washington to resolve it. That is often prohibitive for someone from California. It is expensive, it is time consuming, and it is unfair. It particularly hurts small- and medium-size businesses that cannot afford to hire a Washington attorney to resolve those snags.

I believe a western regional office can be established using existing resources and the existing Commerce regional office structure. In fact, I believe many time-saving efficiencies could be implemented now to decrease processing times for licenses. As world leaders in the field of technology we should use some of this technology for our own good. When a license has been granted, for example, a Commerce district office could be notified electronically within minutes and the paperwork released at the other end. This could save days of delay and thousands of dollars for the business involved. Unfortunately, the Federal Government does not think of the bottom line in this way.

I urge other Senators to join me in cosponsoring this initiative to create an export licensing office in the western region. It is a step we can take to reverse a closed-door export policy and one that could make a real difference in the way Americans do business overseas.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 13

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) this Act may be cited as the "Western Regional Export Licensing Office Act of 1987".*

(b) Section 15 of the Export Administration Act of 1979 (50 U.S.C. App. 2414) is amended by adding at the end thereof the following:

"(d) WESTERN REGIONAL OFFICE.—The Secretary shall establish and maintain a western regional office which shall have the authority to issue licenses for the export of goods and technology from the United States."

By Mr. BYRD (for Mr. BIDEN (for himself, Mr. ROCKEFELLER, Mr. KERRY, and Mr. BUMPERS)):

S. 14. A bill to amend the Energy Reorganization Act of 1974 to create an independent Nuclear Safety Board; to the Committee on Environment and Public Works.

#### INDEPENDENT NUCLEAR SAFETY BOARD

● Mr. BIDEN. Mr. President, today I am pleased to be joined by Senators ROCKEFELLER, KERRY, and BUMPERS in introducing a bill to establish an independent Nuclear Safety Board. The need for independent reviews of nuclear accidents, along with the policies and practices that may have led to them, has been demonstrated repeatedly in this country over the past decade. It is time to reform the Nuclear Regulatory Commission [NRC] so these critical and credible reviews can take place.

S. 14 will establish a three-member board to take the lead in investigations of accidents at facilities licensed by the NRC. Allowing an independent board to lead investigations of accidents will correct a number of deficiencies in the existing structure that have hindered the effectiveness of the NRC, to the long-term detriment of the American nuclear energy industry. Studies of the NRC have found that there is the potential for conflict when the Commission looks into accidents in which it may bear partial responsibility. An independent review of serious problems at reactors and other nuclear power-related facilities removes any hint of conflict and assures all of us that nothing is overlooked or swept aside.

In the last year, the NRC has established "independent investigatory teams" [IIT] to study accidents at commercial nuclear powerplants. Unfortunately, the independent label is misleading because the teams are still under the control of the Commission, so the conditions for a less than forthright investigation remain. In fact, the instructions for the first IIT investigation did not direct the team to look for NRC responsibility in the accident. Even without that instruction, it is contrary to common sense to expect a group of NRC employees, who presumably would like to stay happily em-

played at the agency, to consistently develop the critical assessment that is needed for public credibility.

A safety board will have the additional benefit of concentrating investigatory experience in a single office. The existing IIT approach has the drawback of establishing an ad-hoc team for each accident. There is no development of accident investigation abilities through the IIT; the system ensures that inexperienced investigators will lead probes into the most serious situations. This is not an acceptable solution. An independent safety board allows vastly improved investigative practices and results.

To complement the accident investigation authority, S. 14 also grants the safety board the authority to look into operational glitches that may be precursors to larger problems. This will not be the most noticed responsibility of the safety board, but it will be the most challenging and important. For the safety board to live up to its potential, it is imperative to grant it the widest possible latitude in what it can study. The safety board should not be called on just to "clean up the mess" after an accident, but should also be able to prevent them from happening in the first place.

The safety board called for in S. 14 will not require any increase in either the Federal budget or the Federal bureaucracy. Staff and financial resources devoted to the safety board will be offset by reductions in the NRC. Most of these will come from the elimination of the office of analysis and evaluation of operational data [AEOD]. Shifting the responsibilities of this office to the independent safety board brings the benefits of critical analysis and avoids a duplication of effort.

This proposal is based on the repeated recommendations of numerous commissions that have analyzed the NRC and its operations. Time after time, when the NRC has been studied by outside groups, the conclusion is reached that a safety board is needed. These findings date back to the Kemeny Commission, looking into the accident at Three Mile Island in 1979, which found the need for "An Oversight Committee on Nuclear Reactor Safety \* \* \* to examine on a regular basis the performance of the agency and the nuclear industry." The need was restated as recently as 1985 when a report prepared for the NRC by Brookhaven National Laboratory found that a safety board would be a major improvement in accident investigations.

Mr. President, as I have pointed out, there is a basic problem in the structure of the NRC that needs to be corrected. Under the current system, the NRC leads the investigation of accidents at most nuclear powerplants. A check of the NRC's record in this area

shows the risk of a conflict of interest to be more than a hypothetical problem. Investigations of several accidents and mishaps at nuclear powerplants have raised the possibility of partial responsibility on the part of the NRC. But the reports filed by the NRC have failed to critically analyze the agency's own role. The facts that led to the accident may be spelled out, but the question of "Where was the NRC during all this?" begs to be answered.

Last year, I brought to the Senate's attention the results of the NRC's investigation of an accident at the Davis-Besse nuclear powerplant in Ohio. This accident was termed by experts the nearest we have come to a meltdown in this country since Three Mile Island. The investigation of the accident detailed the events that led to the failure of feedwater pumps at the plant.

But the report omitted any criticism of the fact that the NRC knew about problems with the feedwater pumps for 6 years, considered the problem to be serious, and still failed to see the shortfalls corrected. It would seem to be important, for the safety of all nuclear powerplants as well as Davis-Besse, to find out why the NRC was unable or unwilling to bring about the needed changes during those 6 years. If the NRC cannot critically review its own practices and take corrective action, as its record at Davis-Besse shows, an independent safety board should be established to ensure that this is done.

The demands placed on the NRC have changed since it was created in 1974. The early focus was on getting nuclear powerplants on line, an area which is no longer active. Congress should not be the last to recognize that the nuclear energy industry has changed in this country, and that the Federal regulatory structure also needs to evolve. The public needs greater assurance that the safe operation of nuclear powerplants is the No. 1 priority in action as well as word.

Mr. President, the infamous explosion and fire at the Soviet Union's Chernobyl nuclear powerplant clearly demonstrated what the risks are in nuclear energy. While the international nuclear community seems to be taking the lessons of Chernobyl to heart, the American industry seems to put most of its resources toward explaining the differences between the Chernobyl plant and American ones. Clearly, they are missing the point. Although the exact circumstances would be different, the record for American nuclear plants is not one that should let us assume that the same result could never happen here. There have been too many events that came dangerously close to going out of control to allow business as usual to continue.

We must strive for the highest level of excellence in the operation of our

nuclear powerplants. It is disheartening to find that steps other countries willingly take to improve safety are so strongly opposed in this country. It should be unacceptable to the American public that foreign reactors are able to achieve better performance standards using technology that was largely invented or developed here. An independent nuclear safety board is a vital step toward seeing not only that our standards are raised, but also that they are met day in and day out.

Mr. President, I ask unanimous consent that the text of S. 14 be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 14

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SHORT TITLE

SECTION 1. This Act may be cited as the "Independent Nuclear Safety Board Act of 1987".

#### FINDINGS AND PURPOSE

SEC. 2. (a) The Congress finds that there is a great need for—

(1) vigorous investigation of events at facilities, or involving materials, licensed or otherwise regulated by the Nuclear Regulatory Commission; and

(2) continual review and assessment of licensing and other regulatory practices of the Nuclear Regulatory Commission, which assessment may result in conclusions critical of the Nuclear Regulatory Commission or its officials.

(b) The purpose of this Act is to establish an Independent Nuclear Safety Board which shall promote nuclear safety by—

(1) conducting independent investigations of events at facilities, or involving materials, licensed or otherwise regulated by the Nuclear Regulatory Commission;

(2) reviewing and assessing the licensing and other regulatory practices of the Nuclear Regulatory Commission;

(3) recommending to the Nuclear Regulatory Commission improvements in licensing and related regulatory practices; and

(4) informing the Congress of its investigation findings and recommendations.

#### ESTABLISHMENT OF NUCLEAR SAFETY BOARD

SEC. 3. Title II of the Energy Reorganization Act of 1974 (Public Law 93-438; 42 U.S.C. 5841 et seq.) is amended by adding at the end thereof the following new section:

#### "INDEPENDENT NUCLEAR SAFETY BOARD

"SEC. 212. (a) There is established an Independent Nuclear Safety Board (hereafter in this section referred to as the 'Board').

"(b)(1) The Board shall be composed of 3 members appointed by the President, by and with the advice and consent of the Senate, from among respected experts in the field of commercial nuclear energy with a demonstrated competence and knowledge relevant to the independent investigative and prescriptive functions of the Board. No more than 2 members of the Board shall be of the same political party. Not later than 90 days after the date of the enactment of this section, the President shall submit such nominations for appointment to the Board.

"(2) Any vacancy in the membership of the Board shall be filled in the same

manner in which the original appointment was made.

"(3) No member of the Board shall have any significant financial relationship in any firm, company, corporation, or other business entity engaged in activities regulated by the Commission either as licensee or contractor, or have such a relationship within the two years preceding his appointment.

"(c)(1) The Chairman and Vice Chairman of the Board shall be designated by the President. The Chairman and Vice Chairman may be reappointed to such offices.

"(2) The Chairman shall be the chief executive officer of the Board and shall, subject to such policies as the Board may establish, exercise the functions of the Board with respect to—

"(A) the appointment and supervision of personnel employed by the Board;

"(B) the organization of any administrative units established by the Board; and

"(C) the use and expenditure of funds.

The Chairman may delegate any of the functions under this paragraph to any other member or to any appropriate employee or officer of the Board.

"(3) The Vice Chairman shall act as Chairman in the event of the absence or incapacity of the Chairman or in case of a vacancy in the office of Chairman.

"(d)(1) Except as provided under paragraph (2), the members of the Board shall serve for terms of 6 years. Members of the Board may be reappointed.

"(2) Of the members first appointed—

"(A) one shall be appointed for a term of 2 years;

"(B) one shall be appointed for a term of 4 years; and

"(C) one shall be appointed for a term of 6 years;

as designated by the President at the time of appointment.

"(3) Any member appointed to fill a vacancy occurring before the expiration of the term of office for which such member's predecessor was appointed shall be appointed only for the remainder of such term. A member may serve after the expiration of the member's term until a successor has taken office.

"(4) Any member of the Board may be removed by the President for inefficiency, neglect of duty, or malfeasance in office.

"(e) Two members of the Board shall constitute a quorum, but a lesser number may hold hearings.

"(f) The Board shall have the following functions and authorities:

"(1)(A)(i) The Board shall investigate those events at any facility, or involving any materials, licensed or otherwise regulated by the Commission, which the Board determines to be significant because of possible adverse effects on the health or safety of the public or because such events could be the precursors of events that may adversely affect the health or safety of the public.

"(ii) The Board may request the Commission to make an investigation of the events described in division (i) and to report its findings to the Board in a timely fashion. Whenever the Commission concludes such an investigation, the Board may analyze the findings of the Commission for the purpose of making its own conclusions and recommendations.

"(B) The purpose of any Board investigation under this paragraph shall be—

"(i) to ascertain information concerning the circumstances of the event involved, and its implications for the public health and safety;

"(ii) to determine whether such event is part of a pattern of similar events at facilities, or involving any materials, licensed or otherwise regulated by the Commission which could adversely affect the public health or safety or which could be the precursor of events which could adversely affect the public health or safety; and

"(iii) to provide such recommendations to the Commission for changes in licensing, safety regulations and requirements, and other regulatory policy as may be prudent or necessary.

"(C) For the purpose of this paragraph, the term 'event' shall include an action or failure to act by any person, including the Commission as an organization and its staff, or a continuing series of actions or failures to act by any such person, including operational failures, that the Board determines to have a potentially adverse effect on public health as provided in this paragraph.

"(2) The Board shall have access to and may systematically analyze—

"(A) operational data from any facility, or involving any materials, licensed or otherwise regulated by the Commission to determine whether there exist certain patterns of events that indicate safety problems; and

"(B) operational data of the Commission including personnel and files.

"(3) The Board may conduct special studies pertaining to the nuclear safety at any facility, or involving any materials, licensed or otherwise regulated by the Commission.

"(4) The Board may evaluate suggestions received from the scientific and industrial communities, and from the interested public, on specific measures to improve safety at facilities, or involving materials, licensed or otherwise regulated by the Commission.

"(5)(A) The Board shall recommend to the Commission those specific measures that should be adopted to minimize the likelihood that events will occur at any facility, or involving materials, licensed or otherwise regulated by the Commission which could adversely affect the public health or safety. The Commission shall respond in writing to the recommendations of the Board within 120 days of receipt of such recommendations. Such written response shall detail specific measures adopted by the Commission in response to such recommendations, and explanations for its inaction on recommendations it chose to reject.

"(B) The recommendations of the Board made pursuant to subparagraph (A) shall also be sent to Congress.

"(6)(A) For purposes of investigations, the Board shall establish reporting requirements which shall be binding upon—

"(i) persons who operate, design, supply, maintain, or are otherwise involved with the operation or construction of, facilities licensed or otherwise regulated by the Commission; and

"(ii) persons who process, store, transport, use, or possess materials licensed or otherwise regulated by the Commission.

"(B)(i) The information which the Board may require to be reported under this paragraph may include any materials designated as classified material pursuant to the Atomic Energy Act of 1954, or any materials designated as safeguards information and protected from disclosure under section 147 of the Atomic Energy Act of 1954.

"(ii) Information received by the Board shall be made available to the public in accordance with the applicable provisions of subsections (a) and (b) of section 306 of the Independent Safety Board Act of 1974 (49 U.S.C. 1905).

"(7)(A) The Board or, on the authorization of the Board, any member thereof, may, for the purpose of carrying out the provisions of this section, hold such hearings and sit and act at such times and places, administer such oaths, and require, by subpoena or otherwise, the attendance and testimony of such witnesses and the production of such evidence as the Board or an authorized member may find advisable.

"(B)(i) Subpenas may be issued only under the signature of the Chairman or any member of the Board designated by him and shall be served by any person designated by the Chairman or any member. The attendance of witnesses and the production of evidence may be required from any place in the United States at any designated place of hearing in the United States.

"(ii) Any member of the Board may administer oaths or affirmations to witnesses appearing before the Board.

"(iii) Any person who willfully neglects or refuses to qualify as a witness, or to testify, or to produce any evidence in obedience to any subpoena duly issued under the authority of this paragraph shall be fined not more than \$5,000, or imprisoned for not more than 6 months, or both. Upon certification by the Chairman of the Board of the facts concerning any willful disobedience by any person to the United States attorney for any judicial district in which the person resides or is found, the attorney may proceed by information for the prosecution of the person for the offense.

"(8) The Board shall issue periodic reports which shall be made available to the Congress, and to Federal, State, and local government agencies concerned with safety at facilities, or involving materials, licensed or otherwise regulated by the Commission. Upon request, such reports shall be made available to other interested persons. Such reports shall contain recommendations of specific measures to reduce the likelihood of occurrence of nuclear events similar to those investigated by the Board and of corrective steps to enhance or improve safety conditions at such facilities investigated by the Board and other facilities as considered appropriate by the Board.

"(9) In accordance with the Civil Service laws and regulations, the Chairman of the Board is authorized to hire staff and employ consultants for the purpose of carrying out the functions and duties of the Board.

"(g)(1) There are hereby transferred to the Board—

"(A) all functions of the Office for the Analysis and Evaluation of Operational Data relating to the functions of the Board described in subsection (f); and

"(B) such personnel from the Office for the Analysis and Evaluation of Operational Data as the Director of the Office of Management and Budget determines are necessary to carry out the functions described in subsection (f).

"(2) There are hereby authorized to be appropriated for each of the fiscal years 1988, 1989, 1990, 1991, 1992, and 1993 the sum of \$5,000,000.

"(3) The Board shall terminate at the end of fiscal year 1993." ●

By Mr. BYRD (for Mr. BIDEN):

S. 15. A bill to provide the framework necessary to pursue a coordinated and effective national and international narcotics control policy; to the Committee on Governmental Affairs.

## NARCOTICS LEADERSHIP ACT

● **Mr. BIDEN.** Mr. President, no general would send an army into battle without a commander. No corporation would undertake massive investment and restructuring without a plan. Unfortunately, that is what we continue to do in our struggle against drug traffickers and drug abuse in America.

Just 3 months ago, we passed the most sweeping revision of the Federal Drug Control Program in almost two decades, providing new criminal laws, new funds for law enforcement, and new programs for education and treatment. But we will need more than money to carry the fight against drug abuse into the next decade.

What we need most of all is a new dimension of leadership. Today, I come before this body to introduce legislation that would provide one person with the full authority and responsibility for leading this Nation's struggle against drug abuse. This proposal, dubbed the "Drug Czar," has previously passed both Houses of Congress with overwhelming majorities. We have all recognized that leadership is a sorely missing link in our Drug Control Program.

I am introducing this bill on the first day of the 100th Congress to emphasize the critical need for leadership in this area, and I can assure my colleagues that it will receive swift and thorough review in the Judiciary Committee.

The need for action is clear. The price that this Nation pays for its seemingly insatiable demand for drugs is staggering:

Drug traffickers make more each year than the profits of all the Fortune 500 companies combined.

Drug abuse costs this Nation almost \$60 billion per year in lost productivity, unemployment, health costs, and the like.

This year, the Federal Government alone will spend \$2.4 billion on drug control, with billions more spent by State and local governments.

Of course, the costs that this Nation pays for its drug habit cannot be measured in economic terms alone. The price we pay must be measured in terms of the lost lives, broken families, and the dreams forsaken from drug abuse.

Despite the best efforts of this body, and this Congress, and even this administration—which has done a great deal in this area—we have not turned the corner on seriously reducing the supply of, or demand for, illicit drugs.

Five to six million Americans regularly use cocaine; one-half million Americans are addicted to heroin; over 20 million Americans abuse marijuana.

From 1975 to 1984, the amount of cocaine smuggled into the country quadrupled, and in 1986 it's estimated that 12 tons of heroin and up to 60,000

tons of marijuana will enter our borders.

And in the latest survey of graduating high school seniors, 61 percent—almost two-thirds—had tried an illicit drug, and over 17 percent used cocaine, the highest percentage ever reported.

Clearly, drug abuse is a national catastrophe. It poses a direct threat to the social and economic fabric of our cities and communities, and threatens our most precious resource—our children.

And many of the Members of this body must wonder why our efforts have not been more successful. I know the American people are wondering. In 1984, we passed the most massive revision of the Federal criminal code in history, with major changes to the organized crime and drug laws. And we have devoted an unprecedented amount of resources to this struggle. In fact, we've doubled the drug control budget in the last 5 years.

Yet, as the statistics I cited reveal, we are not winning this struggle.

That is because we are fighting a battle against well-armed and well-equipped drug traffickers and yet we have no commander. We are investing billions of dollars to protect our streets and families, and yet we have no national strategy.

Simply put, we have no leadership. I am not speaking of the personal and moral leadership that the President has devoted to the drug issue. Nor am I speaking about the part-time leadership to the Attorney General, the Vice President, or the White House Drug Abuse Adviser, who periodically announce their leadership on such high-profile initiatives as the Bolivia military operation or drug testing. Instead, I am speaking about the day-to-day leadership, over the long haul, that is sorely missing from our drug control efforts.

The problem lies in that several officials are in charge of the Federal Drug Control Program, each with his own agenda and agency turf to defend. As a result, no one is really in charge. Since no single official is held accountable for the success or failure of the Nation's drug policy, some officials are more interested in advancing their own political agenda than they are in working constructively with other agencies in a united fight against drug trafficking and abuse in America.

The lack of clear lines of authority and accountability, and the absence of a single, comprehensive strategy has undermined our drug control effort, both domestically and abroad.

The recent United States military assisted cocaine raids in Bolivia were plagued from the outset by poor planning, inadequate intelligence information, and press leaks that jeopardized the whole operation. The first two raids turned up a few bewildered peas-

ants, but no cocaine. And almost immediately, our Defense, Justice, and State Departments were squabbling over who was responsible for what went wrong.

The United States Embassy in Mexico was directed by the State Department not to accept names from DEA for the lookout system, because DEA has refused to give State access to their sources. DEA retaliated, and has refused to submit names of known and suspected traffickers. As a result, visas have undoubtedly been issued to known drug traffickers.

Recently, the Customs Service has sought authority to fly "hot pursuit" missions in the Bahamas. The Coast Guard and State Department have opposed this change, citing Customs' primary role for protecting our borders. The Bahamian Government sided with Customs and hired a high-priced Washington, DC, public relations firm to persuade Congress to side with Customs. DEA officials were furious that they had to compete against big-name P.R. firms. In defense, the Prime Minister of the Bahamas said that the United States agencies often can't decide who should assist the local police, and in the meantime the smugglers escape.

For over 5 years, I have called for the creation of a single, Cabinet-level official who would be responsible for leading the Federal Drug Control Program. Vesting this person with Cabinet-level rank is essential if he is to have the clout necessary to end bureaucratic infighting and petty agency turf battles.

This official would be responsible for developing a long-range national and international drug strategy, with our priorities explicitly spelled out. Along these lines, this official would have the responsibility to plan program budgets. Giving this official this type of budget authority is essential if we are to ensure that every \$1 of the \$2.4 billion we will spend this year is spent wisely and efficiently in achieving the goals of our national plan.

In addition, this official would be responsible for leading this country's drug initiatives on both the supply and demand side of the drug abuse equation. For too long, we've placed too much reliance on law enforcement to solve this problem. But despite the tireless commitment of this Nation's law enforcement community, we need to recognize that the answer to solving the drug problem lies in a comprehensive approach, combining rigorous law enforcement with efforts aimed at the demand side, through education and prevention. Under my proposal, this recognition would become explicit, and our national strategy would be a comprehensive, unified plan, including all the necessary elements of a truly effective plan of action.

In 1982, I introduced a similar proposal, which quickly became titled the "Drug Czar." This bill was passed by both Houses of Congress with overwhelming majorities. The President, however, refused to take on the bureaucracy and, succumbing to the excuses of agency officials, vetoed the bill.

In 1983, Congress passed this legislation again. In the Senate it passed easily on a vote of 63 to 33. The President threatened to veto the bill again, and a compromise was reached, creating the National Drug Enforcement Policy Board. The Policy Board, chaired by the Attorney General, was charged with developing a national and international strategy, reviewing agency budgets, and overseeing implementation of the Federal drug control strategy.

To date, the Policy Board has simply failed to meet its mandate. Two years after the Board's creation we have no strategy. The Board has failed to develop a drug control budget. And when I say the Board has failed, I am not the only one who has recognized the Board's poor performance. The President's own Organized Crime Commission recently called the Board's performance "ambiguous" and declared that the Board has "failed to assert a clear leadership role." In the meantime, the Attorney General, the Vice President, and the White House Drug Adviser continue to lead this country's efforts, often in conflicting directions.

Two years is enough for this experiment. I believe it is time to place this enormous responsibility with one Cabinet level official who the Congress and the American people can look to as the leader in the struggle against drug abuse in this Nation.

I hope the President will now see the need for this very important piece of legislation, so that we can move this country toward our ultimate goal: a drug-free America. Thank you.

I ask unanimous consent that the text of the National Narcotics Leadership Act of 1987 be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 15

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "National Narcotics Leadership Act of 1987".

#### SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—The Congress hereby makes the following findings:

- (1) The flow of narcotics into the United States is a major and growing problem.
- (2) The problem of illegal drug activity and drug abuse falls across the entire spectrum of Federal activities, both nationally and internationally.

(3) Illegal drug trafficking is estimated to be a \$100,000,000,000 a year industry in the United States.

(4) The annual consumption of heroin in the United States remains in the range of four metric tons, sustaining one-half a million addicts, while cocaine consumption has increased sharply, with approximately five million to six million Americans using cocaine regularly.

(5) Drug abuse poses a threat to our most precious resource, our young people; with almost two-thirds of the graduating high school class of 1985 having used an illicit drug and 17 percent having used cocaine, the highest rate ever recorded since the survey has been taken.

(6) Such significant indicators of the drug problem as drug-related deaths, emergency room visits, hospital admissions due to drug-related incidents, and addiction rates are soaring.

(7) Increased drug trafficking is strongly linked to violent, addiction-related crime and studies have shown that over 90 percent of heroin users rely upon criminal activity as a means of income.

(8) Much of the drug trafficking is handled by syndicates which results in increased violence and criminal activity because of the competitive struggle for control of the domestic drug market.

(9) Any effective solution to the Nation's drug problem must involve a comprehensive approach from all levels of government, combining rigorous law enforcement and supply reduction initiatives with efforts to reduce the demand for drugs through education, research, and treatment.

(10) The magnitude and scope of the problem requires a Director of National Drug Control Policy with the responsibility for the coordination and direction of all Federal efforts by the numerous agencies.

(11) Such a director must have broad authority and responsibility for making management, policy, and budgetary decisions with respect to all Federal agencies involved in attacking this problem so that a unified and efficient effort can be made to eliminate the illegal drug problem.

(b) PURPOSE.—It is the purpose of this Act to ensure—

- (1) the development of a national policy with respect to drug abuse and control;
- (2) proper direction and coordination of all Federal agencies involved in the effort to implement such a policy; and
- (3) that a single, competent, and responsible high-level official of the United States Government, who is appointed by the President, by and with the advice and consent of the Senate, and who is accountable to the Congress and the American people, will be charged with the responsibility of coordinating the overall direction of United States policy, resources, and operations with respect to drug control and abuse.

SEC. 3. ESTABLISHMENT OF OFFICE.

(a) ESTABLISHMENT OF OFFICE.—There is established in the executive branch of the Government an office to be known as the "Office of the Director of National Drug Control Policy" (hereafter in this Act referred to as the "Office of the Director").

(b) DIRECTOR AND DEPUTY DIRECTORS.—(1) There shall be at the head of the Office of the Director, a Director of National Drug Control Policy (hereafter in this Act referred to as the "Director").

(2) There shall be two deputy directors of the Office of the Director (hereafter in this Act referred to as the "Deputy Directors") as follows:

(A) A Deputy Director for Demand Reduction to be responsible for prevention, treatment, research, and private sector initiatives; and

(B) A Deputy Director for Drug Law Enforcement to be responsible for domestic drug law enforcement, border interdiction, and international narcotics control programs.

The Deputy Directors shall assist the Director in carrying out the Director's functions under this Act.

#### SEC. 4. APPOINTMENT AND DUTIES OF THE DIRECTOR AND DEPUTY DIRECTORS.

(a) APPOINTMENT.—(1) The Director and the Deputy Directors shall be appointed by the President, by and with the advice and consent of the Senate.

(2) The Director and the Deputy Directors shall each serve at the pleasure of the President. No person may serve as Director or a Deputy Director for a period of more than four years unless such person is reappointed to that same office by the President, by and with the advice and consent of the Senate. No person shall serve as Director or a Deputy Director while serving in any other position in the Federal Government.

(3) The Director shall be entitled to the compensation provided for in section 5312 of title 5, United States Code. The Deputy Directors shall be entitled to the compensation provided for in section 5314 of title 5, United States Code.

(b) FUNCTION OF DIRECTOR.—The Director shall serve as the principal director and coordinator of United States operations and policy on drug control and abuse.

(c) RESPONSIBILITIES OF DIRECTOR.—The Director shall have the responsibility, and is authorized to—

(1) develop, review, implement, and enforce United States Government policy with respect to drug control and abuse;

(2) direct and coordinate all United States Government efforts to halt the importation, manufacture, distribution, and use of illicit drugs within the United States;

(3) direct and coordinate all United States Government efforts and programs to reduce the demand for illicit drugs through education, prevention, research and treatment;

(4) develop in concert with other governmental entities budgetary priorities and budgetary allocations of entities of the United States Government with respect to drug control and abuse;

(5) prepare a National and International Drug Control Strategy as provided in section 5; and

(6) coordinate the collection and dissemination of information necessary to implement United States policy with respect to drug control and abuse.

(d) POWERS OF DIRECTOR.—In carrying out his responsibilities under subsection (c) the Director is authorized to—

(1) direct, with the concurrence of the Secretary or Director of the Cabinet level agency employing such personnel, the temporary reassignment of Government personnel within the United States Government in order to implement United States policy with respect to drug control and abuse;

(2) procure temporary and intermittent services under section 3109(b) of title 5 of the United States Code, but at rates for individuals not to exceed the daily equivalent of the maximum annual rate of basic pay payable for the grade of GS-18 of the General Schedule;

(3) accept and use donations of property from all Government agencies; and

(4) use the mails in the same manner as any other department or agency of the Executive Branch.

(e) **AUTHORITY OF DIRECTOR.**—Notwithstanding any other provision of law, the Director shall have the authority to direct each department or agency with responsibility for drug control to carry out the policies established by the Director consistent with the general authority of each agency or department.

(f) **INTELLIGENCE AUTHORITY.**—Notwithstanding any other provision of law, the Director shall undertake no activities inconsistent with the authorities and responsibilities of the Director of Central Intelligence under the provisions of the National Security Act of 1947, as amended, or Executive Order 12333.

(g) **GENERAL SERVICES ADMINISTRATION SUPPORT.**—The Administrator of General Services shall provide to the Director on a reimbursable basis such administrative support services as the Director may request.

#### SEC. 5. PREPARATION AND SUBMISSION OF NATIONAL AND INTERNATIONAL DRUG CONTROL STRATEGY

(a) **DEVELOPMENT AND SUBMISSION OF THE DRUG STRATEGY.**—(1) The Director shall submit to the Congress, within 180 days after the date of enactment of this Act, and on February 1st of each year thereafter, a full and complete National and International Drug Control Strategy (hereafter in this section referred to as the "Drug Control Strategy"). If necessary, sections of the Drug Control Strategy that involve classified information may be presented to Congress in closed proceedings.

(2) The Drug Control Strategy shall be a forward looking blueprint for the Federal Government and the Nation to follow in reducing drug abuse, and shall contain projections for program and budget priorities and realistic and achievable projections for drug seizures, availability, purity, and drug usage for the next five years.

(3) Commencing with the second report, the Drug Control Strategy shall include a full and complete report reflecting accomplishments with respect to the United States policy and priorities in the previous year.

(b) **GOALS AND PRIORITIES.**—The Drug Control Strategy developed pursuant to subsection (a) shall include a full and complete list of goals and priorities in the areas of—

(1) international narcotics control;

(2) domestic and border drug law enforcement;

(3) reducing the demand for drugs, through education, prevention, treatment, and research; and

(4) cooperative efforts between the Federal and State and local governments in the area of drug control.

In addition, the Drug Control Strategy shall contain a full and complete assessment of how the budget priorities developed pursuant to subsection (a) reflect and implement the Federal drug control strategy.

#### SEC. 6. TERMINATION OF THE NATIONAL DRUG ENFORCEMENT POLICY BOARD.

(a) **TERMINATION.**—The National Drug Enforcement Policy Board is terminated 90 days after the appointment of the Director. Upon such termination, all records and property of the National Drug Enforcement Policy Board shall be transferred to the Office of the Director. The Director of the Office of Management and Budget shall take such actions as are necessary to facilitate such transfer.

(b) **REPEAL.**—(1) Chapter XIII of title II of the Comprehensive Crime Control Act of 1984 (Public Law 98-473) is repealed.

(2) Sections 103, 201, 202, 203, 204, and 206 of the Drug Abuse Prevention, Treatment, and Rehabilitation Act (21 U.S.C. 1103, 1111, 1112, 1113, 1114, and 1116) are repealed. Section 205 of such Act is redesignated as section 201.

#### SEC. 7. AUTHORIZATION OF APPROPRIATIONS.

For the purpose of carrying out this Act, there are authorized to be appropriated \$1,000,000 for fiscal year 1988, and such sums as may be necessary for each of the four succeeding fiscal years, to be available until expended.

#### SEC. 8. COORDINATED BUDGET SUBMISSION FOR FEDERAL DRUG CONTROL AND ENFORCEMENT AGENCIES.

Section 1105(a) of title 31, United States Code, is amended by adding at the end thereof the following:

"(26) a detailed request, in consultation with the Director for National and International Drug Operations and Policy, for Federal agencies responsible for drug abuse prevention and treatment and drug law enforcement."

#### SEC. 9. EFFECTIVE DATE.

This Act and the amendments made by this Act shall be effective 90 days after the date of enactment of this Act.●

By Mr. D'AMATO:

S. 17. A bill to provide additional funding for comprehensive drug law enforcement, prevention, and treatment; to the Committee on the Judiciary.

#### COMPREHENSIVE DRUG LAW ENFORCEMENT, PREVENTION, AND TREATMENT ACT

● Mr. D'AMATO. Mr. President, one of the greatest accomplishments of the last Congress was enactment of the Anti-Drug Abuse Act of 1986. With the new resources and powers this bill makes available, we have the opportunity to mount the beginnings of a meaningful attack on the drug epidemic that plagues this Nation.

Drug and alcohol abuse constitutes a \$200 billion annual drain on the American economy. In the workplace, it causes massive absenteeism, safety hazards, and losses in productivity. In the schools, substance abuse makes it impossible for teachers to teach and for students to learn. This epidemic is responsible for more than half of all crimes committed today.

Such an enormous problem will not be solved by one bill. So, while the Anti-Drug Abuse Act is an important beginning, it is only a beginning. The Comprehensive Drug Law Enforcement, Prevention, and Treatment Act will enable us to expand the campaign against substance abuse with the full commitment necessary.

Despite all the claims made on its behalf, and all its excellent provisions, the law we enacted in the fall is a very limited one. For example, it provides less than \$200 million in new money to State and local drug abuse agencies for treatment and rehabilitation programs. That is enough for a year of residential treatment for fewer than

20,000 young people. Even with this new law, tens of thousands more who need help will not receive it.

As H.R. 5484 moved back and forth between the House of Representatives and the Senate during the month of October, it underwent several revisions. Unfortunately, not all of these changes improved the bill.

One of the unfortunate changes is the deletion of the provisions establishing a new Drug Asset Forfeiture Fund. Sections 1151 and 1152 providing for this special fund were contained in the version of H.R. 5484 that was printed in the CONGRESSIONAL RECORD on September 30, 1986. They can be found on page 27196.

Had these sections not been deleted, forfeited drug assets would be available for the following key purposes:

First. Federal drug law enforcement programs;

Second. Federal programs relating to education, prevention, treatment, rehabilitation, and research;

Third. State, local and nonprofit agencies with drug abuse responsibilities; and

Fourth. State and local law enforcement agencies for drug law enforcement efforts.

The bill I introduce today restores the deleted provisions. As the sponsor of S. 1583, the original Comprehensive Drug Law Enforcement, Prevention and Treatment Act introduced on August 1, 1985, I am pleased to note that two of the reforms contained in that bill were incorporated into H.R. 5484: The Justice and Customs forfeiture funds have been extended beyond fiscal year 1987 and made a permanent part of our antidrug arsenal; and the limitation on the authorized amount of the Customs Forfeiture Fund has been removed.

Each year, Federal drug law enforcement agents seize hundreds of millions of dollars in drug money and the proceeds of drug sales. As we make better use of our drug forfeiture laws, this amount is continuing to increase dramatically.

The bill I am introducing today will permit us to make all forfeited drug assets available for a sustained national war on drugs. It strengthens our support for the law enforcement purposes already established by law, and provides additional support for other drug law enforcement purposes, as well as for underfunded drug prevention, treatment, and research programs.

As our forfeiture efforts attain their full potential, this bill will enable us to hire hundreds of additional drug law enforcement agents, inspectors, investigators, and prosecutors. It will enable our drug law enforcement agencies to modernize their communications networks and investigative capabilities, to expand their money laun-

dering and financial investigations against drug kingpins, to mount a more effective campaign against crack, heroin, designer drugs and other dangerous drugs, and to tend to a host of other law enforcement needs that are not now being met.

With the funds this bill makes available for effective education and prevention programs, we will be able to teach millions more children to say no to drugs while in the earliest grades when they are still reachable, and we will be able to counter the peer pressure to use drugs that develops as early as the fifth grade and continues throughout junior high school and high school.

We cannot ignore the long waiting lists of those already abusing drugs who now seek treatment. I urge my colleagues to support this bill to reach more people who need help in recovering from drug dependency.

Mr. President, we need massive reinforcements of people and resources, sustained over many years, to win the war on drugs. Welcome as the Anti-Drug Abuse Act of 1986 is, we cannot permit it to mark the height of our achievement. Millions of Americans who live in fear because of drug-related crime, millions of those who are drug and alcohol dependent, and millions of children who hope one day to attend drug-free schools, are telling us that we can, and we must, do better.

Whether we do so, and whether the drug bill we passed in October marks a historic turning point, or a short-lived moment of enthusiasm, depends on the actions we take in this Congress.

The Comprehensive Drug Law Enforcement, Prevention, and Treatment Act enables us to sustain the momentum begun in October. At no additional cost to the taxpayer, it can provide a much-needed new source of revenue and new resources for drug law enforcement, prevention, and rehabilitation. It can help make our homes, streets, schools, and workplaces safe again. It can help remove from the American economy the hundreds of billions of dollars in costs under which it is now straining.

In order to ensure a sustained and strengthened antidrug abuse campaign that is equal to the enormous challenges we face, I urge my colleagues to cosponsor this legislation and to give it their full support.

Mr. President, I ask that the full text of this bill be printed in the RECORD in its entirety at the conclusion of my remarks. Thank you, Mr. President.

There being no objection, the bill was ordered to be printed in the RECORD as follows:

S. 17

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. The Act may be cited as the "Comprehensive Drug Law Enforcement, Prevention, and Treatment Act."

FUNDING FOR DRUG LAW ENFORCEMENT, PREVENTION, AND TREATMENT PROGRAMS UNDER THE DEPARTMENT OF JUSTICE ASSETS FORFEITURE FUND

SECTION 2. (a) Paragraph (1) of section 524(c) of Title 28, United States Code, is amended by—

(1) striking out "the following purposes of the Department of Justice";

(2) striking out "and" at the end of subparagraph (F);

(3) striking out the period at the end of subparagraph (G) and inserting in lieu thereof "; and"; and

(4) adding after subparagraph (G) the following:

"(H) disbursements to—

"(i) the Attorney General for transfer, through the Office of Justice Programs, after consultation with the Secretary of the Treasury, the Secretary of Health and Human Services, and the Secretary of Education, to enhance the following efforts:

"(a) Federal drug law enforcement agencies and programs;

"(b) Federal drug abuse agencies and programs relating to drug abuse education, prevention, treatment, rehabilitation, and research;

"(c) State, local, and nonprofit agencies with drug abuse responsibilities; and

"(d) State and local law enforcement agencies for drug law enforcement efforts.

Funds disbursed under this subparagraph shall not be used to supplement existing funds, but shall be used to supplement the amount of funds that would be otherwise available. Any funds appropriated under this subparagraph shall be divided into fourths and distributed on a basis of one-fourth for the purposes provided in clause (a), one-fourth for the purposes provided in clause (b), one-fourth for the purposes provided in clause (c), and one-fourth for the purposes provided in clause (d)."

FUNDING FOR DRUG LAW ENFORCEMENT, PREVENTION, AND TREATMENT PROGRAMS UNDER THE CUSTOMS FORFEITURE FUND

SECTION 3. (a) Subsection (a) of section 613a of the Tariff Act of 1930 (19 U.S.C. 1613a) is amended—

(1) by striking out "the following purposes of the United States Customs Services";

(2) in clause (3) by striking out "and" after the semicolon;

(3) in clause (4) by striking the period and inserting in lieu thereof "; and"; and

(4) adding after clause (4) the following:

"(5) disbursements to—

"(A) the Secretary of the Treasury for transfer, after consultation with the Commissioner of Customs, the Attorney General, the Secretary of Health and Human Services, and the Secretary of Education, to enhance the following efforts:

"(i) Federal drug law enforcement agencies and programs;

"(ii) Federal drug abuse agencies and programs relating to drug abuse education, prevention, treatment, rehabilitation, and research;

"(iii) State, local, and nonprofit agencies with drug abuse responsibilities; and

"(iv) State and local law enforcement agencies for drug law enforcement efforts.

Funds disbursed under this subparagraph shall not be used to supplement existing funds, but shall be used to supplement the amount of funds that would be otherwise available. Any funds appropriated under

this subparagraph shall be divided into fourths and distributed on a basis of one-fourth for the purposes provided in clause (i), one-fourth for the purposes provided in clause (ii), one-fourth for the purposes provided in clause (iii), and one-fourth for the purposes provided in clause (iv)."

SECTION 4. The provisions of this Act shall become effective on October 1, 1987.●

By Mr. MOYNIHAN:

S. 18. A bill to repeal the Balanced Budget and Emergency Deficit Control Act of 1985; to the Committee on the Budget and the Committee on Governmental Affairs, jointly, pursuant to the order of August 4, 1977, with instructions that if one committee reports, the other has 30 days of continuous session to report or be discharged.

GRAMM-RUDMAN REPEAL ACT

● Mr. MOYNIHAN. Mr. President, I rise on this first day of the 100th Congress to introduce legislation to repeal the Gramm-Rudman-Hollings law, except for those provisions which affect restoration of moneys disinvested from the Social Security Security trust funds, and that section of the law which moves Social Security off budget.

During October, November, and December of 1985, and throughout the second session of the 99th Congress, I urged Congress first to oppose the original legislation, and subsequently to repeal it. There were 24 votes against GRH to begin with. By August 1986 there were 30 votes for repeal.

With the passage of Gramm-Rudman-Hollings, Congress attempted to give up its responsibility to set priorities and make decisions about how to spend Federal moneys. A series of declining deficit ceilings was enacted, along with a mechanism to automatically cut spending if Congress and the President could not agree on a more appropriate fiscal plan.

Eight months later, in July of 1986, the Supreme Court ruled that the process leading to the issuance of the sequester order by the President was unconstitutional—Congress would have to pass a law to enact reductions in spending. The next month, the original sponsors attempted to fix the law by amending it with a new process, one which they hoped would pass constitutional muster, for achieving automatic spending cuts. This effort received less support in the Senate than had the original legislation, but still it passed. The House of Representatives rejected the proposal, which would have given the Director of the Office of Management and Budget significant discretion over the content of future sequester orders.

I expect that in May, when Congress must once again increase the statutory limit on the Federal debt, we will revisit the question of whether or not to fix Gramm-Rudman-Hollings. Again,

backed up against the disaster of the potential default of the Federal Government, the House and Senate will have to vote on a measure to force unelected officials to do our job: to solve our current fiscal crisis.

One thing is clear. The Gramm-Rudman-Hollings law has not lived up to the promises of its sponsors. The deficit ceilings have not been met: the deficit for fiscal year 1986 was \$221 billion, not \$172 billion as contemplated by the law in December 1985, or even \$208 billion as expected in March 1986. For fiscal year 1987, the deficit will be greater than the \$144 billion ceiling established in the law. The administration now reports an estimated fiscal year 1987 deficit of \$174.5 billion, and the Congressional Budget Office's estimate is likely to be similar.

Several times last fall, I stated that Congress was not doing what it claimed. I predicted the fiscal year 1987 deficit would be \$170 to \$180 billion. The economy was growing slower than what we assumed.

Even earlier, on November 6, 1985, the day the Senate voted 74 to 24 in favor of the Gramm-Rudman-Hollings proposition, I warned that we would not hit the GRH targets because Gramm-Rudman-Hollings:

... assumes we know what we're talking about, that we can predict when a recession is coming. We can't, and neither, in this matter, can anyone else. . . .

Economists do not know the future—they study, and barely know, the past. This is really an adventure in mad scientism, pretending to know what cannot be known.

Contained in the deficit ceilings of the original law were implicit assumptions about the performance of the United States and world economies. Real GNP growth would be about 3.5 percent for the foreseeable future. Interest rates, oil prices, and unemployment rates would fit in with such a growth pattern. In fact, economic growth has averaged closer to 2 or 2½ percent. Some predicted that; but nobody knew it. And assumptions about the cost of farm programs, and other entitlements are similarly imprecise, and have similarly large effects on estimates of what the deficit 6 months, 1 year, or 5 years away might be. We must make informed guesses about such matters, but we cannot rely on those judgments to the degree required by the Gramm-Rudman-Hollings formula.

We ought to stop this adventure in mad scientism. We should employ our energies and ingenuity to solving the deficit problem instead of creating new automatic cutting mechanisms, or inventing new accounting games, reducing the deficit by shifting expenditures back and forth between fiscal years. That is what happens when Congress makes promises that it cannot keep.

And that is perhaps the most troubling aspect of the law. In a moment of seeming passion, Congress passed a bad law—"a bad law whose time," according to some, "had come." Instead of repealing the law, Congress has felt obligated to at least appear to follow through. In so doing, we announce that we have met the requirements of the law. When the fiscal years end, and it becomes clear that we have not done what we said we did, we damage the integrity of Congress as an institution. And for that reason, if no other, we ought to repeal the law.

We ought not have a law on the books that assumes the disappearance of the business cycle, for we will have downturns in the economy during the next 4 years. We ought not have a law that assumes a predictive capacity about the economy that we simply do not have. We ought not have a law that gives incentives to Congress to invent accounting gimmicks, rather than address the structural deficit. And we ought not have a law that will, in the long run, cause the public to lose its trust in Congress.

In this, our 200th year of constitutional Government, let us return to operating as a Congress willing to take on its constitutional responsibilities, and capable of making choices. Let us move swiftly to repeal the Gramm-Rudman-Hollings law.

I ask unanimous consent that the text of S. 18 appear in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. THIS ACT MAY BE CITED AS THE "GRAMM-RUDMAN REPEAL ACT".

SEC. 2. REPEAL.

Except as provided in section 3, the Balanced Budget and Emergency Control Act of 1985 (title II of Public Law 99-177) is repealed.

SEC. 3. EXCEPTION.

Section 272 of the Balanced Budget and Emergency Deficit Control Act of 1985 (relating to restoration of trust fund investments), the amendments made by section 261 of such Act (relating to budgetary treatment of social security trust funds), section 310(g) of the Congressional Budget Act of 1974 (relating to point of order against reconciliation measures providing for changes in the OASDI program), and section 275 of such Act (to the extent that it relates to section 272 of such Act and to section 310(g) of the Congressional Budget Act of 1974) shall not be included in or affected by the repeal of such Act and shall be effective as if this Act had not been enacted.

SEC. 4. EFFECTIVE DATE; EFFECT OF REPEAL.

(a) EFFECTIVE DATE.—The repeal made by section 2 of this Act shall become effective on January 6, 1987.

(b) EFFECT OF REPEAL.—Provisions of law amended or repealed by the Balanced Budget and Emergency Deficit Control Act of 1985 are hereby restored or revived and shall be effective as if such Act not been enacted.●

By Mr. MOYNIHAN:

S. 19. A bill to amend the Elementary and Secondary Education Act of 1965 to provide grants to State and local educational agencies for dropout prevention programs; to the Committee on Labor and Human Resources.

EDUCATIONAL ACHIEVEMENT INCENTIVE ACT

● Mr. MOYNIHAN. Mr. President, I rise today to introduce the Educational Achievement Incentive Act of 1987. The purpose of this bill is to prevent the young people of this country from leaving school before completing a high school education and to create incentives for students who have left school to return.

The high school dropout problem in America is more pervasive than many realize. There is estimated to be 4.3 million individuals, 16 to 24, who have failed to complete high school—approximately 9 percent of all persons in this age group. In some areas of this country, the dropout rate is as high as 48 percent. We simply can't afford not to address this problem.

The value of educating our young people transcends the immediate benefit to individual students and their families. A society is collectively strengthened by an educated work force. Economically, national productivity and international competitiveness are greatly enhanced. Politically, an educated electorate ensures an enlightened vote and thus, greater accountability by our elected officials.

Moreover, an educated individual is much more likely to be an employed and self-sufficient individual. Education means opportunity in the job market; without it, the ability to support oneself and family is severely limited, and the likelihood of needing public assistance greatly increased.

A high school dropout is more than twice as likely to be unemployed as a high school graduate. Of the approximately 3 million high school dropouts who could be employed in the civilian labor force—they are not disabled and don't have immediate family responsibilities—25.9 percent are unemployed.

But of the estimated 8.8 million people who have completed high school the unemployment rate is 12.7 percent. Thus, simply finishing the last 2 years of high school, can reduce the chance of unemployment by 50 percent.

Education also has a direct bearing on earning capacity. According to a study of families in poverty issued by the House Ways and Means Committee entitled "Children in Poverty," fathers who have completed a high school education earn more than 50 percent more than those who have not. Single mothers who received a high school diploma earn almost 90 percent more than those who did not.

Perhaps the most telling statistic: Almost half—48 percent—of all poor

families receiving public assistance are headed by a person who failed to complete high school. The bill I introduce today, the Educational Achievement Incentive Act of 1987 deals with this problem by creating a program based on several of the most successful dropout prevention programs in the country. The bill authorizes \$75 million to be distributed by the Secretary of Education to local educational agencies to implement dropout prevention programs, with \$250,000 distributed to each State educational agency. In addition, special funds will be set aside for large urban areas with dropout rates higher than 35 percent, where the number of students affected is greatest.

This bill begins to provide the resources to give those students who are identified as potential dropouts the attention and guidance necessary to increase their chances of remaining in school to complete their high school education. By requiring applicants for funding to identify the primary reasons why students drop out, and structuring academic programs to address those problems, I believe we can increase their chance of staying in school, and if they have already left, returning to school.

For example, the most often cited reasons by dropouts for leaving school are poor grades, lack of attention from teachers and administrators, economic pressures, and family responsibilities. This bill requires that the applicant for funding identify the primary reasons for students dropping out within their district—with special emphasis on those individual problems which eventually cause a student to leave school. In the case of a dropout or potential dropout who cites the need to work as a reason for leaving school, that need should be taken into consideration when structuring that student's academic schedule. This bill encourages school districts to structure programs which allow flexibility for the student to meet these demands.

In my own State of New York, the New York City Board of Education is sponsoring programs which try to encourage students to attend school more often through individual counseling and flexible academic schedules which allow those that have to work the ability to do so while still enrolled in school. These programs also establish connections between elementary and secondary schools to aid students in making the change from one environment to the other. Last, there is a special counselor in the school system responsible for monitoring the academic progress of students to ensure that each student receives the necessary services and guidance to prevent them from dropping out.

With this type of program in place, New York City has been able to reduce its dropout rate for the first time in

years—down 2.4 percent from 1984. This bill will enable school systems across the country to initiate similar programs and share in their success.

Therefore, I urge my colleagues to support this essential legislation. I ask unanimous consent that the text of the bill be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 19

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SHORT TITLE

SECTION 1. This Act may be cited as the "Educational Achievement Incentive Act of 1987".

#### PROGRAM AUTHORIZED

SEC. 2. The Elementary and Secondary Education Act of 1965 is amended—

- (1) by redesignating title X as title XI,
- (2) by redesignating sections 1001 through 1006 as sections 1101 to 1106, respectively; and
- (3) by inserting the following new title after title IX:

#### "FINDINGS

"SEC. 1001. The Congress finds that—

- "(1) there is estimated to be 4,300,000 individuals between the ages of 16 and 24 who have failed to complete high school in the United States, approximately 9 percent of all individuals in this age group;
- "(2) in the academic year 1984-85, 612,000 students dropped out of school;
- "(3) 35.6 percent of individuals who drop out of school, 147,000 youths, are unemployed;
- "(4) nearly 50 percent of all families living in poverty are headed by an individual who has failed to complete high school; and
- "(5) the most often cited reasons by dropouts for leaving school are poor grades, lack of attention from teachers and administrators, and economic and family responsibilities.

#### "PURPOSE

"SEC. 1002. It is therefore the purpose of this title to provide Federal support for programs and projects which seek to prevent elementary and secondary students from failing to complete a high school education by providing funds for local educational agencies to expand existing programs and establish new programs modeled after ongoing programs in New York, Los Angeles, Atlanta, Dade County, San Antonio, and Washington, District of Columbia, that have been recognized for high success rates in reducing the dropout rate among students.

#### "AUTHORIZATION OF APPROPRIATIONS

"SEC. 1003. (a) There are authorized to be appropriated \$75,000,000 for fiscal year 1988 and such sums as may be necessary for each of the fiscal years 1989, 1990, and 1991 to carry out this title.

"(b) The Secretary shall reserve from amounts appropriated in each fiscal year such amounts as may be necessary to allocate \$250,000 to each State educational agency. The funds allocated under this subsection shall be used for the development of innovative programs which address the student dropout problem across the State, technical assistance, and data collection.

"(c) Not more than 15 percent of any grant made under this title shall be used for administrative and clerical expenses.

#### "GRANTS TO LOCAL EDUCATIONAL AGENCIES

"SEC. 1004. A local educational agency may receive a grant under this title only if the local educational agency has demonstrated that the agency has cooperated with the appropriate State and local educational agencies within the area to use all existing resources to identify students at risk of dropping out of school and devise appropriate programs for such students.

#### "GRANT DISTRIBUTION; SPECIAL NEEDS RECIPIENTS; SPECIAL CONSIDERATION

"SEC. 1005. (a)(1) From 75 percent of the amount remaining in each fiscal year for distribution after meeting the requirements of section 1003(b), the Secretary shall distribute grants under this title, on a competitive basis, to local educational agencies which demonstrate the greatest need for assistance under this Act, based on the criteria set forth in subsection (b).

"(2)(A) The Secretary shall set aside the remaining 25 percent of the funds for a Special Needs Fund. The Secretary shall distribute grants from the Special Needs Fund to local educational agencies containing schools which—

"(i) have an enrollment of 250,000 or more elementary and secondary school students, and

"(ii) have a system-wide dropout rate in excess of 35 percent, based on the dropout rate for the year preceding the date of enactment of this Act.

"(B) The funds available to a local educational agency under this paragraph shall be in addition to any funds which the local educational agency receives under paragraph (1).

"(C) The Secretary shall allot amounts available under this paragraph to local educational agencies having an application approved under section 1006, including meeting the requirements of paragraph (5), based upon the number of students constituting the dropout rate calculated for the purpose of such paragraph (5).

"(b) The Secretary shall give special consideration—

"(1) in distributing grants under this title to applicants with very high numbers of school dropouts or very high percentages of school dropouts within the area of jurisdiction of the local educational agency;

"(2) to applicants which identify the primary reasons for dropping out, with special emphasis on attendance rates, discipline problems and marked low levels of reading and writing skills, beginning at the elementary school level; and

"(3) to applicants which address the individual needs of students and structure programs to provide the necessary attention, advice, and guidance to students who exhibit tendencies toward dropout, including assigning extra personnel, providing extra-curricular counseling and offering equivalent educational programs to encourage dropouts to return to school.

"(c) The minimum grant from funds available under subsection (a)(1) to a local educational agency under this title shall be \$25,000 for each fiscal year.

#### "APPLICATION

"SEC. 1006. (a) IN GENERAL.—A grant under this title may be made only to a local educational agency which submits an application to the Secretary containing such in-

formation as may be required by the Secretary by regulation.

"(b) CONTENTS OF APPLICATIONS.—Each such application shall—

"(1) document the number of children who have been enrolled in the school system of the local educational agency that have failed to complete the elementary or secondary education;

"(2) set forth the rate of dropout per year among students by age level, as well as an estimate of the young individuals who are of school age but are not enrolled in school;

"(3) set forth a plan by which the local educational agency will ensure that the progress of each at-risk youth will be closely monitored and any relevant information about the youth will be recorded, together with a detailed outline of a system designed to ensure that the records of a student served under the program assisted under this title will be forwarded to any educational institution to which that student may transfer;

"(4) describe an ongoing program or proposal for a new program which will—

"(A) identify and reach out to potential school dropouts in all grade levels,

"(B) describe outreach activities designed to draw students back to school who have dropped out and are able to return to school on a part-time or full-time basis, and

"(C) analyze the cost-effectiveness of the dropout prevention program and return to school program, specifying how assistance under this title will be used by the local educational agency; and

"(5) set forth, in the case of a local educational agency which meets the requirements of paragraph (2) of section 1005(a), enrollment in the elementary and secondary schools of the agency for the year prior to the year for which the application is made, and the system-wide dropout rate for such year.

#### "AUTHORIZED ACTIVITIES

"Sec. 1007. Programs eligible for consideration for a grant under this title shall include—

"(1) early intervention programs beginning at the earliest point at which a child enters the school system, which address the factors which might cause a child to drop out of school, including poor attendance, discipline problems, low reading achievement, repeated grades, drug and alcohol abuse, and language barriers;

"(2) placement of one or more trained counselors who are solely responsible for the monitoring and counseling of at-risk youth at each school level, elementary and secondary, who meet regularly with such students both in and out of school;

"(3) contact with student and parents in the home to ensure attendance and parental involvement in student's progress, including personal visits to home and frequent calls to track the student's attendance;

"(4) tutorial services both during and after regular school hours to increase student's overall academic abilities;

"(5) encourage coordination with local institutions of higher education to provide exposure and utilization of facilities, including libraries, computers, scientific equipment and gyms, to at-risk high school students as an incentive and encouragement for high school students to continue their education;

"(6) provide students who exhibit a desire to enter vocational and technical employment fields a "Career Choice" curriculum which combines training for this field and basic high school academic skills, including

the option of scheduling part-time work with their studies;

"(7) build communication networks with business and professional organizations within the community to enable students to receive guidance and career advice;

"(8) provide referral to community programs which address the noneducational needs of the dropout or potential dropout;

"(9) develop model high school equivalent education programs which will encourage dropouts to return to school by enabling them to attend courses on a flexible basis during the day or at night to finish their education; including targeting such programs to teenagers who have dropped out for reasons of economic and family responsibilities; and

"(10) such any other projects as the Secretary determines are designed to carry out the purpose of this title.

#### "GENERAL PROVISIONS

"Sec. 1008. (a) REVIEW OF PROGRAMS AND PROJECTS.—In any application from a local educational agency for a grant to continue a program or project for the second and third fiscal year following the first year for which the grant was awarded, the Secretary shall review the success and speed at which the program or project is meeting its stated objectives in its application as well as the general purpose of this title.

"(b) WITHHOLDING PAYMENTS.—Whenever the Secretary, after reasonable notice (at least 30 days), and opportunity for a hearing to any local educational agency, finds that the local educational agency has failed to comply substantially with the provisions set forth in its application approved under this title, the Secretary shall withhold payments under this title until the Secretary is satisfied that there is no longer any failure to comply.

"(c) ANNUAL REPORT.—The Secretary shall prepare and submit to Congress an annual report on January 1 on the activities assisted under this title during the preceding fiscal year.

"(d) AUDIT.—The Comptroller General shall have access for the purpose of audit and examination to any books, documents, papers, and records of any local educational agency receiving assistance under this title that are pertinent to the sums received and disbursed under this title.

"(e) REPORTING REQUIREMENT.—Each State and local educational agency receiving assistance under this title shall file an annual report with the Secretary detailing how the assistance was spent and illustrating any change in the school dropout rate in their area which is attributable to the implementation of the programs assisted under this title.

"(f) GRANTS MUST SUPPLEMENT, NOT SUPPLANT, OTHER FUNDS.—A local educational agency receiving funds under this title shall use the Federal funds only to supplement the funds that would, in the absence of such Federal funds, be made available from non-Federal sources for activities to prevent students from dropping out of elementary and secondary schools and to persuade dropouts to return to school and finish their education.

#### "DEFINITIONS

"Sec. 1009. As used in this title—

"(1) the term 'dropout' means an individual of school age who is not enrolled in school and who is not a high school graduate;

"(2) the terms 'State educational agency', 'local educational agency', 'elementary

school', and 'secondary school' have the same meanings given those terms in section 198 of this Act; and

"(3) the term 'Secretary' means the Secretary of Education." ●

By Mr. MOYNIHAN (for himself, Mr. BURDICK, Mr. MITCHELL, Mr. BAUCUS, and Mr. LAUTENBERG):

S. 20. A bill to provide for the protection of ground water through State standards, planning, and protection programs; to the Committee on Environment and Public Works.

#### GROUNDWATER PROTECTION ACT

● Mr. MOYNIHAN. Mr. President, I rise today with my distinguished chairman, Senator BURDICK, and members of the Committee on Environment and Public Works, Senators MITCHELL, BAUCUS and LAUTENBERG in sponsoring "The Groundwater Protection Act of 1987." I share my colleagues hope that this bill will focus greater attention on ground water resources, a subject in which I have been interested for many years.

I first introduced the Sole Source Aquifer Protection Act, designed to protect underground sources for drinking water, in 1982. Many provisions of that aquifer protection bill are now incorporated in the Safe Drinking Water Act Amendments, which, I am happy to report, was passed by the 99th Congress.

In addition to the Safe Drinking Water Act, a number of Federal laws affect ground water management, including the Clean Water Act, Superfund, and the Resource Conservation and Recovery Act [RCRA]. These laws overlay a complex of State statutes, which differ markedly in their treatments of ground water resources. The Groundwater Protection Act would define the role of Federal Government, in terms that will most help the States develop ground water strategies tailored to their individual needs. For example, many Eastern States have shallow aquifers with indistinct boundaries, while in the West, many States have deep and distinct aquifers. Some States rely heavily on ground water for drinking supplies, others less so.

On Long Island, 3 million New Yorkers rely on one aquifer for their drinking water, and this aquifer is now threatened by toxic chemicals. In Nassau County alone, 119 of 389 public wells have detectable levels of synthetic organic chemicals. These chemicals come from diverse sources—solvents from industries and residents' homes, pesticides from farms, nitrates from lawn fertilizers, and numerous chemicals which have leached from landfills. Officials of the State of New York and of Long Island have made significant progress in protecting this ground water resource. In 1978, the New York State Legislature stated that prevent-

ing the pollution of ground waters and protecting ground waters for use as potable water, would be the State's ground water quality goals, to guide the department of environmental conservation in establishing and updating water quality standards and classifications. Long Island has since been designated a sole source aquifer by the U.S. Environmental Protection Agency, and is developing a ground water management plan.

This bill would recognize that different States have different needs and find themselves at different stages in ground water planning and management. We have heard repeatedly from State officials, asking that EPA provide basic research into ground water contaminants, so States can determine how to classify their waters. Our bill would direct EPA to establish criteria for 100 contaminants and provide States with documents specifying the physical, chemical, biological and radiological properties of contaminants risk to human health at various concentrations in ground water. Our bill directs the EPA Administrator, whenever possible, to make use of research developed under other environmental statutes and cooperate with other agencies that hold toxicological data.

Armed with a common set of federally developed data, the States will set their own ambient ground water standards. In general, ambient ground water standards must be at least as stringent as those for drinking water in the Safe Drinking Water Act. But the States are free to designate "special ground water systems" with standards more or less stringent, depending on the use of the water and the threat to human health and the environment.

The bill also would require that States develop an assessment or inventory of ground water resources, in consultation with the U.S. Geological Survey. And finally, the Ground Water Protection Act would mandate that States develop management strategies to ensure Federal, State, and local coordination to protect ground water resources and guarantee compliance with State regulations.

This legislation would authorize \$25 million a year for 3 fiscal years, on a 75-percent Federal, 25-percent State cost-sharing basis, for States to undertake ground water assessment. In addition, the bill would provide \$50 million over 5 fiscal years, on a 50-percent matching basis, to assist States in setting States standards, developing State management strategies, and operating protection and monitoring programs.

I enthusiastically support this legislation, as a reasoned balance of Federal and State roles in ground water management. I urge my colleagues to support this bill.

As chairman of the Subcommittee on Water Resources, Transportation

and Infrastructure, I will make national ground water legislation a priority for the 100th Congress. I am aware that there are different approaches to the task of protection of ground water. It is my hope that this bill be a starting point for a bipartisan approach to ground water legislation. I, and my cosponsors welcome the advice and suggestions from other members of our committee, and from other Members of Congress.●

● Mr. LAUTENBERG. Mr. President, I rise in support of S. 20 the Ground Water Protection Act of 1987. I commend Senator MOYNIHAN for introducing this legislation, and am pleased to join Senators MITCHELL, BAUCUS, and others as an original cosponsor. This bill would establish a comprehensive program to protect the quality of vital resources: this Nation's ground water.

Ground water pollution is a significant national problem. A study by the Office of Technology Assessment found that ground water contamination has occurred in every State and is being detected with increasing frequency. Yet we lack sufficient information on this type of pollution. This contamination has adverse health, social, environmental, and economic impacts, which are likely to increase, if we do not act.

Ground water pollution is often found near heavily populated industrial areas, which are increasingly dependent on such water for their water supplies. Serving as a source of drinking water for about half of the Nation's population, ground water also accounts for some 40 percent of all agricultural irrigation supplies, and about 26 percent of industrial withdrawals.

My State of New Jersey has experienced a growing problem with ground water contamination. Over 60 percent of the drinking water in the State comes from ground water supplies. In southern New Jersey, it is as much as 90 percent. And droughts make these reserves and their protection even more critical.

Organic compounds, pesticides, and heavy metals are found in virtually all areas of the State. Hundreds of wells in New Jersey have been restricted or closed because of chemical contamination. Yet my State's efforts to respond to this contamination have been hampered by lack of comprehensive Federal legislation addressing this threat.

Mr. President, there are numerous Federal and State programs for detecting, correcting, and preventing ground water contamination. But these measures are limited in their ability to provide the necessary protection. They typically focus on sources of pollution, contaminants, or users.

The bill before us today, however, responds to the need for a comprehensive approach to coordinate and protect the quality of our ground water.

OTA recommended that the Federal Government provide sustained financial and technical assistance to States for addressing the ground water problem. This legislation would establish such a comprehensive approach. The bill does this by requiring EPA to establish ground water quality criteria for ground water contaminants. States would then use these criteria to establish ground water contamination standards. States also would develop ground water resource assessments, monitoring programs, and protection strategies. EPA and the U.S. Geological Survey would be required to provide guidance to States for these activities. In addition, the bill directs EPA to assess State programs to assure they are consistent with the act, and to issue grants to States to carry out the purposes of the legislation.

Mr. President, this bill is meant to contribute to the process of achieving comprehensive ground water legislation. As the Environment and Public Works Committee reviews it, we will undoubtedly refine and strengthen the measure. Areas needing attention include the allocation formula for grants, the criteria to be used in setting water quality contaminant standards, and the extent to which the ground water program should be enforceable. The general structure and goals of the bill are sound, however. And I look forward to working with my colleagues on the Environment and Public Works Committee to address the problem at hand.●

● Mr. MITCHELL. Mr. President, I am today joining Senator MOYNIHAN in introducing a bill to provide for the protection of our ground water resources.

This bill is very similar to legislation which I introduced in the last Congress. I am pleased to join Senator MOYNIHAN in reintroduction of the bill and look forward to working with him on this and related issues before the Water Resources Subcommittee of the Environment and Public Works Committee.

Ground water is a natural resource of tremendous value. More than half of all Americans rely on it for drinking water. Three-quarters of our cities get their water supplies, totally or in part, from ground water.

Ninety percent of rural households have no source other than ground water for drinking water. In my home State of Maine, fully one-third of the entire population is served by private wells drawing on ground water.

Nationally, the demand for ground water is growing. Between 1950 and 1980 Americans increased their use of ground water from 34 to 89 billion gallons a day. In 1980, that amounted to a quarter of our Nation's total water use. And the trend continues. Ground

water use is expected to reach 100 billion gallons a day this year.

This crucial resource is threatened with contamination on a wide scale. Ground water pollution problems have been documented by a number of recent, major studies from both public and private sources.

One study, conducted by the nonpartisan Congressional Office of Technology Assessment, found that ground water contamination "has occurred in every State and is being detected with increasing frequency." It concluded that: "the potential effects of contamination are significant and warrant national attention."

The Academy of Natural Sciences, in a report called "Ground Water Contamination in the United States," cited a wide range of contamination sources. It warned of threats to public health from both microbial and chemical contamination.

A major review of ground water pollution by the Environmental Protection Agency concluded that: "sufficient information is available to raise concerns that a widespread problem may exist."

The State of Maine has not escaped ground water pollution. Throughout the State, there are an increasing number of reports of ground water pollution problems associated with leaking underground storage tanks, waste disposal sites, and subsurface sewage disposal.

These are serious warnings. They ought not to be disregarded. Given the enormous importance of the resource, we have a duty to act before the problem is out of control.

Despite the importance of ground water, despite the clear and growing evidence of serious problems, no single, comprehensive Federal statute protects this resource.

We need a full and complete discussion of the best approach to protecting ground water. We need to hear the views of a wide range of interested parties including States, environmental groups, industry groups, technical experts, the administration and others.

When we have heard from interested groups and the public, we can consider the various approaches to ground water pollution control and address the many issues involved in developing comprehensive ground water legislation.

I hope that the bill we are introducing will help foster this much needed debate. I do not believe that it answers all the questions that can be raised. And, it may be that, after we have held hearings and discussed the issues, we will find that we want to adjust our approach.

While I consider this legislation preliminary in many ways, I believe it is valuable to provide an outline of an

approach to the problem as a basis for comment and discussion.

The bill we are introducing would establish a comprehensive framework within which ground water could be protected from pollution. While existing Federal and State programs provide needed protection of ground water from some specific sources of pollution, they offer only limited and uncoordinated protection of the overall resource.

The bill gives State governments a major role in ground water protection. They would define the ground water resources of their State. They would adopt standards for contaminants found in ground water. They would identify sources of contamination and monitor ground water quality. And, they would develop the various pollution control programs needed to assure that standards are met.

The Federal Government would be a partner with the States in protection of ground water. The Federal Government would conduct research, oversee State programs, and provide grant assistance to States.

The bill does not attempt to install the Federal Government as the single party responsible for comprehensive protection of ground water. It does seek to coordinate and focus the existing efforts of the Federal Government and the States.

Whether or not this partnership of Federal and State agencies is the best way to proceed is part of the debate I hope this legislation will encourage.

While part of the debate will focus on who should protect ground water, we will also need to consider how to protect it.

One suggested approach is to establish national or State programs containing performance standards for a series of specific pollution sources. Another approach is to establish ground water quality standards at the national or State level, much as we have done under the Clean Water Act.

Our legislation includes elements of both these approaches. The bill would provide for expansion of existing pollution source specific controls where needed, while setting out a procedure for development and adoption of scientifically sound standards for ground water contaminants.

A major issue associated with the concept of ground water quality standards is whether such standards should be established at the national or State level. The bill provides that States make the final decisions about how stringent ground water standards should be. State standards for ground water, however, would need to be at least as stringent as Federal drinking water standards in most cases.

In addition, the bill provides that standards adopted by States would establish the level of cleanup or control

under Federal programs relating to protection of ground water quality.

My colleagues and others may have varying perspectives on this issue. I look forward to discussion and further development of this aspect of the bill.

Will States set standards which are sufficiently protective of ground water quality? I believe they will. The bill provides that EPA will assist States in setting standards.

Under the structure of this legislation, State decisions on standards would be based on a common set of Federal information documents for each ground water contaminant.

And the bill provides that the Environmental Protection Agency review, but not be required to approve, State standards, and provides for public participation in the process. States would revise and upgrade standards on a regular basis.

Once States establish ground water standards, they would develop an overall ground water program designed to assure that those standards are met.

The existing ground water programs, addressing several specific sources of contamination, would form the core of the overall State program. States would develop additional programs addressing other pollution sources as necessary to achieve ground water standards.

In addition, the bill recognizes that some sources of ground water pollution are of national concern. These sources include hazardous waste sites, underground injection, solid waste disposal, subsurface sewage disposal, and pesticide use. Some of these sources, such as hazardous waste sites and underground injection, are already regulated under Federal statutes.

Most of the others are not. The bill would require each State to establish programs addressing these sources within 4 years, unless it can demonstrate that ground water quality standards can be reached without a program for that specific source.

In developing an overall control program, a State would have the flexibility to tailor its program to the most serious pollution sources in that State. And States would have the flexibility to balance the level of protection provided by standards, the effectiveness of programs, and the cost of programs. This provision for State flexibility is an essential element of our approach to protection of ground water.

Flexibility is especially important for States which have already taken some steps to assure the high quality of ground water. The State of Maine, for example, recently established a State ground water policy and has adopted innovative programs addressing ground water pollution from leaking underground storage tanks and disposal of pesticide containers.

Nothing in the legislation we are proposing would override such State initiatives. Indeed, this legislation is intended to foster and support individual State responses to ground water pollution.

Finally, States cannot take on major new responsibilities for ground water protection without assistance from the Federal Government. The bill includes a basic grant to provide States with \$50 million a year to carry out ground water programs. This is about the level of assistance we provide to States under clean air and clean water programs.

Also, States would get short term assistance to help support ground water mapping and related work.

Mr. President, I believe this bill includes all the necessary building blocks of a comprehensive approach to protecting ground water. It sets up a workable partnership of Federal and State governments. And it offers a balance between the flexibility States need to tailor programs to their needs and the minimum standards and programs necessary to adequate protection of ground water throughout the country.

This bill is a beginning and the time to begin is now. Ground water pollution is an emerging problem on which we cannot turn our backs.

I look forward to working with my colleagues in the development of this legislation. ●

By Mr. MOYNIHAN:

S. 21. A bill entitled the Service Sector Data Collection Act of 1987; to the Committee on Commerce, Science, and Transportation.

#### SERVICE SECTOR DATA COLLECTION ACT

Mr. MOYNIHAN. Mr. President, I rise today to introduce a bill of utmost importance to our understanding of the U.S. economy. The bill would require improved data collection of the service sector which, considering its growing dominance in the U.S. economy, is inadequately measured.

The service sector includes the services industry; finance, insurance, and real estate; wholesale and retail trade; government; and transportation, communications, and utilities. The service industry—a subset of the service sector—includes such fields as hotels, automotive repair, motion pictures, health services, business services, legal services, and private education.

By contrast, the goods producing sector generally includes manufacturing, mining, and construction. Agriculture, forestry, and fishing are also sometimes grouped in the goods producing sector, but are more frequently treated as a separate category.

The service sector dominates the U.S. economy as it accounted for 69 percent of GNP and 75 percent of employment in 1985.

The service sector is also the fastest growing sector in the economy and is providing the greatest number of new jobs. From 1960 to 1985, the service sector's share of employment has risen from 62 to 75 percent. From January 1980 to May 1986, almost 90 percent of the 9.2 million jobs created were in the service sector.

In addition, service sector trade now accounts for 25 percent of world trade, with the United States holding the largest share of services trade—21 percent in 1983.

And at a time when the United States is running record merchandise trade deficits—\$148 billion in 1985—U.S. trade in services ran a \$21 billion surplus.

Trade in services is also one of the key issues on the agenda of the new round of GATT talks.

However, despite the fact that the service sector dominates the U.S. economy, detailed information on services is lacking and available information is often inaccurate.

For example, a September 10, 1986, Office of Technology Assessment [OTA] report found that trade in services was \$51 billion in surplus over the years 1982 to 1984—three times the official Federal Government figure.

And while the Federal Government collects trade statistics for about 10,000 categories of goods, it does so for only 40 categories of services.

As employment in the United States shifts substantially from the goods sector to the service sector, there is a major debate as to the desirability of that shift; that is, the quality of these new service jobs.

Some analysts claim that as employment shifts toward services, good jobs are being lost in exchange for inferior ones. A recent study prepared for the Joint Economic Committee finds that 58 percent of all net new employment between 1979 and 1984 paid annual wages of less than \$7,000, compared with 20 percent during the period from 1973 to 1979.

Others argue that we are moving in the direction of promising skilled managerial and technical job opportunities. The question remains: Are we cooking each other's hamburgers and taking in each other's laundry or are we providing services in areas of U.S. international competitive advantage like banking and insurance?

I believe that we must study the service sector at least as carefully as the goods sector in order to fully understand the constant change that is characteristic of our economy and the ramifications of that change. After all, one can't know about a problem, much less do anything about it, until one learns to measure it.

The OTA report found that substantial improvements in data collection were possible at little or no additional cost—requiring as few as 2 person-

years of effort to make significant progress.

My bill would direct the President to collect and disseminate information on service sector economic activity that is at least as complete and timely as information on the goods sector of the economy.

The Secretary of Commerce would be required to issue a new benchmark survey of unaffiliated service transactions including banking, computer software, brokerage, transportation, travel, tourism, engineering, and construction services. He would also be required to develop an index of leading indicators which includes measurement of service sector activity in more direct proportion to the service contribution to GNP.

Finally, the Bureau of Economic Analysis, the Census Bureau, and the Bureau of Labor Statistics would be directed to develop and implement a program to collect and disseminate a broader base of monthly information on the service sector.

My proposal would greatly enhance our data collection in a vital sector that has long been neglected and I urge my colleagues to support this legislation.

● I ask that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

#### S. 21

#### SECTION 1. SHORT TITLE.

This title may be cited as "The Service Sector Data Collection Act of 1987".

#### SEC. 2. PURPOSE.

The President shall direct the appropriate agencies of the Federal Government to collect and disseminate information on service sector economic activity that is at least as complete and timely as information on the goods sector of the economy.

#### SEC. 3. IMPROVED SERVICE SECTOR DATA COLLECTION.

In furtherance of the objective set forth in Section (2), upon enactment of this Act—

(a) The Secretary of Commerce shall, within three months, issue a new benchmark survey, such as the BE-20 survey proposed by the Bureau of Economic Analysis, of unaffiliated service transactions, including but not limited to banking, computer software, brokerage, transportation, travel, engineering and construction services;

(b) The Secretary of Commerce and the Secretary of Labor shall immediately direct the Bureau of Economic Analysis, the Census Bureau, and the Bureau of Labor Statistics, to develop and implement a program to collect and disseminate a broader base of monthly information on the service sector; and

(c) The Secretary of Commerce shall, within one year, develop an index of leading indicators which includes measurement of service sector activity in more direct proportion to the services contribution to the Gross National Product account of the United States. ●

By Mr. PROXMIRE:

S. 22. A bill to amend the Communications Act of 1934 in order to recognize, strengthen, and further the objectives of the first amendment in relationship to radio and television broadcasting stations; to the Committee on Commerce, Science, and Transportation.

#### FIRST AMENDMENT CLARIFICATION ACT

Mr. PROXMIRE. Mr. President, today I am introducing the First Amendment Clarification Act of 1987.

This bill is similar to a measure I first introduced in 1975 and then again in each subsequent Congress thereafter.

The major goal of this legislation is to give fuller meaning to our first amendment's guarantee of freedom of the press by abolishing the so-called fairness doctrine and the equal time rule.

#### FREE PRESS RIGHTS

The first amendment forbids the Congress from passing any law that might diminish our right to have a free press.

But, unfortunately, Congress has enacted a law which does just that. I refer, of course, to the Communications Act, which has abridged the rights of a part of the free press.

Other means of mass communication—newspapers, magazines, pamphlets, books, and motion pictures—have kept their free press rights. But not broadcasting.

In the most recent Roper poll released by the Television Information Office, 64 percent of the respondents said their main source of news was television while 14 percent cited radio. Clearly, television and radio are the dominant suppliers of news for the American people. Yet, because of government controls like the fairness doctrine and the equal time rule, broadcasters are second-class citizens when it comes to first amendment rights.

Freedom of the press is for the benefit of all Americans. If television and radio, the most popular disseminators of news and opinion, continue to be tied down by stifling Government regulation, the people of this Nation will continue to be the losers.

Mr. President, my bill aims to change this situation by giving broadcasters more of the first amendment freedom they deserve.

#### PURPOSE DEFINED

The first section of my bill defines its purpose: To recognize and confirm the applicability of the first amendment to broadcasting and to strengthen and further the objectives of the first amendment.

This purpose is to be accomplished by removing certain statutory and regulatory restrictions placed on broadcasters operating under the Communications Act of 1934.

Section 2 of my bill deals with the definition of "public interest, convenience, and necessity" under which broadcasters operate.

That phrase in the Communications Act is currently used to make broadcasters accountable to the Federal Communications Commission, after the fact, for everything they put on the air.

My proposal makes it clear that the term "public interest, convenience, and necessity" cannot be construed to give the FCC jurisdiction to require that any person be provided broadcast time, or to require that any viewpoint be given broadcast time.

Section 3 of my bill repeals that part of the Communications Act which permits the FCC to revoke the license of any station that willfully refuses or fails to allow a candidate for Federal office to buy reasonable amounts of broadcast time.

#### SECTION 315 REPEALED

Section 4 repeals section 315 of the Communications Act of 1934. Section 315 contains both the equal time rule and the basis for the FCC's fairness doctrine.

The equal time rule requires that when a candidate for public office is given or sold time, any other candidate for that same office must be given an equal opportunity.

That sounds great. But the equal time rule is an abridgment of the first amendment. It is governmental control over a part of the free press.

The fairness doctrine of the FCC requires that broadcasters afford reasonable opportunities for the presentation of contrasting viewpoints on controversial issues of public importance.

Unlike the equal time requirement, the fairness doctrine does not call for each viewpoint to receive the same amount of air time. Nor does it require that the other viewpoint be given in the same program.

Again, that sounds fine. But the fairness doctrine, like the equal time rule, violates the first amendment. Once more, a segment of the free press is being regulated by the Government.

#### PUBLIC BROADCASTING

Section 5 deals with a first amendment problem contained in section 396(g)(1)(A) of the Communications Act of 1934, which authorizes the Corporation for Public Broadcasting to "facilitate the full development of public telecommunications in which programs of high quality, diversity, creativity, excellence, and innovation, which are obtained from diverse sources, will be made available to public telecommunications entities. \* \* \* But this must be done "with strict adherence to objectivity and balance in all programs or series of programs of a controversial nature."

Such a Government-imposed standard is inappropriate and undesirable. Trying to enforce it can result in a

chilling effect on the free play of ideas, which public broadcasting should help promote.

By simply deleting this standard, section 5 of my bill is designed to solve the first amendment problem it poses.

Mr. President, why is this legislation necessary and, indeed, crucial? There are many reasons.

First, these governmental controls on the free press are unconstitutional. They violate the first amendment's guarantee of freedom of the press.

#### UNNECESSARY REGULATION

Second, this kind of governmental regulation is unnecessary. Newspapers, operating without Government control, have improved vastly in fairness, objectivity, accuracy, and relevance over the years. Broadcasters deserve that same opportunity to be free.

Third, denying broadcasters their first amendment rights is self-defeating. The fairness doctrine, for example, does not stimulate the free expression of diverse ideas. Rather, it promotes the "sameness" of ideas. Stations avoid the airing of controversial issues because they fear a challenge to their license renewal or expensive litigation resulting from a fairness complaint.

Fourth, governmental controls like the fairness doctrine and the equal time rule are dangerous. Letting government be the final arbiter of "fairness," for example, confers immense power. This is especially true when that same government decides on the granting of broadcast licenses.

#### OBSOLETE ARGUMENT

Finally, those who favor continuing governmental regulation of the broadcasting media rely on an argument that is fast becoming obsolete: The so-called "scarcity rationale." In almost every city in America—regardless of size—there are more television signals available than daily newspapers. If radio stations are counted, as they must be, general audience broadcasting stations far outnumber general circulation newspapers. Moreover, economic pressures make it nearly impossible to establish a daily newspaper in a community where one already exists.

Mr. President, I ask unanimous consent that the text of my bill be printed at this point in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 22

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SHORT TITLE AND STATEMENT OF PURPOSE

SECTION 1. (a) This act may be cited as the "First Amendment Clarification Act of 1987".

(b) It is the purpose of this Act to recognize and confirm the applicability of and to strengthen and further the objectives of the first amendment of the Constitution of the

United States by removing statutory and regulatory restrictions on broadcasters operating under the Communications Act of 1934.

**DEFINITION OF PUBLIC INTEREST, CONVENIENCE, AND NECESSITY**

SEC. 2. Section 309 of the Communications Act of 1934 is amended by adding at the end thereof the following:

"(j) Notwithstanding any other provision of this part, effective on and after the date of the enactment of this subsection for the purposes of this part, the term 'public interest, convenience, and necessity' may not be construed to give the Commission jurisdiction to require the provision of broadcast time to any person or for the expression of any viewpoint."

**REPEAL OF LICENSE OR CONSTRUCTION PERMIT REVOCATION POWER RELATING TO FACILITIES FOR CANDIDATES FOR FEDERAL PUBLIC OFFICE**

SEC. 3. Section 312(a) of the Communications Act of 1934 is amended by inserting "or" at the end of clause (5), striking out the semicolon and "or" at the end of clause (6) and inserting in lieu thereof a period, and striking out clause (7).

**REPEAL OF SECTION 315 RELATING TO FACILITIES FOR CANDIDATES FOR PUBLIC OFFICE**

SEC. 4. Section 315 of the Communications Act of 1934 is repealed.

**REPEAL OF CERTAIN LIMITATIONS ON CORPORATION FOR PUBLIC BROADCASTING**

SEC. 5. Section 396(g)(1)(A) of the Communications Act of 1934 is amended by striking out all beginning with the comma following "telecommunications entities" to the semicolon at the end thereof.

By Mr. ROTH (for himself, Mr. MOYNIHAN, Mr. HEINZ, and Mr. BRADLEY):

S. 23. A bill to make changes in the Trade Adjustment Assistance Program; to the Committee on Finance.

**TRADE ADJUSTMENT ASSISTANCE**

Mr. ROTH. Mr. President, I rise to introduce, along with my distinguished colleague, Senator MOYNIHAN of New York, a bill to extend and reform the Trade Adjustment Assistance Program.

This is the same proposal which we proposed and which passed the Senate and the House several times in the 99th Congress as part of the budget reconciliation process. It is a bill that has received overwhelming bipartisan support on Capitol Hill, passing the Finance Committee in September 1985 without objection and accepted by the House Ways and Means Committee in the budget reconciliation discussions.

The essential point of all this support is that in this Congress there is very broad recognition of the importance of the Trade Adjustment Assistance Program—or put more directly—of the need to help workers who lose their jobs to imports.

Why do Members, Republicans and Democrats alike, feel so strongly about helping workers hurt by trade?

The answer to this question requires a broader look at what is happening in trade and trade policy today.

In the 1970's this country, and many others, experienced an "energy

shock." In the 1980's we—and we alone—are experiencing a second shock, a "trade shock." I say this not only because of the mind-boggling size of the global U.S. trade deficit and the fact that imports have hurt the full range of American industries from textiles to semiconductors. I characterize the American trade situation as a "shock" because underlying these figures is a profound anxiety about the unevenness of the international playing field for trade, what many call the erosion of the postwar international trading system. And if this weren't bad enough, this is all taking place in a world economy characterized by rapid and constant change—the appearance of new products and services and rapidly shifting comparative advantage.

We need a comprehensive trade policy to confront the trade shock. A comprehensive trade policy would be aimed at opening foreign markets to U.S. products, assuring fair competition in the U.S. market, improving U.S. competitiveness, and helping those hurt by trade. It is this latter point that the bill we are introducing today addresses.

Some may say that the U.S. trade deficit is finally going down, so there is no need to take special Government action now. The November trade statistics, which show an increase in the deficit, however, call the assumption that the trade deficit is going down into question. But even if the deficit is going down, it is expected to remain quite high for the next couple of years. The need for effective Government assistance for workers hurt by trade remains very compelling.

In fact, the Trade Adjustment Assistance Program was established in 1962 because it has long been recognized that even when there is a favorable balance of trade there will be losers, individuals whose jobs will be lost to import competition. With an unfavorable balance of trade, the number of losers multiplies. Today, the trade shock has driven this point home.

As I mentioned earlier, in the 99th Congress I pressed for this kind of assistance and with the strong support of my colleagues we did save the Trade Adjustment Assistance Program by incorporating an extension of the program and some improvements into the Consolidated Omnibus Budget Reconciliation Act (Public Law 99-272, April 7, 1986). Our efforts assured that workers who lose their jobs to imports would continue to receive cash benefits to help them and their families. We restored these benefits as well to workers who had been abruptly cut-off from the program in December, 1985. We extended the program for 6 years and we began to turn the program into a real "adjustment" program by providing for participation of workers in job search programs.

Enactment of these changes was clearly a victory.

But it is critical to remember that broad Congressional support for TAA in the 99th Congress did not emerge because the basic TAA Program was so good. Actually, support for the basic TAA Program was severely floundering at the beginning of that session.

It was the TAA reforms which I introduced in January 1985, as a part of a comprehensive trade bill, (S. 234) and later that year with Senator MOYNIHAN as a separate TAA proposal (S. 1544) which I believe rallied deep support for a continuation of the program.

Unfortunately, the final Budget Reconciliation Act did not include these key reforms: One, the use of a small import fee to fund the program, two, provision of up to \$4,000 for retraining each worker hurt by trade, three, the requirement that in most instances, workers be in training to receive cash benefits and four, the proposal, particularly pressed by Senator BRADLEY, to expand the program to include workers in independent firms. That is why it is necessary to reintroduce today our TAA legislation as conference and that is why it is again necessary to make the case clear for the TAA Program.

I believe there are two basic reasons for reforming trade adjustment assistance.

First, as everyone knows, money is tight. Second, the program as currently structured has not achieved its principal purpose—adjustment by individuals and firms to import competition.

The bill we are introducing today corrects each of these problems.

A creative approach is proposed for funding the reformed program. A small fee—an adjustment fee—would be placed on imports to finance TAA. In effect, it would be a users fee for trade; those who benefit from trade would pay for the costs of trade. The bill puts a cap on this fee of 1 percent of the value of imports, but I would estimate that it would cost only one-tenth of a percent to finance the program set up in the bill.

The bill directs the President to obtain GATT approval as soon as possible for countries to be able to impose such a small fee on trade to fund adjustment programs. At the end of 2 years, the fee is imposed in any case.

Make no mistake, this is not a proposal for an import surcharge. The fee is small and the fee is capped by statute. I got this idea from a similar program that has been in place in Hong Kong for some time. Everyone thinks of Hong Kong as a totally free port, but in fact, Hong Kong assesses a small fee—one-twentieth of 1 percent—on all imports and exports. In the case of Hong Kong the fee is used to finance trade promotion programs.

The adjustment fee would be a small cost to trading nations to keep trade open and expanding, and I think America's traders are ready to pay it. The National Retail Merchants Association endorsed this idea soon after I introduced it in January 1985 as part of S. 234.

Internationally, the timing is also right. We are not the only country having trouble adjusting to new trade conditions and we are not the only country that is having budget problems. Other nations would have a clear national interest in signing onto this proposal in the GATT and that is the key ingredient for a successful negotiation.

But there is no point in placing a fee on trade to promote adjustment if the program in place is not designed to assure that objective. This is why this bill also includes a proposal for reform of the current program.

The changes are few, but they are critical. The bill does not propose a complete revamping of the TAA Program. In fact, all benefits now available to workers under TAA—additional unemployment compensation known as a "trade readjustment allowance," job search and job relocation allowances—would continue, but there is a key new eligibility requirement and an important new benefit.

The new eligibility requirement—any worker receiving benefits under the reformed program must be enrolled in or have completed a retraining program.

The new benefit—to pay for this training, each worker would be given a \$4,000 job retraining voucher redeemable for training. Individuals would have a wide choice of training options: Programs under the Job Training Partnership Act, such as State training programs and private programs approved by the private industry councils established by that act; programs approved by the Secretary of Labor as well as training by private firms. This last option—training by private firms—I believe, in particular, will open up many new opportunities.

This legislation also removes an unfair anomaly in existing law which permits workers producing components parts or providing services in integrated manufacturing companies to receive TAA benefits, but precludes certification of workers in independent companies providing the same components or services by contract.

As far as the firms program is concerned, the bill would leave in place the Technical Assistance Program. This program has proved its usefulness. For example, in House hearings on TAA, testimony on benefits of technical assistance to the textile and footwear industries was submitted. The assistance is used not only for management and marketing advice, but also for research and development, for ex-

ample, for automated apparel equipment. Importantly, this money is also used to help firms prepare petitions for help under this statute.

How much would this reformed program cost? Since TAA has already been extended in budget reconciliation, there would be no additional outlays until the program reforms come into effect.

The program reforms do not come into effect until 1 year after the import fee is imposed. During that year money would begin to build up in a trust fund set up to finance the program. The funding would continue to come from general revenues for up to 3 years depending on the timing of the GATT negotiations.

When the program changes are in effect CBO estimates prepared for the 99th Congress show that the cost of the program would be about \$300 million a year. This \$300 million would be entirely funded by revenues raised the previous year by the import fee.

The U.S. trade situation is very difficult. As a number of members have pointed out recently, this is a time for open minds, for unconventional proposals.

Today more than ever our workers need meaningful help in the face of the trade-related dislocation. Imports now compete with nearly the full range of U.S. production. The proposal in this bill for the first time offers these workers a total package of relief—unemployment compensation, job search and relocation help and significant financing and options for retraining. A complete package is not available under any other Federal program.

And today more than ever the international trading system—the GATT—needs to be brought back to life. Trade intellectuals in the OECD and elsewhere have for some time now decried the need for "positive adjustment policies"—policies that facilitate the movement of people and resources from declining to growing industries—as the underlying problem dragging the trading system down. This proposal for a GATT-sanctioned import fee to finance adjustment provides a new tool to promote positive adjustment by GATT members.

I believe it offers, as well, a new tool for getting meaningful multilateral trade negotiations underway in the Uruguay round. It is traditional for nations to signal their seriousness about a new round of trade negotiations by taking a trade liberalizing action for example, lowering some tariffs. Agreement to the imposition of a small fee on imports would be an unconventional, even ironic, way to signal a strong commitment to the new round. But this fee could very well be the catalyst for movement on the issue that is central to establishing a fair and effective international trad-

ing system and to the success of any new negotiations, a new multilateral agreement on safeguards—situations in which countries can legally enact temporary trade restrictions. In these times I think a GATT agreement on this adjustment fee would perhaps more than any other simple action signal a renewed worldwide commitment to make the trading system work.

As you can see, I introduce this bill with great hopes. But I want to make it clear as well that I agree with the AFL-CIO comments on the Trade Adjustment Assistance Program included in a letter to Congressman GIBBONS, the chairman of the Ways and Means Committee.

The AFL-CIO does not view trade adjustment assistance as a substitute for a fair and effective trade policy. Nevertheless, the United States is faced with the tragic reality of devastated communities and wasted human resources due to imports. A Trade Adjustment Assistance Program that includes income support, training, and job search and relocation allowances is a first and necessary step to restoring and revitalizing the industrial strength of our country.

This bill has broad support in the Congress. It is time to make it law.

At this time, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 23

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. ELIGIBILITY OF WORKERS AND FIRMS FOR TRADE ADJUSTMENT ASSISTANCE.

(a) WORKERS.—Section 222 of the Trade Act of 1974 (19 U.S.C. 2272) is amended to read as follows:

##### "SEC. 222. GROUP ELIGIBILITY REQUIREMENTS.

"(a) The Secretary shall certify a group of workers (including workers in any agricultural firm or subdivision of an agricultural firm) as eligible to apply for adjustment assistance under this chapter if the Secretary determines that—

"(1) a significant number or proportion of the workers in such workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated,

"(2) sales or production, or both, of such firm or subdivision have decreased absolutely, and

"(3) increases of imports of articles like or directly competitive with articles—

"(A) which are produced by such workers' firm or appropriate subdivision thereof, or

"(B) to which such workers' firm, or appropriate subdivision thereof, provides essential parts or essential services,

contributed importantly to such total or partial separation, or threat thereof, or to such decline in sales or production.

"(b) For purposes of subsection (a)(3), the term 'contributed importantly' means a cause which is important but not necessarily more important than any other cause."

(b) **FIRMS.**—Subsection (c) of section 251 of the Trade Act of 1974 (19 U.S.C. 2341(c)) is amended to read as follows:

"(c)(1) The Secretary shall certify a firm (including any agricultural firm) as eligible to apply for adjustment assistance under this chapter if the Secretary determines—

"(A) that a significant number or proportion of the workers in such firm have become totally or partially separated, or are threatened to become totally or partially separated,

"(B) that—

"(i) sales or production, or both, of such firm have decreased absolutely, or

"(ii) sales or production, or both, of an article that accounted for not less than 25 percent of the total production or sales of the firm during the 12-month period preceding the most recent 12-month period for which data are available have decreased absolutely, and

"(C) increases of imports of articles like or directly competitive with articles—

"(i) which are produced by such firm, or

"(ii) to which such firm provides essential parts or essential services,

contributed importantly to such total or partial separation, or threat thereof, and to such decline in sales or production.

"(2) For purposes of paragraph (1)(C), the term 'contributed importantly' means a cause which is important but not necessarily more important than any other cause."

#### SEC. 2. CASH ASSISTANCE FOR WORKERS.

(a) **Participation in Training Program Required.**—

(1) Paragraph (5) of section 231(a) of the Trade Act of 1974 (19 U.S.C. 2291(a)(5)) is amended to read as follows:

"(5) Such worker—

"(A) is enrolled in a training program approved by the Secretary under section 236(a),

"(B) has, after the date on which the worker became totally separated, or partially separated, from the adversely affected employment, completed a training program approved by the Secretary under section 236(a), or

"(C) has received a written statement certified under subsection (c) after the date described in subparagraph (B)."

(2) Subsection (b) of section 231 of the Trade Act of 1974 (19 U.S.C. 2291(b)) is amended to read as follows: "(b) If the Secretary determines that—

"(1) the adversely affected worker—

"(A) has failed to begin participation in the training program the enrollment in which meets the requirement of subsection (a)(5), or

"(B) has ceased to participate in such training program before completing such training program, and

"(2) there is no justifiable cause for such failure or cessation,

no trade adjustment allowance may be paid to the adversely affected worker under this part on or after the date of such determination until the adversely affected worker begins or resumes participation in a training program approved under section 236(a)."

(3) Subsection (c) of section 231 of the Trade Act of 1974 (19 U.S.C. 2291(c)) is amended to read as follows:

"(c)(1) If the Secretary finds that it is not feasible or appropriate to approve a training program for a worker under section 236(a),

the Secretary shall submit to such worker a written statement certifying such finding.

"(2) If a State or State agency has entered into an agreement with the Secretary under section 239 and the State or State agency finds that it is not feasible or appropriate to approve a training program for a worker pursuant to the requirements of section 236(a), the State or State agency shall—

"(A) submit to such worker a written statement certifying such finding, and

"(B) submit to the Secretary a written statement certifying such finding and the reasons for such finding.

"(3) The Secretary shall submit to the Finance Committee of the Senate and to the Ways and Means Committee of the House of Representatives an annual report on the number of workers who received certifications under this subsection during the preceding year."

(4) Paragraph (3) of section 239(a) of the Trade Act of 1974 (19 U.S.C. 2311(a)(3)) is amended to read as follows:

"(3) will make any certifications required under section 231(c)(2), and"

(b) **WEEKLY AMOUNTS OF READJUSTMENT ALLOWANCES.**—Section 232 of the Trade Act of 1974 (19 U.S.C. 2292) is amended by striking out "under section 231(c) or 236(c)" in subsection (c) and inserting in lieu thereof "under section 231(b)".

(c) **LIMITATION.**—

(1) Paragraph (1) of section 233(a) of the Trade Act of 1974 (19 U.S.C. 2293(a)(1)) is amended by striking out "52" and inserting in lieu thereof "78".

(2) Paragraph (3) of section 233(a) of the Trade Act of 1974 (19 U.S.C. 2293(a)(3)) is amended to read as follows:

"(3) If the adversely affected worker has received a written statement certified under section 231(c) after the date the worker became totally separated, or partially separated, from adversely affected employment, paragraph (1) shall be applied with respect to such worker by substituting '52' for '78'."

(3) Section 233 of the Trade Act of 1974 (19 U.S.C. 2293) is amended—

(A) by striking out subsection (b), and

(B) by redesignating subsection (e) as subsection (b).

#### SEC. 3. JOB TRAINING FOR WORKERS.

(a) **APPROVAL REQUIRED; LIMITATION ON COSTS.**—Section 236 of the Trade Act of 1974 (19 U.S.C. 2296) is amended.

(1) by striking out "is available" in subsection (a)(1)(D) and inserting in lieu thereof "is reasonably available",

(2) by striking out "(to the extent appropriated funds are available)" in the first sentence of subsection (a)(1),

(3) by inserting "directly or through a voucher system" after "by the Secretary" in the second sentence of subsection (a)(1),

(4) by redesignating paragraphs (2), (3), and (4) of subsection (a) as paragraphs (3), (4), and (5), respectively, of subsection (a),

(5) by inserting after paragraph (1) of subsection (a) the following new paragraph:

"(2)(A) The aggregate amount of payments that may be made under paragraph (1) for any worker shall not exceed \$4,000 for each partial separation or total separation.

"(B) The Secretary may issue more than one voucher under paragraph (1) to a worker with respect to any partial separation or total separation, but the aggregate value of such vouchers shall not exceed the amount of the limitation imposed by subparagraph (A) with respect to such separation."

(6) by striking out subsection (c), and

(7) by redesignating subsections (d), (e), and (f) as subsections (c), (d), and (e), respectively.

(b) **AGREEMENTS WITH THE STATES.**—Subsection (f) of section 239 of the Trade Act of 1974 (19 U.S.C. 2311(f)) is amended to read as follows:

"(f) Each cooperating State agency shall, in carrying out subsection (a)(2)—

"(1) advise each adversely affected worker to apply for training under section 236(a) at the time the worker makes application for trade readjustment allowances, and

"(2) as soon as practicable, interview the adversely affected worker regarding suitable training opportunities available to the worker under section 236 and review such opportunities with the worker."

#### SEC. 4. TERMINATION OF TRADE ADJUSTMENT ASSISTANCE.

Subsection (b) of section 285 of the Trade Act of 1974 (19 U.S.C. 2271, preceding note) is amended to read as follows:

"(b) No assistance, vouchers, allowances, or other payments may be provided under chapter 2, no technical assistance may be provided under chapter 3, and no duty shall be imposed under section 287, after September 30, 1991."

#### SEC. 5. FUNDING OF TRADE ADJUSTMENT ASSISTANCE.

(a) **AUTHORIZATION OF APPROPRIATIONS.**—

(1) Section 245 of the Trade Act of 1974 (19 U.S.C. 2317) is amended by striking out "1989, 1990, and 1991" and inserting in lieu thereof "and 1989".

(2) Subsection (b) of section 256 of the Trade Act of 1974 (19 U.S.C. 2346(b)) is amended by striking out "1989, 1990, and 1991" and inserting in lieu thereof "and 1989".

(b) **ESTABLISHMENT OF TRUST FUND.**—Chapter 5 of title II of the Trade Act of 1974 (19 U.S.C. 2391, et seq.) is amended by inserting after section 285 the following new section:

"SEC. 286. TRADE ADJUSTMENT ASSISTANCE TRUST FUND.

"(a) There is hereby established within the Treasury of the United States a trust fund to be known as the Trade Adjustment Assistance Trust Fund (hereinafter in this section referred to as the 'Trust Fund'), consisting of such amounts as may be transferred or credited to the Trust Fund as provided in this section or otherwise appropriated to the Trust Fund.

"(b)(1) The Secretary of the Treasury shall transfer to the Trust Fund out of the general fund of the Treasury of the United States amounts determined by the Secretary of the Treasury to be equivalent to the amounts received into such general fund that are attributable to the duty imposed by section 287.

"(2) The amounts which are required to be transferred under paragraph (1) shall be transferred at least quarterly from the general fund of the Treasury of the United States to the Trust Fund on the basis of estimates made by the Secretary of the Treasury of the amounts referred to in paragraph (1) that are received into the Treasury. Proper adjustments shall be made in the amounts subsequently transferred to the extent prior estimates were in excess of, or less than, the amounts required to be transferred.

"(c)(1) The Secretary of the Treasury shall be the trustee of the Trust Fund, and shall submit an annual report to the Committee on Finance of the Senate and the Committee on Ways and Means of the House of Representatives on the financial

condition and the results of the operations of the Trust Fund during the fiscal year preceding the fiscal year in which such report is submitted and on the expected condition and operations of the Trust Fund during the fiscal year in which such report is submitted and the 5 fiscal years succeeding such fiscal year. Such report shall be printed as a House document of the session of the Congress to which the report is made.

"(2)(A) The Secretary of the Treasury shall invest such portion of the Trust Fund as is not, in his judgment, required to meet current withdrawals. Such investments may be made only in interest-bearing obligations of the United States. For such purpose, such obligations may be acquired—

"(i) on original issue at the issue price, or

"(ii) by purchase of outstanding obligations at the market price.

"(B) Any obligation acquired by the Trust Fund may be sold by the Secretary of the Treasury at the market price.

"(C) The interest on, and the proceeds from the sale or redemption of, any obligations held in the Trust Fund shall be credited to and form a part of the Trust Fund.

"(d) Amounts in the Trust Fund shall only be available—

"(1) for the payment of drawbacks and refunds of the duty imposed by section 287 that allowable under any other provision of Federal law, and

"(2) to the extent and in such amounts as may be provided by appropriation Acts, for making expenditures to carry out the provisions of chapters 2 and 3.

None of the amounts in the Trust Fund shall be available for the payment of loans guaranteed under chapter 3 or for any other expenses relating to financial assistance provided under chapter 3."

(c) CONFORMING AMENDMENTS.—The table of contents for the Trade Act of 1974 is amended by inserting, after the item relating to section 285, the following new items:

"Sec. 286. Trade Adjustment Trust Fund.

"Sec. 287. Imposition of additional duty."

#### SEC. 6. IMPOSITION OF SMALL UNIFORM DUTY ON ALL IMPORTS.

##### (a) NEGOTIATIONS.—

(1) The President shall undertake negotiations necessary to achieve changes in the General Agreement on Tariffs and Trade that would allow any country to impose a small uniform duty on all imports to such country for the purpose of using the revenue from such duty to fund any program which assists adjustment to import competition.

(2) On the date that is 6 months after the date of enactment of this Act, the President shall submit to the Congress a report on the progress of negotiations conducted under paragraph (1).

(3) On the first day after the date of enactment of this Act on which the General Agreement on Tariffs and Trade allows any country to impose a duty described in paragraph (1), the President shall submit to the Congress a written statement certifying that the General Agreement on Tariffs and Trade allows such a duty.

(b) IMPOSITION OF DUTY.—Chapter 5 of title II of the Trade Act of 1974 (19 U.S.C. 2391, et seq.), as amended by the preceding section of this Act, is further amended by adding at the end thereof the following new section:

#### "SEC. 287. IMPOSITION OF ADDITIONAL DUTY.

"(a) In addition to any other duty imposed by law, there is hereby imposed a duty on all articles entered, or withdrawn from

warehouse, for consumption in the customs territory of the United States.

"(b)(1) The rate of the duty imposed by subsection (a) shall be a uniform ad valorem rate proclaimed by the President at least 30 days prior to the date such rate takes effect which is equal to the lesser of—

"(A) 1 percent, or

"(B) a percentage that is sufficient to provide the funding necessary to carry out the provisions of chapters 2 and 3.

"(c)(1) Except as otherwise provided in this subsection, duty-free treatment provided with respect to any article under any other provision of law shall not prevent the imposition of duty with respect to such article by subsection (a).

"(2) No duty shall be imposed by subsection (a) with respect to—

"(A) any article (other than an article provided for in item 870.40, 870.45, 870.50, 870.55, or 870.60 of the Tariff Schedules of the United States) that is treated as duty free under schedule 8 of the Tariff Schedules of the United States, or

"(B) any article which has a value of less than \$1,000."

#### SEC. 7. TAXATION OF TRADE READJUSTMENT ASSISTANCE.

Section 85(c) of the Internal Revenue Code of 1954 is amended by inserting ", but not including payments of training costs, or training vouchers, provided under section 236 of the Trade Act of 1974 (19 U.S.C. 2296)" after "nature of unemployment compensation".

#### SEC. 8. EFFECTIVE DATES.

(a) IN GENERAL.—Except as otherwise provided by this section, the amendments made by this Act shall take effect on the earlier of—

(1) the date that is 3 years after the date of enactment of this Act, or

(2) the date that is 1 year after the date that is 30 days after the date on which the President submits to the Congress the written statement described in section 6(a)(3).

(b) ADDITIONAL DUTY AND TRUST FUND.—

(1) The amendment made by section 6(b) shall apply to any article entered, or withdrawn from warehouse, for consumption after the earlier of—

(A) the date that is 2 years after the date of enactment of this Act, or

(B) the date that is 30 days after the date on which the President submits to the Congress the written statement described in section 6(a)(3).

(2) The amendments made by subsections (b) and (c) of section 5 shall take effect on the earlier of—

(A) the date that is 2 years after the date of enactment of this Act, or

(B) the date that is 30 days after the date on which the President submits to the Congress the written statement described in section 6(a)(3).

(c) NEGOTIATIONS.—The provisions of section 6(a) shall take effect on the date of enactment of this Act.

(d) INCOME TAX AMENDMENT.—The amendment made by section 7 shall apply to taxable years ending on or after the earlier of—

(1) the date that is 3 years after the date of enactment of this Act, or

(2) the date that is described in subsection (a)(2) of this section.

Mr. MOYNIHAN. Mr. President, today I rise to introduce legislation to extend the Trade Adjustment Assistance [TAA] Program, reform the program to emphasize worker retraining,

and fund the revised TAA Program with a small fee on imports.

The TAA Program is the only Federal program specifically intended to assist workers who lose their jobs to imports. All told, since 1981, more than 3.4 million job opportunities have been lost to foreign imports. In the last decade TAA has provided extended unemployment and job retraining benefits to 1.5 million workers, including 114,000 in New York.

The bill I introduce today with Senator ROTH contains the same provisions that were passed by both Houses of Congress twice in the fall of 1985, but which failed to be enacted at that time. Permit me to explain.

Our bill is essentially the same as legislation introduced on July 31, 1985 (S. 1544) and which was cosponsored by 10 members of the Finance Committee, unanimously passed the committee as an amendment in September 1985 as part of the fiscal year 1986 budget reconciliation bill, and was included in the final reconciliation bill that passed the Senate in November. In July, the House had included a 4-year extension of the TAA Program in its Budget Reconciliation Act.

During the subsequent conference, the House agreed to the Senate's provisions—with some minor changes—to reform and extend the program for 6 years. However, the House and Senate could not resolve all their differences on other reconciliation issues. And although each House twice passed reconciliation bills including TAA provisions, Congress did not send reconciliation legislation to the President during the 1st session of the 99th Congress.

When Congress resumed consideration of the bills in February 1986, the administration threatened to veto any bill that included the provision funding the TAA Program through the import fee. Since the fee was an integral part of the program's reform, Congress instead agreed to include a simple 6-year extension of the existing program—as I had proposed on the 1st day of the 99th Congress in S. 23—as part of the Consolidated Omnibus Reconciliation Act of 1985—Public Law 99-272.

We are reintroducing this legislation today because the need to reform and establish a secure source of funding for the TAA Program is more urgent than ever. The most recent monthly trade statistics show a November merchandise trade deficit of \$19.2 billion—the worst ever. In 1986, the trade deficit will exceed \$170 billion: more than quadruple the deficit in 1980. Since the administration took office, the cumulative trade deficit is approximately \$600 billion.

Assisting workers to adjust in the face of this tidal wave of imports is the least we can do. I have always appreciated the benefits of an open trad-

ing system, but we must assist our workers in the pain of transition if we expect their support in preserving open markets.

Our legislation would provide \$4,000 tax-free vouchers for retraining, give workers a wider choice of training programs, and expand eligibility for TAA to secondary workers—workers dislocated from independent firms that depend on supplying essential parts or service to firms that produce import impacted products. It would also require a worker to agree to retraining in order to receive a trade adjustment allowance, unless the State agency and Secretary of Labor agree that no training program is reasonably available or suitable for the displaced worker.

Finally, this bill would fund the program through a small fee on imports of up to 1 percent, although we estimate that funding the program would probably only require a duty of 0.1 to 0.25 percent. The President would be directed to obtain approval from the GATT members to impose this small duty, and he would be required to apply the duty as soon as the GATT approved it or after 2 years even without GATT approval. The resulting trust fund would be used to pay for TAA beginning in 3 years, and extend the current program until the revised program took effect—1 year after the fee is imposed.

The TAA Program is essential in our increasingly global economy whereby comparative advantage dictates the growth and decline of national industries.

By emphasizing working retraining, a reformed TAA Program would more effectively assist displaced workers in their transition to new growth industries that require different skills. But workers who will have to be in retraining, understandably desire a secure source of funding for the TAA Program. A small import duty would ensure that this vital program continues to meet urgent needs.

I have heard much criticism of the import fee, especially from the President himself. But unlike the recently enacted 0.22 percent customs user fee which is to accrue as general revenue, a TAA duty would be designated specifically for the purpose of funding the TAA Program. This linkage between imports and the workers that imports displace is an important aspect of this provision which distinguishes it from other general revenue measures. It is only fair that those who benefit from our open trade policy share in the costs of that policy. A secure TAA Program could even benefit importers by blunting support for more restrictive—indeed protectionist—trade measures.

I urge my colleagues to support this important legislation to extend and

reform the Government's vital role in the international system of trade.

By Mr. MOYNIHAN:

S. 24. A bill to amend title II of the Social Security Act to waive, for 5 years, the 24-month waiting period for Medicare eligibility on the basis of a disability in the case of individuals with acquired immune deficiency syndrome [AIDS], to require the Secretary of Health and Human Services to make grants to State and local governments for the establishment of programs to test blood to detect the presence of antibodies to the human T-cell lymphotropic virus and to make grants to eligible State and local governments to support projects for education and information dissemination concerning acquired immune deficiency syndrome, and for other purposes; to the Committee on Finance.

#### COMPREHENSIVE AIDS LEGISLATION

Mr. MOYNIHAN. Mr. President, I rise today to introduce legislation that contributes to the battle against one of the worst health crises our Nation has ever faced—acquired immune deficiency syndrome, more commonly known as AIDS. The current administration, Congress and concerned health groups across the country have made it clear that the fight against AIDS is urgent and regrettably, only beginning.

AIDS poses a threat to all sectors of our society; men and women, homosexuals and heterosexuals, adults and children. For each of these groups, the number of those dying from the disease is growing at a startling rate. According to the Centers for Disease Control [CDC], as of December 31, 1986, there have been 29,003 cases of full-blown AIDS reported in this country and of those 29,003, 16,301 have died. Because of the danger to so many, Mr. President, I am offering comprehensive legislation that addresses the needs of all these individuals.

To begin with, we must assess our current Federal programs as to their effectiveness in handling the special needs of those stricken with AIDS. Part of the legislation I propose today will facilitate the availability of Medicare coverage on the basis of a disability—under title II of the Social Security Act—for those affected with AIDS.

Currently, there is a 24-month waiting period for disabled individuals before receiving Medicare benefits. This waiting period was established in order to ensure that only those who were truly disabled, enough so that they receive benefits for a full 2 years, would be eligible for additional health care coverage.

The AIDS patient simply cannot wait 24 months to receive this coverage. The average life expectancy of an AIDS patient, from the date of diagnosis, is between 11.2 and 13 months.

Sadly enough, there is no hope that AIDS patients will overcome their disability, hence there is no reason to delay granting them Medicare coverage. These individuals have worked and contributed to society—by removing the current waiting period for Medicare coverage, we are simply giving AIDS patients the health care coverage they have earned and are in need of at once.

It is not just the individual who suffers as a result of AIDS, society suffers as well. AIDS is not only costly in terms of treatment but also in terms of lost human potential. The majority of AIDS patients are between the ages of 30 to 39, a time in life which is often viewed as the most promising. Every time AIDS takes the life of one of these individuals, society is robbed of their valuable contributions.

In order to avoid these losses, we must take steps to prevent the further spread of AIDS. This bill provides \$20 million to State and local governments for the establishment of blood testing programs to detect the presence of antibodies to the HTLV-III virus. The purpose of these programs is to inform those who might be carrying the virus that they have it so that they can take active measures against spreading it.

Normally, these tests are used for screening blood in blood banks and hospitals. Alternative sites are necessary to provide the opportunity for confidential and voluntary testing while limiting the chance of infecting a community blood supply. Congress has already recognized the need for such sites by providing some funding for them. These have been successful programs, but still more are needed in certain parts of the country. In order to increase the number of sites, and maintain the programs operating now, additional funding is necessary.

Importantly, this legislation would provide confidentiality for those who receive this blood test. The great social stigma attached to having the AIDS virus is often unwarranted; the presence of the virus does not always lead to full-blown AIDS. Once infected, there is only a 25- to 50-percent chance of contracting the disease. Without this guarantee of confidentiality, those who are in the most need will not come forward. We must recognize that only after those individuals that have developed antibodies to the HTLV-III virus are informed of their presence, can they take steps to minimize the risk of passing it on to others.

In addition, this legislation provides funding for public information about AIDS. The Institute of Science and National Academy of Sciences recently recommended, in a report entitled "Confronting AIDS" that, "for at least the next several years, the most effective measure for reducing the spread of HIV infection is education of the

public." This legislation authorizes \$75 million toward that effort by making grants available to State and local governments for education and information dissemination projects concerning the prevention and treatment of AIDS.

Altering the course of the epidemic demands that those in high risk groups be informed on ways to protect themselves and seek assistance. Public education can dispel dangerous misconceptions about AIDS—such as the idea that AIDS can be spread through casual contact, which it cannot—which lead to discrimination against those carrying the virus. Above all, those at risk of infection should be informed of those behaviors and practices that minimize the danger.

Finally, this legislation directs the Secretary of Health and Human Services to conduct a survey on infants with AIDS. By 1991, it is estimated that a cumulative total of 3,000 newborn infants will have contracted AIDS. Already, hospitals in certain parts of the country have reported that as much as 15 percent of pediatric beds are already occupied by AIDS cases. The survey required by this legislation would determine the number of children living in hospital environments and those who have been placed in foster care as well as recommendations for improved care of those children stricken with AIDS who lack ongoing parental care and support. Though it may be the most tragic of all AIDS cases, clearly a great deal is unknown concerning the proper care of these stricken infants.

Mr. President, with no cure for this dread disease, we must care for those cruelly stricken, and take measures to assure others will not suffer. We do what simply must be done.

I urge all my colleagues to support this necessary legislation in our fight against AIDS. I ask unanimous consent that the text of the bill be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 24

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. 5-YEAR WAIVER OF 24-MONTH WAITING PERIOD FOR MEDICARE ELIGIBILITY FOR INDIVIDUALS WITH AIDS.**

(a) IN GENERAL.—Section 226 of the Social Security Act (42 U.S.C. 426) is amended by redesignating subsection (h) as subsection (i) and by inserting after subsection (g) the following new subsection:

"(h)(1) Subject to paragraph (2), in the case of an individual who is medically determined to have acquired immune deficiency syndrome (AIDS) and who files an application for hospital insurance benefits under part A of title XVIII pursuant to this subsection, subsection (b) shall be applied as if—

"(A) in paragraph (2)(A), 'and has for 24 calendar months been entitled to,' were deleted;

"(B) in paragraph (2)(B), 'and has been for not less than 24 months,' were deleted;

"(C) in paragraph (2)(C)(ii), 'including the requirement that he has been entitled to the specified benefits for 24 months,' were deleted;

"(D) in the matter in the first sentence following subparagraph (C), 'first month' were substituted for 'twenty-fifth month'; and

"(E) in the second sentence, 'twenty-fourth' were deleted.

"(2) Paragraph (1) shall not result in an individual becoming entitled to hospital insurance benefits under part A of title XVIII for any month before the first month in which the individual both—

"(A) is medically determined to have acquired immune deficiency syndrome, and

"(B) has filed an application under paragraph (1).

"(3) For purposes of this subsection, an individual will be presumed to have acquired immune deficiency syndrome (AIDS) if the individual has been diagnosed, in accordance with standards established by the Secretary after consultation with the Director of the Centers for Disease Control, as having such disease."

(b) EFFECTIVE DATE AND 5-YEAR SUNSET.—The amendments made by subsection (a) shall take effect on the first day of the first month that begins more than 45 days after the date of the enactment of this Act and shall apply to services furnished during the five-year period beginning on that first day.

**SEC. 2. ESTABLISHMENT OF GRANT PROGRAM.**

Part B of title III of the Public Health Service Act is amended by inserting after section 314 the following new sections:

**"GRANTS FOR PROGRAMS TO TEST BLOOD FOR THE PRESENCE OF ANTIBODIES TO THE HTLV-III VIRUS**

"SEC. 315. (a) The Secretary shall make grants to State and local governments to establish programs to test blood to detect the presence of antibodies to the human T-cell lymphotropic virus (hereinafter referred to as the 'HTLV-III virus'). Programs supported with grants under this section shall—

"(1) provide for the conduct of such tests at locations other than blood banks and other sites where blood and plasma are collected for use for medical transfusions;

"(2) provide for the conduct of such tests with a method of testing blood for the presence of antibodies to the HTLV-III virus which has been certified by the Secretary;

"(3) provide for the conduct of such tests without charge to any individual requesting such tests; and

"(4) provide referral services for any such individual to—

"(A) community agencies and health care providers qualified to evaluate the results of such a test; and

"(B) counseling services for such individuals, including mental health, financial, and legal services.

"(b) Any grant received by a State or local government under this section may be used by such government to—

"(1) conduct the blood tests referred to in this section directly or through grants to, or contracts with, public or private hospitals, clinics, or health care organizations;

"(2) purchase appropriate materials and kits for the conduct of such tests;

"(3) provide training for personnel who will conduct such tests;

"(4) pay the costs of hiring and compensating personnel to conduct such tests;

"(5) process the results of such tests; and

"(6) carry out such other activities relating to the conduct of such tests as the Secretary may permit by regulation.

"(c) No grant may be made to a State or local government under this section unless an application therefor is submitted to the Secretary. Each such application shall contain—

"(1) a description of the populations or geographical areas which will be tested; and

"(2) such other information as the Secretary may by regulation prescribe.

"(d) No individual who conducts a blood test supported by a grant under this section may disclose, or may be compelled to disclose, the identity or any identifying characteristics of any individual who has been a subject of such a test unless authorized by an appropriate order of a court of competent jurisdiction to disclose such identity or characteristics. Such an order may only be granted after application showing that a clear and imminent danger to the public safety will result if such identity or characteristics are not disclosed. An individual who has been such a subject shall be afforded a reasonable opportunity to participate in, or object to, the application. In assessing such an application, the court shall weigh the public interest and the need for disclosure of the identity or identifying characteristics of such individual against the injury to such individual that will result from such disclosure. Upon granting of such an order, the court shall impose appropriate safeguards against unauthorized disclosure of such individual's identity or identifying characteristics.

"(e)(1) No part of a grant made under this section may be used to supplant State or local funds that would be available to such State or local government to carry out the testing program supported under this section in the absence of such grant.

"(2) Not more than 5 percent of a grant under this section may be used for costs incurred to administer such grant.

"(f) The total amount of a grant under this section shall be obligated by a State or local government not later than 2 years after such grant is received by such government. Any part of such grant which is not obligated within such 2-year period shall be repaid to the Secretary by the State or local government immediately after the expiration of such 2-year period.

"(g)(1) Each State or local government which receives a grant under this section shall keep such records as the Secretary may require by regulation to facilitate an effective audit.

"(2) The Secretary and the Comptroller General of the United States shall have access, for the purpose of audit and examination, to any books, documents, and records of each State or local government which receives a grant under this section, if, in the opinion of the Secretary or the Comptroller General, such books, documents, and records are related to the receipt or use of any such grant.

"(3) No books, documents, or records kept under the provisions of this section may be used—

"(A) to initiate or substantiate any criminal charges against an individual who has been the subject of a test supported with a grant under this section; or

"(B) to conduct any investigation with respect to such an individual; or

"(C) as evidence in any civil action or proceeding against such an individual.

"(h) Within 30 days after the end of each fiscal year, each State or local government which receives a grant under this section shall prepare and transmit a report to the Secretary which describes the activities conducted by the State or local government with such grant. Within 90 days after the end of each fiscal year, the Secretary shall prepare and transmit a report to the Congress which summarizes the reports prepared by State or local governments under the preceding sentence and which contains such recommendations and additional information as the Secretary considers appropriate.

"(i) To carry out this section, there are authorized to be appropriated \$20,000,000 for fiscal year 1988, and such sums as may be necessary for each of the fiscal years 1989 and 1990."

**"GRANTS FOR EDUCATION AND INFORMATION PROJECTS CONCERNING ACQUIRED IMMUNE DEFICIENCY SYNDROME"**

"SEC. 315A. (a)(1) The Secretary shall make grants to eligible State and local governments to support—

"(A) projects of education and information dissemination concerning acquired immune deficiency syndrome and the prevention and treatment of such syndrome; and

"(B) projects to facilitate the transfer and communication of information concerning acquired immune deficiency syndrome among agencies of State and local governments.

"(2) A State or local government which receives a grant to support a project described in paragraph (1) may carry out such project through grants to community organizations or local chapters of national organizations concerned with acquired immune deficiency syndrome.

"(b) For purposes of this section, the term 'eligible State or local government' means a State or local government to which, during the six month period immediately preceding the date on which an application under this section is made, a number of cases of acquired immune deficiency syndrome has been reported which exceeds by 20 percent the number of such cases reported to such government during the preceding six month period.

"(c) No grant may be made to a State or local government under this section unless an application therefor is submitted to the Secretary. Each such application shall contain—

"(1) a description of the project to be conducted with the grant; and

"(2) such other information as the Secretary may by regulation prescribe.

"(d) No individual who carries out a project supported by a grant under this section may disclose, or may be compelled to disclose, the identity or identifying characteristics of any individual who receives services from such project unless the individual who receives such services consents to such disclosure or the individual carrying out such project is authorized by an appropriate order of a court of competent jurisdiction to disclose such identity or characteristics. Such an order may only be granted after application showing that a clear and imminent danger to the public safety will result if such identity or characteristics are not disclosed. An individual who has received services from such a project shall be afforded a reasonable opportunity to participate in, or object to, the application. In assessing such

an application, the court shall weigh the public interest and the need for disclosure of the identity or identifying characteristics of such individual against the injury to such individual that will result from such disclosure. Upon granting of such an order, the court shall impose appropriate safeguards against unauthorized disclosure of such individual's identity or identifying characteristics.

"(e)(1) No part of a grant made under this section may be used to supplant State or local funds that would be available to such State or local government to carry out the project supported under this section in the absence of such grant.

"(2) Not more than 5 percent of a grant under this section may be used for costs incurred to administer the project supported with such grant.

"(3) The Federal share of the costs of any project supported under this section shall be 100 percent.

"(f) The total amount of a grant under this section shall be obligated by a State or local government not later than 2 years after such grant is received by such government. Any part of such grant which is not obligated within such 2-year period shall be repaid to the Secretary by the State or local government immediately after the expiration of such 2-year period.

"(g)(1) Each State or local government which receives a grant under this section shall keep such records as the Secretary may require by regulation to facilitate an effective audit.

"(2) The Secretary and the Comptroller General of the United States shall have access, for the purpose of audit and examination, to any books, documents, and records of each State or local government which receives a grant under this section, if, in the opinion of the Secretary or the Comptroller General, such books, documents, and records are related to the receipt or use of any such grant.

"(3) No books, documents, or records kept under the provisions of this section may be used—

"(A) to initiate or substantiate any criminal charges against an individual who receives services from a project supported with a grant under this section; or

"(B) to conduct any investigation with respect to such an individual; or

"(C) as evidence in any civil action or proceeding against such an individual.

"(h) Within 30 days after the end of each fiscal year, each State or local government which receives a grant under this section shall prepare and transmit a report to the Secretary which describes the activities conducted by the State or local government with such grant. Within 90 days after the end of each fiscal year, the Secretary shall prepare and transmit a report to the Congress which summarizes the reports prepared by State or local governments under the preceding sentence and which contains such recommendations and additional information as the Secretary considers appropriate.

"(i) To carry out this section, there are authorized to be appropriated \$75,000,000 for fiscal year 1988 and such sums as may be necessary for each of the fiscal years 1989 and 1990."

**SEC. 3. SURVEY ON CHILDREN WITH ACQUIRED IMMUNE DEFICIENCY SYNDROME.**

The Secretary of Health and Human Services shall conduct, or shall provide for the conduct of, a survey to determine—

(1) the total number of children in the United States with acquired immune deficiency syndrome who have been abandoned by their parents and are living in hospital environments;

(2) the total number of children in the United States with acquired immune deficiency syndrome who have been placed in foster care;

(3) the problems encountered by social service agencies in placing children with acquired immune deficiency syndrome in foster care; and

(4) recommendations for improving the care of children with acquired immune deficiency syndrome who lack ongoing parental involvement and support.

By Mr. MOYNIHAN:

S. 25. A bill to amend chapter 44 of title 18, United States Code, to prohibit the manufacture, transfer, or importation of .25 caliber and .32 caliber ammunition; to the Committee on the Judiciary.

**VIOLENT CRIME PREVENTION ACT**

● Mr. MOYNIHAN. Mr. President, "Children Killing Children" the headline reads. The Washington Post tells the story of an 11-year-old boy killed with a handgun for want of a \$20 shirt. "Check in" (hand over) the young shootist said.

The Nation's sixth largest city has a population of 1.1 million and a gun supply of 1.5 million. That is over one gun per man, per woman, and per child. Reporter Bill McAllister tells us, "handguns are considered by many to be an essential household appliance and the diploma of manhood on the streets." The result: 479 fatal shootings in Detroit during the first 11 months of 1986, 38 of the shootings, children under 17 killed with handguns. Detroit leads the Nation in murders, but they are not alone.

On November 19, 1986, Larry Davis, wanted for five drug-related murders in New York City shot his way through a police cordon. Six officers were wounded. Davis had with him an arsenal of crime: shotgun, .45 automatic pistol, and .32-caliber revolver.

I have supported handgun control, and will continue to do so. But, to date, it has not been allowed to work. Therefore, a proposition: if we cannot do something about those 60 million handguns out there, let us do something about the ammunition they shoot. A handgun is of no use without bullets. While we have a two-century supply of handguns, we have a mere 4-year supply of ammunition. Defang the cobra. Impossible? No. We just did it with armor-piercing cop killer bullets.

On October 16, 1986, the next to last day of the 99th Congress, I introduced S. 2929, the Violent Crime Prevention Act, prohibiting the manufacture, import, and sale of .25 and .32 caliber ammunition. I do so again today.

These are murderous rounds; rounds for small concealable guns; cop killer

rounds. Two examples: In 1981, Cox Newspapers did a survey of 14,268 crime guns seized by police in 18 metropolitan areas during the first 9 months of 1979. Cox found that of the 15 most popular crime guns, 4 were of .25 or .32 caliber.

More to the point, of handguns fired at New York City police officers, 1975-85, one-quarter were .25 or .32 caliber. These are the choice weapons of criminals. They are not the choice weapons of hunters or marksmen. So let's get on with it. I do not propose to do away with all guns or all ammunition, only those which are obviously the criminal's choice.

Would this end the problem, the awful problem of handgun killings? No. It would reduce it. It would take one weapon out of the hands of a Larry Davis. And it might just save the lives of a few children who are not yet ready to check in.

Mr. President, I ask unanimous consent that the text of the bill, as well as an article appearing in the Washington Post on December 4, 1986, be printed in the RECORD at this point.

There being no objection, the bill and article was ordered to be printed in the RECORD, as follows:

[From the Washington Post, Dec. 4, 1986]

**CHILDREN KILLING CHILDREN**  
(By Bill McAllister)

DETROIT, Dec. 3.—Jeffrey Hilson, 11, was wearing the new, dark purple silk shirt—the one he had begged his mother to buy—when he and a friend were confronted by two teen-age boys.

A 14-year-old flashed a small, .38-cal. revolver and, in the lingo of Detroit's streets, demanded that Jeffrey "check in"—hand over—the \$20 shirt.

Jeffrey and his companion raised their hands, but Jeffrey, who had just entered the 6th grade, never had a chance to remove the shirt. His would-be robber fired a single bullet into his upper abdomen and dashed off.

Two hours and 49 minutes later, Jeffrey Hilson died on an operating table, one of 38 Detroit residents under 17 to be killed this year with handguns.

Those deaths and the handgun shootings of 333 other children here have stirred a sharp, racially tinged debate that has placed popular and powerful Mayor Coleman A. Young on the defensive.

"Our children are killing our children," said Elnora Arrington, whose 19-year-old son, Keith, was killed this summer by a high school classmate who pulled a .25-cal. silver pistol from a belt and shot him four times.

Arrington and others charge that these killings—part of what the Federal Bureau of Investigation says is the highest murder rate in the nation—could be stopped, or at least slowed, if Young would act. He has not, and his critics allege that Young, who runs City Hall with an iron hand and an acerbic tongue, has only inflamed the issue.

Asked recently on Canadian television what he thought of a proposed handgun freeze for the city, Young snapped:

"I'll be damned if I'm going to collect guns in the city of Detroit while we're surrounded by hostile suburbs and the whole rest of the state who have guns and where you

have vigilantes or practicing Ku Klux Klan in the wilderness with automatic weapons."

The mayor's characteristically blunt statement not only infuriated many suburban residents, but it put Young, long regarded as one of the nation's most successful big-city mayors, at odds with the city's chief prosecutor, its two daily newspapers, gun-control advocates and many of his fellow big-city mayors.

Most of the nation's large cities have lower handgun crime rates, and many have chief executives, such as Washington's Marion Barry and New York's Edward I. Koch, who long have championed tough gun laws.

No one here disputes that Detroit—the nation's sixth-largest city, with 1.1 million residents—is a tough town. Police estimate that there are 1.5 million guns in private hands.

FBI statistics show that Detroit's murder rate last year was almost double that of its closest rival, Dallas, and that the use of handguns in murders was well ahead of the rates in other major cities.

City officials point out that the overall crime rate here has dropped and that the number of murders peaked in 1974 at 714. They attribute the improvement to Young's restoration of 1,000 laid-off officers to the police force. But the murder rate this year is running slightly ahead of 1985, and police specifically declined to discuss why so many children are being killed with handguns.

The 479 fatal-shooting victims this year include five police officers, one of whom was killed the morning of Sept. 27, the mayor's proclaimed "No Crime Day." The officer was shot by a gun owner who mistook him for a prowler.

A bill narrowly passed by the City Council last week mandates a 60- to 90-day sentence for anyone using a handgun while committing a misdemeanor, extending a state law that requires a two-year sentence for the use of a handgun in a felony.

Facing mounting pressure from a vocal but small group of activists and a Monday deadline to act on the bill, Young indicated this week that he will not sign it, saying Michigan's jails are too crowded already. But he said he would announce by Christmas an anticrime package focusing on the problem of youths shooting each other.

The only element of it to be made public so far is an increase in the police department's gang squad.

"He believes that even if you could take away every gun in the city, you would still have crime here," said Young spokesman Bob Berg, who describes the 68-year-old mayor as a "no-nonsense, tough anticrime person."

Young's willingness to act could be decisive, said Neal Shine, senior managing editor of the Detroit Free Press, because "the only thing you have to understand about this city is that power absolutely and singularly rests in the hands of the mayor."

... If he decides to ignore an issue, he's got a constituency that won't call him on it.

"The people here think so much of him that they'll avoid doing anything that smacks of divisiveness."

"Until Young indicated a willingness to address the issue, some people were furious that the city government appeared less concerned about the slaying of Detroit children than it did six years ago when Young dispatched a ranking detective to Atlanta to help investigate the serial murders of children there.

"Somehow, nobody in Detroit is alarmed," said the Rev. Walter E.W. Skerritt, a Bap-

tist minister and head of a Young-appointed committee on youth. "There is a fear of something here. I don't know what it is. Maybe the people are waiting for their leaders."

"It is an incredible phenomenon," said John O'Hair, the city's Democratic prosecutor, who has broken with Young over the issue. "I don't know what the answer is, but something has to be done."

"The people in this city are poor," said Sister Angela M. Hibbard, a Catholic nun who this week arranged a prayer vigil for 41 children killed by handguns. It attracted only 100 people. "They don't know how to do anything for themselves. They don't know how to bitch and push."

The mayor's opponents say his views are a throwback to an era when a predominantly white police force ran Detroit as if it were, in Berg's words, "a white army of occupation."

The city's 1967 riots, which involved 43 deaths and \$500 million in property damage, marked the end of that era and, some say, provided Young with a mandate for political and social change unseen in many major cities. The glistening towers of the Renaissance Center along the downtown waterfront are a monument to Young's political tenacity and economic influence.

At night, however, Young's well-lit downtown may be the safest place in a city where, according to chief juvenile court prosecutor Ron Schigar, many young people grow up believing that "If it's mine, it's mine, and if it's yours, it's mine if I can get it."

It is a deadly attitude in a city where handguns are considered by many to be an essential household appliance and the diploma of manhood on the streets.

"People are not coming into the city from the suburbs and killing us," said Charles Harper, a black psychologist who works with many juvenile criminals here. "We are killing ourselves."

The mayor's comments on guns have fueled the impression, said Hibbard, that "he perceives the black community as a community that needs to be armed and wants to be armed. Like Reagan on Star Wars, no amount of reason will shake that belief."

"Detroit is like a large, southern country town in many ways," said Skerritt, whose 19-year-old daughter survived a gunshot head wound inflicted by another teen-ager last year. "There is a love affair with the handgun here."

Despite Michigan's tough gun laws, many residents say handguns are available for the asking on some street corners. Police said the 14-year-old who shot Jeffrey Hilson paid \$20 for his gun—the same price as the shirt he wanted. Arrington said her son's death so angered her that she went out on the street and 45 minutes later had purchased an Uzi automatic weapon for \$45.

Young has said he would support a national law like the one in force across the narrow Detroit River in Windsor, Ontario, where handguns are outlawed—even for Detroit police officers accompanying Young on a visit there.

Police in that city of 200,000 have recorded one handgun murder in the past 15 months, and have posted warnings about Canada's strict gun laws at major crossings.

In Detroit, where murders occur at the rate of more than one a day, gunplay is almost random and children frequently are caught in the crossfire—some of it linked to

the soaring trafficking in "crack," the concentrated form of cocaine.

Tanisha Baldwin, 8, of Houston, was visiting relatives when she was killed by shots fired into a family member's house in August. Police told reporters they thought the assailants fired into the wrong house in a dispute over drug territories.

Melody Rucker, 16, was gunned down this summer as she stood outside a friend's house saying goodbye to some of the 50 youngsters who had attended a chaperoned party there. Her assailants were thought to be party-crashers turned away earlier.

Prosecutors say that assaults over expensive running shoes and certain types of jackets are so frequent that many parents worry about the clothes their children wear to school. One jacket style, popularized by a defunct gang called "Good Boys Inc.," proved so attractive to robbers that its maker withdrew it from the Detroit market.

The gun problem is gang-related, according to psychologists and prosecutors who work in the city's juvenile courts.

"These kids are not sophisticated enough to form that type of relationship and friendships," said Schigar, the juvenile court prosecutor. For the most part they are loners, convinced "that everybody has to have a gun."

Prosecutors cite the remorselessness of the two teen-agers charged in Jeffrey Hillson's killing as typical of many young criminals here. The two suspects, age 14 and 15, allegedly continued on a mini-crime spree, attempting to steal a car and rob two other people at gunpoint while police, two blocks away, came to Jeffrey's aid.

The Rev. Orris Walker, speaking at the prayer vigil this week, blamed television for making "violence an acceptable way of life."

Others cited deterioration of the family and teen-age pregnancies. "A child can't teach a child," said Delores Dumas, grandmother of victim Keith Arrington.

While Detroit residents, including Young, have long prided themselves on their ability to overcome adversity, life here used to be easier for the poor and ill-educated.

"For years you could either finish high school or drop out and then sign up for a job on the [auto assembly] line and have a good job for life," Berg said. With robots replacing workers at the plants, "those jobs, if not all gone, are almost all gone," he said.

One-fourth of all workers here are unemployed, reflecting what officials say is the true extent of the "hopelessness" Young sees among many here. City officials note that 70 percent of Detroit's population is black, and they estimate that 62 percent of the city's black teen-agers have no jobs. Economist say further layoffs planned by the auto industry are likely to drive unemployment higher.

Even if unskilled jobs open in the auto industry, they are claimed by senior workers bumped from jobs that were eliminated.

Law enforcement officials say that the only high-paying jobs for unskilled laborers now are in the city's rampant illegal drug industry, running or selling drugs at wages of \$100 a day or more. Any youngster with a legitimate job—at a fast-food restaurant, for instance—is ridiculed as working for "chump change," Schigar said.

As a result, nighttime Detroit can feel like a ghost town. "You don't want to go out in the streets and confront these kids," psychologist Harper said. "They're dangerous."

#### DETROIT'S 'HOSTILE SUBURBS'

##### YOUNG CITES STUDY, GOVERNMENT ACTIONS

DETROIT, Dec. 3.—Mayor Coleman A. Young's assertion that his city is surrounded by "hostile suburbs" is based on a recent University of Michigan study and the action of some area governments, according to his spokesman.

Sociologist Reynolds Farley, in a recently published study, found that Detroit and Chicago had the most racially segregated housing patterns in the nation. Detroit, which is 70 percent black, was ranked as the most segregated community by census tract, according to the study.

That survey, coupled with recent actions by some of Detroit's largely white suburbs, provide the foundation for Young's statement, according to Bob Berg, the mayor's press secretary.

Berg noted these recent actions by Detroit's neighboring localities:

Warren, a city of 161,134 residents, was sued by the Justice Department for having no blacks on its payroll of 924. According to the 1980 census, Warren, which abuts Detroit to the north, had 297 black residents.

Dearborn, a community of 86,544 southwest of downtown Detroit, has long had a reputation for being a whites-only enclave, and this year fought an unsuccessful battle to keep non-residents out of its public parks.

Grosse Pointe Park, a community of 13,761 east of Detroit, recently discussed building an earthen wall, partly to protect its Lake St. Clair shoreline but also to separate it from the city.

"If you try to build a wall and try to keep me out of your parks, he [Young] will consider that you're hostile to him," Berg said.—Bill McAllister

#### S. 25

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That this Act may be cited as the "Violent Crime Prevention Act".

Sec. 2. Section 922(a) of title 18, United States Code, is amended by—

(1) striking out "and" at the end of paragraph (7);

(2) striking out the period at the end of paragraph (8) and inserting in lieu thereof a semicolon; and

(3) adding at the end thereof the following:

"(9) for any person to manufacture, transfer, or import .25 or .32 caliber ammunition, except that this paragraph shall not apply to—

"(A) the manufacture or importation of such ammunition for the use of the United States or any department or agency thereof or any State or any department, agency, or political subdivision thereof; and

"(B) any manufacture or importation for testing or for experimenting authorized by the Secretary; and

"(10) for any manufacturer or importer to sell or deliver .25 or .32 caliber ammunition, except that this paragraph shall not apply to—

"(A) the sale or delivery by a manufacturer or importer of such ammunition for the use of the United States or any department, agency, or political subdivision thereof; and

"(B) the sale or delivery by a manufacturer or importer of such ammunition for testing or for experimenting authorized by the Secretary."

Sec. 3. Section 923(a)(1)(A) of title 18, United States Code, is amended to read as follows:

"(A) of destructive devices, ammunition for destructive devices, armor piercing ammunition, or .25 or .32 caliber ammunition, a fee of \$1,000 per year;"

Sec. 4. Section 923(a)(1)(C) of title 18, United States Code, is amended to read as follows:

"(C) of ammunition for firearms other than destructive devices, or armor piercing or .25 or .32 caliber ammunition for any firearm, a fee of \$10 per year."

Sec. 5. Section 923(a)(2) of title 18, United States Code, is amended to read as follows:

"(2) If the applicant is an importer—  
"(A) of destructive devices, ammunition for destructive devices, or armor piercing or .25 or .32 caliber ammunition for any firearm, a fee of \$1,000 per year; or

"(B) of firearms other than destructive devices or ammunition for firearms other than destructive devices, or ammunition other than armor piercing or .25 or .32 caliber ammunition for any firearm, a fee of \$50 per year."

Sec. 6. Section 923 of title 18, United States Code, is amended by adding at the end thereof the following:

"(1) Licensed importers and licensed manufacturers shall mark all .25 and .32 caliber ammunition and packages containing such ammunition for distribution, in the manner prescribed by the Secretary by regulation."

Sec. 7. Section 929(a)(1) of title 18, United States Code, is amended by—

"(1) inserting ", or with .25 or .32 caliber ammunition," after "possession of armor piercing ammunition"; and

"(2) inserting ", or .25 or .32 caliber ammunition," after "armor-piercing handgun ammunition".

Sec. 8. This Act and the amendments made by this Act shall take effect on the first day of the first calendar month which begins more than 90 days after the date of enactment of this Act.

#### By Mr. MOYNIHAN:

S. 26. A bill to extend authorization of the Federal Crime Insurance Program under the National Housing Act; to the Committee on Banking, Housing, and Urban Affairs.

#### EXTENSION OF FEDERAL CRIME INSURANCE PROGRAM

Mr. MOYNIHAN. Mr. President, I rise today to introduce a bill which extends authorization for the Federal Crime Insurance Program [FCIP] under the National Housing Act through September 1991. The continuation of this program is essential for the protection of residential and commercial property in those areas which are plagued by high crime rates.

Congress established the Federal Crime Insurance Program under the Housing and Urban Development Act in 1970, and last extended the program through September 30, 1987 as part of the Federal Housing Administration Reauthorization Act of 1986 (P.L. 99-430).

The program provides affordable insurance against robbery, theft, burglary and vandalism to tens of thousands of businesses and residents of high crime areas—insurance not otherwise affordable in the private insurance markets. In 1986, more than 30,000

FCIP policies were held by businesses and homeowners in over 23 States, at a total value of more than \$350 million. Roughly one-third of FCIP beneficiaries are small businesses located in areas engulfed by crime and vandalism. Many of these businesses, absent support from the FCIP, might abandon their neighborhoods to further decay, taking with them jobs and eroding the tax base.

The Federal Crime Insurance Program is particularly important to New York State. More than 18,000 New York residents and businesses hold FCIP policies—57 percent of all policies issued—worth more than \$200 million, in neighborhoods which vitally need continued support and investment. Between October 1985 and October 1986, \$5.5 million in claims were paid to New Yorkers, comprising 68 percent of all claims paid during that time.

The FCIP serves an important segment of the population—no less important than similar programs which provide crop and flood insurance. The Federal Crime Insurance Program is an effective means to protect and encourage business investment in high-crime areas. I strongly urge my colleagues to reauthorize it for the next 4 years. I ask unanimous consent that the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 26

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. EXTENSION OF FEDERAL CRIME INSURANCE PROGRAM.

Section 1201(b)(1) of the National Housing Act (12 U.S.C. 1749bbb) is amended—

(1) by striking out "parts C and D shall terminate on September 30, 1987" in the matter preceding subparagraph (A), and inserting in lieu thereof "parts C and D shall terminate on September 30, 1991", and

(2) by striking out "September 30, 1986" in subparagraph (A) and inserting in lieu thereof "September 30, 1992".

By Mr. MOYNIHAN (for himself and Mr. BAUCUS):

S. 27. A bill to establish the American Conservation Corps, and for other purposes; to the Committee on Energy and Natural Resources.

AMERICAN CONSERVATION CORPS ACT

Mr. MOYNIHAN. Mr. President, today I rise—for the fourth time in 6 years—to introduce legislation to create an American Conservation Corps [ACC]. I have pledged to keep at this until we get it right, and I intend to fulfill that commitment.

The ACC is a program that will employ thousands of youth to perform much needed conservation and rehabilitation work on Federal, State, local, and Indian lands. Patterned after the highly successful Civilian Conservation Corps [CCC] of the New

Deal era, the ACC would provide year-round and summer employment opportunities for disadvantaged youths between the ages of 16 and 25.

As we are all painfully aware, two elements of the Great Depression still linger: youth unemployment and deterioration of our national resources. In my own State of New York, 90,000 youths aged 16 to 19 were unemployed in the first 6 months of 1986. More than 20 percent of New York's unemployed are teenagers, and this reflects a pattern of youth unemployment that plagues the country. Nationwide, in November 1986—December's figures are not available until Friday—18.4 percent of Americans 16 to 19 were unemployed; 35.1 percent of black teenagers were unemployed. Of the 8.3 million unemployed Americans in November, 36.3 percent were under the age of 25.

The legislation I introduce today is the same as passed the Senate during the final week of the 99th Congress as part of a bill to establish the Cuyahoga Valley National Recreation Area (H.R. 4645). The bill authorizes \$75 million annually for fiscal years 1987-89; 80 percent of the funds are administered by the Department of the Interior—Park Service lands, 25 percent; Indian lands, 5 percent; and State grants, 50 percent—and 20 percent by the Department of Agriculture—Forest Service lands, 15 percent; and other Federal agencies, 5 percent. Fifty percent of the funds would be awarded to States and localities in the form of competitive grants. Awards would be based on: the size of the State's unemployed youth population; the conservation, rehabilitation and improvement needs of the State's public lands; and local support for the program. States would be required to match the Federal funds, dollar to dollar.

Mr. President, I earlier referred to the ACC's tortuous legislative history. Permit me to explain. The measure was first introduced as the Public Lands Rehabilitation, Conservation and Improvement Act of 1981 (H.R. 4861). This bill was passed by the House on June 9, 1982, by a vote of 291 to 102. The House voted again, in December 1982, to approve the ACC, but the Senate did not act. Nor did the Senate act on S. 2061, a companion bill that Senator Mathias and I had introduced on February 3, 1982.

Thereafter, on the first day of the 98th Congress, Senator Mathias and I reintroduced the ACC legislation as S. 27. Our measure attracted bipartisan support from 22 cosponsors. The House overwhelmingly approved a companion bill on March 1, 1983, by a vote of 301 to 87. On May 13, 1983, the Senate Energy and Natural Resources Committee voted 18 to 1 to report H.R. 999 as a shell authorization bill, and Senator Mathias and I set about

working with committee members to draft a compromise agreement to be offered as a substitute. Negotiations on the amendment, which was to delineate program details, required more than 1 year.

On October 3, 1984, the amendment was agreed to in the Senate by unanimous consent; 6 days later the Senate amendment was concurred to, and H.R. 999, as amended, was passed by the House by vote of 296 to 75. Yet despite such persistent support, President Reagan pocket vetoed the measure.

On January 3, 1985, this bill was again introduced in the House, (H.R. 99) and was passed by a vote of 193 to 191 on July 11, 1985. On October 17, an amended version of S. 27 was offered as part of a floor amendment to H.R. 4645, a bill to establish the Cuyahoga Valley National Recreation Area. The amendment, and the bill as amended, were passed by unanimous consent.

Unfortunately, Senator McCLEURE's amendment also included the provisions of a controversial bill to provide for competitive oil and gas leasing, provisions which the House found unacceptable. And so, Mr. President, the ACC once again failed to be enacted, despite the support of both Houses of Congress.

The bill I introduced today—Representative UDALL is introducing identical legislation in the House—is the same text which passed the Senate during those waning hours of the 99th Congress. This time, I hope, we can finally do it right.

We have estimated that the ACC would provide jobs for approximately 28,000 youths annually. The legislation specifically directs the Secretaries of Interior and Agriculture to make special efforts in recruiting and employing economically, socially, educationally and physically disadvantaged youths at an hourly salary just below minimum wage.

The array of available work includes wildlife habitat and conservation, rehabilitation and improvement; urban revitalization; recreational area development and maintenance; road and trail maintenance and improvement; erosion, flood, drought and storm damage control; insect, disease, rodent and fire prevention and control; and improvement of abandoned railroad beds and rights of way; and energy conservation projects.

Mr. President, it is not often we have the ability to enact legislation that will unequivocally produce successful results. The Young Adult Conservation Corps returned \$1.20 in appraised conversation work for each \$1 expended. The YCC returned \$1.04. State programs have done even better. The budget deficit looms, yes, but so does the future of the youth of this country. Which will be with us longer? I

urge my colleagues to choose the latter.

I ask unanimous consent that the text of the bill be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 27

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "American Conservation Corps Act of 1987".

#### SEC. 2. CONGRESSIONAL FINDINGS AND PURPOSE.

(a) FINDINGS.—The Congress finds that—

(1) conserving or developing natural and cultural resources and enhancing and maintaining environmentally important lands and waters through the use of the Nation's young men and women is beneficial not only to the youth of the Nation by providing them with education and work opportunities but also for the Nation's economy and its environment; and

(2) through this work experience opportunity, the Nation's youth will further their understanding and appreciation of the natural and cultural resources in addition to learning basic and fundamental work ethics including discipline, cooperation, understanding to live and work with others, and learning the value of a day's work for a day's wages.

(b) PURPOSE.—It is the purpose of this Act to—

(1)(A) enhance and maintain conservation, rehabilitation, and improvement work on public lands and Indian lands,

(B) improve and restore public lands and Indian lands, resources, and facilities,

(C) conserve energy, and

(D) restore and maintain community lands, resources, and facilities;

(2) establish an American Conservation Corps to carry out a program to improve, restore, maintain, and conserve these lands and resources in the most cost-effective manner;

(3) assist State and local governments and Indian tribes in carrying out needed public land and resource conservation, rehabilitation, and improvement projects;

(4) provide for implementation of the program in such manner as will foster conservation and the wise use of natural and cultural resources through the establishment of working relationships among the Federal, State, and local governments, Indian tribes, and other public and private organizations; and

(5) increase (by training and other means) employment opportunities for young men and women including, but not limited to, those who are economically, socially, physically, or educationally disadvantaged and who may not otherwise be productively employed.

#### SEC. 3. DEFINITIONS.

For purposes of this Act:

(1) The term "public lands" means any lands or waters (or interest therein) owned or administered by the United States or by any agency or instrumentality of a State or local government.

(2) The term "program" means all activities carried out under the American Conservation Corps established by this Act.

(3) The term "program agency" means any agency designated by the Governor to

manage the program in that State, and the governing body of any Indian tribe.

(4) The term "Indian tribe" means any Indian tribe, band, nation, or other group which is recognized as an Indian tribe by the Secretary of the Interior. Such term also includes any Native village corporation, regional corporation, and Native group established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1701 et seq.).

(5) The term "Indian" means a person who is a member of an Indian tribe.

(6) The term "Indian lands" means any real property owned by an Indian tribe, any real property held in trust by the United States for Indian tribes, and any real property held by Indian tribes which is subject to restrictions on alienation imposed by the United States.

(7) The term "employment security service" means the agency in each of the several States with responsibility for the administration of unemployment and employment programs, and the oversight of local labor conditions.

(8) The term "chief administrator" means the head of any program agency as that term is defined in paragraph (3).

(9) The term "enrollee" means any individual enrolled in the American Conservation Corps in accordance with section 5.

(10) The term "crew leader" means an enrollee appointed under authority of this Act for the purpose of supervising other enrollees engaged in work projects pursuant to this Act.

(11) The term "State" means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands.

(12) The term "economically disadvantaged" with respect to youths has the same meaning given such term in section 4(8) of the Job Training Partnership Act.

#### SEC. 4. AMERICAN CONSERVATION CORPS PROGRAM.

(a) ESTABLISHMENT OF AMERICAN CONSERVATION CORPS.—There is hereby established an American Conservation Corps.

(b) REGULATING AND ASSISTANCE.—Not later than 120 days after the enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture, after consultation with the Secretary of Labor, shall jointly promulgate the regulations necessary to implement the American Conservation Corps established by this Act. Within 30 days after the enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture shall establish procedures to give program agencies and other interested parties, including the public, adequate notice and opportunity to comment upon and participate in the formulation of such regulations. The regulations shall include provisions to assure uniform reporting on the activities and accomplishments of American Conservation Corps programs, demographic characteristics of enrollees in the American Conservation Corps, and such other information as may be necessary to prepare the annual report under section 10.

(c) PROJECTS INCLUDED.—The American Conservation Corps established under this section may carry out such projects as—

(1) conservation, rehabilitation, and improvement of wildlife habitat, rangelands, parks, and recreational areas;

(2) urban revitalization and historical and cultural site preservation;

(3) fish culture and habitat maintenance and improvement and other fishery assistance;

(4) road and trail maintenance and improvement;

(5)(A) erosion, flood, drought, and storm damage assistance and controls,

(B) stream, lake, and waterfront harbor and port improvement, and

(C) wetlands protection and pollution control;

(6) insect, disease, rodent, and fire prevention and control;

(7) improvement of abandoned railroad bed and right-of-way;

(8) energy conservation projects, renewable resource enhancement, and recovery of biomass;

(9) reclamation and improvement of strip-mined land; and

(10) forestry, nursery, and silvicultural operations.

(d) PREFERENCE FOR CERTAIN PROJECTS.—The program shall provide a preference for those projects which—

(1) will provide long-term benefits to the public;

(2) will instill in the enrollee involved a work ethic and a sense of public service;

(3) will be labor intensive; and

(4) can be planned and initiated promptly.

(e) LIMITATION TO PUBLIC LANDS.—Projects to be carried out by the American Conservation Corps shall be limited to projects involving other lands will provide a documented public benefit as determined by the Secretary of the Interior or the Secretary of Agriculture. The regulations promulgated under subsection (b) shall establish the criteria necessary to make such determinations.

(f) CONSISTENCY.—All projects carried out under this Act for conservation, rehabilitation, or improvement of any public lands or Indian lands shall be consistent with the provisions of law and policies relating to the management and administration of such lands, will all other applicable provisions of law, and with all management, operational, and other plans and documents which govern the administration of the area.

(g) APPLICATION PROCEDURES.—(1) Each program agency may apply for approval to participate in the American Conservation Corps under this Act.

(2) Applications for participation in the American Conservation Corps on Federal public lands shall be submitted to the Secretary of the Interior or the Secretary of Agriculture in such manner as is provided for by the regulations promulgated under subsection (b). Applications for participation in the American conservation Corps on non-Federal public lands or Indian Lands shall be submitted to the Secretary of the Interior. Applications for participation in the American Conservation Corps on projects on lands described in subsection (e) shall be submitted to the Secretary of Agriculture or the Secretary of the Interior as the case may be. No application may be submitted to the Secretary of the Interior or the Secretary of Agriculture before the 30-day period for review and comment by the appropriate State Job Training Coordinating Council (established under the Job Training Partnership Act), if any, which shall consult with the appropriate Private Industry Council, or Councils, in the area in which a project is carried out. Comments of the State Job Training Coordinating Council and private Industry Council shall be forwarded to the Secretary at the time the grant application is submitted.

(3) Each application under this section must be approved by the Secretary of the Interior or the Secretary of Agriculture, as the case may be, and shall contain—

(A) a comprehensive description of the objectives and performance goals for the program, a plan for managing and funding the program, and a description of the types of projects to be carried out, including a description of the types and duration of training and work experience to be provided;

(B) a plan to make arrangements for certification of the training skills acquired by enrollees and award of academic credit to enrollees for competencies developed from training programs or work experience obtained under this Act;

(C) an estimate of the number of enrollees and crew leaders necessary for the proposed projects, the length of time for which the services of such personnel will be required, and the services which will be required for their support;

(D) a description of the location and types of facilities and equipment to be used in carrying out the programs; and

(E) such other information as the Secretary of the Interior and the Secretary of Agriculture shall prescribe.

(4) In approving the location and type of any facility to be used in carrying out the program, the Secretary of the Interior and the Secretary of Agriculture shall give due consideration to—

(A) the proximity of any such facility to the work to be done;

(B) the cost and means of transportation available between any such facility and the homes of the enrollees who may be assigned to that facility;

(C) the participation of economically, socially, physically, or educationally disadvantaged youths;

(D) the cost of establishing, maintaining, and staffing the facility.

Every effort shall be made to assign youths to facilities as near to their homes as practicable.

(5)(A) Every program shall have sufficient supervisory staff appointed by the chief administrator which may include enrollees who have displayed exceptional leadership qualities.

(B) No project shall be undertaken without the on-site presence of knowledgeable and competent supervision, and all projects undertaken shall be documented in advance in an approved written project plan.

(h) **LOCAL PARTICIPATION.**—Any State carrying out a program under this Act shall provide a mechanism under which local governments and nonprofit organizations within the State may be approved by the State to participate in the American Conservation Corps.

(i) **AGREEMENTS.**—Program agencies may enter into contracts and other appropriate arrangements with local government agencies and nonprofit organizations for the operation or management of any projects or facilities under the program.

(j) **JOINT PROJECTS.**—

(1) **DEPARTMENT OF LABOR.**—The Secretary of the Interior and the Secretary of Agriculture are authorized to develop jointly with the Secretary of Labor regulations designed to allow, where appropriate, joint projects in which activities supported by funds authorized under this Act are coordinated with activities supported by funds authorized under employment and training statutes administered by the Department of Labor (including the Job Training Partnership Act). Such regulations shall provide

standards for approval of joint projects which meet both the purposes of this Act and the purposes of such employment and training statutes under which funds are available to support the activities proposed for approval. Such regulations shall also establish a single mechanism for approval of joint projects developed at the State or local level.

(2) **DEPARTMENT OF DEFENSE.**—The Secretary of the Interior, the Secretary of Agriculture, and program agencies may enter into agreements, jointly or separately, with the Secretary of Defense to assist the military by carrying out projects under this Act. Such projects may be carried out on a reimbursable basis or otherwise.

#### SEC. 5. ENROLLMENT, FUNDING, AND MANAGEMENT.

(a) **ENROLLMENT IN PROGRAM.**—(1)(A) Enrollment in the American Conservation Corps shall be limited to individuals who, at the time of enrollment, are—

(i) unemployed;

(ii) not less than 16 years or more than 25 years of age (except that programs limited to the months of June, July, and August may include individuals not less than 15 years and not more than 21 years of age at the time of their enrollment); and

(iii) citizens or nationals of the United States (including those citizens of the Northern Mariana Islands as defined in Public Law 98-213 (97 Stat. 1459)) or lawful permanent residents of the United States.

(B) Special efforts shall be made to recruit and enroll individuals who, at the time of enrollment, are economically disadvantaged.

(C) In addition to recruitment enrollment efforts required in subparagraph (B), the Secretary of the Interior and the Secretary of Agriculture shall make special efforts to recruit enrollees who are socially, physically, and educationally disadvantaged youths.

(D) Notwithstanding subparagraph (A), a limited number of special corps members may be enrolled without regard to their age so that the corps may draw upon their special skills which may contribute to the attainment of the purposes of the Act.

(2) Except in the case of a program limited to the months of June, July, and August, individuals who at the time of applying for enrollment have attained 16 years of age but not attained 19 years of age, and who are no longer enrolled in any secondary school shall not be enrolled unless they give adequate written assurances, under criteria to be established by the Secretary of the Interior and the Secretary of Agriculture, that they did not leave school for the express purpose of enrolling. The regulations promulgated under section 4(b) shall provide such criteria.

(3) The selection of enrollees to serve in the American Conservation Corps shall be the responsibility of the chief administrator of the program agency. Enrollees shall be selected from those qualified persons who have applied to, or been recruited by, the program agency, a State employment security service, a local school district with an employment referral service, an administrative entity under the Job Training Partnership Act, a community or community-based nonprofit organization, the sponsor of an Indian program, or the sponsor of a migrant or seasonal farmworker program.

(4)(A) Except for a program limited to the months of June, July, and August, any qualified individual selected for enrollment may be enrolled for a period not to exceed 24 months. When the term of enrollment

does not consist of one continuous 24-month term, the total of shorter terms may not exceed 24 months.

(B) No individual may remain enrolled in the American Conservation Corps after that individual has attained the age of 26 years, except as provided in subsection (a)(1)(D) of this section.

(5) Within the American Conservation Corps the directors of programs shall establish and stringently enforce standards of conduct to promote proper moral and disciplinary conditions. Enrollees who violate these standards shall be transferred to other locations, or dismissed, if it is determined that their retention in that particular program, or in the Corps, will jeopardize the enforcement of such standards or diminish the opportunities of other enrollees. Such disciplinary measures will be subject to expeditious appeal to the appropriate Secretary.

(b) **SERVICES, FACILITIES, SUPPLIES.**—The program agency shall provide facilities, quarters, and board (in the case of residential facilities), limited and emergency medical care, transportation from administrative facilities to work sites, and other appropriate services, supplies, and equipment. The Secretary of the Interior and the Secretary of Agriculture may provide services, facilities, supplies, and equipment to any program agency carrying out projects under this Act. Whenever possible, the Secretary of the Interior and the Secretary of Agriculture shall make arrangements with the Secretary of Defense to have logistical support provided by a military installation near the work site, including the provision of temporary tent centers where needed, and other supplies and equipment. Basic standards of work requirements, health, nutrition, sanitation, and safety for all projects shall be established and enforced.

(c) **REQUIREMENT OF PAYMENT FOR CERTAIN SERVICES.**—Enrollees shall be required to pay a reasonable portion of the cost of room and board provided at residential facilities into rollover funds administered by the appropriate program agency. Such payments and rates are to be established after evaluation of costs of providing the services. The rollover funds established pursuant to this section shall be used solely to defray the costs of room and board for enrollees. The Secretary of the Interior and the Secretary of Agriculture and the Secretary of Defense are authorized to make available to program agencies surplus food and equipment as may be available from Federal programs.

#### SEC. 6. FEDERAL AND STATE EMPLOYMENT STATUS.

Enrollees, crew leaders, and volunteers are deemed as being responsible to, or the responsibility of, the program agency administering the project on which they work. Except as otherwise specifically provided in the following paragraphs, enrollees and crew leaders in projects for which funds have been authorized pursuant to section 13 shall not be deemed Federal employees and should not be subject to the provisions of law relating to Federal employment.

(1) For purposes of subchapter I of chapter 81 of title 5, United States Code, relating to the compensation of Federal employees for work injuries, enrollees and crew leaders serving American Conservation Corps program agencies shall be deemed employees of the United States within the meaning of the term "employee" as defined in section 8101 of title 6, United States Code, and the provi-

sion of that subchapter shall apply, except—

(A) the term "performance of duty" shall not include any act of an enrollee or crew leader while absent from his or her assigned post of duty, except while participating in an activity authorized by or under the direction and supervision of a program agency (including an activity while on pass or during travel to or from such post of duty); and

(B) compensation for disability shall not begin to accrue until the day following the date on which the injured enrollee's or crew leader's employment is terminated.

(2) For purposes of chapter 171 of title 28, United States Code, relating to tort claims procedure, enrollees and crew leaders on American Conservation Corps projects shall be deemed employees of the United States within the meaning of the term "employee of the Government" as defined in section 2671 of title 28, United States Code.

(3) For purposes of section 5911 of title 5, United States Code, relating to allowances for quarters, enrollees and crew leaders shall be deemed employees of the United States within the meaning of the term "employee" as defined in that section.

#### SEC. 7. USE OF VOLUNTEERS.

Where any program agency has authority to use volunteer services in carrying out functions of the agency, such agency may use volunteer services for purposes of assisting projects carried out under this Act and may expend funds made available for those purposes to the agency, including funds made available under this Act, to provide for services or costs incidental to the utilization of such volunteers, including transportation, supplies, lodging, subsistence, recruiting, training, and supervision. The use of volunteer services permitted by this section shall be subject to the condition that such use does not result in the displacement of any enrollee.

#### SEC. 8. TENNESSEE VALLEY AUTHORITY.

The Board of Directors of the Tennessee Valley Authority may accept the services of volunteers and provide for their incidental expenses to carry out any activity of the Tennessee Valley Authority except policymaking or law or regulatory enforcement. Such volunteers shall not be deemed employees of the United States Government except for the purposes of chapter 81 of title 5 of the United States Code, relating to compensation for work injuries, and shall not be deemed employees of the Tennessee Valley Authority except for the purposes of tort claims to the same extent as a regular employee of the Tennessee Valley Authority would be under identical circumstances.

#### SEC. 9. SPECIAL RESPONSIBILITIES.

(a) PAY.—(1) The rate of pay for enrollees shall be the equivalent of 95 percent of the pay rate for members of the Armed Forces in the enlisted grade E-1 who have served for four months or more on active duty, from which a reasonable charge for enrollee room and board shall be deducted by the program agency.

(2) Enrollees shall receive \$50 cash incentive stipends for every three months of enrollment in the program.

(3) The rate of pay for crew leaders shall be at a wage comparable to the compensation in effect for grades GS-3 to GS-7.

(b) COORDINATION.—The Secretary of the Interior and the Secretary of Agriculture and the chief administrators of program agencies carrying out programs under this Act shall coordinate the programs with re-

lated Federal, State, local, and private activities.

(c) CERTIFICATION AND ACADEMIC CREDIT.—Pursuant to the provisions of subparagraphs (B) and (C) of section 4(g)(3), the Secretary of the Interior and the Secretary of Agriculture shall provide guidance and assistance to program agencies in securing certification of training skills or academic credit for competencies developed under this Act.

(d) RESEARCH AND EVALUATION.—The Secretary of the Interior shall provide for research and evaluation to—

(1) determine costs and benefits, tangible and otherwise, of work performed under this Act and of training and employable skills and other benefits gained by enrollees, and

(2) identify options for improving program productivity and youth benefits, which may include alternatives for—

(A) organization, subjects, sponsorship, and funding of work projects;

(B) recruitment and personnel policies;

(C) siting and functions of facilities;

(D) work and training regimes for youth of various origins and needs; and

(E) cooperative arrangements with programs, persons, and institutions not covered under this Act.

(e) CCC SITES.—The Secretary of the Interior, after consultation with the Secretary of Agriculture, shall study sites at which Civilian Conservation Corps activities were undertaken for purposes of determining a suitable location and means to commemorate the Civilian Conservation Corps. Not later than one year after the date of the enactment of this Act, the Secretary of the Interior shall submit a report to the Congress containing the results of the study carried out under this section. The report shall include cost estimates and recommendations for any legislative action.

(f) STUDY.—(1) Program agencies shall not use more than 10 percent of the funds available to them to provide training and educational materials and services for enrollees and may enter into arrangements with academic institutions or education providers, including local education agencies, community colleges, four-year colleges, area vocational-technical schools and community based organizations, for academic study by enrollees during nonworking hours to upgrade literacy skills, obtain a high school diploma or its equivalency, or college degrees, or enhance employable skills. Enrollees who have not obtained a high school diploma or its equivalency shall have priority to receive services under this subsection. Whenever possible, an enrollee seeking study or training not provided at his or her assigned facility shall be offered assignment to a facility providing such study or training.

(2) Standards and procedures with respect to the awarding of academic credit and certifying educational attainment in programs conducted under paragraph (1) shall be consistent with the requirement of applicable State and local law and regulations.

(g) GUIDANCE AND PLACEMENT.—Program agencies shall provide such job guidance and placement information and assistance for enrollees as may be necessary. Such assistance shall be provided in coordination with appropriate State, local, and private agencies and organizations.

#### SEC. 10. ANNUAL REPORT.

The Secretary of the Interior and the Secretary of Agriculture shall prepare and submit to the President and to the Congress at least once each year a report detailing

the activities carried out under this Act in the preceding fiscal year. Such report shall be submitted not later than December 31 of each year following the date of enactment of this Act.

#### SEC. 11. LABOR MARKET INFORMATION.

The Secretary of Labor shall make available to the Secretary of the Interior and the Secretary of Agriculture and to any program agency under this Act such labor market information as is appropriate for use in carrying out the purposes of this Act.

#### SEC. 12. EMPLOYEE APPEAL RIGHTS.

(a) FEDERAL EMPLOYEES.—In the case of—

(1) the displacement of a Federal employee (including any partial displacement through reduction of nonovertime hours, wages, or employment benefits) or the failure to reemploy an employee in a layoff status, contrary to a certification under section 13(c) (1) or (2), or

(2) the displacement of such a Federal employee by reason of the use of one or more volunteers under section 7 of this Act,

such employee is entitled to appeal such action to the Merit Systems Protection Board under section 7701 of title 5, United States Code.

(b) OTHER INDIVIDUALS.—In the case of—

(1) the displacement of any other individual employed (either directly or under contract with any private contractor) by a program agency or grantee, or the failure to reemploy an employee in layoff status, contrary to a certification under section 13(c) (1) or (2), or

(2) the displacement of such individual by reason of the use of one or more volunteers under section 7 of this Act,

the requirements contained in section 144 of the Job Training Partnership Act (Public Law 97-300) shall apply, and such individual shall be deemed an interested person for purposes of the application of such requirements.

(c) DEFINITION.—For purposes of this section, the term "displacement" includes, but is not limited to, any partial displacement through reduction of nonovertime hours, wages, or employment benefits.

#### SEC. 13. AUTHORIZATION OF APPROPRIATIONS.

(a) DISTRIBUTION OF FUNDS.—Of the sums appropriated pursuant to subsection (g) to carry out this Act for any fiscal year—

(1) not less than 50 percent shall be made available to the Secretary of the Interior for expenditure by State program agencies which have been approved by the Secretary of the Interior for participation in the American Conservation Corps;

(2) not less than 15 percent shall be made available to the Secretary of Agriculture for expenditure by agencies within the Department of Agriculture, subject to the provisions of subsection (e);

(3) not less than 5 percent shall be made available to the Secretary of Agriculture, under such terms as are provided for in regulations promulgated under section 4(b), for expenditure by other Federal agencies;

(4) not less than 25 percent shall be made available to the Secretary of the Interior for expenditure by agencies within the Department of the Interior, subject to the provisions of subsection (e), and for demonstration projects or projects of special merit carried out by any program agency or by any nonprofit organization or local government which is undertaking or proposing to undertake projects consistent with the purposes of this Act;

(5) not less than 5 percent shall be made available to the Secretary of the Interior for expenditure by the governing bodies of participating Indian tribes.

(b) **AWARD OF GRANTS.**—Within 60 days after enactment of appropriations legislation pursuant to subsection (g), any program agency may apply to the Secretary of the Interior for funds under this Act. In determining the allocation of funds among the program agencies, the Secretary shall consider each of the following factors:

(1) The proportion of the unemployed youth population of the State.

(2) The conservation, rehabilitation, and improvement needs on public lands within the State.

(3) The amount of other support for the program and the extent to which the size and effectiveness of a program will be enhanced by the use of the Federal funds.

Any State receiving funds for the operation of any program under this Act shall be required to provide not less than 50 percent of the cost of such program.

(c) **NON-DISPLACEMENT.**—The Secretary of the Interior and the Secretary of Agriculture shall not fund any program or enter into any agreement with any program agency for the funding of any program under this Act unless the Secretary concerned or such agency certifies that projects carried out by the program will not—

(1) result in the displacement of individuals currently employed (either directly or under contract with any private contractor) by the program agency concerned (including partial displacement through reduction of nonovertime hours, wages, or employment benefits);

(2) result in the employment of any individual when any other person is in a layoff status from the same or substantially equivalent job within the jurisdiction of the program agency concerned;

(3) impair existing contracts for services; or

(4) result in the inability of persons who normally contract with the agency for carrying out projects involving forestry, nursery, or silvicultural operations on commercial forest land to continue to obtain contracts to carry out such projects.

For purposes of paragraph (4), the term "commercial forest land" means land in the National Forest System or land administered by the Secretary of the Interior through the Bureau of Land Management which is producing, or is capable of producing, 50 cubic feet per acre per year of industrial wood and which is not withdrawn from timber utilization by statute or administrative decision.

(d) **STATE SHARE TO LOCAL GOVERNMENTS.**—If, at the commencement of any fiscal year, any State does not have a program agency designated by the Governor to manage the program in that State, then during such fiscal year any local government within such State may establish a program agency to carry out the program within the political subdivision which is under the jurisdiction of such local government. Such local government program agency shall be in all respects subject to the same requirements as a State program agency. Where more than one local government within a State has established a program agency under this subsection, the Secretary of the Interior shall allocate funds between such agencies in such manner as he deems equitable.

(e) **PROGRAMS ON FEDERAL LANDS.**—Funds provided under this section to any Federal agency shall be used to carry out projects

on Federal lands and to provide for the Federal administrative costs of implementing this Act. In utilizing such funds, the Federal agencies may enter into contracts or other agreements with program agencies and with local governments and nonprofit organizations approved under section 4(h).

(f) **PAYMENT TERMS.**—Payments under grants under this section may be made in advance or by way of reimbursement and at such intervals and on such conditions as the Secretary of the Interior or the Secretary of Agriculture, as appropriate, finds necessary.

(g) **USE OF FUNDS.**—Contract authority under this Act shall be subject to the availability of appropriations. Funds provided under this Act shall only be used for activities which are in addition to those which would otherwise be carried out in the area in the absence of such funds. Not more than 10 percent of the funds made available to any program agency for projects during each fiscal year may be used for the purchase of major capital equipment.

(h) **ADMINISTRATIVE EXPENSES.**—The regulations under section 4(b) shall establish appropriate limitations on the administrative expenses of Federal agencies and program agencies carrying out programs under this Act. Such limitations shall insure that administrative expenses of such programs shall be minimized to the extent practicable taking into consideration the purposes of this Act and the nature of the programs carried out under this Act.

(i) **APPROPRIATION LEVELS.**—There is authorized to be appropriated for the purposes of carrying out this Act \$75,000,000 for each of the fiscal years 1988 through 1990. Funds appropriated under this Act shall remain available until expended.

By Mr. MOYNIHAN:

S. 28. A bill to limit the grounds and improve the process for excluding aliens from the United States; to the Committee on the Judiciary.

#### REVISION OF ALIEN EXCLUSION ACT

● Mr. MOYNIHAN. Mr. President, for the past 35 years, legislation to bar nonimmigrant aliens on ideological grounds has exposed our Nation to needless ridicule and undermined the respect for free speech we hope to promote around the world. The bill I offer today would enable us to preserve our Nation's security without eroding our principles.

Two basic problems surround the denial of nonimmigrant visas under the Immigration and Nationality Act of 1952, widely referred to as the McCarran-Walter Act. The first is that McCarran-Walter provides grounds for exclusion that are overly broad, and in some cases wholly unrelated to the needs of U.S. security and foreign policy. Subsection 212(a)(28) of that act bars the entry of aliens who are members of anarchist, Communist or other proscribed organizations, or who advocate such proscribed beliefs. No evidence is required under this subsection that an alien would engage in activities endangering U.S. security or that admitting the alien would undermine U.S. foreign policy; the alien's purported ideology is alone sufficient to exclude him from entering the United States.

Choichiro Yatani recently discovered this in a most unpleasant fashion. A Japanese national who had been in the United States on a student visa since 1977, and who for the past 4 years was teaching and pursuing a Ph.D. at the State University of New York at Stony Brook, Mr. Yatani returned to the United States on July 7, 1986, after visiting the Netherlands (where he had obtained a new student visa at the U.S. Consulate in Amsterdam). But Mr. Yatani was detained upon his return to Kennedy Airport—and kept in detention away from his family for over a month, during which time his visa was revoked and he was threatened with deportation. The reason: according to the New York Times of August 22, 1986, Mr. Yatani was accused of being a member of a Japanese Communist student organization nearly 20 years ago.

And there have been dozens of other foreigners just as unlikely to threaten our security, who, nevertheless, have been slated for exclusion. Pierre Trudeau; Graham Greene; Gabriel-Garcia Marquez; the list goes on and on.

But the fact that such exclusions can seem almost laughably unjustified must not blind us to the damage they do. By excluding aliens on ideological grounds, we behave as if we were afraid of their ideas, lending those ideas a credence that might evaporate under proper scrutiny. Noting that several journalists were kept out or expelled from the United States in 1986, a global survey of press freedom published this month by the Freedom House states:

Far better to have allowed them to enter and face their accusers. Invoking the [McCarran-Walter] act confounded friends and pleased adversaries who branded as hypocritical U.S. concerns for human rights.

We should limit the grounds for exclusion to cases where reasons of national security or foreign policy make such exclusions truly necessary, not merely exercises in self-humiliation.

The second major problem surrounding McCarran-Walter is that even when the Government claims such necessary grounds for exclusion, under subsections (212)(a) (27) or (29), current provisions for reviewing those claims are wholly inadequate. The Departments of State and Justice are usually reluctant to release the evidence they believe justifies their claims, particularly when disclosure of that evidence might compromise sensitive intelligence sources and methods. And this is a legitimate concern.

But in the absence of prior review outside the executive branch for visa denials, and with the reluctance of that branch to admit that U.S. citizens have the right to challenge such visa denials after the fact, abuses have occurred. Some visa denials made on the basis of alleged threats to security

have been downright ludicrous. Farley Mowat, Canadian naturalist and author of "Never Cry Wolf", was denied entry into the United States on April 23, 1985. The primary reason: according to the New York Times of April 25, 1986, Mr. Mowat was deemed to pose a violent threat to U.S. Armed Forces, based on a report that he once claimed to have fired a .22 caliber rifle at a B-52 flying overhead.

By invoking McCarran-Walter where no threat exists to our security, we open our country and our most fundamental principles to unnecessary ridicule. When solid reasons do exist for excluding aliens, public support for such exclusions can be undermined by the perception—all too well-founded—that visa denials are frequently unjustified. And as demonstrated by the case of Patricia Lara, the lack of a viable means for reviewing exclusion evidence outside the executive branch can foster persistent doubts as to the justification for visa denials.

I stated on October 15, 1986, that "in the 100th Congress, we ought to examine the statute and see how it can be made to reflect what is best in our country, and not what comes from us in the legacy from a past which is as little honored in the present time as was the period of the Alien and Sedition Acts in the last decade of the 18th century. We are perfectly capable of protecting our security interests without embarrassing our Nation."

The legislation I propose today will help us do just that. This legislation addresses both of the problems surrounding McCarran-Walter: the need to limit grounds for exclusion to bona-fide national security and foreign policy requirements, and the need to improve the process by which exclusion requests are reviewed.

Eliminating subsection 212(a)(28) of McCarran-Walter, which provides the basis for excluding aliens on ideological grounds, will go far toward resolving the first problem. Many more visa denials are made on the basis of subsection (28) than of (27) or (29); in fiscal year 1986, a total of 559 visas were denied under subsection (28) after the review process provided by the so-called McGovern amendment. Only 33 visa denials were made during the same period on the basis of subsection (27), and 13 on the basis of (29).

But while relatively few denials are made on the basis of subsections (27) and (29), we still need the grounds provided by those subsections to exclude aliens who would undermine U.S. foreign policy or endanger our security. In particular, given the threat to foreign policy goals that could be posed by members of the PLO or other terrorist organizations, we must retain the basis for denying entry to such aliens under subsection (27), which provides for the exclusion of aliens

who would "engage in activities prejudicial to the public interest."

However, we must also take measures to improve the process by which requests for such visa denials are reviewed. The legislation I propose today would do this by requiring that before any alien is denied a visa under subsections (27) or (29), the Attorney General (in consultation with the Secretary of State) shall apply for an order approving that denial to the special court established by the Foreign Intelligence Surveillance Act of 1978. This court is well-suited for considering the relatively small number of such applications that would be made; it already reviews over 500 requests each year for foreign intelligence wiretaps, and does so in a manner specifically designed to protect sensitive information.

Applications for orders to exclude aliens would need to include the factual basis for the Attorney General's knowledge or reasonable grounds for belief that permitting entry to the United States would violate subsections (27) or (29) (which would be redesignated (27) and (28) after amending McCarran-Walter to strike current subsection (28)). Applications would be denied if the court concluded that the Attorney General did not have such knowledge or reasonable grounds for believing that entry of an alien would violate those subsections. A review process similar to that already established for wiretap requests would be initiated if the court denied a visa request. And as with the consideration of wiretap requests, my legislation would require that the court's proceedings be both expeditious and consistent with the security measures deemed necessary by the Attorney General and other officials.

This legislation also clarifies the standing of U.S. citizens to bring civil action when they had hoped to communicate with or listen to an alien, whose visa they allege was wrongfully denied on the basis of subsections (27) or (29). Together with the elimination of McCarran-Walter's exclusion of aliens on ideological grounds, and the requirements that exclusion requests be granted prior approval by a special court, this clarification of standing for civil action should do much to promote free speech while preserving national security.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows: To limit the grounds and improve the process for excluding aliens from the United States.

S. 28

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this*

act may be cited as the "Revision of Alien Exclusion Act of 1987."

Sec. 2. (a) Section 212(a) of the Immigration and Nationality Act (8 U.S.C. 1182(a)) is amended—

(1) by striking out paragraph (28); and  
(2) by redesignating paragraphs (29) through (33) as paragraphs (28) through (32), respectively.

(b) Section 235(c) of the Immigration and Nationality Act is repealed.

Sec. 3. (a) Before any alien is denied a visa to the United States or is otherwise excluded from admission to the United States under paragraphs 27 or 28 of the Immigration and Nationality Act, as amended, the Attorney General (in consultation with the Secretary of State) shall apply for an order approving such denial to the court described in section 103 (a) of the Foreign Intelligence Surveillance Act of 1978. Such application shall include the factual basis for the Attorney General's knowledge or reasonable grounds for belief that issuing a visa permitting admission to the United States would violate paragraphs 27 or 28.

(b) An application for an order shall be denied by such court if the court concludes that the Attorney General does not have knowledge or reasonable grounds for belief that issuing a visa or permitting admission to the United States would violate paragraphs 27 or 28 of the Immigration and Nationality Act, as amended.

(c)(1) If any judge designated under section 103(a) of such Act denies an application for an order described in subsection (3)(a), such judge shall provide immediately for the record a written statement of each reason for his decision and, on motion of the United States, the record shall be transmitted, under seal, to the court of review established in section 103(b) of such Act.

(c)(2) If the court of review established in section 103(b) of such Act affirms the denial of the application for an order described in subsection (3)(a), then the Secretary of State shall promptly issue a visa to the alien or the Attorney General shall promptly admit the alien to the United States, as the case may be.

(d) In considering and reviewing applications to deny visas or exclude aliens from admission to the United States, the court and court of review described in section 103(a) and 103(b) of such Act shall conduct those proceedings as expeditiously as possible. The record of such proceedings, including applications made and orders granted, shall be maintained under security measures established by the Chief Justice of the United States in consultation with the Attorney General, Secretary of State and the Director of Central Intelligence.

Sec. 4. Any citizen of the United States or other person within the jurisdiction thereof who intends to communicate in person with, including attending a function for purposes of listening to, an alien who is denied a visa or excluded from admission into the United States on the basis of paragraphs 27 and 28 of Section 212(a) of the Immigration and Nationality Act, as amended, may bring a civil action on his or her own behalf against any official of the United States Government who is alleged to have wrongfully denied a visa to the alien or wrongfully excluded the alien from the United States. Any civil action under this section may be brought in the district in which the intended communication was to have occurred, in the district of the plaintiff's residence or principal place of business, in the district in which any defendant in the action resides,

or in the District of Columbia. The district court shall have jurisdiction, without regard to the amount in controversy or the citizenship of the parties, to grant legal or equitable relief.●

By Mr. MOYNIHAN:

S. 29. A bill to authorize the procurement and installations of cryptographic equipment at satellite communications facilities within the United States, and for other purposes; to the Committee on Armed Services.

#### SATELLITE COMMUNICATIONS SECURITY

● Mr. MOYNIHAN. Mr. President, "the massive Soviet surveillance efforts from Cuba and elsewhere demonstrate \* \* \* that the Soviet intelligence payoff from interception of unsecured communications is immense." This is the conclusion of the Senate Select Committee on Intelligence. In spite of a number of important communications security initiatives, such as the Secure Telephone Unit III Program, the Soviets continue to target critical communications paths within the United States from their diplomatic facilities in New York, San Francisco, and Washington, as well as from their satellite listening facility at Lourdes, Cuba. At risk is the Nation's telephone system which carries voice, facsimile, and teleprinter traffic for the U.S. military, civilian government agencies, defense contractors, and private citizens.

The military, government employees, and our constituents should know—must know—that more than half of all telephone calls in the United States made over any distance are vulnerable to interception. Moreover, calls the caller believes to be on less vulnerable circuits may be automatically switched to more vulnerable ones. Nevertheless, the Senate Select Committee on Intelligence found in their October 1986 review of U.S. counterintelligence that current plans do not fully respond to the threat to long-distance communications relayed over satellite links and intercepted from sites like the one in Cuba.

The Soviet facility at Lourdes, Cuba, is the largest and most sophisticated Soviet listening facility outside its national territory. Started in the mid-1960's, Lourdes has grown by 60 percent in the past decade alone. The facility is manned by 2,100 technicians—sometimes equivalent to half the Foreign Service officers in the State Department. Its ground station allows instant communication and relay with Moscow. This facility is a communications security threat.

The low-cost secure equipment developed under NSA's leadership will address the problem; I speak here of the STU-III Program. But efforts to neutralize the Soviet intercept operations should not depend so heavily on the marketplace. The pace is too slow, and some sources may choose simply not to buy the units at all, or not in

sufficient quantity at \$2,000 a copy. Moreover, there is the continued, human, problem of officials failing to follow strict security rules—"talking around" sensitive subjects on open lines. The initiative I introduce today is particularly user friendly. It is automatic and does not require any effort on the part of the user.

There are two ways to counter the Soviet threat to telecommunications: reroute circuits to more secure means, for example cable, or encrypt the substance of transmissions making them unintelligible to eavesdroppers. Although we are actively pursuing both countermeasures, there are still communications links which carry unclassified, but sensitive information, which also need protecting. Computers can sift through this wash of unclassified information and select key words or, perhaps, names for further analysis. National Security Decision Directive 145, which defines the President's telecommunications security policy states: "Such information, even if unclassified in isolation, often can reveal highly classified and other sensitive information when taken in aggregate."

In the past year the public has learned only too well the central role communications security and interception can play in the formulation of national policy. In an editorial, "The Russians are Listening" the New York Daily News called attention to an incident during the hijacking of the *Achille Lauro* in October 1985. The President was aboard Air Force One when he decided to order the Navy to force down the Egyptian airliner. The President's order was overheard by a ham radio operator. "And," the News asks, "who else?" A near miss.

The bombing of the Berlin nightclub in April 1986 was no miss. Communications intercepts, as reported in the New York Times, demonstrated a direct link between the bombing and Libyan fanatic Qadhafi. As a result, the President ordered United States forces to bomb targets in Libya. And there are other examples, but they remain classified, and justifiably so.

Today I introduce, for a second time, the Satellite Communications Security Act. This measure, as modified, will provide funding to encrypt selected sensitive domestic satellite communications. By this I mean those selected circuits carried over domestic commercial satellites having the greatest impact on the national defense and foreign policy of the United States. Such circuits will be selected by the Secretary of Defense with the review and concurrence of the Congress through the authorization and appropriations process.

I do not intend such an earmark of "sensitive" to prohibit information from ourselves. That is not the answer. The free exchange of information is one of our strengths. This legis-

lation bars only information from the Soviets and their allies by making it unintelligible. Let me highlight that again—this legislation will not prohibit the access of the American public to information they are already entitled to.

A more expansive, and expensive, proposal in the 99th Congress received support. Although the Senate Defense authorization bill included \$129 million to begin implementation of certain communications security enhancements and other programs, this sum was pared down to \$44 million in conference. We did even less well with the appropriations process.

A major problem is that communications security has no constituency. It is often a stepchild in the defense budget process. There is no product involved. There are few jobs involved. You can never really be sure the Soviets did not get the message. But it is our national policy to "assure the security of sensitive Government national security information, and offer assistance in the protection of certain private sector information. . . ."

NSDD-145 signed by President Reagan in September 1984 says just that. It will cost us some money, approximately \$560 million over 5 years, but it would cost us so much more not to do so.

May I leave you with a thought. The New York Times reported on November 27, 1986, that Government agencies had received intercepts linking the sale of arms to Iran with the transfer of funds to the Contras. Similar intercepts from Lourdes or another site could provide the Soviets, and others, an advance look inside our decisionmaking we dare not give them.

Mr. President, I ask unanimous consent that the full text of the bill be printed at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 29

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) This Act may be cited as the "Satellite Communications Security Act of 1987".*

(b) The purpose of this Act is to provide further for the security of satellite communications transmissions between facilities within the United States and to prevent the interception of, or access to, such transmissions by foreign governments or other unauthorized parties.

(c)(1) To carry out the purposes of subsection (b), the Secretary of Defense, acting through the National Security Agency and acting in cooperation with private enterprises engaged in satellite communications within the United States, is authorized to procure and install cryptographic equipment at satellite communications facilities within the United States.

(2) Any private enterprise owning a satellite communications facility at which equipment was installed under paragraph (1) shall be reimbursed by the Secretary of De-

fense for the costs incurred in operating and maintaining such equipment.

(d) The Provisions of subsections (b) and (c) shall apply only to any communications system utilizing direct satellite transmissions which—

(1) on reception, are switched through a common carrier system;

(2) have greatest impact on the national defense or foreign policy of the United States; and

(3) are carried on a circuit or service which—

(A) is leased by the United States Government;

(B) is related to national security, including any circuit leased by a private corporation or organization having a contract with the United States Government, particularly a contract with the Department of Defense; or

(C) is leased by any organization concerned with large financial transactions, commodities, stock transactions, or economic forecasts.

(e)(1) There are authorized to be appropriated to the Secretary of Defense for use by the National Security Agency such sums as may be necessary to carry out the provisions of this Act.

(2) Amounts appropriated under this subsection are authorized to remain available until expended.

(f) For purposes of this Act—

(1) the term "common carrier" has the same meaning as such term is defined in section 3(h) of the Communications Act of 1933 (47 U.S.C. 153(h)); and

(2) the term "United States" refers to the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, and American Samoa.●

By Mr. MOYNIHAN:

S. 30. A bill entitled the "Exchange Rate Adjustment Act of 1987"; to the Committee on Banking, Housing, and Urban Affairs.

#### EXCHANGE RATE ADJUSTMENT ACT

Mr. MOYNIHAN. Mr. President, today I rise to introduce a bill to address a problem that has plagued this Nation's economy for 6 years: the continuing high value of the U.S. dollar.

A year and a half ago I introduced a bill containing several of the provisions of this bill—S. 1548—at a time when the problem of the "overvalued" dollar and its detrimental effect on U.S. trade balances occupied much congressional attention.

Since that time there have been developments that have led some to believe that our exchange rate woes are over. According to the Federal Reserve Board trade weighted basket of the currencies of 10 major trading nations, the dollar has depreciated 33 percent since its peak in February 1985 including a 37-percent drop against the yen and a 39-percent drop against the mark. The Fed figure weighs the dollar value of the 10 currencies of the Group of 10 nations by their shares of total world trade using trade data from 1972 to 1976.

These are important developments, indeed, but let me suggest that these figures are a bit misleading and that,

in fact, the value of the U.S. dollar remains at an historically high level. According to that same Federal Reserve Board measure, the trade weighted value of the dollar remained 22 percent higher in October 1986 than the average level in 1980.

Moreover, if we look at a new measure of the dollar developed by the Dallas Federal Reserve Bank the evidence that the overvalued dollar program persists is even more startling. According to that measure—the X-131, which weighs the currencies of all 131 U.S. trading partners by their total bilateral trade with the U.S. (exports plus imports) using current trade data, the dollar was 82 percent higher in October 1986 than during 1980. And between its peak in February 1985 and October 1986, the dollar depreciated only 3 percent according to the X-131 currency index.

The tax on American exports and subsidy of foreign imports implicit in the dollar's high exchange rate since 1980 has contributed to a cumulative trade deficit of approximately \$600 million in the last 6 years.

Under the floating exchange system prevailing since 1973, such deficits should depreciate the dollar, since foreign exchange must be bought with dollars to pay for the imports, and the increased supply of dollars should reduce the price of the dollar against foreign currencies.

But this has not happened. Instead the price of the dollar has risen sharply because of an extraordinary foreign demand for dollars to invest in this country. Relatively high U.S. interest rates, due to a great extent to unprecedented Federal budget deficits (a cumulative \$1,030 billion since the beginning of 1981), have attracted foreign investment and hence a great demand for dollars to make those investments.

The price of the dollar is now largely determined by international investment flows, not trade flows. Foreign exchange transactions for investment purposes are estimated to be at least 10 times the amount needed to finance international trade transactions. And rapid and large scale capital flows are possible as a result of liberalized and computerized international financial markets.

In addition, international foreign exchange markets, like any market, are subject to numerous market imperfections. Decisions may be based on dated, erroneous, incomplete, or non-economic information. Decisions may also be made in anticipation of the continuation of market trends—a "bandwagon effect."

The combination of large international capital flows and market imperfections have led to excessive short-term fluctuations and have contributed to the market overshooting a dollar price that reflects underlying trade realities.

There are also those who believe, and fear, that the combination of continuing merchandise trade and current account deficits, reduced expectations of economic growth in the United States, and market imperfections could produce a sharp drop in the demand for dollars to invest in the United States. Such a run on the dollar would lead to a sudden and sharp drop in the dollar's price, and a corresponding sudden rise in the cost of imported goods that could reignite inflation, causing a painful adjustment process and serious damage to the economy.

And so we have a volatile and overpriced currency that is inextricably linked to production and employment in this country. The time has come to develop a policy to contain this situation.

What, then, can we do to achieve a gradual and lasting reduction in the dollar's price, while guarding against the potential crisis of a precipitous fall in that price?

To begin with, we must take action to reduce the Federal budget deficit in order to reduce the high interest rates that attract foreign capital. In addition, the governments of all industrialized nations representing the major trading currencies must coordinate their macroeconomic policies.

The U.S. Government could also supplement and complement these actions through intervention in the foreign exchange markets to purchase substantial amounts of major foreign currencies with dollars thereby developing a "Strategic Foreign Currency Reserve." The acquisition of such a reserve could correct market imperfections, reduce the extent and slow the pace of exchange rate movements, resist further increases in the dollar's price, and assist its gradual decline in price.

A "Strategic Foreign Currency Reserve" would also provide the Treasury and Federal Reserve Board with the means to resist any sudden large drop in the dollar's price by selling foreign currencies in the Reserve and purchasing dollars thereby helping to support the dollar's price.

Of course, to be most effective, intervention by the Department of the Treasury or Federal Reserve Board should be coordinated, whenever possible, with intervention by the central banks of the countries constituting the Group of Ten.

The legislation I am proposing would direct the Department of the Treasury and the Federal Reserve Board to acquire such a Strategic Foreign Currency Reserve by exchanging at least \$30 billion for the currencies of the Group of Ten countries within a 3-year period, and to coordinate that intervention wherever possible.

The Federal Government must also develop a policy regarding the price of the U.S. dollar against specific currencies.

Since February 1985, the currencies of several major U.S. trading partners have depreciated significantly against the dollar, particularly the yen and the mark.

The Secretary of the Treasury, apparently satisfied by this turn of events, agreed to abandon efforts to induce a further decrease in the value of the yen as part of an agreement of economic cooperation with Japan announced on October 31, 1986.

This concession was made in exchange for promises by Japan to stimulate its economy. However, the prospect of Japanese economic expansion is uncertain, and even with such an expansion there is a need for further appreciation of the yen against the dollar.

In addition, the currencies of several major U.S. trading partners have not adjusted significantly against the dollar. Since February 1985 the value of the South Korean won increased 4 percent; the Taiwan dollar decreased 7 percent; the Hong Kong dollar has not changed; and the Canadian dollar has increased 2 percent. These four countries alone account for about 30 percent of U.S. trade.

These currencies have not moved significantly with respect to the value of the dollar because those countries appear to formally tie or informally peg their currencies to the value of the U.S. dollar. This is certainly having an adverse effect on the U.S. balance of trade, as South Korea, Taiwan, Hong Kong, and Canada account for almost one-third of this year's U.S. trade deficit. (The 1986 U.S. trade deficit with these countries increased by over 10 percent over 1985.)

Exchange rates must be allowed to adjust to underlying economic fundamentals so that the United States may compete fairly in foreign trade and the Federal Government must negotiate with countries which formally or informally peg or tie their currencies to the U.S. dollar to ensure that this adjustment occurs.

The legislation I am introducing today would require the President to enter into negotiations on a priority and expedited bilateral basis with countries which formally tie or informally peg their currencies to the United States dollar (including Hong Kong, South Korea and Taiwan) to ensure that these countries regularly and promptly adjust the exchange rate between their currencies and the United States dollar to accurately reflect underlying economic fundamentals.

This bill would also require the President to issue a report that contains a discussion of exchange market

developments over the previous 6 months, including the magnitude of changes in the values of the major currencies—and those currencies pegged or tied to the U.S. dollar—and the reasons for those changes.

Finally, I fear that the disparate appreciation—and depreciation—of the dollar against the currencies of U.S. trading partners is inadequately and possibly inaccurately reflected in commonly cited indices of changes in the exchange rate of the dollar.

The Federal Reserve System calculates the value of the dollar in the two ways I discussed earlier. In addition to those measures, the Department of Commerce calculates the value of the dollar against the currencies of the G-10 countries plus Austria, Denmark and Norway and weighs those currencies by their country's share of bilateral merchandise trade with the United States in 1983. The Morgan Guaranty Bank measures the dollar against a total of 15 currencies—adding Australia and Spain—and weighs those currencies by their country's share of bilateral merchandise trade with the United States in 1980. Merrill Lynch & Co., Inc. measures the dollar against the currencies of the 25 countries that were the biggest exporters to, and importers from the United States in 1985.

This bill would direct the Secretary of the Treasury and Chairman of the Federal Reserve Board to develop a more accurate index of the U.S. dollar's exchange rate and issue a report explaining their methodology in calculating the index.

In addressing our tremendous trade problem, we need to take action on a range of issues that are contributing to the malaise. The high price of the U.S. dollar is a key factor in this situation and I urge my colleagues to support these measures as a step toward maintaining U.S. economic prosperity.

I ask unanimous consent that the text of the bill be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 30

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SEC. 1. SHORT TITLE.—This Act may be cited as the "Exchange Rate Adjustment Act of 1987."

SEC. 2. FINDINGS.—

The Congress finds and declares that:

(1) Between January 1981 and February 1985, the exchange rate of the dollar against US trading partners appreciated 81% to 88% over its average 1980 level according to the Federal Reserve Bank of Dallas and the Federal Reserve Bank in Washington.

(2) Between February 1985 and October 1986, the exchange rate of the dollar depreciated only 3% to 33% according to the Federal Reserve measures.

(3) The current exchange rate of the dollar remains too high. According to the Federal Reserve measures, in October 1986 the average value of the dollar was 22% to 82% higher than in 1980.

(4) The overvalued dollar is a problem, not a source of pride. Administration officials have estimated that during the last few years the high price of the dollar was the single largest factor contributing to the US trade deficit.

(5) The high price of the dollar makes American goods more expensive in foreign markets, while foreign produced goods become cheaper in the Americans markets. Thus, the high price of the dollar acts as a tax on American exports and subsidy of foreign imports.

(6) The high price of the dollar has resulted in much of the growth in domestic demand being satisfied with foreign imports, not domestically produced goods, to the detriment of industrial production and employment in the US.

(7) The appreciation of the dollar has contributed to the "de-industrialization" of the United States. United States companies have: established plants abroad and imported finished products; imported major components and assembled the finished product in the US; and abandoned foreign markets. Foreign companies have been able to build distribution networks in the US and their increased export volume has permitted those companies to realize economies of scale and take advantage of state-of-the-art technology.

(8) These effects are not easily or quickly reversed by a subsequent depreciation in the value of the dollar. They occur, if at all, only after a protracted period of time.

(9) The value of the dollar has lost its relationship to international trade flows and is higher than is warranted by underlying factors such as relative productivity and inflation. The increase in the value of the dollar since 1980 occurred despite the existence of record merchandise trade and current account deficits totalling an estimated \$600 billion and \$410 billion respectively.

(10) The dollar's appreciation since 1980 occurred because foreign demand for dollars was so great that it exceeded the available supply, even taking into account the supply of dollars resulting from the need to pay for imports. This demand for dollars has been investment, not trade, generated.

(a) Foreign investors who have bought dollars with their currencies to directly and indirectly invest in the US have been attracted by higher real interest rates in the US than abroad (resulting from the administration's unprecedented budget deficits—a cumulative \$1,030 billion since 1981), as well as expectations of greater economic growth and political stability.

(b) Foreign exchange transactions for investment purposes are estimated to be at least ten times the amount needed to finance international trade transactions. Rapid and large scale capital flows are possible as a result of liberalized and computerized international financial markets.

(11) The international foreign exchange market is subject to numerous market imperfections. Decisions may be based on dated, erroneous or noneconomic information or in anticipation of the continuation of market trends (often referred to as "speculative bubbles" or "bandwagon effects"). Such market imperfections have led to excessive short term fluctuations ("volatility") in the dollar's price and have contributed to

the market overshooting the correct dollar price ("misalignment").

(12) At some point in the future, the combination of continuing merchandise and current account deficits, reduced expectation of economic growth in the US, and market imperfections could lead to a sharp drop in the demand for dollars to invest in the US and a corresponding sharp drop in the value of the dollar. Such a sudden sharp drop in the value of the dollar would lead to a sudden and sharp rise in the cost of imported goods and could reignite pervasive inflation, causing a painful adjustment process and serious damage to the economy.

(13) The costs to the US economy associated with the dollar's persistent overvaluation and possible sudden drop in price in the future are, and would be, significant and should be avoided.

(14) In order to achieve a gradual, and lasting, reduction in the price of the dollar—

(a) the US Government must reduce the Federal budget deficit in order to reduce the high interest rates that are attracting foreign capital;

(b) the governments of foreign countries with underpriced currencies must stimulate economic growth in order to improve the desirability of investing in those countries; and

(c) the governments of the industrialized nations representing the major trading currencies must coordinate their macroeconomic policies.

(15) These actions can be complemented and supplemented by U.S. Government intervention in the foreign exchange markets. To be most effective, intervention by the Department of the Treasury or Federal Reserve Board should be coordinated, whenever possible, with intervention by the central banks of the countries constituting the Group of Ten.

(16) Intervention by the US Government in the foreign exchange markets to purchase substantial amounts of major foreign currencies with dollars, thereby developing a "Strategic Foreign Currency Reserve", could: correct market imperfections; influence the extent and pace of exchange rate movements; resist increases in the dollar's price; and assist its gradual decline in price. (A "Strategic Foreign Currency Reserve" would also provide the Treasury and Federal Reserve Board with the means to resist any sudden large drop in the dollar's price by selling foreign currencies in the Reserve and purchasing dollars, thereby helping to support the dollar's price.)

(17) Between 1973 and 1981 the US and all other G-10 nations used foreign exchange market intervention (to varying degrees) as a tool of exchange rate policy. During this period, the US Government bought or sold a total of \$39.9 billion.

(18) From January 1, 1981 until September 22, 1985, however, the current administration pursued a "clean float" policy of intervening only in rare instances to calm disorderly markets (acquiring only approximately \$4 billion in foreign currencies during this period).

(19) The administration maintained this policy despite:

(a) an unprecedented rise in the value of the dollar; and

(b) passage by the Senate in April 1985 of a Resolution urging the Secretary of the Treasury and the Chairman of the Federal Reserve Board to take steps, including intervention, to gradually lower the value of the dollar and the introduction of bills in the Senate in July 1985 requiring them to do so.

(20) On September 22, 1985, the United States joined with the other G-5 countries (Britain, France, West Germany and Japan) in announcing a coordinated program to reduce the value of the dollar, including intervention in foreign exchange markets.

(21) Since September 22, 1985, the G-5 Governments, including the United States, have taken action to reduce interest rate differentials and have intervened on a more extensive basis. However, such actions have been sporadic and partial.

(22) These efforts have assisted the dollar's significant depreciation against the German Mark (31%) and the Japanese Yen (32%). However, further depreciation of the dollar against the Yen is uncertain as a result of the October 31, 1986 agreement between the United States and Japanese Governments, under which the US Government indicated it would cease efforts to induce a further decrease in the value of the Yen in exchange for the Japanese Government's agreement to stimulate its economy.

(23) Neither the "Plaza Agreement," nor other action by the US Government, addressed the problem of countries which formally or informally peg their currencies to the dollar at exchange rates inconsistent with the underlying economic fundamentals.

(24) As a result, the dollar has depreciated minimally or not changed against the currencies of other countries (e.g. 7% against the New Taiwan Dollar and no change against the Hong Kong Dollar since February 1985) and has appreciated against other currencies (e.g. 2% against the Canadian Dollar and 4% against the South Korean Won since February 1985).

(25) The disparate appreciation (and depreciation) of the dollar against the currencies of US trading partners is inadequately and possibly inaccurately reflected in commonly cited indices of changes in the exchange rate of the dollar.

(a) The Federal Reserve system calculates the value of the dollar in two ways (those figures are used in this Section). The most commonly cited figure—prepared by the Federal Reserve Board in Washington—is calculated by comparing the dollar against the currencies of the G-10 countries and weights those currencies by their country's share of total world trade during 1972-1976. The Federal Reserve Bank of Dallas measures the dollar against the currencies of all US trading partners and weights those currencies by their share of total bilateral trade with the US (exports plus imports) using current trade data.

(b) Other organizations calculate the value of the dollar in different ways and obtain different estimates of the dollar's value. The Department of Commerce calculates the value of the dollar against the currencies of the G-10 countries plus Austria, Denmark and Norway and weights those currencies by their country's share of bilateral merchandise trade with the US in 1983. The Morgan Guaranty Bank measures the dollar against a total of 15 currencies (adding Australia and Spain) and weights those currencies by their country's share of bilateral merchandise trade with the US in 1980. Merrill Lynch & Company, Inc. measures the dollar against the currencies of the 25 countries that were the largest exporters to, and importers from, the US in 1985.

#### Sec. 3. Purpose.—

It is the purpose of this Act to require the United States Government to:

(1) intervene in foreign exchange markets to (a) purchase substantial amounts of

major foreign currencies with dollars to resist and moderate increases in the dollar's price and to assist its gradual decline in price and (b) purchase substantial amounts of dollars with major foreign currencies to prevent sudden large drops in the dollar's price;

(2) negotiate with countries which formally or informally peg their currencies to the US dollar to ensure that those countries regularly and promptly adjust the exchange rate between their currencies and the US dollar to accurately reflect underlying economic fundamentals;

(3) develop a more accurate and timely index of the US dollar's exchange rate.

#### SEC. 4. STRATEGIC FOREIGN CURRENCY RESERVE.

##### (1) Acquisition.

(a) The Secretary of the Treasury and the Chairman of the Federal Reserve Board shall immediately acquire a Strategic Foreign Currency Reserve consisting of the currencies of the United States' major trading partners. The Secretary and the Chairman shall, as soon as possible but not later than three years from the date of enactment of this Act, exchange not less than \$30 billion for such currencies.

(b) The Secretary and the Chairman: (i) shall purchase foreign currencies at those times that such action would be most effective in resisting and moderating increases in the dollar's price or in assisting its gradual decline; (ii) shall coordinate such purchases whenever possible with the central banks of the Group of Ten; and (iii) may take action to offset any effect of such purchases on the domestic money supply.

(c) In the event that the Secretary and the Chairman agree that fulfilling the requirements of subsection (a) with the time period set forth therein would be contrary to the purposes of this Act as set forth in Section 3, then they shall so notify Congress. Following receipt of such notice, Congress may, by joint resolution, extend the time within which the Secretary and Chairman shall complete acquisition of the Strategic Foreign Currency Reserve by one year.

##### (2) Use.

The Secretary of the Treasury and the Chairman of the Federal Reserve Board:

(a) shall use foreign currencies in the Reserve to purchase dollars in order to prevent sudden large drops in the price of the dollar;

(b) shall coordinate such purchases whenever possible with the central banks of the Group of Ten; and

(c) may take action to offset any effect of such purchases on the domestic money supply.

##### (3) Replenishment.

The Secretary of the Treasury and the Chairman of the Federal Reserve Board shall, at their discretion, subject to the provisions of subsection (1)(b) and notwithstanding the provisions of subsection (1)(a), purchase foreign currencies with any dollars acquired under subsection (2).

#### SEC. 5. NEGOTIATIONS.

(1) The President shall, immediately upon enactment of this Act, enter into negotiations on a priority and expedited basis with countries which formally or informally peg or tie their currencies to the US dollar (including Hong Kong, Korea and Taiwan) to ensure that those countries regularly and promptly adjust the exchange rate between their currencies and the US dollar to accurately reflect underlying economic fundamentals.

(2) The President shall, within 90 days of enactment of this Act, submit a report to

Congress listing the countries with which the United States entered into negotiations and detailing the results of those negotiations.

#### SEC. 6. INDEX OF EXCHANGE RATE MOVEMENTS.

(1) The Secretary of the Treasury and the Chairman of the Federal Reserve Board shall, within 90 days of enactment of this Act, develop an index of exchange rate movements for the US dollar which accurately reflects changes in the dollar's value and which is capable of being reported on a daily basis.

(2) The Secretary of the Treasury and the Chairman of the Federal Reserve Board shall, within 90 days of enactment of this Act, submit to Congress a report describing an index of exchange rate movements of the US dollars, including the reasons for:

(a) selecting certain countries, if all US trading partners are not included;

(b) weighting those countries' currencies by their share of total world trade or bilateral trade with the US;

(c) choosing a particular year for trade data, if not the most recent year;

(d) adjusting, if at all, for inflation in each country.

By Mr. MOYNIHAN:

S. 31. A bill entitled the Increased Market Access Promotion Act of 1987; to the Committee on Finance.

#### INCREASED MARKET ACCESS PROMOTION ACT

Mr. MOYNIHAN. Mr. President, I rise today to introduce the Increased Market Access Promotion Act of 1986. This legislation is identical to title II of S. 1860, the Trade Enhancement Act of 1985, introduced on November 20, 1985, by Senator DANFORTH, myself, and others and was cosponsored by one-third of the Senate in the 99th Congress. The same language was introduced on that day as a separate bill, S. 1862, by Senators CHAFEE, BRADLEY, DOLE, myself, and others.

The provisions of these bills, in turn, adopted many of the ideas set forth in my bill, S. 1505, the Increased Market Access Promotion Act of 1985, introduced on July 25, 1985.

The purpose of this bill is quite simple: To increase access for U.S. products, services, and investments in foreign markets by using the leverage inherent in denying access to the U.S. market.

Trade barriers in foreign countries which limit exports of U.S. goods, services, and investment present a serious problem for the United States. Japan is the nation most frequently cited for such practices, but other countries in the Far East and other areas of the world are guilty of acts, policies, and practices that constitute significant trade barriers.

For the second year, the Office of the U.S. Trade Representative [USTR] has issued a report of foreign trade barriers to U.S. exports. The 1986 report identifies barriers in 41 countries costing U.S. producers billions of dollars. For example, USTR estimates that United States firms lose \$340 to \$450 million each year in informatics hardware and software sales

due to Brazilian restrictions. Future losses of such sales could reach \$12 billion from 1985 to 1992.

Our representatives have tried to remove these barriers to U.S. exports through negotiations—too often to no avail. In part, this reflects the fact that foreign countries have little incentive to reduce their trade barriers because they believe correctly that the United States will do nothing in response. Which is to say, they believe that the President will not exercise his discretionary authority under section 301 of the Trade Act of 1974, as amended.

This has to change. We need to convince foreign countries that it is in their interest to eliminate their trade barriers.

I believe that requiring the President to use his existing authority under section 301 of the Trade Act of 1974, as amended, to retaliate against a country that persists in maintaining trade barriers by limiting that country's access to our markets can provide the leverage needed to convince that country to open its markets to U.S. exports of goods and services.

I might note, Mr. President, that I offer this bill today, as I offered my legislation in 1985, in part as an alternative to those who would restrict imports from foreign countries with large trade surpluses with the United States—without regard to the extent of those countries' trade barriers.

The message of those bills is "enough is enough: from now on, you can't send us any more than we send you"—even if a country's trade surplus with the United States reflects such factors as relative competitiveness, economic growth, fiscal and monetary policies, savings behavior, or exchange rates rather than trade barriers.

I believe that what we should be saying instead is:

Unless you eliminate your trade barriers that keep out our exports, we will keep out of your markets as much as you keep out of our markets. However, if you eliminate your trade barriers and let our exports into your markets, then we will let our products into your markets—even if, as a result, you end up sending us more goods than we send you.

That is what my bill would do.

The bill would require:

First. Retaliation for all section 301 cases 15 to 18 months after an investigation is initiated, unless the unfair practice is eliminated or offset, or the USTR subsequently determines that the practice is not actionable under section 301.

Second. Self initiation of several section 301 cases. Under current law, the U.S. Trade Representative is required to compile an annual inventory of foreign unfair trade practices—the "National Trade Estimates." My bill would require USTR to estimate how much U.S. exports would increase absent those barriers and self-initiate several

cases against the most onerous barriers which prevent a substantial amount of U.S. exports.

Third. Transfer of section 301 authority to USTR to enhance the leverage of those negotiating the elimination of unfair practices and to depoliticize the process given mandatory retaliation if those negotiations fail.

Fourth. Expansion of the definition of unfair trade practices to include a variety of government actions including targeting industries for special development and advancement, and actions that distort trade by giving that country's exports an unfair advantage, vis-a-vis U.S. exports, in third country markets.

Fifth. Termination of retaliation after 7 years unless the industry seeking access to the foreign market requests its continuation. In that case, since the retaliatory import restrictions had burdened consumers but had not convinced the foreign country to eliminate its unfair trade practice, USTR could substitute a different retaliatory measure to increase pressure on the foreign country.

Under current section 301 law, the President is authorized to "take all appropriate and feasible action within his power" to enforce U.S. rights under trade agreements and to eliminate trade barriers to U.S. exports if these barriers are "unjustifiable, unreasonable or discriminatory" and burden or restrict U.S. commerce.

This bill would build on existing law by requiring the President to take action in order to obtain the leverage necessary to eliminate foreign trade barriers, while blunting pressure to restrict imports without justification.

Finally, I would like to make the point that unfair foreign trade practices are only one reason for the poor U.S. trade performance. Others include, relatively poor productivity, the appreciation of the dollar from 1980 to 1985, slower growth in other developed countries, and reduced purchases by indebted LDC countries.

But eliminating such practices are important for two reasons: they result in lost U.S. exports, and unless and until the American public has confidence that its government is taking regular, swift and tough action to eliminate such practices, it will not be willing to address the other causes of our trade deficit.

As my colleagues know too well, we did not succeed in considering and passing trade legislation in the last Congress. I have little doubt that will change in the 100th Congress: I know that the new chairman of the Senate Finance Committee, Senator BENTSEN, and our Majority Leader, Senator BYRD, are committed to passing trade legislation as a top priority during the first session.

An important component of any such legislation must be the revision of section 301. The bill I introduce today is certainly not the only proposal that was made in the last Congress—H.R. 4800, and the staff draft prepared by the Senate Finance Committee staff, are two that come to mind. And I know that Senator BENTSEN is working with Finance Committee members to develop a bipartisan committee bill. But I believe that the provisions of S. 1860 represented a tough, workable, responsible approach to addressing unfair trade practices and should be considered in the formulation of trade legislation this Congress.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 31

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE

This title may be cited as the "Increased Market Access Promotion Act of 1987".

#### SEC. 2. REPORT ON BARRIERS TO MARKET ACCESS.

(a) **ESTIMATE OF IMPACT OF BARRIERS.**—Subparagraph (B) of section 181(a)(1) of the Trade Act of 1974 (19 U.S.C. 2241(a)(1)(B)) is amended to read as follows:

"(B) make an estimate of the increase in the volume and value of United States exports that would result from the elimination of each act, policy, or practice identified under subparagraph (A) (actual and relative to the aggregate amount of such United States exports)."

(b) **INTERNATIONAL COMPETITIVENESS TO BE CONSIDERED.**—Subparagraph (A) of section 181(a)(2) (19 U.S.C. 2241(a)(2)(A)) is amended to read as follows:

"(A) the international competitiveness of the goods or services involved;"

#### SEC. 3. INITIATION OF INVESTIGATIONS IN RESPONSE TO REPORT ON BARRIERS TO MARKET ACCESS.

Subsection (c) of section 302 of the Trade Act of 1974 (19 U.S.C. 2412(c)) is amended—

(1) by inserting "or (2)" after "under paragraph (1)" in paragraph (2),

(2) by redesignating paragraph (2) as paragraph (3), and

(3) by inserting after paragraph (1) the following new paragraph:

"(2) **RESPONSE TO REPORT.**—

"(A) **IN GENERAL.**—The Trade Representative shall initiate investigations on an annual basis under this chapter with respect to those acts, policies, and practices identified in each report submitted under section 181 which—

"(i) are likely to be acts, policies, or practices described in section 301(a)(1)(B), and

"(ii) constitute a barrier to, or distortion of, a significant portion of all the goods and services of the United States that the United States Trade Representative estimates would have been exported from the United States if all acts, policies, and practices identified in such report did not exist.

"(B) **FACTORS TO BE CONSIDERED.**—In determining which acts, policies, and practices should be the subject of an investigation initiated under subparagraph (A), the Trade Representative shall take into account—

"(i) the potential increase in United States exports that is estimated to occur from

elimination of such act, policy, or practice, and

"(ii) the extent to which such act, policy, or practice nullifies or impairs any benefit to which the United States is entitled under any international trade agreement."

#### SEC. 4. TRANSFER OF AUTHORITY TO THE UNITED STATES TRADE REPRESENTATIVE.

(a) **IN GENERAL.**—(1) Paragraph (1) of section 301(a) of the Trade Act of 1974 (19 U.S.C. 2411(a)(1)) is amended by striking out "President" and inserting in lieu thereof "United States Trade Representative (hereafter referred to in this chapter as the 'Trade Representative')".

(2) Paragraph (2) of section 301(a) of the Trade Act of 1974 (19 U.S.C. 2411(a)(2)) is amended by striking out "President" and inserting in lieu thereof "Trade Representative".

(3) Subsection (b) of section 301 of the Trade Act of 1974 (19 U.S.C. 2411(b)) is amended by striking out "President" and inserting in lieu thereof "Trade Representative".

(4) Subsection (c) of section 301 of the Trade Act of 1974 (19 U.S.C. 2411(c)) is amended—

(A) by striking out "President" each place it appears and inserting in lieu thereof "Trade Representative", and

(B) by striking out "United States Trade Representative (hereinafter in this chapter referred to as the 'Trade Representative')" in paragraph (2)(B) and inserting in lieu thereof "Trade Representative".

(5) Subsection (d) of section 301 of the Trade Act of 1974 (19 U.S.C. 2411(d)) is amended to read as follows:

"(d) **ACTION BY TRADE REPRESENTATIVE ON OWN MOTION.**—If the Trade Representative decides to take action under this section and no petition requesting action on the matter involved has been filed under section 302, the Trade Representative shall publish notice of his determination, including the reasons for the determination in the Federal Register. Unless he determines that expeditious action is required, the Trade Representative shall provide an opportunity for the presentation of views concerning the taking of such action."

(6) Section 301 of the Trade Act of 1974 (19 U.S.C. 2411) is amended by striking out "PRESIDENT" in the section heading and inserting in lieu thereof "UNITED STATES TRADE REPRESENTATIVE".

#### (b) CONFORMING AMENDMENTS.—

(1) Section 302 of the Trade Act of 1974 (19 U.S.C. 2412) is amended—

(A) by striking out "United States Trade Representative (hereinafter in this chapter referred to as the 'Trade Representative')" in subsection (a)(1) and inserting in lieu thereof "Trade Representative",

(B) by striking out "President" in subsection (a)(1) and inserting in lieu thereof "Trade Representative", and

(C) by striking out "in order to advise the President concerning the exercise of the President's authority under section 301" in subsection (c)(1).

(2) Section 303 of the Trade Act of 1974 (19 U.S.C. 2413) is amended—

(A) by adding at the end thereof the following new subsection:

"(c) **INTERAGENCY TRADE ORGANIZATION.**—The Trade Representative shall consult with the interagency trade organization established under section 242(a) of the Trade Expansion Act of 1962 (19 U.S.C. 1872) regarding any determination which is required to be made by the Trade Representative under this chapter.", and

(B) by striking out "UPON INITIATION OF INVESTIGATION" in the section heading.

(3) The table of contents of the Trade Act of 1974 is amended by striking out "upon initiation of investigation" in the item relating to section 303.

(4) The table of contents of the Trade Act of 1974 is amended by striking out "President" in the item relating to section 301 and inserting in lieu thereof "United States Trade Representative".

#### SEC. 5. MISCELLANEOUS AMENDMENTS TO SECTION 301 OF THE TRADE ACT OF 1974.

(a) **BURDEN ON COMMERCE.**—Section 301 of the Trade Act of 1974 (19 U.S.C. 2411) is amended—

(1) by inserting "(or threatens to burden or restrict)" after "restricts" in subsection (a)(1)(B)(ii),

(2) by striking out "or instrumentality" each place it appears, and

(3) by striking out "purpose of this section" in subsection (e) and inserting in lieu thereof "purpose of this chapter".

(4) by adding at the end of subsection (e) the following new paragraphs:

"(7) **BURDEN ON UNITED STATES COMMERCE.**—Acts, policies, and practices of a foreign country which burden United States commerce include, but are not limited to—

"(A) acts, policies, and practices which have an adverse effect on trade between the United States and another foreign country,

"(B) the subsidization of exports of such foreign country that results in the displacement of United States exports to another foreign country,

"(C) the imposition of import restrictions or export performance requirements that result in the diversion of the exports of another foreign country to United States markets, and

"(D) the enforcement of trade restraining agreements that result in the diversion of the exports of another foreign country to United States markets.

"(8) **FOREIGN COUNTRY.**—The term 'foreign country' includes any foreign instrumentality."

(b) **NEGOTIATED SETTLEMENTS; DENIAL OF GENERALIZED SYSTEM OF PREFERENCES.**—Subsection (b) of section 301 of the Trade Act of 1974 (19 U.S.C. 2411(b)) is amended—

(1) by striking out the period at the end of paragraph (2) and inserting in lieu thereof "; or", and

(2) by adding at the end thereof the following new paragraphs:

"(3) enter into binding agreements with such foreign country that fully offset or eliminate any burden or restriction on United States commerce resulting from the acts, policies, or practices of such foreign country described in subsection (a)(1)(B); or

"(4) withdraw, or refrain from proclaiming under title V—

"(A) the designation of such foreign country as a beneficiary developing country, or

"(B) the designation of any product of such foreign country as an eligible article."

(c) **UNREASONABLE PRACTICES.**—Paragraph (3) of section 301(e) of the Trade Act of 1974 (19 U.S.C. 2411(e)(3)) is amended—

(1) by inserting "(or any combination thereof)" after "or practice" in the second sentence,

(2) by inserting "(including protection of any industry in its formative stages)" after "opportunities" in subparagraph (A),

(3) by striking out "or" at the end of subparagraph (B),

(4) by striking out the period at the end of subparagraph (C) and inserting in lieu thereof "; or",

(5) by adding at the end thereof the following new subparagraph:

"(D) provision of adequate and effective protection against anti-competitive practices."

(d) **SERVICE SECTOR ACCESS AUTHORIZATION.**—Paragraph (6) of section 301(e) of the Trade Act of 1974 (19 U.S.C. 2411(e)(6)) is amended by inserting ", or a foreign supplier of goods related to a service," after "supplier of services".

**SEC. 6. ACTIONS IN RESPONSE TO INVESTIGATIONS UNDER TITLE III OF THE TRADE ACT OF 1974.**

(a) **IN GENERAL.**—Section 304 of the Trade Act of 1974 (19 U.S.C. 2414) is amended to read as follows:

"SEC. 304. ACTIONS IN RESPONSE TO INVESTIGATIONS.

"(a) **DETERMINATION OF UNFAIR PRACTICES.**—

"(1) **IN GENERAL.**—By no later than 90 days after the date on which an investigation is initiated under section 302, the Trade Representative shall determine on the basis of such investigation whether—

"(A) the United States is being denied any rights to which the United States is entitled under any trade agreement, or

"(B) any act, policy, or practice of a foreign country is described in section 301(a)(1)(B).

"(2) **PUBLICATION.**—By no later than 90 days after the date on which an investigation is initiated under section 302, the Trade Representative shall publish in the Federal Register—

"(A) the determination made under paragraph (1) with respect to such investigation, and

"(B) if such determination is affirmative, a list of foreign goods and services (and their aggregate value) that could be subject to actions which the Trade Representative intends to take under subsection (b) or (c) of section 301 to enforce the rights and to offset or eliminate the acts, policies, and practices which were the subject of such affirmative determination.

"(b) **ACTION REQUIRED TO BE TAKEN.**—

"(1) **IN GENERAL.**—Except as otherwise provided in this subsection, the Trade Representative shall, by no later than the date that is 15 months after the date any investigation is initiated under section 302, take whatever actions under subsections (b) and (c) of section 301 that are necessary to—

"(A) enforce all rights, and

"(B) offset or eliminate all acts, policies, and practices,

which were the subject of an affirmative determination made under subsection (a)(1) with respect to such investigation.

"(2) **DELAY IN TAKING ACTIONS.**—The Trade Representative may delay taking action under paragraph (1) for a period not to exceed 90 days if—

"(A) either—

"(i) in the case of an investigation initiated under section 302(b), the petitioner requests such delay, or

"(ii) in the case of an investigation initiated under section 302(c), such delay is requested by the domestic industry that would benefit from enforcement of the rights, or elimination of the acts, policies, and practices, that were the subject of the affirmative determination under subsection (a)(1), and

"(B) such request is based on a determination made by the person making such re-

quest that adequate progress is being made to enforce such rights or to eliminate or reduce such acts, policies, and practices.

"(3) **EXCEPTIONS.**—The Trade Representative shall not be required to take action under subsection (b) or (c) of section 301 by reason of paragraph (1) if—

"(A) after the affirmative determination has been made under subsection (a)(1), the Trade Representative subsequently determines such affirmative determination was incorrect or is no longer valid, or

"(B) an agreement is entered into with the foreign country involved and—

"(i) representatives of the domestic industry described in paragraph (2)(A)(ii) and the petitioner, if any, agree that such agreement adequately offsets or eliminates the acts, policies, and practices and enforces the rights which were the subject of such affirmative determination, or

"(ii) the Trade Representative and either—

"(I) the representatives of such industry, or

"(II) the petitioner, agree that such agreement adequately offsets or eliminates the acts, policies, and practices and enforces the rights which were the subject of such affirmative determination.

"(4) **CONSIDERATION OF GATT DETERMINATIONS.**—If any determination made by the Contracting Parties under the dispute settlement procedures of the General Agreement on Tariffs and Trade conflicts with, or differs from, a determination made by the Trade Representative under subsection (a)(1), the Trade Representative shall review the determination made under subsection (a)(1) for purposes of paragraph (3)(A).

"(c) **REVIEW OF NECESSITY.**—

"(1) **IN GENERAL.**—If—

"(A) a particular action has been taken under subsection (b) or (c) of section 301 by reason of subsection (b)(1) continuously during any 7-year period, and

"(B) neither the petitioner nor any representative of the domestic industry described in subsection (b)(2)(A)(ii) has submitted to the Trade Representative during the last 60 days of such 7-year period a written request for the continuation of such action,

such action shall terminate at the close of such 7-year period.

"(2) **NOTICE OF POTENTIAL TERMINATION.**—The Trade Representative shall notify by mail the petitioner and representatives of the domestic industry described in subsection (b)(3)(B) of any termination of action by reason of paragraph (1) at least 60 days before the date of such termination.

"(3) **FORMAL REVIEW.**—If a request is submitted under paragraph (1)(B) to continue taking a particular action under subsection (b) or (c) of section 301, the Trade Representative shall conduct a review of—

"(A) the effectiveness of—

"(i) such action, and

"(ii) other actions that could be taken (including actions against other products or services),

in achieving the objectives described in subsection (b)(1), and

"(B) the effects of such actions on the United States economy, including consumers.

The Trade Representative shall submit a report on such review to the Congress and shall include in such report any modifications the Trade Representative has made, or intends to make, in the actions taken under

subsections (b) and (c) of section 301 as a result of such review."

(b) **CONFORMING AMENDMENTS.**—

(1) The table of contents for the Trade Act of 1974 is amended by striking out the item relating to section 304 and inserting in lieu thereof the following:

"Sec. 304. Actions in response to investigations."

(2) Subsection (b) of section 301 of the Trade Act of 1974 (19 U.S.C. 2411(b)) is amended—

(A) by inserting ", or upon the application of section 304(b)(1)" after "subsection (a)", and

(B) by striking out "in such subsection" and inserting in lieu thereof "in subsection (a)".

**SEC. 7. COMPENSATION AUTHORITY.**

Section 123 of the Trade Act of 1974 (19 U.S.C. 2133) is amended—

(1) by striking out "section 203" and inserting in lieu thereof "chapter 1 of title II or chapter 1 of title III", and

(2) by adding at the end thereof the following new subsection:

"(e) The provisions of this section shall apply by reason of action taken under chapter 1 of title III only if the President determines that action authorized under this section is necessary to meet the international obligations of the United States."

By Mr. MOYNIHAN:

S. 32. A bill to establish a National Commission on Deficit Reduction; to the Committee on Governmental Affairs.

**NATIONAL COMMISSION ON DEFICIT REDUCTION ACT**

Mr. MOYNIHAN. Mr. President, I rise today, on the 1st day of the 100th Congress, to introduce legislation to create a National Commission on Deficit Reduction.

If the legislation appears to be familiar to some, it is. I introduced identical legislation in the 98th Congress, on November 18, 1983. It had become clear to me even then that broad bipartisan support for sensible and effective deficit reduction would not be forthcoming. Circumstances have not changed much.

In 1985, Congress passed the Gramm-Rudman-Hollings law, but that legislation, much as I predicted at the time, has not solved the problem. The deficit is now projected to be \$175 billion for fiscal year 1987—\$30 billion above the Gramm-Rudman-Hollings deficit ceiling, and only \$10 billion below the deficit for fiscal year 1984.

Gramm-Rudman-Hollings has led to creative accounting gimmicks to be sure: shifts of expenditures from one fiscal year to another, unrealistic expectations for economic performance, and almost unbelievable assumptions about future revenue gains from increased tax compliance and enforcement activities. But this does not get at the structural deficit problem.

Making constitutional that part of Gramm-Rudman-Hollings which the Supreme Court found to be unconstitutional in the first place will not solve

the problem either. It will only lead to more gimmicks.

Today I once again offer a solution to our seeming inability to achieve comprehensive, thoughtful, and effective deficit reduction. If the problem is as complex and serious as I believe it is, it deserves the attention and best efforts of the Nation's economic and political leadership. And so this legislation would create a bipartisan National Commission on Deficit Reduction comprised of 17 members. Five members of the administration—the Chairman of the President's Council of Economic Advisers, the Director of the Office of Management and Budget, the Secretary of the Treasury, and two others selected at the President's discretion. Another five would be selected from the membership of the Senate—three by the majority leader, and two by the minority leader. In a similar fashion, five members would be chosen from the House of Representatives. Finally, the Director of the Congressional Budget Office and the Chairman of the Board of the Federal Reserve System would serve on the Commission.

The Commission would investigate and identify the sources of the unprecedented growth of the cyclical and structural deficits in the elements of fiscal and monetary policies. The legislation further directs the Commission to identify the effect of the elements of the deficit on employment, on real interest rates, on capital formation and investment, and on the prospects for continued strong economic growth. If we do not reduce the deficits in ways that encourage, rather than undermine the health and growth of the Nation's economy, we have accomplished little indeed.

It is also clear that examination of tax and spending policies alone will not be sufficient. The Commission must also examine the more general management of the economy and how it relates to deficits and deficit reduction alternatives. Specifically, the Commission will examine the relationship between monetary and fiscal policies, and how the coordination of those policies might be reformed as part of a solution to the deficit crisis.

The American public are rightfully demanding that we set the Nation's fiscal house in order and that we do so in a fair and equitable way. The Commission, therefore, is directed to make recommendations that ensure that the burdens of deficit reduction are equitably distributed and not borne disproportionately by any economic or social group. The Nation's elderly and poor, or the Nation's farmers and small businessmen, or the Nation's homeowners and investors, cannot be expected to bear all the costs for this unprecedented problem. We must know the impact of different approaches to reducing the deficit, separately and in

combination, on the different economic and social groups of the Nation.

This is a most serious proposal. Having been a member of both the Senate Budget and Finance Committees for the past 10 years, I am well aware that the setting the Nation's accounts in order is the task of several committees of this Congress and of offices and departments of the executive branch. However, my experiences have left me with the thought that a special forum will have to be created if we are to successfully deal with the Nation's current fiscal crisis. Such a forum was created and was helped to achieve consensus in restoring the viability of the Social Security Trust Funds—an effort I am proud to have been a part of.

I urge my colleagues to join in this effort to respond to the deficits which jeopardize the Nation's economic future.

I ask unanimous consent that the full text of my proposal be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 32

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SHORT TITLE

SECTION 1. This Act may be cited as the "National Commission on Deficit Reduction Act".

#### ESTABLISHMENT OF COMMISSION

SEC. 2. (a) There is hereby established the National Commission on Deficit Reduction (hereinafter referred to as the "Commission").

(b) The Commission shall be composed of seventeen members who shall be appointed by the President as follows:

(1) Five members from the executive branch of the Government, including the Chairman of the President's Council of Economic Advisers, the Director of the Office of Management and Budget, the Secretary of the Treasury, and two others;

(2) Five members from the Senate, three members to be named upon the recommendation of the majority leader, and two members to be named upon the recommendation of the minority leader;

(3) Five members from the House of Representatives, three to be named upon the recommendation of the majority leader and two to be named upon the recommendation of the minority leader;

(4) The Director of the Congressional Budget Office; and

(5) The Chairman of the Board of the Federal Reserve System.

(c) The Chairman of the Commission shall be the Director of the Congressional Budget Office.

(d) The Vice Chairman of the Commission shall be elected by the members of the Commission.

(e) The majority and minority leaders of the Senate, and the majority and minority leaders of the House of Representatives, shall make recommendations for the appointments to be made pursuant to subsection (b) of this section within fifteen days of the enactment of this Act.

(f) The President shall make all of the appointments in accordance with subsection (b) of this section after receiving the recommendations set forth in paragraphs (2), (3), and (4) of subsection (b) of this section, and such appointments shall be made no later than thirty days after the date of enactment.

(g) The first meeting of the Commission shall be called by the President within fifteen days following the date such appointments to the Commission are made.

(h) The term of office for members shall be for the term of the Commission.

(i) A vacancy in the Commission shall not affect its powers, and shall be filled in the same manner in which the original appointment was made.

(j) Ten members of the Commission shall constitute a quorum, but a lesser number may hold hearings.

#### PURPOSES OF THE COMMISSION

SEC. 3. (a) The Commission shall conduct a comprehensive study of the elements of fiscal and monetary policies, with particular emphasis on the sources of cyclical and structural budget deficits and their effect on employment, real interest rates, capital formation and investment, and the vigor and viability of economic growth. This study shall include recommendations to reduce these deficits in the manner and to the extent required to promote reductions in unemployment and real interest rates, to encourage capital formations and investment, and to sustain vigorous economic growth. These recommendations shall ensure that the burden of deficit reduction is equitably distributed and not borne disproportionately by any one economic or social group.

(b) The comprehensive study undertaken by the Commission shall specifically address—

(1) the current and prospective economic factors and developments, in both the United States and abroad, that should be taken into account in making fiscal and monetary policies;

(2) all potential options which would result in deficit reductions, including a statement of the impact of each on the Nation's economy;

(3) the impact of deficit reduction options, separately and in combination, on different income and social groups; and

(4) the institutional arrangements required to achieve the appropriate degree of coordination in the making and implementation of fiscal and monetary policies, to achieve reductions in the budget deficit.

#### COMPENSATION OF MEMBERS OF THE COMMISSION

SEC. 4. (a) Members of the Commission who are also Members of the Congress shall serve without compensation in addition to that received for their services as Members of Congress; but they shall be reimbursed for travel, subsistence, and other necessary expenses incurred by them in the performance of the duties vested in the Commission.

(b) Any Members of the Commission who are also in the executive branch of the Government shall serve without compensation in addition to that received for their services in the executive branch; but they shall be reimbursed for travel, subsistence, and other necessary expenses incurred by them in the performance of the duties in the Commission.

(c) Members of the Commission who are also current members of the Federal Reserve System, shall serve without compensa-

tion in addition to that received for their services as members of the Federal Reserve System; but they shall be reimbursed for travel, subsistence, and other necessary expenses incurred by them in the performance of the duties vested in the Commission.

(d) Members shall be appointed for the life of the Commission.

#### POWERS OF THE COMMISSION

SEC. 5. (a)(1) The Commission or, on the authorization of the Commission, any subcommittee thereof, may, for the purpose of carrying out its functions and duties, hold such hearings and sit and act at such times and places, administer such oaths, and require, by subpoena or otherwise, the attendance and testimony of such witnesses, and the production of such books, records, correspondence, memoranda, papers, and documents as the Commission or such subcommittee may deem advisable. Subpoenas may be issued to any person within the jurisdiction of the United States courts, under the signature of the Chairman or Vice Chairmen, or such members. In the case of failure of any witness to comply with any subpoena or to testify when summoned under authority of this section, the provisions of sections 102 through 104, inclusive, of the Revised Statutes (2 U.S.C. 192-194), shall apply to Congress.

(2) For purposes of section 552(e) of title 5, United States Code, the Commission shall not be considered to be an agency.

(b) Each department, agency, and instrumentality of the executive branch of the Government, including independent agencies, is authorized and directed to furnish to the Commission, upon request made by the Chairman or Vice Chairmen, such information as the Commission deems necessary to carry out its function under this Act.

(c) Subject to such rules and regulations as may be adopted by the Commission, the Chairman shall have the power to—

(1) appoint and fix the compensation of an Executive Director, and such additional staff personnel as he deems necessary, without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, and without regard to the provisions of chapter 51 of the General Schedule under section 5332 of such title, and

(2) procure temporary and intermittent services in accordance with the provisions of section 3109 of title 5, United States Code, but at rates not to exceed \$200 per day for individuals.

(d) The Commission is authorized to enter into contracts with Federal or State agencies, private firms, institutions, and individuals for the conduct of research or surveys, the discharge of its duties to such extent and in such amount as are provided in appropriations Acts.

#### FINAL REPORT

SEC. 6. The Commission shall transmit to the President and to the Congress not later than one hundred and eighty days after the first meeting of the Commission, a final report containing a detailed statement of the findings and conclusions of the Commission, including its recommendations for administrative, and legislative action which it deems advisable. Any formal recommendation made by the Commission to the President and to the Congress must have the majority vote of the Commission as present and voting.

#### EXPIRATION OF THE COMMISSION

SEC. 7. Sixty days after the submission to Congress of the final report provided for in

section 6 the Commission shall cease to exist.

#### AUTHORIZATION OF APPROPRIATIONS

SEC. 8. There are hereby authorized to be appropriated such sums as may be necessary to carry out the activities of the Commission.

#### EFFECTIVE DATE

SEC. 9. The provisions of this Act shall take effect upon the date of enactment of this Act.

By Mr. MOYNIHAN (for himself and Mr. RIEGLE):

S. 33. A bill entitled the "Social Security Trust Funds Management Act of 1987"; to the Committee on Finance.

#### SOCIAL SECURITY TRUST FUNDS MANAGEMENT ACT

● Mr. MOYNIHAN. Mr. President, on this first day of the 100th Congress, I rise to offer the Social Security Trust Funds Management Act of 1987, legislation to reform current investment practices governing the Social Security trust funds. During the 99th Congress, the Senate twice accepted identical language, but it was neither time enacted into law. Upon reintroduction, I am happy to have the support of my distinguished colleague from Michigan, Senator RIEGLE.

The intent of this bill is to prevent from happening again what never should have happened at all: The redemption, in the past 2 years, of Social Security trust fund assets in order to keep the Federal Government running. The Government resorted to this practice during those times when its ability to borrow additional funds to pay for the budget deficit had temporarily expired.

This legislation clarifies that the invested assets of the Social Security—old-age, survivors, and disability insurance—trust funds may be redeemed and used only to pay Social Security benefits and never to fund, or temporarily "float," other Government expenses.

Mr. President, it became clear in 1985, and again last year, that the Department of the Treasury manipulated Social Security trust fund moneys, in the fall of 1985 and 1984, in order to avoid the debt limit ceiling. I am afraid this is a problem which, unless addressed by corrective legislation threatens public confidence in the security of the trust funds.

Most Members of the Senate are acquainted with what occurred. But as a matter of record, those events bear restating. During 1985, the Secretary of the Treasury, as managing trustee of the Social Security trust funds, redeemed \$6.9 billion of Social Security's—OASDI's—long-term securities in September, another \$4.8 billion in October and \$13.7 billion in November, drawing down these trust funds from \$37 billion at the end of August to about \$11 billion by November 12—a level not sufficient to pay 1 month's

worth of benefits. The interest that the trust funds could have lost by such premature redemptions was estimated by the Social Security Office of the Actuary to be some \$875 million. Moreover, the Treasury Department took a similar step the previous year, during the September-October 1984 debt limit impasse. At that time, \$5.1 billion of Social Security's long-term bonds were prematurely cashed in, which could have resulted in a \$382 million loss of interest to the trust funds.

Disinvestment of this magnitude was unprecedented. So, equally, was the concealment. Neither the congressional committees with jurisdiction over the program nor the public trustees of the system received any notification of these extraordinary steps. In late 1985, Treasury officials defended themselves by citing an October 22, 1985, letter from Secretary Baker to the conferees on the debt limit bill. That letter warned that Treasury was prepared to take the "extraordinary" step of disinvesting trust fund assets if the debt limit impasse had not been resolved by October 31. But what of the large-scale—indeed "extraordinary"—disinvestment of over \$11 billion in bonds that had already taken place in early September and again in early October? We were not told of these.

On September 10, 1985, John J. Niehenke, then Acting Assistant Secretary of the Treasury, testified before the Senate Finance Subcommittee on Taxation and Debt Management. In his testimony—given just after \$6.9 billion in Social Security bonds had been redeemed—Mr. Niehenke stated:

Our current cash and debt projections indicate that the present debt limit of \$1,823.8 billion should be adequate to meet the Treasury's needs until September 30.

Such was adequate to meet the Treasury's needs only after raiding the Social Security trust funds for nearly \$7 billion. Yet, Mr. Niehenke made no mention of that.

On November 7, after much difficulty, I was able to have the Finance Committee's Subcommittee on Social Security and Public Assistance hold a hearing on this matter. We were allowed only one witness: former Treasury Deputy Assistant Secretary John J. Niehenke.

I believe the exchange I had with Mr. Niehenke reflects an extraordinary lack of candor. The transcript of that hearing will reveal an episode wherein I attempted to secure from Mr. Niehenke one basic, but important piece of information: The long-term investments held by the trust funds as of November 7—the day of the hearing. Such information would have revealed the disinvestments of early November. I had to drag this basic information out of him. Nor was he forthright about admitting to the Septem-

ber-October 1984 disinvestment, let alone suggesting that the resultant loss of interest to the trust funds be refunded.

In the wake of these hearings, Congress did act to make the trust funds whole. On November 12, 1985, the Senate adopted an amendment I offered along with Senator RIEGLE to fully correct the situation. The long-term bonds cashed in during the fall of 1985 were consequently restored to the trust funds, as was the interest lost as a result of the 1984 disinvestment.

Both the General Accounting Office and the Congressional Research Service have since looked into Treasury's practices. The GAO found that the Secretary's actions were—

In violation of the Social Security Act, but that—

we cannot say that the Secretary acted unreasonably given the extraordinary situation in which he was operating.

More interesting, the CRS report on Social Security disinvestment speaks to the fiduciary responsibility of the Secretary of the Treasury, stating:

[T]he conclusion seems inescapable that in enacting the Social Security Act Congress to a greater or lesser extent had certain features of private trust law in mind.

Comparing the Secretary's fiduciary responsibilities to those of private fiduciaries, CRS reasons that public officers who are responsible for holding, depositing, and investing public funds are properly held to an even higher standard than are private fiduciaries.

Mr. President, I am deeply disturbed by what has happened. Why weren't we informed in a timely manner of these disinvestments? Why were we left to our own devices to find out just what was being done with such large amounts of public moneys? Why weren't the other trustees, particularly the two public trustees, informed? Those of us who helped frame the 1983 Social Securities Amendments, which established the two public trustees, intended that they would act as public guardians of the funds. If recent events are any indication, these trustees may be completely ignored, unless we change the law.

In the wake of our revelations about past disinvestment practices, the Department of the Treasury tried to assure us that such covert disinvestment would cease. In a letter to me, Assistant Treasury Secretary Bruch Thompson stated:

... as a matter of policy, the Secretary has directed that both Congress and the trustees be kept informed on significant matters affecting the Trust Funds.

Well and good. Since that time, the Department has made a real effort to keep us better apprised of anticipated problems. Yet the systemic weakness which precipitated massive disinvestment in the first place has yet to be addressed. Characteristic of a pattern

we know all too well, we were unable to pass a timely debt limit increase again in 1986, once again endangering a number of Federal trust funds. In a letter—September 22, 1986—to members of the Senate Finance Committee, Treasury Secretary Baker warned us that absent a debt limit extension, he would be unable to complete the regular investment policy for assets in the civil service retirement and disability fund, the defense military retirement fund, or the Social Security trust funds. Indeed, the first two did lose interest payments as a result. And, thanks only to an unusually large cash surplus in the Social Security fund toward the end of the fiscal year, the OASDI trust funds did not lose any earnings interest as a result of noninvestment.

Mr. President, the whole experience suggests to me that it is time, past time, to change the law. Put simply, Treasury should not be allowed to engage in creative financing schemes that are tantamount to using Social Security moneys to float the rest of Government.

For this reason, I am reintroducing the Social Security Trust Funds Management Act. This legislation would first prohibit disinvestment of OASDI trust fund assets during a debt ceiling crisis for anything other than the timely payment of benefits and administrative expenses.

Second, the proposal mandates that uninvested Social Security tax receipts be invested in interest bearing Government obligations as soon as the debt ceiling is increased. This provision would prohibit the Government from using such balances as a loan to pay for any other operating expenses.

Third, the Social Security Trust Funds Management Act also would make a permanent appropriation to restore the trust funds to the amount they would have been at had disinvestment not been necessary.

Fourth, the managing trustee would be required to notify the Social Security Board of Trustees and the Congress 15 days in advance of an anticipated disinvestment; he would also be required to carry out his Social Security investment duties, notwithstanding any other of his duties arising by reason of the debt limit.

Mr. President, the earlier disinvestment actions of the Treasury Department would not have withstood the scrutiny to which private fiduciaries are subject. Our proposal would require the managing trustee to exercise the same degree of care in managing the trust funds as would be required of a private fiduciary.

And finally, with respect to reporting requirements, our legislation would require the managing trustee to report monthly to the trustees on the operation and status of the trust funds. The Secretary ought to be re-

quired specifically to keep his fellow trustees informed so that they may all be held accountable for such actions. More frequent meetings of the trustees would also help. In the past, they have met only once a year to sign the annual trustees report. The Board of Trustees would be required to meet semiannually to review trust fund operations and report to Congress on that review. And finally, to avoid the temptation to manipulate trust fund moneys, the proposal would eliminate normalized tax transfers after June 30, 1990. All other provisions of the bill would be effective upon enactment.

In closing, Mr. President, I would like to point out that extremely large surpluses will be building up in the trust funds in the near future. The 1983 Social Security Amendments are working to restore the system to financial health. In fact, the funds are in better shape than we had anticipated—so much better that in January 1986, 2 years ahead of schedule, OASI was able to fully repay the moneys it had previously borrowed from the HI fund.

Recent estimates by the Social Security Office of the Actuary indicate that by the end of the calendar year 1991, OASDI will have accumulated a surplus of nearly one-quarter of a trillion dollars—\$247.5 billion. The cumulative surpluses are indicated in a table which I ask unanimous consent be printed in the RECORD following my remarks.

Long-term projections indicate the OASDI trust funds will reach one-half of a trillion dollars by 1995 and more than \$1 trillion by the year 2000.

If current trust funds assets of about \$40 billion have proved tempting targets for the Treasury Department, just think how tempting \$1 trillion of such assets would be. The building of trust fund assets makes it even more important that we approve the legislation I propose in order to preclude any future manipulation of those funds.

My colleagues in the State recognized the need for more careful oversight of investment practices when they accepted the language of this bill last year—first, as a provision of the debt limit increase—House Joint Resolution 669—and again on September 19, as an amendment to the Sixth Omnibus Budget Reconciliation Act—S. 2706.

The House, however, insisted on its proposal—H.R. 5050—to prohibit disinvestment for any purpose, even if this resulted in Social Security checks not being mailed during a debt limit impasse. By the end of the 99th Congress, no legislation to prevent further disinvestment had been enacted.

Mr. President, I urge my colleagues to again support this important legislation, and I ask unanimous consent

that the text of the bill, and a table be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

ESTIMATED OPERATIONS OF OASI AND DI TRUST FUNDS  
(ALTERNATIVE II-B ASSUMPTION)

(Calendar years 1986-2055)

Calendar year	Income excluding interest	Interest	Total income	Total outgo	Assets of end of year
Alternative II-B:					
1986.....	\$211.6	\$3.7	\$215.3	\$202.4	\$44.4
1987.....	225.0	4.8	229.8	214.2	60.0
1988.....	253.6	6.6	260.2	229.1	91.1

Source: Actuarial Note, April 1986, Office of the Actuary Social Security Administration.

S. 33

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This title may be cited as the "Social Security Trust Funds Management Act of 1987".

SEC. 2. INVESTMENT AND RESTORATION OF TRUST FUNDS.

(a) Subsection (d) of section 201 of the Social Security Act (42 U.S.C. 401(d)) is amended—

(1) by striking out "(1) on original issue" and inserting in lieu thereof "(A) on original issue";

(2) by striking out "(2) by purchase" and inserting in lieu thereof "(B) by purchase";

(3) by striking out "It shall be" and inserting in lieu thereof "(1) It shall be", and

(4) by adding at the end thereof the following new paragraphs:

"(2) If—

"(A) any amounts in the Trust Funds have not been invested solely by reason of the public debt limit, and

"(B) the taxes described in clause (3) or (4) of subsection (a) with respect to which such amounts were appropriated to the Trust Funds have actually been received into the general fund of the Treasury of the United States,

such amounts shall be invested by the Managing Trustee as soon as such investments can be made without exceeding the public debt limit and without jeopardizing the timely payment of benefits under this title or under any other provision of law directly related to the programs established by this title.

"(3)(A) Upon expiration of any debt limit impact period, the Managing Trustee shall immediately—

"(i) reissue to each of the Trust Funds obligations under chapter 31 of title 31, United States Code, that are identical, with respect to interest rate and maturity, to public debt obligations held by such Trust Fund that—

"(I) were redeemed during the debt limit impact period, and

"(II) as determined by the Managing Trustee on the basis of standard investment procedures for such Trust Fund in effect on the day before the date on which the debt limit impact period began, would not have been redeemed if the debt limit impact period had not occurred, and

"(ii) issue to each of the Trust Funds obligations under chapter 31 of title 31, United States Code, that are identical with respect to interest rate and maturity, to public debt obligations which—

"(I) were not issued during the debt limit impact period, and

"(II) as determined by the Managing Trustee on the basis of such standard investment procedures, would have been issued if the debt limit impact period had not occurred.

"(B) Obligations issued or reissued under subparagraph (A) shall be substituted for obligations that are held by the Trust Fund, and for amounts in the Trust Fund that have not been invested, on the date on which the debt limit impact period ends in a manner that will ensure that, after such substitution, the holdings of the Trust Fund will replicate to the maximum extent practicable the obligations that would be held by such Trust Fund if the debt limit impact period had not occurred.

"(C) In determining, for purposes of this paragraph, the obligations that would be held by a Trust Fund if the debt limit impact period had not occurred, any amounts in the Trust Fund which have not been invested, and any amounts required to be invested under paragraph (2), shall be treated as amounts which were required to be invested upon transfer to the Trust Fund.

"(4) The Managing Trustee shall pay, on the first normal interest payment date that occurs on or after the date on which any debt limit impact period ends, to each of the Trust Funds, from amounts in the general fund of the Treasury of the United States not otherwise appropriated, an amount determined by the Managing Trustee to be equal to the excess of—

"(A) the net amount of interest that would have been earned by such Trust Fund during such debt limit impact period if—

"(i) amounts in such Trust Fund that were not invested during such debt limit impact period solely by reason of the public debt limit had been invested, and

"(ii) resumptions and disinvestments with respect to such Trust Fund which occurred during such debt limit impact period solely by reason of the public debt limit had not occurred, over

"(B) the sum of—

"(i) the net amount of interest actually earned by such Trust Fund during such debt limit impact periods, plus

"(ii) the total amount of the principal of all obligations issued or reissued under paragraph (3)(A) at the end of such debt limit impact period that is attributable to interest that would have been earned by such Trust Fund during such debt limit impact period but for the public debt limit.

"(5) For purposes of this section—

"(A) The term 'public debt limit' means the limitation imposed by subsection (b) of section 3101 of title 31, United States Code.

"(B) The term 'debt limit impact period' means any period for which the Secretary of the Treasury determines that the issuance of obligations of the United States is sufficient to orderly conduct the financial

operations of the United States may not be made without exceeding the public debt limit."

(b) Subsection (a) of section 201 of the Social Security Act is amended by adding at the end thereof the following new sentence: "All amounts so transferred shall be immediately available exclusively for the purpose for which amounts in the Trust Fund are specifically made available under this title or under any other provision of law directly related to the programs established by this title."

SEC. 3. REPEAL OF NORMALIZED TAX TRANSFER.

(a) Subsection (a) of section 201 of the Social Security Act is amended by striking out the matter following clause (4) and inserting in lieu thereof the following: "The amounts appropriated by clause (3) and (4) shall be transferred from the general fund of the Treasury of the United States to the Federal Old-Age and Survivors Insurance Trust Fund, and the amounts appropriated by clauses (1) and (2) of subsection (b) shall be transferred from the general fund of the Treasury to the Federal Disability Insurance Trust Fund, upon receipt by the general fund of taxes specified in clauses (3) and (4) of this subsection (as estimated by the Secretary). Proper adjustments shall be made in amounts subsequently transferred to the extent amounts previously transferred were in excess of, or were less than, the taxes specified in such clauses (3) and (4). All amounts so transferred shall be immediately available exclusively for the purpose for which amounts in the Trust Fund are specifically made available under this title or under other provisions of law directly related to the programs established by this title."

(b) The amendment made by subsection (a) shall take effect on July 1, 1990.

SEC. 4. FAITHFUL EXECUTION OF DUTIES BY MEMBERS OF BOARD OF TRUSTEES OF TRUST FUNDS.

Section 201(c) of the Social Security Act is amended by striking the last sentence and inserting the following: "A person serving on the Board of Trustees (including the Managing Trustee) shall not be considered to be a fiduciary, but each such person shall faithfully execute the duties imposed on such person by this section. A person serving on the Board of Trustees (including the Managing Trustee) shall not be personally liable for actions taken in such capacity with respect to the Trust Funds."

SEC. 5. REPORTS REGARDING THE OPERATION AND STATUS OF THE TRUST FUNDS.

Subsection (c) of section 201 of the Social Security Act is amended—

(1) by striking "once" in the fourth sentence and inserting "twice",

(2) by redesignating paragraphs (1) and (2) as subparagraphs (A) and (B), respectively,

(3) by redesignating paragraphs (3), (4), and (5) as subparagraphs (D), (E), and (F), respectively,

(4) by inserting after subparagraph (B) (as redesignated by paragraph (2) of this section) the following:

"(C) Report to the Congress as soon as possible, but not later than the date that is 30 days after the first normal interest payment date occurring on or after the date on which any debt limit impact period for which the Managing Trustee is required to take action under paragraph (3) or (4) of subsection (d) ends, on—

"(i) the operation and status of the Trust Funds during such debt limit impact period, and

"(ii) the actions taken under paragraphs (3) and (4) of subsection (d) with respect to such debt limit impact period;"

(5) by striking out "in paragraph (2) above" and inserting in lieu thereof "in subparagraph (B) above";

(6) by inserting "(1)" after "(c)", and

(7) by adding at the end thereof the following:

"(2) The Managing Trustee shall report monthly to the Board of Trustees concerning the operation and status of the Trust Funds and shall report to Congress and to the Board of Trustees not less than 15 days prior to the date on which, by reason of the public debt limit, the Managing Trustee expects to be unable to fully comply with the provisions of subsection (a) or (d)(1), and shall include in such report an estimate of the expected consequences to the Trust Funds of such inability."

#### SEC. 6. ELIMINATION OF UNDUE DISCRETION IN THE INVESTMENT OF TRUST FUNDS.

(a) Section 201(d) of the Social Security Act is amended, in the first sentence—

(1) by inserting "immediately" after "to invest"; and

(2) by striking "in his judgment,".

(b)(1) Paragraph (2) of section 201(d) of the Social Security Act, as added by section 2 of this Act, is amended to read as follows:

"(2) If any amount in either of the Trust Funds is not invested solely by reason of the public debt limit, such amount shall be invested as soon as such investment can be made without exceeding the public debt limit and without jeopardizing the timely payment of benefits under this title or under any other provision of law directly related to the programs established by this title."

(2) The amendment made by paragraph (1) shall take effect on July 1, 1990.

#### SEC. 7. SALES AND REDEMPTIONS BY TRUST FUNDS.

Section 201(e) of the Social Security Act is amended—

(1) by inserting "(1)" after "(e)"; and

(2) by adding at the end the following:

"(2)(A) The Managing Trustee may effect any such sale or redemption with respect to either Trust Fund only for the purpose of enabling such Trust Fund to make payments authorized by this title or under any other provisions of law directly related to the programs established by this title. If either of the Trust Funds holds any amounts which are not invested by reason of the public debt limit, the Managing Trustee is nevertheless directed to make such sales and redemptions if, and only to the extent, necessary to assure timely payment of benefits and other payments authorized by this title or by any other provisions of law directly related to the programs established by this title, but the principal amount of obligations sold or redeemed pursuant to this sentence shall not exceed the principal amount of obligations that would have been sold or redeemed under normal operating procedures in order to make such payments."

#### SEC. 8. EFFECTIVE DATE.

Except as otherwise provided by this title, the amendments made by this title shall take effect on the date of enactment of this Act.●

S. 34. A bill to establish an independent agency, governed by a bipartisan board, to administer the Old-Age, Survivors, and Disability Insurance Program under title II of the Social Security Act, the Supplemental Security Income Program under title XVI of such act, and the Medicare Program under title XVIII of such act, and for other purposes; to the Committee on Finance.

#### SOCIAL SECURITY ADMINISTRATIVE REORGANIZATION ACT

Mr. MOYNIHAN. Mr. President, I rise today, the first day of the 100th Congress, to introduce legislation to reorganize the Social Security Administration as an independent agency, governed by a five-member, bipartisan board. I am pleased that my distinguished colleague from Michigan, Senator RIEGLE, with whom I introduced identical legislation in the 98th and 99th Congresses, is joining me to offer it again today.

Our bill would establish an independent agency to administer the Old-Age, Survivors, and Disability Insurance [OASDI] Program, the Medicare Program, and the Supplemental Security Income [SSI] Program. These programs comprise the core of America's social safety net. OASDI and SSI provide essential income support to families who have lost a bread winner, to aged and disabled individuals and their dependents, and to indigent aged and disabled adults, respectively. Medicare insures that all elderly individuals and Social Security beneficiaries have access to basic health care.

Why should the Social Security Administration, which administers these vital programs, be made an independent agency?

The reason is simple: The operations of the Social Security Administration would be improved, and public confidence in the system strengthened, by establishing Social Security as an independent agency.

This is not a new idea—just one lately forgotten. The original Social Security Act of 1935 established an independent Social Security Board to administer the programs. In 1939, Social Security programs were made a part of the independent Federal Security Agency, where they remained until 1953. Only at that time, nearly 20 years after passage of the Social Security Act, was the Social Security Administration made part of the newly formed Department of Health, Education and Welfare. There it has remained.

Almost 30 years later in 1981, the National Commission on Social Security urged the President and Congress to create an independent agency to administer the Old Age, Survivors, Disability, Medicare, SSI, and Medicaid Programs. In 1983, the President's Commission on Social Security Reform, on which I served, stated its

support for the concept of an independent Social Security Administration. The time has come to act on these recommendations.

The size of these programs, and their importance to nearly every American, recommend an independent agency. Simply put, the Social Security Administration has outgrown the Department of Health and Human Services. The benefits paid through the Social Security, Medicare, and SSI Programs today account for more than 90 percent of the Department's entire budget. In 1953, 6 million Americans received monthly Social Security checks; 33 years later, that number has increased sixfold. More than 37 million Americans receive monthly Social Security checks today, and 30 million aged and disabled citizens receive Federal insurance for the costs of hospitalization and medical treatment. Another 4.2 million of our most needy blind, aged, and disabled citizens receive SSI assistance.

The independent agency established under this legislation would be governed by a bipartisan, five-member board of directors, appointed by the President for staggered 15-year terms. The appointment of the directors would be subject to the advice and consent of the Senate. The board would be responsible for administration policy, including annual budget and legislative recommendations, and would provide the President and Congress with research, policy and actuarial analysis. The Commissioner also would devise and administer plans to improve the effectiveness of the administration's programs, and advise the board and Congress on the impact of legislative changes.

A board whose members served 15-year terms would likely be more stable than the current administrative structure of Social Security. In addition, because the 15-year terms would span several Presidential administrations, the board would also help deter policy proposals and actions which are designed to meet the short-term goals of any single administration, rather than the long-term goals of the Social Security System.

By assuring millions of Americans a dependable retirement income, basic health insurance coverage during old age, and protection in the event of disability, our social insurance programs have won widespread public support. The system has also earned a well-deserved reputation for administrative efficiency, fairness and public responsiveness. Recently, however, this reputation has been tarnished. In the last few years, for example, hundreds of thousands of disability beneficiaries were wrongfully terminated. Moreover, the Social Security Administration's computer system has been al-

By Mr. MOYNIHAN (for himself and Mr. RIEGLE):

lowed to deteriorate, slowing administrative processes.

By establishing the Social Security Administration as an independent agency governed by a bipartisan board, we can help restore the high levels of efficiency and fairness for which SSA is deservedly famous, as well as insulate its vital programs from partisan politics.

I urge my colleagues to join me and Senator RIEGLE in support of this important initiative, and I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 34

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SHORT TITLE AND TABLE OF CONTENTS

SECTION 1. This Act, with the following table of contents, may be cited as the "Social Security Administrative Reorganization Act".

#### TABLE OF CONTENTS

- Sec. 1. Short title and table of contents.
- Sec. 2. Establishment of an independent Social Security Agency; Social Security Board.
- Sec. 3. Commissioner of Social Security.
- Sec. 4. Transfer of functions.
- Sec. 5. Transitional rules.
- Sec. 6. Budgetary and fiscal affairs of the Social Security Agency.
- Sec. 7. Technical and conforming amendments; rules of construction.
- Sec. 8. Reports assessing organizational changes.
- Sec. 9. Effective date and interim rules.

#### ESTABLISHMENT OF AN INDEPENDENT SOCIAL SECURITY AGENCY; SOCIAL SECURITY BOARD

SEC. 2. (a) Section 701 of the Social Security Act is amended to read as follows:

#### "SOCIAL SECURITY AGENCY; SOCIAL SECURITY BOARD

"SEC. 701. (a) There is hereby established, as an independent agency of the executive branch of the Government, a Social Security Agency (hereafter in this title referred to as the 'Agency').

"(b)(1) The Agency shall be headed by a Social Security Board (hereafter in this title referred to as the 'Board').

"(2)(A) Except as provided in subparagraph (B), the Board shall be composed of five members appointed by the President, by and with the advice and consent of the Senate.

"(B) For the period ending January 31, 1989, the Board shall be composed of three members appointed by the President, by and with the advice and consent of the Senate.

"(C) The members shall be chosen, on the basis of integrity, impartiality, and good judgment, from among individuals who, by reason of education, experience, and attainment, are exceptionally qualified to serve on the Board.

"(3)(A) Except as provided in subparagraphs (B) and (C), members shall be appointed for terms of fifteen years. A member of the Board may be removed only pursuant to a finding by the President of neglect of duty or malfeasance in office. The President shall transmit any such finding to the Speaker of the House of Repre-

sentatives and the Majority Leader of the Senate not later than five days after the date on which such finding is made.

"(B) Of the members first appointed—

"(i) one shall be appointed for a term ending October 1, 1989.

"(ii) one shall be appointed for a term ending October 1, 1992.

"(iii) one shall be appointed for a term ending October 1, 1995.

"(iv) one shall be appointed for a term beginning February 1, 1989, and ending October 1, 1998, and

"(v) one shall be appointed for a term beginning February 1, 1989, and ending October 1, 2001,

as designated by the President at the time of appointment. Such members shall be appointed after active consideration of recommendations made by the Chairman of the Committee on Ways and Means of the House of Representatives and of recommendations made by the Chairman of the Committee on Finance of the Senate.

"(C) Any member appointed for a term after the commencement of such term shall be appointed only for the remainder of such term. A member may, with the approval of the President, serve for not more than one year after the expiration of his or her term until his or her successor has taken office.

"(4)(A) Except as provided in subparagraph (B), not more than three members of the Board shall be of the same political party.

"(B) For the period ending January 31, 1989, not more than two members of the Board shall be of the same political party.

"(5) A member of the Board may not, during his or her term as member, otherwise serve as an officer or employee of any government. If any member of the Board becomes an officer or employee of any government, he or she may continue to serve as a member of the Board not more than 30 days after the date he or she becomes an officer or employee of such government.

"(6)(A) Except as provided in subparagraph (B), three members of the Board shall constitute a quorum.

"(B) For the period ending January 31, 1989, two members of the Board shall constitute a quorum.

"(C) A lesser number may hold hearings.

"(7) A member of the Board shall be designated from time to time by the President to serve as Chairperson of the Board.

"(8) The Board shall meet at the call of the Chairperson or a majority of its members.

"(C) The Board shall—

"(1) govern by regulation the old-age, survivors, and disability insurance program under title II, the supplemental security income program under title XVI, and the medicare program under title XVIII.

"(2) appoint a Commissioner of Social Security, as described in section 702, to act for the Board as the chief operating officer of the Agency responsible for administering such programs.

"(3) make annual budgetary recommendations relating to the Agency and defend such recommendations before the appropriate committees of each House of the Congress.

"(4) make recommendations to the Congress and the President as to the most effective methods of providing economic security through social insurance, and, in consultation with the Commissioner of Social Security, as to legislation and matters of administrative policy concerning such programs.

"(5) provide the Congress and the President with the ongoing actuarial and other

analysis undertaken by the Agency with respect to such programs and any other information relating to such programs, and

"(6) conduct policy analysis and research relating to such programs.

"(d)(1) The Office of the Board shall include an Office of the Actuary, to be headed by a Chief Actuary appointed by the Board. To the extent provided by the Board, the Office of the Actuary shall assist the Board in carrying out its actuarial functions.

"(2) The Office of the Board shall include an Office of Policy and Legislation, to be headed by a Director of Policy and Legislation appointed by the Board. To the extent provided by the Board, the Office of Policy and Legislation shall assist the Board in carrying out its functions relating to policy analysis, research, and legislation.

"(3) The Office of the Board shall include an Office of General Counsel, to be headed by a General Counsel appointed by the Board. The General Counsel shall serve as the principal legal counsel in the Agency and shall provide necessary legal advice and services to the Board and the Commissioner.

"(4) The Office of the Board shall include an Ombudsman, to be appointed by the Board. The Ombudsman shall represent the concerns of the public, including beneficiaries, with respect to the old-age, survivors, and disability insurance program under title II, the supplemental security income program under title XVI, and the medicare program under title XVIII, to the Board and the Commissioner.

"(5)(A) The Board shall appoint such additional attorneys, actuaries, and other employees as it considers necessary to carry out its functions.

"(B) The Board may appoint, without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, such technical or professional employees as the Board considers appropriate, and such employees may be paid without regard to the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates.

"(C) The Board may procure the services of experts and consultants in accordance with the provisions of section 3109 of title 5, United States Code.

"(D) Notwithstanding section 3133 of title 5, United States Code, the Director of the Office of Personnel Management shall authorize for the Agency a total number of Senior Executive Service positions equal to 150 percent of the number of such positions existing in the Social Security Administration of the Department of Health and Human Services on the day before the date of the enactment of the Social Security Administrative Reorganization Act, and the total number of such positions authorized for the Agency pursuant to such section 3133 shall not at any subsequent time be less than such number.

"(E) In addition to the positions of the Agency in the Executive Schedule specified in subchapter II of chapter 53 of title 5, United States Code, the Board may establish additional positions at levels IV and V of the Executive Schedule.

"(d)(1) The Board may establish, alter, consolidate, or discontinue such organizational units or components within the Agency as the Board considers necessary or appropriate to carry out its functions, except that this paragraph shall not apply with respect to any unit or component established by this Act.

"(2) The Board may assign duties, and delegate, or authorize successive redelegations of, authority to act and to render decisions, with respect to the functions of the Board under this section. Within the limitations of such delegations, redelegations, or assignments to officers or employees of the Agency, all official acts and decisions of such officers and employees shall have the same force and effect as though performed or rendered by the Board.

"(e) There shall be in the Agency an Office of the Inspector General, to be headed by an Inspector General appointed in accordance with the Inspector General Act of 1978.

"(f)(1) The Board, the Secretary, and the Secretary of the Treasury shall consult with each other and shall develop rules, regulations, practices, and forms which, to the extent appropriate for the efficient administration of titles II, XVI, and XVIII and the other provisions of this Act and the applicable provisions of the Internal Revenue Code of 1954, are designed to reduce duplication of effort, duplication of reporting, conflicting or overlapping requirements, and the burden on beneficiaries and other persons of compliance with the provisions of this Act.

"(2) In order to avoid unnecessary expense and duplication of functions, the Board, the Secretary, and the Secretary of the Treasury may make such arrangements or agreements for cooperation or mutual assistance in the performance of their functions under titles II, XVI, and XVIII and the other provisions of this Act and the applicable provisions of the Internal Revenue Code of 1954 as they find to be practicable and consistent with law."

(b)(1) Section 5313 of title 5, United States Code (relating to level II of the Executive Schedule), is amended by adding at the end thereof the following new item:

"Chairperson of the Social Security Board, Social Security Agency."

(2) Section 5314 of such title (relating to level III of the Executive Schedule) is amended by adding at the end thereof the following new item:

"Members of the Social Security Board, Social Security Agency (4)."

(3) Section 5315 of such title (relating to level IV of the Executive Schedule) is amended by adding at the end thereof the following new items:

"Inspector General, Social Security Agency.

"Chief Actuary, Social Security Agency.

"Director of Policy Analysis and Legislation, Social Security Agency.

"General Counsel, Social Security Agency.

"Ombudsman, Social Security Agency."

#### COMMISSIONER OF SOCIAL SECURITY

SEC. 3. (a) Section 702 of the Social Security Act is amended to read as follows:

#### "COMMISSIONER OF SOCIAL SECURITY

"SEC. 702. (a) There shall be in the Agency an Office of the Commissioner, to be headed by a Commissioner of Social Security (hereinafter in this title referred to as the 'Commissioner') appointed by the Board. The Commissioner shall be chosen from among individuals who are, by reason of experience and attainment, especially qualified to manage a large-scale organization of the Government.

"(b)(1) The Commissioner shall be appointed for a term of five years, except that—

"(A) an individual appointed Commissioner for a term after the commencement of

such term shall be appointed only for the remainder of such term.

"(B) an individual may, with the approval of the Chairperson of the Board, serve as Commissioner after the expiration of his or her term for not more than one year until his or her successor has taken office, and

"(C) the individual first appointed to the Office of Commissioner shall serve for a term ending January 31, 1989.

An individual may be appointed as Commissioner for successive terms, and

"(2) An individual may be removed from the Office of Commissioner before completion of his or her term only upon the vote of a majority of the full membership of the Board, pursuant to a finding by the Board of neglect of duty or malfeasance in office. The Board shall transmit any such finding to the Speaker of the House of Representatives and the Majority Leader of the Senate not later than five days after the date on which such finding is made.

"(3) Except as provided in paragraph (6) of subsection (c), an individual serving as Commissioner may not, during his or her term as Commissioner, otherwise serve as an officer or employee of any government. If an individual serving as Commissioner becomes an employee of any government, he or she may continue to serve as Commissioner not more than 30 days after the date on which he or she becomes an officer or employee of such government.

"(c) The Commissioner shall—

"(1) constitute the chief operating officer of the Agency, responsible for administering, in accordance with applicable statutes and regulations, the old-age, survivors, and disability insurance program under title II, the supplemental security income program under title XVI, and the medicare program under title XVIII,

"(2) establish and maintain an efficient and effective operational structure for the Agency,

"(3) devise and implement long-term plans to promote and maintain the effective implementation of such programs,

"(4) make annual budgetary recommendations of the Agency for the ongoing administrative costs of the Agency and defend such recommendations before the Board and before the appropriate Committees of each House of the Congress,

"(5) advise the Board and the Congress of the effect on the administration of such programs of proposed legislative changes in such programs,

"(6) serve as Secretary of the Board of Trustees of the Federal Old-Age and Survivors Insurance Trust Fund, the Federal Disability Trust Fund, the Federal Hospital Insurance Trust Fund, and the Federal Supplementary Medical Insurance Trust Fund, and

"(7) report in December of each year to the Board and the Congress concerning the administrative endeavors and accomplishments of the Agency.

"(d)(1) The Commissioner may establish, alter, consolidate, or discontinue such organizational units or components within the Office of the Commissioner as the Commissioner considers necessary or appropriate to carry out his or her functions.

"(2) The Commissioner may assign duties, and delegate, or authorize successive redelegations of, authority to act and to render decisions, with respect to the administration of the old-age, survivors, and disability insurance program under title II, the supplemental security income program under title XVI, and the medicare program under title

XVIII to such officers and employees as the Commissioner may find necessary. Within the limitations of such delegations, redelegations, or assignments, all official acts and decisions of such officers and employees shall have the same force and effect as though performed or rendered by the Commissioner.

"(3)(A) The Commissioner shall appoint such additional employees as he or she considers necessary to carry out his or her functions.

"(B) The Commissioner may appoint, without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, such technical or professional employees as the Commissioner considers appropriate, and such employees may be paid without regard to the provisions of chapter 51 and subchapter III of chapter 53 of such title relating to classification and General Schedule pay rates.

"(C) The Commissioner may procure the services of experts and consultants in accordance with the provisions of section 3109 of title 5, United States Code.

"(D) The Commissioner may delegate such powers of appointment and procurement to any of the employees in the Office of the Commissioner as he or she determines appropriate.

"(4) To the extent requested by the Commissioner, the Director of the Office of Personnel Management shall delegate to the Commissioner, pursuant to section 1104 of title 5, United States Code, and subject to applicable limitations under such title relating to delegations under such section, functions relating to—

"(A) recruitment and examination programs for entry level employees, and

"(B) classification and standards development systems and pay ranges for those job categories identified by the Commissioner in assuming such delegation.

The Director of the Office of Personnel Management shall provide any assistance requested by the Commissioner in assuming any such delegation."

(b)(1) Section 5313 of title 5, United States Code (relating to level II of the Executive Schedule) is further amended by adding at the end thereof the following new item:

"Commissioner of Social Security, Social Security Agency."

(2) Section 5315 of such title is amended by striking out the following item:

"Commissioner of Social Security, Department of Health and Human Services."

#### TRANSFER OF FUNCTIONS

SEC. 4. (a) There are transferred to the Social Security Agency all functions carried out by the Secretary of Health and Human Services with respect to the programs and activities the administration of which is vested in the Social Security Agency by reason of this Act and the amendments made thereby. The Social Security Board shall prescribe such regulations as are necessary to allocate such functions in accordance with sections 701 and 702 of the Social Security Act (as amended by this Act).

(b)(1) There are transferred from the Department of Health and Human Services to the Social Security Board, for appropriate allocation by the Board by regulation in the Social Security Agency—

(A) the personnel employed in connection with the functions transferred by this Act and the amendments made thereby, and

(B) the assets, liabilities, contracts, property, records, and unexpended balance of

appropriations, authorizations, allocations, and other funds employed, held, or used in connection with such functions, arising from such functions, or available, or to be made available, in connection with such functions.

(2) Unexpended funds transferred pursuant to this subsection shall be used only for the purposes for which the funds were originally authorized and appropriated.

(c) The position of Commissioner of Social Security in the Department of Health and Human Services is abolished.

#### TRANSITIONAL RULES

SEC. 5. (a) All orders, determinations, rules, regulations, permits, contracts, certificates, licenses, and privileges—

(1) which have been issued, made, promulgated, granted, or allowed to become effective, in the exercise of functions (A) which were exercised by the Secretary of Health and Human Services (or his delegate), and (B) which relate to functions which, by reason of this Act, the amendments made thereby, and regulations prescribed thereunder, are vested in the Social Security Board or the Commissioner of Social Security (as the case may be), and

(2) which are in effect at the time this Act takes effect,

shall (to the extent that they relate to functions described in paragraph (1)(B)) continue in effect according to their terms until modified, terminated, suspended, set aside, or repealed by such Board or Commissioner (as the case may be).

(b) The provisions of this Act (including the amendments made thereby) shall not affect any proceeding pending at the time this Act takes effect before the Secretary of Health and Human Services with respect to functions vested (by reason of this Act, the amendments made thereby, and regulations prescribed thereunder) in the Social Security Board or the Commissioner of Social Security, except that such proceedings, to the extent that they relate to such functions, shall continue before such Board or Commissioner (as the case may be). Orders shall be issued under any such proceeding, appeals taken therefrom, and payments shall be made pursuant to such orders, in like manner as if this Act had not been enacted, and orders issued in any such proceeding shall continue in effect until modified, terminated, superseded, or repealed by such Board or Commissioner (as the case may be), by a court of competent jurisdiction, or by operation of law.

(c) Except as provided in this subsection—

(1) the provisions of this Act shall not affect suits commenced prior to the date this Act takes effect; and

(2) in all such suits proceedings shall be had, appeals taken, and judgments rendered, in the same manner and effect as if this Act had not been enacted.

No cause of action, and no suit, action, or other proceeding commenced by or against any officer in his official capacity as an officer of the Department of Health and Human Services, shall abate by reason of the enactment of this Act. Causes of action, suits, actions, or other proceedings may be asserted by or against the United States and the Social Security Agency, or such official of such Agency as may be appropriate, and, in any litigation pending when this section takes effect, the court may at any time, on its own motion or that of a party, enter an order which will give effect to the provisions of this subsection (including, where appropriate, an order for substitution of parties).

(d) This Act shall not have the effect of releasing or extinguishing any criminal prosecution, penalty, forfeiture, or liability incurred as a result of any function which (by reason of this Act, the amendments made thereby, and regulations prescribed thereunder) is vested in the Social Security Board or the Commissioner of Social Security.

(e) Orders and actions of the Social Security Board and the Commissioner of Social Security in the exercise of functions vested in such Board or Commissioner (as the case may be) under this Act (and the amendments made thereby) shall be subject to judicial review to the same extent and in the same manner as if such orders and actions had been taken by the Secretary of Health and Human Services in the exercise of such functions immediately preceding the effective date of this Act. Any statutory requirements relating to notice, hearings, action upon the record, or administrative review that apply to any function so vested in such Board or Commissioner shall continue to apply to the exercise of such function by such Board or Commissioner (as the case may be).

(f) In the exercise of the functions vested in the Social Security Board or the Commissioner of Social Security under this Act, the amendments made thereby, and regulations prescribed thereunder, such Board or Commissioner (as the case may be) shall have the same authority as that vested in the Secretary of Health and Human Services with respect to the exercise of such functions immediately preceding the vesting of the same in such Board or Commissioner, and actions of such Board or Commissioner shall have the same force and effect as when exercised by such Secretary.

#### BUDGETARY AND FISCAL AFFAIRS OF THE SOCIAL SECURITY AGENCY

SEC. 6. Section 703 of the Social Security Act is amended to read as follows:

#### "BUDGETARY AND FISCAL AFFAIRS OF THE SOCIAL SECURITY AGENCY

"SEC. 703. (a) Appropriations requests of the Social Security Agency for staffing and personnel shall be based upon comprehensive work force plans. The entire amount of appropriations provided for the administrative costs of the Social Security Agency shall be apportioned in the time period provided in title 31, United States Code, for apportionment and shall be apportioned for the entire period of availability without restriction or deduction by the apportioning officer or employee of the Office of Management and Budget or any other entity within the executive branch of the Federal Government, except as otherwise provided in this section.

"(b)(1) Authority of the Social Security Agency for automated data processing procurement and facilities construction shall be provided in the form of contract authority covering the total costs of such acquisitions, to be available until expended.

"(2) Amounts necessary for the liquidation of contract authority provided pursuant to this section are hereby made available from the Federal Old-Age and Survivors Insurance Trust Fund, the Federal Disability Insurance Trust Fund, Federal Hospital Insurance Trust Fund, and the Federal Supplemental Medical Insurance Trust Fund to the extent that the Social Security Board, with the concurrence of the Secretary of the Treasury, determines that any of such amounts to be provided from such Trust Fund are not necessary to meet the

current obligations for benefit payments from such Trust Fund.

"(3) Funds appropriated for the Social Security Agency to be available on a contingency basis shall be apportioned only upon the occurrence of the stipulated contingency, as determined by the Social Security Board and reported to each House of the Congress.

"(c)(1) To the extent requested by the Commissioner, the Commissioner shall have—

"(A) all authorities permitted to be delegated under the provisions of Federal law codified under title 40 of the United States Code, that the Commissioner considers are necessary for the acquiring, operating, and maintaining of the facilities needed for the administration of programs for which the Commissioner is given responsibility under this Act,

"(B) all authorities permitted to be delegated under section 111 of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 759), relating to the lease, purchase, or maintenance of automated data processing equipment, and

"(C) the authority to contract for any automated data processing equipment or services which the Commissioner considers necessary for the efficient and effective operation of such programs.

"(2) The Administrator of the General Services Administration shall provide any assistance requested by the Commissioner in assuming the delegations required under paragraph (1)."

#### TECHNICAL AND CONFORMING AMENDMENTS; RULES OF CONSTRUCTION

SEC. 7. (a) Title II (other than subsections (a), (b), and (c) of section 201), part B of title XI, title XVI (relating to supplemental security income for the aged, blind, and disabled), and title XVIII (other than subsection (b) of section 1817 and subsection (b) of section 1841) of the Social Security Act are each amended—

(1) by striking out, wherever it appears therein, "Secretary of Health and Human Services" or "Secretary of Health, Education, and Welfare" and inserting in lieu thereof "Commissioner";

(2) by striking out, wherever it appears therein, "Department of Health and Human Services" or "Department of Health, Education, and Welfare" and inserting in lieu thereof "Social Security Agency";

(3) by striking out, wherever it appears therein, "Department" (but only if it is used in reference to the Department of Health and Human Services or the Department of Health, Education, and Welfare) and inserting in lieu thereof "Social Security Agency", and

(4) by striking out, wherever it appears therein, each of the following words (but, in the case of any such word only if such word refers to the Secretary of Health and Human Services or to the Secretary of Health, Education, and Welfare): "Secretary", "Secretaries", "his", "him", and "he", and inserting in lieu thereof (in the case of the word "Secretary") "Commissioner", (in the case of the word "Secretaries") "Commissioners", (in the case of the word "his") "the Commissioner's", (in the case of the word "him") "the Commissioner", and (in the case of the word "he") "the Commissioner".

(b)(1) Subsections (a) and (b) of section 201 of such Act are each amended—

(A) by striking out "Secretary of Health, Education, and Welfare" each place it ap-

pears and inserting in lieu thereof "Commissioner of Social Security", and

(B) by striking out "such Secretary" each place it appears and inserting in lieu thereof "the Commissioner of Social Security".

(2) Section 201(c) of such Act is amended—

(A) in the first sentence, by striking out "shall be composed of" and all that follows through "ex officio" and inserting in lieu thereof the following: "shall be composed of the Chairperson of the Social Security Board, and the Secretary of the Treasury, ex officio"; and

(B) by striking out "Social Security Administration" in the fourth sentence and inserting in lieu thereof "Social Security Agency".

(c)(1) Section 402 of such Act is amended by striking out "Administrator" each place it appears and inserting in lieu thereof "Secretary".

(2) Section 411 of such Act is amended—

(A) in subsection (a), by striking out "Secretary" and inserting in lieu thereof "Commissioner", at the request of the Secretary, and by striking out "Social Security Administration" and inserting in lieu thereof "Social Security Agency"; and

(B) in subsection (b), by striking out "Secretary" each place it appears and inserting in lieu thereof "Commissioner".

(d)(1) Section 704 of such Act is amended—

(A) by inserting "and the Commissioner" after "Secretary" the first place it appears;

(B) by inserting "each" after "shall";

(C) by striking out "the functions with which he is charged" and inserting in lieu thereof "his or her functions"; and

(D) by striking out "of such" each place it appears and inserting in lieu thereof "of each such".

(2) Section 709(b)(2) of such Act is amended by striking out "(as estimated by the Secretary)" and inserting in lieu thereof "(as estimated by the Commissioner)".

(3) Title VII of such Act is further amended by adding at the end thereof the following new section:

#### "DUTIES OF SECRETARY

"SEC. 713. The Secretary shall perform the duties imposed upon him by this Act and shall also have the duty of studying and making recommendations as to the most effective methods of providing economic security and as to legislation and matters of administrative policy concerning the programs administered by the Secretary and related subjects; except that nothing in this section shall be construed to require the Secretary to make studies or recommendations with respect to programs administered by the Social Security Agency."

(e)(1) Section 1101(a) of such Act is amended by adding at the end thereof the following new paragraph:

"(10) The term 'Commissioner' means the Commissioner of Social Security."

(2) Section 1102 of such Act is amended by striking out "and the Secretary of Health, Education and Welfare" and inserting in lieu thereof "the Secretary of Health and Human Services, and the Commissioner of Social Security".

(3) Section 1106(a) of such Act is amended—

(A) by inserting "(1)" after "(a)";

(B) by striking out "Federal Security Agency" and inserting in lieu thereof "applicable agency";

(C) by striking out "Administrator" and inserting in lieu thereof "head of the applicable agency"; and

(D) by adding at the end thereof the following new paragraph:

"(2) For purposes of this subsection and subsection (b)—

"(A) the term 'applicable agency' means—

"(i) the Social Security Agency, with respect to matter transmitted to or obtained by such Administration or matter disclosed by such Agency,

"(ii) the Department of Health and Human Services, with respect to matter transmitted to or obtained by such Department or matter disclosed by such Department, or

"(iii) the Department of Labor, with respect to matter transmitted to or obtained by such Department or matter disclosed by such Department, and

"(B) the term 'head of the applicable agency' means, in the case of the Social Security Agency, the Commissioner of Social Security."

(4) Section 1106(b) of such Act is amended—

(A) by striking out "Secretary" and inserting in lieu thereof "head of the applicable agency"; and

(B) by striking out "Department of Health, Education, and Welfare" and inserting in lieu thereof "applicable agency".

(5) Section 1106(c) of such Act is amended—

(A) by striking out "the Secretary" the first place it appears and inserting in lieu thereof "the Commissioner or the Secretary"; and

(B) by striking out "the Secretary" each subsequent place it appears and inserting in lieu thereof "such Commissioner or Secretary".

(6) Section 1106(d) of such Act is amended by inserting "the Commissioner and" after "this section".

(7) Section 1106(e) of such Act is amended—

(A) by striking out "by the Secretary" and inserting in lieu thereof "by the Commissioner, the Secretary,"; and

(B) by inserting "or the Commissioner" after "Secretary" the second and third places it appears.

(8) Section 1107(b) of such Act is amended by striking out "the Secretary of Health, Education, and Welfare" and inserting in lieu thereof "the Commissioner or the Secretary".

(9) Section 1110 of such Act is amended—

(A) by striking out "Secretary" each place it appears and inserting in lieu thereof "Commissioner";

(B) by striking out "he", "his", and "him" each place they appear and inserting in lieu thereof "the Commissioner", "the Commissioner's", and "the Commissioner", respectively; and

(C) by striking out "or makes them himself", in subsection (b)(1), and inserting in lieu thereof "or the Commissioner makes them".

(10)(A) Subsections (a), (b), and (i) of section 1122 of such Act are each amended by inserting "Commissioner and the" before "Secretary" each place it appears.

(B) Subsections (c), (d), (e), and (f) of such section are each amended—

(i) by striking out "the Secretary" each place it appears and inserting in lieu thereof "the Commissioner or the Secretary (as the case may be)"; and

(ii) by striking out "titles XVIII and XIX" each place it appears and inserting in lieu thereof "title XVIII or title XIX (as the case may be)".

(C) Subsection (j) of such section is amended by striking out "the Secretary"

and inserting in lieu thereof "the Commissioner".

(11) Section 1123 of such Act is amended by striking out "Secretary" and inserting in lieu thereof "Commissioner".

(12)(A) Section 1124(a)(1) of such Act is amended—

(i) by inserting "(or, with respect to programs established under title XVIII, the Commissioner)" after "the Secretary";

(ii) by inserting "the Commissioner," after "the Secretary" the first and second places it appears; and

(iii) by striking out "Secretary in" and inserting in lieu thereof "Secretary or the Commissioner, as the case may be, in".

(B) Section 1124(b) of such Act is amended by inserting "or the Commissioner, as the case may be" after "Secretary".

(13) Section 1126 of such Act is amended—

(A) by inserting "the Commissioner," after "Secretary" each place it appears;

(B) by striking out "in the Department of Health, Education, and Welfare" and inserting in lieu thereof "in the Department of Health and Human Services, or the Inspector General in the Social Security Agency, as the case may be,"; and

(C) by striking out "notify the" and inserting in lieu thereof "notify such".

(14) Section 1127 of such Act is amended by striking out "Secretary" and inserting in lieu thereof "Commissioner".

(15)(A) Subsections (a) and (b) of section 1128 of such Act are each amended—

(i) by inserting "(or, with respect to title XVIII, the Commissioner)" after "Whenever the Secretary";

(ii) by striking out "the Secretary";

(iii) by inserting "the Commissioner" after "(1)";

(iv) by inserting "the Secretary or the Commissioner (as the case may be)" after "(2)(A)";

(v) by inserting "the Secretary" before "may" in paragraph (2)(A);

(vi) by inserting "the Secretary" after "(B)"; and

(vii) in paragraph (3) of subsection (a) only, by inserting "the Secretary or the Commissioner (as the case may be)" after "(3)".

(B) Subsection (c) of such section is amended by inserting "or the Commissioner, as the case may be," after "Secretary" each place it appears.

(C) Subsection (d) of such section is amended—

(i) by inserting "or the Commissioners, as the case may be," after "Secretary" each place it appears; and

(ii) by striking out "Secretary's final decision" and inserting in lieu thereof "the final decision of the Secretary or the Commissioner, as the case may be,".

(16)(A) Subsection (a) of section 1128A of such Act is amended—

(i) in paragraph (1) by inserting "(or, with respect to claims under title XVIII, the Commissioner)" after "that the Secretary";

(ii) in paragraph (1)(B) by inserting "or the Commissioner" after "Secretary" the first place it appears; and

(iii) in paragraph (1)(B) by striking out "Secretary" the second and third places it appears and inserting in lieu thereof "Commissioner".

(B) Subsections (b) and (c) of such section are each amended by inserting "(or, with respect to claims under title XVIII, the Commissioner)" after "Secretary" each place it appears.

(C) Subsection (d) of such section is amended—

(i) by inserting "or the Commissioner" after "Secretary" each place it appears, and  
(ii) by inserting "or the Commissioner's" after "Secretary's".

(D) Subsection (e) of such section is amended—

(i) by inserting "or the Commissioner (as the case may be)" after "the Secretary" the first place it appears, and

(ii) by inserting "or the Commissioner" after "Secretary" the second and third places it appears.

(E) Subsection (f) of such section is amended by inserting "or the Commissioner" after "Secretary" each place it appears.

(F) Subsection (g) of such section is amended by inserting "or the Commissioner's" after "Secretary's".

(17)(A) Section 1129 of such Act is amended by inserting "(in consultation with the Social Security Administration)" after "Secretary" in the second sentence of subsection (a) and in subsection (b)(1).

(B) Section 1129(b)(2) of such Act is amended by striking out "title XVIII or XIX" and inserting in lieu thereof "title XIX and the Commissioner may waive such requirements of title XVIII".

(18)(A) Section 1131 of such Act is amended by striking out "Secretary" each place it appears and inserting in lieu thereof "Commissioner".

(B)(i) Subsections (d) and (f) of section 6057 of the Internal Revenue Code of 1954 are each amended by striking out "Secretary of Health, Education, and Welfare" and inserting in lieu thereof "Commissioner of Social Security".

(ii) The caption of section 6057(d) of such Code is amended by striking out "Secretary of Health, Education, and Welfare" and inserting in lieu thereof "Commissioner of Social Security".

(f) Section 1817(b) of such Act is amended—

(i) by striking out "shall be composed of" and all that follows through "ex officio" and inserting in lieu thereof "shall be composed of the Chairperson of the Social Security Board and the Secretary of the Treasury, ex officio";

(2) by striking out "Administrator of the Health Care Financing Administration" and inserting in lieu thereof "Commissioner of Social Security"; and

(3) by striking out "Chief Actuarial Officer of the Health Care Financing Administration" and inserting in lieu thereof "Chief Actuary of the Social Security Agency".

(g) Section 1841(b) of such Act is amended—

(1) by striking out "shall be composed of" and all that follows through "ex officio" and inserting in lieu thereof "shall be composed of the Chairperson of the Social Security Board and the Secretary of the Treasury, ex officio";

(2) by striking out "Administrator of the Health Care Financing Administration" and inserting in lieu thereof "Commissioner of Social Security"; and

(3) by striking out "Chief Actuarial Officer of the Health Care Financing Administration" and inserting in lieu thereof "Chief Actuary of the Social Security Agency".

(h) The Inspector General Act of 1978 is amended—

(1) in section 2(1), by striking out "and the Veterans' Administration" and inserting in lieu thereof "the Veterans' Administration, and the Social Security Agency";

(2) in section 9(a)(1), by striking out "and" at the end of subparagraph (M), and by adding at the end thereof the following new subparagraph:

"(O) of the Social Security Agency, to the extent provided in the Social Security Administrative Reorganization Act, the functions of the Inspector General of the Department of Health and Human Services relating to the administration of the old-age, survivors, and disability insurance program under title II of the Social Security Act, the supplemental security income program under title XVI of such Act, and the medicare program under title XVIII of such Act; and";

(3) in section 11(1), by striking out "or" after "Transportation" and inserting in lieu thereof a comma, and by inserting after "Affairs," the following: "or the Commissioner of Social Security of the Social Security Agency."; and

(4) in section 11(2), by striking out "or" after "Transportation", and by inserting after "Veterans' Administration," the following: "or the Social Security Agency,".

(i)(1) Whenever any reference is made in any provision of law (other than this Act or a provision of law amended by this Act), regulation, rule, record, or document to the Department of Health and Human Services with respect to such Department's functions under the old-age, survivors, and disability insurance program under title II of the Social Security Act, the supplemental security income program under title XVI of such Act, or the medicare program under title XVIII of such Act, such reference shall be considered a reference to the Social Security Agency.

(2) Whenever any reference is made in any provision of law (other than this Act or a provision of law amended by this Act), regulation, rule, record, or document to the Secretary of Health and Human Services with respect to such Secretary's functions under such programs, such reference shall be considered a reference to—

(A) the Social Security Board, with respect to functions described in section 701 of the Social Security Act (as amended by this Act), and

(B) the Commissioner of Social Security, with respect to functions described in section 702 of the Social Security Act (as amended by this Act).

(3) Whenever any reference is made in any provision of law (other than this Act or a provision of law amended by this Act), regulation, rule, record, or document to any other officer or employee of the Department of Health and Human Services with respect to such officer or employee's functions under such programs, such reference shall be considered a reference to the appropriate officer or employee of the Social Security Agency.

#### REPORTS ASSESSING ORGANIZATIONAL CHANGES

SEC. 8. (a) Five years after the date of the enactment of this Act, the Social Security Board, the Comptroller General of the United States, and the Secretary of Health and Human Services shall each submit to each House of the Congress a report setting forth in detail an assessment of the organizational changes made by this Act and the amendments made by this Act.

(b) Not later than one year after the date of the enactment of this Act, the Social Security Board, the Comptroller General of the United States, and the Secretary of Health and Human Services shall submit to each House of the Congress their recommendations for further technical and conforming amendments necessary to effectively and efficiently carry out the purposes of this Act.

#### EFFECTIVE DATE AND INTERIM RULES

Sec. 9. (a)(1) Sections 2, 3, 4, 5, and 7 of this Act shall take effect one year after date of enactment of this Act.

(2) Notwithstanding the effective date set forth in paragraph (1), effective on the date of the enactment of this Act—

(A) the initial members of the Social Security Board may be appointed before such effective date, after the date of the enactment of this Act, and the Commissioner of Social Security, the Inspector General, the Chief Actuary, the Director of Policy Analysis and Legislation, and the General Counsel of the Social Security Agency may be appointed by such Board at any time after such initial members of the Social Security Board have been appointed.

(B) the persons appointed under subparagraph (A) shall be compensated from the date they first take office, at the rates provided for in the amendments to title 5, United States Code, made by sections 2(b) and 3(b) of this Act.

(C) such compensation and related expenses of such persons shall be paid from funds available in the Department of Health and Human Services for the functions vested in the Social Security Agency by this Act and the amendments made thereby, and

(D) the Social Security Board and the Commissioner of Social Security may each utilize, as appropriate, the services of such officers, employees, and other personnel of the Department of Health and Human Services, and funds appropriated to the functions of such Department to be transferred by this Act and the amendments made thereby, for such period of time as may reasonably be needed to facilitate the orderly implementation of this Act.

(b) The amendment made by section 6 of this Act shall apply with respect to fiscal years beginning one year after the date of enactment of this Act.

By Mr. MOYNIHAN (for himself and Mr. HEINZ):

S. 35. A bill to charter the National Academy of Social Insurance.

#### NATIONAL ACADEMY OF SOCIAL INSURANCE

Mr. MOYNIHAN. Mr. President, on this 1st day of the 100th Congress, I rise to introduce a bill to grant a Federal charter to the National Academy of Social Insurance. I introduced identical legislation in the 99th Congress, but in the final rush of legislative action before the last Congress adjourned, we were unable to consider this worthy initiative.

The academy was established in May 1986 by a distinguished group of individuals from business, labor, Government, and the academic community. Although their professional backgrounds are diverse, each has achieved distinction in the field of social insurance. I am honored to serve as a member of the academy's organizing committee, together with my colleague, and the cosponsor of this bill, Senator HEINZ.

Mr. President, the Social Security Act of 1935 is perhaps the greatest piece of domestic legislation of this century. The original act and its subsequent amendments—including survi-

vors, disability, and health insurance— affect nearly every American family.

In 1986, our Social Security System will pay nearly \$200 billion in benefits to an average of 37 million retired and disabled individuals, their spouses and children, and to survivors of deceased workers. Annual payroll tax contributions of some \$210 billion will be collected this year from about 125 million workers and 6 million employers. Together, the Old Age, Survivors, Disability, and Health Insurance [OASDHI] programs account for approximately 48 percent of all domestic expenditures made by the Federal Government.

The Social Security Act, Mr. President, represents a deliberate Federal policy to strengthen American families. In the not-so-distant past, the family that lost a breadwinner through death, disability, or advanced age was left to fend for itself. The very fortunate might manage on their own savings or with the help of relatives and friends. Charitable contributions and locally funded public assistance, if available, might help. But when these alternatives failed—as they too often did—families broke down and frequently broke up.

It was to these problems that the Social Security Act addressed itself. In the original act and in succeeding amendments, Congress sought to help insulate family members from the disruption caused by the loss of a worker's earned income. This objective is laudable. It deserves great effort. Our social insurance programs make that effort, Mr. President, and they succeed. How else can we explain the unprecedented public and bipartisan political support enjoyed by a system that raises Federal revenues in sums second only to those raised by the income tax?

But neither problems nor solutions remain static. Today, our social insurance programs operate in an environment vastly changed from that of 50 years ago: changes in our economy and labor market, changes in our expectations concerning women and work, and perhaps most dramatic, changes in the demography of our population. The "aging" of America has been much discussed, but less well understood is the fact that, some 14 years ago, the American birthrate dropped below the reproduction level. Well below. It does not take any great insight to realize that this phenomenon has profound implications for the aged. In a word: Who will provide for them? Clearly, all of these changes pose new and serious challenges to our Social Security System.

That is why, Mr. President, the National Academy of Social Insurance is long overdue. Until now, there has been no organization of scholars and experts to plan and carry out a long-term education and research agenda,

to promote an exchange of ideas, or to develop informed policy proposals.

If we are to assure the future health of the Social Security System, we ought to bring together experts from diverse disciplines. We ought to provide a forum for unfettered and bipartisan debate. We ought to provide clear, objective information to the millions of Americans who contribute toward and benefit from our social insurance programs.

Finally, Mr. President, we have a group of distinguished individuals intending to do all these things. I ask my colleagues to join with me and Senator HEINZ in formally recognizing and granting a charter to the National Academy of Social Insurance. In doing so, we encourage serious and ongoing study of the maturation and evolution of our Social Security System, we increase the availability of essential information to the public, and we signal congressional resolve to continue our social insurance programs, on a sound basis, into the 21st century and beyond.

Mr. President, I hope that the Senate will act early in the 100th Congress to grant a charter to the National Academy of Social Insurance. I ask unanimous consent that a copy of the bill and a list of the academy's organizing committee members be printed in the CONGRESSIONAL RECORD at this point.

#### NATIONAL ACADEMY OF SOCIAL INSURANCE MEMBERS OF ORGANIZING COMMITTEE

Robert M. Ball; Henry Aaron; William Arnove; Merton C. Bernstein; Lisle Carter, Jr.; Wilbur J. Cohen; John Heinz; Erwin Hytner; Eric Kingdon; Lane Kirkland; Nancy Altman Lupu; Theodore Marmor; Daniel Patrick Moynihan; Alicia H. Munnell; Robert J. Myers; Bert Seidman; Lawrence H. Thompson; Alexander B. Trowbridge; Elizabeth Wickenden; Howard Young.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 35

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. CHARTER.

The National Academy of Social Insurance, organized and incorporated under the laws of the District of Columbia, is hereby recognized as such and is granted a charter.

#### SEC. 2. POWERS.

The National Academy of Social Insurance (in this Act referred to as the "Academy") shall have only those powers granted to it through its bylaws and articles of incorporation filed in the State or States in which it is incorporated and subject to the laws of such State or States.

#### SEC. 3. OBJECTS AND PURPOSES OF CORPORATION.

The objects and purposes for which the Academy is organized shall be those provided in its articles of incorporation and shall include—

(1) promoting an informed and nonpartisan study of, and education with respect to, social insurance,

(2) bringing together experts with diverse backgrounds to consider social insurance issues in an interdisciplinary way,

(3) assisting in the development of social insurance scholars and administrators,

(4) encouraging research and studies on topics of relevance to social insurance, and

(5) sponsoring seminars and other public meetings.

#### SEC. 4. SERVICE OF PROCESS.

With respect to service of process, the Academy shall comply with the laws of the State or States in which it is incorporated and the State or States in which it carries on its activities in furtherance of its corporate purposes.

#### SEC. 5. MEMBERSHIP.

Eligibility for membership in the Academy and the rights and privileges of members shall be as provided in the bylaws of the corporation.

#### SEC. 6. BOARD OF DIRECTORS; COMPOSITION; RESPONSIBILITIES.

The board of directors of the Academy and the responsibilities thereof shall be as provided in the articles of incorporation of the Academy and in conformity with the laws of the State or States in which it is incorporated.

#### SEC. 7. OFFICERS OF CORPORATION.

The officers of the Academy, and the election of such officers, shall be as is provided in the articles of incorporation of the Academy and in conformity with the laws of the State or States wherein it is incorporated.

#### SEC. 8. RESTRICTIONS.

(a) No part of the income or assets of the corporation shall inure to any member, officer, or director of the Academy or be distributed to any such person during the life of this charter. Nothing in this subsection shall be construed to prevent the payment of reasonable compensation to the officers and members of the Academy or reimbursement for actual necessary expenses in amounts approved by the board of directors.

(b) The Academy shall not make any loan to any officer, director, or employee of the corporation.

(c) The Academy and any officer and director of the corporation, acting as such officer or director, shall not contribute to, support, or otherwise participate in any political activity or in any manner attempt to influence legislation.

(d) The Academy shall have no power to issue any shares of stock nor to declare or pay any dividends.

(e) The Academy shall not claim congressional approval or Federal Government authority for any of its activities, other than by mutual agreement.

(f) The Academy shall retain and maintain its status as a corporation organized and incorporated under the laws of the District of Columbia.

#### SEC. 9. LIABILITY.

The Academy shall be liable for the acts of its officers and agents when acting within the scope of their authority.

#### SEC. 10. BOOKS AND RECORDS; INSPECTION.

The Academy shall keep correct and complete books and records of account and shall keep minutes of any proceeding of the Academy involving any of its members, the board of directors, or any committee having authority under the board of directors. The Academy shall keep at its principal office a record of the names and addresses of all members having the right of vote. All books and records of such corporation may be inspected by any member having the right to

vote, or by any agent or attorney of such member, for any proper purpose, at any reasonable time. Nothing in this section shall be construed to contravene any applicable State law.

#### SEC. 11. AUDIT OF FINANCIAL TRANSACTIONS.

The first section of the Act entitled "An Act to provide for audit of accounts of private corporations established under Federal laws", approved August 30, 1964 (36 U.S.C. 1101), is amended by adding at the end thereof the following:

"(71) National Academy of Social Insurance."

#### SEC. 12. ANNUAL REPORT.

The Academy shall report annually to the Congress concerning the activities of the corporation during the preceding fiscal year. Such annual report shall be submitted at the same time as is the report of the audit required by section 11 of this Act. The report shall not be printed as a public document.

#### SEC. 13. RESERVATION OF RIGHT TO AMEND OR REPEAL CHARTER.

The right to alter, amend, or repeal this Act is expressly reserved to the Congress.

#### SEC. 14. DEFINITION OF "STATE".

For purposes of this Act, the term "State" includes the District of Columbia, the Commonwealth of Puerto Rico, and the territories and possessions of the United States.

#### SEC. 15. TAX-EXEMPT STATUS.

The corporation shall maintain its status as an organization exempt from taxation as provided in the Internal Revenue Code. If the corporation fails to maintain such status, the charter granted hereby shall expire.

#### SEC. 16. TERMINATION.

If the corporation shall fail to comply with any of the restrictions or provisions of this Act the charter granted hereby shall expire.

By Mr. MOYNIHAN:

S. 36. A bill to amend the Food Stamp Act of 1977 with respect to third party payments for certain temporary housing; to the Committee on Agriculture, Nutrition, and Forestry.

#### THIRD PARTY PAYMENTS FOR CERTAIN TEMPORARY HOUSING

● Mr. MOYNIHAN. Mr. President, I rise today to right a wrong: Poor children and their families who are housed on an emergency basis in welfare hotels, because they cannot find permanent affordable housing, are suffering severe reductions in their food stamp benefits. In many instances, food stamp benefits have been slashed by more than half. For example, in New York City, a mother with two children living in a welfare hotel has seen her food stamp allotment drop from \$122 per month to only \$49 per month.

Poor children, Mr. President, are going hungry because of the Department of Agriculture's [USDA] interpretation of a provision in the Food Security Act of 1985 (Public Law 99-198). That provision (section 5(k)(2)) requires that third-party vendor payments made for household living expenses under the Aid to Families With Dependent Children [AFDC] Program be counted as income available to the

household for purposes of calculating food stamp benefits. An exception is allowed, however, when such payments are for emergency assistance.

One might think that local government vendor payments to welfare-hotel landlords—payments made for emergency shelter on behalf of homeless AFDC households—would be excluded by USDA for purposes of food stamp benefit calculations under the statutory exception for emergency assistance. For reasons that mystify me, Mr. President, the Department does not view such vendor payments for temporary housing for homeless families with children as emergency assistance.

Consequently, when a State or local government is obliged to shelter homeless families with children in welfare hotels, and pays the rental fee to the hotel landlords on behalf of these families, USDA requires that the portion of the monthly rent equal to the State's AFDC shelter allowance be counted as income available to the household for food stamp purposes. That is why, Mr. President, poor children living in households who have lost their homes and who have the misfortune of being temporarily warehoused in so-called welfare hotels have now also lost over half of the nutrition assistance they were receiving under the Food Stamp Program.

I suggest that this was not congressional intent, Mr. President. When we passed the Food Security Act of 1985, we did not suspect that poor children would be deprived of food because they were also deprived of decent, affordable, permanent housing. These poor families with children do not choose to be homeless and they certainly do not choose to live in welfare hotels. They are there only because the Reagan administration has succeeded in getting the Federal Government out of the business of providing low-cost housing and local governments cannot find anyplace else for these families to go.

In fiscal year 1981, Federal budget authority for low-income subsidized housing was \$30 billion. By fiscal year 1987, budget authority had plummeted to only \$8 billion. That represents a 73-percent reduction before adjusting for inflation. Does anyone still wonder why we have thousands of homeless families?

I am introducing separate legislation to address, at least in part, the crisis of homelessness we now face in this Nation. However, as we fight that battle on other fronts, we must not permit the families now housed in welfare hotels to go hungry.

The bill I am introducing today would merely make clear that housing assistance payments made on behalf of poor families being sheltered in temporary housing, such as hotels, could not be used to reduce food

stamp benefits if the temporary housing provided the families lacks facilities for preparing and cooking hot meals and refrigerating stored food.

After all, the hotel rooms usually available to homeless families are not designed for food storage, meal preparation, and the cooking of hot meals. I hasten to add that I do not consider warming hot dogs under tap water or using a hot plate balanced on a radiator or toilet seat to be cooking.

Clearly, Mr. President, the plight of poor families sheltered in welfare hotels is not analogous to poor families who are living in their own apartments. Both may suffer serious hardships, but those families being temporarily housed in welfare hotels face additional problems. For example, when a family with children is living in a welfare hotel room, it has no stove, no sink outside of the bathroom, no space for food preparation. There may not be sufficient refrigerated storage, assuming refrigerators are available at all. By contrast, most poor households living in apartments do have some kitchen space and basic appliances in their dwellings.

Moreover, many urban welfare families do not have cars with which to drive to major shopping areas. But at least apartment-dwelling families living in residential areas are somewhat more likely to be near a supermarket. Most welfare families living in hotels find themselves located in commercial, rather than residential areas. They are unable to take advantage of the economies of sales offered by larger grocery stores. Instead, these welfare-hotel families depend on small "mom and pop" convenience stores located in the vicinity of their downtown hotels. Such stores usually charge higher prices to meet their overhead and to compensate for low-volume sales. That means that welfare families forced by circumstances to shop in such stores need more assistance with purchasing food, not less.

Although the phenomenon of homeless families with children is not unique to New York City, perhaps nowhere is the shortage of decent low-income housing more acute. As a result, according to State and local officials, there are currently 4,192 families in New York City living in welfare hotels and each of these families has lost, on average, \$77 per month in food stamp benefits. Another 870 families in upstate New York are losing an estimated \$65 per month in food stamp benefits. Statewide, poor families living in welfare hotel are losing some \$5.3 million per year in food stamp benefits as a direct result of USDA's interpretation of the current statute.

Let us not forget, Mr. President, who suffers these reductions in nutrition assistance. State officials estimate that over 12,000 children and 200 preg-

nant women are adversely affected by these cuts. Although State officials are trying to make up the loss, they cannot completely do so. This is due, in part, to the fact that whenever the State increases its supplementary restaurant allowance to such households, USDA counts these special funds as new household income and further reduces the families' food stamp benefits. Such a catch 22 would almost be amusing if people were not going hungry because of it.

We cannot permit this to continue. I urge my colleagues to join with me in correcting the ambiguity in current law that has pawned this situation. Housing assistance payments, made on behalf of homeless families temporarily sheltered in rooms that do not allow for the preparation and cooking of hot meals and the refrigerated storage of perishable foods, should not be counted as income for purposes of calculating food stamp benefits. My bill will make this clear.

Mr. President, I ask unanimous consent that the text of the bill be printed in the *RECORD* at this point.

There being no objection, the bill was ordered to be printed in the *RECORD*, as follows:

#### S. 36

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. THIRD PARTY PAYMENTS FOR CERTAIN HOUSING.

Section 5(k)(2) of the Food Stamp Act of 1977 (7 U.S.C. 2014(k)(2)) is amended—

(1) in subparagraph (D) by striking out "or" at the end thereof.

(2) by redesignating subparagraph (E) as subparagraph (F), and,

(3) by inserting after subparagraph (D) the following new subparagraph:

"(E) housing assistance payments made on behalf of a household which is residing in temporary housing as defined by the state agency administering the assistance program, if such temporary housing lacks facilities for the preparation and cooking of hot meals and the refrigerated storage of food for home consumption; or".

#### SECTION 2. APPLICATION OF AMENDMENTS.

The amendments made by section 1 shall not apply with respect to allotments issued under the Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.) to any household for any month beginning before the effective date of this Act.

#### SECTION 3. EFFECTIVE DATE.

The amendments made by this Act shall become effective 30 days after enactment.●

By Mr. MOYNIHAN:

S. 37. A bill to amend part A of title IV of the Social Security Act to reduce the need for emergency assistance payments to provide temporary housing for destitute families and homeless AFDC families, and the expense of such payments, by authorizing grants to States for the construction or rehabilitation of permanent housing that such families can afford with their

regular AFDC payments; to the Committee on Finance.

#### PERMANENT HOUSING FOR HOMELESS FAMILIES ACT

Mr. MOYNIHAN. Mr. President, why does the city of New York pay \$37,000 a year to house a homeless family in a "welfare hotel?" Many Americans, I am sure, recall this question posed by President Reagan during a press conference last fall. The President then went on to wonder aloud, "Why doesn't somebody build them a house for \$37,000?"

Unfortunately, neither the President, nor many of his advisers, nor many Americans in general, know the answer. It is very simple. "Somebody" can't use Federal funds to build permanent homes for the homeless because current law prohibits it.

Astonishingly, the city of New York has spent up to \$37,000 annually on temporary housing for homeless families, this amount representing the upper end on a scale of exorbitant and wasteful costs, and not an average cost per family. Such temporary housing generally consists of a small living area in one of some 61 private "welfare hotels" scattered about the city. The hotels are more often than not located in neighborhoods unfit for the many young children who live there; indeed, many of these exorbitant hotels can best be imagined as filthy, crime- and drug-infested tenements. Certainly, it would be both more cost effective and more humane to house these families in permanent residences. But, under current law, funds received under the emergency assistance section of the Federal Welfare Program may only be used to provide temporary shelter for the homeless.

Given the urgent need for safe, affordable housing for homeless families in every major city in this Nation, I think that's shameful. Therefore, today I wish to offer legislation, the Permanent Housing for Homeless Families Act, which will allow States and cities to spend the housing portion of their emergency assistance funds on up-front grants for the construction of permanent housing for the homeless. In addition, as the Emergency Assistance Program is operated on an entitlement basis, States may also continue to receive funds under the program to house their homeless families in shelters and hotels, while the construction of permanent facilities is underway. While far from an ideal solution, such temporary housing will need to be maintained for poor families with no alternative.

Instead of continuing to subsidize hotel landlords, the Federal Government may begin to work compassionately and cost effectively for a lasting solution to the tragedy of homelessness.

This legislation is also being introduced in the House by my colleague from New York, Representative CHARLES SCHUMER. It is similar to legislation he and I offered during the last Congress, S. 2879 and H.R. 5080 respectively.

Our bill will amend title IV—aid to families with dependent children—of the Social Security Act, to allow Federal matching funds under the existing Emergency Assistance Program to be used for the construction or renovation of permanent homes for poor families with children. Federal funds will only be made available, on an entitlement basis, to States and local governments meeting specified requirements.

Among these requirements, all units constructed or rehabilitated must be rented to an AFDC-eligible family that has been unable to obtain affordable housing, and would otherwise be left without shelter; before receiving funds the city and State would have to demonstrate that the permanent housing will reduce their total AFDC costs for the homeless over a 5-year period.

The Permanent Housing for Homeless Families Act is designed to ensure that the Federal Government actually saves money under the Emergency Assistance Programs after 5 years. And, as the burden for housing America's homeless cannot fall on the shoulders of Washington alone, this legislation requires participating State and local communities to contribute substantial resources of their own to any federally assisted construction. In brief, the State and local government's combined share of costs under this program must be 10 percentage points higher than their current share of AFDC payments. In the case of New York, then, the city and State would be required to contribute 60 percent, to the Federal Government's 40 percent of the cost.

As each of us knows all too well, our resources today are much too scarce to be squandered on short-term remedies to deep-seated problems. Whether \$37,000 or not, the current use of funds under the Emergency Assistance Programs amounts to nothing more than that: a "quick fix" to the enormous problem of homelessness in our Nation's cities, a fix which helps put a roof over the heads of thousands of needy families, but offers nothing in the way of lasting solutions.

I believe this legislation offers a device through which the Federal, State, and local governments, with the indispensable assistance of the private sector, can begin to meet the long-term needs of America's homeless families and children. I urge my colleagues' support of this initiative early in the 100th Congress.

Mr. President, I ask unanimous consent that the text of this legislation be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 37

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Permanent Housing for Homeless Families Act."*

#### AUTHORIZATION OF GRANTS

SECTION 1. Part A of title IV of the Social Security Act is amended by adding at the end thereof the following new section:

"AUTHORIZATION OF GRANTS TO PROVIDE PERMANENT HOUSING FOR FAMILIES THAT OTHERWISE WOULD REQUIRE EMERGENCY ASSISTANCE

"SEC. 416. (a) The Secretary may make a grant to any State for the construction or rehabilitation of permanent housing to serve individuals and families who would otherwise require emergency assistance in the form of temporary housing, if the State makes application for such a grant in the manner and form prescribed by the Secretary, furnishes the assurances required by subsection (b), and satisfies such other terms and conditions as the Secretary may prescribe to assure that the purposes of this section are effectively carried out.

"(b) A grant may be made to a State under subsection (a) only if such State (along with or as a part of its application) furnishes the Secretary with satisfactory assurances that—

"(1) the proceeds of the grant will be used exclusively for the construction or rehabilitation of permanent housing to be owned by the State, a political subdivision of the State, an agency or instrumentality of the State or of a political subdivision of the State, or a nonprofit organization;

"(2) all units assisted with funds from the proceeds of the grant will be used exclusively for rental to families which are eligible (at the time of the rental) for aid under the State's plan approved under section 402, provided that a family with some members who meet this requirement shall not be deemed ineligible because one or more other family members receive aid under title XVI of the Social Security Act—

"(B) have been unable to obtain decent housing at rents that can be paid with the portion of such aid allocated for shelter, and

"(C) if such housing were not available to them, would be compelled to live in a shelter for the homeless or in a hotel, motel, or other temporary accommodations paid for with emergency assistance or would be homeless;

"(3) at least 40 percent of the units in any housing project containing units assisted under this section will be rented to families described in paragraph (2);

"(4) the local jurisdiction in which such housing will be located is experiencing a critical shortage of housing units that are available to families eligible for aid under the State plan at rents that can be paid with the portion of such aid allocated for shelter;

"(5) whenever units assisted under this section become available for occupancy, the State will discontinue the use of an equivalent number of units of the most costly accommodations it has been using as temporary housing paid for with emergency assist-

ance, except to the extent that such accommodations are demonstrably needed—

(i) in addition to the units so assisted, to take account of increases in the caseload under that program; or

(ii) because, due to the condition or location of such accommodations, or other factors, discontinuing the use of such units would not be in the best interests of needy families, provided that the State discontinues the use of an equivalent number of other units it has been using as temporary housing paid for with emergency assistance; and only if the State, along with or as a part of its application, includes provisions (to be added to the State plan) for carrying out the requirements of paragraph (5).

"(c)(1) GRANT AMOUNT.—The average cost to the Federal Government per unit of housing constructed or rehabilitated with a grant under this section shall be an amount no greater than the standard yearly payment of emergency assistance required to provide housing for a family in a shelter for the homeless, a hotel or motel, or other temporary quarters for one year, as such standard is defined in subsection (d).

"(2) FIVE-YEAR COST SAVINGS REQUIREMENT.—The total of Federal payments to the State under this part over five years with respect to families who will live in housing assisted by a grant provided under this section must be lower as a result of the construction or rehabilitation of permanent housing with the grant (the "total grant cost" as calculated according to the definition in subsection (d)) than it would be if the State made emergency assistance payments at the level of the standard yearly payment during such five years period. The Secretary may extend this five year period for calculating cost savings to any period of no more than seven years if he determines that unusual circumstances have delayed completion of housing to be constructed or rehabilitated pursuant to this section and that it would be inequitable to measure costs savings over a five year period.

"(3) MINIMUM STATE SHARE.—Any grant to a State under subsection (a) shall be made only on condition that such State (and the local jurisdiction in which the housing is to be located) pay a percentage of the total cost of the construction or rehabilitation of such housing equal at least to the percentage of the current non-Federal share of aid to families with dependent children under the State plan which is applicable to that State (as determined under section 403(a) or 1118), increased by 10 percentage points, and that such State not require its political subdivisions to pay a higher percentage of the total costs of the construction or rehabilitation of such housing than these political subdivisions pay for aid given pursuant to the State plan approved under section 402.

"(d) DEFINITIONS.—For the purposes of this section—

"(1) the term 'emergency assistance' means emergency assistance to needy families with children as described in section 403(e) or regular payments for costs of temporary housing authorized as special items under the State plan;

"(2) the term 'standard yearly payment' means the total amount paid to provide housing for a family in a shelter for the homeless, a hotel or motel, or other temporary quarters for one year which is greater than 75 percent of all of the temporary accommodations paid for with emergency assistance, and less than 25 percent of which of such accommodations paid for with emer-

gency assistance in the jurisdiction in which a grant provided under this section is to be used (i.e., the 75th percentile in the range of all payments of emergency assistance for temporary accommodations). Such amount shall be based on the State's actual experience with emergency assistance in that jurisdiction or, if no such experience is available, on the basis of the best available information acceptable to the Secretary, including, but not limited to, local hotel costs, and the costs of emergency assistance in cities with similar characteristics);

"(3) the term 'total grant cost' means the sum of Federal payments during the five-year period beginning on the date that construction or rehabilitation on housing assisted by a proposed grant under this section will begin, including the grant provided under this section, the Federal share of payments of emergency assistance for temporary housing during construction or rehabilitation (at a level equal to the standard yearly payment), and the Federal share of regular payments of aid under the State plan to such families during the remainder of such five-year period (or any longer period established by the Secretary pursuant to subsection (c), subparagraph 2 of this section).

"(e) Whenever a grant is made to a State under this section, the assurances required of the state under paragraphs (1) through (5) of subsection (b) and any other requirements imposed by the Secretary as a condition of such grant shall be considered, for purposes of section 404, as requirements imposed by or in the administration of the State's plan under section 402."

#### EFFECTIVE DATE

SEC. 2. The amendment made by section 1 shall become effective upon enactment.

By Mr. MOYNIHAN:

S. 38. A bill to increase the authorization of appropriation for the Magnet School Program for fiscal year 1987 to meet the growing needs of existing magnet school programs, and for the establishment of new magnet school programs; to the Committee on Labor and Human Resources.

#### MAGNET SCHOOL PROGRAMS

● Mr. MOYNIHAN. Mr. President, I rise today to introduce the Magnet School Expansion Act. This bill would add \$75 million to existing levels for magnet school programs, currently funded at \$75 million, to support existing and new magnet school programs across the country. Magnet schools are schools which seek to attract a desegregated student body by offering a specialized and focused academic program. The concept of the magnet school has gained recognition as one of the most successful means of achieving desegregation in our Nation's school system.

As my colleagues know, the mandate to desegregate public schools is a Federal one, imposed on school systems by the Supreme Court in its decision in Brown versus Board of Education. Although the local control of education is a well-established principle in this Nation, the Federal Government has assumed the responsibility of enforc-

ing this decision since it was handed down some 30 years ago.

We have tried many ways of accomplishing this goal: Both involuntary and voluntary with the latter certainly preferred in most cases. Magnet schools are almost universally recognized as an effective tool for desegregation. In cities where busing has drawn responses ranging from civil disobedience to violence, the creation of magnet schools has helped to bring about a level of integration and community support that was unthinkable 10 years previous.

Magnet schools are intended to attract students on a voluntary basis; thus, school boards shape the academic program to suit the needs of their local community in order to attract students of all races and backgrounds. By providing Federal assistance for such programs, as has been done since 1971, we are in fact trying to meet our constitutional obligation to end desegregation in our schools.

However, it appears that our current administration is less than fully committed to meeting this obligation. Since taking office, Ronald Reagan has succeeded in drastically reducing funding for desegregation programs in our public schools. In 1982, funding for magnet schools was reduced by \$124 million after being incorporated into a single block grant under chapter 2 of the Education Consolidation and Improvement Act of 1981. All of this while the President's representative in the Department of Justice argued in Federal court for the use of "voluntary incentives" rather than the use of mandatory busing. The irony of the administration's actions is inescapable—it is simply not possible to encourage voluntary desegregation without sufficient funds.

In response to the administration's actions, in 1982 and in 1983, I introduced the Emergency Aid Act to reestablish the program of special assistance for school desegregation activities which had existed prior to the Reagan administration. Later, in 1983, Senator Eagleton joined me in introducing a modified version of my earlier bill which would have provided \$125 million annually to school districts implementing court ordered or voluntary school desegregation plans. Eventually, with the aid of Senators HATCH and STAFFORD, we succeeded in establishing a separate Magnet Schools Assistance Program under the Education for Economic Security Act, authorized at a level of \$225 million for 3 years, in June 1984.

However, the administration failed to release the \$75 million appropriated for the program for 1985 and asked for a rescission of the funds in the 1986 budget request. After 42 Senators joined me in sending Secretary Bennett a letter demanding the release of the funds, the program finally got un-

derway. However, the delay in the release of funds meant that magnet schools were not able to use their money until the 1985-86 academic year, a full year after the legislation was enacted.

To underscore the need for an increased Federal commitment, I would point out that out of 126 school districts which applied for funding for this program in its first cycle, only 44 could be funded with existing funds. Not only does that leave 82 school districts, and countless individual schools, without means to implement desegregation programs but one must also consider all those districts that did not apply because of the limited funds available. My bill would raise the authorization of funding to \$150 million, to ensure that more school districts can be funded and more students given equal educational opportunities.

I urge my colleagues to support this measure. Let us guarantee that every student will have equal opportunities to the best education possible and will enter adulthood free from discrimination in education based on race. Without Federal assistance for voluntary and court-ordered desegregation, local school districts across the country will, in all probability be unable to meet their obligation to prevent such discrimination. An obligation mandated by the Constitution—the foundation of the laws which each and every one of us has sworn to uphold. I ask unanimous consent that the text of the bill be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 38

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That section 701 of the Education for Economic Security Act, relating to Magnet schools assistance, is amended by striking out "1986, 1987, and 1988" and inserting in lieu thereof the following: "and 1986, 1987, and 1988 and 1989".

By Mr. MOYNIHAN (for himself, Mr. HEINZ, Mr. BOREN, Mr. PRYOR, Mr. MATSUNAGA, and Mr. RIEGLE):

S. 39. A bill to amend the Internal Revenue Code of 1986 to make the exclusion from gross income of amounts paid for employee educational assistance permanent; to the Committee on Finance.

EMPLOYEE EDUCATIONAL ASSISTANCE ACT OF 1987

● Mr. MOYNIHAN. Mr. President, I rise today, along with five of my colleagues on the Senate Finance Committee, to introduce legislation to make permanent section 127 of the Internal Revenue Code, which permits employees to receive limited amounts of employer-provided educational assistance on a tax-free basis.

Since 1978, section 127 has made the benefits of educational advancement more readily available to working Americans. Section 127 permits an employee to exclude from income up to \$5,250 in educational assistance provided by his or her employer, whether or not for education directly related to the employee's current job. Without this exclusion, the employee would owe taxes on an employer's reimbursement for education expenses unless the education maintains or improves skills required for the employee's current job or meets express conditions for holding such position. Thus section 127 is particularly important for employees in lower-skilled jobs that wish to undertake training to increase their skills.

Section 127 is scheduled to expire at the end of 1987, and the legislation that I introduce today would extend that section on a permanent basis.

Providing tax-free treatment of employer-provided educational assistance is a proven means of upgrading the skills of American workers. It is an incentive for enhancing productivity while helping workers to improve their job and career capabilities.

It is estimated that some 7 million American workers have furthered their education with employer-provided, tax-free educational assistance. The benefits of section 127 are used across a broad range of income groups, but the heaviest concentration of use is among middle- and lower-income employees. A recent survey conducted by the American Society for Training and Development found that 72 percent of recipients of section 127 educational assistance earn less than \$30,000 annually. In fact, lower-income employees are more likely to participate in educational assistance programs: Employees earning less than \$30,000 participate at a much greater rate, and participation rates decline as salary levels increase. Employees making less than \$15,000 participate at almost twice the rate of those who earn over \$50,000.

Section 127 has enabled working men and women who otherwise might not be able to afford a better education to further their studies without incurring additional income tax liabilities in the process. Section 127 has also fostered the retraining of American industrial workers whose jobs were threatened by rapidly changing technologies—keeping them employable without the added burden of additional taxes.

According to the American Electronics Association, the United States experienced a shortage of about 20,000 engineers between 1981 and 1985. To counter this troubling trend, almost half of America's largest electronic firms initiated section 127 educational assistance programs to encourage em-

ployees to pursue advanced degrees in electronics.

Mr. President, this opportunity for firms to assist in the training of their employees is of great value to the American economy as a whole. American private enterprise must continue to advance technologically if we are to remain competitive in the international economy.

Section 127 has also enabled thousands of public school teachers to receive advanced degrees, augmenting the quality of instruction in our public schools. A 1984 survey undertaken by the National Education Association found that almost 45 percent of all American public school systems provide tuition assistance to teachers seeking graduate credits and degrees. Enhancing our education system is a public benefit of the highest order.

Mr. President, I ask unanimous consent that the text of the legislation be printed in the *RECORD* at this point.

There being no objection, the bill was ordered to be printed in the *RECORD*, as follows:

S. 39

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Employee Educational Assistance Act of 1987".

#### SEC. 2. EXCLUSION FOR EDUCATIONAL ASSISTANCE PROGRAMS MADE PERMANENT.

(a) IN GENERAL.—Section 127 of the Internal Revenue Code of 1986 (relating to educational assistance programs) is amended by striking out subsection (d).

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to taxable years beginning after December 31, 1986.●

By Mr. MOYNIHAN:

S. 40. A bill to amend section 1 of the Atomic Energy Act of 1954, as amended, to clarify that no nuclear plant should operate without assurance from the Federal Government's experts on emergency preparedness that the public health and safety can and will be protected; to the Committee on Environment and Public Works.

#### INTRODUCTION OF THE ATOMIC SAFETY ACT

● Mr. MOYNIHAN. Mr. President, I rise to offer something that we have not had, and that is much overdue: An Atomic Safety Act.

Congress enacted the Atomic Energy Act in 1954. It was a pioneering statute. It offered the revolutionary idea that there could be peaceful uses for the atom.

Mr. President, section 1 of that act is a declaration. It is not very long, but it says much about what we saw for the future of the atom some three decades ago, and I think it is important that we read it today:

Atomic energy is capable of application for peaceful as well as military purposes. It is therefore declared to be the policy of the United States that—

a. the development, use, and control of atomic energy shall be directed so as to

make the maximum contribution to the general welfare, subject at all times to the paramount objective of making the maximum contribution to the common defense and security; and

b. the development, use, and control of atomic energy shall be directed so as to promote world peace, improve the general welfare, increase the standard of living, and strengthen free competition in private enterprise.

All noble aims, but what about safety? Safety, of its own, is not mentioned in the declaration of the Atomic Energy Act.

That, Mr. President, is why an Atomic Safety Act is so necessary. In the world of 1987, a world that has learned of Three Mile Island and Chernobyl, nuclear safety must be the first thought, not an afterthought. As a priority, it must be second to none.

This bill goes beyond clarifying our intentions; it depends upon that clarity to change the way we assure that citizens who live near our nuclear powerplants are safe. It gives that assurance its proper place and priority.

To our credit, we did not wait for Chernobyl to demand emergency planning for areas outside of our nuclear plants; Three Mile Island was enough. After that vastly more modest disaster, Congress determined that real, substantive emergency plans needed to be in place for nearby communities. Our emergency planning experts in the Federal Emergency Management Agency would test them to assure us that they would work, and the Nuclear Regulatory Commission would be guided by their findings.

But we left a tremendous loophole, big enough for a nuclear powerplant. We left the Nuclear Regulatory Commission the discretion to approve some emergency plans regardless of whether FEMA reached a decision on whether they were adequate. This was a mistake, and we should undo it.

Perhaps the lofty language of the Atomic Energy Act misled us. And perhaps the more pragmatic language of the Atomic Safety Act will be better guidance.

There may be cases—in my State of New York, the Shoreham plant on Long Island is one—where State and local governments will not cooperate in planning for safe operation of a nuclear plant. This bill, the Atomic Safety Act, reminds us of what is most important: Our responsibility to assure that the public safety is protected. This case has brought confusion to what should be clear. Nothing is more important than the public health and welfare.

If the Federal experts on emergency planning can certify that a utility-produced emergency plan assures the public health and safety, so be it. But if they cannot tell, such a plant must not open. Period. No exceptions.

Mr. President, it is possible that there may be a future for nuclear fis-

sion in this country; it is possible, but I am far from sure. The economics of the enterprise seem rather bleak, and the political difficulties of choosing a suitable repository for the wastes most daunting. But if we cannot assure the public that the enterprise is being pursued responsibly—and that the necessary steps have been taken in every case to provide for their safety—then all the Atomic Energy Act's lofty prose will be for naught, and we shall have no nuclear power in this country.

I ask unanimous consent that the text of my bill be printed in the *RECORD* at this point.

There being no objection, the bill was ordered to be printed in the *RECORD*, as follows:

S. 40

*Be it enacted by the Senate and the House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. This Act may be cited as the "Atomic Safety Act of 1987".

Sec. 2. (a) The Congress finds that further progress in the domestic nuclear programs of the United States will be difficult, at best, unless the Nation is assured of the safety of those programs.

(B) It is the intent of Congress that safety be an unsurpassed priority in matters pertaining to domestic nuclear power programs.

(C) It is the sense of the Congress that full and complete emergency planning is an essential element of the nuclear enterprise, and that no plant should operate without assurance from the Federal government's experts on emergency preparedness that the public health and safety can and will be protected.

Sec. 3. Subsection 1(a) of the Atomic Energy Act of 1954, as amended, is amended by striking the word "objective" and inserting in lieu thereof "objectives of protecting the public health and safety and".

Sec. 4. Notwithstanding any other provision of law, the Nuclear Regulatory Commission may not issue a license for the operation of any utilization facility unless there is an off-site emergency plan for that facility in place for which the Federal Emergency Management Agency has issued a finding regarding whether said plan will provide assurance that the public health and safety can and will be protected in an emergency. Any such finding made by the Agency after January 1, 1987 shall be made on the basis of an evaluation under criteria at least as protective of the public health and safety as those in use by the Agency and the Commission as of January 1, 1987 for the evaluation of state emergency plans. Any license issued by the Nuclear Regulatory Commission that is not based upon a finding made by the Federal Emergency Management Agency in accordance with the terms of this subsection shall be revoked upon enactment of this Act.●

By Mr. ROTH:

S. 41. A bill to establish a Commission on More Effective Government, with the declared objective of improving the quality of government in the United States and of restoring public confidence in government at all levels; to the Committee on Governmental Affairs.

## COMMISSION ON MORE EFFECTIVE GOVERNMENT

Mr. ROTH. Mr. President, today I am introducing legislation to create a Commission on More Effective Government. It will be the purpose of this Commission to carry out a searching review of the organization and management of the executive branch of the Federal Government. Based on this analysis, the Commission will issue recommendations designed to improve the operation of government today and to help us meet the demands placed upon our public institutions in the coming decades.

This proposal is modeled after the very constructive reform commissions headed by former President Hoover in the late 1940's and early 1950's. Because of the nature of its mandate, its bipartisan composition, and its emphasis on implementation of reform recommendations, the Commission I am proposing today holds every promise of equaling the achievements of the two predecessor Hoover Commissions.

In the 32 years since the second Hoover Commission issued its final report, the Federal Government has grown enormously in the level of its expenditures, in the scope of its activities, and in the responsibilities it places on State and local governments and the private sector. With each incremental expansion of the Federal role, government has intruded further into the lives of our people and the operation of our private institutions.

Yet, while the Federal role has expanded during this period, the National Government's fiscal strength has deteriorated significantly, as we today face formidable annual deficits and a record-setting level of national debt. It is little wonder that citizen frustration with government is so high and confidence in the ability of government to perform adequately is so low.

These circumstances mandate a critical assessment of what new activities the Federal Government is capable of undertaking and an evaluation of how government can better carry out the duties that it currently performs. The Commission on More Effective Government, in a bipartisan, independent, and objective manner, will carry out this assignment. In its examination of the organization and management of the Federal executive branch, the Commission will not only identify long-needed improvements to be pursued but will help to create the awareness and desire for change that is crucial in overcoming the inertia and resistance that inevitably confront major reform.

Now, Mr. President, at some point before this legislation is enacted I know that someone will advance the argument that this idea duplicates the work of other commissions. The Grace Commission, for example, addressed some issues that fall within the mandate of the Commission on More Ef-

fective Government. I will anticipate this concern by saying now that the Commission I am proposing today possesses a far broader mandate than the Grace effort, which focused narrowly on cost-cutting in the Federal Government.

The elimination of needless expenditures in government is important and requires further attention. The Commission on More Effective Government should use the work product of the Grace Commission as a resource and build on this foundation for the implementation of reforms that receive bipartisan support.

Similarly, the Commission should review the fine work of the Ash Council of the early 1970's on matters of government organization and the comprehensive work of the U.S. Advisory Commission on Intergovernmental Relations for recommendations in the realm of Federal-State-local government relations. Over the years the General Accounting Office has churned out libraries of reports chock full of reform recommendations, many of which have been ignored or only partially put in place. It would be the task of the Commission I am proposing to review this data base, consider which recommendations are worthy of action either in Congress or in the executive branch, and launch them off on the path toward implementation.

While the Commission members should be free to set their own agenda once they meet and organize, several issues stand out as important candidates for their consideration. In addition to the general organizational and management issues I have mentioned, the Commission should consider the emergence of what has been called third-party governance and assess what effect this development has had on our system. By third-party governance I mean the proliferation of government corporations and other quasi-governmental bodies that perform an ever-increasing number of public functions.

These organizations often operate outside of established procedures for hiring, firing, and paying personnel, and are only loosely accountable for their actions to the elected officials who create them and ostensibly oversee them. Of equal importance is the fact that we possess no clear and agreed-upon doctrine as to when the use of these organizations is appropriate. The Commission proposed by this legislation could make a substantial contribution by formulating criteria for the use of government corporations and guiding us toward a balance of flexibility and accountability in their operation.

Similarly, privatization is a much discussed but frequently misunderstood aspect of government service delivery. What is certain is that we have moved toward privatization of public

functions in a major way. From 1970 to 1980 the size of the civilian executive branch work force decreased by 120,000 employees, as total Federal expenditures increased by 195 percent. In the same period expenditures for service contracts increased by 28 percent. This trend is further exemplified by the fact that the budgets of the Departments of Defense, Health and Human Services, and Education support four indirect workers for every person on the Federal payroll.

This process, however, like that of the use of government corporations, has developed willy-nilly with no clearly defined doctrine of when privatization is appropriate and when it is not, how to measure the quality of the goods and services thus received, and what the long-term costs are of this policy course. Here, too, the Commission on More Effective Government could do a great service to the Nation in developing a consensus theory of privatization in terms of when it should be used for and how its product should be measured.

The explosion of technology in recent decades has created great new opportunities as well as new challenges and sensitive public issues for our society. A good candidate for Commission review is the development of information, communication, and related technologies and how they can best be used to improve public sector performance without jeopardizing concerns such as our citizens' right to privacy.

The range of important issues for the Commission to address is expansive. In addition to those I have detailed could be added the shift toward heavy reliance on the administrative law process, the role of the Federal judiciary, the activities and the relationships of the multitude of independent Federal regulatory agencies and the nature of our legislated budgetary procedures. Each of these issues merits analysis and comment by the Commission and should be considered for inclusion on the agenda.

While the breadth of this mandate might appear to be too great for a single group, the key to the success of the Commission on More Effective Government will be in its composition and its work methods. The Commission will consist of 18 citizens with substantial records of accomplishment in government or in private life. The Commission will be strictly bipartisan, with six members appointed by the President, six appointed by the leadership in the Senate, and six appointed by the leadership of the House of Representatives. This collegiality and bipartisanship will provide the foundation for consensus in the development of a reform agenda.

If the Commission follows the successful pattern of the earlier Hoover

Commissions, it will rely on a small central staff and use task forces to examine the broad sweep of its subject areas. It will make great use of existing studies and writings—both public and private—to avoid duplication of effort. Public hearings will be used to ensure citizen participation, to focus attention on the work of the Commission, and to help build consensus support for its findings and recommendations. Coalition building must be one of the principle aims of the Commission from the outset in order to help ensure followthrough on the changes that it proposes.

As we begin the celebration of the 200th anniversary of the Constitution, I can think of no better way to strengthen the Government it undergirds than to create this review Commission and promptly let it begin its work. As one expert witness testified before the Committee on Governmental Affairs in 1981, in light of all of the changes that have occurred in government since the last comprehensive commission review, it is time to put down anchor and see where we are and where we ought to be. The Commission on More Effective Government will help us make these assessments and take the action steps required to implement needed reforms.

I ask unanimous consent that the full text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 41

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### DECLARATION OF POLICY

SECTION 1. It is the policy of the Congress to develop a blueprint for better government in the United States, to set in motion processes by which the Federal Government can more effectively and responsively serve the people for whom it was created and can more rationally meet its present and future challenges, both national and international, and to encourage and justify the full restoration of public confidence in government at all levels.

#### ESTABLISHMENT OF COMMISSION

SEC. 2. For the purpose of carrying out the policy set forth in section 1, there is hereby established a commission to be known as the Commission on More Effective Government (in this Act referred to as the "Commission").

#### IMPLEMENTATION OF POLICY BY COMMISSION

SEC. 3. (a) In carrying out the policy set forth in section 1, the Commission shall consider and study the management, operation, and organization of the executive branch and of the independent regulatory agencies of the Federal Government, including the relationships of such entities to each other, to the other branches of the Federal Government, to their State and local governmental counterparts, and to the private sector. Such study and consideration shall give particular attention to the extent to which such relationships and established

patterns of action meet or fail to meet governmental responsibilities and are adequate to meet the challenges of the future. Where appropriate and necessary, the Commission's consideration and study shall include the extent to which the policies implemented by the executive branch and the independent regulatory agencies detract from or enhance governmental management, operation, and organization.

(b) On the basis of its considerations and study under subsection (a), the Commission shall make recommendations, including but not limited to specific proposals for changes in Federal Law, regulation and administrative practices, to promote economy, effectiveness, efficiency, and managerial and political accountability, and to improve services and management in the transaction of the public business. Such recommendations shall include, where appropriate, recommendations for altering the present distribution of functions and activities among the Federal agencies and among the Federal, State, and local governments.

(c) In carrying out its consideration and study under subsection (a), the Commission shall avail itself of relevant information and data gathered by such public and private organizations and individuals as it deems appropriate.

#### ORGANIZATION OF THE COMMISSION

SEC. 4. (a) The Commission shall be composed of eighteen members as follows:

(1) Six appointed by the President of the United States; a maximum of three from the executive branch, and the balance, persons who are not Federal officials.

(2) Six appointed by the Speaker of the House of Representatives; a minimum of two and a maximum of three from the House of Representatives, and the balance, persons who are not current Members of the House of Representatives.

(3) Six appointed by the President pro tempore of the Senate, upon the recommendations of the majority and minority leaders of the Senate; a minimum of two and a maximum of three from the Senate, and the balance, persons who are not current Members of the Senate.

Members of the Commission shall to the maximum extent possible be chosen from among persons who have particular knowledge and expertise in the major areas of the Commission's consideration and study. Of the members appointed by the President, one shall have had experience in government at the State or local level; of the members who are not Federal officials appointed by the Speaker of the House of Representatives, one shall have had governmental experience at the local level; and of the members who are not Federal officials appointed by the President pro tempore of the Senate, one shall have had governmental experience at the State level. In considering individuals for membership, preference shall be given to persons with a broad knowledge and understanding of the working of the Federal system of the United States of America.

(b)(1) Of the members appointed by the President from persons who are not Federal officials under subsection (a)(1), three shall be from the major political party which is not the party of the President, and at least two shall be persons not engaged in partisan political activity.

(2) Of the members appointed from the House of Representatives under subsection (a)(2), one shall be from the political party which is the majority party in the House and one shall be from the political party which is the minority party in the House. At

his discretion, the Speaker may appoint either a second incumbent Representative from the majority party in the House or a former Representative from that same party. Of the remaining three members appointed under such subsection, two shall be persons not engaged in partisan political activity. Of these three remaining members one shall be from the political party which is the minority party in the House. In appointing members under subsection (a)(2) who are from the political party which is the minority party in the House, the Speaker shall obtain the advice and consent of the minority leader of the House.

(3) Of the members appointed from the Senate under subsection (a)(3), one shall be from the political party which is the majority party in the Senate and one shall be from the political party which is the minority party in the Senate. At his discretion, the President pro tempore of the Senate may appoint either a second incumbent Senator from the majority party in the Senate or a former Senator from that same party. Of the remaining three members appointed under such subsection, two shall be persons not engaged in partisan political activity. One of these three remaining members shall be from the political party which is the minority party in the Senate.

(4) For the purposes of this Act, the term "persons not engaged in partisan political activity" shall mean persons who for at least six months prior to appointment as a member of the Commission, have not occupied or sought elected public office, or have not served as an official of a State or national political party.

(c) The President shall select a Chairman from among the Commission members who are not Federal officials at the time of appointment. The selection by the President of the Chairman shall be subject to the approval of a majority vote of the members of the Commission, conducted by secret ballot. The Commission shall elect from among its members a Vice Chairman from the major political party which is not the party of the Chairman. The Commission shall adopt such rules and regulations as may be necessary to establish its procedures and to govern the manner of its operations, its organizations, and its personnel.

(d) Ten members of the Commission shall constitute a quorum.

(e) Any vacancy in the Commission shall not affect its powers, but shall be filled in the manner in which the original appointment was made. Any individual appointed to fill a vacancy in the Commission shall be of the same political party as his predecessor.

(f) An individual who is appointed to the Commission in the status of a Member of Congress or in the status of a person in the executive branch of the Government, and who thereafter ceases to have such status, shall nevertheless continue as a member of the Commission and shall (if he has returned to private life except for his membership on the Commission) be treated as an individual appointed from private life for purposes of compensation under section 5.

#### COMPENSATION OF COMMISSION MEMBERS

SEC. 5. (a) The members of the Commission who are Members of Congress or who are in the executive branch of the Government shall serve on the Commission without any compensation in addition to that received for their services as Members of Congress or in the executive branch. The members of the Commission from private life shall each be paid compensation at a rate

equal to the rate of basic pay in effect for level IV of the Executive Schedule when engaged in the performance of the duties vested in the Commission.

(b) All members of the Commission shall be reimbursed for travel as authorized by section 5703 of title 5, United States Code, subsistence, and other necessary expenses incurred by them in the performance of the duties vested in the Commission.

#### COMMISSION STAFF

Sec. 6. (a) The Commission shall have power to appoint, terminate, and fix the compensation of such personnel as it deems advisable to assist in the performance of its duties, without regard to the civil service laws and without regard to the provisions of title 5, United States Code (or of any other law) relating to the number, classification, or compensation of employees. The Commission may also procure, as authorized by section 3109 of title 5, United States Code, temporary and intermittent services to the same extent as is authorized by law for agencies in the executive branch but at rates not to exceed the daily equivalent of the maximum annual rate of basic pay in effect for grade GS-18 of the General Schedule. The Chairman and Vice Chairman shall select an executive director for the Commission contingent upon confirmation by the Commission members.

(b) Service of an individual as a member of the Commission (or of an advisory council or committee under section 7) or employment of an individual by the Commission as an attorney or expert in any business or professional field, on a part-time or full-time basis, with or without compensation, shall not be considered as service or employment bringing such individual within the provisions of any Federal law relating to conflicts of interest or otherwise imposing restrictions, requirements, or penalties in relation to the employment of persons, the performance of services, or the payment or receipt of compensation in connection with claims, proceedings, or matters involving the United States. Service as a member of the Commission (or of such an advisory council or committee), or as an employee of the Commission, shall not be considered service in an appointive or elective position in the Government for purposes of section 8344 of title 5, United States Code, or comparable provisions of Federal law.

#### ADVISORY COUNCILS AND COMMITTEES

Sec. 7. The Commission may establish (without regard to the Federal Advisory Committee Act) such advisory councils and advisory committees as it may deem appropriate to provide specialized assistance in the performance of the duties vested in the Commission by this Act. Members of such advisory councils and committees, while attending meetings of such councils or committees or while otherwise serving at the request of the Commission away from their homes or regular places of business (unless otherwise eligible for travel and subsistence expenses under chapter 57 of title 5, United States Code), may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code, for individuals in the Government serving without pay.

#### POWERS OF THE COMMISSION

Sec. 8. (a) The Commission or any member authorized by the Commission may, for the purpose of carrying out this Act, hold such hearings and sit and act at such times and places, take such testimony, have such printing and binding done, enter

into such contracts and other arrangements (with or without consideration or bond, to such extent or in such amounts as are provided in appropriations Acts, and without regard to section 3709 of the Revised Statutes (41 U.S.C. 5)), make such expenditures, and take such other actions as the Commission or such member may deem advisable. Any member of the Commission may administer oaths or affirmations to witnesses appearing before the Commission or before such member. The provisions of the Federal Advisory Committee Act shall not apply to the Commission established under this Act.

(b) The Commission is authorized to secure directly from any officer, department, agency, establishment, or instrumentality of the Government such information, suggestions, estimates, and statistics as the Commission may require for the purpose of this Act; and each such officer, department, agency, establishment, or instrumentality is authorized and directed to furnish, to the extent permitted by law, such information, suggestions, estimates, and statistics directly to the Commission, upon request made by the Chairman or Vice Chairman.

(c) Upon request of the Commission, the head of any Federal agency is authorized to make any of the facilities and services of such agency available to the Commission or to detail any of the personnel of such agency to the Commission, on a reimbursable basis, to assist the Commission in carrying out its duties under this Act, unless the head of such agency determines that urgent, overriding reasons will not permit the agency to make such facilities, services or personnel available to the Commission and so notifies the Chairman in writing.

(d) The Commission may use the United States mails in the same manner and under the same conditions as other departments and agencies of the United States.

(e) No officer or agency of the United States shall require the Commission to submit any report, recommendation, or other matter to any such officer or agency for approval, comment, or review before submitting such report, recommendation, or other matter to the Congress or to the President.

#### MEETINGS, PUBLIC INVOLVEMENT, REPORTS, EXPIRATION

Sec. 9. (a) The Commission shall first convene no later than six months after the date of enactment of this Act, and shall meet from time to time thereafter, as its members deem appropriate.

(b) Consistent with other provisions of this Act, the Commission shall structure its operations and activities to assure the appropriate and meaningful involvement of the public in its deliberations. In doing so, the Commission shall consider the desirability of holding public hearings, particularly in locations outside of the District of Columbia and of establishing toll-free telephone lines or other mechanisms whereby members of the public can readily contribute suggestions for Commission consideration.

(c) The Commission shall from time to time submit to the Congress and the President such reports as it may deem appropriate with respect to its activities under this Act. One year after the date of enactment of this Act, the Commission shall report to the Congress and the President on its agenda and its progress. Twenty-four months after the date of enactment of this Act, the Commission shall submit to the Congress and the President its final report

with respect to such activities, including all of its findings and recommendations.

(d) Ninety days after the submission to the Congress and the President of its final report under subsection (c), the Commission shall cease to exist, except as provided under section 11(b).

#### PREPARATION FOR THE COMMISSION

Sec. 10. Upon enactment of this Act, the Comptroller General of the United States, the Director of the Congressional Research Service, the Director of the Congressional Budget Office, the Director of the Office of Technology Assessment, and the Chairman of the Advisory Commission on Intergovernmental Relations shall begin to prepare briefing papers for the Commission. Such briefing papers shall catalog and synthesize any recent reports, analyses, and recommendations of the respective organizations, and shall contain such other information deemed by the head of each such organization to be pertinent to the work of the Commission. The briefing papers shall be completed no later than four months after the date of enactment of this Act.

#### MONITORING AND FOLLOWUP ON COMMISSION RECOMMENDATIONS

Sec. 11. (a) For a period of four years after the Commission ceases to exist, the Comptroller General of the United States shall monitor the implementation of the recommendations of the Commission, and shall report periodically to the Congress and the President on the actions being taken to implement such recommendations.

(b) For a period of eighteen months after the Commission ceases to exist, a portion of the staff of the Commission shall continue to seek the consideration and implementation of the recommendations of the Commission. During such period, such staff shall be under the supervision of and shall report to the Director of the Office of Management and Budget.

(c) Upon submission of the Commission's final report to the President under section 9(c), the Director of the Office of Management and Budget, in coordination with the executive agencies, shall take action to (1) formulate the views of the executive agencies on the recommendations of the Commission; (2) to the extent practicable within the limits of their authority and resources, carry out recommendations of the Commission in which they concur; and (3) propose legislation needed to carry out or to provide authority to carry out other recommendations of the Commission in which they concur. At least once every six months, the Director of the Office of Management and Budget shall report to the Congress and the President on the status of action taken or to be taken as provided herein. A final report on the final disposition of the recommendations shall be submitted within four years after the submission of the Commission's final report under section 9(c).

#### EXPENSES OF THE COMMISSION

Sec. 12. There are hereby authorized to be appropriated \$10,000,000 to carry out this Act.

By Mr. ROTH:

S. 42. A bill to amend title 5, United States Code, to establish an optional early retirement program for Federal Government employees, and for other purposes; to the Committee on Governmental Affairs.

# EARLY RETIREMENT PROGRAM FOR FEDERAL EMPLOYEES

Mr. ROTH. Mr. President, today I rise to introduce a bill that gives about 400,000 Federal civilian employees the opportunity to voluntarily retire in 1987, thus saving the taxpayers several hundred million dollars.

This bill will enable many Federal Employees to retire almost immediately if they desire. A number of older Federal employees, although they now lack the age and service needed to retire under current law, are ready, willing, and able to retire as soon as they get a reasonable opportunity.

At the same time, this bill offers new opportunities to younger Federal employees—especially women and members of minority groups—who may be concerned about the shortage of minority groups—who may be concerned about the shortage of career opportunities in the Federal Government. By providing older workers with the opportunity to retire, younger employees may now look forward to brighter and more secure Federal careers.

Given the current period of budget uncertainty, the early retirement option provides a positive way to reduce the Federal payroll. It is no secret that during the next several years Federal outlays must be reduced sharply, or at least held in check. Private companies that need to cut costs commonly open up an early retirement window to give their employees a temporary option to retire.

In fact, the catalyst for the early retirement legislation is the example set by many private companies that have offered such plans in order to prevent layoffs, provide promotion opportunities, and job security for younger workers, and to cut costs in times of financial problems. Many corporations, including some of the largest in our country—General Motors, IBM, and Du Pont, have recently instituted early retirement programs.

I first introduced an early retirement bill during the 99th Congress. Our original bill was introduced as a starting point for discussion and recommendations. On May 15, 1986, the Governmental Affairs Committee held a hearing on the legislation. Since that time, we have worked hard to meet the concerns expressed about the bill. The current version attempts to meet those concerns, and I feel, succeeds in its efforts.

With the current Federal deficit crisis, the ability of the Government to offer early retirement to its work force is a rational, voluntary, and humane method for reducing cost without harming the morale and efficiency of the Government. This is an active plan to reduce the deficit.

Employees may qualify for retirement under any of the following four standards: any age with 25 years of service; age 50 with 20 years of service;

age 55 with 15 years of service; age 57 with 5 years of service.

Under the early retirement provisions, employee benefits are allocated according to two categories. Those employees who retire at age 55 or over get full benefits. Employees who retire below the age of 55 take a benefit reduction of 2 percent for each year they retire before age 55. The retirement window will open for 90 days following a 60-day period after the legislation is passed.

There has been a great deal of concern expressed that this bill would hurt the Government's ability to "do its work"—that we would lose the most skilled, experienced, and productive members of our work force and that the hiring freeze would damage the ability of the Government to fulfill its mission. The changes made to the original bill take these concerns into consideration and, I feel, address them positively.

It is critical for the Government to retain certain occupations and efficiently continue projects that are critical to the missions of the agencies. In response to this concern, the President, or his designee, has the authority to exempt up to 25 percent of the agencies eligible early retirees, by occupational category, project, or geographic location. Although every employee should be given the opportunity to retire early, certain activities are of extreme importance to on-going Government functions.

To ensure a smooth transition of responsibilities, the legislation allows managers to hold over an employee who has elected early out, for up to 6 months, if the manager deems that the individual's skills are crucial to the job responsibilities or a work project. In addition, some positions will need to be refilled in order to permit the efficient working of the Federal Government. Therefore, the legislation permits the President to waive the freeze for positions that are determined to be vital to the performance of the agency's mission, or to allow rehiring where the costs of the program are borne by user fees.

The original legislation contained a 5-year freeze limitation on the Government's ability to rehire. We have lowered this to a 3-year freeze. This method steers a middle course between imposing a total ban on hiring replacements and giving agencies free rein to hire despite the need to act regarding the Federal deficit. One of the goals of the legislation is to prevent involuntary loss of jobs by encouraging voluntary retirements. This legislation would help shrink the deficit and treat our Federal personnel as fairly as possible.

Mr. President, while this optional early retirement window is brand new for the Government, it follows a trail blazed over the past 5 years by many

of America's leading employers. In times of financial stress, this bill provides an efficient, yet compassionate way of reducing costs.

I welcome the comments of my colleagues, administration officials, employee groups, and Federal workers with an interest in this idea, and I hope the Government Affairs Committee will meet soon on this legislation.

Mr. President, this legislation has a great deal to offer, both to Federal employees and to the Government. I hope that it will be given timely consideration by the Senate.

By Mr. MOYNIHAN:

S. 43. A bill to require that the positions of Director and Deputy Director of Central Intelligence be filled by career intelligence officers; to the Select Committee on Intelligence.

REQUIRING CAREER INTELLIGENCE OFFICERS AS DIRECTOR AND DEPUTY DIRECTOR OF CENTRAL INTELLIGENCE

● Mr. MOYNIHAN. Mr. President, "The protection of our national security . . . is too important a mission to subject to the vagaries of the political process or the partisan purposes of either party." These are William Casey's words, but they speak to a sentiment, a belief, many of us share—there is no room for partisan politics in the Intelligence Committee or in the Intelligence Community.

My esteemed colleague Senator Goldwater and I were in total agreement on this when we served together as chairman and vice chairman of the Select Committee on Intelligence. From this premise we derived a corollary: That the intelligence mission of the Central Intelligence Agency and its sister intelligence agencies is best carried out by professional intelligence officers, officers who should be led by DCI's worthy of the best professional cadre they lead. We felt strongly enough about this, that after considerable reflection and consultation, we introduced legislation, S. 3019, during the 98th Congress, to require that the positions of Director of Central Intelligence [DCI] and Deputy Director of Central Intelligence [DDCI] be filled with career intelligence officers. Recent events suggest that it is time to do so again.

There is too much at risk to consign the intelligence mission to political appointments, campaign aides, or, even, military officers not trained as intelligence officers—officials who might not understand that even at its best, "all that intelligence can promise is to improve the odds a bit, in our favor." This is not to say that politically appointed DCI's have been uniformly good or uniformly bad. Nor is this legislation aimed at any one Director of Central Intelligence. As Senator Goldwater noted with characteristic candor in 1984, "We have lived through a

period of political appointments to the directorship of that body. Some have worked very well, some have worked badly, and some of them have been terrible."

A career intelligence officer with an institutional memory beyond one President and a strong interest in the long-term welfare of the Intelligence Community, I hope and expect, would help prevent such misadventures as: the mining of Nicaraguan harbors in 1983; and the arms transfers to Iran and cash transfers to the Contras in 1985 and 1986.

I think of John McMahon, Deputy Director of Central Intelligence, a career intelligence officer of 34 years, who having been asked by the National Security Council staff to provide transport for arms to Iran in November 1985, insisted that any further shipment be accompanied by a Presidential Intelligence Finding. And so it was on January 17, 1986, the President issued an intelligence finding and we have been hearing about the repercussions for some weeks now. I wonder, who did the President consult on this matter, career professionals with experience in the East, or political appointees?

As I told the first graduating class of the Defense Intelligence College in June 1984: "Just as democratic institutions require that a military profession be loyal to civil authority, so the profession of intelligence must see that the highest form of such loyalty is the exercise of independent professional judgment in the analysis of intelligence data. Call 'em as you see 'em." McMahon did so. Who will be next?

The legislation I introduce today, however, is more than a response to the Iran debacle, or mining of Nicaraguan harbors, it addresses the fundamental needs of the institutions and profession involved. The work of intelligence has become increasingly complex, requiring senior officials to master a vast array of highly sophisticated satellite and other technical collection systems as well as political, economic and military issues affecting virtually every country in the world. The most important development in the late 1970's, for example, was the replacement of our technical means of collection—the foundation for nuclear defense and the indispensable element of nuclear arms control. The positions of DCI and DDCI require more than a quick-study, they require career professionals.

Such a procedure does raise one concern that in a closed society—the intelligence community—it is crucial that outside civilian authority serve as both administrator and watchdog so that the abuse revealed to the Church and Pike Committees is not repeated. The key to oversight of the intelligence community, however, is not the Direc-

tor of Central Intelligence, but the Congressional committees. The study of institutions tells us direction and oversight must not wear the same hat.

Finally, Mr. President, I believe this bill is a natural outgrowth of the task of institution building. During the 1970's the CIA and other intelligence agencies went through a difficult period of accusations and investigations. Resources, especially personnel, were significantly reduced. With the establishment of the Select Committee on Intelligence, we embarked upon a program to restore the strength and morale of these vital agencies. We may well have to do so again.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 43

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 102(a) of the National Security Act of 1947 (50 U.S.C. 403(a)) is amended by adding after the phrase "Provided, however," the following: "That the Director and Deputy Director of Central Intelligence shall be appointed from among career civilian or military intelligence officers, and Provided, further,"*

#### By Mr. MOYNIHAN:

S. 44. A bill to amend the Atomic Energy Act of 1954, as amended, to establish a comprehensive, equitable, reliable, and efficient mechanism for full compensation of the public in the event of an accident arising out of activities of Nuclear Regulatory Commission licensees or undertaken pursuant to the Nuclear Waste Policy Act of 1982 involving nuclear materials, and to reduce the likelihood of such an accident; to the Committee on Environment and Public Works.

#### PRICE-ANDERSON ENHANCEMENT ACT

Mr. MOYNIHAN. Mr. President, I rise to offer most necessary and timely legislation, a bill to reauthorize and improve the Price-Anderson Act, which establishes the unique liability and compensation structure for domestic nuclear power. Without prompt action from this body, Price-Anderson will expire on August 1 of this year. Neither the public nor the industry would be well served by such a lapse.

But it is also our duty to be absolutely certain that our work on this vital matter reflects all that we have learned from the last three decades of nuclear power. There are important matters that the present law does not address, and regardless of our opinions on the wisdom of nuclear fission as a power source in the future, we must deal with it wisely as a technology that must be managed now.

The legislation that I now offer draws much of its strength from the fine proposal made in the 99th Con-

gress by my esteemed colleague from Vermont, Mr. STAFFORD. As chairman of the Committee on Environment and Public Works in the last Congress, he worked until its very waning hours to try to fashion a compromise that was acceptable to all; his effort nearly succeeded. This bill, however, hearkens back to the original proposals made by the Senator from Vermont in 1985. They were sound then, and they remain sound today.

Our first concern when contemplating the unlikely, though proven, possibility of colossal disaster at a nuclear powerplant, must be to do what we can to see that it does not occur. This singular fact has been conspicuous by its absence in the Price-Anderson debate; I propose a remedy with this bill.

I join with those who have started with the proposition that the nuclear industry must stand prepared to provide full compensation to the victims of a severe nuclear accident. The limit that now caps liability at a fraction of \$1 billion is a disgrace. The Nuclear Regulatory Commission proposed, at one time, that an annual payment—in the event of disaster—of \$10 million for each reactor would not be unreasonable. So did the Senator from Vermont, in the last Congress.

This stream of payments, in excess of \$1 billion annually, would bring meaning to the phrase "full compensation" by assuring that truly massive sums would be available to compensate accident victims in the event of disaster. And my legislation, unlike previous proposals, provides specific authority for the NRC to borrow from the Treasury if payments do not come in as fast as claims. Advances would be fully repaid, with interest, by payments in future years.

This bill also includes a key provision, sorely lacking in the proposals circulated at the end of the last Congress: real protection against inflation. If the half-billion dollars of protection that we started with in 1957 had been indexed for inflation, present coverage would be some \$2 billion; in 20 more years time, some \$6 billion. Perhaps more. These numbers do not indicate more money; they indicate precisely the same amounts of money. Many recent proposals raise liability limits substantially; some, to the same levels that we would have had if we had thought things through in 1956. But as we plan for the decades to come, the only proper policy is to provide future citizens with at least the same protection that we provide ourselves.

But providing compensation to accident victims is something with which we have all too much experience. I am confident that this body will produce a workable scheme. The vastly harder, but vastly more rewarding effort, is to arrange for accidents not to occur.

The business of the Nuclear Regulatory Commission is nuclear safety. I, for one, am not terribly impressed with the way that business is being conducted. But even if, by some chance, the NRC should suddenly be reformed—by themselves, or by us—the Commission would remain a regulatory agency, and the questions that they consider matters of "good enough" or "not good enough." Lowest common denominator questions. Bare-bones questions.

It is not enough for us to sit back and say that the NRC provides all the protection we need. That barely passing is good enough.

Mr. President, this bill proposes a radical notion: that we can enhance nuclear safety by providing incentives to go beyond the bare minimum on safety and performance. Perhaps it is not such a radical concept, really. It sounds perfectly reasonable to me.

Beyond the \$160 million of liability insurance that each nuclear plant is required to carry, the bulk of the financial protection under Price-Anderson is provided by payments made by all nuclear utilities, for each of their reactors, in the event of a nuclear disaster at any one of them. I propose that the size of these payments ought not to be the same.

We do not have the kind of information on risk—the probabilities and consequences of all the possible nuclear disasters—that conventional insurance relies on, and we never shall. That is the nature of the problem, and that is why we demand that the public and the industry be protected by special legislation.

What we can do is choose to reward those utilities who run their operations in exemplary fashion. We can have a body of experts determine who they are, have the NRC identify them, and promise that if an accident occurs at any plant across the country in the coming year, they will bear a lesser financial burden than most because they did the most they could to avoid catastrophe. And we can do the same for those who run their plants least well.

I propose that we single out the best 10 percent of our plants, and the worst. A panel of experts such as the Accrediting Board of the Institute for Nuclear Power Operations would provide such advice to the NRC. And the NRC would announce that these groups would pay 20 percent less, and 20 percent more, respectively, if a disaster should occur within the coming year.

No doubt there will be those who will complain about the difficulties such distinctions pose. All this complication will not substantially affect the amounts available to compensate victims in a disaster. No utility executive will look forward to being judged—unless he is very, very confident of his

nuclear operations. Many will fear that a place in the bottom 10 percent will have a real cost to them in today's financial markets, if not in some unlikely accident next year.

That is exactly what I hope they will fear.

It is abundantly clear that the professionals who run our nuclear plants do not expect to experience disaster personally. They do not believe that disaster will strike—and if it does, it will not be at their plant.

They are probably right, but I am still not comfortable.

I will be a great deal more comfortable when I know that the Nation's nuclear plants are competing with each other to be recognized for running exemplary operations, rather than joining together to face lowest common-denominator regulations.

I am confident that the 100th Congress will reauthorize the Price-Anderson Act. The need to make the resources of the entire nuclear industry available to protect the public is well recognized.

I hope that this Congress will also recognize the need to build incentives into the Price-Anderson system to reduce the chances of putting those financial resources to the test.

I ask unanimous consent that the text of the bill be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S.44

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. This Act may be cited as the "Price-Anderson Enhancement Act of 1987."

SEC. 2. Section 170 b. of the Atomic Energy Act of 1954, as amended, is amended to read as follows:

"b. The amount of financial protection required shall be the amount of liability insurance available from private sources, except that the Commission may establish a lesser amount on the basis of criteria set forth in writing, which it may revise from time to time, taking into consideration such factors as the following: (1) the cost and terms of private insurance, (2) the type, size, and location of the licensed activity and other factors pertaining to the hazard, and (3) the nature and purpose of the licensed activity: *Provided*, That for facilities designed for producing substantial amounts of electricity and having a rated capacity of 100,000 electrical kilowatts or more, the amount of financial protection required shall be the maximum amount available at reasonable cost and on reasonable terms from private sources. Such financial protection may include private insurance, private contractual indemnities, self insurance, other proof of financial responsibility, or a combination of such measures and shall be subject to such terms and conditions as the Commission may, by rule, regulation, or order, prescribe. In prescribing such terms and conditions for licenses required to have and maintain financial protection equal to the maximum amount of liability insurance available from private sources, the Commission shall, by

rule initially prescribed not later than twelve months from the date of enactment of this Act, include, in determining such maximum amount, private liability insurance available under an industry retrospective rating plan providing for annually assessed premium charges deferred in whole or major part until public liability from a nuclear incident exceeds or appears likely to exceed the level of primary financial protection required of the licensee involved in the nuclear incident: *Provided further*, That such insurance is available to, and required of, all of the licensees of such facilities without regard to the manner in which they obtain other types of such financial protection: *Provided further*, That the maximum deferred premium which may be charged for all nuclear incidents under such a plan shall not be less than \$10,000,000 per year or more than \$15,000,000 per year for each facility required to maintain the maximum amount of financial protection except as provided further under this subsection: *Provided further*, That the above mentioned limits shall be in constant dollars as of January 1, 1987, and that the Commission shall adjust the maximum deferred premium for inflation as indicated by the Gross National Product deflator: *Provided further*, That the annual amount which may be charged a licensee shall not exceed the licensee's pro rata share, calculated on a yearly basis, of the aggregate public liability claims and costs rising out of nuclear incidents. Payment of any State premium taxes which may be applicable to any deferred premium provided for in this Act shall be the responsibility of the licensee and shall not be included in the retrospective premium established by the Commission. The Commission shall establish such requirements as are necessary to assure availability of funds to meet any assessment of deferred premiums within a reasonable time when due, and may provide reinsurance or shall otherwise guarantee the payment of such premiums in the event it appears that the amount of such premiums will not be available on a timely basis through the resources of private industry and insurance. Any agreement by the Commission with a licensee or indemnitor to guarantee the payment of deferred premiums may contain such terms as the Commission deems appropriate to carry out the purposes of this section and to assure reimbursement to the Commission for its payments made due to the failure of such licensee or indemnitor to meet any of its obligations arising under or in connection with financial protection required under this subsection including without limitation terms creating liens upon the licensed facility and the revenues derived therefrom or any other property or revenues of such licensee to secure such reimbursement and consent to the automatic revocation of any license.

"In order to establish the amount of the deferred premium established under this subsection, not later than one month after the date of enactment of the Price-Anderson Improvement Act of 1986, and every twelve months thereafter, the Commission shall collect and provide information relating to the operational performance and safety record of each licensed facility that is required to have the maximum amount of financial protection available pursuant to this subsection for the preceding twelve-month period, including (but not limited to) the reports prepared under the Systematic Assessment for Licensee Performance program, to the Institute for Nuclear Power

Operations or such other body of experts as the Commission deems appropriate and willing to undertake the evaluation required by this subsection. Based upon the information provided by the Commission, the Institute or such other body shall identify those facilities that constitute the 10 per centum of all facilities which have the best operational performance and safety record for the period for which information is available and those facilities that constitute the 10 per centum of all facilities which have the worst operational performance and safety record for the period for which information is available. Such identification shall be based on such safety-related aspects of operational performance as the number of abnormal occurrences, frequency of unscheduled maintenance, frequency of scheduled maintenance, and competence and training of operating personnel. Not later than three months after receipt of such information from the Commission, the Institute or such other body shall submit to the Commission such identification of facilities. The Commission, after notice and comment, including the opportunity for public hearing, and based on the identification of facilities submitted by the Institute or such other body, shall establish three classes of licensed facilities: the 10 per centum of all facilities which have the best operational performance and safety record for the period for which information is available, the 10 per centum of all facilities which have the worst operational performance and safety record for the period for which information is available, and the balance of all other facilities. Any petition for the judicial review of the placement of any facility in one of these three classes shall be filed within 90 days of the action of the Commission establishing such classes, and such action shall not be subject to judicial review in any proceeding involving the establishment or collection of any deferred premium. In the event of an accident for which deferred premiums are assessed, the deferred premium for a facility in the class of facilities with the best operational performance and safety record shall be one-fifth lower than that generally applicable to all facilities, notwithstanding the limits otherwise applicable under this subsection, and the deferred premium for a facility in the class of facilities with the worst operational performance and safety record shall be one-fifth higher than that generally applicable to all facilities, notwithstanding the limits otherwise applicable under this subsection. In the event that the Commission fails to establish the classes of facilities required by the preceding sentences prior to an accident for which deferred premiums are assessed, all facilities referred to in this subsection shall be assessed deferred premiums in an amount equal to the largest deferred premium that would otherwise be assessed for any such facility under this subsection."

"There are authorized to be appropriated in any fiscal year as repayable advances such sums as may be necessary to pay public liability claims from a nuclear incident that are in excess of the deferred premiums that will have been collected by the end of such fiscal year from such licensees. Advances made pursuant to the previous sentence shall be repaid to the general fund of the Treasury out of the deferred premiums received in subsequent fiscal years."

Sec. 3. Section 170 c. of the Atomic Energy Act of 1954, as amended, is amended by striking "August 1, 1987" wherever it appears, and inserting in lieu thereof "August 1, 2002".

SEC. 4. Section 170 d. of the Atomic Energy Act of 1954, as amended, is amended to read as follows:

"d. (1)(A) In addition to any other authority the Secretary of Energy (hereinafter in this section referred to as the Secretary) may have, the Secretary is authorized until August 1, 2002, to enter into agreements of indemnification with the contractors of the Secretary for the construction or operation of production or utilization facilities or other activities under contracts for the benefit of the United States involving activities under the risk of public liability for a substantial nuclear incident.

"(B) The authority conferred upon the Secretary pursuant to paragraph (A) to enter into agreements of indemnification with contractors shall include contracts entered into by the Secretary for the purpose of carrying out such activities as the Secretary is authorized to undertake, pursuant to this Act or any other law, involving the storage or disposal of spent nuclear fuel, high-level radioactive waste, or transuranic waste, including the transportation of such materials to or from a storage or disposal site or facility, or test and evaluation facility, the treatment or packaging of such materials to be stored in, disposed of, or used in such a site or facility, and the identification, development, licensing, construction, operation, decommissioning, and post-decommissioning maintenance and monitoring of any such site or facility. For all such activities, the authority conferred upon the Secretary pursuant to subsection d. shall be the exclusive means of indemnification under this section.

"(C) With respect to such contractual activities for which the Secretary may make expenditures from the Nuclear Waste Fund established in section 302 of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10222):

"(i) The Secretary shall enter into agreements of indemnification with each contractor of the Secretary carrying out such contractual activities under the risk of public liability for a nuclear incident. In such agreements of indemnification the Secretary may require the contractor to provide and maintain financial protection of such a type and in such amounts as the Secretary shall determine to be appropriate to cover public liability arising out of or in connection with such contractual activities, including the storage, disposal, and related transportation of high-level radioactive waste and spent nuclear fuel. The Secretary shall indemnify the persons indemnified against such claims above the amount of financial protection required. Such indemnification shall include the reasonable costs of investigating and settling claims and defending suits to the extent that such costs are not covered by the amount of financial protection required.

"(ii) The Secretary shall make any payments required under an agreement of indemnification entered into under this subparagraph from amounts available through the Nuclear Waste Fund. The Secretary shall include the costs incurred by the Nuclear Waste Fund under this section in any review of whether the fees established to generate revenue for the Nuclear Waste Fund are sufficient to offset the costs incurred by the Nuclear Waste Fund, including the annual review by the Secretary pursuant to section 302(a)(4) of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10222(a)(4)).

"(2) In such agreements of indemnification other than specified in subsection d. (1)(C) the Secretary may require the con-

tractor to provide and maintain financial protection of such a type and in such amounts as the Secretary shall determine to be appropriate to cover public liability arising out of or in connection with the contractual activity and shall indemnify the persons indemnified against such claims above the amount of financial protection required, in the amount of \$500,000,000, excluding costs of investigating and settling claims and defending suits for damage in the aggregate for all persons indemnified in connection with such contract and for each nuclear incident: *Provided*, That this amount of indemnity shall be reduced by the amount that the financial protection required shall exceed \$60,000,000.

"(3) In the case of nuclear incidents occurring outside the United States, the amount of the indemnity provided by the Secretary shall not exceed \$100,000,000.

"(4) The provision of this subsection may be applicable to lump sum as well as cost type contracts and to contracts and projects financed in whole or in part by the Secretary.

"(5) A contractor with whom an agreement of indemnification has been executed and who is engaged in activities connected with the underground detonation of a nuclear explosive device shall be liable, to the extent so indemnified under this section, for injuries or damage sustained as a result of such detonation in the same manner and to the same extent as would a private person acting as principal, and no immunity or defense founded in the Federal, State, or municipal character of the contractor or of the work to be performed under the contract shall be effective to bar such liability."

SEC. 5. Section 170 e. of the Atomic Energy Act of 1954, as amended, is amended to read as follows:

"e. (1) With respect to liability for one or more nuclear incidents covered by an industry retrospective rating plan required by subsection 170 b., the aggregate payments in any year by or on behalf of persons indemnified, including the reasonable costs of investigating and settling claims and defending suits for damage, shall not be required to exceed the amount of financial protection provided in that year under subsection 170 b. The funds provided by financial protection under subsection 170 b. in any year by or on behalf of such persons indemnified, including the reasonable costs of investigating and settling claims and defending suits for damage, shall be the exclusive source of payments of public liability claims.

"(2) With respect to all other nuclear incidents, except as provided in subsection d. (1)(C), the aggregate liability for a single nuclear incident of persons indemnified, including the reasonable costs of investigating and settling claims and defending suits for damage, shall not exceed (a) the sum of \$500,000,000 together with the amount of financial protection required of the licensee or contractor, or (b) if the amount of financial protection required of the licensee exceeds \$60,000,000, such aggregate liability shall not exceed the sum of \$560,000,000 or the amount of financial protection required of the licensee, whichever is greater: *Provided*, That in the event of a nuclear incident involving damages in excess of the amount of aggregate liability, Congress will thoroughly review the particular incident and will take whatever action is deemed necessary and appropriate to protect the public from the consequences of a disaster of such magnitude: And *Provided further*, That with respect to any nuclear incident occurring

outside of the United States to which an agreement of indemnification entered into under the provisions of subsection 170 d. is applicable, such aggregate liability shall not exceed the amount of \$100,000,000 together with the amount of financial protection required of the contractor."

Sec. 6. Section 170 h. of the Atomic Energy Act of 1954, as amended, is amended—

(1) by inserting after "Commission" wherever it appears the following: "or the Secretary, as appropriate,"; and

(2) by inserting at the beginning of the last sentence the following: "Except with respect to activities indemnified under subsection d. (1)(C)."

Sec. 7. Section 170 i. of the Atomic Energy Act of 1954, as amended, is amended to read as follows:

"i. After any nuclear incident which will probably require payments by the United States under this section or after any extraordinary nuclear occurrence, the Commission or the Secretary, as appropriate, shall make a survey of the causes and extent of damage which shall forthwith be reported to the Congress, to the Congressmen of the affected districts, and to the Senators of the affected States, and, except for information which would cause serious damage to the national defense of the United States, all final findings shall be made available to the public, to the parties involved and to the courts. The Commission and the Secretary shall report annually to the Congress on the operations under this section."

Sec. 8. Section 170 k. of the Atomic Energy Act of 1954, as amended, is amended by striking out "August 1, 1987" wherever it appears and inserting in lieu thereof "August 1, 2002".

Sec. 9. Section 170 n. of the Atomic Energy Act of 1954, as amended, is amended to read as follows:

"n. (1) With respect to any extraordinary nuclear occurrence to which an insurance policy or contract furnished as proof of financial protection or an indemnity agreement applies and which—

"(a) arises out of or results or occurs in the course of the construction, possession, or operation of a production or utilization facility, or

"(b) arises out of or results from or occurs in the course of transportation of source material, byproduct material, or special nuclear material to or from a production or utilization facility, or

"(c) during the course of the contract activity arises out of or results from the possession, operation, or use by a Department of Energy contractor or subcontractor of a device utilizing special nuclear material or byproduct material, or

"(d) arises out of or results from or occurs in the course of construction, possession, or operation of any facility licensed under section 53, 63, or 81 of this Act, for which the Commission has imposed as a condition of the license a requirement that the licensee have and maintain financial protection pursuant to subsection 170 a., or for which an indemnity agreement is executed pursuant to subsection 170 k., or

"(e) arises out of or results from or occurs in the course of transportation of source material, byproduct material, or special nuclear material to or from any facility licensed under section 53, 63, or 81 of this Act, for which the Commission has imposed as a condition of the license a requirement that the licensee have and maintain finan-

cial protection pursuant to section 170 a., or for which the indemnity agreement is executed pursuant to subsection 170 k., or

"(f) arises out of or results from or occurs in the course of activities undertaken by the Secretary, including activities undertaken by contract, in connection with the storage or disposal of high-level waste, spent fuel, or transuranic waste, including the transportation of such materials to or from a storage or disposal site or facility or test and evaluation facility, the treatment or packaging of such materials to be stored in, disposed of, or used in such a site or facility, and the identification, development, licensing, construction, operation, decommissioning, and post-decommissioning maintenance and monitoring of any such site or facility,

and which does not arise out of or result from or occur in the course of an activity for which the Secretary may make expenditures from the Nuclear Waste Fund, the Commission, or the Secretary, as appropriate, may incorporate provisions in indemnity agreements with licensees and contractors under this section, and may require provisions to be incorporated in insurance policies or contracts furnished as proof of financial protection, and, with respect to any extraordinary nuclear occurrence to which an insurance policy or contract furnished as proof of financial protection applies and which arises out of or results from or occurs in the course of an activity for which the Secretary may make expenditures from the Nuclear Waste Fund, the Secretary shall incorporate provisions in indemnity agreements and shall require provisions to be incorporated in insurance policies or contracts furnished as proof of financial protection, which waive (i) any issue or defense as to conduct of the claimant or fault of persons indemnified, (ii) any issue or defense as to charitable or governmental immunity, and (iii) any issue or defense based on any statute of limitations if suit is instituted within three years from the date on which the claimant first knew, or reasonably could have known, of his injury or damage and the cause thereof, but in no event more than thirty years after the date of the nuclear incident. The waiver of any such issue or defense shall be effective regardless of whether such issue or defense may otherwise be deemed jurisdictional or relating to an element in the cause of action. When so incorporated, such waivers shall be judicially enforceable in accordance with their terms by the claimant against the person indemnified. Such waivers shall not preclude a defense based upon a failure to take reasonable steps to mitigate damages, nor shall such waivers apply to injury or damage to a claimant or to a claimant's property which is intentionally sustained by the claimant or which results from a nuclear incident intentionally and wrongfully caused by the claimant. The waivers authorized in this subsection shall, as to indemnitors, be effective only with respect to those obligations set forth in the insurance policies or the contracts furnished as proof of financial protection and in the indemnity agreements. Such waivers shall not apply to, or prejudice the prosecution or defense of, any claim or portion of claim which is not within the protection afforded under (i) the terms of insurance policies or contracts furnished as proof of financial protection, or indemnity agreements, and (ii) the limit of liability or limit of payment provisions of subsection 170e.

"(2) With respect to any public liability action arising out of or resulting from an extraordinary nuclear occurrence, the

United States district court in the district where the extraordinary nuclear occurrence takes place, or in the case of an extraordinary nuclear occurrence taking place outside the United States, the United States District Court for the District of Columbia, shall have original jurisdiction without regard to the citizenship of any party or the amount in controversy. Upon motion of the defendant or of the Commission or the Secretary, as appropriate, any such action pending in any State court or United States district court shall be removed or transferred to the United States district court having venue under this subsection. Process of such district court shall be effective throughout the United States.

"(3) With respect to any public liability action arising out of or resulting from any extraordinary nuclear occurrence, the Commission, or Secretary, as appropriate, shall, and any other indemnitor or other interested person may, submit to the district court having original jurisdiction pursuant to subparagraph (2), a plan for the disposition of pending claims and for the distribution of remaining funds available. Such a plan shall include an allocation of appropriate amounts for personal injury claims, property damage claims, and possible latent injury claims which may not be discovered until a later time and shall include establishment of priorities between claimants and classes of claims, as necessary to insure the most equitable allocation of available funds. Such court shall have all power necessary to approve, disapprove, or modify plans proposed, or to adopt another plan; and to determine the proportionate share of funds available for each claimant. The Commission or the Secretary, as appropriate, any other indemnitor, and any person indemnified shall be entitled to such orders as may be appropriate to implement and enforce the provisions of this section, including orders limiting the liability of the persons indemnified, orders approving or modifying the plan, orders staying the payment of claims and the execution of court judgments, orders apportioning the payments to be made to claimants, and orders permitting partial payments to be made before final determination of the total claims. The orders of such court shall be effective throughout the United States."

Sec. 10. Section 170 o. of the Atomic Energy Act of 1954, as amended, is amended to read as follows:

"o. Whenever the United States district court in the district where a nuclear incident occurs, or the United States district court for the District of Columbia in case of a nuclear incident occurring outside the United States, determines upon the petition of any indemnitor or other interested person that public liability from a single nuclear incident may exceed in any year the amount of financial protection available in that year under subsection 170 b., or the limit of liability under subsection 170 c. (2), as appropriate:

"(1) Total payments made by or for all indemnitors as a result of such nuclear incident shall not exceed 33 1/3 per centum of such amount of financial protection, or 15 per centum of such limit of liability, as appropriate, without the prior approval of such court.

"(2) The court shall not authorize payments in excess of 33 1/3 per centum of such amount of financial protection, or 15 per centum of such limit of liability, as appropriate, unless the court determines that such payments are or will be in accordance with a plan of distribution which has been

approved by the court or such payments are not likely to prejudice the subsequent adoption and implementation by the court of a plan of distribution pursuant to subparagraph (3) of subsection (n).

"(3) In situations where public liability is limited by the provisions of subsection 170 e. (2), the Commission or the Secretary, as appropriate, shall, within ninety days after a court shall have made such determination, deliver to the Congress a supplement to the report prepared in accordance with subsection 170 i. of this Act, setting forth the estimated requirements for full compensation and relief of all claimants, and recommendations as to the relief to be provided."

SEC. 11. Section 170 p. of the Atomic Energy Act of 1954, as amended, is amended to read as follows:

"p. In the event of two or more nuclear incidents for which public liability claims require payment from the industry retrospective rating plan under subsection 170 b., and for which there are outstanding public liability claims:

"(1) The maximum amount of private insurance available in any year for all nuclear incidents under the industry retrospective rating plan shall be apportioned equally, in the manner prescribed herein, among the nuclear incidents in that year to which the industry retrospective rating plan applies. The maximum amount of private insurance available in any year under the industry retrospective rating plan to satisfy the aggregate public liability claims resulting from a single nuclear incident shall be the quotient obtained by dividing the maximum amount of private insurance available in that year by the number of nuclear incidents to which the industry retrospective rating plan applies in that year. In the event that the aggregate public liability claims resulting from any single nuclear incident(s) in any year are less than the quotient for that year, the amount of private insurance constituting the difference shall be apportioned equally, in the same manner, among the remaining nuclear incidents for which the aggregate public liability claims exceed the quotient for that year.

"(2) In the event that the amount of insurance available in any year under the industry retrospective rating plan for public liability claims for a nuclear incident is reduced, pursuant to subparagraph (1) of this subsection, from the amount specified originally in the plan of the district court prepared pursuant to subsection 170 n. (3), such district court shall modify the original plan as necessary to insure the most equitable allocation of available funds. For purposes of such modifications, the district court shall have the same powers and authority as in adopting the original plan."

SEC. 12. Section 170 of the Atomic Energy Act of 1954, as amended, is amended by adding the following new subsection at the end thereof:

"q. The Commission and the Secretary shall submit to the Congress by August 1, 1998, detailed reports concerning the need for continuation or modification of the provisions of this section, taking into account the condition of the nuclear industry, availability of private insurance, and the state of knowledge concerning nuclear safety at that time among other relevant factors, and shall include recommendations as to the repeal or modification of any of the provisions of this section."

#### DEFINITIONS

SEC. 13. (a) Subsection s. of section 11 of the Atomic Energy Act of 1954, as amended,

is amended by adding at the end thereof the following: "For purposes of those activities that the Secretary of Energy is authorized or directed to undertake, pursuant to this Act or any other law, that involve the risk of public liability for a substantial nuclear incident as a result of the storage or disposal of spent nuclear fuel, high-level radioactive waste, or transuranic waste, including the transportation of such materials to or from a storage or disposal site or facility, or test and evaluation facility, the treatment or packaging of such materials to be stored in, disposed of, or used in any such a site or facility, and the identification, development licensing, construction, operation, decommissioning, and post-decommissioning maintenance and monitoring of such site or facility, the Secretary shall, to the extent that such activities are not undertaken by contract, be considered as if the Secretary were a contractor with whom an indemnity agreement has been entered into pursuant to subsection d. of this Act."

(b) Subsection w. of section 11 of the Atomic Energy Act of 1954, as amended, is amended to read as follows:

"w. The term public liability means any legal liability arising out of or resulting from a nuclear incident, except: (i) claims under State or Federal workmen's compensation acts of employees of persons indemnified who are employed at the site of and in connection with the activity where the nuclear incident occurs; (ii) claims arising out of an act of war; (iii) whenever used in subsection 170 a., c., and k., claims for loss of, or damage to, or loss of use of property which is located at the site of and used in connection with the licensed activity where the nuclear incident occurs; and (iv) claims for punitive damages. Public liability also includes damage to property of persons indemnified. *Provided*, That such property is covered under the terms of the financial protection required, except property which is located at the site of and used in connection with the activity where the nuclear incident occurs."

(c) Section 11 of the Atomic Energy Act of 1954, as amended, is amended by adding the following new subsection at the end thereof:

"dd. The term Nuclear Waste Fund means the Nuclear Waste Fund established in section 302 of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10222)."

#### CONFORMING AMENDMENTS

SEC. 14. Subsections g., j., and m. of section 170 of the Atomic Energy Act of 1954, as amended, are amended by inserting after "Commission" wherever it appears the following: "or the Secretary, as appropriate."

SEC. 15. Section 170. a. of the Atomic Energy Act of 1954, as amended, is amended by striking in the first sentence "the Commission" and inserting in lieu thereof "the Nuclear Regulatory Commission (hereinafter in the section referred to as "the Commission")."

By Mr. PROXMIRE (for himself and Mr. GARN) (by request):

S. 45. A bill relating to recapitalization of FSLIC; to the Committee on Banking, Housing, and Urban Affairs.

#### RECAPITALIZATION OF THE FSLIC

Mr. PROXMIRE. Mr. President, I am today introducing, at the request of the administration, a bill relating to recapitalization of the FSLIC. I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 45

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### TITLE I—RECAPITALIZATION OF FSLIC

##### SEC. 1001. SHORT TITLE.

This title may be cited as the "Federal Savings and Loan Insurance Corporation Recapitalization Act of 1986".

##### SEC. 1002. FINANCING CORPORATION ESTABLISHED.

The Federal Home Loan Bank Act (12 U.S.C. 1421 et seq.) is amended by inserting after section 20 the following new section:

##### "SEC. 21. FINANCING CORPORATION.

"(a) ESTABLISHMENT.—Notwithstanding any other provision of law, the Board shall charter a corporation to be known as the Financing Corporation.

"(b) MANAGEMENT OF FINANCING CORPORATION.—

"(1) DIRECTORATE.—The Financing Corporation shall be under the management of a directorate composed of 3 members as follows:

"(A) The Director of the Office of Finance of the Federal Home Loan Banks (or the head of any successor to such office).

"(B) 2 members selected by the Chairman of the Federal Home Loan Bank Board from among the presidents of the Federal Home Loan Banks.

"(2) TERMS.—Each member appointed under paragraph (1)(B) shall be appointed for a term of 1 year.

"(3) VACANCY.—If any member leaves the office in which such member was serving when appointed to the Directorate—

"(A) such member's service on the Directorate shall terminate on the date such member leaves such office; and

"(B) the successor to the office of such member shall serve the remainder of such member's term.

"(4) EQUAL REPRESENTATION OF BANKS.—No president of a Federal Home Loan Bank may be appointed to serve an additional term on the Directorate until such time as the presidents of each of the other Federal Home Loan Banks have served as many terms on the Directorate as the president of such bank (before the appointment of such president to such additional term).

"(5) CHAIRPERSON.—The Chairman of the Federal Home Loan Bank Board shall select the chairperson of the Directorate from among the 3 members of the Directorate.

"(6) STAFF.—

"(A) NO PAID EMPLOYEES.—The Financing Corporation shall have no paid employees.

"(B) POWERS.—The Directorate may, with the approval of the Board, authorize the officers, employees, or agents of the Federal Home Loan Banks to act for and on behalf of the Financing Corporation in such manner as may be necessary to carry out the functions of the Financing Corporation.

"(7) ADMINISTRATIVE EXPENSES.—

"(A) IN GENERAL.—All administrative expenses of the Financing Corporation shall be paid by the Federal Home Loan Banks.

"(B) PRO RATA DISTRIBUTION.—The amount each Federal Home Loan Bank shall pay shall be determined by the Board by multiplying the total administrative expenses for any period by the percentage arrived at by dividing—

"(i) the aggregate amount the Board required such bank to invest in the Financing

Corporation (as of the time of such determination) under paragraphs (4) and (5) of subsection (d) (as computed without regard to paragraph (3) or (6) of such subsection); by

"(ii) the aggregate amount the Board required all Federal Home Loan Banks to invest (as of the time of such determination) under such paragraphs.

"(C) ADMINISTRATIVE EXPENSES DEFINED.—For purposes of this paragraph, the term 'administrative expenses' does not include—

"(i) issuance costs (as such term is defined in subsection (g)(5)(A));

"(ii) any interest on (and any redemption premium with respect to) any obligation of the Financing Corporation; or

"(iii) custodian fees (as such term is defined in subsection (g)(5)(B)).

"(8) REGULATION BY BOARD.—The Directorate shall be subject to such regulations, orders, and directions as the Board may prescribe.

"(9) NO COMPENSATION FROM FINANCING CORPORATION.—Members of the Directorate shall receive no pay, allowances, or benefits from the Financing Corporation by reason of their service on the Directorate.

"(c) POWERS OF FINANCING CORPORATION.—The Financing Corporation shall have only the following powers, subject to the other provisions of this section and such regulations, orders, and directions as the Board may prescribe:

"(1) To issue nonvoting capital stock to the Federal Home Loan Banks.

"(2) To invest in any security issued by the Federal Savings and Loan Insurance Corporation under section 402(b) of the National Housing Act.

"(3) To issue debentures, bonds, or other obligations and to borrow, to give security for any amount borrowed, and to pay interest on (and any redemption premium with respect to) any such obligation or amount.

"(4) To impose assessments in accordance with subsection (f).

"(5) To adopt, alter, and use a corporate seal.

"(6) To have succession until dissolved.

"(7) To enter into contracts.

"(8) To sue and be sued in its corporate capacity, and to complain and defend in any action brought by or against the Financing Corporation in any State or Federal court of competent jurisdiction.

"(9) To exercise such incidental powers not inconsistent with the provisions of this section or section 402(b) of the National Housing Act as are necessary or appropriate to carry out the provisions of this section.

"(d) CAPITALIZATION OF FINANCING CORPORATION.—

"(1) PURCHASE OF CAPITAL STOCK BY HOME LOAN BANKS.—

"(A) IN GENERAL.—Each Federal Home Loan Bank shall invest in nonvoting capital stock of the Financing Corporation at such times and in such amounts as the Board may prescribe under this subsection.

"(B) PAR VALUE; TRANSFERABILITY.—Each share of stock issued by the Financing Corporation to a Federal Home Loan Bank shall have par value in an amount determined by the Board and shall be transferable only among the Federal Home Loan Banks in the manner and to the extent prescribed by the Board at not less than par value.

"(2) AGGREGATE DOLLAR AMOUNT LIMITATION ON ALL INVESTMENTS.—The aggregate amount of funds invested by all Federal Home Loan Banks in nonvoting capital stock of the Financing Corporation shall not exceed \$3,000,000,000.

"(3) MAXIMUM INVESTMENT AMOUNT LIMITATION FOR EACH HOME LOAN BANK.—The cumulative amount of funds invested in nonvoting capital stock of the Financing Corporation by each Federal Home Loan Bank shall not exceed the aggregate amount of—

"(A) the sum of—

"(i) the reserves maintained by such bank on December 31, 1985, pursuant to the requirement contained in the first 2 sentences of section 16; and

"(ii) the undivided profits (as defined in paragraph (7)) of such bank on such date; and

"(B) the sum of—

"(i) the amounts required to be carried to reserves after December 31, 1985, pursuant to the requirement contained in the first 2 sentences of section 16; and

"(ii) the undivided profits of such bank accruing after such date.

"(4) PRO RATA DISTRIBUTION OF 1ST \$1,000,000,000 INVESTED IN FINANCING CORPORATION BY HOME LOAN BANKS.—With respect to the first \$1,000,000,000 which the Board may require the Federal Home Loan Banks to invest in capital stock of the Financing Corporation under this subsection, the amount which each Home Loan Bank (or any successor to such bank) shall invest shall be determined by the Board by applying to the total amount of such investment by all such banks the percentage appearing in the following table for each such bank:

Bank	Percentage
Federal Home Loan Bank of Boston.....	1.8629
Federal Home Loan Bank of New York.....	9.1006
Federal Home Loan Bank of Pittsburgh...	4.2702
Federal Home Loan Bank of Atlanta.....	14.4007
Federal Home Loan Bank of Cincinnati....	8.2653
Federal Home Loan Bank of Indianapolis...	5.2863
Federal Home Loan Bank of Chicago.....	9.6886
Federal Home Loan Bank of Des Moines...	6.9301
Federal Home Loan Bank of Dallas.....	8.8181
Federal Home Loan Bank of Topeka.....	5.2706
Federal Home Loan Bank of San Francisco.....	19.9644
Federal Home Loan Bank of Seattle.....	6.1422

"(5) PRO RATA DISTRIBUTION OF AMOUNTS REQUIRED TO BE INVESTED IN EXCESS OF \$1,000,000,000.—With respect to any amount in excess of \$1,000,000,000 which the Board may require the Federal Home Loan Banks to invest in capital stock of the Financing Corporation under this subsection, the amount which each Federal Home Loan Bank (or any successor to such bank) shall invest shall be determined by the Board by multiplying such excess amount by the percentage arrived at by dividing—

"(A) the sum of the total assets (as of the most recent December 31) held by all insured institutions which are members of such bank; by

"(B) the sum of the total assets (as of such date) held by all insured institutions which are members of any Federal Home Loan Bank.

"(6) SPECIAL PROVISIONS RELATING TO MAXIMUM AMOUNT LIMITATIONS.—

"(A) IN GENERAL.—If the amount any Federal Home Loan Bank is required to invest in capital stock of the Financing Corporation pursuant to a determination by the Board under paragraph (5) (or under subparagraph (B) of this paragraph) exceeds the maximum investment amount applicable with respect to such bank under paragraph (3) at the time of such determination (hereinafter in this paragraph referred to as the 'excess amount')—

"(i) the Board shall require each remaining Federal Home Loan Bank to invest (in addition to the amount determined under paragraph (5) for such remaining bank and subject to the maximum investment amount applicable with respect to such remaining bank under paragraph (3) at the time of such determination) in such capital stock on behalf of the bank in the amount determined under subparagraph (B);

"(ii) the Board shall require the bank to subsequently purchase the excess amount of capital stock from the remaining banks in the manner described in subparagraph (C); and

"(iii) the requirements contained in subparagraphs (D) and (E) relating to the use of net earnings available for dividends shall apply to such bank until the bank has purchased all of the excess amount of capital stock.

"(B) ALLOCATION OF EXCESS AMOUNT AMONG REMAINING BANKS.—The amount each remaining Federal Home Loan Bank shall be required to invest under subparagraph (A)(i) is the amount determined by the Board by multiplying the excess amount by the percentage arrived at by dividing—

"(i) the amount of capital stock of the Financing Corporation held by such remaining bank at the time of such determination; by

"(ii) the aggregate amount of such stock held by all remaining banks at such time.

"(C) PURCHASE PROCEDURE.—The bank on whose behalf an investment in capital stock is made under subparagraph (A)(i) shall purchase, annually and at the issuance price, from each remaining bank an amount of such stock determined by the Board by multiplying the amount available for such purchases (at the time of such determination) by the percentage determined under subparagraph (B) with respect to such remaining bank until the aggregate amount of such capital stock has been purchased by the bank.

"(D) LIMITATION ON DIVIDENDS.—The amount of dividends which may be paid for any year by a bank on whose behalf an investment is made under subparagraph (A)(i) shall not exceed an amount equal to 1/2 of the net earnings available for dividends of the bank for the year.

"(E) TRANSFER TO ACCOUNT FOR PURCHASE OF STOCK REQUIRED.—Of the net earnings available for dividends for any year of a bank on whose behalf an investment is made under subparagraph (A)(i), such amount as is necessary to make the purchases of stock required under subparagraph (A)(ii) shall be placed in a reserve account (established in such manner as the Board shall prescribe by regulations, orders and directions) the balance in which shall be available only for such purchases.

"(F) NET EARNINGS AVAILABLE FOR DIVIDENDS DEFINED.—For purposes of this paragraph, the term 'net earnings available for dividends' means the net earnings of a bank for any period as computed after reducing the amount of earnings for such period by the amount required to be carried (for such

period) to reserves maintained by such bank pursuant to the first two sentences of section 16 of this Act.

"(7) **UNDIVIDED PROFITS DEFINED.**—For purposes of paragraph (3), the term 'undivided profits' means retained earnings minus the sum of—

"(A) that portion required to be carried to reserves maintained pursuant to the first two sentences of section 16 of this Act; and

"(B) the dollar amounts held by the respective Federal Home Loan Banks in special dividend stabilization reserves on December 31, 1985 as determined under the following table:

Bank	Dollar amount
Federal Home Loan Bank of Boston	\$3.2 million
Federal Home Loan Bank of New York	7.7 million
Federal Home Loan Bank of Pittsburgh	5.2 million
Federal Home Loan Bank of Atlanta	12.3 million
Federal Home Loan Bank of Cincinnati	5.9 million
Federal Home Loan Bank of Indianapolis	37.4 million
Federal Home Loan Bank of Chicago	6.0 million
Federal Home Loan Bank of Des Moines	32.7 million
Federal Home Loan Bank of Dallas	45.0 million
Federal Home Loan Bank of Topeka	13.7 million
Federal Home Loan Bank of San Francisco	21.9 million
Federal Home Loan Bank of Seattle	33.6 million

"(e) **OBLIGATIONS OF THE FINANCING CORPORATION.**—

"(1) **LIMITATION ON AMOUNT OF OUTSTANDING OBLIGATIONS.**—The aggregate amount of obligations of the Financing Corporation which may be outstanding at any time (as determined by the Board) shall not exceed the greater of—

"(A) 5 times the amount of the nonvoting capital stock of the Financing Corporation which is outstanding at such time; or

"(B) the sum of the face amounts (principal payable at maturity) of securities described in subsection (g)(2) which are held at such time in the segregated account established pursuant to such subsection.

"(2) **NET PROCEEDS TO BE INVESTED IN CAPITAL OF FSLIC.**—Subject to such terms and conditions as may be approved by the Board, the net proceeds of any obligation issued by the Financing Corporation shall be used to—

"(A) purchase capital certificates or capital stock issued by the Federal Savings and Loan Insurance Corporation under section 402(b)(1)(A) of the National Housing Act; or

"(B) refund any previously issued obligation the net proceeds of which were invested in the manner described in subparagraph (A).

"(3) **LIMITATION ON TERM OF OBLIGATIONS.**—No obligation of the Financing Corporation may be issued which matures—

"(A) more than 30 years after the date of issue; or

"(B) after December 31, 2026.

"(4) **INVESTMENT OF UNITED STATES FUNDS IN OBLIGATIONS.**—Obligations issued under this section by the Financing Corporation with the approval of the Board shall be lawful investments, and may be accepted as security, for all fiduciary, trust, and public funds the investment or deposit of which shall be

under the authority or control of the United States or any officer of the United States.

"(5) **MARKET FOR OBLIGATIONS.**—All persons having the power to invest in, sell, underwrite, purchase for their own accounts, accept as security, or otherwise deal in obligations of the Federal Home Loan Banks shall also have the power to do so with respect to obligations of the Financing Corporation.

"(6) **NO FULL FAITH AND CREDIT OF THE UNITED STATES.**—Obligations of the Financing Corporation and the interest payable on such obligations shall not be obligations of, or guaranteed as to principal or interest by, the Federal Home Loan Banks, the United States, or the Federal Savings and Loan Insurance Corporation and the obligations shall so plainly state.

"(7) **TAX EXEMPT STATUS.**—

"(A) **IN GENERAL.**—Except as provided in subparagraph (B), obligations of the Financing Corporation shall be exempt from tax both as to principal and interest to the same extent as any obligation of a Federal Home Loan Bank is exempt from tax under section 13.

"(B) **EXCEPTION.**—The Financing Corporation, like the Federal Home Loan Banks, shall be treated as an agency of the United States for purposes of the first sentence of section 3124(b) of title 31, United States Code (relating to determination of tax status of interest on obligations).

"(8) **OBLIGATIONS ARE EXEMPT SECURITIES.**—Notwithstanding paragraph (6), obligations of the Financing Corporation shall be deemed to be exempt securities (within the meaning of laws administered by the Securities and Exchange Commission) to the same extent as securities which are direct obligations of the United States or are guaranteed as to principal or interest by the United States.

"(f) **ASSESSMENT AUTHORITY OF THE FINANCING CORPORATION.**—

"(1) **IN GENERAL.**—The Financing Corporation may assess, with the approval of the Board, on each insured institution an assessment for each semiannual period equal to  $\frac{1}{2}$  of an amount not to exceed  $\frac{1}{16}$ th of 1 percent of the aggregate amount of all accounts of insured members of such insured institution for the year in which such semiannual period occurs.

"(2) **SUPPLEMENTAL ASSESSMENT AUTHORIZED.**—Upon the unanimous vote of the Directorate that additional funds are needed to pay the interest on the obligations of the Financing Corporation because no other funds are available, the Financing Corporation may assess, with the approval of the Board and in addition to any assessment assessed under paragraph (1), on each insured institution an assessment for each semiannual period of  $\frac{1}{2}$  of an amount not to exceed  $\frac{1}{16}$ th of 1 percent of the aggregate amount of all accounts of insured members of such insured institution for the year in which such semiannual period occurs.

"(3) **TOTAL AMOUNT OF ASSESSMENTS MAY NOT EXCEED INTEREST AND FINANCING COSTS.**—The aggregate amount of assessments assessed under paragraphs (1) and (2) with respect to any semiannual period may not exceed—

"(A) the aggregate amount of—

"(i) issuance costs (as such term is defined in subsection (g)(5)(A)) incurred with respect to obligations issued during such semiannual period;

"(ii) interest paid on (and any redemption premium paid with respect to) obligations of

the Financing Corporation during such semiannual period; and

"(iii) custodian fees (as such term is defined in subsection (g)(5)(B)) incurred during such period; minus

"(B) the aggregate amount of any payments under subsection (g)(4) during such semiannual period.

"(4) **PAYMENT TO FINANCING CORPORATION.**—All assessments assessed under paragraph (1) or (2) shall be paid to the Financing Corporation.

"(g) **USE AND DISPOSITION OF ASSETS OF THE FINANCING CORPORATION NOT INVESTED IN FSLIC.**—

"(1) **IN GENERAL.**—Subject to such regulations, restrictions, and limitations as may be prescribed by the Board, assets of the Financing Corporation which are not invested in capital certificates or capital stock issued by the Federal Savings and Loan Insurance Corporation under section 402(b)(1)(A) of the National Housing Act shall be invested in—

"(A) direct obligations of the United States;

"(B) obligations, participations, or other instruments of, or issued by, the Federal National Mortgage Association or the Government National Mortgage Association;

"(C) mortgages, obligations, or other securities for sale by, or which have been disposed of by, the Federal Home Loan Mortgage Corporation under section 305 or 306 of the Federal Home Loan Mortgage Corporation Act; or

"(D) any other security in which it is lawful for fiduciary and trust funds to be invested under the laws of any State.

"(2) **SEGREGATED ACCOUNT FOR ZERO COUPON INSTRUMENTS HELD TO ASSURE PAYMENT OF PRINCIPAL.**—The Financing Corporation shall invest in, and hold in a segregated account, noninterest bearing instruments—

"(A) which are securities described in paragraph (1); and

"(B) the total of the face amounts (principal payable at maturity) of which is approximately equal to the aggregate amount of principal on the obligations of the Financing Corporation,

to assure the repayment of principal on obligations of the Financing Corporation.

"(3) **DOLLAR AMOUNT LIMITATION ON INVESTMENT IN ZERO COUPON INSTRUMENTS FOR SEGREGATED ACCOUNT.**—The aggregate amount invested by the Financing Corporation under paragraph (2) shall not exceed \$2,200,000,000 (as determined on the basis of the purchase price).

"(4) **EXCEPTION FOR PAYMENT OF ISSUANCE COSTS, INTEREST, AND CUSTODIAN FEES.**—Notwithstanding the requirements of paragraph (1), the assets of the Financing Corporation referred to in paragraph (1) which are not invested under paragraph (2) may be used to pay—

"(A) issuance costs;

"(B) any interest on (and any redemption premium with respect to) any obligation of the Financing Corporation; and

"(C) custodian fees.

"(5) **DEFINITIONS.**—For purposes of this subsection—

"(A) **ISSUANCE COSTS.**—The term 'issuance costs'—

"(i) means issuance fees and commissions incurred by the Financing Corporation in connection with the issuance or servicing of any obligation of the Financing Corporation; and

"(ii) includes legal and accounting expenses, trustee and fiscal and paying agent

charges, costs incurred in connection with preparing and printing offering materials, and advertising expenses, to the extent that any such cost or expense is incurred by the Financing Corporation in connection with issuing any obligation.

"(B) CUSTODIAN FEES.—The term 'custodian fee' means—

"(i) any fee incurred by the Financing Corporation in connection with the transfer of any security to, or the maintenance of any security in, the segregated account established under paragraph (2); and

"(ii) any other expense incurred by the Financing Corporation in connection with the establishment or maintenance of such account.

"(h) MISCELLANEOUS PROVISIONS RELATING TO FINANCING CORPORATION.—

"(1) TREATMENT FOR CERTAIN PURPOSES.—The Financing Corporation shall be treated as a Federal Home Loan Bank for purposes of sections 13 and 23.

"(2) SUNSET PROVISION FOR BORROWING AUTHORITY.—No net new borrowing may be made by the Financing Corporation after December 31, 1996.

"(3) FEDERAL RESERVE BANKS AS DEPOSITARIES AND FISCAL AGENTS.—The Federal Reserve banks are authorized to act as depositaries for or fiscal agents or custodians of the Financing Corporation.

"(4) APPLICABILITY OF CERTAIN PROVISIONS RELATING TO GOVERNMENT CORPORATION.—Notwithstanding the fact that no government funds may be invested in the Financing Corporation, the Financing Corporation shall be treated, for purposes of sections 9105, 9107, and 9108 of title 31, United States Code, as a mixed-ownership Government corporation which has capital of the Government.

"(i) FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION INDUSTRY ADVISORY COMMITTEE.—

"(1) ESTABLISHMENT.—There is hereby established the Federal Savings and Loan Insurance Corporation Industry Advisory Committee (hereinafter in this subsection referred to as the 'Committee').

"(2) MEMBERSHIP.—

"(A) APPOINTMENT.—The Committee shall consist of 13 members selected as follows:

"(i) 1 member appointed by the Chairman of the Board from among individuals who are officers of insured institutions and who are not members of the Board or employees of the Board, the Federal Savings and Loan Insurance Corporation, or the Board of Directors of any Federal Home Loan Bank.

"(ii) 1 member elected from each Federal Home Loan Bank district (by the members of the Board of Directors of each such bank who were elected by the members of such bank) from among individuals who are officers of insured institutions.

"(B) TERMS.—Members shall be appointed or elected for terms of 1 year.

"(C) CHAIRPERSON.—The member appointed under subparagraph (A)(i) shall be the chairperson of the Committee.

"(D) VACANCIES.—Any vacancy on the Committee shall be filled in the manner in which the original appointment was made.

"(E) PAY AND EXPENSES.—Members of the Committee shall serve without pay but each member of the Committee shall be reimbursed, in such manner as the Board may prescribe by regulation, by the Federal Home Loan Bank which elected such member (and, in the case of the member appointed by the Chairman of the Board, by the Board) for expenses incurred in connection with attendance of such members at meetings of the Committee.

"(F) MEETINGS.—The Committee shall meet from time to time at the call of the chairperson or a majority of the members.

"(3) DUTIES OF THE COMMITTEE.—The duties of the Committee are as follows:

"(A) To review the reports and budgets prepared pursuant to section 402(k) of the National Housing Act and any other matter which the Board may present for the Committee's consideration.

"(B) To confer with the Board on the reports, budgets, and other matters reviewed under subparagraph (A).

"(C) To prepare written comments and recommendations for the Board and the Federal Savings and Loan Insurance Corporation with respect to the reports, budgets, and other matters reviewed under subparagraph (A) (which shall be submitted to the Board in a timely manner after each meeting).

"(4) ANNUAL REPORT.—

"(A) REQUIRED.—Not later than January 15 of each year, the Committee shall submit a report to the Committee on Banking, Finance and Urban Affairs of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate.

"(B) CONTENTS.—The report required under subparagraph (A) shall describe the activities of the Committee during the preceding year and the reports and recommendations made by the Committee to the Board and the Federal Savings and Loan Insurance Corporation during such year.

"(5) REGULATIONS.—The Board shall prescribe such regulations as the Board determines to be appropriate to avoid conflicts of interest with respect to the disclosure to and use by members of the Committee of information relating to the Board, the Federal Savings and Loan Insurance Corporation, the Federal Home Loan Banks, and the Federal Asset Disposition Association.

"(6) FEDERAL ADVISORY COMMITTEE ACT DOES NOT APPLY.—The Federal Advisory Committee Act shall not apply to the Committee.

"(7) TERMINATION.—The Committee shall terminate when the Financing Corporation terminates under subsection (j).

"(j) TERMINATION OF THE FINANCING CORPORATION.—

"(1) IN GENERAL.—The Financing Corporation shall be dissolved, as soon as practicable, after the earlier of—

"(A) the date by which all stock purchased by the Financing Corporation in the Federal Savings and Loan Insurance Corporation has been retired; or

"(B) December 31, 2026.

"(2) BOARD AUTHORITY TO CONCLUDE THE AFFAIRS OF FINANCING CORPORATION.—Effective on the date of the dissolution of the Financing Corporation under paragraph (1), the Board may exercise, on behalf of the Financing Corporation, any power of the Financing Corporation which the Board determines to be necessary to settle and conclude the affairs of the Financing Corporation.

"(k) REGULATIONS.—The Board may prescribe such regulations as may be necessary to carry out the provisions of this section, including regulations defining terms used in this section.

"(l) DEFINITIONS.—For purposes of this section—

"(1) INSURED INSTITUTION.—The term 'insured institution' has the meaning given to such term by section 401(a) of the National Housing Act.

"(2) INSURED MEMBER.—The term 'insured member' has the meaning given to such term by section 401(b) of the National Housing Act.

"(3) DIRECTORATE.—The term 'Directorate' means the directorate established in the manner provided in subsection (b)(1) to manage the Financing Corporation."

SEC. 1003. MIXED OWNERSHIP GOVERNMENT CORPORATION.

Section 9101(2) of title 31, United States Code, is amended by adding at the end thereof the following new subparagraph:

"(K) The Financing Corporation."

SEC. 1004. RECAPITALIZATION OF FSLIC.

Section 402(b) of the National Housing Act (12 U.S.C. 1725(b)) is amended to read as follows:

"(b) ISSUANCE AND SALE OF CAPITAL CERTIFICATES AND STOCK TO FINANCING CORPORATION.—

"(1) AUTHORIZATION TO ISSUE.—

"(A) IN GENERAL.—Notwithstanding any other provision of law, the Corporation may issue—

"(i) nonredeemable capital certificates; and

"(ii) redeemable nonvoting capital stock.

"(B) REQUIREMENT RELATING TO AMOUNT OF STOCK.—The aggregate amount of stock issued by the Corporation under subparagraph (A)(ii) shall be equal to the aggregate amount of the investments made by the Federal Home Loan Banks in the capital stock of the Financing Corporation under section 21 of the Federal Home Loan Bank Act.

"(C) CERTIFICATES AND STOCK MAY BE SOLD ONLY TO FINANCING CORPORATION.—Capital certificates and stock issued under subparagraph (A) may be sold only to the Financing Corporation in the manner and to the extent provided in section 21 of the Federal Home Loan Bank Act and this subsection.

"(D) PROCEEDS OF SALE ARE PART OF PRIMARY RESERVE.—The proceeds of any sale of capital certificates or stock under this subparagraph shall be considered part of the primary reserve established by the Corporation pursuant to section 404(a).

"(E) NO DIVIDENDS.—The Corporation shall pay no dividends on any capital certificates or stock issued under this subparagraph.

"(2) EQUITY RETURN ACCOUNT.—

"(A) IN GENERAL.—The Corporation shall establish and maintain (until all capital certificates and stock issued under subparagraph (A) have been paid off and retired) an equity return account—

"(i) which shall consist only of amounts contributed in accordance with the requirements of subparagraph (B);

"(ii) which shall not be treated as reserves of the Corporation; and

"(iii) the earnings accruing in which shall be transferred in the manner provided in subparagraph (D).

"(B) CONTRIBUTIONS TO ACCOUNT.—

"(i) NO CONTRIBUTION IF RESERVES-TO-ACCOUNTS RATIO IS LESS THAN 0.5 PERCENT.—No contribution shall be made to the equity reserve account established pursuant to subparagraph (A) in any year in which the reserves-to-accounts ratio is less than 0.5 percent.

"(ii) ANNUAL CONTRIBUTIONS REQUIRED.—Except as provided in clause (i), the Corporation shall make contributions to the equity reserve account established pursuant to subparagraph (A)—

"(I) at the end of each year beginning after 1996 through the final payoff year (as defined in clause (vii)); and

"(II) in amounts determined under clauses (iii), (iv), (v), and (vi) of this subparagraph.

"(iii) AMOUNT OF PRIMARY CONTRIBUTION.—The primary contribution to the equity return account for any year for which a contribution is required to be made shall be the amount determined by dividing—

"(I) the aggregate amount of capital stock issued by the Corporation and purchased by the Financing Corporation under paragraph (1)(A); by

"(II) the number of years between the first year beginning after 1996 in which the reserves-to-accounts ratio is equal to or greater than 0.5 percent and the final payoff year (taking into account the first and last year described).

"(iv) AMOUNT OF ADDITIONAL CONTRIBUTION ALLOWED IF RESERVES-TO-ACCOUNTS RATIO DOES NOT EXCEED 1.25 PERCENT.—In any year in which the reserves-to-accounts ratio is equal to or greater than 1 percent but less than 1.25 percent, the Federal Home Loan Bank Board may require the Corporation to make an additional contribution of an amount not to exceed the amount determined by dividing—

"(I) the investment return amount (as defined in clause (viii)) computed at an annual compound rate not to exceed 6 percent; by

"(II) the number of years between the first year beginning after 1996 in which the reserves-to-accounts ratio was equal to or greater than 1 percent and the final payoff year (taking into account the first and last year described).

"(v) AMOUNT OF ADDITIONAL CONTRIBUTION ALLOWED IF RESERVES-TO-ACCOUNTS RATIO DOES NOT EXCEED 1.75 PERCENT.—In any year in which the reserves-to-accounts ratio is equal to or greater than 1.25 percent but less than 1.75 percent, the Federal Home Loan Bank Board may require the Corporation to make an additional contribution of an amount not to exceed the amount determined by dividing—

"(I) the investment return amount computed at an annual compound rate not to exceed 8 percent, minus the sum of any amounts contributed under clause (iv); by

"(II) the number of years between the first year beginning after 1996 in which the reserves-to-accounts ratio was equal to or greater than 1.25 percent and the final payoff year (taking into account the first and last year described).

"(vi) AMOUNT OF ADDITIONAL CONTRIBUTION ALLOWED IF RESERVES-TO-ACCOUNTS RATIO EXCEEDS 1.75 PERCENT.—In any year in which the reserves-to-accounts ratio is equal to or greater than 1.75 percent, the Federal Home Loan Bank Board may require the Corporation to make an additional contribution of an amount not to exceed the amount determined by dividing—

"(I) the investment return amount computed at an annual compound rate not to exceed 10 percent, minus the sum of any amounts contributed under clause (iv) or (v); by

"(II) the number of years between the first year beginning after 1996 in which the reserves-to-accounts ratio was equal to or greater than 1.75 percent and the final payoff year (taking into account the first and last year described).

"(vii) FINAL PAYOFF YEAR DEFINED.—For purposes of this subparagraph, the term 'final payoff year' means the year of maturity of the obligation of the Financing Corporation which, on January 1, 1997, has the longest remaining term to maturity of all the obligations of the Financing Corporation (under section 21 of the Federal Home Loan Bank Act) which are outstanding on such date.

"(viii) INVESTMENT RETURN AMOUNT.—For purposes of clauses (iv), (v), and (vi), the term 'investment return amount' means the amount which would be realized on the aggregate amount invested by the Financing Corporation in capital stock issued by the Corporation under paragraph (1) over the period of the investment if the return on the investment is computed at the rate described in subclause (I) of the respective clauses.

"(C) INVESTMENT OF AMOUNTS IN ACCOUNT.—Amounts accumulating in the equity return account may be invested in such manner as the Corporation determines.

"(D) TRANSFER OF EARNINGS TO PRIMARY RESERVE.—Earnings accruing on any investment (under subparagraph (C)) of amounts in the equity return account shall be transferred to the primary reserve account of the Corporation established pursuant to section 404(a) as such earnings are realized by the Corporation and shall not be treated as amounts in the account.

"(E) RETIREMENT OF CAPITAL STOCK USING BALANCE IN ACCOUNT.—Upon maturity of all obligations of the Financing Corporation under section 21 of the Federal Home Loan Bank Act, the Corporation shall pay off and retire any capital stock issued under paragraph (1)(A)(ii) using only amounts accumulated in the equity return account.

"(F) RESERVES-TO-ACCOUNTS RATIO DEFINED.—For purposes of this paragraph, the term 'reserves-to-accounts ratio' means, with respect to any year, the amount determined by dividing—

"(i) the amount of reserves of the Corporation (determined as of December 31 of the preceding year); by

"(ii) the aggregate amount of all accounts of all of its insured members (determined as of such date).

"(3) FINANCING CORPORATION DEFINED.—For purposes of this subsection, the term 'Financing Corporation' means the Financing Corporation established under section 21 of the Federal Home Loan Bank Act.

"(4) NO REDUCTION OR SUSPENSION OF INSURANCE PREMIUMS WHILE STOCK IS OUTSTANDING.—Notwithstanding any other provision of law, the provisions of subsections (b)(2), (d)(1)(B), and (g) of section 404 shall not apply as long as any share of capital stock issued under paragraph (1)(A)(ii) is outstanding."

#### SEC. 1005. FSLIC AUTHORITY TO CHARGE PREMIUMS REDUCED BY AMOUNT OF FINANCING CORPORATION ASSESSMENTS.

Section 404 of the National Housing Act is amended by redesignating subsections (d) through (i) as subsections (e) through (j), respectively, and by inserting after subsection (c) the following new subsection:

"(d) AUTHORITY TO CHARGE PREMIUMS REDUCED BY AMOUNT OF FINANCING CORPORATION ASSESSMENTS.—Notwithstanding any other provision of this section, the sum of—

"(1) the amount of any premium required to be paid by any insured institution under subsection (b)(1); and

"(2) the amount of any premium authorized to be assessed by the Corporation under subsection (c) with respect to such institution,

for any period shall be reduced by the amount of any assessment paid for such period by such insured institution to the Financing Corporation pursuant to section 21(f) of the Federal Home Loan Bank Act."

#### SEC. 1006. MISCELLANEOUS PROVISIONS.

(a) FEDERAL HOME LOAN BANK DIVIDENDS.—Section 16 of the Federal Home Loan Bank Act (12 U.S.C. 1436) is amended by adding at the end thereof the following new subsection:

"(c) EXCEPTION IN CASE OF LOSSES IN CONNECTION WITH FINANCING CORPORATION STOCK.—

"(1) IN GENERAL.—Notwithstanding subsection (a) of this section, if—

"(A) a Federal Home Loan Bank incurs a chargeoff or an expense in connection with such bank's investment in the stock of the Financing Corporation under section 21;

"(B) the Board determines there is an extraordinary need for the member institutions of the bank to receive dividends; and

"(C) the bank has reduced all reserves (other than the reserve account required by the first 2 sentences of subsection (a)) to zero,

the Board may authorize such bank to declare and pay dividends out of undivided profits (as such term is defined in section 21(d)(7)) or the reserve account required by the first 2 sentences of subsection (a).

"(2) REQUIREMENTS OF SECTION 21 NOT AFFECTED.—Notwithstanding any payment of dividends by any Federal Home Loan Bank pursuant to an authorization by the Board under paragraph (1), the applicable provisions of section 21 shall continue to apply with respect to such bank, and to such bank's investment in the Financing Corporation, in the same manner and to the same extent as if such payment had not been made."

(b) CONFORMING AMENDMENT.—Section 402(h) of the National Housing Act (12 U.S.C. 1725(h)) is amended—

(1) by striking out "After the effective date" and inserting in lieu thereof "(1) After the effective date"; and

(2) by adding at the end thereof the following new paragraph:

"(2) The first three sentences of paragraph (1) shall not apply to stock issued by the Corporation to the Financing Corporation under subsection (b)(1)(A)."

(c) PRIORITY OF SECURED INTERESTS.—Section 10 of the Federal Home Loan Bank Act (12 U.S.C. 1430) is amended by adding at the end thereof the following new subsection:

"(e) PRIORITY OF CERTAIN SECURED INTERESTS.—Notwithstanding any other provision of law, any security interest granted to a Federal Home Loan Bank by any member of any Federal Home Loan Bank or any affiliate of any such member shall be entitled to priority over the claims and rights of any party (including any receiver, conservator, trustee, or similar party having rights of a lien creditor) other than the claims of secured parties that are secured by actual perfected security interests that would be entitled to priority under otherwise applicable law."

(d) FSLIC REPORT REQUIREMENTS.—Section 402 of the National Housing Act is amended by adding at the end thereof the following new subsection:

"(k) REPORTS AND BUDGETS REQUIRED.—

"(1) QUARTERLY REPORTS AND BUDGETS.—Before the end of the 2-week period beginning on the first day of each calendar quarter, the Corporation shall complete a detailed written report and budget describing and explaining—

"(A) planned or anticipated activities and estimates of receipts and expenditures for such calendar quarter; and

"(B) the activities, receipts, and expenditures for the preceding calendar quarter.

"(2) SEMI-ANNUAL REPORT.—Before the end of the 30-day period beginning on the first day of each semiannual period, the Corporation shall complete a detailed written report and budget describing and explaining the activities, receipts, and expenditures for the preceding semiannual period.

"(3) SUBMISSION OF SEMI-ANNUAL REPORT TO CONGRESS.—The Corporation shall submit a copy of each semiannual report required under paragraph (2) to the Committee on Banking, Finance and Urban Affairs of the House of Representatives and the Committee on Banking, Housing, and Urban Affairs of the Senate.

"(4) ACTIVITIES, ETC., OF FEDERAL ASSET DISPOSITION ASSOCIATION.—Activities, receipts, and expenditures of the Federal Asset Disposition Association (or any successor thereto) shall be included in any report or budget required under this subsection.

"(5) DEFINITIONS.—For purposes of this subsection—

"(A) ACTIVITIES.—The term 'activities' includes any activity engaged in with respect to any insured institution in financial difficulty.

"(B) SEMI-ANNUAL PERIOD.—The term 'semi-annual period' means—

"(i) the period beginning on January 1 of any calendar year and ending June 30 of such year; and

"(ii) the period beginning on July 1 of any calendar year and ending December 31 of such year."

By Mr. MOYNIHAN:

S. 46. A bill to disapprove of the President's proposed rescissions for the Community Development Block program and the Urban Development Action Grant program, and to require that funds withheld under the authority of the rescission requests be released immediately upon enactment; to the Committee on Appropriations.

#### DISAPPROVING RESCISSION OF COMMUNITY DEVELOPMENT BLOCK PROGRAM FUNDS

● Mr. MOYNIHAN. Mr. President, I rise today to introduce S. 46, legislation disapproving the proposed rescission of funding for the Community Development Block Grant [CDBG] and Urban Development Action Grant [UDAG] Programs, and requiring the release of the funds immediately upon enactment. The President's fiscal year 1988 budget proposes to rescind large amounts of budget authority—some \$375 million from the CDBG program, and some \$237.5 million from the UDAG program—in the current fiscal year.

During consideration of the fiscal year 1987 HUD appropriations bill, the House and Senate agreed to freeze the CDBG Program at \$3 billion. Cities and communities in New York State, as well as the rest of the country, accepted this and planned accordingly. No city in my State, or anywhere in our Nation, can absorb the proposed reductions in Federal CDBG funding. Certainly, low-income housing initiatives, successful urban revitalization projects, and other economic development activities that are currently

sponsored by CDBG funds are going to suffer—if they are not eliminated entirely.

Last year, New York State received approximately \$360 million under the CDBG entitlement and Small Cities Program, the largest share in the Nation. I could not possibly list here all of the fine projects in New York State that have been supported with funding under the CDBG Program. Among them, the Village of Sag Harbor, on Long Island, will use their CDBG funds for flood and drainage control; while Liberty, NY, will create new housing units and increase services to village residents; and the village of Interlaken will construct a new well and extend water lines from Cayuga Lake. The city of Geneva can make necessary improvements in its Central Business District and the town of Van Etten—in Chemung County—can rehabilitate 106 substandard units of housing, with CDBG money. The city of New York uses their CDBG funds to provide day-care services, to rehabilitate residential housing, and other services for low-income families, the elderly and the homeless.

The administration's budget also included a rescission request for the Urban Development Action Grant [UDAG] Program, that was accompanied by a related proposal to terminate the program. To rescind funding for the UDAG Program now jeopardizes many of the proposals that are currently reviewed at the Department of Housing and Urban Development. Indeed the President's proposal will disrupt the annual January Metro UDAG round.

UDAG is a program that has helped create hundreds of thousands of jobs in severely distressed communities. UDAG's have provided the seed money on a partnership basis with local communities to stimulate private development. My own State of New York has benefited greatly from the UDAG Program. Over 63,000 jobs have been created and \$2.8 billion in private investment has been generated since the UDAG Program's inception in 1977.

While we would do well to encourage our State and local governments to work toward greater independence, it is patently unfair to expect them to solve their multiple problems entirely on their own. By slashing Federal assistance under the CDBG Program, and terminating the UDAG funding, the Federal Government is pulling the rug out from under the progress already made. I strongly oppose the weakening of a Federal commitment to these important programs.

The community development block grant and urban development action grants have been important economic tools used by our cities and local governments. They've been successful. I urge my colleagues to join with me in

opposition to these unfair requests that leave our local governments with a Hobson's choice: To reduce essential services or to increase taxes.

I ask unanimous consent that the text of my bill be printed in the RECORD as if read.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 46

*Be it enacted by the Senate and the House of Representatives of the Congress of the United States assembled,*

#### SECTION 1. COMMUNITY DEVELOPMENT BLOCK GRANTS.

(a) The Congress disapproves of the proposed rescission of budget authority 87-46 for the Community Development Block Grant program set forth in the special message transmitted by the President to the Congress on January 5, 1987.

(b) Immediately upon enactment, \$375,000,000 of Community Development Block Grant funds withheld under the authority of such rescission request shall be made available for obligation.

#### SEC. 2. URBAN DEVELOPMENT ACTION GRANTS.

(a) The Congress disapproves of the proposed rescission of budget authority 87-47 for the Urban Development Action Grant program set forth in the special message transmitted by the President to the Congress on January 5, 1987.

(b) Immediately upon enactment, \$237,500,000 of Urban Development Action Grant funds withheld under the authority of such rescission request shall be made available for obligation.●

By Mr. MOYNIHAN:

S. 47. A bill to establish a grant program for the purpose of creating additional prison facilities or expanding existing facilities to alleviate the overcrowding resulting from the increase in drug crime convictions; to the Committee on Governmental Affairs.

#### DRUG OFFENDER INCARCERATION ACT

● Mr. MOYNIHAN. Mr. President, I rise today to introduce the Drug Offender Incarceration Act of 1987, which is an effort to reduce the overcrowding problem in American prisons.

That a link between the crackdown on drug crimes and prison overcrowding exists is clear. A bill I introduced on the first day of the last Congress, S. 15, the State and Local Law Enforcement Assistance Act—which was subsequently enacted into law as part of the antidrug abuse package—recognized that resources were needed both for enforcing drug laws and for incarcerating offenders apprehended in these enforcement efforts.

Since the introduction of that bill 2 years ago, the call to launch a frontal attack on drug trafficking has grown even stronger. This resurgence of interest was inspired by many factors, not the least of which was the tragic death of a young University of Maryland athlete in June of last year. And our law enforcement forces responded to that call, as well they should have.

Yet what was not planned for was the aggravation of an equally momentous problem: the critical shortage of adequate jail and prison space. In 1986, the number of people arrested by the Federal Drug Enforcement Administration for major drug crimes jumped 35.8 percent to 12,819. An effort truly to be commended, but has anyone considered where these individuals, if convicted, will be imprisoned?

New York City is experiencing this problem firsthand. The benefits of an expansion effort at the Rikers Island jail complex were more than offset by the dramatic increase in arrests resulting from a major police campaign against crack. A New York Times editorial commented that the new crack arrests have imposed crushing new demands on the courts and a new flood of inmates on the jails, compounding an already explosive situation. Part of the jail overcrowding problems stems from the delays in transferring convicts to prisons which cannot accommodate new inmates.

There are, of course, two options available. Either cut back on drug arrests or provide more prison facilities. Society would not, nor should it, accept the first alternative. The second option comes at a price, but a price we must pay for fulfilling our commitment to combat drug abuse.

At some point, this country will have to heed the administration's own Task Force on Violent Crime, which in 1981 called for a 4-year \$2 billion Federal assistance program to finance the construction of State prisons.

However, until this country is financially able to embark on a venture of that magnitude, I offer a more modest proposal. To deal with the twin goals of fighting drug trafficking and reducing the prison population, I am introducing the Drug Offender Incarceration Act of 1987.

The bill provides \$50 million for the Attorney General to distribute in grants for prison construction to the States with greatest need. The Attorney General must give priority to applications which provide evidence of greater demand for prison space resulting from an increase in the number of drug crime convictions, and can demonstrate the insufficiency of existing prison facilities. The Federal share for such grants would not exceed 50 percent.

The construction of new correctional facilities in States which are successfully combating drug crimes but which cannot meet the increased demand for prison space will create incentives for further crack downs on such crimes. In addition, new prison facilities will take the pressure off crowded jails which are now holding convicts pending transfers to prisons.

Arresting drug criminals and keeping them off the streets is the major

strategy behind the war on drugs. This bill will enhance that effort, and therefore deserves the support of my colleagues.

Mr. President, I ask for unanimous consent that the text of this bill be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 47

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Drug Offender Incarceration Act."

#### SEC. 2. PURPOSE.

The purpose of this Act is to increase prison capacity to alleviate the overcrowding resulting from the increase in drug crime convictions in areas of the country which are experiencing the severest drug trafficking problems.

#### SEC. 3. DEFINITIONS.

For purposes of this Act—

(1) the term "unit of local government" has the meaning given to such term in section 901(3) of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3791(3)); and

(2) the term "drug offense" means a State felony similar to a felony described in the Controlled Substances Act (21 U.S.C. 801 et seq.), the Controlled Substances Import and Export Act (21 U.S.C. 951 et seq.), or section 1 of the Act of September 15, 1980 (21 U.S.C. 955a).

#### SEC. 4. GRANT AUTHORITY; PRIORITY.

(a) GRANT AUTHORITY.—The Attorney General shall make grants in accordance with section 5 to eligible states or units of local government that can demonstrate the greatest need for increased prison capacity.

(b) PRIORITY.—In determining need under subsection (a), the Attorney General shall give priority to states or units of local government which—

(1) provide evidence of an increase in the demand for prison space resulting from an increase in the number of drug crime convictions in the State or locality of the applicant;

(2) demonstrate the insufficiency of existing prison facilities to accommodate that need; and

(3) provide evidence that convicted drug offenders who would otherwise be incarcerated are being released or are incarcerated in substandard conditions, due to the lack of sufficient prison space.

#### SEC. 5. APPLICATION.

(a) SUBMISSION OF APPLICATION.—Each governor or head of each unit of local government desiring to receive a grant under this Act shall submit an application to the Attorney General at such time and in such form as the Attorney General may require.

(b) CONTENTS OF APPLICATIONS.—Each application submitted under subsection (a) shall include—

(1) a detailed description of the need for additional facilities based on—

(A) an increase in the number of drug offense convictions,

(B) the current prison capacity, and

(C) the number of convicted drug offenders who are either not incarcerated or are incarcerated in substandard conditions due to a lack of sufficient prison space;

(2) an assurance that any grant received by such applicant will be used for construction of new prison facilities or for the expansion of existing facilities;

(3) a detailed description of the plan for construction or expansion, including an estimate of the total cost and the amount of assistance requested for such project;

(4) an assurance that not later than three years after receiving a grant under this Act such applicant will repay to the Attorney General, for deposit in the general receipts of the Treasury of the United States, any part of such grant that is not expended in accordance with this Act, or with the assurances required under this section, beginning on the date such grant is received;

(5) an assurance that assistance received under this Act will not exceed 50 percent of the cost of the construction or expansion project;

(6) an assurance that the remaining funds for the project have been committed to by the State or unit of local government; and

(7) such other information as the Attorney General may require by rule.

(c) AMENDMENT OF APPLICATION.—An amendment of any application under this section shall be subject to approval in the same manner as an original application.

(d) INITIAL SOLICITATION OF APPLICATIONS.—Not later than 120 days after the date of enactment of this Act, the Attorney General shall solicit applications for grants to be made under this Act with funds appropriated for fiscal year 1988.

#### SEC. 6. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to carry out this Act \$50,000,000 for fiscal year 1988.●

By Mr. MOYNIHAN:

S. 48. A bill to establish a demonstration program in New York City to offer voluntary departure from the United States to certain aliens arrested for narcotics-related offenses; to the Committee on the Judiciary.

#### CRIMINAL ALIEN DEPARTURE ACT

● Mr. MOYNIHAN. Mr. President, I rise to introduce the Criminal Alien Departure Act of 1987. The criminal justice system in this country is sinking under its own weight. To declare its resources taxed, personnel overburdened, and institutional capacity distended, is an understatement indeed. Many factors contribute to this sorry state; the proposal I offer today deals with only one such factor, but an important one nonetheless.

Illegal aliens arrested and convicted of crimes—all too often drug-related crimes—are putting an additional strain on our already crowded courts and prisons.

In New York City, for example, jail overcrowding has grown more acute with the spreading use of crack and cocaine. City jails presently house 13,524 inmates or 104.4 percent of capacity. The New York City Police Department estimates that between 2,200 and 2,500 illegal aliens are arrested annually for felony crimes, the majority of which are drug related.

As of August 1, 1986, a total of 3,371 inmates in New York State prisons re-

ported birth in a foreign country. This represents 9 percent of the total inmate population. The cost of incarcerating these offenders is estimated at \$67 million.

Our overcrowded criminal justice system has resulted in many criminal suspects being released without prosecution or imprisonment, thereby frustrating the efforts to fight drug abuse.

The bill I am introducing, the Criminal Alien Departure Act of 1987 is a step toward creating more jail space by deporting drug crime suspects who are in this country illegally, and individuals who have already been convicted of such crimes.

Specifically, the bill establishes a \$5 million pilot program for New York City for purposes of using Immigration and Naturalization Service agents identify illegal aliens at the time of arrest for drug-related crimes, and determine whether they are amenable to deportation. (If the individual does not agree to expedited deportation, they are entitled to proceed to trial under our judicial system.)

A U.S. attorney would then review the matter to determine whether the voluntary departure of the illegal alien would be of more benefit to society than prosecution for the crime. Once approved by a U.S. attorney, the individuals would be deported before spending more of the limited resources of the criminal justice system. INS agents would also be assigned to prisons to identify illegal aliens who are already imprisoned.

Under the program, the INS will then have record of the individuals who have been deported, thereby ensuring that they will not be able to enter the country again.

I propose to try this plan on a pilot basis for 1 year in New York City where jail overcrowding has reached crisis proportions. At the end of the year, the attorney general will prepare a report to Congress detailing the numbers of illegal aliens deported, estimate the cost savings resulting from the program in lieu of prosecuting and incarcerating such individuals, and recommend whether the program should be instituted on a wider basis.

This is not a cure-all to the prison overcrowding problem. As I stated at the outset, many factors share the blame for this state of affairs. However, removing at least part of the illegal alien population from the criminal justice system will help unclog our courts and prisons, thereby allowing us to deal more effectively with criminals and criminal suspects who are in this country legally.

This bill also represents a continuation of our commitment to fighting the drug problem in this country by deporting individuals engaged in drug crimes, keeping them off our streets.

Therefore, I urge my colleagues to support this program on a trial basis,

in the hope that it may later be expanded on the national level. A small measure perhaps; but whatever excess weight can be lifted from the criminal system will surely enhance the administration of justice in America.

Mr. President, I ask for unanimous consent that the text of this bill be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 48

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SHORT TITLE

SECTION 1. This Act may be cited as the "Criminal Alien Departure Act of 1987".

#### AUTHORITY

SEC. 2. (a) The Attorney General, acting through the district director of the Immigration and Naturalization Service for the district covering New York City, shall develop a demonstration program (hereafter in this Act referred to as the "program") to offer voluntary departure from the United States to any deportable alien arrested in New York City for an offense described in subsection (b) if the Assistant United States Attorney determines that the voluntary departure of such alien would benefit the United States more than the prosecution of such alien.

(b) An offense referred to in subsection (a) is any offense involving a violation of, or a conspiracy to violate, any law or regulation relating to the illicit possession of or traffic in narcotic drugs or marihuana, or a violation of, or a conspiracy to violate, any law or regulation governing or controlling the taxing, manufacture, production, compounding transportation, sale, exchange, dispensing, giving away, importation, exportation, or the possession for the purpose of the manufacture, production, compounding, transportation, sale, exchange, dispensing, giving away, importation, or exportation of opium, coca leaves, heroin, marihuana, any salt derivative or preparation of opium or coca leaves or isonipicaine or any addiction-forming or addiction-sustaining opiate.

#### DEMONSTRATION PROGRAM

SEC. 3. The program shall include—

(1) a system for identifying aliens described in section 2(a);

(2) the hiring of—

(A) additional supervisory agents and special agents of the Immigration and Naturalization Service (hereafter in this Act referred to as the "Service")—

(i) to identify aliens described in section 2(a); and

(ii) to be assigned to central locations for the arraignment of such aliens;

(B) additional special agents of the Service to be assigned to prison reception areas in New York City to identify aliens described in section 2(a);

(C) special agents of the Service to assist the local district attorney or the appropriate United States attorney in determining which eligible aliens should be offered voluntary departure from the United States;

(3) the acquisition of facilities for temporary detention of aliens pending their voluntary departure from the United States; and

(4) expenditures to cover the costs of aliens departing the United States under the program, where appropriate.

#### REPORT

SEC. 4. Twelve months after the date of enactment of this Act, the Attorney General shall prepare and transmit to the Congress a report setting forth with respect to the program during the preceding twelve-month period—

(1) a complete accounting of the expenditure of funds;

(2) the number of aliens eligible for voluntary departure from the United States and the number of such aliens that so departed;

(3) the estimated costs of departure for each such alien;

(4) the estimated cost savings which resulted from carrying out the program in lieu of prosecuting and incarcerating the same individuals; and

(5) recommendations as to whether the program should be instituted on a wider basis.

#### AUTHORIZATION OF APPROPRIATIONS

SEC. 5. There are authorized to be appropriated \$5,000,000 for the fiscal year 1988 to carry out the program.●

#### By Mr. MOYNIHAN:

S. 49. A bill to amend section 203 of the Federal Property and Administrative Services Act of 1949 to establish as a priority the conveyance of surplus Federal property for use as correctional facilities to alleviate the shortage of prison space resulting from the increase in drug crime convictions; to the Committee on Governmental Affairs.

#### PRISON CONVERSION ENHANCEMENT ACT

● Mr. MOYNIHAN. Mr. President, my purpose in rising today is to introduce the Prison Conversion Enhancement Act of 1987. No one among us is unaware of the desperate conditions which characterize our State and Federal penal systems. Overcrowding is considered the most immediate and greatest concern. Corrections officials have stated that overcrowding is no longer an emergency, but a disaster.

The side effects of this acute condition are numerous. Overtaxed resources and severe crowding contribute to the neglect of what some consider to be an important element of incarceration—rehabilitation and education of inmates to protect society against recidivism. More importantly, however, overcrowding forces prosecutors, judges and prison officials to consider releasing some suspects and convicts with little or no time served. Surely the interests of society are jeopardized when our criminal justice system returns known criminals to the streets simply because we do not provide sufficient prison space. Indeed, a sad commentary on our system.

The solution is surprisingly simple. Add more prison capacity by expanding old or building new facilities. Yet the political reality is that this administration is less than committed to spending dollars on such an endeavor. Although the 1981 report of the Administration's Task Force on Violent Crime called for a 4-year \$2 billion

Federal assistance program to finance the construction of State prisons, such an undertaking has yet to materialize.

There are less expensive alternatives to prison construction, although I believe that construction and renovation are necessary components of any section plan to reduce prison overcrowding. What I refer to is the transfer of Federal surplus property for use as correctional facilities.

Under current law, the General Services Administration, in coordination with the Department of Justice, can approve the transfer of surplus Federal property for prison use. However, there are varied interests competing for surplus property as it becomes available. Since 1981, only four such conversions to prisons have been made; the first being in Watertown, NY.

What I propose in the Prison Conversion Enhancement Act of 1987 is to establish as a priority the conveyance of surplus property for use as correctional facilities for the next 2 years. The GSA will be required to inform the Department of Justice and Governors of any available property which is suitable for a conversion to a prison facility. Advice as to the procedure for applying for conversion will be provided to Governors, and applications for prison conversions from the States will be considered on an expedited basis.

At the end of the 2 years, the Department of Justice will report to the Congress on the number of such conversions, and explain why any suitable properties were not converted.

The purpose of this bill is to increase the number of correctional facilities available without expending large sums of money to accomplish this goal. It is my hope that my colleagues will act quickly on this simple, straightforward means of alleviating the shameful overcrowding in our Nation's prisons.

Mr. President, I request unanimous consent that the text of this bill be included in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 49

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Prison Conversion Enhancement Act of 1987."

#### SEC. 2. PRIORITY FOR CORRECTIONAL FACILITIES.

Section 203 of the Federal Property and Administrative Services Act of 1949 (40 U.S.C. 484) is amended by adding at the end thereof the following new subsection:

"(q)(1) Notwithstanding any other provision of this section, for a period of two years following the date of enactment of this subsection, the Administrator of the General Services Administration shall consider available property which has potential to be converted into a correctional facility as a priority disposition. During such period, the Ad-

ministrator of the General Services Administration shall inform the Attorney General and the Governor and State Correctional Facility officials of any available surplus property in such State which is suitable for conversion to a prison facility. At the time of identification of such property, the Administrator shall provide advice to such Governor as to the procedure for applying for conversion of the available property for prison use. Applications for prison conversion shall be considered by the Department of Justice and the General Services Administration on an expedited basis.

"(2) At the end of the two-year period provided in paragraph (1)—

"(A) the Attorney General shall report to the Congress on the number of surplus properties certified for use as prison facilities; and

"(B) the Administrator of the General Services Administration shall report to Congress on the number and location of properties which have been converted for use as prisons.

Such reports shall include descriptions of available property suitable for prison conversion which were not approved for prison use with an explanation as to why such approval was not granted.".

By Mr. MOYNIHAN:

S. 50. A bill to amend the Federal Election Campaign Act of 1971 to provide for the public financing of Senate general election campaigns, to change certain contribution limits for elections, and for other purposes; to the Committee on Rules and Administration.

● Mr. MOYNIHAN. Mr. President, our elected form of government is besieged by a crisis, a crisis which will continue to erode the process for selecting leaders first established by our Founders if an immediate and lasting solution is not found. I speak of the shameful cost of elections in America. Leadership positions are rapidly becoming bastions of the wealthy, because the process by which we elect our representatives has become reduced to one common denominator: money. Rather than red, white and blue, it is the color green which more appropriately symbolizes our elections. It is no coincidence that over half of the U.S. Senators, 53 to be precise, are millionaires. Few others can afford the undertaking.

A few numbers will tell the tale of the growing influence of money in American campaigns.

It is no longer uncommon for Senate candidates to spend between \$5 to \$10 million, and even beyond. Consider the \$26 million North Carolina Senate race of 1984 and the nearly \$25 million spent in the recent Senate race in California.

In 1974, the average amount spent by Senate candidates was \$437,482. Ten years later, this average exceeded \$2 million, with winning candidates spending nearly \$3 million.

Although the final numbers are not calculated for the 1986 races, it is estimated that the combined cost of

Senate races in 1986 was \$425 million; a staggering increase from the \$88.2 million spent in 1974.

The role of independent expenditures has increased dramatically over the years. In 1978, \$168,000 was spent in independent expenditures in Senate races; by 1984, that figure exceeded \$4.6 million. For all Federal races combined that year, including Presidential, independent expenditures passed the \$23 million mark.

The influence of political action committees also continues to rise. In the 1984 elections, approximately 30 percent of receipts in congressional elections were from PAC's; up from 13.7 percent in 1972. It is estimated that PAC's contributed \$140 million to congressional candidates in the 1986 election; a significant increase from the \$8.5 million contributed in 1972.

Although the power of money in elections has grown, there is hope. The reform process begun in the aftermath of Watergate 14-years ago can be reinvigorated. Public financing of Federal elections is an idea whose time may have come, albeit a bit late for some like President Teddy Roosevelt who first proposed the concept. The new Congress presents us with new opportunities to reverse the trend toward greater reliance on money, as the basis of a successful candidacy. The bill I am introducing today is one part of that effort.

The reforms embodied in the Senate Campaign Finance Act of 1987 combine a number of approaches to what I consider the three evils which threaten our democratic process: excessive influence of political action committees in relation to that of individuals; prohibitive cost of running for office; and uncontrolled independent expenditures.

To curtail the influence of PAC's, I propose the following: reducing the maximum political action committee contribution to \$3,000 from \$5,000, while increasing the ability of individuals to participate in the process by raising the individual limit to \$2,000 from \$1,000.

The amounts spent on campaigning can be kept down by limiting total expenditures and providing public financing. My bill would match each dollar of privately raised funds with public funds up to a maximum based on a state population formula for eligible candidates. The bill includes a built-in incentive to participate: participating candidates can receive additional public funds over the limit to the extent that their nonparticipating opponent spends over that amount. Expenditures from personal or family sources cannot exceed \$20,000.

Finally, the benefits of independent expenditures will be significantly diminished under this proposal. If independent expenditures in excess of

\$2,000 are made to oppose a candidate receiving public financing, or on behalf of a candidate who is not, the candidate receiving public funding is entitled to receive additional funds in the amount of the independent expenditures. Any person making independent expenditures will be required to report such activity to the Federal Election Commission and to each candidate in the election.

It is a start, and I believe a good one. The integrity of our electoral process is at stake; we are compelled to act. Let not our candidates be judged by their money, but by their qualifications, convictions, and ability.

Mr. President, I request unanimous consent that the text of my bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 50

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Senate Campaign Finance Act of 1987".*

CHANGES IN CONTRIBUTION LIMITS: DEFINITION OF INDEPENDENT EXPENDITURES

SEC. 2. (a) Section 315(a)(1)(A) of the Federal Election Campaign Act of 1971 is amended by striking out "\$1,000" and inserting in lieu thereof "\$2,000".

(b) Section 315(a)(2) of the Federal Election Campaign Act of 1971 is amended—

(1) by striking out "or" at the end of subparagraph (B);

(2) striking out "\$5,000." in subparagraph (C) and inserting in lieu thereof "\$3,000.";

(c) Section 301(17) of the Act is amended to read as follows:

"(17) The term 'independent expenditure' means an expenditure by a person expressly advocating the election or defeat of a clearly identified candidate which is made without cooperation or consultation with any candidate, or any authorized committee or agent of such candidate, and which is not made in concert with, or at the request or suggestion of, any candidate, or any authorized committee or agent of such candidate. For the purposes of this subsection, 'cooperation or consultation with any candidate' with respect to an election cycle means, but is not limited to the following—

"(A) the person making the independent expenditure communicates with, advises, or counsels the candidate at any time on the candidate's plans, projects, or needs relating to the candidate's pursuit of nomination for election, or election, to Federal office, in the same election cycle, including any advice relating to the candidate's decision to seek Federal Office;

"(B) the person making the independent expenditure includes as one of its officers, directors, or other employees an individual who communicated with, advised or counseled the candidate at any time on the candidate's plans, projects, or needs relating to the candidate's pursuit of nomination for election, or election, to Federal office, in the same election cycle, including any advice relating to the candidate's decision to seek Federal office; and

"(C) the person making the independent expenditure retains the professional services of any individual or other person also providing those services to the candidate in

connection with the candidate's pursuit of nomination for election, or election, to Federal office, in the same election cycle, including any services relating to the candidate's decision to seek Federal office."

SEC. 3 The Federal Election Campaign Act of 1971 is amended by adding at the end thereof the following new subchapter:

"Subchapter III—Public Financing of Senate General Election Campaigns

"DEFINITIONS

"SEC. 501. For purposes of this subchapter—

"(1) unless otherwise provided in this subchapter the definitions set forth in section 301 of this Act apply to this subchapter;

"(2) 'authorized committee' means, with respect to any candidate for election to the United States Senate, any political committee which is authorized in writing by such candidate to accept contributions, incur expenses, or make expenditures on behalf of such candidate to further the election of such candidate. Such authorization shall be addressed to the chairman of the political committee, and a copy of such authorization shall be filed by each candidate with the Commission. A withdrawal of any authorization shall be in writing and shall be addressed and filed in the same manner as the authorization;

"(3) 'candidate' means an individual who has been nominated for election to the office of United States Senator by a major or minor party or who has qualified to have his or her name on the general election ballot;

"(4) 'eligible candidate' means a candidate who is eligible, under section 502, for payments under this subchapter;

"(5) 'expenditure report period' with respect to an election means—

"(A) in the case of a major party candidate, the period beginning on the date such candidate becomes an eligible candidate and ending 30 days after the date of the election or the date such candidate is no longer an eligible candidate, whichever date is earlier; or

"(B) in the case of a candidate other than a candidate of a major party, the same period as the expenditure report period of the major party which has the shortest expenditure report period for such election;

"(6) 'election' means any regularly scheduled general, special, or runoff election, other than a primary election, held to elect a candidate to the United States Senate;

"(7) 'fund' means the Senate General Election Campaign Fund maintained by the Secretary of the Treasury in the Presidential Election Campaign Fund established by section 9006(a) of the Internal Revenue Code of 1954;

"(8) 'major party' means with respect to any election, a political party whose candidate for the office of United States Senator in any of the three preceding elections received, as the candidate of such party, 25 percent or more of the total number of popular votes received by all candidates for such office;

"(9) 'minor party' means with respect to any election, a political party whose candidate for the office of Senator in any of the three preceding elections received, as the candidate of such party, 5 percent or more, but less than 25 percent of the total number of popular votes received by all candidates for such office;

"(10) the term 'qualified campaign expense' means an expense—

"(A) incurred by the candidate or the authorized committee of the candidate for the

office of United States Senator to further his or her election to such office,

"(B) incurred within the expenditure report period, or incurred before the beginning of such period to the extent such expense is for property, services, or facilities used during such period, and

"(C) neither the incurring nor paying of which constitutes a violation of any law of the United States or of the State in which such expense is incurred or paid.

"An expense shall be considered as incurred by a candidate or an authorized committee if it is incurred by a person authorized by such candidate or such committee, as the case may be, for expense on behalf of such candidate or such committee.

"CONDITION FOR ELIGIBILITY FOR PAYMENTS

"SEC. 502. (a) In order to be eligible to receive any payments under this subchapter, the candidate shall agree, in writing—

"(1) to obtain and furnish to the Commission such evidence as it may request of the qualified campaign expenses and contributions of such candidate,

"(2) to keep and furnish to the Commission such records, books, and other information as it may request, and

"(3) to an audit and examination by the Commission under section 507 and to pay or repay any amounts required under such section.

"(b) To be eligible to receive payments under section 503, the candidate of a major party shall certify to the Commission, under penalty of perjury, that—

"(1) such candidate is seeking election to the United States Senate and such candidate and at least one other major party or minor party candidate have qualified for the election ballot under the law of the State involved,

"(2) such candidate and the authorized committees of such candidate will not incur qualified campaign expenses in excess of the aggregate payments to which they are entitled under section 503, unless otherwise provided in this subchapter,

"(3) no contributions to defray qualified campaign expenses have been or will be accepted by such candidate or any of the authorized committees of such candidate except to the extent necessary to make up any deficiency in payments received out of the fund because of the application of section 506(c), and

"(4) no contributions have been or will be accepted by such candidate or any authorized committees of such candidate to defray expenses which are not qualified campaign expenses.

"(c) In order to be eligible to receive any payments under this subchapter, a candidate other than a candidate of a major party shall certify to the Commission under penalty of perjury, that—

"(1) such candidate is seeking election to the United States Senate and such candidate and at least one other candidate of a major party have qualified for the election ballot under the law of the State involved,

"(2) such candidate and the authorized committees of such candidate will not incur qualified campaign expenses in excess of the aggregate payments to which an eligible candidate of a major party is entitled under section 503, unless otherwise provided in this subchapter, and

"(3) such candidate and the authorized committees of such candidate will accept and expend or retain contributions to defray qualified campaign expenses only to the extent that the qualified campaign ex-

penses incurred by such candidate and the authorized committees of such candidate certified to under paragraph (2) exceed the aggregate payments received by such candidate out of the fund pursuant to section 506.

"(d) Certification for payment to a candidate shall be made by the Commission within 5 days after the date the Commission receives a certification from such candidate, pursuant to this section. Such certification shall be in such form and filed as the Commission shall prescribe by rule or regulation.

"(e)(1) To be eligible to receive any payment under this subchapter, a candidate shall certify to the Commission, under penalty of perjury, that such candidate will not knowingly make expenditures from his or her personal funds, or the personal funds of his or her immediate family in connection with such candidate's campaign for election in excess of, in the aggregate, \$20,000.

"(2) For purposes of this subchapter, the term 'immediate family' means the spouse, any child, parent, grandparent, brother, halfbrother, sister, or halfsister of the candidate, and the spouses of such persons.

"(f) If an individual ceases to be a candidate such individual—

"(1) shall no longer be eligible to receive any payments under this subchapter, except that such individual shall be eligible to receive payments to defray qualified campaign expenses incurred while such person was an eligible candidate actively seeking election to the Senate; and

"(2) shall pay to the Secretary, as soon as practicable after the date upon which such individual ceases to be a candidate, an amount equal to the amount of payments received by such individual under this subchapter if such payments are not used to defray qualified campaign expenses.

#### "ENTITLEMENT OF ELIGIBLE CANDIDATES TO MATCHING PAYMENTS

"Sec. 503. (a) Subject to the provisions of this chapter—

"(1) each eligible candidate of a major party in an election shall be entitled to equal amounts under this subchapter in an amount which, in the aggregate, shall not exceed 50 percent of the expenditure limit applicable to such candidate based on this formula—

"(A) in each State with a voting-age population of 1,000,000 or less: \$500,000";

"(B) in each State with a voting-age population greater than 1,000,000 but less than 3,000,000: an amount equal to 50 cents times such voting-age population; and

"(C) in each State with a voting-age population of 3,000,000 or over: an amount equal to 30 cents times such voting-age population, but not less than \$1,500,000.

"(2) Subject to section 502(b), any eligible candidate of a major party shall be entitled to—

"(A) an initial payment under section 507 of \$20,000; and

"(B) additional matching payments equal to the amount of contributions received, to be paid in multiples of \$10,000 under section 507, if, with respect to each such payment, the eligible candidate and his authorized committees have received contributions aggregating \$10,000, which have not been matched under this section, up to the maximum amount set forth in section 503(a).

"(3) An eligible candidate of a minor party in an election shall be entitled to a payment under this subchapter equal in the aggregate to an amount which bears the same ratio to the amount allowed under paragraph (1) for a major party as the number

of popular votes received by the candidate for Senator of the minor party, as such candidate, in the preceding election bears to the average number of popular votes received by the candidates for Senator of the major parties in the preceding election.

"(4) An eligible candidate, other than a candidate of a major or minor party, who receives 5 percent or more of the total number of popular votes cast for the office of United States Senator in such election shall be entitled to payments pursuant to this subchapter equal in the aggregate to an amount which bears the same ratio to the amount allowed under paragraph (1) for a major party as the number of popular votes received by such candidate in such election bears to the average number of popular votes received in such election by the candidates for Senator of the major parties. All such payments shall be made at such time after the election as the Commission determines the amount of payments such candidate is eligible for pursuant to this subparagraph. The Commission shall certify such amount to the United States Treasury for payment.

"(b) The aggregate payments to which an eligible candidate shall be entitled under paragraph (3) or (4) of subsection (a), shall not exceed an amount equal to the lesser of—

"(1) the amount of qualified campaign expenses incurred by an eligible candidate and the authorized committees of such candidate, reduced by the amount of contributions allowed to defray qualified campaign expenses received and expended or retained by an eligible candidate and such committees, or

"(2) the aggregate payments to which an eligible candidate of a major party is entitled under subsection (a)(1), reduced by the amount of contributions described in paragraph (1) of this subsection.

"(c) An eligible candidate shall be entitled to payments only—

"(1) to defray qualified campaign expenses incurred by an eligible candidate or the authorized committees of such candidate, or

"(2) to repay loans the proceeds of which were used to defray such qualified campaign expenses, or otherwise to restore funds (other than contributions to defray qualified campaign expenses received and expended by such candidate or such committees) used to defray such qualified campaign expenses.

#### "ADDITIONAL ENTITLEMENT OF OPPONENTS OF NONPUBLICLY FINANCED CANDIDATES; MATCHING OF INDEPENDENT EXPENDITURES

"Sec. 504. (a) Within 5 days after nomination by a major or minor party, and under such regulations as the Commission may prescribe, each candidate nominated by a major or minor party shall notify the Commission in writing of his or her intention to accept or not accept the funds to which he or she is entitled under section 503.

"(b)(1) A candidate of a major party who has elected to accept the funds for which he or she has qualified under section 503 and who is opposed by a major party candidate who has elected not to accept public funding shall be entitled to receive additional funds from the general fund of the United States Treasury, pursuant to paragraph (2).

"(2)(A) Subject to the provisions of subparagraph (P), a major party candidate eligible to receive funds pursuant to paragraph (1), shall receive additional funds in the amount of one dollar for every dollar of contributions or expenditures raised, in-

curred, or expended by the candidate not accepting funding.

"(B) Such additional funds shall only match those contributions or expenditures raised, incurred, or expended by the candidate not accepting funding which are in excess of the entitlement of such eligible candidate.

"(c) For purposes of implementing subsection (b), a candidate who elects not to accept public funding shall report his or her receipts and expenditures to the Commission—

"(1) monthly for contributions or expenditures received, incurred, or expended prior to 60 days prior to the date of the election;

"(2) weekly for contributions or expenditures received, incurred, or expended from 59 to 11 days prior to the date of the election; and

"(3) daily for contributions or expenditures received, incurred, or expended during the 10 days prior to the date of the election.

"(d) Notwithstanding the provisions of section 505—

"(1) if a major party candidate is eligible, pursuant to subsection (b), to receive additional funding because of contributions or expenditures received, incurred, or expended by such opponent between the date 59 days prior to the date of the election and the date of the election which are required to be reported by paragraph (2) or (3) of subsection (c), and

"(2) such eligible candidate files a request with the Commission stating that such candidate is eligible to receive such additional funds,

the Commission, within 24 hours after such request is filed, shall certify to the Secretary of the Treasury for payments to such eligible candidate.

"(e)(1) If, with respect to an election, a total of more than \$2,000 in independent expenditures is made in opposition to, or on behalf of an opponent of, a candidate who is eligible to receive payments under section 502, such candidate shall receive additional payments equal to such total, but such payments shall not duplicate payments under subsection (b)(2)(A).

"(2)(A) Any person who makes independent expenditures shall notify the Commission and each candidate in the election not later than 48 hours after such independent expenditures total more than \$2,000 and thereafter shall make such notification each time such person's additional independent expenditures total \$1,000 or more.

"(B) No independent expenditure may be made unless such expenditure is reported as provided in subparagraph (A) at least 10 days before the date of the election.

#### "CERTIFICATION BY COMMISSION

"Sec. 505. (a) No later than 48 hours after a candidate files a request with the Commission to receive payments under section 503 or 504, the Commission shall certify such eligibility to the Secretary of the Treasury (hereinafter in this title referred to as the 'Secretary') for payment in full of the amount of which such candidate is entitled. The request referred to in the preceding sentence shall contain—

"(1) such information, and be made in accordance with such procedures, as the Commission may provide by regulation; and

"(2) a verification signed by the candidate and the treasurer of the principal campaign committee of such candidate stating that the information furnished in support of the request, to the best of their knowledge, is

correct and fully satisfies the requirements of this title.

"(b) Initial certifications by the Commission under subsection (a) and all determinations made by the Commission under this title, shall be final and conclusive, except to the extent that they are subject to examination and audit by the Commission under section 508 and judicial review under section 510.

**"ESTABLISHMENT OF ACCOUNT; PAYMENTS TO ELIGIBLE CANDIDATES**

"SEC. 506. (a) The Secretary shall maintain in the Presidential Election Campaign Fund established by paragraph 9006(a) of the Internal Revenue Code of 1954, in addition to any accounts maintained under such section, a separate account to be known as the 'Senate General Election Campaign Fund'. The Secretary shall deposit into such fund, for use by a candidate eligible for payments under this subchapter, the amount available after the Secretary determines that amounts in the fund necessary for payments under subtitle H of the Internal Revenue Code of 1954 are adequate. The moneys designated for such account shall remain available without fiscal year limitation.

"(b) Upon receipt of a certification from the Commission under section 505, the Secretary shall promptly pay to the candidate, out of the fund, the amount certified by the Commission. Amounts paid to any such candidate shall be under the control of such candidate.

"(c) If at the time of a certification by the Commission under section 505 for payment to an eligible candidate, the Secretary determines that the moneys in the fund are not, or may not be, sufficient to satisfy the full entitlement of such eligible candidate, he shall withhold from such payment such amount as he determines to be necessary to assure that an eligible candidate will receive his or her pro rata share of his or her full entitlement. Amounts so withheld shall be paid when the Secretary determines that there are sufficient moneys in the fund to pay such amounts, or portions thereof, to all eligible candidates from whom amounts have been withheld, but, if there are not sufficient moneys in the fund to satisfy the full entitlement of an eligible candidate, the amounts so withheld shall be paid in such manner that each eligible candidate receives his or her pro rata share of his or her full entitlement.

**"EXAMINATIONS AND AUDITS; REPAYMENTS**

"SEC. 507. (a) Notwithstanding the provisions of section 311(b), after each election, the Commission shall conduct a thorough examination and audit of the qualified campaign expenses of each candidate of the United States Senate who received payments under this subchapter.

"(b)(1) If the Commission determines that any portion of the payments made to a candidate under this subchapter was in excess of the aggregate payments to which such candidate was entitled, it shall so notify such candidate, and such candidate shall pay to the Secretary an amount equal to the excess.

"(2) If the Commission determines that a candidate or any authorized committee of such candidate incurred qualified campaign expenses in excess of the aggregate payments to which the candidate was entitled under section 503, it shall notify such candidate of the amount of such excess and such candidate shall pay to the Secretary an amount equal to such amount.

"(3) If the Commission determines that a candidate or any authorized committee of such candidate accepted contributions, other than contributions to make up deficiencies in payments out of the fund because of the application of section 506(c) to defray qualified campaign expenses, other than qualified campaign expenses with respect to which payment is required under paragraph (2), it shall notify such candidate of the amount of the contributions so accepted, and such candidate shall pay to the Secretary an amount equal to such amount.

"(4) If the Commission determines that any amount of any payment made to a candidate under section 506 was used for any purpose other than—

"(A) to defray the qualified campaign expenses with respect to which such payment was made, or

"(B) to repay loans the proceeds of which were used to defray qualified campaign expenses,

It shall notify such candidate of the amount so used, and such candidate shall pay to the Secretary an amount equal to such amount.

"(5) No payment shall be required from a candidate under this subsection to the extent that such payment, when added to other payments required from such candidate under this subsection, exceeds the amount of payments received by such candidate under this subchapter.

"(c) No notification shall be made by the Commission under subsection (b) with respect to an election more than 3 years after the date of such election.

"(d) All payments received by the Secretary under subsection (b) shall be deposited in the Senate General Election Campaign Fund established in section 506.

**"CRIMINAL PENALTIES**

"SEC. 508. (a)(1) It shall be unlawful for an eligible candidate of a political party in an election or for any authorized committee of such candidate to knowingly and willfully incur qualified campaign expenses in excess of the aggregate payments to which an eligible candidate of a major party is entitled with respect to such election.

"(2) Any person who violates paragraph (1) shall be fined not more than \$5,000, or imprisoned not more than one year, or both. In the case of a violation by any authorized committee, any officer or member of such committee who knowingly and willfully consents to such violation shall be fined not more than \$5,000, or imprisoned not more than one year, or both.

"(b)(1) It shall be unlawful for an eligible candidate of a major party in an election or for any authorized committee of such candidate to knowingly and willfully accept any contribution to defray qualified campaign expenses, except to the extent necessary to make up any deficiency in payments received out of the fund because of the application of section 506 or to defray expenses which would be qualified campaign expenses but for subparagraph (C) of section 501(10).

"(2) It shall be unlawful for an eligible candidate of a political party (other than an eligible candidate of a major party) in an election or for any authorized committee of such candidate to knowingly and willfully accept and expend or retain contributions to defray qualified campaign expenses in an amount which exceeds the qualified campaign expenses incurred with respect to such election by such eligible candidate and an authorized committee of such candidate.

"(3) Any person who violates paragraph (1) or (2) shall be fined not more than

\$5,000, or imprisoned not more than one year, or both. In the case of a violation by any authorized committee, any officer or member of such committee who knowingly and willfully consents to such violation shall be fined not more than \$5,000, or imprisoned not more than one year, or both.

"(c)(1) It shall be unlawful for any person who receives any payment under section 506, or to whom any portion of any payment received under such section is transferred, knowingly and willfully to use, or authorize the use of, such payment or such portion for any purpose other than—

"(A) to defray the qualified campaign expenses with respect to which such payment was made, or

"(B) to repay loans the proceeds of which were used, or otherwise to restore funds (other than contributions to defray qualified campaign expenses which were received and expended) which were used, to defray such qualified campaign expenses.

"(2) Any person who violates paragraph (1) shall be fined not more than \$5,000, or imprisoned not more than five years, or both.

"(d)(1) It shall be unlawful for any person knowingly and willingly—

"(A) to furnish any false, fictitious, or fraudulent evidence, books, or information to the Commission under this subchapter, or to include in any evidence, books, or information so furnished any misrepresentation of a material fact, or to falsify or conceal any evidence, books, or information relevant to a certification by the Commission or an examination and audit by the Commission under this subchapter; or

"(B) to fail to furnish to the Commission any records, books, or information requested by it for purposes of this subchapter.

"(2) Any person who violates paragraph (1) shall be fined not more than \$10,000, or imprisoned not more than 5 years, or both.

"(e)(1) It shall be unlawful for any person knowingly and willfully to give or accept any kickback or any illegal payment in connection with any qualified campaign expense of an eligible candidate or any authorized committee of such candidate.

"(2) Any person who violates paragraph (1) shall be fined not more than \$10,000, or imprisoned not more than five years, or both.

"(3) In addition to the penalty provided by paragraph (2), any person who accepts any kickback or illegal payment in connection with any qualified campaign expense of an eligible candidate or any authorized committee of such candidate shall pay to the Secretary of the Treasury, for deposit in the general fund of the Treasury, an amount equal to 125 percent of the kickback or payment received.

"(f)(1) It shall be unlawful for any individual to disclose any information obtained under the provisions of this subchapter except as may be required by law.

"(2) Any person who violates paragraph (1) shall be fined no more than \$5,000, or imprisoned not more than one year, or both.

**"REPORTS TO CONGRESS; REGULATIONS**

"SEC. 509. (a) The Commission shall, as soon as practicable after each election, but not to exceed 6 months, submit a full report to the Senate setting forth—

"(1) the qualified campaign expenses (shown in such detail as the Commission determines necessary) incurred by a candidate and the authorized committees of such candidate;

"(2) the amounts certified by it under section 505 for payment to each eligible candidate;

"(3) the amount of payments, if any, required from such candidate under section 507, and the reasons for each payment required; and

"(4) the balance in (A) the Presidential Election Campaign Fund, and (B) each account maintained in such fund, at the end of such calendar year.

Each report submitted pursuant to this section shall be printed as a Senate document.

"(b) The Commission is authorized to prescribe such rules and regulations in accordance with the provisions of subsection (c), to conduct such examinations and audits (in addition to the examinations and audits required by section 507), to conduct such investigations, and to require the keeping and submission of such books, records, and information, as it deems necessary to carry out the functions and duties imposed on it by this subchapter.

"(c) Thirty days before prescribing any rule or regulation under subsection (b), the Commission shall transmit a statement with respect to such rule or regulation to the Senate, setting forth the proposed rule or regulation. The statement shall contain a detailed explanation and justification of such rule or regulation.

#### "PARTICIPATION BY COMMISSION IN JUDICIAL PROCEEDINGS

"SEC. 510. (a) The Commission is authorized to appear in and defend against any action filed under section 511, either by attorneys employed in its office or by counsel whom it may appoint without regard to the provisions of title 5, United States Code, governing appointments in the competitive service, and whose compensation it may fix without regard to provisions of chapter 51 and subchapter III of chapter 53 of such title.

"(b) The Commission is authorized to appear, through attorneys and counsel described in subsection (a), in the district courts and other appropriate courts of the United States to seek recovery of any amounts determined to be payable to the Secretary of the Treasury as a result of any examination and audit made pursuant to section 507.

"(c) The Commission is authorized to petition the courts of the United States for declaratory or injunctive relief concerning any civil matter arising under this subchapter, through attorneys and counsel described in subsection (a). Upon application of the Commission, an action brought pursuant to this subsection shall be heard and determined by a court of three judges in accordance with the provisions of section 2284 of title 28, United States Code, and any appeal from the determination of such court shall lie to the Supreme Court of the United States. Judges designated to hear the case shall assign the case for hearing at the earliest practicable date, participate in the hearing and determination thereof, and cause the case to be in every way expedited.

"(d) The Commission is authorized on behalf of the United States to appeal from, and to petition the Supreme Court of the United States for certiorari to review judgments or decrees entered with respect to actions in which it appears pursuant to the authority provided in this section.

#### "JUDICIAL REVIEW

"SEC. 511. (a) Any certification, determination, or other action by the Commission made or taken pursuant to the provisions of

this subchapter shall be subject to review by the United States Court of Appeals for the District of Columbia Circuit upon petition filed in such court by any interested person. Any petition filed pursuant to this section shall be filed within thirty days after such certification, determination, or other action by the Commission.

"(b)(1) The Commission, the national committee of any political party, or any individual eligible to vote for a candidate is authorized to institute an action under this section, including an action for declaratory judgment or injunctive relief, as may be appropriate to implement or construe any provision of this subchapter.

"(2) The district courts of the United States shall have jurisdiction of proceedings instituted pursuant to this subsection and shall exercise such jurisdiction without regard to whether a person asserting rights under the provisions of this subsection has exhausted administrative or other remedies provided by law. Such proceedings shall be heard and determined by a court of three judges in accordance with the provisions of section 2284 of title 28, United States Code, and any appeal shall lie to the Supreme Court of the United States. Judges designated to hear the case shall assign the case for hearing at the earliest practicable date, participate in the hearing and determination thereof, and cause the case to be in every way expedited."

SEC. 4. (a) Section 315(c) of the Federal Election Campaign Act of 1971 is amended by striking out "subsection (b) of this section and subsection (d) of this section" and inserting in lieu thereof "subsections (b) and (d) of this section and subsection (a) of section 503".

(b) Section 315(c)(2)(B) of the Federal Election Campaign Act of 1971 is amended by inserting before the period at the end thereof the following: ", except that with respect to the limitations established by subchapter III of this Act, the term 'base period' means the calendar year 1987".

SEC. 5. This Act and the amendments made by this Act shall become effective on January 1, 1989, and shall apply to campaigns for election to the Senate after such date.

#### AUTHORIZATION OF APPROPRIATIONS

SEC. 6. There are authorized to be appropriated to the Commission, for the purpose of carrying out its functions under this Act, such sums as may be necessary.●

By Mr. HATCH (for himself, Mr. STAFFORD, Mr. KENNEDY, Mr. GLENN, Mr. MATSUNAGA, and Mr. LUGAR):

S. 51. A bill to prohibit smoking in public conveyances; to the Committee on Commerce, Science, and Transportation.

#### PROHIBITING SMOKING IN PUBLIC CONVEYANCES

● Mr. HATCH. Mr. President, last summer I heard from a young woman, Anna Carroll. She is 45 years old and has emphysema, even though she has never smoked. Whenever she is around someone who smokes, she has difficulty breathing. In fact, her condition occasionally becomes so bad that she cannot work.

Cigarette smokers literally make Ann sick. They also make traveling life threatening. The noxious and obnoxious presence of cigarette smoke

has made it impossible for Anna to use any public transportation.

After I read Anna's letter, I started considering the possibility of legislation to ban smoking on public conveyances, and an amazing thing happened. I discussed the idea with several other Senators and health organizations, and apparently the word got out.

People started sending stacks of mail to my office, encouraging me to introduce the legislation. Glamour magazine ran a story in support of the idea, and Ann Landers—the most widely read column in America—ran a story saying, "Four Cheers for Orrin!"

Senators don't usually get that much attention for legislation which has been introduced, let alone for legislation which is just being considered.

Mr. President, Anna is not alone. Tens of thousands of people with asthma and emphysema are effectively banished from public transportation because of cigarette smoke, and hundreds of thousands of Americans who suffer from heart disease put their well-being at risk every time they travel because the air around them has been poisoned by the smoking of others.

The scientific evidence that nonsmokers are injured by the smoke from others is now indisputable. The Surgeon General's report on the "Health Consequences of Involuntary Smoking," released last December, stated that involuntary smoking is a cause of disease, including lung cancer, in health nonsmokers, and simple separation of smokers and nonsmokers within the same airspace may reduce, but does not eliminate, exposure of nonsmokers to environmental tobacco smoke.

The National Academy of Science went further in its report of the "Air-liner Cabin Environment," finding a number of reasons to support their recommendation to ban smoking from all commercial flights.

It is estimated that 5,000 nonsmokers die each year from exposure to the cigarette smoke of others. Several studies have shown that nonsmokers experience and immediate deterioration in lung function when exposed to passive smoke.

Mr. President, twice as many nonsmokers die from breathing the smoke of others as from any other carcinogens currently regulated as hazardous air pollutants under the Federal Clean Air Act.

Mr. President, it is time to realize that smoking doesn't just kill the smoker. It kills nonsmokers whose only mistake is being near a smoker. The 1,000 smokers who kill themselves every day with cigarettes are taking 12 to 15 nonsmokers with them.

If all of this is not bad enough, smoke from cigarettes affects the

health of our children. Children who are exposed to cigarette smoke are more likely to get pneumonia and bronchitis. Furthermore, as you have already heard, cigarette smoke from others can cause life-threatening asthma attacks. In fact, some children stop having asthma attacks if they are no longer exposed to cigarette smoking.

Mr. President, the bottom line is that every time nonsmokers step on a plane or train or other public conveyances with smokers, they are shortening their lives.

Moreover, cigarette smoke in public conveyances presents another threat to our lives and well-being. Fatal aircraft accidents have been linked to careless cigarette smoking. A recent FAA study found that careless smoking was the cause of 6 percent of in-flight fires.

Mr. President, the scientists have spoken on the health risks of passive smoking; the people have spoken on their desire to be protected from passive smoking; and now it is time for us in Congress to act.

To address this clear and present danger to the health and safety of the traveling public, today I am introducing legislation to ban smoking from all regularly scheduled, domestic public conveyances. In plain English, that means no more smoking on airplanes, buses, or trains—period.

Mr. President, there are a variety of excellent reasons why my colleagues should act to clear the air on public transportation: the poisoning of the American people by passive smoke, the damage cigarette smoke does to young children, and the threat to the safe operation of aircraft and vehicles. However, the strongest case for this legislation is Anna.

The question is simple: When a smoker's right to smoke comes in conflict with her right to clean air—breathable air—and her right to travel in this country, free of pain and discomfort, whose rights should prevail?

Most Americans think it should be the nonsmoker's right to breathe—and I agree.

In fact, a 1985 Gallup poll showed that 85 percent of nonsmokers, three of four former smokers, and, most interestingly, two of three smokers felt that smokers should not smoke around nonsmokers. A recent survey in my own State of Utah found 95 percent were in favor of banning smoking on public conveyances.

Mr. President, I don't see how any of my colleagues can disagree that we must protect those who have decided not to smoke. For the sake of their health and well-being—but especially for Anna—I urge my colleagues to join me in support of this legislation.

I ask unanimous consent that the bill, a copy of the letter from Anna M. Carroll, and a copy of the letter from

the Coalition on Smoking OR Health be included in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### S. 51

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Prohibition of Smoking in Public Conveyances Act of 1987".*

#### FINDINGS

SEC. 2. The Congress finds that—

(1) tobacco smoke is a major contributor to indoor air pollution;

(2) current methods of separating smokers and nonsmokers on public conveyances have not effectively protected nonsmokers from exposure to tobacco smoke;

(3) exposure to cigarette smoke results in health hazards to nonsmokers, including lung cancer, respiratory infections, decreased respiratory function, and exacerbation of preexisting conditions of the heart and lungs;

(4) exposure to cigarette smoking is especially dangerous for children, elderly individuals, individuals with cardiovascular diseases, individuals with allergies, and individuals with respiratory conditions such as asthma or emphysema;

(5) children exposed to cigarette smoking on a chronic basis are more likely to contract pneumonia, bronchitis, throat infections, and ear infections, and are more likely to have asthma attacks;

(6) exposure to small amounts of tobacco smoke in a confined area such as an airplane cabin has been shown to cause discomfort because of the unique microclimatic conditions in such an area and because of the close proximity of passengers; and

(7) numerous studies have documented overwhelming public support for the protection of nonsmokers in public places.

#### PROHIBITED ACTS

SEC. 3. (a) It shall be unlawful for any person to smoke in any regularly scheduled public conveyance which is traveling within the United States.

(b)(1) It shall be unlawful for any person to smoke in a waiting area in a terminal for a public conveyance in the United States, except in a smoking area of such a terminal designated pursuant to paragraph (2).

(2) The owner or operator of a terminal for a public conveyance may designate a portion of a waiting area in the terminal as a smoking area. Such an area—

(A) shall be clearly marked; and

(B) must be physically separate from non-smoking areas in such waiting area.

(c) It shall be unlawful to smoke in any public restroom in a terminal for a public conveyance.

#### PENALTIES

SEC. 4. (a) Any person who violates the provisions of subsection (a) of section 3 shall, on conviction thereof, be subject to a fine of \$500.

(b) Any person who violates the provisions of subsection (b)(1) or subsection (c) of section 3 shall, on conviction thereof, be subject to a fine of \$250.

#### INJUNCTIVE RELIEF

SEC. 5. (a) Any person who is aggrieved by a violation of section 3 may bring an action, in the district court of the United States for the district in which the violation occurred,

for injunctive relief pursuant to Rule 65 of the Federal Rules of Civil Procedure.

(b) If a person who brings an action under subsection (a) prevails in such action, the court may award costs and reasonable fees and expenses of attorneys to such person.

#### STATE ENFORCEMENT

SEC. 6. Any law of a State or a political subdivision of a State—

(1) which relates to smoking in public conveyances, smoking in waiting areas in terminals for such conveyances, or smoking in public restrooms in such conveyances or terminals; and

(2) which is more restrictive than the provisions of this Act,

may be enforced by such State or political subdivision to the extent that such law is not inconsistent with the provisions of this Act.

#### DEFINITIONS

SEC. 7. For purposes of this Act—

(1) the term "public conveyance" means any vehicle of a privately or publicly owned common carrier providing passenger service, and including air, rail, boat, ship, or bus service;

(2) the term "smoke" means the possession of a lighted cigarette, cigar, or pipe which contains tobacco; and

(3) the term "United States" has the same meaning as in section 3(3) of the Federal Cigarette Labeling and Advertising Act.

ALEXANDRIA, VA,

July 18, 1986.

HON. ORRIN G. HATCH,

U.S. Senate, 135 Russell Building, Washington, DC.

DEAR SENATOR HATCH: My name is Anna M. Carroll. I am 45 years old and have been diagnosed as having nonhereditary pulmonary emphysema. I have never smoked. My family didn't smoke. My husband doesn't smoke.

Experts on the hazards of passive smoking, including a research physicist at EPA, have told me that my emphysema is directly related to the fact that I was surrounded by chain smokers at work for more than 25 years (the same agency). Indeed, once I was no longer exposed directly to smokers on the job (the past six months), my vital capacity lung test showed a marked improvement.

The reason I am writing to you is because of the need for legislation to protect nonsmokers. It seems unfair that I, who have never smoked, must not only bear the brunt of a horrible disease caused by smokers, but must continue to be penalized by smokers when I attempt to travel by public transportation. I cannot take a bus or train. Even when I want to join a local tour group, I must first call up to see if smoking is permitted. If it is, I cannot participate. Travel by air has become a nightmare.

Recently, an airline told me if I wanted to be guaranteed a seat as far away from the smokers as possible, I would have to arrive at the gate an hour before departure time. I did, only to find there was no separate waiting area for nonsmokers. Airline and airport personnel only pointed fingers at somebody else—nobody would take responsibility. By the time I boarded the plane, I was in respiratory distress. The stewardess kept a close watch in case I suddenly required oxygen. I was unable to work the following day.

Tobacco smoke causes me chest pain and a struggle to breathe freely leaves me enervated. Now, even the smell of tobacco smoke

causes anxiety attacks, particularly in situations where I cannot easily walk away.

Letters to the Secretary of Transportation, the FAA, airlines, etc., have done little to no good. There are no laws on the books, so nobody takes responsibility for protection of the innocent nonsmokers.

Senator, it is unfair that smokers have a choice—they can choose to travel by public modes of transportation and endanger the public health. I endanger no one, yet I am not free to travel wherever I please. Please do something to alleviate this problem. Your efforts will be greatly appreciated.

Sincerely,

ANNA M. CARROLL.

COALITION ON SMOKING OR HEALTH,  
Washington, DC, July 28, 1986.

Hon. ORRIN HATCH,  
U.S. Senate, Washington, DC.

DEAR SENATOR HATCH: We are pleased to endorse and support your bill to ban smoking on all public conveyances. Medical evidence shows that tobacco smoke is a health hazard to nonsmokers, especially children, the elderly and those with preexisting heart and lung conditions. In addition, research has documented that nonsmokers exposed to the tobacco smoke of others have an increased risk of developing lung cancer, respiratory infections and deceased respiratory function.

More than three dozen states, and hundreds of municipalities, have enacted policies to protect nonsmokers in public places from exposure to secondhand smoke. Currently, Congress is considering several bills which would limit smoking in U.S. Government buildings to designated areas. It is appropriate that this growing concern for nonsmokers be turned to the problem of smoking on public conveyances, where millions of nonsmokers, including children, are regularly exposed to tobacco smoke. Current methods of separating nonsmokers from smokers are not effective, and we commend you on the introduction of legislation which would prohibit smoking in any regularly scheduled public conveyance such as airlines, railways and buses, as well as in public waiting room and terminals.

We look forward to working with you towards passage of this important health legislation.

Sincerely,

American Lung Association, American Heart Association, American Cancer Society, American Public Health Association, American Dental Association, American Association of Dental Schools, American Diabetes Association, Action on Smoking and Health, American College of Osteopathic Pediatricians.

American Academy of Pediatrics, American College of Cardiology, American Licensed Practical Nurses Association, American Academy of Otolaryngology, American College of Chest Physicians, American Association of Respiratory Care, American Medical Students Association, Center for Science in the Public Interest, National Perinatal Association.

American Association of Cancer Institutes, Joint Council of Allergy and Immunology, Association of State and Territorial Health Officials, American Speech-Language-Hearing Association, Association of Schools of Public Health, American Association of Preferred Provider Organizations, Terri Gotthelf Lupus Research Institute,

National Alliance of Senior Citizens, American Academy of Otolaryngic Allergy.●

By Mr. PRESSLER (for himself, Mr. MATSUNAGA, Mr. MOYNIHAN, Mr. DOMENICI, Mr. NICKLES, Mr. WARNER, Mr. MURKOWSKI, Mr. DIXON, Mr. SIMON, and Mr. BENTSEN):

S. 52. A bill to direct the cooperation of certain Federal entities in the implementation of the Continental Scientific Drilling Program; to the Committee on Energy and Natural Resources.

#### CONTINENTAL SCIENTIFIC DRILLING AND EXPLORATION

Mr. PRESSLER. Mr. President, I rise today on behalf of myself and Senators MATSUNAGA, MOYNIHAN, DOMENICI, NICKLES, WARNER, MURKOWSKI, DIXON, SIMON, and BENTSEN to introduce the Continental Scientific Drilling and Exploration Act. This legislation will move us an important step closer toward developing a national Continental Scientific Drilling Program [CSDP].

This measure is identical to the Continental Scientific Drilling and Exploration Act which I introduced early in the 99th Congress. That bill, which had 15 cosponsors, passed the Senate without objection following a hearing by the Committee on Energy and Natural Resources. At that hearing, witnesses from academia, government, and private industry expressed unanimous support for the bill and the importance of developing a Continental Scientific Drilling Program.

That enthusiasm has continued to grow during the past several months. I recently received a letter from Dallas Peck, Director of the U.S. Geological Survey—one of the key agencies involved in developing the CSDP—which is indicative of the continued support for this program. All three agencies have been consistent champions of the CSDP, and it has been a pleasure to work with them in developing this legislation.

The bill I am introducing today is straightforward and has no budgetary impact. It directs the Secretary of Energy, Secretary of Interior, and Director of the National Science Foundation to prepare and submit to Congress a report on the objectives, costs, and benefits of CSDP.

Specifically, that report would include the long- and short-term policy objectives of the CSDP; projected schedules of scientific and engineering events which would advance the objectives of the CSDP; estimates of funding levels needed to achieve the program's objectives; and the scientific, economic, technological, and social benefits which would be realized through the implementation of the program. This report would provide

Congress with vital information it needs to make informed decisions as to how or even whether the United States should move closer toward a national scientific drilling program.

The Continental Scientific Drilling Program was conceived over 15 years ago, about the time that an International Ocean Drilling Program was generating its scientific data. That program provided invaluable information about the composition and evolution of the ocean floor, but also made scientists realize that they had little knowledge of the dynamics and physical properties of the Earth's continental crust.

Although continental drilling had been under way in the United States since 1859, the focus of most of that activity had been exploration for mineral resources. Those drill holes were usually not in locations or drilled to depths which would yield the most information about the Earth's crust.

Over the years, interest in the Continental Scientific Drilling Program has grown. Since the late 1970's, members of the academic and scientific communities have been working along with government and private industry to develop and fund a full-scale National Drilling Program. The potential benefits that could be realized from such a program are numerous.

By drilling deep into the Earth's crust, we can enhance our understanding of the formation and migration of petroleum and natural gas, and the dynamics behind the geothermal systems that provide energy for the generation of electrical power. The discovery and development of these and other potential energy sources will become more and more important to the economic and security interests of the United States over the coming decades.

In addition, understanding how liquids flow deep within the Earth's crust would help scientists ensure the proper disposal of hazardous wastes and toxic substances. Deep drilling is also the only way to obtain accurate measurements of the stresses and temperature changes associated with geological faults. Such information could one day enable scientists to predict potentially devastating earthquakes with greater accuracy.

Unfortunately, progress in the United States toward a national Continental Scientific Drilling Program has been slow. The United States has yet to make a commitment to deep drilling on the same scale as the Soviet Union or our European allies. The Soviets, for example, have been drilling a deep hole in the Kola Peninsula for over 15 years and have now reached a depth of over 39,000 feet. They are also drilling another hole in the Caucasus Mountains which has already reached a depth of 26,000 feet.

In the meantime, the West German Government recently committed to drill a 46,000- to 49,000-foot-deep hole.

In the meantime, the United States' deep drilling activities are still in their infancy. In December 1986, the Continental Scientific Drilling Program began its first dedicated deep hole at Cajon Pass, CA. This project, which will cost \$8 million and go to a depth of 16,000 feet could yield valuable information about the stresses and dynamics of the San Andreas fault.

The Cajon Pass project is being conducted under the joint auspices of the U.S. Geological Survey and DOSECC—Deep Observation and Sampling of the Earth's Continental Crust, Inc.—a nonprofit consortium of universities established several years ago to help direct the implementation of the Continental Scientific Drilling Program. A recent article in the Washington Post titled "Scientists Hope Drilling Will Get to Bottom of San Andreas Fault," provides a detailed description of the Cajon Pass project. I ask unanimous consent that the article be inserted in the RECORD at the conclusion of my remarks.

While the CSDP is making some headway, we need to do more. The resources we have been willing to commit to this important program so far pale in comparison to those of other countries. It is important that the United States not be outpaced by other countries in realizing the scientific and technological developments that would accompany a deep drilling program. The benefits which could be attained in terms of natural resource development, hazardous waste disposal, and earthquake prevention are too important to allow our deep drilling efforts to languish.

The legislation I am introducing today will help us move forward in this important area. I stress again that this measure has no budgetary impact. The information that will be generated by the report called for in the bill will put the question of whether we want to proceed with a full-scale Continental Scientific Drilling Program squarely before the Congress. It is important that we take this important step so we can make other decisions vital to the successful development of a deep drilling program. I urge my colleagues to support this important measure, and ask unanimous consent that a copy of the legislation be printed in the RECORD, along with the previously mentioned letter.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### S. 52

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### PURPOSES

SEC. 2. The purpose of this Act is to—

(1) implement section 323 of the joint resolution entitled "Joint Resolution making continuing appropriations for the fiscal year 1985, and for other purposes", approved October 12, 1984 (Public Law 98-473; 98 Stat. 1875) which supports and encourages the development of a national Continental Scientific Drilling Program;

(2) enhance fundamental understanding of the composition, structure, dynamics, and evolution of the continental crust, and how such processes affect natural phenomena such as earthquakes, volcanic eruptions, transfer of geothermal energy, distribution of mineral deposits, the occurrence of fossil fuels, and the nature and extent of aquifers;

(3) advance basic earth sciences research and technological development;

(4) obtain critical data regarding the earth's crust relating to isolation of hazardous wastes; and

(5) develop a long-range plan for implementation of the Continental Scientific Drilling Program.

#### FINDINGS

SEC. 3. Congress finds that—

(1) because the earth provides energy, minerals, and water, and is used as a storage medium for municipal, chemical, and nuclear waste, an understanding of the processes and structures in the earth's crust is essential to the well being of the United States;

(2) there is a need for developing long-range plans for a United States Continental Scientific Drilling Program; and

(3) the Continental Scientific Drilling Program would enhance—

(A) understanding of the crustal evolution of the earth and mountain building processes;

(B) understanding of the mechanisms of earthquakes and volcanic eruptions and the development of improved techniques for prediction;

(C) understanding of the development and utilization of geothermal and other energy sources and the formation of and occurrence of mineral deposits;

(D) understanding of the migration of fluids in the earth's crust for evaluation of waste contamination and the development of more effective techniques for the safe subsurface disposal of hazardous wastes;

(E) understanding and definition of the size, source, and more effective use of aquifers and other water resources; and

(F) evaluation and verification of surface geophysical techniques needed for exploring and monitoring the earth's crust.

#### IMPLEMENTATION OF CONTINENTAL SCIENTIFIC DRILLING PROGRAM

SEC. 4. The Secretary of the Department of Energy, the Secretary of the Department of the Interior through the United States Geological Survey, and the Director of the National Science Foundation shall implement the policies of section 323 of the joint resolution entitled "Joint Resolution making continuing appropriations for the fiscal year 1985, and for other purposes", approved October 12, 1984 (Public Law 98-473; 98 Stat. 1875) by—

(1) taking such action as necessary to assure an effective, cooperative effort in furtherance of the Continental Scientific Drilling Program of the United States;

(2) taking all reasonable administrative and financial measures to assure that the Interagency Accord on Continental Scientific Drilling continues to function effectively in support of such program;

(3) assuring the continuing effective operation of the Interagency Coordinating Group to further the objectives of such program;

(4) taking such action to assure that the Interagency Coordinating Group receives appropriate cooperation from any Federal agency that can contribute to the objectives of such program, without adversely affecting any program or activity of such agency; and

(5) acting through the Interagency Coordinating Group, preparing and submitting to the Congress, within one hundred and eighty days after the enactment of this Act a report describing—

(A) long and short-term policy objectives and goals of the United States Continental Scientific Drilling Program;

(B) projected schedules of desirable scientific and engineering events that would advance United States objectives in the Continental Scientific Drilling Program;

(C) to the extent and for the duration that the Interagency Coordinating Group deems practicable, maximum, minimum, and intermediate levels of resources and funding that would be required by each participating Federal agency to carry out events pursuant to subparagraphs (A) and (B) at the various levels of effort;

(D) the scientific, economic, technological, and social benefits expected to be realized through the implementation of such program at each level described in subparagraph (C);

(E) a recommended course for interaction with the international community in a cooperative effort to achieve the goals and purposes of this Act;

(F) the extent of participation or interest shown to date in the Continental Scientific Drilling Program by—

(i) any other governmental agency;

(ii) any academic institution;

(iii) any organization in the private sector; and

(iv) any governmental or other entity in the international community;

(G) a plan to develop beneficial cooperative relationships among the entities mentioned in subparagraph (F), to the extent that the Interagency Coordinating Group deems practicable; and

(H) any other information or recommendations that the Interagency Coordinating Group deems appropriate.

U.S. DEPARTMENT OF THE INTERIOR,

Reston, VA, December 11, 1986.

HON. LARRY PRESSLER,  
U.S. Senate,  
Washington, DC.

DEAR SENATOR PRESSLER: On behalf of the Interagency Coordination Group (with representatives from the Department of Energy, National Science Foundation, and U.S. Geological Survey) for Continental Scientific Drilling (CSD), I want to thank you and your staff for your continuing support of CSD and sponsorship during the 99th Congress of S. 1026, the Continental Scientific Drilling and Exploration Act. We believe that CSD represents one of the major scientific frontiers in the earth sciences. We again appreciate your involvement with this issue and look forward to working with you in the future.

Sincerely yours,

DALLAS L. PECK,  
Director.

[From the Washington Post, Dec. 26, 1986]  
**SCIENTISTS HOPE DRILLING WILL GET TO  
 BOTTOM OF SAN ANDREAS FAULT**  
 (By Jay Mathews)

CAJON PASS, CA.—The San Andreas Fault cuts through the scrub-covered mountains just west of here, the mystery of its destructive power hidden deep in the granite heart of the ancient ridges.

After laboratory tests, stress measurements, temperature recordings and thousands of manhours of seismograph reading, a small army of scientists has concluded that the only way to get at the truth is to go down after it. So they are digging a very deep hole—three miles, they hope—to see what is there and how it can help them predict the fault's next devastating jolt.

Funded by \$5 million from the National Science Foundation and the U.S. Geological Survey, the drilling will be the deepest ever undertaken in the United States for research purposes. The Soviets have dug the world-record research hole—7.5 miles deep—on the Kola Peninsula. The Swedes are planning a three-mile hole, and the Germans and French have projects under way. "It is something that has caught on," said U.S. Geological Survey (USGS) geologist Ray Weldon, part of the team of scientists working out of trailers next to the 198-foot blue-white-and-yellow drilling rig here.

Similar drilling activities under the sea "have revolutionized the understanding of the ocean floor," Weldon said. Here, in the frustrating search for reliable warning signs of major earthquakes, scientists are hoping to resolve a key theoretical dispute in the field of plate tectonics: They want to know why the continental plates that meet at the fault line sometimes jerk violently past each other, creating a tremor.

Stanford University geophysicist Mark Zoback, leader of the Cajon Pass bore-hole project, noted that the laboratory experiments he and others have conducted on rocks under stress show that significant friction—and heat—should occur at the fault line. The Pacific plate moves northwest past the North American plate about 2.4 inches every year, a quick march in geological terms. All other dry-land faults are known to slip that fast.

But more than 100 temperature measurements along the fault, some to a depth of 900 feet, have revealed none of the friction-generated heat predicted by laboratory tests. Zoback has detected stress near the fault, but, research with his wife, Mary Lou, a USGS geophysicist, indicates that its direction may actually weaken friction on the fault line.

The Cajon Pass hole is designed to descend 6,000 feet, deep enough to settle a persistent argument over whether the heat is there.

"It's awfully hard to argue that 100 independent heat flow determinations are all wrong, but they were taken in very shallow holes and may be unreliable," Zoback said. Some theorists, sometimes known as "high stressers," argue that the measurements are faulty or that the heat is dissipated by water flows. Others, called "low stressers," suggest that the plates slide past each other at the fault line more easily than scientists have expected. There may be friction between the bottom of the plate and the earth's hot, rigid mantle, a much deeper phenomenon that would be harder to measure.

The bore-hole measurements, Zoback said, are "critical for earthquake prediction." If the high stressers are right, their laboratory

experiments are valid and can be used to look for warnings of quakes. If they are wrong, textbooks will have to be rewritten and old experiments put aside.

A small sign on the fence surrounding the drill site 50 miles northeast of Los Angeles announces the project as a joint venture of USGS and DOSECC—Deep Observation and Sampling of the Earth's Continental Crust Inc. The latter is a consortium of about 30 universities that support the project.

The drill crews, now cutting below the 800-foot level, have orders to take out regular core samples for study. The research team plans to measure stress at various depths using a bore hole televiewer developed by Mobil Oil Co.; it uses ultrasonic waves to probe the rock in the pitch dark. Pumping fluid into temporarily sealed-off portions of the hole can also measure stress.

Another Stanford geophysicist, Amos Nur, plans to measure the speed at which sound waves travel in different core samples. This provides an index of pore pressure, the amount of pressure transmitted by water in rock pores. Some laboratory experiments indicate that changes in pore pressure in fault zones foretell earthquakes. Nur hopes to find a practical way to measure such changes in the field.

The drilling crew, accustomed to looking for oil, must contend with the unusual difficulties of punching through granite. Only rarely is petroleum found under such hard igneous rock, so when "an oil crew hits granite, they go home," USGS engineer Thomas H. Moses Jr. said.

But an oil company that once tried to drill here still holds the mineral rights. It can take over the project if the scientists unexpectedly hit a gusher. Such a stroke of fortune, said Moses, "would turn this project into a pile of bleep."

Then, like a good scientist, he remembered that all happenstance is data. "Of course," he said with a grin, "it might raise a lot of other interesting questions."

By Mr. PRESSLER (for himself  
 and Mr. DASCHLE):

S. 53. A bill to provide for improvements to the Mount Rushmore Memorial; to the Committee on Energy and Natural Resources.

#### MOUNT RUSHMORE IMPROVEMENTS ACT

Mr. PRESSLER. Mr. President, I rise today to introduce a bill which is important not only to my home State of South Dakota, but to the entire country. I am pleased to note that my distinguished new colleague, Senator DASCHLE, has joined me as a cosponsor.

The purpose of this legislation is to begin the process of obtaining much needed improvement at the Mount Rushmore National Memorial. As you know, Mr. President, Mount Rushmore is our Nation's shrine to democracy. That granite mountain, with its famous depiction of four of our greatest Presidents, has been a great source of tremendous national pride and inspiration ever since its completion in 1941. But as it nears its golden anniversary in 1991, the Mount Rushmore National Memorial is in serious need of substantial repairs.

No improvements have been made at the facilities on Mount Rushmore for

well over 20 years. Since that time, visitation has nearly doubled. Originally designed to accommodate 1 million visitors per year, the memorial is currently experiencing acute overcrowding problems as it attempts to handle an annual visitation in excess of 2.5 million. As a result, much of the public is denied what could be a truly meaningful experience.

The current National Park Service personnel at Mount Rushmore do a tremendous job with the existing facilities. But, as a practical matter, the enormous and ever-increasing popularity of this national treasure has simply made obsolete the current physical plant. There is an ever increasing need to rush visitors through the memorial as quickly as possible in order to make way for those waiting. Interpretive programs have been severely curtailed. Parking is a nightmare. Priceless artifacts are stored rather than displayed. Security problems present a constant threat. The sculpture lighting is inadequate. Evening programs are severely limited. Overcrowding is an everyday occurrence. Indeed, visitors sometimes must be turned away. In short, the visitor's experience suffers.

The proposal I am forwarding today represents the first step in correcting these problems. It is our hope that most of the needed improvements could be completed in time for the celebration of Mount Rushmore's 50th anniversary. It is essential that we go forward with the proposed improvements in order that Americans from around the country can continue to not only enjoy the exhilarating experience of one of our greatest national monuments, but to better understand what the shrine to democracy is really all about.

But, Mr. President, not only is this legislation important for what it does, but for how it proposes to do it. The improvements could be made largely through private funds.

I am not proposing that we go to Uncle Sam and simply ask for the Federal Government to foot the bill. Because of the tremendous budgetary constraints of today the administration has already said it would oppose such an effort. In this time of strict fiscal restraint, we are going to have to come up with creative alternatives to funding badly needed public projects. That is our goal here. And, hopefully, this initiative might prove a model for other public projects which are or could be made conducive to private sector participation and support. What we are really attempting is to develop a joint initiative between the private and public sectors to raise the necessary funds.

I have been working over the past few months with the National Park Service and the Mount Rushmore National Memorial Society of Black Hills,

a private nonprofit group formed in 1930 for the sole purpose of supporting Mount Rushmore, in an attempt to devise a plan by which the much needed improvements could be made. For numerous reasons, neither a wholly publicly financed nor a wholly privately financed initiative is feasible. Working together, we are attempting to develop a solution. The concept could lead to funding the needed improvements at a minimal cost to the Federal Government. This legislation would represent the first step in that process.

Before the plan can get off the ground, it is imperative that the National Park Service design a clearer blueprint of the technical and financial needs associated with the project. This could be done at a fraction of the cost of the project. That is the primary purpose of this bill. I urge my colleagues to support this initiative.

It is a project worthy of our attention. I think it is important that we fully explore these potential alternative sources of funding. In today's economy, we need to rethink our public financing policies, and develop new approaches to old problems. That is our purpose here. The approach suggested in this legislation could represent a means by which we would be able to carry out our responsibility to the public and at the same time help ease the budgetary pressures of today.

The details of the proposal are explained more fully in the language of the bill itself and correspondence between myself and the National Park Service. Mr. President, I ask unanimous consent that the text of the bill and the correspondence be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### S. 53

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Mount Rushmore Improvements Act of 1987".*

#### PURPOSE

Sec. 2. The purpose of this Act is to—

(1) initiate a proposal to develop a cooperative funding effort between the public and private sectors in order to provide needed improvements at Mount Rushmore National Memorial;

(2) encourage private sector participation in lending financial support to meet the needs of properties within the domain of the National Park Service and other agencies of the Federal Government which are conducive to private sector support;

(3) define and develop a schedule of planning, design, and construction events which will lead to the completion of the necessary upgrading and expansion of facilities at Mount Rushmore National Memorial before the fiftieth anniversary of such Memorial;

(4) enhance the programs, facilities, and services offered to the visiting public at Mount Rushmore National Memorial; and

(5) fulfill the needs identified in the 1980 General Management Plan of the National

Park Service, as it relates to Mount Rushmore National Memorial.

#### FINDINGS

Sec. 3. Congress finds and declares that—

(1) no capital improvements have been realized at Mount Rushmore National Memorial since 1964;

(2) since 1964, visitation at Mount Rushmore National Memorial has nearly doubled;

(3) programs and services available to the general public at Mount Rushmore National Memorial currently are being limited to compensate for lack of adequate visitor facilities;

(4) Mount Rushmore National Memorial is in serious need of substantial capital improvements at this time;

(5) because of the fiscal and budgetary constraints on the Federal Government, and the scarcity of resources available to the National Park Service for distribution throughout the National Park System, it is desirable to encourage private sector participation in raising the funds necessary for the needed improvements at Mount Rushmore National Memorial;

(6) private sector participation in funding needed improvements in the National Park Service and in other projects throughout the Federal Government which are conducive to such participation would—

(A) be of great benefit to the general public;

(B) further important but otherwise unattainable public policy goals;

(C) provide important financial and cultural improvements in local communities; and

(D) be consistent with efforts to reduce Federal spending and help balance the Federal budget; and

(7) the private and public sectors can and should engage in a cooperative effort to meet the public when it is impractical for either sector to meet the need by itself.

#### IMPLEMENTATION OF THE MOUNT RUSHMORE NATIONAL MEMORIAL IMPROVEMENTS

Sec. 4. No later than September 30, 1987, the National Park Service shall develop a comprehensive design and plan for the upgrade and expansion of facilities at Mount Rushmore National Memorial, consistent with the findings and purposes set forth herein, and report such design and plan to the Congress.

#### AUTHORIZATION FOR APPROPRIATIONS

Sec. 5. There are authorized to be appropriated \$500,000 for the purpose of carrying out the provisions of this Act.

#### U.S. SENATE, COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION,

Washington, DC, December 18, 1986.

Ms. LORRAINE MINTZMYER,  
Director, Rocky Mountain Region,  
National Park Service,  
Denver, CO.

DEAR Ms. MINTZMYER: The purpose of this letter is to seek your professional opinion regarding a project I am initiating to upgrade and expand facilities at the Mt. Rushmore National Memorial.

It is my intention to propose legislation in the 100th Congress to implement needed improvements at Mt. Rushmore which were identified in the National Park Service's 1980 General Management Plan. For your information, enclosed is a copy of correspondence between me and the Mt. Rushmore National Memorial Society of Black Hills, which discusses the plan in more

detail. As you know, these improvements are desperately needed as there has been virtually nothing done in this area since 1964, and visitation has nearly doubled from 1964 figures.

I envision the possibility of developing some type of cooperative effort between the private and public sectors to raise the needed funds. I understand the Administration's reluctance to endorse a complete federal funding of such a project. On the other hand, it would be unreasonable to expect that this type of project can be funded by entirely private donations. Indeed, as the enclosed correspondence indicates, this approach has been explored by the Mt. Rushmore Society and found to be unworkable because of the prohibitive start-up costs associated with a private fundraising effort.

It is my hope that we can formulate some type of private sector/public sector cooperative plan to accomplish the task. We need to develop creative public solutions to funding problems if we are to realize our twin goals of providing important government services and balancing the federal budget. Indeed, it is my hope that we can develop an approach which might serve as a model not only for other Park Service needs, but for other areas of the federal government as well.

Therefore, I am requesting information needed to go forward with this proposal as soon as possible. Specifically, I would request that you prepare for me a capability statement outlining the steps necessary to complete such a project in time for celebrating the 50th anniversary of Mt. Rushmore in 1991. In the capability statement, please answer the following questions:

If we embarked on such a program, what specific improvements should be made in order to modernize and expand the facilities commensurate with present needs? In addition to defining the specific individual improvements, please give me your opinion as to which of these would be most susceptible to private sector funding. Which could most logically be done by private sector funding and which are more appropriately left to the federal government?

How capable are you of defining a specific planning and design process? Assuming Congress appropriates \$500,000 for this purpose, which I am proposing, could it be spent wisely in FY 1988? Is this figure a reasonable amount to seek for FY 1988 activities associated with such a project? Can the planning be completed in FY 1988?

Would the Park Service be receptive to state as well as private contributions toward funding these improvements?

What specific steps would the Park Service recommend/require to get this project under way?

Any additional information you deem relevant to my inquiry.

My interest in seeking this capability statement is to be in a better position to consider future budget requests and to have the information necessary to determine the feasibility of proceeding with this plan.

As stated earlier, there are groups outside the federal government interested in lending financial support to this project. But we need a clearer blueprint of the work needed and a more definite schedule of the events necessary to realize the Society's goal of completing the project for the 50th anniversary celebration.

A detailed capability statement would be most helpful in assessing the options available. In this time of austere budgetary constraints, it would be a serious mistake if we

failed to explore what potentially could be a creative alternative to total federal funding.

As I hope to introduce this legislation on the first day of the 100th Congress, it would be greatly appreciated if you could provide me with the capability statement by January 1, 1987.

Thank you for your attention to this matter. If you should have any questions, please feel free to contact me or Kevin Schieffer of my staff at 202/224-5842. I look forward to your response.

Sincerely,

LARRY PRESSLER,  
U.S. Senator.

U.S. DEPARTMENT OF THE INTERIOR,  
NATIONAL PARK SERVICE, ROCKY  
MOUNTAIN REGIONAL OFFICE,  
Denver, CO.

HON. LARRY PRESSLER,  
U.S. Senate,  
Washington, DC.

DEAR SENATOR PRESSLER: This responds to your December 18, 1986 inquiry and an amplifying telephone discussion with Kevin Schieffer on December 31 in regard to upgrading and expanding facilities at Mount Rushmore National Memorial. The General Management Plan, which was approved in 1980, outlines the development needs for the Memorial. Specific development proposals generated as a result of that plan identified a wide range of needs, including nearly all of the work mentioned in the material provided with your letter.

We are very receptive to your approach to raising development funds from the private sector, and would welcome state as well as private support. Under current budget constraints, development at Mount Rushmore would not be funded from the Service's construction program in the foreseeable future. Only two projects, renovation of the sculptor's studio and exhibits, and reconstruction of the main entrance road and parking, have proceeded to a point where they have formally been assigned a National Park Service priority. But even for these relatively high priority projects, it would be many years before funding would be available based on current program levels. The entrance road project, which was not mentioned in the material with your letter, is planned for accomplishment by the Federal Highway Administration with funding from the Federal Lands Highway Program. This project may be especially appropriate to state funding through the Public Lands Highway Program.

A list of the specific improvement which should be made to modernize and expand the facilities commensurate with present needs is enclosed, categorized by projects we believe are most amendable to private sector funding, and those more appropriately left to the Federal Government. The construction cost estimates provided are based only on similar facilities and may change significantly after more detailed planning is completed. These estimates include factors for construction supervision and unanticipated change orders after contract award based on overall service experience. Estimates for the detailed design of specific facilities, primarily to produce the contract documents, are not included with the construction estimates and would be an additional 5 to 7 percent. We would provide more specific cost estimates for the necessary architectural and design work as part of the planning work which would be done by the Service.

The enclosed capability statement addresses our capacity to define a specific

planning and design process. To summarize that statement, if \$500 thousand were to be provided in fiscal year 1988 as you propose, the Service would be able to complete comprehensive design for a substantial portion of the identified projects, including the planning necessary to provide a specific strategy of the work most appropriate for private sector support. The detailed planning scope could be tailored as fund raising efforts progress to assure that projects for which private funding commitments are made receive highest priority. This planning effort would provide the bridge between the general planning already accomplished by the General Management Plan, and the specific architectural and engineering work necessary to make specific improvements at the Memorial.

In further response to your inquiry, we would be happy to provide you with copies of cooperative agreements and other materials based on similar efforts at other Service areas, and we could meet with your staff if you are interested in further details on the scope of the projects or the planning effort.

We hope this information satisfactorily responds to your request. We appreciate your support of the National Park Service.

Sincerely,

LORRAINE MINTZMYER,  
Regional Director,  
Rocky Mountain Region.

DEPARTMENT OF THE INTERIOR,  
January 2, 1987.

Agency/Bureau: National Park Service.

Fiscal year: 1988.

Appropriation: Construction.

Activity: Advanced Planning.

Proposed amendment: +\$500 thousand for advanced planning to develop comprehensive design for upgrade and expansion of facilities at Mount Rushmore National Memorial.

Current Program: Programs and services are currently being limited to compensate for lack of adequate visitor facilities at Mount Rushmore National Memorial. Present facilities were planned and constructed to serve an annual visitation of 1 million. Expansion of facilities is needed to provide visitor services for the 2 million people visiting the Memorial annually.

Amount Budgeted in FY 1988: None.

Feasibility: Private groups have indicated an interest in lending financial support to upgrade facilities at Mount Rushmore in time for the Memorial's 50th anniversary and official dedication in 1991. The proposed amendment would fund the planning effort necessary to provide the bridge between the general planning already accomplished by the General Management Plan, and the architectural and engineering work necessary to make specific improvements at the Memorial.

Capability: All funds would be obligated in FY 1988 to complete comprehensive design (site planning) for a substantial portion of the identified projects, including the planning necessary to provide a blueprint of the work most appropriate for private sector support. For example, expansion of the amphitheater, renovation of the sculptor's studio, expansion of parking, structural analysis of the sculpture, improvement of sculpture lighting, rehabilitation of the concession building, and expansion and upgrading of interpretive exhibits would be addressed.

Outly Effect: FY 1988—\$500,000.

Proposal Made By: Senator Pressler.

# Mount Rushmore National Memorial Summary of Development Needs

[In thousands of dollars]		Cost <sup>1</sup>
Projects amenable to private support:		
1. Renovate old studio and install exhibits.....		1,747.5
2. Reconstruct amphitheater and walks; add restrooms.....		2,186.4
3. Revise sculpture lighting.....		450.6
4. Rehabilitate concession building.....		655.0
5. Expand visitor center exhibits and plan and produce sculptor's studio exhibits.....		150.0
6. Construct parking area.....		3,217.4
7. Emergency protection of sculptor's models.....		91.0
Total.....		8,497.9
Projects less appropriate for private support:		
1. Bury powerlines.....		500.0
2. Relocate maintenance facilities.....		2,327.9
3. Reconstruct main entrance road and parking (planning, design, and construction to be funded by Federal Lands Highway Program) <sup>2</sup> .....		2,500.0
Total.....		5,327.9
Grand total.....		13,825.8

<sup>1</sup> Estimated.

<sup>2</sup> This project may be especially appropriate for state funding through the Public Lands Highway Program if consistent with South Dakota's priorities.

By Mr. PRESSLER:

S. 54. A bill to make foreign nationals ineligible for certain agricultural program loans, payments, or benefits, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

## AGRICULTURAL PROGRAMS SAVINGS

Mr. PRESSLER. Mr. President, today I am introducing legislation to close several loopholes in farm program payment limitations and prohibit the payment of farm program benefits to foreign landowners and operators.

With the increased cost of farm programs and news reports of multimillion dollar farm program payments being made to large corporate farms, there is increasing pressure to make changes in the farm bill. Last year a new \$250,000 total farm program payment cap was implemented. This is a step toward limiting farm program payments but many of the loopholes which allow huge farms to circumvent the old \$50,000 payment limitation were not addressed and still exist. I believe that these loopholes should be closed before we start to overhaul farm programs.

The bill I am introducing today includes three provisions to reduce the cost of farm programs and direct benefits to family farmers. The first section prohibits the payment of farm program benefits to foreign landowners or operators. Under current law, a

farmland owner or operator is eligible for farm program benefits if they comply with other requirements. A December 10, 1986, Washington Post article illustrated a clear example of how millions of U.S. farm support payments are going abroad. The article stated that farm program subsidies of \$2.2 million went to Farms of Texas, Inc., a \$70 million partnership owned by Crown Prince Hans Adam of Liechtenstein. This is just one example of farm program payments being made to foreigners.

Statistics released by USDA determined that 8,760,300 acres of farmland was owned by foreign investors as of December 31, 1985. That amount has very likely increased during the last year. This represents a relatively small percentage of total U.S. farmland, but millions of taxpayers dollars are paid to foreign landowners annually in farm program benefits. Last year the Congressional Budget Office estimated that prohibiting payment of farm program benefits to foreigners would save \$30 million annually.

The eligibility of foreigners for farm program benefits also encourages foreign investors to purchase farmland. The foreign investors are purchasing land that an American farmer would very likely buy. The foreign landowners are generally large corporations. This provision prohibits taxpayers dollars from going to these huge foreign corporations.

The second cost saving provision would change the percentage of ownership an individual must have in a farm corporation to be considered a person for purposes of the payment limitation. The amendment would make it much more difficult for corporations to circumvent the current \$50,000 payment limitation by setting up dummy corporations. The Congressional Budget Office estimated last year that this provision would result in a \$20 million savings annually.

On August 1 of last year, I offered this provision as an amendment, but withdrew it after receiving a commitment for hearings on the issue in the Senate Agriculture Committee. Unfortunately, no hearings were held. Hopefully, hearings can be held early this year on this legislation.

A recent Kipling Agriculture Letter included some interesting statistics on the growth in the reorganization of corporate farm structure to qualify for larger government payments. From 1984 to 1986 the number of corn farmers enrolled in commodity programs increased by approximately 160,000 or 12 percent, while the total acres eligible for benefits rose by only one-half percent. Wheat farmers enrolled in Government programs increased by 10 percent, while bare acres dropped 1.3 million acres. Most of the increase in the number of farms participating is due to corporate restructuring. This

provision would make this much more difficult.

This provision is not really a change in policy, but an effort to close a loophole in the \$50,000 payment limitation. Why should we impose a \$50,000 payment limitation if we are not going to effectively implement the limitation?

Specifically, the second section of the bill would change the definition of a corporation. Currently, if an individual, including his spouse, minor children and trusts for children or legal entity, own more than 50 percent of the stock, they are not considered a separate person for the purposes of the \$50,000 payment limitation. This allows a 50 percent stockholder in a corporation to receive a \$50,000 payment as well as the corporation. This bill will reduce the percent of stock ownership under this provision to 20 percent. Therefore, any stockholder with more than 20 percent ownership would be considered the same as the corporation for the purposes of the payment limitations. This change will make it much more difficult for farm corporations to circumvent the \$50,000 payment limitation.

For many years Congress has established a limitation on the amount of farm program benefits an individual farmer may receive. The intent of this provision was to prevent the owners of large farms from receiving hundreds of thousands and millions of dollars in farm program benefits. This both holds down farm program costs and directs benefits to family size farmers. Unfortunately, large corporate farms have found creative means of avoiding the payment limitation. These huge payments increase the cost of farm programs and give badly needed programs for family farmers a bad reputation.

The third section of the bill would require that all producers participating in crop support programs comply with the same set-aside requirements. Currently, large operators who hit the \$50,000 payment limitation are allowed to produce nonprogram crops on a portion of the acreage which would otherwise be retired from production. This not only gives large producers an unfair advantage over the average size producer, but also encourages subsidized production of nonprogram crops. This allows these large producers to unfairly compete with producers who depend on nonprogram crops for their living. The subsidized production also depresses market prices. The Congressional Budget Office has estimated that this provision would save \$30 million annually. This savings does not consider the benefits of increased market prices for various nonprogram crops.

Mr. President, we will be hearing a lot about the cost of farm programs and the need to reduce those costs. I

hope that my colleagues will join me in supporting this bill which makes minor changes in farm programs but would result in savings of approximately \$80 million annually. Last year I received a commitment for hearings on this legislation. Hopefully, the Agriculture Committee will hold those hearings early this year.

By Mr. PRESSLER:

S. 55. A bill to authorize the Lyman-Jones and West River rural water development projects; to the Committee on Energy and National Resources.

#### LYMAN-JONES AND WEST RIVER RURAL WATER PROJECT

● Mr. PRESSLER. Mr. President, today I am reintroducing legislation to authorize the development of the Lyman-Jones and West River rural water project in South Dakota. During the last session of Congress I introduced a similar bill, S. 1471. A companion bill was introduced in the House of Representatives. Hearings were held by the appropriate subcommittees in both the House and the Senate and further action was scheduled but time ran out. I am reintroducing this bill early in the 100th Congress so that the project can continue to move forward.

The Lyman-Jones and West River rural water project is the result of a grassroots effort to bring good quality water to western South Dakota. For over 25 years local residents in western South Dakota have been working to make this project a reality. Several years ago during a public listening meeting I held in Chamberlain, SD, Frank Woster, a director on the Lyman-Jones rural water project, talked to me about the poor quality of water in the area and the unsuccessful efforts of local residents to find the much needed rural water project through the Farmers Home Administration.

The Lyman-Jones and West River rural water project would be similar to the WEB pipeline project which is currently under construction in north-central South Dakota. The project would provide good quality Missouri River water for domestic and livestock use in 9 western South Dakota counties and 12 rural communities in the area. The possibility of providing water to two Indian reservations is also being explored. The tribes have expressed an interest in receiving water from the project. This addition would substantially increase the number of people served. The water quality in these communities is poor. The water contains dissolved solids in excess of the recommended EPA limit. In fact, most of the water supplies in the area would be considered brackish by EPA standards. The water in this area contains exceedingly high levels of sodium, sulfate, and iron which

cause digestive problems in humans and livestock.

Such poor quality water creates public health problems. I recently met with a resident of western South Dakota who had been required to take medication for high blood pressure for years. His doctor suggested he start buying his water for drinking and cooking. He did this, and as a result has been able to stop taking medication for high blood pressure. Owners of restaurants and service stations in western South Dakota must caution visitors about the possible hazards of drinking the water. This is of particular concern since Interstate 90, the primary route for tourists traveling to the Black Hills, passes through this area. The large amount of dissolved solids in the water is not only bad for human health, but also substantially increases the cost of maintaining water systems and household appliances.

In this area, most of the water comes from deep wells. The wells are very costly to drill and have a short useful span. The average community must spend near one-quarter of a million dollars to drill a new well. The area ranchers also pay an average of between \$10,000 and \$30,000 to drill a well. Even with these high costs, the average lifespan of a well is only 4 to 12 years with average annual maintenance costs of 10 percent of the construction costs. Having to live with this poor quality water and expensive water systems has made the area residents very thirsty for good quality water from the nearby Missouri River.

The Lyman-Jones rural water system was originally organized in 1971. Initially, no signup fee was assessed; but later, when the signup fee was collected, approximately 85 percent of the area residents paid the signup fees. Six municipalities also signed up for the project. A similar signup occurred in the West River rural water system area in the 1980's. The need and desire for good quality water in the area has been clearly demonstrated.

When the Lyman-Jones rural water system was first organized, the cost of the project was estimated at \$17 million. Inflation has since increased the cost. The estimated total cost of both projects is now approximately \$50 million. The size of the projects make it impractical for the Farmers Home Administration to provide financing for the projects. With the limited funds available through the FmHA Rural Water Program, the FmHA has recommended that the two projects try to obtain funding similar to that received by the WEB project in South Dakota.

Water development in South Dakota has a long history. In the 1940's, South Dakota agreed to sacrifice over 500,000 acres of farmland for the construction of four Missouri River main-

stem dams. These dams have provided hydroelectric power, flood control, and navigation for downstream States. In return for the sacrifices South Dakota made for the construction of the dams, the Federal Government made a commitment to South Dakota. That commitment was to provide water development in the State. Since coming to Congress over 10 years ago, I have continually fought for the development of South Dakota water projects. We have had some success in this effort during that time with the development of the WEB project and the rehabilitation of the Belle Fourche irrigation project, but the Federal commitment to South Dakota has not been fulfilled. The authorization of the Lyman-Jones and West River rural water project is an effort to obtain a partial fulfillment of the Federal commitment to South Dakota. ●

By Mr. DOMENICI (for himself and Mr. BINGAMAN):

S. 56. A bill to establish the El Malpais National Monument, the Masau Trail, and the Grants National Conservation Area in the State of New Mexico, and for other purposes; to the Committee on Energy and Natural Resources.

#### MASAU TRAIL ACT

Mr. DOMENICI. Mr. President, today I am reintroducing the Masau Trail Act. This act, which will establish the Masau Trail, the El Malpais National Monument, and the Grants National Conservation Area, will provide protection to some of New Mexico's most unique natural resources and also will promote tourism in the Grants, New Mexico area, which has suffered greatly from the decline in the energy industries, especially the uranium industry.

The act is named after Masau, the great god-man who welcomed the Indian people to the Earth from the underworld as they came through the sipapu, or place of emergence. According to the history of the Pueblo Indians, mankind has existed since the beginning of time, but lived for a long, long time underground. Eventually, mankind emerged from the underworld and was welcomed by Masau. The Pueblo people then followed Masau's huge footprints, which were as large as a man's arm, across the Earth.

It is fitting that the act be named after Masau, as modern day travelers will be able to follow in the footprints of the Indian people who traveled across northwestern New Mexico in ancient times as they travel along the Masau Trail, which will be created by this legislation.

Masau has characteristics similar to the legislation that I am introducing. Masau means many things to many people. He is the god of life; the god of death; the god of travelers; the god of

boundaries; the god of fertility; the god of war. Likewise, this legislation will mean many things to many people. It will accomplish several very important objectives for the State of New Mexico:

First, it will establish the Masau Trail, an automobile touring route linking a number of historic and cultural sites in northwestern New Mexico;

Second, it will provide a significant tourist attraction for the Grants area in the form of a new unit of the National Park Service to be called the El Malpais National Monument;

Third, it will provide Federal protection to over 379,000 acres of land; and

Fourth, it will place over 115,000 acres of Federal land in wilderness status.

Mr. President, I am compelled to point out that renowned travel expert Arthur Frommer has recently declared New Mexico to be one of the 10 best vacation spots in the world. It is an area of magnificent beauty and proud history. This bill will increase New Mexico's attraction to travelers from all over the world. Additionally, this bill will help the community of Grants, NM, which has lost 7,000 jobs in recent years due to the collapse of the uranium industry.

#### THE MASAU TRAIL

The Masau Trail will be an automobile touring route which will link a number of prehistoric and historic sites in northwestern New Mexico. These sites will include Aztec Ruins, Bandelier, Canyon de Chelly, Chaco Canyon, El Malpais, El Morro, and Salinas National Monuments, as well as other national, State, and local sites of interest. The trail is a multi-governmental, multi-agency concept. On the Federal level, the National Park Service, the Bureau of Land Management, and the National Forest Service will include lands under their control in the trail. The State of New Mexico and various local governments, as well as the Indian tribes in the area, will be invited to participate in the trail.

The purpose of this trail is to introduce visitors to the wealth of historic, cultural, and natural sites in northwestern New Mexico and to give them a comprehensive perspective on the history of the Indian peoples who populate the region. It will allow visitors to the region to appreciate the continuum of history and culture, from ancient times to modern day, which is represented in the region. The Masau Trail will emphasize the interrelationship of all of the sites along the trail.

The trail will be marked by signs with grain footprints, the footprints of Masau. One can see examples of Masau's footprints in the ancient petroglyphs which cover the volcanic escarpment on the west side of Albuquerque. I have been working on find-

ing ways to provide protection to this area, which includes over 10,000 ancient Indian and Hispanic rock carvings in a 17-mile stretch, and hopefully in the coming year we will be able to incorporate the Albuquerque petroglyphs into the Masau Trail.

A multigovernmental, multiagency visitors center, bringing together all of the entities that are participating in the trail, will be constructed along Interstate 40 near Grants. This center will introduce travelers to the Masau Trail and give them an overview of the history and culture of this fascinating region. It also will provide tourists with information on the various components of the trail and directions on how to reach those sites.

#### EL MALPAIS NATIONAL MONUMENT

This legislation will also create a new unit of the National Park Service, the El Malpais National Monument, at the lava flows known as El Malpais south of Grants.

Last summer, I had the opportunity to tour El Malpais with William Mott, the Director of the National Park Service. Following that visit, Mr. Mott recommended to me that Congress designate approximately 126,000 acres of the El Malpais lava flows and surrounding lands as a National Monument under the supervision of the Park Service. The bill I introduce today will do that. The Monument will encompass the Bandera, Laguana, and McCarty's lava flows, the ice caves, Bandera Crater, the Sandstone Bluffs overlook, the Dominguez-Escalante Trail, the natural sandstone arch, the Narrows, La Vieja rock formation, McCarty's Crater, and a multitude of other resources. A visitors center will be constructed in the vicinity of Bandera Crater and the ice caves, where most of the visitor use is expected to be concentrated.

El Malpais is a large volcanic region located near Grants, NM, approximately 75 miles west of Albuquerque. El Malpais, which means bad country, is the historic Spanish name for the lava formation.

El Malpais consists of at least five different lava flows, the most recent of which is estimated to be only 600 to 1,300 years old, making it one of the most recent lava flows in the continental United States. The lava flows contain a number of unusual and unique physical features of lava eruptions, including pahoehoe, AA, blocky flows, grooved lava, squeeze, ups, collapsed depressions, pressure ridges, kipukas, spatter cones, lava tubes, ice caves, and large cinder cones. El Malpais contains the longest known lava tubes in North America. One tube has been measured to be sixteen miles in length.

The Bandera Crater area and associated lava flows and ice caves have been characterized by many geologists as outstanding geological features

with superior interpretive and educational value. Bandera Crater is nearly a half mile wide, 1,000 feet deep, and is considered a classic example of its type of volcanic activity. Ice caves occur within the flow associated with the Bandera Crater area. Some ice caves have magnificent 30 to 50 foot ice crystals on the ceilings.

The eastern edge of the El Malpais area includes a high sandstone ridge and bluff area which encompasses a highly scenic landscape with tremendous contrast between the black lava flows and the pink sandstone bluffs. This bluff area contains the largest and most dramatic natural arch in New Mexico. Also found in this area is the Las Ventanas site, an established unit of the Chaco Culture Archeological Protection Site System, and La Vieja, the old woman, a rock formation that looks like the profile of a woman.

The Dominguez-Escalante Trail crosses the lava flow. This was the route pioneered by Father Silvestre Velez de Escalante and his Franciscan superior, Francisco Atanasio Dominguez, as they sought a route from Santa Fe to California in 1776 in order to unite the northern and western portions of Spain's American empire. This marked trail offers interpretive opportunities and an excellent cross-lava trail corridor.

The establishment of the El Malpais National Monument will provide visitors with a magnificent window on the unique geologic, natural, and cultural features of the El Malpais area. I am happy that the National Park Service, the premier agency in the world for presenting natural resources to the public, will be administering this area. They will bring their expertise to this project and will assure that visitors to this area get a first-class experience.

#### THE GRANTS NATIONAL CONSERVATION AREA

The legislation I introduce today also will designate approximately 253,000 acres of land surrounding the El Malpais National Monument as the Grants National Conservation Area.

This area will be administered by the Bureau of Land Management. The Bureau has protected this area, including the area to be designated as a National Monument, for a number of years. They have done an excellent job and this will allow them to continue to manage the majority of these lands.

The conservation area will encompass the string of volcanic craters known as Chain or Craters, portions of the various lava flows, the areas known as hole in the Wall and Little Hole in the Wall, and surrounding grazing lands.

This area lies within the zone known as the Acoma cultural province. It is approximately 25 miles from the famed Acoma Pueblo and its Sky City. The conservation area contains ex-

tremely high-value, high-density archeological resource in thousands of separate archeological sites. Many of these sites are associated with the prehistoric Chacoan system and the related, but more recent, Acoma cultural province. This region was an area of interface between the prehistoric Mogollon and Anasazi cultures.

The conservation area contains numerous sites and site communities, including pithouses, single room filed house, water control features, and abundance of rock art, Chacoan road segments, Chacoan outliers with attendant surrounding communities, great kivas, and large pueblo masonry structures.

The high density and diversity of cultural resources along the east side of the lava combined with the relative short distances created by the physical features that concentrated settlement between the lava flows to the west and the high rugged sandstone mesas to the east create a major research and visitor use opportunity. The bill provides direction to the Bureau of Land Management to develop special management plans for the protection and study of these archeological resources. A similar directive is provided to the National Park Service for those archeological resources within the El Malpais National Monument.

This legislation will designate approximately 115,000 acres of BLM wilderness within the conservation area. These areas, known as the Rimrock, Little Rimrock, Sand Canyon, Pinyon, and West Malpais Wilderness Study Areas, and the Hole in the Wall, contain some of the most stunning natural resources in New Mexico and deserve to be protected for the enjoyment of future generations.

Mr. President, I am extremely excited about this legislation. I believe that it will provide much needed protection to one of the most unusual and unique natural and cultural areas of the United States. It also will provide visitors to northwestern New Mexico with an incredibly comprehensive and rewarding education on the history of this region. Finally, it will give an area of the State of New Mexico which has suffered much from the collapse of the uranium industry a much-deserved shot in the arm in the form of increased tourism. The magnificent thing about this legislation is that it can do each of these things without excluding the others.

However, this proposal is by no means perfect. When hearings are held on this legislation, we must address the issue of water rights. Although very little water is present in this area, the withdrawal of lands for a National Monument and for the creation of wilderness units brings into question the status of water rights in the area. This has become a very con-

tentious issue. I am aware that some Members of the Senate feel that any legislation creating a National Monument or wilderness units must include language addressing water rights. The bill that I am introducing today, however, does not address the issue of water rights.

Another area that will need close examination is grazing. A number of individuals have historically conducted grazing in the areas covered by this bill. The Park Service boundaries have been drawn so as to exclude grazing areas to the maximum extent possible without diminishing the resource to be protected, as grazing within the National Monument will be phased out within 10 years. However, we must closely examine the boundaries to make sure that we haven't overlooked anything in this area.

Additionally, this legislation does not address the future of subsurface mineral rights which underlie lands to be designated as wilderness. The creation of wilderness effectively denies the owner of the subsurface estate the possibility of ever developing the mineral potential of the land or even of discovering what minerals are present there. I believe that Congress must treat the owners of the subsurface estate fairly and provide an efficient process for exchanging mineral rights which underlie wilderness lands for other Federal mineral rights.

This legislation was originally introduced in the last Congress but was not enacted because there was no opportunity to hold hearings. In light of the tremendous support which this legislation has received, I hope that hearings on this measure may be held in the near future and that this legislation will be enacted into law quickly.

Mr. BINGAMAN. Mr. President, I am pleased to join the distinguished senior Senator from New Mexico in introducing the El Malpais/Masau Trail bill.

This bill is identical to legislation being introduced in the House of Representatives by Congressman RICHARDSON and to legislation introduced last session. The bill is the result of a great deal of effort by all interested parties to reach an acceptable compromise.

The proposal establishes a 126,000-acre El Malpais National Monument to be administered by the National Park Service. It includes an El Malpais Visitors Center. It calls for the designation of the Masau Trail, an auto touring route to link prehistoric and historic cultural sites in western New Mexico. It authorizes a Masau Trail Visitors Center in Grants, NM.

The bill creates a 254,000 acre National Conservation Area to be administered by the Bureau of Land Management. Grazing, hunting, trapping, and noncommercial wood gathering would be permitted in the BLM area. The bill also creates 115,000 acres of

BLM wilderness, including Rimrock, Little Rimrock, Sand Canyon, Pinon, and West Malpais wilderness study areas, and an area known as the Hole In The Wall. The bill calls for the study of roadless areas of the National Monument and the restudy of the Chain of Craters Wilderness Study Area for possible designation as wilderness. The legislation also protects Native American uses and directs the BLM and the Park Service to develop management plans for the protection of areas with valued archeological resources.

This bill is a delicate balance which will foster important economic development and increased tourism in the Grants area and provides important environmental protection of this region of the country.

The Malpais is a unique area of the State of New Mexico and the Nation and it is deserving of Park Service and wilderness protection. The name Malpais is the historic Spanish name meaning bad country. It is the name of the lava formation located in western New Mexico also known as the Grants Lava Flow. It actually consists of three flows which have been described by the Park Service as a beautiful, fresh, black lava flow, as fresh and unweathered as the historic flows of the Hawaiian Islands, Vesuvius, and other areas. It also contains a variety of beautiful volcanic features, including some of the largest and most extensive lava tubes reported in the United States; many cinder cones of classic symmetry; and some astonishingly magnificent ice caves, full of ice stalagmites crystalline ceilings, and other unique formations. It also contains lava tube sinkholes and uniquely angled formations not found anywhere else on the North American Continent.

The surrounding wilderness areas are also deserving of protection as they shield beautiful natural areas of tall pines and pinons, as well as sandstone bluffs and extinct volcanoes.

There is tremendous local and public support for protecting these scenic areas. The package that has been developed takes the best features of the proposals by the Park Service and the BLM and combines them into a well organized management plan for the area.

I regret we were not able to complete action on this important legislation last session. However, I strongly support the measure and I encourage its immediate passage.

Thank you, Mr. President.

By Mr. BOREN:

S. 57. A bill to provide interest rate on agricultural loans; to provide for the repayment of certain Federal financing bank loans; and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

#### AGRICULTURAL INTEREST RATE RELIEF ACT

Mr. BOREN. Mr. President, I am introducing today the Agricultural Interest Rate Relief Act of 1987. This legislation is a revised version of a bill Senator BOSCHWITZ and I introduced in 1985 and attempted to include in the Farm Credit Act Amendments of 1985. We reintroduced the bill last spring and offered this legislation as part of an amendment last fall. I have attempted to make this legislation more palatable to all concerned parties.

In addition to making the interest rate buy-down provisions of the bill more palatable, I have also incorporated provisions of a bill introduced by Senator NICKLES and myself last year which requires the Farm Credit System to restructure loans when it is cheaper to restructure than to foreclose.

There is no question that the farmers and ranchers of this country are facing difficult times. Net cash-flow declined by 21 percent in 1985, continuing the downward trend begun in 1979. Net cash-flow has declined by 38 percent from the 1979 peak. During 1985, farm income fell by approximately 7 percent. After adjusting for inflation, net farm income in 1985 was \$11 billion. Ten years ago, net farm income was over \$20 billion. Estimates for 1986 indicate that net farm income again decline in inflation-adjusted net farm income to about 33 percent. On average, Oklahoma farmers did not generate enough income from the farm in the past 2 years to cover operating expenses.

Nominal land values fell an unprecedented 13 percent in 1984 and approximately 8 percent in 1985, the fourth consecutive year of declining land values. From 1981 to 1986, farm real estate values, in real terms, will have dropped by approximately 34 percent. In some counties, land values have fallen more than 50 percent in the past 3 or 4 years. By the end of 1986, it is estimated that cumulative farm sector equity losses since 1981 could exceed \$250 billion—more than a fourth of peak values.

Low income, combined with falling land values, have placed many farmers in a difficult financial position. Twenty percent of all farms are experiencing financial stress and an additional 10 percent are considered potentially at risk because of high debt loads. One hundred and twenty-three thousand farms are highly leveraged and technically insolvent and 51,000 operators had debt-to-asset ratios over 100 percent. Approximately 62 percent of all farm debt, amounting to \$123 billion, is held by borrowers with debt-to-asset ratios over 40 percent.

The farm situation has deteriorated to the point that the survival of many banks in the Nation is being ques-

tioned. Agricultural banks accounted for more than one-half of the 118 commercial banks that failed in 1985. The percentage of bank failures that are agricultural increased dramatically from 15.9 percent in 1983 to 59.5 percent in the first 10 months of 1985. The number of potentially vulnerable commercial agricultural banks rose from 96 to 302 during the past 3 years. In June of 1983, there were 106 problem agricultural banks; by October 1985, there were 413.

Mr. President, the condition of the agricultural economy does not merely affect farmers and their lenders. Agriculture is the largest sector of the American economy. Agriculture accounts for 20 percent of the Nation's gross national product, with \$610 billion of business activity yearly. Each additional \$1 billion of farm demand creates 35,000 jobs and adds a total of \$2 billion to the Nation's gross national product.

In 1981, there were 1.1 million full-time jobs in the United States related to agricultural exports alone. There are 151,680 jobs in the printing and publishing industry that are dependent upon agriculture. Also, 543,480 jobs in the transportation and warehousing industry are dependent upon agriculture. The meat and poultry industry, alone, employs 347,000 people. Farmers annually spend \$10 billion for tractors and other equipment; \$7 billion for fuel and oil; and \$9 billion for fertilizer and lime. There are 93,176 jobs in iron and steel manufacturing that are dependent upon agriculture. Thirty-seven percent of all jobs in the glass and glass products industry are dependent upon agriculture and 69 percent of all jobs in the metal containers industry are dependent upon agriculture.

As should be obvious, everyone in this country has a stake in agriculture and retaining its viability. The legislation I am introducing today is not going to save every American farmer. It is not a complete solution, by any means. Yet, it does take a step in the right direction.

My legislation establishes an interest rate buy-down program that will help many American farmers by reducing their interest cost. Interest payments, alone, make up approximately 20 percent of farmers' total production cost. The Agricultural Loan Interest Subsidy Program [AGLIS] will reduce the interest rate on agricultural loans by 4 to 6 percent. Three percentage points will be paid by the Federal Government; an optional 1 to 2 percentage points may be paid by the States and 1 percentage point by the lender. The lender can write off 15 percent of the principal of the loan in lieu of paying 1 percent of the interest.

In addition to establishing an interest rate buy-down program, the Agricultural Interest Rate Relief Act re-

quires the Farm Credit System and the Farmers Home Administration to restructure loans instead of foreclosing on them in instances where it is actually cheaper to restructure than to foreclose. I want to point out that this will not mean that everyone who has a Farm Credit System [FCS] or FmHA loan will be able to avoid foreclosure. Restructuring is required only when it is actually cheaper for the FCS or the FmHA. In this way, losses for the FCS and the FmHA will be minimized. For the FCS, this should result in lower interest cost for all borrowers of the System.

My legislation also encourages the Farm Credit System to allow borrowers who will be foreclosed on to retain possession and occupancy of the principal residence of the borrower.

At the present time, there are no regulations for the disposition of property acquired by the Farm Credit System. The FCS, in essence, can do about anything with the land. As it stands, a previous owner could be prohibited from purchasing his homestead. The legislation I am introducing today will change this policy and will require the Farm Credit System to give special consideration to previous owners in the selling or leasing of land acquired by the System.

Another problem we have encountered in the past couple of years is the Farm Credit System's refusal to provide borrowers copies of the appraisals of the assets of the borrowers. In one case, a farmer was told that the System had cut the value of his assets in half but would not provide him with a copy of the appraisals. It is certainly hard to argue that the appraisals were too low or inaccurate if one does not have a copy of the appraisal. This legislation requires the Farm Credit System to provide copies of the appraisals to the borrowers.

The Agricultural Interest Rate Relief Act also prevents the Farm Credit System from requiring additional collateral or foreclosing on a borrower for failure to provide additional collateral if the borrower is current in the payment of interest or principal. Right now, the Farm Credit System can foreclose on borrowers who are completely current on their payments. Due to the drop in land values, many farmers simply do not have any additional collateral to give the FCS.

This legislation will also prohibit the Farm Credit System from increasing the interest rate on a loan that has been classified. An anomaly of current FCS policy is to increase the interest rate for a borrower the more he has difficulty meeting his payments.

Mr. President, we must change the current policies of the Farm Credit System. The current policies are driving down land values and jeopardizing the economic position of every farmer

and rancher in this country. In turn, as more and more farmers are going out of business, more banks are going down. The entire economy is beginning to feel the affects of the problems confronting our Nation's farmers and ranchers.

This legislation also clarifies a provision enacted as part of the Farm Credit Act Amendments of 1985. In 1985, Senators DOMENICI, BINGAMAN, NICKLES, BAUCUS, McCURE and myself offered an amendment which would prohibit district banks from charging associations whose stockholders voted against merging with other associations a higher rate of interest or assessment than that charged other like associations. We thought at that time that it was perfectly clear that so-called disapproving associations would not be charged a higher rate, yet, the Farm Credit Administration now proposes to implement a regulation which would allow farm credit banks to charge different rates of interest, prices for services and financial assistance to disapproving associations as long as they could back it up with financial considerations. This regulation would be totally contrary to the intent the sponsors of the amendment had. In this bill, Mr. President, the statute is clarified so that there can be no question what we intended. With the adoption of this provision, there will be no circumstance under which the district banks can charge a higher rate to disapproving associations.

Mr. President, this bill is not a major rewrite of the 1985 farm bill. The credit provisions, which may seem broad, will not change to any great degree, the claimed policies of the Farm Credit System. When we first introduced the bill last spring, I talked with Frank Naylor, the chairman of the Farm Credit Administration Board, about the various provisions. As many of you know, Mr. Naylor was formerly with the Department of Agriculture. He told me that the modifications relating to the Farmers Home Administration were already the policy of the Farmers Home Administration. Further, he stated that he supported the provisions concerning the Farm Credit System, but, like any administrator, he wanted to have the authority to implement the policies without statutory language. Officials from the Farm Credit System tell me they are doing everything now that my amendment will require. No one, consequently, should have any objections to this legislation, unless the reality is that the Farm Credit System is not actually doing what officials claim they are doing.

Last fall, we enacted a disaster assistance program to deal with the drought and excessive moisture affecting various parts of the country. At that time, it was the intention of the

principal sponsor of that legislation to include disaster payments for wheat producers who were prevented from planting their crop due to excessive moisture. However, the enacted language precludes winter wheat producers from eligibility due to the phrase "1986 crops of wheat, feed grains, upland cotton, and rice." The 1986 crop of wheat was the crop harvested prior to any of the flooding in the fall of last year. The floods that occurred in Oklahoma last fall prevented many wheat producers from planting the 1987 wheat crop in time to ensure a crop. The technical language of the disaster provisions adopted last fall does not provide payments to producers of the 1987 wheat crop. Consequently, even though it was everyone's intention to cover all crops affected by drought and excessive moisture in 1986, the language does not cover the 1987 wheat crop.

To correct this technical error, I have included a provision which requires that the Secretary of Agriculture make disaster payments to producers who were prevented from planting the 1987 wheat crop in time to ensure normal crop production.

In addition, Mr. President, I have included a provision to correct a problem that has arisen with respect to cotton disaster payments. The disaster provisions we enacted last fall require the Secretary to make payments to cotton producers; however, a producer is only considered to have suffered a loss if his yield is below 50 percent of his normal yield. This works for most other commodities, but it does not work for cotton producers whose crops receive excessive moisture immediately prior to harvest. Unlike wheat, cotton is sold based on quality as well as quantity. Consequently, a producer who gets a perfect cotton grade will receive, on the world market today, about 38 cents per pound. If the quality has deteriorated due to excessive moisture, the producer could receive as little as 8 cents per pound. As is obvious, the actual yield may not have declined, but the quality and subsequent price received declines dramatically when exposed to excessive moisture.

The legislation I am introducing will require the Secretary of Agriculture to take into consideration the quality of the cotton produced in addition to reduced yields. In this way, if a crop has received a reduction in quality of 50 percent, the Secretary would be required to make disaster payments in the same manner as he would if the yield had declined.

Mr. President, this legislation will not cost anything to the American taxpayer. In fact, it will save money. We achieve substantial savings from the inclusion of a provision which will allow rural electric co-ops and systems to pay off their loans with the REA

without any prepayment penalties. This provision pays for the credit program and the modifications in the disaster program.

We should reward those rural co-ops and systems that have chosen to seek private financing for their programs. Congress recently passed similar legislation and directed the Secretary of the Treasury to write the necessary regulations. Unfortunately, the Secretary followed the letter of the law but most certainly not the spirit of our intent.

The guidelines as written by Treasury are unduly restrictive, arbitrary, and written such that few, if any, rural electric co-ops and systems will be able to prepay their Federal Financing Bank debt. As an example of the unreasonable nature of these guidelines, we need to look only at Treasury's requirement that a rural electric co-op or system must be able to reduce their consumer rates by 25 percent if they choose to refinance. Therefore, my constituent, Western Farmers Electric Co-op, would have to save over \$45 million to qualify to refinance. Mr. President, Western Farmers does not have \$45 million to save. Without this restriction, they could, however, refinance part of their debt and save over \$8.5 million, all of which will be passed on to their customers.

Recognizing part of the problems with the Treasury regulations, Senator STEVENS and I offered an amendment to the budget reconciliation bill last fall which would take care of part of the problem. However, only four or five co-ops will be able to take advantage of refinancing, even with the adoption of our amendment.

This legislation will allow all those co-ops and systems facing substantial interest payments to refinance at the much lower current rates without having to deal with the unreasonable Treasury guidelines.

Mr. President, this legislation will help farmers and American taxpayers. I ask unanimous consent that the text of the bill be printed in the RECORD.

I urge my colleagues to join me in support of this legislation.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 57

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Agricultural Interest Rate Relief Act of 1987".*

#### TITLE I—AGRICULTURAL LOAN INTEREST SUBSIDY PROGRAM

##### SEC. 101. DEFINITIONS.

As used in this title:

(1) **BORROWER.**—The term "borrower" means a person who meets the eligibility criteria prescribed in section 103.

(2) **LENDER.**—The term "lender" means a commercial bank, savings and loan association, credit union, insurance company, or in-

stitution, including a subsidiary or affiliate thereof, that—

(A) has agreed to participate in the interest subsidy program; and

(B) has been approved for participation in the interest subsidy program by the appropriate State agency.

##### SEC. 102. ESTABLISHMENT OF PROGRAM.

(a) **IN GENERAL.**—The Secretary shall establish a Federal-State-Lender cooperative agricultural loan interest subsidy program under which, at the request of a State, borrowers and lenders within the State may participate in the interest subsidy program in accordance with this title.

(b) **CONSULTATION.**—The Secretary shall establish the interest subsidy program in consultation and cooperation with the Secretary of the Treasury, the Comptroller of the Currency, the Chairman of the Federal Reserve Board, the Chairman of the Farm Credit Administration, the Chairman of the Federal Deposit Insurance Corporation, and each State agency.

##### SEC. 103. ELIGIBILITY FOR ASSISTANCE.

To be eligible to receive assistance under this title, a person must—

(1) be an individual, family corporation, or family partnership;

(2) be a borrower of a loan made by a lender for agricultural purposes that is outstanding on the date of enactment of this Act;

(3) during the period beginning on the date of the approval of a State plan under section 106 and ending September 30, 1988—

(A) be delinquent in the payment of principal or interest, or both, on the loan; or

(B) demonstrate to the lender that, due to circumstances beyond the control of the borrower (including depressed land values, high interest rates, and low prices for agricultural commodities), the borrower will be temporarily unable, without assistance provided under this Act, to continue making payments of the principal and interest when due without unduly impairing the standard of living of the borrower;

(4) have derived at least 50 percent of the gross annual income of the borrower from the production of raw agricultural products, including livestock, poultry, or the products of aquaculture, during at least 3 of the 5 preceding taxable years;

(5) have had gross annual sales of agricultural commodities of at least \$30,000 during at least 3 of the 5 preceding taxable years;

(6) have a debt to asset ratio of at least 40 percent;

(7) have an ability to repay the loan, based on past performance as a capable producer and assistance to be provided under this Act; and

(8) not produce an agricultural commodity on highly erodible land or converted wetland in violation of section 1211 or 1221 of the Food Security Act of 1985 (16 U.S.C. 3811 or 3821).

##### SEC. 104. INTEREST SUBSIDIES.

(a) **APPLICATIONS.**—During the period beginning on the date of the approval of a State plan by the Secretary under section 106 and ending September 30, 1987, a borrower may apply to a lender for an interest subsidy for any agricultural loan made by the lender to the borrower that is outstanding on the date of enactment of this Act.

(b) **INTEREST SUBSIDIES.**—If a borrower of a loan applies to a lender for an interest subsidy in accordance with subsection (a), the lender determines that the borrower meets the eligibility criteria prescribed in section 103, and the lender agrees to participate in

the interest subsidy program, subject to this section, not later than 90 days after receipt of the application, the loan shall be restructured in such a manner that the interest rate payable by the borrower shall be fixed for a period of 3 years or the remaining term of the loan, whichever is less, at a rate equal to the interest rate of the loan on the date of enactment of this Act less up to 5 percentage points.

(c) **PAYMENT OF SUBSIDIES.**—If an interest subsidy is provided for a loan made by a lender to a borrower in a State—

(1) the Secretary shall pay 3 percentage points of the subsidy by making payments through the State agency to the lender;

(2) if the State elects to make such payments, the State may pay not less than 1 percentage point and not more than 2 percentage points of the subsidy by making payments to the lender; and

(3) the lender shall—

(A) pay 1 percentage point of the subsidy; or

(B) cancel at least 15 percent of the principal due on the loan.

(d) **TERM OF LOAN.**—The term of any loan for which an interest subsidy is provided under this section shall not be less than the term of the loan outstanding before the subsidy is provided.

(e) **SCHEDULE OF PAYMENTS.**—The schedule of payments on a restructured loan shall be established in accordance with the ability of the borrower to repay the loan.

(f) **ACCURED INTEREST.**—Interest accrued on a restructured loan prior to restructuring shall not be capitalized but shall be paid by the borrower to the lender prior to any retirement of principal under the loan as restructured in accordance with this title.

(g) **REPAYMENT.**—Any balance of principal and interest outstanding on any restructured loan shall be repaid at a rate that is agreed on by the lender and borrower, except that the rate of interest on the loan may not exceed the standard rate charged by the lender on loans with comparable maturities for similar purposes at the time the loan is restructured.

(h) **MAXIMUM AMOUNT OF ASSISTANCE.**—The aggregate outstanding amount of loan principal for which an interest subsidy may be provided under this title may not exceed—

(1) in the case of a loan made to an individual, \$400,000; and

(2) in the case of a loan made to a family corporation or family partnership, \$600,000.

#### SEC. 105. PAYMENTS TO STATES.

(a) **IN GENERAL.**—From sums available pursuant to section 403 and subject to subsection (b) and section 106, the Secretary shall pay to each State for each of the fiscal years ending September 30, 1987, through September 30, 1990, an amount equal to the sum of—

(1) the amount necessary to finance the share of interest subsidies provided to borrowers residing in the State that is required to be paid by the Secretary under section 104(c)(1); and

(2) 100 percent of the administrative expenses that are incurred by the State agency in carrying out this title and are approved by the Secretary.

(b) **MAXIMUM AMOUNT OF PAYMENTS.**—The aggregate amount of payments paid by the Secretary to States under subsection (a) for a fiscal year may not exceed \$600,000,000.

#### SEC. 106. STATE PLANS.

(a) **IN GENERAL.**—To be eligible to participate in the interest subsidy program during a fiscal year, a State must—

(1) submit a plan to the Secretary for the fiscal year; and

(2) receive the approval of the Secretary for the plan.

(b) **PLAN REQUIREMENTS.**—To receive the approval of the Secretary for a plan, a State must submit a plan that—

(1) designates a single agency that shall be responsible for the administration, or the supervision of the administration, of the interest subsidy program in the State;

(2) assesses the interest subsidy needs of borrowers residing in the State;

(3) describes the interest subsidy program established in the State (including any agencies designated to provide a subsidy under such program), which program must meet such requirements as the Secretary may prescribe;

(4) estimates the amount of funds necessary to provide interest subsidies under the program and related administrative expenses, except that such amount may not exceed the amount allocated by the Secretary for payment to the State out of the total amount available for payment under section 105;

(5) requires any lender participating in the interest subsidy program to provide to any borrower who is delinquent in the payment of principal or interest, or both, due on a loan during the period referred to in section 104(a) prompt written notice that describes the assistance available under this title and any deadlines for application for the assistance; and

(6) includes such other information as the Secretary may require.

(c) **APPROVAL OF PLANS.**—(1) The Secretary shall approve or disapprove a plan submitted by a State under subsection (b) not later than 45 days after the State submits the plan.

(2) The Secretary shall approve any plan that complies with subsection (b).

(d) **AUDITS.**—(1) Each State agency shall—

(A) provide for an annual audit of expenditures made by the State agency in carrying out the interest subsidy program, not later than 60 days after the end of each year in which the program is conducted; and

(B) promptly report to the Secretary the findings of such audit.

(2) Not later than 60 days after the end of each year in which a State agency participates in the interest subsidy program, a State agency shall provide the Secretary with a statement that provides—

(A) a description of whether (and, if so, by how much) the payments received under section 105 for such year exceeded the expenditures by the State agency during such year; and

(B) such other information as the Secretary may require.

(e) **DENIAL OR WITHHOLDING OF PAYMENTS.**—(1) If the Secretary finds that a State has failed to comply with subsection (b) or (d) during a fiscal year, except as provided in paragraph (2), the Secretary shall—

(A) notify the appropriate State agency that payments will not be made to the State agency under section 105 for the year until the Secretary is satisfied that the State is complying with such subsection; and

(B) make no payments under section 105 until the Secretary is satisfied that the State is complying with such subsection.

(2) If the Secretary finds that a State has failed to comply with subsection (b) or (d) during a fiscal year, the Secretary may—

(A) suspend the denial of payments under paragraph (1) for such period as the Secretary determines is appropriate; and

(B) withhold payments of approved State administrative expenses incurred in providing assistance under the plan, in whole or in part, for the year,

until the Secretary is satisfied that the State is complying with such subsection, at which time such withheld payments shall be paid.

(3) If the Secretary finds that a State has substantially failed to comply with subsection (b) or (d), the Secretary may, in addition to or in lieu of any action taken under paragraph (1) or (2), refer the matter to the Attorney General with a request that the Attorney General seek injunctive relief to require compliance by the State. If the Attorney General brings a suit in an appropriate district court of the United States and makes a showing of substantial noncompliance, appropriate injunctive relief shall issue.

#### SEC. 107. REVIEW BY SECRETARY AND STATE AGENCIES.

(a) **REVIEW AND TECHNICAL ASSISTANCE BY SECRETARY.**—The Secretary—

(1) shall provide for review, and may provide for an audit, of the manner in which the interest subsidy program is carried out in a State; and

(2) may provide to States technical assistance in carrying out the program.

(b) **REVIEW BY STATE AGENCIES.**—A State agency may monitor the compliance of a lender with this title. Any lender that violates this title shall be ineligible to receive further payments under this title.

#### SEC. 108. NOTICE AND DETERMINATIONS OF ASSISTANCE.

A lender in a State participating in the interest subsidy program may not take any action as the result of a borrower defaulting on an outstanding loan made by such lender to a borrower unless the lender has—

(1) provided the borrower with the notice required under section 106(b)(5); and

(2) in the case of a borrower who has applied for assistance under this title, determined that the borrower does not meet the eligibility criteria prescribed in section 103.

#### SEC. 109. ASSISTANCE OF FEDERAL AND STATE AGENCIES.

(a) **IN GENERAL.**—To make assistance under this title available expeditiously and in a consistent and uninterrupted manner, the Secretary shall—

(1) use such funds, personnel, and facilities of the Department of Agriculture (including the Commodity Credit Corporation) as the Secretary considers necessary to carry out this title; and

(2) request other Federal or State agency to provide such funds, personnel, and facilities as the Secretary considers necessary to carry out this title.

(b) **REIMBURSEMENT.**—Any agency that provides advanced funds, personnel, or facilities under subsection (a) shall be fully reimbursed for such assistance as soon as is practicable from subsequent appropriations.

#### SEC. 110. PROGRAM INELIGIBILITY FOR PRODUCTION ON HIGHLY ERODIBLE LAND OR CONVERTED WETLAND.

(a) **HIGHLY ERODIBLE LAND CONSERVATION.**—Section 1211 of the Food Security Act of 1985 (16 U.S.C. 3811) is amended—

(1) by striking out "or" at the end of paragraph (1);

(2) by striking out the period at the end of paragraph (2) and inserting in lieu thereof "; or"; and

(3) by adding at the end thereof the following new paragraph:

"(3) an interest subsidy during such crop year under the interest subsidy program established under section 102 of the Agricultural Interest Rate Relief Act of 1987."

(b) WETLAND CONSERVATION.—Section 1221 of the Food Security Act of 1985 (16 U.S.C. 3821) is amended—

(1) by striking out "or" at the end of paragraph (1);

(2) by striking out the period at the end of paragraph (2) and inserting in lieu thereof "; or"; and

(3) by adding at the end thereof the following new paragraph:

"(3) an interest subsidy during such crop year under the interest subsidy program established under section 102 of the Agricultural Interest Rate Relief Act of 1987."

## TITLE II—FARM CREDIT SYSTEM INSTITUTION BORROWERS

### Subtitle A—Farm Credit System Loan Restructuring Program

#### SEC. 201. DEFINITIONS.

As used in this subtitle:

(1) **BORROWER.**—The term "borrower" means a borrower of a loan made by an institution.

(2) **CAPITAL CORPORATION.**—The term "Capital Corporation" means the Farm Credit System Capital Corporation established under section 4.28A of the Farm Credit Act of 1971 (12 U.S.C. 2216).

(3) **CHAIRMAN.**—The term "Chairman" means the Chairman of the Farm Credit Administration Board designated under section 5.8(a) of the Farm Credit Act of 1971 (12 U.S.C. 2242(a)).

(4) **COMMITTEE.**—The term "committee" means a credit review committee selected from and by—

(A) the local board of directors of the institution from which a loan originated; or

(B) in the case of consolidated or merged institutions, members of a local advisory board elected by the stockholders served by the merged or consolidated institutions from which a loan originated.

(5) **COST OF FORECLOSURE.**—The term "cost of foreclosure" includes—

(A) the difference between the outstanding amount of principal due on a loan made by an institution and the value of collateral used to secure the loan, taking into consideration the lien position of the institution;

(B) the estimated cost of maintaining a loan as a nonperforming asset;

(C) the estimated cost of administrative and legal actions necessary to foreclose a loan and dispose of property acquired as the result of the foreclosure;

(D) the estimated, adverse impact of the sale of property acquired as the result of a loan foreclosure on the value of property held by other borrowers of institutions;

(E) the estimated cost of changes in the value of collateral used to secure a loan during the period beginning on the date of the initiation of action to foreclose or liquidate the loan and ending on the date of the disposition of the collateral; and

(F) all other costs incurred as the result of the foreclosure or liquidation of a loan.

(6) **LOAN.**—The term "loan" means a loan made by an institution under the Farm Credit Act of 1971 (12 U.S.C. 2001 et seq.).

#### SEC. 202. ELIGIBILITY FOR ASSISTANCE.

To be eligible to receive assistance under this subtitle, a person must—

(1) be an individual, family corporation, or family partnership;

(2) be a borrower of a loan made by, and a stockholder of, an institution who is delinquent in the payment of principal or inter-

est, or both, on the loan on the date of enactment of this Act or during the 3-year period beginning on such date;

(3) demonstrate to the institution that, due to circumstances beyond the control of the borrower (including depressed land values, high interest rates, and low prices for agricultural commodities), the borrower is temporarily unable to continue making payments of the principal and interest when due without unduly impairing the standard of living of the borrower;

(4) have derived at least 50 percent of the gross annual income of the borrower from the production of raw agricultural products, including livestock, poultry, or the products of aquaculture, during at least 3 of the 5 preceding taxable years;

(5) have had gross annual sales of agricultural commodities of at least \$30,000 during at least 3 of the 5 preceding taxable years; and

(6) have an ability to repay the loan, based on past performance as a capable producer and assistance provided under this Act.

#### SEC. 203. LOAN DETERMINATIONS.

Before instituting a proceeding to foreclose a loan made to a borrower, an institution must determine—

(1) the cost of foreclosure; and

(2) the cost of restructuring the loan in accordance with this subtitle.

#### SEC. 204. LOAN FORECLOSURE AND RESTRUCTURING.

If an institution determines that the cost of foreclosure of a loan made to a borrower is equal to or exceeds the cost of restructuring the loan in accordance with this subtitle, in lieu of foreclosure, the institution shall reduce the principal or interest, or both, due on the loan, or otherwise restructure the loan, in a manner that would enable the borrower to make payments of principal and interest due on the loan without unduly impairing the standard of living of the borrower.

#### SEC. 205. ADDITIONAL COLLATERAL.

An institution may not—

(1) require any borrower to provide additional collateral to secure a loan if the borrower is current in the payment of principal or interest on the loan; or

(2) bring any action to foreclose on, or otherwise liquidate, any loan as the result of the failure of a borrower to provide additional collateral to secure a loan if the borrower was current in the payment of principal or interest on the loan at the time the additional collateral was required.

#### SEC. 206. APPEALS.

(a) **DETERMINATION OF INELIGIBILITY.**—(1) If an institution determines that a person does not meet the eligibility criteria prescribed in section 202, not later than 15 days after such determination, the institution shall provide the person with a written notice of—

(A) the determination and the reasons for the determination; and

(B) the right of the person to appeal the determination before a committee.

(2) If a person makes a written request to a committee not later than 30 days after receipt of a notice to contest a determination referred to in paragraph (1), the person shall have the right to appear before the committee to contest the determination.

(b) **DETERMINATION TO NOT RESTRUCTURE.**—(1) If an institution determines that the cost of restructuring a loan in accordance with this subtitle exceeds the cost of foreclosure of the loan, not later than 15 days after such determination, the institution shall

provide the borrower of the loan with a written notice of—

(A) the determination and the reasons for the determination;

(B) the computations used by the institution to make the determination, including the estimate of the collateral value of the land used to secure the loan; and

(C) the right of the borrower to appeal the determination before a committee.

(2) If a borrower of a loan made by an institution makes a written request to a committee not later than 30 days after receipt of a notice to contest a determination referred to in paragraph (1), the borrower shall have the right to—

(A) request the committee to arrange an independent appraisal of the cost of foreclosure of the loan and the cost of restructuring the loan in accordance with this subtitle; and

(B) appear before the committee to contest the determination.

(3) If a borrower requests a committee to arrange an independent appraisal made under paragraph (2)(A), the committee shall—

(A) arrange the independent appraisal, in accordance with regulations issued by the Farm Credit Administration; and

(B) consider such appraisal when reviewing the determination of the committee.

(4) If an independent appraisal is conducted under this subsection of the cost of foreclosure of a loan made by an institution to a borrower and the cost of restructuring the loan in accordance with this subtitle, the cost of the appraisal shall be borne by—

(A) the institution if the appraised cost of restructuring the loan in accordance with this subtitle is equal to or less than the appraised cost of the foreclosure of the loan; or

(B) the borrower if the appraised cost of restructuring the loan in accordance with this subtitle is greater than the appraised cost of the foreclosure of the loan.

(c) **DETERMINATION TO RESTRUCTURE.**—(1) If an institution determines that a borrower of a loan meets the eligibility criteria prescribed in section 202 and that the cost of restructuring the loan in accordance with this subtitle is less than or equal to the cost of foreclosure of the loan, not later than 15 days after such determination, the institution shall provide the borrower with a written notice of—

(A) the determination and the reasons for the determination;

(B) the amount of the reduction in principal or interest, or both, or method of restructuring, the institution determines is adequate to enable the borrower to make payments in accordance with section 204; and

(C) the right of the borrower to contest the amount of the reduction, or method of restructuring, before a committee.

(2) If a borrower makes a written request to a committee not later than 30 days after receipt of a notice to contest the amount of the reduction, or method of restructuring, referred to in paragraph (1), the borrower shall have the right to appear before the committee to contest the amount of the reduction or method of restructuring.

(d) **VOLUNTARY AGREEMENTS.**—A borrower of a loan made by an institution shall have the right to appear before a committee to contest a determination, amount, or action under this subtitle if—

(1) the institution and the borrower enter into an agreement under which the institution agrees to restructure the loan in ac-

cordance with this subtitle and the borrower agrees not to contest the determination, amount, or action, as the case may be;

(2) the institution does not restructure the loan in accordance with this subtitle; and

(3) the borrower makes a written request to the committee to contest the determination, amount, or action, as the case may be, not later than 30 days after the date by which the institution agreed to restructure the loan in accordance with this subtitle.

(e) **NOTICE OF DECISIONS.**—Not later than 15 days after any review conducted by a committee, the committee shall provide the aggrieved person or borrower with written notice of the decision of the committee and the reasons for the decision.

#### SEC. 207. REIMBURSEMENT FOR PRINCIPAL REDUCTION.

The Capital Corporation shall reimburse an institution for the amount of principal due on loans that is reduced by the institution under section 204 if the Chairman determines that such action is necessary to avoid the liquidation or insolvency of the institution.

#### SEC. 208. REPORT.

Not later than 270 days after the date of enactment of this Act, the Chairman shall submit a report to Congress on the operation of this subtitle, including—

(1) an analysis of the impact of actions taken under this subtitle on losses suffered by institutions;

(2) an analysis of the impact of the actions on property values;

(3) an analysis of the accuracy of the cost of foreclosure determined by institutions under this subtitle;

(4) the number and amount of loans restructured in accordance with this subtitle;

(5) the number of current and estimated future delinquencies before and after the expiration of this subtitle on loans made to borrowers; and

(6) the recommendations of the Chairman concerning reauthorization of this subtitle.

#### Subtitle B—Farm Credit System Reform

#### SEC. 211. ACCESS TO APPRAISALS.

Section 4.13A of the Farm Credit Act of 1971 (12 U.S.C. 2200) is amended to read as follows:

"SEC. 4.13A. ACCESS TO DOCUMENTS AND INFORMATION.—In accordance with regulations of the Farm Credit Administration, a System institution shall provide to each borrower of such institution—

"(1) at the time of execution of a loan, a copy of each document signed by the borrower;

"(2) at any time thereafter, on request, a copy of each document signed or delivered by the borrower;

"(3) at any time, on request, a copy of the articles of incorporation or charter and bylaws of the institution; and

"(4) at the time of execution of a loan and at any time thereafter, on request, a copy of each appraisal of the assets of the borrower."

#### SEC. 212. HOMESTEAD PROTECTION.

Part C of title IV of the Farm Credit Act of 1971 is amended by adding after section 4.20 (12 U.S.C. 2208) the following new section:

"SEC. 4.21. HOMESTEAD PROTECTION.—If an institution forecloses a loan made by the institution or a borrower of a loan made by the institution declares bankruptcy or goes into voluntary liquidation to avoid foreclosure or bankruptcy, the institution is encouraged to permit the borrower to retain possession and occupancy of the principal

residence of the borrower, and a reasonable amount of adjoining land, to maintain the family of the borrower."

#### SEC. 213. INTEREST RATES ON CLASSIFIED LOANS.

Part C of title IV of the Farm Credit Act of 1971 is amended by adding after section 4.22 (as added by section 212) the following new section:

"SEC. 4.22. An institution of the Farm Credit System may not increase the interest rate on a loan made to a borrower that is outstanding on the date of enactment of the Agricultural Interest Rate Relief Act of 1987 as the result of the loan been classified as a risk or problem loan."

#### SEC. 214. CERTIFICATION OF NEED FOR FINANCIAL ASSISTANCE.

Section 4.28J of the Farm Credit Act of 1971 (12 U.S.C. 2216i) is amended by inserting after "TREASURY.—" the following new sentence: "Not later than 60 days after the date of enactment of the Agricultural Interest Rate Relief Act of 1987, and each 90 days thereafter, the Farm Credit Administration shall determine whether the Farm Credit System is in need of financial assistance to address financial stress of System institutions."

#### SEC. 215. OPERATING EXPENSES OF INSTITUTIONS.

Part D1 of title IV of the Farm Credit Act of 1971 is amended by adding after section 4.28L (12 U.S.C. 2216k) the following new section:

"SEC. 4.28M. OPERATING EXPENSES OF INSTITUTIONS.—During the period beginning on date of enactment of the Agricultural Interest Rate Relief Act of 1987 and ending the later of September 30, 1990, or such time as the Secretary of the Treasury no longer holds any obligations issued by the Capital Corporation, the operating expenses of an institution of the Farm Credit System may not exceed the average cost of bonds issued by the System, plus 1 percent."

#### SEC. 216. DISPOSITION AND LEASING OF FARMLAND.

Part F of title IV of the Farm Credit Act of 1971 is amended by adding after section 4.36 (12 U.S.C. 2219a) the following new section:

"SEC. 4.37. DISPOSITION AND LEASING OF FARMLAND.—(a) The Farm Credit Administration shall issue regulations for the disposition and leasing of farmland acquired by any institution of the Farm Credit System, including the Capital Corporation, (hereafter in this section referred to as an 'institution') in accordance with this section.

"(b) An institution shall to the extent practicable sell or lease farmland acquired under this Act in the following order of priority:

"(1) Sale of such farmland to operators (as of the time immediately before such sale) of not larger than family-size farms.

"(2) Lease of such farmland to operators (as of the time immediately before such lease is entered into) of not larger than family-size farms.

"(c)(1) An institution shall not offer for sale or sell any such farmland if the placing of such farmland on the market will have a detrimental effect on the value of farmland in the area.

"(2) In selling such land, the institution shall give special consideration to a previous owner or operator of such land.

"(d)(1) An institution shall consider granting, and may grant, to an operator of not larger than a family-size farm, in conjunction with subsection (e), a lease with an option to purchase farmland acquired under this Act.

"(2) The Farm Credit Administration shall issue regulations providing for leasing such land, or leasing such land with an option to purchase, on a fair and equitable basis.

"(3) In leasing such land, the institution shall give special consideration to a previous owner or operator of such land if such owner or operator has financial resources, and farm management skills and experience, that the institution determines are sufficient to assure a reasonable prospect of success in the proposed farming operation.

"(4) To the extent an institution may lease or operate real property under this section, the institution shall, if the institution determines to administer such property through management contracts, offer the contracts on a competitive bid basis, giving preference to persons who will live in, and own and operate qualified small businesses in, the area where the property is located.

"(e)(1) An institution shall offer such land for sale to operators of not larger than family-size farms at a price that reflects the average annual income that may be reasonably anticipated to be generated from farming such land.

"(2) If two or more qualified operators of not larger than family-size farms desire to purchase, or lease with an option to purchase, such land, the local board of the institution shall, by majority vote, select the operator who may purchase such land.

"(f) If farmland is available for disposition under this section, the institution shall—

"(1) publish an announcement of the availability of such farmland in at least one newspaper that is widely circulated in the county in which the farmland is located; and

"(2) post an announcement of the availability of such farmland in a prominent place in the local office of the institution that serves the county in which the farmland is located."

#### SEC. 217. STOCK PURCHASE REQUIREMENT.

Part F of title IV of the Farm Credit Act of 1971 is amended by adding after section 4.37 (as added by section 216) the following new section:

"SEC. 4.38. STOCK PURCHASE REQUIREMENT.—A borrower must purchase stock in the Farm Credit System, in accordance with regulations issued by the Farm Credit Administration, to be eligible—

"(1) to obtain a loan from an institution of the Farm Credit System; or

"(2) to enter into an installment contract for the purchase of farmland acquired by the Farm Credit System."

#### Subtitle C—Farm Credit System Associations

#### SEC. 220. TREATMENT OF CERTAIN FARM CREDIT ASSOCIATIONS.

Section 5.17(a)(2) of the Farm Credit Act of 1971 is amended by striking out in line 2 "and the Farm Credit Administration shall ensure that the board of directors of district banks does not discriminate against the disapproving associations in exercising its supervisory authorities. Such associations shall not be (i) charged any assessment under this Act at a rate higher than that charged like associations in the district or (ii) discriminated against in the provision of any financial service and assistance" and insert in lieu thereof the following: "The Farm Credit Administration shall ensure that disapproving associations (i) shall not be charged any assessment under this Act at a rate higher than that charged other like associations in the district and (ii) shall be

provided, on the same basis as like associations in the district, financial services and assistance".

### TITLE III—FARMERS HOME ADMINISTRATION BORROWERS

#### SEC. 301. DEFINITIONS.

As used in this title

(1) **BORROWER.**—The term "borrower" means a borrower of a loan who meets the eligibility criteria prescribed in section 302.

(2) **COMMITTEE.**—The term "committee" means the appropriate county committee established under section 332 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1982).

(3) **COST OF FORECLOSURE.**—The term "cost of foreclosure" includes—

(A) the difference between the outstanding amount of principal due on a loan and the value of collateral used to secure the loan, taking into consideration the lien position of the Secretary;

(B) the estimated cost of maintaining a loan as a nonperforming asset;

(C) the estimated cost of administrative and legal actions necessary to foreclose a loan and dispose of property acquired as the result of the foreclosure;

(D) the estimated, adverse impact of the sale of property acquired as the result of a loan foreclosure on the value of property held by other borrowers of the Secretary;

(E) the estimated cost of changes in the value of collateral used to secure a loan during the period beginning on the date of the initiation of action to foreclose or liquidate the loan and the ending on the date of the disposition of the collateral; and

(F) all other costs incurred as the result of the foreclosure or liquidation of a loan.

(4) **LOAN.**—The term "loan" means a loan made by the Secretary under the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.).

#### SEC. 302. ELIGIBILITY FOR ASSISTANCE.

To be eligible to receive assistance under this title, a person must—

(1) be an individual, family corporation, or family partnership;

(2) be a borrower of a loan who is delinquent in the payment of principal or interest, or both, on the loan on the date of enactment of this Act or during the 3-year period beginning on such date;

(3) demonstrate to the Secretary that, due to circumstances beyond the control of the borrower (including depressed land values, high interest rates, and low prices for agricultural commodities), the borrower is temporarily unable to continue making payments of the principal and interest when due without unduly impairing the standard of living of the borrower;

(4) have derived at least 50 percent of the gross annual income of the borrower from the production of raw agricultural products, including livestock, poultry, or the products of aquaculture, during at least 3 of the 5 preceding taxable years;

(5) have had gross annual sales of agricultural commodities of at least \$30,000 during at least 3 of the 5 preceding taxable years; and

(6) have an ability to repay the loan, based on past performance as a capable producer and assistance provided under this Act.

#### SEC. 303. LOAN DETERMINATIONS.

Before instituting a proceeding to foreclose a loan made to a borrower, the Secretary must determine—

(1) the cost of foreclosure; and

(2) the cost of restructuring the loan in accordance with this title.

#### SEC. 304. LOAN FORECLOSURE AND RESTRUCTURING.

If the Secretary determines that the cost of foreclosure of a loan made to a borrower is equal to or exceeds the cost of restructuring the loan in accordance with this title, in lieu of foreclosure, the Secretary shall reduce the principal or interest, or both, due on the loan, or otherwise restructure the loan, in a manner that would enable the borrower to make payments of principal and interest due on the loan without unduly impairing the standard of living of the borrower.

#### SEC. 305. ADDITIONAL COLLATERAL.

The Secretary may not—

(1) require any borrower to provide additional collateral to secure a loan if the borrower is current in the payment of interest on the loan; or

(2) bring any action to foreclose on, or otherwise liquidate, any loan as the result of the failure of a borrower to provide additional collateral to secure a loan if the borrower was current in the payment of interest on the loan at the time the additional collateral was required.

#### SEC. 306. APPEALS.

(a) **DETERMINATION OF INELIGIBILITY.**—(1) If the Secretary determines that a person does not meet the eligibility criteria prescribed in section 302, not later than 15 days after such determination, the Secretary shall provide the person with a written notice of—

(A) the determination and the reasons for the determination; and

(B) the right of the person to appeal the determination before a committee.

(2) If a person makes a written request to a committee not later than 30 days after receipt of a notice to contest a determination referred to in paragraph (1), the person shall have the right to appear before the committee to contest the determination.

(b) **DETERMINATION TO NOT RESTRUCTURE.**—(1) If the Secretary determines that the cost of restructuring a loan in accordance with this title exceeds the cost of foreclosure of the loan, not later than 15 days after such determination, the Secretary shall provide the borrower of the loan with a written notice of—

(A) the determination and the reasons for the determination;

(B) the computations used by the Secretary to make the determination, including the estimate of the collateral value of the land used to secure the loan; and

(C) the right of the borrower to appeal the determination before a committee.

(2) If a borrower of a loan made by the Secretary makes a written request to a committee not later than 30 days after receipt of a notice to contest a determination referred to in paragraph (1), the borrower shall have the right to—

(A) request the committee to arrange an independent appraisal of the cost of foreclosure of the loan and the cost of restructuring the loan in accordance with this title; and

(B) appear before the committee to contest the determination.

(3) If a borrower requests a committee to arrange an independent appraisal made under paragraph (2)(A), the committee shall—

(A) arrange the independent appraisal, in accordance with regulations issued by the Farm Credit Administration; and

(B) consider such appraisal when reviewing the determination of the committee.

(4) If an independent appraisal is conducted under this subsection of the cost of foreclosure of a loan made by the Secretary to a borrower and the cost of restructuring the loan in accordance with this title, the cost of the appraisal shall be borne by—

(A) the Secretary if the appraised cost of restructuring the loan in accordance with this title is equal to or less than the appraised cost of the foreclosure of the loan; or

(B) the borrower if the appraised cost of restructuring the loan in accordance with this title is greater than the appraised cost of the foreclosure of the loan.

(c) **DETERMINATION TO RESTRUCTURE.**—(1) If the Secretary determines that a borrower of a loan meets the eligibility criteria prescribed in section 302 and that the cost of restructuring the loan in accordance with this title is less than or equal to the cost of foreclosure of the loan, not later than 15 days after such determination, the Secretary shall provide the borrower with a written notice of—

(A) the determination and the reasons for the determination;

(B) the amount of the reduction in principal or interest, or both, or method of restructuring, the Secretary determines is adequate to enable the borrower to make payments in accordance with section 304; and

(C) the right of the borrower to contest the amount of the reduction, or method of restructuring, before a committee.

(2) If a borrower makes a written request to a committee not later than 30 days after receipt of a notice to contest the amount of the reduction, or the method of restructuring, referred to in paragraph (1), the borrower shall have the right to appear before the committee to contest the amount of the reduction or method of restructuring.

(d) **VOLUNTARY AGREEMENTS.**—A borrower of a loan made by the Secretary shall have the right to appear before a committee to contest a determination, amount, or action under this title if—

(1) the Secretary and the borrower enter into an agreement under which the Secretary agrees to restructure the loan in accordance with this title and the borrower agrees not to contest the determination, amount, or action, as the case may be;

(2) the Secretary does not restructure the loan in accordance with this title; and

(3) the borrower makes a written request to the committee to contest the determination, amount, or action, as the case may be, not later than 30 days after the date by which the Secretary agreed to restructure the loan in accordance with this title.

(e) **NOTICE OF DECISIONS.**—Not later than 15 days after any review conducted by a committee, the committee shall provide the aggrieved person or borrower with written notice of the decision of the committee and the reasons for the decision.

#### SEC. 307. REPORT.

Not later than 270 days after the date of enactment of this Act, the Secretary shall submit a report to Congress on the operation of this title, including—

(1) an analysis of the impact of actions taken under this title on losses suffered by the Secretary;

(2) an analysis of the impact of the actions on property values;

(3) an analysis of the accuracy of the cost of foreclosure determined by the Secretary under this title;

(4) the number and amount of loans restructured in accordance with this title;

(5) the number of current and estimated future delinquencies before and after the expiration of this title on loans made to borrowers; and

(6) the recommendations of the Secretary concerning reauthorization of this title.

#### SEC. 308. ALTERNATIVE CROP LOAN PROGRAM.

The Consolidated Farm and Rural Development Act is amended by inserting after section 352 (7 U.S.C. 2000) the following new section:

"Sec. 353. (a) For purposes of this section, the term 'alternative crop' means any agricultural operation (including aquaculture and livestock production) conducted by an applicant if—

"(1) there is no substantial history of such operation in the area in which the applicant resides; and

"(2) the applicant has derived from such operation not more than 20 percent of the gross annual income of the applicant during any of the 5 preceding taxable years.

"(b) In addition to the purposes prescribed in sections 303 and 312, the Secretary may make and insure, or guarantee, real estate and operating loans under subtitles A and B, respectively, to farmers and ranchers in the United States for the production of alternative crops.

"(c)(1) Subject to paragraph (2), to be eligible to obtain a loan or loan guarantee for a real estate or operating loan for the production of an alternative crop, a person must—

"(A) meet the eligibility requirements prescribed for a real estate loan under section 302 or an operating loan under section 311, respectively; and

"(B) submit to, and receive the approval of, the Secretary for a 5-year plan of projected production and income from the proposed alternative crop.

"(2) In determining eligibility for a loan or loan guarantee under this section, the Secretary shall consider training or farming experience that the Secretary determines is sufficient to assure reasonable prospects of success in the proposed farming operation, whether or not such training or experience is in the production of an alternative crop.

"(d) The Secretary may enter into a multi-year commitment to provide a loan or loan guarantee under this section for a term, of not to exceed 3 years, that is consistent with the nature of the alternative crop operation."

#### TITLE IV—MISCELLANEOUS PROVISIONS

##### SEC. 401. INTER-AGENCY AGRICULTURAL TASK FORCE.

(a) **ESTABLISHMENT.**—In light of the severe economic problems confronted by many agricultural banks and the regulatory responsibilities of bank regulatory agencies, not later than 30 days after the date of enactment of this Act, the Federal Deposit Insurance Corporation, the Comptroller of the Currency, and the Federal Reserve System shall develop an Inter-Agency Agricultural Task Force to assist commercial agricultural banks and the borrowers of the banks to resolve present economic problems and to facilitate commercial bank lending to agriculture in the future.

(b) **DUTIES.**—The Inter-Agency Task Force shall—

(1) review existing regulations and policies to facilitate agricultural lending;

(2) cooperate with field office personnel to avoid conflicts and inconsistencies between the agencies; and

(3) consider meaningful alternatives to assist commercial banks in providing agricultural financing through regulatory or statutory changes, including accounting changes, interest rate buy-downs, or other similar methods for assisting banks.

(c) **REPORTS.**—Not later than 6 months after the date of enactment of this Act, and semiannually thereafter, the Inter-Agency Task Force shall report its findings and recommendations in carrying out this section to—

(1) the Committee on Agriculture of the House of Representatives;

(2) the Committee on Agriculture, Nutrition, and Forestry of the Senate;

(3) the Committee on Banking, Finance and Urban Affairs of the House of Representatives; and

(4) the Committee on Banking, Housing, and Urban Affairs of the Senate.

#### SEC. 402. REGULATIONS.

Not later than 90 days after the date of enactment of this Act, the Secretary and the Farm Credit Administration shall issue such regulations as are necessary to carry out provisions of this Act under their jurisdiction.

#### SEC. 403. GENERAL DEFINITIONS.

(1) **INSTITUTION.**—The term "institution" means an institution of the Farm Credit System described in section 1.2 of the Farm Credit Act of 19712 (12 U.S.C. 2002).

(2) **INTEREST SUBSIDY PROGRAM.**—The term "interest subsidy program" means the Federal-State Lender cooperative agricultural loan interest subsidy program established under title I.

(3) **FCS LOAN RESTRUCTURING PROGRAM.**—The term "FCS loan restructuring program" means the restructuring program established under subtitle A of title II for loan made by institutions of the Farm Credit System.

(4) **SECRETARY.**—The term "Secretary" means the Secretary of Agriculture.

(5) **STATE.**—The term "State" mean each of the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands of the United States, American Samoa, the Commonwealth of The Northern Mariana Islands, or (to extent the Secretary determines it is feasible and appropriate) the Trust Territory of the Pacific Islands.

6. **STATE AGENCY.**—The term "State agency" means the agency designated by a State under section 106(b)(1) of this Act to carry out the interest subsidy program in the State.

SEC. 404. **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated such sums as may be necessary to carry out titles I through IV of this Act.

SEC. 405. Except as otherwise provided in this Act, the authority granted by title I through IV of this Act shall terminate 3 years after the date of enactment of this Act.

#### TITLE V—EMERGENCY ASSISTANCE FOR CERTAIN AGRICULTURAL PRODUCERS

SEC. 501. **EMERGENCY ASSISTANCE FOR CERTAIN AGRICULTURAL PRODUCERS.**—Title VI of the Act making continuing appropriations for the fiscal year 1987, and for other purposes (Public Law 99-500) is amended in section 633(B) by—

(a) inserting before the first comma in the first sentence "or other law";

(b) inserting after "peanuts" in paragraph (a)(2) "or the 1987 crop of wheat";

(c) adding at the end of paragraph (a)(5)(A)(ii) a new sentence as follows: "To

ensure equitable treatment of all producers suffering losses, the Secretary shall make adjustments in the actual production on the farm of such crop of the commodity to reflect any reduction in the quality of the crop that resulted from drought, excessive heat, floods, hail or excessive moisture in 1986.";

(d) inserting before the semicolon at the end of paragraph (a)(5)(B)(i) "or in the case of the 1987 crop of wheat, the 1987 permitted acreage determined for such crop";

(e) inserting after "of the commodity" in paragraph (a)(8)(A) "(in the case of the 1987 crop of wheat, the 1987 farm program payment yield for such crop)"; and

(f) adding at the end of paragraph (d)(2) a new sentence as follows: "Applications for payments with respect to the 1987 crop of wheat or with respect to other crops for which the actual production on a farm is to be adjusted by the Secretary under paragraph (a)(5)(A)(ii) must be filed before May 31, 1987."

#### TITLE VI—RURAL ELECTRIFICATION AND TELEPHONE SYSTEMS LOAN

SEC. 601. **AMENDMENT TO THE RURAL ELECTRIFICATION ACT OF 1936.**—Section 306A of the Rural Electrification Act of 1936 is amended to read as follows:

"SEC. 306A. **PREPAYMENT OF FEDERAL FINANCING BANK LOANS.**—(a) If on the date of enactment of the Interest Rate Relief Act of 1987 a borrower has an outstanding loan made by the Federal Financing Bank and guaranteed by the Administrator of the Rural Electrification Administration under section 306 of this Act (7 U.S.C. 936), the borrower may prepay such loan (or any loan advance made under thereunder) by paying outstanding principal balance due on such loan (or advance), if—

"(1) private capital, with the existing loan guarantee, is used to replace the loan; and

"(2) the borrower certifies that any savings for such prepayment will be passed on to its customers, used to improve the financial strength of the borrower in cases of financial hardship, or used to avoid future rate increases.

"(b) If prepayment on a loan (or advance) is made under subsection (a), no sums in addition to the payment of the outstanding principal balance of the loan (or advance) shall be charged as the result of such prepayment against (1) the borrower, (2) the Rural Electrification and Telephone Revolving Fund, or (3) the Rural Electrification Administration.

"(c) Any guarantee of a loan prepaid under this section with private capital under repayment terms agreeable to the borrower shall be fully assignable and transferable without condition and shall remain available for the remainder of the term originally agreed to by the Administrator.

SEC. 602. Regulations to implement the amendments made by section 601 shall be issued and become effective within 30 days of enactment of this Act. Such regulations shall (1) facilitate prepayment of loan advances, (2) provide for full processing of each prepayment request within 30 days of its submission to the Rural Electrification Administration, and (3) except as specifically provided for in this section, impose no restriction that increases the cost to borrowers of obtaining private financing for prepayment or inhibits the ability of the borrower to enter into prepayment arrangements pursuant to section 306A of the Rural Electrification Act of 1936.

SEC. 603. TRANSFER OF FUNDS.—Of the amount of net proceeds received from prepayments of principal on loans (or advances) made during fiscal year 1987 under section 306A of the Rural Electrification Act of 1936 or Public Law 99-349 in excess of \$2,017,500,000, an amount that the Secretary of Agriculture determines necessary to carry out the provisions of titles I through IV of this Act, but not to exceed \$700,000,000, shall be transferred to the Agricultural Credit Insurance Fund and shall remain available in such fund until expended for such purpose, an amount that the Secretary of Agriculture determines necessary for carrying out the provisions of section 633 of Public Law 99-500, but not to exceed \$400,000,000, shall be transferred to the Commodity Credit Corporation and shall be available for such purpose, and an amount equal to \$400,000,000 shall be transferred to the Agricultural Credit Insurance Fund and shall be available for emergency insured and guaranteed loans to meet the needs resulting from natural disasters.

By Mr. DANFORTH (for himself, Mr. BAUCUS, Mr. WALLOP, Mr. BOREN, Mr. DURENBERGER, Mr. MITCHELL, Mr. WILSON, Mr. DECONCINI, Mr. KERRY, Mr. CRANSTON, Mr. BINGAMAN, Mr. RIEGLE and Mr. SYMMS):

S. 58. A bill to amend the Internal Revenue Code of 1986 to make the credit for increasing research activities permanent and to increase the amount of such credit; to the Committee on Finance.

#### RESEARCH AND DEVELOPMENT INCENTIVE ACT

● Mr. DANFORTH. Mr. President, yesterday, President Reagan delivered his budget proposal for fiscal year 1988 to the Congress. In the description accompanying the President's budget proposal, the high priority that the administration places on basic research is clearly set forth:

The ability of the Nation to meet global competition, to provide for national security, and to improve the quality of life for all citizens depends in part upon national investments in science and technology. The Nation's future position in global markets will depend upon: the allocation of national resources to the generation of new knowledge; and the effective and timely transfer of this new knowledge to specific applications.

I wholeheartedly agree with this message. In the competitive world in which we live today we must stay on the cutting edge of research and development. We cannot afford to let our major international trading partners leapfrog over us into the forefront of high technology, research, and development. For this reason, I am introducing legislation, The Research and Development Incentive Act of 1987, which will shore-up and strengthen the research and development tax credit.

Specifically, the legislation that I am introducing will do two things. First, my bill will make the R&D tax credit permanent. The R&D credit was originally enacted by Congress in 1981 for a trial period of 5 years. The

test of the credit was a tremendous success as private R&D in the United States has soared to record levels in recent years. In fact, for the first time ever private R&D spending rose during a recessionary period (1981-82).

When the credit expired at the end of 1985, Congress was in the midst of the tax reform debate, and the credit was viewed as only one small piece of a very large and complicated puzzle. When the 1986 tax bill finally passed, the R&D tax credit was extended for an additional 3 years through 1988.

In my opinion, this is inadequate. While we recognized the significant role played by the credit in encouraging research and development, we did not do the credit justice in 1986. Businesses must plan their R&D spending over long periods of time. To enhance business R&D planning, the credit must become a permanent aspect of our tax laws. It loses some of its punch when businesses cannot predict whether it will be here next year or the year after.

The second aspect of my bill restores the credit to its full strength. In 1986, Congress chose to reduce the rate of the credit from 25 percent to 20 percent. My bill will return the credit to 25 percent.

On first reaction, one might think that a 20-percent credit is fairly generous. In fact, other credits, such as the historic rehabilitation tax credit, are only 20 percent or less. The shortcoming in this thinking lies in a basic misunderstanding of the nature of the credit. Because the credit is an incremental credit, it is calculated as a percentage of a business' increase in R&D spending over its average R&D expenditures for the preceding 3 years. The credit is not a percentage of total R&D expenditures incurred during a particular tax year. Thus, a company that does the same amount of research and development every year is not entitled to any credit. Another company that increases its R&D by 20 percent over the average amount of its R&D in the preceding 3 taxable years, gets an R&D credit equal to approximately 3 percent of its total R&D, not 20 percent of its total R&D.

Experts have estimated that a 20-percent R&D credit has a real incentive value of approximately 5 percent, and that a 25-percent R&D credit would have a real incentive rate of roughly 7 percent. In my opinion, we erred last year when we reduced the real incentive of the R&D credit from 7 percent to 5 percent. A study released by the Congressional Research Service in 1985 concurs in my conclusion. That study stated that "tax rate reductions may actually have a negative impact on R&D investments and justify a retention or an increase" in the R&D credit.

Mr. President, before concluding I want to quote from an editorial by

John Chancellor delivered last May during the national debate on tax reform:

If the United States is going to prosper at home and compete abroad it needs all the R&D investment it can get. Research is something this country is better at than almost all other countries. Companies with the biggest R&D investments do better overseas than almost any other sector of the American economy.

I was in Tokyo a few weeks ago. The Japanese are facing stiff competition from countries like Taiwan and South Korea. So the Japanese companies are increasing investment in R&D to develop more sophisticated products.

Matsushita Electric has boosted its R&D budget to a billion and a half dollars a year, and that's competition for America. There are lots of sacred cows which may be slaughtered in the new tax bill, but incentives for research and development are still alive. Killing them would be dangerous butchery.

The 100th Congress begins with the buzzword "competitiveness" being attached to every new idea or bill. It is my hope that we will take the opportunity to recognize a proven tool in our national struggle to remain competitive. I hope that we will act swiftly and pass my bill. We must demonstrate unequivocally that research and development is a national priority.

Mr. President, I ask unanimous consent that the entire text of my bill be included in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 58

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This act may be cited as "The Research and Development Incentive Act of 1987."

#### SECTION 2. RESEARCH CREDIT MADE PERMANENT.

Section 41 of the Internal Revenue Code of 1986 (relating to credit for increasing research activities) is amended by striking out subsection (h) thereof.

#### SEC. 3. INCREASE IN CREDIT FROM 20 PERCENT TO 25 PERCENT.

(a) IN GENERAL.—Section 41(a) of the Internal Revenue Code of 1986 is amended by striking out "20 percent" each place it appears and inserting in lieu thereof "25 percent".

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to taxable years beginning after December 31, 1986.●

● Mr. BAUCUS. Mr. President, today Senator DANFORTH and I are introducing legislation to make the research and development tax credit permanent and restore its 25 percent incremental rate.

Although the ink on the 1986 Tax Reform Act is barely dry, we believe it is important that Congress act swiftly on measures that are critical to U.S. competitiveness. R&D incentives fall into this category.

We cannot overemphasize the need for quick congressional action to im-

prove our competitiveness. Among other things, this means increasing U.S. research and development.

The United States cannot afford to be complacent about its research spending. R&D spending was stagnant in the United States for most of the 1960's and 1970's.

Japan, on the other hand, adopted an R&D tax credit in 1966 and has been increasing spending on R&D at a healthy clip ever since.

In fact, the Wall Street Journal reports that Japan now spends a larger share of its gross national product on research than the United States does. The same report places Japan third, after the Soviet Union and West Germany, in percentage of GNP spent on research.

Our R&D tax credit was not adopted until 1981. Since that time, R&D spending has climbed dramatically, from \$30.9 billion in 1980 to an estimated \$60 billion last year. We are making progress, but we still have a long way to go.

Last year, Congress extended the R&D tax credit for 2 years as part of the tax reform package. However, the credit's incremental rate was reduced from 25 to 20 percent.

Now that the rush of tax reform is behind us, it is time to look at the specific policies adopted and see how they can be improved without jeopardizing revenue estimates for the near future.

One important improvement would be to make the R&D tax credit permanent.

Developing new technologies is a long-term project. Companies must plan far ahead and accept substantial risks. Most experts who have examined the credit recommend a permanent R&D tax credit.

Martin Neil Baily and Robert Z. Lawrence, senior fellows at the Brookings Institution, have stated:

It is a great mistake to enact only a temporary extension of the credit.

The Congressional Research Service's Jane Gravelle has said:

Adopting the credit on a temporary basis for the purpose of assessing the effectiveness of the credit is self-defeating, because the very temporary nature of the credit makes it impossible to determine the incentive effect.

Kenneth Brown, who evaluated the credit for the Joint Economic Committee, has found that—

The long-term nature of research and development is at odds with a temporary credit. A permanent credit would \* \* \* be more cost effective.

In addition, the following groups have recommended that the research and development tax credit be made permanent:

The White House Conference on Productivity;

The Business-Higher Education Forum;

The National Association of Manufacturers;

The U.S. Chamber of Commerce; Georgetown University's Center for Strategic and International Studies; and

The President's Commission on Industrial Competitiveness.

A second improvement would be to restore the credit to its original 25 percent incremental rate. The R&D tax credit is unique in that it can be claimed only for incremental increases in R&D spending. The credit was designed in this way specifically to encourage companies to spend more for research.

Evidence shows that the incremental feature of the credit worked. It was responsible for an estimated 6 to 7 percent of the increase in R&D spending since 1981.

Because the R&D tax credit is incremental, and because it is applied against a rolling base, the true value of the 25-percent credit was about 7 percent. By reducing its rate to 20 percent, Congress reduced the credit's effective value to about 5 percent.

It is unwise to dilute the credit. It is "penny wise and pound foolish." Economists have estimated that a permanent 25-percent R&D tax credit could add as much as \$17 billion a year worth of research in 1991. Therefore, our legislation restores the rate to 25 percent.

For similar reasons, our legislation makes the new basic research credit permanent. This credit was adopted in the 1986 Tax Reform Act to encourage company support of basic research at universities and nonprofit research institutes.

A permanent credit will send a signal to the U.S. research community that the 100th Congress wants corporations and universities to work together on a long-term effort to keep our country first in the global technology race. For too many years the corporate/university research relationship suffered. Now, that relationship is improving. In introducing this legislation, we hope to further encourage corporate/university partnerships.

Mr. President, last year, as the tax reform bill was being considered, John Chancellor of NBC News editorialized about R&D incentives. His remarks bear repeating.

If the United States is going to prosper at home and compete abroad it needs all the R&D investment it can get. Research is something that country is better at than almost all other countries. Companies with the biggest R&D investments do better overseas than almost any other sector of the American economy.

I was in Tokyo a few weeks ago. The Japanese are facing stiff competition from countries like Taiwan and South Korea. So the Japanese Companies are increasing investment in R&D to develop more sophisticated products.

Matsushita Electric has boosted its R&D budget to a billion and a half dollars a year, and that's competition for America.

Because of the central importance of technological advance to our future well-being, there is virtual unanimity among economists that the Government needs to intervene and prevent underinvestment in our most valuable resource: Ideas. Underinvestment in applied and basic research occurs because companies cannot fully capture the rewards from their investments. The rewards accrue to all of us at a rate that is fully 50 percent above that which an individual company receives.

The rewards accrue to States and businesses well beyond the Silicon Valley. Even in my State of Montana, which is not known as a technology-based State, the R&D credit is important. The growth of new businesses utilizing new technologies holds the promise for a prospering economy with new and stable jobs to replace those lost in farming, mining and forestry.

Those businesses range from pharmaceutical, agricultural, biological to chemical. They are providing innovations in microprocessing, lasers, communications, health care, toxic waste management, farm management and much more.

Mr. President, our legislation is a modest step to ensure that these and other U.S. businesses continue to provide America with first-class technology. But it is a very important step, one that should receive immediate attention as the first session of the 100th Congress convenes.●

● Mr. DURENBERGER. Mr. President, I am pleased to join my distinguished colleague from Missouri, Senator DANFORTH, in cosponsoring the Research and Development Incentive Act of 1987. At a time when this Nation's leadership in high technology processing and manufacturing is being seriously challenged, it is vitally important that we provide the strongest possible incentives to encourage American companies to strengthen their commitment to advanced research and development [R&D]. This legislation would do just that.

This legislation restores the incremental R&D tax credit rate to 25 percent. And it makes the credit permanent. Both of these changes are critically important, especially at this time when our trade deficit in manufactured products continues to worsen. The latest trade figures for manufactured products are devastating. They indicate that imports of manufactured products exceeded U.S. exports by \$119 billion last year.

If we are to successfully turn this deficit around, and compete more effectively, we must sustain a serious commitment to advanced R&D. Otherwise, we will see a continuing erosion

of our economic leadership in the world and a continued decline in our standard of living.

When the Senate Finance Committee drafted its version of a tax reform bill last year, the committee maintained the R&D credit at 25 percent. However, when the bill emerged from the conference committee the credit was scaled back to 20 percent. At the same time, the conference committee adopted several provisions that will reduce corporate cash-flow and inevitably make it more difficult for businesses to generate sufficient funds for advanced long-term R&D. I believe these were short-sighted decisions that should be rectified immediately.

More importantly, the Tax Reform Act of 1986 only extended the R&D credit through the end of 1988. By extending the credit for such a brief period, I believe we sent the wrong signal to the American business community. We in this Chamber have often complained about the short-sightedness of American business. By contrast, many experts have expressed praise for the long-term commitments that our Japanese competitors make to developing new products and opening new markets.

Commitments to R&D projects must be made for the long-term, often extending for 5 to 10 years. Corporate budgets for such projects are dependent on cash flow projections which inevitably factor in tax provisions. By extending the R&D credit for just another 2 years, we have diminished the incentive effect of the credit and added further uncertainty for companies planning extended R&D projects. That decision surely reinforces short-term thinking at a time when we should be encouraging planning for the next decade and beyond.

Mr. President, an article in yesterday's New York Times discussed the findings of a report prepared by the Defense Science Board. That report indicates that in the critically important area of semiconductor products and processes, the United States is falling even further behind Japan. The report indicates that out of 25 semiconductor products or processes, Japan now leads in 12 categories while the United States lead in only 5 and maintains parity in the other 8. More importantly, our position relative to Japan is declining in 19 of the 25 categories, including 4 of the 5 in which the United States now leads.

This is a dangerous trend that has implications both for our national security as well as our economic security. It must be reversed. A permanent 25 percent R&D credit is but one element that will encourage American business to take greater risks in developing new products that will keep us at the cutting edge of technology. ●

By Mr. HECHT (for himself and Mr. REID):

S. 59. A bill entitled the "National Forests and Public Lands of Nevada Enhancement Act of 1987;" to the Committee on Energy and Natural Resources.

NATIONAL FORESTS AND PUBLIC LANDS OF NEVADA ENHANCEMENT

Mr. HECHT. Mr. President, on the last night of the last Congress I stood before this body to try to get favorable floor action on the National Forest of Nevada Enhancement Act of 1986. I was unsuccessful in that attempt because a number of my colleagues on the other side of the aisle were uncomfortable approving water rights language that would have kept intact the existing water rights regime in Nevada. Specifically, the bill I sought to pass would have avoided creating any new Federal reserve water right as a side-effect of the Forest Service—Bureau of Land Management interchange accomplished by that bill.

On that final night of the last Congress I promised the people of Nevada that I would return to the floor of the Senate at the very beginning of this Congress and reintroduce the bill. Today, Mr. President, I am making good on that promise. The National Forests and Public Lands of Nevada Enhancement Act of 1987 would transfer approximately 511,000 acres of Nevada's BLM land to the Forest Service, and approximately 23,000 acres of land from the Forest Service to the BLM. This bill will streamline land management in Nevada, and also ultimately make it less expensive to the taxpayers.

I thought last year, and still feel now, that the fairest and most reasonable approach regarding water rights on the lands changing hands is that which I championed in the last Congress, and that which my new junior colleague from Nevada, Senator REID, also supported last year in his companion legislation on the House side. Namely, we should just leave things as they are, hold all water rights interests harmless, and not change the rules of the game on anyone.

Now we are in a new Congress, and all interested Senators will have ample opportunity to examine this legislation and the significance of its language. This in contrast to the rushed and often confusing final hours of a Congress, when it is a lot simpler to just say "no" then to spend precious time studying a matter that primarily affects another State.

I am therefore both hopeful and optimistic, that given the chance to fully study the water rights protections in the bill I introduce today, the Senate will see the merit in that language and the bill and process the legislation with all deliberate speed.

By Mr. GARN (by request):

S. 60. A bill entitled the "Financial Services Competitive Enhancement Act of 1987;" to the Committee on Banking, Housing, and Urban Affairs.

FINANCIAL SERVICES COMPETITIVE ENHANCEMENT ACT

● Mr. GARN. Mr. President, today I introduce the Financial Services Competitive Enhancement Act of 1987 at the request of the American Bankers Association. This bill will enable large and small depository institutions to offer new insurance, securities, and real estate products to the American consumer, in part reflecting a trend in new laws passed or being considered by States and foreign countries. For example, New York and Wisconsin have recently taken actions to permit banks to engage in a broader variety of activities, and our neighbor Canada is seriously considering a similar course of action. The bill also modernizes the regulation of depository institutions to reflect changes that have already occurred in the marketplace as well as those proposed by this bill. These regulatory changes are all designed to preserve safety and soundness of the financial services system.

Mr. President, identical legislation is also being introduced today in the House of Representatives by Congressman DOUG BARNARD, and in fact, the bill is similar to legislation he introduced last July. The American Bankers Association has worked closely with Congressman BARNARD and his staff in drafting the bill, and has urged its prompt consideration by both Houses of Congress in a year when efforts to increase the competitiveness of all U.S. companies will dominate the legislative agenda. Because I heartily agree that financial services providers must be allowed to become more competitive—for the sake of the country as well as the American consumer—I have agreed to introduce this legislation today, at the beginning of this new Congress. While the bill contains several provisions that were not part of earlier bills I introduced to reform the financial services industry, such as S. 2851 which passed the Senate in 1984 by the overwhelming margin of 89 to 5, its thrust is similar. It is intended to spark debate and action on the spectrum of issues confronting the entire financial services system.

As I've already mentioned, the focus of this bill is to make U.S. financial firms more competitive, both to bring new benefits to American consumers and to strengthen the position of U.S. firms competing worldwide. It is no secret that the premier position of our institutions has been eroding. Japanese firms dominate the list of the world's largest banks and securities firms. And as our hearings before the Senate Banking Committee last February revealed, the United Kingdom

has streamlined its regulatory climate through the so-called big bang and other changes to attract capital and institutions from all over the world. Perhaps most importantly, many countries now permit their financial institutions to engage in a far wider range of activities than the United States does, particularly with respect to banks. This bill would enable banks to compete head-on, as they should be allowed to do to keep U.S. companies and U.S. markets innovative, strong, and prosperous.

The bill also provides substantial benefits to community banks who in recent years have faced increased competition in providing financial services in their local markets—from residential mortgages to automobile loans to even small business loans. In addition to helping them meet this competitive challenge, the ability to offer a broader array of financial service products will provide a more diversified income stream to community banks. This will enhance the ability of those banks to weather temporary economic downturns in their local economies and enhance those banks' ability to continue supporting local borrowers experiencing temporary cash-flow problems. As the manager of a community bank in Kansas testified before the Senate Banking Committee last spring:

We think the evolving integration of the services industry presents some great opportunities for us to have financial products that are tailored to meet our customers' need. But to take advantage of that, Congress needs to remove the restrictions which prohibit us from participating as equals in the areas of insurance and securities and real estate.

Mr. President, I have no illusions that every element of this legislation will pass or that it is perfect. It will undoubtedly be opposed by certain interest groups, and alternative legislation is likely to be introduced. It is, however, a clear step in the right direction, and it raises the issues that this Congress must confront and resolve in order to keep banks competitive, strong, safe, and sound.

Mr. President, I ask unanimous consent that a letter from the American Bankers Association, S. 60, be printed in the RECORD.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

AMERICAN BANKERS ASSOCIATION,  
Washington, DC, January 6, 1986.

HON. JAKE GARN,  
U.S. Senate, Senate Dirksen Office Building,  
Washington, DC.

DEAR SENATOR GARN: Attached please find a copy of H.R. 50, "The Financial Services Competitive Enhancement Act of 1987" introduced today by Congressman Doug Barnard. The American Bankers Association has worked closely with Congressman Barnard and his staff in preparing this legislation.

On behalf of the American Bankers Association, we would greatly appreciate your in-

troducing this same legislation in the U.S. Senate. You have been a leader during the past six years on legislation that would allow banks to adjust to the ever changing forces in the financial services marketplace. Therefore, we believe you would be an excellent sponsor for this legislation in the Senate.

There is strong public interest in maintaining a financial system capable both of meeting the diverse needs of individuals, businesses, and governments and facilitating a smoothly functioning economy with a minimum expenditure of resources. We believe this legislation will provide significant benefits to consumers. These benefits may take the form of lower prices for goods and services; increased use of goods and services; or the development of new products and repackaging of traditional services in new ways that promote their accessibility and utility to consumers.

We agree with you for the need of comprehensive legislation that would allow banks to compete equitably with other providers of financial services. It is crucial that legislation of this type be enacted in order to maintain a viable as well as a safe and sound banking system. We hope you will agree to introduce this legislation in order that it may be the subject of public debate and consideration in the Senate.

Sincerely,

EDWARD L. YINGLING. ●

By Mr. STEVENS (for himself,  
Mr. MURKOWSKI, and Mr. DAN-  
FORTH):

S. 62. A bill to improve efforts to monitor, assess, and to reduce the adverse impact of driftnets; to the Committee on Commerce, Science, and Transportation.

#### PELAGIC DRIFTNET FISHERIES

Mr. STEVENS. Mr. President, the living marine resources off our coasts are under grave attack from the growing threat of plastic driftnets. These nets are suspended vertically in the water by floats, and are allowed to drift with the high sea currents. The nets are capable of entangling any species of fish, marine mammals, or sea birds which come into contact with them.

The driftnet fleets of Japan, Korea, and Taiwan have been allowed to grow at an alarming rate. The Japanese mothership salmon fishery currently operates 172 catcher vessels in the North Pacific Ocean. The squid and billfish driftnet fisheries sprang up in the late 1970's and have experienced the biggest growth in the last 3 years. The combined fleets field over 1,700 vessels in the North Pacific, and set more than 1 million miles of net annually.

The fleets have gone virtually unregulated, and the domestic regulations of the respective nations have a poor enforcement record. Last year, the Coast Guard sighted a number of Japanese and Taiwanese vessels in fishing zones prohibited by the laws of their own countries. The National Marine Fisheries Service law enforcement personnel recently seized 600,000 pounds of illegally caught salmon. The

investigation is ongoing, but the preliminary indication is that the salmon were caught by Taiwanese vessels operating on the high seas.

U.S. conservation efforts within the Exclusive Economic Zone over anadromous species, marine mammals, and sea birds are being seriously undermined by these plastic curtains of death. The National Ocean Policy Study held oversight hearings on the impact of these driftnet fisheries. The little information which is available highlights serious disruption in the marine ecosystem caused by driftnets. It is estimated that over 1 million salmon of U.S. origin are caught or destroyed annually. Further catch statistics will probably reveal that the actual loss is much greater than the current estimates. These fleets also entangle Dall's porpoise, northern fur seals, and sea lions in the nets. The fur seal population of the Pribilof Islands has declined by over 400,000 animals. U.S. scientists believe that as many as 50,000 fur seals die annually as a result of entanglement in nets and other nonbiodegradable marine debris. The oversight hearing also produced testimony on the shocking number of driftnet-related mortalities in the sea bird population. Many of the species killed by the driftnets are protected by the Migratory Bird Treaty.

In response to concerns raised by Alaskan fishermen and the environmental community, I introduced S. 2611 last year. The legislation was designed to increase the availability and reliability of information pertaining to impact of the driftnet fisheries on living marine resources, and to impose further conservation measures within the U.S. Exclusive Economic Zone. S. 2611 passed the Senate Commerce Committee in July without objection, and was brought to the Senate floor in October. Unfortunately, last minute concerns were raised by New England fishermen and further consideration was postponed until this year. The New England fishermen believed that S. 2611 contained an assertion of jurisdiction over fishery resources outside the Exclusive Economic Zone. This concern is unfounded. There is nothing in the legislation which extends U.S. fisheries jurisdiction. The United States has already asserted jurisdiction over anadromous species such as salmon in the Magnuson Act, and our jurisdiction has been formally recognized in international agreements by the Governments of Taiwan, Japan, and Korea.

Mr. President, I am introducing today the legislation in much the same form as S. 2611. Senate Report 99-529 contains a concise explanation of the impact of the driftnet fishing fleets living marine resources. The report also provides an analysis of S. 2611 which serves as the basis for the legis-

lation I am introducing today. Senate hearing 99-562 is another excellent source of information on the driftnet issue.

Several of the provisions contained in S. 2611 have been modified to accommodate concerns raised by the State Department. First, the requirement that observers be placed on all vessels in the Japanese salmon fishery has been changed to require a sufficient number of research observers necessary to ensure 95 percent confidence in the information.

Second, the Secretary of Commerce is granted authority to modify the Sea Bird Protection Zone around the Aleutian Islands upon a finding that such modification will provide an equal or greater degree of protection for sea birds.

Third, the Secretary of State is provided with 2 years to enter into cooperative monitoring and research agreements with foreign nations before joint-venture fishing permits for nations that refuse to enter into such agreements by the end of the 2-year period may be denied.

Finally, a new provision has been included in the legislation which requires the administration to evaluate the feasibility of and provide recommendations for the use of our Nation's satellite resources to assist in the monitoring of driftnet operations. A coordination of satellite resources is imperative if we are to enforce our anadromous species jurisdiction in a cost-effective manner.

This legislation is critical to the conservation of our living marine resources throughout their migratory range. I call upon my colleagues to become informed on the issue and join with me in this effort.

By Mr. STEVENS:

S. 63. A bill to establish a National Commission on Acquired Immune Deficiency Syndrome; to the Committee on Governmental Affairs.

NATIONAL COMMISSION ON ACQUIRED IMMUNE DEFICIENCY SYNDROME

Mr. STEVENS. Mr. President, acquired immune deficiency syndrome, more commonly known as AIDS, which was unknown in 1979, has emerged as a major sexually transmitted disease and has appropriately been placed at the top of the public health agenda by the Department of Health and Human Services. The AIDS virus now infects more than a million people in the United States and, to the best of our knowledge, most of these people will remain carriers for life. At least 100,000 of those people infected with the AIDS virus in the United States are women. Even more frightening are the prospects faced in other parts of the world. Infection in Central Africa, within the so-called AIDS belt, has risen to over 10 million people, ac-

counting for almost one-tenth of the entire population.

The cases of AIDS reported thus far are only the beginning of the expected toll. At least 50 percent of those now infected will, within the next 5 to 10 years, progress to severe disease and death. We know that the virus inflicts serious damage on the immune system, with the resulting inability of the victim to fight off infections. It also causes gross impairment of the brain. In some cases, the brain is reduced by massive tissue destruction to one-third its normal size. Other life-threatening forms of this disease include at least three forms of cancer—all potentially lethal; infiltration of the lungs with white blood cells; and impairment of the clotting components of the blood.

If the spread of AIDS is not checked, the present epidemic will become a catastrophe. More than 1 in 10 Americans may be infected by this virus in the foreseeable future. In a recent report issued by the Surgeon General, Dr. Everett Koop, it is estimated that, by the year 1991, patients with AIDS will need health and supportive services at a total cost of between \$8 and \$16 billion. A constantly increasing population of AIDS patients will severely burden the health care system and cripple our armed services. I believe this situation demands both immediate action to stem the spread of infection and a long-term national commitment to produce a vaccine and therapeutic drugs.

Education is the key, along with basic scientific research. The National Academy of Sciences has indicated that a program of research will require at least \$1 billion by 1990, with additional monetary commitments over many years. We have made only a start in meeting this crucial need. In the fiscal year 1987 continuing resolution, \$396 million was provided for public health activities aimed at preventing and treating AIDS. This is in addition to the \$21.8 million Congress appropriated, at my request, to fight AIDS in the military.

Federal agencies, including the National Institutes of Health, the Centers for Disease Control, and the Food and Drug Administration, have contributed enormously to the acquisition of knowledge about AIDS and the HTLV-III virus and to the development of techniques to help in its efforts with several Federal agencies, and is soliciting and reviewing extramural research proposals. I want them to continue their efforts, but greater involvement of the academic and private sectors must be encouraged. We need to determine the appropriate level of our national effort. There is also a need to mobilize existing resources, both fiscal and manpower, and encourage cooperation between the public and private sectors. To fill

these needs—and also to inform the American public, Congress, and the executive branch—I have introduced legislation to form a National Commission on AIDS.

This Commission will be charged with comprehensively examining the AIDS issue, including research and current health care efforts; encouraging other public and private groups to become involved in domestic and international efforts on AIDS; and studying the employment, housing, and insurance problems incurred by individuals with AIDS, as well as any legal or ethical issues or violations of civil rights. The Commission will be asked to submit a report to Congress and the President making recommendations for legislative and administrative actions to prevent and treat AIDS, to provide education and information about this disease, to provide assistance to individuals having AIDS, and to coordinate our Nation's spending priorities relative to this disease.

Mr. President, we need to mobilize all existing resources through more effective coordination between the public and private sectors. To meet this need, and also to inform the American public, Congress, and the President, we must establish a National Commission on AIDS. I ask my colleagues to support this bill.

By Mr. CHILES:

S. 64. A bill to amend the Agricultural Adjustment Act to permit marketing orders to provide for paid advertising for Florida-grown strawberries; to the Committee on Agriculture, Nutrition, and Forestry.

PAID ADVERTISING FOR FLORIDA-GROWN STRAWBERRIES

● Mr. CHILES. Mr. President, I am pleased to introduce legislation which will be of great assistance to Florida's strawberry growers. As you know, Florida is an important and growing producer of strawberries. The Florida Strawberry Growers Association has been very successful in strawberry research, marketing, and services to its members.

Florida strawberry growers, through the Florida Strawberry Growers Association, have petitioned the Secretary of Agriculture for the eventual establishment of a Federal marketing order for strawberries in the State of Florida. An important part of this marketing order will be paid advertising. Provisions for paid advertising in the marketing order will greatly assist the growers in their promotion efforts.

The Agricultural Marketing Agreement Act of 1937 did not make provision for paid advertising as part of a marketing order. But through the years the act has been amended to allow such advertising for many commodities. Marketing orders for almonds, cherries, papayas, carrots,

citrus fruits, onions, tokay grapes, fresh pears, dates, plums, nectarines, celery, sweet corn, limes, olives, pecans, avocados, apples, and tomatoes may all involve paid advertising. The legislation I am introducing would add Florida strawberries to that group.

I commend Florida's strawberry growers on their successful efforts to promote their product and am pleased to introduce this legislation on their behalf.

I ask unanimous consent that the text of my bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 64

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. PAID ADVERTISING FOR FLORIDA-GROWN STRAWBERRIES UNDER MARKETING ORDERS.**

The first proviso of section 8c(6)(I) of the Agricultural Adjustment Act, reenacted with amendments by the Agricultural Marketing Agreement Act of 1937 (7 U.S.C. 608c(6)(I)), is amended by striking out "or tomatoes" and inserting in lieu thereof "tomatoes, or Florida-grown strawberries,".

By Mr. HECHT (for himself, Mr. REID, Mr. SYMMS, Mr. NICKLES, Mr. GRAMM, Mr. McCURE, Mr. WALLOP, Mr. GRASSLEY, Mr. HATCH, Mr. COCHRAN, Mr. MELCHER, and Mr. WILSON):

S. 65. A bill entitled the "Highway Speed Modification Act of 1987"; to the Committee on Commerce, Science, and Transportation.

**HIGHWAY SPEED MODIFICATION ACT**

● Mr. HECHT. Mr. President, today I am reintroducing legislation I sponsored almost 2 years ago to modify the 55-miles-per-hour speed limit law. Since the introduction of that bill, S. 329, I have been impressed with the enormous public interest in this legislation and their support for changing this outdated law. Obviously, Congress holds the same viewpoint since just last fall, during consideration of the 1986 highway reauthorization bill, an amendment to change the 55-miles-per-hour law sponsored by Senator SYMMS and myself passed this body by a vote of 56 to 36. Under the provisions of that amendment, individual States would have been allowed to raise speed limits on rural interstate highways up to 65-miles-per-hour; however, only if the Governor so chooses.

The legislation I am offering today, Mr. President, is very similar to what the Senate approved last fall. Simply put, this bill, S. 65, allows our States the right to raise the speed limit up to 65 on all roads, interstate and noninterstate. It takes into full consideration that in high-density population areas, speeds should remain at 55. But it also acknowledges that our States

are the only entities best suited to know what roads and highways are capable of being traveled at high speeds. And, most importantly, it returns that right back where it belongs, with the States.

Mr. President, there has been much written and said about whether or not we should change the 55-miles-per-hour law. I think there is no question we should, and it is obvious that most Americans think so too. In fact, it is estimated that today over 75 percent of all drivers do not comply. Why then should we not bring back some common sense and reality to the issue? Why should we not return this job back to our States? And, why must the Federal Government remain in the business of telling Americans how they should or should not drive?

I am pleased today, Mr. President, to be joined by Senators REID, SYMMS, NICKLES, GRAMM, McCURE, WALLOP, GRASSLEY, HATCH, COCHRAN, MELCHER, and WILSON in sponsoring this legislation. In a meeting Senator SYMMS and I had in the Oval Office last fall, President Reagan endorsed a change in the 55-mile-per-hour law as well. The Senate has spoken once, Mr. President, and there can be no doubt the time has come to give the American driving public a well deserved break from the 55-mile-per-hour law. I hope all my colleagues will join in this effort.

● Mr. NICKLES. Mr. President, more than three-quarters of the drivers in our country regularly exceed the 55-mile-per-hour speed limit on rural interstate highways. Does this mean that we are a nation of reckless drivers? I do not think so.

Widespread noncompliance with the 55-mile-per-hour speed limit does indicate the drivers view this law as impractical, particularly on long straight stretches of well-constructed rural highways with little traffic.

Why is the Federal Government in the business of setting speed limits anyway? Until a little over 13 years ago, setting speed limits on roadways was a matter of State jurisdiction, set by our own State legislators. That is the way it should be.

In 1973, Congress made history by setting a Federal speed limit of 55-miles-per-hour. This was mainly a reaction to the OPEC oil embargo when conservation became a necessity. In 1974, the speed limit became permanent.

The only reason many States continue to enforce the 55 limit, against the will of the majority of their citizens, is because of the way the Federal Government enforces the law.

The Government says if a State's drivers exceed the speed limit more than 50 percent of the time, that State can lose up to 10 percent of its Federal highway construction money. In Okla-

homa that would amount to approximately \$20 million.

And to add insult to injury, that money is not Federal money at all—it is tax money States are required to charge their own citizens by adding an extra 9.5 cents onto the price of each gallon of gas they buy. Simply put, Washington threatens the States by withholding money that rightfully belongs to the States.

Also, the rationale for the 55-mile-per-hour speed limit is less meaningful than it was 13 years ago. Oklahomans are well aware that we have plenty of fuel available at a low price. Automobiles are more fuel efficient and safer. Even though Americans are driving over the speed limit, the automobile fatality rate is dropping and is statistically lower on rural interstates than on more populated roadways.

No one is saying that States—like some of the heavily populated Eastern States—should increase their speed limits. In parts of Oklahoma, there is no call for moving speed limits from their present level. But it is time to give back to States the authority to decide for themselves. Nobody knows better than the people of Oklahoma what is best for Oklahoma.

That is why I am once again joining with my colleagues to offer legislation which would allow each State to raise speed limits up to 65 miles per hour on roads outside urban areas.

This legislation mandates nothing. It simply says that each State will determine for itself whether rural highway speed limits should be increased without losing Federal funds.

I urge my colleagues to join me in putting States back in the driver's seat with this commonsense approach.

By Mr. BUMPERS:

S. 66. A bill to provide for competitive leasing for onshore oil and gas; to the Committee on Energy and Natural Resources.

**COMPETITIVE OIL AND GAS LEASING ACT**

Mr. BUMPERS. Mr. President, I rise today to introduce for the fifth consecutive Congress a bill to reform the Federal onshore oil and gas leasing system.

As every Member of this body knows, I have long fought for this change in our current leasing system, which I believe is outmoded, susceptible to fraud and manipulation, and not designed to provide the Government with a fair return. The Federal Onshore Competitive Oil and Gas Leasing Act of 1987 would enact several long overdue changes to the Federal onshore leasing laws. These reforms will establish a leasing system which is fair and workable and will enhance our domestic energy situation. I urge my colleagues to support this bill.

## PROBLEMS WITH THE CURRENT LEASING SYSTEM

Mr. President, I believe that reform of the Federal Government's onshore leasing system is absolutely necessary. The current system serves neither the public nor the oil and gas industry's best interests. For the edification of my colleagues who may not have heard this speech before, and to refresh the memories of those who have, I will attempt to summarize the problems with the present Federal leasing system for oil and gas.

Under existing law—the Mineral Leasing Act of 1920—only those lands with known oil and gas potential—those overlying a known geological structure of a producing oil or gas field [KGS]—may be leased on a competitive basis. Because of this restrictive test, less than 5 percent of all onshore leases are now offered competitively. Oil and gas leases not within a KGS must be leased noncompetitively—for a small filing fee and \$1 an acre.

In addition to the restrictive nature of the KGS test, it is exceedingly difficult to apply with any degree of certainty. The distinguished Senator from Wyoming [Senator WALLOP] has called the KGS system "witchcraft, at best" and I emphatically agree. Currently, the Bureau of Land Management does not profess to make a technical or professional decision on whether lands overlie a KGS. They simply determine that if a tract is within a mile of producing acreage, it is presumed to be a KGS. Anything further than 1 mile from a producing tract is deemed not to be KGS lands.

The Bureau of Land Management has often made these determinations without current information on producing wells and complete, dependable geological data. These problems have been further complicated by staffing and communications problems within BLM. As a result of errors in BLM's KGS determination process, several leases, determined by BLM not to be within a KGS, have been leased on a noncompetitive basis, even though there was a high degree of competitive interest in the leases. In these instances, the Federal Government received far less than fair market value. The most egregious examples of these occurrences were at Fort Chaffee, AR and Amos Draw, WY.

In 1979 the Interior Department issued noncompetitive leases on 33,000 acres near known gas producing wells at Fort Chaffee for \$1 an acre. Arkla gas used to set the leases aside, claiming that they were over a KGS and under the law, should have been leased competitively. The district court agreed, ruling that the Interior Department's decision to lease the area noncompetitively was arbitrary. This decision has been upheld on appeal. In 1980, 24,000 acres of adjoining lands were leased competitively for

\$1,705 per acre. So instead of the Treasury receiving \$24,000 for the leases, it received \$43 million, half of which was returned to the State.

More recently, 18 tracts in the Amos Draw region of Wyoming located adjacent to producing lands were leased noncompetitively. The Government received \$13,000 in rental fees and \$1.2 million in lottery filing for the tracts. Within 6 weeks, the lottery winners sold their lease right for fees estimated at \$50 to \$100 million. The Amos Draw scandal led to a suspension of the Onshore Leasing Program for 10 months from 1983 to 1984.

In 1984, the National Academy of Sciences began a thorough study of the KGS Program. The NAS report, issued earlier this year, makes several proposals for improving the program. However, the Academy's bottom-line conclusion was that its proposals "at best can lessen the criticism of the KGS Program—and that—that the nature of both oil and gas exploration and existing law preclude resolving the issues to everyone's satisfaction. Uncertainty and individual judgment will always exist even if every piece of data were required by the BLM. Some errors in classification will always occur." "Known Geological Structures Under the Mineral Leasing Act: Interpreting and Applying the Term Known Geologic Structure of a Producing Oil and Gas Field," National Academy Press, 1986, p. 82.

These findings support my belief that the existing competitive leasing system is anachronistic, wasteful and must be replaced. The committee bill would replace the KGS determination process with a neutral market based test. This change will help to assure that the Federal Government receives market value for its leases and will streamline the administration of the leasing program.

An equally serious problem associated with the current leasing system is the potential for fraud and abuse within the noncompetitive system, particularly within the simultaneous filing—(simo)—for lottery system. In 1980, evidence of multiple filings by single applicants in the lottery led to a 3-month hiatus in the program and remedial rule changes. Shortly thereafter filing services for the lottery began to spring up in large numbers. These services recruit clients and then, for a fee, file lottery applications in their names. These services commonly misrepresent the value of the tracts to be offered for lease and the filer's chances of winning a tract. A number of filing services charge service fees greatly in excess of actual filing fees. Some even claim to "guarantee" their clients will be winners.

At one time there were over 500 filing services operating in this country and State and Federal officials estimate that the public has been de-

frauded of between \$200 and \$300 million each year by these companies. At present, 44 filing services operate nationwide. This drastic reduction is due in part to the increase in the filing fee to \$75 and the required prepayment of the first year's rental payment of \$1 per acre. The reduction also reflects the increased investigative efforts of State governments, the Departments of Justice and the Federal Trade Commission to halt fraudulent activities.

Nevertheless, the unscrupulous are ingenious and indefatigable and other types of fraudulent activities have been introduced into the system. One example involves the so-called "40 acre merchants" who break up leases, which are typically over 1,000 acres in size, into 40 acre parcels and sell them to the unsuspecting public. Another fraud involves misrepresentation of the value of lands which were leased noncompetitively—for example tracts in Alaska with no known potential for oil and gas were sold as "valuable oil lands within sight of the Trans-Alaska pipeline."

My bill enhances the Government's authority to combat fraudulent practices and provides the Secretary of the Interior with the authority to disapprove lease assignments of less than 640 acres. The requirement that all lands be subject to a competitive test before being offered noncompetitively should also reduce the lottery's attraction for speculators because lands available in the lottery would be presumed to be worth less than \$20 an acre.

## BACKGROUND AND SUMMARY OF LEGISLATION

For several years I have introduced legislation to establish an all-competitive leasing system for onshore oil and gas resources on Federal lands. I have championed the all-competitive approach here in the Senate for the past 7 years and I would still prefer to see an all-competitive system. However, in the hopes of achieving a consensus regarding leasing reform I introduced S. 2439 in May of last year. It is this legislation, with a few modifications, which the Energy Committee considered and reported to the Senate by a vote of 15 to 2. After further modification, the legislation passed the Senate at the end of the 99th Congress, but failed to be considered by the House of Representatives. The bill I am introducing today is similar to the committee-reported version of S. 2439, with a few technical modifications. The legislation creates a two-tiered system for onshore oil and gas leasing which can be summarized as follows:

All Federal lands subject to oil and gas leasing would be offered first for competitive bidding.

A minimum bid of \$20 per acre would be required in the competitive tier. Parcels receiving at least one bid

of \$20 or higher would be leased to the highest bidder.

Parcels receiving no bids or bids below the minimum would then be available for leasing in the second—noncompetitive—tier for 1 year.

If these parcels are not leased within the year, they again become available only under the competitive system.

The royalty payment under this proposal would be fixed at 12½ percent. Other lease terms, such as rental rates and the length of the lease remain as in existing law. The maximum lease size would be 2,560 acres, except in Alaska.

The primary virtue of this legislation, in my view, is that it eliminates the use of known geologic structures [KGS] as the determinant of eligibility for competitive leasing and substitutes a market based price test. The lottery system—for lands which have been leased previously—and the over-the-counter system—for lands which have never been leased—are preserved for those parcels which the market has determined to be worth less than \$20 an acre. The Government's authority to combat fraudulent practices involving the onshore oil and gas leasing system would be enhanced under the committee bill.

The Secretary would have new authority to disapprove lease assignments of less than 640 acres in order to prevent "40 acre merchants" from marketing small parts of leases to the unsuspecting public.

Specific authority to combat fraud, including civil and criminal penalties, is provided for regulatory and enforcement agencies.

The Congressional Budget Office estimated last year that passage of this legislation would increase gross Federal receipts from bonus bids by approximately \$50 million in fiscal year 1987 and by about \$100 million per year over the fiscal years 1988 through 1991. Net receipts to the Government would be \$15 million for 1987 and \$30 million, because half of the receipts go to the States and receipts for filing fees for noncompetitive leases would be slightly reduced.

Mr. President, this legislation does not provide all I would wish for in a leasing system for our Federal oil and gas resources. It is less than half a loaf for me. But I think it is a workable bill and a fair compromise between diverse interests. I urge the Senate to adopt this legislation and look forward to working with our colleagues in the House on this important issue. I hope that the 100th Congress will finally enact the leasing reform legislation which we have needed for so long.

I ask unanimous consent that a copy of the bill and a section-by-section analysis be printed in the *RECORD* immediately after my statement.

There being no objection the material was ordered to be printed in the *RECORD*, as follows:

S. 66

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That this Act may be cited as the "Federal Onshore Competitive Oil and Gas Leasing Act of 1987."

SEC. 2.(a) Section 17(b)(1) of the Act of February 25, 1920, (30 U.S.C. 226(b)(1)), is amended to read as follows:

"(b)(1) All lands to be leased which are not subject to leasing under paragraph (2) of this subsection shall be leased as provided in this paragraph to the highest responsible qualified bidder by competitive bidding under general regulations in units of not more than two thousand five hundred and sixty acres, except in Alaska, where units shall be not more than five thousand one hundred and twenty acres, which shall be as nearly compact as possible. Lease sales shall be conducted by oral bidding. Lease sales shall be held for each State, where appropriate, not less than quarterly, and more frequently if the Secretary determines such sales are necessary. A lease shall be conditioned upon the payment of a royalty of 12.5 per centum in amount or value of the production removed or sold from the lease. The Secretary shall establish by regulation a minimum acceptable price which shall be the same for all leases and which is at least \$20 per acre. The minimum acceptable price shall be established without evaluation of the lands proposed for lease. The Secretary shall accept the highest bid from a responsible qualified bidder which is equal to or greater than the minimum acceptable price. All bids for less than the minimum acceptable price shall be rejected. Lands for which no bids are received or for which the highest bid is less than the minimum acceptable price shall become available for leasing under subsection (c) of this section for a period set by the Secretary not to exceed one year after the lease sale."

(b) The first sentence of section 17(c) of the Act of February 25, 1920 (30 U.S.C. 226(c)) is amended to read as follows: "(1) If the lands to be leased are not leased under subsection (b)(1) of this section or are not subject to competitive leasing under subsection (b)(2) of this section, the person first making application for the lease who is qualified to hold a lease under this Act shall be entitled to a lease of such lands without competitive bidding."

(c) Section 17(c) of the Act of February 25, 1920 (30 U.S.C. 226(c)), is amended by adding a paragraph to read as follows:

"(c)(2)(A) Lands (i) which were posted for sale under subsection (b)(1) of this section but for which no bids were received or for which the highest bid was less than the minimum acceptable price established by the Secretary and (ii) for which, at the end of the period established by the Secretary under subsection (b)(1) of this section no lease has been issued and no lease application is pending under paragraph (1) of this subsection, shall be available for leasing only in accordance with subsection (b)(1) of this section."

"(B) The land in any lease which is issued under paragraph (1) of this subsection or under subsection (b)(1) of this section which lease terminates, expires, is canceled or is relinquished shall again be available for leasing only in accordance with subsection (b)(1) of this section."

(d) The third sentence of section 17(d) of the Act of February 25, 1920 (30 U.S.C. 226(d)), is amended to read as follows: "A minimum royalty of not less than \$1 per acre in lieu of rental shall be payable at the expiration of each lease year beginning on or after a discovery of oil and gas in paying quantities in the lands leased."

SEC. 3. The third sentence of section 30(a) of the Act of February 25, 1920 (30 U.S.C. 187(a)) is amended to read as follows: "The Secretary shall disapprove the assignment or sublease only for lack of qualification of the assignee or sublessee or for lack of sufficient bonds: *Provided, however,* That the Secretary may, in his discretion, disapprove an assignment (1) of a separate zone of deposit under any lease, (2) of a part of a legal subdivision, or (3) of less than six hundred and forty acres outside Alaska or of less than two thousand five hundred and sixty acres within Alaska, unless the assignment constitutes the entire lease or is demonstrated to further the development of oil and gas. Requests for approval of assignment or sublease shall be processed promptly by the Secretary."

SEC. 4. The first sentence of section 31(b) of the Act of February 25, 1920 (30 U.S.C. 188(b)) is amended to read as follows:

"(b) Any lease issued after August 21, 1935, under the provisions of section 17 of this Act shall be subject to cancellation by the Secretary of the Interior after thirty days' notice upon the failure of the lessee to comply with any of the provisions of the lease, unless or until the leasehold contains a well capable of production of oil or gas in paying quantities, or the lease is committed to an approved cooperative or unit plan or communitization agreement under section 17(j) of this Act which contains a well capable of production of unitized substances in paying quantities."

SEC. 5. Section 1008 of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3148) is amended as follows:

(1) Subsections (c) and (e) (16 U.S.C. 3148 (c) and (e)) are deleted in their entirety.

(2) The second sentence of section 1008(d) (16 U.S.C. 3148(d)) is deleted.

(3) Subsections (d) and (f) through (i) (16 U.S.C. 3148 (d) and (f) through (i)) are renumbered subsections (c) through (g) respectively.

SEC. 6. (a) Notwithstanding any other provision of this Act and except as provided in paragraph (d) of this section, all noncompetitive oil and gas lease applications filed pursuant to regulations governing the simultaneous oil and gas leasing system (43 CFR subpart 3112) and pending on the date of enactment of this Act shall be processed, and leases shall be issued under the provisions of the Act of February 25, 1920 (30 U.S.C. 181 *et seq.*), as in effect before its amendment by this Act, except where the issuance of any such lease would not be lawful under such provisions of other applicable law. If the date of enactment of this Act occurs during a simultaneous filing period prescribed by the regulations of the Department of the Interior, all applications filed during that period shall be considered filed prior to the date of enactment.

(b) Notwithstanding any other provision of this Act and except as provided in paragraph (d) of this section, all noncompetitive oil and gas lease offers filed pursuant to regulations governing the over-the-counter leasing system (43 CFR subpart 3111) prior to January 1, 1987, shall be proposed, and leases shall be issued under the Act of February 25, 1920 (30 U.S.C. 181 *et seq.*), as in

effect before its amendment by this Act, except where the issuance of any such lease would not be lawful under such provisions or other applicable law. If the Secretary posts tracts for competitive sale containing lands in an over-the-counter noncompetitive lease offer filed between January 1, 1987, and the date of enactment of this Act, and if any such tracts do not receive bids greater than or equal to the minimum acceptable price established by the Secretary at the sale, the Secretary shall reinstate the noncompetitive lease offers for these tracts and shall issue leases in accordance with section 17(c) of the Act of February 25, 1920 (30 U.S.C. 226(c)).

(c) Notwithstanding any other provision of this Act, all competitive oil and gas lease bids filed pursuant to applicable regulations (43 CFR subpart 3120) pending on the date of enactment of this Act shall be processed, the high bid for each tract shall be accepted without further evaluation of the value of the tract, and leases shall be issued under the Act of February 20, 1920 (30 U.S.C. 181 *et seq.*), as in effect before its amendment by this Act, except where the issuance of any such lease would not be lawful under such provisions or other applicable law.

(d) No competitive lease applications or offers pending on the date of enactment of this Act for lands within the Shawnee National Forest, Illinois; the Ouachita National Forest, Arkansas; Fort Chaffee, Arkansas; or Eglin Air Force Base, Florida; shall be processed until these lands are posted for competitive bidding in accordance with section 2 of this Act. If any such tract receives no bid from a responsible qualified bidder then the noncompetitive applications or offers pending for such a tract shall be reinstated and noncompetitive leases issued under the Act of February 20, 1920 (30 U.S.C. 181 *et seq.*), as in effect before its amendment by this Act, except where the issuance of any such lease would not be lawful under such provisions or other applicable law. If competitive leases are issued for any such tract, then the pending noncompetitive application or offer shall be rejected.

Sec. 7(a) Except as provided in section 6 of this Act, all oil and gas leasing pursuant to the Act of February 25, 1920 (30 U.S.C. 181 *et seq.*), after the date of enactment of this Act shall be conducted in accordance with the provisions of this Act.

(b) The Secretary shall issue final regulations within one hundred and eighty days after the date of enactment of this Act. The regulations shall be effective when published in the Federal Register.

(c)(1) Prior to issuing regulations implementing this Act, the Secretary shall hold at least one competitive lease sale pursuant to Section 2 of this Act. Sale procedures shall be established in this notice of sale. This sale shall include tracts which, but for the enactment of this Act, would have been posted for the filing of simultaneous oil and gas lease applications pursuant to applicable regulations (43 CFR subpart 3112). The Secretary may also include in the sale tracts which would otherwise have been posted for competitive sale pursuant to applicable regulations (43 CFR subpart 3120) and tracts which received over-the-counter noncompetitive oil and gas lease offers pursuant to applicable regulations (43 CFR subpart 3111) between January 1, 1987, and the date of enactment of this Act. The Secretary may hold additional sales if he considers it necessary prior to the issuance of final regulations pursuant to subsection (b) of this section.

(2) If tracts which would, but for the enactment of this Act, have been posted for filing of simultaneous applications do not receive bids of greater than or equal to the minimum acceptable price established by the Secretary at a competitive sale held under this section, they shall subsequently be posted for the filing of simultaneous applications provided the Secretary has not yet issued regulations under subsection (b) of this section.

(3) If no competitive or noncompetitive leases are issued for lands posted for sale as provided in paragraph (c) of this section, the Secretary shall lease such tracts in accordance with the regulations issued pursuant to paragraph (b) of this section.

Sec. 8. The Act of February 25, 1920 (30 U.S.C. 181 *et seq.*) is amended by adding at the end thereof the following new section:

"Sec. 43. Actions taken by the Secretary of the Interior to develop regulations and procedures for a competitive oil and gas leasing program or to hold particular lease sales shall not be subject to the requirements of section 102(2)(C) of the National Environmental Policy Act of 1969. Except as otherwise provided in this section, nothing in this Act shall be considered as affecting the application of section 102 of the National Environmental Policy Act of 1969."

Sec. 9. The Act of February 25, 1920 (30 U.S.C. 181 *et seq.*) is amended by inserting after section 40 the following new section:

"Sec. 41(a) Any person shall be liable under the standards set forth in subsections (c) and (d) of this section if that person misrepresents to the public by any means of communication the following:

"(1) The value or potential value of any lease or portion thereof issued under this Act;

"(2) the value or potential value of any lease or portion thereof to be issued by this Act;

"(3) the value or potential value of any land available for leasing under this Act;

"(4) the availability of any land for leasing under this Act;

"(5) the ability of the person to obtain leases under this Act on his or her own behalf or on behalf of any other person; or

"(6) the provisions of this Act and its implementing regulations.

"(b) Any person who organizes, or participates in, any scheme, arrangement, plan, or agreement to circumvent the provisions of this Act or its implementing regulations shall be liable under the provisions of this section.

"(c) The Attorney General shall institute against any person who, given the nature of the intended recipient of the communication, knew or should have known he or she was violating subsection (a) or (b) of this section, a civil action, in the district court of the United States for the judicial district in which the defendant resides or in which the violation occurred or in which the lease or land involved is located, for a temporary restraining order, injunction, civil penalty of not more than \$100,000 for each violation, or other appropriate remedy, including but not limited to, a prohibition from participating in exploration, leasing, or development of any federal mineral, or both.

"(d) Any person who knowingly and willfully violates the provisions of this section shall, upon conviction, be punished by a fine of not more than \$500,000 for each violation or by imprisonment for not more than five years, or both.

"(e)(1) Whenever a corporation or other entity is subject to civil or criminal action

under this section, any officer, employee, or agent of such corporation or entity who authorized, ordered, or carried out the prescribed activity shall be subject to the same action.

"(2) Whenever any officer, employee, or agent of a corporation or other entity is subject to civil or criminal action under this section for activity conducted on behalf of the corporation or other entity, the corporation or other entity shall be subject to the same action.

"(f) The remedies, penalties, fines, and imprisonment prescribed in this section shall be concurrent and cumulative and the exercise of one shall not preclude the exercise of the others. Further, the remedies, penalties, fines, and imprisonment prescribed in this section shall be in addition to any other remedies, penalties, fines and imprisonment afforded by any other law or regulation.

"(g)(1) A state may commence a civil action under subsection (c) of this section against any person conducting activity within the state in violation of this section. Civil actions brought by a state shall only be brought in the United States district court for the judicial district in which the defendant resides or in which the violation occurred or in which the lease or land involved is located. The district court shall have jurisdiction, without regard to the amount in controversy or the citizenship of the parties, to order appropriate remedies and penalties as described in subsection (c) of this section.

"(2) This state shall notify the Attorney General of the United States of any civil action filed by the State under this subsection within thirty days of filing of the action.

"(3) Any civil penalties recovered by a state under this subsection shall be retained by the state and may be expended in such manner and for such purposes as the state deems appropriate. If a civil action is jointly brought by the Attorney General and a state, by more than one state or by the Attorney General and more than one state, any civil penalties recovered as a result of the joint action shall be shared by the parties bringing the action in accordance with a written agreement entered into prior to the filing of the action.

"(4) Nothing in this section shall deprive a state of jurisdiction to enforce its own civil and criminal laws against any person who may also be subject to civil and criminal action under this section."

Sec. 9. Section 35 of the Act of February 25, 1920 (30 U.S.C. 191) is amended by adding the following at the end of the section:

"In determining the amount of payments to states under this section, the amount of such payments shall not be reduced by any administrative or other costs incurred by the United States."

Sec. 10. The Secretary shall submit annually to the Congress a report containing appropriate information on the implementation of this Act. Such report shall include, but not be limited to:

(a) the number of acres leased, and the number of leases issued;

(b) the amount of revenue received from bonus bids, rentals and royalties;

(c) the amount of production from competitive leases issued under this Act and from competitive and noncompetitive leases issued prior to the enactment of this Act; and

(d) such other data and information as will facilitate (i) an assessment of the on-

shore oil and gas leasing system, and (ii) a comparison of the system as revised by this Act with the system in operation prior to this Act.

#### EXPLANATION OF COMPETITIVE LEASING BILL GENERAL COMMENTS

The bill is based on S. 2439, as reported by the Senate Energy and Natural Resources Committee in July, 1986, with the addition of several technical amendments and substantive amendments of a minor nature.

#### SECTION-BY-SECTION ANALYSIS

##### Section 1—Short title.

Section 2(a)—provides that all lands to be leased (except those in special tar sands areas) shall be leased by competitive bidding as long as the highest bid equals or exceeds \$20 per acre or a minimum acceptable price established by the Secretary of at least \$20. Any minimum acceptable price above \$20 shall be established by regulation and shall apply to all leases.

Leases may contain no more than 2,560 acres, except in Alaska where the units may be 5,120 acres. Lease sales shall be held quarterly and shall be conducted by oral bidding. The royalty rate for leases is fixed at 12.5%. The lease term is the same as under existing law—5 years.

Section 2(b)—provides that all land receiving no bid or bids below \$20 per acre will be made available for leasing for a period not to exceed one year, without competitive bidding to the person first making application for a lease. Noncompetitive leases issued under this authority would have a 10 year term, as in existing law.

Section 2(c)—provides that if no lease application is pending at the end of the one year period, lands shall again be available for leasing only on a competitive basis. Lands within a lease which is terminated, expires, is canceled or is relinquished shall again be available only on a competitive basis.

Section 2(d)—provides for a minimum royalty of not less than \$1 per acre. This would eliminate the possibility of the minimum royalty being less than the rental rate on a lease.

Section 3—allows the Secretary to disapprove lease assignments of a part of a legal subdivision or of less than 640 acres outside of Alaska or of less than 2560 acres within Alaska, in addition to his current authority with regard to disapproval of assignments. The Secretary is directed to approve lawful assignments promptly.

Section 4—amends the cancellation provisions of the Mineral Leasing Act to conform to changes made in the leasing provisions.

Section 5—amends the Alaska National Interest Lands Conservation Act to eliminate the "favorable petroleum geological province" determination and to make leasing in Alaska subject to the provisions of this Act.

Section 6—describes "grandfather provisions" for lease applications pending at the time this Act is enacted. Paragraph (a) grandfathers pending simultaneous, noncompetitive applications and provides an orderly transition if the Department is conducting a simultaneous filing at the time this Act is enacted. Paragraph (b) grandfathers over-the-counter applications filed prior to January 1, 1987. The cut-off date will avoid a last minute rush of lease applications. Paragraph (c) grandfathers pending competitive applications. Paragraph (d) grandfathers pending, noncompetitive applications in certain controversial areas only if the lands are not leased competitively under section 2.

Section 7—requires issuance of regulations within 180 days of enactment of this Act and requires the Secretary to hold at least one lease sale under the provisions of this Act without having implemented regulations.

Section 8—provides that actions taken as a result of this Act are not "major federal actions" for the purpose of implementing section 102 (2) (c) of NEPA. Lease issuance will continue to be subject to NEPA.

Section 9—adds a new section 41 to the Mineral Leasing Act of 1920 to provide specific authority to combat certain fraudulent practices involving the Federal onshore oil and gas leasing program. Subsection 41(a) imposes liability on persons making misrepresentations to the public regarding the provisions of the Act, as amended or its implementing regulations, or regarding the value, potential value, or availability of leases. Subsection 41(b) imposes liability on any person who organizes, or participates in, any scheme, arrangement, plan or agreement to circumvent the Act, as amended, or its implementing regulations. Subsection 41(c) imposes a civil liability standard of "knew or should have known." It provides that the Attorney General shall institute a civil action against any person who, given the nature of the intended recipient of the communication, "knew or should have known" he was violating the provisions of the section. Subsection 41(d) imposes a criminal liability standard of "knowingly and willfully." Additional provisions provide liability and remedies for certain activities.

Section 10—provides that payments to the states under section 35 of the Mineral Leasing Act shall not be reduced by administrative or other costs incurred by the United States.

Section 11—requires an annual report from the Secretary of the Interior on the implementation of this Act.

By Mr. BUMPERS (for himself and Mr. ROTH):

S. 67. A bill to amend the Tax Reform Act of 1986 by repealing a certain transition rule; to the Committee on Finance.

#### REPEAL OF A CERTAIN TRANSITION RULE

Mr. BUMPERS. Mr. President, today I am reintroducing legislation to correct an egregious error in the Tax Reform Act. I introduced this same bill on the closing day of the last Congress—S. 2954, CONGRESSIONAL RECORD of October 18, 1986, at 33841—and I pledged then that I would reintroduce it again as soon as Congress reconvened. The Congress came very close to taking action to correct this error before we adjourned and it is time now that we take up this issue once again and resolve it.

This legislation would repeal a special "transition" rule which was slipped into the Tax Reform Act at the last minute before it was reported from the tax reform conference committee. This rule provides valuable tax benefits to certain aircraft manufacturers and puts all other aircraft manufacturers at a severe competitive disadvantage. By repealing this transition rule we can avoid an injustice to all of the U.S.- and foreign-owned companies which do not receive special

treatment under the transition rule. The legislation I am introducing would repeal this transition rule retroactively to the effective date of the rule, December 31, 1985.

When I introduced this bill last October I was fully aware that the Senate would not be able to consider this legislation in the limited time we had available before we adjourned. In fact, S. 2954 was introduced immediately before the Senate adjourned sine die. When I introduced this legislation last October, I pledged to reintroduce the bill again at the start of this Congress and I also emphasized that S. 2954 and the bill I now introduce repeal this transition rule retroactive to the first day of 1986.

In my statement in October and in an earlier press release on this issue, I gave notice to all those who believed that they would receive the full benefits of this transition rule that they might not, in fact, receive these benefits. As I said in my introductory statement, "Those taxpayers who proceed to rely on this 'transition' rule in the tax reform act are taking a risk and they are acting at their peril." As I also said then, in introducing the bill I was "giving them more notice than was given to the aircraft manufacturers not covered by this unfair and ill-advised 'transition' rule"—CONGRESSIONAL RECORD, October 18, 1986, at 33841.

The transition rule which this legislation repeals can be found in section 204(a)(11) of the Tax Reform Act. This provision can be found at page I-76 of the conference report on the tax reform legislation. This transition rule would provide special tax treatment to purchasers of aircraft manufactured in four States explicitly enumerated in the provision, Kansas, Florida, Georgia, and Texas.

As we all know, the Tax Reform Act repealed the investment tax credit effective for property placed in service after December 31, 1985. But under the aircraft transition rule, the ITC would not be repealed for the purchase of certain aircraft identified in the provision. The aircraft to which the ITC repeal is not effective are aircraft which are "In inventory or in the planned production schedule of the final assembly manufacturer, with orders placed for the engine(s) on or before August 16, 1986."

There were a few limitations in the rule. To be included in this rule, the aircraft must be subject to a sale contract binding "on or before December 31, 1986," and must be "delivered and placed in service by the purchaser, before July 1, 1987."

As you can imagine, this transition rule has been a major factor in general aviation aircraft sales over the past few months. Indeed, there was an unseemly rush to sell aircraft just before

the December 31, 1986, deadline. Now we will witness another rush to beat the July 1, 1987, delivery deadline. The effect of this rush is to reduce the tax liability of the purchases of the aircraft and every aircraft which was purchased resulted in a drain in Government revenue.

This is precisely the sort of tax-motivated behavior and tax avoidance that the tax reform bill supposedly was directed at curbing and this rush of sales and raid on the U.S. Treasury would have been prevented had the bill I introduced last October been adopted.

This aircraft transition rule on the ITC repeal is not unusual as compared to other transition rules except in that it applies only to aircraft manufactured in the four explicitly enumerated States I have just mentioned. This is the feature of the rule which is so strange and which creates the need for the legislation I reintroduce today.

The chairman of the Finance Committee said during the Senate debate on the tax reform conference report that "he was under the impression this provision covered all the domestic plane manufacturers in the United States"—September 27, 1986, RECORD at 26616. As I will explain, this impression was based on a misconception about the structure and location of the aircraft manufacturing industry in the United States. As a result of this misconception, the effect of this aircraft transition rule has been devastating to other aircraft manufacturers and their suppliers in the 46 States not covered by the rule.

For example, Arkansas—a State not covered by this transition rule—has two manufacturers of general aviation aircraft, Falcon Jet, a French-owned company, and the Arkansas Modification Center, which manufactures aircraft for British Aerospace. While neither of these companies is U.S. owned, both companies manufacture planes which have over 50 percent valued added in Arkansas or from U.S. suppliers and the point of final assembly for these planes is in the United States. For example, the Falcon Jet uses engines manufactured by Garrett Turbine Engine Co. of Arizona and avionics manufactured by Collins Avionics of Iowa. The British Aerospace also uses Garrett engines. Both companies have major facilities in Arkansas, where much of the work on these planes is done.

Clearly, both of these companies are "domestic" in the key sense—they employ U.S. workers, directly and through U.S. suppliers, and the final assembly of the planes is in the United States.

Both of these companies manufacture aircraft which meet the intent of the rule except for the fact that they are manufactured in the "wrong" State, specifically in Arkansas. According to the rule, a plane is "manufac-

tured" at the "point of its final assembly." In the case of both Falcon Jets and British Aerospace planes, the companies fabricate and install the cockpit and cabin furnishings, prepare and install the avionics equipment and radar, and paint the planes in Arkansas. These efforts include installation of any customer-selected optional equipment. In short, there is substantial manufacturing at the Arkansas facilities, contrary to the claims of some of the sponsors of this transition rule.

Both of these Arkansas companies have suppliers in other States. Ironically, four of the suppliers for Falcon Jet are in Florida, four are in Texas, and two are in Georgia, all States which otherwise benefit from the transition rule. Falcon Jet also has 22 suppliers in California, 5 in New York, 5 in Illinois, 5 in New Jersey, 3 in Ohio, 3 in Pennsylvania, 2 in Massachusetts, 2 in Minnesota, 2 in Michigan, and 1 each in Maryland, New Hampshire, Connecticut, and Mississippi. The suppliers of British Aerospace are similarly dispersed. It has 41 U.S. suppliers for one of its planes and 49 for another.

Let me emphasize, the only respect in which the aircraft manufactured by these two companies have not met the standards set in section 204(a)(11) is that they are not manufactured in one of the four explicitly mentioned States. If this provision had been drafted to apply to all 50 States, both of these companies would have had aircraft which qualified for the transition relief. If it had been drafted to apply to planes which contained 50 percent or more U.S. value added, planes of both companies would have been covered. The peculiar drafting of the transition rule alone bars its application to these two companies in Arkansas.

It should be obvious that Senator PRYOR and I were not involved in the drafting of the transition rule in the tax reform bill. To begin with, I did not support the retroactive repeal of the investment tax credit and have received many complaints from companies in Arkansas about this issue. I would support extending the ITC through 1986 for all taxpayers. If the ITC is repealed for all taxpayers, however, I would find it hard to justify any exception to that repeal. I would find it particularly hard to justify an exception that had the impact of the transition rule with which this legislation deals.

While I have not argued that the U.S. aircraft manufacturing industry needs or deserves any special transition rule, it is quite clear to me that if any sectors of this industry do receive benefits from some special transition rule then all sectors should be treated identically. This transition rule, however, directly and intentionally gives one sector of this industry a direct and

valuable competitive advantage over another sector of this industry. This is anticompetitive. It is unfair. It is an abuse of the transition rule process.

Over the last 3 weeks of the last Congress, I worked to prevent the injustice which this transition rule has caused. On September 22 I wrote to the chairman of the Senate Finance Committee explaining the injustice of section 204(b)(11). Unfortunately, no corrective action was proposed in the technical corrections resolution, House Concurrent Resolution 395, which the House first adopted on September 25.

I then worked closely with the chairman of the Senate Finance Committee to secure an amendment to the House-passed technical corrections resolution to remedy this injustice. Throughout these discussions I made it clear that I would support either a repeal of the transition rule or extension of it to all U.S.-based manufacturers.

I made it clear, however, that I would prefer that the rule be repealed for everyone. Only when it became clear that the original sponsors of the rule would not agree to this did I seek to apply the transition rule generically to all U.S.-based manufacturers in all 50 States. In pressing to include Arkansas and other States to the list of States, I sought to prevent an injustice. If the rule was not to be repealed, the only way then to avoid the injustice was to add other States.

In pressing to include Arkansas I was not attempting to secure special treatment for an Arkansas company or for the business aircraft industry. Rather, I was trying to secure equal treatment for the business aircraft manufacturers in Arkansas. Neither these manufacturers nor I started this dispute. Had certain manufacturers not sought to obtain a competitive advantage over other U.S.-based companies I would not now be introducing this legislation.

The Senate first took up the House-passed concurrent resolution on October 16 and adopted an amendment to the House text. This amendment included an amendment to the aviation transition rule. I supported the amendment and said so in a floor statement during the debate—CONGRESSIONAL RECORD of October 17, 1986 at 33388—statement inadvertently printed the following day. The Senate amendment extended the reach of the provision to all 50 States and prevented it from providing a retroactive windfall to purchasers of aircraft before the transition rule was announced, that is purchases between January and August 16, 1986. The Senate adopted the concurrent resolution with this amendment—October 16, 1986, CONGRESSIONAL RECORD at 32350.

Unfortunately, the House refused to agree to all of the Senate amend-

ments—CONGRESSIONAL RECORD of October 17, 1986, at 32982—and it sent the resolution back to the Senate for reconsideration. My understanding is that the House did not consider each of the Senate amendments to House Concurrent Resolution 395 on the merits but was reacting to the fact that the Senate had offered a number of substantive amendments to the resolution.

The Senate took up the resolution a second time on October 17 and again proposed to modify the aircraft transition rule—CONGRESSIONAL RECORD of October 17, 1986, at 33382. I again spoke in favor of the Senate amendments—CONGRESSIONAL RECORD of October 17, 1986, at 33385. The Senate modification to the aircraft transition rule again made the rule generic to all 50 States and avoided a windfall for aircraft purchased before the conference committee adopted the rule.

When the House took up the entire concurrent resolution for a third time on October 18, it was unable to consider the Senate amendments on the merits due to objections which were filed by certain Members of the House. The House simply adopted the resolution in the same form as it had the previous day, sending the resolution back to the Senate in a form which the Senate already had twice rejected. By this time the Senate had adjourned sine die and the resolution died.

This means that the Senate action to remedy the error in the tax reform bill was not finally adopted, leaving the original error in the tax bill intact. What I am saying is that we tried to fix the problem created by the aircraft transition rule without having to resort to introducing this legislation but the House would not let us. I had no alternative but to introduce the bill to repeal the transition rule, which I did as soon as it was clear that the House would effectively kill the technical corrections resolution.

With this legislation, I am pressing now to repeal the "transition" rule altogether, the solution I have always thought was the best one available. Since the technical corrections resolution died at the end of the last Congress, the original agreement to extend the "transition" rule to the other 46 States no longer has any meaning and no longer is appropriate. Now it is simply an up-or-down matter on whether this rule should survive for the benefit of any purchasers of aircraft.

Let me explain why repealing the rule is the only option now available. As drafted the "transition" rule affects sales made before December 31, 1986. It has no effect on sales made this month or next month in 1987. Adopting a technical corrections bill extending the effect of this rule to sales made last year can have no effect

on sales made then or on sales made now.

Given the fact that the "transition" rule only applied to aircraft manufactured in four States, it is implausible to think that the rule had any effect in 1986—other than a negative effect—on sales of aircraft manufactured in any other State. So, it no longer makes any sense retroactively to extend the "transition" rule to aircraft manufactured in the other States. All this does is provide a tax windfall to those persons who—despite the "transition" rule—went ahead in 1986 and bought aircraft from manufacturers located in the other 46 States.

There is only one other alternative for correcting this "transition" rule. It would be effective to provide aircraft manufacturers in the other 46 States with a tax benefit from August 16 to December 31 of this year. The aircraft manufacturers in these other 46 States could advertise the availability of the ITC for aircraft purchased between these two dates and this probably would induce some persons to buy aircraft manufactured this year in these States. This would be fair—the companies in the four favored States have had their day in the marketplace in 1986 and now it is time to give their competitors the same opportunity in 1987.

I have not proposed to provide this prospective, 1987 ITC window to aircraft manufactured in the other 46 States. It would be fair to do so and it would offset the competitive advantage that already has been given to the manufacturers in the four favored States. But, the cleanest and fairest approach is simply to repeal the rule altogether. That is the best approach. It saves revenue. It avoids an unfairness. If the Finance and Ways and Means Committees would rather provide a prospective remedy, however, I will be happy to consider it.

Adoption of this legislation will affect those persons who—despite my timely warnings in 1986—have bought aircraft manufactured in the four States mentioned in the transition rule. They undoubtedly will come here crying foul and demanding that they receive a tax benefit even though they have had no assurance of receiving it.

But it is not just purchasers of aircraft which have an interest in this transition rule. Some of the aircraft manufacturers are interested in this issue as well despite the fact that they have made all the tax-motivated sales they can make under this provision. It has come to my attention that one aircraft manufacturer has been agreeing to indemnify its customers for some of the value of the ITC should my legislation be adopted. In short, this company has been placing a bet on whether I will be successful in repealing the transition rule.

More interestingly, this company apparently was offering to indemnify its customers before last August 16, when the aircraft "transition" rule became a part of the tax reform bill. This indemnification offer is particularly interesting because as early as March 18 of last year it was on notice that the ITC probably would be repealed effective between January 1 and March 1, 1986. On May 6 of last year it was quite clear that the ITC would be repealed on January 1, 1986. Despite these facts the company continued to offer to indemnify its customers.

I do not know whether this company had any indication that an aircraft transition rule might later be included in the tax reform bill or whether it was simply placing a bet that something would happen on the ITC or that the tax reform bill would die altogether. I do not know if and when the company requested that any transition rule be included in the bill. I do not know when it finally learned that, in fact, an aircraft transition rule had been included in the conference report.

But, introduction of my legislation last October has put this company on notice that it too should not rely on this transition rule, that it should not offer to indemnify its customers if they did not receive an investment credit for their aircraft purchase. If it decided to continue to offer to indemnify its customers, it has done so at its peril. It has been warned and it cannot now claim that it is being treated unfairly for having continued to speculate on the fate of the ITC with respect to aircraft purchased in 1986.

The impact of the original provision in the tax reform bill on foreign-owned aircraft companies with substantial operations in the United States already has led to a major international dispute. This dispute probably will become quite nasty and it will have a damaging impact on international trade in civil aircraft. The issue does not now die simply because the rule is having no ongoing effect; the damage that has been done during the last 4 months of last year remains and festers.

The United States now is in the position where it may have to compensate foreign-owned aircraft manufacturers for the damage which has been done. The same type of transition rule may well be enacted by foreign governments and we will be in no position to complain. If this transition rule is allowed to remain on the books, it will continue to poison trade relations in civilian aircraft for years to come and the issues it raises will continue to be cited by our trading partners to justify their own protectionist behavior.

It is ironic that the United States has argued strenuously that the European airbus consortium should not do

precisely what this original provision would have done, discriminate against foreign companies and suppliers. Were this amendment to remain in effect, the Airbus governments might be justified in providing launch aid for the A330/340 this March.

After the GATT conference in Uruguay last September, it is quite unwise for the United States to enact a provision designed specifically to benefit U.S. manufacturers and to give them a competitive advantage over their foreign competitors. We should not believe for 1 minute that the governments of France and Britain would stand by and permit the United States to provide special tax incentives only to United States companies and which benefits are specifically denied to French and British owned companies even though these companies have substantial manufacturing facilities in the United States?

In fact, the United States and France have signed an agreement on trade in civil aircraft, dated April 12, 1979, which includes an agreement "to avoid attaching inducements of any kind to the sale or purchase of civil aircraft from any particular source which would create discrimination against suppliers from any signatory." Article 4.4. The transition rule in the tax reform bill would seem clearly to violate this agreement.

In 1985 the U.S. general aviation industry exported some 28 business jets and 54 small turbine-powered commuter airlines. Many of these come from the States covered in this "transition" rule. Sales of at least 20 aircraft by manufacturers in these States are currently pending with European customers. It will be interesting to see how this "transition" rule will affect sales of these and other aircraft. This rule may well boomerang on U.S. companies, particularly those in the four favored States.

I must say that even had the transition rule been amended to include all 50 States, it would have provided special tax benefits to U.S. taxpayers who purchase aircraft manufactured in the United States and would not provide these benefits to any U.S. taxpayer if the plane is not manufactured in the United States. This has the effect of an explicit "buy American" requirement. Even were the provision to include planes manufactured by foreign-owned companies in the United States, it would still not include planes which were manufactured abroad, either by U.S.-owned or foreign-owned companies.

As I have said, by introducing this legislation last October and announcing my intention to reintroduce it at the beginning of this Congress, I have provided full notice to all those who have been in the market for buying aircraft that they should not rely on this rule. In calculating the cost to

them of any such purchase, they have been on notice not to take this transition rule into account. In fact, in introducing this bill last October, I was well aware that the introduction of the bill—with its retroactive effective date—would create some uncertainty in the civil aviation market and that is precisely what I intended to do. There was very wide publicity about my bill and there can be no purchaser of any aircraft since October 18 of last year who can now claim that they are surprised by what I am doing now.

I regret that we were unable to remedy this problem with the technical corrections resolution last October. I regret the impact which repeal of the transition rule will have on persons who made purchases of aircraft over the last 5 months.

But the transition rule is unjust. It has hurt companies in Arkansas and many other States. It has hurt them unfairly. It has hurt competition. The only alternative now is to repeal this mischievous rule.

I do not know whether I will be able to secure final enactment of this bill into law, but I am optimistic that the injustice of this transition rule will lead to remedial action by the Congress. There is no issue here of retroactive legislation unfairly depriving a taxpayer of rights he or she relied upon. The only issue is whether it is fair to provide transition relief for certain companies for the purpose of giving them a competitive advantage over their U.S.-based competitors.

I ask unanimous consent that the text of this bill be printed at this point in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 67

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. REPEAL OF CERTAIN TRANSITION RULE.

(a) IN GENERAL.—Section 204(a) of the Tax Reform Act of 1986 is amended by repealing paragraph (1).

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to property placed in service after December 31, 1985, in taxable years ending after such date.

By Mr. TRIBLE:

S. 68. A bill to require the District of Columbia to reimburse Fairfax County and Prince William County, VA, for costs incurred in relation to the Lorton prison; to the Committee on Governmental Affairs.

#### REIMBURSEMENT OF EXPENSES RELATED TO LORTON PRISON

Mr. TRIBLE. Mr. President, I am introducing legislation today to ensure that the citizens of northern Virginia no longer bear the financial burden of playing host to the Lorton prison.

For many years, Washington, D.C.'s prison has been located in Fairfax

County, VA. During those years, the Lorton correctional facility has been plagued by escapes, riots, and similar disturbances, and the financial burden of resolving those problems has often fallen on the residents of Fairfax County and Prince William County.

It is they who pay the cost of mobilizing the county police force to search for an escaped convict. It is they who pay county police to guard the prison's perimeter during a riot to help prevent escapes. And it is they who must finance other emergency efforts by county personnel made necessary by Lorton's presence in Fairfax County.

My proposal will redress this unfair situation by requiring that the District government reimburse Fairfax and Prince William Counties for expenses incurred by the counties in providing police, fire, and related services to the prison. Simply put, this bill will help place the financial burden of handling emergencies at Lorton back where it belongs—on the city that runs the correctional facility.

Last year, I offered an amendment similar to this to the D.C. appropriations bill. That amendment was approved by the Congress, and I am pleased that \$100,000 of the District's fiscal year 1986 budget has been earmarked for reimbursements to Fairfax and Prince William Counties.

However, I believe that the reimbursement requirement must be made permanent. To that end, this bill will help ensure that the costs of maintaining the Lorton prison and responding to emergencies there will be borne by the District government and not by my constituents in northern Virginia.

Mr. President, I ask unanimous consent that a copy of this legislation be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 68

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That (a) the District of Columbia shall reimburse Fairfax County and Prince William County, Virginia, for expenses incurred by those counties providing police, fire, rescue, and related safety and medical services to the Lorton prison in response to escapes, riots, and similar disturbances.

(b) Within 90 days of the date of enactment of this Act and every three months thereafter, the Mayor of the District of Columbia shall make a report to the Chairman of the Senate Appropriations Subcommittee on the District of Columbia and the Chairman of the House Committee on the District of Columbia regarding the amount and purpose of reimbursements made to Fairfax and Prince William Counties as required by this Act.

By Mr. TRIBLE:

S. 69. A bill to amend the Internal Revenue Code of 1986 to repeal the

basis recovery rule for pension plans; to the Committee on Finance.

#### REPEAL OF BASIS RECOVERY RULE

Mr. TRIBLE. Mr. President, today I am offering legislation to repeal a gross inequity in the Tax Reform Act of 1986 and to restore fair treatment for individuals who contribute to their retirement plans. This measure is desperately needed to protect the financial security for nearly 20 million workers across the Nation and I urge my colleagues to support this effort.

I remain adamantly opposed to any changes in the method of taxing contributory retirement benefits. Contributory pensions have traditionally been taxed according to the 3-year basis recovery rule. Under this rule, when the employee retires and begins to receive an annuity, these payments are not taxed until that individual has received—in the form of annuities—an amount equal to his own contributions to the retirement fund.

The basis recovery rule has worked well for many years and it should not be changed. Unfortunately, the adage, "if it ain't broke, don't fix it" was ignored last year. In the rush to enact tax reform legislation, Congress overlooked the legitimate concerns of over 19 million working Americans. Basic concerns of fairness and retirement security for individuals were shunted aside. The final version of the Tax Act imposed a retroactive repeal of the basis recovery rule.

The provisions of the Tax Reform Act affecting the basis recovery rule are patently unfair. It is simply unjust to change tax rules in effect for over 30 years, when working people have made retirement decisions based on this important provision.

Not only are the tax changes unfair, they have been imposed retroactively. Drastic changes in tax law, costing individuals thousands of dollars and upsetting retirement plans, were imposed retroactive to July 1, 1986.

This change is unprecedented, and this treatment is unconscionable.

The tax measure included thousands of changes in tax law. Yet, of all the changes adopted, only one provision affecting individuals only applied retroactively. The sole retroactive provision is the repeal of the basis recovery rule, affecting primarily public employees at all levels of government.

Why do we require these individuals who have relied on the 30-year-old formula to endure a loss of financial security not required of any other individuals? Why was this group singled out?

During debate on the tax bill conference report, one colleague after another expressed disappointment and opposition to the change in the basis recovery rule. In fact, nearly everyone who spoke on the bill singled out this provision as an unfair one.

Today, we have the opportunity to reconsider repealing the basis recovery

rule. My legislation eliminates the changes imposed by the Tax Reform Act. It would allow employees to retire and have their annuities taxed under the rules which worked well for many, many years.

I cannot overestimate the deleterious effect of the basis recovery rule change. I urge my colleagues to join with me now in eliminating this patently inequitable provision.

By My. TRIBLE (for himself and Mr. D'AMATO):

S. 70. A bill to provide for the imposition of the death penalty for certain continuing criminal enterprise drug offenses; to the Committee on the Judiciary.

#### MAJOR DRUG DEALER DEATH PENALTY ACT

Mr. TRIBLE. Mr. President, I am introducing legislation today that will add another weapon to the Federal Government's war on drugs by allowing for capital punishment of those convicted of major trafficking offenses.

As a former Federal and State prosecutor, I believe strongly in the value of the death penalty as a deterrent, and as a means of punishment. I also believe it is time to make the death penalty available for a growing and heinous crime—large-scale distribution of illicit drugs that results in the death of one or more individuals.

Early last year, the President's Commission on Organized Crime reported on just how serious a crime drug trafficking has become. According to the commission:

Drug trafficking is the most serious organized crime problem in the world today. The drug trade generates billions of dollars for organized crime each year, imposing incalculable costs on individuals, families, communities, and governments worldwide.

Mr. President, the surge in illicit drug production and trafficking in recent years has upped the ante in the Nation's battle against the drug trade. Those who traffic in illicit drugs prey on our youth and impose unacceptable costs on society. It is time that the Federal Government imposed a comparable penalty on drug runners and their trade.

To that end, the legislation I am introducing would impose the death penalty on those convicted under 21 U.S.C. 848 of continuing criminal enterprises that result in drug-related deaths. This legislation has been drawn to comport with the Supreme Court's numerous holdings on the constitutionality of the death penalty. In so doing, the bill will make the death penalty available only in the following limited circumstances:

First, when the underlying offense, be it sales, importation, or another drug-related crime, is punishable as a felony;

Second, where the offense is one of a continuing series of such crimes, as

part of which the offender holds a supervisory or authority position over five or more participants in the drug ring, and from which the offender derives substantial income;

Third, where the drug-related criminal enterprise results in the death of an individual.

Thus, this legislation is focused only on the Nation's major traffickers—those involved in large-scale distribution schemes, whose patterns of trafficking cause the death of one or more individuals. It is these big-time dealers who contribute most to the widespread availability of illicit drugs. And it is they who are most deserving of the toughest punishment that the Government can mete out.

I urge my colleagues to join me in cosponsoring this legislation. It is identical to legislation that passed the House during the 99th Congress. Regrettably, it was dropped from the Anti-Drug Abuse Act of 1986 before that measure passed the Senate, despite a procedural vote in its favor. It should have passed last year, and I believe the 100th Congress should pass it quickly this year. In so doing, we can provide a valuable tool for the Nation's prosecutors, who are on the front lines in the drug war. And, we can send a powerful signal to the Nation's drug runners that we will not tolerate the damage that drugs inflict upon our children, our families, our schools, and our communities.

I ask unanimous consent that a copy of this legislation be inserted in the Record at this time.

There being no objection, the bill was ordered to be printed in the Record, as follows:

#### S. 70

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. ELEMENTS OF OFFENSE.

Section 408(a) of the Controlled Substances Act (21 U.S.C. 848(a)) is amended—

(1) by striking "(a) Any" and inserting "(a)(1) Except as otherwise provided in this section, any";

(2) by striking "; except that if" and inserting ". If"; and

(3) by adding at the end the following: "(2) If an individual intentionally engages in conduct during the course of a continuing criminal enterprise and as a result of that conduct any individual (other than a participant in such criminal enterprise) dies, the individual so engaging shall be subject to the death penalty in accordance with this section."

#### SEC. 2. PROCEDURE APPLICABLE WITH RESPECT TO THE DEATH PENALTY.

Section 408 of the Controlled Substances Act is amended by adding at the end the following:

"HEARING REQUIRED WITH RESPECT TO THE DEATH PENALTY

"(f) A person shall be subjected to the penalty of death for any offense under this section only if a hearing is held in accordance with this section.

**"NOTICE BY THE GOVERNMENT IN DEATH  
PENALTY CASES**

"(g)(1) Whenever the government intends to seek the death penalty for an offense under this section for which one of the sentences provided is death, the attorney for the Government, a reasonable time before trial or acceptance by the court of a plea of guilty, shall sign and file with the court, and serve upon the defendant, a notice—

"(A) that the Government in the event of conviction will seek the sentence of death; and

"(B) setting forth the aggravating factor or factors which the Government will seek to prove as the basis for the death penalty.

"(2) The court may permit the attorney for the Government to amend this notice for good cause shown.

**"HEARING BEFORE COURT OR JURY**

"(h)(1) When the attorney for the Government has filed a notice as required under subsection (f) and the defendant is found guilty of or pleads guilty to an offense under subsection (a)(2), the judge who presided at the trial or before whom the guilty plea was entered, or any other judge if the judge who presided at the trial or before whom the guilty plea was entered is unavailable, shall conduct a separate sentencing hearing to determine the punishment to be imposed. The hearing shall be conducted—

"(A) before the jury which determined the defendant's guilt;

"(B) before a jury impaneled for the purpose of the hearing if—

"(i) the defendant was convicted upon a plea of guilty;

"(ii) the defendant was convicted after a trial before the court sitting without a jury;

"(iii) the jury which determined the defendant's guilt has been discharged for good cause; or

"(iv) after initial imposition of a sentence under this section, redetermination of the sentence under this section is necessary; or

"(C) before the court alone, upon the motion of the defendant and with the approval of the Government.

"(2) A jury impaneled pursuant to paragraph (1)(B) shall consist of 12 members, unless, at any time before the conclusion of the hearing, the parties stipulate with the approval of the court that it shall consist of any number less than 12.

**"PROOF OF AGGRAVATING AND MITIGATING  
FACTORS**

"(i) Notwithstanding rule 32(c) of the Federal Rules of Criminal Procedure, when a defendant is found guilty of or pleads guilty to an offense under subsection (a)(2), no presentence report shall be prepared. In the sentencing hearing, information may be presented as to any matter relevant to the sentence and shall include matters relating to any of the aggravating or mitigating factors set forth in subsections (1) and (m), or any other mitigating factor. Where information is presented relating to any of the aggravating factors set forth in subsection (m), information may be presented relating to any other aggravating factor. Information presented may include the trial transcript and exhibits if the hearing is held before a jury or judge not present during a trial. Any other information relevant to such mitigating or aggravating factors may be presented by either the Government or the defendant, regardless of its admissibility under the rules governing admission of evidence at criminal trials, except that information may be excluded if its probative value is substantially outweighed by the danger of unfair

prejudice, confusion of the issues, or misleading the jury. The Government and the defendant shall be permitted to rebut any information received at the hearing and shall be given fair opportunity to present argument as to the adequacy of the information to establish the existence of any of the aggravating or mitigating factors, and as to appropriateness in that case of imposing a sentence of death. The Government shall open the argument. The defendant shall be permitted to reply. The Government shall then be permitted to reply in rebuttal. The burden of establishing the existence of any aggravating factor is on the Government, and is not satisfied unless established beyond a reasonable doubt. The burden of establishing the existence of any mitigating factor is on the defendant, and is not satisfied unless established by a preponderance of the information.

**"RETURN OF FINDINGS**

"(j) The jury, or if there is no jury, the court, shall consider all the information received during the hearing. It shall return special findings identifying any mitigating factors, and any aggravating factors set forth in subsection (1) or (m), found to exist. If one of the aggravating factors set forth in subsection (m)(1) and another of the aggravating factors set forth in paragraphs (2) through (7) of subsection (m) is found to exist, a special finding identifying any other aggravating factor may be returned. A finding of such a factor by a jury shall be made by unanimous vote. If an aggravating factor set forth in subsection (m)(1) is not found to exist or an aggravating factor set forth in subsection (m)(1) is found to exist but no other aggravating factor set forth in subsection (m) is found to exist, the court shall impose a sentence, other than death, authorized by law. If an aggravating factor set forth in subparagraph (m)(1) and one or more of the other aggravating factors set forth in subsection (m) are found to exist, the jury, or if there is no jury, the court, shall then consider whether the aggravating factor or factors found to exist sufficiently outweigh any mitigating factor or factors found to exist, or in the absence of mitigating factors, whether the aggravating factors are themselves sufficient to justify a sentence of death. Based upon this consideration, the jury by unanimous vote, or if there is no jury, the court, shall return a finding as to whether a sentence of death is justified.

**"IMPOSITION OF SENTENCE**

"(k) Upon a finding that a sentence of death is justified, the court shall sentence the defendant to death. Otherwise the court shall impose a sentence, other than death, authorized by law.

**"MITIGATING FACTORS**

"(1) In determining whether a sentence of death is to be imposed on a defendant, the following mitigating factors shall be considered but are not exclusive:

"(1) The defendant was less than eighteen years of age at the time of the crime.

"(2) The defendant's capacity to appreciate the wrongfulness of his conduct or to conform his conduct to the requirements of law was significantly impaired, but not so impaired as to constitute a defense to the charge.

"(3) The defendant was under unusual and substantial duress, although not such duress as constitutes a defense to the charge.

"(4) The defendant is punishable as a principal (as defined in section 2(a) of title

18 of the United States Code) in the offense, which was committed by another, but his participation was relatively minor, although not so minor as to constitute a defense to the charge.

"(5) The defendant could not reasonably have foreseen that his conduct in the course of the commission of murder, or other offense resulting in death for which he was convicted, would cause, or would create a grave risk of causing, death to any person.

**"AGGRAVATING FACTORS FOR HOMICIDE**

"(m) If the defendant is found guilty of or pleads guilty to an offense under subsection (a)(2), the following aggravating factors shall be considered but are not exclusive:

"(1) The defendant—

"(A) intentionally killed the victim;

"(B) intentionally inflicted serious bodily injury which resulted in the death of the victim;

"(C) intentionally engaged in conduct intending that the victim be killed or that lethal force be employed against the victim, which resulted in the death of the victim; or

"(D) intentionally engaged in conduct which—

"(i) the defendant knew would create a grave risk of death to a person, other than one of the participants in the offense; and

"(ii) resulted in the death of the victim.

"(2) The defendant has been convicted of another Federal offense, or a State offense resulting in the death of a person, for which a sentence of life imprisonment or a sentence of death was authorized by statute.

"(3) The defendant has previously been convicted of two or more State or Federal offenses punishable by a term of imprisonment of more than one year, committed on different occasions, involving the infliction of, or attempted infliction of, serious bodily injury upon another person.

"(4) The defendant has previously been convicted of two or more State or Federal offenses punishable by a term of imprisonment of more than one year, committed on different occasions, involving the distribution of a controlled substance.

"(5) In the commission of the offense or in escaping apprehension for a violation of subsection (a)(1), the defendant knowingly created a grave risk of death to one or more persons in addition to the victims of the offense.

"(6) The violation of this chapter in relation to which the conduct described in subsection (a)(2) occurred was a violation of section 405.

"(7) The defendant committed the offense in an especially heinous, cruel, or depraved manner.

**"INSTRUCTION TO JURY ON RIGHT OF THE  
DEFENDANT TO JUSTICE WITHOUT DISCRIMINATION**

"(n) In any hearing held before a jury under this section, the court shall instruct the jury that in its consideration of whether the sentence of death is justified it shall not consider the race, color, national origin, creed, or sex of the defendant. The jury shall return to the court a certificate signed by each juror that consideration of race, color, national origin, creed, or sex of the defendant was not involved in reaching his or her individual decision.

**"SENTENCING IN CAPITAL CASES IN WHICH  
DEATH PENALTY IS NOT SOUGHT OR IMPOSED**

"(o) If a person is convicted for an offense under subsection (a)(2) and the court does not impose the penalty of death, the court

may impose a sentence of life imprisonment without the possibility of parole.

#### "APPEAL IN CAPITAL CASES"

"(p)(1) In any case in which the sentence of death is imposed under this section, the sentence of death shall be subject to review by the court of appeals upon appeal by the defendant. Notice of appeal must be filed within the time prescribed for appeal of judgment in section 2107 of title 28 of the United States Code. An appeal under this section may be consolidated with an appeal of the judgment of conviction. Such review shall have priority over all other cases.

"(2) On review of the sentence, the court of appeals shall consider the record, the evidence submitted during the trial, the information submitted during the sentencing hearing, the procedures employed in the sentencing hearing, and the special findings returned under this section.

"(3) The court shall affirm the sentence if it determines that—

"(A) the sentence of death was not imposed under the influence of passion, prejudice, or any other arbitrary factor; and

"(B) the information supports the special finding of the existence of any aggravating factor, or the failure to finding any mitigating factors as set forth or allowed in this section.

In all other cases the court shall remand the case for reconsideration under this section. The court of appeals shall state in writing the reasons for its disposition of the review of the sentence."

By Mr. METZENBAUM (for himself, Mr. GLENN, Mr. RIEGLE, Mr. LEVIN, Mr. DIXON, and Mr. SIMON):

S. 77. A bill to amend the act of August 18, 1941, with respect to the preparation of cost and benefit feasibility assessments regarding certain emergency flood control projects; to the Committee on Environment and Public Works.

#### GREAT LAKES FLOODING

● Mr. METZENBAUM. Mr. President, I am today, along with Senators GLENN, RIEGLE, LEVIN, DIXON, and SIMON introducing legislation that addresses the serious problem of flooding along the Great Lakes.

Current water levels on Lakes Huron, Michigan, and Erie are higher than at any point in recorded history. The U.S. Army Corps of Engineers' most recent forecast indicates that the lake levels will continue to increase this spring. As the winter and spring storm seasons approach, there is general agreement among the corps and the International Joint Commission that the potential for an emergency and extensive flood damage is high.

Fortunately, we have in place a program that is designed to deal with such emergencies.

The so-called, Public Law 99, Advanced Measures Program, authorized by Congress in 1955, gave the Army Corps of Engineers continuing authority to take action to protect public health and safety against flood emergencies. The law created an emergency fund to be expended in flood emergen-

cy preparation \* \* \* or restoration of any flood control work threatened or destroyed by flood.

According to Corps of Engineers regulatory guidelines, State Governors may request assistance when, " \* \* \* confronted with an immediate threat of unusual flooding."

In short, the law is quite straightforward. The Federal Government is to help communities protect against imminent flooding.

In practice, however, the Corps of Engineers has been less than straightforward in administering the program. For Ohio and other Great Lakes States, obtaining advanced measures assistance has been nearly impossible.

Two years ago, the Governor of Ohio requested Federal assistance to help protect 50 sites from Lake Erie flood damage. Since that time, only two small dike projects have been completed.

Forty-one sites were cursorily dismissed after a brief field review. Two more were eliminated following a cost benefit analysis.

The total funds expended by the corps to protect the two sites was approximately \$124,000—not exactly a big ticket item in the greater scheme of water related expenditures. Of particular concern is the fact that the Federal Government will spend many times that amount to clean up each of the unprotected sites after the inevitable flood occurs.

Communities in other Great Lakes States, including Michigan, New York, and Wisconsin have been at the receiving end of similar treatment from the Corps of Engineers.

The issue, however, is not simply projects. The issue is one of protection—of people's safety, their livelihoods and their property. Thousands of communities along the lakes are facing imminent flooding.

Most of these are working class communities, established along the lakes over 100 years ago. These people are not looking for a handout. They are simply asking their Government to help them get through this crisis.

A good example is Ottawa County in my own State of Ohio. Several large rivers snake through this low-lying region before emptying into Lake Erie. Today flooding is common throughout the entire county. On any given day flood waters extend 15 to 20 miles inland as the lake backs up into the rivers and drainage canals. Many roads are permanently under water. Formerly productive farmlands are now under water.

Twenty-six of the fifty proposed advanced measures Ohio sites would have been located in Ottawa County. None were approved by the Army Corps of Engineers.

Mr. President, Congress enacted the advanced measures program to help

local communities prevent flood damage.

Unfortunately, the Corps of Engineers, through its administrative practices and policies, has defeated the purpose of the program.

The bill that I am introducing would get to the heart of the problem—which is the Corps of Engineers' cost benefit policy. Most of the advanced measures projects proposed by the Great Lakes States were rejected because they did not pass the corps'—not Congress'—rigid definition of cost effectiveness.

The corps' definition, in short, asks whether the cost of a proposed project is exceeded by the benefits to be gained by protecting residences only. Any benefits that would be gained by protecting farmers' crops, commercial establishments, inventories, or road access are simply ignored.

In my view, these are legitimate benefits that should be factored into the cost benefit equation.

What good does it do to save all the residences in Ottawa County if every business is wiped out? What do we accomplish by saving the farmer's house when his fields revert to wetlands and he goes out of business?

This bill will make sure the advanced measures program works the way Congress intended. The benefits to be considered in studying a proposed project will be defined to include the protection of residential, commercial and agricultural establishments.

In addition, the cost side of the equation would be limited to the Federal cost. I see no reason why cost analyses performed to determine the feasibility of a Federal undertaking should be based on an amount larger than that which the Federal Government plans to spend.

Mr. President, this is a responsible bill. It does not interfere with existing cost-sharing arrangements for the advanced measures program, under which State and local sponsors pay 30 percent of total project costs.

I believe it will save the Government money in the long run. I hope that my colleagues will see fit to support it.

I ask unanimous consent that a copy of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 77

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 5 of the Act of August 18, 1941 (33 U.S.C. 701n) is amended—*

(1) by redesignating subsection (a) as subsection (a)(1); and

(2) by adding at the end of the subsection (a)(1), as redesignated by this Act, the following new paragraph:

"(2)(A) In preparing a cost and benefit feasibility assessment for any emergency

project described in paragraph (1), the Chief of Engineers shall consider the benefits to be gained by such project for the protection of—

- "(1) residential establishments;
- "(2) commercial establishments, including the protection of inventory; and
- "(3) agricultural establishments, including the protection of crops.

"(B) For purposes of computing the costs of a project for any feasibility assessment described in subparagraph (A), such costs shall not be computed to be any amount in excess of the Federal costs related to such project."●

By Mr. METZENBAUM (for himself and Mr. GLENN):

S. 78. A bill to amend the Securities Exchange Act of 1934; to the Committee on Banking, Housing, and Urban Affairs.

#### GREENMAIL AND NOTICE OF STOCK PURCHASES

● Mr. METZENBAUM. Mr. President, there are serious problems with the way companies are bought and sold in this country. Each of the past 6 years has witnessed a new record in the number of large mergers occurring in the United States. Recently, we have seen many of our major corporations financially weakened and saddled with debt as a result of hostile takeovers. We have seen wealthy entrepreneurs make vast fortunes in a few weeks by purchasing a foothold in a corporation, then selling back the stock in a short time at inflated prices not available to the average stockholder.

We can no longer take seriously the argument that all corporate takeovers are somehow the natural result of an efficient- and productive-free market. All unfriendly takeovers are not bad, but many are. They frequently exploit permissive laws and regulations which allow abusive takeover tactics. Raiders are free to proceed in a perfectly legal way, but in a way which unfairly exploits shareholders, damages corporations, and threatens the economic stability of the community.

During the last Congress, I introduced legislation dealing with a number of issues relating to the takeover process. I plan to do so in this Congress as well. Ultimately, Congress must pass balanced and comprehensive legislation, which protects the legitimate interests of the shareholders, the corporation, and the community as a whole. I hope to work with the business community in bringing about passage of such legislation.

Today I am introducing legislation dealing with two of the critical issues regarding the acquisition process about which there is a growing consensus. The bill I am introducing would, first, prohibit the payment of "greenmail" by corporations subject to a hostile takeover attempt. Second, it would close the "10-day window," which allows persons who have purchased 5 percent of a company's outstanding stock to delay giving notice to the other shareholders for 10 days.

The term "greenmail" refers to the purchase by a corporation of its own stock in order to rid itself of a takeover attempt by a hostile raider. In recent years, we have seen cases of raiders who walked away with instant fortunes when a corporation was forced to buy its own stock at a substantial premium.

One of the most notable cases in recent months was the attempted takeover of Goodyear by Sir James Goldsmith. Mr. Goldsmith purchased 11.5 percent of Goodyear stock over a period of weeks on the open market. In order to avoid the takeover, Goodyear bought back all his shares at \$49.50 per share. As a result, Mr. Goldsmith walked away with over \$90 million as well as payment of approximately \$30 million in expenses. Goodyear also offered to purchase 40 million shares from all its stockholders at a price of \$50. However, this offer, unlike the one to Mr. Goldsmith, was prorated for each shareholder based on the number of shares tendered.

In order to finance these stock purchases, Goodyear made the decision to sell three of its divisions and to institute cost-saving measures that resulted in closing some facilities. I fully understand how Goodyear's management came to the decision to restructure the company. However, no objective observer could say the company, its stockholders, or employees came out ahead. After the buyout of Mr. Goldsmith, Goodyear stock was trading at approximately \$42. The only real winner in this case was Mr. Goldsmith himself.

Shortly after the Goodyear buyout of Mr. Goldsmith, Gillette paid a premium to Revlon to purchase more than 9 million of its own shares. The raider walked away with a huge profit, estimated to be about \$40 million, while the ordinary shareholders' own stock plummeted in price.

Other examples of corporations purchasing their own stock at a premium are shown in the table below. The table shows that in these cases, the raider was paid a substantial premium over the prevailing stock price before and after the buyout.

Company suitor	Stock price per share		
	Week before buyout	Buyout price	Week after buyout
Walt Disney, Saul Steinberg	63.75	70.83	49.50
Houston Nat. Gas Coastal Corp.	55.25	60.00	43.25
St. Regis, Sir James Goldsmith	39.88	52.00	39.75
Blue Bell, Bass Brothers	36.75	48.40	36.38
Quaker State, Saul Steinberg	18.25	24.00	17.00
Texaco, Bass Brothers	45.00	50.00	39.00
Warner Comm., Rupert Murdoch	24.50	31.00	22.13

Source: Newsweek, June 25, 1984, page 56.

There are three problems with the opportunity for a raider to obtain greenmail. First, other shareholders are treated unfairly since the raider is given preferential treatment. As the

table above shows, the ordinary shareholder is frequently left with stock worth even less than the trading price before the takeover was initiated. Second, companies can be left financially weaker, and saddled with additional debt, after raising the cash to pay the premium to the raider. Finally, the opportunity to walk away with such a fortune attracts raiders in the first place, raiders who are not really interested in obtaining long-term control, improving management, or making the company more efficient.

The bill I am introducing today prohibits a corporation from purchasing its own stock at a premium over market if the stock owner holds over 3 percent of a class of securities and has held this stock for less than 2 years, unless the purchase has been approved by the shareholders or the same offer is made to the other shareholders. This provision is identical to that recommended by the Securities and Exchange Commission in 1984. (See S. 2784, introduced in the 98th Congress at the request of the Commission, June 20, 1984.)

The SEC did not resubmit its greenmail proposal during the 99th Congress on the grounds that greenmail transactions were declining. (See testimony of Chairman John Shad before the Senate Subcommittee on Securities, April 4, 1985.) Recent events cast great doubt on this conclusion, and I hope the Commission again will seriously consider making a recommendation in this area.

The Advisory Committee on tender offers, established by the SEC, also proposed a similar provision. (See report of recommendations, July 8, 1983, p. 46.) A greenmail provision was also reported by the Senate Banking Committee as part of S. 2581 in 1984 and subsequently passed the Senate. Thus, there has been substantial support for acting in this critical area.

The bill I am introducing today would also close the 10 day window for providing notice of stock purchases.

Under current law, a person purchasing securities must provide notice of his holdings and his intentions when he has purchased 5 percent of a company's stock. However, a loophole in the law allows a bidder to acquire substantially more stock before disclosure by deferring the disclosure requirement for 10 days.

In the Goodyear acquisition, Mr. Goldsmith actually purchased substantially more than 5 percent of Goodyear stock before public disclosure was made. This delay means that other stockholders who are unaware of the intentions of the raider continue to trade their stock at values far below those which would exist if the intentions had been made public.

The bill I am introducing today would reduce this 10-day period to 2

days, a much more realistic time for filing proper notice.

As in the case of the greenmail provision, the Securities and Exchange Commission proposed a very similar provision in the 98th Congress. (See S. 2784, introduced June 20, 1984.)

Mr. President, these two amendments to current law would provide a start toward constructively reforming the takeover process. We need to address other issues as well, including the structure of partial and two-tier tender offers, the time available to shareholders to respond to a tender offer, the Hart-Scott-Rodino Act premerger filing requirements, and other issues. I look forward to working with my colleagues as well as members of the business community and others to develop constructive proposals in these areas.

I ask unanimous consent that a copy of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 78

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### GREENMAIL

SECTION 1. Section 14 of the Securities Exchange Act of 1934 (15 U.S.C. 78n) is amended by adding at the end thereof the following:

"(h) It shall be unlawful for an issuer to purchase, directly or indirectly, any of its securities at a price above the market from any person who holds more than 3 per centum of the class of the securities to be purchased and has held such securities for less than two years, unless such purchase has been approved by the affirmative vote of a majority of the aggregate voting securities of the issuer, or the issuer makes an offer to acquire, of at least equal value, to all holders of securities of such class and to all holders of any class which such securities may be converted."

#### CLOSE OF "10-DAY WINDOW"

SEC. 2. (a) Section 13(d)(1) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(d)(1)) is amended by striking out "ten" and inserting in lieu thereof "two".

(b) Section 13(d) of such Act is further amended by adding at the end thereof the following:

"(7) A person subject to the requirements of paragraph (1) may not acquire, directly or indirectly, beneficial ownership of any additional shares of the equity security that is the subject of the statement required by paragraph (1) for two business days subsequent to the filing of such statement with the Commission. The Commission may, by rule, regulation, or order, in the public interest or for the protection of investors, exempt any person from the requirements of this paragraph." ●

By Mr. METZENBAUM (for himself and Mr. STAFFORD):

S. 79. A bill to notify workers who are at risk of occupational disease in order to establish a system for identifying and preventing illness and death of such workers, and for other purposes;

to the Committee on Labor and Human Resources.

#### HIGH RISK OCCUPATIONAL DISEASE NOTIFICATION AND PREVENTION ACT

● Mr. METZENBAUM. Mr. President, the working men and women of this country should have a right to know if their jobs create a high risk that they will contract a life-threatening disease. And those who are at risk should have a right to advice on how to obtain appropriate medical monitoring. The High Risk Occupational Disease Notification and Prevention Act of 1987, which Senator STAFFORD and I have today introduced, endows workers with these simple yet life-saving rights.

Our bill will promote the process of early detection of occupational diseases through a system of identifying, notifying, and counseling workers at risk. We believe that enactment of this important measure will save thousands of lives and millions of dollars in private and Federal health care spending.

The asbestos tragedy has awakened the American public to the national problem of occupational disease. But asbestos is just one substance. Hundreds of others expose workers to similar dangers daily.

Each year, 100,000 workers die and 390,000 more are disabled from occupational disease. The Federal Government estimates that 880,000 workers face full- or part-time exposure to cancer-causing substances, and 40 million to 50 million American workers have been exposed to one or more of these hazards. In short, millions of Americans put their lives on the line every time they punch a time clock. These men and women have the right to know what risks they are taking and how to cope with them. To do any less is to participate in a conspiracy of silence which unnecessarily jeopardizes their lives.

While some progress has been made in regulating employee exposure to hazardous substances in the work place, there is much more to be done. American industry is not going to stop producing hazardous chemicals or other substances. Many of these substances are essential elements or by-products of the technology that contributes to our quality of life.

But the quest for improved technology must not blind us to the importance of combating occupational disease. It would be tragic if technological advancement took the lives of those workers who made progress possible. That is why a national detection and prevention effort is so critical.

A Federal notification program would help workers exposed to arsenic. They are at high risk of contracting skin cancer, a disease that can be treated successfully if medical screening occurs early enough.

Notification and medical screening also can help workers to take precautions. Workers exposed to asbestos run a high risk of contracting lung cancer, a risk that becomes even more grave if they smoke cigarettes. By assisting such workers to give up smoking, we can reduce significantly the incidence of this deadly disease.

Our proposed legislation establishes a low-cost system for identifying, notifying, and monitoring at-risk worker populations. Identification and notification, based on existing medical and scientific data, will be carried out by a professional panel operating under the direction of the Secretary of Health and Human Services. Workers who are identified and notified that they are at risk will be advised on how to initiate medical monitoring through their personal physicians or other medical and health professionals. Regional health centers designated by the Secretary will provide training and emergency backup assistance.

The bill includes an authorization of \$25 million for each of the first 2 years following enactment. On this limited budget, the Secretary should be able to identify and notify 300,000 workers per year. The Federal cost of this effort will be fully offset so long as even 1 notified worker out of 30—or 10,000 workers—acts soon enough to benefit from preventive intervention or treatment and as a result saves an average of \$2,500 in health care costs. If, as is far more likely, the health care savings per worker are 5 to 10 times that amount, the bill will save hundreds of millions of dollars in Federal health care expenditures. Even more significant, of course, are the savings in human terms; avoiding the misery of disabling or fatal diseases for thousands of American workers.

Senator STAFFORD and I introduced a similar bill during the last Congress. That bill, and a companion measure introduced in the House of Representatives, had the support of the American Cancer Society, the American Lung Association, the American Public Health Association, the American Psychological Association, the American Association of Occupational Health Nurses, the United Automobile Workers, the United Steel Workers of America, the Oil, Chemical and Atomic Workers, the International Association of Firefighters, the AFL-CIO and the Industrial Union Department of the AFL-CIO. We anticipate that the bill we are introducing today will be supported by an even more impressive array of public health associations and labor organizations.

During the last session of Congress, the Senate Subcommittee on Labor and the House Subcommittee on Health and Safety conducted exhaustive hearings on the high risk notification bill. At those hearings there was

considerable expert testimony in favor of the legislation. At the same time, the business community and the administration raised some legitimate concerns regarding the proposed legislation. In response to those concerns, we have modified the former Senate bill in several important respects:

This measure alters the definition of "risk" to conform to the definition used under the hazard communication standard promulgated by this administration;

It recognizes the need to coordinate employee notification with existing labeling requirements of the hazard communication standard, while emphasizing the additional medical surveillance component not present under current law;

This bill includes a more precise scientific approach to describing how exposed worker populations are identified and defined for purposes of notification;

It specifies a procedure for notification that includes a public hearing and the right to judicial review based on a complete agency record;

Finally, this measure provides for a simpler and more equitable allocation of the costs of medical surveillance between employers and employees in a population at risk.

The need for a notification and prevention program has never been more apparent. A study published last year in the *New England Journal of Medicine* found that three decades of medical research aimed primarily at cancer treatment have failed to stop the rising rate of death from cancer among Americans. One of its central conclusions is that as a Nation we must spend more money on cancer prevention, including showing the American people how changes in environmental factors can substantially reduce cancer risks. Anyone who has a passing familiarity with the enormous financial costs of health care coverage would reach the same conclusion. Indeed, at a recent health insurance conference on wellness in the workplace, an industry representative declared that the new challenge is to develop "proactive products" aimed at preventing health breakdowns rather than simply reacting to the expense of illness after it occurs.

Mr. President, I urge my colleagues to support this important initiative in the area of occupational health. It will save lives and it will save money.

Mr. President, I ask unanimous consent that the text of the bill I have just described, "the High Risk Occupational Disease Notification and Prevention Act of 1987," be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

## S. 79

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress Assembled,*

## SECTION 1. SHORT TITLE.

This Act may be cited as the "High Risk Occupational Disease Notification and Prevention Act of 1987".

## SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds that—

(1) potentially harmful substances, physical agents, and processes are in wide industrial and commercial use in the United States;

(2) a significant number of workers suffer disability or death or both wholly or partially as a result of being exposed to occupational health hazards;

(3) diseases caused by exposure to occupational health hazards constitute a substantial burden on interstate commerce and have an adverse effect on the public welfare;

(4) workers have a basic and fundamental right to know that they have been exposed to an occupational health hazard and are at risk of contracting an occupational disease;

(5) there is a period of time between exposure and the onset of disease when it often is possible to intervene medically in the biological process of disease either to prevent or, by early detection, successfully treat many disease conditions;

(6) social and family services that reinforce health-promoting behavior can reduce the risk of contracting an occupational disease;

(7) by means of established epidemiological, clinical, and laboratory studies, it is possible to define and identify specific worker populations at risk of contracting occupational disease;

(8) there is no established national program for identifying, notifying, counseling, and medically monitoring worker populations at risk of occupational diseases;

(9) there is a lack of adequately trained professionals, as well as appropriately staffed and equipped health facilities to recognize and diagnose occupational diseases;

(10) there is a need for increased research to identify and monitor worker populations at risk of occupational diseases; and

(11) through prevention and early detection of occupational disease the staggering costs of medical treatment and care in the United States can be substantially reduced.

(b) PURPOSE.—It is the purpose of this Act—

(1) to establish a Federal program to notify individual employees within populations at risk of occupationally induced disease that they are at risk because of exposure to an occupational health hazard, and to counsel them appropriately;

(2) to authorize and direct the certification of health facilities that have a primary purpose of educating, training, and advising physicians and other professionals in local communities throughout the United States to recognize, diagnose, and treat occupational disease;

(3) to expand Federal research efforts to improve means of identifying and monitoring worker populations at risk of occupational disease; and

(4) to establish a set of protections prohibiting discrimination against employees on the basis of identification and notification of occupational disease risk.

## SEC. 3. DEFINITIONS.

For the purpose of this Act:

(1) BOARD.—The term "Board" means the Risk Assessment Board established under this Act.

(2) COMMERCE.—The term "commerce" means trade, traffic, commerce, transportation, or communication among the several States, or between a State and any place outside thereof, or within the District of Columbia, or a possession of the United States (other than the Trust Territory of the Pacific Islands), or between points in the same State but through a point outside thereof.

(3) EMPLOYEE.—The term "employee" means—

(A) an employee of an employer who is employed in a business of his or her employer that affects commerce; or

(B) a former employee who—

(i) was formerly employed by an employer in a business of his or her employer that at the time of employment affected commerce; and

(ii) as to whom any Federal agency maintains records pertaining to work history, or the employer maintains personnel records, medical records, or exposure records.

(4) EMPLOYER.—The term "employer" means a person engaged in a business affecting commerce who has employees, including the United States or any State or political subdivision of a State.

(5) HAZARD COMMUNICATION STANDARD.—The term "hazard communication standard" means the standard contained in section 1910.1200 of title 29 of the Code of Federal Regulations in effect on January 1, 1987.

(6) MEDICAL MONITORING.—The term "medical monitoring" means periodic medical examinations of employees who are at risk of occupational disease.

(7) OCCUPATIONAL HEALTH HAZARD.—The term "occupational health hazard" means a chemical, a physical, or a biological agent, or an industrial or commercial process, found in the workplace for which there is statistically significant evidence (based on at least one study conducted in accordance with established scientific principles) that acute or chronic health effects may occur in exposed employees. The term includes chemicals that are carcinogens, toxic or highly toxic agents, reproductive toxins, irritants, corrosives, sensitizers, hepatotoxins, nephrotoxins, neurotoxins, agents that act on the hematopoietic system, and agents that damage the lungs, skin, eyes, or mucous membranes.

(8) PERSON.—The term "person" means one or more individuals, partnerships, associations, corporations, business trusts, legal representatives, or any organized group of persons.

(9) POPULATION AT RISK OF DISEASE.—The term "population at risk of disease" means an employee population exposed to an occupational health hazard at intensities or for durations comparable to at least one study referred to in paragraph (7).

(10) SECRETARY.—The term "Secretary" means the Secretary of Health and Human Services.

## SEC. 4. RISK ASSESSMENT BOARD.

(a) ESTABLISHMENT.—

(1) IN GENERAL.—There is established within the Department of Health and Human Services the Risk Assessment Board.

(2) MEMBERSHIP.—The Board shall consist of 5 members. Board members shall be career or commissioned Public Health Service employees designated by the Secretary, to serve terms of 5 years, except that initially 1 member shall be appointed for 1 year, 1

member for 2 years, 1 member for 3 years, 1 member for 4 years, and 1 member for 5 years. The Board shall include an epidemiologist, a toxicologist, an industrial hygienist, a physician, and an occupational health nurse.

(3) **CHAIRMAN.**—The Secretary shall designate 1 member to serve as Chairman of the Board.

(4) **VACANCIES.**—Any member appointed to fill a vacancy in the Board that occurs prior to the expiration of a term shall be appointed to serve for the remainder of that term.

(5) **REPORTING.**—The Board shall report to the Secretary through the Assistant Secretary for Health.

(6) **STAFF.**—The Secretary shall provide a full-time staff necessary to carry out the functions of the Board.

(b) **FUNCTIONS OF BOARD.**—

(1) **IN GENERAL.**—

(A) **DUTIES.**—The Board shall—

(i) review current medical and other scientific studies and reports concerning the incidence of disease associated with exposure to occupational health hazards;

(ii) identify and designate from this review those populations at risk of disease that should receive notification pursuant to this act, including the size, nature, and composition of the populations to be notified; and

(iii) develop a form and method of notification that will be used by the Secretary, or agents of the Secretary described under section 6, to notify the designated populations at risk of disease.

(B) **INFORMATION REQUESTS.**—The Board, consistent with section 552a of title 5, United States Code (relating to privacy), may request information from any Federal agency or other government or private organization for the purpose of obtaining studies and reports conducted or initiated with respect to actual or potential occupational health hazards. The information shall be furnished consistent with provisions for Federal access set forth under the Occupational Safety and Health Act of 1970 (29 U.S.C. 651 et. seq.) and the Federal Mine Safety and Health Act of 1977 (30 U.S.C. 801 et. seq.), and regulations promulgated pursuant to such Acts.

(2) **IDENTIFICATION OF POPULATIONS AT RISK OF DISEASE.**—In identifying populations at risk of disease, the Board shall consider the following factors based on the best available scientific evidence—

(A) substances, agents, or processes that may be toxic based on epidemiologic and clinical observations of human populations, or animal and laboratory studies;

(B) estimates of increased risk of death or disease in specific sites, systems or organs of the body in exposed human populations; and

(C) estimates of increased risk of death or disease in exposed human populations related to industrial classifications, job categories, and duration and intensities of exposure.

(3) **DESIGNATION OF IDENTIFIED POPULATIONS FOR NOTIFICATION.**—

(A) **DESIGNATION.**—In designating populations at risk of disease for notification, the Board shall undertake as its first priority to designate populations likely to benefit from medical surveillance or health counseling.

(B) **FACTORS.**—In making the designation required by subparagraph (A), the Board shall consider but not be limited to—

(i) exposures for which there exists a permanent standard promulgated under section 6(b)(5) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 655(b)(5));

(ii) the extent of medical monitoring already available to employee populations covered by the permanent standards; and

(iii) the need to notify former employees as well as current employees.

(C) **NOTIFICATION.**—The Board shall notify or coordinate notification of not less than 100,000 employees per year. The Board shall make every reasonable effort to notify or coordinate notification of not less than 300,000 employees per year.

(4) **DETERMINATION.**—If the Board determines that a class or category of employees is a population at risk of disease to be notified pursuant to this Act, the Board shall—

(A) make such a determination pursuant to subsection (c); and

(B) within 10 days of making such a determination, transmit the determination to the Secretary that the individuals within such population be notified under section 5.

(c) **PROCEDURES.**—

(1) **NOTICE OF PROPOSED DETERMINATION.**—For each population designated for notification, the Board shall issue a notice of proposed determination.

(2) **CONTENTS OF NOTICE.**—The notice required by paragraph (1) shall—

(A) be published in the Federal Register;

(B) set forth which classes or categories of employees are being considered for inclusion as an employee population to be notified, and a concise statement of the basis for their inclusion;

(C) provide for the public to submit written views on the proposed determination within 45 days of the notice; and

(D) provide for a hearing within 30 days of the notice at which the public may express views on the proposed determination of the Board.

(3) **FINAL DETERMINATION.**—The Board shall issue a final determination within 45 days after the hearing based on the record developed pursuant to paragraph (2). The final determination shall be deemed to be a final agency action.

(4) **EXTENSION.**—The Board may, in exceptional circumstances, extend the time between the issuance of the notice described in paragraph (2), and the issuance of a final determination under paragraph (3), except that the extension may not exceed 150 days for the total period of time beginning with the issuance of the notice.

(5) **ACTION.**—Any aggrieved person may bring a civil action for mandamus in the appropriate United States district court if the final agency action is not completed within 90 days or 150 days, as the case may be.

**SEC. 5. EMPLOYEE NOTIFICATION AND COUNSELING.**

(a) **NOTIFICATION OF POPULATION AT RISK.**—On a determination by the Board that a given class or category of employee is a population at risk of disease to be notified pursuant to this Act, the Secretary shall make every reasonable effort to ensure that each individual within such population is notified of the risk.

(b) **CONTENTS OF NOTIFICATION.**—The notification shall include:

(1) **HAZARD.**—An identification of the occupational health hazard, including the name, composition, and properties of known chemical agents.

(2) **DISEASES.**—The disease or diseases associated with exposure to the occupational health hazard, and the fact that such association pertains to classes or categories of employees.

(3) **LATENCY PERIODS.**—Any known latency periods from the time of exposure to time of the clinical manifestation of the disease.

(4) **COUNSELING.**—Counseling information appropriate to the nature of the risk, including but not limited to—

(A) the advisability of initiating a personal medical monitoring program;

(B) the most appropriate type of medical monitoring for the disease associated with the risk;

(C) the name and address of the nearest occupational and environmental health center certified under this Act;

(D) the prohibitions against discrimination for notified employees, as established under section 9;

(E) employer responsibilities with respect to health care for notified employees, as established under section 9; and

(F) the telephone number of the hot line established under subsection (c).

(c) **TELEPHONE INFORMATION.**—The Secretary shall establish a toll-free long distance telephone "hot line" for employees notified under this section or their personal physicians, for the purpose of providing additional medical and scientific information concerning the nature of the risk and its associated disease.

(d) **DISSEMINATION OF INFORMATION.**—The Secretary, after consultation with the Board, shall prepare and distribute other medical and health promotion material and information on any risk subject to notification under this section and its associated disease as the Secretary and the Board consider appropriate.

(e) **ACCESS TO INFORMATION.**—In carrying out the notification responsibilities under this section, the Secretary, consistent with section 552a of title 5, United States Code, (relating to privacy) may request information from—

(1) any Federal agency solely for the purpose of obtaining names, addresses and work histories of employees subject to notification under this section; and

(2) any employer insofar as Federal access already is provided for under the Occupational Safety and Health Act of 1970 (29 U.S.C. 651 et seq.) and the Federal Mine Safety and Health Act of 1977 (30 U.S.C. 801 et seq.), and regulations promulgated pursuant to such Acts.

(f) **LIABILITY.**—The Secretary and the agents of the Secretary (including any employer or government acting pursuant to section 6) shall not be liable under Federal or State law for monetary damages with respect to any omission or act performed pursuant to this section unless the omission or act is willful.

(g) **JUDICIAL REVIEW.**—

(1) **PETITION.**—Any person adversely affected or aggrieved by a determination of the Board under this Act that a given class or category of employees is or is not a population at risk of disease is entitled to judicial review of the determination in the appropriate United States court of appeals on a petition filed in such court. Any petition filed pursuant to this section shall be filed within 30 days after such determination by the Board. On the filing of a petition, the Secretary shall certify the hearing record.

(2) **REVIEW.**—The court shall review the determination of the Board based on the hearing record.

(3) **JUDICIAL ACTION.**—The court may set aside the determination of the Board under subsection (a) only if the determination is found to be—

(A) arbitrary, capricious, or an abuse of discretion;

(B) contrary to constitutional right, power, privilege, or immunity;

(C) in excess of statutory jurisdiction, authority, or limitations; or

(D) without observance of procedure required by law.

(4) **STAY.**—The commencement of proceedings under this subsection shall not operate as a stay of the requirement on the Secretary to notify employees unless the court specifically orders a stay based on a determination by the court that the complaining party is highly likely to succeed on the merits.

#### SEC. 6. MEANS OF EMPLOYEE NOTIFICATION.

(a) **RESPONSIBILITY OF SECRETARY.**—Except as otherwise provided in this section, the Secretary shall be responsible for notifying employees at risk of disease, as determined by the Board.

(b) **COOPERATION WITH PRIVATE EMPLOYERS AND STATE AND LOCAL GOVERNMENTS.**—

(1) **IN GENERAL.**—In carrying out notification responsibilities under subsection (a), the Secretary is encouraged to cooperate to the extent practicable with private employers and State and local departments of health.

(2) **CERTIFICATION OF PRIVATE EMPLOYERS OR STATE OR LOCAL GOVERNMENTS.**—

(A) **IN GENERAL.**—The Secretary may certify a private employer or a State or local government to conduct notification. Such certification shall require inclusion of the information described in section 5(b) and shall be in accordance with standards issued by the Secretary.

(B) **ADMINISTRATION.**—No private employer or public agency of a State or local government certified under this paragraph may receive payment for the cost of such notification from the United States or have a right of access to Federal records for the purposes of carrying out the notification.

(C) **FORM OF NOTIFICATION.**—The form of notification adopted by a private employer or public agency of a State or local government shall conform, to the maximum extent practicable, to a model notification form issued by the Board under section 4(b).

(c) **EMPLOYEES NOT CURRENTLY EXPOSED.**—

(1) **IN GENERAL.**—In the case of former employees and employees for whom no exposure to the occupational health hazard occurred in the course of current employment, the notification shall be transmitted to each employee in the designated population at risk of disease who was exposed to the occupational health hazard within 30 years prior to the date of notification.

(2) **INDIVIDUAL NOTIFICATION.**—Notification shall be on an individual basis, except that if individual notification is not reasonably possible, the notifying entity shall make use of public service announcements and other means of notification appropriate to reach the population at risk.

(d) **EMPLOYEES CURRENTLY EXPOSED.**—

(1) **IN GENERAL.**—In the case of employees for whom any exposure to the occupational health hazard occurred in the course of current employment, notification shall be transmitted to individual employees and posted prominently at the worksite in places easily accessible to and frequented by the employees in the population at risk.

(2) **EMPLOYERS SUBJECT TO HAZARD COMMUNICATION STANDARD.**—If the employer is subject to the hazard communication standard with respect to the occupational health hazard in question, notification shall include a concise summary of the information contained in any material safety data sheet prepared on the occupational health hazard pursuant to the hazard communication standard. The concise summary shall be

written in a manner calculated to be understood by the average employee.

#### SEC. 7. OCCUPATIONAL AND ENVIRONMENTAL HEALTH CENTERS.

(a) **SELECTION FROM AMONG EXISTING FACILITIES.**—

(1) **ESTABLISHMENT AND CERTIFICATION.**—Within 90 days after the effective date of this Act, the Secretary shall establish and certify 10 health centers. The Secretary shall select the 10 health centers from among the educational resource centers of the National Institute for Occupational Safety and Health and similar facilities of the National Institute for Environmental Health Sciences, the National Cancer Institute, and other private or governmental organizations designated by the Secretary. At a later date, the Secretary may establish and certify additional health centers from among the health care facilities described in this paragraph so as to obtain not more than 1 center per State throughout the United States.

(2) **BASIS FOR SELECTION.**—In carrying out paragraph (1), the Secretary shall base selection on ability and experience in the recognition, diagnosis, and treatment of occupationally related diseases in an ethical manner and capacity to offer training to physicians and other professionals.

(b) **FUNCTIONS OF CENTERS.**—The centers shall—

(1) provide education, training, and technical assistance to personal physicians and other professionals who serve employees notified under section 5; and

(2) be capable of providing diagnosis, treatment, medical monitoring, and family services for employees notified under section 5.

#### SEC. 8. RESEARCH, TRAINING, AND EDUCATION.

(a) **IMPROVED METHODS OF MONITORING AND IDENTIFICATION.**—The Board shall conduct or provide for research, training, and education aimed at improving the means of identifying employees exposed to occupational health hazards and providing medical assistance to such employees. The research, training, and education shall include but not be limited to—

(1) studying the etiology and development of occupationally related diseases, and the development of disabilities resulting from such diseases;

(2) developing means of medical surveillance of employees exposed to occupational health hazards;

(3) examining the medical treatment of workers exposed to occupational health hazards, and means of medical intervention to prevent the deterioration of the health and functional capacity of employees disabled by occupational diseases;

(4) studying and developing medical treatment and allied health and social services to be made available to employees exposed to occupational health hazards;

(5) developing educational programs designed to train physicians and other professionals who assist employees and their families in undertaking measures which ameliorate the effects of those diseases; and

(6) sponsoring epidemiological, clinical, and laboratory research to identify and define additional employee populations at risk of disease.

(b) **AUTHORITY TO EMPLOY EXPERTS AND CONSULTANTS.**—In carrying out activities under this section, the Board is authorized to engage the services of experts and consultants, as the Board considers necessary.

(c) **COURSES OF STUDY ON OCCUPATIONAL DISEASE.**—

(1) **FEDERAL FINANCIAL ASSISTANCE.**—No school of medicine may receive federal financial assistance in any academic year beginning after the date of enactment of this Act unless the school of medicine offers a course of study on occupational disease consisting of a minimum of 20 actual hours of didactic and practical instruction.

(2) **ADMINISTRATION.**—The Secretary shall enter into such arrangements with the head of other appropriate departments and agencies, as the Secretary determines are necessary to carry out the policy required by paragraph (1).

(3) **DEFINITIONS.**—For the purpose of this subsection:

(A) **FEDERAL FINANCIAL ASSISTANCE.**—The term "federal financial assistance" includes financial assistance by grant, loan, or contract other than a contract of insurance or guaranty.

(B) **SCHOOL OF MEDICINE.**—The term "school of medicine" has the same meaning given such term under section 701(4) of the Public Service Health Act (42 U.S.C. 292a(4)).

#### SEC. 9. EMPLOYEE TESTING; DISCRIMINATION AGAINST EMPLOYEES.

(a) **EMPLOYEE TESTING.**—For any employee notified under section 5, the testing, evaluation, and medical monitoring recommend as a result of exposure to the occupational health hazard shall be provided or made available by the current employer—

(1) at no cost to the employee if any part of such exposure occurred in the course of the employee's employment by that employer; or

(2) at a charge to the employee not exceeding the cost to the employer if no part of such exposure occurred in the course of the employee's employment by that employer (or if the employer so determines, at no charge to the employee).

(b) **DISCRIMINATION PROHIBITED.**—No employer or other person shall discharge or in any manner discriminate against any employee on the basis that the employee is or has been a member of a population that has been determined by the Secretary to be at risk of disease.

(c) **BENEFIT REDUCTION PROHIBITED.**—If, following a determination by the Secretary under this Act, it is medically determined by the employee's designated physician (in consultation with the employer and the employer's medical representative) that an employee should be transferred to a less hazardous or nonexposed job, the employee shall maintain the earnings, seniority, and other employment rights and benefits, as though the employee had not been transferred from the former job. The medical transfer protection described in the preceding sentence shall be provided for as long as a less hazardous or nonexposed job is available, or, where said job is not available, for a period determined by the physician not to exceed 12 months.

#### SEC. 10. ENFORCEMENT AUTHORITY.

(a) **RECORDKEEPING.**—The Secretary shall require recordkeeping necessary to monitor the numbers, types and results of notification under this Act.

(b) **INJUNCTIVE RELIEF.**—

(1) **ACTION.**—Whenever the Secretary determines that any person is engaged or is about to be engaged in an act or practice constituting a violation of this Act or any rule or regulation promulgated under this Act, the Secretary may bring an action in the appropriate United States district court to enjoin such acts or practices.

(2) **INJUNCTION OR RESTRAINING ORDER.**—On a proper showing, an injunction or permanent or temporary restraining order shall be granted without bond.

(3) **EFFECT OF OTHER SECTION.**—Section 5(f) shall not limit the authority of the Secretary under this subsection.

(c) **WILLFUL VIOLATIONS.**—

(1) **ACTION.**—The Secretary may bring an action in the appropriate United States district court against any person who commits a willful violation of this Act, or any rule or regulation promulgated under this Act.

(2) **PENALTY.**—Any person who willfully violates this Act, or a rule or regulation promulgated under this Act, shall be assessed a civil penalty of not more than \$10,000 for each violation.

(d) **REVIEW OF DISCRIMINATION COMPLAINTS.**—

(1) **IN GENERAL.**—

(A) **APPLICATION FOR REVIEW.**—Any employee who is aggrieved by a violation of section 9(b) or 9(c) may, within 6 months after such violation occurs, apply to the Secretary of Labor for a review of such alleged violation.

(B) **INVESTIGATION.**—On receipt of such application, the Secretary of Labor shall cause such investigation to be made as the Secretary of Labor considers appropriate.

(C) **ACTION.**—If, no such investigation, the Secretary of Labor determines that this section has been violated, the Secretary of Labor shall bring an action in any appropriate United States district court. In any such action, the United States district courts shall have jurisdiction for cause shown to restrain violations of this section and order all appropriate relief under subsection (e) or (f).

(2) **DETERMINATION BY SECRETARY.**—Within 90 days of the receipt of the application filed under this subsection, the Secretary of Labor shall notify the complainant of the determination of the Secretary of Labor under paragraph (1). If the Secretary of Labor finds that there was no such violation, the Secretary shall issue an order denying the application.

(e) **REINSTATEMENT AND OTHER RELIEF.**—Any employee who is discriminated against in violation of section 9(b) or 9(c) shall be restored to his or her employment and shall be compensated for—

(1) any lost wages (including fringe benefits and seniority);

(2) costs associated with medical monitoring that are incurred up to the time when the discrimination is fully remedied; and

(3) costs associated with bringing the allegation of violation.

(f) **CIVIL PENALTIES.**—Any person that discriminates against an employee in violation of this section shall be liable for a civil penalty of not less than \$1,000 or more than \$10,000 for each violation.

(g) **EFFECT ON OTHER LAWS.**—The notification of an employee pursuant to this Act that the employee is in a population at risk and the initiation of medical evaluation and monitoring shall not constitute or in any way affect a claim for compensation, loss, or damage arising out of exposure to the occupational health hazard, except that the results of such medical evaluation and monitoring may be introduced as evidence with respect to such a claim. Notification pursuant to this Act shall not be relevant in determining whether such a claim is timely under any applicable statute of limitations.

SEC. 11. **REPORTS TO CONGRESS.**

(a) **HAZARD COMMUNICATION STANDARD REPORT.**—The Secretary of Labor shall

report to Congress annually, not later than January 15 of each year, regarding implementation and enforcement of the hazard communication standard. The report shall include detailed information on—

(1) **MONITORING AND ENFORCEMENT.**—Monitoring and enforcement; significant areas of noncompliance; and penalties assessed and steps taken to correct the noncompliance.

(2) **ENFORCEMENT.**—Efforts to evaluate the hazard communication standard.

(3) **EMPLOYER ASSISTANCE.**—Efforts to assist employers to comply with the hazard communication standard.

(4) **EMPLOYEE EDUCATION.**—Efforts to educate employees to their rights under the hazard communication standard.

(5) **FEDERAL COURT DECISIONS.**—Efforts to comply with Federal court decisions requiring or encouraging an expanded scope for the hazard communication standard.

(b) **OCCUPATIONAL DISEASE NOTIFICATION REPORT.**—The Secretary shall report to Congress annually, not later than January 15 of each year, regarding implementation and enforcement of notification under this Act.

The report shall include detailed information on—

(1) **NOTIFICATIONS.**—Numbers, types and results of notifications carried out pursuant to section 5 and 6 of this Act.

(2) **RESEARCH.**—Research efforts carried out pursuant to section 8 of this Act.

(3) **TRAINING.**—Training efforts for employees, personal physicians, and other professionals carried out pursuant to sections 7 and 8 of this Act.

(4) **ENFORCEMENT.**—Enforcement efforts carried out pursuant to section 10 of this Act.

(5) **ASSISTANCE.**—Efforts to assist employers under this Act.

SEC. 12. **SUBJECTS OF FEDERAL AGENCY STUDIES.**

(a) **NOTIFICATION REQUIRED.**—Each Federal agency that conducts epidemiologic studies on occupational disease initiated after the effective date of this act shall establish procedures for notifying the subjects of such studies of findings demonstrating that they are part of a population at risk of disease.

(b) **METHOD OF NOTICE.**—All occupational epidemiologic studies conducted by a Federal agency initiated after the effective date of this Act shall include in the study design specific methods for notifying living subjects or their immediate family members that they are part of a population at risk of disease.

SEC. 13. **REGULATIONS.**

The Secretary shall prescribe such regulations as may be necessary to carry out this Act.

SEC. 14. **AUTHORIZATION OF APPROPRIATIONS.**

There are authorized to be appropriated \$25,000,000 for each of the fiscal years 1988 and 1989 to carry out this Act, of which \$5,000,000,000 shall be available for research under section 8.

SEC. 15. **EFFECTIVE DATE.**

Except as may be otherwise provided in this Act, this Act shall become effective January 1, 1988, or 6 months after the date of enactment of this Act, whichever occurs first.

● **Mr. STAFFORD.** Mr. President, I am joining today with Senator METZENBAUM in introducing the High Risk Occupational Disease Notification and Prevention Act of 1987.

There are several good reasons for enacting this bill.

The first is simple justice. Those whose lives, livelihoods, and health may be in jeopardy because of earlier exposures to poisonous chemicals should know it because we all deserve to know what our risks are.

Equally important, that knowledge should be shared because it can minimize or even eliminate the risk of actually contracting the disease for which a worker or his or her family may be at risk. Some diseases, especially cancers, which may be almost always fatal if undetected are significantly less fatal if found and treated early. In yet other cases, a disease may never develop if proper precautions are taken. Workers exposed to asbestos, for example, run a tenfold greater risk of dying from lung cancer if they smoke than if they do not.

In a society such as ours where the dangers of toxic chemicals are almost invariably discovered long after workers and others have been exposed, some sort of notification program is a necessity if the loss of human life is to be minimized. Exposures ought to never happen, but it is a fact of life that they do. Given that fact of life, we should establish a program such as the one proposed in this bill.

Mr. President, I urge my fellow Senators to review this bill carefully and join Senator METZENBAUM and me in cosponsoring this bill.

By Mr. METZENBAUM:

S. 80. A bill to repeal the McCarran-Ferguson Act, and for other purposes; to the Committee on the Judiciary.

MC CARRAN-FERGUSON ACT REPEAL

● **Mr. METZENBAUM.** Mr. President, today I am introducing legislation to repeal the McCarran-Ferguson Act, the law which provides that the business of insurance is exempt from the Federal antitrust laws.

There is no justification for exempting the insurance industry from Federal antitrust standards. It is one of the largest and most important industries in the Nation. Virtually every individual and every business in this country must purchase insurance. Yet this essential industry is not now required to conform to the basic national policy of free competition.

How can the Congress explain to the American people why the insurance industry is exempt from Federal prohibitions against price-fixing and other anticompetitive practices when the price of insurance is skyrocketing? Promoting competition in insurance can only improve the availability and affordability of insurance. Maintaining the current antitrust exemption only restricts healthy and vigorous competition.

For some time now, we have heard the argument that the only problems in obtaining access to insurance are greedy lawyers and outrageous liabil-

ity judgments. Every solution offered by the industry turns out to cut back on the rights of the victims in personal injury or other suits.

Focusing only on those injured is unfair. It's bad public policy. It is time that we took the broad public interest into account, not simply the industry's.

The current exemption for insurance arose from a unique combination of historical events. In 1869, the Supreme Court held that the business of insurance was not commerce and that insurance transactions were not interstate in character. *Paul v. Virginia*, 75 U.S. 168 (1869). This early decision took an extremely narrow view of the reach of the commerce clause.

Over the decades, the Supreme Court's interpretation of the commerce clause expanded considerably, and in the early 1940's, the Justice Department challenged collusive arrangements in the industry. The Supreme Court reversed its earlier decision and found that the antitrust laws did apply to insurance. *United States v. South-Eastern Underwriters Ass'n*, 322 U.S. 533 (1944).

The very next year, the insurance industry came to Congress and persuaded it to exempt the industry from the Federal antitrust laws. There is no doubt that this decision was undertaken in response to the argument that the industry could not adjust to the radical changes that would occur if rules of free competition were to apply rather than the extensive system of State-approved price-fixing that was in existence.

Whatever validity that argument had in 1945, it is totally unpersuasive today. Subjecting the insurance industry to the same antitrust standards that apply to other industries is completely consistent with State regulation of the industry as well as legitimate joint activities by insurance companies. Requiring insurance companies to live by the rules of free competition would not disrupt State regulatory programs. It would not prevent insurance companies from sharing information. It would not preclude State approval of rates. It would promote competition in the industry, promote lower prices and greater availability of coverage, and insure that consumers have better information about the policies they purchase.

Unlike the situation in 1945, applying Federal antitrust standards to insurance would not undercut State regulatory policies. Almost all States have abandoned setting specific rates for insurance coverage. Instead, insurance companies have considerable flexibility in setting rates, subject to filing requirements. In addition, the Supreme Court has made clear that business conduct which is subject to a clearly articulated State regulatory scheme and actively supervised by the State is

not subject to Federal antitrust law. The Supreme Court has recently held, for example, that collective ratemaking activities, permitted under a clearly articulated and actively supervised State policy, do not violate the antitrust laws. *Southern Motor Carriers Rate Conf. v. U.S.*, 471 U.S. 48 (1985).

Another development is the recognition by the courts that joint activities by competitors which promote competition are permissible under the antitrust laws. The courts have long held that substantial information can be shared among competitors without running afoul of the antitrust laws. More recently, the Supreme Court has clearly stated joint activities which reduce costs and enable products to be marketed more efficiently will be upheld. *Broadcast Music, Inc. v. Columbia Broadcasting System*, 441 U.S. 1 (1979). This principle applies to sharing information about risks, joint underwriting of large-scale projects, and other joint activities which promote a more efficient and productive insurance industry.

These considerations led the National Commission for the Review of Antitrust Laws and Procedures to recommend in 1979 that:

The current broad antitrust immunity for the business of insurance granted by the McCarran-Ferguson Act should be repealed. In its place, narrowly drawn legislation should be adopted to affirm the lawfulness of a limited number of essential collective activities under the antitrust laws. \* \* \*

The Commission believes that the current immunity is not only overly broad, but also unnecessary. Those collective activities by insurers that are essential to the functioning of a competitive industry would likely pass muster under the traditional rule of reason analysis of Sherman Act section 1. Similarly, where collective activity or other insurance company behavior is affirmatively mandated by a State in its capacity as sovereign, and effectively supervised by independent State officials, such behavior would fall within the judicially recognized "State action" exception to the antitrust laws. (Report of the Commission, pp. 225-6)

In short, the argument that the insurance industry requires an antitrust exemption to function effectively is nonsense. The antitrust laws allow joint activities by insurance companies which are in the public interest. In contrast, the current exemption prevents the Department of Justice, the Federal Trade Commission, or private plaintiffs from challenging even blatant anticompetitive activity.

Under the current law, an agreement by insurance companies to fix prices or allocate markets could not be challenged by the Department of Justice, the Federal Trade Commission, or private plaintiffs. Not only does the current law bar these actions, but in cases where the exemption may not apply, it guarantees prolonged litigation over its applicability. For example, the FTC recently challenged particular activities by title insurance companies that

allegedly restrain competition on the grounds that these activities were not really the business of insurance. *Ticor Title Insurance Co.*, D-9190. Nevertheless, the defendants have vigorously disputed the authority of the FTC to bring the case.

In addition to the problem of preventing the Government from challenging anticompetitive actions, the McCarran-Ferguson Act exempts the industry from the Federal prohibition against unfair and deceptive practices enforced by the Federal Trade Commission. Today, if an insurance company misleads consumers in its marketing of insurance, the Federal Trade Commission is in almost all cases foreclosed from acting.

In 1979, Congress went even beyond the McCarran-Ferguson Act in prohibiting the Federal Trade Commission from even studying the insurance industry without a specific request from the House or Senate Commerce Committee. This provision was enacted after the FTC had published a study which concluded that the average rate of return on the investment portion of whole life insurance was 1.3 percent. As former Chairman of the Federal Trade Commission, Michael Pertschuk, stated:

The Commission had concluded—as many other students of life insurance marketing had also concluded—that this low level of return was directly caused by a marketing system that made it virtually impossible for a prospective policyholder—other than an actuary—to compare the interest yields of competing investment opportunities. (Testimony before Subcommittee on Monopolies and Commercial Law, House Committee on the Judiciary, May 3, 1984, pp. 3-4)

The FTC did not issue a regulation in this area. It did not propose Federal intervention at all. Instead, it distributed its report to the States and recommended that they develop a standard disclosure requirement so that the insurance industry would provide information about investment return to consumers. The Congress reacted by prohibiting the FTC from studying the insurance industry without an express request by either the House or Senate Commerce Committee. In other words, the FTC was to keep its mouth shut about problems with the insurance industry until Congress told it to speak. Former Chairman Pertschuk called this provision a "legislative prefrontal lobotomy."

The bill I am introducing today would simply apply the same antitrust standards of free competition to insurance that apply to other industries. In doing so, it would repeal the language in the McCarran-Ferguson Act which purports to rest all regulation of the insurance industry in the States. By repealing that language, my bill would not in any way do away with State insurance commissions or preclude the States from regulating insurance as

they do now. Just as in many other industries, Federal antitrust laws would apply to companies which are the subject of State regulations.

The bill also provides for a delayed effective date to enable the insurance industry to review its activities for potential antitrust liability. In particular, the bill provides that the repeal of the exemption is deferred for 1 year after the date of enactment. In addition, no criminal penalties or treble damages can be assessed for 2 years. Finally, no antitrust remedy is available for 2 years if the defendant in an antitrust case has relied in good faith on an advisory opinion by the Department of Justice. These provisions provide ample time for the industry to review its activities and insure that they are in full compliance with antitrust standards.

I fully expect that the insurance industry will again argue that it cannot function under the Federal antitrust standards and that many of its current activities will be prohibited, even those which benefit the public. If the industry can show that certain defined activities which are in the public interest would actually be prohibited under the antitrust laws, then certain narrow and carefully defined exemptions may be warranted. These issues can best be pursued in through hearings where the industry and other observers can comment.

This industry is too big, too important to every American, to maintain an antitrust exemption long after its initial justification has disappeared. Today, access to insurance and affordable prices have become critical problems for individuals, small business, and even governmental bodies. Insurance companies should have to operate by the rules of free competition just as other industries do.

The McCarran-Ferguson Act has long outlived whatever legitimate purpose it served. It is time to repeal it.

I ask unanimous consent that a copy of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 80

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the Act entitled "An Act to express the intent of the Congress with reference to the regulation of the business of insurance", commonly known as the McCarran-Ferguson Act (59 Stat. 33), is repealed.*

(b) The repeal made by this section shall be effective as to conduct engaged in beginning one year after the date of enactment of this Act.

SEC. 2. (a) In any action brought under the provisions of the Clayton Act or the Sherman Act alleging a violation of either such Act for conduct that would have otherwise been lawful pursuant to the provisions of the Act entitled "An Act to express the intent of the Congress with reference to the regulation of the business of insurance" no

award of treble damages or criminal penalties shall be awarded against any such person for conduct by such person occurring within two years after the date of enactment of this Act.

(b) During the two year period referred to in this section, no relief shall be granted against any person in an action referred to in subsection (a) for conduct by such person during such period, if such person has in good faith, relied upon an advisory opinion issued by the Department of Justice.●

By Mr. METZENBAUM:

S. 81. A bill to amend the Older Americans Act of 1965 to establish the Alzheimer's Disease and Related Dementias Home and Community Based Services Block Grant; to the Committee on Labor and Human Resources.

ALZHEIMER'S DISEASE AND RELATED DEMENTIAS HOME AND COMMUNITY BASED SERVICES BLOCK GRANT ACT

● Mr. METZENBAUM. Mr. President, Alzheimer's disease has been called the "Disease of the Century." Today, I am introducing a bill, "The Alzheimer's Disease and Related Dementias Home and Community-Based Services Block Grant" to provide needed support to victims of Alzheimer's disease and related dementias, and their families.

At both Federal and State hearings, professionals and families alike, described Alzheimer's as an "insidious disease; no illness is more terrifying and life-altering than Alzheimer's." It destroys its victims and damages their families.

Through demonstration projects, and activities of voluntary organizations, we have learned much about the urgent needs of our older citizens who, with age, are increasingly vulnerable to dementing disorders, and to the risk of institutionalization and total impoverishment. The risk for Alzheimer's disease increases rapidly over the age of 65, with 20 to 30 percent of those over the age of 80 afflicted.

We know that demographic data project an aging population. Rapid increases in the number and proportion of older people in the United States, especially those in their eighties and nineties confront us with a major challenge, and an urgent necessity to plan appropriately—and without delay.

There are currently close to 3 million persons with Alzheimer's disease and related disorders. Less than 60 years from now, we will face a major epidemic with that number expected to triple to 9 million.

Currently, we depend heavily on family caregivers—spouses and children—to provide long-term care for family members with Alzheimer's disease. However, projections indicate that families will be smaller in the years to come. Thus, there will be fewer caregivers available.

Mr. President, Alzheimer's disease not only imposes extreme physical and emotional hardships on the family, it creates enormous financial costs as

well. These costs are already estimated at over \$40 billion. Unless we begin now to provide the social supports essential for continued family caregiving, we may find our institutions and our health care system overwhelmed with increasingly large numbers of demented adults, and our Nation overwhelmed with colossal costs of hundreds of billions of dollars.

Research continues, with insufficient funds, given the magnitude of the problem. The research community appears cautiously optimistic that answers will be found. This very month, the fourth International Conference on Alzheimer's Disease is meeting in Zurich to compare research findings worldwide. There will be answers—eventually—sooner, rather than later, we hope.

However, until that happy day arrives, family caregivers will need many social supports to maintain their afflicted family members in the home.

Mr. President, my bill will delay the institutionalization so costly to families and to the nation by providing needed home and community-based services.

This bill, "The Alzheimer's Disease and Related Dementias Home and Community-Based Services Block Grant," amends the Older Americans Act which comes up for reauthorization this year.

It establishes a block grant program directed by the Administration on Aging. The grant will be made available to States on a matching formula basis, to develop a plan to provide for:

Coordination of services;  
Case management and counseling to determine services needed for delaying nursing home admission;

Respite care;  
Day care;  
Training and counseling of family members;

Homemaker services,  
Transportation, and other such supportive services that will help families maintain Alzheimer victims at home.

I urge my colleagues to join me in support of the millions of Americans suffering physical, emotional, and financial devastation as a result of this insidious and tragic disease, and the related dementing disorders.

I ask unanimous consent that the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 81

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Alzheimer's Disease and Related Dementias Home and Community Based Services Block Grant Act of 1987".*

FINDINGS AND PURPOSE

SEC. 2. (a) The Congress finds that—

(1) there are more than 3,000,000 individuals with Alzheimer's disease and related dementias in the United States;

(2) the cost of caring for individuals with Alzheimer's disease and related dementias is estimated at over \$40,000,000 annually;

(3) over one half of the patients in nursing homes are diagnosed as patients with Alzheimer's disease or related dementias;

(4) the potential number of individuals who may have Alzheimer's disease and related dementias in their old age will overwhelm the capacity of our institutions to care for such individuals;

(5) individuals with Alzheimer's disease or related dementias often require specialized long term care services to be provided in a coordinated manner by many agencies; and

(6) providing home and community based services for individuals with Alzheimer's disease and related dementias will extend the ability of caregivers of such individuals to maintain such individuals in their homes and can reduce health care costs by delaying or preventing institutionalization.

(b) It is the purpose of this Act to prevent or delay the institutionalization of individuals with Alzheimer's disease and related dementias by providing home and community based services to assist in caring for such individuals in their homes.

#### ESTABLISHMENT OF BLOCK GRANT

SEC. 3. The Older Americans Act of 1965 is amended by adding at the end thereof the following new title:

#### "TITLE VIII—ALZHEIMER'S DISEASE AND RELATED DEMENTIAS HOME AND COMMUNITY BASED SERVICES BLOCK GRANT

##### "AUTHORIZATION OF APPROPRIATIONS

"SEC. 801. For purpose of allotments under section 802, there are authorized to be appropriated \$80,000,000 for each of the fiscal years 1988, 1989, 1990, 1991, and 1992.

##### "ALLOTMENTS

SEC. 802. (a) The Secretary shall allot the amounts appropriated under section 801 for each fiscal year on the basis of a formula prescribed by the Secretary which is based on—

"(1) the number of individuals in each State over the age of 60 years;

"(2) the number of individuals in each State with Alzheimer's disease and related dementias;

"(3) the extent of the need of each State for services for individuals with Alzheimer's disease and related dementias; and

"(4) the per capita income of each State.

"(b) To the extent that all the funds appropriated under section 801 for a fiscal year are not otherwise allotted to States because—

"(1) one or more States have not submitted an application or State plan in accordance with section 806 for such fiscal year;

"(2) one or more States have notified the Secretary that they do not intend to use the full amount of their allotment; or

"(3) some State allotments are offset or repaid under section 1906(b)(3) of the Public Health Service Act (as such section applies to this title pursuant to section 806(e));

such excess shall be allotted among each of the remaining States in proportion to the amount otherwise allotted to such States for such fiscal year without regard to this subsection.

"(c)(1) If the Secretary—

"(A) receives a request from the governing body of an Indian tribe or tribal organiza-

tion within any State that funds under this title be provided directly by the Secretary to such tribe or organization, and

"(B) determines that the members of such tribe or tribal organization would be better served by means of grants made directly by the Secretary under this title:

the Secretary shall reserve from amounts which would otherwise be allotted to such State under subsection (a) for a fiscal year the amount determined under paragraph (2).

"(2) The Secretary shall reserve for the purpose of paragraph (1) from amounts that would otherwise be allotted to such State under subsection (a) an amount equal to the amount which bears the same ratio to the State's allotment for the fiscal year involved under subsection (a) as the total number of elderly individuals in the tribe during such fiscal year bears to the total number of elderly individuals residing in the State during such fiscal year.

"(3) The amount reserved by the Secretary on the basis of a determination under this subsection shall be granted to the Indian tribe or tribal organization serving the elderly individuals for whom such a determination has been made.

"(4) In order for an Indian tribe or tribal organization to be eligible for a grant for a fiscal year under this subsection, it shall submit to the Secretary a plan for such fiscal year which meets such criteria as the Secretary may prescribe.

"(5) For purposes of this subsection, the term 'elderly individual' means an individual who has attained the age of 60 years.

##### "FEDERAL SHARE

"SEC. 803. The Federal share of all projects in a State supported by an allotment to a State under section 802 shall be at least 60 percent of the aggregate necessary costs of all such projects, as determined by the Secretary, and may not be more than 80 percent of such costs for each State, which, in the determination of the Secretary, has one of the greatest levels of need of all States for services for individuals with Alzheimer's disease and related dementias.

##### "PAYMENTS UNDER ALLOTMENTS TO STATES

"SEC. 804. (a) For each fiscal year, the Secretary shall make payments, as provided by section 6503(a) of title 31, United States Code, to each State from its allotment under section 802 (other than any amount reserved under subsection (c) of such section) from amounts appropriated for that fiscal year.

"(b) Any amount paid to a State for a fiscal year and remaining unobligated at the end of such year shall remain available for the next fiscal year to such State for the purposes for which it was made.

##### "USE OF ALLOTMENTS

"SEC. 805. (a)(1) Except as provided in subsection (b), amounts paid to a State under section 804 shall be used by the State to provide home and community based services for individuals with Alzheimer's disease and related dementias. Such services may include—

"(A) case management services, including counseling prior to admission to nursing homes;

"(B) respite care, both in and out of the home;

"(C) training and counseling of family members of individuals with Alzheimer's disease and related dementias;

"(D) adult day care services;

"(E) personal care services for individuals with Alzheimer's disease and related dementias;

"(F) occupational therapy and functional management training;

"(G) homemaker services;

"(H) minor remodeling of the home of an individual with Alzheimer's disease or a related dementia;

"(I) transportation services;

"(J) hospice care services; and

"(K) the preparation and dissemination of a directory of long term care services available in various localities in the State.

"(2) In carrying out this title, a State shall give priority to the provision of services to individuals who have attained the age of 60 years and to individuals with the greatest economic need for services under this title. For purposes of this paragraph, a State shall not determine economic need solely on the basis of the income of the individual.

"(3) Any individual having Alzheimer's disease or a related dementia who resides in a State shall be eligible for home and community based services under this title. A State shall not disqualify an individual for eligibility for such services on the basis of the length of time such individual has resided in the State.

"(b) The Secretary, if requested by a State, shall provide technical assistance to the State in planning and operating activities to be carried out under this title.

"(c) A State may not use amounts paid to it under section 804 to—

"(1) provide inpatient services (other than hospice services permitted under subsection (a)(1)(I);

"(2) make cash payments to intended recipients of services;

"(3) purchase or improve land, purchase, construct, or permanently improve (other than minor remodeling) any building or other facility, or purchase major medical equipment; or

"(4) satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds.

The Secretary may waive the limitation contained in paragraph (3) upon the request of a State if the Secretary finds that there are extraordinary circumstances to justify the waiver and that granting the waiver will assist in carrying out this title.

"(d) Not more than 7 percent of the total amount paid to a State under section 804 for a fiscal year may be used for administering the funds made available under section 804. The State shall pay from non-Federal sources the remaining costs of administering such funds.

##### "APPLICATION; STATE PLAN; REQUIREMENTS

"SEC. 806. (a) In order to receive an allotment for a fiscal year under section 802 each State shall submit an application to the Secretary. Each such application shall be in such form and submitted by such date as the Secretary shall require, and shall contain the State plan required by subsection (b).

"(b)(1) As part of the annual application required by subsection (a) for an allotment for any fiscal year, the chief executive officer of each State shall submit to the Secretary a State plan for the administration of amounts paid to the State under this title. Each State plan shall—

"(A) certify that the State agrees to use the funds allotted to it under section 802 in accordance with the requirements of this title;

"(B) provide assurances that the chief executive officer will designate the State agency on aging to administer funds provided under this title;

"(C) certify that the State will use funds provided under this title to pay for home and community based services for an individual with Alzheimer's disease or a related dementia only after all other Federal and State sources of payments and benefits for such services have been utilized;

"(D) contain a description of the intended use of the payments the State will receive under section 804 for the fiscal year for which the application is submitted, including—

"(i) a specification of the programs and activities to be supported and services to be provided with such payments;

"(ii) a specification of the budget for such programs, activities, and services;

"(iii) a statement of the manner in which the State will administer the State plan;

"(iv) a specification of the requirements that will be used by the State in determining eligibility for services to be provided under this title; and

"(v) a statement of the number and types of personnel that will be used to carry out such programs and activities and to provide such services, and of the plans of the State to recruit and train such personnel;

"(E) specify the manner in which activities of State agencies which administer programs relating to health, welfare, social services, rehabilitation, mental health, and the elderly will be coordinated with the provision of home and community based services under this title by State and local agencies and public and private institutions and organizations;

"(F) certify that the State will coordinate the provision of home and community based services with funds provided under this title with activities conducted to provide such services by voluntary, religious, and community organizations and local governments;

"(G) describe the manner in which the State will evaluate programs and activities conducted, and services provided, under this title; and

"(H) certify that the State agrees that Federal funds made available under section 804 for any period will be so used as to supplement and increase the level of State, local, and other non-Federal funds that would in the absence of such Federal funds be made available for the programs and activities for which funds are provided under that section and will in no event supplant such State, local, and other non-Federal funds.

"(2) Each State plan shall be developed by the State agency on aging in cooperation with the State agencies which administer the programs described in paragraph (1)(E).

"(d) The State plan shall be made public within the State in such manner as to facilitate comment from any person (including any Federal or other public agency) during development of the State plan and after its transmittal. The description shall be revised (consistent with this section) throughout the year as may be necessary to reflect substantial changes in the programs and activities assisted, and the services provided, by the State under this title, and any revision shall be subject to the requirements of the preceding sentence.

"(e) Except where inconsistent with the provisions of this title, the provisions of section 1903(b), section 1906(a), paragraphs (1) through (5) of section 1906(b), and sections 1907, 1908, and 1909 of the Public Health

Service Act shall apply to this title in the same manner as such provisions apply to part A of title XIX of such Act.

"(f) Each report submitted by a State to the Secretary under section 1906(a)(1) of the Public Health Service Act (as such section applies to this title pursuant to subsection (e) of this section) shall include an analysis of the extent to which the provision of home and community based services under this title prevented or delayed the institutionalization of individuals with Alzheimer's disease and related dementias. Each such report shall include—

"(1) a description of, and an evaluation of the effectiveness of, case management services, including counseling prior to admission to nursing homes, provided under this title;

"(2) a description of, and an evaluation of the effectiveness of, other services provided under this title which are designed to delay admission of individuals to nursing homes;

"(3) a specification of the costs of various services provided under this title;

"(4) a list of public and private resources in the State which make payments or reimbursements for home and community based services for individuals with Alzheimer's disease and related dementias; and

"(5) such recommendations for revisions of the State plan as the State considers appropriate.

#### "ADMINISTRATION

"Sec. 807. (a) The Secretary shall carry out this title through the Commissioner.

"(b) The Commissioner shall develop guidelines to be used by States in carrying out activities under this title. Such guidelines shall be developed in cooperation with the Assistant Secretary for Human Development Services, the Director of the National Institute on Aging, and the Director of the National Institute of Mental Health.

"(c) In carrying out this title, the Commissioner shall consult with the Advisory Panel on Alzheimer's Disease established under section 921 of the Alzheimer's Disease and Related Dementias Services Research Act of 1986.

#### "ANNUAL REPORT

"Sec. 808. Within 90 days after the end of each fiscal year, the Commissioner shall prepare and transmit to the Congress and the Secretary a report which describes the activities conducted under this title during the preceding fiscal year. Each such report shall contain a summary of the reports submitted by States under section 806(f).

#### "DEFINITIONS

"Sec. 809. For purposes of this title—

"(1) the terms 'Indian tribe' and 'tribal organization' have the same meaning given such terms in section 4(b) and section 4(c) of the Indian Self-Determination and Education Assistance Act; and

"(2) the term 'State agency on aging' means a State agency on aging designated under section 305(a)."

SEC. 3. This Act and the amendments made by this Act shall take effect on October 1, 1987.●

By Mr. STAFFORD (for Mr. SYMMS, Mr. CHAFEE, Mr. DURENBERGER, and Mr. SIMPSON):

S. 82. A bill to authorize appropriations for certain highways in accordance with title 23, United States Code, and for other purposes; to the Committee on Environment and Public Works.

#### FEDERAL-AID HIGHWAY ACT

Mr. STAFFORD. Mr. President, today I am introducing the Federal-Aid Highway Act of 1987. The provisions contained in this bill were passed by the Senate on September 24, 1986, by a vote of 99 to 0.

I was very disappointed that the Senate and House conferees were unable to reach agreement on highway legislation before the 99th Congress adjourned. It is extremely important that highway legislation be considered and completed early this year. It is because of the urgency of releasing highway money to the States that I am introducing today the legislation that has already been debated and agreed to by the Senate.

Many States have already canceled bid lettings and will not be able to go forward with any highway projects this spring because they have used all their Federal-aid apportionments. If legislation is not finalized by March, many of the Northern States' entire construction season will be jeopardized. This means that many projects critical to improved transportation services will not go forward. It also means that there will be a significant loss of construction and construction-related jobs.

I know my colleagues will agree that we must return the fees collected from highway users to the States and localities as quickly as possible so they can be invested in our transportation system. I believe the fastest way to do that is to begin with legislation that was already approved by the Senate and begin the conference with the House immediately so that differences can be resolved and the funds can be apportioned to each one of your States.

By Mr. JOHNSTON (for himself, Mr. EVANS, Mr. METZENBAUM, Mr. FORD, Mr. WIRTH, Mr. MATSUNAGA, Mr. PRYOR, Mr. MELCHER, Mr. BUMPERS, Mr. KERRY, Mr. SPECTOR, Mr. LEVIN, Mr. SARBANES, Mr. BURDICK, Mr. HEINZ, Mr. D'AMATO, Mr. WARNER, Mr. GORE, Mr. HARKIN, Mr. PROXMIER, Mr. COCHRAN, Mr. KENNEDY, Mr. BENTSEN, Mr. KASTEN, Mr. WEICKER, Mr. ADAMS, and Mr. QUAYLE):

S. 83. A bill to amend the Energy Policy and Conservation Act with respect to energy conservation standards for appliances; to the Committee on Energy and Natural Resources.

#### NATIONAL APPLIANCE ENERGY CONSERVATION ACT OF 1987

● Mr. JOHNSTON. Mr. President, with one exception, no greater honor and privilege has been bestowed on me in my lifetime than my becoming chairman of the Committee on Energy and Natural Resources in the 100th

Congress. The only exception is the honor bestowed on me when I first came to this body to represent the people of Louisiana. I assume this chairmanship with a sober sense of responsibility because of the caliber and achievements of those chairmen who preceded me and because the outlook for our energy future is disturbing indeed. Frankly, our domestic energy industry is in deep trouble and the future implies even greater dependence on foreign energy sources in politically volatile areas of the world.

Reviving our domestic energy industries and restraining the growth in our reliance on foreign energy sources will require that we keep our minds open and our feet firmly planted on the ground. We must be hardheaded, but not thickheaded. The distinction is critical.

It is appropriate to begin by introducing with Senator EVANS and numerous other colleagues the National Appliance Energy Conservation Act of 1987. This bill establishes national energy efficiency requirements for major household appliances such as furnaces, water heaters, air-conditioners, and refrigerators. Equally important, the bill would rescue the appliance industry from a growing hodgepodge of conflicting State standards, substituting instead predictable, uniform national standards.

The language of this bill is identical to the appliance provisions contained in H.R. 5465 that was adopted by both Houses of Congress last fall without any opposition. The Department of Energy recommended its enactment. Yet, the act was pocket-vetoed on November 1, 1986.

Mr. President, the coalition behind this bill is impressive indeed, some 42 trade associations, consumer and environmental groups, including the appliance manufacturers who would be regulated by this bill. Even more significant is that many of these groups formerly opposed each other in the litigation that preceded this bill. It is not often that the National Association of Manufacturers, the Sierra Club and the United Methodist Church unite behind a bill.

Several States have advocated enactment of this legislation, States who have adopted appliance regulations that would be preempted by this bill. Finally, editorialists across the country have called for quick adoption of this measure.

How is it that a bill with all this support, with no opposition in the House or Senate, came to be vetoed by the President? It's a question not easily answered. The memorandum of disapproval issued by the White House says that the choice was between enactment of Federal appliance standards established explicitly in the bill and Federal regulations yet to be established by DOE rulemaking procedures

under current law. The administration prefers to continue with the DOE rulemaking, although DOE itself recommended enactment of the measure.

It isn't as though the route under current law is untraveled. Under current law nine appliance standards were generally required to be issued no later than December 24, 1980, and an additional four standards no later than November 9, 1981, that is, over 5 years ago. Sued for their delay, DOE agreed in a court settlement to issue the first nine standards by October 29, 1981, a date which was not met. Once standards were issued a Federal court struck them down as "contrary to law". These were the infamous "no-standards standards." Numerous groups within the coalition supporting this legislation were opponents in the years of litigation over the rulemaking and represent nearly every conceivable party to a rulemaking on appliances. Weary of rulemaking delay at DOE, they finally sat down and worked out their own compromise which is embodied in this legislation. The administration would reject that compromise and force these manufacturers and interest groups to trudge through several more years of expensive rulemaking procedures.

Meanwhile, the States are creating a web of conflicting regulation in this area, a web that the Federal appliance standards were supposed to clear away through preemption half a decade ago. Most important, and here is the core of the issue, the administration policy has been to grant waivers from Federal preemption to practically any State that sought it. Thus, under current law the appliance manufacturers could face a web of conflicting State regulation whether or not Federal standards are issued. This would not occur under the legislation that the Congress passed last year and that we are introducing today.

So the stumbling block to this legislation is the administration's ideology which says appliance efficiency should be regulated by the States even though the law and the courts say it is a Federal matter and the States themselves would prefer uniform Federal regulation in this area. Heaven knows the appliance manufacturers would prefer Federal regulation. As I said earlier, if our Government is to establish effective energy policy it must not forget the critical distinction between being hardheaded and thickheaded.

One very sensitive aspect of this bill has been to minimize the effect it might have on the intense competition between the electric and gas industries. We don't want the bill to have the effect of creating a significant bias against any fuel—be it oil, gas, or electricity—so as to favor one over the other.

Our committee report last year addressed this point in some detail. How-

ever, we are continuing to examine this issue of whether the bill is neutral on the subject of interfuel competition. If any fine-tuning amendments are necessary, they can be addressed in the committee markup.

I urge my colleagues to join the throng of support behind this legislation. It deserves swift passage. ●

● Mr. EVANS. Mr. President, I am pleased to join today with Senator JOHNSTON and others to introduce the National Appliance Energy Conservation Act of 1987.

Many of my colleagues may remember this legislation and the remarkable coalition of both manufacturers and environmentalists which developed and supported this bill during the last days of the 99th Congress. The measure we are introducing today is almost identical to what was passed unanimously by both House and Senate last year.

The act establishes clear, consistent national energy efficiency standards for all major home appliances, to be phased in over a 4-year period. As it stands now, several States already have such standards in place, and many more are working on this type of legislation in preparation for their State legislative sessions. I am aware that in my own State of Washington, State standards are being promoted by several legislators. Thus, if we do not act to establish truly national standards, the appliance marketplace would be subject to a patchwork of differing State requirements, to the detriment of both manufacturers and consumers. While the Department of Energy [DOE] is scheduled to begin publishing such standards by next year, their policy has consistently been to grant waivers from Federal preemption to practically any State that sought one. So even if DOE does issue such standards, appliance manufacturers could be faced with a maze of conflict State regulations whether or not Federal standards are issued. Under the bill we are introducing today, there would be a single, national standard which would preempt all State standards, except under extraordinary circumstances.

Mr. President, as Chairman of the Alliance to Save Energy, I am well aware of the enthusiastic response which has been received from environmental and energy conservation organizations regarding this legislation. The amount of energy Americans use in their homes accounts for an estimated one-third of the energy we consume as a nation. Those who are promoting this bill recognize the real opportunity for savings which can be realized by establishing tough energy efficiency standards such as those contained in the act. Some experts have estimated that with enactment of this measure, consumers will save approxi-

mately \$200 per household in reduced energy consumption through the year 2000. Utilities and State regulatory agencies will also be better able to anticipate future energy requirements and can defer or avoid the need for new generating capacity, saving ratepayers and protecting the environment from the detrimental effects of constructing and operating unnecessary powerplants.

Despite the unanimous support of appliance manufacturers, distributors, environmentalists, States and utilities, the administration failed to give their approval to this legislation last year, pocket vetoing the act on November 1. The Memorandum of Disapproval issued by the White House expressed concerns that the standards contained in the bill would raise prices for consumers, but failed to balance these costs against the savings which nearly all agree would occur as a result of increased energy efficiency. Second, the administration argued that DOE is required to conduct rulemaking which "may lead to the imposition of Federal standards," but does not acknowledge that DOE has routinely provided exemptions from any Federal efficiency standards for any State which has applied for one, effectively circumventing the purpose of Federal standards.

Mr. President, I continue to believe that this legislation is indeed consistent with the administration's stated goal of eliminating inefficient use of energy, as well as reducing unnecessary regulatory burdens on the economy. As I said in a letter to the President urging him to sign the bill, the decision on whether to support the National Appliance Energy Conservation Act should not be one of a free market versus a federally regulated market, but one of reducing the regulatory burden borne by the appliance industry as opposed to the continued growth of conflicting State and Federal regulations.

This legislation is one of those rare instances when all parties concerned with an issue have sat down together and worked out a solution to their problem which they can all accept and support. I am hopeful that we can emulate their example here in the Senate, and achieve the same level of broad bipartisan support which this measure attracted last year. Today, having watched our dependence on foreign oil grow dramatically over the past year, it is even more urgent that we explore all cost-effective opportunities to use our energy resources as efficiently as possible. I appreciate the cooperation and leadership of the chairman of the Energy and Natural Resources Committee, Senator JOHNSTON, and understand that he intends to hold a markup of the bill as soon as possible. I know I join him in hoping that the Senate will again express its unanimous support for what is almost

certainly the most important energy conservation legislation of this decade. ●

● Mr. D'AMATO. Mr. President, I rise today to join as a cosponsor of the National Appliance Energy Conservation Act of 1987. I commend my distinguished colleague from Washington for his leadership on this issue.

I was pleased to enthusiastically support this bill during the 99th Congress, and, along with many of colleagues, I urged the President to sign this legislation into law. However, despite unanimous support in the Congress and widespread support among manufacturers, energy conservationists, and environmental groups, this legislation was vetoed on November 1, 1986.

In vetoing this legislation, the administration indicated a preference for handling this issue through the DOE rulemaking process. It is clear, however, that the DOE rulemaking process has not cleared up the web of conflicting regulations manufacturers still face. Under current law, nine appliance standards were required to be issued no later than December 24, 1980, and an additional four standards no later than November 9, 1981. Mr. President, DOE is more than 6 years late. We simply cannot wait any longer.

During these times of low energy prices, it is easy to forget the crisis situations which afflicted this Nation in the recent past—and which may, unfortunately, beset us again in the future. But it is now, when times are good, that conservation measures should be implemented so that future shortages may be averted.

For many years, attempts to regulate appliance-efficiency standards have been effective as a result of sometimes contradictory and, at the very least, uncoordinated efforts by State governments, appliance manufacturers, and energy conservationists. This lack of coordination has led to a squandering of valuable resources—a situation acceptable to none: States enacting differing standards; manufacturers forced to produce multiple versions to account for these individual standards; and conservationists frustrated by the preventable waste of our limited resources. In the end it is the average consumer, both in the home and at work, who loses the most by having to pay for unnecessarily high energy bills.

Now we have the opportunity to change this wasteful consumption. The National Appliance Energy Conservation Act is a proposal which marks a new era of cooperation between manufacturers, conservationists, and the States.

For the appliance manufacturer, the establishment of national standards will provide adequate time to develop new energy-efficient products and will

reduce disruption of interstate commerce, thus eliminating expensive production costs of multistandard appliances.

While the National Appliance Energy Conservation Act will set nationwide standards, much care has been taken to safeguard the right of the individual State to regulate its own energy resources. I feel that this bill will create an element of predictability of energy consumption for State agencies and utilities. Furthermore, the bill contains exemptions for States faced with unforeseen special circumstances.

For the conservation-minded citizen, this proposal establishes timetables for the Department of Energy to regulate nationwide energy consumption and to constantly revise these standards. It is clear that the resulting energy savings will enable us to avoid some of the costs, pollution, and hazards posed by having to construct new powerplants.

Most importantly, it is the consumer who will benefit most from this agreement. Lower energy bills will result in billions of dollars of savings for households and businesses alike.

Mr. President, I support this legislation because it is reasonable and mutually advantageous for all—manufacturers, conservationists, States, consumers, and the national economy. It is one of those measures which has for so long been necessary and is finally on its way to becoming a reality. I commend the participants in this accord for their wisdom and ability to compromise. The National Appliance Energy Conservation Act of 1987 is a proposal which will enable the Nation to prevent the repetition of past energy crises while ensuring efficient consumption of our valuable resources for the future. ●

By Mr. JOHNSTON (for himself,  
Mr. BINGAMAN, Mr. WIRTH, and  
Mr. BUMPERS):

S. 84. A bill to amend the Land and Water Conservation Fund Act of 1965; to the Committee on Energy and Natural Resources.

#### LAND AND WATER CONSERVATION FUND ACT AMENDMENTS

● Mr. JOHNSTON. Mr. President, today I am introducing legislation to amend the Land and Water Conservation Fund Act of 1965. The amendment I am proposing would increase the existing authorization ceiling for the fund from \$900 million to \$1 billion annually. The measure would also extend the authorization for 25 years through the year 2015. Under current law, the authorization expires at the end of fiscal year 1989.

Mr. President, few programs in the area of natural resource protection and recreation have been as successful as the Land and Water Conservation

Fund. It is the major funding source for Federal park and wildlands acquisition and is a major tool for land acquisition and recreation-related development for the States. Since its inception in 1965, the Land and Water Conservation Fund has enabled States and local governments to acquire 2.8 million acres of recreation lands and waters. Almost \$3 billion in Federal Land and Water Conservation Fund moneys have been matched on a 50-50 basis by the State and local authorities. On the Federal side, almost 3 million acres have been purchased with appropriations from the Land and Water Conservation Fund and added to the National Park, Forest, Wilderness and Wildlife Refuge Systems.

As many of my colleagues are aware, the President's Commission on Americans Outdoors is preparing to issue its final report to the President and the Nation. As a member of that Commission, I am pleased that the panel's report will recognize the importance of the Land and Water Conservation Fund and will suggest ways to ensure that the Land and Water Conservation Fund remains a viable funding source for park land acquisition and development of recreation facilities. Some of these suggestions and recommendations include transforming the Land and Water Conservation Fund into a dedicated trust fund; expanding the uses of the fund to include State and local recreation facility rehabilitation; providing for a variety of new funding sources in addition to Outer Continental Shelf oil and gas revenues; and establishment of a low- or no-interest revolving loan program for facility development and rehabilitation.

The measure I am introducing today obviously does not address these issues. Until the Commission's report is final and until the Congress and the public have a chance to examine the recommendations in more detail, I believe it would be premature to pursue these options legislatively. However, I think it is critically important to get a legislative vehicle on the table so that we may begin addressing the many issues associated with the Land and Water Conservation Fund in advance of its expiration in fiscal year 1989.

As the chairman of the Energy and Natural Resources Committee, I plan to make the reauthorization of the Land and Water Conservation Fund Act and the consideration of changes to that act major legislative priorities for the 100th Congress. I know that a number of my colleagues on the committee and in the Senate will want to join me in this effort and I look forward to their suggestions and support.

By Mr. JOHNSTON (for himself,  
Mr. BINGAMAN, Mr. BREAUX,  
and Mr. DOMENICI):

S. 85. A bill to amend the Powerplant and Industrial Fuel Use Act of

1978 to repeal the end use constraints on natural gas, and to amend the Natural Gas Policy Act of 1978 to repeal the incremental pricing requirements; to the Committee on Energy and Natural Resources.

#### NATURAL GAS UTILIZATION ACT OF 1987

● Mr. JOHNSTON. Mr. President, I am pleased to introduce the Natural Gas Utilization Act of 1987. The bill would repeal the end use limitations on the use of natural gas contained in the Powerplant and Industrial Fuel Use Act of 1978. It would also repeal the incremental pricing requirements in title II of the Natural Gas Policy Act of 1978.

Enactment of this legislation is long overdue. Anyone who is familiar with current conditions in the natural gas industry recognizes that we have an oversupply of natural gas. Limiting its use is not sound policy. Indeed, it is counterproductive because it discourages the use of a clean, abundant domestic source of energy. From a long-term perspective, it also discourages exploration for and production of natural gas. That, too, is counterproductive and needs to be corrected.

The bill is essentially identical to a bill Senator DOMENICI and I introduced in the 99th Congress, S. 1251. A few technical corrections have been made. Indeed, the provisions are essentially the same as those contained in four different bills pending before the Energy and Natural Resources Committee at the end of the 99th Congress. In addition to the bill Senator DOMENICI and I introduced, there were Fuel Use Act amendments and incremental pricing provisions included in two bills introduced by the Senator from Oklahoma [Mr. NICKLES] and in the administration's comprehensive natural gas bill.

It should also be noted that the House of Representatives passed a bill last year that was introduced by Congressman BRYANT that would have had the same effect. The bill passed on the suspension calendar, which indicates that there was no substantial opposition to its passage in the entire House of Representatives.

Virtually every segment of the natural gas industry, from the wellhead to the burnertip, has endorsed legislation such as this.

If there is no substantial opposition, why hasn't this bill been enacted? The simple reason is this: It has been held hostage to passage of more comprehensive natural gas deregulation legislation. I certainly support passage of more comprehensive natural gas legislation, but I do not believe it is appropriate to hold this much-needed legislation hostage while we attempt to fashion a consensus natural gas bill. Thus, as Chairman of the Energy and Natural Resources Committee I intend to hold an early markup on this bill in the hope that we can succeed in get-

ting the bill enacted in the early days of the 100th Congress.

Mr. President, I ask unanimous consent that the text of the Natural Gas Utilization Act of 1987 be printed at this point in the RECORD.●

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 85

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. (a) SHORT TITLE.—This Act may be referred to as the "Natural Gas Utilization Act of 1987".

(b) TABLE OF CONTENTS.—

#### TABLE OF CONTENTS

- Sec. 1. Short title; table of contents.
- Sec. 2. Repeal of certain sections of the Powerplant and Industrial Fuel Use Act of 1978.
- Sec. 3. Conforming amendments.
- Sec. 4. Repeal of incremental pricing requirements.
- Sec. 5. Effective date.

#### REPEAL OF CERTAIN SECTIONS OF THE POWERPLANT AND INDUSTRIAL FUEL USE ACT OF 1978

SEC. 2. (a) The following sections of the Powerplant and Industrial Fuel Use Act of 1978 (42 U.S.C. 8301 et seq.) are repealed:

- (1) sections 103 (a)(16), (a)(18), (a)(19), and (a)(29)—(42 U.S.C. 8302 (a)(16), (a)(18), (a)(19), and (a)(29));
- (2) sections 201 and 202 (42 U.S.C. 8311 and 8312);
- (3) section 302 (42 U.S.C. 8342);
- (4) section 401 (42 U.S.C. 8371);
- (5) section 402 (42 U.S.C. 8372); and
- (6) section 405 (42 U.S.C. 8375).

(b) The table of contents of the Powerplant and Industrial Fuel Use Act of 1978 is amended by striking the items relating to the sections repealed by subsection (a) of this section.

#### CONFORMING AMENDMENTS

SEC. 3. (a) Section 102 of the Powerplant and Industrial Fuel Use Act of 1978 (42 U.S.C. 8301) is amended by striking "and major fuel-burning installations" and "and new" wherever these phrases appear.

(b) Section 103 of the Powerplant and Industrial Fuel Use Act of 1978 (42 U.S.C. 8302) is amended—

- (1) in subsection (a)(13)(B), by—
  - (A) striking clause (ii)(III);
  - (B) striking "; or" at the end of clause (ii)(II), and inserting a period in its place; and
  - (C) inserting "and" at the end of clause (ii)(I);
- (2) in subsection (a)(15), by striking "or major fuel-burning installation" and "or new" wherever these phrases appear;
- (3) in subsection (a)(20), by striking "or major fuel-burning installation";
- (4) by redesignating subsections (a)(17), (a)(20), (a)(21), (a)(22), (a)(23), (a)(24), (a)(25), (a)(26), (a)(27), and (a)(28) as subsections (a)(16), (a)(17), (a)(18), (a)(19), (a)(20), (a)(21), (a)(22), (a)(23), (a)(24), and (a)(25);
- (5) in subsection (b), by striking "or major fuel-burning installation" wherever this phrase appears;
- (6) in subsection (b)(1)(D), by striking everything after "synthetic gas involved" and inserting in its place a period; and

(7) by striking subsection (b)(3), and redesignating subsection (b)(4) as subsection (b)(3).

(c) Section 104 of the Powerplant and Industrial Fuel Use Act of 1978 (42 U.S.C. 8303) is amended to read as follows:

"The provisions of the Act shall apply in all the States, Puerto Rico, and the territories and possessions of the United States, except Hawaii and Alaska."

(d) Section 303 of the Powerplant and Industrial Fuel Use Act of 1978 (42 U.S.C. 8343) is amended—

(1) by striking "or installation" and "or installation" wherever the phrases appear;

(2) by striking "or 302" wherever the phrase appears;

(3) by striking subsection (a)(3);

(4) by amending subsection (b)(1) to read as follows:

"(1) The Secretary may prohibit, by rule, the use of natural gas or petroleum under section 301(b) in existing electric powerplants."

(5) in subsection (b)(3), by striking "or major fuel-burning installation"; and

(6) by amending the last sentence of subsection (b)(3) to read as follows: "Any such rules shall not apply in the case of any existing electric powerplant with respect to which a comparable prohibition was issued by order."

(e) Section 403 of the Powerplant and Industrial Fuel Use Act of 1978 (42 U.S.C. 8373) is amended by striking—

(1) in subsection (a)(1), "major fuel-burning installation, or other unit" and the comma immediately preceding this phrase and "installation, or unit" and the comma immediately preceding this phrase;

(2) in subsection (a)(2), "installation, or other unit" and the comma immediately preceding that phrase, and "installation, or unit" and the comma immediately preceding that phrase;

(3) in subsection (a)(2), the last sentence; and

(4) subsection (a)(3).

(f) Section 404 of the Powerplant and Industrial Fuel Use Act of 1978 (42 U.S.C. 8374) is amended by striking—

(1) in subsection (c), "new or" in the phrase "applicable to any new or existing electric powerplant"; and

(2) subsection (g).

(g) Section 701 of the Powerplant and Industrial Fuel Use Act of 1978 (42 U.S.C. 8411) is amended by striking—

(1) in the last sentence of subsection (b), "or installation";

(2) subsection (c);

(3) in the title of subsection (d), "And Exemptions";

(4) in the first sentence of subsection (d)(1), "or any petition for any order granting an exemption (or permit)";

(5) in subsection (d)(1)(B), "or in the consideration of such petition";

(6) in subsection (f), "or a petition for an exemption (or permit) under this Act (other than under section 402 or 404)"; and

(7) subsection (g).

(h) Section 702 of the Powerplant and Industrial Fuel Use Act of 1978 (42 U.S.C. 8412) is amended by striking—

(1) in the title of subsection (a), "Or Exemption";

(2) in subsection (a), "or granting an exemption (or permit)";

(3) subsection (b), and redesignating subsection (c) as subsection (b);

(4) in the first sentence of subsection (b)(1) (as redesignated), "or by the denial of a petition for an order granting an exemp-

tion (or permit) referred to in subsection (b)";

(5) in the first sentence of subsection (b)(1) (as redesignated), "such rule, order, or denial is published under subsection (a) or (b)" and inserting in its place "such rule, or order is published under subsection (a)";

(6) in the first sentence of subsection (b)(2) (as redesignated), "the rule, order, or denial" and inserting in its place "the rule or order";

(7) in the second sentence of subsection (b)(2) (as redesignated), "(or denial thereof)"; and

(8) in subsection (b)(3) (as redesignated), "any such rule, order, or denial" and inserting in its place "any such rule or order".

(i) Section 711 of the Powerplant and Industrial Fuel Use Act of 1978 (42 U.S.C. 8421) is amended by striking in the first sentence of subsection (a), "or a major fuel-burning installation".

(j) Section 721 of the Powerplant and Industrial Fuel Use Act of 1978 (42 U.S.C. 8431) is amended by striking subsection (c) and redesignating subsection (d) as subsection (c).

(k) Section 723 of the Powerplant and Industrial Fuel Use Act of 1978 (42 U.S.C. 8433) is amended by striking subsection (b) and redesignating subsections (c) and (d) as subsections (b) and (c).

(l) Section 731 of the Powerplant and Industrial Fuel Use Act of 1978 (42 U.S.C. 8441) is amended by striking—

(1) "or major fuel-burning installation" wherever the phrase appears; and

(2) "title II or" in subsections (a)(1) and (g)(3).

(m) Section 745 of the Powerplant and Industrial Fuel Use Act of 1978 (42 U.S.C. 8455) is amended by striking in the first sentence of subsection (a), "from new and existing electric powerplants and major fuel-burning installations" and inserting in its place "from existing electric powerplants".

(n) Section 761 of the Powerplant and Industrial Fuel Use Act of 1978 (42 U.S.C. 8471) is amended by striking—

(1) in subsection (a), "any existing or new electric powerplant or major fuel-burning installation" and inserting in its place "any existing electric powerplant"; and

(2) in subsection (b)—

(A) "new or" in the phrase "In the case of any new or existing facility"; and

(B) "except to the extent provided under section 212(b) or section 312(b)" and the comma immediately preceding that phrase.

#### REPEAL OF INCREMENTAL PRICING REQUIREMENTS

SEC. 4. (a) Subject to subsections (b) and (c) of this section, title II of the Natural Gas Policy Act of 1978 (15 U.S.C. 3341-3348) is repealed, and the items relating to title II are stricken from the table of contents of that Act.

(b) A rule promulgated by the Commission under title II of the Natural Gas Policy Act of 1978 shall continue in effect only with respect to the flowthrough of costs incurred before the enactment of this section including any surcharge based on such costs.

(c) The Commission may take appropriate action to implement this section.

#### EFFECTIVE DATE

SEC. 5. The provision of this Act shall take effect on the date of enactment.

● Mr. DOMENICI. Mr. President, I am glad to be joining my colleague, Senator JOHNSTON, in introducing legislation to repeal the Fuel Use Act of

1978 [FUA] and the incremental pricing requirements of the Natural Gas Policy Act of 1978. This bill is the same as that introduced in the last Congress which we unfortunately were unable to get passed. I hope we have better luck in this Congress. This legislation is important for my State and for our Nation. The provisions it would repeal are the perfect examples of laws which are counterproductive to our Nation's energy independence.

The Fuel Use Act [FUA] was enacted in 1978 to shift electric utility plants and major industrial fuel-burning installations [MFBI] from oil and natural gas to coal. The FUA was largely in response to the Arab oil embargo of 1973 which highlighted the dependence on unstable imported oil sources and the gas supply shortages of the mid-1970's which were induced by the regulatory scheme then in place. Nearly 25 years of Federal well-head price regulation has kept the price of gas below the market clearing levels, thereby discouraging the exploration for, and production of, this energy source.

While FUA was passed to limit the demand for gas, the Natural Gas Policy Act [NGPA] was passed to stimulate the exploration for and development of new gas sources. The NGPA has provided the framework for a transition to a decontrolled gas market. The supply impetus provided by the NGPA has been both obvious and encouraging. The gas market went from shortages to surpluses. Natural gas reserve additions from 1980 through 1983 equaled 102 percent of gas production, compared to only 48 percent in the 1969-78 period, excluding the 1-year addition of the Prudhoe Bay, AK, discovery.

Many believe that the restriction imposed on electric utilities and large industrial plants by FUA were ill-conceived, and that the success of NGPA in stimulating new gas supplies precludes the need to retain FUA. This opinion was given support in 1981 when a portion of FUA was repealed. As mandated in the original legislation, "existing" powerplants and MFBI (pre-1977) will not be required to be "off gas" by 1990. However, new electric utility plants and MFBI's still may not use gas as an energy source. A major fuel burning installation is any industrial boiler, cogenerator, turbine, or internal combustion engines with a fuel input capacity in excess of 100M Btu per hour.

With the preclusion of gas the options available for future electricity generation are limited to nuclear, coal, foreign imports, or to postponing construction. Each of these options has problems which may delay its timely development. For instance, nuclear power has been plagued with a history of regulatory, economic and construc-

tion delay problems. The coal-fired electricity generation can be a viable energy alternative; however, due to the environmental requirements on coal combustion and emission control of sulfur dioxide, the cost of coal-fired facilities can equal or out pace nuclear facilities on capital investments. Furthermore, even when equipped with precipitators, scrubbers, and other pollution control systems, coal combustion still produces more pollution than gas combustion. Natural gas combustion produces virtually no sulfur dioxide (SO<sub>2</sub>), particulate matters, solid waste, and significantly less nitrogen oxides and water pollution than coal combustion. In fact, natural gas has always been, and will continue to be, the cleanest fossil fuel. The importation of electrical power and industrial products has had negative impacts on domestic employment, gross national product (GNP), and the balance of trade deficit. Electricity imported from Canada is projected to increase from 17,800 gigawatt hours in 1981 to 35,000 gigawatt hours in 1995 and result in the cancellation of five coal-fired powerplants in Northwestern United States (3,519 megawatts). Postponing new construction is not a long-term option because regardless of the economic growth rate, new capacity will be needed sooner or later.

Because we are committed to the protection of our environment, we need to recognize that the inherent cleanliness of gas is beneficial to the environment and energy consumers. "Select gas" use can be a low-cost method of environmental compliance without sacrificing our economic growth in energy cost and manufacturing production. The simultaneous combustion of gas and less environmental attractive fuels (that is high-sulfur coal or oil) under the bubble policy can offer us the benefits I mentioned earlier. With the select gas use we can reduce our dependence on imported oil, increase use of our abundant domestic coal and gas resources, maintain our air quality standards, and enhance the employment outlook for Eastern and Midwestern coal miners. For the energy consumers, select use can cut overall fuel costs, reduce our susceptibility to fuel supply disruptions, and increase flexibility in siting new facilities.

The benefits of select use via the bubble policy have been proven already in many operating facilities in Vermont, New Jersey, and Pennsylvania. Even though the success of select use will depend on site-specific variables, such as emission limits, fuel cost differentials, and equipment type, the potential for it is great in many parts of the country. The report, "Evaluation of the Environmental and Other Benefits of the Selected Use of Natural Gas" by the Environmental Research and Technology, Inc., dated No-

vember 1983 concludes that select gas use not only reduces sulfur dioxide emissions but also reduces nitrogen oxides emissions and waste ash. From an economics point of view, it is generally less expensive for select gas use than use of scrubbers to achieve pollution reductions.

Sulfur oxide can be controlled by either removing sulfur from the fuel or sulfur oxide from the products of combustion. However, current technologies, such as scrubbers or coal cleaning, generally are capital intensive with high operating and maintenance cost or do not provide the necessary degree of sulfur oxide control.

I understand that there is a new nitrogen oxides control strategy, which utilizes natural gas, called reburning. It involves the reduction of nitrogen oxides in the furnace by downstream injection and burning natural gas. It appears that this technology is capable of reducing nitrogen oxides by 50 to 60 percent beyond the current new source performance standard level. EPA is currently conducting research programs to evaluate the potential of this technique for application to U.S. boilers. The use of natural gas can also generate more reactive and high capture efficiency of sorbent injection technology for enhanced sulfur oxide reduction. Gas has the unique advantage of allowing the simultaneous applications of reburn and sorbent injection technologies in the same boilers. The potential benefits of wider use of gas are both environmental and economic such that we can lower the energy costs and improve air quality.

A report issued by the General Accounting Office on March 23, 1982, entitled "A Market Approach to Air Pollution Control Could Reduce Compliance Costs Without Jeopardizing Clean Air Goals," suggested that a market approach, rather than command and control regulation, can save industry 90 percent in pollution abatement cost. The cost of saving can be translated to over \$35 billion of capital outlays. Thus, the FUA is impeding a cost-effective technology for reducing air pollutants.

The combined implementation of the Fuel Use Act and incremental pricing requirements maintains economic inefficiencies on the marketplace. As I mentioned earlier, natural gas has been recognized as a superior fuel for utilities and industrial boilers. Throughout the 1960's and early 1970's natural gas was encouraged for such use by pollution control measures. With pricing controls and increased usage of natural gas, the imbalance between supply and demand worsened during the 1970's. Some feared that future supplies might not be adequate for both small (residential/commercial) and large (utility/industrial) users; hence, the incremental pricing theory was intended to shelter

the small users by allocating expensive gas to large users and to promote conservation and coal conversion by large users. Incremental pricing requires that gas rate for certain industrial boilers must be set at rough parity with residual oil, even if gas would otherwise be less expensive. However, the increased costs placed an undue burden on the utilities and on residential and commercial users, who are basically dependent on the utilities for their energy needs. Therefore, incremental pricing not only fails to protect the small consumers, but also distorts the supply and demand of natural gas. Incremental pricing is also inhibiting the potential displacement of imported oil by domestic natural gas; even though over 95 percent of our natural gas is derived from domestic sources, while roughly 30 percent of our oil is imported.

Some may argue that the supply of gas in the long run would not be as attractive as it seems now, and speculate on how large the excess capability is and how long it will last. Because of this, they would claim the repeal of the Fuel Use Act and incremental pricing provisions is a risky step. The preliminary finding of a 1984 Natural Gas Reserve report issued by the American Gas Association coupled with the Annual Energy Information Administration (EIA) report indicates that total U.S. gas reserves have increased since the end of 1980 (that is aggregate reserve additions for the United States have exceeded aggregate production for the 4 years—1981, 1982, 1983, and 1984). Natural gas reserves reported by the 30 largest reserve holders showed that in 1984 reserve additions were about 7,355 Bcf—up 1,202 Bcf from a year earlier. To an even greater extent, major gas transportation companies reported strong increases in their total reserves in 1984. This sample of gas transportation companies accounted for 2,071 Bcf of reserve additions in 1984, as compared to 1,467 Bcf of reserve additions in 1983, and 1,567 Bcf in 1982. Clearly, the market is no longer restricted to the supply available, but it is restricted on the demand side through FUA and this will eventually feed back to the production side of the market.

Natural gas production in the United States in 1984 rebounded from the previous year's level. The top 30 producers increased 3.9 percent to a level of 8,711 Bcf. The statistics also indicate that in 1984 new discoveries represented a higher percentage of the major company reserve additions than a year ago. In 1984, total new gas additions were 90.2 percent of the reserve added by the top 30 reserve holders. In 1983, this percentage was 75 percent. AGA estimates that 1985 domestic unused production capability will be

about 2.9 Tcf, up from 2.8 Tcf in 1984. However, natural gas production in 1985 will be limited again by the demand of natural gas. It is evident that the short-term gas supply outlook is very good with persisting excess domestic deliverability. The long-term outlook is also positive. We have reason to hope that U.S. natural gas supplies from the lower 48 States can be consistent through the end of the century. But, as in the case of oil, uranium, and coal, gas supplies are not guaranteed. To a large degree, it depends on Government policy. Competitive pricing in the free market will only improve supply.

In summary, I strongly believe that increased use of natural gas either alone in conjunction with other fuels could meet our environmental mandates, benefit the energy consumers, and improve our economic outlook. I am not suggesting that all new powerplants and large industrial boilers should be gas fired. However, I do believe it is a choice that needs to be made by the plant operators and it cannot be made effectively by legislators. Plant operators need the utmost of flexibility in making their plant energy decision, because such flexibility encourages efficiency and creativity. FUA blocks this flexibility. Therefore, I am introducing this bill today to repeal such restrictions and I hope that my colleagues will join me in support of this bill.●

By Mr. GLENN:

S. 86. A bill to amend section 1105(c) of title 31, United States Code, to limit the amount of any increase in the public debt limit that the President may recommend for a fiscal year; to the Committee on Governmental Affairs.

LIMITATION ON RECOMMENDED INCREASES IN  
THE PUBLIC DEBT

● Mr. GLENN. Mr. President, I rise to introduce a bill intended to improve our budget process and the Gramm-Rudman-Hollings legislation and which also will serve as a basis for continued fiscal responsibility long after Gramm-Rudman-Hollings expires.

Let me describe what my bill does.

The bill requires that when the President submits his budget to Congress, he must either send us a balanced budget or tell us how to get to a balanced budget. It does this by amending section 1105 of title 31 of the United States Code, the section that tells us when and how the President must submit his annual budget. At present, that section requires the President to "recommend in the budget appropriate action" on how to make up any deficit. My bill would clarify the term "appropriate action" so that the President cannot recommend additional borrowing, or more piling up of the national debt, as the

only way of complying with a law that has been in place since 1921.

This bill is perfectly consistent with Gramm-Rudman. In fact, I think it improves Gramm-Rudman. It contains phase-in language, so that between now and 1991 the President may recommend a budget deficit that complies with the Gramm-Rudman targets.

Mr. President, with minor technical differences, this bill is identical to the amendments I offered to debt ceiling legislation in the last Congress. In 1985, the amendment passed the Senate by a vote of 93 to 4, and in 1986 the amendment was accepted by voice vote. At each of those times I noted that the law has always required the President to report on ways to make up for a budget deficiency. Over the years, however, two things have happened. First, Presidents have failed to file specific suggestions as to how to achieve a balanced budget. The Office of Management and Budget apparently believes that simply filing the budget satisfies the requirement of a section 1105 report; therefore, there is no one place in the Government where you can find specific Presidential recommendations on how we are going to make ends meet. Second, over the years Presidents typically have taken the easy way out and simply asked for more borrowing authority when they saw that revenues were going to fall short of outlays.

The result is that we have a law that was designed to impose fiscal responsibility but now does absolutely nothing. I agree that we need to restore fiscal responsibility, but we need to do so by starting where that process must start: with the President himself. We are not staffed or equipped at the congressional and of Pennsylvania Avenue to do this job. Under law, that is the President's responsibility.

Let me elaborate on this point, because it is important.

By law, the President initiates the budget process when he submits his recommendations to Congress in January each year. Then the Congress works its will. The final result is the 13 appropriations bills that the Constitution requires we pass before funds can be drawn from the Treasury in each of the 13 areas.

I emphasize that the appropriations bills are the final result, because I want to draw attention to the role played by Congress versus the role played by the President, for we have heard that it is Congress that is irresponsible in appropriating excessive amounts of money, and that this is why we need to impose spending restraints like Gramm-Rudman.

Well, it might come as a surprise to my colleagues to learn that Congress has actually appropriated less than what the President has asked for in his appropriations requests. For fiscal year 1985, Congress appropriated \$16.6

billion less than what the President asked for; for fiscal year 1986 we appropriated \$6 billion less. And last year to top that off, the continuing resolution for fiscal 1987 was again below the President's appropriations request—by a full \$2.4 billion.

So it's clear that the label of fiscal irresponsibility cannot be tacked on the door of Congress. Consider this: In over 200 years, this Nation had run up a national debt of \$1 trillion—and that was the work of every President from George Washington through Jimmy Carter. But in just 5½ years, the Reagan administration has added a second trillion to that national debt. In other words, they've added as much debt as all the Presidents since George Washington put together.

My bill deals with these realities. In fact, if this measure had been in effect earlier, there probably wouldn't have even been a Gramm-Rudman bill. But without my bill, we are putting the pressure in the wrong place—namely, the Congress—when what we really need is a law that forces the President to submit a balanced budget.

As I have said, this amendment is perfectly compatible with Gramm-Rudman. However, it goes further than Gramm-Rudman in one important respect. Gramm-Rudman runs out after fiscal year 1991. Apparently the underlying assumption is that once we have reached a balanced budget, we no longer need the discipline that got us there. My bill, on the other hand, would impose a permanent requirement for fiscal responsibility, including every year following 1991, for which the President would have to submit a balanced budget or tell us exactly how to get there. If my amendment passes, no President will be able to submit a budget that is fat with deficits but contains no weight reduction plan.

I remind my colleagues that this bill, without some necessary technical changes, passed overwhelmingly (94-3) in 1985; unfortunately it was dropped from the bill in conference. On the strength of that vote, in 1986, the Senate passed a virtually identical amendment as part of the debt ceiling legislation (H.J. Res. 668). Since August 1986, I learned of a need to correct my bill to address a technical point. Thus, my new bill contains some technical changes, including changes to avoid any possible conflict with current Gramm-Rudman legislation.

I urge my colleagues to again favorably consider this measure.●

By Mr. GLENN:

S. 87. A bill to suspend for 2 years the duty on 1-(3-Sulfopropyl) pyridinium hydroxide; to the Committee on Finance.

● Mr. GLENN. Mr. President, I am introducing this legislation to suspend for 2 years the column 1 duty rate on imported 1-(3-sulfopropyl) pyridinium hydroxide. This legislation is noncontroversial and was included in the House trade bill, H.R. 4800.

At present, this duty rate is 13.5 percent ad valorem. The suspension would begin 15 days after the date of enactment and end on December 31, 1990. The column 2 duty rate would remain unchanged.

The chemical is a liquid with a density of approximately 10 pounds per gallon. It is synthesized from propane sulfone and pyridine. The chemical is used exclusively in a proprietary formulation for copper and nickel electroplating baths.

There has been no domestic production of 1-(3-sulfopropyl) pyridinium hydroxide in the past 5 years. The only U.S. producer stopped production 5 years ago due to the associated industrial hazards. The chemical is now solely produced by a West German company which developed a safe method of manufacturing it. The West German company exports the chemical to various companies in the United States. Since this chemical is not manufactured in the United States, the current duty adds an unjustified expense to these companies' costs of doing business. I urge my colleagues to support this legislation.●

By Mr. GLENN:

S. 88. A bill to amend the Tariff Schedules of the United States to extend the suspension of duties on umbrella frames; to the Committee on Finance.

#### UMBRELLA FRAME TARIFF

● Mr. GLENN. Mr. President, I am introducing this legislation to continue the temporary suspension of duties hand-held umbrella frames, by changing the termination date from December 31, 1986 to December 31, 1990. This bill is noncontroversial and should be acceptable to the Senate as part of the miscellaneous trade and tariff bill.

This duty suspension is absolutely necessary for the continued survival of the few umbrella manufacturers left in the United States. Foreign competition now makes up more than 95 percent of the domestic umbrella market. The last domestic frame manufacturer went out of business over 4 years ago, so our domestic umbrella manufacturers must import frames. The best quality and most competitively priced frames that are available to domestic umbrella manufacturers come from Taiwan. These frames used to enter the United States duty-free under the Generalized System of Preferences [GSP] program. In 1984, Taiwan lost eligibility for GSP under the so-called "competitive need" limitations, and a duty rate of 15 percent was imposed

(this duty rate has since been reduced to 12 percent). In 1984, I sponsored legislation to suspend this duty, and it was included in the 1984 tariff legislation. This suspension expired December 31, 1986, and the legislation I am introducing today will simply continue this duty suspension until December 31, 1990. I urge my colleagues to support this legislation.●

By Mr. GLENN:

S. 89. A bill to amend the Tariff Schedules of the United States to correct the classification of certain pigments; to the Committee on Finance.

#### PIGMENT DUTY CLASSIFICATION

● Mr. GLENN. Mr. President, today I am introducing legislation to change the duty classification of two commercial pigments, pigment red 214 and pigment yellow 155.

Under current duty classification, these pigments are classified in a category for imported goods which compete with domestic products. However, pigment red 214 and pigment yellow 155 have never been made in the United States. Therefore, they do not belong in this category.

Even though a need exists for these pigments in the American market, this need does not justify the investment of funds to domestically produce them. Instead, American manufacturers work with foreign manufacturers to distribute the pigments in the United States. But these pigments must compete with other imported pigments which are classified as noncompetitive with U.S. products and therefore are subject to a lower import duty. The erroneous duty classification of these pigments as competitive with American goods places U.S. importers of pigment red 214 and pigment yellow 155 at a distinct commercial disadvantage.

This legislation will simply correct this error and change the duty classification for these pigments to the noncompetitive category. This change reduces the duty from 15 percent to 8.3 percent. I urge my colleagues to support this legislation.●

By Mr. CHILES (for himself and Mr. GRAHAM):

S. 90. A bill to establish the Big Cypress National Preserve addition in the State of Florida, and for other purposes; to the Committee on Energy and Natural Resources.

#### BIG CYPRESS NATIONAL PRESERVE ADDITION ACT

● Mr. CHILES. Mr. President, today I am pleased to introduce legislation to authorize the expansion of the Big Cypress National Preserve in south Florida. This bill calls for placing in public ownership some 136,000 acres bordering the northeast boundary of the existing preserve. The acquisition program contemplated would be in conjunction with the planned construction of Interstate 75, providing a

unique opportunity to utilize Federal dollars allocated for the construction of an Interstate Highway to accomplish equally important goals of environmental restoration and endangered species protection. It is in the public interest to have these particular lands in Federal ownership, and it is practicable and incumbent on us to move on this land acquisition program as soon as possible.

#### WHY THESE LANDS SHOULD BE ACQUIRED

First, let me point out specifically how acquiring these particular lands will complement and, in fact, enhance ongoing activities aimed at protecting Everglades National Park and preserving the endangered Florida panther. As an original sponsor of the Federal legislation establishing the Big Cypress National Preserve, I am keenly aware of the critical role water quality and quantity plays in ensuring the livelihood of Everglades National Park.

The unique international treasure of Everglades National Park covers some 1,337,000 acres on land and water containing a diverse representation of vegetation and wildlife. The sawgrass wilderness areas, cypress swamps, mangrove forest and shallow estuarine bays that compose the park area support a wide variety of fish, bird, and other wildlife populations, including many endangered species. Though large in acreage, this ecosystem is fragile and totally dependent on the complex hydrology of the entire region. Located at the end of a watershed, the park's livelihood is dependent on the quality and quantity of water that flows into it. Studies have indicated how impeded water flow has adversely affected species and their habitats.

It was the strong concern for protecting the watershed area so critical to Everglades National Park that prompted consideration of purchasing lands which now encompass the Big Cypress National Preserve. The 574,000 acre preserve was established by Congress in 1974 to make sure this important watershed area was not further developed or disrupted. Additionally, the purchase of this area has provided significant recreational opportunities which will become increasingly important as south Florida continues to experience growth and development. To date more than \$180 million in Federal funds has been appropriated to purchase these important lands. Last year \$2 million was appropriated to help complete the acquisition program.

In addition to establishing the Big Cypress National Preserve, Congress has acted on another front to address the hydrological problems affecting the Everglades National Park. In the spring of 1983 the National Park Service staff recommended a broad based

program to restore the natural water flows that the park once received, but no longer experiences. The hydrologic imbalances over recent decades have resulted in severe damage to the fish and wildlife populations of the park. In the fall of 1983 Congress approved legislation as part of a funding bill for the Army Corps of Engineers to allow for a 2-year experiment to determine adequate water delivery schedules for the park. The Senate Appropriations Committee approved extension of this experiment. This extended timetable will allow for the determination of a water delivery schedule to accomplish the restoration of the hydrology and reestablishment of the historic flow water through Northeast Shark River Slough and Taylor Slough into the park.

Alligator Alley, the cross-state highway going from Andytown in Broward County to Naples, has disrupted the natural water flow in the Big Cypress Preserve area and has posed a major threat to Florida panthers and other wildlife of the region. The road functions as a dam in some areas, causing unnatural pooling of water while at the same time interrupting the important sheet flow so essential to Everglades National Park. The construction of I-75 along Alligator Alley provides an important opportunity to correct these hydrological problems and, in fact, plans are underway to ensure that this is done. Public ownership of the lands bordering the I-75 corridor will expand the watershed protection offered to Everglades National Park, prevent future development of these lands, and increase recreational opportunities for the general public.

In addition, it is important to point out how public ownership of these identified lands will foster efforts currently underway to protect the habitat of the Florida panther and other endangered species. There are currently estimated to be 20 to 30 Florida panthers in existence, making it among the most endangered species on Earth. All known Florida panthers in existence live in Everglades National Park, the Big Cypress National Preserve and Fakahatchee Strand. The U.S. Fish and Wildlife Service has proposed the establishment of a 32,000 acre National Wildlife Refuge in the Fakahatchee Strand area for the primary purpose of protecting the critical habitat of the panther, the State Animal of Florida. As a member of the Senate Appropriations Committee, I have worked over the past few years to secure funding for this important land acquisition project. Congress provided \$4 million in fiscal year 1985, \$3 million in fiscal year 1986 and \$3 million for fiscal year 1987.

The 136,000 acre area proposed for purchase under this bill contains land critical to the continuing survival of the endangered Florida panther. Pan-

ther fatalities have occurred as a result of automobile traffic on Alligator Alley. Provisions for wildlife crossings in the design for I-75 to allow panthers and other species to cross under the interstate show the commitment of the State in the continued protection of endangered species. The State of Florida Department of Transportation supports the construction of 23 new wildlife crossings and 13 bridge extensions, estimated to cost \$12.9 million. The State has agreed to finance that portion of the total cost which is determined to be nonparticipating by the Federal Highway Administration, approximately \$10 million. Public acquisition and management of these lands by the National Park Service as envisioned in this bill will complement the efforts of the Fish and Wildlife Service National Wildlife Refuge and will ensure that everything possible is done to guarantee the protection of panther, and other endangered species habitat.

#### WHY THESE LANDS SHOULD BE ACQUIRED NOW

The conversion of Alligator Alley to I-75 will sever existing access to private property north and south of the highway, requiring the payment of damages to the property owners by the Department of Transportation. Estimates are that severance damage funds, which must in any event be expended, will equal 47 percent of the value of the affected lands. The proposed legislation contemplates using the severance damage moneys to pay a portion of the cost of acquiring approximately 128,000 acres of privately owned land located immediately north of the existing Big Cypress National Preserve. The balance of the purchase price would be paid by the Department of the Interior and the State of Florida in the same cost-sharing arrangement (80/20) found in the original Big Cypress legislation.

If we act quickly to enact this legislation enabling the utilization of the DOT severance damage funds, we will make it possible for the public to acquire these environmentally significant lands for substantially less cost than would otherwise be possible. Within the next 6 months Florida DOT should be able to begin to make offers of severance damages to landowners along I-75. The other matching funds as well as the necessary legislative authority need to be available to complete full acquisition of the lands. For this reason, it is critical we secure approval of legislation to enable the State Department of Transportation to work with DOI and the State of Florida to accomplish the acquisition of these lands in conjunction with purchasing right-of-ways and paying severance damages associated with the construction of I-75.

The opportunity afforded by the construction of I-75 is too remarkable not to purchase these environmentally

significant lands and expand the boundaries of Big Cypress National Preserve. The challenge to protect the important values of Everglades National Park and the critical habitat of the Florida panther is too great for Congress not to move forward and implement this plan.

In closing, I want to point out the extent to which the State of Florida has demonstrated its commitment to a partnership with the Federal Government to achieve the goals I have outlined. As I mentioned previously, the State is willing to go above and beyond its necessary role in financing the construction of I-75 to enhance environmental restoration and endangered species protection. The 1985 Florida Legislature enacted legislation designating the 128,000 acre area as an "area of critical State concern." This designation gives the State eminent domain power over this land and thus will facilitate the joint Federal-State acquisition program for this property. This designation will also help protect the area against development until acquisition is complete. Additionally, the State has just recently committed some \$22 million in State funds for land acquisition in the Everglades area. The recent actions by the State of Florida coupled with the accelerated schedule for the construction of this portion of I-75 point to the need for expedient and positive action by Congress to approve this land acquisition program. I hope my colleagues will join me in this effort to protect and preserve the national treasures associated with Everglades National Park and Big Cypress National Preserve.

I ask unanimous consent that a copy of the bill be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 90

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

(a) SHORT TITLE.—This Act may be cited as the "Big Cypress National Preserve Addition Act".

(b) AMENDMENT OF BIG CYPRESS NATIONAL PRESERVE ACT.—Whenever in this Act an amendment is expressed in terms of an amendment to the Act of October 11, 1974, such amendment shall be considered to be made to the Act entitled "An Act to establish the Big Cypress National Preserve in the State of Florida, and for other purposes", approved October 11, 1974 (Public Law 93-440; 88 Stat. 1257).

#### SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—The Congress finds that—

(1) the planned construction of Interstate 75 is presently being designed in such a way as to improve the natural water flow to the Everglades National Park, which has been disrupted by State Road 84 (commonly known as "Alligator Alley");

(2) the planned construction of Interstate 75 provides an opportunity to enhance protection of the Everglades National Park, to promote protection of the endangered Florida panther, and to provide for public recreational use and enjoyment of public lands by expanding the Big Cypress National Preserve to include those lands adjacent to Interstate 75 in Collier County north and east of the Big Cypress National Preserve, west of the Broward County line, and south of the Hendry County line;

(3) the Federal acquisition of lands bordering the Big Cypress National Preserve in conjunction with the construction of Interstate 75 would provide significant public benefits by limiting development pressure on lands which are important both in terms of fish and wildlife habitat supporting endangered species and of wetlands which are the headwaters of the Big Cypress National Preserve; and

(4) public ownership of lands adjacent to the Big Cypress National Preserve would enhance the protection of the Everglades National Park while providing recreational opportunities and other public uses currently offered by the Big Cypress National Preserve.

(b) **PURPOSE.**—It is the purpose of this Act to establish the Big Cypress National Preserve Addition.

#### SEC. 3. ESTABLISHMENT OF ADDITION.

The Act of October 11, 1974, is amended by adding at the end thereof the following new section:

"Sec. 9. (a) In order to—

"(1) achieve the purposes of the first section of this Act;

"(2) complete the preserve in conjunction with the planned construction of Interstate Highway 75; and

"(3) insure appropriately managed use and access to the Big Cypress Watershed in the State of Florida, the Big Cypress National Preserve Addition is established.

"(b) The Big Cypress National Preserve Addition (referred to in this Act as the 'Addition') shall comprise approximately 136,000 acres as generally depicted on the map entitled Big Cypress National Preserve Addition, dated June, 1986, and numbered 176-91000B, which shall be on file and available for public inspection in the Office of the National Park Service, Department of the Interior, Washington, D.C., and shall be filed with appropriate offices of Collier County in the State of Florida. The Secretary shall, as soon as practicable, publish a detailed description of the boundaries of the Addition in the Federal Register.

"(c) The area within the boundaries depicted on the map referred to in subsection (b) shall be known as the Big Cypress National Preserve Addition."

#### SEC. 4. ADMINISTRATION OF ADDITION.

(a) **UNIT OF THE NATIONAL PARK SYSTEM.**—The Act of October 11, 1974, is amended by adding at the end thereof the following new section:

"Sec. 10. (a) The Secretary shall administer the Addition in accordance with this Act and the provisions of law generally applicable to units of the national park system, including the Act entitled 'An Act to establish a National Park Service, and for other purposes', approved August 25, 1916 (39 Stat. 535; 16 U.S.C. 1-4).

"(b) In administering the Addition, the Secretary shall develop and publish in the Federal Register such rules and regulations as the Secretary deems necessary and ap-

propriate to manage and control the use of Federal lands and waters with respect to—

"(1) motorized vehicles;

"(2) exploration for and extraction of oil, gas, and other minerals;

"(3) grazing and agriculture;

"(4) draining or constructing of works or structures which alter the natural water courses;

"(5) recreational uses, including hunting, fishing, and trapping, which shall be promoted and encouraged;

"(6) new construction of any kind; and

"(7) such other uses as the Secretary determines must be limited or controlled in order to carry out the purposes of this Act.

"(c) For purposes of administering the Addition and notwithstanding section 2(c), it is the express intent of the Congress that the Secretary should substantially complete the land acquisition program contemplated with respect to the Addition in not more than five years after the date of the enactment of this paragraph."

(b) **HUNTING, FISHING, AND TRAPPING.**—Section 5 of the Act of October 11, 1974, is amended by inserting "and the Addition" after "preserve" each place it appears.

(c) **SUITABILITY AS WILDERNESS.**—Section 7 of the Act of October 11, 1974, is amended—

(1) by inserting "with respect to the preserve and five years from the date of the enactment of the Big Cypress National Preserve Addition Act with respect to the Addition" after "date of the enactment of this Act" in the first sentence; and

(2) by inserting "or the area within the Addition (as the case may be)" after "preserve" each place it appears.

(d) **INDIAN RIGHTS.**—Section 6 of the Act of October 11, 1974, is amended as follows:

(1) In clause (i) insert "and the Addition" after "preserve" and insert "(January 1, 1985, in the case of the Addition)" after "1972".

(2) In clause (ii) insert "or within the Addition" after "preserve".

#### SEC. 5. ACQUISITION OF LAND WITHIN ADDITION.

(a) **UNITED STATES SHARE OF ACQUISITION COSTS.**—The first section of the Act of October 11, 1974, is amended by adding at the end thereof the following new subsection:

"(d)(1) The aggregate cost to the United States of acquiring lands within the Addition may not exceed 80 percent of the total cost of such lands.

"(2) Except as provided in paragraph (3), if the State of Florida transfers to the Secretary lands within the Addition, the Secretary shall pay to or reimburse the State of Florida (out of funds appropriated for such purpose) an amount equal to 80 percent of the total costs to the State of Florida of acquiring such lands.

"(3) The amount described in paragraph (1) shall be reduced by an amount equal to 20 percent of the amount of the total cost incurred by the Secretary in acquiring lands in the Addition other than from the State of Florida.

"(4) For purposes of this subsection, the term 'total cost' means that amount of the total acquisition costs (including the value of exchanged or donated lands) less the amount of the costs incurred by the Federal Highway Administration and the Florida Department of Transportation, including severance damages paid to private property owners as a result of the construction of Interstate 75."

(b) **METHODS OF LAND ACQUISITION IN THE ADDITION.**—The first sentence of subsection (c) of the first section of the Act of October 11, 1974, is amended—

(1) by inserting "or the Addition" after "preserve" the first place it appears; and

(2) in the first proviso—

(A) by inserting "in the preserve" after "subdivisions,"; and

(B) by striking out the colon and inserting in lieu thereof "and, any land acquired by the State of Florida, or any of its subdivisions, in the Addition shall be acquired in accordance with subsection (d):".

(c) **VALUATION AND APPRAISAL.**—The fourth sentence of subsection (c) of such section is amended by inserting "or the Addition" after "preserve" each place it appears.

(d) **ACQUISITION OF PROPERTY RIGHTS BY THE STATE OF FLORIDA.**—Subsection (c) of such section is amended by adding at the end thereof the following: "Nothing in this Act shall be construed to interfere with the right of the State of Florida to acquire such property rights as may be necessary for Interstate 75."

(e) **EXCLUSION OF SUBSURFACE ESTATE.**—The third sentence of subsection (c) of such section is amended by inserting "and the Addition" after "preserve" each place it appears.

(f) **IMPROVED PROPERTY IN ADDITION.**—Section 3(b) of the Act of October 11, 1974, is amended—

(1) in clause (i) by inserting "with respect to the preserve and January 1, 1986, with respect to the Addition" after "November 23, 1971,"; and

(2) in clause (ii)—

(A) by inserting "with respect to the preserve and January 1, 1986, with respect to the Addition" after "November 23, 1971," the first place it appears; and

(B) by inserting "or January 1, 1986, as the case may be," after "November 23, 1971," the second and third places it appears.

#### SEC. 6. COOPERATION AMONG AGENCIES.

The Act of October 11, 1974, is further amended by adding at the end thereof the following new section:

"Sec. 11. The Secretary and other involved Federal agencies shall cooperate with the State of Florida to establish recreational and oil, gas, and mineral access points and roads, rest and recreation areas, appropriate wildlife protection, and, where appropriate, hunting, fishing, frogging, and other recreational opportunities in conjunction with the creation of the Addition and in the construction of Interstate Highway 75. Not more than 3 of such access points shall be located within the preserve (including the Addition)."

#### SEC. 7. REPORT TO CONGRESS.

The Act of October 11, 1974, is further amended by adding at the end thereof the following new section:

"Sec. 12. Not later than one year after the date of the enactment of this section, the Secretary shall submit to the Congress a detailed report on, and further plan for, the preserve and Addition including—

"(1) the status of the existing preserve, the effectiveness of past regulation and management of the preserve, and recommendations for future management of the preserve and the Addition;

"(2) a summary of the public's use of the preserve and the status of all access rights for public and private use;

"(3) the need for involvement of other State and Federal agencies in the management and expansion of the preserve and Addition;

"(4) the status of land acquisition; and

"(5) a determination, made in conjunction with the State of Florida, of the adequacy of the number, location, and design of the recreational access points on I-75/Alligator Alley for access to the Big Cypress National Preserve, including the Addition.

The determination required by paragraph (5) shall incorporate the results of any related studies of the State of Florida Department of Transportation and other Florida State agencies. Any recommendation for significant changes in the approved recreational access points, including any proposed additions, shall be accompanied by an assessment of the environmental impact of such changes."

#### SEC. 8. AUTHORIZATION OF APPROPRIATIONS.

Section 8 of the Act of October 11, 1974, is amended—

(1) by striking out "There" in the first sentence and inserting in lieu thereof "(a) Except as provided in subsection (b), there"; and

(2) by adding at the end thereof the following new subsection:

"(b) There are authorized to be appropriated such sums as may be necessary to acquire lands within the Addition."

● **Mr. GRAHAM.** Mr. President, on my first day in the Senate, I am pleased to be introducing, with Senator CHILES, the Big Cypress Preserve Addition bill. As Governor of Florida, I initiated the Save Our Everglades Program. As Senator, I intend to enhance this initiative through the 136,000 acre acquisition of lands vital to the protection of the everglades. This bill has national significance in preserving a unique environmentally sensitive national park from degradation and in preserving the Florida panther from extinction.

The importance and timeliness of the Big Cypress bill go far beyond a mere land acquisition. What is at stake is a sizable, existing financial investment—and a priceless biosphere of worldwide environmental significance.

If we fail to act, those 136,000 acres comprising the Big Cypress Addition will likely be developed into citrus groves and subdivisions. The resulting alterations in water flow and the degradation in water quality could be drastic. Plant and animal life could suffer immeasurable—perhaps irreparable—damage. Future water supplies for rapidly growing southwest Florida would surely suffer.

One of the most important investments in our national parks system would be wasted.

Everglades National Park and the Big Cypress National Preserve which border it are places unlike any other. Through them flows most of southwest Florida's fresh water. They are home to the rare and endangered species of plant and animal: the green and purple dollar orchid, the colorful tree snail, the southern bald eagle and the vanishing Florida panther.

Nowhere else in the world can you see crocodiles, sawgrass, manatees, mangroves, cypress knees, whitetail deer, swamp lillies, and indigo snakes—

all coexisting in a delicate ecological balance.

A century ago we started to lose the everglades when developers drained the swamps and the wetlands for housing projects and cattle and farm land. In those days we didn't understand the unique and irreplaceable nature of Florida's singular ecosystem.

We now know that the fragile, complicated everglades are the heart of Florida. The survival of Everglades National Park depends on water which flows across the land from the Big Cypress Swamp and the everglades to the north of its boundaries. That is why the acquisition of sensitive lands adjacent to and buffering Everglades National Park and the Big Cypress National Preserve is crucial to the survival of those resources.

The water flow through the Big Cypress Preserve feeds Everglades National Park—literally keeps it from drying up. The tract of land specified in this bill is the source of that water flow—and is also an integral part of the habitat for the Florida panther. There are probably only about 30 panthers left in the world—all in south Florida.

We in Florida are most urgently aware of what is at stake in the preservation of the everglades.

We've seen the graphic and terrible results of letting the everglades dry out.

In the early 1970's and again in the early 1980's—during severe droughts—half a million acres of hardwood and sawgrass went up in flames. The river of grass became a sheet of fire. The crisis forced strict water rationing in some of our major cities, from Palm Beach to Key West.

We cannot let that happen again—and with the public acquisition and protection and the everglades' water system—with the creation of that envelope of protection around Everglades National Park—it never will.

This envelope of protection is also of vital importance to the rapidly growing population of southwest Florida. The Big Cypress Swamp is a source of water for the cities of southwest Florida. In future decades it will be critical to the water supplies of a rapidly growing gulf coast.

In 1983 the State of Florida put together one of the most progressive and aggressive land acquisition programs ever seen in an effort to restore the health of the everglades before it was too late.

Under the program called Save Our Everglades, Florida is attempting to turn back the clock. By the year 2000 the everglades will look and function more like it did in the year 1900 than it does today. The Save Our Everglades Program is as much about undoing past mistakes as it is about future preservation.

Save Our Everglades has a comprehensive set of goals including: the restoration of the natural meandering path of the channelized Kissimmee River—headwaters for the great fresh water river spilling slowly down through the State and replenishing Everglades National Park; the development of a comprehensive program to restore Lake Okeechobee and prevent its further pollution; the reflooding of a 100 square-mile tract of drained land in Palm Beach County, restoring it to its natural everglades condition; the management of the deer population at a level that can survive seasonal extremes in water levels; purchase of land in the East Everglades, Fakahatchee Strip and Big Cypress to expand the protective envelope around the park and to ensure safe habitat for the Florida panther; and the inclusion of the hydrologic structures and animal crossing in the Interstate 75 conversion.

Ultimately, the protected lands will total about 3,400,000 acres. Nearly 2,900,000 acres of that are under State/Federal ownership now. Florida has the largest program for public acquisition of environmentally sensitive lands in the Nation.

The Big Cypress Addition is a minimal investment with maximum return—the survival of Everglades National Park and the viability of the everglades' system and a continued drinking water supply for southwest Florida.

It is ironic that visionary public works projects to drain and develop the everglades first endangered them—and that today, a visionary public works project can help to save them.

The conversion of Alligator Alley to Interstate 75 will have hydrologic structures to permit the continuous flow of water southward. It will also have 36 panther and animal underpasses to allow safe movement under the road.

The severance damages required by the conversion place the acquisition of the surrounding land within reach. The opportunity exists to purchase these 136,000 acres for about half their appraised value.

This is a rare windfall. We can acquire a key piece of the envelope in the heart of the buffer zone without paying a phenomenally high price for it.

Everglades National Park and the Big Cypress National Preserve comprise 2,000,000 acres. The State of Florida donated the majority of the land for Everglades National Park when it was formed in 1947. Additionally, in 1973, Florida contributed \$40 million for acquisition of the Big Cypress National Preserve. The State has since acquired over 940,000 acres to

buffer and protect these federally owned areas.

The water flow is interrupted by some significant parcels not yet acquired which are crucial to the free flow of the entire system. The Big Cypress Addition is at the heart of the buffer zone we need to complete to protect Everglades National Park.

Everglades National Park is the second largest national park in the continental United States.

It is the only subtropical park in the Nation's system.

Unlike other parks such as Grand Canyon or Yosemite which are more or less self-contained—Everglades National Park is dependent on lands outside its own boundaries—dependent on water which can only be ensured if the land over which the water flows is publicly owned.

It is a tropical aquatic preserve—one of only three United Nations-designed international biosphere reserves and world heritage sites in this country—and one of only eight such designated sites in the world. Its biological diversity is unmatched in North America; it has more endangered species than any other national park in the United States.

We in Congress have an obligation to the rest of the world—not just to Floridians or even Americans—to preserve the mysterious beauty of the everglades and the complexities of their function as a water provider—to preserve also the singular plant and animal and marine life species only found in the everglades hammocks and marshes.

State and Federal cooperation in the purchases of the Big Cypress Addition is profoundly more important than a good real estate deal.

We will be securing a priceless heritage for future generations. Our grandchildren—and their children—will live in a world that still shelters the roseate spoonbill, the ghost orchid and the Florida panther. We will have closed the protective envelope around Everglades National Park and the Big Cypress National Preserve, safeguarded the water supply for south Florida—demonstrated that vision and good investment, in this case, are the same.●

By Mr. INOUE:

S. 91. A bill to amend title 38, United States Code, to modify the qualifications required for appointment to the positions of Chief Medical Director, Deputy Chief Medical Director, and Associate Deputy Chief Medical Director of the Veterans' Administration; to the Committee on Veterans' Affairs.

MODIFYING QUALIFICATIONS REQUIRED FOR CERTAIN POSITIONS OF THE VETERANS' ADMINISTRATION

Mr. INOUE. Mr. President, today I am introducing legislation to authorize that the individual appointed to the position of Chief Medical Director,

Deputy Chief Medical Director, and Associate Deputy Chief Medical Director of the Veterans' Administration may be a member of one of the several health care professions which currently are employed by the Veterans' Administration, rather than be restricted to doctors of medicine.

In my judgment, the time has come to legislatively recognize the truly interdisciplinary nature of health care within our Nation. I was most pleased that this type of proposal was recommended by the Senate Veterans' Affairs Committee during its deliberations in the 99th Congress; unfortunately, however, that provision never became public law.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 91

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) paragraph (1) of section 4103(a) of title 38, United States Code, is amended by striking out "a qualified doctor of medicine," and inserting in lieu thereof "a person qualified under section 4105 of this title for appointment to a position referred to in subsection (a)(1), (a)(2), (a)(3), (a)(5), (a)(6), (a)(7), or (a)(8) of such section."*

*(b) Paragraph (2) of such section is amended by striking out "a qualified doctor of medicine," and inserting in lieu thereof "a person qualified for appointment to the position of Chief Medical Director."*

*(c) Paragraph (3) of such subsection is amended by striking out "a qualified doctor of medicine," and inserting in lieu thereof "a person qualified for appointment to the position of Chief Medical Director."*

By Mr. INOUE:

S. 92. A bill to amend title 38, United States Code, to provide that the Administrator of Veterans' Affairs may furnish outpatient dental services and treatment for non-service-connected disability to any war veteran who has a service-connected disability of 50 per centum or more; to the Committee on Veterans' Affairs.

PROVIDING FOR OUTPATIENT DENTAL SERVICES FOR CERTAIN WAR VETERANS

Mr. INOUE. Mr. President, I am introducing legislation today which would provide for outpatient dental care for any war veteran who is 50 per cent or more disabled as a result of his or her military service. Veterans will be eligible for this care even if their dental problems are unrelated to their service injuries.

Legislation passed by the 91st Congress provides medical and outpatient care for veterans of all wars who were totally and permanently disabled by service-related injuries. This law, Public Law 91-102, was designed to care for the medical needs that would arise during their lives, but would be unrelated to their military wounds. It,

however, specifically forbids payment for outpatient dental care. My bill seeks to fill the gap left by Public Law 91-102.

According to one estimate, approximately 175,000 veterans would be eligible for dental care if this bill is passed. Currently, these men get free care only if their problems are directly related to their service disability. But, as the Disabled American Veterans noted when they urged me to introduce this measure, many veterans live on limited, fixed incomes. Dental costs are arising along with everything else in these inflationary times, and an increasing number are being forced to go without proper dental care because they cannot afford it.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 92

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 612(b)(1) of title 38, United States Code, is amended—*

*(1) by striking out "or" at the end of clause (G);*

*(2) by striking out the period at the end of clause (H) and inserting in lieu thereof a semicolon and "or"; and*

*(3) by adding at the end thereof the following:*

*"(I) from which a veteran of any war who has a service-connected disability rated as 50 per centum or more is suffering."*

By Mr. INOUE (for himself and Mr. MATSUNAGA):

S. 93. A bill to provide that services furnished by a clinical psychologist in a rural health clinic need not be provided under the direct supervision of a physician in order to qualify for coverage under Medicare and Medicaid; to the Committee on Finance.

ENSURANCE OF RURAL HEALTH CARE RECIPIENT MEDICARE ELIGIBILITY

Mr. INOUE. Mr. President, today Senator SPARK MATSUNAGA and I are introducing legislation which would amend our Nation's Social Security Act to ensure that those individuals who receive services at rural health clinics and are eligible for Medicare or Medicaid are able to receive mental health services from qualified professional psychologists.

The bill which we are introducing today follows up on the decision made during the 98th Congress, to provide for the recognition of the autonomous functioning of psychologists within health maintenance organizations [HMO's]. Our present proposal would similarly amend the rural health clinical provision to include authority for clinical psychologists to function in a similar manner to that of nurse practitioners and physician assistants, and

would only require a circuit-rider approach to physician involvement.

Our proposal does not increase the basic benefit package as the attached letter from Dr. Carolyn Davis, past-Administrator of the Health Care Financing Administration [HCFA], specifies.

This provision was recommended for enactment during the 99th Congress by the Senate Finance Committee as a provision of the Medicare antifraud bill. Hopefully, we will be able to have this measure enacted into public law during the 100th Congress.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 93

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. COVERAGE OF SERVICES FURNISHED BY A CLINICAL PSYCHOLOGIST IN A RURAL HEALTH CLINIC.**

(a) **COVERAGE OF SERVICES.**—Section 1861(aa)(1)(B) of the Social Security Act (42 U.S.C. 1395x(aa)(1)(B)) is amended by striking out "physician assistant or by a nurse practitioner" and inserting in lieu thereof "physician assistant, nurse practitioner, or clinical psychologist."

(b) **DEFINITION.**—Section 1861(aa) of such Act (42 U.S.C. 1395x(aa)) is amended by adding at the end thereof the following new paragraph:

"(4) For purposes of this subsection, the term 'clinical psychologist' means an individual who—

"(A) is licensed or certified at the independent practice level of psychology by the State in which he so practices;

"(B) possesses a doctorate degree in psychology from a regionally accredited educational institution, or in the case of an individual who was licensed or certified prior to January 1, 1978, possesses a master's degree in psychology and is listed in a national register of mental health service providers in psychology which the Secretary deems appropriate; and

"(C) possesses 2 years of supervised experience in health service, at least 1 year of which is post-degree."

(c) **EFFECTIVE DATE.**—The amendments made by this section shall be effective with respect to services furnished on or after the date of the enactment of this Act.

By Mr. INOUE (for himself and Mr. MATSUNAGA):

S. 94. A bill to amend titles XVIII and XIX of the Social Security Act to provide that pediatric nurse practitioner or pediatric clinical nurse specialist services are covered under part B of Medicare and are a mandatory benefit under Medicaid; to the Committee on Finance.

**PROVIDING CERTAIN NURSE SERVICES COVERAGE**

Mr. INOUE. Mr. President, today Senator SPARK MATSUNAGA and I are introducing legislation that would amend the Medicare and Medicaid Programs in order to ensure that the services of pediatric nurse practition-

ers and/or pediatric clinical nurse specialists would be directly reimbursable under these two important programs.

Under the provisions of our proposal, the Department of Health and Human Services would be directed to initiate a special 5-year demonstration program for these practitioners in order to provide the Congress of the United States with sufficient information to ensure that an informed decision is made regarding the possibility of ultimately providing complete autonomy for our Nation's pediatric nurse practitioners and pediatric clinical nurse specialists throughout all aspects of Medicare and Medicaid.

Presently, under the Department of Defense CHAMPUS Program, these practitioners are deemed truly autonomous providers, and, from all that I have heard, these services are well received.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 94

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. COVERAGE OF PEDIATRIC NURSE PRACTITIONER OR PEDIATRIC CLINICAL NURSE SPECIALIST SERVICES UNDER PART B OF MEDICARE.**

(a) **COVERAGE OF SERVICES.**—Section 1861(s)(2) of the Social Security Act (42 U.S.C. 1395x(s)(2)) is amended—

(1) by striking out "and" at the end of subparagraph (J);

(2) by adding "and" at the end of subparagraph (K); and

(3) by adding at the end thereof the following new subparagraph:

"(L) pediatric nurse practitioner or pediatric clinical nurse specialist services;"

(b) **DEFINITION.**—Section 1861 of such Act (42 U.S.C. 1395x) is amended by adding at the end thereof the following new subsection:

"Pediatric Nurse Practitioner or Pediatric Clinical Nurse Specialist Services

"(ff)(1) The term 'pediatric nurse practitioner or pediatric clinical nurse specialist services' means services performed by a pediatric nurse practitioner or pediatric clinical nurse specialist (as defined in paragraph (2)) which the pediatric nurse practitioner or pediatric clinical nurse specialist is legally authorized to perform under State law (or the State regulatory mechanism provided by State law) of the State in which such services are performed, whether or not the pediatric nurse practitioner or pediatric clinical nurse specialist is under the supervision of, or associated with, a physician or other health care provider.

"(2) The term 'pediatric nurse practitioner or pediatric clinical nurse specialist' means an individual who—

"(A) is a registered nurse and is licensed to practice nursing in the State in which the pediatric nurse practitioner or pediatric clinical nurse specialist services are performed; and

"(B)(i) holds a master's degree in pediatric nursing or a related field from an accredited educational institution, or

"(ii) is certified as a pediatric nurse practitioner or pediatric clinical nurse specialist by the duly recognized professional nurses' association."

(c) **EFFECTIVE DATE.**—The amendments made by this section shall be effective with respect to services performed on or after the first day of the first month which begins more than 60 days after the date of the enactment of this Act.

**SEC. 2. COVERAGE OF PEDIATRIC NURSE PRACTITIONER OR PEDIATRIC CLINICAL NURSE SPECIALIST SERVICES AS A MANDATORY MEDICAID BENEFIT.**

(a) **COVERAGE OF SERVICES.**—

(1) Section 1905(a) of the Social Security Act (42 U.S.C. 1396d(a)) is amended—

(A) by striking out "and" at the end of paragraph (20);

(B) by redesignating paragraph (21) as paragraph (22); and

(C) by inserting after paragraph (20) the following new paragraph:

"(21) pediatric nurse practitioner or pediatric clinical nurse specialist services (as defined in section 1861(ff)(1)); and"

(b) **CONFORMING CHANGES.**—

(1) Section 1902(a) of such Act (42 U.S.C. 1396a(a)) is amended—

(A) in paragraph (10)(A), by striking out "paragraphs (1) through (5) and (17)" and inserting in lieu thereof "paragraphs (1) through (5), (17), and (21)"; and

(B) in paragraph (10)(C)(iv), by striking out "paragraphs (1) through (5) and (17) of section 1905(a) or the care and services listed in any 7 of the paragraphs numbered (1) through (20)" and inserting in lieu thereof "paragraphs (1) through (5), (17), and (21) of section 1905(a) or the care and services listed in any 7 of the paragraphs numbered (1) through (21)".

(2) Section 1902(j) of such Act (42 U.S.C. 1396a(j)) is amended by striking "(21)" and inserting in lieu thereof "(22)".

(c) **EFFECTIVE DATE.**—

(1) Except as provided in paragraph (2), the amendments made by this section shall be effective with respect to payments under title XIX of the Social Security Act for calendar quarters beginning more than 60 days after the date of the enactment of this Act.

(2) In the case of a State plan for medical assistance under title XIX of the Social Security Act which the Secretary of Health and Human Services determines requires State legislation in order for the plan to meet the additional requirements imposed by the amendments made by this section, the State plan shall not be regarded as failing to comply with the requirements of such title solely on the basis of its failure to meet these additional requirements before the first day of the calendar quarter beginning after the close of the first regular session of the State legislature that begins after the date of the enactment of this Act.

By Mr. KERRY:

S. 95. A bill to amend the Clean Air Act to control certain sources of sulfur dioxide and oxides of nitrogen to reduce acid deposition, and for other purposes; to the Committee on Environment and Public Works.

**NATIONAL ACID RAIN CONTROL ACT**

Mr. KERRY. Mr. President, I rise today on this first day of the 100th Congress to introduce legislation that seeks to correct a problem of grave concern to Americans from all over the Nation—acid rain. Mr. President, it

is with the deepest regret that I find it necessary to once again introduce legislation and call for urgent action in 1987 on a critical environmental problem that we should be well on our way to solving and not still debating. Unfortunately, Congress has not acted and the urgency of our doing so is greater than ever. Acid rain is creating an environmental emergency in several regions of the country and it must be stopped now. Further delay will make damage worse and it may, in fact, leave our children with an irreversible environmental tragedy. We have the opportunity to end the scourge of acid rain. We know what must be done. And, we know it needs to be done. The time for excuses is long past. It is our duty to act without delay.

When the acid rain phenomena was first being researched, we were told by David Stockman and others that it was really just a question of "A few dead lakes in New England and northern New York." For those of us from those regions this lack of any real concern was discouraging, but not unexpected. But we knew they were wrong and the evidence mounts every year supporting our position. Acid rain is a phenomenon that results from reactions between fossil fuel emissions and atmospheric components. The "few dead lakes" that Mr. Stockman talked about are growing every day to the point where researchers warn that fish populations in some affected regions of the country are in grave danger of being wiped out in the not so distant future. As we know, a dramatic change in one part of the food chain cannot help but affect the other parts in the ecosystem. That ecosystem also includes trees where future timber harvests are imperiled by acid rain which researchers believe has worked to stunt growth in our forests.

In addition, human health concerns continue to be researched. Already we know that certain high-risk respiratory patients increase their risk when they live or spend time in areas where acid rain is known to be a problem. Acid rain also endangers cultural and historic artifacts and structures. In Massachusetts and many other Northeast States, that translates into damage to many of our State's treasures such as historic buildings, statues, and other manmade structures. Many of these are irreplaceable and their loss will mean the end to many legacies that should properly be left for our children and their children.

I first became aware of the acid rain phenomena when as Lieutenant Governor I coordinated Massachusetts' effort to develop a reasonable State and national response to this problem. I spent a great deal of time talking to the many Massachusetts environmentalists that have become expert in the problems that acid rain has created.

With them, I visited and tested lakes and streams in the State that show the dramatic effects of acid deposition on fish populations and on general water quality. Together with environmentalists, business leaders, and other government leaders we formed the acid rain working group to discuss the problems, the causes and the solutions for the acid rain phenomena. It was through this group that I concluded that acid rain was a major threat to the quality of life in Massachusetts.

As an active participant in the National Governors Association's Task Force on Acid Rain I journeyed to Europe on a fact-finding mission representing the New England Governor's Task Force on Acid Rain which I chaired. I went to Norway, Sweden, Belgium, Germany, and Great Britain.

In Norway I spoke with experts who have been coping with this issue for many years and where there are approximately 5,000 square miles of lakes that are now biologically dead. There is no doubt in their minds as to what has caused that environmental disaster.

In Sweden, some 18,000 square miles of lakes are dead and nobody in Sweden contests the issue of how and why this has come to be. In addition, in Sweden, they were particularly concerned about increasing evidence of forests that were showing diminished growth—a symptom that is being experienced throughout northern Europe and again they had no doubt that air pollution was the major contributor.

In Germany in 1984 I visited the Black Forest where I saw the most stark and dramatic display of what can happen through neglect in combatting this environmental threat. The foresters there—close to tears over the disappearance of their heritage before their eyes—told me that they feared that much of the damage could be permanent. They too have no doubt as to the cause of the problem.

Europe's experience should serve as a threatening lesson to the United States. I have seen a future that we cannot allow to occur.

Yet, the American response to the crisis of acid rain has been woefully inadequate. President Reagan has commissioned several studies on acid rain. Each study has come back and stated in stronger and more specific terms that acid rain is a major threat to our environment and must be addressed. However, on a national basis, it is study, debate, evaluate—when what we need is strong action to reduce acid rain causing emissions—now.

In Massachusetts we have been conducting an ongoing study since 1983 to try to provide a data base with which to study the magnitude of acid rain's effects on area surface waters. I have been pleased to support and participate in that study. Dr. Paul Godfrey

of the University of Massachusetts at Amherst has been collecting and tracking acid rain information. We have enough data to see that is occurring throughout the State. The data shows that 62 percent of the surface waters tested are highly sensitive to acidification. These studies also show that most areas of my State have low alkalinity levels and thus are highly susceptible to acidification.

In Massachusetts, we are spending approximately \$13 million per year to protect and restore statuary and buildings which literally are being eaten away by acidic moisture. If you take the problems we now know of in Massachusetts with their associated human, ecological, and financial impacts and project them on a national scale, the deterioration and its costs become enormous.

Massachusetts has responded to this information by enacting one of the most comprehensive acid rain control bills in the country. It mandates a substantial reduction in both sulfur dioxide and nitrogen oxide emissions from Massachusetts sources.

But even in the law itself it is recognized that State action is not enough. It cannot and should not serve as a substitute for a national program. The Federal role in preventing pollution produced by one State from affecting another, is clear. Only Federal action can stop this damage.

Consequently, I have worked for many years on a comprehensive national acid rain control plan. Through the National Governor's Association Task Force attempt to reach a "meeting of the minds" among different geographical regions of the country, the outlines of what I believe could be a national consensus emerged. A major component of that approach is the motion that there should be a broad sharing of the financial burden among producers of acid rain and those who will benefit from its reduction. Pointing fingers at utilities or coal producers accomplishes little. It has only stalled the process. This is a national problem and requires a national solution. The legislation I am introducing today—the Acid Rain Control Act of 1987—S. 95—represents an effort to do just that.

The National Acid Rain Control Act of 1987 will amend the Clean Air Act to reduce annual sulfur dioxide [SO<sub>2</sub>] emissions by 12 million tons and nitrogen oxides [NO<sub>x</sub>] emissions by 3 million tons by 1995 in the 48 contiguous States and the District of Columbia.

The sulfur dioxide reductions will be achieved in three different ways. First, utilities and other industries will, upon enactment, be required to reduce emissions by following a series of mandated steps that include coal washing and the addition of adipic acid before combustion.

Second, each State will have control over allocating the additional reductions based on its share of the problem as determined by the EPA Administrator using the best available data. The State plan must call for a phased reduction so that seven-twelfths of the States's share reductions will be achieved before 1992, and the entire share target achieved by 1995. A State may allow a source to substitute emissions of NO<sub>x</sub> for SO<sub>2</sub> at a ratio of 2 to 1. In the event that a State fails to submit a plan, or in the event that the plan is not accepted by the Administrator, major stationary sources will have to comply with an emission limitation equal to 1.2 pounds of SO<sub>2</sub> per million BTU's of heat input.

Finally, a trust fund will be established by the collection of a fee on the production of electricity generated by fossil fuel combustion. Payments from the fund will be used to help defray capital costs incurred by facilities in meeting their reduction requirements. The subsidy will be paid at a rate of \$147 per ton of SO<sub>2</sub> reduced. This amount is designed to greatly reduce electric rate increases payable by utility customers. The fee will be assessed at one of three levels, based upon the 1982 State average SO<sub>2</sub> emissions rate. States with lower rates of emissions will be assessed lower fees. This fee structure is designed to provide equity while recognizing that in order to develop a feasible plan, the costs of emissions reduction must be shared. This payment formula would favor the installation of capital equipment to avoid coal miner job displacement while fixing the subsidy at a level which will encourage the use of newer and less costly technologies. The trust fund would also provide \$10 million a year for accelerated research on cleaner burning industrial processes as well as \$25 million a year for acid deposition mitigation programs.

Acid rain will not go away by wishing it so or by making believe it does not exist. Congress must act now because, unfortunately, the administration has given nothing more than lip service to the problem. The President has earnestly asked the National Academy of Sciences, EPA Administrator William Ruckelshaus, and Special Envoy Drew Lewis to conduct inquiries into the implications of the phenomenon. All three have concluded that a plan of action must be enacted with haste. So far, the President has failed to heed their common warning and instead he has hidden behind requests for ever more research. Lately we are even told that he will break his commitment to support the recommendations of the special envoys.

However, we must be honest and hard on ourselves as well, for we have abdicated our responsibility to protect the public as well. Republicans and Democrats alike will have to put away

partisan concerns in order to enact legislation to accomplish these goals before it is too late to do so.

My legislation offers one approach to this problem. I realize that many of my colleagues will offer different proposals in this session of Congress and I commend them for their interest in this issue. We are all committed to seeing acid rain abated and I am proud to join with them in fighting this important fight. I realize that in order to enact a strong Acid Rain Control Program, it is going to be necessary for many of us to work together and take different elements of different proposals. So let me make it clear, Mr. President, that while I am committed to finding a solution to this problem, I am willing and committed to working toward an end to this crisis without thinking that mine is the only solution. Together we must create a coalition that will creatively and dramatically develop legislation that will end this crisis of incalculable dimension.

Mr. President, I ask unanimous consent that at the conclusion of my remarks the following additional information be printed:

S. 95 the National Acid Rain Control Act of 1987.

Background on S. 95—the Kerry acid rain bill.

Elements in S. 95 the National Acid Rain Control Act.

Summary of S. 95—the National Acid Rain Control Act.

There being no objection, the material was ordered to be printed in the RECORD, as follows.

#### S. 95

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "National Acid Rain Control Act of 1987".

#### SEC. 2. PURPOSE.

The purpose of this Act is to reduce emissions of sulfur dioxide by 12 million tons per year and to reduce emissions of oxides of nitrogen by 3 million tons per year, by the year 1995, in order to lessen the damage to public health and the environment from acid deposition attributable to those pollutants.

#### TITLE I—ACID DEPOSITION CONTROL AND ASSISTANCE PROGRAM

##### SEC. 101. AMENDMENT OF CLEAN AIR ACT.

Title I of the Clean Air Act is amended by adding at the end thereof the following new part:

#### "PART E—ACID DEPOSITION CONTROL

##### "Subpart 1—General Provisions

#### "PURPOSE OF PART

"SEC. 181. The purpose of this part is to reduce sulfur dioxide emissions in the 48 contiguous States and the District of Columbia by 12,000,000 tons by 1995. Such reduction shall be achieved through—

"(1) a program under subpart 2 consisting of direct federally mandated emission reductions;

"(2) a program under subpart 3 consisting of State plans to provide for reductions in emission rates as may be necessary to

achieve the remaining portion of the reduction; and

"(3) a program under subpart 4 to mitigate any potential economic impacts and coal mining job dislocation by subsidizing the capital costs of control technology used for the purpose of the program under subpart 3 through a fee on the generation of electric energy by fossil fuel fired electric utility generating plants.

#### "DEFINITIONS

"SEC. 182. As used in this part—

"(1) The terms 'new' and 'modified' when used with respect to an electric utility unit or other source means an electric utility unit or other source which commenced construction (or modification) after December 31, 1980, and which is subject to new source performance standards for sulfur dioxide under section 111.

"(2) The term 'commenced' when used with respect to construction or modification has the same meaning as when used in section 111.

"(3) The term 'fossil fuel fired electric utility generating plant' means all of the fossil fuel fired electric utility steam generating units owned or operated by an electric utility which are located on one or more contiguous or adjacent properties.

"(4) The terms 'steam generating unit', 'electric utility', and 'fossil fuel' have the same meanings as provided in regulations under section 111 applicable to electric utility steam generating units for which construction is commenced after September 18, 1978.

"(5) The term 'Btu' means a British thermal unit.

"(6) The term 'technological system of continuous emission reduction' has the meaning provided by section 111(a)(7).

"(7) The term 'sulfur dioxide' when used with respect to emissions means total sulfur emissions expressed as sulfur dioxide emissions.

"(8) The term 'baseline year' means the calendar year 1980, except that the Administrator may designate a subsequent calendar year as the baseline year if he determines that reasonable and reliable data is available for that year with respect to the actual sulfur dioxide emission rates of the unit or source involved.

"(9) The term 'best available cleaning method' means the coal cleaning method which results in the highest reasonably obtainable level of sulfur removal, as determined by the Administrator.

#### "RELATIONSHIP TO OTHER REQUIREMENTS

"SEC. 183. Nothing in this part shall be construed to affect or impair the requirements of section 110 (or of any applicable implementation plan) or of any other section of this Act; except that any stationary source which is subject to any such requirement may also be subject to additional requirements under this part.

#### "Subpart 2—Federally Mandated Emission Reductions

#### "FEDERALLY MANDATED EMISSION REDUCTIONS

"SEC. 186. (a) COAL CLEANING.—Any fossil fuel fired electric utility generating plant which burns coal with an average sulfur content of more than 2 percent must provide that such coal is cleaned prior to combustion using the best available cleaning method by not later than December 31, 1989.

"(b) ADIPIC ACID TREATMENT.—Any fossil fuel fired electric utility generating plant which is equipped with flue gas desulfuriza-

tion units must include adipic acid treatment with such units by not later than December 31, 1989.

**"Subpart 3—State Plans for Additional Emission Reductions**

**"CALCULATION OF STATE SHARES**

**"SEC. 191. (a) SHARE OF 12,000,000 TON REDUCTION.—**

**"(1) EPA COMPUTATION.—**For each of the 48 contiguous States and the District of Columbia, the Administrator shall compute a State share of the 12,000,000 ton reduction in annual emissions of sulfur dioxide referred to in section 181. The Administrator shall compute the State share for each such State as provided in subsection (b) not later than 18 months after the date of the enactment of the National Acid Rain Control Act.

**"(2) DATA TO BE USED IN COMPUTATION.—**In making computations under subsection (b), the Administrator shall use the best available data. To the extent that other better data regarding the emissions of sulfur dioxide from any category of sources is not available on or before the date 18 months after the date of the enactment of the National Acid Rain Control Act, the Administrator shall utilize the inventory of emissions developed in fulfillment of the requirements of the Memorandum of Intent on Transboundary Air Pollution signed by Canada and the United States on August 5, 1980.

**"(b) STATE SHARE.—**

**"(1) GENERAL RULE.—**The State share for each such State shall be the number of tons which is the sum of the amounts computed under subparagraphs (A), (B), and (C).

**"(A) ELECTRIC UTILITY EXCESS EMISSIONS TONNAGE.—**The tonnage computed under paragraph (2) for fossil fuel fired electric utility generating plants in the State.

**"(B) NONUTILITY BOILER EXCESS EMISSIONS TONNAGE.—**The tonnage computed under paragraph (3) for other fossil fuel fired steam generating units in the State.

**"(C) PROCESS EMITTERS EXCESS EMISSIONS TONNAGE.—**The tonnage computed under paragraph (4) for industrial process emitters of sulfur dioxide in the State.

**"(2) ELECTRIC UTILITY EXCESS EMISSIONS TONNAGE.—**

**"(A) FRACTION OF 10,000,000 TONS.—**The Administrator shall compute an excess emissions tonnage amount under this paragraph for fossil fuel fired electric utility generating plants in the State. The amount shall be determined by multiplying 10,000,000 tons by a fraction the numerator of which is determined under subparagraph (B) and the denominator of which is determined under subparagraph (C).

**"(B) NUMERATOR OF ELECTRIC UTILITY FRACTION.—**The numerator of the electric utility fraction under this paragraph shall be the tonnage of emissions of sulfur dioxide which the Administrator estimates to have been emitted during the baseline year at a rate in excess of 1.2 pounds per million Btu's of heat input from fossil fuel fired electric utility generating plants which are located in the State and which, during the baseline year, emitted sulfur dioxide at an annual average rate in excess of 1.2 pounds per million Btu's of heat input.

**"(C) DENOMINATOR OF ELECTRIC UTILITY FRACTION.—**The denominator of the electric utility fraction under this paragraph shall be the tonnage of emissions of sulfur dioxide which the Administrator estimates to have been emitted during the baseline year at a rate in excess of 1.2 pounds per million Btu's of heat input from all fossil fuel fired electric utility generating plants which are

located in the 48 contiguous States and the District of Columbia and which, during the baseline year, emitted sulfur dioxide at an annual average rate in excess of 1.2 pounds per million Btu's of heat input.

**"(3) NONUTILITY BOILER EXCESS EMISSIONS.—**

**"(A) FRACTION OF 1,000,000 TONS.—**The Administrator shall compute an excess emissions tonnage amount under this paragraph for fossil fuel fired steam generating units located in the State, other than those which are part of a fossil fuel fired electric utility generating plant. The amount shall be determined by multiplying 1,000,000 tons by a fraction the numerator of which is determined under subparagraph (B) and the denominator of which is determined under subparagraph (C).

**"(B) NUMERATOR OF NONUTILITY FRACTION.—**The numerator of the nonutility fraction under this paragraph shall be the tonnage of emissions of sulfur dioxide which the Administrator estimates to have been emitted during the baseline year at a rate in excess of 1.2 pounds per million Btu's of heat input from fossil fuel fired steam generating units which are located in the State, other than units which are part of a fossil fuel fired electric utility generating plant, and which, during the baseline year, emitted sulfur dioxide at an annual average rate in excess of 1.2 pounds per million Btu's of heat input.

**"(C) DENOMINATOR OF NONUTILITY FRACTION.—**The denominator of the nonutility fraction under this paragraph shall be the tonnage of emissions of sulfur dioxide emitted during the baseline year at a rate in excess of 1.2 pounds per million Btu's of heat input from all fossil fuel fired steam generating units which are located in the 48 contiguous States and the District of Columbia, other than units which are part of a fossil fuel fired electric utility generating plant, and which, during the baseline year, emitted sulfur dioxide at an annual average rate in excess of 1.2 pounds per million Btu's of heat input.

**"(4) PROCESS EMITTERS EXCESS EMISSIONS TONNAGE.—**

**"(A) FRACTION OF 1,000,000 TONS.—**The Administrator shall compute an excess emissions amount under this paragraph for industrial process emitters (as defined by the Administrator) of sulfur dioxide in the State. The amount shall be determined by multiplying 1,000,000 tons by a fraction the numerator of which is determined under subparagraph (B) and the denominator of which is determined under subparagraph (C).

**"(B) NUMERATOR OF PROCESS EMITTER FRACTION.—**The numerator of the process emitter fraction under this paragraph shall be the tonnage of emissions of sulfur dioxide emitted during the baseline year at an annual average rate in excess of the limit determined under subparagraph (D) from emissions units of industrial process emitters of sulfur dioxide which are located in the State and which, during the baseline year, emitted sulfur dioxide at an annual average rate in excess of the limit determined under subparagraph (D).

**"(C) DENOMINATOR OF PROCESS EMITTER FRACTION.—**The denominator of the process emitter fraction under this paragraph shall be the total tonnage of emissions of sulfur dioxide emitted during the baseline year at an annual average rate in excess of the applicable limit determined under subparagraph (D) from emissions units of industrial process emitters of sulfur dioxide which are

located in the 48 contiguous States and the District of Columbia and which, during the baseline year, emitted sulfur dioxide at an annual average rate in excess of the limit determined under subparagraph (D).

**"(D) EMISSIONS LIMIT.—**

**"(i) For purposes of this paragraph, the average annual limit determined under this subparagraph for any emissions unit of a stationary source of industrial process emissions shall be the rate which the Administrator determines to be the national average BACT emissions limit for sulfur dioxide for emissions units within the category of process emitters involved.**

**"(ii) Utilizing the BACT/LAER Clearinghouse data available at the Environmental Protection Agency, the Administrator shall review the emission limitations for industrial process emitters which were established as 'best available control technology' (BACT) under this Act during the period August 1977 through December 31, 1986. On the basis of such data, and not later than 1 year after the date of the enactment of the National Acid Rain Control Act, the Administrator shall establish a national average BACT emission limit for sulfur dioxide for emissions units within each category of process emitters of sulfur dioxide.**

**"(C) REALLOCATION AMONG STATES.—**Under regulations promulgated by the Administrator, any two or more contiguous States may by agreement reallocate among agreeing States the State share of two or more agreeing States if, under such reallocation, the total reduction in annual emissions of sulfur dioxide is equal to or greater than, and contemporaneous with, the total reduction in annual emissions of sulfur dioxide which would be required under this part in the absence of such reallocation.

**"STATE CONTROL PLANS**

**"SEC. 192. (a) SUBMISSION OF PLAN.—(1) Each of the 48 contiguous States and the District of Columbia shall submit to the Administrator a plan for achieving such State's share of the reduction in sulfur dioxide emissions.**

**"(2) The plan must be submitted within 12 months after the date of the enactment of the National Acid Rain Control Act, and the Administrator shall approve or disapprove such plan within 6 months after its submission.**

**"(b) TIMETABLE FOR REDUCTIONS.—**The State plan shall provide for a phased reduction such that 7/12 of the State's share of the reduction shall be achieved prior to December 31, 1992, and the entire share shall be achieved prior to December 31, 1994. The timetable for achieving such reductions shall provide for continuous reduction with identifiable incremental reductions.

**"(c) STATE PREROGATIVES.—**The plan shall provide for the reductions in accordance with subsection (b) by any means; except that the State must comply with the federally mandated emission reductions required by section 186.

**"(d) INTERIM EMISSIONS LIMITS.—**The State shall apply an annual interim limitation on statewide sulfur dioxide emissions equal to the amount of such emissions for calendar year 1985. The interim limitation shall apply to emissions for calendar years prior to 1995, or, if earlier, until the State has achieved its entire share of the reduction required by section 191.

**"(e) RECOMMENDED INDIVIDUAL SOURCE REQUIREMENTS.—**The State plan may require that each fossil fuel fired steam generating

unit and each industrial process emitter in the State shall—

"(1) apply the best available control technology; or

"(2) limit sulfur dioxide emissions to an annual rate not in excess of 1.2 pounds per million Btu's of heat input.

"(f) **SUBSTITUTION.**—A State may allow the owner or operator of a source required to achieve emission reductions under this part to substitute a reduction in emissions of oxides of nitrogen for required reductions in emissions of sulfur dioxide, at a rate of two units by weight of oxides of nitrogen for each unit of sulfur dioxide.

"(g) **ENFORCEMENT.**—Each requirement of a State plan approved by the Administrator under this section shall be treated as a requirement of an applicable State implementation plan for purposes of sections 113, 114, 116, 120, and 304.

**"REQUIREMENTS APPLICABLE TO STATES WHICH DO NOT HAVE AN APPROVED PLAN"**

"**SEC. 193. (a) REQUIREMENTS FOR FACILITIES.**—In any State in the 48 contiguous States and the District of Columbia which has not submitted a plan under section 192 within 12 months after the date of the enactment of the National Acid Rain Control Act, or which has not had a plan approved by the Administrator under section 192 within 6 months after the submission of such plan, or which fails to implement such plan after its approval—

"(1) the owner or operator of any fossil fuel fired facility which is a major stationary source which is not subject to section 111(a) shall comply with an emission limitation equivalent to an average annual rate of 1.2 pounds of sulfur dioxide per million Btu's of heat input on a rolling 30-day average; and

"(2) the owner or operator of any process emitter shall comply with the average BACT emissions limit established under section 191(b)(4)(D).

"(b) **SUBMISSION OF PLAN.**—The owner or operator of each source subject to the requirements of subsection (a) shall submit to the Administrator a plan and schedule of compliance for achieving such emission limitation not later than 3 years after the date of the enactment of the National Acid Rain Control Act, or, if later, 6 months after the date on which the Administrator determines that the State has failed to implement the State plan after its approval.

"(c) **APPROVAL.**—The Administrator shall approve the plan and schedule of compliance of the source if they—

"(1) contain enforceable requirements for continuous emission reduction;

"(2) contain requirements for monitoring by the source and enforcement agencies to assure that the emission limitations are being met; and

"(3)(A) in the case of a source which proposes to comply with the emission limitation through the use of fuel substitution, will achieve the emission reduction required by this section no later than 24 months after such plan is submitted; or

"(B) in the case of a source which proposes to comply with the emission limitation through the installation of a technological system of continuous emission reduction or replacement of existing facilities with new facilities with substantially lower emissions, or any other means except fuel switching, contains enforceable requirements that such source will, within 24 months after such plan is submitted, enter into binding contractual commitments to ac-

quire, install, or construct such system or facilities.

"(d) **PENALTIES.**—Failure of such owner or operator to submit an approved plan and schedule within the time provided in this section, failure to comply with the plan and schedule of compliance, and failure to achieve the emission reduction required by the dates required by this section, shall be violations of emission limitations for the purposes of sections 113, 120, and 304.

**"Subpart 4—Acid Deposition Control Fund  
"ESTABLISHMENT OF FUND"**

"**SEC. 196. (a) ESTABLISHMENT.**—There is established in the Treasury of the United States a trust fund to be known as the 'Acid Deposition Control Fund' (hereafter in this subpart referred to as the 'Fund'), consisting of such amounts as may be deposited into such Fund as provided in this section.

"(b) **DEPOSITS INTO THE FUND.**—(1) The owner or operator of any fossil fuel fired electric utility generating plant located in the 48 contiguous States or the District of Columbia shall pay to the United States the fees established by section 197. The Secretary of the Treasury shall deposit the fees collected into the Fund.

"(2) Payments of fees under this subsection shall be made on a quarterly basis, based upon the electricity produced in the preceding quarter.

"(3) The Administrator, in consultation with the Secretary of the Treasury, shall promulgate such regulations as may be necessary to carry out this subsection.

"(c) **PAYMENTS FROM THE FUND.**—(1) The Administrator shall make payments from the Fund for the following purposes:

"(A) Payments shall be made to owners and operators of facilities for capital costs of sulfur dioxide reductions incurred by such owners or operators in meeting the requirements of this part, other than the federally mandated emission reductions required by section 186 or reductions which result from fuel switching or blending, at a rate of \$147 per ton of sulfur dioxide emission reduction. Such payments shall be made for 15 years, commencing at the time the equipment comes into operation.

"(B) Payment of not more than \$10,000,000 per year shall be made for accelerated research of cleaner burning industrial processes, in accordance with section 198.

"(C) Payment of not more than \$25,000,000 per year shall be made for mitigation programs under title III of the National Acid Rain Control Act.

"(2) The Administrator, after consultation with the Secretary of the Treasury and the Secretary of Energy, shall promulgate regulations as may be necessary to implement this section, including regulations providing that—

"(A) no payment may be made under this section to a utility for any costs unless the Administrator determines that, under applicable rate schedules, the full amount of such payment will be used to reduce electric rate increases payable by customers of the utility which otherwise would result from the construction and installation concerned; and

"(B) such payments shall be made at such times as will minimize any electric rate increases for customers of the utility.

**"FEES"**

"**SEC. 197. (a) DETERMINATION OF EMISSION RATES.**—Within 12 months after the date of the enactment of the National Acid Rain Control Act, the Administrator shall determine the average sulfur dioxide emission

rate of each of the 48 contiguous States and the District of Columbia for the calendar year 1982 from all fossil fuel fired electric utility generating plants in such State.

"(b) **FEE SCHEDULE.**—The fee under this section shall apply to all electricity generated in such State by fossil fuel fired electric utility generating plants located in the State as follows:

"1982 State average sulfur dioxide emission rate:	Fee:
Less than or equal to 1.2 pounds per million Btu's of heat input	0.50 mills per kilowatthour
Greater than 1.2 pounds per million Btu's of heat input, but less than 2.0 pounds per million Btu's of heat input	1.0 mills per kilowatthour
Greater than 2.0 pounds per million Btu's of heat input	1.6 mills per kilowatthour

"(c) **YEARS TO WHICH FEE APPLIES.**—The fees established by this section shall apply to calendar years beginning with the first calendar year that begins more than 12 months after the date of the enactment of the National Acid Rain Control Act, and ending with the calendar year fifteen years from the date of enactment.

**"Subpart 5—Accelerated Research on Cleaner Burning Industrial Processes  
"RESEARCH FUNDS"**

"**SEC. 198.** The Administrator shall make such grants and enter into such contracts and other arrangements as may be necessary to accelerate the research necessary to develop advanced industrial processes (including atmospheric fluidized bed combustion, magnetohydrodynamics (MHD), and lime-injected multistage burner technology (LIMB)) which may result in lower levels of sulfur dioxide and oxides of nitrogen. For each of the five fiscal years commencing with the fiscal year 1987, \$10,000,000 are authorized to be appropriated from the fund established under subpart 4 for purposes of this section."

**SEC. 102. CONFORMING AMENDMENTS.**

(a) **ENFORCEMENT.**—Section 113(a)(3) of the Clean Air Act is amended by inserting "or is in violation of any requirement in effect pursuant to part E" after "inspections, etc.)."

(b) **CIVIL ACTIONS.**—Section 113(b) of the Clean Air Act is amended by inserting after and below paragraph (5) the following:

"Whenever any person violates any requirement in effect pursuant to part E, the Administrator may commence a civil action for permanent or temporary injunction or to assess and recover a civil penalty of not more than \$25,000 per day of violation, or both."

(c) **CRIMINAL PENALTIES.**—Section 113(c)(1)(C) of the Clean Air Act is amended by inserting "or any requirement in effect pursuant to part E," before "or."

(d) **JUDICIAL REVIEW.**—Section 307(b)(1) of the Clean Air Act is amended by inserting "any final action taken by the Administrator under part E of title I" after "120" in the first sentence thereof.

**TITLE II—CONTROL OF EMISSIONS OF  
OXIDES OF NITROGEN**

**SEC. 201. REVISIONS OF NEW SOURCE PERFORMANCE STANDARD.**

Section 111 of the Clean Air Act is amended by adding at the end thereof the following new subsection:

"(k) **STANDARDS OF PERFORMANCE RELATING TO OXIDES OF NITROGEN.**—(1) The Administrator shall revise the standards of performance for emissions of oxides of nitrogen

from electric utility steam generating units which burn bituminous or subbituminous coal. Such revised standards shall prohibit the emission of oxides of nitrogen from such units at a rate which exceeds—

"(A) 0.30 pounds per million Btu's of heat input, in the case of subbituminous coal; and

"(B) 0.40 pounds per million Btu's of heat input, in the case of bituminous coal,

based on a 30-day rolling average. Such revised standard shall take effect with respect to units which commence construction after the date of the enactment of the National Acid Rain Control Act.

"(2) As used in this subsection, the terms 'electric utility steam generating unit', 'bituminous coal', and 'subbituminous coal' have the same meanings as when used in 40 CFR part 60, subpart D, as in effect on January 1, 1983.

"(3) The Administrator shall promulgate standards of performance under this section for emissions of oxides of nitrogen and sulfur dioxide from all fossil fuel fired steam generating units which are new sources within the meaning of subsection (a)(2) and which are capable of combusting more than 50 million Btu's per hour heat input of fossil fuel (either alone or in combination with any other fuel). The standards under this section applicable to fossil fuel fired steam generating units which are capable of combusting more than 250 million Btu's per hour heat input may vary from the standards applicable to units which are not capable of such combustion."

#### SEC. 202. EMISSIONS FROM MOBILE SOURCES.

(a) TRUCKS AND TRUCK ENGINES.—Section 202 of the Clean Air Act is amended by adding at the end thereof the following new subsection:

"(g) OXIDES OF NITROGEN EMISSIONS FROM LIGHT-DUTY TRUCKS AFTER 1988.—(1) Effective with respect to vehicles and engines manufactured during and after the model year 1988, the regulations under subsection (a) applicable to emissions of oxides of nitrogen from trucks and truck engines the gross vehicle weight of which does not exceed 8,500 pounds shall contain standards which provide that such emissions may not exceed—

"(A) 1.2 grams per vehicle mile for gross vehicle weight not in excess of 6,000 pounds; and

"(B) 1.7 grams per vehicle mile for gross vehicle weight in excess of 6,000 pounds.

"(2) Effective with respect to vehicles and engines manufactured during and after the model year 1988, the regulations under subsection (a) applicable to emissions of oxides of nitrogen from trucks and truck engines the gross vehicle weight of which exceeds 8,500 pounds shall contain standards which provide that such emissions may not exceed 4.0 grams per brake horsepower-hour.

"(3) Subparagraphs (B) and (E) of subsection (a)(3) shall not apply to any standard established under this subsection."

(b) CONFORMING AMENDMENT.—Section 202(a)(3)(A)(ii) is amended by inserting "and except as otherwise provided in subsection (g)" after "(E)".

#### TITLE III—ACID DEPOSITION DAMAGE MITIGATION PROGRAM

##### SEC. 301. STATE PLANS AND FEDERAL ASSISTANCE.

(a) RESTORATION PROGRAM.—Any State may prepare, and submit to the Administrator of the Environmental Protection Agency for approval and to the Director of the United States Fish and Wildlife Service for comment—

(1) a survey of water quality deterioration in such State which has resulted from acid deposition;

(2) a proposal for research on mitigating the effects of acid deposition on terrestrial and aquatic ecosystems; and

(3) proposed methods and procedures to restore the quality of water in such State which has deteriorated as a result of acid deposition.

##### (b) FINANCIAL ASSISTANCE.—

(1) IN GENERAL.—From the fund established under section 196 of the Clean Air Act, the Administrator, after consultation with the Director of the United States Fish and Wildlife Service, shall provide financial assistance to States in order to carry out methods and procedures for restoration which have been approved by the Administrator under this section.

(2) 80 PERCENT LIMIT.—The amount granted under this section to any State for any fiscal year shall not exceed 80 percent of the funds expended by such State in such year for carrying out approved methods and procedures under this section.

(3) APPORTIONMENT AMONG STATES.—The Administrator shall provide for an equitable distribution of sums appropriated under this section among States with approved methods and procedures. Such distribution shall be based on the relative need of each such State for the restoration of water quality which has deteriorated as a result of acid deposition. The amount of any grant to a State under this section shall be in addition to, and not in lieu of, any other Federal financial assistance.

#### BACKGROUND ON S. 95, THE KERRY ACID RAIN BILL

Acid rain damage to aquatic ecosystems, including many fresh water lakes and streams, has been well documented in Europe and eastern North America. The problem, once thought to be an issue only for New England, is quickly revealing itself as one with national and international implications. In addition to the northeastern states and eastern Canada, recent studies indicate sensitivity to aquatic acidification in the Southeast, areas of the Rocky Mountains, and the Pacific Northwest. The EPA's just released Eastern Lakes Survey confirms the research of many experts and surprised many by documenting extensive damage throughout Florida. The National Academy of Sciences projects that, "At current rates of emissions of sulfur and nitrogen oxides, the number of affected lakes can be expected to more than double by 1990, and to include larger and deeper lakes."

Extensive forest damage and growth decline throughout North America and Europe are believed to be the result of acid precipitation. Declines in the United States have been documented in high elevation forests in the Northeast, Ohio and as far south as North Carolina. It may already be too late to reverse the long-term decline of much of the central European forests from gaseous pollutants. The emission reductions that countries such as West Germany are undertaking may not save the forests since the pollution effects appear to be cumulative and recovery time long. Central Europe's experiences should serve as a hard lesson for the United States. (During an acid rain fact-finding visit to Europe in January 1984, Senator Kerry visited the Black Forest in Germany and was told by German officials and scientists that much of the damage could be permanent.)

The air pollutants associated with acid rain can have direct effects on human health. Evidence indicates that even current levels of sulfur dioxide can produce adverse health effects in some people. Those at greatest risk include people with allergies, children, individuals with bronchitis and more severe respiratory and cardiovascular diseases, the elderly and smokers. It is also suspected that pollutant levels that have been accepted as safe when pollutants are in isolation, may become hazardous when the pollutants are combined—as is the case with acid rain.

Acid deposition at current levels is damaging materials—metal, stone and exterior coatings—as well as many important historic and cultural resources.

Acid rain contributes to a deterioration of visibility, particularly in those areas where the pollutants are initially emitted.

#### ELEMENTS IN S. 95, THE NATIONAL ACID RAIN CONTROL ACT

Given the magnitude of the effects of acid rain and the growing consensus in the scientific community that it is not confined to a few "dead" lakes in New England, comprehensive, immediate action is indicated. The Kerry Bill will accomplish the needed emissions reductions while being sensitive to issues of coal miner job displacement, cost responsibilities, equity and other regional concerns. The bill will also allow the flexibility needed to encourage advanced fossil fuel combustion technology.

S. 1983 includes:

A twelve million ton reduction in annual sulfur dioxide (SO<sub>2</sub>) emissions—the amount of reduction needed to adequately protect natural and manmade resources.

A three million ton reduction in oxides of nitrogen (NO<sub>x</sub>) emissions—reduction of these emissions is particularly important to the future health of our forests.

Emissions reductions across the continental United States—because there are symptoms of acid rain throughout the country, national reductions are needed.

State flexibility to design reduction plans which best fit their needs—by not requiring any specific technologies, states can design plans which reduce emissions at lower costs to consumers.

A specified plant-by-plant emission limit will be imposed in the event that a state fails to produce an plan based on regulations in the bill and acceptable to EPA—this will ensure reductions as well as minimize opportunities for delay.

A fund to subsidize the cost of capital equipment to reduce emissions based on a payment of \$147 ton reduced—an innovative payment formula which favors the installation of capital equipment to avoid coal miner job displacement while fixing the subsidy at a level which will promote the use of newer, less costly technologies.

A three-tiered graduated fee on electricity generation for collecting the subsidy—a new proposal which creates equity by shifting the burden from areas of the country where sulfur emissions are currently lower to those areas that have greater emissions and will consequently receive more benefits from the subsidy fund.

#### SUMMARY OF S. 95, THE NATIONAL ACID RAIN CONTROL ACT

##### PURPOSE

The National Acid Rain Control Act will amend the Clean Air Act to reduce sulfur dioxide emissions by 12 million tons per year

and nitrogen oxide emissions by 3 million tons per year by 1995 in the 48 contiguous states and the District of Columbia. These reductions will lessen the damage to public health and the environment from acid deposition caused by these pollutants.

#### CONTROL OF SULFUR DIOXIDE EMISSIONS

##### Section 181

Sulfur dioxide reductions will be achieved through: (1) direct federally mandated reductions; (2) state plans which provide for additional reductions; and (3) implementation of a program which subsidizes the capital costs of control technologies to mitigate any potential economic impacts and loss of coal mining jobs.

##### Section 191

The EPA Administrator will compute each state's share of the reduction using the best available data or the inventory of emissions developed in the Memorandum of Intent on Transboundary Air Pollution signed by the U.S. The state's share depends on boiler emissions greater than 1.2 lbs. SO<sub>2</sub>/MMBTU heat input and excess process emissions.

#### STATE CONTROL PLANS

##### Section 192

Each of the 48 contiguous states and the District of Columbia must submit a plan to the EPA Administrator which describes how emission reductions will be achieved. The state plan must call for a phased reduction so that 1/2 of the state's share of reductions will be achieved before 1992, and the entire share by 1995. The state may allow a source to substitute emissions of NO<sub>x</sub> for SO<sub>2</sub> at a ratio of 2:1.

#### REQUIREMENTS FOR STATES WHICH DO NOT HAVE APPROVED REDUCTION PLANS

##### Section 193

In any state which does not submit, receive approval, or implement their plan, major stationary sources will have to comply with an emission limitation equal to 1.2 lbs. of SO<sub>2</sub> per million Btu's of heat input.

#### ACID DEPOSITION CONTROL FUND

##### Section 196

A trust fund will be established in the U.S. Treasury into which fees collected from owners or operators of fossil fuel fired electric utility generating plants within the 48 contiguous states will be deposited. Payments from the fund will be used for the following purposes: (1) payment for capital costs incurred by these facilities in meeting reduction requirements at a rate of \$147 per ton of SO<sub>2</sub> emission reduced; (2) payment of \$10 million per year for accelerated research on cleaner burning industrial processes; and (3) payment of \$25 million per year for acid deposition mitigation programs. These payments will be used to reduce electric rate increases payable by customers of the utility.

##### Section 197

The Administrator will apply the following fee schedule:

#### 1982 State average sulfur dioxide emission rates

	Fees
Less than or equal to 1.2 pounds per million Btu's.....	0.50
Greater than 1.2 pounds per million Btu's of heat input but less than 2.0 pounds per million Btu's of heat input.....	1.0
Greater than 2.0 pounds per million Btu's of heat input.....	1.6

<sup>1</sup> Mills per kilowatt-hour.

#### ACCELERATED RESEARCH ON CLEANER BURNING INDUSTRIAL PROCESSES

##### Section 198

Beginning in 1987, \$10 million will be authorized for 5 fiscal years for research which develops industrial processes to lower levels of SO<sub>2</sub> and NO<sub>x</sub>.

##### Section 201

Revises performance standards for emission of nitrogen oxides from electric utility steam generating as follows: prohibits emission of NO<sub>x</sub> at a rate of more than 0.30 lbs./mill. Btu's of heat input using sub-bituminous coal; and 0.40 lbs./mill Btu's of heat input using bituminous coal.

##### Section 202

After 1987, emissions from light-duty trucks weighing less than 8,500 lbs cannot exceed 1.2 g/vehicle mile for gross vehicle weight not in excess of 6,000 pounds, and 1.7 g/vehicle mile for gross vehicle weight in excess of 6,000 pounds. For trucks exceeding 8,500 lbs. NO<sub>x</sub> emissions may not exceed 4.0 g/brake horsepower-hour.

#### ACID DEPOSITION DAMAGE MITIGATION PROGRAM

States will be reimbursed 80% of funds used for mitigation measures to restore aquatic and terrestrial resources.

By Mr. INOUE (for himself and Mr. MATSUNAGA):

S. 96. A bill to amend titles XVIII and XIX of the Social Security Act to provide that psychiatric nurse practitioner or psychiatric clinical nurse specialist services are covered under part B of Medicare and are a mandatory benefit under Medicaid, and for other purposes; to the Committee on Finance.

#### PROVIDING CERTAIN PSYCHIATRIC NURSE SERVICE COVERAGE

Mr. INOUE. Mr. President, today Senator SPARK MATSUNAGA and I are introducing legislation to amend our Nation's Medicare and Medicaid Programs to ensure that psychiatric nurse practitioners and psychiatric clinical nurse specialists will be deemed truly autonomous practitioners under both of these programmatic initiatives.

In our judgment, for too long a period of time now, our various Federal statutes have required that these professional practitioners can only perform under the supervision of, or referral from, members of another profession.

During the past decade, we have been able to modify the Department of Defense CHAMPUS Program in order to ensure that these individuals will be truly autonomous providers and, it is my hope that we will be able to modify Medicare and Medicaid in a similar fashion in the foreseeable future.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

##### S. 96

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

#### SECTION 1. COVERAGE OF PSYCHIATRIC NURSE PRACTITIONER OR PSYCHIATRIC CLINICAL NURSE SPECIALIST SERVICES UNDER PART B OF MEDICARE.

(a) COVERAGE OF SERVICES.—Section 1861(s)(2) of the Social Security Act (42 U.S.C. 1395x(s)(2)) is amended—

(1) by striking out "and" at the end of subparagraph (J);

(2) by adding "and" at the end of subparagraph (K); and

(3) by adding at the end thereof the following new subparagraph:

"(L) psychiatric nurse practitioner or psychiatric clinical nurse specialist services;"

(b) DEFINITION.—Section 1861 of such Act (42 U.S.C. 1395x) is amended by adding at the end thereof the following new subsection:

#### "PSYCHIATRIC NURSE PRACTITIONER OR PSYCHIATRIC CLINICAL NURSE SPECIALIST SERVICES"

"(ff)(1) The term 'psychiatric nurse practitioner or psychiatric clinical nurse specialist services' means services performed by a psychiatric nurse practitioner or psychiatric clinical nurse specialist (as defined in paragraph (2)) which the psychiatric nurse practitioner or psychiatric clinical nurse specialist is legally authorized to perform under State law (or the State regulatory mechanism provided by State law) of the State in which such services are performed, whether or not the psychiatric nurse practitioner or psychiatric clinical nurse specialist is under the supervision of, or associated with, a physician or other health care provider.

"(2) The term 'psychiatric nurse practitioner or psychiatric clinical nurse specialist' means an individual who—

"(A) is a registered nurse and is licensed to practice nursing in the State in which the psychiatric nurse practitioner or psychiatric clinical nurse specialist services are performed; and

"(B)(i) holds a master's degree or higher degree in psychiatric nursing or a related field from an accredited educational institution; or

"(ii) is certified as a psychiatric nurse practitioner or psychiatric clinical nurse specialist by the duly recognized professional nurses association."

(c) LIMIT ON PAYMENT OF BENEFITS.—Section 1833(c) of such Act (42 U.S.C. 1395l(c)) is amended by striking out all that follows "purpose of subsections (a) and (b)" and inserting in lieu thereof "no more than \$1,000."

(d) EFFECTIVE DATE.—The amendments made by this section shall be effective with respect to services performed on or after the first day of the first month which begins more than 60 days after the date of the enactment of this Act.

#### SEC. 2. COVERAGE OF PSYCHIATRIC NURSE PRACTITIONER OR PSYCHIATRIC CLINICAL NURSE SPECIALIST SERVICES AS A MANDATORY MEDICAID BENEFIT.

(a) COVERAGE OF SERVICES.—

(1) Section 1905(a) of the Social Security Act (42 U.S.C. 1395d(a)) is amended—

(A) by striking out "and" at the end of paragraph (20);

(B) by redesignating paragraph (21) as paragraph (22); and

(C) by inserting after paragraph (20) the following new paragraph:

"(21) psychiatric nurse practitioner or psychiatric clinical nurse specialist services (as defined in section 1861(ff)(1)); and".

(b) CONFORMING CHANGES.—

(1) Section 1902(a) of such Act (42 U.S.C. 1396(a)) is amended—

(A) in paragraph (10)(A), by striking out "paragraphs (1) through (5) and (17)" and inserting in lieu thereof "paragraphs (1) through (5), (17), and (21)"; and

(B) in paragraph (10)(C)(iv), by striking out "paragraphs (1) through (5) and (17) of section 1905(a) or the care and services listed in any 7 of the paragraphs numbered (1) through (20)" and inserting in lieu thereof "paragraphs (1) through (5), (17), and (21) of section 1905(a) or the care and services listed in any 7 of the paragraphs numbered (1) through (21)".

(2) Section 1902(j) of such Act (42 U.S.C. 1396a(j)) is amended by striking "(21)" and inserting in lieu thereof "(22)".

(c) EFFECTIVE DATE.—

(1) Except as provided in paragraph (2), the amendments made by this section shall be effective with respect to payments under title XIX of the Social Security Act for calendar quarters beginning more than 60 days after the date of the enactment of this Act.

(2) In the case of a State plan for medical assistance under title XIX of the Social Security Act which the Secretary of Health and Human Services determines requires State legislation in order for the plan to meet the additional requirements imposed by the amendments made by this section, the State plan shall not be regarded as failing to comply with the requirements of such title solely on the basis of its failure to meet these additional requirements before the first day of the calendar quarter beginning after the close of the first regular session of the State legislature that begins after the date of the enactment of this Act.

By Mr. INOUE (for himself and Mr. MATSUNAGA):

S. 97. A bill to amend title XVIII of the Social Security Act to provide that psychologist services furnished by, or under arrangements made by, a hospice program are covered under Medicare; to the Committee on Finance.

PROVIDING HOSPICE PSYCHOLOGIST SERVICES COVERAGE

Mr. INOUE. Mr. President, today Senator SPARK MATSUNAGA and I are introducing legislation which would amend the Hospice Program provisions under our Nation's Medicare law in order to expressly provide that the services of professional psychologists will be made available to individuals who reside in a hospice.

During the closing hours of the 98th Congress, the Senate Finance Committee received testimony on this proposal and, at that time, it was pointed out that primarily due to the lack of express enumeration of psychological services, hospices all too frequently do not utilize their expertise.

In our judgment, it is especially important that quality mental health services be made readily available for those individuals who decide it is necessary to enter a hospice. At that point in time, the therapeutic goal would be to ensure that these individuals are able to finish out the final days of their lives in the most humane fashion possible. I cannot help but think that it is especially during these final hours that the services of quali-

fied mental health specialists would be most in need.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 97

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. COVERAGE OF CERTAIN SERVICES PROVIDED THROUGH A HOSPICE PROGRAM.

(a) COVERAGE OF SERVICES.—Section 1861(dd)(1) of the Social Security Act (42 U.S.C. 1395x(dd)(1)) is amended—

(1) by striking out "and" at the end of subparagraph (G);

(2) by striking out the period at the end of subparagraph (H) and inserting in lieu thereof ", and";

(3) by adding at the end thereof the following new subparagraph:

"(I) psychologist services (as defined in subsection (ff)(1))."

(b) DEFINITION.—Section 1861 of such Act (42 U.S.C. 1395x) is further amended by adding at the end thereof the following new subsection:

"PSYCHOLOGIST SERVICES

"(ff)(1) The term 'psychologist services' means services performed by an individual who is a psychologist (as defined in paragraph (2)) that such individual is legally authorized to perform under the law (or the regulatory mechanism provided by law) of the State in which such services are performed, whether or not such individual is under the supervision of, or associated with, a physician or other health care provider.

"(2) The term 'psychologist' means an individual who—

"(A) is licensed or certified at the independent practice level of psychology by the State in which such individual so practices,

"(B) possesses a doctorate degree in psychology from a regionally accredited educational institution, or in the case of an individual licensed or certified prior to January 1, 1978, possesses a master's degree in psychology and is listed in a national register of mental health service providers in psychology which the Secretary deems appropriate, and

"(C) possesses two years of supervised experience in health service, at least one year of which is postdegree."

(c) EFFECTIVE DATE.—The amendments made by this section shall be effective with respect to services performed on or after the first day of the first month which begins more than sixty days after the date of the enactment of this Act.

By Mr. INOUE (for himself and Mr. MATSUNAGA):

S. 98. A bill to amend the Internal Revenue Code of 1986 to provide a credit for the purchase of child restraint systems used in motor vehicles; to the Committee on Finance.

PROVIDING TAX CREDIT FOR CHILD RESTRAINT SYSTEM PURCHASES

Mr. INOUE. Mr. President, today Senator MATSUNAGA and I are introducing legislation which would amend the Internal Revenue Code in order to provide a tax credit for the purchase

of child restraint systems used in motor vehicles.

Mr. President, our proposal is modeled after a provision in the State of Hawaii's tax code which has been well-received by our constituents. It is an unfortunate fact that injuries have now replaced infectious diseases as the leading cause of death and disability among younger Americans. For example, I understand that half of all Americans aged 1 to 14 who died in 1983, died from injuries sustained in car and bicycle accidents, fires, falls, drowning, and the ingestion of toxic substances. The U.S. Department of Transportation informed me that although child safety seat use has increased from 13 percent in 1979 to almost 29 percent today, its investigations also indicate that only in about 15 percent of the cases where tethered seats are being used, are they being used correctly. Further, for nontethered restraints, in only approximately 60 percent of the time that they are being used, are they being used correctly. This is in spite of the fact that we know that if properly restrained, over 50 percent of the children who died in automobile accidents would have been saved and 65 percent would have been less severely injured.

Mr. President, I request unanimous consent that the text of my bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 98

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. CREDIT FOR PURCHASE OF CHILD RESTRAINT SYSTEMS.

(a) IN GENERAL.—Subpart A of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 (relating to nonrefundable personal credits) is amended by adding at the end thereof the following new section:

"SEC. 25A. PURCHASE OF CHILD RESTRAINT SYSTEM.

"(a) GENERAL RULE.—In the case of an individual, there shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to the costs incurred by the taxpayer during such taxable year in purchasing a qualified child restraint system for any child of the taxpayer.

"(b) DEFINITIONS.—For purposes of this section—

"(1) QUALIFIED CHILD RESTRAINT SYSTEM.—The term 'qualified child restraint system' means any child restraint system which meets the requirements of section 571.213 of title 49 of the Code of Federal Regulation.

"(2) CHILD RESTRAINT SYSTEM.—The term 'child restraint system' has the meaning given to such term by section 571.213 of title 49 of the Code of Federal Regulations.

"(3) CHILD.—The term 'child' has the meaning given to such term by section 151(d)(3)."

(b) CONFORMING AMENDMENT.—The table of sections for subpart A of part IV of subchapter A of chapter 1 of the Internal Revenue

nue Code of 1986 is amended by inserting after the item relating to section 25 the following new item:

"Sec. 25A. Purchase of child restraint system."

(c) **EFFECTIVE DATE.**—The amendments made by this section shall apply to taxable years beginning after December 31, 1986.

By Mr. INOUE:

S. 99. A bill to allow the Internal Revenue Code of 1986 to be applied and administered as if the 3-year basis recovery rule applicable to employees' annuities had not been repealed; to the Committee on Finance.

#### REINSTATING THE THREE-YEAR BASIS RECOVERY RULE

Mr. INOUE. Mr. President, I rise today to introduce legislation to correct an egregious wrong that was done by the Tax Reform Act of 1986. As we all know, the goal of tax reform was to make needed improvements to the Tax Code to enhance the fairness and simplicity with which individual and corporations are taxed in this country. Unfortunately, in the rush to enact legislation in this area, many compromises and sacrifices were made for the sake of attracting political support. As a result, the final bill fell far short of its objectives of fairness, growth, and simplicity.

One area in which I feel the principle of fairness was most blatantly disregarded was the retroactive repeal of the 3-year basis recovery rule for employees who contribute to their own retirement plans. These retirees, most of whom are Government employees, have long contributed to their pension plans, paying taxes all along with the expectation of receiving these already taxed contributions back during the first 3 years of their retirement. Under the Tax Reform Act, not only was this 3-year rule repealed, but it was done so retroactively. Thus workers who retired after July 1, 1986, with the understanding that they would be entitled to three tax-free years of recovering the contributions they had made and paid taxes on throughout their careers were told "tough luck." Through no delinquency or oversight of their own, they found out after they retired that the rules in effect when they retired had been changed and as a result Uncle Sam will raid the nest egg they had been working so hard for. For those retirees who opted for a lump sum payment of their benefit under the 3-year recovery rule, this will mean they may suddenly be required to make a large up-front tax payment which was not even discussed when they retired. For many Government retirees, this could result in a previously unexpected tax payment of \$20,000. Calling this "unfair," I feel, is a gross understatement. Treatment such as this is nothing short of criminal, and it was this provision that finally convinced me to make the difficult deci-

sion to vote against the Tax Reform Act.

The far-reaching impact of the repeal of the 3-year recovery rule will be felt by Federal, State, and local government employees all across the Nation. In my State of Hawaii, the State retirement system estimates that the change in the law will have adverse repercussions on over 80 percent of its recent retirees. Some of these retirees who had expected—and rightfully so—to pay only minimal taxes in 1986, will now find themselves taxed at rates as high as 49 percent. This, I feel, is far beyond what we should reasonably ask hard-working public servants to sacrifice for the sake of "tax reform." I sincerely hope my colleagues will join me in my effort to restore to these dedicated Americans the fair and equitable treatment they had been provided until the Tax Reform Act of 1986 was passed. Once the implications of the repeal of the 3-year rule become more clear, I feel the American public will demand that it be reinstated, and I look forward to working with my colleagues in the coming Congress to see that this happens.

By Mr. D'AMATO:

S. 100. A bill to establish an Office of Inspector General in the Nuclear Regulatory Commission, and for other purposes; to the Committee on Environment and Public Works.

#### IMPROVED NUCLEAR STANDARDS ACT

● Mr. D'AMATO. Mr. President, I rise today to reintroduce the Improved Nuclear Standards Act. This legislation addresses concerns vital to the health and safety of every American living near a nuclear facility.

This legislation is identical to legislation I sponsored last year, S. 2471, and I am reintroducing it today because I believe the need for its provisions is as strong as ever. Last year, the tragic accident at the Chernobyl nuclear power station showed us that the possibility of a serious radioactive release at a nuclear facility is not merely theoretical. It can happen.

The Chernobyl incident underscored the need to look for ways to ensure that nuclear powerplants use the safest possible design, construction methods, operating techniques, and evacuation plans. This includes assurances that laws currently on the books are adhered to, and that modifications to the law which can further assure our citizens the safety to which they are entitled are made as soon as new information or improved methods become available.

The Soviet Union flatly ignored the right of its citizens to live in a free and safe society. We must be sure that this never happens here.

This legislation contains five main provisions.

First, it creates the position of inspector general at the Nuclear Regulatory Commission. This position will be appointed by the President and confirmed by the Senate. The President will be required to appoint a candidate with expertise in nuclear safety issues. It combines functions currently performed by two offices at the NRC: the Office of Inspector and Auditor, and the Office of Investigations.

In addition to the customary authority provided all other inspectors general, such as management and efficiency audit responsibilities, the new NRC inspector general also will have the authority and responsibility to review all safety procedures at the NRC to ensure that the best available standards are being met. The inspector general will make an annual report to Congress regarding the adequacy of these standards. He/she also will be authorized to propose new regulations and modifications to existing regulations for the purpose of ensuring the public safety.

Mr. President, before I proceed to the other provisions in this bill, I would like to point to some specific examples as to why I believe it is important to establish this inspector general position. We are all familiar with the fact that the NRC already has an Office of Investigations to examine charges of wrongdoing at nuclear powerplants. This office, however, has been widely criticized. Many people believe that top NRC officials have sought to restrict this office, making it difficult for the Office of Investigations to accomplish its mission.

NRC Commissioner James Asselstine, who supports the concept of an inspector general at the NRC, has been quoted as saying that "The agency has had a lot of trouble in dealing with wrongdoing. There has been too much of a closeness with industry."

In 1985, Assistant Attorney General Steve Trott said in a letter to NRC Chairman Palladino that "senior personnel" at the NRC had displayed "opposition as well as resistance . . . to the detection and disclosure of deliberate wrongdoing by NRC licensees."

Former Commissioner Victor Gilsinsky calls the NRC "an agency of technical people, engineers who are not oriented toward dealing with wrongdoing. They're uncomfortable in the role of policeman."

Mr. President, I'd like to quote two paragraphs from an April 8, 1986, Washington Post article which illustrates the problem. It deals with the Fermi nuclear plant in Michigan. In July of 1985, senior NRC officials praised the plant's owner, Detroit Edison Co., and awarded the utility a license to begin full-power operations. The article goes on to describe what happened next:

But the commission soon learned of a disturbing incident just eight days earlier, when an operator at the Michigan plant triggered a premature chain reaction by improperly removing control rods from the nuclear reactor. The utility told the NRC there had been an error in the control room, but at first denied that the reactor went to "critical" status, generating enough heat to achieve full power.

NRC investigators have charged in a preliminary report that Detroit Edison made "material false statements" by withholding details of the incident until after the full-power license was granted, an allegation the utility denies. But senior NRC staff members have delayed the Office of Investigations' probe for weeks by challenging the investigators' plan to refer it to the Justice Department for possible prosecution.

Finally, in June of 1986 this case was sent to the Justice Department. Yet it took from October of 1985 until June of 1986 for the Office of Investigations to get this case through the senior staff at the NRC to the Justice Department.

We cannot tolerate a situation where the staff of the Office of Investigations is constantly frustrated in their attempts to refer cases to the Justice Department. We cannot tolerate having their conclusions second-guessed by other offices within the NRC. We cannot tolerate the incredible bureaucracy which has been impeding the effectiveness of this office. Mr. President, I believe it is clear that we need to give the NRC an inspector general with the necessary independence to pursue investigations, propose improvements, and report directly to the Congress.

The other major features of the legislation I have proposed are equally important.

Second. It expands the role of the inspector general currently at the Federal Emergency Management Agency to allow him to review standards and procedures regarding emergency evacuation plans for nuclear power facilities, and for both the inspector general and the Director of FEMA to make recommendations directly to Congress regarding the adequacy of these standards and procedures and their implementation.

Third. It requires FEMA to conduct an annual test of the evacuation plan for each operating nuclear power facility in the United States. Currently, these tests are conducted once every 2 years, even though once-a-year tests were the standard until 1985.

Fourth. It requires that, as part of the licensing procedure for every commercial nuclear power facility, FEMA must make a finding that the public safety can be assured by the evacuation plan. This finding also will be required after each annual test. If FEMA cannot make this finding, then the plant must cease operation until corrective measures have been taken, until a new test has been conducted,

and until the finding that public safety can be assured has been made.

This provision is particularly applicable to Shoreham, the controversial nuclear power plant on Long Island in New York, where FEMA's report contains no such finding, and for which the NRC will be making its licensing decision without a recommendation from FEMA.

Fifth. Finally, this bill requires that utilities bear all non-Federal costs associated with the annual testing of emergency evacuation plans. Currently, these large costs are often borne by State and local governments; that is, by homeowners and local taxpayers.

Mr. President, many of our citizens live in fear. Unfortunately, this is a justified fear. Americans question whether what happened at Chernobyl could happen here. It is my hope that, with prompt passage of this legislation, we can take a major step toward reassuring our citizens. ●

By Mr. INOUE:

S. 101. A bill to amend titles XVIII and XIX of the Social Security Act to provide that a nurse practitioner or clinical nurse specialist may, in collaboration with a physician, certify or recertify the need for certain services, to provide for coverage of certain items and services furnished by a nurse practitioner or clinical nurse specialist, and for other purposes; to the Committee on Finance.

CERTIFICATION AND RECERTIFICATION OF THE  
NEED FOR CERTAIN SERVICES

Mr. INOUE. Mr. President, today I am introducing legislation to modify our Nation's Social Security Act in order to ensure that the services of all categories of nurse practitioners and clinical nurse specialists will be readily available to our Nation's nursing homes under both Medicare and Medicaid.

As our Nation's elderly continue to represent a larger segment or our overall population, it is becoming increasingly important for us to establish comprehensive health care programs targeted toward their unique needs. In addition, in the wake of Medicare payment reforms in 1983, the length of stay in hospitals has dropped dramatically. Patients are being discharged earlier, but in many cases are still in need of nursing care in skilled nursing facilities or intermediate care facilities. These dramatic changes in the nursing home area are the impetus behind my introduction of the Advanced Nursing Services in Nursing Homes Act of 1986.

The act would let nurse practitioners and clinical nurse specialists, working in collaboration with a physician, to certify and recertify the need for certain services in nursing homes, as well as perform the mandatory nursing home patient visits under both Medicare and Medicaid. This bill would also

provider payment for certain services furnished by a nurse practitioner or clinical nurse specialist.

The results of numerous studies demonstrate the positive impact that the use of health care teams in nursing homes, which include nurse specialists, has had on quality of care and cost effectiveness. For example, a recent Massachusetts study found that when nursing home patients received care by a health care team, rather than solely by a physician, the following results occurred: More timely visits, reduced hospitalizations for emergency and outpatient services, reduced total inpatient hospital days, and reduced overall medical care costs. The study concluded that under the health care team approach, nursing home patients received more timely appropriate and cost-effective care.

Similarly, a Wyoming study found that when a gerontological nurse practitioner was employed at a facility, hospital transfers were reduced substantially. Accompanying that decrease was an increase of discharges from the nursing home back to the community. Another finding of the study was that gerontological nurse practitioners improved the public image of the nursing home as evidenced by a survey of community residents. Most importantly, via their emphasis on health promotion, disease prevention, early diagnosis, treatment and rehabilitation, gerontological nurse practitioners were able to improve the quality of patient care.

A major barrier to the increased use of nurse practitioners and clinical nurse specialists in nursing homes is embodied in outmoded Federal reimbursement policies that currently do not reimburse providers of nursing home primary care other than physicians. Clearly, a major incentive to transfer the place of care from hospital to nursing home must be a reimbursement policy that recognizes the utility and fundamental economy of ongoing care in the nursing home via reimbursement for nurse practitioners and clinical nurse specialists.

The bill which I am proposing today also promotes cost-effective provision of health care by paying for nursing home visits by nurse practitioners and clinical nurse specialists at a rate equal to 75 percent of the prevailing charge paid for similar services in the same locality. In addition, under my proposal the nursing home resident would personally save money because they would not have to make copayments to nurse practitioners and clinical nurse specialists; mandatory assignment would also be required under Medicare.

The act creates a win-win situation by: Containing Medicare and Medicaid Program costs, increasing the quality of care provided to nursing home resi-

dents, recognizing the expanded role that nurse practitioners and clinical nurse specialists are qualified to play in providing care in the nursing home, and saving nursing home residents money.

I would like to thank the American Nurses' Association for assistance in drafting this legislation, and I am looking forward to having this bill become public law as soon as possible.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 101

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. CERTIFICATION AND RECERTIFICATION OF THE NEED FOR CERTAIN SERVICES.

(a) MEDICARE CERTIFICATIONS AND RECERTIFICATIONS FOR CERTAIN SERVICES.—Section 1814(a) of the Social Security Act (42 U.S.C. 1395f(a)) is amended—

(1) in paragraph (2) by striking "(2) a physician" and inserting in lieu thereof "(2) a physician, or, in the case of services described in subparagraph (B), a physician or a nurse practitioner or clinical nurse specialist working in collaboration with a physician," and

(2) in the matter following paragraph (7) by striking "a physician makes" and inserting in lieu thereof "a physician, nurse practitioner, or clinical nurse specialist (as the case may be) makes".

(b) MEDICAID CERTIFICATIONS AND RECERTIFICATIONS FOR CERTAIN SERVICES.—Section 1902(a)(44) of such Act (42 U.S.C. 1396a(a)(44)) is amended—

(1) in subparagraph (A)—

(A) by striking "physician certifies" and inserting in lieu thereof "physician (or, in the case of skilled nursing facility services or intermediate care facility services, a physician or a nurse practitioner or clinical nurse specialist working in collaboration with a physician) certifies", and

(B) by striking "the physician, or a physician assistant or nurse practitioner under the supervision of a physician," and inserting in lieu thereof "a physician, a physician assistant under the supervision of a physician, or, in the case of skilled nursing facility services or intermediate care facility services, a physician or a nurse practitioner or clinical nurse specialist working in collaboration with a physician,"; and

(2) in subparagraph (B) by striking "a physician," and inserting in lieu thereof "a physician, or, in the case of skilled nursing facility services or intermediate care facility services, a physician or a nurse practitioner or clinical nurse specialist working in collaboration with a physician,".

(c) SUPERVISION OF HEALTH CARE FURNISHED IN SKILLED NURSING FACILITIES.—Section 1861(j)(4) of such Act (42 U.S.C. 1395x(j)(4)) is amended—

(1) in subparagraph (A) by striking "a physician," and inserting in lieu thereof "a physician or a nurse practitioner or clinical nurse specialist working in collaboration with a physician,"; and

(2) in subparagraph (B) by striking "a physician" and inserting in lieu thereof "a physician or a nurse practitioner or clinical

nurse specialist working in collaboration with a physician,".

(d) DEFINITION.—

(1) Section 1861 of such Act (42 U.S.C. 1395x) is amended by adding at the end thereof the following new paragraph:

"Nurse Practitioner and Clinical Nurse Specialist

"(ff)(1) An individual shall be treated as a nurse practitioner or clinical nurse specialist if the individual—

"(A) is licensed to practice professional nursing;

"(B) performs such services as such individual is legally authorized to perform (in the State in which the individual performs such services) in accordance with State law (or the State regulatory mechanism provided by State law); and

"(C)(i) holds a masters degree in nursing and is certified or eligible for certification by a national professional nursing organization,

"(ii) holds a masters degree in a related field and is certified by a national professional organization, or

"(iii) has completed a nurse practitioner continuing education program and is certified by a national professional nursing organization.

"(2) A nurse practitioner or clinical nurse specialist works in collaboration with a physician where the nurse and physician act pursuant to an agreement that allocates responsibility for decisions and actions, but allows each professional to retain responsibility for their respective actions and engage in such actions independently."

(2) Section 1861(aa) of such Act (42 U.S.C. 1395x(aa)) is amended in paragraph (3)—

(A) by striking "and the term 'nurse practitioner'" and "or nurse practitioner", and

(B) by striking "mean" and inserting in lieu thereof "means".

(3) Section 1861(s)(2)(H) of such Act (42 U.S.C. 1395x(s)(2)(H)) is amended in clause (i) by striking "physician assistant or by a nurse practitioner (as defined in subsection (aa)(3))" and inserting in lieu thereof "physician assistant (as defined in subsection (aa)(3)) or by a nurse practitioner".

(e) EFFECTIVE DATE.—

(1) The amendments made by subsections (a), (c), and (d) of this section shall apply to items and services furnished on or after the date of enactment of this Act.

(2)(A) Except as provided in subparagraph (B), the amendments made by subsection (b) shall apply to medical assistance provided on or after the date of enactment of this Act.

(B) In the case of a State plan for medical assistance under title XIX of the Social Security Act which the Secretary of Health and Human Services determines requires State legislation in order for the plan to meet the additional requirements of the amendments made by subsection (b), the State plan shall not be regarded as failing to comply with the requirements of such title solely on the basis of its failure to meet the additional requirements before the first day of the first calendar year beginning after the close of the first regular session of the State legislature that begins after the date of the enactment of this Act.

#### SEC. 2. COVERAGE OF CERTAIN ITEMS AND SERVICES FURNISHED BY A NURSE PRACTITIONER OR CLINICAL NURSE SPECIALIST.

(a) PAYMENT OF BENEFITS.—Section 1833(a)(2) of the Social Security Act (42 U.S.C. 1395l(a)(2)) is amended—

(1) in subparagraph (B) by striking "(C) or (D)" and inserting in lieu thereof "(C), (D), or (E)",

(2) in subparagraph (C) by striking "and",

(3) in subparagraph (D) by inserting "and" after "tests"; and

(4) by adding at the end thereof the following new subparagraph:

"(E) with respect to items and services described in section 1861(s)(2)(L), the amount paid shall be equal to 100 percent of the amount determined as the reasonable charge for such items and services under section 1842(b)(10)."

(b) CONTRACTS WITH CARRIERS.—Section 1842(b) of such Act (42 U.S.C. 1395u(b)) is amended by adding at the end thereof the following new paragraph:

"(13) In providing payment for the items and services described in section 1861(s)(2)(L), each carrier shall require that payment be made in the manner described in paragraph (3)(B)(ii), except that the reasonable charge shall be determined as 75 percent of the prevailing charge paid for similar items and services in the same locality."

(c) DEFINITION.—Section 1861(s)(2) of such Act (42 U.S.C. 1395x(s)(2)) is amended—

(1) by striking "and" at the end of subparagraph (J),

(2) by adding "and" at the end of subparagraph (K), and

(3) by adding at the end thereof the following new subparagraph:

"(L) services furnished by a nurse practitioner or clinical nurse specialist in a skilled nursing facility and services and supplies furnished as an incident to such services."

(d) CONFORMING CHANGE.—Section 1861(h) of such Act (42 U.S.C. 1395x(h)) is amended by inserting ", and excluding any item or service described in subsection (s)(2)(L)" before the period.

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to items and services furnished on or after the date of enactment of this Act.

#### SEC. 3. COVERAGE OF CERTAIN ITEMS AND SERVICES FURNISHED BY A NURSE PRACTITIONER OR CLINICAL NURSE SPECIALIST.

(a) IN GENERAL.—Section 1905(a) of the Social Security Act (42 U.S.C. 1396d(a)) is amended in paragraph (5)—

(1) by inserting "(A)" after the paragraph designation; and

(2) by striking "elsewhere;" and inserting in lieu thereof "elsewhere; and (B) services furnished in an intermediate care facility or skilled nursing facility by a nurse practitioner or clinical nurse specialist (as defined in section 1861(ff)(1)) working in collaboration with a physician;".

(b) EFFECTIVE DATE.—

(1) Except as provided in paragraph (2), the amendments made by this section shall apply to medical assistance provided on or after the date of enactment of this Act.

(2) In the case of a State plan for medical assistance under title XIX of the Social Security Act which the Secretary of Health and Human Services determines requires State legislation in order for the plan to meet the additional requirements of the amendments made by this section, the State plan shall not be regarded as failing to comply with the requirements of such title solely on the basis of its failure to meet the additional requirements before the first day of the first calendar year beginning after the close of the first regular session of the

State legislature that begins after the date of the enactment of this Act.

By Mr. INOUE (for himself and Mr. MATSUNAGA):

S. 102. A bill to amend the Job Training Partnership Act to include American Samoans in the Native American Employment and Training Programs; to the Committee on Labor and Human Resources.

INCLUDING AMERICAN SAMOANS IN NATIVE AMERICAN EMPLOYMENT AND TRAINING PROGRAMS

Mr. INOUE. Mr. President, today Senator SPARK MATSUNAGA and I are introducing legislation to amend the native American provision of the Job Training Partnership Act—Public Law 97-300—our Federal Employment and Training Program, in order to expressly authorize that American Samoans will be deemed eligible for these important programs. As a provision of Public Law 97-300, the U.S. Department of Labor was directed to conduct a comprehensive report on the unique employment needs of these native American people. Mr. President, when the U.S. Senate passed this important legislation, we had included a provision which would have authorized programs for those American Samoans residing in Hawaii as participants. In order to obtain sufficient information to carefully consider our proposal, the conferees instead agreed to direct the Department to conduct this comprehensive report. This report has now been submitted to the Congress and confirms that, in fact, American Samoans experience very serious employment problems, especially in Hawaii and California.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 102

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) section 401(a)(1) of the Job Training Partnership Act (hereafter in this Act referred to as the "Act") is amended—*

(1) by striking out "and"; and  
(2) by inserting before the semicolon a comma and the following: "and American Samoan communities".

(b) Section 401(c)(1)(B) of the Act is amended by inserting after "Hawaiian natives" the following: "and American Samoan Natives".

(c) Section 401(h)(1) of the Act is amended by inserting after "Native Americans" the first time it appears a comma and the following "including American Samoans".

By Mr. INOUE (for himself and Mr. MATSUNAGA):

S. 103. A bill to establish the position of Associate Director for Special Populations in the National Institute on Alcohol Abuse and Alcoholism and in the National Institute on Drug

Abuse; to the Committee on Labor and Human Resources.

ESTABLISHING THE POSITION OF ASSOCIATE DIRECTOR FOR SPECIAL POPULATIONS

Mr. INOUE. Mr. President, today Senator MATSUNAGA and I are introducing legislation which would amend the U.S. Public Health Service Act in order to formally establish a position of Associate Director for Special Populations in the National Institute on Alcohol Abuse and Alcoholism [NIAAA] and in the National Institute on Drug Abuse [NIDA].

During our deliberations on the 1980 Mental Health Systems Act (Public Law 96-398), the Congress of the United States established a position of Associate Director for Minority Concerns within the National Institute of Mental Health [NIMH]. For the past several years, the Senate Appropriations Committee has directed this individual to develop a comprehensive report for us highlighting her accomplishments to date and to provide us with legislative recommendations for future action.

At the time that we enacted this particular provision, we also gave serious consideration to establishing similar positions within the other two institutes of the Alcohol, Drug Abuse, and Mental Health Administration [ADAMHA]. In fact, such legislation passed the U.S. Senate. Unfortunately, our proposal for those institutes did not become public law; however, I feel that time has now come to once again renew our efforts in this area. Without question, members of our Nation's minorities have truly unique and pressing concerns in both the alcohol abuse and drug areas which must be affirmatively addressed.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. S. 103

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) section 502 of the Public Health Service Act is amended by adding at the end thereof the following new subsection:*

"(e)(1) The Director shall designate an Associate Director for Special Populations.

"(2) The Secretary, acting through the Associate Director for Special Populations, shall—

"(A) develop and coordinate prevention, treatment, research, and administrative policies and programs to assure increased emphasis on the needs of women and minorities for the prevention and treatment of alcoholism and alcohol abuse and related problems;

"(B) support programs and projects relating to the delivery of services to women and minorities for the prevention and treatment of alcoholism and alcohol abuse and related problems, including demonstration programs and projects;

"(C) develop a plan to increase the representation of women and minorities in serv-

ice delivery and manpower programs for the prevention and treatment of alcoholism and alcohol abuse and related problems;

"(D) support programs of basic and applied social and behavioral research on the problems of women and minorities relating to alcoholism and alcohol abuse;

"(E) study the effects of discrimination by institutions against alcoholics and alcohol abusers;

"(F) develop systems to assist women and minority individuals who are alcoholics or alcohol abusers in adapting to, and coping with, the effects of discrimination;

"(G) support and develop research, demonstration, and training programs designed to eliminate institutional discrimination against alcoholics and alcohol abusers; and

"(H) provide increased emphasis on the concerns of women and minorities in training programs, service delivery programs, and research activities of the Institute."

(b) Section 503 of such Act is amended by adding at the end thereof the following new subsection:

"(e)(1) The Director shall designate an Associate Director for Special Populations.

"(2) The Secretary, acting through the Associate Director for Special Populations, shall—

"(A) develop and coordinate prevention, treatment, research, and administrative policies and programs to assure increased emphasis on the needs of women and minorities for the prevention and treatment of drug abuse and related problems;

"(B) support programs and projects relating to the delivery of services to women and minorities for the prevention and treatment of drug abuse and related problems, including demonstration programs and projects;

"(C) develop a plan to increase the representation of women and minorities in service delivery and manpower programs for the prevention and treatment of drug abuse and related problems;

"(D) support programs of basic and applied social and behavioral research on the problems of women and minorities relating to drug abuse;

"(E) study the effects of discrimination by institutions against drug abusers;

"(F) develop systems to assist women and minority individuals who are drug abusers in adapting to, and coping with, the effects of discrimination;

"(G) support and develop research, demonstration, and training programs designed to eliminate institutional discrimination against drug abusers; and

"(H) provide increased emphasis on the concerns of women and minorities in training programs, service delivery programs, and research activities of the Institute."

(c) The amendments made by subsections (a) and (b) shall take effect on the date of the enactment of this Act or October 1, 1987, whichever is later.

By Mr. INOUE:

S. 104. A bill to recognize the organization known as the National Academies of Practice; to the Committee on the Judiciary.

FEDERAL CHARTER FOR THE NATIONAL ACADEMIES OF PRACTICE

Mr. INOUE. Mr. President, today I am introducing legislation to provide a Federal charter for the National Academies of Practice.

The National Academies of Practice represents outstanding practitioners in

each of the various health care disciplines: dentistry, medicine, nursing, optometry, osteopathy, podiatry, social work, psychology, and veterinary medicine.

When fully established, each of the various national academies will possess 100 distinguished practitioners selected from their peers. It is my expectation that this umbrella organization will be able to provide the Congress of the United States and the executive branch with considerable health policy expertise, especially from the perspective of those individuals who are in the forefront of actually providing necessary care across our Nation.

Mr. President, I request unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 104

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### CHARTER

SECTION 1. The National Academies of Practice organized and incorporated under the laws of the District of Columbia, is hereby recognized as such and is granted a charter.

#### POWERS

SEC. 2. The National Academies of Practice (hereinafter referred to as the "corporation") shall have only those powers granted to it through its bylaws and articles of incorporation filed in the State or States in which it is incorporated and subject to the laws of such State or States.

#### PURPOSES OF CORPORATION

SEC. 3. The purposes of the corporation shall be to honor persons who have made significant contributions to the practice of applied psychology, dentistry, medicine, nursing, optometry, osteopathy, podiatry, social work, veterinary medicine, and other health care professions, and to improve the practices in these professions by disseminating information about new techniques and procedures.

#### SERVICE OF PROCESS

SEC. 4. With respect to service of process, the corporation shall comply with the laws of the States in which it is incorporated and those States in which it carries on its activities in furtherance of its corporate purposes.

#### MEMBERSHIP

SEC. 5. Eligibility for membership in the corporation and the rights and privileges of members shall be as provided in the bylaws of the corporation.

#### BOARD OF DIRECTORS; COMPOSITION; RESPONSIBILITIES

SEC. 6. The board of directors of the corporation and the responsibilities thereof shall be as provided in the articles of incorporation of the corporation and in conformity with the laws of the State or States in which it is incorporated.

#### OFFICERS OF CORPORATION

SEC. 7. The officers of the corporation, and the election of such officers shall be as is provided in the articles of incorporation of the corporation and in conformity with

the laws of the State or States in which it is incorporated.

#### RESTRICTIONS

SEC. 8. (a) No part of the income or assets of the corporation shall inure to any member, officer, or director of the corporation or be distributed to any such person during the life of this charter. Nothing in this subsection shall be construed to prevent the payment of reasonable compensation to the officers of the corporation or reimbursement for actual necessary expenses in amounts approved by the board of directors.

(b) The corporation shall not make any loan to any officer, director, or employee of the corporation.

(c) The corporation and any officer and director of the corporation, acting as such officer or director, shall not contribute to, support or otherwise participate in any political activity or in any manner attempt to influence legislation.

(d) The corporation shall have no power to issue any shares of stock nor to declare or pay any dividends.

(e) The corporation shall not claim congressional approval or Federal Government authority for any of its activities.

#### LIABILITY

SEC. 9. The corporation shall be liable for the acts of its officers and agents when acting within the scope of their authority.

#### BOOKS AND RECORDS; INSPECTION

SEC. 10. The corporation shall keep correct and complete books and records of account and shall keep minutes of any proceeding of the corporation involving any of its members, the board of directors, or any committee having authority under the board of directors. The corporation shall keep at its principal office a record of the names and addresses of all members having the right of vote. All books and records of such corporation may be inspected by any member having the right to vote, or by any agent or attorney of such member, for any proper purpose, at any reasonable time. Nothing in this section shall be construed to contravene any applicable State law.

#### AUDIT OF FINANCIAL TRANSACTIONS

SEC. 11. The first section of the Act entitled "An Act to provide for audit of accounts of private corporations established under Federal law", approved August 30, 1964 (36 U.S.C. 1101), is amended by adding at the end thereof the following:

"(64) National Academies of Practice."

#### ANNUAL REPORT

SEC. 12. The corporation shall report annually to the Congress concerning the activities of the corporation during the preceding fiscal year. Such annual report shall be submitted at the same time as is the report of the audit for such fiscal year required by section 3 of the Act referred to in section 11 of this Act. The report shall not be printed as a public document.

#### RESERVATION OF RIGHT TO AMEND OR REPEAL CHARTER

SEC. 13. The right to alter, amend, or repeal this charter is expressly reserved to the Congress.

#### DEFINITION OF "STATE"

SEC. 14. For purposes of this Act, the term "State" includes the District of Columbia, the Commonwealth of Puerto Rico, and the territories and possessions of the United States.

#### TAX-EXEMPT STATUS

SEC. 15. The corporation shall maintain its status as an organization exempt from taxation as provided in the Internal Revenue Code.

#### TERMINATION

SEC. 16. If the corporation shall fail to comply with any of the restrictions or provisions of this Act the charter granted hereby shall terminate.

By Mr. INOUE:

S. 105. A bill to amend title 38, United States Code, to provide for the payment of incentive special pay to Veterans' Administration psychologists who obtain certain board certification in a professional specialty; to the Committee on Veterans' Affairs.

#### PAYMENT OF INCENTIVE SPECIAL PAY TO CERTAIN VETERANS' ADMINISTRATION PSYCHOLOGISTS

Mr. INOUE. Mr. President, today I am introducing legislation which would provide psychologists who are currently serving within the Veterans' Administration with the same pay bonus that their physician colleagues receive once they obtain board certification.

The Veterans Health Care Amendments of 1984 (Public Law 98-528) contained a provision which provided the Administrator of the Veterans' Administration [VA] with the authority to provide such a pay bonus if he or she so desired. Unfortunately, the Administration has decided not to implement this provision and the measure which I am introducing today would make this mandatory.

Mr. President, I request unanimous consent that the text of my bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 105

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) subchapter I of chapter 73 of title 38, United States Code, is amended—*

(1) by redesignating section 4119 as section 4120; and

(2) by inserting after section 4118 the following new section:

"§ 4119. Incentive special pay for psychologists

"(a) The Administrator shall pay incentive special pay to any psychologist appointed under this chapter who—

"(1) executes an agreement with the Administrator to complete a specified period of service in the Department of Medicine and Surgery; and

"(2)(A) is awarded a diploma as a Diplomate in Clinical Psychology or as a Diplomate in Counseling Psychology by the American Board of Professional Psychology; or

"(B) obtains an additional advanced academic degree, such as a masters degree in public health, which the Administrator determines is in the best interest of the Veterans' Administration.

"(b)(1) The amount of incentive special pay which the Administrator pays to any

psychologist under this section may not exceed—

"(A) \$2,500 per annum in the case of any full-time psychologist; and

"(B) a proportional amount of \$1,500 per annum in the case of any part-time psychologist, as provided under paragraph (2) of this paragraph.

"(2) The proportional amount of the incentive special pay payable under paragraph (1)(B) of this subsection shall be calculated on the basis of the ratio which the part-time employment of such psychologist in the Department of Medicine and Surgery bears to full-time employment.

"(C)(1) Any agreement entered into by a psychologist under subsection (a)(1) of this section shall specify a period of one year of service in the Department of Medicine and Surgery or such longer period of service, not exceeding four years, as the psychologist requests. Any psychologist who has entered into an agreement under this section and has not failed to refund any amount which such psychologist became obligated to refund under any such agreement shall be eligible to enter into a subsequent agreement under this section.

"(2)(A) Any agreement entered into by a psychologist under subsection (a)(1) of this section shall provide that the psychologist, in the event that such psychologist voluntarily, or because of misconduct, fails to complete at least one year of service, or such longer period of service as is provided for in the first sentence of paragraph (1) of this subsection, pursuant to such agreement, shall be required to refund the total amount received under this section, unless the Chief Medical Director determines, in accordance with regulations prescribed under subsection (f) of this section, that such failure is necessitated by circumstances beyond the control of the psychologist.

"(B) Any such agreement shall specify the terms under which the Veterans' Administration and the psychologist may elect to terminate such agreement.

"(3) Any psychologist who enters into an agreement under this section is eligible to receive incentive special pay beginning on the date on which the agreement is entered into, or the date on which the psychologist becomes employed, whichever date is later.

"(d) Any amount of incentive special pay payable under this section shall be paid in biweekly installments.

"(e)(1) Except as provided in paragraphs (2) and (3) of this subsection, any additional compensation provided as incentive special pay under this section shall not be considered as basic pay for the purposes of sections 5551, 5552, and 5595 of title 5, chapters 81, 83, and 84 of such title, or any other provision of law creating an entitlement to benefits based on basic pay.

"(2) Additional compensation paid as incentive special pay under this section to any full-time employee shall be included in basic pay for the purposes of chapters 83 and 84 of title 5. Notwithstanding the preceding sentence, special pay paid to any full-time employee shall be included in average pay (as defined in section 8331(4) or 8401(3), as the case may be, of such title) for the purposes of computing the amount of any benefit under either such chapter only if—

"(A) the benefit is paid under section 8337 of such title, subsection (d) or (e) of section 8341 of such title, subchapter V of chapter 84 of such title, or section 8442(b), 8443(a), or 8445 of such title; or

"(B) the employee has completed not less than 15 years of full-time service in the De-

partment of Medicine and Surgery (except that, regardless of the length of such employee's service, no incentive special pay may be included by reason of this clause in average pay in computing an annuity that commences (or any lump-sum payment that is payable) before October 1, 1988, and only one-half of any incentive special pay paid under this section may be included by reason of this clause in average pay in computing an annuity that commences (or any lump-sum payment that is payable) on or after October 1, 1988, but before October 1, 1993).

"(3) Any additional compensation provided as incentive special pay under this section shall be considered as annual pay for the purposes of chapter 87 of title 5, relating to life insurance for Federal employees.

"(f) The Administrator shall prescribe regulations to carry out this section."

"(b) The table of sections at the beginning of such chapter is amended by striking out the item relating to section 4119 and inserting in lieu thereof the following:

"4119. Incentive special pay for psychologists.

"4120. Relationship between this subchapter and other provisions of law."

SEC. 2. The amendments made by the first section shall take effect on October 1, 1987.

By Mr. INOUE:

S. 106. A bill to amend title 10, United States Code, to provide that the Chief of the Army Nurse Corps be appointed in the regular grade of brigadier general; to the Committee on Armed Services.

REGARDING THE APPOINTMENT OF THE CHIEF OF THE ARMY NURSE CORPS

Mr. INOUE. Mr. President, today I am introducing legislation to amend title 10 of the United States Code, in order to provide that the individual who is selected as Chief of the Army Nurse Corps shall, by statute, be appointed in the regular grade of brigadier general.

In my judgment, such a statutory modification would provide this important corps with the type of congressional recognition which it so richly deserves.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 106

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That section 3069(b) of title 10, United States Code, is amended by adding at the end thereof the following new sentence: "If the officer appointed as the Chief holds a lower regular grade, such officer shall be appointed in the regular grade of brigadier general."

SEC. 2. The amendment made by this Act shall become effective on the first day of the first month following the month in which this Act is enacted.

By Mr. INOUE (for himself and Mr. MATSUNAGA):

S. 123. A bill to amend title XVIII of the Social Security Act to provide that psychologist services are covered under part B of Medicare; to the Committee on Finance.

PROVIDING MEDICARE COVERAGE FOR PSYCHOLOGIST SERVICES

● Mr. INOUE. Mr. President, today Senator MATSUNAGA and I are introducing legislation which would amend the Medicare definition of physician to include our Nation's professional psychologists. The measure which we are introducing defers to the State Practice Acts in determining the scope of practice of individual psychologists; however, we have insisted that the practitioner possess at least a doctoral degree.

Mr. President, today approximately 30 percent of our States' chief mental health officers are psychologists and this profession has been recognized as an autonomous one under both the Federal Employees Health Benefit Act and the Department of Defense CHAMPUS Program for more than a decade. They hold similar status under the Federal Criminal Code.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 123

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. COVERAGE OF PSYCHOLOGIST SERVICES UNDER PART B OF MEDICARE.

(a) COVERAGE OF SERVICES.—Section 1861(r) of the Social Security Act (42 U.S.C. 1395x(r)) is amended in the first sentence—

(1) by striking out "or" before "(5)"; and

(2) by adding before the period the following: ", or (6) a psychologist (as defined in subsection (ff)) who is acting within the scope of his or her license when performing such function".

(b) DEFINITION.—Section 1861 of such Act (42 U.S.C. 1395x) is amended by adding at the end thereof the following new subsection:

"(ff) The term 'psychologist' means an individual who—

"(1) is licensed or certified at the independent practice level of psychology by the State in which such individual so practices,

"(2) possesses a doctorate degree in psychology from a regionally accredited educational institution, or in the case of an individual licensed or certified prior to January 1, 1978, possesses a master's degree in psychology and is listed in a national register of mental health service providers in psychology approved by the Secretary, and

"(3) possesses at least two years of supervised experience in health service, at least one year of which is postdegree."

(c) EFFECTIVE DATE.—The amendments made by this section shall be effective with respect to services performed on or after the first day of the first month which begins more than sixty days after the date of the enactment of this Act.●

By Mr. INOUE (for himself and Mr. MATSUNAGA):

S. 124. A bill to amend title XVIII of the Social Security Act to provide that certified nurse-midwife services are covered under part B of Medicare.

PROVIDING MEDICARE COVERAGE OF CERTIFIED NURSE-MIDWIFE SERVICES

● Mr. INOUE. Mr. President, today Senator SPARK MATSUNAGA and I are introducing legislation which would modify the Medicare Program to ensure that the services of certified nurse-midwives would be readily available to those beneficiaries who desire them.

Presently, certified nurse-midwives are deemed autonomous providers under the Department of Defense CHAMPUS Program, as well as under the Medicaid Program.

The legislation which we are introducing today would not only make the services of certified nurse-midwives readily available to the approximately 1,000 future mothers who are eligible for Medicare, but more importantly, will make it expressly clear throughout the Medicare and Medicaid statutes that certified nurse-midwives are truly autonomous providers. Not only does nurse-midwifery have an outstanding track record, but it has consistently been demonstrated to be highly cost effective and well respected by its clientele.

Mr. President, I ask unanimous consent that the text of my bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S.124

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. COVERAGE OF CERTIFIED NURSE-MIDWIFE SERVICES UNDER PART B OF MEDICARE.

(a) COVERAGE OF SERVICES.—Section 1861(s)(2) of the Social Security Act (42 U.S.C. 1395x(s)(2)) is amended—

(1) by striking out "and" at the end of subparagraph (J);

(2) by adding "and" at the end of subparagraph (K); and

(3) by adding at the end thereof the following new subparagraph:

"(L) certified nurse—midwife services;"

(b) DEFINITION.—Section 1861 of such Act (42 U.S.C. 1395x) is amended by adding at the end thereof the following new subsection:

"CERTIFIED NURSE-MIDWIFE SERVICES

"(ff)(1) The term 'certified nurse-midwife services' means services furnished by a certified nurse-midwife (as defined in paragraph (2)) which the certified nurse-midwife is legally authorized to perform under State law (or the State regulatory mechanism provided by State law), whether or not the certified nurse-midwife is under the supervision of, or associated with, a physician or other health care provider.

"(2) The term 'certified nurse-midwife' means a registered nurse who has successfully completed a program of study and clinical experience meeting guidelines pre-

scribed by the Secretary, and performs services in the area of management of the care of mothers and babies throughout the maternity cycle."

(c) CONFORMING CHANGES.—

(1) Section 1905(a)(17) of such Act (42 U.S.C. 1396d(a)(17)) is amended by striking out "as defined in subsection (m)" and inserting in lieu thereof "as defined in section 1861(ff)".

(2) Section 1905 of such Act (42 U.S.C. 1396d) is amended by striking out subsection (m).

(d) EFFECTIVE DATE.—The amendments made by this section shall be effective with respect to services performed on or after the first day of the first month which begins more than sixty days after the date of the enactment of this Act.●

By Mr. INOUE (for himself and Mr. MATSUNAGA):

S. 126. A bill to amend titles XVIII and XIX of the Social Security Act to provide that gerontological nurse practitioner or gerontological clinical nurse specialist services are covered under part B of Medicare and are mandatory benefit under Medicaid, and for other purposes.

COVERAGE OF CERTAIN GERONTOLOGICAL NURSE SERVICES UNDER MEDICARE

● Mr. INOUE. Mr. President, today Senator SPARK MATSUNAGA and I are introducing legislation to modify our Nation's Social Security Act in order to ensure that the services of gerontological nurse practitioners and gerontological clinical nurse specialists will be readily available under Medicare and Medicaid.

There can be no question that, as our Nation's elderly continue to become a larger segment of our overall population, it is becoming increasingly important for us to establish comprehensive health care programs targeted toward their unique needs. Today, there is a definite shortage of gerontological nurse practitioners, with only approximately 0.001 percent of our professional nurses possessing gerontological training. The Senate Appropriations Committee has received testimony from numerous witnesses that their services are badly needed. However, I do not feel that it is realistic to expect that we will ever be able to fill this void unless we are willing to modify the reimbursement provisions of our various Federal health care programs to ensure that nurse practitioners/clinical specialists will, in fact, be deemed autonomous providers.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 126

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. COVERAGE OF GERONTOLOGICAL NURSE PRACTITIONERS OR GERONTOLOGICAL CLINICAL NURSE SPECIALIST SERVICES UNDER PART B OF MEDICARE.

(a) COVERAGE OF SERVICES.—Section 1861(s)(2) of the Social Security Act (42 U.S.C. 1395x(s)(2)) is amended—

(1) by striking out "and" at the end of subparagraph (J);

(2) by adding "and" at the end of subparagraph (K); and

(3) by adding at the end thereof the following new subparagraph:

"(L) gerontological nurse practitioner or gerontological clinical nurse specialist services;"

(b) DEFINITION.—Section 1861 of such Act (42 U.S.C. 1395x) is amended by adding at the end thereof the following new subsection:

"GERONTOLOGICAL NURSE PRACTITIONERS OR GERONTOLOGICAL CLINICAL NURSE SPECIALIST SERVICES

(ff)(1) The term 'gerontological nurse practitioner or gerontological clinical nurse specialist services' means services performed by a gerontological nurse practitioner or gerontological clinical nurse specialist (as defined in paragraph (2)) which the gerontological nurse practitioner or gerontological clinical nurse specialist is legally authorized to perform under State law (or the State regulatory mechanism provided by State law) of the State in which such services are performed, whether or not the gerontological nurse practitioner or gerontological clinical nurse specialist is under the supervision of, or associated with, a physician or other health care provider.

(2) The term 'gerontological nurse practitioner or gerontological clinical nurse specialist' means an individual who—

"(A) is a registered nurse and is licensed to practice nursing in the State in which the gerontological nurse practitioner or gerontological clinical nurse specialist services are performed; and

"(B)(i) holds a master's degree in gerontological nursing or a related field from an accredited educational institution, or

"(ii) is certified as a gerontological nurse practitioner or gerontological clinical nurse specialist by the duly recognized professional nurses association."

(c) EFFECTIVE DATE.—The amendments made by this section shall be effective with respect to services performed on or after the first day of the first month which begins more than 60 days after the date of the enactment of this Act.

SEC. 2. COVERAGE OF GERONTOLOGICAL NURSE PRACTITIONER OR GERONTOLOGICAL CLINICAL NURSE SPECIALIST SERVICES AS A MANDATORY MEDICAID BENEFIT.

(a) COVERAGE OF SERVICES.—

(1) Section 1905(a) of the Social Security Act (42 U.S.C. 1396d(a)) is amended—

(A) by striking out "and" at the end of paragraph (20);

(B) by redesignating paragraph (21) as paragraph (22); and

(C) by inserting after paragraph (20) the following new paragraph:

"(21) gerontological nurse practitioner or gerontological clinical nurse specialist services (as defined in section 1861(ff)(1)); and"

(b) CONFORMING CHANGES.—

(1) Section 1902(a) of such Act (42 U.S.C. 1396a(a)) is amended—

(A) in paragraph (10)(A), by striking out "paragraphs (1) through (5) and (17)" and

inserting in lieu thereof "paragraphs (1) through (5), (17), and (21)"; and

(B) in paragraph (10)(C)(iv), by striking out "paragraphs (1) through (5) and (17) of section 1905(a) or the care and services listed in any 7 of the paragraphs numbered (1) through (20)" and inserting in lieu thereof "paragraphs (1) through (5), (17), and (21) of section 1905(a) or the care and services listed in any 7 of the paragraphs numbered (1) through (21)".

(2) Section 1902(j) of such Act (42 U.S.C. 1396a(j)) is amended by striking "(21)" and inserting in lieu thereof "(22)".

(c) EFFECTIVE DATE.—

(1) Except as provided in paragraph (2), the amendments made by this section shall be effective with respect to payments under title XIX of the Social Security Act for calendar quarters beginning more than 60 days after the date of the enactment of this Act.

(2) In the case of a State plan for medical assistance under title XIX of the Social Security Act which the Secretary of Health and Human Services determines requires State legislation in order for the plan to meet the additional requirements imposed by the amendments made by this section, the State plan shall not be regarded as failing to comply with the requirements of such title solely on the basis of its failure to meet these additional requirements before the first day of the calendar quarter beginning after the close of the first regular session of the State legislature that begins after the date of the enactment of this Act.

SEC. 3. REQUIREMENT OF GERONTOLOGICAL NURSING SERVICES IN CERTAIN FACILITIES COVERED BY MEDICARE AND MEDICAID.

(a) GERONTOLOGICAL SERVICE IN A SKILLED NURSING FACILITY.—Section 1861(j)(4) of the Social Security Act (42 U.S.C. 1395x(j)(4)) is amended by striking out "and" at the end of clause (A) and by inserting before the semicolon the following: "and (C) provides that a gerontological nurse practitioner or gerontological clinical nurse specialist shall be available, on at least a consultant basis, to assure that necessary gerontological nursing services are furnished to patients".

(b) GERONTOLOGICAL SERVICES IN AN INTERMEDIATE CARE FACILITY.—The first sentence of section 1905(c) of such Act (42 U.S.C. 1396d(a)) is amended by striking out "and" at the end of clause (3) and by inserting before the period the following: "and (5) provides that a gerontological nurse practitioner or gerontological clinical nurse specialist (as defined in section 1861(ff)(2)) shall be available, on at least a consultant basis, to assure that necessary gerontological nursing services are furnished to patients".

(c) EFFECTIVE DATE.—The amendments made by this section shall become effective on the first day of the first month which begins more than 60 days after the date of the enactment of this Act.●

By Mr. INOUE (for himself and Mr. MATSUNAGA):

S. 127. A bill to amend title XVIII of the Social Security Act to provide that services furnished by a clinical social worker are covered under part B of medicare when furnished by health maintenance organization to a member of that organization.

COVERAGE OF CERTAIN HEALTH MAINTENANCE ORGANIZATION SERVICES

● Mr. INOUE. Mr. President, today Senator SPARK MATSUNAGA and I are introducing legislation to amend our Nation's Medicare Program in order to ensure that when a Health Maintenance Organization [HMO] desires to utilize the services of a clinical social worker, they will be deemed truly autonomous professionals within the scope of their State practice act.

Our Nation's clinical social workers have a long and illustrious track record of providing high quality mental health care and medical social services. Social workers have been involved in the health care field since the turn of the century when the first medical social worker was employed at Massachusetts General Hospital in Boston. Today, social workers can be found in every component of the health care setting, performing such critical functions as: health education and promotion, high risk screening and assessment, case management, financial counseling, patient advocacy, family education, discharge planning, post hospitalization care and followup. And today, social work is the largest of the four core mental health professions, the others being psychology, psychiatry, and psychiatric nursing.

At the direction of Congress, both the Department of Defense Civilian Health and Medical Program of the Uniformed Services [CHAMPUS] and the Federal Employees Health Benefit Program [FEHBP] recognize clinical social workers as qualified, independent providers. We feel that the time has now come to extend that recognition to the services provided by clinical social workers when furnished in a health maintenance organization.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 127

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. COVERAGE OF CERTAIN SERVICES FURNISHED BY A HEALTH MAINTENANCE ORGANIZATION UNDER PART B OF MEDICARE.

(a) COVERAGE OF SERVICES.—Section 1861(s)(2)(H)(ii) of the Social Security Act (42 U.S.C. 1395x(s)(2)(H)(ii)) is amended—

(1) by inserting "or by a clinical social worker (as defined in subsection (ff))" after "clinical psychologist (as defined by the Secretary)"; and

(2) by striking out "incident to his services" and inserting in lieu thereof "incident to such clinical psychologist's services or clinical social worker's services".

(b) DEFINITION.—Section 1861 of such Act (42 U.S.C. 1395x) is amended by adding at the end thereof the following new subsection:

"CLINICAL SOCIAL WORKER

"(ff) The term 'clinical social worker' means an individual who—

"(1) possesses a master's or doctor's degree in social work;

"(2) after obtaining such degree has performed at least two years of supervised clinical social work; and

"(3) is licensed or certified as a clinical social worker in the State in which the services are performed, or, in the case of a State which does not provide for licensure or certification, is listed in a national register of social workers who, by education and experience, qualify as health care providers in clinical social work."

(c) EFFECTIVE DATE.—The amendments made by this section shall be effective with respect to services performed on or after the first day of the first month which begins more than 60 days after the date of the enactment of this Act.

By Mr. INOUE:

S. 128. A bill to amend title 10, United States Code, to authorize former members of the Armed Forces who are totally disabled as the result of a service-connected disability to travel on military aircraft in the same manner and to the same extent as retired members of the Armed Forces are entitled to travel on such aircraft; to the Committee on Armed Services.

RELATING TO TRAVEL ON MILITARY AIRCRAFT FOR DISABLED VETERANS

● Mr. INOUE. Mr. President, today, I am reintroducing a bill which is of great importance to a group of patriotic Americans. This legislation is designed to extend space-available travel privileges on military aircraft to those who have been totally disabled in the service of our country.

Currently, retired members of the Armed Forces are permitted to travel on a space-available basis on unscheduled military flights within the continental United States and on scheduled overseas flights operated by the Military Airlift Command. My bill would provide the same benefits for 100-percent, service-connected disabled veterans.

Surely we owe these heroic men and women who have given so much for our country a debt of gratitude. Of course, we can never repay them for the sacrifice they have made on behalf of all of us but we can surely try to make their lives more pleasant and fulfilling. One way in which we can help is to extend military travel privileges to these distinguished American veterans. I have received numerous letters from all over the country attesting to the importance attached to this issue by veterans. Therefore, I ask that my colleagues show their concern and join me in saying "thank you" by supporting this legislation.

Mr. President, I ask unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 128

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That chapter 53 of title 10, United States Code, is amended by inserting after section 1031 the following new section:*

"§ 1032. Travel privileges on military aircraft for certain former members of the armed forces

"A former member of the armed forces who is entitled to compensation from the Veterans' Administration for a service-connected disability rated total in degree by the Veterans' Administration is entitled, in the same manner and to the same extent as retired members of the armed forces are entitled to travel on a space-available basis on unscheduled military flights within the continental United States and on scheduled overseas flights operated by the Military Airlift Command."

SEC. 2. The table of sections, at the beginning of chapter 53 of title 10, United States Code, is amended by inserting after the item relating to section 1031 the following new item:

"1032. Travel privileges on military aircraft for certain former members of the armed forces."●

By Mr. INOUE (for himself, Mr. DeCONCINI, Mr. MATSUNAGA, Mr. KENNEDY, and Mr. MURKOWSKI):

S. 129. A bill to authorize and amend the Indian Health Care Improvement Act, and for other purposes; to the Select Committee on Indian Affairs.

INDIAN HEALTH CARE IMPROVEMENT ACT  
REAUTHORIZATION

● Mr. INOUE. Mr. President, I rise today to introduce a bill that has a more significant and profound impact on the future of Indian people than perhaps any other legislative initiative of the 100th Congress. This bill seeks the reauthorization of the Indian Health Care Improvement Act to continue funding for the fundamental programs that are designed to improve the health status of native Americans.

The statistics do not need to be restated—the facts are appalling—the native people of this country continue to rank at the bottom of almost every health indicator. Over the last 4 years, in the pursuit of reauthorizing programs that would address this sad state of affairs, numerous hearings have been held around the country—and the testimony of tribal officials and health care providers changes little. Great strides have been realized—largely because of the Indian Health Care Improvement Act and the comprehensive health care program it authorizes—yet all acknowledge that much remains to be done. Diabetes, heart disease, hypertension, infant mortality, high rates of premature deaths and suicide continue to increase in proportions which far outpace the incidence of such problems in the general population, while funding for Indian health care is wrapped up in domestic spending cuts that mask the damage that is being done, every day, to the potentially healthy lives

that our native Americans would enjoy.

As members of a government that made solemn commitments to this country's native people—commitments that envisioned a long and productive future for the Nation's first Americans—we cannot allow this deterioration in the health of Indian people to continue. They deserve more—we have promised them more. I introduce this bill today to assure that our promises will be kept.

Mr. President, this legislation has suffered a long and tortuous route through the legislative process. An earlier bill was vetoed by the President in the final days of the 98th Congress. In the ensuing 2 years, Indian tribal leaders undertook an initiative to encourage Congress and the Department of Health and Human Services to communicate on Indian health policy and to develop a bill that meets the health care needs of native people. As a result, the bill had broad bipartisan support in Congress, as well as the support of the native community. However, in the last days of the 99th Congress, the Congress failed to forward this legislation to the White House.

Indian people cannot afford to wait another 2 years while the Congress deliberates—many of their children and elders will face the premature deaths that so many of their people have suffered over the past 4 years. I ask my colleagues to join me in expediting Senate action on this important legislation. The honor of this Nation's word to its native people is at stake. But more importantly, the future of native Americans must be assured by our action.●

By Mr. INOUE:

S. 130. A bill to require that imports of fresh ginger root meet all of the requirements imposed on domestic fresh ginger root; to the Committee on Agriculture, Nutrition, and Forestry.

RELATING TO IMPORTED FRESH GINGER ROOT

● Mr. INOUE. Mr. President, today I am reintroducing legislation to help ensure that imported ginger root is of the same quality as the fresh ginger produced by American farmers.

Hawaii's production of fresh ginger root, or awapuhi pake as it is known in the Hawaiian Islands, is subject to strict standards which guarantee the highest quality. These standards have been developed by the State of Hawaii and are designed to protect consumers from inferior products.

Imported fresh ginger root is not subject to similar standards. Consequently, American consumers cannot be certain of receiving the same high quality as the Hawaiian product. In addition, the standards which apply to Hawaiian-grown ginger place it at a disadvantage with imported crops. It is ironic, and unwarranted, that regula-

tions which Hawaii adopted to protect consumers are hurting the ability of domestic producers to compete with inferior imports.

Mr. President, I want to make clear that this measure is not designed to prohibit or even decrease the amount of fresh ginger imported into the United States. Rather, its purpose is to help make certain that the imported product is of the same high quality as the domestic product. This will protect the consuming public while allowing domestic producers to compete on an equitable basis.

I commend this bill to my colleagues and urge the establishment of a Federal marketing order for fresh ginger root. I also ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 130

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 8e of the Agricultural Adjustment Act, as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended, is further amended by inserting "fresh ginger root," after "filberts,"●*

By Mr. INOUE (for himself and Mr. MATSUNAGA):

S. 131. A bill to amend title XVIII of the Social Security Act to clarify that payment may be made under part A for diagnostic or therapeutic services furnished by a psychologist under an arrangement with a hospital to an inpatient of such hospital who is entitled to benefits under such part; to the Committee on Finance.

COVERAGE OF CERTAIN SERVICES FURNISHED BY  
A PSYCHOLOGIST UNDER MEDICARE

● Mr. INOUE. Mr. President, today Senator MATSUNAGA and I are introducing legislation which would modify title XVIII of the Social Security Act, the Medicare Program, in order to clarify that payments may be made under part A of the program for diagnostic or therapeutic services provided by psychologists, under an arrangement with a hospital for Medicare beneficiaries.

This legislative proposal will not result in any increased Federal funding, but will codify the current regulations. In our judgment, as we continue to make every effort to curtail our Nation's escalating health care costs, it is becoming increasingly important that we ensure that we give sufficient priority to innovative approaches which have demonstrated their cost effectiveness.

This provision has twice been recommended for enactment by the Senate Finance Committee. Once it was deleted in conference, and last year, during the closing hours of the 99th Congress, it was incorporated into the

Medicare Anti-Fraud Act. Hopefully, during the 100th Congress we will be able to have it enacted into public law.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 131

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. COVERAGE OF CERTAIN SERVICES FURNISHED BY A PSYCHOLOGIST UNDER PART A OF MEDICARE.

(a) **COVERAGE OF SERVICES.**—Section 1861(b)(3) of the Social Security Act (42 U.S.C. 1395x(b)(3)) is amended by inserting "(including a psychologist (as defined in subsection (ff)))" after "others" the first place it appears.

(b) **DEFINITION.**—Section 1861 of such Act (42 U.S.C. 1395x) is amended by adding at the end thereof the following new subsection:

"(ff) The term 'psychologist' means an individual who—

"(1) is licensed or certified at the independent practice level of psychology by the State in which such individual so practices;

"(2) possesses a doctorate degree in psychology from a regionally accredited educational institution, or in the case of an individual licensed or certified prior to January 1, 1978, possesses a master's degree in psychology and is listed in a national register of mental health service providers in psychology approved by the Secretary; and

"(3) possesses at least two years of supervised experience in health service, at least one year of which is postdegree."

(c) **EFFECTIVE DATE.**—The amendments made by this section shall be effective with respect to services performed on or after the first day of the first month that begins more than sixty days after the date of the enactment of this Act.●

#### By Mr. INOUE:

S. 132. A bill to permit individuals who received National Health Service Corps scholarships to perform obligated service in such units of the Department of Defense as the Secretaries of Defense and Health and Human Services may determine by agreement; to the Committee on Labor and Human Resources.

#### RELATING TO NATIONAL HEALTH SERVICE CORPS SCHOLARSHIP RECIPIENTS

● Mr. INOUE. Mr. President, today I am introducing legislation which would permit individuals who receive National Health Service Corps scholarships under the auspices of the Department of Health and Human Services, to perform their obligated service within the Department of Defense when the two Secretaries agree to such an assignment.

This legislative proposal grew out of my earlier efforts on behalf of one of my constituents, a physician, who is more than willing to complete his obligated service; however, for family reasons and long-term career aspirations, he wanted to serve his time within one of the military services. Unfortunately,

ly, however, such an assignment did not appear to fall within the current authorization authority and, accordingly, I am introducing legislation to provide this flexibility for the Departments of Health and Human Services and Defense.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 132

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That section 338B(d) of the Public Health Service Act is amended—

(1) by striking out "The" and inserting in lieu thereof "(1) Except as provided in paragraph (2), the"; and

(2) by adding at the end thereof the following new paragraph:

"(2) The Secretary may enter into agreements with the Secretary of Defense for the assignment of individuals required to perform obligated service to such units of the Department of Defense as may be agreed upon by the Secretary of Defense and the Secretary. Such agreements may provide for such an assignment for all or part of an individual's period of obligated service, and shall contain such terms and conditions as the Secretary of Defense and the Secretary consider appropriate."●

#### By Mr. INOUE:

S. 133. A bill to require the Secretary of Health and Human Services to establish a scholarship program to enable professional nurses to obtain advanced degrees in professions related to the practice of nursing; to the Committee on Labor and Human Resources.

#### ADVANCED NURSE EDUCATION ACT

● Mr. INOUE. Mr. President, today I am introducing legislation to authorize a new nurse training program which would provide \$5 million annually for scholarships and/or fellowships for those professional nurses who wish to pursue advanced degrees in a related health profession, such as health law, a masters in public health administration, or psychology.

Under the provisions of the proposal which I am submitting today, the recipient of these scholarships would be required to serve 1 year for each year of support which they receive in a health delivery system administered by either a State or nonprofit organization or, in the alternative, the recipients could serve in a designated medically underserved area pursuant to regulations issued by the Department of Health and Human Services.

During the past several decades, I have been increasingly impressed by the extent to which our Nation's professional nurses are, indeed, the true backbone of the health care delivery system that we know today. I have also become very impressed at the extent to which their nursing exper-

tise has very positive ramifications for other elements of our system and, accordingly, I wish to provide members of the nursing profession with the opportunity to be as creative and flexible as possible during their professional careers.

Mr. President I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 133

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That this Act may be cited as the "Advanced Nurse Education Act of 1987".

#### ESTABLISHMENT OF SCHOLARSHIP PROGRAM

SEC. 2. Part B of title VIII of the Public Health Service Act is amended by adding at the end thereof the following new subpart:

#### "Subpart III—Advanced Education in Related Professions

#### "SCHOLARSHIP PROGRAM

"Sec. 845. (a) The Secretary shall establish a scholarship program to enable professional nurses (hereafter in this subpart referred to as the 'scholarship program') to pursue masters and doctoral degrees in fields related to the practice of nursing (including fields such as law, public health, and psychology).

"(b) To be eligible to participate in the scholarship program, an individual must—

"(1) be accepted for enrollment, or be enrolled, as a full-time student (A) in an accredited (as determined by the Secretary) educational institution in a State and (B) in a course of study or program, offered by such institution and approved by the Secretary, leading to a masters degree or a doctoral degree in a field related to nursing (as determined by the Secretary);

"(2) submit an application to participate in the scholarship program; and

"(3) sign and submit to the Secretary, at the time of submittal of such application, a written contract (described in subsection (e)) to accept payment of a scholarship and to serve (in accordance with this subpart) for the applicable period of obligated service.

"(c) In disseminating application forms and contract forms to individuals desiring to participate in the scholarship program, the Secretary shall include with such forms—

"(1) a fair summary of the rights and liabilities of an individual whose application is approved (and whose contract is accepted) by the Secretary, including in the summary a clear explanation of the damages to which the United States is entitled under section 847 in the case of the individual's breach of the contract; and

"(2) such other information as may be necessary for the individual to understand the individual's prospective participation in the scholarship program.

The application form, contract form, and all other information furnished by the Secretary under this subpart shall be written in a manner calculated to be understood by the average individual applying to participate in the scholarship program. The Secretary shall make such application forms, contract forms, and other information available to individuals desiring to participate in the scholarship program on a date sufficiently

early to ensure that such individuals have adequate time to carefully review and evaluate such forms and information.

"(d)(1) An individual becomes a participant in the scholarship program only upon the Secretary's approval of the individual's application submitted under subsection (b)(2) and the Secretary's acceptance of the contract submitted by the individual under subsection (b)(3).

"(2) The Secretary shall provide written notice to an individual promptly upon the Secretary's approving, under paragraph (1), of the individual's participation in the scholarship program.

"(e) The written contract (referred to in this subpart) between the Secretary and an individual shall contain—

"(1) an agreement that—

"(A) subject to paragraph (2), the Secretary agrees to provide the individual with a scholarship (described in subsection (f)) in each such school year or years for a period of years (not to exceed four school years) determined by the individual, during which period the individual is pursuing a course of study described in subsection (b)(1)(B); and

"(B) subject to paragraph (2), the individual agrees—

"(i) to accept provision of such a scholarship to the individual;

"(ii) to maintain enrollment in a course of study described in subsection (b)(1)(B) until the individual completes the course of study;

"(iii) while enrolled in such course of study, to maintain an acceptable level of academic standing (as determined under regulations of the Secretary by the educational institution offering such course of study); and

"(iv) to serve for a time period (hereinafter in the subpart referred to as the 'period of obligated service') equal to one year for each school year for which the individual was provided a scholarship under the scholarship program, in a public or nonprofit private health care facility or, if approved by the Secretary, in a private health care facility in a medically underserved area (as designated by the Secretary);

"(2) a provision that any financial obligation of the United States arising out of a contract entered into under this subpart and any obligation of the individual which is conditioned thereon, is contingent upon funds being appropriated for scholarships under this subpart;

"(3) a statement of the damages to which the United States is entitled, under section 847 for the individual's breach of the contract; and

"(4) such other statements of the rights and liabilities of the Secretary and of the individual, not inconsistent with the provisions of this subpart.

"(f)(1) A scholarship provided to a student for a school year under a written contract under the scholarship program shall consist of—

"(A) payment to, or (in accordance with paragraph (2)) on behalf of, the student of the amount of—

"(i) the tuition of the student in such school year; and

"(ii) all other reasonable educational expenses, including fees, books, and laboratory expenses, incurred by the student in such school year; and

"(B) payment to the student of a stipend of \$400 per month (adjusted in accordance with paragraph (3)) for each of the 12 consecutive months beginning with the first month of such school year.

"(2) The Secretary may contract with an educational institution, in which a participant in the scholarship program is enrolled, for the payment to the educational institution of the amounts of tuition and other reasonable educational expenses described in paragraph (1)(A). Payment to such an educational institution may be made without regard to section 3324 of title 31, United States Code.

"(3) The amount of the monthly stipend, specified in paragraph (1)(B) and as previously adjusted (if at all) in accordance with this paragraph, shall be increased by the Secretary for each school year ending in a fiscal year beginning after September 30, 1988, by an amount (rounded to the next highest multiple of \$1) equal to the amount of such stipend multiplied by the overall percentage (as set forth in the report transmitted to the Congress under section 5305 of title 5, United States Code) of the adjustment (if such adjustment is an increase) in the rates of pay under the General Schedule made effective in the fiscal year in which such school year ends.

#### "OBLIGATED SERVICE

"SEC. 846. (a) Each individual who has entered into a written contract with the Secretary under section 845 shall provide service in the full-time clinical practice of such individual's profession in a facility described in section 845(e)(1)(B)(iv) for the period of obligated service provided in such contract.

"(b) If an individual is required under subsection (a) to provide service as specified in section 845(e)(1)(B)(iv) (hereafter in this subsection referred to as 'obligated service'), the Secretary shall, not later than 90 days prior to the date on which the individual is scheduled to complete the course of study for which the individual received a scholarship under the scholarship program, approve or disapprove the position in which the individual proposes to provide such obligated service. If the Secretary disapproves such position, such individual shall, in accordance with procedures established by the Secretary, arrange the provision of such service in another position approved by the Secretary.

#### "BREACH OF SCHOLARSHIP CONTRACT

"SEC. 847. (a) An individual who has entered into a written contract with the Secretary under section 845 and who—

"(1) fails to maintain an acceptable level of academic standing in the educational institution in which the individual is enrolled (such level determined by the educational institution under regulations of the Secretary),

"(2) is dismissed from such educational institution for disciplinary reasons,

"(3) voluntarily terminates the training in such an educational institution for which the individual is provided a scholarship under such contract, before the completion of such training, or

"(4) fails to accept payment, or instructs the educational institution in which he is enrolled not to accept payment, in whole or in part, of a scholarship under such contract,

in lieu of any service obligation arising under such contract, shall be liable to the United States for the amount which has been paid to the individual, or on behalf of the individual, under the contract.

"(b) Except as provided in paragraph (2), if (for any reason not specified in subsection (a)) an individual breaches a written contract entered into this subpart by failing either to begin such individual's service obli-

gation in accordance with section 846 or to complete such service obligation, the United States shall be entitled to recover from the individual an amount determined in accordance with the formula

$$A = 3\varphi(t - s/t)$$

in which 'A' is the amount the United States is entitled to recover, 'φ' is the sum of the amounts paid under this subpart to or on behalf of the individual and the interest on such amounts which would be payable if at the time the amounts were paid they were loans bearing interest at the maximum legal prevailing rate, as determined by the Treasurer of the United States; 't' is the total number of months in the individual's period of obligated service; and 's' is the number of months of such period served by the individual in accordance with section 846. Any amount of damages which the United States is entitled to recover under this subsection shall, within the one-year period beginning on the date of the breach of the written contract, (or such longer period beginning on such date as specified by the Secretary for good cause shown) be paid to the United States.

"(c)(1) Any obligation of an individual under the scholarship program (or a contract thereunder) for service or payment of damages shall be canceled upon the death of the individual.

"(2) The Secretary shall by regulation provide for the partial or total waiver or suspension of any obligation of service or payment by an individual under the scholarship program (or a contract thereunder) whenever compliance by the individual is impossible or would involve extreme hardship to the individual and if enforcement of such obligation with respect to any individual would be unconscionable.

"(3) Any obligation of an individual under the scholarship program (or a contract thereunder) for payment of damages may be released by a discharge in bankruptcy under title 11 of the United States Code only if such discharge is granted after the expiration of the five-year period beginning on the first date that payment of such damages is required.

#### "AUTHORIZATION OF APPROPRIATIONS

"SEC. 848. To carry out this subpart, there are authorized to be appropriated \$5,000,000 for fiscal year 1988 and each of the succeeding fiscal years." ●

#### By Mr. INOUE:

S. 134. A bill to allow the psychiatric or psychological examinations required under chapter 313 of title 18, United States Code, relating to offenders with mental disease or defect to be conducted by a clinical social worker; to the Committee on the Judiciary.

#### ALLOWING CERTAIN PSYCHIATRIC OR PSYCHOLOGICAL EXAMINATIONS TO BE CONDUCTED BY CLINICAL SOCIAL WORKERS

● Mr. INOUE. Mr. President, today I am introducing legislation to amend the "mental competency" provisions of the Federal Criminal Code, in order to authorize the use of the expertise of clinical social workers by our Nation's Federal judiciary.

Mr. President, the legislative recommendation which I am making today is highly consistent with the policy recommendations of the American Bar Association's Criminal Justice Mental

Health Standards and, in my judgment, reflects the most current state of the art within our mental health community.

Mr. President, I request unanimous consent that the text of my bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

## S. 134

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the first sentence of subsection (b) of section 4247 of title 18, United States Code, as amended by Public Law 98-473, is amended by—*

(1) striking out "or" after "certified psychiatrist" and inserting in lieu thereof a comma; and

(2) inserting after "clinical psychologist," the following: "or clinical social worker,".●

By Mr. INOUE:

S. 135. A bill to allow the psychiatric or psychological examinations required under chapter 313 of title 18, United States Code, relating to offenders with mental disease or defect to be conducted by a psychiatric nurse practitioner or a clinical nurse specialist; to the Committee on the Judiciary.

ALLOWING CERTAIN PSYCHIATRIC EXAMINATIONS TO BE CONDUCTED BY A PSYCHIATRIC NURSE PRACTITIONER

● Mr. INOUE. Mr. President, today I am introducing legislation which would amend the mental status provision of the Federal Criminal Code to ensure that the services of well-qualified psychiatric nurse practitioners or psychiatric nurse clinical specialists will be made available to our Federal judiciary.

Mr. President, the recommendation which I am making today is consistent with the policy recommendations included in the American Bar Association's Criminal Justice Mental Health Standards and reflects the state of the art within our Nation's mental health programs.

Although relatively few in number, our Nation's psychiatric nurses have an excellent track record in providing quality mental health evaluations over the past decades and, accordingly, I am confident that their expertise will be well received by the Federal judiciary.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

## S. 135

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the first sentence of subsection (b) of section 4247 of title 18, United States Code, as amended by Public Law 98-473, is amended by—*

(1) striking out "or" after "certified psychiatrist" and inserting in lieu thereof a comma; and

(2) inserting after "clinical psychologist," the following: "psychiatric nurse practitioner, or clinical nurse specialist,".●

By Mr. INOUE (for himself, Mr. DeCONCINI, and Mr. MATSUNAGA):

S. 136. A bill to improve the health status of native Hawaiians, and for other purposes; to the Select Committee on Indian Affairs.

## TO IMPROVE HEALTH STATUS OF NATIVE HAWAIIANS

● Mr. INOUE. Mr. President, today Senators DeCONCINI, MATSUNAGA, and I are introducing legislation to address the pressing health care needs of our Nation's native Hawaiians.

The legislation which we are introducing today is an outgrowth of hearings that were held by the Select Committee on Indian Affairs and the result of several studies which have been conducted by the Department of Health and Human Services over the past several years.

It is a most unfortunate reality that native Hawaiians are disproportionately represented on the wrong end of almost every health indicator that we have. For example, native Hawaiians experience a disproportionately high rate of chronic ailments, including heart conditions, hypertension, asthma, diabetes, gout, and bronchitis. Native Hawaiian women have a significantly greater number of pregnancy risk factors, such as teenage pregnancies and teen births, illegitimate births, and pregnant women have late or no prenatal care.

The native Hawaiian infant mortality rate is higher than any other major ethnic group in the State of Hawaii. The National Cancer Institute [NCI] reported that native Hawaiians have the highest incidence of cancer of any segment of our population.

Mr. President, the bill which we are introducing today would go a long way in having the Federal Government accept Federal responsibility for these native American people and, further, gives a high priority to the establishment of various prevention activities, which as we all know, is really the key to reversing these statistics.

In the closing hours of the 99th Congress, the U.S. Senate passed this bill unanimously; however, the House of Representatives did not have time to act on it. Hopefully, during this session of Congress we will be able to have this important initiative enacted into public law.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

## S. 136

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

## FINDINGS

SECTION 1. The Congress finds that—

(1) the Federal Government retains the legal responsibility to enforce the administration of a public trust responsibility for the betterment of the conditions of Native Hawaiians by the State of Hawaii;

(2) in furtherance of the State of Hawaii's public trust responsibility for the betterment of the conditions of Native Hawaiians, contributions by the Federal Government to the provision of health education and health services to maintain and improve the health status of Native Hawaiians are consistent with the historical and unique legal relationship of the Federal Government with the government that represented the indigenous native people of Hawaii;

(3) it is the policy of the Federal Government to raise the health status of Native Hawaiians to the highest possible level and to encourage the maximum participation of Native Hawaiians in the planning and management of health services in order to achieve this objective;

(4) Federal support for programs that provide health care to Native Hawaiians has resulted in a reduction in the prevalence and incidence of preventable illnesses among Native Hawaiians and in a reduction in premature deaths of Native Hawaiians; and

(5) further improvement in the health status of Native Hawaiians is necessary on the basis of findings that—

(A) Native Hawaiians experience the highest age-sex standardized mortality rate in the State of Hawaii,

(B) Native Hawaiians experience a lower life expectancy than any other population group in the State of Hawaii,

(C) Native Hawaiians experience a higher rate of infant mortality, congenital abnormalities and underweight infants than any other population in the State of Hawaii,

(D) Native Hawaiians have the greatest risk of diabetes, heart disease, and some forms of cancer than any other population in the State of Hawaii,

(E) Native Hawaiians experience the onset of diabetes, heart disease, and hypertension at earlier ages than other populations in the State of Hawaii,

(F) Native Hawaiians have significantly higher rates of heart disease and hypertension than other populations in the State of Hawaii,

(G) Native Hawaiians have one of the highest cancer rates of any population in the United States and Native Hawaiians have the poorest survival rates from cancer than any other population in the State of Hawaii,

(H) Native Hawaiian pregnant women rank the highest of all populations of pregnant women in the State of Hawaii in—

(i) receiving late or no prenatal care,

(ii) smoking and alcohol consumption during pregnancy,

(iii) toxemia and urinary tract infections during pregnancy, and

(iv) complications of pregnancy over age 35,

(I) Native Hawaiians have higher rates of suicide among young adults and elderly males than the statewide population as a whole,

(J) Native Hawaiian children have one of the highest periodontal disease rates and

the poorest dental hygiene of any other population in the State of Hawaii.

(K) Native Hawaiians have higher proportion of alcohol and narcotics use and school performance impairment than the statewide population as a whole.

(L) Native Hawaiians have higher levels of stress than the statewide population as a whole based on leading stress indicators.

(M) Native Hawaiians are underrepresented in rates of participation in health education, health promotion, screening, and referral programs.

(N) utilization of mental health services by Native Hawaiians is significantly below that of other populations in the State of Hawaii, and

(O) Native Hawaiians are underrepresented in the health professions.

#### DEFINITIONS

##### SEC. 2. For purposes of this Act—

(1) The term "disease prevention" includes—

- (A) immunizations,
- (B) control of high blood pressure,
- (C) control of sexually transmittable diseases,
- (D) prevention and control of diabetes,
- (E) pregnancy and infant care, including prevention of fetal alcohol syndrome,
- (F) control of toxic agents,
- (G) occupational safety and health,
- (H) accident prevention,
- (I) fluoridation of water, and
- (J) control of infectious agents.

(2) The term "health promotion" includes—

- (A) cessation of tobacco smoking,
- (B) reduction in the misuse of alcohol and drugs,
- (C) improvement of nutrition,
- (D) improvement in physical fitness,
- (E) family planning, and
- (F) control of stress.

(3) The term "Native Hawaiian" means any individual who has any ancestors that were natives, prior to 1778, of the area that now comprises the State of Hawaii.

(4) The term "Native Hawaiian organization" means any organization—

- (A) which serves and represents the interests of Native Hawaiians,
- (B) which is recognized by the Office of Hawaiian Affairs of the State of Hawaii and E Ola Mau for the purpose of planning, conducting, or administering programs (or portion of programs) authorized under this Act, and

(C) in which Native Hawaiian health professionals significantly participate in the planning, management, monitoring, and evaluation of health services.

(5) The term "Native Hawaiian educational institution" means any educational institution that—

- (A) serves and represents the interests of Native Hawaiians, and
- (B) has as a primary and stated purpose the provision of educational services to Native Hawaiians.

(6) The term "Advisory Board" means the Native Hawaiian Health Promotion and Disease Prevention Advisory Board established under section 3(b).

(7) The term "Secretary" means the Secretary of Health and Human Services.

#### HEALTH PROMOTION AND DISEASE PREVENTION

SEC. 3. (a)(1) For fiscal year 1989, and for each fiscal year thereafter, the Secretary shall, in consultation with the Advisory Board established under subsection (b), enter into contracts with Native Hawaiian organizations under which the Secretary

shall provide funds to Native Hawaiian organizations to establish and administer programs of health promotion and disease prevention designed to serve Native Hawaiians.

(2) The program that is to be established and administered under each contract entered into under paragraph (1) shall—

(A) provide necessary preventive-oriented health services, including maternal and child health care and mental health care, through the establishment of community health centers, subject to the availability of appropriations authorized under section 4(a)(3)(B);

(B) provide for the collection of data related to the prevention of diseases and illnesses among Native Hawaiians, including the prevention of fetal alcohol syndrome, hypertension, heart disease, and diabetes;

(C) provide for medical and general health-related research into the diseases that are most prevalent among Native Hawaiians including, but not limited to, heart disease, hypertension, cancer, and diabetes;

(D) provide for research into the mental health problems that are most prevalent among Native Hawaiians including, but not limited to, alcoholism, substance abuse, reduction of stress, and child abuse;

(E) provide for education in health promotion and disease prevention in the Native Hawaiian population by Native Hawaiian community outreach workers and Native Hawaiian nurses;

(F) provide for health planning in areas which shall include, but not be limited to, health planning in maternal and child health, nutrition, disease prevention, health promotion, health education, and mental health; and

(G) provide training for Native Hawaiian community health outreach workers as paraprofessionals in the provision of health care and health education in Native Hawaiian communities by means of a curriculum which—

(i) combines education in the theories of health care with supervised practical experience in the provision of health care,

(ii) provides instruction and practical experience in health promotion and disease prevention activities, particularly—

- (I) nutrition,
- (II) physical fitness,
- (III) weight control,
- (IV) cessation of tobacco smoking,
- (V) stress management,
- (VI) control of alcohol and substance abuse, including prevention of fetal alcohol syndrome,
- (VII) control of high blood pressure,
- (VIII) prevention and control of diabetes,
- (IX) prevention of lifestyle related accidents,
- (X) prenatal and postnatal infant health care, and
- (XI) maternal health care, and

(iii) provides instruction in the most current and effective social, educational, and behavioral approaches to the establishment and maintenance of good health habits.

(b)(1) There is hereby established the Native Hawaiian Health Promotion and Disease Prevention Advisory Board.

(2)(A) The Advisory Board shall be composed of—

(i) an individual appointed to the Advisory Board by the Secretary from among nominations submitted to the Secretary by the Governor of the State of Hawaii, and

(ii) individuals representing each of the following organizations who are appointed to the Advisory Board by the Secretary from among nominations submitted by each of the following organizations:

- (I) Alu Like, Inc.;
- (II) the Office of Hawaiian Affairs of the State of Hawaii;
- (III) E Ola Mau or any other organization composed of Native Hawaiian health care professionals;
- (IV) the University of Hawaii School of Medicine;
- (V) the University of Hawaii School of Public Health;
- (VI) the University of Hawaii School of Nursing;
- (VII) the Hawaii State Department of Health;
- (VIII) the Kamehameha Schools, Bernice Pauahi Bishop Estate;
- (IX) the Liliuokalani Trust;
- (X) the Hawaii Nurses Association;
- (XI) the Hawaii Medical Association;
- (XII) the Hawaii State Department of Social Services and Housing;
- (XIII) the Waianae Coast Comprehensive Health Center, or its successor organization, the Hawaii State Association of Community Health Centers;
- (XIV) the Hawaii Psychological Association;
- (XV) the Hawaii Psychiatric Association;
- (XVI) the Hawaii Social Work Association;
- (XVII) the Hawaii Society of Public Health Educators;
- (XVIII) the Hawaii Dietetic Association;
- (XIX) the Hawaii State Board of Education;
- (XX) the Department of Hawaiian Home Lands;
- (XXI) the Hawaii Dental Association; and
- (XXII) any other organization designated by the Secretary for purposes of this subparagraph.

(B)(i) Except as provided in clause (ii), the term of office for each member of the Advisory Board shall be 3 years.

(ii) Of the initial members of the Advisory Board—

(I) the member representing the Governor of Hawaii and the members representing organizations listed in clauses (I), (II), (III), (IV), (V), and (VI) of subparagraph (A)(ii) shall have a term of 3 years,

(II) the members representing the organizations listed in clauses (VII), (VIII), (IX), (X), (XI), (XII), and (XIII) of subparagraph (A)(ii) shall have a term of 2 years, and

(III) the members representing all other organizations listed in subparagraph (A)(ii) shall have a term of 1 year.

(C) A vacancy on the Advisory Board shall be filled in the same manner in which the original appointment was made. A member so appointed shall serve for the remainder of the term of office to which such member is appointed.

(D) Individuals nominated for, and appointed to, the Advisory Board under subparagraph (A) should, to the extent feasible, be Native Hawaiians.

(E) The members of the Advisory Board shall elect a chairman from among the members of the Advisory Board.

(3) The Advisory Board—

(A) shall oversee—

(i) the awarding of contracts under subsection (a)(1),

(ii) the administration of programs for which contracts are entered into under subsection (a)(1), and

(iii) the grants awarded under subsection (c), and

(B) shall prepare and submit to the Secretary reports for each calendar quarter on the oversight conducted under subparagraph (A), and

(C) shall prepare and submit to the Congress, through the Secretary, annual reports containing recommendations on activities that—

- (i) are designed to address the health care needs of Native Hawaiians, and
- (ii) may be conducted by—
  - (I) the State of Hawaii,
  - (II) the Federal Government,
  - (III) community health centers,
  - (IV) Native Hawaiian organizations, or
  - (V) private health care providers.

(4) The provisions of section 14, and subsections (e) and (f) of section 10, of the Federal Advisory Committee Act (5 U.S.C. Appendix 2) shall not apply with respect to the Advisory Board.

(c)(1) Subject to the availability of funds appropriated under the authority of paragraph (3), the Secretary shall provide grants to Native Hawaiian organizations for the purpose of developing the management capabilities of such organizations to plan and operate the health promotion and disease prevention program that is to be established under contracts entered into under subsection (a).

(2) The total amount of grants that may be made to any Native Hawaiian organization under paragraph (1) shall not exceed \$75,000.

(3) There are authorized to be appropriated \$600,000 for fiscal year 1987, and each fiscal year thereafter, for the purpose of funding grants under paragraph (1).

(d)(1) The Secretary is authorized to enter into an agreement with any Native Hawaiian organization (or any Native Hawaiian educational institution) under which the Secretary is authorized to assign personnel of the Department of Health and Human Services with expertise identified by such Native Hawaiian organization (or such Native Hawaiian educational institution) to such Native Hawaiian organization (or to such Native Hawaiian educational institution) on detail for the purpose of providing education in health promotion and disease prevention to Native Hawaiian children who are underserved.

(2) Any assignment of personnel made by the Secretary under any agreement entered into under the authority of paragraph (1) shall be treated as an assignment of Federal personnel to a local government that is made in accordance with subchapter VI of chapter 33 of title 5, United States Code.

(e)(1) The Secretary shall establish in the State of Hawaii, as a demonstration project, a Native Hawaiian Program for Health Promotion and Disease Prevention for the purpose of exploring ways to meet the unique health care needs of Native Hawaiians.

(2) The demonstration program that is to be established under paragraph (1) shall—

(A) provide necessary preventive-oriented health services, including health education and mental health care,

(B) develop innovative training and research projects,

(C) establish cooperative relationships with the leadership of the Native Hawaiian community, and

(D) ensure that a continuous effort is made to establish programs which can be of direct benefit to other Native American people.

(3) The Secretary is authorized to enter into contracts with Native Hawaiian organizations for the purpose of assisting the Secretary in meeting the objectives of the demonstration program that is to be established under paragraph (1).

(4) The Secretary shall submit to the Congress an annual report on the status and ac-

complishments of the program during each of the fiscal years 1987, 1988, and 1989.

(5) There are authorized to be appropriated \$500,000 for each of the fiscal years 1987, 1988, and 1989, for the purpose of carrying out the provisions of this subsection.

(f)(1) The Secretary shall include in any contract which the Secretary enters into with any Native Hawaiian organization under this section such conditions as the Secretary considers necessary to ensure that the objectives of such contract are achieved.

(2) The Secretary shall develop procedures to evaluate compliance with, and performance of, contracts entered into by Native Hawaiian organizations under this section.

(3) The Secretary shall conduct an annual onsite evaluation of each Native Hawaiian organization which has entered into a contract under this section for purposes of determining the compliance of such organization with, and evaluating the performance of such organization under such contract.

(4) If, as a result of the evaluations conducted under paragraph (3), the Secretary determines that a Native Hawaiian organization has not complied with or satisfactorily performed a contract entered into under this section, the Secretary shall, prior to renewing such contract, attempt to resolve the areas of noncompliance or unsatisfactory performance and modify such contract to prevent future occurrences of such noncompliance or unsatisfactory performance. If the Secretary determines that such noncompliance or unsatisfactory performance cannot be resolved and prevented in the future, the Secretary shall not renew such contract with such organization and is authorized to enter into a contract under this section with another Native Hawaiian organization that serves the same population of Native Hawaiians which is served by the Native Hawaiian organization whose contract is not renewed by reason of this paragraph.

(5) In determining whether to renew a contract entered into with a Native Hawaiian organization under this section, the Secretary shall—

(A) review the records of the Native Hawaiian organization and the reports submitted by the Advisory Board under subsection (b)(3)(B) with respect to such organization, and

(B) shall consider the results of the onsite evaluations conducted under paragraph (3).

(6) All contracts entered into by the Secretary under this section shall be in accordance with all Federal contracting laws and regulations except that, in the discretion of the Secretary, such contracts may be negotiated without advertising and need not conform to the provision of the Act of August 24, 1935 (40 U.S.C. 270a, et seq.).

(7) Payments made under any contract entered into under this section may be made in advance, by means of reimbursement, or in installments and shall be made on such conditions as the Secretary deems necessary to carry out the purposes of this section.

(8) Notwithstanding any other provision of law, the Secretary may, at the request or consent of a Native Hawaiian organization, revise or amend any contract entered into by the Secretary with such organization under this section as necessary to carry out the purposes of this section, except that whenever such organization requests retrocession of any contract entered into under this section, such retrocession shall become effective upon a date specified by the Secretary that is not more than 120 days after

the date of the request by such organization or at such later date as may be mutually agreed to by the Secretary and such organization.

(9)(A) For each fiscal year during which a Native Hawaiian organization receives or expends funds pursuant to a contract entered into under this section, such organization shall submit to the Secretary a quarterly report on—

(i) activities conducted by the organization under the contract,

(ii) the amounts and purposes for which Federal funds were expended, and

(iii) such other information as the Secretary may request.

(B) The reports and records of any Native Hawaiian organization which concern any contract entered into under this section shall be subject to audit by the Secretary and the Comptroller General of the United States.

(10) The Secretary shall allow as a cost of any contract entered into under this section the cost of an annual private audit conducted by a certified public accountant.

(11) The authority of the Secretary to enter into contracts under this section shall be to the extent, and in amounts, provided for in appropriation Acts.

#### COMMUNITY HEALTH CENTERS; NATIONAL HEALTH SERVICE CORPS PROGRAM

Sec. 4. (a)(1) The Secretary is authorized—

(A) to designate Native Hawaiians as a medically underserved population for purposes of section 330 of the Public Health Service Act (42 U.S.C. 254c),

(B) to provide planning grants (no more than 8 in number and of no more than \$100,000 per grant) to Native Hawaiian organizations, or to any organization of health care professionals serving Native Hawaiians, for the purpose of planning community health centers to serve the health needs of Native Hawaiian communities, and

(C) to establish community health centers under section 330 of such Act to serve the health needs of Native Hawaiian communities.

(2) The Secretary shall consult with the Governor of Hawaii regarding any grants that may be made under section 330(c)(1) of the Public Health Service Act (42 U.S.C. 254c(c)(1)), or under paragraph (1)(B), for the planning and developing of community health centers to serve the health needs of Native Hawaiian communities.

(3) In addition to any other amounts authorized to be appropriated for carrying out section 330 of the Public Health Service Act, there are authorized to be appropriated for fiscal year 1987—

(A) \$800,000 for the purpose of providing planning grants authorized under paragraph (1)(B), and

(B) \$2,800,000 for the purpose of establishing under section 330 of the Public Health Service Act no more than 8 community health centers to serve the health needs of Native Hawaiian communities,

such sums to remain available until expended, without fiscal year limitation. No more than \$350,000 of the funds authorized to be appropriated under subparagraph (B) may be expended for each community health center.

(b) The Secretary is authorized to designate Native Hawaiians as a population group which has a health manpower shortage for purposes of subpart II of part C of title III of the Public Health Service Act.

## HEALTH SERVICE SCHOLARSHIP PROGRAM

SEC. 5. (a) Subject to the availability of funds appropriated under the authority of subsection (c), the Secretary shall provide scholarship assistance to students who—

(1) meet the requirements of section 338A(b) of the Public Health Service Act (42 U.S.C. 2541(b)), and

(2) are Native Hawaiians.

(b) The scholarship assistance provided under subsection (a) shall be provided under the same terms and subject to the same conditions, regulations, and rules that apply to scholarship assistance provided under section 338A of the Public Health Service Act (42 U.S.C. 2541).

(c) There are authorized to be appropriated \$1,800,000 for fiscal year 1987, and for each fiscal year thereafter, for the purpose of funding the scholarship assistance provided under subsection (a).

## HEALTH CARE REFERRAL SERVICES FOR NATIVE HAWAIIANS

SEC. 6. (a)(1) The Secretary shall enter into contracts with Native Hawaiian organizations for the provision of health care referral services for Native Hawaiians. Any such contract shall include requirements that the Native Hawaiian organization successfully undertake to—

(A) determine the population of Native Hawaiians who are, or could be, recipients of health care referral services,

(B) determine the current health status of Native Hawaiians served by the Native Hawaiian organization,

(C) determine the current health care needs of Native Hawaiians served by the Native Hawaiian organization,

(D) identify all public and private health services resources which are, or could be, available to Native Hawaiians,

(E) determine the use of public and private health services resources by Native Hawaiians,

(F) assist Native Hawaiians in becoming familiar with such health services resources and in utilizing such health services resources,

(G) provide basic health education to Native Hawaiians, including education in health promotion and disease prevention through a community health outreach program that uses Native Hawaiian community health outreach workers,

(H) establish and implement manpower training programs to accomplish the referral and education tasks set forth in subparagraphs (F) and (G).

(I) identify any disparity between the health needs of Native Hawaiians that are not being met and the resources available to meet such needs, and

(J) make recommendations to the Secretary and Federal, State, local, and other resource agencies on methods of improving health service programs to meet the needs of Native Hawaiians.

(2) The Secretary shall prescribe regulations which provide the criteria for selecting Native Hawaiian organizations with which contracts are entered into under this subsection. Such criteria shall, among other factors, include—

(A) the extent of the health care needs of Native Hawaiians served by the Native Hawaiian organization that are not being met,

(B) the size of the Native Hawaiian population served by the Native Hawaiian organization,

(C) the accessibility to, and utilization of, health care services by Native Hawaiians served by the Native Hawaiian organization,

(D) the extent, if any, to which the activities that are required to be undertaken under paragraph (1) would duplicate—

(i) any previous or current public or private health services project that was, or is, funded by any means other than a contract entered into under this section, or

(ii) any project funded by means of a contract entered into under this section,

(E) the capability of the Native Hawaiian organization to—

(i) perform the activities that are required to be undertaken under paragraph (1), and

(ii) enter into a contract with the Secretary under this subsection,

(F) the satisfactory performance and successful completion by the Native Hawaiian organization of other contracts entered into with the Secretary under this section,

(G) the appropriateness and likely effectiveness of conducting the activities that are required to be undertaken under paragraph (1), and

(H) the extent of existing participation, or likely future participation, in the activities that are required to be undertaken under paragraph (1) by appropriate health and health-related Federal, State, local, and other agencies.

(b)(1) The Secretary may enter into contracts under this subsection with Native Hawaiian organizations which have not entered into a contract with the Secretary under subsection (a). The purpose of entering into a contract under this subsection shall be to determine—

(A) the matters described in paragraph (2) in order to assist the Secretary in assessing the health status and health care needs of Native Hawaiians served by the Native Hawaiian organization, and

(B) whether the Secretary should enter into a contract under subsection (a) with the Native Hawaiian organization.

(2) Any contract entered into by the Secretary under this subsection shall include requirements that the Native Hawaiian organization—

(A) document the health care status and health care needs of Native Hawaiians served by the Native Hawaiian organization,

(B) with respect to Native Hawaiians served by the Native Hawaiian organization, determine the matters described in subparagraphs (B), (C), (D), and (H) of subsection (a)(2), and

(C) complete performance of the contract within one year after the date on which the Secretary and the Native Hawaiian organization enter into such contract.

(c)(1) The Secretary shall include in any contract which the Secretary enters into with any Native Hawaiian organization under this section such conditions as the Secretary considers necessary to encourage the establishment of programs which make health care services more accessible to Native Hawaiians.

(2) The Secretary shall develop procedures to evaluate compliance with, and performance of, contracts entered into by Native Hawaiian organizations under this section. Such procedures shall include provisions for carrying out the requirements of this section.

(3) The Secretary shall conduct an annual onsite evaluation of each Native Hawaiian organization which has entered into a contract under subsection (a) for purposes of determining the compliance of such organization with, and evaluating the performance of such organization under, such contract.

(4) If, as a result of the evaluations conducted under paragraph (3), the Secretary

determines that a Native Hawaiian organization has not complied with or satisfactorily performed a contract entered into under subsection (a), the Secretary shall, prior to renewing such contract, attempt to resolve the areas of noncompliance or unsatisfactory performance and modify such contract to prevent future occurrences of such noncompliance or unsatisfactory performance. If the Secretary determines that such noncompliance or unsatisfactory performance cannot be resolved and prevented in the future, the Secretary shall not renew such contract with such organization and is authorized to enter into a contract under subsection (a) with another Native Hawaiian organization that serves the same population of Native Hawaiians which is served by the Native Hawaiian organization whose contract is not renewed by reason of this paragraph.

(5) In determining whether to renew a contract entered into with a Native Hawaiian organization under subsection (a), or whether to enter into a contract with a Native Hawaiian organization under subsection (a) which has completed performance of a contract entered into under subsection (b), the Secretary shall—

(A) review the records of the Native Hawaiian organization and the reports submitted under subsection (e), and

(B) in the case of a renewal of a contract entered into under subsection (a), shall consider the results of the onsite evaluations conducted under paragraph (3).

(d)(1) No contract entered into under this section may provide for a total amount of payments under the contract by the Federal Government that exceeds \$125,000.

(2) All contracts entered into by the Secretary under this section shall be in accordance with all Federal contracting laws and regulations except that, in the discretion of the Secretary, such contracts may be negotiated without advertising and need not conform to the provision of the Act of August 24, 1935 (40 U.S.C. 270a, et seq.).

(3) Payments made under any contract entered into under this section may be made in advance, by means of reimbursement, or in installments and shall be made on such conditions as the Secretary deems necessary to carry out the purposes of this section.

(4) Notwithstanding any other provision of law, the Secretary may, at the request or consent of a Native Hawaiian organization, revise or amend any contract entered into by the Secretary with such organization under this section as necessary to carry out the purposes of this section, except that whenever such organization requests retrocession of any contract entered into under this section, such retrocession shall become effective upon a date specified by the Secretary that is not more than 120 days after the date of the request by such organization or at such later date as may be mutually agreed to by the Secretary and such organization.

(5) All contracts entered into under this section with Native Hawaiian organizations, and all regulations prescribed under this section, shall include provisions to assure the fair and uniform provision to Native Hawaiians of health care referral services and assistance under such contracts by such organizations.

(e)(1) For each fiscal year during which a Native Hawaiian organization receives or expends funds pursuant to a contract entered into under this section, such organization shall submit to the Secretary a quarterly report on—

(A) in the case of a contract entered into under subsection (b), disparities identified and recommendations made under subparagraphs (I) and (J) of subsection (a)(1).

(B) activities conducted by the organization under the contract,

(C) the amounts and purposes for which Federal funds were expended, and

(D) such other information as the Secretary may request.

(2) The reports and records of any Native Hawaiian organization which concern any contract entered into under this section shall be subject to audit by the Secretary and the Comptroller General of the United States.

(3) The Secretary shall allow as a cost of any contract entered into under subsection (a) the cost of an annual private audit conducted by a certified public accountant.

(f)(1) The authority of the Secretary to enter into contracts under this section shall be to the extent, and in an amount, provided for in appropriation Acts.

(2) There are authorized to be appropriated \$625,000 for fiscal year 1987, and for each fiscal year thereafter, for the purpose of funding contracts entered into under this section.

#### ACCESS TO MEDICARE AND MEDICAID SERVICES

Sec. 7. (a) The Secretary shall, in consultation with Native Hawaiian organizations, conduct a study of any barriers which may exist to the participation of Native Hawaiians in programs established under title XVIII of the Social Security Act (medicare) or under title XIX of the Social Security Act (medicaid).

(b) By no later than the date which is one year after the date of enactment of this Act, the Secretary shall submit to the Congress a report on the study conducted under subsection (a). Such report shall include—

(1) recommendations for legislation which—

(A) would remove any barriers to participation identified in such study, and

(B) would encourage participation by Native Hawaiians in the programs described in subsection (a), and

(2) estimates of—

(A) the potential number of Native Hawaiians eligible for medicare,

(B) the potential number of Native Hawaiians eligible for medicaid,

(C) the number of Native Hawaiians participating in the medicare program, and

(D) the number of Native Hawaiians participating in the medicaid program.

#### GENERAL AUTHORIZATION

Sec. 8. There are authorized to be appropriated for fiscal year 1987, and for each fiscal year thereafter, such sums as may be necessary to carry out the provisions of this Act for which a specific authorization of appropriations is not otherwise provided for in this Act.

#### PACIFIC BASIN DISEASE RESEARCH INSTITUTE

Sec. 9. (a) The Secretary shall make a grant under section 720(a)(1) of the Public Health Service Act to the University of Hawaii in Honolulu, Hawaii, for the construction of a building for a Pacific Basin disease research institute. Notwithstanding sections 702(b) and 721(c) of such Act, the Secretary is not required to secure the advice of the National Advisory Council on Health Professions Education with respect to such grant.

(b) The Federal share of the necessary costs of construction, as determined by the Secretary, of the building described in subsection (a), shall be 50 percent.

(c) To carry out this section, there are authorized to be appropriated \$5,000,000. Amounts appropriated under this section shall remain available until expended.●

#### By Mr. INOUE:

S. 137. A bill to direct the Secretary of the Army to determine the validity of the claims of certain Filipinos that they performed military service on behalf of the United States during World War II; to the Committee on Armed Services.

#### DETERMINATIONS BY THE SECRETARY OF THE ARMY IN RELATION TO FILIPINO CLAIMS OF SERVICE

● Mr. INOUE. Mr President, today I am reintroducing a bill to direct the Secretary of the Army to determine the validity of the of the claims of certain Filipinos who assert that they performed military service on behalf of the United States during World War II, and for other purposes.

During the course of World War II, many Filipinos—guerrillas and active servicemen—fought on behalf of U.S. interests. In 1948, the U.S. Government stuck from official U.S. Army records the names of thousands of Filipinos who served during this time, denying these individuals the rights, benefits, and privileges they so richly deserve.

The legislation I am proposing today would permit these "excluded veterans" to submit their claims to the proper authorities for reevaluation—resolution—on a case-by-case basis. Upon submission of sufficient documentation of service with the U.S. Army or organized guerrilla forces, these individuals should be duly recognized as veterans and entitled to benefits and assistance from the U.S. Government.

The removal of their names from official Army records was an injustice to these individuals who helped the United States during World War II. For some, this bill is too late since death has taken its toll. However, the enactment of this legislation would confirm our commitment to these Filipinos who fought so hard to maintain United States freedom.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 137

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. DETERMINATIONS BY THE SECRETARY OF THE ARMY.

(a) IN GENERAL.—Upon the written application of any person who is a national of the Philippine Islands, the Secretary of the Army shall determine whether such person performed any military service in the Philippine Islands in aid of the Armed Forces of the United States during World War II which qualifies such person to receive any

military, veterans', or other benefits under the laws of the United States.

(b) INFORMATION TO BE CONSIDERED.—In making a determination for the purpose of subsection (a), the Secretary shall consider all information and evidence (relating to service referred to in subsection (a)) available to the Secretary, including information and evidence submitted by the applicant, if any.

#### SEC. 2. CERTIFICATE OF SERVICE.

(a) ISSUANCE OF CERTIFICATE OF SERVICE.—The Secretary shall issue a certificate of service to each person determined by the Secretary to have performed service described in section 1(a).

(b) EFFECT OF CERTIFICATE OF SERVICE.—A certificate of service issued to any person under subsection (a) shall, for the purpose of any law of the United States, conclusively establish the period, nature, and character of the military service described in the certificate.

#### SEC. 3. APPLICATIONS BY SURVIVORS.

An application submitted by a surviving spouse, child, or parent of a deceased person described in section 1(a) shall be treated as an application submitted by such person.

#### SEC. 4. LIMITATION PERIOD.

The Secretary may not consider for the purpose of this Act any application received by the Secretary more than two years after the date of the enactment of this Act.

#### SEC. 5. PROSPECTIVE APPLICATION OF DETERMINATIONS BY THE SECRETARY OF THE ARMY.

No benefits shall accrue to any person for any period prior to the date of the enactment of this Act as a result of the enactment of this Act.

#### SEC. 6. REGULATIONS.

The Secretary shall issue regulations to carry out sections 1, 3, and 4.

#### SEC. 7. RESPONSIBILITIES OF THE ADMINISTRATION OF VETERANS' AFFAIRS.

Any entitlement of a person to receive veterans' benefits by reason of this Act shall be administered by the Veterans' Administration pursuant to regulations issued by the Administrator of Veterans' Affairs.

#### SEC. 8. DEFINITIONS

As used in this Act—

(1) the term "World War II" means the period beginning on December 7, 1941, and ending on December 31, 1946; and

(2) the term "Secretary" means the Secretary of the Army.●

#### By Mr. INOUE (for himself and Mr. BOREN):

S. 138. A bill to amend the Federal Meat Inspection Act and the Poultry Products Inspection Act to permit distribution of certain State-inspected meat and poultry products, and for other purposes; to the Committee on Agriculture, Nutrition, and Forestry.

#### FEDERAL MEAT AND POULTRY PRODUCTS INSPECTION ACT

● Mr. INOUE. Mr. President, it is my pleasure to reintroduce legislation on behalf of myself and Senator BOREN, which would allow State-inspected meat and poultry products to enter interstate commerce. This bill would permit the sale of State-inspected meats to consumers in neighboring States and to federally inspected plants. However, it would continue the

practice of barring State-inspected meats from international trade, where by treaty all meat must be federally inspected.

Under present law, State meat inspection plants must either meet or exceed Federal standards for wholesomeness, cleanliness, and freedom from chemical residues. However, quality State-inspected meats are often barred from nearby markets by virtue of an arbitrary State line that bisects a local community. The bill we are offering will correct this inequity by allowing State-inspected meats equal access to American meat and poultry markets.

State-inspected meat and poultry plants may be smaller than the average federally inspected plant, but they produce just as good a product. They may follow different procedures under State law and use different equipment, but it would be a mistake to assume that their products are inferior. Take for example the requirement that all federally certified plants must provide an inspector with a private office. This may be feasible for some of the larger plants which can tailor their specifications to Federal requirements, but what about the small family packer who has been making specialty meats for decades? His procedures and end-product are as good as anyone else's, and he meets all of the necessary laws, but what if he does not have space for a separate inspector's office? Should we deny that producer the right to ship his products in interstate commerce? Is this fair to either the small producer or the nearby consumer who would like to buy his products but cannot because he happens to live in a different political jurisdiction?

Consumer confidence in our Nation's meat and poultry products continues to be at an all-time high, and this bill works to maintain that confidence. However, it would end the discrimination against State-inspected meats which enjoy the confidence of consumers in 27 States throughout the country.

The benefits of this legislation are clear. First, consumers would be rewarded with a greater variety of wholesome meats at competitive prices. Second, livestock producers would not have to ship their animals clear across State to reach a Federal plant; they could use local, State-inspected facilities and still get their meat into interstate commerce, thus saving a great deal in transportation costs and helping smaller meatpacking plants stay in operation. Third, State plants would no longer be pushed to join the Federal meat inspection system. This would save the U.S. Department of Agriculture and the American taxpayer money by keeping meat-inspection programs in the hands of individual States.

Mr. President, this bill has received favorable comment from the USDA and the Secretary of Agriculture, who recommended that it be enacted into law. Hearings were also held on an identical measure, S. 593, in the 98th Congress, Senate hearings 98-471, July 21, 1983. Allowing State-inspected meat and poultry products into interstate commerce is long overdue, and I urge my colleagues to join us in passing this important piece of legislation.

I ask unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 138

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Federal Meat and Poultry Products Inspection Act of 1987".*

#### FEDERAL MEAT INSPECTION ACT

SEC. 2. (a) Section 301 of the Federal Meat Inspection Act (21 U.S.C. 661) is amended—

(1) by striking out "solely for distribution within such State" in subparagraph (1) of paragraph (a);

(2) by adding at the end of subparagraph (2) of paragraph (a) the following new sentence: "In carrying out the provisions of this Act, the Secretary may conduct such examinations, investigations, and inspections as he determines practicable through any officer or employee of any State or Territory or the District of Columbia commissioned by the Secretary for such purposes.";

(3) by striking out "with respect to the operations and transactions within such State which are regulated under subparagraph (1)," in subparagraph (3) of paragraph (c) and inserting in lieu thereof "with respect to all establishments within its jurisdiction which do not operate under Federal inspection under title I of this Act and at which any cattle, sheep, swine, goats, or equines are slaughtered or their carcasses or parts or products thereof are prepared for use as human food and with respect to the distribution of carcasses, parts thereof, meat, or meat food products of such animals within the State,"; and

(4) by adding at the end thereof the following new paragraph:

"(e) Notwithstanding any other provisions of this Act—

"(1) Carcasses, parts thereof, meat, and meat food products of cattle, sheep, swine, goats, or equines prepared under State inspection in any state not designated under paragraph (c) of this section, and prepared in compliance with the meat inspection law of the State, shall be eligible for sale or transportation in commerce and shall be eligible for entry into and use in the preparation of products in establishments at which Federal inspection is maintained under title I of this Act, in the same manner and to the same extent as products prepared at such establishments. Such State inspected articles, and federally inspected articles prepared, in whole or in part, from such State inspected articles, shall not be eligible for sale or transportation in foreign commerce and shall be separated at all times from all other federally inspected articles in any federally inspected establishment which engages in the preparation, sale, or transporta-

tion of carcasses, or parts thereof, meat, or meat food products, for foreign commerce.

"(2) All carcasses, parts thereof, meat, and meat food products that are inspected under a program of inspection pursuant to the law of a State not designated under paragraph (c) of this section shall be identified as so inspected only by official marks which (A) clearly identify the State as the State which performed the inspection, and (B) are of a design prescribed by the State. Federally inspected articles prepared, in whole or in part, from such State inspected articles shall be identified as so inspected only by the same official marks as prescribed by the Secretary for articles slaughtered or prepared under title I of this Act.

"(3) The operator of any establishment which is operated under Federal inspection may transfer to State inspection and the operator of any establishment which is operated under State inspection may transfer to Federal inspection if—

"(A) the operator gives written notice to both the appropriate Federal and State officials of the proposed transfer; and

"(B) the Secretary determines that such transfer will effectuate the purposes set forth in section 2 of this Act and will not adversely affect the stability of the total State and Federal inspection systems.

A transfer of inspection authority under this paragraph may not become effective until October 1 of any year and until at least one hundred and eighty days have elapsed after notice of the proposed transfer has been given to the appropriate Federal and State officials. The Secretary may, in his discretion, make individual exceptions for any applicant for Federal inspection under title I of this Act who presents clear and convincing evidence that he intends to, and will be able to, engage in foreign commerce to the extent that Federal inspections would be required, to engage in such commerce."

(b) The second sentence of section 408 of such Act (21 U.S.C. 678) is amended to read as follows: "Marking, labeling, packaging, or ingredient requirements in addition to, or different than those made under this Act may not be imposed by any State or Territory or the District of Columbia with respect to articles prepared at any establishment under Federal inspection under title I of this Act or with respect to articles prepared for commerce at any State inspected establishment in accordance with the requirements under section 301(e) of this Act; but any State or Territory or the District of Columbia may, consistent with the requirements of this Act, exercise concurrent jurisdiction with the Secretary over articles distributed in commerce, or otherwise subject to this Act, for the purposes of preventing the distribution for human food purposes of any such articles which are not in compliance with the requirements of this Act and are outside of any federally or State inspected establishment, or, in the case of imported articles, which are not at such an establishment after their entry into the United States."

#### POULTRY PRODUCTS INSPECTION ACT

SEC. 3. (a) Section 5 of the Poultry Products Inspection Act (21 U.S.C. 454) is amended—

(1) by striking out "solely for distribution within such State" in subparagraph (1) of paragraph (a);

(2) by striking out "with respect to the operations and transactions within such State which are regulated under subparagraph (1)

of this paragraph (c)," in subparagraph (3) of paragraph (c) and inserting in lieu thereof "with respect to all establishments within its jurisdiction which do not operate under Federal inspection under this Act and at which any poultry are slaughtered or any poultry products are processed for use as human food and with respect to the distribution of poultry products within the State,"; and

(3) by adding at the end thereof the following new paragraph:

"(e) Notwithstanding any other provisions of this Act—

"(1) Poultry products processed under State inspection in any State not designated under paragraph (c) of this section, and processed in compliance with the poultry products inspection law of the State, shall be eligible for sale or transportation in commerce and shall be eligible for entry into and use in the preparation of poultry products in establishments at which Federal inspection is maintained under this Act, in the same manner and to the same extent as poultry products processed at such establishments. Poultry products complying with the requirements under the poultry products inspection laws of States not designated under paragraph (c) in which the products were processed shall be considered as complying with this Act. Such State inspected poultry products, and federally inspected poultry products processed, in whole or in part, from such State inspected poultry products, shall not be eligible for sale or transportation in foreign commerce and shall be separated at all times from all other federally inspected poultry products in any federally inspected establishment which engages in the processing, sale, or transportation of poultry products for foreign commerce.

"(2) All poultry products that are inspected under a program of inspection pursuant to the law of a State not designated under paragraph (c) of this section shall be identified as so inspected only by official marks which (A) clearly identify the State as the State which performed the inspection, and (B) are of a design prescribed by the State. Federally inspected poultry products processed, in whole or in part, from such State inspected poultry products shall be identified as so inspected only by the same official marks as prescribed by the Secretary for poultry products processed under sections 1 through 4, 6 through 10, and 12 through 22 of this Act.

"(3) The operator of any establishment which is operated under Federal inspection may transfer to State inspection and the operator of any establishment which is operated under State inspection may transfer to Federal inspection if—

"(A) the operator gives written notice to both the appropriate Federal and State officials of the proposed transfer; and

"(B) the Secretary determines that such transfer will effectuate the purposes set forth in section 2 of this Act and will not adversely affect the stability of the total State and Federal inspection systems.

A transfer of inspection authority under this paragraph may not become effective until October 1 of any year and until at least one hundred and eighty days have elapsed after notice of the proposed transfer has been given to the appropriate Federal and State officials. The Secretary may, in his discretion, make individual exceptions for any applicant for Federal inspection under title I of this Act who presents clear and convincing evidence that he intends to,

and will be able to, engage in foreign commerce to the extent that Federal inspection would be required, to engage in such commerce."

(b) The second sentence of section 23 of such Act (21 U.S.C. 467e) is amended to read as follows: "Marking, labeling, packaging, or ingredient requirements in addition to, or different than, those made under this Act may not be imposed by any State or Territory or the District of Columbia with respect to articles prepared at any establishment subject to Federal inspection under this Act or with respect to articles prepared for commerce at any State inspected establishment in accordance with the requirements under section 5(e) of this Act. Further storage or handling requirements found by the Secretary to unduly interfere with the free flow of poultry products in commerce shall not be imposed by any State or Territory or the District of Columbia. However, any State or Territory or the District of Columbia may, consistent with the requirements of this Act, exercise concurrent jurisdiction with the Secretary over articles distributed in commerce, or otherwise subject to this Act, for the purpose of preventing the distribution for human food purpose of any such articles which are not in compliance with the requirements under this Act and are outside of any federally or State inspected establishment, or, in the case of imported articles, which are not at such an establishment after the entry into the United States."

By Mr. SARBANES (for himself and Ms. MIKULSKI):

S. 139. A bill to direct the Secretary of Transportation to approve modifications of certain interstate highway transfer concept plan; to the Committee on Commerce, Science, and Transportation.

#### MODIFICATION OF CERTAIN INTERSTATE HIGHWAY TRANSFER CONCEPTS

Mr. SARBANES. Mr. President, today Senator MIKULSKI and I are introducing legislation to enable the State of Maryland to proceed with construction of the final 18-mile gap in the National Freeway in western Maryland. Specifically the legislation would allow the State to add the National Freeway to its interstate highway transfer concept plan. A companion measure to this bill is being introduced in the House by Representative BEVERLY BYRON.

This legislation is needed to provide additional flexibility in transportation programs reflecting changes in transportation needs and priorities. Under current law States are allowed to withdraw interstate routes and use these funds for substitute highway and transit projects providing that a "concept program" which identifies the proposed substitute projects is approved. The law however does not allow changes to this concept program after September 30, 1983, with certain exceptions.

At the current rate of authorizations, it will take until 1993 to fund the outstanding interstate substitution entitlements. Interstate substitute concept plans were, however, devel-

oped in 1982 or 1983. Thus States were required to predict, nearly 10 years in advance, what transportation projects might require funding in the early 1990's. However, priorities and local, State, and Federal Government programs change. Given these factors, States should have flexibility in programming projects to meet priority needs.

This legislation is particularly important to Maryland based on its decision not to proceed with construction of the North Corridor Busway project, which was part of the Baltimore area concept program, and to fund instead the National Freeway and other highway and transit improvements. These projects cannot use interstate substitution funds if they are not added to the "concept plan." The Federal Highway Administration has concurred that the National Freeway is an eligible project for interstate substitution funds provided that the legislative change described above is made to allow additions to the interstate substitution concept program.

The National Freeway is the last and most important part of the highway linking western Maryland with the Port of Baltimore. It has been one of the highest priorities of the administration of Gov. Harry Hughes, and Governor-elect William Donald Schaefer has already indicated that he has placed it at the top of his transportation agenda. I would like to see the National Freeway completed as quickly as possible, and this bill is an essential element of that effort.

In the 99th Congress, both the Senate and House highway reauthorization bills included appropriate language to allow modifications to concept programs after September 30, 1983, and I am hopeful that provisions similar to those which we are proposing today will be included in the highway/transit reauthorization bill for the 100th Congress.

By Mr. INOUE (for himself and Mr. MATSUNAGA):

S. 140. A bill to amend title XVIII of the Social Security Act to provide that psychologist services are covered under part B of Medicare; to the Committee on Finance.

#### COVERAGE OF PSYCHOLOGIST SERVICES UNDER PART B OF MEDICARE

● Mr. INOUE. Mr. President, today Senator SPARK MATSUNAGA and I are introducing legislation to amend the Medicare Act to provide for the direct reimbursement of our Nation's professional psychologists for outpatient services rendered to needy beneficiaries.

For the past decade, we have been attempting to modify the mental health provisions of the Medicare law to ensure that a truly interdisciplinary reimbursement system is made avail-

able. It is our hope that by focusing upon outpatient benefits during this session of Congress, we will be able to ensure that necessary quality care is made available and, further, that in so doing we will eventually be able to decrease the level of expenditure allocated toward inpatient care.

The measure which we are offering today is consistent with the status of psychology under both the Department of Defense CHAMPUS Program and the Federal Employees Health Benefit Program.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 140

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. COVERAGE OF PSYCHOLOGIST SERVICES UNDER PART B OF MEDICARE.**

(a) **COVERAGE OF SERVICES.**—Section 1861(r) of the Social Security Act (42 U.S.C. 1395x(r)) is amended in the first sentence—

(1) by striking out "or" before "(5)"; and

(2) by adding before the period the following: ", or (6) a psychologist (as defined in subsection (ff)) who is acting within the scope of his or her license when performing such function, but only with respect to outpatient services."

(b) **DEFINITION.**—Section 1861 of such Act (42 U.S.C. 1395x) is amended by adding at the end thereof the following new subsection:

"(ff) The term 'psychologist' means an individual who—

"(1) is licensed or certified at the independent practice level of psychology by the State in which such individual so practices,

"(2) possesses a doctorate degree in psychology from a regionally accredited educational institution, or in the case of an individual licensed or certified prior to January 1, 1978, possesses a master's degree in psychology and is listed in a national register of mental health service providers in psychology approved by the Secretary, and

"(3) possesses at least two years of supervised experience in health service, at least one year of which is postdegree."

(c) **EFFECTIVE DATE.**—The amendments made by this section shall be effective with respect to services performed on or after the first day of the first month which begins more than sixty days after the date of the enactment of this Act.●

By Mr. INOUE:

S. 141. A bill to authorize reduced postage rates for certain mail matter sent to Members of Congress; to the Committee on Governmental Affairs.

**REDUCED POSTAGE RATES FOR CERTAIN MATERIAL SENT TO MEMBERS OF CONGRESS**

● Mr. INOUE. Mr. President, I rise today to reintroduce a bill to provide for the issuance of a special 1-cent postage stamp to be used for correspondence with Members of Congress.

Mr. President, ours is a democratic Government—a representative Government and thus, by definition, one dependent on the continuing oper-

ation of a two-way communication system between the people of this country and their elected Representatives.

Each Member of the Congress is directly responsible to those people in his State or district whom he represents. He must not only keep communication channels open but, more importantly, he must be responsive to the concerns he receives through these channels. The most practical means of transmitting these constituent concerns is through the mail. It is most difficult for many of us to imagine ourselves in a situation where the desire to express an opinion is frustrated because we must think twice about spending money on a postage stamp.

Unfortunately, we must face the fact that many of our Nation's citizens are forced to consider the purchase of a 22-cent postage stamp for the purpose of expressing a grievance, or opinion or idea, as something beyond their means.

The issuance of a 1-cent stamp for this purpose would effectively remove this prohibition and allow all citizens to apprise their Representatives and Senators of their individual thoughts and position on the issues facing our Nation. This measure would amend the Postal Reform Act of 1970 to provide for the issuance of these 1-cent stamps to be sold at U.S. post offices. The bill also authorizes appropriations necessary to account for the difference in postal revenue resulting from the sale of 1-cent stamps as opposed to prevailing postage rates for mail matter addressed to Congressmen which does not exceed 4 ounces in weight.

Recognizing the necessity of open communication between elected officials and the people, Congress adopted the franking system allowing congressional communication between elected officials to constituents. We have neglected, however, to provide our constituents with a convenient and affordable means to access to their Senators and Congressmen. It is difficult to overstate the importance of this concept of individual expression. Each and every citizen has the right and the responsibility to participate in the democratic system, through both the ballot box and through correspondence with their Representatives between elections.

Because the effective operation of our political system is dependent upon open communication, I am hopeful that this bill will receive the early approval of the Congress.

Mr. President, I ask unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 141

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) chapter 32 of title 29, United States Code, is amended by adding at the end thereof the following new section:*

"§ 3221. Mail matter sent to Members of Congress

"(a) Any person may send any piece of mail matter, not exceeding four ounces in weight, for postage of 1 cent to (1) any Member of the Senate representing the State, and (2) the Member of the House of Representatives representing the district, in which such person resides, if that person uses a special stamp issued by the Postal Service for any such matter. The Postal Service shall issue special 1-cent stamps to be used in sending such matter, and such stamps shall only be sold at post offices.

"(b) For the purposes of this section—

"(1) 'district' includes Puerto Rico and the District of Columbia;

"(2) 'Member of the House of Representatives' includes a Representative, Delegate, and Resident Commissioner; and

"(3) a Member of the House of Representatives elected at large from a State having more than one district shall be considered a Member elected from each district of that State."

(b) The analysis of such chapter is amended by adding after the item relating to section 3220 the following new item:

"3221. Mail matter sent to Members of Congress."

(c) Section 2401(c) of such title is amended by inserting "3221," after "3217,".

(d) This Act shall take effect January 1, 1988.●

By Mr. INOUE (for himself, Mr. DECONCINI, Mr. MATSUNAGA, and Mr. MURKOWSKI):

S. 142. A bill to amend the Native American Programs Act of 1974 to authorize appropriations for fiscal years 1987 through 1991; to the Select Committee on Indian Affairs.

**NATIVE AMERICAN PROGRAMS AMENDMENTS**

● Mr. INOUE. Mr. President, I am pleased to introduce today a bill that would reauthorize the funding of programs under the Native American Programs Act of 1974 through 1991.

Mr. President, this legislation will assure continuation of an important program for off-reservation groups, including rural, urban, Native Alaskan, and native Hawaiian organizations, as well as reservation-based Indian tribes, to enable them to engage in activities that will promote and enhance social and economic self-sufficiency. Under the Native American Programs Act, each tribe or off-reservation native American group has the opportunity and the responsibility to decide for itself what its social and economic priorities are, and how they will address these areas. The Administration for Native Americans is truly a program that promotes and endorses self-determination for native Americans.

Mr. President, this bill was introduced in the 99th Congress, but was vetoed in the closing days of the Congress. I am optimistic that this bill can

be expedited in the early days of the 100th Congress.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 142

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*  
SECTION 1. SHORT TITLE.

This Act may be cited as the "Native American Programs Amendments of 1987".

SEC. 2. REVIEW OF APPLICATIONS FOR ASSISTANCE.

The Native American Programs Act of 1974 (42 U.S.C. 2991-2992d) is amended—

(1) in the first sentence of section 803(a) by inserting ", on a single year or multiyear basis," after "financial assistance";

(2) by redesignating sections 813 and 814 as sections 815 and 816, respectively;

(3) by redesignating sections 806 through 812, as sections 807 through 813, respectively; and

(4) by inserting after section 805 the following new section:

"PEER REVIEW OF APPLICATIONS FOR ASSISTANCE

"SEC. 806. (a)(1) The Secretary shall establish a formal peer review process for purposes of evaluating applications for financial assistance under sections 803 and 805 and of determining the relative merits of the projects for which such assistance is requested.

"(2) Members of peer review panels shall be appointed by the Secretary from among individuals who are not officers or employees of the Administration for Native Americans. In making appointments to such panels, the Secretary shall give preference to American Indians, Hawaiian Natives, and Alaskan Natives.

"(b) Each peer review panel established under subsection (a)(2) that reviews any application for financial assistance shall—

"(1) determine the merit of each project described in such application;

"(2) rank such application with respect to all other applications it reviews for the fiscal year involved, according to the relative merit of all of the projects that are described in such application and for which financial assistance is requested; and

"(3) submit to the Secretary a list that identifies all applications reviewed by such panel and arranges such applications according to rank determined under paragraph (2).

"(c) Whenever the Secretary approves an application for financial assistance under section 803 or 805, the Secretary shall transmit to the Committee on Education and Labor of the House of Representatives and the President pro tempore of the Senate written notice—

"(1) identifying such application;

"(2) containing a copy of the list submitted to the Secretary under subsection (b)(3) in which such application is ranked;

"(3) specifying which other applications ranked in such list have been approved by the Secretary under sections 803 and 805; and

"(4) if the Secretary has not approved each application superior in merit, as indicated on such list, to the application with respect to which such notice is transmitted, containing a statement of the reasons relied upon by the Secretary for—

"(A) approving the application with respect to which such notice is transmitted; and

"(B) failing to approve each pending application that is superior in merit, as indicated on such list, to the application described in subparagraph (A)."

SEC. 3. PROCEDURAL REQUIREMENTS.

(a) RULE MAKING.—The Native American Programs Act of 1974 (42 U.S.C. 2991-2992d) is amended by inserting after section 813, as so redesignated by section 2, the following new section:

"ADDITIONAL REQUIREMENTS APPLICABLE TO RULE MAKING

"SEC. 814. (a) Notwithstanding subsection (a) of section 553 of title 5, United States Code, and except as otherwise provided in this section, such section 552 shall apply with respect to the establishment and general operation of any program that provides loans, grants, benefits, or contracts authorized by this title.

"(b) The last sentence of section 553(b) of title 5, United States Code, shall not apply with respect to any rule (including any general statement of policy) that is—

"(1) proposed under this title;

"(2) applicable to any program, project, or activity authorized by, or carried out under, this title; or

"(3) applicable to the organization, procedure, or practice of an agency (as defined in section 551(a) of title 5, United States Code) and that would affect the administration of this title.

"(c) Notwithstanding section 553(d) of title 5, United States Code, no rule (or general statement of policy) that—

"(1) is issued to carry out this title;

"(2) applies to any program, project, or activity authorized by, or carried out under, this title; or

"(3) is applicable to the organization, procedure, or practice of an agency (as defined in section 551(1) of title 5, United States Code) and that will affect the administration of this title;

may take effect until 30 days after the publication required under the first 2 sentences of section 553(b) of title 5, United States Code.

"(d) Each rule to which this section applies shall contain after each of its sections, paragraphs, or similar textual units a citation to the particular provision of statutory or other law that is the legal authority for such section, paragraph, or unit.

"(e) Except as provided in subsection (c), if as a result of the enactment of any law affecting the administration of this title it is necessary or appropriate for the Secretary to issue any rule, the Secretary shall issue such rule not later than 180 days after the date of the enactment of such law.

"(f) Whenever an agency publishes in the Federal Register a rule (including a general statement of policy) to which subsection (c) applies, such agency shall transmit a copy of such rule to the Speaker of the House of Representatives and the President pro tempore of the Senate."

(b) DEFINITION OF RULE.—Section 815 of the Native American Programs Act of 1974 (42 U.S.C. 2992c), as so redesignated by section 2, is amended—

(1) in paragraph (3) by striking out "and" at the end thereof;

(2) by redesignating paragraph (4) as paragraph (5); and

(3) by inserting after paragraph (3) the following new paragraph:

"(4) the term 'rule' has the meaning given it in section 551(4) of title 5, United States Code, as amended from time to time; and"

SEC. 4. AUTHORIZATION OF APPROPRIATIONS.

Section 816(a) of the Native American Programs Act of 1974 (42 U.S.C. 2992d(a)), as so redesignated by section 2 of this Act, is amended by striking out "1986" and inserting in lieu thereof "1991".

By Mr. INOUE (for himself and Mr. DeCONCINI):

S. 143. A bill to establish a temporary program under which parenteral diacetylmorphine will be made available through qualified pharmacies for the relief of intractable pain due to cancer; to the Committee on Labor and Human Resources.

COMPASSIONATE PAIN RELIEF ACT

● Mr. INOUE. Mr. President, today Senator DeCONCINI and I are introducing legislation which is directed to relieving the suffering of a small but significant number of our citizens; patients who are terminally ill with cancer and whose pain has not been effectively mitigated with currently available medications.

For many years, the thought of cancer and its accompanying pain have sent chills of fear through all of us; likewise, the thought of heroin and its addictive qualities produces similar fears. In my judgment, we are in a position now where we can make a logical and thoughtful decision to legalize the therapeutic use of heroin for the terminally ill cancer patient suffering intractable pain while at the same time safeguarding against the diversion of the drug into illicit channels.

The legislation we are introducing today is supported by thousands of Americans and is identical to that which was sponsored by 13 of my colleagues during the 99th Congress. Furthermore, I am pleased to report that to a great extent, it reflects the evolution and thinking of our Nation's health care system as evidenced by the editorial in the January 14, 1982, issue of the prestigious New England Journal of Medicine, which urged more flexibility in the use of addictive drugs in the treatment of pain. This thinking is also present in an official statement made by the American Psychiatric Association which endorses the "principle that the effectiveness of relief of pain in terminal cancer patients should take priority over a concern about 'addiction' of the terminal cancer patient and should take priority over a concern about medication diversion to addicts." A later article in the New England Journal of Medicine of August 23, 1984, by Dr. Allen Mondzack, reviewed the unique characteristics of heroin and its valuable clinical role where it is available.

The need for this legislation is dramatic. Although over the past two decades a great deal of progress has been made in treating cancer, each year an estimated 800,000 Americans are diagnosed as having cancer, and over 400,000 die from the disease. Most of

these individuals will have received competent and compassionate medical care, and many will receive adequate relief of pain. Unfortunately, the reality is also that a certain number of cancer patients do not obtain relief of pain from the currently available analgesic medication—even the strongest narcotics. An NIH panel that convened in May 1986, heard testimony that 50 to 60 percent of patients with cancer pain live the last part of their lives with unrelieved severe pain. As a minimal figure, it has elsewhere been estimated that about 20 percent of terminal cancer patients suffer significant pain. Of this 20 percent, it has been estimated that 10 percent do not obtain relief with presently prescribed medications. In human terms, these percentages mean that as many as 8,000 Americans may die in agony this year because of the intractable pain associated with terminal cancer. I have been assured by my medical colleagues that in many cases this pain can be alleviated with the therapeutic use of heroin, making the last weeks, months, or days of these patients more bearable. These dying patients are not now given the option of dying with dignity because of our Nation's continued and overriding fear of the term "heroin." In my judgment, this fear alone has prevented us, the lawmakers of our Nation, from making clear and rational decisions regarding the limited use of this long-proven and already available substance.

Heroin has been proven effective with a number of patients in relieving pain. Research completed at Georgetown University's Vincent T. Lombardi Cancer Research Center has found heroin to be an effective analgesic for the control of cancer-related pain. In particular, it has been reported to be more potent than morphine in relieving cancer pain. Less than half of the dose of heroin produces the same pain relief as a dose of morphine. In the terminal phase of cancer, many patients cannot take medication by mouth, and may require injections. As the disease progresses, individuals may require higher doses at more frequent intervals, to provide relief. This is when it would be desirable to have the option of using heroin in treating pain, since heroin is more potent and more soluble than morphine salts, and an effective dose can be administered in considerably smaller volumes. Thus, doctors have informed me that it is less painful to have such an injection—an important consideration in the emaciated patient with little tissue mass remaining. Further, the onset of action of the heroin is also more rapid than morphine because of its solubility, giving relief of pain and a sense of well-being sooner. It is most unfortunate that the use of heroin for these patients has not been allowed up to this date. This legislation will enable

physicians to treat the dying cancer patient who suffers from intractable pain with a proven, effective medication.

The time has now come to address the issue of why heroin should not be readily available as a therapeutic medication for our Nation's physicians in very specific situations when we have dying cancer patients who are suffering extreme pain. William Buckley has described our irrational maintenance of the prohibition against such uses of heroin in very real terms. As he pointed out:

The irony is that anybody in a major city can acquire the knowledge necessary to buy heroin from a dirty little drug pimp, but licensed doctors may not administer the identical drug to men and women—and children—literally dying from excruciating pain.

Our colleagues on the House Subcommittee on Health and the Environment held hearings on a similar bill on September 4, 1980. At that time, a number of practicing physicians and others asked that the Federal controls on heroin be eased to permit the prescription of heroin for patients for whom more conventional pain killers were inadequate. It was further pointed out that in Great Britain, heroin has been used for years for these patients and that it has been shown to be particularly effective for those 10 percent of terminal cancer patients who require injected medication. British physicians consider heroin to be an indispensable potent narcotic analgesic in the treatment of advanced cancer. Use of heroin in specific situations is also permitted in Belgium, New Zealand, China, and many other civilized nations.

Since this information was made public in the House hearings the editorial writers of our country have taken up the issue, as reflected in supportive statements by, among a number of others, the New York Times, the Washington Post, the Washington Times, the Los Angeles Times, the San Francisco Chronicle, the San Francisco Examiner, the Honolulu Star-Bulletin, the Honolulu Advertiser, the Chicago Sun-Times, the Cleveland Plain Dealer, the Rocky Mountain News, and the Richmond Times-Dispatch. Both National Review and the New Republic have backed the proposal. The American Nurses' Association has come out strongly endorsing this merciful action. Within the past year, as a result of widespread support among physicians and the general public, heroin has become available in Canada for terminal cancer patients.

The bill I am introducing today will give a very high priority to relief from intractable pain for terminal cancer patients. It authorizes the Secretary of the Department of Health and Human Services to establish demonstration programs which will permit

the use of heroin by terminally ill cancer patients only, when suffering from pain which is not effectively treated with currently available analgesic medications.

My bill has more than adequate safeguards to prevent the drug from being introduced to the general public. For example, a diagnosis must first be made by the attending physician that his or her patient is ill with cancer and is suffering from pain which is not being effectively treated with other available analgesic medications. This diagnosis must be reviewed and approved by a medical review board of the hospital which will dispense the heroin. The heroin used in the program will be from that supply now confiscated under current laws. The Secretary of Health and Human Services is further authorized to establish additional regulations for the safe use and storage of heroin, to prevent its diversion into illicit channels. This program will be in force for a 5-year period and periodic reporting is required of the Secretary on the activities under the bill.

I strongly believe that this proposal will provide substantial benefits to those who are in intractable pain from terminal cancer and I am hopeful that my colleagues on the Senate Labor and Human Resources Committee will give this measure their prompt and most serious consideration.

Mr. President, I request unanimous consent that the text of this bill and attached relevant articles be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### S. 143

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Compassionate Pain Relief Act".*

#### SEC. 2. The Congress finds the following:

(1) Cancer is a progressive, degenerative, and often painful disease which afflicts one out of every four Americans and is the second leading cause of death.

(2) In the progression of terminal cancer, a significant number of patients will experience levels of intense and intractable pain which cannot be effectively treated by presently available medication. The effect of the pain often leads to a severe deterioration in the quality of life of the patient and heart-break for the patient's family.

(3) The therapeutic use of parenteral diacetylmorphine is not permitted in the United States but extensive clinical research has demonstrated that it is a potent, highly soluble painkilling drug when properly formulated and administered under a physician's supervision.

(4) Making parenteral diacetylmorphine available to patients through controlled channels as a drug for the relief of intractable pain due to terminal cancer is in the public interest. Diacetylmorphine is successfully used in Great Britain and other countries for relief of pain due to cancer.

(5) The availability of parenteral diacetylmorphine for the limited purposes of controlling intractable pain due to terminal cancer will not adversely effect the abuse of illicit drugs or increase the incidence of pharmacy thefts.

(6) The availability of parenteral diacetylmorphine will enhance the ability of physicians to effectively treat and control intractable pain due to terminal cancer.

(7) It is appropriate for the Federal Government to establish a temporary program to permit the use of pharmaceutical dosage forms of parenteral diacetylmorphine for the control of intractable pain due to terminal cancer.

SEC. 3. (a) Not later than three months after the date of the enactment of this Act, the Secretary of Health and Human Services (hereinafter in this Act referred to as the "Secretary") shall issue regulations establishing a program under which parenteral diacetylmorphine may be made available to hospital pharmacies and other such pharmacies as may be prescribed by the Secretary for dispensing pursuant to written prescriptions of physicians to individuals for the relief of intractable pain due to terminal cancer (hereinafter in this section referred to as "the program"). For purposes of the program, an individual shall be considered to have terminal cancer if there is histologic evidence of a malignancy in the individual and the individual's cancer is generally recognized as a cancer with a high and predictable mortality. It is the intent of Congress that the Secretary primarily utilize hospital pharmacies for the dispensing of parenteral diacetylmorphine under the program, but the Congress recognizes that humanitarian concerns might necessitate the provision of parenteral diacetylmorphine through pharmacies other than hospital pharmacies in cases in which a significant need is shown for such provision and in which adequate protection is available against the diversion of parenteral diacetylmorphine.

(b) The Secretary shall provide for the manufacture of parenteral diacetylmorphine for dispensing under the program using adequate methods in, and adequate facilities and controls for, the manufacturing, processing, and packing of such drug to preserve its identity, strength, quality, and purity.

(c) Under the program parenteral diacetylmorphine may only be made available, upon application, to pharmacies registered under section 302 of the Controlled Substances Act that also meet such qualifications as the Secretary may by regulation prescribe. An application for parenteral diacetylmorphine shall—

(1) be in such form and submitted in such manner as the Secretary may prescribe; and

(2) contain assurances satisfactory to the Secretary that—

(A) the applicant meets such special requirements as the Secretary may prescribe respecting the storage and dispensing of parenteral diacetylmorphine; and

(B) parenteral diacetylmorphine provided under the application will be dispensed through the applicant upon the written prescription of a physician registered under section 302 of the Controlled Substances Act to dispense controlled substances in schedule II of such Act.

(d) Requirements prescribed by the Secretary under subsections (b) and (c)(2)(A) shall be designed to protect against the diversion into illicit channels of parenteral diacetylmorphine distributed under the program.

(e) A physician registered under section 302 of the Controlled Substances Act may prescribe parenteral diacetylmorphine for individuals for the relief of intractable pain due to terminal cancer. Any such prescription shall be in writing as prescribed by the Secretary by regulations.

(f) The Federal Food, Drug, and Cosmetic Act and titles II and III of the Comprehensive Drug Abuse Prevention and Control Act of 1970 shall not apply with respect to—

(1) The importing of opium,

(2) the manufacture of parenteral diacetylmorphine, and

(3) the distribution and dispensing of parenteral diacetylmorphine,

in accordance with the program.

SEC. 4. (a) Not later than the second month beginning after the date of the enactment of this section and every third month thereafter until the program is established under section 3, the Secretary shall report to the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate on the activities undertaken to implement the program. Each year after the program is established and while the program is in effect, the Secretary shall report to such committees on the activities under the program during the period for which the report is submitted.

(b) Upon the expiration of fifty-six months after the date the program is established, the Comptroller General of the United States shall report to the committees referred to in subsection (a) on the activities under the program during such fifty-six month period.

SEC. 5. The program established under section 3 shall terminate upon the expiration of sixty months after the date the program is established.

SEC. 6. The Secretary of Health and Human Services shall transmit a report to the Committee on Energy and Commerce of the House of Representatives and the Committee on Labor and Human Resources of the Senate not later than six months after the date of the enactment of this Act—

(1) describing the extent of research activities on the management of pain which have received funds through the National Institutes of Health,

(2) describing the ways in which the Federal Government supports the training of health personnel in pain management, and

(3) containing recommendations for expanding and improving the training of health personnel in pain management.

SEC. 7. The Secretary may at any time six months after implementation of the program modify or terminate the program if in the Secretary's judgment the program is no longer needed or if modifications or termination is needed to prevent substantial diversion of the diacetylmorphine.

[From the Washington Post, Mar. 26, 1984]

#### AN ACT OF MERCY

Chances are that Congress won't accomplish much in this presidential election year, but there is one piece of business that it should not fail to complete. It should pass legislation—with an impressive and growing bipartisan list of sponsors in both houses—that would legalize the carefully controlled use of heroin in the treatment of cancer patients dying in intractable pain.

One of the curiosities of medical practice in this country is that hundreds of billions are spent to prolong life, but relatively little attention is paid to making sure that pa-

tients survive in a tolerable degree of comfort and alertness. Modern medicine keeps promising better painkillers, and new methods of administration may offer patients more continuous relief from currently available drugs. But—as experts testifying recently before Chairman Henry Waxman's health subcommittee strongly asserted—many patients now die in needless agony because they are denied access to heroin, the one drug that could relieve their pain.

Heroin has come into increasing use as a painkiller in Great Britain in recent years because of its demonstrated superiority in treating certain cancer patients. Heroin acts faster than morphine and other widely used painkillers, and it can also be administered in smaller doses—an important consideration in treating emaciated patients. Moreover, unlike other potent drugs, it does not make the patient comatose, depressed, nauseous or hallucinatory. As a result, patients are able to remain alert, communicate with other family members and, because anxiety and depression are relieved, may also live longer.

Heroin was banned from medical practice in this country in 1924 because of fears that it would be diverted to illegal street use—an unwarranted fear that still motivates opponents of the proposed legislation. Since only very small quantities of the drug would have to be kept by hospitals—most cancer patients do not suffer intractable pain—the same precautions used to guard other street-valuable drugs would be adequate to prevent misuse. To be on the safe side the proposed legislation adds still further controls.

Right now hundreds, perhaps thousands, of cancer patients are racked with pain while their families watch in despair. In testifying before the Waxman committee, Dr. Allen Mondzic, chairman of the D.C. Medical Society's Cancer Committee, noted that "right now, in America, we know of a drug which is the most potent, effective, soluble and rapidly active narcotic ever created. It is not available. I do not understand this." Neither do we.

[From the Los Angeles Times, Nov. 9, 1983]

#### RELIEF FOR THE TERMINALLY ILL

Abhorrence of heroin and the national commitment to eradicate its abuse have led to an unreasonable resistance to legislation that would permit the use of this drug in the one justifiable form—to relieve the agony of terminally ill cancer patients. There is now an opportunity to correct that, and to open to hundreds of Americans a relief from the terrible pain that responds to no other analgesic.

Senator Daniel K. Inouye (D-Hawaii) has taken the lead with the support of 15 other senators, Republicans and Democrats, brought together by the overwhelming evidence that doctors require this added tool if they are to relieve the otherwise intractable pain of many cancer patients. One of the group, Sen. Dennis DeConcini (D-Ariz.), is now planning to offer the proposal as an amendment to the National Institutes of Health reauthorization act. It deserves the support of all members of Congress.

Under present regulations, doctors must rely on morphine in controlling pain. It has proved effective in most cases. Tests in the United States, reported last year in scientific journals, found the two drugs of equal effectiveness. But many patients develop a tolerance to morphine over a prolonged period, and the drug loses its effectiveness.

Heroin has proved effective in these cases. In Great Britain, where doctors have the option of morphine or heroin, the use of heroin is increasing rapidly because of its demonstrated superiority in certain cases. Forty-seven nations now permit the medical use of heroin.

One advantage of heroin is its potency. "A small subgroup of patients requiring large, intramuscular injections could benefit from heroin because it is more water-soluble as well as more potent than morphine," it was reported in *Medical News*. In cases of this sort, more massive injections of morphine forced into the emaciated bodies of the dying patient can be a source of additional severe pain.

Nothing in the proposed legislation can address a fundamental problem in the United States. That problem is the failure of many physicians to comprehend pain control, now a highly developed specialization in the medical profession. Ignorance of new techniques and reliance on programs geared to timetables rather than to the comfort of patients have left many people unnecessarily in intractable pain, according to experts.

The proposed legislation would limit heroin to terminal cancer patients in licensed hospitals, with peer review required for any doctor's decision to use it. That may prove unreasonably restrictive, particularly because it would deny applications in the home-oriented hospice program now being funded by Medicare. But it is a start. And Inouye's staff is convinced that the understandable horror of heroin abuse precludes going farther at this time.

"We have to take whatever we can get," according to Judith H. Quattlebaum, president of the National Committee on the Treatment of Intractable Pain. To do less would be a cruel rejection of this additional tool for controlling acute suffering.

#### THE VALUE IN HEROIN

Heroin is a curse for otherwise healthy addicts. But it is also a potent analgesic, valued by many physicians in treating the pain of terminally ill cancer patients. That is why Representative Henry Waxman's bill authorizing strictly limited use in hospitals and hospices deserves support.

First synthesized in Britain in 1874, heroin replaced morphine as the most popular injectable painkiller. It was legally used—and abused—in the United States until 1924, when Congress outlawed its import and manufacture.

Since then, dozens of other powerful analgesics have been synthesized, most of them addicting. But in Britain, heroin remains the painkiller of choice whenever addiction risk is a secondary consideration, and for good reason.

According to Dr. Allen Mondzac, director of the Warwick Cancer Clinic at George Washington University, heroin's high potency combined with its solubility make it the most efficient drug for controlling pain in extremely ill patients. In addition, the euphoric effect that so attracts addicts counteracts the depression experienced by chronic users of other painkillers.

The Reagan Administration, fearing that the drug would be diverted to the illegal market, opposes Government manufacture of heroin and distribution through hospital and hospice pharmacies. There is undoubtedly some risk that a trickle of Government heroin would be added to the river of illegally imported narcotics. But as long as physicians believe that heroin is better than any other drug for easing the trauma of dying

cancer patients, that risk ought to be worth taking.

[From the *News American*, Baltimore, Md., Mar. 25, 1982]

#### HEROIN FOR THE TERMINALLY ILL (By William F. Buckley, Jr.)

Finally, somebody has got around to introducing an amendment to the Controlled Substances Act, designed to make it possible to administer heroin to some patients dying of cancer. The hero in the case is Sen. Daniel Inouye of Hawaii, and the word "hero" is not used flippantly, because inevitably there will be those who accuse the senator of adding to the drug problem. A little thought, and a little patience, will dispose of these charges, but not everyone is willing to give a little thought, or to show a little patience, in discussing the problem of heroin. What would be ideal is to bring together the critics of Mr. Inouye's bill and some human beings who, as I write, are screaming (I do not use a metaphor) with pain.

Here are some interesting figures brought out by Sen. Inouye in his speech introducing S. 2013. There are 400,000 Americans alive today who within the next 12 months will die of cancer. Eighty thousand of those condemned will suffer "significant" pain. And of these, 8,000 will experience agony that is not mitigated by such prescriptions as are currently allowed. After a while, morphine just doesn't work with some people.

Why it took so long to come through with a medically reliable experiment is something to wonder about, inasmuch as the use of heroin has been outlawed since 1924. Anyway, thanks to the Vince Lombardi Cancer Research Institute of Georgetown, an experiment was conducted. Forty-eight cancer patients suffering serious pain were injected, one-half with heroin, one-half with morphine, by nurses who did not know which substance they were administering. It transpired that the patients rated heroin as two and one-half times more effective than morphine in bringing relief.

This experiment, together with accumulated testimony from Great Britain and from 37 other countries that tolerate carefully supervised use of heroin brought an endorsement from the *New England Journal of Medicine* and subsequently from the American Psychiatric Association.

Senator Inouye's bill, backed now by 15 members of the Senate, an ideologically uncolored coalition ranging from left (Sen. Carl Levin, D-Mich.) to right (Sen. Steven Symms, R-Idaho), is cautious in several wholly understandable respects. The medical doctor in charge of a patient for whom the use of heroin might be appropriate must first himself recommend the drug's use and then submit his recommendation to a medical review board. If the recommendation is there sustained, the hospital will dispense the heroin from supplies made available by the Department of Health and Human Services from the abundant heroin now confiscated under current laws.

A strict accounting is envisioned, so that the amount of heroin released must correspond with the amount administered. Moreover, Senator Inouye's bill calls for reconsideration of the program after five years. It is difficult to think of anything he left out, save possibly a provision that anyone receiving the heroin and not dead within 90 days must be given an overdose.

It is difficult, Mr. Inouye having stepped forward and broken the taboo, to imagine Congress not acting favorably on this pro-

posal. If it does so, although the legislative credit goes to Mr. Inouye, the moral credit goes to Mrs. Judith Quattlebaum, the president of the National Committee on the Treatment of Intractable Pain (9300 River Road, Potomac, Md. 20854).

She has fought for this bill for five years. During that period, 40,000 Americans have died in needlessly aggravated pain. She has dogged legislators, accumulated scientific evidence, written to newspapers (the bill has received a number of editorial endorsements, including a most vigorous one from the *Detroit News* and the *Federal Times*).

Almost every week, an additional senator steps forward to associate himself with the Inouye bill. So will it prove, I think, popular in the House.

It has been remarked that nothing is easier to get used to than other people's pain. This is unhappily correct, and perhaps necessarily so, because if one were as much involved in mankind as John Donne said we should be, there could be no happiness, ever. With Mrs. Quattlebaum we'll be entitled to such happiness as is due to those helpful in relieving the misery of others.

[From the *New England Journal of Medicine*]

#### IN DEFENSE OF THE REINTRODUCTION OF HEROIN INTO AMERICAN MEDICAL PRACTICE AND H.R. 5290—THE COMPASSIONATE PAIN RELIEF ACT

(By Allen M. Mondzac, M.D.)

Heroin has been in continuous use since its creation in England by Wright in 1874. The drug was synthesized by acetylating morphine and is therefore a semisynthetic narcotic. Its chemical name is diacetylmorphine, or diamorphine. It was named heroin by the Bayer Company of Germany, which first marketed it widely, in 1898. The drug met with great success and was used as a narcotic analgesic, antitussive, and antidyspnea agent. Heroin was widely prescribed, and many users became addicted. This result was inevitable since little was understood about narcotics and drug addiction.

In what can be described as a panic reaction of the federal government to curb the growing problem of opiate addiction in America, the manufacture and importation of heroin was banned in the United States by the Harrison Narcotics Act of 1924. The legislation was intended to supplant the 1914 Harrison Act, which restricted the use of cocaine and opiates to medical purposes and required a licensed physician's prescription to obtain the drugs. After passage of the 1924 law, although use was not prohibited, it dropped off considerably. In 1956 all hospitals and private physicians who had retained heroin had to relinquish it. Jefferson Hospital in Philadelphia obtained permission from the Bureau of Narcotics and Dangerous Drugs to keep its supply, which it had used judiciously since 1924, until it relinquished the remainder in 1960. Since that time there has been no legal heroin in the United States. It should be noted that in Britain the medical use of heroin continued despite the American legislation and has increased, especially for pain control. In 1970 Congress passed Public Law 91-513, which gave the Office of the Attorney General power to move heroin from schedule I to schedule II, if it so desired.

Since 1974 a grass-roots movement led by the National Committee for the Treatment of Intractable Pain, headed by its founder, Judith Quattlebaum, has been trying to make heroin available again in the United

States for pain control. The Compassionate Pain Relief Act (H.R. 5290), introduced by the Honorable Henry Waxman in February 1984, is the culmination of 10 years of work by the committee. The bill provides a mechanism for the reintroduction of heroin into American medicine.

I would like to discuss the chemical and pharmacologic properties of heroin that makes it unique, and then the benefits of H.R. 5290 and how its passage into law will help American society.

Heroin has been studied very little, considering that it has been used for 100 years. Scientists have seemed afraid to tamper with this strong opiate. Most studies have compared it with morphine.<sup>1,2</sup> They have shown that diacetylmorphine has an earlier onset of action than morphine, causes less nausea and vomiting, and induces more sedation.<sup>4</sup> When heroin is given orally it is rapidly and completely absorbed and deacetylated promptly in the liver to morphine and 6-alpha-mono-acetylmorphine. It acts as a pro-drug for morphine.<sup>3</sup> Most researchers consider oral heroin to be the same as morphine, although the pharmacokinetics of an important metabolite of heroin, 6-acetylmorphine, have never been studied in human beings.<sup>3</sup> The absorption of oral heroin is 1.5 times greater than that of morphine, and the potency of heroin is 2.5 times greater. Increasing the dose of oral morphine can abolish this difference in potency, but it is assumed that the increased dose will be tolerated. These facts have not been addressed in the literature. Furthermore, in the most widely cited study comparing oral heroin and morphine and showing them to be equal, both treatment groups received other medications for pain (steroids, phenothiazines, antidepressives, and benzodiazepines).<sup>1</sup> The author of this study<sup>1</sup> questioned his findings and suggested that other results might be obtained if the narcotics were used in a purely single-drug study. This observation has been ignored by workers who have used these data to demonstrate the similarity of heroin to morphine. Therefore, oral heroin, which has not been adequately studied, may be more than just pro-drug for morphine and may yet have an important role in pain relief.

When given parenterally, heroin is markedly different from morphine. Both heroin and acetylated morphine are detectable in the blood after injections.<sup>3</sup> The rapid organ clearance and uptake by the brain, limited only by blood flow, allow high levels of heroin to be reached in the brain, where the drug is hydrolyzed to 6-acetylmorphine and morphine and where these metabolites are retained. This phenomenon is undoubtedly due to the chemical structure of heroin and to plasma binding and lipid solubility.<sup>3</sup> These data irrefutably distinguish heroin from morphine and account for the unique and superior properties of parenteral heroin: rapidly of onset, power to sedate, lack of nausea, increased potency (2.5 times greater than morphine),<sup>4</sup> and high potential for addiction.

Although trials comparing long-term oral heroin administration with long-term oral morphine administration have been carried out,<sup>1</sup> such studies have not been performed with parenteral heroin and morphine. Twycross, who reportedly showed the similarity of the two oral drugs in his self-admittedly flawed study,<sup>1</sup> denies the feasibility of a similar comparison of the parenteral drugs. He states "it has never been suggested that morphine is better than diamorphine [heroin] and . . . results would still leave

diamorphine with the practical advantage of being more soluble."<sup>4</sup> This high solubility is one of heroin's other unique chemical properties; up to 120 mg can be given in an injection of 0.2 ml, and the average therapeutic dose can be dissolved in less than 0.1 ml. Because of the limited solubility of morphine, doses including equivalent analgesia would require a 20-ml injection—an unwieldy and painful procedure if the injection is given subcutaneously or intramuscularly. Twycross estimates that, excluding patients who receive heroin for less than 24 hours, 10 to 19 percent of cancer patients in a hospice setting may need the drug, when only solubility and injection size are used as criteria for need.<sup>4</sup> The solubility of heroin, combined with its rapid onset, short duration of effect, little or no induction of nausea, and high analgesic potency make it the drug of choice when parenteral narcotics are needed.

Unfortunately research in the United States that compares parenteral morphine with parenteral heroin has been limited to single-dose studies in postoperative patients<sup>2</sup> or patients with chronic pain.<sup>3,6</sup> These widely cited studies show no clinical difference between parenteral morphine and heroin. This conclusion is very misleading because these studies have no relation to the repeated use of heroin for chronic pain. There has been no study in cancer patients that has evaluated regular use of parenteral heroin for chronic pain.

Because of the unique properties that heroin possesses, one can easily agree with researchers in the field who state that even with the present, limited knowledge of narcotic actions, there is a group of patients who will require heroin because of its solubility<sup>4</sup> and unique properties<sup>7</sup> and because of the biovariability in response to narcotics that may exist among patients with cancer.<sup>6,9</sup>

Because of its solubility, Dilaudid (hydromorphone) has been proposed as a substitute for heroin.<sup>7,10</sup> A new ultrasoluble form of hydromorphone, called Dilaudid-HP, has been marketed by Knoll Pharmaceuticals. Although Dilaudid has been shown to be more potent than morphine, there are unfortunately no studies comparing Dilaudid or Dilaudid-HP with heroin in clinical situations. The one available study, which compares single-dose Dilaudid with heroin for preoperative patients, indicated that Dilaudid has more side effects and less analgesic efficacy than heroin.<sup>11</sup> Because of the well-recognized individual variations in drug tolerance and analgesic response, the place of Dilaudid-HP in the analgesic armamentarium is unclear. It is not acceptable as a substitute for heroin at present.

H.R. 5290—The Compassionate Pain Relief Act—provides a means to reintroduce heroin into American medicine. If this measure becomes law, American doctors will join with British colleagues in having a choice about the right analgesic for their patients. Physicians in this country will be given the freedom and responsibility to provide heroin to patients who need it—those who are not helped by the available drugs for pain.

The Waxman bill provides a comprehensive and intelligent system for distributing heroin. Since all evidence seems to point to the superiority of parenteral to oral heroin, the bill provides for the availability of the parenteral form only. H.R. 5290 also states specifically that heroin would be available only to patients with cancer in "situation where conventional analgesics are ineffec-

tive or contraindicated," which would limit the number of potential users and the amount of heroin that would be in circulation or in any pharmacy at a given time. Fear of criminal diversion of even this limited amount of heroin to addicts has clouded the thinking of the Department of Health and Human Services, the American Medical Association, and the American College of Physicians. All these institutions are opposed to reintroducing heroin into medical practice because of this fear. In the light of the pioneer work of Beaver<sup>7</sup> and Twycross,<sup>12</sup> the fear of addiction and dependency among patients should no longer be an issue. In fact, the widely accepted narcotics Dilaudid and morphine have a potential for addiction that is identical to that of heroin.

The Waxman bill as amended and approved in March 1984 by the Committee on Energy and Commerce would allow distribution of heroin by prescriptions written by physicians registered under Section 302 of the Controlled Substances Act, and then only through hospice or hospital pharmacies. This would drastically limit the number of pharmacies that would stock heroin, and should quiet the fears of those who say that there will be widespread thefts of legal heroin. Hospital pharmacies have always stocked morphine, Dilaudid, barbiturates, and amphetamines. Indeed, some now stock marijuana (delta-9-tetrahydrocannabinol) tablets for nausea, which are distributed through hospital pharmacies under a program of the National Cancer Institute and the Drug Enforcement Administration. Data from the Drug Enforcement Administration for 1982 show that robberies at retail pharmacies accounted for 96 percent of robberies for drugs, but that robberies of hospital pharmacies represented only 3 percent of robberies in the same period.<sup>13</sup> In the United Kingdom, where heroin consumption for pain is rising (from 51 kg in 1971 to 150 kg in 1982),<sup>14</sup> theft from pharmacies is not a problem. Chief Inspector H. B. Spear of the Home Office (Great Britain) submitted testimony to the Waxman committee, stating that "the lawful availability of heroin poses no greater security threat than for other similar drugs." He also noted that when thefts did occur, they involved the whole stock of drugs, not just heroin. In the Waxman bill, the rules for physicians writing prescriptions for heroin would be more stringent than those in effect in Britain, since British doctors can prescribe both oral and parenteral forms for the treatment of any medical condition except addiction (for which only specifically appointed doctors may prescribe).

Since one could argue that the crime-ridden, lawless, frontier-style, gun-slinging amoral United States is not like well-behaved, decorous Great Britain, opponents of the bill believe that criminal diversion would occur here in spite of police surveillance of hospital and hospice pharmacies stocking heroin. Professor Arnold Trebach, a noted criminologist, has pointed out some interesting data in his testimony before the Waxman committee, on the projected impact of such criminal diversion. Taking the ratio of morphine use to heroin use in Britain (7:3) and applying it to the use of morphine in the United States in 1982, he estimated that the amount of heroin that might be used under the Waxman bill would be 228 kg per year. After quoting estimates by government agencies that 4 to 10 metric tons of illegal heroin come into the United States every year, he assumed that if through some disaster the 228 kg of legal

heroin were diverted by criminals and added to the amount on the street, it would account for only 4 percent of the total amount of illegal heroin in the United States. This startling statistic indicates how unimportant the problem of criminal diversion is as compared with actual heroin use. Furthermore, it shows that under controlled distribution, the Waxman bill would not cause any major increase in existing addiction problems, pharmacy thefts, or criminal activity.

The bill wisely calls for a review of heroin use every three months by the Secretary of Health and Human Services and the House Health Subcommittee and also sets up a trial period of four years. These provisions would allow ongoing review to provide guidelines for the future.

Since I have stated what the bill would not do, I will now state its most important effects and why I am in favor of it. (1) It would give American doctors a wider choice of analgesics to use. (2) It would remove from American doctors the stigma and the terror laid on the profession by the 1924 Harrison Narcotics Act, which held that doctors could not safely and prudently prescribe a potent narcotic like heroin. (3) It would end the antiquated posture of the drug-enforcement bureaucracy, which prevents cancer patients from receiving a narcotic that they may need medically. (4) It would allow creative researchers of pain relief to stop trying to prove that heroin is not good and to discover why it is good and to use that knowledge constructively. It would enable them to understand why during the largest evaluation of heroin in vivo—the British experience since 1874—doctors gave heroin to 30 percent of all cancer patients in hospices. (5) Finally, the bill shows that the government would accept addicting and potent narcotics and trust physicians and patients with them. In this atmosphere, new ideas, new drugs, and new approaches would develop.

The "heroin movement" created in 1974 by the National Committee for the Treatment of Intractable Pain has fostered the atmosphere that now exists in the United States, where pain research, terminal care, and studies on the comfort of patients are beginning. Now, pain control is discussed openly on rounds; nurses and doctors are starting to be concerned, not about addiction, but about giving enough of the right narcotic to the suffering patient. American medicine is ready to have heroin again.

##### ROLLIN/SHAPIRO TO AID NCTIP

Betty Rollin is the author of *Last Wish*, a book about her mother—dying, slowly, in great pain, of cancer—and about Betty's wrenching emotions as she helped her mother have her last wish: to die with dignity, by suicide, before losing control of her life to the unrelenting pain.

Ms. Rollin responded to a NCTIP query about possible common goals and efforts enthusiastically, and met twice with Judy Quattlebaum, Barbara DeMarneffe, and Selma Shapiro, a New York public relations professional. The crucial point where their efforts overlapped was that the terrible decision about suicide might not face cancer patients if preventing terminal cancer pain were given a high enough priority and heroin were available.

A public relations plan has been fashioned, built around Betty's September nationwide tour to introduce the paperback edition of *Last Wish*. She will mention NCTIP's work when possible in her public and television appearances.

Selma Shapiro has devoted her professional career to public relations in the literary world. She now has established her own firm but was previously vice president of publicity and public relations at Random House.

NCTIP thanks these two compassionate and generous women for their encouragement and support.

#### MAJOR ARTICLE ON HEROIN APPEARS IN HEALTH LAW JOURNAL

Congress, rather than the courts, must act to legalize the medicinal use of heroin, according to a recent article in *The Journal of Contemporary Health Law and Policy*. "It is time for Congress to mitigate the law enforcement message of the past decades and offer a new perception of a compassionate, balanced, and hopeful drug policy for this nation," concludes author Suzanne Marcus Stoll.

Reprints of "Why Not Heroin? The Controversy Surrounding the Legalization of

Heroin for Therapeutic Purposes" are available from NCTIP. Please send at least \$3 to cover costs.

##### WHY NOT HEROIN? THE CONTROVERSY SURROUNDING THE LEGALIZATION OF HEROIN FOR THERAPEUTIC PURPOSES

(By Suzanne Marcus Stoll)

#### INTRODUCTION

"Right now, in America, we know of a drug which is the most potent, effective, soluble, and rapidly active narcotic ever created. It is not available. I do not understand this."<sup>1</sup>

A noted oncologist testified before a House Subcommittee to encourage the legalization of heroin for the purpose of easing the pain experienced by many terminally ill cancer victims.<sup>2</sup> The issue is an emotionally charged one in which medical, legal, ethical, personal, and societal values collide. Proponents of limited legalization of heroin are led by the relatives of cancer victims and their legal and medical advocates.<sup>3</sup> Among them are many distinguished members of the medical and research communities who maintain that heroin is the most soluble and potent narcotic for pain relief,<sup>4</sup> that it clearly works for some patients for whom all else fails,<sup>5</sup> and that its therapeutic use presents no appreciable risk to the community.<sup>6</sup>

Legal advocates of heroin's therapeutic use contend that the judicially recognized constitutional right of privacy extends to the relevant medical decision,<sup>7</sup> that the prohibition of heroin for therapeutic purposes represents a deprivation of due process for cancer victims,<sup>8</sup> and that, in some instances, the common law defense of necessity justifies the use of illicit drugs.<sup>9</sup>

Opponents are equally vocal. They include the institutional regulators of licit and illicit drugs: the Department of Health and Human Services (HHS) and its specialized arm, the Food and Drug Administration (FDA), and the Drug Enforcement Administration (DEA), which is responsible for categorizing drugs into one of five levels of abuse potential.<sup>10</sup> Upon recommendation from HHS, the DEA scheduled heroin into Schedule I. This is the most restrictive class, and prohibits all use except for closely controlled research.

Official government sources now maintain that heroin is not preferable to morphine for pain relief<sup>11</sup> and that the advent of new synthetic narcotics makes the heroin issue moot.<sup>12</sup> Representatives of the medical profession, including the American Medical Association, report that more efficacious drugs exist for the same purpose and that ineffective pain management techniques are the problem for cancer patients, rather than the prohibition of a pain-killing drug.<sup>13</sup> Finally, law enforcement officials as well as pharmacists and many citizens are fearful that heroin will be diverted from the pharmacy to the street.<sup>14</sup>

The American debate over the medicinal use of heroin has raged for over sixty years, but its current focus is more refined than ever before: Should heroin be available in hospital and hospice pharmacies to provide analgesic alternatives for patients experiencing severe pain from terminal cancer?<sup>15</sup> It is estimated that eight thousand to forty thousand Americans suffer every year from

Footnotes at end of article.

pain so profound that no currently available medication is effective.<sup>16</sup> For them, the modern link between cancer and heroin may be the avenue to relief. For others, the cancer-heroin association ironically pairs America's most feared disease with its most feared drug of abuse.

Because the heroin dilemma strikes a nerve in the American public, the legalization of heroin for therapeutic purposes has become a focal point in the lay press<sup>17</sup> as well as for legal and medical experts. Americans are acutely aware that one of every four people will be afflicted with some form of cancer during his lifetime and that nearly everyone will be affected by the impact of the disease on family members or friends. In this context, congressional initiatives to legalize heroin for specific therapeutic purposes have sparked greater public interest than similar bills in the past. The Compassionate Pain Relief Act was, however, defeated during the closing days of the 98th Congress.<sup>18</sup>

This note will demonstrate a two-pronged approach to the legalization of heroin for therapeutic purposes. The first approach requires a more favorable judicial interpretation of the right of privacy as inclusive of the medical choice to take unauthorized or illicit drugs to alleviate intractable pain in dying patients. Parallels to the laetrile controversy offer guidance as to how heroin will fare in the courts: the choice to elect heroin therapy as a function of the right of privacy is likely to fall victim to compelling state interests. Still, the right of privacy is the best judicial ground upon which to establish a basis and seek future inroads.

The second and more promising approach is through congressional action. Public policy demands that all available effective cancer treatments be part of the physician's armamentarium to fight the disease. Congress can bypass the administrative logjam of the FDA's "new drug" procedures and provide for limited access for those patients whose conditions justify the use of heroin.

Furthermore, this note will trace the history of heroin's prohibition in this country and the medical issues at stake in the current controversy. It will proceed to explore the constitutional basis for legalizing heroin on a limited basis. Finally, it will focus on congressional efforts to provide a compassionate response to a profoundly human dilemma and conclude that the advocates of heroin's medical use still face major obstacles in their efforts to gain limited legal status for the controversial drug.

#### THE HISTORY

In 1914, the Harrison Narcotics Act banned the recreational use of heroin in the United States in conjunction with an international initiative to stem the growing number of opium addicts.<sup>19</sup> While the Act specifically prohibited the recreational use of the drug, it left the door open for the prescription of heroin by doctors "in good faith" and "in the legitimate practice of (the) profession."<sup>20</sup>

The physician's right to prescribe heroin, however, was soon proscribed by two significant Supreme Court decisions. In 1918, the Court held in *Webb v. United States*<sup>21</sup> that it was never appropriate for a doctor to prescribe heroin to addicts. In the *United States v. Behrman*,<sup>22</sup> four years later, doctors were held strictly liable for prescriptions which "could only result in the gratification of a diseased appetite for those pernicious drugs."<sup>23</sup> While the statute in question in *Behrman* specifically excluded physicians from its prohibition against drug deal-

ing, the government charged "facts sufficient to show that the accused was not within the exception."<sup>24</sup> The Court concluded that the defendant physician was in violation of the Act because he indiscriminately prescribed the drug to a known addict.

In 1924, the House Ways and Means Committee held hearings to amend the Harrison Act, whose intent was to further restrict the importation of opium for exclusively medicinal purposes.<sup>25</sup> Public concern about growing addiction problems and criminal conduct associated with the drug fanned the furor in favor of the simply worded amendment: "Provided, that no crude opium may be imported for the purpose of manufacturing heroin."<sup>26</sup> Testimony from the American Medical Association (AMA) and the then United States Surgeon General illustrated the low regard into which heroin had fallen. The Surgeon General alleged that the drug erased all moral sense while the physicians speaking for the AMA indicated that codeine was a good substitute for heroin.<sup>27</sup> In short, the medical testimony was more sensational than it was substantive<sup>28</sup> and the ban on heroin reflected its growing disrepute in the medical community.

The diversion question was also confused by the emotion and tenor of the testimony. While evidence was introduced that, of ten thousand addicts in New York State, only two percent could trace their addiction to medical treatment, the momentum to outlaw all heroin use was underway. Testimony that seventy-six thousand ounces of heroin were sold on New York's black market, while only fifty-eight ounces were prescribed by all of the physicians in the state during the same period, was disregarded by those calling for the complete abolition of the drug.<sup>29</sup>

One commentator has suggested that the 1924 hearings were a miscarriage of justice resulting in a deprivation of due process for many Americans from that time until the present. In testimony before the House Subcommittee on Health and the Environment in 1984, Arnold Trebach, author of "The Heroin Solution," said of the early hearings, "No original or empirical evidence was introduced to demonstrate that there was a connection between the creation of addicts and the presence of this drug in medical practice."<sup>30</sup>

In 1970, Congress passed the Comprehensive Drug Abuse Prevention and Control Act which repealed the Harrison Narcotics Act and provided a new framework of drug enforcement. Title II of the new Act mandated the establishment of five schedules of drugs based on degree of abuse potential, known effects, harmfulness, and level of accepted medical use.<sup>31</sup> Heroin was classified in Schedule I, the most restrictive category, and has remained there despite congressional attempts to reschedule it to allow more latitude in testing and medical use.<sup>32</sup>

Schedule I criteria are identified as follows:

1. The drug or other substance has a high potential for abuse.
2. The drug or other substance has no currently accepted medical use in treatment in the United States.
3. A lack of accepted safety precautions for use of the drug or other substance under medical supervision.<sup>33</sup>

During the 1980 hearings by the House Select Committee on Narcotics Abuse and Control, the scheduling dilemma of substances such as heroin and specifically marijuana (also Schedule I) was dramatized in a

dialogue between Congressman Stephen Neal and a panel of cancer researchers:

Mr. NEAL. Well, just for the record, it's my understanding . . . that the assumption for a drug to be in Schedule I is that it has no medical use. And just for the record, I want to make it clear that you all, the three of you, are saying there are very definite medical uses for these substances.

Dr. SALLAN. Most definitely.

Dr. GARB. Sir, I would add there are a lot more than three of us . . .

Mr. NEAL. Well, now, would you say this about THC only, or about THC and marijuana?

Dr. SALLAN. I would say it about both, but I have much less certainty about marijuana because it doesn't have the same scientific rigor in the study at this time.

Mr. NEAL. Well, then, we need more study, but to get the study, we need a substance available to you to study, but as long as it's under Schedule I, it will not be available, because the assumption will be that there is no medical use. It's a Catch-22 situation, it seems to me.<sup>34</sup>

While Congressman Neal fairly characterized the "no medical use" irony, the United States government did make accommodations for two testing situations to analyze the effectiveness of heroin in medical use. These two studies, the Memorial Sloan Kettering Study and the Georgetown Study, will be discussed in the following section.

The United States experience with heroin contrasts sharply with that of the United Kingdom. Over ninety-five percent of all illicit heroin is prescribed in England where the drug has been widely used in hospices for pain control.<sup>35</sup> Currently, heroin is used in a 3:7 ratio with morphine. Its status as the medication of choice in severe pain situations has increased over the decades.<sup>36</sup>

In addition to England, twenty-six nations specifically allow for medical channeling of heroin by qualified physicians.<sup>37</sup> Eleven more apply the same restrictions to heroin use as other narcotic analgesics and ten more nations have given specific government approval to the use of heroin.<sup>38</sup> The United States, however, allows morphine a relatively favorable Schedule II classification in spite of its heroin-like narcotic properties while classifying marijuana as a Schedule I drug along with heroin. Clearly, the United States maintains a model of drug control more suited to law enforcement than to medical concerns. In spite of the positive experience of doctors and patients in twenty-seven other nations, many American lawmakers, doctors, and citizens still fear that the controlled introduction of heroin into medical practice would undermine the American system of drug enforcement and implicitly condone drug production and trafficking on an international scale.<sup>39</sup>

#### THE MEDICAL CONTROVERSY

Pain as a symptom involves at least fifty per cent of cancer victims and may become a serious management problem for at least fifteen to twenty per cent of those individuals.<sup>40</sup> It is this proportion of cancer patients for whom heroin would provide an essential pain-killing alternative. Dr. William Beaver, who conducted the most recent government-sponsored study of heroin's therapeutic value at Georgetown Medical Center, noted: "There will be individual patients who respond better to heroin for reasons we do not understand."<sup>41</sup> Since no two analgesics have properties that are identical, pa-

tients with different reactions may tolerate one analgesic and not another. "This fact alone justifies a variety of alternative drugs available."<sup>42</sup>

Comparisons between heroin, morphine, and other analgesics usually break down into several distinct categories:

1. Potency—Heroin is highly potent (2.7 times more potent than morphine) thus allowing smaller doses to be administered to produce equivalent pain relief. This consideration is extremely important when administering a drug to patients with wasted muscle mass.<sup>43</sup> Those who oppose heroin's use cite a new strong form of Dilaudid as being equally effective.<sup>44</sup>

2. Onset—Heroin's action is rapid and produces relief quicker than other drugs. Again, critics maintain that more effective pain management would offset this advantage.<sup>45</sup>

3. Attitude—Heroin produces euphoric feelings in most patients rather than the depression and anxiety that often follow morphine intake. Mood elevation differences, however, were not perceived as significant in the latest two studies of the drug.<sup>46</sup>

In the Beaver study, conducted at Georgetown University Vincent T. Lombardi Cancer Research Center, fifty-two patients with incurable cancer received one injection of heroin and another of morphine to combat pain. The results indicated heroin to be more potent, more soluble, and faster acting.<sup>47</sup>

The Sloane Kettering study, conducted by Dr. Raymond Houde, treated post-operative pain in cancer patients.<sup>48</sup> Results indicate that heroin was about twice as potent as morphine, that it provided a peak effect earlier than morphine, that doses with equal analgesic effects provided comparable improvements in various elements of mood, but that the peak arrived sooner with heroin. Furthermore, pain relief and mood improvement were less sustained after heroin at equal doses and in the researcher's opinion, heroin had no unique advantage for the relief of pain in patients with cancer.<sup>49</sup>

It is clear that the medical controversy over heroin's therapeutic use would not exist but for the criminal aspects of heroin's identity. Even its detractors find that heroin is neither more advantageous nor disadvantageous than other legal alternatives for the relief of pain. Where the issue of addiction is moot, as in the case of terminally ill patients, unwillingness to include heroin as a therapeutic option is a reaction to its character as a potentially addicting drug.

According to oncologist Allen Mondzac, "With each patient, there is a potential for using up all of the existing drugs."<sup>50</sup> The availability of heroin would extend the physician's potential pain-killing remedies to one more effective therapy. Heroin's current outlaw status denies doctors and patients that alternative.

#### THE LEGAL ISSUES

##### *The Right to Privacy—Griswold v. Connecticut*

The decision to use heroin to mitigate the agony of cancer pain enjoys no explicit constitutional protection. The complicated interplay of personal autonomy, illicit drug use, human suffering, and medical necessity creates a legal paradox that is at once intensely intimate and starkly public in nature. The question is basic: whether a person's choice to use heroin should be fundamentally protected against coercion by law.<sup>51</sup> The answer lies in the developing

right of privacy which has been held to encompass something beyond the issues of marital choice, procreation, conception, and child-rearing and to embrace "an interest in independence in making certain kinds of important decisions."<sup>52</sup> No decision can be more profound than that implicit in the heroin dilemma.

The right of privacy was first judicially recognized in *Griswold v. Connecticut* in 1965.<sup>53</sup> *Griswold* raised the question of whether a married couple living in Connecticut could be imprisoned for using birth control. Under the operative state statute, the use of any device to prevent conception was criminal. The Supreme Court struck down the statute, declaring that "marriage is . . . intimate to the degree of being sacred,"<sup>54</sup> and is subject to constitutional protections under the privacy right "older than the Bill of Rights."<sup>55</sup> Justice Douglas, speaking for the majority, located substantive protection for marital intimacy in a "zone of privacy" created by several fundamental guarantees emanating from penumbras of the first, third, fourth, fifth, and ninth amendments.<sup>56</sup>

Justice Goldberg's *Griswold* concurrence identified the source of the privacy right in the ninth amendment and defined a test to determine whether a fundamental right worthy of constitutional protection exists. He directed judges to look to the "collective conscience of the people" to find whether a principle is so firmly rooted as to be ranked fundamental. The inquiry explored whether the right involved is of such a character that it cannot be denied without violating those "fundamental principles of liberty and justice which lie at the base of all of our civil and political institutions."<sup>57</sup> With the same breadth of philosophical conviction, Justice Harlan located the privacy right among those "basic values implicit in the concept of ordered liberty,"<sup>58</sup> and suggested a fourteenth amendment due process analysis to determine whether such a right has been violated.

The *Griswold* Court concluded that a married couple's right to use contraceptives is fundamental and protected by the constitutional right of privacy, however abstract and circuitous the route to that protection. Seven years later, the same right was extended to unmarried persons in *Eisenstadt v. Baird*.<sup>59</sup>

As the court construes the right to privacy, its decisions rest on a recognition of values implicit in our way of life and philosophy as a nation, rather than on any strict construction of a concept. The celebrated Brandeis statement in *Olmstead v. United States*<sup>60</sup> conveyed the tone that would underlie so many future decisions.

"The makers of our Constitution undertook to secure conditions favorable to the pursuit of happiness. They recognized the significance of man's spiritual nature, of his feelings and his intellect. They knew that only a part of the pain, pleasure and satisfactions of life are to be found in material things. They sought to protect Americans in their beliefs, their thoughts, their emotions and sensations. They conferred, as against the Government, the right to be let alone—the most comprehensive of rights and the right most valued by civilized men."<sup>61</sup>

The distance between the subjective recognition of collective and natural values and a concrete source for the protection of those values led the *Griswold* Court to explore several constitutional constructions. It is that same distance, still untraveled, that deprives the current heroin issue of a humane solution.

#### *Development of the Right of Privacy*

The evolution of the privacy right continued in the famous "abortion cases" of 1973: *Roe v. Wade*<sup>62</sup> and *Doe v. Bolton*.<sup>63</sup> In *Roe*, the Court concluded that the right to personal privacy includes the right to an abortion but that "this right is not unqualified and must be considered against important state interest in regulation."<sup>64</sup> The balancing test of a fundamental right versus a compelling state interest became the hallmark of personal health and privacy decisions in the courts. In his *Roe* concurrence, Justice Douglas explicitly includes within the term "liberty" in the Fourteenth Amendment "the freedom to care for one's own health and person . . . subject to regulation on a showing of 'compelling state interest'."<sup>65</sup> His observation is a forerunner of the complex health and enforcement questions that characterize the heroin dilemma today.

The balancing test of *Roe v. Wade* is operative in *Whalen v. Roe*<sup>66</sup> four years later. *Whalen* clearly establishes the state's right to regulate dangerous drugs in the face of individual privacy interests. The Court upheld a New York statute requiring the registration of all medical prescriptions for addictive drugs to control abuse. The Court distinguished the state's interest in record-keeping from the individual's right to decide what drugs to take: "within dosage limits . . . the decision to prescribe, or to use, if left entirely to the physician and the patient."<sup>67</sup> Yet, while acknowledging the "individual interest in avoiding disclosure of personal matters,"<sup>68</sup> the Court nonetheless upheld the right of the state to maintain the names of those selecting certain substances. In the view of the Court, the state's interest in recordkeeping, while compelling disclosure, was justified and fell short of invading an individual's liberty right.<sup>69</sup> Thus, the Court recognized relative levels of intrusion into personal decision-making, further emphasizing the less than absolute nature of the fundamental right of privacy.

#### *Choice of Treatment*

The choice of treatment as an element of the right of privacy may be considered in three separate contexts. The first is the right to choose from among approved methods of treatment, a well-established legal right which threatens no state interest and implies informed consent on the part of the patient.

The right to refuse treatment is the second and more complex issue. It was tested as early as 1904 when a man named Jacobsen refused a smallpox vaccination on the basis of every man's right to control the sanctity of his body.<sup>70</sup> The Court held that the state's interest in preventing the spread of disease overrode Jacobsen's personal right to refuse treatment. The Court implied that the right to refuse treatment would be upheld only when the individual's choice is informed, and society's interest would not be harmed.

In *In re Quinlan*,<sup>71</sup> the court's focus was limited to the right to decline life-prolonging treatment when the patient has no realistic hope of returning to "any semblance of cognitive or sapient life."<sup>72</sup> The issue was further complicated by the patient's comatose state and her subsequent inability to represent her own interests before the court. The court held that her father could decide to cease life-prolonging activity in order to safeguard her right to die with dignity.<sup>73</sup> The constitutional law commentator Laurence Tribe pointed out the inherent

irony in the court's decision: that given the vegetative state that alone justified the court's holding, "attributing 'rights' to the patient at all was problematic." <sup>74</sup> The decision more realistically concerned the desires of parents and society to allow freedom of medical decision-making when individuals without consciousness linger only through extraordinary life-prolonging means. <sup>75</sup> The *Quinlan* case did not confer the right to terminate care to those who are conscious and for whom death is not imminent. In effect, the court recognized that a balancing of state and individual interests in the context of life-prolonging medical care is affected by the degree of illness suffered by the victim and the fading hope of a cure. <sup>76</sup>

The third choice of treatment situation—the right to choose a medical treatment that is not approved by the state—has led to a number of decisions surrounding the drug laetrile <sup>77</sup> and has loomed at the center of the marijuana controversy. <sup>78</sup> Judicial resolution of this third category of decision-making may well determine the future of heroin as a therapeutic agent. The leading case in the area is *Rutherford v. United States*. <sup>79</sup>

#### *Rutherford v. United States*

In *Rutherford*, several terminally-ill cancer patients sued to enjoin the United States from interfering with their access to laetrile. The United States District Court for the Western District of Oklahoma issued an injunction against the Food and Drug Administration (FDA) on the basis that patients were denied freedom of choice and were deprived of life, liberty, or property without due process of law. <sup>80</sup> The court held that the FDA's licensing requirements for new drugs made it virtually impossible for laetrile to become legally accessible.

On appeal, the United States Court of Appeals for the Tenth Circuit looked closely at FDA procedures and focused on the approval process for "new" drugs and the grandfather clause exemptions under the Food and Drug Act. Its inquiry raised the following questions: 1) Was laetrile marketed on October 9, 1962, as a cancer drug and was it then generally recognized as safe? 2) Was laetrile recognized or used as a cancer drug under the same conditions of present use during the period when the Food and Drug Act of 1906 was in effect from June of 1906 until June of 1938? <sup>81</sup> If either question could be answered affirmatively, laetrile would be exempt under the grandfather clause. <sup>82</sup>

The tenth circuit remanded the case to the Food and Drug Administration in order to produce an administrative record supporting its determination that laetrile was a "new" drug, though it did not explore the constitutionality of the "new" drug procedures. In 1977, in response to the court's order, the FDA released its findings that laetrile was not generally recognized as safe and effective or exempt under the 1962 grandfather clause.

On appeal, the district court ruled that the FDA's classification of laetrile as a "new" drug was "arbitrary, capricious, and an abuse of discretion, and, as a matter of law, unsupported." <sup>83</sup> The judges noted that laetrile had been used and sold commercially in the United States for over twenty-five years and had been generally recognized as safe. <sup>84</sup>

As to the constitutional aspects, the court looked to the "abortion cases" <sup>85</sup> for the premise that a right of privacy exists under the Constitution. As Douglas said in *Doe*, "that right has no more conspicuous place than in the physician-patient relation-

ship." <sup>86</sup> The district court determined that fundamental civil liberties were at issue in *Rutherford*, and that the choice to use laetrile, regardless of its correctness, should be the sole prerogative of the person whose body was being ravaged by disease. <sup>87</sup>

Again, the United States appealed the decision of the district court to the tenth circuit which sustained the district court's injunction, thus allowing the interstate sale and use of laetrile for terminally ill patients to continue. <sup>88</sup> The appeals court did not directly address the constitutional issue. On appeal to the Supreme Court, the tenth circuit was reversed and the case remanded for further proceedings on those issues. <sup>89</sup>

In its opinion, on procedures for terminally ill patients the Court held that the Congress could reasonably have intended to shield terminal patients from ineffectual or unsafe drugs, and that any other interpretation of the FDA regulations would substitute the opinion of the Court for that of Congress. "For the terminally ill, as for anyone else, a drug is unsafe if its potential for inflicting death or physical injury is not offset by the possibility of therapeutic benefit." <sup>90</sup> The Supreme Court did not address the privacy issue.

On remand, the Tenth Circuit revived the balancing test to weigh the "protected right" to select a medical treatment against the governmental interest in protecting public health. The court found that the state's interest outweighed such personal medical decisions. The constitutional conflict was thus temporarily resolved. <sup>91</sup>

*Rutherford* represents a weakening of the individual's privacy interest in choosing medical treatment. Unlike the early *Jacobson* case, <sup>92</sup> no public danger existed in granting laetrile's commerce. Unlike the "abortion decisions," other lives would not be affected by an individual's choice of treatment. Only victims of cancer themselves would be affected by the prohibition on laetrile's use. The compelling state interest could be construed only as protecting terminally ill patients from their own informed choice. Thus, while it has been held that an individual can refuse treatment to sustain life, he is not yet free to select an unauthorized treatment in the face of death.

#### *People v. Privatera*

*People v. Privatera*, <sup>93</sup> a California Supreme Court decision, reaches the same conclusion. The California court determined that the right to use laetrile is not governed by the fundamental right of privacy because it is not among those decisions enumerated in the "privacy cases." <sup>94</sup> As such, the court had only to find a rational basis for the statute proscribing laetrile's use, which it fulfilled by citing a history of misleading representations about cancer cures.

In a dissent more remarkable than the decision, Chief Justice Rose Bird asserted that "choice of treatment is one of the most important decisions a person may ever make, touching intimately on his or her being." <sup>95</sup> Her opinion and that of the district court in *Rutherford* represent the eloquent dissent in a line of decisions that subordinate the individual's freedom of choice in medical decisions to the state's perceived goals.

Thus, the prevailing tone of judicial decisions leads to negative assumptions about the future of heroin therapy via the judiciary. Because heroin's status is not just unauthorized, but forbidden, the recognition of a fundamental right to use the drug for medical reasons would conflict with the state's interest in prohibiting its existence

on nearly every occasion. Only a contention that the current prohibition is overbroad would prevent the state's interest from outweighing every personal consideration.

#### *The Marijuana Connection*

"It isn't absolutely necessary to be a masochist to do research on marijuana today, but it certainly helps." <sup>96</sup>

Marijuana, like heroin, is a Schedule I drug. Under federal law, it is deemed to have no medical usefulness while having high potential for abuse. <sup>97</sup> It is subject to the following restrictions:

The DEA has established quotas on lawful production of marijuana and its active ingredient THC.

The drug may be manufactured only by an individual or company registered with the DEA.

A researcher seeking to study the drug must obtain registration from the DEA.

The drug must be kept in a vault.

Record keeping is required.

Trafficking the drug is a felony.

The drug is available for research only and may not be prescribed. <sup>98</sup>

In addition, marijuana falls under FDA's "new drug" category and is subject to its regulatory provisions.

Marijuana and THC are currently being tested for their ability to relieve pain, insomnia, anxiety, asthma, epilepsy, glaucoma, and the side-effects of chemotherapy. <sup>99</sup> In addition, the National Cancer Institute's Division of Cancer Treatment now provides THC to physicians for use in controlled situations. As such, the Schedule I classification has become a contradiction in terms. The proven medical uses for marijuana are growing every day.

Hearings in Congress have focused on the subject of down-scheduling marijuana to conform with current knowledge about the drug's effectiveness. <sup>100</sup> Marijuana progress bears watching by advocates of heroin's legalization. While the public's response to marijuana continues to be volatile, public fear is less profound than with the use of heroin and the potential beneficiaries of therapeutic marijuana use are more numerous. Nevertheless, according to former FDA Chief Counsel Richard Cooper,

[t]he medical future of both THC and heroin is not entirely clear . . . A potential manufacturer will have to gather the relevant data and organize them into new drug applications that meet the FDA standards. It may turn out that the biggest obstacle to the therapeutic use of marijuana and heroin is the lack of interest in the drug on the part of drug companies. <sup>101</sup>

#### *Medical Necessity Defense*

Federal courts have consistently held that possession and sale of marijuana are not protected by the right to privacy. <sup>102</sup> However, the common law defense of necessity has been held to extend to medical necessity in the case of a Washington, D.C., man who used marijuana to treat his deteriorating glaucoma condition. <sup>103</sup>

In 1975, Bob Randall was arrested and charged with unlawful possession of marijuana. He sought acquittal on the strength of a medical necessity defense. The District of Columbia Superior Court dismissed the charge, stating that a person whose use of marijuana is a matter of medical necessity is not criminally liable for its unlawful possession. <sup>104</sup> While the necessity defense historically depended on an immediate threat to life, a fear of deteriorating health was later considered to be a justifiable ground for the defense. <sup>105</sup>

The court stated that "necessity is the conscious, rational act of one who is not guided by his own free will. It arises from a determination by the individual that any reasonable man in his situation would find the personal consequences of violating the law less severe than the consequences of compliance."<sup>106</sup> The court noted that the defense is not available to one who has brought the circumstances upon himself.<sup>107</sup> Thus, a heroin addict who would argue the defense of necessity would be unlikely to prevail.<sup>108</sup> In addition, if there was a less stringent alternative, the defense would fall.<sup>109</sup> Finally, the harm avoided must be more serious than what is performed to escape it.<sup>110</sup>

The D.C. court's analysis focused on a balancing of interests between Randall's desire to preserve his sight and the government's interest in maintaining its regulations of marijuana. Noting "how far-reaching is the right of an individual to preserve his health and bodily integrity,"<sup>111</sup> the court concluded that blindness is a greater evil than breaking the prohibition on marijuana. In dismissing the case, the court also noted that no innocent party was injured and Randall had not brought his condition upon himself. The United States did not appeal.

The court's acceptance of Randall's defense is significant as a qualified affirmation of the right to protect one's health. Within the context of the case, an analogy between the use of marijuana and the use of heroin is a logical one. If the only means to combat intractable pain is heroin, then the medical necessity defense successfully employed by Randall might prevail for one who breaks the prohibition on heroin due to an advanced condition of cancer. However, the defense is limited to individuals caught in the medical-legal bind. It is no answer to the larger question of legalization that must be confronted by lawmakers if any true progress is to take place.

#### CONGRESSIONAL ACTION

While the courts have only addressed the heroin conflict by implication, Congress has squarely dealt with the issue. The Compassionate Pain Relief Act, H.R. 5290, was designed to establish a temporary program under which "parenteral diacetylmorphine (heroin) would be made available through qualified pharmacies for the relief of intractable pain due to cancer."<sup>112</sup> The bill was introduced by Congressman Henry Waxman of California, Chairman of the Subcommittee on Health and the Environment of the Committee on Energy and Commerce. It was defeated by a vote of 355 to 55 on September 19, 1984, after several hours of passionate debate.<sup>113</sup> According to Congressman Waxman, the lopsided vote was a consequence of political timing:

"People were afraid to vote in any way, shape or form for anything that sounded like legalization of heroin. They were afraid they would be campaigned against on the issue."<sup>114</sup>

H.R. 5290 was not the first congressional attempt to deal with the availability of heroin for therapeutic purposes. In 1980, Congressmen Waxman of California and Congressmen Madigan of Illinois jointly and separately introduced legislation to make heroin available on a limited basis. Hearings were held before the Subcommittee on Health and the Environment of the Interstate and Foreign Commerce Committee.<sup>115</sup> Again in 1983, Waxman introduced legislation which was the subject of more hearings and was subsequently reintroduced as the clear bill which the House defeated in Sep-

tember, 1984. Its Senate companion, S. 209, was introduced by Senator Inouye of Hawaii and never reached a vote on the Senate floor.

The Waxman bill was a model of qualified legalization. H.R. 5290 would have required the Secretary of Health and Human Services to establish a temporary four-year research program during which heroin would be provided to terminally ill cancer patients through a limited number of pharmacies upon the written prescription of a licensed physician. The program would be monitored by the Government Accounting Office (GAO). An amendment by Congressman Hughes of New Jersey would have tightened the bill even further by requiring that the patient for whom heroin is prescribed would not respond to any other available drug, that a physician's decision to prescribe heroin be reviewed by a medical panel, and that the program be drawn into the system of regulation of the Controlled Substances Act. The Hughes Amendment was not passed.<sup>116</sup>

The politics of the Compassionate Pain Relief Act were unusual and embittered. The Reagan administration opposed the bill, stating that equally potent drugs were available and diversion was a real and present danger.<sup>117</sup> The American Medical Association opposed the bill while the American Nurses' Association favored its passage.<sup>118</sup> Rhetoric on the House floor volleyed between calls for compassion and warnings of dire consequences if the bill were to become law.<sup>119</sup> One opposing legislator even suggested that "we are going to have many pushers telling young kids, 'Look, this (heroin) cannot be that bad for you. After all, doctors and hospitals are using it all over the country.'"<sup>120</sup>

Opponents also decried the fact that H.R. 5290 bypassed the Food and Drug Administration's "new drug" approval process by providing for government manufacture and distribution of the drug. Advocates maintain that so few patients are potentially involved that no drug company is likely to undertake the major effort and expense to meet the FDA regulations, especially in light of heroin's unsavory reputation.<sup>121</sup>

It was the criminal identity of heroin and the threat of cross-over from pharmacy to "street" and from "street" back to the sick and dying that emerged as the focus of the debate in an election year. Chairman Rangel of the Select Committee on Narcotics Abuse and Control led the opposition suggesting that "a lot of people . . . would openly advocate that we just take the profits out of heroin and just start legalizing the entire illicit drug manufacturing and transactions in the United States."<sup>122</sup> A letter from Secretary of Health and Human Services Margaret Heckler was quoted, emphasizing the Reagan administration position that legalizing would pose serious public safety, enforcement, and security problems and that health care professionals would be placed in jeopardy by the direct link to criminal activity.<sup>123</sup>

Chairman Dingell of the Energy and Commerce Committee that reported favorably on the bill disposed of the Administration's major objection metaphorically.

"Let us take a little bit of a look at the question of diversion: 4.3 tons of illegal heroin come into this country. That is the equivalent of two elephants in weight. If you were to take the entire amount of heroin that is going to be coming into this country under carefully controlled conditions to meet the needs of the hopelessly

dying cancer patients, you would probably have the equivalent of a pimple on the posterior of one of those elephants."<sup>124</sup>

The fact that the illicit heroin supply would not be significantly increased even in the worst case analysis did not prove persuasive to a majority of voting members. The debate had an evangelical tenor that had less to do with facts than with the emotional impact of heroin on the American psyche. According to one Waxman staffer, the "all-out-attack" waged by the administration not only helped to create a fervor among the bill's detractors, but also cost the proponents five months that proved strategically devastating.<sup>125</sup> Allegations that the administration used illegal lobbying techniques to defeat the bill are now under investigation by the Office of the Inspector General.<sup>126</sup>

The lay press rallied behind the Compassionate Pain Relief Act. *The Washington Post* headlined its September 22d editorial *Cruel Cowardice* and commented that "demagoguery carried the day."<sup>127</sup> *The New York Times* editorialized that Congress preferred symbolic action, "no matter how cruel the effect on the dying."<sup>128</sup> Papers from *The Fort Lauderdale News* to the *San Jose Mercury News* had endorsed the measure in weeks and months preceding the vote.<sup>129</sup> In an acerbic commentary on the subject, Editor Smith Hempstone of *The Washington Times* wrote, "[t]he absolute medical ban on heroin makes about as much sense as denying a man about to be electrocuted a cigarette on the grounds that the Surgeon General has determined smoking is injurious to the health."<sup>130</sup>

Proponents of the Compassionate Pain Relief Act are hopeful that more favorable timing, public support, and an off-election year will improve prospects for the bill's passage during the 99th Congress.<sup>131</sup>

#### CONCLUSION

The forty-thousand Americans who could benefit today from heroin's legalization cannot afford to wait for a broader judicial interpretation of the right to privacy. Even as the courts affirm the fundamental nature of decisions affecting one's health and well-being, they qualify the conditions and circumstances under which these decisions may be made. The strict scrutiny accorded to fundamental-right analyses seems more easily satisfied in the privacy context than where other fundamental rights are concerned: the balancing test is slanted toward compelling state interest. The persistent judicial perception that the state's interest in drug regulation overrides individual fundamental rights assures that courts will continue to defer to the authority of the FDA and DEA in the scheduling and control of heroin's use in this country.

Only a re-evaluation of the government's interest could alter this judicial posture. A closer look at the actual dangers of heroin's diversion from pharmacy to street use would reveal an exaggerated fear of expanded illicit trade. A recognition that the addictive potential of heroin is no issue for the dying would undermine the contention that its use is deleterious to the target population. But the courts will not re-define the nature of the government's interest in the sweeping prohibition on heroin. The judicial system will not substitute its judgment for the will of Congress so clearly demonstrated in 60 years of legislative history.

The only imminent hope for cancer victims lies with the Congress and not the courts. The dramatic defeat of the Compassionate Pain Relief Act of 1984 is a major

setback which, according to Judith Quattlebaum of the National Committee on the Treatment of Intractable Pain, is "impossible to explain to cancer patients."<sup>132</sup> Congressional advocates have, however, reintroduced the measure in the 99th Congress with an eye toward more advantageous timing.<sup>133</sup>

It is time for Congress to mitigate the law enforcement message of the past decades and offer a new perception of a compassionate, balanced, and hopeful drug policy for this nation. The quality of American lives depends on it.

#### By Mr. INOUE:

S. 144. A bill to amend the District of Columbia Code to provide for the service of psychiatric nurse practitioners and psychiatric nurse clinical specialists on the District of Columbia Commission on Mental Health; to the Committee on Governmental Affairs.

#### PROVIDING FOR THE SERVICE OF CERTAIN PSYCHIATRIC NURSES

● Mr. INOUE. Mr. President, I am introducing legislation today to amend the District of Columbia Mental Health Commission to authorize the Superior Court of the District of Columbia to utilize the mental health expertise of our Nation's psychiatric nurses.

During the closing hours of the 99th Congress, we were able to amend the Mental Health Commission to ensure that qualified psychiatrists and clinical psychologists could be used by the court. The recommendation which I am making today would expand the flexibility of the judiciary in order to ensure that the most up-to-date state-of-the-art knowledge is readily available to them.

My recommendation is highly consistent with the policy of the American Bar Association's criminal justice mental health standards.

Mr. President, I request unanimous consent that the text of my bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 144

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled*, That section 502(a) of title 21 of the District of Columbia Code is amended by striking out the last sentence and inserting in lieu thereof the following: "Eight members of the Commission shall be physicians, psychiatrists, psychologists, psychiatric nurse practitioners, or psychiatric nurse clinical specialists practicing in the District of Columbia who have had not less than five years' experience in the treatment of mental illnesses." ●

#### By Mr. INOUE:

S. 145. A bill to increase the role of the Secretary of Transportation in administering section 901 of the Merchant Marine Act, 1936; to the Committee on Commerce, Science, and Transportation.

S. 146. A bill to further the development and maintenance of and adequate and well-balanced American merchant marine by requiring that certain mail of the United States be carried on vessels of U.S. registry; to the Committee on Commerce, Science, and Transportation.

S. 147. A bill to revise the laws regarding the transportation of Government cargoes in U.S.-flag vessels; to the Committee on Commerce, Science, and Transportation.

S. 148. A bill to amend the Shipping Act, 1916, to provide for jurisdiction over common carriers by water engaging in foreign commerce to and from the United States utilizing ports in nations contiguous to the United States; to the Committee on Commerce, Science, and Transportation.

#### RELATING TO THE U.S. MERCHANT MARINE

● Mr. INOUE. Mr. President, today I am reintroducing four measures which are intended to help restore the U.S. Merchant Marine to its place of preeminence among the world's merchant fleets, and to help ensure that our fourth arm of defense is adequate in time of war or other national emergency. One of these measures which requires that mail of the United States be carried on U.S.-flag vessels passed the Senate unanimously in the last Congress. The others would:

Help ensure that U.S.-flag operators have the same competitive edge in our international trades that their foreign-flag counterparts have in theirs by strengthening our current laws relating to U.S.-flag preference for Government impelled cargo.

Centralize authority in the Secretary of Transportation for administer-

ing and implementing Public Law 664, which requires that at least 50 percent of Government-generated cargoes be shipped on privately owned U.S.-flag commercial vessels to the extent such vessels are available at fair and reasonable rates.

Make certain common carriers by water in foreign commerce subject to the tariff-filing requirements of the Shipping Act of 1984 and to the jurisdiction of the Federal Maritime Commission [FMC]. The carriers affected are those that engage in the ocean transportation of property originating in or destined for a U.S. point by way of a port in a nation contiguous to the United States if the carrier advertises or solicits the transportation within the United States.

The result of the bill would be to put the described carriers in the same position for purposes of filing tariffs as carriers that move property by way of U.S. ports.

Section 8 of the Shipping Act of 1984 requires each common carrier and conference serving U.S. ports to file with the FMC tariffs showing its rates, charges, classifications, rules, and practices between all points or ports on its own route and on any through transportation route that has been established. These carriers and conferences may not increase rates except on 30 days notice, and may not quote a reduction until the rate is on file at the FMC.

Section 10 of the act enumerates certain prohibited conduct. Among other things common carriers and conferences are prohibited from: Charging or receiving compensation inconsistent with rates shown in their tariffs or service contracts; rebating or refunding any portion of their rates; and extending or denying privileges except in accordance with their tariffs.

Within broad guidelines, carriers are free to fix the form and level of rates shown in their tariffs. However, having established a given rate, a carrier must make that rate available to all shippers similarly situated. For example, if rate is predicated on a given amount of cargo, any shipper tendering that amount of cargo is entitled to the rate. If carriers operating through contiguous nations are currently offering discriminatory rates to preferred shippers, this bill would clearly expose them to the prohibitions of the Shipping Act.

However, carriers that do not operate through a U.S. port are not now subject to these restrictions. They are, therefore, free to quote whatever rate is necessary in order to obtain cargo. They can discriminate between shippers and change rates without advance notice.

These differences give those carriers that service U.S. shippers through Ca-

nadian ports a competitive advantage over carriers using U.S. ports.

Mr. President, I wish to emphasize that individually and collectively these measures are just the beginning of what needs to be done to revitalize our U.S. merchant marine. Nevertheless, we must start somewhere, and if we are unwilling to take even these small steps, it is unlikely we will do everything that is necessary.●

By Mr. INOUE:

S. 149. A bill to provide for the service of clinical social workers on the District of Columbia Commission on Mental Health; to the Committee on Governmental Affairs.

RELATING TO THE SERVICE OF CLINICAL SOCIAL WORKERS ON THE D.C. COMMISSION ON MENTAL HEALTH

● Mr. INOUE. Mr. President, today I am introducing legislation which would amend title 21 of the D.C. Code to authorize the inclusion of clinical social workers among those professionals appointed to serve on the Mental Health Commission of the D.C. Superior Court.

The Mental Health Commission plays a prominent role in the District's mental health commitment process. It is responsible for hearing petitions for extended involuntary commitment brought by mental health facilities, and for making recommendations to the court in response to private petitions to commit. In both cases, the Commission must make a determination as to whether or not he or she is likely to injure him or herself and/or others as a result of the mental illness.

This is a determination which I believe can and should be made by a team of qualified mental health professionals. Clinical social workers, who are licensed or certified in 39 States and jurisdictions, are specifically trained in the diagnosis and treatment of mental disorders. In fact, their expertise extends beyond psychopathology to areas such as psychosocial development, emotional dysfunction, unconscious motivation, environmental stress, and interpersonal relationships. It is not surprising that clinical social workers have increasingly been recognized by our courts as core mental health professionals who are competent to provide expert mental health testimony and to perform mental health assessments.

In my judgment, the time has come to amend the D.C. Code to allow clinical social workers to serve on the Mental Health Commission.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 149

*Be it enacted by the Senate and House of Representatives of the United States of*

*America in Congress assembled, That section 502(a) of title 21 of the District of Columbia Code is amended by striking out the last sentence and inserting in lieu thereof the following: "Eight members of the Commission shall be physicians, psychiatrists, psychologists, or clinical social workers practicing in the District of Columbia who have had not less than five years' experience in the treatment of mental illnesses."●*

By Mr. INOUE (for himself and Mr. MATSUNAGA):

S. 150. A bill to provide financial assistance to community colleges and to Kamehameha Schools/Bishop Estate for demonstration grants designed to address the special needs of gifted and talented elementary and secondary school students who are Indian or native Hawaiian, and for other purposes; to the Select Committee on Indian Affairs.

#### NATIVE AMERICAN GIFTED AND TALENTED EDUCATIONAL ASSISTANCE ACT

● Mr. INOUE. Mr. President, today Senator SPARK MATSUNAGA and I are introducing legislation which would authorize a special demonstration program targeted toward the unique needs of American Indian and native Hawaiian gifted and talented elementary and secondary school students.

In the closing hours of the 99th Congress, the Senate Select Committee on Indian Affairs received testimony from Dr. Keith Mielke, vice president for research, Children's Television Workshop, describing the extent to which it might be possible for them to develop creative programs targeted toward the needs of these native American peoples once this proposal becomes public law.

Mr. President, during the 99th Congress the House of Representatives passed legislation entitled the Gifted and Talented Children's and "Youth Education Act of 1986," which envisions a Federal "capacity building" effort to identify and educate gifted and talented children. Further, that legislation, which authorizes \$10 million for the first year, would also establish a national center for research and development in the education of gifted and talented children and youth.

As our colleagues in the House of Representatives pointed out, the U.S. Department of Education's own report "A Nation at Risk" highlighted the pressing needs of gifted and talented children. The measure which we are introducing today would provide a special focus on the truly unique needs of native American gifted and talented individuals.

Mr. President, I request unanimous consent that the text of Dr. Mielke's testimony and of the bill be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 150

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Native American Gifted and Talented Educational Assistance Act of 1985".*

#### STATEMENT OF PURPOSE

SEC. 2. It is the purpose of this Act to make demonstration grants designed to address the special educational needs of elementary and secondary school students who are Indian or Native Hawaiian.

#### DEFINITIONS

SEC. 3. For the purpose of this Act—

(1) The term "elementary school" has the same meaning given that term under section 198(a)(7) of the Elementary and Secondary Education Act of 1965.

(2) The term "local educational agency" has the same meaning given that term under section 198(a)(10) of the Elementary and Secondary Education Act of 1965.

(3) The term "Indian" has the same meaning given that term under section 453 of the Indian Education Act.

(4) The term "junior or community college" has the same meaning given that term under section 322(a)(4) of the Higher Education Act of 1965.

(5) The term "Native Hawaiian" means any individual whose ancestors were natives of the area which consisted of the Hawaiian Islands prior to 1778.

(6) The term "secondary school" has the same meaning given that term under section 198(a)(7) of the Elementary and Secondary Education Act of 1965.

(7) The term "Secretary" means the Secretary of Education.

(8) The term "State" has the same meaning given that term by section 198(a)(16) of the Elementary and Secondary Education Act of 1965.

(9) The term "tribally controlled community college" has the same meaning given that term by section 2(4) of the Tribally Controlled Community College Assistance Act of 1978.

#### DEMONSTRATION GRANTS FOR GIFTED AND TALENTED ELEMENTARY AND SECONDARY INDIAN SCHOOL STUDENTS

SEC. 4. The Secretary is authorized to make grants to, and to enter into contracts with, junior or community colleges, including tribally controlled community colleges, for demonstration projects designed to address the special needs of elementary and secondary school students who are Indians.

#### DEMONSTRATION GRANTS FOR GIFTED AND TALENTED ELEMENTARY AND SECONDARY HAWAIIAN NATIVE SCHOOL STUDENTS

SEC. 5. The Secretary is authorized to make grants to, and to enter into contracts with, junior or community colleges, and/or Kamehameha Schools/Bishop Estate, for demonstration projects designed to address the special needs of elementary and secondary school students who are Hawaiian Natives.

#### PROJECT ACTIVITIES AND CONDITIONS

SEC. 6. (a) Demonstration projects assisted under this Act may include—

(1) the identification of the special educational needs of gifted and talented children who are eligible for assistance under this Act,

(2) the conduct of educational activities which held reasonable promise of making substantial progress toward meeting the

educational needs of such gifted and talented children;

(3) the use of public television in meeting the special educational needs of such gifted and talented children, such as utilizing the expertise of the Children's Television Workshop;

(4) leadership programs designed to replicate programs for such children throughout the appropriate area, including the dissemination of information on the demonstration projects conducted with assistance under this Act; and

(5) appropriate research, evaluation and related activities pertaining to the special needs of such gifted and talented children.

(b)(1) No grant may be made and no contract may be entered into under this section unless an application is submitted to the Secretary in such form, in such manner and containing or accompanied by such information as the Secretary determines necessary to carry out the provisions of this section.

(2) Each such application shall be accompanied by the comments of each local educational agency which has students who are enrolled in the schools of such agency and who will participate in the project for which assistance is sought.

#### AUTHORIZATION OF APPROPRIATIONS

Sec. 7. (a) There are authorized to be appropriated \$5,000,000 for the fiscal year 1986 and each of the three succeeding fiscal years.

(b) Of the sums available for each fiscal year \$4,000,000 shall be available for grants under section 4 benefiting elementary and secondary school students who are Indians, and \$1,000,000 shall be available for grants under section 5 benefiting elementary and secondary school students who are Hawaiian Natives.

TESTIMONY BY KEITH W. MIELKE, PH.D.,  
VICE PRESIDENT FOR RESEARCH, CHILDREN'S  
TELEVISION WORKSHOP

#### EDUCATIONAL ASSISTANCE FOR GIFTED AND TALENTED CHILDREN

I am Keith Mielke, Vice President for Research at the Children's Television Workshop in New York. I am here to speak in support of the concept of special programs for gifted and talented children. In particular, our experience is most relevant to the area where such programs might utilize educational television materials. Such special programs are described in the proposed legislation cited as the "Native American Gifted and Talented Educational Assistance Act of 1985."

I should state at the outset that I am not a specific expert either in the special needs of the gifted and talented or in the special needs of Indians or Native Hawaiians. The perspective that I do bring draws upon the unique experience of the Children's Television Workshop, which has been addressing special needs of children for almost two decades now. The hope and the belief is that this general experience may be helpful in this specific case. It is not anticipated that CTW would produce any television materials that might result from the proposed legislation, but we would be willing then, as we are now, to share knowledge and experiences which could be helpful.

CTW designs and produces educational materials that use mass media such as television. The first educational television series for children produced at CTW was "Sesame Street" which premiered in 1969. "Sesame Street" is designed to help preschool children get ready for classroom experience.

This was followed by "The Electric Company," which was basic reading instruction aimed at children 7-10 years of age. Then CTW produced a science series for 8-12's called "3-2-1 Contact," and our most recent series, which is about mathematics, will premiere next January. These four series comprise a considerable body of experience in the design, production, and evaluation of educational materials for children. As stated before, if this experience can be of any assistance in the planning of programs for the gifted and talented, then we are delighted to share it with you.

There are several comments now I'd like to make about the proposed legislation. One form of demonstration project that would qualify for funding would be the use of public television in meeting the special educational needs of gifted and talented children. CTW is honored to have been cited as exemplifying the use of television in meeting special needs of children.

In my opinion, certain media options are true opportunities to be explored and certain other media options do not appear to be feasible given the nature of television and the budget levels being considered.

Let's look first at the constraints. The funding available for mass media programming is typically tied to the numbers of people being served. Specialized needs of any subgroup, even important needs like those of the gifted and talented, tend not to generate adequate funding for original, exclusive, specialized programming on mass media such as broadcast television. "Sesame Street", for example, is expensive in absolute numbers—about \$10 million per year—but is quite inexpensive in its delivered cost per viewer—less than a penny per child per program. It is the attraction of very large audiences that makes possible that economy of scale where high production and pedagogical values can be justified. Within these general audience programs we do include segments for children with special needs, such as hearing impaired, mental retardation, physically handicapped, and so forth, but the overall show retains its appeal to all children, and that is critical to its level of funding.

A very promising option in addressing the special needs of the gifted and talented at much lower costs would be to select media materials already available and tailor them with special utilization materials. For example, if an adult program such as "Nova" might be appealing to a gifted and talented child if only certain bridging concepts could be mastered, then a special utilization kit could be designed for that purpose, and special training could be developed for adult leaders to guide the children through the process. Conceivably, these adult leaders could be teachers, paraprofessionals, or parents. This same approach of tailoring existing programs for the gifted and talented might also be made for very young children using our CTW programs in science and mathematics. I note in the Hawaii Public Television Guide that an enormous number of programs are broadcast that are potentially useful in this manner, but they would need to be tailored through special utilization materials.

The procedures we use at CTW to design and produce educational materials should also apply to utilization packages for the gifted and talented. My function at CTW, for example, is to oversee our in-house research, which is involved at all stages of a project. This includes needs assessments and goal-setting at the very beginning of a

project. It includes representing the children's viewpoint when materials are designed. It goes on to the testing of prototype materials for appeal and comprehension with target-age children, and it culminates in the evaluations of completed programs. These same steps and issues will be encountered in the proposed programs for the gifted and talented. All of these procedures can be shared with whichever institutions and groups eventually put the materials together for the gifted and talented.

If the needs assessment could first identify who has what set of needs in the gifted and talented category, and if this would then be followed by designing a responsive protocol or set of procedures that involved both media materials and a guide for adult leaders, then the possibility exists to reach great efficiencies with a reproducible model that is very effective. That is my fundamental suggestion, and there is reason to be optimistic about its outcome. At CTW, for example, we have a community outreach division called Community Education Services, or CES. One of many special utilization efforts by CES has been to design special materials on fire safety along just the lines I am proposing here: they combine television materials on videotape, along with a carefully constructed guide for a local group leader. Other subject areas addressed by Community Education Services at CTW include the special needs of children whose fathers are in prison, special life-saving messages appropriate for children in the areas of lead poisoning and natural hazards. I base the argument that this model would be useful here for the gifted and talented, not on specific experience with gifted and talented, but on the field-tested procedures we have successfully employed in so many different subject-matter areas.

Once prototype materials are produced, it is inevitable that they can be improved through evaluations under field conditions. Again, the particular materials for the gifted and talented may be new, but the issues are not.

I have been speaking so far only about CTW experiences with preschool children and children up to twelve years of age, because that's where our series are aimed. There are also needs and opportunities in high schools that are coming to the attention of the in-school television community. Because of budget pressures, some high schools have had to cut back on specialized courses such as Chinese language studies that were previously made available for gifted and talented students. The schools now conclude that the only way they can afford these services is to spread the expense more broadly by televised courses or the use of other technologies. Furthermore, small schools in rural areas perceive that the only way they would ever be able to offer some of these specialized courses, in good economic times or bad, is by way of technology such as television. For younger and older children, therefore, educational television has something worthwhile to consider.

In summary, the Children's Television Workshop supports the concept of special efforts, materials and activities to meet the needs of gifted and talented children. We have a wide variety of experience at the Children's Television Workshop in designing, producing and utilizing educational materials that are targeted to special audiences, and we would be delighted to share this expertise with you in any way that you would find helpful.

I would also be happy to respond to any questions you might have for me at this time. Thank you.●

By Mr. INOUE:

S. 151. A bill to permit educational institutions with graduate programs in clinical social work to apply for grants and contracts to provide educational assistance to individuals from disadvantaged backgrounds.

RELATING TO CERTAIN EDUCATIONAL ASSISTANCE  
TO DISADVANTAGED INDIVIDUALS

● Mr. INOUE. Mr. President, today I am introducing legislation which would provide that Council on Social Work Education accredited schools of social work be deemed eligible to receive grants under the Health Careers Opportunity Program [HCOP].

This program has been instrumental in enabling minority students to enter and successfully complete education and training programs in other health professions. In my judgment, it is very important that our Nation's minority students be given that same opportunity to be trained in schools of social work for health-care careers.

Social workers are a necessary and integral part of the health-care team; they are uniquely qualified to perform a variety of vital functions. In addition to psychotherapy, counseling, and prevention of psychosocial problems related to illness, social workers are involved in discharge planning, high-risk screening, post-hospitalization care, and followup. Social workers are advocates for patients; they are specifically trained to identify, coordinate, and access appropriate services and resources.

I believe that social workers are necessary to effective health care. I also believe that minority participation in the provision of social work services would greatly strengthen our health care system's ability to respond to all segments of the community, and thus enhance our delivery of health care services overall. Making schools of social work eligible for grants under the Health Careers Opportunity Program would be an important step toward realizing these goals.

Mr. President, I ask unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 151

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) section 787(a) of the Public Health Service Act (42 U.S.C. 295g-7(a)) is amended by inserting "or clinical social work" after "psychology" in paragraph (1).*

*(b) The last sentence of paragraph (2) of such section is amended by inserting "or clinical social work" before the period.*

*(c) Such section is further amended by adding at the end thereof the following new paragraph:*

"(3) For purposes of this section, the term 'graduate program in clinical social work' means a graduate program in a public or nonprofit private institution in a State which—

"(A) provides training leading to a masters' degree or a doctoral degree in clinical social work or an equivalent degree;

"(B) prepares the individual receiving such degree for licensure by a State as a clinical social worker; and

"(C) is accredited in the manner described in section 701(5)."●

By Mr. INOUE:

S. 152. A bill to clarify that graduate programs in clinical psychology are health professions schools for purposes of title VII of the Public Health Service Act.

CLARIFYING CERTAIN PROGRAMS AS HEALTH  
PROFESSIONS SCHOOLS

● Mr. INOUE. Mr. President, I am introducing legislation today to ensure that our Nation's psychology graduate training programs will be able to apply for the various special projects initiatives funded by the Department of Health and Human Services and, in particular, the Health Resources and Services Administration.

The measure which I am proposing would essentially include psychology along with the listing of the other health professions schools. Until the past Congress, for most of these initiatives, psychology training programs were, in fact, eligible as one of the allied health professional schools. However, when we decided to eliminate psychology from the allied health definition, it was listed in the Federal Code under its own subsection—subsection 14—rather than included in the more traditional listing. As a result of this, it has come to my attention that psychology training programs are not eligible for the Department's geriatric training initiatives, even though there is clearly a truly pressing need for ensuring our Nation's senior citizens with quality mental health care.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 152

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 701(4) of the Public Health Service Act is amended by inserting after the first sentence the following new sentence: "The term 'school of psychology' means a graduate program in clinical psychology (as defined in paragraph (14))."●*

By Mr. INOUE:

S. 153. A bill to specify that health maintenance organizations may provide the services of clinical social workers.

CLINICAL SOCIAL WORKER SERVICES AT HMO'S

● Mr. INOUE. Mr. President, I am introducing legislation today to amend the health maintenance organization [HMO] authorization statute to make clear that, within these important institutions, our Nation's clinical social workers are to be deemed recognized providers of care.

Mr. President, the legislative proposal which I am recommending today will not cost any additional funds, as these practitioners are already serving our Nation in HMO's, providing a wide variety of services, such as health education and health promotion, health risk screening and assessment, case management, and psychotherapy. In essence, what my proposal does is to accord the social worker profession the professional recognition which it so richly deserves.

Mr. President, I request unanimous consent that the text of my bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 153

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) paragraphs (1) and (2) of section 1302 of the Public Health Service Act are amended by inserting "clinical social worker," after "psychologist," each place it appears.*

*(b) Paragraph (4) of such section is amended by striking out "and psychologists" and inserting in lieu thereof "psychologists, and clinical social workers".*

*(c) Paragraph (5) of such section is amended by inserting "clinical social work," after "psychology,"●*

By Mr. INOUE (for himself and Mr. MATSUNAGA):

S. 154. A bill to authorize the Secretary of Health and Human Services to make grants for the planning, development, establishment and operation of poison control centers.

POISON CONTROL CENTER PROGRAM

● Mr. INOUE. Mr. President, today Senator MATSUNAGA and I are introducing legislation to authorize the Secretary of the Department of Health and Human Services to make grants for planning and operating poison control centers.

I understand that more than 5 million poisonings occur each year in our Nation and that poisoning continues to remain the fourth most frequent cause of accidental death after motor vehicle accidents, drownings, and burns. Poisonings result in approximately 12,000 deaths per year. Unfortunately, about 90 percent of the reported cases involve children thereby making poisonings the most common pediatric emergency.

Presently, there are nearly 500 poison control or poison information centers already established in our Nation, many of which are colocated

with hospital facilities, universities or public health authorities. Some of these are presently receiving Federal funding under the provisions of the Emergency Medical Services Block Grant Program. I understand that in the areas of high military concentration, such as Hawaii, military families can make up a high proportion of their clientele. In fact, in Honolulu, approximately 25 percent of our poison center's transactions are for local military personnel and their dependents, whom I might add often do not pay local taxes.

Mr. President, previous studies which have been brought to my attention conclusively indicate that when all poisoning episodes are considered, regional poison centers have been found to significantly reduce pediatric visits to hospital emergency rooms. For example, one study indicated that of those parents who did not call the poison center, 44 percent went to an emergency room, whereas less than 1 percent of the parents who did call the center went to the hospital. Essentially, various scientific and medical experts have informed me that a well-staffed poison center can effectively manage 85 percent of the acute poisonings which occur over the telephone. Simply stated, by spending money up front to establish poison centers, we will in the long run save considerable funds in hospital expenses. In fact, I understand that approximately 600,000 hospital visits or admissions are attributed to poisonings annually.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the Record, as follows:

#### S. 154

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That part B of title III of the Public Health Service Act is amended by inserting after section 314 the following new section.*

#### "POISON CONTROL CENTERS

"Sec. 315. (a) The Secretary may make grants to appropriate public and private nonprofit entities for the planning, development, establishment, and operation of poison control centers.

"(b) A poison control center planned, developed, established, or operated with a grant under this section shall, with respect to the locality in which such center is established—

"(1) provide services for the appropriate and expeditious management and treatment of individuals who have consumed poisons or an overdose of drugs;

"(2) establish a twenty-four-hour telephone line, at no charge to the caller, to—

"(A) answer requests for information concerning poisons and drugs;

"(B) receive requests concerning, and make recommendations for, the treatment in the home of individuals who have consumed poisons or an overdose of drugs;

"(C) coordinate the referral to hospital emergency rooms of individuals who have consumed poisons or an overdose of drugs who need such referrals, by contacting and providing appropriate information to the staffs of such emergency rooms;

"(D) provide information to health care professionals involved in the treatment of individuals who have consumed poisons or an overdose of drugs; and

"(E) monitor the treatment at home of individuals who have consumed poisons or an overdose of drugs in order to assure that adequate care is provided to such individuals;

"(3) create and implement educational programs in order to improve public awareness of problems relating to the consumption of poisons and drugs and methods to prevent such consumption; and

"(4) collect data relating to the operations of the center, including information concerning the individuals served by such center.

"(c) To carry out this section, there are authorized to be appropriated such sums as may be necessary." ●

#### By Mr. INOUE:

S. 155. A bill to limit the costs resulting from acts of negligence in health care and to improve the level of health care services in the United States, and for other purposes; to the Committee on Labor and Human Resources.

#### HEALTH CARE PROTECTION ACT

● Mr. INOUE. Mr. President, during the past several Congresses, I have introduced legislation entitled the Health Care Protection Act which, if enacted, would establish uniform Federal standards for a network of health care malpractice screening panels across the Nation.

The bill, which I am again reintroducing today, is an outgrowth of our deliberations during the 1975 crisis in the medical malpractice insurance area. At that time, we appeared to have a crisis of availability; however, today, there would appear to be a growing crisis in affordability.

I was most pleased that during both the 98th and 99th Congresses, various committees with jurisdiction, in both the House of Representatives and the Senate, held formal hearings on the professional liability/medical malpractice issue. This is a very complex matter; however, I do feel it is one which we must affirmatively address in the near future if we ever hope to curtail the ever-escalating costs of health care in our Nation.

I am also pleased that during our deliberations on the fiscal year 1987 appropriations bill for the Department of Health and Human Services, the conferees agreed to include \$1 million in the Secretary's program policy account for him to develop creative approaches to professional liability problems. This initiative was the result of considerable assistance which I received from Representative JOHN PORTER of the U.S. House of Representatives.

Mr. President, I request unanimous consent that the text of this bill, as well as a statement developed for me by Spectrum Emergency Care, Inc., be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### S. 155

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Health Care Protection Act of 1987".

#### SEC. 2. CONGRESSIONAL FINDINGS AND STATEMENT OF PURPOSE.

(a) FINDINGS.—The Congress finds that—

(1) the health care professions and the health care industry serve needs vital to the continuing health and welfare of the American people and form a vital part of commerce between the States;

(2) every person needs ready and economical access to medical and other health care services for full participation in American society and for full exercise of individual rights;

(3) the health care professions and the health care industry apply national standards of health care to State and regional needs and circumstances;

(4) the need to compensate persons injured by avoidable acts of health care negligence or malpractice and the resultant costs of malpractice insurance significantly increase the costs of medical and other health care services and products;

(5) divergent systems for insuring against, and for litigating and compensating, health care malpractice claims further raise the cost of needed malpractice insurance and prevent speedy compensation of injured persons;

(6) a large majority of the cost of premiums paid for malpractice insurance goes to investigating or litigating malpractice claims in State courts, while less than one-third of the premium costs are used to compensate persons injured by malpractice;

(7) many more incidents of health care malpractice occur than result in a claim for damages, and many valid claims for compensation are prevented because of the high costs of trial, and, conversely, many claims of malpractice are unjustified but result in settlements or awards for damages out of sympathy for the physical condition of the claimant;

(8) the costs of insurance protection against malpractice, and the risk of liability for compensation, burden both the health care providers and their patients and raise the cost of health care goods and services;

(9) the costs and risks referred to in paragraph (8) also increase the costs to the United States Government of carrying out its programs for aiding the people and the States in meeting health care needs, and affect the extent to which the United States may be financially liable for health care services afforded by its own officers or employees, including the military services and veterans and public health care programs;

(10) failure to compensate adequately persons injured by health care malpractice adversely affects the general health and welfare of the people of the United States and burdens commerce between the States;

(11) many States have experimented successfully with nonjudicial malpractice claims systems using screening panels to

reduce the costs of processing malpractice claims;

(12) the examination, prior to litigation, of claims regarding health care malpractice by malpractice screening panels organized by the States according to uniform Federal standards will aid materially in reaching just and timely resolutions of such claims at much lower administrative and litigation costs than the costs now incurred under the existing system of direct tort litigation and malpractice insurance;

(13) members of the public and responsible public officials of the States are entitled to be informed in all instances in which health care malpractice is found by a malpractice screening panel or a court, in order to protect against the risk of further malpractice and to minimize the necessary costs of insurance protection;

(14) a small percentage of health care providers account for a disproportionately high percentage of all malpractice claims, and for an even higher percentage of insurance payments to persons injured by health care malpractice; and

(15) because insurance premiums are usually set for an entire specialty group in a given region, the high-risk health care providers do not bear a financial burden proportionate to the amount of injury such providers cause, and therefore no effective financial incentive exists for the safe practice of medicine and other health care specialties.

(b) **STATEMENT OF PURPOSE.**—The purpose of this Act is to provide minimum Federal standards for the creation by each State of health care malpractice screening panels and procedures that will reduce the costs to the public and to the health care professions of malpractice, and that will provide full and expeditious compensation to the victims of health care malpractice.

#### SEC. 3. DEFINITIONS.

For purposes of this Act—

(1) "malpractice" means malpractice, or professional negligence, by an individual or group that provides health care services or goods and that is required by State law to be licensed or certified to provide such services or goods within the State;

(2) "panel" means a malpractice screening panel established pursuant to section 5;

(3) "division" means a division of a malpractice screening panel that is authorized to hear and decide malpractice claims pursuant to this Act;

(4) "State insurance commissioner" means the officer or agency of State government charged with licensing or regulating the business of providing insurance against claims of malpractice within the State; and

(5) "State program" means the State program for compensation of and reduction of health care malpractice described in section 4.

#### SEC. 4. UNIFORM STANDARDS FOR COMPENSATION FOR HEALTH CARE MALPRACTICE.

(a) **STATE PROGRAM FOR COMPENSATION.**—Each State shall be encouraged to establish, within four years after the date of enactment of this Act, a program for compensation and reduction of health care malpractice that complies with the provisions of this Act, and that consists of the establishment of malpractice screening panels in accordance with section 5 and the establishment of a State health care facility risk management program in accordance with section 7. The State may establish the State program by legislative, executive, or judicial action, as authorized by the laws and constitution of the State.

(b) **ATTORNEY GENERAL REGULATIONS.**—The Attorney General shall have authority to promulgate regulations for the interpretation and implementation of this Act. Within one year after the date of enactment of this Act, the Attorney General shall issue regulations concerning the certification of State programs in accordance with section 8 and for payments to States under section 9.

#### SEC. 5. MALPRACTICE SCREENING PANELS.

(a) **ESTABLISHMENT.**—Each State shall be encouraged to establish one or more malpractice screening panels to hear all claims of health care malpractice against persons in the State who are licensed or certified by the State to provide health care services or who provide health care services for which State law requires a license or certification. Each State shall, after consultation with the Attorney General, publish a list of the health care professions that are so licensed or certified and the health care professions of which members provide health care services so licensed or certified. If the State establishes more than one panel, the jurisdiction of the panels may be divided by geographic area within the State or by health care specialty.

(b) **MEMBERSHIP AND APPOINTMENT.**—(1) A malpractice screening panel shall have at least three members, chosen and appointed under the laws or constitution of the State. A State may require that a panel sit as a single body or may authorize the panel to sit in smaller divisions of at least three members. Each panel, and each division before which a claim is heard, shall include at least one licensed or certified health care professional, one person admitted to practice law in the courts of the State, and one layperson who represents consumers and is not affiliated with a health care practitioner or health service institution, and may include such other members as the State shall provide. The State may annex a panel to a court of the State. The State shall specify the method of selection and assignment of members of each panel and any division thereof in a manner that assures that each panel and division will afford a full and fair hearing to all parties to any claim brought before it. The members of each panel shall be selected without regard to gender, race, religion, or national origin.

(2) The State shall provide that any member or employee of a panel or division is immune from suit for defamation, libel, or slander, arising from the performance of his official duties with the panel or division, unless malice or actual knowledge of the falsity of a defamatory statement is proved.

(c) **JURISDICTION AND RULES OF PROCEDURE.**—The State shall be encouraged to provide for the following:

(1) Each panel shall have original and exclusive jurisdiction within the State, or such area of the State or health care specialty as State law shall provide, to hear and decide any claim for damages resulting from injury or death incurred as a consequence of health care malpractice by an individual, group, or organization that is required to be licensed or certified by the State in order to provide health care goods or services in that State.

(2) Except as provided in subsection (j) or as provided for claims against the United States, every claim within the jurisdiction of a panel shall be filed with, heard, and decided by, the panel.

(3) The existence or absence of requisite injury, causation, negligence, malpractice, or any other element of a claim, or defense to a claim, shall be determined under the

law of the State, but the State shall authorize each panel and the person who appoints the panel to establish rules of procedure for fair and expeditious hearing and decision of claims. All such rules of procedure shall be published and made available to the public.

(d) **CLAIM AND ANSWER.**—Each State shall be encouraged to provide that a claim for damages resulting from injury or death incurred as a consequence of health care malpractice shall be filed with a panel within the State in which the malpractice allegedly occurred. The State shall specify the procedure for filing a claim, including a procedure for transfer to the appropriate panel of a claim improperly filed with a court or with the wrong panel, and shall require that a copy of the claim and any accompanying documents be served at the time the claim is filed on each person alleged to have caused the injury, each of whom shall be named as a defendant. The State shall require that each defendant answer the claim in timely fashion and completely. The State shall provide that a filed claim (1) fully describe the alleged malpractice that gave rise to the claim, the nature and extent of the injury that resulted, and the manner in which the injury took place, (2) list the names of all persons who may be liable for the malpractice and describe each person's role in the malpractice, and (3) list the names of all expert witnesses who will be called in support of the claim, including their qualifications.

(e) **SCREENING AND PRELIMINARY INVESTIGATION.**—The panel or division to which the claim is assigned shall promptly review each claim and answer. If in the course of its review the panel or division determines that particular evidence will be needed to decide the claim, the panel or division shall notify the claimant and each defendant, and provide the claimant and defendants an opportunity to provide the evidence at or before the hearing on the claim. The panel or division may, on its own motion, engage expert consultants or witnesses during review or at a hearing, and the testimony or reports of such consultants or witnesses shall be admitted into evidence.

(f) **DISCOVERY.**—The panel or division may permit discovery and motion practice prior to the hearing required by subsection (g) only as specifically provided by State law for malpractice screening panels. The panel or division shall not permit discovery that, in relation to the size and nature of the claim, will burden unduly the claimant, the defendant, or any third party, or that will delay unduly the resolution of the claim.

(g) **HEARING.**—The panel or division shall, within one hundred and eighty days after the date on which a claim is filed, conduct a hearing on the claim. One continuance, not to exceed ninety days, may be granted to any party upon a showing that extraordinary circumstances which are not within that party's control warrant delay in the interests of justice. At the hearing, each party may be represented by counsel. The claimant shall be required to present all evidence supporting the claim, and each defendant shall be required to present all evidence rebutting or defending against that claim. Notwithstanding the rules of evidence applicable in the State's courts, the panel or division may hear and consider any relevant and material evidence, except that a State may establish and publish rules or procedures preventing the introduction of irrelevant, unprobative, or unduly repetitious evidence. A State may establish and publish such procedures for the conduct of panel

hearings as comport with the due process of law and with this section. A panel or division shall be authorized to compel the appearance of witnesses and the production of documents or other evidence.

(h) **PANEL OR DIVISION DECISION.**—After hearing all the evidence presented by the claimant and each defendant, the panel or division shall decide whether or not the malpractice was proved, and, if the malpractice was proved, whether the injury resulted from proved malpractice of one or more of the defendants. Within thirty days after the conclusion of the hearing of the evidence (unless a delay is necessary due to extraordinary circumstances), the panel or division shall transmit a written decision to the claimant and each of the defendants. The decision shall include a statement of the findings of fact and conclusions of law on which the panel or division based its decision and determined any award under subsection (i).

(i) **AWARDS OF DAMAGES.**—If a panel or division finds compensable injury resulting from health care malpractice by one or more defendants, the panel or division shall determine the amount of damages owed under State law to the claimant by each liable defendant, and shall enter an order against each such defendant to pay an award in that amount. An award by a panel or division is due upon entry of the award, and a State may provide for judicial enforcement of an award that is not paid promptly. In court proceedings to enforce an order to pay an award, the only issue shall be whether payment has been made according to the terms of the order. The decision of a panel or division shall not be subject to review, except to review an allegation of fraud or of unlawful conflict of interest by a member of the panel or division that made the decision. A State shall provide that, notwithstanding any other provision of law but subject to any State law limiting the amount of recoverable damages—

(1) a panel or division may provide that any award for continuing or prospective damages of \$100,000 or more be made in the form of suitable annual or other periodic payments as actual damages are incurred;

(2) a panel or division may provide that any award for damages of \$200,000 or more may be satisfied by establishing a trust fund or purchasing an annuity for the life of each person to whom the award is made or during the continuance of the compensable injury or disability, with a reversionary interest in the persons liable for the award; and

(3) the timing and amounts of periodic payments or of payments from a trust fund or annuity shall be such as to avoid hardship to, and assure full compensation of, each person to whom the award is made, as determined by the panel or division.

(j) **TRIAL DE NOVO IN STATE COURT.**—(1) Each State shall provide that any party to a claim decided by a panel or division shall be entitled to trial de novo on the claim before a State court of appropriate jurisdiction on motion filed within sixty days after the party receives the panel's or division's decision under subsection (h). The decision of the panel or division and its written statement and order to pay an award shall be admissible as evidence in such trial on motion of any party to the panel or division hearing. Any right of trial by jury shall be preserved. If a trial de novo is held at the request of a party, that party may be liable for all costs of trial and for reasonable attorney's fees to opposing parties if, after

final judgment in the State court, that party has not substantially prevailed in the action.

(2) For purposes of paragraph (1), a party has substantially prevailed in a trial de novo if—

(A) the party was a defendant at the panel or division hearing and is found by the court not to be liable for damages, or to be liable for damages in an amount which is less than the amount of the defendant's liability (as established by the panel or division) by an amount which is equal to 20 per centum of the amount of such liability or \$6,000, whichever is greater; or

(B) the party was the claimant at the panel or division hearing, and the court awards damages to that claimant in an amount which exceeds the amount awarded to that claimant by the panel or division by an amount which is equal to 20 per centum of the amount awarded to the claimant by the panel or division or \$6,000, whichever is greater.

(k) **SETTLEMENT BEFORE DECISION OR AWARD.**—The parties to a claim filed with a panel or division may enter into a settlement agreement at any time prior to the date on which the panel or division transmits a decision under subsection (h) with respect to the claim. A written copy of the agreement shall be filed with the panel or division. Any such settlement shall not provide for attorney's fees in excess of the amount authorized under section 7. Upon receiving a copy of the agreement, the panel shall close its file on the claim and shall transmit the report with respect to the settlement agreement required under subsection (l).

(l) **REPORT OF FINDINGS OF MALPRACTICE OR NEGLIGENCE.**—(1) The State shall require that—

(A) if a panel, division, or court finds, in making a determination with respect to a claim, that one or more defendants has committed health care malpractice, or

(B) if a settlement agreement is filed with a panel or division under subsection (k),

the panel, division, or court shall, within thirty days after the panel, division, or court makes such finding or such settlement agreement is filed under subsection (k), transmit a report with respect to such finding or settlement agreement to the State insurance commissioner and the State licensing or certification board or professional conduct body, if any, with jurisdiction over the licensed or certified health care profession or industry of each defendant for which a finding of malpractice has been made or who is involved in such settlement agreement.

(2) The report required by paragraph (1) shall include—

(A) the written statement of the panel or division under subsection (h) with respect to the claim, or the verdict or opinion of the court with respect to the claim, as the case may be;

(B) any order of award of the panel, division, or court with respect to the claim; and

(C) a copy of any settlement agreement filed under subsection (k).

(3) The State insurance commissioner shall make each report received under paragraph (1) available for public inspection by any person, shall take such further action with respect to the report of malpractice as State law authorizes, and shall promptly notify each insurance company or association offering malpractice insurance for the licensed or certified profession or business within the State of—

(A) the panel's, division's, or court's finding of malpractice, including the name of each person found to have committed malpractice, the nature of the person's liability, and the amount of any award; and

(B) the terms of any settlement agreement entered into under subsection (k).

(4) The State shall provide that insurance companies or associations are authorized to adjust their rates for persons who are held liable by a panel, division, or court for malpractice, or who have entered into two or more settlement agreements under subsection (k) that require payments to claimants for malpractice within a three-year period prior to the date on which any such person applies for malpractice insurance.

(m) **FILING CLAIM TOLLS STATUTE OF LIMITATION.**—The State shall provide that a statute of limitation pertaining to a claim relating to malpractice is tolled from the date on which the claim is filed under subsection (d) until the date which is sixty days after the date on which the panel or division transmits a decision under subsection (h).

#### SEC. 6. AWARD OF ATTORNEYS' FEES IN MALPRACTICE ACTIONS.

(a) **LIMITATIONS ON FEES.**—Each State shall provide that in any action or claim filed under this Act in which the claimant receives an award of damages, the amount of payments to the claimant's attorney shall not exceed—

(1) one-third of the amount of an award of less than \$100,000;

(2) one-quarter of the amount of an award between \$100,000 and \$200,000;

(3) 20 per centum of the amount of an award between \$200,000 and \$300,000; or

(4) 15 per centum of the amount of an award in excess of \$300,000.

(b) **FEES PAYABLE FROM PERIODIC PAYMENTS.**—Each State shall provide that where a panel or division orders payment of an award of damages in accordance with the methods set forth in paragraph (1), (2), or (3) of section 5(i), payments of any contingent fee to the claimant's attorney shall be made out of the periodic payments therein provided for and shall in no instance be a larger fraction of such periodic payment than the proportion borne by the total fee payable under subsection (a) to the total amount of damages awarded.

(c) **MISCELLANEOUS.**—This section does not require that fees for malpractice claims be contingent fees, nor does it authorize the award of fees against a liable party except where authorized by section 5(j) or under State law.

(d) **PENALTIES.**—If an attorney in an action or claim under this Act accepts payment for services in such action or claim in an amount which exceeds the amount provided by this section, the attorney shall forfeit three times the amount of the excess, plus costs of recovery, to the State in any civil action for recovery brought by the State in any Federal district court within the State. The Federal district courts shall have original and exclusive jurisdiction of such actions for recovery.

#### SEC. 7. HEALTH CARE FACILITY RISK MANAGEMENT PROGRAMS.

(a) **DEVELOPMENT OF PROGRAM.**—Each State shall be encouraged to develop a program to require each licensed hospital, outpatient facility other than the office of an individual practitioner, and residential health care organization or facility within the State to employ a risk management program consistent with the provisions of this section. Each Federal health care institution in a State

shall comply with the State program approved by the Attorney General of the United States under section 8. A State health care facility risk management program shall be consistent with State law and shall meet the minimum requirements set forth in subsection (b).

(b) **MINIMUM REQUIREMENTS.**—(1) The State health care facility risk management program shall require that each licensed hospital or residential health care organization or facility adopt procedures for—

(A) identifying and reporting to a risk management committee or office approved by the State all known or suspected incidents of malpractice by that hospital, organization, or facility, by the staff of the hospital, organization, or facility, or by persons using facilities with the permission of the hospital, organization, or facility; and

(B) identifying the causes of such incidents and suspected incidents.

(2) Each risk management committee or office approved by the State shall prepare a case file on each incident of malpractice as soon as such incident is reported, and shall investigate the merits of any likely claim of malpractice while the evidence and the reports of witnesses with respect to such claim are readily available. The case files and reports of investigations shall be made available to the patient and to the hospital or residential health care organization or facility. The reports shall be reviewed by the hospital, organization, or facility to identify actions which can be taken to reduce the risk of further incidents of the same nature.

(c) **ADDITIONAL PROVISIONS.**—Two or more licensed hospitals or residential health care organizations or facilities may jointly establish or use the same risk management committee or office if such committee or office has been approved by the State. Risk management committees or offices approved by the State may exchange information concerning risk experience, prevention, and management, except that such committees or offices shall not be used—

(1) for the exchange of price information in a manner forbidden by the antitrust laws of the United States;

(2) to fix prices for health care or insurance services; or

(3) to divide markets in a manner forbidden by the antitrust laws of the United States.

#### SEC. 8. CERTIFICATION OF QUALIFYING PROGRAM.

(a) **CERTIFICATION REQUIRED.**—Within two years after the date of enactment of this Act, the Governor of each State shall certify to the Attorney General of the United States whether the State has adopted a State program which in the opinion of the Governor is in compliance with the provisions of this Act. The Governor shall attach to the certification copies of all relevant State laws, rules, procedures, and regulations which are a part of the State program.

(b) **EVALUATION OF CERTIFICATION.**—The Attorney General shall examine each certification within sixty days after its receipt, and shall approve the certification if the certification demonstrates that the State is in substantial compliance with this Act. If the Attorney General determines that a State program is not substantially in compliance with this Act, the Attorney General shall, within fifteen days after making such determination, notify the Governor of such determination and shall recommend revisions which would bring the State program into compliance with the provisions of this Act.

(c) **TERMINATION OF ALLOCATION.**—If, within thirty months after the date of enactment of this Act, a State has not submitted a certification described in subsection (a) to the Attorney General, or if a State has submitted a certification described in such subsection to the Attorney General and such certification has not been approved by the Attorney General, the Attorney General shall notify the Governor of the State that the State's allocation under section 9(d) shall be terminated unless, within six months after the Attorney General transmits such notice, the State submits a certification described in subsection (a) to the Attorney General and the Attorney General approves such certification.

(d) **ACTION IN THE EVENT OF NONCERTIFICATION.**—If, within four years after the date of enactment of this Act, a State program of one or more States has not been approved under subsection (b), the Attorney General shall transmit a report with respect to such State programs to the Speaker of the House of Representatives, the President pro tempore of the Senate, and the President of the United States. The report shall include the recommendations of the Attorney General with respect to such State programs.

(e) **ACTION IN THE EVENT OF NONCOMPLIANCE.**—If the Attorney General determines at any time that a State program which has been approved under subsection (b) no longer complies with this Act, the Attorney General shall notify the Governor of the State of such determination, and the State shall repay to the United States any amount paid to the State under section 9(a) which has not been used by the State prior to the date on which the State receives notice of the Attorney General's determination. The State shall make such repayment within sixty days after receiving such notice.

#### SEC. 9. PAYMENTS TO STATES WITH COMPLYING PROGRAMS.

(a) **PAYMENTS BY ATTORNEY GENERAL.**—Within ninety days after approving a certification of a State under section 8(b), the Attorney General shall pay to that State the amount specified in subsection (d). Payment shall be made in a single installment to the State officer, agency, or organization authorized by State law to receive such payment.

(b) **USE OF PAYMENTS.**—Payments made under subsection (a) shall be used by the State to support and pay the costs of establishing and operating one or more malpractice screening panels under section 5 and to reimburse the State for the costs of developing and submitting the State program. Any amount of a payment made under subsection (a) which is not used in accordance with the preceding sentence may be used by the State to—

(1) identify the causes of health care malpractice incidents within the State and develop means and programs to prevent or reduce the severity and frequency of avoidable injuries to patients;

(2) review the structure, authority, and operations of approved State malpractice claims plans, risk-management committees, professional standards review organizations, professional licensing bodies, and professional conduct bodies for licensed or certified health care professionals and industries, and develop or implement needed improvements in such plans, committees, organizations, and bodies; and

(3) develop or offer courses or materials relating to—

(A) recognized standards for the safe and approved practice of any licensed or certified health care profession or industry within the State; and

(B) means by which the risks of avoidable injury to patients may be reduced and the standards of health care practice improved.

(c) **REPORT OF GOVERNOR.**—Within one year after the date on which a State receives a payment under subsection (a), the Governor of the State shall report to the Attorney General on the State's use of such payment. Upon request, the Governor of any such State shall provide the Attorney General with the description of any State activity carried out under subsection (b).

(d) **AMOUNT OF PAYMENTS.**—The Attorney General shall allocate among the States the amounts appropriated to make payments under this section as follows:

(1) The Attorney General shall allocate \$250,000 from the amounts appropriated to carry out this Act for each fiscal year to each State, except that if—

(A) the amount appropriated for any fiscal year to carry out this Act is less than \$12,500,000, the Attorney General shall proportionately reduce the amount allocated to each State; and

(B) if the amount appropriated for any fiscal year to carry out this Act exceeds \$12,500,000, the Attorney General shall allocate to each State, from the amount which equals the difference between the amount appropriated for such fiscal year to carry out this Act and \$12,500,000, an amount which bears the same ratio to the total amount of such difference as the population of the State bears to the population of all States.

(2) If, under section 8(c), a State's allocation under this Act is terminated, or if, under section 8(e), a State is required to repay to the United States any amount, the amount of such terminated allocation or repayment shall be reallocated by the Attorney General in accordance with paragraph (3).

(3) Except as provided in paragraph (4), amounts which are subject to reallocation pursuant to paragraph (2) shall be reallocated and paid to States which the Attorney General determines, in the Attorney General's discretion, are most in need of additional funds to support the State program. In reallocating amounts under this paragraph, the Attorney General shall consider all relevant circumstances, including—

(A) a high incidence of malpractice claims within a State;

(B) unique or unusual types of claims requiring exceptional expense to a State;

(C) long distances or other geographical barriers within a State which increase travel and administrative costs for the State program;

(D) particular claims in a State involving unusual problems of proof or presenting new issues of scientific fact or professional standards;

(E) particular claims or patterns of claims in a State involving similar or related injuries to a large number of persons similarly situated; and

(F) special litigation or management needs which occur in a State in order to comply with existing State law or State constitutional requirements.

(4) Amounts subject to reallocation pursuant to paragraph (2) may also be allocated and paid by the Attorney General to any State for the purpose of assisting in the development or implementation of a modified State program, or for studies of the oper-

ations of the State program. The results of any such study shall be reported to the Attorney General.

#### SEC. 10. JUDICIAL REVIEW.

- Any decision by the Attorney General—
- (1) that a State program is not in compliance with this Act,
  - (2) to terminate the allocation of a State under this Act,
  - (3) to require a State to repay funds provided under this Act, or
  - (4) to reallocate funds under this Act,
- shall be final and not subject to judicial review.

#### SEC. 11. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Department of Justice \$25,000,000 for fiscal year 1988 and each succeeding fiscal year to carry out the purposes of this Act. Funds appropriated to carry out this Act for a fiscal year shall remain available until expended.

#### MEDICAL MALPRACTICE LIABILITY INSURANCE FOR EMERGENCY PHYSICIANS: NEED FOR REFORM

##### A POSITION PAPER FOR THE CONGRESSIONAL RECORD

(By Spectrum Emergency Care, Inc., a Subsidiary of ARA Services, Inc., Aug. 28, 1986)

During the fifteen years that Spectrum Emergency Care has operated as a contract management corporation in the field of emergency medicine, we have seen many great advances in emergency care, including the growth of emergency medicine as a specialty. We have also seen develop a set of growing major problems: increasing numbers of lawsuits filed and costs per claim, soaring malpractice liability insurance costs, and the lack of adequate insurance available to physicians. These have combined to change deleteriously the practice of emergency care, have unnecessarily increased the cost to patients, and have discouraged physicians from practicing.

Spectrum Emergency Care, Inc., is a St. Louis-based company that provides physician staffing and management services for over 350 hospital emergency departments across the country. Spectrum has been in operation since 1971 and has offices in San Diego, Boston, Dallas, Chicago, Colorado Springs, Memphis, Tampa, Duluth, Silver Spring, and Columbus, Ohio. Spectrum became a subsidiary of ARA Services, Inc., in 1979. ARA Services is an international, diversified service management company headquartered in Philadelphia which provides basic services for industry, institutions, and consumers, including food and refreshments, health care, child care, uniform rental, maintenance, distribution of publications, and transportation.

We believe there is a liability crisis in all of health care, but over the last three years the impact upon the field of emergency medicine has been particularly severe. Costs per patient visit have skyrocketed, often going from \$1 per visit for *occurrence* insurance to in excess of \$6 per visit for *claims made* insurance (the latter form traditionally being a less expensive and less satisfactory form of malpractice liability insurance). Availability has also become a serious problem, with very few insurance companies remaining in the market. In fact, in some states, such as Illinois and Colorado, there is really only one source from which to purchase insurance.

Joe Gatewood, M.D., F.A.C.E.P., Spectrum's Medical Director, is particularly con-

cerned that the amount of awards for non-economic damages are not only escalating uncontrollably, but often bear no relation to the injuries involved. Rather, they often have more to do with who has the "deep pocket" and with an attempt to use the tort system to cure social problems. He agrees with President Reagan's concern that the laws have become "twisted and abused" to produce "outcomes that impede our economic life."

We strongly urge the Congress to pass federal tort reform legislation modeled along the lines of the AMA proposal. We are concerned that if tort reform is not successful, the insurance market will dramatically worsen, resulting in fewer physicians willing to practice emergency care and with those remaining forced to practice an increasingly expensive, defensive art.

Tort reform is particularly needed to convince the major reinsurance market in London to continue writing catastrophic coverage policies in the United States. Over the last 18 months, our discussions with London underwriters and brokers have convinced us of their concerns, as have the reactions they have taken: changing to a claims made form of insurance for almost all of their policies and increasing costs at an occurrence based equivalent of approximately 100% annually. They are concerned about the "lottery" atmosphere which has crept into the American tort system and jury awards. We believe that without changes in the law and attitudes in this country, the major London underwriters, Lloyds and Weavers, will gradually withdraw from the U.S. market.

The tort reform legislation we support would include:

1. *Elimination of "joint and several" liability:* Misuse of this principle of law has possibly been the single largest source of injustice in this country's system of tort law. We applaud the results of the California referendum, in which voters (by the astronomical ratio of 62 to 38 percent) put limits on the "deep pockets" theory. The impact of Proposition 51 in California will be to lessen the ability of plaintiffs to collect outrageous damages from one defendant who has a very low level of liability but adequate insurance simply because another defendant in the same suit has no insurance to pay for the high level of negligence of which he is found guilty. This often results in the twisted outcome President Reagan has noted.

2. *Caps on noneconomic damages:* Kirk Johnson of the AMA is correct when he says this will substantially decrease the cost of professional liability insurance. This is supported by Patricia Danzon, Ph.D., of the Wharton School, who believes that malpractice claims could be reduced by as much as 20-25% with damage caps.

3. *Better defined boundaries for compensation for economic damages:* These should be tied to factors such as a person's age, life expectancy, severity of injury, and a realistic assessment of loss of earnings. Also, damages should be discounted for collateral sources of payment.

4. *Discourage frivolous lawsuits and limit fees earned by lawyers on a contingency basis:* We believe that the current system of contingency fees has helped fuel the "lottery mentality" and has resulted in suits which should never have been filed. Not only has this helped clog the legal system, but has dramatically increased defense costs. In our company alone, cost of defending claims has tripled from 1979 to 1983 in spite of the fact that 62% of our claims are closed with no indemnity payment.

In summary, we are pleased to note that already lawmakers in 32 states have enacted bills in an effort to lessen this crisis. However, local judicial interpretation of these laws may override the expressed will of the people and their elected legislators. Therefore, federal legislation is required to speed tort reform and to ensure consistency among states. Solving this crisis in short order is essential because it impacts worsens daily.

To those, such as the Association of Trial Lawyers, who say there is no medical malpractice crisis in America, we suggest they:

Ask the emergency department physician in Cook County who will pay \$22,012 for a first year's claims made premium (and the tail, to cover future years' exposure, will be an additional \$31,180). This physician averages approximately \$90,000 in gross income.

Ask the expectant mother in New York who finds that her trusted obstetrician no longer delivers babies because he cannot get insurance.

Ask the emergency department physician who now must report on hospital staff applications the one, two, or more settlements made on his behalf, based on cases in which there was no negligence but in which the insurance companies were forced to settle to avoid the cost of expensive legal defense.

Ask the patient who no longer finds his family physician (or the emergency department physician) as trusting and sympathetic because this doctor is forced to view each patient as a potential lawsuit.

We strongly urge this Congress to pass a much needed tort reform bill, resulting in a health care system which operates more fairly, more efficiently, and more humanely for everyone. ●

By Mr. INOUE (for himself and Mr. MATSUNAGA):

S. 156. A bill to amend chapter 89 of title 5, United States Code, to provide authority for the direct payment or reimbursement to qualified clinical social workers to clarify certain provisions of such chapter with respect to coordination with State and local law, and for other purposes; to the Committee on Governmental Affairs.

#### AUTHORITY TO PAY OR REIMBURSE CERTAIN ADDITIONAL HEALTH CARE PROFESSIONALS

● Mr. INOUE. Mr. President, today Senator MATSUNAGA and I are introducing legislation to clarify the conditions under which the services of clinical social workers will be made available to our Nation's Federal employees and their families.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 156

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### AUTHORITY TO PAY OR REIMBURSE CERTAIN ADDITIONAL HEALTH CARE PROFESSIONALS

SECTION 1. Section 8902(k) of title 5, United States Code, is amended—

(1) in paragraph (1), by inserting "(except if, or to the extent that, any such supervision or referral is required under State or

local law, or regulations issued thereunder, as described in subsection (m)(1)(B))" after "practitioner";

(2) by redesignating paragraphs (2) and (3) as paragraphs (3) and (5), respectively;

(3) by inserting after paragraph (1) the following:

"(2)(A) When a contract under this chapter requires payment or reimbursement for services which may be performed by a qualified clinical social worker, an employee, annuitant, family member, or former spouse covered by the contract shall be—

"(i) free to select, and shall have direct access to, such a qualified clinical social worker without supervision or referral by another health practitioner. The provisions of this subsection shall not apply to group practice prepayment plans; and

"(ii) entitled under the contract to have payment or reimbursement made to him or on his behalf for the services performed.";

(4) in paragraph (3) (as so redesignated by paragraph (2)) by striking "As" and inserting "Subject to subsection (m)(1)(B), as"

(5) by inserting after paragraph (3) (as so redesignated by paragraph (2)) the following:

"(4) When a contract under this chapter requires payment or reimbursement for services of a health practitioner covered by paragraph (2) or (3), the terms and conditions governing such payments or reimbursements shall (except to the extent otherwise permitted under paragraph (3)(A)) be the same as the terms and conditions applicable under contracts under this chapter requiring payments or reimbursements for services of health practitioners covered by paragraph (1)."; and

(6) by amending paragraph (5) (as so redesignated by paragraph (2)) to read as follows:

"(5) The provisions of this subsection shall not apply to prepayment plans described in section 8903(4) of this title."

#### EFFECTIVE DATE

SEC. 3. The amendments made by this Act shall be effective with respect to contracts entered into or renewed for calendar years beginning after the date of the enactment of this Act.●

By Mr. INOUE (for himself and Mr. MATSUNAGA):

S. 157. A bill to amend the Native American Programs Act of 1974 to authorize the provision of financial assistance to agencies serving native American Pacific islanders, including American Samoan natives; to the Select Committee on Indian Affairs.

#### FINANCIAL ASSISTANCE TO NATIVE AMERICAN PACIFIC ISLANDERS

● Mr. INOUE. Mr. President, today Senator MATSUNAGA and I are introducing legislation to amend the Native American Programs Act of 1974 to authorize the provisions of financial assistance to agencies serving native American Pacific islanders, including American Samoans.

American Samoans are like any other native American people: they have unique problems in the areas of health, education, employment, and other social areas. For example, according to the U.S. Census Bureau, the percentage of American Samoans living in poverty in the United States is 27.5 percent, compared to 9.6 per-

cent of the total U.S. population. The incidence of extreme poverty for Samoans is 140-percent higher than for the country as a whole.

In California, 21 percent of Samoan families are below the poverty level, compared with 8.7 percent of all California families. In my home State of Hawaii, 37.5 percent of Samoan families are below the poverty level, compared with 7.8 percent of all families.

The unemployment of Samoans in the United States is much higher than the general population. The 1980 census indicates that 9.7 percent of all Samoans in the labor force are unemployed. In California, 10.1 percent of all Samoans in the labor force are unemployed, a rate of 150 percent of the overall State unemployment rate of 6.5 percent. In Hawaii, the unemployment rate of Samoans is 10.2 percent, more than double the rate of the State as a whole.

In Public Law 97-300, the Job Training Partnership Act, the U.S. Congress expressed concern about the unique and special problems facing the American Samoans in the United States. It is now time to fulfill our Federal responsibility to these needy people. Including American Samoans in the Native American Programs Act will upgrade the standard way of living for these people, and it will provide necessary financial resources for us to address the problems the Samoan people are facing. These native American people represent a true Federal responsibility.

Mr. President, I ask unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 157

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a)(1) section 802 of the Native American Programs Act of 1974 is amended by inserting "*

*Native American Pacific Islanders (including American Samoan Natives)," after "Hawaiian Natives."*

(2) Section 803 of such Act is amended by inserting "Native American Pacific Islanders (including American Samoan Natives)," after "Hawaiian Natives,".

(3) Section 807 of such Act is amended by inserting "or Territory" after "State" each place it appears.

(b) The amendments made by subsection (a) shall apply to fiscal years beginning after the date of enactment of this Act.●

By Mr. INOUE:

S. 158. A bill to authorize the sale of certain fish in the State of Hawaii; to the Committee on Commerce, Science, and Transportation.

#### AUTHORIZATION OF CERTAIN FISH SALES IN HAWAII

● Mr. INOUE. Mr. President, I am reintroducing legislation today to help the troubled tuna cannery in Hawaii obtain a sufficient volume of competi-

tively priced tuna to run a viable business.

Under existing Federal law, the Nicholson Act (46 U.S.C. 251) prohibits its foreign-flag vessels from landing fish in the United States if these fish are caught by foreign-flag vessels on the high seas. The only exception is for fish landed in the United States pursuant to a treaty or convention to which the United States is a party. Unfortunately, such a treaty is not in effect with the relevant Asian countries, and the Hawaiian tuna packers have been in dire straits due to a lack of resource and lack of business.

Just over 2 years ago, the Hawaiian cannery employed 420 people, with a payroll of over \$5 million. It purchased over \$2 million worth of fish annually from Hawaiian fishermen and contributed greatly to the State's economy, paying taxes and purchasing equipment. Today the cannery sits dormant, shutdown when Castle & Cooke quit its seafood division, best known as Bumble Bee, in late 1984. After 49 years of being a vital part of the Hawaiian fishing industry, buying surplus catch from Hawaii's fishermen and producing a marketable product, the cannery became uneconomical and had to be closed.

All hope is not lost for the tuna cannery, however, as new efforts are being made to reopen and revitalize the facility. There are plans to colocate the tuna canning lines and ice plant with other elements of the Hawaiian fishing industry, such as the daily fish auction and local fishmarkets. Such a complex could serve as a nexus for the local fishing industry and attract other merchants and seafood establishments. This would provide a big boost to the development of Hawaii's fishing industry.

To get such an operation on its fee, it would be invaluable to be able to supplement local sources of tuna with the significant catch of Japanese vessels. This would provide the volume and consistency of tuna resource necessary to sustain such a complex. Therefore I am reintroducing this legislation, which I first introduced in the 98th Congress, to achieve this goal. It is my hope that my colleagues will recognize and appreciate the unfortunate circumstances which have befallen the Hawaiian tuna industry and will lend their support to this effort to turn the tide on this decline.

I ask unanimous consent that the full text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 158

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That, notwithstanding the provisions of section 4311*

of the Revised Statutes of the United States, as amended (46 U.S.C. 251) Japanese-flag vessels shall be permitted to land tuna in the State of Hawaii.●

By Mr. INOUE.

S. 159. A bill to amend title 10, United States Code, to authorize the appointment of health care professionals to the positions of the Surgeon General of the Army, the Surgeon General of the Navy, and the Surgeon General of the Air Force; to the Committee on Armed Services.

#### SURGEON GENERALS OF THE ARMED FORCES

● Mr. INOUE. Mr. President, today I am introducing legislation which would provide that various positions within the Department of Defense Health Care Program would be opened up for a range of health care providers, depending upon their administrative and clinical skills.

For example, it is my understanding that the position of Surgeon General of the U.S. Army is not limited to physicians. Instead, such an appointment may be made from officers who have shown by extensive duty in the branch concerned, or by similar duty, that they are qualified for the appointment. The Department of the Army has informed me that the phrase "branch concerned" refers to the six corps of the Army Medical Department and, thus, for example, presumably a military dentist might be appointed to that position.

The legislation which I am introducing today would ensure that each of the Surgeons General and the Assistant Secretary of Defense for Health Affairs shall, in fact, become eligible for interdisciplinary appointments.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 159

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SURGEON GENERAL OF THE ARMY.

Section 3036 of title 10, United States Code, is amended—

(1) in subsection (b), by inserting before the period at the end of the third sentence the following: "and shall be appointed as prescribed in subsection (f)"; and

(2) by adding at the end the following new subsection (f):

"(f) The President shall appoint the Surgeon General from among commissioned officers in any corps of the Army Medical Department who are educationally and professionally qualified to furnish health care to other persons, including doctors of medicine, dentistry, and osteopathy, nurses, and clinical psychologists."

#### SEC. 2. SURGEON GENERAL OF THE NAVY.

Section 5137 of title 10, United States Code, is amended—

(1) in the first sentence of subsection (a), by striking out "in the Medical Corps" and inserting in lieu thereof "who are educationally and professionally qualified to furnish

health care to other persons, including doctors of medicine, dentistry, and osteopathy, nurses, and clinical psychologists"; and

(2) in subsection (b), by striking out "in the Medical Corps" and inserting in lieu thereof "who is qualified to be the Chief of the Bureau of Medicine and Surgery".

#### SEC. 3. SURGEON GENERAL OF THE AIR FORCE.

The first sentence of section 8036 of title 10, United States Code, is amended by striking out "designated as medical officers under section 8067(a) of this title" and inserting in lieu thereof "educationally and professionally qualified to furnish health care to other persons, including doctors of medicine, dentistry, and osteopathy, nurses, and clinical psychologists".●

By Mr. INOUE:

S. 160. A bill to amend titles 10 and 37, United States Code, to provide for constructive service credit for specialty nurses and to provide for incentive pay for specialty nurses assigned to remote locations within the Department of Defense; to the Committee on Armed Services.

#### SOCIAL SECURITY ACT

● Mr. INOUE. Mr. President, today I am introducing legislation which would provide that the constructive credit provisions of the Federal Code affecting Department of Defense nurses will be appropriately utilized, given the nature of their clinical training.

The legislation which I am introducing today would also provide special incentive pay for those nurse anesthetists who have been assigned to remote locations within the Department of Defense.

Mr. President, I am confident that these provisions will be in the best interest of our military personnel and, accordingly, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 160

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. CONSTRUCTIVE SERVICE CREDIT FOR SPECIALTY NURSING.

Section 533(b)(1) of title 10, United States Code, is amended by adding at the end the following new subparagraph (G):

"(G) Six months for each year of nursing experience in critical care, surgery, obstetrics, anesthesia, or any other nursing specialty, if appointed in a commissioned grade in an armed force for assignment as a nurse and if the Secretary concerned determines that the number of nurses in that armed force who are qualified in such specialty is critically below the number needed. Advanced training is not required for credit under this clause."

#### SEC. 2. INCENTIVE PAY FOR SPECIALTY NURSES ASSIGNED TO REMOTE LOCATIONS.

(a) IN GENERAL.—Chapter 5 of title 37, United States Code, is amended by adding after section 302b the following new section:

#### "§ 302c. SPECIAL PAY: SPECIALTY NURSES ASSIGNED TO REMOTE LOCATIONS

"An officer on active duty in the Army, Navy, or Air Force who—

"(1) receives service credit for experience in a nursing specialty under section 533(b)(1)(G) of title 10; and

"(2) is assigned to duty at a place designated as a remote location by the Secretary concerned, is entitled to special pay at the rate of \$----- per month."

(b) CONFORMING AMENDMENTS.—(1) Sections 303a and 306(e) of title 37, United States Code, are amended by inserting "302c," after 302b each place it appears.

(2) The table of sections at the beginning of chapter 5 of such title is amended by inserting after the item relating to section 302b the following new item:

"302c. Special pay: specialty nurses assigned to remote locations."●

By Mr. INOUE:

S. 161. A bill to provide for the review of certain authority in certificates issued under the Federal Aviation Act of 1958, and for other purposes; to the Committee on Commerce, Science, and Transportation.

#### FEDERAL AVIATION ACT

● Mr. INOUE. Mr. President, I am introducing legislation today to address an outdated and counterproductive aspect of national aviation policy which is creating inequities and inefficiencies for the airline industry.

Since the advent of airline deregulation and the subsequent sunset of the Civil Aeronautics Board [CAB], many burdensome regulations and bureaucracies have been eliminated. One that has not been eliminated, however, is the system of awarding international airline route certificates. Under section 401 of the Federal Aviation Act, the authority exists for the CAB, and therefore its successor agency the Department of Transportation, to award some international route certificates on a periodic basis. On certain closed routes, the CAB has used this authority to award temporary certificates to some airlines while others held permanent certificates for the same route. This procedure has been applied inconsistently from administration to administration and has caused inequities while distorting market competition.

The examples of inequity created by the current system are quite obvious. For instance, on routes to Italy, Transworld Airlines [TWA] holds permanent certificates while Pan American World Airways has only temporary authority. On routes to Great Britain, however, TWA holds temporary certificates while Pan American enjoys permanent status. The reason for this and other discrepancies is merely that different CAB administrations have applied section 401 in different ways. The result is distorted competition on these important routes.

Under the current arrangements of section 401, an airline holding a tem-

porary certificate must face costly route challenges every 3 to 7 years regardless of its service record. These challenges require costly defenses by the incumbent carrier and very rarely result in the transfer of routes. Indeed, to my knowledge there is only one significant example, that being the CAB's removal of Pan American from its Scandinavian route in 1978. In that case, however, the airline was preparing to drop the route anyway, so the CAB action was merely a formality. On the other hand, renewal cases are almost always expensive. One recent certificate renewal cost an incumbent airline \$500,000; an expense that was undoubtedly passed on to the consumer. In addition, the length of these temporary certificates is too short for an airline to recoup its investment in a route and thus makes it difficult for that airline to make the policy decisions necessary to get established on that route.

The bottom line on current international certificates policy is that it is an unnecessary burden. The deregulated airline industry is already moved by market pressures which induce airlines to attract customers with superior fares and services. The threat of periodic renewals does little, therefore, but marginally enhance existing market pressures. It is important to note, also, that many of the international routes involved are heavily regulated with fixed fares and limited numbers of flights. In such an environment, a carrier has minimal flexibility and the consumers' choices are by nature limited. Thus to take out an incumbent carrier and put in another who will be subject to the same stringent regulations does little to enhance the consumers' position. Indeed, it would tend to hurt the consumer by replacing an established carrier with one whose continued service of the route is less certain.

To address the situation I have described here, I am introducing legislation today which would transform all current "temporary" route certificates to an indefinite status. To assure that this will not in any way be anticompetitive, the legislation also strengthens and defines the procedure by which the Secretary of Transportation can replace a carrier which is providing relatively inferior service on a route. Thus if the incumbent airline is abusing its route privileges and/or another airline proves it could provide better service on the route, the authority would exist for the Secretary to replace the incumbent carrier. This could be done by application of another carrier or by motion of the Secretary. This is in addition to existing authority established in the Federal Aviation Act allowing the Secretary of Transportation to review carrier performance and replace negligent carriers.

This legislation will in no way effect the State Department's ongoing negotiations to increase international route authority for U.S. carriers. These negotiations have historically been the means by which domestic carriers have been able to enter new routes. Petitioning to replace an incumbent carrier on a route is only resorted to when these negotiations are delayed or proven fruitless. In the majority of cases, however, where it is proven that an additional carrier can service the route effectively, the State Department has been successful in securing that route authority. A recent example of this is People Express Airlines' entry into the Newark to London market as a result of U.S. Government intervention.

All of these arguments make a strong case, I feel, for the swift passage of this legislation. During the last Congress the Commerce Committee held a very successful hearing on this legislation, with the chairman and ranking member of the Aviation Subcommittee expressing their support for the bill. Unfortunately, concerns relating to a very separate issue—the policy of buying and selling of airport slots—were raised last year, leading to some confusion over the certificates issue. As a result no action was taken on this legislation before adjournment. I would like to briefly address this issue at this point so that the same confusion does not reappear this year.

The Department of Transportation released a proposal last year to initiate a buy/sell policy for takeoff and landing slots at high-density airports such as Washington National, O'Hara, and LaGuardia. There were major problems with this proposal and the Commerce Committee took action to delay its implementation. The fact that the buy/sell issue has superficial parallels to the certificates situation created some concern, however a closer examination of the two issues shows the distinct differences between them.

First of all, there is currently a system of allocating slots at high-density airports which has proven effective. With international route certificates, the current system does not work. Indeed the system has never removed an incumbent from a route it was serving. Second, the buy/sell policy of allocating slots would provide a new windfall for the airlines currently holding slots at high-density airports by giving them what has heretofore been a public property. My certificates bill, however, does not give away anything as carriers could still get bumped from the routes they serve at any time. It would also not provide a windfall, but rather would eliminate an unnecessary financial burden. Finally, there is only a finite number of slots at high-density airports and thus airlines without slots would be com-

pletely cut off from this resource. Conversely, new international routes are often negotiated with other nations and existing routes can be transferred to new airlines by the authority of the DOT. For these and other reasons, I feel it is clear that the certificates issue should not be confused with the airport slots issue which should, and will, be addressed separately.

In closing I would like to stress this legislation's importance in streamlining the postderegulation aviation environment. By correcting inefficiencies and inequities in the current system, this bill will allow U.S. airlines to better compete with foreign carriers, none of which are subject to temporary route renewals. This bill will also clearly and strongly define the Secretary of Transportation's authority to replace carriers on routes they are serving inadequately. I believe that this is better aviation policy than forcing airlines who have served a route responsibly and effectively for years to jump through hoops which almost never result in improved service but which always involve costly paperwork and red tape cutting.

I ask unanimous consent that this bill in its entirety be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 161

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 401(d) of the Federal Aviation Act of 1958 (49 App. U.S.C. 1371(d)) is amended by adding at the end thereof the following:*

"(10)(A) On and after the date of enactment of this paragraph, a termination date in any certificate to engage in foreign air transportation which was issued under this section and is in effect on such date of enactment shall have no effect.

"(B) The Secretary of Transportation may, upon application or on the Secretary's own motion, review the authority to provide foreign air transportation between a particular point or points in any certificates to which subparagraph (A) of this paragraph applies. The Secretary may suspend such authority, and grant authority to provide such foreign air transportation to a qualified applicant for such authority, if the Secretary finds, after notice and an opportunity for a hearing on the record, that the applicant has demonstrated that it can and will provide a substantially improved combination of service and fares or rates in the market or markets, and if the Secretary finds that—

"(i) restrictions arising from the provisions of a bilateral air transport agreement or other agreement or understanding with a foreign country, or otherwise imposed by a foreign country, preclude or make it impracticable for the Secretary to authorize an additional carrier in a particular foreign air transportation market or markets; and

"(ii) suspension and grant to the applicant of such authority would otherwise be con-

sistent with the public convenience and necessity.

"(C) The Secretary may dismiss any application for suspension and grant of authority under subparagraph (B) of this paragraph if the Secretary is not satisfied from the materials submitted with the application that—

"(i) the applicant is qualified;

"(ii) it is probable that the applicant could and would provide substantially improved air service in a restricted market; or

"(iii) proceeding with consideration of the application would otherwise be in the public interest.

"(D) The authority of the Secretary under subparagraphs (B) and (C) of this paragraph shall be in addition to, and shall in no way limit, the Secretary's existing authority under paragraph (8) of this subsection or under subsection (d) of this section." ●

#### Mr. INOUE:

S. 162. A bill to amend title 37, United States Code, to provide for special pay for psychologists in the commissioned corps of the Public Health Service; to the Committee on Governmental Affairs.

#### SPECIAL PAY FOR PSYCHOLOGISTS

● Mr. INOUE. Mr. President, I am introducing legislation today to amend the U.S. Public Health Service Act to provide those psychologists who are in the Public Health Service Regular or Reserve Corps with the same board-certification/specialty designation pay bonus as their physician colleagues presently receive.

It is my understanding that there are approximately 24 psychologists in the U.S. Public Health Service and, further, that 2 of these individuals have received their board certification from the American Board of Professional Psychology.

In my judgment, it would be most appropriate for the Federal Government to encourage excellence within the ranks of those who provide care to Federal beneficiaries. Further, from a public policy frame of reference, it is important that each of the disciplines be treated in a comparable manner.

Mr. President, I request unanimous consent that a letter I received from Dr. Robert Windom, Assistant Secretary for Health, U.S. Department of Health and Human Services, describing the extent to which our Nation's physicians currently receive this pay bonus, be printed in the RECORD along with the text of my bill.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 162

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) chapter 5 of title 37, United States Code, is amended by inserting after section 302b the following new section:*

"§ 302c. Special pay: psychologists in the Public Health Service Corp

"(a) A member who is—

"(1) an officer in the Regular or Reserve Corps of the Public Health Service and is designated as a psychologist; and

"(2) has been awarded a diploma as a Diplomate in Psychology by the American Board of Professional Psychology,

is entitled to special pay, as provided in subsection (b).

"(b) The rate of special pay to which an officer is entitled pursuant to subsection (a) shall be—

"(1) \$2,000 per year, if the officer has less than 10 years of creditable service;

"(2) \$2,500 per year, if the officer has at least 10 but less than 12 years of creditable service;

"(3) \$3,000 per year, if the officer has at least 12 but less than 18 years of creditable service;

"(4) \$4,000 per year, if the officer has at least 14 but less than 18 years of creditable service; or

"(5) \$5,000 per year, if the officer has 18 or more years of creditable service."

"(b)(1) Section 303a of title 37, United States Code, is amended by inserting "302c," after "302b," each place it appears.

"(2) The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 302b the following new item:

"302c. Special pay: psychologists in the Public Health Service Corps."

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1987 or on the date of the enactment of this Act, whichever is later, and shall apply with respect to pay periods beginning on or after that effective date.

#### DEPARTMENT OF HEALTH AND

#### HUMAN SERVICES,

#### PUBLIC HEALTH SERVICE,

Washington DC, August 12, 1986.

The Hon. DANIEL K. INOUE,

U.S. Senate,

Washington, DC.

DEAR SENATOR INOUE: This is in response to your letter of July 22 requesting information about Board Certified Pay (BCP) paid to medical officers of the Commissioned Corps of the Public Health Service (PHS).

Pursuant to 42 U.S.C. 210(a)(2) commissioned medical and dental officers on active duty in the PHS Commissioned Corps are authorized special pay in the same amounts as, and under the same terms and conditions which apply to, special pay paid to commissioned medical and dental officers of the Armed Forces under chapter 5 of title 37, United States Code. Medical officers of the Armed Forces are authorized BCP pursuant to 37 U.S.C. 302(a)(5). The amount of BCP ranges from \$2,000 per year to \$5,000 per year, depending on the number of years of creditable service of the officer concerned.

Our records show that during Fiscal Year 1983, 1,182 out of 2,259 medical officers were paid BCP; during Fiscal Year 1984, 1,121 out of 2,127 medical officers were paid BCP; during Fiscal Year 1985, 1,060 out of 1,961 medical officers were paid BCP; and thus far in Fiscal Year 1986, 1,078 out of 1,841 medical officers have received BCP.

Dental officers in the PHS Commissioned Corps are also eligible for BCP pursuant to 42 U.S.C. 210(a)(2) and 37 U.S.C. 302b(a)(5). The amount of BCP for dental officers ranges from \$2,000 per year to \$4,000 per year, depending on the amount of creditable service of the officer concerned. Currently there are 32 out of 580 active duty dental officers receiving BCP in the PHS Commissioned Corps.

No other category of officers in the PHS Commissioned Corps is eligible for BCP.

Sincerely yours,

ROBERT E. WINDOM, M.D.,

Assistant Secretary for Health. ●

#### By Mr. INOUE:

S. 163. A bill to provide that a student enrolled in a graduate program in psychology shall be eligible for student loans under the health professions student loan program; to the Committee on Labor and Human Resources.

#### HEALTH PROFESSIONS STUDENT LOANS

● Mr. INOUE. Mr. President, today I am introducing legislation which would provide that graduate students in psychology shall be deemed eligible for our Nation's Health Manpower Student Loan Program.

The bill which I am introducing today was adopted during deliberations on the Health Manpower Reauthorization Act during the 98th Congress. Unfortunately, this bill was vetoed by the President.

In my judgment, it is very important and in our Nation's best interest that our Nation's psychology graduate students be deemed eligible for these important student loan programs, especially given the increasing clinical and scientific evidence highlighting the importance of the psychosocial aspects of health care.

Mr. President, I request unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 163

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) section 740(a) of the Public Health Service Act is amended by inserting before the period at the end thereof the following: ", or with any public or nonprofit private institution which has a graduate program in clinical psychology and which is located in a State".*

(b) Section 740(b)(4) of such Act is amended by striking out "or" before "doctor of veterinary medicine", and by inserting before the semicolon at the end thereof the following: ", or a doctoral degree in clinical psychology".

(c)(1) Section 740(c)(1) is amended by inserting "or by graduate programs in clinical psychology," after "veterinary medicine".

(2) Section 740(c)(3)(C) is amended by inserting before the semicolon a comma and "or at a graduate program in clinical psychology".

(d) Section 741(b)(1) of such Act is amended by striking out "or" before "doctor of veterinary medicine", and by inserting before the comma at the end thereof the following: ", or doctoral degree in clinical psychology".

(e) Section 741(c) of such Act is amended by inserting after "veterinary medicine," the following: "or at a graduate program in clinical psychology".

(f) Section 741(f)(1)(A) of such Act is amended by inserting before the semicolon at the end thereof the following: "; or a doctoral degree in clinical psychology".

(g) Section 741(f)(1)(B) of such Act is amended by inserting before the semicolon at the end thereof the following: "; or at a graduate program in clinical psychology".

(h) Section 741(1) of such Act is amended by striking out "or podiatry"; each place it appears and inserting in lieu thereof "podiatry, or clinical psychology".

(i) The amendments made by this Act shall be effective with respect to loans made on or after the date of the enactment of this Act.

By Mr. INOUE:

S. 164. A bill to transfer the National Institute of Mental Health to the National Institutes of Health; to the Committee on Labor and Human Resources.

#### NATIONAL INSTITUTE OF MENTAL HEALTH

Mr. INOUE. Mr. President, today I am introducing legislation which would transfer the National Institute of Mental Health [NIMH] to National Institute of Health [NIH].

Mr. President, I have proposed such a transfer over the past several years and have been pleased that at various times, my colleagues on the Senate Appropriations Committee have also raised this issue directly with the Department of Health and Human Services.

In my judgment, the time has come to significantly increase our Federal commitment to the research and clinical training programs of the National Institute of Mental Health and, in order to accomplish that objective, I feel that it would be appropriate for the NIMH to become formally part of the NIH, which is, without question, the hallmark of our Federal research initiatives.

Mr. President, few realize that the NIMH was once part of the NIH and I feel that the time has come to return NIMH to its original home.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 164

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "National Institute of Mental Health Transfer Act of 1987".*

SEC. 2. (a) The National Institute of Mental Health is transferred to the National Institutes of Health.

(b) Section 504 of the Public Health Service Act is repealed.

(c) Part C of title IV of such Act is amended by adding at the end thereof the following new subpart:

"Subpart 13—National Institute of Mental Health

#### "GENERAL PURPOSE OF THE INSTITUTE

"SEC. 464. (a) The general purpose of the National Institute of Mental Health (hereafter in this subpart referred to as the 'In-

stitute') is to carry out the purposes of sections 301 and 303 with respect to mental illness, and to develop and conduct comprehensive health, education, training, research, and planning programs for the prevention and treatment of mental illness and for the rehabilitation of the mentally ill. The Secretary shall carry out through the Director of the Institute the administrative and financial management, policy development and planning, evaluation, and public information functions which are required for the implementation of such programs and authorities.

#### "ADMINISTRATION

"SEC. 464A. (a) The programs to be carried out through the Institute shall be administered so as to encourage the broadest possible participation of professionals and paraprofessionals in the fields of medicine, science, the social sciences, and other related disciplines. Special consideration shall be given to programs for training and research on the mental health needs of the elderly.

"(b) The Director of the Institute shall designate an administrative unit in the Institute to—

"(1) design national goals and establish national priorities for—

"(A) the prevention of mental illness, and

"(B) the promotion of mental health,

"(2) encourage and assist local entities and State agencies to achieve the goals and priorities described in paragraph (1), and

"(3) develop and coordinate Federal prevention policies and programs and to assure increased focus on the prevention of mental illness and the promotion of mental health.

"(c)(1) The Director of the Institute shall designate an Associate Director for Special Populations.

"(2) The Secretary, acting through the Associate Director for Special Populations, shall—

"(A) develop and coordinate prevention, treatment, research, and administrative policies and programs to assure increased emphasis on the mental health needs of women and minority populations;

"(B) support programs and projects relating to the delivery of mental health services to women and minority populations, including demonstration programs and projects;

"(C) develop a plan to increase the representation of women and minority populations in mental health service delivery and manpower programs;

"(D) support programs of basic and applied social and behavioral research on the mental health problems of women and minority populations;

"(E) study the effects of discrimination on institutions and individuals, including majority institutions and individuals;

"(F) develop systems to assist women and minority populations in adapting to, and coping with, the effects of discrimination;

"(G) support and develop research, demonstration, and training programs designed to eliminate institutional discrimination; and

"(H) provide increased emphasis on the concerns of women and minority populations in training programs, service delivery programs, and research endeavors of the Institute.

#### "COMMUNITY SERVICES FOR CHRONICALLY MENTALLY ILL INDIVIDUALS

"SEC. 464B. (a) The Secretary, acting through the Director of the Institute, may make grants to States, political subdivisions of States, and private nonprofit agencies for mental health services demonstration

projects for the planning, coordination, and improvement of community services for chronically mentally ill individuals, seriously mentally disturbed children, and elderly individuals, and for the conduct of research concerning such services.

"(b) The Secretary may make a grant under subsection (a) for not more than three consecutive one-year periods, except that the Secretary may waive the limitation of this paragraph with respect to a particular grant if the Secretary determines that extenuating circumstances exist which merit such waiver.

"(c) For purposes of subsections (a) and (b) there are authorized to be appropriated \$20,000,000 for each fiscal year.

#### "STATE COMPREHENSIVE MENTAL HEALTH PLANS

"SEC. 464C. The Secretary, acting through the Director of the Institute, may make grants to States for the purpose of developing State comprehensive mental health plans referred to in section 1916(e).

#### "SUICIDE

"SEC. 464D. (a) The Director of the Institute shall—

"(1) develop and publish information respecting the causes of suicide and the means of preventing suicide; and

"(2) make such information generally available to the public and health professionals.

"(b) Information developed, published, and distributed under this section shall especially relate to suicide among individuals under the age of 21.

#### "RESEARCH ON MENTAL ILLNESS

"SEC. 464E. The Secretary, acting through the Director of the Institute, may make grants to and enter into cooperative agreements and contracts with public and nonprofit private entities for research on mental illness."

(d) Section 401(b)(1) of such Act is amended by adding at the end thereof the following new paragraph:

"(M) The National Institute of Mental Health."

SEC. 3. (a)(1) Subsection (a) of section 501 of the Public Health Service Act is amended by striking out "Alcohol, Drug Abuse, and Mental Health Administration" and inserting in lieu thereof "Alcohol and Drug Abuse Administration".

(b) Subsection (b) of such section is amended—

(1) by striking out "Alcohol, Drug Abuse, and Mental Health Administration" and inserting in lieu thereof "Alcohol and Drug Abuse Administration"; and

(2) by striking out paragraph (3).

(c) Subsection (c) of such section is amended by striking out "Alcohol, Drug Abuse, and Mental Health" in paragraph (1) and inserting in lieu thereof "Alcohol, Drug Abuse".

(d) Subsection (e) of such section is amended—

(1) by striking out "the National Institute of Mental Health"; and

(2) by striking out the comma after "Alcoholism".

(f) Subsection (k) of such section is amended—

(1) by striking out "Alcohol, Drug Abuse, and Mental Health" in paragraph (1) and inserting in lieu thereof "Alcohol, and Drug Abuse";

(2) by striking out "drug abuse, and mental health" in subparagraph (A) of such paragraph and inserting in lieu thereof "and drug abuse";

(3) by striking out the comma after "Alcoholism" in the first sentence of paragraph (2)(A) and inserting in lieu thereof "and";

(4) by striking out "Drug Abuse, and the National Institute of Mental Health" in such sentence and inserting in lieu thereof "Drug Abuse"; and

(5) by striking out "drug abuse, and mental illness" each place it appears in the second sentence of such paragraph and inserting in lieu thereof "and drug abuse".

(g) The heading for such section is amended to read as follows:

"ALCOHOL AND DRUG ABUSE ADMINISTRATION"

(h) The heading for title V of such Act is amended—

(1) by striking out "THE NATIONAL INSTITUTE OF MENTAL HEALTH,"; and

(2) by striking out the comma after "ALCOHOLISM";

(i) Section 4011(b) of the Alcohol and Drug Abuse Amendments of 1986 is amended by striking out "504(h)" and inserting in lieu thereof "464D".

By Mr. INOUE:

S. 165. A bill to amend title 37, United States Code, to authorize special pay for certain officers of the Armed Forces who obtain certain professional board certifications as psychologists; to the Committee on Armed Services.

#### SPECIAL PAY FOR OFFICERS

● Mr. INOUE. Mr. President, today I am introducing legislation which would amend the Department of Defense Authorization statute to provide a special pay incentive for those military psychologists who have obtained their board certification—diploma from American Board of Professional Psychology.

Mr. President, during the last session of Congress the Senate recommended enactment of this legislation as a provision of the fiscal year 1987 Department of Defense authorization bill. Unfortunately, this was deleted in conference; however, the conferees agreed to carefully explore the utilization of nonphysician services, such as those provided by clinical psychologists within the department. Undoubtedly, these forthcoming hearings will provide the committees with jurisdiction with a true appreciation for why this specialty pay bonus is in the best interest of the Department of Defense.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 165

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. ARMED SERVICE OFFICERS SPECIAL PAY

(a) SPECIAL PAY, PSYCHOLOGISTS—Chapter 5 of title 37, United States Code, is amended by inserting after section 302b the following new section 302c:

"§ 302c. Special pay: psychologists

"(a) An officer who is—

"(1) an officer in a corps of the Army Medical Department, an officer in the Bureau of Medicine and Surgery of the Navy, or an officer of the Air Force designated as a psychologist; and

"(2) has been awarded a diploma as a Diplomate in Psychology by the American Board of Professional Psychology,

is entitled to special pay, as provided in subsection (b) of this section.

"(b) The rate of special pay to which an officer is entitled pursuant to subsection (a) of this section shall be—

"(1) \$2,000 per year, if the officer has less than 10 years of creditable service;

"(2) \$2,500 per year, if the officer has at least 10 but less than 12 years of creditable service;

"(3) \$3,000 per year, if the officer has at least 12 but less than 14 years of creditable service;

"(4) \$4,000 per year, if the officer has at least 14 but less than 18 years of creditable service; or

"(5) \$5,000 per year, if the officer has 18 or more years of creditable service."

(b) TECHNICAL AMENDMENT.—The table of sections at the beginning of such chapter is amended by inserting after the item relating to section 302b the following new item:

"302c. Special pay: psychologists."

(c) CONFORMING AMENDMENT.—Section 303a of title 37, United States Code, is amended by inserting "302c," after "302b," each place it appears.

SEC. 2. EFFECTIVE DATE. The amendments made by section 1 shall take effect with respect to pay periods beginning after September 30, 1987.

By Mr. INOUE:

S. 166. A bill to amend section 1086 of title 10, United States Code, to provide for payment under the CHAMPUS Program of certain health care expenses incurred by certain members and former members of the uniformed services and their dependents to the extent that such expenses are not payable under medicare, and for other purposes; to the Committee on Armed Services.

#### CHAMPUS PROGRAM OF HEALTH CARE EXPENSES

● Mr. INOUE. Mr. President, today I am introducing legislation to provide continuing coverage under the Department of Defense Civilian Health and Medical Program of the Uniformed Services [CHAMPUS] for those retirees who reach the age of eligibility for Medicare.

Under our current law, when an individual CHAMPUS beneficiary becomes eligible for coverage under Medicare, he or she automatically loses his or her CHAMPUS entitlement. This is not common practice in the private sector and I understand it can be especially traumatic for those families who live overseas. My proposal would make CHAMPUS a second payor to Medicare and only require the Department to cover those services not covered by Medicare.

Legislation has now been enacted into public law, which was recommended by the Veterans' Affairs Committees, to address this problem for those CHAMPUS eligibles who derive

their entitlement under the CHAMPVA program. I understand that this constitutes approximately 5 percent of the total CHAMPUS beneficiary population. Essentially, their eligibility for CHAMPUS becomes reinstituted once any part of their Medicare coverage is exhausted. My bill would provide similar entitlement for the remaining 95 percent of the CHAMPUS population and, further, provide that CHAMPUS will cover expenses that might be in excess of those covered by Medicare.

Mr. President, I request unanimous consent that the text of my bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 166

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. AMENDMENT TO THE CHAMPUS PROGRAM

(a) REPEAL OF PROHIBITION ON CERTAIN PAYMENTS.—Section 1086(c) of title 10, United States Code, is amended by striking out the second sentence.

(b) AUTHORIZATION FOR PAYMENT TO EXTEND BENEFITS NOT PAYABLE UNDER ANOTHER PROGRAM.—Section 1086(d) of such title is amended to read as follows:

"(d)(1) The provisions of section 1079(j)(1) of this title shall apply to a plan covered by this section.

"(2)(A) The amount payable under a plan covered by this section for items or services for which payment is made under part A or B of title XVIII of the Social Security Act or any other insurance, medical service, or health plan referred to in section 1079(j)(1) of this title shall be reduced by the sum of—

"(i) the amount of the payment made for such items or services under such part;

"(ii) the amount of the payment made for such items or services under any such other insurance, medical service, or health plan; and

"(iii) the amount of any payment made under subsection (b).

"(B) A plan covered by this section shall not be considered a group health plan for the purposes of paragraph (2) or (3) of section 1862(b) of the Social Security Act.

"(C) A person claiming a benefit under a plan covered by this section by reason of the application of this subsection shall certify the cost charged for the items or services to which the claim relates and the amounts referred to in subparagraphs (A)(i) and (A)(ii) that relate to such items or services. A certification made under this subparagraph may be accepted for the purposes of determining the benefit payable under this section."

#### SEC. 2. CONFORMING AMENDMENT.

Subsection (d) of section 613 of title 38, United States Code, is repealed.

#### SEC. 3. EFFECTIVE DATE.

The amendments made by this Act shall take effect with respect to health care items or services provided on and after the date of enactment of this Act.

By Mr. INOUE (for himself and Mr. MATSUNAGA):

S. 167. A bill to amend chapter 89 of title 5, United States Code, to provide

authority for the direct payment or reimbursement to nurse midwives, nurse practitioners, and nurses, to clarify certain provisions of such chapter with respect to coordination with State and local law, and for other purposes; to the Committee on Governmental Affairs.

#### DIRECT PAYMENTS, REIMBURSEMENTS TO HEALTH CARE PROFESSIONALS

● **Mr. INOUE.** Mr. President, today Senator MATSUNAGA and I are introducing legislation to amend the Federal Employees Health Benefit Act to provide for direct reimbursement of our Nation's nurse practitioners, clinical specialists, nurse anesthetists, and certified nurse midwives.

Mr. President, during the 99th Congress this legislative proposal was passed by both Houses of Congress; but, unfortunately, was contained in a bill which the President ultimately vetoed. Since that time, the Office of Personnel Management [OPM] has conducted a comprehensive review of the practical consequences of providing direct reimbursement for our Nation's professional nurses and has concluded that, essentially there is no reason not to allow Federal employees to be able to select these particular practitioners if they so desire and if the practitioners are functioning within the scope of their State practice acts.

Mr. President, under the Department of Defense CHAMPUS program military dependents have had this ability for a number of years now and I feel that the time has come to provide the same type of flexibility for the Federal Employees Health Benefit Act.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 167

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### AUTHORITY TO PAY OR REIMBURSE CERTAIN ADDITIONAL HEALTH CARE PROFESSIONALS

SECTION 1. (a) Section 8902(k) of title 5, United States Code, is amended—

(1) in paragraph (1), by inserting "(except if, or to the extent that, any such supervision or referral is required under State or local law, or regulations issued thereunder, as described in subsection (m)(1)(B))" after "practitioner";

(2) by redesignating paragraphs (2) and (3) as paragraphs (3) and (5), respectively;

(3) by inserting after paragraph (1) the following:

"(2)(A) When a contract under this chapter requires payment or reimbursement for services which may be performed by a health practitioner referred to in subparagraph (B), an employee, annuitant, family member, or former spouse covered by the contract shall be—

"(i) free to select, and shall have direct access to, such a health practitioner without

supervision or referral by another health practitioner. The provisions of this subsection shall not apply to group practice prepayment plans; and

"(ii) entitled under the contract to have payment or reimbursement made to him or on his behalf for the services performed.

"(B) This paragraph applies with respect to a nurse midwife, nurse practitioner, and any other nurse who is licensed or certified as such under Federal or State law, as applicable.";

(4) in paragraph (3) (as so redesignated by paragraph (2)) by striking "As" and inserting "Subject to subsection (m)(1)(B), as";

(5) by inserting after paragraph (3) (as so redesignated by paragraph (2)) the following:

"(4) When a contract under this chapter requires payment or reimbursement for services of a health practitioner covered by paragraph (2) or (3), the terms and conditions governing such payments or reimbursements shall (except to the extent otherwise permitted under paragraph (3)(A)) be the same as the terms and conditions applicable under contracts under this chapter requiring payments or reimbursements for services of health practitioners covered by paragraph (1).";

(6) by amending paragraph (5) (as so redesignated by paragraph (2)) to read as follows:

"(5) The provisions of this subsection shall not apply to prepayment plans described in section 8903(4) of this title."

(b) It is the intent of Congress that—

(1) nothing in the amendment made by subsection (a) shall interfere with applicable institutional anesthesia practice rules, or State or local law, governing supervision of a certified registered nurse anesthetist by another health practitioner; and

(2) such amendment, as it relates to a certified registered nurse anesthetist, shall apply only with respect to a certified registered nurse anesthetist who is self-employed and licensed or certified under Federal or State law, as applicable.

(c) Regulations or instructions issued to carry out the amendments made by subsection (a) shall reflect the statement of congressional intent set forth in subsection (b).

#### COORDINATION WITH STATE AND LOCAL LAW

SEC. 2. Section 8902(m) of title 5, United States Code, is amended—

(1) by redesignating paragraph (1) as paragraph (1)(A); and

(2) by adding at the end of paragraph (1)(A) (as so redesignated by paragraph (1)) the following:

"(B) Nothing in this chapter nor in the provisions of any contract under this chapter shall be considered to supersede or preempt any State or local law, or any regulation issued thereunder, which relates to licensing or certification to practice medicine, nursing, or any other health profession."

#### EFFECTIVE DATE

SEC. 3. The amendments made by this Act shall be effective with respect to contracts entered into or renewed for calendar years beginning after the date of the enactment of this Act.●

By **Mr. INOUE** (for himself and **Mr. MATSUNAGA**):

S. 168. A bill to amend titles XVIII and XIX of the Social Security Act to provide that clinical social worker services are covered under part B of Medicare and are a mandatory benefit

under Medicaid, and for other purposes; to the Committee on Finance.

#### SOCIAL SECURITY ACT

● **Mr. INOUE.** Mr. President, today Senator SPARK MATSUNAGA and I are introducing legislation which would amend our Nation's Medicare and Medicaid Programs in order to provide for the autonomous recognition of the services of our Nation's clinical social workers.

Clinical social workers provide high quality mental health care and medical social services in virtually every component of our Nation's health care system. They are recognized as the largest profession providing mental health services and practice in private, fee-for-service settings, in mental health centers, hospitals, health maintenance organizations [HMO's], family and marital counseling agencies, and many other settings.

I am especially pleased to report that a growing number of social workers specialize in the field of aging. They plan and evaluate services for the elderly, and help them respond to financial and other changes brought on by retirement. In nursing homes, they help patients and their families adjust to illness and the need for institutionalization and health care services. Indeed, the value of social work services in nursing homes was recently reinforced by the Institute of Medicine's 1986 report, "Improving the Quality of Care in Nursing Homes," which included the following recommendation:

The present social service condition should be changed to require that each facility with 100 beds or more be required to employ at least one full-time social worker.

Without question, clinical social workers contribute essential mental health and health care services to our population. It is my personal goal to amend every one of our Federal health care programs in order to ensure that these practitioners will be deemed truly autonomous providers.

Mr. President, I request unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 168

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. COVERAGE OF CLINICAL SOCIAL WORKER SERVICES UNDER PART B OF MEDICARE.

(a) COVERAGE OF SERVICES.—Section 1861(s)(2) of the Social Security Act (42 U.S.C. 1395x(s)(2)) is amended—

(1) by striking out "and" at the end of subparagraph (J);

(2) by adding "and" at the end of subparagraph (k); and

(3) by adding at the end thereof the following new subparagraph:

"(L) clinical social worker services;"

(b) DEFINITION.—Section 1861 of such Act (42 U.S.C. 1395x) is amended by adding at the end thereof the following new subsection:

**"Clinical Social Worker Services**

"(ff)(1) The term 'clinical social worker services' means services performed by a clinical social worker (as defined in paragraph (2)) which the clinical social worker is legally authorized to perform under State law (or the State regulatory mechanism provided by State law) of the State in which such services are performed, whether or not the clinical social worker is under the supervision of, or associated with, a physician or other health care provider.

"(2) The term 'clinical social worker' means an individual who—

"(A) possesses a master's or doctor's degree in social work,

"(B) after obtaining such a degree has performed at least two years of supervised clinical social work, and

"(C) is licensed or certified as a clinical social worker in the State in which the clinical social worker services are performed, or in those States which do not provide for licensure or certification, is listed in a national register of social workers who, by education and experience, qualify as health care providers in clinical social work."

(C) LIMIT ON PAYMENT OF BENEFITS.—Section 1833(c) of such Act (42 U.S.C. 13951(c)) is amended by striking out all that follows "purposes of subsections (a) and (b)" and inserting in lieu thereof "no more than \$1,000."

(d) EFFECTIVE DATE.—The amendments made by this section shall be effective with respect to services performed on or after the first day of the first month which begins more than 60 days after the date of the enactment of this Act.

**SEC. 2. COVERAGE OF CLINICAL SOCIAL WORKER SERVICES AS A MANDATORY MEDICAL BENEFIT.**

**(a) COVERAGE OF SERVICES.—**

(1) Section 1905(a) of the Social Security Act (42 U.S.C. 1396d(a)) is amended—

(A) by striking out "and" at the end of paragraph (20);

(B) by redesignating paragraph (21) as paragraph (22); and

(C) by inserting after paragraph (20) the following new paragraph:

"(21) clinical social worker services (as defined in section 1861(ff)(1)); and"

**(b) CONFORMING CHANGES.—**

(1) Section 1902(a) of such Act (42 U.S.C. 1396a(a)) is amended—

(A) in paragraph (10)(A), by striking out "paragraphs (1) through (5) and (17)" and inserting in lieu thereof "paragraphs (1) through (5), (17), and (21)"; and

(B) in paragraph (10)(C)(iv), by striking out "paragraphs (1) through (5) and (17) of section 1905(a) or the care and services listed in any 7 of the paragraphs numbered (1) through (20)" and inserting in lieu thereof "paragraphs (1) through (5), (17) and (21) of section 1905(a) or the care and services listed in any 7 of the paragraphs numbered (1) through (21)".

(2) Section 1902(j) of such Act (42 U.S.C. 1396a(j)) is amended by striking "(21)" and inserting in lieu thereof "(22)".

**(c) EFFECTIVE DATE.—**

(1) Except as provided in paragraph (2), the amendments made by this section shall be effective with respect to payments under title XIX of the Social Security Act for calendar quarters beginning more than 60 days after the date of the enactment of this Act.

(2) In the case of a State plan for medical assistance under title XIX of the Social Security Act which the Secretary of Health and Human Services determines requires State legislation in order for the plan to meet the additional requirements imposed by the amendments made by this section, the State plan shall not be regarded as failing to comply with the requirements of such title solely on the basis of its failure to meet these additional requirements before the first day of the calendar quarter beginning after the close of the first regular session of the State legislature that begins after the date of the enactment of this Act.●

**By Mr. RIEGLE:**

S. 169. A bill to provide Federal grants to States for programs to identify and aid individuals who have been exposed to the drug diethylstilbestrol [DES]; to the Committee on Labor and Human Resources.

**STATES; PROGRAMS FOR DIETHYLSTILBESTROL-EXPOSED INDIVIDUALS**

● Mr. RIEGLE. Mr. President, today I am introducing legislation, similar to legislation I introduced in the 99th Congress, that will hopefully bring to the forefront the plight of those women and their children who have been exposed to the hormone diethylstilbestrol [DES] in our recent past.

The hormone DES was first synthesized in 1938. During the time period from 1941 to 1971, this hormone was prescribed to women to help reduce the risk of miscarriages. Despite studies in the early 1950's demonstrating that the drug was ineffective, the distribution and use continued for another 20 years. It was not until 1971, with the establishment of the definitive link between the development of a rare form of cancer of the cervix and vagina in young women and their exposure to DES of their mothers during pregnancy, that its use was finally discontinued. It is estimated that during this 30-year span of time 4 million sons and daughters were exposed in utero. Since 1971, a stream of reports related to the medical side effects of DES exposure have become known. For the record, I will briefly summarize these findings and will describe them as they relate to DES mothers, daughters, and sons, respectively.

Mr. President, with regard to DES mothers, a study by the Dartmouth Medical School has demonstrated an increased risk of breast cancer in women exposed during pregnancy. A significant aspect of this discovery was the finding that this increased risk did not become clinically evident until 20 years after the actual exposure. As these women age, this risk may become even more pronounced.

With regard to DES daughters, an association between DES exposure during pregnancy and the rare clear-cell adenocarcinoma of the cervix and vagina has been well documented and studied. Over 400 cases have been reported and approximately 1 out of every 1,000 DES daughters will devel-

op on this rare cancer before age 32. Twenty-five percent of these cancer victims may die as a result of their exposure. Because of their cancer risk, DES daughters must have special screening examinations by doctors trained in the techniques needed to detect this rare form of cancer. DES daughters also have twice the rate of dysplasia as nonexposed women: in some women, dysplasia is a precancerous condition. For this reason, DES daughters should be especially careful to have regular examinations.

Pregnancy problems are affecting the greatest number of DES daughters. Up to half of all DES daughters will have some kind of problem, including ectopic—(tubal)—pregnancy, miscarriage, and premature labor and delivery. Because of their pregnancy risks, DES daughters must be seen more frequently during pregnancy.

The health risks for DES sons have been less well studied. However, some studies have shown an increased risk of genital problems and infertility among DES sons. Current research is investigating risks associated with testicular cancer. A companion bill is to be introduced by Congressman GUARINI.

This legislation would provide support to States for efforts to identify individuals who were exposed to DES and to help these individuals lessen the serious health risks resulting from exposure to DES. Grants to States would be used to identify women who took DES during pregnancy and the children of these women and to educate the public about the importance of medical care to detect and treat conditions resulting from DES exposure. The establishment of a voluntary State registry would be used for the dissemination of information about DES. The bill also provides for the creation of State programs to help in the development of screening and diagnostic services and the dissemination of information to health care providers.

It is clear that individuals exposed to DES will require regular and periodic evaluations for the rest of their lives. This bill will greatly increase available support for educational activities and the delivery of adequate health services to those in need. With this increase in support we begin to reduce the serious health risks to DES mothers and their children.

In addition, I am introducing a Senate joint resolution which calls upon Congress and the President to proclaim the week beginning April 19, 1987, as "National DES Awareness Week." This week corresponds to the third annual DES Awareness Week sponsored by DES Action, a national organization devoted to helping those exposed to DES. This volunteer group should be commended for their efforts

as a national educational, advocacy, and referral center on behalf of individuals who have been exposed to DES. DES is currently authorized for use to treat certain types of cancer, and as "estrogen replacement therapy" for menopausal women. It is not authorized for use to suppress lactation in women who choose not to breast feed, as a postcoital contraceptive, or in animal feed. Nevertheless, these uses sometimes continue, without evidence of safety. It is only through a greater public awareness of the DES problem will we be able to ascertain the extent and scope of the problem and implement the appropriate care.

Mr. President, I ask unanimous consent that the bill be printed in full in the *RECORD* at this point.

There being no objection, the bill was ordered to be printed in the *RECORD*, as follows:

S. 169

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) the Secretary of Health and Human Services (hereinafter in this Act referred to as the "Secretary") shall establish a program of grants to States to assist States in establishing programs—*

(1) to identify women who took diethylstilbestrol while pregnant;

(2) to identify the children of such women who were exposed to diethylstilbestrol in utero;

(3) to establish a voluntary registry of such individuals to facilitate informing them of new developments related to diethylstilbestrol;

(4) to provide public education regarding the health effects associated with diethylstilbestrol and the importance of medical care to detect and treat such effects;

(5) to provide information to health professions personnel on the necessity of identifying exposed individuals, the health effects associated with diethylstilbestrol, and the provision of medical care for the detection and treatment of such health effects; and

(6) to provide screening and diagnostic services for exposed individuals for health effects associated with diethylstilbestrol.

(b) Any State receiving a grant to operate programs under subsection (a) may operate such programs directly or make grants to public or private organizations within such State to operate such programs.

SEC. 2. (a) No grant may be made under the first section unless an application therefor has been submitted to and approved by the Secretary. Such an application shall—

(1) contain such information and be submitted in such form and manner as the Secretary shall prescribe; and

(2) demonstrate to the Secretary's satisfaction that in each year of participation in the grant program the applicant will obtain the following percentages of its projected budget from non-Federal sources of funding:

(A) At least 25 per centum in the first and second years.

(B) At least 50 per centum in the third year.

(C) At least 65 per centum in the fourth and fifth years.

(b) No State shall be eligible for more than five years of funding under this Act.

SEC. 3. For each fiscal year there is authorized to be appropriated \$6,000,000 to carry out this Act. Amounts appropriated under this Act shall remain available until expended.

SEC. 4. This Act shall take effect October 1, 1987.●

By Mr. RIEGLE:

S. 176. A bill to amend title XVIII of the Social Security Act to waive the late enrollment penalty under Medicare part B for any disabled individual who was covered under his own or his spouse's private employment-related health insurance; to the Committee on Finance.

WAVIER OF ENROLLMENT PENALTY FOR DISABLED SPOUSES

● Mr. RIEGLE Mr. President, today I am introducing S. 176, a bill which will eliminate an inequity which exists in the Medicare Program for Social Security disability insurance [SSDI] beneficiaries. I first introduced a similar bill in the 99th Congress, S. 1604, designed to accomplish the same objective. There is a small number of SSDI beneficiaries who are eligible for Medicare but who have failed to enroll because they have health coverage through the extension of their work related health insurance or a spouse's employment related health care plan. If these individuals ever need to enroll in the Medicare part B program, they will be subjected to a 10-percent annual penalty for their delayed enrollment. This bill will address this persistent inequity.

Mr. President, as you know Medicare is a program first enacted in 1965 as title VIII of the Social Security Act to provide financial access to vital health care services to our elderly population. In 1973, Medicare coverage was extended to disabled individuals entitled to Social Security disability insurance for 24 months or more. Since its inception, the program has experienced an enormous growth. In 1987, it is estimated that 28 million elderly and 3 million disabled individuals will receive benefits in the Medicare Program. It is estimated that Medicare expenditures will reach \$83.9 billion. It is clear that this program is serving a vital source of access for our seniors and disabled individuals.

When Medicare was first enacted in 1965, a 10-percent annual surcharge was assessed against those who delayed their enrollment in the voluntary part B—supplemental medical insurance—of Medicare. This provision was enacted to create a disincentive for individuals who were planning to delay enrollment until they became ill and in need of health care services. This was a provision based on sound actuarial accounting and was designed to assure a sufficient amount of premiums to assist in the funding of the program. At that time, there was a

maximum of a 30-percent penalty because the enrollment period for the part B of Medicare was limited to 3 years. In 1972, the limited enrollment period was abolished. However, Congress failed to repeal or cap the part B surcharge. We now have a small population of individuals who have incurred a substantial penalty for their late enrollment.

According to the Health Care Financing Administration [HCFA], in 1983, 169 seniors were paying a 150 percent penalty and 18 seniors were paying a 160 percent penalty. This penalty is an add-on to their monthly premium payment. There are situations where this surcharge is not only unfair and inequitable but is penalizing American citizens who are actually saving the Federal Government significant Medicare outlays.

Congress recently addressed this problem and rectified a similar circumstance where old age and survivors beneficiaries were being inappropriately penalized. Included in Public Law 97-248, the Tax Equity and Fiscal Responsibility Act of 1982 [TEFRA] was the "Working Aged" provisions which made Medicare the "Secondary Payer" for certain elderly workers. The provisions amended the Federal Age Discrimination Employment Act [ADEA] to require employers to offer their employees aged 65 to 69 and their dependents the equivalent health care coverage as their younger employees. It became clear that it would be inappropriate to penalize these individuals and subject them to the part B premium surcharge if enrollment in the part B program would simply duplicate their work-based health care coverage. This inequity was rectified with the passage of Public Law 98-369, the Deficit Reduction Act of 1984 [DEFRA] which exempted these individuals from the surcharge.

The bill I am introducing today, S. 176, like the S. 1604 which I introduced in the 99th Congress, would address another circumstance where individuals are being inappropriately penalized. A small number of disabled individuals who are qualified for Medicare as a result of their eligibility for SSDI, receive their health care coverage through a spouse's employment related health care plan or through the continuation of their own work-related health plan. They are saving the Federal Government health care dollars by their utilization of an employment related plan to cover the expenses of their disability and health care needs and they should not be penalized for their efforts. This bill will eliminate the part B premium penalty for the disabled person and/or disabled spouse who are enrolled in a group health care plan provided by the beneficiary's former employment

or a spouse's current or former employment.

I urge all my colleagues to support this piece of legislation and help to eliminate this inequitable and unfair situation. We must persist in our efforts of making Medicare affordable, accessible and fair in its design and implementation. ●

By Mr. RIEGLE:

S. 1781. A bill to provide for a system of cost sharing for health care and uncompensated care, and for other purposes; to the Committee on Finance.

#### HEALTH CARE FOR THE UNINSURED ACT OF 1987

● Mr. RIEGLE. Mr. President, today I am reintroducing S. 1781, the Health Care for the Uninsured Act. As I indicated in my original introductory remarks on October 21, 1985, largely reproduced below, this bill will address the need of the growing number of individuals and families in this country who are finding themselves without the financial access to health care. These Americans who are being denied access to our health care system, represent a growing segment of our population. It is now estimated that there are 37 million individuals who lack either a public and/or private form of health care coverage. This represents a 40-percent increase since 1980.

Since I first introduced a bill on this subject in December of 1982, the problem has only grown by leaps and bounds. The time is now for this Congress to get down to business and address this national tragedy. The underlying reasons for this increase in uninsuredness are complex. There has been a clear movement in recent years to increasingly look at health care simply as an economic commodity rather than a basic social necessity. This has been to the benefit to certain segments of the health care community while excluding an increasing number of Americans from our health care system. We must also look at the reductions in funding for the Federal Government's health care programs we have experienced over the last 6 years. In addition, it was recently pointed out that there are two current developments that are likely to make this bad situation even worse. First there is the recent enactment of the new immigration bill that will grant amnesty to some 3 to 6 million currently undocumented residents. Many of these individuals lack health insurance. Also, the AIDS epidemic threatens an already stressed public health system that is in no position to provide the extraordinary medical care required by AIDS patients.

The number of uninsured fails to include the millions of Americans who have inadequate insurance, which the American Medical Association recently estimated to include an additional 75 million persons under 65 years of age.

This is not an academic or statistical problem. There is scientific evidence to suggest that the lack of health insurance, and the resulting failure to seek medical attention, actually leads to needless suffering, or in some cases even death. The failure of millions of Americans to have access to health care services is an indictment of our health care system and of our political system, which, at least up to this point, has failed to respond in any systematic way to this critical problem. The Federal Government can no longer ignore what can only be called a national disgrace. Five million Americans report annually that they do not seek health care because they are unable to pay for it. Due to our inaction, Americans are needlessly suffering preventable illness and are literally experiencing premature death.

The increase we are witnessing in uninsuredness is a phenomenon that should not be ignored by those of us making public policy. As a result of Federal policy, through tax deductions and Federal health insurance, we have already made the decision to spend considerably more dollars on health care for middle- and upper-class citizens than we do for poor and working lower-middle class Americans. In fact, in our zeal to reduce spending in existing Federal health programs, we have indirectly made it significantly more difficult for those without insurance to secure health care. Hopefully, S. 177 will start the long overdue dialog on how we can solve this tragic problem during a period of Federal austerity.

The approach outlined in S. 177 is not the only way of dealing with this critical problem. It is my hope that this legislation can serve as the starting point for a comprehensive analysis of all possible solutions including the input and guidance of the business community, health care providers, consumer groups and other interested parties.

The problem of individuals and families without health insurance is documented by the increase in uncompensated care incurred by hospitals for the delivery of charity care and care to those with limited ability to pay. This increase in uncompensated care has led to the restriction and elimination of services by selected hospitals and a rise in the number of Americans who have been refused care because of a real or perceived inability to pay. As the health care market becomes more competitive, the lack of access to health care services for uninsured persons will only increase unless action is taken now.

During the consideration of my "Health Insurance for the Unemployed Workers Act of 1983," there were those who felt that we should broaden the scope of the discussion and look at the entire uninsured popu-

lation and their relationship to those hospitals that deliver a disproportionate share of uncompensated care within their respective communities. Since that time, as I have mentioned, the number of individuals without insurance has grown and the ability of health care systems to serve these individuals has diminished. Therefore, I have broadened the focus of my earlier legislative initiatives on this issue to include not only the unemployed uninsured, but also the working uninsured and other individuals who lack access to health care.

S. 177, the "Health Care for the Uninsured Act of 1987"—like S. 1781 introduced in the 99th Congress—is designed to address this serious problem in a manner that will be implemented at the State level and, in keeping within the constraints created by high Federal deficits, will require no new Federal expenditures. In the remaining portion of my statement, I will in a more detailed fashion illustrate who these uninsured Americans are, the impact this lack of access to health care is having on them personally, and examine the consequences for certain hospitals serving a large number of uninsured individuals. I will then briefly review the major objectives of S. 177, and how implementation will help to alleviate this situation.

#### THE UNINSURED IN AMERICA

It is becoming increasingly clear that the entire population of uninsured Americans is a diverse segment of the population, spanning all age groups, employment status and income levels. In contrast to the common misconception, this is not solely a poverty or welfare issue. It is necessary to examine in detail various demographic characteristics of this population, for a better understanding of the problem so that we can move toward more equitable and insightful solutions.

#### EMPLOYMENT STATUS

The individuals who are uninsured find themselves in all employment categories.

First. Employed and uninsured: It is true that the majority of Americans presently have health care coverage through the workplace. A Department of Labor study of health insurance coverage in 1979, estimated that 75 percent of the civilian labor force had group health coverage through their place of employment. A 1984 survey demonstrated that 97 percent of full-time employees of medium and large firms had health insurance covering them for most categories of hospital and medical costs. So it may come as a surprise to some that the majority of the uninsured are actually employed individuals and their families.

The National Center for Health Services Research [NCHSR] has estimated that the employed may account

for close to 75 percent of the uninsured in this country. The uninsured workers most at risk are young persons with poor economic circumstances, lower level of education, and limited means to obtain coverage. They tend to come from occupations displaying seasonal employment patterns and less technically skilled positions such as in agriculture, construction, sales, and personal services. Many are self-employed or underemployed, or are working less than full-time, which makes them ineligible for coverage even if a plan is offered to full-time employees; 85 percent of the uninsured workers received wages less than \$5 an hour and have annual earnings less than \$10,000.

Many would say that a large proportion of the employed uninsured simply decide not to participate in an employer-sponsored plan. However, the NCHSR, demonstrated that close to 90 percent were unable to obtain insurance through their employment either because a plan was not offered or the worker was ineligible. It is essential that we not be deluded into believing that inadequate financial access to health care is a problem only faced by our unemployed population. Employment may insure access for millions of Americans, but it very much depends on the type and location of employment.

Second. Unemployed and uninsured: It was the plight of the unemployed worker and his/her family that drew our attention to the possible loss of health care coverage during the last recession. The return of double digit unemployment focused our attention on the needs of the unemployed. The 97th and 98th Congress saw multiple proposals to alleviate or reduce the burden faced by many of these families. I first introduced legislation S. 2798, 97th Congress, on December 10, 1982, during the peak of the previous recession to provide health insurance for the unemployed. It was actually the severe unemployment in my home State of Michigan that first drew my attention to the needs of those who lacked health care coverage. We were very close to seeing enactment of legislation that would have lent relief to many of the recently unemployed. The Congressional Budget Office estimated that following the most recent recession that about 5.3 million recently laid off workers had lost coverage under an employer-based health benefit plan. If the dependents of these individuals are included the number increases to 10.7 million persons who lacked health insurance coverage in December 1982 because of job loss.

Many of these employer-based health benefit plans may actually have provided for conversion from the group rate to an individual rate. Yet how many unemployed persons can afford the increased premium of an in-

dividual plan, without an employer contribution at a time when they are least able to pay. In 1984, 51 percent of the recently unemployed in the Detroit area lacked health care coverage. In addition, despite limited incomes, these families frequently fail to meet the categorical requirement of the public assistance health programs such as Medicaid, which frequently does not provide assistance to two parent families, independent of a family's financial need for services.

#### OTHERS

Finally, there is a substantial number of individuals with no recent involvement in the labor market. They are comprised of discouraged workers, individuals in school, and dependents who might not be covered by a spouses plan. Many of these individuals are living below the poverty threshold, yet again they fail to qualify for programs such as Medicaid and Medicare.

The employment characteristics of the uninsured family will undoubtedly vary from region to region depending on the economic circumstances, the degree of industrialization and unionization, and the specifics of individual States; public assistance programs. Yet despite this variability, it is a national problem with large numbers of uninsured individuals living in our cities, towns and rural areas.

#### INCOME STATUS

As can be deduced from the fact that many of these uninsured persons are working individuals and their families, this is not solely a poverty or welfare issue, though a disproportionate number of the uninsured are represented by low income families. A recent analysis of the current population survey by the Urban Institute demonstrated that 35 percent of the uninsured were from families with incomes below the poverty line. However, 65 percent had incomes above poverty with 11 percent actually having incomes 4 times the poverty threshold. Any legislative attempt to address this problem should provide access to health care coverage for all individuals, independent of their financial status. Individuals with the financial resources should be asked to pay their fair share for the care received while individuals unable to afford the full cost of health care coverage should be asked to contribute based on their ability to pay. The bill I am introducing today accomplishes this objective.

#### AGE DISTRIBUTION

The age distribution of the uninsured is of particular concern to me for it again spans all ages. However, it seems to affect women and children in a disproportionate manner; 11 million or close to one-third of the uninsured, are children. In addition, 17 percent of all women in the reproductive age, 15 to 44 and more than 25 percent of women in their prime child bearing

years, 18 to 24, have no form of health insurance and are unlikely to be able to afford adequate care without it. There are also close to 6 million individuals who are middle aged or in their presenior years who lack coverage. This is particularly alarming, considering the increased cost of medical care required as persons grow older. It seems that the only population that we have assured adequate financial access to health care are our senior citizens, who at this point are relatively well protected by Medicare. It is estimated that of the 27 million elderly in this country, only 0.7 percent were without health care coverage. This is a commendation for a program which recently celebrated its 20th anniversary.

#### A SERIOUS PROBLEM—GETTING WORSE

The problem of health care for the uninsured looms heavily over the health care system. There are multiple trends at present which will only worsen the situation. These include, but are not limited to the following categories.

#### CONTINUED ESCALATION OF HEALTH CARE COSTS

The Department of Health and Human Services [HHS] has estimated that in 1984, our Nation spent over \$387 billion on health care. This represents approximately 10.6 percent of our gross national product [GNP]. The increasing costs is also making it difficult for those who lack an employment-based plan to afford the cost of care.

#### THE INABILITY TO COST SHIFT

In the past, the care for those with a limited ability to pay was shifted to those who were able to pay. As we continue to move toward a competitive market for health care, it is becoming increasingly more difficult to shift the burden of charity care to other payers in both the public and private sector. This is presently seen with the transition of Medicare under the new prospective payment system [PPS] where the cost of charity care has not been incorporated into the system. The emergence of alternative delivery systems in the private sector such as health maintenance organizations [HMO's] and preferred provider organizations [PPO's], along with employers' growing interest in becoming self-insured, is making it difficult for these costs to be absorbed by other payers.

#### REDUCTIONS IN PUBLIC HEALTH PROGRAMS

There have been major reductions in health care program expenditures during the first 6 years of this administration. Many of these reductions have hurt children and low-income families lack adequate access to care.

#### METAMORPHOSIS OF THE HOSPITAL INDUSTRY

The hospital industry is in tremendous flux, which is being generated in part by the new Medicare prospective payment system, the continued efforts

to contain costs, and recent reductions in hospital utilization. Two changes are directly affecting access for those who find themselves uninsured. The first is the increase in proprietary—for-profit—hospital chains. It has been demonstrated time and again that these chains serve a disproportionately small number of individuals who lack an ability to pay. The second is hospitals' continued fulfillment of their Hill-Burton "Charity Care" obligation. It is estimated that as of January 1, 1984, 28 percent of hospitals that had received Hill-Burton funds had retired their 20-year free care obligation.

Each of the above trends will only continue to place a continued stress on the health care system. This stress is evidenced by the increasing difficulties uninsured individuals are having in gaining access to the health care system.

#### IMPACT OF UNINSUREDNESS

Many researchers have demonstrated that those individuals and families who lack health insurance have much different health care utilization patterns of health care services. The frequently have poorer health status, utilize less physician and hospital services. The care is fragmented, acute, and more expensive. It is usually received in hospital emergency rooms, or public hospital out-patient clinics. There is also much less use of preventive services which could reduce the need for hospitalization.

However, as the amount of uncompensated care incurred by hospitals increases, they will be less able to deliver even this less than optimal type of care. The time has come once again when those individuals lacking health insurance are being turned away. A recent Robert Wood Johnson report documented that in 1982, over 1 million families were refused care because of a presumed inability to pay. The problem of "Refusal of Care" is faced by many of those described above. The refusal can take the form of several new practices which are increasing in frequency in this country. They include: patient dumping, preadmission deposits, and the actual reduction of certain services by hospitals.

#### PATIENT DUMPING

Patient dumping is the practice of transferring a person in need of emergency services from one hospital to another because of the inability to pay. It is frequently from a private or proprietary hospital to a public or teaching hospital. To demonstrate the burden faced by many of these public hospitals, the public hospitals accounted for only 22 percent of hospital charges in 1984, and yet delivered 40 percent of the uncompensated care in this country. In Florida, for-profit hospitals make up nearly 50 percent of hospitals, yet accounted for only 4.2 percent of the State's care for the

poor. The problem is further illustrated by the testimony of Dr. Gordon Schiff, a physician from Cook County Hospital, who stated before the Senate Special Committee on Aging, that the number of inpatient economic transfers had increased 500 percent since 1979. This same story is told from State to State across this country. Sixty Minutes, the CBS News magazine program in 1985, broadcasted a segment entitled the "Billfold Biopsy" which documented the problem of patient dumping at Parklawn Hospital in Dallas. A more recent program on Public Television entitled, "Health Care on the Critical List" documented similar practices.

#### PREADMISSION DEPOSITS

The practice of requiring preadmission deposits from uninsured individuals is becoming commonplace in many parts of this country. The deposit can range from anywhere from a few hundred to a few thousand dollars. If the deposit is not available, the patient is told he or she will have to look elsewhere for care. There are numerous reported cases where women in labor, or persons in need of surgery were told to seek care elsewhere.

#### REDUCTION OF SERVICES BECAUSE OF UNCOMPENSATED CARE

As the burden of charity care increases and is placed increasingly upon the shoulders of the public and teaching hospitals, the ability of these hospitals to deliver such care is becoming increasingly difficult. The uncompensated care incurred by hospitals in 1982, was \$6.2 billion an increase of 27 percent since 1978. Many hospitals faced with financial instability may have to eliminate services which account for a large portion of uncompensated care including obstetrical and maternity care, neonatal intensive care, and out-patient ambulatory services. Once these services are eliminated at the public hospitals, where will these families go for care? The legislation I am introducing today, Health Care for the Uninsured Act of 1987, provides at least one answer to that question.

#### INCREASING INFANT MORTALITY

It seems inconsistent that a nation that spends over a billion a day on health care, and has the most advanced medical technology in the world, should have so many millions of individuals who lack basic access to these vital services. The impact of these discrepancies is becoming increasingly evident in the health of our Nation.

The infant mortality rate has long been used by nations as a gauge of the health of a society. In 1950, the United States ranked fifth as compared to other industrialized countries. In 1982, we had dropped to 17th. In addition, there are numerous reports of the infant mortality rate actually starting to increase in certain urban centers in-

cluding Detroit, Boston, and the District of Columbia. Despite the continued improvement for white children, it appears that we will not meet the goals set for 1990 by the U.S. Public Health Services for infant mortality of minority children. Undoubtedly, the reasons are complex, but certainly two of the reasons must be the recent reduction of health care services for those in need, and a health environment which turns people away when they are most in need of services.

Summary of provisions is as follows:

#### HEALTH CARE FOR THE UNINSURED ACT OF 1987

##### (Summary of Provisions)

##### INTENT AND PURPOSE

The purpose of S. 177 is to utilize the existing health care delivery system to provide access to health care services for those who are unable to afford care under the current health care environment. By the use of a "pooling mechanism", an attempt will be made to address the two serious problems described above which includes:

1. Providing health care to any eligible uninsured individual in each state; and to,
2. Provide a mechanism of cost sharing among hospitals for reimbursement of a portion of the uncompensated care now being delivered.

By addressing both of these interrelated problems, we are attempting to reduce substantially the uninsured population in this country (which itself will reduce the burden on many hospitals), and to address directly the problem of charity care faced by many hospitals today.

##### IMPLEMENTATION

The bill is designed to involve no new federal expenditures and to allow the states a high degree of flexibility in the design and implementation of the program. The bill allows for three methods to fulfill the intent of the legislation.

1. If a state has enacted a program, or is in the process of drafting legislation which will address these problems on a statewide basis, a waiver provision is provided which will allow the state to continue with its current plans.
2. If a state has no plan, S. 177, provides a model "State Health Care Pool", which defines who is eligible, a minimum benefits package, financing mechanisms of the pool, and the various cost-sharing components.
3. Finally, if the state fails to implement either of the previous two provisions, the Federal Government will institute the "State Health Care Pool" and monitor its progress.

##### THE MODEL STATE HEALTH CARE POOL

As previously mentioned, the State health care pool will provide health care services to the uninsured through a Health Care Program, and reimburse hospitals for a portion of their uncompensated care in a manner proportional to the amount of uncompensated care they deliver. The pool will be financed from a variety of revenue sources so as to help maintain the solvency of the pool. These include:

First. Existing and perhaps new funding by State, counties and local municipalities;

Second. Premiums from those who utilize the Health Care Program portion of the pool. These individuals will pay the premium on a sliding scale based on their ability to pay; and

Third. A tax on the net operating revenues of the hospitals in the State, exempting certain hospitals based on the amount of care which is delivered to low-income individuals in the State, composite of Medicaid and uncompensated care. Those hospitals which are currently providing care for individuals who are unable to pay at twice the State average will be exempt. In addition, 30 percent of the funds from the health care pool will be returned to all hospitals in a manner proportional to the amount of uncompensated care which is delivered.

Mr. President, the other major provisions of S. 177, includes provisions for enrollment, needs assessment and outreach, additional cost-sharing, and the care for those with a preexisting condition. These will be further clarified in the section-by-section analysis of the bill to follow and with the text of the bill itself.

Mr. President, as I mentioned before, I am reintroducing S. 177, not as the ultimate answer to the problem of uninsuredness in this country, but as the starting point in a national debate on the issue. We must begin to address this very serious problem, and I urge all my colleagues to join in their support and cosponsorship for this bill.

Mr. President, I also request, that the section-by-section analysis and the bill itself be included in the RECORD at this point.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### S. 177

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Health Care for the Uninsured Act of 1987".

#### SEC. 2 STATE PROGRAMS.

##### (a) IN GENERAL.—

(1) **STATE POOLS.**—Each State may establish a program pursuant to this section which provides for a health care pool to make health care available to any eligible uninsured individual in the State, and which provides for cost sharing among hospitals for uncompensated care provided by hospitals in the State.

(2) **FEDERAL ALTERNATIVE.**—If a State does not establish a program pursuant to this section, the Federal program established pursuant to section 5 shall apply in such State, and the tax imposed pursuant to section 4285 of the Internal Revenue Code of 1986 shall apply to hospitals in such State.

##### (b) STATE PROGRAM REQUIREMENTS.—

(1) **IN GENERAL.**—A State program meets the requirements of this section if such program—

(A) establishes and maintains a health care pool which meets the requirements of subsection (c);

(B) is approved by the Secretary of Health and Human Services (hereinafter referred to in this Act as the "Secretary"); and

(C) provides such information to the Secretary as the Secretary may require in order to evaluate the State program.

(2) **WAIVER AUTHORITY.**—The Secretary may waive the requirements of this section and approve a State program if the Secretary determines that such program substantially provides the same results, with respect to uninsured individuals and hospitals which provide uncompensated care, as would the program specified in this section.

(c) **STATE HEALTH CARE POOL.**—A State health care pool is an entity established under State law for the purposes of—

(1) providing health care, through insurance or otherwise, to all uninsured individuals residing in the State; and

(2) sharing among all hospitals in the State the costs of uncompensated care provided by any such hospital.

(d) **POOL FINANCING.**—The State shall ensure the solvency of the health care pool through any combination of—

(1) premiums collected pursuant to section 3(d), but subject to the limitations contained in such section;

(2) revenues from the hospital tax required under section 4(b), but subject to the limitations contained in such section; and

(3) funds provided by the State or political subdivisions thereof.

#### SEC. 3. HEALTH CARE PROGRAM.

(a) **IN GENERAL.**—The State health care pool shall provide health care, through insurance or otherwise, to all uninsured individuals (as defined in subsection (b)) residing in the State.

(b) **UNINSURED INDIVIDUAL.**—For purposes of this section, an uninsured individual is any individual who—

(1) is not eligible to be covered under any employment-based health plan (provided by insurance or otherwise) by reason of his own employment or the employment of his spouse or parent, including any postemployment extended eligibility provided at the same rate and with the same employer cost sharing as are provided to employees; and

(2) is not eligible for the Medicare program under title XVIII of the Social Security Act or for medical assistance under a State Medicaid plan approved under title XIX of such Act.

##### (c) REQUIRED BENEFITS.—

(1) **IN GENERAL.**—The health care pool must provide for a program which provides, either through insurance or otherwise, including (but not limited to) the use of health maintenance organizations or State-established preferred provider arrangements, at least the following benefits:

(A) Inpatient hospital services.

(B) Emergency outpatient hospital services.

(C) Routine and emergency physician services (including those provided in health clinics).

(D) Prenatal, delivery, and post partum care.

(E) Laboratory and diagnostic X-ray services.

(F) X-ray, radium, and radioactive isotope therapy.

(G) Services of a nurse midwife, described in section 1905(a)(17) of the Social Security Act.

(H) Home health services in cases where the State determines that the coverage of such services is cost effective.

(I) Drugs or biologicals provided as part of inpatient hospital services.

(2) **AMOUNT, DURATION, AND SCOPE.**—The State shall determine the amount, duration, and scope of the covered services described in paragraph (1) which shall be included under the program, but in no event shall the amount, duration, or scope of such services under the program under this section be less than the amount, duration, or scope of such services included under the State Medicaid plan for medical assistance for individuals described in section 1902(a)(10)(A) of the Social Security Act.

##### (d) PREMIUMS.—

(1) **COLLECTION OF PREMIUMS.**—Each uninsured individual who wishes to secure health care through the health care pool shall pay a premium for such coverage determined in accordance with paragraph (2).

(2) **AMOUNT OF PREMIUM.**—(A) The amount of the premium shall be determined on a sliding scale based upon the individual's family income as follows:

(i) In the case of an individual whose family income equals or exceeds 200 percent of the official poverty line for a family of that size (established by the Office of Management and Budget), the premium shall be equal to 120 percent of the actuarial value of the group benefit package provided.

(ii) In the case of an individual whose family income is below 100 percent of such poverty line, the premium shall be a nominal amount, or there shall be no premium.

(iii) In the case of an individual whose family income equals or exceeds 100 percent of such poverty line, but is less than 200 percent of such poverty line, the premiums shall be set based upon a sliding scale between the two premium amounts established under clauses (i) and (ii), but may not exceed 100 percent of the actuarial value of the group benefit package provided.

(B) For purposes of determining family income, the State shall require certification and periodic recertification in the same manner as is required under the State's program of aid to families with dependent children under part A of title IV of the Social Security Act, but in no case may recertification be required more often than on a quarterly basis.

(C) The Secretary shall establish a uniform definition of family income which shall apply to all States. Such definition shall be consistent with the definition used by the Office of Management and Budget for purposes of establishing the poverty line referred to in subparagraph (A).

(e) **DEDUCTIBLES AND COINSURANCE.**—The State may require that deductibles and coinsurance amounts be imposed for users of services under the program. If the State chooses to require such deductibles and coinsurance amounts, the combined value of the deductibles and coinsurance may not exceed 8 percent of the actuarial value of the benefit package provided.

(f) **OPEN ENROLLMENT.**—The health care pool shall provide for open enrollment in the program of health care, upon giving 30 days notice of the intent to enroll or disenroll.

(g) **PREEXISTING CONDITIONS.**—Coverage under the program may not be limited or denied by reason of any preexisting illness or medical condition.

(h) **NEEDS ASSESSMENT AND OUTREACH PROGRAM.**—The State shall conduct an ongoing program to—

(1) assess the need within the State for health care provided through the health care pool; and

(2) notify individuals who may be eligible for health care through the pool of the ex-

istence of such care and how to obtain such care.

#### SEC. 4. UNCOMPENSATED HOSPITAL CARE.

(a) **IN GENERAL.**—A State health care pool shall provide for sharing among all hospitals in the State of the costs of uncompensated care provided by any hospital in such State.

(b) **TAX ON HOSPITAL REVENUES.**—In order to comply with the requirements of section 2, the State law must require (except as otherwise provided in section 2(b)(2)) that each hospital in the State be subject to a tax on the operating net revenue of such hospital, the proceeds from which shall be used by the health care pool. Not less than 30 percent of such proceeds must be used to compensate hospitals in the State, in proportion to the amount of otherwise uncompensated care provided by each hospital.

(c) **UNCOMPENSATED CARE.**—For purposes of this section, uncompensated care is charity care, and other care provided by a hospital for which a bill is presented, but payment for which is not made within 6 months, after all reasonable efforts at collection have been made from the patient and from any third party which may be liable for such payment.

(d) **HOSPITALS SUBJECT TO POOL AND TAX REQUIREMENTS.**—(1) For purposes of this section, all hospitals located in the State shall be subject to participation in the health care pool and to the tax imposed pursuant to subsection (b), except hospitals operated by the Federal Government, psychiatric hospitals, and rehabilitation hospitals.

(2) for purposes of this section, a hospital shall be exempt from the tax imposed pursuant to subsection (b) for any taxable year if such hospital is—

(A) providing uncompensated care at a rate equal to or greater than 200 percent of the State average (as determined by the State for the most recent taxable year for which data is available); and

(B) providing care to individuals eligible for medical assistance under the State's plan approved under title XIX of the Social Security Act at a rate equal to or greater than 200 percent of the State average (as determined by the State for the most recent taxable year for which data is available).

#### SEC. 5. FEDERAL PROGRAM.

(a) **SECRETARY SHALL ESTABLISH PROGRAM.**—The Secretary of Health and Human Services shall establish a health care pool for any State which does not have in effect a State program approved pursuant to section 2(b) of this Act. Except as otherwise provided in this section, the Secretary shall operate such program in the same manner as the States are required to operate State programs under section 2.

(b) **FINANCING OF PROGRAM.**—

(1) **IN GENERAL.**—The Federal program in effect in any State pursuant to this section shall be financed by the hospital tax collected from hospitals in such State under section 4285 of the Internal Revenue Code of 1986, and from premiums collected. Not less than 30 percent of the proceeds from tax collected in any State must be used to compensate hospitals in such State for otherwise uncompensated care, in the same manner as is required under section 4, with payments to hospitals being made not less frequently than quarterly. If, after providing for a health care program and compensating all hospitals in the State for all otherwise uncompensated care, any amounts remain in the State's special account (established under paragraph (2)), such amounts

shall be refunded to the hospitals in such State, in proportion to the amount of such tax paid by each hospital.

(2) **SPECIAL ACCOUNTS.**—(A) The Secretary of the Treasury shall establish a special account in the Treasury for each State for which the Secretary of Health and Human Services has established a program under this section. Such account shall be used to operate the health care pool established by the Secretary for such State.

(B) There are hereby appropriated into each such account—

(i) amounts equivalent to the taxes received in the Treasury under section 4285 of the Internal Revenue Code of 1986 from hospitals located in such State, and

(ii) amounts collected by the Secretary of Health and Human Services as premiums from individuals enrolled in the health care program established through the health care pool in such State.

(C) The amounts appropriated by subparagraph (B) shall be transferred from time to time (but not less frequently than quarterly) from the general fund of the Treasury on the basis of estimates made by the Secretary of the Treasury. Proper adjustments shall be made in the amounts subsequently transferred to the extent prior estimates were in excess of or less than the amounts required to be transferred.

(c) **EXCISE TAX ON HOSPITAL SERVICES.**—

(1) **IN GENERAL.**—Chapter 33 of subtitle D of the Internal Revenue Code of 1986 (relating to miscellaneous excise taxes) is amended by inserting after subchapter C the following new subchapter:

“Subchapter D—Hospital Services

“Sec. 4285. Imposition of tax.

“Sec. 4286. Definitions.

“Sec. 4287. Time for filing return; estimated tax payments.

“SEC. 4285. IMPOSITION OF TAX.

“(a) **TAX IMPOSED.**—There is hereby imposed on hospital services a tax equal to 3 percent of the net hospital charges for the taxable year of any hospital which is located in a State and is not subject to a program of such State approved under section 2 of the Health Care for the Uninsured Act of 1987.

“(b) **PAYMENT OF TAX.**—The tax imposed by this section shall be paid by the hospital.

“SEC. 4286. DEFINITIONS.

“For purposes of this subchapter—

“(1) **NET HOSPITAL CHARGES.**—The term ‘net hospital charges’ means the excess (if any) of—

“(A) the hospital charges of the hospital for such taxable year, over

“(B) the hospital charge reductions of the hospital for such taxable year.

“(2) **HOSPITAL CHARGES.**—The term ‘hospital charges’ means the amount imposed by the hospital for hospital services, ambulatory services, and ancillary services.

“(3) **HOSPITAL CHARGE REDUCTIONS.**—The term ‘hospital charge reductions’ means the amount which equals—

“(A) uncollectable hospital charges, including bad debts,

“(B) the value of uncompensated care, and

“(C) contractual adjustments and discounts.

“(4) **HOSPITAL.**—The term ‘hospital’ shall not include—

“(A) any hospital operated by the Federal Government,

“(B) any psychiatric hospital,

“(C) any rehabilitation hospital, or

“(D) any hospital which is—

“(i) providing uncompensated care (as defined in section 4 of the Health Care for the Uninsured Act of 1987) at a rate equal to or greater than 200 percent of the State average (as determined by the Secretary of Health and Human Services for the most recent taxable year for which data is available); and

“(ii) providing care to individuals eligible for medical assistance under the State's plan approved under title XIX of the Social Security Act at a rate equal to or greater than 200 percent of the State average (as determined by the Secretary of Health and Human Services for the most recent taxable year for which data is available).

“SEC. 4287. TIME FOR FILING RETURN; ESTIMATED TAX PAYMENTS.

“(a) **TIME FOR FILING RETURN.**—

“(1) **IN GENERAL.**—Each hospital on which a tax is imposed by section 4285 for any taxable year shall file a return of such tax no later than the time for filing the return of tax imposed by chapter 1 for such taxable year.

“(2) **TAXABLE YEAR.**—For purposes of this chapter, the taxable year of any hospital shall be—

“(A) such hospital's taxable year for purposes of chapter 1, or

“(B) if there is no taxable year for purposes of chapter 1, the calendar year.

“(b) **ESTIMATED TAX PAYMENTS.**—For purposes of sections 6154 and 6655, any tax imposed by section 4285 shall be treated as a tax imposed by section 11.”

(2) **CONFORMING AMENDMENT.**—The table of subchapters for chapter 33 of such Code is amended by inserting after the item relating to subchapter C the following new item:

“SUBCHAPTER D.—Hospital services.”

#### SEC. 6. EFFECTIVE DATES.

(a) **IN GENERAL.**—Except as otherwise provided in paragraph (2), this Act shall become effective on the first day of the nineteenth month beginning after the date of the enactment of this Act.

(2) The Secretary of Health and Human Services may delay for up to 12 months the effective date of this Act with respect to any State if the Secretary determines that such State requires extra time to comply with the requirements of this Act due to existing contracts, the schedule of the State legislature, or other factors which the Secretary determines make compliance within 18 months impossible.

(b) **HOSPITAL TAX.**—The tax imposed by section 4285 of the Internal Revenue Code of 1986 shall apply to taxable years ending in or after the first month for which the provisions of this Act apply to the State in which the hospital is located, but only with respect to revenues received in or after such first month.

#### HEALTH CARE FOR THE UNINSURED ACT OF 1987—SECTION-BY-SECTION ANALYSIS

The purpose of this bill is to utilize the existing health care delivery system to provide access to health care services for those who are currently unable to afford care under current reimbursement mechanisms. This is accomplished by the creation of insurance pools which would make health care available based on the ability to pay. It would also reimburse hospitals for a portion of their uncompensated care.

#### SECTION 1

Section 1, provides for the short title of the bill, which is the “Health Care for the Uninsured Act of 1987.”

## SECTION 2

Section 2, mandates that a mechanism be established within each state to address the health care needs of the uninsured individuals in a state, and the uncompensated care incurred by hospitals for treating this uninsured population. The bill then allows three approaches to address these problems.

1. The first approach would require the establishment of a "State Health Care Pool", which then implemented will accomplish the two stated objectives of this legislation.

2. If a state does not establish the program or receive a waiver by the Secretary of Health and Human Services (HHS), the model "State Health Care Pool", will be implemented at the Federal level.

3. The bill grants the Secretary of HHS the authority to grant a waiver to a State, if the Secretary determines that an independently formulated state plan will provide similar results as the model "State Health Care Pool". Such a program must be approved by the Secretary and the states must provide sufficient information to the Secretary to assist in such approval.

The section then outlines the operating and financing mechanisms for the "State Health Care Pool". The "State Health Care Pool", must provide health care, through insurance or otherwise and contribute to the cost of uncompensated care incurred by hospitals. To maintain its solvency, this section delineates the revenue sources including:

1. Funding by States, counties, and municipalities,

2. Premiums from those accessing the "Health Care Program" portion of the pool,

3. Revenues from a tax on the operating net revenues of the hospitals in a state.

## SECTION 3

Section 3, outlines the provisions of the "Health Care Program", portion of the model "State Health Care Pool". It describes the uninsured population to be served, the collection of premiums, deductibles, and coinsurances, the minimum benefit package, and a needs assessment and outreach provision.

*Uninsuredness*

The uninsured population, is defined and includes those individuals and their families who are not eligible for an employment-based health care plan, and those who are not eligible for either Medicaid or Medicare.

*Minimum benefit package*

The minimum benefit package in the "Health Care Program", could be delivered through a variety of health care delivery systems including but not limited to traditional insurance coverage, Health Maintenance Organizations (HMO's) and Preferred Provider Organizations (PPO's).

The benefits must include inpatient hospital services; emergency outpatient services; physician services; perinatal services; Laboratory and diagnostic X-ray services; nurse midwife services; home health care services; and inpatient drugs.

*Premiums*

The premium payments of each person who would seek health care coverage through the pool, will be determined on the basis of a family's financial status.

1. Those individuals with family incomes below the Federal Poverty threshold would pay no premium or a nominal premium.

2. Those individuals with family incomes greater than 200 percent of poverty, would be required to pay a premium equal to 120%

of the actuarial value of the group benefit package being offered.

3. Those individuals with income between 100 and 200 percent of the poverty level, would pay a premium on a sliding scale between the two payment levels described above, but no more than 100% of the actuarial value of the group benefit package.

*Deductibles and coinsurance*

The State may require the deductibles and coinsurance be imposed for users of the "Health Care Program", and if implemented must not exceed 8 percent of the actuarial value of the benefit package.

*Enrollment*

The bill requires an open enrollment within 30 days as part of the "Health Care Program."

*Preexisting conditions*

The bill prohibits the denial of coverage or the limitation of benefits due to a pre-existing medical condition.

*Needs assessment and outreach*

Finally, the bill requires that the state conduct a needs assessment to determine the extent of their uninsured population, and that they conduct an ongoing outreach program to notify those individuals who may be eligible for entrance into the program.

## SECTION 4

This section creates a mechanism for both raising revenues and reimbursing hospitals in a proportional manner for the amount of uncompensated care that is being delivered. Hospitals already providing a disproportionate share of charity would be exempt from any new revenue burdens. The exemption for disproportionate share hospitals would be determined by excluding those hospitals serving two times the state average of both Medicaid and uncompensated care patients.

With regard to returning these funds to the hospitals, the provision provides that a minimum of 30 percent of the hospital revenues collected will be used for the reimbursement of hospitals. Uncompensated care is defined as charity care and/or other care for which a bill is presented and for which no payment is received within 6 months.

## SECTION 5

This section outlines the mechanism that the Secretary of HHS will use to implement the "State Health Care Pool", at the Federal level if the state fails to do so. It includes the following:

1. the establishment of a special account in the Treasury for each state to be utilized in the carrying out of the provisions of this bill,

2. the imposition of a 3% net hospital revenue tax, to assist in the financing of the pool, along with the premiums, deductibles and coinsurances previously discussed,

3. a provision that once the pool is solvent, and all uncompensated care has been reimbursed, the remaining revenues from the hospital tax will be reimbursed to the hospitals in proportion to the amount of tax originally collected.

## SECTION 6

This section provides for the effective dates of the legislation beginning on the nineteenth month after the date of enactment. In addition, for states unable to respond to the new requirements under this legislation within an eighteen month period, the Secretary may delay implementation of this act for an additional 12 months.

By Mr. RIEGLE (for himself and Mr. CRANSTON):

S. 178. A bill to amend the Social Security Act to provide for improved procedures with respect to disability determinations and continuing disability reviews and to modify the program for providing rehabilitation services determined under such act to be under a disability, and for other purposes; to the Committee on Finance.

## SOCIAL SECURITY DISABILITY BENEFICIARY REHABILITATION ACT OF 1987

● Mr. RIEGLE. Mr. President, today I am again reintroducing legislation—first introduced in the 98th Congress and again in the 99th Congress to reform the Social Security Disability Insurance [SSDI] program. This legislation is almost identical to S. 1721 which I introduced on October 1, 1985, together with my colleague from California [Mr. CRANSTON]. That legislation was an improved version of S. 2369, which I introduced on February 29, 1984, during the 98th Congress. Unfortunately, S. 1721 did not receive any action during the 99th Congress.

During a period extending over a year and a half, my staff and I worked with representatives from a coalition of national organizations representing disabled persons in an effort to improve the first version of this legislation. Working closely with members of my staff, and after months of meetings and review, this coalition has played a vital part in helping to design significant and needed improvement in the SSDI Program. The groups that were part of this coalition that helped design and endorse this approach are as follows:

American Psychological Association.  
American Rehabilitation Counseling Association.  
American Association for Counseling and Development.  
American Mental Health Counselors Association.  
Association for Retarded Citizens—U.S.  
Epilepsy Foundation of America.  
International Association of Psychosocial Rehabilitation Services.  
National Alliance for the Mentally Ill.  
National Association of Private Residential Facilities for the Mentally Retarded.  
National Association of Social Workers.  
National Association of State Mental Retardation Program Directors.  
National Association of Rehabilitation Facilities.  
National Council of Community Mental Health Centers.  
National Easter Seal Society.  
National Mental Health Association.  
National Rehabilitation Counseling Association.  
United Cerebral Palsy Association, Inc.

The legislation we are introducing today is designed to improve the Social Security Disability Insurance determination process in a way that better meets the needs of disabled persons while saving Federal dollars. Rarely do we have the opportunity to improve the working of a Federal pro-

gram, better meet the needs of its beneficiaries, and save Federal funds. I believe the legislation we are introducing today accomplishes all of those objectives.

#### RETIREMENT VERSUS DISABILITY

The origins of the Social Security Disability Program demonstrate that the program was not designed to meet the unique needs of disabled persons. The legislative history shows that the first benefits for disabled persons—enacted in 1954 in Public Law 761, 83d Congress—were not disability benefits. Rather, provisions were enacted to protect retirement benefits for totally disabled persons who were forced to leave the work force prematurely. This was the so-called disability freeze provision.

To overcome the opposition to creating a new program specifically for disabled persons, the proponents of disability insurance initially presented their proposal as a modification of the retirement program in the form of a reduction in the retirement age of disabled persons. In fact, the first cash benefits for disabled persons—enacted in 1955 in Public Law 880, 84th Congress—was part of a package to reduce the age that individuals become eligible for retirement benefits; disabled persons at age 50 and women at age 62.

In 1960—enacted as Public Law 88-778—the age limitation for cash disability benefits was eliminated. Nevertheless, the underlying basis of the program, that is, a cash benefit program providing for the early retirement of disabled persons, has never been modified. Although over the years amendments were added to the Social Security Act attempting to reorient the early retirement basis of the SSDI Program, the underlying philosophical basis remains unchanged.

#### CURRENT SITUATION

Mr. President, it is unfortunate that the SSDI Program is seen by many as an early retirement program for people too disabled to continue working. In June of 1980, Congress enacted Public Law 96-265 which included a provision, section 221(i), requiring the ongoing review of disability beneficiaries, the CDI's. In part, many of the difficulties that resulted from the CDI's stem from the incompatibility of an ongoing review and the underlying early retirement orientation of the SSDI Program.

Mr. President, because the modern SSDI Program has evolved from an early retirement program for disabled workers, the concept and application of the CDI's is incompatible with the underlying originating principles of the program. Most individuals perceive retirement as a permanent condition not subject to external review. Before the statutory enactment of the CDI's Social Security reviewed only those

disabled beneficiaries to whom they told upon initial allowance that a re-examination would be scheduled. Those were mostly individuals who had conditions that were likely to improve.

For the vast majority of beneficiaries, a review of their disability status was not envisioned. Before enactment of the CDI provisions, beneficiaries not scheduled or diaried for review were treated in the same manner as retired beneficiaries. The only procedural check utilized to determine the continued eligibility for benefits was the voluntary self-reporting on the part of the beneficiaries. Again, for the non-diaried SSDI beneficiaries, both within the mind of the beneficiary and within the minds of the administrators of the program, entitlement was seen as lasting until death or until the beneficiary voluntarily reported a change in his or her condition, such as returning to work.

Mr. President, the political pressures that necessitated the early retirement orientation of the SSDI Program have passed, and I believe it is time to reshape the program to provide benefits for disabled persons, as opposed to early retirees. This objective can be most easily accomplished by modifying the underlying orientation away from early retirement toward benefits and services for disabled persons. This can be done largely by modifying the determination process and without expanding the universe of individuals eligible for cash benefits.

In addition, a program truly geared to the needs of disabled persons, providing them with rehabilitation services—in addition to cash benefits—will result in many disabled beneficiaries leaving the disability rolls. The result should be the savings of significant funds while directly meeting the needs of disabled persons.

A reoriented program should be designed along similar lines for disabled recipients of SSI benefits, and the bill I am introducing today accomplishes both of these objectives.

#### PROVISIONS OF S. 178

Mr. President, as I have mentioned, the objective of this legislation is to redirect the SSDI Program away from the retirement model and toward a program specifically designed to meet the needs of disabled workers. In doing this, we will more adequately address the needs of newly disabled Americans and reduce cash outlays, thereby helping to secure the financial integrity of the Disability Insurance Trust Fund.

The bill I am proposing does not entail a radical reworking of the existing program because Congress has in fact been moving in this direction through piecemeal reforms over the last three decades. I am simply proposing to integrate many of the previous reforms—which were just tacked on to

existing procedures—into a unified system by altering the methods used for evaluating eligibility for benefits.

Under the current system, an individual applying for disability benefits is only evaluated from the narrow perspective of establishing the existence of a medical disability. An applicant has an incentive to heighten the severity of the disabling conditions while the administrators have an incentive to minimize existing maladies. Under current practice, a very complex determination is made with regard to the severity and duration of the disabling condition, and then a decision is made regarding whether a benefit is either awarded or denied. At no point in the process is the Social Security Administration providing—nor is it expected to provide—assistance to these disability applicants beyond, of course, the cash benefit for those who are eligible.

Mr. President, the provisions of S. 178 would alter the incentives contained in the current program by integrating a vocational rehabilitation evaluation into the initial and ongoing determination process. Even though such a determination is currently required under section 222 of the Social Security Act, it is ignored in practice. Since the Beneficiary Rehabilitation Program [BRP] was essentially repealed in 1981, the State disability examiners have no incentives for evaluating the rehabilitation potential of SSDI applicants.

Hence, all of the cost savings which the Social Security Administration has determined result from beneficiary rehabilitation are lost under the present evaluation procedures. It was in 1981, that the Social Security Administration found that savings to the Disability Insurance Trust Fund ranged between \$1.39 and \$2.72 for every \$1 spent on vocational rehabilitation services for DI beneficiaries. Social Security Bulletin, February, 1981/Vol. 44, No. 2, pp. 1-8.

The legislation I am proposing today does not resurrect the Beneficiary Rehabilitation Program, which was cost effective in spite of the lack of precision the program had in providing rehabilitation funds for beneficiaries most likely to benefit from such services. What I'm proposing in this legislation is to require an initial evaluation of rehabilitation potential along with the medical determination of a disability.

Prospect beneficiaries would be divided into the following groups based upon the extent and duration of their disabling condition:

First, those with long-term or permanent disabilities—that is, those not subject to the mandatory CDI review under 221(i); or

Second, those with disabilities that are anticipated to last more than 12 months but where it is reasonable to

anticipate improvement or change in the disabling condition at some point after the 12 month period—that is, those subject to the mandatory CDI review under 221(i); or

Third, to those individuals under a disability albeit not sufficiently severe nor anticipated to last more than 12 months that is, those individuals who would be denied cash benefits under the law.

This is similar to the procedure used under current law and is basically the method used for determining for cash benefits. However, during the same period of evaluation for cash benefits, the prospective beneficiary would be assessed for rehabilitation potential, and one of the three following determinations would be made:

First, the prospective beneficiary cannot benefit from rehabilitation services; or

Second, rehabilitation services would be of benefit to the prospective beneficiary, albeit it is extremely unlikely to result in an effort to return to work and eventually in the cessation of cash disability benefits; or

Third, there is the possibility that rehabilitation services will result in an effort to return to work and thereby in the eventual cessation of cash benefits.

Mr. President, under S. 178 all individuals would be required to go through both the disability determination and rehabilitation evaluation before they would be notified of the results of either exam. The universe of individuals who would be eligible for cash benefits would include only those individuals who would be eligible under current law.

The major difference with the current program is that for the first time there would be a workable requirement that applicants be evaluated for rehabilitation potential and where appropriate, referred to rehabilitation providers. Those for whom it was determined that rehabilitation would provide some benefit but not lead to an attempt to return to work would be directed to the State agency or rehabilitation services.

For those individuals the State would provide—as required under current law—services with funds available through the State Grant Program—the section 101 program of the Rehabilitation Act. For those individuals where there is a possibility that rehabilitation services will result in successful return to work effort and therefore in the eventual cessation of benefits, Social Security will refer that individual to a rehabilitation provider, whether public or private, who can best meet the rehabilitation needs of the SSDI beneficiary.

Because a judgment has been made that these individuals have the best chance of returning to work and dropping off of the disability rolls, the cost

of rehabilitating these individuals would be financed out of the Social Security Disability Trust Fund. Under this program and with the careful selection of rehabilitation candidates—as previous experience has demonstrated—the trust funds should experience a net surplus of dollars.

Mr. President, it is important to note that the scope of rehabilitation services envisioned under this legislation follows section 103, of the Rehabilitation Act, and is extremely broad. Therefore, this legislation envisions Social Security providing a wide range of rehabilitation services for individuals where the possibility of a return to work effort exists. For example, section 103(a)(4) of the Rehabilitation Act, includes within the scope of rehabilitation services, among other items:

Physical and mental restorative services, including, but not limited to, (A) corrective surgery or therapeutic treatment necessary to correct or substantially modify a physical or mental condition which is stable or slowly progressive and constitutes a substantial handicap to employment \* \* \*

Therefore, it would be possible, under this bill, for the Social Security Administration to provide certain health services not ordinarily provided for under the Medicare or Medicaid Programs, assuming that such services would result in the removal of barriers to employment.

All of the cash beneficiaries in receipt of rehabilitation benefits would be exempt from the current CDI reviews and would be monitored by SSA through rehabilitation reports that all providers of rehabilitation services would be required by statute to provide. These reports would be required at a minimum of once every 3 years for all beneficiaries who were not permanently disabled. The rehabilitation report would include an assessment of the beneficiaries' progress in the rehabilitation program including any improvement that might affect the disability status of the beneficiary, including, but not limited to a return to work effort.

The Social Security Administration would evaluate the rehabilitation report to determine whether a review of the disability status of the beneficiary would be appropriate. All of the beneficiaries not in a rehabilitation program are reviewed within the same intervals as under current law and regulations.

In an effort to remain consistent with the SSI Program, and since similar principles apply to SSI disabled recipients, who in many cases are also in need of rehabilitation services, the bill we are introducing today also extends the modifications in the eligibility determination process to the SSI Program.

Mr. President, what I am proposing today represents a significant improvement in the Social Security Disability

Program with only relatively minor modifications in the current program. S. 178 takes the final step in completing a series of reforms which Congress initiated soon after the enactment of the original program. With the modifications I am proposing today, we can, for the first time, say we have a national disability program that is designed to address the unique needs of disabled Americans.

Mr. President, I ask unanimous consent that the full text of S. 178 be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 178

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Social Security Disability Beneficiary Rehabilitation Act of 1987".*

Sec. 2. (a)(1) Section 221(a)(1) of the Social Security Act is amended—

(A) by striking out "and of" and inserting in lieu thereof ", the disability category that best describes the condition of such individual, and";

(B) by striking out "(A)" each place it appears and inserting in lieu thereof "(i)";

(C) by striking out "(B)" each place it appears and inserting in lieu thereof "(ii)";

(D) by inserting "(A)" after the paragraph designation; and

(E) by adding at the end thereof the following new subparagraphs:

"(B) In making a determination with respect to whether an individual is under a disability (as defined in section 223(d)), the State agency making such determination or the Secretary, as the case may be, shall at the same time determine which of the following disability categories best describes the condition of such individual at the time such determination is made:

"(i) The individual is under a disability (as defined in section 223(d)) that is permanent and can not benefit from vocational rehabilitation services (as described in section 103 of the Rehabilitation Act of 1973 (29 U.S.C. 723)) or from comprehensive services for independent living (as described in title VII of such Act (29 U.S.C. 796 et seq.)).

"(ii) The individual is under a disability that is permanent, is unlikely to engage in substantial gainful activity (in the case of an individual making application for benefits under section 202(d) or 223) or any gainful activity (in the case of an individual making application for benefits under subsection (e) or (f) of section 202) in the future, but can benefit from vocational rehabilitation services or comprehensive services for independent living.

"(iii) The individual is under a disability that is permanent, can benefit from vocational rehabilitation services, and, if provided with such services, would possibly engage in substantial gainful activity or any gainful activity, as the case may be, as the result of having been provided with such services.

"(iv) The individual is under a disability that is not permanent and cannot benefit from vocational rehabilitation services.

"(v) The individual is under a disability that is not permanent, is unlikely to engage in substantial gainful activity or any gainful activity, as the case may be, in the future, but can benefit from vocational rehabilitation

tion services or comprehensive services for independent living.

"(vi) The individual is under a disability that is not permanent, can benefit from vocational rehabilitation services, and, if provided with such services, would possibly engage in substantial gainful activity or any gainful activity, as the case may be, as the result of having been provided with such services.

"(vii) The individual is under a medically determinable physical or mental impairment that is not a disability (as defined in section 223(d)), and could possibly benefit from vocational rehabilitation services provided under title I of the Rehabilitation Act of 1973 (29 U.S.C. 720 et seq.).

"(viii) The individual is under a medically determinable physical or mental impairment that is not a disability, and could not benefit from vocational rehabilitation services.

"(ix) The individual is not under a disability or any other medically determinable physical or mental impairment.

Determinations under this subparagraph shall be made in accordance with standards promulgated by the Secretary in consultation with the Commissioner of the Rehabilitation Services Administration of the Department of Education.

"(C) Notice to an individual of a decision by the Secretary with respect to whether an individual is under a disability (as defined in section 223(d)) shall include, in addition to the matters required to be included in the notice of such decision under section 205(b)(1)—

"(i) an explanation, in understandable language, of the reasons why the State agency or the Secretary, as the case may be, has determined that a particular disability category set forth in subparagraph (B) best describes the condition of such individual; and

"(ii) in the case of an individual with respect to whom it is determined that vocational rehabilitation services or comprehensive services for independent living would be beneficial—

"(I) a statement that such individual is eligible for such services;

"(II) a brief explanation of the disability review provisions of subsection (i) and the application of such provisions to such individual; and

"(III) information with respect to how to apply for such services.

"(D) The Secretary shall take such steps as may be necessary to ensure that—

"(i) all determinations required by this paragraph are made in a timely manner, and

"(ii) the payment of benefits to disabled individuals under this title is not delayed by reason of such determinations."

(2) Section 221(c)(1) of such Act is amended by inserting "that a different disability category set forth in subsection (a)(1)(B) best describes the condition of such individual," after "(as so defined)".

(3) Section 221(d) of such Act is amended by striking out "subsection (a)," and inserting in lieu thereof "subsection (a) (including a determination of the disability category set forth in subsection (a)(1)(B) that best describes the condition of an individual), or under subsection".

(4) Section 221(g) of such Act is amended by striking out "(a) shall" and inserting in lieu thereof "(a) (including determinations with respect to which of the disability categories set forth in paragraph (1)(B) of such subsection best describes the condition of an individual) shall".

(b) Section 221(i) of such Act is amended—

(1) in paragraph (1)—

(A) by inserting "and such individual is not eligible for or is not (for any reason) receiving vocational rehabilitation services or comprehensive services for independent living provided in accordance with section 222," after "disability,"; and

(B) by striking out all beginning with "years" through "administration of this title," and inserting in lieu thereof "years in the case of an individual determined under subsection (a)(1)(B) to be under a disability that is not permanent, and at least once every 7 years in the case of an individual determined under such subsection to be under a disability that is permanent,"; and

(2) by striking out paragraphs (2) and (3) and inserting in lieu thereof the following new paragraphs:

"(2) In any case in which an individual is or has been determined to be under a disability and such individual is receiving vocational rehabilitation services or comprehensive services for independent living provided in accordance with section 222, the case shall be reviewed by the applicable State agency or the Secretary (as may be appropriate), for purposes of continuing eligibility, whenever such agency or the Secretary concludes, on the basis of a report made in accordance with section 222(b)(2) that such a review is warranted.

"(3) Reviews of cases under paragraphs (1) and (2) shall be in addition to, and shall not be considered as a substitute for, any other reviews that are required or provided for under or in the administration of this title."

(c)(1) Subsections (a) and (b) of section 222(a) of such Act are amended to read as follows:

#### "REFERRAL FOR SERVICES

"(a)(1) Except in the case of an individual referred to a facility pursuant to paragraph (2), the State agency making determinations of whether an individual is under a disability (as defined in section 223(d)) or the Secretary, as the case may be, shall promptly refer any individual determined to fall within a disability category set forth in clause (ii), (iii), (v), (vi), or (vii) of section 221(a)(1)(B), to (A) the State agency or agencies administering or supervising the administration of the State plan approved under title I of the Rehabilitation Act of 1973 (29 U.S.C. 720 et seq.) for necessary vocational rehabilitation services, or (B) the State unit (if any) designated under section 705 of such Act (29 U.S.C. 796d) to administer a State plan approved under title VII of such Act (29 U.S.C. 796 et seq.) for such services, as may be appropriate.

"(2)(A) If an individual is determined in accordance with paragraph (1) of section 221(a) to be under a disability and to fall within a disability category set forth in clause (iii) or (vi) of subparagraph (B) of such paragraph, the State agency or the Secretary, as the case may be, may refer such individual directly to a facility that has been certified by the Secretary as qualified to be a provider of vocational rehabilitation services and shall make payments directly to such facility for vocational rehabilitation services furnished to such individual."

"(B)(i) Any individual who—

"(I) is referred under this paragraph to a provider of vocational rehabilitation services, and

"(II) is dissatisfied for any reason with the services of the provider,

may request that the State agency or the Secretary, as the case may be, refer him or her to another provider of such services.

"(ii) The State agency or the Secretary, as the case may be, shall promptly make a determination with respect to such request and notify the individual of the determination. If the request is denied, the notice required by this clause shall contain a statement, in understandable language, of the reason or reasons for the denial of the request.

"(iii) Any individual making a request under this subparagraph shall be entitled to a hearing on the determination made under clause (ii) with respect to the request to the same extent as provided in section 205(b) for decisions of the Secretary, and to judicial review of the final decision made after the hearing, as is provided in section 205(g).

#### "ELIGIBILITY FOR SERVICES; REPORTING BY REHABILITATION FACILITIES, INDEPENDENT LIVING FACILITIES, AND CERTIFIED PROVIDERS

"(b)(1) An individual determined in accordance with paragraph (1) of section 221 (a) to be under a disability or other medically determinable physical or mental impairment and to fall within a disability category set forth in clause (iii), (vi), or (vii) of subparagraph (B) of such paragraph (other than an individual referred to (and receiving vocational rehabilitation services from) a provider in accordance with the provisions of paragraph (2) of subsection (a) of this section) shall be eligible for vocational rehabilitation services provided under title I of the Rehabilitation Act of 1973 (29 U.S.C. 720 et seq.).

"(2) An individual determined in accordance with paragraph (1) of section 221(a) to be under a disability and to fall within a disability category described in clause (ii) or (v) of subparagraph (B) of such paragraph shall be eligible for vocational rehabilitation services provided under title I of the Rehabilitation Act of 1973 (29 U.S.C. 720 et seq.) or comprehensive services for independent living provided under title VII of such Act (29 U.S.C. 796 et seq.).

"(3) (A) A facility that—

"(i) is a rehabilitation facility and provides vocational rehabilitation services to an individual described in paragraph (1) or (2) of this subsection (other than an individual determined in accordance with paragraph (1) of section 221(a) to fall within the disability category set forth in subparagraph (B) (vii) of such paragraph) under a State plan approved under title I of the Rehabilitation Act of 1973, or

"(ii) provides comprehensive services for independent living to an individual described in paragraph (2) of this subsection under a State plan approved under title VII of such Act (29 U.S.C. 796 et seq.),

shall report promptly to the agency of such State that determines whether an individual is under a disability (as defined in section 223(d)) or the Secretary, as the case may be—

"(I) the termination of the provision of such services to such individual (and the reason or reasons for such termination); and

"(II) any significant change in the impairment of such individual and any change in the employment status of such individual that might warrant a review with respect to the disability of such individual in accordance with section 221(i).

"(B) A rehabilitation facility that provides vocational rehabilitation services under a plan approved under title I of the Rehabilitation Act of 1973 to an individual deter-

mined in accordance with paragraph (1) of section 221(a) to be under a disability and to fall within the disability category set forth in clause (v) or (vi) of subparagraph (B) of such paragraph shall, in addition to submitting any reports required under subparagraph (A) with respect to such individual, submit a report once every 3 years that evaluates—

"(i) the progress of such individual toward the achievement of the goals established with respect to such individual and included in the individualized written plan of vocational rehabilitation developed for such individual pursuant to paragraph (1) of subsection (e);

"(ii) the likelihood that such individual will engage in substantial gainful activity or any gainful activity, as the case may be, in the future as the result of such services; and

"(iii) any other matters that are relevant to determination or redetermination of the disability status of such individual.

"(C) Failure by a facility described in subparagraph (A) (i) or (ii) to report a change in the condition of an individual described in paragraph (1) or (2) (other than an individual determined to fall within the disability category set forth in clause (vii) of section 221(a)(1)(B)), that such facility knows or has reason to know would result in a determination that such individual is no longer under a disability, shall be a misdemeanor and, upon conviction thereof, shall be punishable by a fine of up to \$10,000.

"(D) Any provision of this paragraph that is applicable to a rehabilitation facility shall also apply to a provider of vocational rehabilitation services to which individuals are referred in accordance with paragraph (2) of subsection (a)."

(2) Section 222 of such Act is further amended by striking out subsection (d) and inserting in lieu thereof the following new subsections:

#### "COSTS OF SERVICES FROM TRUST FUNDS"

"(d)(1) For purposes of making vocational rehabilitation services and comprehensive services for independent living more readily available to disabled individuals who are—

"(A) entitled to disability insurance benefits under section 223,

"(B) entitled to child's insurance benefits under section 202(d) after having attained age 18 (and are under a disability),

"(C) entitled to widow's insurance benefits under section 202(e) prior to attaining age 60, or

"(D) entitled to widower's insurance benefits under section 202(f) prior to attaining age 60,

to the end that savings will accrue to the Trust Funds as a result of rehabilitating such individuals, the Managing Trustee shall transfer funds from the Federal Old-Age and Survivors Insurance Trust Fund and the Federal Disability Insurance Trust Fund in the manner prescribed in paragraphs (2) and (3).

"(2) The Managing Trustee shall, from time to time during each fiscal year, transfer from the Trust Funds such sums as may be necessary to enable the Secretary to make payments to State agencies administering or supervising the administration of a State plan approved under title I of the Rehabilitation Act of 1973 (29 U.S.C. 720 et seq.) and to facilities certified under subsection (a)(2) as providers of vocational rehabilitation services for the reasonable and necessary costs of furnishing vocational rehabilitation services to individuals determined to be under a disability in accordance with paragraph (1) of section 221(a) and to

fall within a disability category set forth in clause (iii) or (vi) of subparagraph (B) of such paragraph (including services during the waiting periods of such individuals). Payments made under this paragraph shall be made in advance and shall be subject to adjustment on account of underpayments and overpayments.

"(3) The Managing Trustee shall transfer from such Trust Funds each fiscal year such sums as may be necessary to enable the Secretary to reimburse State agencies administering or supervising the administration of a State plan approved under title I of the Rehabilitation Act of 1973 and State units designated under section 705 of such Act (29 U.S.C. 796d) to administer plans approved under title VII of such Act for the reasonable and necessary costs of furnishing vocational rehabilitation services or comprehensive services for independent living (including services furnished during waiting periods) under such a plan to individuals determined to be under a disability in accordance with paragraph (1) of section 221(a) of this Act, to fall within a disability category described in clause (ii) or (v) of subparagraph (B) of such paragraph, and to have engaged in substantial gainful activity or any gainful activity, as the case may be, for a continuous period of nine months as a result of such services. The determination that such services contributed to the return of an individual to substantial gainful activity, or any gainful activity, as the case may be, and the determination of the costs to be reimbursed under this paragraph, shall be made by the Commissioner of Social Security in accordance with criteria formulated by the Commissioner. Payments made under this paragraph shall be subject to adjustment on account of underpayments and overpayments.

"(4) Money paid from the Trust Funds under this subsection for the reimbursement of the costs of providing services to individuals who are entitled to benefits under section 223 (including services during the waiting periods of such individuals), or who are entitled to benefits under section 202(d) on the basis of the wages and self-employment income of such individuals, shall be charged to the Federal Disability Insurance Trust Fund, and all other money paid from the Trust Funds under this subsection shall be charged to the Federal Old-Age and Survivors Insurance Trust Fund. The Secretary shall determine according to such methods and procedures as the Secretary may deem appropriate—

"(A) the total amount to be transferred for the cost of services under this subsection, and

"(B) subject to the provisions of the preceding sentence, the amount that should be charged to each of the Trust Funds.

#### "INDIVIDUALIZED WRITTEN PLANS OF VOCATIONAL REHABILITATION; STANDARDS FOR PROVIDERS"

"(e)(1)(A) A facility that provides vocational rehabilitation services or comprehensive services for independent living to an individual eligible under this section for such services shall do so in accordance with an individualized written plan of vocational rehabilitation for such individual.

"(B) Notwithstanding section 102 of the Rehabilitation Act of 1973 (29 U.S.C. 722), the individualized written plan of vocational rehabilitation required by subparagraph (A) shall be developed, implemented, and reviewed in a manner that is, to the greatest extent practicable and consistent with the provisions of this title, the same as the manner in which plans required by section

1507 of title 38, United States Code, are developed, implemented, and reviewed.

"(2)(A) A facility that provides vocational rehabilitation services or comprehensive services for independent living to an individual eligible under this section for such services shall meet such standards as the Secretary may by regulation prescribe.

"(B) In promulgating regulations under subparagraph (A), the Secretary shall consult with the Commissioner of the Rehabilitation Services Administration of the Department of Education and, to the greatest extent practicable and consistent with the purposes of this section, shall incorporate the standards applicable to facilities and providers of such services under titles I and VII of the Rehabilitation Act of 1973 on the day before the date of the enactment of this subsection.

#### "DEFINITIONS"

"(f)(1) For purposes of this section—

"(A) except as provided in paragraph (2), the term 'rehabilitation facility' shall have the meaning given to such term in section 7 (11) of the Rehabilitation Act of 1973 (29 U.S.C. 706 (11));

"(B) the term 'vocational rehabilitation services' shall have the meaning given to such term in section 103 of such Act (29 U.S.C. 723); and

"(C) the term 'comprehensive services for independent living' shall have the meaning given to such term in title VII of such Act (29 U.S.C. 796 et seq.).

"(2) Vocational rehabilitation services and comprehensive services for independent living provided pursuant to this section may be limited in type, scope, or amount in accordance with regulations promulgated by the Secretary in order to ensure that such services are consistent with the purposes of subsection (d)."

(d)(1) Section 222(c)(4)(A) of such Act is amended to read as follows:

"(A) the ninth month in which the individual renders services (whether or not such nine months are consecutive) of any fifteen-month period beginning on or after the first day of such period of trial work; or"

(2) Section 222(c) of such Act is amended—

(A) by striking out "(3) and (4)" in paragraph (1) and inserting in lieu thereof "(3), (4), and (6)"; and

(B) by adding at the end thereof the following new paragraph:

"(6) In the case of an individual determined in accordance with paragraph (1) of section 221(a) to be under a disability (as defined in section 223(d)) and to fall within a disability category set forth in clause (iii) or (vi) of subparagraph (B) of such paragraph, subparagraph (A) of paragraph (4) of this subsection shall be applied—

"(A) by substituting 'twelfth' for 'ninth'; and

"(B) by substituting 'twelve' for 'nine'."

(e) Section 223(d)(4) of such Act is amended by adding at the end thereof the following new sentence: "In determining whether earnings derived from services performed by an individual demonstrate the individual's ability to engage in substantial gainful activity, earnings derived from transitional work, supported work, and services performed in a sheltered workshop shall not be taken into account unless such earnings equal or exceed an amount equal to twice the amount of earnings that (but for this sentence) would result in a determination that such individual is able to engage in substantial gainful activity."

(f)(1) This section and the amendments made by this section shall become effective on the day that is 180 days after the date of the enactment of this Act.

(2)(A) The amendments made by subsection (a) of this section shall apply to any determination made under subsection (a), (b), or (g) of section 221 of the Social Security Act (including a determination made for purposes of a continuing eligibility review required by subsection (i) of such section) on or after the date on which such amendments become effective.

(B) The amendments made by subsections (b), (c), and (d) of this section shall apply to any individual with respect to whom a determination is made under subsection (a), (c), or (g) of section 221 of the Social Security Act on or after the date on which such amendments become effective.

(3)(A) Subsections (c) and (d) of section 222 of the Social Security Act, as in effect on the day before the date on which the amendments made by this section become effective, shall continue to apply to any individual—

(i) who on such day is entitled to benefits under subsection (d), (e), or (f) of section 202 of such Act by reason of disability or to disability insurance benefits under section 223 of such Act, and

(ii) with respect to whom a determination has not been made under subsection (a), (c), or (g) of section 221 of such Act (as amended by subsection (a) of this section) after such day.

(B)(i) Any individual described in subparagraph (A) who desires to have his or her case reviewed in accordance with the procedures established by the amendments made by subsection (a) of this section may request that a determination be made under the applicable subsection of section 221 of the Social Security Act (as so amended).

(ii) The Secretary of Health and Human Services shall take such steps as may be necessary to ensure that (I) any individual described in subparagraph (A) is informed of the right of such individual to request a review under clause (i) and (II) a prompt determination is made with respect to any individual requesting such a review.

(4) The amendments made by subsection (e) shall apply with respect to months beginning on or after the date on which this section becomes effective.

Sec. 3. (a)(1) Section 1614 of the Social Security Act is amended by adding at the end thereof the following new subsection:

"(g)(1) In making a determination under paragraph (2) or (3) of subsection (a) with respect to whether an individual is a blind or disabled individual, the State agency making such determination or the Secretary, as the case may be, shall at the same time determine which of the following disability categories best describes the condition of such individual at the time such determination is made:

"(A) The individual is a blind or disabled individual whose impairment is permanent and who can not benefit from vocational rehabilitation services (as described in section 103 of the Rehabilitation Act of 1973 (29 U.S.C. 723)) or from comprehensive services for independent living (as described in title VII of such Act (29 U.S.C. 796 et seq.)).

"(B) The individual is a blind or disabled individual whose impairment is permanent, who is unlikely to engage in substantial gainful activity in the future, but who can benefit from vocational rehabilitation services or comprehensive services for independent living.

"(C) The individual is a blind or disabled individual whose impairment is permanent, who can benefit from vocational rehabilitation services, and who, if provided with such services, would possibly engage in substantial gainful activity as the result of having been provided with such services.

"(D) The individual is a blind or disabled individual whose impairment is not permanent and who can not benefit from vocational rehabilitation services.

"(E) The individual is a blind or disabled individual whose impairment is not permanent, who is unlikely to engage in substantial gainful activity in the future as the result of such services, but who can benefit from vocational rehabilitation services or comprehensive services for independent living.

"(F) The individual is a blind or disabled individual whose impairment is not permanent, who can benefit from vocational rehabilitation services, and who, if provided with such services, would possibly engage in substantial gainful activity as the result of having been provided with such services.

"(G) The individual is not a blind or disabled individual but is under a medically determinable physical or mental impairment, and could possibly benefit from vocational rehabilitation services provided under title I of the Rehabilitation Act of 1973 (29 U.S.C. 720 et seq.).

"(H) The individual is under a medically determinable physical or mental impairment, but is not a blind or disabled individual and could not benefit from vocational rehabilitation services.

"(I) The individual is not a blind or disabled individual and is not under any other medically determinable physical or mental impairment.

Determinations under this paragraph shall be made in accordance with standards promulgated by the Secretary in consultation with the Commissioner of the Rehabilitation Services Administration of the Department of Education.

"(2) Notice to an individual of a decision under paragraph (2) or (3) of subsection (a) with respect to whether such individual is a blind or disabled individual shall include, in addition to the matters required to be included in the notice of such decision under section 1631(c)(1)—

"(A) an explanation, in understandable language, of the reasons why the State agency or the Secretary, as the case may be, has determined that a particular disability category set forth in paragraph (1) best describes the condition of such individual; and

"(B) in the case of an individual with respect to whom it is determined that vocational rehabilitation services or comprehensive services for independent living would be beneficial—

"(i) a statement that such individual is eligible for such services; and

"(ii) information with respect to how to apply for such services.

"(3) The Secretary shall take such steps as may be necessary to ensure that—

"(A) all determinations under this subsection and paragraphs (2) and (3) of subsection (a) are made in a timely manner, and

"(B) the payment of benefits to blind and disabled individuals under this title is not delayed by reason of such determinations."

(2) Section 1631(c)(1) of such Act is amended—

(A) by inserting after the second sentence the following: "Each decision by the Secretary with respect to whether an individual is disabled for purposes of receiving benefits

under this title shall also contain a statement, in understandable language, of the reasons the individual has been determined to fall within a particular disability category set forth in section 1614(g)(1)."; and

(B) by striking out "or the amount of such individual's benefits" and inserting in lieu thereof "the amount of such individual's benefits, or the disability category set forth in section 1614(g)(1) that best describes the condition of such individual".

(b) Section 1615 of such Act is amended to read as follows:

#### "SERVICES FOR BLIND AND DISABLED INDIVIDUALS"

"Sec. 1615. (a)(1) Except in the case of an individual referred to a facility pursuant to paragraph (2), the State agency making determinations under paragraphs (2) and (3) of section 1614(a) with respect to whether an individual is a blind or disabled individual or the Secretary, as the case may be, shall promptly refer any individual determined to fall within a disability category set forth in subparagraph (B), (C), (E), (F), or (G) of section 1614(g)(1) to (A) the State agency or agencies administering or supervising the administration of the State plan approved under title I of the Rehabilitation Act of 1973 (29 U.S.C. 720 et seq.) for necessary vocational rehabilitation services, or (B) the State unit (if any) designated under section 705 of such Act (29 U.S.C. 796d) to administer a State plan approved under title VII of such Act (29 U.S.C. 796 et seq.) for such services, as may be appropriate.

"(2)(A) If an individual is determined in accordance with paragraph (2) or (3) of subsection (a) of section 1614 to be a blind or disabled individual and to fall within a disability category described in subparagraph (C) or (F) of subsection (g)(1) of such section, the State agency or the Secretary, as the case may be, may refer such individual directly to a facility that has been certified by the Secretary as qualified to be a provider of vocational rehabilitation services and shall make payments directly to such facility for vocational rehabilitation services furnished to such individual.

"(B)(i) Any individual who—

"(I) is referred under this paragraph to a provider of vocational rehabilitation services, and

"(II) is dissatisfied for any reason with the services of the provider,

may request that the State agency or the Secretary, as the case may be, refer him or her to another provider of such services.

"(ii) The State agency or the Secretary, as the case may be, shall promptly make a determination with respect to such request and notify the individual of the determination. If the request is denied, the notice required by this clause shall contain a statement, in understandable language, of the reason or reasons for the denial of the request.

"(iii) Any individual making a request under this subparagraph shall be entitled to a hearing on the determination made under clause (ii) with respect to the request to the same extent as provided in section 205(b) for decisions of the Secretary, and to judicial review of the final decision made after the hearing, as is provided in section 205(g).

"(b)(1) An individual determined in accordance with paragraph (2) or (3) of subsection (a) of section 1614 to be a blind or disabled individual or to have some other medically determinable physical or mental impairment, and to fall within a disability category described in subparagraph (C), (F),

or (H) of subsection (g)(1) of such section (other than an individual receiving vocational rehabilitation services in accordance with the provisions of paragraph (2) of subsection (a) of this section) shall be eligible for vocational rehabilitation services provided under title I of the Rehabilitation Act of 1973 (29 U.S.C. 720 et seq.).

"(2) An individual determined in accordance with paragraph (2) or (3) of subsection (a) of section 1614 to be a blind or disabled individual and to fall within a disability category set forth in subparagraph (B) or (E) of subsection (g)(1) of such section shall be eligible for vocational rehabilitation services provided under title I of the Rehabilitation Act of 1973 (29 U.S.C. 720 et seq.) or comprehensive services for independent living provided under title VII of such Act (29 U.S.C. 796 et seq.).

"(3)(A) A facility that—

"(i) is a rehabilitation facility and provides vocational rehabilitation services to an individual described in paragraph (1) or (2) of this subsection (other than an individual determined to fall within the disability category described in section 1614(g)(1)(G)), under a State plan approved under title I of the Rehabilitation Act of 1973, or

"(ii) provides comprehensive services for independent living to an individual described in paragraph (2) of this subsection under a State plan approved under title VII of such Act (29 U.S.C. 796 et seq.),

shall report promptly to the agency of such State that determines whether an individual is a blind or disabled individual or to the Secretary, as the case may be—

"(I) the termination of the provision of such services to such individual (and the reason or reasons for such termination); and

"(II) the return to work of such individual.

"(B) Any provision of this paragraph that is applicable to a rehabilitation facility shall also apply to a provider of vocational rehabilitation services to which individuals are referred in accordance with paragraph (2) of subsection (a).

"(c)(1) The Secretary is authorized to make payments to State agencies administering or supervising the administration of a State plan approved under title I of the Rehabilitation Act of 1973 (29 U.S.C. 720 et seq.) and to facilities certified under subsection (a)(2) as providers of vocational rehabilitation services for the reasonable and necessary costs of furnishing vocational rehabilitation services to individuals determined to be blind or disabled individuals under paragraph (2) or (3) of subsection (a) of section 1614 and to fall within a disability category set forth in subparagraph (C) or (F) of subsection (g)(1) of such section (including services during the waiting periods of such individuals). Payments made under this paragraph shall be made in advance and shall be subject to adjustment on account of underpayments and overpayments.

"(2) The Secretary is authorized to reimburse State agencies administering or supervising the administration of a State plan approved under title I of the Rehabilitation Act of 1973 and State units designated under section 705 of such Act (29 U.S.C. 796d) to administer plans approved under title VII of such Act for the reasonable and necessary costs of furnishing vocational rehabilitation services or comprehensive services for independent living (including services furnished during waiting periods) under such a plan to individuals determined to be blind or disabled individuals under paragraph (2) or (3) of subsection (a) of section

1614, to fall within a disability category described in subparagraph (B) or (E) of subsection (g)(1) of such section, and to have engaged in substantial gainful activity for a continuous period of nine months as a result of such services. The determination that such services contributed to the return of an individual to substantial gainful activity, and the determination of the costs to be reimbursed under this paragraph shall be made by the Commissioner of Social Security in accordance with criteria determined by the Commissioner in the same manner as under section 222(d)(3). Payments made under this section shall be subject to adjustment on account of underpayments and overpayments.

"(d)(1)(A) A facility that provides vocational rehabilitation services or comprehensive services for independent living to an individual eligible under this section for such services shall do so in accordance with an individualized written plan of vocational rehabilitation for such individual.

"(B) Notwithstanding section 102 of the Rehabilitation Act of 1973 (29 U.S.C. 722), the individualized written plan of vocational rehabilitation required by subparagraph (A) shall be developed, implemented, and reviewed in a manner that is, to the greatest extent practicable and consistent with the provisions of this title, the same as the manner in which plans required by section 1507 of title 38, United States Code, are developed, implemented, and reviewed.

"(2)(A) A facility that provides vocational rehabilitation services or comprehensive services for independent living to an individual eligible under this section for such services shall meet such standards as the Secretary may by regulation prescribe.

"(B) In promulgating regulations under subparagraph (A), the Secretary shall consult with the Commissioner of the Rehabilitation Services Administration of the Department of Education and, to the greatest extent practicable and consistent with the purposes of this section, shall incorporate the standards applicable to facilities and providers of such services under titles I and VII of the Rehabilitation Act of 1973 on the day before the date of the enactment of this subsection.

"(e)(1) For purposes of this section—

"(A) except as provided in paragraph (2), the term 'rehabilitation facility' shall have the meaning given to such term in section 7(11) of the Rehabilitation Act of 1973 (29 U.S.C. 706(11));

"(B) the term 'vocational rehabilitation services' shall have the meaning given to such term in section 103 of such Act (29 U.S.C. 723); and

"(C) the term 'comprehensive services for independent living' shall have the meaning given to such term in title VII of such Act (29 U.S.C. 796 et seq.).

"(2) Vocational rehabilitation services and comprehensive services for independent living provided pursuant to this section may be limited by the Secretary to the same extent as services of such type are limited under section 222(f)(2)."

(c) Section 1614(a)(3)(D) of such Act is amended by adding at the end thereof the following new sentence: "In determining whether earnings derived from services performed by an individual demonstrate the individual's ability to engage in substantial gainful activity, earnings derived from transitional work, supported work, and services performed in a sheltered workshop shall not be taken into account unless such earnings equal or exceed an amount equal to twice

the amount of earnings that (but for this sentence) would result in a determination that such individual is able to engage in substantial gainful activity."

(d)(1) This section and the amendments made by this section shall become effective on the day that is 180 days after the date of the enactment of this Act.

(2)(A) The amendments made by subsection (a) of this section shall apply to any determination made under paragraph (2) or (3) of subsection (a) of section 1614 of the Social Security Act and any determination made for purposes of a continuing eligibility review required by section 416.989 of title 20, Code of Federal Regulations, on or after the date on which such amendments become effective.

(B) The amendments made by subsection (b) of this section shall apply to any individual with respect to whom a determination is made under paragraph (2) or (3) of subsection (a) of section 1614 of the Social Security Act or pursuant to section 416.989 of title 20, Code of Federal Regulations, on or after the date on which such amendments become effective.

(3)(A) Section 1615 of the Social Security Act, as in effect on the day before the date on which the amendments made by this section become effective, shall continue to apply to any individual—

(i) who on such day is entitled to benefits under section 1611(a) of such Act by reason of blindness or disability, and

(ii) with respect to whom a determination has not yet been made pursuant to section 416.989 of title 20, Code of Federal Regulations, after such day.

(B)(i) Any individual described in subparagraph (A) who desires to have his or her case reviewed in accordance with the procedures established by the amendments made by subsection (a) of this section may request that a determination be made pursuant to section 416.989 of title 20, Code of Federal Regulations.

(ii) The Secretary of Health and Human Services shall take such steps as may be necessary to ensure that (I) any individual described in subparagraph (A) is informed of the right of such individual to request a review under clause (i) and (II) a prompt determination is made with respect to any individual requesting such a review.

(4) The amendments made by subsection (c) shall apply with respect to months beginning on or after the date on which this section becomes effective.●

By Mr. BURDICK (for himself,  
Mr. MOYNIHAN, Mr. BENTSEN,  
Mr. BAUCUS, Mr. LAUTENBERG,  
Mr. BREAU, Ms. MIKULSKI,  
Mr. REID, Mr. STAFFORD, Mr.  
SYMMS, Mr. WILSON, and Mr.  
CHAFEE):

S. 185. A bill to authorize appropriations for certain highways in accordance with title 23, United States Code, and for other purposes; to the Committee on Environment and Public Works.

THE FEDERAL-AID HIGHWAY ACT OF 1987

Mr. BURDICK. Mr. President, I am introducing legislation today to reauthorize the Federal-Aid Highway Program. I believe that passage of the highway bill, like the clean water bill, is a top priority for the Environment and Public Works Committee, and I

hope that both bills will move quickly toward enactment.

I am pleased that Senators MOYNIHAN, BENTSEN, BAUCUS, LAUTENBERG, BREAUX, MIKULSKI, REID, STAFFORD, and SYMMS have joined me in cosponsoring the Federal-Aid Highway Act of 1987.

Over the past few years Congress has repeatedly missed highway funding deadlines because of deadlocks in conference. It happened again last October. Highway apportionments which should have been made on schedule on October 1, 1986 have in effect been frozen. For the past 3 months all the States have had to postpone or change their highway construction plans. If Congress fails to act within the next several weeks, the entire 1987 construction season could be lost. That would have a devastating impact on the economy, transportation mobility, and jobs.

As my colleagues know, the Federal-Aid Highway Program is entirely funded through a highway user financed trust fund. This is a program that pays for itself. However, the moneys cannot be spent—despite the fact that they're still being collected—until legislation is passed reauthorizing the program. Our highway and bridge needs are serious, and any delay only makes construction and repair work more difficult and even more expensive.

The Federal-Aid Highway Act of 1987 contains the same funding levels as in last year's Senate bill. A total of approximately \$52 billion will be provided in new authorizations for the highway program over the 4-year life of the bill. The annual obligation limitation is \$12.35 billion, with an estimated \$800 million per year outside the ceiling for the emergency relief and minimum allocation categories.

In 1986, the Nation observed the 30th anniversary of the Interstate Construction Program. Originally, it was believed that the Interstate System could be completed in 13 years at a cost of \$27 billion. Although the Interstate is now over 97 percent complete, it has taken more than twice as long to build and has cost \$108 billion—about four times as much as initial estimates.

I strongly believe that completion of the Interstate is long overdue and that in the next few years the system must finally be finished. In the meantime, I am committed to retaining the one-half-percent minimum for the 25 or so States that have completed or nearly completed their Interstate work. Those are the States that worked hard toward timely completion of their Interstate roads, and they should not be penalized now for that commitment.

The Federal-Aid Highway Program has worked well all these years because it is self-financed, and it is based on a strong partnership between Fed-

eral and State Governments. Financing has been provided at the Federal level and the program itself has been administered at the State level.

I continue to believe that States and local governments know their transportation priorities and needs best. That is why I am concerned about the proliferation of "demonstration projects" paid for entirely with Federal funds. A little over 4 years ago when the last major highway act was signed into law, 10 projects were included. Last year, the House bill contained 100 projects. The regular highway program is underfunded, in my view, and it will be even more so if these kinds of projects are allowed to mushroom.

In July 1985, the Transportation Subcommittee began a series of 10 hearings on reauthorization of the Federal-Aid Highway Program. We heard testimony from Members of Congress; the Congressional Budget Office; elected and appointed officials from Federal, State, and local governments; industry groups; environmentalists; and citizens' groups. Hearings were held here in Washington and out West.

I believe the Transportation Subcommittee and later the full committee have worked diligently to develop responsive and responsible legislation. The Senate highway bill passed the Senate on September 24, 1986, by a vote of 99 to 0. The Federal-Aid Highway Act of 1987 is in most respects the same legislation as that adopted so decisively last year.

The American Association of State Highway and Transportation Officials [AASHTO] has just completed a survey to which all 50 States and the District of Columbia responded. The AASHTO findings for the 1987 construction season are as follows:

If legislation is enacted by February 1, 424 Federal-aid highway projects costing \$683 million will already have been lost.

If the date is March 1, 767 projects valued at \$1.19 billion will have to be postponed beyond 1987.

By September 1, 5,094 projects worth \$8.225 billion will have been lost for the 1987 season.

Copies of the AASHTO survey are being distributed to each Member's office, and the specific impacts on each of the States is described in detail.

Last week the Highway Users Federation [HUF] termed this a "major national highway problem." The HUF reports that already half of the States are out of interstate funds and that funding for the primary program has nearly been depleted nationwide.

I look forward to working with Senator MOYNIHAN, the new chairman of the Water Resources, Transportation, and Infrastructure Subcommittee; Senator STAFFORD, the ranking member of the Committee; Senator

SYMMS, the ranking member of the subcommittee, and all members of the Environment and Public Works Committee on this important legislation.

The Federal-Aid Highway Program is essential to the economic and social well-being of this country. Any further delays will make a bad situation much worse. I urge my colleagues to work together in passing legislation as quickly as possible to reauthorize the program.

Mr. President, I ask unanimous consent that the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 185

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Federal-Aid Highway Act of 1987".*

#### AUTHORIZATIONS

SEC. 102. The following sums are hereby authorized to be appropriated out of the Highway Trust Fund other than the Mass Transit Account—

(1) For the Federal-aid Interstate-Primary Program \$8,150,000,000 per fiscal year for each of the fiscal years ending September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990;

(2) For the Federal-aid urban system \$750,000,000 per fiscal year for each of the fiscal years ending September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990;

(3) For the Federal-aid secondary system in rural areas \$600,000,000 per fiscal year for each of the fiscal years ending September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990;

(4) For bridge replacement and rehabilitation under section 144 of title 23, United States Code, \$1,500,000,000 per fiscal year for each of the fiscal years ending September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990. All but \$200,000,000 per fiscal year of each such authorization shall be apportioned as provided in 23 U.S.C. 144(e). Such \$200,000,000 shall be obligated as provided in 23 U.S.C. 144(g)(2). The minimum percentage off-system bridge provisions of 23 U.S.C. 144(g)(2) shall continue effective in fiscal years 1987, 1988, 1989, and 1990;

(5) For carrying out the Federal lands highway program under section 204 of title 23, United States Code—

(A) For forest highways, \$50,000,000 per fiscal year for each of the fiscal years ending September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990;

(B) For public lands highways, \$50,000,000 per fiscal year for each of the fiscal years ending September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990;

(C) For Indian reservation roads, \$75,000,000 per fiscal year for each of the fiscal years ending September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990; and

(D) For park roads and parkways \$75,000,000 per fiscal year for each of the fiscal years ending September 30, 1987, Sep-

tember 30, 1988, September 30, 1989, and September 30, 1990;

(6) For carrying out the territorial highway program under section 215(a) of title 23, United States Code—

(A) For the Virgin Islands, \$5,000,000 per fiscal year for each of the fiscal years ending September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990;

(B) For Guam, \$5,000,000 per fiscal year for each of the fiscal years ending September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990;

(C) For American Samoa, \$1,000,000 per fiscal year for each of the fiscal years ending September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990; and

(D) For the Commonwealth of the Northern Mariana Islands, \$1,000,000 per fiscal year for each of the fiscal years ending September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990;

(7) For carrying out section 402 of title 23, United States Code (relating to highway safety construction programs), by the Federal Highway Administration, \$10,000,000 per fiscal year for each of the fiscal years ending September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990;

(8) For carrying out sections 307(a) and 403 of title 23, United States Code (relating to highway construction safety research and development), by the Federal Highway Administration, \$10,000,000 per fiscal year for each of the fiscal years ending September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990;

(9) For projects for the elimination of hazards under section 152 of title 23, United States Code, \$175,000,000 per fiscal year for each of the fiscal years ending September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990;

(10) For projects for the elimination of hazards of railway-highway crossings on any public road under section 130 of title 23, United States Code, \$175,000,000 per fiscal year for each of the fiscal years ending September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990.

(11) For highway assistance programs under section 103(e)(4) of title 23, United States Code, \$650,000,000 per fiscal year for each of the fiscal years ending September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990.

#### INTERSTATE SUBSTITUTE PROGRAM

SEC. 103. (a) Section 103(e)(4) of title 23, United States Code, is amended to read as follows:

"(4) INTERSTATE SUBSTITUTE PROGRAM.—(A) Sums made available to the Secretary, under this paragraph, before October 1, 1986, in substitution for withdrawn Interstate routes or portions thereof, shall be available to the Secretary to incur obligations for the Federal share of either public mass transit projects involving the construction of fixed rail facilities or the purchase of passenger equipment including rolling stock, for any mode of mass transit, or both, or highway construction projects on any public road or both, which will serve the area or areas from which the Interstate route or portion thereof was withdrawn, which are selected by the responsible local officials of the area or areas to be served, and which are selected by the Governor or the Governors of the State or States in which the withdrawn route was located if the withdrawn route was not within an ur-

banized area or did not pass through and connect urbanized areas, and which are submitted by the Governors of the States in which the withdrawn route was located. Federal-aid highway projects constructed under this paragraph shall be subject to provisions of this title applicable to the appropriate Federal-aid system. Off system highway projects constructed under this paragraph shall be subject to the provisions of this title applicable to Federal-aid secondary system projects.

"(B) PROJECT APPROVAL FEDERAL SHARE.—Approval by the Secretary of the plans, specifications, and estimates for a substitute project shall be deemed to be a contractual obligation of the Federal Government. The Federal share of each substitute project shall not exceed 85 per centum of the cost thereof.

"(C) AVAILABILITY OF FUNDS FOR SUBSTITUTE PROJECTS.—

"(i) TIME PERIOD.—The sums apportioned and the sums allocated under this paragraph for public mass transit projects or for projects under any highway assistance program shall remain available in the State of apportionment or allocation for the fiscal year for which apportioned or allocated, as the case may be, and for the succeeding fiscal year.

"(ii) REAPPORTIONMENT OR REALLOCATION.—Any sums which are apportioned or allocated to a State and are unobligated (other than an amount which, by itself, is insufficient to pay the Federal share of the cost of a substitute project which has been submitted by the State to the Secretary for approval) at the end of the period of availability shall be apportioned or allocated, as the case may be, among those States which have obligated all sums (other than such an amount) apportioned or allocated, as the case may be, to them. Such reapportionment shall be in accordance with the latest adjusted estimate of the cost of completing substitute projects, and such reallocations shall be at the discretion of the Secretary.

"(D) ADMINISTRATION OF TRANSIT FUNDS.—The sums obligated for mass transit projects under this paragraph shall become part of, and be administered through, the Urban Mass Transportation Fund.

"(E) DISTRIBUTION OF SUBSTITUTE FUNDS.—

"(i) BETWEEN DISCRETIONARY AND APPORTIONED PROGRAMS.—Twenty-five per centum of the funds made available for substitute highway projects and fifty per centum of the funds appropriated for substitute transit projects shall be distributed at the discretion of the Secretary. The remainder of such highway and transit funds shall be apportioned in accordance with cost estimates.

"(ii) APPORTIONMENTS.—In September of 1986 or as soon as practicable thereafter and every September thereafter, the Secretary shall adjust the Interstate substitute cost estimate established in revised Table . . . Committee Print of the Senate Committees on Environment and Public Works and on Banking, Housing, and Urban Affairs to reflect (1) changes in the State estimates in the division of funds between substitute highway and transit projects, (2) approval of substitute projects, and (3) the allocation and apportionment of substitute highway and transit funds in prior fiscal years and shall use the Federal share of such adjusted estimates in making apportionments for substitute highway and transit projects on October 1 or as soon as practicable thereafter for fiscal years subsequent to the fiscal year ending September 30, 1986.

"(F) AUTHORIZATION OF APPROPRIATIONS FOR TRANSIT PROJECTS.—There are author-

ized to be appropriated for liquidation of obligations incurred for substitute transit projects under this paragraph the sums provided in section 4 (g) of the Urban Mass Transportation Act of 1964.

"(G) APPLICABILITY OF URBAN MASS TRANSPORTATION ACT.—

"(i) SUPPLEMENTARY FUNDS.—Funds available for expenditure to carry out the purposes of this paragraph shall be supplementary to and not in substitute for funds authorized and available for obligation pursuant to the Urban Mass Transportation Act of 1964, as amended.

"(ii) LABOR PROTECTION.—The provisions of section 3(e)(4) of the Urban Mass Transportation Act of 1964, as amended, shall apply in carrying out this paragraph.

"(H) LIMITATION ON INTERSTATE DESIGNATIONS.—The Secretary may not designate any mileage as part of the Interstate System pursuant to this paragraph or under any other provision of law. The preceding sentence shall not apply to a designation made under section 139 of this title.

"(I) RIGHT-OF-WAY PAYBACK.—Of sums made available to the Secretary under this paragraph for a State, an amount equal to the amount expended in Federal funds to purchase right-of-way for the withdrawn route or portion thereof in every case where right-of-way has not been disposed of by the State as of the date of enactment of this sentence shall not be available for release by the Secretary until the right-of-way disposition decision has been made in accordance with 103 (e)(5)(B), (6)(B), or (e)(7) of this title. The amount apportioned to each eligible State pursuant to this paragraph shall be based on the full remaining value of the sums made available under this paragraph as determined by the Secretary but the total of such apportionments shall not exceed the remaining value of such sums less the amount unavailable for release by the Secretary. Sums retained by the Secretary shall be made available for apportionment upon partial or full repayment of funds in accordance with section 103(e)(7) of this title or upon determination by the Secretary that, under section 103 (e)(5)(B) or (6)(B), repayment is not required."

#### RIGHT-OF-WAY PAYBACK

(b) Subsection 103(e) of title 23, United States Code, is amended by adding paragraph (10) as follows:

"(10)(A) Upon repayment by a State to the Treasurer of the United States of an amount as determined by the Secretary to be equal to the amount of Federal funds expended to acquire property for the Interstate System which was withdrawn from the Interstate System on or after September 1, 1985, in accordance with paragraph (4), such State shall be absolved of any further responsibility for repayment and will be deemed to have fully met all of the repayment requirements of paragraph (7) of this section.

"(B) The amount repaid to the United States under this paragraph shall be deposited to the credit of the appropriation for the Highway Trust Fund. Such repayment shall be credited to the unprogrammed balance of funds apportioned to such State in accordance with section 104(d)(1)(C) of this title. The amount so credited shall be in addition to all other funds then apportioned to the State and shall be available for expenditure in accordance with the provisions of this title."

## APPORTIONMENT

SEC. 104. Section 104 of title 23, United States Code, is amended by (a) Striking in paragraph (f)(1) " , except that in the case of funds authorized for apportionment on the Interstate System, the Secretary shall set aside that portion of such funds (subject to the overall limitation of one-half of 1 per centum) on October 1 of the year next preceding the fiscal year for which such funds are authorized for such System." and inserting in lieu thereof a period and by relettering subsection (f) as subsection (b).

(b) Adding a new subsection (c) as follows:

"(c) On October 1 of each of the fiscal years, ending September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990, or as soon thereafter as is practicable the Secretary, after making deductions authorized by subsections (a) and (b) of this section, shall deduct one-quarter per centum of the remaining funds authorized to be appropriated for that fiscal year for the Federal-aid Interstate-Primary Program, the urban system, the secondary system, bridge replacement and rehabilitation, Interstate substitution highway projects, projects for the elimination of hazards of railway-highway crossings, and for projects for the elimination of hazards under section 152 of this title for the purpose of carrying out the objectives of the Strategic Highway Research Project under section 133 of this title."

(c) Repealing existing subsections (c) and (d).

(d) Existing subsection (b) is amended to read as follows:

"(d) On October 1 of each fiscal year or as soon as is practicable the Secretary, after making the deductions authorized by subsections (a), (b), and (c) of this section, shall apportion the remainder of the sums authorized to be appropriated for expenditure upon the Federal-aid systems for the fiscal year, among the several States in the following manner:

"(1) FOR THE FEDERAL-AID INTERSTATE-PRIMARY PROGRAM.—

"(A) For each of the fiscal years 1987, 1988, 1989, and 1990 that portion of \$3,000,000,000 remaining after making the deductions authorized by subsections (a), (b), and (c) of this section shall be apportioned in the ratio which the estimated cost of completing the Interstate System in each State bears to the sum of the estimated cost of completing the Interstate System in all of the States as established in revised table —, Committee Print — of the Senate Committee on Environment and Public Works: *Provided*, That the Secretary shall on October 1, 1986, or as soon thereafter as is practicable before making the apportionment required by this paragraph, adjust such Interstate Cost Estimate to reflect (i) all previous credits, apportionments of Interstate construction funds and lapses of previous apportionments of Interstate construction funds, (ii) previous withdrawals of Interstate segments, (iii) previous allocations of Interstate discretionary funds, and (iv) transfers of Interstate construction funds and: *Provided*, That for each of the fiscal years 1987, 1988, 1989, and 1990, no State, including the State of Alaska, shall receive less than one-half per centum of the total apportionment under this paragraph (A). Amounts made available under this proviso shall be eligible for expenditure in the same manner as other Interstate-primary funds, for projects on the urban and secondary system, and for projects for the elimina-

tion of hazards under section 152 of this title.

"(B) For each of the fiscal years 1987, 1988, 1989, and 1990 that portion of \$2,800,000,000 remaining after making the deduction authorized by subsections (a), (b), and (c) of this section shall be apportioned as follows 55 per centum in the ratio that lane miles on the Interstate routes designated under sections 103 and 139(c) of this title (other than those on toll roads not subject to a Secretarial agreement provided for in section 129(k) of this title) in each State bears to the total of all such lane miles in all States; and 45 per centum in the ratio that vehicle miles traveled on lanes on the Interstate routes designated under sections 103 and 139(c) of this title (other than those on toll roads not subject to a Secretarial agreement provided for in section 129(k) of this title) in each State bears to the total of all such vehicle miles in all States. Notwithstanding the preceding sentence, no State excluding any State that has no Interstate lane miles shall receive less than one-half of 1 per centum of the total apportionment made by this subparagraph for any fiscal year.

"(C) Before making the apportionment under this paragraph (C), the Secretary shall set aside such sums as are necessary to carry out the provisions of subparagraph (C)(iv). For each of the fiscal years 1987, 1988, 1989, and 1990 that portion of \$2,350,000,000 remaining after such set aside and after the deductions authorized by subsections (a), (b), and (c) of this section shall be apportioned as follows:

"(i) The Secretary shall determine for each State the higher of the amount which would be apportioned to such State under a formula where (I) two-thirds would be apportioned, one-third in the ratio which the area of each State bears to the total area of all the States, one-third in the ratio which the population of rural areas of each State bears to the total population of rural areas of all the States as shown by the latest available Federal census, and one-third in the ratio which the mileage of rural delivery routes and intercity mail routes where service is performed by motor vehicles in each State bears to the total mileage of rural delivery and intercity mail routes where service is performed by motor vehicles, as shown by a certificate of the Postmaster General, which shall be made and furnished annually to the Secretary; and one-third in the ratio which the population in urban areas in each State bears to the total population in urban areas in all the States as shown by the latest Federal census with no State (other than the District of Columbia) to receive less than one-half per centum of each year's apportionment and the amount which would be apportioned to such State under a formula where (II) each State would be apportioned one-half in the ratio which the population of rural areas of each State bears to the total population of rural areas of all the States as shown by the latest available Federal census and one-half in the ratio which the population in urban areas in each State bears to the total population in urban areas in all the States as shown by the latest Federal census.

"(ii) The Secretary shall total the amounts determined for each State under paragraph (i) and shall determine the ratio which the amounts apportioned under this paragraph (C) bears to such total.

"(iii) The amount which shall be apportioned to each State under this paragraph (C) shall be the amount determined for

such State under paragraph (i) multiplied by the ratio determined under paragraph (ii).

"(iv) No State shall receive an apportionment under this paragraph (C) which is less than the lower of (I), the amount which the State would be apportioned under the formula in paragraph (i)(I), and (II), the amount which the State would be apportioned under the formula in paragraph (i)(II). No State shall receive less than one-half per centum of the total apportionment under this paragraph (C).

"(2) For the Federal-aid secondary system one-third in the ratio which the area of each State bears to the total area of all the States; one-third in the ratio which the population of rural areas of each State bears to the total population of rural areas of all of the States as shown by the latest available Federal census; and one-third in the ratio which the mileage of rural delivery and intercity mail routes where service is performed by motor vehicles, certified as above provided, in each State bears to the total mileage of rural delivery and intercity mail routes where service is performed by motor vehicles in all the States. No State (other than the District of Columbia) shall receive less than one-half of 1 per centum of each year's apportionment.

"(3) For the Federal-aid urban system in the ratio which the population in urban areas, or parts thereof, in each State bears to the total population in such urban areas, or parts thereof, in all the States as shown by the latest available Federal census. No State shall receive less than one-half of 1 per centum of each year's apportionment."

(e) Subsection (e) is amended to read as follows:

"(e) On October 1 of each fiscal year the Secretary shall certify to each of the State highway departments the sums apportioned hereunder to each State for such fiscal year, and also the sums which have been deducted pursuant to subsections (a), (b), and (c) of this section. To permit the State to develop adequate plans for the utilization of apportioned sums, the Secretary shall advise each State of the amount that will be apportioned each year under this section not later than ninety days before the beginning of the fiscal year for which the sums to be apportioned are authorized."

(f) Existing subsection (g) is amended to read as follows:

"(f) Not more than 40 per centum of the amount apportioned in any fiscal year to each State in accordance with sections 130, 144, and 152 of this title, may be transferred from the apportionment under one section to the apportionment under any other of such sections if such a transfer is requested by the State highway department and is approved by the Secretary as being in the public interest. The Secretary may approve the transfer of 100 per centum of the apportionment under one such section to the apportionment under any other of such sections if such transfer is requested by the State highway department, and is approved by the Secretary as being in the public interest, if the Secretary has received satisfactory assurances from such State highway department that the purposes of the program from which such funds are to be transferred have been met."

(g) Existing subsection (h) is repealed.

(h) Subsection (g) is added as follows:

"(g)(1) The amount apportioned in any fiscal year to each State in accordance with paragraph (2) or (3) of subsection (d) of this section may be transferred from the appor-

tionment under one paragraph to the apportionment under the other paragraph if such transfer is requested by the State highway department and is approved by the Governor of such State and the Secretary as being in the public interest. Funds apportioned in accordance with paragraph (3) of subsection (d) of this section shall not be transferred from their allocation to any urbanized area of two hundred thousand population or more under section 150 of this title without the approval of the local officials of such urbanized area.

"(2) In the case of transfers under paragraph (1), the total of all transfers during any fiscal year to any apportionment shall not increase the original amount of such apportionment for such fiscal year by more than 50 per centum. Not more than 50 per centum of the original amount of any apportionment for any fiscal year shall be transferred to other apportionments."

"(f) LIMITATIONS CONCERNING SOUTH AFRICA ON AWARDS OF CONTRACTS.—A State or local governmental body that is a recipient of Federal funds under this title may prohibit or otherwise limit the award of contracts funded under this title by including in its contracts terms and conditions related to the contractor's business in South Africa in accordance with a State or local law if the State or local governmental body first enters into an agreement with the Secretary that any costs incurred as a result of such prohibition or limitation which are in excess of the costs that would otherwise have been incurred with respect to such project under this title will not, for purposes of this title, be considered to be a cost of such project: *Provided*, That this subsection shall be null and void when apartheid law and policy is ended in South Africa."

#### AVAILABILITY

SEC. 105. Section 118 of title 23, United States Code, is amended to read as follows:

"Sec. 118. Availability.

"(a) On and after the date that the Secretary has certified to each State the sums apportioned or allocated pursuant to an authorization under this title such sums shall be available for obligation under the provisions of this title.

"(b)(1) Sums apportioned for the Federal-aid Interstate-Primary Program, for the Federal-aid secondary system and for the Federal-aid urban system in a State shall continue available for obligation in that State for the appropriate program and system for a period of three years after the close of the fiscal year for which such sums are authorized and any amounts so apportioned remaining unobligated at the end of such period shall lapse.

"(2)(A) Sums apportioned for bridge replacement and rehabilitation in a State shall remain available for obligation in that State for a period of three years after the close of the fiscal year for which the sums are authorized and any amounts apportioned remaining unobligated at the end of the period shall be allocated by the Secretary pursuant to section 144(g)(2) of this title.

"(B) Sums allocated for bridge replacement and rehabilitation in a State shall remain available for obligation in that State until the close of the fiscal year of allocation and any amount allocated remaining unobligated at the end of the period shall be reallocated by the Secretary pursuant to section 144(g)(2) of this title.

"(3) Sums apportioned or allocated for a particular purpose for any fiscal year shall be deemed to be obligated if a sum equal to

the total of the sums apportioned or allocated to the State for such purpose for such fiscal year and previous fiscal years is obligated. Any funds released by the payment of the final voucher or by the modification of the formal project agreement shall be credited to the same class of funds previously apportioned or allocated to the State and be immediately available for obligation.

"(c) Funds made available to the State of Alaska under this title may be expended for construction of access and development roads on a Federal-aid system that will serve resource development, recreational, residential, commercial, industrial, or other like purposes."

#### INTERSTATE SYSTEM RESURFACING

SEC. 106. (a) Section 119(a) of title 23, United States Code, is amended by (1) striking "section 105 of the Federal-Aid Highway Act of 1978" and inserting in lieu thereof "section 129(k) of this title" and by (2) striking the next to the last sentence.

(b) Section 119(b) of title 23, United States Code, is amended by striking "for the Interstate system shall" and inserting in lieu thereof "shall", by (2) striking "equal to 10 per centum" and inserting in lieu thereof "of not more than 10 per centum", and by (3) striking "104" and inserting in lieu thereof "104(d)(1)(A)".

(c) Section 119(d) is repealed.

#### FEDERAL SHARE PAYABLE

SEC. 107. (a) Subsection (a) of section 120, title 23, United States Code, is amended by striking "financed with primary" and inserting in lieu thereof "financed with Interstate-primary" and by inserting "(other than the Interstate System)" after "primary system".

(b) Subsection (b) of section 120, title 23, United States Code, is repealed.

(c) Subsection (c) of section 120, title 23, United States Code, is amended by striking "provided for by funds made available under the provisions of section 108(b) of the Federal-Aid Highway Act of 1956 shall be increased to" and inserting in lieu thereof "as designated in section 103 of this title and as designated prior to March 9, 1984, in section 139 (a) and (b) of this title financed with Interstate-primary funds shall not exceed".

(d) Subsection (f) of section 120 of title 23, United States Code, is amended by striking "shall not exceed 100 per centum of the cost thereof: *Provided*" and inserting in lieu thereof "on account of any project on a Federal-aid highway system, including the Interstate System, shall not exceed the Federal share payable of a project on a system as provided in subsections (a) and (c) of this section: *Provided*, That the Federal share payable for eligible emergency repairs to minimize damage, protect facilities or restore essential traffic accomplished within thirty days after the actual occurrence may amount to 100 per centum of the costs thereof: *And provided further*".

(e)(1) The second subsection (i), subsection (j), and subsection (k) of section 120 of title 23, United States Code, are relettered as subsection (j), (k), and (l) respectively.

(2) The second subsection (i) of section 120, title 23, United States Code, relettered as subsection (j), is amended by inserting "104(b) and" before "307(c)".

(f) Subsection (b) is added to section 120 of title 23, United States Code, as follows: "Notwithstanding other provisions of this title, a State may contribute an amount in excess of its normal share on a project under this title so as to decrease the Federal

share payable on such project: *Provided*, That the use of this provision shall be subject to criteria established by the Secretary."

(g) Section 120(f) of title 23, United States Code, as amended by this section is effective for all natural disasters or catastrophic failures which occur subsequent to enactment of this Act.

#### RELOCATION OF UTILITY FACILITIES

SEC. 108. Section 123(a) of title 23, United States Code, is amended to read as follows:

"(a) When a State pays for the cost of relocation of utility facilities necessitated by the construction of a project on the Federal-aid primary system including the Interstate System, or under a Federal-aid program, or under the State's safety improvement program for the elimination of hazards to the traveling public resulting from the utility facilities on or near the right-of-way of highways on the Federal-aid primary system including the Interstate system, Federal funds may be used to reimburse the State for such cost in the same proportion as Federal funds are used on the project."

#### EMERGENCY RELIEF

SEC. 109. Section 125 of title 23, United States Code, is amended by adding subsection (d) as follows:

"(d) For purposes of this section, the Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands shall be considered to be States and part of the United States, and the chief executive officer of each territory shall be considered to be a Governor of a State. The Secretary may expend funds from the sums authorized for this section for the repair or reconstruction of highways eligible for assistance under section 215 of this title: *Provided*, That obligations for projects under this subsection shall not exceed \$5,000,000 in any fiscal year."

#### VEHICLE WEIGHT LIMITATIONS—INTERSTATE SYSTEM

SEC. 110. Section 127(a) of title 23, United States Code, is amended by striking "authorized to be appropriated for any fiscal year under provisions of the Federal-Aid Highway Act of 1956 shall be apportioned" and inserting in lieu thereof "shall be apportioned under section 104(d)(1)(A) of this title" and by (b) adding after the word "lapse" the following: "if not released and obligated within the availability period specified in section 118(b)(1) of this title".

#### TOLL FACILITIES

SEC. 111. (a) Section 129 of title 23, United States Code, is amended by adding the following new subsections:

"(j)(1) Each operator of toll roads, toll tunnels, toll ferries, and toll bridges, other than an international toll facility or toll facility subject to an agreement under this section or section 105 of the Surface Transportation Assistance Act of 1978, on a Federal-aid system in a State shall biennially certify to the Governor of the State that such facilities are adequately maintained and that the operator of such toll facility has the ability to fund the replacement or repair of any such facilities that are not adequately maintained without using Federal-aid highway funds. Failure to certify shall preclude Federal funding out of the Highway Trust Fund of any facilities owned or operated by the operator of such toll facility.

"(2) The Governor shall report biennially to the Secretary the toll facilities subject to paragraph (1) of this subsection, that have

so certified and those which have not certified in accordance with paragraph (1) of this subsection. If funds from the Highway Trust Fund are used to repair or replace such toll facilities, the State's apportionments for the following fiscal year under section 104 of this title shall be reduced by the amount of Highway Trust Fund moneys expended: *Provided*, That such reduction shall not be made if the State has executed an agreement covering such toll facilities under this section or section 105 of the Surface Transportation Assistance Act of 1978.

"(k) Sums apportioned to a State for the Federal-aid Interstate-Primary Program or for Interstate System resurfacing may be obligated for projects for resurfacing, restoring, and rehabilitating lanes on a toll road which has been designated as a part of the Interstate System if an agreement satisfactory to the Secretary of Transportation has been reached with the State highway department and any public authority with jurisdiction over such toll road prior to the approval of such project that the toll road will become free to the public upon the collection of tolls sufficient to liquidate the cost of the toll road or any bonds outstanding at the time constituting a valid lien against it, and the cost of maintenance and operation and debt service during the period of toll collections. The agreement referred to in the preceding sentence shall contain a provision requiring that if, for any reason, a toll road subject to an agreement does not become free to the public upon collection of sufficient tolls, as specified in the preceding sentence, Federal funds used for projects on such toll road pursuant to this subsection shall be repaid to the Federal Treasury and a provision requiring that if such repayment does not equal or exceed Federal funds apportioned to a State by reason of including toll road mileage in an apportionment formula, the State's apportionment shall be reduced by the amount needed to make the repayment equal such apportionment."

(b) Section 105 of the Federal-Aid Highway Act of 1978 is amended by striking the last two sentences.

#### RAILWAY-HIGHWAY CROSSINGS

SEC. 112. (a) Section 130 of title 23, United States Code, is amended by adding subsections, (d), (e), (f), (g), and (h) as follows:

"(d) Each State shall conduct and systematically maintain a survey of all highways to identify those railroad crossings which may require separation, relocation, or protective devices, and establish and implement a schedule of projects for this purpose. At a minimum, such a schedule shall provide signs for all railroad-highway crossings.

"(e) At least half of the funds authorized for and expended under this section shall be available for the installation of protective devices at railway-highway crossings. Sums authorized to be appropriated for this section shall be available for obligation in the same manner as funds apportioned under section 104(d)(1) of title 23, United States Code.

"(f) 25 per centum of the funds authorized for this section shall be apportioned to the States in the same manner as sums apportioned under section 104(d)(2) of title 23, United States Code, 25 per centum of such funds shall be apportioned to the States in the same manner as apportioned under section 104(d)(3) of title 23, United States Code, and 50 per centum of such funds shall be apportioned to the States in the ratio that total rail-highway crossings in each State bears to the total of such crossings in all States. The Federal share payable on ac-

count of any project financed with funds authorized for this section shall be 90 per centum of the cost thereof.

"(g) Each State shall report to the Secretary of Transportation not later than December 30 of each year on the progress being made to implement the railroad-highway crossings program authorized by this section and the effectiveness of such improvements. Each State report shall contain an assessment of the costs of the various treatments employed and subsequent accident experience at improved locations. The Secretary of Transportation shall submit a report to the Senate Environment and Public Works Committee and the House Public Works and Transportation Committee of the Congress not later than April 1 of each year, on the progress being made by the State in implementing projects to improve railroad-highway crossings. The report shall include, but not be limited to, the number of projects undertaken, their distribution by cost range, road system, nature of treatment, and subsequent accident experience at improved locations. In addition, the Secretary's report shall analyze and evaluate each State program, identify any State found not to be in compliance with the schedule of improvements required by subsection (d) and include recommendations for future implementation of the railroad highway crossings program.

"(h) Funds authorized for this section may be used to provide local government with funds to be used on a matching basis when State funds are available which may only be spent when local government produces matching funds for the improvement of railroad crossings."

(b) Section 203 of the Highway Safety Act of 1973 is repealed.

#### STRATEGIC HIGHWAY RESEARCH PROGRAM

SEC. 113. Title 23, United States Code, is amended by adding section 133 as follows:

##### "§ 133. Strategic highway research program

"(a) The sums provided by section 104(c) of this title shall be available for obligation when deducted to implement the Strategic Highway Research Program (SHRP). The Secretary is authorized to carry out the SHRP in cooperation with the State highway departments, as represented by the American Association of State Highway and Transportation Officials (AASHTO). The Secretary shall set standards to use the funds under this paragraph to conduct research, development and technology transfer activities determined to be strategically important to the national highway transportation system. The Secretary may provide grants to, and enter into cooperative agreements with, AASHTO and/or the National Academy of Sciences to conduct appropriate portions of the SHRP. Advance payments may be made as necessary to facilitate this program. No State matching share is required for the sums made available under this section. The sums provided by this section shall be combined and administered by the Secretary as a single fund which shall be available for obligation for the same period as funds apportioned for the Federal-aid Interstate-Primary Program.

"(b) The Secretary shall transmit a report annually beginning on January 1, 1988, to the Senate Environment and Public Works Committee and the House Public Works and Transportation Committee of the Congress which provides information on the progress and research findings of the Strategic Highway Research Program.

"(c)(1) The remedy against the United States provided by sections 1346(b) and 2672 of title 28, United States Code, for injury, loss of property, personal injury, or death shall apply to any civil action against the National Academy of Sciences for injury, loss of property, personal injury, or death for any act or omission arising from activities conducted under or in connection with the Strategic Highway Research Program authorized under subsection (a) of this section.

"(2) The remedies referred to in paragraph (1) shall be exclusive of any other civil action or proceeding for the purpose of determining liability arising from any such act or omission without regard to when the act or omission occurred. Employees of the National Academy of Sciences and other individuals appointed by the President of the National Academy of Sciences and acting on its behalf in connection with the Strategic Highway Research Program shall be considered to be employees of the Federal Government, as provided in section 2671 of title 28, United States Code, for the purposes of such civil action or proceeding; and the civil action or proceeding shall proceed in the same manner as any action against the United States filed pursuant to section 1346(b) of such title and shall be subject to the limitations and exceptions applicable to those actions.

"(3) Upon certification by the Attorney General that a suit is within the provisions of subsection (a), a civil action or proceeding commenced in a State court shall be removed without bond at any time before trial by the Attorney General to the district court of the United States for the district and division embracing the place wherein it is pending and the proceeding shall be deemed a tort action brought against the United States under the provisions of section 1346(b), 2401(b), or 2402, or sections 2671 through 2680 of title 28, United States Code. For purposes of removal, the certification of the Attorney General under this subsection shall be conclusive."

#### SECTION 139 ROUTES

SEC. 114. The last sentence of section 139(a), the fourth sentence of 139(b), and the last sentence of section 139(c) of title 23, United States Code, are each amended by striking "sections 104(b)(1) and 104(b)(5)(B)" and inserting in lieu thereof "section 104(d)(1)".

#### OFF-SYSTEM BRIDGE PROGRAM

SEC. 115. Section 144, title 23, United States Code, is amended by adding a new subsection as follows:

"(n) Notwithstanding any other provision of law, with respect to any project not on a Federal-aid highway system for the replacement of a bridge or rehabilitation of a bridge which is wholly funded from State and local sources, is eligible for Federal funds under section 144 of title 23, United States Code, is noncontroversial, is certified by the State to have been carried out in accordance with all standards applicable to such projects under section 144, and is determined by the Secretary upon completion to be no longer a deficient bridge, any amount expended after the effective date of this section, from such State and local sources for such project in excess of 20 per centum of the cost of construction thereof may be credited to the non-Federal share of the cost of the projects in such State which are eligible for Federal funds under section 144, in accordance with procedures established by the Secretary."

## MINIMUM ALLOCATION

SEC. 116. (a) Section 157(a) of title 23, United States Code, is amended to read as follows:

"(a) Beginning with fiscal year 1987, as soon as practicable after the date of enactment of the Federal-Aid Highway Act of 1987 and in each of the fiscal years thereafter, on October 1, or as soon as possible thereafter, the Secretary of Transportation shall allocate among the States, as defined in section 101 of this title, amounts sufficient to ensure that a State's percentage of the total apportionments in each such fiscal year and allocations for the prior fiscal year for Federal-aid highway programs, except allocations for forest highways, Indian reservation roads, and parkways and park roads in accordance with section 202 of this title, highway related safety grants authorized by section 402 of this title, nonconstruction safety grants authorized by sections 402, 406, and 408 of this title, and Bureau of Motor Carrier Safety Grants authorized by section 404 of the Surface Transportation Assistance Act of 1982, shall not be less than 85 per centum of the percentage of estimated tax payments attributable to highway users in that State paid into the Highway Trust Fund, other than the Mass Transit Account, in the latest fiscal year for which data are available."

(b) The amendment made by subsection (a) shall become effective on October 1, 1986.

(c) Title 23, United States Code, section 157(c) is amended by striking the "and" that precedes "September 30, 1986" and inserting after "1986" the following: ", September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990".

## FEDERAL-AID INTERSTATE-PRIMARY PROGRAM

SEC. 117. Title 23, United States Code, is amended by adding section 159 as follows:

## "§ 159. Federal-aid Interstate-primary program

"(a) It is the national policy to bring all elements of the primary system up to standards established pursuant to section 109 of this title. To accomplish this policy the Federal-aid Interstate-primary program shall consist of projects for the construction, reconstruction, rehabilitation, restoration, and resurfacing or improvement of the primary system as designated in section 103(a) of this title and the Interstate System as designated in section 103(c)(1) and section 139 of this title.

"(b) In approving projects under this section, the Secretary shall give consideration to projects to complete essential gaps on the Interstate System and for the reconstruction, rehabilitation, restoration, and resurfacing of existing highway facilities. Reconstruction may include, but is not limited to, the addition of travel lanes and the construction and reconstruction of interchanges and overcrossings along existing completed Interstate routes, including the acquisition of right-of-way where necessary."

## INCOME FROM RIGHTS-OF-WAY

SEC. 118. Title 23, United States Code, is amended by adding section 160 as follows:

## "§ 160. Income from rights-of-way

"Net income that a State receives from the use, lease, or sale of right-of-way airspace acquired as a result of a project under this title shall be used by the State for projects eligible under this chapter."

## TERRITORIAL HIGHWAY PROGRAM

SEC. 119. Subsection (f) of section 215 of title 23, United States Code, is amended to read as follows:

"(f) The provisions of chapter 1 of this title that are applicable to Federal-aid Interstate-Primary Program funds and to projects on the Federal-aid primary system other than the Interstate System shall apply to funds authorized to be appropriated to carry out this section, to funds obligated under this section and to projects carried out under this section except as determined by the Secretary to be inconsistent with this section. There shall be designated in each territory, a territorial Federal-aid highway system which will include all highways eligible for funding under this section. The system shall be designated by the highway department of the territory and be subject to the approval of the Secretary. Funding provided under this section shall only be available for highway construction projects on the territorial Federal-aid system."

## BICYCLE PROJECTS ELIGIBILITY

SEC. 120. The second sentence of section 217(b)(1) of title 23, United States Code, is amended by inserting "and sums apportioned or allocated for highway substitute projects in accordance with section 103(e)(4) of this title" after the word "title".

## HIGHWAY PLANNING AND RESEARCH

SEC. 121. Section 307(c)(1) of title 23, United States Code, is amended by inserting after "section 104 of this title", the following: "and for highway projects, section 103(e)(4)".

## NATIONAL HIGHWAY INSTITUTE

SEC. 122. Subsections (b) and (c) of section 321 of title 23, United States Code, are amended to read as follows:

"(b) Not to exceed one-quarter per centum of all Federal-aid Interstate-Primary Program funds, apportioned to a State under section 104 of this title shall be available for expenditure by the State highway department, subject to approval by the Secretary, for payment of not to exceed 75 per centum of the cost of tuition and direct educational expenses (but not travel, subsistence, or salaries) in connection with the education and training of State and local highway department employees as provided in this section.

"(c) Education and training of Federal, State, and local highway employees authorized by this section shall be provided by the Secretary at no cost to the States and local governments for those subject areas which are a Federal program responsibility, or, in the case where such education and training are to be paid for under subsection (b) of this section, by the State, subject to the approval of the Secretary, through grants and contract with public and private agencies, institutions, individuals and the Institute."

## RIGHT-OF-WAY DONATION

SEC. 123. (a) Notwithstanding any other provision of title 23, United States Code, the State matching share for a project under title 23, United States Code, may be credited by the fair market value of land incorporated into the project and lawfully donated to the State after the effective date of this subsection. The fair market value of the donated land shall be established as determined by the Secretary. Fair market value shall not include increases and decreases in the value of donated property caused by the project. For purposes of this subsection the fair market value of donated land shall be established after the date the donation becomes effective or when equitable title to

the land vests in the State, whichever is earlier. This subsection shall not apply to donations made by an agency of a Federal, State or local government. The credit received by a State pursuant to this subsection may not exceed the State's matching share for the project to which the donation is applied.

(b) Section 323 of title 23, United States Code, is amended by—

(1) inserting after "Donations," an "(a)"; and

(2) inserting the following new subsection: "(b)(1) A gift or donation in accordance with subsection (a) may be made at any time during the development of a project: *Provided*, That any document executed as part of such donation prior to the approval of an environmental document prepared pursuant to the National Environmental Policy Act shall clearly indicate that—

"(i) all alternatives to a proposed alignment will be studied and considered pursuant to the National Environmental Policy Act;

"(ii) acquisition of property under this subsection shall not influence the environmental assessment of a project including the decision relative to the need to construct the project or the selection of a specific location; and

"(iii) any property acquired by gift or donation shall be reverted in the grantor or successors in interest if such property is not required for the alignment chosen after public hearings and completion of the environmental document."

(c) Section 4651 of title 42, United States Code, is amended as follows:

(1) Insert after "programs" in the first sentence the following "to promote joint projects between States and landowners and other entities in order to maximize Federal and State dollars".

(2) Insert new paragraph (10) as follows:

"(10) Promotion of joint projects wherein private citizens and other governmental entities participate in the cost through land donations and/or financial contributions is consistent with Federal policy and should be encouraged by all Federal agencies. To this end donations of right-of-way and/or financial contributions by a State or other political subdivision, or any person is permissible."

(d) Notwithstanding any other provision of law, the fair market value of any lands which have been or in the future are donated or dedicated to the State of California necessary for the right-of-way for relocation and construction of California State Route 73 in Orange County, California, from its interchange with Interstate Route I-405 to its interchange with Interstate Route I-5 shall be included as a part of the cost of such relocation and construction project and shall be credited first toward payment of the non-Federal share of the cost of such relocation and construction project. If the fair market value of such lands exceeds the non-Federal share of such relocation and construction project, then the excess amount, upon the request of the State of California, shall be credited toward the non-Federal share of the cost of any other project on the Federal-aid system in the State of California. To further the purposes of this section and section 323 of title 23, United States Code, any recorded irrevocable offer of dedication or donation of property within the right-of-way shall be considered as part of the State right-of-way acquisition for purposes of this section if such offer is irrevocable and effective no later than such time as the State of California re-

quests final reimbursement for the Federal share. In no case shall the amount of Federal-aid reimbursement to the State of California on account of such relocation and construction project exceed the actual cost to the State for such project.

**PROHIBITION AGAINST DISCLOSURE AND ADMISSION AS EVIDENCE OF STATE REPORTS AND SURVEYS**

Sec. 124. Chapter 4 of title 23, United States Code, is amended by adding section 409 as follows:

"§ 409. Reports, surveys; disclosures; admission as evidence

Notwithstanding any other provision of law, reports, surveys, schedules, lists, or data compiled with the purpose of identifying, evaluating, or planning the safety enhancement of potential accident sites, hazardous roadway conditions, or rail-highway crossings, pursuant to sections 130, 144, and 152 of title 23, United States Code, or for the development of any highway safety construction improvement project which may be implemented utilizing Federal-aid highway funds shall not be admitted into evidence in Federal or State court, or considered for other purposes, in any action for damages arising from any occurrence at a location mentioned or addressed in such reports, surveys, schedules, lists or data."

**BUY AMERICA**

Sec. 125. Section 165(a) of the Surface Transportation Assistance Act of 1982 is amended to read as follows:

"Notwithstanding any other provision of law, the Secretary of Transportation shall not obligate any funds authorized to be appropriated by this Act or by any Act amended by this Act or, after the date of enactment of this Act, any funds authorized to be appropriated to carry out this Act, title 23, United States Code, the Urban Mass Transportation Act of 1964, or the Surface Transportation Assistance Act of 1978 and administered by the Department of Transportation, for projects whose total cost exceed \$500,000, unless steel and manufactured products used in such projects are produced in the United States."

**REGULATION OF TOLLS**

Sec. 126. (a) Section 4 of the Bridge Act of 1906 (34 Stat. 85, 33 U.S.C. 494), as amended, is further amended by deleting the last sentence thereof.

(b) Section 17 of the Act of June 10, 1930 (46 Stat. 552, 33 U.S.C. 498a), as amended, is repealed.

(c) Section 1 of the Act of June 27, 1930 (46 Stat. 821, 33 U.S.C. 498b), as amended, is repealed.

(d) Sections 1-5 of the Act of August 21, 1935 (49 Stat. 670, 33 U.S.C. 503-507), as amended, are repealed.

(e) Sections 503 and 506 of the General Bridge Act of 1946 (60 Stat. 847, 848, 33 U.S.C. 526, 529), as amended, are repealed.

(f) Section 133 of Public Law 93-87 (87 Stat. 267, 33 U.S.C. 526a) is repealed.

(g) Section 6 of the International Bridge Act of 1972 (86 Stat. 732, 33 U.S.C. 535d) is repealed.

(h) Section 6(g)(4) of the Department of Transportation Act (80 Stat. 937, 49 U.S.C. 1655(g)(4)) is repealed.

(i) Tolls for passage or transit over any bridge constructed under the authority of the Bridge Act of 1906, as amended, the General Bridge Act of 1946, as amended, and the International Bridge Act of 1972, shall be just and reasonable.

**INDIAN EMPLOYMENT AND CONTRACTING**

Sec. 127. Section 140 of title 23, United States Code is amended by adding the following:

"(d) Consistent with section 703(i) of the Civil Rights Act of 1964, Public Law 88-352, 78 Stat. 241, July 2, 1964, nothing in this section shall preclude the preferential employment of Indians living on or near a reservation on projects and contracts on Indian reservation roads. The Secretary shall cooperate with Indian tribal governments and the States to implement this subsection."

**DISADVANTAGED BUSINESS ENTERPRISE PROGRAM**

Sec. 128. (a) **CONTRACTING GOAL.**—Except as the Secretary determines otherwise, not less than 10 per centum of the amounts authorized to be appropriated under this title or obligated under title 1 of Public Law 97-424 after the effective date of this Act shall be expended with small business concerns owned and controlled by socially and economically disadvantaged individuals.

(b) **DEFINITIONS.**—For the purposes of this section:

(1) "disadvantaged business enterprise" means a small business concern owned and controlled by socially and economically disadvantaged individuals;

(2) "small business concern" is defined by section 3 of the Small Business Act (15 U.S.C. 632), except that a small business concern shall not include any concern or group of concerns controlled by the same socially and economically disadvantaged individual or individuals which has annual average gross receipts in excess of \$10 million, as adjusted by the Secretary for inflation; and

(3) "socially and economically disadvantaged individuals" is defined by section 8(d)(2)(C) of the Small Business Act (15 U.S.C. 637(d)(2)(C)), except that women shall be presumed to be socially and economically disadvantaged individuals.

(c) **TECHNICAL ASSISTANCE.**—Amounts expended for technical assistance to benefit disadvantaged business enterprises may be used to meet up to 10 per centum of the amounts required to be expended on a contract or subcontract with a disadvantaged business enterprise under the provisions of this section.

(d) **UNIFORM CERTIFICATION.**—The Secretary shall establish minimum uniform criteria for State governments to use in certifying whether a concern is a disadvantaged business enterprise for the purposes of this section. Such minimum uniform criteria shall include but not be limited to on-site visits, personal interviews, licenses, analysis of stock ownership, listing of equipment, analysis of bonding capacity, listing of work completed, resume of principal owners, financial capacity, and type of work preferred.

(e) **LEVEL OF EFFORT BY SUBCONTRACTORS.**—

(1) Amounts expended with a disadvantaged business enterprise for subcontracting work shall not be used to meet any part of the goal established by this section unless such enterprise performs with its own organization subcontract work amounting to not less than 30 per centum of the subcontract price not including materials and supplies.

(2) A State government may reduce the 30 per centum requirement of paragraph (1) for a particular contract if it determines that such a reduction would be in the public interest and that the level of effort by the disadvantaged business enterprise is consistent with industry practice by subcontractors for the type of work involved.

(3) Except for contracting arrangements approved in advance by the State government, any payments from a disadvantaged business enterprise to the prime contractor or any affiliate shall not be used to meet any part of the goal established by this section.

(f) **PRIME CONTRACTS.**—Except as the Secretary determines otherwise, amounts equal to not less than 5 per centum in 1988, not less than 7 per centum in 1989 and not less than 10 per centum in 1990, of the goal established by this section for a State shall be expended on contracts directly between a State government and a disadvantaged business enterprise.

(g) **APPLICABILITY.**—Section 105(f) of Public Law 97-424 shall not apply to amounts authorized under title 1 of such Act and obligated after the effective date of this Act.

**RELEASE OF CONDITION RELATING TO CONVEYANCE OF A CERTAIN HIGHWAY**

Sec. 129. Notwithstanding paragraph (1) of subsection (b) of section 146 of the Federal-Aid Highway Act of 1970 (84 Stat. 1739) and any agreement entered into under such subsection, no conveyance of any road or portion thereof shall be required to be made under such paragraph or agreement to the State of Maryland and the State of Maryland shall not be required to accept conveyance of any such road or portion. Funds authorized by such section may be obligated and expended without regard to any requirement of such paragraph or agreement that such conveyance be made.

**WASTE ISOLATION PILOT PROJECT**

Sec. 130. For the fiscal year ending September 30, 1986, and thereafter, there is authorized to be appropriated \$58,000,000 to remain available until expended for the upgrading of certain highways in the State of New Mexico for the transportation of nuclear waste generated during defense-related activities.

**OBLIGATION LIMITATION**

Sec. 131. (a) Notwithstanding any other provisions of law, the total of all obligations for Federal-aid highways and highway safety construction programs shall not exceed—

- (1) \$12,350,000,000 for fiscal year 1987;
- (2) \$12,350,000,000 for fiscal year 1988;
- (3) \$12,350,000,000 for fiscal year 1989; and
- (4) \$12,350,000,000 for fiscal year 1990.

These limitations shall not apply to obligations for emergency relief under section 125 of title 23, United States Code, and projects under section 157 of title 23, United States Code.

(b) For each of the fiscal years 1987, 1988, 1989 and 1990, the Secretary of Transportation shall distribute the limitation imposed by subsection (a) by allocation in the ratio which sums authorized to be appropriated for Federal-aid highways and highway safety construction which are apportioned or allocated to each State for such fiscal year bears to the total of the sums authorized to be appropriated for Federal-aid highways and highway safety construction which are apportioned or allocated to all the States for such fiscal year.

(c) Notwithstanding subsection (b), the Secretary shall—

(1) provide all States with authority sufficient to prevent lapses of sums authorized to be appropriated for Federal-aid highways and highway safety construction which

have been apportioned or allocated to a State;

(2) after August 1 of each of the fiscal years 1987, 1988, 1989, and 1990 revise a distribution of the funds made available under subsection (b) for such fiscal year if a State will not obligate the amount distributed during such fiscal year and redistribute sufficient amounts to those States able to obligate amounts in addition to those previously distributed during such fiscal year giving priority to those States having large unobligated balances of funds apportioned under section 104 of title 23, United States Code, and giving priority to those States which, because of statutory changes made by the Surface Transportation Assistance Act of 1982 and the Federal-Aid Highway Act of 1981, have experienced substantial proportional reductions in their apportionments and allocations; and

(3) not distribute amounts authorized for administrative expenses, Federal lands highways, and the Strategic Highway Research Program.

#### HISTORIC BRIDGES

SEC. 132. (a) Congress hereby finds and declares it to be in the national interest to encourage the rehabilitation, reuse and preservation of bridges significant in American history, architecture, engineering and culture. Historic bridges are important links to our past, serve as safe and vital transportation routes in the present, and can represent significant resources for the future.

(b) The Secretary shall, in cooperation with the State, implement the programs described in section 144 of this title in a manner that encourages the inventory, retention, rehabilitation, adaptive reuse and future study of historic bridges.

(c) The Secretary shall require each State to complete an inventory of all bridges on and off the Federal-aid system to determine their historic significance.

(d) Reasonable costs associated with actions to preserve, or reduce the impact of the project on, the historic integrity of historic bridges which continue to be used for motorized vehicular traffic shall be eligible as reimbursable project costs, including projects authorized pursuant to section 144 of title 23, provided that the load capacity and safety features of the resulting bridge are adequate to serve the intended use for the life of the facility. Funding pursuant to section 144 of this title for actions to preserve, or reduce the impact of the project on, the historic integrity of historic bridges which are no longer used for motorized vehicular traffic shall not exceed the estimated cost of demolition.

(e) Any State which proposes to demolish a historic bridge for a replacement project with funds made available pursuant to section 144 of title 23, shall make the bridge available for donation to a State, locality, or responsible private entity provided such State, locality, or responsible entity enters into an agreement to—

(1) maintain the bridge and the features that give it its historic significance and

(2) assume all future legal and financial responsibility for the bridge, which may include an agreement to hold the State highway agency harmless in any liability action. Costs incurred by the State to preserve the historic bridge, including funds made available to the State, locality, or private entity to enable it to accept the bridge, shall be eligible project costs under chapter 1 of title 23 up to an amount not to exceed the cost of demolition. Any bridge preserved pursuant to this subsection shall thereafter not

be eligible for any other funds authorized pursuant to this title.

(f) For purposes of this section, "historic bridge" means any bridge that is listed on, or eligible for listing on, the National Register of Historic Places.

(g) The Secretary of Transportation shall make appropriate arrangements with the Transportation Research Board of the National Research Council to carry out a study of the section 144 bridge program's effect on the preservation and rehabilitation of historic bridges. The Transportation Research Board shall also develop recommendations of specific standards which shall apply only to the rehabilitation of historic bridges, and shall provide an analysis of any other factors which would serve to enhance the rehabilitation of historic bridges.

#### FOREST HIGHWAYS

SEC. 133. Notwithstanding section 202(a) of title 23, United States Code, the Secretary of Transportation shall, after making the transfer provided by section 204(g) of title 23, United States Code, on October 1, or as soon thereafter as is practicable, of each of the fiscal years ending September 30, 1987, September 30, 1988, September 30, 1989, and September 30, 1990, allocate 66 per centum of the remainder of the authorization for forest highways provided for that fiscal year by this Act in the same percentage as the amounts allocated for expenditure in each State and the Commonwealth of Puerto Rico from funds authorized for forest highways for the fiscal year ending June 30, 1958, adjusted to (1) eliminate the 0.003,243,547 per centum for the State of Iowa to the State by deed executed May 26, 1964, and (2) redistribute the above percentage formerly apportioned to the State of Iowa for other participating States on a proportional basis. The remaining funds authorized to be appropriated for forest highways for such fiscal years shall be allocated pursuant to section 202(a) of title 23, United States Code.

#### WILDFLOWERS

SEC. 134. Section 319 of title 23, United States Code, is amended by inserting an "(a)" after section 319 and inserting the following new subsection:

"(b) The Secretary shall require the planting of native wildflower seeds and/or seedlings as part of any landscaping project under this section. At least one-quarter per centum of the funds expended for landscaping projects shall be used for such plantings. The requirements of this subsection may be waived by the Secretary if the State certifies that such native wildflowers or seedlings cannot be grown satisfactorily or planting areas are limited or otherwise used for agricultural purposes. Nothing in this subsection shall be construed to prohibit the acceptance of native wildflower seeds or seedlings donated by civic organizations or other organizations and individuals to be used in landscaping projects."

#### COMBINED ROAD PLAN DEMONSTRATION PROGRAM

SEC. 135. (a) The Secretary of Transportation, in cooperation with up to 10 States, shall conduct a Combined Road Plan Demonstration to test the feasibility of approaches for combining, streamlining and increasing the flexibility in the administration of the Federal-aid secondary, Federal-aid urban and off-system urban and secondary bridge programs. The demonstration shall place as much responsibility as feasible with State and local governments including, but not limited to, the granting of

design exceptions and the conduct of final inspections.

(b) As soon as is practicable, upon completion of the demonstration project, the Secretary of Transportation shall submit a report to the Congress evaluating the effectiveness of the demonstration and making needed recommendations.

#### NEW JERSEY PENNSYLVANIA TOLL COMPACT

##### DELAWARE RIVER JOINT TOLL BRIDGE COMMISSION

SEC. 136. (a) OBLIGATION TO REPAY FEDERAL FUNDS INVESTED ON I-80.—

(1) The Delaware River Joint Toll Bridge Commission (hereinafter in this section referred to as the "Commission"), in conjunction with the State highway agencies of the Commonwealth of Pennsylvania and of the State of New Jersey, shall enter into an agreement with the Secretary of Transportation to repay to the Treasury of the United States any Federal funds which previously have been obligated or otherwise expended by the Federal Government with respect to the Delaware Water Gap Bridge on I-80. Such repayment shall be credited to the Highway Trust Fund.

(2) Upon such repayment, such States and the Commission shall be free of all restrictions contained in title 23, United States Code, and any regulation or agreement thereunder, with respect to the collection or imposition of tolls or other charges for such bridge or the use thereof.

(b) AGREEMENT TO CONSTRUCT I-78 BRIDGE AS A TOLL BRIDGE.—If the Commonwealth of Pennsylvania, the State of New Jersey, and the Commission determine to operate the uncompleted bridge under construction in the vicinity of Easton, Pennsylvania, and Phillipsburg, New Jersey, on I-78 as a toll bridge, such States, the Commission, and the Secretary of Transportation shall enter into an agreement with respect to such I-78 bridge project as provided in section 129 of title 23, United States Code, notwithstanding the requirements of section 301 of such title or any existing agreement.

(c) COMMISSION'S AUTHORITY TO CHARGE TOLLS; RIGHT OF REVIEW BY FEDERAL AGENCIES PRESERVED.—The Commission's authority to fix, charge, or collect any fees, rentals, tolls, or other charges shall be as provided in its Compact, supplements thereto and the supplemental agreement described and consented to in subsection (f), but paragraph (c) of the supplemental agreement described and consented to in subsection (f) shall not be construed to eliminate the necessity for review and approval by any Federal agency, as may be required under applicable Federal law, to determine that the tolls charged by the Commission are reasonable and just consistent with the Commission's responsibilities under its Compact, supplements thereto and the supplemental agreement described and consented to in subsection (f).

(d) CONGRESSIONAL CONSENT NOT GRANTED TO TOLLS ON EXISTING NONTOLL BRIDGES.—Nothing in this section shall be construed to grant congressional consent to the imposition of tolls by the Commission on any existing and operating bridge under the Commission's jurisdiction on which tolls were not charged and collected on January 1, 1986.

(e) CONGRESSIONAL APPROVAL NOT APPLICABLE TO I-895 CORRIDOR.—Nothing in this section shall constitute congressional approval to construct any additional toll bridge in the previously designated I-895 corridor.

**(f) CONSENT OF CONGRESS TO SUPPLEMENTAL AGREEMENT CONCERNING AUTHORITY OF COMMISSION.—**

(1) The consent of the Congress is hereby given to the supplemental agreement, described in paragraph (2), concerning the Delaware River Joint Toll Bridge Commission, which agreement has been enacted by the Commonwealth of Pennsylvania on December 18, 1984, as Act 206, laws of 1984, and by the State of New Jersey on October 21, 1985, as Public Law 1985, chapter 342.

(2) The agreement referred to in paragraph (1) reads substantially as follows:

**"SUPPLEMENTAL AGREEMENT BETWEEN THE COMMONWEALTH OF PENNSYLVANIA AND THE STATE OF NEW JERSEY**

"Supplementing the Compact or Agreement Entitled Agreement between the Commonwealth of Pennsylvania and the State of New Jersey Creating the Delaware River Joint Toll Bridge Commission as a Body Corporate and Politic and Defining its Powers and Duties, as Heretofore Amended and Supplemented, to Establish the Purposes for Which the Commission May Fix, Charge, and Collect Tolls, Rates, Rents, and Other Charges for the use of Commission Facilities and Properties".

"The Commonwealth of Pennsylvania and the State of New Jersey do solemnly covenant and agree, each with the other, as follows:

"(a)(1) Notwithstanding any other provision of the compact hereby supplemented, or any provision of law, State or Federal to the contrary, as soon as the existing outstanding bonded indebtedness of the commission shall be refunded, defeased, retired, or otherwise satisfied and thereafter, the commission may fix, charge, and collect tolls, rates, rents, and other charges for the use of any commission facility or property and in addition to any purpose now or heretofore or hereafter authorized for which the revenues from such tolls, rates, rents, or other charges may be applied, the commission is authorized to apply or expend any such revenue for the management, operation, maintenance, betterment, reconstruction, or replacement (a) of the existing non-toll bridges, formerly toll or otherwise, over the Delaware River between the State of New Jersey and the Commonwealth of Pennsylvania heretofore acquired by the commission pursuant to the provisions of the act of the State of New Jersey approved April 1, 1912 (Chapter 297), and all supplements and amendments thereto, and the act of the Commonwealth of Pennsylvania approved May 8, 1919 (Pamphlet Laws 148), and all supplements and amendments thereto and (b) of all other bridges within the commission's jurisdiction and control. Betterment shall include but not be limited to parking areas for public transportation services and all facilities appurtenant to approved projects.

"(2) The commission may borrow money or otherwise incur indebtedness and provide from time to time for the issuance of its bonds or other obligations for one or more of the purposes authorized in this supplemental agreement. The commission is authorized to pledge its tolls, rates, rents, and other revenues, or any part thereof, as security for the repayment, with interest, of any moneys borrowed by it or advanced to it for any of its authorized purposes, and as security for the satisfaction of any other obligation assumed by it in connection with such loan or advances.

"(3) The authority of the commission to fix, charge, and collect fees, rentals, tolls or

any other charges on the bridges within its jurisdiction, including the bridge at the Delaware Water Gap, is confirmed.

"(4) The covenants of the State of New Jersey and the Commonwealth of Pennsylvania as set forth in Article VI of the compact to which this is a supplemental agreement shall be fully applicable to any bonds or other obligations issued or undertaken by the commission. Notwithstanding Article VI or any other provision of the compact, the State of New Jersey and the Commonwealth of Pennsylvania may construct a bridge across the Delaware River in the vicinity of Easton, Pennsylvania, and Phillipsburg, New Jersey, within 10 miles of the existing toll bridge at that location. All the rest and remainder of the compact, as amended or supplemented, shall be in full force and effect except to the extent it is inconsistent with this supplemental agreement.

"(b) The commission is authorized to fix, charge, or collect fees, rentals, tolls, or any other charges on the proposed bridge to be constructed in the vicinity of Easton, Pennsylvania, and Phillipsburg, New Jersey, in the same manner and to the same extent that it can do so for other toll bridges under its jurisdiction and control provided that the United States Government has approved the bridge to be a part of the National System of Interstate and Defense Highways with 90 percent of the cost of construction to be contributed by the United States Government, and provided further, that the non-Federal share of such bridge project is contributed by the commission. The commission is further authorized in the same manner and to the same extent that it can do so for all other toll bridges under its jurisdiction and control to fix, charge, and collect fees, rentals, tolls or any other charges on any other bridge within its jurisdiction and control if such bridge has been constructed in part with Federal funds.

"(c) The consent of Congress to this compact shall constitute Federal approval of the powers herein vested in the commission and shall also constitute authority to the United States Department of Transportation or any successor agency and the intent of Congress to grant any Federal approvals required hereunder to permit the commission to fix, charge, and collect fees, rentals, tolls, or any other charges on the bridges within its jurisdiction to the extent provided in subsections (a) and (b) and this subsection and the compact.

"(d) Notwithstanding the above provisions, the commission shall not fix, charge, or collect fees, rentals, tolls, or any other charges on any of the various bridges formerly toll or otherwise over the Delaware River between the State of New Jersey and the Commonwealth of Pennsylvania heretofore acquired by the commission pursuant to the provisions of the Act of the State of New Jersey approved April 1, 1912 (chapter 297), and all supplements and amendments thereto, and the Act of the Commonwealth of Pennsylvania approved May 8, 1919 (Pamphlet Laws 148), and all supplements and amendments thereto.

"(e) At any time that the commission shall be free of all outstanding indebtedness, the State of New Jersey and the Commonwealth of Pennsylvania may, by the enactment of substantially similar acts, require the elimination of all tolls, rates, rents, and other charges on all bridges within the commission's jurisdiction and control and, thereafter, all costs and charges in connection with the construction,

management, operation, maintenance, and betterment of bridges within the jurisdiction and control of the commission shall be the financial responsibility of the States as provided by law."

**MOTOR VEHICLE STUDY**

Sec. 137. (a) The Secretary shall enter into appropriate arrangements with the Transportation Research Board (TRB) of the National Academy of Sciences to conduct a study of those motor vehicle issues noted in subsection (b) of this section. The TRB shall consult with the Department of Transportation, the State highway administrations, the motor carrier industry, highway safety groups, and any other appropriate entities.

(b) The study shall include an analysis of the impacts of the various positions that have been put forth with respect to each issue. The final report shall include best estimates of the effects on pavement, bridges, and highway safety, and the changes in transportation costs and other measures of productivity for various segments of the trucking industry resulting from adoption of each of the positions identified and analyzed. Related issues of permitting, weight enforcement, and data availability and reliability shall be addressed as appropriate. The issues to be addressed shall include but not be limited to:

(1) Elimination of existing, grandfather provisions of section 127, title 23, United States Code, which allow higher axle loads and gross vehicle weights than the 20,000-pound single axle load limit, 34,000-pound tandem axle load limit, and 80,000-pound gross vehicle weight limit maximums authorized by the Federal-Aid Highway Amendments of 1974 (Public Law 93-643), including permits for divisible loads and statutory provisions providing higher weights by formula, tolerance or statutory specification.

(2) Analysis of alternative methods of determining a gross vehicle weight limit and axle loadings for all types of motor carrier vehicles.

(3) Analysis of the bridge formula contained in section 127 of title 23, United States Code, in view of current vehicle configurations, pavement and bridge stresses in accord with 1986 design and construction practices, and existing bridges on and off the Interstate System.

(4) Establishment of a nationwide policy regarding the provisions of "reasonable access" to the National Network for combination vehicles established pursuant to the Surface Transportation Assistance Act of 1982.

(5) Recommend appropriate treatment for specialized hauling vehicles which do not comply with the existing Federal bridge formula.

(c) The TRB shall submit a final report to the Secretary and the Senate Environment and Public Works Committee and the House Public Works and Transportation Committee of the Congress on the results of the study conducted under this section, not later than thirty months after appropriate arrangements are entered into under subsection (a). Appropriate arrangements shall be concluded within six months from the date of passage of this Act.

(d) There is authorized to be appropriated to carry out subsection (a) of this section, out of the Highway Trust Fund (other than the Mass Transit Account), \$500,000 per fiscal year for each of the fiscal years ending September 30, 1987, and September

30, 1988. Funds authorized for this section shall be available for obligation in the same manner as if apportioned under chapter 1 of title 23, United States Code, and shall be available until expended.

#### RAIL-HIGHWAY CROSSINGS STUDY

SEC. 138. (a) The Secretary shall conduct a study of national highway-railroad crossing improvement and maintenance needs. The Secretary shall consult with the State highway administrations, the Association of American Railroads, highway safety groups, and any other appropriate entities in carrying out this study.

(b) The issues to be addressed by this study shall include but not be limited to:

(1) Examine any correlation which may exist between existing conditions at crossings and accident data at crossings.

(2) Examine existing hazards to motorists and railroad personnel and community impacts resulting from mobility and capacity constraints including delays of police, fire, and emergency medical services.

(3) Analysis of most cost effective methods of protecting the public at crossings including a review of the impact of Federal funds expended at crossings; division of cost of improvements and maintenance between Federal, State, local governments and railroads; cost effectiveness of the Railroad Relocation Demonstration Program (section 163 of the Federal-Aid Highways Act of 1973) compared to the Railroad-Highway Crossings program (section 203 of the Highway Safety Act of 1973); and the cost of upgrading existing equipment at crossings to the latest technology.

(4) Examine driver behavior at railroad-highway crossings and what technologies are most effective in changing behavior and preventing accidents.

(5) Examine what effect the shift in rail traffic patterns, including abandonments, mergers, and increased demand in certain corridors has on railroad-highway crossing needs.

(6) Review any other potential costs associated with railroad-highway crossings including accident liability, increased truck size and weight, and maintenance responsibilities.

(c) The Secretary shall submit a final report to the Senate Environment and Public Works Committee and the House Public Works and Transportation Committee of the Congress on the results of the study conducted under this section along with recommendations of how these needs can be addressed in a cost effective manner, not later than twenty-four months after the date of enactment of this section.

(d) There is authorized to be appropriated to carry out subsection (a) of this section, out of the Highway Trust Fund (other than the Mass Transit Account), \$600,000 for the fiscal year ending September 30, 1987, to remain available until expended. Funds authorized for this section shall be available for obligation in the same manner as if apportioned under chapter 1 of title 23, United States Code, and shall be available until expended.

#### INTERIM AMENDMENTS

SEC. 139. (a) Unobligated balances of Interstate construction funds apportioned or allocated to a State and available to a State on enactment of the Federal-Aid Highway Act of 1987, shall be available for obligation for Interstate construction projects or to convert Advance Construction Interstate projects until October 1, 1990. Federal Interstate construction funds shall

not be used to reimburse the State under section 123(a) of title 23, United States Code, when the payment to the utility violates the law of the State or violates a legal contract between the utility and the State. Projects constructed under this subsection are eligible for the Federal share payable provided in section 120(b) of title 23, United States Code. Interstate discretionary funds unallocated on enactment of the Federal-Aid Highway Act of 1987, shall be available for allocation until October 1, 1990.

(b) Unobligated balances apportioned to a State under section 104(b)(1) of title 23, United States Code and section 104(b)(5)(B) of title 23, United States Code, shall be available for obligation for projects under section 159 of title 23, United States Code.

(c) Unobligated balances apportioned to the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands under the provisions of section 108 of the Highway Improvement Act of 1982 shall be considered to have been authorized to be appropriated to carry out the provisions of section 215 of title 23, United States Code.

(d) Unobligated balances apportioned to a State under section 203 of the Highway Safety Act of 1973 shall be available for projects under section 130 of title 23, United States Code.

#### TECHNICAL AMENDMENTS

SEC. 140. (a) Title 23, United States Code, is amended as follows:

(1) The tables of sections for chapters 1, 3, and 4 are amended by (A) striking:

"118. Availability of sums apportioned."  
"127. Vehicle weight and width limitations—Interstate System."

"133. Repealed."  
"146. Repealed."  
"148. Development of a national scenic and recreational highway."

"151. Pavement marking demonstration program."

"155. Access highways to public recreation areas on certain lakes."

"156. Highways crossing Federal projects."  
"213. Rama Road."

and  
"219. Safer off-system roads,"  
and by (B) inserting in lieu thereof, respectively,

"118. Availability."  
"127. Vehicle weight limitations—Interstate System."

"133. Strategic highway research program."  
"146. Carpool and vanpool projects."

"148. Repealed."  
"151. Repealed."

"155. Repealed."  
"156. Repealed."

"213. Repealed."  
and

"219. Repealed."  
and by (C) adding

"159. Federal-aid Interstate-primary program."

"160. Income from right-of-way."

and  
"409. Reports, surveys; disclosures; admission as evidence."

(2) Section 101(a) is amended by striking the definition of "park road" and inserting in lieu thereof "The term 'park road' means a public road that is located within, or provides access to, an area in the national park system, with title and maintenance responsibilities vested in the United States."

(3) Section 106(c) is amended by striking "10" and inserting in lieu thereof "15" and by striking the second sentence.

(4) Section 107(b) is amended by striking "under section 108(b) of the Federal-Aid Highway Act of 1956" and inserting in lieu thereof "for Interstate construction or for the Interstate-primary program".

(5) Section 113 is amended by striking out "August 30, 1935" and inserting in lieu thereof "March 3, 1931" and by striking out "267a" and inserting in lieu thereof "276a".

(6) Section 115(a)(1) is amended by striking "interstate funds," and inserting in lieu thereof "Interstate-primary program funds," and by striking "funded under section 104(b)(5) of this title".

(7) Section 121(d) is amended by striking out "10" and inserting in lieu thereof "15", and by striking out the third sentence.

(8) The first sentence of section 122 is amended by inserting "or for substitute highway projects" before "and the retirement".

(9)(A) Section 125(b) is amended by striking out "the Interstate System, the Primary System, and on any routes functionally classified as arterials or major collectors," each place it appears and inserting in lieu thereof "the Federal-aid highway systems, including the Interstate System".

(B) Section 125(c) is amended by striking out "routes functionally classified as arterials or major collectors" and inserting in lieu thereof "on any of the Federal-aid highway systems".

(10) Section 137(f)(1) is amended by striking "104(b)(5)(B)" and inserting in lieu thereof "104(d)(1)".

(11) Section 141(d) is amended by striking "104(b)(5)" and inserting in lieu thereof "104(d)(1)" the two places "104(b)(5)" appears and by inserting "primary" after the word "Interstate".

(12)(A) Section 142(a)(1) is amended by (iii) striking "104(b)" and inserting in lieu thereof "104(d)".

(B) Section 142(a)(2) is amended by striking "104(b)(6)" the three places it appears and inserting in lieu thereof "104(d)(3)" in each place.

(C) Section 142(b) is amended by striking "paragraph (5) of subsection (b) of section 104" and inserting in lieu thereof "section 104(d)(1)".

(D) Section 142(c) is amended by striking "104(b)(6)" the two places it appears and inserting in lieu thereof in each place "104(d)(3)".

(13) Section 144(i) is amended by striking out the period at the end and inserting in lieu thereof "to the Senate Committee on Environment and Public Works and the House Committee on Public Works and Transportation".

(14) Section 146 is amended by striking "104(b)(1), 104(b)(2), and 104(b)(6)" and inserting in lieu thereof "104(d)(1), (2), and (3)".

(15) Sections 148, 151, 155, 156, 213, and 219 are repealed.

(16) Section 150 is amended by striking "(6) of subsection (b)" in two places and inserting in lieu thereof in each place "(3) of subsection (d)".

(17)(A) Section 152(e) is amended by striking "104(b)(1)" and inserting in lieu thereof "104(d)(1)".

(B) Section 152(g) is amended by striking "the Congress" and inserting in lieu thereof "the Senate Committee on Environment and Public Works and the House Committee on Public Works and Transportation".

(18)(A) Section 154(e) is amended—

(i) by striking out "criteria which takes" and inserting in lieu thereof "criteria which take";

(ii) by inserting after "posted" the following: "on January 1, 1983,"; and

(iii) by inserting before "in accordance with" the following: ", and on highways built after such date with speed limits posted at fifty-five miles per hour,".

(B) Section 154(f) is amended by striking "each of sections 104(b)(1), 104(b)(2), and 104(b)(6) of this title in an aggregate amount of up to 5 percent of the amount to be apportioned for the following fiscal years, in the case of fiscal years 1982 and 1983, and up to 10 percent, in the case of subsequent fiscal years," and inserting in lieu thereof "sections 104(d)(1)(C), (2), and (3) of this title in an amount of up to 10 percent of the amount to be apportioned for the following fiscal year."

(19)(A) Section 158(a)(1) is amended by striking "each of the sections 104(b)(1), 104(b)(2), 104(b)(5), and 104(b)(6) of this title on the first day of the fiscal year succeeding the fiscal year beginning after September 30, 1985" and inserting in lieu thereof "sections 104(d)(1), (2), and (3) of this title on October 1, 1986".

(B) Section 158(a)(2) is amended by striking "each of sections 104(b)(1), 104(b)(2), 104(b)(5) and 104(b)(6) of this title on the first day of the fiscal year succeeding the second fiscal year beginning after September 30, 1985" and inserting in lieu thereof "sections 104(d)(1), (2), and (3) of this title on October 1, 1987."

(20)(A) The second sentence of section 204(b) is amended by inserting "the Secretary or" before the "Secretary of the Interior".

(B) Section 204(e) is amended by striking "88 Stat. 2205" and inserting in lieu thereof "88 Stat. 2203".

(21) Section 210(g) is amended by striking "Commerce" and inserting in lieu thereof "Transportation".

(22) Subsection (a) of section 215 of title 23, United States Code, is amended by striking from the first sentence the words "and American Samoa" and inserting in lieu thereof "American Samoa, and the Commonwealth of the Northern Mariana Islands".

(23) Section 217 is amended by striking "paragraphs (1), (2), and (6) of section 104(b)" the two places it appears and inserting in lieu thereof "sections 104(d)(1), (2), and (3)".

(24)(A) Section 307(c)(3) is amended by striking "(1), (2), and (3) of section 104(b)" and inserting in lieu thereof "(1) and (2) of 104(d)".

(B) Section 307(c)(5) is amended by striking "104(b)(1)" and inserting in lieu thereof "104(d)(1)".

(C) Section 307(e) is amended by striking "the Congress" and inserting in lieu thereof "the Senate Environment and Public Works Committee and the House Committee on Public Works and Transportation".

(25) Section 311 is amended by striking "(b)" and inserting in lieu thereof "(d)".

(26) Section 315 is amended by striking "204(d), 205(a), 207(b) and 208(c)" and inserting in lieu thereof "204(f) and 205(a)".

(27) Section 401 is amended by striking "and American Samoa," and inserting in lieu thereof "American Samoa and the Commonwealth of the Northern Mariana Islands."

(28)(A) Section 402(c) is amended by (i) striking "For the fiscal years ending June 30, 1967, June 30, 1968, and June 30, 1969, such funds shall be apportioned 75 per centum on the basis of population and 25 per centum as the Secretary in his adminis-

trative discretion may deem appropriate and thereafter such" and inserting in lieu thereof "Such", by (ii), striking "After December 31, 1969, the" and inserting in lieu thereof "The", and by (iii) striking "and American Samoa" and inserting in lieu thereof "American Samoa and the Commonwealth of the Northern Mariana Islands".

(B) The last sentence of section 402(j) is amended by striking out "chapter" and inserting in lieu thereof "section".

(b)(1) Section 108(b) of the Federal-Aid Highway Act of 1956 is amended by (A) inserting "and" before "the additional sum of \$4,000,000,000 for the fiscal year ending September 30, 1987", by (B) inserting a period after "1987", and by (C) striking ", and the additional sum of \$4,000,000,000 for the fiscal year ending September 30, 1988, the additional sum of \$4,000,000,000 for the fiscal year ending September 30, 1989, and the additional sum of \$4,000,000,000 for the fiscal year ending September 30, 1990."

(2) Section 108(d) of the Surface Transportation Assistance Act of 1982 is amended by striking "this title," and inserting in lieu thereof "title 23, United States Code,".

(3) Section 163 of the Surface Transportation Assistance Act of 1982 is amended by striking "appropriated" and inserting in lieu thereof "apportioned".

(4) Section 163(o) of the Federal-Aid Highway Act of 1973 is amended to read as follows:

"(o) The Secretary of Transportation shall make biennial reports and a final report to the President, the Senate Committee on Environment and Public Works, and the House Committee on Public Works and Transportation with respect to activities pursuant to this section."

(5) Section 103(c) of the Federal-Aid Highway Act of 1978 is amended by striking "Congress" and inserting in lieu thereof "the Senate Committee on Environment and Public Works and the House Committee on Public Works and Transportation".

Mr. MOYNIHAN. Mr. President, I ask for a minute and a half to associate myself with the distinguished chairman of the Committee on Environment and Public Works.

The PRESIDING OFFICER. The Senator from New York.

Mr. MOYNIHAN. Mr. President, as the distinguished chairman has said, this is urgent legislation. The Congress did not pass a highway bill last year and we now have no legislation indefinitely with respect to the Interstate System and all the other secondary systems.

The chairman is absolutely correct. We need to pass this bill within a matter of weeks. The committee will be able to do so. We hope the Senate will understand this urgency.

Mr. President, I am pleased to join Senators BURDICK, STAFFORD, SYMMS, and other members of the Environmental and Public Works Committee introducing the Federal-Aid Highway Act of 1987.

The bill would provide \$52 billion from the Highway Trust Fund over 4 years for use by States on interstate highways, urban and secondary roads, bridge replacement and rehabilitation, as well as funds for forest highways, park roads, and Indian reservation

roads. Also included in this legislation are funds for the Federal Highway Administration's safety research and construction programs.

The bill will provide \$13 billion per year for the next 4 years. Overall, New York will receive approximately 5 percent of the entire authorization.

In key programs, New York will receive more: about 30 percent, or \$147 million of the Interstate Substitution Program; 10 percent, or \$15 million of the Bridge Repair Program, and 8.4 percent, or \$63 million, of the Federal Aid Urban Systems Program.

The bill we are introducing today also includes a provision secured in the bill passed at the end of the last Congress that would save from lapsing approximately \$90 million in Federal funds earmarked for Westway rights-of-way and easements so that they could be used for other highway projects in New York.

#### THE NEED FOR THE HIGHWAY REAUTHORIZATION BILL

The need for reauthorization of the highway programs is clear. The building season for many States, especially those in the Northeast, is short, and contract letting depends on swift passage of this legislation.

As the new chairman of the Subcommittee on Water Resources, Transportation and Infrastructure, I am looking forward to working closely with the chairman and other members of the committee to move the bill through markup in committee, to passage on the Senate floor, and through the eventual conference with the House of Representatives.

I urge my colleagues to support expeditious passage of this legislation.

● Mr. CHAFEE. Mr. President, I am pleased to join with Senator STAFFORD today in introducing legislation to reauthorize the Federal-Aid Highway Program.

The measure we are introducing is identical to the bill that was debated in the Senate last year and approved unanimously on September 24, 1986. Although conferees worked diligently to resolve differences in the bills passed by the Senate and House of Representatives, the legislation did not receive final action prior to the adjournment of the 99th Congress.

As a result, many States have nearly exhausted their Federal highway funds, and construction and repair projects on roads and bridges throughout the country have been halted. Many more will be delayed unless Congress acts promptly to reauthorize the program.

During the past 4 years, roads and bridges throughout the country have benefited from the increased funding made possible by the 1982 Highway Act. But much more remains to be done to improve the quality of our highways and bridges. The legislation

we are introducing today will extend the Federal Highway Program through 1990. It also contains several changes to increase the flexibility of the States in spending the Federal funds, in order for the program to respond better to State and local highway priorities.

The State of Rhode Island has embarked upon a vigorous road improvement program which has resulted in safer highways and thousands of jobs in the construction industry. The voters have shown strong support for this program by recently approving a \$57 million State transportation bond issue to match the Federal funds. Jobs could be jeopardized and projects postponed if Congress does not act swiftly to approve highway reauthorization legislation.

It is my hope that the Senate will act on this legislation without delay in order for the conference discussions to resume and the measure to be enacted as soon as possible.●

● Mr. SYMMS. Mr. President, I am pleased to join Senator STAFFORD, the distinguished ranking Republican on the Environment and Public Works Committee, and others on the committee in introducing this important legislation to reauthorize the Federal-Aid Highway Program. The bill we are introducing today passed the Senate last September by a vote of 99 to 0, the first unanimous vote on a highway authorization bill in the history of the Federal-Aid Highway Program. We introduce this legislation to remind Senators of the important work already done in this area and to encourage the body to help us move quickly toward final passage of a highway bill.

I was disappointed that Senate and House conferees were unable to reach an agreement on highway legislation prior to final adjournment of the 99th Congress. Since authorization of the Federal-Aid Highway Program expired at the end of fiscal year 1986, the Federal Highway Administration has been unable to apportion highway funds to the States in this fiscal year.

As a result, many States have been forced to cancel bid-lettings for spring construction work, and many Northern-tier States may lose the entire 1987 construction season. If a highway bill is not enacted in the near future, we face the loss of thousands of jobs in construction and related industries. I urge all Senators to consider seriously the adverse economic consequences of any further delay in passage of a highway bill.

Mr. President, I also am cosponsoring the highway bill which the distinguished chairman of the Environment and Public Works Committee, Senator BURDICK, and other members of the committee are introducing today. That bill is similar to the highway legislation we introduced in May of last year. It includes very few of the amend-

ments we adopted in committee or on the floor. I look forward to working with Senator BURDICK, Senator MOYNIHAN, the chairman of the Transportation Subcommittee, and others on the committee to move this bill as quickly as possible through markup and back to the Senate floor.●

● Mr. QUAYLE. Mr. President, as the 100th Congress convenes, it would seem prudent to consider the unfinished business of the 99th Congress. We were all disappointed when House and Senate conferees were unable to reconcile the differing versions of legislation to reauthorize Federal highway programs. We commend the efforts of Senate conferees who made numerous attempts to reach a fair compromise during the negotiations.

State and local governments across the United States have canceled or indefinitely delayed thousands of highway projects. The State of Indiana has postponed over 130 projects with a total cost of \$114 million. Interstate 70, formerly scheduled for expansion, remains clogged with traffic as it moves through downtown Indianapolis. The Fort Wayne bypass, a project of vital importance to northeast Indiana, has been stalled. Near Evansville, completion of the Russell Lloyd Expressway and construction of Interstate 164 have been delayed. These developments have hindered commerce in Indiana and threaten the economic development of our towns and cities.

If Congress fails to approve highway reauthorizing legislation prior to the end of February, we could lose an entire construction season in Northern States and every State would face a loss of jobs. In Indiana alone, approximately 8,000 Hoosiers stand to lose their jobs. It would be nothing short of irresponsible if we allowed this to happen. This week I am circulating a letter to send to Senator BURDICK, the distinguished chairman of the Committee on the Environment and Public Works, requesting speedy consideration of a new highway bill. I urge my colleagues to join me in this request. It is my hope that such a bill would not become bogged down in the contentious issues that stalled its progress in the last Congress. Furthermore, I would encourage all of my colleagues to consider the potential crisis that might result from our inaction and weigh the consequences against the importance of their special interests.

If it becomes apparent that these issues will threaten the timely passage of the legislation, I am certain support will grow for either a "clean bill," or a 1-year extension of past authority. The writing is on the wall. This is a time for compromise and cooperation. The American people are relying on us.●

#### FAST ACTION NEEDED TO AUTHORIZE HIGHWAY PROGRAM

● Mr. LAUTENBERG. Mr. President, I am pleased to join in introducing the 1987 highway reauthorization bill.

I believe that it is critical for the Committee on Environment and Public Works to favorably report and for this Senate to pass this bill.

In order for the States' highway departments to address both immediate and long-term needs, this Senate must act quickly. The failure to enact legislation before the highway authorizations ran out on September 30, 1986, has meant delay and hardship for those States ready and willing to proceed with necessary infrastructure improvements.

We must act so that this year's construction season is not lost. Plans must be developed, projects advertised, bids received and contracts let. Time is of the essence.

It is also important that a long-term reauthorization bill be enacted. This is important so that the program may continue for some uninterrupted period of time.

The highway program has been and is one of the most successful of all Federal assistance programs and a multiyear bill is necessary to ensure that continuity and success.

I am concerned, however, about the obligation ceilings contained in the bill. I believe that it is incumbent upon us to make available for the purposes intended, user fees that are collected.

As chairman of the Transportation Subcommittee of Appropriations I intend to exercise annual review of the Federal Aid Highway Program and most especially the program's overall obligation ceiling.

I am also encouraged that the bill introduced today does not contain any provision that would amend the existing national speed limit of 55 miles-per-hour.

This issue proved to be a particularly contentious 1 last year. It might have been the reason why no conference agreement was reached. If we want the highway program to go forward and go forward quickly such an amendment has no place on this bill.

Though no provision regarding demonstration projects is included in the bill, I support and will continue to work for accommodating worthwhile projects like Route 21 in New Jersey.

I congratulate the full committee chairman, Senator BURDICK, and the subcommittee chairman, Senator MOYNIHAN, for moving quickly on this issue. I hope that the full Senate will move as quickly.●

By Mr. MELCHER:

S. 187. A bill to provide for the protection of Native American rights for the remains of their dead and sacred artifacts, and for the creation of

Native American cultural museums; to the Select Committee on Indian Affairs.

#### BURIAL OF NATIVE AMERICANS

Mr. MELCHER. Mr. President, I am going to introduce two bills today. I will briefly describe each bill. The first bill, for which I have asked the number 187 to be reserved, deals with a very special problem, a shameful problem that exists in this country. I asked for the number S. 187 because I hope that this is one of the first bills passed in 1987.

Mr. President, most of us know where our ancestors are buried, where their remains reside, where we have placed them with some respect and dignity. But there are a great number of native Americans and perhaps native Hawaiians who do not know where their ancestors' remains are placed.

Mr. President, there are scores of museums in the United States and abroad. There are several universities, Mr. President, that have the remains of native Americans in skeletal form on display or just their bones collected in boxes without the consent of the families or the tribes.

In addition to that, there are numerous artifacts of sacred nature to tribes of native Americans that are in museums without the consent of the tribes. There are religious artifacts of a sacred nature to various tribes. To correct that, Mr. President, I am introducing this bill, S. 187, which is the same bill that I introduced on the last day of the last Congress. I introduced it at that time in order to provide an opportunity for its consideration by various museums, various groups of people, various tribes and clans, and families of native Americans and native Hawaiians.

The response we have had to the bill during the past 2 or 3 months since adjournment has been very much on the positive side. The bill will set up a system of repatriation, and that means just as it sounds, the return of the remains of these people taken from their native grounds and returned now with some dignity to the tribes or the clans or the families of native Americans and native Hawaiians, where they properly can be given respect and be cared for by the people.

In addition, the same will be true of the sacred offerings. The bill sets up a system for figuring out whose bones are stored in the Smithsonian. Right now there are scores of boxes, literally hundreds of boxes of native Americans bones stored in the Smithsonian in its attics and nooks and crannies. The religious objects and the remains of these native Americans will be identified. Then a system is set up within the bill to return them and the respect will be paid.

I think the bill is absolutely essential. I think it is a shame on our coun-

try, on our people as a whole, that we have not corrected this problem. I believe respect is due, dignity is due and now is the time to do it. That is the purpose of the introduction of this bill.

#### EXPORT OF U.S. AGRICULTURAL PRODUCTS

Mr. MELCHER. Mr. President, the second bill deals with an entirely different subject. It is to be immediate assistance to the country in exporting of our agricultural products. The decline in agricultural exports has been very discouraging, very drastic, and very harmful to the economy of the country. It has caused the mounding of our surplus commodities to rise higher and higher. We need to have the determination and wherewithal to export more of these surplus commodities.

The bill, S. 125, will seek to correct a portion of the problems that exist in this decline in our agricultural exports by beefing up the foreign agricultural service; that is, putting more people to work in the foreign agricultural service, representing the Department of Agriculture here in our country, representing our producers, representing our entire nation in promoting and assuring that we do maximum in improving the agricultural exports.

It has two parts in the bill. We have a series of findings, making clear why this is necessary to beef up the foreign agricultural service; and, second, to permit the foreign agricultural service to contract for the assistance of individuals in the various countries that are expert and knowledgeable in those markets.

This, too, is a very needed bill.

Mr. President, I introduce both of these bills today and I hope we can have prompt consideration and action on both.

By Mr. WEICKER (for himself and Mr. Dobb):

S. 188. A bill to amend title 28, United States Code, to provide for the appointment of one additional district judge for the District of Connecticut; to the Committee on the Judiciary.

#### DISTRICT JUDGE FOR THE DISTRICT OF CONNECTICUT

Mr. WEICKER. Mr. President, I rise today to reintroduce legislation to create an additional Federal district judgeship for the District of Connecticut. This legislation was originally introduced by Senator Dobb and myself on January 30, 1986; however due to a full committee agenda, the bill was not acted on by the Judiciary Committee prior to the adjournment of the 99th Congress.

Adoption of this legislation would increase the total number of district judges in Connecticut from six to seven; a number supported by the Administrative Office of the U.S. Court's most recent survey of judgeship needs. As was the case in the 99th Congress,

Senator Dobb and I are joined in this legislative endeavor by the entire Connecticut delegation, which has cosponsored similar legislation introduced today by Representative STEWART McKINNEY.

Mr. President, Connecticut's citizens take great pride in the integrity and experience of the State's Federal judges. The men and women who fulfill the awesome responsibilities of the bench in Connecticut apply not only their substantial legal scholarship to the task, but also devote long hours of hard work to their jobs; hours that increase each and every year.

Despite their abilities and dedication, Connecticut judges are faced with an ever-increasing workload. The District of Connecticut's overall workload has increased by more than 40 percent since 1980. The mix of new filings, pending cases, weighted filings—those cases deemed to involve unusual complexity—and length of trials are factors the Administrative Office of the Courts considers before making recommendations for new judgeships. After considering the workload of the Connecticut judiciary, the Administrative Office of the Courts determined that Connecticut exceeded every criteria necessary to qualify for a new judgeship. Therefore, the Federal entity charged with reviewing judgeships and judicial caseloads concluded that Connecticut fully deserves an additional judgeship.

Mr. President, I urge the Senate Committee on the Judiciary to expeditiously consider this legislation. I am confident that the Committee and later the full Senate, will grant Connecticut's district judges and our fine courts the additional judgeship they need to sustain the outstanding record of administering justice that we have come to expect. I understand that other Federal judicial districts may also be eligible for additional judgeships. Therefore, I would welcome the inclusion of Connecticut's additional judgeship in an omnibus bill if the Judiciary Committee prefers that approach.

I ask unanimous consent that the text of this legislation be printed in the CONGRESSIONAL RECORD at this point.

There being no objection, the ordered to be printed in the RECORD, as follows:

#### S. 188

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) there shall be appointed, pursuant to section 133 of title 28, United States Code, an additional district judge for the District of Connecticut.*

*(b) To reflect the change made by this section in the table of judges for each of the judicial districts, section 133 of title 28 United States Code, is amended by striking the following:*

"Connecticut.....6"

and inserting in lieu thereof the following:

"Connecticut.....7"

By Mr. NICKLES (for himself, Mr. DOLE, Mr. GRAMM, Mr. DOMENICI, Mr. WALLOP, Mr. HECHT, Mr. BUMPERS, and Mr. SYMMS):

S. 200. A bill to amend the Internal Revenue Code of 1954 to repeal the windfall profit tax on crude oil; to the Committee on Finance.

#### WINDFALL PROFIT TAX REPEAL

● Mr. NICKLES. Mr. President, On behalf of Mr. DOLE, Mr. GRAMM, Mr. DOMENICI, Mr. WALLOP, Mr. HECHT, Mr. BUMPERS, Mr. SYMMS, and myself, I am pleased to introduce a bill to repeal the windfall profit tax.

The crude oil excise tax of 1980 is one of the few remaining legacies of the misguided Federal energy policies of the 1970's. The American consumer and our domestic energy industry have been substantially hurt by these policies, which included price controls, allocations of petroleum by Federal fiat, throwing billions of dollars at uneconomic synthetic fuels projects, and imposing punitive taxes on the U.S. crude oil production industry when prices were high.

Clearly, during this period when our domestic energy industry is in a severe economic crisis, the least the U.S. Congress should do is eliminate the final embarrassment of the Federal Government's 1970's energy policies and repeal the windfall profit tax.

Since 1980, the windfall profits tax has taken more than \$77 billion from the domestic energy industry. No other single industry in the United States has a windfall profits tax. This tax is a tremendous disincentive for domestic producers, but a strong encouragement for importers of foreign oil on which there is no equivalent tax.

The windfall profit tax has hurt the American consumer by increasing our reliance on foreign oil. Because the tax discourages production from marginal wells and discourages exploration and development to replace our declining oil reserves, domestic production is reduced and imports go up.

Last July 31, I offered an amendment to repeal the windfall profit tax to the measure to increase the public debt. Recognizing that the tax is inappropriate, this distinguished body adopted that repeal amendment. In addition, President Reagan expressed his support for prompt repeal of the windfall profit tax. I ask unanimous consent that the text of President Reagan's letter of August 2 in support of the repeal and the text of my repeal amendment be inserted in the *RECORD* at the conclusion of my statement.

Today, I am introducing the same windfall profit tax repeal language that was included in S. 2857, the

Gramm-Nickles Oil and Gas Production Revitalization Act. This language has been approved by the administration, and includes an effective date of January 1, 1987. President Reagan has included windfall profit tax repeal in the fiscal year 1988 budget request.

As a member of the Senate Budget Committee, I will move to include the repeal of the windfall profit tax in the Committee's fiscal year 1988 budget resolution.

Although the tax currently costs U.S. oil producers hundreds of millions of dollars in bookkeeping expenses, repealing the windfall profits tax today would likely cost the Federal Government absolutely nothing. According to the Independent Petroleum Association of America, when the price of oil per barrel drops below \$18.93 for tier 1, \$22.47 for tier 2, and \$28.27 for tier 3, the windfall profits tax is no longer collected. With few exceptions, the price of oil has been below these figures for virtually all of the last year.

Repealing the windfall profits tax would, at minimum, send a positive signal to our domestic energy industry at a time when positive signals are few and far between. In the long run, repeal would help an industry that employs millions of Americans regain lost ground, and put domestic producers on even footing with foreign producers.

As my colleagues know, our domestic energy industry needs every bit of help and encouragement the Federal Government can provide. And the quickest way this body could act to aid that industry is by repealing current laws which are nothing but an impediment for both consumers and producers.

By Mr. KENNEDY (for himself and Mr. MELCHER):

S. 210. A bill to amend the Public Health Service Act to provide catastrophic health insurance coverage for elderly and disabled Americans; to the Committee on Labor and Human Resources.

#### CATASTROPHIC HEALTH INSURANCE FOR ELDERLY AND DISABLED AMERICANS

● Mr. KENNEDY. Mr. President, I send to the desk a bill to provide protection from catastrophic health care costs for senior citizens and disabled Americans. This legislation essentially embodies the Bowen plan announced by the Secretary of Health and Human Services on November 19, 1986.

In my judgment, there is no social problem more compelling than the need to protect our senior citizens against the high cost of essential health care.

When I came to the Senate in 1963, Congress was in the final stage of the long and successful battle to insure elderly Americans against the intolerable financial burden of serious illness.

President Kennedy was proud of his role as the first President to propose Medicare. And Medicare did make a huge difference in the security and health of our senior citizens.

But because of gaps in Medicare coverage and the lack of a catastrophic "stop-loss" protection, our Nation's senior citizens are still far too often at risk for the loss of a lifetime of savings and the promise of a secure and dignified retirement when serious illness strikes. Indeed, Medicare today covers less than half of the elderly's health care costs. On average, our senior citizens must pay the same high proportion of their limited incomes—15 percent—to purchase the health care that they need as they did before Medicare was even created.

Let me review the key gaps in Medicare's acute care benefit package.

Medicare charges a high deductible for the first day of a hospital stay. This deductible is now a staggering \$520, and would be even higher except for reforms that I introduced that were adopted in the 99th Congress. Approximately 8 million Medicare beneficiaries—more than one out of every four—must pay this deductible each year, and over a million pay it more than once.

Medicare enrollees are also vulnerable to the extraordinarily high costs of very long hospital stays. After 60 days of care in a spell of illness, Medicare beneficiaries are responsible for a copayment of \$130 per day. After 90 days of care, Medicare coverage ends except for 60 lifetime reserve days which carry a copayment of \$260 per day. Thus, a senior citizen with a 3-month hospital stay will have incurred costs of \$4,420. An individual with a 4-month stay will have costs of over \$12,000. If that same individual has previously used up his lifetime reserve days, the cost of a 4-month hospital stay would be a staggering \$20,000. And this total is just for hospital costs; out-of-pocket expenditures for physician services associated with the hospital stay are additional.

Medicare's coverage for physician services has gaps as serious as its coverage of hospital costs. After an initial deductible of \$75 is paid, Medicare covers 80 percent of recognized charges by physicians. This percentage is comparable to many excellent private insurance plans, but, unlike the better private plans, there is no limit on how high the beneficiary's 20 percent can mount. Moreover, many physicians charge more than Medicare's recognized charges, and these excess charges are the sole responsibility of the beneficiary.

Just as senior citizens are responsible for many costs for services that Medicare supposedly covers, there are some essential services that Medicare does not cover at all. Medicare pro-

vides no protection whatever against the potentially high cost of essential outpatient prescription drugs. Medicare's benefit for outpatient mental health and substance abuse treatment is so limited as to be essentially meaningless—despite a significant incidence of these problems among the elderly. And Medicare does not cover the cost-effective preventive health care that could avert unnecessary illness among enrollees.

Many senior citizens buy private medigap policies that fill many of the holes in Medicare coverage. Other senior citizens are covered by Medicaid. But 20 percent of all senior citizens cannot afford medigap and do not qualify for Medicaid. These senior citizens are not only extremely vulnerable to high health care costs, they also have much less access to needed medical care because of their inability to pay. Thus, as the Congressional Budget Office pointed out in a recent study, senior citizens without medigap coverage use significantly less health care services than those with medigap, even though seniors who have medigap coverage are younger and healthier than those without supplementary protection.

Even those senior citizens who are able to afford and purchase private medigap are not getting the economical health care insurance protection they deserve. Few medigap policies cover outpatient drugs or mental health care. Many policies do not fully cover the cost of very long hospital stays. And, depending on the policy the senior citizen purchases, between 10 and 40 percent of every premium dollar buys no additional protection whatever. Instead, it is invested in sales, marketing and administrative expenses, and profit. By contrast, only a few cents of each Medicare dollar must be used to pay for administration rather than health services.

Secretary Bowen's proposal is a major step toward providing adequate health insurance protection for our senior citizens. It provides that senior citizens will not be liable for more than two hospital deductibles a year and eliminates all co-payments and limits on coverage for long hospital stays. Most important, it caps beneficiary liabilities for all remaining covered services at a total of \$2,000 per year. And it pays for these benefits without any increase in the deficit, allowing Medicare beneficiaries to voluntarily purchase this additional coverage for a modest monthly premium of less than \$5.00.

I intend to hold prompt hearings on this proposal and work with Doc Bowen and my colleagues on both sides of the aisle to move it to prompt passage. In the course of our consideration of this proposal we will explore whether it will be possible to broaden the proposal to address some of the

other important gaps in Medicare which I have noted above, at a reasonable cost and without adding to the deficit.

Doc Bowen is to be congratulated for proposing this policy initiative: We may be able to do better than he has proposed, but I am confident that the American people will not accept our doing less.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 210

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. PURPOSES.

It is the purpose of this Act—

- (1) to expand the availability of health care services to the elderly and disabled;
- (2) to assure the continued financial solvency of hospitals, physicians, and other health care providers serving the elderly and disabled;
- (3) to increase the willingness and ability of health care providers to serve the elderly and disabled and to expand the nation's supply of health resources dedicated to this purpose; and
- (4) to protect the elderly and disabled against the consequences of catastrophic illness.

#### SEC. 2. ESTABLISHMENT OF PROGRAM.

(a) IN GENERAL.—The Public Health Service Act is amended—

- (1) by redesignating title XXIII as title XXIV and redesignating each section of that title as the corresponding section in title XXIV, and
- (2) by inserting after title XXII the following new title:

"TITLE XXIII—HEALTH INSURANCE COVERAGE AGAINST CATASTROPHIC ILLNESSES.

#### "ESTABLISHMENT OF PROGRAM

"SEC. 2301. There is hereby established a voluntary insurance program to provide catastrophic health insurance benefits in accordance with the provisions of this title for aged and disabled individuals who elect to enroll under such program, to be financed from premium payments by enrollees. The program established under this title shall be administered by the Secretary of Health and Human Services (in this title referred to as the 'Secretary').

#### "SCOPE OF BENEFITS

"SEC. 2302. The benefits provided to an individual enrolled in the program established under this title shall consist of entitlement to have payment made to or on behalf of the individual (in accordance with regulations prescribed by the Secretary) for—

- (1) the reasonable cost or charges for inpatient hospital care not paid for by any other government program for the first ten days of hospital care for hospitalizations after the second hospitalization in any calendar year;
- (2) the reasonable cost or charges for hospital care not paid for by any other government program provided after the sixtieth day of care in any hospitalization; and
- (3) the reasonable cost or charges in excess of \$2,000 for a calendar year for medical care not paid for by any other govern-

ment program (including care provided by physicians, hospital care, durable medical equipment, home health care, and not more than 100 days of nursing home care in a calendar year).

#### "PROCEDURES FOR PAYMENT OF CLAIMS

"SEC. 2303. (a) The Secretary shall, to the greatest extent practicable, coordinate payments made with respect to benefits under this title with payments made with respect to benefits under other government programs.

"(b) No deductible or coinsurance amount shall be applied to any amount payable with respect to inpatient hospital care under this title.

#### "ELIGIBILITY; ENROLLMENT

"SEC. 2304. (a) Any individual who is disabled or has attained 65 years of age shall be eligible to enroll in the insurance program under this title.

"(b) Any individual may enroll in the insurance program under this title only in such manner and form as may be prescribed by regulations, and only during an enrollment period prescribed by the Secretary.

"(c) The Secretary shall by regulation prescribe—

- "(1) coverage periods for individuals enrolled under the program, and
- "(2) Procedures for collection of the premiums imposed under the program.

#### "PREMIUMS

"SEC. 2305. (a)(1) Except as provided in subsection (b), the amount of the monthly premium for any calendar year for individuals who choose to enroll in the program under this title shall be an amount equal to the monthly actuarial rate which the Secretary estimates to be necessary so that the aggregate of such premiums for such calendar year will be equal to the total of the benefits and administrative costs which will be payable from the general fund of the Treasury for services performed (and administrative costs incurred) in such calendar year for providing the catastrophic benefits under this title. In September of each year the Secretary shall promulgate the premium amount which shall be applicable for the following calendar year and shall adjust the amount of such premium to reflect differences between the projected costs and premium collections in the previous calendar year.

"(b) In the case of an individual whose coverage period began pursuant to an enrollment or reenrollment occurring after his or her initial opportunity to enroll (as determined in accordance with regulations of the Secretary), the monthly premium determined under subsection (a) shall be increased by 10 percent of the monthly premium so determined for each full 12 months (in the same continuous period of eligibility) in which the individual could have been but was not enrolled.

"(c) Premiums collected under the insurance program established under this title shall be deposited in the general fund of the Treasury.

#### "FUNDING

"SEC. 2306. The Secretary of the Treasury shall pay from time to time from the general fund of the Treasury such amounts as the Secretary of Health and Human Services certifies are necessary to make the payments provided for by this title (including administrative expenses)."

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall become effective on October 1, 1987.

By Mr. HELMS:

S. 212. A bill to help prevent rape and other sexual violence by prohibiting dial-a-porn operations; to the Committee on Commerce, Science, and Transportation.

#### THE DIAL-A-PORN CONTROL ACT

Mr. HELMS. Mr. President, I am today introducing the Dial-a-Porn Control Act. The purpose of this bill is to eliminate completely so-called "dial-a-porn" operations by repealing a few words in section 223(b) of the Communications Act of 1934. This legislation adds no substantive language of any kind to current law; it—purely and simply—removes a gaping loophole in existing law.

The same proposal passed the Senate September 27, 1986 on a voice vote as part of the Anti-Drug Abuse Act of 1986, H.R. 5484. The House of Representatives, however, stripped my dial-a-porn amendment out of the bill before it reached the President's desk, and so the dial-a-porn provision was not enacted into law along with the 1986 drug bill.

Mr. President, American parents have enough to contend with in 1987 without having to worry about whether their children will be able to pick up the phone, dial a number, and then hear an obscene recorded message. Yet since Congress first addressed the problem of dial-a-porn in December 1983, the dial-a-porn industry has flourished, and our children in particular and American society in general have been the losers.

The loophole in existing law is that it affirmatively authorizes dial-a-porn for consenting adults. Thus, dial-a-porn operators are given a green light to go into business, and then the practical problem arises as to how to keep children from calling the dial-a-porn numbers. That practical problem, Mr. President, has proven to be totally insoluble. Moreover, there is no good reason for Congress to authorize our interstate telephone system to be used for the communication of pornographic messages—even to adults.

Mr. President, the prohibitions currently in place under section 223(b) of the Communications Act of 1934 are sufficient to shut down the dial-a-porn industry, if we simply eliminate the loophole. The loophole has two parts.

The first part of the loophole is that portion of section 223(b)(1)(A) which makes dial-a-porn criminal only if it goes to a person under 18 years of age or to a person who has not consented to receiving the message. My legislation eliminates this crippling qualification to the prohibition against dial-a-porn. Thus, the prohibition against dial-a-porn would apply to everyone—not just minors and nonconsenting adults as is currently the case.

The second part of the loophole is all of section 223(b)(2) which provides: "It is a defense to a prosecution under

this section that the defendant restricted access to the prohibited communication to persons 18 years of age or older in accordance with procedures which the Commission—the FCC—shall prescribe by regulation." My legislation would remove this complete, affirmative defense to prosecution under section 223(b), and it would make the current penalties for dial-a-porn under section 223(b) meaningful for the first time.

Mr. President, many constituents have contacted me on this problem of dial-a-porn. Not long ago I received a letter from the father of a 9-year-old boy. The father sent me a copy of his telephone bill and underlined three long-distance calls to a "900" number. "While questioning my son about these calls," the father wrote, "I discovered that the long distance calls were placed to a service which provides sexually explicit messages. Apparently, some older children told my son that this number was the number of 'Teddy Ruxpin,' the talking teddy bear. The joke was not very funny when one considers the fact that the morals of young children are being corrupted in the process."

Mr. President, the need for this legislation, I believe, is completely evident in this father's letter. We in Congress owe the parents of America better than what they now have to contend with on this matter of dial-a-porn. I urge enactment of this bill.

Mr. President, I ask unanimous consent that the text of the Dial-a-Porn Control Act be printed in the RECORD.

There being no objection, it was ordered to be printed in the RECORD, as follows:

#### S. 212

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Dial-a-Porn Control Act".*

SEC. 2. Section 223(b) of the Communications Act of 1934 is amended—

- (1) in paragraph (1)(A), by striking out "under eighteen years of age or to any other person with out that person's consent";
- (2) by striking out paragraph (2);
- (3) in paragraph (4), by striking out "paragraphs (1) and (3)" and inserting in lieu thereof "paragraphs (1) and (2)"; and
- (4) by redesignating paragraphs (3), (4), and (5) as paragraphs (2), (3), and (4), respectively.

By Mr. HELMS:

S. 213. A bill to restore the right of voluntary prayer in public schools and to promote the separation of powers; to the Committee on the Judiciary.

#### VOLUNTARY SCHOOL PRAYER ACT

Mr. HELMS. Mr. President, I thank the Chair for recognizing me.

"Almighty God, we acknowledge our dependence upon Thee, and we beg Thy blessings upon us, our parents, our teachers, and our Country."

Mr. President, what I have just recited is the prayer recommended by the

New York State Board of Regents to local school districts which was struck down as unconstitutional by the U.S. Supreme Court in the infamous case of Engel against Vitale in 1962. The Court held that, even when recited by students on a voluntary basis, this simple prayer was unconstitutional in American public schools.

Mr. President, almost a quarter century has now passed since the Supreme Court first banned voluntary group prayer in the public schools. A generation of Americans has now grown up without the basic freedom to pray at school—a freedom enjoyed by every previous generation of Americans.

As we begin the 100th Congress, the time has come to end this gross deprivation of religious liberty and to restore the fundamental right to engage in voluntary school prayer. That is why I am today introducing the Voluntary School Prayer Act.

I emphasize, Mr. President, that what I am talking about is voluntary prayer and what my legislation addresses is voluntary prayer. Some school prayer opponents have accused me of advocating mandatory prayer. Such a charge is utterly untrue. The school prayer cases which came before the Supreme Court in the early 1960's involved voluntary group prayer, and accordingly it was voluntary group prayer which the Court banned. Mandatory prayer has never been an issue. So I repeat, I am not advocating—nor have I ever advocated—mandatory school prayer, and my legislation simply seeks to restore the freedom to engage in voluntary group prayer in the public schools.

Mr. President, the framers of the Constitution gave Congress explicit authority to provide a check on usurpations of power by the Supreme Court. My legislation uses this authority, contained in article III of the Constitution, to withdraw Federal court jurisdiction over voluntary school prayer cases, thereby returning the issue to the States, localities, and parents where it belongs and where it was before the Supreme Court rulings of the early 1960's.

Mr. President, religious liberty is too important to leave exclusively in the hands of judicial elites more intent on imposing their own political views on the Nation than in objectively interpreting the words of the Constitution. My legislation will in effect replace the nonsense of Federal judges on school prayer over the previous two and a half decades with the common sense and practical experience of the American people over the prior 170 years.

Mr. President, the legislation I am introducing today is substantially similar to proposals I have offered in several previous Congresses. This legisla-

tion has never made it to the President's desk for signature, but it has met with some success.

In 1979, my voluntary school prayer legislation passed the Senate twice, but the Judiciary Committee of the House of Representatives prevented it from going to the House floor for a vote. In 1982, 53 Senators voted in favor of it on a tabling motion before it was set aside later on a procedural motion. In 1985, after a heavy lobbying campaign by a number of liberal groups, it was tabled in the Senate 62 to 36. I hope that in the 100th Congress a majority of the House and Senate will muster the courage to pass this legislation.

Mr. President, this bill restores freedom to the States to allow voluntary prayer, Bible reading, and religious meetings in public schools. The adjective "voluntary" applies to all three categories—prayer, Bible reading, and religious meetings. Through a series of Supreme Court decisions, this freedom—elementary to the drafters of the Constitution—has been taken away from the States.

My legislation uses the congressional authority—given explicitly in article III, sections 1 and 2 of the Constitution—to regulate the general jurisdiction of the inferior Federal courts and the appellate jurisdiction of the Supreme Court. It curtails such jurisdiction so that Federal courts no longer have the power to hear cases involving voluntary prayer, Bible reading, and religious meetings in the public schools.

The result is that such cases become exclusively a matter for the States to handle as they see fit. In effect, school prayer would be a local option. This result is fully consistent with the original purpose of the establishment clause of the first amendment, which was to prohibit the establishment of a national church and to leave the remaining issues of church-State relations strictly with the States.

Mr. President, some of my friends have advocated that we adopt a constitutional amendment to correct the courts and restore the freedom to pray in the schools. This is one approach among many which the Constitution allows, and it is an approach that I have supported in the past and still favor today.

But, Mr. President, it is not the only way for Congress to correct erroneous Federal court rulings, nor in my opinion is it the best. The Constitution provides several other more direct ways for Congress to check abuses of the judicial branch, including control of jurisdiction, Senate confirmation of judicial appointments, specific congressional enforcement of constitutional provisions, and impeachment.

As is well-known, the constitutional amendment process was intentionally set up to be difficult. The normal pro-

cedure is for a two-thirds vote in both Houses of Congress followed by ratification by three-quarters of the State legislatures. This procedure presents an extremely heavy burden to meet. The framers of the Constitution specifically wanted it this way to protect the constitutional text from constant change.

If, however, Congress relegates itself solely to the amendment process to correct judicial errors and usurpations, then the very difficulty of the amendment process will be used to protect, not the constitutional text, but distortions of it. Thus, in the face of usurping Federal judges, the amendment process would serve to subvert the Constitution rather than to protect it.

In this school prayer matter, Mr. President, the problem has arisen, not because of the text of the Constitution, but because of outright judicial distortions of that text. The text is fine, and the text never prohibited voluntary prayer in the public schools, as American history and experience before the Supreme Court's first prayer decision in 1962 so clearly attest. The text leaves the matter of school prayer, along with other matters of church-State relations, exclusively up to the States. Thus, although we could add a specific constitutional amendment on school prayer, we need not do so in order to restore this fundamental freedom.

The problem in the prayer matter, as in so many areas of constitutional law, is runaway Federal judges bent on imposing their own personal views of good public policy on the American public irrespective of the Constitution. More often than not in recent years, these views have been hostile to both the Constitution and longstanding American traditions. It is no understatement to say that American society has been radically altered in the recent past because of activist Federal judges.

Mr. President, there is at least one Federal judge in this country who has given the correct interpretation of the Constitution with respect to the first amendment and school prayer. Although his judicial brethren higher up overturned his ruling, his opinion will stand for years to come as the definitive statement of how the first amendment was actually intended to work in this area of the law.

I am referring, of course, to the decision of Judge Brevard Hand of Alabama in *Jaffree v. Board of School Commissioners of Mobile County*, 554 F. Supp. 1104 (S.D. Alabama 1983). It clearly demonstrates the errors of the Supreme Court in banning voluntary group prayer. I ask unanimous consent that the Hand opinion—including footnotes—and the text of the bill be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 213

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Voluntary School Prayer Act".*

Sec. 2. (a) Chapter 81 of title 28, United States Code, is amended by adding at the end thereof the following new section:

**"§ 1260. Appellate jurisdiction; limitations**

"(a) Notwithstanding the provisions of sections 1253, 1254, and 1257 of this chapter, the Supreme Court shall not have jurisdiction to review, by appeal, writ of certiorari, or otherwise, any case arising out of any State statute, ordinance, rule, regulation, practice, or any part thereof, or arising out of any act interpreting, applying, enforcing, or effecting any State statute, ordinance, rule, regulation, or practice, which relates to voluntary prayer, Bible reading, or religious meetings in public schools or public buildings.

"(b) As used herein, 'voluntary' means an activity in which a student is not required to participate by school authorities."

(b) The section analysis of chapter 81 of title 28 is amended by adding at the end thereof the following new item:

**"1260. Appellate jurisdiction; limitations."**

Sec. 3. (a) Chapter 85 of title 28, United States Code, is amended by adding at the end thereof the following new section:

**"§ 1365. Limitations on jurisdiction**

"Notwithstanding any other provision of law, the district courts shall not have jurisdiction of any case or question which the Supreme Court does not have jurisdiction to review under section 1260 of this title."

(b) The section analysis at the beginning of chapter 85 of title 28 is amended by adding at the end thereof the following new item:

**"1365. Limitations on jurisdiction."**

Sec. 4. The amendments made by this Act shall take effect on the date of enactment, except that such amendments shall not apply to any case which, on such date of enactment, was pending in any court of the United States.

*Ishmael Jaffree v. The Board of School Commissioners of Mobile County*

Civ. A. No. 82-0554-H.

United States District Court, S.D. Alabama, S.D.

Jan. 14, 1983.

MEMORANDUM OPINION

HAND, Chief Judge.

*Prelusion*

If in the opinion of the People, the distribution for modification of the Constitutional Powers be in any particular wrong, let it be corrected by an amendment in the way in which the Constitution designates. But let there be no change by usurpation; for though this, in one instance, may be the instrument of good, it is the customary weapon by which free governments are destroyed. The precedent must always greatly overbalance in permanent evil any partial or transient benefit which the use can at any time yield.

Farewell Address by George Washington reprinted in R. Berger, *Government by Judiciary* 299 (1977).

Ishmael Jaffree, on behalf of his three (3) minor children, seeks declaratory and injunctive relief. In the original complaint Mr. Jaffree sought a declaration from the Court that certain prayer activities initiated by his children's public school teachers violated the establishment clause of the first amendment to the United States Constitution. He sought to have these prayer activities enjoined.

A trial was held on the merits on November 15-18, 1982. After hearing the testimony of witnesses, considering the exhibits, discovery, stipulations, pleadings, briefs, and legal arguments of the parties, the Court enters the following findings of fact and conclusions of law.

### *I. Findings of Fact*

Ishmael Jaffree is a citizen of the United States, a resident of Mobile County, Alabama, and has three (3) minor children attending public schools in Mobile County, Alabama: Jamael Aakki Jaffree, Makeba Green and Chioke Saleem Jaffree.

Defendants, Annie Bell Phillips (principal) and Julia Green (teacher) are employed at Morningside Elementary School, where Jamael Aakki Jaffree attended school during the 1981-82 school year. Defendants Betty Lee (principal) and Charlene Boyd (teacher) are employed at E.R. Dickson Elementary School where Chioke Saleem Jaffree attended during the 1981-82 school year. Defendants, Emma Reed (principal) and Pixie Alexander (teacher) are employed at Craighead Elementary School where Makeba Green attended school during the 1981-82 school year. Each of these defendants is sued individually and in their official capacity. Each of the schools is part of the system of public education in Mobile County, Alabama.

Dan Alexander, Dr. Norman Berger, Hiram Bosarge, Norman Cox, Ruth F. Drago and Dr. Robert Gilliard are members of the Board of School Commissioners of Mobile County, Alabama. As commissioners, each of these defendants collectively is charged by the laws of the State of Alabama with administering the system of public instruction for Mobile County, Alabama. These defendants are sued only in their official capacity.

Dr. Abe L. Hammons is the Superintendent of Education for Mobile County, Alabama. Defendant Hammons has direct supervisory responsibilities over all principals, teachers and other employees of the Mobile County Public School System. This defendant is sued only in his official capacity.

Defendant Boyd, as early as September 16, 1981, led her class at E.R. Dickson in singing the following phrase:

God is great, God is good,  
Let us thank him for our food,  
Bow our heads we all are fed,  
Give us Lord our daily bread.  
Amen!

The recitation of this phrase continued on a daily basis throughout the 1981-82 school year.

Defendant Boyd was made aware on September 16, 1981 that the minor plaintiff, Chioke Jaffree, did not want to participate in the singing of the phrase referenced above or be exposed to any other type of religious observances. On March 5, 1982, during a parent-teacher conference, Ms. Boyd was told by Chioke's father that he did not want his son exposed to religious activity in his classroom and that, in Mr. Jaffree's opinion, the activity was unlawful. Again, on March

11, 1982, Ms. Boyd received a handwritten letter from Mr. Jaffree which again advised her that leading her class in chanting the referenced phrase was unlawful. This letter further advised Ms. Boyd that if the practice was not discontinued that he would take further administrative and judicial steps to see that it was. Finally, Ms. Boyd was made aware of the contents of a letter drafted by Mr. Jaffree, dated May 10, 1982, which had been sent to Superintendent Hammons complaining about the prayer activity in Ms. Boyd's classroom. Notwithstanding Mr. Jaffree's protestations, the recitation of the prayer continued.

Defendant Lee learned on March 8, 1982, that Mr. Jaffree had complained about the prayer activities which were being conducted in defendant Boyd's classroom. Ms. Lee directly spoke with Mr. Jaffree on March 11, 1982, and learned from him that he was opposed to the prayer activities in Ms. Boyd's class and that he felt the same to be unconstitutional. On the same day, Ms. Lee called Mr. Larry Newton, Deputy Superintendent, who informed her that the prayer activity in Ms. Boyd's class could continue on a "strictly voluntary basis."

Defendant Pixie Alexander has led her class at Craighead in reciting the following phrase:

God is great, God is good,  
Let us thank Him for our food.

Further, defendant Pixie Alexander had her class recite the following, which is known as the Lord's Prayer:

Our Father, which art in heaven, hallowed be Thy name. Thy kingdom come. Thy will be done on earth as it is in heaven. Give us this day our daily bread and forgive us our debts as we forgive our debtors. And lead us not into temptation but deliver us from evil for thine is the kingdom and the power and the glory forever. Amen.

The recitation of these phrases continued on a daily basis throughout the 1981-82 school year.

Defendant Pixie Alexander learned on May 24, 1982, that Mr. Jaffree had complained, through a letter dated May 10, 1982, to defendant Hammons, about her leading her class in the above-referenced prayer activity. After Ms. Alexander learned of Mr. Jaffree's May 10, 1982 letter, she continued to lead her class in reciting the referenced phrases.

Ms. Green admitted that she frequently leads her class in singing the following song: For health and strength and daily food, we praise Thy name, Oh Lord.

This activity continued throughout the school year, despite the fact that Ms. Green had knowledge that plaintiff did not want his child exposed to the above-mentioned song. See defendant Green's response to plaintiffs' Interrogatories Nos. 21, 22, 50 and 51.

Upon learning of the plaintiffs' concern over prayer activity in their schools, defendants Reed and Phillips consulted with teachers involved, however, neither defendant advised or instructed the defendant teachers to discontinue the complained of activity.

Prior to the 1981-82 school year, defendants Reed, Phillips, Boyd, and to a lesser extent, Green, each knew the Board of School Commissioners of Mobile County had a policy regarding religious activity in public schools. However, not one of the teachers sought or received advice from the board or the superintendent prior to the plaintiffs' initial complaint regarding

whether their classroom prayer activities were consistent with the policy.

The policy on religious instruction adopted by the Board of School Commissioners of Mobile County reads as follows:

### RELIGIOUS INSTRUCTION

Schools shall comply with all existing state and federal laws as these laws pertain to religious practices and the teaching of religion. This policy shall not be interpreted to prohibit teaching about the various religions of the world, the influence of the Judeo-Christian faith on our society, and the values and ideals of the American way of life.

School attendance is compulsory in the State of Alabama. Alabama Code § 16-28-3 (1975).

The complaint in this case was later amended to include allegations against Governor Fob James and various state officials. The claims against the state officials were severed, Fed.R.Civ.P. 21, and they are the subject of a separate order which the Court entered today.

This recitation of the findings of fact is not intended to be an all-inclusive statement of the facts as they were produced in this case. Because of the following opinion the Court is of the impression that the facts above-recited constitute a sufficient recitation for deciding this case. However, in the event there is a disagreement with the conclusions reached by this Court, the Court does not desire to be precluded from a further recitation of appropriate fact as may be essential to further conclusions in the case. Examples of what the Court alludes to is the factual bases for consideration of the questions of freedom of speech, whether or not secular humanism is in fact a religion, and the propriety of the free exercise of religion.

### *II. Conclusions of Law*

#### *A. Subject-Matter Jurisdiction*

[1, 2] This action is brought under 42 U.S.C. § 1983.<sup>1</sup> The complaint alleges that the subject-matter jurisdiction of the Court "is evoked pursuant to Title 28, Sections 1343(3) and (4), and Sections 2201 and 2202 of the United States Code." See Complaint at 2 (filed May 28, 1982). Neither of the two amended complaints add anything to this jurisdiction allegation.<sup>2</sup>

[3, 4] The complaint alleges that rights guaranteed to the plaintiffs under the first and fourteenth amendments have been violated.<sup>3</sup> The subject-matter jurisdiction of a federal court over a claim arising under 42 U.S.C. § 1983 rests upon 28 U.S.C. § 1343(3). While the complaint does not allege that subject-matter jurisdiction is vested in the court under the general, federal-question jurisdictional statute, 28 U.S.C. § 1331, certainly subject-matter jurisdiction is vested under that provision since a federal district court has "original jurisdiction of all civil actions arising under the Constitution, laws, or treaties of the United States," 28 U.S.C. § 1331, exclusive of the amount-in-controversy. Thus, the Court concludes that it has subject-matter jurisdiction over the claims alleged by the plaintiffs.<sup>4</sup>

#### *B. School-Prayer Precedent*

The United States Supreme Court has previously addressed itself in many cases to the practice of prayer and religious services in the public schools. As courts are wont to say, this court does not write upon a clean

Footnotes at end of article.

slate when it addresses the issue of school prayer.

Viewed historically, three decisions have lately provided general rules for school prayer. In *Engel v. Vitale*, 370 U.S. 421, 82 S.Ct. 1261, 8 L.Ed.2d 601 (1962), *Abington v. Schempp*, 374 U.S. 203, 83 S.Ct. 1560, 10 L.Ed.2d 844 (1963), and *Murray v. Curlett*, 374 U.S. 203, 83 S.Ct. 1560, 10 L.Ed.2d 844 (1963), the Supreme Court established the basic considerations. As stated, the rule is that "[t]he First Amendment has erected a wall between church and state. That wall must be kept high and impregnable. We could not approve the slightest breach." *Everson v. Board of Education*, 330 U.S. 1, 18, 67 S.Ct. 504, 513, 91 L.Ed. 711 (1947) (per Black, J.)

In *Engel v. Vitale* parents of public school students filed suit to compel the board of education to discontinue the use of an official prayer in the public schools. The prayer was asserted to be contrary to the beliefs, religions, or religious practices of the complaining parents and their children. In *Engel* the board of education, acting in its official capacity under state law, directed the principals to cause the following prayer to be said aloud by each class at the beginning of the day in each homeroom: "Almighty God, we acknowledge our dependence upon Thee, and we beg Thy blessing upon us, our parents, our teachers and our Country." 370 U.S. at 422, 82 S.Ct. at 1262. This prayer was adopted by the school board because it believed the prayer would help instill the proper moral and spiritual training needed by the students.

The parents argued that the school board violated the establishment clause of the first amendment when it directed that this prayer be recited in the public schools. The first amendment provides, in relevant part, that "Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof. . . ." U.S. Const. amend. I. The Supreme Court found "that by using its public school system to encourage recitation of the Regent's prayer, the State of New York ha[d] adopted a practice wholly inconsistent with the Establishment Clause." *Id.* at 422, 82 S.Ct. at 1262. The Court found this prayer to be a religious activity. The prayer constituted "a solemn avowal of divine faith and supplication for the blessing of the Almighty. The nature of such prayer has always been religious. . . ." *Id.* at 424-25, 82 S.Ct. at 1264-65. The Court noted that "[i]t [wa]s a matter of history that this very practice of establishing governmentally composed prayers for religious services was one of the reasons which caused many of our early colonists to leave England and seek religious freedom in America." *Id.* at 425, 82 S.Ct. at 1264. Therefore, according to the Court, the prayer "breache[d] the constitutional wall of separation between Church and State." *Id.*

Citing historical documents, the Court observed that

[b]y the time of the adoption of the Constitution, our history shows that there was a widespread awareness among many Americans of the danger of a union of Church and State. These people knew, some of them from bitter personal experience, that one of the greatest dangers to the freedom of the individual to worship in his own way lay in the Government's placing its official stamp of approval upon one particular kind of prayer or one particular form of religious services. . . . The First Amendment was added to the Constitution to stand as a guarantee that neither the power nor the

prestige of the Federal Government would be used to control, support, or influence the kinds of prayer the American people can say—that the people's religions must not be subjected to the pressures of government or change each time a new political administration is elected to office. Under the Amendment's prohibition against governmental establishment of religion, as reinforced by the prohibitions of the Fourteenth Amendment, government in this country, be it state or federal, is without power to prescribe by law any particular form of prayer which is to be used as an official prayer in carrying on any program of governmentally sponsored religious activity.

*Id.* at 429-30, 82 S.Ct. at 1266 (emphasis added).

The assertion by the Court that the establishment clause of the first amendment applied to the states was unaccompanied by any citation to authority. This conclusion was reached supposedly upon its examination of historical documents.

In dissent, Mr. Justice Stewart argued that the majority in *Engel* misinterpreted the first amendment. As Mr. Justice Stewart saw it, an official religion was not established by letting those who wanted to say a prayer say it. To the contrary, Mr. Justice Stewart thought "that to deny the wish of those school children to join in reciting this prayer is to deny them the opportunity of sharing in the spiritual heritage of our Nation." *Id.* at 445, 82 S.Ct. at 1274-75. As Mr. Justice Stewart saw the problem, our country is steeped in a history of religious tradition. That religious tradition is reflected in countless practices common in our institutions and governmental officials. For instance, the United States Supreme Court has always opened each day's session with the prayer "God save the United States and this Honorable Court." *Id.* at 446, 82 S.Ct. at 1275. Each President of the United States has, upon assuming office, sworn an oath to God to properly execute his presidential duties. Our national anthem, "The Star-Spangled Banner," contains these verses:

Blest with the victory and peace, may the heav'n rescued land  
Praise the Pow'r that hath made and preserved us a nation!

Then conquer we must, when our cause it is just,

And this be our motto "In God is our Trust."

*Id.* at 449, 82 S.Ct. at 1277. The Pledge of Allegiance to the Flag contains the words "one Nation under God, indivisible, with liberty and justice for all." *Id.* (emphasis in original). Congress added this in 1954. Mr. Justice Stewart believed that the Regent's prayer in New York had done no more than "to recognize and to follow the deeply enriched and highly cherished spiritual traditions of our Nation—traditions which came down to us from those who almost two hundred years ago avowed their 'firm Reliance on the Protection of divine Providence' when they proclaimed the freedom and independence of this brave new world." *Id.* at 450, 82 S.Ct. at 1277.

Following the decision by the Supreme Court in *Engel*, the Court decided *Abington v. Schempp* and *Murray v. Curlett*. In *Abington*, a state law in Pennsylvania required that

[a]t least ten verses from the Holy Bible shall be read, without comment, at the opening of each public school on each school day. Any child shall be excused from such Bible reading, or attending such Bible

reading, upon the written request of his parent or guardian.

374 U.S. 205, 83 S.Ct. 1562. The Schempp family, husband and wife and two of their three children, brought suit to enjoin enforcement of this statute. The Schempps contended that their rights under the fourteenth amendment of the United States Constitution were being violated.

Each morning at the Abington Senior High School between 8:15 a.m. and 8:30 a.m., while students were attending their homerooms, selected students would read ten verses from the Holy Bible. These Bible readings were broadcast to each room in the school building. Following the Bible readings the Lord's Prayer was recited. As with the Bible readings, the Lord's Prayer was broadcast throughout the building. Following the Bible readings and the Lord's Prayer, a flag salute was performed. Participation in the opening exercises, as directed by the Pennsylvania statute, was voluntary.

No prefatory statement, no questions, no comments, and no explanations were made at or during the exercises. Students and parents were advised that any student could absent himself from the classroom or, should he elect to remain, not participate in the exercises.

In *Murray v. Curlett*, the Board of School Commissioners of Baltimore City adopted a rule which "provided for the holding of opening exercises in the schools of the city, consisting primarily of 'reading, without comment, of a chapter in the Holy Bible and/or the use of the Lord's Prayer.'" 374 U.S. at 211, 83 S.Ct. at 1565. An atheist, Mrs. Madalyn Murray, objected to the Bible reading and the recitation of the Lord's Prayer. After receiving the objection the board specifically provided that the Bible reading and the use of the Lord's Prayer should be conducted without comment and that any child could be excused from participating in the opening exercises or from attending them upon the written request of his parent or guardian.

Because of the similarity of the issues in both the *Abington* case and the *Murray* case the Supreme Court consolidated both cases on appeal and decided them together. The Court recognized that "[i]t is true that religion has been closely identified with our history and government. . . . 'The history of man is inseparable from the history of religion. And . . . since the beginning of that history many people have devoutly believed that "More things are wrought by prayer than this world dreams of."'" *Abington School District v. Schempp*, 374 U.S. at 212-13, 83 S.Ct. at 1566 (quoting *Zorach v. Clauson*, 343 U.S. 306, 313, 72 Ct. 679, 683, 96 L.Ed. 954 (1952)). Notwithstanding this recognition by the Court that the early history of this country, together with the history of man, was inseparable from religion the Court found the Bible reading and the recitation of the Lord's Prayer to be an unconstitutional abridgement of the first amendment prohibition that "Congress shall make no law respecting the establishment of religion, or prohibiting the free exercise thereof. . . ." U.S. Const. amend. I.

The Court noted that the first amendment prohibited more than governmental preference of one religion over another. Rather, the first amendment was intended "to create a complete and permanent separation of the spheres of religious activity in civil authority by comprehensively forbidding every form of public aid or support for religion." *Id.* 374 U.S. at 217, 83 S.Ct. at 1568 (quoting *Everson v. Board of Educa-*

tion, 330 U.S. 31-2, 67 S.Ct. 519 (1947)). The Court reviewed several of its precedents which touched on the establishment of religion, and concluded that "[t]here cannot be the slightest doubt that the First Amendment reflects the philosophy that Church and State should be separated. And so far as interference with the 'free exercise' of religion and an 'establishment' of religion are concerned the separation must be complete and unequivocal. The First Amendment within the scope of its coverage permits no exception; the prohibition is absolute." *Id.* 374 U.S. at 219-20, 83 S.Ct. at 1569-70 (quoting *Zorach v. Clauson*, 343 U.S. 306, 312, 72 S.Ct. 679, 683, 96 L.Ed. 954 (1952)). The Court in *Abington* reasoned from its own precedent rather than independently reviewing the historical foundation of the first and the fourteenth amendments. The Court held that the Bible reading and the recitation of the Lord's Prayer in both cases were religious exercises. The "rights," *id.* at 224, 83 S.Ct. at 1572, of the plaintiffs were being violated. The religious character of the Bible reading and the recitation of the Lord's Prayer were not mitigated by the fact that students were allowed to absent themselves from their homerooms upon request of their parents. "The breach of neutrality that is today a trickling stream may all too soon become a raging torrent . . ." *Id.* at 225, 83 S.Ct. at 1573.

The principles enunciated in *Engel v. Vitale*, *Abington v. Schempp*, and *Murray v. Curlett* have been distilled to this: "To pass muster under the Establishment Clause, the governmental activity must, first, reflect a clearly secular governmental purpose; second, have a primary effect that neither advances nor inhibits religion; and third, avoid excessive government entanglement with religion. *Committee for Public Education & Religious Liberty v. Nyquist*, 413 U.S. 756, 773, 93 S.Ct. 2955, 2965, 37 L.Ed.2d 948 (1973)." *Hall v. Board of School Commissioners*, 656 F.2d 999, 1002 (5th Cir.1981). "If a statute for official administrative directivel violates any of these three principles, it must be struck down under the Establishment Clause." *Stone v. Graham*, 449 U.S. 39, 101 S.Ct. 192, 193, 66 L.Ed.2d 199 (1980) (holding that a Kentucky statute requiring posting of a copy of Ten Commandments on walls of each public school classroom in the state had pre-eminent purpose which was plainly religious in nature, and statute was thus violative of establishment clause and that avowed secular purpose was not sufficient to avoid conflict with first amendment; emphasis added).

Indeed, in this circuit, prayer in public schools is per se unconstitutional. "Prayer is an address of entreaty, supplication, praise, or thanksgiving directed to some sacred or divine spirit, being, or object. That it may contemplate some wholly secular objective cannot later the inherently religious character of the exercise." *Karen B. v. Treen*, 653 F.2d 897, 901 (5th Cir.1981).

In sum, under present rulings the use of officially-authorized prayers or Bible readings for motivational purposes constitutes a direct violation of the establishment clause. Through a series of decisions, the courts have held that the establishment clause was designed to avoid any official sponsorship or approval of religious beliefs. Even though a practice may not be coercive, active support of a particular belief raises the danger, under the rationale of the Court, that state-approved religious views may be eventually established.

Although a given prayer or practice may not favor any one sect, the principle of neu-

trality in religious matters is violated under these decisions by any program which places tacit government approval upon religious views or practices. While the purpose of the program might be neutral or secular, the effect of the program or practice is to give government aid in support of the advancement of religious beliefs. Thus the programs are held invalid without any consideration as whether they excessively entangle the state in religious affairs.

In contrast, the Supreme Court has permitted the use of the Bible in a literature course where the literary aspects of the Bible are emphasized over its religious contents. *Abington School District v. Schempp*, 364 U.S. 203, 225, 83 S.Ct. 1560, 1573, 10 L.Ed.2d 844 (1963). So long as the study does not amount to prayer or the advancement of religious beliefs, a teacher may discuss the literary aspects of the Bible in a secular course of study. Finally, the Supreme Court permits religious references in official ceremonies, including some school exercises, on the basis that these references are part of our secularized traditions and thus will not advance religion. *Engel v. Vitale*, 370 U.S. 421, 435 n. 21, 82 S.Ct. 1261, 1269 n. 21, 8 L.Ed.2d 601 (1962).

In the face of this precedent the defendants argue that school prayers as they are employed are constitutional. The historical argument which they advance takes two tacks. First, the defendants urge that the first amendment to the U.S. Constitution was intended only to prohibit the federal government from establishing a national religion. Read in its proper historical context, the defendants contend that the first amendment has no application to the states. The intent of the drafters and adoptors of the first amendment was to prevent the establishment of a national church or religion, and to prevent any single religious sect or denomination from obtaining a preferred position under the auspices of the federal government.

The corollary of this historical intent, according to the defendants, was to allow the states the freedom to address the establishment of religions as an individual prerogative of each state. Stated differently, the election by a state to establish a religion within its boundaries was intended by the framers of the Constitution to be a power reserved to the several states.

Second, the defendants argue that whatever prohibitions were initially placed upon the federal government by the first amendment that those prohibitions were not incorporated against the states when the fourteenth amendment became law on July 19, 1868. The defendants have introduced the Court to a mass of historical documentation which all point to the intent of the Thirtieth Congress to narrowly restrict the scope of the fourteenth amendment. In particular, these historical documents, according to the defendants, clearly demonstrate that the first amendment was never intended to be incorporated through the fourteenth amendment to apply against the states. The Court shall examine each historical argument in turn.

In the alternative, the defendant-intervenors argue that if the first amendment does bar the states from establishing a religion then the Mobile County schools have established or are permitting secular humanism, see *infra* note 41 (discussion of secular humanism), to be advanced in the curriculum and being a religion, it must be purged also. Such a purge, maintain the defendant-intervenors, is high impossible because such

teachings have become so entwined in every phase of the curriculum that it is like a pervasive cancer. If this must continue, say the defendant-intervenors, the only tenable alternative is for the public schools to allow the alternative religious views to be presented so that the students might better make more meaningful choices.

### C. First Amendment as Forbidding Absolute Separation<sup>5</sup>

"[T]he real object of the [F]irst amendment was not to countenance, much less to advance Mohammedanism, or Judaism, or infidelity, by prostrating Christianity, but to exclude all rivalry among Christian sects and to prevent any national ecclesiastical establishment which would give to an hierarchy the exclusive patronage of the national government." "The establishment clause was intended to apply only to the federal government. Indeed when the Constitution was being framed in Philadelphia in 1787 many thought a bill of rights was unnecessary. It was recognized by all that the federal government was the government of enumerated rights. Rights not specifically delegated to the federal government were assumed by all to be reserved to the states. Anti-Federalists, however, insisted upon a Bill of Rights as additional protection against federal encroachment upon the rights of the states and individual liberties. Excerpted testimony of James McClellan at 5-6 (trial testimony).

The federalists, who were the proponents of the Constitution, acceded to the demand of the Anti-Federalists for a Bill of Rights since, in the opinion of all, nothing in the Bill of Rights changed the terms of the original understanding of the federal convention. It was thought by all that the Bill of Rights simply made express what was already understood by the convention: namely, the federal government was a government of limited authority and that authority did not include matters of civil liberty such as freedom of speech, freedom of the press, and freedom of religion. *Id.* at 8-12.

The prohibition in the first amendment against the establishment of religion gave the states, by implication, full authority to determine church-state relations within their respective jurisdictions. "Thus the establishment clause actually had a dual purpose: to guarantee to each individual that Congress would not impose a national religion, and to each state that it was free to define the meaning of religious establishment under its own state constitution and laws. The federal government, in other words, simply had no authority over the states respecting the matter of church-state relations." "7

At the beginning of the Revolution established churches existed in nine of the colonies. Maryland, Virginia, North Carolina, South Carolina, and Georgia all shared Anglicanism as the established religion common to those colonies. See McClellan, *supra* note 6, at 300. Congregationalism was the established religion in Massachusetts, New Hampshire and Connecticut. New York, on the other hand, allowed for the establishment of Protestant religions.<sup>8</sup> Three basic patterns of church-state relations dominated in the late eighteenth century. In most of New England there was the quasi-establishment of a specific Protestant sect. Only in Rhode Island and Virginia were all religious sects disestablished. "But all of the states still retained the Christian religion as the foundation stone of their

social, civil and political institutions. Not even Rhode Island and Virginia renounced Christianity, and both states continued to respect and acknowledge the Christian religion in their system of laws."<sup>9</sup> At the time the Constitution was adopted ten of the fourteen states refused to prefer one Protestant sect over another. Nonetheless, these states placed Protestants in a preferred status over Catholics, Jews, and Dissenters.<sup>10</sup>

The pattern of church-state relations in new states entering the Union after 1789 did not differ substantially from that in the original fourteen. By 1860—and the situation did not radically change for the next three quarters of a century—the quasi-establishment of a specific Protestant sect had everywhere been rejected; quasi-establishment of the Protestant religion was abandoned in most but not all of the states; and the quasi-establishment of the Christian religion still remained in some areas. A new pattern of church-state relations, the multiple or quasi-establishment of all religions in general, i.e., giving all religious sects a preferred status over disbelievers (the No Preference Doctrine) became widespread throughout most of the Union. Thus at the turn of the century, for example, no person who denied the existence of God could hold office in such states as Arkansas, Mississippi, Texas, North Carolina, or South Carolina.<sup>11</sup>

[5] The first amendment in large part was a guarantee to the states which insured that the states would be able to continue whatever church-state relationship existed in 1791. Excerpted testimony of James McClellan at 13 (from trial).

*D. Washington, Madison, Adams, and Jefferson*

The drafters of the first amendment understood the first amendment to prohibit the federal government only from establishing a national religion. Anything short of the outright establishment of a national religion was not seen as violative of the first amendment. For example, the federal government was free to promote various Christian religions and expand monies in an effort to see that those religions flourished. This was not seen as violating the establishment clause. R. Cord, *Separation of Church and State* 15 (1982).

The intent of the framers of the first amendment can be understood by examining the legislative proposals offered contemporaneously with the debate and adoption of the first amendment. For instance, one of the earliest acts of the first House of Representatives was to elect a chaplain. James Madison was a member of the congressional committee who recommended the chaplain system. On May 1, 1789 the House elected as chaplain, the Reverend William Linn. \$500.00 was appropriated from the federal treasury to pay his salary. Even though the first amendment did not become part of the Constitution until 1791, had James Madison believed in the absolute separation of Church and State as some historians have attributed to him, James Madison would certainly have objected on this principle alone to the election of a chaplain.<sup>12</sup> At the Constitutional Convention on June 28, 1787 Dr. Benjamin Franklin suggested that a morning prayer might speed progress during the debates. Franklin told the Convention and its President, George Washington, that he had lived a long time. The longer he lived the more persuaded he was "that God Governs in the affairs of men."<sup>13</sup> Franklin "therefore beg[ged] leave to

move—that henceforth prayers imploring the assistance of Heaven, and its blessings on our deliberations, be held in this Assembly every morning before we proceed to business, and that one or more of the clergy of this City be requested to officiate in that Service—" Franklin's motion was not adopted for political reasons. Alexander Hamilton and others thought that the motion might have been proper at the beginning of the convention but that if the motion were adopted during the convention the public might believe that the convention was near failure. For this reason, which was wholly political, the issue was resolved by adjournment without any vote being taken.<sup>14</sup>

Presidential proclamations, endorsed by Congressman James Madison when Washington was President, dealing with Thanksgiving, fasting, and prayer are all important in understanding Madison's views on the proper role between church and state.<sup>15</sup> Congress proposed a joint resolution on September 24, 1789, which was intended to allow the people of the United States an opportunity to thank Almighty God for the many blessings which he had poured down upon them. The resolution requested that President George Washington recommend to the citizens of the United States a day of public thanksgiving and prayer. Congress intended that the people should thank Almighty God for affording them an opportunity to establish this country.<sup>17</sup> This proclamation was submitted to the President the very day after Congress had voted to recommend to the states the final text of what was to become the first amendment to the United States Constitution.<sup>18</sup> As President, Madison issued four prayer proclamations. Excerpted testimony of James McClellan at 19.

Thomas Jefferson is often cited along with James Madison as a person who was absolutely committed to the separation of church and state. The historical record, however, does not bear out this conclusion.

While Jefferson undoubtedly believed that the church and the state should be separate, his actions in public life demonstrate that he did not espouse the absolute separation evidenced in the modern decisions by the United States Supreme Court. For example, on October 31, 1803, President Jefferson proposed to the United States Senate a treaty with the Kaskaskia Indians which provided that federal money was to be used to support a Catholic priest and to build a church for the ministry of the Kaskaskia Indians. The treaty was ratified on December 23, 1803. As Professor Cord points out in his book,<sup>19</sup> President Jefferson could have avoided the explicit appropriation of funds to support a Catholic priest and a Catholic church by simply leaving a lump sum in the Kaskaskia treaty which could have been used for that purpose. However, President Jefferson was not at all reluctant—for ought that appears on the historical record—to specifically appropriate money for a Catholic mission.

Unlike Presidents Washington, Madison, and Adams, when Jefferson was President he broke with the tradition of issuing executive religious proclamations. In Jefferson's view the establishment clause and the federal division of power between the national government and the states foreclosed executive religious proclamations. While refusing to issue executive religious proclamations, President Jefferson recognized that "no power to prescribe any religious exercise, or to assume authority in religious discipline,

has been delegated to the General Government. It must then rest with the States, as far as it can be in any human authority."<sup>20</sup> Thus, of the first four Presidents, all of whom were close to the adoption of the Federal Constitution and the first amendment, only President Jefferson did not issue executive religious proclamations, and only President Jefferson thought that executive religious proclamations were not constitutional.

But even President Jefferson signed into law bills which provided federal funds for the propagation of the gospel among the Indians.<sup>21</sup> Based upon this historical record Professor Cord concludes that Jefferson, even as President, did not interpret the establishment clause to require complete independence from religion in government.

In sum, while both Madison and Jefferson led the fight in Virginia for the separation of church and state, both believed that the first amendment only forbade the establishment of a state religion by the national government. "Jefferson was neither at the Constitutional Convention nor in the House of Representatives that framed the First Amendment. The two Presidents who were at the Convention, Washington and Madison, and the President who framed the initial draft of the First Amendment in the House of Representatives, James Madison, issued Thanksgiving Proclamations."<sup>22</sup> The Court agrees with the studied conclusions of Dr. Cord that "it should be clear that the traditional interpretation of Madison and Jefferson is historically faulty if not virtually unfounded. . . ."<sup>23</sup>

One thing which becomes abundantly clear after reviewing the historical record is that the founding fathers of this country and the framers of what became the first amendment never intended the establishment clause to erect an absolute wall of separation between the federal government and religion. Through the chaplain system, the money appropriated for the education of Indians, and the Thanksgiving proclamations, the federal government participated in secular Christian activities. From the beginning of our country, the high and impregnable wall which Mr. Justice Black referred to in *Emerson v. Board of Education*, 330 U.S. 1, 18 67 S.Ct. 504, 513, 91 L.Ed. 711 (1947), was not as high and impregnable as Justice Black's revisionary literary flourish would lead one to believe.

Yet, despite all of this historical evidence, only last month the Supreme Court wrote that the purpose of the first amendment is twofold: to foreclose state interference with the practice of religious faiths, and to foreclose the establishment of a state religion familiar in other Eighteenth Century systems. Religion and government, each insulated from the other, could then coexist. *Jefferson's idea of a "wall," see Reynolds v. United States*, 98 U.S. (8 Otto) 145, 164 [25 L.Ed. 244] (1878), quoting Reply from Thomas Jefferson to an address by a committee of the Danbury Baptist Association (January 1, 1802), reprinted in 8 Works of Thomas Jefferson 112 (Washington ed. 1861), was a useful figurative illustration to emphasize the concept of separateness. Some limited and incidental entanglement between church and state authority is inevitable in a complex modern society, see, e.g., *Lemon v. Kurtzman*, 403 U.S. 602, 614 [91 S.Ct. 2105, 29 L.Ed.2d 745] (1971); *Walz v. Tax Commission*, 397 U.S. 664, 670 [90 S.Ct. 1409, 1412, 25 L.Ed.2d 697] (1970), but the concept of a "wall" of separation is a signpost.

*Larkin v. Grendel's Den, Inc.*, — U.S. —, 103 S.Ct. 505, 510, 74 L.Ed.2d 297 (1982) (emphasis added). Enough is enough. Figurative illustrations should not serve as a basis for deciding constitutional issues.

[6] For this Court, Professor Robert Cord, see *supra* note 5, irrefutably established that Thomas Jefferson's address to the Danbury Baptist Association cannot be relied upon to support the conclusion that Jefferson believed in a wall between church and state. "By this phrase Jefferson could only have meant that the 'wall of separation' was erected 'between Church and State' in regard to possible federal action such as a law establishing a national religion or prohibiting the free exercise of worship." *Id.* at 115. Overall the conduct of Thomas Jefferson was consistent with the conclusion that he believed, like all the other drafters of the Constitution and the Bill of Rights, that the states were free to establish religions as they saw fit.<sup>24</sup>

#### *E. First Amendment as Applied to the States*

[7, 8] As has been seen up to this point the establishment clause, as ratified in 1791, was intended only to prohibit the federal government from establishing a national religion. The function of the establishment was two-fold. First, it guaranteed to each individual that Congress would not impose a national religion. Second, the establishment clause guaranteed to each state that the states were free to define the meaning of religious establishment under their own constitutions and laws.

The historical record clearly establishes that when the fourteenth amendment was ratified in 1868 that its ratification did not incorporate the first amendment against the states. The debates in Congress at the time the fourteenth amendment was being drafted, the re-election speeches of the various members of Congress shortly after the passage by Congress of the fourteenth amendment, the contemporaneous newspaper stories reporting the effect and substance of the fourteenth amendment; and the legislative debates in the various state legislatures when they considered ratification of the fourteenth amendment indicate that the amendment was not intended to apply the establishment clause against the states because the fourteenth amendment was not intended to incorporate the federal Bill of Rights (the first eight amendments) against the states.

At the beginning the Court should acknowledge its indebtedness to Professor Charles Fairman, then a professor of law in Political Science at Stanford University, for the scholarly article which he published in 1949.<sup>25</sup> Professor Fairman examined in detail the historical evidence which Mr. Justice Black relied upon in *Adamson v. California*, 332 U.S. 46, 47, 67 S.Ct. 1672, 1673, 91 L.Ed. 1903 (1947), where Mr. Justice Black concluded that the historical events that culminated in the adoption of the fourteenth amendment demonstrated persuasively that one of the chief objects of the fourteenth amendment was to make the Bill of Rights applicable to the states.<sup>26</sup>

#### *1. Debates*

The paramount consideration in defining the scope of any constitutional provision or legislative enactment is to ascertain the intent of the legislature. The intention of the legislature may be evidenced by statements of the leading proponents.<sup>27</sup> If statements of the leading proponents are found, those statements are to be regarded as good as if they were written into the enactment.

"The intention of the lawmaker is the law." *Hawaii v. Mankichi*, 190 U.S. 197, 212, 23 S.Ct. 787, 788, 47 L.Ed. 1016 (1903).

Looking back, what evidence [is] there . . . to sustain the view that Section 1 was intended to incorporate Amendments I to VIII? [C]ongressman Bingham . . . did a good deal of talking about "immortal bill of rights" and one spoke of "cruel and usual punishments." Senator Howard, explaining the new privileges and immunities clause, said that it included the privileges and immunities of Article IV, Section 2—"whatever they may be"—and also "the personal rights guaranteed [sic] and secured by the first eight amendments . . ." That is all. The rest of the evidence bore in the opposite direction, or was indifferent. Yet one reads in Justice Black's footnotes that, [*Adamson v. California*, 332 U.S. 46, 72 n. 5 [67 S.Ct. 1672, 1686 n. 5, 91 L.Ed. 1903] (1947)].

A comprehensive analysis of the historical origins of the Fourteenth Amendment, Flack, *The Adoption of the Fourteenth Amendment* (1908), 94, concludes that "Congress, the House and the Senate, had the following objects and motives in view for submitting the first section of the Fourteenth Amendment to the States for ratification:

1. To make the Bill of Rights (the first eight Amendments) binding upon, or applicable to, the States.

2. To give validity to the Civil Rights Bill.
3. To declare who were citizens of the United States.

We have been examining the same materials as did Flack, and have quoted far more extensively than he. How can he on that record reach the conclusion that Congress proposed by Section 1 to incorporate Amendments I to VIII?

Fairman, *Does the Fourteenth Amendment Incorporate the Bill of Rights*, 2 Stan.L. Rev. at 65-666 (1949). Professor Flack explained that the incorporation was based upon remarks of Congressman Bingham and Senator Howard at the time the Thirtieth Congress voted upon the fourteenth amendment. Only those two said anything which could be construed as suggesting the result reached by Justice Black and the modern Supreme Court decisions.

Throughout the debates in the House over the meaning of the fourteenth amendment Professor Fairman shows convincingly that Congressman Bingham had no clear concept of what exactly would be accomplished by the passage of the fourteenth amendment. The explanations offered by Congressman Bingham to his colleagues were inconsistent and contradictory.<sup>28</sup>

Together with Congressman Bingham's statements which suggested incorporation were remarks by Senator Howard. Senator Howard spoke with more preciseness than Congressman Bingham. Thus, his interpretation carries much greater weight than that of Congressman Bingham. Yet, because of the circumstances under which he spoke, his statements are subject to question when held out as representative of the majority viewpoint. By sheer chance Senator Howard acted as spokesman for the joint committee when explaining the purpose of the fourteenth amendment to the Senate. The joint committee had been chaired by Senator Fessenden. Chairman Fessenden became sick suddenly and Senator Howard thus became the spokesman for the Joint Committee. "Up to this point [Senator Howard's] participation in the debates on the Civil Rights Bill and the several aspects of the Amendment had been negligible. Poles removed

from Chairman Fessenden, who 'abhorred' extreme radicals, Howard . . . was 'one of the most . . . reckless of the radicals,' who had 'served consistently in the vanguard of the extreme Negrophiles.'"<sup>29</sup> Professor Raoul Berger notes with some sarcasm that it is odd that a radical such as Senator Howard should be taken as speaking authoritatively for a committee in which the conservatives outnumbered the radicals and where there was a strong difference of opinion between the radicals and the conservatives. R. Berger, *supra* note 26, at 147.

On May 23, 1866, Senator Howard rose in the Senate, referred to the illness of Fessenden, and stated that he would "present the views and the motives which influenced the committee, so far as I understand [them]." After reading the privileges and immunities listed in *Corfield v. Coryell*, [6 Fed. Cas. 546, No. 3230 (C.C.E.D.Pa. 1823)], he said, "to these privileges and immunities . . . should be added the personal rights guaranteed and secured by the first eight amendments." That is the sum and substance of Howard's contribution to the "incorporation" issue.<sup>30</sup>

Raoul Berger notes in his analysis of the incorporation question that the remark of Senator Howard was tucked away in the middle of a long speech, that Howard was a last minute substitution for the majority chairman, that Howard was in the minority on the committee, and that after Howard was through speaking Senator Poland stated that the fourteenth amendment secured nothing beyond what was intended in the original privileges and immunities clause of Article IV Section 2. R. Berger, *supra* note 26, 148-49. Senator Doolittle followed Senator Poland with some additional remarks which were designed to reassure those whose votes had already been won in favor of passage of the fourteenth amendment that indeed the amendment was limited to known objectives, which objectives were not intended to encompass the federal Bill of Rights.

The scholarly analyses of Professors Fairman and Berger persuasively show that Mr. Justice Black misread the congressional debate surrounding the passage of the fourteenth amendment when he concluded that Congress intended to incorporate the federal Bill of Rights against the states. See *infra* p. 42-44 (discussion of Blaine Amendment). So far as Congress was concerned, after the passage of the fourteenth amendment the states were free to establish one Christian religion over another in the exercise of their prerogative to control the establishment of religions.

#### *2. Popular Understanding*

An examination of popular sentiment across the country reveals that the nation as a whole did not understand the adoption of the fourteenth amendment to incorporate the federal Bill of Rights against the states. Inferentially, that is to say that the people understood that each state was free to continue to support one Christian religion over another as the people of that state saw fit to do. The leading constitutional scholar upon whom Justice Black relied in *Adamson v. California*,

Mr. Flack[,] examined a considerable number of Northern newspapers and reported (an admission against the thesis he was defending) the following observation: "There does not seem to have been any statement at all as to whether the first eight Amendments were to be made applicable to the States or not . . ." Presumably this excluded the press reports of May 24 on

Senator Howard's speech of the 23d: for the *New York Herald* and the *New York Times*, which Mr. Flack had before him, did quote in full the passage where it said that the personal rights guaranteed by the first eight amendments were among the "privileges and immunities."

Other newspaper files have been examined in preparing the [article of Professor Fairman] and no instance has been found to vary what has been set out above.

Fairman, *supra* note 25, at 68 (footnotes omitted).<sup>31</sup>

Charles Fairman quotes at length from the campaign speeches of five senators who, presumably, heard Senator Howard's speech of May 23, 1866. Not one of the senators mentioned anything about the Bill of Rights when commenting to the electorate about Section 1. Likewise, the five Republicans, including Congressman Bingham, never mentioned that the privileges and immunities clause would impose the federal Bill of Rights upon the states. Along with Professor Fairman, the Court takes the historical record to conclusively show that the general understanding of the nation at large, as illustrated by contemporaneous newspaper reports, demonstrates that the people of this country did not understand the fourteenth amendment to incorporate the establishment clause of the first amendment against the states.

### 3. Campaign Speeches

After the submission of the fourteenth amendment to the states of June 16, 1866 the members of the Thirty-ninth Congress began to busy themselves with the prospect of re-election in the fall. The statements which the members of Congress made during their campaign speeches are certainly relevant in ascertaining the intent of the Thirty-ninth Congress with regard to the scope and effect of the fourteenth amendment. All of these speeches were contemporaneous expressions of the intent of Congress. Professor Fairman provides many instances of speeches made on the campaign hustings. See generally, Fairman, *supra* note 25, at 68-78. None of the members of Congress indicated in their campaign speeches that the fourteenth amendment was intended to incorporate the federal Bill of Rights against the states. The general consensus with regard to the effect of the fourteenth amendment was that it covered the same ground as the Civil Rights Act of 1866. *Id.* at 72 (remarks of Senator Lyman Trumbull, the sponsor of the Civil Rights Bill).

### 4. State-Legislative Debates

The fourteenth amendment was submitted to the states for their ratification on June 16, 1866. By June, 1867, twelve legislatures had ratified the amendment. By July 28, 1868 the fourteenth amendment had been promulgated.

Professor Fairman combed the relevant legislative materials to see exactly what each state legislature thought the effect of the fourteenth amendment would be. Along with Fairman, the Court finds it important to note not only what was said but what was not said. Had the fourteenth amendment been understood to incorporate the federal Bill of Rights against the states in many instances states would have been required to make radical changes. For instance, it was frequent in many states for people to be prosecuted for felonies without an indictment from a grand jury. It was equally common for a jury of less than twelve people to sit in judgment in a felony prosecution. Some states failed to preserve the

right to a jury trial and suits at common law where the amount in controversy exceeded \$20.00.

The Court will not repeat Professor Fairman's analysis in each state. Only a few states need to be highlighted to convey the popular understanding of the effect of the fourteenth amendment upon the right of states to establish a religion. In New Hampshire, only five months after the promulgation of the fourteenth amendment—in December, 1868—the Supreme Court of New Hampshire had occasion to interpret a provision of the state constitution which provided that the legislature could "authorize towns, parishes, and religious societies 'to make adequate provision . . . for the support and maintenance of public Protestant teachers of piety, religion, and morality.'" <sup>32</sup> Moreover, Article VI of the Bill of Rights from the New Hampshire Constitution encouraged "the public worship of the deity . . ." The question before the Supreme Court of New Hampshire was whether certain parishioners of the First Unitarian Society of Christians in Dover could fire the preacher. The preacher had begun using text from Emerson interchangeably with text from the Bible. While Wardens of the church supported the preacher, certain pew owners were outraged. The pew owners sought an injunction restraining the preacher from occupying the meeting house. The trial court granted relief.

On appeal, in a 276-page report neither the opinion of the court nor the dissent made a single reference to the fourteenth amendment. Both opinions, however, had much to say about New Hampshire's policy in ecclesiastical matters. The opinion of the court referred to the first amendment and quoted Story's *Commentaries*:

[T]he whole power over the subject of religion is left exclusively to the State governments, to be acted upon according to their own sense of justice and the State constitutions . . .

Probably at the time of the adoption of the amendment now under consideration, the general if not the universal sentiment in America was, that Christianity ought to receive encouragement from the state, so far as not incompatible with the private rights of conscience and the freedom of religious worship.

Fairman, *supra* note 25, 87 (citations omitted).

As Professor Fairman notes: "[I]n December 1868—five months after the promulgation of the Fourteenth Amendment—the New Hampshire court regarded the matter of an establishment of religion as being still 'left exclusively to the State governments.'" *Id.*

[9] The historical record shows without equivocation that none of the states envisioned the fourteenth amendment as applying the federal Bill of Rights against them through the fourteenth amendment. It is sufficient for purposes of this case for the Court to recognize, and the Court does so recognize, that the fourteenth amendment did not incorporate the establishment clause of the first amendment against the states.<sup>33</sup>

### 5. Supreme Court Decisions

Decisions by the United States Supreme Court rendered contemporaneously with the ratification of the fourteenth amendment indicate that the Court did not perceive the fourteenth amendment to incorporate the federal Bill of Rights against the states. In *Twitshell v. Pennsylvania*, 74 U.S. (7 Wall.) 321, 19 L.Ed. 223 (U.S. 1869), the

Supreme Court held that the fifth and sixth amendments of the Constitution do not apply to the states. This holding was consistent with the earlier, well-known holding in *Barron v. Baltimore*, 32 U.S. (7 Peters) 243, 8 L.Ed. 672 (1833).

In *Barron v. Baltimore* the question presented to the court was whether the City of Baltimore was required to compensate Barron under the fifth amendment for the taking of his property for public purposes. When the City of Baltimore paved some streets, streams of water had been diverted in the vicinity of Barron's wharf. The water had deposited large amounts of sand around the wharf. The sand deposits made these waters too shallow for ocean-going ships to load and unload cargo at the wharf. Chief Justice John Marshall held that Barron's claim raised no appropriate federal question because the fifth amendment was a constitutional limitation applied only against the federal government.<sup>34</sup>

Another decision of the United States Supreme Court, decided in 1870, recognized that the federal Bill of Rights did not control the states.<sup>35</sup> After much deliberation over the question whether jury findings made in state court were reviewable in federal court, the Supreme Court noted that it was "admitted" that the limitations of the seventh amendment<sup>36</sup> did not apply to the states.

### F. Blaine Amendment

The discussion up to this point has focused upon the incorporation of the federal Bill of Rights generally through the fourteenth amendment. Events which postdated the adoption of the fourteenth amendment show that the lawmakers of the Thirty-ninth Congress did not intend that the establishment clause would become binding upon the states with the ratification of the fourteenth amendment. " '[A] conclusive argument against the incorporation theory, at least as respects the religious provisions of the First Amendment, is the 'Blaine Amendment' proposed in 1875.'" McClellan, *Christianity and the Common Law*, in Joseph Story and the American Constitution 118, 154 (1971) (quoting O'Brien, *Justice Reed and the First Amendment*, 116 (n.d.)). At the behest of President Grant, James Blaine of Maine introduced a resolution in the Senate in 1885 which read: "No State shall make any law respecting an establishment of religion or prohibiting the free exercise thereof." *Id.* at 154. (emphasis in original). Importantly, the Congress which considered the Blaine Amendment included twenty-three members of the Thirty-ninth Congress, the Congress which passed the fourteenth amendment.

Not one of the several Representatives and Senators who spoke on the proposal even suggested that its provisions were implicit in the amendment ratified just seven years earlier. Congressman Banks, a member of the Thirty-ninth Congress, observed: "If the Constitution is amended so as to secure the object embraced in the principle part of this proposed amendment, it prohibits the States from exercising a power they now exercise." Senator Frelinghuysen of New Jersey urged the passage of the "House article," which "prohibits the States for the first time, from the establishment of religion, from prohibiting its free exercise." Senator Stevenson, in opposing the proposed amendment, referred to Thomas Jefferson: "Friend as he [Jefferson] was of religious freedom, he would never have consented that the States . . . should be degraded

and that the Government of the United States, a government of limited authority, a mere agent of the States with prescribed powers, should undertake to take possession of their schools and of their religion." Remarks of Randolph, Christianity, Kernan, Whyte, Boggy, Easton, and Morton give confirmation to the belief that none of the legislators in 1875 thought the Fourteenth Amendment incorporated the religious provisions of the First.

*Id.* (quoting O'Brien, Justice Reed and the First Amendment 116-17 (emphasis added)).

The Blaine Amendment, which failed in passage, is stark testimony to the fact that the adoptors of the fourteenth amendment never intended to incorporate the establishment clause of the first amendment against the states, a fact which Black ignored. This was understood by nearly all involved with the Thirty-ninth Congress to be the effect of the fourteenth amendment.

#### G. Proper Interpretative Perspective

[10, 11] The interpretation of the Constitution can be approached from two vantages. First, the Court can attempt to ascertain the intent of the adoptors, and after ascertaining that attempt apply the Constitution as the adoptors intended it to be applied. Second, the Court can treat the Constitution as a living document, chameleon-like in its complexion, which changes to suit the needs of the times and the whims of the interpreters. In the opinion of this Court, the only proper approach is to interpret the Constitution as its drafters and adoptors intended. The Constitution is, after all, the supreme law of the land. It contains provisions for amending it; if the country as a whole decided that the present text of the Constitution no longer satisfied contemporary needs then the only constitutional course is to amend the Constitution by following its formal, mandated procedures. Amendment through judicial fiat is both unconstitutional and illegal. Amendment through judicial fiat breeds disrespect for the law, and it undermines the very basic notion that this country is governed by laws and not by men. See generally *Breast, The Misconceived Quest for the Original Understanding*, 60 B.U.L.Rev. 204 (1980) (discussion various approaches to constitutional interpretation).

Let us have faith in the rightness of our charter and the patience of perseverance in adhering to its principles. If we do so then all will have input into change and not just a few.

#### H. Stare Decisis

[12] What is a court to do when faced with a direct challenge to settle precedent?<sup>37</sup> In most types of cases "it is more important that the applicable rule of law be settled than that it be settled right." *Burnet v. Coronado Oil & Gas Co.*, 285 U.S. 393, 406, 52 S.Ct. 443, 447, 76 L.Ed. 815 (1932) (Brandeis, J., dissenting). This general rule holds even where the court is persuaded that it has made a serious error of interpretation in cases involving a statute.<sup>38</sup> However, in cases involving the federal constitution, where correction through legislative action is practically impossible, a court should be willing to examine earlier precedent and to overrule it if the court is persuaded that the earlier precedent was wrongly decided. *Id.* at 407, 52 S.Ct. at 447. "A judge looking at a constitutional decision may have compulsions to reverse past history and accept what was once written. But he remembers above all else that it is the Constitution which he swore to support and

defend, not the gloss which his predecessors may have put on it." Douglas, *Stare Decisis*, 49 Colum.L.Rev. 735, 736 (1949).

Certainty in the law is important. Yet, a rigid adherence to stare decisis "would leave the resolution of every issue in constitutional law permanently at the mercy of the first Court to face the issue, without regard to the possibility that the relevant case was poorly prepared or that the judgment of the Court was simply ill-considered. The danger is particularly great where the court has moved too far in an activist direction; in such a situation, legislative correction of the error is liable to be virtually impossible." Maltz, *Commentary: Some Thoughts on the Death of Stare Decisis in Constitutional Law*, 1980 Wis.L.Rev. 476, 492 (1980).

[T]he "wall of separation between Church and State" that Mr. Jefferson built at the University [of Virginia] which he founded did not exclude religious education from the school. The difference between the generality of his statements on the separation of Church and State and the specificity of his conclusions on education are considerable. A rule of law should not be drawn from a figure of speech.

*McCullum v. Board of Education*, 333 U.S. 203, 247, 68 S.Ct. 461, 482, 92 L.Ed. 649 (1948) (per Reed, J., dissenting).

"[T]he ultimate touchstone of constitutionality is the Constitution itself and not what we have said about it." *Graves v. O'Keefe*, 306 U.S. 466, 491-92, 59 S.Ct. 595, 603-04, 83 L.Ed. 927 (1939) (Frankfurter, J., concurring). "By placing a premium on 'recent cases' rather than the language of the Constitution, the Court makes it dangerously simple for future Courts using the technique of interpretation to operate as a 'continuing Constitutional Convention.'" *Coleman v. Alabama*, 399 U.S. 1, 22-23, 90 S.Ct. 1999, 2010-11, 26 L.Ed.2d 387 (1970) (Burger, C.J.). "Too much discussion of constitutional law is centered on the Court's decisions, with not enough regard for the text and history of the Constitution itself." R. Berger, *Government by Judiciary: The Transformation of the Fourteenth Amendment* 296 (1977).<sup>39</sup>

This Court's review of the relevant legislative history surrounding the adoption of both the first amendment and of the fourteenth amendment, together with the plain language of those amendments, leaves no doubt that those amendments were not intended to forbid religious prayers in the schools which the states and their political subdivisions mandate.

#### I. Summary

"Th[e] mountain of evidence has become so high, one may have lost sight of the few stones and pebbles that made up the theory that the Fourteenth Amendment incorporated Amendments I to VIII." Fairman, *supra* note 25, at 134. Suffice it to say that the few stones and pebbles provide precious little historical support for the view that the states were prohibited by the establishment clause of the first amendment from establishing a religion.<sup>40</sup>

More than any other provision of the Constitution, the interpretation by the United States Supreme Court of the establishment clause has been steeped in history. This Court's independent review of the relevant historical documents and its reading of the scholarly analysis convinces it that the United States Supreme Court has erred in its reading of history. Perhaps this opinion will be no more than a voice crying in the wilderness and this attempt to right that which this Court is persuaded is a misread-

ing of history will come to nothing more than blowing in the hurricane, but be that as it may, this Court is persuaded as was Hamilton that "[e]very breach of the fundamental laws, though dictated by necessity impairs the sacred reverence which ought to be maintained in the breast of the rulers towards the constitution." R. Berger, *supra* note 26, at 299 (quoting Federalist No. 25 at 158).

[13] Because the establishment clause of the first amendment to the United States Constitution does not prohibit the state from establishing a religion, the prayers offered by the teachers in this case are not unconstitutional. Therefore, the Court holds that the complaint fails to state a claim for which relief could be granted.

#### J. Conclusion

There are pebbles on the beach of history from which scholars and judges might attempt to support the conclusions that they are wont to reach. That is what Professors Flack, Crosskey and the more modern scholars have done in attempting to establish a beachhead, as did Justice Black, that there is a basis for their conclusions that Congress and the people intended to alter the direction of the country by incorporating the first eight amendments to the Constitution. However, in arriving at this conclusion, they, and each of them, have had to revise established principles of constitutional interpretation by the judiciary. Whether the judiciary, inadvertently or eagerly, walked into this trap is not for discussion. The result is that the judiciary has, in fact, amended the Constitution to the consternation of the republic. As Washington pointed out in his Farewell Address, see p. i *supra*, this clearly is the avenue by which our government, can and ultimately, will be destroyed. We think we move in the right direction today, but in so doing we are denying to the people their right to express themselves. It is not what we, the judiciary want, it is what the people want translated into law pursuant to the plan established in the Constitution as the framers intended. This is the bedrock and genius of our republic. The mantle of office gives us no power to fix the moral direction that this nation will take. When we undertake such course we trample upon the law. In such instances the people have a right to complain. The Court loses its respect and our institution is brought low. This misdirection should be cured now before it is too late. We must give no future generation an excuse to use this same tactic to further their ends which they think proper under the then political climate as for instance did Adolph Hitler when he used the court system to further his goals.

What is past is prologue. The framers of our Constitution, fresh with recent history's teachings, knew full well the propriety of their decision to leave to the peoples of the several states the determination of matters religious. The wisdom of this decision becomes increasingly apparent as the courts wind their way through the maze they have created for themselves by amending the Constitution by judicial fiat to make the first amendment applicable to the states. Consistency no longer exists. Where you cannot recite the Lord's Prayer, you may sing his praises in God Bless America. Where you cannot post the Ten Commandments on the wall for those to read if they do choose, you can require the Pledge of Allegiance. Where you cannot acknowledge the authority of the Almighty in the Re-

gent's prayer, you can acknowledge the existence of the Almighty in singing the verses of America and Battle Hymn of the Republic. It is no wonder that the people perceive that justice is myopic, obtuse, and janus-like.

If the appellate courts disagree with this Court in its examination of history and conclusion of constitutional interpretation thereof, then this Court will look again at the record in this case and reach conclusions which it is not now forced to reach.<sup>41</sup>

### III. Order

It is therefore ordered that the complaint in this case be dismissed with prejudice. Costs are taxed against the plaintiffs. Fed. R. Civ. P. 54(d).

### FOOTNOTES

<sup>1</sup> 42 U.S.C. § 1983 provides: Every person who, under color of any statute, ordinance, regulation, custom, or usage, of any State or Territory, subjects, or causes to be subjected, any citizen of the United States or other person within the jurisdiction thereof to the deprivation of any rights, privileges, or immunities secured by the Constitution and laws, and shall be liable to the party injured in an action at law, suit in equity, or other proper proceeding for redress.

<sup>2</sup> Initially, it should be noted that neither 28 U.S.C. §§ 2201 nor 2202 afford any subject-matter jurisdiction to a federal court as the complaint alleges. These sections provide only a remedy.
