

## SENATE—Tuesday, January 6, 1987

The sixth day of January being the day prescribed by House Joint Resolution 755 for the meeting of the 1st session of the 100th Congress, the Senate assembled in its Chamber at the Capitol, at 12 noon.

## PRAYER

The Chaplain, the Reverend Richard C. Halverson, D.D., offered the following prayer:

Let us pray.

*For promotion cometh neither from the East, nor from the West, nor from the South; but God is the judge; He putteth down one and setteth up another—Psalms 75:6-7.*

Eternal God, Supreme Lord of history and Ruler of the nations, make Your presence felt at this significant hour in the Senate of the United States.

In the light of Your truth from the psalmist, in the spirit of the finest intentions of our founders, and in the context of this consummately critical hour in domestic and world affairs, may this swearing-in ceremony represent the ultimate in statesmanship and political commitment. As the Senators make their sober pledge, may the reality of divine appointment and the trust of the people be pervasive.

We commend to Your gracious care the President and the First Lady. Give to them Your peace and to him rapid and total recovery.

In the name of Him who is truth and justice incarnate. Amen.

## CREDENTIALS

The VICE PRESIDENT. The Chair lays before the Senate the credentials of 34 Senators elected to 6-year terms beginning on January 3, 1987, and the credentials of one Senator elected for an unexpired term. All certificates, the Chair is advised, are in the form suggested by the Senate or contain all the essential requirements of the form suggested by the Senate.

If there be no objection, the reading of the 35 certificates will be waived, and they will be printed in full in the RECORD.

The documents ordered to be printed in the RECORD are as follows:

## STATE OF NORTH CAROLINA

CERTIFICATE OF ELECTION FOR UNEXPIRED TERM  
To the President of the Senate of the United States:

This is to certify that on the 4th day of November, 1986, Terry Sanford was duly chosen by the qualified electors of the State of North Carolina a Senator for the unexpired term ending at noon on the 3rd day of January, 1987, to fill the vacancy in the representation from said State in the Senate of

the United States caused by the death of Senator John East.

Witness: His excellency our governor, and our seal hereto affixed at Raleigh this 21st day of November, in the year of our Lord, 1986.

*West Virginia.* Robert C. Byrd and John D. Rockefeller IV.

*Wisconsin.* William Proxmire and Bob Kasten.

*Wyoming.* Malcolm Wallop and Alan K. Simpson.

The VICE PRESIDENT. The majority leader has been recognized.

Mr. BYRD addressed the Chair.

The VICE PRESIDENT. Will the Senate please be in order? The majority leader has been recognized.

Mr. BYRD. Mr. President, may we have order in the Senate?

The VICE PRESIDENT. Senators are asked to take their seats. The Senate will be in order.

The majority leader.

Mr. BYRD. Mr. President, I thank the Chair.

#### NOTIFICATION TO THE PRESIDENT

Mr. BYRD. Mr. President, I send a resolution to the desk and ask for its immediate consideration.

The VICE PRESIDENT. The clerk will report the resolution.

The legislative clerk read as follows:

A resolution (S. Res. 1) informing the President of the United States that a quorum of each House is assembled.

The VICE PRESIDENT. Without objection, the resolution is considered and agreed to.

The resolution (S. Res. 1) reads as follows:

#### S. RES. 1

*Resolved,* That a committee consisting of two Senators be appointed to join such committee as may be appointed by the House of Representatives to wait upon the President of the United States and inform him that a quorum of each House is assembled and that the Congress is ready to receive any communication he may be pleased to make.

The VICE PRESIDENT. Pursuant to Senate Resolution 1, the Chair appoints the Senator from West Virginia, Mr. ROBERT C. BYRD, and the Senator from Kansas, Mr. ROBERT DOLE, as members of the committee of the Senate to join the committee of the House of Representatives to wait upon the President of the United States and inform him that a quorum of each House is assembled and that the Congress is ready to receive any communication he may be pleased to make.

#### NOTIFICATION TO THE HOUSE

Mr. BYRD. Mr. President, I send a resolution to the desk and ask for its immediate consideration.

The VICE PRESIDENT. The clerk will report.

The legislative clerk read as follows:

A resolution (S. Res. 2) informing the House of Representatives that a quorum of the Senate is assembled.

The VICE PRESIDENT. Without objection, the resolution is considered and agreed to.

The resolution (S. Res. 2) reads as follows:

#### S. RES. 2

*Resolved,* That the Secretary inform the House of Representatives that a quorum of the Senate is assembled and that the Senate is ready to proceed to business.

#### ELECTION OF THE PRESIDENT PRO TEMPORE OF THE SENATE

Mr. BYRD. Mr. President, I send a resolution to the desk and ask for its immediate consideration.

The VICE PRESIDENT. The clerk will state the resolution by title.

Mr. BYRD. Mr. President, I ask unanimous consent that the distinguished Senator from South Carolina, Mr. THURMOND, may be added as a cosponsor. I do this at his request.

The VICE PRESIDENT. Without objection, it is so ordered.

The clerk will now state the resolution.

The legislative clerk read as follows:

A resolution (S. Res. 3) to elect John C. Stennis, a Senator from the State of Mississippi, to be President pro tempore of the Senate of the United States.

Mr. THURMOND addressed the Chair.

The VICE PRESIDENT. The Senator from South Carolina.

Mr. THURMOND. Mr. President, I am very pleased to join as a sponsor of this resolution. The Democrats have a majority in the Senate. They are entitled to the President pro tempore. Senator STENNIS is a worthy man to fill this position. He is a man of character, a man of ability, a man of dedication, and a man of compassion. I am very proud to have worked with him ever since I have been in the Senate. I feel the Senate is fortunate to have a man like him to be the President pro tempore. I move to second the nomination, as well as being a cosponsor, and move the nomination be closed and he be elected by acclamation.

The VICE PRESIDENT. Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to as follows:

#### S. RES. 3

*Resolved,* That John C. Stennis, a Senator from the State of Mississippi, be, and he is hereby, elected President of the Senate pro tempore, to hold office during the pleasure of the Senate, in accordance with rule I, paragraph 1, of the Standing Rules of the Senate.

# ADMINISTRATION OF OATH TO SENATOR JOHN C. STENNIS AS PRESIDENT PRO TEMPORE OF THE SENATE FOR THE 100TH CONGRESS

The VICE PRESIDENT. The Senator from Mississippi will approach the rostrum. I appoint the Senator from West Virginia, Mr. BYRD; the Senator from Kansas, Mr. DOLE; the Senator from Mississippi, Mr. THAD COCHRAN; and the Senator from South Carolina, Mr. STROM THURMOND, as a committee to escort the President pro tempore of the Senate to the rostrum for the purpose of taking the oath.

The President pro tempore, escorted by Senator BYRD, Senator DOLE, Senator COCHRAN, and Senator THURMOND, advanced to the desk of the Vice President; the oath was administered to him by the Vice President; and he subscribed to the oath in the Official Oath Book.

[Applause, Senators rising.]

The PRESIDENT pro tempore (Mr. STENNIS). Mr. Vice President, and Members of the Senate, the floor is now open for offering resolutions that may be presented by any Member.

Mr. BYRD addressed the Chair.

The PRESIDENT pro tempore. I recognize the Senator from West Virginia.

## NOTIFICATION TO THE PRESIDENT

Mr. BYRD. Mr. President, I send a resolution to the desk and ask for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report the resolution.

The legislative clerk read as follows:

S. RES. 4

*Resolved*, That the President of the United States be notified of the election of John C. Stennis, a Senator from the State of Mississippi, as President pro tempore.

The PRESIDENT pro tempore. Is there objection to the present consideration of the resolution?

There being no objection, the resolution will be considered and agreed to. [Laughter.]

## CONGRATULATIONS TO THE PRESIDENT PRO TEMPORE

Mr. BYRD addressed the Chair.

The PRESIDENT pro tempore. The Senator from West Virginia is recognized.

Mr. BYRD. I send a resolution to the desk, and I ask for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report the resolution.

The assistant legislative clerk read as follows:

S. RES. 5

*Resolved*, That the Majority Leader and the Minority Leader of the Senate, on behalf of the Senate, congratulate John C. Stennis, a Senator from the State of Missis-

issippi, upon his election as President pro tempore of the United States Senate.

The PRESIDENT pro tempore. We will strictly follow the rule here. [Laughter.]

Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to.

[Applause, Senators rising.]

The PRESIDENT pro tempore. The Chair recognizes the Senator from West Virginia.

## NOTIFICATION TO THE HOUSE OF REPRESENTATIVES OF ELECTION OF A PRESIDENT PRO TEMPORE OF THE SENATE

Mr. BYRD. Mr. President, I send a resolution to the desk and I ask unanimous consent that it be immediately considered.

The PRESIDENT pro tempore. Without objection, it is so ordered.

The resolution will be reported. The clerk will report the resolution.

The legislative clerk read as follows:

S. RES. 6

*Resolved*, That the House of Representatives be notified of the election of John C. Stennis, a Senator from the State of Mississippi, as President pro tempore.

The PRESIDENT pro tempore. Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to.

Mr. BYRD addressed the Chair.

The PRESIDENT pro tempore. The Senator from West Virginia is recognized.

## ELECTION OF WALTER J. STEWART AS SECRETARY OF THE SENATE

Mr. BYRD. Mr. President, I send to the desk a resolution and I ask for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report the resolution.

The assistant legislative clerk read as follows:

S. RES. 7

*Resolved*, That Walter J. Stewart be, and he is hereby, elected Secretary of the Senate, beginning January 6, 1987.

The PRESIDENT pro tempore. Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to.

## ADMINISTRATION OF OATH TO THE SECRETARY OF THE SENATE

The PRESIDENT pro tempore. The Secretary of the Senate will now present himself for the taking of the oath of office.

The Honorable Walter J. Stewart, escorted by the Honorable ROBERT C.

BYRD, advanced to the desk of the Vice President; the oath prescribed by law was administered to him by the President pro tempore.

[Applause, Senators rising.]

## NOTIFICATION TO THE PRESIDENT

Mr. BYRD. I send to the desk a resolution and I ask for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report the resolution.

The legislative clerk read as follows:

S. RES. 8

*Resolved*, That the President of the United States be notified of the election of the Honorable Walter J. Stewart as Secretary of the Senate.

The PRESIDENT pro tempore. Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to.

## NOTIFICATION TO THE HOUSE OF REPRESENTATIVES OF ELECTION OF SECRETARY OF THE SENATE

Mr. BYRD addressed the Chair.

The PRESIDENT pro tempore. The Senator from West Virginia is recognized.

Mr. BYRD. Mr. President, I ask unanimous consent for the immediate consideration of the resolution which I now sent to the desk.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the resolution.

The assistant legislative clerk read as follows:

S. RES. 9

*Resolved*, That the House of Representatives be notified of the election of the Honorable Walter J. Stewart as Secretary of the Senate.

The PRESIDENT pro tempore. Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to as follows:

S. RES. 9

*Resolved*, That the House of Representatives be notified of the election of the Honorable Walter J. Stewart as Secretary of the Senate.

## ELECTION OF HENRY KUUALOHA GIUGNI AS THE SERGEANT AT ARMS AND DOORKEEPER OF THE SENATE

Mr. BYRD. Mr. President, I send to the desk a resolution and ask for its immediate consideration.

I offer this resolution on behalf of Mr. INOUE and myself.

The PRESIDENT pro tempore. The clerk will report the resolution.

The legislative clerk read as follows:

## S. RES. 10

*Resolved*, That Henry Kuualoha Giugni, of the State of Hawaii, be, and he is hereby, elected Sergeant at Arms and Doorkeeper of the Senate.

The PRESIDENT pro tempore. Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to.

#### ELECTION OF DAVID J. PRATT AS SECRETARY FOR THE MAJORITY OF THE SENATE

Mr. BYRD addressed the Chair.

The PRESIDENT pro tempore. The Senator from West Virginia.

Mr. BYRD. Mr. President, I send a resolution to the desk and ask for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report the resolution.

The assistant legislative clerk read as follows:

## S. RES. 11

*Resolved*, That David J. Pratt be, and he is hereby, elected Secretary for the Majority of the Senate.

The PRESIDENT pro tempore. Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to.

#### ELECTION OF HOWARD GREENE AS SECRETARY FOR THE MINORITY OF THE SENATE

Mr. DOLE addressed the Chair.

The PRESIDENT pro tempore. The Senator from Kansas.

Mr. DOLE. Mr. President, I send a resolution to the desk and ask for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report the resolution.

The legislative clerk read as follows:

## S. RES. 12

*Resolved*, That Howard Greene be, and he is hereby, elected Secretary for the Minority of the Senate.

The PRESIDENT pro tempore. Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to.

#### HOURLY OF DAILY MEETING

Mr. BYRD. Mr. President, I send a resolution to the desk and ask for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report the resolution.

The assistant legislative clerk read as follows:

## S. RES. 13

*Resolved*, That the hour of daily meeting of the Senate be 12 o'clock meridian unless otherwise ordered.

The PRESIDENT pro tempore. Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to.

#### AMENDMENT TO PARAGRAPH 2 AND 3 OF RULE XXV

Mr. BYRD addressed the Chair.

The PRESIDENT pro tempore. The Senator from West Virginia is recognized.

Mr. BYRD. Mr. President, I send to the desk a resolution amending rule XXV and I ask for its immediate consideration.

The PRESIDENT pro tempore. The resolution will be stated by title.

The legislative clerk read as follows:

A resolution (S. Res. 14) to amend paragraph 2 and 3 of Rule XXV of the Standing Rules of the Senate.

The PRESIDENT pro tempore. Is there any discussion?

Mr. METZENBAUM. Mr. President, would the leader be good enough to tell us what that is?

Mr. BYRD. Yes. This makes it possible for the distinguished Senator from Ohio to be on the Intelligence Committee in due time.

Mr. METZENBAUM. That is a wonderful resolution. [Laughter.]

Mr. HELMS addressed the Chair.

The PRESIDENT pro tempore. The Senator from North Carolina is recognized.

Mr. HELMS. Mr. President, I thank the Chair.

May we have the resolution read?

The PRESIDENT pro tempore. Yes.

The clerk will read the resolution.

The legislative clerk read as follows:

## S. RES. 14

*Resolved*, That Rule XXV, paragraph 2, of the Standing Rules of the Senate is amended as follows:

Strike the figure after "Agriculture, Nutrition, and Forestry" and insert in lieu thereof "18";

Strike the figure after "Armed Services" and insert in lieu thereof "20";

Strike the figure after "Banking, Housing, and Urban Affairs" and insert in lieu thereof "18";

Strike the figure after "Commerce, Science, and Transportation" and insert in lieu thereof "20";

Strike the figure after "Energy and Natural Resources" and insert in lieu thereof "19";

Strike the figure after "Environment and Public Works" and insert in lieu thereof "16";

Strike the figure after "Foreign Relations" and insert in lieu thereof "20";

Strike the figure after "Governmental Affairs" and insert in lieu thereof "14";

Strike the figure after "Judiciary" and insert in lieu thereof "14";

Sec. 2. Paragraph 3(a) of rule XXV of the Standing Rules of the Senate is amended as follows:

Strike the figure after "Budget" and insert in lieu thereof "24";

Strike the figure after "Rules and Administration" and insert in lieu thereof "16";

Strike the figure after "Veterans Affairs" and insert in lieu thereof "11";

Strike the figure after "Small Business" and insert in lieu thereof "18".

Sec. 3. Paragraph 3(c) of Rule XXV of the Standing Rules of the Senate is amended as follows:

Strike the figure after "Indian Affairs" and insert in lieu thereof "8".

The PRESIDENT pro tempore. Are there any other requests?

The Chair hears none.

Is there objection to the present consideration of the resolution?

There being no objection, the resolution was considered and agreed to.

Mr. BYRD. Mr. President, I answered the distinguished Senator from Ohio facetiously. I intended to correctly answer his question but the distinguished Senator from North Carolina, quite appropriately, asked that the resolution be read. So that is in full explanation of the resolution.

#### AMENDMENT TO RULE XXV

Mr. BYRD. Mr. President, I send a resolution to the desk dealing with rule XXV, and I ask unanimous consent to proceed to its immediate consideration.

The PRESIDENT pro tempore. Without objection, it is so ordered.

The clerk will report the resolution by title.

The assistant legislative clerk read as follows:

A resolution (S. Res. 15) to amend paragraph 4 of rule XXV of the Standing Rules of the Senate.

The PRESIDENT pro tempore. Is there objection to the present consideration of the resolution?

There being no objection, the resolution (S. Res. 15) was considered and agreed to as follows:

## S. RES. 15

*Resolved*, That paragraph 4 of Rule XXV is amended by striking all after subparagraph (g) and inserting in lieu thereof the following:

"(h)(1) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Armed Services and the Committee on Energy and Natural Resources may, during the Hundredth Congress, also serve as a member of the Committee on Governmental Affairs so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(2) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Rules and Administration may, during the Hundredth Congress, also serve as a member of the Committee on Veterans' Affairs and the Committee on Intelligence so long as his service as a member of each of such committees is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 3(a) and 3(b).

"(h)(3)(A) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Banking, Housing, and Urban Affairs and the Committee on Foreign Relations may, during the Hundredth Congress, also serve as a

member of the Committee on Labor and Human Resources so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(3)(B) A Senator who during the Hundredth Congress may serve as a member on those committees listed in subparagraph (a), as well as a member on the Special Committee on Aging, may, during the Hundredth Congress, also serve as a member of the Committee on the Budget so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than two committees listed in paragraph 3.

"(h)(4) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Appropriations and the Committee on Agriculture, Nutrition, and Forestry may, during the Hundredth Congress, also serve as a member of the Committee on Labor and Human Resources so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(5)(A) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Armed Services and the Committee on the Judiciary may, during the Hundredth Congress, also serve as a member of the Committee on Labor and Human Resources so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(5)(B) A Senator who during the Hundredth Congress serves on the Committee on Armed Services, the Committee on the Judiciary, and the Committee on Labor and Human Resources, and who serves as chairman of a committee listed in paragraph 2, may serve as chairman of two subcommittees of all committees listed in paragraph 2 of which he is a member.

"(h)(6)(A) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Agriculture, Nutrition, and Forestry and the Committee on Appropriations may, during the Hundredth Congress, also serve as a member of the Committee on the Judiciary so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(6)(B) A Senator who during the Hundredth Congress serves on the Committee on Agriculture, Nutrition, and Forestry, the Committee on Appropriations, and the Committee on the Judiciary, and who serves as chairman of a committee listed in paragraph 2, may serve as chairman of two subcommittees of all committees listed in paragraph 2 of which he is a member.

"(h)(7) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Energy and Natural Resources and the Committee on the Judiciary may, during the Hundredth Congress, also serve as a member of the Committee on Labor and Human Resources so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivi-

vision, as a member of more than three committees listed in paragraph 2.

"(h)(8) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Environment and Public Works and the Committee on Finance may, during the Hundredth Congress, also serve as a member of the Committee on Governmental Affairs so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(9) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Agriculture, Nutrition and Forestry and the Committee on Finance may, during the Hundredth Congress, also serve as a member of the Committee on Governmental Affairs so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(10) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Banking, Housing and Urban Affairs and the Committee on Commerce, Science, and Transportation may, during the Hundredth Congress, also serve as a member of the Committee on Finance so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(11)(A) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Appropriations and the Committee on Banking, Housing, and Urban Affairs may, during the Hundredth Congress, also serve as a member of the Committee on Governmental Affairs so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(11)(B) A Senator who during the Hundredth Congress may serve as a member on those committees listed in subparagraph (a), as well as a member of the Committee on the Budget, may, during the Hundredth Congress, also serve as a member of the Committee on Small Business so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than two committees listed in paragraphs 3(a) and 3(b).

"(h)(12) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on the Judiciary and the Committee on Labor and Human Resources may, during the Hundredth Congress, also serve as a member of the Committee on Foreign Relations so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(13) A Senator whose term begins on January 3, 1987 may serve as a member of the Committee on Commerce, Science and Transportation and the Committee on Foreign Relations and may, during the Hundredth Congress, also serve as a member of the Committee on Labor and Human Resources so long as his service as a member of each such committee is continuous, but in

no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(14) A Senator whose term begins on January 3, 1987 may serve as a member of the Committee on Appropriations and the Committee on Environment and Public Works and may, during the Hundredth Congress, also serve as a member of the Committee on Labor and Human Resources so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2."

Mr. DOLE addressed the Chair.

The PRESIDENT pro tempore. The Senator from Kansas.

#### AMENDMENT TO PARAGRAPH 4 OF RULE XXV OF THE STANDING RULES OF THE SENATE

Mr. DOLE. Mr. President, I send a resolution to the desk and ask for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report the resolution as presented by the distinguished Senator from Kansas.

The legislative clerk read as follows:

A resolution (S. Res. 16) to amend paragraph 4 of rule XXV of the Standing Rules of the Senate.

The resolution (S. Res. 16) was agreed to, as follows:

#### S. RES. 16

*Resolved*, That paragraph 4 of Rule XXV is amended by adding at the end of paragraph (h) the following:

"(h)(15) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on the Judiciary, the Committee on Labor and Human Resources, the Committee on Armed Services, and the Committee on Veterans' Affairs may, during the Hundredth Congress, serve as a member of the Committee on the Judiciary, the Committee on Labor and Human Resources, the Committee on Armed Services, and the Committee on Veterans' Affairs so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(16) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Appropriations, the Committee on Commerce, Science and Transportation, the Committee on Governmental Affairs, and the Committee on Rules and Administration may, during the Hundredth Congress, serve as a member of the Committee on Appropriations, the Committee on Commerce, Science and Transportation, the Committee on Governmental Affairs, and the Committee on Rules and Administration so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2.

"(h)(17) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Finance, the Committee on Governmental Affairs, and the Select Committee on Intelligence may, during the Hundredth Congress, also serve

"(h)(33) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Appropriations, the Committee on Banking, Housing and Urban Affairs, the Committee on Small Business, and the Joint Economic Committee may, during the Hundredth Congress, serve as a member of the Committee on Appropriations, the Committee on Banking, Housing and Urban Affairs, the Committee on Small Business, and the Joint Economic Committee so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more

than two committees listed in paragraph 3(a) and 3(b).

"(h)(34) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Energy and Natural Resources, the Committee on Foreign Relations, the Committee on Veterans' Affairs, and the Select Committee on Intelligence may, during the Hundredth Congress, serve as a member of the Committee on Energy and Natural Resources, the Committee on Foreign Relations, the Committee on Veterans' Affairs, and the Select Committee on Intelligence so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than two committees listed in paragraph 3(a) and 3(b).

"(h)(35) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Appropriations, the Committee on Governmental Affairs, and the Committee on Small Business may, during the Hundredth Congress, serve as a member of the Committee on Appropriations, the Committee on Governmental Affairs, the Committee on Small Business, and the Committee on the Budget so long as his service as a member of each of such committees is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 3(a) and 3(b).

"(h)(36) A Senator who on the last day of the Ninety-ninth Congress was serving as a member of the Committee on Agriculture, Nutrition, and Forestry, the Committee on Armed Services, the Special Committee on Aging and the Joint Economic Committee may, during the Hundredth Congress, serve as a member of the Committee on Agriculture, Nutrition, and Forestry, the Committee on Armed Services, the Committee on Commerce, Science, and Transportation, the Special Committee on Aging, and the Joint Economic Committee so long as his service as a member of each such committee is continuous, but in no event may he serve, by reason of this subdivision, as a member of more than three committees listed in paragraph 2, and as a member of more than two committees listed in paragraph 3(a) and 3(b)."

#### MAJORITY PARTY APPOINTMENTS TO SENATE COMMITTEES FOR THE 100TH CONGRESS

Mr. BYRD. Mr. President, I sent to the desk a resolution making the majority party appointments to committees and ask unanimous consent for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report.

The assistant legislative clerk read as follows:

A resolution (S. Res. 17) making majority party appointments to Senate committees for the 100th Congress.

The resolution (S. Res. 17) was agreed to, as follows:

#### S. RES. 17

*Resolved*, That the following shall constitute the majority party's membership on the standing committees for the 100th Congress, or until their successors are chosen:

Committee on Agriculture, Nutrition, and Forestry: Mr. Leahy (Chairman), Mr. Zorin-

sky, Mr. Melcher, Mr. Pryor, Mr. Boren, Mr. Heflin, Mr. Harkin, Mr. Conrad, Mr. Fowler, and Mr. Daschle.

Committee on Appropriations: Mr. Stennis (Chairman), Mr. Byrd, Mr. Proxmire, Mr. Inouye, Mr. Hollings, Mr. Chiles, Mr. Johnston, Mr. Burdick, Mr. Leahy, Mr. Sasser, Mr. DeConcini, Mr. Bumpers, Mr. Lautenberg, Mr. Harkin, Ms. Mikulski, and Mr. Reid.

Committee on Armed Services: Mr. Nunn (Chairman), Mr. Stennis, Mr. Exon, Mr. Levin, Mr. Kennedy, Mr. Bingaman, Mr. Dixon, Mr. Glenn, Mr. Gore, Mr. Wirth, and Mr. Shelby.

Committee on Commerce, Science, and Transportation: Mr. Hollings (Chairman), Mr. Inouye, Mr. Ford, Mr. Riegle, Mr. Exon, Mr. Gore, Mr. Rockefeller, Mr. Bentsen, Mr. Kerry, Mr. Breaux, and Mr. Adams.

Committee on Energy and Natural Resources: Mr. Johnston (Chairman), Mr. Bumpers, Mr. Ford, Mr. Metzenbaum, Mr. Melcher, Mr. Bradley, Mr. Bingaman, Mr. Wirth, Mr. Fowler, and Mr. Conrad.

Committee on Environment and Public Works: Mr. Burdick (Chairman), Mr. Moynihan, Mr. Mitchell, Mr. Baucus, Mr. Lautenberg, Mr. Breaux, Ms. Mikulski, Mr. Reid, and Mr. Graham.

Committee on Finance: Mr. Bentsen (Chairman), Mr. Matsunaga, Mr. Moynihan, Mr. Baucus, Mr. Boren, Mr. Bradley, Mr. Mitchell, Mr. Pryor, Mr. Riegle, Mr. Rockefeller, and Mr. Daschle.

Committee on Foreign Relations: Mr. Pell (Chairman), Mr. Biden, Mr. Sarbanes, Mr. Zorinsky, Mr. Cranston, Mr. Dodd, Mr. Kerry, Mr. Simon, Mr. Sanford, Mr. Adams, and Mr. Moynihan.

Committee on Governmental Affairs: Mr. Glenn (Chairman), Mr. Chiles, Mr. Nunn, Mr. Levin, Mr. Sasser, Mr. Pryor, Mr. Mitchell, and Mr. Bingaman.

Committee on the Judiciary: Mr. Biden (Chairman), Mr. Kennedy, Mr. Byrd, Mr. Metzenbaum, Mr. DeConcini, Mr. Leahy, Mr. Heflin, and Mr. Simon.

Committee on Labor and Human Resources: Mr. Kennedy (Chairman), Mr. Pell, Mr. Metzenbaum, Mr. Matsunaga, Mr. Dodd, Mr. Simon, Mr. Harkin, Mr. Adams, and Ms. Mikulski.

#### APPOINTMENT OF MINORITY MEMBERS TO SENATE COMMITTEES AND RANKING MEMBERS

Mr. DOLE. Mr. President, I send a resolution to the desk and ask for its immediate consideration. Let me indicate what this resolution does.

The PRESIDENT pro tempore. May we have quiet in the Chamber?

The Senator from Kansas.

Mr. DOLE. Mr. President, this is a listing of the minority members of each committee with the ranking members, with the exception of the Committees on Agriculture and Foreign Relations. There will be no ranking members selected on those committees until sometime next week.

The PRESIDENT pro tempore. Is there further discussion?

Mr. LUGAR addressed the Chair.

The PRESIDENT pro tempore. The Senator from Indiana.

Mr. LUGAR. Mr. President, may I inquire of the basis for excluding ranking members on Foreign Relations and Agriculture? I make this request because the members of the Foreign Relations Committee met this morning and seven votes were cast for me to be the ranking member of the committee. There were no votes for other members. In my judgment, clearly I am the ranking member of the committee, subject to appeal to the conference. I would appreciate the inclusion of my name as ranking member of the Foreign Relations Committee.

Mr. DOLE. Mr. President, I would like to make a point that this matter has not yet been determined by the conference. There has been a request for a conference vote by the distinguished Senator from North Carolina which involves not only the Foreign Relations Committee but, as most Senators know, it involves the ranking member on the Agriculture Committee. So until the conference has acted, I would not be able to honor that request.

Mr. LUGAR. Mr. President, may I propound a further inquiry? I presume that the ranking members of other committees are based upon the action of the Republican members of their committees. They must have met at some point and determined that those members should be the ranking members under the rules of our conference. I would simply add that in the Foreign Relations Committee the Republicans have met and seven out of nine have indicated I ought to be ranking member. In my judgment, I ought to be listed as ranking member subject to the ratification of the members of our conference.

Mr. DOLE. Mr. President, if the Senator will yield, I think rather than taking care of the problem, I would ask that the resolution be amended to show the members of the various committees and that no ranking members be designated for any committee. Then we will resolve that entire question in conference.

Mr. LEAHY. Mr. President, will the Senator yield for a question?

Mr. DOLE. I yield.

Mr. LEAHY. Mr. President, the last thing in the world the Senator from Vermont wants to do is to interfere with whatever the Members of the Republican Party would do within their own conference. But because I do have an interest in how we are going to set up the Agriculture Committee, approximately when does the distinguished Senator from Kansas think that that may be resolved?

Mr. DOLE. Soon.

[Laughter.]

Mr. LEAHY. Soon. Then we can get on to taking care of the farm questions soon. I thank the Senator.

Mr. BYRD addressed the Chair. The PRESIDENT pro tempore. The Senator from West Virginia.

Mr. BYRD. Will the distinguished Republican leader yield?

Mr. DOLE. I yield.

Mr. BYRD. Mr. President, will the distinguished Republican leader consider allowing the resolution to be considered which allows the ranking members to be appointed? Mr. CHILES wants to begin hearings tomorrow on the budget. In the final analysis, that is the one thing that keeps this Senate busy. It takes so much of the time of the committee. Would that be agreeable to the distinguished leader?

Mr. DOLE. I am advised that this resolution covers only the A committees. The Budget Committee is not in this resolution.

Mr. BYRD. Very well.

The PRESIDENT pro tempore. The clerk will report the resolution.

The legislative clerk read as follows:

A resolution (S. Res. 18) making minority appointments to the Senate committees for the 100th Congress.

The resolution (S. Res. 18) was agreed to as follows:

#### S. RES. 18

*Resolved*, That the following shall constitute the minority party's membership on the standing committees for the 100th Congress, or until their successors are chosen:

Committee on Agriculture, Nutrition, and Forestry: Mr. Helms, Mr. Dole, Mr. Lugar, Mr. Cochran, Mr. Boschwitz, Mr. McConnell, Mr. Bond, and Mr. Wilson.

Committee on Appropriations: Mr. Hatfield, Mr. Stevens, Mr. Weicker, Mr. McClure, Mr. Garn, Mr. Cochran, Mr. Kasten, Mr. D'Amato, Mr. Rudman, Mr. Specter, Mr. Domenici, Mr. Grassley, and Mr. Nickles.

Committee on Armed Services: Mr. Warner, Mr. Thurmond, Mr. Humphrey, Mr. Cohen, Mr. Quayle, Mr. Wilson, Mr. Gramm, Mr. Symms, and Mr. McCain.

Committee on Banking, Housing, and Urban Affairs: Mr. Garn, Mr. Heinz, Mr. Armstrong, Mr. D'Amato, Mr. Hecht, Mr. Gramm, Mr. Bond, and Mr. Chafee.

Committee on Commerce, Science, and Transportation: Mr. Danforth, Mr. Packwood, Mrs. Kassebaum, Mr. Pressler, Mr. Stevens, Mr. Kasten, Mr. Tribble, Mr. Wilson, and Mr. McCain.

Committee on Energy and Natural Resources: Mr. McClure, Mr. Hatfield, Mr. Weicker, Mr. Domenici, Mr. Wallop, Mr. Murkowski, Mr. Nickles, Mr. Hecht, and Mr. Evans.

Committee on Environment and Public Works: Mr. Stafford, Mr. Chafee, Mr. Simpson, Mr. Symms, Mr. Durenberger, Mr. Warner, and Mr. Pressler.

Committee on Finance: Mr. Packwood, Mr. Dole, Mr. Roth, Mr. Danforth, Mr. Chafee, Mr. Heinz, Mr. Wallop, Mr. Durenberger, and Mr. Armstrong.

Committee on Foreign Relations: Mr. Lugar, Mr. Helms, Mrs. Kassebaum, Mr. Boschwitz, Mr. Pressler, Mr. Murkowski, Mr. Tribble, Mr. Evans, and McConnell.

Committee on Governmental Affairs: Mr.

Roth, Mr. Stevens, Mr. Cohen, Mr. Rudman, Mr. Heinz, and Mr. Durenberger.

Committee on the Judiciary: Mr. Thurmond, Mr. Hatch, Mr. Simpson, Mr. Grassley, Mr. Specter, and Mr. Humphrey.

Committee on Labor and Human Resources: Mr. Hatch, Mr. Stafford, Mr. Quayle, Mr. Thurmond, Mr. Weicker, Mr. Cochran, and Mr. Humphrey.

Mr. BYRD addressed the Chair.

The PRESIDENT pro tempore. The distinguished Senator from West Virginia.

#### MAJORITY PARTY APPOINTMENTS TO SENATE COMMITTEES UNDER PARAGRAPHS 3 (A), (B), AND (C) OF RULE XXV

Mr. BYRD. Mr. President, I send to the desk a resolution making majority party appointments to Senate committees under paragraphs 3 (a), (b), and (c) of rule XXV and ask unanimous consent for its immediate consideration.

The PRESIDENT pro tempore. The clerk will report.

The assistant legislative clerk read as follows:

A resolution (S. Res. 19) making majority party appointments to Senate committees under paragraphs 3 (a), (b), and (c) of Rule XXV.

Mr. CHAFEE. Mr. President, could we hear what that is all about? Are those the so-called B committees?

Mr. DOLE. Yes.

Mr. BYRD. Yes, Mr. President, I answer the Senator's question in the affirmative.

The resolution (S. Res. 19) was agreed to, as follows:

#### S. RES. 19

*Resolved*, That the following shall constitute the majority party's membership on the committees named in paragraph 3(a), (b), and (c) of Rule XXV for the 100th Congress, or until their successors are appointed:

Committee on the Budget: Mr. Chiles (Chairman), Mr. Hollings, Mr. Johnston, Mr. Sasser, Mr. Riegle, Mr. Exon, Mr. Lautenberg, Mr. Simon, Mr. Sanford, Mr. Wirth, Mr. Fowler, Mr. Conrad, and Mr. Dodd.

Committee on Rules and Administration: Mr. Ford (Chairman), Mr. Pell, Mr. Byrd, Mr. Inouye, Mr. DeConcini, Mr. Gore, Mr. Moynihan, Mr. Dodd, and Mr. Adams.

Committee on Small Business: Mr. Bumpers (Chairman), Mr. Nunn, Mr. Sasser, Mr. Baucus, Mr. Levin, Mr. Dixon, Mr. Boren, Mr. Harkin, Mr. Kerry, and Ms. Mikulski.

Committee on Veterans' Affairs: Mr. Cranston (Chairman), Mr. Matsunaga, Mr. DeConcini, Mr. Mitchell, Mr. Rockefeller, and Mr. Graham.

Select Committee on Ethics: Mr. Heflin (Chairman), Mr. Pryor, and Mr. Sanford.

Select Committee on Indian Affairs: Mr. Inouye (Chairman), Mr. Melcher, Mr. DeConcini, Mr. Burdick, and Mr. Daschle.

Special Committee on Aging: Mr. Melcher (Chairman), Mr. Glenn, Mr. Chiles, Mr. Pryor, Mr. Bradley, Mr. Burdick, Mr. Johnston, Mr. Breaux, Mr. Shelby, and Mr. Reid.

Mr. DOLE addressed the Chair.

The PRESIDENT pro tempore. The Senator from Kansas.

#### MINORITY PARTY APPOINTMENTS TO SENATE COMMITTEES FOR THE 100TH CONGRESS AND DESIGNATING RANKING MEMBERS OF THOSE COMMITTEES

Mr. DOLE. Mr. President, I send a resolution to the desk and ask for its immediate consideration. These are the B committee appointments.

The PRESIDENT pro tempore. The clerk will report the resolution.

The legislative clerk read as follows:

A resolution (S. Res. 20) making minority party appointments to Senate committees for the 100th Congress and designating ranking members of those committees.

The resolution (S. Res. 20) was agreed to, as follows:

#### S. RES. 20

*Resolved*, That the following shall constitute the minority party's membership on those Senate committees listed below for the 100th Congress, or until their successors are appointed:

Budget: Mr. Domenici (ranking member), Mr. Armstrong, Mrs. Kassebaum, Mr. Boschwitz, Mr. Symms, Mr. Grassley, Mr. Kasten, Mr. Quayle, Mr. Danforth, Mr. Nickles, and Mr. Rudman.

Rules and Administration: Mr. Stevens (ranking member), Mr. Hatfield, Mr. McClure, Mr. Helms, Mr. Warner, Mr. Dole, and Mr. Garn.

Small Business: Mr. Weicker (ranking member), Mr. Boschwitz, Mr. Rudman, Mr. D'Amato, Mr. Kasten, Mr. Pressler, Mr. Wallop, and Mr. Bond.

Veterans Affairs: Mr. Murkowski (ranking member), Mr. Simpson, Mr. Thurmond, Mr. Stafford, and Mr. Specter.

Select Committee on Ethics: Mr. Rudman (ranking member), Mr. Helms, and Mrs. Kassebaum.

Special Committee on Aging: Mr. Heinz (ranking member), Mr. Cohen, Mr. Pressler, Mr. Grassley, Mr. Wilson, Mr. Domenici, Mr. Chafee, Mr. Durenberger, and Mr. Simpson.

Select Committee on Indian Affairs: Mr. Evans (ranking member), Mr. Murkowski, and Mr. McCain.

#### EXPRESSING THE SENATE'S GRATITUDE FOR THE PRESIDENT'S EXCELLENT HEALTH AND BEST WISHES FOR HIS SPEEDY RECOVERY

Mr. BYRD. Mr. President, I ask unanimous consent to proceed for 2 minutes.

The PRESIDENT pro tempore. Without objection, the Senator from West Virginia is recognized.

Mr. BYRD. Mr. President, I am going to send a resolution to the desk on behalf of Mr. DOLE and myself. I ask unanimous consent that the reso-

lution be read in full and that Senators who may wish to insert into the RECORD today statements in support of the resolution may have until the close of business today or until 6 o'clock today, whichever is the later time, to do so.

Mr. WILSON. Mr. President, will the majority leader yield for a question? I did not quite hear the distinguished leader.

Will the desk be open until 6 o'clock also for the introduction of bills?

Mr. BYRD. Mr. President, my request only had to do with the resolution at the desk. I also ask unanimous consent that Senators may have the right to have their names added as cosponsors until 6 o'clock tonight.

May I say to the Senator, there will be a time later today when Senators may make statements for the RECORD.

The PRESIDENT pro tempore. The clerk will report the resolution.

The legislative clerk read as follows:

A resolution (S. Res. 21) expressing the Senate's gratitude for the President's excellent health and best wishes for his speedy recovery.

#### S. Res. 21

Whereas President Ronald Reagan underwent an operation to correct a painful prostate condition at the National Naval Medical Center in Bethesda, Maryland yesterday as well as the removal of four small intestinal growths found during a routine colonoscopic examination;

Whereas all medical reports available at this moment indicate that the President is in excellent health and unfailing good humor; and

Whereas the President has alleviated our concerns and relieved the anxieties of our whole nation by his openness and candor with respect to the medical procedures to be performed and the results following the completion of the medical procedures; Now, therefore, be it

Resolved, That the United States Senate expresses its heartfelt thanks for the continued excellent health of our President and our best wishes for his continued excellent health in the years to come.

#### SENATE RESOLUTION: SPEEDY RECOVERY FOR THE PRESIDENT

Mr. DOLE. Mr. President, today, President Reagan is reported in "excellent spirits" following his successful surgery at Bethesda Naval Hospital on Monday. Now, I understand it was a so-called "routine operation," but we all know that any trip to the operating room has its share of risks. Therefore, we were pleased to hear the good news from the President's doctors—that the operation "went smoothly" and that there was "nothing out of the ordinary."

So while the President is recovering—and while more tests are in order during his stay at the Navy Hospital—I am pleased to join Senator BYRD in wishing the President a speedy recovery.

The PRESIDENT pro tempore. The resolution is well spelled out and well

said. The question is on agreeing to the resolution.

The resolution (S. Res. 21) was agreed to.

#### COMMENDING COMMUNITY OF CHASE, MD, FOR ITS ASSISTANCE IN AMTRAK TRAIN ACCIDENT

Mr. BYRD. Mr. President, I ask unanimous consent to proceed for not more than 1 minute on a resolution which I am about to submit on behalf of myself and Mr. DOLE.

The PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. BYRD. Mr. President, this past Sunday there occurred a tragic Amtrak train accident in Chase, MD, resulting in the deaths of 15 passengers and injuries to at least 170 others. On that day, the people of Chase, MD, reacted immediately in providing aid and comfort to the survivors and rescue workers. It is because of their exemplary actions that I send the following resolutions to the desk and ask for its immediate consideration.

Mr. SARBANES. Mr. President, on Sunday, January 4, a terrible tragedy occurred when Amtrak train No. 94 crashed in Baltimore County, killing 15 passengers and seriously injuring more than 170 others. I am sure my colleagues share my shock and sadness at this catastrophe. The accident—Maryland's worst rail disaster—has caused much grief and suffering, and I extend to the families and friends of those killed my deepest sympathy.

The accident demonstrated anew that catastrophic events often call forth the finest in human qualities. I refer to the courageous and compassionate response of many individuals and organizations to this tragic event. I would especially like to commend the residents of the Harewood Park community, who were among the first to arrive on the scene of the accident to rescue victims. The people of Harewood Park not only helped passengers escape from the train, but also brought them into their homes to keep warm, to await medical help and to use telephones. Their actions in bringing aid and comfort to the train wreck victims were absolutely selfless and an example for all of us. On a day of disaster, the swift and heroic response of the residents of the Harewood Park community provided hope to the survivors of the disaster and brought each of us some solace.

In addition, emergency rescue squads from throughout Baltimore and Harford Counties responded quickly and ably to this sudden crisis in their community. Baltimore County used its disaster assistance plan and had 44 fire and rescue squads and ambulances on the scene. Fire department rescue personnel and paramedics were joined by special teams of sur-

geons, nurses, and support personnel from the Shock-Trauma Unit at the University of Maryland Hospital.

Within a short time after the accident, the Red Cross in Baltimore opened its offices on North Charles Street to receive blood donations. Over 1,000 Marylanders answered the emergency calls to donate blood on Sunday afternoon—a magnificent spontaneous response.

We in Maryland are proud and grateful to have people with such fine qualities in our society and we salute today all those who assisted in the rescue operation and opened their homes to the injured.

I ask unanimous consent to have printed in the RECORD editorials and articles relating to this tragedy.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Baltimore (MD) Sun, Jan. 6, 1987]

#### DISASTER ON MARYLAND RAILS

The sympathy of Marylanders goes out to the victims and families of victims in the train disaster near Chase. Normally, the 100-mph gliding of the passenger train out over the Bird River, as though on the water itself, is one of the scenic pleasures of railroading. Seconds before that illusion would greet riders on the Colonial from Washington for Boston, Sunday, terror and horror struck.

Accidents are statistically fated to occur, to be sure, but in modern railway operations they are less acceptable than in other modes of transport. The National Transportation Safety Board investigation must focus on several aspects of a national disaster that undercut confidence in train travel where it is essential, and disrupted transportation on the Eastern Seaboard for days.

One aspect is the performance of the double signal system, automated and human, which failed to stop the Conrail locomotives from lumbering into the path of the Amtrak passenger train. Another is the performance of the engineers of both trains. A third is the adequacy of the control system, among the most modern in America. And lastly is the mingling of high-speed and slow freight trains on the same tracks. Amtrak's safety record over 15 years has been extremely good. Something, or things, went wrong on Sunday. It would be reckless to guess prematurely at what.

A different field of scrutiny must be the emergency rescue effort. The first reaction is reassurance and pride in how well it worked. The Baltimore County Fire Department, which was in charge, and the state emergency medical system organized the care of victims with great efficiency. The police forces and hospitals coped extremely well. A caveat is that most of the 176 or more patients going to hospital emergency rooms were not severely injured. This was not the largest-scale medical emergency the Baltimore region might face, only the largest recently.

The tremendous outpouring of help by residents of the little community along the tracks is evidence of the goodness of the human spirit. Indeed, the location, with good people and good road access on both sides, was a blessing. A few hundred yards north, and some cars would have hurtled

into the water, with those remaining on the causeway all but inaccessible to rescue.

The tremendous turnout of blood donors in Washington and Baltimore was another show of people refusing to remain uninvolved. If any improvement to the procedures can be suggested this early, it would be that the Red Cross might profitably have moved mobile blood donation units to hospitals where donors had to be turned away.

Lives of many people have been disrupted, of some shattered, and of at least 15 ended. This was the result of a mistake or mistakes that are not tolerable—not even once. But when disaster did strike without warning in eastern Baltimore county, the community and the state emergency medical system were up to it.

[From the Baltimore (MD) Evening Sun,  
Jan. 5, 1987]

#### 600 BLOOD DONORS JAM RED CROSS HQ (By Joan Jacobson)

Five hours after the train wreck, the line of blood donors led outside the Red Cross headquarters on North Charles Street and around the corner into the cold night.

Red Cross officials estimated 600 people volunteered to give blood there after they heard about the catastrophic accident yesterday.

Volunteer blood donors began arriving at 4:30 p.m. Within half an hour more than 100 people filled the main room of the blood center and lined down the hall.

Dr. Deborah Douglas, medical director for blood service, said she received a call about the wreck and immediately mobilized Red Cross staff to the regional center, which is usually closed on Sunday afternoons.

Many donors were already waiting at the door when staff members arrived, she said.

By early evening the entire Red Cross staff—including 25 to 30 nurses and 25 volunteers—were at work interviewing donors and taking blood, said Trish Beggarly, a staff nurse who drove in from her home in Bel Air.

Nurses wore street clothes, not having had time to change into their white uniforms. They rushed through the mob of waiting donors, equipping beds with supplies.

Douglas, who has directed the blood service for more than two years, said she had never before seen so many people willing to give blood to meet an emergency.

"It was almost like a party atmosphere," she said. Blood donors refused to leave, even when they were advised to go home because they would have to wait several hours. Many people waited three to four hours before giving blood, said Douglas.

One nurse collected a rubber band from each patient she drew blood from. "She had a bracelet of rubber bands three inches thick," Douglas said.

Many donors dropped what they were doing and went straight to the center.

City police officer Andrea Simmons came from her shift at Northeastern District, still in her police uniform.

She had heard about the wreck while at work, she said. When she arrived home, "I walked in the house and the TV was on and they said the Red Cross needed type O blood." She turned around and drove to the Red Cross.

Debra and Brian Birner of Dundalk drove to the Red Cross with their two small children after seeing ambulances and fire engines drive out of Middle River, where they were eating dinner. When they later realized the ambulances had driven to the

wreck, they drove into Baltimore because Debra has type O blood, which was needed.

Douglas said the treatment of injured people will probably deplete Red Cross inventory of blood. Therefore, she said, increased blood donations will be needed for several days.

"Trauma victims can continue to need blood" after the initial accident, she said.

At Franklin Square Hospital in eastern Baltimore County, a hospital spokesman said 1,000 phone calls were taken from people interested in giving blood.

About 100 to 150 actually gave blood by early evening.

The Greater Baltimore Medical Center will accept blood donors by appointment this week. Donors are asked to call 828-GBMC and ask for the blood bank.

[From the Washington Post, Jan. 6, 1987]

#### LOCAL RESIDENTS OPENED HOMES, HEARTS: SOME CLIMBED INTO WRECKAGE; OTHERS PLAYED PIANO AND MADE SANDWICHES

(By Eugene L. Meyer and Lisa Leff)

WEST TWIN RIVERS, MD., Jan. 5.—Amtrak train riders, traveling at speeds up to 100 miles an hour, get only a fleeting glimpse of this tiny waterfront community near the Gunpowder River on their way north and south.

To the residents, the trains whizzing by day and night form a constant backdrop. Only a metal fence separates the blue-collar community from the tracks.

But in the wake of the train disaster here Sunday, neighbors scaled that barrier to help rescue injured riders. Then, the people of this tiny working-class enclave generously opened their homes and their modest red cinder block community center to scores of dazed and distraught survivors.

Cousins Michael Cooper and Robert Booker climbed the fence and dashed into a burning Amtrak car to help people out. Cooper, 17, rescued a baby who survived. But Booker, 19, watched helplessly as a train traveler died in his arms.

"First, I saw a pair of legs sticking out. I managed to pull some seats out from around him," Booker said. He said he gave the screaming man his shirt to put over his mouth. As he held him, Booker said, the man died.

"I carried a little baby out. It went limp in my arms," said Cooper. "I thought it was dead, but they told me it was okay."

Eleven-year-old Laura Higgins invited passenger Jane Whitney of Philadelphia to use the family phone. "I thought, 'What would I do if I'd been in a train accident?'" the youngster said. "I thought I'd need to use the phone to call my mother." Later, she played a piano to entertain nine survivors who filled her family's small blue cottage two blocks from the wreck site.

"The trains are an integral part of the community," said her mother, Louise Higgins, 39. "The kids play 'What color is the caboose?' and count the number of freight trains." The Higginses even have a pet hermit crab they call "Amtrak."

This Baltimore County subdivision of 85 homes sits at the northern tip of a peninsula where the Bird and Gunpowder rivers meet. It was founded in the 1920s as a working-class summer resort community. During World War II, cottages were winterized for families who came here from Pennsylvania and Virginia to work in the war production plants. When water and sewer service arrived 15 years ago, ramblers and split-levels sprang up.

For years, only one telephone line linked the community to the outside, and even now only one road leads out. Years ago, there was a grocery, later turned into a tavern. Today, there is just one store, in the neighboring community of Harewood Park, and the local elementary school is inconveniently located across the train tracks. There is no grade crossing.

"It's one way in and one way out," said Larry Higgins, Louise's husband and a Coast Guard welder. "It's a small, cut-off community that's quiet. Everybody knows everybody. It's like a family."

Residents are avid boaters, swimmers and crabbers. Last summer, the community chipped in to build a boat launching ramp. Neighbors have back yard beer and crab feasts and picnics and parties at the community center.

And seemingly always, there have been the trains.

"I can remember the steam engines," said Frank Melka, 62, who retired from South Marietta, the aircraft plant six miles south of town where many residents work. "Your house shook with those steam engines going by." He reminisced near the crash scene today with longtime neighbors Helen Eurice and Carroll Clarke.

Eurice, 66, who moved here from Baltimore when she married in the 1930s, recalled windowsills "full of black cinders all the time from the steam engines."

Said Melka, "We used to visit the man who worked the track [switch] from a tower. There was no accident when he was here." Clarke, 66, said, "The switch was manually operated then. It's computer operated now."

Outside the railroad fence, Barbara and James Borror welcomed 30 survivors into their home. They gave them clothes and let them use their phone to make calls to Australia and to Trinidad and Tobago. They cooked hot dogs and hamburgers to feed the survivors and rescue workers.

"Word got around from neighbor to neighbor," said Eurice, who went to work at the community building. "People just accumulated there. They gathered whatever they had in their refrigerators and just showed up."

The PRESIDENT pro tempore. The clerk will report the resolution.

The assistant legislative clerk read as follows:

#### S. RES. 22

A resolution (S. Res. 22) commending the community of Chase, Maryland for its assistance to the rescue workers and the survivors of the Amtrak train accident of January 4, 1987.

Whereas a tragic Amtrak train accident occurred in Chase, Maryland, on Sunday, January 4, 1987;

Whereas the impact at nearly 100 miles per hour of the passenger train and a Conrail freight train resulted in the deaths of 15 passengers and injuries to at least 170 others;

Whereas the people of Chase, Maryland, without hesitation mobilized to provide aid and comfort to the injured;

Whereas residents scaled the fence separating them from the railroad tracks and assisted passengers in their escape from the burning wreckage;

Whereas other residents opened their homes to the survivors, providing clothes and allowing phone calls to concerned rela-

tives in such far away places as Australia, Trinidad and Tobago;

Whereas the local community building was immediately transformed into a center providing food and shelter to the passengers and rescue workers; Now, therefore, be it

*Resolved:* That the United States Senate hereby commends the community of Chase, Maryland, for its spontaneous outpouring of assistance to the rescue workers and the passengers of the ill-fated Amtrak train.

The PRESIDENT pro tempore. If there is no further discussion, the question is on agreeing to the resolution.

The resolution with its preamble, was agreed to.

Mr. BYRD. Mr. President, I have been asked by Senators SARBANES and MIKULSKI to have their names added to the resolution, and I make that request.

The PRESIDENT pro tempore. Without objection, it is so ordered.

#### ORDER OF PROCEDURE

Mr. BYRD. Mr. President, I ask unanimous consent now that the two leaders may proceed for up to 10 minutes each, with statements only.

The PRESIDENT pro tempore. Without objection, it is so ordered.

The Chair now recognizes the two leaders, to proceed for 10 minutes each.

The Senate will be in order.

The Senator from West Virginia.

Mr. BYRD. Mr. President, I hope this time is not coming out of my 10 minutes or that of the distinguished minority leader.

The PRESIDENT pro tempore. The Chair cannot charge the 10 minutes until order is restored, at least to the extent that the speaker can be heard. We are waiting on the Senators who are making the noise, and when we proceed, we will charge the time to the speaker.

The Senator from West Virginia has 10 minutes.

Mr. BYRD. I thank the Presiding Officer.

Mr. President, for the information of all Senators, once the two leaders have made their statements, it will be my intention then to attempt to proceed to get Senate action on the bill that cleans up the Nation's waters and to get action on the resolution that creates a select committee to investigate the Iran-Contra matter. So Senators will be on notice.

Also, there will be at least one roll-call vote, if we can get to it, on the adoption of the select committee resolution.

#### THE NATION'S BUSINESS

Mr. BYRD. Mr. President, we begin today the process of doing the Nation's business. This is the 100th Congress of the United States, a historic Congress. It is a Congress that by its

meeting here today vindicates and affirms the faith of our Founding Fathers that their great experiment in democracy would endure.

We begin the business of the Nation in an uncertain and unsettled time. The Iran misadventure has hurt the Presidency, made a shambles of American foreign policy, and called into question just how our foreign policy is formulated and implemented. More important, the American people are once again asking the question, what is going on in Washington? The current crisis is a crisis of trust. It is a testimony to the profound truth that if you do not trust the American people, then the American people will not trust you.

So our first duty in this new Congress is the restoration of public trust in the formulation of American foreign policy. It is clear that all parties—the President, the Congress, and the American people—want to know how the United States came to be in the position of selling arms to the terrorist nation of Iran and funneling those profits to the Contras in Nicaragua.

It is for that purpose that I am introducing with the Republican leader, Mr. DOLE, legislation to create a bipartisan Senate select committee to investigate all that has happened. The charge of the Senate select committee is to discover the facts, to ascertain if any laws have been broken, and to present its findings in such a way that there will be no lingering doubts in the minds of the American people. That is the charge.

I have every faith that the chairman of the committee, my distinguished colleague, Senator INOUYE, and his distinguished vice-chairman, Mr. RUDMAN, will conduct this investigation in a statesmanlike and bipartisan fashion—at such time as the resolution creating the committee is adopted—keeping in mind that one of the primary goals of this investigation is the restoration of the people's trust in the functioning of their Government; and trust in Government by the people is essential as we begin the 100th Congress.

Clearly, something happened on election day last November. The American people voted for change. And, change they will have. The time of business as usual is over. I believe we Democrats were placed back in the leadership of this Chamber for a very specific reason: To begin the task of fitting political actions and rhetoric to the reality of the world in which we live. The voters are telling us that they want to see a more moderate approach to domestic and foreign policy. They have demonstrated their faith in the importance of checks and balances.

And it is well to remember, as we begin this new Congress, that the tension between the executive branch and

the legislative branch of our Government is a legitimate tension; a healthy and creative tension inherent in our democratic process. The Congress is a coequal branch of the Government. Coequal. We are not above the Presidency. We are not below the Presidency. We are the people's voice in a representative democracy.

It is my fervent hope that the White House will see the constitutional process of checks and balances as a healthy, positive process in restoring trust in our Government and in defining America's future. The Congress has the ability to help the President restore credibility to America's foreign policy, if only he will reach out to us. So we extend our hand.

It is my belief, that if the President reaches out to the Congress in strengthening America's arms control negotiating position; if he involves the Congress much more than has been shown up to now, he will then send a message to the Soviet Union that this current crisis will not divide America. We are united behind the President at the negotiating table and support his efforts for a fair and verifiable agreement.

All Americans want a strong America, a secure America, an America that can go to the negotiating table from a position of strength and unity. It is my intention to introduce legislation today, important legislation, to reauthorize the Senate arms control observer group. And, it is my intention, once the Committee on Foreign Relations has completed its work, to bring up for ratification two treaties governing nuclear testing. We must show our commitment to the arms control process. The Congress stands ready to work with the President.

Mr. President, our Nation's strength depends not only on military might, but also, to a large extent, on our ability to manage the Nation's economic affairs. They have not been managed well. Everyone is to blame: The President for sending the Congress budgets that are based on the economic principle of borrow, credit, and debt; the Congress for not resisting the temptation to put off till next year what it should have done last year.

So we are once again, as every Congress has been in the last 5 years, faced with the dilemma of how we deal with the Federal deficit. We have a limited set of options. It is clear that America no longer has any free spins on the wheel of fortune.

Yesterday, the President's Budget Office sent the Congress a budget that for the first time exceeds \$1 trillion—a budget with a budget deficit that will be even greater than the official \$107.8 billion. It has taken this administration just 5 years to add over \$1 trillion to the national debt. If 5 months from now we are united on

how we address the deficit, and we have the President on board, we will have made substantial progress. The process of moving the Federal deficit downward is, as we all know, a political process.

As Democrats, we are committed to keeping the budget deficit on a downward glide path. But like the *Voyager*, the experimental plane that flew around the world nonstop, we need two pilots—the Congress and the White House—working together in very cramped quarters. How we keep the deficit gliding down will depend to a large extent on the President's willingness to take the deficit problem out of the shadows of political rhetoric. The American people want the problem solved. They are tired of finger pointing. They want solutions.

I say this with special reference to the young people of America. Year in and year out we have been mortgaging their future by our unwillingness to pay our way. These young people are, as a recent Joint Economic Committee report indicated, heavily in debt from college loans as they begin their productive lives. On top of those debts, which they have assumed to become educated citizens, we are saddling them with an ever increasing national debt. This is wrong and well we know it.

When the day of reckoning comes, and surely it will come if we do not act now, surely these young people will have something to say to us about what we have done to their future. And, what will we say in reply? So I urge the President to work closely with the Congress to address this national problem.

A third great concern of the Congress in the months ahead must be America's continuing trade deficit. Currently, the United States has the dubious distinction of being the world's greatest debtor nation. America's trade imbalance is one of the principal causes.

Just 6 years ago, in 1981, the United States enjoyed a \$13 billion surplus in its overall trade in goods and services. At that point, we were still strengthening our position as the world's largest creditor. Last year, we ran a deficit in goods and services exceeding \$120 billion, which we financed by borrowing heavily from abroad.

Six years ago, we were the world's greatest exporting nation by far. We no longer lead in the race for world export markets. Both Germany and Japan now export more than the United States under current exchange rates.

In the month of November alone, the United States had a \$19.2 billion trade deficit. We compiled a larger trade deficit in a single month than any other country in history has ever run in a year's time.

In addition, continued high interest rates have attracted billions of dollars in foreign investments. Last year alone, the United States borrowed \$140 billion from foreign lenders and investors. It is this money and our willingness to go further into debt that has accounted for America's continued economic growth. Missing from current efforts to improve America's economic position is the understanding that we must compete in an interdependent global economy.

My distinguished colleague Senator BRADLEY of New Jersey has rightly stated that "competitiveness" is a "mush" word, a word that means everything and anything depending on who uses it. Clearly he is right for the moment. But the trade deficit numbers are not mush.

They are hard evidence that we are exporting our Nation's jobs and eroding our manufacturing base; we are not exporting the Nation's products.

We must restore balance to our trade account and stop borrowing so heavily from abroad. The trade deficit is only a critical symptom of our economic distress in the international arena. The real problem goes deeper.

As the U.S. economy has become intertwined with the economies of the rest of the world over the last two decades, we have not prepared America to excel in the new world marketplace. So as we proceed during this Congress, we must review not only our trade laws, but also our education and training policies, our science and technology policies and other economic policies from a different vantage point. We must look at creative new ways to make our products more appealing abroad and to open new markets for our exports. We must look at new ways to stop the erosion of our manufacturing and of our basic industries. Only then can we be sure of our national security.

This Congress, the 100th Congress of the United States, will send the President a trade bill.

We will send several pieces of legislation perhaps dealing with comprehensive subjects. Perhaps we ought to think in terms of broadening the debate. We will also be sending other legislation designed to treat the causes, not the symptoms, of our disastrous trade deficit and to promote American products abroad.

Mr. President, there are a great many other issues that confront this Congress. One of the most pressing is the need to reform how we finance our elections.

My distinguished colleague, Mr. BOREN, has worked diligently to keep this important subject before the Senate. Campaign finance reform must be high on our agenda.

Campaign finance reform will be one of my personal priorities. We cannot turn our democracy over to an aristoc-

racy of money. Yet, year by year, we are insidiously chopping away at the very foundation of our democracy; namely, the ability of any citizen to enter the political arena regardless of his or her own economic status or ability to raise money.

Without campaign finance reform we will continue to subject our democratic process to control by the special interests and, more often, to the appearance of improper influence. So it is my hope and my intention that the Senate will move quickly to take up this important piece of business in the early months of the new Congress. As we convene the 100th Congress and celebrate the bicentennial of our Constitution, I believe that this and other steps aimed at restoring confidence in government are especially fitting.

Mr. President, there are a great many issues that will come before this Congress in the months ahead. I have touched on several of these in my opening remarks—our relationship with the President, the need to move forward on arms control, the deficit, the creation of a coherent trade policy, and the great necessity to reform how we finance our elections.

Other issues are also of great importance—repassage of the Clean Water Act, help for the American farmer, the development of a national policy regarding catastrophic illnesses, reauthorization of Federal education programs—and the need for this Congress to look searchingly at the whole question of what tools are used by America in furthering our broad foreign policy objectives.

America must meet the world on the terms that are offered. Terrorism, totalitarianism of the right and the left, and the abuse of human rights requires America to be prepared to use its military power. But must the military card be the only card that America is prepared to play? Or are there other ways—diplomatic and economic—that America with her allies, especially those in Latin America, can achieve our objectives. In months ahead this Congress will surely explore these questions.

Mr. President, this Congress, the 100th Congress of the United States, meets at a time of profound change in our country. We have been elected to guide America in a time when a simpler past gives way to a different and more complex future.

We are crossing the bridge from one America to another. By 1992, 6 years from now, Americans born since 1940 will dominate voting in Presidential elections. The America that we have been elected to lead is fundamentally new. How we define and prepare America under these new conditions will be the measure of our success.

Our task in the immediate, as we begin this historic Congress, is to get

on with the business of the Nation with energy and initiative. Our task in the larger order: To lift up our sights and begin the process of defining America's future.

May I say in closing, Mr. President, that I consider it fortunate for me indeed to have as the distinguished leader on the other side of the aisle the illustrious son of the State of Kansas, Mr. DOLE. He has served as a majority leader in this body. He has served well, and I am confident that I will have his cooperation as we attempt together to push the program of the Senate forward and to schedule from day to day the measures that are ready for consideration. I know in the very beginning what his tasks will be, having been in that same position myself not too long ago. He will represent his party. He will represent his conscience. He will represent the Nation.

We cannot always agree. There will be times when we will disagree, but disagreeing with my colleague on the other side of the aisle or any of my colleagues is a matter that is never personal and always as I go out of the Chamber, I know that Senator DOLE will go out of the same Chamber feeling the same way. We leave the problems and the disagreements here and hopefully they will not be here on the next morning or the next day when we return for our business. Never can these matters of this kind be considered personal.

He is a great legislator. He is very wise. Indeed, I will need his cooperation.

We cannot move this legislation forward by ourselves. We need the cooperation on that side of the aisle.

I appeal to the distinguished minority leader for that cooperation. I hope that as minority leader I gave the distinguished majority leader at that time the cooperation that he needed in order to keep the business of the Senate moving forward. I pledge to him that it will be my intention to move the legislation expeditiously and to utilize the time of the Senate as best can be used and to complete the work of the Senate each day if possible, keeping in mind that the business of the people comes first and, second, that there is such a thing as quality of life. I want to be conscious of every Senator here, of the quality of life of every Senator on both sides of the aisle, the families of Senators, the loved ones of Senators, the health of Senators. I want to be mindful of all these things.

I want to move the business of the Senate forward, and I hope that we can avoid night sessions. I hope we will never have another one, but of course we will. But I hope that we can make those night sessions come as seldom as is possible and I hope that in the final analysis we can do our jobs well and

complete the work of this first session of the 100th Congress and adjourn sine die at a reasonable time during the latter part of the year, hopefully no later than the first of October.

So having said that, I yield the floor to my very distinguished colleague.

The PRESIDENT pro tempore. The Senator from Kansas is recognized for 10 minutes.

Mr. DOLE. Mr. President, I thank the distinguished Presiding Officer and I want to extend my congratulations to this outstanding Senator from the great State of Mississippi. It is an honor to serve in this body with Senator STENNIS for all of us, and I know the new Members will find that to be true in a very short time.

Mr. President, it is a new year and a new Congress, and yes, a new and different Senate. As we open the historic 100th Congress, let me welcome all of my new colleagues, Republicans and Democrats, to this great institution.

I want especially to congratulate the distinguished majority leader, Senator BYRD, who is once again the leader of this body. He has been a tireless and effective leader for his party. Our titles may have changed, as he just indicated, but we still have an obligation to cooperate and try to work together. I would say as far as improving the quality of life of this body, I stand prepared to do all I can to make that happen.

I recall the last year we had a meeting—maybe we can have another one this year, depending on the distinguished majority leader—where we had 70 Senators come to the meeting and talk about the quality of life, and I recall in that meeting the statement by the distinguished Presiding Officer, the distinguished Senator from Mississippi, Senator STENNIS, that the leaders were powerless, that the Members in effect dictated what the leaders could and could not do; and he was absolutely correct.

I know one of the greatest frustrations I had, not so great that I wanted to lose it, one of the greatest frustrations I had as a majority leader was trying to accommodate every Senator and still get the work done because we were told, "We cannot vote on Monday," "I have to leave early on Friday," "I don't want to be here on Tuesday," "I would like to leave here Wednesday, but I will be here all day Thursday." That is 1 day. And then you have that 100 times or maybe 98 times. The leaders are generally here. So it does give us an opportunity. I cannot think of a better thing to happen in the 100th Congress than do precisely what the majority leader indicates he wants to do, to stop the all-night sessions. They may be necessary from time to time. I always thought they were necessary on the tax bill so that the staff finally went to sleep,

the amendments would stop, and would complete the bill.

But it is a very difficult process, and I want to congratulate the Democrats. They have won the election. They are in the majority, and I congratulate them.

I believe that over the last 6 years, first with the leadership of the distinguished Senator from Tennessee, Senator Howard Baker, and hopefully the past 2 of those 6 years of my leadership and the leadership of other Republicans, we have been able to demonstrate to the American people our willingness to make hard choices. We did not achieve everything we wanted. Sometimes we had our disagreements with the other side; sometimes not.

More often we were able to work it out because again, as the distinguished majority leader has said, 55 to 45 is a majority, but you still need the cooperation of some of the 45.

And we are going to try to provide it—we are going to try to demonstrate it on this first day if we can, to get up a select committee resolution, work it out, pass it, and there will be a rollcall vote; to try to work out some accommodation, if we can, on the clean water bill, to protect the rights of those who have a different view, including the administration and the distinguished majority leader and others on both sides who want to pass the identical legislation we passed last year. So I just suggest that we have an opportunity.

And, again, I know that our distinguished President pro tempore will continue in the fine tradition we have had under his long-time friend and my long-time friend, the distinguished senior Senator from South Carolina, Senator THURMOND, who so ably occupied that office and carried out the responsibilities very well.

I must admit it is going to take a few days to adjust. I found myself this morning wanting to jump up and get order and do all those things leaders do. So, I hope that the distinguished Senator from West Virginia will be patient. We will not adjourn the Senate or anything like that—it might not be a bad idea from time to time, but we will not do that.

As I said to the Senator from West Virginia when I became the leader, there would be no surprises—and I hope I kept my word—I would not come to the Floor in his absence or doing something that would somehow frustrate the efforts of the minority or majority. And that is the kind of working relationship that we will continue to have.

So we will adapt to our new status on this side. We have had our first conference this morning. We had a number of statements by a number of my colleagues, Republicans, and we hope this is only a temporary position

we find ourselves in, but that will be determined at a later time.

But now as the majority leader has indicated, we have other responsibilities, and I think we can carry them out. Notwithstanding the executive branch, we have our own responsibilities; notwithstanding our great respect for the President of the United States, we have our responsibilities. We are the people's representatives. We are elected by the people, many of us reelected in 1986. And I would guess that we have enough business to do to occupy nearly every day of this coming year.

I believe we will be judged by the state of the economy; by our relationships with our allies and adversaries; by the quality of life our citizens enjoy; and by the advance of democracy and freedom around the globe. We will be judged as leaders by whether we were willing to make the hard choices. And sometimes the choices are very difficult. Many times we cannot satisfy everyone who may have a particular point of view. But it would seem to me that if we make the hard choices now, we may have a brighter future for Americans down the road.

Certainly the challenges facing this 100th Congress are going to test our mettle day after day after day. Whether it is the budget, whether it is the trade deficit, whether it is the health care, whether it is saving the family farm, arms control, or aid to freedom fighters, the issues are as difficult as they are critical.

With all these policy decisions facing us, the Senate, and the country for that matter, cannot afford to be consumed by the Iranian arms sales affair. And that is the purpose of the select committee, to give the leadership, the distinguished majority leader, Senator BYRD, and myself, the time to carry out our responsibilities to take care of other legislation, and, I believe, the leadership of the distinguished Senator from Hawaii, Senator INOUE, who I have known since we were back in the hospital together, back in Percy Jones Hospital, in Battle Creek, MI, 40 years ago. So we have known each other a long time. He is a man of outstanding integrity and character and will be totally fair; no doubt about it. And on the Republican side, the distinguished Senator from New Hampshire, Senator RUDMAN, again is an able lawyer and cooperates well with Members on both sides. I believe they have a balance on that select committee at the time that will serve the Nation and serve this body quite well.

But we do want to get on with the work quickly. I hope we can resolve any difference we might have today on the committee resolution.

As the Republican leader in the Senate, as a supporter of the President, and as a citizen, there is no one

more committed than I to getting all the facts out. And I would say again today we could start by releasing the report of the Intelligence Committee to let the public know. We should not be afraid to let the public know what has been declassified. It is information that ought to be in the public domain. And again I would urge somehow we might accomplish that in the next few days.

In the long run, while we are in the process of digging up the facts, we should not lose our focus and we should not lose sight of our other responsibilities. We have got all kinds of problems. And I hope that we can meet our responsibilities.

I would just say, finally, it is going to take cooperation. As I have indicated earlier, I intend to cooperate with the distinguished majority leader, and he is a distinguished majority leader. I have watched Senator BYRD over the years. I have tried to learn from Senator BYRD over the years. When it comes to the rules, I gave up. There is no one who can match Senator BYRD's knowledge of the rules. And I am not certain how it is going to work. Now that I am the minority leader, he can probably do most anything and I will never know the difference. But we will try to be alert and see what happens.

But I would just say that we ought to make a pledge today—and I am prepared to make that pledge today—while the slate is blank; I mean, there is nothing blocking us today—to write a record of achievement that we in the country can take pride in, not a partisan record, but a record.

There are problems that people demand we address and some we can address. And I think if we do that, it will be a record that we were worthy of the confidence and worthy of being U.S. Senators. And I am certainly pleased to participate in that effort and I do at this time, as I will every day that I am here to cooperate where I can with the majority leader.

We are going to have differences. There are going to be some Senators who may not agree; they may be on this side, they may be on the other side. But where we can, I am not one who likes to sit around and waste time. There are other things you can do with that time. In fact, I have just thought of a few.

#### REPUBLICAN LEADER OCCUPIES FRONT-ROW DESK

Mr. DOLE. Mr. President, as we meet in the 100th Congress, in anticipation of the Senate's bicentennial, we are more than ever mindful of the long history of this great institution. Most Senators are aware that they are Members of a continuous body that began in 1789; that they sit in this Chamber at desks once used by Henry

Clay, Daniel Webster, and John C. Calhoun; that they occupy offices in the Senate Office Building once used by Robert Taft, Harry Truman, and Everett Dirksen; and that they serve on committees which were created in the early 19th century. For my part in the Senate bicentennial, I plan to deliver a series of regular "bicentennial minutes," short statements on significant people, unusual customs, and memorable events that took place in the Senate's life on that particular day.

For instance, I am standing at a desk that traditionally is assigned to the Republican floor leader. It would be a mistake to think that Republican leaders have always sat here, but this tradition is now 50 years old. On January 5, 1937, Charles McNary of Oregon became the first Republican leader to sit at this desk. Previously, it was occupied by a senior Republican, Arthur Capper of Kansas, while Republican Leader McNary sat several seats down on the front row. By contrast, Democratic leaders had been seated front and center on their side of the aisle since 1924. Out of a sense of symmetry, and in recognition of the growing role of the floor leader, the Republican leader moved to the aisle desk at the beginning of the 75th Congress. Senator Capper took the desk at his side. Here, over the next 50 years, have sat each of the Republican floor leaders: Wallace White, Kenneth Wherry, Robert Taft, William Knowland, Everett Dirksen, Hugh Scott, Howard Baker, and myself. I am proud to stand in that company, and to continue that tradition.

The PRESIDENT pro tempore. Would the Senator from West Virginia and others indulge me for just a minute? I was going to ask the Senator from Kentucky to serve now for a time as acting President pro tempore.

Mr. BYRD. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. FORD). The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. EXON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Is there objection?

Mr. BYRD. Mr. President, I object for just a moment. I object.

The PRESIDING OFFICER. Objection is heard. The clerk will continue.

The legislative clerk resumed the call of the roll.

Mr. BYRD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

#### CLEAN WATER LEGISLATION

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BYRD. Mr. President, I apologize to the distinguished Senator from Nebraska [Mr. Exon] for objecting to the calling off of the quorum, the reason being Mr. DOLE and I are about ready to proceed with two very important pieces of business, and I would prefer that Senators wait until we get these items out of the way. There will be possibly a rollcall on at least one of them, hopefully, during the day. There will be a time later in the afternoon during which Senators may speak and introduce legislation.

Mr. President, I am about to ask unanimous consent to proceed with a consideration of what will be Senate bill No. 1, a bill to clean up the Nation's water. For the record only, the distinguished Republican leader and I have discussed this. But for the record so that the distinguished Republican leader will be protected as well as anyone else, may I say that under rule XIV, if there is an objection to the consideration of this bill today it would be my plan to adjourn today to go over until tomorrow, then adjourn tomorrow to go over to Thursday, and then adjourn Thursday to go over to Friday. In this way the bill can be forced onto the calendar through the mechanism of rule XIV.

I do not want to bring the Senate in tomorrow for that purpose. The distinguished Republican leader does not want to bring the Senate in tomorrow for that purpose. I believe, in discussing the matter with the distinguished Senator, that we will be able to work out a way whereby we will not have to come in tomorrow for the purpose of advancing the Senate bill dealing with the clean water to the General Calendar. Therefore, I yield to the distinguished Senator from Kansas, [Mr. DOLE] for his reaction.

I, at the moment, will ask unanimous consent. This is a bill which I am about to introduce which carries the same language as was included in the conference report that passed the Senate during the closing days of the 99th Congress to clean up the Nation's water, and the exact same language is included in this bill. I ask unanimous consent that the Senate proceed with the consideration of the bill which I am about to introduce.

Mr. DOLE addressed the Chair.

The PRESIDING OFFICER. The Senator from Kansas.

Mr. DOLE. Mr. President, I thank the distinguished majority leader.

What I would suggest, if it is agreeable, rather than come in and then come in again just to serve that purpose, I will have a substitute. It is, I think, a good clean water bill. It costs less money: Instead of 10 years and \$18 billion, it has a 10-year total of about \$12-plus billion. In the first couple of years the spending is pretty much the same. It will be \$400 million the first year, \$500 million the second

year, but all the environmental provisions and the regulatory provisions are pretty much identical. I am talking about the cost of projects.

If the distinguished majority leader would agree, I would not object to a unanimous-consent request to put his bill on the calendar if in fact I could make the same request to put the bill that the administration has suggested on the calendar. We would just save that much time.

Mr. BYRD. Mr. President, I thank the distinguished Republican leader. I think he has made an excellent suggestion. It will save the time of the Senate. If the Senate is able to complete action on the resolution creating a select committee on the Iran matter, then as I see it, the Senate would probably not be in tomorrow.

So I ask unanimous consent, Mr. President, that the bill which I send to the desk on behalf of Mr. BURDICK, Mr. STAFFORD, Mr. MITCHELL, and Mr. CHAFFEE, be placed on the calendar.

This is with the understanding that Mr. DOLE will have a unanimous-consent request which he will make immediately following my request if it is granted.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Kansas.

Mr. BURDICK. Will the Senator yield?

Mr. DOLE. Mr. President, I would make the same unanimous-consent request for the bill which I now send to the desk dealing with the Clean Water Act be placed on the calendar.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BYRD addressed the Chair.

The PRESIDING OFFICER. The Senator from West Virginia.

Mr. BYRD. Again, I want to thank the distinguished Republican leader for his cooperation in resolving this matter which I think is a very amicable way and evenhanded and judicious way.

#### S. 1—THE WATER QUALITY ACT OF 1987

Mr. BYRD. Mr. President, I am pleased to introduce on behalf of Senators BURDICK, STAFFORD, MITCHELL, and CHAFFEE, the Water Quality Act of 1987. This bill is identical to S. 1128, the Water Quality Act of 1986, which was approved unanimously by both the House and the Senate at the end of the 99th Congress and subsequently pocket vetoed by the President.

It is my intention that the Senate act expeditiously on this bill so that it may be returned to its rightful place—the President's desk.

I am not seeking confrontation. This is important and much needed legislation if we are to maintain this Nation's commitment to cleaning up our lakes and waterways. Swift action by the

Congress is essential to the effort, because the President's veto has created unnecessary delay and uncertainty in the administration of the Clean Water Program.

For example, this bill provides needed adjustments to statutory compliance deadlines and other requirements under current law. These adjustments are critical to industrial sources that are now technically in violation of key compliance dates because of regulatory delays encountered by the Environmental Protection Agency in issuing certain regulations.

Further delay will also have a devastating impact on municipal wastewater treatment plant construction and State and local plans to comply with mid-1988 secondary treatment requirements—\$1.2 billion, or one-half of the funds needed for the 1987 construction season, cannot be released without a new authorization and appropriation.

In my State of West Virginia, this could have the effect of denying local governments up to \$151 million in construction grants necessary to begin the work needed to meet the July 1, 1988, compliance deadline. Enforcement action could be taken against those cities failing to meet the requirement, which, in turn, could result in fines and additional costs that local governments cannot afford.

Without authorization from the Congress as provided in this legislation, several new water quality initiatives must be postponed. These include new programs to control toxic pollutants, manage nonpoint sources of pollution, and to establish new water quality plans for the Nation's estuaries.

This legislation also contains a provision that will allow for the remining of abandoned coal mine sites with pre-existing discharges. This is designed to encourage coal operators to remine these sites and improve the water quality of the area. This is of great importance to West Virginia where there are many abandoned mine lands and current Federal programs to reclaim these areas are inadequate to ensure a safe and adequate water supply.

Mr. President, this bill was approved with the support of all the Republicans and all the Democrats in the 99th Congress. This is bipartisan legislation. It is not budget-busting. It authorizes \$18 billion in aid for wastewater treatment plant construction through fiscal year 1994, with annual amounts limited to \$2.4 billion. Given the EPA's own estimate that \$109 billion is needed by the year 2000 in order for all communities to be in full compliance with existing law, this is a small price to pay. Most importantly, this legislation includes capitalization for State water pollution control revolving funds. These revolving

funds are designed to move States toward financial self-sufficiency for wastewater treatment construction.

As I said at the beginning, this legislation should not be viewed as confrontational. It is a crucial step in achieving one of our national priorities—clean water. And it is in keeping with the budget passed last year by Congress. I hope the President can see his way to join with the bipartisan majority in Congress and support this legislation.

I ask unanimous consent that I may yield to the distinguished Senator, Mr. BURDICK, who is the chief cosponsor of this measure, for a statement which I believe he is going to make, without my losing my right to the floor.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BURDICK. Mr. President, I am pleased today to join over 70 of my colleagues in introducing Senate bill 1—the Water Quality Act of 1987.

The legislation will reauthorize one of the Nation's foremost environmental statutes—the Clean Water Act. It is identical to legislation approved by Congress last year but vetoed by the President after the end of the session.

Before proceeding, I would like to take a moment to express my appreciation to Senators CHAFEE, STAFFORD, BENTSEN, and MITCHELL for their tireless and excellent work on this legislation over the past 2 years.

Senator CHAFEE deserves special recognition as the architect of this vital legislation. The high quality of the legislation is largely due to his efforts.

Senator CHAFEE, along with other interested members of the Environment and Public Works Committee, developed this legislation in hearings early in 1985, brought it to the Senate floor in June of that year, and conducted a successful conference with the House in the summer of 1986.

The efforts of these Senators were so successful, that the final conference report was approved unanimously by both the House and Senate.

Unfortunately, President Reagan chose to veto the legislation.

I believe that the President missed a valuable opportunity when he vetoed the Clean Water Act reauthorization several months ago. He missed an opportunity to revise and improve many of our current water quality programs. He missed an opportunity to endorse new programs to address emerging pollution problems. And, he missed an opportunity to demonstrate to the American people that he shares their commitment to a safe environment and clean water.

In introducing this legislation today, we plan to give the President a second chance—another opportunity.

Much of the recent discussion of the bill has focused on a few of the major provisions of the bill. The President has criticized the level of funding for

assistance to communities for construction of sewage treatment facilities. New programs to deal with toxic pollutants and pollutants from non-point sources have been discussed at length drawing positive comments.

It is important to remember, however, that this legislation includes some 70 provisions. Let me take a moment to briefly review some of these provisions.

The bill provides for management conferences to resolve water problems in estuaries. Some \$12 million a year is authorized for the program.

The bill provides a program for the protection of the Chesapeake Bay. Grants to States to address pollution problems are included. Three million dollars per year is authorized for the EPA program office and \$10 million is authorized for State grants.

Another provision would assure the continuation of the EPA Grant Lakes Program Office and direct the Office to assess water quality problems in the lakes and coordinate agency activities. An annual authorization of \$11 million is provided.

The bill would revise and expand the current requirement for State reporting of lake quality and adds a new section providing for special lakes demonstration projects. An authorization of \$30 million is provided for lakes programs with additional funding for demonstration projects.

The bill tightens provisions for waivers from secondary treatment for discharges of municipal sewage to marine waters.

The bill provides Indian tribes with a set aside of one-half of 1 percent of the construction grant fund for construction of sewage treatment works. Tribes are also granted new authority to act as States for the implementation of some programs under the Clean Water Act.

A new authority for administrative civil penalties is added to the law and changes are made to strengthen the civil and criminal penalties provisions of the act.

Finally, the bill provides a specific process for development of regulations governing permitting of municipal stormwater discharges.

Mr. President, I could go on to describe provisions addressing issues such as coal remining, sewage sludge, or the unique problems of communities ranging from San Diego to Boston.

The point to remember is that this legislation is far more than an authorization of sewage treatment grant money. It reaches into virtually every element of our water quality program and it addresses a wide range of water quality problems. Many of these pollution problems will go unchecked if we fail to enact this legislation.

Some of the most capable Members of the Congress have worked long and hard to develop this legislation. The

final product has the support of the full spectrum of industry and environmental groups. And, I think it is clear that the American people want us to stand by our commitment to ensure that our rivers, lakes, and streams are of the highest quality.

I urge my colleagues to support this bill and I urge the President to take a second look and join us in supporting clean water and a safe environment.

Thank you, Mr. President.

Mr. MITCHELL. Mr. President, I join Senators BYRD, BURDICK, CHAFEE, STAFFORD, and others in introduction of the Water Quality Act of 1987.

This legislation will extend and strengthen one of our most fundamental environmental protection laws—the Clean Water Act.

Introduction of such a major reauthorization bill is usually a time to speak of the problems the bill will address, the difficult issues to be resolved, and the importance of hearing the views of interested groups as final legislation takes shape.

But the Water Quality Act of 1987 is unusual legislation. During the last Congress, under the leadership of Senators STAFFORD, BENTSEN, and CHAFEE, the Senate held full hearings on clean water issues and passed comprehensive amendments to the act.

The House also passed amendments to reauthorize the act and, in October of last year, both Houses passed, without a dissenting vote, the report of the House/Senate conference committee on the bill.

As we all know, President Reagan vetoed the bill.

I deeply regret the President's action. It was a major setback to our efforts to protect the environment and clean up our rivers, lakes and marine waters. And, it undermined our national commitment to clean water, a commitment which has been unwavering since the Clean Water Act was first passed in 1972.

The legislation we are introducing today is intended to undo the damage done by the President's veto. The bill is identical to the legislation approved by Congress late last year. Its enactment will get our clean water programs back on track and moving forward again.

So, in introducing this legislation today, we do not face the usual questions of defining problems or resolving issues. Rather, we must convince the President that his veto of the clean water legislation was misguided. And, if the President will not join us in support of this vital legislation, we must convince the Members of the House and Senate to override his veto of the bill.

Why should the President change his position and support this bill? And why should my colleagues vote to override a veto? I believe that there

are three key reasons: This is good legislation; it is fiscally responsible legislation, and it is backed by the overwhelming support of the American people for clean water.

The Water Quality Act we are introducing today is good, solid, no frills legislation addressing some of our most pressing water pollution problems. Of the many provisions of the bill, several stand out.

The bill provides a new approach to control of toxic pollutants in water. Under the current law EPA is required to establish uniform, minimum controls for toxic pollutants. There is no assurance, however, that these controls will result in a safe level for a particular water body. Although the current law provides general authority for toxics control, this legislation initiates a specific process designed to identify and control these toxic substances.

The legislation requires States to identify waters that do not meet water quality standards due to the discharge of toxic pollutants; to adopt numerical criteria for the pollutants in such waters; and to establish effluent limitations for individual discharges to such water bodies.

This provision is an important addition to our ability to protect water quality and public health from increasing amounts of toxic chemicals.

Another key amendment of the bill provides for State programs to identify and control nonpoint source pollution, such as runoff from city streets and agricultural lands. These nonpoint sources of pollution are thought to cause over half of the remaining water pollution problems.

States will identify waters affected by nonpoint sources of pollution and develop programs to implement best management practices for controlling this pollution. State programs will include a schedule for implementation and will be coordinated with related Federal projects.

Finally, the bill provides State and local governments with a clear statement of future Federal involvement in treatment plant financing and allows them to finalize plans to meet the compliance deadlines established in the law. It provides for a transition from the current grant program to a program providing Federal support for State revolving loan funds. Establishment of loan funds will complete the process of transfer to State control of the municipal treatment construction program.

The second reason to support the bill is that the total funding authorizations are a reasonable and responsible compromise between the costs of the many, badly needed water quality projects and the need to control the Federal deficit.

President Reagan has cited his concern for the total authorization of \$18

billion for assisting communities in funding of construction of sewage treatment facilities. The President proposed a funding level of \$6 billion, and now seems to think that \$12 billion might be acceptable. I believe we need to stick with the \$18 billion figure for several reasons.

This amount is small compared to the total cost of needed projects, estimated by the EPA to be about \$100 billion.

This authorization is spread over 9 years. The annual authorization for the first 6 years is \$2.4 billion.

The annual authorization of \$2.4 billion is a sharp drop from previous funding levels of between \$4 and \$5 billion.

Local communities will pick up a greater share of the costs of these projects. Previous amendments provided for the reduction in the Federal share from 75 percent to 55 percent of project cost. The proposed shift from grants to loans will continue this shift toward State and local funding of project costs.

Of the \$18 billion, \$8.4 billion will be used to capitalize State revolving loan funds. These State funds will be paid back by communities and will be a long-term investment in water quality facilities.

Finally, this total authorization is consistent with the commitment, made by the administration as part of the 1981 amendments to the Clean Water Act, to support funding at the \$2.4 billion level through fiscal year 1991. In return for this long-term funding commitment, Congress agreed to lower annual appropriations, lower the Federal share of project costs, and limit the types of projects eligible for funding.

The third, and perhaps most important, reason the President should support this legislation is it has the overwhelming support of the American people. Both Houses of Congress passed the bill unanimously. Industry and environmental groups support the bill. And polls show that the public favors continued effort to improve water quality by large margins. Final enactment of this legislation is an important step toward carrying out this mandate.

In the budget outline he sent to the Congress recently, the President proposes to increase spending for foreign aid by \$2.3 billion to a new record of \$19.1 billion. If we can afford that, we can afford to keep America's water clean.

In conclusion, Mr. President, I hope that President Reagan will take another look at this bill. I think he will find that it is solid legislation, that its funding levels are reasonable and responsible, and that it has overwhelming public support.

If, however, the President vetoes the bill, I will do everything I can to convince my colleagues to override it.

Mr. SARBANES. Mr. President, as an original cosponsor, I want to thank my colleagues, Senators BURDICK, STAFFORD, MITCHELL, and CHAFEE for reintroducing today the Water Quality Act, which President Reagan vetoed last year. Following the veto, I indicated that passage of this important legislation early in the session would be one of my highest legislative priorities, and I applaud the members of the Senate Environment and Public Works Committee for their leadership. The clean-up of the Chesapeake Bay is the highest environmental priority in Maryland, and this bill is absolutely essential to that effort.

The Clean Water Act, first passed in 1972, has been an important element of the national effort to clean up our Nation's waterways. In many cases, we are now beginning to see the benefits from the investment made in clean water. Here in the Nation's Capital the water quality of the Potomac River is improving each year thanks to the partnership of the Federal Government, the States, and the District of Columbia. Yet much remains to be done. Many rivers and lakes in this country are still unsafe for drinking, fishing, and recreation.

The bill introduced today contains \$52 million over a 4-year period for the Chesapeake Bay clean up effort. As you know, under the able leadership of our former colleague, Senator Charles McC. Mathias, Jr., the Federal Government recognized the critical importance of the Chesapeake Bay, this country's largest and most important tidal estuary. Enactment of this bill would further the goal of cleaning up the bay. It provides \$3 million to support the work of the Office of Chesapeake Bay Programs in the Environmental Protection Agency as well as \$10 million a year in grants.

In addition, the reauthorization of the Municipal Sewage Treatment Construction Program is a vital part of the multistate effort to improve the water quality of the Chesapeake. Under this bill, funds for treatment plants would still be available on a formula basis and would be recycled as States repaid loans under a revolving fund loan program.

Mr. President, passage of this legislation is an urgent priority, and I urge my colleagues in the Senate to give it the same overwhelming support this year that they did last year.

Mr. FOWLER. Mr. President, as the historic 100th Congress convenes, I am very proud to be a cosponsor of legislation which will reauthorize the Clean Water Act.

I was extremely disappointed last year by President Reagan's veto of the Clean Water Act, which was passed

unanimously by both the House and Senate. The Clean Water Act which Congress sent to the President last session was a reasonable and effective measure, one that was a sound balance of our commitment to cleaning up our precious water resources and safeguarding the cities and industries that must help in reaching this critical goal. I believe Mr. Reagan's veto was ill advised and a mistake which we in Congress have a duty to rectify.

In the past decade, we have made great progress in cleaning up our Nation's waterways, and we must continue the steps taken rather than allow the type of pollution before strict controls were enacted. The measures called for in the Clean Water Act are crucial to cities throughout the Nation which are under a federally mandated deadline of July 1, 1988, to upgrade their facilities to secondary treatment standards. The President's veto already has created severe financial problems, not only for cities in Georgia but across the country, requiring slowdowns of many projects and the impending cancellation of others.

Mr. Reagan faulted the measure for what he calls "excessive budgetary levels." However, the President ignored one of the most important provisions of the measure—the mechanism for an orderly phaseout of the Construction Grants Program over the next 4 years in a way that ensures we do not simply walk away from those who have been promised help and who still need it to make sure our water resources are preserved. Municipal and State officials across America are willing to shoulder their part of this responsibility; we at the Federal level cannot abdicate our commitment.

I am heartened by the breadth of support demonstrated last session for reauthorization of the Clean Water Act, and I urge all of my colleagues to once again vote for this measure, which will result in a safer, clearer environment for us and the generations to come.

Mr. LAUTENBERG. Mr. President, I rise in strong support of S. 1, the Clean Water Act Amendments of 1987. This same legislation was unanimously adopted by both the House and Senate at the close of the last Congress. We knew then and we know now that this bill is a significant step forward in protecting this Nation's waterways, and deserves our support.

With its construction grants components, its nonpoint Source Pollution Program, its tightening of toxic discharge controls, and Storm Water Permitting Program, this legislation will do much to address major environmental challenges.

Unfortunately, President Reagan pocket vetoed this legislation. The administration asserted that the bill's authorization for construction grants was excessive. But this claim does not

take account of the high costs of sewage treatment construction. It has been estimated that \$109 billion is needed to finance such construction throughout the Nation, including \$4.5 billion in my State of New Jersey.

Compared to these large needs, the bill before us is no budget buster. It is a rational downpayment on a major national problem. This legislation spreads \$18 billion over 9 years for its Construction Grants Program. This sum is gradually allocated. And almost half of it—\$8.4 billion—is targeted for State revolving loan funds. Such State loan funds will help create a self-sustaining source of money for States to finance local construction.

A strong Construction Grants Program is essential for economic development across this Nation. If we do not have the sewage treatment facilities to handle the wastes resulting from economic development, we cannot move aggressively forward with such development.

Mr. President, the costs of not enacting this legislation—the harm to our environment, the burdens on our States and localities, and the damage to economic development—far exceed those of this measure.

It is clear that this is a nation committed to the principles embodied in this measure. In the early 1970's, the people of this country made a fundamental decision that they wanted a concerted effort to clean up the Nation's waters—waters that are used for fishing, swimming, recreation, and drinking water.

This decision was made because of our growing awareness of and concern about water pollution. News accounts told us about Lake Erie being "dead," the polluted Cuyahoga River in Ohio so filled with oil and debris that it caught fire, millions of gallons of raw wastewaters being dumped into the country's major rivers, such as the Hudson River, and many fish kills and oil spills.

The Congress responded by passing the Federal Water Pollution Control Act Amendments of 1972. This act established a goal—to restore and maintain the integrity of the Nation's waters—which captured the essence of the Nation's desire for clean water.

Mr. President, during the 13 years this act has been implemented, impressive strides have been made in cleaning up our Nation's waters. But much remains to be done. The Clean Water Act Amendments of 1987 include a number of provisions which address problems which are preventing us from achieving the goal of the Clean Water Act.

Also of great importance is future funding for the construction grants program. Since passage of the Clean Water Act in 1972, Federal, State, and local sources have invested more than \$56 billion in municipal wastewater

treatment facilities, resulting in the construction or improvement of approximately 3,500 treatment facilities. Properly running sewage treatment facilities are an essential component for cleaning up the Nation's waters. For example, sewage treatment plants in 1983 were removing 65 percent more of the two principle conventional pollutants—suspended solids and biological oxygen demand—than they were a decade earlier.

Yet it is clear that the existing construction grants program is inadequate to meet remaining national needs. According to EPA, eligible construction needs through the year 2000 total \$53 billion. Ineligible needs, those needs not eligible for Federal funding under the Clean Water Act, are more than \$50 billion. According to estimates, New Jersey alone has \$4.5 billion in eligible funding needs. New Jersey only receives approximately \$100 million per year in existing Federal construction grant funding. Therefore it is imperative that we implement a new method of financing sewage facilities. A creative framework, which had its origins in New Jersey, is the concept of revolving loans.

The Clean Water Act Amendments of 1987 adopted this concept and will move us closer to the goal of providing an adequate source of stable funding for sewage treatment facilities. S. 1 would authorize \$18 billion over 9 years for Federal sewer construction grants and loans. Under the bill, the Federal Government will gradually reduce categorical grants for sewage treatment facilities as it phases in a program of grants for States to capitalize State revolving loan funds.

These funds will provide the capital for municipal wastewater treatment facilities in the future. States can make low or no interest loans available to communities for construction of treatment facilities. As loans are repaid to the State revolving loan funds, the State will be able to loan money to additional communities.

In addition, Mr. President, this bill will help spur the construction of needed sewerage facilities. In the case of municipalities which proceed to begin construction with their own funds, refinancing is permitted from a State revolving loan fund. Presently, most municipalities wait until it is their turn to receive Federal construction grant funding before they begin constructing needed facilities. This refinancing feature of the revolving loan program would eliminate the disincentive for municipalities to move ahead quickly with construction that now exists with the grants program.

Municipalities are facing a 1988 deadline for installing sewage treatment facilities which provide secondary treatment. EPA has threatened to restrict development in municipalities

which are not in compliance with the 1988 deadline. New Jersey imposed sewer bans in many municipalities and has warned others that they face such bans if the discharge from their sewage plants will not comply with requirements of the Clean Water Act. The reimbursement provisions in the conference report to S. 1128 should stimulate cities to meet the 1988 deadline.

Under the bill, States will have to enact legislation to give a legal entity of the State the powers prescribed in the act. During consideration of this legislation during the last Congress, the Environmental Pollution Subcommittee agreed that this legal entity can be an existing or new State entity or agency. When the States enact legislation to implement State revolving loan funds, they will have the flexibility to determine how the fund will operate subject to the requirements of this provision of the Clean Water Act.

For example, States would be able to establish loan terms based on the financial needs of municipalities with easier loan terms available to poorer municipalities. States can decide to initiate their loan funds prior to fiscal year 1989, the year they are required to do so. When States enact revolving loan legislation, they can determine whether to begin using their construction grant funds to capitalize their revolving loan funds prior to fiscal year 1989 and if so, under what terms.

Mr. President, I believe that the revolving loan concept contained in the bill will provide a stable source of funding for the construction of sewerage facilities while providing States with the flexibility to minimize the financial burden of these facilities on local municipalities.

The Clean Water Act amendments only slightly revised the allocation formula for construction grants. I would have preferred the Senate approach during the last Congress, which would have provided New Jersey with \$15 million more in grant funds. But New Jersey stands to receive approximately the same amount it has been receiving—up to about \$100 million this year—in such funds under S. 1. And the State will receive about \$650 million over the life of the bill.

S. 1 also includes the Raw Sewage Abatement Act of 1985. This legislation, which I sponsored, limits the discharge of raw sewage by New York City. At the time I introduced this legislation, New York City was the only major municipality in the country which still discharged raw sewage and wastewater into surrounding waters, without preliminary treatment of its wastes. It did so because of the absence of sewage treatment facilities in two major drainage areas in New York City. Two court-ordered deadlines to cease this practice were disregarded by the city.

The provision that I sponsored imposed a cap on raw sewage discharges from the drainage areas in New York City which were without treatment plants, if the city failed to meet the deadlines for achieving advanced preliminary treatment contained in its current consent decree. If these deadlines were met, the cap would be unnecessary because all raw sewage discharges will cease. If the city failed to meet these deadlines, a cap was to be imposed in the drainage area in violation of the decree. It was to stay in effect until the city brought the affected plant on-line and it operated successfully for 6 months.

The imposition of a cap on raw sewage discharges upon a violation of the consent decree in effect said to the city of New York, "You cannot continue to grow without restraint if you cannot treat your wastes."

Upon violation of the cap, the city would be subject to the enforcement provisions in section 309 of the Clean Water Act. These penalties would be in addition to those provided for violation of the consent decree. They include tough civil and criminal penalties, and would enable EPA to seek a temporary or permanent injunction against the city, to bring civil actions against the city, and to initiate criminal prosecution in cases of negligence or falsification of records.

With the changes adopted in the conference report to section 309 of the Clean Water Act, a violation of the cap imposed by this amendment could result in substantial penalties of up to \$50,000 a day. A violation stemming from a criminal conviction could lead to imprisonment.

Finally, Mr. President, the legislation states that it is the sense of the Congress that EPA should not extend the deadlines in the city's existing consent decree any further.

I am pleased to note that following my amendment, New York City finally began to comply with court-ordered schedules for construction of its North River and Red Hook sewage facilities. North River is currently on schedule to attain secondary treatment by 1991. Red Hook is on schedule to attain primary treatment by 1989. While Red Hook is on schedule, the fact that it is not operational means that discharge of raw sewage into the East River still continues. This legislation will ensure that New York's facilities stay on present compliance schedules, with no more extensions, and move us toward eliminating the dumping of raw sewage in the waterways of New York and New Jersey.

New Jersey has had its share of water quality problems. But treatment plants in northern New Jersey are all achieving primary treatment, and most of the major plants serving northern New Jersey are achieving

secondary treatment, or are under construction to do so.

The New Jersey Department of Environmental Protection has imposed numerous sewer hookup bans in a number of New Jersey municipalities to improve compliance with the Clean Water Act. Several communities may finance the upgrading of their sewage treatment plants to secondary treatment without any Federal or State aid. In some cases, the Department of Environmental Protection in New Jersey required private sector parties to contribute to local efforts to upgrade sewage treatment facilities as the price of securing a sewer hookup permit and proceeding with planned development.

Mr. President, New Jersey and New York do not need to grow at each others' expense. Regional growth is good for both States. By the same token, Mr. President, this growth should be accompanied by appropriate environmental protection. It must not come at the expense of the environment. It must not come at the expense of New Jersey's tourist and commercial and recreational fishing industries.

Mr. President, these provisions in S. 1 will provide strong incentives for New York City to keep complying with its consent decree and bring its sewage treatment plants on line as quickly as possible.

S. 1 contains a number of other provisions which will strengthen this Nation's effort to clean up its water. These include:

Establishing a new program for cleaning up toxic "hot spots"—waters that will not meet water quality goals even after industrial dischargers have installed the best available cleanup technologies required under existing law;

Requiring States to develop plans for combating nonpoint source pollution, such as polluted runoff from city streets and farmland. Conferees agreed on a \$400 million authorization to help States implement the plans;

Restricting the use of fundamentally different factor waivers from national discharge standards;

Prohibiting, except in certain narrowly defined circumstances, so-called backsliding, or weakening of cleanup standards when industrial and municipal discharge permits are renewed or reissued;

Establishing a national estuary program to solve pollution problems in interstate estuaries such as Delaware Bay and the Hudson-Raritan estuary;

Requiring EPA to establish toxic contaminant criteria for sewage sludge use and disposal and to establish a public health and environmental protection basis for these criteria;

Authorizing a total of \$85 million for lake water quality activities, including

demonstration projects at New Jersey's Deal Lake, Belcher Creek, and Greenwood Lake, as well as \$15 million for acid mitigation projects;

Retaining the existing law's requirement that discharge permits be renewed every 5 years. The House bill would have extended the permit term to 10 years for certain discharges.

Mr. President, I believe that enactment of the Clean Water Act Amendments of 1987 represents a positive step in the Nation's effort to clean up its water resources, and I urge that we pass this legislation today.

Mr. DURENBERGER. Mr. President, we are today introducing the Water Quality Act of 1987. This is a bill to continue and expand the Nation's Clean Water Act which has since 1972 provided environmental protection for the quality of our lakes, streams, rivers, and estuaries.

This reauthorization of the Clean Water Act has been developed over many years and reflects a blending and compromise of all views including those heard in both Houses, those expressed by members of both parties, views of the Congress and the administration, views of industry and the environmental community. The Senator from Rhode Island, JOHN CHAFEE, has worked diligently for enactment of this legislation in the 98th, 99th, and now, the 100th Congress. We owe him a great debt. He, as chairman of the Environmental Pollution Subcommittee in the last Congress, worked along with our distinguished chairman of the Environment and Public Works Committee at that time, Senator ROBERT STAFFORD of Vermont, to develop this bill in committee, here on the floor of the Senate and in the conference committee with Members of the House.

It was their effort which brought the conference report on the Water Quality Act of 1986 to the Senate last year where it was approved by a unanimous vote. It was also adopted unanimously by the House of Representatives. Mr. President, around here that is an almost unprecedented level of support for a major piece of legislation like this. The bill we introduce today is that same bill, and whatever parliamentary indignity this bill may suffer over the next few days, we must keep in mind that it was the unceasing effort of these two Members of the Senate which brought us to unanimous support of this fine bill at the end of the last Congress.

The bill adopted by the 99th Congress failed enactment due to a Presidential pocket veto. That was in my view a most unfortunate decision on the part of the President and his advisors. In my view, this legislation already includes much to accommodate the views, both budgetary and of a substantive nature, that were put forth by the administration and its

representatives during the legislative process. Indeed, we understand that the administration will be presenting its own bill to reauthorize the Clean Water Act here in the 100th Congress and that the President's bill will be precisely the same as that we have passed, except that the construction grants program will be funded at a level of \$12 billion rather than \$18 billion over an 8-year period.

So our difference with the President comes down to a matter of budget priorities. I say to the President that the construction grants program has already made its contribution to deficit reduction. In 1981, when this administration came to office, grants to State and local governments to build sewage treatment projects were approximately \$5 billion per year. The administration insisted on a greatly reduced program, one that was restructured to eliminate many of the then eligible activities. And after a year of tough debate, a compromise was reached between the Congress and the administration to reduce and restructure the Construction Grants Program. For its part, Congress understood that compromise to include a 10-year commitment to fund the Construction Grants Program at \$2.4 billion annually. And that is precisely the level of funding this bill provides.

This bill fulfills the promises made in 1981 when the Construction Grants Program was last reauthorized. One need not rely on my testimony as to the agreement reached between the Congress and the administration back in 1981. The record is replete with references to that commitment. For instance in a committee hearing on the 1985 budget proposal, Mr. William Ruckelshaus, then Administrator of the Environmental Protection Agency, described that agreement in these terms:

There is an understanding that there is an agreement with the Administration and with the Congress that for 10 years this level of funding, at least, is a commitment. If you will note the difference between what we submitted to the President in terms of our budget and what we are now requesting is somewhat less. We went down to \$2.37 billion, and it went back up to \$2.4 billion as a result of that commitment. That was something that the Administration puts back into our budget over our submission.

Mr. President, there you have Bill Ruckelshaus proposing a modest cut in the Construction Grants Program and somebody at OMB telling him to take it back up to \$2.4 billion because the administration had committed to that level for 10 years. That's a pretty good indication that a clear and solid pledge for funding had been made as part of the 1981 reauthorization. Mr. Ruckelshaus is no longer at EPA, of course. And there have also been changes at OMB. But changes in advisors shouldn't be cause for abandoning commitments.

So it was unfortunate that this bill failed enactment last year. And I urge the President of the United States, in light of the history of this program, to reconsider his decision to withhold his signature from this bill. It is a good bill. It has broad support. It continues a necessary and successful program of the Federal Government. It is a tribute to the two members of our party, Senator CHAFEE and Senator STAFFORD, who had such a large role in bringing it to unanimous approval in both Houses of the last Congress.

Mr. BRADLEY. Mr. President, today, I join my colleagues in reintroducing in the Senate an historic and critical piece of environmental legislation for the Nation and New Jersey, the Clean Water Act. For too long, we have allowed inadequate sewage treatment facilities and other pollutants to threaten our coastlines and our water supplies. This Clean Water Act confirms the continued Federal commitment to local communities everywhere.

New Jersey is known for its miles of beautiful shoreline and lovely beaches. Yet too frequently, our shore communities have had to close their beaches during the summer months because of pollution. Millions of visitors flock to those beaches every year. Beach pollution which has occurred, in part, because of inadequate sewage facilities and, in part from improper disposal of garbage, has endangered public health and tarnished the State's most precious assets. This clean water bill takes an enormous step toward fixing this problem of ocean pollution. This bill specifically prohibits any waiver of requirements for secondary treatment of wastewater in the New York Bight area. The bill closes, once and for all, the site 12 miles from the New Jersey shore where sewage sludge is dumped. The bill prevents the use of the new 106-mile dumpsite by regions and cities outside of the New Jersey-New York area. Most importantly, the clean water bill provides funds to improve antiquated and inadequate local treatment facilities, which overflow during storms or are too small to handle the peak usage during summertime.

This bill represents a tremendous effort—4 years of hard work. Its many provisions will form the basis of a revitalized effort to ensure clean water for our citizens. Since 1981, the Federal appropriations for sewage treatment facilities have been halved while the Federal cost share has dropped from 75 to 55 percent of costs. This bill creates a new \$18 billion program which combines grants with an innovative revolving loan program. Other provisions assist in the control of nonpoint pollution—for example water runoff from urban areas—and the cleanup of our lakes and streams.

Mr. President, New Jerseyans greatly value clean water and safe beaches. We recognize the threats to our water supply. We know that tough Federal cleanup standards and environmental regulations are essential but are not sufficient. We know it is a long and costly fight and hard-pressed communities need help in this fight. This bill shows that the Federal Government is not only demanding clean water but it is also willing to help provide the resources to achieve this result. Last fall, President Reagan vetoed this legislation. This action was ill-advised and a mistake. Congress was not then in session, and could not act to override the President's veto. Now we can, and we will.

Mr. MOYNIHAN. Mr. President, I rise on this first day of the 100th Congress as a cosponsor of S. 1, the Clean Water Act Amendments of 1987. It is fitting that this be the first order of business in the new Congress, because at the end of the 99th Congress, Members of the Senate and House voted unanimously to approve the conference report which S. 1 embodies.

When the President allowed the legislation to expire by reason of the so-called pocket veto on November 6, 1986, he placed in jeopardy 14 years of good, hard work. Congress is acting today to finish the task it began with passage of the original Clean Water Act of 1972—to clean up the Nation's waters. The sum of \$18 billion authorized by the bill over 8 years will enable the Senate to ameliorate the worst cases of water pollution which threaten our drinking water particularly and our water resources generally. After 4 years, the Construction Grants Program which funds sewers and treatment plants on a 55-percent Federal, 45-percent State basis, will be converted into a revolving loan program, which will be self-sustaining. Therefore, this is not another huge Federal subsidy with no end in sight; rather, it is a targeted effort which ultimately will be self-perpetuating. As such, it leverages Federal funds, providing seed money for the States' own revolving loan pools.

#### CLEAN WATER IN NEW YORK

If this legislation passes, which we have every confidence it will, New York will receive \$268 million annually in Federal grants through 1990, or nearly \$1.1 billion of the \$18 billion authorized across the Nation. This is the highest annual amount received by any State. California is the next highest recipient at \$173 million annually; New Jersey receives \$99 million, and Connecticut \$30 million.

Without this legislation, a number of New York treatment facilities will be unable to meet the July 1, 1988, deadline mandated under the act for secondary treatment. The office of the attorney general of New York has already begun to notify municipalities

which may not be able to meet their compliance schedules.

I need not remind New Yorkers of our dependence on clean water. The striped bass in the Hudson are too contaminated to be eaten safely. Long Island's aquifer which is the drinking water for 3 million people is being depleted and polluted. And under New York City's streets old leaky water mains reluctantly disperse water to city residents.

Passage of the Clean Water Act Amendments of 1987 must be the cornerstone of our Federal water policy. The 99th Congress passed the Safe Drinking Water Act, which strengthened EPA's capacity to protect and to improve our country's drinking water supplies. The Safe Drinking Water Act contains the Sole Source Aquifer Protection Act, which I first introduced in 1982, designed to protect irreplaceable aquifers such as the one on Long Island. Together with national ground water legislation, which I am also introducing in the 100th Congress, these statutes will provide a comprehensive approach to maintaining and improving our water. We cannot afford to wait until these waters are polluted. It is much more expensive to clean up water—particular ground water—after contamination than to prevent it in the first place.

Mr. President, allow me to review the goals of the Clean Water Act.

#### GOALS OF 1972 CLEAN WATER ACT

The Federal Water Pollution Control Act was enacted in 1972 with an exuberantly optimistic set of goals. By 1983, the act envisioned clean rivers throughout the Nation; by 1985, it sought to eliminate altogether the discharge of pollutants into our waters.

Two major strategies were embodied in the act to achieve these goals. First, a large Federal grant program was established to help local areas construct sewage treatment plants. According to the Congressional Budget Office, \$52 billion—in 1984 dollars—total has been spent by the Federal Government on this Construction Grant Program since 1972.

Second, the act required that all municipal and industrial wastewater be treated before being discharged into waterways, to remove pollutants ranging from organic materials, bacteria, and viruses to toxic chemicals and heavy metals.

Under the act's national pollutant discharge elimination system the Environmental Protection Agency established limits on the maximum allowable discharge of specific pollutants from treatment plants and industrial facilities. These limits were based on available detection and control technologies, and took into account the compliance costs to the regulated community. They are written into permits issued to all such discharging facilities.

Significant progress has been made toward cleaning up the Nation's waters. According to EPA's 1984 national water quality inventory, many of the most severe pollution problems of the 1960's and 1970's have been abated. Moreover, despite substantial growth in the Nation's population, industry, and development, overall water quality remained roughly stable between 1972 and 1982—a major accomplishment. A 1984 study by the Association of State and Interstate Water Pollution Control Administrators found that of 350,000 miles of streams and rivers monitored during this period, water quality improved in 13 percent, stayed the same in 84 percent, and declined in only 3 percent. We have been doing something—several things—right.

The Clean Water Act Amendments of 1986 strengthen and add to our current statutes. I will review briefly the most important provisions in these amendments.

#### CONSTRUCTION GRANTS FOR SEWAGE TREATMENT PLANTS

S. 1 authorizes \$18 billion in Federal support over 8 years for the construction grants program, on a 55-percent Federal, 45-percent State basis. This program enables construction and upgrading of sewage treatment plants. The goal is to have all sewage treatment plants achieve secondary treatment by 1988—a process which removes 85 percent of solid and organic matter. In 1989, the revolving fund plan begins, the goal of which is to convert the States' Construction Grants Program into a self-financing program. Such an approach has worked extremely well in Texas and other States. The Governor will have the discretion to apportion grant funds and loan funds in order to meet the particular needs of his or her State. With wise planning, the States should make this transition without any disruption in their current schedules of priority work.

I am pleased that the current allocation formula for construction grants has been left virtually in place. This formula, which is based on the current EPA needs survey, correctly reflects the immediate needs in our urban areas in the Great Lakes and Chesapeake Bay regions. Our older cities place the greatest population pressures on the water systems, which also tend to be the oldest systems. New York receives \$268 million annually under this allocation.

#### NONPOINT SOURCE POLLUTION

This bill provides \$400 million to initiate the first national program to control nonpoint source pollution, primarily runoff from agriculture and urban areas. Scientists at EPA have determined that nonpoint source pollution—pollution not from a single pipe or outfall—is a significant contributor

to degradation of water quality. This includes runoff contaminated by fertilizers and other chemicals, as well as runoff from city streets which often contains high levels of salts and oils.

As part of this effort, conferees worked diligently with cities and counties as well as with environmental groups to devise a stormwater permit system that would improve water quality without being too costly or too cumbersome for EPA to administer. A recent court decision had ordered EPA to issue permits for virtually all storm sewers, which would have required EPA to issue 50,000 more permits on top of the 65,000 point source permits EPA already issues. This would have diverted EPA personnel efforts from control of toxic contaminants in water to a paper shuffling exercise that would not be result in environmental improvements in most cases. The conference agreed on a provision which would require permits from industrial discharges to storm sewers, and from cities over 250,000 in population where those discharges are significant contributors to pollution.

#### CLEAN LAKES PROGRAM

S. 1 provides \$85 million for a Clean Lakes Program which States can use to clean up silted lakes, and to lime acidified lakes.

#### ESTUARIES PROGRAM

The bill provides \$48 million for an Estuary Research Program, which identifies several estuaries of national importance, including New York and New Jersey Harbor. Under this provision EPA can offer up to \$10 million per year on a 50-percent matching basis to States to study and implement cleanup in the New York-New Jersey Harbor area.

#### BAN ON DUMPING OF SLUDGE IN THE NEW YORK BIGHT

The bill bans, as of December 1987, any additional users from dumping sewage sludge in the New York Bight 12 miles off Sandy Hook, NJ. The bill also restricts the use of the site 106 miles off the coast to those currently using the 12-mile site.

#### FUNDS FOR BOSTON TREATMENT PLANTS

S. 1 includes \$100 million to fund sewage treatment plants in Boston Harbor, assisting Boston in complying with its court ordered directive to stop dumping sludge in the ocean.

#### GREAT LAKES OFFICE

The conferees agreed to establish a Great Lakes International Coordination Office within EPA to focus on control of toxic pollutants and achievement of goals in the Great Lakes Water Quality Agreement of 1978. The bill also establishes a Great Lakes Research Office with the National Oceanic and Atmospheric Administration to carry out a comprehensive Great Lakes research program, with special attention to sediment control projects.

The Great Lakes office program includes a \$11 million annual authorization from 1987 to 1991 for a data base for monitoring and cleanup of the water quality of the lakes, and for priority cleanups of contaminated sediments in five target areas in the Nation, one of which is the Buffalo River in New York.

#### TOXIC HOTSPOTS

The Clean Water Act Amendments of 1987 establish a new Toxic Hotspot Program which requires EPA and the States to work together to identify toxic hotspots which require special attention and additional controls. EPA has already tentatively identified 34 of these areas which may require more stringent controls than the "best available technology" standard currently mandated by the act. Albany, Rochester, and Syracuse were areas in New York listed by EPA for this priority attention. In addition, the International Joint Commission has identified 42 areas of concern for toxic pollutants in the Great Lakes. These include the Buffalo River, Eighteen Mile Creek, Rochester Embayment, Oswego River, Niagara River and St. Lawrence River in New York. EPA will review the IJC's recommendations in augmenting its toxic hotspot program.

All in all, this is a most worthy bill. I join my chairman, Senator BURDICK, colleagues on the Environment and Public Works Committee, and other cosponsors in urging its immediate consideration and passage. I ask unanimous consent that an appendix listing priority water projects in New York State be printed in the RECORD at this point. I ask, too, that a report summarizing in detail the Great Lakes office and toxic pollutants provisions, prepared by the Northeast-Midwest Institute be printed as an appendix at this point in the RECORD.

There being no objection, the materials were ordered to be printed in the RECORD, as follows:

#### APPENDIX A

#### ESTIMATE OF FEDERAL CONTRIBUTION TO PRIORITY WATER TREATMENT FACILITIES IN NEW YORK STATE

	Estimated total cost	Estimated Federal share
Project (FY 1987):		
Ft. Covington (St. Lawrence County) .....	\$2,726,000	\$1,499,300
Village of Oxford (Chenango County) .....	4,610,600	2,535,830
Village of Gowanda (Cattaraugus County) .....	9,700,000	5,335,000
Village of Croghan (Lewis County) .....	2,700,000	1,485,000
Shuylerville (Washington County) .....	1,268,500	697,675
Cuba (Allegany County) .....	2,900,000	1,595,000
Cedar Creek Sewage Plant (Nassau County) .....	48,000,000	36,000,000
Mamaroneck Sewer District (Westchester County) .....	8,625,000	4,743,750
Dewey Eastman Tunnel (Monroe County) .....	24,300,000	13,365,000
City of Gloversville (Fulton County) .....	6,170,000	3,393,500
Batavia (Genesee County) .....	28,776,000	15,826,000
Buffalo (Erie County) .....	5,589,565	3,074,261
South Glens Falls (Saratoga County) .....	3,500,000	1,925,000
Chautauque (Chautauque County) .....	440,477	310,457
Binghamton (Broome County) .....	11,831,300	6,507,215
Cheektowaga (Erie County) .....	872,765	654,564
Cheektowaga (Erie County) .....	263,050	144,678
Great Neck (Nassau County) .....	16,277,581	8,952,724
Do .....	2,990,776	1,644,927
Westchester County (New Rochelle) .....	650,000	487,000

#### ESTIMATE OF FEDERAL CONTRIBUTION TO PRIORITY WATER TREATMENT FACILITIES IN NEW YORK STATE—Continued

	Estimated total cost	Estimated Federal share
Greece (Monroe County) .....	1,043,500	573,925
Rochester (Monroe County) .....	13,500,000	10,125,000
LeRoy (Genesee County) .....	437,333	328,000
Owls Head (Brooklyn) .....	14,816,963	11,112,722
Do .....	48,588,494	36,441,370
Do .....	53,119,363	39,839,523
Oakwood Beach (Staten Island) .....	49,000,000	26,950,000
Do .....	5,000,000	3,750,000
Project (after 1987):		
Oakwood Beach (Staten Island) .....	100,000,000	NA
Owls Head (Brooklyn) .....	87,000,000	NA
Coney Island (Brooklyn) .....	280,000,000	NA
Bay Park (Nassau County) .....	53,000,000	NA
Mamaroneck (Westchester County) .....	116,000,000	NA
Rochester (Monroe County) .....	27,000,000	NA
Oriskany Falls (Oneida County) .....	4,300,000	NA
Stillwater (Saratoga County) .....	1,300,000	NA
Bolivar (Allegany County) .....	2,200,000	NA

#### APPENDIX B

Attached is a detailed summary of the toxic hotspot provisions of the Clean Water Act Amendments, S. 1128 in the 99th Congress, S. 1 in the 100th Congress. Included is a list compiled by EPA in 1982, which EPA will augment under the new Act. EPA may add to its toxic hotspot list based on recommendations by the U.S.-Canadian International Joint Commission, which has identified 42 areas in the Great Lakes in the U.S. and Canada which are badly contaminated. Source: Northeast Midwest Institute, Eric Schaeffer (202) 544-5200.

#### II. TOXIC HOTSPOTS (S. 1128)

#### Background

There are two primary approaches to controlling water pollution under the Clean Water Act. The first is to measure the quality of water into which pollutants are being released, to determine which industries are responsible for the pollution, and to require those parties to reduce their discharges by the amount needed to make the water at least "fishable and swimmable." The second is simply to require all industries to reduce their discharges to a predetermined level, based on the best pollution control that is economically achievable. The latter, "best available technology" (BAT) standard has been the exclusive method of regulations thus far, due to the technical difficulty of water-quality based permitting.

However, it has become clear that in certain areas, the water may remain unacceptably contaminated with toxic pollutants even after all the industries have applied BAT. In 1982, the EPA tentatively identified 34 of these areas; the 19 in the Northeast and Midwest are identified below.

Hartford, CT, Gary, IN, Des Moines, IA, Pittsfield, MA, Springfield, MA, Midland/Saginaw, MI, Minneapolis/St. Paul, MN, Passaic, NJ, Albany, NY, Rochester, NY, Syracuse, NY, Canton, OH, Dayton, OH, Lima, OH, Youngstown, OH, Allentown, PA, Philadelphia, PA, Pittsburgh, PA, Scranton, PA.

EPA stressed that the identification was preliminary, stating that "The list was compiled not from water samples but rather through paper and pencil calculations on toxic pollutants that may be present, based upon the industries that discharges to these waterways and the amount of toxic pollutants they discharge."

The United States-Canada International Joint Commission has identified 42 areas of the Great Lakes shoreline in the United States and Canada that are badly contaminated.

nated by toxic pollutants. It is possible that some of these areas on the U.S. side may eventually be listed for regulation under the toxic hotspot provision established by the conference report. Attachment 2 provides a list of the locations of the 42 "areas of concern" identified by the IJC, and their sources of contamination.

#### Conference report

The conference report requires EPA to develop guidelines for use by states in identifying those areas 1) where water quality would remain below the acceptable standard 2) due primarily to toxic pollution from industrial dischargers 3) after those industries had applied to their plants the best available technology for controlling pollution. The states then would have two years to identify the areas within their jurisdictions that fell under the federal guidelines. EPA would be required to identify any toxic hotspots within a state that failed to meet the deadline.

States then would have another two years to develop individual control strategies to further limit pollution from point sources, and an additional three years to bring water quality to the required standard by putting

those strategies into effect. EPA would be required to develop and implement control strategies for those states that failed to meet the deadline. The conference report would allow the agency to waive the more stringent point source requirements for no more than five years for industries that could show that 1) the current control technology was the maximum economically feasible for that industry and 2) that it was sufficient to make "reasonable further progress" toward meeting water quality standards.

Part of the problem with water quality based permitting is that EPA has lagged behind in developing criteria that can be used to develop effective water quality standards. The conference report would require EPA to develop those criteria within three years of enactment, and would require states to incorporate them into the water quality standards upon which individual control strategies would be based.

#### III. GREAT LAKES (S. 1128)

##### Background

The National Academy of Sciences (NAS) reported last year that the population of

the Great Lakes basin was exposed to appreciably more toxic substances than that of the U.S. as a whole, due in part to the consumption of contaminated fish from the area. The report criticized EPA's neglect of the U.S.-Canada Water Quality Agreement, a comprehensive treaty establishing ambitious goals for the elimination of toxic discharges to the Lakes. The NAS critique reflected concerns raised by the General Accounting Office in the latter's 1982 report highlighting the disorganization and underfunding characterizing U.S. Great Lakes programs.

#### Conference report

The conference report includes a title establishing for the first time a comprehensive U.S. program for the cleanup of the Great Lakes. The amendment provides explicit congressional recognition of the Water Quality Agreement, and designates EPA's Great Lakes National Program Office (GLNPO) as the lead agency responsible for U.S. compliance with the agreement. GLNPO would have to establish a toxics monitoring and surveillance network for the lakes, and to develop and coordinate a multi-agency program for cleanup.

#### ATTACHMENT 2

[Sources of pollution for Great Lakes areas of concern]

Source: Great Lakes Water Quality Board, 1985 Report to Great Lakes Water Quality, Report to the International Joint Commission (Kingston, Ontario, International Joint Commission 1985), p. 4.

The amendment earmarks \$14.5 million for creation within the National Oceanic and Atmospheric Administration of a comprehensive environmental data base for the lakes, so that research gathered painstakingly through dozens of individual projects would be banked for future use. The amendment also earmarks \$22 million for a special program to begin the task of cleaning up sediments contaminated by toxic pollutants at the Great Lakes areas of

concern identified by the International Joint Commission.

These contaminated sediments are a prime source of the toxics infesting Great Lakes fish, and may be stirred up and released into the water by shipping or dredging activities. Five sites are mentioned specifically for demonstration cleanup to ensure that the program gets off the drawing board and to give Congress a basis for evaluating the agency's progress. The

five sites are: Sheboygan Harbor, WI; Saginaw River, MI; Grand Calumet Harbor, IN; Ashtabula River, OH; Buffalo River, NY.

Mr. D'AMATO. Mr. President, I rise today to cosponsor the Clean Water Act Reauthorization being introduced by my colleagues on the Environment Committee. This bill is identical to the Clean Water Act Reauthorization I enthusiastically supported last year. Un-

fortunately, despite the fact that many of my colleagues and I contacted President Reagan repeatedly, asking him to sign this bill, this legislation was vetoed in November of last year.

It is vital that this legislation be passed quickly. It contains an authorization of \$18 billion over 9 years for the EPA construction grants program. It contains an estuaries program important to Long Island Sound, as well as programs to protect the Great Lakes. It also provides new requirements for management of nonpoint sources of pollution, such as runoff from cities and agricultural areas.

Mr. President, this legislation is the result of extensive efforts during the last Congress, and it enjoys support from a wide range of industrial and environmental groups. It passed unanimously in both Houses last year. There is no reason why we should delay swift enactment of this bill. Therefore, I urge my colleagues in the Senate to join in cosponsoring this legislation.

Mr. WEICKER. Mr. President, today I have joined with a large number of my fellow Senators to reintroduce a bill amending and reauthorizing the Clean Water Act. This is the Nation's only comprehensive water control and management law and symbolizes this country's efforts to clean and safeguard our environment for future generations; 1986 saw near unanimous support for this bill, as introduced today, in Congress. Passage of the bill occurred at the end of the 99th Congress and we watched as the President pocket vetoed the bill which represented years of exhaustive work in both Houses of Congress.

I have no doubt, Mr. President, that this bill will be widely supported again and will indeed become law, possibly in the very near future. I strongly support the Clean Water Act and am very disappointed that the administration would not work with Congress, nor recognize the overwhelming support of this act in protecting our Nation's waterways.

Important among the provisions of this bill is the establishment of a National Estuary Program which will create a national effort in the protection and management of our estuarine and near shore marine areas. Intensive studies such as in the Chesapeake Bay and Long Island Sound should lead to answers and practices which will significantly reduce the inputs of pollution into these estuaries and restore these vast natural resources to a more usable and pristine state. The Construction Grants Program is also of vital importance to municipalities in developing wastewater treatment works. The creation of State revolving loan funds shifts future responsibility for construction costs to States and localities. My State of Connecticut has already created a State fund and is

fully committed to continued construction and upgrading of water treatment works. This bill also contains important provisions to manage nonpoint source pollution and to strengthen enforcement and permit standards.

Mr. President, the early reintroduction and the very large support for this bill should be a clear signal to the administration that a failure to accept this reauthorization ignores the will of Congress and the concerns of our citizens throughout the Nation. It is my hope that this bill receives quick consideration and passage. Too many years have gone by for us not to reaffirm our commitment to this country's most important environmental act.

Mr. PELL. Mr. President, I am pleased to join in introducing the Clean Water Act in the 100th Congress. I hope that we will be able to expedite its consideration and passage and, once this is done, that the President will sign it into law without delay.

I commend the members of the Senate Environment and Public Works Committee, including the members of the Environmental Pollution Subcommittee, who labored long and hard to fashion this measure in the 99th Congress.

My colleague, the distinguished junior Senator from Rhode Island [Mr. CHAFEE] is one of those who devoted considerable skill and knowledge to fashioning this measure, which makes several changes to enhance our ability to combat water pollution.

This Clean Water Act authorizes \$18 billion over 9 years for grants to help communities build wastewater treatment facilities. Unless we reauthorize this measure, construction delays and shutdowns will start to occur as funding runs out.

This measure also includes a new section designed to reduce pollution from so-called nonpoint sources, such as runoff from agricultural land and the pollutants washed by the rain from our city streets into our streams and rivers.

It also includes the creation of a program for cleaning up toxic hot spots—where quality goals will not be met even after polluters have installed the best available cleanup technologies required under existing law.

The bill, by and large, is an improvement and represents a concerted effort to address our Nation's water pollution problems. I must emphasize, however, that those pollution problems have not been resolved and are not going to just fade away without a continuing national effort to address them.

We set the national standard of "fishable, swimmable water" and we made the commitment to put Federal taxpayers dollar to work on a long-range, costly, national effort to meet

those standards. Communities that believe us then are finding themselves stuck with paying for the improvements now.

We should not lower our standards and we should not stick State and local communities with the total bill. We must not lower our sights to lesser goals by reducing the national standard. Likewise, we should not try to shift the enormous burden of wastewater treatment construction costs to the State and local governments.

When we first passed the Clean Water Act, along with other landmark environmental laws, we made it clear that the Federal Government has a definite role in setting national environmental standards and an equally important role in helping to meet those standards. We must not abandon either of those vital roles.

Mr. HEINZ. Mr. President, water quality is among the most pressing problems that communities across the Nation must face. For State and local governments, this is not an easy time. The loss of revenue sharing, reductions in aid to State and local governments generally, and rising costs put our cities and towns into a tight squeeze. Sewage construction is among the costliest undertakings, and yet it is critically needed if our drinking water is to be protected.

The slowdown in funding under the Clean Water Act, caused first by congressional delay in approving a reauthorization, and then a pocket veto, is endangering the very health of thousands. In Pennsylvania alone, the Environmental Protection Agency estimated our wastewater treatment needs in 1985 at over \$2.1 billion. Even under the Clean Water Act, Pennsylvania receives only \$96 million per year in Federal assistance. So it is going to be a while before Pennsylvania, or most States for that matter, find themselves fully meeting the need for protection from wastewater.

Nevertheless, the bill which my colleagues and I are introducing today is a fair and effective compromise which provides effective and timely Federal assistance, while assisting local communities to take on increasing responsibility for the protection of our water resources. I am very pleased to be among the 60 or so cosponsors of this measure, which passed both Houses of Congress unanimously.

Specifically, the legislation before us authorizes \$18 billion through fiscal 1994 to aid in the construction of sewage treatment. This figure includes \$8.4 billion for State revolving loan funds. These funds would help local communities to receive low-interest loans for future sewage construction.

A very important aspect of the bill for my State, and especially for the Susquehanna River and the Chesa-

peake Bay, is a new program to enhance control of nonpoint source pollution, such as pesticide and agricultural runoff. Nonpoint runoff is responsible for up to 50 percent of our water pollutants.

Equally important is the bill's increased controls on toxic discharges. In addition, estuaries, such as the Delaware River, and lakes, including Lake Erie, will receive increased protection.

Once more, Mr. President, I urge all my colleagues to support this measure, and help to see it enacted in the immediate future. We cannot tolerate a slowdown in construction and enforcement, and yet that is precisely what happens each day that we delay this bill.

Mr. DANFORTH. Mr. President, I am pleased to join as a cosponsor of the Water Quality Act of 1987. I think it appropriate that this bill is to be designated S. 1, since few measures considered by the 100th Congress would have as enduring an impact on our Nation.

S. 1 is identical to legislation vetoed by the President last fall. I do not take that action or the possibility of a second veto lightly. However, I am convinced that these amendments to the Clean Water Act are a responsible and necessary continuation of the Federal Government's commitment to pure, wholesome water throughout our land. Congress must never turn its back on that commitment.

Most immediately, the Water Quality Act would reauthorize the Wastewater Treatment Grants Program at a level of \$9.6 billion through 1990. Drawing on Federal funds and their own matching contributions, the States would thereafter be required to establish revolving loan accounts for new construction. Revolving funds will give each State the flexibility to tailor the Construction Grants Program to its needs, and the certainty required for advance planning. Federal funding—amounting to \$8.4 billion over fiscal years 1989 through 1994—will be earmarked for the Revolving Loan Program. In concert with construction grants, these funds should ensure an orderly phaseout of direct Federal payments and allow the States to move forward with long-term strategies for improving water quality.

I am sure that every Member of the Senate has heard from constituents on the need to reauthorize the Wastewater Treatment Grants Program. Washington's inaction has wreaked havoc on construction schedules and planning in Missouri, making compliance with Federal requirements that much more difficult. Prompt passage of the Water Quality Act would bring \$67.3 million to Missouri in each of the bill's first 3 years, and resume progress toward clean lakes, rivers, and streams throughout the Nation.

Without detailing the provisions of this legislation, I would mention that the bill addresses one threat to water quality that is particularly prevalent in rural America. Nonpoint pollution, including runoff from city streets, farm land, and mine sites, may account for as much as half of all pollution in our waters. By its very nature, though, nonpoint pollution is more difficult to control and regulate than emissions from pipes and similar "point sources."

Going beyond the Clean Water Act's current focus on municipal sewage and industrial wastes, S. 1 would authorize a new, \$400 million program to combat nonpoint pollution. Especially in rural areas, success will depend upon flexibility and popular support. Instead of imposing standards and deadlines at the Federal level, therefore, the bill would initiate new State-Federal partnership. Each State would be required to submit a plan for managing nonpoint pollution to the Environmental Protection Agency, and Federal grants would be available to States whose programs are approved. I believe that nonpoint pollution and the related issue of ground water contamination should and will be addressed by the 100th Congress; the provisions of S. 1 are an excellent place to start.

Passed in 1972, the original Clean Water Act envisioned clean rivers throughout the Nation by 1983, and the elimination of polluting discharges by 1985. Now, almost 15 years later, it is clear that these goals were overly optimistic. Still, the Clean Water Act and other Federal statutes can be credited with a real improvement in the quality of our natural environment and daily life. Many of the most serious water pollution problems of 1972 have been abated, while the decline in overall water quality has been stopped and even reversed.

Mr. President, we should not stray from a course that will lead us to fishable, swimmable waters in every part of the United States. Passage of legislation to reauthorize and improve the programs of the Clean Water Act is an essential step toward that end. I look forward to prompt and favorable action on the Water Quality Act.

Mr. KERRY. Mr. President, I am pleased to rise today as a cosponsor of S. 1, the reauthorization of the Clean Water Act. As my colleagues well know, S. 1 is identical to the conference report that passed the House and Senate unanimously at the end of the 99th Congress and was subsequently vetoed by the President.

The President's veto was a short-sighted and misguided step backward. It has set back the cause of protecting the environment for future generations. The President has clearly abdicated his duty to lead. I am confident, however, that the Congress will today begin the process of showing the ad-

ministration and the American people that when it comes to protecting the environment, we can speak harmoniously and with conviction.

S. 1 is the result of a great deal of committed work by members of the authorizing committees in both Houses of Congress who fashioned a bill that groups with many divergent interests have enthusiastically endorsed.

In addition to providing construction grant funding to States and localities that have in many cases exhausted their moneys, this legislation will strengthen restrictions on the pollution that is allowed to be discharged into the Nation's waters. Among the new provisions is one that for the first time provides funding and restrictions on so-called nonpoint source pollution which is the result of runoff from farm lands and from city streets.

S. 1 also recognizes that the needs of State and local governments in constructing treatment works has changed. Due to the success of the grants program which has provided more than \$50 billion since 1972, the end of the time when the Federal Government provides the bulk of the capital construction costs is in view. S. 1 authorizes the grants program to continue for the next several years before replacing it with seed money for States to create revolving loan funds.

Massachusetts communities have participated in and benefited from the Construction Grants Program and the result has been greatly improved water quality in the commonwealth. But in addition to providing funding for the grants program and amending the discharge restrictions, S. 1 also recognizes some of the special cases that exist in the country that warrant the participation of the Federal Government.

In one case in particular, S. 1 authorizes the appropriation of \$100 million to assist in the cleanup of Boston Harbor. While it is a small amount when compared to the \$2 billion that it is estimated it will cost to complete the job, it serves as an affirmation of the importance of the cleanup and it will provide some early help to the Massachusetts Water Resources Authority which is the local agency charged with mounting this monumental task. The conferees have responded to the efforts of the Massachusetts delegation who have worked diligently and effectively to demonstrate the unique and severe problems that face Boston Harbor's future. We are indebted to both the Senate and House conferees for their consideration in this matter.

We must be ever vigilant in our efforts to monitor the effectiveness of environmental legislation and this reauthorization reflects the research that we have accumulated in the years

since the Clean Water Act was first enacted in 1972. Certainly our unanimous vote in the last Congress indicates that a consensus exists around the need to modify and supplement environmental legislation. I am proud that today we are taking an important step toward advancing our environmental goals. I look forward to Senate floor consideration of S. 1 in the very near future.

**THE PRESIDING OFFICER.** By a previous motion the distinguished Senator from West Virginia regains the floor.

**Mr. BYRD.** Mr. President, am I still recognized?

**THE PRESIDING OFFICER.** The Senator from West Virginia.

**Mr. BYRD.** Mr. President, I do not intend to hold the floor too much longer. But I do want to hold the floor a bit longer for reasons which will become evident.

I ask unanimous consent that I may yield to the distinguished Senator from Rhode Island [Mr. CHAFEE], who wishes to speak on the same matter. He is one of the chief cosponsors of the bill. I ask unanimous consent that I may yield to him for 5 minutes without losing my right to the floor.

**THE PRESIDING OFFICER.** Without objection, it is so ordered. The Senator from Rhode Island.

**Mr. CHAFEE.** Mr. President, first I want to thank the distinguished majority leader for yielding me 5 minutes.

Second, I want to thank the chairman of our full committee for the fine comments he has made about the work I have done on this particular piece of legislation, the clean water bill, in which I am joining him today as cosponsor, the bill we passed in the conference. It came out of the conference which we had with the House last year where I was privileged to be chairman of the Senate conferees.

That bill, as has been mentioned, passed last October in the Senate by a vote of 96 to 0, and was passed in the House by a vote of 408 to 0.

I was very disappointed when the President chose to pocket-veto the bill. At that time I promised we would be back pushing hard to get the identical bill enacted as soon as Congress reconvened. That is why we are here today—to let the American people know we care about clean water and that we are going to do our best to see that this bill becomes law as soon as possible.

This bill has been 5 years in the making. Failure to move quickly on this legislation will seriously delay the cleanup of our rivers and streams and jeopardize hundreds of projects around the country, including several projects in my State of Rhode Island.

It has been charged that this legislation is "budget-busting." That is simply not the case. Although the \$18

billion authorized in the bill exceeds the administration's request, it is within current funding levels and conforms to the budget resolution. Although the \$18 billion authorized by this bill may sound like a lot of money, and exceeds the administration request, it is a small sum compared to the estimated \$100 billion needed to build all the public facilities required to clean up our waters. The bill is within current funding levels and conforms to the budget resolution.

I might say that there is an estimate that the need is for \$100 billion and we are coming in with a bill of \$18 billion, \$2.4 billion a year, which, I would point out, is less than the 1980 amount which was voted.

In 1981 we arrived at an agreement with the administration to go for 10 years at \$2.4 billion each year. When you think that this legislation at times has been as high as \$5 billion, or close to that figure, the \$2.4 billion is a reduction.

The funding level for construction grants lives up to the commitment made by Congress and the administration to support an annual appropriation of \$2.4 billion over the 10-year period of 1981 through 1991. The bill even goes one step further. It phases out the construction grants program and turns over financial responsibility for the construction of wastewater facilities to the States by 1994. It will be over. It will be done with.

This legislation, as has been pointed out, also has a major overhaul under what we call the programmatic division. That is, the changes in the standards for clean water which are very important to improving the water quality of our Nation.

The Water Quality Act of 1987 assures compliance with a strong water quality standards program and provides for greater control of toxic, conventional and nonconventional pollutants. It establishes a new program to control pollution from nonpoint sources. It continues funding of wastewater treatment works at the \$2.4 billion level through fiscal year 1991, while establishing a revolving loan fund to ease the transition to full State and local sufficiency.

I would like to take a few minutes to explain in greater detail a few of the key provisions of the bill.

The legislation tightens up several regulatory programs. One such program relates to nonconventional pollutants. Under current law modifications can be sought from strong discharge requirements for so-called nonconventional pollutants, many of which can be highly toxic. In an effort to severely limit the circumstances in which these weaker modifications can be given, the bill allows them for only five specific pollutants. If other pollutants are to be listed for a modification,

EPA must go through a special procedure.

The legislation contains provisions which severely limit the opportunities for which discharges can obtain modifications for fundamentally different factors.

The bill also contains provisions continuing the Chesapeake Bay Program; it establishes a Great Lakes Water Quality Program and sets up a new National Estuary Program which provides that management conferences develop control strategies to clean up estuaries. This is especially important to the Narragansett Bay in Rhode Island which suffers from degradation of water quality. Funds are also set aside for correction of combined sewer overflows which cause serious pollution in the Narragansett and other estuaries around the Nation.

A new Nonpoint Source Pollution Control Program is included in this legislation. The program would authorize \$400 million over 4 years for States to develop comprehensive programs to abate such pollution sources as runoff from urban areas and farmlands which are often contaminated with toxic and other pollutants.

The bill beefs up the enforcement provisions of the act by increasing penalties for civil and criminal violations and adds a new authority for the Administrator to assess administrative penalties on violators. The EPA has new authority to assess penalties against unpermitted discharges. We expect the Agency to use this authority aggressively against illegal polluters even if a memorandum of agreement is not concluded with the Secretary of the Army. The corps enforcement record against illegal dumpers is not the strongest, and now EPA would have the authority to move against these polluters.

Compliance dates for industries for which effluent guidelines have not been promulgated have been extended to March 1989, or 3 years from date of promulgation, whichever is sooner. The bill strongly encourages EPA to finalize these guidelines so industries can comply with discharge requirements as soon as possible. Until such guidelines are promulgated, the Agency is expected to proceed under its current policy with respect to non-compliance of dischargers who will not meet the deadline.

A provision establishing a progressive Stormwater Control Program is included in the bill. Although the law now requires EPA to establish discharge requirements for the stormwater point sources, the Agency has been unable to develop a final permit program for these sources. This legislation sets up a program whereby EPA must issue permits for stormwater point source discharges in municipalities with populations over 250,000

within 4 years of enactment. Within 5 years of enactment, permits for stormwater point source discharges are required in cities with populations between 100,000 and 250,000. These discharge requirements are to contain control technology or other techniques to control these discharges. Requirements for stormwater discharges associated with industrial activities are unaffected by this provision. This provision provides the guidance EPA needs to rapidly implement this control program.

The bill contains a provision with respect to antibacksliding on best practicable judgment and water quality-based permits. The thrust of this provision is to generally prohibit affected permittees from weakening their discharge requirements as a result of subsequently promulgated guidelines. Only in very narrow circumstances can backsliding be permitted, and in no event can it be permitted even if, after a discharger leaves a stream, there is an improvement in water quality unless the test antidegradation policy test is met. That test states that water quality may be lowered only if widespread adverse social and economic consequences can be demonstrated through a full intergovernmental review process.

The bill extends the current \$2.4 billion annual authorization for title II construction grants for 3 years. In fiscal years 1989 and 1990, the annual authorization for title II would be reduced to \$1.2 billion. No further authorizations would be made for title II after fiscal year 1990.

Beginning in fiscal year 1989 and continuing in fiscal year 1990, \$1.2 billion a year would be authorized specifically for capitalizing revolving loan funds under a new title VI of the law. Thereafter, the loan fund authorization would gradually be reduced by providing \$1.8 billion in fiscal year 1992, \$1.2 billion in fiscal year 1993, and \$600 million in fiscal year 1994. After 1994, all authorizations for direct Federal contributions would end.

As I mentioned earlier, this approach lives up to the commitment made by Congress and the administration to support an annual appropriation of \$2.4 billion over the 10-year period of 1981 through 1991 to meet the needs for construction of wastewater treatment facilities.

A slight change is made to the allotment formula for grants to the States and is identical to the bill approved last year.

The revolving loan fund embodied in this legislation will enable the States to eventually assume full responsibility for construction of wastewater treatment facilities in their jurisdictions.

Mr. President, I would like to conclude by saying this legislation gives

us an opportunity to renew our commitment to the national goal of making all of our waters fishable and swimmable. The Water Quality Improvement Act of 1987 strengthens the existing provision of the Clean Water Act and establishes new cleanup programs which will greatly assist us in addressing a new generation of subtle—more devastating—problems posed by toxic pollution, stormwater discharges, nonpoint pollution and contamination of sludges.

I would hope my colleagues will again give this bill a resounding show of support and work with me to pass this legislation as soon as possible so we can continue the job of cleaning up our Nation's waters.

There has been talk of the President vetoing this legislation again. That would be a drastic mistake. This bill is within the agreed upon authorization level of \$2.4 billion for wastewater treatment facilities passed by the Senate and the budget resolution. It provides for the orderly phaseout of the Construction Grants Program. And most importantly it gives the American people what has been reflected in public opinion polls conducted across the land—that they want clean water.

At this time, Mr. President, I wish to pay tribute not only to the present chairman of our committee, but also our former chairman, the distinguished Senator from Vermont [Mr. STAFFORD], who has been such a pillar in this effort from the beginning. Also, I would like to pay tribute to several other Senators who have worked so hard on this matter. Especially I would like to mention Senators MOYNIHAN, MITCHELL, and BENTSEN, as well as others, who have participated. I particularly think of those Senators.

I thank the majority leader for yielding.

The PRESIDING OFFICER. The Senator from West Virginia.

Mr. BYRD. I yield to the Senator from Wisconsin without losing my right to the floor.

Mr. KASTEN. Mr. President, as an original cosponsor of the Clean Water Act, I urge that the Senate act decisively and quickly to adopt this critical legislation.

The Clean Water Act is one of the most important pieces of Federal legislation to protect the health and safety of millions of Americans. It is one of the most fundamental Federal laws protecting our Nation's environment. We can not tolerate any delay in adopting the Clean Water Act.

Many critical improvements are made in this legislation over current law. One of the most important new sections provides for comprehensive environmental management of the Great Lakes.

The Great Lakes contain 20 percent of the world's freshwater. Fully 95

percent of our Nation's fresh surface water is contained in these five lakes.

Yet the Federal efforts to manage and protect these tremendous resources are abysmal. Currently, no Federal agency is charged with overseeing the comprehensive environmental resources of the Great Lakes. The result is a bureaucratic maze that has resulted in mismanagement and environmental damage to the lakes.

Toxics contaminate the Great Lakes in each of the eight lake States. This contamination not only threatens wildlife and recreational use of the lakes, it also threatens human health.

For 3 years we have struggled with writing and adopting legislation to correct the abuses of the lakes. On a bipartisan basis, this section is now supported. An identical measure was approved by each House of Congress last year.

The future of the Nation's waters, and particularly the Great Lakes, is too important to delay. I hope this can be the first piece of legislation adopted by the 100th Congress. That milestone would set the tone for environmental and resource protection in the years ahead.

S. 1

(The text of the bill (S. 1), the Water Quality Act of 1987, is as follows:)

S. 1

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

SECTION 1. SHORT TITLE; TABLE OF CONTENTS; AMENDMENTS TO FEDERAL WATER POLLUTION CONTROL ACT; DEFINITION OF ADMINISTRATOR.

(a) SHORT TITLE.—This Act may be cited as the "Water Quality Act of 1987".

(b) TABLE OF CONTENTS.—

Sec. 1. Short title; table of contents; amendments to Federal Water Pollution Control Act; definition of Administrator.

Sec. 2. Limitation on payments.

TITLE I—AMENDMENTS TO TITLE I

Sec. 101. Authorizations of appropriations.

Sec. 102. Small flows clearinghouse.

Sec. 103. Chesapeake Bay.

Sec. 104. Great Lakes.

Sec. 105. Research on effects of pollutants.

TITLE II—CONSTRUCTION GRANTS AMENDMENTS

Sec. 201. Time limit on resolving certain disputes.

Sec. 202. Federal share.

Sec. 203. Agreement on eligible costs.

Sec. 204. Design/build projects.

Sec. 205. Grant conditions; user charges on low-income residential users.

Sec. 206. Allotment formula.

Sec. 207. Rural set-aside.

Sec. 208. Innovative and alternative projects.

Sec. 209. Regional organization funding.

Sec. 210. Marine CSO's and estuaries.

Sec. 211. Authorization for construction grants.

Sec. 212. State water pollution control revolving funds.

Sec. 213. Improvement projects.

Sec. 214. Chicago tunnel and reservoir project.

Sec. 215. Ad valorem tax dedication.

#### TITLE III—STANDARDS AND ENFORCEMENTS

Sec. 301. Compliance dates.

Sec. 302. Modification for nonconventional pollutants.

Sec. 303. Discharges into marine waters.

Sec. 304. Filing deadline for treatment works modification.

Sec. 305. Innovative technology compliance deadlines for direct dischargers.

Sec. 306. Fundamentally different factors.

Sec. 307. Coal remining operations.

Sec. 308. Individual control strategies for toxic pollutants.

Sec. 309. Pretreatment standards.

Sec. 310. Inspection and entry.

Sec. 311. Marine sanitation devices.

Sec. 312. Criminal penalties.

Sec. 313. Civil penalties.

Sec. 314. Administrative penalties.

Sec. 315. Clean lakes.

Sec. 316. Management of nonpoint sources of pollution.

Sec. 317. National estuary program.

Sec. 318. Unconsolidated quaternary aquifer.

#### TITLE IV—PERMITS AND LICENSES

Sec. 401. Stormwater runoff from oil, gas, and mining operations.

Sec. 402. Additional pretreatment of conventional pollutants not required.

Sec. 403. Partial NPDES program.

Sec. 404. Anti-backsliding.

Sec. 405. Municipal and industrial stormwater discharges.

Sec. 406. Sewage sludge.

Sec. 407. Log transfer facilities.

#### TITLE V—MISCELLANEOUS PROVISIONS

Sec. 501. Audits.

Sec. 502. Commonwealth of the Northern Mariana Islands.

Sec. 503. Agricultural stormwater discharges.

Sec. 504. Protection of interests of United States in citizen suits.

Sec. 505. Judicial review and award of fees.

Sec. 506. Indian tribes.

Sec. 507. Definition of point source.

Sec. 508. Special provisions regarding certain dumping sites.

Sec. 509. Ocean discharge research project.

Sec. 510. San Diego, California.

Sec. 511. Limitation on discharge of raw sewage by New York City.

Sec. 512. Oakwood Beach and Red Hook Projects, New York.

Sec. 513. Boston Harbor and adjacent waters.

Sec. 514. Wastewater reclamation demonstration.

Sec. 515. Des Moines, Iowa.

Sec. 516. Study of de minimis discharges.

Sec. 517. Study of effectiveness of innovative and alternative processes and techniques.

Sec. 518. Study of testing procedures.

Sec. 519. Study of pretreatment of toxic pollutants.

Sec. 520. Studies of water pollution problems in aquifers.

Sec. 521. Great Lakes consumptive use study.

Sec. 522. Sulfide corrosion study.

Sec. 523. Study of rainfall induced infiltration into sewer systems.

Sec. 524. Dam water quality study.

Sec. 525. Study of pollution in Lake Pend Oreille, Idaho.

(c) AMENDMENT OF FEDERAL WATER POLLUTION CONTROL ACT.—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Federal Water Pollution Control Act.

(d) DEFINITION.—For purposes of this Act, the term "Administrator" means the Administrator of the Environmental Protection Agency.

#### SEC. 2. LIMITATION ON PAYMENTS.

No payments may be made under this Act except to the extent provided in advance in appropriation Acts.

#### TITLE I—AMENDMENTS TO

##### TITLE I

#### SEC. 101. AUTHORIZATIONS OF APPROPRIATIONS.

(a) RESEARCH AND INVESTIGATIONS.—Section 104(u) is amended—

(1) in clause (1) by striking out "and" after "1975," after "1980," and after "1981," and by inserting after "1982," the following: "such sums as may be necessary for fiscal years 1983 through 1985, and not to exceed \$22,770,000 per fiscal year for each of the fiscal years 1986 through 1990,";

(2) in clause (2) by striking out "and" after "1981," and by inserting after "1982," the following: "such sums as may be necessary for fiscal years 1983 through 1985, and \$3,000,000 per fiscal year for each of the fiscal years 1986 through 1990,";

(3) in clause (3) by striking out "and" after "1981," and by inserting after "1982," the following: "such sums as may be necessary for fiscal years 1983 through 1985, and \$1,500,000 per fiscal year for each of the fiscal years 1986 through 1990,".

(b) GRANTS FOR PROGRAM ADMINISTRATION.—Section 106(a)(2) is amended by inserting after "1982" the following: "such sums as may be necessary for fiscal years 1983 through 1985, and \$75,000,000 per fiscal year for each of the fiscal years 1986 through 1990,".

(c) TRAINING GRANTS AND SCHOLARSHIPS.—Section 112(c) is amended by striking out "and" after "1981," and by inserting after "1982," the following: "such sums as may be necessary for fiscal years 1983 through 1985, and \$7,000,000 per fiscal year for each of the fiscal years 1986 through 1990,".

(d) AREAWIDE PLANNING.—Section 208(f)(3) is amended by striking out "and" after "1974," and after "1980," and by inserting after "1982" the following: "and such sums as may be necessary for fiscal years 1983 through 1990,".

(e) RURAL CLEAN WATER.—Section 208(j)(9) is amended by striking out "and" after "1981," and by inserting after "1982," the following: "and such sums as may be necessary for fiscal years 1983 through 1990,".

(f) INTERAGENCY AGREEMENTS.—Section 304(k)(3) is amended by inserting after "1983" the following: "and such sums as may be necessary for fiscal years 1984 through 1990,".

(g) CLEAN LAKES.—Section 314(c)(2) is amended by striking out "and" after "1981," and by inserting after "1982" the following: "such sums as may be necessary for fiscal years 1983 through 1985, and \$30,000,000 per fiscal year for each of the fiscal years 1986 through 1990,".

(h) GENERAL AUTHORIZATION.—Section 517 is amended by striking out "and" after "1981," and by inserting after "1982" the following: "such sums as may be necessary for fiscal years 1983 through 1985, and

\$135,000,000 per fiscal year for each of the fiscal years 1986 through 1990".

#### SEC. 102. SMALL FLOWS CLEARINGHOUSE.

Section 104(q) is amended by adding at the end thereof the following new paragraph:

"(4) SMALL FLOWS CLEARINGHOUSE.—Notwithstanding section 205(d) of this Act, from amounts that are set aside for a fiscal year under section 205(i) of this Act and are not obligated by the end of the 24-month period of availability for such amounts under section 205(d), the Administrator shall make available \$1,000,000 or such unobligated amount, whichever is less, to support a national clearinghouse within the Environmental Protection Agency to collect and disseminate information on small flows of sewage and innovative or alternative wastewater treatment processes and techniques, consistent with paragraph (3). This paragraph shall apply with respect to amounts set aside under section 205(i) for which the 24-month period of availability referred to in the preceding sentence ends on or after September 30, 1986."

#### SEC. 103. CHESAPEAKE BAY.

Title I is amended by adding at the end the following new section:

##### "SEC. 117. CHESAPEAKE BAY.

"(a) OFFICE.—The Administrator shall continue the Chesapeake Bay Program and shall establish and maintain in the Environmental Protection Agency an office, division, or branch of Chesapeake Bay Programs to—

"(1) collect and make available, through publications and other appropriate means, information pertaining to the environmental quality of the Chesapeake Bay (hereinafter in this subsection referred to as the 'Bay');

"(2) coordinate Federal and State efforts to improve the water quality of the Bay;

"(3) determine the impact of sediment deposition in the Bay and identify the sources, rates, routes, and distribution patterns of such sediment deposition; and

"(4) determine the impact of natural and man-induced environmental changes on the living resources of the Bay and the relationships among such changes, with particular emphasis placed on the impact of pollutant loadings of nutrients, chlorine, acid precipitation, dissolved oxygen, and toxic pollutants, including organic chemicals and heavy metals, and with special attention given to the impact of such changes on striped bass.

##### "(b) INTERSTATE DEVELOPMENT PLAN GRANTS.—

"(1) AUTHORITY.—The Administrator shall, at the request of the Governor of a State affected by the interstate management plan developed pursuant to the Chesapeake Bay Program (hereinafter in this section referred to as the 'plan'), make a grant for the purpose of implementing the management mechanisms contained in the plan if such State has, within 1 year after the date of the enactment of this section, approved and committed to implement all or substantially all aspects of the plan. Such grants shall be made subject to such terms and conditions as the Administrator considers appropriate.

"(2) SUBMISSION OF PROPOSAL.—A State or combination of States may elect to avail itself of the benefits of this subsection by submitting to the Administrator a comprehensive proposal to implement management mechanisms contained in the plan which shall include (A) a description of proposed abatement actions which the State or com-

bination of States commits to take within a specified time period to reduce pollution in the Bay and to meet applicable water quality standards, and (B) the estimated cost of the abatement actions proposed to be taken during the next fiscal year. If the Administrator finds that such proposal is consistent with the national policies set forth in section 101(a) of this Act and will contribute to the achievement of the national goals set forth in such section, the Administrator shall approve such proposal and shall finance the costs of implementing segments of such proposal.

"(3) **FEDERAL SHARE.**—Grants under this subsection shall not exceed 50 percent of the costs of implementing the management mechanisms contained in the plan in any fiscal year and shall be made on condition that non-Federal sources provide the remainder of the cost of implementing the management mechanisms contained in the plan during such fiscal year.

"(4) **ADMINISTRATIVE COSTS.**—Administrative costs in the form of salaries, overhead, or indirect costs for services provided and charged against programs or projects supported by funds made available under this subsection shall not exceed in any one fiscal year 10 percent of the annual Federal grant made to a State under this subsection.

"(c) **REPORTS.**—Any State or combination of States that receives a grant under subsection (b) shall, within 18 months after the date of receipt of such grant and biennially thereafter, report to the Administrator on the progress made in implementing the interstate management plan developed pursuant to the Chesapeake Bay Program. The Administrator shall transmit each such report along with the comments of the Administrator on such report to Congress.

"(d) **AUTHORIZATION OF APPROPRIATIONS.**—There are hereby authorized to be appropriated the following sums, to remain available until expended, to carry out the purposes of this section:

"(1) \$3,000,000 per fiscal year for each of the fiscal years 1987, 1988, 1989, and 1990, to carry out subsection (a); and

"(2) \$10,000,000 per fiscal year for each of the fiscal years 1987, 1988, 1989, and 1990, for grants to States under subsection (b)."

#### SEC. 104. GREAT LAKES.

Title I is amended by adding at the end the following new section:

#### "SEC. 118. GREAT LAKES.

"(a) **FINDINGS, PURPOSE, AND DEFINITIONS.**—

"(1) **FINDINGS.**—The Congress finds that—  
"(A) the Great Lakes are a valuable national resource, continuously serving the people of the United States and other nations as an important source of food, fresh water, recreation, beauty, and enjoyment;

"(B) the United States should seek to attain the goals embodied in the Great Lakes Water Quality Agreement of 1978 with particular emphasis on goals related to toxic pollutants; and

"(C) the Environmental Protection Agency should take the lead in the effort to meet those goals, working with other Federal agencies and State and local authorities.

"(2) **PURPOSE.**—It is the purpose of this section to achieve the goals embodied in the Great Lakes Water Quality Agreement of 1978 through improved organization and definition of mission on the part of the Agency, funding of State grants for pollution control in the Great Lakes area, and improved accountability for implementation of such agreement.

"(3) **DEFINITIONS.**—For purposes of this section, the term—

"(A) 'Agency' means the Environmental Protection Agency;

"(B) 'Great Lakes' means Lake Ontario, Lake Erie, Lake Huron (including Lake St. Clair), Lake Michigan, and Lake Superior, and the connecting channels (Saint Mary's River, Saint Clair River, Detroit River, Niagara River, and Saint Lawrence River to the Canadian Border);

"(C) 'Great Lakes System' means all the streams, rivers, lakes, and other bodies of water within the drainage basin of the Great Lakes;

"(D) 'Program Office' means the Great Lakes National Program Office established by this section; and

"(E) 'Research Office' means the Great Lakes Research Office established by subsection (d).

"(b) **GREAT LAKES NATIONAL PROGRAM OFFICE.**—The Great Lakes National Program Office (previously established by the Administrator) is hereby established within the Agency. The Program Office shall be headed by a Director who, by reason of management experience and technical expertise relating to the Great Lakes, is highly qualified to direct the development of programs and plans on a variety of Great Lakes issues. The Great Lakes National Program Office shall be located in a Great Lakes State.

"(c) **GREAT LAKES MANAGEMENT.**—

"(1) **FUNCTIONS.**—The Program Office shall—

"(A) in cooperation with appropriate Federal, State, tribal, and international agencies, and in accordance with section 101(e) of this Act, develop and implement specific action plans to carry out the responsibilities of the United States under the Great Lakes Water Quality Agreement of 1978;

"(B) establish a Great Lakes system-wide surveillance network to monitor the water quality of the Great Lakes, with specific emphasis on the monitoring of toxic pollutants;

"(C) serve as the liaison with, and provide information to, the Canadian members of the International Joint Commission and the Canadian counterpart to the Agency;

"(D) coordinate actions of the Agency (including actions by headquarters and regional offices thereof) aimed at improving Great Lakes water quality; and

"(E) coordinate actions of the Agency with the actions of other Federal agencies and State and local authorities, so as to ensure the input of those agencies and authorities in developing water quality strategies and obtain the support of those agencies and authorities in achieving the objectives of such agreement.

"(2) **5-YEAR PLAN AND PROGRAM.**—The Program Office shall develop, in consultation with the States, a five-year plan and program for reducing the amount of nutrients introduced into the Great Lakes. Such program shall incorporate any management program for reducing nutrient runoff from nonpoint sources established under section 319 of this Act and shall include a program for monitoring nutrient runoff into, and ambient levels in, the Great Lakes.

"(3) **5-YEAR STUDY AND DEMONSTRATION PROJECTS.**—The Program Office shall carry out a five-year study and demonstration projects relating to the control and removal of toxic pollutants in the Great Lakes, with emphasis on the removal of toxic pollutants from bottom sediments. In selecting locations for conducting demonstration projects

under this paragraph, priority consideration shall be given to projects at the following locations: Saginaw Bay, Michigan; Sheboygan Harbor, Wisconsin; Grand Calumet River, Indiana; Ashtabula River, Ohio; and Buffalo River, New York.

"(4) **ADMINISTRATOR'S RESPONSIBILITY.**—The Administrator shall ensure that the Program Office enters into agreements with the various organizational elements of the Agency involved in Great Lakes activities and the appropriate State agencies specifically delineating—

"(A) the duties and responsibilities of each such element in the Agency with respect to the Great Lakes;

"(B) the time periods for carrying out such duties and responsibilities; and

"(C) the resources to be committed to such duties and responsibilities.

"(5) **BUDGET ITEM.**—The Administrator shall, in the Agency's annual budget submission to Congress, include a funding request for the Program Office as a separate budget line item.

"(6) **COMPREHENSIVE REPORT.**—Within 90 days after the end of each fiscal year, the Administrator shall submit to Congress a comprehensive report which—

"(A) describes the achievements in the preceding fiscal year in implementing the Great Lakes Water Quality Agreement of 1978 and shows by categories (including judicial enforcement, research, State cooperative efforts, and general administration) the amounts expended on Great Lakes water quality initiatives in such preceding fiscal year;

"(B) describes the progress made in such preceding fiscal year in implementing the system of surveillance of the water quality in the Great Lakes System, including the monitoring of groundwater and sediment, with particular reference to toxic pollutants;

"(C) describes the long-term prospects for improving the condition of the Great Lakes; and

"(D) provides a comprehensive assessment of the planned efforts to be pursued in the succeeding fiscal year for implementing the Great Lakes Water Quality Agreement of 1978, which assessment shall—

"(i) show by categories (including judicial enforcement, research, State cooperative efforts, and general administration) the amount anticipated to be expended on Great Lakes water quality initiatives in the fiscal year to which the assessment relates; and

"(ii) include a report of current programs administered by other Federal agencies which make available resources to the Great Lakes water quality management efforts.

"(d) **GREAT LAKES RESEARCH.**—

"(1) **ESTABLISHMENT OF RESEARCH OFFICE.**—There is established within the National Oceanic and Atmospheric Administration the Great Lakes Research Office.

"(2) **IDENTIFICATION OF ISSUES.**—The Research Office shall identify issues relating to the Great Lakes resources on which research is needed. The Research Office shall submit a report to Congress on such issues before the end of each fiscal year which shall identify any changes in the Great Lakes system with respect to such issues.

"(3) **INVENTORY.**—The Research Office shall identify and inventory Federal, State, university, and tribal environmental research programs (and, to the extent feasible, those of private organizations and other nations) relating to the Great Lakes system,

and shall update that inventory every four years.

"(4) **RESEARCH EXCHANGE.**—The Research Office shall establish a Great Lakes research exchange for the purpose of facilitating the rapid identification, acquisition, retrieval, dissemination, and use of information concerning research projects which are ongoing or completed and which affect the Great Lakes System.

"(5) **RESEARCH PROGRAM.**—The Research Office shall develop, in cooperation with the Coordination Office, a comprehensive environmental research program and data base for the Great Lakes system. The data base shall include, but not be limited to, data relating to water quality, fisheries, and biota.

"(6) **MONITORING.**—The Research Office shall conduct, through the Great Lakes Environmental Research Laboratory, the National Sea Grant College program, other Federal laboratories, and the private sector, appropriate research and monitoring activities which address priority issues and current needs relating to the Great Lakes.

"(7) **LOCATION.**—The Research Office shall be located in a Great Lakes State.

"(e) **RESEARCH AND MANAGEMENT COORDINATION.**—

"(1) **JOINT PLAN.**—Before October 1 of each year, the Program Office and the Research Office shall prepare a joint research plan for the fiscal year which begins in the following calendar year.

"(2) **CONTENTS OF PLAN.**—Each plan prepared under paragraph (1) shall—

"(A) identify all proposed research dedicated to activities conducted under the Great Lakes Water Quality Agreement of 1978;

"(B) include the Agency's assessment of priorities for research needed to fulfill the terms of such Agreement; and

"(C) identify all proposed research that may be used to develop a comprehensive environmental data base for the Great Lakes System and establish priorities for development of such data base.

"(f) **INTERAGENCY COOPERATION.**—The head of each department, agency, or other instrumentality of the Federal Government which is engaged in, is concerned with, or has authority over programs relating to research, monitoring, and planning to maintain, enhance, preserve, or rehabilitate the environmental quality and natural resources of the Great Lakes, including the Chief of Engineers of the Army, the Chief of the Soil Conservation Service, the Commandant of the Coast Guard, the Director of the Fish and Wildlife Service, and the Administrator of the National Oceanic and Atmospheric Administration, shall submit an annual report to the Administrator with respect to the activities of that agency or office affecting compliance with the Great Lakes Water Quality Agreement of 1978.

"(g) **RELATIONSHIP TO EXISTING FEDERAL AND STATE LAWS AND INTERNATIONAL TREATIES.**—Nothing in this section shall be construed to affect the jurisdiction, powers, or prerogatives of any department, agency, or officer of the Federal Government or of any State government, or of any tribe, nor any powers, jurisdiction, or prerogatives of any international body created by treaty with authority relating to the Great Lakes.

"(h) **AUTHORIZATIONS OF GREAT LAKES APPROPRIATIONS.**—There are authorized to be appropriated to the Administrator to carry out this section not to exceed \$11,000,000 per fiscal year for the fiscal years 1987, 1988, 1989, 1990, and 1991. Of the amounts appropriated each fiscal year—

"(1) 40 percent shall be used by the Great Lakes National Program Office on demonstration projects on the feasibility of controlling and removing toxic pollutants;

"(2) 7 percent shall be used by the Great Lakes National Program Office for the program of nutrient monitoring; and

"(3) 30 percent shall be transferred to the National Oceanic and Atmospheric Administration for use by the Great Lakes Research Office."

#### SEC. 105. RESEARCH ON EFFECTS OF POLLUTANTS.

In carrying out the provisions of section 104(a) of the Federal Water Pollution Control Act, the Administrator shall conduct research on the harmful effects on the health and welfare of persons caused by pollutants in water, in conjunction with the United States Fish and Wildlife Service, the National Oceanic and Atmospheric Administration, and other Federal, State, and interstate agencies carrying on such research. Such research shall include, and shall place special emphasis on, the effect that bioaccumulation of these pollutants in aquatic species has upon reducing the value of aquatic commercial and sport industries. Such research shall further study methods to reduce and remove these pollutants from the relevant affected aquatic species so as to restore and enhance these valuable resources.

### TITLE II—CONSTRUCTION GRANTS AMENDMENTS

#### SEC. 201. TIME LIMIT ON RESOLVING CERTAIN DISPUTES.

Section 201 is amended by adding at the end thereof the following new subsection:

"(p) **TIME LIMIT ON RESOLVING CERTAIN DISPUTES.**—In any case in which a dispute arises with respect to the awarding of a contract for construction of treatment works by a grantee of funds under this title and a party to such dispute files an appeal with the Administrator under this title for resolution of such dispute, the Administrator shall make a final decision on such appeal within 90 days of the filing of such appeal."

#### SEC. 202. FEDERAL SHARE.

(a) **LIMITATION ON ELIGIBILITY AFTER 1990.**—The last sentence of section 202(a)(1) is amended by inserting before the period at the end the following: "for any grant made pursuant to a State obligation which obligation occurred before October 1, 1990".

(b) **PROJECTS UNDER JUDICIAL INJUNCTION.**—Section 202(a)(1) is amended by adding at the end thereof the following: "Notwithstanding the first sentence of this paragraph, in the case of a project for which an application for a grant under this title has been made to the Administrator before October 1, 1984, and which project is under judicial injunction on such date prohibiting its construction, such project shall be eligible for grants at 75 percent of the cost of construction thereof."

(c) **PROJECTS UNDER JUDICIAL ORDER AND OTHER PROJECTS.**—Section 202(a)(1) is amended by adding at the end thereof the following: "Notwithstanding the first sentence of this paragraph, in the case of the Wyoming Valley Sanitary Authority project mandated by judicial order under a proceeding begun prior to October 1, 1984, and a project for wastewater treatment for Altoona, Pennsylvania, such projects shall be eligible for grants at 75 percent of the cost of construction thereof."

(d) **BIODISC EQUIPMENT.**—Section 202(a)(3) is amended by adding at the end thereof the following: "In addition, the Administrator is authorized to make a grant to fund all of

the costs of the modification or replacement of biodisc equipment (rotating biological contactors) in any publicly owned treatment works if the Administrator finds that such equipment has failed to meet design performance specifications, unless such failure is attributable to negligence on the part of any person, and if such failure has significantly increased capital or operating and maintenance expenditures."

(e) **INNOVATIVE PROCESS.**—The activated bio-filter feature of the project for treatment works of the city of Little Falls, Minnesota, shall be deemed to be an innovative wastewater process and technique for purposes of section 202(a)(2) of the Federal Water Pollution Control Act and the amount of any grant under such Act for such feature shall be 85 percent of the cost thereof.

(f) **AVAILABILITY OF CERTAIN FUNDS FOR NON-FEDERAL SHARE.**—Notwithstanding any other provision of law, Federal assistance made available by the Farmers Home Administration to any political subdivision of a State may be used to provide the non-Federal share of the cost of any construction project carried out under section 201 of the Federal Water Pollution Control Act.

#### SEC. 203. AGREEMENT ON ELIGIBLE COSTS.

Section 203(a) is amended by inserting "(1)" after "(a)", by designating the last sentence as paragraph (3) and indenting such sentence as a paragraph, and by inserting before paragraph (3) as so designated the following:

"(2) **AGREEMENT ON ELIGIBLE COSTS.**—

"(A) **LIMITATION ON MODIFICATIONS.**—Before taking final action on any plans, specifications, and estimates submitted under this subsection after the 60th day following the date of the enactment of the Water Quality Act of 1987, the Administrator shall enter into a written agreement with the applicant which establishes and specifies which items of the proposed project are eligible for Federal payments under this section. The Administrator may not later modify such eligibility determinations unless they are found to have been made in violation of applicable Federal statutes and regulations.

"(B) **LIMITATION ON EFFECT.**—Eligibility determinations under this paragraph shall not preclude the Administrator from auditing a project pursuant to section 501 of this Act, or other authority, or from withholding or recovering Federal funds for costs which are found to be unreasonable, unsupported by adequate documentation, or otherwise unlawful under applicable Federal cost principles, or which are incurred on a project which fails to meet the design specifications or effluent limitations contained in the grant agreement and permit pursuant to section 402 of this Act for such project."

#### SEC. 204. DESIGN/BUILD PROJECTS.

Section 203 is amended by adding at the end the following new subsection:

"(f) **DESIGN/BUILD PROJECTS.**—

"(1) **AGREEMENT.**—Consistent with State law, an applicant who proposes to construct waste water treatment works may enter into an agreement with the Administrator under this subsection providing for the preparation of construction plans and specifications and the erection of such treatment works, in lieu of proceeding under the other provisions of this section.

"(2) **LIMITATION ON PROJECTS.**—Agreements under this subsection shall be limited to projects under an approved facility plan which projects are—

"(A) treatment works that have an estimated total cost of \$8,000,000 or less; and

"(B) any of the following types of waste water treatment systems: aerated lagoons, trickling filters, stabilization ponds, land application systems, sand filters, and subsurface disposal systems.

"(3) REQUIRED TERMS.—An agreement entered into under this subsection shall—

"(A) set forth an amount agreed to as the maximum Federal contribution to the project, based upon a competitively bid document of basic design data and applicable standard construction specifications and a determination of the federally eligible costs of the project at the applicable Federal share under section 202 of this Act;

"(B) set forth dates for the start and completion of construction of the treatment works by the applicant and a schedule of payments of the Federal contribution to the project;

"(C) contain assurances by the applicant that (i) engineering and management assistance will be provided to manage the project; (ii) the proposed treatment works will be an operable unit and will meet all the requirements of this title; and (iii) not later than 1 year after the date specified as the date of completion of construction of the treatment works, the treatment works will be operating so as to meet the requirements of any applicable permit for such treatment works under section 402 of this Act;

"(D) require the applicant to obtain a bond from the contractor in an amount determined necessary by the Administrator to protect the Federal interest in the project; and

"(E) contain such other terms and conditions as are necessary to assure compliance with this title (except as provided in paragraph (4) of this subsection).

"(4) LIMITATION ON APPLICATION.—Subsections (a), (b), and (c) of this section shall not apply to grants made pursuant to this subsection.

"(5) RESERVATION TO ASSURE COMPLIANCE.—The Administrator shall reserve a portion of the grant to assure contract compliance until final project approval as defined by the Administrator. If the amount agreed to under paragraph (3)(A) exceeds the cost of designing and constructing the treatment works, the Administrator shall reallocate the amount of the excess to the State in which such treatment works are located for the fiscal year in which such audit is completed.

"(6) LIMITATION ON OBLIGATIONS.—The Administrator shall not obligate more than 20 percent of the amount allotted to a State for a fiscal year under section 205 of this Act for grants pursuant to this subsection.

"(7) ALLOWANCE.—The Administrator shall determine an allowance for facilities planning for projects constructed under this subsection in accordance with section 201(l).

"(8) LIMITATION ON FEDERAL CONTRIBUTIONS.—In no event shall the Federal contribution for the cost of preparing construction plans and specifications and the building and erection of treatment works pursuant to this subsection exceed the amount agreed upon under paragraph (3).

"(9) RECOVERY ACTION.—In any case in which the recipient of a grant made pursuant to this subsection does not comply with the terms of the agreement entered into under paragraph (3), the Administrator is authorized to take such action as may be necessary to recover the amount of the Federal contribution to the project.

"(10) PREVENTION OF DOUBLE BENEFITS.—A recipient of a grant made pursuant to this

subsection shall not be eligible for any other grants under this title for the same project."

#### SEC. 205. GRANT CONDITIONS; USER CHARGES ON LOW-INCOME RESIDENTIAL USERS.

(a) INCLUSION OF PROJECT IN AREAWIDE PLAN.—Section 204(a)(1) is amended to read as follows:

"(1) that any required areawide waste treatment management plan under section 208 of this Act (A) is being implemented for such area and the proposed treatment works are included in such plan, or (B) is being developed for such area and reasonable progress is being made toward its implementation and the proposed treatment works will be included in such plan."

(b) CONTINUING PLANNING PROCESS.—Section 204(a)(2) is amended to read as follows:

"(2) that (A) the State in which the project is to be located (i) is implementing any required plan under section 303(e) of this Act and the proposed treatment works are in conformity with such plan, or (ii) is developing such a plan and the proposed treatment works will be in conformity with such plan, and (B) such State is in compliance with section 305(b) of this Act."

(c) USER CHARGES ON LOW-INCOME RESIDENTIAL USERS.—Section 204(b)(1) is amended by adding at the end thereof the following: "A system of user charges which imposes a lower charge for low-income residential users (as defined by the Administrator) shall be deemed to be a user charge system meeting the requirements of clause (A) of this paragraph if the Administrator determines that such system was adopted after public notice and hearing."

(d) EFFECTIVE DATE.—This section shall take effect on the date of the enactment of this Act, except that the amendments made by subsections (a) and (b) shall take effect on the last day of the two-year period beginning on such date of enactment.

#### SEC. 206. ALLOTMENT FORMULA.

(a) FORMULA.—

(1) EXTENSION OF EXISTING FORMULA FOR 1986.—Section 205(c)(2) is amended by striking out "and September 30, 1985," and inserting in lieu thereof "September 30, 1985, and September 30, 1986,".

(2) FISCAL YEARS 1987-1990.—Section 205(c) is amended by adding at the end the following new paragraph:

"(3) FISCAL YEARS 1987-1990.—Sums authorized to be appropriated pursuant to section 207 for the fiscal years 1987, 1988, 1989, and 1990 shall be allotted for each such year by the Administrator not later than the 10th day which begins after the date of the enactment of this paragraph. Sums authorized for such fiscal years shall be allotted in accordance with the following table:

"States:

Alabama.....	.011309
Alaska.....	.006053
Arizona.....	.006831
Arkansas.....	.006616
California.....	.072333

Virgin Islands.....	.000527"

(b) EXTENSION OF MINIMUM ALLOTMENTS.—Section 205(e) is amended by striking out "and 1985" each place it appears and inserting in lieu thereof "1985, 1986, 1987, 1988, 1989, and 1990".

(c) COSTS OF ADMINISTRATION.—Section 205(g)(1) is amended by striking out "October 1, 1985" and inserting in lieu thereof "October 1, 1994".

(d) CONTROL OF POLLUTANTS FROM STORM SEWERS.—Section 211(c) is amended by striking out "1985," and inserting in lieu thereof "1990,".

#### SEC. 207. RURAL SET ASIDE.

(a) INCREASE IN MANDATORY SET ASIDE FOR RURAL STATES.—The first sentence of section 205(h) is amended by striking out "four per centum" and inserting in lieu thereof "a total (as determined by the Governor of the State) of not less than 4 percent nor more than 7½ percent".

(b) INCREASE IN AUTHORIZED SET ASIDE FOR OTHER STATES.—The second sentence of section 205(h) is amended by striking out "four per centum" and inserting in lieu thereof "7½ percent".

#### SEC. 208. INNOVATIVE AND ALTERNATIVE PROJECTS.

Section 205(i) is amended to read as follows:

"(i) SET-ASIDE FOR INNOVATIVE AND ALTERNATIVE PROJECTS.—Not less than ½ of 1 percent of funds allotted to a State for each of the fiscal years ending September 30, 1979, through September 30, 1990, under subsection (c) of this section shall be expended only for increasing the Federal share of grants for construction of treatment works utilizing innovative processes and techniques pursuant to section 202(a)(2) of this Act. Including the expenditures authorized by the preceding sentence, a total of 2 percent of the funds allotted to a State for each of the fiscal years ending September

30, 1979, and September 30, 1980, and 3 percent of the funds allotted to a State for the fiscal year ending September 30, 1981, under subsection (c) of this section shall be expended only for increasing grants for construction of treatment works pursuant to section 202(a)(2) of this Act. Including the expenditures authorized by the first sentence of this subsection, a total (as determined by the Governor of the State) of not less than 4 percent nor more than 7½ percent of the funds allotted to such State under subsection (c) of this section for each of the fiscal years ending September 30, 1982, through September 30, 1990, shall be expended only for increasing the Federal share of grants for construction of treatment works pursuant to section 202(a)(2) of this Act."

#### SEC. 209. REGIONAL ORGANIZATION FUNDING.

Section 205(j)(3) is amended by adding at the end thereof the following: "In giving such priority, the State shall allocate at least 40 percent of the amount granted to such State for a fiscal year under paragraph (2) of this subsection to regional public comprehensive planning organizations in such State and appropriate interstate organizations for the development and implementation of the plan described in this paragraph. In any fiscal year for which the Governor, in consultation with such organizations and with the approval of the Administrator, determines that allocation of at least 40 percent of such amount to such organizations will not result in significant participation by such organizations in water quality management planning and not significantly assist in development and implementation of the plan described in this paragraph and achieving the goals of this Act, the allocation to such organization may be less than 40 percent of such amount."

#### SEC. 210. MARINE CSO'S AND ESTUARIES.

Section 205 is amended by adding at the end thereof the following new subsection:

##### "(1) MARINE ESTUARY RESERVATION.—

##### "(1) RESERVATION OF FUNDS.—

"(A) GENERAL RULE.—Prior to making allotments among the States under subsection (c) of this section, the Administrator shall reserve funds from sums appropriated pursuant to section 207 for each fiscal year beginning after September 30, 1986.

"(B) FISCAL YEARS 1987 AND 1988.—For each of fiscal years 1987 and 1988 the reservation shall be 1 percent of the sums appropriated pursuant to section 207 for such fiscal year.

"(C) FISCAL YEARS 1989 AND 1990.—For each of fiscal years 1989 and 1990 the reservation shall be 1½ percent of the funds appropriated pursuant to section 207 for such fiscal year.

"(2) USE OF FUNDS.—Of the sums reserved under this subsection, two-thirds shall be available to address water quality problems of marine bays and estuaries subject to lower levels of water quality due to the impacts of discharges from combined storm water and sanitary sewer overflows from adjacent urban complexes, and one-third shall be available for the implementation of section 320 of this Act, relating to the national estuary program.

"(3) PERIOD OF AVAILABILITY.—Sums reserved under this subsection shall be subject to the period of availability for obligation established by subsection (d) of this section.

"(4) TREATMENT OF CERTAIN BODY OF WATER.—For purposes of this section and section 201(n), Newark Bay, New Jersey, and the portion of the Passaic River up to Little Falls, in the vicinity of Beatties Dam,

shall be treated as a marine bay and estuary."

#### SEC. 211. AUTHORIZATIONS FOR CONSTRUCTION GRANTS.

Section 207 is amended by striking out the period at the end thereof and inserting in lieu thereof the following: "; and for each of the fiscal years ending September 30, 1986, September 30, 1987, and September 30, 1988, not to exceed \$2,400,000,000; and for each of the fiscal years ending September 30, 1989, and September 30, 1990, not to exceed \$1,200,000,000."

#### SEC. 212. STATE WATER POLLUTION CONTROL REVOLVING FUNDS.

(a) ESTABLISHMENT OF PROGRAM.—The Act is amended by adding at the end thereof the following new title:

##### "TITLE VI—STATE WATER POLLUTION CONTROL REVOLVING FUNDS

##### "SEC. 601. GRANTS TO STATES FOR ESTABLISHMENT OF REVOLVING FUNDS.

"(a) GENERAL AUTHORITY.—Subject to the provisions of this title, the Administrator shall make capitalization grants to each State for the purpose of establishing a water pollution control revolving fund for providing assistance (1) for construction of treatment works (as defined in section 212 of this Act) which are publicly owned, (2) for implementing a management program under section 319, and (3) for developing and implementing a conservation and management plan under section 320.

"(b) SCHEDULE OF GRANT PAYMENTS.—The Administrator and each State shall jointly establish a schedule of payments under which the Administrator will pay to the State the amount of each grant to be made to the State under this title. Such schedule shall be based on the State's intended use plan under section 606(c) of this Act, except that—

"(1) such payments shall be made in quarterly installments, and

"(2) such payments shall be made as expeditiously as possible, but in no event later than the earlier of—

"(A) eight quarters after the date such funds were obligated by the State, or

"(B) twelve quarters after the date such funds were allotted to the State.

##### "SEC. 602. CAPITALIZATION GRANT AGREEMENTS.

"(a) GENERAL RULE.—To receive a capitalization grant with funds made available under this title and section 205(m) of this Act, a State shall enter into an agreement with the Administrator which shall include but not be limited to the specifications set forth in subsection (b) of this section.

"(b) SPECIFIC REQUIREMENTS.—The Administrator shall enter into an agreement under this section with a State only after the State has established to the satisfaction of the Administrator that—

"(1) the State will accept grant payments with funds to be made available under this title and section 205(m) of this Act in accordance with a payment schedule established jointly by the Administrator under section 601(b) of this Act and will deposit all such payments in the water pollution control revolving fund established by the State in accordance with this title;

"(2) the State will deposit in the fund from State moneys an amount equal to at least 20 percent of the total amount of all capitalization grants which will be made to the State with funds to be made available under this title and section 205(m) of this Act on or before the date on which each quarterly grant payment will be made to the State under this title;

"(3) the State will enter into binding commitments to provide assistance in accordance with the requirements of this title in an amount equal to 120 percent of the amount of each such grant payment within 1 year after the receipt of such grant payment;

"(4) all funds in the fund will be expended in an expeditious and timely manner;

"(5) all funds in the fund as a result of capitalization grants under this title and section 205(m) of this Act will first be used to assure maintenance of progress, as determined by the Governor of the State, toward compliance with enforceable deadlines, goals, and requirements of this Act, including the municipal compliance deadline;

"(6) treatment works eligible under section 603(c)(1) of this Act which will be constructed in whole or in part before fiscal year 1995 with funds directly made available by capitalization grants under this title and section 205(m) of this Act will meet the requirements of, or otherwise be treated (as determined by the Governor of the State) under sections 201(b), 201(g)(1), 201(g)(2), 201(g)(3), 201(g)(5), 201(g)(6), 201(n)(1), 201(o), 204(a)(1), 204(a)(2), 204(b)(1), 204(d)(2), 211, 218, 511(c)(1), and 513 of this Act in the same manner as treatment works constructed with assistance under title II of this Act;

"(7) in addition to complying with the requirements of this title, the State will commit or expend each quarterly grant payment which it will receive under this title in accordance with laws and procedures applicable to the commitment or expenditure of revenues of the State;

"(8) in carrying out the requirements of section 606 of this Act, the State will use accounting, audit, and fiscal procedures conforming to generally accepted government accounting standards;

"(9) the State will require as a condition of making a loan or providing other assistance, as described in section 603(d) of this Act, from the fund that the recipient of such assistance will maintain project accounts in accordance with generally accepted government accounting standards; and

"(10) the State will make annual reports to the Administrator on the actual use of funds in accordance with section 606(d) of this Act.

##### "SEC. 603. WATER POLLUTION CONTROL REVOLVING LOAN FUNDS.

"(a) REQUIREMENTS FOR OBLIGATION OF GRANT FUNDS.—Before a State may receive a capitalization grant with funds made available under this title and section 205(m) of this Act, the State shall first establish a water pollution control revolving fund which complies with the requirements of this section.

"(b) ADMINISTRATION.—Each State water pollution control revolving fund shall be administered by an instrumentality of the State with such powers and limitations as may be required to operate such fund in accordance with the requirements and objectives of this Act.

"(c) PROJECTS ELIGIBLE FOR ASSISTANCE.—The amounts of funds available to each State water pollution control revolving fund shall be used only for providing financial assistance (1) to any municipality, intermunicipal, interstate, or State agency for construction of publicly owned treatment works (as defined in section 212 of this Act), (2) for the implementation of a management program established under section 319 of this Act, and (3) for development and imple-

mentation of a conservation and management plan under section 320 of this Act. The fund shall be established, maintained, and credited with repayments, and the fund balance shall be available in perpetuity for providing such financial assistance.

"(d) TYPES OF ASSISTANCE.—Except as otherwise limited by State law, a water pollution control revolving fund of a State under this section may be used only—

"(1) to make loans, on the condition that—

"(A) such loans are made at or below market interest rates, including interest free loans, at terms not to exceed 20 years;

"(B) annual principal and interest payments will commence not later than 1 year after completion of any project and all loans will be fully amortized not later than 20 years after project completion;

"(C) the recipient of a loan will establish a dedicated source of revenue for repayment of loans; and

"(D) the fund will be credited with all payments of principal and interest on all loans;

"(2) to buy or refinance the debt obligation of municipalities and intermunicipal and interstate agencies within the State at or below market rates, where such debt obligations were incurred after March 7, 1985;

"(3) to guarantee, or purchase insurance for, local obligations where such action would improve credit market access or reduce interest rates;

"(4) as a source of revenue or security for the payment of principal and interest on revenue or general obligation bonds issued by the State if the proceeds of the sale of such bonds will be deposited in the fund;

"(5) to provide loan guarantees for similar revolving funds established by municipalities or intermunicipal agencies;

"(6) to earn interest on fund accounts; and

"(7) for the reasonable costs of administering the fund and conducting activities under this title, except that such amounts shall not exceed 4 percent of all grant awards to such fund under this title.

"(e) LIMITATION TO PREVENT DOUBLE BENEFITS.—If a State makes, from its water pollution revolving fund, a loan which will finance the cost of facility planning and the preparation of plans, specifications, and estimates for construction of publicly owned treatment works, the State shall ensure that if the recipient of such loan receives a grant under section 201(g) of this Act for construction of such treatment works and an allowance under section 201(l)(1) of this Act for non-Federal funds expended for such planning and preparation, such recipient will promptly repay such loan to the extent of such allowance.

"(f) CONSISTENCY WITH PLANNING REQUIREMENTS.—A State may provide financial assistance from its water pollution control revolving fund only with respect to a project which is consistent with plans, if any, developed under sections 205(j), 208, 303(e), 319, and 320 of this Act.

"(g) PRIORITY LIST REQUIREMENT.—The State may provide financial assistance from its water pollution control revolving fund only with respect to a project for construction of a treatment works described in subsection (c)(1) if such project is on the State's priority list under section 216 of this Act. Such assistance may be provided regardless of the rank of such project on such list.

"(h) ELIGIBILITY OF NON-FEDERAL SHARE OF CONSTRUCTION GRANT PROJECTS.—A State water pollution control revolving fund may

provide assistance (other than under subsection (d)(1) of this section) to a municipality or intermunicipal or interstate agency with respect to the non-Federal share of the costs of a treatment works project for which such municipality or agency is receiving assistance from the Administrator under any other authority only if such assistance is necessary to allow such project to proceed.

"SEC. 604. ALLOTMENT OF FUNDS.

"(a) FORMULA.—Sums authorized to be appropriated to carry out this section for each of fiscal years 1989 and 1990 shall be allotted by the Administrator in accordance with section 205(c) of this Act.

"(b) RESERVATION OF FUNDS FOR PLANNING.—Each State shall reserve each fiscal year 1 percent of the sums allotted to such State under this section for such fiscal year, or \$100,000, whichever amount is greater, to carry out planning under sections 205(j) and 303(e) of this Act.

"(c) ALLOTMENT PERIOD.—

"(1) PERIOD OF AVAILABILITY FOR GRANT AWARD.—Sums allotted to a State under this section for a fiscal year shall be available for obligation by the State during the fiscal year for which sums are authorized and during the following fiscal year.

"(2) REALLOTMENT OF UNOBLIGATED FUNDS.—The amount of any allotment not obligated by the State by the last day of the 2-year period of availability established by paragraph (1) shall be immediately reallocated by the Administrator on the basis of the same ratio as is applicable to sums allotted under title II of this Act for the second fiscal year of such 2-year period. None of the funds reallocated by the Administrator shall be reallocated to any State which has not obligated all sums allotted to such State in the first fiscal year of such 2-year period.

"SEC. 605. CORRECTIVE ACTION.

"(a) NOTIFICATION OF NONCOMPLIANCE.—If the Administrator determines that a State has not complied with its agreement with the Administrator under section 602 of this Act or any other requirement of this title, the Administrator shall notify the State of such noncompliance and the necessary corrective action.

"(b) WITHHOLDING OF PAYMENTS.—If a State does not take corrective action within 60 days after the date a State receives notification of such action under subsection (a), the Administrator shall withhold additional payments to the State until the Administrator is satisfied that the State has taken the necessary corrective action.

"(c) REALLOTMENT OF WITHHELD PAYMENTS.—If the Administrator is not satisfied that adequate corrective actions have been taken by the State within 12 months after the State is notified of such actions under subsection (a), the payments withheld from the State by the Administrator under subsection (b) shall be made available for reallocation in accordance with the most recent formula for allotment of funds under this title.

"SEC. 606. AUDITS, REPORTS, AND FISCAL CONTROLS; INTENDED USE PLAN.

"(a) FISCAL CONTROL AND AUDITING PROCEDURES.—Each State electing to establish a water pollution control revolving fund under this title shall establish fiscal controls and accounting procedures sufficient to assure proper accounting during appropriate accounting periods for—

"(1) payments received by the fund;

"(2) disbursements made by the fund; and

"(3) fund balances at the beginning and end of the accounting period.

"(b) ANNUAL FEDERAL AUDITS.—The Administrator shall, at least on an annual basis, conduct or require each State to have independently conducted reviews and audits as may be deemed necessary or appropriate by the Administrator to carry out the objectives of this section. Audits of the use of funds deposited in the water pollution revolving fund established by such State shall be conducted in accordance with the auditing procedures of the General Accounting Office, including chapter 75 of title 31, United States Code.

"(c) INTENDED USE PLAN.—After providing for public comment and review, each State shall annually prepare a plan identifying the intended uses of the amounts available to its water pollution control revolving fund. Such intended use plan shall include, but not be limited to—

"(1) a list of those projects for construction of publicly owned treatment works on the State's priority list developed pursuant to section 216 of this Act and a list of activities eligible for assistance under sections 319 and 320 of this Act;

"(2) a description of the short- and long-term goals and objectives of its water pollution control revolving fund;

"(3) information on the activities to be supported, including a description of project categories, discharge requirements under titles III and IV of this Act, terms of financial assistance, and communities served;

"(4) assurances and specific proposals for meeting the requirements of paragraphs (3), (4), (5), and (6) of section 602(b) of this Act; and

"(5) the criteria and method established for the distribution of funds.

"(d) ANNUAL REPORT.—Beginning the first fiscal year after the receipt of payments under this title, the State shall provide an annual report to the Administrator describing how the State has met the goals and objectives for the previous fiscal year as identified in the plan prepared for the previous fiscal year pursuant to subsection (c), including identification of loan recipients, loan amounts, and loan terms and similar details on other forms of financial assistance provided from the water pollution control revolving fund.

"(e) ANNUAL FEDERAL OVERSIGHT REVIEW.—The Administrator shall conduct an annual oversight review of each State plan prepared under subsection (c), each State report prepared under subsection (d), and other such materials as are considered necessary and appropriate in carrying out the purposes of this title. After reasonable notice by the Administrator to the State or the recipient of a loan from a water pollution control revolving fund, the State or loan recipient shall make available to the Administrator such records as the Administrator reasonably requires to review and determine compliance with this title.

"(f) APPLICABILITY OF TITLE II PROVISIONS.—Except to the extent provided in this title, the provisions of title II shall not apply to grants under this title.

"SEC. 607. AUTHORIZATION OF APPROPRIATIONS.

"There is authorized to be appropriated to carry out the purposes of this title the following sums:

"(1) \$1,200,000,000 per fiscal year for each of fiscal years 1989 and 1990;

"(2) \$2,400,000,000 for fiscal year 1991;

"(3) \$1,800,000,000 for fiscal year 1992;

"(4) \$1,200,000,000 for fiscal year 1993; and

"(5) \$600,000,000 for fiscal year 1994."

(b) **STATE-OPTION TO USE TITLE II FUNDS.**—Section 205 is amended by adding at the end thereof the following new subsection:

"(m) **DISCRETIONARY DEPOSITS INTO STATE WATER POLLUTION CONTROL REVOLVING FUNDS.**—

"(1) **FROM CONSTRUCTION GRANT ALLOTMENTS.**—In addition to any amounts deposited in a water pollution control revolving fund established by a State under title VI, upon request of the Governor of such State, the Administrator shall make available to the State for deposit, as capitalization grants, in such fund in any fiscal year beginning after September 30, 1986, such amount of the amounts allotted to such State under this section for such fiscal year as the Governor considers appropriate; except that (A) in fiscal year 1987, such deposit may not exceed 50 percent of the amounts allotted to such State under this section for such fiscal year, and (B) in fiscal year 1988, such deposit may not exceed 75 percent of the amounts allotted to such State under this section for this fiscal year.

"(2) **NOTICE REQUIREMENT.**—The Governor of a State may make a request under paragraph (1) for a deposit into the water pollution control revolving fund of such State—

"(A) in fiscal year 1987 only if no later than 90 days after the date of the enactment of this subsection, and

"(B) in each fiscal year thereafter only if 90 days before the first day of such fiscal year,

the State provides notice of its intent to make such deposit.

"(3) **EXCEPTION.**—Sums reserved under section 205(j) of this Act shall not be available for obligation under this subsection."

(c) **REPORT TO CONGRESS.**—Section 516 is amended by adding at the end thereof the following new subsection:

"(g) **STATE REVOLVING FUND REPORT.**—

"(1) **IN GENERAL.**—Not later than February 10, 1990, the Administrator shall submit to Congress a report on the financial status and operations of water pollution control revolving funds established by the States under title VI of this Act. The Administrator shall prepare such report in cooperation with the States, including water pollution control agencies and other water pollution control planning and financing agencies.

"(2) **CONTENTS.**—The report under this subsection shall also include the following:

"(A) an inventory of the facilities that are in significant noncompliance with the enforceable requirements of this Act;

"(B) an estimate of the cost of construction necessary to bring such facilities into compliance with such requirements;

"(C) an assessment of the availability of sources of funds for financing such needed construction, including an estimate of the amount of funds available for providing assistance for such construction through September 30, 1999, from the water pollution control revolving funds established by the States under title VI of this Act;

"(D) an assessment of the operations, loan portfolio, and loan conditions of such revolving funds;

"(E) an assessment of the effect on user charges of the assistance provided by such revolving funds compared to the assistance provided with funds appropriated pursuant to section 207 of this Act; and

"(F) an assessment of the efficiency of the operation and maintenance of treatment works constructed with assistance provided by such revolving funds compared to the efficiency of the operation and maintenance

of treatment works constructed with assistance provided under section 201 of this Act."

#### SEC. 213. IMPROVEMENT PROJECTS.

(a) **AVALON, CALIFORNIA.**—The Administrator shall make a grant of \$3,000,000 from funds allotted under section 205 of the Federal Water Pollution Control Act to the State of California for fiscal year 1987 to the city of Avalon, California, for improvements to the publicly owned treatment works of such city.

(b) **WALKER AND SMITHFIELD TOWNSHIPS, PENNSYLVANIA.**—Out of funds available for grants in the State of Pennsylvania under the third sentence of section 201(g)(1) of the Federal Water Pollution Control Act in fiscal year 1987, the Administrator shall make grants—

(1) to Walker Township, Pennsylvania, for developing a collector system and connecting its wastewater treatment system into the Huntingdon Borough, Pennsylvania, sewage treatment plant, and

(2) to Smithfield Township, Pennsylvania, for rehabilitating and extending its collector system.

(c) **TAYLOR MILL, KENTUCKY.**—Notwithstanding section 201(g)(1) of the Federal Water Pollution Control Act or any other provision of law, the Administrator shall make a grant of \$250,000 from funds allotted under section 205 of such Act to the State of Kentucky for fiscal year 1986 to the city of Taylor Mill, Kentucky, for the repair and reconstruction, as necessary, of the publicly owned treatment works of such city.

(d) **NEVADA COUNTY, CALIFORNIA.**—Out of funds available for grants in the State of California under the third sentence of section 201(g)(1) of the Federal Water Pollution Control Act in fiscal year 1987, the Administrator shall make a grant for the construction of a collection system serving the Glenshire/Devonshire area of Nevada County, California, to deliver waste to the Tahoe-Truckee Sanitary District's regional wastewater treatment facility.

(e) **TREATMENT WORKS FOR WANAUKE, NEW JERSEY.**—In fiscal year 1987 and succeeding fiscal years, the Administrator shall make grants to the Wanauke Valley Regional Sewerage Authority, New Jersey, from funds allotted under section 205 of the Federal Water Pollution Control Act to the State of New Jersey for such fiscal year, for the construction of treatment works with a total treatment capacity of 1,050,000 gallons per day (including a treatment module with a treatment capacity of 350,000 gallons per day). Notwithstanding section 202 of such Act, the Federal share of the cost of construction of such treatment works shall be 75 percent.

(f) **TREATMENT WORKS FOR LENA, ILLINOIS.**—The Administrator shall make grants to the village of Lena, Illinois, from funds allotted under section 205 of the Federal Water Pollution Control Act to the State of Illinois for fiscal years beginning after September 30, 1986, for the construction of a replacement moving bed filter press for the treatment works of such village. Notwithstanding section 202 of the Federal Water Pollution Control Act, the Federal share of the cost of construction of such project shall be 75 percent.

(g) **PRIORITY FOR COURT-ORDERED AND OTHER PROJECTS.**—The State of Pennsylvania, from funds allotted to it under section 205 of the Federal Water Pollution Control Act, shall give priority for construction of—

(1) the Wyoming Valley Sanitary Authority Secondary Treatment project mandated under Federal court order, regardless of the date of start of construction made pursuant to the court order; and

(2) a project for wastewater treatment for Altoona, Pennsylvania.

#### SEC. 214. CHICAGO TUNNEL AND RESERVOIR PROJECT.

The Chicago tunnel and reservoir project may receive grants under the last sentence of section 201(g)(1) of the Federal Water Pollution Control Act without regard to the limitation contained in such sentence if the Administrator determines that such project meets the cost-effectiveness requirements of sections 217 and 218 of such Act without any redesign or reconstruction and if the Governor of the affected State demonstrates to the satisfaction of the Administrator the water quality benefits of such project.

#### SEC. 215. AD VALOREM TAX DEDICATION.

For the purposes of complying with section 204(b)(1) of the Federal Water Pollution Control Act, the ad valorem tax user charge systems of the town of Hampton and the city of Nashua, New Hampshire, shall be deemed to have been dedicated as of December 27, 1977. The Administrator shall review such ad valorem tax user charge systems for compliance with the remaining requirements of such section and related regulations of the Environmental Protection Agency.

### TITLE III—STANDARDS AND ENFORCEMENTS

#### SEC. 301. COMPLIANCE DATES.

(a) **PRIORITY TOXIC POLLUTANTS.**—Section 301(b)(2)(C) is amended by striking out "not later than July 1, 1984," and inserting after "of this paragraph" the following: "as expeditiously as practicable but in no case later than three years after the date such limitations are promulgated under section 304(b), and in no case later than March 31, 1989".

(b) **OTHER TOXIC POLLUTANTS.**—Section 301(b)(2)(D) is amended by striking out "not later than three years after the date such limitations are established" and inserting in lieu thereof "as expeditiously as practicable, but in no case later than three years after the date such limitations are promulgated under section 304(b), and in no case later than March 31, 1989".

(c) **CONVENTIONAL POLLUTANTS.**—Section 301(b)(2)(E) is amended by striking "not later than July 1, 1984," and inserting in lieu thereof "as expeditiously as practicable but in no case later than three years after the date such limitations are promulgated under section 304(b), and in no case later than March 31, 1989, compliance with".

(d) **OTHER POLLUTANTS.**—Section 301(b)(2)(F) is amended by striking "not" after "subparagraph (A) of this paragraph" and inserting in lieu thereof "as expeditiously as practicable but in no case", and by striking "or not later than July 1, 1984," and all that follows through the end of the sentence and inserting in lieu thereof "and in no case later than March 31, 1989".

(e) **STRICTER BPT.**—Section 301(b) is amended by adding at the end the following new paragraph:

"(3)(A) for effluent limitations under paragraph (1)(A)(i) of this subsection promulgated after January 1, 1982, and requiring a level of control substantially greater or based on fundamentally different control technology than under permits for an industrial category issued before such date, compliance as expeditiously as practicable but

in no case later than three years after the date such limitations are promulgated under section 304(b), and in no case later than March 31, 1989; and

"(B) for any effluent limitation in accordance with paragraph (1)(A)(i), (2)(A)(i), or (2)(E) of this subsection established only on the basis of section 402(a)(1) in a permit issued after enactment of the Water Quality Act of 1987, compliance as expeditiously as practicable but in no case later than three years after the date such limitations are established, and in no case later than March 31, 1989."

(f) **DEADLINES FOR REGULATIONS FOR CERTAIN TOXIC POLLUTANTS.**—The Administrator shall promulgate final regulations establishing effluent limitations in accordance with sections 301(b)(2)(A) and 307(b)(1) of the Federal Water Pollution Control Act for all toxic pollutants referred to in table 1 of Committee Print Numbered 95-30 of the Committee on Public Works and Transportation of the House of Representatives which are discharged from the categories of point sources in accordance with the following table:

Category	Date by which the final regulation shall be promulgated
Organic chemicals and plastics and synthetic fibers	December 31, 1986.
Pesticides	December 31, 1986.

#### SEC. 302. MODIFICATION FOR NONCONVENTIONAL POLLUTANTS.

(a) **LISTING OF POLLUTANTS.**—Section 301(g) is amended by redesignating paragraph (2) (and any references thereto) as paragraph (3) and by striking out all that precedes subparagraph (A) of paragraph (1) and inserting in lieu thereof the following:

"(g) **MODIFICATIONS FOR CERTAIN NONCONVENTIONAL POLLUTANTS.**—

"(1) **GENERAL AUTHORITY.**—The Administrator, with the concurrence of the State, may modify the requirements of subsection (b)(2)(A) of this section with respect to the discharge from any point source of ammonia, chlorine, color, iron, and total phenols (4AAP) (when determined by the Administrator to be a pollutant covered by subsection (b)(2)(F)) and any other pollutant which the Administrator lists under paragraph (4) of this subsection.

"(2) **REQUIREMENTS FOR GRANTING MODIFICATIONS.**—A modification under this subsection shall be granted only upon a showing by the owner or operator of a point source satisfactory to the Administrator that—

(b) **PROCEDURE FOR LISTING ADDITIONAL POLLUTANTS; REMOVAL.**—Section 301(g) is further amended by adding at the end thereof the following new paragraphs:

"(4) **PROCEDURES FOR LISTING ADDITIONAL POLLUTANTS.**—

"(A) **GENERAL AUTHORITY.**—Upon petition of any person, the Administrator may add any pollutant to the list of pollutants for which modification under this section is authorized (except for pollutants identified pursuant to section 304(a)(4) of this Act, toxic pollutants subject to section 307(a) of this Act, and the thermal component of discharges) in accordance with the provisions of this paragraph.

"(B) **REQUIREMENTS FOR LISTING.**—

"(i) **SUFFICIENT INFORMATION.**—The person petitioning for listing of an additional pollutant under this subsection shall submit to the Administrator sufficient information to make the determinations required by this subparagraph.

"(ii) **TOXIC CRITERIA DETERMINATION.**—The Administrator shall determine whether or

not the pollutant meets the criteria for listing as a toxic pollutant under section 307(a) of this Act.

"(iii) **LISTING AS TOXIC POLLUTANT.**—If the Administrator determines that the pollutant meets the criteria for listing as a toxic pollutant under section 307(a), the Administrator shall list the pollutant as a toxic pollutant under section 307(a).

"(iv) **NONCONVENTIONAL CRITERIA DETERMINATION.**—If the Administrator determines that the pollutant does not meet the criteria for listing as a toxic pollutant under such section and determines that adequate test methods and sufficient data are available to make the determinations required by paragraph (2) of this subsection with respect to the pollutant, the Administrator shall add the pollutant to the list of pollutants specified in paragraph (1) of this subsection for which modifications are authorized under this subsection.

"(C) **REQUIREMENTS FOR FILING OF PETITIONS.**—A petition for listing of a pollutant under this paragraph—

"(i) must be filed not later than 270 days after the date of promulgation of an applicable effluent guideline under section 304;

"(ii) may be filed before promulgation of such guideline; and

"(iii) may be filed with an application for a modification under paragraph (1) with respect to the discharge of such pollutant.

"(D) **DEADLINE FOR APPROVAL OF PETITION.**—A decision to add a pollutant to the list of pollutants for which modifications under this subsection are authorized must be made within 270 days after the date of promulgation of an applicable effluent guideline under section 304.

"(E) **BURDEN OF PROOF.**—The burden of proof for making the determinations under subparagraph (B) shall be on the petitioner.

"(5) **REMOVAL OF POLLUTANTS.**—The Administrator may remove any pollutant from the list of pollutants for which modifications are authorized under this subsection if the Administrator determines that adequate test methods and sufficient data are no longer available for determining whether or not modifications may be granted with respect to such pollutant under paragraph (2) of this subsection."

(c) **DEADLINE FOR APPROVAL OF MODIFICATIONS.**—Section 301(j) is amended—

(1) in paragraph (2) by striking out "Any" and inserting in lieu thereof "Subject to paragraph (3) of this section, any"; and

(2) by adding at the end thereof the following new paragraphs:

"(3) **COMPLIANCE REQUIREMENTS UNDER SUBSECTION (g).**—

"(A) **EFFECT OF FILING.**—An application for a modification under subsection (g) and a petition for listing of a pollutant as a pollutant for which modifications are authorized under such subsection shall not stay the requirement that the person seeking such modification or listing comply with effluent limitations under this Act for all pollutants not the subject of such application or petition.

"(B) **EFFECT OF DISAPPROVAL.**—Disapproval of an application for a modification under subsection (g) shall not stay the requirement that the person seeking such modification comply with all applicable effluent limitations under this Act.

"(4) **DEADLINE FOR SUBSECTION (g) DECISION.**—An application for a modification with respect to a pollutant filed under subsection (g) must be approved or disapproved not later than 365 days after the date of such filing; except that in any case in which

a petition for listing such pollutant as a pollutant for which modifications are authorized under such subsection is approved, such application must be approved or disapproved not later than 365 days after the date of approval of such petition."

(d) **CONFORMING AMENDMENTS.**—(1) Paragraph (3) of section 301(g), as redesignated by subsection (a) of this section, is amended by inserting "LIMITATION ON AUTHORITY TO APPLY FOR SUBSECTION (c) MODIFICATION." before "If an owner" and by aligning such paragraph with paragraph (4) of such section, as added by subsection (b) of this section.

(2) Paragraph (2) of section 301(g) (as designated by subsection (a) of this section) is amended by realigning subparagraphs (A), (B), and (C) with subparagraph (A) of paragraph (4), as added by subsection (b) of this section.

(e) **APPLICATION.**—

(1) **GENERAL RULE.**—Except as provided in paragraph (2), the amendments made by this section shall apply to all requests for modifications under section 301(g) of the Federal Water Pollution Control Act pending on the date of the enactment of this Act and shall not have the effect of extending the deadline established in section 301(j)(1)(B) of such Act.

(2) **EXCEPTION.**—The amendments made by this section shall not affect any application for a modification with respect to the discharge of ammonia, chlorine, color, iron, or total phenols (4AAP) under section 301(g) of the Federal Water Pollution Control Act pending on the date of the enactment of this Act; except that the Administrator must approve or disapprove such application not later than 365 days after the date of such enactment.

#### SEC. 303. DISCHARGES INTO MARINE WATERS.

(a) **CONSIDERATION OF OTHER SOURCES OF POLLUTANTS.**—Section 301(h)(2) is amended by striking out "such modified requirements will not interfere" and inserting in lieu thereof the following: "the discharge of pollutants in accordance with such modified requirements will not interfere, alone or in combination with pollutants from other sources,".

(b) **LIMITATION ON SCOPE OF MONITORING.**—

(1) **GENERAL RULE.**—Section 301(h)(3) is amended by inserting before the semicolon at the end thereof the following: ", and the scope of such monitoring is limited to include only those scientific investigations which are necessary to study the effects of the proposed discharge".

(2) **LIMITATION ON APPLICABILITY.**—The amendment made by subsection (b) shall only apply to modifications and renewals of modifications which are tentatively or finally approved after the date of the enactment of this Act.

(c) **URBAN AREA PRETREATMENT PROGRAM.**—Section 301(h) is amended by redesignating paragraphs (6) and (7), and any references thereto, as paragraphs (7) and (8), respectively, and by inserting after paragraph (5) the following new paragraph:

"(6) in the case of any treatment works serving a population of 50,000 or more, with respect to any toxic pollutant introduced into such works by an industrial discharger for which pollutant there is no applicable pretreatment requirement in effect, sources introducing waste into such works are in compliance with all applicable pretreatment requirements, the applicant will enforce such requirements, and the applicant has in effect a pretreatment program which, in

combination with the treatment of discharges from such works, removes the same amount of such pollutant as would be removed if such works were to apply secondary treatment to discharges and if such works had no pretreatment program with respect to such pollutant."

(d) PRIMARY TREATMENT FOR EFFLUENT.—

(1) GENERAL RULE.—Section 301(h) is amended by striking out the period at the end of paragraph (8) (as redesignated by subsection (c) of this section) and inserting in lieu thereof a semicolon and by inserting after such paragraph (8) the following new paragraph:

"(9) the applicant at the time such modification becomes effective will be discharging effluent which has received at least primary or equivalent treatment and which meets the criteria established under section 304(a)(1) of this Act after initial mixing in the waters surrounding or adjacent to the point at which such effluent is discharged."

(2) PRIMARY OR EQUIVALENT TREATMENT DEFINED.—Such section is further amended by inserting after the second sentence the following new sentence: "For the purposes of paragraph (9), 'primary or equivalent treatment' means treatment by screening, sedimentation, and skimming adequate to remove at least 30 percent of the biological oxygen demanding material and of the suspended solids in the treatment works influent, and disinfection, where appropriate."

(e) LIMITATIONS ON ISSUANCE OF PERMITS.—Section 301(h) is further amended by adding at the end thereof the following new sentences: "In order for a permit to be issued under this subsection for the discharge of a pollutant into marine waters, such marine waters must exhibit characteristics assuring that water providing dilution does not contain significant amounts of previously discharged effluent from such treatment works. No permit issued under this subsection shall authorize the discharge of any pollutant into saline estuarine waters which at the time of application do not support a balanced indigenous population of shellfish, fish and wildlife, or allow recreation in and on the waters or which exhibit ambient water quality below applicable water quality standards adopted for the protection of public water supplies, shellfish, fish and wildlife or recreational activities or such other standards necessary to assure support and protection of such uses. The prohibition contained in the preceding sentence shall apply without regard to the presence or absence of a causal relationship between such characteristics and the applicant's current or proposed discharge. Notwithstanding any other provisions of this subsection, no permit may be issued under this subsection for discharge of a pollutant into the New York Bight Apex consisting of the ocean waters of the Atlantic Ocean westward of 73 degrees 30 minutes west longitude and northward of 40 degrees 10 minutes north latitude."

(f) APPLICATION FOR OCEAN DISCHARGE MODIFICATION.—Section 301(j)(1)(A) is amended by inserting before the semicolon at the end thereof the following: ", except that a publicly owned treatment works which prior to December 31, 1982, had a contractual arrangement to use a portion of the capacity of an ocean outfall operated by another publicly owned treatment works which has applied for or received modification under subsection (h), may apply for a modification of subsection (h) in its own right not later than 30 days after the date of the enactment of the Water Quality Act of 1987".

(g) GRANDFATHER OF CERTAIN APPLICANTS.—The amendments made by subsections (a), (c), (d), and (e) of this section shall not apply to an application for a permit under section 301(h) of the Federal Water Pollution Control Act which has been tentatively or finally approved by the Administrator before the date of the enactment of this Act; except that such amendments shall apply to all renewals of such permits after such date of enactment.

SEC. 304. FILING DEADLINE FOR TREATMENT WORKS MODIFICATION.

(a) EXTENSION.—The second sentence of section 301(i)(1) is amended by striking out "of this subsection." and inserting in lieu thereof "of the Water Quality Act of 1987."

(b) APPLICABILITY.—The amendment made by subsection (a) shall not apply to those treatment works which are subject to a compliance schedule established before the date of the enactment of this Act by a court order or a final administrative order.

SEC. 305. INNOVATIVE TECHNOLOGY COMPLIANCE DEADLINES FOR DIRECT DISCHARGES.

(a) EXTENSION OF DEADLINE.—Section 301(k) is amended by striking out "July 1, 1987," and inserting in lieu thereof "two years after the date for compliance with such effluent limitation which would otherwise be applicable under such subsection."

(b) EXTENSION TO CONVENTIONAL POLLUTANTS.—Section 301(k) is amended by inserting "or (b)(2)(E)" after "(b)(2)(A)" each place it appears.

SEC. 306. FUNDAMENTALLY DIFFERENT FACTORS.

(a) GENERAL RULE.—Section 301 is amended by adding at the end the following new subsections:

"(n) FUNDAMENTALLY DIFFERENT FACTORS.—

"(1) GENERAL RULE.—The Administrator, with the concurrence of the State, may establish an alternative requirement under subsection (b)(2) or section 307(b) for a facility that modifies the requirements of national effluent limitation guidelines or categorical pretreatment standards that would otherwise be applicable to such facility, if the owner or operator of such facility demonstrates to the satisfaction of the Administrator that—

"(A) the facility is fundamentally different with respect to the factors (other than cost) specified in section 304(b) or 304(g) and considered by the Administrator in establishing such national effluent limitation guidelines or categorical pretreatment standards;

"(B) the application—

"(i) is based solely on information and supporting data submitted to the Administrator during the rulemaking for establishment of the applicable national effluent limitation guidelines or categorical pretreatment standard specifically raising the factors that are fundamentally different for such facility; or

"(ii) is based on information and supporting data referred to in clause (i) and information and supporting data the applicant did not have a reasonable opportunity to submit during such rulemaking;

"(C) the alternative requirement is no less stringent than justified by the fundamental difference; and

"(D) the alternative requirement will not result in a non-water quality environmental impact which is markedly more adverse than the impact considered by the Administrator in establishing such national effluent limitation guideline or categorical pretreatment standard.

"(2) TIME LIMIT FOR APPLICATIONS.—An application for an alternative requirement which modifies the requirements of an effluent limitation or pretreatment standard under this subsection must be submitted to the Administrator within 180 days after the date on which such limitation or standard is established or revised, as the case may be.

"(3) TIME LIMIT FOR DECISION.—The Administrator shall approve or deny by final agency action an application submitted under this subsection within 180 days after the date such application is filed with the Administrator.

"(4) SUBMISSION OF INFORMATION.—The Administrator may allow an applicant under this subsection to submit information and supporting data until the earlier of the date the application is approved or denied or the last day that the Administrator has to approve or deny such application.

"(5) TREATMENT OF PENDING APPLICATIONS.—For the purposes of this subsection, an application for an alternative requirement based on fundamentally different factors which is pending on the date of the enactment of this subsection shall be treated as having been submitted to the Administrator on the 180th day following such date of enactment. The applicant may amend the application to take into account the provisions of this subsection.

"(6) EFFECT OF SUBMISSION OF APPLICATION.—An application for an alternative requirement under this subsection shall not stay the applicant's obligation to comply with the effluent limitation guideline or categorical pretreatment standard which is the subject of the application.

"(7) EFFECT OF DENIAL.—If an application for an alternative requirement which modifies the requirements of an effluent limitation or pretreatment standard under this subsection is denied by the Administrator, the applicant must comply with such limitation or standard as established or revised, as the case may be.

"(8) REPORTS.—Every 6 months after the date of the enactment of this subsection, the Administrator shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives a report on the status of applications for alternative requirements which modify the requirements of effluent limitations under section 301 or 304 of this Act or any national categorical pretreatment standard under section 307(b) of this Act filed before, on, or after such date of enactment.

"(c) APPLICATION FEES.—The Administrator shall prescribe and collect from each applicant fees reflecting the reasonable administrative costs incurred in reviewing and processing applications for modifications submitted to the Administrator pursuant to subsections (c), (g), (i), (k), (m), and (n) of section 301, section 304(d)(4), and section 316(a) of this Act. All amounts collected by the Administrator under this subsection shall be deposited into a special fund of the Treasury entitled 'Water Permits and Related Services' which shall thereafter be available for appropriation to carry out activities of the Environmental Protection Agency for which such fees were collected."

(b) CONFORMING AMENDMENT.—Section 301(l) is amended by striking out "The" and inserting in lieu thereof "Other than as provided in subsection (n) of this section, the".

(c) PHOSPHATE FERTILIZER EFFLUENT LIMITATION.—

(1) **LIMITATION ON APPLICABILITY.**—The effluent limitation established by the Administrator pursuant to section 301(b) of the Federal Water Pollution Control Act for the phosphate subcategory of the fertilizer manufacturing point source category shall not apply to facilities which had commenced construction on or before April 8, 1974, and for which the Administrator is proposing to revise the applicability of such limitations to exclude such facilities.

(2) **ISSUANCE OF PERMIT.**—As soon as possible after the date of the enactment of this Act, but not later than 180 days after such date of enactment, the Administrator shall issue permits under section 402(a)(1)(B) of the Federal Water Pollution Control Act with respect to the facilities described in paragraph (1). Such permits shall remain in effect until, after such date of enactment, issuance of a permit under effluent guidelines applicable to discharges for the phosphate subcategory.

#### SEC. 307. COAL REMINING OPERATIONS.

Section 301 is amended by adding at the end thereof the following:

“(p) **MODIFIED PERMIT FOR COAL REMINING OPERATIONS.**—

“(1) **IN GENERAL.**—Subject to paragraphs (2) through (4) of this subsection, the Administrator, or the State in any case which the State has an approved permit program under section 402(b), may issue a permit under section 402 which modifies the requirements of subsection (b)(2)(A) of this section with respect to the pH level of any pre-existing discharge, and with respect to pre-existing discharges of iron and manganese from the remined area of any coal remining operation or with respect to the pH level or level of iron or manganese in any pre-existing discharge affected by the remining operation. Such modified requirements shall apply the best available technology economically achievable on a case-by-case basis, using best professional judgment, to set specific numerical effluent limitations in each permit.

“(2) **LIMITATIONS.**—The Administrator or the State may only issue a permit pursuant to paragraph (1) if the applicant demonstrates to the satisfaction of the Administrator or the State, as the case may be, that the coal remining operation will result in the potential for improved water quality from the remining operation but in no event shall such a permit allow the pH level of any discharge, and in no event shall such a permit allow the discharges of iron and manganese, to exceed the levels being discharged from the remined area before the coal remining operation begins. No discharge from, or affected by, the remining operation shall exceed State water quality standards established under section 303 of this Act.

“(3) **DEFINITIONS.**—For purposes of this subsection—

“(A) **COAL REMINING OPERATION.**—The term ‘coal remining operation’ means a coal mining operation which begins after the date of the enactment of this subsection at a site on which coal mining was conducted before the effective date of the Surface Mining Control and Reclamation Act of 1977.

“(B) **REMINED AREA.**—The term ‘remined area’ means only that area of any coal remining operation on which coal mining was conducted before the effective date of the Surface Mining Control and Reclamation Act of 1977.

“(C) **PRE-EXISTING DISCHARGE.**—The term ‘pre-existing discharge’ means any discharge

at the time of permit application under this subsection.

“(4) **APPLICABILITY OF STRIP MINING LAWS.**—Nothing in this subsection shall affect the application of the Surface Mining Control and Reclamation Act of 1977 to any coal remining operation, including the application of such Act to suspended solids.”.

#### SEC. 308. INDIVIDUAL CONTROL STRATEGIES FOR TOXIC POLLUTANTS.

(a) **IN GENERAL.**—Section 304 is amended by adding at the end thereof the following new subsection:

“(1) **INDIVIDUAL CONTROL STRATEGIES FOR TOXIC POLLUTANTS.**—

“(1) **STATE LIST OF NAVIGABLE WATERS AND DEVELOPMENT OF STRATEGIES.**—Not later than 2 years after the date of the enactment of this subsection, each State shall submit to the Administrator for review, approval, and implementation under this subsection—

“(A) a list of those waters within the State which after the application of effluent limitations required under section 301(b)(2) of this Act cannot reasonably be anticipated to attain or maintain (i) water quality standards for such waters reviewed, revised, or adopted in accordance with section 303(c)(2)(B) of this Act, due to toxic pollutants, or (ii) that water quality which shall assure protection of public health, public water supplies, agricultural and industrial uses, and the protection and propagation of a balanced population of shellfish, fish and wildlife, and allow recreational activities in and on the water;

“(B) a list of all navigable waters in such State for which the State does not expect the applicable standard under section 303 of this Act will be achieved after the requirements of sections 301(b), 306, and 307(b) are met, due entirely or substantially to discharges from point sources of any toxic pollutants listed pursuant to section 307(a);

“(C) for each segment of the navigable waters included on such lists, a determination of the specific point sources discharging any such toxic pollutant which is believed to be preventing or impairing such water quality and the amount of each such toxic pollutant discharged by each such source; and

“(D) for each such segment, an individual control strategy which the State determines will produce a reduction in the discharge of toxic pollutants from point sources identified by the State under this paragraph through the establishment of effluent limitations under section 402 of this Act and water quality standards under section 303(c)(2)(B) of this Act, which reduction is sufficient, in combination with existing controls on point and nonpoint sources of pollution, to achieve the applicable water quality standard as soon as possible, but not later than 3 years after the date of the establishment of such strategy.

“(2) **APPROVAL OR DISAPPROVAL.**—Not later than 120 days after the last day of the 2-year period referred to in paragraph (1), the Administrator shall approve or disapprove the control strategies submitted under paragraph (1) by any State.

“(3) **ADMINISTRATOR'S ACTION.**—If a State fails to submit control strategies in accordance with paragraph (1) or the Administrator does not approve the control strategies submitted by such State in accordance with paragraph (1), then, not later than 1 year after the last day of the period referred to in paragraph (2), the Administrator, in cooperation with such State and after notice and opportunity for public comment, shall implement the requirements of paragraph

(1) in such State. In the implementation of such requirements, the Administrator shall, at a minimum, consider for listing under this subsection any navigable waters for which any person submits a petition to the Administrator for listing not later than 120 days after such last day.”

(b) **JUDICIAL REVIEW.**—Section 509(b)(1) is amended—

(1) by striking out “and (F)” and inserting in lieu thereof “(F)”; and

(2) by inserting after “any permit under section 402,” the following: “and (G) in promulgating any individual control strategy under section 304(1).”.

(c) **GUIDANCE TO STATES; INFORMATION ON WATER QUALITY CRITERIA FOR TOXICS.**—Section 304(a) is amended by adding at the end the following new paragraphs:

“(7) **GUIDANCE TO STATES.**—The Administrator, after consultation with appropriate State agencies and on the basis of criteria and information published under paragraphs (1) and (2) of this subsection, shall develop and publish, within 9 months after the date of the enactment of the Water Quality Act of 1987, guidance to the States on performing the identification required by section 304(1)(1) of this Act.

“(8) **INFORMATION ON WATER QUALITY CRITERIA.**—The Administrator, after consultation with appropriate State agencies and within 2 years after the date of the enactment of the Water Quality Act of 1987, shall develop and publish information on methods for establishing and measuring water quality criteria for toxic pollutants on other bases than pollutant-by-pollutant criteria, including biological monitoring and assessment methods.”.

(d) **WATER QUALITY CRITERIA FOR TOXIC POLLUTANTS.**—Section 303(c)(2) is amended by inserting “(A)” after “(2)” and by adding the following new subparagraph:

“(B) Whenever a State reviews water quality standards pursuant to paragraph (1) of this subsection, or revises or adopts new standards pursuant to this paragraph, such State shall adopt criteria for all toxic pollutants listed pursuant to section 307(a)(1) of this Act for which criteria have been published under section 304(a), the discharge or presence of which in the affected waters could reasonably be expected to interfere with those designated uses adopted by the State, as necessary to support such designated uses. Such criteria shall be specific numerical criteria for such toxic pollutants. Where such numerical criteria are not available, whenever a State reviews water quality standards pursuant to paragraph (1), or revises or adopts new standards pursuant to this paragraph, such State shall adopt criteria based on biological monitoring or assessment methods consistent with information published pursuant to section 304(a)(8). Nothing in this section shall be construed to limit or delay the use of effluent limitations or other permit conditions based on or involving biological monitoring or assessment methods or previously adopted numerical criteria.”.

(e) **MODIFICATIONS OF EFFLUENT LIMITATIONS.**—

(1) **IN GENERAL.**—Section 302(b) is amended to read as follows:

“(b) **MODIFICATIONS OF EFFLUENT LIMITATIONS.**—

“(1) **NOTICE AND HEARING.**—Prior to establishment of any effluent limitation pursuant to subsection (a) of this section, the Administrator shall publish such proposed limitation and within 90 days of such publication hold a public hearing.

**"(2) PERMITS.—"**

**"(A) NO REASONABLE RELATIONSHIP.—**The Administrator, with the concurrence of the State, may issue a permit which modifies the effluent limitations required by subsection (a) of this section for pollutants other than toxic pollutants if the applicant demonstrates at such hearing that (whether or not technology or other alternative control strategies are available) there is no reasonable relationship between the economic and social costs and the benefits to be obtained (including attainment of the objective of this Act) from achieving such limitation.

**"(B) REASONABLE PROGRESS.—**The Administrator, with the concurrence of the State, may issue a permit which modifies the effluent limitations required by subsection (a) of this section for toxic pollutants for a single period not to exceed 5 years if the applicant demonstrates to the satisfaction of the Administrator that such modified requirements (i) will represent the maximum degree of control within the economic capability of the owner and operator of the source, and (ii) will result in reasonable further progress beyond the requirements of section 301(b)(2) toward the requirements of subsection (a) of this section."

**(2) CONFORMING AMENDMENTS.—**Section 302(a) is amended—

(A) by inserting "or as identified under section 304(l)" after "in the judgment of the Administrator"; and

(B) by inserting "public health," after "protection of".

**(f) SCHEDULE FOR REVIEW OF GUIDELINES.—**Section 304 is amended by adding at the end the following new subsection:

**"(m) SCHEDULE FOR REVIEW OF GUIDELINES.—"**

**"(1) PUBLICATION.—**Within 12 months after the date of the enactment of the Water Quality Act of 1987, and biennially thereafter, the Administrator shall publish in the Federal Register a plan which shall—

**"(A)** establish a schedule for the annual review and revision of promulgated effluent guidelines, in accordance with subsection (b) of this section;

**"(B)** identify categories of sources discharging toxic or nonconventional pollutants for which guidelines under subsection (b)(2) of this section and section 306 have not previously been published; and

**"(C)** establish a schedule for promulgation of effluent guidelines for categories identified in subparagraph (B), under which promulgation of such guidelines shall be no later than 4 years after such date of enactment for categories identified in the first published plan or 3 years after the publication of the plan for categories identified in later published plans.

**"(2) PUBLIC REVIEW.—**The Administrator shall provide for public review and comment on the plan prior to final publication."

**(g) WATER QUALITY IMPROVEMENT STUDY.—**

**(1) STUDY.—**The Administrator shall study the water quality improvements which have been achieved by application of best available technology economically achievable pursuant to section 301(b)(2) of the Federal Water Pollution Control Act. Such study shall include, but not be limited to, an analysis of the effectiveness of the application of best available technology economically achievable pursuant to such section in attaining applicable water quality standards (including the standard specified in section 302(a) of such Act) and an analysis of the effectiveness of the water quality program under such Act and methods of improving such program, including site specific levels

of treatment which will achieve the water quality goals of such Act.

**(2) REPORT.—**Not later than 2 years after the date of the enactment of this Act, the Administrator shall submit a report on the results of the study conducted under subsection (a) together with recommendations for improving the water quality program and its effectiveness to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate.

**SEC. 309. PRETREATMENT STANDARDS.**

**(a) EXTENSION OF COMPLIANCE DATE BY POTW.—**Section 307 is amended by adding at the end the following:

**"(e) COMPLIANCE DATE EXTENSION FOR INNOVATIVE PRETREATMENT SYSTEMS.—**In the case of any existing facility that proposes to comply with the pretreatment standards of subsection (b) of this section by applying an innovative system that meets the requirements of section 301(k) of this Act, the owner or operator of the publicly owned treatment works receiving the treated effluent from such facility may extend the date for compliance with the applicable pretreatment standard established under this section for a period not to exceed 2 years—

**"(1)** if the Administrator determines that the innovative system has the potential for industrywide application, and

**"(2)** if the Administrator (or the State in consultation with the Administrator, in any case in which the State has a pretreatment program approved by the Administrator)—

**"(A)** determines that the proposed extension will not cause the publicly owned treatment works to be in violation of its permit under section 402 or of section 405 or to contribute to such a violation, and

**"(B)** concurs with the proposed extension."

**(b) INCREASE IN EPA EMPLOYEES.—**The Administrator shall take such actions as may be necessary to increase the number of employees of the Environmental Protection Agency in order to effectively implement pretreatment requirements under section 307 of the Federal Water Pollution Control Act.

**SEC. 310. INSPECTION AND ENTRY.**

**(a) UNAUTHORIZED DISCLOSURE.—**

**(1) IN GENERAL.—**Section 308(b) is amended by striking out all that follows "Code" and inserting in lieu thereof a period and the following: "Any authorized representative of the Administrator (including an authorized contractor acting as a representative of the Administrator) who knowingly or willfully publishes, divulges, discloses, or makes known in any manner or to any extent not authorized by law any information which is required to be considered confidential under this subsection shall be fined not more than \$1,000 or imprisoned not more than 1 year, or both. Nothing in this subsection shall prohibit the Administrator or an authorized representative of the Administrator (including any authorized contractor acting as a representative of the Administrator) from disclosing records, reports, or information to other officers, employees, or authorized representatives of the United States concerned with carrying out this Act or when relevant in any proceeding under this Act."

**(2) CONFORMING AMENDMENT.—**Section 308(a)(B) is amended by inserting "(including an authorized contractor acting as a representative of the Administrator)" after "or his authorized representative".

**(b) ACCESS BY CONGRESS.—**Section 308 is amended by adding at the end the following new subsection:

**"(d) ACCESS BY CONGRESS.—**Notwithstanding any limitation contained in this section or any other provision of law, all information reported to or otherwise obtained by the Administrator (or any representative of the Administrator) under this Act shall be made available, upon written request of any duly authorized committee of Congress, to such committee."

**SEC. 311. MARINE SANITATION DEVICES.**

**(a) STATE REGULATION OF HOUSEBOATS.—**Section 312(f)(1) is amended by striking out "After" and inserting in lieu thereof "(A) Except as provided in subparagraph (B), after" and by adding at the end thereof the following:

**"(B)** A State may adopt and enforce a statute or regulation with respect to the design, manufacture, or installation or use of any marine sanitation device on a houseboat, if such statute or regulation is more stringent than the standards and regulations promulgated under this section. For purposes of this paragraph, the term 'houseboat' means a vessel which, for a period of time determined by the State in which the vessel is located, is used primarily as a residence and is not used primarily as a means of transportation."

**(b) STATE ENFORCEMENT.—**Section 312(k) is amended by adding at the end the following: "The provisions of this section may also be enforced by a State."

**SEC. 312. CRIMINAL PENALTIES.**

Section 309(c) is amended to read as follows:

**"(c) CRIMINAL PENALTIES.—"**

**"(1) NEGLIGENT VIOLATIONS.—**Any person who—

**"(A)** negligently violates section 301, 302, 306, 307, 308, 318, or 405 of this Act, or any permit condition or limitation implementing any of such sections in a permit issued under section 402 of this Act by the Administrator or by a State, or any requirement imposed in a pretreatment program approved under section 402(a)(3) or 402(b)(8) of this Act or in a permit issued under section 404 of this Act by the Secretary of the Army or by a State; or

**"(B)** negligently introduces into a sewer system or into a publicly owned treatment works any pollutant or hazardous substance which such person knew or reasonably should have known could cause personal injury or property damage or, other than in compliance with all applicable Federal, State, or local requirements or permits, which causes such treatment works to violate any effluent limitation or condition in any permit issued to the treatment works under section 402 of this Act by the Administrator or a State;

shall be punished by a fine of not less than \$2,500 nor more than \$25,000 per day of violation, or by imprisonment for not more than 1 year, or by both. If a conviction of a person is for a violation committed after a first conviction of such person under this paragraph, punishment shall be by a fine of not more than \$50,000 per day of violation, or by imprisonment of not more than 2 years, or by both.

**"(2) KNOWING VIOLATIONS.—**Any person who—

**"(A)** knowingly violates section 301, 302, 306, 307, 308, 318, or 405 of this Act, or any permit condition or limitation implementing any of such sections in a permit issued under section 402 of this Act by the Administrator or by a State, or any requirement imposed in a pretreatment program approved under section 402(a)(3) or 402(b)(8)

of this Act or in a permit issued under section 404 of this Act by the Secretary of the Army or by a State; or

"(B) knowingly introduces into a sewer system or into a publicly owned treatment works any pollutant or hazardous substance which such person knew or reasonably should have known could cause personal injury or property damage or, other than in compliance with all applicable Federal, State, or local requirements or permits, which causes such treatment works to violate any effluent limitation or condition in a permit issued to the treatment works under section 402 of this Act by the Administrator or a State;

shall be punished by a fine of not less than \$5,000 nor more than \$50,000 per day of violation, or by imprisonment for not more than 3 years, or by both. If a conviction of a person is for a violation committed after a first conviction of such person under this paragraph, punishment shall be by a fine of not more than \$100,000 per day of violation, or by imprisonment of not more than 6 years, or by both.

"(3) KNOWING ENDANGERMENT.—

"(A) GENERAL RULE.—Any person who knowingly violates section 301, 302, 303, 306, 307, 308, 318, or 405 of this Act, or any permit condition or limitation implementing any of such sections in a permit issued under section 402 of this Act by the Administrator or by a State, or in a permit issued under section 404 of this Act by the Secretary of the Army or by a State, and who knows at that time that he thereby places another person in imminent danger of death or serious bodily injury, shall, upon conviction, be subject to a fine of not more than \$250,000 or imprisonment of not more than 15 years, or both. A person which is an organization shall, upon conviction of violating this subparagraph, be subject to a fine of not more than \$1,000,000. If a conviction of a person is for a violation committed after a first conviction of such person under this paragraph, the maximum punishment shall be doubled with respect to both fine and imprisonment.

"(B) ADDITIONAL PROVISIONS.—For the purpose of subparagraph (A) of this paragraph—

"(i) in determining whether a defendant who is an individual knew that his conduct placed another person in imminent danger of death or serious bodily injury—

"(I) the person is responsible only for actual awareness or actual belief that he possessed; and

"(II) knowledge possessed by a person other than the defendant but not by the defendant himself may not be attributed to the defendant;

except that in proving the defendant's possession of actual knowledge, circumstantial evidence may be used, including evidence that the defendant took affirmative steps to shield himself from relevant information;

"(ii) it is an affirmative defense to prosecution that the conduct charged was consented to by the person endangered and that the danger and conduct charged were reasonably foreseeable hazards of—

"(I) an occupation, a business, or a profession; or

"(II) medical treatment or medical or scientific experimentation conducted by professionally approved methods and such other person had been made aware of the risks involved prior to giving consent;

and such defense may be established under this subparagraph by a preponderance of the evidence;

"(iii) the term 'organization' means a legal entity, other than a government, established or organized for any purpose, and such term includes a corporation, company, association, firm, partnership, joint stock company, foundation, institution, trust, society, union, or any other association of persons; and

"(iv) the term 'serious bodily injury' means bodily injury which involves a substantial risk of death, unconsciousness, extreme physical pain, protracted and obvious disfigurement, or protracted loss or impairment of the function of a bodily member, organ, or mental faculty.

"(4) FALSE STATEMENTS.—Any person who knowingly makes any false material statement, representation, or certification in any application, record, report, plan, or other document filed or required to be maintained under this Act or who knowingly falsifies, tampers with, or renders inaccurate any monitoring device or method required to be maintained under this Act, shall upon conviction, be punished by a fine of not more than \$10,000, or by imprisonment for not more than 2 years, or by both. If a conviction of a person is for a violation committed after a first conviction of such person under this paragraph, punishment shall be by a fine of not more than \$20,000 per day of violation, or by imprisonment of not more than 4 years, or by both.

"(5) TREATMENT OF SINGLE OPERATIONAL UPSET.—For purposes of this subsection, a single operational upset which leads to simultaneous violations of more than one pollutant parameter shall be treated as a single violation.

"(6) RESPONSIBLE CORPORATE OFFICER AS 'PERSON'.—For the purpose of this subsection, the term 'person' means, in addition to the definition contained in section 502(5) of this Act, any responsible corporate officer.

"(7) HAZARDOUS SUBSTANCE DEFINED.—For the purpose of this subsection, the term 'hazardous substance' means (A) any substance designated pursuant to section 311(b)(2)(A) of this Act, (B) any element, compound, mixture, solution, or substance designated pursuant to section 102 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, (C) any hazardous waste having the characteristics identified under or listed pursuant to section 3001 of the Solid Waste Disposal Act (but not including any waste the regulation of which under the Solid Waste Disposal Act has been suspended by Act of Congress), (D) any toxic pollutant listed under section 307(a) of this Act, and (E) any imminently hazardous chemical substance or mixture with respect to which the Administrator has taken action pursuant to section 7 of the Toxic Substances Control Act."

SEC. 313. CIVIL PENALTIES.

(a) VIOLATIONS OF PRETREATMENT REQUIREMENTS.—

(1) GENERAL RULE.—Section 309(d) is amended by inserting ", or any requirement imposed in a pretreatment program approved under section 402(a)(3) or 402(b)(8) of this Act," after "section 404 of this Act by a State."

(2) SAVINGS PROVISION.—No State shall be required before July 1, 1988, to modify a permit program approved or submitted under section 402 of the Federal Water Pollution Control Act as a result of the amendment made by paragraph (1).

(b) INCREASED PENALTY.—

(1) GENERAL RULE.—Section 309(d) is amended by striking out "\$10,000 per day of

such violation" and inserting in lieu thereof "\$25,000 per day for each violation".

(2) INCREASED PENALTIES NOT REQUIRED UNDER STATE PROGRAMS.—The Federal Water Pollution Control Act shall not be construed as requiring a State to have a civil penalty for violations described in section 309(d) of such Act which has the same monetary amount as the civil penalty established by such section, as amended by paragraph (1). Nothing in this paragraph shall affect the Administrator's authority to establish or adjust by regulation a minimum acceptable State civil penalty.

(c) FACTORS TO CONSIDER IN DETERMINING PENALTY AMOUNT.—Section 309(d) is amended by adding at the end thereof the following: "In determining the amount of a civil penalty the court shall consider the seriousness of the violation or violations, the economic benefit (if any) resulting from the violation, any history of such violations, any good-faith efforts to comply with the applicable requirements, the economic impact of the penalty on the violator, and such other matters as justice may require. For purposes of this subsection, a single operational upset which leads to simultaneous violations of more than one pollutant parameter shall be treated as a single violation."

(d) VIOLATIONS OF SECTION 404 PERMITS.—Section 404(s) is amended—

(1) by striking out paragraph (4);

(2) by redesignating paragraph (5) as paragraph (4); and

(3) in paragraph (4), as so redesignated—

(A) by striking out "\$10,000 per day of such violation" and inserting in lieu thereof "\$25,000 per day for each violation";

(B) by adding at the end thereof the following: "In determining the amount of a civil penalty the court shall consider the seriousness of the violation or violations, the economic benefit (if any) resulting from the violation, any history of such violations, any good-faith efforts to comply with the applicable requirements, the economic impact of the penalty on the violator, and such other matters as justice may require."

SEC. 314. ADMINISTRATIVE PENALTIES.

(a) GENERAL RULE.—Section 309 is amended by adding at the end thereof the following:

"(g) ADMINISTRATIVE PENALTIES.—

"(1) VIOLATIONS.—Whenever on the basis of any information available—

"(A) the Administrator finds that any person has violated section 301, 302, 306, 307, 308, 318, or 405 of this Act, or has violated any permit condition or limitation implementing any of such sections in a permit issued under section 402 of this Act by the Administrator or by a State, or in a permit issued under section 404 by a State, or

"(B) the Secretary of the Army (hereinafter in this subsection referred to as the 'Secretary') finds that any person has violated any permit condition or limitation in a permit issued under section 404 of this Act by the Secretary,

the Administrator or Secretary, as the case may be, may, after consultation with the State in which the violation occurs, assess a class I civil penalty or a class II civil penalty under this subsection.

"(2) CLASSES OF PENALTIES.—

"(A) CLASS I.—The amount of a class I civil penalty under paragraph (1) may not exceed \$10,000 per violation, except that the maximum amount of any class I civil penalty under this subparagraph shall not exceed \$25,000. Before issuing an order assessing a civil penalty under this subparagraph, the

Administrator or the Secretary, as the case may be, shall give to the person to be assessed such penalty written notice of the Administrator's or Secretary's proposal to issue such order and the opportunity to request, within 30 days of the date the notice is received by such person, a hearing on the proposed order. Such hearing shall not be subject to section 554 or 556 of title 5, United States Code, but shall provide a reasonable opportunity to be heard and to present evidence.

"(B) CLASS II.—The amount of a class II civil penalty under paragraph (1) may not exceed \$10,000 per day for each day during which the violation continues; except that the maximum amount of any class II civil penalty under this subparagraph shall not exceed \$125,000. Except as otherwise provided in this subsection, a class II civil penalty shall be assessed and collected in the same manner, and subject to the same provisions, as in the case of civil penalties assessed and collected after notice and opportunity for a hearing on the record in accordance with section 554 of title 5, United States Code. The Administrator and the Secretary may issue rules for discovery procedures for hearings under this subparagraph.

"(3) DETERMINING AMOUNT.—In determining the amount of any penalty assessed under this subsection, the Administrator or the Secretary, as the case may be, shall take into account the nature, circumstances, extent and gravity of the violation, or violations, and, with respect to the violator, ability to pay, any prior history of such violations, the degree of culpability, economic benefit or savings (if any) resulting from the violation, and such other matters as justice may require. For purposes of this subsection, a single operational upset which leads to simultaneous violations of more than one pollutant parameter shall be treated as a single violation.

"(4) RIGHTS OF INTERESTED PERSONS.—

"(A) PUBLIC NOTICE.—Before issuing an order assessing a civil penalty under this subsection the Administrator or Secretary, as the case may be, shall provide public notice of and reasonable opportunity to comment on the proposed issuance of such order.

"(B) PRESENTATION OF EVIDENCE.—Any person who comments on a proposed assessment of a penalty under this subsection shall be given notice of any hearing held under this subsection and of the order assessing such penalty. In any hearing held under this subsection, such person shall have a reasonable opportunity to be heard and to present evidence.

"(C) RIGHTS OF INTERESTED PERSONS TO A HEARING.—If no hearing is held under paragraph (2) before issuance of an order assessing a penalty under this subsection, any person who commented on the proposed assessment may petition, within 30 days after the issuance of such order, the Administrator or Secretary, as the case may be, to set aside such order and to provide a hearing on the penalty. If the evidence presented by the petitioner in support of the petition is material and was not considered in the issuance of the order, the Administrator or Secretary shall immediately set aside such order and provide a hearing in accordance with paragraph (2)(A) in the case of a class I civil penalty and paragraph (2)(B) in the case of a class II civil penalty. If the Administrator or Secretary denies a hearing under this subparagraph, the Administrator or Secretary shall provide to the petitioner, and publish in the Federal Register, notice of and the reasons for such denial.

"(5) FINALITY OF ORDER.—An order issued under this subsection shall become final 30 days after its issuance unless a petition for judicial review is filed under paragraph (8) or a hearing is requested under paragraph (4)(C). If such a hearing is denied, such order shall become final 30 days after such denial.

"(6) EFFECT OF ORDER.—

"(A) LIMITATION ON ACTIONS UNDER OTHER SECTIONS.—Action taken by the Administrator or the Secretary, as the case may be, under this subsection shall not affect or limit the Administrator's or Secretary's authority to enforce any provision of this Act; except that any violation—

"(i) with respect to which the Administrator or the Secretary has commenced and is diligently prosecuting an action under this subsection,

"(ii) with respect to which a State has commenced and is diligently prosecuting an action under a State law comparable to this subsection, or

"(iii) for which the Administrator, the Secretary, or the State has issued a final order not subject to further judicial review and the violator has paid a penalty assessed under this subsection, or such comparable State law, as the case may be,

shall not be the subject of a civil penalty action under subsection (d) of this section or section 311(b) or section 505 of this Act.

"(B) APPLICABILITY OF LIMITATION WITH RESPECT TO CITIZEN SUITS.—The limitations contained in subparagraph (A) on civil penalty actions under section 505 of this Act shall not apply with respect to any violation for which—

"(i) a civil action under section 505(a)(1) of this Act has been filed prior to commencement of an action under this subsection, or

"(ii) notice of an alleged violation of section 505(a)(1) of this Act has been given in accordance with section 505(b)(1)(A) prior to commencement of an action under this subsection and an action under section 505(a)(1) with respect to such alleged violation is filed before the 120th day after the date on which such notice is given.

"(7) EFFECT OF ACTION ON COMPLIANCE.—No action by the Administrator or the Secretary under this subsection shall affect any person's obligation to comply with any section of this Act or with the terms and conditions of any permit issued pursuant to section 402 or 404 of this Act.

"(8) JUDICIAL REVIEW.—Any person against whom a civil penalty is assessed under this subsection or who commented on the proposed assessment of such penalty in accordance with paragraph (4) may obtain review of such assessment—

"(A) in the case of assessment of a class I civil penalty, in the United States District Court for the District of Columbia or in the district in which the violation is alleged to have occurred, or

"(B) in the case of assessment of a class II civil penalty, in United States Court of Appeals for the District of Columbia Circuit or for any other circuit in which such person resides or transacts business,

by filing a notice of appeal in such court within the 30-day period beginning on the date the civil penalty order is issued and by simultaneously sending a copy of such notice by certified mail to the Administrator or the Secretary, as the case may be, and the Attorney General. The Administrator or the Secretary shall promptly file in such court a certified copy of the record on which the order was issued. Such court shall

not set aside or remand such order unless there is not substantial evidence in the record, taken as a whole, to support the finding of a violation or unless the Administrator's or Secretary's assessment of the penalty constitutes an abuse of discretion and shall not impose additional civil penalties for the same violation unless the Administrator's or Secretary's assessment of the penalty constitutes an abuse of discretion.

"(9) COLLECTION.—If any person fails to pay an assessment of a civil penalty—

"(A) after the order making the assessment has become final, or

"(B) after a court in an action brought under paragraph (8) has entered a final judgment in favor of the Administrator or the Secretary, as the case may be,

the Administrator or the Secretary shall request the Attorney General to bring a civil action in an appropriate district court to recover the amount assessed (plus interest at currently prevailing rates from the date of the final order or the date of the final judgment, as the case may be). In such an action, the validity, amount, and appropriateness of such penalty shall not be subject to review. Any person who fails to pay on a timely basis the amount of an assessment of a civil penalty as described in the first sentence of this paragraph shall be required to pay, in addition to such amount and interest, attorneys fees and costs for collection proceedings and a quarterly nonpayment penalty for each quarter during which such failure to pay persists. Such nonpayment penalty shall be in an amount equal to 20 percent of the aggregate amount of such person's penalties and nonpayment penalties which are unpaid as of the beginning of such quarter.

"(10) SUBPOENAS.—The Administrator or Secretary, as the case may be, may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, or documents in connection with hearings under this subsection. In case of contumacy or refusal to obey a subpoena issued pursuant to this paragraph and served upon any person, the district court of the United States for any district in which such person is found, resides, or transacts business, upon application by the United States and after notice to such person, shall have jurisdiction to issue an order requiring such person to appear and give testimony before the administrative law judge or to appear and produce documents before the administrative law judge, or both, and any failure to obey such order of the court may be punished by such court as a contempt thereof.

"(11) PROTECTION OF EXISTING PROCEDURES.—Nothing in this subsection shall change the procedures existing on the day before the date of the enactment of the Water Quality Act of 1987 under other subsections of this section for issuance and enforcement of orders by the Administrator."

(b) REPORTS ON ENFORCEMENT MECHANISMS.—The Secretary of the Army and the Administrator shall each prepare and submit a report to the Congress, not later than December 1, 1988, which shall examine and analyze various enforcement mechanisms for use by the Secretary or Administrator, as the case may be, including an administrative civil penalty mechanism. Each of such reports shall also include an examination, prepared in consultation with the Comptroller General, of the efficacy of the Secretary's or the Administrator's existing

enforcement authorities and shall include recommendations for improvements in their operation.

(c) CONFORMING AMENDMENT.—Section 505(a) is amended by inserting "and section 309(g)(6)" after "Except as provided in subsection (b) of this section".

#### SEC. 315. CLEAN LAKES.

(a) ESTABLISHMENT AND SCOPE OF PROGRAM.—Section 314(a) is amended to read as follows:

"(a) ESTABLISHMENT AND SCOPE OF PROGRAM.—

"(1) STATE PROGRAM REQUIREMENTS.—Each State on a biennial basis shall prepare and submit to the Administrator for his approval—

"(A) an identification and classification according to eutrophic condition of all publicly owned lakes in such State;

"(B) a description of procedures, processes, and methods (including land use requirements), to control sources of pollution of such lakes;

"(C) a description of methods and procedures, in conjunction with appropriate Federal agencies, to restore the quality of such lakes;

"(D) methods and procedures to mitigate the harmful effects of high acidity, including innovative methods of neutralizing and restoring buffering capacity of lakes and methods of removing from lakes toxic metals and other toxic substances mobilized by high acidity;

"(E) a list and description of those publicly owned lakes in such State for which uses are known to be impaired, including those lakes which are known not to meet applicable water quality standards or which require implementation of control programs to maintain compliance with applicable standards and those lakes in which water quality has deteriorated as a result of high acidity that may reasonably be due to acid deposition; and

"(F) an assessment of the status and trends of water quality in lakes in such State, including but not limited to, the nature and extent of pollution loading from point and nonpoint sources and the extent to which the use of lakes is impaired as a result of such pollution, particularly with respect to toxic pollution.

"(2) SUBMISSION AS PART OF 305(b)(1) REPORT.—The information required under paragraph (1) shall be included in the report required under section 305(b)(1) of this Act, beginning with the report required under such section by April 1, 1988.

"(3) REPORT OF ADMINISTRATOR.—Not later than 180 days after receipt from the States of the biennial information required under paragraph (1), the Administrator shall submit to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate a report on the status of water quality in lakes in the United States, including the effectiveness of the methods and procedures described in paragraph (1)(D).

"(4) ELIGIBILITY REQUIREMENT.—Beginning after April 1, 1988, a State must have submitted the information required under paragraph (1) in order to receive grant assistance under this section."

(b) DEMONSTRATION PROGRAM.—Section 314 is amended by adding at the end thereof the following new subsections:

"(d) DEMONSTRATION PROGRAM.—

"(1) GENERAL REQUIREMENTS.—The Administrator is authorized and directed to establish and conduct at locations throughout

the Nation a lake water quality demonstration program. The program shall, at a minimum—

"(A) develop cost effective technologies for the control of pollutants to preserve or enhance lake water quality while optimizing multiple lakes uses;

"(B) control nonpoint sources of pollution which are contributing to the degradation of water quality in lakes;

"(C) evaluate the feasibility of implementing regional consolidated pollution control strategies;

"(D) demonstrate environmentally preferred techniques for the removal and disposal of contaminated lake sediments;

"(E) develop improved methods for the removal of silt, stumps, aquatic growth, and other obstructions which impair the quality of lakes;

"(F) construct and evaluate silt traps and other devices or equipment to prevent or abate the deposit of sediment in lakes; and

"(G) demonstrate the costs and benefits of utilizing dredged material from lakes in the reclamation of despoiled land.

"(2) GEOGRAPHICAL REQUIREMENTS.—Demonstration projects authorized by this subsection shall be undertaken to reflect a variety of geographical and environmental conditions. As a priority, the Administrator shall undertake demonstration projects at Lake Houston, Texas; Beaver Lake, Arkansas; Greenwood Lake and Belcher Creek, New Jersey; Deal Lake, New Jersey; Alcyon Lake, New Jersey; Gorton's Pond, Rhode Island; Lake Washington, Rhode Island; Lake Bomoseen, Vermont; Sauk Lake, Minnesota; and Lake Worth, Texas.

"(3) REPORTS.—The Administrator shall report annually to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate on work undertaken pursuant to this subsection. Upon completion of the program authorized by this subsection, the Administrator shall submit to such committees a final report on the results of such program, along with recommendations for further measures to improve the water quality of the Nation's lakes.

"(4) AUTHORIZATION OF APPROPRIATIONS.—

"(A) IN GENERAL.—There is authorized to be appropriated to carry out this subsection not to exceed \$40,000,000 for fiscal years beginning after September 30, 1986, to remain available until expended.

"(B) SPECIAL AUTHORIZATIONS.—

"(i) AMOUNT.—There is authorized to be appropriated to carry out subsection (b) with respect to subsection (a)(1)(D) not to exceed \$15,000,000 for fiscal years beginning after September 30, 1986, to remain available until expended.

"(ii) DISTRIBUTION OF FUNDS.—The Administrator shall provide for an equitable distribution of sums appropriated pursuant to this subparagraph among States carrying out approved methods and procedures. Such distribution shall be based on the relative needs of each such State for the mitigation of the harmful effects on lakes and other surface waters of high acidity that may reasonably be due to acid deposition or acid mine drainage.

"(iii) GRANTS AS ADDITIONAL ASSISTANCE.—The amount of any grant to a State under this subparagraph shall be in addition to, and not in lieu of, any other Federal financial assistance."

(c) LAKE RESTORATION GUIDANCE MANUAL.—Section 304(j) is amended to read as follows:

"(j) LAKE RESTORATION GUIDANCE MANUAL.—The Administrator shall, within 1 year after the date of the enactment of the Water Quality Act of 1987 and biennially thereafter, publish and disseminate a lake restoration guidance manual describing methods, procedures, and processes to guide State and local efforts to improve, restore, and enhance water quality in the Nation's publicly owned lakes."

(d) CONFORMING AMENDMENTS.—Section 314 is further amended—

(1) in subsection (b) by striking out "this section" the first place it appears and inserting in lieu thereof "subsection (a) of this section";

(2) in subsection (c)(1) by striking out "this section" the first place it appears and inserting in lieu thereof "subsection (b) of this section" and by striking out "this section" the second place it appears and inserting in lieu thereof "subsection (a) of this section"; and

(3) in subsection (c)(2) by striking out "this section" the first place it appears and inserting in lieu thereof "subsection (b) of this section" and by striking out "this section" the second place it appears and inserting in lieu thereof "subsection (a) of this section".

#### SEC. 316. MANAGEMENT OF NONPOINT SOURCES OF POLLUTION.

(a) IN GENERAL.—Title III is amended by adding at the end the following new section:

#### "SEC. 319. NONPOINT SOURCE MANAGEMENT PROGRAMS.

"(a) STATE ASSESSMENT REPORTS.—

"(1) CONTENTS.—The Governor of each State shall, after notice and opportunity for public comment, prepare and submit to the Administrator for approval, a report which—

"(A) identifies those navigable waters within the State which, without additional action to control nonpoint sources of pollution, cannot reasonably be expected to attain or maintain applicable water quality standards or the goals and requirements of this Act;

"(B) identifies those categories and subcategories of nonpoint sources or, where appropriate, particular nonpoint sources which add significant pollution to each portion of the navigable waters identified under subparagraph (A) in amounts which contribute to such portion not meeting such water quality standards or such goals and requirements;

"(C) describes the process, including intergovernmental coordination and public participation, for identifying best management practices and measures to control each category and subcategory of nonpoint sources and, where appropriate, particular nonpoint sources identified under subparagraph (B) and to reduce, to the maximum extent practicable, the level of pollution resulting from such category, subcategory, or source; and

"(D) identifies and describes State and local programs for controlling pollution added from nonpoint sources to, and improving the quality of, each such portion of the navigable waters, including but not limited to those programs which are receiving Federal assistance under subsections (h) and (i).

"(2) INFORMATION USED IN PREPARATION.—In developing the report required by this section, the State (A) may rely upon information developed pursuant to sections 208, 303(e), 304(f), 305(b), and 314, and other information as appropriate, and (B) may utilize appropriate elements of the waste treat-

ment management plans developed pursuant to sections 208(b) and 303, to the extent such elements are consistent with and fulfill the requirements of this section.

**"(b) STATE MANAGEMENT PROGRAMS.—**

**"(1) IN GENERAL.**—The Governor of each State, for that State or in combination with adjacent States, shall, after notice and opportunity for public comment, prepare and submit to the Administrator for approval a management program which such State proposes to implement in the first four fiscal years beginning after the date of submission of such management program for controlling pollution added from nonpoint sources to the navigable waters within the State and improving the quality of such waters.

**"(2) SPECIFIC CONTENTS.**—Each management program proposed for implementation under this subsection shall include each of the following:

**"(A)** An identification of the best management practices and measures which will be undertaken to reduce pollutant loadings resulting from each category, subcategory, or particular nonpoint source designated under paragraph (1)(B), taking into account the impact of the practice on ground water quality.

**"(B)** An identification of programs (including, as appropriate, nonregulatory or regulatory programs for enforcement, technical assistance, financial assistance, education, training, technology transfer, and demonstration projects) to achieve implementation of the best management practices by the categories, subcategories, and particular nonpoint sources designated under subparagraph (A).

**"(C)** A schedule containing annual milestones for (i) utilization of the program implementation methods identified in subparagraph (B), and (ii) implementation of the best management practices identified in subparagraph (A) by the categories, subcategories, or particular nonpoint sources designated under paragraph (1)(B). Such schedule shall provide for utilization of the best management practices at the earliest practicable date.

**"(D)** A certification of the attorney general of the State or States (or the chief attorney of any State water pollution control agency which has independent legal counsel) that the laws of the State or States, as the case may be, provide adequate authority to implement such management program or, if there is not such adequate authority, a list of such additional authorities as will be necessary to implement such management program. A schedule and commitment by the State or States to seek such additional authorities as expeditiously as practicable.

**"(E)** Sources of Federal and other assistance and funding (other than assistance provided under subsections (h) and (i)) which will be available in each of such fiscal years for supporting implementation of such practices and measures and the purposes for which such assistance will be used in each of such fiscal years.

**"(F)** An identification of Federal financial assistance programs and Federal development projects for which the State will review individual assistance applications or development projects for their effect on water quality pursuant to the procedures set forth in Executive Order 12372 as in effect on September 17, 1983, to determine whether such assistance applications or development projects would be consistent with the program prepared under this subsection; for the purposes of this subparagraph, identification shall not be limited to the as-

sistance programs or development projects subject to Executive Order 12372 but may include any programs listed in the most recent Catalog of Federal Domestic Assistance which may have an effect on the purposes and objectives of the State's nonpoint source pollution management program.

**"(3) UTILIZATION OF LOCAL AND PRIVATE EXPERTS.**—In developing and implementing a management program under this subsection, a State shall, to the maximum extent practicable, involve local public and private agencies and organizations which have expertise in control of nonpoint sources of pollution.

**"(4) DEVELOPMENT ON WATERSHED BASIS.**—A State shall, to the maximum extent practicable, develop and implement a management program under this subsection on a watershed-by-watershed basis within such State.

**"(c) ADMINISTRATIVE PROVISIONS.—**

**"(1) COOPERATION REQUIREMENT.**—Any report required by subsection (a) and any management program and report required by subsection (b) shall be developed in cooperation with local, substate regional, and interstate entities which are actively planning for the implementation of nonpoint source pollution controls and have either been certified by the Administrator in accordance with section 208, have worked jointly with the State on water quality management planning under section 205(j), or have been designated by the State legislative body or Governor as water quality management planning agencies for their geographic areas.

**"(2) TIME PERIOD FOR SUBMISSION OF REPORTS AND MANAGEMENT PROGRAMS.**—Each report and management program shall be submitted to the Administrator during the 18-month period beginning on the date of the enactment of this section.

**"(d) APPROVAL OR DISAPPROVAL OF REPORTS AND MANAGEMENT PROGRAMS.—**

**"(1) DEADLINE.**—Subject to paragraph (2), not later than 180 days after the date of submission to the Administrator of any report or management program under this section (other than subsections (h), (i), and (k)), the Administrator shall either approve or disapprove such report or management program, as the case may be. The Administrator may approve a portion of a management program under this subsection. If the Administrator does not disapprove a report, management program, or portion of a management program in such 180-day period, such report, management program, or portion shall be deemed approved for purposes of this section.

**"(2) PROCEDURE FOR DISAPPROVAL.**—If, after notice and opportunity for public comment and consultation with appropriate Federal and State agencies and other interested persons, the Administrator determines that—

**"(A)** the proposed management program or any portion thereof does not meet the requirements of subsection (b)(2) of this section or is not likely to satisfy, in whole or in part, the goals and requirements of this Act;

**"(B)** adequate authority does not exist, or adequate resources are not available, to implement such program or portion;

**"(C)** the schedule for implementing such program or portion is not sufficiently expeditious; or

**"(D)** the practices and measures proposed in such program or portion are not adequate to reduce the level of pollution in navigable waters in the State resulting from nonpoint sources and to improve the quality of navigable waters in the State;

the Administrator shall within 6 months of the receipt of the proposed program notify the State of any revisions or modifications necessary to obtain approval. The State shall thereupon have an additional 3 months to submit its revised management program and the Administrator shall approve or disapprove such revised program within three months of receipt.

**"(3) FAILURE OF STATE TO SUBMIT REPORT.**—If a Governor of a State does not submit the report required by subsection (a) within the period specified by subsection (c)(2), the Administrator shall, within 30 months after the date of the enactment of this section, prepare a report for such State which makes the identifications required by paragraphs (1)(A) and (1)(B) of subsection (a). Upon completion of the requirement of the preceding sentence and after notice and opportunity for comment, the Administrator shall report to Congress on his actions pursuant to this section.

**"(e) LOCAL MANAGEMENT PROGRAMS; TECHNICAL ASSISTANCE.**—If a State fails to submit a management program under subsection (b) or the Administrator does not approve such a management program, a local public agency or organization which has expertise in, and authority to, control water pollution resulting from nonpoint sources in any area of such State which the Administrator determines is of sufficient geographic size may, with approval of such State, request the Administrator to provide, and the Administrator shall provide, technical assistance to such agency or organization in developing for such area a management program which is described in subsection (b) and can be approved pursuant to subsection (d). After development of such management program, such agency or organization shall submit such management program to the Administrator for approval. If the Administrator approves such management program, such agency or organization shall be eligible to receive financial assistance under subsection (h) for implementation of such management program as if such agency or organization were a State for which a report submitted under subsection (a) and a management program submitted under subsection (b) were approved under this section. Such financial assistance shall be subject to the same terms and conditions as assistance provided to a State under subsection (h).

**"(f) TECHNICAL ASSISTANCE FOR STATES.**—Upon request of a State, the Administrator may provide technical assistance to such State in developing a management program approved under subsection (b) for those portions of the navigable waters requested by such State.

**"(g) INTERSTATE MANAGEMENT CONFERENCE.—**

**"(1) CONVENING OF CONFERENCE; NOTIFICATION; PURPOSE.**—If any portion of the navigable waters in any State which is implementing a management program approved under this section is not meeting applicable water quality standards or the goals and requirements of this Act as a result, in whole or in part, of pollution from nonpoint sources in another State, such State may petition the Administrator to convene, and the Administrator shall convene, a management conference of all States which contribute significant pollution resulting from nonpoint sources to such portion. If, on the basis of information available, the Administrator determines that a State is not meeting applicable water quality standards or the goals and requirements of this Act as a result, in whole or in part, of significant pol-

lution from nonpoint sources in another State, the Administrator shall notify such States. The Administrator may convene a management conference under this paragraph not later than 180 days after giving such notification, whether or not the State which is not meeting such standards requests such conference. The purpose of such conference shall be to develop an agreement among such States to reduce the level of pollution in such portion resulting from nonpoint sources and to improve the water quality of such portion. Nothing in such agreement shall supersede or abrogate rights to quantities of water which have been established by interstate water compacts, Supreme Court decrees, or State water laws. This subsection shall not apply to any pollution which is subject to the Colorado River Basin Salinity Control Act. The requirement that the Administrator convene a management conference shall not be subject to the provisions of section 505 of this Act.

"(2) STATE MANAGEMENT PROGRAM REQUIREMENT.—To the extent that the States reach agreement through such conference, the management programs of the States which are parties to such agreements and which contribute significant pollution to the navigable waters or portions thereof not meeting applicable water quality standards or goals and requirements of this Act will be revised to reflect such agreement. Such management programs shall be consistent with Federal and State law.

"(h) GRANT PROGRAM.—

"(1) GRANTS FOR IMPLEMENTATION OF MANAGEMENT PROGRAMS.—Upon application of a State for which a report submitted under subsection (a) and a management program submitted under subsection (b) is approved under this section, the Administrator shall make grants, subject to such terms and conditions as the Administrator considers appropriate, under this subsection to such State for the purpose of assisting the State in implementing such management program. Funds reserved pursuant to section 205(j)(5) of this Act may be used to develop and implement such management program.

"(2) APPLICATIONS.—An application for a grant under this subsection in any fiscal year shall be in such form and shall contain such other information as the Administrator may require, including an identification and description of the best management practices and measures which the State proposes to assist, encourage, or require in such year with the Federal assistance to be provided under the grant.

"(3) FEDERAL SHARE.—The Federal share of the cost of each management program implemented with Federal assistance under this subsection in any fiscal year shall not exceed 60 percent of the cost incurred by the State in implementing such management program and shall be made on condition that the non-Federal share is provided from non-Federal sources.

"(4) LIMITATION ON GRANT AMOUNTS.—Notwithstanding any other provision of this subsection, not more than 15 percent of the amount appropriated to carry out this subsection may be used to make grants to any one State, including any grants to any local public agency or organization with authority to control pollution from nonpoint sources in any area of such State.

"(5) PRIORITY FOR EFFECTIVE MECHANISMS.—For each fiscal year beginning after September 30, 1987, the Administrator may give priority in making grants under this subsection, and shall give consideration in

determining the Federal share of any such grant, to States which have implemented or are proposing to implement management programs which will—

"(A) control particularly difficult or serious nonpoint source pollution problems, including, but not limited to, problems resulting from mining activities;

"(B) implement innovative methods or practices for controlling nonpoint sources of pollution, including regulatory programs where the Administrator deems appropriate;

"(C) control interstate nonpoint source pollution problems; or

"(D) carry out ground water quality protection activities which the Administrator determines are part of a comprehensive nonpoint source pollution control program, including research, planning, ground water assessments, demonstration programs, enforcement, technical assistance, education, and training to protect ground water quality from nonpoint sources of pollution.

"(6) AVAILABILITY FOR OBLIGATION.—The funds granted to each State pursuant to this subsection in a fiscal year shall remain available for obligation by such State for the fiscal year for which appropriated. The amount of any such funds not obligated by the end of such fiscal year shall be available to the Administrator for granting to other States under this subsection in the next fiscal year.

"(7) LIMITATION ON USE OF FUNDS.—States may use funds from grants made pursuant to this section for financial assistance to persons only to the extent that such assistance is related to the costs of demonstration projects.

"(8) SATISFACTORY PROGRESS.—No grant may be made under this subsection in any fiscal year to a State which in the preceding fiscal year received a grant under this subsection unless the Administrator determines that such State made satisfactory progress in such preceding fiscal year in meeting the schedule specified by such State under subsection (b)(2).

"(9) MAINTENANCE OF EFFORT.—No grant may be made to a State under this subsection in any fiscal year unless such State enters into such agreements with the Administrator as the Administrator may require to ensure that such State will maintain its aggregate expenditures from all other sources for programs for controlling pollution added to the navigable waters in such State from nonpoint sources and improving the quality of such waters at or above the average level of such expenditures in its two fiscal years preceding the date of enactment of this subsection.

"(10) REQUEST FOR INFORMATION.—The Administrator may request such information, data, and reports as he considers necessary to make the determination of continuing eligibility for grants under this section.

"(11) REPORTING AND OTHER REQUIREMENTS.—Each State shall report to the Administrator on an annual basis concerning (A) its progress in meeting the schedule of milestones submitted pursuant to subsection (b)(2)(C) of this section, and (B) to the extent that appropriate information is available, reductions in nonpoint source pollutant loading and improvements in water quality for those navigable waters or watersheds within the State which were identified pursuant to subsection (a)(1)(A) of this section resulting from implementation of the management program.

"(12) LIMITATION ON ADMINISTRATIVE COSTS.—For purposes of this subsection, ad-

ministrative costs in the form of salaries, overhead, or indirect costs for services provided and charged against activities and programs carried out with a grant under this subsection shall not exceed in any fiscal year 10 percent of the amount of the grant in such year, except that costs of implementing enforcement and regulatory activities, education, training, technical assistance, demonstration projects, and technology transfer programs shall not be subject to this limitation.

"(i) GRANTS FOR PROTECTING GROUNDWATER QUALITY.—

"(1) ELIGIBLE APPLICANTS AND ACTIVITIES.—Upon application of a State for which a report submitted under subsection (a) and a plan submitted under subsection (b) is approved under this section, the Administrator shall make grants under this subsection to such State for the purpose of assisting such State in carrying out groundwater quality protection activities which the Administrator determines will advance the State toward implementation of a comprehensive nonpoint source pollution control program. Such activities shall include, but not be limited to, research, planning, groundwater assessments, demonstration programs, enforcement, technical assistance, education and training to protect the quality of groundwater and to prevent contamination of groundwater from nonpoint sources of pollution.

"(2) APPLICATIONS.—An application for a grant under this subsection shall be in such form and shall contain such information as the Administrator may require.

"(3) FEDERAL SHARE; MAXIMUM AMOUNT.—The Federal share of the cost of assisting a State in carrying out groundwater protection activities in any fiscal year under this subsection shall be 50 percent of the costs incurred by the State in carrying out such activities, except that the maximum amount of Federal assistance which any State may receive under this subsection in any fiscal year shall not exceed \$150,000.

"(4) REPORT.—The Administrator shall include in each report transmitted under subsection (m) a report on the activities and programs implemented under this subsection during the preceding fiscal year.

"(j) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out subsections (h) and (i) not to exceed \$70,000,000 for fiscal year 1988, \$100,000,000 per fiscal year for each of fiscal years 1989 and 1990, and \$130,000,000 for fiscal year 1991; except that for each of such fiscal years not to exceed \$7,500,000 may be made available to carry out subsection (i). Sums appropriated pursuant to this subsection shall remain available until expended.

"(k) CONSISTENCY OF OTHER PROGRAMS AND PROJECTS WITH MANAGEMENT PROGRAMS.—The Administrator shall transmit to the Office of Management and Budget and the appropriate Federal departments and agencies a list of those assistance programs and development projects identified by each State under subsection (b)(2)(F) for which individual assistance applications and projects will be reviewed pursuant to the procedures set forth in Executive Order 12372 as in effect on September 17, 1983. Beginning not later than sixty days after receiving notification by the Administrator, each Federal department and agency shall modify existing regulations to allow States to review individual development projects and assistance applications under the identified Federal assistance programs and shall

accommodate, according to the requirements and definitions of Executive Order 12372, as in effect on September 17, 1983, the concerns of the State regarding the consistency of such applications or projects with the State nonpoint source pollution management program.

"(l) **COLLECTION OF INFORMATION.**—The Administrator shall collect and make available, through publications and other appropriate means, information pertaining to management practices and implementation methods, including, but not limited to, (1) information concerning the costs and relative efficiencies of best management practices for reducing nonpoint source pollution; and (2) available data concerning the relationship between water quality and implementation of various management practices to control nonpoint sources of pollution.

"(m) **REPORTS OF ADMINISTRATOR.**—

"(1) **ANNUAL REPORTS.**—Not later than January 1, 1988, and each January 1 thereafter, the Administrator shall transmit to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate, a report for the preceding fiscal year on the activities and programs implemented under this section and the progress made in reducing pollution in the navigable waters resulting from nonpoint sources and improving the quality of such waters.

"(2) **FINAL REPORT.**—Not later than January 1, 1990, the Administrator shall transmit to Congress a final report on the activities carried out under this section. Such report, at a minimum, shall—

"(A) describe the management programs being implemented by the States by types and amount of affected navigable waters, categories and subcategories of nonpoint sources, and types of best management practices being implemented;

"(B) describe the experiences of the States in adhering to schedules and implementing best management practices;

"(C) describe the amount and purpose of grants awarded pursuant to subsections (h) and (i) of this section;

"(D) identify, to the extent that information is available, the progress made in reducing pollutant loads and improving water quality in the navigable waters;

"(E) indicate what further actions need to be taken to attain and maintain in those navigable waters (i) applicable water quality standards, and (ii) the goals and requirements of this Act;

"(F) include recommendations of the Administrator concerning future programs (including enforcement programs) for controlling pollution from nonpoint sources; and

"(G) identify the activities and programs of departments, agencies, and instrumentalities of the United States which are inconsistent with the management programs submitted by the States and recommend modifications so that such activities and programs are consistent with and assist the States in implementation of such management programs.

"(n) **SET ASIDE FOR ADMINISTRATIVE PERSONNEL.**—Not less than 5 percent of the funds appropriated pursuant to subsection (j) for any fiscal year shall be available to the Administrator to maintain personnel levels at the Environmental Protection Agency at levels which are adequate to carry out this section in such year."

"(b) **POLICY FOR CONTROL OF NONPOINT SOURCES OF POLLUTION.**—Section 101(a) is amended by striking out "and" at the end of

paragraph (5), by striking out the period at the end of paragraph (6) and inserting in lieu thereof "; and", and by adding at the end thereof the following:

"(7) it is the national policy that programs for the control of nonpoint sources of pollution be developed and implemented in an expeditious manner so as to enable the goals of this Act to be met through the control of both point and nonpoint sources of pollution."

"(c) **ELIGIBILITY OF NONPOINT SOURCES.**—The last sentence of section 201(g)(1) is amended by—

(1) striking out "sentence," the first place it appears and inserting in lieu thereof "sentences,"

(2) inserting "(A)" after "October 1, 1984, for"; and

(3) inserting before "except that" the following: "and (B) any purpose for which a grant may be made under section 319 (h) and (i) of this Act (including any innovative and alternative approaches for the control of nonpoint sources of pollution)."

"(d) **RESERVATION OF FUNDS.**—Section 205(j) is amended by adding at the end the following new paragraph:

"(5) **NONPOINT SOURCE RESERVATION.**—In addition to the sums reserved under paragraph (1), the Administrator shall reserve each fiscal year for each State 1 percent of the sums allotted and available for obligation to such State under this section for each fiscal year beginning on or after October 1, 1986, or \$100,000, whichever is greater, for the purpose of carrying out section 319 of this Act. Sums so reserved in a State in any fiscal year for which such State does not request the use of such sums, to the extent such sums exceed \$100,000, may be used by such State for other purposes under this title."

"(e) **CONFORMING AMENDMENT.**—Section 304(k)(1) is amended by inserting "and nonpoint source pollution management programs approved under section 319 of this Act" after "208 of this Act".

**SEC. 317. NATIONAL ESTUARY PROGRAM.**

"(a) **PURPOSES AND POLICIES.**—

(1) **FINDINGS.**—Congress finds and declares that—

(A) the Nation's estuaries are of great importance for fish and wildlife resources and recreation and economic opportunity;

(B) maintaining the health and ecological integrity of these estuaries is in the national interest;

(C) increasing coastal population, development, and other direct and indirect uses of these estuaries threaten their health and ecological integrity;

(D) long-term planning and management will contribute to the continued productivity of these areas, and will maximize their utility to the Nation; and

(E) better coordination among Federal and State programs affecting estuaries will increase the effectiveness and efficiency of the national effort to protect, preserve, and restore these areas.

(2) **PURPOSES.**—The purposes of this section are to—

(A) identify nationally significant estuaries that are threatened by pollution, development, or overuse;

(B) promote comprehensive planning for, and conservation and management of, nationally significant estuaries;

(C) encourage the preparation of management plans for estuaries of national significance; and

(D) enhance the coordination of estuarine research.

(b) **MANAGEMENT PROGRAM.**—Title III is amended by adding at the end thereof the following new section:

**"SEC. 320. NATIONAL ESTUARY PROGRAM.**

"(a) **MANAGEMENT CONFERENCE.**—

"(1) **NOMINATION OF ESTUARIES.**—The Governor of any State may nominate to the Administrator an estuary lying in whole or in part within the State as an estuary of national significance and request a management conference to develop a comprehensive management plan for the estuary. The nomination shall document the need for the conference, the likelihood of success, and information relating to the factors in paragraph (2).

"(2) **CONVENING OF CONFERENCE.**—

"(A) **IN GENERAL.**—In any case where the Administrator determines, on his own initiative or upon nomination of a State under paragraph (1), that the attainment or maintenance of that water quality in an estuary which assures protection of public water supplies and the protection and propagation of a balanced, indigenous population of shellfish, fish, and wildlife, and allows recreational activities, in and on the water, requires the control of point and nonpoint sources of pollution to supplement existing controls of pollution in more than one State, the Administrator shall select such estuary and convene a management conference.

"(B) **PRIORITY CONSIDERATION.**—The Administrator shall give priority consideration under this section to Long Island Sound, New York and Connecticut; Narragansett Bay, Rhode Island; Buzzards Bay, Massachusetts; Puget Sound, Washington; New York-New Jersey Harbor, New York and New Jersey; Delaware Bay, Delaware and New Jersey; Delaware Inland Bays, Delaware; Albemarle Sound, North Carolina; Sarasota Bay, Florida; San Francisco Bay, California; and Galveston Bay, Texas.

"(3) **BOUNDARY DISPUTE EXCEPTION.**—In any case in which a boundary between two States passes through an estuary and such boundary is disputed and is the subject of an action in any court, the Administrator shall not convene a management conference with respect to such estuary before a final adjudication has been made of such dispute.

"(b) **PURPOSES OF CONFERENCE.**—The purposes of any management conference convened with respect to an estuary under this subsection shall be to—

"(1) assess trends in water quality, natural resources, and uses of the estuary;

"(2) collect, characterize, and assess data on toxics, nutrients, and natural resources within the estuarine zone to identify the causes of environmental problems;

"(3) develop the relationship between the in-place loads and point and nonpoint loadings of pollutants to the estuarine zone and the potential uses of the zone, water quality, and natural resources;

"(4) develop a comprehensive conservation and management plan that recommends priority corrective actions and compliance schedules addressing point and nonpoint sources of pollution to restore and maintain the chemical, physical, and biological integrity of the estuary, including restoration and maintenance of water quality, a balanced indigenous population of shellfish, fish and wildlife, and recreational activities in the estuary, and assure that the designated uses of the estuary are protected;

"(5) develop plans for the coordinated implementation of the plan by the States as

well as Federal and local agencies participating in the conference;

"(6) monitor the effectiveness of actions taken pursuant to the plan; and

"(7) review all Federal financial assistance program and Federal development project in accordance with the requirements of Executive Order 12372, as in effect on September 17, 1983, to determine whether such assistance program or project would be consistent with and further the purposes and objectives of the plan prepared under this section.

For purposes of paragraph (7), such programs and projects shall not be limited to the assistance programs and development projects subject to Executive Order 12372, but may include any programs listed in the most recent Catalog of Federal Domestic Assistance which may have an effect on the purposes and objectives of the plan developed under this section.

"(c) MEMBERS OF CONFERENCE.—The members of a management conference convened under this section shall include, at a minimum, the Administrator and representatives of—

"(1) each State and foreign nation located in whole or in part in the estuarine zone of the estuary for which the conference is convened;

"(2) international, interstate, or regional agencies or entities having jurisdiction over all or a significant part of the estuary;

"(3) each interested Federal agency, as determined appropriate by the Administrator;

"(4) local governments having jurisdiction over any land or water within the estuarine zone, as determined appropriate by the Administrator; and

"(5) affected industries, public and private educational institutions, and the general public, as determined appropriate by the Administrator.

"(d) UTILIZATION OF EXISTING DATA.—In developing a conservation and management plan under this section, the management conference shall survey and utilize existing reports, data, and studies relating to the estuary that have been developed by or made available to Federal, interstate, State, and local agencies.

"(e) PERIOD OF CONFERENCE.—A management conference convened under this section shall be convened for a period not to exceed 5 years. Such conference may be extended by the Administrator, and if terminated after the initial period, may be reconvened by the Administrator at any time thereafter, as may be necessary to meet the requirements of this section.

"(f) APPROVAL AND IMPLEMENTATION OF PLANS.—

"(1) APPROVAL.—Not later than 120 days after the completion of a conservation and management plan and after providing for public review and comment, the Administrator shall approve such plan if the plan meets the requirements of this section and the affected Governor or Governors concur.

"(2) IMPLEMENTATION.—Upon approval of a conservation and management plan under this section, such plan shall be implemented. Funds authorized to be appropriated under titles II and VI and section 319 of this Act may be used in accordance with the applicable requirements of this Act to assist States with the implementation of such plan.

"(g) GRANTS.—

"(1) RECIPIENTS.—The Administrator is authorized to make grants to State, interstate, and regional water pollution control agencies and entities, State coastal zone

management agencies, interstate agencies, other public or nonprofit private agencies, institutions, organizations, and individuals.

"(2) PURPOSES.—Grants under this subsection shall be made to pay for assisting research, surveys, studies, and modeling and other technical work necessary for the development of a conservation and management plan under this section.

"(3) FEDERAL SHARE.—The amount of grants to any person (including a State, interstate, or regional agency or entity) under this subsection for a fiscal year shall not exceed 75 percent of the costs of such research, survey, studies, and work and shall be made on condition that the non-Federal share of such costs are provided from non-Federal sources.

"(h) GRANT REPORTING.—Any person (including a State, interstate, or regional agency or entity) that receives a grant under subsection (g) shall report to the Administrator not later than 18 months after receipt of such grant and biennially thereafter on the progress being made under this section.

"(i) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Administrator not to exceed \$12,000,000 per fiscal year for each of fiscal years 1987, 1988, 1989, 1990, and 1991 for—

"(1) expenses related to the administration of management conferences under this section, not to exceed 10 percent of the amount appropriated under this subsection;

"(2) making grants under subsection (g); and

"(3) monitoring the implementation of a conservation and management plan by the management conference or by the Administrator, in any case in which the conference has been terminated.

The Administrator shall provide up to \$5,000,000 per fiscal year of the sums authorized to be appropriated under this subsection to the Administrator of the National Oceanic and Atmospheric Administration to carry out subsection (j).

"(j) RESEARCH.—

"(1) PROGRAMS.—In order to determine the need to convene a management conference under this section or at the request of such a management conference, the Administrator shall coordinate and implement, through the National Marine Pollution Program Office and the National Marine Fisheries Service of the National Oceanic and Atmospheric Administration, as appropriate, for one or more estuarine zones—

"(A) a long-term program of trend assessment monitoring measuring variations in pollutant concentrations, marine ecology, and other physical or biological environmental parameters which may affect estuarine zones, to provide the Administrator the capacity to determine the potential and actual effects of alternative management strategies and measures;

"(B) a program of ecosystem assessment assisting in the development of (i) baseline studies which determine the state of estuarine zones and the effects of natural and anthropogenic changes, and (ii) predictive models capable of translating information on specific discharges or general pollutant loadings within estuarine zones into a set of probable effects on such zones;

"(C) a comprehensive water quality sampling program for the continuous monitoring of nutrients, chlorine, acid precipitation dissolved oxygen, and potentially toxic pollutants (including organic chemicals and metals) in estuarine zones, after consultation with interested State, local, interstate,

or international agencies and review and analysis of all environmental sampling data presently collected from estuarine zones; and

"(D) a program of research to identify the movements of nutrients, sediments and pollutants through estuarine zones and the impact of nutrients, sediments, and pollutants on water quality, the ecosystem, and designated or potential uses of the estuarine zones.

"(2) REPORTS.—The Administrator, in cooperation with the Administrator of the National Oceanic and Atmospheric Administration, shall submit to the Congress no less often than biennially a comprehensive report on the activities authorized under this subsection including—

"(A) a listing of priority monitoring and research needs;

"(B) an assessment of the state and health of the Nation's estuarine zones, to the extent evaluated under this subsection;

"(C) a discussion of pollution problems and trends in pollutant concentrations with a direct or indirect effect on water quality, the ecosystem, and designated or potential uses of each estuarine zone, to the extent evaluated under this subsection; and

"(D) an evaluation of pollution abatement activities and management measures so far implemented to determine the degree of improvement toward the objectives expressed in subsection (b)(4) of this section.

"(k) DEFINITIONS.—For purposes of this section, the terms 'estuary' and 'estuarine zone' have the meanings such terms have in section 104(n)(4) of this Act, except that the term 'estuarine zone' shall also include associated aquatic ecosystems and those portions of tributaries draining into the estuary up to the historic height of migration of anadromous fish or the historic head of tidal influence, whichever is higher."

SEC. 318. UNCONSOLIDATED QUATERNARY AQUIFER.

Notwithstanding any other provision of law, no person may—

(1) locate or authorize the location of a landfill, surface impoundment, waste pile, injection well, or land treatment facility over the Unconsolidated Quaternary Aquifer, or the recharge zone or streamflow source zone of such aquifer, in the Rockaway River Basin, New Jersey (as such aquifer and zones are described in the Federal Register, January 24, 1984, pages 2946-2948); or

(2) place or authorize the placement of solid waste in a landfill, surface impoundment, waste pile, injection well, or land treatment facility over such aquifer or zone. This section may be enforced under sections 309 (a) and (b) of the Federal Water Pollution Control Act. For purposes of section 309(c) of such Act, a violation of this section shall be considered a violation of section 301 of the Federal Water Pollution Control Act.

#### TITLE IV—PERMITS AND LICENSES

SEC. 401. STORMWATER RUNOFF FROM OIL, GAS, AND MINING OPERATIONS.

(a) LIMITATION ON PERMIT REQUIREMENT.—Section 402(1) is amended by inserting "(1) AGRICULTURAL RETURN FLOWS.—" before "The Administrator" and by adding at the end thereof the following:

"(2) STORMWATER RUNOFF FROM OIL, GAS, AND MINING OPERATIONS.—The Administrator shall not require a permit under this section, nor shall the Administrator directly or indirectly require any State to require a permit, for discharges of stormwater runoff from mining operations or oil and gas explo-

ration, production, processing, or treatment operations or transmission facilities, composed entirely of flows which are from conveyances or systems of conveyances (including but not limited to pipes, conduits, ditches, and channels) used for collecting and conveying precipitation runoff and which are not contaminated by contact with, or do not come into contact with, any overburden, raw material, intermediate products, finished product, by-product, or waste products located on the site of such operations."

(b) CONFORMING AMENDMENTS.—Section 402(1) is further amended—

(1) by inserting "LIMITATION ON PERMIT REQUIREMENT.—" after "(1)"; and

(2) by indenting paragraph (1) of such section, as designated by subsection (a) of this section, and aligning such paragraph with paragraph (2) of such section, as added by such subsection (a).

#### SEC. 402. ADDITIONAL PRETREATMENT OF CONVENTIONAL POLLUTANTS NOT REQUIRED.

Section 402 is amended by adding at the end thereof the following new subsection:

"(m) ADDITIONAL PRETREATMENT OF CONVENTIONAL POLLUTANTS NOT REQUIRED.—To the extent a treatment works (as defined in section 212 of this Act) which is publicly owned is not meeting the requirements of a permit issued under this section for such treatment works as a result of inadequate design or operation of such treatment works, the Administrator, in issuing a permit under this section, shall not require pretreatment by a person introducing conventional pollutants identified pursuant to section 304(a)(4) of this Act into such treatment works other than pretreatment required to assure compliance with pretreatment standards under subsection (b)(8) of this section and section 307(b)(1) of this Act. Nothing in this subsection shall affect the Administrator's authority under sections 307 and 309 of this Act, affect State and local authority under sections 307(b)(4) and 510 of this Act, relieve such treatment works of its obligations to meet requirements established under this Act, or otherwise preclude such works from pursuing whatever feasible options are available to meet its responsibility to comply with its permit under this section."

#### SEC. 403. PARTIAL NPDES PROGRAM.

(a) PARTIAL PERMIT PROGRAM.—Section 402 is amended by adding at the end the following:

"(n) PARTIAL PERMIT PROGRAM.—

"(1) STATE SUBMISSION.—The Governor of a State may submit under subsection (b) of this section a permit program for a portion of the discharges into the navigable waters in such State.

"(2) MINIMUM COVERAGE.—A partial permit program under this subsection shall cover, at a minimum, administration of a major category of the discharges into the navigable waters of the State or a major component of the permit program required by subsection (b).

"(3) APPROVAL OF MAJOR CATEGORY PARTIAL PERMIT PROGRAMS.—The Administrator may approve a partial permit program covering administration of a major category of discharges under this subsection if—

"(A) such program represents a complete permit program and covers all of the discharges under the jurisdiction of a department or agency of the State; and

"(B) the Administrator determines that the partial program represents a significant

and identifiable part of the State program required by subsection (b).

"(4) APPROVAL OF MAJOR COMPONENT PARTIAL PERMIT PROGRAMS.—The Administrator may approve under this subsection a partial and phased permit program covering administration of a major component (including discharge categories) of a State permit program required by subsection (b) if—

"(A) the Administrator determines that the partial program represents a significant and identifiable part of the State program required by subsection (b); and

"(B) the State submits, and the Administrator approves, a plan for the State to assume administration by phases of the remainder of the State program required by subsection (b) by a specified date not more than 5 years after submission of the partial program under this subsection and agrees to make all reasonable efforts to assume such administration by such date."

(b) RETURN OF STATE PERMIT PROGRAM TO ADMINISTRATOR.—

(1) IN GENERAL.—Section 402(c) is amended by adding at the end thereof the following new paragraph:

"(4) LIMITATIONS ON PARTIAL PERMIT PROGRAM RETURNS AND WITHDRAWALS.—A State may return to the Administrator administration, and the Administrator may withdraw under paragraph (3) of this subsection approval, of—

"(A) a State partial permit program approved under subsection (n)(3) only if the entire permit program being administered by the State department or agency at the time is returned or withdrawn; and

"(B) a State partial permit program approved under subsection (n)(4) only if an entire phased component of the permit program being administered by the State at the time is returned or withdrawn."

(2) CONFORMING AMENDMENT.—Section 402(c)(1) is amended by striking out "as to those navigable waters" and inserting in lieu thereof "as to those discharges".

#### SEC. 404. ANTI-BACKSLIDING.

(a) GENERAL RULE.—Section 402 is amended by adding at the end thereof the following new subsection:

"(o) ANTI-BACKSLIDING.—

"(1) GENERAL PROHIBITION.—In the case of effluent limitations established on the basis of subsection (a)(1)(B) of this section, a permit may not be renewed, reissued, or modified on the basis of effluent guidelines promulgated under section 304(b) subsequent to the original issuance of such permit, to contain effluent limitations which are less stringent than the comparable effluent limitations in the previous permit. In the case of effluent limitations established on the basis of section 301(b)(1)(C) or section 303 (d) or (e), a permit may not be renewed, reissued, or modified to contain effluent limitations which are less stringent than the comparable effluent limitations in the previous permit except in compliance with section 303(d)(4).

"(2) EXCEPTIONS.—A permit with respect to which paragraph (1) applies may be renewed, reissued, or modified to contain a less stringent effluent limitation applicable to a pollutant if—

"(A) material and substantial alterations or additions to the permitted facility occurred after permit issuance which justify the application of a less stringent effluent limitation;

"(B)(i) information is available which was not available at the time of permit issuance (other than revised regulations, guidance, or

test methods) and which would have justified the application of a less stringent effluent limitation at the time of permit issuance; or

"(ii) the Administrator determines that technical mistakes or mistaken interpretations of law were made in issuing the permit under subsection (a)(1)(B);

"(C) a less stringent effluent limitation is necessary because of events over which the permittee has no control and for which there is no reasonably available remedy;

"(D) the permittee has received a permit modification under section 301(c), 301(g), 301(h), 301(i), 301(k), 301(n), or 316(a); or

"(E) the permittee has installed the treatment facilities required to meet the effluent limitations in the previous permit and has properly operated and maintained the facilities but has nevertheless been unable to achieve the previous effluent limitations, in which case the limitations in the reviewed, reissued, or modified permit may reflect the level of pollutant control actually achieved (but shall not be less stringent than required by effluent guidelines in effect at the time of permit renewal, reissuance, or modification).

Subparagraph (B) shall not apply to any revised waste load allocations or any alternative grounds for translating water quality standards into effluent limitations, except where the cumulative effect of such revised allocations results in a decrease in the amount of pollutants discharged into the concerned waters, and such revised allocations are not the result of a discharger eliminating or substantially reducing its discharge of pollutants due to complying with the requirements of this Act or for reasons otherwise unrelated to water quality.

"(3) LIMITATIONS.—In no event may a permit with respect to which paragraph (1) applies be renewed, reissued, or modified to contain an effluent limitation which is less stringent than required by effluent guidelines in effect at the time the permit is renewed, reissued, or modified. In no event may such a permit to discharge into waters be renewed, reissued, or modified to contain a less stringent effluent limitation if the implementation of such limitation would result in a violation of a water quality standard under section 303 applicable to such waters."

(b) LIMITATIONS ON REVISION OF CERTAIN EFFLUENT LIMITATIONS.—Section 303(d) of the Act is amended by adding at the end thereof the following new paragraph:

"(4) LIMITATIONS ON REVISION OF CERTAIN EFFLUENT LIMITATIONS.—

"(A) STANDARD NOT ATTAINED.—For waters identified under paragraph (1)(A) where the applicable water quality standard has not yet been attained, any effluent limitation based on a total maximum daily load or other waste load allocation established under this section may be revised only if (i) the cumulative effect of all such revised effluent limitations based on such total maximum daily load or waste load allocation will assure the attainment of such water quality standard, or (ii) the designated use which is not being attained is removed in accordance with regulations established under this section.

"(B) STANDARD ATTAINED.—For waters identified under paragraph (1)(A) where the quality of such waters equals or exceeds levels necessary to protect the designated use for such waters or otherwise required by applicable water quality standards, any effluent limitation based on a total maximum

daily load or other waste load allocation established under this section, or any water quality standard established under this section, or any other permitting standard may be revised only if such revision is subject to and consistent with the anti-degradation policy established under this section."

(c) **STUDY.**—The Administrator shall study—

(1) the extent to which States have reviewed, revised, and adopted water quality standards in accordance with section 24 of the Municipal Wastewater Treatment Construction Grant Amendments of 1981; and

(2) the extent to which modifications of permits issued under section 402(a)(1)(B) of the Federal Water Pollution Control Act for the purpose of reflecting any revisions to water quality standards should be encouraged or discouraged.

The Administrator shall submit a report on such study, together with recommendations, to Congress not later than 2 years after the date of the enactment of this Act.

(d) **CONFORMING AMENDMENT.**—Section 402(a)(1) is amended by inserting "(A)" after "either" and by inserting "(B)" after "this Act, or".

#### SEC. 405. MUNICIPAL AND INDUSTRIAL STORM-WATER DISCHARGES.

(a) Section 402 is amended by adding at the end thereof the following new subsection:

"(p) **MUNICIPAL AND INDUSTRIAL STORM-WATER DISCHARGES.**—

"(1) **GENERAL RULE.**—Prior to October 1, 1992, the Administrator or the State (in the case of a permit program approved under section 402 of this Act) shall not require a permit under this section for discharges composed entirely of stormwater.

"(2) **EXCEPTIONS.**—Paragraph (1) shall not apply with respect to the following stormwater discharges:

"(A) A discharge with respect to which a permit has been issued under this section before the date of the enactment of this subsection.

"(B) A discharge associated with industrial activity.

"(C) A discharge from a municipal separate storm sewer system serving a population of 250,000 or more.

"(D) A discharge from a municipal separate storm sewer system serving a population of 100,000 or more but less than 250,000.

"(E) A discharge for which the Administrator or the State, as the case may be, determines that the stormwater discharge contributes to a violation of a water quality standard or is a significant contributor of pollutants to waters of the United States.

"(3) **PERMIT REQUIREMENTS.**—

"(A) **INDUSTRIAL DISCHARGES.**—Permits for discharges associated with industrial activity shall meet all applicable provisions of this section and section 301.

"(B) **MUNICIPAL DISCHARGE.**—Permits for discharges from municipal storm sewers—

"(i) may be issued on a system- or jurisdiction-wide basis;

"(ii) shall include a requirement to effectively prohibit non-stormwater discharges into the storm sewers; and

"(iii) shall require controls to reduce the discharge of pollutants to the maximum extent practicable, including management practices, control techniques and system, design and engineering methods, and such other provisions as the Administrator or the State determines appropriate for the control of such pollutants.

"(4) **PERMIT APPLICATION REQUIREMENTS.**—

"(A) **INDUSTRIAL AND LARGE MUNICIPAL DISCHARGES.**—Not later than 2 years after the date of the enactment of this subsection, the Administrator shall establish regulations setting forth the permit application requirements for stormwater discharges described in paragraphs (2)(B) and (2)(C). Applications for permits for such discharges shall be filed no later than 3 years after such date of enactment. Not later than 4 years after such date of enactment, the Administrator or the State, as the case may be, shall issue or deny each such permit. Any such permit shall provide for compliance as expeditiously as practicable, but in no event later than 3 years after the date of issuance of such permit.

"(B) **OTHER MUNICIPAL DISCHARGES.**—Not later than 4 years after the date of the enactment of this subsection, the Administrator shall establish regulations setting forth the permit application requirements for stormwater discharges described in paragraph (2)(D). Applications for permits for such discharges shall be filed no later than 5 years after such date of enactment. Not later than 6 years after such date of enactment, the Administrator or the State, as the case may be, shall issue or deny each such permit. Any such permit shall provide for compliance as expeditiously as practicable, but in no event later than 3 years after the date of issuance of such permit.

"(5) **STUDIES.**—The Administrator, in consultation with the States, shall conduct a study for the purposes of—

"(A) identifying those stormwater discharges or classes of stormwater discharges for which permits are not required pursuant to paragraphs (1) and (2) of this subsection,

"(B) determining, to the maximum extent practicable, the nature and extent of pollutants in such discharges; and

"(C) establishing procedures and methods to control stormwater discharges to the extent necessary to mitigate impacts on water quality.

Not later than October 1, 1988, the Administrator shall submit to Congress a report on the results of the study described in subparagraphs (A) and (B). Not later than October 1, 1989, the Administrator shall submit to Congress a report on the results of the study described in subparagraph (C).

"(6) **REGULATIONS.**—Not later than October 1, 1992, the Administrator, in consultation with State and local officials, shall issue regulations (based on the results of the studies conducted under paragraph (5)) which designate stormwater discharges, other than those discharges described in paragraph (2), to be regulated to protect water quality and shall establish a comprehensive program to regulate such designated sources. The program shall, at a minimum, (A) establish priorities, (B) establish requirements for State stormwater management programs, and (C) establish expeditious deadlines. The program may include performance standards, guidelines, guidance, and management practices and treatment requirements, as appropriate."

#### SEC. 406. SEWAGE SLUDGE.

(a) **IDENTIFICATION AND REGULATION OF TOXIC POLLUTANTS.**—Section 405(d) is amended—

(1) by inserting "(1) **REGULATIONS.**—" before "The Administrator, after";

(2) by striking "(1)", "(2)", and "(3)" and inserting in lieu thereof "(A)", "(B)", and "(C)", respectively; and

(3) by adding at the end the following new paragraphs:

"(2) **IDENTIFICATION AND REGULATION OF TOXIC POLLUTANTS.**—

"(A) **ON BASIS OF AVAILABLE INFORMATION.**—

"(i) **PROPOSED REGULATIONS.**—Not later than November 30, 1986, the Administrator shall identify those toxic pollutants which, on the basis of available information on their toxicity, persistence, concentration, mobility, or potential for exposure, may be present in sewage sludge in concentrations which may adversely affect public health or the environment, and propose regulations specifying acceptable management practices for sewage sludge containing each such toxic pollutant and establishing numerical limitations for each such pollutant for each use identified under paragraph (1)(A).

"(ii) **FINAL REGULATIONS.**—Not later than August 31, 1987, and after opportunity for public hearing, the Administrator shall promulgate the regulations required by subparagraph (A)(i).

"(B) **OTHERS.**—

"(i) **PROPOSED REGULATIONS.**—Not later than July 31, 1987, the Administrator shall identify those toxic pollutants not identified under subparagraph (A)(i) which may be present in sewage sludge in concentrations which may adversely affect public health or the environment, and propose regulations specifying acceptable management practices for sewage sludge containing each such toxic pollutant and establishing numerical limitations for each pollutant for each use identified under paragraph (1)(A).

"(ii) **FINAL REGULATIONS.**—Not later than June 15, 1988, the Administrator shall promulgate the regulations required by subparagraph (B)(i).

"(C) **REVIEW.**—From time to time, but not less often than every 2 years, the Administrator shall review the regulations promulgated under this paragraph for the purpose of identifying additional toxic pollutants and promulgating regulations for such pollutants consistent with the requirements of this paragraph.

"(D) **MINIMUM STANDARDS; COMPLIANCE DATE.**—The management practices and numerical criteria established under subparagraphs (A), (B), and (C) shall be adequate to protect public health and the environment from any reasonably anticipated adverse effects of each pollutant. Such regulations shall require compliance as expeditiously as practicable but in no case later than 12 months after their publication, unless such regulations require the construction of new pollution control facilities, in which case the regulations shall require compliance as expeditiously as practicable but in no case later than two years from the date of their publication.

"(3) **ALTERNATIVE STANDARDS.**—For purposes of this subsection, if, in the judgment of the Administrator, it is not feasible to prescribe or enforce a numerical limitation for a pollutant identified under paragraph (2), the Administrator may instead promulgate a design, equipment, management practice, or operational standard, or combination thereof, which in the Administrator's judgment is adequate to protect public health and the environment from any reasonably anticipated adverse effects of such pollutant. In the event the Administrator promulgates a design or equipment standard under this subsection, the Administrator shall include as part of such standard such requirements as will assure the proper operation and maintenance of any such element of design or equipment.

"(4) **CONDITIONS ON PERMITS.**—Prior to the promulgation of the regulations required by

paragraph (2), the Administrator shall impose conditions in permits issued to publicly owned treatment works under section 402 of this Act or take such other measures as the Administrator deems appropriate to protect public health and the environment from any adverse effects which may occur from toxic pollutants in sewage sludge.

"(5) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this section is intended to waive more stringent requirements established by this Act or any other law."

(b) MANNER OF SLUDGE DISPOSAL.—Section 405(e) is amended to read as follows:

"(e) MANNER OF SLUDGE DISPOSAL.—The determination of the manner of disposal or use of sludge is a local determination, except that it shall be unlawful for any person to dispose of sludge from a publicly owned treatment works or any other treatment works treating domestic sewage for any use for which regulations have been established pursuant to subsection (d) of this section, except in accordance with such regulations."

(c) IMPLEMENTATION THROUGH PERMITS.—Section 405 is further amended by adding at the end thereof the following:

"(f) IMPLEMENTATION OF REGULATIONS.—

"(1) THROUGH SECTION 402 PERMITS.—Any permit issued under section 402 of this Act to a publicly owned treatment works or any other treatment works treating domestic sewage shall include requirements for the use and disposal of sludge that implement the regulations established pursuant to subsection (d) of this section, unless such requirements have been included in a permit issued under the appropriate provisions of subtitle C of the Solid Waste Disposal Act, part C of the Safe Drinking Water Act, the Marine Protection, Research, and Sanctuaries Act of 1972, or the Clean Air Act, or under State permit programs approved by the Administrator, where the Administrator determines that such programs assure compliance with any applicable requirements of this section. Not later than December 15, 1986, the Administrator shall promulgate procedures for approval of State programs pursuant to this paragraph.

"(2) THROUGH OTHER PERMITS.—In the case of a treatment works described in paragraph (1) that is not subject to section 402 of this Act and to which none of the other above listed permit programs nor approved State permit authority apply, the Administrator may issue a permit to such treatment works solely to impose requirements for the use and disposal of sludge that implement the regulations established pursuant to subsection (d) of this section. The Administrator shall include in the permit appropriate requirements to assure compliance with the regulations established pursuant to subsection (d) of this section. The Administrator shall establish procedures for issuing permits pursuant to this paragraph.

"(g) STUDIES AND PROJECTS.—

"(1) GRANT PROGRAM; INFORMATION GATHERING.—The Administrator is authorized to conduct or initiate scientific studies, demonstration projects, and public information and education projects which are designed to promote the safe and beneficial management or use of sewage sludge for such purposes as aiding the restoration of abandoned mine sites, conditioning soil for parks and recreation areas, agricultural and horticultural uses, and other beneficial purposes. For the purposes of carrying out this subsection, the Administrator may make grants to State water pollution control agencies, other public or nonprofit agencies, institu-

tions, organizations, and individuals. In cooperation with other Federal departments and agencies, other public and private agencies, institutions, and organizations, the Administrator is authorized to collect and disseminate information pertaining to the safe and beneficial use of sewage sludge.

"(2) AUTHORIZATION OF APPROPRIATIONS.—For the purposes of carrying out the scientific studies, demonstration projects, and public information and education projects authorized in this section, there is authorized to be appropriated for fiscal years beginning after September 30, 1986, not to exceed \$5,000,000."

(d) ENFORCEMENT.—(1) Section 308(a)(4) is amended by inserting "405," before "and 504".

(2) Section 505(f) is amended by striking out "or" before "(6)", and by inserting before the period "; or (7)" a regulation under section 405(d) of this Act."

(3) Section 509(b)(1)(E) is amended by striking out "or 306" and inserting in lieu thereof "306, or 405".

(e) REMOVAL CREDITS.—The part of the decision of Natural Resources Defense Council, Inc. v. U.S. Environmental Protection Agency, No. 84-3530 (3d. Cir. 1986), which addresses section 405(d) of the Federal Water Pollution Control Act is stayed until August 31, 1987, with respect to—

(1) those publicly owned treatment works the owner or operator of which received authority to revise pretreatment requirements under section 307(b)(1) of such Act before the date of the enactment of this section, and

(2) those publicly owned treatment works the owner or operator of which has submitted an application for authority to revise pretreatment requirements under such section 307(b)(1) which application is pending on such date of enactment and is approved before August 31, 1987.

The Administrator shall not authorize any other removal credits under such Act until the Administrator issues the regulations required by paragraph (2)(A)(ii) of section 405(d) of such Act, as amended by subsection (a) of this section.

(f) CONFORMING AMENDMENTS.—Section 405(d) is further amended—

(1) by inserting "REGULATIONS.—" after "(d)";

(2) by indenting paragraph (1) (as designated by subsection (a)(1) of this section) and aligning such paragraph with paragraph (3), as added by subsection (a)(3); and

(3) in such paragraph (1) by aligning subparagraphs (A), (B), and (C) (as designated by subsection (a)(2) of this section) with subparagraph (C) of paragraph (2), as added by subsection (a)(3) of this section.

SEC. 407. LOG TRANSFER FACILITIES.

(a) AGREEMENT.—The Administrator and Secretary of the Army shall enter into an agreement regarding coordination of permitting for log transfer facilities to designate a lead agency and to process permits required under sections 402 and 404 of the Federal Water Pollution Control Act, where both such sections apply, for discharges associated with the construction and operation of log transfer facilities. The Administrator and Secretary are authorized to act in accordance with the terms of such agreement to assure that, to the maximum extent practicable, duplication, needless paperwork and delay in the issuance of permits, and inequitable enforcement between and among facilities in different States, shall be eliminated.

(b) APPLICATIONS AND PERMITS BEFORE OCTOBER 22, 1985.—Where both of sections 402 and 404 of the Federal Water Pollution Control Act apply, log transfer facilities which have received a permit under section 404 of such Act before October 22, 1985, shall not be required to submit a new application for a permit under section 402 of such Act. If the Administrator determines that the terms of a permit issued on or before October 22, 1985, under section 404 of such Act satisfies the applicable requirements of sections 301, 302, 306, 307, 308, and 403 of such Act, a separate application for a permit under section 402 of such Act shall not thereafter be required. In any case where the Administrator demonstrates, after an opportunity for a hearing, that the terms of a permit issued on or before October 22, 1985, under section 404 of such Act do not satisfy the applicable requirements of sections 301, 302, 306, 307, 308, and 403 of such Act, modifications to the existing permit under section 404 of such Act to incorporate such applicable requirements shall be issued by the Administrator as an alternative to issuance of a separate new permit under section 402 of such Act.

(c) LOG TRANSFER FACILITY DEFINED.—For the purposes of this section, the term "log transfer facility" means a facility which is constructed in whole or in part in waters of the United States and which is utilized for the purpose of transferring commercially harvested logs to or from a vessel or log raft, including the formation of a log raft.

## TITLE V—MISCELLANEOUS PROVISIONS

### SEC. 501. AUDITS.

Section 501(d) is amended by inserting at the end the following new sentences: "For the purpose of carrying out audits and examinations with respect to recipients of Federal assistance under this Act, the Administrator is authorized to enter into non-competitive procurement contracts with independent State audit organizations, consistent with chapter 75 of title 31, United States Code. Such contracts may only be entered into to the extent and in such amounts as may be provided in advance in appropriation Acts."

### SEC. 502. COMMONWEALTH OF THE NORTHERN MARIANA ISLANDS.

(a) DEFINED AS A STATE.—Section 502(3) is amended by inserting "the Commonwealth of the Northern Mariana Islands," after "Samoa."

(b) DEFINED AS PART OF UNITED STATES.—Section 311(a)(5) is amended by striking out "the Canal Zone," and inserting in lieu thereof "the Commonwealth of the Northern Mariana Islands,"

### SEC. 503. AGRICULTURAL STORMWATER DISCHARGES.

Section 502(14) (relating to the definition of point source) is amended by inserting after "does not include" the following: "agricultural stormwater discharges and".

### SEC. 504. PROTECTION OF INTERESTS OF UNITED STATES IN CITIZEN SUITS.

Section 505(c) is amended by adding at the end thereof the following new paragraph:

"(3) PROTECTION OF INTERESTS OF UNITED STATES.—Whenever any action is brought under this section in a court of the United States, the plaintiff shall serve a copy of the complaint on the Attorney General and the Administrator. No consent judgment shall be entered in an action in which the United States is not a party prior to 45 days following the receipt of a copy of the proposed

consent judgment by the Attorney General and the Administrator."

**SEC. 505. JUDICIAL REVIEW AND AWARD OF FEES.**

(a) **LOCATION; DEADLINE FOR APPEAL.**—Section 509(b)(1) is amended—

(1) by striking out "transacts such business" and inserting in lieu thereof, "transacts business which is directly affected by such action"; and

(2) by striking out "ninety" and "ninetieth" and inserting in lieu thereof "120" and "120th", respectively.

(b) **VENUE; AWARD OF FEES.**—Section 509(b) is amended by adding at the end thereof the following new paragraphs:

"(3) **VENUE.**—

"(A) **SELECTION PROCEDURE.**—If applications for review of the same agency action have been filed under paragraph (1) of this subsection in 2 or more Circuit Courts of Appeals of the United States and the Administrator has received written notice of the filing of one or more applications within 30 days or less after receiving written notice of the filing of the first application, then the Administrator shall promptly advise in writing the Administrative Office of the United States Courts that applications have been filed in 2 or more Circuit Courts of Appeals of the United States, and shall identify each court for which he has written notice that such applications have been filed within 30 days or less of receiving written notice of the filing of the first such application. Pursuant to a system of random selection devised for this purpose, the Administrative Office thereupon shall, within 3 business days of receiving such written notice from the Administrator, select the court in which the record shall be filed from among those identified by the Administrator. Upon notification of such selection, the Administrator shall promptly file the record in such court. For the purpose of review of agency action which has previously been remanded to the Administrator, the record shall be filed in the Circuit Court of Appeals of the United States which remanded such action.

"(B) **ADMINISTRATIVE PROVISIONS.**—Where applications have been filed under paragraph (1) of this subsection in two or more Circuit Courts of Appeals of the United States with respect to the same agency action and the record has been filed in one of such courts pursuant to subparagraph (A), the other courts in which such applications have been filed shall promptly transfer such applications to the Circuit Court of Appeals of the United States in which the record has been filed. Pending selection of a court pursuant to subparagraph (A), any court in which an application has been filed under paragraph (1) of this subsection may postpone the effective date of the agency action until 15 days after the Administrative Office has selected the court in which the record shall be filed.

"(C) **TRANSFERS.**—Any court in which an application with respect to any agency action has been filed under paragraph (1) of this subsection, including any court selected pursuant to subparagraph (A), may transfer such application to any other Circuit Court of Appeals of the United States for the convenience of the parties or otherwise in the interest of justice.

"(4) **AWARD OF FEES.**—In any judicial proceeding under this subsection, the court may award costs of litigation (including reasonable attorney and expert witness fees) to any prevailing or substantially prevailing party whenever it determines that such award is appropriate."

(c) **CONFORMING AMENDMENT FOR CITIZEN SUIT ACTIONS.**—The first sentence of section 505(d) is amended by inserting "prevailing or substantially prevailing" before "party".

**SEC. 506. INDIAN TRIBES.**

Title V is amended by redesignating section 518, and any references thereto, as section 519 and by inserting after section 517 the following new section:

**"SEC. 518. INDIAN TRIBES.**

"(a) **POLICY.**—Nothing in this section shall be construed to affect the application of section 101(g) of this Act, and all of the provisions of this section shall be carried out in accordance with the provisions of such section 101(g). Indian tribes shall be treated as States for purposes of such section 101(g).

"(b) **ASSESSMENT OF SEWAGE TREATMENT NEEDS; REPORT.**—The Administrator, in cooperation with the Director of the Indian Health Service, shall assess the need for sewage treatment works to serve Indian tribes, the degree to which such needs will be met through funds allotted to States under section 205 of this Act and priority lists under section 216 of this Act, and any obstacles which prevent such needs from being met. Not later than one year after the date of the enactment of this section, the Administrator shall submit a report to Congress on the assessment under this subsection, along with recommendations specifying (1) how the Administrator intends to provide assistance to Indian tribes to develop waste treatment management plans and to construct treatment works under this Act, and (2) methods by which the participation in and administration of programs under this Act by Indian tribes can be maximized.

"(c) **RESERVATION OF FUNDS.**—The Administrator shall reserve each fiscal year beginning after September 30, 1986, before allotments to the States under section 205(e), one-half of one percent of the sums appropriated under section 207. Sums reserved under this subsection shall be available only for grants for the development of waste treatment management plans and for the construction of sewage treatment works to serve Indian tribes.

"(d) **COOPERATIVE AGREEMENTS.**—In order to ensure the consistent implementation of the requirements of this Act, an Indian tribe and the State or States in which the lands of such tribe are located may enter into a cooperative agreement, subject to the review and approval of the Administrator, to jointly plan and administer the requirements of this Act.

"(e) **TREATMENT AS STATES.**—The Administrator is authorized to treat an Indian tribe as a State for purposes of title II and sections 104, 106, 303, 305, 308, 309, 314, 319, 401, 402, and 404 of this Act to the degree necessary to carry out the objectives of this section, but only if—

"(1) the Indian tribe has a governing body carrying out substantial governmental duties and powers;

"(2) the functions to be exercised by the Indian tribe pertain to the management and protection of water resources which are held by an Indian tribe, held by the United States in trust for Indians, held by a member of an Indian tribe if such property interest is subject to a trust restriction on alienation, or otherwise within the borders of an Indian reservation; and

"(3) the Indian tribe is reasonably expected to be capable, in the Administrator's judgment, of carrying out the functions to be exercised in a manner consistent with

the terms and purposes of this Act and of all applicable regulations.

Such treatment as a State may include the direct provision of funds reserved under subsection (c) to the governing bodies of Indian tribes, and the determination of priorities by Indian tribes, where not determined by the Administrator in cooperation with the Director of the Indian Health Service. The Administrator, in cooperation with the Director of the Indian Health Service, is authorized to make grants under title II of this Act in an amount not to exceed 100 percent of the cost of a project. Not later than 18 months after the date of the enactment of this section, the Administrator shall, in consultation with Indian tribes, promulgate final regulations which specify how Indian tribes shall be treated as States for purposes of this Act. The Administrator shall, in promulgating such regulations, consult affected States sharing common water bodies and provide a mechanism for the resolution of any unreasonable consequences that may arise as a result of differing water quality standards that may be set by States and Indian tribes located on common bodies of water. Such mechanism shall provide for explicit consideration of relevant factors including, but not limited to, the effects of differing water quality permit requirements on upstream and downstream dischargers, economic impacts, and present and historical uses and quality of the waters subject to such standards. Such mechanism should provide for the avoidance of such unreasonable consequences in a manner consistent with the objective of the Act.

"(f) **GRANTS FOR NONPOINT SOURCE PROGRAMS.**—The Administrator shall make grants to an Indian tribe under section 319 of this Act as though such tribe was a State. Not more than one-third of one percent of the amount appropriated for any fiscal year under section 319 may be used to make grants under this subsection. In addition to the requirements of section 319, an Indian tribe shall be required to meet the requirements of paragraphs (1), (2), and (3) of subsection (d) of this section in order to receive such a grant.

"(g) **ALASKA NATIVE ORGANIZATIONS.**—No provision of this Act shall be construed to—

"(1) grant, enlarge, or diminish, or in any way affect the scope of the governmental authority, if any, of any Alaska Native organization, including any federally-recognized tribe, traditional Alaska Native council, or Native council organized pursuant to the Act of June 18, 1934 (48 Stat. 987), over lands or persons in Alaska;

"(2) create or validate any assertion by such organization or any form of governmental authority over lands or persons in Alaska; or

"(3) in any way affect any assertion that Indian country, as defined in section 1151 of title 18, United States Code, exists or does not exist in Alaska.

"(h) **DEFINITIONS.**—For purposes of this section, the term—

"(1) 'Federal Indian reservation' means all land within the limits of any Indian reservation under the jurisdiction of the United States Government, notwithstanding the issuance of any patent, and including rights-of-way running through the reservation; and

"(2) 'Indian tribe' means any Indian tribe, band, group, or community recognized by the Secretary of the Interior and exercising

governmental authority over a Federal Indian reservation."

#### SEC. 507. DEFINITION OF POINT SOURCE.

For purposes of the Federal Water Pollution Control Act, the term "point source" includes a landfill leachate collection system.

#### SEC. 508. SPECIAL PROVISIONS REGARDING CERTAIN DUMPING SITES.

(a) **FINDING.**—The Congress finds that the New York Bight Apex is no longer a suitable location for the ocean dumping of municipal sludge.

(b) **GENERAL RULE.**—Title I of the Marine Protection, Research, and Sanctuaries Act of 1972 (33 U.S.C. 1401 et seq.) is further amended by inserting after section 104 the following new section:

##### "SPECIAL PROVISIONS REGARDING CERTAIN DUMPING SITES

"SEC. 104A. (a) **NEW YORK BIGHT APEX.**—

(1) For purposes of this subsection:

"(A) The term 'Apex' means the New York Bight Apex consisting of the ocean waters of the Atlantic Ocean westward of 73 degrees 30 minutes west longitude and northward of 40 degrees 10 minutes north latitude.

"(B) The term 'Apex site' means that site within the Apex at which the dumping of municipal sludge occurred before October 1, 1983.

"(C) The term 'eligible authority' means any sewerage authority or other unit of State or local government that on November 2, 1983, was authorized under court order to dump municipal sludge at the Apex site.

"(2) No person may apply for a permit under this title in relation to the dumping of, or the transportation for purposes of dumping, municipal sludge within the Apex unless that person is an eligible authority.

"(3) The Administrator may not issue, or renew, any permit under this title that authorizes the dumping of, or the transportation for purposes of dumping, municipal sludge within the Apex after the earlier of—

"(A) December 15, 1987; or

"(B) the day determined by the Administrator to be the first day on which municipal sludge generated by eligible authorities can reasonably be dumped at a site designated under section 102 other than a site within the Apex.

"(b) **RESTRICTION ON USE OF THE 106-MILE SITE.**—The Administrator may not issue or renew any permit under this title which authorizes any person, other than a person that is an eligible authority within the meaning of subsection (a)(1)(C), to dump, or to transport for the purposes of dumping, municipal sludge within the site designated under section 102(c) by the Administrator and known as the '106-Mile Ocean Waste Dump Site' (as described in 49 F.R. 19005)."

#### SEC. 509. OCEAN DISCHARGE RESEARCH PROJECTS.

(a) **IN GENERAL.**—Notwithstanding any other provision of law, the Administrator is authorized to issue a research permit to the Orange County, California, Sanitation Districts for the discharge of preconditioned municipal sewage sludge into the ocean for the purpose of enabling research to be conducted in assessing and analyzing the effects of disposing of sewage sludge by pipeline into ocean waters—

(1) if the Administrator is satisfied that such local governmental agency is actively pursuing long-term land-based options for the handling of its sludge with special emphasis on remote disposal alternatives set

forth in the 1980 LA/OMA sludge management project and on reuse of sludge or use of recycled sludge; and

(2) if the Administrator determines that there is no likelihood of an unacceptable adverse effect on the environment as a result of issuance of such permit and that such permit would meet the requirements of paragraph (2) of section 301(h) of the Federal Water Pollution Control Act, as amended by this Act, and of the sentences following the first sentence of such section if such permit were being issued under such section.

##### (b) **PERMIT TERMS.**—

(1) **PERIOD.**—The permit for the discharge of sludge shall be for a period of 5 years commencing on the date of such discharge and shall not be extended or renewed.

(2) **MONITORING.**—Such permit shall provide for monitoring (including whole effluent monitoring) of permitted discharges and other discharges into the ocean in the same area and the effects of such discharges (including cumulative effects) in conformance with requirements established by the Administrator, after consultation with appropriate Federal and State agencies, and for the reporting of such monitoring to Congress and the Administrator every 6 months.

(3) **VOLUME OF DISCHARGE.**—Such permit shall provide that the volume of such local agency's sludge disposed of by such experimental pipeline shall be no more than one and one-half times that being disposed of by such remote disposal and alternatives for the reuse of sludge and the use of recycled sludge. In no event shall the agency dispose of more than 50 percent of its sludge by the pipeline.

(4) **TERMINATION.**—The permit shall provide for termination of the permit if the Administrator determines that the disposal of sewage sludge is resulting in an unacceptable adverse impact on fish, shellfish, and wildlife. The Administrator may terminate a permit issued under this section if the Administrator determines that there has been a decline in ambient water quality of the receiving waters during the period of the permit even if a direct cause and effect relationship cannot be shown. If the effluent from a source with a permit issued under this section is contributing to a decline in ambient water quality of the receiving waters, the Administrator shall terminate such permit.

(c) **LIMITATION ON PRECEDENT.**—The facts and circumstances described in subsection (a) present a unique situation which will not establish a precedent for the relaxation of the requirements of the Federal Water Pollution Control Act applicable to similarly situated discharges.

(d) **REPORT.**—Such districts shall report the results of the program and an analysis of such program to Congress under this section not later than four and one-half years after issuance of the permit.

#### SEC. 510. SAN DIEGO, CALIFORNIA.

(a) **PURPOSE.**—The purpose of this section is to protect the economy, public health, environment, surface water and public beaches, and water quality of the city of San Diego, California, and surrounding areas, which are endangered and are being polluted by raw sewage emanating from the city of Tijuana, Mexico.

(b) **CONSTRUCTION GRANTS.**—Upon approval of the necessary plans and specifications, the Administrator is authorized to make grants to the Secretary of State, acting through the American Section of the International Boundary and Water Commission

(hereinafter in this section referred to as the "Commission"), or any other Federal agency or any other appropriate commission or entity designated by the President. Such grants shall be for construction of a project consisting of—

(1) defensive treatment works to protect the residents of the city of San Diego, California, and surrounding areas from pollution resulting from any inadequacies or breakdowns in wastewater treatment works and systems in Mexico; and

(2) treatment works in the city of San Diego, California, to provide primary or more advanced treatment of municipal sewage and industrial waste from Mexico, including the city of Tijuana, Mexico.

(c) **LIMITATION ON GRANTS.**—Notwithstanding subsection (b), the Administrator may make grants for construction of treatment works described in subsection (b)(2) only if, after public notice and comment, the Administrator determines that treatment works in Mexico, in conjunction with any defensive treatment works constructed under this or any other Act, are not sufficient to protect the residents of the city of San Diego, California, and surrounding areas from water pollution originating in Mexico.

(d) **OPERATION AND MAINTENANCE.**—The Commission or such other agency, commission, or entity as may be designated under subsection (b) is authorized to operate and maintain any treatment works constructed under subsection (b) in order to accomplish the purposes of this section.

(e) **APPROVAL OF PLANS.**—Any treatment works for which a grant is made under this section shall be constructed in accordance with plans developed by the Commission or such other agency, commission, or entity as may be designated under subsection (b), in consultation with the city of San Diego, and approved by the Administrator to meet the construction standards which would be applicable if such treatment works were being constructed under title II of the Federal Water Pollution Control Act.

(f) **FEDERAL SHARE.**—Construction of the treatment works under subsection (b) shall be at full Federal expense less any costs paid by the State of California and less any costs paid by the Government of Mexico as a result of agreements negotiated with the United States.

(g) **OCEAN OUTFALL PERMIT.**—Notwithstanding section 301(j) of the Federal Water Pollution Control Act, upon application of the city of San Diego, California, the Administrator may issue a permit under section 301(h) of such Act which modifies the requirements of section 301(b)(1)(B) of such Act to permit the discharge of pollutants for any ocean outfall constructed with Federal assistance under this section if the Administrator finds that issuing such permit is in the best interests of achieving the goals and requirements of such Act. The Administrator may waive the requirements of section 301(h)(5) of such Act with respect to the issuance of such permit if the Administrator finds that such waiver is in the best interests of achieving the goals and requirements of such Act.

(h) **TREATMENT OF SAN DIEGO SEWAGE.**—If any treatment works constructed pursuant to this section becomes no longer necessary to provide protection from pollution originating in Mexico, the city of San Diego, California, may use such treatment works to treat municipal and individual waste originating in the city of San Diego and surrounding areas if the city of San Diego

enters into a binding agreement with the Administrator to pay to the United States 45 percent of the costs incurred in the construction of such treatment works.

(i) **DEFINITIONS.**—For purposes of this section, the terms "construction" and "treatment works" have the meanings such terms have under section 212 of the Federal Water Pollution Control Act.

(j) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated for fiscal years beginning after September 30, 1986, such sums as may be necessary to the Administrator to make grants under this section and such sums as may be necessary to the Commission or such other agency, commission, or entity as the President may designate under subsection (b), to carry out this section.

#### SEC. 511. LIMITATION ON DISCHARGE OF RAW SEWAGE BY NEW YORK CITY.

##### (a) IN GENERAL.—

(1) **NORTH RIVER PLANT.**—If the wastewater treatment plant identified in the consent decree as the North River plant has not achieved advanced preliminary treatment as required under the terms of the consent decree by August 1, 1986, the city of New York shall not discharge raw sewage from the drainage area of such plant (as defined in the consent decree) into navigable waters after such date in an amount which is greater for any 30-day period than an amount equal to 30 times the average daily amount of raw sewage discharged from such drainage area during the 12-month period ending on the earlier of the date on which such plant becomes operational or March 15, 1986 (as determined by the Administrator), except as provided in subsection (b).

(2) **RED HOOK PLANT.**—If the wastewater treatment plant identified in the consent decree as the Red Hook plant has not achieved advanced preliminary treatment as required under the terms of the consent decree by August 1, 1987, the city of New York shall not discharge raw sewage from the drainage area of such plant (as defined in the consent decree) into navigable waters after such date in an amount which is greater for any 30-day period than an amount equal to 30 times the average daily amount of raw sewage discharged from such drainage area during the 12-month period ending on the earlier of the date on which such plant becomes operational or March 15, 1987 (as determined by the Administrator), except as provided in subsection (b).

##### (b) WAIVERS.—

(1) **INTERRUPTION OF PLANT OPERATION.**—In the event of any significant interruption in the operation of the North River plant or the Red Hook plant caused by an event described in subparagraph (A), (B), or (C) of paragraph (5) occurring after the applicable deadline established under subsection (a), the Administrator shall waive the limitation of subsection (a) with respect to such plant, but only to such extent and for such limited period of time as may be reasonably necessary for the city of New York to resume operation of such plant.

(2) **INCREASED PRECIPITATION.**—In the event that the volume of precipitation occurring after the applicable deadline established under subsection (a) causes the discharge of raw sewage to exceed the limitation under subsection (a), the Administrator shall waive the limitation of subsection (a) with respect to either or both such plants, but only to such extent and for such limited period of time as the Administrator determines to be necessary to take into account

the increased discharge caused by such volume of precipitation.

(3) **VARIATIONS IN CERTAIN NORTH RIVER DRAINAGE AREA DISCHARGES.**—In the event that an increase in discharges from the North River drainage area constituting a violation of subsection (a)(1) is due to a random or seasonal variation, and that any sewer hookup occurring, or permit for a sewer hookup granted, after July 31, 1986, is not responsible for such violation, the Administrator shall waive the limitation of subsection (a)(1), but only to such extent and for such limited period of time as the Administrator determines to be reasonably necessary to take into account such random or seasonal variation.

(4) **VARIATIONS IN CERTAIN RED HOOK DRAINAGE AREA DISCHARGES.**—In the event that an increase in discharges from the Red Hook drainage area constituting a violation of subsection (a)(2) is due to a random or seasonal variation, and that any sewer hookup occurring, or permit for a sewer hookup granted, after July 31, 1987, is not responsible for such violation, the Administrator shall waive the limitation of subsection (a)(2), but only to such extent and for such limited period of time as the Administrator determines to be reasonably necessary to take into account such random or seasonal variation.

(5) **CIRCUMSTANCES BEYOND CITY'S CONTROL.**—The Administrator shall extend either deadline under paragraph (1) or (2) of subsection (a) to such extent and for such limited period of time as may be reasonably required to take into account any—

(A) act of war,

(B) unanticipated grave natural disaster or other natural phenomenon of an exceptional, inevitable, and irresistible character, the effects of which could not have been prevented or avoided by the exercise of due care or foresight, or

(C) other circumstances beyond the control of the city of New York, except such circumstances shall not include (i) the unavailability of Federal funds under section 201 of the Federal Water Pollution Control Act, (ii) the unavailability of funds from the city of New York or the State of New York, or (iii) a policy decision made by the city of New York or the State of New York to delay the achievement of advanced preliminary treatment at the North River plant or Red Hook plant beyond the applicable deadline set forth in subsection (a).

(c) **PENALTIES.**—Except as otherwise provided in subsection (b), any violation of subsection (a) shall be considered to be a violation of section 301 of the Federal Water Pollution Control Act, and all provisions of such Act relating to violations of such section 301 shall apply.

(d) **CONSENT DECREE DEFINED.**—For purposes of this section, the term "consent decree" means the consent decree entered into by the Environmental Protection Agency, the city of New York, and the State of New York, on December 30, 1982, relating to construction and operation of the North River and Red Hook wastewater treatment plants.

(e) **COOPERATION.**—The Administrator shall work with the city of New York to eliminate the discharge of raw sewage by such city at the earliest practicable date.

(f) **SAVINGS CLAUSE.**—Nothing in this section shall be construed as modifying the terms of the consent decree.

(g) **SENSE OF CONGRESS.**—It is the sense of Congress that the Administrator should not agree to any further modification of the

consent decree with respect to the schedule for achieving advanced preliminary treatment.

##### (h) TERMINATION DATES.—

(1) **NORTH RIVER PLANT.**—The provisions of this section shall remain in effect with respect to the North River drainage area until such time as the North River plant has achieved advanced preliminary treatment (as defined in the consent decree) for a period of six consecutive months.

(2) **RED HOOK PLANT.**—The provisions of this section shall remain in effect with respect to the Red Hook drainage area until such time as the Red Hook plant has achieved advanced preliminary treatment (as defined in the consent decree) for a period of six consecutive months.

(i) **MONITORING ACTIVITIES.**—The Administrator shall promptly establish and carry out a program within available funds to implement the monitoring activities which may be required under subsection (a).

(j) **ESTABLISHMENT OF METHODOLOGIES.**—The Administrator shall establish the methodologies, data base, and any other information required for making determinations under subsection (b)—

(1) for the North River drainage area (as defined in the consent decree) by July 31, 1986, unless the requirements of subsection (h)(1) have been satisfied, and

(2) for the Red Hook drainage area (as defined by the consent decree) by July 31, 1987, unless the requirements of subsection (h)(2) have been satisfied.

(k) **VIOLATIONS.**—In carrying out this section, if the Administrator finds that a violation of subsection (a) has occurred, the Administrator shall also determine, within 30 days after such finding, whether a provision of subsection (b) applies. If the Administrator requires information from the city of New York in order to determine whether a provision of subsection (b) applies, the Administrator shall request such information. If the city of New York does not supply the information requested by the Administrator, the Administrator shall determine that subsection (b) does not apply. The city of New York shall be responsible only for such expenses as are necessary to provide such requested information. Enforcement action pursuant to subsection (c) shall be commenced at the end of such 30 days unless a provision of subsection (b) applies.

#### SEC. 512. OAKWOOD BEACH AND RED HOOK PROJECTS, NEW YORK.

(a) **RELOCATION OF NATURAL GAS FACILITIES.**—Notwithstanding any provision of the Federal Water Pollution Control Act, the Administrator shall pay, to the extent provided in appropriation Acts, in the same proportion as the Federal share of other project costs, all expenses for the relocation of facilities for the distribution of natural gas with respect to the entire wastewater treatment works known as the Oakwood Beach (EPA Grant Numbered 360392) and Red Hook (EPA Grant Numbered 360394) projects, New York.

(b) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated for fiscal years beginning after September 30, 1986, not to exceed \$7,000,000 to carry out this section.

#### SEC. 513. BOSTON HARBOR AND ADJACENT WATERS.

(a) **GRANTS.**—The Administrator shall make grants to the Massachusetts Water Resource Authority for purposes of—

(1) assessing the principal factors having an adverse effect on the environmental

quality of Boston Harbor and its adjacent waters;

(2) developing and implementing a management program to improve the water quality of such Harbor and waters; and

(3) constructing necessary waste water treatment works for providing secondary treatment for the areas served by such authority.

(b) **FEDERAL SHARE.**—The Federal share of projects described in subsection (a) shall not exceed 75 percent of the cost of construction thereof.

(c) **EMERGENCY IMPROVEMENTS.**—The Administrator is authorized and directed to make grants to the Massachusetts Water Resource Authority for a project to undertake emergency improvements at the Deer Island Waste Water Treatment Plant in Boston, Massachusetts. The Federal share of such project shall not exceed 75 percent of the cost of carrying out such improvements.

(d) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated \$100,000,000 to carry out this section for fiscal years beginning after September 30, 1986, to remain available until expended. Such sums shall be in addition to and not in lieu of any other amounts authorized to be appropriated under title II of the Federal Water Pollution Control Act.

#### SEC. 514. WASTEWATER RECLAMATION DEMONSTRATION.

(a) **AUTHORITY TO MAKE GRANTS.**—The Administrator is authorized to make a grant to the San Diego Water Reclamation Agency, California, to demonstrate and field test for public use innovative processes which advance the technology of wastewater reclamation and which promote the use of reclaimed wastewater.

(b) **FEDERAL SHARE.**—The Federal share of grants made under this section shall be 85 percent of the costs of conducting such demonstration and field test.

(c) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated not to exceed \$2,000,000 to carry out this section for fiscal years beginning after September 30, 1986.

#### SEC. 515. DES MOINES, IOWA.

(a) **GRANT.**—The Administrator is authorized to make a grant to the city of Des Moines, Iowa, for construction of the Central Sewage Treatment Plant component of the Des Moines, Iowa, metropolitan area project. The Federal share of such project shall be 75 percent of the cost of construction.

(b) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to carry out this section not to exceed \$50,000,000 for fiscal years beginning after September 30, 1986. Such sums shall be in addition to and not in lieu of any other amounts authorized to be appropriated under title II of the Federal Water Pollution Control Act.

#### SEC. 516. STUDY OF DE MINIMIS DISCHARGES.

(a) **STUDY.**—The Administrator shall conduct a study of discharges of pollutants into the navigable waters and their regulation under the Federal Water Pollution Control Act to determine whether or not there are discharges of pollutants into such waters in amounts which, in terms of volume, concentration, and type of pollutant, are not significant and to determine the most effective and appropriate methods of regulating any such discharges.

(b) **REPORT.**—Not later than 1 year after the date of the enactment of this Act, the Administrator shall submit to the Commit-

tee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate a report on the results of such study along with recommendations and findings concerning the most effective and appropriate methods of regulating any discharges of pollutants into the navigable waters in amounts which the Administrator determines under such study to be not significant.

#### SEC. 517. STUDY OF EFFECTIVENESS OF INNOVATIVE AND ALTERNATIVE PROCESSES AND TECHNIQUES.

(a) **EFFECTIVENESS STUDY.**—The Administrator shall study the effectiveness on waste treatment of innovative and alternative wastewater treatment processes and techniques referred to in section 201(g)(5) of the Federal Water Pollution Control Act which have been utilized in treatment works constructed under such Act. In conducting such study, the Administrator shall compile information, by State, on the types of such processes and techniques utilized, on the number of facilities constructed with such processes and techniques, and a description of such processes and techniques which have not performed to design standards. The Administrator shall also determine which States have not obligated the full amount set aside under section 205(i) of such Act for such processes and techniques and the reasons for each such State's failure to make such obligations.

(b) **REPORT.**—Not later than 1 year after the date of the enactment of this Act, the Administrator shall submit to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate a report on the results of such study, along with recommendations for providing more effective incentives for innovative and alternative wastewater treatment processes and techniques.

#### SEC. 518. STUDY OF TESTING PROCEDURES.

(a) **STUDY.**—The Administrator shall study the testing procedures for analysis of pollutants established under section 304(h) of the Federal Water Pollution Control Act. Such study shall include, but not be limited to, an analysis of the adequacy and standardization of such procedures. In conducting the analysis of the standardization of such procedures, the Administrator shall consider the extent to which such procedures are consistent with comparable procedures established under other Federal laws.

(b) **REPORT.**—Not later than 1 year after the date of the enactment of this Act, the Administrator shall submit a report on the results of the study conducted under this subsection, together with recommendations for modifying the test procedures referred to in subsection (a) to improve their effectiveness, to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate.

#### SEC. 519. STUDY OF PRETREATMENT OF TOXIC POLLUTANTS.

(a) **STUDY.**—The Administrator shall study—

(1) the adequacy of data on environmental impacts of toxic industrial pollutants discharged from publicly owned treatment works;

(2) the extent to which secondary treatment at publicly owned treatment works removes toxic pollutants;

(3) the capability of publicly owned treatment works to revise pretreatment require-

ments under section 307(b)(1) of the Federal Water Pollution Control Act;

(4) possible alternative regulatory strategies for protecting the operations of publicly owned treatment works from industrial discharges, and shall evaluate the extent to which each such strategy identified may be expected to achieve the goals of this Act;

(5) for each such alternative regulatory strategy, the extent to which removal of toxic pollutants by publicly owned treatment works results in contamination of sewage sludge and the extent to which pretreatment requirements may prevent such contamination or improve the ability of publicly owned treatment works to comply with sewage sludge criteria developed under section 405 of the Federal Water Pollution Control Act; and

(6) the adequacy of Federal, State, and local resources to establish, implement, and enforce multiple pretreatment limits for toxic pollutants for each such alternative strategy.

(b) **REPORT.**—Not later than 4 years after the date of the enactment of this Act, the Administrator shall submit a report on the results of such study along with recommendations for improving the effectiveness of pretreatment requirements to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate.

#### SEC. 520. STUDIES OF WATER POLLUTION PROBLEMS IN AQUIFERS.

(a) **STUDIES.**—The Administrator, in conjunction with State and local agencies and after providing an opportunity for full public participation, shall conduct studies for the purpose of identifying existing and potential point and nonpoint sources of pollution, and of identifying measures and practices necessary to control such sources of pollution, in the following groundwater systems and aquifers:

(1) the ground water system of the Upper Santa Cruz Basin and the Avra-Altar Basin of Pima, Pinal, and Santa Cruz Counties, Arizona;

(2) the Spokane-Rathdrum Valley Aquifer, Washington and Idaho;

(3) the Nassau and Suffolk Counties Aquifer, New York;

(4) the Whidbey Island Aquifer, Washington;

(5) the Unconsolidated Quaternary Aquifer, Rockaway River area, New Jersey;

(6) contaminated ground water under Litchfield, Hartford, Fairfield, Tolland, and New Haven Counties, Connecticut; and

(7) the Sparta Aquifer, Arkansas.

(b) **REPORTS.**—Not later than 2 years after the date of the enactment of this Act, the Administrator shall submit to Congress a report on the studies conducted under this section.

(c) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated \$7,000,000 for fiscal years beginning after September 30, 1986, to carry out this section.

#### SEC. 521. GREAT LAKES CONSUMPTIVE USE STUDY.

(a) **STUDY OF CONSUMPTIVE USES.**—In recognition of the serious impacts on the Great Lakes environment that may occur as a result of increased consumption of Great Lakes water, including loss of wetlands and reduction of fish spawning and habitat areas, as well as serious economic losses to vital Great Lakes industries, and in recognition of the national goal to provide environmental protection and preservation of our

natural resources while allowing for continued economic growth, the Secretary of the Army in cooperation with the Administrator, other interested departments, agencies, and instrumentalities of the United States, and the 8 Great Lakes States, is authorized to conduct a study of the effects of Great Lakes water consumption on economic growth and environmental quality in the Great Lakes region and of control measures that can be implemented to reduce the quantity of water consumed.

(b) **MATTERS INCLUDED.**—The study authorized by this section shall at a minimum include the following:

(1) a review of the methodologies used to forecast Great Lakes consumptive uses, including an analysis of the sensitivity of key variables affecting such uses;

(2) an analysis of the effect that enforcement of provisions of the Federal Water Pollution Control Act relating to thermal discharges has had on consumption of Great Lakes water;

(3) an analysis of the effect of laws, regulations, and national policy objectives on consumptive uses of Great Lakes water used in manufacturing;

(4) an analysis of the associated environmental impacts and of the economic effects on industry and other interests in the Great Lakes region associated with individual consumptive use control strategies; and

(5) a summary discussion containing recommendations for methods of controlling consumptive uses which methods maximize benefits to the Great Lakes ecosystem and also provide for continued full economic growth for consuming industries as well as other industries which depend on the use of Great Lakes water.

(c) **GREAT LAKES STATES DEFINED.**—For purposes of this section, the term "Great Lakes States" means Minnesota, Wisconsin, Illinois, Ohio, Michigan, Indiana, Pennsylvania, and New York.

(d) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated for fiscal years beginning after September 30, 1986, \$750,000 to carry out this section. Sums appropriated under this section shall remain available until expended.

#### SEC. 522. SULFIDE CORROSION STUDY.

(a) **STUDY.**—The Administrator shall conduct a study of the corrosive effects of sulfides in collection and treatment systems, the extent to which the uniform imposition of categorical pretreatment standards will exacerbate such effects, and the range of available options to deal with such effects.

(b) **CONSULTATION.**—The study required by this section shall be conducted in consultation with the Los Angeles City and County sanitation agencies.

(c) **REPORT.**—Not later than 1 year after the date of the enactment of this Act, the Administrator shall submit a report on the results of the study, together with recommendations for measures to reduce the corrosion of treatment works, to the Committee on Public Works and Transportation of the House of Representatives and the Com-

mittee on Environment and Public Works of the Senate.

(d) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated \$1,000,000 to carry out this section for fiscal years beginning after September 30, 1986.

#### SEC. 523. STUDY OF RAINFALL INDUCED INFILTRATION INTO SEWER SYSTEMS.

(a) **STUDY.**—The Administrator shall study problems associated with rainfall induced infiltration into wastewater treatment sewer systems. As part of such study, the Administrator shall study appropriate methods of regulating rainfall induced infiltration into the sewer system of the East Bay Municipal Utility District, California.

(b) **REPORT.**—Not later than one year after the date of the enactment of this Act, the Administrator shall submit to Congress a report on the results of such study, along with recommendations on reasonable methods to reduce such infiltration.

#### SEC. 524. DAM WATER QUALITY STUDY.

The Administrator, in cooperation with interested States and Federal agencies, shall study and monitor the effects on the quality of navigable waters attributable to the impoundment of water by dams. The results of such study shall be submitted to Congress not later than December 31, 1987.

#### SEC. 525. STUDY OF POLLUTION IN LAKE PEND OREILLE, IDAHO.

The Administrator shall conduct a comprehensive study of the sources of pollution in Lake Pend Oreille, Idaho, and the Clark Fork River and its tributaries, Idaho, Montana, and Washington, for the purpose of identifying the sources of such pollution. In conducting such study, the Administrator shall consider existing studies, surveys, and test results concerning such pollution. The Administrator shall report to Congress the findings and recommendations concerning the study conducted under this section.

### S. 76—WATER QUALITY ACT OF 1987

Mr. DOLE. Mr. President, at the request of the administration, today I am introducing its proposed reauthorization of the Clean Water Act.

At the outset, I want to urge my colleagues to treat this matter on the merits of the issues—the issue of the need to reauthorize the Clean Water Act as soon as possible. Any member of the committee can tell us the many points of complex controversy contained in a reauthorization of this vital environmental law. It was in conference most of the last Congress.

However, during the last Congress the administration failed to offer a reasonable or acceptable compromise to congressional proposals. To its credit, the administration has now of-

fered such an approach, and it deserves a fair hearing.

Before we rush to judgment, rush toward the battle over the first veto of this Congress, I want, and I think the majority of my colleagues want, to ensure that the Congress has studied and deliberated over all alternatives.

The bill vetoed last year calls for spending \$18 billion over 8 years, the administration's bill authorizes \$12 billion over 7 years. That's quite a little bit of money for any Senator criticizing the President's budget request for next year and looking for other ways to reach the Gramm-Rudman-Hollings target of \$108 billion.

One of the ways the administration's bill was able to save money and an important difference between the two bills is that the measure vetoed last year contained five special projects not contained in the administration bill. Why were these five selected, and why should they be allowed to circumvent the process that all other projects must follow? I am not sure, but I would like an answer before voting on this once again.

Another important difference is the amount of discretion afforded to the States. The bill I am introducing gives the States the discretion to spend up to 3.5 percent of the funds on non-point source controls, as opposed to simply adding another \$400 million per year to the cost of the measure. In addition, States also receive the discretion to treat these grants as revolving loans, as opposed to spending more money to capitalize a revolving loan program.

The regulatory provisions of both bills are identical. Both responsibly address the need to protect our Nation's water resources. Let us not rush to judgment. Rather, let our committee of jurisdiction and expertise review the proposals and develop the best possible approach.

I ask unanimous consent that a statement explaining that proposal and a comparison of the legislative provisions of that proposal with the proposal introduced by the distinguished majority leader, Senator STAFFORD, Senator BURDICK, Senator CHAFFEE, and others, and an additional fact sheet on the differences between the two bills be made part of the RECORD following my comments.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### CLEAN WATER ACT REAUTHORIZATION

Eligibility: Identical to current CWA (secondary treatment, advanced treatment, infiltration/inflow correction, and new interceptors).  
FY 1986–1993 Budget Authority Required: \$12 Billion.

## FUNDING ANALYSIS

[In billions of dollars]

	Budget authority			Outlays		
	Administration proposal (\$6)	Current proposal (\$12)	S. 1128 (\$18)	Administration proposal (\$6)	Current proposal (\$12)	S. 1128 (\$18)
Fiscal year:						
1986	2.4	1.8	2.4	3.1	3.1	3.1
1987	1.8	2.0	2.4	2.7	2.7	2.8
1988	1.2	2.0	2.4	2.4	2.3	2.5
1989	.6	1.9	2.4	2.2	2.2	2.8
1990	0	1.6	2.4	1.8	2.2	3.1
1991	0	1.2	2.4	1.3	2.0	3.1
1992	0	1.0	1.8	.9	1.8	3.2
1993	0	.5	1.2	.6	1.6	3.0
1994	0	0	.6	.4	1.3	2.1

**Principal Features:** First use of funds to maintain progress with the enforceable requirements of the act; States free to use funds for loans as well as grants; loan repayments may be used for broader eligibilities, including combined sewer overflows, collector sewers, etc.; FY 87 authority limited to \$2 billion (\$1.2 billion appropriated plus \$800 million supplemental appropriation); outlays schedule for loans equal to outlay schedule for grants; loans buy out needs at same rate as grants; for first use, loan eligibilities same as grant eligibilities.

**Rationale:** Outlays significantly lower than under S. 1128; first use targets priority projects; strong environmental rationale; allows flexible use of grants and loans; no change required in the allotment formula or eligibilities.

## WATER QUALITY ACT OF 1987

## Congressional bill (S. 1128)

## Administration proposal

## Title II—Wastetreatment Grants:

1. Authorized \$18B through 1994 to finance the construction of municipal wastetreatment facilities.
2. Authorized State Revolving Funds, capitalized with federal funds, to continue the wastetreatment grant program.
3. Authorized 5 special projects within State annual allotments and 5 special projects in addition to normal grant program.
4. (No provision)

1. Authorizes \$12B through 1993 to help finance the construction of municipal wastetreatment facilities
2. Authorizes State discretionary use of wastetreatment funds as loans repayable to States to administer program.
3. Authorizes no special interest projects; targets grant funds to most beneficial environmental projects.
4. States are authorized (not mandated) to use up to 3.5 percent of their allotment to implement nonpoint source controls.

## Title III—Standards and Enforcement:

1. Nonpoint source programs are authorized at \$400M through 1991.
2. \$100M for Clean lakes; Estuary grant program is established with 75 percent Federal share.
3. Stormwater runoff requirements under current law are modified to ease the burden on municipal and industrial discharges.
4. New industrial compliance deadlines, water quality standards programs and conditions for variances from Federal limitations are established.
5. Amendments to current law to improve state permit programs, allow coal remining and establish anti-backsliding policies are included.
6. Enforcement provisions are updated and expanded similar to other Federal laws. Administrative penalties are added to current law.
7. Adds citizen suit provisions allowing individuals to initiate enforcement action.
8. Reauthorizes existing programs such as Great Lakes, Chesapeake Bay at current or higher levels.

1. No separate program authorized.
2. Same.
3. Same.
4. Same.
5. Same.
6. Same.
7. Same.
8. Same.

## COMPARISON OF SELECT LEGISLATIVE PROVISIONS

Provision	Original administration proposal	Administration's new legislative proposal	S. 1128
Budget authority (billions)	\$6	\$12	\$18
Budget authority (years)	4	8	9
Type of assistance	Grants	Grants/loans	Grants/loans
Payment schedule	Grant payment rate	Grant payment rate	Grants: Grant rate. Loans: within 3 yr.
Outlays (fiscal years 1988-93)	\$9.2	\$12.1	\$17.7
Loan conditions	NA	Similar to S. 1128	20 percent match, market rate or less, 20 yr repayment, most title II requirements apply, repayments must go to dedicated account.
Eligibilities	Phased/segmented projects only	Current eligibilities, maintain progress with grants and loans nps and estuaries <sup>1</sup>	Current eligibilities, maintain progress nps and estuaries.
Allotment formulas	Revised to fit eligibilities	As proposed by Congress	As passed.

<sup>1</sup> 1st target noncompliers and significant water quality projects.

## S. 76

(The text of the bill (S. 76), the Water Quality Act of 1987, is as follows:)

## S. 76

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

(a) SHORT TITLE.—This Act may be cited as the "Water Quality Act of 1987".

(b) TABLE OF CONTENTS.—

Sec. 1. Short title; table of contents; amendments to Federal Water Pollution Control Act; definition of Administrator.

Sec. 2. Limitation on payments.

## TITLE I—AMENDMENTS TO TITLE I

Sec. 101. Authorizations of appropriations.

Sec. 102. Chesapeake Bay.

Sec. 103. Great Lakes.

Sec. 104. Research on effects of pollutants

## TITLE II—CONSTRUCTION GRANTS AMENDMENTS.

- Sec. 201. Eligibilities, CSO, Dispute Resolution, Limitations.
- Sec. 202. Federal share.
- Sec. 203. Agreement on eligible costs.
- Sec. 204. Design/build projects.
- Sec. 205. Grant conditions; user charges on low-income residential users.
- Sec. 206. Allotment formula.
- Sec. 207. Rural set aside, Innovative and alternative projects, and Non-point source programs.
- Sec. 208. Regional organization funding.
- Sec. 209. Authorization for construction grants.
- Sec. 210. Grants to States for making water pollution control loans.
- Sec. 211. Ad valorem tax dedication.

## TITLE III—STANDARDS AND ENFORCEMENTS

- Sec. 301. Compliance dates.
- Sec. 302. Modification for nonconventional pollutants.
- Sec. 303. Discharges into marine waters.
- Sec. 304. Filing deadline for treatment works modification.
- Sec. 305. Innovative technology compliance deadlines for direct dischargers.
- Sec. 306. Fundamentally different factors.
- Sec. 307. Coal remining operations.
- Sec. 308. Individual control strategies for toxic pollutants.
- Sec. 309. Pretreatment standards.
- Sec. 310. Inspection and entry.
- Sec. 311. Marine sanitation devices.
- Sec. 312. Criminal penalties.
- Sec. 313. Civil penalties.
- Sec. 314. Administrative penalties.
- Sec. 315. Clean lakes.
- Sec. 316. Management of nonpoint sources of pollution.
- Sec. 317. National estuary program.
- Sec. 318. Unconsolidated quaternary aquifer.

## TITLE IV—PERMITS AND LICENSES

- Sec. 401. Stormwater runoff from oil, gas, and mining operations.
- Sec. 402. Additional pretreatment of conventional pollutants not required.
- Sec. 403. Partial NPDES program.
- Sec. 404. Anti-backsliding.
- Sec. 405. Municipal and industrial stormwater discharges.
- Sec. 406. Sewage sludge.
- Sec. 407. Log transfer facilities.

## TITLE V—MISCELLANEOUS PROVISIONS

- Sec. 501. Audits.
- Sec. 502. Commonwealth of the Northern Mariana Islands.
- Sec. 503. Agricultural stormwater discharges.
- Sec. 504. Protection of interests of United States in citizen suits.
- Sec. 505. Judicial review and award of fees.
- Sec. 506. Indian tribes.
- Sec. 507. Definition of point source.
- Sec. 508. Special provisions regarding certain dumping sites.
- Sec. 509. Ocean discharge research project.
- Sec. 510. Limitation on discharge of raw sewage by New York City.
- Sec. 511. Study of de minimis discharges.
- Sec. 512. Study of effectiveness of innovative and alternative processes and techniques.
- Sec. 513. Study of testing procedures.
- Sec. 514. Study of pretreatment of toxic pollutants.
- Sec. 515. Studies of water pollution problems in aquifers.

Sec. 516. Great Lakes consumptive use study.

Sec. 517. Sulfide corrosion study.

Sec. 518. Study of rainfall induced infiltration into sewer systems.

Sec. 519. Dam water quality study.

Sec. 520. Study of pollution in Lake Pend Oreille, Idaho.

(c) AMENDMENT OF FEDERAL WATER POLLUTION CONTROL ACT.—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Federal Water Pollution Control Act.

(d) DEFINITION.—For purposes of this Act, the term "Administrator" means the Administrator of the Environmental Protection Agency.

### SEC. 2. LIMITATION ON PAYMENTS.

No payments may be made under this Act except to the extent provided in advance in appropriation Acts.

### TITLE I—AMENDMENTS TO TITLE I

#### SEC. 101. AUTHORIZATIONS OF APPROPRIATIONS.

(a) RESEARCH AND INVESTIGATIONS.—Section 104(u) is amended—

(1) in clause (1) by striking out "and" after "1975," after "1980," and after "1981," and by inserting after "1982," the following: "such sums as may be necessary for fiscal years 1983 through 1985, and not to exceed \$22,770,000 per fiscal year for each of the fiscal years 1986 through 1990,";

(2) in clause (2) by striking out "and" after "1981," and by inserting after "1982," the following: "such sums as may be necessary for fiscal years 1983 through 1985, and \$3,000,000 per fiscal year for each of the fiscal years 1986 through 1990,";

(3) in clause (3) by striking out "and" after "1981," and by inserting after "1982," the following: "such sums as may be necessary for fiscal years 1983 through 1985, and \$1,500,000 per fiscal year for each of the fiscal years 1986 through 1990,".

(b) GRANTS FOR PROGRAM ADMINISTRATION.—Section 106(a)(2) is amended by inserting after "1982" the following: "such sums as may be necessary for fiscal years 1983 through 1985, and \$75,000,000 per fiscal year for each of the fiscal years 1986 through 1990,".

(c) TRAINING GRANTS AND SCHOLARSHIPS.—Section 112(c) is amended by striking out "and" after "1981," and by inserting after "1982," the following: "such sums as may be necessary for fiscal years 1983 through 1985, and \$7,000,000 per fiscal year for each of the fiscal years 1986 through 1990,".

(d) AREAWIDE PLANNING.—Section 208(f)(3) is amended by striking out "and" after "1974," and after "1980," and by inserting after "1982" the following: "and such sums as may be necessary for fiscal years 1983 through 1990,".

(e) RURAL CLEAN WATER.—Section 208(j)(9) is amended by striking out "and" after "1981," and by inserting after "1982," the following: "and such sums as may be necessary for fiscal years 1983 through 1990,".

(f) INTERAGENCY AGREEMENTS.—Section 304(k)(3) is amended by inserting after "1983" the following: "and such sums as may be necessary for fiscal years 1984 through 1990,".

(g) CLEAN LAKES.—Section 314(c)(2) is amended by striking out "and" after "1981," and by inserting after "1982" the following: "such sums as may be necessary for fiscal years 1983 through 1985, and \$30,000,000

per fiscal year for each of the fiscal years 1986 through 1990".

(h) GENERAL AUTHORIZATION.—Section 517 is amended by striking out "and" after "1981," and by inserting after "1982" the following: "such sums as may be necessary for fiscal years 1983 through 1985, and \$135,000,000 per fiscal year for each of the fiscal years 1986 through 1990".

#### SEC. 102. CHESAPEAKE BAY.

Title I is amended by adding at the end the following new section:

#### "SEC. 117. CHESAPEAKE BAY.

"(a) OFFICE.—The Administrator shall continue the Chesapeake Bay Program and shall establish and maintain in the Environmental Protection Agency an office, division, or branch of Chesapeake Bay Programs to—

"(1) collect and make available, through publications and other appropriate means, information pertaining to the environmental quality of the Chesapeake Bay (hereinafter in this subsection referred to as the "Bay");

"(2) coordinate Federal and State efforts to improve the water quality of the Bay;

"(3) determine the impact of sediment deposition in the Bay and identify the sources, rates, routes, and distribution patterns of such sediment deposition; and

"(4) determine the impact of natural and man-induced environmental changes on the living resources of the Bay and the relationships among such changes, with particular emphasis placed on the impact of pollutant loadings of nutrients, chlorine, acid precipitation, dissolved oxygen, and toxic pollutants, including organic chemicals and heavy metals, and with special attention given to the impact of such changes on striped bass.

#### "(b) INTERSTATE DEVELOPMENT PLAN GRANTS.—

"(1) AUTHORITY.—The Administrator shall, at the request of the Governor of a State affected by the interstate management plan developed pursuant to the Chesapeake Bay Program (hereinafter in this section referred to as 'the plan'), make a grant for the purpose of implementing the management mechanisms contained in the plan if such State has, within 1 year after the date of the enactment of this section, approved and committed to implement all or substantially all aspects of the plan. Such grants shall be made subject to such terms and conditions as the Administrator considers appropriate.

"(2) SUBMISSION OF PROPOSAL.—A state or combination of States may elect to avail itself of the benefits of this subsection by submitting to the Administrator a comprehensive proposal to implement management mechanisms contained in the plan which shall include (A) a description of proposed abatement actions which the State or combination of States commits to take within a specific time period to reduce pollution in the Bay and to meet applicable water quality standards, and (B) the estimated cost of the abatement actions proposed to be taken during the next fiscal year. If the Administrator finds that such proposal is consistent with the national policies set forth in section 101(a) of this Act and will contribute to the achievement of the national goals set forth in such section, the Administrator shall approve such proposal and shall finance the costs of implementing segments of such proposal.

"(3) FEDERAL SHARE.—Grants under this subsection shall not exceed 50 percent of the costs of implementing the management

mechanisms contained in the plan in any fiscal year and shall be made on condition that non-Federal sources provide the remainder of the cost of implementing the management mechanisms contained in the plan during such fiscal year.

"(4) ADMINISTRATIVE COSTS.—Administrative costs in the form of salaries, overhead, or indirect costs for services provided and charged against programs or projects supported by funds made available under this subsection shall not exceed in any one fiscal year 10 percent of the annual Federal grant made to a State under this subsection.

"(c) REPORTS.—Any State or combination of States that receives a grant under subsection (b) shall, within 18 months after the date of receipt of such grant and biennially thereafter, report to the Administrator on the progress made in implementing the interstate management plan developed pursuant to the Chesapeake Bay Program. The Administrator transmit each such report along with the comments of the Administrator on such report to Congress.

"(d) AUTHORIZATION OF APPROPRIATIONS.—There are hereby authorized to be appropriated the following sums, to remain available until expended, to carry out the purposes of this section:

"(1) \$3,000,000 per fiscal year for each of the fiscal years 1987, 1988, 1989, and 1990, to carry out subsection (a); and

"(2) \$10,000,000 per fiscal year for each of the fiscal years 1987, 1988, 1989, and 1990, for grants to States under subsection (b)."

#### SEC. 103. GREAT LAKES.

Title I is amended by adding at the end the following new section:

"(a) FINDINGS, PURPOSE, AND DEFINITIONS.—

"(1) FINDINGS.—The Congress finds that—

"(A) the Great Lakes are a valuable national resource, continuously serving the people of the United States and other nations as an important source of food, fresh water, recreation, beauty, and enjoyment;

"(B) the United States should seek to attain the goals embodied in the Great Lakes Water Quality Agreement of 1978 with particular emphasis on goals related to toxic pollutants; and

"(C) the Environmental Protection Agency should take the lead in the effort to meet those goals, working with other Federal agencies and State and local authorities.

"(2) PURPOSE.—It is the purpose of this section to achieve the goals embodied in the Great Lakes Water Quality Agreement of 1978 through improved organization and definition of mission on the part of the Agency, funding of State grants for pollution control in the Great Lakes area, and improved accountability for implementation of such agreement.

"(3) DEFINITIONS.—For purposes of this section, the term—

"(A) 'Agency' means the Environmental Protection Agency;

"(B) 'Great Lakes' means Lake Ontario, Lake Erie, Lake Huron (including Lake St. Clair), Lake Michigan, and Lake Superior, and the connecting channels (Saint Mary's River, Saint Clair River, Detroit River, Niagara River, and Saint Lawrence River to the Canadian Border);

"(C) 'Great Lakes System' means all the streams, rivers, lakes, and other bodies of water within the drainage basin of the Great Lakes;

"(D) 'Program Office' means the Great Lakes National Program Office established by this section; and

"(E) 'Research Office' means the Great Lakes Research Office established by subsection (d).

"(b) GREAT LAKES NATIONAL PROGRAM OFFICE.—The Great Lakes National Program Office (previously established by the Administrator) is hereby established within the Agency. The Program Office shall be headed by a Director who, by reason of management experience and technical expertise relating to the Great Lakes, is highly qualified to direct the development of programs and plans on a variety of Great Lakes issues. The Great Lakes National Program Office shall be located in a Great Lakes State.

"(c) GREAT LAKES MANAGEMENT.—

"(1) FUNCTIONS.—The Program Office shall—

"(A) in cooperation with appropriate Federal, State, tribal, and international agencies, and in accordance with section 101(e) of this Act, develop and implement specific action plans to carry out the responsibilities of the United States under the Great Lakes Water Quality Agreement of 1978;

"(B) establish a Great Lakes system-wide surveillance network to monitor the water quality of the Great Lakes, with specific emphasis on the monitoring of toxic pollutants;

"(C) serve as the liaison with, and provide information to, the Canadian members of the International Joint Commission and the Canadian counterpart to the Agency;

"(D) coordinate actions of the Agency (including actions by headquarters and regional offices thereof) aimed at improving Great Lakes water quality; and

"(E) coordinate actions of the Agency with the actions of other Federal agencies and State and local authorities, so as to ensure the input of those agencies and authorities in developing water quality strategies and obtain the support of those agencies and authorities in achieving the objectives of such agreement.

"(2) 5-YEAR PLAN AND PROGRAM.—The Program Office shall develop, in consultation with the States, a five-year plan and program for reducing the amount of nutrients introduced into the Great Lakes. Such program shall incorporate any management program for reducing nutrient runoff from nonpoint sources established under section 316 of this Act and shall include a program for monitoring nutrient runoff into, and ambient levels in, the Great Lakes.

"(3) 5-YEAR STUDY AND DEMONSTRATION PROJECTS.—The Program Office shall carry out a five-year study and demonstration projects relating to the control and removal of toxic pollutants in the Great Lakes, with emphasis on the removal of toxic pollutants from bottom sediments. In selecting locations for conducting demonstration projects under this paragraph, priority consideration shall be given to projects at the following locations: Saginaw Bay, Michigan; Sheboygan Harbor, Wisconsin; Grand Calumet River, Indiana; Ashtabula River, Ohio; and Buffalo River, New York.

"(4) ADMINISTRATOR'S RESPONSIBILITY.—The Administrator shall ensure that the Program Office enters into agreements with the various organizational elements of the Agency involved in Great Lakes activities and the appropriate State agencies specifically delineating—

"(A) the duties and responsibilities of each such element in the Agency with respect to the Great Lakes;

"(B) the time periods for carrying out such duties and responsibilities; and

"(C) the resources to be committed to such duties and responsibilities.

"(5) BUDGET ITEM.—The Administrator shall, in the Agency's annual budget submission to Congress, include a funding request for the Program Office as a separate budget line item.

"(6) COMPREHENSIVE REPORT.—Within 90 days after the end of each fiscal year, the Administrator shall submit to Congress a comprehensive report which—

"(A) describes the achievements in the preceding fiscal year in implementing the Great Lakes Water Quality Agreement of 1978 and shows by categories (including judicial enforcement, research, State cooperative efforts, and general administration) the amounts expended on Great Lakes water quality initiatives in such preceding fiscal year;

"(B) describes the progress made in such preceding fiscal year in implementing the system of surveillance of the water quality in the Great Lakes System, including the monitoring of ground water and sediment, with particular reference to toxic pollutants;

"(C) describes the long-term prospects for improving the condition of the Great Lakes; and

"(D) provides a comprehensive assessment of the planned efforts to be pursued in the succeeding fiscal year for implementing the Great Lakes Water Quality Agreement of 1978, which assessment shall—

"(i) show by categories (including judicial enforcement, research, State cooperative efforts, and general administration) the amount anticipated to be expended on Great Lakes water quality initiatives in the fiscal year to which the assessment relates; and

"(ii) include a report of current programs administered by other Federal agencies which make available resources to the Great Lakes water quality management efforts.

"(d) GREAT LAKES RESEARCH.—

"(1) ESTABLISHMENT OF RESEARCH OFFICE.—There is established within the National Oceanic and Atmospheric Administration the Great Lakes Research Office.

"(2) IDENTIFICATION OF ISSUES.—The Research Office shall identify issues relating to the Great Lakes resources on which research is needed. The Research Office shall submit a report to Congress on such issues before the end of each fiscal year which shall identify any changes in the Great Lakes System with respect to such issues.

"(3) INVENTORY.—The Research Office shall identify and inventory Federal, State, university, and tribal environmental research programs (and, to the extent feasible, those of private organizations and other nations) relating to the Great Lakes System, and shall update that inventory every four years.

"(4) RESEARCH EXCHANGE.—The Research Office shall establish a Great Lakes research exchange for the purpose of facilitating the rapid identification, acquisition, retrieval, dissemination, and use of information concerning research projects which are ongoing or completed and which affect the Great Lakes System.

"(5) RESEARCH PROGRAM.—The Research Office shall develop, in cooperation with the Coordination Office, a comprehensive environmental research program and data base for the Great Lakes System. The data base shall include, but not be limited to, data relating to water quality, fisheries, and biota.

"(6) MONITORING.—The Research Office shall conduct, through the Great Lakes Environmental Research Laboratory, the National Sea Grant College Program, other Federal laboratories, and the private sector, appropriate research and monitoring activities which address priority issues and current needs relating to the Great Lakes.

"(7) LOCATION.—The Research Office shall be located in a Great Lakes State.

"(e) RESEARCH AND MANAGEMENT COORDINATION.—

"(1) JOINT PLAN.—Before October 1 of each year, the Program Office and the Research Office shall prepare a joint research plan for the fiscal year which begins in the following calendar year.

"(2) CONTENTS OF PLAN.—Each plan prepared under paragraph (1) shall—

"(A) identify all proposed research dedicated to activities conducted under the Great Lakes Water Quality Agreement of 1978;

"(B) include the Agency's assessment of priorities for research needed to fulfill the terms of such Agreement; and

"(C) identify all proposed research that may be used to develop a comprehensive environmental data base for the Great Lakes System and establish priorities for development of such data base.

"(f) INTERAGENCY COOPERATION.—The head of each department, agency, or other instrumentality of the Federal Government which is engaged in, is concerned with, or has authority over programs relating to research, monitoring, and planning to maintain, enhance, preserve, or rehabilitate the environmental quality and natural resources of the Great Lakes, including the Chief of Engineers of the Army, the Chief of the Soil Conservation Service, the Commandant of the Coast Guard, the Director of the Fish and Wildlife Service, and the Administrator of the National Oceanic and Atmospheric Administration, shall submit an annual report to the Administrator with respect to the activities of that agency or office affecting compliance with the Great Lakes Water Quality Agreement of 1978.

"(g) RELATIONSHIP TO EXISTING FEDERAL AND STATE LAWS AND INTERNATIONAL TREATIES.—Nothing in this section shall be construed to affect the jurisdiction, powers, or prerogatives of any department, agency, or officer of the Federal Government or of any State government, or of any tribe, nor any powers, jurisdiction, or prerogatives of any international body created by treaty with authority relating to the Great Lakes.

"(h) AUTHORIZATIONS OF GREAT LAKES APPROPRIATIONS.—There are authorized to be appropriated to the Administrator to carry out this section not to exceed \$11,000,000 per fiscal year for the fiscal years 1987, 1988, 1989, 1990, and 1991. Of the amounts appropriated each fiscal year—

"(1) 40 percent shall be used by the Great Lakes National Program Office on demonstration projects on the feasibility of controlling and removing toxic pollutants;

"(2) 7 percent shall be used by the Great Lakes National Program Office for the program of nutrient monitoring; and

"(3) 30 percent shall be transferred to the National Oceanic and Atmospheric Administration for use by the Great Lakes Research Office."

SEC. 104. RESEARCH ON EFFECTS OF POLLUTANTS.

In carrying out the provisions of section 104(a) of the Federal Water Pollution Control Act, the Administrator shall conduct research on the harmful effects on the health and welfare of persons caused by pollutants

in water, in conjunction with the United States Fish and Wildlife Service, the National Oceanic and Atmospheric Administration, and other Federal, State, and interstate agencies carrying on such research. Such research shall include, and shall place special emphasis on, the effect that bioaccumulation of these pollutants in aquatic species has upon reducing the value of aquatic commercial and sport industries. Such research shall further study methods to reduce and remove these pollutants from the relevant affected aquatic species so as to restore and enhance these valuable resources.

## TITLE II—CONSTRUCTION GRANTS AMENDMENTS

### SEC. 201. ELIGIBILITIES, CSOs, DISPUTE RESOLUTION, LIMITATIONS

(a) Section 201(g)(1) is amended by striking out the third sentence and inserting in lieu thereof: "Notwithstanding the preceding sentence, the Administrator is authorized to make grants to States for the provision of loans to municipalities or intermunicipal or interstate agencies for the construction of publicly owned treatment works, as provided under section 220. On and after October 1, 1987, grants under this section shall first be made for projects within the categories listed in the preceding sentence that are necessary to maintain progress, as determined by the Governor, to meet the enforceable deadlines, goals, and requirements of the Act.

(b) Section 201(n) is repealed and subsection 201(o) is redesignated 201(n).

(c) Section 201 is amended by adding at the end thereof the following new subsection:

"(o) TIME LIMIT ON RESOLVING CERTAIN DISPUTES.—In any case in which a dispute arises with respect to the awarding of a contract for construction of treatment works by a grantee of funds under this title and a party to such dispute files an appeal with the Administrator under this title for resolution of such dispute, the Administrator shall make a final decision on such appeal within 90 days of the filing of such appeal."

(d) Section 204(c) is amended by inserting "awarded a grant before October 1, 1990," immediately after "such facility and interceptors".

### SEC. 202. FEDERAL SHARE.

(a) Section 202(a)(1) is amended by striking out the period at the end thereof and inserting in lieu thereof: "for any such grants made before October 1, 1990."

(b) PROJECTS UNDER JUDICIAL INJUNCTION.—Section 202(a)(1) is amended by adding at the end thereof the following: "Notwithstanding the first sentence of this paragraph, in the case of a project for which an application for a grant under this title has been made to the Administrator before October 1, 1984, and which project is under judicial injunction on such date prohibiting its construction, such project shall be eligible for grants at 75 percent of the cost of construction thereof."

(d) BIODISC EQUIPMENT.—Section 202(a)(3) is amended by adding at the end thereof the following: "In addition, the Administrator is authorized to make a grant to fund all of the costs of the modification or replacement of biodisc equipment (rotating biological contactors) in any publicly owned treatment works if the Administrator finds that such equipment has failed to meet design performance specifications, unless such failure is attributable to negligence on the part of any person, and if such failure has signifi-

cantly increased capital or operating and maintenance expenditures."

(e) INNOVATIVE PROCESS.—The activated bio-filter feature of the project for treatment works of the city of Little Falls, Minnesota, shall be deemed to be an innovative wastewater process and technique for purposes of section 202(a)(2) of the Federal Water Pollution Control Act and the amount of any grant under such Act for such feature shall be 85 percent of the cost thereof.

(f) AVAILABILITY OF CERTAIN FUNDS FOR NON-FEDERAL SHARE.—Notwithstanding any other provision of law, Federal assistance made available by the Farmers Home Administration to any political subdivision of a State may be used to provide the non-Federal share of the cost of any construction project carried out under section 201 of the Federal Water Pollution Control Act.

### SEC. 203. AGREEMENT ON ELIGIBLE COSTS.

Section 203(a) is amended by inserting "(1)" after "(a)", by designating the last sentence as paragraph (3) and by inserting such sentence as a paragraph, and by inserting before paragraph (3) as so designated the following:

"(2) AGREEMENT ON ELIGIBLE COST.—

"(A) LIMITATION ON MODIFICATIONS.—Before taking final action on any plans, specifications, and estimates submitted under this subsection after the 60th day following the date of the enactment of the Water Quality Act of 1987, the Administrator shall enter into a written agreement with the applicant which establishes and specifies which items of the proposed project are eligible for Federal payments under this section. The Administrator may not later modify such eligibility determinations unless they are found to have been made in violation of applicable Federal statutes and regulations.

"(B) LIMITATION ON EFFECT.—Eligibility determinations under this paragraph shall not preclude the Administrator from auditing a project pursuant to section 501 of this Act, or other authority, or from withholding or recovering Federal funds for costs which are found to be unreasonable, unsupported by adequate documentation, or otherwise unlawful under applicable Federal cost principles, or which are incurred on a project which fails to meet the design specifications or effluent limitations contained in the grant agreement and permit pursuant to section 402 of this Act for such project."

### SEC. 204. DESIGN/BUILD PROJECTS.

Section 203 is amended by adding at the end the following new subsection:

"(f) DESIGN/BUILD PROJECTS.—

"(1) AGREEMENT.—Consistent with State law, an applicant who proposes to construct waste water treatment works may enter into an agreement with the Administrator under this subsection providing for the preparation of construction plans and specifications and the erection of such treatment works, in lieu of proceeding under the other provisions of this section.

"(2) LIMITATION ON PROJECTS.—Agreements under this subsection shall be limited to projects under an approved facility plan which projects are—

"(A) treatment works that have an estimated total cost of \$8,000,000 or less; and

"(B) any of the following types of waste water treatment systems: aerated lagoons, trickling filters, stabilization ponds, land application systems, sand filters, and subsurface disposal systems.

"(3) REQUIRED TERMS.—An agreement under this subsection shall—

"(A) set forth an amount agreed to as the maximum Federal contribution to the project, based upon a competitively bid document of basic design data and applicable standard construction specifications and a determination of the federally eligible costs of the project at the applicable Federal share under section 202 of this Act;

"(B) set forth dates for the start and completion of construction of the treatment works by the applicant and a schedule of payments of the Federal contribution to the project;

"(C) contain assurances by the applicant that (i) engineering and management assistance will be provided to manage the project; (ii) the proposed treatment works will be an operable unit and will meet all the requirements of this title; and (iii) not later than 1 year after the date specified as the date of completion of construction of the treatment works, the treatment works will be operating so as to meet the requirements of any applicable permit for such treatment works under section 402 of this Act;

"(D) require the applicant to obtain a bond from the contractor in an amount determined necessary by the Administrator to protect the Federal interest in the project; and

"(E) contain such other terms and conditions as are necessary to assure compliance with this title (except as provided in paragraph (4) of this subsection).

"(4) LIMITATION ON APPLICATION.—Subsections (a), (b), and (c) of this section shall not apply to grants made pursuant to this subsection.

"(5) RESERVATION TO ASSURE COMPLIANCE.—The Administrator shall reserve a portion of the grant to assure contract compliance until final project approval as defined by the Administrator. If the amount agreed to under paragraph (3)(A) exceeds the cost of designing and constructing the treatment works, the Administrator shall reallocate the amount of the excess to the State in which such treatment works are located for the fiscal year in which such audit is completed.

"(6) LIMITATION ON OBLIGATIONS.—The Administrator shall not obligate more than 20 percent of the amount allotted to a State for a fiscal year under section 205 of this Act for grants pursuant to this subsection.

"(7) ALLOWANCE.—The Administrator shall determine an allowance for facilities planning for projects constructed under this subsection in accordance with section 201(1).

"(8) LIMITATION ON FEDERAL CONTRIBUTIONS.—In no event shall the Federal contribution for the cost of preparing construction plans and specifications and the building and erection of treatment works pursuant to this subsection exceed the amount agreed upon under paragraph (3).

"(9) RECOVERY ACTION.—In any case in which the recipient of a grant made pursuant to this subsection does not comply with the terms of the agreement entered into under paragraph (3), the Administrator is authorized to take such action as may be necessary to recover the amount of the Federal contribution to the project.

"(10) PREVENTION OF DOUBLE BENEFITS.—A recipient of a grant made pursuant to this subsection shall not be eligible for any other grants under this title for the same project."

#### SEC. 205. GRANT CONDITIONS; USER CHARGES ON LOW-INCOME RESIDENTIAL USERS.

(a) INCLUSION OF PROJECT IN AREAWIDE PLAN.—Section 204(a)(1) is amended to read as follows:

"(1) that any required areawide waste treatment management plan under section 208 of this Act (A) is being implemented for such area and the proposed treatment works are included in such plan, or (B) is being developed for such area and reasonable progress is being made toward its implementation and the proposed treatment works will be included in such plan;"

(b) CONTINUING PLANNING PROCESS.—Section 204(a)(2) is amended to read as follows:

"(2) that (A) the State in which the project is to be located (i) is implementing any required plan under section 303(e) of this Act and the proposed treatment works are in conformity with such plan, or (ii) is developing such a plan and the proposed treatment works will be in conformity with such plan, and (B) such State is in compliance with section 305(b) of this Act;"

(c) USER CHARGES ON LOW-INCOME RESIDENTIAL USERS.—Section 204(b)(1) is amended by adding at the end thereof the following: "A system of user charges which imposes a lower charge for low-income residential users (as defined by the Administrator) shall be deemed to be a user charge system meeting the requirements of clause (A) of this paragraph if the Administrator determines that such system was adopted after public notice and hearing."

(d) EFFECTIVE DATE.—This section shall take effect on the date of enactment of this Act, except that the amendments made by subsections (a) and (b) shall take effect on the last day of the two-year period beginning on such date of enactment.

#### SEC. 206. ALLOTMENT FORMULA.

(a) FORMULA.—

(1) EXTENSION OF EXISTING FORMULA FOR 1986.—Section 205(c)(2) is amended by striking out "and September 30, 1985," and inserting in lieu thereof "September 30, 1985, and September 30, 1986."

(2) FISCAL YEARS 1987-1990.—Section 205(c) is amended by adding at the end the following new paragraph:

"(3) FISCAL YEARS 1987-1990.—Sums authorized to be appropriated pursuant to section 207 for the fiscal years 1987, 1988, 1989, and 1990 shall be allotted for each such year by the Administrator not later than the 10th day which begins after the date of the enactment of this paragraph. Sums authorized for such fiscal years shall be allotted in accordance with the following table:

"States:	
Alabama.....	.011309
Alaska.....	.006053
Arizona.....	.006831
Arkansas.....	.006616
California.....	.072333

Virgin Islands.....	.000527"

(b) COSTS OF ADMINISTRATION.—Section 205(g)(1) is amended by striking out "October 1, 1985" and inserting in lieu thereof "October 1, 1994".

(c) CONTROL OF POLLUTANTS FROM STORM SEWERS.—Section 211(e) is amended by striking out "1985," and inserting in lieu thereof "1990."

#### SEC. 207. RURAL SET ASIDE, INNOVATIVE AND ALTERNATIVE PROJECTS, AND NON-POINT SOURCE PROGRAMS

(a) Section 205(h) is amended by inserting after "October 1, 1978" the following: "and ending before October 1, 1987".

(b) Section 205(i) is amended by inserting after "beginning after September 30, 1981" the following: "and ending before October 1, 1987".

(c) Section 205 is amended by adding at the end thereof the following:

"(1) The Administrator is authorized to reserve for any fiscal year beginning on or after October 1, 1987 and ending before October 1, 1991, at the request of the Governor, a portion of the sum allotted and available for obligation to each State under this section, not to exceed 3.50 per centum for the fiscal year ending September 30, 1988; 5.32 per centum for the fiscal year ending September 30, 1989; 6.25 per centum for the fiscal year ending September 30, 1990; and 10.83 per centum for the fiscal year ending September 30, 1991. Sums so reserved shall be available for making grants to the States for nonpoint source management programs and groundwater quality protection activities under section 319 of this Act. Sums so reserved shall be available for making such grants for the same period as sums are available from state allotments under subsection (d) of this section, and any such grant shall be available for obligation only during such period. Any grant made from sums reserved under this subsection which has not been obligated by the end of the period for which available shall be added to the amount last allotted to such State under this section and shall be immediately avail-

able for obligation in the same manner and to the same extent as such last allotment."

#### SEC. 208. REGIONAL ORGANIZATION FUNDING.

Section 205(j)(3) is amended by adding at the end thereof the following: "In giving such priority, the State shall allocate at least 40 percent of the amount granted to such State for a fiscal year under paragraph (2) of this subsection to regional public comprehensive planning organizations in such State and appropriate interstate organizations for the development and implementation of the plan described in this paragraph. In any fiscal year for which the Governor, in consultation with such organizations and with the approval of the Administrator, determines that allocation of at least 40 percent of such amount to such organizations will not result in significant participation by such organizations in water quality management planning and not significantly assist in development and implementation of the plan described in this paragraph and achieving the goals of this Act, the allocation to such organization may be less than 40 percent of such amount."

#### SEC. 209. AUTHORIZATIONS FOR CONSTRUCTION GRANTS.

Section 207 is amended by striking out the period at the end thereof and inserting in lieu thereof the following: ", and for the fiscal year ending September 30, 1986, not to exceed \$1,800,000,000; for the fiscal year ending September 30, 1987, and for the fiscal year ending September 30, 1988, not to exceed \$2,000,000,000; for the fiscal year ending September 30, 1989, not to exceed \$1,900,000,000; for the fiscal year ending September 30, 1990, not to exceed \$1,600,000,000; for the fiscal year ending September 30, 1991, not to exceed \$1,200,000,000; for the fiscal year ending September 30, 1992, not to exceed \$1,000,000,000; and for the fiscal year ending September 30, 1993, not to exceed \$500,000,000."

#### SEC. 210. GRANTS TO STATES FOR MAKING WATER POLLUTION CONTROL LOANS

Title II is amended by adding at the end thereof the following new sections:

#### "SEC. 220 GRANTS TO STATES FOR MAKING WATER POLLUTION CONTROL LOANS

"(a) GENERAL AUTHORITY.—Subject to the provisions of this title, the Administrator may make grants under this section to each State from the sums allotted to such State under section 205, for the purpose of (1) providing loans for construction of treatment works (as defined in section 212 of this Act) which are publicly owned, (2) implementing a management program under section 319, and (3) developing and implementing a conservation and management plan under section 320.

"(b) SCHEDULE OF GRANT PAYMENTS.—The Administrator and each State shall jointly establish a schedule of payments under which the Administrator will pay to the State the amount of each grant to be made to the State under this section. Such schedule shall be based on the State's intended use plan under section 223(c). Such schedule shall provide for payments no more frequent than once per quarter year, in amounts and over periods that result in an outlay rate that approximates the rate for payments made under section 201(g)(1) grants, as determined by the Administrator. The average outlay rate for State grant payments under this section shall not exceed the average outlay rate for section 201(g)(1) grant payments.

"(c) GRANT AGREEMENTS.—

"(1) GENERAL RULE.—To receive a grant with funds made available under this section, a State shall enter into an agreement with the Administrator.

"(2) SPECIFIC REQUIREMENTS.—Any agreement entered into by the Administrator under this section shall include, but not be limited to, the provisions listed below, and, in addition, such agreement may be entered into only after the State has established to the satisfaction of the Administrator that—

"(A) the State will accept grant payments with funds to be made available under this section in accordance with a payment schedule established jointly by the Administrator and the State under subsection (b);

"(B) the State will make available from State moneys an amount equal to at least 20 percent of each grant payment made under this section on or before the date on which each such payment will be made to the State;

"(C) the State will enter into binding commitments to provide assistance in accordance with the requirements of this section in an amount equal to 120 percent of the amount of each such grant payment within 1 year after the receipt of such grant payment;

"(D) all funds resulting from grants under this section, i.e. grant funds, matching funds, and loan repayment funds, will be expended in an expeditious and timely manner;

"(E) all such funds resulting from grants under this section will first be used to assure maintenance of progress, as determined by the Governor of the State, toward compliance with enforceable deadlines, goals, and requirements of this Act, including the municipal compliance deadline, in accordance with section 201(g)(1);

"(F) treatment works eligible under sections 201(g)(1) and 221(c) which will be constructed in whole or in part before fiscal year 1995 with funds from grants under this section will meet the requirements of sections 201(b), 201(g)(1), 201(g)(2), 201(g)(3), 201(g)(5), 201(g)(6), 201(n), 204(a)(1), 204(a)(2), 204(b)(1), 204(d)(2), 211, 218, and 511(c)(1) in the same manner as treatment works constructed with assistance under section 201(g)(1) other than by loans;

"(G) in addition to complying with the requirements of this title, the State will commit or expend each grant payment which it will receive under this title in accordance with laws and procedures applicable to the commitment or expenditure of revenues of the States;

"(H) in carrying out the requirements of section 223, the State will use accounting, audit, and fiscal procedures conforming to generally accepted government accounting standards;

"(I) the State will require as a condition of making loans from grants under this section that the recipients of such assistance will maintain project accounts in accordance with generally accepted government accounting standards; and

"(J) the State will make annual reports to the Administrator on the actual use of funds in accordance with section 223 of this title.

"(d) APPLICABILITY OF TITLE II PROVISIONS.—Except to the extent explicitly provided in this section and sections 221 and 223, other provisions of title II shall not apply to grants made under this section."

#### "SEC. 221. WATER POLLUTION CONTROL LOANS.

"(a) REQUIREMENTS FOR OBLIGATION OF GRANT FUNDS.—Before a State may receive a grant under section 220 with funds made

available under this title, the State shall first certify that it will comply with the requirements of this section.

"(b) ADMINISTRATION.—Grant funds received under section 220 shall be administered by the State to satisfy the requirements and objectives of this Act.

"(c) PROJECTS ELIGIBLE FOR ASSISTANCE.—The Administrator is authorized to make grants under section 220 to States (1) for the provision of loans to municipalities or intermunicipal or interstate agencies for the construction of publicly owned treatment works for the eligible costs defined in 201(g)(1) and once such deadlines, goals and requirements have been addressed, loans may then be made for any projects within the definition of section 212 of this Act, (2) for the implementation of a management program established under section 319, and (3) for development and implementation of a conservation and management plan under section 320. The State shall make repayments from loans available in perpetuity for providing such financial assistance.

"(d) TYPES OF ASSISTANCE.—A water pollution control grant to a State under this section may be used only—

"(1) to make loans, on the condition that—

"(A) such loans are made at or below market interest rates, including interest free loans, at terms not to exceed 20 years;

"(B) annual principal and interest payments will commence not later than 1 year after completion of any project and all loans will be fully amortized not later than 20 years after project completion;

"(C) the recipient of a loan will establish a dedicated source of revenue for repayment of loans;

"(D) the State will be credited with all payments of principal and interest on all loans; and

"(E) the State ensures that the total amount loaned from any fiscal year authorization shall not exceed, in the aggregate, the total amount that the projects funded would otherwise have received from Federal grants under section 201(g)(1).

"(2) to buy or refinance the debt obligation of municipalities and intermunicipal and interstate agencies within the State at or below market rates, where such debt obligations were incurred after March 1985;

"(3) as a source of revenue or security for the payment of principal or interest on revenue or general obligation bonds insured by the State if the proceeds of the sale of such bonds will be used to make loans.

"(e) LIMITATION TO PREVENT DOUBLE BENEFITS.—If a State makes, from its grant under section 220, a loan which will finance the cost of facility planning and the preparation of plans, specifications, and estimates for construction of publicly owned treatment works, the State shall ensure that if the recipient of such loan receives a grant under section 201(g) for construction of such treatment works and all allowance under section 201(l)(1) for non-Federal funds expended for such planning and preparation, such recipient will promptly repay such loan to the extent of such allowance.

"(f) CONSISTENCY WITH PLANNING REQUIREMENTS.—A State may provide financial assistance from funds resulting from its grant under section 220 only with respect to a project which is consistent with plans, if any, developed under sections 205(j), 208, 303(e), 319, and 320 of this Act.

"(g) PRIORITY LIST REQUIREMENT.—The State may provide financial assistance from funds resulting from its grants under sec-

tion 220 only for projects on the State's priority list under section 216 of this Act. Such assistance may be provided regardless of the rank of such projects on such list.

**"SEC. 222. CORRECTIVE ACTION.**

**"(a) NOTIFICATION OF NONCOMPLIANCE.**—If the Administrator determines that a State has not complied with its agreement with the Administrator under section 220 or any other requirement of this title, the Administrator shall notify the State of such non-compliance and the necessary corrective action.

**"(b) WITHHOLDING OF PAYMENTS.**—If a State does not take corrective action within 60 days after the date a State receives notification of such action under subsection (a), the Administrator shall withhold additional payments to the State until the Administrator is satisfied that the State has taken the necessary corrective action.

**"(c) REALLOTMENT OF WITHHELD PAYMENTS.**—If the Administrator is not satisfied that adequate corrective actions have been taken by the State within 12 months after the State is notified of such actions under subsection (a), the payments withheld from the State by the Administrator under subsection (b) shall be made available for reallocation in accordance with the formula for allotment of funds under this title in effect at the time of such reallocation.

**"SEC. 223. AUDITS, REPORTS, AND FISCAL CONTROLS; INTENDED USE PLAN.**

**"(a) FISCAL CONTROL AND AUDITING PROCEDURES.**—Each State accepting a grant under section 220 shall establish fiscal controls and accounting procedures sufficient to assure proper accounting during appropriate accounting periods for such grants:

- "(1) payments received;
- "(2) disbursements made; and
- "(3) balances at the beginning and end of the accounting period.

**"(b) ANNUAL FEDERAL AUDITS.**—The Administrator shall, at least on an annual basis, conduct or require each State to have independently conducted reviews and audits of grant funds received under section 220 as may be deemed necessary or appropriate by the Administrator to carry out the objectives of this section. Audits of the use of funds shall be conducted in accordance with the auditing procedures of the General Accounting Office, including chapter 75 of title 31, United States Code.

**"(c) INTENDED USE PLAN.**—After providing for public comment and review for each fiscal year that the State expends grant funds under section 220, the State shall prepare a plan identifying the intended use of the grant amounts available. Such intended use plan shall include, but not be limited to—

- "(1) a list of those projects for construction of publicly owned treatment works on the State's priority list developed pursuant to section 216 of this Act and a list of activities eligible for assistance under sections 319 and 320 of this Act;

"(2) a description of the State's short and long-term water pollution control goals and objectives;

"(3) information on the activities to be supported, including a description of project categories, discharge requirements under titles III and IV of this Act, terms of financial assistance, and communities served;

"(4) assurances and specific proposals for meeting the requirements of paragraphs (C), (D), (E), and (F) of section 202(c)(2) of this title; and

"(5) the criteria and method established for the distribution of funds.

**"(d) ANNUAL REPORT.**—For each fiscal year that the State expends grant funds under section 220, the State shall provide an annual report to the Administrator describing how the State has met the goals and objectives for the previous fiscal year as identified in the plan prepared for the previous fiscal year pursuant to subsection (c), including identification of loan recipients, loan amounts, and loan terms.

**"(e) ANNUAL FEDERAL OVERSIGHT REVIEW.**—The Administrator shall conduct an annual oversight review of each State plan prepared under subsection (c), each State report prepared under subsection (d), and other such materials as are considered necessary and appropriate in carrying out the purposes of this title. After reasonable notice by the Administrator to the State or the recipient of a loan, the State or loan recipient shall make available to the Administrator such records as the Administrator reasonably requires to review and determine compliance with this title."

**SEC. 211. AD VALOREM TAX DEDICATION.**

For the purposes of complying with section 204(b)(1) of the Federal Water Pollution Control Act, the ad valorem tax user charge systems of the town of Hampton and the city of Nashua, New Hampshire, shall be deemed to have been dedicated as of December 27, 1977. The Administrator shall review such ad valorem tax user charge systems for compliance with the remaining requirements of such section and related regulations of the Environmental Protection Agency.

**TITLE II—STANDARDS AND ENFORCEMENTS**

**SEC. 301. COMPLIANCE DATES.**

**(a) PRIORITY TOXIC POLLUTANTS.**—Section 301(b)(2)(C) is amended by striking out "not later than July 1, 1984," and inserting after "of this paragraph" the following: "as expeditiously as practicable but in no case later than three years after the date such limitations are promulgated under section 304(b), and in no case later than March 31, 1989."

**(b) OTHER TOXIC POLLUTANTS.**—Section 301(b)(2)(D) is amended by striking out "not later than three years after the date such limitations are established" and inserting in lieu thereof "as expeditiously as practicable, but in no case later than three years after the date such limitations are promulgated under section 304(b), and in no case later than March 31, 1989."

**(c) CONVENTIONAL POLLUTANTS.**—Section 301(b)(2)(E) is amended by striking out "not later than July 1, 1984," and inserting in lieu thereof "as expeditiously as practicable but in no case later than three years after the date such limitations are promulgated under section 304(b), and in no case later than March 31, 1989, compliance with."

**(d) OTHER POLLUTANTS.**—Section 301(b)(2)(F) is amended by striking "not" after "subparagraph (A) of this paragraph" and inserting in lieu thereof "as expeditiously as practicable but in no case", and by striking "or not later than July 1, 1984," and all that follows through the end of the sentence and inserting in lieu thereof "and in no case later than March 31, 1989."

**(e) STRICTER BPT.**—Section 301(b) is amended by adding at the end the following new paragraph:

"(3)(A) for effluent limitations under paragraph (1)(A)(i) of this subsection promulgated after January 1, 1982, and requiring a level of control substantially greater or based on fundamentally different control technology than under permits for an industrial category issued before such date, com-

pliance as expeditiously as practicable but in no case later than three years after the date such limitations are promulgated under section 304(b), and in no case later than March 31, 1989; and

"(B) for any effluent limitation in accordance with paragraph (1)(A)(i), (2)(A)(i), or (2)(E) of this subsection established only on the basis of section 402(a)(1) in a permit issued after enactment of the Water Quality Act of 1987, compliance as expeditiously as practicable but in no case later than three years after the date such limitations are established, and in no case later than March 31, 1989."

**(f) DEADLINES FOR REGULATIONS FOR CERTAIN TOXIC POLLUTANTS.**—The Administrator shall promulgate final regulations establishing effluent limitations in accordance with sections 301(b)(2)(A) and 307(b)(1) of the Federal Water Pollution Control Act for all toxic pollutants referred to in table 1 of Committee Print Numbered 95-30 of the Committee on Public Works and Transportation of the House of Representatives which are discharged from the categories of point sources in accordance with the following table:

Category	Date by which the final regulation shall be promulgated
Organic chemicals and plastics and synthetic fibers.	December 31, 1986
Pesticides.....	December 31, 1986

**SEC. 302. MODIFICATION FOR NONCONVENTIONAL POLLUTANTS.**

**(a) LISTING OF POLLUTANTS.**—Section 301(g) is amended by redesignating paragraph (2) (and any references thereto) as paragraph (3) and by striking out all that precedes subparagraph (A) of paragraph (1) and inserting in lieu thereof the following:

"(g) MODIFICATIONS FOR CERTAIN NONCONVENTIONAL POLLUTANTS.—

"(1) GENERAL AUTHORITY.—The Administrator, with the concurrence of the State, may modify the requirements of subsection (b)(2)(A) of this section with respect to the discharge from any point source of ammonia, chlorine, color, iron, and total phenols (4AAP) (when determined by the Administrator to be a pollutant covered by subsection (b)(2)(F)) and any other pollutant which the Administrator lists under paragraph (4) of this subsection.

"(2) REQUIREMENTS FOR GRANTING MODIFICATIONS.—A modification under this subsection shall be granted only upon a showing by the owner or operator of a point source satisfactory to the Administrator that—

(b) PROCEDURE FOR LISTING ADDITIONAL POLLUTANTS; REMOVAL.—Section 301(g) is further amended by adding at the end thereof the following new paragraphs:

"(4) PROCEDURES FOR LISTING ADDITIONAL POLLUTANTS.—

"(A) GENERAL AUTHORITY.—Upon petition of any person, the Administrator may add any pollutant to the list of pollutants for which modification under this section is authorized (except for pollutants identified pursuant to section 304(a)(4) of this Act, toxic pollutants subject to section 307(a) of this Act, and the thermal component of discharges) in accordance with the provisions of this paragraph.

"(B) REQUIREMENTS FOR LISTING.—

"(i) SUFFICIENT INFORMATION.—The person petitioning for listing of an additional pollutant under this subsection shall submit to the Administrator sufficient information to make the determinations required by this subsection.

"(ii) TOXIC CRITERIA DETERMINATION.—The Administrator shall determine whether or not the pollutant meets the criteria for listing as a toxic pollutant under section 307(a) of this Act.

"(iii) LISTING AS TOXIC POLLUTANT.—If the Administrator determines that the pollutant meets the criteria for listing as a toxic pollutant under section 307(a), the Administrator shall list the pollutant as a toxic pollutant under section 307(a).

"(iv) NONCONVENTIONAL CRITERIA DETERMINATION.—If the Administrator determines that the pollutant does not meet the criteria for listing as a toxic pollutant under such section and determines that adequate test methods and sufficient data are available to make the determinations required by paragraph (2) of this subsection with respect to the pollutant, the Administrator shall add the pollutant to the list of pollutants specified in paragraph (1) of this subsection for which modifications are authorized under this subsection.

"(C) REQUIREMENTS FOR FILING OF PETITIONS.—A petition for listing of a pollutant under this paragraph—

"(i) must be filed not later than 270 days after the date of promulgation of an applicable effluent guideline under section 304;

"(ii) may be filed before promulgation of such guideline; and

"(iii) may be filed with an application for a modification under paragraph (1) with respect to the discharge of such pollutant.

"(D) DEADLINE FOR APPROVAL OF PETITION.—A decision to add a pollutant to the list of pollutants for which modifications under this subsection are authorized must be made within 270 days after the date of promulgation of an applicable effluent guideline under section 304.

"(E) BURDEN OF PROOF.—The burden of proof for making the determinations under subparagraph (B) shall be on the petitioner.

"(5) REMOVAL OF POLLUTANTS.—The Administrator may remove any pollutant from the list of pollutants for which modifications are authorized under this subsection if the Administrator determines that adequate test methods and sufficient data are no longer available for determining whether or not modifications may be granted with respect to such pollutant under paragraph (2) of this subsection."

(c) DEADLINE FOR APPROVAL OF MODIFICATIONS.—Section 301(j) is amended—

(1) in paragraph (2) by striking out "Any" and inserting in lieu thereof "Subject to paragraph (3) of this section, any"; and

(2) by adding at the end thereof the following new paragraphs:

"(3) COMPLIANCE REQUIREMENTS UNDER SUBSECTION (g).—

"(A) EFFECT OF FILING.—An application for a modification under subsection (g) and a petition for listing of a pollutant as a pollutant for which modifications are authorized under such subsection shall not stay the requirement that the person seeking such modification or listing comply with effluent limitations under this Act for all pollutants not the subject of such application or petition.

"(B) EFFECT OF DISAPPROVAL.—Disapproval of an application for a modification under subsection (g) shall not stay the requirement that the person seeking such modification comply with all applicable effluent limitations under this Act.

"(4) DEADLINE FOR SUBSECTION (g) DECISION.—An application for a modification with respect to a pollutant filed under subsection (g) must be approved or disapproved not

later than 365 days after the date of such filing; except that in any case in which a petition for listing such pollutant as a pollutant for which modifications are authorized under such subsection is approved, such application must be approved or disapproved not later than 365 days after the date of approval of such petition."

(d) CONFORMING AMENDMENTS.—(1) Paragraph (3) of section 301(g), as redesignated by subsection (a) of this section, is amended by inserting "Limitation on authority to apply for subsection (c) modification.—" before "If an owner" and by aligning such paragraph with paragraph (4) of such section, as added by such subsection (c).

(2) Paragraph (2) of section 301(g) (as designated by subsection (a) of this section) is amended by realigning subparagraphs (A), (B), and (C) with subparagraph (A) of paragraph (4), as added by subsection (b) of this section.

(e) APPLICATION.—

(1) GENERAL RULE.—Except as provided in paragraph (2), the amendments made by this section shall apply to all requests for modifications under section 301(g) of the Federal Water Pollution Control Act pending on the date of the enactment of this Act and shall have the effect of extending the deadline established in section 301(j)(1)(B) of such Act.

(2) EXCEPTION.—The amendments made by this section shall not affect any application for a modification with respect to the discharge of ammonia, chlorine, color, iron, or total phenols (4AAP) under section 301(g) of the Federal Water Pollution Control Act pending on the date of the enactment of this Act; except that the Administrator must approve or disapprove such application not later than 365 days after the date of such enactment.

#### SEC. 303. DISCHARGES INTO MARINE WATERS.

(a) CONSIDERATION OF OTHER SOURCES OF POLLUTANTS.—Section 301(h)(2) is amended by striking out "such modified requirements will not interfere" and inserting in lieu thereof the following: "the discharge of pollutants in accordance with such modified requirements will not interfere, alone or in combination with pollutants from other sources."

(b) LIMITATION ON SCOPE OF MONITORING.—

(1) GENERAL RULE.—Section 301(h)(3) is amended by inserting before the semicolon at the end thereof the following: ", and the scope of such monitoring is limited to include only those scientific investigations which are necessary to study the effects of the proposed discharge."

(2) LIMITATION ON APPLICABILITY.—The amendment made by subsection (b) shall only apply to modifications and renewals of modifications which are tentatively or finally approved after the date of the enactment of this Act.

(c) URBAN AREA PRETREATMENT PROGRAM.—Section 301(h) is amended by redesignating paragraphs (6) and (7), and any references thereto, as paragraphs (7) and (8), respectively, and by inserting after paragraph (5) the following new paragraph:

"(6) in the case of any treatment works serving a population of 50,000 or more, with respect to any toxic pollutant introduced into such works by an industrial discharger for which pollutant there is no applicable pretreatment requirement in effect, sources introducing waste into such works are in compliance with all applicable pretreatment requirements, the applicant will enforce such requirements, and the applicant has in effect a pretreatment program which, in

combination with the treatment of discharges from such works, removes the same amount of such pollutant as would be removed if such works were to apply secondary treatment to discharges and if such works had no pretreatment program with respect to such pollutant;"

(d) PRIMARY TREATMENT FOR EFFLUENT.—

(1) GENERAL RULE.—Section 301(h) is amended by striking out the period at the end of paragraph (8) (as redesignated by subsection (c) of this section) and inserting in lieu thereof a semicolon and by inserting after such paragraph (8) the following new paragraph:

"(9) the applicant at the time such modification becomes effective will be discharging effluent which has received at least primary or equivalent treatment and which meets the criteria established under section 304(a)(1) of this Act after initial mixing in the waters surrounding or adjacent to the point at which such effluent is discharged."

(2) PRIMARY OR EQUIVALENT TREATMENT DEFINED.—Such section is further amended by inserting after the second sentence the following new sentence: "For the purposes of paragraph (9), 'primary or equivalent treatment' means treatment by screening, sedimentation, and skimming adequate to remove at least 30 percent of the biological oxygen demanding material and of the suspended solids in the treatment works influent, and disinfection, where appropriate."

(e) LIMITATIONS ON ISSUANCE OF PERMITS.—Section 301(h) is further amended by adding at the end thereof the following new sentences: "In order for a permit to be issued under this subsection for the discharge of a pollutant into marine waters, such marine waters must exhibit characteristics assuring that water providing dilution does not contain significant amounts of previously discharged effluent from such treatment works. No permit issued under this subsection shall authorize the discharge of any pollutant into saline estuarine waters which at the time of application do not support a balanced indigenous population of shellfish, fish and wildlife, or allow recreation in and on the waters or which exhibit ambient water quality below applicable water quality standards adopted for the protection of public water supplies, shellfish, fish and wildlife or recreational activities or such other standards necessary to assure support and protection of such uses. The prohibition contained in the preceding sentence shall apply without regard to the presence or absence of a causal relationship between such characteristics and the applicant's current or proposed discharge. Notwithstanding any other provisions of this subsection, no permit may be issued under this subsection for discharge of a pollutant into the New York Bight Apex consisting of the ocean waters of the Atlantic Ocean westward of 73 degrees 30 minutes west longitude and northward of 40 degrees 10 minutes north latitude."

(f) APPLICATION FOR OCEAN DISCHARGE MODIFICATION.—Section 301(j)(1)(A) is amended by inserting before the semicolon at the end thereof the following: ", except that a publicly owned treatment works which prior to December 31, 1982, had a contractual arrangement to use a portion of the capacity of an ocean outfall operated by another publicly owned treatment works which has applied for or received modification under subsection (h), may apply for a modification of subsection (h), may apply for a modification of subsection (h) in its own right not later than 30 days after the

date of the enactment of the Water Quality Act of 1987".

(g) GRANDFATHER OF CERTAIN APPLICANTS.—The amendments made by subsections (a), (c), (d), and (e) of this section shall not apply to an application for a permit under section 301(h) of the Federal Water Pollution Control Act which has been tentatively or finally approved by the Administrator before the date of the enactment of this Act; except that such amendments shall apply to all renewals of such permits after such date of enactment.

#### SEC. 304. FILING DEADLINE FOR TREATMENT WORKS MODIFICATION.

(a) EXTENSION.—The second sentence of section 301(i)(1) is amended by striking out "of this subsection." and inserting in lieu thereof "of the Water Quality Act of 1987".

(b) APPLICABILITY.—The amendment made by subsection (a) shall not apply to those treatment works which are subject to a compliance schedule established before the date of the enactment of this Act by a court order or a final administrative order.

#### SEC. 305. INNOVATIVE TECHNOLOGY COMPLIANCE DEADLINES FOR DIRECT DISCHARGES.

(a) EXTENSION OF DEADLINE.—Section 301(k) is amended by striking out "July 1, 1987," and inserting in lieu thereof "two years after the date for compliance with such effluent limitation which would otherwise be applicable under such subsection."

(b) EXTENSION TO CONVENTIONAL POLLUTANTS.—Section 301(k) is amended by inserting "or (b)(2)(E)" after "(b)(2)(A)" each place it appears.

#### SEC. 306. FUNDAMENTALLY DIFFERENT FACTORS.

(a) GENERAL RULE.—Section 301 is amended by adding at the end the following new subsections:

"(n) FUNDAMENTALLY DIFFERENT FACTORS.—

"(1) GENERAL RULE.—The Administrator, with the concurrence of the State, may establish an alternative requirement under subsection (b)(2) or section 307(b) for a facility that modifies the requirements of national effluent limitation guidelines or categorical pretreatment standards that would otherwise be applicable to such facility, if the owner or operator of such facility demonstrates to the satisfaction of the Administrator that—

"(A) the facility is fundamentally different with respect to the factors (other than cost) specified in section 304(b) or 304(g) and considered by the Administrator in establishing such national effluent limitation guidelines or categorical pretreatment standards;

"(B) the application—

"(i) is based solely on information and supporting data submitted to the Administrator during the rulemaking for establishment of the applicable national effluent limitation guidelines or categorical pretreatment standard specifically raising the factors that are fundamentally different for such facility; or

"(ii) is based on information and supporting data referred to in clause (i) and information and supporting data the applicant did not have a reasonable opportunity to submit during such rulemaking;

"(C) the alternative requirement is no less stringent than justified by the fundamental difference; and

"(D) the alternative requirement will not result in a non-water quality environmental impact which is markedly more adverse than the impact considered by the Administrator in establishing such national effluent

limitation guideline or categorical pretreatment standard.

"(2) TIME LIMIT FOR APPLICATIONS.—An application for an alternative requirement which modifies the requirements of an effluent limitation or pretreatment standard under this subsection must be submitted to the Administrator within 180 days after the date on which such limitation or standard is established or revised, as the case may be.

"(3) TIME LIMIT FOR DECISION.—The Administrator shall approve or deny by final agency action an application submitted under this subsection within 180 days after the date such application is filed with the Administrator.

"(4) SUBMISSION OF INFORMATION.—The Administrator may allow an applicant under this subsection to submit information and supporting data until the earlier of the date the application is approved or denied or the last day that the Administrator has to approve or deny such application.

"(5) TREATMENT OF PENDING APPLICATIONS.—For the purposes of this subsection, an application for an alternative requirement based on fundamentally different factors which is pending on the date of the enactment of this subsection shall be treated as having been submitted to the Administrator on the 180th day following such date of enactment. The applicant may amend the application to take into account the provisions of this subsection.

"(6) EFFECT OF SUBMISSION OF APPLICATION.—An application for an alternative requirement under this subsection shall not stay the applicant's obligation to comply with the effluent limitation guideline or categorical pretreatment standard which is the subject of the application.

"(7) EFFECT OF DENIAL.—If an application for an alternative requirement which modifies the requirements of an effluent limitation or pretreatment standard under this subsection is denied by the Administrator, the applicant must comply with such limitation or standard as established or revised, as the case may be.

"(8) REPORTS.—Every 6 months after the date of the enactment of this subsection, the Administrator shall submit to the Committee on Environment and Public Works of the Senate and the Committee on Public Works and Transportation of the House of Representatives a report on the status of applications for alternative requirements which modify the requirements of effluent limitations under section 301 or 304 of this Act or any national categorical pretreatment standard under section 307(b) of this Act filed before, on, or after such date of enactment.

"(9) APPLICATION FEES.—The Administrator shall prescribe and collect from each applicant fees reflecting the reasonable administrative costs incurred in reviewing and processing applications for modifications submitted to the Administrator pursuant to subsections (c), (g), (i), (k), (m), and (n) of section 301, section 304(d)(4), and section 316(a) of this Act. All amounts collected by the Administrator under this subsection shall be deposited into a special fund of the Treasury entitled 'Water Permits and Related Services' which shall thereafter be available for appropriation to carry out activities of the Environmental Protection Agency for which such fees were collected."

(b) CONFORMING AMENDMENT.—Section 301(i) is amended by striking out "The" and inserting in lieu thereof "Other than as provided in subsection (n) of this section, the".

(c) PHOSPHATE FERTILIZER EFFLUENT LIMITATION.—

(1) LIMITATION ON APPLICABILITY.—The effluent limitation established by the Administrator pursuant to section 301(b) of the Federal Water Pollution Control Act for the phosphate subcategory of the fertilizer manufacturing point source category shall not apply to facilities which had commenced construction on or before April 8, 1974, and for which the Administrator is proposing to revise the applicability of such limitations to exclude such facilities.

(2) ISSUANCE OF PERMIT.—As soon as possible after the date of the enactment of this Act, but not later than 180 days after such date of enactment, the Administrator shall issue permits under section 402(a)(1)(B) of the Federal Water Pollution Control Act with respect to the facilities described in paragraph (1). Such permits shall remain in effect until, after such date of enactment, issuance of a permit under effluent guidelines applicable to discharges for the phosphate subcategory.

#### SEC. 307. COAL REMINING OPERATIONS.

Section 301 is amended by adding at the end thereof the following:

"(p) MODIFIED PERMIT FOR COAL REMINING OPERATIONS.—

"(1) IN GENERAL.—Subject to paragraphs (2) through (4) of this subsection, the Administrator, or the State in any case which the State has an approved permit program under section 402(b), may issue a permit under section 402 which modifies the requirements of subsection (b)(2)(A) of this section with respect to the pH level of any pre-existing discharge, and with respect to pre-existing discharges of iron and manganese from the remined area of any coal remining operation or with respect to the pH level of iron or manganese in any pre-existing discharge affected by the remining operation. Such modified requirements shall apply the best available technology economically achievable on a case-by-case basis, using best professional judgment, to set specific numerical effluent limitations in each permit.

"(2) LIMITATIONS.—The Administrator or the State may only issue a permit pursuant to paragraph (1) if the applicant demonstrates to the satisfaction of the Administrator or the State, as the case may be, that the coal remining operation will result in the potential for improved water quality from the remaining operation but in no event shall such a permit allow the pH level of any discharge, and in no event shall such a permit allow the discharges of iron and manganese, to exceed the levels being discharged from the remined area before the coal remining operation begins. No discharge from, or affected by, the remining operation shall exceed State water quality standards established under section 303 of this Act.

"(3) DEFINITIONS.—For purposes of this subsection—

"(A) COAL REMINING OPERATION.—The term 'coal remining operation' means a coal mining operation which begins after the date of the enactment of this subsection at a site on which coal mining was conducted before the effective date of the Surface Mining Control and Reclamation Act of 1977.

"(B) REMINED AREA.—The term 'remined area' means only that area of any coal remining operation on which coal mining was conducted before the effective date of the Surface Mining Control and Reclamation Act of 1977.

"(C) PRE-EXISTING DISCHARGE.—The term 'pre-existing discharge' means any discharge at the time of permit application under this subsection.

"(4) APPLICABILITY OF STRIP MINING LAWS.—Nothing in this subsection shall affect the application of the Surface Mining Control and Reclamation Act of 1977 to any coal remining operation, including the application of such Act to suspended solids."

#### SEC. 308 INDIVIDUAL CONTROL STRATEGIES FOR TOXIC POLLUTANTS.

(a) IN GENERAL.—Section 304 is amended by adding at the end thereof the following new subsection:

"(1) INDIVIDUAL CONTROL STRATEGIES FOR TOXIC POLLUTANTS.—

"(1) STATE LIST OF NAVIGABLE WATERS AND DEVELOPMENT OF STRATEGIES.—Not later than 2 years after the date of the enactment of this subsection, each State shall submit to the Administrator for review, approval, and implementation under this subsection—

"(A) a list of those waters within the State which after the application of effluent limitations required under section 301(b)(2) of this Act cannot reasonably be anticipated to attain or maintain (i) water quality standards for such waters reviewed, revised, or adopted in accordance with section 303(c)(2)(B) of this Act, due to toxic pollutants, or (ii) that water quality which shall assure protection of public health, public water supplies, agricultural and industrial uses, and the protection and propagation of a balanced population of shellfish, fish and wildlife, and allow recreational activities in and on the water;

"(B) a list of all navigable waters in such State for which the State does not expect the applicable standard under section 303 of this Act will be achieved after the requirements of sections 301(b), 306, and 307(b) are met, due entirely or substantially to discharges from point sources of any toxic pollutants listed pursuant to section 307(a);

"(C) for each segment of the navigable waters included on such lists, a determination of the specific point sources discharging any such toxic pollutant which is believed to be preventing or impairing such water quality and the amount of each such toxic pollutant discharged by each such source; and

"(D) for each such segment, an individual control strategy which the State determines will produce a reduction in the discharge of toxic pollutants from point sources identified by the State under this paragraph through the establishment of effluent limitations under section 402 of this Act and water quality standards under section 303(c)(2)(B) of this Act, which reduction is sufficient, in combination with existing controls on point and nonpoint sources of pollution, to achieve the applicable water quality standard as soon as possible, but not later than 3 years after the date of the establishment of such strategy.

"(2) APPROVAL OR DISAPPROVAL.—Not later than 120 days after the last day of the 2-year period referred to in paragraph (1), the Administrator shall approve or disapprove the control strategies submitted under paragraph (1) by any State.

"(3) ADMINISTRATOR'S ACTION.—If a State fails to submit control strategies in accordance with paragraph (1) or the Administrator does not approve the control strategies submitted by such State in accordance with paragraph (1), then, not later than 1 year after the last day of the period referred to in paragraph (2), the Administrator, in cooperation with such State and after notice

and opportunity for public comment, shall implement the requirements of paragraph (1) in such State. In the implementation of such requirements, the Administrator shall, at a minimum, consider for listing under this subsection any navigable waters for which any person submits a petition to the Administrator for listing not later than 120 days after such last day."

(b) JUDICIAL REVIEW.—Section 509(b)(1) is amended—

(1) by striking out "and (F)" and inserting in lieu thereof "(F)"; and

(2) by inserting after "any permit under section 402," the following: "and (G) in promulgating any individual control strategy under section 304(1)."

(c) GUIDANCE TO STATES; INFORMATION ON WATER QUALITY CRITERIA FOR TOXICS.—Section 304(a) is amended by adding at the end the following new paragraphs:

"(7) GUIDANCE TO STATES.—The Administrator, after consultation with appropriate State agencies and on the basis of criteria and information published under paragraphs (1) and (2) of this subsection, shall develop and publish, within 9 months after the date of the enactment of the Water Quality Act of 1987, guidance to the States on performing the identification required by section 304(1)(1) of this Act.

"(8) INFORMATION ON WATER QUALITY CRITERIA.—The Administrator, after consultation with appropriate State agencies and within 2 years after the date of the enactment of the Water Quality Act of 1987, shall develop and publish information on methods for establishing and measuring water quality criteria for toxic pollutants on other bases than pollutant-by-pollutant criteria, including biological monitoring and assessment methods."

(d) WATER QUALITY CRITERIA FOR TOXIC POLLUTANTS.—Section 303(c)(2) is amended by inserting "(A)" after "(2)" and by adding the following new subparagraph:

"(B) Whenever a State reviews water quality standards pursuant to paragraph (1) of this subsection, or revises or adopts new standards pursuant to this paragraph, such State shall adopt criteria for all toxic pollutants listed pursuant to section 307(a)(1) of this Act for which criteria have been published under section 304(a), the discharge or presence of which in the affected waters could reasonably be expected to interfere with those designated uses adopted by the State, as necessary to support such designated uses. Such criteria shall be specific numerical criteria for such toxic pollutants. Where such numerical criteria are not available, whenever a State reviews water quality standards pursuant to paragraph (1), or revises or adopts new standards pursuant to this paragraph, such State shall adopt criteria based on biological monitoring or assessment methods consistent with information published pursuant to section 304(a)(8). Nothing in this section shall be construed to limit or delay the use of effluent limitations or other permit conditions based on or involving biological monitoring or assessment methods or previously adopted numerical criteria."

(e) MODIFICATIONS OF EFFLUENT LIMITATIONS.—

(1) IN GENERAL.—Section 302(b) is amended to read as follows:

"(b) MODIFICATIONS OF EFFLUENT LIMITATIONS.—

"(1) NOTICE AND HEARING.—Prior to establishment of any effluent limitation pursuant to subsection (a) of this section, the Administrator shall publish such proposed lim-

itation and within 90 days of such publication hold a public hearing.

"(2) PERMITS.—

"(A) NO REASONABLE RELATIONSHIP.—The Administrator, with the concurrence of the State, may issue a permit which modifies the effluent limitations required by subsection (a) of this section for pollutants other than toxic pollutants if the applicant demonstrates at such hearing that (whether or not technology or other alternative control strategies are available) there is no reasonable relationship between the economic and social costs and the benefits to be obtained (including attainment of the objective of this Act) from achieving such limitation.

"(B) REASONABLE PROGRESS.—The Administrator, with the concurrence of the State, may issue a permit which modifies the effluent limitations required by subsection (a) of this section for toxic pollutants for a single period not to exceed 5 years if the applicant demonstrates to the satisfaction of the Administrator that such modified requirements (i) will represent the maximum degree of control within the economic capability of the owner and operator of the source, and (ii) will result in reasonable further progress beyond the requirements of section 301(b)(2) toward the requirements of subsection (a) of this section."

(2) CONFORMING AMENDMENTS.—Section 302(a) is amended—

(A) by inserting "or as identified under section 304(1)" after "in the judgment of the Administrator"; and

(B) by inserting "public health," after "protection of".

(f) SCHEDULE FOR REVIEW OF GUIDELINES.—Section 304 is amended by adding at the end the following new subsection:

"(m) SCHEDULE FOR REVIEW OF GUIDELINES.—

"(1) PUBLICATION.—Within 12 months after the date of the enactment of the Water Quality Act of 1987, and biennially thereafter, the Administrator shall publish in the Federal Register a plan which shall—

"(A) establish a schedule for the annual review and revision of promulgated effluent guidelines, in accordance with subsection (b) of this section;

"(B) identify categories of sources discharging toxic or nonconventional pollutants for which guidelines under subsection (b)(2) of this section and section 306 have not previously been published; and

"(C) establish a schedule for promulgation of effluent guidelines for categories identified in subparagraph (B), under which promulgation of such guidelines shall be no later than 4 years after such date of enactment for categories identified in the first published plan or 3 years after the publication of the plan for categories identified in later published plans.

"(2) PUBLIC REVIEW.—The Administrator shall provide for public review and comment on the plan prior to final publication."

(g) WATER QUALITY IMPROVEMENT STUDY.—

(1) STUDY.—The Administrator shall study the water quality improvements which have been achieved by application of best available technology economically achievable pursuant to section 301(b)(2) of the Federal Water Pollution Control Act. Such study shall include, but not be limited to, an analysis of the effectiveness of the application of best available technology economically achievable pursuant to such section in attaining applicable water quality standards (including the standard specified in section 302(a) of such Act) and an analysis of the effectiveness of the water quality program

under such Act and methods of improving such program, including site specific levels of treatment which will achieve the water quality goals of such Act.

(2) **REPORT.**—Not later than 2 years after the date of the enactment of this Act, the Administrator shall submit a report on the results of the study conducted under subsection (a) together with recommendations for improving the water quality program and its effectiveness to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate.

#### SEC. 309. PRETREATMENT STANDARDS.

(a) **EXTENSION OF COMPLIANCE DATE BY POTW.**—Section 307 is amended by adding at the end the following:

“(e) **COMPLIANCE DATE EXTENSION FOR INNOVATIVE PRETREATMENT SYSTEMS.**—In the case of any existing facility that proposes to comply with the pretreatment standards of subsection (b) of this section by applying an innovative system that meets the requirements of section 301(k) of this Act, the owner or operator of the publicly owned treatment works receiving the treated effluent from such facility may extend the date for compliance with the applicable pretreatment standard established under this section for a period not to exceed 2 years—

“(1) if the Administrator determines that the innovative system has the potential for industrywide application, and

“(2) if the Administrator (or the State in consultation with the Administrator, in any case in which the State has a pretreatment program approved by the Administrator)—

“(A) determines that the proposed extension will not cause the publicly owned treatment works to be in violation of its permit under section 402 or of section 405 or to contribute to such a violation, and

“(B) concurs with the proposed extension.”

(b) **INCREASE IN EPA EMPLOYEES.**—The Administrator shall take such actions as may be necessary to increase the number of employees of the Environmental Protection Agency in order to effectively implement pretreatment requirements under section 307 of the Federal Water Pollution Control Act.

#### SEC. 310. INSPECTION AND ENTRY.

(a) **UNAUTHORIZED DISCLOSURE.**—

(1) **IN GENERAL.**—Section 308(b) is amended by striking out all that follows “Code” and inserting in lieu thereof a period and the following: “Any authorized representative of the Administrator (including an authorized contractor acting as a representative of the Administrator) who knowingly or willfully publishes, divulges, discloses, or makes known in any manner or to any extent not authorized by law any information which is required to be considered confidential under this subsection shall be fined not more than \$1,000 or imprisoned not more than 1 year, or both. Nothing in this subsection shall prohibit the Administrator or an authorized representative of the Administrator (including any authorized contractor acting as a representative of the Administrator) from disclosing records, reports, or information to other officers, employees, or authorized representatives of the United States concerned with carrying out this Act or when relevant in any proceeding under this Act.”

(2) **CONFORMING AMENDMENT.**—Section 308(a)(B) is amended by inserting “(including an authorized contractor acting as a representative of the Administrator)” after “or his authorized representative”.

(b) **ACCESS BY CONGRESS.**—Section 308 is amended by adding at the end the following new subsection:

“(d) **ACCESS BY CONGRESS.**—Notwithstanding any limitation contained in this section or any other provision of law, all information reported to or otherwise obtained by the Administrator (or any representative of the Administrator) under this Act shall be made available, upon written request of any duly authorized committee of Congress, to such committee.”

#### SEC. 311. MARINE SANITATION DEVICES.

(a) **STATE REGULATION OF HOUSEBOATS.**—Section 312(f)(1) is amended by striking out “After” and inserting in lieu thereof “(A) Except as provided in subparagraph (B), after” and by adding at the end thereof the following:

“(B) A State may adopt and enforce a statute or regulation with respect to the design, manufacture, or installation or use of any marine sanitation device on a houseboat, if such statute or regulation is more stringent than the standards and regulations promulgated under this section. For purposes of this paragraph, the term ‘houseboat’ means a vessel which, for a period of time determined by the State in which the vessel is located, is used primarily as a residence and is not used primarily as a means of transportation.”

(b) **STATE ENFORCEMENT.**—Section 312(k) is amended by adding at the end the following: “The provisions of this section may also be enforced by a State.”

#### SEC. 312. CRIMINAL PENALTIES.

Section 309(c) is amended to read as follows:

“(c) **CRIMINAL PENALTIES.**—

“(1) **NEGLIGENT VIOLATIONS.**—Any person who—

“(A) negligently violates section 301, 302, 306, 307, 308, 318, or 405 of this Act, or any permit condition or limitation implementing any of such sections in a permit issued under section 402 of this Act by the Administrator or by a State, or any requirement imposed in a pretreatment program approved under section 402(a)(3) or 402(b)(8) of this Act or in a permit issued under section 404 of this Act by the Secretary of the Army or by a State; or

“(B) negligently introduces into a sewer system or into a publicly owned treatment works any pollutant or hazardous substance which such person knew or reasonably should have known could cause personal injury or property damage or, other than in compliance with all applicable Federal, State, or local requirements or permits, which causes such treatment works to violate any effluent limitation or condition in any permit issued to the treatment works under section 402 of this Act by the Administrator of a State;

shall be punished by a fine of not less than \$2,500 nor more than \$25,000 per day of violation, or by imprisonment for not more than 1 year, or by both. If a conviction of a person is for a violation committed after a first conviction of such person under this paragraph, punishment shall be by a fine of not more than \$50,000 per day of violation, or by imprisonment of not more than 2 years, or by both.

“(2) **KNOWING VIOLATIONS.**—Any person who—

“(A) knowingly violates section 301, 302, 306, 307, 308, 318, or 405 of this Act, or any permit condition or limitation implementing any of such sections in a permit issued under section 402 of this Act by the Administrator or by a State, or any requirement

imposed in a pretreatment program approved under section 402(a)(3) or 402(b)(8) of this Act or in a permit issued under section 404 of this Act by the Secretary of the Army or by a State; or

“(B) knowingly introduces into a sewer system or into a publicly owned treatment works any pollutant or hazardous substance which such person knew or reasonably should have known could cause personal injury or property damage or, other than in compliance with all applicable Federal, State, or local requirements or permits, which causes such treatment works to violate any effluent limitation or condition in a permit issued to the treatment works under section 402 of this Act by the Administrator or a State;

shall be punished by a fine of not less than \$5,000 nor more than \$50,000 per day of violation, or by imprisonment for not more than 3 years, or by both. If a conviction of a person is for a violation committed after a first conviction of such person under this paragraph, punishment shall be by a fine of not more than \$100,000 per day of violation, or by imprisonment of not more than 6 years, or by both.

“(3) **KNOWING ENDANGERMENT.**—

“(A) **GENERAL RULE.**—Any person who knowingly violates section 301, 302, 303, 306, 307, 308, 318, or 405 of this Act, or any permit condition or limitation implementing any of such sections in a permit issued under 402 of this Act by the Administrator or by a State, or in a permit issued under section 404 of this Act by the Secretary of the Army or by a State, and who knows at that time that he thereby places another person in imminent danger of death or serious bodily injury, shall, upon conviction, be subject to a fine of not more than \$250,000 or imprisonment of not more than 15 years, or both. A person which is an organization shall, upon conviction of violating this subparagraph, be subject to a fine of not more than \$1,000,000. If a conviction of a person is for a violation committed after a first conviction of such person under this paragraph, the maximum punishment shall be doubled with respect to both fine and imprisonment.

“(B) **ADDITIONAL PROVISIONS.**—For the purpose of subparagraph (A) of this paragraph—

“(i) in determining whether a defendant who is an individual knew that his conduct placed another person in imminent danger of death or serious bodily injury—

“(I) the person is responsible only for actual awareness or actual belief that he possessed; and

“(II) knowledge possessed by a person other than the defendant but not by the defendant himself may not be attributed to the defendant;

except that in proving the defendant's possession of actual knowledge, circumstantial evidence may be used, including evidence that the defendant took affirmative steps to shield himself from relevant information;

“(ii) it is an affirmative defense to prosecution that the conduct charged was consented to by the person endangered and that the danger and conduct charged were reasonably foreseeable hazards of—

“(I) an occupation, a business, or a profession; or

“(II) medical treatment or medical or scientific experimentation conducted by professionally approved methods and such other person had been made aware of the risks involved prior to giving consent;

and such defense may be established under this subparagraph by a preponderance of the evidence;

"(iii) the term 'organization' means a legal entity, other than a government, established or organized for any purpose, and such term includes a corporation, company, association, firm, partnership, joint stock company, foundation, institution, trust, society, union, or any other association of persons; and

"(iv) the term 'serious bodily injury' means bodily injury which involves a substantial risk of death, unconsciousness, extreme physical pain, protracted and obvious disfigurement, or protracted loss or impairment of the function of a bodily member, organ, or mental faculty.

"(4) FALSE STATEMENTS.—Any person who knowingly makes any false material statement, representation, or certification in any application, record, report, plan, or other document filed or required to be maintained under this Act or who knowingly falsifies, tampers with, or renders inaccurate any monitoring device or method required to be maintained under this Act, shall upon conviction, be punished by a fine of not more than \$10,000, or by imprisonment for not more than 2 years, or by both. If a conviction of a person is for a violation committed after a first conviction of such person under this paragraph, punishment shall be by a fine of not more than \$20,000 per day of violation, or by imprisonment of not more than 4 years, or by both.

"(5) TREATMENT OF SINGLE OPERATIONAL UPSET.—For purposes of this subsection, a single operational upset which leads to simultaneous violations of more than one pollutant parameter shall be treated as a single violation.

"(6) RESPONSIBLE CORPORATE OFFICER AS 'PERSON'.—For the purpose of this subsection, the term 'person' means, in addition to the definition contained in section 502(5) of this Act, any responsible corporate officer.

"(7) HAZARDOUS SUBSTANCE DEFINED.—For the purpose of this subsection, the term 'hazardous substance' means (A) any substance designated pursuant to section 311(b)(2)(A) of this Act, (B) any element, compound, mixture, solution, or substance designated pursuant to section 102 of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980, (C) any hazardous waste having the characteristics identified under or listed pursuant to section 3001 of the Solid Waste Disposal Act (but not including any waste the regulation of which under the Solid Waste Disposal Act has been suspended by Act of Congress), (D) any toxic pollutant listed under section 307(a) of this Act, and (E) any imminently hazardous chemical substance or mixture with respect to which the Administrator has taken action pursuant to section 7 of the Toxic Substances Control Act."

#### SEC. 313. CIVIL PENALTIES.

##### (a) VIOLATIONS OF PRETREATMENT REQUIREMENTS.—

(1) GENERAL RULE.—Section 309(d) is amended by inserting "or any requirement imposed in a pretreatment program approved under section 402(a)(3) or 402(b)(8) of this Act," after "section 404 of this Act by a State,".

(2) SAVINGS PROVISION.—No State shall be required before July 1, 1988, to modify a permit program approved or submitted under section 402 of the Federal Water Pollution Control Act as a result of the amendment made by paragraph (1).

##### (b) INCREASED PENALTY.—

(1) GENERAL RULE.—Section 309(d) is amended by striking out "\$10,000 per day of such violation" and inserting in lieu thereof "\$25,000 per day for each violation".

(2) INCREASED PENALTIES NOT REQUIRED UNDER STATE PROGRAMS.—The Federal Water Pollution Control Act shall not be construed as requiring a State to have a civil penalty for violations described in section 309(d) of such Act which has the same monetary amount as the civil penalty established by such section, as amended by paragraph (1). Nothing in this paragraph shall affect the Administrator's authority to establish or adjust by regulation a minimum acceptable State civil penalty.

(c) FACTORS TO CONSIDER IN DETERMINING PENALTY AMOUNT.—Section 309(d) is amended by adding at the end thereof the following: "In determining the amount of a civil penalty the court shall consider the seriousness of the violation or violations, the economic benefit (if any) resulting from the violation, any history of such violations, and good-faith efforts to comply with the applicable requirements, the economic impact of the penalty on the violator, and such other matters as justice may require. For purposes of this subsection, a single operational upset which leads to simultaneous violations of more than one pollutant parameter shall be treated as a single violation."

(d) VIOLATIONS OF SECTION 404 PERMITS.—Section 404(s) is amended—

(1) by striking out paragraph (4);

(2) by redesignating paragraph (5) as paragraph (4); and

(3) in paragraph (4), as so redesignated—

(A) by striking out "\$10,000 per day of such violation" and inserting in lieu thereof "\$25,000 per day for each violation";

(B) by adding at the end thereof the following: "In determining the amount of a civil penalty the court shall consider the seriousness of the violation or violations, the economic benefit (if any) resulting from the violation, any history of such violations, any good-faith efforts to comply with the applicable requirements, the economic impact of the penalty on the violator, and such other matters as justice may require."

#### SEC. 314. ADMINISTRATIVE PENALTIES.

(a) GENERAL RULE.—Section 309 is amended by adding at the end thereof the following:

"(g) ADMINISTRATIVE PENALTIES.—

"(i) VIOLATIONS.—Whenever on the basis of any information available—

"(A) the Administrator finds that any person has violated section 301, 302, 306, 307, 308, 318, or 405 of this Act, or has violated any permit condition or limitation implementing any of such sections in a permit issued under section 402 of this Act by the Administrator or by a State, or in a permit issued under section 404 by a State, or

"(B) the Secretary of the Army (hereinafter in this subsection referred to as the 'Secretary') finds that any person has violated any permit condition or limitation in a permit issued under section 404 of this Act by the Secretary.

the Administrator or Secretary, as the case may be, may, after consultation with the State in which the violation occurs, assess a class I civil penalty or a class II civil penalty under this subsection.

"(2) CLASSES OF PENALTIES.—

"(A) CLASS I.—The amount of a class I civil penalty under paragraph (1) may not exceed \$10,000 per violation, except that the maximum amount of any class I civil penalty under this subparagraph shall not exceed \$25,000. Before issuing an order assessing a

civil penalty under this subparagraph, the Administrator or the Secretary, as the case may be, shall give to the person to be assessed such penalty written notice of the Administrator's or Secretary's proposal to issue such order and the opportunity to request, within 30 days of the date the notice is received by such person, a hearing on the proposed order. Such hearing shall not be subject to section 554 or 556 of title 5, United States Code, but shall provide a reasonable opportunity to be heard and to present evidence.

"(B) CLASS II.—The amount of a class II civil penalty under paragraph (1) may not exceed \$10,000 per day for each day during which the violation continues; except that the maximum amount of any class II civil penalty under this subparagraph shall not exceed \$125,000. Except as otherwise provided in this subsection, a class II civil penalty shall be assessed and collected in the same manner, and subject to the same provisions, as in the case of civil penalties assessed and collected after notice and opportunity for a hearing on the record in accordance with section 554 of title 5, United States Code. The Administrator and the Secretary may issue rules for discovery procedures for hearings under this subparagraph.

"(3) DETERMINING AMOUNT.—In determining the amount of any penalty assessed under this subsection, the Administrator or the Secretary, as the case may be, shall take into account the nature, circumstances, extent and gravity of the violation, or violations, and, with respect to the violator, ability to pay, any prior history of such violations, the degree of culpability, economic benefit or savings (if any) resulting from the violation, and such other matters as justice may require. For purposes of this subsection, a single operational upset which leads to simultaneous violations of more than one pollutant parameter shall be treated as a single violation.

##### "(4) RIGHTS OF INTERESTED PERSONS.—

"(A) PUBLIC NOTICE.—Before issuing an order assessing a civil penalty under this subsection the Administrator or Secretary, as the case may be, shall provide public notice of and reasonable opportunity to comment on the proposed issuance of such order.

"(B) PRESENTATION OF EVIDENCE.—Any person who comments on a proposed assessment of a penalty under this subsection shall be given notice of any hearing held under this subsection and of the order assessing such penalty. In any hearing held under this subsection, such person shall have a reasonable opportunity to be heard and to present evidence.

"(C) RIGHTS OF INTERESTED PERSONS TO A HEARING.—If no hearing is held under paragraph (2) before issuance of an order assessing a penalty under this subsection, any person who commented on the proposed assessment may petition, within 30 days after the issuance of such order, the Administrator or Secretary, as the case may be, to set aside such order and to provide a hearing on the penalty. If the evidence presented by the petitioner in support of the petition is material and was not considered in the issuance of the order, the Administrator or Secretary shall immediately set aside such order and provide a hearing in accordance with paragraph (2)(A) in the case of a class I civil penalty and paragraph (2)(B) in the case of a class II civil penalty. If the Administrator or Secretary denies a hearing under this subparagraph, the Administrator or Secretary shall provide to the petitioner,

and publish in the Federal Register, notice of and the reasons for such denial.

"(5) FINALITY OF ORDER.—An order issued under this subsection shall become final 30 days after its issuance unless a petition for judicial review is filed under paragraph (8) or a hearing is requested under paragraph (4)(C). If such a hearing is denied, such order shall become final 30 days after such denial.

"(6) EFFECT OF ORDER.—

"(A) LIMITATION ON ACTIONS UNDER OTHER SECTIONS.—Action taken by the Administrator or the Secretary, as the case may be, under this subsection shall not affect or limit the Administrator's or Secretary's authority to enforce any provision of this Act, except that any violation—

"(i) with respect to which the Administrator or the Secretary has commenced and is diligently prosecuting an action under this subsection,

"(ii) with respect to which a State has commenced and is diligently prosecuting an action under a State law comparable to this subsection, or

"(iii) for which the Administrator, the Secretary, or the State has issued a final order not subject to further judicial review and the violator has paid a penalty assessed under this subsection, or such comparable State law, as the case may be,

shall not be the subject of a civil penalty action under subsection (d) of this section or section 311(b) or section 505 of this Act.

"(B) APPLICABILITY OF LIMITATION WITH RESPECT TO CITIZEN SUITS.—The limitations contained in subparagraph (A) on civil penalty actions under section 505 of this Act shall not apply with respect to any violation for which—

"(i) a civil action under section 505(a)(1) of this Act has been filed prior to commencement of an action under this subsection, or

"(ii) notice of an alleged violation of section 505(a)(1) of this Act has been given in accordance with section 505(b)(1)(A) prior to commencement of an action under this subsection and an action under section 505(a)(1) with respect to such alleged violation is filed before the 120th day after the date on which such notice is given.

"(7) EFFECT OF ACTION ON COMPLIANCE.—No action by the Administrator or the Secretary under this subsection shall affect any person's obligation to comply with any section of this Act or with the terms and conditions of any permit issued pursuant to section 402 or 404 of this Act.

"(8) JUDICIAL REVIEW.—Any person against whom a civil penalty is assessed under this subsection or who commented on the proposed assessment of such penalty in accordance with paragraph (4) may obtain review of such assessment—

"(A) in the case of assessment of a class I civil penalty, in the United States District Court for the District of Columbia or in the district in which the violation is alleged to have occurred, or

"(B) in the case of assessment of a class II civil penalty, in the United States Court of Appeals for the District of Columbia Circuit or for any other circuit in which such person resides or transacts business,

by filing a notice of appeal in such court within the 30-day period beginning on the date the civil penalty order is issued and by simultaneously sending a copy of such notice by certified mail to the Administrator or the Secretary, as the case may be, and the Attorney General. The Administrator or the Secretary shall promptly file in such

court a certified copy of the record on which the order was issued. Such court shall not set aside or remand such order unless there is not substantial evidence in the record, taken as a whole, to support the finding of a violation or unless the Administrator's or Secretary's assessment of the penalty constitutes an abuse of discretion and shall not impose additional civil penalties for the same violation unless the Administrator's or Secretary's assessment of the penalty constitutes an abuse of discretion.

"(9) COLLECTION.—If any person fails to pay an assessment of a civil penalty—

"(A) after the order making the assessment has become final, or

"(B) after a court in an action brought under paragraph (8) has entered a final judgment in favor of the Administrator or the Secretary, as the case may be,

the Administrator or the Secretary shall request the Attorney General to bring a civil action in an appropriate district court to recover the amount assessed (plus interest at currently prevailing rates from the date of the final order or the date of the final judgment, as the case may be). In such an action, the validity, amount, and appropriateness of such penalty shall not be subject to review. Any person who fails to pay on a timely basis the amount of an assessment of a civil penalty as described in the first sentence of this paragraph shall be required to pay, in addition to such amount and interest, attorneys fees and costs for collection proceedings and a quarterly nonpayment penalty for each quarter during which such failure to pay persists. Such nonpayment penalty shall be in an amount equal to 20 percent of the aggregate amount of such person's penalties and nonpayment penalties which are unpaid as of the beginning of such quarter.

"(10) SUBPOENAS.—The Administrator or Secretary, as the case may be, may issue subpoenas for the attendance and testimony of witnesses and the production of relevant papers, books, or documents in connection with hearings under this subsection. In case of contumacy or refusal to obey a subpoena issued pursuant to this paragraph and served upon any person, the district court of the United States for any district in which such person is found, resides, or transacts business, upon application by the United States and after notice to such person, shall have jurisdiction to issue an order requiring such person to appear and give testimony before the administrative law judge or to appear and produce documents before the administrative law judge, or both, and any failure to obey such order of the court may be punished by such court as a contempt thereof.

"(11) PROTECTION OF EXISTING PROCEDURES.—Nothing in this subsection shall change the procedures existing on the day before the date of the enactment of the Water Quality Act of 1987 under other subsections of this section for issuance and enforcement of orders by the Administrator."

"(b) REPORTS ON ENFORCEMENT MECHANISMS.—The Secretary of the Army and the Administrator shall each prepare and submit a report to the Congress, not later than December 1, 1988, which shall examine and analyze various enforcement mechanisms for use by the Secretary or Administrator, as the case may be, including an administrative civil penalty mechanism. Each of such reports shall also include an examination, prepared in consultation with the Comptroller General, of the efficacy of the

Secretary's or the Administrator's existing enforcement authorities and shall include recommendations for improvements in their operation.

(c) CONFORMING AMENDMENT.—Section 505(a) is amended by inserting "and section 309(g)(6)" after "Except as provided in subsection (b) of this section".

#### SEC. 315. CLEAN LAKES.

(a) ESTABLISHMENT AND SCOPE OF PROGRAM.—Section 314(a) is amended to read as follows:

"(a) ESTABLISHMENT AND SCOPE OF PROGRAM.—

"(1) STATE PROGRAM REQUIREMENTS.—Each State on a biennial basis shall prepare and submit to the Administrator for his approval—

"(A) an identification and classification according to eutrophic condition of all publicly owned lakes in such State;

"(B) a description of procedures, processes, and methods (including land use requirements), to control sources of pollution of such lakes;

"(C) a description of methods and procedures, in conjunction with appropriate Federal agencies, to restore the quality of such lakes;

"(D) methods and procedures to mitigate the harmful effects of high acidity, including innovative methods of neutralizing and restoring buffering capacity of lakes and methods of removing from lakes toxic metals and other toxic substances mobilized by high acidity;

"(E) a list and description of those publicly owned lakes in such State for which uses are known to be impaired, including those lakes which are known not to meet applicable water quality standards or which require implementation of control programs to maintain compliance with applicable standards and those lakes in which water quality has deteriorated as a result of high acidity that may reasonably be due to acid deposition; and

"(F) an assessment of the status and trends of water quality in lakes in such State, including but not limited to, the nature and extent of pollution loading from point and nonpoint sources and the extent to which the use of lakes is impaired as a result of such pollution, particularly with respect to toxic pollution.

"(2) SUBMISSION AS PART OF 305(b)(1) REPORT.—The information required under paragraph (1) shall be included in the report required under section 305(b)(1) of this Act, beginning with the report required under such section by April 1, 1988.

"(3) REPORT OF ADMINISTRATOR.—Not later than 180 days after receipt from the States of the biennial information required under paragraph (1), the Administrator shall submit to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate a report on the status of water quality in lakes in the United States, including the effectiveness of the methods and procedures described in paragraph (1)(D).

"(4) ELIGIBILITY REQUIREMENT.—Beginning after April 1, 1988, a State must have submitted the information required under paragraph (1) in order to receive grant assistance under this section."

"(b) DEMONSTRATION PROGRAM.—Section 314 is amended by adding at the end thereof the following new subsections:

"(d) DEMONSTRATION PROGRAM.—

"(1) GENERAL REQUIREMENTS.—The Administrator is authorized and directed to establish and conduct at locations throughout the Nation a lake water quality demonstration program. The program shall, at a minimum—

"(A) develop cost effective technologies for the control of pollutants to preserve or enhance lake water quality while optimizing multiple lakes uses;

"(B) control nonpoint sources of pollution which are contributing to the degradation of water quality in lakes;

"(C) evaluate the feasibility of implementing regional consolidated pollution control strategies;

"(D) demonstrate environmentally preferred techniques for the removal and disposal of contaminated lake sediments;

"(E) develop improved methods for the removal of silt, stumps, aquatic growth, and other obstructions which impair the quality of lakes;

"(F) construct and evaluate silt traps and other devices or equipment to prevent or abate the deposit of sediment in lakes; and

"(G) demonstrate the costs and benefits of utilizing dredged material from lakes in the reclamation of despoiled land.

"(2) GEOGRAPHICAL REQUIREMENTS.—Demonstration projects authorized by this subsection shall be undertaken to reflect a variety of geographical and environmental conditions. As a priority, the Administrator shall undertake demonstration projects at Lake Houston, Texas; Beaver Lake, Arkansas; Greenwood Lake and Belcher Creek, New Jersey; Deal Lake, New Jersey; Alcyon Lake, New Jersey; Gorton's Pond, Rhode Island; Lake Washington, Rhode Island; Lake Bomoseen, Vermont; Sauk Lake, Minnesota; and Lake Worth, Texas.

"(3) REPORTS.—The Administrator shall report annually to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate on work undertaken pursuant to this subsection. Upon completion of the program authorized by this subsection, the Administrator shall submit to such Committees a final report on the results of such program, along with recommendations for further measures to improve the water quality of the Nation's lakes.

"(4) AUTHORIZATION OF APPROPRIATIONS.—

"(A) IN GENERAL.—There is authorized to be appropriated to carry out this subsection not to exceed \$40,000,000 for fiscal years beginning after September 30, 1986, to remain available until expended.

"(B) SPECIAL AUTHORIZATIONS.—

"(i) AMOUNT.—There is authorized to be appropriated to carry out subsection (b) with respect to subsection (a)(1)(D) not to exceed \$15,000,000 for fiscal years beginning after September 30, 1986, to remain available until expended.

"(ii) DISTRIBUTION OF FUNDS.—The Administrator shall provide for an equitable distribution of sums appropriated pursuant to this subparagraph among States carrying out approved methods and procedures. Such distribution shall be based on the relative needs of each such State for the mitigation of the harmful effects on lakes and other surface waters of high acidity that may reasonably be due to acid deposition or acid mine drainage.

"(iii) GRANTS AS ADDITIONAL ASSISTANCE.—The amount of any grant to a State under this subparagraph shall be in addition to, and not in lieu of, any other Federal financial assistance."

(c) LAKE RESTORATION GUIDANCE MANUAL.—Section 304(j) is amended to read as follows:

"(j) LAKE RESTORATION GUIDANCE MANUAL.—The Administrator shall, within 1 year after the date of the enactment of the Water Quality Act of 1987 and biennially thereafter, publish and disseminate a lake restoration guidance manual describing methods, procedures, and processes to guide State and local efforts to improve, restore, and enhance water quality in the Nation's publicly owned lakes."

(d) CONFORMING AMENDMENTS.—Section 314 is further amended—

(1) in subsection (b) by striking out "this section" the first place it appears and inserting in lieu thereof "subsection (a) of this section";

(2) in subsection (c)(1) by striking out "this section" the first place it appears and inserting in lieu thereof "subsection (b) of this section" and by striking out "this section" the second place it appears and inserting in lieu thereof "subsection (a) of this section"; and

(3) in subsection (c)(2) by striking out "this section" the first place it appears and inserting in lieu thereof "subsection (b) of this section" and by striking out "this section" the second place it appears and inserting in lieu thereof "subsection (a) of this section".

SEC. 316. MANAGEMENT OF NONPOINT SOURCES OF POLLUTION.

(a) IN GENERAL.—Title III is amended by adding at the end the following new section:

"SEC. 319. NONPOINT SOURCE MANAGEMENT PROGRAMS.

"(a) This section shall apply only to programs funded in whole or in part with sums reserved under section 205(l) of this Act.

"(b) STATE MANAGEMENT PROGRAMS.—

"(1) IN GENERAL.—The Governor of each State, for that State or in combination with adjacent States, may, after notice and opportunity for public comment, prepare and submit to the Administrator a management program which such State proposes to implement in the first four fiscal years beginning after the date of submission of such management program for controlling pollution added from nonpoint sources to the navigable waters within the State and improving the quality of such waters.

"(2) SPECIFIC CONTENTS.—Each management program proposed for implementation under this subsection should include each of the following:

"(A) An identification of the best management practices and measures which will be undertaken to reduce pollutant loadings resulting from each category, subcategory, or particular nonpoint source designated under paragraph (b)(1)(B), taking into account the impact of the practice on ground water quality.

"(B) An identification of programs (including, as appropriate, nonregulatory or regulatory programs for enforcement, technical assistance, financial assistance, education, training, technology transfer, and demonstration projects) to achieve implementation of the best management practices by the categories, subcategories, and particular nonpoint sources designated under subparagraph (A).

"(C) A schedule containing annual milestones for (1) utilization of the program implementation methods identified in subparagraph (B), and (ii) implementation of the best management practices identified in subparagraph (A) by the categories, subcategories, or particular nonpoint sources des-

ignated under paragraph (b)(1)(B). Such schedule shall provide for utilization of the best management practices at the earliest practicable date.

"(D) A certification of the attorney general of the State or States (or the chief attorney of any State water pollution control agency which has independent legal counsel) that the laws of the State or States, as the case may be, provide adequate authority to implement such management program or, if there is not such adequate authority, a list of such additional authorities as will be necessary to implement such management program. A schedule and commitment by the State or States to seek such additional authorities as expeditiously as practicable.

"(E) Sources of Federal and other assistance and funding (other than assistance provided under subsection (i) and (j)) which will be available in each of such fiscal years for supporting implementation of such practices and measures and the purposes for which such assistance will be used in each of such fiscal years.

"(F) An identification of Federal financial assistance programs and Federal development projects for which the State will review individual assistance applications or development projects for their effect on water quality pursuant to the procedures set forth in Executive Order 12372 as in effect on September 17, 1983, to determine whether such assistance applications or development projects would be consistent with the program prepared under this subsection; for the purposes of this subparagraph, identification shall not be limited to the assistance programs or development projects subject to Executive Order 12372 but may include any programs listed in the most recent Catalog of Federal Domestic Assistance which may have an effect on the purposes and objectives of the State's nonpoint source pollution management program.

"(3) UTILIZATION OF LOCAL AND PRIVATE EXPERTS.—In developing and implementing a management program under this subsection, a State should to the maximum extent practicable, involve local public and private agencies and organizations which have expertise in control of nonpoint sources of pollution.

"(4) DEVELOPMENT ON WATERSHED BASIS.—A State should, to the maximum extent practicable, develop and implement a management program under this subsection on a watershed-by-watershed basis within such State.

"(d) GRANT PROGRAM.—

"(1) GRANTS FOR IMPLEMENTATION OF MANAGEMENT PROGRAMS.—Upon submission by a State of a management program under subsection (b), the Administrator may make grants, subject to such terms and conditions as the Administrator considers appropriate, under this subsection to such State for the purpose of assisting the State in implementing such management program.

"(2) APPLICATIONS.—An application for a grant under this subsection in any fiscal year shall be in such form and shall contain such other information as the Administrator may require, including an identification and description of the best management practices and measures which the State proposes to assist, encourage, or require in such year with the Federal assistance to be provided under the grant.

"(4) LIMITATION ON USE OF FUNDS.—States may use funds from grants made pursuant to this section for financial assistance to persons only to the extent that such assist-

ance is related to the costs of demonstration projects.

"(6) MAINTENANCE OF EFFORT.—No grant may be made to a State under this subsection in any fiscal year unless such State enters into such agreements with the Administrator as the Administrator may require to ensure that such State will maintain its aggregate expenditures from all other sources for programs for controlling pollution added to the navigable waters in such State from nonpoint sources and improving the quality of such waters at or above the average level of such expenditures in its two fiscal years preceding the date of enactment of this subsection.

"(7) REQUEST FOR INFORMATION.—The administrator may request such information, data, and reports as he considers necessary to make the determination of continuing eligibility for grants under this section.

"(j) GRANTS FOR PROTECTING GROUNDWATER QUALITY.—

"(1) ELIGIBLE APPLICANTS AND ACTIVITIES.—Upon submission by a State of a plan under subsection (b), the Administrator shall make grants under this subsection to such State for the purpose of assisting such State in carrying out groundwater quality protection activities which the Administrator determines will advance the State toward implementation of a comprehensive nonpoint source pollution control program. Such activities shall include, but not be limited to, research, planning, groundwater assessments, demonstration programs, enforcement, technical assistance, education and training to protect the quality of groundwater and to prevent contamination of groundwater from nonpoint sources of pollution.

"(2) APPLICATIONS.—An application for a grant under this subsection shall be in such form and shall contain such information as the Administrator may require.

"(k) CONSISTENCY OF OTHER PROGRAMS AND PROJECTS WITH MANAGEMENT PROGRAMS.—The Administrator shall transmit to the Office of Management and Budget and the appropriate Federal departments and agencies a list of those assistance programs and development projects identified by each State under subsection (c)(2)(F) for which individual assistance applications and projects will be reviewed pursuant to the procedures set forth in Executive Order 12372 as in effect on September 17, 1983. Beginning not later than sixty days after receiving notification by the Administrator, each Federal department and agency shall modify existing regulations to allow States to review individual development projects and assistance applications under the identified Federal assistance programs and shall accommodate, according to the requirements and definitions of Executive Order 12372, as in effect on September 17, 1983, the concerns of the State regarding the consistency of such applications or projects with the State nonpoint source pollution management program.

"(l) COLLECTION OF INFORMATION.—The Administrator shall collect and make available, through publications and other appropriate means, information pertaining to management practices and implementation methods, including, but not limited to, (1) information concerning the costs and relative efficiencies of best management practices for reducing nonpoint source pollution; and (2) available data concerning the relationship between water quality and implementation of various management practices to control nonpoint sources of pollution.

(b) POLICY FOR CONTROL OF NONPOINT SOURCES OF POLLUTION.—Section 101(a) is amended by striking out "and" at the end of paragraph (5), by striking out the period at the end of paragraph (6) and inserting in lieu thereof "; and", and by adding at the end thereof the following:

"(7) it is the national policy that programs for the control of nonpoint sources of pollution be developed and implemented in an expeditious manner so as to enable the goals of this Act to be met through the control of both point and nonpoint sources of pollution."

(d) CONFORMING AMENDMENT.—Section 304(k)(1) is amended by inserting "and nonpoint source pollution management programs approved under section 319 of this Act" after "208 of this Act".

#### SEC. 317. NATIONAL ESTUARY PROGRAM.

(a) PURPOSES AND POLICIES.—

(1) FINDINGS.—Congress finds and declares that—

(A) the Nation's estuaries are of great importance for fish and wildlife resources and recreation and economic opportunity;

(B) maintaining the health and ecological integrity of these estuaries is in the national interest;

(C) increasing coastal population, development, and other direct and indirect uses of these estuaries threaten their health and ecological integrity;

(D) long-term planning and management will contribute to the continued productivity of these areas, and will maximize their utility to the Nation; and

(E) better coordination among Federal and State programs affecting estuaries will increase the effectiveness and efficiency of the national effort to protect, preserve, and restore these areas.

(2) PURPOSES.—The purposes of this section are to—

(A) identify nationally significant estuaries that are threatened by pollution, development, or overuse;

(B) promote comprehensive planning for, and conservation and management of, nationally significant estuaries;

(C) encourage the preparation of management plans for estuaries of national significance; and

(D) enhance the coordination of estuarine research.

(b) MANAGEMENT PROGRAM.—Title III is amended by adding at the end thereof the following new section:

#### "SEC. 320. NATIONAL ESTUARY PROGRAM.

"(a) MANAGEMENT CONFERENCE.—

"(1) NOMINATION OF ESTUARIES.—The Governor of any State may nominate to the Administrator an estuary lying in whole or in part within the State as an estuary of national significance and request a management conference to develop a comprehensive management plan for the estuary. The nomination shall document the need for the conference, the likelihood of success, and information relating to the factors in paragraph (2).

"(2) CONVENING OF CONFERENCE.—

"(A) IN GENERAL.—In any case where the Administrator determines, on his own initiative or upon nomination of a State under paragraph (1), that the attainment or maintenance of that water quality in an estuary which assures protection of public water supplies and the protection and propagation of a balanced, indigenous population of shellfish, fish, and wildlife, and allows recreational activities, in and on the water, requires the control of point and nonpoint sources of pollution to supplement existing

controls of pollution in more than one State, the Administrator shall select such estuary and convene a management conference.

"(B) PRIORITY CONSIDERATION.—The Administrator shall give priority consideration under this section to Long Island Sound, New York and Connecticut; Narragansett Bay, Rhode Island; Buzzards Bay, Massachusetts; Puget Sound, Washington; New York-New Jersey Harbor, New York and New Jersey; Delaware Bay, Delaware and New Jersey; Delaware Inland Bays, Delaware; Albemarle Sound, North Carolina; Sarasota Bay, Florida; San Francisco Bay, California; and Galveston Bay, Texas.

"(3) BOUNDARY DISPUTE EXCEPTION.—In any case in which a boundary between two States passes through an estuary and such boundary is disputed and is the subject of an action in any court, the Administrator shall not convene a management conference with respect to such estuary before a final adjudication has been made of such dispute.

"(b) PURPOSE OF CONFERENCE.—The purposes of any management conference convened with respect to an estuary under this subsection shall be to—

"(1) assess trends in water quality, natural resources, and uses of the estuary;

"(2) collect, characterize, and assess data on toxics, nutrients, and natural resources within the estuarine zone to identify the causes of environmental problems;

"(3) develop the relationship between the in-place loads and point and nonpoint loadings of pollutants to the estuarine zone and the potential uses of the zone, water quality, and natural resources;

"(4) develop a comprehensive conservation and management plan that recommends priority corrective actions of pollution to restore and maintain the chemical, physical, and biological integrity of the estuary, including restoration and maintenance of water quality, a balanced indigenous population of shellfish, fish and wildlife, and recreational activities in the estuary, and assure that the designated uses of the estuary are protected;

"(5) develop plans for the coordinated implementation of the plan by the States as well as Federal and local agencies participating in the conference;

"(6) monitor the effectiveness of actions taken pursuant to the plan; and

"(7) review all Federal financial assistance program and Federal development project in accordance with the requirements of Executive Order 12372, as in effect on September 17, 1983, to determine whether such assistance program or project would be consistent with and further the purposes and objectives of the plan prepared under this section.

For purposes of paragraph (7), such programs and projects shall not be limited to the assistance programs and development projects subject to Executive Order 12372, but may include any programs listed in the most recent Catalog of Federal Domestic Assistance which may have an effect on the purposes and objectives of the plan developed under this section.

"(c) MEMBERS OF CONFERENCE.—The members of a management conference convened under this section shall include, at a minimum, the Administrator and representatives of—

"(1) each State and foreign nation located in whole or in part in the estuarine zone of the estuary for which the conference is convened;

"(2) international, interstate, or regional agencies or entities having jurisdiction over all or a significant part of the estuary;

"(3) each interested Federal agency, as determined appropriate by the Administrator;

"(4) local governments having jurisdiction over any land or water within the estuarine zone, as determined appropriate by the Administrator; and

"(5) affected industries, public and private educational institutions, and the general public, as determined appropriate by the Administrator.

"(d) UTILIZATION OF EXISTING DATA.—In developing a conservation and management plan under this section, the management conference shall survey and utilize existing reports, data, and studies relating to the estuary that have been developed by or made available to Federal, interstate, State, and local agencies.

"(e) PERIOD OF CONFERENCE.—A management conference convened under this section shall be convened for a period not to exceed 5 years. Such conference may be extended by the Administrator, and if terminated after the initial period, may be reconvened by the Administrator at any time thereafter, as may be necessary to meet the requirements of this section.

"(f) APPROVAL AND IMPLEMENTATION OF PLANS.—

"(1) APPROVAL.—Not later than 120 days after the completion of a conservation and management plan and after providing for public review and comment, the Administrator shall approve such plans if the plan meets the requirements of this section and the affected Governor or Governors concur.

"(2) IMPLEMENTATION.—Upon approval of a conservation and management plan under this section, such plan shall be implemented. Funds authorized to be appropriated under titles II and VI and section 319 of this Act may be used in accordance with the applicable requirements of this Act to assist States with the implementation of such plan.

"(g) GRANTS.—

"(1) RECIPIENTS.—The Administrator is authorized to make grants to State, interstate, and regional water pollution control agencies and entities, State coastal zone management agencies, interstate agencies, other public or nonprofit private agencies, institutions, organizations, and individuals.

"(2) PURPOSES.—Grants under this subsection shall be made to pay for assisting research, surveys, studies, and modeling and other technical work necessary for the development of a conservation and management plan under this section.

"(3) FEDERAL SHARE.—The amount of grants to any person (including a State, interstate, or regional agency or entity) under this subsection for a fiscal year shall not exceed 75 percent of the costs of such research, survey, studies, and work and shall be made on condition that the non-Federal share of such costs are provided from non-Federal sources.

"(h) GRANT REPORTING.—Any person (including a State, interstate, or regional agency or entity) that receives a grant under subsection (g) shall report to the Administrator not later than 18 months after receipt of such grant and biennially thereafter on the progress being made under this section.

"(i) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Administrator not to exceed \$12,000,000 per fiscal year for each of fiscal years 1987, 1988, 1989, 1990, and 1991 for—

"(1) expenses related to the administration of management conferences under this section, not to exceed 10 percent of the amount appropriated under this subsection;

"(2) making grants under subsection (g); and

"(3) monitoring the implementation of a conservation and management plan by the management conference or by the Administrator, in any case in which the conference has been terminated.

The Administrator shall provide up to \$5,000,000 per fiscal year of the sums authorized to be appropriated under this subsection to the Administrator of the National Oceanic and Atmospheric Administration to carry out subsection (j).

"(j) RESEARCH.—

"(1) PROGRAMS.—In order to determine the need to convene a management conference under this section or at the request of such management conference, the Administrator shall coordinate and implement, through the National Marine Pollution Program Office and the National Marine Fisheries Service of the National Oceanic and Atmospheric Administration, as appropriate, for one or more estuarine zones—

"(A) a long-term program of trend assessment monitoring measuring variations in pollutant concentrations, marine ecology, and other physical or biological environmental parameter which may affect estuarine zones, to provide the Administrator the capacity to determine the potential and actual effects of alternative management strategies and measures;

"(B) a program of ecosystem assessment assisting in the development of (i) baseline studies which determine the state of estuarine zones and the effects of natural and anthropogenic changes, and (ii) predictive models capable of translating information on specific discharges or general pollutant loadings within estuarine zones into a set of probable effects on such zones;

"(C) a comprehensive water quality sampling program for the continuous monitoring of nutrients, chlorine, acid precipitation dissolved oxygen, and potentially toxic pollutants (including organic chemicals and metals) in estuarine zones, after consultation with interested State, local, interstate, or international agencies and review and analysis of all environmental sampling data presently collected from estuarine zones; and

"(D) a program of research to identify the movements of nutrients, sediments and pollutants through estuarine zones and the impact of nutrients, sediments, and pollutants on water quality, the ecosystem, and designated or potential uses of the estuarine zones.

"(2) REPORTS.—The Administrator, in cooperation with the Administrator of the National Oceanic and Atmospheric Administration, shall submit to the Congress no less often than biennially a comprehensive report on the activities authorized under this subsection including—

"(A) a listing or priority monitoring and research needs;

"(B) an assessment of the state and health of the Nation's estuarine zones, to the extent evaluated under this subsection;

"(C) a discussion of pollution problems and trends in pollutant concentrations with a direct or indirect effect on water quality, the ecosystem, and designated or potential uses of each estuarine zone, to the extent evaluated under this subsection; and

"(D) an evaluation of pollution abatement activities and management measures so far

implemented to determine the degree of improvement toward the objectives expressed in subsection (b)(4) of this section.

"(k) DEFINITIONS.—For purposes of this section, the terms 'estuary' and 'estuarine zone' have the meanings such terms have in section 104(n)(4) of this Act, except that the term 'estuarine zone' shall also include associated aquatic ecosystems and those portions of tributaries draining into the estuary up to the historic height of migration of anadromous fish or the historic head of tidal influence, whichever is higher."

SEC. 318. UNCONSOLIDATED QUATERNARY AQUIFER.

Notwithstanding any other provision of law, no person may—

(1) locate or authorize the location of a landfill, surface impoundment, waste pile, injection well, or land treatment facility over the Unconsolidated Quaternary Aquifer, or the recharge zone or streamflow source zone of such aquifer, in the Rockaway River Basin, New Jersey (as such aquifer and zones are described in the Federal Register, January 24, 1984, pages 2946-2948); or

(2) place or authorize the placement of solid waste in a landfill, surface impoundment, waste pile, injection well, or land treatment facility over such aquifer or zone.

This section may be enforced under sections 309 (a) and (b) of the Federal Water Pollution Control Act. For purposes of section 309(c) of such Act, a violation of this section shall be considered a violation of section 301 of the Federal Water Pollution Control Act.

TITLE IV—PERMITS AND LICENSES

SEC. 401. STORMWATER RUNOFF FROM OIL, GAS, AND MINING OPERATIONS.

(a) LIMITATION ON PERMIT REQUIREMENT.—Section 402(1) is amended by inserting "(1) Agricultural return flows.—" before "The Administrator" and by adding at the end thereof the following:

"(2) STORMWATER RUNOFF FROM OIL, GAS, AND MINING OPERATIONS.—The Administrator shall not require a permit under this section, nor shall the Administrator directly or indirectly require any State to require a permit, for discharges of stormwater runoff from mining operations or oil and gas exploration, production, processing, or treatment operations or transmission facilities, composed entirely of flows which are from conveyances or systems of conveyances (including but not limited to pipes, conduits, ditches, and channels) used for collecting and conveying precipitation runoff and which are not contaminated by contact with, or do not come into contact with, any overburden, raw material, intermediate products, finished product, by-product, or waste products located on the site of such operations."

(b) CONFORMING AMENDMENTS.—Section 402(1) is further amended—

(1) by inserting "LIMITATION ON PERMIT REQUIREMENT.—" after "(1)"; and

(2) by indenting paragraph (1) of such section, as designated by subsection (a) of this section, and aligning such paragraph with paragraph (2) of such section, as added by such subsection (a).

SEC. 402. ADDITIONAL PRETREATMENT OF CONVENTIONAL POLLUTANTS NOT REQUIRED.

Section 402 is amended by adding at the end thereof the following new subsection:

"(m) ADDITIONAL PRETREATMENT OF CONVENTIONAL POLLUTANTS NOT REQUIRED.—To the extent a treatment works (as defined in section 212 of this Act) which is publicly

owned is not meeting the requirements of a permit issued under this section for such treatment works as a result of inadequate design or operation of such treatment works, the Administrator, in issuing a permit under this section, shall not require pretreatment by a person introducing conventional pollutants identified pursuant to section 304(a)(4) of this Act into such treatment works other than pretreatment required to assure compliance with pretreatment standards under subsection (b)(8) of this section and section 307(b)(1) of this Act. Nothing in this subsection shall affect the Administrator's authority under sections 307 and 309 of this Act, affect State and local authority under sections 307(b)(4) and 510 of this Act, relieve such treatment works of its obligations to meet requirements established under this Act, or otherwise preclude such works from pursuing whatever feasible options are available to meet its responsibility to comply with its permit under this section."

#### SEC. 403. PARTIAL NPDES PROGRAM.

(a) **PARTIAL PERMIT PROGRAM.**—Section 402 is amended by adding at the end the following:

"(n) **PARTIAL PERMIT PROGRAM.**—

"(1) **STATE SUBMISSION.**—The Governor of a State may submit under subsection (b) of this section a permit program for a portion of the discharges into the navigable waters in such State.

"(2) **MINIMUM COVERAGE.**—A partial permit program under this subsection shall cover, at a minimum, administration of a major category of the discharges into the navigable waters of the State or a major component of the permit program required by subsection (b).

"(3) **APPROVAL OF MAJOR CATEGORY PARTIAL PERMIT PROGRAMS.**—The Administrator may approve a partial permit program covering administration of a major category of discharges under this subsection if—

"(A) such program represents a complete permit program and covers all of the discharges under the jurisdiction of a department or agency of the State; and

"(B) the Administrator determines that the partial program represents a significant and identifiable part of the State program required by subsection (b).

"(4) **APPROVAL OF MAJOR COMPONENT PARTIAL PERMIT PROGRAMS.**—The Administrator may approve under this subsection a partial and phased permit program covering administration of a major component (including discharge categories) of a State permit program required by subsection (b) if—

"(A) the Administrator determines that the partial program represents a significant and identifiable part of the State program required by subsection (b); and

"(B) the State submits, and the Administrator approves, a plan for the State to assume administration by phases of the remainder of the State program required by subsection (b) by a specified date not more than 5 years after submission of the partial program under this subsection and agrees to make all reasonable efforts to assume such administration by such date."

(b) **RETURN OF STATE PERMIT PROGRAM TO ADMINISTRATOR.**—

(1) **IN GENERAL.**—Section 402(c) is amended by adding at the end thereof the following new paragraph:

"(4) **LIMITATIONS ON PARTIAL PERMIT PROGRAM RETURNS AND WITHDRAWALS.**—A State may return to the Administrator administration, and the Administrator may with-

draw under paragraph (3) of this subsection approval, of—

"(A) a State partial permit program approved under subsection (n)(3) only if the entire permit program being administered by the State department or agency at the time is returned or withdrawn; and

"(B) a State partial permit program approved under subsection (n)(4) only if an entire phased component of the permit program being administered by the State at the time is returned or withdrawn."

(2) **CONFORMING AMENDMENT.**—Section 402(c)(1) is amended by striking out "as to those navigable waters" and inserting in lieu thereof "as to those discharges".

#### SEC. 404. ANTI-BACKSLIDING.

(a) **GENERAL RULE.**—Section 402 is amended by adding at the end thereof the following new subsection:

"(o) **ANTI-BACKSLIDING.**—

"(1) **GENERAL PROHIBITION.**—In the case of effluent limitations established on the basis of subsection (a)(1)(B) of this section, a permit may not be renewed, reissued, or modified on the basis of effluent guidelines promulgated under section 304(b) subsequent to the original issuance of such permit, to contain effluent limitations which are less stringent than the comparable effluent limitations in the previous permit. In the case of effluent limitations established on the basis of section 301(b)(1)(C) or section 303 (d) or (e), a permit may not be renewed, reissued, or modified to contain effluent limitations which are less stringent than the comparable effluent limitations in the previous permit except in compliance with section 303(d)(4).

"(2) **EXCEPTIONS.**—A permit with respect to which paragraph (1) applies may be renewed, reissued, or modified to contain a less stringent effluent limitation applicable to a pollutant if—

"(A) material and substantial alterations or additions to the permitted facility occurred after permit issuance which justify the application of a less stringent effluent limitation;

"(B)(i) information is available which was not available at the time of permit issuance (other than revised regulations, guidance, or test methods) and which would have justified the application of a less stringent effluent limitation at the time of permit issuance; or

"(ii) the Administrator determines that technical mistakes or mistaken interpretations of law were made in issuing the permit under subsection (a)(1)(B);

"(C) a less stringent effluent limitation is necessary because of events over which the permittee has no control and for which there is no reasonably available remedy;

"(D) the permittee has received a permit modification under section 301(c), 301(g), 301(h), 301(i), 301(k), 301(n), or 316(a); or

"(E) the permittee has installed the treatment facilities required to meet the effluent limitations in the previous permit and has properly operated and maintained the facilities but has nevertheless been unable to achieve the previous effluent limitations, in which case of limitations in the reviewed, reissued, or modified permit may reflect the level of pollutant control actually achieved (but shall not be less stringent than required by effluent guidelines in effect at the time of permit renewal, reissuance, or modification).

Subparagraph (B) shall not apply to any revised waste load allocations or any alternative grounds for translating water quality

standards into effluent limitations, except where the cumulative effect of such revised allocations results in a decrease in the amount of pollutants discharged into the concerned waters, and such revised allocations are not the result of a discharger eliminating or substantially reducing its discharge of pollutants due to complying with the requirements of this Act or for reasons otherwise unrelated to water quality.

"(3) **LIMITATIONS.**—In no event may a permit with respect to which paragraph (1) applies be renewed, reissued, or modified to contain an effluent limitation which is less stringent than required by effluent guidelines in effect at the time the permit is renewed, reissued, or modified. In no event may such a permit to discharge into waters be renewed, reissued, or modified to contain a less stringent effluent limitation if the implementation of such limitation would result in a violation of a water quality standard under section 303 applicable to such waters."

(b) **LIMITATIONS ON REVISION OF CERTAIN EFFLUENT LIMITATIONS.**—Section 303(d) of the Act is amended by adding at the end thereof the following new paragraph:

"(4) **LIMITATIONS ON REVISION OF CERTAIN EFFLUENT LIMITATIONS.**—

"(A) **STANDARD NOT ATTAINED.**—For waters identified under paragraph (1)(A) where the applicable water quality standard has not yet been attained, any effluent limitation based on a total maximum daily load or other waste load allocation established under this section may be revised only if (i) the cumulative effect of all such revised effluent limitations based on such total maximum daily load or waste load allocation will assure the attainment of such water quality standard, or (ii) and the designated use which is not being attained is removed in accordance with regulations established under this section.

"(B) **STANDARD ATTAINED.**—For waters identified under paragraph (1)(A) where the quality of such waters equals or exceeds levels necessary to protect the designated use for such waters or otherwise required by applicable water quality standards, any effluent limitation based on a total maximum daily load or other waste load allocation established under this section, or any water quality standard established under this section, or any other permitting standard may be revised only if such revision is subject to and consistent with the antidegradation policy established under this section."

(c) **STUDY.**—The Administrator shall study—

(1) the extent to which States have reviewed, revised, and adopted water quality standards in accordance with section 24 of the Municipal Wastewater Treatment Construction Grant Amendments of 1981; and

(2) the extent to which modifications of permits issued under section 402(a)(1)(B) of the Federal Water Pollution Control Act for the purpose of reflecting any revisions to water quality standards should be encouraged or discouraged.

The Administrator shall submit a report on such study, together with recommendations, to Congress not later than 2 years after the date of the enactment of this Act.

(d) **CONFORMING AMENDMENT.**—Section 402(a)(1) is amended by inserting "(A)" after "either" and by inserting "(B)" after "this Act, or".

# SEC. 405. MUNICIPAL AND INDUSTRIAL STORM-WATER DISCHARGES.

(a) Section 402 is amended by adding at the end thereof the following new subsection:

## "(p) MUNICIPAL AND INDUSTRIAL STORM-WATER DISCHARGES.—

"(1) GENERAL RULE.—Prior to October 1, 1992, the Administrator or the State (in the case of a permit program approved under section 402 of this Act) shall not require a permit under this section for discharges composed entirely of stormwater.

"(2) EXCEPTIONS.—Paragraph (1) shall not apply with respect to the following stormwater discharges:

"(A) A discharge with respect to which a permit has been issued under this section before the date of the enactment of this subsection.

"(B) A discharge associated with industrial activity.

"(C) A discharge from a municipal separate storm sewer system serving a population of 250,000 or more.

"(D) A discharge from a municipal separate storm sewer system serving a population of 100,000 or more but less than 250,000.

"(E) A discharge for which the Administrator or the State, as the case may be, determines that the stormwater discharge contributes to a violation of a water quality standard or is a significant contributor of pollutants to waters of the United States.

## "(3) PERMIT REQUIREMENTS.—

"(A) INDUSTRIAL DISCHARGES.—Permits for discharges associated with industrial activity shall meet all applicable provisions of this section and section 301.

"(B) MUNICIPAL DISCHARGE.—Permits for discharges from municipal storm sewers—

"(i) may be issued on a system- or jurisdiction-wide basis;

"(ii) shall include a requirement to effectively prohibit non-stormwater discharges into the storm sewers; and

"(iii) shall require controls to reduce the discharge of pollutants to the maximum extent practicable, including management practices, control techniques and system, design and engineering methods, and such other provisions as the Administrator or the State determines appropriate for the control of such pollutants.

## "(4) PERMIT APPLICATION REQUIREMENTS.—

"(A) INDUSTRIAL AND LARGE MUNICIPAL DISCHARGES.—Not later than 2 years after the date of the enactment of this subsection, the Administrator shall establish regulations setting forth the permit application requirements for stormwater discharges described in paragraph (2)(B) and (2)(C). Applications for permits for such discharges shall be filed no later than 3 years after such date of enactment. Not later than 4 years after such date of enactment, the Administrator, or the State, as the case may be, shall issue or deny each such permit. Any such permit shall provide for compliance as expeditiously as practicable, but in no event later than 3 years after the date of issuance of such permit.

"(B) OTHER MUNICIPAL DISCHARGES.—Not later than 4 years after the date of the enactment of this subsection, the Administrator shall establish regulations setting forth the permit application requirements for stormwater discharges described in paragraph (2)(D). Applications for permits for such discharges shall be filed no later than 5 years after such date of enactment. Not later than 6 years after such date of enactment, the Administrator or the State, as the case may be, shall issue or deny each such

permit. Any such permit shall provide for compliance as expeditiously as practicable, but in no event later than 3 years after the date of issuance of such permit.

"(5) STUDIES.—The Administrator, in consultation with the States, shall conduct a study for the purposes of—

"(A) identifying those stormwater discharges or classes of stormwater discharges for which permits are not required pursuant to paragraphs (1) and (2) of this subsection,

"(B) determining, to the maximum extent practicable, the nature and extent of pollutants in such discharges; and

"(C) establishing procedures and methods to control stormwater discharges to the extent necessary to mitigate impacts on water quality.

Not later than October 1, 1988, the Administrator shall submit to Congress a report on the results of the study described in subparagraphs (A) and (B). Not later than October 1, 1989, the Administrator shall submit to Congress a report on the results of the study described in subparagraph (C).

"(6) REGULATIONS.—Not later than October 1, 1992, the Administrator, in consultation with State and local officials, shall issue regulations (based on the results of the studies conducted under paragraph (5)) which designate stormwater discharges, other than those discharges described in paragraph (2), to be regulated to protect water quality and shall establish a comprehensive program to regulate such designated sources. The program shall, at a minimum, (A) establish priorities, (B) establish requirements for State stormwater management programs, and (C) establish expeditious deadlines. The program may include performance standards, guidelines, guidance, and management practices and treatment requirements, as appropriate."

## SEC. 406. SEWAGE SLUDGE.

(a) IDENTIFICATION AND REGULATION OF TOXIC POLLUTANTS.—Section 405(d) is amended—

(1) by inserting "(1) REGULATIONS.—" before "The Administrator, after";

(2) by striking "(1)", "(2)", and "(3)", and inserting in lieu thereof "(A)", "(B)", and "(C)", respectively; and

(3) by adding at the end the following new paragraphs:

"(2) IDENTIFICATION AND REGULATION OF TOXIC POLLUTANTS.—

"(A) ON BASIS OF AVAILABLE INFORMATION.—

"(i) PROPOSED REGULATIONS.—Not later than November 30, 1986, the Administrator shall identify those toxic pollutants which, on the basis of available information on their toxicity, persistence, concentration, mobility, or potential for exposure, may be present in sewage sludge in concentrations which may adversely affect public health or the environment, and propose regulations specifying acceptable management practices for sewage sludge containing each such toxic pollutant and establishing numerical limitations for each such pollutant for each use identified under paragraph (1)(A).

"(ii) FINAL REGULATIONS.—Not later than August 31, 1987, and after opportunity for public hearing, the Administrator shall promulgate the regulations required by subparagraph (A)(i).

"(B) OTHERS.—

"(i) PROPOSED REGULATIONS.—Not later than July 31, 1987, the Administrator shall identify those toxic pollutants not identified under subparagraph (A)(i) which may be present in sewage sludge in concentrations which may adversely affect public health or the environment, and propose regulations

specifying acceptable management practices for sewage sludge containing each such toxic pollutant and establishing numerical limitations for each pollutant for each such use identified under paragraph (1)(A).

"(ii) FINAL REGULATIONS.—Not later than June 15, 1988, the Administrator shall promulgate the regulations required by subparagraph (B)(i).

"(C) REVIEW.—From time to time, but not less often than every 2 years, the Administrator shall review the regulations promulgated under this paragraph for the purpose of identifying additional toxic pollutants and promulgating regulations for such pollutants consistent with the requirements of this paragraph.

"(D) MINIMUM STANDARDS; COMPLIANCE DATE.—The management practices and numerical criteria established under subparagraphs (A), (B), and (C) shall be adequate to protect public health and the environment from any reasonably anticipated adverse effects of each pollutant. Such regulations shall require compliance as expeditiously as practicable but in no case later than 12 months after their publication, unless such regulations require the construction of new pollution control facilities, in which case the regulations shall require compliance as expeditiously as practicable but in no case later than 2 years from the date of their publication.

"(3) ALTERNATIVE STANDARDS.—For purposes of this subsection, if, in the judgment of the Administrator, it is not feasible to prescribe or enforce a numerical limitation for a pollutant identified under paragraph (2), the Administrator may instead promulgate a design, equipment, management practice, or operational standard, or combination thereof, which in the Administrator's judgment is adequate to protect public health and the environment from any reasonably anticipated adverse effects of such pollutant. In the event the Administrator promulgates a design or equipment standard under this subsection, the Administrator shall include as part of such standard such requirements as well assure the proper operation and maintenance of any such element of design or equipment.

"(4) CONDITIONS ON PERMITS.—Prior to the promulgation of the regulations required by paragraphs (2), the Administrator shall impose conditions in permits issued to publicly owned treatment works under section 402 of this Act or take such other measures as the Administrator deems appropriate to protect public health and the environment from any adverse effects which may occur from toxic pollutants in sewage sludge.

"(5) LIMITATION ON STATUTORY CONSTRUCTION.—Nothing in this section is intended to waive more stringent requirements established by this Act or any other law."

(b) MANNER OF SLUDGE DISPOSAL.—Section 405(e) is amended to read as follows:

"(e) MANNER OF SLUDGE DISPOSAL.—The determination of the manner of disposal or use of sludge is a local determination, except that it shall be unlawful for any person to dispose of sludge from a publicly owned treatment works or any other treatment works treating domestic sewage for any use for which regulations have been established pursuant to subsection (d) of this section, except in accordance with such regulations."

(c) IMPLEMENTATION THROUGH PERMITS.—Section 405 is further amended by adding at the end thereof the following:

"(f) IMPLEMENTATION OF REGULATIONS.—

"(1) THROUGH SECTION 402 PERMITS.—Any permit issued under section 402 of this Act to a publicly owned treatment works or any other treatment works treating domestic sewage shall include requirements for the use and disposal of sludge that implement the regulations established pursuant to subsection (d) of this section, unless such requirements have been included in a permit issued under the appropriate provisions of subtitle C of the Solid Waste Disposal Act, part C of the Safe Drinking Water Act, the Marine Protection, Research, and Sanctuaries Act of 1972, or the Clean Air Act, or under State permit programs approved by the Administrator, where the Administrator determines that such programs assure compliance with any applicable requirements of this section. Not later than December 15, 1986, the Administrator shall promulgate procedures for approval of State programs pursuant to this paragraph.

"(2) THROUGH OTHER PERMITS.—In the case of a treatment works described in paragraph (1) that is not subject to section 402 of this Act and to which none of the other above listed permit programs nor approved State permit authority apply, the Administrator may issue a permit to such treatment works solely to impose requirements for the use and disposal of sludge that implement the regulations established pursuant to subsection (d) of this section. The Administrator shall include in the permit appropriate requirements to assure compliance with the regulations established pursuant to subsection (d) of this section. The Administrator shall establish procedures for issuing permits pursuant to this paragraph.

"(g) STUDIES AND PROJECTS.—

"(1) GRANT PROGRAM; INFORMATION GATHERING.—The Administrator is authorized to conduct or initiate scientific studies, demonstration projects, and public information and education projects which are designed to promote the safe and beneficial management or use of sewage sludge for such purposes as aiding the restoration of abandoned mine sites, conditioning soil for parks and recreation areas, agricultural and horticultural uses, and other beneficial purposes. For the purposes of carrying out this subsection, the Administrator may make grants to State water pollution control agencies, other public or nonprofit agencies, institutions, organizations, and individuals. In cooperation with other Federal departments and agencies, other public and private agencies, institutions, and organizations, the Administrator is authorized to collect and disseminate information pertaining to the safe and beneficial use of sewage sludge.

"(2) AUTHORIZATION OF APPROPRIATIONS.—For the purposes of carrying out the scientific studies, demonstration projects, and public information and education projects authorized in this section, there is authorized to be appropriated for fiscal years beginning after September 30, 1986, not to exceed \$5,000,000."

(d) ENFORCEMENT.—(1) Section 308(a)(4) is amended by inserting "405," before "and 504".

(2) Section 505(f) is amended by striking out "or" before "(6)", and by inserting before the period "; (7)" a regulation under section 405(d) of this Act."

(3) Section 509(b)(1)(E) is amended by striking out "or 306" and inserting in lieu thereof "306, or 405".

(e) REMOVAL CREDITS.—The part of the decision of Natural Resources Defense Council, Inc. v. U.S. Environmental Protection Agency, No. 84-3530 (3d. Cir. 1986), which

addresses section 405(d) of the Federal Water Pollution Control Act is stayed until August 31, 1987, with respect to—

(1) those publicly owned treatment works the owner or operator of which received authority to revise pretreatment requirements under section 307(b)(1) of such Act before the date of the enactment of this section, and

(2) those publicly owned treatment works the owner or operator of which has submitted an application for authority to revise pretreatment requirements under such section 307(b)(1) which application is pending on such date of enactment and is approved before August 31, 1987.

The Administrator shall not authorize any other removal credits under such Act until the Administrator issues the regulations required by paragraph (2)(A)(ii) of section 405(d) of such Act, as amended by subsection (a) of this section.

(f) CONFORMING AMENDMENTS.—Section 405(d) is further amended—

(1) by inserting "REGULATIONS.—" after "(d)";

(2) by indenting paragraph (1) (as designated by subsection (a)(1) of this section) and aligning such paragraph with paragraph (3), as added by subsection (a)(3); and

(3) in such paragraph (1) by aligning subparagraphs (A), (B), and (C) (as designated by subsection (a)(2) of this section) with subparagraph (C) of paragraph (2), as added by subsection (a)(3) of this section.

SEC. 407. LOG TRANSFER FACILITIES.

(a) AGREEMENT.—The Administrator and Secretary of the Army shall enter into an agreement regarding coordination of permitting for log transfer facilities to designate a lead agency and to process permits required under sections 402 and 404 of the Federal Water Pollution Control Act, where both such sections apply, for discharges associated with the construction and operation of log transfer facilities. The Administrator and Secretary are authorized to act in accordance with the terms of such agreement to assure that, to the maximum extent practicable, duplication, needless paperwork and delay in the issuance of permits, and inequitable enforcement between and among facilities in different States, shall be eliminated.

(b) APPLICATIONS AND PERMITS BEFORE OCTOBER 22, 1985.—Where both of sections 402 and 404 of the Federal Water Pollution Control Act apply, log transfer facilities which have received a permit under section 404 of such Act before October 22, 1985, shall not be required to submit a new application for a permit under section 402 of such Act. If the Administrator determines that the terms of a permit issued on or before October 22, 1985, under section 404 of such Act satisfies the applicable requirements of sections 301, 302, 306, 307, 308, and 403 of such Act, a separate application for a permit under section 402 of such Act shall not thereafter be required. In any case where the Administrator demonstrates, after an opportunity for a hearing, that the terms of a permit issued on or before October 22, 1985, under section 404 of such Act do not satisfy the applicable requirements of sections 301, 302, 306, 307, 308, and 403 of such Act, modifications to the existing permit under section 404 of such Act to incorporate such applicable requirements shall be issued by the Administrator as an alternative to issuance of a separate new permit under section 402 of such Act.

(c) LOG TRANSFER FACILITY DEFINED.—For the purposes of this section, the term "log

transfer facility" means a facility which is constructed in whole or in part in waters of the United States and which is utilized for the purpose of transferring commercially harvested logs to or from a vessel or log raft, including the formation of a log raft.

## TITLE V—MISCELLANEOUS PROVISIONS

### SEC. 501. AUDITS

Section 501(d) is amended by inserting at the end the following new sentences: "For the purpose of carrying out audits and examinations with respect to recipients of Federal assistance under this Act, the Administrator is authorized to enter into non-competitive procurement contracts with independent State audit organizations, consistent with chapter 75 of title 31, United States Code. Such contracts may only be entered into to the extent and in such amounts as may be provided in advance in appropriation Acts."

### SEC. 502. COMMONWEALTH OF THE NORTHERN MARIANA ISLANDS.

(a) DEFINED AS A STATE.—Section 502(3) is amended by inserting "the Commonwealth of the Northern Mariana Islands," after "Samoa,".

(b) DEFINED AS PART OF UNITED STATES.—Section 311(a)(5) is amended by striking out "the Canal Zone," and inserting in lieu thereof "the Commonwealth of the Northern Mariana Islands,".

### SEC. 503. AGRICULTURAL STORMWATER DISCHARGES.

Section 502(14) (relating to the definition of point source) is amended by inserting after "does not include" the following: "agricultural stormwater discharges and".

### SEC. 504. PROTECTION OF INTERESTS OF UNITED STATES IN CITIZEN SUITS.

Section 505(c) is amended by adding at the end thereof the following new paragraph:

"(3) PROTECTION OF INTERESTS OF UNITED STATES.—Whenever any action is brought under this section in a court of the United States, the plaintiff shall serve a copy of the complaint on the Attorney General and the Administrator. No consent judgment shall be entered in an action in which the United States is not a party prior to 45 days following the receipt of a copy of the proposed consent judgment by the Attorney General and the Administrator."

### SEC. 505. JUDICIAL REVIEW AND AWARD OF FEES.

(a) LOCATION; DEADLINE FOR APPEAL.—Section 509(b)(1) is amended—

(1) by striking out "transacts such business" and inserting in lieu thereof, "transacts business which is directly affected by such action"; and

(2) by striking out "ninety" and "ninetieth" and inserting in lieu thereof "120" and "120th", respectively.

(b) VENUE; AWARD OF FEES.—Section 509(b) is amended by adding at the end thereof the following new paragraphs:

"(3) VENUE.—

"(A) SELECTION PROCEDURE.—If applications for review of the same agency action have been filed under paragraph (1) of this subsection in two or more Circuit Courts of Appeals of the United States and the Administrator has received written notice of the filing of one or more applications within 30 days or less after receiving written notice of the filing of the first application, then the Administrator shall promptly advise in writing the Administrative Office of the United States Courts that applications have been filed in two or more Circuit Courts of

Appeals of the United States, and shall identify each court for which he has written notice that such applications have been filed within 30 days or less of receiving written notice of the filing of the first such application. Pursuant to a system of random selection devised for this purpose, the Administrative Office thereupon shall, within 3 business days of receiving such written notice from the Administrator, select the court in which the record shall be filed from among those identified by the Administrator. Upon notification of such selection, the Administrator shall promptly file the record in such court. For the purpose of review of agency action which has previously been remanded to the Administrator, the record shall be filed in the Circuit Court of Appeals of the United States which remanded such action.

**"(B) ADMINISTRATIVE PROVISIONS.**—Where applications have been filed under paragraph (1) of this subsection in two or more Circuit Courts of Appeals of the United States with respect to the same agency action and the record has been filed in one of such courts pursuant to subparagraph (A), the other courts in which such applications have been filed shall promptly transfer such applications to the Circuit Court of Appeals of the United States in which the record has been filed. Pending selection of a court pursuant to subparagraph (A), any court in which an application has been filed under paragraph (1) of this subsection may postpone the effective date of the agency action until 15 days after the Administrative Office has selected the court in which the record shall be filed.

**"(C) TRANSFERS.**—Any court in which an application with respect to any agency action has been filed under paragraph (1) of this subsection, including any court selected pursuant to subparagraph (A), may transfer such application to any other Circuit Court of Appeals of the United States for the convenience of the parties or otherwise in the interest of justice.

**"(4) AWARD OF FEES.**—In any judicial proceeding under this subsection, the court may award costs of litigation (including reasonable attorney and expert witness fees) to any prevailing or substantially prevailing party whenever it determines that such award is appropriate."

**(c) CONFORMING AMENDMENT FOR CITIZEN SUIT ACTIONS.**—The first sentence of section 505(d) is amended by inserting "prevailing or substantially prevailing" before "party".

#### SEC. 506. INDIAN TRIBES.

Title V is amended by redesignating section 518, and any references thereto, as section 519 and by inserting section 517 the following new section:

#### "SEC. 518. INDIAN TRIBES.

**"(a) POLICY.**—Nothing in this section shall be construed to affect the application of section 101(g) of this Act, and all of the provisions of this section shall be carried out in accordance with the provisions of such section 101(g). Indian tribes shall be treated as States for purposes of such section 101(g).

**"(b) ASSESSMENT OF SEWAGE TREATMENT NEEDS; REPORT.**—The Administrator, in cooperation with the Director of the Indian Health Service, shall assess the need for sewage treatment works to serve Indian tribes, the degree to which such needs will be met through funds allotted to States under section 205 of this Act and priority lists under section 216 of this Act, and any obstacles which prevent such needs from being met. Not later than 1 year after the date of the enactment of this section, the

Administrator shall submit a report to Congress on the assessment under this subsection, along with recommendations specifying (1) how the Administrator intends to provide assistance to Indian tribes to develop waste treatment management plans and to construct treatment works under this Act, and (2) methods by which the participation in and administration of programs under this Act by Indian tribes can be maximized.

**"(c) RESERVATION OF FUNDS.**—The Administrator shall reserve each fiscal year beginning after September 30, 1986, before allotments to the States under section 205(e), one-half of 1 percent of the sums appropriated under section 207. Sums reserved under this subsection shall be available only for grants for the development of waste treatment management plans and for the construction of sewage treatment works to serve Indian tribes.

**"(d) COOPERATIVE AGREEMENTS.**—In order to ensure the consistent implementation of the requirements of this Act, an Indian tribe and the State or States in which the lands of such tribe are located may enter into a cooperative agreement, subject to the review and approval of the Administrator, to jointly plan and administer the requirements of this Act.

**"(e) TREATMENT AS STATES.**—The Administrator is authorized to treat an Indian tribe as a State for purposes of title II and sections 104, 106, 303, 305, 308, 314, 319, 401, 402, and 404 of this Act to the degree necessary to carry out the objectives of this section, but only if—

**"(1)** the Indian tribe has a governing body carrying out substantial governmental duties and powers;

**"(2)** the functions to be exercised by the Indian tribe pertain to the management and protection of water resources which are held by an Indian tribe, held by the United States in trust for Indians, held by a member of an Indian tribe if such property interest is subject to a trust restriction on alienation, or otherwise within the borders of an Indian reservation; and

**"(3)** the Indian tribe is reasonably expected to be capable, in the Administrator's judgment, of carrying out the functions to be exercised in a manner consistent with the terms and purposes of this Act and of all applicable regulations.

Such treatment as a State may include the direct provision of funds reserved under subsection (c) to the governing bodies of Indian tribes, and the determination of priorities by Indian tribes, where not determined by the Administrator in cooperation with the Director of the Indian Health Service. The Administrator, in cooperation with the Director of the Indian Health Service, is authorized to make grants under title II of this Act in an amount not to exceed 100 percent of the cost of a project. Not later than 18 months after the date of the enactment of this section, the Administrator shall, in consultation with Indian tribes, promulgate final regulations which specify how Indian tribes shall be treated as States for purposes of this Act. The Administrator shall, in promulgating such regulations, consult affected States sharing common water bodies and provide a mechanism for the resolution of any unreasonable consequences that may arise as a result of differing water quality standards that may be set by States and Indian tribes located on common bodies of water. Such mechanism shall provide for explicit consideration of relevant factors including, but not limited

to, the effects of differing water quality permit requirements on upstream and downstream dischargers, economic impacts, and present and historical uses and quality of the waters subject to such standards. Such mechanism should provide for the avoidance of such unreasonable consequences in a manner consistent with the objective of the Act.

**"(f) GRANTS FOR NONPOINT SOURCE PROGRAMS.**—The Administrator shall make grants to an Indian tribe under section 319 of this Act as though such tribe was a State. Not more than one-third of 1 percent of the amount appropriated for any fiscal year under section 319 may be used to make grants under this subsection. In addition to the requirements of section 319, an Indian tribe shall be required to meet the requirements of paragraphs (1), (2), and (3) of subsection (d) of this section in order to receive such a grant.

**"(g) ALASKA NATIVE ORGANIZATIONS.**—No provision of this Act shall be construed to—

**"(1)** grant, enlarge, or diminish, or in any way affect the scope of the governmental authority, if any, of any Alaska Native organization, including any federally-recognized tribe, traditional Alaska Native council, or Native council organized pursuant to the Act of June 18, 1934 (48 Stat. 987), over lands or persons in Alaska;

**"(2)** create or validate any assertion by such organization or any form of governmental authority over lands or persons in Alaska; or

**"(3)** in any way affect any assertion that Indian country, as defined in section 1151 of title 18, United States Code, exists or does not exist in Alaska.

**"(h) DEFINITIONS.**—For purposes of this section, the term—

**"(1)** 'Federal Indian reservation' means all land within the limits of any Indian reservation under the jurisdiction of the United States Government, notwithstanding the issuance of any patent, and including rights-of-way running through the reservation; and

**"(2)** 'Indian tribe' means any Indian tribe, band, group, or community recognized by the Secretary of the Interior and exercising governmental authority over a Federal Indian reservation."

#### SEC. 507. DEFINITION OF POINT SOURCE.

For purposes of the Federal Water Pollution Control Act, the term "point source" includes a landfill leachate collection system.

#### SEC. 508. SPECIAL PROVISIONS REGARDING CERTAIN DUMPING SITES.

**(a) FINDING.**—The Congress finds that the New York Bight Apex is no longer a suitable location for the ocean dumping of municipal sludge.

**(b) GENERAL RULE.**—Title I of the Marine Protection, Research, and Sanctuaries Act of 1972 (33 U.S.C. 1401 et seq.) is further amended by inserting after section 104 the following new section:

#### "SPECIAL PROVISIONS REGARDING CERTAIN DUMPING SITES

**"SEC. 104A. (a) NEW YORK BIGHT APEX.**—(1) For purposes of this subsection:

**"(A)** The term 'Apex' means the New York Bight Apex consisting of the ocean waters of the Atlantic Ocean westward of 73 degrees 30 minutes west longitude and northward of 40 degrees 10 minutes north latitude.

**"(B)** The term 'Apex site' means that site within the Apex at which the dumping of

municipal sludge occurred before October 1, 1983.

"(C) The term 'eligible authority' means any sewerage authority or other unit of State or local government that on November 2, 1983, was authorized under court order to dump municipal sludge at the Apex site.

"(2) No person may apply for a permit under this title in relation to the dumping of, or the transportation for purposes of dumping, municipal sludge within the Apex unless that person is an eligible authority.

"(3) The Administrator may not issue, or renew, any permit under this title that authorizes the dumping of, or the transportation for purposes of dumping, municipal sludge within the Apex after the earlier of—  
"(A) December 15, 1987; or

"(B) the day determined by the Administrator to be the first day on which municipal sludge generated by eligible authorities can reasonably be dumped at a site designated under section 102 other than a site within the Apex.

"(b) RESTRICTION ON USE OF THE 106-MILE SITE.—The Administrator may not issue or renew any permit under this title which authorizes any person, other than a person that is an eligible authority within the meaning of subsection (a)(1)(C), to dump, or to transport for the purposes of dumping, municipal sludge within the site designated under section 102(c) by the Administrator and known as the '106-Mile Ocean Waste Dump Site' (as described in 49 F.R. 19005)".  
SEC. 509. OCEAN DISCHARGE RESEARCH PROJECTS.

(a) IN GENERAL.—Notwithstanding any other provision of law, the Administrator is authorized to issue a research permit to the Orange County, California, Sanitation Districts for the discharge of preconditioned municipal sewage sludge into the ocean for the purpose of enabling research to be conducted in assessing and analyzing the effects of disposing of sewage sludge by pipeline into ocean waters—

(1) if the Administrator is satisfied that such local governmental agency is actively pursuing long-term land-based options for the handling of its sludge with special emphasis on remote disposal alternatives set forth in the 1980 LA/OMA sludge management project and on reuse of sludge or use of recycled sludge; and

(2) if the Administrator determines that there is no likelihood of an unacceptable adverse effect on the environment as a result of issuance of such permit and that such permit would meet the requirements of paragraph (2) of section 301(h) of the Federal Water Pollution Control Act, as amended by this Act, and of the sentences following the first sentence of such section if such permit were being issued under such section.

(b) PERMIT TERMS.—

(1) PERIOD.—The permit for the discharge of sludge shall be for a period of 5 years commencing on the date of such discharge and shall not be extended or renewed.

(2) MONITORING.—Such permit shall provide for monitoring (including whole effluent monitoring) of permitted discharges and other discharges into the ocean in the same area and the effects of such discharges (including cumulative effects) in conformance with requirements established by the Administrator, after consultation with appropriate Federal and State agencies, and for the reporting of such monitoring to Congress and the Administrator every 6 months.

(3) VOLUME OF DISCHARGE.—Such permit shall provide that the volume of such local

agency's sludge disposed of by such experimental pipeline shall be no more than one and one-half times that being disposed of by such remote disposal and alternatives for the reuse of sludge and the use of recycled sludge. In no event shall the agency dispose of more than 50 percent of its sludge by the pipeline.

(4) TERMINATION.—The permit shall provide for termination of the permit if the Administrator determines that the disposal of sewage sludge is resulting in an unacceptable adverse impact on fish, shellfish, and wildlife. The Administrator may terminate a permit issued under this section if the Administrator determines that there has been a decline in ambient water quality of the receiving waters during the period of the permit even if a direct cause and effect relationship cannot be shown. If the effluent from a source with a permit issued under this section is contributing to a decline in ambient water quality of the receiving waters, the Administrator shall terminate such permit.

(c) LIMITATION ON PRECEDENCE.—The facts and circumstances described in subsection (a) present a unique situation which will not establish a precedent for the relaxation of the requirements of the Federal Water Pollution Control Act applicable to similarly situated discharges.

(d) REPORT.—Such districts shall report the results of the program and an analysis of such program to Congress under this section not later than 4½ years after issuance of the permit.

SEC. 510. LIMITATION ON DISCHARGE OF RAW SEWAGE BY NEW YORK CITY.

(a) IN GENERAL.—

(1) NORTH RIVER PLANT.—If the wastewater treatment plant identified in the consent decree as the North River plant has not achieved advanced preliminary treatment as required under the terms of the consent decree by August 1, 1986, the city of New York shall not discharge raw sewage from the drainage area of such plant (as defined in the consent decree) into navigable waters after such date in an amount which is greater for any 30-day period than an amount equal to 30 times the average daily amount of raw sewage discharged from such drainage area during the 12-month period ending on the earlier of the date on which such plant becomes operational or March 15, 1986 (as determined by the Administrator), except as provided in subsection (b).

(2) RED HOOK PLANT.—If the wastewater treatment plant identified in the consent decree as the Red Hook plant has not achieved advanced preliminary treatment as required under the terms of the consent decree by August 1, 1987, the city of New York shall not discharge raw sewage from the drainage area of such plant (as defined in the consent decree) into navigable waters after such date in an amount which is greater for any 30-day period than an amount equal to 30 times the average daily amount of raw sewage discharged from such drainage area during the 12-month period ending on the earlier of the date on which such plant becomes operational or March 15, 1987 (as determined by the Administrator), except as provided in subsection (b).

(b) WAIVERS.—

(1) INTERRUPTION OF PLANT OPERATION.—In the event of any significant interruption in the operation of the North River plant or the Red Hook plant caused by an event described in subparagraph (A), (B), or (C) of paragraph (5) occurring after the applicable

deadline established under subsection (a), the Administrator shall waive the limitation of subsection (a) with respect to such plant, but only to such extent and for such limited period of time as may be reasonably necessary for the city of New York to resume operation of such plant.

(2) INCREASED PRECIPITATION.—In the event that the volume of precipitation occurring after the applicable deadline established under subsection (a) causes the discharge of raw sewage to exceed the limitation under subsection (a), the Administrator shall waive the limitation of subsection (a) with respect to either or both such plants, but only to such extent and for such limited period of time as the Administrator determines to be necessary to take into account the increased discharge caused by such volume of precipitation.

(3) VARIATIONS IN CERTAIN NORTH RIVER DRAINAGE AREA DISCHARGES.—In the event that an increase in discharges from the North River drainage area constituting a violation of subsection (a)(1) is due to a random or seasonal variation, and that any sewer hookup occurring, or permit for a sewer hookup granted, after July 31, 1986, is not responsible for such violation, the Administrator shall waive the limitation of subsection (a)(1), but only to such extent and for such limited period of time as the Administrator determines to be reasonably necessary to take into account such random or seasonal variation.

(4) VARIATIONS IN CERTAIN RED HOOK DRAINAGE AREA DISCHARGES.—In the event that an increase in discharges from the Red Hook drainage area constituting a violation of subsection (a)(2) is due to a random or seasonal variation, and that any sewer hookup occurring, or permit for a sewer hookup granted, after July 31, 1987, is not responsible for such violation, the Administrator shall waive the limitation of subsection (a)(2), but only to such extent and for such limited period of time as the Administrator determines to be reasonably necessary to take into account such random or seasonal variation.

(5) CIRCUMSTANCES BEYOND CITY'S CONTROL.—The Administrator shall extend either deadline under paragraph (1) or (2) of subsection (a) to such extent and for such limited period of time as may be reasonably required to take into account any—

(A) act of war,

(B) unanticipated grave natural disaster or other natural phenomenon of an exceptional, inevitable, and irresistible character, the effects of which could not have been prevented or avoided by the exercise of due care or foresight, or

(C) other circumstances beyond the control of the city of New York, except such circumstances shall not include (i) the unavailability of Federal funds under section 201 of the Federal Water Pollution Control Act, (ii) the unavailability of funds from the city of New York or the State of New York, or (iii) a policy decision made by the city of New York or the State of New York to delay the achievement of advanced preliminary treatment at the North River plant or Red Hook plant beyond the applicable deadline set forth in subsection (a).

(c) PENALTIES.—Except as otherwise provided in subsection (b), any violation of subsection (a) shall be considered to be a violation of section 301 of the Federal Water Pollution Control Act, and all provisions of such Act relating to violations of such section 301 shall apply.

(d) **CONSENT DECREE DEFINED.**—For purposes of this section, the term "consent decree" means the consent decree entered into by the Environmental Protection Agency, the city of New York, and the State of New York, on December 30, 1982, relating to construction and operation of the North River and Red Hook wastewater treatment plants.

(e) **COOPERATION.**—The Administrator shall work with the city of New York to eliminate the discharge of raw sewage by such city at the earliest practicable date.

(f) **SAVINGS CLAUSE.**—Nothing in this section shall be construed as modifying the terms of the consent decree.

(g) **SENSE OF CONGRESS.**—It is the sense of Congress that the Administrator should not agree to any further modification of the consent decree with respect to the schedule for achieving advanced preliminary treatment.

(h) **TERMINATION DATES.**—

(1) **NORTH RIVER PLANT.**—The provisions of this section shall remain in effect with respect to the North River drainage area until such time as the North River plant has achieved advanced preliminary treatment (as defined in the consent decree) for a period of six consecutive months.

(2) **RED HOOK PLANT.**—The provisions of this section shall remain in effect with respect to the Red Hook drainage area until such time as the Red Hook plant has achieved advanced preliminary treatment (as defined in the consent decree) for a period of six consecutive months.

(i) **MONITORING ACTIVITIES.**—The Administrator shall promptly establish and carry out a program within available funds to implement the monitoring activities which may be required under subsection (a).

(j) **ESTABLISHMENT OF METHODOLOGIES.**—The Administrator shall establish the methodologies, data base, and any other information required for making determinations under subsection (b)—

(1) for the North River drainage area (as defined in the consent decree) by July 31, 1986, unless the requirements of subsection (h)(1) have been satisfied, and

(2) for the Red Hook drainage area (as defined by the consent decree) by July 31, 1987, unless the requirements of subsection (h)(2) have been satisfied.

(k) **VIOLATIONS.**—In carrying out this section, if the Administrator finds that a violation of subsection (a) has occurred, the Administrator shall also determine, within 30 days after such finding, whether a provision of subsection (b) applies. If the Administrator requires information from the city of New York in order to determine whether a provision of subsection (b) applies, the Administrator shall request such information. If the city of New York does not supply the information requested by the Administrator, the Administrator shall determine that subsection (b) does not apply. The city of New York shall be responsible only for such expenses as are necessary to provide such requested information. Enforcement action pursuant to subsection (c) shall be commenced at the end of such 30 days unless a provision of subsection (b) applies.

#### SEC. 511. STUDY OF DE MINIMIS DISCHARGES.

(a) **STUDY.**—The Administrator shall conduct a study of discharges of pollutants into the navigable waters and their regulation under the Federal Water Pollution Control Act to determine whether or not there are discharges of pollutants into such waters in amounts which, in terms of volume, concentration, and type of pollutant, are not sig-

nificant and to determine the most effective and appropriate methods of regulating any such discharges.

(b) **REPORT.**—Not later than 1 year after the date of the enactment of this Act, the Administrator shall submit to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate a report on the results of such study along with recommendations and findings concerning the most effective and appropriate methods of regulating any discharges of pollutants into the navigable waters in amounts which the Administrator determines under such study to be not significant.

#### SEC. 512. STUDY OF EFFECTIVENESS OF INNOVATIVE AND ALTERNATIVE PROCESSES AND TECHNIQUES.

(a) **EFFECTIVENESS STUDY.**—The Administrator shall study the effectiveness on waste treatment of innovative and alternative wastewater treatment processes and techniques referred to in section 201(g)(5) of the Federal Water Pollution Control Act which have been utilized in treatment works constructed under such Act. In conducting such study, the Administrator shall compile information, by State, on the types of such processes and techniques utilized, on the number of facilities constructed with such processes and techniques, and a description of such processes and techniques which have not performed to design standards. The Administrator shall also determine which States have not obligated the full amount set aside under section 205(i) of such Act for such processes and techniques and the reasons for each such State's failure to make such obligations.

(b) **REPORT.**—Not later than one year after the date of the enactment of this Act, the Administrator shall submit to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate a report on the results of such study, along with recommendations for providing more effective incentives for innovative and alternative wastewater treatment processes and techniques.

#### SEC. 513. STUDY OF TESTING PROCEDURES.

(a) **STUDY.**—The Administrator shall study the testing procedures for analysis of pollutants established under section 304(h) of the Federal Water Pollution Control Act. Such study shall include, but not be limited to, an analysis of the adequacy and standardization of such procedures. In conducting the analysis of the standardization of such procedures, the Administrator shall consider the extent to which such procedures are consistent with comparable procedures established under other Federal laws.

(b) **REPORT.**—Not later than 1 year after the date of the enactment of this Act, the Administrator shall submit a report on the results of the study conducted under this subsection, together with recommendations for modifying the test procedures referred to in subsection (a) to improve their effectiveness, to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate.

#### SEC. 514. STUDY OF PRETREATMENT OF TOXIC POLLUTANTS.

(a) **STUDY.**—The Administrator shall study—

(1) the adequacy of data on environmental impacts of toxic industrial pollutants discharged from publicly owned treatment works;

(2) the extent to which secondary treatment at publicly owned treatment works removes toxic pollutants;

(3) the capability of publicly owned treatment works to revise pretreatment requirements under section 307(b)(1) of the Federal Water Pollution Control Act;

(4) possible alternative regulatory strategies for protecting the operations of publicly owned treatment works from industrial discharges, and shall evaluate the extent to which each such strategy identified may be expected to achieve the goals of this Act;

(5) for each such alternative regulatory strategy, the extent to which removal of toxic pollutants by publicly owned treatment works results in contamination of sewage sludge and the extent to which pretreatment requirements may prevent such contamination or improve the ability of publicly owned treatment works to comply with sewage sludge criteria developed under section 405 of the Federal Water Pollution Control Act; and

(6) the adequacy of Federal, State, and local resources to establish, implement, and enforce multiple pretreatment limits for toxic pollutants for each such alternative strategy.

(b) **REPORT.**—Not later than 4 years after the date of the enactment of this Act, the Administrator shall submit a report on the results of such study along with recommendations for improving the effectiveness of pretreatment requirements to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate.

#### SEC. 515. STUDIES OF WATER POLLUTION PROBLEMS IN AQUIFERS.

(a) **STUDIES.**—The Administrator, in conjunction with State and local agencies and after providing an opportunity for full public participation, shall conduct studies for the purpose of identifying existing and potential point and nonpoint sources of pollution, and of identifying measures and practices necessary to control such sources of pollution, in the following ground water systems and aquifers:

(1) the ground water system of the Upper Santa Cruz Basin and the Avra-Altar Basin of Pima, Pinal, and Santa Cruz Counties, Arizona;

(2) the Spokane-Rathdrum Valley Aquifer, Washington and Idaho;

(3) the Nassau and Suffolk Counties Aquifer, New York;

(4) the Whidbey Island Aquifer, Washington;

(5) the Unconsolidated Quaternary Aquifer, Rockaway River area, New Jersey;

(6) contaminated ground water under Litchfield, Hartford, Fairfield, Tolland, and New Haven Counties, Connecticut; and

(7) the Sparta Aquifer, Arkansas.

(b) **REPORTS.**—Not later than 2 years after the date of the enactment of this Act, the Administrator shall submit to Congress a report on the studies conducted under this section.

(c) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated \$7,000,000 for fiscal years beginning after September 30, 1986, to carry out this section.

#### SEC. 516. GREAT LAKES CONSUMPTIVE USE STUDY.

(a) **STUDY OF CONSUMPTIVE USES.**—In recognition of the serious impacts on the Great Lakes environment that may occur as a result of increased consumption of Great Lakes water, including loss of wetlands and

reduction of fish spawning and habitat areas, as well as serious economic losses to vital Great Lakes industries, and in recognition of the national goal to provide environmental protection and preservation of our natural resources while allowing for continued economic growth, the Secretary of the Army in cooperation with the Administrator, other interested departments, agencies, and instrumentalities of the United States, and the 8 Great Lakes States, is authorized to conduct a study of the effects of Great Lakes water consumption on economic growth and environmental quality in the Great Lakes region and of control measures that can be implemented to reduce the quantity of water consumed.

(b) **MATTERS INCLUDED.**—The study authorized by this section shall at a minimum include the following:

(1) a review of the methodologies used to forecast Great Lakes consumptive uses, including an analysis of the sensitivity of key variables affecting such uses;

(2) an analysis of the effect that enforcement of provisions of the Federal Water Pollution Control Act relating to thermal discharges has had on consumption of Great Lakes water;

(3) an analysis of the effect of laws, regulations, and national policy objectives on consumptive uses of Great Lakes water used in manufacturing;

(4) an analysis of the associated environmental impacts and of the economic effects on industry and other interests in the Great Lakes region associated with individual consumptive use control strategies; and

(5) a summary discussion containing recommendations for methods of controlling consumptive uses which methods maximize benefits to the Great Lakes ecosystem and also provide for continued full economic growth for consuming industries as well as other industries which depend on the use of Great Lakes water.

(c) **GREAT LAKES STATES DEFINED.**—For purposes of this section, the term "Great Lakes States" means Minnesota, Wisconsin, Illinois, Ohio, Michigan, Indiana, Pennsylvania, and New York.

(d) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated for fiscal years beginning after September 30, 1986, \$750,000 to carry out this section. Sums appropriated under this section shall remain available until expended.

#### SEC. 517. SULFIDE CORROSION STUDY.

(a) **STUDY.**—The Administrator shall conduct a study of the corrosive effects of sulfides in collection and treatment systems, the extent to which the uniform imposition of categorical pretreatment standards will exacerbate such effects, and the range of available options to deal with such effects.

(b) **CONSULTATION.**—The study required by this section shall be conducted in consultation with the Los Angeles City and County sanitation agencies.

(c) **REPORT.**—Not later than 1 year after the date of the enactment of this Act, the Administrator shall submit a report on the results of the study, together with recommendations for measures to reduce the corrosion of treatment works, to the Committee on Public Works and Transportation of the House of Representatives and the Committee on Environment and Public Works of the Senate.

(d) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated \$1,000,000 to carry out this section for fiscal years beginning after September 30, 1986.

#### SEC. 518. STUDY OF RAINFALL INDUCED INFILTRATION INTO SEWER SYSTEMS.

(a) **STUDY.**—The Administrator shall study problems associated with rainfall induced infiltration into wastewater treatment sewer systems. As part of such study, the Administrator shall study appropriate methods of regulating rainfall induced infiltration into the sewer system of the East Bay Municipal Utility District, California.

(b) **REPORT.**—Not later than one year after the date of the enactment of this Act, the Administrator shall submit to Congress a report on the results of such study, along with recommendations to reduce such infiltration.

#### SEC. 519. DAM WATER QUALITY STUDY.

The Administrator, in cooperation with interested States and Federal agencies, shall study and monitor the effects on the quality of navigable waters attributable to the impoundment of water by dams. The results of such study shall be submitted to Congress not later than December 31, 1987.

#### SEC. 520. STUDY OF POLLUTION IN LAKE PEND OREILLE, IDAHO.

The Administrator shall conduct a comprehensive study of the sources of pollution in Lake Pend Oreille, Idaho, and the Clark Fork River and its tributaries, Idaho, Montana, and Washington, for the purpose of identifying the sources of such pollution. In conducting such study, the Administrator shall consider existing studies, surveys, and test results concerning such pollution. The Administrator shall report to Congress the findings and recommendations concerning the study conducted under this section.

The **PRESIDING OFFICER.** The Senator from West Virginia.

Mr. BYRD. I thank the distinguished Presiding Officer.

#### SELECT COMMITTEE ON IRAN AND NICARAGUA

Mr. BYRD. Mr. President, I am about to ask unanimous consent that the Senate proceed to the consideration of a resolution establishing the select committee of the Senate to conduct an investigation. This resolution has been widely discussed.

I shall ask unanimous consent shortly that the Senate proceed to the immediate consideration of the resolution. If that consent is granted—Mr. President, may we have order in the Senate?

The **PRESIDING OFFICER** (Mr. BINGAMAN). The Senate will be in order.

The majority leader is recognized.

Mr. BYRD. Mr. President, I thank the Chair.

Mr. President, the resolution will be open for amendment, of course, and would be subject to debate.

Before I make the request, may I say that I have modified the resolution in several ways, and I have not had an opportunity to inform the distinguished Republican leader of the modifications.

The modifications comport with the recommendations of Senators INOUE and RUDMAN, the chairman and vice chairman of the select committee to be, and also comport with the recom-

mendations of, or at least commands the support of, the incoming new chairman of the Senate Select Committee on Intelligence, Mr. BOREN.

Mr. President, for the benefit of the press and all Senators, particularly the distinguished Republican leader, the changes would be as follows:

On the first page, in the resolving clause establishing the select committee, the name of the select committee would be changed from "Select Committee on Secret Military Assistance to Iran and the Nicaraguan Contras" to the "Select Committee on Secret Military Assistance to Iran and the Nicaraguan Opposition."

The next modifications which I will make, appear on page 7 of the resolution which Senators have in their hands. The first modification on page 7 states that the staff shall work for the select committee as a whole. Here is the modification: "shall report to the chairman and vice chairman."

So, what is being done here is this: The language did not provide that the staff would report to the chairman and the vice chairman. The language as appears in the resolution is as follows: "All staff shall work for the select committee as a whole and, except as otherwise provided by the select committee, shall be under the immediate direction of the staff director."

It is changed to read as follows: "All staff shall work for the select committee as a whole and shall report to the chairman and vice chairman, and, except as otherwise provided by the select committee, shall be under the direction of the chairman," instead of under the direction of the staff director.

The next modification on page 7 would provide for the designation by the majority and minority leaders of the Senate of one staff person to serve on the staff of the select committee, to serve as the liaison to the select committee on behalf of the distinguished Republican leader and the majority leader.

On page 17, the following language is added as (b)(1): "The Select Committee on Intelligence is hereby directed to prepare and provide to the select committee, in closed session, a report of its investigation into any matter described in section 1 of this resolution, which report shall include a summary of the testimony and chronology of events developed by the Select Committee on Intelligence, together with a listing of any unresolved questions and issues which it recommends be pursued by the select committee as soon as practicable."

May I say that the resolution gives to the select committee access, in any event, to the materials, documents, papers, et cetera—not only the Senate Select Committee on Intelligence but

also any other committees that have investigative jurisdiction or jurisdiction which would put those committees into the possession of papers, documents, whatever, that the new select committee would require in order to carry out its mandate under the resolution creating the select committee.

The final modification is as follows: "The select committee shall make a final public report \* \* \* at the earliest practicable date, but not later than August 1, 1987, provided that on or before August 1, 1987, a privileged motion made by the majority leader, to be debatable for no more than 1 hour, in the usual form, shall be in order, with the exception that no motion to reconsider, no motion to refer or commit, and no motion to table will be in order."

That privileged motion shall read as follows: "I move that the time be extended from August 1, 1987, to October 30, 1987, for the investigation and final report of the select committee."

So that the date for the final report of the select committee, as embraced in this resolution, is August 1, 1987, unless circumstances are such that the committee needs an extension of time; and the language that is now in the resolution provides for further action by the Senate on a privileged motion that the majority leader will be authorized to make.

Under the limitations I have stated, the Senate then may wish to extend the time to October 30, 1987, which is the date within the original resolution, before the modification.

That, I think, completes my statement with respect to modifications.

Before I ask unanimous consent that the Senate proceed to the consideration of the resolution, does the distinguished minority leader wish me to yield to him?

Mr. DOLE. If the distinguished majority leader will yield, as I understand, there were a couple of changes also on page 6.

Mr. RUDMAN. And 7.

Mr. BYRD. The distinguished Republican leader is correct.

On page 6, the top of the page, paragraph 2, "A majority of the voting members of the select committee shall constitute a quorum for the transaction of business." The change is as follows: the words "transaction of business" are stricken and inserted in lieu thereof are the following words "reporting a matter or recommendation to the Senate."

This would mean that the resolution then would read thusly: "A majority of the voting members of the select committee shall constitute a quorum for reporting a matter or recommendation to the Senate," and then going on using the present language or the language that is in the copy that has been circulated, "except that the select committee may fix a lesser

number as a quorum for the purpose of taking testimony before the select committee or for conducting the business of the select committee."

The word "other" would be inserted just before "business" making the language read "except that the select committee may fix a lesser number as a quorum for the purpose of taking testimony before the select committee or for conducting the other business of the select committee."

Mr. DOLE. Mr. President, will the majority leader yield further?

Mr. BYRD. Yes.

Mr. DOLE. I am advised by the distinguished Senator from New Hampshire that on page 7 there was one omission, if the Senator will yield to the Senator from New Hampshire.

Mr. BYRD. Yes.

May I say, Mr. President, that I am not satisfied with the modification that I just read.

Mr. DOLE. The one on 6?

Mr. BYRD. The one on page 6.

So for the moment I would withhold that modification.

May we go to page 7?

Mr. RUDMAN. If the distinguished majority leader will yield, I believe on page 7 it has been agreed that on line 1 the sentence should end with a period after the word "staff" and all other should be stricken. I believe the chairman had discussed that with the committee and the committee felt they do not want that kind of delimitation.

I would make one other observation for the majority leader.

I believe that on the title page of Senate Resolution 1, the distinguished majority leader did in fact state a correction on page 5. I believe there is also a change that he inadvertently omitted in the midpart of that sentence the word "terrorist" in the first part which we had agreed to be stricken. Other than that, I believe that the distinguished majority leader's caption of this complicated legislation is absolutely correct.

Mr. BYRD. Mr. President, I thank the distinguished Senator. The distinguished Senator is correct. I overlooked the striking of the word "terrorist." We all know that Iran is a terrorist state and has been so designated by our own State Department.

I am striking the word "terrorist" from the preamble.

Now, the distinguished Senator called another inadvertent oversight to my attention, and I believe that was on page 5?

Mr. DOLE. Page 6.

Mr. BYRD. Page 6.

Mr. RUDMAN. I believe I said line 5.

Mr. DOLE. No, line 1.

Mr. RUDMAN. Line 1, page 7.

Mr. BYRD. Yes, line 1, page 7. The Senator is correct again as usual. There is a period at the end of the word "staff" in the first line of page 7

and the remaining words are stricken, they being "including a staff director and a chief counsel."

So that paragraph would read as follows. It is very short. "Section 3(a)(1) to assist the select committee in its investigation of the study, the chairman after consultation with the vice chairman and the approval of the select committee, shall appoint committee staff," period.

Were there any other changes?

Mr. RUDMAN. I thank the distinguished majority leader. That is now correct to my understanding.

Mr. DOLE. Will the Senator yield?

Mr. BYRD. Yes.

Mr. DOLE. Mr. President, we discussed the resolution. In fact, the distinguished Senator from New Hampshire clearly set forth the provisions of the resolution in the Republican conference meeting this morning. I think the change that has been made will accommodate, I guess with one or two exceptions, the concerns that were raised. There were some opposed to the resolution.

The distinguished Senator from Nevada, Senator HECHT, will speak in opposition to the resolution. But I know of no objection to considering the resolution.

It would be my hope we might be able to resolve one additional area and probably save several hours here. This is the area I discussed with the distinguished chairman of the Intelligence Committee, Senator BOREN. It would include not only the Select Committee on Intelligence being directed to prepare and provide to this select committee but at the same time release to the public a report which I am advised by the distinguished Senator from Oklahoma, Senator BOREN, would be probably different than the report that was discussed yesterday in the Intelligence Committee. If there could be some agreement on that, it might save an amendment and some few hours of debate. If not, we certainly have no objection to the consideration of the resolution with or without that change but there could be an amendment and there could be considerable debate.

I am perfectly willing we consider the resolution with or without that change. I hope there may be some way to work it out.

It is my view we could probably pass this resolution quickly if that could be done. There are questions that are going to be raised. I think they can be resolved by colloquies between the Senator from New Hampshire and the distinguished chairman, the Senator from Hawaii, Senator INOUE.

I am advised that in those areas there may be some questions raised by Senators, but I do believe that it is our hope that we can pass this resolution this afternoon.

Mr. BYRD. Mr. President, do I still have the floor?

The PRESIDING OFFICER. Yes; the Senator from West Virginia has the floor.

Mr. BYRD. I thank the Chair. I only continue to hold it until we resolve this matter we are discussing here now on whether or not it will be called up.

I yield to the distinguished Senator from Hawaii with the same understanding as before.

Mr. INOUE. Mr. President, I would like to join in the discussion on the leader's amendment to direct the Select Committee on Intelligence to prepare a report and to submit that to the Select Committee on Nicaragua and Iran.

I would hope that the Senate would leave it to the wisdom and judgment of the select committee to determine whether we should release and if so what portions of that Intelligence Committee report, because we have the responsibility of continuing this investigation, and if it is in our judgment not in the interest of our Nation or the committee's work to release any or all of that Intelligence Committee report I think we should have the privilege and the authority not to do so.

But to at this juncture, by this resolution, require the select committee to make public the findings, the allegations, the innuendoes that may be in the Intelligence Committee report may not only add to the confusion that we find in our Nation but very likely make our work that much more difficult.

I hope the Republican leader will leave it up to Senator RUDMAN and me to make a determination as to whether the Intelligence Committee report should be released all or in part.

I can assure you that we have been working on this matter in a thoroughly bipartisan manner. We have had full cooperation and I am certain Senator RUDMAN will be the first to state that I have maintained an open file with him. I have not hidden anything from him. I can assure you that everything I know he knows and I also am assured that everything he knows I know.

We want to start this committee on a bipartisan manner, proceed in a similar fashion, and to end in a manner that will be in the best interests of our Nation. We will try to do our work expeditiously, thoroughly, in a way that will not bring any disgrace to this body.

So I hope the Republican leader will agree with the majority leader and just permit the Intelligence Committee to report to us and just have it up to us as to what we do after that.

Mr. BOREN. Mr. President, will the distinguished majority leader yield?

Mr. BYRD. Yes; I ask unanimous consent that I may yield under the same conditions as heretofore noted.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Oklahoma.

Mr. BOREN. I thank the distinguished majority leader. I have just heard the conversation which has taken place. I want to associate myself with the remarks that have just been made by the Senator from Hawaii. All of us hope and plan to operate in a totally bipartisan fashion.

As I take on the responsibilities of the chairmanship of the Select Committee on Intelligence, I do so knowing that I am dealing with the national interest. I seek to deal with it as an American first, without regard to political considerations.

I would say to the distinguished minority leader that it is my hope that our committee—and I discussed this with Senator COHEN, the distinguished vice chairman—can put together a report in a deliberative fashion as quickly as possible, but thoroughly and carefully, judiciously, that can be passed on to the select committee that will be created by this resolution; and that, in addition, it is my hope and will certainly be my intent that we would attempt to make as much of the information public, release it to the public, as we possibly can, consistent with national security and consistent with the interests of the ongoing investigation which will be conducted by the select committee and the independent counsel. It would certainly be our intent to do so.

And if this legislation were to authorize us to proceed in that fashion, if it were to say that we were authorized to release as much as could be released, consistent with the national security and in the interest of fairness of the ongoing investigation, we would strive to do so. We would strive to do so as quickly and as thoroughly as possible and we would operate totally in good faith.

As we have been hearing the witnesses in that committee earlier, some of the witnesses appeared under promise of anonymity for national security reasons. Witnesses were, in essence, sequestered. They were asked not to discuss some details of their testimony with other witnesses that were before us because, of course, in any investigation it is sometimes important to keep information compartmentalized. But I know from speaking with him that the Senator from Maine shares my desire to work cooperatively to bring out as many of the facts as we can to the public, to summarize as much of the evidence as we can summarize and make as much public as possible. And it would be my intent to work in good faith to do so if this resolution were simply to authorize us to do so.

I think it might be inadvisable to direct us to release a public report at this point, in that, in consultation with the Senator from Hawaii and the Senator from New Hampshire, there might be certain information they felt we should not release in light of their ongoing investigation. Certainly, I want to assure everyone concerned that it is our desire to act in good faith to bring as many facts as we can, not only to the new committee, but also to the American people.

I want to assure both the majority leader and minority leader that if they should decide to put language in this resolution that authorize us and directs us to report to the select committee and authorizes us to make public as much as possible of that report, we will endeavor to do so in a good faith fashion. I hope that that would be the final resolution of this matter, to allow us to operate in this way, to use our discretion, under the assurance that, as chairman, and also having talked with Senator COHEN, I know that he as vice chairman will work with me, working together with other members of the committee, to try to make as much know to the public as we possibly can and as quickly as we can.

Mr. BYRD. Mr. President, will the distinguished Republican leader indicate again his proposal so that I might listen once more.

Mr. DOLE. Again, let me state that I have no real quarrel with anything that has been said. I think it is necessary that we start off on a totally non-partisan or bipartisan basis. I think there were some who have read into yesterday's vote in the Intelligence Committee a display of partisanship. I do not believe that is accurate. We do not want that to spill over into the first day of the existence of the new committee.

On the other hand, I know the President of the United States had planned on issuing a statement this afternoon to again urge the Intelligence Committee to make this report public. There have been a lot of stories and a lot of speculation about what happened—some of it accurate and some of it inaccurate. But the net result is to bring down the President insofar as the public confidence is concerned as demonstrated by the polls.

The President, I think in good faith, indicated he was going to send his people up here to come before the Intelligence Committee. And it was always his impression—and I am not certain quite what it was based on, whether it was public statements or whatever—when the Intelligence Committee completed its work, it would make public, after declassification, all the information it could.

In my view, the President is correct. We should not try to manage what the

public should hear. At the same time, we know that there are areas of national security that we should not release. And I have every confidence in the distinguished chairman of the Intelligence Committee, Senator BOREN.

It would seem to me we might be able to work out some language and then have some discussion on the floor—we have already had some—that would indicate his desire not to in any way interfere with the select committee chaired by Senator INOUE, but at the same time to carry out what some feel to be a responsibility of the Intelligence Committee to release information that can be made public. No one knows, I have not read the report, that was discussed yesterday. As I understand it, not many people have. I do not know who it exonerates or who it embarrasses. I do not believe that should be the question.

But the question is, how soon will the American public have information based upon sworn testimony? And I believe the President of the United States is entitled to have that made public at the earliest possible date.

So that leads me to the original proposal that the distinguished Senator from Oklahoma and the Senator from New Hampshire brought to my attention. This language has since been stricken. Let me read the language I would suggest either be modified or included. These are the words "and the select committee shall release as much of the information in this report for the public which is consistent with the interest of the public and national security."

I think there has been a suggestion that we change the word "shall" to "may," and that would be satisfactory, because I have no question about the good faith of any Senator in this Chamber. My only quest has been to get everything out and get it out as quickly as we could.

If that were agreeable with the distinguished majority leader and we could have some debate after the resolution is before us, I think that would be very helpful. I thank the majority leader for yielding.

Mr. BYRD. Mr. President, I thank the distinguished Republican leader. I believe and I hope that we can reach some amicable and appropriate resolution of this impending question that deals with the modification on page 17, or the proposed modification. May I say, however, so that the record will be clear on both sides, that we all want the public to know the facts. The public is entitled to know the facts. The public deserves to know the facts. The President is entitled for all the facts to be made known, and each of us has the responsibility, as far as each can promote such, to make the facts known to the public with respect to the arms sales or arms shipments to Iran and also with respect to the re-

ported use of any moneys from such shipments or sales or transfers, diversion of such to the Nicaraguan Contras or for any other purpose that may be found to have been illegal, unethical or unauthorized.

Mr. President, nobody is well served by making available to the public only part of the record. The full record has not been written yet. Last evening we were discussing the release of a report to the public, the draft of which had not been read by Members who were going to be asked to vote on the release of that report. I do not have a vote as an ex officio member of the committee. I had not read the draft of the report. But there were also others who had not read the draft of the report. The draft had been prepared by the staff, working with the representatives of the White House, the National Security Council, and other agencies and representatives of the Government, the appropriate purpose of which was to be sure that any classified information would not be released. But there was at least one example that was made very clear in the presence of all who were there of the elimination of a good many sentences and/or paragraphs which were not classified. And so this Senator was unwilling to release—some days down the road, 10 days or 12 days, whatever it was—a report, make it public, which this Senator has not had a chance to read. The idea was, when I left the committee—I do not know exactly what went on after that—to release the report 10 or 12 days down the road. In the meantime, we could read the draft. I am not willing to buy a pig in the poke, take it "sight unseen" and say, "OK, I will vote to do that."

I want to make the facts public, too, and I am sure the President wants to make the facts public. The facts would long ago have been public but the President, in signing the January 17, 1986, finding, instructed the CIA to avoid informing the committees of the Congress. So for many months Congress and the public did not know anything about it, nothing.

Now the great rush is to get all the facts out, and we should get the facts out as soon as possible. But let us have all the facts. That is the purpose of creating the select committee, to develop the truth, the whole truth and nothing but the truth—the full facts, and lay them all out. When all the facts are laid out, I am sure that any persons who should be exonerated will be exonerated. But I think we make a mistake in prematurely releasing a partial record. There are witnesses who have not been heard. There are witnesses whose names probably even are not yet known who will need to be heard. And so on the part of those of us, lest there be some perception that it was a partisan vote last night as I have heard that it was—and as I say

being an ex officio member, neither the distinguished minority leader nor I has a vote on that committee, but may I say that if we recall the days when Mr. Nixon was having his problem—and there were a lot of cries going up from the other side of the aisle, may I say, in this body and in the other, that the President ought to be "impeached"—this Senator was saying, "Let us go slow, let us go slow; let us not rush to judgment."

That is what I am saying at this point. Let us get the full facts. To release a report at this time, or force the select committee to do so, would be a disservice to that committee and could get in the way of its work and could likewise prove to be an impediment to the special counsel.

I will read the following, and I read this for the purpose of responding to the distinguished Republican leader to see if we might change the language so that it will fit with the language that is in the present law regarding the Select Committee on Intelligence. Section 8(a)—Senators will find this on page 137 of the book *Senate Manual, Standing Orders of the Senate*. Section 8(a), "The select committee may, subject to the provisions of this section, disclose publicly any information in the possession of such committee after a determination by such committee that the public interest—the public interest—"would be served by such disclosure."

Now, the words "public interest" were not casually chosen in the enactment of that law. I wonder if the distinguished Republican leader and Mr. INOUE and Mr. RUDMAN and Mr. BOREN those who have spoken thus far on that matter—would be agreeable to changing the language to read as follows: "The Select Committee on Intelligence is hereby directed to prepare and provide to the select committee, in closed session, report of its investigation into matters described in section 1 of this resolution, which report shall include a summary of the testimony and chronology of events developed by the Select Committee on Intelligence, together with a listing of unresolved questions and issues which it recommends be pursued by the select committee as soon as possible and the select committee may release as much of the information in this report to the public as it deems advisable which is consistent with the interest of the public and national security and is deemed to be by the committee in the public interest after a determination by such committee that the public interest would be served by such disclosure."

Mr. DOLE. Will the majority leader yield?

Mr. BYRD. Yes.

Mr. DOLE. I personally have no problem with that based on the stat-

ute, based on what I know to be the good faith of the distinguished chairman of that committee, Senator BOREN. I have not talked to the ranking member on that committee, Senator COHEN, but I understand his objection yesterday, and he voted with the majority, was the report itself; that he felt it was too long, too cumbersome; he felt there could be a shorter summary that would in effect give the public as much information. So I have no objection. I am advised it is satisfactory to the distinguished ranking Republican on the new select committee, Senator RUDMAN, and I do believe it would serve the purpose. And if it were agreed to I would advise the White House, Don Regan specifically, that we are making an effort to accommodate not just the President; it is not a question of accommodating the President, but accommodating the American public, by getting out the information, by making as much of it public as advisable I think were the words used by the majority leader and consistent with the present statute because those words were chosen with care.

We could discuss it later, but I guess we could agree on this language if there would be some indication by the chairman of the Intelligence Committee that that matter would be proceeded with rather expeditiously.

Mr. BYRD. Mr. President, I thank the distinguished Republican leader.

Does the Senator from Oklahoma wish me to yield?

Mr. BOREN. Yes.

Mr. BYRD. I yield.

Mr. BOREN. I think the solution which has been proposed is a very good one. I will repeat what I said earlier. We will operate in good faith and as expeditiously as we can to try to determine what information can be made public consistent with public interest and national security concerns.

There was a concern expressed by the Senator from Maine about the issuance of a report last night. I do not believe there was really any partisan feeling about that matter. It was a matter of judgment about whether or not, since many members of the committee had not had the opportunity to read the report, with the staff having worked many long hours, with a monumental job and acting very diligently, were simply not able to finish the revised drafts until just before the meeting. Therefore, virtually none of the 15 members of the committee had the opportunity to read the report. There was a feeling that perhaps it was too late and that a more concise summary of the testimony given to us could be put together.

I say simply that there was some difference of opinion on the committee, an honest difference of opinion about it. That reflected the opinion of the Senator from Maine, myself, and

others. We certainly want to get as many of the facts out as we can, as quickly as we can, consistent with our responsibility to national security and to the select committee to make certain that anything we do will not hamper their ongoing investigation. We will want to carefully consult with the chairman and vice chairman of the new select committee as well to begin to put something together.

I assure the distinguished minority leader if this language is adopted we will certainly diligently operate in our committee to determine what can be made public and try to bring out the facts as quickly as we can, in addition to trying to make a helpful report to the select committee as it begins its work.

I see the distinguished Senator from Minnesota on the floor. He has certainly done outstanding work over the past 2 years chairing our committee. It has been my privilege to serve with him on that committee. He made a very great effort to try to have a report put together in time for our committee to act. Certainly, the work which he has done will be of great help as we try to go ahead and complete some kind of report which we can make.

I think this is a good suggestion which has been made, that the language is good language, and I assure all concerned that our committee will operate in good faith to carry out the spirit of that language.

Mr. DURENBERGER. I wonder if the distinguished majority leader will yield me some time?

Mr. BYRD. I yield to the distinguished chairman, the vice chairman of the Select Committee on Intelligence, without losing my right to the floor.

The PRESIDING OFFICER. The Senator from Minnesota.

Mr. DURENBERGER. I rise for just a few minutes, Mr. President. Obviously, there is a temptation on an occasion like this on the chairman of the Intelligence Committee to explain why in the last couple of years we failed to do a good job of oversight so that we did not discover this little operation acting under our noses. Now that we know it has been operating under the President's nose, and he does not know a lot about it, you do not feel too badly about that.

There is a temptation, nonetheless, to take this occasion to let the people of this country as well as the President and our colleagues to know exactly what we on the Senate Select Committee on Intelligence know.

It is not a problem for me to reject the temptation because I am bound by the requirements of secrecy and the security process under which all of the testimony was taken.

Mr. President, I wish to take just a minute to clarify just a couple of points of fact, perhaps.

One is that when we entered into the process in the beginning of December to be the committee which would take as much testimony and gather as much evidence as possible on what is the covert action, nothing more than that, just the covert action involved in the Iran arms sale, we also undertook to do that as expeditiously as possible and to make the benefit of our work available to those who need to know the product as quickly as we possibly could do that.

At the end of the taking of testimony process on the 18th or 19th of December we discussed whether or not a public report could be made and what form it ought to take.

At that point in time it was clear we had 3 weeks of testimony taken from individuals under examination and we had a lot of documentary evidence as well gathered from all over the country. It would be very difficult to put together a meaningful body of information, but it was worth the try.

So we did that. The product of that is a document which is currently about 133 pages in length. I have it right here.

I think it very fairly summarizes what went on in the covert action in which the President decided to use arms sales as a medium of foreign policy and national security policy.

What it does not do, Mr. President, is arrive at some specific conclusions about what went wrong and who ought to be blamed.

We did not see that as our charge because ours was a preliminary effort.

Our effort was to be preliminary, to be intense, to get to all of the people involved as quickly as possible before they could, what people call, cook their stories, compare notes behind the scenes and make sure the public never knew what went on and make sure that then nobody could fix responsibility.

All along it was quite clear that our work would have to be succeeded by the work of others.

As we began our work, it became clear that an independent counsel would become necessary to cover some of the criminal elements. As we began our work, it became clear that this body and the House would come to judgment on a select committee process to pick up on our work.

But at no time, as chairman of this committee, was I ever under the impression that this committee, the committee of the 99th Congress under which this covert action was conducted by this administration, that this committee should not inform its colleagues and the administration and the public of this country, who are served or disserved, as the case may

be, as to what we knew about the facts in this case.

It is for that reason, at the encouragement of the President of the United States, who is going to be, as he currently is, embarrassed, if you will, by this; at the urging of myself who is embarrassed that this happened on my watch, so to speak; the encouragement of the majority leader who has had the responsibility for the congressional part of national security policy, that we did make an effort to put together this report, which does not get in the way of select committee conclusions, does not get in the way of independent counsel's criminal conclusions, but merely lays out the facts as they are known to this committee and does it in a narrative fashion so the facts mean something rather than appear simply as a cold, sterile chronology of events.

My colleague and my successor, for whom I have an incredible amount of respect, has accurately indicated that one of the arguments used against the release of this report by this committee, the committee of the 99th Congress, is that the document that I hold in my hand today was completed only yesterday morning, and many of us including the Chair of the committee did not have an opportunity to read all 133, or whatever it is, pages of this document.

I made provision, as my colleagues who are here on the floor and who were in attendance at that meeting did, for that eventuality; that is, that I suggested that this report might be adopted subject to editorial or other modification and released sometime after the 12th of January, giving us all a normal 2 weeks maybe, week or 2 weeks, to examine it, come to some conclusions, make changes that we thought were appropriate, and then release it.

I cannot comment as others have on the fact of the vote or the result of the vote. Others have commented on it. But I can endorse what I understand to be the accommodation suggested here to the authorizing legislation by the resolution on this committee; that this report or something approximating this report—and I understand Senator DOLE has had a chance to look at this perhaps, and the new majority leader who was the minority leader, and an ex officio member of this committee, has this copy together with the original copy.

I know my colleague, my successor, has this copy and the preceding copy which we have all read. And I would hope that before we leave the floor today we can agree that the proposition that the leader has put before us in terms of modified language is appropriate, and that we can also agree that his commitment to us, his colleagues, and his commitment to the American people and the commitment

of my successor, the chairman of this committee, who I know takes this responsibility very seriously, is to come as close to this report as is possible, given the realities that have been spoken to on this floor in terms of national security. But the important thing I think is for the people of this country as well as the people involved to have something that is meaningful.

We cannot wait until February when hearings begin. We cannot wait until October when a report is released to know that we already know, Mr. President.

So I urge my colleagues to give their immediate attention, and particularly to my successor to give his immediate personal attention to getting a report as much like this as possible out to the people of this country.

Mr. SPECTER. Will the majority leader yield? I have something along the same line.

Mr. BYRD. Mr. President, I will yield shortly for that purpose. The distinguished Republican leader and I no later than 3 o'clock need to carry out our duties as the Senate has mandated and inform the President that the Senate has established a quorum and is ready to do business.

But before I leave the floor, may I say to the distinguished Senator from Oklahoma, the people are going to know the truth. Let us be careful. Let us be careful that we do not act in a way that would deprive them in the final analysis of the full truth and all of the facts. Whoever should be exonerated will be exonerated. If there is nothing to hide, nothing to be found. But let us not push out here with a partial report. I will never vote to report a matter 10 days from now as sensitive as this without having read what I am voting to report 10 days from now.

May I say that the distinguished chairman of the Senate Intelligence Committee has done an extraordinarily good job. He has worked unceasingly, tirelessly, and, in the limited period in which the committee has had to work, he has done well. The committee deserves much admiration. Attendance at all hearings was good on both sides of the aisle. But in such limited time, obviously, any report that would be submitted at this time to the public would be incomplete, and it would be filled with gaps. There are witnesses who have not been heard, who must be heard, and some of whose names we do not even know. They may be in Israel. They may be in Central America. They may be somewhere else. All of this hurry to reveal to the public the facts which we do not yet know is not in the public interest. And that is what the law says. It uses the words "public interest."

Is it in the public interest, and is it in the interest of the President to release something now that is only par-

tial in its nature? That is only part of the record? Is it in the interest of the public that that be done if perchance it impedes the work of the independent counsel, whose responsibility it is under the law, and whose responsibility it is under the court's mandate, to follow the threads, if the law has been broken, wherever they may lead, to prosecute one or more individuals, and to go before a grand jury, and to ask a court that "use immunity" be granted? Are we tying the independent counsel's hands? Has anyone asked the independent counsel how he feels about releasing this report? It could very well get in the way of the select committee. Why all the hurry?

It is all going to be revealed. Everything is going to be made known. But everything can only be made known after the select committee has done its work, and after the independent counsel has completed his work.

So let us not get in too big a rush here. Nobody is saying that the public should not know. But let us not confuse the public. Let us not fool the public into thinking that it is going to know everything merely if we release the report which I have not read, which the members of the committee have not read, and which has been "sanitized" by representatives of the White House, representatives of the National Security Council, and other entities whose representatives have appeared as witnesses. And in the course of "sanitizing" to remove classified material, we learned at least one glaring example last evening of testimony that was not classified that had been deleted.

I am not in favor of voting to release such a report at this time. And it is not political on my part. I have a responsibility to this institution. And I have a responsibility to the people of this country, my own constituency included. I have a responsibility to the President of the United States to help to do what I can to get to the bottom of the matter, get the facts, all the facts, nothing but the facts, the clear record, the complete record, and lay it all out.

As far as I am concerned that is what we are going to do. It is unfair to the American people to do anything less.

Mr. BOREN. Will the Senator yield? Mr. SPECTER. Will the Senator yield?

Mr. BYRD. I should like to go with the distinguished Republican leader and call on the President.

Mr. President, I ask unanimous consent that I may now yield to the distinguished Senator from Pennsylvania [Mr. SPECTER], for 10 minutes, and that I may then yield 10 minutes to the distinguished Senator from Oklahoma [Mr. BOREN]—and that in this one instance I may be considered as

having held the floor, even though I have to yield the floor; that Mr. HECHT may have 5 minutes; that Mr. HELMS may have 5 minutes all for the purpose only of making statements; and that when I return from having carried out the order of the Senate in calling the President, with my distinguished colleague, the minority leader, I may again have the floor.

Mr. SPECTER. I thank the distinguished majority leader for yielding to me at this time.

While he is still on the floor, I would say that a great many of the questions which the majority leader has raised would be answered when he has an opportunity to take the time to read the report.

I serve on the Intelligence Committee, and I have taken the time to read the report, and it answers many of the objections which Senator BYRD has raised here this afternoon.

In support of what Senator DURENBERGER, the outgoing chairman of the Intelligence Committee, has said, it is my view that the Intelligence Committee report ought to be released promptly, after the Members have had a chance to read it and make whatever suggestions or modifications they have.

As I read the report and analyze the situation, Mr. President, it is my firm view that the interests of the American people would be well served by knowing what the Intelligence Committee has found during the course of its investigation.

At the outset, when Senator DOLE and Senator BYRD announced their intention with respect to the select committee, it seemed to me in early December, that that would be a good idea. As the Intelligence Committee moved further into its investigation, however, and we moved ahead to interview witnesses and to spend long days in session, gathering the evidence, I had a doubt, based on the fact that the Intelligence Committee might well have moved ahead to make a determination of the very basic issues in this matter, that perhaps the complete investigation would not be fulfilled during the month of December, but a great deal could be completed.

As I say, I have read the report; and those of us on the Intelligence Committee, like the majority leader, have a responsibility to this institution and a responsibility to this country, and that report ought to be released because it answers a great many questions.

I do not believe that the majority leader, Senator BYRD, is correct in condemning the release of the report until he at least has had a chance to read the report.

I believe further, Mr. President, that the contents of the report ought to be released, through one process or another, perhaps by the new select committee, at the earliest possible date,

and I would urge the select committee to move very promptly on the issue of immunity, limited-use immunity, for Admiral Poindexter and Lieutenant Colonel North.

I took the position in the Intelligence Committee's deliberations—and continue to strongly believe—that limited-use immunity should promptly be granted to Lieutenant Colonel North and Admiral Poindexter, so that there can be a determination on the issue of any Presidential involvement in the diversion of funds to the Contras. I am convinced that this could be done without prejudicing any possible prosecution of either Lieutenant Colonel North or Admiral Poindexter.

The distinguished majority leader has raised the issue of speed or undue haste, and I would say that there is no speed or undue haste in releasing the report or in moving ahead with that limited-use immunity, because the prosecution can be protected.

There is, in fact, a very important purpose to be served by moving ahead with speed, because there is a cloud now over the Presidency; the operation of the executive branch is impeded. For much of December, the entire executive branch was run out of room 219 in the Hart Senate Office Building, where we had the Chief of Staff, the Secretary of Defense, and the Attorney General. The executive branch was preoccupied, if not paralyzed, over this Iran matter and the diversion of funds to the Contras.

The Intelligence Committee did not seriously consider, as this Senator urged, a movement toward a grant of limited-use immunity to Poindexter and North. When the independent counsel was appointed on December 19, that was an occasion which could have activated the 10-day notice under the statute, and we could have moved ahead to obtain the testimony of North and Poindexter.

It should be borne in mind, Mr. President—and it is widely misunderstood—that once limited-use immunity is granted, it does not preclude the prosecution of prospective defendants, but only bars the use of their testimony or leads from their testimony.

There is a practice—which has been followed under Watergate and otherwise—to seal the evidence which is available, and that could have been accomplished and there would not have been any realistic danger to a further possible prosecution as to either North or Poindexter by very carefully limiting the questions to the President's role, the role of the Chief of Staff, and those who were in the chain of command.

Through that approach, this key testimony could have been obtained, and I urge the new Senate select committee to proceed in the same way.

When the distinguished majority leader talks about the role of the inde-

pendent counsel, it should be noted that the law is plain, that Congress is the paramount determiner of when use immunity should be granted for issues of this sort.

This matter was litigated fully in the Watergate proceeding, when the select committee chaired by Senator Ervin pressed ahead over the vehement objection of Special Prosecutor Archibald Cox. The court held that once the congressional determination had been made, that was that, and Congress made the determination of what was in the public interest on such disclosure.

So it seems to me, Mr. President, that what ought to be done at the earliest moment is to make a disclosure to the American people, so that there is an understanding as to what has happened. Numerous witnesses were called, and it is that testimony summarized in the report which the Intelligence Committee has prepared.

I believe that once the distinguished majority leader has a chance to read it and others have had a chance to read it, they will see that there is much to be gained in the public interest from the release of that report.

That report has not been sanitized, Mr. President, as I read the report. It may be that there have been some items which, under the judgments of some, are classified and ought not be put in the public domain; and if there is a disagreement, that can be resolved. But I do not believe it is an accurate characterization, in any way, shape, or form, to say that the report has been sanitized.

Mr. President, there are matters of enormous importance that have to be accomplished by the President and the executive branch which are being impeded so long as the cloud hangs over the Presidency. There is the issue of arms control. There is the issue of the budget. There are many, many matters which require attention. I am not suggesting that any of the guilty should go free or that prosecutions should be impaired. With some experience as a prosecuting attorney, I know that limited use immunity can be granted to men like North and Poindexter, and the criminal prosecutions can be preserved, and testimony can be obtained on the very narrow range—the issue of any Presidential involvement.

I am not suggesting that there is any Presidential involvement, but that is a question which is in the public domain, and immunity ought to be granted. The testimony of North and Poindexter should be taken and can be obtained consistent with the preservation of their prosecutions.

The American people are entitled to know the facts at the earliest possible moment, and the American people ought not be denied the facts because

of the kinds of theoretical objections the majority leader has raised without having read the report.

I yield the floor.

Mr. BOREN addressed the Chair.

The PRESIDING OFFICER (Mr. ZORINSKY). The Senator from Oklahoma is recognized.

Mr. BOREN. Mr. President, I want to clarify again the factual situation with which we are dealing. I think we have an honest difference of opinion.

The Senator from Minnesota felt very strongly last night that our committee should vote to issue a report. The majority of the members of the committee felt at that time the particular report before us should not be released for a number of reasons.

First of all, during the committee deliberations an assessment was made of how many members of the committee had had an opportunity at that point when the vote was to be taken, how many members of the committee had read this report, and, Mr. President, there was not a single member of the committee at that point who indicated that he had read the latest version of the report on which we were asked to vote.

I myself had seen an earlier draft over the weekend. I read that draft through thoroughly. Three or four other Senators, including the chairman, had read the earlier draft all the way through. But significant editorial changes were made in it before it was presented to us for a vote.

So, Mr. President, we were asked to vote on issuing a committee report with our names and our personal credibility attached to it, that none of the members of the committee had read, and then we were told we could have editorial changes made in that report by the staff at the discretion of the staff after members had had a chance to read the report, if members would give their suggestions to the staff for changes, in other words, delegating out to members of the staff who were not elected under the constitutional process, to act in the names of the Senators who were members of that committee.

Mr. President, I just in all honesty am not in the habit of delegating the right to someone else to put words in my mouth as a member of this Senate. I am not in the habit of voting on reports that the members of a committee, including myself, have not had an opportunity to read.

There was another question raised. Before many of the staff members of the committee and before many of the members of the committee themselves were given an opportunity to see the latest draft of which we were asked to vote, editorial changes were suggested by two members of the White House staff and one member of the National Security Council staff. We were unable at the time of the vote to have

before us the draft to see what editorial changes had been suggested by the members of the White House staff.

So I would say, Mr. President, it is an honest difference of opinion. This Senator simply did not feel it would be in the interest of the Nation, or of the President of the United States, or of the credibility of the Intelligence Committee or the Senate as an institution to pass unread a report that had been edited by members of the White House staff, had not been read by the Senators on the committee and to delegate to the staff members on the committee the right to make further editorial changes in it before it was issued 10 or 12 days hence.

Having said that, let me say that I believe that the Senator from Minnesota and others acted in good faith to try to put together a report to try to summarize the extensive hearings which we had held, and I think the committee did a service. We were able to preserve testimony. We were able to take testimony under oath while it was still fresh and to pass on transcripts of that testimony to the successor select committee.

I think the committee has done a service. I think the chairman and vice chairman of that committee performed a service in their diligence in conducting those hearings.

But let me say again let us be fair. Let us be thorough. Let us give the American people the facts and let us make sure that we are not giving them a distorted view.

I am sure—and I speak for the Senator from Maine as well as for myself—in saying that we will diligently try to determine again in consultation with the chairman and vice chairman of the committee and with consideration for any concerns that might be voiced by the independent counsel to try to work toward passing on to that successor committee as much information as we can in a summary form and to determine as has been stated by the majority leader if in the national interest and the public interest we can release additional portions to the public as much as we can release to the public as much as is in the public interest, in the national security interest, to release.

I am committed to trying to do and to do it in a way that will not mislead the public but will indicate the nature, the very partial nature, the piecemeal nature of the information which we have recovered because I cannot answer the questions, has the law been violated, if so, by whom?

We do not even know at this point how much money actually changed hands and where that money ended up in terms of its final distribution.

Until we have the answers to those questions, we cannot answer the questions that are on the minds of the American public and indeed the kinds

of questions that the President himself has raised.

But for a committee to issue a report, without reading it, to delegate to the staff the right to rewrite it, a report which has at least had editorial comment made upon it by members of the White House staff before it was even given to members of the committee itself I think would not serve the public interest. It would not set this matter to rest. It would not have the effect of untangling the President from this controversy.

I come from a State, Mr. President, that is hard hit with all sorts of economic problems. I want to get on to other business of the country, the economic problems and the other challenges that we face, I do not want us to continue these deliberations longer than is absolutely necessary but for the sake of the country, for the sake of the President, we must be thorough, we must be judicious, we must act in a responsible manner, and the majority of the members of that committee last night acted in conscience and did in conscience what they thought was in the national interest, not for any political purpose because this is not a time for politics. This is a time for statesmanship and putting the national interest first.

I again assure my colleagues. Our committee will proceed in that spirit to try to bring out as many of the facts as we possible can.

The PRESIDING OFFICER. The Senator from Nevada is recognized for 5 minutes.

Mr. HECHT. Thank you very much.

I agree with many of the remarks of my Republican colleagues today. I want to focus on the resolution that we are looking at at the moment.

What that resolution is going to do is form a new select committee.

I serve as a member of this Select Committee on Intelligence.

I want to compliment our distinguished former chairman, DAVID DURENBERGER, and his staff for an excellent job.

As Senator DURENBERGER said in the middle of December, about the 18th or 19th, one of those days, "We have this matter 95 percent put together. There is 5 percent of the puzzle we don't have."

At that time our President asked limited-use immunity for Admiral Poindexter and Lieutenant Colonel North. That was denied, and as a result, we were not able to finish our work by Christmas which we certainly could have done had we had the testimony of Lieutenant Colonel North and Admiral Poindexter.

Last night or yesterday morning before the President went in for surgery, he asked us to release a sanitized report. By that I mean taking out all classified information, so we could get

this matter out to the American public.

But rather than clearing this matter up, what we are doing today is forming a new committee. I do not know at the moment how many committees have been formed in the House of Representatives and the Senate, but there are several. Also a special counsel is working as is the Tower commission.

I question why we need a new committee. We have all of the facts. I think what we are doing is dragging this on and on and on into the next year.

Let me tell you some of my fears, Mr. President. First of all, by dragging this out for many, many months, which is obviously going to happen, we are going to jeopardize further dealings with all countries. This is going to have a devastating effect on our present and future intelligence operations all around the world.

Mr. President, during the Christmas break when I was fortunate to be in my home State of Nevada with my family, I got a chance to talk to the people back home. Let me tell you what they want. The American people want the facts. The American people are willing to take the consequences and the American people want Congress to proceed with the job we have been elected to do, that is, to get on with the important business of running our country.

Mr. President, I am going to vote against this resolution and I urge my colleagues to do the same.

Thank you.

The PRESIDING OFFICER. The majority leader is recognized.

Mr. BYRD. Mr. President, I ask unanimous consent that I may suggest the absence of a quorum until the arrival on the floor of the distinguished Republican leader and other Senators and that I may not lose my right to the floor by virtue of—Mr. President, I withdraw that request.

Mr. President, I believe the distinguished Senator from North Carolina, Mr. HELMS, had earlier indicated he wished to speak on this subject. I yield the floor for that purpose.

The PRESIDING OFFICER. The Senator from North Carolina is recognized for 5 minutes.

Mr. HELMS. Mr. President, I thank the distinguished majority leader, and I thank the Chair.

I will say to my friend from West Virginia that I had wanted primarily to ask a few questions of Senator BOREN. He is not on the floor, so, if it is all right with you, let me yield back that time and request it later.

Mr. BYRD. Very well.

Mr. HELMS. Thank you.

The PRESIDING OFFICER. The majority leader is recognized.

Mr. BYRD. I thank the Chair.

Mr. President, in order that I may yield the floor and give other Senators

the opportunity to get the floor in their own right, I send to the desk a resolution on behalf of myself, Mr. DOLE, and Mr. INOUE, and Mr. RUDMAN, establishing the select committee which we have been discussing for quite some time on the floor, and I ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A resolution (S. Res. 23) establishing a select committee of the Senate to conduct an investigation and study of activities by the National Security Council and other agencies of the United States Government with respect to the direct or indirect sale, shipment, or other provision of arms to Iran and the use of the proceeds from any such transaction to provide assistance to any faction or insurgency in Nicaragua or in any other foreign country, or to further any other purpose, and related matters.

The PRESIDING OFFICER. Is there objection to the request of the Senator from West Virginia?

There being no objection, the Senate proceeded to consider the resolution.

Mr. DOLE addressed the Chair.

The PRESIDING OFFICER. The minority leader is recognized.

Mr. DOLE. Mr. President, I understand the distinguished Senator from New Hampshire, Senator RUDMAN, and others on this side wish to speak, and there are certain colloquies they would like to enter into.

Let me indicate that I believe, with the modifications made by the majority leader, that the resolution should be approved. There are some questions as to the scope. There will be questions as to private funding of the Contras and there will be some questions raised about that. There are some who believe—and I am one of those—that if, in fact, that is going to be within the scope, then maybe we should determine whether or not there is any private funding for the Sandinistas. But, in any event, that will be raised by others.

I do believe that shortening the time period from October 30 to August 1 is a step in the right direction. If, in fact, we do want to complete action on this resolution at the earliest possible time, then certainly the August 1 date will be extremely helpful.

It is my understanding that it is the intention of the majority leader to complete action, the Senate's action, this session, before the end of October. If there is no report until the end of October, it means it goes over until next year. And if there are recommendations made by the committee, as I assume there will be recommendations made by the Select Committee on Legislation, then we would be in 1988 with this matter still before us with more hearings on legislation. It would seem to me we ought to be able to shorten that time, expedite it and complete work on this matter hopefully before

August 1, but certainly no later than August 1.

The modification does provide that if the work cannot be completed, then there will be a vote. I have no quarrel with that, and I hope that would be satisfactory—I know the distinguished Senator from North Carolina, Senator HELMS, would like to pose some questions to the distinguished Senator from Oklahoma, Senator BOREN—regarding making information public. It seems to me, if someone wanted to, they could stand right on the Senate floor and read that report. It is not classified. I am not suggesting that, but I assume if the report is available, you could stand here and read it and it would be public. I am talking about the report that we discussed in the Intelligence Committee yesterday afternoon. And the release of that report was rejected by a vote of 7 to 6.

But I am convinced that the Senator from Oklahoma, Senator BOREN, who is the new chairman of that committee, is acting in good faith, along with Senator COHEN.

I have listened to Senator DURENBERGER and others. I do not agree that we have to wait until we have all the facts until we release the information. We may never have all the facts. In that case, we would never release any information. Who is going to determine when we have all the facts? Who is going to make the judgment there is nothing else out there that we do not know and therefore we can safely release this information to the public? Much of it, as I understand, has already been testified to in open hearings on the House side.

So I hope that there will be some expeditious handling of this matter. I also hope that those who are in the business of informing the public would help us obtain this information. In fact, I read a report in one of the papers this morning that sort of characterized much of the statement not made public. I do not know who the informer was or who the source was, but there was information in that article that indicated that somebody was talking to someone.

It is my belief that there have been all kinds of stories and innuendos, some have been accurate, some have been inaccurate, some had no truth at all in them. They have been on the nightly news. They have been headlines in papers across the country. And if there is some way to lay out the truth—maybe not all of it, but whatever we have—lay it out as it comes, as long as it does not undermine our security or the public interest, then I would have a hard time trying to defend not releasing it to the public.

That is what it is all about around here. We have open hearings when we can. We cannot exclude the press. We do not try to exclude the press. We ad-

journal to our offices and have informal discussions, things of that kind.

But when we are making judgments, it seems to me that if the information is declassified, there is no reason and really no right to withhold it from the American people. That is the point the President has been making. I hope that we can resolve that one area in this resolution. And if that can be done, I would see no reason for any extended debate, although there may be some reason I am not aware of.

Mr. HELMS addressed the Chair.

The PRESIDING OFFICER. (Mr. SIMON). The Senator from North Carolina.

Mr. HELMS Mr. President, we are being asked to vote on a resolution that no Senator has read beyond the leadership. I just saw a copy of the amended form, or modified form. It looks like it was written with a pencil and edited with a typewriter.

I wonder if it would not be better to make a copy of the resolution, as offered, available to Senators and let us look at it. I do not like to legislate in the fashion that after the fact you find this wrong and that wrong.

Furthermore, there is a point about what do we owe the President of the United States. I have been in a position a number of times wherein I was faced with false charges. In the middle of 1986 the New York Times and others spread across the front page charges that "Helms to be probed by the FBI for alleged violations." Well, here we are into January 1987 and not one scintilla of information has been released to the public about that.

Now, I do not like to see the President of the United States hamstrung. Can we not at least say whether the President is guilty of any intentional misstatement or any other culpability? The President of the United States is the Chief Executive of this country charged with the conduct of foreign policy, and yet he has been hamstrung by innuendo, misrepresentations, flat-out falsehoods, and nobody is willing to stand up and say the President is not guilty of this. I think the President, any President, whether he be Democrat or Republican, is entitled at some point early in the game to have the Senate Intelligence Committee or the House Intelligence Committee say, "We have no evidence," or, "We do have some evidence." To string this thing out even to August is totally irresponsible as far as I am concerned and I cannot vote under the circumstances of this legislation as it is now at the desk to create an additional investigating committee.

Let me ask anybody who knows—there are not many people on the floor—how many groups, entities, or organizations are investigating this matter today? Can anybody answer that for me? My question is, how many committees, commissions, or

other entities are now investigating this matter? I cannot count them.

Mr. BYRD. Mr. President, that is the purpose of the resolution which I have submitted and I believe I have the cosponsorship—

Mr. HELMS. I am sorry, I cannot hear the Senator.

Mr. BYRD. I say the purpose of the resolution which I have submitted, with the cosponsorship of the distinguished Republican leader and Mr. RUDMAN and Mr. INOUE, is to provide that there be a select committee in the Senate—

Mr. HELMS. I understand.

Mr. BYRD [continuing]. To do the investigating so as to avoid investigations by a plethora of committees, a plethora of committee staffs, and it is in the interest of concentrating the whole force, with the Senate's backing, of an investigation in one special committee.

Mr. HELMS. One committee in the House, one committee in the Senate.

Mr. BYRD. Yes.

Mr. HELMS. Then there is the one downtown and Lord knows how many others.

Mr. BYRD. Well, I know of no committee downtown. The President has appointed a board, or commission, to study the National Security Council, but that is not an investigative committee. As I understand it, the life of that commission or board, whatever it is called, is very short; it is not an investigative entity, and it is not expected to do the work that the select committee of the Senate and the select committee of the House will do.

Other than that, the independent counsel under the law has been appointed by the Court at the request of the Attorney General of the United States and that independent counsel, of course, will carry out a criminal investigation. If crimes have been committed and if persons are accused, it will be the function of that independent counsel to prosecute them. But as I see it, there will only be two committees, the Senate select committee and the House select committee which will go forward with this work.

Mr. HELMS. Could I ask the Senator if he personally knows of any culpability of the President or any evidence indicating that?

Mr. BYRD. No, I do not personally know—and I have said this publicly, not once but many times—I personally have no evidence that the President is culpable, of having knowingly violated a law, but that does not mean I know everything that is ultimately to be known. It would seem to me if he were a President of my party—he is my President, but if he were the President of my party, I should think that in the final analysis I would want all the facts, believing as I would, not having seen evidence to the contrary, that he

is not guilty of having violated the law.

But I would not want to shutoff an investigation or do anything to impede an investigation. The result of my action then would be a hue and cry that there was a whitewash or that the people did not get the facts or that I tried to obstruct justice.

Mr. HELMS. But the Senator—

Mr. BYRD. I would want the complete facts, I would want all the facts. If my President is not guilty, he will not be found guilty.

Mr. HELMS. Of course, he is presumed innocent, under the system in this country.

Mr. BYRD. I beg the Senator's pardon?

Mr. HELMS. I said he is presumed innocent until he is proven guilty.

Mr. BYRD. Of course he is.

Mr. HELMS. But the Senator is saying as of now he knows of no culpability on the part of the President?

Mr. BYRD. As of now, I do not know of any violation of law on the part of anybody. I cannot go into a court and swear that this man is guilty or that man is guilty or that this man is not guilty or that man is not guilty. That is the purpose of having the independent counsel. He is going to find out if a law has been broken and, if so, by whom, and if someone has broken the law he will prosecute.

Mr. HELMS. That was the point I was making earlier. The independent counsel is already in place and I am sure will do his job. But let me ask the Senator, how much will this investigation cost the taxpayers, this additional investigation?

Mr. BYRD. Yes. We do not know what it will cost, but the legislation provides, whatever it costs, for it to come out of the contingent funds of the Senate. We do not know what the dollar costs are.

Mr. HELMS. But it is still the taxpayers' money.

Mr. BYRD. It is the taxpayers' money. If the Senator will allow me to interrupt for a moment—

Mr. HELMS. If I interrupted him, I apologize.

Mr. BYRD. No, the Senator did not interrupt me. May I say if we are going to talk in terms of costs, this is the 200th anniversary of the Constitution of the United States.

Mr. HELMS. Correct.

Mr. BYRD. And there is no price tag on the constitutional system which has been around for 200 years and which has worked very well and which will continue to work very well. Under our constitutional system, there is a doctrine that we speak of as checks and balances, and that is precisely what is being done here. The Congress has a constitutional responsibility of oversight, a constitutional responsibility of informing the people, a constitu-

tional responsibility of legislating. Now, before it can legislate, it has to have hearings. In order to conduct its oversight responsibilities—I am saying this for the record; I am not telling the Senator anything he does not know, but its oversight responsibilities and its informing responsibilities, which Woodrow Wilson said were as important, if not more important, as legislative responsibilities, are done mostly by committees.

Now a problem has developed which we will not go into but which everybody has been reading about for quite some time and it is incumbent upon all of us to try to see what the facts are. There is no pricetag on that constitutional system. If there is one thing we can do in this 200th year of the writing of the Constitution, it would be to reassure the faith of the American people in that constitutional and political system, and one way of doing it is to find out about all of these things that we have been hearing, and the way to do it is to go at it, put our hand at the plow and develop the facts. The termination date is written into the resolution. It will not go on and on, like Tennyson's brook, forever, and whatever the costs may be those costs are justified. If a crime has been committed, the people want to see justice done, they want to see criminals brought to the courts.

If no crimes have been committed, then the people need to know that. But if while no crimes may have been committed, if there are improvements to be made in the structure of the National Security Council, in the way we formulate our foreign policy, in the way we carry out our covert policies in the interest of national security—if there are flaws, if there are weaknesses—if there can be improvements, then let us find out what they are because it is in the interest of the American people that we do that and this is the way we do it.

We simply close up shop and say, "Well, I do not believe so and so is guilty, so I will just forget about it," because that is one good way of assuring that it will happen over and over again.

I thank the distinguished Senator for yielding.

Mr. HELMS. Mr. President, I agree with the distinguished Senator about the price tag. I also feel that there ought not to be a price tag on the presumption of innocence. Yet I have heard castigations every night, innuendos, remarks, and all the rest of it.

I have known Ronald Reagan for a long time, long before he ran for public office and long before I did. He has had many, many occasions when it might have been more comfortable for him to have shaded the truth. Not once, Mr. President, has he ever done that.

Furthermore, at some point I think Congress ought to consider what it is doing in terms of being an obstruction to the President in the conduct of foreign policy.

I say to you, Mr. President, that if Franklin Roosevelt had been required to prosecute World War II under the same conditions and handicaps and obstructionism that Ronald Reagan faces every day of his life, the French people would have been making vichyssoise today out of sauerkraut because they would have lost the war.

At some point, Mr. President, we have to make up our minds whether really subconsciously, consciously, intentionally or unintentionally, we play politics with this issue.

The distinguished majority leader has just said that he knows of no evidence indicating culpability on the part of the President of the United States. I think that needs to be made clear.

As for another investigation, I do not think another one is necessary. We have enough people investigating, spending enough of the taxpayers' money. While I have the highest respect and admiration for DANNY INOUE and WARREN RUDMAN, I just do not feel that another investigation, duplicating efforts, going back over the same treadmill, is worth it. I think we ought to get on with trying to balance the budget and some of the other problems facing this Nation.

I thank the Chair and I yield the floor.

Mr. BYRD addressed the Chair.

The PRESIDING OFFICER. The majority leader.

Mr. BYRD. Mr. President, may I assure the distinguished Senator from North Carolina that we will get on with the other problems that confront this Nation. If we want this select committee, then the select committee itself will deal with this matter on a separate track. The select committee is proposed to be made up of six Democrats and five Republicans. The distinguished Republican leader and I are not on the select committee. We will be able to devote our energies to the other problems of the country.

I assure the distinguished Senator from North Carolina that I am going to do everything I possibly can to keep the other problems right up front, in full view and on a main track, but at the same time the select committee can be carrying on its important work.

It is not a matter solely of determining that somebody broke the law or did not break the law; it is also very important to know what went wrong, why did this happen, what was going on down in the basement of the White House, who was in charge.

Surely, all these things cannot be done by some colonel and admiral who are working in the basement of the White House. If all of the things that

we hear were done by those two alone and with their knowledge alone, then we have reason for real concern because if they can engage this Nation and put it in danger, perhaps, and commit it to dangerous activities without someone above them knowing it, then we should be as equally concerned as we are if laws have been violated.

Somebody has to be in charge. That is one of the purposes of the investigation by the select committee: what went wrong? What is wrong with the way policy is formulated? What is wrong if covert operations can be carried out by two individuals in the basement of the White House without the Commander in Chief knowing what they may be committing this Nation to? Then we have cause for real alarm.

I feel that the Senate will well serve the people by enacting this legislation and I join with others in hoping that it will be enacted today.

I yield the floor.

Mr. RUDMAN addressed the Chair.

The PRESIDING OFFICER. The Senator from New Hampshire.

Mr. RUDMAN. I thank the Chair.

Mr. President, I just want to say a few brief words.

First, in response to the colloquy between the distinguished majority leader and the Senator from North Carolina, there is a preemption clause specifically designed by the majority and the Republican leaders to ensure economy of resources and energy of the Senate. That is found on page 4, paragraph C, line 17. That has been interpreted by all to mean that it is this select committee which will do this work, thus obviating the necessity of as many as a half dozen committees on this side of the Capitol being involved.

So there is certainly something to be said for that.

I want to just speak briefly to some of the comments made by, I believe, the Senator from Nevada.

I would like to believe that he is right, that all it would take would be another couple of witnesses and we can wind this whole thing up and be done with it. I am sure my friend from Hawaii shares my desire.

My experience before I came here indicates to me that anything as complex as this normally has facets that are undiscovered until one goes forward and this must go forward because there has been enough concern on the part of the American people that the truth must be known.

I want to briefly say about the chairman of this committee, the Senator from Hawaii, that I have known him a scant 6 years, but he is one I have respected for a long time before that, before I knew him.

He has demonstrated a fairness and sensitivity in what we have done up to

now. I know if we were left to our own devices we will have a fair, thorough, bipartisan, careful inquiry into this matter.

Senator INOUE, in the best traditions of the Senate, is going to try to make this committee an example of how an honest, bipartisan inquiry can be carried out and I will join him with everything that I can in my 6 years of experience here, very little in comparison to him, to make sure that that, in fact, does occur.

I want to thank him, one, for his generosity in deciding he would designate me as vice chairman of this committee rather than the normal. I would expect ranking member which would have been fine, but Senator INOUE thought differently.

Second, I guess I can announce today with some certainty it will happen that the chairman has managed to work out a system where we will have a joint staff, a unified staff, not a Democratic staff and a Republican staff, but a unified staff. That is due to the efforts of the Senator from Hawaii, who is trying diligently to ensure that this matter is handled fairly and thoroughly.

I believe that there is a brief colloquy that, I will now have with the Senator from Hawaii to address a couple of issues where concerns were raised by Members, and rather than attempt to redraft what has already been fairly meticulously drafted legislative language, the Senator from Hawaii and I decided with agreement from those others that we might have this colloquy. So I would like to pose just two questions to our chairman.

Mr. President, in reference to section 1(b)(1)(iv)(III) of the resolution, is it the chairman's intention that the committee conduct a complete investigation of all private funding of the Nicaraguan Contras?

Mr. INOUE. The intention of this section is to assure that the committee has sufficiently broad jurisdiction to look into all aspects of the issues we are investigating. It is not the intention of the committee to conduct an investigation into any private funding of the Contras in which there is no direct or indirect Government involvement.

Mr. Chairman, what I am trying to suggest is that without the section in question, the select committee would not be able to inquire into the event involving Mr. Hasenfus because as of this moment there has been no evidence to suggest that war materiel aboard the aircraft was paid for directly or indirectly by funds derived from the sale of arms to Iran.

But I think we should have this opportunity, and if it turns out that funds directly or indirectly were used, fine. If not, I can assure the Senator as chairman of the committee that the investigation will not go any further.

Mr. RUDMAN. I thank the chairman.

I have one additional question. This question is raised because of what lawyers refer to as the boilerplate in terms of the powers of the committee. Although anyone really ought to know that we cannot by language nullify any legal principle or privilege that exists. Nevertheless, I will ask the question since others have raised it.

I would also like to clarify section 5(d)(7)(A). In defining the committee subpoena power, are we denying the possibility of the President asserting executive privilege for some litigimate reason?

Mr. INOUE. I would like to state that executive privilege is a legitimate Presidential prerogative. However, as the courts have determined that executive privilege cannot be asserted in all cases, it is important to clearly define the committee's subpoena powers so that there is no question as to the committee's authority to obtain access to information and materials important to this investigation.

Mr. RUDMAN. I thank the chairman. I would again state to him that I know that everyone on this side of the aisle appreciates his leadership, and will work together to try to conduct this investigation thoroughly and as expeditiously as is possible.

I yield the floor.

Mr. INOUE. Mr. President, I would like to thank my colleague from New Hampshire for his very generous words. I would like to join my vice chairman in assuring our colleagues in the U.S. Senate that this matter will be thoroughly considered, expeditiously handled, and honestly presented to the Senate and to the people of the United States.

Mr. DANFORTH addressed the Chair.

The PRESIDING OFFICER. The Senator from Missouri.

Mr. DANFORTH. Mr. President, I am somewhat heartened by the assurance of both the chairman and the vice chairman of the select committee that this investigation will be handled on an expeditious basis. However, I have to say that I am concerned about the termination date of August 1. My hope would be that they could beat that by a considerable amount of time. I know that in an earlier draft of the proposed resolution, the date was October 30, which I think would be entirely out of the question. It would seem to me that even August 1—that is 7 months' time. I am not sure. I have not been told whether the House has a termination date or not. Apparently the termination date for the House investigation is October 30.

Mr. President, let me say I did not agree with the arms sale. I think that the administration made a mistake. I think it is perfectly fine for Congress to be making an inquiry, making a

thorough inquiry, getting the information out before the American people, doing so completely, and doing so quickly.

I myself believe that the Intelligence Committee should have granted immunity to Colonel North and Admiral Poindexter to compel their testimony. What is significant here is to get the information out, and not whether or not certain evidence is going to be available to prosecute two individuals. We have a national interest in getting the information before the American people, and then getting this issue behind us. It does not serve the national interest to belabor a point. It does not serve the national interest to keep an issue alive month after month after month after month.

Mr. President, three committees of the Congress have already held hearings on the Iran-Contra affair. Three committees of Congress have already held hearings. The Senate Intelligence Committee has held hearings, the House Intelligence Committee has held hearings, and the House Foreign Relations Committee has held hearings.

I do not know how long those hearings lasted but I was just talking to the outgoing chairman of the Senate Intelligence Committee, and he told me that his committee held 16 days of hearings. He told me that some of those days of hearings were 9 a.m. to 9 p.m. days. He told me that probably for those 16 days the average for the hearings was 8 to 10 hours a day for 16 days.

So, Mr. President, that would mean that one of the three committees that has had hearings has held maybe say 130 to 160 hours of hearings so far. Now we are setting up a select committee, and we are giving it 7 months to go into this matter. The House is setting up a separate committee. It has 10 months to conduct its hearings and investigations. Witnesses are going to be having scheduling problems, and probably already have going from one committee meeting to another.

Again, I do not minimize the importance of getting all the information out. I thought that we should have done a better job of getting it out. I thought that the information from our Intelligence Committee should have been made public, and that the two witnesses who did not testify should have been granted immunity and forced to testify so that everything would hang out and do so very, very quickly.

I do not begrudge our select committees the time to go into this matter in a very comprehensive fashion. But I think we have business to do before our country. I think that our Government has business to do, and I believe that all of us have a stake in having a President of the United States who is

able to function and an executive branch of our Government that it able to function.

I think that the American people expect us to be making progress on some of these issues we have in the United States now. I think that if the American people got the impression that we were belaboring an issue and dragging it out and beating a dead horse, they would not appreciate our stewardship of a public trust.

So I have great confidence in the chairman and the vice chairman of this committee, each of whom is on the floor now. I think they are two of our finest Senators. But I implore them to beat this deadline of August 1 and get this matter exposed to the American people and get it behind us as quickly as we possibly can.

Mr. MOYNIHAN addressed the Chair.

The PRESIDING OFFICER (Mr. LEVIN). The Senator from New York.

Mr. MOYNIHAN. Mr. President, I rise for the twofold purpose of addressing the pride this Senator has—I think it is shared with this entire Chamber—in the Senator from Hawaii and the Senator from New Hampshire, two such eminently fairminded, capable, and experienced persons who will carry out this inquiry.

I can speak as one who has sat through more than the better part of the hearings held by the Select Committee on Intelligence which the Senator from Missouri has mentioned; and I must say, in all truth, that to meet their deadline will require very considerable exertion. The scope of things not known and things not knowable in this inquiry impress anyone who has just made the preliminary investigations that we were able to do.

I am not asking for any response, but I make a simple statement: As we inquire into the central issue involved here—which is, have the laws of the United States been abided by?—I hope that the committee might find some time to inquire into the whole question of international law as an element binding on American policymakers and American operatives.

The law of nations is the law of the United States, as provided by article I, section B, clause 10 of the Constitution. Much of the sadness we observe, much of the destruction we observe, began with a decision that was made in the executive branch to violate the law of nations with respect to the mining of Nicaraguan harbors, in contradiction to traditional and conventional international law. An executive branch alive to that responsibility would not have made that decision, or so I believe.

I was vice chairman of the Intelligence Committee when the chairman, our beloved former colleague, Senator Goldwater, and I learned—to our

horror—that this mining had occurred and we had not been consulted.

The role of international law as binding on the operatives of this Nation is a real thing, one to which we committed ourselves in our Constitution two centuries ago, and to which we have committed ourselves over and over again in such matters as the Rio Treaty and the Organization of American States.

I hope this does not pass unnoticed by men who, although legislators, attain to the quality of jurists and who will be judging in the interests of nations as this matter proceeds.

Mr. INOUE. Mr. President, I wish to respond to the very legitimate concern expressed by my dear friend from Missouri in the matter of time.

I should like to advise my colleagues that when I was asked as to what would constitute adequate time for consideration by the select committee, I suggested the end of this year. I based my response on a bit of experience I had a few years ago with the so-called Watergate Committee.

Mr. President, that committee spent 16 months carrying out the mandate of the U.S. Senate—3 of those months just to get itself organized. It took the Justice Department approximately 2 months to complete the process of security clearance.

Senator RUDMAN and I have arranged with the Justice Department, the Federal Bureau of Investigation, to carry out this process in 4 weeks, and that is setting aside just about everything, so that our staff people can be cleared to handle classified information.

The Watergate Committee took 3 months to complete its final report. I would hope that this select committee would be able to complete its final report in less than that—maybe a month.

To further assure my friend from Missouri that everything is being done to assure that this is not going to be a congressional circus, we have made tentative agreements with our House counterparts.

For example, first, we will have serving in the House committee a liaison person assigned by us. They will do the same. So it will not be a situation where secretly one side is trying to outdo the other, rushing for headlines, rushing for the big leak.

Second, and I think this is very important, we have made a tentative agreement—and the Senate committee has agreed upon this proposal—that we alternate the hearings. Instead of having two committees, as the Senator described, having hearings at the same time, and witnessing the spectacle of a witness running from one end of the Capitol to the other and trying to schedule himself at the same time with both committees, the House will

meet for 1 week and we will meet the following week, and alternate.

I can assure the Senator that it will not be repetitive. We will be exchanging information, and we will be sharing classified material.

The chairman and the ranking member on the House side and Senator RUDMAN and I have committed to really meet the deadline. It is not going to be easy, but our meeting hours will be long. If one wishes to really expedite this matter, we should proceed after a thorough investigation has been conducted, so that on that basis we could proceed with public hearings. Right now, if we began our public hearings, it would be a sham. It would be a fishing expedition, and that would not add to the credibility of the U.S. Senate, and I would not want to be a party to that type of activity.

I just wish to assure my friend from Missouri that this select committee is committed to carry out its mandate in a nonpartisan, bipartisan manner. We will do our utmost to complete the work by August 1.

And if it is not possible, we will call upon the majority leader for an extension of time. But whatever it is, in that short period of time we will make every endeavor to come forth with an honest report after thorough consideration, without in any way damaging the credibility of this institution.

That, I promise you, sir.

The PRESIDING OFFICER. The minority leader.

Mr. DOLE. Mr. President, I understand there may not be any further requests for time here. If we could resolve this one area, then I am advised by the Senator from New Hampshire that the other matters have been clarified either through colloquy or statements. The record has been made. The legislative history has been made, and I think the only point of contention is the provision that was added on page 17. It would direct the Select Committee on Intelligence to release to the public a report prepared by Senator BOREN, the new chairman on that committee, along with Senator COHEN, the ranking Republican member of that committee, and as would serve the public interest and not violate national security would be made public.

It has been suggested that, "and the select committee may by a vote of the majority of the select committee, subject to the provisions of section 8 of Senate Resolution 400, 94th Congress, expose publicly such information in such report after determination by the select committee that the public interest would be served by such disclosure."

The only problem with that is first it says, "may" which means it is not mandatory, and then it says "by ma-

majority vote of the committee." If it becomes part of the majority, of course, we are not going to release it in any event. The language is rather meaningless in its present form. I mean it is an indication there could be a report and the report might be released if there was a majority vote.

As I understand section 8 of Senate Resolution 400, any member of the committee could require a vote by giving 5 days' notice. I assume that would be by reference a part of this provision.

So if I am a member of the Senate Intelligence Committee and I ask for a vote to release certain information to the public then within 5 days there must be a vote by the committee. If that is the case, then maybe it is not necessary to have a precise date. Obviously, if the majority does not want to release the report, they have the votes.

So it would seem to me there is nothing to be lost by saying that we should make the report public unless a majority determines not to do that. I would hope we might be able to resolve that provision.

I would repeat—I know the distinguished majority leader is looking at that provision—I cannot think of any greater responsibility we have than disclosing information that should be made public. It seems to me that is an obligation. I know it does not directly involve the select committee we are about to establish.

I do believe that a lot of minds have been made up on who may or may not be guilty of something, either malfeasance or misinformation or no information or failure to act based on reports that have been circulated in the last 6 or 7 weeks.

The sooner the facts are available, in my view, the sooner American people can then judge what they have heard and what they have seen and what they may have read with what the facts are as disclosed by the Intelligence Committee before they make a final judgment.

It does affect the President. It happens in this case the President is a Republican. But it also affects the Presidency.

It would seem to me that the President is willing to have the report released. If it is not classified, if someone should stand on this Senate floor as a colleague of mine did a few years back with the Pentagon Papers, and read it all into the record, as far as I know that could be done right now. There is nothing in that report that would in any way impact on the national security or the public interest, but I do understand there are legitimate concerns about that particular report, the one we discussed in the Intelligence Committee yesterday. That is why it would be our hope that perhaps with Senator BOREN and Senator

COHEN could take a look at the report prepared by Senator DURENBERGER and his staff, make the necessary changes and then hopefully vote to release it to the public.

The PRESIDING OFFICER. The majority leader.

Mr. BYRD. Mr. President, there are two things I want to say at this point.

One is with reference to the distinguished minority leader's statement, and he has made this statement twice that I recall, that there is nothing to keep any Senator from standing on this floor right now and reading this report and making it public. I would say that if a Senator began to do that, any Senator may immediately rise and ask that the doors be closed, and that Senator who makes that request needs only a single second by any other Senator and the doors of the Senate will be automatically closed, the galleries will be cleared, and there will be a secret session.

So it is not quite so easy to just show up on the floor and say "Well, I will read this report. To heck with what the members of the committee may want. I am going to read it. It is going to be made public."

When that is done there is a protection against that and it is in the good interest of the public and the good interest of our national security that a Senator with one second can put this Senate into closed secret session and then, of course, all Senators know what the restrictions are upon them if they reveal what went on in that secret session. A Senator is subject to being expelled, and any employee or officer of the Senate who reveals what went on in that secret session is subject to the loss of his job and punishment for contempt.

So, having said that, let me go on to the matter that I think we need to resolve here at the moment.

May I say that I have modified the amendment and will further modify it to make some slight changes. I have the transcript of what I said that I would use as a modification thereof.

I make it clear that I did not say that we would incorporate the provisions of section 8 of Senate Resolution 400 of the 94th Congress. I did not say that.

Here is what I said. I will read the following and I read this for the purpose of responding to the distinguished Republican leader to see if we might change the language so that it will fit with the language that is in the present law regarding the Select Committee on Intelligence. Senators will find this on page 137 of the Senate Manual Standing Orders of the Senate. Section 8(a) quoting therefrom:

The select committee may, subject to the provisions of this section, disclose publicly any information in the possession of such committee after a determination by such

committee that the public interest would be served by such disclosure.

And I went on to say I wonder if the distinguished Republican leader, Mr. INOUE, Mr. RUDMAN, and Mr. BOREN, those who have spoken thus far, would be agreeable to changing the language to read as follows. Here is the way I modify my amendment, exactly.

The Select Committee on Intelligence is hereby directed to prepare and provide for the Select Committee, in closed session, a report of its investigation into matters described in section 1 of this resolution, which report shall include a summary of the testimony and the chronology of events developed by the Select Committee on Intelligence, together with a listing of unresolved questions and issues which it recommends be pursued by the Select Committee as soon as possible and the Select Committee may release as much of the information in this report to the public as it deems advisable which is consistent with the interest of the public and national security and is deemed to be by the committee in the public interest after a determination by such committee that the public interest would be served by such disclosure.

Now, that was it. And I was reading some verbiage from section 8(a) of that law to be sure that I included the words "public interest" therein—"public interest would be served by such disclosure."

The following words came out of that law, section 8(a): "After a determination by such committee that the public interest would be served by such disclosure."

That is all I took out verbatim of that law. So I would not want the distinguished Republican leader or any Senator to be under any false impression, not through their fault, perhaps through mine, as to the modification that I included in the resolution before I sent it to the desk.

Now, I prefer to leave the modification as it is. I think it is fair as it is. It included the language that had been posed to me and, after a discussion, we changed the word "shall" to "may." And the distinguished Republican leader then asked if I would yield and I said yes, and Mr. DOLE then said: "I personally have no problem with that based on the statute, based on what I know to be the good faith of the distinguished chairman of that committee, Senator BOREN," and so on.

Mr. DOLE. Will the majority leader yield?

Mr. BYRD. Yes, I am happy to yield.

Mr. DOLE. I do not believe I have any problem with that. I was handed another draft. Maybe it was not the majority leader's draft, but somebody handed me another draft which went back to section 8 and added a request for a majority vote.

Mr. BYRD. Yes, somebody handed me that, too. I apologize to the distinguished Republican leader. That was not my writing and is not my proposal. I do not think the person who wrote

that did it—I am sure he did it with good intentions, and I think he misunderstood me. I think that is what led that language to be written. But when I saw it, I said, "That is not my modification."

Mr. DOLE. In other words, if I understand it correctly, your modification would be as you just read it there. I think, as read and modified with some technical modifications by the distinguished majority leader, in my view, based on the statements by Senator BOREN, Senator INOUE, Senator RUDMAN, Senator DURENBERGER, the majority leader, this Senator, and others, I would have no objection to that modification.

Mr. BYRD. Mr. President, I thank the distinguished Republican leader. I made some slight grammatical modifications. I have inserted commas and shifted the words "to be" from prior to the words by the committee to following the words by the committee, changed the word "this" report to "such" report and put in the article "a" to precede the word "report." So this modification is a grammatical improvement over the previous modification, but substantively is the same. I thank the Republican leader. I yield the floor.

The PRESIDING OFFICER. The resolution will be so modified.

The modification reads as follows:

On page 17, insert in lieu of the matter inserted between lines 13 and 14: "The Select Committee on Intelligence is hereby directed to prepare and provide to the select committee, in closed session a report of its investigation into matters described in Section 1 of this resolution, which report shall include a summary of the testimony and chronology of events developed by the Select Committee on Intelligence, together with a listing of unresolved questions and issues which it recommends be pursued by the select committee as soon as possible, and the select committee may release as much of the information in such report to the public as it deems advisable, consistent with the interest of the public and national security, and is deemed by the committee to be in the public interest after a determination by such committee that the public interest would be served by such disclosure."

The resolution, as modified, reads as follows:

#### S. RES. 23

*Resolved,*

#### ESTABLISHMENT OF THE SELECT COMMITTEE

SECTION 1. (a) There is established a select committee of the Senate to be known as the Select Committee on Secret Military Assistance to Iran and the Nicaraguan Opposition (hereafter in this resolution referred to as the "select committee").

(b) The purpose of the select committee is—

(1) to conduct an investigation into, and study of, all matters which have any tendency to reveal the full facts about—

(A) any activity of—

(i) the National Security Council or of any member or staff thereof,

(ii) any other department, agency, or entity of the United States Government or of any officer or employee thereof,

(iii) any foreign government, or of any agency or instrumentality thereof, or of any officer or employee thereof, or

(iv) any other individual, group, corporation, entity, or organization, which relates to—

(I) the direct or indirect sale, shipment, or other provision of arms, or the direct or indirect provision of materiel, funds, or other assistance, to Iran,

(II) the use of the proceeds from any transaction described in subclause (I) to provide assistance to any faction or insurgency in Nicaragua or in any other foreign country, or to further any political purpose or activity within the United States, or to further any other purpose of any nature whatsoever,

(III) the generation and use of any other money, item of value, or service to provide assistance to the Nicaraguan democratic resistance, or

(IV) the provision or coordination of support for persons or entities engaged as insurgents in armed conflict with the Government of Nicaragua,

in order to determine whether any such activity was illegal, improper, unauthorized, or unethical;

(B) any other activity, circumstance, materiel, or transaction having a tendency to prove or disprove that any official of the United States Government, or any other person, acting either individually or in combination with others, engaged in any activity which was illegal, improper, unauthorized, or unethical, in connection with any activity described in subclause (I), (II), (III), or (IV) of clause (A) or in connection with the operations described in clause (C); and

(C) the suitability of the structure and operations of the National Security Council, and persons serving as staff, consultants, or agents thereto, for any function related to the formulation, implementation, or conduct of American national security policy; and

(2)(A) to make such findings of fact as are warranted and appropriate;

(B) to make such recommendations, including recommendations for new legislation and amendments to existing laws and any administrative or other actions, as the select committee may determine to be necessary or desirable; and

(C) to fulfill the Constitutional oversight and informing function of the Congress with respect to the matters described in this section.

(c) For purposes of this section, the term "Iran" includes the Government of Iran, any agency or instrumentality thereof, any officer or employee thereof, or any person purporting to represent the Government of Iran or any agency or instrumentality thereof, any national of Iran, or any person located in Iran.

#### MEMBERSHIP AND ORGANIZATION OF THE SELECT COMMITTEE

SEC. 2. (a)(1) The select committee shall consist of eleven members of the Senate, six of whom shall be appointed by the President pro tempore of the Senate from the majority party of the Senate upon the recommendation of the Majority Leader of the Senate, and five of whom shall be appointed by the President pro tempore of the Senate from the minority party of the Senate upon the recommendation of the Minority Leader of the Senate.

(2) Vacancies in the membership of the select committee shall not affect the authority of the remaining members to execute the functions of the select committee and shall be filled in the same manner as original appointments to it are made.

(3) For the purpose of paragraph 4 of rule XXV of the Standing Rules of the Senate, service of a Senator as a member, chairman, or vice chairman of the select committee shall not be taken into account.

(b)(1) The chairman of the select committee shall be selected by the Majority Leader of the Senate and the vice chairman of the select committee shall be selected by the Minority Leader of the Senate. The vice chairman shall discharge such responsibilities as the select committee or the chairman may assign.

(2) A majority of the voting members of the select committee shall constitute a quorum for reporting a matter or recommendation to the Senate, except that the select committee may fix a lesser number as a quorum for the purpose of taking testimony before the select committee or for conducting the other business of the select committee.

(c)(1) The select committee shall promptly adopt rules and procedures not inconsistent with the rules and procedures of the Senate.

(2) The rules and procedures of the select committee shall—

(A) govern the proceedings of the select committee; and

(B) consistent with section 6 of this resolution—

(i) provide for the security of the records of the select committee and the protection of classified information and materials; and

(ii) prevent the unauthorized disclosure of information and materials obtained by the select committee in the course of its investigation and study.

#### STAFF OF THE SELECT COMMITTEE

SEC. 3. (a)(1) To assist the select committee in its investigation and study, the chairman, after consultation with the vice chairman and the approval of the select committee, shall appoint the committee staff.

(2) All staff shall work for the select committee as a whole, shall report to the Chairman and Vice Chairman and, except as otherwise provided by the select committee, shall be under the direction of the Chairman.

(b) To assist the select committee in its investigation and study, the Senate Legal Counsel and Deputy Senate Legal Counsel shall work with and under the jurisdiction and authority of the select committee.

(c) The Majority and Minority leaders of the Senate may each designate one staff person to serve on the staff of the select committee to serve as their liaison to the select committee.

(d) The Comptroller General of the United States is requested to provide from the General Accounting Office whatever personnel, investigatory, materiel, or other appropriate assistance may be required by the select committee.

#### PUBLIC ACTIVITIES OF THE COMMITTEE

SEC. 4. (a) Consistent with—

(1) the rights of persons subject to investigation and inquiry,

(2) considerations of national security, including the protection of sources and methods of intelligence gathering and analysis, and

(3) the interests of the relationship of the United States with other nations,

the select committee shall make every effort to fulfill the right of the public and the Congress to know the essential facts and implications of the activities of officials of the United States Government and other persons and entities with respect to the matters under investigation and study as described in section 1.

(b) In furtherance of the public's and Congress' right to know, the select committee—

(1) shall hold, as it considers appropriate, open hearings;

(2) may make interim reports to the Senate as it considers appropriate; and

(3) shall make a final comprehensive public report to the Senate which contains a description of all relevant factual determinations consistent with subsection (a) of this section and section 1(b)(2) and which contains recommendations for new legislation and other actions pursuant to the goal of an open, lawful, and effective conduct of American national security policy and, when necessary, lawful intelligence activities in support of American national security policy.

(c) The decision as to what matters shall be heard in closed or open session shall be determined by the select committee in accordance with paragraph 5(b) of rule XXVI of the Standing Rules of the Senate.

#### POWERS OF THE SELECT COMMITTEE

SEC. 5. (a) The select committee shall do everything necessary and appropriate under the laws and Constitution of the United States to make the investigation and study specified in section 1.

(b) The select committee is authorized to issue subpoenas for obtaining testimony and for the production of documentary or physical evidence. A subpoena may be authorized and issued by the select committee, acting through the chairman or any other member designated by the chairman, and may be served by any person designated by such chairman or other member anywhere within or without the borders of the United States to the full extent permitted by law. The chairman of the select committee, or any other member thereof, is authorized to administer oaths to any witnesses appearing before the committee.

(c) The select committee may exercise the powers conferred upon committees of the Senate by sections 6002 and 6005 of title 18, United States Code.

(d) The select committee is authorized to do the following:

(1) To employ and fix the compensation of such clerical, investigatory, legal, technical, and other assistants as the select committee considers necessary or appropriate.

(2) To sit and act at any time or place during sessions, recesses, and adjournment periods of the Senate.

(3) To hold hearings for taking testimony under oath or to receive documentary or physical evidence relating to the matters and questions it is authorized to investigate or study.

(4) To require by subpoena or order the attendance, as witnesses before the select committee or at depositions, of any person who may have knowledge or information concerning any of the matters the select committee is authorized to investigate and study.

(5) To take depositions and other testimony under oath anywhere within the United States or in any other country, to issue orders by the chairman or any other member designated by the chairman which require witnesses to answer written inter-

rogatories under oath, to make application for issuance of letters rogatory, and to request, through appropriate channels, other means of international assistance, as appropriate.

(6) To issue commissions and to notice depositions for staff members to examine witnesses and to receive evidence under oath administered by an individual authorized by local law to administer oaths. The select committee, acting through the chairman, may authorize and issue, and may delegate to designated staff members the power to authorize and issue, commissions and deposition notices.

(7) To require by subpoena or order—

(A) any department, agency, entity, officer, or employee of the United States Government,

(B) any person or entity purporting to act under color or authority of State or local law, or

(C) any private person, firm, corporation, partnership, or other organization,

to produce for its consideration or for use as evidence in the investigation or study of the select committee any book, check, canceled check, correspondence, communication, document, financial record, paper, physical evidence, photograph, record, recording, tape, or any other material relating to any of the matters or questions such committee is authorized to investigate and study which they or any of them may have in their custody or under their control.

(8) To make to the Senate any recommendations, including recommendations for criminal or civil enforcement, which the select committee may consider appropriate with respect to—

(A) the willful failure or refusal of any person to appear before it, or at a deposition, or to answer interrogatories, in obedience to a subpoena or order;

(B) the willful failure or refusal of any person to answer questions or give testimony during his appearance as a witness before such committee, or at a deposition, or in response to interrogatories; or

(C) the willful failure or refusal of—

(i) any officer or employee of the United States Government,

(ii) any person or entity purporting to act under color or authority of State or local law, or

(iii) any private person, partnership, firm, corporation, or organization,

to produce before the committee, or at a deposition, or at any time or place designated by the committee, any book, check, canceled check, correspondence, communication, document, financial record, paper, physical evidence, photograph, record, recording, tape, or any other material in obedience to any subpoena or order.

(9) To procure the temporary or intermittent services of individual consultants, or organizations thereof, in the same manner and under the same conditions as a standing committee of the Senate may procure such services under section 202(i) of the Legislative Reorganization Act of 1946 (2 U.S.C. 72a(i)).

(10) To use on a reimbursable basis, with the prior consent of the Government department or agency concerned and the Committee on Rules and Administration of the Senate, the services of personnel of such department or agency.

(11) To use, with the prior consent of the chairman of any other Senate committee or the chairman of any subcommittee of any committee of the Senate, the facilities or services of any members of the staff of such

other Senate committee whenever the select committee or its chairman considers that such action is necessary or appropriate to enable the select committee to make the investigation and study provided for in this resolution.

(12) To have access through the agency of any members of the select committee, staff director, chief counsel, or any of its investigatory assistants designated by the chairman, to any data, evidence, information, report, analysis, document, or paper—

(A) which relates to any of the matters or questions which the select committee is authorized to investigate or study;

(B) which is in the custody or under the control of any department, agency, entity, officer, or employee of the United States Government, including those which have—

(i) the power under the laws of the United States to investigate any alleged criminal activities or to prosecute persons charged with crimes against the United States; or

(ii) the authority to, or with in fact has, conducted intelligence gathering or intelligence activities,

without regard to the jurisdiction or authority of any other Senate committee; and

(C) which will aid the select committee to prepare for or conduct the investigation and study authorized and directed by this resolution.

(13) To report violations of any law to the appropriate Federal, State, or local authorities.

(14) To expend, to the extent the select committee determines necessary and appropriate, any moneys made available to such committee by the Senate to make the investigation, study, and reports authorized by this resolution.

(e) The level of compensation payable to any employee of the select committee shall not be subject to any limitation on compensation otherwise applicable to any employee of the Senate.

#### PROTECTION OF CONFIDENTIAL AND CLASSIFIED INFORMATION

SEC. 6. (a)(1) Before being given access to any classified information, any member of the staff of, or consultant to, the select committee shall have the appropriate security clearance and a need to know such information. The chairman of the select committee shall decide which select committee staff members and consultants are required to have security clearances.

(2) All staff members and consultants shall, as a condition of employment, agree in writing to abide by the conditions of an appropriate nondisclosure agreement promulgated by the select committee.

(3) The case of any Senator who violates the security procedures of the select committee may be referred to the Select Committee on Ethics of the Senate for the imposition of sanctions in accordance with the rules of the Senate. Any staff member or consultant who violates the security procedures of the select committee shall immediately be subject to removal from office or employment with the select committee or shall be subject to such other sanction as may be provided in the rules of the select committee.

(b)(1) Any classified information obtained by the select committee either directly from the Executive branch of the United States Government, through the Select Committee on Intelligence of the Senate, or by other means, shall be disclosed only in the same manner in which such information may be disclosed under the provisions of section 8

of Senate Resolution 400 (Ninety-fourth Congress, second session), except that references to the Select Committee on Intelligence in such section shall be deemed to be references to the select committee established under this resolution.

(2) The select committee shall make suitable arrangements, in consultation with the Select Committee on Intelligence of the Senate, for the physical protection and storage of classified information provided to the select committee.

(3) Upon the termination of the select committee pursuant to section 9 of this resolution, all records, files, documents, and other materials in the possession, custody, or control of the select committee, under appropriate conditions established by such committee, shall be transferred to the Select Committee on Intelligence of the Senate.

#### RELATION TO OTHER INVESTIGATIONS

SEC. 7. (a) In order to—

(1) expedite the thorough conduct of the investigation and study authorized by this resolution,

(2) promote efficiency among all the various investigations underway in all branches of the United States Government, and

(3) engender a high degree of confidence on the part of the public regarding the conduct of such investigation,

the select committee is encouraged—

(A) to seek the full cooperation of all relevant investigatory bodies, and

(B) to seek access to all information which is acquired and developed by such bodies.

(b)(1) The Select Committee on Intelligence is hereby directed to prepare and provide to the select committee, in closed session, a report of its investigation into matters described in Section 1 of this resolution, which report shall include a summary of the testimony and chronology of events developed by the Select Committee on Intelligence, together with a listing of unresolved questions and issues which it recommends be pursued by the select committee as soon as possible, and the select committee may release as much of the information in such report to the public as it deems advisable, consistent with the interest of the public and national security, and is deemed by the committee to be in the public interest after a determination by such committee that the public interest would be served by such disclosure.

(2) The select committee, through its members and appropriate staff, shall be provided full access to all records, files, documents and other materials in the possession, custody, or control of the Select Committee on Intelligence of the Senate, obtained or produced by the Select Committee on Intelligence of the Senate with respect to any matter described in section 1 of this resolution.

(3) All subpoenas issued by the Select Committee on Intelligence of the Senate on any matter described in section 1 of this resolution shall continue in force and may be enforced by the select committee as if issued by the select committee.

(c) The Senate requests that any independent counsel appointed pursuant to chapter 39 of title 28, United States Code, to investigate any matter related to a matter described in section 1 of this resolution, make available to the select committee, as expeditiously as possible, all documents and information which may assist the select committee in its investigation and study.

#### SALARIES AND EXPENSES

SEC. 8. Such sums as are necessary shall be available from the contingent fund of the Senate out of the Account for Expenses for Inquiries and Investigations for payment of salaries and other expenses of the select committee under this resolution, which shall include sums which shall be available for the procurement of the services of individual consultants or organizations thereof, in accordance with section 5(d)(9). Payments of expenses shall be disbursed upon vouchers approved by the chairman of the select committee, except that vouchers shall not be required for the disbursement of salaries paid at an annual rate.

#### REPORTS; TERMINATION

SEC. 9. (a)(1) The select committee shall make a final public report to the Senate of the results of the investigation and study conducted by such committee pursuant to this resolution, together with its findings and any recommendations at the earliest practicable date, but not later than August 1, 1987, provided that on or before August 1, 1987 a privileged motion made by the Majority Leader, to be debatable for no more than 1 hour, in the usual form, shall be in order, namely, "I move that the time be extended from August 1, 1987 to October 30, 1987 for the investigation by and final report of the select committee." The select committee shall also submit to the Senate such interim reports as it considers appropriate.

(2) The final report of the Select committee may be accompanied by whatever classified or confidential annexes are necessary to protect classified or confidential information, particularly intelligence sources and methods.

(b) After submission of its final report, the select committee shall conclude its business and close out its affairs as expeditiously as practicable.

Mr. BYRD. Mr. President, I ask for the yeas and nays on the resolution.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. Is there further debate?

Mr. DOLE. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BYRD. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection it is so ordered.

Mr. BYRD. Mr. President, in the interest of getting some business done while Senators may have 2 or 3 additional minutes to get to the floor before the vote, I am going to introduce some resolutions to provide for rules changes. I would assume they would be objected to and, in that case, they would go on the Calendar, under Motions and Resolutions Over, Under the Rule. But I want to do this today, in any event. If the distinguished Republican leader will bear with me if he wishes to object.

#### PROVIDING THAT SUBSTITUTE AMENDMENTS BE CONSIDERED AS FIRST-DEGREE AMENDMENTS UNDER CLOTURE

Mr. BYRD. Mr. President, I send a resolution to the desk to provide that substitute amendments be considered as first-degree amendments under cloture and I ask for its immediate consideration.

The PRESIDING OFFICER. Is there objection?

Mr. DOLE. I object.

The PRESIDING OFFICER. Objection having been heard to the immediate consideration of the resolution, the resolution will go over under rule XIV, paragraph 6.

The resolution reads as follows:

#### S. RES. 24

*Resolved*, That the third paragraph of paragraph 2 of Rule XXII of the Standing Rules of the Senate is amended by inserting the following immediately after the words "first degree" in the second sentence—

" , which under cloture an amendment in the nature of a substitute shall be considered as an amendment in the first degree".

#### ESTABLISHING A PROCEDURE IN ORDER TO OVERTURN THE CHAIR ON QUESTIONS OF GERMANENESS UNDER CLOTURE

Mr. BYRD. Mr. President, I send a resolution to the desk to establish a procedure in order to overturn the Chair on questions of germaneness under cloture and I ask for its immediate consideration.

Mr. DOLE. I object.

The PRESIDING OFFICER. Objection having been heard to the immediate consideration of the resolution, the resolution will go over under rule XIV, paragraph 6.

The resolution reads as follows:

#### S. RES. 25

*Resolved*, That the third paragraph of paragraph 2 of Rule XXII of the Standing Rules of the Senate is amended by adding the following new sentence:

"Whenever an appeal is taken under this rule from a decision of the Presiding Officer on the question of germaneness of an amendment, the vote necessary to overturn the decision of the Presiding Officer shall be three-fifths of the Senators duly chosen and sworn—except on a measure or motion to amend the Senate rules, in which case the necessary vote shall be two-thirds of the Senators present and voting."

#### LIMITATION OF LEGISLATIVE AMENDMENTS

Mr. BYRD. Mr. President, I send a resolution to the desk to limit legislative amendments to the general appropriations bill and I ask unanimous consent for its immediate consideration.

Mr. DOLE. I object.

The PRESIDING OFFICER. Objection again having been heard to the immediate consideration of this reso-

lution, this resolution will also go over under rule XIV, paragraph 6.

The resolution reads as follows:

S. RES. 26

*Resolved*, That Rule XVI, paragraph 4, of the Standing Rules of the Senate is amended—

(1) by inserting "(a)" after "4"; and  
(2) by adding at the end of such paragraph the following new subparagraph:

"(b) If a point of order is made by any Senator against an amendment to a general appropriations bill on the ground that such amendment proposes general legislation or proposes a limitation or restriction not authorized by law and is to take effect or cease to be effective upon the happening of a contingency, it shall not be in order to raise the defense of germaneness unless there is House legislative language to which that amendment could be germane remaining in the bill."

#### GERMANENESS OR RELEVANCY OF AMENDMENTS

Mr. BYRD. Mr. President, I send a resolution to the desk to provide for germaneness or relevancy of amendments, and I ask unanimous consent for its immediate consideration.

Mr. DOLE. I object.

The PRESIDING OFFICER. Objection having been heard to the immediate consideration of the resolution, the resolution will go over under rule XIV, paragraph 6.

The resolution reads as follows:

S. RES. 27

*Resolved*, That Rule XV of the Standing Rules of the Senate is amended—

(1) by inserting after "MOTIONS" in the caption a semicolon and the following: "GERMANENESS";

(2) by adding at the end thereof the following new paragraph:

"6. (a) At any time during the consideration of a bill or resolution, it shall twice be in order during a calendar day to move that no amendment, other than the reported committee amendments, which is not germane or relevant to the subject matter of the bill or resolution or to the subject matter of an amendment proposed by the committee which reported the bill or resolution, shall thereafter be in order. The motion shall be privileged and shall be decided after one hour of debate, without any intervening action, to be equally divided and controlled by the Majority Leader and the Minority Leader or their designees.

"(b) If a motion made under subparagraph (a) is agreed to by an affirmative vote of three-fifths of the Senators present and voting, then any floor amendment not already agreed to (except amendments proposed by the Committee which reported the bill or resolution) which is not germane or relevant to the subject matter of the bill or resolution, or the subject matter of an amendment proposed by the Committee which reported the bill or resolution, shall not be in order.

"(c) When a motion made under subparagraph (a) has been agreed to as provided in subparagraph (b) with respect to a bill or resolution, points of order with respect to questions of germaneness or relevancy of amendments shall be decided without debate, except that the Presiding Officer may entertain debate for his own guidance

prior to ruling on the point of order. Appeals from the decision of the Presiding Officer on such points of order shall be decided without debate.

"(d) Whenever an appeal is taken from a decision of the Presiding Officer on the question of germaneness of an amendment, or whenever the Presiding Officer submits the question of germaneness or relevancy of an amendment to the Senate, the vote necessary to overturn the decision of the Presiding Officer or hold the amendment germane or relevant shall be three-fifths of the Senators present and voting. No amendment proposing sense of the Senate or sense of the Congress language that does not directly relate to the measure or matter before the Senate shall be considered germane."

#### WAIVER OF READING OF AMENDMENTS UNDER CLOTURE

Mr. BYRD. Mr. President, I send to the desk a resolution to waive the reading of amendments under cloture, and I ask unanimous consent for its immediate consideration.

Mr. DOLE. Mr. President, I object.

The PRESIDING OFFICER. Objection having been heard to the immediate consideration of this resolution, the resolution will go over under rule XIV, paragraph 6.

The resolution reads as follows:

S. RES. 28

*Resolved*, That rule XXII of the Standing Rules of the Senate is amended by striking the last sentence of paragraph 2 and inserting in lieu thereof the following:

"After cloture is invoked, the reading of any amendment, including House amendments, shall be dispensed with."

#### ELECTRONIC VOTING

Mr. BYRD. Mr. President, in order to save the time of the Senate throughout the year and throughout a Congress, I send a resolution to the desk to provide for electronic voting in the Senate and I ask for its immediate consideration.

Mr. DOLE. Mr. President, I object.

The PRESIDING OFFICER. Objection having been heard to the immediate consideration of the resolution, the resolution will go over under rule XIV, paragraph 6.

The resolution reads as follows:

S. RES. 29

*Resolved*, That rule XII of the Standing Rules of the Senate is amended—

(1) by striking the first clause of paragraph 1 and inserting in lieu thereof the following: "Except as provided in paragraph 5 of this rule, when the yeas and nays are ordered,"

(2) by adding at the end thereof the following new paragraphs:

"5. Whenever the Majority Leader, with concurrence of the Minority Leader, shall determine, the names of Senators voting upon any roll call shall be recorded by electronic device. Senators shall have not more than fifteen minutes from the beginning of the roll call to have their vote recorded.

"6. The Majority Leader, with concurrence of the Minority Leader, may announce that any recorded vote that is scheduled to or does occur immediately after an-

other recorded vote shall be no longer than five minutes in duration."

#### ORDER FOR INTRODUCTION OF BILLS AND RESOLUTIONS

Mr. BYRD. Mr. President, I ask unanimous consent that Senators may be authorized to introduce bills and resolutions throughout the remainder of this day and to have statements printed in support thereof in the RECORD as though read.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### SENATE ARMS CONTROL OBSERVER GROUP

Mr. BYRD. Now, Mr. President, while we are waiting and we have the rollcall vote ordered on the resolution to create a select committee, I have discussed with the distinguished Republican leader a resolution that would extend the life of the Senate Arms Control Observer Group and I am prepared to send a resolution to the desk to extend the life of that group without naming the members thereof at this time. I have shown this resolution to the distinguished Republican leader. I believe that we have discussed it. I ask unanimous consent that the Senate proceed to the consideration immediately of this resolution.

The PRESIDING OFFICER. Is there objection?

Mr. DOLE. No objection.

The PRESIDING OFFICER. The Chair hears none. It is so ordered.

The clerk will report.

The assistant legislative clerk read as follows:

A resolution, S. Res. 30, to reauthorize and redesignate the Senate Arms Control Observer Group.

The Senate proceeded to consider the resolution.

#### SENATE ARMS CONTROL OBSERVER GROUP

Mr. BYRD. Mr. President, the distinguished minority leader and I are today offering a resolution which would reauthorize, for the life of the 100th Congress, the Arms Control Observer Group. We are also redesignating, in this measure, the members of that successful monitoring and advising body.

The observer group was created by the Senate on February 28, 1985, in the early days of the 99th Congress. Its purpose is to supplement the activities of the Foreign Relations Committee by providing a more regular and systematic involvement of the full Senate in any arms control negotiations which the United States is officially undertaking with the Soviet Union, without in any sense assuming the role of participants or negotiators in such talks. While the Foreign Relations Committee oversees arms control negotiations on a continuing basis, the

full Senate had, prior to the creation of this group, focused its attention only sporadically on the vital aspects of such talks, usually developing a knowledge and understanding of the issues being negotiated after the fact—that is, after a draft treaty had been signed by the executive branch. The result of this fitful process had been generally unsatisfactory, and we sought to avoid a recurrence of the problems of the 1970's, when three successive arms control treaties, signed by three Presidents, were never approved for ratification by the Senate. These include the SALT II Treaty of 1979, the Threshold Test Ban Treaty of 1974, and the Peaceful Nuclear Explosions Treaty of 1976.

The U.S. Senate has the constitutional responsibility of providing advice and consent in the making of treaties. This responsibility imposes upon Senators the obligation to become as knowledgeable as possible concerning the salient issues which are being addressed in the context of the negotiating process. Any accord with the Soviet Union to control or reduce our strategic weapons carries considerable weight for our Nation. It will vitally affect our national security and that of our allies. Any agreement must be undergirded by substantial national consensus to stand the test of time, and I believe that such a consensus is best achieved through the traditional treaty-making process which has been followed in the field of strategic arms control agreements.

I feel particularly strongly that it is far better for the United States to walk away from cosmetic agreements, which provide only the illusion of progress on arms reduction, and certainly, as well, walk away from any agreement which runs counter to either our own national security interests or those of our allies and friends. Only those arms reduction agreements which enhance our military security vis-a-vis the Soviet Union should be contemplated. I am sure that this sentiment is shared by all Members of this body.

Mr. President, the Senate Arms Control Observer Group acquitted itself admirably during the 99th Congress. The distinguished minority leader and I led the group's first trip to the Geneva talks from March 9 to 12, 1985, and subsequently, the group returned to Geneva to consult with our negotiators and to exchange views with the Soviet negotiators during each of the negotiating rounds, approximately every 3 months—with the exception of the last round, this past October, when the press of Senate business was too intense for the scheduled visit to be accomplished.

I think there has been a general consensus that the long-term cross-fertilization of views between the members of the group and our negotiators has

been very healthy and, in fact, a new development in executive-legislative relations in this field. In addition to the visits to the negotiating site, the group developed excellent rapport with the key executive branch officials, such as Ambassador Paul Nitze and Ambassador Ron Lehman, here in Washington, and very satisfactory arrangements were developed for regular briefings of the group by those officials on the status of the negotiations and the perspective of the executive branch on where they were going. I might add that I believe the executive branch officials also benefited from the perspectives conveyed by the Senators on the group as to the status of those talks as well.

Mr. PRESIDENT, I have heard nothing but praise regarding the maturity, the responsibility, the continuing and steady high level of interest, the expertise and common sense of the Senators on this group in carrying out their responsibilities, and I congratulate them for that. I particularly want to commend the four cochairmen, including the distinguished Senator from Alaska, Mr. STEVENS, the distinguished Senator from Georgia, Mr. NUNN, the distinguished Senator from Rhode Island, Mr. PELL, and the distinguished Senator from Indiana, Mr. LUGAR, for their leadership in this regard.

One often hears the complaint from officials in the executive branch that Congress can't keep a secret. Well, I can think of no better refutation of that thesis than the history of this group. In accord with arrangements made with the Secretary of State, the Senators in this group received timely information on the sensitive details of the negotiations, regularly, week by week, over nearly a 2-year period. Mr. President, I cannot recount a single instance of a leak of any kind coming out of that group, to the news media, which in any way could be construed to compromise the information passed to the group. On the other hand, I cannot say the same for some officials of the executive branch, because it was often clear that substantial information was coming out of the executive branch, and I believe that there were instances when the information leakage could well have weakened the hands of our negotiators. I deplore that kind of behavior, and I am proud of the fact that the 12 Senators who participated as members of this group were above it. I have every reason to be confident that this will remain the case. For my part, I am appointing the same Senators from the Democratic side of the aisle to serve in the 100th Congress. Messrs. CLAIBORNE PELL and SAM NUNN will continue to serve as the Democratic cochairmen. In addition, I am renewing the appointments of the distinguished Senator from Massachusetts, Mr. KENNEDY, the distinguished

Senator from New York, Mr. MOYNIHAN, and the distinguished Senator from Tennessee, Mr. GORE.

I am confident that the continuing process of monitoring the negotiations during the 100th Congress will put the Senate in a much better position to consider any treaty which might result from those talks. Furthermore, I am confident that the advice and consultation that the group can provide our negotiators during this process will provide a helpful perspective for them on the views of key Senators.

In closing, I would like also to extend my appreciation to the Secretary of State, Mr. Shultz, to our chief negotiator in Geneva, Ambassador Max Kampelman and his team, and to Mr. Nitze here in Washington, and his assistants, for their cooperation in this effort, and my hope for a continuation of the excellent relationship that has evolved during the life of this enterprise.

#### ARMS CONTROL OBSERVER GROUP

Mr. DOLE. Mr. President, I am pleased to join Senator BYRD today in introducing this resolution, reauthorizing a Senate Arms Control Observer Group for the 100th Congress.

#### VALUABLE CONTRIBUTION TO 99TH CONGRESS

The bipartisan observer group which we formed the first day of the 99th Congress served the Senate very well throughout that Congress. It monitored the arms control negotiations in Geneva; worked effectively with the Foreign Relations and Armed Services Committees, which have important responsibilities for arms control issues; and helped all of us achieve a better understanding of the complex issues under negotiation.

The members of the group—Republicans and Democrats—brought a true bipartisan spirit to their work. They also maintained a very cooperative relationship with the administration, including with the President's top arms control advisers here in Washington and with Max Kampelman's outstanding negotiating team in Geneva. They set a fine example for the rest of the Senate in how to go about dealing with these critical issues. All of them deserve our thanks—the administrative cochairman, Senator STEVENS; the other three cochairmen, Senators LUGAR, NUNN, and PELL; and all the other members of the group.

#### 100TH CONGRESS NEEDS SIMILAR INPUT FROM GROUP

It is my expectation that the Arms Control Observer Group can provide an equally valuable service in the 100th Congress.

Arms control issues will remain central to our Nation's security, and a top priority of the administration. Building on the progress achieved in Reykjavik and Geneva, the President is determined to continue exploring every avenue to achieve a significant,

balanced and verifiable nuclear arms reduction agreement with the Soviet Union. We can expect the talks in Geneva to be active, and we can reasonably hope they will be productive. It is useful, and important, that the Senate be represented in Geneva, and be heard in the counsels of the administration, as these events unfold.

The work of the observer group, as it did last Congress, will also impinge on our discussions and decisions on arms control-related issues across the board. And we have a great many of those issues to address—the nuclear testing treaties, SALT compliance, SDI and a whole host of others. While primary responsibility for consideration of those issues will continue to rest with Foreign Relations and Armed Services, the observer group can play an important role in keeping the Senate informed of the substance and evolution of those issues, especially as they are dealt with in the Geneva talks. And that input can be critical to the judgments the Senate finally draws.

#### ABLE, EXPERIENCED REPUBLICANS TO BE NAMED

Assuming we pass this resolution—and I expect it will get the unanimous support it deserves—I will be designating the Republican members in the coming days. We will have a very able, very experienced group of Republicans, just as we did last year. I expect that the majority leader will also name a good group of Democrats. And I am confident that, together, that bipartisan group will continue to perform ably and responsibly, for the Senate and for the country.

Mr. President, let me congratulate the distinguished majority leader. As my colleagues may recall—maybe not my new colleagues—it was the idea of the distinguished Senator from West Virginia, Senator BYRD, that we do this in the first instance and it has worked very successfully. I believe it should be continued and I am happy to cosponsor this resolution.

Mr. BYRD. Mr. President, I thank the distinguished Republican leader. I compliment the members of the observer group on both sides and in particular I compliment Mr. STEVENS, who during the past few years has in particular done the administrative work of the group in a very fine and dedicated manner. I commend all Members on both sides of the aisle, Republicans and Democrats, who made up that group, and the Secretary of State, Mr. Shultz, who originally did not let all of his weight down in supporting the resolution but upon several occasions observed to me that he was quite happy with the group and felt that it had contributed positively to his work and the work of the negotiators.

Now, Mr. President, have we acted on this resolution?

The PRESIDING OFFICER. Is there further debate? If not, the question is on agreeing to the resolution.

The resolution (S. Res. 30) was agreed to, as follows:

#### S. RES. 30

*Resolved*, That the bipartisan group of Senators designated by S. Res. 86, 99th Congress (agreed to February 18, 1985) is hereby redesignated and reauthorized to act during the 100th Congress as official observers on the United States delegation to any formal arms reduction or control negotiations to which the United States is a party (which group shall hereinafter be referred to as the "Senate Observer Group") and S. Res. 86, 99th Congress is hereby amended. The Group shall be headed by four Senators, serving as Co-Chairmen, two from the Majority party, to be appointed by the Majority Leader, Robert C. Byrd, and two from the Minority party, to be appointed by the Minority Leader, Robert Dole, one from each party to be appointed as Administrative Co-Chairman. The Majority and Minority Leaders shall serve on the Group in an ex officio capacity, and shall each appoint, in addition three other Senators to serve as members of the Group. The appointments shall be made in writing to the President pro tempore of the Senate.

Only Senators appointed as members of the Group may participate in official travel and activities of the Group. In the event that either the Majority Leader or the Minority Leader does not travel on an official trip of the Observer Group, he may designate one other Senator not a member of the Group to travel and participate in the activities of the Group in his stead. Any vacancy occurring in the Senate Arms Control Observer Group shall be filled in the same manner in which the original appointment was made."

SEC. 2. (a) The Senate Observer Group is authorized, from funds made available under section 3, to employ such staff (including consultants at a daily rate of pay) in the manner and at a rate not to exceed that allowed for employees of a standing committee of the Senate under paragraph (3) of section 105 (e) of the Legislative Branch Appropriation Act, 1968 (2 U.S.C. 61-1(e)), and incur such expenses as may be necessary or appropriate to carry out its duties and functions. Payments made under this section for receptions, meals, and food-related expenses shall be authorized, however, only for those actual expenses incurred by the Senate Observer Group in the course of conducting its official duties and functions, provided, that notwithstanding any other provision of this Resolution, such amounts received as reimbursement for such expenses shall not exceed \$6,000 in any fiscal year. Amounts received as reimbursement for such food expenses shall not be reported as income, and the expenses so reimbursed shall not be allowed as a deduction under title 26 of the United States Code. This provision is effective with respect to expenditures incurred on or after February 28, 1985.

(b) Each Co-Chairman of the Senate Observer Group is authorized to designate a professional staff member. The Designated Group staff shall also include, a secretary selected by, and responsible to, the Majority, and a secretary selected by, and responsible to, the Minority. The funds necessary to compensate any such staff member who is an employee of a Senate or of a Senate Committee, who has been designated to perform service for the Senate Observer Group, such staff member shall continue to be paid by such Senator or such Committee, as the case may be, but the account from

which such staff member is paid shall be reimbursed for his services (including agency contributions when appropriate) out of funds made available under section 3(a) of this resolution. The four professional staff members, authorized by this subsection, shall serve all of the members of the Senate Observer Group, and carry out such other functions as their respective Co-Chairmen may specify.

(c) The Majority and Minority Leaders may each designate one staff member to serve the Observer Group. Funds necessary to compensate leadership staff shall be transferred from the funds made available under section 3(b) of this resolution to the respective account from which such designated staff member is paid.

"(d) All foreign travel of the Group shall be authorized solely by the Majority and Minority Leaders, upon the recommendation of the Administrative Co-Chairmen. Participation by staff members in authorized foreign travel by the Group, access to all official activities and functions of the Group during such travel, and access to all classified briefings and information made available to the Group during such travel, shall be limited exclusively to delegation members with appropriate clearances. No travel or other funding shall be authorized by any Committee of the Senate for the use of staff, other than delegation staff, in regard to above mentioned activities, without the written authorization of the Majority Leader and the Minority Leader to the Chairman of such Committee."

SEC. 3. (a) The expenses of the Senate Observer Group shall be paid from the contingent fund of the Senate, out of the account of Miscellaneous Items, upon vouchers approved jointly by the Chairmen for Administrative purposes (except that vouchers shall not be required for the disbursement of salaries of employees who are paid at an annual rate). For any fiscal year, not more than \$400,000 shall be expended for staff (including consultants) and for expenses (excepting expenses incurred for foreign travel).

(b) In addition to the amount referred to in section 3(a), for any fiscal year, not more than \$150,000 shall be expended from the contingent fund of the Senate, out of the account for Miscellaneous Items, for Leadership staff as designated in section 2(c) for salaries and expenses (excepting expenses incurred for foreign travel).

(c)(1) Of the amount authorized in section 3(a), an amount not to exceed \$50,000 may be spent by the Senate Observer Group, with the prior approval of the Committee on Rules and Administration, to procure the temporary services (not in excess of one year) or intermittent services, including related and necessary expenses, of individual consultants, or organizations thereof, to make studies or advise the Senate Observer Group.

(2) Such services in the cases of individuals or organizations may be procured by contract as independent contractors, or in the case of individuals by employment at daily rates of compensation not in excess of the per diem equivalent to the highest gross rate of compensation which may be paid to a regular employee of a standing committee of the Senate. Such contracts shall not be subject to the provisions of section 3709 of the Revised Statutes (41 U.S.C. 5) or any other provisions of law requiring advertising.

(3) Any such consultant shall be selected by the Administrative co-chairmen acting

jointly. The Senate Observer Group shall submit to the Committee on Rules and Administration information bearing on the qualifications of each consultant whose services are procured pursuant to this subsection, including organizations, and such information shall be retained by the Senate Observer Group and shall be made available for public inspection upon request.

Mr. BYRD. Mr. President, I move to reconsider the vote by which the resolution was adopted.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

#### RESOLUTION RELATING TO SOVIET POLICY TOWARD AFGHANISTAN

Mr. BYRD. Now, Mr. President, shortly I will have a resolution that deals with the Soviet policy toward Afghanistan.

I would expect to have a rollcall vote on that resolution. We could arrange to have that vote immediately following the vote on the resolution creating the select committee. But before I proceed I think Mr. MOYNIHAN has a suggested modification to the resolution.

Mr. MOYNIHAN. I have, Mr. President. May I speak to that?

Mr. BYRD. Yes.

Mr. DOLE. Is this on the Afghan?

Mr. BYRD. Yes, on the Afghan. I have not yet introduced it, but I yield to the distinguished Senator. I yield the floor so the distinguished Senator can comment on the resolution, a copy of which I have supplied.

Mr. MOYNIHAN. I thank the distinguished majority leader, and I relish the fact that this is the first occasion I have had this year to call him majority leader. It is a special pleasure.

Mr. President, it appears to me that this excellent resolution in support of the Afghan mujaheddin, freedom fighters as they have been called, needs something added to the declaration of our commitment to that purpose and our concern with the transparent cynicism of Soviet calls for amnesty and cease fires. I think it should be recorded that American military aid to the mujaheddin began within weeks of the Soviet invasion. The Soviet invasion took place at the end of December 1979. In mid-January, within weeks, the U.S. Government had commenced supplying small arms to the resistance which began almost immediately after the invasion took place.

I do not hesitate to bring this matter to the attention of the Senate in public because on February 15, 1980, the White House so announced. We made no secret of the fact that we were doing this, nor ought we have done so. The administration at the time imposed a grain embargo, canceled the Olympics and began supplying military aid. I think that commit-

ment to supporting the Afghan resistance should continue. Mr. President, it is my hope that the amendment might be modified to provide for such an addition. In closing, Mr. President, might I ask that the newspaper report of the New York Times of February 16, 1980, recording this White House announcement be included in the RECORD at this point.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[New York Times, February 16, 1980]

#### U.S. SUPPLYING AFGHAN INSURGENTS WITH ARMS IN A COVERT OPERATION

(By David Binder)

WASHINGTON.—The United States began an operation to supply light infantry weapons to Afghan insurgent groups in mid-January, White House officials said today.

The decision to funnel arms to rebel forces resisting Soviet troops in Afghanistan was made by the Special Coordination Committee of the National Security Council, which is chaired by Zbigniew Brzezinski, President Carter's national security adviser. It was subsequently approved by the President, a senior official of the council said.

The Central Intelligence Agency was assigned to carry out the covert mission, its first of this nature and magnitude since the Angolan civil war ended in 1976.

The arms being sent to Afghan insurgent groups are largely of Soviet design, including Kalashnikov AK-47 automatic rifles, according to the officials, who declined to specify whether the weapons were manufactured in the Soviet bloc or in China. Nor would they confirm reports that some of the arms might have come from stocks of Soviet weapons acquired by Egypt.

#### ARMS SHIPPED THROUGH PAKISTAN

The weapons are being shipped to the Afghan insurgents through Pakistan, which shares a long frontier with Afghanistan through rough and lightly populated terrain.

On Wednesday the Egyptian Ministry of Defense announced that it has begun a military training program for Afghans opposed to the Soviet military intervention in their homeland and that Egypt would send them back with weapons. Previously Western military officials had indicated that China and Iran had shipped limited amounts of weapons to the insurgents.

The Soviet Union has accused China and the United States of aiding the anti-Communist forces in Afghanistan ever since uprisings began against a Marxist Government that was installed by a coup in April 1978. Moscow began to criticize Egypt for involvement in the situation at about the time that the Soviet forces intervened in Afghanistan on Dec. 27.

Rumors that a C.I.A. covert operation had begun to help supply Afghan insurgents started circulating in Washington in the second week of January.

Disclosure of the secret supply program comes at a time when Government specialists on Afghan affairs say that the pace of fighting between insurgents and Soviet forces accelerated over the last two weeks.

The specialists said today that in their estimates the Soviet forces had incurred about 3,000 casualties since the intervention.

The American analysts added that Afghan insurgents and regular Afghan Army units

that had gone over to the insurgent side had probably suffered twice or three times the number of casualties incurred by the Russians. They put the Soviet casualty rate at about 500 a week, of whom they said about one in six had probably been killed.

During the Vietnam War, by comparison, in the last week of September 1966 there were 970 American casualties, at a time when the fighting was intensifying.

The bulk of the fighting has taken place in the north and northeast of Afghanistan, the analysts said, with pitched battles being fought for control of the town of Narin, in the north, since Jan. 8. Narin is strategically located astride a major supply route running between the Soviet frontier and Kabul, they remarked, and was also the home base of the Afghan Army's 19th Division.

Mr. MOYNIHAN. I yield the floor and thank the Chair.

Mr. BYRD addressed the Chair.

The PRESIDING OFFICER. The Senator from West Virginia.

Mr. BYRD. Mr. President, I send to the desk a certain modification which is agreeable to me and which has been proposed by Mr. MOYNIHAN, Mr. DOLE, and others. No action having been taken on the resolution, I believe I am entitled to make this modification.

The PRESIDING OFFICER. The resolution is so modified.

Is there further debate?

Mr. HUMPHREY addressed the Chair.

The PRESIDING OFFICER. The Chair will ask if the modification has been sent to the desk.

The Chair thanks the majority leader and thanks the Senator from New Hampshire.

The PRESIDING OFFICER. The Senator from New Hampshire is recognized.

Mr. HUMPHREY. Mr. President, I want to speak for a few moments on this important subject. I commend the Senator from West Virginia and others who are involved in trying to focus the attention of the Senate, the executive department, and the American people on the outrages being daily committed, day in and day out, month in and month out, year in and year out, by the Soviet Army in Afghanistan.

Mr. President, 1 million people have died in Afghanistan. How many is 1 million? If you apply that ratio to the United States, you are talking about 16 million dead Americans. Imagine 16 million dead Americans. But for the Afghans, it is not a matter of imagination, it is a matter of daily reality.

By the way the casualties are not just or even primarily combatants, those bearing arms, but primarily the casualties, the dead and the wounded, are women, the elderly, and children.

Surely, every Member of this body has heard of the Soviet toy bombs disseminated by helicopters throughout the country and whose sole, explicit, exclusive purpose is to blow off the

hands of children and to blow off their faces.

It is ironic, tragic, that the establishment is enchanted with Mr. Gorbachev's public smile, while in the remoteness and privacy of Afghanistan, children have their smiles and faces blown away by Mr. Gorbachev's bombs.

One million children, five million driven into foreign exile. How many is 5 million? One-third of the Afghan population. If you apply that ratio to the United States, you are referring to 80 million driven into exile.

It is a horrible thing going on in Afghanistan. I am very sorry to say that for our part or for the most part it is business as usual with the Soviet Union even though the Soviet Union leadership is dripping with the blood of innocent Afghan victims. There is business as usual and more than that business as usual, more friendly and warm than at any time since the invasion in 1979.

Mr. President, to address the resolution before the body, it once again calls upon the executive to investigate and to evaluate our policy of continuing to recognize, by maintaining an embassy in Kabul, this criminal regime, a puppet regime set up by a Soviet invasion, maintained for 7 years by over 100,000 Soviet troops using the most advanced weapons and the most indescribable kind of brutality and violence.

It calls upon the State Department to do something we asked them to do last summer, I would emphasize, last June 25.

This body adopted an amendment offered by the Senator from West Virginia and this Senator from New Hampshire which asked the administration to examine this policy of continuing to maintain an embassy at the seat of the government against which freedom fighters of Afghanistan are struggling at this hour with our encouragement, to examine that duplicitous policy and to examine also, at the same time, the wisdom of permitting this criminal regime to maintain an embassy here in Washington as though that were some kind of legitimate regime instead of a gang of criminals cooperating with the Soviets in the genocide of their own people.

We are asking for a second time now. As far as I can determine, there was never any investigation by the State Department in response to last summer's Senate resolution, nor has there been, as far as I can uncover, even a communication to Senator BYRD or to this Senator from New Hampshire in response to that first request.

The resolution before us also asks again, as we did last summer, for the administration to determine whether Soviet actions in Afghanistan constitute the international crime of genocide. It is no small question. As far as

we can tell, last summer's request went unheeded, not even a response in writing to this Senator at least or any other Senator that I know of. Indeed, the only followup I have gotten was a reply of December 18 from the State Department in which it says, "There is no United States policy with respect to continued recognition."

How about that for a statement of duplicity? How about that for having one foot on each side of the fence? They do not even have a policy. They say, "There is no United States policy with respect to continued recognition."

Well, that is not true. There is a policy. The de facto policy is that we have an embassy there at the seat of that regime propped up by 100,000 Soviet troops. That is our policy, whether the State Department can see it or not.

So I commend the Senator from West Virginia for renewing his effort in this important matter and I encourage my colleagues to join with us in trying to force the administration to take a stronger role, to bring some pressures to bear beyond the military pressure—diplomatic pressures, economic pressures, the pressures of international public opinion, in which latter categories we are failing to do anything at all, to the shame of this country and the principles for which it stands.

I thank the Chair.

Mr. BYRD. Mr. President, the distinguished Senator from South Carolina [Mr. HOLLINGS] wishes to address his remarks to the matter of creating a select committee. The yeas and nays have been ordered on that.

As soon as the distinguished Senator from South Carolina finishes his statement, I would be very happy to proceed with a vote on that. I understand Mr. GARN has to catch a plane. Then we can deal with the Afghan resolution.

#### SELECT COMMITTEE ON IRAN AND NICARAGUA

The PRESIDING OFFICER. The Senator from South Carolina.

Mr. HOLLINGS. Mr. President, I will be as brief as I possibly can. In fact, I have done my level best to just quietly go along on this issue for some time. However, Mr. President, it appears now that I am prepared to vote against the resolution and I take this opportunity to explain why.

What you have involved here, Mr. President, are three particular policies. One deals with the endeavor by the executive branch—the President and the White House—to open up lines of communication for an association or affiliation with a possible future successor Iranian Government. It is quite obvious that the Carter administration was found totally devoid

of a policy after the fall of the shah, and we had not built up any inroads there since that time.

Yet, many people go mentally back to the loss of our Marines at Beirut, an act which we all regretted and condemned Iran for. Still we live in the real world and that is the reality by which we judge whether or not this Iran initiative was a good or bad policy. I think it was an honest endeavor and I do not think it was any kind of callous effort such as, "Heck, we can lose Marines any time we want to, but let us get on with the Iranians". It was not that kind of thing at all. Rather this administration was trying to open up channels of communication with the future government. It did not work. But it was an honest effort.

Second, with respect to the hostages, it is now clear we were paying ransom while at the same time we were chastising everyone else not to. That was a mistake. But that is what we now know to have been the policy.

Third, there was the \$100 million in aid to the Contras which Congress enacted on October 1. There are those around here who did not like that vote, and in my opinion are using every effort in order to thwart it, turn it back around, and reverse that policy. But I happen to support the President on that policy.

Those are the three policies involved here now. Bad or good, mistaken or not, that is what occurred. And it is also quite apparent to everyone involved in this area that the White House, and the administration were doing their dead-level best to keep the Contras alive until they could change the mind of the Congress and gain financial support last October.

In the meantime, the true question is not "what did he know and when did he know it," but rather "what did he give and when did he give it?" I am talking authority, not necessarily expressed authority, but apparent authority; not necessarily a written command or Executive order, but rather an environment. You run your office with an appropriate environment. We have a good working environment in the Senate. Indeed, while we are primarily U.S. Senators, we are also looking after our constituencies. I do not have a written order about that. But my staff knows when they help a South Carolina constituent that is what we are here for, and that is what keeps us here. I was pleased to be sworn in for the fifth time to serve South Carolina just a few hours ago.

Similarly, at the White House, if you could find a way to help the Contras and keep them alive until we could change the Congress' mind, an endeavor that went on for a good 4 years, that was certainly not opposed by President Reagan or that White

House. That was their particular environment.

In fact, we watched the news and we watched the bits of information inform us of this environment. The media criticized us for not exercising the fullest of oversight so we came up and we said you could not give direct aid. Then we saw other infringements. We saw more fudging and so we strengthened further the Boland amendment to cover direct or indirect aid. Then, there is the question about the legality of the Boland language, and the Iranian or American money used. There was a violation, but certainly the Congress and the Boland amendment did not proclaim it a felony and did not proclaim it a misdemeanor. We simply established a provision to restrict the expenditure of funds.

That is the law. Of course the Executive has sworn to uphold the law and I am not saying, "Let's disobey the law and forget it." It is not that kind of thing that warrants tying up the whole National Government for the next 6 or 9 months.

What really occurred in November when this Iran program broke apart is that President Reagan got the wrong advice. He was told by his administration, "Mr. President, you cannot know any of this. We have the Boland amendment, and a restriction is there. We have covert action reporting procedures and you know about that. In fact, you asked last January to get an opinion from your Attorney General that you did not have to inform the Congress about this program. But now we do not want to find you to be involved and know anything. It would hurt you to know." And that is the big mistake of advice that they are now bogged down in. Because if someone had come around and said, "Mr. President, it hurts you more not to know than to know, there is just too much information, too much of an involvement for you not to know all of this going around, you would end up after a 5- or 10-month investigation as the most ill-informed fellow that ever served in the White House as the President of these United States."

Look at the volume of information, and not just from specific witnesses but from your common sense. In the State Department you have the Assistant Secretary for Latin American Affairs, Mr. Elliott Abrams, calling up the Sultan of Brunei and saying "Put some money in the bank. America and the administration are in trouble. We need help." Then you get the Ambassador to Israel, the Ambassador to Lebanon, the Ambassador to Nicaragua, the Ambassador to Costa Rica, the Ambassador to El Salvador, the Ambassador to Honduras, and others in the State Department involved. Common sense tells you the Secretary of State cannot come up here and real-

istically say, "There isn't anybody here except us chickens. We did not know that anything was going on." Yet they call in that Ambassador and put on a Hollywood act. Everybody thinks this is Hollywood East. All you have to do is put on an act and ignore the common sense of the public. Or you take the matter of the Defense Department. Reportedly tons of equipment and millions in reimbursement from bases all over this country were involved, yet the Secretary of Defense signs off on this activity while still maintaining, "there isn't anybody here except us chickens. I don't know anything about this policy." Come on. Who is kidding whom?

When you get the CIA, they told Mr. Casey but they also said: "Look, Mr. Casey, if we have you in this, you will have to tell the Intelligence Committee, and if you tell the Intelligence Committee, you might as well go on TV. So remember, you don't know anything. But let's use the mechanisms of the Central Intelligence Agency in support of the program and if you have to talk, say 'I don't know anything. There isn't anybody here except us chickens. We don't know anything about what is going on.'"

The National Security Council, the Treasury Department, the Attorney General's Office, the Justice Department; you have six or seven agencies and departments, and almost a dozen countries involved here. But we are supposed to believe that they were all manipulated by a lieutenant colonel down in the White House basement. Come on.

(Mr. PROXMIRE assumed the chair.)

We have had reporting before the House that this particular lieutenant colonel would not act except without authority. That has been his life. He is not a wild card. He might skip a step. He is enthusiastic. He is gung ho. We, who serve, respect that kind of officer, and we understand that man is the military type. But as far as a criminal, no way. I do not think so.

Poindexter is also straightlaced. He was tops in Annapolis, 30 years of service, and ready to be CNO. Yet do we think that at 9 o'clock daily briefings, particularly after aid was approved by the Congress, that this program was kept secret from his boss? He must have at least said or suggested, "Mr. President, as you well know, we kept Contra aid alive. Now we have got \$100 million." At least give him some idea to get some credit for it.

If the President would stop hollering criminal, then the Congress could go to work on other important issues. If he would only say, "Look, as President of the United States I cannot keep up with every agency and department." Everyone knows that. But as a general proposition, as John F. Kennedy said in the Bay of Pigs, "This was my

policy. This was my mistake. I accept the responsibility for it."

These people could have overstepped their bounds and they could be reassigned. They are not criminals. But as long as he stands in the White House and says for example: "Get the FBI and cross-examine the Chief of Staff and find out what he knew and when he knew it" we will get nowhere. And, as an aside, he did not know anything. They kept him out of the loop, which was not difficult to do. But do we have to go through this entire process, to prove after 6 or 9 months that either the President of the United States misinformed the people of America or certainly he was ill-informed himself? Neither course serves the Presidency nor the Government itself; and it does not serve us in Congress, either.

This land is full of common sense, and the people out there understand that mistakes have been made. They understand the questions of policy and the differences we all have. They understand it and do not need a congressional investigation to go through and call witnesses in, day in and day out, to get to a conclusion they have already reached.

They are not going to like the results, and they are not going to like Congress for reaching those results.

That is why I, in a general sense, am opposed to this resolution and said that in the sessions we had in the Intelligence Committee. But I certainly understand the supporters of an investigation because the President was supposed to change his mind by the end of the year and say: "I assume the responsibility." But he did not and in fact he is still coming to Congress saying, "Mr. Congressman, will you investigate my staff and my White House?" That is a ludicrous position for all of us to be giving so much attention to.

Washington is the Olympics of emotion and sentiment. Everything is egregious, disastrous, or some other bit of hyperbole. But out there in the country, they want to just move on past this issue.

We have a President and he is going to be there for 2 years. We have the Congress with all these other important problems that should be confronted. And, yes, we have a news media that has a heyday selling more newspapers, with all their banner headlines and scandals.

But, I do not happen to think this was so scandalous. I can see a President operating this way and making these mistakes. It is not necessarily a so-called scandal. But what will be a scandal is if we go along and report a lot of this information before it is whole or complete. I refer to the latter part of this resolution, about the make public a report from the Intelligence Committee.

You can see the original requirement on the other side of the aisle: They want everything reported. They want to force feed the public and a report. But I am a member of the Intelligence Committee, and I voted with the majority yesterday that we just were not yet in a position to report.

It reminds me of the advent of Telstar, when G.K. Chesterton said: "One of greatest advances in communications came at a time when man had nothing to say."

Here are all the politicians. They are trying to make a report. But they also have been almost better than O.J. Simpson, ducking the press and sneaking out of the committee room so they would not have to report. Because you see, we only have five pieces of the story, not 95, as former chairman of the Intelligence Committee DURENBERGER said.

Common sense tells us what happened here. More witnesses could be called and following the money trail would produce some scandals, no doubt. But is it worth the time of the national Congress to be wrapped up on this? Are we going to play politics with this select committee and say we are going to force-feed a report?

We are ready, as Intelligence Committee members, to make a report in a closed session, to the new committee. And incidentally, Senator INOUE is an outstanding member. Everyone knows my regard, also, for Senator RUDMAN. In fact, I have a high regard for the entire new committee. I do not think there is a better selection on either side of the aisle.

We are ready to sit down with the new committee and report the findings of the Intelligence Committee, and I would be glad to talk to the others, so we can bring this to a fast conclusion. We are prepared to do that.

Peruse what the former majority had in that document—they wanted to publish and you find that there are dunces running around in the White House. All, except, of course, the President himself. There are also some security breaches in the report and it is way too long.

It pays us as a committee to give our honest judgment, and we did, on yesterday afternoon. But now they are trying to force-feed me to make a bad report, and I am not in a position to do so.

Anxious as I am to take this hard work and bring it to a conclusion, I think we are on a 100-mile road, and we have only gone 15 or 20 miles down the road. It will be up to that select committee to go the same 20 miles plus the additional 80, in a coherent, responsible and professional manner.

We should not be politically forced into prematurely making a report, to be used over the next 6 to 9 months to contradict the work of the select committee by saying, "The Intelligence

Committee reported something different." We are not in a position to report. There are all kinds of unfinished details in the chronology. Some of it, a good part of it, we think we know; but there could be some dramatic changes in this if we had all of the witnesses before the Intelligence Committee during this past month.

So, somewhere, sometime, somebody should get up and say, "I'm opposed to this."

We know the policy has been aid to the Contras. That has been the affirmative policy of President Reagan. He might not have known about the education department. He might not have understood or appreciated our environmental laws. I know he wants to do away with the inner city. And he has not been much for feeding the poor or providing health care. But he has been loyal and kept knowledgeable on Contras. That is his No. 1 policy.

On that particular score, I happen to feel—common sense tells me—that he has been generally informed. I support him in it. But for him to have that policy, going on over several years, and then claim he just found out about it is similar to the captain of the Love Boat finding out two passengers have fallen in love during the cruise and then saying, "Who! Get the police! How can that happen aboard this ship?" But that is what the President is saying, "I hope Congress can tell me what is going on in the Love Boat."

Everybody in America knows what is going on with the Contras. We do not need a committee to find it out.

But as long as the President hollers, "Criminals! Police!" we have to do something about it. But I wish he would quit hollering and call the people up, find out what happened, and move on with this thing, rather than making a Federal case out of it.

We have Senator NUNN, and Senator BOREN, Senator HATCH, and Senator COHEN—four members of the Intelligence Committee—who are members of the new select committee. I congratulate the leaders, the majority and minority both, for establishing that continuity with outstanding appointments. But we should not force a report that is not ready.

I yield the floor.

The PRESIDING OFFICER. The majority leader.

Mr. BYRD. Mr. President, I congratulate the distinguished Senator from South Carolina on his statement. I think it serves an excellent purpose. I feel very much as he does that such a report should not be issued until such time as it is clearly in the public interest. I resisted the use of the word "shall." I have used the word "may."

The amendment was not my proposal to begin with. It was supported by Senator BOREN, Senator INOUE, and Senator RUDMAN. I think considerable legislative history has been made here

today, part of which I hope I contributed to, to the effect that we should not be rushed into issuing a public report until such time it is clearly in the public interest, knowing that in the final analysis it is all going to be laid out. It should be laid out but not prematurely and not an incomplete report. That is what all the fuss was about yesterday evening in the Intelligence Committee.

The distinguished Senator from South Carolina is on that committee, and I subscribe to his viewpoint in that respect entirely.

Mr. President, I yield the floor.

Mr. DOLE. Mr. President, I am pleased to join Senator BYRD today in introducing this resolution, establishing a Senate select committee to examine the issues of American arms sales to Iran and the possible diversion of money from those sales to the Democratic Resistance Forces in Nicaragua.

Since these issues first arose, I have been pushing hard for prompt and full disclosure of all the facts, to the Congress and to the American people. That is the only way to get this matter behind us, once and for all—so that the President, the Congress and the country can get on with the critical work that confronts us all.

Senator BYRD and I first proposed creation of this committee 6 weeks ago, as one important step in getting to the bottom of this affair quickly and efficiently. The President endorsed our proposal and promised his full cooperation.

#### OUTSTANDING LEADERS, TALENTED MEMBERS

And the committee we have put together can fulfill the important responsibilities we envisioned for it. It has outstanding leaders, in Chairman DAN INOUE and Vice Chairman WARREN RUDMAN. It is composed of 11 talented and experienced members, 6 Democrats and 5 Republicans. I commend Senator BYRD for his selections from the Democratic side; I'm proud of mine, from this side.

#### FUNCTIONS OF COMMITTEE

By creating this committee, we have avoided the specter of a multitude of separate, overlapping, and competing investigations, by the many standing committees which might have had jurisdiction over various aspects of the Iran-Contra situation. The select committee will assume the sole authority to—and I quote the resolution—"fulfill the constitutional oversight and informing functions of Congress" on the issues described in its mandate. In effect, we are saying: the select committee will handle the investigation of these issues for the Senate; standing committees will be freed to do the other important work they have on their agendas.

At the same time, should the select committee, on the basis of its investi-

gation, conclude that new legislation is needed, it will make that recommendation to the Senate and to the appropriate standing committees, so that they can perform their normal legislative function in holding hearings on and reporting out any resulting bills.

#### MANDATE AND POWERS OF COMMITTEE

Through this resolution, the Committee also gets the mandate it needs to do a complete investigation; and the investigative powers it might require to do a thorough job. Indeed, if we have erred at all, it may be in providing the committee with a broader investigative charter, and with more investigative power, than it will need to get to the whole truth. But we all recognized the importance of allowing the committee to move ahead smoothly wherever its investigation leads, and to uncover the facts quickly by all appropriate legal means. All of us, Republicans as well as Democrats, are determined to see this happen.

At the same time, I am heartened by what I understand to be the strong commitment of both the chairman and vice chairman to avoid fishing expeditions; and to keep the committee focused on the real issues here—the Iran arms sales and the possible diversion of money from those sales to the democratic resistance in Nicaragua. And I also understand that the chairman and the vice chairman will indicate in a colloquy a useful understanding on the matter of executive privilege, so that there should be no misunderstanding of the language of the resolution on access to executive branch documentation.

#### COMMITTEE SHOULD MOVE AS QUICKLY AS POSSIBLE

I am also pleased to note that—as a result of a series of discussions which have involved myself, the majority leader, and the chairman and vice chairman-designate of the committee—we have changed the date on which the committee's authorization will expire to August 1.

This is a good amendment. I expect that the committee can—and hope that it will—complete its work by the August 1 date. Thanks to the efforts of the Intelligence Committee, and to other investigative efforts, we have already compiled a mass of information about the Iran-Contra questions. To a significant degree, we already know what happened and why. While we do have gaps in our knowledge, we largely know where they are. And we have a good idea how to fill them in. Unless new avenues of investigation open up—and I doubt they will—the committee ought to be able to complete its work and issue its report by August 1. If such avenues do open up unexpectedly, then we have put procedures in place so that we can extend the life of the committee.

#### INTELLIGENCE COMMITTEE REPORT

Finally, I am very pleased that we have added to the resolution provisions for the select committee—at the earliest possible date—to release publicly a report covering the findings of the Intelligence Committee's investigation of the Iran-Contra affair. As the Senate knows, I have been pushing hard for this step, along with the President and with others. All of us believe that the public has the right—and the need—to get all the facts, as soon as possible. So I think this is a major improvement in this resolution, as well as in our entire handling of this matter.

#### SENATE REPUBLICANS PREPARED TO SUPPORT COMMITTEE

The select committee has a big and important job to do. As Republican leader, I stand ready to work with the committee and provide it whatever support I can. I am confident all 45 Senate Republicans—and I expect all 55 Senate Democrats—feel much the same way.

Let's pass this resolution unanimously. Let's put this committee to work. Let's get to the bottom of this affair. And then let's go forward with renewed unity and strength—into this new year, into this new Congress and into a future of great challenges and opportunities for America.

#### RELEASE OF INTELLIGENCE COMMITTEE REPORT GETTING ALL THE FACTS ON THE TABLE

It is clear that the first real business of this Congress will be to establish a select committee to investigate the Iran-Contra issue. That's as it should be. There is no priority higher than getting the full facts of this matter out on the table, for the Congress and the public to see. That is the only way we can put it behind us and get on with our other important work.

#### INTELLIGENCE COMMITTEE REPORT SHOULD BE MADE PUBLIC

The fact of the matter is, though, that—even before the select committee gets down to business—we already know a great deal about what happened and why. After a month of intensive work, and a series of sharply focused hearings, the Senate Intelligence Committee has compiled an excellent, quite comprehensive report of findings. It is not the final word on the Iran-Contra affair. If it was, we wouldn't need the select committee. But it does lay out what we know about the Iran-Contra affair now, and what we still need to find out.

The report ought to be made public, now. There is no good reason to deny to the public this important, extensive and well-organized body of information.

#### ALL OF US HAVE CALLED FOR FULL DISCLOSURE

For weeks and weeks, virtually all of us—myself, the majority leader, many of the members of the Intelligence Committee, and many others here

today—we've been saying, over and over again: We have to get to the bottom of this; we have to get all the facts out; we have to let the American people know what really happened. The words Senate BYRD used earlier today, in his opening statement, were: "The American people want to know what is going on."

Well, every one of us who said that—we were absolutely right. The public does have a right to know what we have learned. The public does have a need to know what we have learned. And in fact, we have learned a great deal. Why not let the American people in on it?

#### PRESIDENT SEEKS RELEASE OF REPORT

The President has urged, in the strongest possible terms, that the committee release its report. He has nothing to hide. He wants the public to know as much as possible, as soon as possible, about this affair.

There are no national security concerns at issue. Appropriate administration officials have looked at the Intelligence Committee report. Working with committee members and staff, they have insured that all sensitive, national security information has been deleted.

And there are no legitimate concerns about compromising other investigations—either the select committee's or the independent counsel's. On the contrary, release of this report will facilitate the efforts of other investigations, particularly the select committee investigation.

#### RELEASING REPORT WILL CLEAR UP PUBLIC MISUNDERSTANDING

Fears that this is an incomplete report, that will somehow breed misunderstanding or mislead the public—those fears are also groundless. On the contrary, release of the Intelligence Committee report would very much help clarify what now is a very disjointed and dangerously confusing record of public disclosures on the Iran-Contra issue.

For weeks and weeks, we have been nearly buried under an avalanche of media reporting; comments by administration officials, Members of Congress and others; leaks from our various investigations; and the like. Much of what we've all heard and read has turned out to be inaccurate, distorted or misleading.

The Intelligence Committee report will not clear up every confusing point. But it can help us all immensely to make some sense out of this morass. Equally important, it can help us put to rest, once and for all, some of the phony accusations, unfounded rumors and irresponsible speculation to which we have all been subject.

I would also remind the Senate that the select committee we're setting up will hold a series of public hearings. Each one of those hearings will, in

effect, be another, quote, "incomplete report," unquote, in the form of the testimony of one or two witnesses. That is the inevitable nature of any major congressional investigation—you build a case piece by piece, witness by witness. That's not always the best way, but it is the only way.

So it makes absolutely no sense to oppose the release of this kind of clear, well-organized, reasonably comprehensive report—while at the same time supporting the select committee, which will inevitably be presenting the public a case in bits and pieces. It just makes no sense.

#### THE BOTTOM LINE: THE PUBLIC'S RIGHT TO KNOW

The bottom line is this. Do we want the public to have all the available information? Or don't we?

I have made my position clear. I want all the facts out. The President has made his position clear. He wants all the facts out. Now it's time for each Senator to indicate his position, by his vote on this amendment.

The PRESIDING OFFICER. The question is on agreeing to the resolution as modified.

On this question, the yeas and nays have been ordered, and the clerk will call the roll.

The legislative clerk called the roll.

Mr. CRANSTON. I announce that the Senator from Delaware [Mr. BIDEN] is necessarily absent.

Mr. SIMPSON. I announce that the Senator from Minnesota [Mr. BOSCHWITZ], the Senator from Rhode Island [Mr. CHAFEE], the Senator from Minnesota [Mr. COHEN], the Senator from Utah [Mr. GARN], the Senator from Oregon [Mr. HATFIELD], the Senator from Idaho [Mr. MCCLURE], and the Senator from Alaska [Mr. MURKOWSKI] are necessarily absent.

I further announce that, if present and voting, the Senator from Utah [Mr. GARN], the Senator from Oregon [Mr. HATFIELD], and the Senator from Alaska [Mr. MURKOWSKI] would each vote "yea."

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 88, nays 4, as follows:

[Rollcall Vote No. 1 Leg.]

#### YEAS—88

Adams	Daschle	Heflin
Armstrong	DeConcini	Heinz
Baucus	Dixon	Inouye
Bentsen	Dodd	Johnston

Chafee  
Cohen  
Garn  
Hatfield  
McClure  
Murkowski

So the resolution (S. Res. 23), as modified, was agreed to.

Mr. BYRD. Mr. President, I move to reconsider the vote by which the resolution was agreed to.

Mr. DOLE. I move to lay that motion on the table.

The PRESIDING OFFICER. The motion to lay on the table was agreed to.

#### ADDITION OF COSPONSORS TO AFGHANISTAN RESOLUTION

Mr. BYRD. Mr. President, for the information of Senators, there will be one more rollcall vote and I believe that it will occur shortly. It will be on the adoption of a resolution expressing the sense of the Senate with respect to the situation in Afghanistan. That resolution is submitted by myself on behalf of Mr. DOLE, Mr. HUMPHREY, Mr. MOYNIHAN, and Mr. BURDICK. I shall ask unanimous consent that any other Senators who wish to add their names may do so.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### ORDER FOR ROUTINE MORNING BUSINESS

Mr. BYRD. Mr. President, now that action has been taken on the resolution creating the select committee, and the legislation dealing with the cleaning up the Nation's waters has been placed on the calendar, and the house-keeping resolutions, most of which have already been taken care of, will be completed before the end of this day, I ask unanimous consent that there may be a period for the transaction of routine morning business, following the next rollcall vote, and that Senators may speak therein for not to exceed 5 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BYRD. I ask unanimous consent that that period for the transaction of routine morning business not last beyond 30 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### ORDER OF PROCEDURE

Mr. BYRD. Mr. President, I should state for the benefit of Senators, the Senate will come in on next Monday at 12 noon. It will be my intention to move to take up the water bill, and there could be rollcall votes. If that measure is not disposed of on Monday, the Senate will be on it on Tuesday and the Senate will be on it daily until the matter is disposed of. So Senators may expect rollcall votes to occur on that matter and on other matters.

Once that matter is disposed of, if it is disposed of on Monday or Tuesday of next week, it would be my intention to come in at 2 or 3 o'clock in the afternoons or some such time thereafter for a few days to accommodate committees in conducting meetings so as to fulfill their oversight responsibilities and report legislation to the calendar for action on the floor. Mr. CHILES' committee, the Budget Committee, will meet tomorrow. There may be other committees meeting tomorrow.

It is my understanding that Mr. CHILES will have a Budget Committee meeting also on Thursday. I do not see him on the floor right at this moment. It is his intention to have hearings tomorrow and Thursday on the budget.

I do not presume to say beyond that what his plans are.

Let me say for the benefit of Members on my side of the aisle there will be a conference—I say it here because some will soon be leaving the Chamber so I say it here and apologize to the Senate for announcing a party conference at this point—there will be a party conference tomorrow beginning at 12:30 in room S-207 and lunch will be served. The conference will go along throughout the afternoon.

As I indicated sometime ago, that will be a plenary conference and it will last into the late afternoon and early evening, if we can finish. Otherwise, we will have a continuation of the conference the next day. I fully believe, however, we ought to complete our work in that conference tomorrow.

So that conference will begin at 12:30, with lunch.

Having said that, if there are any questions about the schedule, I will be glad to entertain those right now and then I will yield the floor and, hopefully, we will vote on the remaining resolution.

#### SENATE RESOLUTION (S. RES. 31)—EXPRESSING THE SENSE OF THE SENATE WITH RESPECT TO THE SITUATION IN AFGHANISTAN

Mr. BYRD. Mr. President, this resolution expresses the sense of the Senate with respect to Afghanistan. I call up the resolution, which is at the desk.

The PRESIDING OFFICER (Mr. MELCHER). The clerk will report the resolution.

The assistant legislative clerk read as follows:

A resolution (S. Res. 31) expressing the sense of the Senate with respect to the situation in Afghanistan.

The PRESIDING OFFICER. Without objection, the Senate will proceed to its immediate consideration.

The Senate proceeded to consider the resolution.

Mr. BYRD. Mr. President, I ask for the yeas and nays on the resolution.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. Is there further debate?

#### SEVEN YEARS OF SOVIET TREACHERY

Mr. DOLE. Mr. President, I rise in strong support of the resolution on Afghanistan offered by the distinguished majority leader and the distinguished Senator from New Hampshire.

On December 27, we marked the seventh anniversary of the Soviet invasion of Afghanistan. For 7 long years, Soviet Forces have occupied that Nation. For 7 long years, Soviet power has subjugated the Afghan people. For 7 long years, Soviet terror and genocide have been waged against the Afghan population and culture.

And for those 7 long and terrible years, the Afghan people have struggled to win back their country and their freedom. Led by the democratic resistance forces, the Mujaheddin; with the direct material and political support of the United States; and with the moral support of free people everywhere, they have carried on a courageous struggle, in the face of overwhelming odds. And still they struggle today.

#### U.S. SUPPORT MUST REMAIN STRONG

As long as they must struggle—until the day when freedom is restored to Afghanistan—we must continue to provide strong, concrete help. We cannot be intimidated by Soviet threats, to us, to Pakistan or to the Mujaheddin. We cannot be dissuaded by phony Soviet peace overtures or negotiating proposals, such as we have recently seen. We cannot lose sight of the fact that our own long-term security is very much at stake in the immediate struggle of the Afghan people.

Let us serve notice once again on the Kremlin that we will be there as long as we have to. Let us pass this resolution today and unanimously.

#### PROVIDING FOR AN ADJOURNMENT FOR THE SENATE AND THE HOUSE OF REPRESENTATIVES

Mr. BYRD. Mr. President, I send to the desk a concurrent resolution and I

ask unanimous consent for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

A concurrent resolution (S. Con. Res. 1) providing for an adjournment for the Senate and the House of Representatives.

#### S. CON. RES. 1

*Resolved by the Senate (the House of Representatives concurring), That when the Senate adjourns on Tuesday, January 6, 1987, Wednesday, January 7, 1987, Thursday, January 8, 1987 or Friday, January 9, 1987, pursuant to a motion made by the Majority Leader, or his designee, in accordance with this resolution, it stand adjourned until 12 o'clock meridian on Monday, January 12, 1987, and that when the House of Representatives adjourns on Thursday, January 8, 1987, pursuant to a motion made by the Majority Leader, or his designee, in accordance with this resolution, it stand adjourned until 12 o'clock meridian on Tuesday, January 20, 1987, or until 12 o'clock meridian on the second day after Members are notified to reassemble pursuant to section 2 of this concurrent resolution, whichever occurs first.*

SEC. 2. The Speaker of the House, after consultation with the Minority Leader of the House, shall notify the Members of the House to reassemble whenever, in his opinion, the public interest shall warrant it.

Mr. BYRD. Mr. President, this will announce what the plans are for the Senate.

The PRESIDING OFFICER. The question is on agreeing to the concurrent resolution.

The concurrent resolution (S. Con. Res. 1) was agreed to.

#### EXPRESSING THE SENSE OF THE SENATE WITH RESPECT TO THE SITUATION IN AFGHANISTAN

The Senate resumed consideration of the resolution.

The PRESIDING OFFICER. Is there further debate on the Senate resolution pertaining to Afghanistan? The question is on agreeing to the resolution. The yeas and nays have been ordered and the clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. CRANSTON. I announce that the Senator from Delaware [Mr. BIDEN] is necessarily absent.

Mr. SIMPSON. I announce that the Senator from Minnesota [Mr. BOSCHWITZ], the Senator from Rhode Island [Mr. CHAFEE], the Senator from Maine [Mr. COHEN], the Senator from Utah [Mr. GARN], the Senator from Oregon [Mr. HATFIELD], the Senator from Idaho [Mr. MCCLURE], and the Senator from Alaska [Mr. MURKOWSKI] are necessarily absent.

I further announce that, if present and voting, the Senator from Utah [Mr. GARN] and the Senator from Alaska [Mr. MURKOWSKI] would each vote "yea."

The PRESIDING OFFICER (Mr. PELL). Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 92, nays 0, as follows:

[Rollcall Vote No. 2 Leg.]

#### YEAS—92

So the resolution (S. Res. 31), was agreed to, as follows:

#### S. RES. 31

Whereas December 27, 1986, marked the seventh anniversary of the Soviet invasion of Afghanistan;

Whereas the Soviet occupation has been characterized by extreme brutality and a campaign of indiscriminate violence that has taken the lives of an estimated 1 million Afghans, and displaced more than 4 million others;

Whereas the Special Rapporteur of the United Nations Commission on Human Rights, in his November 5, 1985, report documented examples of a barbaric Soviet military campaign against civilians, including attacks on women and children, and in a subsequent report of February 14, 1986, found the situation unchanged and concluded that the "only solution to the human rights situation in Afghanistan is the withdrawal of the foreign troops";

Whereas (the Soviet invasion was a major factor in the postponement of consideration by the Senate of the SALT II Treaty of 1979, and) the presence of Soviet troops in Afghanistan today continues to adversely affect the prospects for the long-term improvement of the United States-Soviet bilateral relationship in general;

Whereas the Soviet leadership appears to be engaged in a cynical and hypocritical public relations campaign aimed at portraying an ongoing staged withdrawal of Soviet troops from Afghanistan in the apparent belief that words will substitute for genuine action in shaping world opinion;

Whereas the offer by the Soviet puppet regime in Kabul for a cease-fire and amnesia in the name of "national reconciliation"

is a transparent attempt to isolate the democratic resistance (the mujaheddin), confuse the populace and accomplish the surrender of the democratic resistance while the Soviet military occupation continues unabated; and

Whereas the Congress condemned Soviet policy toward and behavior in Afghanistan in Public Law 99-399, calling for appropriate provision of material support to the people of Afghanistan, so long as the Soviet military occupation continues: Now, therefore, be it

*Resolved*, That the Senate hereby—

(1) renews its condemnation of the continued Soviet invasion and occupation of the sovereign state of Afghanistan, against the will of the Afghan people, an activity which violates all standards of conduct befitting a responsible nation, which contravenes all recognized principles of international law, and which has been reflected in seven United Nations resolutions of condemnation;

(2) finds that recent Soviet representations concerning withdrawal of Soviet troops have been indisputably demonstrated to be a sham, are a cynical and calculated campaign of disinformation, and do not reflect genuine reductions in the Soviet occupation force, which continues to stand at an estimated 120,000 troops inside Afghanistan, with 30,000 more positioned in contiguous areas of the Soviet Union, available for use against the Afghan population;

(3) finds that recent offers of a ceasefire, amnesty, and a government of national reconciliation advanced by the Soviet puppet regime in Kabul fail to provide the essential framework for a settlement, undermine the prospects for genuine progress, and should be spurned by the Afghan resistance so long as Soviet troops continue to occupy Afghanistan;

(4) believes that the only acceptable formula for a settlement of the Afghan situation is one which results in a government genuinely representative of the Afghan people, outlines a definite timetable for the complete withdrawal of Soviet troops in the near future, and provides for the return of refugees in safety and dignity;

(5) renews its commitment, which was begun within weeks of the Soviet invasion of Afghanistan in December 1979 when the United States government began to supply light infantry weapons to Afghan freedom fighters, a fact made public by the White House on February 15, 1980, to support its people of Afghanistan through the provision of appropriate material support;

(6) urges the Secretary of State to—

(A) develop continued multilateral initiatives aimed at encouraging Soviet military withdrawal, the return of an independent and nonaligned status to Afghanistan, and a peaceful political settlement acceptable to the people of Afghanistan, including provision for the return of Afghan refugees in safety and dignity;

(B) develop a vigorous public information campaign to bring the facts of the situation in Afghanistan to the attention of the world on a frequent basis;

(C) encourage the Soviet leadership and the Soviet puppet regime in Kabul to remove the barriers erected against the entry into and reporting of events in Afghanistan by journalists;

(D) makes vigorous efforts to impress upon the Soviet leadership the penalty that continued military action in Afghanistan imposes upon the building of a long-term constructive relationship with the United

States, because of the negative effect that Soviet policies in Afghanistan have on attitudes toward the Soviet Union among the American people and the Congress; and

(E) review United States policy with respect to the continued recognition of the Soviet puppet regime, and continued U.S. diplomatic presence in Kabul to determine whether such recognition and presence is in the interest of the United States and the people of Afghanistan;

(7) urges the Soviet Union to present, through its Afghan puppet representatives, an expeditious timetable of no more than four months in accord with the stated position of the government of Pakistan, for the complete withdrawal of its forces at the next session of United Nations-sponsored indirect negotiations in February 1987, with representatives of Pakistan; and

(8) urges the government of Pakistan to resist the pressure of the Soviet Union to accept anything less than such a timetable for withdrawal at those indirect United Nations-sponsored negotiations.

Mr. MOYNIHAN. Mr. President, I move to reconsider the vote by which the resolution was agreed to.

Mr. KENNEDY. I move to lay that motion on the table.

#### ROUTINE MORNING BUSINESS

The PRESIDING OFFICER. Under the previous order there will now be a period for the transaction of routine morning business, which includes the introduction of bills and resolutions, for not to exceed 30 minutes, during which time Senators are permitted to speak for up to 5 minutes.

#### CENTRAL AMERICA—A NEW BEGINNING

Mr. DODD. Mr. President, just prior to the Christmas holidays, I spent almost 2 weeks visiting Mexico and the five Spanish-speaking Central American nations. I made the trip for several reasons. First, as the incoming chairman of the Subcommittee on Western Hemisphere Affairs of the Foreign Relations Committee, I felt it incumbent upon me to take a fresh, first-hand look at developments in the region and to discuss them in person with the leaders in the area. Second, I was especially interested in getting their reaction to the Iran-Contra funding scandal and assessing its impact on United States policy toward the region. Third, I wanted to visit Contra bases and other facilities in order to get an up-to-date reading on their activities and the war effort in general. Finally, I undertook this trip for the purpose of discussing the status of the Contadora peace initiative and the overall prospects for a diplomatic solution to the Nicaraguan conflict.

While it is difficult to measure the success of a trip like this one, I am convinced in my own mind that I accomplished what I set out to do, thanks to all of the people in the region who gave so generously of their time for the purpose of discussing and

debating issues of mutual concern. In particular I am indebted to leaders of the region—to Vinicio Cerezo of Guatemala, to Napoleon Duarte of El Salvador, to Oscar Arias of Costa Rica, to Jose Azcona of Honduras, to Daniel Ortega of Nicaragua, and to Miguel de la Madrid of Mexico—for the opportunity to have met at length with each one of them. Their willingness to answer the myriad questions I asked stands as a tribute to their determination to help this gringo better understand the latino perspective on events in the region and in particular the impact of U. S. policy on them. I am also grateful for their forbearance in allowing me to speak to them in the kind of Spanish that the members of the Royal Academy in Madrid would have rejected out of hand.

Mr. President, as a result of my conversations with these heads of state, with top military officials, with a variety of political observers, with representatives of the church and the private sector, including business and labor, and with our own Embassy personnel, I am more convinced than ever that the military option being pursued in Central America serves neither our interest nor that of the region. The long and the short of it is this: It was flawed policy in the spring of 1981, it was a flawed policy in the winter of 1986, and it is a flawed policy today.

By any reasonable standard, success has repeatedly eluded the administration's policy in dealing with President Ortega and his fellow commandantes. In January 1987, is there anyone who doubts that the Sandinistas' political, military and economic ties to Moscow and Havana are stronger than they were in January 1981? In January 1987, is there anyone who doubts that there are more Cuban, Soviet and Soviet bloc advisers, both military and civilian, in Nicaragua than there were when Ronald Reagan took office? In January 1987, is there anyone who doubts that the size of the Sandinista armed forces bears any relationship to the rag-tag militia that overthrew the Somoza dynasty? And in January 1987, is there anyone who doubts that there is less political freedom in Nicaragua, less press freedom and less religious freedom than there was when President Reagan was inaugurated to serve his first term of office?

The conclusion is obvious: More of the same will not do it. More of the same will not prevent the existence of a Communist-run state in Nicaragua. I deplore that situation as much as anyone, but deploring the deplorable is no answer either.

The real answer, I suspect, is this: For the foreseeable future there is precious little, short of direct U.S. military intervention, that we can do to change the political orientation of the Sandinista government. That may

not happen in our lifetime, but at the same time, I am firmly convinced that we can have a more positive impact on what the Sandinistas do and don't do if we stop waging war against them and begin treating them as we treat any number of other governments which have yet to earn our good housekeeping seal of approval.

Mr. President, there is every reason to believe that the Sandinista leadership is prepared to sign the kind of agreement that would go a long way toward eliminating our immediate national security concerns in that troubled region. Such an agreement would bar the establishment of foreign military bases, Soviet or otherwise, in Nicaragua. It would provide for the removal of all foreign military advisers. It would prohibit support for guerrilla movements elsewhere in the region. It would place limitation on the size and force structures of the military organizations in each of the Central American States, including Nicaragua. And it would provide for verification procedures in order to ensure compliance.

All of this we can get, and we can get it now. It may not add up to unconditional surrender on the part of the Sandinista government, but it certainly takes care of the legitimate security requirements of the folks in and around Harlingen, TX.

This stands in stark contrast to our current policy. Let's be honest about that policy—our support for the Contras is the foreign policy equivalent of the Edsel. We can continue to pump more dollars into the program; we can continue to tinker with the trim and tail-lights; we can fiddle with the hood ornaments and we can restyle the grill. But after we have done all of that—after we've had hours of meetings, hours of discussions, hours of debates—the reality is, we have still got an Edsel. That's why arms were sold to Iran and a portion of the proceeds used to fund the Contras; it was the National Security Council's last-ditch efforts to salvage the wreck. But like all wrecks, burial is inevitable. For the Contras, as a military force, this means an end to the funding. That will happen. The only questions are now how soon and in what manner. Will we prolong the agony? Will we contribute to more butchery and bloodletting? Will we wait until American military units have crossed the Río Coco? And in the end, will there be that inevitable scene, American officials scrambling abroad a helicopter as it prepares to lift off from an embassy rooftop, with the local hires desperately clutching at the landing skids?

Had we faced up to these questions two decades ago in Southeast Asia, that scene at the United States Embassy in Saigon would never have taken place and a generation of Americans would not be left with the kind of

political and social scar tissue that can never be erased. No, we cannot go back. We cannot redo or undo Southeast Asia. But we can learn from that experience, providing we have the political will and political courage to do it. To evidence that will, that courage, a new legislative direction will be required.

Accordingly, Mr. President, I am introducing legislation today which seeks to chart a different course for U.S. policy in Central America. This bill would authorize an additional \$300 million in economic assistance in this fiscal year for Costa Rica, El Salvador, Guatemala, and Honduras. Clearly, Congress intended to provide this level of funding last year, but in the warning hours of the session, it was allowed to fall through the cracks. Given our own economic circumstances, it will not be easy to come up with these funds. But the need for this assistance is urgent and there is an outstanding commitment to provide it. If we are truly interested in bolstering democratic forces in Central America we will deliver on that commitment.

The next point on the policy compass is the money—the funding for the Contras, the funding that has allowed them to wage war against the people, if not the military forces, of Nicaragua. That funding must stop. No more funding for military equipment. No more funding for humanitarian assistance. No more funding, directly or indirectly, to supply the Contra war effort, period.

To reinforce this prohibition, my proposal also seeks to circumscribe other potential funding sources—namely, from allies or Third World aid recipients. Obviously this administration, even in the absence of the colonel and the admiral—is not above exerting pressure on foreign government to persuade them to maintain the Contra program. The temptation is particularly strong with respect to governments which receive economic or military assistance and/or participate in the foreign military sales program, whether on a cash or credit basis. In order to remove this temptation, this legislation would bar economic or military assistance and/or participate in the foreign military sales program, whether on a cash or credit basis. In order to remove this temptation, this legislation would bar economic or military assistance, or military sales, to any country which provides financial or material assistance to the Contra forces or to one of their front organizations. So when the White House emissaries come knocking on the door in search of new funds for the Contras, the Government of Israel or the Government of South Korea or the government of any other country has a pretty good reason for slamming it in their face. Choosing between aid for the Contras or aid for

themselves should be a pretty easy decision.

Finally, the legislation I am offering would direct that the funds previously appropriated for the Contras be used solely for the following purposes: First, these funds would be available to disband and relocate the Contra forces. Having been largely responsible for nurturing the growth and development of these forces, we cannot simply abandon them. We have a responsibility to facilitate their relocation and their resettlement. Second, these funds would be available to support the Contadora peace initiative or to help implement such an agreement. Diplomatic efforts to achieve a negotiated settlement to the Nicaraguan conflict deserve the full support of the United States Government. To the extent these diplomatic efforts require financial backing, we must make sure that it is readily at hand. Third, these funds would be available to support civilian democratic forces inside Nicaragua. These forces are alive in that war-torn country, but they are not well. They need all the help and assistance we can provide. Indeed, if democracy has any future in Nicaragua it will be because of the dissidents inside Managua, not the week-end warriors in Miami.

Mr. President, in broad outline, these are the essential points contained in the proposal I am submitting today. In the days ahead, I hope my colleagues will have an opportunity to examine it in detail and give me the benefit of their thoughts on it. In the meantime, I will be talking to the new chairman of the Foreign Relations Committee, my distinguished friend and colleague from the State of Rhode Island, Senator CLAIBORNE PELL, about scheduling hearings on this proposal. I hope we can move forward with such hearings as soon as possible.

The fundamental purpose of these hearings will be to focus attention on the foreign policy options available to us in Central America. This seems to me to be of the utmost importance, if for no other reason than so much attention has been, is being and will continue to be focused on the Iranian-arms-sales-Contra-funding controversy. That's a major issue and it deserves all the attention and consideration it is receiving. But that attention and consideration must not be at the expense of the larger policy issues involved. Like the mining of Nicaraguan harbors in 1984, the Contra-funding scandal is but one aspect of the overall policy. Losing sight of the forest for the trees makes no more sense in foreign policy matters than it does in anything else.

Mr. President, sooner or later, we will have to think about the first step on the long road back to developing some kind of *modus vivendi* with the

Sandinistas. A security agreement that bars Soviet and other Communist forces and installations from Nicaragua offers an important first step in that direction. It would certainly be in our interests to have such an agreement. And in the broader, regional context—the future of Central America may depend on it.

Mr. President, from the rubble left by the administration's policy, I am hopeful that we can generate a new beginning, a new beginning that will restore respect for the values and the traditions of an inter-American system that we helped to forge in the aftermath of the Second World War. What the United States and the nations of Central America desperately need is a joint endeavor to reestablish those values and traditions and to build on them. Compared to what this administration has been doing in the region, those values and traditions, whether viewed from San Jose, Guatemala City, or Washington, DC, look better and better every day.

#### ECONOMIC ASSISTANCE TO CENTRAL AMERICAN DEMOCRACIES—S. 184

Mr. DODD. Mr. President, I am introducing a bill in conjunction with this matter that will very briefly do the following three things: It would terminate Contra funding at an appropriate time when that can be debated in the Senate, I presume sometime in February.

Second, it would also prohibit or at least reserve the right to cut off funding to any third country that provided assistance to the Contras. That would take into consideration the kind of situation we presently have encountered.

Third, it would provide assistance to the Contras for relocation; also, support for the balance of those funds; and assistance to the political elements inside Nicaragua that are opposed to the Sandinista government.

Last, it would provide some \$300 million that we promised a year ago to the Central American nations, the democratic countries of Central America.

Mr. President, I ask unanimous consent that this bill, which I am introducing on behalf of myself and Senator WEICKER of Connecticut, be printed in the RECORD and referred to the appropriate committee of jurisdiction.

The PRESIDING OFFICER. Without objection, it is so ordered.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 184

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### STATEMENT OF POLICY

SECTION 1. (a) It is the policy of the United States to encourage and support the

building of democracy, the restoration of peace, and the improvement of living conditions in the nations of Central America. The Congress believes that the efforts by the nations of Central America to build and maintain the social and economic institutions necessary to achieve self-sustaining growth and to provide opportunities to improve the quality of life for their people must rest primarily upon these nations' successfully marshalling their own economic and human resources.

(b) However, the Congress recognizes that, at the present time, the magnitude of the effort required to mobilize domestic resources is far in excess of what is presently available to these nations, particularly in light of the substantial external debt obligations confronting these countries.

(c) Therefore, the Congress finds that it is in the foreign policy interest of the United States to provide substantial economic assistance to the nations of Central America.

#### AUTHORIZATION OF APPROPRIATIONS

SEC. 2. There are authorized to be appropriated to the President for assistance to the Central American democracies (Costa Rica, El Salvador, Guatemala, and Honduras) in accordance with the provisions of chapter 4 of part II of the Foreign Assistance Act of 1961, \$300,000,000 for fiscal year 1987, which shall remain available until expended. Such sums shall in addition to amounts already appropriated for such purposes.

#### PROHIBITION

SEC. 3. (a) Notwithstanding any other provision of law and except as provided in subsection (c), no funds appropriated pursuant to any provision of law and no proceeds from the sale or other transfer of United States property, including any defense article, may be obligated or expended for or on behalf of the Nicaraguan democratic resistance on or after the date of enactment of this Act.

(b)(1) No defense article or other goods or technology subject to the jurisdiction of the United States may be exported to the Nicaraguan democratic resistance or to any agency thereof, and not such article, goods, or technology may be exported to the Nicaraguan democratic resistance or to any agency thereof by any person subject to the jurisdiction of the United States.

(2) The President shall prescribe such regulations as may be necessary to carry out paragraph (1).

(3) The authorities contained in section 38(e) of the Arms Export Control Act shall apply to violations of paragraph (1).

(c) Funds available for the Nicaraguan democratic resistance which are prohibited from obligation or expenditure pursuant to subsection (a) shall be available only—

(1) for relocation of the members of the Nicaraguan democratic resistance away from the areas of Honduras or Costa Rica bordering on Nicaragua;

(2) for support for a continuation of discussions under the auspices of the Contadora countries with a view toward resolving the armed conflict in Central America or for support for the implementation of an agreement relating to such conflict concluded by or through the Contadora countries; or

(3) for support for civilian democratic forces in Nicaragua, including such civilian democratic forces which are constituted as political parties, labor unions, and private sector organizations.

(d) No foreign country which provides assistance to the Nicaraguan democratic re-

sistance on or after the date of enactment of this Act may be eligible to receive assistance under the Foreign Assistance Act of 1961 or the Arms Export Control Act.

Mr. DODD. I yield very briefly to my colleague from Connecticut, whom I have just seen enter the Chamber, for any comments he may have on this particular bill.

Mr. WEICKER. I thank my distinguished colleague. I commend him on the introduction of this bill.

I wonder if I might have 2 minutes in my own right so I do not have to take away from anyone. It is on the same subject matter.

Mr. DODD. Whatever time I have left, I yield.

Mr. WEICKER. I ask unanimous consent that I may have 2 minutes in my own right.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. WEICKER. Mr. President, I support fully the investigation of those matters. The simple fact remains that the very matters that are being investigated were, at least insofar as the Contras were concerned, were matters of total public knowledge to the American public at large, to the Senate of the United States, to the House.

It stands to reason that grubby policies—and we all knew about the policy—beget grubby details. For everybody to feign shock and amazement is not, to me, the appropriate emotion, in light of what was known by the constitutional process of this Nation, which included not just the President but the Senate and the House and the American people.

The way we deal with this situation is to eliminate the policy. By that I mean the business of trying to overthrow by force a government that we recognize.

Swiss bank accounts and the channeling of money, should come as no surprise.

For those who come down on Mr. Reagan's head, I sort of refer to this as the King Henry the Second scenario. King Henry, in the presence of his knights, said, "Will nobody rid me of this troublesome thing?" The knights went out and murdered the archbishop. When they came back, the king threw up his hands and said, "I did not mean for you to do that."

Now the Nation throws up its hands when it learns the further details of everything this Nation stands for.

Investigation is fine, but what needs to be done here is to eliminate the policy that brought about the details now being investigated. It is fair to say that the swap of arms for hostages we did not know about. That is new matter. But the matter of the Contras is not something new to this body.

I commend the distinguished junior Senator from Connecticut for getting at the heart of the matter and saying let us be done with a bizarre policy—the first I can recall in the history of this Nation where, by force, we seek to overthrow a government we recognize.

If you want to face up to the matter and do not like the government, fine. Let us have a little debate on a declaration of war here. I do not think anybody is going to vote for that. But the surreptitious policy has been approved in a thousand ways, and there is pointing with shock to the President, when so many of our colleagues, Democrat and Republican, had a hand in it. The time to deal with it is now, and this legislation does just that.

Mr. President, if indeed there is concern about what we are now dealing with on the part of the Senate and the House and the Nation, instead of pointing the finger at the President of the United States, let us go ahead and take the appropriate action—end the policy. Otherwise, we are part of it. I do not think that continued funding finds much support among the American people at this juncture.

#### OUR NATION'S FOOD INSPECTION PROGRAM

Mr. WILSON. Mr. President, today marks the beginning of a new legislative session. Accordingly, I will ask my colleagues to support legislation that I intend to introduce in the upcoming weeks that will strengthen our Nation's inspection system for monitoring imported foods for illegal pesticide residues.

Mr. President, simply stated, the bitter irony of our situation is that American farmers are asked to comply with health standards for the protection of the American consumer, and rightly so, and yet we permit the importation of a flood of tainted foodstuffs from foreign lands where no such requirements are imposed.

There is a grave danger to the American consumer and a great inequity posed to the American farmer.

This legislation that I described I hope will have wide cosponsorship on both sides of the aisle. It is necessary both for the protection of health and to cure a competitive inequity.

As you know, Mr. President, one of the major responsibilities of the Food and Drug Administration is to protect the public from unsafe foods imported into the United States. Over 20 million tons of food enters the United States annually, up 43 percent from 1978, and that figure is expected to increase. Almost half of these products appear to be from developing countries, where consumer safety practices may be at low levels, if existent at all. Food safety and quality standards are also a concern with products from developed countries. Recent discoveries of taint-

ed European wine and French brie cheese are two startling examples.

Food that is imported into this country is subject to U.S. regulations which establish levels of pesticide residues that are not allowed to be present on food, as determined by the Environmental Protection Agency. However, according to a recent, exhaustive study undertaken by the General Accounting Office, at the request of Representative FRANK HORTON and myself, the Food and Drug Administration's pesticide monitoring system provides at best limited protection against public exposure to illegal pesticide residues in imported food.

According to the GAO, large quantities of fruits and vegetables bearing pesticides banned by EPA, are regularly allowed into the United States. In fact, FDA annually samples less than 1 percent of approximately 1 million imported food shipments, with shipments from many countries that regularly export commodities to the United States going unsampled.

Yet, our Nation's farmers must comply with stringent U.S. pesticide laws that often require costly pesticide registration processes, while their foreign competitors are being allowed virtually unhindered access to our markets. I believe that this is extremely unfair and that it compounds that unfairness when those same foreign growers are allowed to ship their produce into this country under the very noses of FDA.

In fact, the GAO estimated that around 6 percent of all produce entering this country is tainted by pesticide whose use is forbidden to our own farmers.

Even more disturbing is that imported food shipments found to contain illegal pesticide residues will probably be marketed and consumed rather than re-exported or destroyed. Under current law, those commodities suspected of containing illegal residues are to be withheld from the marketplace until FDA completes its laboratory analysis. However, importers often ignore FDA's requirement and go on to distribute the commodities.

Although adequate enforcement regulations and penalties exist for FDA to utilize, importers who illegally distribute contaminated foods to the market are rarely penalized. Consequently, there is little incentive for importers not to distribute their contaminated shipments to market. The real irony is that the importer who complies with U.S. regulations by removing adulterated shipments from the marketplace incurs an economic loss, while those that do not, incur no economic loss. FDA's inaction in this case is, in my opinion, both dangerous and inexcusable. My legislation will direct the FDA Commissioner to improve implementation of the enforce-

ment mechanisms that Congress has provided.

Additionally, this legislation will improve FDA's information gathering abilities, with a specific emphasis on pesticide usage by our foreign competitors. It will also redirect FDA's inspection resources to improve the monitoring of imported foods. Finally, the bill will require the FDA Commissioner to report annually to Congress on FDA's inspection activities.

In closing, Congress should approve legislation to ensure not only that FDA's Pesticide Monitoring Program provides maximum protection against public exposure to illegal pesticide residues in food, but also that our Nation's agricultural industry is provided with a fair environment in which to compete. I urge my colleagues to join me in my efforts.

#### PREMIER POET LAUREATE AN INSPIRING TEACHER

Mr. MATSUNAGA. Mr. President, a most interesting revelation about our first U.S. Poet Laureate, when he was a professor at the University of Minnesota nearly 40 years ago, appeared in the Minneapolis Star and Tribune recently. Robert Penn Warren was an outstanding, inspiring teacher and an unforgettable one, according to columnist James Shannon, whose commentary on the poet was entitled: "Overdue tribute to a teacher who made a lifelong difference." Because of its insights into the character of our Nation's premier poet laureate as an inspiring teacher of the young, I ask that Mr. Shannon's article be printed in the RECORD so that my colleagues and others may gain a further appreciation of the qualities of the gentleman and literary giant who has been named the first Poet Laureate of the United States. As the introducer of the legislation which created the office for the purpose of inspiring talented young Americans into the writing of poetry as an art, I am increasingly pleased over the choice of Robert Penn Warren.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Minneapolis Star and Tribune, Sept. 7, 1986]

#### OVERDUE TRIBUTE TO A TEACHER WHO MADE A LIFELONG DIFFERENCE

(By James Shannon)

The opening of the school year turns my thoughts to the debt I owe some great teachers who, in different ways, took me in hand years ago and helped me discover the difference between learning and doing homework. In my youth the term "mentor" had not acquired the currency it has today. Looking back I realize now that six, maybe eight, of my teachers over the years were also models and mentors for me.

On occasion I have been able to tell some of them how much richer my life has been

because of their influence on it. One such mentor I have never thanked explicitly. Today I would like to make amends for this omission.

Thirty-eight years ago this month I began my first class in graduate school at the University of Minnesota. The course was "The Technique of the Novel." The teacher was Robert Penn Warren—novelist, poet, scholar, gentleman and teacher par excellence.

I can still recall many details of that first day in a third-floor room in Folwell Hall. Two modest red and white wall signs proclaimed "No Smoking." There were about a dozen of us in the class. Warren entered, carrying one sheet of paper and a pack of cigarettes. He lit up and started to talk as he paced back and forth in front of the blackboard.

From this single sheet he read off the titles of 10 novels we were to read, one a week for 10 weeks. For two hours each week we were to discuss the style and technique of a different author. We were all to buy paperback copies of the same edition of each text, so that we could mark them up and so that we could all cite the same words on the same page in analyzing a given passage.

Lighting a fresh cigarette from a spent one, Warren, moving all the time, asked us to do him a favor. He knew that the title of the course was "The Technique of the Novel." But he admitted that he could not define a novel. He had read several. He had written some. But he would have to ask us to proceed on the premise that we knew in some vague way what this term signified, even though none of us could define it.

Without notes or text he spoke easily and rapidly about the myriad elements a novelist must somehow balance and fuse. Even in such introductory remarks his evident passion for his subject conveyed intellectual excitement to me. I was charmed. My earlier sense of apprehension on Day One of graduate school melted away.

In later classes Warren never told us we ought to like something we read. By framing his comments as queries he drew us steadily into dialogue. Here was a widely published, successful author (he had just sold the movie rights to "All The King's Men") talking to us about writing, from the inside out.

His was an inductive method of close textual analysis, with dozens of questions about what works best in writing and why—the reverse of many pedants I had known who waxed eloquent about the beauty of a literary passage but with nary a clue as to why it was good writing. Warren pressed us for specific reasons whenever he sensed our agreement that a given passage did what its author intended.

In his class there was no such thing as a dumb question. Deeply courteous Southern gentleman that he is, Warren would take a poor question, fashion it into a good question, and give it an excellent answer. He taught me as much about courtesy between teacher and student as he did about rapport between a writer and a reader.

One day in his office I was present while he was being interviewed by a reporter from the New York Herald Tribune. In a classically inept question the reporter asked, "Dr. Warren, how does one go about writing a great novel?" Warren slowly looked out the window, at the floor, at the ceiling and then said, "I cannot tell you how any writer goes about writing a great novel. But I will tell you this. In order to write a very bad novel a writer must have a vast lack of interest in a host of other worthwhile topics." The

wisdom in that one statement has been a guideline ever since for me about how to focus my energy and my time.

At the heart of my admiration of Robert Penn Warren is the fact that he is an accomplished and disciplined artist who made a decision early on to divide his time between the art of writing and the art of teaching. The Herald Tribune reporter also asked him why he continued to teach when his novels were best sellers. His simple reply was: "I could not write those novels unless I had regular contact with those irreverent students who have the audacity to question my judgments daily. They charge my batteries."

Warren is now Poet Laureate of the United States, the first person to hold this distinguished title. True to his own demanding principles, he has promised never to write testimonial verses for state occasions.

As one of his aging but grateful students I thank him from the heart for the tough-minded, graceful and generous guidance he gave many of us nearly 40 years ago, and for his fidelity to this day to the standards of personal and artistic integrity he exemplified then.

#### SENATOR JOHN STENNIS, THE FOURTH PRESIDENT PRO TEMPORE FROM MISSISSIPPI

Mr. COCHRAN. Mr. President, today Senator JOHN STENNIS was elected President pro tempore of the U.S. Senate. My senior colleague from Mississippi thereby became the fourth Senator from Mississippi to begin service as President pro tempore of the Senate.

Senators may notice that in the Senate Manual, a copy of which each Senator has in his desk, there is a listing of each Senator who has served in this capacity. Prior to 1890, it says that Senators were selected as Presidents pro tempore for the occasion only. But after 1890, the Senate provided that Senators who were selected as Presidents pro tempore would serve until the Senate otherwise ordered. Therefore, in the early days of the Senate, there were many Senators who served during the same session and in some sessions there were not any Presidents pro tempore selected.

But under the old rules, the first President pro tempore from Mississippi was George Poindexter. He was elected on June 28, 1834.

More than 100 years later, the second Mississippian was selected to serve as President pro tempore. Pat Harrison, a Senator who had risen to prominence as chairman of the Senate Finance Committee, was elected to serve in this capacity on January 6, 1941.

Our third President pro tempore was James O. Eastland. Many Senators who are serving now in the Senate recall serving when Senator Eastland presided as President pro tempore. He was elected on July 28, 1972. He served during four Congresses, the 92d, the 93d, the 94th and the 95th, as President pro tempore.

Now JOHN STENNIS, our fourth Mississippian, begins his service as the Senate's President pro tempore. The people of Mississippi are very proud of JOHN STENNIS and the fact that he has been elected to serve in this capacity.

I rise to congratulate him, Mr. President, and to commend him on his illustrious and distinguished career as a U.S. Senator. He was first elected on November 4, 1947 to fill an unexpired term and he has served with great distinction since that date. In November of this year, he will have served for 40 years as a U.S. Senator from the State of Mississippi.

Today the Washington Times carried a very good article, an excellent article, written by Cathryn Donohoe, about Senator STENNIS, describing many of his traits and qualities that are the reasons why he is such a beloved Member of the U.S. Senate.

Mr. President, I ask unanimous consent that this fine article be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Washington Times, Jan. 6, 1987]

#### STENNIS—SENATE LEGEND IS ON DUTY AS 100TH CONGRESS OPENS

(By Cathryn Donohoe)

What the old man in the wheelchair hasn't lived through, he's heard tell of. The rest he can imagine.

"Your mother tells you something and you don't forget it," he says, blue eyes alight.

She was born two years before the War Between the States began, when the desk he uses on the Senate floor belonged to his predecessor, Jefferson Davis.

She told him about Vicksburg. "See, we were holding it down there, and as long as we had Vicksburg we had control of the river," he recalls, rolling out ri-vuh in those flush tones of Mississippi that make Northern speech sound pinched.

She told him about how Grant besieged the town. About how, when Vicksburg fell after 47 days, the law broke down and the bandits combed the land to take whatever they could find. And how his mother's mother, "out at home," put the table silver in a box and buried it.

He tamps imagined soil to show how she covered her cache, and snow-white French cuffs bob up and down above his office desk. He wears cuff links the size of quarters: on blue stones, in gold, the Great Seal of the United States.

Beside his desk, the flag of Mississippi incorporates the Stars and Bars of the Confederacy.

His mother's mother tried to hide their cattle in the swamps, and couldn't. She was a widow by Vicksburg's time. The cattle broke out through the trees. The marauders came through to get food for the Union army and took 'em all off, easy.

They missed the silver.

"Tore our country up bad, that war did," John Stennis says.

He tells it as if Vicksburg happened yesterday. From his vantage point at 85, it did: U.S. Grant died only 16 years before John Cornelius Stennis came along.

Today Mr. Stennis is the oldest fellow of a chamber that reveres stability. Dean of the Senate, this November he will have served 40 years.

He keeps a vision of America most have forgotten—"earning and doing for yourself rather than having government do everything for you"—and laces conversation with memories of legislative giants now gone.

He talks of Russell, Hayden, Javits, Vandenberg, Taft. And Lucius Quintus Cincinnatus Lamar, a Mississippi man who came to Washington more than a century ago.

His is a gentility that prompts him to call the 28th president "Mr." Wilson; to hand visitors his calling card, engraved and immaculate; to thank them for their time.

Some might call it the mellowness of age, some the old Southern tradition. But those who know John Stennis say that's just the way he is.

"I've never heard him raise his voice in conversation to anybody in the entire 38 years I've known him. He's always been thoughtful and considerate," says Russell Long. Second only to Mr. Stennis in Senate longevity, Mr. Long has just retired, at 68, as Louisiana's senior senator.

"It's part of his personality. It isn't just a matter of doing it because the etiquette books say so. That's the way he lives his life," Mr. Long says.

Sen. Thad Cochran, Mr. Stennis' Republican colleague from Mississippi, says his senior can find something commendable in everyone, no matter what their merit.

"He may be somebody that drives you crazy," Mr. Cochran laughs, "but it's always 'This senator, isn't he a worker? Isn't he a worker?'"

Yet Mr. Stennis can wheel and deal on issues that mean jobs for his state. "Think Mississippi," reads a plaque on his desk. And "jobs" in the Senate means the ultimately powerful Committee on Appropriations, a body that controls how much money—some would say "pork"—goes where.

Since 1955 the senator has used his committee seat to nickel-and-dime a total of \$2 billion from Congress for the Tennessee-Tombigbee Waterway, a 234-mile canal project linking the coal fields of Tennessee to the Gulf of Mexico.

Forty years in the planning and building, called by its critics "an idea whose time has gone," the canal opened in 1985. Since then its economic benefit has not met expectations, but even today it is dear to Mr. Stennis' heart.

"There's never been any way found to carry heavy goods at lower cost than water travel, traveling on the water in small boats," he says.

Three years ago Mr. Stennis pulled rank to displace Wisconsin's Sen. William Proxmire as the committee's top Democrat, claiming the move would give him even greater breadth.

The result: John Stennis today becomes the committee's chairman when the 100th Congress convenes at noon and his party retakes the Senate.

With Mississippi's Rep. Jamie L. Whitten in charge of the House appropriations committee, one of the nation's poorest states now has a commanding claim to funds for agriculture, flood control and other public works.

Vicksburg is avenged.

Mr. Stennis also takes over the appropriations committee's subcommittee on defense—a key to the health of the Pascagoula shipyards on the Gulf—and remains a member of the Committee on Armed Serv-

ices. It is a unique dual assignment that gives him a major voice in both military policy and military spending.

An internationalist schooled in the way of the old bipartisan foreign policy, Mr. Stennis has always supported a strong defense. Awards from military and veterans' groups dominate one wall of his outer office.

Yet he opposed American dabbling in Vietnam as early as 1954, and in 1971 was among the first to attempt a check on the president's war powers. In his view, a constitutional issue was at stake: Only Congress can declare war.

And to hear him talk today, the Reagan administration's tax-reduction program means that military outlays—including funds for the Strategic Defense Initiative—must be reined in to balance the budget. Lean days, and perhaps a sharp look at tax policy, may be in order.

"He gave you tax reduction to quick," Mr. Stennis says of the president.

Today the senator also resumes the job he gave up when the Republicans captured the Senate six years ago—its presidency pro tempore, a post reserved for the majority's senior member.

Four of his colleagues weren't born when John Stennis came to Washington in 1947. With them he can be expected to take the gentle mentor's role, much as he has with the incoming majority leader, 16 years younger and his junior by a dozen years.

"Stennis gave me a word of advice one day, and he did it in a very careful way," says Sen. Robert C. Byrd of West Virginia, who whenever he took the chair as a freshman would gavel down even Lyndon Johnson to bring order. And he would let his anger show.

"Stennis said, 'Doin' a great job doin' a great job. You're a man who gets order in this Senate. But be careful that you don't ever show that you're a little angry. Just keep on doin' like you're doin'. But if you get a little impatient or frustrated, don't let it show.'"

John Stennis has never let it show. He sits erect, the left trouser leg of his dark blue suit folded under where a tumor was until two years ago. He has endured heart surgery and repeated bouts with pneumonia, and in 1973 almost died after muggers shot him twice in front of his Washington home.

He took 17 months to recover, and even dreamed then of a headline on a Mississippi paper. "Stennis Dies in His Sleep." Colleagues worried they would lose him.

But with the tenacity that pulled him through then, he keeps coming back. And he stays. As one late-night session flowed into another in the closing days of the last session, Mr. Byrd recalls, toward midnight he would repeatedly urge Mr. Stennis to go home and turn in—to no avail.

"Well, now, I don't want to go if you need me. If you think you need me or you think there's going to be a vote or something here, I don't want to go," Mr. Byrd remembers Mr. Stennis saying.

"He's always at his post of duty," the West Virginian says.

"Duty" to John Stennis can mean many things. It can mean the nuance of senatorial courtesy that requires members to stand when speaking on the Senate floor.

As if his colleagues expected him to meet that obligation, Mr. Stennis has had the old Davis desk altered to receive a wooden bar. To speak he grasps the bar and pulls himself up. And he stands.

"Duty" can mean stewardship and the integrity of one's vote. That issue is dear to Mr. Stennis' heart.

"It's the constitutional duty, and the fact that people are trusting us, to do the things that are necessary to make our system survive, even if it costs you your seat in the Senate," he says. "That's not written out there, but that's what the meaning is."

Russell Long recalls wondering how to vote, in 1951, on whether Senate hearings on Gen. Douglas MacArthur's dismissal as Korean War commander should be televised. The people liked the idea, but vital military information could spill out. He asked John Stennis what he thought.

"He has a way of holding his lips together tightly when he thinks something is very serious, and shaking his head, and he said, 'Russell, sometimes you have to vote to save this country even if it's not popular.'"

They voted "no."

"Duty" means a commitment to his state, "the home place." Mr. Stennis holds out his hand palm up, then brushes his fingertips down his thumb when he talks about the soil of Mississippi's Delta. His eyes sparkle. His speech, it seems, takes on an even more opulent tone.

"Ovun own the Big Rivuh, the Mississippi Rivuh, now, that's alloovial soil. Al-loovial soil," he says, working his fingers. "Ver'rich land, like the Nile valleeh."

He may have come to the Senate a circuit court judge, but he learned his books in an agricultural high school and grew up on a cotton farm. He remembers when the boll weevils hit in 1910 and how the price of cotton dropped to 5 cents a pound in the Depression.

Those days are over now, he says. They don't even grow much cotton in his county anymore. His grown daughter's dresses say "Made in Hong Kong."

The economic realities make Mississippi a needy state. From that his devotion to the Senate springs. The U.S. Senate is a body where a state like Mississippi stands level with New York.

And from that comes a reverence for the Constitution and its framers—as men who, after months of wrangling that almost aborted the nation, in Philadelphia 200 years ago finally struck a Great Compromise on the nature of the Senate.

It gave each state two votes, the equal voice denied them in the House, and allowed a union of big states and small. Mississippi was a dream then, but John Stennis' feel for its stake in the proceedings is vivid.

"I wasn't there, now," Mr. Stennis warns a visitor as if honesty demanded it. Yet like a man who's pulled off a sharp deal and aches to tell about it, he bends forward and drops his voice to a conspiratorial whisper. That bunch from the big, rich states could be just around the corner, after all.

"That was a highly unusual agreement," he confides urgently. "But they had to do that to get the Constitution. Delaware and all that crowd were gonn' pull out. Delaware, that's the smallest state, and New Jersey, they were gonn' pull out. And he told 'em so."

He did Gunning Bedford of Delaware told 'em that if the small states didn't get their two votes, they would confederate and ally themselves with a foreign power. They got their two votes. Article I, Section 3 sealed the compact.

"And the fella says, 'Next year you're gonna repeal that and put it back to one' So they made 'em write it in there: 'This shall not be reduced except through the consent of the state in question.'"

"So we got two forever," he says, and chuckles long over this obscure clause

tacked to the tail of Article V, as if it were a steal.

"You got to hold to that Constitution, you know. That structure of government. It's the principles, you see," he says.

The principles John Stennis can derive from the Constitution today include civil rights for blacks. In 1982, under the rare pressure of a contested election, Mr. Stennis said "yes" for the first time to a civil rights measure, the extension of the Voting Rights Act of 1965.

The early days were different. Because the poll tax kept the poor—most of them black—from voting, Mississippi's black vote was minuscule.

According to Russell Long, "it was political suicide to be for the civil rights program, and if you opposed it, that more or less assured your re-election."

Mr. Stennis in this case did the popular thing, entering the Senate in favor of "a reasonable and proper segregation." Mr. Long remembers him as the only "uniform-wearing Confederate" besides himself on the rules committee in 1949, standing with him "like 'Horatius at the Bridge'" against a Republican civil rights onslaught.

On constitutional grounds, Mr. Stennis waged a protracted defense of the poll tax. He helped write *The Southern Manifesto*, a bitter attack by Southern legislators on the Supreme Court for its 1954 decision desegregating the schools.

Ten years later he co-sponsored an amendment to the Civil Rights Act that offered federal aid to blacks who would agree to resettle in states with small black populations.

His fight was long and harsh, but it is not hard to hear a wounded South in his 1970 critique of *de facto* segregation in the North: "There is one rule for the South and another rule beyond the South as to segregation, after all."

Even today, with a touch of the old obstinacy, Mr. Stennis will refer to the poll tax as a fair measure, one applied across the board to both black and white. "Everyone ought to pay some tax," he says.

Yet it's "history," he says, something that's "all straightened out now." And in 1982 he won the state 2-1 with black support.

If John Stennis runs again next year, wins and serves until Sept. 18, 1989, he will break the record for Senate longevity set by Carl Hayden of Arizona. He says he's too busy to think about that now; he has a job to do in Washington.

But Paul LaCoste of Jackson, Miss., the senator's finance chairman in 1982, says it wouldn't surprise him to see Mr. Stennis make the race again.

"He has never said anything that would lead me to believe, or make this supposition," Mr. LaCoste says, "It's just that you sort of know the man."

The pull can be strong. The senator's life and work are in Washington. His son and daughter have families of their own. His wife, "Miss Coy," died in 1983 after 54 years of marriage.

Yet "the home place" has a deep attraction. On a wall of his office Mr. Stennis keeps a watercolor of that place, "the little house" on 25 acres where he has lived for 50 years outside DeKalb. He looks at the painting and talks of the driveway, the town, the stands of *tim-buh*.

Then he tells of how his father's father used to send his cotton in ships down the Pearl River to market in New Orleans. And how his mother's father used to take his

east to Gainesville, Ala., and put it south to Mobile on the Tombigbee. The families lived near one another, you see.

He reaches to the wall beside his desk and takes down a photograph. "My mother," he says.

The blurred picture shows a man, a woman, five young children and a baby in arms.

His mother is the infant.

She and his father are buried in a family cemetery at the old place. He goes out there on Sundays when he's home.

"You got to hold on to things, you know," he says.

#### EXTENSION OF TIME FOR ROUTINE MORNING BUSINESS

Mr. MELCHER. Mr. President, I ask unanimous consent to extend morning business under the same conditions for an additional 15 minutes.

The PRESIDING OFFICER (Mr. MATSUNAGA). Is there objection? Without objection, it is so ordered.

#### PUBLIC FINANCING OF SENATE ELECTIONS

Mr. BOREN. Mr. President, last year, through a lengthy process and after much deliberation about the need for reform, the Senate had an initial vote to make major changes in our system of campaign finance. I was pleased to be joined by many concerned and sympathetic colleagues who had firsthand knowledge and experience with the alarming trend toward runaway spending in elections funneled by an unhealthy amount of special interest money.

Now in the 100th Congress, on the heels of the last election cycle, we must bring a renewed focus on the problems caused by money in politics and the divisiveness it promotes.

Having talked to many Members and read the many news accounts of the increased tidal wave of money and the negative effect it has had on our election process, I again come to the floor of the Senate to discuss legislation on this issue which I am introducing with the distinguished majority leader and others. I am proud to join with him in this effort. Others have already joined us and we are just now commencing to seek cosponsors. Concern about this matter cuts across the spectrum of American politics. Senator TERRY SANFORD of North Carolina, the past president of Duke University, has joined in this bill as had Senator JOHN STENNIS of Mississippi, the President pro tempore of the Senate—Senator LAWTON CHILES, chairman of the Budget Committee and the senior Senator from Massachusetts and chairman of the Labor and Human Resources Committee have already joined in sponsoring the bill along with Senator BYRD and myself.

The legitimacy of our democratic political system rests on the integrity of the election process. We have a clear

duty to act now to protect that integrity. We face a threat to our political system that can no longer be placed on the back burner.

Mr. President, the bill on which the Senate positively voted 69 to 30 last year was primarily directed at the undue influence of political action committees and the problems associated with the over \$104 million they pumped into the system in the previous cycle. However, that bill never directly addressed the overriding problem, which was and is: limiting campaign expenditures.

Mr. President, in the last election cycle, there has been a continuing increase in the cost of winning a seat in this Chamber. In 1976, that figure was \$609,000; in 10 years, that figure has gone to over \$3 million.

This has been caused in part by the estimated \$140 million of PAC contributions which went to Senate and House candidates. This is a 25-percent increase in just 2 years. And while final figures on independent expenditures on congressional races are not yet complete, it is very apparent it will easily exceed the \$6 million in the 1984 election cycle.

There is only one way in which to practically limit campaign spending while staying within the confines of a 1976 Supreme Court decision—*Buckley versus Valeo*—that is through the implementation of a system of partial public financing, similar to the Presidential system, coupled with provisions which continue to encourage appropriate private contributions and participation at the grassroots.

In this bill, the proposal to limit total spending is added to the other components of S. 2 which limit PAC contributions, close the bundling loophole, clarify the definition of "independent expenditures," and limit the role of foreign interests in establishing PAC's. It stakes out a strong starting point as we begin to travel the road of comprehensive reform.

I believe, as does my principal cosponsor, Senate Majority Leader ROBERT C. BYRD, that with the serious threat posed to our constitutional system, the time is right to move toward this system.

Further, I introduce this bill as a starting point for work which is going forward in several forums. Both parties have had task forces working on campaign finance reform. I am privileged to chair the Democratic working group organized by Senator BYRD for that purpose. These groups, in addition to the Rules and Administration Committee, under the chairmanship of Senator WENDELL FORD, can serve as productive forums for the discussion of the many components of campaign finance reform which should be addressed in this Congress in a bipartisan fashion.

There are four key elements of this spending limitation bill.

First, it is strictly a voluntary system, applicable to only Senate general elections.

Second, qualification is very restrictive due to a high threshold requirement calling for several, in-State, small contributions to the participating candidate—whose election is then subject to a modest expenditure limit. Fringe candidates will not be able to meet threshold requirements.

Third, private grassroots contributions are not displaced by public funds. In fact, private contributors will be encouraged to participate as candidates seek to meet threshold requirements.

It should reverse the current sharp decline in the number of small contributors from the home States of the Members of Congress.

Fourth, the system has a ceiling on funds available from the Senate General Election Campaign Fund. Once a nonparticipating candidate exceeds by 200 percent, that State's spending limit is lifted.

The bill also includes the same aggregate limit on the amount of PAC contributions that a candidate can receive. Additionally, due to the vote by the Senate in August on the Boschwitz amendment, I have implemented a provision calling for an aggregate limit on the amount of PAC contributions that a national party can receive as well.

There are other issues which need to be studied and will be in the very near future. However, in an effort to again demonstrate the critical state of our current system, I am proud to join with Senator BYRD in introducing this bill on the first day of the Congress and to urge immediate consideration and quick debate.

Mr. President, at a time when the need for national leadership and consensus is so great—with looming budget deficits, a frightening trade imbalance, and grave concerns over foreign policy—we in the Congress must promote integrity within this body and unity among our citizens, rather than falling into the trap of division promoted by our system of having special economic interests or single-issue groups finance our campaigns.

Every action we take and every vote we cast is justifiably under scrutiny by the American people. If we allow our democratic system of elections to continually be placed on the auction block, we can never hope to fairly address the national needs of our country. Instead, our energies will be expended in raising money and bowing to the constant pressures of special interests. How can any institution effectively serve the needs of its people when its central concern centers around raising millions of dollars for reelection campaigns?

The 100th Congress must face this serious problem. Let's hope this Congress will be the one to have the fortitude to, in the words of our First Lady's national antidrug campaign slogan, "Just say, 'no!'"

"No" to increasing dependence on special interest campaign money.

"No" to spending time going from one fundraiser to the next instead of working on the problems we were elected to solve.

"No" to spending more time and money on 30-second negative ads attacking opponents, instead of meeting the people at the grassroots level and learning how we can better serve them.

And finally and most importantly, "no" to allowing another election cycle to pass without acting on this issue.

The flood of money now polluting our campaign finance system is like the drug to the addict. The longer we go without admitting we have the problem of addiction, the more ingrained the addiction becomes and the harder it will be to ever break the habit.

In conclusion, I ask unanimous consent that a summary of S. 2, and the bill text be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 2

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That this Act may be cited as the "Senatorial Election Campaign Act of 1987."

SEC. 2. The Federal Election Campaign Act of 1971 (hereinafter referred to as "the Act") is amended by adding at the end the following new title:

#### "TITLE V—SPENDING LIMITS AND PUBLIC FINANCING FOR SENATE GENERAL ELECTIONS

##### "DEFINITIONS

"SEC. 501. For purposes of this title—

"(1) unless otherwise provided in this title the definitions set forth in section 301 of this Act apply to this title unless otherwise provided in the title;

"(2) the term 'authorized committee' means, with respect to any candidate for election to the United States Senate, any political committee which is authorized in writing by such candidate to accept contributions or make expenditures on behalf of such candidate to further the election of such candidate.

"(3) the term 'eligible candidate' means a candidate who is eligible under section 502 to receive payments under this title.

"(4) the term 'general election' means any election which may directly result in the election of a person to the United States Senate;

"(5) the term 'general election period' means the period beginning on the day after the date on which the candidate qualifies for the general election under the law of the state involved and ending on the date of the election or the date on which the candidate withdraws from the campaign or otherwise ceases actively to seek election, whichever occurs first.

"(6) the term 'Senate Fund' means the Senate General Election Campaign Fund maintained by the Secretary of the Treasury in the Presidential Campaign Fund established by section 9006(a) of the Internal Revenue Code of 1954, (26 U.S.C. § 9006(a)).

"(7) the term 'major party' means 'major party' as defined in section 9002(6) of the Presidential Election Campaign Fund Act, (26 U.S.C. § 9002(6)).

"(8) The term 'immediate family' means a candidate's spouse, and any child, stepchild, parent, grandparent, brother, half-brother, sister or half-sister, of the candidate and the spouses of such persons and any child, stepchild, parent, grandparent, brother, half-brother, sister or half-sister of the candidate's spouse and the spouses of any such persons.

##### "ELIGIBILITY TO RECEIVE PAYMENTS

"SEC. 502. (a) To be eligible to receive payments under this title a candidate shall, within seven days after qualifying for the general ballot under the law of the State involved—

"(1) certify to the Commission under penalty of perjury that during the period beginning on January 1 of the calendar year preceding the year of the general election involved, or in the case of a special election during the period beginning on the day on which the vacancy occurs in the Senate office involved, such candidate has received contributions aggregating at least \$250,000 or 20 percent of the limit set forth for such candidate in section 503(b), whichever is less;

"(2) certify to the Commission that 80 percent of such contributions have come from individuals residing in such candidate's state;

"(3) certify to the Commission that at least one other candidate has qualified for the same general election ballot under the law of the state involved;

"(4) agree in writing that such candidate and the candidate's authorized committees—

"(A) will not make any expenditure which exceeds the limitations established in section 503;

"(B) will not accept any contributions in violation of section 315;

"(C) will not accept any contribution for the general election involved except to the extent that such contribution is necessary to defray expenditures for such election that in the aggregate do not exceed the difference between the amount of the expenditure limitation established in section 503(b) and the amount of payments provided for in section 504(a) (1) and (2);

"(D) will deposit all payments received under this section at a national or State bank in a separate checking account which shall contain only funds so received. No expenditures of funds received under this section shall be made except by checks drawn on such account.

"(E) will furnish campaign records, evidence of contributions and other appropriate information to the Commission;

"(F) will cooperate in the case of any audit and examination by the Commission under Section 507;

"(G) apply to the Commission for a payment as provided for in Section 504.

"(b) For the purposes of subsection (a)(1) and sections 504 (a)(2) and (a)(6), in determining the amount of contributions received by a candidate and the candidate's authorized committees—

"(1) no contribution other than a gift of money made by a written instrument which identifies the person making the contribution shall be taken into account;

"(2) no contribution made through or by an intermediary or conduit as defined in section 315(a)(8) shall be taken into account;

"(3) no contribution received from any person other than an individual shall be taken into account, and no contribution received from an individual shall be taken into account to the extent such contribution exceeds \$250 when added to the amount of all other contributions made by such individual to or for the benefit of such candidate during the applicable period specified in subsection (4); and

"(4) no contribution received prior to January 1 of the calendar year preceding the year of the general election involved or received after the date on which the general election involved is held shall be taken into account, and in the case of a special election no contribution received prior to the date on which the vacancy occurs in the Senate office involved or after the date on which such election is held shall be taken into account.

#### "LIMITATION ON EXPENDITURES

"SEC. 503. (a) No candidate who receives a payment for a general election under this title shall make expenditures from the personal funds of such candidate, or the funds of any member of the immediate family of such candidate, aggregating in excess of \$20,000, for such general election.

"(b) No candidate who receives a payment for a general election under this title shall make expenditures for such general election which in the aggregate exceed \$600,000 plus 25 cents multiplied by the voting age population of the state involved in such general election, provided that such limitation on expenditures shall be subject to the provisions of section 504 (b) and (c).

"(c) For purposes of this section, voting age population means the figures certified by the Commission under subsection (e) of Section 315.

"(d) For purposes of this section, the amount set forth in subsection (b) shall be increased at the beginning of each calendar year based on the increase in the price index as determined under section 315(c) provided that for purposes of determining such increase the term 'base period' used in section 315(c) shall mean the calendar year 1987.

#### "ENTITLEMENT OF ELIGIBLE CANDIDATES TO PAYMENTS

"SEC. 504. (a) An eligible candidate shall be entitled to—

"(1) a payment under section 506 in the case of a major party candidate, in an amount equal to the difference between the limitation for such candidate provided in section 503(b) and the amount required to be raised by such candidate to establish eligibility under section 502(a)(1); or

"(2) matching payments under section 506 in the case of a candidate who is not a major party candidate, equal to the amount of each contribution received by such candidate and the candidate's authorized committees provided that in determining the amount of each such contribution the provisions of section 502(b) shall apply, the total amount of payments to which a candidate is entitled under this subsection shall not exceed 50 percent of the limitation set forth in section 503(b) applicable to such candidate, and the contributions required by section 502(a)(1) shall not be eligible for matching payments under this title.

"(3) the broadcast media rates provided under section 315(b) of Title 47 of the United States Code.

"(4) payments under section 506 equal to the aggregate total amount of the independent expenditures by any person in excess of \$25,000 made in the general election involved in opposition to, or on behalf of an opponent of, such eligible candidate.

"(5) a payment under section 506 in the case of a major party candidate, equal in amount to the amount set forth in section 503(b) with regard to such candidate, if any candidate in the same general election not eligible to receive funds under this title either raises aggregate contributions or makes aggregate expenditures for such election which exceed the amount set forth under section 503(b) for such election.

"(6) matching payments under section 506, in the case of a candidate who is not a major party candidate, equal to the amount of each contribution received by such candidate and the candidate's authorized committees if any candidate in the same general election not eligible to receive payments under this title either raises aggregate contributions or makes aggregate expenditures for such election which exceed the amount set forth in section 503(b) for such election, provided that in determining the amount of each such contribution the provisions of section 502(b) shall apply, the total amount of payments to which a candidate is entitled under this subsection shall not exceed 50 percent of the limitation set forth in section 503(b) applicable to such candidate and contributions matched under subsection 504(a)(2) or required to be raised under section 504(a)(1) shall not be eligible to be matched under this subsection.

"(b) A candidate who receives payments under subsection (a)(4), (a)(5), or (a)(6) may spend such funds to defray expenditures in the general election without regard to the provisions of section 503(b).

"(c) A candidate who receives payments under this section may receive contributions and make expenditures for the general election without regard to the provisions of section 502(a)(4)(C) or 503(b) if and when any candidate in the same general election not eligible to receive payments under this section either raises aggregate contributions or makes aggregate expenditures for such election which exceed twice the amount provided in section 503(b) for such election.

"(d) Payments received by a candidate under this section shall be used only to defray expenditures incurred with respect to the general election period for such candidate. Such payments shall not be used: (1) To repay any loan to any person or to make any payments, directly or indirectly, to such candidate or to any member of the immediate family of such candidate, (2) to make any expenditure other than expenditures to further the general election of such candidate, or (3) to make any expenditures which constitute a violation of any law of the United States or of the state in which the expenditure is made.

#### "CERTIFICATION BY COMMISSION

"SEC. 505. (a) No later than 48 hours after an eligible candidate files a request with the Commission to receive payments under section 504 the Commission shall certify such eligibility to the Secretary of the Treasury for payment in full of the amount to which such candidate is entitled. The request referred to in the preceding sentence shall contain—

"(1) such information and be made in accordance with such procedures as the Commission may provide by regulation; and

"(2) a verification signed by the candidate and the treasurer of the principal campaign committee of such candidate stating that the information furnished in support of the request, to the best of their knowledge, is correct and fully satisfies the requirements of this title.

"(b) Certifications by the Commission under subsection (a) and all determinations made by the Commission under this title, shall be final and conclusive, except to the extent that they are subject to examination and audit by the Commission under section 507 and judicial review under section 508.

#### "ESTABLISHMENT OF FUND; PAYMENTS TO ELIGIBLE CANDIDATES

"SEC. 506. (a) The Secretary shall maintain in the Presidential Election Campaign Fund ("Fund") established by paragraph 9006(a) of the Internal Revenue Code of 1954, in addition to any other accounts maintained under such section, a separate account to be known as the 'Senate Election Campaign Fund'. The Secretary shall deposit into the Senate Fund, for use by candidates eligible to receive payments under this title, the amounts available after the Secretary determines that the amounts in the Funds necessary for payments under subtitle H of the Internal Revenue Code of 1954 are adequate. The monies designated for such account shall remain available without fiscal year limitation.

"(b) Upon receipt of a certification from the Commission under section 505, the Secretary shall promptly pay to the candidate involved in the certification out of the Senate Fund the amount certified by the Commission.

"(c) If at the time of a certification by the Commission under section 505 for payment to an eligible candidate, the Secretary determines that the monies in the Fund and the Senate Fund are not, or may not be, sufficient to satisfy the full entitlement of all such eligible candidates, the Secretary shall withhold from such payment such amount as he determines to be necessary to assure that an eligible candidate will receive his or her pro rata share of his or her full entitlement. Amounts so withheld shall be paid when the Secretary determines that there are sufficient monies in the Senate Fund to pay such amounts, or portions thereof, to all eligible candidates from whom amounts have been withheld, but, if there are not sufficient monies in the Senate Fund to satisfy the full entitlement of an eligible candidate, the amounts so withheld shall be paid in such manner that each eligible candidate receives his or her pro rata share of his or her full entitlement.

#### "EXAMINATION AND AUDITS; REPAYMENTS

"SEC. 507. (a)(1) After each general election, the Commission shall conduct an examination and audit of the campaign account of 10 percent of the eligible candidates of each major party and 10 percent of all other eligible candidates, as designated by the Commission through the use of an appropriate statistical method of random selection to determine whether such candidates have complied with the expenditure limits and other conditions of eligibility and requirements under this title.

"(2) After each special election, the Commission shall conduct such an examination and audit of the campaign accounts of each eligible candidate in such election to determine whether such candidates have com-

plied with the expenditure limits and other conditions of eligibility and requirements under this title.

"(3) The Commission may conduct an examination and audit of the campaign accounts of any eligible candidate in a general election if the Commission, by an affirmative vote of 4 members, determines that there exists reason to believe that such candidate has violated any provision of this title.

"(b) If the Commission determines that any portion of the payments made to a candidate under this title was in excess of the aggregate payments to which such candidate was entitled, the Commission shall so notify such candidate, and such candidate shall pay to the Secretary an amount equal to the excess.

"(c) If the Commission determines that any amount of any payment made to a candidate under this title was not used as provided for in this title, the Commission shall so notify such candidate and such candidate shall pay to the Secretary an amount equal to 200 percent of the amount of such funds.

"(d) If the Commission determines that any candidate who has received payments under this title has made expenditures which in the aggregate exceed by 5 percent or less the limitation set forth in section 503(b), the Commission shall so notify such candidate and such candidate shall pay to the Secretary an amount equal to the amount of excess expenditure.

"(e) If the Commission determines that any candidate who has received payments under this title has made expenditures exceeding by more than 5 percent the limitation set forth in section 503(b), the Commission shall so notify such candidate and such candidate shall pay the Secretary an amount equal to three times the amount of the excess expenditure.

"(f) Any amount received by an eligible candidate under this title may be retained for a period not exceeding 60 days after the date of the general election for the liquidation of all obligations to pay general election campaign expenses incurred during this general election period. At the end of such 60 day period any unexpended funds received under this title shall be promptly repaid to the Secretary.

"(g) No notification shall be made by the Commission under this section with respect to an election more than 3 years after the date of such election.

"(h) All payments received under this section shall be deposited in the Senate Fund.

#### "JUDICIAL REVIEW

"SEC. 508. (a) Any agency action by the Commission made under the provisions of this title shall be subject to review by the United States Court of Appeals for the District of Columbia Circuit upon petition filed in such court within 30 days after the agency action by the Commission for which review is sought.

"(b) The provisions of chapter 7 of title 5, United States Code, apply to the judicial review of any agency action, as defined in section 551(13) of title 5, United States Code, by the Commission.

#### "PARTICIPATION BY COMMISSION IN JUDICIAL PROCEEDINGS

"SEC. 509. (a) The Commission is authorized to appear in and defend against any action instituted under this section and under section 508 either by attorneys employed in its office or by counsel whom it may appoint without regard to the provisions of title 5, United States Code, govern-

ing appointments in the competitive service, and whose compensation it may fix without regard to the provisions of chapter 51 and subchapter III of chapter 53 of such title.

"(b) The Commission is authorized through attorneys and counsel described in subsection (a), to institute actions in the district courts of the United States to seek recovery of any amounts determined under section 507 to be payable to the Secretary.

"(c) The Commission is authorized, through attorneys and counsel described in subsection (a), to petition the courts of the United States for such injunctive relief as is appropriate to implement any provision of this title.

"(d) The Commission is authorized on behalf of the United States to appeal from, and to petition the Supreme Court for certiorari to review, judgments or decrees entered with respect to actions in which it appears pursuant to the authority provided in this section.

#### "REPORTS TO CONGRESS; REGULATIONS

"SEC. 510. (a) The Commission shall, as soon as practicable after each election, submit a full report to the Senate setting forth—

"(1) the expenditures (shown in such detail as the Commission determines appropriate) made by each eligible candidate and the authorized committees of such candidate;

"(2) the amounts certified by the Commission under section 505 for payment to each eligible candidate;

"(3) the amount of repayments, if any, required under section 507, and the reasons for each payment required; and

"(4) the balance in the Presidential Election Campaign Fund, and the balance in the Senate Fund and any other account maintained in the Fund.

Each report submitted pursuant to this section shall be printed as a Senate document.

"(b) The Commission is authorized to prescribe such rules and regulations in accordance with the provisions of subsection (c), to conduct such examinations and investigations, and to require the keeping and submission of such books, records, and information, as it deems necessary to carry out the functions and duties imposed on it by this title.

"(c) Thirty days before prescribing any rules or regulation under subsection (b), the Commission shall transmit to the Senate a statement setting forth the proposed rule or regulation and containing a detailed explanation and justification of such rules or regulation.

#### "AUTHORIZATION OF APPROPRIATIONS

"SEC. 511. There are authorized to be appropriated to the Commission for the purpose of carrying out functions under this title, such sums as may be necessary.

#### "SENATE FUND

"SEC. 512. Section 6096(a) of Title 26 of the Internal Revenue Code of 1954 is amended by striking "\$1" whenever it appears in the subsection and inserting in lieu thereof "\$2" and by striking "\$2" whenever it appears in that subsection inserting in lieu thereof "\$4".

#### "BROADCAST RATES

"SEC. 513. Section 315(b)(1) of the Communications Act of 1934 [47 U.S.C. 315(b)(1)] is amended by striking the semicolon and inserting in lieu thereof the following:

"provided that in the case of a candidate in an election which may directly result in

the election of a person to the office of United States Senator, this provision shall only apply if such candidate has been certified by the Federal Election Commission as eligible to receive payments under Title V of the Federal Election Campaign Act,".

#### "CANDIDATE REPORTING REQUIREMENTS

"SEC. 3. Section 304 of the Federal Election Campaign Act of 1971 (2 U.S.C. § 434) is amended by adding at the end thereof the following new subsections—

"(d)(1) Declaration by Senate candidates. Not later than the day after the date on which a candidate qualifies for the ballot for an election which may directly result in the election of a person to the office of Senator, each candidate in such election shall file with the Commission a declaration of whether or not such candidate intends to make expenditures in excess of the limitation on expenditures provided under section 503(b).

"(2) Any declaration filed pursuant to paragraph (1) may be amended or changed at any time within 7 days after the filing of such declaration. Such amended declaration may not be amended or changed further.

"(e) Notification by Senate Candidates. Any candidate who qualifies for the ballot for an election which may directly result in the election of a person to the office of Senator who is (i) not eligible to receive payments under section 502 and, (ii) who either raises aggregate contributions or makes aggregate expenditures for such election which exceed the amount specified in section 503(b) for such Senate election, shall file a report with the Commission within 24 hours after such contributions have been raised or such expenditures have been made setting forth the candidate's total contributions and total expenditures for such election. Such candidate thereafter shall file a report with the Commission within 24 hours after either raising aggregate contributions or making aggregate expenditures for such election which exceed twice the amount specified in section 503(b), setting forth the candidate's total contributions and total expenditures for such election.

"The Commission shall notify each candidate in the election involved eligible to receive payments under section 502 about each such report within 24 hours after the report has been filed.

"Notwithstanding the report requirement established in this subsection, the Commission may make its own determination that a candidate in an election which may directly result in the election of a person to the office of United States Senator who is not eligible to receive payments under section 502 has raised aggregate contributions or made aggregate expenditures for such election which exceed the amount specified in section 503(b) for such election or exceed double such amount. The Commission shall notify each candidate in the general election involved eligible to receive payments under section 502 about each such determination within 24 hours after such determination is made."

"(f) Independent Expenditures Relating to Senate Candidates. Any independent expenditures (including those described in subsection (b)(6)(B)(iii)) by any person with regard to an election which may directly result in the election of a person to the office of United States Senator which in the aggregate total more than \$25,000 shall be reported by such person to the Commission within 24 hours after each independent expenditures are made. Thereafter, any inde-

pendent expenditures by such person in the election aggregating more than \$5,000 shall be reported by such person to the Commission within 24 hours after such independent expenditures are made.

"Such statements shall be filed with the Commission and Secretary of State for the state of the election involved and shall contain the information required by subsection (b)(6)(B)(iii) of the section and a statement under penalty of perjury by the person making the independent expenditures indicating whom the independent expenditures are actually intended to help elect or defeat. The Commission shall notify any candidate in the election involved who is eligible to receive payments under section 502 about each such report within 24 hours after the report is made.

"Notwithstanding the reporting requirements established in this paragraph, the Commission may make its own determination that a person has made independent expenditures with regard to an election which may directly result in the election of a person to the office of United States Senator that in the aggregate total more than \$25,000, and thereafter that in the aggregate total more than \$5,000.

"The Commission shall notify each candidate in the election involved eligible to receive payments under section 502 about each such determination within 24 hours after such determination is made."

#### "LIMITS ON CONTRIBUTIONS BY MULTICANDIDATE POLITICAL COMMITTEES"

"Sec. 4. Section 315(a)(2) of the Federal Election Campaign Act of 1971 (2 U.S.C. § 441a(a)(2)) is amended—

(1) by striking out "or" at the end of subparagraph (B);

(2) by striking out "\$5,000." in subparagraph (C) and inserting in lieu thereof "\$3,000"; and

(3) by striking out the period at the end of subparagraph (C) and inserting in lieu thereof a semicolon; and

(4) by adding at the end the following new subparagraphs:

"(D) to any candidate and his authorized political committees with respect to—

"(i) a general or special election for the office of Representative in, or Delegate or Resident Commissioner to, the Congress (including any primary election, convention, or caucus relating to such general or special election) which exceed \$100,000 (\$125,000 if at least two candidates qualify for the ballot in the general or special election involved and at least two candidates qualify for the ballot in a primary election relating to such general or special election) when added to the total of contributions previously made by multicandidate political committees, other than multicandidate committees of a political party, to such candidate and his authorized political committees with respect to such general or special election (including any primary election, convention, or caucus relating to such general or special election); or

"(ii) a runoff election for the office of Representative in, or Delegate or Resident Commissioner to, the Congress which exceed \$25,000 when added to the total of contributions previously made by multicandidate political committees, other than multicandidate committees of a political party, to such candidate and his authorized political committees with respect to such runoff election, or

"(E) to any candidate and his authorized political committees with respect to—

"(i) a general or special election for the office of Senator (including any primary election, convention, or caucus relating to such general or special election) which exceed the greater of \$175,000 (\$200,000 if at least two candidates qualify for the ballot in the general or special election involved and at least two candidates qualify for the ballot in a primary election relating to such general or special election) or the amount equal to \$35,000 times the number of Representatives to which the State involved is entitled, when added to the total of contributions previously made by multicandidate political committees, other than multicandidate committees of a political party, to such candidate and his authorized political committees with respect to such general or special election (including any primary election, convention, or caucus relating to such general or special election);

"(ii) a runoff election for the office of Senator which exceed the greater of \$25,000 or the amount equal to \$12,500 times the number of Representatives to which the State involved is entitled, when added to the total of contributions previously made by multicandidate political committees, other than multicandidate committees of a political party, to such candidate and his authorized political committees with respect to such runoff election; or

"(iii) a general or special election for the office of Senator (including any primary election, runoff election, convention, or caucus relating to such general or special election) which exceed \$750,000 when added to the total of contributions previously made by multicandidate political committees, other than multicandidate committees of a political party, to such candidate and his authorized political committees with respect to such general or special election (including any primary election, convention, or caucus relating to such general or special election)."

"(F) to the political committees established and maintained by a national political party, which are not the authorized political committees of any candidate, in any two year election cycle, which, in the aggregate, exceed \$2,000,000 when added to the total of contributions previously made by multicandidate political committees in such election cycle.

#### "INTERMEDIARY OR CONDUIT"

"Sec. 5. Section 315 of the Federal Election Campaign Act of 1971 [2 U.S.C. § 441a(a)] is amended—

(1) by redesignating subsection (8) as subparagraph (8)(A);

(2) by adding at the end, the following new subparagraphs:

"(B) A gift, subscription, loan, advance or deposit of money or anything of value to a candidate shall be considered a contribution both by the original source of the contribution and by any intermediary or conduit if the intermediary or conduit (i) exercises any control or any direction over the making of the contribution; or (ii) solicits the contribution or arranges for the contribution to be made and directly or indirectly makes the candidate aware of such intermediary or conduit's role in soliciting or arranging the contribution for such candidate; or (iii) engages in any activities of the same kind which resulted in the intermediary or conduit reporting such activities to the Commission under subsection (A) prior to January 1, 1987.

"(C) For purposes of subsection (B), a contribution shall not be considered to be a contribution by an intermediary or conduit

to the candidate if (i) the inter-intermediary or conduit has been retained by the candidate's committee for the purpose of fundraising and is reimbursed for expenses incurred in soliciting contributions; (ii) in the case of an individual, the candidate has expressly authorized the intermediary or conduit to engage in fundraising, or the individual occupies a significant position within the candidate's campaign organization; or (iii) in the case of a political committee, the intermediary or conduit is an authorized committee of the candidate."

#### "INDEPENDENT EXPENDITURES"

"Sec. 6. (a) Section 301(17) of the Federal Election Campaign Act of 1971 (2 U.S.C. § 431 (17)) is amended by adding the following:

"For purposes of this subsection, an expenditure shall not constitute an expenditure in coordination, consultation, or concert with a candidate and shall not constitute an 'independent expenditure' where,

"(A) there is any arrangement, coordination, or direction with respect to the expenditure between the candidate or the candidate's agent and the person making the expenditure;

"(B) in the same election cycle, the person making the expenditure (including any officer, director, employee or agent of such person) is or has been authorized to raise or expend funds on behalf of the candidate or the candidate's authorized committees; or is or has been an officer of the candidate's authorized committees, or is or has been receiving any form of compensation or reimbursement from the candidate, the candidate's authorized committees, or the candidate's agent;

"(C) the person making the expenditure (including any officer, director, employee or agent of such a person) has communicated with, advised, or counseled the candidate or the candidate's agents at any time on the candidate's plans, projects, or needs relating to the candidate's pursuit of nomination for election, or election to Federal office, in the same election cycle, including any advice relating to the candidate's decision to seek Federal office;

"(D) the person making the expenditure retains the professional services of any individual or other person also providing those services to the candidate in connection with the candidate's pursuit of nomination for election, or election to Federal office, in the same election cycle, including any services relating to the candidate's decision to seek Federal office; or

"(E) the person making the expenditure (including any officer, director, employee, or agent of such a person) has communicated or consulted at any time during the same election cycle about the candidate's plans, projects, or needs relating to the candidate's pursuit of election to Federal office, with: (i) any officer, director, employee or agent of a party committee that has made or intends to make expenditures or contributions, pursuant to Section 315(a), (d) or (h) in connection with the candidate's campaign; or (ii) any person whose professional services have been retained by a political party committee that has made or intends to make expenditures or contributions pursuant to Section 315(a), (d) or (h) in connection with the candidate's campaign;

"(F) the expenditure is based on information provided to the person making the expenditure directly or indirectly by the candidate or the candidate's agents about the candidate's plans, projects, or needs, provid-

ed that the candidate or the candidate's agents are aware that the other person has made or is planning to make expenditures expressly advocating the candidate's election; or

"(G) the expenditure is made by a person with the intention of seeking or obtaining any legislative benefit or consideration from the candidate by reason of the expenditure.

**"INDEPENDENT EXPENDITURE BROADCAST DISCLOSURE**

"SEC. 7. Section 318(a)(3) of the Federal Election Campaign Act of 1971 (2 U.S.C. 441d(a)(3)) is amended by deleting the period and inserting the following:

"provided that, (a) whenever any person makes an independent expenditure through a broadcast communication on any television station, the broadcast communication shall include a statement clearly readable to the viewer that appears continuously during the entire length of such communication setting forth the name of such person and in the case of a political committee, the name of any connected or affiliated organization, and (b) whenever any person makes an independent expenditure through a newspaper, magazine, outdoor advertising facility direct mailing or other type of general public political advertising, the communication shall include, in addition to the other information required by this subsection, a clearly readable statement, setting forth in the case of a political committee, the name of any connected or affiliated organization and the name of the president or treasurer of such organization, and the following sentence: 'The cost of presenting this communication is not subject to any campaign contribution committee limits.'"

**"CONTRIBUTIONS BY FOREIGN NATIONALS**

"SEC. 8. Section 319 of the Federal Election Campaign Act of 1971 (2 U.S.C. § 441e) is amended—

(1) in subsection (a) by inserting after "foreign national" the first place it appears the following: "including any separate segregated fund or nonparty, multicandidate political committee of a foreign national"; and

(2) in subsection (b) by adding before the semicolon at the end thereof the following: ", but shall include any partnership, association, corporation, or subsidiary corporation organized under or created by the laws of the United States, a State, or any other place subject to the jurisdiction of the United States if more than 50 percent of such entity is owned or controlled by a foreign principal".

**"PERSONAL LOANS**

"SEC. 9. Section 315a of the Federal Election Campaign Act of 1971 [2 U.S.C. § 441a(a)] is amended by adding at the end thereof the following paragraph:

"(9) For purposes of this section, no contributions received by a candidate or the candidate's authorized committees shall be used to repay any loan by the candidate to the candidate or to the candidate's authorized committees."

**"SEVERABILITY**

SEC. 10. If any provision of this Act or any amendment made by this Act, or the application of any such provision of this Act of any amendment made by this Act, or the application of any such provision to any person or circumstance is held invalid, the validity of any other such provision and the application of such provision to other persons and circumstances shall not be affected thereby.

**"EFFECTIVE DATE**

"SEC. 11. This Act and the amendments made by this Act shall become effective for any election held more than one year after the date of enactment of this Act.

There being no objection, the materials were ordered to be printed in the RECORD, as follows:

**SUMMARY OF THE BOREN-BYRD "SENATORIAL ELECTION CAMPAIGN ACT"**

**SPENDING LIMITS AND PUBLIC FINANCING FOR SENATE GENERAL ELECTIONS**

The Act would establish a voluntary system of campaign spending limits for Senate general elections tied to partial public financing. Primary elections would not be covered. If a candidate elects to participate, the following provisions would apply:

**A. Threshold**

To be eligible for public financing, a candidate would first have to raise contributions from individuals which, in the aggregate, amount to \$250,000 or 20% of the spending limit, whichever is less. Up to \$250 of each individual contribution would count for threshold purposes and at least 80% of the contributions would be required to come from individuals residing in the candidate's state.

To be eligible to receive payments under the Act, a candidate would be required to certify to the FEC within 7 days after qualifying for the general election ballot in the candidate's state that he or she has raised contributions sufficient to satisfy the threshold.

**B. Limitations**

(1) *Limits on Personal Funds:* A participating candidate and his or her immediate family could contribute no more than \$20,000 in personal funds to the candidate's general election campaign.

(2) *Limits on Overall Spending:* A participating candidate could spend in the general election no more than a total of \$600,000 plus 25 cents multiplied by the voting age population of the candidate's state. This limit would be increased based on the CPI, similar to the spending limits in the presidential public financing system.

**C. Benefits**

(1) *Public funds:* The candidate of a major party who has met the qualifications would be eligible for public funds equal to the difference between the threshold amount and the campaign spending limit for the state. A participating candidate could not raise private contributions for the general election except to the extent they are necessary to make up any difference between the spending limit and the amount of public funds provided. The candidate of a minor party or an independent candidate who has met the qualifications would be eligible to receive matching payments of up to \$250 for each individual contribution, subject to a limit of 50% of the overall spending limit. The contributions raised to meet the threshold requirement would not be matched.

(2) *Television costs:* A participating candidate would be entitled to receive the lowest unit rate costs for television advertisements, as presently provided by law. Non-participating candidates would no longer have this statutory benefit and individual stations could charge them regular commercial rates.

(3) *Independent expenditures:* If any individual or group makes independent expenditures of more than \$25,000 in opposition to

a participating candidate or in support of the participating candidate's opponent, the participating candidate would be eligible to receive additional public financing payments equal to the amounts being spent by the individual or group on independent expenditures, over and above \$25,000.

(4) *Additional payments; suspension of spending limit:* If any non-participating candidate raises total contributions or makes total expenditures in excess of the spending limit for a participating candidate, participating candidates would be eligible for additional public financing payments. Each participating major party candidate would be eligible to receive an additional payment equal to 100% of the spending limit. Each participating minor party or independent candidate would be eligible to receive additional matching payments of 50% of the spending limit.

If a non-participating candidate raises total contributions or makes total expenditures for the general election in excess of double the spending limit, a participating candidate would be able to make additional expenditures and raise private contributions without regard to the restrictions otherwise established under the public financing system.

**D. Source of public funding**

The existing Presidential Election Campaign Fund would be increased by raising the dollar tax check-off from \$1 to \$2.

**E. Effective date**

The Act would be effective for any election held more than one year after the date of enactment of the Act.

**AGGREGATE PAC LIMIT AND OTHER AMENDMENTS**

**Limit on PAC contributions**

(1) *Aggregate limit for candidates:* All candidates would be subject to an overall limit on PAC contributions varying with the population of their state—with a low of \$175,000 in small states and a cap of \$750,000 in large states. This provision would be applicable to all candidates, regardless of whether they opt to participate in the spending limits and partial public financing system.

(2) *Individual PAC contribution limits:* The individual PAC contribution limit would be lowered from \$5,000 to \$3,000.

(3) *Aggregate limit for parties:* A separate \$2 million limit per two-year election cycle would be established for the national political parties and for each of the congressional party campaign committees.

**Bundling**

This provision would close the bundling loophole in current law by requiring that contributions be bundled or otherwise arranged by a PAC or other intermediary would count toward the intermediary's contribution limit, as well as the original contributor's limit.

**Independent expenditures**

This provision would further define when an independent expenditure has been coordinated with a candidate's campaign and is therefore required to be treated as a contribution and subject to the contribution limits of the Act.

In addition, televised advertisements financed by independent expenditures would be required to continuously display throughout the length of the advertisement the name of the individual, political committee, or organization that paid for it. Direct mailings would also have to clearly disclose who paid for them.

*Foreign role in campaigns*

This proposal would close the loophole in current law whereby foreign nationals are barred from making campaign contributions to federal candidates but foreign and U.S. subsidiaries are allowed to establish PACs which can make such contributions.

*Loans*

This provision would prohibit a candidate, or the candidate's authorized committee from repaying loans in excess of \$20,000 made by the candidate to his campaign.

Mr. BOREN. Mr. President, let me state again the pride I have in joining with the distinguished majority leader in offering this legislation. This is not a partisan matter. This is an American problem about which we are talking. We are talking about the integrity of this institution. We are talking about the integrity of the election process. How long will we wait, Mr. President? How many millions and millions of dollars will it take the average candidate spending in order to get elected before we realize that something has gone badly wrong with the present way in which we finance campaigns in this country?

Mr. President, my hope is we will not wait another year. The 100th Congress must face up to its responsibility to the American people in this area.

The PRESIDING OFFICER. The time of the Senator has expired.

Mr. CHILES. Mr. President, I am pleased to join in introducing this legislation which takes aim at a critical issue facing our structure of Government: The influence of money on our political system.

The message of the 1986 congressional elections is the overwhelming importance of money to the electoral process. It has become the first, second, and third consideration of any candidate. Left unchecked, our representative system of Government is in danger.

This proposal we introduce today goes further than what Senator BOREN brought before the Senate last August and further than what the Senate endorsed by a 69-to-30 vote.

Our intention and hope is that this bill will be the vehicle for a serious reconsideration of the election laws this year.

Let me say to my colleagues, by the nature of the beast within all of us as politicians, each of us has given a lot of thought to the relationship between campaigns, money, how you get it, and how it affects the way you do your job.

We have just completed an election cycle. The trends are continuing. We are spending more money on campaigns. The role of PAC's and the "special interest" money they represent is increasing.

We are 2 years away from the next election. The time is right, the time is now, to address the changes needed.

I sense a growing consensus among the Members of this body that the trend toward more money in campaigns and bigger, richer, and more PAC's needs to be reversed. Just how to meet that goal is where the consensus breaks down.

But let us not forget why controlling and limiting PAC's is important. Let us not forget why reducing the amount of money spent in campaigns is important. It is not only what we as Senators privately know about how PAC's and special interest money are changing the relationship between ourselves and the individual constituents who vote us their trust; it is also what the public is increasingly beginning to believe. It is what the public is increasingly beginning to perceive us to be.

A large part of the American public thinks this Congress is the best money can buy. That "special interests" prevail over the "public interest." Congress is running the risk of becoming rotten in the public's eye.

Mr. President, when I was first elected to the Senate in 1970, I had just come from walking the State of Flori-

da. Our country was changing its views on its involvement in Vietnam. I heard a lot from folks on their loss of confidence in their leaders.

Shortly after I came here the country went through the Watergate crisis. Again, many people lost confidence in their leaders. A dominant theme in my years in the Congress has been the growing loss of confidence in public officials.

The ability of our constitutional form of government to provide for the common defense, promote the general welfare, and secure the blessing of liberty depends on the people's confidence in their leaders and their public institutions. I believe the decreasing number of voters in our electoral process is a symptom of this continuing loss of confidence. Too many people believe that the "special interest" PAC's and money count more than their individual votes.

Any thoughts about partisan or incumbent advantages which result of changing present laws will disappear if this body continues to ignore the need to reverse the erosion of public confidence in Congress. We need to act.

I want to join Senator BOREN, Senator BYRD, and others in inviting my colleagues to cosponsor this legislation. The Senate needs to commit itself to reforming the laws controlling how we get elected. The influence of PAC's should be curtailed. The amount of money in campaigns should be limited. The public already finances much of the Presidential elections.

I believe the partial public financing of Senate elections, with the right thresholds and limitations, is the way to change.

There are improvements that can be made to the package of changes contained in this bill. And I think the Senate will make improvements as we debate this legislation. But it is an important start. Through the approach of partial public financing we can limit the amount of money going to campaigns; we can limit the influence of PAC's and special interest money; we can control independent expenditures; and we can overcome constitutional barriers to these controls.

I think the time is here to take this step in restoring public confidence in our electoral process.

Mr. KENNEDY. Mr. President, it is a privilege to join Senator BOREN, the majority leader Mr. BYRD, Senator CHILES, and others in sponsoring what I regard as the most important legislation of the 100th Congress—reform of campaign financing.

Make no mistake about it. The scandal over congressional campaign financing is even worse than the scandal over Iran. It is bad enough that political campaigns have become star wars contests waged on the tube instead of in person. It is even worse that candi-

dates themselves spend most of their waking hours hat in hand and telephone in ear, begging fat cats for fat contributions—and selling access, influence and yes, even votes in return.

Mark Twain once said that we have the "finest Congress money can buy"—and it's a disgrace to everything our democracy stands for.

This legislation will change all that. It is no secret that I had reservations about the Boren bill in the past Congress. Although it was a step in the right direction it did not contain the most important reform of all, the reform most worth fighting for—public financing of congressional elections.

This bill remedies that defect brilliantly, by adopting essentially the same provisions for Senate elections that already apply to Presidential elections—full public financing.

Under the leadership of Senator Russell Long, Congress first enacted public financing of Presidential general elections in 1966. After a bitter fight in 1967, the effective date was indefinitely postponed. But in 1971, Congress finally agreed that public financing for Presidential general elections was needed and should begin in 1976—and it has worked effectively ever since.

In 1973, in the wake of Watergate, the focus of reform turned again to Congress. That year, the Finance Committee reported—and the full Senate approved—a comprehensive election reform bill that expanded public financing to include Presidential primaries, and that also took the historic step of providing public financing for general elections to the Senate and House of Representatives.

But we could not get our Senate measure through the House of Representatives. The House rejected the bill out of hand, and returned it to the Senate, where further action was blocked by a filibuster as the session ended. In 1974, public financing was adopted for Presidential primaries, but the momentum for congressional reform had temporarily run out—and stayed out for more than a decade.

The rest is history—of the worst sort—the explosive growth of PAC's, the soaring cost of campaigns, Congress on the auction block, special interest money swamping the public interest. In every election cycle, the scandal deepens. The entire Congress is up to its ears in special interest crocodiles. The time has come to drain the swamp—and DAVID BOREN is just the Senator to do it.

We all know the traditional arguments that will be made against the use of public funds for financing political campaigns. But public funds are already being used at the present time. They are being used in the wide range of special interest amendments, the lucrative tax loopholes tucked into the

Internal Revenue Code, and all the other nefarious payoffs that plague our system of private financing.

Public financing of elections is the wisest tax money any taxpayer will ever spend. The cost of this bill—\$50 million a year—is the best investment in clean government any citizen can make. When we finally have an effective system for public financing, we will restore the integrity of our elections and make candidates truly accountable to the voters instead of the special interests. That is the challenge before us.

Senator BOREN and Common Cause are making a historic contribution to our democracy by undertaking this effort now. No one underestimates the difficulty of the task ahead, or the resistance of those in powerful public and private places who will stop at nothing to preserve the stranglehold of the status quo.

But I hope, in the weeks to come, as the wisdom of this idea is recognized, it will gather irresistible bipartisan and veto-proof support, so that by the time the current session of Congress ends, this great and overdue reform will finally be enacted into law, and our system of democracy will again be worthy of its name.

#### BOREN-BYRD CAMPAIGN FINANCE BILL

Mr. BYRD. Mr. President, this is a momentous day in American history—the convening of the 100th Congress. The Nation can take great pride in the fact that the system of government designed by the Founders in Philadelphia will soon mark its 200th anniversary. Much has changed in our Nation—and the world—since the Constitution was ratified and the first Congress was elected, but the dynamics of Government, the representative role of the legislature, and the fundamental importance of the citizens selecting their representatives via popular elections has not changed. Elections in which U.S. Senators and Representatives are chosen are, if anything, even more vital today to the preservation of our democratic system of government.

The sad truth, however, is that what we see today is the undue influence of money and those who have it and contribute it to congressional candidates—or, much more frequently, but virtually as troublesome, the impression or perception of such undue influence—in campaigns for election to the Senate or House and in the actions of those who have won election in such campaigns.

Unlike any number of other critical problems that face this Nation, this is not one the recognition of which, or the prescriptions for solution of which, break generally along party lines. This is not, in my view, a problem which is a Democratic problem or a Republican problem. It is a problem which confronts every candidate for

the Senate or House. It is a situation which has a detrimental effect on the body politic regardless of location or political persuasion or ideology.

Today we face serious challenges to the integrity of representative democracy and the electoral process. They are the high cost of running for Congress, the excessive time it takes to raise funds, and the dangers of undue influence gained by special interests that contribute large sums of money. This campaign spending explosion is undermining public confidence in Congress and creates a sense that politics is only open to the affluent.

In 1971, and again in 1974, the Congress responded to public outcries over the campaign finance mess by enacting a sweeping reform of Presidential campaign financing procedures. While part of that legislation was stricken by the courts, the remaining parts have corrected some of the worst abuses in Presidential elections. While the public finance and disclosure provisions of the amended Federal Election Campaign Act are not perfect, it is fair to say they have made this part of our democracy more honest, and have permitted candidates to focus more on the election and less on courting wealthy contributors.

I believe we can do no less for congressional elections. We must face the diminishing appeal of public service that I believe largely is the result of the time demands and twisting of conscience that result from what I have termed the "congressional money chase." We must face the dilemma of low voter turnout which all evidence indicates results largely from the perception that only the wealthy and powerful—especially major campaign contributors—control our actions here.

I am proud to join the senior Senator from Oklahoma today in introducing legislation to confront these problems head-on. The legislation establishes spending limits for Senate campaigns, which are tied to a system of partial public financing—applying to general elections. Also, building on the measure introduced last year by Senators BOREN and Goldwater, which passed this body in an overwhelming bipartisan vote, this bill incorporates provisions limiting the role political action committees, or PAC's, will play in our congressional election.

These changes are overdue, but, as has been noted by those wiser than I, we cannot recreate history. What is in our hands is the ability to affect the future. There is no time like the present.

What, exactly, is the role of money in congressional election campaigns? During the course of the past 10 years, there has been an explosion in the cost of congressional campaigns. In 1986 the average amount spent on Senate campaigns was about \$3 mil-

lion. Some Senate races cost well over \$10 million apiece. Total receipts in Senate races from PAC's have nearly doubled since 1976.

Much attention has been focused on a handful of races in the recent past where unprecedented amounts of money were spent, but the costs in virtually all States have mushroomed. PAC spending has played a dramatic role in most cases. In the 1983-84 election cycle, PAC's alone contributed about \$105 million to congressional candidates. While the data are incomplete for the 1986 campaigns, data for the first 18 months of the 2-year campaign cycle indicate that PAC contributions likely were fully one-third higher than in 1983-84. The number of registered PAC's has increased from 608 to 4,421 involved in the 1986 Federal election. Even more startling is the fact that the proportion of total campaign receipts coming from PAC's has risen from 12 percent in 1977-78 to over 26 percent in 1985-86. It is hard to speculate about where this spending explosion will end. What we know is that the expenditure of these funds, from these sources, in these amounts yields an increasingly distrustful and cynical electorate.

This increasing spiral of campaign spending does not apply exclusively to Democratic or Republican candidates; it applies to both parties. It does not matter who starts the spending race; once it has begun, all candidates must do their best to compete effectively in raising and spending campaign funds, or they likely will become losing candidates on election day.

Such a process makes wealthy contributors and special interests more influential and powerful and diverts Senators from important duties to hit the fundraising trail. For both incumbents and challengers, this means less time articulating and debating issues during campaigns.

We need to stop and think about the consequences for the Congress of our current campaign finance situation: First, the campaign never stops. The Founding Fathers established staggered terms of office with the intention of giving Senators a longer time perspective between elections. For much of our history, this meant that this Chamber was able to direct more of its energy to the job of legislating. However, we find that what once was only true of the House is now true of both Chambers: The campaign never stops. All responsible legislators are concerned with their constituents, work for the betterment of their States, and seek to build strong ties with leaders among their respective constituencies. This is not what I mean by "the constant campaign." What I am identifying is the need to begin raising funds 5 and 6 years before the next election, the retention of campaign professionals and media

consultants—expensive consultants, usually—by Senators years before they next face election, and the elevation of image over substance. All of this takes money—greater and greater amounts of money—and time. To raise the money, Senators start hosting fundraisers years before they next will be in an election. They all too often become fundraisers first, and legislators second.

This is perverse, and we must not allow it to continue. The Senate should not be a place for part-time legislators and full-time fundraisers. The Senate should be and must become again a place where Senators devote their full attention to careful consideration of the Nation's most pressing problems, devising legislative solutions to those problems, and serving the needs of their constituents.

Yet, if the trend of excessive campaign spending is not stopped, we will find it even more difficult to conduct the essential work of this body.

It is becoming more and more widely known and accepted as truth that one cannot seek election to the U.S. House or Senate without the certainty of being able to raise millions of dollars to spend in a campaign. It also is well known that candidates often face a disturbing choice between mortgaging their own personal resources when the money supply gets tight or campaign demands exceed contributions or the projected campaign budget. This almost certainly already has resulted in otherwise well-qualified candidates choosing not to seek election. That is a trend I fear is growing, and may begin to grow even more rapidly if nothing is done to our financing system. It will be a tragedy if the entrance requirement for service in this great forum is not intelligence, integrity, ability, and public spiritedness, but rather the willingness and ability to play the deadly earnest game of fundraising, or personal wealth and the willingness to spend it or risk it in order to gain election.

And of vital importance, there is a growing sense among voters that "money talks," and is talking more and more loudly in Washington as time goes on. An esteemed elder statesman of the Republican Party, our former colleague Barry Goldwater, said it this way: "PAC money is destroying the election process. It is breaking down public confidence in free elections and it is ruining the character and quality of campaigns". What former Senator Goldwater said was directed specifically to PAC contributions, but his point applies also to the overall level of spending and to large contributions from other sources. What he was identifying was the strong sense, if not the reality, that campaign contributions result in undue and inequitable influence, pressure, and, yes, occasionally corruption.

Already there are a growing number who believe that if Members must seek contributions from independent groups, they will be expected to place those interests above those of the general public and its well-being. Public confidence in our electoral process, our Congress, and its decisions is simply indispensable to maintenance of our democratic form of government but our system of campaign financing fast is eroding that confidence.

If elections no longer are perceived to be free and open, but rather up for sale—even if this is not the reality, then we risk losing democracy itself. Without public confidence we lose it all. With each election come new and newly disturbing reports of increasing numbers of voters who just sit it out—who stay at home and fail to vote. I assert that one big reason is that many of them believe that only those candidates with big bucks—or those who have close friends with big bucks—get elected. They cannot get themselves excited, or even concerned, about elections when they do not anticipate the election of anyone who would be motivated by concern for their point of view. This is a prescription for upheaval if we allow it to persist, much less to grow.

The bill that Senator BOREN and I are introducing today—with the welcome cosponsorship of a number of other Senators—is an attempt to confront this situation directly and effectively—to return the ability to Senators to concentrate on legislating and serving their constituents; to remove the perception that the Congress and its decisions are influenced by the highest bidder; and to return to a situation where campaigns are run on a reasonable budget and do not become races to see who can spend the most money the fastest.

The bill sets limits on contributions to their campaigns by Senate candidates and their families, and requires that contributions from candidates be direct rather than in the form of loans to the candidate by the candidate.

The bill sets voluntary limits on campaign spending for Senate candidates in general election campaigns in all States, based on each State's population—at the reasonable level of \$600,000 plus 25 cents per person of voting age.

In exchange for acceptance of these limits, the bill provides some significant incentives.

The most important, of course, is partial public financing of general election campaigns. A major party candidate who raises 20 percent of his or her State's spending limit in contributions.

Counting only that part of any individual's or PAC's contribution that is \$250 or less—will receive a payment from the Federal Government equal

to the other 80 percent of the States general election spending limit.

Another incentive is that only participating candidates—those who accept both the voluntary spending limits and public financing—would be eligible for preferential television advertising rates now assured by law to all candidates for the Senate.

If a participating candidate opponent breaches the State's spending ceiling, the participating candidate will receive the nonparticipant's public financing allocation as well. If the nonparticipant spends more than the combined total of those two amounts, the participating candidate can keep the public funds received to that point, and no longer will be subject to spending limits and so can seek, obtain, and spend private contributions under the other provisions of law.

If a participating candidate is the target of independent expenditures by an individual or group, the participating candidate can receive additional public financing equal to the amount by which the independent expenditures exceed \$25,000.

The public campaign financing provided by the bill will be funded by doubling the amount of the existing Federal income tax checkoff—now limited to Presidential campaign financing—from \$1 to \$2 per return. This checkoff, completely voluntary, does not increase any taxpayer's tax. Instead, it offers each taxpayer the opportunity to directly indicate that he, she, or they wish the checkoff amount to be used to publicly fund Federal elections. This checkoff is expected to produce the anticipated \$50 million a year our bill is expected to cost.

The bill incorporates several limits on PAC contributions and other campaign financing practices which were a part of the Boren-Goldwater PAC limitation bill passed overwhelmingly in the Senate last year, including:

An aggregate limit on the amount of funds any Senate candidate can accept from all PAC's, set according to a State's population.

A reduction in the amount any PAC may give to a candidate—from \$5,000 to \$3,000;

A provision closing the so-called bundling loophole by requiring that contributions bundled or otherwise arranged by a PAC or other intermediary would count toward the PAC or other intermediary's contribution limit.

The bill requires that any media advertisement directed toward a congressional campaign must contain a message stating who authorized and paid for the ad, and, in the case of every such television ad, must continuously display on the screen the name of the organization, PAC, or individual who paid for it.

The bill includes a new limit on the amount any political party entity could receive from all PAC's—set at \$2 million per calendar year.

Current law prohibits campaign contributions to Federal candidates from foreign nationals—but a loophole permits the U.S. subsidiaries of foreign-owned companies to form PAC's to make such contributions. Our bill closes this loophole.

Finally, this bill, when enacted, will take effect on January 1, 1988, and will apply to the 1988 Senate elections.

It is my strong belief that the great majority of Senators—of both parties—know that the current system of campaign financing is damaging the Senate, hurts their ability to be the best Senator for this Nation and for the citizens of their respective States that they could be, strains their family life by consuming even more time than their official responsibilities demand, and destroys the democracy we all cherish by eroding public confidence in its integrity. If we do not face a problem of this magnitude and fix it, we have no one but ourselves to blame for the tragic results.

I have every confidence that the Senate has the will and has the intention to make the needed changes. I base my confidence on the overwhelming vote last year by which we passed the Boren-Goldwater provisions as amended. I base it on my conversations with Senators of both parties who are worried, consumed, and offended by the current system of campaign financing and tell me they want to do something about it. And I base it on my reading of poll after poll of the American people—all showing that Americans want a change to campaigns that spend reasonable amounts of money rather than the incredible sums being spent in more and more races every 2 years.

It is my belief that the problem is beyond dispute. It is my belief that the time for change is now. And it is my belief that the Senate can pass, and I hope will pass, such a bill this year.

I hope that the bill that has been introduced by Senator BOREN and me today will prove to be a sturdy starting point in this effort. I offer my highest commendation to the senior Senator from Oklahoma, who has been a tireless leader in the field of campaign finance reform, and who has chaired a Democratic conference working group on campaign finance reform that I appointed several months ago. I compliment him on his efforts to devise this legislation.

I intend to work vigorously, with him and with the other Senators who today have cosponsored this bill, to secure additional support. I believe that many other Members of both parties will join with us, and I pledge to work on this issue in an absolutely

nonpartisan, bipartisan way—a pledge I fully believe every other cosponsor will make with me today.

I shall be working closely with the distinguished chairman of the Rules Committee, Mr. FORD, and the distinguished ranking member, Mr. HARTFIELD, to arrange for thorough but expeditious consideration and action by their committee, on which I am proud to serve as a member. I shall depend on their broad and deep knowledge of these issues, and I solicit their assistance.

Now is the time, Mr. President, and this is the issue. I deeply, fervently hope that when the first session of the landmark 100th Congress comes to a close later this year, we can look back with pride to the enactment of an historic campaign finance reform bill that benefits this great institution, and, instills greater faith in the American people toward this institution in this 200th year of our Constitution. Ours is an unparalleled democratic form of government, a representative democracy, a government of the people, by the people, and for the people. We can do it. We must do it.

#### ORDER OF BUSINESS

Mr. BYRD. Mr. President, I have some unanimous-consent requests that I wish to propound and I have some additional resolutions that I wish to discuss with the distinguished Republican leader.

Following that, the Senate will go out for the day.

#### NONLEGISLATIVE PERIODS, CALENDAR YEAR 1987

Mr. BYRD. Mr. President, while I am awaiting the arrival of the distinguished Republican leader, I wish to state for the RECORD the nonlegislative periods during the calendar year 1987.

The Senate will not be in session on Wednesday, January 7; Thursday, January 8; and Friday, January 9. The Senate will reconvene on next Monday, January 12.

The Senate will not be in session on Monday, January 19.

In February, the Senate will not be in session on Monday, February 9; Tuesday, February 10; Wednesday, February 11; Thursday, February 12; and Friday, February 13. The Senate will reconvene on Monday, February 16.

The Senate will not be in session on Monday, April 13; Tuesday, April 14; Wednesday, April 15; Thursday, April 16; Friday, April 17; and Monday, April 20. The Senate will reconvene on Tuesday, April 21.

In May, the Senate will not be in session on Friday, May 22; Monday, May

25; and Tuesday, May 26. The Senate will reconvene on Wednesday, May 27.

In July, the Senate will not be in session on Thursday, July 2; Friday, July 3; and Monday, July 6. The Senate will reconvene on Tuesday, July 7.

The August recess, pursuant to law, section 198, title II U.S. Code, will begin on Saturday, August 8; in other words, at the close of business on Friday, August 7. That means close of business on Friday. So the recess will actually begin on Saturday, August 8. The Senate will reconvene on Wednesday, September 9.

#### ORDER OF BUSINESS

Mr. BYRD. Mr. President, I ask unanimous consent that with respect to the several statements that I have made during the day, I may be permitted to revise and extend my remarks where those statements were not made in their entirety.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### RESOLUTION DESIGNATING ROBERT B. DOVE AS PARLIAMENTARIAN EMERITUS

Mr. DOLE. Mr. President, I send a resolution to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The resolution will be stated by title.

The legislative clerk read as follows:

A Senate resolution (S. Res. 32) designating Robert B. Dove as a Parliamentarian Emeritus.

The PRESIDING OFFICER. The question is on the adoption of the resolution.

The resolution was adopted, as follows:

#### S. RES. 32

*Resolved*, That Robert B. Dove be, and he is hereby, designated as a Parliamentarian Emeritus of the United States Senate.

Mr. DOLE. Mr. President, I thank the distinguished majority leader for his cooperation.

Mr. BYRD. I thank the distinguished Republican leader.

#### ORDER OF PROCEDURE

Mr. BYRD. Mr. President, I have several unanimous-consent requests. I believe the distinguished Republican leader has copies of the requests. I shall take them in the order in which they appear, numbered 1 through 11.

#### AUTHORIZATION FOR ETHICS COMMITTEE TO MEET DURING THE SESSION OF THE SENATE

Mr. BYRD. Mr. President, I ask unanimous consent that for the duration of the 100th Congress, the Ethics Committee be authorized to meet during the session of the Senate.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### AUTHORIZATION FOR SENATORS TO PRESENT BILLS AT THE DESK

Mr. BYRD. Mr. President, I ask unanimous consent that during the 100th Congress, Senators may be allowed to bring to the desk bills, joint resolutions, concurrent resolutions, and simple resolutions, for referral to appropriate committees.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### DURATION OF ROLLCALL VOTES

Mr. BYRD. Mr. President, I ask unanimous consent that for the duration of the 100th Congress, there be a limitation of 15 minutes each upon any rollcall vote, with the warning signal to be sounded at the midway point, beginning at the last 7½ minutes, and when rollcall votes are of 10 minute duration, the warning signal be sounded at the beginning of the last 7½ minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### AUTHORIZATION FOR SECRETARY OF THE SENATE TO RECEIVE REPORTS AT THE DESK

Mr. BYRD. Mr. President, I ask unanimous consent that during the 100th Congress, it be in order for the Secretary of the Senate to receive reports at the desk when presented by a Senator at any time during the day of the session of the Senate.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### TIME ALLOTTED TO THE MAJORITY AND MINORITY LEADERS

Mr. BYRD. Mr. President, I ask unanimous consent that the majority and minority leaders may daily have up to 10 minutes each on each calendar day following the prayer and the disposition of the reading of, or the approval of, the Journal.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### AUTHORITY FOR PARLIAMENTARIAN OF THE HOUSE OF REPRESENTATIVES AND THREE ASSISTANTS TO HAVE THE PRIVILEGE OF THE SENATE FLOOR

Mr. BYRD. Mr. President, I ask unanimous consent that the Parliamentarian of the House of Representatives and his three assistants be given the privilege of the floor during the 100th Congress.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### PRINTING OF CONFERENCE REPORTS AND STATEMENTS

Mr. BYRD. Mr. President, I ask unanimous consent that, notwithstanding the provisions of rule XXVIII, conference reports and statements accompanying them not be printed as Senate reports when such conference reports and statements have been printed as a House report, unless specific request is made in the Senate in each instance to have such a report printed.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### AUTHORITY FOR COMMITTEE ON APPROPRIATIONS TO FILE CERTAIN DOCUMENTS DURING RECESSES OF THE SENATE

Mr. BYRD. Mr. President, I ask unanimous consent that the Committee on Appropriations be authorized during the 100th Congress to file reports during recesses of the Senate on appropriation bills, including joint resolutions, together with any accompanying notices of motions to suspend rule XVI, pursuant to rule V, for the purpose of offering certain amendments to such bills or joint resolutions, which proposed amendments shall be printed.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### AUTHORITY FOR SECRETARY OF THE SENATE TO MAKE TECHNICAL AND CLERICAL CORRECTIONS

Mr. BYRD. Mr. President, I ask unanimous consent that, for the duration of the 100th Congress, the Secretary of the Senate be authorized to make technical and clerical corrections in the engrossments of all Senate-passed bills and resolutions, Senate amendments to House bills and resolutions, Senate amendments to House amendments to Senate bills and resolutions, and Senate amendments to House amendments to Senate amendments to House bills or resolutions.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### PAYMENT OF SEVERENCE PAY TO CERTAIN DISPLACED SENATE COMMITTEE EMPLOYEES

Mr. BYRD. Mr. President, on behalf of myself, Mr. DOLE, Mr. FORD, and Mr. STEVENS, I submit a resolution and ask for its immediate consideration.

The PRESIDING OFFICER. The resolution will be stated by title.

The legislative clerk read as follows:

A resolution (S. Res. 33) to provide for the payment of severance pay to certain displaced Senate committee employees and to authorize payment for accumulated leave to certain terminated employees in offices of

Senators who have ceased to serve as Members of the Senate.

The PRESIDING OFFICER. The question is on agreeing to the resolution.

The resolution was agreed to, as follows:

#### S. RES. 33

*Resolved*, That (a) for purposes of this resolution:

(1) The term "committee" means a standing, select, joint, special committee, or commission of the Senate, whose funds are disbursed by the Secretary of the Senate.

(2) Except as otherwise specifically provided in this resolution, the terms "committee chairman" and "ranking minority member" mean the chairman and ranking minority member of a committee as of the beginning of the One Hundredth Congress.

(3) The term "eligible staff member" means an individual who—

(A) was a member of a staff of a committee, or subcommittee thereof on January 2, 1987, and

(B) during the calendar year 1986, was an employee of the Senate for at least one hundred and eighty-three days (whether or not his service was continuous).

(4) The term "displaced staff member" means an eligible staff member whose service as an employee of the Senate is terminated on or after January 2, 1987, solely and directly as a result of the reorganization of the staff of a committee caused by the transition to a Senate in which a majority of Senators are members of the Democratic Party, and who is certified as a displaced staff member by the committee chairman and ranking minority member of such committee.

(b)(1) The committee chairman and ranking minority member of each committee shall certify to the Committee on Rules and Administration the name of each displaced staff member of such committee before the later of—

(A) January 16, 1987, or

(B) the tenth day after the date on which the displaced staff member's service is terminated.

(2) A certification under this subsection shall be made no later than February 28, 1987.

(c) Under regulations prescribed by the Committee on Rules and Administration, and subject to the succeeding provisions of this resolution, each displaced staff member shall be entitled, upon application to the Secretary of the Senate and approval by the Committee on Rules and Administration, to be paid severance pay in one lump-sum payment in an amount equal to one month's basic pay.

(d) Severance pay under this resolution shall be paid from any available funds in the appropriation account entitled "Miscellaneous Items" within the contingent fund of the Senate.

(e) In the event of the death of a displaced staff member, any unpaid severance pay to which the displaced staff member is entitled shall be paid to the widow or widower or the displaced staff member or, if there is no widow or widower of such deceased displaced staff member, to the heirs at law or next of kin of such deceased displaced staff member.

(f) Severance pay paid under this resolution shall not be treated as compensation for purposes of any provision of title 5, United States Code, or of any other law relating to benefits accruing from employ-

ment by the United States, and the period of entitlement to such pay shall not be treated as a period of employment for purposes of any provision or law.

(g) For purposes of this resolution, the Office of the Secretary of the Senate and the Office of the Sergeant at Arms and Doorkeeper of the Senate, with respect to funds appropriated under the heading, "Salaries, Officers, and Employees", shall be considered a committee.

(h) For purposes of the preceding provisions of this resolution, the term "displaced staff member" also includes an eligible staff member (as defined in subsection (a)(3)) whose service as an employee of the Senate is terminated on or after January 2, 1987, as a result of reorganizations (or consolidations) of committees of the Senate or of the cessation of service by a Senator who on November 4, 1986, was serving as chairman or ranking minority member of a committee or a subcommittee thereof, and who is certified as a displaced staff member by the committee chairman and ranking minority member of such committee.

(i)(1) Subject to the succeeding provisions of this resolution, whenever the service of an individual who is an employee in a Senator's office or in the President pro tempore of the Senate's office is terminated because the Senator's service as a Member of the Senate ceases or the President pro tempore's service ceases (as the case may be), such individual shall be entitled to be paid in a lump sum for such accumulated leave, not in excess of thirty days, as the Senator in whose office he was employed shall certify to the Secretary of the Senate to be due to such individual, or (in the case of an individual who is an employee in the President pro tempore's office) as the President pro tempore shall certify to the Secretary of the Senate to be due to such individual.

(2) No employee shall be entitled to a lump-sum payment under this subsection unless—

(A) he was an employee in a Senator's office or in the President pro tempore's office on or after November 1, 1986,

(B) his position in such office was terminated after such date and prior to January 6, 1987, and

(C) he was an employee of the Senate for at least one hundred and eighty-three days during calendar year 1986 (whether or not such service was continuous).

(3) The provisions of this subsection shall not apply to any individual who, at the time his service was terminated, was an employee in the office of a Senator who was appointed to fill an unexpired term.

(4) The amount payable to any individual under this subsection shall be paid from any available funds in the appropriation account entitled "Miscellaneous Items" within the contingent fund of the Senate.

(j) The amount of any payment to which an individual is entitled under this resolution shall be reduced (but not below zero) by an amount equal to the product of—

(1) the daily rate of basic pay of the individual on which such payment is based, multiplied by

(2) the number of days on which the individual is employed by the United States Government or the District of Columbia during the period beginning on the date of separation from service with respect to which the payment is being made and ending on the last day of the period for which the payment is being computed.

(k) Any payment under this resolution shall be made on the basis of the rate of

basic pay of the individual on which such payment is based as of—

(1) November 1, 1986, or

(2) if such individual was not employed by the Senate on such date, on the first day preceding such date on which such individual was employed by the Senate.

(l)(1) Any application for a payment under this resolution shall be made before April 30, 1987.

(2) In the case of an employee of the Office of the Secretary of the Senate or of the Office of the Sergeant at Arms and Doorkeeper of the Senate who is separated from employment (and certified) after February 28, 1987, and before August 1, 1987, any application under this resolution shall be made before September 12, 1987.

Mr. BYRD. Mr. President, I move to reconsider the vote by which the resolution was adopted.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

#### LEGISLATIVE ASSISTANCE FOR SENATORS

Mr. BYRD. Mr. President, on behalf of myself, Mr. DOLE, Mr. FORD, and Mr. STEVENS, I send a resolution to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The resolution will be stated by title.

The legislative clerk read as follows:

A resolution (S. Res. 34) relating to legislative assistance for Senators.

The PRESIDING OFFICER. The question is on agreeing to the resolution.

The resolution was agreed to, as follows:

*Resolved*, That subsection (b) of section 111 of the Legislative Branch Appropriation Act, 1978 (P.L. 95-94) shall not be effective during the 100th Congress.

Mr. BYRD. Mr. President, I move to reconsider the vote by which the resolution was agreed to.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

#### REAPPOINTMENT OF MICHAEL DAVIDSON AS SENATE LEGAL COUNSEL

The PRESIDING OFFICER. The Chair, on behalf of the President pro tempore, pursuant to Public Law 95-521, reappoints Michael Davidson as Senate legal counsel, effective January 3, 1987, for a term to expire at the end of the 101st Congress.

#### REAPPOINTMENT OF MICHAEL DAVIDSON AS SENATE LEGAL COUNSEL

Mr. BYRD. Mr. President, on behalf of myself, and Mr. DOLE, I send a resolution to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The resolution will be stated by title.

The legislative clerk read as follows:

A resolution (S. Res. 35) relating to the reappointment of Michael Davidson as Senate Legal Counsel.

The PRESIDING OFFICER. The question is on agreeing to the resolution.

The resolution was agreed to, as follows:

*Resolved*, That the reappointment of Michael Davidson to be Senate Legal Counsel made by the President pro tempore of the Senate this day is effective as of January 3, 1987, and the term of service of the appointee shall expire at the end of the One Hundredth First Congress.

Mr. BYRD. Mr. President, I move to reconsider the vote by which the resolution was agreed to.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

#### GRAMM-RUDMAN HAS FAILED; TIME TO MOVE TO PAY AS YOU GO

Mr. PROXMIRE. Mr. President, the administration claims that it has hit the \$108 billion deficit bull's-eye with the 1988 budget proposal it has sent to the Congress. Distinguished Members of Congress hotly reject what the administration has done as blue smoke and mirrors. Why do Members of the Congress disagree with the administration? Congressional experts say the administration has savagely cut welfare programs, housing programs, education programs, nutrition programs. They charge that the administration reduced the deficit in part by proposing to sell valuable revenue-producing assets. The administration denied these charges. It claims it has acted responsibly to meet the requirements of the Gramm-Rudman law the Congress itself enacted. Some congressional leaders call for a tax increase. Some simply ask that Congress raise the Gramm-Rudman Federal deficit target of \$108 billion for 1988 to something like \$135 billion.

So who's right? Answer: they're both wrong, very wrong. Mr. President, a dispassionate observer would conclude that neither the Office of Management and Budget nor the complaining Members of Congress understood that this is not the first session of Congress of the United States. It is the 100th. Both OMB and congressional leaders seemed to have ignored history. They have learned nothing from it. Not even recent history. What would the administration and the Congress learn if they considered historical experience? They would learn that all administrations of both parties and all Congresses consistently and grossly underestimate deficits. But haven't those errors diminished in recent

years with our supercomputer technology and our highly paid and intensely trained and expert staffs? No way. Consider the sorry record.

In the last 10 years, both the administration's highly respected OMB and Congress' equally esteemed CBO have consistently underestimated the upcoming deficit. Year after year, virtually without exception, it is the same story. These experts grossly overestimate revenues. They massively underestimate Federal spending. They end up with errors that are so grotesque they would be funny, if the consequences of these errors weren't so sad for our economy.

But hasn't the Gramm-Rudman Deficit Reduction Act made a difference? Has it? We have had a full year to test Gramm-Rudman. In the fiscal year that began on October 1, 1985, and ended on September 30, 1986, Gramm-Rudman was in full effect, sequestration and all. The administration came in with a budget that was hailed as taking the first big step toward deficit reduction. What happened? In the previous fiscal year 1985 the deficit had come in at about \$210 billion. With Gramm-Rudman in effect, said OMB, we'll hammer that deficit down to \$172 billion, right on target. And what was the reaction of the Congress? Congressional leaders said, sure you will; but Gramm-Rudman, they contended, made it easy. After all, \$172 billion represented in their view an "easy" first year mark. So what happened? Did the deficit come in with the harsh discipline of Gramm-Rudman under \$172 billion? No. At \$172 billion? No. Did it come in even a dollar below the 1985 deficit level? No. What happened? In spite of all the so-called tough discipline of Gramm-Rudman, the deficit did not decrease at all. It increased. It broke all records for all time. It actually came in at \$221 billion. How did this happen? What happened to the automatic sequestration that was supposed to require a proportionate cut in all nonexempt spending to force the deficit down to the target level? How could the "experts" miss by an astounding \$50 billion? The answer is simple. As usual, the experts sharply overestimated the growth of the economy and therefore the revenues. They greatly underestimated Federal spending. Result: the Gramm-Rudman Deficit Reduction Act in its first year missed the target by \$50 billion. It gave us a fat increase in the deficit. In fact, it presented the country with far and away its biggest deficit in history. Some deficit reduction act.

So is there any reason why Congress or the country should take the OMB seriously when they report to the Congress and the country that the President is recommending a budget that will be in deficit by \$108 billion in 1988? Does any informed person in

America believe Congress will do this? To do it means we reduce the Federal deficit by more than \$100 billion over the next 2 years? Will we? Ha, ha, ha—and I might add ho, ho, ho. We won't. We are deceiving ourselves. We are deceiving the American people by pretending that we will.

Mr. President, there is one way and only one way to be sure we reduce the deficit. It is simple. It is effective. We simply refuse to raise the debt limit. Here's what we say. We say there will be no spending that is not paid for by a tax. None. We start now, this month. Not for 1988 spending but 1987 spending. We either cut spending—that's my preference—including spending we have already authorized and for which we have made appropriations, or, failing that, we raise taxes, at once. We can raise taxes by a prompt hike in everyone's withholding taxes.

If we don't do this, we are temporizing. We are kidding ourselves. We now know from our first-year experience that Gramm-Rudman does not work. What will work? No increase in the debt ceiling. No more borrowing. If we mean business, we'll do it.

#### EVEN DOT QUESTIONS THE EFFECT OF AIRLINE DEREGULATION

Mr. PRESSLER. Mr. President, the airline industry in the United States has been deregulated for over 8 years. While many herald the benefits of the unfettered competition the industry is currently enjoying, there are many of us who have been and remain concerned about the effect of deregulation on many of this Nation's air travelers.

I opposed airline deregulation when this legislation passed the Senate back in 1978. My concern was that service would be reduced and fares would increase in less populous, rural areas, like those in my home State of South Dakota. As I predicted, this has come to pass. It now costs more to fly 300 miles between South Dakota's two major cities than it does to fly 3,000 miles across the Nation. Service reductions at many of the smaller airports have also made air travel much less convenient for many rural residents.

The current wave of airline mergers, and the buying and selling of operating slots, will only serve to exacerbate these problems. A situation where only a handful of megacarriers control the industry could easily mean higher ticket prices. In addition, the outrageous prices of operating slots at several major airports will force carriers to focus their resources on the lucrative markets between major cities at the expense of service to less populated areas.

In the midst of these growing problems it is heartening to know that I

am not alone in my concern. In the November 6, 1986, edition of *Travel Management Daily*, edited and published by my good friend, Martin Deutsch, several DOT officials voiced their concern that perhaps the Department has not controlled the deregulatory process as well as it should have. These officials questioned whether DOT's recent merger approvals and the buy-sell rule were truly in the best interest of consumers. I ask unanimous consent that this article be printed in the *RECORD* at the conclusion of my remarks. I hope that in the future the Department of Transportation will pay closer attention to the effect of deregulation before, rather than after, it makes its decisions.

There being no objection, the article was ordered to be printed in the *RECORD*, as follows:

#### AIRLINE DEREGULATION

Less than two years after CAB sunset, there is a growing undercurrent of concern among certain Transportation Dept. officials that their agency many have "botched" deregulation. In private interviews with me, several officials confided that the current move toward oligopoly—in which a few airlines will dominate the industry, perhaps driving fares higher—has been aided by an agency that has either failed to act or has taken the wrong action. "The consumer was supposed to be the main benefactor with deregulation, but it isn't turning out that way," one official said. "In fact, where we're heading now is precisely where we were before: large airline interests helped by the government." Sources said there is some feeling at DOT that the agency failed in its handling of three major issues: computer reservations systems, the buying and selling of slots at congested airports and mergers. "We should have made an investigation into the CRS system, a real investigation, and then divested it from the major vendors," the official said. "That, combined with the buy-sell slot rule and all these mergers, has really given power to a few." The buy-sell rule, according to another official, "all but killed" new entry. "Everyone was in the buying mode, not in the selling mode, which drove prices way up," he said. "Pan Am paid close to \$1 million to Texas Air for each slot; what new entrant can afford that?" Certain officials also fear early justifications for approving mergers may have been off-base. "After we approved United's purchase of Pan Am's Pacific Division, we felt somewhat obligated to approve other things," another official remarked, "and with that justification we allowed Northwest to buy its major competitor. Was that right?" The bottom line, he said, continues to be new entry. "Who in their right mind would start an airline now?" he asked. "Where would you put it?"

Starting November 15, *PEOPLExpress Airlines'* frequent flyers program will be merged with those of Eastern Airlines, Continental Airlines and New York Air, permitting members to earn mileage credit and claim awards on all four carriers.

Now that the Democrats have won control of the Senate, Democratic senators will meet in December to choose new committee and subcommittee chairmen. The outcome is unclear, but based on Senate rules and seniority, it appears that the airline industry may have a tough time ahead in Washing-

ton. Chances are that the new chairman of the Senate aviation subcommittee will be Sen. James Exon (D-Neb.), a staunch critic of deregulation who has charged that it has made the skies less safe and caused airlines to abandon many small communities in recent years. A member of Exon's staff told me the senator will vigorously scrutinize the actions of the Federal Aviation Administration and the airlines. But others disagree, saying that Exon has not shown much interest in the aviation industry and that he will not be as aggressive as his House counterpart, Rep. Norman Mineta (D-Calif.). On the transportation appropriations subcommittee, which oversees the funding of the Dept. of Transportation, the FAA, Amtrak and airports, Sen. Frank Lautenberg (D-N.J.) will be the likely successor to Sen. Mark Andrews (D-N.D.), who lost re-election. Lautenberg has consistently criticized the FAA for not working harder to hire new air traffic controllers and last year he attempted to add language to a Senate spending bill that would allow the rehiring of controllers fired in 1981. He later supported a bipartisan bill to make the Dept. of Justice, not DOT, responsible for approving airline mergers. Both the Senate commerce appropriations subcommittee, which provides funding for the U.S. Travel and Tourism Administration, and the Senate tourism subcommittee could become the prizes of Sen. Daniel Inouye (D-Haw.) if he chooses. Another Democratic senator from Hawaii, Spark Matsunaga, who unsuccessfully pushed for a 100% deduction for business meals and entertainment, would take the number two spot on the Senate Finance Committee. Sen. Dale Bumpers (D-Ark.), who supports preservation of national parks, is in line to be chairman of the public lands subcommittee.

The 195-room Best Western Hotel at New Orleans Airport has become a Ramada Inn.

#### WHY DOES THE DEFENSE DEPARTMENT OVERLOOK WISCONSIN'S RESEARCH EXCELLENCE?

Mr. PROXMIRE. Mr. President, which State university in the United States spent more money on research in 1985—the latest year for which we have figures—than any other State university? Was it a California university or a New York university or a Texas university, or maybe, considering it was research, a Massachusetts university? No. None of the above. It was the University of Wisconsin at Madison, which devoted a huge \$208.4 million to research in 1985.

The Midwest really stars in research. Second to Wisconsin, of all the State universities in the country, was the University of Minnesota. The University of Wisconsin spent about 20 percent more than Minnesota. But Minnesota came in a proud second. Fourth was Michigan University.

Now, Mr. President, here is another indication of the immense economic potential of the Midwest and particularly of Wisconsin. It is well known that New England, and especially Massachusetts, has enjoyed an enormous economic resurgence in recent years because of that region's excellence in

high technology, driven by intense research at some of the Nation's most eminent educational institutions. But why not Wisconsin and the rest of the Midwest?

Here is another indication of how grievously the Defense Department, which depends so heavily on technological excellence, is overlooking Wisconsin and the Midwest. It is true that the Pentagon recognizes and has procured the fastest computer in the world—the Cray computer which is designed and produced at Chippewa Falls, WI, and Rice Lake, WI. But there has been too little understanding in Washington that our great Midwestern State universities and especially the University of Wisconsin have developed extraordinary competence in research. Think of it. For years, our State has been at the top, number one in technological research, and at the very bottom—that is, 50th of 50 States—in the proportion of defense contracts on a per capita basis. Now, you figure that one out!

#### THE BEST WAY TO PREVENT NUCLEAR WAR

Mr. PROXMIRE. Mr. President, the greatest unanimity of opinion on any major issue in the world today is this proposition: The great powers in the world would develop policies that would give mankind the best chance to prevent the catastrophe of a nuclear war. The only question is, How do we do it? To date, we have relied not primarily on arms control, but on a military buildup. And why not? Don't we in the free world have the big advantages? Think of it. On our side, we have the world's most advanced and productive economy. We have the world's most advanced and successful military technology. We have an alliance that is far ahead of the rival alliance both economically and technologically. We have a much greater capacity to build a vastly superior military force so that the adversary will not attack, and if it does attack, it will be defeated. Is that enough?

Before the nuclear age, the military advantages made realistic and solid common sense. Now we know that a nuclear war can never be won and must never be fought. So the nuclear age has brought us an entirely different situation. We are relying on a military strength that does, indeed, constitute part, and a critical part, of how we can best prevent nuclear war. But it is not enough. It is a military strength we can never use without insuring a devastation not only for our adversary but for ourselves. No matter how massive our advantage might become over the Soviet Union, we know the Soviets will always have the nuclear capability to retaliate against the United States with an absolutely

devastating nuclear attack or counter-attack.

Consider the experience of recent history. We were 6 or 7 years ahead of the Soviet Union in developing the atomic bomb. But they developed their atomic bomb, too. We were 6 years ahead in developing the hydrogen bomb. But they begged, bought, borrowed and stole that, too. We were 5 or 6 years ahead in developing the multiindependently targeted re-entry MIRV'd missiles that carried a number of warheads that could be fired at different targets while in full flight but the Soviets developed those too. And so the nuclear arms race has gone. We lead. They follow. And quickly. Today, the two superpowers face each other armed with the ridiculous redundancy of 25,000 nuclear warheads each. Ten thousand of these nukes on each side are strategic intercontinental warheads. Fifteen thousand are tactical. Just 100 of the strategic warheads from each superpower that reached the adversary's cities would wipe out the adversary as an organized society, according to the National Academy of Science.

So the two superpowers and their respective alliances have reached a position of effective deadlock. If we can stabilize that deadlock, it could preserve superpower peace for many years to come. It has done just that for the past 40 years. This is nuclear deterrence. It is called by friends and foes alike mutually assured destruction of MAD. It is security based on the most basic and universal of human emotions—fear. It has one great advantage. It has worked. It works now. It will continue to work in the future, with one proviso.

Here is where arms control comes in. The nuclear arms race continues, as it has since 1945. So why do we need arms control? We need arms control to stabilize the deadlock that now prevents nuclear war. Without arms control, the technological arms race in labs in America and Russia and elsewhere will bring on even more devastating, smaller, cheaper nuclear weapons. Without arms control, those weapons will, as time goes on, find their way into the arsenal of scores of nations. Some time, some leader, somewhere, maybe in Central America, maybe in the Middle East, maybe in the Far East or southern Africa will use nuclear weapons. The other side will retaliate. That is one scenario. Here is another. Without arms control, somewhere, sometime, somewhere by sheer accident, a computer is much more likely to give off a false or misunderstood signal, "the attack is on." Retaliate or perish. It would be easy to dream up a score of other scenarios.

So what are the two great alternatives that face us? Alternative one is to forget arms control and rely on our

great potential military advantages to "win" the arms race. Alternative two is to do three things: first, we negotiate a mutual, verifiable treaty to end nuclear weapons testing and in the process end the technological nuclear arms race. Second, we negotiate treaties to channel the offensive missiles of both superpowers into the least vulnerable, most stable mode—for example into mobile land, sea and air based deployment with single warhead missiles. Third, we abide by the Anti-Ballistic Missile Arms Control Treaty, which means ending the fabulously expensive and destabilizing star wars defense. That defense guarantees a continued all-out offensive nuclear weapons buildup by the other side to preserve its deterrent credibility.

In a world of nuclear weapons, there is no absolutely sure guarantee of safety. But a combination of arms control that ends the technological nuclear arms race being conducted in the world's great nuclear bomb laboratories, arms control that encourages a stable, virtually invulnerable nuclear deterrent and arms control that ends the star wars gambit, offers the most reasonable chance of continued human existence on this planet.

#### HOLLINGS INTERVIEWS ON THE IRAN-CONTRA AFFAIR

Mr. HOLLINGS. Mr. President, I wish to take this opportunity to set the record straight concerning a misunderstanding that occurred while the Senate stood in recess. I refer to a statement in early December by the then-chairman of the Intelligence Committee, Senator DURENBERGER, to the effect that I should resign from the committee because I had allegedly commented publicly on secret committee testimony.

On December 3, I appeared on the "Today" show, on national public radio, and before a press conference in the Capitol. On each occasion, I urged President Reagan to come forward with the full story about his involvement in the Iran-Contra affair. I made it scrupulously, even pedantically, clear that my opinions were based not on committee testimony but rather on common sense and elementary deduction. Indeed, at the time of my statements to the media, and to this day, I have never met Lieutenant Colonel North and no one has, of course, heard him testify on this matter.

In my Capitol press conference, I reiterated for emphasis more than 10 times that I was speaking not as a member of the Intelligence Committee but strictly as a Senator from South Carolina. Regrettably, this repeated caveat was not reported in the news accounts of my statements. As a result, Senator DURENBERGER, Senator THURMOND, newspaper columnist Wil-

liam F. Buckley, and others made misinformed criticisms of my remarks.

I specifically demanded from Senator DURENBERGER an explanation for his statement that I should resign from the Intelligence Committee for allegedly violating committee rules. He responded that he had made the comment in response to a hypothetical question from a reporter. Likewise, Mr. Buckley has communicated to me his dismay that news reports of my comments failed to make clear that those comments were not based on Intelligence Committee testimony.

Mr. President, to provide full documentation of this unfortunate misunderstanding, I ask unanimous consent that there be printed in the RECORD at the conclusion of my remarks the following documents:

First. Transcripts of my interviews with the media;

Second. My correspondence with Mr. Buckley, as well as his December 9 column from the New York Daily News;

Third. My own op-ed column from the December 14 New York Times;

Fourth. Senator THURMOND's December 5 press release regarding my statements, plus my responding press release of the same date; and

Fifth. Editorials from the "U.S. News & World Report."

Mr. President, in conclusion, let me observe that I began intelligence work as a member of the Hoover Commission task force investigating the CIA and all other intelligence agencies of the Federal Government in 1953 and 1954. Over the intervening 33 years, it has been my policy to strictly comply with the requirements of confidentiality, trust and secrecy. Indeed, during my 2 years on the Intelligence Committee, I have been one of the few Senators who steadfastly refuse to talk to the press about any committee proceedings—either immediately after committee hearings or at any other time.

This same policy will apply with equal force in the future: One, I will continue to speak my mind freely and frankly as a Senator from South Carolina. Two, I will never breach or in any manner compromise the secrets of the Intelligence Committee. As this incident has taught us, there is nothing mutually exclusive about these twin commitments.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[Transcript: Wednesday, Dec. 3, 1986]

NBC TODAY

A little bit of snow in extreme northeastern Minnesota before the day is over.

Not bad, but some fog down here in the Mid-Atlantic States and the Southeast, and again some scattered showers. Some flash flood watches out for northern New Jersey and parts of southeastern New York. Not because of more rain today, but the rain

that we've had, the run-off water. The streams are still rising.

Cooler air will be moving down to the Southeastern States. Florida will escape most of it. It's been 80 and 81—I mean 82 and 89 degrees. It'll be 79 in Miami today and a chance of scattered thundershowers. The West is best. We've not ignored the West, but most weather conditions in the Western States are so sensational, they're just good weather stories.

We don't even mention those because we have the problems in the East except another arctic blast invading the extreme Northern Plains and upper Mississippi. Temperature in Denver right now about 20, I believe, degrees. Here's what's happening in your world this morning.

(Local weather forecast)

SCOTT. John Connolly of Idaho Falls, Idaho is 100 years old today. Happy birthday.

7:09. Here's Jane.

HIT: 7:09:42

JANE PAULEY. Thank you, Willard. On Close-Up this morning, Congress looks for answers in the Iran-contra connection. President Reagan has directed his staff to co-operate fully with Congressional committees, but what questions will Congress be asking?

Joining us now from our Washington newsroom are South Carolina Democrat Ernest Hollings, a member of the Senate Select Intelligence Committee, and Illinois Republican Representative Bob Michel, House Majority Leader. Gentlemen, good morning to you. Congressman Michel, you yesterday said that you were persuaded by the President that he was telling the truth. What convinced you that he was?

Congressman ROBERT MICHEL. Well, when I look at my president eyeball to eyeball and he tells us flat-out in answer to questions that this is what he knows and this is what he doesn't know or didn't know, wasn't advised of, well, I've got to take him certainly at his word, and I believe him.

PAULEY. Senator Hollings, what about you?

Senator ERNEST HOLLINGS. I really think, and I say this in a bi-partisan fashion 'cause we're really interested in the institution of the presidency, we're interested in President Reagan. He restored the presidency in this country. The people trust him. I trust him. And I think now's the time for President Reagan to appoint himself to level with the American people.

This charade of all of this going on without any authority has just got to be satisfied, and the President has got to turn it around rather than win one for the Gipper. The Gipper's got to win one for the team and the country and say, "Look, they acted with my authority. I take the responsibility," and cut out all of this investigation. We'll have investigations going on around here for six months and get nowhere.

PAULEY. You trust him, and yet you don't think he's telling the truth so far?

Senator HOLLINGS. I don't think he's told the complete picture. No, I think he definitely knew from Poindexter and North what was going on. He approved the policy in January. He made a finding at that time on the Iranian sale, and all the cabinet members knew about it. They argued about it, but they approved it.

And the diversion of funds to the contras, he looked upon that in a sort of poetic justice fashion. He said, "Look, I'm screwing the Iranians on the amount of money and pleasing the Israelis on their policy. I'm

freeing hostages, and I'm funding the contras." He thought it was a pretty good policy.

PAULEY. Well, look at today's headline. The headlines keep coming. The plot thickens. The Washington Post tells about that Swiss bank account, reporting that it also helped CIA money to be diverted for clandestine support of the Afghan rebels. Now, wouldn't that contradict what the Attorney General has said to the effect that the bank account was controlled by Central American interests?

Senator HOLLINGS. There'll be contradiction after contradiction, just like CIA Director Casey is going to change his story. There are going to be nothing but three or four months of changed stories, and it's all unnecessary. What happens is like Colonel North comes and takes the Fifth.

Now, if we grant him immunity, he's going to talk. I don't want to grant him immunity 'cause that's going to lead right on up to the top officials in this government. I don't want to catch them. I want them to catch themselves and give us a Merry Christmas in this country. This thing has bogged down into the darndest charade I ever heard of. Nothing could have happened of this sort without the President knowing it.

PAULEY. Congressman Michel, I'm going to give you the floor on that. There's been a lot said.

Congressman MICHEL. Well, obviously, I'm disappointed in the revelations of the kind of things that are coming to public view at this juncture. The Senator and I know of some of the things that have heretofore been undisclosed and probably ought to continue to remain so, but through any kind of investigation of this kind, you're going to have little bits and dribbles coming out bit by bit.

I regret that, but from the standpoint of the President himself, I don't think he's been all that well-served in his White House staff. Back in the old days, when we had a triumvirate of three, the divisions of responsibility, I think, worked much better than what it worked for the President in most recent times.

PAULEY. Didn't you give Chief of Staff Donald Regan your blessing yesterday?

Congressman MICHEL. I didn't give him my blessing. I just said maybe some of the criticism is undue, but this is a Presidential call. I think we have to when you're talking quite frankly with the President, we level with him, and then it's up to him to make some decisions. And I'm confident that as time moves along, there'll be other decisions the President will make that'll be in keeping with the will of the American people.

PAULEY. To paraphrase Andrea Mitchell's report, should the Chief of Staff, Regan, have "the class" to step aside?

Congressman MICHEL. Well, I guess if I were in a similar situation, I personally would. I would've felt that I had let the President down, but that's for those individuals to make. I'm not one of these scalphunters around. There's always room for people to look for some scapegoat or one thing or another.

PAULEY. Senator Hollings, you were shaking your head.

Senator HOLLINGS. Oh, no. If Don Regan resigned in the next ten minutes, we'd still be looking for the truth. And our Intelligence Committee and other committees will come, and they're going to go right all the way through, and they acted with the general authority of the President of the United States.

The cabinet members knew while they disputed it. The Secretary of Defense, the Secretary of State—they all knew about it. The Vice President knew about the sale of arms to Iran. This whole idea that nobody knew anything and you had two wild cards down there, Poindexter, and North . . . They're military men used to acting, on the one hand, on orders; on the other hand, very intimate.

As was reported this morning, North was just like a son to President Reagan, and while President Reagan might not know anything about the Education Department or the Energy Department, he knows about contras. He likes that policy and he was kept informed on that particular policy. I'm positive of that.

PAULEY. And I'm going to have to leave it at that, gentlemen. Senator Hollings, Congressman Michel. In a moment, we'll get some thoughts of two newspaper editors on all this. But first, this is Today on NBC.

[Transcript]

NATIONAL PUBLIC RADIO INTERVIEW ON WHITE HOUSE KNOWLEDGE OF IRANIAN/CONTRA ARMS CONNECTION

BOB EDWARDS. This is Morning Edition. I'm Bob Edwards. Profits from the secret arms sale to Iran reportedly were deposited into a Swiss bank account managed by the CIA. According to this morning's Washington Post, Congressional investigators have found that the money went into the same account that contained covert aid to the rebels fighting in Afghanistan. The Post reports that \$250 million secretly approved by Congress was deposited into the account this year, as well as \$250 million from Saudi Arabia. The report appears to contradict a statement made last week by Attorney General Edwin Meese. Meese said that money from the Iran deal was deposited in bank accounts which were under the control of representatives of the forces of Central America. Joining us now to discuss the disclosures about secret operations run by the National Security Council is Senator Ernest Hollings, D-SC. Senator Hollings is a member of the Senate Select Committee on Intelligence, which is investigating the matter. Senator, good morning.

HOLLINGS. Hello, Bob.

EDWARDS. Is it possible that some of the money for the Afghan rebels may have gone to the Contras?

HOLLINGS. Look, it could have. We haven't separated out the funds and of course I couldn't really discuss what's happened in the committee. I think the important thing at this particular moment is that this does not develop into a Watergate. At the moment, what we really need is for the President to appoint himself to level with the American people. This charade that all of them acted without authority is just that, a charade. And we all know it. And the truth of the matter is that we're getting into quicksand. The deeper we get in it'll be more difficult to get out. When Colonel North takes the fifth amendment, we could grant him immunity, and when we do we're going to catch the President. I'd rather the President sort of catch himself, so we won't have to take some extreme action later on and stretch this thing into next year. The President could come forward and say, "look, I like this policy. I wanted to fund the Iranians, for different reasons, and it didn't work. And Iranian money went to fund the Contras. There isn't any question about that. We look upon that as a viola-

tion, but I thought at the time it was Iranian money going, and I see now that was a little too clever. I made the mistake. I hate to admit it, but as far as I'm concerned I accept full responsibility. Everybody acted with my authority. And I'm going to give them executive privilege so we'd stop five or ten committees pawing around between now and next June, finding out whether or not it went to the Afghan rebels." Who knew, when did they know it? Did the Vice President know? What about the Attorney General? No, the Secretary of State disagreed. It's the big dog chasing its tail. If the President would come and level with the American people we could get on with the government, and have a Merry Christmas. People trust President Reagan, and they'll forgive him on this one. And if you fire Don Regan this morning we'd still have the same problem tomorrow, and that is that we haven't leveled with the American people that this was a policy that the President liked. That's what Washington can't get through its thick head. The President was pleasing the Israelis, screwing the Iranians, funding the Contras and getting the hostages freed. He thought it was a heck of a good policy. Now, he violated the provisions of the Boland Act, but nobody is going to rack him up on that.

EDWARDS. This is starting to have repercussions for a number of other countries. According to the Post sources, Saudi Arabia also deposited money in that account for the Afghan rebels. Do you think the Saudi's have reason to fear some of their money might have gone to the Contras?

HOLLINGS. I don't think they've got any fear about it. I think they knew what was going on. We act like government starts just because we learn a bit in the news. All of this has been going on. Everybody knows the Afghan rebels have been getting some support from somewhere. It couldn't have come out of thin air. The fact is it might have come from them is nothing to get all excited about.

EDWARDS. What about the Meese statement last week that the money was under the control of representatives of the forces in Central America? Do you think when he made that statement he knew the details of the Iran arms sale?

HOLLINGS. I don't know. But I think that he knew generally—not the details—that's the whole thing, how they all get by. None of them really knew each little detail. Not even Colonel North could know each little detail. But they knew generally what was happening, and that the Contras were getting the assistance. And they were all acting with Presidential authority. Colonel North is not any wild cannon, or loose cannon on the deck, nor is Poindexter. They're both military men, throughout their careers. They're used to taking orders and carrying out policies. That's what they were doing. We're acting like they didn't.

EDWARDS. How about the CIA director, William Casey?

HOLLINGS. He was carrying on too, and he's had to counter a statement he made last week. He said he didn't know anything about it, and now he comes forward yesterday and says, "Oh yes I did." These things will continue on and on and on. And what I'm trying to get to is: save not only President Reagan but the Presidency as an institution. We've got two more years in this particular term. No real grievous thing has happened. It's hurt us with our allies. It's hurt us with respect to the confidence the Congress has in its policies being carried out

when we say don't use that money. But now even Congress has changed that policy, so this is much ado about all kinds of investigations over your own government that you can't stabilize the Presidency. I think the main problem is for us in the government to stabilize the Presidency itself.

EDWARDS. Senator, thank you very much.

#### TRANSCRIPT OF HOLLINGS PRESS CONFERENCE ON IRAN-CONTRA AFFAIR, DECEMBER 3, 1986

HOLLINGS. We're coming down into quicksand. If Colonel North takes the Fifth and we give him immunity, then we get into deeper quicksand and before long we catch the President. I prefer that he catch himself.

The fact of the matter is President Reagan has reestablished the presidency so to speak. The people of America trust the President. I trust him. With that store of goodwill, it ought to be used at this time to come and level with the American people and reestablish the presidency itself.

I think that's the great concern we have: to not put the government and the presidency through a six month wrangle of five-to-six different committees; we got a special commission; we've got an independent counsel or special prosecutor; we've got the FBI; we've got the Intelligence Committee; we'll get a joint committee. There's no way to avoid five-to-six-to-seven committees all pawing all over the government and everybody suggesting that everybody be fired. If all the above were fired in the next two minutes, we'd still have the problem of the authority. No one in this country believes that either Colonel North or Admiral Poindexter acted without authority. I'm absolutely convinced military men, as they are, acting under orders and acting on a program that the President was vitally interested in.

That's where Washington makes a mistake. Washington can't contemplate the President being informed. They generally have the impression that he's not well informed on the facets of government. Perhaps they are correct about the Department of Education or the Department of Energy, that he'd like to abolish, but when it comes to Contras, he's informed. He likes Contras. He understands the problem there and he keeps well informed on that score.

On the other hand, this town can't understand this President with this particular policy. The fact of the matter is that they can't understand the government selling anything and making a profit—they don't know how to act around here. The truth of the matter is that in disposing these arms in Iran and making a profit he not only pleased Israel—conformed to their policy, they've been shipping arms for at least five years to Iran—he screwed the Iranians, freed the hostages, and he funded the Contras. The President said, "Look, I'm getting with it. I've got policy going here finally." Of course, it was wrong. He should not be dealing with the Iranians. And you can't go in two different directions: saying you can't pay ransom while I'm paying ransom. So, it was wrong; there is no doubt about that.

But there is nothing wrong with the President coming forward at this particular point and saying, "I acted out of the national security interests, compassion for the hostages, yes, I understood Iranian money—I thought of it as Iranian money, it was an overcharge, it was not government funds as the Boland Amendment contemplated it was Iranian money going directly to the Contras. If I could get the Iranians to support the Contras, that was a pretty good

deal. I think now that was probably a little too clever. I made a mistake. I hate to admit it, but I am going to have to exact executive privilege for all connected, because they all acted with my authority. I take the responsibility. Let's everybody have a Merry Christmas.

REPORTER. What did the President know and how did he know it?

HOLLINGS. Oh, you can spend six months doing that. I think he knew it all, generally speaking. You know that and I know that.

REPORTER. Senator Durenberger says that you violated the rules . . .

HOLLINGS. Senator Durenberger has not said that I violated any rules, because I never referred to anything in the Intelligence Committee.

REPORTER. He says, sir, that you violated the rules of the Committee and that he will ask you either to stay on the Committee and keep your mouth shut or leave the Committee.

HOLLINGS. I can't believe that. I haven't talked about anything in the Committee.

REPORTER. Does this mean you are just basing this on personal . . .

HOLLINGS. That's right, absolutely.

REPORTER. . . . nothing that you've heard in Intelligence?

HOLLINGS. No.

PHIL JONES. . . . nothing you have heard in the Committee?

HOLLINGS. No, I've read everything in the newspaper.

PHIL JONES. You are convinced right now . . .

HOLLINGS. I was not even there when Colonel North . . . when I refer to Colonel North, I have never seen Colonel North to my knowledge in my life.

PHIL JONES. Senator, you said here that you're going to . . . that before long we will catch the President.

HOLLINGS. That's right, we will. If a man comes up and he takes the Fifth Amendment and we grant him immunity, I would oppose that immunity. I would oppose that immunity because I don't want to go down that long path.

PHIL JONES. But you are convinced right now, based on what you have read and the other intelligence information you have that Ronald Reagan has broken the law?

HOLLINGS. No. I haven't based anything on the intelligence information. You're getting into Senator Durenberger, which I can't believe he said, because I haven't referred to anything in the Intelligence Committee. You folks have seen me each day in the stakeout there and I haven't given a conference at all on the Intelligence Committee. I'm not talking about breaking the law. I'm talking about the policy of reestablishing the presidency in this country and saving the government and the country itself at this particular point. There's no reason to develop a Watergate over a six month period with five investigative committees at least and possibly many more and going into now Afghanistan and going into other things. I don't think that serves the interests, the security interests or the domestic interests, of this country.

PHIL JONES. Before we leave Durenberger, you said that you can't believe that he had said this. Let me tell you, he did say—if you haven't been over there so far—he said, "When I get in there and I find Fritz Hollings, I'm going to tell him he ought to be a Member or get off, because he has broken the rules of the Committee."

HOLLINGS. I haven't broken any rule of the Committee. How could I have? What have I said about the Intelligence Committee?

REPORTER. The fact that you're saying this and you have sat in on the Committee hearings is it unfair for the public to think that you have heard something through the committee that bolsters what you're trying to tell us?

HOLLINGS. No, I just referred for example to Colonel North, who I didn't even see in the Committee. That's why I am making it absolutely clear. I've stated this in the Committee before we heard a witness.

REPORTER. You said we're going to catch the President. Catch him at what?

HOLLINGS. Catch him at having given the authority generally, having known about what happened.

MARTY TOLCHIN. Senator Hollings, you did hear Mr. McFarlane, and apparently nothing...

HOLLINGS. I hadn't confirmed that I've heard Mr. McFarlane or not.

MARTY TOLCHIN. Nothing that you have heard as a member of that Committee has dissuaded you from this account?

HOLLINGS. I wouldn't comment on anything that I heard in that Committee. I've been very careful about that. You know that.

REPORTER. What is it that might you think the President could say or should say that he hasn't said in four previous television appearances? What is he still waiting for?

HOLLINGS. That he assumes really the responsibility, that they generally acted with his authority. No President, no individual in a government this size can know every little detail. But I'm confident that he must have known. Well, he signed, as we all know in the news, with respect to a finding in January for the Iranian sale. In the matter of monies thereby going to the Contras thereafter, I'm confident that he must have known about it. I can't see Colonel North acting on his own, never have believed that.

REPORTER. Senator, what do you think is ultimately going to happen and is it going to happen sooner rather than later? Are we inevitably headed for another type of Watergate situation?

HOLLINGS. Well, that's what I've said in my opening comment that I'm afraid that is exactly what we're going to do. Because you can go witness after witness after witness after leak after report. Many things that I have read in the newspaper I understand to be wrong, but I haven't changed my opinion. I've watched this thing from afar. I came back in town and I'm very well persuaded that we need the President to come right up on top of the table and level with the American people and that's the only way we're going to solve this problem.

REPORTER. Are you saying that Ronald Reagan has lied to the Nation at this point?

HOLLINGS. You keep asking me that and I'm not going to call the President a liar. What I'm saying is that the people have acted with his authority. It was a mistake. He should assume that responsibility. The more we investigate and the deeper we get into this with all of these committees, we're going to be on a diversion here of non-government and just headlines. We're going to be in your business for the next six months. And I think we all for the good of the country should get out of it.

PHIL JONES. Once the President has taken your advice and said "Yes, I gave them the authority one way or the other, they were acting on what I wanted done," then what do you propose: that all investigations stop?

HOLLINGS. No, they can continue with the independent prosecutor and the investigations, but I would certainly give him executive privilege. . . . Say, "They acted with my authority and just come to me if you want to know who did what. I did it." That's what the President's got to say and do.

PHIL JONES. Senator, should anything be done to the President?

HOLLINGS. No, I don't think anything should be done to the President. Everyone knows the policy. We've now confirmed the Contra aid policy. We'll continue to question dealing with the Iranians, but that's no grievous error. To do anything to the President? No, I don't suggest that. On the contrary, I'm trying to reestablish and bolster him.

REPORTER. Senator, you said that you didn't get this from the Intelligence Committee, but how do you know that the people under him acted with his authority?

HOLLINGS. I'm just like, I heard when I came back in town, Senator Dole, he said, "Only Ripley would believe that." And I think you folks are having a heyday trying to believe what you don't believe yourselves. You just keep writing it as if it were true and you don't believe it. And so you all are just going to have a good six months period going through and prove why you don't believe it. Why don't we just on top of the table . . . Nobody in this room believes that North acted without authority. Now I was not even there when North came, so I don't know what he did. But I saw reported in the news that he took the Fifth Amendment. And he took the Fifth Amendment not because he was afraid of lying, he was afraid of telling the truth. And that's my own idea.

REPORTER. Do you actually believe President Reagan after he has said repeatedly that he did not have any knowledge is going to say "I knew what was going on"? Do you expect a complete reversal from this man?

HOLLINGS. Oh, yes. He reversed on the hostage policy. He was saying all along, "Let's don't pay ransom." And he was berating our allies not to do it and at that same time he was doing it. That's not too much trouble. A little awkward for him, but he can do that. And he can say I made a mistake in good faith. He was acting in the security interest. He was acting for believable policy, as he believed it, and supportable policy, as he supports it. This isn't any Watergate. But if you are going to follow through and assume . . . All of you people are trying to get the headlines "So and So called So and So a Liar," "So and So Tried To Say Something Out of That Intelligence Committee." I have been absolutely clear not to say anything out of that Intelligence Committee and know it.

REPORTER. You mentioned several times the possibility of giving Colonel North immunity, is that being discussed in the Committee?

HOLLINGS. I wouldn't say what was being discussed or not being discussed. I say I wouldn't want to do it.

REPORTER. You would not want to do it?

HOLLINGS. No, I would not want to do it, because I know the inevitable result, because of my belief he acted with authority.

REPORTER. Senator, I don't understand what you think is going to happen once the President comes clean. Aren't these investigations going to continue?

HOLLINGS. Yes, but most of them, if he gives executive privilege, most of them come down to a manageable state and we can go on and get to work with the government. I can tell you that. He said in the original in-

stance also he assumed responsibility. I remember him saying that. Now why doesn't he really assume that responsibility?

REPORTER. If the trail does lead to the President, why not give North the immunity so that he couldn't take the Fifth, and then you could follow the trail to the President?

HOLLINGS. I don't want to follow the trail to the President; that's the exact point of my appearance here today. I just don't think that's in the good interest of the country. He's obviously been acting with authority; that fellow's made talks all over the country. Everybody's known it. That's not in any Intelligence Committee information and I've been reading, just like you folks have, and he's been almost like reported in the morning paper a son to the President. And this is something he's conferred with regularly, I happen to believe that. And that hasn't been stated in the Intelligence Committee.

REPORTER. The President told the Republican leaders of Congress yesterday that he didn't know anything about the contra connection. Senator Dole was very specific about that. He said he absolutely didn't know anything about the contra connection.

HOLLINGS. I don't believe that, and Ripley doesn't believe it, and I don't believe Dole believes it.

REPORTER. The question I have now is do you have any specific information that leads you not to believe it, or is it just a general feeling?

HOLLINGS. Just circumstantial evidence, just knowing the parties and everything about it. Yes, that's all.

REPORTER. If the President does not do as you suggest he do, come clean in other words, then do you want to proceed down this trail that you think will eventually lead to the President, and if so, how best do you do that?

HOLLINGS. No, I don't want to proceed down the trail. I can see the trail. Don't mind doing it, but it's just going to take a lot of time and wasted effort and leaks and stories and headlines and then like I say it think it will develop perhaps into a Watergate. I'd like to avoid that.

REPORTER. Do you then follow, if the President does do as you suggest, to stop it there?

HOLLINGS. Oh no, I don't suggest we stop. We have a responsibility even if you appointed a joint committee in the next ten seconds, we in the Intelligence Committee have to look at the requirements there and how that was conducted with respect to being notified and those other particular provisions. So the Intelligence Committee will continue its hearings.

REPORTER. Senator, do you think that there should be a Joint Select Committee, or how do you think . . .

HOLLINGS. Oh yeah, I think Joint Committees, fire Regan or don't fire Regan, whatever ya'll want to do, suits me fine. I mean you all coming up, you know, like Sealtest ice cream with a new flavor, and the President just overreacts and does just what you folks want done, and you all think that solves the problem. You can appoint fifty committees, or one Joint Committee, or no committee, you're not going to solve this with the American people until you come clean, and they know he knew, and we know he knew, and that he generally acted with authority, and that's my feel about it.

MARTY TOLCHIN. Senator Hollings, are you telling us that as a member of the Intelligence Committee . . .

HOLLINGS. No, I'm not telling you as a member of the Intelligence Committee. I'm telling you as Senator Hollings from South Carolina. Right, all right.

MARTY TOLCHIN. Are you telling us that as a member of the Senate Intelligence Committee...

HOLLINGS. No, I'm not talking as a member of the Intelligence Committee. I'm not going to assume your question. I've been in the court and tried more cases than you have. Now.

MARTY TOLCHIN. . . . that this has played no role whatever . . .

HOLLINGS. No, not in anything I've said, I can tell you that. And members of the Intelligence Committee would know my particular feelings because I expressed this feeling at the very outset.

PHIL JONES. Senator, if you have been in court and tried more cases than Marty Tolchin of the New York Times, why do you then want to convict the President on circumstantial evidence?

HOLLINGS. I'm not trying to convict the President on circumstantial evidence; I'm trying to free the country from this morass.

REPORTER. Senator, there's been a lot said here this morning of what the President did or didn't lie. How would you state it, that he misstated the facts in the public interest?

HOLLINGS. Yeah, I think he probably overspoke the situation, and took the advice that look, if you just set aside Poindexter, and North, it'll go away. But that didn't fly, and the Commission didn't fly, and the independent counsel didn't fly, and the Joint Committee is not going to fly, is my point. You're going to have to come up and come clean on the whole thing and just generally say that this was an important matter and everyone knows of my interest in the contras, and I just can't see that happening in a National Security Council with these two top officials of that council and the President not know it.

REPORTER. Senator, you're saying that the President, it's up to him. He's got to come clean . . .

HOLLINGS. Yes, I think that's the only . . .

REPORTER. . . . and the Congress doesn't do anything?

HOLLINGS. No, let the Congress go merrily on its way, but I think we can get some other work done. I think yes, we'll have a responsibility, and we'll have to go into these committees, but it won't develop into one of these Watergate type hearings of a leak, and a story and a confirmation and a denial and a changed statement by Mr. Casey and a this and a that every day. To be asked about . . . now in Afghanistan when I woke up this morning.

REPORTER. So is it to the President to set the record straight?

HOLLINGS. Yeah, it's up to the President. Only the President can do that I believe.

REPORTER. President . . . is it conceivable to you that Ronald Reagan did not have knowledge and that Donald Regan did?

HOLLINGS. No, I don't think so. I think the way it works over there, that President Reagan would want to know about this, and I can't see Mr. Regan not telling him if he knew anything about it.

PYE CHAMBERLAYNE. Senator Hollings, does the President risk impeachment in your view if he does not follow your advice?

HOLLINGS. No, I don't think he'll ever risk impeachment, but we could get down to some kind of untoward conduct if we keep following this thing down its natural course because I think, in addition to the President, members of the Cabinet were fairly

well briefed from time to time—I'm confident just over the system that they work under. And that's been stated publicly in the press. Now, yes, maybe one secretary agreed and another one disagreed, and everything else, but general knowledge and being apprised, everyone knew whether they agreed or disagreed.

STEVE ROBERTS. What I'm unclear about is if all these things happened, if everybody knew about it, if all these laws were broken, just by coming out and saying we made a mistake, is that going to absolve the President and all his Cabinet of any further blame, or do you feel things have to be done in the way of punishment or penalty, or how will we have to deal with it once they admit their mistake?

HOLLINGS. Steve, I'm not trying a criminal case, I'm trying a political case. And I'm saying for the good of the body politic, especially for the Presidency as an institution, the President would do well to come forth and just tell the truth on this thing, and say, "Well, I couldn't know and I didn't know, like I stated, everything in detail, but I'll have to agree that they acted with my authority."

REPORTER. Senator Hollings, the President's words on Monday were that he flat out did not know the details of this until Meese told him on the Monday after the weekend investigation. How could the President survive an absolute flip-flop on this by now saying what you want him to say, which is that he did know?

HOLLINGS. Well, I think he can survive the flip-flop if you call it that, and I think he should survive the flip-flop, and I think we all ought to have a Merry Christmas.

REPORTER. Senator, you say you've held these views since the very beginning . . .

HOLLINGS. Right.

REPORTER. And yet you didn't call a press conference . . .

HOLLINGS. No, I haven't called a press conference. I've studiously avoided ya'll from the Intelligence Committee.

REPORTER. What caused you to decide to do it today?

HOLLINGS. Well, my local press have been asking, and I wanted to come to them and I appreciate your attendance. I don't know who invited you, but I thank the Lord, you know. We're in the political business . . . but Chris Weston, Lee Bandy, and all the rest, and so I said, "Well, anybody else." It'd be easier because I'm trying to get home, I haven't been home in a long time.

PHIL JONES. With all due respect, I do not follow your logic. On one hand, you are saying the President's got to get this passing for the good of the nation . . .

HOLLINGS. Right.

PHIL JONES. On the other hand, you're saying that a Congressional investigation should go forward and . . .

HOLLINGS. Oh yeah, I don't want to appear here to stop the Congressional investigation. This is not an either . . . this is a very complicated world in Washington, Phil.

PHIL JONES. . . . it's not going to work. You've been around here for a long time. You know when the Congressional investigation continues . . .

HOLLINGS. Sure they do.

PHIL JONES. . . . the whole controversy is just going to continue to mount and mount.

HOLLINGS. Right.

PHIL JONES. Don't you?

HOLLINGS. No, I would think that if the President assumes the responsibility, which he said. Now, how's he flip-flop and say I don't assume the responsibility. There's an-

other flip-flop. We don't worry about flip-flops. I think they acted with the authority of the President, and I don't think that's going to stop. And my intent is not to stop—Joint Committees, Intelligence Committees, commissions, and all the rest of the thing. But I think, if it's pretty well proved and understood from the President's own lips, that they generally acted with authority, then all the steam . . . we've approved the contra policy and everybody knows now. You've been reporting in the press, that this have been Israeli policy, to get arms to Iran, for over five years. So, there we are, and why the big hoopala?

The only reason is because the President puts us all in a box when he maintains that he didn't know anything about it, it's all news to him. I can't believe it's all news to him.

REPORTER. Senator, if laws were broken in the course of carrying out this policy, should the people who broke those laws be absolved of responsibility?

HOLLINGS. No, I think you've got the independent counsel or prosecutor . . .

REPORTER. . . . But you said we should invoke executive privilege. If he invokes executive privilege, that means that these people will not have to . . .

HOLLINGS. Could be, could be. The world won't end with that.

REPORTER. Senator, so for the sake of saving the Presidency, it would be worth letting these people off the hook if they broke the law.

HOLLINGS. We got the Harry Byrd amendment that says you should balance the budget. Lock up the Congress. We've violated that since 1980. Terrible fellows up here. Ya'll don't get riled up about that. You just don't like the contra policy. And none of us of course like the Iranian policy and the hostage policy. No one agrees with that one; the President made a bad mistake on that.

REPORTER. If laws were broken under the scenario you're describing, what's your penalty for the people who broke them?

HOLLINGS. Well, it depends on whether you can prove it.

REPORTER. And what if you can or cannot?

HOLLINGS. I don't know.

REPORTER. Senator Hollings, in the U.S. selling arms to Iran, are we backing the right party in that war? What kind of message are we sending to . . .

HOLLINGS. I don't know. That's what you folks up here call an oxymoron, an Iranian moderate. I couldn't find any.

REPORTER. What do you call it in South Carolina?

HOLLINGS. Thieves. All of them.

REPORTER. Senator Hollings, what you're saying is adds up to accusing the President of lying about the Iranian . . .

HOLLINGS. You keep on saying that. I'm not accusing him of lying.

REPORTER. Well, if you're not accusing him of lying, what are you really accusing him of doing?

HOLLINGS. I'm not accusing him of doing anything except not leveling with the American people. I think he should be more forthright and full on the entire matter with respect to these persons acting with authority. You all don't ask the question. I mean, he says the fellow's a hero; he doesn't think he's a criminal . . . Colonel North . . . that's what the President says. How can he think if he didn't know anything he was doing, he was a hero and everything else of that kind, and want him indicted. You ask him, does he want Colonel North locked up? I don't think he does.

PHIL JONES. How would you describe Colonel North?

HOLLINGS. I think he's generally a patriot. And I think he's a military gung-ho fellow, and I've been with those military gung-ho fellows, and one thing about them—they act with authority. I can't see him, over the last couple of years as you've reported, make some hundred talks. Every time a group would come to Washington, he'd give them the old pep talk about the aid to the contras, the aid to the contras—you all act like he never heard of contras before. You know it and I know it; he has been gung-ho leading the way soliciting Ross Perot and all of these other folks. Now when he comes, and do ya'll go along with the President not knowing anything about North and contras? Come on. You ought to read your own newspapers. Excuse me, that's right, you're on TV.

REPORTER. Senator, what about these calls for the removal of Don Regan. What's your sense of that?

HOLLINGS. I think Don Regan is a very capable fellow. I think he lacks the political touch. And obviously, the Republicans know him better. I don't know him that well. I respect him and I can't understand, and that's why the President doesn't just outright get rid of him. If he really thought he was a crook and criminal, and ought to be investigated by a commission and an FBI, and the next thing I saw on the TV was, yes, the chief of staff was being interrogated by the FBI or something like that. He doesn't really believe that otherwise he would have disposed of Mr. Regan. Mr. Regan was part and parcel of the policy and the authority and the President knew about it.

REPORTER. Has Don Regan helped the President or hurt the President over the last year, including the summit and including what's happening now with Iran?

HOLLINGS. I don't know, because I don't know who gave the advice on this idea, but, gee, ain't nobody here but us chickens, I never heard of this contra aid thing before. I mean, that's outrageous nonsense, you know that. For the President to act that way; I mean, he's a pretty good Hollywood actor but whoever told him to put on that one. Change that thing and level with the American people, that's what I'm saying.

REPORTER. But you're saying that the President doesn't have to fire Regan to clear the decks.

HOLLINGS. Well, I think if he fired him in the next ten minutes he'd still have the same problem. He's got to come himself and be more forthright with the American people.

REPORTER. Senator, do you have any thoughts about the Vice-President, what he knew?

HOLLINGS. No, I think as a member of the Cabinet and the Security Council, the National Security Council, I think he would be fairly well briefed on this. I don't know of my own knowledge, but I am confident he knew generally of the Iranian arms policy, whatever went on.

REPORTER. Senator, whatever happened to the principle of plausible deniability?

HOLLINGS. Yeah, that's one of the things that works on plausible deniability that's not working on this occasion. We use that in Intelligence. That's constant and that's where you get in trouble. That's where you get in trouble; you know, what a tangled web we weave when first we practice to deceive. And when you get into that situation where you say, "Look, I'm telling you, but remember, if this ever comes out, I never

told you and you never knew anything about it." That happens from time to time in the Intelligence game, and I think maybe we might be caught up in that situation where everybody's trying to call him a liar, this that and everything else of that kind. He's got the trust of the American people, the President has, on December the second, or whatever date this is. But this will continue to be deteriorated and diminished and lost unless he levels with the American people, and that's the only solution.

These committees and getting rid of Regan and all are out of the whole cloth, this isn't the problem. The American people want the President to come clean on this score and back up his team on a policy that was questionable, perhaps a mistake. Let him say "I hate to admit it but this was a mistake. This was my policy; contras has now been approved by the Congress. So what. And I've gotten into enough trouble with my allies on this hostage, no ransom while I'm paying ransom. So I apologize for the whole thing, but at least we don't have to go through this." You can go ahead, have your meetings, but then this diffuses this whole thing. And he protects his crowd out there, and we've got a White House, and we've got a President, and we've got a government. Otherwise, we've just got one big grand investigation going on for the next five or six months in this country and I'd like to avoid it, and I think somebody ought to speak out about it. And you don't have to be on the Intelligence Committee to speak out about it.

PHIL JONES. Senator, you have said all of these people are trying to call him a liar about it. Who . . . why are they trying to call him a liar?

HOLLINGS. The people asking the questions, cause they put that in the question you see what I mean. I'm trying not to call him a liar.

REPORTER. Do you have to try?

HOLLINGS. I keep on trying, yeah. Thank you all very much.

[Please Credit any Quotes or Excerpts From This ABC News Television Program to "ABC News' This Week With David Brinkley"]

ABC NEWS: THIS WEEK WITH DAVID BRINKLEY, SUNDAY, DECEMBER 7, 1986

(Guests: H. Ross Perot, Founder, Electronic Data Systems; Representative Robert F. Michel (R., Ill.), House Minority Leader; Senator Ernest F. Hollings (D., S.C.), Member, Intelligence Committee; Howard H. Baker, Jr., Former Senate Majority Leader.)

(Interviewed by: David Brinkley—ABC News; Sam Donaldson—ABC News; George F. Will—ABC News Analyst.)

Mr. BRINKLEY. Coming next, H. Ross Perot, who founded Electronic Data Systems, and who arranged on his own the rescue of hostages in Iran, and who's been asked several times to put up some millions to bail out hostages. And, shortly, Senator Ernest Hollings of the Select Committee on Intelligence; and former Senator Howard Baker, and Representative Bob Michel. In a moment.

(Announcements.)

Mr. BRINKLEY. Mr. Perot in Irving, Texas, thank you very much for coming in today. Pleased to have you with us.

Mr. PEROT. Good to be with you.

Mr. BRINKLEY. Thank you. Here with us are George Will of ABC News, and Sam Donaldson, ABC News White House Correspondents. Now, Mr. Perot, as I understand

it, representatives of the White House have come to you more than once and asked you to put up substantial amounts of money, millions, to be used to bail out hostages. Is that correct?

Mr. PEROT. That's right. It goes back to 1969; spans four presidents. Had someone ask me the other day, he said, why didn't they call you before 1969? I didn't have any money before 1969.

[Laughter.]

Mr. BRINKLEY. Well, question two: You put up the money because you wanted to help people in trouble. Now tell me, if an American can be seized, held for a time, and then turned in for a million or two of Ross Perot's money, none of us is safe. Isn't that true?

Mr. PEROT. Well, none of us are safe now. You have—as you all understand, terrorists have a message they want to send to the world. As long as they get massive media coverage, which they're certainly assured of getting, and properly should get anytime they seize an American, they have an opportunity to get their message over. My heart goes out to the poor devil who was picked off the streets; is bound and gagged in a closet, being tortured and beaten; and then when I get a call from the government and say, will you help us, I just feel a moral obligation to do it and make no apologies for having done it. I don't expect to get any more calls. But in the event that I do, I'll continue to help. And that's just the way I feel about it.

Mr. WILL. Mr. Perot, you have said that the reason the government does indeed call you is that the government has a policy against it not paying ransom. Now isn't that, however, a distinction without a difference, as our allies would be construing this? That if the government makes a quiet call to a private citizen and says, do this in our name and for our purposes and at this request, isn't it really paying ransom?

Mr. PEROT. Well, in the final analysis, if the money changes hands, you've paid ransom. The difference is, it's not taxpayer money; it's not government money; it's private funds. This is an old practice. It—it's an—you have to be creative and unconventional. Because we like to think in this country that everybody operates under our system of justice. The facts are, terrorists operate under no rules. So you have to use creative and unconventional means to try to deal with the problem. Every president feels tremendous compassion toward Americans who are held hostage. And everybody in the administration, no matters whose administration it might be, looks for creative ways to get those people released.

Mr. WILL. One of the questions about the creative and unconventional methods used, not just by this President but by the three others who've called upon you for help, is the extent to which they specifically directed this. Is it your impression that when Mr. North approached you, he was speaking, not just the President's clear wishes and desires for an outcome, but his—the President's tactical intentions as well?

Mr. PEROT. I assume that everything had been properly cleared, because I've worked with the National Security Council for so many years. My sense has always been, it's very well organized. Very well controlled. I've never met a loose cannon in the National Security Council. The people are very bright, very dedicated, very principled, and incredibly hard working people. So they're people you feel very comfortable dealing with. They've always been meticulous to a

fault in my dealings with them to the point that sometimes I felt the process was over controlled.

Mr. DONALDSON. But Mr. Perot, is it not a fact that Colonel North never said to you, the President has asked me to do this? Or: I have the President's permission or authority.

Mr. PEROT. No, he never said that. Neither did anyone else. And I would have felt it would have been improper, well, I'll have to have something in writing from the President before I can help you.

Mr. DONALDSON. All right, you say you would help the government ransom U.S. hostages. What about the business of money to the contra rebels in Nicaragua? You've made the point that you wouldn't help do that.

Mr. PEROT. No, I'm not—

Mr. DONALDSON. And yet you favor the contras, so why not?

Mr. PEROT. Well, I have—I've taken the hard position—now, the government's never approached me on that one, interestingly enough. Some of the private groups have come around to see me. And I said, look, if we're going to have a war in this country, Congress has to go make that decision, not private individuals. And there's a second problem, that it costs so much to wage a war, you're never going to be able to fund it by private individuals. But the primary problem is, that's a decision Congress must make. And that's not something we can do individually.

Mr. DONALDSON. Well, you know the President's in deep trouble right now. How does he get out of it?

Mr. PEROT. I think it's very simple. Get all the facts on the table. Now, it's human nature to want to look after yourself in a crisis. So you got all these people down the line that are being very self-protective, and understandably. My advice would be to get all of them in a room; for the President to look them in the eye and say, "Look, we've got a whole nation here. There are millions of people who depend upon us. I want everybody in this room to stop thinking about himself. I want you all to go home tonight. I want you to write down everything you did. Leave nothing out. I want you to stop worrying about what's going to happen to you and start worrying about what's going to happen to our country. We simply can't afford to spend months getting to the bottom of this. We have other things that are so much more important than this, but if you folks won't just come clean, every single one of you, we're going to have to go through process of special prosecutors, Congressional hearings, and so on and so forth, and distract this nation for months, and really hurt this country. So tomorrow morning—"

Mr. DONALDSON. But how do you know they can afford to come clean? How do you know if anyone writes it all down it won't show that there were great illegalities even by the highest administrator of the land?

Mr. PEROT. No, my sense is that if everybody put down everything on paper and handed it out publicly in the morning, we would all read it. And the severest critic would say, boy, were those dumb mistakes. Now, whoever made those dumb mistakes doesn't have any patent on dumb mistakes or bad judgment. We all make dumb mistakes and exercise bad judgment. But then it's over with. Now, I will bet a very substantial sum that whoever made the worst mistake did it with the best of intentions; just bad judgment. Now, American people can

understand bad judgment because we all have bad judgment from time to time. But then we clean this thing out and get it over with. So I'd like to compress the process by having everybody do it. I believe that if you put the pressure on them, that if the right leadership put the pressure on them, if our leadership put the pressure on them, they'd do it.

Mr. BRINKLEY. Mr. Perot—

Mr. DONALDSON. But what if they broke the law and they'd have to go to jail for this bad judgment? I mean, do you expect them to write it down and then say, take me away?

Mr. PEROT. No, no. If that came up in the meeting, I'd say, well, fellas, if that's the way it is, that's the way it is. But look, you're here. Now I know enough about the people around the National Security Council to know that they're very highly principled people. And if they concluded that they had made such a serious mistake that they should be punished for it—and I doubt if that's true, frankly—but if they did, I believe they'd take the heat rather than see the country suffer. I think that's the way to get it over with.

Mr. WILL. The President says that Colonel North is an American hero. What's your impression of Colonel North?

Mr. PEROT. Well, I've met a lot of these guys. See, the first—my first day-to-day contact in the National Security Council was an Army Colonel named Alexander Haig. So I've dealt with a whole string of them, General Scowcroft, right on through, you name it. Colonel North is a very fine man. He's a very dedicated man. I have absolutely no reason to question his integrity or his principles. Now, let's assume that somebody up or down that chain made a series of mistakes. And I say, let's get them up on the table; get it over with; and go ahead and face the real problem that face this country. Interestingly enough, this is not one of the country's biggest problems. It's going to become a big problem, because it's an open sore.

Mr. BRINKLEY. Mr. Perot, thank you. Thank you very much for coming in today.

Mr. PEROT. Thank you. Good to be with you.

Mr. BRINKLEY. Pleasure to have you with us. Coming next, Senator Ernest Hollings, Democrat, South Carolina, of the Select Committee on Intelligence; and, shortly, former Senator Howard Baker and Representative Bob Michel. In a moment.

(Announcements.)

Mr. BRINKLEY. Senator Hollings, as the first guest on our first program a little over five years ago, back again, we're happy to have you.

Senator HOLLINGS. Thank you. I'm glad to be back home.

Mr. BRINKLEY. Thanks for coming in. Now, do I understand correctly that you say you have evidence that Mr. Reagan knew all about this all the time?

Senator HOLLINGS. No, I'm much like Ross Perot. I'm not talking as a member of the Intelligence Committee.

Mr. BRINKLEY. No, but just talk as a Senator from South Carolina.

Senator HOLLINGS. As a Senator from South Carolina, knowing that you've got five departments of governments—of the government involved, and at least five countries internationally, and you got 12 shipments and 5,000 tons to Iran, knowing that this is the principal policy and concern, namely, aid to the contras of this particular President, I can't see this occurring without

some implied authority from the President. And I think the President's really made two mistakes. Number one, he hadn't confessed to the so-called implied authority; perhaps confessed is a bad word because there's nothing wrong. But I could well see him saying, I hope we can—

Mr. DONALDSON. Nothing wrong?

Senator HOLLINGS. No, look, I'm trying to get aid to the contras, and I can't convince the Congress of doing it. I hope somehow we can do it, and if you folks around can convince some of these countries. We find our State Department has been soliciting as well as North making talks and everything else, if some way aid can be gotten to the contras until I can change the Congress' mind, don't tell me anything about it. See, he's not lying about when he knew. The important question is not just what he knew and when did he know it, but what did he give and when did he give it. Because that's implied authority. That's the real question in this case.

Mr. BRINKLEY. Your assumption—it's an assumption, I gather.

Senator HOLLINGS. It's an assumption, definitely.

Mr. BRINKLEY. That based on all this evidence—

Senator HOLLINGS. That's right.

Mr. BRINKLEY [continuing]. All these people and countries involved, he must have known.

Senator HOLLINGS. He must have known indirectly. I mean, he can't see it occurring around him—and by the way it was a success up until October, and Congress had its mind—had its mind changed. And I'm convinced somebody must have intimidated to the President that it is working. I mean, you see that countries have been solicited by the Assistant Secretary of State.

Mr. WILL. Now, it is your aim as a Senator and as a citizen to get this behind us you say and get on to something else.

Senator HOLLINGS. Right. I'm not trying to convict the President or catch the President. I'm sort of trying to catch a falling flag, like Dick Whelan said in his book. We ought to get this behind us. And as even Durenberger agreed on yesterday, the President is the only one who can help us do that.

Mr. WILL. And what is the quickest way to do that? There are several matters. They're technical terms, but we have to deal with them. One is the granting of immunity by the committees of Congress. Another is the President insisting on executive privilege. Are these apt to slow down, hasten; what's the right strategy?

Senator HOLLINGS. Well, I think the right strategy is, number one, come up front and say, look—and the President's moving in that direction; he said yesterday that he thought some mistakes had been made. That's quite a concession. Secondly, he's got to say, look, as I told the American people the truth. I didn't know about it until such-and-such a time. That's not too important. But I can understand now where those who acted in good faith for the security of the country and in pursuance of my policy of getting aid to the contras. It was a sort of implied authority. And quit treating them like criminals. When the President comes out on his principal and says, get the FBI. It's like the captain of "Love Boat" finding somebody on board ship making love and saying, "Oh, my heavens. Let's get the FBI. Let's get a commission. Let's get the Congress, a prosecutor." That's nonsense, and everybody knows it. These folks are all good

Americans. You can't tell me that the two military men in the White House, Admiral Poindexter and Colonel North, acted without any authority whatsoever.

Mr. WILL. On this question of implied authority, in the little hypothetical scenario you drew—

Senator HOLLINGS. Right.

Mr. WILL [continuing]. You had the President saying, "Don't tell me about it." Now, is that—not just speaking of this President, but this has—covert activity has been going on with all Presidents, certainly in the post-war period. Is it your understanding, as someone of vast experience in this town and experience on the Intelligence Committee, that the kind of thing gets said?

Senator HOLLINGS. Oh, yes. I take all of my experience—30 years ago when I served on the Hoover Commission, the Clark task force spending two years investigating all of the intelligence activities. That was under Allen Dulles and General Cabell. So I—look, I've been in this 30 years. And no one's ever interviewed me about intelligence, and no one ever will, what goes on. But yes, the answer is absolutely—

Mr. BRINKLEY. You mean in the closed committee, what goes on?

Senator HOLLINGS. Exactly. That's right. I never have abused any evidence whatsoever. But I know from my experience, the President first treated it as a crime. And he won't come up—and when I say, come clean and say, I know these men. And they're good men, and they're not criminals. On the one hand, he fires them. On the other hand, he gives them a farewell party and calls them heroes. Let's get with the program, and get with the truth.

Mr. DONALDSON. Well, I'm intrigued, if I understand you correctly, by your thesis that—under your scenario the President did nothing wrong. If I understand what you're saying, it is that the President would say something like, well, Congress has cut off the money.

Senator HOLLINGS. Right.

Mr. DONALDSON. And said, we ought not fund the contras. But I think it's important. I want you to go out and raise money and fund the contras. And you don't think the President has done anything wrong?

Senator HOLLINGS. No, I don't say, I want you to go out and raise money. I said, if there is anyway that money can be gotten to these contras, I'd be the happiest man in Washington. There's no doubt in mind. Now, this—

Mr. DONALDSON. So what is the President's responsibility, then—

Senator HOLLINGS. Wait a minute, Sam. This is not criminality. This is policy. Arms to Iran is not a crime; it's policy. You know, ransom for hostages is a matter of politics.

Mr. DONALDSON. You're talking about the skimming of the cash for the contras?

Senator HOLLINGS. And aid to the contras is not a crime. It's a limitation on spending; yes, he went against that. But Congress has limited itself regularly with respect to the Harry Byrd amendment, that you shall not spend more money than what you take in. We've been violating that ourselves for the past—

(Laughter.)

Senator HOLLINGS. So don't worry about that.

Mr. DONALDSON. So when the Boland Amendment said this government would do nothing directly or indirectly to overthrow the government of Nicaragua—

Senator HOLLINGS. That's right.

Mr. DONALDSON [continuing]. Having you people go out and raise money to fund the

contras to overthrow the government of Nicaragua is not a crime in your book?

Senator HOLLINGS. Not a crime, but that's an offense against the Congressional wishes. And I think the American people see it. I don't think we approve of that.

Mr. DONALDSON. Well, what Congressional law should the President obey if he may pick and choose?

Senator HOLLINGS. Well, where's the felony? Where's the misdemeanor? What are you going to do? I don't think it serves the country well to catch the President even if you could catch him. Because it is policy and not criminal activity involved. But over the six months, treating like—

Mr. DONALDSON. You don't mean that, do you, Senator?

Senator HOLLINGS. Yessirree.

Mr. DONALDSON. You mean that the president of the United States, let's forget Ronald Reagan; you're talking about the presidency now—

Senator HOLLINGS. Presidency of the United States.

Mr. DONALDSON [continuing]. Can do anything he wants to do—

Senator HOLLINGS. No.

Mr. DONALDSON [continuing]. And it's not good for the country to catch him?

Senator HOLLINGS. No, he's not doing anything he wants to do. He's been following for five years aid to contra policy. He got through humanitarian aid, but he hasn't got through the military aid. Now, he's gotten through military aid, and even the Congress approves that particular policy.

Mr. DONALDSON. Well, may I ask you—

Mr. BRINKLEY. I have one quick question. Senator HOLLINGS. Yes, sir?

Mr. BRINKLEY. Then our time is up. Do you think Donald Regan should go? There are those who do.

Senator HOLLINGS. I don't think that helps it one way or the other. I don't know. The President has to determine that. But if Don Regan—that's all politics. Get rid of him in two minutes. You've still got the same problem. The American people know North, they know Poindexter, they know the Secretary of State and everybody else was acting, the Defense Department with all these shipments of arms through there. What are you going to do, find them all criminals? They were all following policy, not criminality.

Mr. WILL. Do we need a special prosecutor for all the Senators and Congressmen who violated the Byrd Amendment?

Senator HOLLINGS. Yeah, let's get one for that.

Mr. BRINKLEY. Senator, thank you.

Senator HOLLINGS. Thank you very much.

Mr. BRINKLEY. Thanks very much for coming.

Senator HOLLINGS. Yes, sir.

Mr. BRINKLEY. We look forward to seeing you again. Coming next, former Senator and former Senate majority leader, Howard Baker; and the Republican leader in the House now and in the next Congress, Bob Michel of Illinois. In a moment.

(Announcements.)

Mr. BRINKLEY. Senator Baker, Congressman Michel, thanks very much for coming in. Happy to have you with us. Now, there was a crowd on the sidewalk in front of the White House yesterday, I think it was, carrying signs, protesting about Iran. The signs were waved at drivers coming down Pennsylvania Avenue, and they said, "Honk if you think they're lying." Now, if you were driving by, would you honk?

Mr. BAKER. No, I wouldn't honk. But I tell you what, I sure would tell the President, if

I had the chance, that this thing is festering and going to get out of control just for that sort of reaction unless we get all these circumstances out and published as soon as possible. I think he's in grave danger, not because of the substance necessarily, but because of the technique and the timing.

Mr. BRINKLEY. Mr. Michel, would you honk?

Representative MICHEL. Of course not. Because I've talked to the President personally about it. He's looked me straight on in the eye, and said: This is the extent of what I've known. And I think we've all been taken through the steps on that. And I have the fullest confidence in the President that that's exactly how he feels. And I think those of us who know him quite well and his method of operation, it's very plausible for us. Now, it may not be for the general public out there, because we know people are a little bit more attentive to detail. Some may be candidates currently today who would be—

Mr. WILL. Say some more about that, why it is—what you know about the President's way of behaving makes this more—

Representative MICHEL. Well, we all know that he is one for delegating a great deal of authority, and probably not devoting himself to a number of the details. And I'm thinking in terms of Howard Baker having served in the legislature, or Bob Dole or Jack Kemp or whomever. You know, we'd probably get much more detail if they were elected president to the legislative process and some of the details, rather than thinking always in terms of the overall view. And I think part of that, then, when it comes to this thing, when there are so many things involved and down to finite details, that it's quite plausible that the President, on the real key area there where he should have made a decision or absolutely said, no, at this juncture, was really not there to say it.

Mr. WILL. Senator Baker, you say this is apt to get out of control. Now, you served on the Watergate committee. How do you keep it—both sides, from it getting out of control? I'm specifically thinking, should, in order to facilitate this process, should immunity be granted by the Congressional committees? And how far should the President stand by executive privilege, not just thinking of this case but the general integrity of the Presidency?

Mr. BAKER. Well, I think the overall and fundamental question of the integrity of the Presidency is the survival of the Presidency, and we just simply can't have another Watergate, and another destroyed administration. So I think the President needs to jettison any thought of executive privilege, and not be in opposition, as I don't believe he will be, to a grant of Congressional use immunity. I think he simply must get the facts out and do it promptly and be ahead of the committee and head of the special prosecutor and be in the lead in disclosing those facts to the public.

Mr. WILL. If you were President, how do you do that? I mean, we just heard Mr. Perot say, send everyone home and tell them to come back at 9:00 with their blue books full of the details. Is that how you'd do it?

Mr. BAKER. Yes, that's pretty much the way you'd do it. I think that, you know, a President is in a unique position as commander in chief as well as President. And I guess in my mind's eye, what I would have done is, summon up everyone into the Oval Office, as Perot said, and I'd said, look, you know, you have really put me in a bad spot.

I didn't know about this and you're about to destroy me. Now what did you do?

Mr. WILL. The President went out and gave a speech, his first speech on this subject, in which he said, all the arms could have fit in one cargo plane. Now all speeches the President gives are vetted through a large interagency process. Isn't it obvious that someone had to read that who knew that was false?

Mr. BAKER. I think it's obvious.

Mr. WILL. Now, how do you find that guy?

Mr. BAKER. You've just got to do it that way. And you may not find the facts. But the President—the President has to make the effort.

Mr. DONALDSON. Mr. Michel—go ahead if you—

Representative MICHEL. Well, I've said before, you know, that the President hasn't been well served in that staff operation. And it's up to him at this particular juncture, you know, to say, well, yes, I've made mistakes and they have made mistakes. And we can now make a fresh start, possibly.

Mr. WILL. Didn't someone allow—

Representative MICHEL. It's still his call ultimately.

Mr. WILL. Didn't someone allow, knowingly allow, the President to go out and say something they knew was false?

Representative MICHEL. Well, it's quite obvious.

Mr. DONALDSON. Well, we've been talking about people below the President. But really, this President is going to be saved or not on what the President knew, the famous Baker question, when did he know it. And there's precedent—President Gerald Ford, when questions about his pardon of Richard Nixon came up, came up to Capitol Hill and testified before the House Judiciary Committee. Would it be a good idea if President Reagan comes up and talks to these select committees when they get formed?

Representative MICHEL. Well, I don't know. That's a judgment call. He'd probably even by willing, if you just asked him point blank maybe to do that. I'm not altogether sure I'd want to subject my President to that kind of thing. But he has said that anything the committees would like to have, we're going to certainly come forward with it. I tell you, I see the striking contrast to Watergate. There's no bunker mentality at the White House, as far as I'm concerned, from the Presidency, as there was, I think, at the time of the Nixon affair. And that is different. And I don't think we ought to just—

Mr. DONALDSON. You ought to come down the press room sometimes, Mr. Michel. You might change your view of that.

Representative MICHEL. Well, I've been down there. And you folks are very probing.

Mr. DONALDSON. Well, Senator Baker, what about you? Do you think the President should make his testimony available in some way?

Mr. BAKER. I don't think so, really. You know, that's a bridge he'll have to cross if the circumstances warrant it. But I tell you what I really do think. I think that the President—the President needs to make sure that he is getting all the facts. I think your earlier question about people not—even now giving all the information is terribly relevant and terribly frightening. And I think this President has to make it clear that he's just mad as he can be that somebody, and maybe several people, are putting his whole administration and his lifetime record in public service in jeopardy.

Mr. WILL. Is he angry—

Mr. BRINKLEY. To protect their own necks.

Mr. WILL. Is he angry?

Mr. BAKER. I don't know.

Representative MICHEL. Howard and I have talked about that a little bit, because frankly, I've made some comment to the effect that both those critical mornings, I think, Monday and Tuesday, when we had some real let-your-hair-down meetings with the President, I think both mornings he kind of began with a little Irish story, you know. The general feeling, I don't feel as, him coming into the room as Howard, I think, would have probably felt, by golly now, I was let down, or this was wrong, and we're going to correct this baby. That wasn't his mental attitude.

Mr. DONALDSON. He hasn't said anything was wrong. He said mistakes were made in the execution of his policy which, again yesterday, he defended as being right and proper. Hasn't his anger been directed at his critics, the press, the sharks in the water and all of that?

Representative MICHEL. Well, I think at one moment the President maybe said something about the press that might have been uncharacteristic for him, frankly, from the point—

Mr. DONALDSON. Mr. Michel, let me ask you about the Secretary of State George Shultz apparently did in soliciting money from the Sultan of Brunei in order to fund the contras. Was that a proper action?

Representative MICHEL. Well, I know there's the letter of the law and the spirit of the law. But I think we've all—those of us who supported actions for the contras certainly made no mistake. If ever I was out on the public stump some place would say, well, if there's something available from private sources that is not in contravention of the law specifically with Federal funds, why, maybe some of that ought to be done to bridge the gap.

Mr. DONALDSON. So you think it was a proper action, is that it?

Representative MICHEL. Well, I don't have any real serious criticism of it myself.

Mr. BRINKLEY. Congressman Michel, Senator Baker, thank you.

[From the Daily News, Dec. 9, 1986]

#### COMMON SENSE SAYS LITTLE

(By William F. Buckley)

Sen. Fritz Hollings may know, by the time these words appear, the gravity of what he has done, but he ought not to underestimate it. The words that flashed out on radio and television, after a day's extended hearings with Vice Adm. John Poindexter and with former NSC adviser Robert McFarlane, were that the President of the United States "knew it all."

It wasn't until the following day that the press could report a slight amplification: Sen. Hollings was reporting not on the basis of what he had heard but on what was "common sense."

The reprimand by the chairman, Sen. David Durenberger, was fast and very sharp. The chairman rebuked his colleague in sharp tones: "Tell him he ought to be a member of the committee or get off because he has broken the ground rules of the committee."

But the damage was done.

Because there isn't very much of a dramatic nature that hangs on the proceedings save the answer to the question: Did President Reagan lie to the American people? Those who know Mr. Reagan are prepared to stake their own credibility on Mr. Reagan's truthfulness in his assertion of igno-

rance of the Iranian money that went to Nicaragua. All the rest—the arms sent to Iran, the independence of the NSC, the ignorance of the chief of staff—are complaints that have to do with judgment and with tables of organization.

To repair the latter, a respected three-man team has been convened to make recommendations. To acquit himself of the former, President Reagan will need to suffer to the extent that public opinion consolidates around the conclusion that his search for Iranian moderates was misconceived.

But on the matter of Mr. Reagan and the public, there is no compromising.

Sen. Hollings said that common sense was the basis of his conclusion in the matter of President Reagan. Well, common sense can hardly be defined by studying Sen. Hollings' activity. Coming out of a room surrounded by electronic devices to foreclose against penetration by outsiders, Mr. Hollings promptly advertised his conclusion the effect of which was to anticipate the judgment of the investigating body. And what makes it all especially perplexing is that the thing we are exploring is a departure from common sense.

Surely common sense would suggest that a President was informed of a transaction arguably illegal and in any event scandalous. But Mr. Reagan has made exactly that point, namely that the secret operation was kept even from him.

So Sen. Hollings on the one hand says that which is obvious—that common sense would suppose the President would know about so egregious a covert operation—and on the other hand Sen. Hollings urges the conviction that that which is common sense obviously is what prevailed. He is saying something that, stretched out on a syllogistic frame, would read something like: Proposition A: Three-quarters of the U.S. Pacific Fleet was at Pearl Harbor on Dec. 7, 1941. Proposition B: It would not be common sense for the commander in chief to put three-quarters of the U.S. fleet in Pearl Harbor at a time an enemy might attack. Therefore, the Japanese could not have attacked Pearl Harbor on Dec. 7.

Mr. Hollings has violated Senate committee rules, congressional etiquette and the ground rules of ethical behavior. It doesn't make common sense for him to have done such a thing.

U.S. SENATE,

Washington, DC, December 16, 1986.

WILLIAM F. BUCKLEY, JR.,  
Editor, *National Review*,  
New York, NY.

DEAR MR. BUCKLEY: Your attack on me in the December 9 New York Daily News and elsewhere recalls Oscar Wilde's dictum on public debate. "If you can't answer a man's arguments, all is not lost. You can still call him vile names." You ignore the substance of my indictment of the President, opting to defend Mr. Reagan by blaming the media and impugning the character of his critics. This, of course, is the Pat "Stonewall" Buchanan school of presidential defense. It failed miserably 12 years ago, and it won't work this time around either.

Specifically, you accuse me of violating "Senate committee rules, congressional etiquette and the ground rules of ethical behavior." How does it violate either etiquette or ethics for an elected public official to give voice to what (according to every poll I've seen) the majority of Americans believe, i.e., that the President has yet to come forward with the full truth about his knowl-

edge of and involvement in the Irangate affair?

Interestingly enough, you and I are in fundamental agreement on the logic of Mr. Reagan's involvement. I concur completely with your statement that "Surely common sense would suggest that a President was informed of a transaction arguably illegal and in any event scandalous." From that point, however, we part company. You blithely embrace the President's plea of innocence by virtue of ignorance. I, as a former trial attorney, have retained a skeptical attitude and have urged a complete airing of the facts. Indeed, memories of Gulf of Tonkin and Watergate are too fresh to permit any other approach.

Furthermore, I categorically reject—and personally resent—your claim that I have violated committee rules by speaking my mind on the subject of Irangate. There is no comprehensive gag order restraining Intelligence Committee members, and, as you well know, Sen. DURENBERGER and others have become fixtures on the evening news and Sunday talk shows.

However, I would point out that during my two years on the Committee, I have been one of several Senators who steadfastly refuse to talk to the press about Committee proceedings—either immediately after Committee hearings or at any other time. I began intelligence work as a member of the Hoover Commission task force investigating the CIA and all other intelligence agencies of the federal government in 1953 and 1954. Over the intervening 33 years, I have never leaked or otherwise compromised classified information.

Ask your journalistic colleagues here on Capitol Hill. You will not find a single instance of my discussing Intelligence Committee proceedings or information with a member of the media. I have made it scrupulously, even pedantically, clear that my opinions regarding the President's involvement in the contra connection are based not on Committee testimony but rather on common sense and elementary deduction. In any case, I would remind you that Intelligence Committee testimony in recent days has mostly consisted of repetitions of "On advice of counsel, I respectfully plead the Fifth"—hardly anyone's idea of riveting or edifying fare.

Let me also point out several other inaccuracies in your rather slapdash column: You write that my statement to the effect that the President "knew it all" "flashed out on radio and television after a day's extended hearings with Vice Adm. John Poindexter and with former NSC adviser Robert McFarlane." First, there was nothing "extended" about the Poindexter hearing; he pleaded the Fifth several times, then promptly retreated. Second, the news reports resulted from my interview on the TODAY show and NPR on December 3. Poindexter and McFarlane didn't testify until December 4.

Senator Durenberger's "rebuttal" was an emotional outburst in response to an exaggerated hypothetical question. Soon after his statement, I asked him what rule or ethics or reason would cause him to react so strongly. He replied that he had made the comment in response to a hypothetical question from a reporter.

I have not been playing this national tragedy for personal publicity or gain. Indeed, I have declined more than a dozen invitations to appear on talk shows like your own. I did appear, finally, on the Brinkley show on December 7, and it is obvious from the record

that I wasn't "advertising" (to use your word). I simply stated that I wasn't going to go along with this charade of silence regarding the emperor's lack of clothes.

You hardly need be a member of the Intelligence Committee to realize that President Reagan created an environment in which aid to the contras—by hook or by crook—was a top priority. The vital question is not so much "What did he know and when did he know it" as "What did he give and when did he give it"—authority, that is.

The President's authority was either explicit or implied. Either way, no one can persuade me that Adm. Poindexter and company were buccaneers operating on their own. They were doing the President's bidding.

For the President, now, to shout "Police!" "Get the FBI," "Appoint a commission," and so on, is absurdly disingenuous. It's like the captain of the Love Boat expressing surprise and outrage that people are falling in love aboard his ship. It just won't wash. And that conclusion, Mr. Buckley, is just a matter of common sense.

Sincerely,

ERNEST B. HOLLINGS.

NATIONAL REVIEW;

New York, NY, December 29, 1986.

HON. ERNEST HOLLINGS,  
Senate Office Building,  
Washington, DC.

DEAR FRITZ: Just got back from a week's vacation and saw your fustian communication. I am sorry about that rather extraordinary anomaly, namely that the fuss was about a broadcast you made the day before you heard testimony. That was not made clear in the two newspapers in Chicago I read the day I wrote the piece you object to, nor was it even hinted at that the rebuke by Senator Durenberger had to do with a hypothetical point. What it boils down to, it seems to me, is that the public conceive of you as a judge in a tribunal and for that reason expect judicious declarations from you. It amuses me that you resent this, because in a way I do too, having for years thought your candor one of your greatest charms. I'd be disappointed if Barry Goldwater ever became a judge—it would rob me of much of the fun in life. But I am not here to counsel you on how to do your duties. My counsel is only made publicly.

With cordial personal regards,

WM. F. BUCKLEY, Jr.

[From the New York Times, Dec. 14, 1986]

COME CLEAN, MR. PRESIDENT

(By Ernest F. Hollings)

WASHINGTON.—Like a grade B Hollywood remake, the arms-for-hostages deal is rapidly degenerating into President Reagan's Watergate. It recalls the adage that historical phenomena always happen twice—the first time as tragedy, the second time as farce.

The trouble is, nobody is laughing anymore. What started as a grade B remake has now evolved into a first class scandal. However, this crisis need not destroy the Administration.

Since taking office in 1981, Mr. Reagan has restored the Presidency to authority and pre-eminence. The American people have genuine affection for the President. They trust him. To maintain that high standing, Mr. Reagan must, as he himself has said, "fully inform" the nation about the environment he created in which this escapade was hatched.

No, I am not talking about cashiering Donald Regan or reining in the National Security Council. Those actions are necessary,

but they fail to tackle the core problem: the mortal blow that has been dealt to the President's credibility and standing.

When all is said and done, Mr. Reagan is the "who" in all the hoopla surrounding this crisis. And the fact is that the vast majority of the American people do not believe the President is telling the full truth about his knowledge and involvement. As with Watergate 12 years ago, what hurts most is not the violation of laws but the wanton betrayal of trust.

The President's plea of ignorance stands on two increasingly wobbly legs. The first is the shield of "plausible deniability" for the President—the standard ingredient of any illegal covert operation. Unfortunately, as Senator Bob Dole has observed, not even Ripley of "Believe It or Not" could believe that Lieut. Col. Oliver L. North and Vice Adm. John M. Poindexter—schooled in obedience and loyal to the chain of command—acted without higher authority, indeed, without the highest authority.

The second line of the President's defense is the widespread impression that he is laid back and poorly informed about even the most important activities of his Administration. True, he may be indifferent to 95 percent of his Administration's initiatives, but he has engaged passionately in the remaining 5 percent. And at the top of that personal Reagan agenda are the contras and the Beirut hostages. It is inconceivable that Admiral Poindexter's daily briefings with Mr. Reagan would not include detailed updates on the President's pet project: assisting the contras.

The truth will out. The only question is whether it will be volunteered or extracted. The President has retreated to his bunker. Colonel North and Admiral Poindexter, two fine officers, have dutifully fallen on their swords by taking the Fifth Amendment to protect their Commander in Chief. But the rest of the White House is leaking like a colander.

Lesson No. 1 of freshman politics is that when you have damaging information that inevitably is going to come to light, you take the initiative and reveal it yourself with the appropriate "spin." Ignoring this dictum, the President has opted to let the truth leak out in a slow drip—a Chinese water torture is eroding his popularity and power.

Mr. Reagan can and must halt the slide. He cannot acknowledge "full responsibility" and call in the Federal Bureau of Investigation and special counsel to catch the criminal while at the same time giving farewell parties to the accused and calling them national heroes. He must lay bare the unvarnished facts about his Administration's dealings with Iran and the contras. This will prevent the paralysis of our Government and allow Mr. Reagan to move decisively to reconstitute and restore his Presidency. Who doubts that Congress and the American people would respond positively to such a decisive act of candor?

STATEMENT BY SENATOR STROM THURMOND REGARDING REMARKS MADE BY SENATOR ERNEST F. HOLLINGS ABOUT PRESIDENT REAGAN, DECEMBER 5, 1986

I was shocked and amazed by statements made earlier this week by my Democratic colleague, Senator Hollings, which strongly insinuate that the President has not been truthful about the details of the Iranian arms deal, and specifically about the diversion of funds to the Nicaraguan Contras.

After learning of Senator Hollings' statements, I contacted the Chairman of the Select Committee on Intelligence, Senator Durenberger, to determine if the Committee had reached that particular conclusion, and he informed me that it had not.

Furthermore, he told me there has not been any evidence thus far in the Intelligence Committee hearings to suggest that the President has not told the truth or had any involvement with or knowledge of the diversion of funds to the Contras.

In addition, he expressed his concern—and that of some of his colleagues on the Committee—about the basic unfairness and the inappropriate nature of the charge raised by my fellow South Carolina Senator.

Indeed, Senator Durenberger said he was so surprised by these remarks that he took the extraordinary step—one I cannot recall happening in my tenure here—of publicly suggesting that Senator Hollings consider withdrawing from the Intelligence Committee's review of this matter because his objectivity may have been compromised.

While I have always had high regard for Senator Hollings and a good working relationship with him, I simply could not allow his statements to go unchallenged. Frankly, I believe his statements have called into question his objectivity in this matter, but I think the issue of his continued participation in the Iran arms inquiry is something that is best resolved by himself and Senator Durenberger.

In addition, I am dismayed and deeply concerned, not only about what Senator Hollings has said, but the general circus atmosphere which has surrounded this entire episode.

In the 32 years I have served in the Senate, I have seen and been involved in special investigations of all kinds: independent counsels; Watergate; Billygate; Koreagate; Briefing Book-Gate; Vesco; Abscam; and a host of others. All of them had one similarity: Anyone willing to make outrageous statements before getting all of the facts was guaranteed time on the evening news.

The Iranian arms incident is no exception. I did not come here to blindly defend the President of the United States. However, I think it is important to take into consideration the character and reputation of the person involved. In this case, we are talking about a man who has twice been elected president by overwhelming margins; one of the most popular presidents in this Nation's history; a man with a long and unblemished public service career; and an individual I know to have always been honest and forthright with the American people.

At the very least, and I mean the very least, President Reagan is entitled to a judgment based on the facts, not on innuendo or assumption.

As members of Congress—and this is especially true for those individuals participating in this investigation—we owe something very important to the American people who are watching our handling of this incident. We owe them a professional approach to our work. All of us want a full and complete accounting of what has transpired. Our inquiry, and the probe by the independent counsel, should be broad enough to involve all relevant facts and individuals.

However, our citizens do not want to see us run roughshod over peoples' rights in a zealous pursuit of headlines and political gamesmanship.

#### HOLLINGS RESPONDS TO THURMOND'S ATTEMPT TO DISCREDIT HIS VIEWS REGARDING IRANIAN ARMS DEAL

CHARLESTON, S.C.—Statement of Senator Ernest F. Hollings, D-S.C.:

"I am pleased to see in today's Washington Post that Senator David Durenberger, Chairman of the Senate Select Committee on Intelligence, agrees with my assessment of the current situation. He is quoted as saying, 'The country needs to put this behind it as soon as possible. The president is in the best position to do that at this point and time.' This is exactly what I stated in my news conference two days ago.

"My interest is to help the president and help the country. I stated in my news conference that President Reagan had the trust of the American people. He has my trust.

"The news media has constantly tried to have me call the president a liar. What I have said is that the president has not fully informed the American people.

"The bottom line is: did Vice Admiral John Poindexter and Lieutenant Colonel Oliver North act with presidential authority? I remain convinced that they had the authority, either directly or indirectly. No two people working in the White House on a Contra policy involving five departments of government and five or more countries would dare this without implied authority. The American people know this.

"On Wednesday, my views, time and again, were emphasized as those of a United States Senator from South Carolina, not as a member of the Intelligence Committee. I have never intimated any information about the work or testimony from the Intelligence Committee.

"I am only sorry to see my senior colleague, Senator Thurmond, in his zeal to discredit me, talk about evidence before the Intelligence Committee that was told to him by Chairman Durenberger. They are the ones violating the rules, but they do not seem to realize it."

[From U.S. News & World Report, Dec. 22, 1986]

#### THE INFORMER AND THE INFORMED

To cushion his fall on the way down, Ivan Boesky sold out the very people who helped him on the way up. He carried a secret wiretap on his person and his phone to entrap other insider traders and mitigate his own punishment. Wall Street and beyond condemns him for the lawbreaking; yet it loathes him for leading the authorities to other lawbreakers. The paradox lies in our simultaneous respect for law and revulsion at betrayal. Even before Judas Iscariot, the informer was universally despised.

Why then do we place people like Vice Adm. John Poindexter and Lt. Col. Oliver North in the position essentially of asking them to inform on others and to inform on themselves? The answer given is that it is in the national interest to resolve the current crisis over arms sales to Iran and the *contras* by having these officials reveal what they knew—but it is in the national interest also to get to the bottom of insider trading and stamp it out. The distaste for Boesky, it may be said arises from the spectacle of a man trying to save his own skin. Are Admiral Poindexter and Colonel North not simply doing the same thing when they take the Fifth Amendment on the ground that they do not want to incriminate themselves? No. The parallel is false. They may, for a start, be trying to save other people's skins. Secondly, self-interest is secondary here.

These men have been placed in an unfair position. For the first time in history, an active-duty admiral has taken the Fifth before a congressional committee. The nation is especially moved by the moral agony of Colonel North, who wants the truth to come out but is temporarily its self-interested obstructor.

Poindexter and North have devoted their entire careers to the service of the country. Their actions, unlike Boesky's, were undertaken not for personal gain but for public interest—or at least their perception of it. It is not only that they did what they believed was best for the country but clearly what they believed their Commander in Chief also chose to be in the national interest.

Even if Chief of Staff Donald Regan or President Reagan did not directly authorize the diversion of funds to the *contras*, who can doubt that this was clearly what they both wished? When Henry II asked, "Who will rid me of this troublesome priest?" it was not so much a question as an order.

So, in one form or another, the basic responsibility lies with the President and his chief of staff. It is not Poindexter and North who should be in the public glare. The President and his chief of staff should have said early on that they themselves took full responsibility for all the actions of their subordinates, known and unknown, and accepted all the consequences. Whatever was done was in the name of their policy. The spectacle of subordinate staff in the dock is demeaning to the office of President. The issue is essentially political, not criminal. If there has been violation of the law, it is violation of laws that really do not have sanctions. It's a technical violation that is fairly frequent. For example, the Congress has violated its own Gramm-Rudman law that also has no sanctions. The violation here is also only momentarily a violation of congressional will: Soon after the Swiss-bank funds were diverted, Congress itself voted \$100 million for the *contras*. And there is substantial precedent for presidential initiative. Who can forget the lend-lease policy of President Roosevelt to help England that technically skirted the legal requirements and the will of Congress? Who will forget Jefferson's purchase of Louisiana, contrary to American law? The policies that lie at the root of the current crisis where those of establishing ties to Iran by arms sales and helping the *contras*. Such policies may have been unwise but were essentially part of normal political controversy.

What has become the central issue is the unwillingness of the President to accept full political responsibility, to acknowledge his mistakes and to recognize that to restore public confidence he must make wholesale changes to his staff beginning with Donald Regan. The moment may very well have passed when the President could have stayed out front on this issue and not suffered the political damage. Now, every day of confusion, denial and leak is a day of sad subtraction from a Presidency of significant achievement.

#### WELCOME TO SENATOR BREAUX

Mr. JOHNSTON. Mr. President, it is with great pleasure that I welcome to this Chamber my new colleague from Louisiana, JOHN BREAUX.

JOHN's election to the Senate in November followed a long and difficult

campaign, against tremendous odds. But, most importantly, it was always a positive, respectable campaign. His victory should tell us a great deal, not just about JOHN BREAU's qualifications as a U.S. Senator, but about his high regard for the political process.

Elected to the House of Representatives in 1972 and, until recently, serving as dean of the Louisiana delegation, JOHN has proven himself to be an outstanding legislator. I have no doubt that each of you will come to appreciate his skills and talents as I have through the close personal and professional relationship we have shared over the years.

I know that my State of Louisiana and the Nation will benefit greatly by JOHN's service here in the Senate. I am delighted to welcome him as a friend and colleague and look forward to working with him in the years ahead.

Mr. WARNER. Mr. President, on December 10, 1986, a distinguished colleague was honored at the Department of Defense in one of the most impressive and moving ceremonies I have ever witnessed.

I am referring to the Armed Forces salute to Senator Barry Goldwater on the eve of his retirement from this great body.

Senator Goldwater served the American people faithfully and well for over five decades—three of these as a U.S. Senator.

His wise counsel and unparalleled common sense benefited virtually every Member now serving in the Senate.

His record of selfless dedication to the common good—to America—reflects the very best that this Nation has to offer.

He was a friend, a truly gentle man, and a patriot.

I ask unanimous consent that the ceremony transcript be printed in the RECORD.

There being no objection, the transcript was ordered to be printed in the RECORD, as follows:

ARMED FORCES SALUTE TO SENATOR BARRY M. GOLDWATER

PRESENTATION OF THE DEPARTMENT OF DEFENSE MEDAL FOR DISTINGUISHED PUBLIC SERVICE

To Barry M. Goldwater in recognition of thirty years of exemplary service to the American people and the security of the United States of America.

Beginning with the Eighty-Third Congress in 1953 and extending to the One Hundredth Congress in 1987, Senator Goldwater's exceptional leadership as an active member of the United States Senate, including the Chairmanship of the Senate Committee on Armed Services and oversight of its Subcommittees, has been instrumental in preserving the national security of the United States. Through his dedicated efforts for a strong national defense and his tempered and prudent stewardship of materiel and fiscal resources, the United States has maintained a strong and effective deterrent force. He has consistently worked to fa-

cilitate Congressional approval of Defense programs that are critical to the long term security of the United States, while simultaneously ensuring that approved programs have contributed maximum deterrent capability for the resources invested.

In his service under seven Presidents, he has always placed his determination for a strong America above partisan political considerations. His distinguished contributions are in the highest tradition of service to the Nation and deserve the lasting gratitude of all its citizens.

As a tribute to his outstanding accomplishments, and on behalf of the men and women—both military and civilian—of the Department of Defense, it is with great pleasure that I present Senator Barry Morris Goldwater the Department of Defense Medal for Distinguished Public Service.

CASPAR W. WEINBERGER,  
Secretary of Defense.

PRESENTATION OF THE ARMY DECORATION OF DISTINGUISHED CIVILIAN SERVICE AWARD

Senator Barry M. Goldwater is awarded the decoration for distinguished civilian service.

Citation: The honorable Barry M. Goldwater is cited for his dedicated service both as a member and chairman of the Senate Armed Services Committee and his extraordinary contributions to the accomplishments of the United States Army. During his stewardship as chairman, Senator Goldwater played a significant role in the revitalization and modernization of the Army, and as a result today's Army is better able to carry out its mission than ever before. A strong supporter of conventional forces, he has advocated many of the Army's vital programs including enhancements for Army aviation, and communications, particularly mobile subscriber equipment, defensive chemical measures and binary chemicals, and the Bradley fighting vehicle. His support of the Army personnel programs and the enhancement of reserve components has placed the future of the Army on the path of continued improvement and excellence. Finally, as a watchdog on pricing of contracts and a key supporter of multiyear contracts, he has helped to ensure that the Nation received the most possible for its defense dollars. Senator Goldwater has established himself as a true American patriot. His support of the United States Army and selfless service to the Nation stand as a worthy example for all Americans to emulate.

JOHN O. MARSH, JR.,  
Secretary of the Army.

PRESENTATION OF THE NAVY DISTINGUISHED PUBLIC SERVICE AWARD

In appreciation of Distinguished Public Service to the Department of the Navy The Secretary of the Navy takes pleasure in presenting the distinguished public service award to Senator Barry M. Goldwater for services set forth in the following citation: For outstanding service and achievement in a position of great responsibility to the United States Government. Serving as a member of Congress for over thirty-five years, Senator Goldwater was an unswerving proponent of a strong Navy and national defense. His personal dedication, strong commitment to excellence, and visionary leadership were instrumental in the rebuilding of the Navy into a modern naval force capable of protecting U.S. interests around the world. As Chairman of the Senate

Armed Forces Committee, his professionalism and leadership were inspiring to military and civilian alike, fostering a spirit of cooperation at all levels of Armed Services. His astute knowledge of maritime and national security affairs earned him a reputation in world, national defense, and Navy forums. The nation owes a debt of gratitude to Senator Goldwater. Senator Goldwater's singular distinctive accomplishments and strong leadership will influence military strategy and readiness well into the century.

JOHN F. LEHMAN, JR.,  
Secretary of the Navy.

PRESENTATION OF THE AIR FORCE DECORATION FOR EXCEPTIONAL CIVILIAN SERVICE AWARD

Department of the Air Force presents the decoration for exceptional civilian service to Senator Barry M. Goldwater.

Citation: In recognition of thirty years of distinguished service in the United States Senate during which he was an ardent supporter of the United States Air Force from its inception to the present day. Senator Goldwater's support and direction of major weapon systems from the B-36 bomber through the B-1 bomber and the F-100 fighter to the F-16 fighter have ensured the ongoing modernization of the Air Force. His visionary accomplishments have charted the course for the growth of the United States Air Force from infancy to space. Senator Goldwater has been a staunch supporter of people programs resulting in the highest quality personnel in the United States Air Force. For these accomplishments he has earned the gratitude, respect, and admiration of every individual who has served in the United States Air Force.

E.C. ALDRIDGE, JR.,  
Secretary of the Air Force

REMARKS BY ADM. WILLIAM J. CROWE, JR.  
CHAIRMAN, JOINT CHIEFS OF STAFF

Chairman Goldwater, ladies and gentlemen, it is a great pleasure to welcome you to these ceremonies as we pay tribute to a man who has been one of this nation's most prominent citizens and leaders for more than three decades, Senator Barry Goldwater. Every American owes this strong advocate for national defense a great debt of gratitude. In turn, Mr. Chairman, we in the Pentagon—and I speak for all the U.S. military when I say that—feel privileged to have this opportunity to show our appreciation today, as you prepare for what some have called "retirement", but I suspect it will be a rather active retirement.

Not long ago, a report in the local media quoted Senator Goldwater to the effect that the new DoD reorganization law bearing his name is, in his words, "The only thing I ever did that was worth a damn." Now, I certainly don't want to quarrel with the Senator here, but I would like to grasp this opportunity to present a different viewpoint. Even aside from any judgments that history may render concerning that legislation, I would argue that Barry Goldwater's legacy to this nation is much larger, much broader, and much deeper than that particular assessment admits.

Especially for those who have devoted their professional lives to the cause of national defense, two dimensions of his career in Washington stand out with particular clarity. The first is the role he played in the resurrection of the American spirit after our experience in Vietnam and the debates and doubts of the 1970s. Many of you remember those rather depressing times well: in some

quarters, our armed services were ridiculed—and even reviled; public cynicism about leadership and about the process of national governance was widespread; the country's international vision was clouded, and its defenses fell into disrepair.

Through all of that turmoil and confusion, Barry Goldwater stood on high ground as a standard-bearer for patriotism, national service, and for dedication. He kept the faith of our founders, and with clear-eyed focus on national purposes and needs, he marked the place for his fellow Americans to return to after years of disillusionment, disappointment, and strategic wandering. The restoration of strength and stature this nation has achieved in the 1980s rests, ultimately, on that solid foundation. Indeed, it could not have been achieved—and cannot be maintained—without it.

I would suggest that Senator Goldwater's second large-scale contribution has to do with his continuing example of selfless, straightshooting service to his country in the best Arizona example. First and always, his animating concern has been a concept of the national interest, not something smaller. His career has provided an abiding lesson for all citizens, for all those who aspire to civic leadership, and especially for Americans who now wear the uniform of our armed forces in times that are better and safer largely because of his efforts.

A quarter century ago, just as he was rising to national prominence, Barry Goldwater did something that is now the rage in Washington—he wrote a book. Its title featured a significant word, "conscience"—that has always been important to him, although we don't see it so much in writings these days. Twenty years later, he wrote another book entitled, "With No Apologies". It is an inspiring testament to Barry Goldwater—and to this country—that a man who came to Washington dedicated to abiding principles, and who never shrank from any contest, from any battle, can now leave justifiably confident of his fidelity to those core values. So much for the cynics, carpers, and hangers-back.

As we go forward in the effort to enhance this Republic's defenses, I know that we will continue to hear from Barry Goldwater. He will always prod us to do better. And, just as importantly, we can be sure that he will keep the need for national strength in the forefront of the public mind that has tended—all too often in our history—to overlook that inescapable fact of international life.

I would submit that keeping America strong is doing the right thing, and that has certainly been one of the premises of Barry Goldwater's life. I am confident that he will continue to be in the vanguard of that effort in retirement just as he has been in the vanguard of that effort as an Airman, as a Senator, and as Chairman of the Senate Armed Services Committee.

With that, and before we give the Senator himself a chance to make some typically modest denials of these accolades, I am very pleased to turn the microphone to a man who has led the massive turnaround of our military fortunes which Barry Goldwater has helped make possible, our Secretary of Defense, Mr. Caspar Weinberger.

REMARKS BY THE HONORABLE CASPAR W. WEINBERGER, SECRETARY OF DEFENSE

Secretary Weinberger, Secretary Harrington and distinguished members of the Senate and the House, it is a very great honor for me to be a part of this ceremony

today and to share with you a few thoughts on one or two other aspects of Senator Goldwater's career that complement and supplement the very fine but not in any way flattering estimate that Admiral Crowe has just given.

One thing we've always known about Senator Goldwater is where he stands. Although he and I have never really disagreed on anything, and I think back today to a time about 22 years ago when I had the great privilege of introducing him again at a somewhat smaller and less colorful gathering in San Francisco. The same things that I said at that time were perfectly applicable now because he has never changed and he has been unwavering in his devotion to the ideals that so appealed to me then.

He's been blunt, he's been straight forward and he's very far from shallow, he is very deep. These are probably the very best ways to describe him—that deep honesty, that bluntness and that straight forwardness. All too often, I've found, and I know he has, that politics breeds a blandness or an aversion to holding your ground on an issue. It's easier that way—if you get back into the middle where everybody is. That's never been the Senator's problem nor his way. We've needed men like him in the Senate, and in the country, and we've been very fortunate to have had him.

Few public figures of our time have such a reputation for persistent and painstaking dedication to the common good. I really have to say today that extremism in praise of Barry Goldwater is no vice because it is true. Barry Goldwater has the reputation of being a prophet—a hard thing to sustain and he's done it over all of these years.

When he entered the Senate, and when he entered the national arena from the Senate in the 1960s, his ideas were said to be extreme because at that time everyone knew that government spending was the only way to cure poverty and everyone knew that government regulation was the only way to control the marketplace and everyone knew that local governments were not qualified to run their own affairs—everyone that is except Barry Goldwater and a very few others—one of whom happens to be the President of the United States.

What Barry Goldwater taught us in the early 60s is now common opinion. He has had that enormously gratifying thing happen, he's lived to see the prophecies come true and the opinions he espoused now held as part of a common knowledge.

The unorthodox opinions of the conscience of American conservatism have now taken root and they're embraced by all except the most unreconstructed liberal. We've all learned from the Senator, indeed America has been his classroom now for over 30 years. There are a few slow learners out there, of course, but they're far outnumbered by those who have been touched by the consistently perceptive and vigorously argued ideas of Barry Goldwater.

I think there are three lessons that stand out among the many he has taught us. They certainly stand out for me. First, do not get involved in wars you do not intend to win. Secondly, government regulation of our lives easily and quickly becomes the regimentation of freedom. And third, despite all her faults and shortcomings, it is perfectly all right to love America.

The Senator recognized far earlier than most the great potential damage to democracies that engage in drawn-out conflicts in which there is no prospect of victory. Barry Goldwater was right about the war in Viet-

nam. We began by questioning that war—we ended by questioning ourselves.

Clear goals and a means to achieve those goals must guide the use of force by this nation. Our big problem was that we didn't listen well enough to the Senator. Long before it was popular, Barry Goldwater was telling us that the best way to build a strong economy was simply to leave people alone. Let the entrepreneur experiment, let the free thinker innovate, let the risk taker take a chance. And if government would only allow the natural American spirit of enterprise the room to breathe, the economic engine of freedom would know no bounds.

For many years the self-doubts that were spawned by the events of the late 1960s, as Adm. Crowe has said, drove patriotism out of our homes and replaced it with nihilistic whinings. All we really had to do was to listen and to learn from Senator Goldwater. Yes, America could make mistakes, but even our errors stem from our desire to do good. If we search the volumes of world history, we'll discover that this great sprawling republic of ours is the freest, and the most prosperous and the strongest nation that the world has ever known.

Barry Goldwater knew this when so many wished to doubt. Barry Goldwater knew it when so many turned their backs on America. The debt that we owe to him, I think, cannot be measured in the legislation he has written, or in the speeches he's given, or even in the lessons he's taught. Rather, we owe him thanks for simply telling us the truth as he saw it; for being the kind of person we would wish our children and our grandchildren to be—honest, wise and patriotic in the finest sense of the term.

Ladies and gentlemen, I have had many privileges and honors since I took this post, none exceeds the one I feel now as I present to you, Senator Barry Goldwater.

REMARKS BY THE HONORABLE BARRY M. GOLDWATER, UNITED STATES SENATOR

Secretary Weinberger, Admiral Crowe, distinguished leaders of the Armed Services, my friends from the House and Senate and my staff, my brothers in uniform, you know this is one of those days that I should have listened to my mother and stayed in bed. Because you stand up here and listen to all these nice things said about you and you don't know what the hell to say. I will say to the Admiral, however, that when that piece of legislation was passed we didn't expect to come over here today and find it all accomplished. And you wonder what I am going to be doing in the years ahead, I will be sort of like that bulldog in the Marines. I will be watching you, and if you get out of line a little bit here and there, we will try and do something to help you out.

As I stand here today, I think back over 60 years when I first put on a uniform in a military school and had the rare privilege of having as an instructor a Major later to become General Sandy Patch, who taught me about the honor of wearing the uniform, and being forever proud of it. And I have never forgotten it.

I might remind all of you and all my colleagues in the Congress that when we stand up and place our hand on the Bible, raise the other hand, the oath we take is to defend the Constitution of the United States against all enemies foreign and domestic. I have often reminded my friends that that does not mean the Constitution of Arizona or the Constitution of Nebraska or

the Constitution or any other state or any other country. It means our Constitution.

The document that made it possible to establish a government to protect those freedoms that were given to us, or recognized as a gift by God in the Declaration of Independence. That is the primary duty of every man who serves in the Congress. It is not what he can do for his state or his backyard, it is what he can do about his own country. And I maintain through years of experience, years of association with men that I can see sitting around here for whom I have the greatest respect, that the way to stay at peace in this world is to have a force so competent, so skilled and so strong that no other country or combination of countries will ever dare do anything to upset us.

I am proud to stand here today in the presence of the Secretaries, the commanding Admirals and Generals in front of all you gentlemen in uniform, and say that never in my life have I known such a high quality of enlisted men and officers as we have now. And I think I can promise you under the new Congress with the leadership that you will have in the Senate, and I hope in the House, a continuation of the efforts to keep you strong and to keep you modern.

I love those damned things but they ought to quit for a while (aircraft overhead).

I don't know. . . . You know long before they built that nasty place over there, this used to be the landing strip, and the first time that I ever landed in Washington I landed here. But they make a lot of noise.

I don't know if I can ever say thank you for this; I'll go to bed tonight thinking, God Almighty, why didn't you say this or say that, and I will go home and dream about it, tell lies to my grandchildren about it. But it is the most memorable day of my life, and to all of you that are responsible for it—starting with Cappy, my old friend who damned near beat me in California—that would have been a blessing.

I just want to say thank you from the bottom of my heart, and to assure you that when you remember the words of George Washington, that all Americans owe service, that you will live that thought, with that thought in your life forever. Not necessarily service in uniform, but I think of the old Biblical instruction, "Do unto others as you would have them do unto you." And that is what you are doing. You are helping to keep this America strong and safe, and we owe you our thanks and in return we want to do our own service. I thank you and I salute you.

#### JOE C. MORRIS ASSUMES CHAIRMANSHIP OF U.S. LEAGUE OF SAVINGS INSTITUTIONS

Mr. DOLE. Mr. President, I rise today to invite my colleagues to join me in congratulating Joe C. Morris of Emporia, KS, on the occasion of his assuming the chairmanship of the U.S. League of Savings Institutions at their 94th annual convention held in San Francisco last November. The U.S. League, with more than 3,400 savings and loan associations and savings banks as members, is the primary trade organization serving the \$1.1 trillion savings institutions business.

Joe Morris is chairman of Western Financial Corp. and president of its sole subsidiary, Columbia Savings As-

sociation of Emporia, a federally chartered institution with 15 offices and assets of \$475 million. During his 14 years as chief executive officer of Columbia Savings Association in Emporia, Joe has been deeply involved in savings institutions matters at both the State and national levels. He has served in numerous capacities with the U.S. League, including that of vice chairman, and has served the Kansas League of Savings Institutions as its chairman as well as a director.

Despite his active business schedule, Joe Morris has always found time to serve his community. He has served two terms on the Emporia Board of Education and is a member of a special presidential advisory committee at Emporia State University. In addition, he has served as director of Emporia Enterprises, a group formed to encourage industrial development and foster economic growth.

Joe Morris is an honors graduate of Kansas University, where he received the Alpha Kappa Psi scholarship key for being the highest ranking senior in the university's school of business. In 1981, the Kansas Kiwanis Foundation honored Joe, his wife, Susan, and their three sons as Kansas Family of the Year.

We Kansans are proud of Joe Morris and his long list of accomplishments, Mr. President, and we wish him every success during his 1-year term as chairman of the U.S. League of Savings Institutions.

#### THE TAX TREATMENT OF STUDENT LOAN INTEREST

Mr. KERRY. Mr. President, one of the most significant accomplishments of the 99th Congress was the enactment of a sweeping tax reform measure, H.R. 3838. I supported that measure, Mr. President, along with a majority of my colleagues from both sides of the aisle, because the tax bill represented genuine reform. The bill closed unfair loopholes, eliminated tax shelters and other mechanisms which were distorting investment patterns and encouraging tax avoidance, and most importantly, Mr. President, the tax bill reduced the burden of taxation on ordinary working Americans, including some 6 million of the working poor who will be eliminated from the tax rolls entirely.

But no tax bill has ever been perfect, and H.R. 3838 was no exception. I, along with many of my colleagues, cited a number of objections to various parts of the bill last year. As I stated during the debate on final passage of the bill last September:

One change that I believe is both unfair and unwise is the elimination of the tax deductible treatment of interest on student loans. This change is applied retroactively. Changing the rules of the game in mid-play is never fair, but it is particularly contemptuous when the victims are recent graduates

with small incomes and substantial expenses and have come from poor and working-class families without the means to finance higher education without loans.

What makes this change unwise as well as unfair is that it will add sharply to the cost of higher education and deny many gifted and able students the opportunity to achieve their potential and make their greatest contributions to our society.

Mr. President, it is urgent that we immediately address this problem during 1987, the first transition year to the new Tax Code.

In considering the tax treatment student loans, and the increased burden on borrowers these changes will mean, we should consider carefully the findings of a report released last week by the Joint Economic Committee. It noted that during the past decade there has been a quintupling of annual student loan volume, and that real indebtedness levels, after adjusting for inflation, are significantly higher than they were 10 or 15 years ago. A 1984 study of the cumulative debt of seniors at 22 private 4-year colleges and universities found that 43 percent of the students were graduating with over \$7,500 in loans. A full 6 percent of the seniors were leaving school with debts exceeding \$12,500.

Of even greater concern is the finding that student loans have evolved from the former role as a convenience for the middle class, and "are now used by many students from lower income families as well."

The report notes that these higher loan levels raise a number of questions about the impact on individual well-being. A student graduating with \$10,000 in debt and a job paying \$18,000 a year will have loan payments of nearly 8 percent of pretax income in the first year. When we consider the growing cost of housing, and of other expenses associated with getting started in life, it becomes very clear why some educators have asked what the long-term effect of student borrowing will be on career choices, and even more fundamental decisions about marriage, family size and so on.

Is it fair or wise for the Congress of the United States to make this situation worse by retroactively increasing the real cost of loan repayment by eliminating interest deductions? I believe that clearly, it is not.

In my mind, there is no question about whether we should amend the recent tax reform bill to allow the continued deduction of student loan interest; there are however, some serious questions about the fairest and most cost-effective way for us to do so.

If, for example, we were to allow any student borrower to deduct any and all interest on educational loans, we would create a clear incentive for more affluent students to pay cash for consumer goods, automobiles, and the like—and to borrow money to pay for

school. This would not only undermine the provisions in tax reform which disallow the deduction for consumer interest; it would also put an added strain on the capital resources available for student loan financing. Clearly, we have to explore all available options for limiting student loan interest deductions to those students who borrow out of necessity.

Mr. President, I am committed to working with the Finance Committee and any of my colleagues who share my concern with this problem to find an equitable solution. I am currently discussing this issue with educators, student financial aid analysts, tax specialists and others. In the next several weeks I plan to propose legislation to address this problem.

#### SELECT COMMITTEE RESOLUTION

Mr. KERRY. Mr. President, I want to express my strong support for the resolution offered by the distinguished majority leader which would create a select committee to investigate any potential wrong-doing associated with the sale of arms to Iran and the diversion of profits from those sales to the Contras.

It is regrettable that the Senate is compelled to create such a committee in an effort to get at the truth in this matter. But it is essential that we do so if we are to exercise those responsibilities conferred upon us by the Constitution we are all sworn to uphold. We are not dealing just with the issue of possible wrong-doing on the part of present or former officials of this Government. We are dealing with the most fundamental underpinning of our great democracy—that of the rule of law.

Earlier today, during the swearing in ceremonies held for 34 of our colleagues, I was reminded of the unique responsibilities demanded of each and every one of us in this body. In our oath of office, we pledge ourselves to defend the Constitution of this great Nation from enemies foreign and domestic.

There has been considerable concern expressed that, by launching this investigation, we may be crippling yet another President—that it is the office of the Presidency itself which is at stake. I share that concern. But our paramount responsibility—or allegiance if you will—is to the Constitution representing the people—not to the President. That is what is unique about our particular form of democracy.

Our Founding Fathers enshrined, within the Constitution of the United States, the separation of powers among the three branches of our Government. In so doing, an intricate system of checks and balances be-

tween and among the three branches was also carefully crafted.

As Mr. Justice Brandeis reminded us in his dissenting opinion in *Myers* against United States in 1926:

The doctrine of the separation of powers was adopted by the Convention of 1787, not to promote efficiency, but to preclude the exercise of arbitrary power. The purpose was, not to avoid friction, but by means of the inevitable friction incident to the distribution of the governmental powers among three departments, to save the people from autocracy.

Mr. President, we are creating a select committee because there occurred a very serious breakdown in the foreign policy decisionmaking processes of our Government. What is even worse, is that the accountability in our system, that our Founding Fathers were so intent on constructing, has now been jeopardized. We are not dealing with just a foreign policy disaster. We are dealing with issues which are at the core of our democratic system. The focus of the select committee should be as broad as possible. By so doing, the Senate will be heeding the warning of that distinguished Justice, Felix Frankfurter, who in a concurring opinion in the 1952 case of *Youngstown Co. against Sawyer* observed:

The experience through which the world has passed in our own day has made vivid the realization that the framers of our Constitution were not inexperienced doctrinaires. These longheaded statesmen had no illusion that our people enjoyed biological or psychological or sociological immunities from the hazards of concentrated power . . . The accretion of dangerous power does not come in a day. It does come, however slowly, from the generative force of unchecked disregard of the restrictions that fence in even the most disinterested assertion of authority.

In conclusion, Mr. President, it is our constitutional obligation that we are being called upon to carry out. This is not an investigation into wrongdoing. This is an exercise to reinforce, once again, that we are a nation of laws and not of men—that we are a nation committed to the spirit and intent of that document so carefully written by our Founding Fathers and which, this year, we will celebrate its 200th anniversary. And as we launch this inquiry, I submit that far from weakening a President or the Office of the Presidency, we will be strengthening our constitutional democracy in the manner envisioned by our Founding Fathers.

#### ACID RAIN: A NATIONAL PROBLEM

Mr. KERRY. Mr. President, for years, those of us from the Northeast section of the country have been talking about the damage that acid rain has done to our lakes and streams, our forests, our historical structures and the health of our citizens. But perhaps

a key point has been missed in explaining the problem. A United Press International wire story in yesterday's Washington Post demonstrates that acid rain is starting to also hit our centers of commerce and our local economies all across this Nation. It is now clear that it is not just the fish and wildlife or the forests of our Northeast States, but the economic strength in places as far away as the State of Florida. When we begin to address this issue in this session, we will have to consider all of these important factors and then enact a strong Acid Rain Control Program.

I ask unanimous consent that the article from Monday's Washington Post be included in the *RECORD* at this time.

There being no objection, the article was ordered to be printed in the *RECORD*, as follows:

[From the Washington Post, Jan. 5, 1987]

#### FLORIDA PORT LOSES BMW'S BUSINESS OVER ACID RAIN

JACKSONVILLE, Jan. 4.—BMW has stopped shipping its luxury cars through the Port of Jacksonville because acid rain ruined the cars' paint, and other foreign auto makers are considering similar action because of pollution at the port, it was reported today.

Twenty foreign auto makers send about 565,000 cars a year to the United States through Jacksonville, according to the port authority.

BMW of North America Inc. halted its shipments after a summer shower Aug. 8 left the paint on 2,000 high-priced cars pocked and scarred. The acid rain shower, the worst of 11 recorded last year at the port, dissolved the paint on some cars down to the metal.

Other foreign auto makers have threatened to pull out because of the pollution, The Orlando Sentinel said, and the city has established a committee to meet the problem.

Acid rain is formed when sulfur dioxide, usually from industrial emissions, mixes with water droplets in the atmosphere to produce corrosive precipitation.

The Select Committee on Port Related Emissions was given a Jan. 13 deadline to determine the source of the pollution and develop a preliminary solution that "we can go to the importers with," committee Chairman Robert J. Gray said.

Gray said steamship emissions may be to blame, but that has not been proved. The city cited one steamship company and a paper manufacturer, but both firms have contested the actions, which call for a maximum fine of \$500.

#### ROUTINE MORNING BUSINESS

#### REPORT ON CERTAIN BUDGET RESCISSIONS AND DEFER- RALS—MESSAGE FROM THE PRESIDENT—PM-1

The PRESIDING OFFICER laid before the Senate a message from the President of the United States, together with accompanying papers; which, pursuant to the order of January 30,

1975, was referred jointly to the Committee on Appropriations, the Committee on Armed Services, the Committee on the Budget, the Committee on Commerce, Science, and Transportation, and the Committee on Labor and Human Resources:

*To the Congress of the United States:*

In accordance with the Impoundment Control Act of 1974, including Section 1014, I herewith report seven new deferrals of budget authority totaling \$5,017,441,000 and four revised deferrals of budget authority now totaling \$5,131,425,194.

The deferrals affect accounts in Funds Appropriated to the President, and the Departments of Defense-Military, Health and Human Services, and Transportation.

The details of these deferrals are contained in the attached report.

RONALD REAGAN.

THE WHITE HOUSE, December 15, 1986.

**BUDGET RESCISSIONS AND DEFERRALS—MESSAGE FROM THE PRESIDENT—PM-2**

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States, together with accompanying papers; which, pursuant to the order of January 30, 1975, was referred jointly to the Committee on Agriculture, Nutrition, and Forestry, the Committee on Appropriations, the Committee on the Budget, the Committee on Banking, Housing, and Urban Affairs, the Committee on Commerce, Science, and Transportation, the Committee on Energy and Natural Resources, the Committee on Environment and Public Works, the Committee on Finance, the Committee on Foreign Relations, the Committee on Governmental Affairs, the Committee on the Judiciary, the Committee on Labor and Human Resources, and the Committee on Veterans' Affairs:

*To the Congress of the United States:*

In accordance with the Impoundment Control Act of 1974, including Section 1014, I herewith report 73 new rescission proposals totaling \$5,839,301,314, three new deferrals of budget authority totaling \$28,716,462, and three revised deferrals of budget authority now totaling \$34,850,024.

The rescissions affect programs in the Departments of Agriculture, Commerce, Defense-Military, Defense-Civil, Education, Energy, Interior, Justice, Labor, and Treasury, the Environmental Protection Agency, the National Aeronautics and Space Administration, the Veterans Administration, the Appalachian Regional Commission, the National Endowment for the Humanities, and the Selective Service System.

The deferrals affect programs in the Departments of Defense-Civil, Energy, Interior, and State.

The details of these rescission proposals and deferrals are contained in the attached report.

RONALD REAGAN.

THE WHITE HOUSE, January 5, 1987.

**PRESIDENTIAL APPROVALS**

A message from the President of the United States announced that he had approved and signed the following bills and joint resolutions:

October 16, 1986:

S. 426. An act to amend the Federal Power Act to provide for more protection to electric consumers.

S. 2062. An act to designate the Federal Building and United States Courthouse to be constructed and located in Newark, New Jersey, as the "Martin Luther King, Jr. Federal Building and United States Courthouse".

S. 2069. An act to make certain amendments to the Job Training Partnership Act.

S. 2788. An act to designate the Federal building located in San Diego, California, as the "Jacob Weinberger Federal Building".

S. 2884. An act to amend the Fair Labor Standards Act of 1938 to require that wages based on individual productivity be paid to handicapped workers employed under certificates issued by the Secretary of Labor.

S.J. Res. 280. Joint resolution designating the month of November 1986 as "National Alzheimer's Disease Month".

S.J. Res. 385. Joint resolution to designate October 23, 1986, as "National Hungarian Freedom Fighters Day".

S.J. Res. 395. Joint resolution to designate the period October 1, 1986, through September 30, 1987, as "National Institutes of Health Centennial Year".

On October 17, 1986:

S. 1965. An act to reauthorize and revise the Higher Education Act of 1965, and for other purposes.

On October 20, 1986:

S. 816. An act to establish the Pine Ridge National Recreation Area and Soldier Creek Wilderness in the State of Nebraska, and for other purposes.

On October 21, 1986:

S. 2048. An act to encourage international efforts to designate the shipwreck of the R.M.S. Titanic as an international maritime memorial and to provide for reasonable research, exploration, and, if appropriate, salvage activities with respect to the shipwreck.

On October 22, 1986:

S. 1124. An act to amend title 49, United States Code, to reduce regulation of surface freight forwarders, and for other purposes.

S. 2266. An act to establish a ski area permit system on national forest lands, and for other purposes.

S.J. Res. 169. Joint resolution to commemorate the bicentennial anniversary of the first patent and the first copyright laws.

S.J. Res. 299. Joint resolution to designate the week of December 7, 1986, through December 13, 1986, as "National Alopecia Areata Awareness Week".

S.J. Res. 304. Joint resolution to designate the week of November 16, 1986, through November 22, 1986, as "National Arts Week".

S.J. Res. 306. Joint resolution to designate the week beginning November 23, 1986, as "National Adoption Week".

S.J. Res. 311. Joint resolution designating the week beginning November 9, 1986, as "National Women Veterans Recognition Week".

S.J. Res. 396. Joint resolution to designate the week of October 26, 1986, through November 1, 1986, as "National Adult Immunization Awareness Week".

On October 24, 1986:

S. 1917. An act to promote immunization and oral rehydration in developing countries, to promote democracy in Haiti, to protect tropical and biological diversity in developing countries, to authorize increased funding for the Child Survival Fund and international narcotics control assistance, and for other purposes.

On October 27, 1986:

S. 197. An act for the relief of Elga Bouilliant-Linet.

S. 1082. An act granting the consent of Congress to the Arkansas-Mississippi Great River Bridge Construction Compact.

S. 1352. To enhance the carrying out of fish and wildlife conservation and natural resource management programs on military reservations, and for other purposes.

S. 1562. An act to amend title 31, United States Code, with respect to the fraudulent use of public property or money.

S. 1895. An act for the relief of Marlboro County General Hospital Charity, of Bennettsville, South Carolina.

S. 2129. An act to amend the Product Liability Risk Retention Act of 1981 to include coverage of other lines of liability insurance, and for other purposes.

S. 2320. An act to amend an act to add certain lands on the Island of Hawaii to Hawaii Volcanoes National Park, and for other purposes.

S. 2370. An act to authorize the Francis Scott Key Park Foundation, Inc. to erect a memorial in the District of Columbia.

S. 2506. An act to establish a Great Basin National Park in the State of Nevada, and for other purposes.

S. 2750. An act to establish a property tax fund for the Houlton Band of Maliseet Indians in furtherance of the Maine Indians Claims Settlement Act of 1980, and for other purposes.

S. 2914. An act to extend through fiscal year 1988 SBA Pilot Programs under section 8 of the Small Business Act.

S.J. Res. 232. Joint resolution to designate October 6, 1986, through October 10, 1986, as "National Social Studies Week".

S.J. Res. 308. Joint resolution to designate March 25, 1987, as "Greek Independence Day: A National Day of Celebration of Greek and American Democracy".

S.J. Res. 322. Joint resolution to designate December 7, 1986, as "National Pearl Harbor Remembrance Day" on the occasion of the anniversary of the attack on Pearl Harbor.

S.J. Res. 339. Joint resolution to designate the week of November 30, 1986, through December 6, 1986, as "National Home Care Week".

S.J. Res. 352. Joint resolution to designate the week beginning October 19, 1986, as "Gaucher's Disease Awareness Week".

S.J. Res. 392. Joint resolution to designate the month of December 1986, as "Made in America Month".

S.J. Res. 407. Joint resolution designating November 12, 1986, as "Salute to School Volunteers Day".

S.J. Res. 410. Joint resolution to designate the period commencing February 9, 1987, and ending February 15, 1987, as "National Burn Awareness Week".

An act to authorize appropriations for fiscal year 1987 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, to improve the defense acquisition process, and for other purposes.

## MESSAGES FROM THE HOUSE

At 5:11 p.m., a message from the House of Representatives, delivered by Mr. Berry, one of its reading clerks, announced that the House has agreed to the following concurrent resolutions, in which it requests the concurrence of the Senate:

H. Con. Res. 1. Concurrent resolution providing for a Joint Session of Congress to receive a message from the President on the State of the Union; and

H. Con. Res. 2. Concurrent resolution providing for a conditional adjournment of the House from January 8 to January 20, 1987.

The message also announced that the House has agreed to the following resolution:

H. Res. 2. Resolution notifying the Senate of the election of the Speaker of the House of Representatives and the Clerk of the House of Representatives; and

H. Res. 3. Resolution notifying the Senate of the appointment of a committee on the part of the House to join with a like committee from the Senate to notify the President that a quorum of each House is assembled.

At 7:20 p.m., a message from the House of Representatives, delivered by Mr. Gregory, one of its clerks, announced that the House has agreed to the following concurrent resolution:

S. Con. Res. 1. Concurrent resolution providing for an adjournment of the Senate and the House of Representatives.

## MEASURES REFERRED

The following concurrent resolution was read, and referred as indicated:

H. Con. Res. 2. Concurrent resolution providing for a conditional adjournment of the House from January 8 to January 20, 1987; to the Committee on Appropriations.

## EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate together with accompanying papers, reports, and documents, which were referred as indicated:

EC-1. A communication from the Assistant Secretary of Health and Human Services (Health) and the Assistant Secretary of Agriculture (Science and Education), transmitting jointly, pursuant to law, the fourth progress report on the Human Nutrition Research and Information Management System; to the Committee on Agriculture, Nutrition, and Forestry.

EC-2. A communication from the Assistant Secretary of Defense (Comptroller), transmitting, pursuant to law, a report on the transfer of certain DOD funds; to the Committee on Appropriations.

EC-3. A communication from the Secretary of Defense, transmitting, pursuant to law, a report on a violation of law involving the overobligation of funds in excess of approved appropriations; to the Committee on Appropriations.

EC-4. A communication from the Deputy Assistant Secretary of Defense (Administration), transmitting, pursuant to law, notice of the intention of the Department of the Air Force to exercise the provision of law providing for the exclusion of the clause concerning examination of records by the Comptroller General, to the Committee on Armed Services.

EC-5. A communication from the Deputy Assistant Secretary of the Air Force (Logistics and Communications), transmitting, pursuant to law, a report on the conversion of the grounds maintenance function at Offutt Air Force Base, Nebraska, to performance by contract; to the Committee on Armed Services.

EC-6. A communication from the Acting Director of the Selective Service System, transmitting, pursuant to law, the semiannual report of the Selective Service System

for April 1, 1986 through December 30, 1986; to the Committee on Armed Services.

EC-7. A communication from the Secretary of Housing and Urban Development, transmitting, pursuant to law, the annual report on the Rental Rehabilitation Program for fiscal year 1986; to the Committee on Banking, Housing, and Urban Affairs.

EC-8. A communication from the Secretary of Transportation, transmitting, pursuant to law, a report under the Motor Carrier Safety Act regarding safety-related devices; to the Committee on Commerce, Science, and Transportation.

EC-9. A communication from the Secretary of the Interior, transmitting, pursuant to law, the annual report under the Alaska National Interest Lands Conservation Act for fiscal year 1986; to the Committee on Energy and Natural Resources.

EC-10. A communication from the Comptroller General of the United States, transmitting, pursuant to law, a report entitled "Export Controls—Assessment of Commerce Report on Extending Controls for South Africa"; to the Committee on Banking, Housing, and Urban Affairs.

EC-11. A communication from the Secretary of Commerce, transmitting, pursuant to law, a report of a study entitled "The Domestic Mining and Processing Industries"; to the Committee on Energy and Natural Resources.

EC-12. A communication from the Administrator of the Environmental Protection Agency, transmitting, pursuant to law, the "Long Range Research Agenda for 1987-1991"; to the Committee on Environment and Public Works.

EC-13. A communication from the Administrator of the Environmental Protection Agency, transmitting, pursuant to law, a report on Waste Minimization; to the Committee on Environment and Public Works.

EC-14. A communication from the Secretary of Health and Human Services, transmitting, pursuant to law, a report on the experience of the Department in implementing the Medicare Hospice Benefit; to the Committee on Finance.

EC-15. A communication from the Secretary of Labor, transmitting, pursuant to law, a report on the Expenditure and Need for Worker Adjustment Assistance Training Funds under the Trade Act of 1974; to the Committee on Finance.

EC-16. A communication from the Administrator of the Agency for International Development, transmitting, pursuant to law, a report on the Agency's Use of Private and Voluntary Organizations, Cooperatives, and the Private Sector; to the Committee on Foreign Relations.

EC-17. A communication from the Assistant Secretary of the Treasury (Legislative Affairs), transmitting, pursuant to law, a report on the impact of IMF-supported economic adjustment programs implemented during 1985 on the provision of basic human needs in program countries; to the Committee on Foreign Relations.

EC-18. A communication from the Assistant Secretary of State (Legislative and Intergovernmental Affairs), transmitting, pursuant to law, travel advisories recently issued by the Department for Chile and Suriname; to the Committee on Foreign Relations.

EC-19. A communication from the Assistant Legal Advisor for Treaty Affairs, Department of State, transmitting, pursuant to law, a report on international agreements, other than treaties, entered into by the United States in the sixty day period

prior to October 31, 1986; to the Committee on Foreign Relations.

EC-20. A communication from the Assistant Legal Advisor for Treaty Affairs, Department of State, transmitting, pursuant to law, a report on international agreements, other than treaties, entered into by the United States in the sixty day period prior to October 21, 1986; to the Committee on Foreign Relations.

EC-21. A communication from the District of Columbia Auditor, transmitting, pursuant to law, a report entitled "Review of the D.C. Energy Office's Operation and Programs Pursuant to D.C. Law 3-132"; to the Committee on Governmental Affairs.

EC-22. A communication from the Comptroller General of the United States, transmitting, pursuant to law, a list of reports issued by the General Accounting Office in September 1986; to the Committee on Governmental Affairs.

EC-23. A communication from the Chairman of the Council of the District of Columbia, transmitting, pursuant to law, copies of D.C. Act 6-217, adopted by the Council on October 7, 1986; to the Committee on Governmental Affairs.

EC-24. A communication from the District of Columbia Auditor, transmitting, pursuant to law, a report entitled "Review of Public Law 96-122 on the Method of Computation Used to Determine Survivor Benefits for Police and Firefighters"; to the Committee on Governmental Affairs.

EC-25. A communication from the Secretary of the Postal Rate Commission, transmitting, pursuant to law, notice of the filing of a proposed increase of maximum size limits for carrier route third-class mail; to the Committee on Governmental Affairs.

EC-26. A communication from the Vice President of the Farm Credit Services (Personnel and Benefits), transmitting, pursuant to law, the Twelfth District Farm Credit Retirement and Thrift Plan for Plan Year 1985; to the Committee on Governmental Affairs.

EC-27. A communication from the Special Counsel of the Merit Systems Protection Board, transmitting, pursuant to law, the report of the Secretary of the Navy on the investigation into allegations of mismanagement, gross waste of funds, and danger to public safety in the construction of an electrical power substation at Moffett Field, California; to the Committee on Governmental Affairs.

EC-28. A communication from the Deputy Assistant Secretary of Agriculture (Natural Resources and Environment), transmitting, pursuant to law, a report on a new Privacy Act system of records; to the Committee on Governmental Affairs.

EC-29. A communication from the Special Counsel of the Merit Systems Protection Board, transmitting, pursuant to law, a report of the Secretary of Agriculture setting forth findings and conclusions of the Secretary's investigation into allegations of falsification of travel reimbursement claims and leave records; to the Committee on Governmental Affairs.

EC-30. A communication from the Director of the Office of Personnel Management, transmitting, pursuant to law, the fiscal year 1984 Compensation Report; to the Committee on Governmental Affairs.

EC-31. A communication from the Deputy Director of the Office of Workers' Compensation Programs, Department of Labor, transmitting, pursuant to law, notice of a proposed computer matching program; to the Committee on Governmental Affairs.

EC-32. A communication from the Vice President of the Farm Credit Banks of Springfield (Human Resources), transmitting, pursuant to law, the annual report for the Farm Credit Banks of Springfield Retirement Plan for plan Year April 1, 1985 through March 31, 1986; to the Committee on Governmental Affairs.

EC-33. A communication from the Secretary of the Interior, transmitting, pursuant to law, the annual report on actions taken to recruit and train Indians to qualify them for positions subject to Indian preference for fiscal year 1985; to the Select Committee on Indian Affairs.

EC-34. A communication from the Adjutant General of the Military Order of the Purple Heart, transmitting, pursuant to law, the annual audit report of the Order for the year ended June 30, 1986; to the Committee on the Judiciary.

EC-35. A communication from the National Treasurer of the American Gold Star Mothers, Inc., transmitting, pursuant to law, the annual audit report of American Gold Star Mothers, Inc. for the year ended June 30, 1986; to the Committee on the Judiciary.

S. 168. A bill to amend titles XVIII and XIX of the Social Security Act to provide that clinical social worker services are covered under part B of Medicare and are a mandatory benefit under Medicaid, and for other purposes; to the Committee on Finance.

By Mr. RIEGLE:

S. 169. A bill to provide Federal grants to States for programs to identify and aid individuals who have been exposed to the drug diethylstilbestrol (DES); to the Committee on Labor and Human Resources.

S. 170. A bill to amend title II of the Social Security Act to repeal the separate definition of disability presently applicable to widows and widowers, and to provide in turn that the months of a widow's or widower's entitlement to SSI benefits on the basis of disability may be used in establishing his or her entitlement to medicare benefits on that basis; to the Committee on Finance.

S. 171. A bill to amend title II of the Social Security Act to extend the benefits of the delayed retirement credit to surviving spouses and surviving divorced spouses who work and whose widow's or widower's insurance benefits are higher than their old-age insurance benefits; to the Committee on Finance.

S. 172. A bill to amend title II of the Social Security Act to extend the benefits of the delayed retirement credit to surviving spouses and surviving divorced spouses who work and whose widow's or widower's insurance benefits are higher than their old-age insurance benefits; to the Committee on Finance.

S. 173. A bill to amend title II of the Social Security Act to provide that upon the death of one member of a married couple the surviving spouse or surviving divorced spouse shall automatically inherit the deceased spouse's earnings credits to the extent that such credits were earned during the period of their marriage; to the Committee on Finance.

S. 174. A bill to amend title II of the Social Security Act to provide that the combined earnings of a husband and wife during the period of their marriage shall be divided equally and shared between them for benefit purposes if they become divorced and either of them so elects; to the Committee on Finance.

S. 175. A bill to amend title II of the Social Security Act to provide that an individual's "years of coverage" for purposes of computing the special minimum benefit may include up to 10 additional years—not otherwise includible for that purpose—in which such individual had a child age 6 or under in his or her care; to the Committee on Finance.

S. 176. A bill to amend title XVIII of the Social Security Act to waive the late enrollment penalty under Medicare part B for any disabled individual who was covered under his own or his spouse's private employment-related health insurance; to the Committee on Finance.

S. 177. A bill to provide for a system of cost sharing for health care and uncompensated care, and for other purposes; to the Committee on Finance.

By Mr. RIEGLE (for himself and Mr. CRANSTON):

S. 178. A bill to amend the Social Security Act to provide for improved procedures with respect to disability determinations and continuing disability reviews and to modify the program for providing rehabilitation serv-

ices determined under such act to be under a disability, and for other purposes; to the Committee on Finance.

By Mr. SIMON (for himself and Mr. MOYNIHAN):

S. 179. A bill to amend the Federal Election Campaign Act of 1971 to provide for the public financing of Senate general election campaigns; to the Committee on Rules and Administration.

By Mr. RIEGLE:

S. 180. A bill to establish a Department of International Trade and Industry as an executive department of the Government of the United States, and for other purposes; to the Committee on Governmental Affairs.

S. 181. A bill entitled the "Public Safety Officers' Death Benefits Amendments of 1987"; to the Committee on the Judiciary.

S. 182. A bill to amend title 3, United States Code, and the Uniform Time Act of 1966 to establish a single poll closing time in the continental United States for Presidential general elections; to the Committee on Rules and Administration.

S. 183. A bill to provide for a program for the provision of child care services in public housing projects; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. DODD (for himself and Mr. WEICKER):

S. 184. A bill to provide economic assistance to the Central American democracies, and for other purposes; to the Committee on Foreign Relations.

By Mr. BURDICK (for himself, Mr. MOYNIHAN, Mr. BENTSEN, Mr. BAUCUS, Mr. LAUTENBERG, Mr. BREAUX, Ms. MIKULSKI, Mr. REID, Mr. STAFFORD, Mr. SYMMS, Mr. WILSON, and Mr. CHAFEE):

S. 185. A bill to authorize appropriations for certain highways in accordance with title 23, United States Code, and for other purposes; to the Committee on Environment and Public Works.

By Mr. RIEGLE:

S. 186. A bill to establish a national trade information policy, the Council on Trade Information, the U.S. Trade Data Bank, and for other purposes; to the Committee on Governmental Affairs.

By Mr. MELCHER:

By Mr. PRESSLER:

S.J. Res. 15. Joint resolution designating the month of November 1987 as "National Alzheimer's Disease Month"; to the Committee on the Judiciary.

By Mr. RIEGLE:

S.J. Res. 16. Joint resolution to designate the period commencing on April 5, 1987, and ending on April 11, 1987, as "World Health Week", and to designate April 7, 1987, as "World Health Day"; to the Committee on the Judiciary.

S.J. Res. 17. Joint resolution to designate the period commencing on April 19, 1987, and ending on April 25, 1987, as "National DES Awareness Week"; to the Committee on the Judiciary.

### SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. BYRD:

S. Res. 1. Resolution informing the President of the United States that a quorum of each House is assembled; considered and agreed to.

S. Res. 2. Resolution informing the House of Representatives that a quorum of the Senate is assembled; considered and agreed to.

By Mr. BYRD (for himself and Mr. THURMOND):

S. Res. 3. Resolution to elect John C. Stennis, a Senator from the State of Mississippi, to be President pro tempore of the Senate of the United States; considered and agreed to.

By Mr. BYRD:

S. Res. 4. Resolution notifying the President of the United States of the election of a President pro tempore; considered and agreed to.

By Mr. BYRD (for himself and Mr. DOLE):

S. Res. 5. Resolution congratulating John C. Stennis, a Senator from the State of Mississippi, on his election as President pro tempore of the United States Senate; considered and agreed to.

By Mr. BYRD:

S. Res. 6. Resolution notifying the House of Representatives of the election of a President pro tempore of the Senate; considered and agreed to.

S. Res. 7. Resolution electing Walter J. Stewart as Secretary of the Senate; considered and agreed to.

S. Res. 8. Resolution notifying the President of the United States of the election of a Secretary of the Senate; considered and agreed to.

S. Res. 9. Resolution notifying the House of Representatives of the election of a Secretary of the Senate; considered and agreed to.

By Mr. BYRD (for himself, Mr. INOUE, and Mr. MATSUNAGA):

S. Res. 10. Resolution electing Henry Kuualoha Giugni as the Sergeant-at-Arms and Doorkeeper of the Senate; considered and agreed to.

By Mr. BYRD:

S. Res. 11. Resolution electing David J. Pratt as Secretary for the Majority of the Senate; considered and agreed to.

By Mr. DOLE:

S. Res. 12. Resolution electing Howard Greene as Secretary for the Minority of the Senate; considered and agreed to.

By Mr. BYRD:

S. Res. 13. Resolution fixing the hour of daily meeting of the Senate; considered and agreed to.

S. Res. 14. Resolution to amend paragraph 2 and 3 of Rule XXV; considered and agreed to.

S. Res. 15. Resolution to amend paragraph 4 Rule XXV of the Standing Rules of the Senate; considered and agreed to.

By Mr. DOLE:

S. Res. 16. Resolution to amend paragraph 4 of Rule XXV of the Standing Rules of the Senate; considered and agreed to.

By Mr. BYRD:

S. Res. 17. Resolution making majority party appointments to Senate committees for the 100th Congress; considered and agreed to.

By Mr. DOLE:

S. Res. 18. Resolution making minority party appointments to Senate committees for the 100th Congress; considered and agreed to.

By Mr. BYRD:

S. Res. 19. Resolution making majority party appointments to Senate committees in paragraph 3(a), (b), and (c) of Rule XXV; considered and agreed to.

By Mr. DOLE:

S. Res. 20. Resolution making minority party appointments to Senate committees for the 100th Congress and designating ranking members of such committees; considered and agreed to.

By Mr. BYRD (for himself, Mr. DOLE, Mr. GLENN, Mr. BOND, and Mr. SANFORD):

S. Res. 21. Resolution expressing the Senate's gratitude for the President's excellent health and best wishes for his speedy recovery; considered and agreed to.

By Mr. BYRD (for himself, Mr. SARBANES, Ms. MIKULSKI, and Mr. DOLE):

S. Res. 22. Resolution commending the community of Chase, Maryland for its assistance to the rescue workers and the survivors of the Amtrak train accident of January 4, 1987; considered and agreed to.

By Mr. BYRD (for himself, Mr. DOLE, and Mr. INOUE):

S. Res. 23. Resolution establishing a select committee of the Senate to conduct an investigation and study of activities by the National Security Council and other agencies of the United States Government with respect to the direct or indirect sale, shipment, or other provision of arms to Iran and the use of the proceeds from any such transaction to provide assistance to any faction or insurgency in Nicaragua or in any other foreign country, or to further any other purpose, and related matters; submitted and read.

By Mr. BYRD:

S. Res. 24. Resolution to provide that substitute amendments be considered as first degree amendments under cloture; submitted and read.

S. Res. 25. Resolution to establish a procedure in order to overturn the Chair on ques-

tions of germaneness under cloture; submitted and read.

S. Res. 26. Resolution to limit legislative amendments to general appropriations bills; submitted and read.

S. Res. 27. Resolution to provide for germaneness or relevancy of amendments; submitted and read.

S. Res. 28. Resolution to waive reading of amendments under cloture; submitted and read.

S. Res. 29. Resolution to provide for electronic voting in the Senate; submitted and read.

By Mr. BYRD (for himself and Mr. DOLE):

S. Res. 30. Resolution to reauthorize and redesignate the Senate Arms Control Observer Group; considered and agreed to.

By Mr. BYRD (for himself, Mr. DOLE, Mr. HUMPHREY, Mr. MOYNIHAN, Mr. BURDICK, Mr. KASTEN, Mr. METZENBAUM, Mr. TRIBLE, Mr. THURMOND, Mr. HELMS, Mr. ROCKEFELLER, Mr. BENTSEN, Mr. ZORINSKY, and Mr. HECHT):

S. Res. 31. Resolution expressing the sense of the Senate with respect to the situation in Afghanistan; considered and agreed to.

By Mr. DOLE:

S. Res. 32. Resolution designating Robert B. Dove as a Parliamentary Emeritus; considered and agreed to.

By Mr. BYRD (for himself, Mr. DOLE, Mr. FORD, and Mr. STEVENS):

S. Res. 33. Resolution to provide for the payment of severance pay to certain displaced Senate committee employees and to authorize payment for accumulated leave to certain terminated employees in offices of Senators who have ceased to serve as Members of the Senate; considered and agreed to.

S. Res. 34. Resolution relating to legislative assistance for Senators; considered and agreed to.

By Mr. BYRD (for himself and Mr. DOLE):

S. Res. 35. Resolution relating to the reappointment of Michael Davidson as Senate Legal Counsel; considered and agreed to.

By Mr. INOUE:

S. Res. 36. Resolution to refer S. 108 entitled "A bill for the relief of Walter Chang" to the Chief Judge of the United States Claims Court for a report thereon; to the Committee on the Judiciary.

By Mr. GLENN:

S. Res. 37. Resolution expressing the sense of the Senate that the President should encourage foreign governments to ratify, accept, or approve the Convention on the Physical Protection of Nuclear Materials; to the Committee on Foreign Relations.

By Mr. MOYNIHAN:

S. Res. 38. Resolution establishing a Special Committee on Families, Youth, and Children; to the Committee on Rules and Administration.

By Mr. DODD (for himself and Mr. SPECTER):

S. Res. 39. Resolution establishing a Special Committee on Young Americans and Families; to the Committee on Rules and Administration.

By Mr. BYRD:

S. Res. 40. Resolution to provide for electronic voting in the Senate; to the Committee on Rules and Administration.

S. Res. 41. Resolution to provide for germaneness or relevancy of amendments; to the Committee on Rules and Administration.

S. Res. 42. Resolution to limit legislative amendments to general appropriations bills; to the Committee on Rules and Administration.

S. Res. 43. Resolution to establish a procedure in order to overturn the Chair on questions of germaneness under cloture; to the Committee on Rules and Administration.

S. Res. 44. Resolution to provide that substitute amendments be considered as first degree amendments under cloture; to the Committee on Rules and Administration.

S. Res. 45. Resolution to waive reading of amendments under cloture; to the Committee on Rules and Administration.

By Mr. DOLE (for himself, Mr. WALLOP, Mr. GRASSLEY, Mr. QUAYLE, Mr. ROTH, Mr. DURENBERGER, Mr. KASTEN, Mr. SYMMS, Mr. RUDMAN, Mr. HATCH, Mr. TRIBLE, Mr. BOND, Mr. GRAMM, Mr. HECHT, Mr. ARMSTRONG, Mr. WILSON, Mr. STEVENS, Mr. D'AMATO, Mr. THURMOND, Mr. SIMPSON, Mr. NICKLES, Mr. COCHRAN, Mr. DOMENICI, and Mrs. KASSEBAUM):

S. Res. 46. Resolution expressing the sense of the Senate regarding tax rates; to the Committee on Finance.

By Mr. FORD:

S. Res. 47. Resolution referring S. 262 to the Chief Commissioner of the United States Court of Claims; to the Committee on the Judiciary.

By Mr. THURMOND:

S. Res. 48. Resolution proposing a Senate Rule with respect to the impeachment of convicted felons; to the Committee on Rules and Administration.

By Mr. MOYNIHAN:

S. Res. 49. Resolution to establish a Commission on Senate Operations and Fiscal Procedures to make recommendations for improving the budget process; to the Committee on Rules and Administration.

S. Res. 50. Resolution in support of Canadian-American Comprehensive Trade Negotiations; to the Committee on Finance.

S. Res. 51. Resolution in support of Japanese-American "MOSS" Auto Parts Negotiations; to the Committee on Finance.

By Mr. LAUTENBERG (for himself, Mr. DODD and Mr. DIXON):

S. Res. 52. Resolution to express the sense of the Senate regarding the Urban Development Action Grant Program; to the Committee on Appropriations.

S. Res. 53. Resolution to express the sense of the Senate regarding the Community Development Block Grant Program; to the Committee on Appropriations.

By Mr. BYRD:

S. Con. Res. 1. Concurrent resolution providing for an adjournment of the Senate and the House of Representatives; considered and agreed to.

By Mr. PRESSLER:

S. Con. Res. 2. Concurrent resolution expressing the sense of the Congress regarding the need for the negotiation of an international agricultural conservation reserve treaty; to the Committee on Foreign Relations.

By Mr. MOYNIHAN:

S. Con. Res. 3. Concurrent resolution to encourage the Congress to ensure that sufficient funds are provided under title I of the Elementary and Secondary Education Act of 1965, as modified by chapter 1 of the Education Consolidation and Improvement Act of 1981, to meet the needs of all eligible educationally disadvantaged students; to the Committee on Labor and Human Resources.

S. Con. Res. 4. Concurrent resolution relating to tax-exempt 501(c)(3) bonds; to the Committee on Finance.

By Mr. GORE:

S. Con. Res. 5. Concurrent resolution to request the President to take appropriate actions toward the establishment of a cooperative international research program with respect to the greenhouse effect; to the Committee on Foreign Relations.

By Mr. HUMPHREY:

S. Con. Res. 6. Concurrent resolution expressing the sense of the Congress with respect to the denial of health insurance coverage for disabled adopted children; to the Committee on Labor and Human Resources.

## STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. CRANSTON (for himself, Mr. GLENN, Mr. METZENBAUM and Mr. KERRY):

S. 3. A bill to amend title II of the Social Security Act to provide that the combined earnings of a husband and wife during the period of their marriage shall be divided equally and shared between them for benefit purposes, so as to recognize the economic contribution of each spouse to the marriage and ensure that each spouse will have Social Security protection in his or her own right; to the Committee on Finance.

### SOCIAL SECURITY EQUITY ACT

Mr. CRANSTON. Mr. President, I am pleased to introduce S. 3, the proposed "Social Security Equity Act of 1987," which is identical to legislation I introduced in the past three Congresses—S. 3 in the 98th and 99th Congresses, and S. 3034 in the 97th Congress. This measure would incorporate the concept of "earning sharing" into the Social Security system. I am joined in sponsoring this legislation by the distinguished Senator from Ohio [Mr. GLENN], who served in the past several Congresses as the ranking minority member of the Senate Special Committee on Aging as well as the Senator from Ohio [Mr. METZENBAUM], and the Senator from Massachusetts [Mr. KERRY].

S. 3 is similar to earnings-sharing legislation which has been introduced in the House in past Congresses by Representative MARY ROSE OAKAR, who has served as the chair of that body's Select Committee on Aging's Task Force on Social Security and Women. Representative OAKAR has been a tremendous leader in the effort to reform the Social Security system in a manner that would adequately and equitably deal with the needs of older women. It is a great pleasure to continue to work closely with Representative OAKAR on this legislation, as well as on pay-equity legislation, S. 5, which I am also introducing today.

Mr. President, the basic concept underlying earnings sharing is relatively simple: marriage for Social Security purposes should be and would be re-

garded as a partnership. In order to compute benefits, all of the earnings of a married couple would be combined and divided equally between the spouses upon retirement or divorce. Each member of the couple would then have established for him or her an individual Social Security account. Earnings acquired before or after a marriage would go into this individual account along with whatever share each member acquired during marriage.

Mr. President, to understand the need for reform, it is necessary to understand the conditions of poverty and dependency which face millions of older women in our society and how the present system of determining Social Security benefits contributes to these and other problems.

#### OLD AGE AND POVERTY

Poverty in this country among elderly individuals is principally a problem afflicting women. Although women constitute about 60 percent of the aged population in 1984, they account for more than 71 percent of the elderly poor. In 1984, more than 2.3 million older women had incomes below the poverty line. The poverty rate of elderly women was 15 percent in 1984, compared to the 9-percent rate for older men. For unmarried elderly women—the poverty rate has exceeded 25 percent.

A 1984 report issued by the Women's Research and Education Institute [WREI] of the Congressional Caucus for Women's Issues, "Older Women: The Economics of Aging," succinctly summarizes the data which explain, in part, the reasons for this disproportionate representation of women among the elderly poor.

#### ELDERLY WOMEN LIKELY TO BE DEPENDENT ON SOCIAL SECURITY

First, Mr. President, women are far more likely than men to be almost totally dependent upon Social Security for income in their old age. Since Social Security was never intended to meet all of the financial needs of a retiree, Social Security alone seldom provides more than a marginal standard of income.

According to the WREI report, in 1982, only 19 percent or less than 1 in 5 older women had any income from pensions and/or annuities, and only 13 percent of the unmarried elderly women received private pensions in contrast to 33 percent of married couples and 24 percent of unmarried men. Typically, these private pension benefits were low, especially those received by women who retired after years of working at low paying jobs or by women who, as surviving spouses, received reduced benefits from their deceased husband's pension plans.

Interest from assets, such as savings, provide only a minor source of income for many elderly persons, particularly for unmarried elderly women. In 1982,

for example, the median income received by elderly persons from all assets amounted to only \$1,540.

The importance of Social Security to elderly women is demonstrated by the fact that, according to the 1982 data, nearly three quarters of all unmarried women are dependent on Social Security for at least half of their total income. For almost 40 percent of them, it represents 90 percent or more of their total income. For 1.7 million of these women, Social Security represented 100 percent of their income. In contrast, only 17 percent of married couples and only 27 percent of unmarried males relied upon Social Security for 90 percent or more of their income.

As I will discuss in a moment, this dependence upon Social Security as the major source of their income by elderly women—especially elderly women living alone—when combined with the generally lower Social Security benefits received by these women is a key factor in the disproportionate representation of these women in the poverty population.

#### ELDERLY WOMEN LIKELY TO LIVE ALONE

Second, Mr. President, elderly women are far more likely than elderly men to be living alone in their old age. Only 40 percent of elderly women live with their husbands, about 20 percent live with other people—mostly family members—and more than 40 percent live alone. Among women over age 75, the percentage living with a husband drops to less than one-fourth and the percentage living alone increases to nearly one-half. These statistics and the likelihood that a woman will be alone in old age arise from higher male mortality rates coupled with the tendency of men to marry younger women. An elderly man is far more likely to be living with a wife: 7 of every 10 men aged 75 and older is living with a spouse while nearly 7 of every 10 women is a widow. Even at the younger ages, the difference in marital status is striking. Of those between age 65 and 74, almost 40 percent of the women are widowed compared to less than 10 percent of the males. Remarriage rates for these men are vastly higher than for women. As I indicated earlier, those elderly women living alone are far more likely to be poor than elderly women living with a spouse.

#### WOMEN'S SOCIAL SECURITY BENEFITS LIKELY TO BE LOWER

Third, although so many elderly women living alone depend upon Social Security as their principal and sometimes only source of income, their benefits are dramatically lower than the average benefits received by men. In 1982, nearly 4.5 million women were receiving Social Security benefits as widows based upon age—rather than because of disability or the presence of dependent children. Their benefits averaged \$379 per month which, if it

were the only or primary source of income wasn't very much in 1982. Another 3 million beneficiaries were wives of retired workers receiving a dependent spouse average monthly benefit of \$213. In the event that these wives become widows, their monthly benefit would double to \$416. The picture for divorced wives was even bleaker. Their benefits averaged \$177 a month. For retired workers, the average benefit for women in 1982 was \$335; for men, \$438. More recent data show little change in these disparities. In 1985, the average benefit for retired female workers was \$399; for men, \$521.

#### ELDERLY WOMEN PREDOMINATE IN NEAR-POVERTY STATUS

Finally, although the disproportionate poverty status of elderly women frequently has drawn the most attention because of its staggering nature, the situation is equally grim for millions of elderly women just above the poverty line—which was \$4,770 for individuals 65 and over in 1983. As of 1983, older women had a median personal income of \$5,599 compared to the median income of \$9,766 for older men. When the median income figures are broken down to show income distributions, an even more grim picture emerges. Forty-five percent of these women, or nearly 1 in every 2 had incomes of less than \$5,000 in 1983; less than 1 in 5 men fell into this category. The 1984 statistics show a similar pattern. The 1984 median income for elderly women was \$6,020—about 58 percent of that for elderly men—\$10,450.

Mr. President, in every income category—whether it is private pensions, asset income, or Social Security—older women have dramatically fewer resources and less income in old age than do men. There are, of course, many factors which contribute to the economic hardships that face women in their retirement years. A lifetime of wage discrimination and pay inequities contribute enormously to these problems in old age—and there is a real need to do something further about eliminating those factors. That is the goal of the proposed "Pay Equity Act of 1987," S. 5, which I am also introducing today. But there is little question that a major contributing factor lies in the failure of the present Social Security benefit structure to take into account the changing roles and needs of American women.

#### HISTORICAL PERSPECTIVE

Mr. President, much of the problem lies in the fact that the Social Security System was developed in an era when the role of women in our society was far different from what it is today. In the 1930's when the Social Security Program was created, the typical American family consisted of a man who was a full-time worker and his wife who was a full-time, lifelong

homemaker. The labor force participation of married women was less than 17 percent and fewer than 1 in 12 marriages ended in divorce. The Social Security benefit structure was thus established on the concept of a lifelong couple with one wage earner and a dependent spouse.

The situation has dramatically changed over the past 50 years and the "typical" family of the thirties and forties—even the fifties and sixties—is not the "typical" family of today. Women have become a major part of America's work force, enriching the world of work with their contributions and productivity, despite continuing wage discrimination and employment barriers. The percentage of married women in the work force exceeds 50 percent, and it has been estimated that 90 percent of all women spend some portion of their lives in the work force, many of them moving in and out of the roles of wage earners and homemakers as the needs of their families change. It is no longer true that women are likely to be either lifelong homemakers or lifelong wage earners; these roles are combined and interchanged throughout a lifetime.

Similarly, we must recognize, like it or not, that the status of marriage has changed dramatically over the past 50 years. Today, 1 of 3 marriages ends in divorce.

Mr. President, despite these massive changes in our society, the Social Security System has continued to operate on the basis of a philosophy designed for an era when most women did not work and when most women were part of a lifelong marriage. Consequently, the current system works well only for that very small number of women whose family and work patterns have not changed from the 1930's and 1940's. For the vast majority of women and families that no longer fit into that pattern, the system fails to provide either adequately or equitably for their needs.

#### CURRENT BENEFIT STRUCTURE

Under the current system, a woman can receive benefits as a covered worker based upon her own earnings record or she can receive benefits as a dependent wife, widow, or ex-wife of a covered worker, but she cannot receive both benefits. If she is entitled to both a worker's benefit and a dependent spouse's benefit, she receives only the higher of the two benefits and loses the other.

#### DEPENDENT SPOUSE BENEFIT

A dependent spouse benefit is equal to 50 percent of the benefit of the working spouse. Because many women have gaps in their work history due to absences from the workplace for child-care responsibilities and generally have much lower earnings records, many find that their benefits as a dependent spouse are greater than the benefits they would be entitled to re-

ceive on the basis of their own work history. Thus, many married women who enter the work force and make contributions to the Social Security System find that their years of work and contributions make little or no difference in their benefit levels. They are no better off than if they had never worked and never paid into the Social Security System.

#### DIVORCED OR WIDOWED SPOUSE BENEFITS

Mr. President, the inequities of the current system can be even more acute for those women who have been full-time homemakers and are displaced from that role either by divorce or the death of a spouse. After years of work as a homemaker in a marriage, a divorced woman may find herself without any work record of her own and eligible for Social Security benefits only as a dependent spouse. Although she may be of retirement age, she cannot receive any Social Security benefits unless the marriage lasted 10 years. Until enactment of the 1983 Social Security Amendments, she could not receive benefits until her former spouse reached age 62 and if he elected to continue working, she would receive no benefits at all until he retired or died. Fortunately, that particular inequity was corrected in the 1983 legislation, allowing these women of retirement age with at least a 10-year marriage to receive benefits regardless of whether the former spouse continued working.

However, the benefits received by a divorced spouse are likely to be woefully inadequate. The level of the dependent spouse benefit—50 percent of the primary benefit—was geared toward the notion of women whose marriages do not end in divorce and who will be able to rely upon a combination of their husband's 100-percent benefits and the additional 50-percent spouse benefit—in other words, 150 percent of the primary benefit. The spouse benefit by itself may well be insufficient to live on alone.

A widow is equally vulnerable under the present system. Unless she has been able to establish a sufficient Social Security account in her own name, she will be dependent upon the work and earnings record of her deceased spouse. Unable to build up sufficient credits in her own account and unable to add his credits to her account to the extent of her earnings after his death, she is likely to be left with a benefit level that condemns her to entering retirement in poverty.

#### ONE-WAGE EARNER VERSUS TWO-WAGE EARNER FAMILIES

The current system also discriminates against intact families with two wage earners as contrasted with one-wage earner families. Under the benefit calculation formula, a two-earner couple is likely to receive less benefits at retirement than a one-earner couple with exactly the same lifetime earn-

ings. Thus, one family with average monthly earnings of \$1,000 and one-wage earner can ultimately receive higher benefits from Social Security than another family with the exact same average earnings but with two wage earners contributing to the total family income. This occurs because of the dependent spouse benefit and because of the formula which is used to calculate benefits.

The 1979 HHS report, "Social Security and the Changing Roles of Men and Women," (page 32) described this problem as follows:

Since spouse's benefits are not payable to two-earner couples—unless one spouse has low average indexed monthly earnings (AIME)—a two-earner couple generally receives lower total benefits than a one-earner couple with the same total AIME. Benefits for two-earner couples with the same AIME can also vary dependent on the proportion of the total AIME earned by each spouse within the couple.

For example, a one-earner couple each age 62 in 1980 with AIME of \$1,000 would have a benefit of \$648—a worker's benefit of \$432 plus a spouse benefit of \$216. If each spouse had one-half of the earnings, the benefit would be \$544. Each would receive a worker's benefit of \$272.

The HHS report also observed that, as in the case of couples, the survivor of a two-earner couple generally gets a lower benefit than the survivor of a one-earner couple with the same total AIME. For example, the report noted, at AIME of \$1,000, the aged survivor's benefit is \$432 if only one spouse was a paid worker and only \$272—\$160 less—if each spouse had AIME of \$500—the same total earnings of \$1,000.

As I noted earlier, this results from the interplay of the dependent spouse benefit and the weighted benefit formula.

#### DISABILITY PROTECTION

Finally, a woman who spends years working in the home has no disability protection under Social Security for herself or her dependents even though her disability could cause grave economic hardships for her family. Even if she has recently returned to the work force and is currently earning Social Security credits, she may not yet have met the insured status requirements for disability benefits if she becomes disabled soon after she reenters the work force.

#### MARRIAGE ALSO AN ECONOMIC PARTNERSHIP

Mr. President, it is time that we begin the task of revising the Social Security System to recognize and reflect the changing roles and responsibilities of both men and women in our society and provide for a more equitable recognition of their contributions to a family unit.

Marriage, insofar as economics are concerned, should be viewed as an interdependent partnership in which each spouse makes a contribution—either in the paid work force or as a

homemaker or in some combination of roles—and both ought to accrue Social Security protection equally.

The view of female dependency which is a foundation of the present Social Security System belongs to a bygone era. Women today are achieving the status of equal partnership with men in every facet of our society. The Social Security System needs to be updated to reflect that partnership.

#### EARNINGS SHARING—A CONCEPT FOR TODAY'S MARRIAGE PARTNERSHIP

Mr. President, as I indicated at the outset, S. 3 would incorporate the concept of "earnings sharing" into the Social Security System. Marriage for Social Security purposes would be regarded as an economic partnership. In order to compute benefits, all of the earnings of a married couple would be combined and divided equally between the spouses upon retirement or divorce. Each partner would have established for him or her an individual Social Security account. Earnings acquired before or after a marriage would go into this individual account along with whatever share each partner acquired during marriage. The concept of dependency would be replaced by the concept of equality.

Although this is a major change from the current Social Security System of benefit accrual, it is a principle which is now applied in virtually every jurisdiction with respect to other assets acquired during a marriage. Upon the termination of a marriage, these other assets are generally divided equally between the husband and wife. It is similar to the concept of "community property" which has long existed in States like California. Interests in other pension programs are now generally considered part of the assets acquired during the marriage and are considered in the division of property between the couple upon the termination of the marriage. The same would be true if we incorporate the "earnings sharing" concept into the Social Security System. I think it is interesting to note, in this regard, that recently enacted Federal legislation has allowed these principles to be applied to military and civil service pensions.

There have, of course, been numerous proposals made to deal with the inequities and inadequacies of the current system. The "earnings-sharing" concept, however, has numerous advantages. It would eliminate the current discrimination against two-wage earner families. It would no longer be possible for them to receive less benefits than one-earner families with identical earnings records. It would recognize the value of the contribution of a homemaker and accord her a Social Security account in her own right. If divorce or death of a spouse should occur—and for a woman age 65 or older, the chances are very high

that she will confront one of these situations—a woman could build upon the separate account created for her during her years of marriage, rather than be forced to start from scratch in establishing a Social Security account.

Likewise, credits from earnings she receives prior to marriage will be able to be added to her account accrued during marriage. The same, of course, would be true for the husband. Women who enter and leave the work force to fill the necessary child-rearing roles would no longer be unfairly penalized by gaps in their Social Security coverage.

Mr. President, earnings sharing has repeatedly been identified as the most direct and equitable approach to dealing with the variety of different problems facing women under the current system. Although various interim and single-purpose measures have been proposed, the attractiveness of the earnings-sharing approach is that it would help to resolve many of these problems.

#### VARIATIONS WITHIN THE EARNINGS-SHARING CONCEPT

Obviously, however, a proposal such as earnings sharing which calls for a major restructuring of the Social Security benefit system involves many complex and important questions. No one has seriously proposed a "pure" earnings-sharing model. Such a model would be far too harsh on many individuals. Thus, every earnings-sharing model which has been put forward has represented a modified earnings-sharing concept. For example, the legislation that Representative OAKAR and I have introduced provides for 100-percent inheritance of a couple's combined benefits—up to the ceiling for the applicable years—for the surviving spouse.

Other proposals advanced—for example, the model contained in the 1979 report "Social Security and the Changing Roles of Men and Women"—have proposed variations such as an 80-percent inheritance provision. Virtually all models include provisions to address the need to provide adequate protection for dependent children of deceased workers and special provisions to deal with disabled workers.

#### COST IMPLICATIONS

There is widespread agreement that the earnings-sharing concept itself would not entail any additional costs for the Social Security System. Indeed, a pure earnings-sharing model would probably result in substantial cost savings. Most of the modified earnings-sharing proposals which have been developed would be cost neutral. They would simply reallocate benefits on a more equitable basis. However, it is also generally recognized that a transition from the current system to a new system would entail certain transitional costs designed to protect

various categories of beneficiaries from being unduly hurt during the transition period. What those costs would be depend in part upon how these transitional provisions are designed and the length of time for such a transition.

#### TRANSITION PERIOD

There are major decisions which must be made with respect to a transition period. Changes of this dimension and scope must be phased in over time so that individuals can make appropriate plans for their retirement years. The 1979 HHS report represented two models for a transition period. Representative OAKAR's legislation in past Congresses included the first model, which provides for a grandfathering of current benefits or benefits established under the earnings-sharing concept, whichever is greater until the year 2011. The other model proposed in the HHS report, providing for a lengthy delay in the effective date, is the one included in S. 3.

The Social Security changes proposed in S. 3 would not take effect with respect to any one over the age of 50 in 1988. Those under 50 would begin having Social Security accounts established and computed under this proposal henceforth. Because no one under age 50 could reach the minimum retirement age of 62 before 2000, no one under age 50 in 1988 would actually begin receiving benefits under this system until 2000 at the earliest. Different transition provisions are provided for individuals who might become eligible for Social Security disability benefits during this phase in. In no case, however, would a person who became disabled during this period ever receive less benefits as long as the disability continued than they would be entitled to under the old system.

Mr. President, each of the transition proposals presented in the HHS 1979 report are thus represented in the earnings-sharing measures which have been introduced in the Congress. I suspect, however, that a preferable approach lies somewhere in between the first option, the grandfathering of current benefits for a long period of time, and the second option, delaying the effective date of the new system. The complete grandfathering approach, although attractive from a beneficiaries perspective, would entail significant additional costs.

Conversely, although the second option of delaying the effective date would not have any additional cost implications, it would mean that none of the benefits of the new system would be realized by those women over age 50 who are rapidly approaching retirement. The need to develop a satisfactory transition mechanism was a major motivating factor behind my offering an amendment to the 1983

Social Security legislation directing HHS to prepare and submit to Congress a report on implementation of various models of earnings sharing in Social Security, including appropriate transition mechanisms.

#### 1983 REPORT AMENDMENT

Mr. President, because of the need for substantial indepth analysis of the modifications that would be needed in any earnings-sharing proposal and the necessity of providing for an adequate transition process, when the 1983 Social Security legislation was before the Senate, I offered an amendment, which was enacted as section 344 of Public Law 98-21, to require the Department of Health and Human Services to submit to the Congress a report on implementation of earnings sharing. At the time that I offered this amendment, I explicitly stated that the mandated report should not be viewed as a study of the problems facing women under the Social Security System, but rather it should be focused upon how an earnings-sharing concept could be implemented. At the time I offered the amendment (March 16, 1983, CONGRESSIONAL RECORD, daily ed. S3045), I stated:

I want to stress that this amendment does not call for another study. We did that in 1977. The 1977 social security amendments called for HHS to study the problems facing women under the social security system. The report developed as a result of the 1977 amendments presented the earnings-sharing model as one of two possible comprehensive approaches for dealing with these problems. \* \* \* What needs to be done now is to work out and test the details on how a specific earnings-sharing model can be implemented, and determine what type of transition provisions are needed and what modifications in the basic earnings-sharing concept are necessary in order to provide adequate protection for various categories of beneficiaries.

I should note also that the distinguished minority leader, the Senator from Kansas [Mr. DOLE], who was then chairman of the Senate Finance Committee and the floor manager of the Social Security bill, also made it clear in his statement accepting my amendment that he, too, recognized that the amendment was not—I stress not—calling for another study of the problems facing women in Social Security, but was focused upon advancing the concept of earnings sharing beyond the study stage. The amendment as enacted called for the Department to submit its report to Congress by July 1, 1984.

Unfortunately, Mr. President, the Department failed to submit the statutorily mandated report on the date it was due. Moreover, the report which was finally submitted in January 1985 was disappointing in a number of respects.

Despite the clear legislative mandate to provide an implementation report and analysis, HHS insisted on conduct-

ing a survey of the views of interested organizations on the problems facing women under the Social Security System. Representative OAKAR and I, as well as a number of interested organizations, objected strenuously to this diversion of time and resources from the statutorily mandated task given to HHS. This survey cost the Federal taxpayers some \$157,000 and basically provided no new insights into the issue. Some 100 pages of the final report are devoted to reviewing the results of the survey.

More importantly, Mr. President, the HHS report was disappointing in that HHS failed to design an earnings-sharing model or implementation plan. Instead of developing proposals and recommendations as was called for by the legislation, much of the report was devoted to critiquing existing earnings-sharing proposals—including an analysis of a so-called generic or pure earnings-sharing model. Since no one has seriously proposed that a pure earnings-sharing model be adopted, this analysis did little to advance the discussion of the earnings-sharing concept.

Consistently, the HHS report stressed the problems associated with implementation of earnings-sharing concepts and minimized or ignored the positive outcomes. For example, where its own statistics showed that nearly 54 percent of the elderly divorced women would get increased benefits under a modified earnings-sharing model, HHS described the outcomes as resulting in "some" divorced women getting increased benefits under this plan. In short, the HHS report betrays a pervasive negative approach to earnings sharing with little effort to identify constructive methods of dealing with the problems that transition to such a model would require.

#### CONGRESSIONAL BUDGET OFFICE REPORT

Mr. President, the 1983 amendment also provided for the Congressional Budget Office [CBO] to submit to Congress a report on the methodology, recommendations, and analyses used in the HHS report. CBO was not asked to provide recommendations itself, but simply to examine the HHS report. Nevertheless, there is little question that the CBO report has contributed significantly more to the understanding of the earnings-sharing concept than the HHS report.

First, the CBO report provides a neutral, unbiased, and concise description of earnings sharing and the benefits and disadvantages of attempting to implement this concept. Second, the CBO report placed some of the "loss" and "win" results in a more realistic perspective. For example, whereas the HHS report appeared almost to strain to suggest that significant numbers of Social Security recipients would not be benefited by earn-

ings sharing, the CBO report concluded that the measure used by HHS to define "winners" and "losers" under earnings sharing—a 1-percent increase or decrease in benefits—was too small a range to be meaningful in long-range projections. The CBO report pointed out that since there will be substantial real benefit growth regardless of whether or not an earnings-sharing model is adopted, even a 5-percent "loss," relative to current law, would still result in substantial increases in basic benefits. In general, CBO noted that the earnings-sharing model would provide the greatest help to low-benefit recipients—those women most likely to be in the greatest need of assistance. This latter fact is buried deep inside the HHS report.

#### TECHNICAL COMMITTEE REPORT

Mr. President, in addition to the work done by HHS and CBO, for the past several years, a number of organizations and individuals interested in the earnings-sharing concept have been developing an earnings-sharing proposal for Social Security. Supported by a variety of funding sources, this group, called the Technical Committee for Social Security Reform for Women, has painstakingly worked through and developed both a modified earnings-sharing model and transition plan. Microsimulations done by the Urban Institute, with support from the House Select Committee on Aging, have shown that the Technical Committee's model would not only provide greater equity, but would assure significantly higher benefits for those classes of women who receive the lowest benefits under current law.

Mr. President, it is my understanding that in the next few months the Technical Committee will complete its report and proposal for a Social Security earnings-sharing model. I am confident that once that report is released the debate around Social Security earnings sharing will be significantly advanced.

#### CONCLUSION

Mr. President, as I indicated earlier, earnings sharing in Social Security would represent a major reform which obviously cannot be implemented overnight. But such an effort must begin now so that future generations of women will be adequately and equitably treated under the Social Security System. Social Security is vital to the security and well-being of millions of Americans—current retirees and disabled persons and future ones. This country has a major obligation to protect the system. But equally important is the obligation to make sure that the system remains responsive to the changing needs and roles within our population.

Over the years, the Social Security System has grown and responded to

the changing needs in many ways, such as by the addition of disability coverage and the enactment of the Medicare Program. Earnings sharing is a concept that is part of that process of growth and responsiveness.

Mr. President, I ask unanimous consent that the full text of S. 3 be printed at this point in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

### S. 3

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Social Security Equity Act of 1987".

#### SEC. 2. SHARING OF EARNINGS BY MARRIED COUPLES.

(a) IN GENERAL.—Title II of the Social Security Act is amended by adding at the end the following new section:

##### "SHARING OF EARNINGS BY MARRIED COUPLES

"SEC. 234. (a)(1) For purposes of determining the eligibility of an individual and the spouse of such individual for old-age and disability benefits and the amount of such benefits to which each is or may become separately entitled, the combined earnings of such individual and such spouse shall, to the extent that such earnings are attributable to the marriage period of such individual and such spouse (as determined under paragraph (2)), be divided equally between them and shared in accordance with this section.

"(2)(A) Except as provided in subparagraph (B), for purposes of this section, the term 'marriage period' means the period—

"(i) beginning with the first day of the calendar year in which the marriage of an individual and the spouse of such individual occurs, and

"(ii) ending with the last day of the calendar year preceding the earliest calendar year in which such individual or such spouse dies, they are divorced, or one of them files application for old-age or disability insurance benefits.

"(B)(i) No marriage period shall begin for any individual and the spouse of such individual if their marriage occurs after such individual or such spouse has filed an application for old-age insurance benefits.

"(ii) No marriage period shall include a period for which such individual or such spouse is entitled to disability insurance benefits or the waiting period (as defined in section 223(c)(2)) with respect to such benefits.

"(iii) A marriage period shall include the 'earliest calendar year' referred to in clause (ii) of subparagraph (A) for purposes of recomputations for that year under section 215(f)(2), in any case where an individual or the spouse of such individual dies or they are divorced, unless the survivor (where one of them dies) or either of them (where they are divorced) is remarried later in the same year.

"(b)(1) Except to the extent otherwise provided in subsections (c), (d), and (e), an individual and the spouse of such individual shall each be credited for all of the purposes of this title with wages and self-employment income, for each calendar year for which either of them is credited with any wages and self-employment income without regard to this section during their marriage period, in an amount equal to—

"(A) 50 percent of the combined total of the wages and self-employment income otherwise credited to both of them for that year if (at the close of the month for which the benefit determinations involved are being made) they are both still living, or

"(B) 100 percent of such combined total, up to but not exceeding the maximum amount that may be counted for that year without exceeding the ceiling imposed for that year under section 215(e), if (at the close of such month) one of them has died.

"(2) Nothing in this section shall affect the crediting of wages and self-employment income to any individual for any calendar year not included in a marriage period of such individual; but to the extent that wages and self-employment income are credited pursuant to this section the other provisions of this title specifying the manner in which wages and self-employment income are to be credited shall (to the extent inconsistent with this section) not apply.

"(3) Except where the context requires otherwise, for purposes of this section, the term 'spouse' includes a divorced spouse, a surviving spouse, and a surviving divorced spouse.

"(c) Subsections (a) and (b) shall not apply with respect to the crediting of wages and self-employment income for any calendar year, in the case of any individual and the spouse of such individual, if—

"(1) as a result of the application of such subsections with respect to that year such individual or such spouse would cease to be a fully insured individual (as defined in section 314(a)); or

"(2) such individual or such spouse is applying for disability insurance benefits (or for the establishment of a period of disability) and as a result of the application of such subsections with respect to that year would cease to be insured for such benefits under section 223(c)(1) (or for such a period under section 216(i)(3)).

"(d) Subsections (a) and (b) shall not apply for purposes of determining the amount of the benefit payable to any individual for any month if—

"(1) the total amount of the wages and self-employment income credited to such individual for a marriage period, as determined without regard to this section, is higher than the total amount of the wages and self-employment income credited to such individual's spouse for that period, as so determined; and

"(2) such individual's spouse (taking subsections (a) and (b) into account) has not filed application for old-age or disability insurance benefits by the close of such month.

"(e) Notwithstanding any of the preceding provisions of this section—

"(1) benefits payable under subsection (d) or (h) of section 202 on the basis of the wages and self-employment income of any individual, and benefits payable under subsection (b), (c), (e), (f), or (g) of such section 202 (on the basis of such wages and self-employment income) to any person other than a spouse who has shared in or been credited with a part of such individual's earnings under subsections (a) and (b) of this section, shall be determined as though this section had not been enacted if—

"(A) the application of this section has changed such individual's primary insurance amount from what it would otherwise have been; and

"(B) the crediting of wages and self-employment income to such individual and the spouse of such individual without regard to this section would increase the amount of such benefits; and

"(2) in the application of section 203(a) (relating to maximum family benefits) with respect to benefits payable on the basis of the wages and self-employment income of any individual, where all or any part of the wages and self-employment income of such individual and the spouse of such individual was credited to them in accordance with this section, the primary insurance amount of such individual (and the crediting of such wages and self-employment income) shall be determined in accordance with this section but the benefits payable to any other person on the basis of the wages and self-employment income of such individual shall be determined without regard to this section.

"(f) Notwithstanding any other provision of this title, no wife's, husband's, widow's, or widower's insurance benefit shall be paid to any individual for any month under subsection (b), (c), (e), or (f) of section 202, and no individual shall be entitled to any such benefit, unless—

"(1) the period of such individual's marriage (to the spouse or former spouse on the basis of whose wages and self-employment income such benefit is payable) ended before the effective date of this section;

"(2) such individual is under the age of 62 (and is otherwise entitled to such benefit);

"(3) such benefit is payable without regard to age and solely by reason of such individual's having a child in his or her care; or

"(4) the application of this section to such individual is prevented by subsection (c) or (d), (or by clause (i) or (ii) of subsection (a)(2)(B)).

"(g) For purposes of subsections (a)(2) and (d), an individual's application for old-age or disability insurance benefits shall be deemed to have been filed on the first day of the first month for which (by reason of the operation of section 202(j) or 223(b)) such individual is entitled to such benefits."

##### (b) CONFORMING CHANGES.—

(1) Section 202(b)(1) of the Social Security Act is amended by striking out "The wife" and inserting in lieu thereof "To the extent permitted by section 234(g), the wife".

(2) Section 202(c)(1) of such Act is amended by striking out "The husband" and inserting in lieu thereof "To the extent permitted by section 234(g), the husband".

(3) Section 202(e)(1) of such Act is amended by striking out "The widow" and inserting in lieu thereof "To the extent permitted by section 234(g), the widow".

(4) Section 202(f)(1) of such Act is amended by striking out "The widower" and inserting in lieu thereof "To the extent permitted by section 234(g), the widower".

(5) Section 205(c)(5) of such Act is amended—

(A) by striking out "or" at the end of subclause (I);

(B) by striking out the period at the end of subclause (J) and inserting in lieu thereof a semicolon and "or"; and

(C) by adding at the end the following new subclause:

"(K) to reflect any changes in the crediting of wages and self-employment income which may be necessitated by section 234."

(6) Section 215(b) of such Act is amended by adding at the end the following new paragraph:

"(5) The determination of the wages and self-employment income to be credited to an individual under this subsection shall in all cases be made after the application of section 234."

## SEC. 3. EFFECTIVE DATE.

(a) **IN GENERAL.**—Except as provided in subsection (b), the amendments made by this Act shall apply only to wages and self-employment income payable after December 31, 1988, to an individual who has not attained age 50 on or before such date, and only if—

(1) the spouse of such individual has not attained age 50 on or before such date; and

(2)(A) in the case of a benefit based upon the attainment by the wage earner of age 62, such individual and such spouse attain age 62;

(B) in the case of a benefit based upon the death of the wage earner, such death occurs after December 31, 1988, and the individual claiming such benefit attains age 62; and

(C) in the case of a benefit described in subparagraph (A) or (B) with respect to a divorced individual and spouse, the divorce occurs after December 31, 2001.

(b) **BENEFITS BASED ON DISABILITY.**—In the case of a disability insurance benefit, and a widow's or widower's insurance benefit based upon disability—

(1) if an individual is entitled to such benefit before January 1, 1989, the provisions of this Act shall not apply—

(A) for the period for which such individual continues to be entitled to such benefit, and

(B) in the case of an individual who continues to be entitled to such benefit until age 62, for the period such individual is entitled to an old-age insurance benefit;

(2) if—

(A) an individual becomes entitled to such benefit after December 31, 1988, and before January 1, 2001; and

(B) the total benefits payable to all individuals on the basis of the wages and self-employment income of the individual upon whose disability such entitlement is based (determined without regard to the provisions of this Act) exceeds the total of benefits payable to all individuals on the basis of the wages and self-employment income of the individual upon whose disability such entitlement is based, and to the spouse of such individual, under the provisions of this Act.

the provisions of this Act shall not apply for the period during which the conditions of subparagraph (B) continue to be met and during which such individual (i) continues to be eligible for such benefit, or (ii) in the case of such an individual who continued to be eligible for such benefit until age 62, is entitled to an old-age insurance benefit.

By Mr. CRANSTON (for himself, Mr. RIEGLE, Mr. DODD, and Mr. KENNEDY):

S. 4. A bill to provide assistance and coordination in the provision of child care services for children living in homes with working parents, and for other purposes; to the Committee on Labor and Human Resources.

## CHILD CARE ASSISTANCE ACT OF 1987

Mr. CRANSTON. Mr. President, I am pleased to introduce S. 4, the proposed Child Care Assistance Act of 1987. This measure is based upon the legislation I first introduced in 1979 as S. 4, and have reintroduced in the past several Congresses. This legislation arose out of the recommendations and testimony presented during an extensive series of hearings which I chaired in 1977, 1978, and 1979 while I served

as the chairman of the Subcommittee on Child and Human Development of the Labor and Human Resources Committee. It has been shaped by consultations over the past several years with numerous organizations and individuals concerned about the need to provide adequate, affordable child care services to the millions of American families who need and desire such services in order for one or both parents to remain in or enter the labor force. The changes in the bill in each successive Congress represent continuous refinements of the initial proposal. The basic framework and purpose remain the same—to increase assistance to working families in need of child care services and to help assure that children in child care receive appropriate care and services.

I am pleased to be joined in introducing this measure by the distinguished Senator from Michigan [Mr. RIEGLE], who served with me on the Child and Human Development Subcommittee when this legislation was being developed and was an original cosponsor of S. 4 when it was first introduced in 1979, as well as the distinguished Senator from Connecticut [Mr. DODD], who served as the ranking minority member of the subcommittee of the Labor and Human Resources Committee which was the successor to the Child and Human Development Subcommittee and will serve as chairman of that subcommittee in the 100th Congress as well as serving as the cochairman of the Senate children's caucus, and the Senator from Massachusetts [Mr. KENNEDY], the new chairman of the Labor and Human Resources Committee, who has also been a strong supporter and cosponsor of this legislation in the past.

Mr. President, as I will discuss in a few moments, there are other child care initiatives which I will also be pursuing in the 100th Congress. Reintroduction of S. 4 on the first day of the 100th Congress is intended to make clear our continuing commitment to a comprehensive approach to dealing with a wide array of needs in the area of child care.

Mr. President, I am pleased to report that a companion bill to S. 4 will be introduced in the House of Representatives by my good friend and colleague from California, Representative EDWARD ROYBAL, who also introduced the companions to S. 4 in the House in the 96th, 97th, 98th, and 99th Congresses, H.R. 1211, H.R. 573, H.R. 1741, and H.R. 894, respectively. Ed ROYBAL has a longstanding and deep commitment to the issue of child care, and I am delighted to continue working with him to develop sound and realistic proposals to meet the growing need for American families for high quality, yet affordable, child care.

## BACKGROUND

Mr. President, during my prior three terms in the Senate, I have been deeply involved with issues relating to child care services for working parents. The lack of adequate child care is one of the most serious problems facing millions of families, and it serves as a major impediment to the attainment of economic security for countless numbers of women, children, and families.

As the chairman of the Child and Human Development Subcommittee, I chaired a series of hearings, both in Washington and in my own State of California, which focused upon the enormous and growing need for decent, affordable child care services for the millions of young children whose parents are in the work force.

During the past year, I held an extensive series of community forums throughout the State of California focused upon the child care crisis in my own State. At these community forums, I had the opportunity to meet with and hear the concerns of hundreds of Californians regarding the inadequacy of child care services.

Mr. President, it is not an exaggeration to say that what was once a major problem is now a major crisis. During the past 6 years under the Reagan administration, the Nation's inadequate supply of child care has deteriorated even further. At the same time that the Federal Government has reduced its funding for existing child care programs, the number of mothers of young children entering the labor force has continued to grow.

When I first began work on S. 4 in 1977, an estimated 50.7 percent of the mothers of children under age 18 and 40.9 percent of the mothers of children under age 6 were in the work force. By 1984, those numbers had increased to 65 percent and 52 percent, respectively. These figures translate to more than 9 million children under 6 and almost 15 million children between 6 and 13 whose mothers are employed. The 1985 figures reported by the Department of Labor showed that almost half—46.8 percent—of the mothers of children under age 1 and nearly two-thirds—65 percent—of those with children under the age of 3 were in the work force. The 1986 figures which will be released soon are expected to show a continued increase.

Indeed, it has been projected that by the year 1990 there will be 11.5 million children under the age of 6 and 17.2 million children between the ages of 6 and 13 whose mothers will be working. That represents an increase of almost 5 million children from the 24 million children under age 13 with mothers in the work force in 1984. A report just released by the Children's Defense Fund projects that if current trends continue, 34.4 million children over 6

will have a mother in the work force by 1995 and 14.6 million children under 6.

The data also indicate a wide disparity between the number of children with employed mothers and the number of available child care slots. The Department of Health and Human Services, in its last comprehensive reports issued in 1980 and 1981, has indicated that there were some 900,000 center-based and 5.2 million family day care places available. That's less than 1 place in 3 for the then 22 million under-age-13 children who had employed mothers. Reports from communities throughout the country show the situation has gotten worse, not better.

#### WHERE ARE THE CHILDREN AND WHAT IS HAPPENING TO THEM

What is happening to the two-thirds of the children for whom there were no slots?

We don't really know. We do know from census reports that almost 20 percent of the children between the ages of 6 and 13 whose mothers are working full time "take care of themselves" after school until a parent returns home. That means that millions of children, many as young as 6 years of age, are left for periods up to 4 hours a day in empty homes or in school yards or on the streets.

The census figures are also probably on the low side since in many States leaving a child of tender years alone without adult supervision can be considered child neglect, and many parents are reluctant to admit they leave their children alone. The Children's Defense Fund has estimated that as many as 6 to 7 million children under the age of 13 are probably left to fend for themselves for a large part of their day.

During the hearings on S. 4 held in the 95th and 96th Congresses, we heard parents from all over the country testify about the inadequacy of existing resources, the lengthy waiting lists, and the dismal alternatives faced by families. We heard of children being sent to live with relatives in other States because their parents could not find adequate, affordable child care. The large gap between the number of available child care places and the number of children needing care translated into very real and moving stories told by witness after witness. Similar hearings were held in 1984 by the House Select Committee on Children, Youth, and Families. The findings from those hearings are remarkably similar to those we arrived at during our Senate hearings.

The House committee, in its report issued in September of 1984, said of the problem:

Waiting lists for family day care homes and centers for infants and after-school programs for school-aged children are commonplace. Child care for children who are ill or

disabled is extremely limited, as is care for abused and neglected children, and for children of teen parents. Even preschool care, the most widely available of all child care, is inadequate in many communities.

Indeed, the problem has grown larger, not diminished.

One of the most tragic recent reports on the consequences of lack of adequate child care services involves the death of two young boys 2 months ago in Florida. These two Miami brothers—3 and 4 years of age—were left alone while their mother was at work. The makeshift child care arrangements utilized while the boys were on a waiting list for admission to a subsidized child care program had fallen through. The boys, left alone, crawled into a clothes dryer and closed the door which automatically activated the heat cycle. The two had been on the waiting list for over a year along with some 6,000 Dade County youngsters. Twenty-four thousand children were on waiting lists statewide.

Mr. President, the Florida tragedy could have occurred in any number of communities throughout this country.

#### CHILD CARE DRASTICALLY CUT

As the number of children needing care has continued to escalate, resources for child care have been slashed. The Social Security Act title XX program, the major source of direct financial assistance to child care programs was reduced by 20 percent in fiscal year 1982 from \$3.1 to \$2.4 billion and the \$200 million earmark for child care was eliminated. Child care is one of a number of social services these funds can be spent on. The estimates were at that time that some 150,000 families would lose their child care assistance under title XX as a result of those first-year Reagan cuts. Those projections have been substantiated by reports on how child care programs in various States have actually been hurt by the funding cutbacks.

The National Women's Law Center, in a report issued in April 1982, documented some of the impact. It found, for example, that in Alabama the number of title XX subsidized day care slots were reduced from 11,000 to 8,500. In Michigan, an almost 25-percent reduction in the number of children being served in child care programs was reported. In Massachusetts, eligibility for title XX was lowered to include only persons with income no greater than 70 percent of the State's median income. Arkansas and Illinois were reported to have imposed new, higher fee requirements, pushing many low-income families out of the program.

Mr. President, the Children's Defense Fund [CDF] completed a national survey on the impact of the Federal title XX cuts on State child care programs between 1981 and 1983. That

report, entitled "Children and Federal Child Care Cuts," presents a devastating picture of what has happened to what was at best a dimly inadequate support system. CDF surveyed every State to gather information from State officials responsible for the child care programs funded under title XX. The report found that—

Thirty-two States were providing title XX child care to fewer children in 1983 than in 1981;

The total combined Federal and State spending for title XX child care dropped by 14 percent between 1981 and 1983;

Ten States tightened eligibility criterion so that fewer low-income working families were eligible for title XX child care;

Twenty States made it more difficult for low-income mothers in training programs to become eligible for title XX child care;

Nineteen States increased fees for services or imposed minimum fees that made it harder for low-income working families to afford title XX child care, forcing many families to move their children to less desirable child care arrangements;

Forty-two States made changes that threaten to lower the quality of title XX child care services;

Twenty-four States reduced funds for training child care workers;

Thirty-three States lowered their child care standards; and

Thirty-two States cut back on the number of child-care staff.

The CDF report concluded that there is no reason to believe that the many children who lost title XX child care were picked up by other programs. Indeed, one 1983 survey in New York State indicated that many children who lost title XX subsidies are staying home alone. That study estimated that at least one-sixth of the children affected by the funding cuts are regularly left unsupervised.

Mr. President, between May and July 1984, CDF did a followup survey of State officials responsible for the child-care programs funded under title XX. That report, entitled "Child Care: The States' Response—A Survey of State Child Care Policies, 1983-1984," found, at best, minor improvements in limited areas of child care since the first report was released, and concluded that the majority of States, although not having made further reductions, had not yet begun to restore the damage done in 1981. CDF found that 25 States were still spending less for child care in 1984 than they did in 1981, despite the increased need and inflation, and that 27 were serving fewer children under the title XX program in 1984 than they did in 1981.

Last month, the Children's Defense Fund released a further update entitled, "State Child Care Fact Book,

1986." This 1986 report on child care found that States' overall title XX social services block grant expenditures for child care in fiscal year 1986 were approximately 12 percent less than in 1981 when inflation is factored in. Although a number of States increased funding for child-care programs between 1985 and 1986, when child-care budgets are adjusted for inflation, the majority are spending less today than they did 5 years ago before the Reagan cutbacks. CDF found that in fiscal year 1986, 23 States were providing fewer children with child-care assistance through the title XX program than they did in 1981. Between fiscal year 1985 and fiscal year 1986, 11 States reduced the number of children served by their title XX-funded child-care programs.

CDF's 1986 report on child care did note that a handful of States have made some efforts to create new child-care initiatives. These new efforts, although praiseworthy, were described as far too small or too fragmented to lead toward a sensible pattern of services for working families or access to affordable child care for low-income families in the States involved.

Mr. President, the CDF report also noted that although Congress did restore some funds to title XX following the huge cut in 1981, the fiscal year 1987 funding level of \$2.7 billion remains \$200 million below the fiscal year 1981 level of \$2.9. In real terms, adjusted for inflation, Federal funding for title XX is now only 72 percent of the 1981 level and 52 percent of the 1977 level. Given the enormous increase in the need for child-care assistance for low-income families, the decrease in support for these services is simply irrational and inexplicable as a matter of public policy.

#### CALIFORNIA CHILD CARE NEEDS

Mr. President, as I indicated at the outset, during the past year, I conducted an extensive series of community meetings about the child care crisis in California. I held 11 of these meetings specifically focused on child care issues. The number of people attending ranged from 75 to 100 to several hundred at some of these forums. Parents, child care providers, community workers, business and civic leaders, and just concerned citizens participated in these meetings.

Mr. President, California has long been recognized as a leader in the area of child care. Indeed, after World War II, when the federally funded child care programs established under the Lanham Act were shut down throughout the Nation, the State of California took over the funding of the California programs, thereby establishing a long history and tradition of support for child care in California.

Both the public and private sectors in California have contributed to building child care resources. Califor-

nia enjoys a unique and extensive system of child care resource and referral agencies, providing in each of the State's 58 counties a central source of information on existing child care services and resources and technical assistance to help develop new services.

Yet, by every measure, child care needs are not being met in my State. In many areas and for many children and families, the lack of child care services constitutes a crisis which threatens economic survival.

A year ago, the California Assembly Office of Research published a comprehensive report detailing the need for child care in California. That report, entitled "Caring for Tomorrow: A Local Government Guide to Child Care," estimated that 1.6 million California children needed care outside of the home while their parents work. By 1995, it was projected that 200,000 more children would need care. Yet, the current resources fall well below the existing need.

There are 6,600 licensed child care centers in California with a capacity for 330,000 children and 33,400 licensed family day care homes with a capacity of 198,000. Some 72,000 children are served in State subsidized programs. The supply and the demand simply do not match. In two areas, infant care and extended child care for schoolage children, the problems are particularly acute. The assembly research office estimated that more than 600,000 schoolage children in California go to empty homes each day after school.

Mr. President, in the numerous community meetings I held throughout the State, I learned about how these figures translated to dire shortages at the local level.

In Los Angeles, the United Way in May of 1986, published a report on the shortage of care for school-aged children, "Schools' Out in Los Angeles County: An Inventory Report." It found 239,000 kindergarten through sixth grade children in need of supervised care before and after school. Yet, Los Angeles County had only 46,621 spaces—licensed and unlicensed—for schoolaged children.

In Ventura County, the United Way issued a similar report in March of 1986, "Ventura County Child Care Report." It found a "widening gap between the need for child care and existing services." Noting that the shortage of child care and the increasing cost affects families across all income lines, the report highlighted the fact that Federal Government cutbacks had particularly eroded the availability of services for low-income children while the need was steadily increasing. In Ventura County, the average child care cost for a single mother with one child consumed approximately 18 percent of the family budget. This cost

concurs with national statistics which indicate that child care has become the third largest expense in the average America family budget, following shelter and food costs.

The report also found that existing child-care centers in Ventura County had 1,500 children on waiting lists. In one city, Oxnard, there were 58 licensed spaces to serve the more than 6,300 infants residing in the city.

Mr. President, in Alameda County a child care action committee reported some 71,000 children needing care with only 27,288 licensed spaces available. The current shortage of child care in this community was described as "quickly approaching crisis levels."

In Sonoma County, a report prepared by the Community Child Care Council found that there were approximately 10,000 child-care spaces in child-care centers and family day care homes for almost 13,000 children needing care. As a result, one out of every five children requiring care were unable to find it. By 1990, the number of children in Sonoma County is projected to increase by more than 6,000, with an ever-increasing demand for child care services.

The Sonoma report also focused upon the escalating cost of child care for those families who could find it. The typical Sonoma family with one preschooler was spending at least \$1 out of every \$10 earned on child-care expenses. For families earning less than the county's mean income of \$28,000, the percentage was higher.

Finally, Mr. President, a report on child care needs by the Orange County Commission on the Status of Women estimated that some 147,000 children under the age of 14 in that county would need child care by 1988. Yet, based upon existing spaces, the commission projected that over 13,000 infants, 10,000 preschoolers, and 80,000 school-age children would be unserved. The Orange County report estimated that working parents would expend between 18 to 49 percent of their yearly income on child-care services. For low-income families, assistance in meeting these costs was extremely limited. There were almost 6,000 low-income children on waiting lists for less than 1,800 subsidized child-care spaces—a ratio of more than 3 children waiting for every subsidized space available.

Mr. President, I could continue to cite the statistics in the various California communities, but the picture is clear. Even in a State like California which has a well-established commitment to child care, the need for services vastly exceeds the resources available. The withdrawal of Federal assistance in the past 6 years has accelerated a crisis already growing.

## FEMINIZATION OF POVERTY

Mr. President, as serious as the problems are in the supply of safe, affordable child care today, there is simply no question that the need will grow in the decade ahead.

It is equally important to understand that these mothers are in the work force for one major reason: economic necessity. Two-thirds of the women in the work force are either sole providers or have husbands who earn less than \$15,000. In 1983, 25 percent of the married women in the work force had husbands earning less than \$10,000; 50 percent under \$20,000 and nearly 80 percent less than \$30,000. The earnings of these women play a critical role in the economic well-being of their families. For the one in six American families headed by a woman, of course, her earnings are a matter of simple survival.

Mr. President, although adequate child care is a matter which ought to concern every member of our society—male and female alike—there is little question that the lack of adequate child care has a major and profound impact upon the economic well-being of millions of women and children in this country. Increasingly, our Nation has been experiencing what has been graphically described as "the feminization of poverty." Although the number of families living in poverty has remained relatively constant over the past decade, the composition of those families has dramatically changed. The number of poor families headed by a male dropped from 3.2 to 2.6 million between 1969 and 1978, while the number headed by women increased from 1.8 million to 2.7 million. Families with female heads have a poverty rate six times that of male-headed families, and almost one-third of all female-headed families live below the poverty line.

Lack of affordable child care is a major factor in keeping these women and their children in poverty. The U.S. Commission on Civil Rights has published two important reports focusing on the factors that limit economic opportunities for women. The first report, "Women: Still in Poverty," published in July 1979, identified the lack of adequate child care as one of the key obstacles to low-income women getting out of poverty. The Commission noted:

In the absence of safe affordable child care, women who would raise their families out of poverty must remain outside the labor force, or when compelled to work, place their children in circumstances detrimental to their wholesome growth.

The second report, "Child Care and Equal Opportunity for Women," published in July 1981, examined in even greater detail the extent to which lack of adequate child-care services restricts women, particularly in terms of employment opportunities.

Here is what this report found:

First, substantial numbers of women are prevented from taking paid work because of the unavailability or inadequacy of child care. The Commission noted that a number of studies suggest that approximately one of every five or six unemployed women is unemployed because she is unable to make satisfactory child-care arrangements.

Second, the unavailability of adequate child care limits employment opportunities for many women—either in terms of their hours of employment or their inability to seek or accept job promotions or acquire the training necessary for advancement.

Finally, lack of child care or inadequate child care can have a detrimental effect upon job performance. A UAW representative told the Civil Rights Commission that stress was a significant factor in industrial accidents and that worry about inadequate child care was cited as the single greatest cause of stress by a number of female assembly line workers participating at a 1978 conference on occupational health and working women. One of the key reasons a number of employers have recently become interested in helping their employees find or secure adequate child-care services is because of the recognition that lack of such care has a detrimental effect upon employee performance.

Mr. President, it is clear that the unavailability of adequate child care restricts, very substantially, the employment opportunities of working mothers and does so in a variety of ways. Adequate child care must be a cornerstone of any effort to provide equal opportunities in the work force to American women. Without such assistance, attainment of economic security will remain an elusive goal for millions and millions of women and their families.

## THE WIDENING GAP IN FEDERAL ASSISTANCE

Mr. President, it is important, I believe, to focus for a moment on what appears to be a widening gap in Federal assistance for child-care services between families at different ends of the income spectrum.

On the one hand, as I have described, the little support which was once available to low-income families through title XX has been substantially reduced. At the time, Federal assistance for child-care expenses incurred by moderate and upper income families has been steadily increasing. Today, the largest source of Federal support for child-care costs—now estimated to be over \$2 billion—is provided under this IRS child-care tax credit.

I cosponsored and supported the 1981 expansion of the child-care tax credit because I shared the view that increases in the credit were long overdue. Those changes, enacted as part of

the 1981 tax bill, Public Law 97-34, increased the maximum amount of credit which could be claimed and included provisions giving more benefits to families on the lower end of the income scale. However, the measure which was approved by the Senate and which I strongly supported included provisions which would have made the credit refundable, thus allowing benefits to go to those low-income working families whose taxable income is too low to be affected by a nonrefundable tax credit. Unfortunately, however, the House conferees refused to accept the Senate refundability provisions from the benefits of the largest source of Federal support for child-care expenses.

Mr. President, in 1979, almost 80 percent of the benefits under the child-care tax credit went to families with annual incomes over \$15,000. In 1982, 70 percent went to families with incomes over \$20,000. Even had we succeeded in 1981 in targeting a greater proportion of the credit to lower income families, using the Tax Code as a primary vehicle for providing Federal financial assistance in meeting child-care expenses of working parents has major limitations in terms of helping those in greatest need of assistance. Even the Senate refundability provision would not have adequately resolved many of the problems faced by these families. Tax adjustments the following April do little to help families with limited cash resources to meet the weekly and monthly child-care fees that absorb major portions of their incomes.

With the new tax reform law, even fewer low-income families will receive child-care assistance through the tax credit since most will have no tax liability to apply the credit against. Although I was pleased that the final tax reform legislation continued the child-care tax credit, I fully recognize its limitations in reaching many of the families most in need of assistance in meeting child-care needs.

And, finally, a tax credit, regardless of who utilizes it, does little to increase the supply of adequate child care—a continuing, pervasive problem.

Thus, although bringing about a reasonable and fair child-care tax credit is an important part of an overall program to help working families meet their child-care needs, it cannot be the sole source of support. We need to find ways to help those families who are falling through the cracks, and that is what S. 4 is designed to do.

## PURPOSES OF S. 4

Mr. President, the purpose of the proposed Child-Care Assistance Act of 1987 is to promote the availability and diversity of quality child-care services for all children and families who need such services by providing assistance to the States to expand the existing

supply of child-care services, improve the quality of and coordination among child-care programs, and generally foster increased coordination of programs at the local, State, and Federal levels. Grants would be available to States, under the terms specified in the bill, to carry out these activities and to make additional resources available to help families find and meet the costs of child care. The bill would also create mechanisms to facilitate an assessment of the extent of the need for child-care services throughout the Nation, both an initial assessment within the next few years and continuing assessments periodically thereafter.

Additionally, and fundamentally, the bill is aimed at strengthening the functioning of families by seeking to assure that parents are not forced by lack of available programs or financial resources to place a child in an undesirable care facility or arrangement.

**SUMMARY OF S. 4, THE PROPOSED CHILD CARE ASSISTANCE ACT OF 1987**

Mr. President, for the benefit of my colleagues, I will describe the provisions of our bill.

Section 1 would establish the short title of the bill as the "Child-Care Assistance Act of 1987."

Section 2 would set forth the findings and purposes of the act. The findings pertain to the extent of the need for child-care services. The purposes of the act are to provide assistance to the States in improving the quality of and coordination among child-care services; to provide mechanisms for assessing the extent of the need for child-care services in the Nation; to promote at all governmental levels coordination of child-care programs and other services for children and their families; to promote the availability and diversity of quality child-care services for all children and families who need such services; to provide assistance to families whose financial resources are insufficient to pay the full cost of necessary child-care services; and to strengthen the functioning of families by seeking to assure that parents are not forced by lack of available programs or of financial resources to place a child in an undesirable care facility or arrangement.

Section 3 would direct that nothing in the act be construed to authorize any public agency or private organization or any individual associated therewith to interfere with, or to intervene in, any child-rearing decision of parents. The purpose of this legislation is to help parents who need financial or other assistance to secure the child care they want for their children—and not to diminish or interfere with the rights of parents.

Section 4 would provide for State participation under the act through the submission to the Secretary of Health and Human Services of a State

plan providing for the specification of a State agency to be responsible for administration and oversight of a State plan designed to meet the need for child-care services within the State for preschool children and school-age children of working parents, with special attention to meeting the need for services of migrant children, disabled children, children with limited English-language proficiency, and other groups of children having special needs. The term "preschool" is used broadly to encompass children under the age of 6, including infants.

This State plan would provide the basic framework within each State for assessing child-care needs and for developing a plan for meeting those needs. Each State would have substantial flexibility to design the plan to meet its own particular needs within the parameters set by the act. The State agency specified under the plan would also be responsible for coordinating, to the maximum extent feasible, the provision of services under the act with other child-care programs and services assisted under other State or Federal laws and with other appropriate services, including health, nutrition, and social services, available to such children under other Federal and State programs.

In response to suggestions made by several witnesses at our 1979 hearings, section 4(a)(1) specifies that the State agency designated to administer the program should be an "appropriate" agency with the capacity to carry out programs. Such an agency should have an appropriate mission in terms of the welfare of children.

Section 4(a)(3)(A)(i) would provide that funds be distributed within the State, in accordance with the plan developed, to child-care providers that are licensed or are otherwise in compliance with State law and meet the quality standards developed by the Secretary for all child-care programs receiving Federal funds under the act. Various witnesses at our hearings during the 95th and 96th Congresses pointed out that in some States procedures other than licensing are used to regulate child-care providers. For example, in certain States, registration programs are used for some family day-care providers. This is still the case. The legislation provides that programs and providers that are in compliance with applicable State laws are eligible for participation. All providers, however, would also be subject to the second requirement—in section 4(a)(3)(A)(ii)—of meeting the quality standards applicable to programs funded under the act.

Section 4(a)(3)(b) would require States to distribute the funds by grants to or contracts with eligible child-care providers or, on a demonstration project basis, through alternative payment mechanisms. This limita-

tion of alternative payment mechanisms to only demonstration projects is in response to the concerns expressed by some witnesses that some restrictions should be placed upon alternative payment mechanism approaches until thorough evaluations of their effectiveness have been completed. At the same time, other witnesses expressed support for the notion of developing innovative types of programs that would further enhance parental choices.

Various alternative payment programs have been developed in several States. For example, in California, alternative payment programs were created under the State's 1978 alternative child-care legislation, commonly referred to as the AB-3059 Program. Nineteen programs were established under this legislation. These programs act primarily as administrative mechanisms to pay for subsidized child care for eligible families; they do not generally provide child care directly. Payments are made either to the child-care providers under a vendor program or to the parents themselves under a voucher program. In a number of cases, the vendor/voucher program operates as part of an information and referral program. Assessment of these programs has been very favorable. Similar types of programs have also been established in Florida. The Community Coordinated Child Care for Central Florida Program is an example of a very effective alternative payment program.

However, in both California and Florida, these alternative payment programs are operated in conjunction with other services and safeguards to ensure that quality child care is provided. These approaches might not be feasible in other States, particularly where an inadequate supply of child care exists or where adequate safeguards are not in place to protect against misuse. Thus, the provisions limit utilization of alternative payment mechanisms to demonstration projects established under guidelines issued by the Secretary. These guidelines would be focused upon ensuring the quality of care and safeguards as well as that evaluations are made of the effectiveness of these programs.

Section 4 would also provide that a State could choose, in the development of its plan for expenditures of the funds under the act, to transfer a portion of funds to an umbrella-type organization—either public or private nonprofit—to distribute funds to child-care providers within a particular community. For example, a State might pass funds through to a city or county or a local nonprofit entity rather than deal itself directly with child-care providers.

Section 4(a)(3)(C)(i) would provide that priority for receipt of funds be

given to child-care providers that provide priority for services for children on the basis of child and family need, taking into account factors such as family income, family size, and the special needs of children from households with a single parent, with particular emphasis on the provision of child-care services to families where lack of child care is or would be a barrier to the continuation or commencement of employment. Under this provision, the need of a child for continuity of care, for example, could be a factor in determining priority for services. As part of the overall focus of S. 4 upon meeting employment-related child-care needs, emphasis is placed upon services to families where lack of such services would be an obstacle to continued employment or attainment of employment.

Section 4(a)(3)(C)(ii) would provide that priority in the distribution of funds within a State be given to child-care providers that, to the maximum extent feasible, provide for an economic mix of children enrolled in the program. This provision, coupled with a requirement in section 4(a)(5) for the establishment of a sliding fee scale, based upon the services provided and family income adjusted for family size, is designed to promote programs which encourage an economic mix as well as to avoid the problems that occur presently when a family loses its assistance if a parent gets a raise or promotion. During our earlier hearings, we heard witnesses describe how parents were dropped from programs when their incomes rose slightly. A sliding fee scale which provides for an increase in family contributions as income rises is a far preferable approach.

Section 4(4)(a) would give the State agency the responsibility of making sure that funds will be distributed, to the maximum extent feasible, to a variety of child-care providers, including but not limited to child-care centers and family-day-care providers. In other words, parental choice should not be limited to a particular type of care. A diversity of providers is a key factor in promoting real parental choices.

Section 4(a)(4)(B) would give a priority in the distribution of funds to community-based programs which provide meaningful opportunities for parental involvement. The issue of whether only nonprofit providers should be eligible for receipt of public funds has been a difficult issue which has often divided the child-care community. On the one hand, some argue that allowing proprietary child-care programs to receive funds to provide services to eligible families would invite substantial problems. On the other hand, many argue that limiting participation, for example, only to nonprofit or public agencies, would restrict parental

choice. Indeed, proprietary child-care programs now are major providers of child care in this country. Excluding them from participation would substantially limit the freedom of a parent to choose the particular program that the parent feels is best for his or her child. On balance, such an exclusion would undermine the fundamental philosophy underlying S. 4—that we should be assisting parents in securing child-care services and increasing their choices, not limiting them to a particular program. The most effective ways of ensuring that all providers—nonprofit and public as well as proprietary—provide quality care for children is to establish uniform standards applicable to all programs which seek such funds and to make reliable information about competing programs available to inquiring parents.

At the same time, I recognize the concerns expressed by those who fear that syndicated profitmaking programs may seek to dominate the program. Our modification of section 4 to provide a priority for funding of community-based programs—which could include local proprietary entities—with meaningful opportunities for parental involvement is designed to target limited funds toward those programs most likely to involve parents actively in the actual operation of the program, while still allowing other programs the opportunity to participate.

Section 4(a)(6) would further provide that the State's plan include provisions for the establishment of procedures for data collection to show how the child-care needs of the State are being met by programs assisted under the act, and the degree of unmet child-care needs within the State.

Section 4(a)(7) would specifically provide that the State plan must include a provision for the establishment, or support by grants to or contracts with public or private nonprofit entities, of resource-and-referral services. These provisions have been expanded to stress the fact that these programs not only help parents in locating child care, but also that they perform a host of other functions ranging from technical assistance and training services for existing child-care providers to needs-assessment information for potential child-care providers. These provisions for resource-and-referral programs, or information-and-referral as they are sometimes called, are a particularly important part of S. 4. I am proud to say that California has been a national leader in the establishment of and support for resource-and-referral programs. These programs have overwhelmingly demonstrated their effectiveness in dealing with a number of problems in the child-care area.

Mr. President, we did make some progress during the 98th and 99th Congresses with regard to Federal support for resource-and-referral programs with the enactment of section 109 of Public Law 98-558, the Human Services Reauthorization Act. Section 109 authorized the establishment of a grant program to the States for planning and development of dependent care programs. The authorization of appropriations for this program was extended in 1986 through fiscal year 1990. Congress appropriated \$5 million in fiscal year 1986 and \$5 million in fiscal year 1987 to fund the Dependent Care Block Grant Program.

Although child care resource-and-referral programs as well as school-aged child-care programs are eligible for grants under the 1984 law, funds are limited to startup or planning costs and cannot be used to provide for ongoing operating expenses. In contrast, S. 4 would provide for grants to support the actual operation of these types of programs.

Provisions are also included in sections 4(a)(8), (9), (10), and (11) of S. 4 to require the State plan to provide for the training of child-care personnel, for the development and implementation of State licensing or regulation of child-care providers, for the establishment of procedures for meaningful parental involvement in State and local planning, and for the monitoring and evaluation of programs and services provided under the act, and to require certain assurances that funds received under the act will be used to supplement, and not supplant, existing Federal funds used for the support of child-care services and related programs. For each fiscal year, the State would be limited to using no more than 10 percent of its funding for administration of the program.

Section 4(b) would provide, as part of the State plan requirements, for the establishment of a State advisory panel on child care. At least one-third of the members of the panel would be parents of children who are receiving or have recently received child-care services of the types supported under the act. Another one-third would be representatives of different types of child-care providers and individuals who are professionals in the field of child development or related fields.

The State advisory panel would be responsible for advising the State agency on the preparation and administration of the State plan, for reviewing and evaluating child-care programs and services provided under the act and other provisions of law, and would be authorized to prepare and submit, through the State agency, recommendations to the Secretary. Sufficient funds would be required to be made available under the State plan for the State advisory panel to carry out its

functions, to obtain the services of such professional, technical, and clerical personnel as necessary, and to pay the reasonable expenses—as determined in accordance with guidelines prescribed by the Secretary—of the State panel members while carrying out their duties.

Section 4(c) would require the Secretary to approve any State plan which meets the requirements set forth in the act, and provide that the Secretary may not disapprove any State plan, except after reasonable notice, an opportunity to correct deficiencies in the plan, and notice of an opportunity for a hearing on the grounds for the disapproval.

Section 4(d) would provide that the specified State agency be required to provide the Secretary with a concise report on an annual basis describing activities, results, and performance of the State agency in meeting the objectives of the State plan and the purposes of the act.

Section 5 relates to the national administration of the act. The Secretary would be directed to designate an identifiable administrative unit within HHS and an individual within that administrative unit to be responsible for carrying out the provisions of the act, for coordinating other activities within HHS relating to child care, and for seeking to coordinate pertinent HHS child-care-related activities with those types of activities carried out by or under other Federal departments and agencies. The Secretary would also be directed to make available to such unit such staff and resources as are necessary for it to carry out effectively its functions under the act.

Section 5 also would provide for the establishment of a National Advisory Panel on Child Care Needs and Services, of which not less than one-third of the members must be parents of children who are receiving or have recently received child-care services of the type supported under the act and not less than one-third must be representatives of child-care providers, including representatives of different types of child-care programs and individuals who are professionals in the field of child development and related fields. One-third of the members serving on the National Advisory Panel would be required to be individuals who are serving on, or have served on, a State advisory panel established under the act.

The National Advisory Panel would be made responsible for reviewing Federal policies with respect to child-care services and advising the Secretary with respect to the standards developed for programs receiving assistance under the act.

Section 5 further would require that the Secretary, after consulting with the National Advisory Panel, and not later than 12 months after the date of

enactment of the act, prepare proposed standards to be applied to programs receiving assistance under the act and such other HHS-funded child-care programs as the Secretary may specify. The proposed standards would cover factors having a demonstrated impact on the quality of child care, including, but not limited to, such factors as group size and composition in terms of the number of teachers and the number and ages of children, the qualifications of the child-care providers, and the physical environment, parental involvement, and necessary support services—including but not limited to health, nutrition, and social services—for child-care programs. These standards would be published in the Federal Register for public comment and distributed to each State advisory panel and State agency designated or established under the act.

Mr. President, extensive work has already gone into the development of standards for federally supported child-care programs, and it is anticipated that the panel would utilize these materials.

Section 6 would provide authority to the Secretary to make direct grants to or contracts with public and private organizations for the support of innovative child-care demonstration projects in such areas as night time care and care for sick children, migrant children, disabled children, children with limited English-language proficiency, or other special needs populations. Projects funded under this section would have to have an evaluation component, and the Secretary would be required, not later than 6 months after the date of enactment, to establish regulations to carry out these provisions.

Section 7 would provide that States receiving assistance under the act shall submit to the Secretary every 2 years a report outlining the current status of child-care licensing or regulation within the State, the deficiencies, if any, in the existing licensing or regulating program, a plan by the State to expand its licensing or regulating program, and the types of assistance the State requires in order to make improvements in its licensing or regulating program. The Secretary would be authorized to make grants to States for the purpose of developing, improving, or implementing child-care licensing or regulating programs. Also, the Secretary, after consulting with the National Advisory Panel, would be mandated to develop a Model State Licensing or Regulating of Child Care Providers Act, to be used by the States as a guide to improving licensing or regulating of child-care providers, and to publish it in the Federal Register not later than 18 months after the date of enactment.

Again, in each of the provisions the word "regulation" or "regulating" has

been added in recognition of the fact that some States may use other terms or systems for certain types of child care.

Section 8 would authorize the Secretary to make grants to, and enter into, contracts with institutions of higher education, State and local public agencies, and private organizations to provide training programs for child-care providers and employees. The Secretary would also be authorized to provide technical assistance to the States in planning, developing, and coordinating of child-care services, in developing, expanding, and implementing of State licensing or regulating of child-care programs, and in developing and conducting of teacher or child-care-provider training programs.

Section 9 would provide for an allotment of 1 percent of the total sums appropriated to be made available to Guam, American Samoa, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands. The remainder of the sums appropriated would be allocated among the States based, with even weight, upon, first, each State's relative proportion of children living in homes where both parents are employed or seeking employment or where the child resides with only one parent and that parent is employed or seeking employment and, second, the State's relative proportion of children who reside in households having incomes which are equal to or less than one-half of the median income of the United States for families of the same size. Section 9 also would provide for reallocation of any State's allotment which is not utilized.

Section 10 would provide for the Secretary to make payments to each State having a plan approved under section 4 in the amount allotted under section 9, and provide that payments under the act may be made in installments, in advance, or by way of reimbursement, with necessary adjustment on account of overpayments or underpayments.

Section 11 would authorize the Secretary, after reasonable notice and opportunity for hearing, to withhold payments to any State where there has been a substantial failure to comply with any provision or any requirement set forth in the State's plan or with any applicable provision of the act. In the case of noncompliance by a particular program or project, further payments would be authorized to be limited to programs or projects under the State plan, or portions thereof, that are not affected by such noncompliance.

Section 12 would require the Secretary to carry out reviews and evaluations of the programs and activities carried out under the act and conduct

studies on child-care needs for the purpose of providing information aimed at achieving the following purposes: enabling the Congress and the executive branch to seek to reach agreement upon specific, realistic objectives and expectations for programs and activities carried out under the act; assuring that programs and activities established and carried out under the act at the Federal, State, and local levels are likely to achieve progress toward such objectives and expectations; obtaining sufficient data to measure progress under the act and making those data available to the Congress and the executive branch; and enabling Congress and the executive branch to better understand the child-care needs of the Nation and how best to meet those needs in a cost-effective fashion. In carrying out these functions, the Secretary would be directed to consult with appropriate committees of the Congress and members of the executive branch, to examine representative samples of actual programs, to identify or develop cost-effective programs, and to determine how the results of such reviews and evaluations can best be disseminated and utilized to achieve the purposes described. Also, the Secretary would be directed to prepare and transmit to the President and the Congress every 2 years on or before March 1 a concise report of activities and progress under the act.

Mr. President, the evaluation and oversight provisions of this bill were originally developed in close consultation with the General Accounting Office. In 1978, the Comptroller General released a report with respect to improving congressional oversight efforts. That report outlined a process for planning and carrying out congressional oversight programs. GAO staff provided great assistance to us in designing and drafting these provisions, and I am deeply appreciative of their efforts to assist us in building effective monitoring mechanisms into our legislative efforts.

Section 13 would set forth definitions of the various terms utilized in the act. A "child" would be defined as any individual who has not attained the age of 15 except that, with respect to eligibility for services, the definition of "child" may include a disabled individual who has not yet attained the age of 18. A "parent" would be defined to include any natural parent, foster parent, or legal guardian with whom the child resides.

Section 14 would authorize appropriations to carry out the provisions of the act of \$200 million for fiscal year 1988 and such sums as may be necessary for each of the 4 succeeding fiscal years. Of the sums appropriated for any fiscal year, 75 percent would be earmarked for grants under section 4, relating to grants for carrying out the

State plan; 5 percent for making grants under section 6, relating to demonstration projects; 5 percent for making grants under section 7, relating to licensing or regulating assistance; 5 percent for making grants or contracts under section 8(a), relating to training programs; and 10 percent for carrying out sections 5, 8(b), and 12, relating to national administration—including the reasonable expenses of the National Advisory Panel on Child Care Needs and Services—and training and technical assistance.

Mr. President, the level of authorization of appropriations for the first year—\$200 million—represents the amount which had been available prior to fiscal year 1982 at the 100-percent Federal-funding mechanism for child-care services provided under title XX. It would thus represent simply a restoration of funding which was lost as a result of the Reagan administration's budget reductions. In subsequent years, appropriations would presumably be increased at reasonable rates consistent with the availability of Federal resources and national needs.

Mr. President, let me stress that this bill is not intended to meet the entire need for assistance in the child-care area. Rather, S. 4 would simply provide the framework for a modest and measured increase in support for those families with the greatest needs. In addition, built into the legislation are provisions for the collection of data to assess the extent to which additional funds are needed. Increases in future appropriations would be related to the evaluation of this information and assessments of effectiveness of the expenditures of the funds already appropriated.

Section 14 also would provide that no funds would be authorized to be appropriated for any fiscal year unless funds appropriated for the preceding fiscal year to carry out part A of title V of the Economic Opportunity Act of 1964, relating to the Head Start Program, are at least equal to the funds appropriated for that program for fiscal year 1987—approximately \$1 billion.

#### OTHER INITIATIVES IN THE 99TH CONGRESS

Mr. President, as we move forward in our efforts to develop a comprehensive framework for child-care services along the lines envisioned in S. 4, there are certain other steps that can and should be taken to make child-care services more readily available and affordable.

Mr. President, during the 99th Congress, I joined with a number of other Senators, including the Senator from Massachusetts [Mr. KENNEDY], the Senator from Connecticut [Mr. DONN], the Senator from Michigan [Mr. RIEGLE], the Senator from Arizona [Mr. DECONCINI], and the former Senator from Colorado [Mr. Hart], in in-

troducing a series of smaller child-care initiatives—many of which are covered in a broader fashion in the comprehensive approach of S. 4. These separate initiatives were introduced as S. 803 through S. 810 on March 28, 1985. Many of the provisions of the bills introduced in the Senate were also included in legislation subsequently introduced as H.R. 2867 in the House of Representatives on June 25, 1985, by my colleague from California, Representative GEORGE MILLER.

During the last Congress, progress was made on a number of these measures. For example, S. 804, introduced by the Senator from Connecticut [Mr. DONN] to provide scholarship assistance to low-income child-care providers was incorporated into the Head Start reauthorization and enacted as part of Public Law 99-425. The 1986 Higher Education Act, Public Law 99-498, contained provisions relating to child-care services for low-income students similar to those included in S. 809, introduced by the Senator from Massachusetts [Mr. KENNEDY]. S. 806, introduced by the Senator from Michigan [Mr. RIEGLE], contained the extension of the authorization of appropriations for the Dependent Care Block Grant Program also enacted in Public Law 99-425. Finally, provisions of my own legislation, S. 810, the proposed Child Care Standards Improvement Act, were adopted by the Senate on December 10, 1985, as part of the fiscal year 1986 continuing resolution. Unfortunately, we were unable to persuade the House conferees to retain these provisions in the final fiscal year 1986 continuing resolution.

Mr. President, I intend to reintroduce S. 810 in the 100th Congress, and I know that a number of the child-care bills introduced along with S. 810 will also be reintroduced. Although I believe that the comprehensive framework provided in legislation like S. 4 would ultimately be preferable to a segmented approach, I am prepared to do whatever I can to see that some progress—however limited—is made in addressing the child-care needs of millions of American families.

#### NEW ALLIANCE FOR BETTER CHILD CARE

Mr. President, I want to share with my colleagues some information on a new effort to build a consensus around child-care needs.

Last summer, I contacted a number of national organizations, ranging from child advocacy groups to senior citizens organizations to veterans and religious groups about the need to join together to address the child-care crisis. It was my view, and it continues to be my view, that the time has come for a broad range of diverse groups to develop a consensus and plan of action to move the issue of child care to the top of the national agenda. The re-

sponse I received was overwhelmingly positive.

Since that time, a number of these groups have been meeting to discuss child-care needs and to develop a plan of action to address those needs. Tentatively called the Alliance for Better Child Care, this effort promises to bring together the energy and resources needed to make solving the child-care crisis a national priority. I look forward to working with the organizations and individuals involved in this important effort.

#### CONCLUSION

Mr. President, I believe that the proposed Child-Care Assistance Act of 1987, S. 4, addresses an important—and ever-growing—need in this country for a comprehensive, coordinated approach to child care. There is simply no question that the demand and need for child care will continue to grow. If we take steps today to design an efficient and cost-effective mechanism for meeting those needs, the ultimate savings will far outweigh the short-term expenditure.

Indeed, child care itself is both a short-term and a long-term investment in the future. Short-term expenditures may be almost immediately offset by increased tax revenues derived from parent earnings and reductions in governmental subsistence and other expenditures necessitated by the effects of lack of adequate child-care arrangements. Some longer term social costs, such as juvenile vandalism, delinquency, and child abuse and neglect, may also be reduced by prudent and cost-effective investments in child care today.

Mr. President, I am deeply grateful to the many individuals and organizations that have provided their insights, guidance, and encouragement in the development and formulation of this legislation. I very much hope that the introduction again of S. 4 will move us closer to enacting meaningful child-care legislation, legislation sorely needed and so long awaited. I look forward to working with my colleagues and interested individuals and organizations toward that end.

Mr. President, I ask unanimous consent that the text of S. 4 be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 4

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Child-Care Assistance Act of 1987".*

#### STATEMENT OF FINDINGS AND PURPOSE

SEC. 2. (a) The Congress finds that—

(1) the number of children living in homes where both parents work or where children are living with a single parent who works has increased dramatically over the last decade;

(2) the number of licensed or regulated child-care openings is far short of the number required for children in need of child-care services;

(3) existing child-care programs are frequently filled to capacity and often have long waiting lists for admission;

(4) the lack of available child-care services results in many children being left—some all day—without adequate supervision;

(5) the rise in school vandalism, juvenile alcoholism, and serious juvenile crimes has been accompanied by an increase in the number of school-age children with working parents and without resources for after-school supervision;

(6) many parents are unable to afford adequate child-care services and do not receive any financial assistance for such services through any established program;

(7) the years from birth to age six are especially important in the development of a child and the care children receive during this period is critical to the developmental process;

(8) making adequate child-care services and alternatives available for working parents and parents seeking employment or to develop employment skills promotes and strengthens the well-being of families and the national economy; and

(9) there is a lack of coordination among existing child-care programs receiving Federal and State assistance and among such programs and other programs providing services to children and their families, and an absence of a coordinated administration of child-care programs and services at the Federal level.

(b) Recognizing that the parent is and must continue to be the primary influence in the life of the child and that the parent must have ultimate responsibility for decisions on how the child will be raised, it is the purpose of this Act—

(1) to provide assistance to States in improving the quality of and coordination among child-care programs and to provide additional resources for child-care services;

(2) to provide mechanisms for assessing the extent of the need for child-care services in the Nation;

(3) to promote coordination at all governmental levels of child-care programs and other services for children and their families;

(4) to promote the availability and diversity of quality child-care services for all children and families who need such services;

(5) to provide assistance to families whose financial resources are not sufficient for them to pay the full costs of necessary child-care services; and

(6) to strengthen the functioning of families by seeking to ensure that parents are not forced by lack of available programs or financial resources to place a child in an unsafe, unhealthy, or otherwise undesirable care facility or arrangement.

#### PROTECTION OF PARENTAL RIGHTS

SEC. 3. Nothing in this Act shall be construed to authorize any public agency or private organization or any individual associated therewith to interfere with, or to intervene in, any child-rearing decision of parents.

#### STATE ACTIVITIES

SEC. 4. (a) Any State desiring to participate in a program authorized by this Act shall submit to the Secretary a plan, not less often than biennially, in such detail and form as the Secretary deems necessary. Each such plan shall—

(1) specify an appropriate State agency (with the capacity to administer the programs and services authorized under this Act and to coordinate with other State and local agencies involved in the provision of services to children) to be designated or created as the State agency to act either directly or through arrangements with other State or local public agencies, as the State agency responsible for the administration and oversight of the plan submitted under this subsection (hereinafter in this Act referred to as the "State agency");

(2) provide that the specified State agency will—

(A) make an assessment of child-care needs in the State and an assessment of the effectiveness of programs and services funded under this Act and other provisions of law in meeting such needs;

(B) develop a plan designed to meet the need for child-care services within the State for preschool children and school-age children, with special attention to meeting the need for services of migrant children, disabled children, children with limited English-language proficiency, and other groups of children having special needs;

(C) coordinate, to the maximum extent feasible, the provision of services under this Act with other child-care programs and services funded under any State or other Federal law, and with other appropriate services, including social, health, mental health, and nutrition services, available to such children under other Federal and State programs; and

(D) prepare the reports required under subsection (d);

(3) provide that—

(A) funds under this Act will be distributed within the State in accordance with the plan submitted to the Secretary under this section and will be used for services provided only by child-care providers which—

(i) are licensed in the State or have applied for a renewal of such license and are determined by the State to be likely to be approved for renewal or, if not required to be licensed under applicable State law, have otherwise met the requirements of State law; and

(ii) meet the standards prescribed under section 5(c);

(B) funds will be distributed to eligible child-care providers by contract or grant either directly or, as provided in the State plan, through grants to or contracts with public or private nonprofit agencies for distribution to eligible child-care providers within a designated geographic area, or distributed through alternative payment demonstration projects under such terms as the Secretary prescribes for demonstration projects; and

(C) priority will be given to child-care providers in the State that provide assurances that—

(i) priority for services will be given to children on the basis of child and family need, taking into account such factors as family income, family size, and the special needs of children from households with a single parent, with particular emphasis on the provision of child-care services to families where lack of child care is or would be a barrier to the continuation or commencement of employment; and

(ii) each such child-care program will, to the maximum extent feasible, provide for an economic mix of children enrolled;

(4) provide that—

(A) funds will be distributed, to the maximum extent feasible, to a variety of child-

care providers in each community, including but not limited to, child-care centers and family day-care providers; and

(B) priority will be given in the distribution of funds to community-based programs providing meaningful opportunities for parental involvement;

(5) provide for the establishment of sliding fee schedules based upon the services provided and family income adjusted for family size for children receiving services assisted under this Act;

(6) provide for the establishment of procedures for data collection and evaluation designed to show (in a manner not inconsistent with guidelines established by the Secretary)—

(A) how the child-care needs of the State are being met by programs funded under this Act including information as to the numbers of children being assisted, type of child care and child-care provider, numbers of programs and child-care providers, care givers, and support personnel utilized, and such other information as the Secretary considers necessary to explain how funds provided under this Act are being utilized;

(B) the degree to which child-care needs are not being met by programs funded under this Act or other programs;

(C) the extent to which the availability of child care has been increased, including but not limited to, numbers of licensed or regulated child-care openings, the extent to which existing child-care programs are filled, and the numbers and average time associated with waiting lists for admission to such programs; and

(D) how the purposes of the Act and the objectives of the State set forth in its State plan are being met;

(7) provide, by grants to or contracts with public or private nonprofit agencies, for the support or establishment of resource-and-referral services to assist in identifying existing child-care services, in providing information and referral to interested parents, and in providing information and technical assistance to existing and potential child-care providers and others concerned with the availability of child care;

(8) provide, by grant or contract, for the support of training programs for child-care personnel;

(9) establish procedures for the development and implementation of State licensing or regulating of child-care providers in accordance with the criteria prescribed pursuant to section 7(a);

(10) establish procedures for meaningful parental involvement in State and local planning, monitoring, and evaluation of child-care programs and services in the State;

(11) provide assurances that funds provided under this Act will be used to supplement, and not supplant, existing Federal funds used for the support of child-care services and related programs;

(12) provide, for each fiscal year, that the State will use for administration of the State plan for such fiscal year an amount not to exceed 10 percent of the funds distributed to such State, except that in the case of Guam, American Samoa, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands, the State will use for administrative costs an amount not to exceed 5 percent of the funds distributed to such State;

(13) provide for the establishment of a State Advisory Panel in accordance with subsection (b) and specify the amount of funds to be allocated to such panel; and

(14) provide for the establishment of reasonable opportunities to be heard for any parent, child-care provider, or child-care program which has been adversely affected or aggrieved by a decision of the State agency or any program funded under this Act.

(b)(1) The State Advisory Panel on Child Care established by the State shall be composed of not less than fifteen members—

(A) of which not less than one-third shall be parents of children who are receiving or have recently received child-care services of the type funded under this Act; and

(B) of which not less than one-third shall be representatives of child-care providers and care givers within the State, including representatives of different types of child-care programs (such as public, private, private nonprofit, center-based, and family day-care programs) and individuals who are professionals in the field of child development.

(2) The State Advisory Panel shall—

(A) advise the State on the preparation, and policy matters arising in the administration, of the State plan submitted under subsection (a);

(B) review and submit comments to the State agency on the State plan; and

(C) review and evaluate child-care programs and services funded under this Act and other provisions of law in the State and the progress of such programs and services in meeting the objectives of the State plan and the purposes of this Act and make recommendations, as appropriate, on the development of State standards and policies relating to child-care programs and the provision of child-care services,

and may prepare and, through the State agency, submit to the Secretary such recommendations and evaluations, together with such additional comments as that State agency considers appropriate.

(3) Each State Advisory Panel shall meet within thirty days after the beginning of each fiscal year and establish the time, place, and manner of its future meetings, except that such panel shall have not less than two public meetings each year at which the public is given an opportunity to express views concerning the administration and operation of the State plan.

(4) Each State Advisory Panel shall be authorized to obtain the services of such professional, technical, and clerical personnel and to contract for such other services as may be necessary to enable the panel to carry out its functions under this Act. Members of the State Advisory Panel, while serving on the business of the Panel, shall be reimbursed, in accordance with standards prescribed by the Secretary, for reasonable travel, subsistence, and other necessary expenses incurred by them in carrying out their duties as members of the State Advisory Panel. The Secretary shall ensure that funds sufficient for the purpose of this paragraph are made available to each panel from funds available for the administration of the State plan.

(c) The Secretary shall approve any State plan, and any modification thereof, if (after approval of the first such plan) the State agency has complied with the provisions of subsection (d) and if such plan complies with the provisions of subsections (a) and (b), and the Secretary shall not disapprove any State plan except after reasonable notice, an opportunity to correct deficiencies in the plan, and notice of an opportunity for a hearing.

(d) For the purpose of providing information to the Secretary and the Congress to aid in their understanding of the implementation and effectiveness of programs under this Act, the State agency, not later than December 1 of each year, shall prepare and submit to the Secretary, a concise report describing activities, results, and performance in the State in meeting the objectives of the State plan and the purposes of this Act. The report submitted under this subsection shall contain the results of the data collection, reviews, and evaluations carried out pursuant to subsections (a)(6) and (b)(2)(C).

#### NATIONAL ADMINISTRATION

SEC. 5. (a)(1) The Secretary shall designate an identifiable administrative unit and an individual in charge of such unit within the Department of Health and Human Services to carry out the provisions of this Act, to coordinate all activities of the Department relating to child care, and to seek to coordinate such activities with the pertinent activities of other Federal agencies.

(2) The Secretary shall make available to such unit such staff and resources as are necessary to enable it to carry out effectively its functions under this Act.

(b)(1) Within six months after the date of the enactment of this Act, the Secretary shall establish within the Office of the Secretary a National Advisory Panel on Child Care Needs and Services which shall be composed of not less than fifteen members—

(A) of which not less than one-third shall be parents of children who are receiving or have recently received child-care services of the type funded under this Act, and

(B) of which not less than one-third shall be representatives of child-care providers, including representatives of different types of child-care programs (such as public, private, private nonprofit, center-based, and family day-care programs) and individuals who are professionals in the field of child development and related fields.

Not less than one-third of the members serving on the National Advisory Panel shall be individuals who are serving on, or have served on, a State Advisory Panel established by a State under section 4(b).

(2) The National Advisory Panel shall review Federal policies with respect to child-care services and make recommendations to and advise the Secretary with respect to the standards developed by the Secretary pursuant to subsection (c) and may submit to the President and to the Congress such comments as it considers appropriate with respect to the reports of the Secretary submitted under section 12.

(3) The Secretary shall make available to the National Advisory Panel such personnel and technical assistance as are necessary to carry out effectively its functions under this section.

(4) Members of the National Advisory Panel who are not regular full-time employees of the United States shall, while attending meetings and conferences of the National Advisory Panel or otherwise engaged in the business of the Panel (including travel-time), be entitled to receive compensation at a rate fixed by the Secretary, but not exceeding the rate specified at the time of such service for GS-18 in section 5332 of title 5, United States Code; and, while so serving on the business of the Panel away from their homes or regular places of business, they may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United

States Code, for persons employed intermittently in the Government service.

(c)(1) After consultation with the National Advisory Panel, and not later than twelve months after the date of the enactment of this Act, the Secretary shall prepare and develop proposed standards to be applied to programs funded under this Act and such other child-care programs funded by the Department of Health and Human Services as the Secretary may specify. The standards developed pursuant to this subsection shall cover factors having a demonstrated impact on the quality of child care including, but not limited to—

(A) group size and composition in terms of the number of teachers and the number and age of children;

(B) the qualifications of the child-care provider;

(C) the physical environment;

(D) parental involvement; and

(E) necessary support services including but not limited to health, nutrition, and social services.

(2) After distribution for comment to each State agency and State Advisory Panel established under section 4(a)(13) and 4(b), the Secretary shall publish the proposed standards in the Federal Register.

(3) After taking into consideration any comments received by the Secretary with respect to the regulations proposed under paragraph (1) of subsection (c), but in no event later than one hundred and twenty days after the Secretary publishes proposed standards under paragraph (2), the Secretary shall publish in the Federal Register final standards to be applied to programs funded under this Act and such other child-care programs funded by the Department of Health and Human Services as the Secretary may specify.

(4) Until such time as the final standards have been adopted, programs funded under this Act shall comply with the requirements imposed upon child-care programs funded through payments made under title XX of the Social Security Act.

#### DEMONSTRATION PROJECTS

SEC. 6. (a) The Secretary is authorized to make grants to and enter into contracts with public agencies and private organizations to support innovative child-care demonstration projects, including projects providing nighttime care or care for sick children, migrant children, children with limited English-language proficiency, disabled children, or other special needs populations. No grant may be made under this section unless adequate funds are included in such grant to evaluate and report to the Secretary on the effectiveness of the approach of the program in meeting the child-care needs of the families being served.

(b) No grant may be made under this section unless an application is made to the Secretary at such time, in such manner, and containing or accompanied by such information as the Secretary considers necessary. Not later than six months after the date of the enactment of this Act, the Secretary shall prescribe regulations to carry out the provisions of this section.

#### LICENSING IMPROVEMENT GRANTS

SEC. 7. (a) Each State receiving funds under this Act shall prepare a report to be submitted to the Secretary outlining the current status of child-care licensing or regulation within the State, deficiencies, if any, in the existing licensing or regulating program (including an assessment of the adequacy of staff to carry out effectively the

State program), the plan of the State for expanding its licensing program to cover all types of child-care providers (except where children are being cared for in their own homes, by a relative, or on a less than full-time basis in a noncommercial, neighborhood setting, such as a cooperative play group or occasional child-care arrangements), and the types and amounts of assistance the State requires to make improvements in such licensing or regulating program. Each such State shall submit its report under this subsection not later than twelve months after it first receives a payment under section 10. The report submitted under this subsection shall include, separately, information with respect to center-based programs and family day-care programs.

(b) The Secretary is authorized to make grants to States submitting a report under subsection (a) for the purpose of developing, improving, or implementing its child-care licensing or regulating program. No grant may be made under this section unless the State submits an application to the Secretary therefor at such time, in such manner, and containing or accompanied by such information as the Secretary considers necessary.

(c) After consultation with the National Advisory Panel on Child Care Needs and Services and with the cooperation of the National Conference of Uniform Commissioners of State Laws, the Secretary shall develop a Model State Licensing or Regulating of Child Care Providers Act to be used by the States as a guide to improving licensing or regulating of child-care providers. Not later than eighteen months after the date of the enactment of this Act, the Secretary shall publish such Model Act in the Federal Register.

#### TRAINING AND TECHNICAL ASSISTANCE

SEC. 8. (a)(1) The Secretary is authorized to make grants to and enter into contracts with institutions of higher education, State and local public agencies, and private organizations to provide preservice and inservice training to teachers, other care givers, and administrative personnel involved in child-care programs, to recruit and train low-income parents for child-care positions, to provide specialized training in early childhood education for certified elementary school teachers who are unemployed, to train child-care resource and referral workers, to train persons in the provision of services to disabled children, migrant children, and children with limited English-language proficiency, and to develop and improve teacher certification criteria for child-care programs.

(2) The Secretary is authorized to provide technical assistance to States in planning, developing, and coordinating child-care services, in developing, expanding, and implementing State licensing or regulating of child-care programs, and in developing and conducting teacher or child-care-provider training programs with special attention to the factors described in paragraph (1).

(b) No grant may be made under this section unless an application is made to the Secretary at such time, in such manner, and containing or accompanied by such information as the Secretary considers necessary.

#### ALLOTMENTS

SEC. 9. (a) From the sums appropriated pursuant to section 14(a) for each fiscal year, the Secretary shall allot not more than one percent among Guam, American Samoa, the Virgin Islands, the Common-

wealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands according to their respective needs.

(b) From the remainder of such sums, the Secretary shall allot—

(1) to each State the amount which bears the same ratio to 50 percent of such remainder as the number of children living in homes in which—

(A) both parents of such child are employed or seeking employment, or

(B) the child resides with only one parent and that parent is employed or seeking employment,

in such State bears to the number of such children in all States; and

(2) to each State an amount which bears the same ratio to 50 percent of such remainder as the number of children who reside in households having incomes which are equal to or less than one-half of the median income of the United States for families of the same size, as determined in accordance with criteria established by the Secretary, in such State bears to the number of such children in all States.

For the purpose of this subsection, the term "State" does not include Guam, American Samoa, the Virgin Islands, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands.

(c) The Secretary shall obtain from the appropriate departments and agencies of the United States the most recent satisfactory data available in order to determine the allocation provided for in subsection (b).

(d) That portion of any State's allotment under subsection (b) for a fiscal year that the Secretary determines will not be required for the period for which such allotment is available shall be available, from time to time on such date during such period as the Secretary may fix, for reallocation to other States in proportion to the original allotment of such States under subsection (b) for such year, but with such proportionate amount for any of such other States being reduced to the extent it exceeds the sum the Secretary estimates will be needed in such State and will be used for such period for carrying out State plans approved under this Act, and the total of such reduction shall be similarly reallocated among the States whose proportionate amounts are not so reduced. Any amount reallocated to a State under this subsection during a year shall be deemed part of its allotment under subsection (b) for such year.

#### PAYMENTS

SEC. 10. (a) From the amounts allotted to each State under section 9, the Secretary shall make a grant to each State having a plan approved under section 4 in an amount equal to the total sums to be expended by the State under the plan for the fiscal year for which the grant is to be made.

(b) Payments under this Act may be made in installments, in advance, or by way of reimbursement, with necessary adjustments on account of overpayments or underpayments.

#### WITHHOLDING OF GRANTS

SEC. 11. Whenever the Secretary, after reasonable notice and opportunity for a hearing to a State, finds—

(1) that there has been a failure to comply substantially with any provision or any requirements set forth in the State plan of that State approved under section 4, or

(2) that in the operation of any program or project funded under this Act there is a

failure to comply substantially with any applicable provision of this Act,

the Secretary shall notify such State of the findings and that no further payments may be made to such State under this Act (or, in the case of noncompliance by a particular program or project, that further payments to the State will be limited to programs or projects under the State plan, or portions thereof, not affected by such noncompliance) until the Secretary is satisfied that there is no longer any such failure to comply, or that the noncompliance will be promptly corrected.

#### REVIEW AND EVALUATION

SEC. 12. (a) The Secretary shall make reviews and evaluations of the programs and activities funded under this Act (to be conducted by persons not directly or indirectly involved in administration of the programs or activities to be reviewed or evaluated), and conduct studies of child-care needs for the purpose of providing information aimed at—

(1) enabling the Congress and the executive branch to seek to reach agreement upon specific, realistic objectives and expectations of achievement for programs and activities funded under this Act;

(2) determining whether the programs and activities established and carried out under this Act at the Federal, State, and local levels will be likely to achieve progress toward such objectives and expectations;

(3) ensuring that sufficient data necessary to ascertain such progress is collected and made available to the Congress and the executive branch; and

(4) improving the capability of the Congress and the executive branch to understand child-care needs in the Nation and how best to meet such needs in a cost-effective fashion.

(b) In carrying out reviews, evaluations, and studies under this section, the Secretary shall—

(1) ascertain the specific objectives and expectations for achievement regarding programs and activities carried out under this Act of appropriate managers and policymakers in the executive branch and of appropriate committees of the Congress;

(2) examine a representative sample of the actual operation and results of such programs and activities at the Federal, State, and local levels;

(3) compare the objectives and expectations for achievement with the actual operation and results of such programs and activities, including comparisons of the objectives of State plans with the actual operation and results under such plans and an assessment of the effects of increased availability of child care (including changes in the incidence of child abuse, school vandalism, and juvenile delinquency, and other relevant effects such as changes in health status, school attendance, and school performance);

(4) identify or develop programs and activities, or parts of programs and activities, that are able, or are likely to be able, to achieve in a cost-effective fashion progress toward such objectives and expectations; and

(5) determine how the results of such reviews, evaluations, and studies can best be disseminated and utilized to achieve the purposes described in subsection (a).

The Secretary shall prepare and transmit to the President and the Congress on or before March 1 of 1990 and every two years thereafter a concise report containing—

(1) a statement of specific, realistic objectives and expected progress toward such objectives over the next two years for the programs and activities funded under this Act, and a statement relating such objectives and expected progress to the purposes of this Act;

(2) the results of all comparisons made under subsection (b)(3), including comparisons necessary for judging the effectiveness with which State plans, and the objectives of such plans, are carried out at the State and local levels;

(3) the results of efforts under subsection (b)(4), including options or recommendations (or both) with respect to any legislative action that the Secretary considers necessary or desirable for achieving the purposes set forth in subsection (a); and

(4) plans for reviews, evaluations, and studies under this section for the ensuing year, including a statement detailing the programs and activities (or parts thereof) funded under this Act to be the subject of such reviews, evaluations, and studies.

(d) The Secretary shall prepare and transmit to the President and the Congress not later than four years after the date of the enactment of this Act a report on child-care needs in the Nation. Such report shall include, but not be limited to, a summary of the results of data collection under sections 4(a)(6)(A), 4(a)(6)(B), and 4(b)(2)(C) and any studies of child-care needs conducted by the Secretary under this section, a summary of other relevant research on child-care needs, and an analysis of options for more fully meeting such needs, including options for legislative action.

(e) The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall, until the expiration of three years after the completion of a program, project, or activity authorized or assisted under this Act, have access for the purpose of audit and examination to any books, documents, papers, and records of entities receiving grants or contracts under this Act that in the opinion of the Secretary or the Comptroller General may be related or pertinent to assistance provided under this Act.

#### DEFINITIONS

SEC. 13. As used in this Act—

(1) "child" means any individual who has not attained the age of fifteen except that with respect to eligibility for services, the definition of "child" may include a disabled individual who has not yet attained the age of eighteen;

(2) "parent" includes any natural parent, foster parent, or legal guardian with whom the child resides;

(3) "Secretary" means the Secretary of Health and Human Services; and

(4) "State" means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, the Virgin Islands, America Samoa, the Commonwealth of the Northern Mariana Islands, and the Trust Territory of the Pacific Islands.

#### AUTHORIZATION OF APPROPRIATIONS

SEC. 14. (a) Except as provided in subsection (b), there are authorized to be appropriated \$200,000,000 for fiscal year 1988 and such sums as may be necessary for each of the four succeeding fiscal years for carrying out the provisions of this Act. Of the sums so appropriated for any fiscal year, 75 percent shall be used for making grants under section 4, relating to grants for carrying out the State plan; 5 percent shall be used for

making grants under section 6, relating to demonstration projects; 5 percent shall be used for making grants under section 7, relating to licensing assistance; 5 percent shall be used for making grants or contracts under section 8(a), relating to training programs; and 10 percent shall be used for carrying out the provisions of sections 5, 8(b), and 12, relating to national administration (including the reasonable expenses of the National Advisory Panel on Child Care Needs and Services) and training and technical assistance.

(b) No funds are authorized to be appropriated for any fiscal year unless funds appropriated for the preceding fiscal year to carry out part A of title V of the Economic Opportunity Act of 1964, relating to Project Head Start, are at least equal to the funds appropriated for such part for fiscal year 1987.

By Mr. CRANSTON (for himself and Mr. BURDICK):

S. 5. A bill to require the executive branch to enforce applicable equal employment opportunity laws and directives so as to promote pay equity by eliminating wage-setting practices which discriminate on the basis of sex, race, ethnicity, age, or disability, and result in discriminatory wage differentials; to the Committee on Governmental Affairs.

#### PAY EQUITY ACT OF 1987

Mr. CRANSTON. Mr. President, I am pleased to introduce S. 5, the proposed Pay Equity Act of 1987. This legislation is virtually identical to the pay-equity legislation I introduced in the 98th Congress and—also as S. 5—in the 99th Congress. I am joined in sponsoring this measure by the distinguished Senator from North Dakota [Mr. BURDICK] who cosponsored this legislation in the last two Congresses as well.

Similar legislation has been introduced in the House by Representative MARY ROSE OAKAR with whom I have worked closely on this issue as well as on the Social Security earnings-sharing legislation, S. 3, which I am also introducing today.

Our legislation is aimed at helping bring an end to what is one of the most devastating economic problems facing millions of American women and their families and one of the most pervasive forms of employment discrimination in our society—the refusal of many employers in both the public and private sectors to pay female employees fair and equitable wages for the work they perform.

Mr. President, this type of discrimination against female employees has persisted despite applicable State and Federal laws and directives and court decisions outlawing gender-based wage discrimination. Unfortunately, the existence of these laws and court decisions has not been translated into elimination of these unlawful practices. What is clearly needed is a strong national commitment to ending once and for all the practice of paying

certain employees lower wages because those employees are female.

S. 5 is intended to stimulate those Federal agencies responsible for enforcement of our Federal equal employment opportunity laws to begin an aggressive campaign to enforce these laws and help bring about an end to wage discrimination.

In addition to S. 5, I will soon be introducing with the Senator from Washington [Mr. EVANS], and numerous other cosponsors, a revised version of legislation, S. 519, which we introduced in the 99th Congress. S. 519 would provide for an objective, independent pay-equity study of the Federal work force. The provisions of the revised S. 519 are included as well in section 6 of S. 5. It is our intention to move as swiftly as possible with the provisions relating to the study of the Federal work force in the separate bill we will be introducing later this month.

#### THE PROBLEM: THE WAGE GAP

Mr. President, I am sure that every Member of this body is acutely aware of the enormous gap between the average earnings of female workers and the average earnings of male workers. In the 1950's, full-time female workers earned 64 cents on the average for every \$1 earned by a full-time male worker. For the past decade, the ratio of male to female earnings has hovered around the 60-percent mark. Today, the ratio of male to female earnings is about 65 percent—the same ratio that existed in the 1950's notwithstanding all of the civil rights and equal employment opportunity laws and advancements in the intervening three decades.

In 1985, the median earnings—representing the point below and above which fall an equal number—for fully employed female workers—those working 50 or more weeks per year and 35 or more hours per week—was \$16,252; for similarly employed males, it was \$24,999. However, it is important to note that the mean—or average—earnings for this group was \$18,088 for the female workers and \$28,747 for male workers. This represents a ratio of 62.9 percent in terms of mean or average earnings, as compared to a ratio of 65 percent when dealing with median income data.

The difference in earnings for minority women, as compared to all male wage earners has consistently been even wider. For example, in 1985, the median earnings for black women in this category was \$14,590; for Hispanic women it was \$13,522. These represent a ratio of 58.4 percent and 54 percent, respectively, as compared to the median earnings for all male workers in this category.

The disparity between the average wages earned by female workers and those earned by male workers exists today in every profession, occupation,

or field of employment and at every level of experience. It persists in male-dominated fields. It persists in female-dominated fields. It persists in the new occupational fields that have not yet become sexually stereotyped.

Mr. President, the overall wage gap has been closely and repeatedly studied by researchers. Variables such as attachment to the work force, level of experience, education, job commitment, and similar factors have been examined in various studies. These studies attempting to explain the difference in earnings between male and female workers have been able to account for generally less than one-fourth and never more than one-half of the earnings differential on the basis of different labor-force participation patterns of male and female workers. Virtually every researcher has concluded that there remains a large gap which can be explained only by the existence of sex-based discriminatory employment policies.

#### PAY EQUITY: EQUAL PAY AND COMPARABLE PAY

Mr. President, two distinct forms of wage discrimination contribute to the earnings gap. The first involves the problem of equal pay for equal work. The second involves the problem of comparable pay for comparable work.

The first—equal pay for equal work—is relatively simple to understand and has clearly been unlawful since the passage of the Equal Pay Act in 1963. That law provides that it is unlawful for an employer to discriminate between employees on the basis of sex by paying lower wages than those paid to employees of the other sex for the same work. Prior to the enactment of the Equal Pay Act, many employers openly paid female workers lower wages for performing the same work as male workers.

Unfortunately, this practice continues today, albeit in more subtle forms. Employers no longer argue—as they did prior to 1963—in favor of lower pay for female workers on the grounds that women need less than male workers. Instead, they have developed creative rationalizations for paying women less than men for substantially identical work.

The Federal Equal Pay Act actually encourages this type of creativeness since it provides four defenses which an employer may raise when a violation of the act has been alleged. For example, the fourth defense—that the discrimination was based upon a factor other than sex—invites employers to develop arguments that the apparent discrimination is actually based upon a factor other than sex.

For example, employers have argued that the willingness of female workers to work for lower wages constitutes a factor other than sex which would justify setting their wages below those of male workers who would refuse to work at the lower wages.

Fortunately, the courts have, for the most part, rejected these thinly disguised discriminatory practices.

It is clear, however, that although it has been almost 25 years since passage of the Equal Pay Act, equal pay for equal work has not yet been fully achieved. Indeed, even more vigorous enforcement activities are needed today to deal with the more subtle and devious tactics used to justify the continuation of Equal Pay Act violations.

But, Mr. President, it is generally agreed that denial of equal pay for equal work is no longer the major factor contributing to the earnings gap. The major factor today is the concentration of female workers in a limited number of job classifications where the wages are lower than the education, training, skills, experience, effort, responsibility, or working conditions involved would otherwise warrant. The conclusion is virtually inescapable that a primary reason that wages are lower in these jobs is because they are filled predominantly by women. This problem, often referred to as the comparable worth issue, must be dealt with forcefully if we are ever to achieve equitable pay for all workers.

#### COMPARABLE PAY FOR WORK OF COMPARABLE WORTH

Mr. President, the concept of comparable pay for work of comparable worth stands for the relatively simple notion that the wages a worker earns should be based upon the value of the work performed, not the sex of the employee. Unfortunately, it is widely recognized that the wages paid in jobs and occupational fields dominated by female workers are lower than the wages paid in those jobs and occupational fields dominated by male workers that involve comparable education, skills, training, education, effort, responsibilities, and working conditions.

In the now classic case of *Lemons v. City and County of Denver*, 620 F.2d 228 (tenth circuit 1980), the nurses in the city of Denver public hospitals were paid less than the men who trim the trees in the city parks, not because of any greater intrinsic value of the work done by the tree trimmers or greater difficulty in finding individuals to trim trees, but simply because the tree trimmers were predominantly male and the nurses were predominantly female. The court held that the city's pay system did not violate title VII.

Numerous examples of this type of inequity have been found. In Montgomery County, MD, clerks in the county-operated liquor stores were found to earn more than teachers in the county schools. In New York and Wisconsin, the salaries for State parking lot attendants were considerably higher than wages paid to State clerical employees. In San Jose, CA, the

salaries of librarians were below those paid to street-sweeper operators. In New York City, fire department dispatches—predominantly white males—were paid several thousand dollars a year more than police department dispatchers—predominantly black females. Dog pound attendants and zoo keepers were rated higher in a commonly used dictionary of occupational titles than nursery school teachers or day-care workers.

In each of these examples, one difference emerged: the higher wages were paid where employees were predominantly males and lower wages were paid where employees were predominantly females. In many cases, the employers' own numerical job-evaluation system gave the male-dominated jobs and the female-dominated jobs similar ratings; yet, the wages for the female jobs were nonetheless set lower than the male-dominated jobs.

Mr. President, although the phrase "comparable pay for work of comparable worth" has been useful in helping to understand the circumstances involved, the underlying issue is really simply one of wage discrimination based upon the sex of the employee. Hence, the term "pay equity," which also includes the better understood concept of equal pay for equal work, is a more accurate description of the effort which is ongoing to help reduce that portion of the wage gap which is attributable to sex-based discrimination.

In reality, comparable worth is simply a tool or technique for looking at wage disparities to determine if sex-based wage discrimination is present. A disparity alone may not indicate the existence of discrimination, but it certainly suggests a closer look is warranted. Although for clarity sake, I have used the comparable worth phraseology, I believe that pay equity is a more accurate and preferable term.

#### OPPONENTS OF COMPARABLE WORTH

Mr. President, those who oppose elimination of wage disparities based upon the devaluation of work that is performed predominantly by female workers make three basic arguments in opposition to these efforts. First, they argue that it is impossible to compare different jobs and establish their relative worth. Second, they contend it is not discrimination, but the invisible and neutral hand of the marketplace at work in creating these wage disparities. Third, they argue that even if it is discrimination, the cost of eliminating the inequities would be too great. Each of these arguments has an inherent weakness.

First, with respect to the so-called apples-and-oranges argument—that you can't compare different types of jobs—the fact is that different jobs are compared all the time by employers in establishing wage rates. Objective job-evaluation techniques have existed for

many years, and they are widely used by employers in both the public and private sectors.

The National Academy of Sciences' Committee on Occupational Classification and Analysis in its important 1981 study, "Women, Work, and Wages: Equal Pay for Jobs of Equal Value," commissioned by the Equal Employment Opportunity Commission, noted the widespread use of such job-evaluation plans. As I will discuss in a few moments, these job-evaluation techniques provide an objective method of determining the value of different jobs and a promising approach to eliminating discriminatory wage-setting practices and the resulting wage differentials.

Second, the short answer to the argument that it is the marketplace, not discrimination, that determines wage rates, is that the so-called free marketplace has been radically altered by the presence of discrimination. Historical wage discrimination against female workers, once not only prevalent but acceptable, continues to distort the marketplace to depress the wages of women and to devalue the work performed by women.

Only in the past 24 years has it become unacceptable—legally and otherwise—to pay women less than men for precisely the same work or to exclude women from certain jobs or occupations. The effects of this *de jure* discrimination against female workers were built into most wage structures, and these effects continue to be felt. The argument that the marketplace is a neutral determinant of job value is clearly specious. A pure marketplace does not exist, given historical wage discrimination.

Moreover, our Nation has already made the decision as a matter of social policy that workers will not be left to whatever fate a so-called free market resolves for them. Protective labor laws do not permit employers to pay workers less than the minimum wage, even though some desperate workers might work for less, nor do they allow employers to set wages lower for minority workers, even though high unemployment rates among many minority groups might drive some of these workers to accept lower wages.

In short, a civilized and humane society does not countenance the exploitation of its workers. Women, like other classes of vulnerable workers, are entitled to the protection of the law against unfair exploitation.

#### COST IMPLICATIONS

Mr. President, the arguments that eliminating the wage difference would destroy the economy and cost billions and billions of dollars are vastly exaggerated. First, many of these estimates are based upon elimination of the entire wage gap. The studies I mentioned earlier have found that a certain portion of the gap—between one-

fourth and one-half—is probably attributable to nondiscriminatory factors, including differences in female-worker labor-force participation patterns. No one has ever asserted that the entire gap is caused by discrimination.

Second, as to that portion of the wage gap that is attributable to discriminatory practices, it is not anticipated that the resulting inequities could be eliminated overnight. Even with the most vigorous commitment to eliminating wage inequities, the task is likely to be a long and tedious one. Indeed, in the quarter century since passage of the Equal Pay Act, those inequities have not been eliminated. Attainment of full pay equity is likely to be gradual and incremental.

Finally, Mr. President, the dire predictions of economic disaster simply haven't been borne out where voluntary wage adjustments to achieve pay equity have taken place.

Although most of the opponents point to the size of the judgment initially awarded in the case brought in Washington State, *American Federation of State, County, and Municipal Employees v. State of Washington*, what has taken place in the State of Minnesota is a much more instructive example of how a pay-equity policy can be implemented in a fiscally responsible manner.

The Washington State case involved a situation where State officials failed for years to act after a 1974 State-commissioned study had shown that State employees in traditionally female jobs received about 20-percent less on the average than State employees in traditionally male jobs of comparable value.

It was not until after a lawsuit was filed in 1983, that the State legislature took any action to eliminate the pay disparities. In 1983, it appropriated \$1.5 million for this purpose. The Federal district court characterized this action as belated and a token representing at best a change in attitude by the State. Under the court's judgment, the plaintiffs were awarded back-pay adjustments to September 1979. It was this back-pay award, not simply the correction of the undervaluation of the women's jobs, that created the potential size of the judgment in the Washington State case.

The ninth circuit court of appeals subsequently reversed the trial court's decision in this case. The parties thereafter entered into a settlement which will provide for the expenditure of \$46.5 million to correct sex-based inequities in the State's wage scales between 1986 and 1987 and an additional \$10 million each July 1, beginning in 1987 and through 1992, to complete implementation of the plan to eliminate wage disparities.

In contrast, the Minnesota Legislature moved quickly to respond to the results of a report from a State-established task force on pay equity. In 1983, the Minnesota Legislature passed a bill providing for a phased-in equalization over 4 years. The annual cost of the pay-equity increases currently amounts to \$26 million, or about 4 percent of the State's payroll budget, and 0.3 percent of the total State budget.

Local government efforts in this area have been numerous. In my own State of California, pay-equity adjustments have been negotiated in recent years for municipal workers in San Jose, Los Angeles, Long Beach, Pismo Beach, Anaheim, Fremont, Hayward, Berkeley, and Woodland. None of these municipalities have gone bankrupt as a result. The increases have been moderate and phased-in over time. For example, librarians in Long Beach won a 5-percent comparable-worth adjustment.

In San Jose, a 2-year agreement for pay-equity adjustments in 60 female-dominated classifications resulted in 5- to 15-percent increases for these categories over a 2-year period, costing a total of \$1.4 million. Clerical workers in the city of Los Angeles negotiated pay-equity increases of between 1 and 8½ percent.

Obviously, voluntary and mutual efforts to identify and eliminate pay inequities through wage adjustments phased-in over reasonable periods of time are far preferable to accumulating large back-pay judgments. The costs, while not insubstantial, are clearly manageable when they are approached in this fashion.

Finally, whenever the issue of costs is discussed, it is important to remember that the costs of pay inequities are already being borne—by the underpaid workers. The price is being paid by the increasing feminization of poverty and in the cost of government assistance to those underpaid workers and their families who cannot survive on the meager wages produced by discriminatory employment practices. Society is also paying in terms of the loss of productivity and reduced consumer spending that results when workers are denied fair wages.

#### OTHER OPPOSING ARGUMENTS

Mr. President, some of the opponents of efforts to eliminate these types of pay inequities have also attempted to portray such activities as leading to the Federal Government setting the wages for all workers. This is clearly a distortion and scare tactic designed to avoid entering into a serious dialog about the problem and how to remedy it. There is absolutely nothing in the comparable-worth issue that would lead to such a result, any more than passage of the Equal Pay Act or title VII led to government control of wage-setting practices.

Former Secretary of Labor, Raymond Marshall, in a very thoughtful and comprehensive paper entitled, "The Employment and Earnings of Women: The Comparable Worth Debate," has aptly stated:

A remedy for pay discrimination does not require that wages be equalized for men and women, only that the jobs valued on a non-discriminatory basis. This does not lead to central planning or government wage fixing; the government does not have to fix wages to eliminate discrimination.

Mr. President, implementing pay equity means nothing more than requiring employers to eliminate discriminatory wage-setting practices. There are certainly legitimate issues for discussion regarding the concept of comparable worth, but dragging out the spectre to big government control of wages does not contribute to a responsible discussion of those issues.

#### IMPORTANCE OF RESOLVING THE COMPARABLE-WORTH PROBLEM

Mr. President, there are some who may argue that rather than attempting to resolve the difficult issues surrounding the comparable-worth problem, we should be focusing our attention on eliminating the earnings gap by encouraging young women to enter nontraditional, male-dominated fields where the wages are likely to be higher and the advancement opportunities more open.

I believe we must do both.

I have long been deeply committed to opening up every occupational or professional field to women. The barriers which have blocked women seeking to enter male-dominated fields must be eliminated. Our educational systems must be encouraged to do a better job in preparing young women for the world of work and educating them about the jobs that will be emerging out of the new technologies. Their horizons should not be limited in any fashion by sexist stereotypes about what is or is not an appropriate field of employment for women or by false perceptions about the work force.

But at the same time that we are seeking to break down those barriers which have kept many women in job ghettos where the wages are low and the opportunities for advancement limited, it is important to recognize that the work performed in many of these "female-dominated" fields is important both to our economy and to our society. It we force our creative and talented teachers to leave our schools in order to get adequate compensation, or our Nation's nurses all to become doctors in order to gain the recognition and compensation they deserve, what would happen to the quality of our schools or our hospitals? We need good teachers as well as good nurses, regardless of their sex.

Moreover, Mr. President, whatever opportunities may exist for young women just entering or about to enter

the work force, those women who have already acquired years of education, training, and experience in fields like teaching or nursing should not be required to abandon those career investments in order to earn a decent wage.

Finally, unless we resolve once and for all the ambivalence about the value of female workers that underlies the comparable-worth problem, the inequities are not likely to end. Indeed, as more and more women enter a new field, the wages there are likely to become depressed. History has already demonstrated this to be true. For example, bank tellers were once universally male. The job then represented a relatively well-trained position on the career ladder to higher management in the banking field. Today, bank tellers are predominantly female and the wages and advancement opportunities have been curtailed accordingly. It is unconscionable for a job to be devalued just because more women fill the positions.

#### GUNTHER VERSUS COUNTY OF WASHINGTON

Mr. President, until 1981, there was some disagreement as to the interrelationship of the Equal Pay Act, with its scope limited to matters relating to equal pay for equal work, and the broader coverage of title VII of the Civil Rights Act of 1964 with respect to discrimination on the basis of sex in all aspects of employment, including compensation. Some argued that the Bennett amendment to title VII limited its coverage to only those instances of wage discrimination which would be covered by the Equal Pay Act. Others, noting the broad purposes of Congress in enacting title VII, argued that an employer violated title VII when the wages of female workers were set below those paid to male workers, even though the jobs were not identical.

The issue was definitively resolved in the landmark decision of the Supreme Court in *Gunther v. County of Washington*, 452 U.S. 161 (1981).

Mr. President, the facts in the *Gunther* case are interesting because they show how blatant much of the wage discrimination against women can be. In *Gunther*, the employer evaluated the "worth" of both male and female correction guards and determined that the female guards should be compensated at a rate of 95 percent that of the male rate. Notwithstanding that determination, the county set the female wage rate at only 70 percent of the male rate while paying the male guards the full 100-percent value established in the job evaluation.

In *Gunther* the Supreme Court held that it would be a violation of title VII for an employer to set the wages of female workers below the value determined by the employer's own objective job evaluation while setting the wages of male workers at the full value. The Court correctly concluded that Con-

gress intended title VII to prohibit "all practices in whatever form which create inequality in employment opportunity due to discrimination on the basis of race, religion, sex, or national origin" and to "strike at the entire spectrum of disparate treatment of men and women resulting from sex stereotypes."

Mr. President, wage discrimination in situations where the jobs involved are different—as well as where they are similar—is now clearly unlawful under title VII following *Gunther*. What remains to be settled is how this rule will be applied in particular fact situation and what evidence will suffice to demonstrate unlawful discrimination.

In the much discussed case involving the State of Washington, *AFSCME v. State of Washington*, 578 F. Supp. 846 (W.D. Wash. 1983), reversed, 770 F.2d 1401 (9th Cir. 1985), the district court had found evidence of intentional discrimination against female employees based primarily on the State's delay in implementing a State pay-equity study disclosing sex-based wage disparities between male- and female-dominated job classifications. On September 4, 1985, the ninth circuit court of appeals reversed the district court's decision. The appeals court found the evidence of intentional discrimination to be insufficient and flatly rejected the argument that the State was bound to implement the results of its own pay-equity study. The court stated that a study indicating that a particular wage structure would be more equitable should not categorically bind the employer who commissioned it and suggested that a contrary rule would "penalize rather than commend employers for their effort and innovation in undertaking such a study."

Although opponents of pay equity have claimed the ninth circuit decision as a great victory, a close reading of the decision and subsequent cases in other circuits makes it quite clear that each case turns upon the factual evidence produced by the plaintiffs. The court of appeals decision in the *AFSCME* case holds that the existence of wage disparities alone does not provide sufficient evidence of a title VII violation. But such disparities coupled with other evidence of discriminatory practices would state a cause of action. This point was made clear by the seventh circuit in the more recent case of *American Nurses Association v. State of Illinois*, 606 F. Supp. 1313 (N.D. Ill. 1985), reversed, 783 F.2d 716 (7th Cir. 1986). The district court dismissed the nurses' case on the grounds that "unequal pay for jobs alleged to be of comparable worth on the basis of an evaluative study which the employer commissioned but never adopted does not constitute a viable legal theory under title VII." The seventh circuit agreed that the complaint

would have failed to state a claim under title VII if it had alleged discrimination based solely on the State's failure to implement the results of its pay-equity study. However, the appellate court found that the complaint included other allegations of intentional discrimination and remanded the case for further proceedings.

Similar decisions have been reached in other pending pay-equity lawsuits including a district court decision in *AFSCME v. County of Nassau*, 609 F. Supp. 695 (E.D.N.Y. 1985), an unreported district court decision in Hawaii, *Hawaii Government Employees Association v. State of Hawaii*, No. 84-1314 (D. Hawaii, Aug. 12, 1985) ("\* \* \* [W]hile evidence of comparable work will not alone be sufficient to establish a prima facie case of sex discrimination, the comparability of jobs can be relevant to determining whether discriminatory animus can be inferred \* \* \*", slip op. at 1, Aug. 12, 1985), and in an unreported district court case in California, *California State Employees Assoc. v. State of California*, No. C-84-7275 (N.D. Cal. Sept. 13, 1985) ("The ninth circuit's decision [in *AFSCME*] does not foreclose the application of title VII to wage disparities between job classifications held primarily by women and job classifications held primarily by men where a discriminatory animus is shown, even though the wage rates may have had their antecedents in market rates \* \* \*", slip op. at 27).

Numerous other lawsuits are pending throughout the country. Where the evidence demonstrates the presence of sex-based wage discrimination, it is clear that a remedy exists under title VII. The emerging case law indicates that although wage disparities alone may not give rise to a title VII cause of action, such disparities can be used with other evidence to demonstrate that sex-based wage discrimination exists. Indeed, most proponents of pay equity have never contended that a disparity in wages between comparably evaluated jobs automatically constitutes a violation of law, since certain disparities can be attributable to legitimate compensable factors such as merit or seniority.

More important, the case law makes clear that a progressive employer can undertake a pay-equity study without fear that the results would automatically have to be implemented. A number of voluntary efforts—involving collaboration between labor and management—are underway in both the public and private sectors to identify and eliminate wage discrimination. Such voluntary, collaborative action is far preferable to resort to time-consuming and expensive litigation.

#### STATE, LOCAL, AND PRIVATE INITIATIVES

Mr. President, it has been estimated that in the past 4 years over 100 gov-

ernmental initiatives have taken place in the area of comparable worth. These activities have included actions by State legislatures, city councils, county commissions, school boards, Governors' offices, and State administrative agencies. I ask unanimous consent that a summary of State and local pay-equity/comparable-worth initiatives that was included in the testimony of Nina Rothchild, commissioner for employee relations of the State of Minnesota, at the U.S. Civil Rights Commission consultation on comparable worth—June 1984—be printed in the *RECORD* at this point.

There being no objection, the summary was ordered to be printed in the *RECORD*, as follows:

#### APPENDIX

(To Testimony of Nina Rothchild, Commissioner of Employee Relations, State of Minnesota, published in "Comparable Worth: Issue for the 80's", a Consultation of the U.S. Commission on Civil Rights, June 6-7, 1984 (pg 127-28))

State and Year	Description
State Pay Equity Legislation	
Alaska: 1980	Adds specific comparable worth (CW) language to fair employment practices (FEP) law.
California: 1981	Establishes CW as policy for State workers, requires annual reports.
1983	Prohibits local government ordinances or policies which preclude consideration of CW.
1983	Creates commission on status of women task force on CW.
1983	Adds specific CW language to FEP law. (Pending as of 5/1/84.)
Connecticut: 1979	Pilot study for State workers.
1981	Full job evaluation (JE) study for State workers.
Hawaii: 1981	(Resolution) Urges employers to adopt CW policies.
1982	Requires report and recommendations on CW for State employees.
Idaho: 1977	Provides for JE study on State employees.
Illinois: 1982	Requires pilot CW study for civil service; \$10,000.
1983	Requires comprehensive JE study for civil service. (Pending as of 5/1/84.)
1983	Includes CW standard in State equal pay act. (Pending as of 5/1/84.)
Iowa: 1983	Establishes CW policy, requires JE study of civil service, appropriates \$150,000 for study.
Kentucky: 1982	Allocates \$14,000 for JE study.
Massachusetts: 1983	Requires JE study of civil service, appropriates \$75,000 for study.
Michigan: 1982	Amends wage and hour law to prohibit wage secrecy policies.
Minnesota: 1982	Establishes CW policy and process for civil service.
1983	Appropriates \$21.8 million for CW increases.
1984	Requires local governments to implement CW.
Missouri: 1983	Requires report and recommendations on CW for civil service; establishes CW policy.
Montana: 1983	Requires "work toward the goal of establishing equal pay for comparable worth," study and annual report.
Nebraska: 1978	Requires preliminary civil service study.
Nevada: 1983	Requires preliminary civil service study.
New Jersey: 1984	Establishes task force to study civil service; appropriates \$150,000. (Not yet signed by Governor as of 5/1/84.)
New Mexico: 1983	Appropriates \$3.3 million in salary increases to lowest paid State workers.
Oregon: 1983	Requires JE/CW study for civil service; appropriates \$300,000 for study.
Pennsylvania: 1983	Adds CW language to FEP law. (Pending as of 5/1/84.)
Virginia: 1984	Requires research on CW.

State and Year	Description
Washington: 1977	Requires biennial update of 1974 JE study that had not yet been implemented.
1983	Establishes CW policy for civil service and sets up a 10-year implementation plan.
1983	Appropriates \$1.5 million for salary increases to lowest paid workers.
Wisconsin: 1977	Establishes CW policy for civil service.
Other State-level Activity	
Illinois: 1983	AFSCME wins pay equity increases for word processing operators through arbitration.
Hawaii: 1983	AFSCME wins pay equity increases for nurses through arbitration.
Connecticut: 1983	AFSCME negotiates pay equity increases for clerical workers.
Local Government and Type	Description
Local Pay Equity Initiatives (a partial listing)	
Fresno, CA: City	Information gathering pay equity policy.
San Francisco, CA: City	Information gathering pay equity policy.
Sonoma County, CA: County	Information gathering.
South Lake Tahoe, CA: City	Information gathering.
Alameda County, CA: County	Information gathering.
Colorado Springs, CO: City	Information gathering implementation.
Berkeley, CA: City	Information gathering.
Montgomery County, MD: County	Information gathering.
Los Angeles Sch. Di. CA: School	Information gathering.
Minneltonka SD, MN: School	Negotiated CW increases.
Osseo SD, MN: School	Information gathering.
Northfield SD, MN: School	Information gathering.
Tucson SD, AZ: School	JE study.
Chico SD, CA: School	JE study.
Manhattan Beach, CA: School	JE study.
Sacramento SD, CA: School	JE study negotiated by SEIU.
San Lorenzo SD, CA: School	JE study.
Hunter College, NY: School	JE study.
Virginia Beach, VA: City	JE study; implementation.
Bellevue, WA: City	JE study; implementation.
Renton, WA: City	JE study; implementation.
Seattle, WA: City	JE study.
Los Gatos, CA: City	Pay equity policy.
Long Beach, CA: City	Implementation.
Burlington, VT: City	Implementation.
Princeton, MN: City	JE study; implementation.
Los Angeles, CA: City	Pay equity increases negotiated (AFSCME).
Spokane, WA: City	Pay equity increases negotiated for all female-dominated classes (AFSCME).
Green Bay, WI: City	Pay equity increases for nurses of \$118 per month (AFSCME).
San Mateo, CA: County	Pay equity increases negotiated (AFSCME).
San Jose, CA: City	Pay equity increases negotiated (AFSCME).
Hennepin County, MN: County	Pay equity increases negotiated for welfare eligibility technicians (AFSCME).
Belmont, CA: City	Pay equity increases negotiated (AFSCME).
Woodland Hills, PA: School	Pay equity increases negotiated; implementation on a 3-year schedule (SEIU).
Vacaville, CA: School	Negotiated for comparable worth committee and pay equity study (SEIU).
Mott Comm. College, MI: School	Negotiated for JE study and appeals procedure for classification decisions (SEIU).
Santa Clara, CA: County	Negotiated for reclassification of many jobs and pay equity adjustments (SEIU).

Mr. President, Ms. Rothchild, in her testimony also reviewed in detail the experience of the State of Minnesota in addressing and implementing a pay-equity initiative. Observing that Minnesota had gone further than other State in actual implementation of pay equity, she stated, "We now have the experience to show that implementation need not be extremely costly, chaotic, or controversial."

Mr. President, GAO, in connection with its work relating to a pay-equity study of the Federal work force, surveyed each of the States on pending and completed pay-equity activities. In September 1986, GAO issued a report, "Pay Equity: Status of State Activities" (GAO/GGD-86-141BR), which found that a majority of States had engaged in some pay-equity study or data collection activity. In July 1984,

the National Governors Association formally adopted a resolution urging States to implement pay-equity principles.

In addition to these activities with respect to State and local public employees, pay equity has become a major issue at the bargaining table. On November 14, 1984, I placed in the CONGRESSIONAL RECORD (S14644, daily ed.) a report issued by the Communications Workers of America entitled "Closing the Wage Gap". This report not only provided a comprehensive overview of the pay-equity problem, but it also described some of the efforts made by this particular union to help close the wage gap through collective bargaining efforts. Although most of the activities that have taken place have been in the area of public employees, labor/management negotiations on pay-equity issues in the private sector, for example, between AT&T and the Communications Workers, have also been instituted.

Mr. President, a number of major companies have quietly begun their own pay equity initiatives. An article entitled "Comparable Worth: It's Already Happening" which appeared in the April 28, 1986, issue of Business Week provided a long and impressive list of companies such as BankAmerica, Chase Manhattan, IBM, Motorola, General Electric, and Control Data which are working on narrowing the wage gaps between male and female employees. These companies are re-evaluating their wage systems and trying to ensure that factors used to evaluate jobs aren't biased against work usually done by women.

Clearly, Mr. President, these voluntary initiatives to identify and remedy pay inequities ought to be encouraged. S. 5 contains provisions directing the Equal Employment Opportunity Commission to develop and implement an education and information program aimed at assisting those employers seeking information on the various techniques that can be used to identify and eliminate pay inequities.

#### FEDERAL ENFORCEMENT ACTIVITIES

However, despite the considerable activity taking place in the States and in the courts, Federal efforts in this area are at a virtual standstill. Prior to the Reagan administration, the two agencies with primary responsibility for enforcement of Federal equal employment opportunity laws and directives—the Equal Employment Opportunity Commission [EEOC] and the Department of Labor's Office of Federal Contract Compliance Programs [OFCCP]—had begun activities in the comparable-worth area. EEOC filed an amicus curiae brief on the side of the plaintiffs in the Gunther case and commissioned the National Academy of Sciences study I mentioned earlier. In August 1981, shortly after the Gunther decision, EEOC, then under the

acting chairmanship of J. Clay Smith, issued interim guidelines to its field offices to assist in identifying and processing cases in light of the Gunther decision. Similarly, OFCCP included in regulations published in December 1980 language clarifying that the prohibition against employment discrimination by Federal contractors encompassed wage differentials based upon comparable-worth principles.

However, under pressure from the Reagan administration those regulations were suspended. Thereafter, under the Reagan-appointed EEOC, work on comparable-worth cases has ceased.

Mr. President, EEOC is specifically charged by law and executive order with the responsibility of providing Federal leadership in matters relating to equal employment opportunity. It has clearly failed to me that responsibility in this area—as well as others I might add. S. 5 is designed to provide both EEOC and OFCCP with a specific congressional directive to enforce fully and aggressively the Federal laws and directives relating to unlawful employment practices.

#### JOB-EVALUATION TECHNIQUES

Mr. President, before I describe the specific provisions of S. 5, I want to take a few moments to discuss a specific issue related to the eliminations of unlawful wage discrimination—utilization of objective job-evaluation techniques.

As I indicated earlier, objective job-evaluation techniques have been utilized for many years by employers in both the public and private sectors as a basis for determining job classifications and wage rates. Job-evaluation techniques employ numerical rating systems to provide standards and measures of job worth that are used to estimate the relative worth of jobs. It has been reported that almost two-thirds of the adult working population is already paid on the basis of a job-evaluation scheme, and that virtually every large employer, including Federal and State Governments, uses some objective job-evaluation system to determine the relative worth or grade level of each job classification. GAO's survey of State pay-equity practices released in September 1986, that I mentioned earlier, found that 46 of 48 States responding to the survey used job evaluations to set pay for classified positions.

In a job-evaluation plan, pay ranges for a job are based on estimates of the worth of the jobs according to such criteria as the skill, effort, and responsibility required by the job and the working conditions under which it is performed. Pay for an individual, within the pay range, is set by the worker's individual characteristics, such as credentials, seniority, productivity, and quality of job performance.

Job-evaluation systems vary from employer to employer, both in terms of the criteria used and the relative weights. However, the concept of numerical rating and comparative measurement of different jobs is common to all job-evaluation systems.

The National Academy of Sciences in its 1981 study, "Women, Work and Wages: Equal Pay for Jobs of Equal Value", observed: "... job evaluation plans provide measures of job worth that, under certain circumstances, may be used to discover and reduce wage discrimination for persons covered by a given plan. Job evaluation plans provide a way of systematically rewarding job for their content—for the skill, effort, and responsibility they entail and the conditions under which they are performed. By making the criteria of compensation explicit and by applying the criteria consistently, it is probable that pay differentials resulting from traditional stereotypes regarding the value of women's work or work customarily done by minorities will be reduced.

Mr. President, this study went on to state that existing job-evaluation techniques were by no means perfect. Many incorporated into them factors associated with sex, race, or ethnicity, and many utilized actual wages to figure into the computations, thereby perpetuating existing inequities; other problems in applying these plans universally were also raised. The Academy concluded, nevertheless, that statistical techniques exist that may be able to generate job worth scores from which components of wages associated with sex, race, or ethnicity have been at least partly removed. The Academy urged that these techniques be further developed.

It is also important to note that in many cases where the employer has utilized a job-evaluation plan to establish the comparative worth of different jobs, the employer has simply chosen not to apply the results of its own evaluation to the wages of the female workers. For example, as I mentioned earlier, in the Gunther case the employer arbitrarily paid the female workers 25-percent less than the employer's own job evaluation had determined was the comparative worth of the jobs.

Finally, Mr. President, it should be noted that the failure of an employer to utilize a job-evaluation system to set wages can give rise to an inference of intentional discrimination. In one case brought under the Equal Pay Act, *Taylor v. Charley Brothers*, 25 FEP Cases 602 (W.D.Pa. 1981), a Pennsylvania Federal district court found that an employer's intent to discriminate against female employees could be inferred from the fact, among other things, that it had not undertaken any evaluation that would have indicated the value of jobs held by either men or

women. Employers seeking to avoid the impact of the Gunther decision by refusing to do their own objective job evaluations certainly run the risk of thereby providing evidence of intentional discrimination.

#### CONGRESSIONAL ACTION DURING THE 98TH AND 99TH CONGRESSES

Mr. President, during the last two Congresses, significant progress was made on pay-equity issues. First, the House of Representatives has twice passed by overwhelming margins legislation authored by Representative MARY ROSE OAKAR to provide for a study of the Federal job classification system to determine if sex-based wage discrimination exists. Although we were not successful in getting the Senate-companion legislation, S. 519, acted upon, our legislation gained 32 cosponsors shortly before the 99th Congress adjourned.

As the result of an agreement reached during the 98th Congress, the General Accounting Office submitted to Congress on March 1, 1985, an excellent and comprehensive report entitled, "Options for Conducting a Pay Equity Study of the Federal Pay and Classification Systems," (GGD-85-37). This GAO report highlighted the wage gap between male and female employees in the Federal work force and provided a blueprint for how a pay-equity study could be designed to determine the reasons for this wage gap. The Senate Subcommittee on Civil Service, Post Office, and General Services of the Governmental Affairs Committee held 4 days of hearings on this GAO report in May and July 1985. The analysis and recommendations made by the GAO report became the basis for the legislation—S. 519 in the Senate and H.R. 3008 in the House—to mandate this study.

Two major recommendations emerged in the GAO report regarding the conduct of a pay-equity study. Both of these recommendations are carried out in the House-passed bill in the 99th Congress and in the revised version of S. 519 which is included in S. 5.

First, GAO recommended that the study utilize both a job-content and an economic analysis. A job-content analysis looks at the jobs themselves—the difficulty, working conditions, and responsibilities associated with the job. An economic analysis attempts to measure and explain wage differentials using characteristics of individuals, occupations, and the work place to determine whether factors such as education, work experience, or occupation account for the wage differences. GAO observed that "use of both approaches can provide a clearer understanding of how Federal wages are set and would be less susceptible to charges that important explanatory variables have been ignored."

Second, GAO recommended that the study be carried out by an objective body. The report suggested a steering committee composed of representatives from affected groups and experts from various fields to direct the conduct of the study and report directly to Congress.

Subsequently, GAO provided a further legal analysis of existing laws relating to Federal classifications. That analysis submitted on July 29, 1986, demonstrated clearly that existing Federal law—section 5101 and 5341 of title 5, United States Code—already encompasses the elements of a job-worth or comparable-worth system. GAO observed in its July 29 report that "Implementation of [title 5] should result not only in equal pay for equal work, but also in (1) equal pay for different work which is valued equally in terms of difficulty, responsibility and qualification requirements, and (2) proportionate pay for work that differs in value." For example, section 5101(1)(B) provides that purpose of the General Schedule System is to provide a plan under which "variations in rates of basic pay will be proportional to substantial differences in the difficulty, responsibility, and qualification requirements of the work performed".

Last summer, Senator EVANS and I prepared an amended version of S. 519, which is reflected in the language of the legislation I am introducing today, to focus the study on determining whether these existing title 5 policies were being implemented. This change was intended to clarify that the pay-equity study would not establish any new Federal classification standard but rather would be premised on determining whether the pay-equity standards that have been set forth in title 5, United States Code, which was codified in the Classification Act of 1949, which in turn, incorporated the basic classification policies established by Congress in the Classification Act of 1923.

#### COVERAGE OF RACE, ETHNICITY, AGE, OR DISABILITY

Mr. President, throughout this statement I have focused upon the problems faced by women working in jobs held predominantly by females. Minority workers, older workers, and disabled workers are also affected by the types of discriminatory wage-setting practices which depress the wages of female workers. Although much more work has been done on focusing on the problems of pay equity in terms of sex-based wage discrimination, the legislation which was passed by the House last year, H.R. 3008, also called for examination of the problems faced by minority workers. The version of S. 5 that I introduced in the last Congress and the bill I am introducing today also covers discriminatory prac-

tices based upon sex, race, ethnicity, age, or disability. I believe that it is important that our efforts to attain pay equity extend to all groups which may be affected by discriminatory wage-setting practices.

#### OUTLINE OF LEGISLATION

Mr. President, as I indicated at the outset, S. 5 is aimed at compelling those Federal agencies responsible for enforcement of Federal equal employment opportunity laws to begin an aggressive campaign to enforce those laws and help bring about an end to wage discrimination against female workers. Certainly this could be accomplished by the executive branch without a congressional mandate. The law already prohibits wage discrimination. But the law is not self-executing.

Unfortunately, under the current administration it is highly unlikely that executive enforcement action will be taken voluntarily. Congress, however, has the power and the authority to direct these agencies to take appropriate action. Enactment of this legislation would provide the congressional mandate that is evidently necessary if there is to be any Federal enforcement action in this area. I do not believe that it is fair or appropriate to rely solely upon private litigants to enforce the law. The Federal Government has a role and responsibility to fulfill. It's time it did so.

#### SUMMARY OF PROVISIONS: "PAY EQUITY ACT OF 1987"

Mr. President, I would like to outline the provisions of S. 5:

Section 1 would establish the short title of the bill as the "Pay Equity Act of 1987."

Section 2 would set forth the findings and purposes of the act. The findings pertain to the existence of the earnings gap between male and female workers, its causes and impact upon individuals and our economy, and the failure of appropriate Federal agencies to enforce applicable laws and directives. The expressed purpose of the act is to help eliminate discriminatory wage-setting practices and resulting discriminatory wage differentials; first, providing for the development and utilization of equitable job-evaluation techniques to promote the establishment of wage rates based upon the work performed rather than the sex, race, ethnicity, age, or disability of the employee; second, directing the Federal agencies charged with the responsibility for enforcement of Federal equal employment opportunity laws to help eliminate discriminatory wage-setting practices and discriminatory wage differentials; third, encouraging public and private employers to use equitable job-evaluation techniques in order to eliminate discriminatory wage-setting practices and discriminatory wage differentials; and, fourth, bringing the Federal Government's wage-setting practices into compliance

with the purpose of the proposed act and the provisions of title V of the United States Code which provide that wages be proportional to the duties, difficulty, responsibility, or qualification requirements of the work performed and that equal pay should be provided for work of equal value performed by Federal employees.

Section 3 would set forth definitions of the various terms utilized in the act.

Section 4 would set forth specific actions to be taken by the Equal Employment Opportunity Commission [EEOC]. First, the Commission would be directed to issue guidelines for the identification and elimination of discriminatory wage-setting practices and discriminatory wage differentials.

Mr. President, the EEOC is charged by Executive order with the responsibility for providing leadership within the Federal Government on matters relating to the equal employment laws. Its nonaction on the important and urgent issue of pay equity is inexcusable. Employers are entitled to some guidance from the Commission to enable them to identify and eliminate discriminatory wage-setting practices. In the past, the Commission has made many important contributions to the development of equal employment opportunity law; for example, its early guidelines on employment testing issues contributed to the development and utilization of validated testing procedures. It should be fulfilling a similar role with respect to the development and utilization of equitable job-evaluation techniques.

In order to bring about appropriate coordination between the Commission and the Department of Labor's Office of Federal Contract Compliance Programs [OFCCP], the office responsible for enforcement of equal employment opportunity rules with respect to Federal contractors and subcontractors, section 4 of the bill would specifically require consultation with OFCCP in the promulgation of the Federal guidelines. Section 4 also would direct the Commission to develop and carry out a continuing program of education, information, and technical assistance with respect to the elimination of discriminatory wage-setting practices and discriminatory wage differentials and the development and utilization of equitable job-evaluation techniques.

Mr. President, in order to enhance adequate congressional oversight, section 4 contains provisions directing the Commission to make annual reports to the President and Congress on the steps it has taken, and plans to take, to carry out the proposed act. A self-evaluation of the effectiveness of the Commission's efforts is to be included in the report along with inclusion of such recommendations for statutory changes or administrative action, or both, as the Commission considers necessary to effectuate the purpose of

the proposed act. The requirements with respect to this report have been made rather detailed in light of the fact that the Commission has shown no willingness voluntarily to take any action in this area.

Section 5 would set forth directives to the Secretary of Labor, acting through OFCCP, with regard to Federal contractors. One primary way in which the Federal Government has sought to eliminate discrimination in employment is to obligate Federal contractors and subcontractors to ensure nondiscrimination with regard to employment practices and to take affirmative steps to provide equal employment opportunities throughout all of their activities as a condition of the contract. Executive Order 11246, promulgated by President Johnson in 1965, provides this basic directive and requires that Federal contractors meet these requirements. The lead agency for enforcement of this Executive order is the Department of Labor, through OFCCP.

Section 5 would specifically direct the Secretary of Labor, acting through OFCCP, to issue guidelines to require Federal contractors to identify and eliminate discriminatory wage-setting practices and discriminatory wage differentials. Those guidelines would be issued after and should be consistent with the guidelines that would be required to be issued by EEOC under section 4. Section 5 also would require that such OFCCP guidelines also provide that Federal contractors required to submit written affirmative action plans or updates of existing plans include in such plans or updates—within a year after the guidelines are issued—a review of their wage-setting practices, an identification of any discrimination in those practices, and a plan of action to correct such discrimination. Section 5 would also strongly encourage these contractors to use equitable job-evaluation techniques by requiring OFCCP to conduct pay-equity compliance reviews for those who fail to do so.

Currently, OFCCP guidelines provide generally that Federal contractors with more than 50 employees and a contract of more than \$50,000 must submit a written affirmative action plan and require annual updating of such plans. Section 5 would thus require those contractors to include in their written affirmative action plans additional material relating to discriminatory wage-setting practices and discriminatory wage differentials. Although the guidelines would not require every Federal contractor to adopt an equitable job-evaluation system for use in setting wage rates, they would provide a strong stimulus to do so.

Section 5 would further require the Secretary of Labor to submit to the President and Congress annual reports describing in detail the activities undertaken by the Department to carry out the provisions of the proposed act. Again, this reporting requirement is designed to give Congress adequate information to exercise its oversight responsibilities.

Mr. President, as I indicated earlier, section 6 contains the provisions of the revised version of S. 519 which the Senator from Washington [Mr. EVANS] and I developed during the 99th Congress. Prior to adjournment, S. 519 had 32 cosponsors.

Following the major recommendations contained in the GAO report, this section would provide for the establishment of an independent commission to select a consultant to carry out a study of the classification, grading, and pay-setting practices within and between the position-classification system and the job-grading system used for Federal jobs. The study would use both job evaluation and economic analysis techniques to determine whether the development or implementation of these processes result in the payment of rates of basic pay for positions in which either sex is numerically predominant or any race or ethnic group is disproportionately represented that are not in proportion to the duties, difficulty, responsibility, or qualification requirements of the work performed as required by the existing applicable provisions of title 5 of the United States Code. The legislation provides for a timetable for the completion of this study and provides that funds shall be allocated from the amounts appropriated to OPM for general operating purposes to pay the costs of carrying out such a study.

Section 7 would provide that each Federal agency required under section 717 of the Civil Rights Act to submit an equal employment opportunity plan must include in such plan, or update of an existing plan, information on its wage-setting practices and wage differentials. Again, we are building on a written plan already required to be prepared under section 717; this legislation would simply add to what that plan is required to include new information with respect to discriminatory wage-setting practices and discriminatory wage differentials. The required information would be required to be submitted within 1 year of the date of enactment.

Finally, Mr. President, section 8 would require the EEOC to provide the President and Congress with a detailed report on its enforcement activities relating to the Equal Pay Act. The statistics relating to the average earnings of women indicate a continuing failure to achieve equal pay for equal work. Congress needs a clear understanding of what the Commission has

been able to do since responsibility for Equal Pay Act violations was transferred to it in 1978 and of what was done by the Department of Labor prior to the transfer. Section 8 also would require submission to the Congress of the Department of Labor's comments on the Commission's report.

#### FEMINIZATION OF POVERTY

Mr. President, pay equity is a matter of fundamental fairness. It is also a matter of economic necessity.

Our Nation has increasingly been experiencing what is graphically described as the feminization of poverty. Two out of three adults in this Nation living in poverty are women. As the National Advisory Council on Economic Opportunity noted in 1981, "Poverty among women is becoming one of the most compelling social facts of this decade."

Lack of comparable pay for work of comparable worth is a primary factor in producing this poverty rate.

For men in our society, poverty often comes as a consequence of joblessness and the way out of poverty is through employment. But many women live in poverty even though they already have jobs and are working full-time; their jobs just do not pay a living wage. The poverty rate for families headed by a full-time working woman is more than double that for households headed by full-time working men.

The National Advisory Council on Economic Opportunity also concluded that if working women earned the same wages that similarly qualified men now earn, the number of families living in poverty would be cut in half.

#### CONCLUSION

Mr. President, the elimination of discriminatory wage-setting practices that deny female workers a fair return for their labor should be of paramount importance to every American. The issue of wage discrimination is not a woman's issue or a special interest issue. It is a national issue. It goes to the very heart of our national commitment to the eradication of poverty, our commitment to a just society, and our commitment to revitalize our economy. Pay inequities must end. We cannot afford the enormous societal costs—in low morale, lost productivity, increased government support payments, and perpetuation of injustice—of allowing pay inequities to persist.

Mr. President, I ask unanimous consent that the text of S. 5 be inserted in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 5

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Pay Equity Act of 1987".*

#### STATEMENT OF FINDINGS AND PURPOSE

SEC. 2. (a) The Congress finds that—

(1) the average earnings of full-time female workers are significantly lower than the average earnings of similarly situated male workers;

(2) this average earnings difference arises, in significant part, because wages paid in occupational fields or job classifications held predominantly by female workers are lower than those paid in occupational fields or job classifications held predominantly by male workers, and this differential results, in significant part, from wage-setting practices based on the sex of the employees, rather than any intrinsic differences in the comparable worth of the job as measured by the education, training, skills, experience, effort, responsibility, or working conditions required for the job or other factors exclusive of sex;

(3) because of these discriminatory wage differentials resulting from discriminatory wage-setting practices, many female workers are underpaid and undercompensated for their work efforts and thereby denied equal employment opportunities;

(4) these discriminatory wage-setting practices and discriminatory wage differentials result in depressing the wages, devaluing the work, and lowering the living standards of many female workers and contribute to the increasing number of women and children living at or near the poverty level and a consequent increase in their need for various forms of government assistance;

(5) the contributions of female workers are vital to our economy, and the continued existence and tolerance of these discriminatory wage-setting practices and discriminatory wage differentials prevent full utilization of the talents, skills, experience, and potential contributions of female workers and result in the exploitation of those workers.

(6) workers who are members of particular racial or ethnic groups, older workers, and disabled workers may experience similar discriminatory wage-setting practices and discriminatory wage differentials;

(7) these discriminatory wage-setting practices and discriminatory wage differentials persist despite applicable State and Federal equal employment opportunity laws and directives;

(8) the Federal agencies charged with the responsibility for enforcement of Federal equal employment opportunity laws and directives have failed to take action, pursuant to applicable such laws and directives, to seek to eliminate discriminatory wage-setting practices and discriminatory wage differentials; and

(9) objective job-evaluation techniques now exist which are utilized by many public and private employers to determine the comparative value of different jobs through a system which numerically rates the basic features and requirements of a particular job, and additional efforts should be made to develop, improve, and implement these techniques so as to help eliminate discriminatory wage-setting practices and discriminatory wage differentials.

(b) Recognizing that the elimination of discriminatory wage-setting practices and discriminatory wage differentials is in the public interest, the purpose of this Act is to help eliminate such practices and differentials by—

(1) providing for the development and utilization of equitable job-evaluation techniques that will promote the establishment

of wage rates based upon the work performed rather than the sex, race, ethnicity, age, or disability of the employee;

(2) providing to those Federal agencies charged with the responsibility for enforcement of Federal equal employment opportunity laws and directives specific guidance and direction to help eliminate discriminatory wage-setting practices and discriminatory wage differentials;

(3) encouraging and stimulating public and private employers to eliminate discriminatory wage-setting practices and discriminatory wage differentials through the development and utilization of equitable job-evaluation techniques in setting wage rates; and

(4) bringing the Federal Government's wage-setting practices into compliance with the purpose of this Act, the provisions of sections 5101 and 5341 of title 5, United States Code, which provide that rates of basic pay for federal positions are in proportion to the duties, difficulty, responsibility, or qualification requirements of the work performed, and section 2301(b)(3) of such title, which provides that equal pay should be provided for work of equal value in Federal employment.

#### DEFINITIONS

SEC. 3. As used in this Act except in section 6, the term—

(1) "Commission" means the Equal Employment Opportunity Commission established by section 705 of the Civil Rights Act of 1964 (42 U.S.C. 2000e-4);

(2) "Secretary" means the Secretary of Labor;

(3) "Federal agency" means any agency of the Federal Government or the District of Columbia, including any executive agency as defined in section 105 of title 5, United States Code, the United States Postal Service and the Postal Rate Commission, and the Library of Congress, the General Accounting Office, and the Office of Technology Assessment;

"discriminatory wage-setting practices" means—

(A) the setting of wage rates paid for jobs held predominantly by female workers lower than those paid for jobs held predominantly by male workers or

(B) the setting of wage rates paid for jobs held by workers of a particular racial or ethnic group, older workers, or disabled workers lower than those paid for jobs held predominantly by other workers

based upon sex, race, ethnicity, age, or disability of the workers rather than any other factor although the work performed requires comparable education, training, skills, experience, effort, and responsibility, and is performed under comparable working conditions;

(5) "discriminatory wage differentials" means different rates of compensation resulting from utilization of discriminatory wage-setting practices;

(6) "job-evaluation technique" means an objective, quantitative method of rating positions within occupations based upon factors such as the skill, effort, responsibilities, qualification requirements, and working conditions involved so that comparisons may be made with respect to the positions and occupations involved; and

(7) "equitable job-evaluation technique" means a job-evaluation technique which, to the maximum extent feasible, does not include components for determining the comparative value of a job that reflect the sex, race, ethnicity, age, or disability of the employee.

#### EQUAL EMPLOYMENT OPPORTUNITY COMMISSION ACTIVITIES

SEC. 4. (a)(1) Not later than nine months after the date of the enactment of this Act, the Commission, in consultation with the secretary (acting through the Office of Federal Contract Compliance Programs in the Department of Labor), shall publish in the Federal Register, for public review and comment, proposed guidelines for the purpose of identifying and eliminating discriminatory wage-setting practices and discriminatory wage differentials. Such guidelines shall include recommendations for utilization of equitable job-evaluation techniques in setting rates for employees.

(2) Not later than one year after such enactment date, the Commission, in consultation with the Secretary (acting through the Office of Federal Contract Compliance Programs), shall publish final guidelines for the purpose described in paragraph (1).

(b) In order to effectuate the purpose of this Act, the Commission shall develop and carry out a continuing program of education and information, under which, among other things, the Commission shall—

(1) undertake and promote research into the development of equitable job-evaluation techniques;

(2) develop a program for maximum dissemination and utilization of such equitable job-evaluation techniques; and

(3) develop and implement a program for providing appropriate technical assistance to any public or private entity requesting such assistance to eliminate discriminatory wage-setting practices and discriminatory wage differentials.

(c) On February 1, 1989, and annually thereafter, the Commission shall submit to the President and the Congress a report describing in detail the activities of the Commission during the preceding fiscal year to carry out the provisions of subsection (b). Such report shall include an evaluation of the effectiveness of such activities, a description of the Commission's plans for carrying out the provisions of subsection (b) and effectuating the purpose of this Act during the fiscal year in which the report is submitted, and any recommendations for statutory changes or administrative action, or both (other than any measure which would result in a reduction in the rate of pay payable for any position), that the Commission considers necessary to effectuate such purpose.

#### FEDERAL CONTRACTS

SEC. 5. (a)(1) Not later than thirty days after the date of the publication final guidelines under section 4(a)(2), the Secretary (acting through the Office of Federal Contract Compliance Programs) shall publish in the Federal Register proposed guidelines for the purpose of requiring all contractors of the United States to identify and eliminate discriminatory wage-setting practices and discriminatory wage differentials. Such guideline shall—

(A) include provisions to encourage all such contractors to develop and utilize equitable job-evaluation techniques in setting wages rates for employees;

(B) provide that each such contractor that is required by Federal law or directive to submit a written affirmative action plan shall (i) with respect to each such plan or update of each such plan submitted after the date of the publication of the final guidelines published pursuant to paragraph (2), include in such plan or update a review and identification of any discriminatory wage-setting practices and discriminatory

wage differentials within such contractor's labor force and a plan of action to eliminate any such practices and differentials, or (ii) if such contractor does not submit such plan or update within one year after such publication date, submit, within such one-year period, an amendment to its existing plan which shall include the information described in subclause (i); and

(C) provide for compliance reviews of any such contractor that has failed to utilize equitable job-evaluation techniques in setting wage rates for employees.

(2) Not later than sixty days after the date of the publication of the proposed guidelines under paragraph (1), the Secretary shall publish final guidelines for the purpose described in paragraph (1).

(b) On February 1, 1989, and annually thereafter, the Secretary shall submit to the President and the Congress a report describing in detail the activities by the Office of Federal Contract Compliance Programs pursuant to subsection (a) undertaken during the preceding fiscal year and planned to be undertaken during the fiscal year in which the report is submitted. Such report shall include any recommendations for statutory changes or administrative action, or both (other than any measure which would result in a reduction in the rate of pay payable for any position), that the Secretary considers necessary to effectuate the purpose of this Act.

#### FEDERAL EMPLOYEE COMPENSATION STUDY

SEC. 6. (a) This section may be cited as the "Federal Employee Compensation Study Act of 1987".

(b) For the purpose of this section—

(1) the term "position" means employee positions that are subject to classification under chapter 51 of title 5, United States Code, or the job-grading system under subchapter IV of chapter 53 of such title;

(2) the term "Commission" means the Commission on Compensation established under subsection (c);

(3) the term "Director" means the Director of the Office of Personnel Management;

(4) the term "employee" means an individual to whom chapter 51 or subchapter IV of chapter 53 of such title applies;

(5) the term "labor organization" shall have the meaning given such term by section 7103(a)(4) of such title;

(6) the term "executive agency" shall have the meaning given such term by section 105 of such title;

(7) the term "job-evaluation analysis" means an objective quantitative method of rating positions within occupations based upon factors such as the skill, effort, responsibilities, qualification requirements, and working conditions involved so that comparisons may be made with respect to the positions and occupations involved; and

(8) the term "economic analysis" means a method analyzing differentials in pay between and among positions within occupations in order to determine if, and the extent to which, those differentials are attributable to factors such as seniority, merit, productivity, education or work experience, geographic factors, supply and demand factors, or any other factors exclusive of sex, race, or ethnicity.

(c) There is established a commission to be known as the Commission on Compensation Equity.

(d) In order to determine whether distinctions between rates of basic pay for Federal jobs in executive agencies of the United States Government reflect substantial dif-

ferences in the duties, difficulty, responsibility, and qualification requirements of the work performed, in accordance with sections 5101 and 5341 of title 5, United States Code, and are not based on considerations of sex, race, or national origin, the Commission shall provide, by contract with the consultant selected pursuant to subsection (h), for—

(1) the conduct of a study of classification, grading, and pay-setting processes within and between the position classification system under chapter 51 of such title and the job-grading system under subchapter IV of chapter 53 of such title, using standard job-evaluation and economic analysis techniques, to determine whether the development or implementation of these processes result in the payment of rates of basic pay for positions in which either sex is numerically predominant or any race or ethnic group is disproportionately represented that are not in proportion to the duties, difficulty, responsibility, or qualification requirements of the work performed, and

(2) the preparation and submission of a report containing the findings of such study, including a list of any such positions and the extent of the differences in the rates of pay in such cases.

(e)(1) Not later than eighteen months after the date of the enactment of the Act, the Commission shall transmit to the appropriate Committees of the Congress the report required by subsection (d) and shall provide a copy of this report to the Director.

(2) The report shall include—

(A) the Commission's findings resulting from the study; and

(B) the Commission's recommendations (other than any recommendation which would result in a reduction in the rate of pay payable for any position) for any administrative or legislative actions, or both, that it considers appropriate (including any recommendations for modification of the provisions of subsection (g)).

(3) Not later than ninety days after the Commission submits its report to the appropriate committees of the Congress pursuant to subsection (e)(1), the Director shall submit to such committees and the Commission a report commenting on the Commission's report and specifying the Director's plan (and timetable thereof) to carry out each of the Commission's recommendations or, in the event that the Director does not specify a plan to carry out one or more of such recommendations, the Director's reasons for not specifying such plan.

(4) Not later than sixty days after the Director submits the report to the appropriate committees of the Congress pursuant to subsection (e)(3), the Commission shall submit to such Committees any additional comments that the Commission considers appropriate in response to the Director's report.

(5) The study prepared by the consultant selected pursuant to subsection (h) and any findings, conclusions, recommendations, or comments by the consultant or the Commission under this section with respect to such study shall be considered to be of an advisory nature only.

(f)(1)(A) The Commission shall be composed of nine members as follows:

(i) Two appointed by the President of the United States.

(ii) One appointed by the majority leader of the Senate.

(iii) One appointed by the minority leader of the Senate.

(iv) One appointed by the Speaker of the House of Representatives.

(v) One appointed by the minority leader of the House of Representatives.

(vi) Three appointed by the Director to represent Federal employee labor organizations, one designated (and certified to the Director) by each of the three respective labor organizations representing, as exclusive representatives, the largest number of individuals occupying positions that are subject to chapter 51 or subchapter IV of chapter 53, of title 5, United States Code.

(B) Members of the Commission shall not be Members of Congress and shall, to the maximum extent practicable, be chosen from among persons who have extensive knowledge and technical expertise in the major areas of the Commission's consideration and study.

(2) All appointments under subsection (f) shall be made not later than sixty days after the date of the enactment of this Act.

(g)(1)(A) The President shall designate a Chairman of the Commission from among the Commission members. The Commission shall elect a Vice-Chairman from among its members. The Vice-Chairman shall act as Chairman in the event of the absence or incapacity of the Chairman.

(B) The Commission shall adopt such rules and regulations it considers necessary to establish its procedures and to govern the manner of its operations, its organization, and its personnel.

(C) Five members of the Commission shall constitute a quorum.

(D) Any vacancy in the Commission shall not affect its powers except with respect to satisfaction of the quorum requirements in subparagraph (C). Such vacancy shall be filled in the manner in which the original appointment was made.

(2) Each member of the Commission who is not an officer or employee of the United States Government shall be paid compensation at a rate equal to the daily equivalent of the rate of basic pay in effect for level IV of the Executive Schedule for each day the member is engaged in the performance of the duties of the Commission.

(3)(A) The Commission may appoint, terminate, and subject to subparagraph (B), fix the compensation of such personnel as it considers advisable to employ to assist in the performance of its duties, without regard to the civil services laws, the provisions of title 5, United States Code, or any other law relating to the number, classification, or compensation of employees. The Commission may also procure temporary and intermittent services in carrying out its responsibilities. The Chairman shall appoint an executive director of the Commission with the approval of a majority of the Commission members.

(B) An employee of the Commission may not receive compensation at a rate exceeding the rate of pay payable for grade GS-18 under section 5332 of title 5, United States Code.

(C) Service of an individual as a member of the Commission or as an employee of the Commission shall not be considered service in an appointive or elective position in the United States Government for the purposes of section 8344 of title 5, United States Code.

(4) All members and employees of the Commission and all individuals performing temporary or intermittent services for the Commission shall, while performing the duties of the Commission, be paid per diem, travel, and transportation expenses in the

same manner as provided for under subchapter I of chapter 57 of title 5, United States Code.

(5)(A) The Commission or any member authorized by the Commission may, for the purposes of carrying out this section, hold such hearings and sit and act at such times and places, take such testimony, have such printing and binding done, enter into such contracts and other arrangements, with or without consideration or bond, and take any other actions that the Commission considers advisable, to the extent that amounts provided pursuant to subsection (j) are available. Any member of the Commission may administer oaths or affirmations to witnesses appearing before the Commission or before such member.

(B) The Commission is authorized to obtain directly from any officer, department, agency, establishment, or instrumentality of the United States Government any information, suggestions, estimates, and statistics that the Commission considers necessary to carry out this section. Each such officer, department, agency, establishment, or instrumentality shall furnish, to the extent permitted by law, such information, suggestions, estimates, and statistics directly to the Commission, upon request made on behalf of the Commission.

(C) The Commission may use the United States mails and receive administrative support from the Administrator of General Services in the same manner and under the same conditions as departments and agencies of the United States Government.

(D) No officer or agency of the United States Government shall require the Commission to submit any report, recommendation, or other matter to any such officer or agency for approval, comment, or review before submitting such report, recommendation, or other matter to the Congress or to the President.

(E) The Commission shall meet from time to time, as its members consider appropriate.

(g) The Commission shall cease to exist ninety days after the date on which it submits its comments pursuant to subsection (e)(4).

(h)(1) The Commission shall solicit from the Comptroller General of the United States, the Congressional Office of Technological Assessment, and the National Academy of Sciences, and the Comptroller General and the Office shall provide to the Commission not later than 60 days after the date of such solicitation, a list of consultants which on the basis of their objectivity, extensive knowledge, and technical expertise in the matters to be studied pursuant to this section are appropriate to conduct the study required by subsection (d).

(2) From among the consultants on the lists provided pursuant to paragraph (1), the Commission shall select one consultant to conduct such study.

(i) Nothing in this section shall be construed to limit any of the rights or remedies provided under the Civil Rights Act of 1964, section 6(d) of the Fair Labor Standards Act of 1938, or any other provision of law relating to discrimination on the basis of race, color, religion, sex, national origin, handicap or age.

(j) Of the sums appropriated to the Office of Personnel Management for general operating expenses for fiscal year 1988 and 1989, such amount as is estimated by the Comptroller General of the United States as necessary to carry out this section shall be

made available to pay the expenses of the Commission and shall remain available for such purpose until September 30, 1990.

**FEDERAL DEPARTMENT AND AGENCY EQUAL EMPLOYMENT OPPORTUNITY PLANS**

Sec. 7. Each Federal agency responsible for submitting an equal employment opportunity plan pursuant to section 717 of the Civil Rights Act of 1964 (42 U.S.C. 2000e-16) shall include, in each such plan or update of such plan submitted to the Commission after the date of the enactment of this section, a review and identification of any discriminatory wage-setting practices and discriminatory wage differentials with respect to its labor force and a plan of action to eliminate any such practices and differentials. Any such agency which does not submit such plan or update within one year after such enactment date shall, not later than one year after such enactment date, submit an amendment to its existing plan which shall include the information described in the preceding sentence.

**EQUAL PAY ACT REPORT**

Sec. 8. (a) Not later than January 1, 1988, the Commission shall submit to the President and the Congress a report describing in detail the activities of the Commission with respect to enforcement of the provisions of the Equal Pay Act of 1963 (29 U.S.C. 206(d)) since the date of transfer of authority for Equal Pay Act enforcement activities to the Commission pursuant to Reorganization Plan Numbered 1 of 1978. Such report shall include with respect to such activities—

(1) information on the number of complaints received and processed by the Commission, their disposition, and the allocation of Commission resources to Equal Pay Act enforcement activities.

(2) a comparison of the disposition of, and allocation of resources to, these cases by the Commission to the disposition of, and allocation of resources to, similar cases by the Department of Labor prior to the transfer of such responsibilities to the Commission; and

(3) any recommendations for statutory changes or administrative action, or both, that the Commission considers necessary to carry out the provisions of such Act and effectuate the purpose of this Act.

(b) Not later than ninety days after the date of the submission of the report required by subsection (a), the Secretary shall submit to the President and the Congress a report commenting on the Commission's report and containing any recommendations for statutory changes or administrative action, or both, that the Secretary considers necessary to carry out the provisions of such Act and effectuate the purpose of this Act.

By Mr. CRANSTON (for himself, Mr. MATSUNAGA, Mr. DECONCINI, Mr. MITCHELL, Mr. ROCKEFELLER, Mr. GRAHAM, and Mr. LAUTENBERG):

S. 6. A bill to amend title 38, United States Code, to improve various aspects of Veterans' Administration health-care programs, to provide certain new categories of persons with eligibility for readjustment counseling from the Veterans' Administration and to postpone the transition period for the Vet Center Program, to authorize the establishment of a pilot program for the furnishing of noninstitutional care to certain veterans,

and to increase the per diem rates paid to States for providing care to veterans in State homes; and to prohibit the excessing of certain Veterans' Administration properties; and to promote greater emphasis by affiliated health-professional training institutions on geriatric training and research, and for other purposes; to the Committee on Veterans' Affairs.

**VETERANS' HEALTH-CARE IMPROVEMENT ACT OF 1987**

Mr. CRANSTON. Mr. President, as the chairman of the Committee on Veterans' Affairs, I am today introducing S. 6 the proposed "Veterans' Health-Care Improvement Act of 1987." I am joined in introducing this measure by my good friends and colleagues on the Veterans' Affairs Committee, Senators MATSUNAGA, DECONCINI, MITCHELL, and ROCKEFELLER, as well as by Senator LAUTENBERG. This bill has as its basic purpose the continued maintenance and improvement of the VA's ability to meet the health-care needs of our Nation's veterans and their dependents. In view of my very strong concern that we must find ways to reduce the Federal deficit, this legislation seeks to find ways to improve VA programs without incurring any significant new costs.

**SUMMARY OF PROVISIONS**

Mr. President, the 10 substantive provisions in this measure would:

First, provide a basis for a 1-year extension—from October 1, 1987, until October 1, 1988—of the date by which the VA's Readjustment Counseling Program for Vietnam-era veterans is to begin a 2-year transition from being a program providing counseling services primarily through Vet Centers, which are located apart from the VA's general medical facilities, to being a program providing such services primarily through the VA's general medical facilities (section 4(b)).

Second, require the Administrator to conduct a 4-year pilot program through not less than 5 nor more than 10 demonstration projects where veterans eligible for and otherwise in need of VA institutional care would instead receive care, including health-related services from non-VA entities, in noninstitutional settings (section 5).

Third, increase the rates of per diem payments to State veterans' homes for eligible veterans (section 7).

Fourth, provide eligibility for VA readjustment counseling to (1) Armed Forces activity duty personnel who served during the Vietnam era, and (2) persons who served in the Armed Forces after the Vietnam era in combat situations (section 4(a)).

Fifth, provide for a revision of the statutory framework of the Office of the VA's Chief Medical Director so as to establish a second Associate Deputy Chief Medical Director position and to authorize the appointment of certain health-care professionals other than

physicians to various positions in that office (section 8).

Sixth, provide authority for the VA to furnish services to a service-connected veteran or the spouse of a service-connected veteran to achieve pregnancy, for example through artificial insemination or in vitro fertilization, in cases in which a veteran's service-connected disability impairs procreative ability (section 2).

Seventh, revise eligibility for VA domiciliary care so as to reflect more accurately the VA's current philosophy and practice in furnishing that type of care (section 3).

Eighth, eliminate the Administrator's authority to restrict eligibility for VA health-care benefits (section 6).

Ninth, prohibit the VA from excessing certain lands located in southern California (section 9).

Tenth, set forth findings of Congress regarding the need to prepare for the impact of the aging of the U.S. population and of the importance of the Veterans' Administration playing a leadership role in that regard, particularly with reference to increasing the efforts by medical and other health-professional schools affiliated with the VA in training professionals to care for older patients and in research into the aging process and diseases associated with aging, and require a one-time report from the Administrator, due not later than March 1, 1988, on the VA's activities, and the success of those activities, to promote such increased efforts by affiliated schools (section 10).

**VETERANS' HEALTH-CARE IMPROVEMENT ACT OF 1987**

Mr. President, section 4 of the measure I am introducing contains two provisions relating to the VA's Readjustment Counseling Program for Vietnam veterans—one of which expands the categories of individuals who are eligible to request counseling through that program and the other of which provides a basis for delaying by 1 year, from October 1, 1987, to October 1, 1988, the date on which a 2-year transition in that program, which is described in more detail below, is to begin.

As the author of the legislation that initially established the VA's Readjustment Counseling Program—section 103 of Public Law 96-22, enacted in 1979—and various extensions of that program, I have been deeply interested in this program since its inception and have been very gratified over the years that the program has achieved such great success, helping so many veterans—over 500,000 thus far. At present, there are 189 Vet Centers—primarily storefront facilities located apart from other VA health-care facilities—across the Nation providing counseling and other assistance to eligible Vietnam-era veterans and their

families. The two provisions in section 4, if enacted, will improve and strengthen this ongoing program.

#### EXTENSION OF READJUSTMENT COUNSELING ELIGIBILITY

Mr. President, under current law, section 612A of title 38, United States Code, eligibility for readjustment counseling services is limited to veterans of the Vietnam era. Provisions in section 4(a) of this measure would make two additional categories of individuals eligible for such services.

First, individuals who served during the Vietnam era but who are still on active duty—and thus are not “veterans” under the applicable title 38, United States Code, definition—would be made eligible for readjustment counseling. Although I am not aware of any data suggesting a widespread unmet need for counseling among active-duty personnel who served in Vietnam, I continue to hear from individuals working in the VA’s Vet Center Program and also from such active-duty personnel directly about requests from active-duty personnel for such counseling. Indeed, I have been aware of informal efforts at some Vet Centers to provide services to active-duty personnel despite a lack of express authority to do so. I do not believe that any individual who served in the Armed Forces during the Vietnam era and feels a need for readjustment counseling should be barred from eligibility simply because he or she is still on active duty. Section 4(a) of the bill would remove that bar.

The second change in eligibility for readjustment counseling that would be made by this section of the bill would be to add certain service after May 7, 1975, the end of the Vietnam era, to the period of service that makes an individual eligible for readjustment counseling. Under this change, the Administrator, after consultation with the Secretary of Defense, would be authorized to specify that services during periods of time in specific locations where U.S. Armed Forces were under hostile fire would be qualifying service for readjustment counseling purposes. This provision recognizes that members of our Armed Forces are at times exposed to situations short of declared—such as existed in Beirut or Grenada, or in connection with our actions against Libya or that possibly exist today in Central America—that might produce the need for readjustment counseling to help deal with the psychological aftermath of their experiences. I want to stress my view that this authority, if enacted, should be used only in very limited circumstances in which our service personnel actually experienced combat situations.

I also note that it is my intention that the Vet Center Program would meet out of existing resources whatever increased demand for services re-

sulted from enactment of either or both of these changes. I am not proposing nor would I expect that there would be any expansion in the size of the Vet Center Program as a result of the enactment of these provisions. Finally, with reference to the eligibility criteria, I note that other provisions in the section—discussed below—will require the VA Administrator to comment on the desirability of extending eligibility to veterans from earlier war periods.

#### DELAY IN TRANSITION PERIOD

There are a number of milestones in current law, as amended in 1983 by Public Law 98-160 and again last year in Public Law 99-576, which are related to a process whereby the existing readjustment counseling program is scheduled to undergo a 2-year transition beginning October 1, 1987, from a program providing services primarily through the Vet Centers to a program providing such services primarily through general VA health-care facilities, such as medical centers and outpatient clinics. The “primarily” criterion is generally construed—including by the VA’s general counsel in a White Paper prepared last year—to require that by the end of the transition period a majority of readjustment counseling programs must be operated at traditional VA facilities.

The first of these milestones was October 1 of last year, the date by which the Administrator of Veterans’ Affairs was mandated to submit a report to the two Veterans’ Affairs Committees on the results of a comprehensive study of the prevalence and incidence among Vietnam veterans of posttraumatic stress disorder—PTSD—and other postwar psychological problems in readjusting after their service. Following that report, and taking the results of the study into consideration, the Administrator is required under current law to submit two additional reports before the transition period begins. The first of these is due on April 1, 1987, and is required to set forth the Administrator’s evaluation of the VA’s effectiveness in meeting the readjustment needs of Vietnam-era veterans and his opinion on whether the VA should go forward with the transition effort as in current law or whether there should be some modification of that requirement. The second report, due on July 1, 1987, must set forth the Administrator’s plan for accomplishing the transition during fiscal year 1988 and 1989. Also, as a result of a provision which I authored last year and which was enacted in Public Law 99-576, there is a requirement for a third, midtransition report, due under current law by February 1, 1989, on the experience of the VA during the first year of the transition.

This approach of a comprehensive study together with sequenced reports

was designed to enable the Congress to make informed decisions about the future of the Readjustment Counseling Program, including the nature and timing of its integration into other VA health-care facilities. However, in a May 12, 1986, letter transmitting proposed legislation to the Congress, and Veterans’ Administration noted that the private contractors who are carrying out the study on PTSD and other postwar psychological problems, which was due last October 1, “have experienced delays in the study’s design and initiation.” In view of those delays, the VA proposed moving the due date for the report on the study back one year, to October 1, 1987.

Since the time of that initial notification of problems with the study’s progress, it has become apparent that the study timetable has become seriously disrupted.

In May of last year, committee staff met with representatives of the VA and the study contractor, Research Triangle Institute, Inc., of North Carolina, to review various problems and allegations that had arisen about the scope and conduct of the study. Thereafter, on June 6, the chairmen and ranking minority members of both the House and Senate Committees on Veterans’ Affairs wrote to the Office of Technology Assessment asking OTA to convene a panel to review the situation and make recommendations. OTA did that and on September 5 issued a report to the committee recommending some major alterations in the study personnel and VA supervisory relationship to the study.

On November 24, 1986, the VA responded to the OTA recommendations and, late last month, committee staff met with the VA, OTA, and representatives of the contractor. From the VA’s reply and the followup meeting, it now appears that the VA is making a bona fide effort to put the study back on track and to complete it swiftly. According to the contractor, the interim study report will be submitted a year late, on October 1 of this year; the final report by December 31, 1988.

Because I continue to consider this PTSD/Vietnam veterans readjustment policies and needs assessment study vitally important and relevant to the potential needs of Vietnam-era veterans for readjustment counseling and related services, I believe that, as originally conceived, it definitely should be considered in the planning for and conduct of the transition period for the Vet Center Program.

The measure we are introducing today, in section 4(b), would provide that if, as it appears nearly inevitable at this point, the Administrator does not have the benefit inevitable at this point, the Administrator does not have the benefit of the results of this study in time to take them into account in

preparing the April 1, 1987, transition-planning report, the start of the transition period will be delayed 1 year, until October 1, 1988. In addition, in the event of that contingency, our bill would extend for a similar period the due date of the three report requirements that I just described. It would also amend the requirements relating to two of the reports—first, to require the Administrator, as part of the report on plans for the transition of the Readjustment Counseling Program, to comment on the desirability of expanding eligibility for readjustment counseling to veterans of other wars, and second, to require that the report on the first year of the transition contain the Administrator's views on whether the transition requirement should be modified.

Mr. President, I note that I am joining with the Senator from Arizona [Mr. DeCONCINI], also a cosponsor of this measure, in also introducing today a separate bill to delay the transition period and the three reporting provisions by 1 year. I very much hope that our committee will be able to move forward very rapidly with legislation to provide for a year's delay in the beginning of the transition period.

#### TECHNICAL CHANGE

Finally, Mr. President, I note that the bill contains, in section 4(b), a technical change in the terminology used to describe the transition period. Currently, the section 612(g)(1)(A) refers to providing readjustment counseling services "primarily through centers located in facilities situated apart from the health-care facilities operated by the Veterans' Administration for the provision of other health-care services under other provisions of this chapter." Our bill would refer to a program providing readjustment counseling through "Vet Centers" and define that term as "Facilities which are operated by the Veterans' Administration for the provision of services under this section and which are situated apart from Veterans' Administration general health-care facilities." No substitute change in the law would be made by this provision.

#### PILOT PROGRAM OF NONINSTITUTIONAL ALTERNATIVES TO INSTITUTIONAL CARE

Mr. President, section 5 of the bill would require the VA to conduct, from January 1, 1988, through December 31, 1991, a 4-year pilot program at not less than 5 nor more than 10 demonstration project sites to evaluate non-institutional alternatives to institutional care. Through this pilot program, the VA would provide certain veterans with medical, rehabilitative, and other health services and, by contract with non-VA entities, with health-related services.

These health and health-related services would be provided in noninstitutional settings—such as the veteran's home or a board-and-care home—

with the goal of avoiding institutional care, such as in a hospital, nursing home, or domiciliary facility, for the participants in the program.

Participation would be limited to veterans eligible for and otherwise in need of VA hospital, nursing home, or domiciliary care. Priority for care and services through the pilot program would be accorded to veterans in four categories: Those with service-connected disabilities; those who are 65 or older; those who are totally and permanently disabled; and those who are suffering from Alzheimer's disease or another form of dementia.

Mr. President, section 5 is, except for date changes and minor drafting changes, identical to section 204 of S. 2422 as reported by our committee last September. That provision—which was derived from section 8 of S. 2388, legislation I introduced on April 30, 1986, and from section 3 of S. 2445, as introduced by then-Chairman MURKOWSKI on May 8—was considered and passed by the Senate as part of an amendment to H.R. 5299 on September 30, 1986. Unfortunately, we were unable to gain House agreement on this pilot program and the provision was not included in the measure that was ultimately enacted as Public Law 99-576.

I am reintroducing this provision at this time because I remain convinced that, in light of current developments in health services which enable more individuals to receive needed care without being institutionalized and of the rapid increase in the number of veterans age 65 and older who may be seeking care from the VA in the years ahead, the VA must take steps to develop new approaches to addressing the health-care needs of veteran patients. By 1990 there will be 7.2 million veterans in this age group, and there will be 9 million veterans age 65 or older by the year 2000.

The kinds of new VA approaches this legislation envisions must include an emphasis on increased interaction with community entities that provide health and health-related services if the VA is to get the maximum health-care benefit out of every dollar spent. There also must be a greater emphasis on reducing the need for institutional care for veterans. In my view, this proposed pilot program is an appropriate response to these concerns.

With specific reference to the goal of avoiding institutional care and of providing services in an individual's home, I note that the VA, in its 1984 report, "Caring for the Older Veterans," set forth a number of objectives that were central to the agency's strategies for meeting the needs of the older veteran and that the first of these was:

To sustain older individuals' independence, comfort, and contentment in their own home environment for as long as possible, providing supportive services to do so.

Clearly, this proposed pilot program would help reach that goal.

On the issue of increased VA-community interaction and cooperation, which the pilot program is also designed to address, I am convinced that the VA must make greater use of community resources which help to maintain individuals in their homes—such as homemaker, personal care, communal or at-home nutrition, and transportation assistance services—in order for the agency to respond in a reasonably adequate way to the growing demand for care that it faces as the veteran population ages so rapidly between now and the end of the century.

We must, of course, always be greatly concerned about the cost of any new programs. However, the bill limits the total expenditures over the life of this pilot program to 60 percent of the cost that would otherwise have been incurred by the VA if the veterans participating in the program had been furnished nursing home care instead of the noninstitutional services provided under the program. It is my intention—as it was the committee's intention last year—that this pilot program would be carried out through the use of funds that would otherwise be used for the provision of more costly intermediate care and that the balance of the funds would be applied to care for more veterans than would have been served in the absence of this new, innovative program.

#### SERVICES TO OVERCOME SERVICE-CONNECTED DISABILITY AFFECTING PROCREATION

Mr. President, section 2 of the bill would authorize the VA to furnish services to help a male or a female veteran or a male veteran's spouse achieve pregnancy in cases in which the veteran's service-connected disability impairs procreative ability.

As a result of my work on behalf of a woman veteran who had a service-connected disability which prevented her from becoming pregnant, I became aware of the fact that the VA does not believe that it has legal authority under current law to provide services to help overcome such a disability. In that case, the veteran was seeking an in vitro fertilization procedure. I have also been working for over a year with representatives of the Paralyzed Veterans of America, which has expressed a strong interest on behalf of its members in such services for males suffering from spinal cord injuries.

Although I do not believe that the VA's restrictive legal interpretation of its existing authority is correct—and did my utmost to bring about a change in that interpretation—I was not successful. Hence, we are proposing in this bill to provide express authority in order to remove any doubts that may exist on this issue.

I note that this provision is derived from section 8 of S. 2388, legislation

which I authored last year and our committee favorably reported and the Senate passed in section 205 of S. 2422. Unfortunately, the House did not agree to this provision and it was not included in the measure that was ultimately enacted as Public Law 99-576.

Mr. President, because this new authority would be limited to cases in which a veteran's service-connected condition is impairing procreative ability, it would be targeted on those veterans as to whom the VA has always had the greatest responsibility—those disabled during their service. Because of this targeted focus, I anticipate that there would be a relatively limited number of veterans who would be eligible to be furnished these new services and an even smaller number who would wish to receive them. Thus, I do not foresee significant new costs associated with this proposed change in the law.

However, to the extent there are new costs associated with this new authority, it is my intention that they would be absorbed through a shift of funds from lower priority expenditures under the VA's medical care account, for which \$9.4 billion has been appropriated for fiscal year 1987, and that, as a result, no new appropriations would be provided in connection with the new authority. The end result of such a shift in resources would be an increase in services available to service-connected disabled veterans to help overcome these disabilities.

#### INCREASE IN PER DIEM PAYMENTS TO STATE VETERANS' HOMES

Mr. President, under title 38, the VA participates in two separate programs of assistance to State veterans' homes—one, a program of per diem payments to the homes for care provided to eligible veterans; the other, a program of matching grants to the States for the construction, remodeling, or renovation of State home facilities.

The State Home Program is a vital adjunct to the VA's overall efforts, both now and in the years ahead, to meet the health-care needs of older veterans, and I strongly support the overall program.

Last year, in section 224 of Public Law 99-576, the authorization of appropriations—at the level of "such sums as may be necessary"—to be made to the VA for the purpose of making matching grants to the States was extended for 3 years, through fiscal year 1989. Section 7 of the bill we are introducing today would address the other element of the State Home program by increasing the authorized per diem rates from \$7.30 to \$8.70 for domiciliary care and from \$17.05 and \$15.25 to \$20.35 for nursing home and hospital care, respectively. These proposed new per diem rates—which were last increased in April

1985—would enable the Federal Government to continue to shoulder an appropriate share of the total cost of providing care to eligible veterans in State home facilities.

The single most important element of the State Home Program is, in my view, nursing home care. The change we are proposing in the rate for nursing home care would restore the VA's share of the average cost of providing such care in State homes to approximately 25 percent, the level that was achieved following the last two increases in per diem rates in 1979 and 1984. The same percentage increase, 19.4 percent, required to increase the rate of nursing home care from \$17.05 to \$20.35, would be applied to the rate for domiciliary care, thus increasing that rate from \$7.30 to \$8.70.

The hospital care rate would be increased from \$15.25 to \$20.35 in order to eliminate the existing disparity between the rates for hospital and nursing home care. Only six States currently have State home hospital beds. Congress' goal is to encourage the addition of State Veterans' Home extended care beds and not hospital care beds.

Indeed, there is no authorization for the VA to make grants for construction of new State home hospital beds and last year, in section 224 of Public Law 99-576, we enacted a provision making expansion of existing State home hospital bed capacity the lowest priority for the expenditure of funds under that program. Hence, there is no longer any reason to continue to reimburse the States affected at unrealistic rates for their State Veterans' Home hospital beds in order to discourage the proliferation of these beds.

Finally, Mr. President, I note with favor that the administration's budget for fiscal year 1988 would request \$42 million for State home construction, the same amount requested and appropriated for fiscal year 1987, a substitutional increase over the fiscal year 1986 level of \$21 million.

#### ORGANIZATION OF THE DEPARTMENT OF MEDICINE AND SURGERY

Section 8 of this measure would amend section 4103 of title 38, relating to the organization of the Office of the Chief Medical Director [CMD], so as to establish one new position in that office, provide new flexibility in the appointment of individuals to other positions in the CMD's office, and to make various technical changes in the section.

This section is identical to section 215 of S. 2422 as reported by our committee last year, which, in turn, was derived in part from S. 2172, legislation introduced at the request of the administration. The provision derived from S. 2172 would establish a second Associate Deputy Chief Medical Director [ADCMD] as an assistant to the

Chief Medical Director [CMD] and the Deputy CMD. The establishment of this position would enable the VA to carry out fully a reorganization of the CMD's office which was first proposed last year. As part of that reorganization, the former, single ADCMD position would be divided into two positions—an ADCMD for Operations, responsible for overseeing current operations of DM&S—currently this responsibility is carried out by a Director of Operations—and an ADCMD for program development and planning, responsible for overseeing planning and program management matters.

A second principal category of changes which would be made by this provision would authorize the Administrator to appoint, in addition to physicians, certain nonphysician health-care professionals—dentists, registered nurses, optometrists, pharmacists, podiatrists, and psychologists—to various positions in the CMD's office. Thus, these nonphysician professionals would be made eligible to serve in either of the ADCMD positions. In addition, these professionals—including dentists, who are already eligible—could be appointed to the positions of Assistant CMD [ACMD] and Medical Director. Also, in the case of one ADCMD position and not more than two ACMD positions, appointments would also be authorized to such positions of individuals who have served as Directors of VA health-care facilities. These changes in the description of the qualifications of appointees to the office of the CMD would not mandate any change from current appointment practices. Rather, the intent would be to provide greater flexibility in identifying candidates for the positions in question.

A related change would amend section 4103 so as to specify that all individuals appointed to positions in the Office of the CMD must be qualified in the administration of health services. Under current law, such a requirement is specified as a prerequisite only with reference to nonphysicians appointed to not more than two of the ACMD positions.

#### ELIGIBILITY FOR DOMICILIARY CARE

Mr. President, section 3 of this measure would authorize the VA to provide domiciliary care to veterans who are in need of such care for the purpose of receiving treatment or rehabilitation and who either have a service-connected disability or are incapacitated from earning a living and have no adequate means of support.

The issue of how eligibility for domiciliary care should be stated in the law arose 2 years ago in the context of the 1985 reconciliation legislation, the Consolidated Omnibus Budget Reconciliation Act of 1985, Public Law 99-272, which revised eligibility criteria for VA hospital, nursing home, and

outpatient care. Under current law, section 610(b) of title 38, veterans are eligible for domiciliary care under two general categories: In the first category are service-connected disabled veterans who are suffering from a permanent disability or tuberculosis or a neuropsychiatric ailment and are incapacitated from earning a living and have no adequate means of support; in the second, more general category are veterans who are in need of domiciliary care and who are unable to defray the cost of such care. This statutory scheme is both terribly confusing as well as not consistent with current VA philosophy and practice.

As noted in the explanatory statement that accompanied the conference report on the reconciliation legislation—House Report No. 99-453, page 695—despite agreement among the conferees that the existing eligibility criteria for domiciliary care should be revised, it was not possible to reach a final agreement with reference to domiciliary care at that time and the final legislation left the eligibility unchanged. In reaching that result, however, the conferees noted that they were "not expressing satisfaction with the status quo" and also noted that both Committees on Veterans' Affairs planned to hold hearings in 1986 "to consider appropriate revisions to the eligibility for domiciliary care".

Last year, I introduced a provision relating to this issue in S. 2388 and our committee included that provision in S. 2422 as reported. Unfortunately, we were again unable to reach final agreement with our colleagues in the House on this issue and the Senate-passed provision was not included in the legislation enacted as Public Law 99-576. I remain convinced that there is a need for a new statutory eligibility standard for domiciliary care along the lines of the provision.

#### RULES AND REGULATIONS RELATING TO HOSPITAL, NURSING HOME, DOMICILIARY, AND MEDICAL CARE

Section 6 of the bill would amend section 621 of title 38, which relates to the Administrator Veterans' Affairs' authority to issue rules and regulations relating to the provision of medical care by the VA, so as to eliminate the Administrator's authority to prescribe limitations on the furnishing of such care. This authority in current law dates from the Economy Act of 1933, which was the single most negative legislative action in the area of veterans' affairs in U.S. history.

As far as I am aware, the VA, during the 18 years I have been in the Senate, has not relied on this authority in acting to limit any health-care benefits. However, in 1984, during congressional action on the reconciliation legislation, the VA's Office of General Counsel submitted to the staffs of the two Veterans' Affairs Committees an informal "white paper" which includ-

ed a discussion of the availability of this provision in the event that the Administrator desired to provide access to health-care benefits on a different, more restrictive basis than prescribed in chapter 17 of title 38.

Without reference to whether an Administrator would ever choose to take such an action and without suggesting whether or not such an action would be lawful, I can see no basis for vesting in an executive branch official the appearance of having such a power to reverse the will of the Congress, particularly in light of the changes in VA health-care eligibility made by the Consolidated Omnibus Budget Reconciliation Act of 1985, Public Law 99-272, in which Congress mandated the provision of VA care to certain groups of veterans. Therefore, our bill proposes that this authority be repealed.

#### EXCESSING OF VA PROPERTIES IN SOUTHERN CALIFORNIA

Mr. President, section 10 of the bill would prohibit the Administrator from taking any action to declare as excess to the needs of the VA, to transfer to another Federal agency, or otherwise to relinquish any VA interest in, any portion of certain lands at two VA medical centers in southern California—46 acres at Sepulveda and 109 acres at West Los Angeles. This provision is substantially identical to a measure I introduced in the 99th Congress (S. 2141), together with Senators MATSUNAGA, DECONCINI, MITCHELL, and ROCKEFELLER, to address the Administration's very ill-advised proposal to excess those parcels of land. Although I worked very hard on this issue in the last Congress, I was successful in achieving only a temporary solution to the problem. The provisions of this measure will, when enacted, constitute a permanent solution.

As my Senate colleagues may recall, on February 5, 1986, despite internal VA objections, the then Acting VA Administrator was forced by OMB to propose to declare various parcels of land at these two southern California VA medical centers to be "no longer needed by the Veterans' Administration in carrying out its functions". If declared excess by the VA, this property would then be disposed of by the General Services Administration under Governmentwide disposal guidelines. After reconsidering the February 5 notice, the hereby appointed Administrator of Veterans' Affairs, Thomas K. Turnage, submitted a June 6, 1986, modification of the February 5 proposal. In each case, he reduced the amount of acreage to be excessed—in West Los Angeles from 109 to 80 acres and in Sepulveda from 46 to 32 acres.

On June 26, 1986, when the committee marked up the 1986 compensation and health-care legislation (S. 2422), I proposed an amendment, derived from

S. 2141, which would have prohibited the Administrator from taking any action to declare as excess to the needs of the VA, to transfer to another Federal agency, or otherwise to relinquish any VA interest in, any portion of those parcels of land. My amendment failed in committee on a 5-to-5 vote.

Mr. President, although the Senate committee failed to approve my amendment regarding this land excessing proposal, the House approved a provision in H.R. 4623 to prohibit this land excessing and sale from occurring. After extensive discussions about this issue involving myself and the chairman of the Veterans' Affairs Committee in the other body, Mr. MONTGOMERY, who authored the House-passed prohibition, and then committee chairman in the Senate, Mr. MURKOWSKI, we were able to develop a compromise to prohibit the VA from proceeding with its plan to dispose of these lands.

Basically, Mr. President, section 234 of Public Law 99-576, as signed into law on October 28, 1986, prohibits the Administrator from taking any action before January 1, 1986, in connection with declaring the properties as excess, or with transferring them, relinquishing the VA's interest in them, or disposing of them, and would nullify any such action taken prior to that date. Thus, the VA is permitted to do nothing to dispose of these properties until July 1988 since, by rendering without effect any actions taken prior to January 1, 1988, in that connection, the new law nullifies the February 5, 1986, notice submitted by the Administrator under section 5022(a)(2) of title 38 and the June 7, 1986, letters to the committees modifying that notice. Current law, in section 5022(a)(2) of title 38, prohibits VA land from being declared excess and transferred to GSA until the expiration of a 180-day period beginning on the date that the VA submits to the Veterans' Affairs Committees a report on the facts concerning the proposed transaction. Thus, if the VA should wish to propose the excessing of any of these approximately 155 acres in the future, the earliest date on which it could submit a new section 5022(a)(2) notice would be January 1, 1988.

Although enactment of the time-limited prohibition provided a much-welcomed breathing period for California's veterans, Los Angeles commuters, West Los Angeles and Sepulveda neighbors and children, and the city and county of Los Angeles, it failed to provide a permanent and totally satisfactory solution to the administration's ill-conceived and short-sighted proposal. That is what our bill seeks to do.

Let me review the arguments against the American's proposal to sell-off this VA land with: First, these parcels pro-

vide important buffer zones between the facilities and the surrounding communities. I strongly believe that not all lands should be developed; open space is a valuable commodity, especially in highly congested areas such as West Los Angeles.

Second, retention of these lands is also necessary to provide latitude for possible expansion in the future. Possible uses mentioned in a 1986 VA task force report could include a planned new State veterans' home, veterans' recreation, and joint venture projects with UCLA or others. Specifically, I now understand that the State of California Department of Veterans' Affairs is actively pursuing the possibility of constructing a new State nursing home on the West Los Angeles property. In addition, a December 29, 1986, letter to me from Elwin V. Swenson, vice chancellor for institutional relations for UCLA, notes that some of the possible joint venture projects include an expansion of the Nursing Home Care Program, including a mental health component, a specialized Adult Day Care Program, the establishment of a pathology reference laboratory, a child-care facility, and other programs that the medical staff of the VA and the UCLA faculty are discussing but have not reached a specific recommendation on for the committee.

Mr. President, I ask unanimous consent that a copy of the vice chancellor's letter be printed in the *RECORD* at the conclusion of my remarks.

Third, a major portion of the land in question at West Los Angeles is either part of a deep ravine or separated from the facility by the ravine. Without massive landfill, this land is unattractive and difficult to utilize and would not have the commercial value OMB has attributed to it.

Fourth, the VA has used the ravine for waste disposal, including remnants of an old VA hospital that once stood on an adjacent site. This compounds problems for any developer since the contaminated soil would need to be removed and the substructure of the land shored up before landfilling is begun. Additionally, the parcel includes an area where the VA once disposed of radioactive waste, and digging in the area could be hazardous.

Fifth, conditions exist that suppress the market value of the property, including in the case of West Los Angeles, a country moratorium on new "access cuts" into Wilshire Boulevard. Also, the zoning for the VA land is "open space", and no development could be undertaken without a zoning variance—which is highly unlikely given the strong opposition to the administration's proposal by both the county board of supervisors and Los Angeles City officials. An August 15, 1986, letter prepared by the county counsel of Los Angeles County raised

serious questions about the zoning applicable to the property and specifically the status of "the restrictive open space regulations" under the county general plan.

Sixth, Mr. President, the major veterans organizations—both nationally and in the State—have expressed and continue to express vigorous opposition to any excessing of this land.

Seventh, the surrounding communities in both West Los Angeles and Sepulveda strongly oppose the additional major construction activity and the resultant development that would occur, as well as the disruption of a number of existing leases and agreements with the VA regarding the use of some of the land proposed for excessing.

In short, I have not been able to identify any significant gain to be achieved by supporting the excessing of these properties beyond it resulting, at some distant point in time, in possibly increased revenues to the Federal Government. And it seems clear that the proceeds of any sales—especially in the case of West Los Angeles, where tremendous barriers to development exist—would be far, far less than the several hundred million dollars that the administration has projected. This possibility of revenue is far outweighed by the vigorous community and veteran organization opposition, the depressed value and condition of the land, its current "open space" zoning, and the fact that the administration has not demonstrated convincingly that the land could not be used for such purposes as sharing with medical schools, veterans' recreation, cemetery expansion, or a State nursing home.

#### REPORT ON CERTAIN ACTIVITIES OF MEDICAL AND OTHER HEALTH-PROFESSIONAL SCHOOLS AFFILIATED WITH THE VETERANS' ADMINISTRATION

Mr. President, it is abundantly clear at this time that a major public policy issue facing our Nation is how we will respond to the needs of our elderly citizens as the population ages. It has been estimated by the Census Bureau that by the year 2030, the proportion of the U.S. population age 65 and older will have risen to nearly 22 percent from the current level of approximately 12 percent. This fundamental shift in the composition of our society has significant implications for how national resources are to be allocated and how a wide range of services are to be furnished. Key among such services are those which help address the health-care needs of our population.

Although there are efforts—both governmental and nongovernmental—underway at present seeking to address the many challenges associated with this fundamental demographic change, I believe there is still a need for increased, focused efforts as we prepare to come to terms with the impact of the aging of our population.

Because veterans of military service cluster in age groups related to the periods of major conflicts—World War I, World War II, the Korean conflict, and the Vietnam conflict in this century—trends relating to the general population are realized differently in the veteran population. In the area of aging, the change in the overall population, which will peak around the first third of the next century, will be accelerated in the case of veterans. The veterans of World War II, who make up 37 percent of the total veteran population, are already approaching an average age of 65 and the veterans of the Korean conflict are just behind them.

Because of the large numbers of veterans who are entering the age range with the greatest need for health and health-related services, the VA, spurred on by active congressional interest, has been very active for a number of years in seeking ways to meet the needs of older veterans. In connection with these efforts, the agency has furnished a significant measure of care—on inpatient, outpatient, and extended care bases—to older veterans; has developed new approaches for furnishing such care, such as through the use of hospital-based home care, geriatric evaluation units, and adult day care health programs; has trained health-care professionals in the care of older patients; and has carried out and funded research into the diseases and disabilities associated with aging and into the aging process itself.

Mr. President, despite these many activities, I am concerned that the VA may not be taking full advantage of the potential influence that it has to motivate health-care training institutions which are affiliated with the VA to increase their efforts in the areas of training health-care professionals in the care of older patients and research related to aging issues. Through its affiliation agreements—the VA is affiliated with 101 medical schools, 59 dental schools, and 850 other health-care professional schools—the VA can play a significant role in influencing decisions made at affiliated institutions. Certainly, there has been some progress at the schools affiliated with the 10 VA medical centers that have Geriatric Research, Education, and Clinical Centers—GRECC's—centers of excellence mandated by section 4101(f) of title 38, United States Code. In fact, I specifically included in that law, a provision recognizing explicitly the need for a commitment on the part of the affiliated institution to action in the area of aging. Specifically, section 4101(f)(1)(C) provides that a GRECC can be established at a VA medical center only when the GRECC has arrangements with affiliated schools which provide education and

training in geriatrics and at which medical residents and nursing or allied health personnel receive training and education in geriatrics through regular rotation through the VA medical center.

This use of the VA to promote action at affiliated institutions should be expanded. The VA should be seeking comprehensive action from all affiliated institutions, not only those affiliated with medical centers with a GRECC.

In order to gauge the extent to which the VA has had an impact on affiliated institutions in regard to their training and research efforts in the area of aging and the need for extension of legislative mandates such as those that apply to GRECC-affiliated institutions, section 10 of the measure we are introducing would require the Administrator to submit a report, not later than March 1, 1987, to the two Veterans' Affairs Committees setting forth detailed information with regard to such past, present, and planned efforts at affiliated institutions.

#### CONCLUSION

Mr. President, as I noted at the outset, the central purpose of this legislation is to bring about the continued improvement and updating of the VA's authority and capacity to meet the needs of our Nation's veterans and their dependents. I look forward to working on this measure with our committee's ranking minority member, Mr. MURKOWSKI, and the other members of the committee, with the VA, with the various veterans' service organizations, and with others interested in legislation affecting veterans.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD following the December 29 letter from UCLA Vice Chancellor Svenson, which I previously described.

There being no objection, the bill and letter were ordered to be printed in the RECORD, as follows:

#### S. 6

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SEC. 1. SHORT TITLE; REFERENCES TO TITLE 38, UNITED STATES CODE.

(a) SHORT TITLE.—This Act may be cited as the "Veterans' Health Care Improvement Act of 1987".

(b) REFERENCES TO TITLE 38.—Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or a repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of title 38, United States Code.

#### SEC. 2. SERVICES TO OVERCOME SERVICE-CONNECTED DISABILITIES AFFECTING PROCREATION.

Clause (A) of section 601(6) is amended to read as follows:

"(A)(i) surgical services, (ii) services to achieve pregnancy in a veteran or a veteran's spouse where such services are neces-

sary to overcome a service-connected disability impairing the veteran's procreative ability, (iii) dental services and appliances as described in sections 610 and 612 of this title, (iv) optometric and podiatric services, (v) (in the case of a person otherwise receiving care or services under this chapter) preventive health-care services as defined in section 662 of this title, (vi) (except under the conditions described in section 612(f)(1)(A)(i) of this title) wheelchairs, artificial limbs, trusses and similar appliances, special clothing made necessary by the wearing of prosthetic appliances, and such other supplies or services as the Administrator determines to be reasonable and necessary, and (vii) travel and incidental expenses pursuant to the provisions of section 111 of this title; and".

#### SEC. 3. ELIGIBILITY FOR DOMICILIARY CARE.

(a) IN GENERAL.—Subsection (b) of section 610 is amended to read as follows:

"(b) The Administrator, through Veterans' Administration facilities, may furnish such domiciliary care as the Administrator determines is needed by a veteran for the purpose of receiving treatment or rehabilitation if the Administrator finds, pursuant to regulations which the Administrator shall prescribe, that the veteran—

"(1) has a service-connected disability, or

"(2) is incapacitated from earning a living and has no adequate means of supports."

(b) CONFORMING AMENDMENT.—Section 622(g) is amended by striking out "section 610(b)(2) and" and inserting in lieu thereof "section".

#### SEC. 4. READJUSTMENT COUNSELING AND RELATED MENTAL HEALTH SERVICES.

(a) EXTENSION OF ELIGIBILITY.—Section 612A(a) is amended—

(1) by inserting "(1)" before "Upon", and

(2) adding at the end the following new paragraph:

"(2)(A) Upon the request of—

"(i) a person who is serving on active duty and who also served on active duty during the Vietnam era, or

"(ii) a person (I) who is a veteran or is serving on active duty, and (II) who served on active duty after May 7, 1975, in an area during a period in which hostilities (as defined in subparagraph (B) of this subsection) occurred in such area, the Administrator shall, within the limits of Veterans' Administration facilities, furnish counseling to assist such person in readjusting to civilian life or to active duty following service during such era or in such area.

"(B) For the purpose of subparagraph (A)(ii) of this subsection, the term 'hostilities' means a situation in which members of the Armed Forces were, as determined by the Administrator in consultation with the Secretary of Defense, subjected to danger from armed conflict comparable to the danger to which members of the Armed Forces have been subjected in battle with the enemy during a period of war."

(b) DELAY IN TRANSITION PERIOD.—Section 612A(g) is amended—

(1) in paragraph (1)(A), by striking out "centers located" and all that follows through "such health-care facilities" and inserting in lieu thereof "Vet Centers to a program providing readjustment counseling services primarily through Veterans' Administration general health-care facilities";

(2) in paragraph (2)—

(A) in subparagraph (A), by striking out "(Public Law)" and all that follows through "available"; and

(B) in subparagraph (B)—

(i) by striking out "and" at the end of clause (i);

(ii) by striking out the period at the end of clause (ii) and inserting in lieu thereof a semicolon and "and"; and

(iii) by adding at the end the following new clause:

"(iii) the Administrator's analysis and findings (focusing on veterans who served in combat) as to whether or not veterans who served on active duty during World War II or the Korean conflict could benefit from services provided under this section and, if so, the Administrator's recommendations on the most desirable means by which such services could be furnished."

(3) in paragraph (3), by striking out "(or" and all that follows through "available";

(4) in paragraph (4), by striking out "experience" the first place it appears and all that follows and inserting in lieu thereof "Administrator's evaluation of the experience under as much of the transition as was carried out pursuant to paragraph (1) of this subsection prior to September 30, 1989, and, based on that evaluation, the results of the study required by section 102 of the Veterans' Health Care Amendments of 1983 (Public Law 98-160), and other pertinent information regarding the readjustment counseling program, the Administrator's opinion as to the extent to which the provision of readjustment counseling services under this section through Vet Centers is needed to meet the readjustment needs of veterans who served on active duty during the Vietnam era."; and

(5) by adding at the end the following new paragraph:

"(5) In the event that the study related to post-traumatic stress disorder referred to in subparagraph (A) of paragraph (2) of this subsection is not completed in sufficient time for the Administrator to give the results of the study consideration (as required by such subparagraph) in the preparation of the report which the Administrator is required by such subparagraph to submit not later than April 1, 1987, regarding the future direction of the program for providing readjustment counseling and mental health services pursuant to this section, the dates by which such report and the reports required by paragraphs (3) and (4) of this subsection must be submitted shall be postponed by 1 year and the 24-month period referred to in paragraph (1) of this subsection shall be deemed to be the 24-month period ending on September 30, 1990. In the event that the postponements described in the preceding sentence take effect, the Administrator shall promptly publish a notification thereof in the Federal Register and promptly so advise the Committees on Veterans' Affairs of the Senate and House of Representatives."

"(6) For the purpose of this subsection—

"(A) The term 'Vet Centers' means facilities which are operated by the Veterans' Administration for the provision of services under this section and which are situated apart from Veterans' Administration general health-care facilities.

"(B) The term 'Veterans' Administration general health-care facilities' means health-care facilities operated by the Veterans' Administration for the furnishing of health-care services under this chapter, not limited to services provided through the programs established under this section."

#### SEC. 5. PILOT PROGRAM OF NONINSTITUTIONAL ALTERNATIVES TO INSTITUTIONAL CARE.

(a) ESTABLISHMENT OF PILOT PROGRAM.—Subchapter 11 of chapter 17 is amended by adding at the end the following new section:

"SEC. 620C. Noninstitutional alternatives to institutional care; pilot program

"(a)(1) The Administrator, during the period beginning January 1, 1988, and ending December 31, 1991, and subject to subsection (c) of this section, shall conduct a pilot program under which veterans eligible under this chapter for and otherwise in need of hospital, nursing home, or domiciliary care will be furnished medical, rehabilitative, and health-related services in noninstitutional settings at not less than five nor more than ten demonstration project sites.

"(2) In selecting veterans for participation in the program, the Administrator shall accord priority to veterans who have service-connected disabilities, to veterans who are 65 years of age or older, to veterans who are totally and permanently disabled, and to veterans who are suffering from Alzheimer's disease or other forms of dementia.

"(b)(1)(A) In the conduct of the program, the Administrator shall (i) furnish appropriate health-related services solely through contracts with appropriate public and private agencies that provide such services, and (ii) in the case of each veteran furnished services under the program, appoint a Veterans' Administration health-care employee to furnish case management services.

"(B) For the purposes of subparagraph (A) of this paragraph, 'case management' includes the coordination and facilitation of all services furnished to a veteran by the Veterans' Administration, either directly or through contract, including, but not limited to, screening, assessment of needs, planning, referral (including referral for services to be furnished by the Veterans' Administration, either directly or through a contract, or by an entity other than the Veterans' Administration), monitoring, reassessment, and follow up.

"(2) In order to evaluate the cost-effectiveness of utilizing certain health services of agencies other than the Veterans' Administration in cases in which no Veterans' Administration facility in the vicinity of a demonstration project provides such services, the Administrator, in not more than two of the demonstration projects, may utilize appropriate health services of appropriate public and private agencies that furnish such services.

"(3) The Administrator may provide in-kind assistance (through the services of Veterans' Administration employees and the sharing of other Veterans' Administration resources) to a facility furnishing services to veterans under subparagraph (1)(A)(i) of this subsection. Any such in-kind assistance shall be provided under a contract between the Veterans' Administration and the facility concerned. The Administrator may provide such assistance only for use solely in the furnishing of appropriate services under this section and only if, under such contract, the Veterans' Administration receives reimbursement for the full cost of such assistance, including the cost of services and supplies and normal depreciation and amortization of equipment. Such reimbursement may be made by reduction in the charges to the United States or by payment to the United States. Any funds received through such reimbursement shall be credited to funds allotted to the Veterans' Administration facility that provided the assistance.

"(c) The total cost of conducting the pilot program under this section shall not exceed 60 percent of the cost that would have been incurred by the Veterans' Administration during the period of the pilot program if

the veterans furnished services under the pilot program had been furnished, instead, nursing home care under section 610 of this title. In any fiscal year, the cost of carrying out the pilot program shall not exceed 65 percent of the cost that would have been so incurred during such year in furnishing the veterans who received services under the pilot program with nursing home care under such section 610.

"(d) Not later than April 1, 1991, the Administrator shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report setting forth the Administrator's evaluation, findings, and conclusions regarding the pilot program, and its results for the participating veterans, during its first 36 months. The report shall include a description of the conduct of the program (including a description of the veterans furnished services and of the services furnished under the pilot program), and any plans for administrative action, and any recommendations for legislation, that the Administrator considers appropriate to include in the report."

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 17 is amended by inserting after the item relating to section 620B the following new item:

"620C. Noninstitutional alternatives to institutional care; pilot program."

#### SEC. 6. RULES AND REGULATIONS RELATING TO HOSPITAL, NURSING HOME, DOMICILIARY, AND MEDICAL CARE.

The text of section 621 is revised to read as follows:

"The Administrator shall prescribe all rules and regulations which are necessary and appropriate to govern the furnishing of hospital, nursing home, and domiciliary care and medical services under laws administered by the Veterans' Administration and which are consistent therewith, including such rules and regulations as are necessary and appropriate in order to promote good conduct on the part of persons who are receiving such care or services in Veterans' Administration facilities."

#### SEC. 7. INCREASE IN PER DIEM RATES FOR CARE IN STATE HOMES.

Section 641(a) is amended by striking out clauses (1) through (3) and inserting in lieu thereof:

- "(1) \$8.70 for domiciliary care, and
- "(2) \$20.35 for nursing home and hospital care."

#### SEC. 8. ORGANIZATION OF THE DEPARTMENT OF MEDICINE AND SURGERY.

(a) OFFICE OF THE CHIEF MEDICAL DIRECTOR.—Section 4103(a) is amended—

- (1) by inserting "persons, each of whom shall be qualified in the administration of health services" after "following";
- (2) in clause (3)—

(A) by striking out "The" and inserting in lieu thereof "Two";

(B) by striking out "Director" the first place it appears and inserting in lieu thereof "Directors";

(C) by striking out "an assistant" and inserting in lieu thereof "assistants";

(D) by striking out "shall be a qualified doctor of medicine" and inserting in lieu thereof "both shall be persons with specified qualifications"; and

(E) by adding at the end the following new sentence: "Not more than one Associate Deputy Chief Medical Director may be a person who is a person with specified qualifications solely by reason of clause (ii) of the last sentence of this subsection.";

(3) in clause (4)—

(A) in the first sentence, by striking out "who shall be" the first place it appears and inserting in lieu thereof "all of whom shall be persons with specified qualifications";

(B) in the second sentence, by striking out "qualified in the administration of health services who are not doctors of medicine, dental surgery, or dental medicines" and inserting in lieu thereof "who are persons with specified qualifications solely by reason of clause (ii) of the last sentence of this subsection"; and

(C) in the last sentence, by striking out "qualified physician" and inserting in lieu thereof "person with specified qualifications";

(4) in clause (5)—

(A) by inserting a comma and "all of whom shall be persons with specified qualifications," after "Directors";

(B) by striking out the commas after "Administrator" and "Director"; and

(C) by striking out the second sentence;

(5) in clause (6), by inserting "upon the recommendation of the Chief Medical Director" after "Administrator";

(6) in clause (7)—

(A) by inserting a comma and "each of whom shall be licensed in the appropriate service field" after "Optometric Service"; and

(B) by inserting "upon the recommendation of the Chief Medical Director" after "Administrator"; and

(7) by adding at the end the following new sentence: "For the purpose of this subsection, the term 'person with specified qualifications' means (i) a person meeting the requirements set forth in clause (1), (2), (3), (4), (5), (6), (7), or (8), of subsection (a) of section 4105 of this title, or (ii) a person who meets or has met the requirements set forth in clause (4) of such subsection."

(b) TECHNICAL AMENDMENT.—Section 4103(b) (3) is amended by inserting a comma after "reappointed" and after "extended" and by striking out the comma after "reappointment."

#### SEC. 9. PROHIBITION AGAINST EXCESSING OF CERTAIN VETERANS' ADMINISTRATION PROPERTIES.

(a) Section 234 of Public Law 99-576 is repealed.

(b) The Administrator of Veterans' Affairs may not declare as excess to the needs of the Veterans' Administration, or otherwise take any action to dispose of, the land and improvements at the Veterans' Administration Medical Center, West Los Angeles, California (consisting of approximately 109 acres), and at the Veterans' Administration Medical Center, Sepulveda, California (consisting of approximately 46 acres), described in letters dated February 5, 1986 (and enclosed maps), from the Administrator to the Committees on Veterans' Affairs of the Senate and House of Representatives pursuant to section 5022(a)(2) of title 38, United States Code.

#### SEC. 10. REPORT ON CERTAIN ACTIVITIES RELATING TO TRAINING IN GERIATRICS OF MEDICAL AND OTHER HEALTH-PROFESSIONAL SCHOOLS AFFILIATED WITH THE VETERANS' ADMINISTRATION

(a) The Congress makes the following findings:

(1) In view of the estimate that, by the year 2030, the percentage of the United States' population that is age 65 and older will have risen to nearly 22 percent from the current level of approximately 12 percent, responding appropriately to the future health-care needs of the increasing elderly

population of the United States represents one of our Nation's greatest challenges.

(2) Because veterans cluster in age groups related to periods of major conflicts, the aging of the general population is accelerated in the case of veterans, and veterans of World War II and the Korean conflict will enter in the near future the age range with the greatest need for health and health-related services and constitute a very significant portion of the total veteran population.

(3) In response to the needs of the growing number of older veterans, the Veterans' Administration, pursuant to Congressional guidance and direction, has increased its efforts with respect to the development of new approaches to furnishing such care, the training of health-care professionals in the care of older patients, and the carrying out and funding of research into diseases and disabilities associated with aging and into the aging process.

(4) As a result of the Veterans' Administration's affiliation arrangements with 101 medical schools, 59 dental schools, approximately 500 nursing schools, and approximately 350 other health-care professional training institutions through which over 100,000 students and trainees receive training in Veterans' Administration facilities annually and the important role which those arrangements fulfill in those schools carrying out their education and training missions, the Veterans' Administration has a vital opportunity to improve efforts to train health-care professionals in the care of older patients and to heighten research activity into diseases and disabilities associated with aging and into the aging process.

(5) As an indication of the importance of the Veterans' Administration's role in promoting efforts by affiliated health-care professional training institutions, the Congress in Public Law 96-330, provided that no Veterans' Administration medical center could be designated as the site for a Geriatric Research, Education, and Clinical Center—centers of excellence in the area of aging research, education, and treatment—unless the Veterans' Administration medical center has arrangements with affiliated schools which provide education and training in geriatrics and which provide medical residents and nursing or allied health personnel with training and education in geriatrics through regular rotation through all bed components of the Veterans' Administration medical center.

(b)(1) In light of the findings in subsection (a), not later than March 1, 1987, the Administrator of Veterans' Affairs shall submit to the Committees on Veterans' Affairs of the Senate and House of Representatives a report regarding the Veterans' Administration's activities, and the success of those activities, designed to promote increased efforts by affiliated medical and other health-professional training schools (1) in training health-care professionals to care for older patients, and (2) in research into the aging process and diseases and disabilities associated with aging.

(2) The report shall include—

(A) information, for each academic year from 1980-81 through 1986-87, on the number of institutions affiliated with the Veterans' Administration (hereinafter in this paragraph referred to as "affiliated institutions"), broken down by type of institution and type of training, that—

(i) have a program through which students or trainees receive education and training in geriatrics through regular rotation through Veterans' Administration med-

ical centers, nursing homes, domiciliary care facilities, or other units providing extended care to veterans; or

(ii) have a formal program providing education and training in geriatrics; or

(iii) have both such programs;

(B) information on the number of affiliated institutions (broken down by type of institution) that are planning to establish programs as described in subparagraph (A), together with a timetable for such actions;

(C) estimates of the costs, both to the Veterans' Administration and to the affiliated institutions, of the programs described in subparagraphs (A) and (B);

(D) estimates of the number of Veterans' Administration patients receiving care or who will receive care from the students or trainees participating in programs described in subparagraphs (A)(i) and (B);

(E) a description of the role of the Veterans' Administration in encouraging the establishment and continuation of the programs described in subparagraph (A); and

(F) the views of the Administrator on the feasibility and desirability of requiring, as a condition of the Veterans' Administration's entering into or continuing an affiliation agreement with a health-care professional training institution, the establishment with such institution of the appropriate type of arrangements described in subparagraph (C)(i) or (ii) of section 4101(f) of title 38, United States Code.

UNIVERSITY OF CALIFORNIA, LOS ANGELES,  
OFFICE OF THE CHANCELLOR,  
Los Angeles, CA, December 29, 1986.

Senator ALAN CRANSTON,  
Committee on Veterans' Affairs, Russell  
Senate Office Building, Washington, DC.

DEAR SENATOR CRANSTON: I thought that you would be interested in receiving the enclosed information regarding UCLA's long-standing relationship with the Veterans' Administration in West Los Angeles. This compilation of material will provide you with a complete background and overview of UCLA's past and present work with the VA.

In brief, UCLA's affiliation with the VA began in 1947 at the Wadsworth Hospital in West Los Angeles. UCLA's contracts cover all medical/surgical and psychiatric services provided by the VA, and include the Schools of Nursing, Public Health, and Dentistry. The UCLA School of Dentistry is currently working with the VA to provide staff for small on-site dental clinics at the West Los Angeles and Sepulveda facilities. The UCLA School of Nursing's Geriatric Nurse Practitioner program provides services in facilities at VA/Sepulveda, and its graduates are a primary source of staffing for the VA's domiciliary care beds at Sepulveda.

Under a ten-year cost-reimbursement contract for approximately \$15.8 million with the National Cancer Institute, UCLA undertook to acquire a high linear energy transfer neutron generator ("cyclotron") costing approximately \$4.5 million; construct facilities costing \$3.6 million; conduct field tests and initiate clinical trials for a potential new form of cancer radiation therapy. The Clinical Neutron Therapy Research Facility is adjacent to the Wadsworth Hospital. Delivery and installation of the cyclotron was performed by UCLA employees and the UCLA Medical Center provided financing of \$250,000 to help with final equipment fabrication problems stemming from the bankruptcy. You may recall that both you and your staff played an essential role in working out the details of the processing of the

NCI contract for which we are all enormously appreciative.

In early 1983, formal agreement was reached with the VA to stage fine arts productions at the "Wadsworth Theater." UCLA provided \$350,000 of structural and cosmetic improvements to the theater as well as offering free tickets for VA patients to all entertainment events. At least 20 tickets per event and frequently more are allocated to VA patients and families in coordination with Recreation Officers at both the VA Wadsworth and Brentwood Divisions.

For more than twenty-five years UCLA has been utilizing facilities in cooperation with the American Legion. In 1980, UCLA made a major renovation with the concurrence of the VA on the Jackie Robinson Baseball Stadium. One of the main reasons for this project was to provide a spectator sport for veterans. UCLA maintains and protects this land under a three-year renewable lease agreement. The Jackie Robinson Stadium was dedicated on February 7, 1981 and the ceremony was attended by representatives of the VA, UCLA, the Los Angeles Dodgers and many civic groups. On April 27, 1985, a statue of Jackie Robinson was unveiled at the Stadium.

As you may know, in February, 1986, a task force was established to develop long-range plans for the use of the land at the VA Medical Center. Director William Anderson asked me to represent UCLA on the committee along with Associate Dean Esther Hays from the Medical School. This committee in turn has reviewed the many joint programs between UCLA and the VA as well as taking into consideration the long term needs of the veterans. This was done in order to respond to the proposed possibility of declaring excess some of the land. It was clear to the committee that it was in the best interest of the VA as well as of service to the programmatic needs of UCLA to participate in the joint planning of opportunities and activities to benefit the veterans. Some of the new programs under discussion include: an expansion of the nursing home care program including a mental health component, a specialized adult day care program, the establishment of a pathology reference laboratory, a child care facility, and other programs that the medical staff of the VA and the UCLA faculty are discussing but have not reached a specific recommendation on the committee.

Mr. Anderson and I have talked about the possibility of UCLA providing assistance in reviewing the overall programmatic use of the VA land and the long term proposed plans of expansion of facilities for the veterans. UCLA is reviewing the most efficient use and design of the land on our campus and has offered the services of our land design experts to the VA. Mr. Anderson has been very appreciative of this offer and we look forward to working together on this project.

I hope that this information will be helpful to you. If I can provide you with additional information, please call me at (213) 825-4282.

Sincerely,

ELWIN V. SVENSON,  
Vice Chancellor-Institutional Relations.

By Mr. CRANSTON:

S. 7. A bill to provide for the protection of the public lands in the California desert; to the Committee on Energy and Natural Resources.

S. 7: THE CALIFORNIA DESERT PROTECTION ACT  
OF 1987

Mr. CRANSTON. Mr. President, I introduce for appropriate reference the California Desert Protection Act. Except for technical amendments and map corrections, the bill is identical to S. 2061 which I sponsored in the 99th Congress.

The California Desert covers 25 million acres, from Death Valley National Monument south to the Mexican border, from the San Jacinto and San Bernardino Mountains east to the Colorado River—about one-fourth of California's land surface. Of this 25 million acres, approximately 12.1 million acres are public lands administered by the Department of the Interior's Bureau of Land Management.

In 1976, Congress enacted the Federal Land Policy and Management Act [FLPMA] which among its provisions established the California Desert Conservation Area and started a process for protecting the resources of the California Desert. FLPMA also called for wilderness review of the public lands administered by the BLM, including those in the California Desert.

The California Desert Protection Act continues this process of appropriately providing for protection of significant resources of the public lands in the California Desert.

I have worked closely with California conservationists to determine the highest and best use for each area within the California Desert. Our goal has been to establish in law the most appropriate pattern of protection to assure that all Californians and visitors to the desert will have the full value of these lands.

This legislation implements the conservationists' proposal, providing permanent, lasting protection for the beauty and wildness of the California Desert through the designation of national parks and wilderness areas.

The bill designates approximately 4.5 million acres of desert lands as wilderness to be administered by the BLM. It redesignates two national monuments—Death Valley and Joshua Tree—as national parks and makes appropriate additions to these units of the national park system. It creates a new Mojave National Park. It designates 3.9 million acres of national park wilderness in these three parks. Further, the bill completes a long pending proposal for the expansion of the Red Rock Canyon State Park, transferring 20,500 acres of BLM lands to the California Department of Parks and Recreation. And it creates protective units to be administered by the BLM for a botanical area—the Desert Lily Sanctuary—and an historical site—the Indian Canyons.

Mr. President, wilderness is a distinguishing characteristic of the public lands in the California Desert, one which affords an unrivalled opportuni-

ty for experiencing vast areas of the Old West essentially unaltered by man's activities. But the wilderness values of the California Desert are increasingly threatened by and especially vulnerable to impairment, alteration, and destruction by activities and intrusions associated with incompatible use and development. To assure that present and future generations will be able to enjoy the diverse resources of the desert, this bill gives statutory protection to 82 separate wilderness areas.

Three distinct areas within the California Desert fully qualify as national parks. The bill confers that status on Death Valley, Joshua Tree, and the east Mojave. First, the bill redesignates the existing Death Valley and Joshua Tree National Monuments as national parks and adds contiguous Federal lands of national park caliber. Established by Presidential proclamations in the 1930's, Death Valley and Joshua Tree today are recognized as major units of the National Park System. But the existing monument boundaries do not include all lands of significant natural, ecological, geological, archaeological, cultural, historical, and wilderness value, thus exposing them to incompatible development.

In 1977 the Western Regional Office of the National Park Service issued a report evaluating proposed additions to Death Valley, including Panamint Valley, Saline Valley, and Eureka Valley. The report concluded that Death Valley "needs to be rounded out with several additions to better represent and preserve a superb example" of the California Desert. In 1979, the desert plan staff of the BLM prepared its report on the possible addition of the Eureka-Saline area to the park system. Like the Park Service, the BLM staff found this area "provides some of the finest and most diverse scenery in the California Desert" and reported that "analysis of natural and cultural themes represented by the area lead one to the unavoidable conclusion that the area qualifies for inclusion into the National Park System as a national park, or as an addition to Death Valley National Monument." My bill adds these remarkable areas to Death Valley as recommended by the National Park Service and BLM.

The proposed additions to Joshua Tree comprise areas that were part of the original monument established in 1936 to protect various objects of historical and scientific interest. However, in 1950 lands were removed from the monument because of commercial mining activity at Eagle Mountain. Associated with the now defunct Kaiser Steel operations at Fontana, CA, the Eagle Mountain mine has since closed. Fortunately some of these lands which were part of the monument were not mined and remain pristine and of na-

tional park caliber. This bill restores 245,000 acres of the previous deletions.

Lying between Death Valley and Joshua Tree is the vast Mojave Desert, an area of outstanding natural, cultural, historical, and recreational values now afforded only impermanent administrative protection as the East Mojave National Scenic Area. This area also has been evaluated by the BLM Desert Plan staff for its park potential and found to be highly qualified. The area contains sixteen mountain ranges, four dry lakes, a perennial stream, innumerable washes, mesas, buttes, badlands, cinder cones, lava beds, caves, California's most complex sand dune system, alluvial fans, bajadas, and many other expressions of geological and geographic interest. According to the BLM report "In all of the California Desert there is no finer grouping of different wildlife habitats." The report continues that "Many observers feel that the East Mojave embodies the finest scenery in the California Desert."

My bill recognizes these park values and provides the full statutory protection the area deserves by designating a 1.5 million acre Mojave National Park. The area involved is the same as the existing scenic area, with the exception of a small boundary change at Soda Springs where the boundary has been moved from the lakeshore to the ridgetop, adding about 6,000 acres. The Mountain Pass mine owned by Molycorp and the associated claims on lands dropped from the scenic area in 1983 remain outside the boundaries of the park.

I am aware that there are a number of mining claims, grazing permits, power transmission facilities, a natural gas pipeline, and communication cable within the proposed Mojave National Park. These valid existing rights are recognized in the bill and allowed to continue. However, the bill closes the proposed parklands to new mineral entry.

The bill also calls for a comprehensive management plan for the park and for a visitor center. No purchase of private lands within the park is contemplated, although the legislation does provide acquisition authority, with an emphasis on acquisition by exchange from willing landowners.

Additionally, the bill designates appropriate lands within all three parks as wilderness—a 3.2 million Death Valley Wilderness which incorporates the National Park Service's wilderness recommendations, 133,520 acres as additions to the existing Joshua Tree Wilderness, and 747,940 acres as the Mojave Wilderness.

Additional provisions include the transfer of 20,500 acres of BLM lands to the California Department of Parks and Recreation for inclusion in Red Rock Canyon State Park. The scenic

cliffs of Red Rock Canyon are well known to travelers from southern California to the eastern Sierra. The area has been used many times as the setting for numerous western films. At the urging of local governments and citizens, the State of California in 1969 decided to establish this area as a State park. It's my understanding the State was to acquire the private lands and that the BLM would transfer the surrounding Federal lands necessary to complete the park. The State has virtually completed the private acquisitions, but the BLM has not conveyed its lands. My bill resolves the issue. The transfer is not intended to affect the city of Los Angeles' existing easement for power transmission lines.

The bill also gives statutory protection to the existing 2,040 acre Desert Lily Sanctuary. The Desert Lily grows only in the deep powder sand areas of the low desert—every fragile land. The lily is vulnerable to flooding from higher elevations. But as a result of the sanctuary protection, the Desert Lily has survived in wet years, blooming by the thousands throughout the area. Statutory protection, as provided in my bill, will insure that the BLM does not redesignate the area or reduce its size.

Finally, the bill designates the Indian Canyon National Historic Site, protecting an area now listed on the national register of historic places, but threatened by a golf course development. As the lands are not now in Federal ownership, the legislation directs the Secretary of the Interior to acquire them by exchange. And to ensure continued Indian control over their use, the bill provides for a cooperative management agreement between Interior and the Agua Caliente Band of Cahuilla Indians, with title to the land held in trust by the United States for the tribe.

Mr. President, with the passage of this bill, approximately 4.6 million acres of public lands in the California Desert administered by the BLM will remain available for other multiple uses—hunting, mining, grazing, and motorized recreation. Moreover, in drawing the boundaries of the areas to be protected, I have been careful to exclude major areas enjoyed by off-road vehicle enthusiasts and areas with known commercial resource conflicts.

In reintroducing the bill today, I am making a number of map corrections to ensure that several existing and planned activities are not affected by the legislation. Specifically, I have amended the boundaries of the proposed Chuckwalla Mountains Wilderness, to exclude private lands on which the State of California plans to construct a prison; the Granite Mountains Wilderness, to exclude private lands under consideration for a radioactive waste site; the North Algodones

Dunes Wilderness, to exclude a designated off-road vehicle open area erroneously included; the Palo Verde Mountains Wilderness, to include lands accidentally omitted; the Sacatar Trail Wilderness, to exclude the Los Angeles Department of Water and Power aqueduct tunnels; the Soda Mountains and Hollow Hills Wildernesses, to clarify that the IPP transmission line is outside the wilderness areas; the Death Valley Wilderness, to include all lands recommended by the National Park Service and exclude a road through the Greenwater Range; and the Mojave Wilderness, to exclude the Mojave Road.

Additionally I have made several technical changes. To eliminate the burden on the Secretary of Interior to determine within 2 years the validity of all mining claims in the new park areas, the bill now provides for validity determinations of unpatented mining claims only prior to the approval of plans of operation.

In light of a proposal for a new natural gas pipeline through an existing utility corridor in the East Mojave, I have amended the rights-of-way provision to accommodate this project.

In response to concerns of the tribal council of the Agua Caliente Band of Cahuilla Indians, I have modified the Indian Canyons National Historic Site section to clarify that the present owners will receive full compensation for acquisition of any of their lands and to ensure tribal control over the national historic site and its irreplaceable tribal cultural resources.

Finally, to address the concern of the State lands commission about the inclusion of State lands within park and wilderness areas and possible impact on the State teachers retirement fund, the bill includes a new provision to facilitate exchanges with the State. I look forward to working with the State to resolve any remaining difficulties.

Mr. President, in the January 1987 issue of the National Geographic, Barry Lopez writes of the California Desert as "a place of hushed and intricate beauty," but threatened by the conflicting demands of various user groups. He also wrote:

Dennis Casebier, a desert historian and longtime observer of conflicts over the desert's use, told me one day that conflict was no longer the central issue. "What's wrong" said Casebier, "is that we have no vision. How do all these different things—four-wheel drive tours and cattle ranching and geothermal development—relate to each other? BLM can't just make everyone happy. They've got to sit down and decide what they want the desert to look like in 20 years." Which is to say the country itself, the people acting through Congress, must decide what they want the Nation's public lands to look like in the future.

Twenty-six environmental and civic organizations have a vision of how they want the California Desert to

look 20 years from now and in the years beyond. They believe the California Desert needs greater protection and support the California Desert Protection Act. I hope that the 100th Congress will consider this legislation and act to ensure that the California Desert is preserved for future generations to enjoy.

Mr. President, I ask unanimous consent that the text of the bill be printed at this point in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 7

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "California Desert Protection Act of 1987".*

#### FINDINGS AND POLICY

SEC. 2. (a) The Congress finds and declares that—

(1) the federally owned desert lands of Southern California constitute a public wildland resource of extraordinary and inestimable value for this and future generations;

(2) these desert wildlands display unique scenic, historical, archeological, environmental, ecological, wildlife, cultural, scientific, educational, and recreational values used and enjoyed by millions of Americans for hiking and camping, scientific study and scenic appreciation;

(3) the public land resources of the California desert now face and are increasingly threatened by adverse pressures which would impair, dilute, and destroy their public and natural values;

(4) the California desert, embracing wilderness lands, units of the National Park System, other federal lands, state parks and other state lands, and private lands, constitutes a cohesive unit posing unique and difficult resource protection and management challenges;

(5) through designation of national monuments by Presidential proclamation, through enactment of general public land statutes (including section 601 of the Federal Land Policy and Management Act of 1976, 90 Stat. 2743, 43 U.S.C. 1701 et seq.) and through interim administrative actions, the federal government has begun the process of appropriately providing for protection of the significant resources of the public lands in the California desert; and

(6) statutory land unit designations are needed to afford the full protection which the resources and public land values of the California desert merit.

(b) In order to secure for the American people of this and future generations an enduring heritage of wilderness, national parks, and public land values in the California desert, it is hereby declared to be the policy of the Congress that—

(1) appropriate public lands in the California desert shall be included within the National Park System and the National Wilderness Preservation System, in order to—

(A) preserve unrivaled scenic, geologic, and wildlife values associated with these unique natural landscapes;

(B) perpetuate in their natural state significant and diverse ecosystems of the California desert;

(C) protect and preserve historical and cultural values of the California desert asso-

ciated with ancient Indian cultures, patterns of western exploration and settlement, and sites exemplifying the mining, ranching and railroading history of the Old West;

(D) provide opportunities for compatible outdoor public recreation, protect and interpret ecological and geological features, and historic, paleontological, and archeological sites, maintain wilderness source values, and promote public understanding and appreciation of the California desert; and

(E) retain and enhance opportunities for scientific research in undisturbed ecosystems.

#### TITLE I—WILDERNESS ADDITIONS FINDINGS

Sec. 101. The Congress finds and declares that—

(1) wilderness is a distinguishing characteristic of the public lands in the California desert, one which affords an unrivaled opportunity for experiencing vast areas of the Old West essentially unaltered by man's activities, and which merits preservation for the benefit of present and future generations;

(2) the wilderness values of desert lands are increasingly threatened by and especially vulnerable to impairment, alteration, and destruction by activities and intrusions associated with incompatible use and development; and

(3) preservation of desert wilderness necessarily requires the highest forms of protective designation and management.

#### DESIGNATION OF WILDERNESS

Sec. 102. In furtherance of the purposes of the Wilderness Act of 1964 (78 Stat. 890, 16 U.S.C. 1131 et seq.), and sections 601 and 603 of the Federal Land Policy and Management Act of 1976 (90 Stat. 2743, 43 U.S.C. 1701 et seq.), the following lands in the State of California, as generally depicted on maps, appropriately referenced, dated February 1986, (except as otherwise dated) are hereby designated as wilderness, and therefore, as components of the National Wilderness Preservation System—

(1) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately seventy-seven thousand three hundred eighty acres, as generally depicted on a map entitled "Argus Range Wilderness—Proposed", and which shall be known as the Argus Range Wilderness;

(2) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately sixty-one thousand three hundred twenty acres, as generally depicted on a map entitled "Awawatz Mountains Wilderness—Proposed", and which shall be known as the Awawatz Mountain Wilderness;

(3) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately ten thousand eight hundred seventy acres, as generally depicted on a map entitled "Bigelow Cholla Garden Wilderness—Proposed", and which shall be known as the Bigelow Cholla Garden Wilderness;

(4) certain lands in the California Desert Conservation Area, of the Bureau of Land Management and within the San Bernardino National Forest, which comprise approximately thirty-three thousand eight hundred acres, as generally depicted on a map entitled "Bighorn Mountain Wilderness—Proposed", and which shall be known as the Bighorn Mountain Wilderness;

(5) certain lands in the California Desert Conservation Area and the Yuma District,

of the Bureau of Land Management, which comprise approximately forty-seven thousand five hundred seventy acres, as generally depicted on a map entitled "Big Maria Mountains Wilderness—Proposed", and which shall be known as the Big Maria Mountains Wilderness;

(6) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise thirteen thousand nine hundred forty acres, as generally depicted on a map entitled "Black Mountain Wilderness—Proposed", and which shall be known as the Black Mountain Wilderness;

(7) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately seven thousand two hundred acres, as generally depicted on a map entitled "Blackwater Well Wilderness—Proposed", and which shall be known as the Blackwater Well Wilderness;

(8) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately nine thousand five hundred twenty acres, as generally depicted on a map entitled "Bright Star Wilderness—Proposed", and which shall be known as the Bright Star Wilderness;

(9) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately forty-two thousand six hundred forty acres, as generally depicted on a map entitled "Cadiz Dunes Wilderness—Proposed", and which shall be known as the Cadiz Dunes Wilderness;

(10) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately eighty-five thousand nine hundred seventy acres, as generally depicted on a map entitled "Cady Mountains Wilderness—Proposed", and which shall be known as the Cady Mountains Wilderness;

(11) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately fifteen thousand seven hundred acres, as generally depicted on a map entitled "Carrizo Gorge Wilderness—Proposed", and which shall be known as the Carrizo Gorge Wilderness;

(12) certain lands in the California Desert Conservation Area and Yuma District, of the Bureau of Land Management and within the Havasu National Wildlife Refuge, which comprise approximately sixty-eight thousand three hundred acres, as generally depicted on a map entitled "Chemehuevi Mountains Wilderness—Proposed", and which shall be known as the Chemehuevi Mountains Wilderness;

(13) certain lands in the Bakersfield District, of the Bureau of Land Management, which comprise approximately fifteen thousand seven hundred acres, as generally depicted on a map entitled "Chimney Peak Wilderness—Proposed", and which shall be known as the Chimney Peak Wilderness;

(14) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately one hundred sixty-five thousand two hundred acres, as generally depicted on a map entitled "Chuckwalla Mountains Wilderness—Proposed", dated January 1987, and which shall be known as the Chuckwalla Mountains Wilderness;

(15) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise fifty thou-

sand six hundred sixty acres, as generally depicted on a map entitled "Cleghorn Lakes Wilderness—Proposed", and which shall be known as the Cleghorn Lake Wilderness; Provided, That the Secretary of Interior may pursuant to an application filed by the Department of Defense, grant a right-of-way for, and authorize construction of, a road within the area depicted as "non-wilderness road corridor" on the map entitled "Cleghorn Lakes Wilderness—Proposed";

(16) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately forty thousand acres, as generally depicted on a map entitled "Clipper Mountains Wilderness—Proposed", and which shall be known as the Clipper Mountains Wilderness;

(17) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately fifty thousand eight hundred twenty acres, as generally depicted on a map entitled "Coso Range Wilderness—Proposed", and which shall be known as the Coso Range Wilderness;

(18) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately eighteen thousand six hundred acres, as generally depicted on a map entitled "Coyote Mountains Wilderness—Proposed", and which shall be known as the Coyote Mountains Wilderness;

(19) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately eight thousand six hundred forty acres, as generally depicted on a map entitled "Darwin Falls Wilderness—Proposed", and which shall be known as the Darwin Falls Wilderness;

(20) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately forty-nine thousand six hundred eighty acres, as generally depicted on a map entitled "Dead Mountains Wilderness—Proposed", and which shall be known as the Dead Mountains Wilderness;

(21) certain lands in the Bakersfield District, of the Bureau of Land Management, which comprise approximately thirty-six thousand three hundred acres, as generally depicted on a map entitled "Domelands Wilderness Additions—Proposed", and which shall be hereby incorporated in, and which shall be deemed to be a part of the Domeland Wilderness as designated by Public Laws 93-632 and 98-425;

(22) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately sixteen thousand one hundred acres, as generally depicted on a map entitled "El Paso Mountains Wilderness—Proposed", and which shall be known as the El Paso Mountains Wilderness;

(23) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately twenty-seven thousand one hundred acres, as generally depicted on a map entitled "Fish Creek Mountains Wilderness—Proposed", and which shall be known as the Fish Creek Mountains Wilderness;

(24) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately ten thousand two hundred forty acres, as generally depicted on a map entitled "Frog Creek Wilderness—Proposed", and which

shall be known as the Frog Creek Wilderness;

(25) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately thirty-four thousand five hundred ten acres, as generally depicted on a map entitled "Funeral Mountains Wilderness—Proposed", and which shall be known as the Funeral Mountains Wilderness;

(26) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately thirty-seven thousand seven hundred acres, as generally depicted on a map entitled "Golden Valley Wilderness—Proposed", and which shall be known as the Golden Valley Wilderness;

(27) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately seventy thousand two hundred forty acres, as generally depicted on a map entitled "Granite Mountains Wilderness—Proposed", dated January 1987, and which shall be known as the Granite Mountains Wilderness;

(28) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately thirty-one thousand seven hundred twenty acres, as generally depicted on a map entitled "Grass Valley Wilderness—Proposed", and which shall be known as the Grass Valley Wilderness;

(29) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately eight thousand eight hundred acres, as generally depicted on a map entitled "Great Falls Basin Wilderness—Proposed", and which shall be known as the Great Falls Basin Wilderness;

(30) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately twenty-nine thousand seven hundred forty acres, as generally depicted on a map entitled "Hollow Hills Wilderness—Proposed", dated January 1987, and which shall be known as the Hollow Hills Wilderness;

(31) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately twenty-eight thousand two hundred acres, as generally depicted on a map entitled "Ibex Wilderness—Proposed", and which shall be known as the Ibex Wilderness;

(32) certain lands in the California Desert Conservation Area, of the Bureau of Land Management and the Imperial National Wildlife Refuge, which comprise approximately thirty-nine thousand one hundred acres, as generally depicted on a map entitled "Indian Pass Wilderness—Proposed", and which shall be known as the Indian Pass Wilderness;

(33) certain lands in the California Desert Conservation Area and the Bakersfield District, of the Bureau of Land Management and within the Inyo National Forest, which comprise approximately two hundred ten thousand six hundred sixty acres, as generally depicted on a map entitled "Inyo Mountains Wilderness—Proposed", and which shall be known as the Inyo Mountains Wilderness;

(34) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately thirty-five thousand one hundred sixty acres, as generally depicted on a map entitled "Jacumba Wilderness—Proposed", and

which shall be known as the Jacumba Wilderness;

(35) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately one hundred twenty-nine thousand eight hundred twenty acres, as generally depicted on a map entitled "Kelso Dunes Wilderness—Proposed", and which shall be known as the Kelso Dunes Wilderness;

(36) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, and the Sequoia National Forest, which comprise approximately eighty-eight thousand two hundred eighty acres, as generally depicted on a map entitled "Kiavah Wilderness—Proposed", and which shall be known as the Kiavah Wilderness;

(37) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately two hundred fifty-five thousand two hundred ninety acres, as generally depicted on a map entitled "Kingston Range Wilderness—Proposed", and which shall be known as the Kingston Range Wilderness;

(38) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately forty-nine thousand four hundred eighty acres, as generally depicted on a map entitled "Little Chuckwalla Mountains Wilderness—Proposed", and which shall be known as the Little Chuckwalla Mountains Wilderness;

(39) certain lands in the California Desert Conservation Area and the Yuma District, of the Bureau of Land Management, and within the Imperial National Wildlife Refuge, which comprise approximately thirty-nine thousand eight hundred sixty acres, as generally depicted on a map entitled "Little Picacho Wilderness—Proposed", and which shall be known as the Little Picacho Wilderness;

(40) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately thirty-three thousand two hundred forty acres, as generally depicted on a map entitled "Malpais Mesa Wilderness—Proposed", and which shall be known as the Malpais Mesa Wilderness;

(41) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately twenty-seven thousand one hundred acres, as generally depicted on a map entitled "Manly Peak Wilderness—Proposed", and which shall be known as the Manly Peak Wilderness;

(42) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately thirty-two thousand seven hundred twenty acres, as generally depicted on a map entitled "Mecca Hills Wilderness—Proposed", and which shall be known as the Mecca Hills Wilderness;

(43) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately fifty-four thousand nine hundred acres, as generally depicted on a map entitled "Mesquite Wilderness—Proposed", and which shall be known as the Mesquite Wilderness;

(44) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately eleven thousand three hundred acres, as generally depicted on a map entitled "Middle Park Canyon Wilderness—Pro-

posed" and which shall be known as the Middle Park Canyon Wilderness;

(45) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately twenty-two thousand nine hundred acres, as generally depicted on a map entitled "Newberry Mountains Wilderness—Proposed", and which shall be known as the Newberry Mountains Wilderness;

(46) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately one hundred ten thousand eight hundred eighty acres, as generally depicted on a map entitled "Nopah Range Wilderness—Proposed", and which shall be known as the Nopah Range Wilderness;

(47) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately thirty-one thousand forty acres, as generally depicted on a map entitled "North Algodones Dunes Wilderness—Proposed", dated January 1987, and which shall be known as the North Algodones Dunes Wilderness;

(48) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately ten thousand acres as generally depicted on a map entitled "North Coso Range Wilderness—Proposed", and which shall be known as the North Coso Range Wilderness;

(49) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately twenty-six thousand eight hundred forty acres, as generally depicted on a map entitled "North Mesquite Mountains Wilderness—Proposed", and which shall be known as the North Mesquite Mountains Wilderness;

(50) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately one hundred forty-six thousand one hundred ten acres, as generally depicted on a map entitled "Old Woman Mountains Wilderness—Proposed", and which shall be known as the Old Woman Mountains Wilderness;

(51) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately fifty-six thousand five hundred acres, as generally depicted on a map entitled "Orocopia Mountains Wilderness—Proposed", and which shall be known as the Orocopia Mountains Wilderness;

(52) certain lands in the California Desert Conservation Area and the Bakersfield District, of the Bureau of Land Management, which comprise approximately seventy-five thousand six hundred forty acres, as generally depicted on a map entitled "Owens Peak Wilderness—Proposed", and which shall be known as the Owens Peak Wilderness;

(53) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately seventy-four thousand eight hundred acres, as generally depicted on a map entitled "Pahrump Valley Wilderness—Proposed", and which shall be known as the Pahrump Valley Wilderness;

(54) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately two hundred fourteen thousand four hundred twenty acres, as generally depicted on a map entitled "Palen/McCoy Wilderness—Proposed", and which shall be known as the Palen/McCoy Wilderness;

(55) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately thirty-two thousand three hundred twenty acres, as generally depicted on a map entitled "Palo Verde Mountains Wilderness—Proposed", dated January 1987, and which shall be known as the Palo Verde Mountains Wilderness;

(56) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately seven thousand three hundred acres, as generally depicted on a map entitled "Picacho Peak Wilderness—Proposed", and which shall be known as the Picacho Peak Wilderness;

(57) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately forty-one thousand six hundred eighty acres, as generally depicted on a map entitled "Pinto Mountains Wilderness—Proposed", and which shall be known as the Pinto Mountains Wilderness;

(58) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately seventy-four thousand eight hundred forty acres, as generally depicted on a map entitled "Piper Mountain Wilderness—Proposed", and which shall be known as Piper Mountain Wilderness;

(59) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately thirty-nine thousand forty acres, as generally depicted on a map entitled "Piute Mountains Wilderness—Proposed", and which shall be known as Piute Mountains Wilderness;

(60) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately seventy-eight thousand eight hundred eighty acres, as generally depicted on a map entitled "Resting Spring Range Wilderness—Proposed", and which shall be known as the Resting Spring Range Wilderness;

(61) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately forty thousand eight hundred twenty acres, as generally depicted on a map entitled "Rice Valley Wilderness—Proposed", and which shall be known as the Rice Valley Wilderness;

(62) certain lands in the California Desert Conservation Area and the Yuma District, of the Bureau of Land Management, which comprise approximately twenty-four thousand one hundred acres, as generally depicted on a map entitled "Riverside Mountains Wilderness—Proposed", and which shall be known as Riverside Mountains Wilderness;

(63) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately thirty thousand one hundred acres, as generally depicted on a map entitled "Rodman Mountains Wilderness—Proposed", and which shall be known as the Rodman Mountains Wilderness;

(64) certain lands in the California Desert Conservation Area and the Bakersfield District, of the Bureau of Land Management, which comprise approximately fifty-two thousand six hundred acres, as generally depicted on a map entitled "Sacatar Trail Wilderness—Proposed", dated January 1987, and which shall be known as the Sacatar Trail Wilderness;

(65) certain lands in the California Desert Conservation Area, of the Bureau of Land

Management, which comprise approximately fourteen thousand eight hundred acres, as generally depicted on a map entitled "Saddle Peak Hills Wilderness—Proposed", and which shall be known as the Saddle Peak Hills Wilderness;

(66) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately thirty-three thousand five hundred acres, as generally depicted on a map entitled "San Geronio Wilderness Additions—Proposed", and which are hereby incorporated in, and which shall be deemed to be a part of the San Geronio Wilderness as designated by Public Laws 88-577 and 98-425;

(67) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately fifty-three thousand two hundred forty acres, as generally depicted on a map entitled "Santa Rosa Wilderness Additions—Proposed", and which are hereby incorporated in, and which shall be deemed to be a part of the Santa Rosa Wilderness designated by Public Law 98-425;

(68) certain lands in the California Desert District, of the Bureau of Land Management, which comprise approximately thirty-five thousand four hundred acres, as generally depicted on a map entitled "Sawtooth Mountains Wilderness—Proposed", and which shall be known as the Sawtooth Mountains Wilderness;

(69) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately one hundred seventy-seven thousand acres, as generally depicted on a map entitled "Sheephole Valley Wilderness—Proposed", and which shall be known as the Sheephole Valley Wilderness;

(70) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately seventy thousand three hundred forty acres, as generally depicted on a map entitled "Slate Range Wilderness—Proposed", and which shall be known as the Slate Range Wilderness;

(71) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately ninety-two thousand six hundred ninety acres, as generally depicted on a map entitled "Soda Mountains Wilderness—Proposed", dated January 1987, and which shall be known as the Soda Mountains Wilderness;

(72) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately sixty-one thousand nine hundred fifty acres, as generally depicted on a map entitled "South Algodones Dunes Wilderness—Proposed", and which shall be known as the South Algodones Dunes Wilderness;

(73) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately twenty-six thousand six hundred fifty acres, as generally depicted on a map entitled "South Avawatz Mountains Wilderness—Proposed", and which shall be known as the South Avawatz Mountains Wilderness;

(74) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately sixteen thousand seven hundred eighty acres, as generally depicted on a map entitled "South Nopah Range Wilderness—Proposed", and which shall be known as the South Nopah Range Wilderness;

(75) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately nine thousand acres, as generally depicted on a map entitled "Stateline Wilderness—Proposed", and which shall be known as the Stateline Wilderness;

(76) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately eighty-one thousand six hundred acres, as generally depicted on a map entitled "Stepladder Mountains Wilderness—Proposed", and which shall be known as the Stepladder Mountains Wilderness;

(77) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately forty-seven thousand six hundred forty acres, as generally depicted on a map entitled "Surprise Canyon Wilderness—Proposed", and which shall be known as the Surprise Canyon Wilderness;

(78) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately seventeen thousand eight hundred twenty acres, as generally depicted on a map entitled "Sylvania Mountains Wilderness—Proposed", and which shall be known as the Sylvania Mountains Wilderness;

(79) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately thirty-three thousand seven hundred twenty acres, as generally depicted on a map entitled "Trilobite Wilderness—Proposed", and which shall be known as the Trilobite Wilderness;

(80) certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately one hundred forty-four thousand five hundred acres, as generally depicted on a map entitled "Turtle Mountains Wilderness—Proposed", and which shall be known as the Turtle Mountains Wilderness; and

(81) certain lands in the California Desert Conservation Area and the Yuma District, of the Bureau of Land Management, which comprise approximately seventy-five thousand five hundred acres, as generally depicted on a map entitled "Whipple Mountains Wilderness—Proposed", and which shall be known as the Whipple Mountains Wilderness.

#### ADMINISTRATION OF WILDERNESS AREAS

SEC. 103. Subject to valid existing rights, each wilderness area designated under this title shall be administered by the appropriate Secretary in accordance with the provisions of the Wilderness Act: *Provided*, That any reference in such provisions to the effective date of the Wilderness Act shall be deemed to be a reference to the effective date of this title and any reference to the Secretary of Agriculture shall be deemed to be a reference to the Secretary who has administrative jurisdiction over the area.

#### FILING OF MAPS AND DESCRIPTIONS

SEC. 104. As soon as practicable after enactment of this title, a map and a legal description on each wilderness area designated under this title shall be filed by the Secretary concerned with the Committee on Energy and Natural Resources of the United States Senate and the Committee on Interior and Insular Affairs of the House of Representatives, and each such map and description shall have the same force and effect as if included in this title: *Provided*, That correction of clerical and typographical errors in each such legal description and map may be made. Each such map and legal

description shall be on file and available for public inspection in the office of the Director of the Bureau of Land Management, Department of the Interior, or the Chief of the Forest Service, Department of Agriculture, as is appropriate.

#### WILDERNESS REVIEW

SEC. 105. The Congress hereby finds and directs that lands in the California Desert Conservation Area, of the Bureau of Land Management not designated as wilderness by this Act have been adequately studied for wilderness designation pursuant to section 603 of the Federal Land Policy and Management Act (90 Stat. 2743, 43 U.S.C. 1701 et seq.), and are no longer subject to the requirement of section 603(c) of the Federal Land Policy and Management Act pertaining to the management of wilderness study areas in a manner that does not impair the suitability of such areas for preservation as wilderness.

#### DESIGNATION OF WILDERNESS STUDY AREA

SEC. 106. (a) In furtherance of the purposes of the Wilderness Act, the Secretary of Agriculture shall, before completion of the Inyo National Forest Land Resource and Management Plan, review certain lands in the California Desert Conservation Area, of the Bureau of Land Management, which comprise approximately forty-three thousand seven hundred acres, as generally depicted on a map entitled "White Mountains Wilderness Study Area—Proposed", dated February 1986, to determine their suitability or unsuitability for preservation as wilderness and shall submit his recommendation to the President.

(b) The wilderness study area designated by subsection (a) shall be administered by the Secretary of the Interior in accordance with the provisions of section 603 (c) of the Federal Land Policy and Management Act.

#### TITLE II—DEATH VALLEY NATIONAL PARK FINDINGS

SEC. 201. The Congress hereby finds that—

(1) proclamations by Presidents Herbert Hoover in 1933 and Franklin Roosevelt in 1937 established and expanded the Death Valley National Monument for the preservation of the unusual features of scenic, scientific, and educational interest therein contained;

(2) Death Valley National Monument is today recognized as major unit of the National Park System, having extraordinary values enjoyed by millions of visitors;

(3) the Monument boundaries established in the 1930's exclude and thereby expose to incompatible development and inconsistent management, contiguous federal lands of essential and superlative natural, ecological, geological, archeological, paleontological, cultural, historical and wilderness values;

(4) Death Valley National Monument should be substantially enlarged by the addition of all contiguous federal lands of national park caliber, and afforded full recognition and statutory protection as a national park; and

(5) the wilderness within Death Valley should receive maximum statutory protection by designation pursuant to the Wilderness Act.

#### ESTABLISHMENT OF DEATH VALLEY NATIONAL PARK

SEC. 202. There is hereby established the Death Valley National Park, as generally depicted on a map entitled "Death Valley National Park", dated February 1986, which shall be on file and available for public in-

spection in the offices of the Superintendent of the Park and the Director of the National Park Service, Department of the Interior. The Death Valley National Monument is hereby abolished as such, and the lands and interests therein are hereby incorporated within and made part of the new Death Valley National Park.

#### TRANSFER AND ADMINISTRATION OF LANDS

SEC. 203. Upon enactment of this title, the Secretary of the Interior shall transfer the lands under the jurisdiction of the Bureau of Land Management depicted on the map described in section 202 of this title, without consideration, to the administrative jurisdiction of the Director of the National Park Service for administration as part of the National Park System. The boundaries of the public lands and the national parks shall be adjusted accordingly. The areas added to the National Park System by this title shall be administered in accordance with the provisions of law generally applicable to units of the National Park System.

#### MAPS AND LEGAL DESCRIPTION

SEC. 204. Within six months after the enactment of this title, the Secretary shall file a legal description of the park designated under this title with the Energy and Natural Resources Committee of the United States Senate and the Interior and Insular Affairs Committee of the House of Representatives. Such legal description shall have the same force and effect as if included in this title, except that the Secretary may correct clerical and typographical errors in such legal description and in the map referred to in section 202. The legal description shall be on file and available for public inspection in the offices of the Superintendent of the Park and the Director of the National Park Service, Department of the Interior.

#### DISPOSITION UNDER MINING LAWS

SEC. 205. Subject to valid existing rights, the federal lands and interests therein added to the park system by this title are withdrawn from disposition under the public land laws and from entry or appropriation under the mining laws of the United States, from the operation of the mineral leasing laws of the United States, and from operation of the Geothermal Steam Act of 1970.

#### STUDY AS TO VALIDITY OF MINING CLAIMS

SEC. 206. The Secretary shall not approve any plan of operation prior to determining the validity of any unpatented mining claims within the additions to the park system and submit to Congress recommendations as to whether any valid or patented claims should be acquired by the United States, including the estimated acquisition costs of such claims, and a discussion of the environmental consequences of the extraction of minerals from these lands.

#### TITLE III—JOSHUA TREE NATIONAL PARK FINDINGS

SEC. 301. The Congress hereby finds that—

(1) a proclamation by President Franklin Roosevelt in 1936 established Joshua Tree National Monument to protect various objects of historical and scientific interest;

(2) Joshua Tree National Monument today is recognized as a major unit of the National Park System, having extraordinary values enjoyed by millions of visitors;

(3) the Monument boundaries as modified in 1950 and 1961 exclude and thereby expose to incompatible development and inconsistent management, contiguous federal

lands of essential and superlative natural, ecological, archeological, paleontological, cultural, historical and wilderness values;

(4) Joshua Tree National Monument should be enlarged by the addition of contiguous federal lands of national park caliber, and afforded full recognition and statutory protection as a national park; and

(5) the non-designated wilderness within Joshua Tree should receive maximum statutory protection by designation pursuant to the Wilderness Act.

#### ESTABLISHMENT OF JOSHUA TREE NATIONAL PARK

SEC. 302. There is hereby established the Joshua Tree National Park, as generally depicted on a map entitled "Joshua Tree National Park", dated February 1986, which shall be on file and available for public inspection in the offices of the Superintendent of the Park and the Director of the National Park Service, Department of the Interior. The Joshua Tree National Monument is hereby abolished as such, and the lands and interests therein are hereby incorporated within and made part of the new Joshua Tree National Monument.

#### TRANSFER AND ADMINISTRATION OF LANDS

SEC. 303. Upon enactment of this title, the Secretary of the Interior shall transfer the lands under the jurisdiction of the Bureau of Land Management depicted on the map described in section 302 of this title, without consideration, to the administrative jurisdiction of the Director of the National Park Service for administration as part of the National Park System. The boundaries of the public lands and the national parks shall be adjusted accordingly. The areas added to the National Park System by this title shall be administered in accordance with the provisions of law generally applicable to units of the National Park System.

#### MAPS AND LEGAL DESCRIPTION

SEC. 304. Within six months after the enactment of this title, the Secretary shall file a legal description of the park designated by this title with the Energy and Natural Resources Committee of the United States Senate and the Interior and Insular Affairs Committee of the House of Representatives. Such legal description shall have the same force and effect as if included in this title, except that the Secretary may correct clerical and typographical errors in such legal description and in the map referred to in section 302. The legal description shall be on file and available for public inspection in the offices of the Superintendent of the Park and the Director of the National Park Service, Department of the Interior.

#### DISPOSITION UNDER MINING LAWS

SEC. 305. Subject to valid existing rights, federal lands and interests therein added to the park system by this title are withdrawn from disposition under the public lands laws and from entry or appropriation under the mining laws of the United States, from the operation of the mineral leasing laws of the United States, and from the operation of the Geothermal Steam Act of 1970.

#### STUDY AS TO VALIDITY OF MINING CLAIMS

SEC. 306. The Secretary shall not approve any plan of operation prior to determining the validity of any unpatented mining claims within the park and submit to Congress recommendations as to whether any valid or patented claims should be acquired by the United States, including the estimated acquisition costs of such claims, and a discussion of the environmental conse-

quences of the extraction of minerals from these lands.

#### TITLE IV—MOJAVE NATIONAL PARK

##### FINDINGS

SEC. 401. The Congress hereby finds that—

(1) Death Valley and Joshua Tree National Parks, as established by this Act, protect unique and superlative desert resources, but do not embrace the particular ecosystems and transitional desert type found in the Mojave Desert area lying between them on public lands now afforded only impermanent administrative designation as a national scenic area;

(2) the Mojave Desert area possesses outstanding natural, cultural, historical, and recreational values meriting statutory designation and recognition as a unit of the National Park System;

(3) the Mojave Desert area should be afforded full recognition and statutory protection as a national park; and

(4) the wilderness within the Mojave Desert should receive maximum statutory protection by designation pursuant to the wilderness Act.

##### ESTABLISHMENT OF THE MOJAVE NATIONAL PARK

SEC. 402. There is hereby established the Mojave National Park, comprising approximately one million five hundred thousand acres, as generally depicted on a map entitled "Mojave National Park", dated February 1986, which shall be on file and available for inspection in the offices of the Director of the National Park Service, Department of the Interior.

##### TRANSFER OF LANDS

SEC. 403. Upon enactment of this title, the Secretary of the Interior (hereinafter in this title referred to as the "Secretary") shall transfer the lands under the jurisdiction of the Bureau of Land Management depicted on the map described in section 402 of this title, without consideration, to the administrative jurisdiction of the Director of the National Park Service. The boundaries of the public lands shall be adjusted accordingly.

##### MAPS AND LEGAL DESCRIPTION

SEC. 404. Within six months after the enactment of this title, the Secretary shall file a legal description of the park designated under this title with the Energy and Natural Resources Committee of the United States Senate and the Interior and Insular Affairs Committee of the House of Representatives. Such legal description shall have the same force and effect as if included in this title, except that the Secretary may correct clerical and typographical errors in such legal description and in the map referred to in section 402. The legal description shall be on file and available for public inspection in the offices of the National Park Service, Department of the Interior.

##### ABOLISHMENT OF SCENIC AREA

SEC. 405. The East Mojave National Scenic Area, designated on January 13, 1981 (46 FR 3994) and modified on August 9, 1983 (48 FR 36210), is hereby abolished.

##### ADMINISTRATION OF LANDS

SEC. 406. The Secretary shall administer the park in accordance with this title and with the provisions of law generally applicable to units of the National Park System, including the Act entitled "An Act to establish a National Park Service, and for other purposes", approved August 25, 1916 (39 Stat. 535; 16 U.S.C. 1-4).

##### DISPOSITION UNDER MINING LAWS

SEC. 407. Subject to valid existing rights, federal lands within the park, and interests therein, are withdrawn from disposition under the public land laws and from entry or appropriation under the mining laws of the United States, from the operation of the mineral leasing laws of the United States, and from operation of the Geothermal Steam Act of 1970.

##### STUDY AS TO VALIDITY OF MINING CLAIMS

SEC. 408. The Secretary shall not approve any plan of operation prior to determining the validity of any unpatented mining claims within the park and submit to Congress recommendations as to whether any valid or patented claims should be acquired by the United States, including the estimated acquisition costs of such claims, and a discussion of the environmental consequences of the extraction of minerals from these lands.

##### REGULATION OF MINING

SEC. 409. Subject to valid existing rights, all mining claims located within the park shall be subject to such reasonable regulations as the Secretary may prescribe to assure that mining will, to the maximum extent practicable, be consistent with the protection of the scenic, scientific, cultural and other resources of the park, and any patent which may be issued after the date of enactment of this title shall convey title only to the minerals together with the right to use the surface of lands for mining purposes subject to such reasonable regulations.

##### GRAZING RIGHTS

SEC. 410. The Secretary shall permit those persons holding currently valid grazing permits within the boundary of the park to continue to exercise such permits consistent with other applicable law: Provided, however, that upon expiration of the current term of such permits, the permits shall not be renewed.

##### RIGHTS-OF-WAY

SEC. 411. Nothing in this title shall have the effect of terminating any validly issued right-of-way or right-of-use issued, granted, or permitted for

(a) systems for transmission or distribution of electric energy,

(b) pipelines for the transmission or distribution of natural gas or oil, and

(c) communication cables or lines within any utility corridor designated as of January 1, 1987.

##### PREPARATION OF MANAGEMENT PLAN

SEC. 412. Within three years of the date of enactment of this title, the Secretary shall submit to the Energy and Natural Resources Committee of the United States Senate and the Interior and Insular Affairs Committee of the House of Representatives a detailed and comprehensive management plan for the park. Such plan shall place emphasis on historical and cultural sites and ecological and wilderness values within the boundaries of the park and shall evaluate the feasibility of using the Kelso Depot and existing railroad corridor to provide public access to and a facility for special interpretive, educational and scientific programs within the park.

##### CONSTRUCTION OF VISITOR CENTER

SEC. 413. The Secretary is authorized to construct a visitor center in the park for the purpose of providing information through appropriate displays, printed material, and other interpretive programs, about the resources of the park.

##### ACQUISITION OF LANDS

SEC. 414. The Secretary is authorized to acquire all lands and interest in lands within the boundary of the park by donation, purchase, or exchange, except that—

(1) any lands or interests therein within the boundary of the park which are owned by the State of California, or any political subdivision thereof, may be acquired only by donation or exchange; and

(2) lands or interests therein within the boundary of the park which are not owned by the State of California or any political subdivision thereof may be acquired only with the consent of the owner thereof unless the Secretary determines, after written notice to the owner and after opportunity for comment, that the property is being developed, or proposed to be developed, in a manner which is detrimental to the integrity of the park or which is otherwise incompatible with the purpose of this title.

##### AUTHORIZATION OF APPROPRIATIONS

SEC. 415. There are hereby authorized to be appropriated such sums as may be necessary to carry out the purposes of this title.

#### TITLE V—NATIONAL PARK WILDERNESS

##### DESIGNATION OF WILDERNESS

SEC. 501. The following lands are hereby designated as wilderness in accordance with section (3) of the Wilderness Act (78 Stat. 890; 16 U.S.C. 1132 (c)) and shall be administered by the Secretary of the Interior in accordance with the applicable provisions of the Wilderness Act.

(1) Death Valley National Park Wilderness, comprising approximately three million one hundred fifty-nine thousand seven hundred twenty acres, and potential wilderness additions comprising approximately twenty thousand four hundred acres, as generally depicted on a map entitled "Death Valley National Park Wilderness—Proposed", dated January 1987, and which shall be known as the Death Valley Wilderness;

(2) Joshua Tree National Park Wilderness Additions, comprising approximately one hundred thirty-three thousand five hundred acres, as generally depicted on a map entitled "Joshua Tree National Park Wilderness Additions—Proposed", dated February 1986, and which are hereby incorporated in, and which shall be deemed to be a part of the Joshua Tree Wilderness as designated by Public Law 94-567; and

(3) Mojave National Park Wilderness, comprising approximately seven hundred forty-seven thousand nine hundred forty acres, as generally depicted on a map entitled "Mojave National Park Wilderness—Proposed", dated February 1986, and which shall be known as the Mojave Wilderness.

##### FILING OF MAPS AND DESCRIPTIONS

SEC. 502. A map and description of the boundaries of the areas designated in section 501 of this title shall be on file and available for public inspection in the Office of the Director of the National Park Service, Department of the Interior, and in the Office of the Superintendent of each area designated in section 501. As soon as practicable after this title takes effect, maps of the wilderness areas and descriptions of their boundaries shall be filed with the Commission on Energy and Natural Resources of the United States Senate and the Commission on Interior and Insular Affairs of the House of Representatives, and such maps and descriptions shall have the same force and effect as if included in this title: Provided, That correction of clerical and ty-

pographical errors in such maps and descriptions may be made.

#### CESSATION OF CERTAIN USES

SEC. 503. Any lands (in section 501 of this title) which represent potential wilderness additions upon publication of the Federal Register of a notice by the Secretary of the Interior that all uses thereon prohibited by the Wilderness Act have ceased, shall thereby be designated wilderness. Lands designated as potential wilderness additions shall be managed by the Secretary of the Interior insofar as practicable as wilderness until such time as said lands are designated as wilderness.

#### ADMINISTRATION OF WILDERNESS AREAS

SEC. 504. The areas designated by section 501 of this title as wilderness shall be administered by the Secretary of the Interior in accordance with the provisions of the Wilderness Act governing areas designated by that title as wilderness, except that any reference in such provisions to the effective date of the Wilderness Act shall be deemed to be a reference to the effective date of this title, and where appropriate, and reference to the Secretary of Agriculture shall be deemed to be a reference to the Secretary of the Interior.

#### TITLE VI—MISCELLANEOUS PROVISIONS

##### TRANSFER OF LANDS TO RED ROCK CANYON STATE PARK

SEC. 601. Upon enactment of this title, the Secretary of the Interior shall transfer to the State of California certain lands within the California Desert Conservation Area, California, of the Bureau of Land Management, comprising approximately twenty thousand five hundred acres, as generally depicted on a map entitled "Red Rock Canyon State Park Additions", dated February 1986, for inclusion in the State of California Park System. Should the State of California cease to manage these lands as part of the state park system, ownership of the lands shall revert to the Department of the Interior to be managed as part of the California Desert Conservation Area to provide maximum protection for the area's scenic and scientific values.

##### DESERT LILY SANCTUARY

SEC. 602. (a) There is hereby established the Desert Lily Sanctuary within the California Desert Conservation Area, California, of the Bureau of Land Management, comprising approximately two thousand forty acres, as generally depicted on a map entitled "Desert Lily Sanctuary", dated February 1986. The Secretary of the Interior shall administer the area to provide maximum protection to the desert lily.

(b) Subject to valid existing rights, federal lands within the sanctuary, and interests therein, are withdrawn from disposition under the public land laws and from entry or appropriation under the mining laws of the United States, from the operation of the mineral leasing laws of the United States, and from operation of the Geothermal Steam Act of 1970.

##### INDIAN CANYONS NATIONAL HISTORIC SITE

SEC. 603. (a) There is hereby established the Indian Canyons National Historic Site, comprising approximately four hundred ninety acres, as generally depicted on a map entitled "Indian Canyons National Historic Site", dated February 1986.

(b) Upon enactment of this title, the Secretary of the Interior shall enter into negotiations to acquire by exchange the private-

ly owned lands or interests therein within the national historic site designated by subsection (a). The value of the properties so exchanged either shall be equal or, if they are not equal, the values shall be equalized by the payment of cash to the grantor or to the Secretary as the circumstances require.

(c) The Secretary shall enter into a cooperative management agreement with the Agua Caliente Band of Cahuilla Indians for the purposes of managing the Indian Canyons National Historic Site. Upon execution of the management agreement, the Secretary shall transfer title of the land to be held in trust for the Agua Caliente Band of Cahuilla Indians as part of the Agua Caliente Indian Reservation and such transfer shall remain effective so long as the agreement remains in force and in effect.

#### LAND TENURE ADJUSTMENTS

SEC. 604. In preparing land tenure adjustment decisions within the California Desert Conservation Area, of the Bureau of Land Management, the Secretary shall give priority to consolidating federal ownership within the national park units and wilderness areas designated by this Act.

#### LAND EXCHANGES WITH THE STATE OF CALIFORNIA

SEC. 605. (a) The Secretary of the Interior shall exchange such public lands or interests in lands, as are of approximately equal value and selected by the State of California, acting through the State Lands Commission, for any state lands or interests therein located within the boundaries of the wilderness or the parks.

(b) Within six months from the date of enactment of this Act, the Secretary of the Interior shall notify the Chairman of the State Lands Commission what state lands or interests therein are within the wilderness areas or national park units designated by this Act. The notice shall include notice of the Secretary's duty to exchange public lands selected by the state for any state land contained within the boundaries of the wilderness areas or national park units. The notice shall contain a listing of all public lands within the boundaries of the state, which have not been withdrawn from entry and which have not been withdrawn from entry and which the Secretary identifies as available to the state in exchange for state lands within the wilderness areas or national park units.

(c) After the receipt of the list of available public lands, if the Chairman of the State Lands Commission gives notice to the Secretary of the state's selection of lands, the Secretary shall notify the Chairman in writing as to whether the Department of the Interior considers the state and federal lands to be of approximately equal value. In the case of disagreement between the Secretary and the Chairman as to relative value of the acquired and selected lands, the Secretary and the Chairman shall agree on the appointment of a disinterested independent appraiser who will review valuation data presented by both parties and determine the amount of selected land which best represents approximate equal value. Such determination will be binding on the Secretary and the State Lands Commission. The transfer of title to lands or interests therein to the State of California shall be completed within two years from the date of enactment of this Act.

By Mr. CRANSTON:

S. 8. A bill to provide Federal financial assistance to facilitate the establishment of alliances between educa-

tional agencies and the private sector to increase the use of resources of the private and nonprofit sectors in the provision of elementary and secondary education, and for other purposes; to the Committee on Labor and Human Resources.

#### ALLIANCE FOR EDUCATION ACT OF 1987

Mr. CRANSTON. Mr. President, I introduce for appropriate reference a bill to encourage and facilitate cooperative alliances between the private sector and the public schools. The Alliance for Education Act of 1987 will provide grants to develop model cooperative programs linking the needs of schools and the resources of the private sector, and the nonprofit sector, in order to marshal the full support of our communities for the betterment of education.

At all levels, Americans are reassessing our education system. We want quality. We want our children to be literate in every sense of the word. We want graduates of our school system to be fully functional as individuals, as members of a democratic society, and as contributors to a strong economy for the American future. Every major education reform report tells us that our vitality as a nation and our strength as a world economic power depends upon the job we do in our schools. We must raise school standards and performance in order to bring forth the full potential of this great Nation.

It is with this recognition, and in this spirit, that I introduce the Alliance for Education Act of 1987. Our schools are not discrete entities. They are part of the creative fabric of each community, of each State, of our entire Nation. If we are to revitalize education in America—and we must—our effort must be in partnership with every segment of the school community. For we've come to understand that excellence in education is everyone's responsibility.

Yet even though we know that raising education standards is the job of every segment of the community, and in spite of overwhelming public support for education, one of our contemporary tragedies is the lack of community involvement and parent interest in what schools teach and how they teach it. We must take action to realize that support. Too, we are just beginning to comprehend the value of linking the resources of the private and nonprofit sectors—business concerns, private community organizations, institutions of higher education, museums, libraries, educational television stations, as well as State and local governments. But unless we move ahead on these critical fronts, much of our talk about school reform will remain as rhetoric.

In order to encourage community partnerships in education, we must de-

velop and disseminate model cooperative programs in two areas: One, alliances in which business shares its expertise and other resources with the schools; and two, alliances in which other segments of the community—many of them already active in educational efforts of their own—are invited to join the effort to enhance the curriculum.

Everyone can gain from this.

The fact is, the private business sector depends more and more upon education—education in schools and education in the corporation—to supply its skilled workers and to help its managers sustain quality and productivity. Some years ago, in my State of California, an organization of leaders of business and industry, called the California Roundtable, identified education as a priority issue for dealing with three persistent problems: One, a pervasive unemployment problem, particularly among minority youth in urban areas; two, the difficulty companies have in locating qualified entry-level employees; and three, an increasingly technical job market, requiring employees who have mastered the basics in high school and are therefore trainable. In fact, the Roundtable estimates that by 1990 half of all jobs in California will be technically based.

The Roundtable's concern about whether or not students are being adequately prepared for college and for work resulted in a comprehensive, independent research study, commissioned by the Roundtable, to determine the current level of student performance and ascertain areas where improvement is needed and where support can be provided. But the issue was not simply studied: Based on the organization's conviction that education was of paramount importance to the future of California business and industry, the Roundtable worked very successfully to enact a far-reaching set of education reforms for the State and to raise the funding level for education to the highest in the State's history.

The positive climate for education reform in California was greatly improved by the Roundtable's effort. In this instance, a keen business interest in schools resulted in substantial advancement for schools. In other areas of the country, collaborative efforts between business and schools have been more modest but no less effective. Chicago has a citywide Adopt-A-School Program, in which a network of industries work with schools at least once a week, for a year at least. St. Louis has a School Partnership Program, bringing together the resources of business and the resources of government and cultural agencies and colleges as well. In Los Angeles, the Atlantic Richfield Joint Education Project was started when employees of Atlantic Richfield volunteered to tutor

children at innercity elementary schools several hours each week, and now the program involves other businesses and is citywide.

This kind of involvement is critical—for both education and for the economy.

In a recent interview, Labor Secretary William Brock said:

One of the strangest things about the American economic-educational system is that it's been like two ships passing in the night. There's business on one side and educators on the other. They have very little contact or communication. Each seems to be somewhat intimidated by the other. Business has an enormous vested interest in seeing a much more effective public education system in place in this country quickly, and education, obviously, has an interest in finding out what the demands of the work place are going to be and how they can more effectively respond to them, because in that process they'll gain more support.

Secretary Brock is right. And what has happened in California via the Roundtable experience, and what is happening in other areas of the country where business is expressing an active interest in educational excellence must be given full encouragement. It is in the clear national interest for the Federal Government to fund model projects in business/education collaboration that can then be successfully undertaken in other areas of the country.

Other segments of the school community belong in this collaborative effort—museums, libraries, colleges, and universities, and other nonprofit organizations. Again and again, research suggests that when the total community actively supports schools, great power is generated to bring about change and improvement. In fact, there can likely be no effective education carried out in a setting where the community—including the family—is indifferent or even hostile to the schools.

Where community partnerships have been launched, they have been successful and varied. The University of North Dakota, for example, is working with 10 high schools in Grand Forks to improve student preparation for college. Faculty members and school staff have worked together—through conferences, assistance to teachers, and demonstration projects—in order to help teachers give students a better understanding of what college will be like and what skills they will need.

Promising activities for other communities can be programs in which the arts resources—and experts—in a community can work with the schools. In Boston, the nonprofit cultural education collaborative coordinates programs between Boston public schools and the city's outstanding performing companies, museums, and art centers, in Philadelphia, PATHS—a coalition of businesses, universities, and the

Philadelphia public schools is developing a national model for improving humanities instruction in urban school districts. Operating from New York City, the Rockefeller Brothers Fund has identified schools with a distinguished arts program and recognizes excellence with \$10,000 awards.

Cooperative programs can include alliances between schools and college math and science departments, non-profit vocational training programs, programs for students with special needs, university and college efforts in teacher development, and in the health professions: In Manhattan, eighth and ninth graders at Joan of Arc Junior High School spend 1 day per week over a 2-year period at the New York University Medical Center Program studying laboratory techniques and basic sciences. As a result, numerous students from the program have entered the health professions as a career.

The possibilities for business/community alliances for schools are as limitless as the American imagination. And so are the potential results. From the California Roundtable experience, it is clear that business leaders can be a powerful positive force for education reform within a State—including the achieving of much greater financial support for schools. From a host of other experiences, in cities and in States around the Nation, it is clear that students can make more informed career decisions in encounters with professionals in business. Students can have access to expensive state-of-the-art equipment. Business can provide help in school management programs, and facilities and personnel for student instruction. And in urban areas, the corporate community can gear assistance to programs encouraging economically disadvantaged youth to stay in school, as has been done by the New York City Partnership.

One of the biggest gains for education through the alliances my bill encourages is a gain in support for schools and for the essential mission of our education system. Because of America's heterogeneity, our Nation's sheer size, and our emphasis on individuality, we must work hard and diligently to maintain a sense of unity in our educational effort. Trust, respect, and communitywide agreement on what schools should do and how they should do it can best be built if all segments of the community are represented and active in the schools.

The bill I introduce today provides for grants to begin building alliances between the public schools and the private and nonprofit sectors. Grants will be made to apply the full resources of the private and nonprofit sections to elementary and secondary school needs in the community, to encourage business to work with educa-

tionally disadvantaged as well as gifted students, and to broaden the career awareness of secondary school students. Grants may also be made for developing model State statutes in support of cooperative ties between the private sector and schools, for academic internship programs, for tutorial and volunteer work, and for staff training. Federal support is on a declining scale, with the projects to be self-supporting at the end of the grant period. Grant criteria and program policy will be made by a presidentially appointed board composed of 15 members from specified backgrounds appointed by the President, and including the Secretaries of Education, Commerce, and Labor, and the chairman of the National Endowment for the Arts and the National Endowment for the Humanities. The Secretary of Education administers the program, conducts an annual evaluation of grants made under the act, and disseminates information in order to encourage the broadest possible use of successful strategies and methods.

Mr. President, I ask unanimous consent that the text of my bill and a section-by-section analysis be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### S. 8

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SHORT TITLE

SECTION 1. This Act may be cited as the "Alliance for Education Act of 1987".

#### STATEMENT OF PURPOSE

SEC. 2. It is the purpose of this Act to encourage the creation of alliances between public schools and the private sector in order to—

(1) apply the resources of the private and nonprofit sectors of the community to the needs of the elementary and secondary schools in that community;

(2) encourage business to work with educationally disadvantaged students and with gifted students;

(3) apply the resources of communities for the improvement of elementary and secondary education; and

(4) enrich the career awareness of secondary school students to exposures to the private sector and their work.

#### DEFINITIONS

SEC. 3. As used in this Act—

(1) The term "Board" means the Alliance for Education Board established pursuant to section 6.

(2) The term "eligible alliance" means a local educational agency and business concerns, nonprofit private organizations, institutions of higher education, museums, libraries, educational television stations, and if the State agrees to participate, appropriate State agencies.

(3) The term "elementary school" has the same meaning given that term under section 198(a)(7) of the Elementary and Secondary Education Act of 1965.

(4) The term "institution of higher education" has the same meaning given that term

by section 1201(a) of the Higher Education Act of 1965.

(5) The term "local educational agency" has the same meaning given that term under section 198(a)(10) of the Elementary and Secondary Education Act of 1965.

(6) The term "secondary school" has the same meaning given that term under section 198(a)(7) of the Elementary and Secondary Education Act of 1965.

(7) The term "Secretary" means the Secretary of Education.

(8) The term "State" means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the Virgin Islands, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands.

(9) The term "State educational agency" has the same meaning given that term under section 198(a)(17) of the Elementary and Secondary Education Act of 1965.

#### PROGRAM AUTHORIZED

SEC. 4. (a) The Secretary, subject to the general policies and criteria established by the Board and in accordance with the provisions of this Act, is authorized to make grants to eligible alliances to pay the Federal share of the costs of the activities described in section 5.

(b) There are authorized to be appropriated \$30,000,000 for the fiscal year 1988 and for each of the three succeeding fiscal years to carry out the provisions of this Act.

#### AUTHORIZED ACTIVITIES

SEC. 5. (a) An eligible alliance may use payments received under this Act in any fiscal year for—

(1) model cooperative programs designed to apply the resources of the private and nonprofit sectors of the community to the elementary and secondary schools of the local educational agency in that community;

(2) projects designed to encourage business concerns and other participants in the eligible alliance, to work with educationally disadvantaged students and with gifted students in the elementary and secondary schools of local educational agencies;

(3) projects designed to apply the resources of the community to the elementary and secondary schools of the local educational agency in that community to improve the education of students in such schools;

(4) projects designed to enrich the career awareness of secondary school students through exposure to officers and employees of business concerns and other agencies and organizations participating in the eligible alliance for education;

(5) projects for statewide activities designed to carry out the purpose of this Act including the development of model State statutes for the support of cooperative arrangements between the private sector and the elementary and secondary schools within the State;

(6) special training projects for staff designed to develop skills necessary to facilitate cooperative arrangements between the private and nonprofit sectors and the elementary and secondary schools of local educational agencies;

(7) academic internship programs, including where possible academic credit, involving activities designed to carry out the purpose of this Act; and

(8) projects encouraging tutorial and volunteer work in the elementary and secondary schools of local educational agencies by personnel assigned from business concerns and other participants in the eligible alliance.

#### ALLIANCE FOR EDUCATION BOARD

SEC. 6. (a)(1) There is established within the Department of Education an Alliance for Education Board.

(2) The Board shall be composed of 15 members as follows:

(A) Ten members shall be appointed by the President—

(i) of whom 2 shall be appointed from among individuals who are representatives of business concerns.

(ii) of whom 3 shall be appointed from among individuals who are representative of elementary and secondary school teachers and elementary and secondary school administrators.

(iii) of whom 2 shall be appointed from among chief State school officers.

(iv) of whom 3 shall be appointed from among members of the general public who by reason of experience or interest are qualified to serve on the Board.

(B) The Secretary of Education.

(C) The Secretary of Commerce.

(D) The Secretary of Labor.

(E) The Chairman of the National Endowment for the Arts.

(F) The Chairman of the National Endowment for the Humanities.

(3) The members of the Board listed in subparagraphs (B) through (F) shall be ex officio members of the Board.

(b) The Board shall establish general policies with respect to the functions of the Secretary under this Act including—

(1) guidelines for the establishment and operation of an eligible alliance under this Act;

(2) priorities for the approval of applications; and

(3) such other matters as the Secretary may prescribe.

(c) The Chairman of the Board shall be designated by the President from among the appointed members of the Board. Except as provided in subsection (d)(2), eight appointed members of the Board shall constitute a quorum.

(d) The Board shall meet at the call of the Chairman, except that—

(1) it shall meet not less than four times each year; and

(2) it shall meet whenever one-third of the appointed members request a meeting in writing, in which event seven of the appointed members shall constitute a quorum.

(e) Members of the Board who are not in the regular full-time employ of the United States shall receive, while engaged in the business of the Board, compensation for service at a rate to be fixed by the President, except that such rate shall not exceed the rate specified at the time of such service for grade GS-18 set forth in section 5332 of title 5, United States Code, including travel-time, and, while so serving away from their homes or regular places of business, they may be allowed travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5, United States Code, for persons employed in Government service.

#### APPLICATION

SEC. 7. (a) Any eligible alliance which desires to receive a grant under this Act shall submit an application to the Secretary, at such time, in such manner, and accompanied by such additional information as the Secretary may reasonably require. Each such application shall—

(1) describe the activities for which assistance under this Act is sought;

(2) provide evidence that the eligible alliance meets the general criteria established by the Board pursuant to section 6;

(3) provide assurance that the eligible alliance will pay the non-Federal share of the activities for which assistance is sought from non-Federal sources;

(4) provide assurances that the eligible alliance will take such steps as may be available to it to continue the activities for which the eligible alliance is making application after the period for which assistance is sought; and

(5) provide such additional assurances as the Secretary determines to be essential to ensure compliance with the requirements of this Act.

(b) A consortium of eligible alliances may file a joint application under the provisions of subsection (a) of this section.

#### APPROVAL OF APPLICATION

SEC. 8. (a) The Secretary shall approve applications in accordance with the general policies criteria established by the Board under section 6.

(b) No application may be approved by the Secretary if the State educational agency notifies the Secretary that the application is inconsistent with State plans for elementary and secondary education in the State.

#### PAYMENTS; FEDERAL SHARE; LIMITATION

SEC. 9. (a)(1) The Secretary shall pay to each eligible alliance having an application approved under section 7 the Federal share of the cost of the activities described in the application.

(2) The Federal share—

(A) for the first year for which an eligible alliance receives assistance under this Act shall be 90 percent;

(B) for the second such year shall be 75 percent;

(C) for the third such year shall be 50 percent; and

(D) for the fourth such year 33½ percent.

(3) The non-Federal share of payments under this Act may be in cash or in kind fairly evaluated, including planned equipment or services.

(b) Not more than 15 percent, or 1,000,000, whichever is greater of the funds appropriated under this Act in any fiscal year may be paid to eligible alliance in any single State.

#### EVALUATION AND DISSEMINATION

SEC. 10. (a) The Secretary shall conduct an annual evaluation of grants made under this Act to determine—

(1) the type of activities assisted under this Act;

(2) the impact upon the educational characteristics of the elementary and secondary schools from activities under this Act;

(3) the extent to which activities assisted under this Act have improved or expanded the nature of support for elementary and secondary education in the community or in the State, as the case may be; and

(4) a list of specific activities assisted under this Act which show promise as model programs to carry out the purpose of this Act.

(b) The Secretary shall disseminate to State and local educational agencies and other participants in the eligible alliance program information relating to the activities assisted under this Act.

#### SECTION-BY-SECTION ANALYSIS

Section 1 provides that the Act may be cited as the "Alliance for Education Act of 1987".

#### PURPOSE

SECTION 2. The stated purpose of the Act is to encourage the creation of alliances between public schools and the private sector in order to apply the resources of the private and nonprofit sectors of the community to the needs of elementary and secondary schools in the community, to encourage business to work with educationally disadvantaged as well as gifted students, to apply community resources to improve elementary and secondary education, and to enrich the career awareness of secondary school students.

#### DEFINITIONS

SECTION 3. This section defines terms used in the Act. Several of the terms are defined in the customary manner. "Board" means the Alliance for Education Board established pursuant to the Act. "Eligible Alliance" means a local educational agency and business concerns, private organizations, institutions of higher education, museums, libraries, educational television stations, and State agencies.

#### PROGRAM AUTHORIZED

SECTION 4. (a) Authorizes the Secretary of Education to make grants in accordance with provisions of the Act; and (b) authorizes \$30 million for the fiscal year 1988 and for each of three succeeding fiscal years.

#### AUTHORIZED ACTIVITIES

SECTION 5. This section states that a grantee may use payments received under the Act for model cooperative programs applying private and nonprofit sector resources to elementary and secondary schools in the community, for projects to encourage business and others in the alliance to work with educationally disadvantaged and with gifted students, for projects to apply community resources to improve the education of students in elementary and secondary schools in the community, for projects to enrich the career awareness of secondary school students, for statewide activities including the development of model State statutes for the support of cooperative ties between the private sector and schools, for special staff training projects, for academic internship programs, and for tutorial and volunteer work in elementary and secondary schools.

#### ALLIANCE FOR EDUCATION BOARD

SECTION 6. This section establishes within the Department of Education an Alliance for Education Board, composed of 15 members from specified backgrounds appointed by the President, and including the Secretaries of Education, Commerce, and Labor, and the Chairman of the National Endowment for the Arts and the National Endowment for the Humanities. The section sets forth duties of the Board, meeting criteria, and compensation for service including per diem in lieu of subsistence.

#### APPLICATION

SECTION 7. This section sets forth application criteria, including a requirement for assurances will pay the non-Federal share and assurances that steps will be taken to continue the activities covered under the application after the grant period.

#### APPROVAL OF APPLICATIONS

SECTION 8. This section directs the Secretary to approve applications in accordance with Board-established criteria, and specifies that no application may be approved that is deemed by the State education agency as inconsistent with State plans for elementary and secondary education.

#### PAYMENTS; FEDERAL SHARE; LIMITATION

SECTION 9. This section sets the Federal share of the cost of the activities funded as 90 percent for the first year, 75 percent for the second year, 50 percent for the third year, and 33½ percent for the fourth year. The non-Federal share may be in cash or in kind, and not more than 15 percent or \$1,000,000 whichever is the greater of the funds appropriated under the Act in any fiscal year may be paid to eligible alliances in a single State.

#### EVALUATION AND DISSEMINATION

SECTION 10. This section directs the Secretary to conduct an annual evaluation of grants made under the Act in order to determine the types of activities assisted, the educational impact upon elementary and secondary schools, the extent to which assisted activities have improved or expanded support for schools, and those activities which show promise as model programs. Directs the Secretary to disseminate information on activities assisted under the Act.

By Mr. CRANSTON (for himself, Mr. MATSUNAGA, Mr. DeCONCINI, Mr. MITCHELL, Mr. ROCKEFELLER, Mr. GRAHAM, and Mr. LAUTENBERG):

S. 9. A bill to amend title 38, United States Code, to increase the rates of disability compensation and dependency and indemnity compensation for veterans and survivors; to provide additional eligibility for certain educational or rehabilitation assistance to veterans and other eligible individuals with drug or alcohol abuse disabilities; to increase the maximum amount of a home loan which is guaranteed by the Veterans' Administration; to improve housing, automobile, and burial assistance programs for service-disabled veterans; and to extend and establish certain exemptions from sequestration for certain veterans' benefits; and for other purposes; to the Committee on Veterans' Affairs.

#### SERVICE-DISABLED VETERANS' BENEFITS IMPROVEMENT ACT OF 1987

Mr. CRANSTON. Mr. President, as the chairman of the Committee on Veterans' Affairs, I am today introducing S. 9, the proposed "Service-Disabled Veterans' Benefits Improvement Act of 1987." Joining with me as original cosponsors of this measure are five other committee members, Senators MATSUNAGA, DeCONCINI, MITCHELL, ROCKEFELLER, and GRAHAM, all of whom serve with me on the committee, and the Senator from New Jersey [Mr. LAUTENBERG].

This measure would provide for a cost-of-living increase in the rates of disability compensation for veterans who suffer from service-connected disabilities and the rates of dependency and indemnity compensation [DIC] for the survivors of veterans who have died from service-connected causes (section 2). In addition, the bill would provide increases in the maximum amount of VA specially adopted housing assistance grants for certain se-

verely disabled, service-connected veterans (section 3), increase the funeral and burial allowance for service-connected deaths (section 4), toll the eligibility period for GI Bill and certain other educational and vocational rehabilitation programs for veterans and other eligible persons who have been prevented from participating in such programs because of alcohol or drug dependence or abuse (section 5), increase the maximum loan guaranty under the VA's home-loan guaranty program (section 6), and increase the amount of the automobile assistance grant provided to certain severely disabled, service-connected veterans (section 7).

Finally, the measure (section 8) would also make permanent the Gramm-Rudman-Hollings sequestration exemptions—currently for fiscal year 1987 only—enacted late last year for the VA's program of vocational rehabilitation for certain service-connected disabled veterans (chapter 31) and the program of educational assistance for survivors and dependents of certain service-connected disabled veterans (chapter 35) and would create a permanent Gramm-Rudman-Hollings sequestration exemption for the VA's home-loan guaranty program (chapter 37).

#### COMPENSATION RATE INCREASE

The VA's service-connected disability compensation program is at the very heart of our system of veterans' benefits. The Committee on Veterans' Affairs has consistently attached the highest priority to the needs of service-connected disability veterans and the survivors of those who have made the ultimate sacrifice. Meeting the needs of the more than 2.2 million veterans who suffer from disabilities resulting from their service and the 340,000 survivors of those who died from service-connected disabilities will remain my No. 1 priority in veterans' affairs.

Mr. President, the legislation we are introducing today would, in section 2, provide for a compensation and DIC cost-of-living adjustment [COLA] equal to the COLA percentage to be provided for Social Security and VA pension benefits, effective December 1, 1987. As I and other members of the committee have noted on numerous occasions, our commitment to this approach remains strong.

The Congressional Budget Office [CBO] estimates that the Social Security increase will be 4.1 percent. If so, the compensation/DIC increase would cost approximately \$352 million in budget authority and \$317 million in outlays for fiscal year 1988.

#### SPECIALLY ADAPTED HOUSING ASSISTANCE

Mr. President, section 3 of our bill would increase by 12.5 percent, from \$35,500 to \$40,000, effective October 1, 1987, the maximum amount payable in specially adapted housing assistance,

under the so-called wheelchair home program, to certain totally and permanently service-connected disabled veterans. The measure would also increase by 12.5 percent, from \$6,000 to \$6,750, effective October 1, 1987, the maximum amount payable in adapted housing assistance to certain veterans who suffer from service-connected blindness or who have suffered the loss or loss of use of two upper extremities. These programs are codified in chapter 21 of title 38, United States Code.

Under the wheelchair home program, the VA provides veterans who have certain permanent and total service-connected disabilities involving mobility impairments with cash assistance in acquiring suitable housing with adaptations made necessary by the nature of their disabilities. Under current law, these disabled veterans are eligible for a grant not to exceed 50 percent of the cost of the home and necessary land, up to a maximum of \$35,500. Veterans eligible for housing assistance grants are principally quadriplegics, paraplegics, amputees, and certain others who, because of their service-connected disabilities, require the use of a wheelchair, braces, a cane, or crutches to move about. Their disabling conditions typically require ramps, special bathroom equipment, extra-large rooms and hallways, and various other adaptations that protect their health and safety.

Increases in the maximum amount of the grant have been provided periodically. When originally enacted in Public Law 80-702 in 1948, the specially adapted housing program provided for assistance of up to \$10,000. Since then, the maximum amount of assistance has been increased on six occasions based on legislation I authored or coauthored. The last increase, to \$35,500, derived from legislation I introduced in the 98th Congress, was made by Public Law 98-543 and was effective on January 1, 1985. At that time, according to the National Association of Realtors, the average cost of an existing home was \$73,100. In October 1986, that average cost had increased to \$79,700—a 9-percent increase. According to the latest projections compiled in August by the CBO, the Consumer Price Index is expected to increase by 3.9 percent in fiscal year 1987.

Thus, by raising the maximum limit of the assistance by 12.9 percent, to \$40,100, effective October 1, 1987, our bill would counter the effects of inflation on the value of this benefit over the 2½ years preceding that date.

Similarly, our bill would also increase by 12.9 percent, from \$6,000 to \$6,775, effective October 1, 1987, the maximum amount of assistance for special housing adaptations that is available to certain veterans suffering from service-connected total blindness

or the loss or loss of use of both upper extremities. This program of assistance, payable pursuant to section 801(b) of title 38, was enacted in 1980 based on legislation I authored. Under this program, an eligible veteran is entitled to up to a maximum of \$6,000 for the purposes of making special adaptations that the Administrator determines are reasonable necessary because of the veteran's disability. This maximum amount was last increased from \$5,000 to \$6,000, effective January 1, 1985, when the wheelchair grant assistance maximum was increased.

In fiscal year 1985, under both programs, the VA made a total of 540 specially adapted housing grants with an average benefit payment of \$29,286. In fiscal year 1986, 499 grants under both programs were made with an average benefit payment of \$30,284. The VA has estimated that in fiscal year 1987, a total of 390 grants will be made with an average payment of \$30,962.

Based on informal CBO estimates, the cost of providing for these increases would be approximately \$2.4 million for fiscal year 1988.

#### FUNERAL AND BURIAL BENEFITS FOR SERVICE-CONNECTED DEATHS

Mr. President, section 4 of the measure we are introducing today would also provide for an increase of \$900—from \$1,100 to \$2,250—in the allowance which the VA pays, at the request of the survivors, to defray the funeral and burial expenses for a veteran who dies of service-connected causes. This program is codified in chapter 23 of title 38, United States Code.

Until 1974, there was no difference between the funeral and burial benefits paid to the survivors of veterans who died from service-connected causes and those who died from non-service-connected causes. The amounts so provided for funeral and burial expenses were substantially less than the average funeral and burial costs in this country. In clear recognition of the greater Federal responsibility for service-connected deaths, the Congress corrected that situation, in part, by enacting legislation I proposed to increase substantially, from \$250 to \$800, the maximum allowance payable for such deaths. That legislation, section 5(a)(2) of the National Cemeteries Act of 1973 (Public Law 93-43), tied the amount of allowances payable to the amount payable under section 8134(a) of title 5, United States Code, on behalf of Federal employees who die from injuries sustained in the performance of their duties.

However, the \$800 maximum payable under that title 5 provision was set in 1958 and has not been increased despite the very substantial rise in funeral and burial expenses over the past nearly 30 years. In 1978, the National Association of Funeral Directors

estimated that the average cost of a funeral, including the basic funeral and the casket, had risen to \$1,348. On the basis of this data, the Senate adopted my proposal for an increase in the maximum allowance to \$1,500. In Public Law 95-479, the Congress raised the maximum to \$1,100—approximately 82 percent of the average funeral cost.

According to the National Funeral Directors Association, a study by the Federation of Funeral Directors has found that the cost of an average adult funeral was \$2,745 in 1986.

Mr. President, I have long felt that the highest priority of VA programs relating to burial and cemetery benefits should be assistance to the survivors of those veterans who die from service-connected causes. Hence, in view of the substantial increase in the cost of burial since 1978, our measure would increase the maximum allowance in such cases to \$2,250, thereby restoring the 82-percent coverage.

Based on informal CBO estimates, the cost of providing for these increases would be approximately \$8.8 million for fiscal year 1988.

#### TOLLING THE RUNNING OF DELIMITING PERIODS BY REASON OF DRUG OR ALCOHOL CONDITIONS

Mr. President, in the GI bill Improvement Act of 1977, Public Law 95-202, the Congress adopted legislation I proposed to amend the Vietnam Era GI bill and the Survivors' and Dependents' Educational Assistance (chapters 34 and 35, respectively) to grant extensions of the 10-year delimiting period in the case of an eligible veteran or an eligible spouse who is prevented from pursuing a program of education during that period due to a mental or physical disability not the result of willful misconduct. Similar authorities were subsequently incorporated in all of the educational assistance programs authorized by title 38—the chapter 30, new GI bill program, the chapter 31, Vocational Rehabilitation Program, and the chapter 32, Post-Vietnam Era Veterans Program. Under these provisions, the delimiting period does not run during any period of time that the veteran or eligible spouse is determined to have been unable to pursue training because of the disability.

However, there have been a number of instances in which the VA has denied a delimiting-period extension to an otherwise eligible veteran when the condition on which the veteran based his or her claim was an alcohol or drug abuse or dependence disability, which the VA considers categorically to be a condition due to willful misconduct. The VA has based its denial in these cases on the legislative history of the 1977 provision that addressed the issue of how determinations of disability should be made for the purposes of the extension. In particular, the report of the Veterans' Affairs Committee (S. Rept. No. 95-468)

on the provision which was enacted as section 203(a)(1) of Public Law 95-202, in discussing the concept of "willful misconduct," stated at pages 69-70:

In determining whether the disability sustained was a result of the veteran's own "willful misconduct," the Committee intends that the same standards be applied as are utilized in determining eligibility for other VA programs under title 38.

The report further referenced VA regulations and manual provisions relating to the determination of willful misconduct for the purposes of determining service-connected disability. Under the VA's interpretation of those standards, in section 3.301(C)(2) and (3) of title 38, Code of Federal Regulations, alcoholism and drug addiction and injuries proximately and immediately resulting from the effects of the deliberate ingestion of an alcoholic beverage or voluntary use of a drug—such as driving while under the influence of alcohol or a drug—are considered to be the result of willful misconduct.

In 1979, our committee reexamined the practical consequences of denying a delimiting period extension in such cases and the differences between awarding such an extension on the grounds of alcohol or drug disabilities and awarding other VA benefits, such as compensation or pension, based on such disabilities. As a result of this reexamination, the committee saw no substantial purpose to be served by denying a veteran a GI bill delimiting-period extension when the veteran had been prevented by a drug or alcohol disability, during part of all of the ordinary 10-year delimiting period, from using GI bill educational assistance. In fact, the committee noted its view that allowing extensions in such cases was desirable because helping veterans pursue their educations would have considerable value in contributing to achieving and maintaining the medical, social, and economic rehabilitation of veterans recovering from disabilities related to alcohol or drugs.

In contrast, the committee noted that some undesirable consequences might flow if a similar rule were applied for purposes of other VA benefit programs, such as service-connected compensation, where the rate and duration of benefits depend directly upon the severity and duration of the disability. If an individual were to be granted disability compensation for alcoholism or drug addiction, there would be a strong financial incentive established—in the form of a higher rate of compensation or the continuation of receipt of compensation—for the worsening or prolongation of the disability, either of which can, to a greater or lesser degree, be within the control of the veteran because they depend upon the amount, frequency,

and duration of his or her consumption of alcoholic beverages or drugs.

Thus, the committee reported in S. 870—and the Senate passed in section 201(2) of H.R. 5288—a provision to establish that an alcohol or drug dependence or abuse disability from which a veteran or eligible spouse has recovered will not, solely for purposes of deciding requests for delimiting-period extensions, be considered to be the result of willful misconduct.

Similarly, in S. 1188, the bill reported by the committee in 1980 to revise and update chapter 31, relating to VA rehabilitation programs for service-connected disabled veterans, the Senate passed on September 4, 1980, a comparable provision to provide for the tolling of a service-connected disabled veteran's delimiting period for a chapter 31 rehabilitation program on account of an alcohol or drug disability.

However, despite the committee's strongest urgings, the House would accept neither the GI bill nor the rehabilitation program provision for delimiting-period extensions based on drug or alcohol disabilities.

In 1981, in S. 921, the Veterans' Programs Extension and Improvement Act of 1981, the Senate approved similar provisions, and again the House refused to accept them. In 1982, in S. 2913, the proposed Veterans' Compensation, Education, and Employment Amendments of 1982, the Senate passed these provisions with revisions to address certain concerns expressed by the VA; again the House refused to accept the Senate provisions. In 1984, the Senate again approved provisions in S. 2736, largely similar to those approved in 1982, and again, the House refused to accept them.

Mr. President, I continue to believe that the opportunity to use VA educational and rehabilitation benefits can be extremely important to the readjustment and rehabilitation of the Vietnam-era and service-connected disabled veterans involved and that the delimiting period extensions for those who were, but are no longer, prevented by alcohol or drug disabilities from using those benefits is fully consistent with the readjustment and rehabilitation goals of these programs. I am moving forward with this rehabilitative effort again at this point because of the great and concerted efforts made by both Houses late last year in enacting major new drug and alcohol abuse legislation, the Anti-Drug Abuse Act of 1986, Public Law 99-570. In that legislation, Congress clearly recognized the imperative of providing individuals who have drug or alcohol conditions with every reasonable opportunity to participate in programs that can help them return to full, productive lives.

In view of the present national priority on ending drug and alcohol dependency in our society, I am hopeful that the House committee and the Veterans' Administration will be willing to reconsider their opposition to these provisions which we have repeatedly passed in the Senate before.

Thus, the provisions in section 5 of the measure we are introducing today, which are derived from the provisions passed by the Senate in 1984, would amend chapters 30, 31, 32, 34, and 35 to permit the Administrator to extend delimiting periods in the cases of veterans and other eligible persons who have been prevented from using their education or rehabilitation entitlements under title 38 as a result of alcohol or drug dependence or abuse conditions.

In 1984, in connection with the S. 2736, CBO estimated that the number of veterans who would be affected by tolling extensions would be too small for the enactment of these provisions to result in a significant cost.

#### INCREASE IN LOAN GUARANTY MAXIMUM

Mr. President, the VA's home-loan guaranty is designed to substitute, in large measure, for the down payment that would otherwise be required when a veteran purchases a home. Under current law, the guaranty is limited to 60 percent of the loan amount or \$27,500, whichever is the lesser, with regard to conventionally built homes and condominium apartments. Lenders are thus assured of the substantial protection afforded by the VA loan guaranty and are generally willing to make loans to veterans without the necessity of a downpayment or with a lower downpayment than would otherwise be required. The VA Home-Loan Guaranty Program is codified in chapter 37 of title 38, United States Code.

As my colleagues are well aware, housing prices have risen substantially since the most recent increase in the VA loan-guaranty maximum, enacted by the Congress, effective on October 1, 1980. According to data collected by the National Association of Realtors, the median purchase price of an existing home in October 1980 was \$62,700. By October 1986—the most recent month for which data are available—the median purchase price of an existing home had risen by 27 percent to \$79,700. In the case of new homes, the National Association of Home Builders advises that in calendar year 1980 the median purchase price was \$64,600; by the end of calendar year in 1986, the price had risen to \$91,400—an increase of 41.5 percent. In addition, according to the latest CBO projections, the Consumer Price Index is expected to increase by 3.9 percent in fiscal year 1987. Our bill adopts the more modest of the two 7-year increases measure. By raising the guaranty by 31 percent—the percentage increase in the

existing home median purchase price plus the projected 3.9-percent fiscal year CPI increase—to \$36,000, effective October 1, 1987, section 6 of this bill would help to ensure that the value of the VA home-loan guaranty keeps pace with increases in the housing market.

Mr. President, the continuing popularity of and demand for the VA's Home Loan Program is clearly evident. In fiscal year 1986, the VA guaranteed 313,469 home loans totaling a record \$21.9 billion and issued commitments to guarantee loans totaling another \$12.4 billion. This represented a significant increase over fiscal year 1985 when the VA guaranteed \$11.45 billion in loans, representing 178,931 loans. But for hundreds of thousands of other veterans seeking to use their VA home-loan guaranty entitlements, the cost of housing is so high that they cannot find any decent housing for the maximum price—\$110,000—which the VA loan-guaranty maximum will enable them to pay on a no-downpayment loan.

This increase will help ensure that, to the extent interest rates and other economic factors generally make home purchases possible, the VA Loan-Guaranty Program will continue to play the role Congress intends of helping veterans become homeowners.

This provision of S. 9, Mr. President, is similar to S. 2265 which I introduced in the 98th Congress and to S. 9 which I introduced in the 99th Congress—both of these bills proposed increases in the maximum to \$35,000. Despite the passage by the House of Representatives in the 98th Congress (section 1 of H.R. 5617) and the passage by the Senate in the 99th Congress (section 303 of S. 1887) of provisions that would have substantially increased the loan-guaranty maximum and despite my best efforts, the enactment of an increase was not achieved.

Part of the reason for this reluctance to enact an increase in the last several years has been concern about the high rates of default and foreclosures on VA-guaranteed home loans. However, during that period the Congress and the administration have focused a great deal of attention on the program and the development of reasonable means to bring down the default and foreclosure rates and reduce the Government's liability in the event of a foreclosure. Thus, in the Deficit Reduction Act of 1984—Public Law 98-369—Congress enacted provisions establishing criteria for determining when the VA pays the guaranty on a property versus taking title to the property and limiting the number of vendee loans which the VA may make. Subsequently, in Public Law 99-576, enacted on October 28, 1986, Congress required the development of new underwriting criteria for the approval of VA home loans.

As a result of efforts such as these, I believe that those who have shied away from supporting an increase in the guaranty maximum may now consider the program to be on a firmer footing than previously and that these actions should create a more favorable environment for consideration of the need for an appropriate increase in the loan-guaranty maximum. I am committed to continuing to pursue the enactment of such an increase in the 100th Congress.

In 1985, the CBO estimated that the first-year cost of providing for an increase to \$33,500 million would be zero budget authority and \$6 million in outlays. An increase to \$36,000 would entail similar costs.

#### AUTOMOBILE ASSISTANCE ALLOWANCE

Mr. President, section 7 of the measure we are introducing would also provide for an increase in the maximum amount of the automobile assistance allowance, provided by the VA to veterans with certain severe service-connected disabilities. The bill would increase by 10.9 percent, the allowance from \$5,000 to \$5,530, effective October 1, 1987.

The program of automobile assistance, now codified in chapter 39 of title 38, United States Code—was established by the Congress in Public Law 79-663, enacted in 1946. Under this program, veterans who have suffered the service-connected loss or loss of use of one or both feet, or one or both hands, or service-connected blindness are entitled to a one-time VA grant to assist them in purchasing an automobile. This is a highly deserving category of veterans, and I believe all of my colleagues would agree that this benefit for them should not be permitted to be diminished over the years by the rising cost of a new car.

That was the position of the Congress in 1970 when it enacted section 2 of Public Law 91-666, which I authored and which increased, effective January 11, 1971, the maximum amount of the allowance payable toward the purchase of an automobile or other conveyance from the original \$1,600 to \$2,800. According to the Senate report accompanying the Senate version of that legislation—Senate Report No. 91-1212, page 14—the purpose of the 1971 increase was to “reestablish, to an effective degree, the comparability which originally existed between the cost of an automobile or other conveyance and the monetary assistance provided for its purchase.”

In 1974, 1978, 1981, and 1984, increases—based on legislation I authored—were enacted into law by Public Laws 93-548, 95-479, 97-66, and 98-543, respectively. Since the effective date of the last increase, January 1, 1985, the Bureau of Labor Statistics' Consumer Price Index component for

new automobiles has risen by 6.7 percent. As previously noted, according to the latest CBO projections compiled in August 1986, the Consumer Price Index is expected to increase by 3.9 percent in fiscal year 1987.

Increasing the automobile assistance allowance by 10.6 percent, from \$5,000 to \$5,530, would thus help protect the value of this benefit from being eroded by inflation.

According to the VA, 909 veterans received automobile assistance allowances in fiscal year 1986 and the average benefit payment was \$4,783. In fiscal 1987, the VA estimates that 550 veterans would receive assistance under this program.

The CBO has informally estimated that the cost of providing for this increase would be approximately \$0.5 million for fiscal year 1988.

#### SEQUESTRATION EXEMPTIONS

Section 8 of our bill would modify provisions enacted in section 601 of the Veterans' Benefits Improvement and Health-Care Authorization Act of 1986—Public Law 99-576—which provided exemptions from sequestration under the Balanced Budget and Emergency Deficit Control Act of 1985—Public Law 99-177—commonly referred to as "Gramm-Rudman," for certain VA programs—so as to provide for appropriate supplementations of those exemptions.

#### BACKGROUND

Either in the original Gramm-Rudman law or in subsequent legislation, Congress has enacted provisions making the following categories of VA programs at least temporarily or partially exempt from sequestration or similar reductions:

First, permanent exemptions were provided for most benefits for which entitlement is based on service-connected death or disability, including compensation paid to veterans with service-connected disabilities; dependency and indemnity compensation [DIC] paid to the survivors of those who died from service-connected causes; specially adapted housing grants, mortgage protection life insurance, and automobile and adaptive equipment grants for certain service-connected-disabled veterans; and burial benefits for those who die from service-connected causes. The compensation and DIC exemptions were enacted as permanent Gramm-Rudman exemptions in the original legislation, in section 255(b) of Public Law 99-177. Exemptions for the other benefits were enacted in the 1986 veterans' bill, section 601 of Public Law 99-576, effective beginning with fiscal year 1987.

Second, section 601 of Public Law 99-576 provided 1-year-only—fiscal year 1987—exemptions for two programs of benefits for which entitlement is based on service-connected death or disability; namely, vocational rehabilitation for certain service-con-

nected-disabled veterans and educational assistance for the survivors of those who die from service-connected causes and the dependents of veterans with service-connected disabilities rated totally and permanently disabling.

Third, section 601 of Public Law 99-576 provided two VA revolving funds that are entirely self-sustaining—that is, never require appropriations and do not contribute to the budget deficit—namely the special therapeutic and rehabilitation activities fund, which is used to provide VA patients with compensated work therapy through contracts with private firms which pay into the fund amounts payable to the patients as compensation for the work they perform, and the canteen service revolving fund, which is used for the operation of canteen services, such as cafeterias and gift and snack shops, at VA medical facilities.

Fourth, section 255(g)(2) of Gramm-Rudman provided a permanent exemption for the Government's "prior legal obligations" under VA-administered insurance programs and, after the administration ruled, erroneously in my view, that that exemption did not cover insurance policy loans under those programs, Congress enacted in section 601 of Public Law 99-576 a permanent exemption for such loans, effective beginning in fiscal year 1987.

Fifth, in the case of VA-guaranteed home loans, Congress enacted two measures, Public Law 99-255 and section 1 of Public Law 99-322, raising the cap which the March 1, 1986, fiscal year 1986 sequestration order—based on what proved to be a far-too-low estimate of the volume of VA loan guaranty commitments that would be issued in fiscal year 1986 in absence of a cap—had placed on the making of VA loan guaranty commitments in fiscal year 1986. Ultimately, the second increase, to \$38.28 million, made on the basis of an updated estimate as of mid-May of the fiscal year 1986 volume if uncapped, exceeded by about \$4 billion the total amount of commitments issued by the VA in fiscal year 1986 and thus provided a de facto exemption for that year.

#### PROPOSED EXEMPTION FOR SERVICE-CONNECTED BENEFITS

Mr. President, as I have indicated, most service-connected VA benefits have been made permanently exempt from sequestration. Only in the cases of the VA's programs of rehabilitation for service-connected disabled veterans, under chapter 31 of title 38, United States Code, and the program of educational assistance for survivors and dependents, under chapter 35 of title 38, have the exemptions been limited to one year.

The history of the legislation, enacted in section 601 of Public Law 99-576, providing for these two limited restrictions is as follows:

On March 12, 1986, the then-chairman of the Veterans' Affairs Committee [Mr. MURKOWSKI] and committee member DECONCINI each introduced bills to provide exemption for various VA programs. Senator MURKOWSKI's bill, S. 2186, would have provided no exemption for the chapter 35 dependents' and survivors' educational assistance and, in the case of the chapter 31 vocational rehabilitation program, would have provided an exemption limited to the cases of veterans with service-connected disabilities rated 50 percent or more disabling. Senator DECONCINI's bill, S. 2187, and a subsequent measure that he introduced on May 8, S. 2423, would have provided permanent exemptions for both programs.

At the committee's June 26, 1986, meeting, then-Chairman MURKOWSKI placed before the committee legislation, proposed to be reported as an original bill, that contained no exemption for the dependents' and survivors' educational assistance program. Thus, during the meeting, Senator DECONCINI proposed an amendment to add a permanent exemption for the chapter 35 program. However, his amendment, which I, together with Senators MATSUNAGA, MITCHELL, ROCKEFELLER, and SPECTER, supported, failed by a tie vote of 6 to 6 to be adopted.

With respect to the chapter 31 program, the measure that Senator MURKOWSKI put before the committee reflected a compromise agreement among the members of the committee to provide for a 1-year, fiscal year 1987 only, exemption for that program. As part of the compromise on the chapter 31 program, it was agreed that the committee would conduct a review of that program during the next Congress.

Although the House of Representatives passed legislation, in H.R. 5299, that would have permanently exempted both the chapter 31 and chapter 35 programs, the compromise agreement enacted in Public Law 99-576 on these and various other House and Senate measures contained only the 1-year exemptions for each program.

The bill we are introducing today would provide unrestricted exemptions for these programs, effective beginning in fiscal year 1987.

Mr. President, I regret that we were not able last year to enact permanent exemptions for these high-priority service-connected benefits and am hopeful that we will have better success this year. Regarding the chapter 31 program, I plan to honor the agreement reached last year in our committee for a review of that program during this Congress. However, I strongly believe that any problems that may come to light regarding the program should be remedied by administrative or legislative modifica-

tions of the program—not through a limitation on that sequestration exemption.

With respect to the chapter 15 program, I remain convinced that, in light of the high moral obligation which underlies this program, the sequestration exemption for it should not be time limited. I see no basis for distinguishing between this program of recompense through educational assistance for those whose veteran spouse or parent has died as a result of a service-connected disability and the DIC program of recompense through cash assistance for those same spouses and dependents.

#### PROPOSED EXEMPTION FOR VA HOME LOAN GUARANTIES

Mr. President, as I have noted, Congress has not enacted a Gramm-Rudman exemption for the VA's home-loan guaranty program. However, in fiscal year 1986 Congress twice raised the cap that had been placed on the program under the March 1 sequester order, and the level to which the cap was raised ultimately exceeded the total amount of guaranty commitments that the agency issued during that fiscal year. Thus, the sequester order had no impact on the program in fiscal year 1986.

For fiscal year 1987 and subsequent years, despite efforts in both Houses last year to provide an exemption, no legislation has been enacted to exempt the program from sequestration.

Rather, in section 601 of Public Law 99-576, Congress enacted only a requirement for the VA, in any year in which a sequestration occurs, to report to the Congress on a monthly basis on the level of activity in the program.

In the Senate, Senator DECONCINI had introduced on May 8 a veterans' program Gramm-Rudman exemption bill, S. 2423, which included a permanent exemption for the program. The bill introduced by Senator MURKOWSKI, S. 2186, on March 12 did not include such an exemption.

The original bill reported by the committee contained no exemption—only the monthly reporting requirement.

The committee's stated reasoning was that, since Congress in fiscal year 1986 had already demonstrated its ability and willingness to enact legislation to protect this program and monthly reports would give the Congress clear opportunity to act to do so when and if the need for such action should arise, a statutory exemption was unnecessary.

Although the House passed, in H.R. 5299, a permanent exemption for the home loan program, in the negotiations on the overall legislation the committees reached agreement on only the monthly reporting requirement and the exemption was dropped.

I believe that this program should be exempted for essentially three rea-

sons. First, as long as a fee is charged for the issuance of VA guaranties to veterans who have no service-connected disabilities, a sequestration cap reducing the total amount of guaranties issued in the year of the sequestration actually would increase—not decrease—the deficit in the fiscal year of the sequestration. For example, according to the August 20, 1986, "snapshot" report issued by the Directors of CBO and the Office of Management and Budget pursuant to section 251 of Gramm-Rudman, a fiscal 1987 sequestration reduction in the VA loan-guaranty program would have increased the fiscal year 1987 deficit by over \$9 million. In subsequent years, the reduction in guaranties would be expected to reduce the deficit, but the extent of any such impact would be reduced by the steps that the VA is taking, as a result of provisions enacted in section 402 of Public Law 99-516, to tighten up its underwriting standards in order to avoid guaranteeing loans that would be the most likely to result in foreclosure.

Second, based on the experience in fiscal year 1986, it seems likely that, if the program is ever again threatened with a substantial interruption in the issuance of guaranty commitments due to sequestration, Congress would act swiftly to raise the sequestration cap in order to avoid such an interruption. Thus, an exemption would simply avoid the need for legislative action that would provide annual exemptions.

Third, if a sequestration reduction in the issuance of VA loan-guaranty commitments were actually to occur, it seems clear that the sequestration would operate extremely inequitably. The administration indicated in fiscal year 1986 that it would implement sequestration by cutting off the issuance of commitments when the sequestration cap was reached. Thus, the veterans whose home loan applications were approved after the cap is reached would be denied a guaranty at that point and would be at risk of having the purchase agreement fall through before the issuance of guaranty commitments is resumed at the start of the next fiscal year. Those veterans would in effect be denied the benefit in toto. Other veterans would be completely unaffected.

I consider it unacceptable for equally deserving veterans to be treated so differently with respect to this important benefit. Yet this is what a sequestration almost certainly would bring about.

Thus, our bill would provide an exemption for the VA's home-loan guaranty program.

#### MODIFICATION OF EFFECTIVE DATE OF EXEMPTIONS FOR TWO SELF-SUSTAINING REVOLVING FUNDS

Both the original House-passed H.R. 5299 and the Senate Veterans' Affairs

Committee reported Gramm-Rudman exemptions bill, S. 2885, contained provisions for permanent exemptions for the VA's Special Therapeutic and Rehabilitation Activities Fund and Canteen Service Revolving Fund, and, as noted in the Senate Committee report—page 34 of S. Rept. No. 99-494—The administration supported these exemptions.

The rationale for these exemptions is that these revolving funds are self-sustaining, that is, they require no appropriation of tax funds and do not contribute to the deficit.

Both the House and Senate Veterans' Affairs Committees, in supporting these exemptions, did not believe that a retroactive effective date applicable to fiscal year 1986 was necessary or advisable. This was because the staffs were under the impression that the fiscal year 1986 sequestration meant only the imposition of caps of fiscal year 1986 obligations from the revolving funds, with the caps being at levels 4.3 percent below the estimated levels of obligations in the absence of sequestration; because the VA had informally advised the committees that, although the caps were an inconvenience, they entailed no hardship or significant adverse programmatic impact in fiscal year 1986; and because, since the bill was being enacted very near to or after the close of that fiscal year, a retroactive effective date was not expected to have any impact.

After final passage of the bill, however, we learned from the VA that Gramm-Rudman was being interpreted by the Office of Management and Budget in such a way as to require the VA to pay to the Treasury from these revolving funds the sequestered amounts—the differences between the estimated obligations and the caps and that the VA General Counsel agreed with that interpretation.

For the canteen fund, the payment was \$8.1 million; for the rehabilitation activities fund, \$100,000.

Mr. President, the effect of this required one-time payment—in light of the prospective, permanent exemption that has been enacted—was to reduce from \$12 million to \$4 million the amount available in the canteen fund to carry out planned renovations and equipment purchases, an obviously severe cutback. The source of this \$8 million was amounts paid by VA hospital patients, employees, and visitors for goods and services they purchased at VA canteens. Obviously, the veteran-patient's expectation in making a purchase at a canteen shop is that the purchase price will go toward the cost of the merchandise to the canteen, with the markup being used for canteen operating expenses—for example, canteen-employee salaries—and capital costs. The effect of the sequestration was to extract a levy from—in essence

to impose a hidden tax on—canteen operations that will obviously result in the postponement of needed improvements and thus the provision of shabrier, less efficient canteen services.

In case of the rehabilitation fund, the \$100,000 loss for a program with an annual operating budget of only about \$2.3 million means a significant administrative burden for a small, very worthwhile program that was established statutorily in 1976 by legislation I authored—section 105 of Public Law 94-581—and that I strongly support as a cost-effective means of helping disabled veterans regain economic productivity and become healthier, more self-sufficient individuals. In fact, we have just succeeded after a 2-year effort, in enacting section 205 of the Veterans' Benefits Improvement and Health-Care Authorization Act of 1986, Public Law 99-576, a provision to strengthen this program by providing that payments to low-income, disabled veterans participating in the program will not be considered income so as to reduce the VA pensions of veteran participants.

It is very clear to me that, if this fiscal year 1986 payment requirement had come to light before final action on the 1986 veterans legislation enacted as Public Law 99-576, I, and I suspect others of us participating in the negotiations on the bill, would have done all possible—probably successfully in my view—to make these revolving fund exemptions retroactive to fiscal year 1986 and thus avoid the requirement for the payments.

To provide for a correction of the situation and mandate the return of the amounts involved to the revolving funds, our bill would provide for the exemptions for these two funds to take effect retroactively with respect to fiscal year 1986 and would specifically direct the Secretary of the Treasury to take such action as is necessary to implement the provision for a fiscal year 1986 exemption for these revolving funds.

Mr. President, I ask unanimous consent that the text of S. 9 be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 9

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE; REFERENCES TO TITLE 38, UNITED STATES CODE.

(a) This Act may be cited as the "Service-Disabled Veterans' Benefits Improvement Act of 1987".

(b) Except as otherwise expressly provided, whenever in this Act an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of title 38, United States Code.

#### SEC. 2. DISABILITY COMPENSATION AND DEPENDENCY AND INDEMNITY COMPENSATION RATE INCREASES.

(a) IN GENERAL.—(1) The Administrator of Veterans' Affairs shall, as provided in paragraph (2), increase, effective December 1, 1987, the rates of and limitations on Veterans' Administration disability compensation and dependency and indemnity compensation.

(2)(A) In the case of each of the rates and limitations in sections 314, 315(a), 362, 411, 413, and 414 of title 38, United States Code, that were increased by amendments made by title I of the Veterans' Compensation Rate Increase and Job Training Amendments of 1985 (Public Law 99-238), the Administrator shall further increase such rates and limitations, as in effect on November 30, 1987, by the same percentage that benefit amounts payable under title II of the Social Security Act (42 U.S.C. 401 et seq.) are increased effective December 1, 1987, as a result of a determination under section 215(i) of such Act (42 U.S.C. 415(i)).

(B) In the computation of increased rates and limitations pursuant to subparagraph (A), amounts of \$0.50 or more shall be rounded to the next higher dollar amount and amounts of less than \$0.50 shall be rounded to the next lower dollar amount.

(b) SPECIAL RULE.—The Administrator may adjust administratively, consistent with the increases made under subsection (a), the rates of disability compensation payable to persons within the purview of section 10 of Public Law 85-857 who are not in receipt of compensation payable pursuant to chapter 11 of title 38, United States Code.

(c) PUBLICATION REQUIREMENT.—At the same time as the matters specified in section 215(i)(2)(D) of the Social Security Act (42 U.S.C. 415(i)(2)(D)) are required to be published by reason of a determination made under section 215(i) of such Act during fiscal year 1988, the Administrator shall publish in the Federal Register the rates and limitations being increased under this section and the rates and limitations as so increased.

#### SEC. 3. SPECIALLY ADAPTED HOUSING ASSISTANCE.

(a) INCREASE IN MAXIMUM GRANTS.—Section 802 is amended—

(1) in subsection (a), by striking out "\$35,500" and inserting in lieu thereof "\$40,100"; and

(2) in subsection (b), by striking out "\$6,000" and inserting in lieu thereof "\$6,775".

(b) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1987.

#### SEC. 4. SERVICE-CONNECTED DEATH BENEFITS.

(a) INCREASE IN MAXIMUM BURIAL AND FUNERAL EXPENSES AWARD.—Section 907 is amended by striking out "\$1,100" and inserting in lieu thereof "\$2,250".

(b) EFFECTIVE DATE.—The amendment made by this section shall take effect on October 1, 1987.

#### SEC. 5. TOLLING EDUCATIONAL AND REHABILITATION ASSISTANCE DELIMITING PERIODS BY REASON OF INCAPACITY DUE TO DRUG OR ALCOHOL CONDITIONS.

(a) EDUCATIONAL ASSISTANCE FOR MEMBERS OF THE ALL-VOLUNTEER FORCE.—Section 1431(d) is amended—

(1) by inserting "(1)" before "In";

(2) by inserting at the end the following new paragraph:

"(2)(A) A condition referred to in paragraph (1) of this subsection is an alcohol or drug dependence or abuse condition of an

eligible individual in a case in which it is determined, under regulations which the Administrator shall prescribe, that—

"(i) such individual has received recognized treatment or participated in a program of rehabilitation for the condition, and

"(ii) the condition is sufficiently under control to enable such individual to pursue such individual's chosen program of education under this chapter.

"(B)(i) Notwithstanding the provisions of paragraph (1) of this subsection, an eligible individual's application for and extension of the 10-year period for use of entitlement under this chapter because of such a condition may be granted if such individual files an application for the extension not later than 1 year after whichever of the following last occurs:

"(I) The last date of the delimiting period otherwise applicable under this section.

"(II) The termination of the last period of such treatment or such program of rehabilitation.

"(III) The date on which final regulations prescribed pursuant to subparagraph (A) of this paragraph are published in the Federal Register.

"(ii) The period of time during which, based on the existence of such a condition, such 10-year period does not run shall not exceed the lesser of—

"(I) the period during which the eligible individual was receiving treatment or participating in a program of rehabilitation for the condition plus such additional length of time as such individual demonstrates, to the satisfaction of the Administrator, that such individual was prevented by the condition from initiating or completing such program of education, or

"(II) 4 years.

"(iii) When such an extension is granted, the 10-year period with respect to such individual will again begin running on whichever of the following first occurs—

"(I) the first day, following the condition becoming sufficiently under control to enable such individual to pursue such individual's chosen program of education under this chapter, on which it is reasonably feasible, as determined in accordance with such regulations, for such individual to initiate or resume pursuit of a program of education with educational assistance under this chapter, or

"(II) the day after the fourth year of the extension."

(b) PROGRAMS OF REHABILITATION FOR VETERANS WITH SERVICE-CONNECTED DISABILITIES.—Section 1503(b)(1) is amended—

(1) by inserting "(A)" before "In";

(2) by inserting "(other than a condition described in subparagraph (B)(ii) of this paragraph)" after "medical condition" in subparagraph (A), as so redesignated; and

(3) by inserting at the end the following new subparagraph:

"(B)(i) Subject to clauses (iii) and (iv) of this subparagraph, in any case in which the Administrator determines, under regulations which the Administrator shall prescribe, that a veteran has been prevented from participating in a vocational rehabilitation program under this chapter within the period of eligibility prescribed in subsection (a) of this section because a condition described in clause (ii) of this subparagraph made it infeasible for the veteran to participate in such a program, the 12-year period of eligibility shall not run during the period of time that the veteran was so prevented from participating in such a program.

"(ii) A condition referred to in clause (i) of this subparagraph is an alcohol or drug dependence or abuse condition of a veteran in a case in which it is determined, under regulations which the Administrator shall prescribe, that—

"(I) the veteran has received recognized treatment or has participated in a program of rehabilitation for the condition, and

"(II) the condition is sufficiently under control to enable the veteran to participate in a vocational rehabilitation program under this chapter.

"(iii) Clause (i) of this subparagraph applies only if the veteran has filed an application under this paragraph not later than 1 year after whichever of the following last occurs:

"(I) The last date of the period of eligibility otherwise applicable under this section.

"(II) The termination of the last period of such treatment or such program of rehabilitation.

"(III) The date on which final regulations prescribed pursuant to clause (i) of this subparagraph are published in the Federal Register.

"(v) The period of time during which, pursuant to clause (i) of this subparagraph, the 12-year period of eligibility does not run shall not exceed the lesser of—

"(I) the period during which the veteran was receiving treatment or participating in a program of rehabilitation for a condition described in clause (ii) of this subparagraph plus such additional length of time as the veteran demonstrates, to the satisfaction of the Administrator, that the veteran was prevented by such condition from participating in a vocational rehabilitation program under this chapter, or

"(II) 4 years.

"(vi) When pursuant to clause (i) of this subparagraph a period of eligibility does not run for a period of time, such period of eligibility shall again begin to run on whichever of the following first occurs—

"(I) the first day, following such condition becoming sufficiently under control to enable the veteran to participate in such program of vocational rehabilitation, on which it is reasonably feasible, in accordance with under such regulations, for the veteran to participate in such a program, or

"(II) the day after the period of eligibility has not run, pursuant to such clause, for a period of time equaling 4 years."

(c) EDUCATIONAL ASSISTANCE FOR POST-VIETNAM ERA VETERANS.—Section 1632(a) is amended—

(1) in paragraph (2)(A)—

(A) by inserting "or because of a condition (and under the circumstances) described in paragraph (4)(A) of this section," after "misconduct"; and

(B) by inserting "(except as provided in paragraph (4)(B) of this subsection)" after "length of time";

(2) in paragraph (3) by inserting "because of such disability," after "subsection"; and

(3) by inserting at the end the following new paragraph:

"(4)(A) A condition referred to in paragraph (2) of this subsection is an alcohol or drug dependence or abuse condition of an eligible veteran in a case in which it is determined, under regulations which the Administrator shall prescribe, that—

"(i) the veteran has received recognized treatment or participated in a program of rehabilitation for the condition, and

"(ii) the condition is sufficiently under control to enable the veteran to pursue the veteran's chosen program of education under this chapter.

"(B)(i) Notwithstanding the provisions of paragraph (2) of this subsection, an eligible veteran may be granted an extension of the applicable delimiting period because of such a condition if the veteran files an application for such extension not later than 1 year after whichever of the following last occurs:

"(I) The last date of the delimiting period otherwise applicable under this section.

"(II) The termination of the last period of such treatment or such program of rehabilitation.

"(III) The date on which final regulations prescribed pursuant to subparagraph (A) of this paragraph are published in the Federal Register.

"(ii) An extension of the applicable delimiting period because of such a condition shall not exceed the lesser of—

"(I) the period during which the veteran was receiving treatment or participating in a program of rehabilitation for the condition plus such additional length of time as the veteran demonstrates, to the satisfaction of the Administrator, that the veteran was prevented by the condition from initiating or completing such program of education, or

"(II) 4 years.

(iii) When such an extension is granted, the delimiting period with respect to the veteran will again begin running on whichever of the following occurs—

"(I) the first day, following the condition becoming sufficiently under control to enable the veteran to pursue the veteran's chosen program of education under this chapter, on which it is reasonably feasible, as determined in accordance with such regulations, for the veteran to initiate or resume pursuit of a program of education with educational assistance under this chapter, or

"(II) the day after the end of the fourth year of the extension."

(d) EDUCATIONAL ASSISTANCE FOR VIETNAM-ERA VETERANS.—Section 1662(a) is amended—

(1) in paragraph (1)—

(A) in the first sentence, by inserting "or because of a condition (and under the circumstances) described in paragraph (4) of this subsection," after "misconduct"; and

(B) in the second sentence, by inserting "because of such disability" after "sentence"; and

(2) by inserting at the end the following new paragraph:

"(4)(A) A condition referred to in paragraph (1) of this subsection is an alcohol or drug dependence or abuse condition of a veteran in a case in which it is determined, under regulations which the Administrator shall prescribe, that—

"(i) the veteran has received recognized treatment or participated in a program of rehabilitation for the condition, and

"(ii) the condition is sufficiently under control to enable the veteran to pursue the veteran's chosen program of education under this chapter.

"(B)(i) Notwithstanding the provisions of paragraph (1) of this subsection, a veteran may be granted an extension of the applicable delimiting period because of such a condition if the veteran files an application for the extension not later than 1 year after whichever of the following last occurs:

"(I) The last date of the delimiting period otherwise applicable under this section.

"(II) The termination of the last period of such treatment or such program of rehabilitation.

"(III) The date on which final regulations prescribed pursuant to subparagraph (A) of this paragraph are published in the Federal Register.

"(ii) An extension of the applicable delimiting period because of such a condition shall not exceed the lesser of—

"(I) the period during which the veteran was receiving treatment or participating in a program of rehabilitation for the condition plus such additional length of time as the veteran demonstrates, to the satisfaction of the Administrator, that the veteran was prevented by the condition from initiating or completing such program of education, or

"(II) 4 years.

"(iii) When such an extension is granted, the delimiting period with respect to the veteran will again begin running on whichever of the following first occurs—

"(I) the first day, following such condition becoming sufficiently under control to enable the veteran to pursue the veteran's chosen program of education under this chapter, on which it is reasonably feasible, as determined in accordance with such regulations, for the veteran to initiate or resume pursuit of a program of education with educational assistance under this chapter, or

"(II) the day after the end of the fourth year of the extension."

(e) EDUCATIONAL ASSISTANCE FOR SURVIVORS AND DEPENDENTS.—Section 1712(b) is amended—

(1) in paragraph (2)—

(A) by inserting "or because of a condition (and under the circumstances) described in paragraph (4)(A) of this section," after "misconduct";

(B) by inserting "(except as provided in paragraph (4)(B)(ii) of this subsection)" after "length of time"; and

(C) by inserting "because of such disability," after "sentence"; and

(2) by inserting at the end the following new paragraph:

"(4)(A) A condition referred to in paragraph (2) of this subsection is an alcohol or drug dependence or abuse condition of an eligible person in a case in which it is determined, under regulations which the Administrator shall prescribe, that—

"(i) such person has received recognized treatment or participated in a program of rehabilitation for the condition, and

"(ii) the condition is sufficiently under control to enable such person to pursue such person's chosen program of education under this chapter.

"(B)(i) Notwithstanding the provisions of paragraph (2) of this subsection, an eligible person may be granted an extension of the applicable delimiting period because of such a condition if such person files an application for such extension not later than 1 year after whichever of the following last occurs:

"(I) The last date of the delimiting period otherwise applicable under this section.

"(II) The termination of the last period of such treatment or such program of rehabilitation.

"(III) The date on which final regulations prescribed pursuant to subparagraph (A) of this paragraph are published in the Federal Register.

"(ii) An extension of the applicable delimiting period because of such a condition shall not exceed the lesser of—

"(I) the period during which the eligible person was receiving treatment or participating in a program of rehabilitation for the condition plus such additional length of time as such person demonstrates, to the satisfaction of the Administrator, that such person was prevented by the condition from initiating or completing such program of education, or

"(II) 4 years.

"(iii) When such an extension is granted, the delimiting period with respect to such person will again begin running on whichever of the following first occurs—

"(I) the first day, following the condition becoming sufficiently under control to enable such person to pursue such person's chosen program of education under this chapter, on which it is reasonably feasible, as determined in accordance with such regulations, for such person to initiate or resume pursuit of a program of education with educational assistance under this chapter, or

"(II) the day after the end of the fourth year of the extension."

#### SEC. 6. HOME-LOAN GUARANTY PROGRAM.

(a)(1) INCREASE IN MAXIMUM GUARANTY.—Section 1810(c) is amended by striking out "\$27,500" and inserting in lieu thereof "\$36,000".

(2) Section 1811(d)(2)(A) is amended by striking out "\$27,500" both places it appears and inserting in lieu thereof "\$36,000".

(b) EFFECTIVE DATE.—The amendments made by this section shall take effect on October 1, 1987.

#### SEC. 7. AUTOMOBILE ASSISTANCE ALLOWANCE.

(a) INCREASE IN MAXIMUM ALLOWANCE.—Section 1902(a) is amended by striking out "\$5,000" and inserting in lieu thereof "\$5,530."

(b) EFFECTIVE DATE.—The amendment made by this section shall take effect on October 1, 1987.

#### SEC. 8. EXEMPTION OF CERTAIN PROGRAMS FROM SEQUESTRATION.

(a) IN GENERAL.—Section 113 is amended—

(1) in subsection (a)—

(A) in clauses (4) and (5) by striking out "(but only with respect to fiscal year 1987)" each place it appears; and

(B) by adding at the end the following new clause:

"(6) Benefits under chapter 37 of this title, relating to housing and small business loans for certain veterans and for the spouses and surviving spouses of certain veterans."

(2) by striking out subsection (e); and

(3) by redesignating subsections (f) and (g) as subsections (e) and (f), respectively.

(b) EFFECTIVE DATES.—(1) The amendments made by subsection (a) shall apply with respect to a sequestration ordered, or a sequestration law enacted, for a fiscal year after fiscal year 1986.

(2)(A) Notwithstanding subsection (b) of section 601 of the Veterans' Benefits Improvement and Health-Care Authorization Act of 1986 (Public Law 99-576), clause (2) of subsection (b) of section 113 of title 38, United States Code, as added by subsection (a) of section 601 of such Act, shall apply with respect to a sequestration order issued, or a sequestration law enacted, for a fiscal year after fiscal year 1985.

(B) The Secretary of the Treasury shall take such action as is necessary to implement subparagraph (A) and shall, not later than 60 days after the date of the enactment of this Act, report to the appropriate Committees of the Congress on the action taken by the Secretary pursuant to this paragraph.

By Mr. CRANSTON (for himself, Mr. KENNEDY and Mr. GORE):

S. 10. A bill to amend the Public Health Service Act to improve emergency medical services and trauma care, and for other purposes; to the

Committee on Labor and Human Resources.

#### THE EMERGENCY MEDICAL SERVICES AND TRAUMA CARE IMPROVEMENT ACT OF 1987

Mr. CRANSTON. Mr. President, today I am very pleased to be introducing S. 10, the proposed "Emergency Medical Services and Trauma Care Improvement Act of 1987." Joining me as the principal cosponsor of the bill is the chairman of the Labor and Human Resources Committee and the Senate's primary leader for over a decade of efforts to improve health care for all Americans, the Senator from Massachusetts [Mr. KENNEDY]. Joining as an original cosponsor as well is my distinguished colleague, the Senator from Tennessee [Mr. GORE].

Senator KENNEDY, as the chairman of the Labor Committee's Subcommittee on Health, was a principal cosponsor throughout the 1970's of the legislation I introduced which was enacted as the Emergency Medical Services Systems Act of 1973 and the 1976 and 1979 amendments to that act. I am delighted once more to be joining with the Senator from Massachusetts in the EMS initiative we are introducing today.

The goals of this legislation are twofold. First, it is designed to remove the barriers and rectify the problems that, in many parts of the country, prevent quick and efficient emergency medical services from being provided. Second, it would provide incentives for States and localities to establish well-coordinated regionalized trauma-care systems that would enable severely injured individuals to receive highly specialized trauma care as rapidly as possible following their injury.

#### SUMMARY OF PROVISIONS

The provisions of the bill may be briefly summarized as follows:

Section 2 would authorize the establishment of a Federal clearinghouse for information on EMS.

Section 3 would provide for improved coordination between State EMS and Department of Transportation offices with regard to emergency medical services.

Section 4 would permit Public Health and Health Services block grant funds to be used for equipment purchases to improve EMS communications systems; specify that loans under the Farmers Home Administration's Community Facilities Loan Program may be used for the purchase of EMS communications equipment and implementation of 911 systems; modify the community development block grant to permit recipients to use the funds for the implementation of 911 systems; and require the Federal Communications Commission to study the availability of radio frequency channels for communications between ambulances and hospitals and to develop a plan to ensure that sufficient

frequencies are allocated for EMS purposes.

Section 5 would establish a new grant program to States for the purposes of the States providing funds to State and local regions to develop integrated trauma systems and to designated trauma centers to defray a portion of their uncompensated costs resulting from high-cost trauma patients.

Section 6 would require the Secretary of Health and Human Services [HHS] to study whether the current Medicare system and State Medicaid plans are providing financial disincentives for the establishment of trauma centers and, if so, to make recommendations for removing such disincentives.

Section 7 would require the Secretary of HHS to conduct a long-term comprehensive study on the economic and social impacts of trauma.

#### INJURY—STILL A LEADING CAUSE OF DEATH AND DISABILITY

Mr. President, in 1985, the prestigious National Academy of Sciences issued a report, "Injury in America," which assessed the magnitude and characteristics of injury, efforts to prevent and treat injury, and Federal support for injury research. It was conducted as a follow up to a landmark study conducted 20 years earlier by the National Research Council, entitled, "Accidental Death and Disability: The Neglected Disease of Modern Society." The National Academy of Sciences concluded that, tragically, insufficient progress had been made in injury control since the first study was reported.

Each year, more than 140,000 Americans die from injuries and 1 person in 3 suffers a nonfatal injury. Injury is the fourth leading cause of death among all Americans and the major killer of children and young adults. More Americans between the ages of 1 and 34 die from injuries than from all diseases combined.

Injury is also a leading cause of short- and long-term disability. More than 80,000 persons become permanently disabled from brain or spinal cord injuries each year. Over 4 million years of future worklife are lost to injury annually—nearly double that of heart disease or cancer.

Injury represents one of our most expensive health problems, costing \$75 to \$100 billion a year in direct and indirect costs. The societal costs from motor vehicle crashes alone in 1980 were estimated to be \$36 billion, including costs of \$7.5 billion and \$3.5 billion to the Federal and State governments, respectively, in direct payments and revenue losses.

Accidents from firearms are another major source of severe injury in the United States. More than 20 percent

of all injury deaths in 1982 were the result of firearms.

Mr. President, I agree with the Chairman of the NAS study that "injury is a public health problem whose toll is unacceptable." Serious injury affects Americans of every socioeconomic level, every ethnicity and race, every age group, and every community.

Mr. President, the time has come for our Nation to make a concerted effort to reduce drastically the impact of these tragedies. We must no longer let injuries—preventable and treatable injuries—rob our young people of their youth and cause pain and suffering to Americans everywhere.

Much of the death and disability resulting from injury—particularly severe injury—can be prevented or ameliorated by quick response teams providing prehospital care and through the accessibility and availability of sophisticated emergency hospital care when needed. The legislation we are introducing today is designed to ensure that injury and trauma victims—as well as others, such as heart attack victims, in need of emergency care—receive that kind of swift and effective medical attention. If enacted, this legislation will directly help save lives and reduce disability.

#### DEVELOPMENT OF EMERGENCY MEDICAL SERVICES

Mr. President, nearly 15 years ago, I first introduced legislation which was ultimately enacted as the Emergency Medical Services Systems Development Act of 1973 (Public Law 93-154). I introduced that legislation in order to improve the ability of communities to respond immediately and effectively to emergency medical crises. In the early 1970's, the state of emergency medical services [EMS] in this country was characterized by poorly trained ambulance and emergency room personnel, outdated equipment, little coordination of services in urban areas, and the absence of emergency care facilities in rural areas. Therefore, I introduced legislation to perfect and improve the 1973 act, and this legislation was enacted as the Emergency Medical Services Amendments of 1975 (Public Law 94-573) and the Emergency Medical Services Systems Amendments of 1979 (Public Law 96-142).

Only 5 percent of the Nation's ambulance attendants met even minimum standards of training recommended by national professional organizations. In fact, ambulance services in many communities were run by the local undertaker. Fewer than 25 hospitals in the entire Nation had physicians in their emergency departments 24 hours a day. Ambulances brought patients to the nearest hospital, or the hospital to which they were paid to take them, regardless of the type of medical emergency or the level of care the hospital was capable of providing. Total annual

accidental deaths and prehospital cardiac deaths were at an all-time high.

However, new advances in medical technology—portable equipment for treating heart attack victims, fully-equipped mobile, critical-care units, and advanced methods of radio communications and telecommunications—that could drastically reduce the number of deaths and serious injuries from accidents were becoming available. All of this technology, as well as helicopter evacuation capabilities, had been brought together by our armed services in Vietnam to provide battlefield casualties with rapid, effective treatment, and paramedics trained in on-the-spot emergency medicine were returning from Vietnam.

The 1973 law was intended to help local communities use existing resources and generate other potential sources of support to plan and develop comprehensive and integrated EMS systems through a 5-year sequence—from preliminary planning to fully functioning, advanced systems. It provided for the leadership and authorized the funding needed to establish national standards for emergency medical care, organize cost-effective systems of care on a regional basis, and create the training programs necessary for the development of the skilled manpower needed to operate the systems.

The first 3 years of the grant support under the 5-year sequence provided for in the grant program were designed to enable a region to achieve basic life support [BLS] capacity. A BLS system consists of a regional system of care with central communication and dispatch capabilities, coordination of ambulances, and designation of appropriate emergency rooms in the area for differing degrees of injury. An effective BLS system can provide patient stabilization, airway management, hemorrhage control, shock management with initial wound care, fracture stabilization, and, under medical supervision, certain noninvasive treatments.

The last 2 years in the 5-year cycle were designed to enable a region to achieve advanced life support [ALS] capacity, which adds to the BLS system the trained paramedic who is in constant communication with a physician and who has the training and technology available to provide life-saving treatment to the patient on the way to the hospital. At the ALS level, mobile prehospital units are equipped with intravenous fluids, drugs, and some form of bioelectric communication and are staffed by paramedics with proper physician backup to provide expert diagnosis, treatment, and triage of critical conditions.

Mr. President, studies carried out in the early 1980's show that EMS saves lives. Data compiled by 98 EMS re-

gions for calendar year 1979 demonstrated that the median number of fatalities per 100 motor vehicle accident injuries decreased as EMS systems developed. In areas served by EMS systems in the planning stages, there were 3.1 deaths per 100 injuries; in those served by systems having ALS capabilities, the rate was 1.8 deaths per 100 injuries.

Individual regions reported dramatic successes. For example, Clark County in Nevada showed a decrease of 23 percent in the early death rate for spinal cord injury victims from 1976 to 1981, during which time an EMS program was established. The rural EMS program in Charlottesville, VA, estimated in 1981 that the actual death risk from acute heart attacks had decreased 26 percent for all persons under 70 in its service area since the development of its EMS system.

On March 30, 1981, the country witnessed the life-saving capabilities of the EMS system in Washington, DC, which had received assistance from the EMS Grant Program during the late 1970's. On that date, President Reagan was shot. He was rushed to the George Washington University Hospital Trauma Center where a highly trained and expert emergency medical team removed the bullet near his heart. The President's emergency care was so successful because of the high state of readiness, training, and technological skill of the emergency medical team—results of a fully functioning EMS and trauma system. Dr. Benjamin Aaron, the surgeon who operated on the President, said that, "only because the President got prompt and highly skilled modern shock trauma care was he in no danger of dying."

Yet, in 1981, despite these successes and the fact that a majority of the 303 designated EMS regions had not yet completed the 5-year cycle, the Omnibus Budget Reconciliation Act of 1981 (Public Law 97-35), as recommended by the administration, terminated the so-called categorical grant program, under which grants to regions were targeted for the development of EMS systems in accordance with national standards, and shifted the funding into the Preventive Health and Health Services [PHHS] block grant. During congressional hearings in 1981 on the proposed transfer, much concern was expressed that termination of the categorical grants would result in disarray and a breakdown in the coordination of the many systems which were in various phases of development throughout the country. I testified that repealing the categorical grant authority might send a signal to State and local governments that the Congress no longer placed a priority on the EMS program.

## GAO REPORT ON EMS

Mr. President, 2 years ago, I sought to determine how EMS programs were faring under the block grant—whether the abandonment of the categorical grant program caused support for EMS to drop, development of EMS systems to slow, or fully functioning systems to break down. Since the Office of Emergency Medical Services within the Department of Health and Human Services was dismantled under the 1981 law, information regarding the present status of or funding for regional EMS programs was very difficult to obtain.

Preliminary data in a May 1984 General Accounting Office [GAO] report revealed that many States were assigning a low priority to the use of block grant funds for EMS programs and that funding for those programs decreased between 1981 and 1983.

In an effort to get more complete answers to the questions regarding EMS under the block grant, I, joined by my good friend from Massachusetts, then the ranking minority member and now the chairman of the Labor and Human Resources Committee, Mr. KENNEDY, requested the GAO to look into these issues—to review and analyze the levels of support and proficiency of EMS systems throughout the country.

I ask unanimous consent that a copy of our letter be printed in the RECORD at the conclusion of my remarks followed by the GAO's executive summary.

In response, the GAO investigated the status of EMS in 6 States—California, Massachusetts, Iowa, Pennsylvania, Florida, and Texas—and 18 localities within those States where programs were established under the categorical grant program. The States studied have about 30 percent of the total population of the Nation.

In general, the GAO found that in the six States surveyed overall expenditures for EMS initially fell soon after EMS' incorporation into the PHHS block grant in 1982. However, by 1985 most States had reversed that trend. For instance, California's EMS programs experienced a 40-percent reduction in funding during the period 1981 to 1983, but from 1983 to 1985, funding increased 52 percent. Nevertheless, the fiscal year 1985 total for the six States, \$15 million, was still 16 percent below the fiscal year 1981 level, \$17.8 million.

Mr. President, it is heartening that the GAO found that, in the absence of Federal leadership, States generally are assuming a more active leadership role in financing and regulating emergency medical services. Five of the six States reviewed have chosen to channel funds to most of the regions created under the categorical EMS program. According to a 1985 State survey conducted by the National Association

of State EMS Directors, 76 percent of the regions—219 of 287 regions—in 37 of the 50 States were receiving funding from the State governments.

BLS emergency care is generally available in the 6 States and 18 local areas visited by the GAO. ALS is available to at least 50 percent of the population in all nine urban areas surveyed, although four of the eight rural areas had less than 50 percent of their populations covered. Rural areas have particular difficulty implementing ALS because the caseload of critically ill or injured victims is often too small to justify the expense of ALS or to maintain a high level of proficiency by the paramedics.

Mr. President, the GAO also identified areas in which gaps in emergency medical services still exist and in which Federal actions and leadership are desirable and made recommendations for congressional action in these areas.

## IMPROVING DISSEMINATION OF INFORMATION ON EMS ACTIVITIES

Since the advent of the 1981 block grant, the Federal role in collecting and disseminating information on the successes and problems experienced by State and local agencies in EMS has been very limited. States are constantly upgrading their emergency and trauma care because of the emergence of new technologies and the development of new initiatives. State officials surveyed by the GAO indicated that they could benefit greatly by a program for sharing information regarding a wide variety of EMS-related matters, such as practices and policies governing regulation of air ambulance services and the establishment of trauma systems, research assessing the most effective service delivery methods, and the generation of new revenues for EMS activities.

Although the Association of State EMS Directors has begun to collect and disseminate information on State EMS activities, lack of funding for start-up costs for a clearinghouse is limiting the scope of its activities.

## BILL PROVISION

In order to assist in the development of a nationwide EMS clearinghouse section 2 of S. 10 would authorize the appropriation of \$500,000 to the Secretary of Health and Human Services for fiscal year 1988. Funding would be phased out in subsequent years—with appropriations of \$300,000 authorized for fiscal year 1989 and \$100,000 for fiscal year 1990. The Secretary would award the contract for a clearinghouse through a competitive grant process.

With the phasing out of Federal assistance, I am satisfied, as a result of discussions with State EMS officials, that over the 3 fiscal years, the clearinghouse could achieve self-sufficiency through subscriptions, user fees, or other means.

## IMPROVING COORDINATION OF EMS EXPENDITURES

The GAO also found that many State transportation departments and State health departments do not coordinate expenditures for EMS-related functions. State transportation departments receive Federal highway safety funds from the Department of Transportation [DOT]; State health departments generally receive PHHS block grant moneys from the Department of Health and Human Services. In four of the six States the GAO visited during the fall of 1985, State transportation departments were not coordinating with the EMS offices when deciding to use DOT funds for EMS activities.

For example, in California, \$1.3 million of Federal highway safety funds were spent on EMS in 1985. The State EMS office director informed the GAO that his office was not involved in that decision, and, consequently, could not determine whether the expenditures were consistent with the State plan or needs in the emergency medical services area.

Better coordination of EMS activities between State agencies could increase the effectiveness of such expenditures.

## BILL PROVISION

To accomplish this, section 3 of S. 10 would require the State grantees of the State and Community Highway Safety Program and the PHHS block grant to provide assurances that both the State EMS director and State government highway safety representative have opportunities to participate in the development of all plans for EMS services and to review and comment on any proposals for the use of grants that may be applied to EMS-related purposes.

## UPGRADING COMMUNICATIONS SYSTEMS

Mr. President, communications—between patient or other individual on the scene and central dispatcher, between dispatcher and ambulance or other emergency vehicle, and between emergency vehicle and hospital—are at the core of a successful EMS system.

First, individuals experiencing or witnessing a medical emergency must be able to gain access to the EMS system. This can best be accomplished through a single coordinated telephone system, such as the 911 emergency telephone number. As the GAO noted, a 911 system has two advantages. Callers need only remember one easily recognized 3-digit number, which is used wherever the system is implemented throughout the country, and an area-wide 911 system automatically routes the call to the most appropriate ambulance service or other emergency responder. In contrast, individuals living in or visiting areas without access to a single area-wide

telephone number often experience substantial time delays in reaching the ambulance provider or fire department—thus losing precious time which can mean the difference between life and death.

Although the availability of 911 has grown, more than 50 percent of the population of the United States still does not have access. Lack of access is particularly widespread in rural areas. For example, in the regions visited by the GAO, six of the nine urban areas have 100 percent of the population covered by 911, while only two of the nine rural areas have complete coverage. I am very pleased that my own State of California recently completed implementing 911 throughout the entire State. In the 10 surveyed areas which the GAO found lacked complete 911 coverage, the most common factors cited as barriers to providing a 911 system were start-up and operating costs. Installing a basic 911 system costs an average of \$250,000.

Second, the dispatch center must be able to transfer incoming calls to appropriate ambulance service providers as rapidly as possible. The number of times an incoming call is transferred and the amount of information that the dispatch center must obtain in order to make the transfer directly affect response time. For example, an enhanced 911 system, in which the address and telephone number of the incoming call are automatically displayed on a computer screen, reduces errors, speeds response time, and is particularly helpful when children call in for help. Again, lack of funds often prohibits the implementation of this advanced system, which can cost up to four times the amount of a basic 911 system.

Third, the ambulance or other emergency vehicle must be able to contact the base hospital during all phases of the medical emergency. Radio communications are essential for an ambulance to locate the medical emergency and to determine the most appropriate hospital to which the patient should be transported. In addition, in order to provide highly skilled, sophisticated care at the scene of the medical emergency, particularly ALS services for cardiac and trauma patients, paramedics must have radio contact with a physician in order to obtain medical direction. Too often, however, outmoded equipment and interference due to overcrowded radio frequencies hamper radio communications between ambulances and hospitals.

For example, the GAO reported that in Alameda County mountainous terrain blocks communications between the ambulance crew and the hospital in certain areas. Although a new tower would overcome this geographical barrier, Federal funding under the PHHS block grant is prohibited from being used for any such equipment pur-

chases. Many other communities indicated to the GAO that the prohibition prevents them from upgrading and replacing old communications equipment.

New communications equipment is also needed by many communities to take advantage of new radio frequencies as they become available because competition for frequencies is fierce and interference is a major problem. The GAO found that in 10 of the 18 local areas, substantial radio interference from other emergency and non-emergency users exists.

Under Federal Communication Commission [FCC] rules, EMS providers share channels with other non-emergency medical-related users and EMS providers are not necessarily given priority in the allocation of new channels. At the same time, competition for frequencies is increasing markedly. The medical services frequencies in particular are extremely congested, especially in densely populated urban areas.

In 1985, the FCC projected severe shortfalls of available frequencies for public safety users in the 1990's in many major metropolitan areas, such as southern California, New York, and the Baltimore-Washington, DC, areas.

In April 1986, the FCC began taking action to help resolve the frequency-overcrowding problem. It designated an organization to review new license applications for emergency users and to recommend frequencies with the least likelihood of interference. The FCC also allocated a new and unused range of frequencies for public safety users, including EMS.

However, although I am pleased that the FCC has taken first steps to resolve some immediate problems, long-term solutions are still needed.

#### BILL PROVISIONS

In pursuit of such long-term solutions, section 4 of S. 10 would:

First, in order to improve rural communities' abilities to implement and operate 911 systems, amend the community Facilities Loan [CFL] Program under the Farmers Home Administration to specify expressly that CFL's may be used for 911 development and communications-equipment purchases. This modification is consistent with the intent of the CFR Program, which is designed to improve community facilities providing essential services to rural residents, including fire and rescue services and health benefits.

Second, in order to improve urban areas' abilities to implement and operate 911 systems, modify the community development block grant [CDBG] so that an urban community could use it for the development of a 911 system if at least 51 percent of the residents of the area involved have low or moderate incomes. This modification would preserve the intent of the CDBG Pro-

gram to assist low-income communities.

Third, amend the prohibition against using PHHS block grant funds for equipment in order to permit expenditures for equipment to improve communications capabilities within an EMS system. In addition, States would be required to provide equal matching funds.

Fourth, require the FCC to assess the current and future availability of radio frequency channels for EMS communications between ambulances, both public and private, and hospitals and to establish a plan which ensures that the needs of EMS systems would be adequately provided for in making future allocations of frequencies.

#### IMPROVING TRAUMA CARE

Emergency medical services systems are integrated, coordinated systems designed to provide medical care to those with any unpredicted immediate need—whether for an injury or illness—and continued care once in an emergency facility. Within the general categories of persons in need of emergency care, victims of severe injury require time-sensitive, highly specialized care. Trauma systems specifically focus on the identification, care, and treatment of only severely injured victims and, therefore, could be considered a subset of an EMS system.

Time is of the essence for trauma victims. Death from trauma most often occurs during one of three times following the injury: First, within minutes after the injury, usually because of severe damage to the brain, spinal cord, or heart; second, within hours after an injury, usually from shock, internal bleeding, or damage to other organs; or third, within days or weeks after an injury, usually from infection or multiple organ failure.

Roughly 30 to 40 percent of the deaths from trauma fall into the second category, and virtually all of these deaths are unnecessary and preventable. But those trauma victims must receive immediate and highly skilled surgical intervention and other medical attention within what is called "the golden hour" following the initial trauma. This can best be accomplished through a well-coordinated and managed trauma system.

Trauma systems, by necessity, must include emergency medical services and, therefore, can function properly only if an EMS system is in place. Without efficient prehospital services, a trauma system would be ineffective. In addition, however, a trauma system must specifically provide for the identification and designation of trauma centers, which have specialized physicians, surgeons, and equipment immediately available on a 24-hour basis; a method to identify severe trauma victims in the pre-hospital phase; and the establishment of policies to ensure

that all major trauma victims are transported to trauma centers.

In 1976, the American College of Surgeons [ACS] first published a document, entitled "Optimal Hospital Resources for Care of the Seriously Injured," outlining the resources needed for optimal care of injured patients. It recommended guidelines and suggested policies for the establishment of complete trauma systems. Since 1976 the ACS guidelines and policies have been periodically updated, most recently in October 1986.

The first component essential for trauma systems is the organization of trauma services at certain designated institutions. The ACS flatly rejects the notion that a severely injured patient should be taken to the nearest hospital. Rather, it advocates that patients generally be transported immediately to institutions with appropriate levels of skills and technology.

The ACS recommends a system of classifying trauma centers into one of three levels, depending on the availability of specialized surgical personnel and equipment, the frequency with which they perform surgical procedures related to trauma, and the presence of research and teaching activities. Level I and II trauma centers, for example, must have surgical and emergency medical personnel trained in trauma care, including neurosurgeons, available 24 hours a day. Level I centers must also have a wider variety of surgical and nonsurgical specialists on-call or promptly from other institutions as well as have teaching and research activities. Level III hospitals, which generally serve smaller communities, must demonstrate a commitment to trauma care commensurate with their resources.

It is more cost-effective and medically sound to concentrate scarce and expensive medical resources in a few hospitals. Medical outcomes improve as a facility has more experience in performing a given procedure, and all hospitals cannot afford to provide all types of specialized medical care.

The second essential component of a trauma system is triage—the classification of patients according to medical need. Various systems for identifying severe trauma patients have been developed; most use some form of numerical scoring. For example, the injury severity score [ISS] system assesses the level of injury in three different anatomical regions. A 1983 study showed that less than 6 percent of all patients treated for injury have an ISS of at least 15, which represents at least a 10-percent risk of dying from a single severe injury or multiple serious injuries. Paramedics and emergency medical technicians must be trained in an agreed-upon triage practice or scoring system in order to assure that severe trauma victims are accurately

identified and taken to an appropriate trauma center.

Unfortunately, with any patient assessment system there are always a certain number of patients incorrectly identified as needing trauma-center care who could be adequately cared for at a typical community hospital. The incorrect routing of a patient to a trauma center is referred to as an overtriage. Policies should be designed to minimize overtriage as much as possible in order to prevent costly overuse of trauma centers, the inappropriate diversion of patients away from community hospitals, and, particularly in cases of accident victims who do not have severe injuries and who do not have insurance or another payment source, inappropriate transfers to trauma centers solely for financial reasons.

The third component necessary for a trauma system to function effectively is an efficient network of transfer and transport arrangements between hospitals and ambulance services participating in the system. Transport agreements must involve ambulance services to facilitate the prompt transport of patients to appropriate designated facilities within and between different jurisdictions. Transfer agreements are particularly important in rural areas, where distances are great and high-level trauma centers may not exist, so that victims who might be transported initially to a level III facility would then later be transferred to a level I or level II facility, if possible.

#### BARRIERS TO TRAUMA SYSTEM DEVELOPMENT

Ten of the 18 areas visited by the GAO do not have fully developed trauma systems. Five do not have designated trauma centers, five are without triage systems, and seven lack transfer and transport policies.

The GAO reported that economic and political factors are the major barriers to developing and implementing trauma systems. There is intense competition between hospitals—which often see trauma center designation as a way to improve the hospital's image and status within the community—to become designated trauma centers, and the process for designation can become vulnerable to local political pressures. Without a systematic approach for designating and accrediting trauma centers that includes a strict evaluation process, communities often find themselves with more so-called trauma centers than the population can support. As a result, many of these trauma centers do not meet the standards for trauma centers recommended by the ACS. Unfortunately, as the GAO noted, most States have not provided the leadership to overcome these political problems and competition between hospitals.

Conversely, the financial burdens that can accompany trauma center designation are a major problem for

many trauma centers, particularly in urban centers that provide a high proportion of uncompensated care associated with trauma. For suburban centers, the majority of trauma patients sustain their injuries from falls or car accidents and are usually covered by some form of insurance. In cities, particularly in inner-city areas, trauma centers treat a higher number of injuries that are the result of knife or gunshot wounds. The costs are high and, most often, there is no insurance to cover them. This can lead to a severe financial crisis and compromise the ability of some institutions to provide quality trauma care.

California Medical Center [CMC], located in downtown Los Angeles, was forced to cease functioning as a trauma center because of the great losses it incurred. In July 1984, CMC was designated as a level II trauma center. It anticipated that 50 percent of its trauma patients would be indigent and that it would incur an annual loss of \$1.5 million in the operation of the trauma center. However, it also expected that the additional nontrauma revenue resulting from the trauma center designation would eventually outweigh the losses associated with increased costs and indigent care.

Within months of CMC's designation, severely injured indigent patients were overloading the trauma center as well as many other areas of the hospital. At one point these problems caused the CMC emergency room to be closed for more hours than it was open.

Seven of every ten trauma patients that CMC treated had no insurance or other means of paying for their care. The hospital's overall percentage of nonpaying business had increased 158 percent since the opening of the trauma center. Also, instead of the trauma designation attracting new nontrauma revenue, the overcrowding caused some physicians to begin taking their revenue-producing patients to other facilities.

Had CMC's trauma center stayed operational for the whole year, it would have lost \$5.3 million—more than triple what it expected to lose. But by February 1985, the trauma center closed.

CMC's experience and that of a number of other hospitals with trauma centers raise serious concerns about the ability of hospitals in inner cities to meet low-income urban residents' needs for trauma care.

The Federal Government's health financing programs also tend to create disincentives for regionalized trauma care. CMC's Medi-Cal—California's Medicaid Program—reimbursement rate, for example, amounted to less than half of its average cost for treating a major trauma victim.

In addition, Medicare's prospective payment system under which hospitals are paid a fixed amount according to the diagnosis related group [DRG] in which the illness or injury is classified, produces incentives that are contrary to the goal of regionalizing specialized medical care. The payment to hospitals of a rate determined to be the average cost for a particular DRG is based on the assumption that hospitals treat roughly equal numbers of high-cost and low-cost cases in each DRG. Trauma centers, however, are designed to treat the most severely injured patients having the greatest complexity and complications, while the less severely injured in the same DRG's go to lower level or community hospitals.

Thus, under the Medicare system, a trauma center's caseload is heavily weighted toward high-cost patients. Since operating a trauma center is extremely expensive and the average cost of treating a severely injured patient is over \$30,000, losses for trauma centers can be very great. Although a very small number of trauma patients have Medicare coverage, up to 20 percent are covered by Medicaid and many State Medicaid plans are also adopting DRG payment systems.

Preliminary results from a study being conducted by the Johns Hopkins University show that indeed trauma centers are not fairly compensated under Medicare. Maryland has a fully functioning trauma system in place, with the Maryland Institute of Emergency Medical Services Systems [MIEMSS] serving as the level I trauma center. MIEMSS receives the most severe cases of trauma, while less severe cases are transported to lower level centers and community hospitals. For head and spinal injuries under one specific DRG, the study found that the average charges for patients at MIEMSS under this category were \$35,300, as compared to community hospital charges, which averaged \$8,300. The average statewide charge for this DRG is \$22,900, resulting in a \$12,400 deficit for MIEMSS.

#### TRAUMA SYSTEMS SAVE LIVES

Nevertheless, in those instances where the financial and political barriers have been overcome, there is a clear consensus that trauma systems work. Numerous studies have demonstrated that trauma systems result in dramatic reductions in death and disability.

For example, in 1980, Orange County, CA, established a trauma system comprised of five designated trauma centers. The system was established following the release of a study which showed that nonneurological trauma care was inadequate at hospitals without special trauma capabilities. Before implementation of the system, researchers found that 34 percent of the deaths occurring in trauma

cases were preventable. After the system was in place, that figure dropped to 15 percent. Thus, more than half of the preventable deaths were in fact being avoided. Furthermore, none of the patients in the study died as a result of bypassing a conventional hospital in order to get to a trauma center.

In August 1984, San Diego implemented its regionalized trauma system. After 1 year of operation, the trauma death rate decreased by 55 percent. More than 90 percent of trauma deaths now occurring there are considered to be nonpreventable.

Finally, West Germany is an example of a country with excellent regional trauma care. It successfully transferred to civilian health care the knowledge and methods Americans developed in providing battlefield care in Vietnam. West Germany classifies hospitals according to their ability to provide trauma care and has established trauma centers along the main autobahns. A prehospital transport system comprised of helicopters and ambulances effectively ensures rapid access to them. It is estimated that 90 percent of the population is within 15 minutes of a trauma center.

As a consequence of this regionalized system, the mortality rate from motor vehicle accidents in West Germany has dropped from 16,000 per year in 1970 to 12,000 per year in 1983—a 25-percent reduction. That is consistent with findings that between 30 and 40 percent of trauma deaths are preventable.

I would also note once again the swift and very skillful response of the George Washington University Hospital—a level I trauma center—to President Reagan's 1981 gunshot wound. If not for the availability of the newest technologies and a team of physicians and nurses specifically trained in shock-trauma, the President might not have survived the assassination attempt.

The value of a trauma center lies not only in reduction in deaths and disabilities but also in positive financial contribution to society. Dr. Donald Trunkey, a surgeon at the University of California, San Francisco and expert in trauma care, estimates that the reduction in West German trauma deaths translates into an increase of \$220 million in the gross national product and of \$55 million in taxes. Trunkey speculates that if the death rate from injuries throughout the United States decreased by a comparable amount after implementing a regional trauma system, over the first 10 years, this country's GNP could be increased by more than \$2 billion and the additional taxes paid could amount to more than half a billion dollars.

#### BILL PROVISIONS

Section 5 of S. 10 contains provisions designed to foster the development and continued operation of regionalized trauma-care systems. Thus, this section would require, beginning in fiscal year 1989, that each State annually submit, as part of its application for PHHS block grant funds, a State comprehensive emergency medical and trauma-care plan providing for the development of statewide trauma care systems and designation of trauma centers. Each State plan would be required to:

First, specify which entity would be authorized to designate trauma centers.

Second, establish a framework and set minimum standards for the implementation of regionalized trauma care systems, including guidelines for pre-hospital triage and transportation and for the resources and equipment needed by trauma facilities.

Third, establish minimum standards and requirements for designation of trauma centers, at least as stringent as the ACS guidelines, including the number and type of trauma cases necessary to assure that trauma facilities will provide an acceptable quality of care to trauma cases.

Fourth, establish a process for the accreditation and evaluation of designated centers and trauma systems.

Fifth, provide for the establishment of a centralized data reporting and analysis system that would accurately identify severely injured trauma patients at all facilities participating in trauma systems, identify the uncompensated trauma-care dollar volume by trauma hospital, and monitor patient care at facilities throughout the trauma systems.

Next, section 5 would establish a new program of trauma-care grants to the States, for which \$75 million would be authorized to be appropriated for each of fiscal years 1988, 1989, and 1990. Up to 5 percent of a trauma grant could be used for State administrative expenses and up to 15 percent could go to counties, multicounty regions, or States for planning, implementation, and monitoring of trauma systems. Each trauma system plan must meet State standards and would be required to:

First, establish triage systems to be used by paramedics and emergency medical technicians to assess severity of injury;

Second, establish transport and transfer policies to facilitate prompt delivery of patients to appropriate designated facilities within and without its jurisdiction;

Third, establish criteria to identify or designate a trauma center;

Fourth, provide for public education on injury prevention and gaining access to the EMS system; and

Fifth, provide assurances, as part of the triage and transport/transfer policies that, under the trauma system, only patients properly identified as trauma victims would be transported directly or transferred to designated trauma centers.

The remainder of the block grant would be used to reimburse trauma centers—designated through a formal, competitive process pursuant to the State plan—for portions of their uncompensated trauma-care costs. The only trauma centers that would be eligible to receive block grant funds would be those which meet criteria consistent with the guidelines of the American College of Surgeons for level I or level II trauma centers and serve areas in which triage, transport, and transfer policies, as described earlier in the summary of trauma-system-plan requirements, have been implemented.

Institutions would provide to the State's centralized data collection office statistics reflecting utilization during the preceding fiscal year, including the number of major trauma victims, the number of inpatient days consumed by these major trauma victims, and the total amount appropriately billed for which there was no identifiable third-party payor source. Institutions would also provide information on the diagnosis of, treatment provided to, and outcome of care for trauma patients.

Beginning in fiscal year 1989, States would be required to submit reports to the Federal Government regarding the amount of uncompensated trauma care that was provided in hospitals participating in trauma systems.

Section 6 of S. 10 would require the Secretary of HHS to conduct a study of the financial impact on trauma centers of Medicare's DRG system and State reimbursement policies under Medicaid and report the results of the study to the Congress.

#### RESEARCH ON THE LONG-TERM IMPACT OF TRAUMA

Although trauma is the leading cause of death and disability in children and young adults, destroys the health, lives, and livelihoods of millions of people, and is the most costly of all major health problems, very little data are available about the long-term economic consequences of trauma. Knowledge about the chronic effects of injury on personal abilities in occupations and recreation and on social and psychological functioning is sorely lacking.

In contrast, for many health problems, such as cancers and cardiovascular diseases, long-term studies have provided valuable epidemiologic data on which to base intervention strategies.

#### BILL PROVISION

In order to establish an effective data collection base for evaluating the

cost-effectiveness of trauma systems, section 7 of S. 10 would require the Secretary of HHS to conduct a comprehensive study on the long-term economic impact of trauma in the United States. The study would follow a multidisciplinary approach and draw on diverse fields such as epidemiology, statistics, biomedical engineering, behavioral sciences, health economics, and general economics in order to identify and evaluate the many factors that influence the impact and long-term outcome of a trauma incident. Such sums as are necessary for the study would be authorized to be appropriated.

#### CONCLUSION

Mr. President, before concluding I would like to take this opportunity to express my deep gratitude to the General Accounting Office for the excellent study it conducted on the present status of EMS. It specifically identified both the successes and current problems in EMS programs throughout the country. The data, information, and analyses in the report were extremely helpful in crafting this legislation.

Mr. President, since the enactment of the Emergency Medical Services Systems Development Act 14 years ago, we have made great progress in providing persons with swift and effective treatment in medical emergencies. However, as the GAO and NAS have reported, much still needs to be accomplished, particularly in the area of injury control. Hundreds of thousands of senseless and tragic deaths and life-long disabilities occur each year from accidents and injuries. Many resulting from trauma are totally preventable and treatable—if we choose to place a priority on achieving that goal.

It is a goal within our grasp. We need only have the foresight and determination to organize and allocate medical resources to ensure that trauma victims are rapidly identified and transported to facilities specifically designed to provide the optimal level of care.

Mr. President, the legislation we are introducing has the potential to improve the ability of EMS systems to respond in medical emergencies and to help communities plan and implement regional trauma systems. I urge all my colleagues to support this bill.

Mr. President, I ask unanimous consent that the text of the bill be printed in the *Record* following the March 5, 1985, letter and GAO executive summary.

There being no objection, the material was ordered to be printed in the *Record*, as follows:

#### S. 10

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Emergency Medi-*

*cal Services and Trauma Care Improvement Act of 1987".*

#### CLEARINGHOUSE ON EMERGENCY MEDICAL SERVICES

SEC. 2. (a) The Secretary of Health and Human Services (hereinafter referred to as the "Secretary") shall by contract provide for the establishment and operation of a National Clearinghouse on Emergency Medical Services (hereinafter referred to as the "Clearinghouse"). The Clearinghouse shall—

(1) foster the development of appropriate, modern emergency medical services and trauma care through the sharing of information among agencies and individuals involved in planning, furnishing, and studying such services and care;

(2) collect, compile, and disseminate information on the achievements of, and problems experienced by, State and local agencies in providing emergency medical services and trauma care;

(3) provide technical assistance relating to emergency medical services and trauma care to State and local agencies; and

(4) sponsor workshops and conferences on emergency medical services and trauma care.

(b) A contract entered into by the Secretary under this section may provide that the Clearinghouse shall charge fees or assessments in order to defray, and beginning with fiscal year 1990, to cover, the costs of operating the Clearinghouse.

(c) To carry out this section, there are authorized to be appropriated \$500,000 for fiscal year 1988, \$300,000 for fiscal year 1989, and \$100,000 for fiscal year 1990.

(d) The authority of the Secretary to enter into contracts under this section shall be to such extent or in such amounts as are provided in appropriation acts.

#### COOPERATION BETWEEN STATE AGENCIES

SEC. 3. (a) 1905(c) of the Public Health Service Act is amended—

(1) by striking out "and" at the end of paragraph (5);

(2) by striking out the period at the end of paragraph (6) and inserting in lieu thereof a semicolon and "and"; and

(3) by adding at the end thereof the following new paragraph:

"(7) agrees to provide the officer of the State government responsible for the administration of the State highway safety program with an opportunity to—

"(A) participate in the development of any plan by the State relating to emergency medical services, including the State plan required by section 1910B; and

"(B) review and comment on any proposal by any State agency to use any Federal grant or Federal payment received by the State for the provision of emergency medical services."

(b) Paragraph (1) of section 402(b) of title 23, United States Code, is amended—

(1) by striking out the period at the end of each subparagraph and inserting in lieu thereof a comma,

(2) by adding "or" at the end of subparagraph (F), and

(3) by adding at the end thereof the following new subparagraph:

"(G) provide procedures that ensure that State officials who are responsible for the provision of emergency medical services within the State have the opportunity to—

"(i) participate in the development and implementation of the State highway safety program,

"(ii) provide advice on the development and implementation of the State highway safety program, and

"(iii) review, and comment on, any proposals to use funds provided to the State under this section for emergency medical services."

#### IMPROVING COMMUNICATIONS SYSTEMS

SEC. 4. (a)(1) The last sentence of section 1904(a)(1)(F) of the Public Health Service Act is amended by striking out "1905(c)(2)." and inserting in lieu thereof "1905(c)(2) and other than the purchase of communications equipment for such systems in accordance with paragraph (4))."

(2) Section 1904(a) of such Act is amended by adding at the end thereof the following new paragraph:

"(4) A State may not, under subparagraph (F) of paragraph (1), use amounts described in paragraph (1) to pay more than 50 percent of the costs of communications equipment for emergency medical services systems."

(b) The first sentence of section 306(a)(1) of the Consolidated Farm and Rural Development Act is amended by inserting "emergency telephone service, communications equipment for emergency medical services," after "recreational developments."

(c)(1) Section 105(c)(2) of the Housing and Community Development Act of 1974 is amended—

(A) by inserting "(A)" after the paragraph designation;

(B) by redesignating subparagraphs (A) and (B) as clauses (i) and (ii), respectively; and

(C) by adding at the end thereof the following new subparagraph:

"(B) The requirements of subparagraph (A) do not prevent the use of assistance under this title for the development, establishment, and operation for not to exceed 2 years after its establishment, of a uniform emergency telephone number system if the Secretary determines that—

"(i) such system will contribute substantially to the safety of the residents of the area served by such system;

"(ii) not less than 51 percent of the use of the system will be by persons of low and moderate income; and

"(iii) other Federal funds received by the grantee are not available for the development, establishment, and operation of such system due to the insufficiency of the amount of such funds, the restrictions on the use of such funds, or the prior commitment of such funds for other purposes by the grantee.

The percentage of the cost of the development, establishment, and operation of such a system that may be paid from assistance under this title may not exceed the percentage of the population to be served that is made up of persons of low and moderate income."

(2)(A) The amendments made by this subsection shall be applicable to amounts made available for fiscal year 1987 and each succeeding fiscal year.

(B) Not later than the expiration of the 30-day period following the date of enactment of this Act, the Secretary of Housing and Urban Development shall notify each fiscal year 1987 grantee of assistance under section 106 of the Housing and Community Development Act of 1974 of the availability of such assistance for the development, establishment, and operation of a uniform emergency telephone number system in accordance with section 105(c)(2)(B) of such Act.

(C) Not later than the expiration of the 30-day period following the date of enactment of this Act, the Secretary of Housing and Urban Development shall by notice establish such requirements as may be necessary to carry out the amendments made by this subsection. Such notice shall not be subject to section 553 of title 5, United States Code, or section 7(o) of the Department of Housing and Urban Development Act.

(D) The Secretary of Housing and Urban Development shall issue such regulations, based on the notice required in subparagraph (C), as may be necessary to carry out the amendments made by this subsection. Such regulations shall be published for comment in the Federal Register not later than 90 days after the date of enactment of this Act.

(d) Not later than one year after the date of enactment of this Act, the Federal Communications Commission shall—

(1) complete a study of the availability of radio frequency channels for emergency medical services communications between ambulances and hospitals, including both public and private ambulances and hospitals;

(2) establish a plan to ensure that the needs of emergency medical services communications shall be adequately provided for in the allocation of frequencies; and

(3) submit a report to Congress containing such study and plan relating to emergency medical services communications.

#### IMPROVING EMERGENCY MEDICAL SERVICES AND TRAUMA CARE

SEC. 5. (a) Part of title XIX of the Public Health Service Act is amended by adding at the end thereof the following new section:

##### "STATE COMPREHENSIVE EMERGENCY MEDICAL SERVICES AND TRAUMA CARE PLAN

"SEC. 1910B. (a)(1) For each fiscal year, beginning with fiscal year 1989, each State shall submit a State comprehensive emergency medical services and trauma care plan (hereafter in this section referred to as the 'State plan') to the Secretary. Each State plan shall—

"(A) specify the public or private entity which will designate trauma centers in the State;

"(B) contain minimum standards and requirements for the designation of trauma centers by such entity, including standards and requirements for—

"(i) the number and types of trauma patients for whom such centers must provide care in order to ensure that such centers will have sufficient experience and expertise to be able to provide quality care for victims of injury; and

"(ii) the resources and equipment needed by such centers;

"(C) contain standards and requirements for the implementation of regional trauma care systems, including standards and guidelines for triage and transportation of trauma patients prior to care in designated trauma centers;

"(D) specify procedures for the accreditation and evaluation of designated trauma centers and trauma care systems; and

"(E) provide for the establishment in the State of a central data reporting and analysis system to—

"(i) identify severely injured trauma patients at all health care facilities within regional trauma care systems in the State;

"(ii) identify the total amount of uncompensated trauma care expenditures made for each fiscal year by each health care facility in the State; and

"(iii) monitor trauma patient care in each health care facility (including each designated trauma center) within regional trauma care systems in the State.

"(2) The Secretary shall promulgate regulations governing the establishment by States of standards and requirements under subparagraphs (B) and (C) of paragraph (1). Regulations promulgated under this paragraph shall be at least as stringent as the guidelines for the designation of trauma centers and for triage, transfer, and transportation policies specified by the American College of Surgeons in the Bulletin of the American College of Surgeons issues in October, 1986, except to the extent that the Secretary determines it infeasible or inadvisable to promulgate regulations under this paragraph which are not at least as stringent as such guidelines. If the Secretary make a determination under the preceding sentence, the Secretary shall, with the regulations promulgated under this paragraph, publish in the Federal Register an explanation for such determination.

"(b)(1) If the Secretary determines that a State has not, by the end of fiscal year 1989, developed the State plan required by subsection (a), the Secretary shall reduce the amount of the State's allotment under this part for fiscal year 1990 by the amount specified in paragraph (4).

"(2) If the Secretary determines that a State has not, by the end of fiscal year 1990, developed and substantially implemented the State plan required by subsection (a), the Secretary shall reduce the amount of the State's allotment under this part for fiscal year 1991 by the amount specified in paragraph (4).

"(3) If the Secretary determines that a State has not, by the end of fiscal year 1991, developed and completely implemented the State plan required by subsection (a), the Secretary shall reduce the amount of the State's allotment under this part for fiscal year 1992 and each succeeding fiscal year by the amount specified in paragraph (4). The Secretary shall discontinue the reduction under this subsection of a State's allotment under this part for a fiscal year if the Secretary determines that the State has, in the preceding fiscal year, developed and completely implemented the State plan required by subsection (a).

"(4) The amount referred to in paragraphs (1), (2), and (3) with respect to a State is the total amount expended by the State for administrative expenses for fiscal year 1987 from amounts paid to the State under section 1903 for such fiscal year."

(b) Title XIX of the Public Health Service Act is amended by adding at the end thereof the following new part:

#### "PART C—TRAUMA CARE BLOCK GRANT

##### "AUTHORIZATIONS OF APPROPRIATIONS

"SEC. 1931. For the purpose of allotments to States to carry out the activities described in section 1934, there are authorized to be appropriated \$75,000,000 for each of the fiscal years 1988, 1989, and 1990.

##### "ALLOTMENTS

"SEC. 1932. (a) Except as provided in subsection (c), for fiscal year 1988, the Secretary shall allot to each State an amount which bears the same ratio to the total amount appropriated under section 1931 for such fiscal year as the population of the State bears to the population of all States.

"(b)(1) Except as provided in subsection (c), for fiscal year 1989 and each of the succeeding fiscal years, the allotment of a State

under this part shall be the sum of the amounts allotted to the State under paragraphs (2) and (3).

"(2) Two-thirds of the total amount appropriated under section 1931 for a fiscal year (beginning with fiscal year 1989) shall be allotted to States under this paragraph. The allotment of a State under this paragraph shall be the amount which bears the same ratio to the amount available for allotment under this paragraph as the population of the State bears to the population of all States.

"(3) One-third of the total amount appropriated under section 1931 for a fiscal year (beginning with fiscal year 1989) shall be allotted to States under this paragraph. The allotment of a State under this paragraph shall be the amount which bears the same ratio to the amount available for allotment under this paragraph as the total amount of uncompensated trauma care expenditures made by the State for the most recently completed fiscal year bears to the total amount of such expenditures made by all States for such fiscal year. In determining such expenditures for purposes of this paragraph, the Secretary shall consider the reports submitted under section 1935(f).

"(c) Notwithstanding subsections (a) and (b), the allotment of a State under this section for any fiscal year shall not be less than—

"(1) \$500,000, or

"(2) two-thirds of one percent of the total amount appropriated to carry out this part for such fiscal year, whichever is the lesser amount.

"(d) To the extent that all the funds appropriated under section 1901 for a fiscal year and available for allotment in such fiscal year are not otherwise allotted to States because—

"(1) one or more States have not submitted an application or description of activities in accordance with section 1935 for the fiscal year;

"(2) one or more States have notified the Secretary that they do not intend to use the full amount of their allotment; or

"(3) some State allotments are offset or repaid under section 1906(b)(3) (as such section applies to this part pursuant to section 1935(e));

such excess shall be allotted among each of the remaining States in proportion to the amount otherwise allotted to such States for the fiscal year without regard to this subsection.

"(e)(1) If the Secretary—

"(A) receives a request from the governing body of an Indian tribe or tribal organization within any State that funds under this part be provided directly by the Secretary to such tribe or organization, and

"(B) determines that the members of such tribe or tribal organization would be better served by means of grants made directly by the Secretary under this part,

the Secretary shall reserve from amounts which would otherwise be allotted to such State under subsection (a), (b), or (c) for a fiscal year the amount determined under paragraph (2).

"(2) The Secretary shall reserve for the purpose of paragraph (1) from amounts that would otherwise be allotted to such State under subsection (a), (b), or (c) an amount which bears the same ratio to the State's allotment for the fiscal year involved under subsection (a), (b), or (c) as the population of the tribe bears to the population of the State.

"(3) The amount reserved by the Secretary on the basis of a determination under this subsection shall be granted to the Indian tribe or tribal organization for which such a determination has been made.

"(4) In order for an Indian tribe or tribal organization to be eligible for a grant for a fiscal year under this subsection, it shall submit to the Secretary a plan for such fiscal year which meets such criteria as the Secretary may prescribe.

#### "PAYMENTS UNDER ALLOTMENTS TO STATES

"Sec. 1933. (a) For each fiscal year, the Secretary shall make payments, as provided by section 6503(a) of title 31, United States Code, to each State from its allotment under section 1932 (other than any amount reserved under subsection (e) of such section) from amounts appropriated for that fiscal year.

"(b) Any amount paid to a State for a fiscal year and remaining unobligated at the end of such year shall remain available for the next fiscal year to such State for the purposes for which it was made.

#### "USE OF ALLOTMENTS

"Sec. 1934. (a)(1) Not more than 15 percent of the total amount paid to a State under section 1933 for a fiscal year may be used by a State to pay the costs of planning, implementing, and monitoring the operation of, county, regional, or State trauma care systems. Each trauma care system supported with amounts made available under this paragraph shall—

"(A) meet the standards and requirements established under the State plan under section 1910B(a)(1)(B);

"(B) provide for the use of triage procedures by paramedics and emergency medical technicians to assess the severity of injury incurred by trauma patients;

"(C) provide for the use of appropriate transportation and transfer policies to ensure the delivery of patients to designated trauma centers and other facilities within and outside of the jurisdiction of such system, including policies to ensure that only individuals appropriately identified as trauma patients are transferred to designated trauma centers;

"(D) conduct public education activities concerning preventing injuries and obtaining access to emergency medical services and trauma care; and

"(E) establish criteria and procedures, in accordance with the State plan required under section 1910B, for the identification and designation of trauma centers to participate in the trauma care system.

"(2) After the application of paragraph (1) of this subsection and of subsection (d) for a fiscal year, the amount available for such fiscal year to a State from the total amount paid to the State under section 1933 for such fiscal year shall be used by the State to reimburse designated trauma centers for such portions of the uncompensated trauma care expenditures of such centers as the State considers appropriate. In order to receive reimbursement of uncompensated trauma care expenditures under this paragraph, a designated trauma center shall—

"(A) be a center which—

"(i) meets the standards and requirements established by the State in accordance with the State plan required under section 1910B; and

"(ii) meets the guidelines for level I or level II trauma centers specified by the American College of Surgeons in the Bulletin described in section 1910B(a)(2);

"(B) serve an area in which the procedures and policies described in subpara-

graphs (B) and (C) of paragraph (1) have been implemented; and

"(C) maintain its designation as a designated trauma center throughout the fiscal year for which reimbursement is provided under this paragraph.

"(b) The Secretary, if requested by a State, shall provide technical assistance to the State in planning and operating activities to be carried out under this part.

"(c) A State may not use amounts paid to it under section 1933 to—

"(1) make cash payments to intended recipients of services;

"(2) purchase or improve land, purchase, construct, or permanently improve (other than through minor remodeling) any building or other facility, or purchase major medical equipment; or

"(3) satisfy any requirement for the expenditure of non-Federal funds as a condition for the receipt of Federal funds.

The Secretary may waive the limitation contained in paragraph (2) upon the request of a State if the Secretary finds that there are extraordinary circumstances to justify the waiver and that granting the waiver will substantially assist in carrying out this part.

"(d) Not more than 5 percent of the total amount paid to a State under section 1933 for a fiscal year may be used for administering the funds made available under section 1933. The State shall pay from non-Federal sources the remaining costs of administering such funds.

#### "APPLICATION AND DESCRIPTION OF ACTIVITIES; REQUIREMENTS

"Sec. 1935. (a)(1) In order to receive an allotment for a fiscal year under section 1932, each State shall submit an application to the Secretary. Each such application shall be in such form and submitted by such date as the Secretary shall require.

"(2) Each application required under paragraph (1) for an allotment under section 1932 for a fiscal year shall contain—

"(A) assurances that the State will meet the requirements of subsection (b); and

"(B) the State plan required by section 1910B.

"(b) As part of the annual application required by subsection (a) for an allotment for any fiscal year, the chief executive officer of each State shall—

"(1) certify that the State agrees to use the funds allotted to it under section 1932 in accordance with the requirements of this part;

"(2) provide assurances that the State will require each health care facility in the State to provide to the system established pursuant to section 1910B(a)(1)(E) a report for each fiscal year which—

"(A) specifies the number of major trauma patients cared for by such facility during such fiscal year;

"(B) specifies the total number of inpatient hospital days used by such patients during such fiscal year;

"(C) describes the diagnoses, treatment, and treatment outcomes for such patients; and

"(D) specifies the total amount of uncompensated trauma care expenditures incurred by such facility for such patients for such fiscal year; and

"(3) certify that the State agrees that Federal funds made available under section 1933 for any period will be so used as to supplement and increase the level of State, local, and other non-Federal funds that would in the absence of such Federal funds be made available for the programs and ac-

tivities for which funds are provided under that section and will in no event supplant such State, local, and other non-Federal funds.

"(c) The chief executive officer of a State shall, as part of the application required by subsection (a) for any fiscal year, also prepare and furnish the Secretary (in accordance with such form as the Secretary shall provide) with a description of the intended use of the payments the State will receive under section 1933 for the fiscal year for which the application is submitted, including information on the programs and activities to be supported and services to be provided. The description shall be made public within the State in such manner as to facilitate comment from any person (including any Federal or other public agency) during development of the description and after its transmittal. The description shall be revised (consistent with this section) throughout the year as necessary to reflect substantial changes in the programs and activities assisted by the State under this part, and any revision shall be subject to the requirements of the preceding sentence.

"(e) Except where inconsistent with the provisions of this part, the provisions of section 1903(b), section 1906(a), paragraphs (1) through (5) of section 1906(b), and sections 1907, 1908, and 1909 shall apply to this part in the same manner as such provisions apply to part A of this title.

"(f) Each report (beginning with the report for fiscal year 1989) submitted by a State to the Secretary under section 1906(a)(1) (as such section applies to this part pursuant to subsection (e) of this section) shall include a separate statement which summarizes and analyzes the information provided to the State in the reports required under subsection (b)(2).

#### "DEFINITIONS"

"Sec. 1936. (a) For purposes of this part, the terms 'Indian tribe' and 'tribal organization' have the same meaning given such terms in section 4(b) and section 4(c) of the Indian Self-Determination and Education Assistance Act.

"(b) For purposes of this part and section 1910B—

"(1) the term 'designated trauma center' means a trauma center designated in accordance with the State plan under section 1910B; and

"(2) the term 'uncompensated trauma care expenditures' means any amount which is expended by a health care facility to provide health care services to a trauma patient and for which such facility does not receive payment or reimbursement."

(c) This section and the amendments made by this section shall take effect on October 1, 1987.

#### STUDY ON PAYMENTS TO TRAUMA CENTERS UNDER THE MEDICARE AND MEDICAID PROGRAMS

Sec. 6. (a) The Secretary of Health and Human Services (in this section referred to as the "Secretary") shall conduct a study of the financial impact of the prospective payment system established under section 1886(d) of the Social Security Act on medical trauma centers and of possible modifications to that system to provide more adequate and appropriate payments to such centers. The study shall include recommendations with respect to whether separate payment rates should be established for such centers.

(b) The Secretary shall conduct a study of the policies adopted by States in reimbursing medical trauma centers under the med-

icaid program under title XIX of the Social Security Act. The study shall assess the adequacy and appropriateness of the reimbursements provided by States to such centers under such program and shall include recommendations with respect to whether the requirements imposed under such title should be modified in order to ensure that such centers are appropriately reimbursed.

(c) The Secretary shall report the results of the studies required by standards (a) and (b) to the Congress not later than one year after the date of enactment of this Act.

#### STUDY ON THE LONG-TERM ECONOMIC EFFECTS OF TRAUMA

Sec. 7. (a) The Secretary of Health and Human Services (in this section referred to as the "Secretary") shall conduct a comprehensive multidisciplinary study of the long-term economic effects of incidences of trauma in the United States. In conducting the study, the Secretary shall utilize the services of individuals with appropriate expertise in such fields as epidemiology statistics, behavioral sciences, and health economics in order to identify and evaluate as many factors as possible that influence the impact and longterm outcome of a trauma incident.

(b) The Secretary shall report the results of the study required by subsection (a) to the Congress not later than one year after the date of enactment of this Act.

(c) To carry out this section, there are authorized to be appropriated such sums as may be necessary for fiscal year 1988.

U.S. SENATE,

Washington, DC, March 5, 1985.

HON. CHARLES H. BOWSHER,  
Comptroller General of the United States,  
U.S. General Accounting Office, Wash-  
ington, DC.

DEAR CHARLES, On November 17, 1973, the Emergency Medical Services Systems Development Act (Public Law 93-154), was enacted in an effort to establish the mechanisms for the creation and coordination of life-saving health services. Senator Cranston was the Senate author of the new law and Senator Kennedy served as Chairman of the Health and Scientific Research Subcommittee of the Labor Committee at that time. In the early 1970s, the state of emergency medical services (EMS) was characterized by poorly trained ambulance and emergency room personnel, outdated equipment, little coordination of services in urban areas, and the absence of emergency care facilities in rural areas. The new law was designed to help local communities use existing resources and generate other potential sources of support to plan and develop comprehensive and integrated EMS system through a 5-year sequence from preliminary planning to fully functioning, advanced systems. Federal matching funds would decline and local contributions would increase over those 5-year periods until the systems would be self-sufficient.

Your Office has previously carried out a comprehensive and very helpful study of the EMS program. The July 13, 1976, GAO report, entitled "Progress, But Problems in Developing Emergency Medical Services Systems", stated, "The Emergency Medical Services Systems Act has stimulated interest and brought improvement in the delivery of emergency medical care." The report also recognized that progress toward achieving regional self-sufficiency was slower than envisioned in the Act. Thus the report concluded that "when Federal funding stops, continuation of regional systems providing

EMS at the level planned or established with Federal support will not be assured."

Based on GAO's recommendations, we included in the Emergency Medical Services Amendments of 1976 (Public Law 94-573), which reauthorized appropriations for the EMS program, provisions to ensure that every effort was made by EMS systems to develop community-based sources of funding for the continued operation of the system. The GAO report was also very helpful in identifying the need for the coordination of Federally-supported activities related to emergency medical services, responsibility for which was assigned in Public Law 94-573 to an interagency committee.

In 1979, Congress again reauthorized appropriations for the EMS program for 3 years through FY 1982; in so doing it rejected a proposal for a 1982 phaseout of the program. It was noted at that time that if sufficient funds were made available during fiscal years 1979-1982 only an additional 3 years of federal funding would thereafter be needed in order for the majority of EMS programs to complete their cycles. In FY 1982, however, the program was transferred by the Omnibus Budget Reconciliation Act of 1981 (Public Law 97-35) into the Preventive Health and Health Services (PHHS) block grant.

During Congressional hearings in 1981 on the proposed program transfer, much concern was expressed that without accountability, leadership, or standards from the Federal government, there would be disarray and discoordination of the many systems which were in various phases of development throughout the country. (Hearings of the House Committee on Energy and Commerce Subcommittee on Health and the Environment on H.R. 2562, pages 146-147 (April 6-7, 1981)) In addition, it was felt by many, as Senator Cranston testified, that this move would send a clear signal to state and local governments that the Congress no longer placed a priority on this program and that the result could be a substantial loss of funding.

By 1982, when the EMS program was transferred to the PHHS block grant, 70 (23 percent) of the 303 EMS regions had completed the 5-year cycle and 66 (21 percent) were in the process of completing the final, advanced-life-support (ALS) stage, while 112 (37 percent) were in the second stage—development of a basic-life-support (BLS) system. Fifty regions (16.5 percent) had advanced only to the planning stage, and five regions had not applied for or received any funds. Since the dismantling in 1982 of the Office of Emergency Medical Services within the Health Services Administration in the Department of Health and Human Services upon incorporation of the EMS program into the block grant, information regarding the present status of or funding for regional EMS programs has been very difficult to obtain.

The information that does exist suggests that our predictions in 1981 have, unfortunately, come to pass. GAO's May 8, 1984, report, entitled "States Use Added Flexibility Offered by the Preventive Health and Health Services Block Grant", in which the implementation of the PHHS block grant in 13 states was reviewed and analyzed, stated that many states have assigned a low priority to the EMS program. The report also revealed that funding for EMS decreased between 1981 and 1983 in 10 of the 11 states for which complete data were available. That report provided the first indications of how states were distributing their block

grant funds. However, complete information is still lacking regarding the progress of the development of EMS systems across the country.

In light of the achievements of the federal EMS program prior to 1982, the Federal investment over the years in the development of EMS systems, and the results presented in your May 1984 report, we believe that a detailed study of the experience of the EMS systems under the block grant is warranted. Therefore, as the ranking minority member of the Committee on Labor and Human Resources and as the Senate author of the enabling legislation, we request that you conduct such a study and that the report on it include:

(1) Information on the progress of the previously designated 303 EMS regions—specifically, data regarding the number of regions that have completed the cycle, that have advanced to the ALS, BLS, and planning stages, respectively, and that have still not begun the process. Please also evaluate what the impact has been on the development and coordination of EMS systems throughout the country of the transfer of authority for the program from the federal government to the states.

(2) An analysis, similar to the one contained in the 1984 report and expanded to include all 50 states and the District of Columbia, and the funding of EMS programs. Please include data regarding the overall levels of support for EMS in each region and a breakdown of federal (by PHHS block grant, categorical grant, and the Department of Transportation), state and local contributions.

(3) An analysis of the extent to which the current status of EMS programs meet the original goal of phasing out Federal program support in FY 1985.

(4) An analysis of the impact that the EMS program has had in reducing morbidity and mortality due to serious accidents, heart attacks, strokes, and similar incidents in which a swift medical response could save lives and minimize disabilities.

We very much appreciate the GAO's past excellent work in connection with this program and look forward to receiving a response from you, at your earliest convenience, regarding the conduct of the requested study. Please have your staff contact Barbara Masters (224-3553 for Senator Cranston) and David Nexon (224-7679 for Senator Kennedy) if you have any questions about this letter.

With warm regards,

Cordially,

EDWARD M. KENNEDY,  
ALAN CRANSTON.

HEALTH CARE: STATES ASSUME LEADERSHIP  
ROLE IN PROVIDING EMERGENCY MEDICAL  
SERVICES

#### EXECUTIVE SUMMARY

##### Purpose

About 550,000 persons die from heart attack and another 140,000 die from injuries each year in the United States. Studies estimate that from 15 to 20 percent of injury and prehospital coronary deaths could be avoided with the delivery of appropriate emergency medical services.

At the request of Senators Alan Cranston and Edward M. Kennedy, GAO reviewed the status of emergency medical services programs in the United States, addressing the following questions:

What effect did the transition from federal to state leadership under the Preventive Health and Health Services block grant have on emergency medical services?

What are the significant issues and barriers affecting the appropriate and timely delivery of local emergency medical services?

While recognizing that states are now responsible for operating the program, the Senators also asked us to identify any actions the federal government could take to enhance states' progress.

#### Background

Emergency medical services are best delivered through a well-coordinated system of local providers. While local providers and governments have principal responsibility for delivering services, the federal government assumed a lead role in improving these services through categorical grant programs created under the 1966 Highway Safety Act and the 1973 Emergency Medical Services Systems Act.

In the early 1980's the federal government devolved much of its leadership responsibilities to states by folding the Emergency Medical Services Systems Act program into the Preventive Health and Health Services block grant. This prompted concerns that states would make less funds available for emergency medical services.

Between October 1985 and March 1986, GAO reviewed the activities in six states—California, Florida, Iowa, Massachusetts, Pennsylvania, and Texas—to assess their influence on the local delivery of emergency medical services. Within the 6 states, 18 urban and rural areas were selected for case studies.

#### Results in Brief

Bolstered by the conversion of federal categorical support to the more flexible block grant, states have assumed a more active leadership role in financing and regulating the local delivery of emergency medical services. Although initially reducing funds for emergency medical services in the first years of the block grant, the six states GAO visited have reversed this trend, as the emergency medical services community increasingly looks to them rather than the federal government for leadership.

Many local areas, however, have not yet adopted service delivery practices that have been shown to save lives. Quick telephone access through 911 is estimated to be available to less than 50 percent of the nation; advanced life support ambulance services are generally not available in most rural areas visited; and critically injured patients are not taken to the most appropriate hospital in some areas.

Progress in adopting these practices has been impeded by the costs of installing 911 and acquiring sophisticated ambulance services as well as the lack of cooperation among emergency medical service providers. State and local governments are in the best position to provide the primary impetus in overcoming barriers to further progress. Certain federal actions, however, could help enhance state and local leadership efforts.

#### Principal Findings

##### States Assume Leadership Role Under Block Grant

States have reversed the downward funding trends for emergency medical services initially experienced under the block grant. Funding in the six states visited decreased by 34 percent from 1981 to 1983. Although total funding has not returned to 1981 levels, funding increased by 28 percent from 1983 to 1985. Moreover, the states have increased their share of funding from 27 percent in 1981 to 50 percent in 1985.

Under the block grant, states have expanded their regulatory and programmatic roles and have generally kept the regional systems established under the 1973 federal categorical program. As of 1985, states continued support for 76 percent of these regional systems.

Although the block grant has worked well in engaging state leadership, federal highway safety funds expended by states for emergency medical services could be better coordinated with states' overall emergency medical services strategies. Four of the six states have used these funds to support emergency medical services without consulting with state emergency medical services offices.

##### Availability of 911 Varies Significantly

Although 911 expedites quick public access to emergency medical resources, it is estimated that more than 50 percent of the nation, primarily in rural areas, is still not covered. High installation and operating costs in rural areas GAO visited and the reluctance of urban ambulance services to join an areawide telephone receiving system are among the principal barriers to 911 implementation. While state-mandated coverage and financing arrangements could promote broader coverage, only six states nationwide have mandated 911 coverage and 26 have authorized a special funding mechanism.

##### Advanced Ambulance Care Limited in Rural Areas

Advanced life support ambulance services, most important to those in critical condition, are primarily found in urban areas. While all nine urban areas GAO visited have these services available to at least 50 percent of their population, only four of nine rural areas have such coverage. Low rural area caseloads often do not provide sufficient revenues to cover advanced life support fixed costs and preclude maintenance of staff medical skills.

States have taken many regulatory actions to upgrade the quality of advanced life support care. Of the 18 local areas visited, however, 10 reported that radio interference hampered communications between ambulance personnel and hospital physicians providing medical direction for field care. The Federal Communications Commission, which allocates radio channels, recently provided more channels, which could ameliorate the interference problem. Further, 10 areas indicated that outmoded communications equipment also limits effective ambulance-hospital communications. However, block grant funds may not be used to purchase new equipment.

##### Many Areas Have Not Adopted Trauma Care Systems

Although taking severely injured patients to specialized trauma centers increases survival chances, 10 of the 18 areas GAO visited do not have fully developed trauma systems to assure that critically injured patients are taken to these centers. The designation of a hospital as a trauma center may threaten other hospitals in the area with potential loss of patients and prestige. Due partly to these concerns within the medical community, states have done little to encourage the designation of trauma centers.

The new prospective payment system being implemented in Medicare and being adopted by some states in Medicaid to contain health care costs might discourage hospitals from specializing in costly trauma care. This system reimburses hospitals based on the average costs of treating pa-

tients. Trauma centers treating a disproportionate number of severely injured patients may not receive sufficient reimbursement under this averaging method to fully cover the higher costs associated with severe cases.

#### *Matters for Congressional Consideration*

Although state and local governments are in the best position to foster needed improvements, the Congress could consider actions in two areas to assist state and local efforts:

A federal loan program financing initial local 911 start-up costs could promote broader 911 coverage, particularly in rural areas, if the Congress decides that promotion of 911 is a desirable national goal. The Congress could explore modifying an existing loan program for rural telephone systems, administered by the Rural Electrification Administration in the Department of Agriculture, to permit existing loan funds to be used by local governments for 911 implementation.

The current prohibition on equipment purchases in the Preventive Health and Health Services block grant could be modified to permit local areas to replace outmoded communications equipment using block grant funds.

#### *Recommendations*

To avert a potentially negative federal effect on the development of specialized trauma care, GAO recommends that the Department of Health and Human Services determine whether federal Medicare and state Medicaid reimbursement rates have an adverse financial impact on trauma centers. The results of this analysis should be considered along with other factors in assessing the need for a change in trauma-related payment rates.

#### *Agency Comments*

The views of directly responsible officials were sought during GAO's work and have been incorporated in the report where appropriate. GAO did not request official agency comments on a draft of this report.

Mr. KENNEDY. Mr. President, I am very pleased to be joining as an original cosponsor with my good friend and colleague from California [Mr. CRANSTON] in introducing S. 10, the proposed "Emergency Medical Services and Trauma Care Improvement Act of 1987".

Mr. President, I applaud the efforts of the Senator from California [Mr. CRANSTON] who is once again demonstrating his long-standing commitment and leadership to bringing about improvements in health care for individuals with dire medical emergencies. I share his commitment to this end and fully support the purposes of this legislation to improve the quality and availability of emergency medical services and trauma care.

This bill grew out of a September 30, 1986, General Accounting Office report, jointly requested 2 years ago by the two of us, in which the current status of emergency medical services systems throughout the country were reviewed and analyzed. The results and recommendations of the report serve as the basis for this legislation.

Both Senator CRANSTON and I were deeply involved in the original estab-

lishment of the EMS Program, and I regard it as one of key parts of our national health care system.

Mr. President, I do have some concerns about one provision, section 5 in the bill, which would establish a program of trauma care grants to the States in order to help the States and local regions develop integrated trauma systems and to enable States to provide financial assistance to designated trauma centers to defray a portion of their uncompensated care costs resulting from high-cost trauma patients.

While I support the goals of the trauma grant program, I would like to study this particular proposal further. I will be working closely with the distinguished Senator from California [Mr. CRANSTON] in the months ahead to further develop and refine this legislation with a view toward its prompt enactment.

Mr. GORE. Mr. President, I am especially pleased to join my colleagues from California and Massachusetts in introducing this much needed legislation.

Trauma policy is not a new issue in the Congress and for good reason. Trauma is the most important, most tragic, and most expensive health problem in the United States today; 550,000 Americans die each year from cardiac arrest. There are 70 million persons injured each year seriously enough to require medical attention in an emergency facility. Between 400,000 and 500,000 of these individuals are permanently disabled. Another 140,000 lose their life. Injuries are the leading cause of death up to the age of 44. They cause more lost working years than all forms of cancer and heart disease combined, with an estimated yearly economic cost to our Nation at around \$100 billion.

Yet if you sit down and talk with the trauma experts, as I have done in Tennessee, they will tell you that the greatest tragedy is that doctors aren't losing patients, the system is killing them. We have the ability to save at least 100,000 to 140,000 of these lives and prevent tens of thousands of permanently disabling injuries through appropriate and prompt treatment, but too often appropriate care is received too late.

The bill we are introducing today, the Emergency Medical Services and Trauma Care Improvement Act of 1987, will help provide all U.S. residents access to the appropriate care and as a result will save lives, prevent unnecessary suffering, and save money.

Dismal facts contained in the 1966 National Academy of Sciences' report, "Accidental Death and Disability—The Neglected Disease of Modern Society," and the understanding that through responsible Federal leadership Government could make an im-

portant difference, led Congress in 1966 to add emergency medical care among the provisions of the Highway Safety Act. In 1973, Congress enacted the Emergency Medical Services Systems Act to further improve services across the country.

A trauma care system is an organized approach to caring for the acutely injured patient. It is composed of four primary components: Access to care, prehospital care, hospital care, and rehabilitation. The 1966 and 1973 laws focused on the first two components: Access to care and prehospital care. These laws accomplished almost all of what they set out to do. The emergency medical services (EMS) we are familiar with: The new ambulances, the emergency medical technicians and paramedics, are all a result of the 1966 and 1973 laws.

While these were critical first steps, the next steps are equally critical, especially hospital care. It doesn't do much good to have a sophisticated system that insures prompt transfer to the hospital only to have the patient die because when they got there the appropriate medical personnel were unavailable.

In 1976, a task force of the American College of Surgeons published a landmark document titled "Optimal Hospital Resources for Care of the Seriously Injured." In it standards for trauma centers were first established. In 1979, Congress began work on establishing a process to designate trauma centers, but before this program was properly implemented disaster struck the trauma system. In 1981, the Emergency Medical Services System Act was repealed and the program was folded along with six other health programs into a Preventive Health block grant. While this provided States with a great deal of flexibility in implementing programs, progress on designating trauma centers all but stopped. It has left us with an efficient system of prehospital care, but in a muddle about the appropriate locations to which patients should be transported. The tragic result, patients dying not because of their injuries, but because the system has failed them.

The legislation we are introducing today is specifically designed to get us back on track designating trauma centers. It establishes tough standards endorsed by the medical experts that will help States resist potentially disastrous pressure coming from local hospitals to liberalize certifying standards. Some local hospitals may not like it. In some cases, they are afraid not being designated will hurt their ability to compete for patients in other services. While most hospitals are excellent, few can realistically make the commitment it takes to be a successful trauma center.

It is indeed a tragedy if recent changes in hospital reimbursement have prompted such fears, but it has made it all the more important that legislation addressing trauma center designation be enacted as soon as possible. The bill we are introducing today does just that.

By Mr. CRANSTON (for himself, Mr. SIMPSON, Mr. MATSUNAGA, Mr. DeCONCINI, Mr. MITCHELL, Mr. ROCKEFELLER, Mr. STAFFORD, Mr. KENNEDY, Mr. COHEN, Mr. CHILES, Mr. DURENBERGER, Mr. GORE, Mr. PRESSLER, Mr. SASSER, Mr. HEINZ, Mr. KERRY, Mr. WILSON, Mr. SIMON, Mr. LEAHY, Mr. LEVIN, Mr. SARBANES, Mr. RIEGLE, Mr. MELCHER, Mr. JOHNSTON, Mr. BURDICK, and Mr. BINGAMAN):

S. 11. A bill to amend title 38, United States Code, to establish certain procedures for the adjudication of claims for benefits under laws administered by the Veterans' Administration; to apply the provisions of section 553 of title 5, United States Code, to rule-making procedures of the Veterans' Administration; to provide for judicial review of certain final decisions of the Administrator of Veterans' Affairs; to provide for the payment of reasonable fees to attorneys for rendering legal representation to individuals claiming benefits under laws administered by the Veterans' Administration; and for other purposes; to the Committee on Veterans' Affairs.

#### VETERANS' ADMINISTRATION ADJUDICATION PROCEDURE AND JUDICIAL REVIEW ACT

Mr. CRANSTON. Mr. President, I am today introducing S. 11, the proposed Veterans' Administration Adjudication Procedure and Judicial Review Act. I am delighted to note that I am joined by a strong bipartisan array of 25 original cosponsors, including my good friends and colleagues on the Veterans' Affairs Committee, our former chairman and my fellow whip, Senator SIMPSON, and Senators MATSUNAGA, DeCONCINI, MITCHELL, ROCKEFELLER, and STAFFORD. Five of the cosponsors are members of the Judiciary Committee, including Senators SIMPSON and DeCONCINI, who both serve on the Veterans' Affairs and Judiciary Committees.

Mr. President, this is the first Congress since the 94th Congress that my friend, the former Senator from Colorado, Gary Hart, is not taking the lead in introducing legislation to provide for judicial review of VA decisions. Senator Hart's deep and abiding interest in and strong leadership regarding the issue of judicial review of VA decisions was a great inspiration and we will miss his presence. It has been my privilege to join with Senator Hart as the principal cosponsor of this legislation over 3 years, and I am honored to

be to be able to pick up the torch upon his retirement from the Senate.

#### PURPOSE OF THE BILL

The basic purpose of this measure is to ensure that veterans and other claimants before the VA receive all benefits to which they are entitled under law by providing them with the opportunity for judicial review of final decisions of the Administrator of Veterans' Affairs, or those acting for him, in denying claims for benefits or in establishing VA policies, regulations, or other guidance; by codifying certain internal procedures of the VA relating to the adjudication of benefit claims; by requiring that VA rulemaking processes comply with provisions of the Administrative Procedure Act relating to notice and comment; and by allowing claimants to pay attorneys reasonable fees for representation before the VA after a decision by the Board of Veterans' Appeals and for representation in judicial proceedings. My July 30, 1985, floor statement upon Senate passage of S. 367—the substantially identical measure from the last Congress—discusses the bill's provisions and purposes in detail, beginning at page 21398 of the daily edition of the CONGRESSIONAL RECORD. S. 367 was reported by the Veterans' Affairs Committee on July 8, 1985, and passed by the Senate on July 30, 1985. That floor statement accurately describes my intentions with respect to the bill we are introducing today.

#### BACKGROUND

Mr. President, legislation to provide for judicial review of decisions of the Veterans' Administration has been through an extended period of development in the Senate—beginning in the 94th Congress when the former Senator from Colorado [Mr. HART] first introduced such legislation. During this period, the Committee on Veterans' Affairs has held nine hearings on judicial review legislation, and the Judiciary Committee has held one such hearing. The Veterans' Affairs Committee has four times voted to report such legislation, and the Judiciary Committee twice, after referral of the reported bill for a period of time, has taken no action to amend the reported measures before being discharged from further consideration. The measures reported by the Veterans' Affairs Committees—S. 330 in the 96th Congress, S. 349 in the 97th Congress, S. 636 in the 98th Congress, and S. 367 in the last Congress—were passed by the Senate without dissent.

Unfortunately, until the last Congress, the House Veterans' Affairs Committee, to which the measures were referred in the other body, took no action on any of them. In the second session of the last Congress, the House committee held a number of hearings and conducted a markup on a companion measure, H.R. 585, introduced by my good friend from Cali-

fornia, DON EDWARDS. Regrettably, despite the fact that H.R. 585 had 233 cosponsors, the House committee voted on July 16, 1986, to table the bill by a vote of 20 to 12.

Despite that action, I continue to hope that the Committee on Veterans' Affairs in the other body will work with us to develop a consensual approach on this important issue. I also look forward to working with the many veterans service organizations, other interested organizations and individuals, and colleagues on the two Veterans' Affairs Committees in the developing of such an approach.

#### NEED FOR THE BILL

Mr. President, there are a number of strong reasons supporting the enactment of judicial review legislation, and I would like to highlight some of them briefly at this time.

#### FAIRNESS FOR INDIVIDUAL CLAIMANTS

One of the principal reasons judicial review is needed is to help ensure fairness to individual claimants before the VA. In saying this, I do not mean to indicate a belief that the Board of Veterans' Appeals—the final adjudicative body within the VA—in any way intends to deny to veterans such fairness or in any way routinely denies such fairness. To the contrary, I believe that the members of the Board are fairminded, conscientious individuals who make a concerted effort to carry out their responsibilities in an evenhanded fashion and that, by and large, most claimants before the VA are treated fairly.

However, I do know that the present system, which results in final, unappealable decisions by the Board, together with the statutory limit of \$10 on the amount a claimant before the VA can pay an attorney for representation, leaves many disappointed claimants believing that they have been denied a full and fair opportunity to pursue their claims and that, as veterans, they are denied important rights that they and other citizens have in dealing with virtually all other Federal agencies.

In addition to this perception of a denial of justice, Mr. President, is the real possibility that actual injustices do occur under the current system, a problem that opportunity for judicial review would substantially ameliorate. Although I know that the VA claims—adjudication system is set up to be supportive of the veteran—as it should be—the VA is a very large and complex Federal agency, and unfair results do occur. I have long been concerned that the tremendous volume of claims handled by the Department of Veterans' Benefits and the Board of Veterans' Appeals provides a significant opportunity for some injustices to occur. On the basis of current trends, the number of these VA claims will continue to increase, thereby increas-

ing the possibility of unintended unfair results.

#### REVIEW OF QUESTIONABLE AGENCY POLICIES

Mr. President, another principal reason for judicial review legislation is the need to establish a basis for the review of questionable agency actions restricting, withholding, or withdrawing VA benefits—actions that increase in frequency as there is greater pressure within the executive branch for the VA to act to achieve cost savings in current programs. There have been numerous examples of such actions in recent years—such as efforts by the VA to collect for the cost of health care provided to veterans who happen to be VA employees; attempts by the Agency, at the direction of the Office of Management and Budget, to restrict beneficiary travel reimbursement for eligible veterans; the VA's drawing overly restrictive regulations to implement the targeted GI bill delimiting date extension enacted in Public Law 97-72 as well as the radiation exposure health care eligibility enacted in that same public law; allegations that some VA stations are applying very stringent standards in cases in which Vietnam veterans are seeking to be granted service connection for posttraumatic stress disorder; the review of compensation awards to veterans in Puerto Rico; and what many believe is an overly aggressive debt-collection effort.

In addition to these examples of agency actions restricting benefits, there is also the potential for unduly restrictive legal opinions from the office of the general counsel which may operate to deny veterans' access to benefits to which they would otherwise be entitled. One example with which I was involved concerned a woman veteran who had a service-connected disability which prevented her from becoming pregnant. In the course of assisting her, I became aware of a general counsel opinion which held that the VA does not have legal authorization under current law to provide services to help overcome such a disability. Although I do not believe that the VA's restrictive interpretation of its existing authority is correct—and did my utmost to bring about a change in that interpretation—I was not successful. In fact, in other legislation I am introducing today—section 2 of S. 6—I am proposing to provide the Agency with express authority in order to remove any doubts that may exist on this issue.

In each of these instances and in other similar cases, the lack of access to court review has serious implications. Although the Committees on Veterans' Affairs in both Houses do their utmost to oversee the activities of the VA, the limited resources of the committees do not allow for thorough review of and congressional action to resolve satisfactorily all of the legal

and policy issues arising in such a large and complex agency. In addition, I do not believe that aggrieved veterans should have to be dependent for relief on congressional committee processes which, for all their virtues, cannot be fairly said to be designed to achieve or to be capable of achieving systematically an evenhanded dispensation of justice. Also, although the results of committee oversight are often salutary in terms of bringing about—either through legislation or administrative action under pressure—reversals of agency action, there is usually a long delay in having the correction made. In contrast, injunctive relief for irreparable injury can be a very speedy remedy.

If the veterans directly affected by various VA actions have access to court to challenge those actions, they would be guaranteed the opportunity to be heard by an entity outside of the VA and, in certain cases, to obtain urgent and timely relief. In particular, the VA's handling of claims based on exposure to agent orange or to radiation from the detonation of a nuclear weapon would benefit from outside review by allowing those who believe they have been harmed to have their claims tested in an independent forum.

Mr. President, in making these points, I do not want to be understood as suggesting that the VA is wrong on all or any of these issues. Rather, I am suggesting that outside review by the independent branch of Government established in our constitutional framework with the special responsibility of determining whether governmental action is legal and whether it is fundamentally fair would benefit all parties involved. The VA would have its processes subjected to appropriate scrutiny and, to the extent the agency's actions were upheld, would be vindicated. Likewise, to the extent the agency's actions were held unlawful or fundamentally unfair, steps could be taken to improve the process so as to ensure that the agency is fulfilling its mission to serve veterans in the best possible fashion. I am concerned that agency action that does not have the benefit of outside scrutiny may fail to address fully the legitimate needs of those the agency exists to serve, and I believe that providing for judicial review would basically correct this shortcoming.

#### REVIEW BY AN INDEPENDENT TRIBUNAL

Mr. President, another important reason in support of judicial review is related to the status of the Board of Veterans' Appeals. Fundamental principles of due process, as guaranteed by the Constitution, require an independent review of administrative action affecting individuals' liberty or property interests. Although there are earlier court decisions suggesting that veterans' benefits are gratuities and not worthy of general due process protec-

tions, such a viewpoint is no longer valid, if it ever was, either philosophically—veterans' benefits are earned by service in the military—or legally. A number of decisions rendered by the Supreme Court in the last two decades—for example, *Goldberg v. Kelly*, 397 U.S. 254 (1970); *Board of Regents v. Roth*, 408 U.S. 564 (1972); *Goss v. Lopez*, 419 U.S. 565 (1975); and *Paul v. Davis*, 424 U.S. 693 (1976)—have held that various statutory governmental benefits are legal entitlements and, thus, protected property interests of the beneficiary.

Mr. President, I do not believe that review by the Board provides the required independent action required by due process. Although the Board is not directly under the control of the Administrator of Veterans' Affairs, it is far too bound up with the agency, in many informal ways, to be truly independent and more importantly its independence is restricted by law. Under section 4004(c) of title 38, the Board is "bound in its decisions by the regulations of the Veterans' Administration, instructions of the Administrator, and the precedent opinions of the chief law officer." I certainly do not mean to suggest any lack of integrity on the part of either the Administrator or VA General Counsel, but the fact is that the potential for them—and future incumbents in those offices—to restrict the decisionmaking authority of the Board significantly restricts that body's independence.

#### CLARIFY THE STATE OF THE LAW

A final purpose of judicial review legislation is to help clarify the state of the law on the scope of the current law provision that bars judicial review, section 211(a) of title 38. At present, there are some important differences between the various U.S. Court of Appeals regarding the sweep of this prohibition, and I am concerned that the U.S. Government contributes to this confusion by raising the 211(a) bar in cases in which it is not appropriate. Thus, the decision as to which Federal circuit a veteran brings an action may well determine the outcome of the case—a result that should be avoided.

Some courts have held, correctly I believe, that the 211(a) bar applies only to claims for benefits by individual veterans, while other courts have let the 211(a) bar preclude suits involving other than individual benefit decisions. A brief description of this split among the Federal courts of appeals can be found in the decision of the Court of Appeals for the D.C. Circuit in the case of *McKelvey v. Turnage*, 792 F.2d 194, 198 n.1 (D.C. Cir. (1986)).

Despite the agency's acknowledgment, in testimony before our committee in 1983, that some courts of appeals clearly have allowed veterans to bring actions challenging VA regula-

tions on other than constitutional grounds, the U.S. Government, on behalf of the VA, continues to raise the section 211(a) statutory bar to judicial review in VA cases that do not involve individual claims for benefits.

#### SCOPE OF REVIEW

The last matter that I want to touch on involves the appropriate scope of review that a court would apply in the review of a VA fact decision. This issue has been a matter of long and involved discussion in our committee over the years, and I will not attempt to go over all that background. Rather, the one point I want to stress on this issue today is my belief that it is vital that whatever scope of review is chosen must provide some basis for court review of questions of fact. The bills passed by the Senate in 1981, 1983, and 1985 each included a very narrow scope of review of factual issues. The bill we are introducing today contains that same provision.

Our intent in providing only a very narrow basis on which a court could review a decision by the Board of Veterans' Appeals on a question of fact is to reaffirm the Board's role as the expert final arbiter of such questions. However, by refusing to limit the review to questions of law only and thus preclude all review of questions of fact—an approach that some have advocated—this legislation affords an opportunity to correct truly egregious decisions on fact questions. Although I believe that such decisions are rare, I do not believe that total preclusion of review of facts would be appropriate or productive. Indeed—and I believe this is a vitally important point—the very existence of the possibility of review even with such a very narrow window of reviewability would, I am confident, have the effect of preventing almost all such outrageous decisions from ever being made in the first instance.

#### FUNDAMENTAL FAIRNESS FOR VETERANS

Mr. President, I want to answer a question I am sometimes asked in view of our lack of success to date in getting judicial review legislation favorably considered in the other body. The question is usually posed along the following lines: "What is so wrong about the present system for adjudicating VA claims that you persist in pursuing this legislation?" Although I am fully able to respond to the issue posed in this way—as I did briefly earlier in my statement—I do not believe finding fault with the current system is a necessary step in making the case for judicial review. Rather, I believe the appropriate first question is whether there is any continuing reason—putting to one side the question of whether there ever was a valid reason—for denying veterans the same right of access to court review of VA benefits decisions that is available in the case

of virtually every other Federal benefit.

Although there are some restrictions in current law on access to judicial review of some Federal agency actions, only one area in which a restriction exists, Federal employee workers' compensation benefits, is at all analogous to VA benefits and is an infinitely smaller benefit program than the combination of the myriad VA benefits programs codified with title 38 of United States Code. Moreover, those benefits programs which VA benefits programs most closely, denials of benefits under the Social Security Act—such as old age and survivors insurance, Social Security disability insurance, supplemental security income, and Medicare—are all able to be challenged in court.

When the issue is posed this way—why should veterans be denied rights available to others in their dealings with the Federal Government in directly analogous areas?—I have never heard a satisfactory answer justifying maintaining the current-law preclusion. I realize that concerns have been expressed that judicial review could have an undue impact on the agency's current claims adjudication processes. I have also heard concerns that providing for judicial review would make the VA claims process more adversarial, would create unnecessary delay, and would cost veterans money in the form of attorneys' fees. Although I fully recognize the genuineness of these concerns, I do not believe they are well founded. Briefly, here is why.

#### RESPONSES TO ARGUMENTS ABOUT JUDICIAL REVIEW

As to the possibility that providing for judicial review could have an untoward effect on the current VA system, the legislation that has been developed in the Senate over the years contains numerous provisions that have been designed expressly to avoid that result. These provisions would ensure that the VA's current, desirable adjudication practices and procedures would be protected by providing a statutory basis for them. In this way, not only would current processes be protected in the event of judicial review, but they would actually be strengthened by being set out in law rather than being based on regulations or, in some cases, on no more than informal past practice.

With reference to the concerns about judicial review causing undue delay or about it somehow making the veteran and the agency adversaries, it is important to remember that under this legislation, judicial review would be available only after a veteran's claim has been turned down by the regional office, and, on appeal, by the Board of Veterans' Appeals. At that point, it is difficult to see how providing for judicial review could create any delay. The VA proceedings would have

run their normal course. A process no longer going anywhere can't be delayed. Moreover, once the claim is finally denied, the veteran and the VA are clearly in dispute. A veteran whose claim has been finally denied by the VA's highest appeal tribunal would not become an adversary of the VA by virtue of having court review available. Courts don't create adversarial situations; they resolve them.

Regarding attorneys' fees, to me it's almost incomprehensible that the current law limit of \$10 on the amount that an attorney can be paid has survived to this time. Whatever behavior characterized the legal profession at the time the original limitation was enacted following the Civil War, it is no longer credible to insist that attorneys would prey on innocent veterans. I also am unable to accept the view that veterans, as a class, are so unable to protect themselves that there needs to be a barrier erected in law between them and attorneys. Let me be clear—I do not believe that most veterans with claims before the VA would be well advised to seek the assistance of an attorney. Certainly, were I asked, my first advice to a veteran with such a claim would be to contact a veterans' service officer. That is what I tell veterans today and what I would tell them were judicial review available. But the existence of the superb resource of representation before the VA by veterans' service officers in claims adjudication is not a reason for totally precluding a veteran from seeking to obtain the services of an attorney at the end of the internal VA process if the veteran wishes to do so.

On this point, I stress again that this legislation would not lift the \$10 limit in a particular case until after the veteran has received an initial BVA decision. Thus, this legislation contemplates that the current practice of veterans being assisted by skilled veterans' service officers throughout the VA and BVA administrative process would continue to operate exactly as it does now.

It is important, however, if judicial review is authorized, that, as the measure would allow, a veteran, once he or she has received an initial BVA decision and has sought an attorney's assistance to appeal that decision, would be able to seek further BVA review before going to court. I realize that some have advocated limiting an attorney's involvement exclusively to a court's review of a case. Because this measure allows for court review only of the record made by the agency—and, in fact, expressly precludes de novo review of the claim—limiting an attorney's involvement to court proceedings would, in many instances, preclude a veteran from receiving any assistance from an attorney because the attorney would be unable to im-

prove the agency record. Alternatively, the attorney could seek a remand from the court, a procedure that would result in an unnecessary use of court time and which would lead to further, unnecessary delay in the final resolution of the veteran's claim. Permitting an attorney representing a veteran to seek to reopen the BVA decision would avoid these problems. It would also have the further benefit of promoting the possibility of a claim being resolved finally before the BVA without resort to court action—a result which would be far more advantageous for the veteran in terms of speedy justice and the cost of the attorney's time.

I want to address one final argument that is sometimes raised as a reason for continuing the bar to judicial review—the possible impact of a new class of claimants on the Federal judiciary. Without detailing the various contentions on this point—and there have been widely differing views on this issue expressed before our committee over the years—I do not understand why veterans and others with claims before the VA should continue to be discriminated against and denied important rights because treating them fairly might enlarge the responsibilities of the court system. If the Federal court system is overburdened, the Congress should address that problem on an equitable basis by expanding available resources or limiting access to court on some basis that applies to all citizens. It is blatantly unfair and arbitrary to deal with perceived problems in the courts by singling out veterans for exclusion with respect to benefits earned by service in the military.

In any event, in my view, after a shakedown period in which the narrow scope-of-fact review had resulted in summary judgments against plaintiffs with poor cases and after the BVA had become accustomed to being subject to outside review and had adjusted its decisionmaking and decision-writing activities accordingly, I do not believe the amount of litigation would be a substantial burden on the Federal judiciary.

In summary, the reason I continue to propose this legislation is to provide access to justice for veterans as a matter of fundamental fairness.

#### COST ESTIMATE

Mr. President, when S. 367 was before the Senate in the last Congress, the Congressional Budget Office estimated that its first-year costs would be \$2 million and the cost for the first 5 years would be \$16 million. Although that estimate has not yet been updated, I see no reason for any change except for the effects of inflation. Thus, the final cost of this measure would be, I believe, a very modest cost to pay to ensure that veterans, their survivors, and other claimants before the VA are given a full and fair oppor-

tunity to have their claims for statutory benefits reviewed and evaluated as well as to challenge VA policies, regulations, guidelines, and legal interpretations.

#### CONCLUSION

Before concluding, Mr. President, I want to speak for a moment about my plans, as the newly elected chairman of the Veterans' Affairs Committee, with respect to S. 11. In the late seventies as the chairman of this committee and since 1981 as its ranking minority member, I have always believed we should press forward with the basic judicial review legislation and have acted accordingly. Under the able chairmanships of my friends from Wyoming [Mr. SIMPSON] and Alaska [Mr. MURKOWSKI], I strongly advocated prompt action on judicial review legislation.

Now, however, certain circumstances have changed. As I noted earlier, last year, for the first time the House committee held a markup on judicial review legislation and tabled the bill. In the course of the dialog leading up to that markup last July, many individuals' and organizations' positions became polarized. In contrast, judicial review has not heretofore been a controversial issue in the Senate. Actions within our committee and on the floor have most always been unanimous. It is my goal to continue this bipartisan, consensual approach.

But, given the polarization that has now occurred on this issue, I do not think that swift action can be taken to achieve such an approach. Rather, we need a cooling down and calming down period and a fairly extended dialog among all the principals concerned to try to find common ground. Therefore, I will shortly initiate discussions, along with the ranking minority member of our committee, Mr. MURKOWSKI, our most recent chairman with the veterans' service organizations and others toward this end. I would welcome the involvement with us in this effort of the chairman, Mr. MONTGOMERY, and newly designated ranking minority member of the House committee, Mr. SOLOMON.

Mr. President, I look forward to working with the cosponsors of this measure, and all of my colleagues on this important legislation in the months ahead.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

#### S. 11

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) this Act may be cited as the "Veterans' Administration Adjudication Procedure and Judicial Review Act".*

(b) Except as otherwise expressly provided, whenever in this Act an amendment or

repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of title 38, United States Code.

#### TITLE I—ADJUDICATION PROCEDURES

SEC. 101. (a) Chapter 51 is amended by adding at the end of subchapter I the following new section:

##### "§ 3007. Burden of proof; benefit of the doubt

"(a) Except when otherwise provided by the Administrator in accordance with the provisions of this title, a claimant for benefits under laws administered by the Veterans' Administration shall have the burden of submitting evidence sufficient to justify a belief by a fair and impartial individual that the claim is well grounded. The Administrator shall assist a claimant in developing the facts pertinent to his or her claim.

"(b) When, after consideration of all evidence and material of record in any proceeding before the Veterans' Administration involving a claim for benefits under laws administered by the Veterans' Administration, there is an approximate balance of positive and negative evidence regarding the merits of an issue material to the determination of such claim, the benefit of the doubt in resolving each such issue will be given to the claimant, but nothing in this section shall be construed as shifting from a claimant to the Administrator the burden described in subsection (a) of this section."

(b)(1) The table of chapters at the beginning of title 38, United States Code, and the table of chapters at the beginning of part IV of such title are each amended in the item relating to chapter 51 by striking out "Applications" and inserting in lieu thereof "Claims".

(2) The heading of such chapter is amended to read as follows:

##### "CHAPTER 51—CLAIMS, EFFECTIVE DATES, AND PAYMENTS"

(c)(1) The table of sections at the beginning of such chapter is amended in the item relating to subchapter I by striking out "APPLICATIONS" and inserting in lieu thereof "CLAIMS".

(2) The heading of subchapter I of such chapter is amended to read as follows:

##### "Subchapter I—Claims"

(d) The table of sections at the beginning of such chapter is amended by adding after the item relating to section 3006 the following new item:

"3007. Burden of proof; benefit of the doubt."

SEC. 102. Section 3311 is amended by adding at the end the following new sentences: "Subpenas authorized under this section shall be served by any individual authorized by the Administrator by (1) delivering a copy thereof to the individual named therein, or (2) mailing a copy thereof by registered or certified mail addressed to such individual at such individual's last known dwelling place or principal place of business. A verified return by the individual so serving the subpoena setting forth the manner of service, or, in the case of service by registered or certified mail, the return post office receipt therefor signed by the individual so served shall be proof of service."

SEC. 103. Section 4001 is amended—

(1) in the second sentence of subsection (a), by inserting before the period at the end of such sentence "in a timely manner"; and

(2) by adding at the end thereof the following new subsection:

"(d) The Chairman of the Board shall submit a report to the appropriate committees of the Congress, not later than December 31, 1988, and annually thereafter, on the experience of the Board during the prior fiscal year together with projections for the fiscal year in which the report is submitted and the subsequent fiscal year. Such report shall contain, as a minimum, information specifying the number of cases appealed to the Board during the prior fiscal year, the number of cases pending before the Board at the beginning and end of such fiscal year, the number of such cases which were filed during each of the 24 months preceding the prior fiscal year and the then current fiscal year, respectively, the average length of time a case was before the Board between the time of the filing of an appeal and the disposition during the prior fiscal year, and the number of members of, and the professional, administrative, clerical, stenographic, and other personnel employed by, the Board at the end of the prior fiscal year. The projections for the current fiscal year and subsequent fiscal year shall include, for each such year, estimates of the number of cases to be appealed to the Board and an evaluation of the Board's ability, based on existing and projected personnel levels, to ensure timely disposition of such appeals as provided for by subsection (a) of this section."

Sec. 104. Section 4003 is amended—

(1) in subsection (a), by inserting a comma and "after notice of such additional information is furnished to the claimant and the claimant is provided an opportunity to be heard in connection with such information," after "concerned"; and

(2) in subsection (b)—

(A) by striking out "When" and inserting in lieu thereof "(1) Except as provided in paragraph (2), when";

(B) by inserting a comma and "after notice of such additional information is furnished to the claimant and the claimant is provided an opportunity to be heard in connection with such information," after "concerned"; and

(C) by adding at the end thereof the following new paragraph:

"(2) When, without the vote of a temporary member designated under section 4001(c)(1) of this title or the vote of an acting member designated under section 4002(a)(2)(A)(ii) of this title, a section would be evenly divided, such member shall not vote."

Sec. 105. Section 4004 is amended—

(1) in subsection (a)—

(A) by striking out "involving" in the first sentence and inserting in lieu thereof "for"; and

(B) by inserting before the period at the end of the second sentence "after affording the claimant an opportunity for a hearing and shall be based exclusively on evidence and material of record in the proceeding and on applicable provisions of law";

(2) by striking out subsection (b) and inserting in lieu thereof the following:

"(b)(1) Except as provided in paragraph (2) of this subsection, when a claim is disallowed by the Board, it may not thereafter be reopened and allowed and no claim based upon the same factual basis shall be considered.

"(2) Following such a disallowance, the Board (directly or through the agency of original jurisdiction, as described in section 4005(b)(1) of this title)—

"(A) when new and material evidence is secured, shall, and

"(B) for good cause shown, may authorize the reopening of a claim and a review of the Board's former decision.

"(3) A judicial decision under subchapter 11 of chapter 71 of this title, upholding, in whole or in part, the disallowance of a claim shall not diminish the Board's authority set forth in paragraph (2) of this subsection to authorize the reopening of a claim and a review of the former decision."; and

(3) by striking out subsection (d) and inserting in lieu thereof the following:

"(d) After reaching a decision in a case, the Board shall promptly mail notice of its decision to the claimant and the claimant's authorized representative, if any, at the last known address of the claimant and at the last known address of the claimant's authorized representative, if any. Each decision of the Board shall include—

"(1) a written statement of the Board's findings and conclusions, and reasons or bases therefor, on all material issues of fact and law and on matters of discretion presented on the record; and

"(2) an order granting appropriate relief or denying relief."

Sec. 106. Section 4005(d)(5) is amended by striking out "will base its decision on the entire record and"

Sec. 107. Section 4009 is amended by adding after subsection (b) the following new subsection:

"(c) Whenever there exists in the evidence of record in an appeal case a substantial disagreement between the substantiated findings or opinions of two physicians with respect to an issue material to the outcome of the case, the Board shall, upon the request of the claimant and after taking appropriate action to attempt to resolve the disagreement, arrange for an advisory medical opinion in accordance with the procedure prescribed in subsection (b) of this section. If the Board denies the request of such claimant for such an opinion, the Board shall prepare and provide to the claimant and the claimant's authorized representative, if any, a statement setting forth the basis for its determination. Actions of the Board under this subsection, including any such denial, shall be final and conclusive, and no other official or any court of the United States shall have the power or jurisdiction to review any aspect of any such decision by an action in the nature of mandamus or otherwise, the provisions of subchapter II of chapter 71 of this title to the contrary notwithstanding."

Sec. 108. (a) Chapter 71 is further amended by adding at the end thereof the following new sections:

#### "§4010. Adjudication procedures

"(a) For purposes of conducting any hearing, investigation, or other proceeding in connection with the consideration of a claim for benefits under laws administered by the Veterans' Administration, the Administrator may administer oaths and affirmations, examine witnesses, and receive evidence.

"(b) Any oral, documentary, or other evidence, even though inadmissible under the rules of evidence applicable to judicial proceedings, may be admitted in a hearing, investigation, or other proceeding in connection with the consideration of a claim for benefits under laws administered by the Veterans' Administration, but the Administrator, under regulations which the Administrator shall prescribe, may provide for the exclusion of irrelevant, immaterial, or unduly repetitious evidence.

"(c)(1) In the course of any proceeding before the Board, any party to such proceeding or such party's authorized representative shall be afforded opportunity—

"(A) to examine and, on payment of a fee prescribed pursuant to section 3302(b) of this title (not to exceed the direct cost of duplication), obtain copies of the contents of the case files and all documents and records to be used by the Veterans' Administration at such proceeding;

"(B) to present witnesses and evidence, subject only to such restrictions as may be set forth in regulations which the Administrator shall prescribe, pursuant to subsection (b) of this section, as to materiality, relevance, and undue repetition;

"(C) to make oral argument and submit written contentions, in the form of a brief or similar document, on substantive and procedural issues;

"(D) to submit rebuttal evidence;

"(E) to present medical opinions and request an independent advisory medical opinion pursuant to section 4009(c) of this title; and

"(F) to serve written interrogatories on any person, including any employee of the Veterans' Administration, which interrogatories shall be answered separately and fully in writing and under oath unless written objection thereto, in whole or in part, is filed with the Administrator by the person to whom the interrogatories are directed or such person's representative.

"(2) The fee provided for in paragraph (1)(A) of this subsection may be waived by the Administrator, pursuant to regulations which the Administrator shall prescribe, on the basis of the party's inability to pay or for other good cause shown.

"(3) In the event of any objection filed under paragraph (1)(F) of this subsection, the Administrator shall, pursuant to regulations which the Administrator shall prescribe establishing standards consistent with standards for protective orders applicable in the United States District Courts, evaluate such objection and issue an order (A) directing that, within such period as the Administrator shall specify, the interrogatory or interrogatories objected to be answered as served or answered after modification, or (B) indicating that the interrogatory or interrogatories are no longer required to be answered.

"(4) If any person upon whom interrogatories are served under paragraph (1)(F) of this subsection fails to answer or fails to provide responsive answers to any such interrogatories within 30 days after service or such additional time as the Administrator may allow, the Administrator shall, upon a statement or showing by the party who served such interrogatories of general relevance and reasonable scope of the evidence sought, issue a subpoena under section 3311 of this title (with enforcement of such subpoena to be available under section 3313 of this title) for such person's appearance and testimony on such interrogatories at a deposition on written questions, at a location within 100 miles of where such person resides, is employed, or transacts business.

"(d) In the course of any hearing, investigation, or other proceeding in connection with the consideration of a claim for benefits under laws administered by the Veterans' Administration, an employee of the Veterans' Administration may at any time disqualify himself or herself, on the basis of personal bias or other cause, from adjudicating the claim. On the filing by a party in good faith of a timely and sufficient affida-

vit averring personal bias or other cause for disqualification on the part of such an employee, the Administrator shall determine the matter as a part of the record and decision in the case.

"(e) The transcript or recording of testimony and the exhibits, together with all papers and request filed in the proceeding, and the decision of the Board (1) shall constitute the exclusive record for decision in accordance with section 4004(a) of this title, (2) shall be available for inspection by any party to such proceeding, or such party's authorized representative, at reasonable times and places, and (3) on the payment of a fee prescribed under section 3302(b) of this title (not to exceed the direct cost of duplication), shall be copied for the claimant or such claimant's authorized representative within a reasonable time. Such fee may be waived by the Administrator, pursuant to regulations which the Administrator shall prescribe, on the basis of the party's inability to pay or for other good cause shown.

"(f) Notwithstanding section 4004(a) of this title, section 554(a) of title 5, or any other provision of law, adjudication and hearing procedures prescribed in this title and in regulations prescribed by the Administrator under this title for the purpose of administering veterans' benefits shall be exclusive with respect to hearings, investigations, and other proceedings in connection with the consideration of a claim for benefits under laws administered by the Veterans' Administration.

#### "§ 4011. Notice of procedural rights

"In the case of any disallowance, in whole or in part, of a claim for benefits under laws administered by the Veterans' Administration, the Administrator shall, at each procedural stage relating to the disposition of such a claim, beginning with disallowance after an initial review or determination, and including the furnishing of a statement of the case and the making of a final determination by the Board, provide to the claimant and such claimant's authorized representative, if any, written notice of the procedural rights of the claimant. Such notice shall be on such forms as the Administrator shall prescribe by regulation and shall include, in easily understandable language, with respect to proceedings before the Veterans' Administration, (1) descriptions of all subsequent procedural stages provided for by statute, regulation, or Veterans' Administration policy, (2) descriptions of all rights of the claimant expressly provided for in or pursuant to this chapter, of the claimant's rights to a hearing, to reconsideration, to appeal, and to representation, and of any specific procedures necessary to obtain the various forms of review available for consideration of the claim, and (3) such other information as the Administrator, as a matter of discretion, determines would be useful and practical to assist the claimant in obtaining full consideration of the claim."

(b) The table of sections at the beginning of such chapter is amended by adding after the item relating to section 4009 the following new items:

"4010. Adjudication procedures.

"4011. Notice of procedural rights."

Sec. 109. (a) In order to evaluate the feasibility and desirability of alternative methods of (1) assuring the resolution of claims before the Administrator of Veterans' Affairs for benefits under laws administered by the Veterans' Administration as promptly and efficiently as feasible following the filing of a notice of disagreement pursuant

to section 4005 (as amended by section 106 of this Act) or 4005A of title 38, United States Code, and (2) affording claimants the opportunity for a hearing before or review by a disinterested authority at a location as convenient and soon as possible for each claimant, the Administrator is authorized to conduct a study, commencing not more than 1 year after the date of the enactment of this Act, for a period of 24 months, involving either or both of the alternative methods described in subsection (b) of this section for resolution of claims.

(b)(1) In not more than three geographic areas, the Administrator is authorized to provide an intermediate-level adjudication process whereby each claimant may, within the time afforded such claimant under paragraph (3) of section 4005(d) or 4005A(b) of title 38, United States Code, to file an appeal, request a de novo hearing at the agency of original jurisdiction (as described in section 4005(b)(1) of such title) before a panel of three Veterans' Administration employees, each of whose primary responsibilities include adjudicative functions but none of whom shall have previously considered the merits of the claim at issue. Following such hearing, such panel shall render a decision and prepare a new statement of the case in accordance with the requirements of paragraphs (1) and (2) of section 4005(d) of such title. Such new statement of the case shall, for all purposes relating to appeals under chapter 71 of such title, be considered to be a statement of the case as required by paragraph (1) of such section 4005(d).

(2) In not more than three other geographic areas, the Administrator is authorized to provide for an enhanced schedule of visits, on at least a quarterly basis each year, by a panel or panels of the Board of Veterans' Appeals to conduct formal recorded hearings pursuant to section 4002 of such title in such areas.

(c) Not later than 6 months after the completion of such study, the Administrator shall report to the Congress on the results thereof, including an evaluation of the cost factors associated with each alternative studied and with any appropriate further implementation thereof, the impact on the workload of each regional office involved in such study, and the impact on the annual caseload of the Board of Veterans' Appeals resulting from each alternative studied, together with any recommendations for administrative or legislative action, or both, as may be indicated by such results.

Sec. 110. Section 3010(i) is amended—

(1) by inserting "(1)" after "(i)"; and

(2) by adding at the end the following new paragraph:

"(2) Whenever any disallowed claim is reopened and thereafter allowed on the basis of new and material evidence in the form of official reports from the proper service department, the effective date of commencement of the benefits so awarded shall be the date on which an award of benefits under the disallowed claim would have been effective had the claim been allowed on the date it was disallowed."

#### TITLE II—VETERANS' ADMINISTRATION RULE MAKING

Sec. 201. (a) Subchapter II of chapter 3 is amended by adding at the end the following new section:

##### "§ 223. Rule making

"Notwithstanding the provisions of subsection (a)(2) of section 553 of title 5, the promulgation of rules and regulations by the Administrator, other than rules or regu-

lations pertaining to agency management or personnel or to public property or contracts, shall be subject to the requirements of section 553 of title 5."

(b) The table of sections at the beginning of such chapter is amended by adding after the item relating to section 222 the following new item:

"223. Rule making."

#### TITLE III—JUDICIAL REVIEW

Sec. 301. Section 211(a) is amended by striking out "sections 775, 784" and inserting in lieu thereof "sections 775 and 784 and subchapter II of chapter 71 of this title".

Sec. 302. (a) Chapter 71 is further amended—

(1) by inserting after the table of sections the following new heading:

"Subchapter I—General";

and

(2) by adding at the end thereof the following new subchapter:

##### "Subchapter II—Judicial Review

"§ 4025. Right of review; commencement of action

"(a) For the purposes of this chapter—

"(1) 'final decision of the Administrator' means—

"(A) a final determination of the Board of Veterans' Appeals pursuant to section 4004 (a) or (b) of this title; or

"(B) a dismissal of an appeal by the Board of Veterans' Appeals pursuant to section 4005 or 4008 of this title; and

"(2) 'claim for benefits' means—

"(A) an initial claim filed under section 3001 of this title;

"(B) a challenge to a decision of the Administrator reducing, suspending, or terminating benefits; or

"(C) any request by or on behalf of the claimant for reopening, reconsideration, or further consideration in a matter described in clause (A) or (B) of this paragraph.

"(b) Except as provided in subsection (f) of this section, after any final decision of the Administrator adverse to a claimant in a matter involving a claim for benefits under any law administered by the Veterans' Administration, such claimant may obtain a review of such decision in a civil action commenced within 180 days after notice of such decision is mailed to such claimant pursuant to section 4004(d) of this title. Such action shall be brought against the Administrator in the district court of the United States for the judicial district in which the plaintiff resides or the plaintiff's principal place of business is located, or in the district court of the United States for the judicial district where the principal offices of the Board of Veterans' Appeals (established under section 4001 of this title) are located.

"(c) The complaint initiating an action under subsection (a) of this section shall contain sufficient information to permit the Administrator to identify and locate the plaintiff's records in the custody or control of the Veterans' Administration.

"(d) Not later than 30 days after filing the answer to a complaint filed pursuant to subsection (a) of this section, the Administrator shall file a certified copy of the records upon which the decision complained of is based or, if the Administrator determines that the cost of filing copies of all such records is unduly expensive, the Administrator shall file a complete index of all documents, transcripts, or other materials comprising such records. After such index is filed and after considering requests from all parties, the court shall require the Administrator to file certified copies of such indexed

items as the court considers relevant to its consideration of the case.

"(e) In an action brought pursuant to subsection (b) of this section, the court shall have the power, upon the pleadings and the records specified in subsection (d) of this section, to enter judgment in accordance with section 4026 of this title or remand the cause in accordance with such section or section 4027 of this title.

"(f)(1) No action may be brought under this section unless (A) the initial claim for benefits is filed pursuant to section 3001 of this title on or before the last day of the fifth fiscal year beginning after the effective date of this section, and (B) the complaint initiating such action is filed not more than 180 days after notice of the first final decision of the Administrator rendered after the last day of such fiscal year is mailed to the claimant pursuant to section 4004(d) of this title. If the case is reopened pursuant to section 4004(b)(2)(A) of this title within 180 days after such notice is mailed, the next final decision shall, for purposes of this subsection, be considered the first final decision of the Administrator.

"(2) No action may be brought under this section with respect to matters arising under chapters 19 and 37 of this title.

#### "§ 4026. Scope of review

"(a)(1) In any action brought under section 4025 of this title, the court, to the extent necessary to its decision and when presented, shall—

"(A) decide all relevant questions of law, interpret constitutional and statutory provisions, and determine the meaning or applicability of the terms of an action of the Administrator;

"(B) compel action of the Administrator unlawfully withheld.

"(C) hold unlawful and set aside decisions, findings (other than those described in clause (D) of this paragraph), and conclusions of the Administrator found to be—

"(i) arbitrary, capricious, an abuse of discretion, or otherwise not in accordance with law;

"(ii) contrary to constitutional right, power, privilege, or immunity;

"(iii) in excess of statutory jurisdiction, authority, or limitations, or in violation of a statutory right; or

"(iv) without observance of procedure required by law; and

"(D) in the case of a finding of material fact made in reaching a decision on a claim for benefits under laws administered by the Veterans' Administration, hold unlawful and set aside such finding when it is so utterly lacking in a rational basis in the evidence that a manifest and grievous injustice would result if such finding were not set aside.

"(2) Before setting aside any finding of fact under paragraph (1)(D) of this subsection, the court shall specify the deficiencies in the record upon which the court would set aside such finding and shall remand the case one time to the Administrator for further action not inconsistent with the order of the court in remanding the case. In remanding a case under the first sentence of this paragraph, the court shall specify a reasonable period of time within which the Administrator shall complete the ordered action. If the Administrator does not complete action on the case within the specified period of time, the case shall be returned to the court for its further action.

"(b) In making the determinations under subsection (a) of this section, the whole record before the court pursuant to section

4025(d) of this title shall be subject to review, and the court shall review those parts of such record cited by a party, and due account shall be taken of the rule of prejudicial error.

"(c) In no event shall findings of fact made by the Administrator be subject to trial de novo by the court.

"(d) When a final decision of the Administrator is adverse to a party and the sole stated basis for such decision is the failure of such party to comply with any applicable regulation of the Veterans' Administration, the court shall review only questions raised as to compliance with and the validity of the regulation.

#### "§ 4027. Remands
