# SMALL ENTITY COMPLIANCE GUIDE

**Revisions to Cable Television Rate Regulations**

**FCC 25-33**
**MB Docket No. 02-144; MM Docket Nos. 92-266, 93-215; CS Docket No. 94-28**
**Released June 27, 2025**

In accordance with Section 212 of the Small Business Regulatory Enforcement Fairness Act of 1996, this Small Entity Compliance Guide (Guide) is intended to help small entities—small businesses, small organizations (non-profits), and small governmental jurisdictions—comply with the rules adopted in the above-referenced Federal Communications Commission (FCC or Commission) rulemaking dockets. This Guide is not intended to replace or supersede these rules, but to facilitate compliance with the rules. Although we have attempted to cover all parts of the rules that might be especially important to small entities, the coverage may not be exhaustive. This Guide cannot anticipate all situations in which the rules apply. Furthermore, the Commission retains the discretion to adopt case-by-case approaches, where appropriate, that may differ from this Guide. Any decision regarding a particular small entity will be based on the statute and any relevant rules.

In any civil or administrative action against a small entity for a violation of rules, the content of the Guide may be considered as evidence of the reasonableness or appropriateness of proposed fines, penalties or damages. Interested parties are free to file comments regarding this Guide in the above referenced docket and the appropriateness of its application to a particular situation. The Commission will then consider whether the recommendations or interpretations in the Guide are appropriate in that situation. The Commission may decide to revise this Guide without public notice to reflect changes in its approach to implementing a rule, or it may clarify or update the text of the Guide. Please direct comments and recommendations, or requests for further assistance, to the FCC's Consumer Center:

**TABLE OF CONTENTS**

I. OBJECTIVES OF THE PROCEEDING .....1

II. COMPLIANCE REQUIREMENTS .....1

III. RECORDKEEPING AND REPORTING REQUIREMENTS .....3

IV. IMPLEMENTATION DATE .....3

V. INTERNET LINKS .....3

## I. OBJECTIVES OF THE PROCEEDING

In the *Revisions to Cable Television Rate Regulations Report and Order* (*Order*),[1] the Commission (1) eliminated unnecessary forms and rules, (2) deregulated cable equipment not used exclusively to receive the basic service tier (BST), (3) exempted cable systems serving 15,000 or fewer subscribers that are owned by small cable companies serving 400,000 or fewer subscribers from rate regulation, (4) declined to extend rate regulation to commercial establishments, and (5) updated and streamlined rules to reflect the sunset of cable programming service tier (CPST) rate regulation and reduce compliance burdens.

## II. COMPLIANCE REQUIREMENTS

Section 623 of the Communications Act of 1934,[2] requires the Commission to ensure that rates for the basic tier of cable service are reasonable when the cable system is not subject to effective competition. Section 623 also requires the Commission to establish rate regulations for the installation and lease of equipment used to receive the BST on the basis of actual cost. For cable systems that are not subject to effective competition, Section 623 permits local franchising authorities (LFAs) to apply the Commission's rules to regulate the charges for the BST and the installation and lease of cable customer premises equipment used by subscribers to receive the BST.

### A. Small System Deregulation, 47 CFR § 76.934

In the *Order*, the Commission revises its rule to exempt from rate regulation small cable systems serving 15,000 or fewer subscribers that are owned by small cable companies serving 400,000 or fewer subscribers.[3] Once a small cable system owned by a small cable company exceeds 15,000 subscribers or is no longer owned by a small company, then its eligibility for small system relief will terminate. If an operator loses its exempt status, it must notify the LFA and will be subject to generally applicable regulations governing rates and rate increases.

### B. Equipment Regulation, 47 CFR § 76.923(a)

The *Order* excludes from regulation equipment that is used by a subscriber to receive other tiers of programming service in addition to the BST. Equipment used by a BST-only subscriber to receive a regulated BST and any additional per channel or per program services, but that is not used for any unregulated tiers of cable service, remains subject to rate regulation. Regulated entities will continue to use FCC Form 1205 to calculate regulated equipment rates.

### C. Non-Residential Service Regulation, 47 CFR § 76.922(a)

In the *Order*, the Commission clarifies that rate regulation applies only to cable service provided to residential subscribers. The rule defines residential subscribers as subscribers residing in an occupied housing unit, such as a house, an apartment, a mobile home or trailer, a group of rooms, or a single room occupied as separate living quarters.

---

[1] *Revisions to Cable Television Rate Regulations; Implementation of Sections of the Cable Television Consumer Protection and Competition Act of 1992: Rate Regulation; Adoption of Uniform Accounting System for the Provision of Regulated Cable Service*, MB Docket No. 02-144, MM Docket Nos. 92-266, 93-215, CS Docket No. 94-28, Report and Order, FCC 25-33 (June 27, 2025) (*Order*).

[2] 47 U.S.C. § 543.

[3] 47 CFR § 76.901(c)-(d) (defining "Small system" and "Small cable company").

### D. Form 1240 Updates, 47 CFR § 76.922

1. *Establishing Initial Rates*, 47 CFR § 76.922(b)

In the *Order*, the Commission revises the methodology for newly regulated cable operators to establish initial regulated BST rates. Rather than use an FCC Form 1200 to establish initial rates, a cable operator will use, as its initial regulated BST rate, the BST rate in effect 60 days prior to the date an LFA files its certification to regulate BST rates. The revisions eliminate the Form 1200 and change the starting rate entered on the Form 1240 for subsequent rate increases. The cable operator's actual unregulated rate will be used as a starting point, which presumes that (1) an operator sets its unregulated rates to sufficiently recover its costs and earn a reasonable profit, and (2) that rates in a competitive system, defined by the Act as a system subject to effective competition, are reasonable.

A regulated cable operator will identify to the LFA its BST rate that was in effect 60 days prior to the date the LFA filed its certification to regulate BST rates and file supporting documentation such as a rate card. This rate will be inserted as the Current Maximum Permitted Rate on Line A1 of the operator's initial Form 1240 when justifying a subsequent rate increase. This rate will include the entire amount charged for the BST, whether or not an operator has broken out individual components of the rate as separate line items on its subscribers' bills. It will not include promotional or discount rates nor include charges for equipment used to receive the BST. The date used for establishing the initial regulated rate and the effective date of regulation are not the same. The effective date of regulation is the date an LFA notifies a cable operator that it has been certified and adopted regulations. A cable operator's liability for refunds runs from the effective date of regulation until the operator reduces its rate in compliance with an LFA order.

2. *Channel Movement Rules*, 47 CFR § 76.922(e).

In the *Order*, the Commission simplifies the methodology to account for a reduction in BST channels. The per channel residual of a BST is the permitted charge for the BST, minus the external costs, divided by the total number of channels on the BST. This amount can be roughly analogized to the cost of providing and maintaining the network and offering the service. Rather than requiring cable operators to complete the existing complicated and time-consuming worksheets, cable operators will be required to simply record the number of channels included on the BST at the time the initial regulated rate was established (Initial Channel Count) and at each Form 1240 update. If the total number of channels on the BST falls below the Initial Channel Count, then the cable operator should perform the per channel residual calculation and remove the residual amount associated with the number of removed channels from the BST rate. Any other channel movement to or from the BST that does not cause a drop in channels below the Initial Channel Count will not require the removal of any residual or otherwise change the Initial Channel Count.

3. *Form 1240 True-Up Accrual of Interest*, 47 CFR § 76.922(c)

In the *Order*, the Commission reiterates the rule that cable operators using the Form 1240 may not accrue interest on costs not passed through to subscribers when they are first entitled to recover those costs. The Form 1240 allows an operator to calculate a maximum permitted rate using projected costs. The operator is then required to true up its rate by comparing the projected costs with actual costs once they are known. The operator is not required to pass through all of its costs to subscribers in the rate it chooses to implement but may accrue costs to pass through at a later date. The rule states that interest should not continue to accrue on these unrecovered costs. In the *Order*, the Commission supplements the Form 1240, Module H instructions as follows: when calculating interest in Module H of Form 1240, operators will not include unrecovered costs for which interest has previously been calculated.

### E. Other Rule Changes

In addition to the above changes, a number of rules were modified by the *Order*, removing references to obsolete methodologies or to account for other changes in the rules.

- 47 CFR § 76.924 was modified to remove references to CPST regulation and the Form 1220 cost of service methodology, which are obsolete.
- 47 CFR § 76.930 was modified to acknowledge the changes in 47 CFR §76.934 (deregulation of small systems owned by small cable companies) and the uniform transition rules applicable to all companies losing exempt status contained in 47 CFR §§ 76.934 and 76.990.
- 47 CFR §§ 76.933, 76.937, 76.942, and 76.945 were modified to remove references to the obsolete methodologies.
- 47 CFR § 76.935 was modified to account for the changes in 76.933 that removed references to the timelines for reviewing obsolete forms.
- 47 CFR §§ 76.938 and 76.939 were modified to remove references to obsolete forms.
- 47 CFR § 76.944 was modified to reflect section number changes in 47 CFR § 76.922.
- 47 CFR §§ 76.980 and 76.984 were modified to remove the unregulated CPST from the regulation of charges for customer service changes and geographically uniform rates, respectively.
- 47 CFR § 76.990 was modified to remove references to the unregulated CPST and to apply uniform transition rules applicable to all companies losing exempt status.

## III. RECORDKEEPING AND REPORTING REQUIREMENTS

The Commission's action in the *Order* contains modified information collection and reporting requirements. The details and specifics of the reporting and recordkeeping requirements adopted in the *Order* are discussed in Section II of this guide under the Compliance Requirements.

Generally, by exempting small cable systems owned by small cable operators from regulation, all paperwork associated with rate regulation is eliminated for this class of small entities for so long as they meet the definition of a small system owned by a small cable operator. Additional rule modifications reduced the information required to complete the remaining forms (FCC Forms 1240 and 1205) that are still required if an entity becomes regulated.

## IV. IMPLEMENTATION DATES

The amendments to the rules contained in the *Order* became effective August 13, 2025 except that the amendments to section 76.923 of the Commission's rules which require approval by the Office of Management and Budget (OMB) under the Paperwork Reduction Act. This rule shall become effective after the Commission publishes a notice in the Federal Register announcing OMB approval and the relevant effective date.

## V. INTERNET LINKS

News Media Information 202-418-0500
Internet: www.fcc.gov

**DA 25-866**
**Released: September 18, 2025**

**DOMESTIC SECTION 214 APPLICATION FILED FOR THE ACQUISITION OF CERTAIN ASSETS OF ARISTOTLE UNIFIED COMMUNICATIONS INC BY UPLINK LLC**

**NON-STREAMLINED PLEADING CYCLE ESTABLISHED**

**WC Docket No. 25-239**

**Comments Due: October 2, 2025**
**Reply Comments Due: October 9, 2025**

By this Public Notice, the Wireline Competition Bureau seeks comment from interested parties on an application filed by Aristotle Unified Communications Inc (Aristotle) and Uplink LLC (Uplink, together with Aristotle, Applicants), pursuant to section 214(a) of the Communications Act of 1934, as amended, and section 63.04 of the Commission's rules,[1] requesting Commission approval for the acquisition of Aristotle's Rural Digital Opportunity Fund (RDOF) support, and related buildout and service obligations, for a single census block group (CBG No. 28027950), in Study Area Code (SAC) 289064, in Coahoma County, Mississippi by Uplink.[2]

Aristotle, an Arkansas corporation, provides communications services to 1,800 residential and business subscribers in rural communities in Arkansas.[3] Applicants state that Aristotle is designated as an Eligible Telecommunications Carrier (ETC) for the relevant Assigned Census Blocks in Mississippi.[4] Applicants state that the Commission authorized Aristotle to receive $27,380,296.90 in RDOF support, including $4,790,118.00 in RDOF support to serve 1,839 locations in the Assigned Census Blocks.[5] Applicants state that Aristotle has deployed its 1 Gbps/500 Mbps fiber network to 1,038 of the 1,839

[1] *See* 47 U.S.C. § 214(a); 47 CFR § 63.04.

[2] Restated Domestic Section 214 Application for the Acquisition of Certain Assets of Aristotle Unified Communications Inc by Uplink LLC, WC Docket No. 25-239 (filed July 30, 2025) (Application). The Application replaces a prior domestic section 214 application filed by the Applicants on July 9, 2025. *See* FCC, Electronic Comment Filing System at https://www.fcc.gov/ecfs/search/search-filings/results?q=(proceedings.name:(%2225-239%22)) (last visited on Sept. 18, 2025). On September 15, 2025, Uplink filed, under a request for confidential treatment, a supplement providing maps, financial information on Uplink, and details of Uplink's network deployment plans for the Assigned Census Blocks. Letter from John Kuykendall, Regulatory Advisor to Uplink LLC, to Marlene H. Dortch, Secretary, FCC, WC Docket No. 25-239 (filed Sept. 15, 2025) (Supplement). Any action on the Application is without prejudice to Commission action on other related, pending applications.

[3] Application at 3.

[4] *Id.*

[5] *Id.* at 4. Applicants state that Aristotle is also authorized to receive RDOF support in Arkansas, Illinois, and other areas of Mississippi that is not being assigned as part of this proposed transaction. *Id.* at 4, n.6.

locations in the Assigned Census Blocks.[6] Applicants state that Aristotle does not currently have any customers in the Assigned Census Blocks.[7]

Uplink, a Mississippi limited liability company, provides communications services over Uplink's fiber and fixed wireless networks to approximately 1,500 subscribers across Mississippi and Arkansas.[8] Applicants state that Uplink provides fiber-to-the premise broadband service in various areas within Coahoma County;[9] and outside these specific areas, Uplink provides fixed wireless broadband.[10] The following U.S. citizens each hold a 23.75% equity and voting interest in Uplink: Brian Smith, Kendall Smith, Nathan Classen, and Scott Litwiller.[11] Applicants state that Uplink is not affiliated with any other provider of domestic telecommunications services.[12] Applicants state that Uplink does not receive High-Cost Universal Service Fund support and is not affiliated with any entity that does so.[13]

Pursuant to the terms of the proposed transaction, Uplink would acquire from Aristotle, the facilities and related assets for the Assigned Census Blocks, and assume its related RDOF obligations.[14] Aristotle would convey to Uplink, all support and assets it acquired for the RDOF-supported deployment in the Assigned Census Blocks, including unexpended RDOF support, cabinet equipment, engineering plans, permits, and the right to receive future RDOF support for the Assigned Census Blocks.[15]

Because the proposed transaction would involve the transfer and assumption of Universal Service Fund high-cost mechanism obligations, in order to analyze whether the proposed transaction would serve the public interest, we accept the Application for non-streamlined processing.[16]

Domestic Section 214 Application for the Acquisition of Certain Assets of Aristotle Unified Communications Inc, by Uplink LLC, WC Docket No. 25-239 (filed July 30, 2025).

**GENERAL INFORMATION**

The application identified herein has been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any application if, upon further examination, it is determined to be defective and not in conformance with the Commission's rules and policies.

Interested parties may file comments and reply comments on or before the dates indicated on the first page of this document. Comments may be filed using the Commission's Electronic Comment Filing System (ECFS).

- Electronic Filers: Comments may be filed electronically using the Internet by accessing the ECFS: https://www.fcc.gov/ecfs/.
- Paper Filers: Parties who choose to file by paper must file an original and one copy of each filing.
    - Filings can be sent by hand or messenger delivery, by commercial courier, or by the U.S. Postal Service. **All filings must be addressed to the Secretary, Federal Communications Commission.**
    - Hand-delivered or messenger-delivered paper filings for the Commission's Secretary are accepted between 8:00 a.m. and 4:00 p.m. by the FCC's mailing contractor at 9050 Junction Drive, Annapolis Junction, MD 20701. All hand deliveries must be held together with rubber bands or fasteners. Any envelopes and boxes must be disposed of before entering the building.
    - Commercial courier deliveries (any deliveries not by the U.S. Postal Service) must be sent to 9050 Junction Drive, Annapolis Junction, MD 20701.
    - Filings sent by U.S. Postal Service First-Class Mail, Priority Mail, and Priority Mail Express must be sent to 45 L Street NE, Washington, DC 20554.

People with Disabilities: To request materials in accessible formats for people with disabilities (braille, large print, electronic files, audio format), send an e-mail to fcc504@fcc.gov or call the Consumer & Governmental Affairs Bureau at 202-418-0530 (voice).

**In addition, e-mail one copy of each pleading to each of the following:**

1) Gregory Kwan, Competition Policy Division, Wireline Competition Bureau, gregory.kwan@fcc.gov
2) Jim Bird, Office of General Counsel, jim.bird@fcc.gov.

The proceeding in this Notice shall be treated as a "permit-but-disclose" proceeding in accordance with the Commission's *ex parte* rules. Persons making *ex parte* presentations must file a copy of any written presentation or a memorandum summarizing any oral presentation within two business days after the presentation (unless a different deadline applicable to the Sunshine period applies). Persons making oral *ex parte* presentations are reminded that memoranda summarizing the presentation must (1) list all persons attending or otherwise participating in the meeting at which the *ex parte* presentation was made, and (2) summarize all data presented and arguments made during the presentation. If the presentation consisted in whole or in part of the presentation of data or arguments already reflected in the presenter's written comments, memoranda or other filings in the proceeding, the presenter may provide citations to such data or arguments in his or her prior comments, memoranda, or other filings (specifying the relevant page and/or paragraph numbers where such data or arguments can be found) in lieu of summarizing them in the memorandum. Documents shown or given to Commission staff during *ex parte* meetings are deemed to be written *ex parte* presentations and must be filed consistent with rule 1.1206(b), 47 CFR § 1.1206(b). Participants in this proceeding should familiarize themselves with the Commission's *ex parte* rules.

To allow the Commission to consider fully all substantive issues regarding the application in as timely and efficient a manner as possible, petitioners and commenters should raise all issues in their initial filings. New issues may not be raised in responses or replies.[17] A party or interested person seeking to raise a new issue after the pleading cycle has closed must show good cause why it was not possible for it to have raised the issue previously. Submissions after the pleading cycle has closed that seek to raise new issues based on new facts or newly discovered facts should be filed within 15 days after such facts are discovered. Absent such a showing of good cause, any issues not timely raised may be

[17] *See* 47 CFR § 1.45(c).

disregarded by the Commission.

**MEMORANDUM OPINION AND ORDER**

**Adopted: September 19, 2025** **Released: September 19, 2025**

By the Chief, Audio Division, Media Bureau:

## I. INTRODUCTION

1. The Audio Division has before it a Petition for Partial Reconsideration (Petition)[1] of the *Various Locations Order*[2] filed on behalf of M&M Broadcasters, Ltd., Debtor-in-Possession (M&M), licensee of broadcast stations KRMX(FM), Bellmead, Texas; KBHT(AM), Mexia, Texas; and KRZI(AM), Waco, Texas.[3] M&M seeks reconsideration of the designation of Channel 285A at Adamsville, Texas as a vacant FM allotment. Instead, M&M seeks designation of Channel 285A at Richland Springs, Texas. No comments or oppositions were filed in response to the Petition. For the reasons discussed below, we grant the Petition.

## II. BACKGROUND

2. The *Various Locations Order* amended the Table of FM Allotments (FM Table), section 73.202(b) of the Commission's rules (Rules),[4] by reinstating certain channels as a vacant FM allotment in various communities located in California, Texas, and Washington due to the cancellation of the associated FM authorizations. The *Various Locations Order* added Channel 285A at Adamsville, Texas as a vacant FM allotment due to the cancellation of the construction permit for FM Station KQXZ, Adamsville, Texas.[5] QXZ MediaWorks LLC (QXZ Media) was the permittee of KQXZ and the successful winning bidder in Auction 109 for Construction Permit MM-FM1150-A, Channel 235A, Richland Springs, Texas.[6] On December 15, 2021, the Audio Division granted QXZ Media's Auction 109 long form application for the new FM station to specify operation on Channel 285A in lieu of

[1] *See Petition for Reconsideration of Action in Proceeding*, Public Notice, Report No. 3223 (April 8, 2025).

[2] *See Various Locations,* Order, 40 FCC Rcd 1171 (MB 2025) (*Various Locations Order*).

[3] On July 30, 2025, the Audio Division granted an assignment of license application (Application File No. 0000270523) reassigning the stations from M&M Broadcasters, Ltd, to M&M Broadcasters, Ltd., Debtor-in-Possession. An assignment of license application (Application File No. 0000275945) is currently pending for Stations KBHT(AM) and KRZI(AM) to assign them from M&M Broadcasters, Ltd., Debtor-in-Possession, to G Baxter Entertainment, LLC.

[4] 47 CFR § 73.202(b).

[5] *See Broadcast Actions,* Public Notice, Report No. PN-2-241217-01 (Dec. 17, 2024) (announcing the cancellation of the KQXZ construction permit at Adamsville (Application File No. 0000199020) associated with Application File No. 0000259231).

[6] *See FCC Announces Winning Bidders for Auction 109*, Public Notice, 36 FCC Rcd 12478 (MB/OEA 2021).

Channel 235A at Richland Springs.[7] On August 31, 2022, QXZ Media filed a minor modification application for KQXZ on Channel 285A, requesting a community of license change from Richland Springs to Adamsville, Texas.[8] During the pendency of the Adamsville community of license application, on June 8, 2023, QXZ Media filed another minor modification application that requested to modify KQXZ's facilities on Channel 285A at Richland Springs, Texas, and the Media Bureau granted the application on August 11, 2023.[9] On September 22, 2023, QXZ Media filed a license application for Channel 285A at Richland Springs, which the staff granted on September 25, 2023.[10] On October 19, 2023, upon QXZ Media's request, the Media Bureau rescinded the September 25, 2023, grant of the license application at Richland Springs.[11] The Media Bureau returned that license application to pending status. On October 20, 2023, the Media Bureau granted the pending Adamsville community of license modification and issued a construction permit.[12] On December 12, 2024, QXZ Media filed a Motion to Dismiss, requesting the dismissal of the pending Richland Springs license application, and also surrendering the Adamsville construction permit for cancellation because of its inability to secure a suitable transmitter site before the December 15, 2024, expiration date.[13] The next day, on December 13, 2024, the staff dismissed the Richland Springs license application, cancelled the Adamsville construction permit, and deleted the station's callsign KQXZ.[14]

3. M&M seeks reconsideration of the designation of Channel 285A at Adamsville, Texas as a vacant FM allotment. It argues that Channel 285A at Richland Springs, Texas should have been added to the FM Table as a vacant allotment.[15] M&M claims that the Adamsville community of license modification was granted based on false representations. It claims also that the Adamsville proposal violated the Commission's rules and policies, because it was not mutually exclusive with either the original allotment of Channel 235A at Richland Springs or a licensed KQXZ facility. M&M contends therefore that the Adamsville community of license modification should be considered *void ab initio* since

[7] *See Broadcast Actions,* Public Notice, Report No. PN-2-211217-01 (Dec. 17, 2021)(announcing the grant of the application (Application File No. 0000158484) specifying Channel 285A at Richland Springs, Texas). On January 19, 2022, the new FM station callsign was changed to KQXZ.

[8] *See Broadcast Applications,* Public Notice, Report No. PN-1-220902-01 (Sept. 2, 2022)(announcing the filing of the Adamsville community of license minor modification application (Application File No. 0000199020)).

[9] *See Broadcast Applications,* Public Notice, Report No. PN-1-230613-01 (June 13, 2023)(announcing the filing of the FM Channel 285A, Richland Springs minor modification application (Application File No. 0000216393)); *see also Broadcast Actions,* Public Notice, Report No. PN-2-230815-01 (Aug. 15, 2023)(announcing the grant of Application File No. 0000216393).

[10] *See Broadcast Applications*, Public Notice, Report No. PN-1-230926-01 (Sept. 26, 2023)(announcing the filing of the Richland Springs license application (Application File No. 0000221244)); *see also Broadcast Actions,* Public Notice, Report No. PN-2-230927-01 (Sept. 27, 2023)(announcing the grant of Application File No. 0000221244).

[11] *See Broadcast Actions*, Public Notice, Report No. PN-2-231023-01 (Oct. 23, 2023)(announcing the pending status of the Richland Springs license application (Application File No. 0000221244) noting that the license grant was rescinded 10/19/2023 – no letter sent).

[12] *See Broadcast Actions,* Public Notice, Report No. PN-2-231024-01 (Oct. 24, 2023)(announcing the grant of the Adamsville community of license modification application (Application File No. 0000199020)).

[13] *See* Motion of QXZ MediaWorks LLC To Dismiss at 1.

[14] *See Broadcast Actions,* Public Notice, Report No. PN-2-241217-01 (Dec. 17, 2024)(announcing the dismissal of the Richland Springs license application (Application File No. 0000221244) and the cancellation of the Adamsville construction permit (Application File No. 0000199020) in response to the filing of the cancellation application (Application File No. 0000259231)).

[15] The Audio Division removed Channel 235A, Richland Springs from the list of vacant allotments because KQXZ was granted authorizations to specify operation on Channel 285A, Richland Springs then later on Channel 285A, Adamsville, Texas. *See Various Locations,* Order, 40 FCC Rcd 1174 (MB 2025).

the KQXZ facilities were never fully built at either Richland Springs or Adamsville. M&M asserts that QXZ Media surrendered the Adamsville construction permit after G&G Enterprises filed an Informal Objection against the Richland Springs license application. It states that the subsequent interchange of pleadings collectively revealed that the Richland Springs facilities were never fully built or licensed. M&M requests amendment to the FM Table by removing Channel 285A at Adamsville and adding Channel 285A at Richland Springs as a vacant FM allotment.

## III. DISCUSSION

4. Section 1.429 of the Rules sets forth the limited provisions under which the Commission will reconsider a rule making action.[16] Reconsideration is warranted if a petitioner cites error of fact or law.[17] Additionally, a reconsideration petition relying upon facts or arguments not previously presented will be considered only if the facts or arguments relate to events or circumstances that have occurred since the last opportunity to present such matters or were unknown to petitioner and could not have been discovered through the exercise of ordinary diligence.[18] M&M has met this burden.

5. Accordingly, we grant the Petition. We find that the Adamsville community of license modification was not permissible pursuant to section 73.3573(g)(2) of the Rules.[19] In the *2006 Community of License Order*,[20] as codified in section 73.3573(g) of the Rules,[21] the Commission gave applicants the opportunity to file one-step community of license change applications, provided that four conditions must be met: (1) that the proposed community of license change represents a preferential arrangement of allotments; (2) that the facilities specified at the proposed community of license are mutually exclusive with the applicant's current assignment as the winning auction bidder (as the case here); (3) that the applicant complies with the local public notice provisions of section 73.3580 of the Rules; and (4) that the non-reserved band applicant must demonstrate the existence of a suitable and fully compliant assignment or allotment site. We conclude that the Adamsville community of license modification violated the requirements of section 73.3573(g)(2) of the Rules, because the move to Adamsville on Channel 285A was not mutually exclusive with the original auction allotment of Channel 235A at Richland Springs.[22] We acknowledge that QXZ Media's long-form application to change its assigned channel from 235A to 285A in Richland Springs was a permissible channel substitution consistent with our Rules.[23] We find that the grant of the Adamsville community of license modification was a staff error, because the filing of a new community of license modification application prior to the filing and grant of a license application for 285A, Richland Springs is considered a major change subject

[16] 47 CFR § 1.429.

[17] *See Eagle Broadcasting Co. v. FCC,* 514 F.2d 852 (D.C. Cir. 1975).

[18] 47 CFR § 1.429(b)(1)-(2).

[19] 47 CFR § 73.3573(g)(2).

[20] *See Modification of FM and TV Authorizations to Specify a New Community of License,* Report and Order, 4 FCC Rcd 4870 (1989) (*Community of License*), *recon. granted in part,* Memorandum Opinion and Order, 5 FCC Rcd 7094 (1990); *Revision of Procedures Governing Amendments to FM Table of Allotments and Changes of Community of License in the Radio Broadcast Services*, Report and Order, 21 FCC Rcd 14212, 14213-23, paras. 4-18 (2006) (*2006 Community of License Order*).

[21] 47 CFR § 73.3573(g).

[22] *Id*. § 73.3573(g)(2); *see also Auction 109 Public Notice, supra* at 12484 ¶34 (stating that the winning bidder's long-form application may only propose technical facilities that are either identical to or are considered minor changes with respect to each permit for which it was the winning bidder and if information submitted on the FCC Form 2100, Schedule 301-FM application by the winning bidder indicates that the applicant has effected a major change relative to information reported on the applicant's short-form application (FCC Form 175), then the long-form application will be dismissed and the applicant will be in default").

[23] 47 CFR § 73.3573(a)(1)(iv).

to dismissal pursuant to the *Auction 109 Public Notice* since Channel 285A at Adamsville was not mutually exclusive with the original auction allotment on Channel 235A at Richland Springs.[24] We take this opportunity to reiterate that the facility must be constructed and a license application must be filed and granted prior to the filing of a new community of license modification application when the proposed assignment is not mutually exclusive with the original FM auction allotment in compliance with the requirements of section 73.3573(g)(2) of the Rules.[25]

6. Based on the foregoing, we amend the FM Table by removing Channel 285A at Adamsville and by adding Channel 285A at Richland Springs, Texas. A staff engineering analysis indicates that Channel 285A can be allotted to Richland Springs consistent with the minimum distance separation requirements of section 73.207(b) of the Rules,[26] with a site restriction of 12 kilometers (7.5 miles) southeast of the community. The reference coordinates are 31-10-24 NL and 98-53-25 WL.

7. *Paperwork Reduction and Regulatory Flexibility*. The Commission has determined that the relevant provisions of the Regulatory Flexibility Act of 1980, as amended,[27] do not apply to a rulemaking proceeding to amend the Table of FM Allotments, section 73.202(b) of the Rules.[28] This document does not contain information collection requirements subject to the Paperwork Reduction Act of 1995.[29] In addition, therefore, it does not contain any proposed information collection burden "for small business concerns with fewer than 25 employees," pursuant to the Small Business Paperwork Relief Act of 2002.[30]

## IV. ORDERING CLAUSES

8. IT IS ORDERED that, pursuant to authority found in 47 U.S.C. sections 4(i), 5(c)(1), 303(g) and (r), and 307(b) of the Communications Act of 1934, as amended, 47 U.S.C. §§ 154(i), 155(c)(1), 303(g), (r), and 307(b) and sections 0.61, 0.204(b), and 0.283 of the Rules, 47 CFR §§ 0.61, 0.204(b), and 0.283, November 3, 2025, the Table of FM Allotments, 47 CFR § 73.202(b), IS AMENDED, with respect to the community listed below, to read as follows:

| **Community** | **Channel No.** |
|---|---|
| Adamsville, Texas | ---------- |
| Richland Springs, Texas | 285A, 299A |

9. The window period for filing applications for Channel 285A at Richland Springs, Texas will not be opened at this time. Instead, the issue of opening the allotment for filing will be addressed by the Commission in a subsequent order.

10. IT IS FURTHER ORDERED, That the Commission will send a copy of this

# PUBLIC NOTICE

**FEDERAL COMMUNICATIONS COMMISSION**
**45 L Street NE**
**WASHINGTON D.C. 20554**

News media information 202-418-0500
Internet: http://www.fcc.gov

**DA Number: 25-869**
**Report No. TEL-02613S** **Friday September 19, 2025**

**Streamlined International Applications Accepted For Filing**

**Section 214 Applications (47 CFR §§ 63.18, 63.24); Section 310(b) Petitions (47 CFR § 1.5000)**

Unless otherwise specified, the following procedures apply to the applications listed below:

The international section 214 applications listed below have been found, upon initial review, to be acceptable for filing and subject to the streamlined processing procedures set forth in section 63.12 of the Commission's rules. 47 CFR § 63.12. These applications are for authority under section 214 of the Communications Act, to transfer control of an authorized carrier or to assign a carrier's existing authorization; and/or (b) to become a facilities-based international common carrier; and/or (c) to become a resale-based international common carrier. 47 U.S.C. § 214(a).

Pursuant to section 63.12 of the rules, these applications will be granted 14 days after the date of this public notice (see 47 CFR § 1.4 regarding computation of time), and the applicant may commence operations on the 15th day, unless the Commission has informed the applicant in writing, within 14 days after the date of this public notice, that the application, on further examination, has been deemed ineligible for streamlined processing. Pursuant to Section 1.1910(b)(2) of the rules, action will be withheld on any application by any entity found to be delinquent in its debts to the Commission. Applicants should check the Red Light Display System's website at www.fcc.gov/redlight to determine if they are delinquent in a debt to the Commission and for information on how to pay the debt. 47 CFR § 1.1910(b)(2).

Communications between outside parties and Commission staff concerning these applications are permitted subject to the Commission's rules for "permit-but-disclose proceedings." See 47 CFR § 1.1206. An application can be removed from streamlined processing only in the sound discretion of Commission staff. The filing of comments or a petition to deny will not necessarily result in an application being deemed ineligible for streamlined processing.

People with Disabilities: To request materials in accessible formats for people with disabilities (braille, large print, electronic files, audio format), send an e-mail to fcc504@fcc.gov or call the Consumer & Governmental Affairs Bureau at 202-418-0530 (voice). All applications listed are subject to further consideration and review, and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations, and other requirements.

We request that comments on any of these applications refer to the application file number shown below.

Tower Elite LLC (Tower Elite), a Delaware limited liability company that holds an international section 214 authorization to provide global resale service (ITC-214-20201009-00179), filed an application for consent to the transfer of control of Tower Elite. The Applicants filed a supplement on August 29, 2025.

Angel Eduardo Torres currently holds a 100% ownership interest in Tower Elite, and has agreed to sell a 50% interest in Tower Elite to Lesyani I Ramos Jinoria, his spouse. Angel Eduardo Torres and Lesyani Isabel Ramos Jinoria are both U.S. citizens.

---

REMINDER:

Applicants must certify that neither the applicant nor any party to the application is subject to a denial of federal benefits by federal and/or state courts under authority granted in 21 U.S.C. § 862. See 47 CFR §§ 1.2001-.2003.

# PUBLIC NOTICE

**FEDERAL COMMUNICATIONS COMMISSION**
**45 L Street NE**

**Non Streamlined International Applications/Petitions Accepted For Filing**

**Section 214 Applications (47 CFR §§ 63.18, 63.24); Section 310(b) Petitions (47 CFR § 1.5000)**

Unless otherwise specified, the following procedures apply to the applications listed below:

The applications listed below have been found, upon initial review, to be acceptable for filing. These applications are not subject to the streamlined processing procedures set forth in section 63.12 of the Commission's rules. 47 CFR § 63.12. These applications shall not be deemed granted until the Commission affirmatively acts upon the application, either by public notice or by written order. Operation for which authorization is sought may not commence except in accordance with any terms or conditions imposed by the Commission. Pursuant to section 1.1910(b)(2) of the rules, action will be withheld on any application by any entity found to be delinquent in its debts to the Commission. Applicants should check the Red Light Display System's website at www.fcc.gov/redlight to determine if they are delinquent in a debt to the Commission and for information on how to pay the debt. 47 CFR § 1.1910(b)(2).

Unless otherwise specified, interested parties may file comments with respect to these applications within 28 days of the date of this public notice. We request that such comments refer to the application file number shown below. No application listed below shall be granted by the Commission earlier than the day after the date specified in this public notice for the filing of comments. All applications listed are subject to further consideration and review, and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations, and other requirements.

Unless otherwise specified, ex parte communications between outside parties and Commission staff concerning these applications are permitted subject to the Commission's rules for "permit-but-disclose proceedings." See 47 CFR § 1.1206.

People with Disabilities: To request materials in accessible formats for people with disabilities (braille, large print, electronic files, audio format), send an e-mail to fcc504@fcc.gov or call the Consumer & Governmental Affairs Bureau at 202-418-0530 (voice).

**ITC-T/C-20250812-00084** Logix Communications, LP
**Date filed:** 2025-08-13
Transfer of Control

Logix Communications, LP (Logix Communications), a Texas limited partnership that holds an international section 214 authorization for global facilities-based and resale service (ITC-214-19970409-00200), filed an application to transfer control of Logix Communications from Nathan "Tripp" Lane to New LOGIX Parent, LLC (New LOGIX Parent).

This transaction is the second step in a two-step process to restructure and refinance Logix Holding Company, LLC (Logix Holding), the parent of Logix Communications. The Commission reviewed the first step in a separate matter, which involved when New Logix Parent acquired control of Logix Holding, both Delaware limited liability companies. Nathan "Tripp" Lane, a U.S. and U.K. citizen, is the sole owner of New Logix Parent. *See* ITC-T/C-20250214-00023, *International Authorizations Granted*, Report No. TEL-02435, DA No. 25-278 (OIA March 27, 2025). In this second step, certain existing second-lien lenders will convert a portion of their loans for common and preferred equity in New Logix Parent. Upon conversion of those loans, two funds managed by UBS Asset Management (Americas) LLC (UBS Asset Management), a Delaware limited liability company, will hold a controlling interest in New Logix Parent.

Post-consummation, Logix Communications will remain an indirect wholly owned subsidiary Logix Holding. Logix Holding is the sole member of Logix GP, LLC, a Delaware limited liability company and the general partner of Logix Communications (1% equity and 100% voting interest in Logix Communications). Logix Holding also holds a direct 99% equity interest in Logix Communications. Logix Holding will remain a direct wholly owned subsidiary of New Logix Parent.

Upon conversion of the loans to common and preferred equity in New Logix Parent, three entities will own New Logix Parent: (1) Clover Zermatt O LLC (Clover Zermatt) (61.9% equity and 58.8% voting interests); (2) Clover Private Credit Opportunities Origination II LP (Clover Private) (32.8% equity and 31.2% voting interests); and (3) Astra Logix Midco LLC (Astra Midco) (5.3% equity and 10% voting interests), all Delaware entities. UBS Asset Management is the investment manager and holds 100% voting interests in both Clover Zermatt and Clover private and thus will exercise control over New Logix Parent and Logix Communications.

UBS Asset Management is ultimately owned by UBS Group AG, a Switzerland entity. The direct owners of UBS Asset Management are UBS Americas Inc. (75.3% equity and voting interests) and CSAM Americas Holding Corp. (CSAM) (24.7% equity and voting interests), both Delaware entities. UBS Americas Inc. is a direct wholly owned subsidiary of UBS Americas Holdings LLC and CSAM is an indirect wholly owned subsidiary of UBS Americas Holdings LLC, all Delaware entities. UBS Americas Holdings LLC is wholly owned by UBS AG, a Switzerland entity, which in turn is wholly owned by UBS Group AG.

Astra Midco, a Delaware limited liability company, is wholly owned by Astra Partners I, LP. The general partner of Astra Partners I, LP is Astra Partners I GP, LLC (0% equity and 100% voting interests), both Delaware entities. The manager of Astra Partners I GP, LLC is Mark J. Johnson, a U.S. citizen (40% equity and 100% voting interests).

According to the Applicants, no other individual or entity will have a 10% or greater direct or indirect equity or voting interest in New Logix Parent or Logix Communications.

Pursuant to Commission practice, the application is being referred to the relevant Executive Branch agencies for their views on any national security, law enforcement, foreign policy or trade policy concerns related to the proposed foreign ownership of Logix Communications. *See Process Reform for*

*Executive Branch Review of Certain FCC Applications and Petitions Involving Foreign Ownership*, IB Docket 16-155, Report and Order, 35 FCC Rcd 10927, 10935-36, para. 24 (2020).

---

**ITC-T/C-20250812-00085** Alpheus Communications, LLC
**Date filed:** 2025-08-13
Transfer of Control

Alpheus Communications, LLC (Alpheus Communications), a Delaware limited partnership that holds an international section 214 authorization for global facilities-based and resale service (ITC-214-20070420-00148), filed an application to transfer control of Alpheus Communications from Nathan "Tripp" Lane (Mr. Lane) to New LOGIX Parent, LLC (New LOGIX Parent). Alpheus Data Services, LLC (ADS), a direct wholly owned subsidiary of Alpheus Communications, provides international service under the authority held by Alpheus Communications (ITC-214-20070420-00148) pursuant to section 63.21(h) of the Commission's rules. 47 CFR § 63.21(h).

This transaction is the second step in a two-step process to restructure and refinance Logix Holding Company, LLC (Logix Holding), the parent of Alpheus Communications and ADS. The Commission reviewed the first step in a separate matter, which involved New LOGIX Parent acquiring control of Logix Holding, both Delaware limited liability companies. Nathan "Tripp" Lane, a U.S. and U.K. citizen, is the sole owner of New Logix Parent. *See* ITC-T/C-20250214-00023, *International Authorizations Granted*, Report No. TEL-02435, DA No. 25-278 (OIA March 27, 2025). In this second step, certain existing second-lien lenders will convert a portion of their loans for common and preferred equity in New Logix Parent and upon conversion of those loans two funds managed by UBS Asset Management (Americas) LLC (UBS Asset Management), a Delaware limited liability company, will hold a controlling interest in New Logix Parent.

Post-consummation, ADS will remain a direct wholly owned subsidiary of Alpheus Communications which will remain a direct wholly owned subsidiary Logix Holding. Logix Holding is the sole member of Logix GP, LLC, a Delaware limited liability company and the general partner of Logix Communications (1% equity and 100% voting interest in Logix Communications). Logix Holding also holds a direct 99% equity interest in Logix Communications. Logix Holding will remain a direct wholly owned subsidiary of New Logix Parent.

Upon conversion of the loans to common and preferred equity in New Logix Parent, three entities will own New Logix Parent: (1) Clover Zermatt O LLC (Clover Zermatt) (61.9% equity and 58.8% voting interests); (2) Clover Private Credit Opportunities Origination II LP (Clover Private) (32.8% equity and 31.2% voting interests); and (3) Astra Logix Midco LLC (Astra Midco) (5.3% equity and 10% voting interests), all Delaware entities. UBS Asset Management is the investment manager and holds 100% voting interests in both Clover Zermatt and Clover Private and thus will exercise control over New Logix Parent, Alpheus Communications and ADS.

UBS Asset Management is ultimately owned by UBS Group AG, a Switzerland entity. The direct owners of UBS Asset Management are UBS Americas Inc. (75.3% equity and voting interest) and CSAM Americas Holding Corp. (CSAM) (24.7% equity and voting interests), both Delaware entities. UBS Americas Inc. is a direct wholly owned subsidiary of UBS Americas Holdings LLC and CSAM is an indirect wholly owned subsidiary of UBS Americas Holdings LLC, all Delaware entities. UBS Americas Holdings LLC is wholly owned by UBS AG, a Switzerland entity, which in turn is wholly owned by UBS Group AG.

Astra Midco is wholly owned by Astra Partners I, LP. The general partner of Astra Partners I, LP is Astra Partners I GP, LLC (0% equity and 100% voting interests), both Delaware entities. The manager of Astra Partners I GP, LLC is Mark J. Johnson, a U.S. citizen (40% equity and 100% voting interests).

According to the Applicants, no other individual or entity will have a 10% or greater direct or indirect equity or voting interest in New Logix Parent, Alpheus Communications or ADS.

Pursuant to Commission practice, the application is being referred to the relevant Executive Branch agencies for their views on any national security, law enforcement, foreign policy or trade policy concerns related to the proposed foreign ownership of Alpheus Communications. *See Process Reform for Executive Branch Review of Certain FCC Applications and Petitions Involving Foreign Ownership*, IB Docket 16-155, Report and Order, 35 FCC Rcd 10927, 10935-36, para. 24 (2020).

---

REMINDERS:

Applicants must certify that neither the applicant nor any party to the application is subject to a denial of federal benefits by federal and/or state courts under authority granted in 21 U.S.C. § 862. See 47 CFR §§ 1.2001-.2003.

# PUBLIC NOTICE

Federal Communications Commission
45 L Street NE
Washington, DC 20554

News Media Information 202-418-0500
Internet: www.fcc.gov

**DA 25-871**
**Released: September 19, 2025**

**DOMESTIC SECTION 214 APPLICATION FILED FOR THE TRANSFER OF CONTROL OF LOGIX COMMUNICATIONS, LP, ALPHEUS COMMUNICATIONS, LLC, AND ALPHEUS DATA SERVICES, L.L.C. TO NEW LOGIX PARENT, LLC**

**NON-STREAMLINED PLEADING CYCLE ESTABLISHED**

**WC Docket No. 25-249**

**Comments Due: October 3, 2025**
**Reply Comments Due: October 10, 2025**

By this Public Notice, the Wireline Competition Bureau (Bureau) seeks comment from interested parties on an application filed by Nathan "Tripp" Lane (Transferor), Logix Communications, LP (Logix), Alpheus Communications, LLC (Alpheus), and Alpheus Data Services, L.L.C. (ADS) (Logix, Alpheus, and ADS collectively, Licensees), and New LOGIX Parent, LLC (collectively, Applicants), pursuant to section 214(a) of the Communications Act of 1934, as amended, and section 63.04 of the Commission's rules,[1] requesting Commission consent for the indirect transfer of control of Licensees from the Transferor to New LOGIX Parent, LLC.[2]

Mr. Lane, a U.S. and U.K. citizen, presently holds all of the outstanding and issued equity of New LOGIX Parent. Applicants state the Mr. Lane provides no telecommunications services and holds no FCC authorizations.[3]

Logix, a Texas limited partnership, is a fiber focused, integrated communications company that provides telephone, Internet, data and cloud services.[4] Alpheus, a Delaware limited liability company, and ADS, a Delaware limited liability company and wholly owned direct subsidiary of Alpheus, are providers of telecommunications and data center services for enterprises and carriers throughout Texas.[5] Licensees are currently owned and controlled by Mr. Lane.[6]

New LOGIX Parent, a Delaware limited liability company, was formed for the purpose of

[1] *See* 47 U.S.C. § 214(a); 47 CFR § 63.04.

[2] Domestic Section 214 Application for the Transfer of Control of Logix Communications, LP, Alpheus Communications, LLC, and Alpheus Data Services, L.L.C., WC Docket No. 25-249 (filed Aug. 13, 2025) (Application). Applicants also filed an application for the transfer of authorizations associated with international services (ICFS File Nos. ITC-T/C-20250812-00084 and ITC-T/C-20250812-00085). Any action on the Application is without prejudice to Commission action on other related, pending applications.

[3] Application at 3.

[4] *Id.*

[5] *Id.*

[6] *Id.* at 2-3, Exh. A (Pre- and Post-Transaction Ownership Structure Chart).

indirectly acquiring and owning Licensees pursuant to the proposed transaction.[7] New LOGIX Parent is not affiliated with any other Commission-regulated telecommunications service provider, provides no telecommunications services itself, and holds no Commission authorizations.[8] Following the proposed transaction, New LOGIX Parent will be ultimately owned and controlled by UBS Group AG, a Swiss company.[9]

Pursuant to the terms of the proposed transaction, New LOGIX Parent will acquire indirect control of Licensees.[10] Specifically, the Applicants explain that following the Commission's prior consent to the first step of a two-step transaction for the comprehensive restructuring and refinancing of the funded indebtedness of Logix Holding Company, LLC,[11] an intermediate holding company that indirectly controls Licensees, this Application seeks consent to implement the second step of the proposed restructuring to enable the conversion of certain convertible loans into preferred and common equity interests in New LOGIX Parent. This second step will thereby complete the full restructuring, and result in a transfer of indirect control of the Licensees.[12] The Applicants state that upon conversion of those loans, two funds managed by UBS Asset Management (Americas) LLC—Clover Zermatt O LLC and Clover Private Credit Opportunities Origination II LP, each Delaware organized entities—will collectively hold a majority of the outstanding preferred and common equity interests in New LOGIX Parent, representing indirect interests in Licensees of approximately 90% voting and 94.7% equity.[13] Applicants assert that a grant of the Application would serve the public interest, convenience, and necessity.[14] Because the proposed transaction is more complex than those accepted for streamlined treatment, and in order to analyze whether the proposed transaction would serve the public interest, we accept the Application for non-streamlined processing.[15]

> Domestic Section 214 Application for the Transfer of Control of Logix Communications, LP, Alpheus Communications, LLC, and Alpheus Data Services, L.L.C., WC Docket No. 25-249 (filed Aug. 13, 2025).

Referral to Executive Branch Agencies: Pursuant to Commission practice, the Application is being referred to the relevant Executive Branch agencies for their views on any national security, law enforcement, foreign policy, or trade policy concerns related to the foreign ownership of the entities at issue.[16] Applicants state that, concurrent with filing the Application, they submitted directly to the Committee for the Assessment of Foreign Participation in the United States Telecommunications Services

Sector (Committee) responses to the Committee's standard questions.[17]

**GENERAL INFORMATION**

The Application identified herein has been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any application if, upon further examination, it is determined to be defective and not in conformance with the Commission's rules and policies.

Interested parties may file comments and reply comments on or before the dates indicated on the first page of this document. Comments may be filed using the Commission's Electronic Comment Filing System (ECFS).

- Electronic Filers: Comments may be filed electronically using the Internet by accessing the ECFS: https://www.fcc.gov/ecfs/.
- Paper Filers: Parties who choose to file by paper must file an original and one copy of each filing.
  - Filings can be sent by hand or messenger delivery, by commercial courier, or by the U.S. Postal Service. **All filings must be addressed to the Secretary, Federal Communications Commission.**
  - Hand-delivered or messenger-delivered paper filings for the Commission's Secretary are accepted between 8:00 a.m. and 4:00 p.m. by the FCC's mailing contractor at 9050 Junction Drive, Annapolis Junction, MD 20701. All hand deliveries must be held together with rubber bands or fasteners. Any envelopes and boxes must be disposed of before entering the building.
  - Commercial courier deliveries (any deliveries not by the U.S. Postal Service) must be sent to 9050 Junction Drive, Annapolis Junction, MD 20701.
  - Filings sent by U.S. Postal Service First-Class Mail, Priority Mail, and Priority Mail Express must be sent to 45 L Street NE, Washington, DC 20554.

People with Disabilities: To request materials in accessible formats for people with disabilities (braille, large print, electronic files, audio format), send an e-mail to fcc504@fcc.gov or call the Consumer & Governmental Affairs Bureau at 202-418-0530 (voice).

**In addition, e-mail one copy of each pleading to each of the following:**

1) Christi Shewman, Competition Policy Division, Wireline Competition Bureau, christi.shewman@fcc.gov;
2) David Krech, Office of International Affairs, Telecommunications & Analysis Division, David.krech@fcc.gov;
3) Jim Bird, Office of General Counsel, jim.bird@fcc.gov.

The proceeding in this Notice shall be treated as a "permit-but-disclose" proceeding in accordance with the Commission's *ex parte* rules. Persons making *ex parte* presentations must file a copy of any written presentation or a memorandum summarizing any oral presentation within two business days after the presentation (unless a different deadline applicable to the Sunshine period applies). Persons making oral *ex parte* presentations are reminded that memoranda summarizing the presentation must (1) list all persons attending or otherwise participating in the meeting at which the *ex parte* presentation was made, and (2) summarize all data presented and arguments made during the presentation. If the presentation consisted in whole or in part of the presentation of data or arguments already reflected in the presenter's written comments, memoranda or other filings in the proceeding, the presenter may provide citations to such data or arguments in his or her prior comments, memoranda, or other filings (specifying

[17] Application at 14.

the relevant page and/or paragraph numbers where such data or arguments can be found) in lieu of summarizing them in the memorandum. Documents shown or given to Commission staff during *ex parte* meetings are deemed to be written *ex parte* presentations and must be filed consistent with rule 1.1206(b), 47 CFR § 1.1206(b). Participants in this proceeding should familiarize themselves with the Commission's *ex parte* rules.

To allow the Commission to consider fully all substantive issues regarding the Application in as timely and efficient a manner as possible, petitioners and commenters should raise all issues in their initial filings. New issues may not be raised in responses or replies.[18] A party or interested person seeking to raise a new issue after the pleading cycle has closed must show good cause why it was not possible for it to have raised the issue previously. Submissions after the pleading cycle has closed that seek to raise new issues based on new facts or newly discovered facts should be filed within 15 days after such facts are discovered. Absent such a showing of good cause, any issues not timely raised may be disregarded by the Commission.

For further information, please contact Christi Shewman, Competition Policy Division, Wireline Competition Bureau, at (202) 418-0646; or David Krech, Telecommunications & Analysis Division, Office of International Affairs, at (202) 418-7443.

# PUBLIC NOTICE

**Federal Communications Commission**
**45 L St., N.E.**
**Washington, D.C. 20554**

**News Media Information 202-418-0500**
**Internet: https://www.fcc.gov**

**DA 25-872**
**Released: September 19, 2025**

**PUBLIC SAFETY AND HOMELAND SECURITY BUREAU REMINDS CMRS PROVIDERS USING SUPPLEMENTAL COVERAGE FROM SPACE OF THE OCTOBER 15, 2025 DEADLINE FOR FILING 911 REPORTS AND CERTIFICATIONS**

**GN Docket No. 23-65; IB Docket No. 22-271; PS Docket No. 24-318**

The Public Safety and Homeland Security Bureau (Bureau) reminds Commercial Mobile Radio Service (CMRS) providers using supplemental coverage from space (SCS) arrangements of their obligation to file annual reports by **October 15 of each year** regarding 911 voice calls, text messages, and emergency call center data.[1] In addition, CMRS providers must certify on a one-time basis that they will protect the privacy and security of location information used to comply with the part 9 SCS rules.[2] CMRS providers must submit this one-time certification by the **due date of their first annual 911 report for SCS**.[3] Both the annual report and one-time certification must be filed via the Commission's Electronic Comment Filing System (ECFS) in **PS Docket No. 24-318**.[4]

The Commission adopted these reporting requirements in 2024 as part of interim 911 requirements for terrestrial providers that use SCS arrangements to extend their coverage service areas.[5] These interim 911 rules are codified at 47 CFR § 9.10(t).[6]

Below we provide additional information on these annual reports and one-time privacy certifications.

**Annual Reports**. Annual reports must include, at a minimum, the following information:

- The name and address of the CMRS provider;
- The address (zip code only) of the CMRS provider's emergency call center and the contact information (telephone number and/or email address) of the emergency call center. To avoid

[1] 47 CFR § 9.10(t)(3).

[2] 47 CFR § 9.10(t)(4).

[3] *Id*.

[4] 47 CFR § 9.10(t)(3)-(4).

[5] *See Single Network Future: Supplemental Coverage from Space; Space Innovation*, GN Docket No. 23-65, IB Docket No. 22-271, Report and Order and Further Notice of Proposed Rulemaking, 39 FCC Rcd 2622 (2024).

[6] 47 CFR § 9.10(t). These rules became effective on October 7, 2024, when the Office of the Federal Register published a notice announcing Office of Management and Budget (OMB) approval of the information collection requirements contained in the interim 911 rules for SCS. *See* 89 Fed. Reg. 81013 (October 7, 2024); *see also Public Safety And Homeland Security Bureau Announces Office Of Management And Budget Approval For 911 Information Collection Requirements Associated With Supplemental Coverage From Space*, GN Docket No. 23-65, IB Docket No. 22-271, PSHSB Docket No. 24-318, Public Notice, 39 FCC Rcd 11005 (PSHSB 2024) (announcing OMB approval and providing guidance on information collection requirements).

publicly disclosing potentially sensitive information, CMRS providers should refrain from providing specific locations such as street addresses or building names;

- The aggregate number of SCS 911 voice calls and SCS 911 text messages received by the network of the CMRS provider that provides SCS service to its end-user subscribers during each month during the relevant reporting period;

- The aggregate number of SCS 911 voice calls and SCS 911 text messages received by the emergency call center each month during the relevant reporting period;

- The aggregate number of SCS 911 voice calls and SCS 911 text messages received by the emergency call center each month during the relevant reporting period that required forwarding to a Public Safety Answering Point (PSAP) and how many did not require forwarding to a PSAP;

- The aggregate number of SCS 911 voice calls that were routed using location information that met the timeliness and accuracy thresholds defined in Section 9.10(s)(3)(i)(A) and (B) of the Commission's rules;[7]

- The aggregate number of SCS 911 voice calls and SCS 911 text messages that were routed using location information that did not meet the timeliness and accuracy thresholds defined in Section 9.10(s)(3)(i)(A) and (B) of the rules;[8] and

- An explanation of how the SCS deployment, including network architecture, systems, and procedures, will support routing SCS 911 voice calls and SCS 911 text messages to the geographically appropriate PSAP with sufficient location information in compliance with Section 9.10(t)(2) of the rules.[9]

The report must be current as of September 30 of the filing year. This means that if a CMRS provider begins using SCS arrangements after September 30 of a given year, it does not have to file an annual report by October 15 of that year. The report will be due by October 15 of the following year.

There is no required form for the submission of annual reports. CMRS providers may submit their completed reports with a cover letter which includes the date of submission; name of CMRS provider; and name and contact information of person submitting the report when filing via ECFS in **PS Docket No. 24-318**.

**One-Time Privacy Certification**. CMRS providers must certify on a one-time basis that neither they nor any third party they rely on to obtain location information or associated data used for compliance with Section 9.10(t)(2)(i) or (ii) of the rules will use such location information or associated data for any non-911 purpose, except with prior express consent or as otherwise permitted or required by law.[10] The certification also must state that the CMRS provider and any third party it relies on to obtain location information or associated data used for compliance with Section 9.10(t)(2)(i) or (ii) of the rules have implemented measures sufficient to safeguard the privacy and security of such location information or associated data.[11]

[7] 47 CFR § 9.10(s)(3)(i)(A), (B).

[8] *Id*.

[9] 47 CFR § 9.10(t)(2).

[10] *Id*.

[11] *Id*.

CMRS providers must submit this one-time certification by the due date of their first annual 911 report under the SCS rules.[12] The one-time certification must be filed via ECFS in the same docket as the annual reports, **PS Docket No. 24-318**.

For further information, please contact Zachary DiLeo, Attorney Advisor, Policy and Licensing Division, Public Safety and Homeland Security Bureau at (202) 418-0617 or zachary.dileo@fcc.gov.

**-FCC-**

[12] 47 CFR § 9.10(t)(4). To illustrate this, if a CMRS provider files its first annual report on Oct. 15, 2026, the one-time certification would be due by that date.

Washington, DC 20554

News Media Information 202-418-0500
Internet: www.fcc.gov

**DA 25-875**
**Released: September 22, 2025**

**SPACE BUREAU ANNOUNCES FILING PROCEDURES FOR ADDING A POINT OF COMMUNICATION TO AN EARTH STATION LICENSE PURSUANT TO SECTION 25.118**

**EFFECTIVE DATE FOR NEW PROCEDURES IS SEPTEMBER 26, 2025**

**IB Docket Nos. 22-411 and 22-271**

With this public notice, the Space Bureau's Earth Station Licensing Division announces earth station license filing procedures to implement new rules adopted in the *Expediting Initial Processing of Satellite and Earth Station Applications Second Report and Order*.[1] The procedures address: (1) how licensees should identify in their notices that they are filing to add a point of communication pursuant to section 25.118(g); (2) how current pending applicants to add a point of communication can utilize the procedures of section 25.118(g); and (3) the form and content of the weekly notice of all filed notices to add a point of communication.

*Background*. On August 7, 2025, the Commission adopted new rules to streamline the process for adding points of communication to an existing earth station license.[2] In addition, the Commission delegated authority to the Space Bureau to establish procedures for how pending applications to add a point of communication can take advantage of the new process.[3] In addition, the Commission delegated authority to the Space Bureau to establish procedures to issue a weekly public notice listing notifications filed pursuant to section 25.118(g) and to determine what information to include and how and when to release such public notice.[4] In this public notice, the Space Bureau takes the opportunity to outline the aforementioned procedures and to provide guidance on how licensees should file notices pursuant to section 25.118(g).

*Filing a Notice Pursuant to Section 25.118(g).* Section 25.118(g) of the Commission's rules requires that a licensee seeking to add satellite points of communication(s) without prior authorization must notify the FCC of their request to do so by filing an FCC Form 312 and Schedule B in the International Communications Filing System (ICFS) in accordance with the applicable provisions of part 1, subpart Y.[5] This notice filing should clearly identify that the filing is being made pursuant to section 25.118(g) in the description of the application on Form 312.

*Publication of Notices Filed Under Section 25.118(g)*. The Space Bureau's Earth Station Licensing Division will include, as part of the weekly "Earth Station Accepted for Filing Public Notice," a section that lists of notices filed pursuant to section 25.118(g). This section will include the date that

[1] *Expediting Initial Processing of Satellite and Earth Station Applications et al.*, IB Docket Nos. 22-411 and 22-271, Second Report and Order, FCC 25-48 (Aug. 8, 2025) (Second R&O).

[2] *See* Second R&O at paras. 7-12.

[3] Second R&O at para. 11, n.31

[4] Second R&O at para. 12, n.37.

[5] 47 CFR § 25.118(g).

the notice was filed, the licensee that filed the notice, and the file number for the notice.

*Treatment of Currently Pending Applications to Add a Point of Communication.* Applicants with a currently pending application to add point(s) of communication may take advantage of the new procedures if their pending application meets the criteria of section 25.118(g).[6] To do so, applicants should file a supplement in the file of the currently pending application and notify Commission staff in the Earth Station Licensing Division via email, at gregory.coutros@fcc.gov, that the applicant chooses to utilize the new rule provision and that a supplement has been filed for the purpose of having section 25.118(g) apply to the pending application. The supplement should clearly state that the pending application meets all of the requirements of section 25.118(g) and that the applicant chooses to utilize the new rule provision.[7] Upon filing the supplement and notifying the Commission staff via email, the applicant will be permitted to operate pursuant to section 25.118(g), that is, the supplement will constitute a conditional authorization subject to the terms of the rule. The 15-day period for the Commission to notify the earth station operator that the added point of communication does not comply with the requirements of the rule will commence on the date the supplement is filed,[8] and if the Commission does not issue such a notice, then the date the supplement was filed will serve as the date the license is modified in ICFS to add the point of communication.[9]

*People with Disabilities*. To request materials in accessible formats for people with disabilities (braille, large print, electronic files, audio format), send an e-mail to fcc504@fcc.gov or call the FCC's Consumer and Governmental Affairs Bureau at (202) 418-0530 (voice).

*Additional Information*. For additional information, contact Gregory Coutros, Gregory.Coutros@fcc.gov, Space Bureau, Earth Station Licensing Division, (202) 418-2351.

**– FCC –**

[6] "An earth station operator may add a point of communication without prior authorization, provided: (1) the operator has permission from the satellite operator to communicate with the satellite system; (2) the earth station operator does not repoint the earth station's antenna beyond any coordinated range; (3) adding a point of communication does not result in an increased risk of harmful interference; (4) adding the point of communication does not involve any change to authorized frequencies; and (5) the added point of communication is not a satellite that does not have U.S. market access." *See* 47 CFR § 25.118(g).

[7] Alternatively, licensees with pending applications may withdraw their applications and refile under the new rules. However, all applicable fees will have to be paid if the applicant chooses to refile.

[8] *See* 47 CFR § 25.118(g) (describing how these procedures apply to new applications); *see also* Second R&O at para. 11, n.30.

[9] *See* 47 CFR § 25.118(g). As stated in the rule, "[n]othing in this rule part prohibits the Commission from pursuing enforcement action after the lapse of the 15-day period for noncompliant operation, including noncompliant operation occurring during the period of conditional authorization." *Id.*

# PUBLIC NOTICE

Federal Communications Commission

Washington, DC 20554

News Media Information 202-418-0500
Internet: www.fcc.gov

DA 25-876
Released: September 22, 2025

**MEDIA BUREAU ESTABLISHES PLEADING CYCLE FOR THREE SETS OF ASSIGNMENT APPLICATIONS TO GRAY TELEVISION LICENSEE, LLC, FROM SUBSIDIARIES OF (1) SAGAMOREHILL BROADCASTING II, LLC; (2) BLOCK COMMUNICATIONS, INC.; AND (3) ALLEN MEDIA, LLC**

**Petition to Deny Date: October 22, 2025**
**Opposition Date: November 6, 2025**
**Reply Date: November 17, 2025**

As set forth in the Attachment, the Federal Communications Commission (Commission) on September 22, 2025 accepted for filing three sets of applications seeking consent to the assignment of broadcast television licenses to Gray Television Licensee, LLC, (Gray) from subsidiaries of: (1) SagamoreHill Broadcasting II, LLC (SagamoreHill)); (2) Block Communications, Inc. (Block); and (3) Allen Media, LLC (Allen Media).[1]

The Commission's Local Television Ownership Rule[2] generally prohibits common ownership of two full power stations with overlapping contours in the same Nielsen Designated Market Area (DMA), where both are ranked among the top four stations in the DMA, subject to certain exceptions (the Top-Four Prohibition).[3] On July 23, 2025, the United States Court of Appeals for the Eighth Circuit issued a decision vacating and remanding the Top-Four Prohibition.[4] It is anticipated that the mandate for the vacatur of the Top-Four Prohibition will take effect on October 21, 2025.

Gray proposes to own two or more full power stations in the following DMAs, for which it requests grant either pursuant to the case-by-case standard in the Commission's Rules,[5] or pursuant to a general and/or failing station waiver:[6]

**SagamoreHill-Gray**

- Lubbock DMA: KCBD(TV) and KJTV-TV, Lubbock, Texas, and KLCW-TV, Wolfforth, Texas.
- Columbus, GA DMA: WTVM(TV) and WLTZ(TV), Columbus, Georgia.

[1] The full list of applications and licensee subsidiaries are listed in the Attachment. Copies of the applications are available in the Commission's Licensing and Management System (LMS).

[2] 47 CFR § 73.3555(b).

[3] 47 CFR § 73.3555(b)(1)(ii).

[4] *Zimmer Radio of Mid-Missouri, Inc. v. FCC, et al*., No. 24-1380 (8th Cir. July 23, 2025). The court also vacated an amendment to Note 11 of that rule that included multicast and low-power television streams in the Top-Four Prohibition.

[5] 47 CFR § 73.3555(b)(2).

[6] 47 CFR § 1.3; 47 CFR § 73.3555(b), Note 7.

**Block-Gray**

- Louisville DMA: WAVE(TV) and WDRB(TV), Louisville, Kentucky, and WBKI(TV), Salem, Indiana.

**Allen Media**

- Huntsville-Decatur (Florence) DMA: WAFF(TV) and WAAY-TV, Huntsville, Alabama.
- Paducah-Cape Girardeau-Harrisburg DMA: KFVS(TV), Cape Girardeau, Missouri, and WSIL-TV, Harrisburg, Illinois.[7]
- Evansville DMA: WFIE(TV) and WEVV-TV, Evansville, Indiana.
- Fort Wayne DMA: WPTA(TV), WISE-TV, and WFFT-TV, Fort Wayne, Indiana.
- Montgomery DMA: WSFA(TV) and WCOV-TV, Montgomery, Alabama, and WIYC(TV), Troy, Alabama.
- Lafayette, Louisiana DMA: KATC(TV) and KADN-TV, Lafayette, Louisiana.[8]
- Rockford DMA: WSLN(TV), Freeport, Illinois, and WREX(TV), Rockford, Illinois.

**GENERAL INFORMATION**

The applications for assignment of licenses referred to in this Public Notice have been accepted for filing upon initial review. The Commission reserves the right to return any application if, upon further examination, it is determined to be defective and not in conformance with the Commission's Rules or policies. Interested persons must file petitions to deny no later than October 22, 2025. Oppositions to petitions to deny must be filed no later than November 6, 2025. Replies must be filed no later than November 17, 2025. Persons and entities that properly file petitions to deny become parties to the proceeding.

To allow the Commission to consider fully all substantive issues regarding the applications in as timely and efficient a manner as possible, petitioners should raise all issues in their initial filings. Replies should only address matters raised in oppositions.[9]

Although we are issuing this Public Notice establishing the pleading cycles for the three sets of assignment applications as a matter of administrative convenience, we emphasize that we will not necessarily process these applications simultaneously, and that petitioners should submit their filings only in the application files in which they have standing.

All filings concerning matters referenced in this Public Notice must refer to the specific file numbers of the individual applications or other matters to which the filings pertain.

Submissions in this matter must be filed electronically (*i.e.*, through LMS).

**In addition, one copy of each submission must be sent to the following:**

- David Brown, Chief, Video Division, Media Bureau, e-mail David.Brown@fcc.gov
- Jeremy Miller, Video Division, Media Bureau, e-mail Jeremy.Miller@fcc.gov

[7] Gray also requests a continuing satellite exception for KPOB-TV, Poplar Bluff, Missouri.

[8] Allen Media-Gray Applications, Comprehensive Exhibit at 6-7. In the Lafayette, Louisiana DMA where Gray proposes ultimately to operate KATC and KADN-TV, Gray's planned acquisition of KATC is pending before the Commission in a separate transaction. *Id*. at 7 (citing *Media Bureau Establishes Pleading Cycle for Assignment Applications Between Gray and Scripps*, Public Notice, DA 25-672 (MB rel. Jul. 30, 2025)).

[9] 47 CFR § 1.45(c).

*Availability of Documents*. Documents in this proceeding are available electronically through the FCC's Licensing and Management System at the file numbers in the Attachment.

*People with Disabilities*. To request materials in accessible formats for people with disabilities (braille, large print, electronic files, audio format), send an e-mail to fcc504@fcc.gov or call the Consumer & Governmental Affairs Bureau at 202-418-0530 (voice), 202-418-0432 (TTY).

For further information, contact David Brown at (202) 418-1645 or Jeremy Miller at (202) 418-1507. For press inquiries, contact Nancy Murphy at (202) 418-1043.

This action is taken by the Acting Chief, Media Bureau, pursuant to authority delegated by sections 0.61 and 0.283 of the Commission's Rules.[10]

By: Acting Chief, Media Bureau

**PS Docket No. 23-237 and WT Docket 02-378**

The Region 15 700 MHz and 800 MHz Regional Planning Committees (RPCs) will hold two consecutive virtual meetings Thursday, October 9, 2025. Beginning at 1:30 PM (CDT) the Region 15 700 MHz RPC will convene via Microsoft Teams. The Region 15 800 MHz RPC meeting will convene immediately following the conclusion of the 700 MHz RPC meeting.

Join Meeting Now from your computer, tablet or smartphone.
- Meeting ID: 241 723 170 951
- Passcode: HH2Sc9wN
- Meeting also available by phone: +1 515-207-8241
- Phone conference ID: 895 781 978#

The agenda for the 700 MHz RPC meeting:
- Call to Order
- Introductions
- Approval of Agenda
- Approval of Minutes: April 10, 2025
- Public Comment & Correspondence
- Chairperson's Report
- Old Business
- Review of Applications
- New Business
  - Election of Officers 2026
- Next meeting: April 9, 2026
- Adjourn

The agenda for the 800 MHz RPC meeting:
- Call to Order
- Introductions
- Approval of Agenda
- Approval of Minutes: April 10, 2025
- Public Comment & Correspondence
- Chairperson's Report
- Old Business
  - Discussion and possible action to authorize updating and amending the plan.
- Review of Applications
- New Business

- Election of Officers 2026
- Next meeting: April 9, 2026
- Adjourn

The Region 15 RPC meetings are open to the public. All public safety providers in Region 15 may utilize these 700 MHz and 800 MHz frequencies. It is essential that eligible public safety agencies in all areas of government, including state, municipality, county, and Tribal Nations be represented in order to ensure that each agency's future spectrum needs are considered in the allocation process. Administrators who are not oriented in the communications field should delegate someone with this knowledge to attend, participate, and represent their agency's needs.

All interested parties wishing to participate in planning for the use of public safety spectrum in the 700 MHz and 800 MHz bands within Region 15 should plan to attend. For more information, please contact:

## WIRELINE COMPETITION BUREAU REMINDS INTERCONNECTED VOIP PROVIDERS OF THEIR LOCAL NUMBER PORTABILITY AND SECTION 214 DISCONTINUANCE OBLIGATIONS

**WC Docket Nos. 04-36, 07-243, & 07-244, CC Docket No. 95-116**

The Wireline Competition Bureau (Bureau) issues this Public Notice to remind interconnected voice over Internet protocol (VoIP) providers of two requirements intended to protect consumers who subscribe to these services. First, the Bureau reminds interconnected VoIP providers and their numbering partners (as applicable) of their obligations to comply with the Local Number Portability (LNP) rules.[1] Second, the Bureau reminds interconnected VoIP providers of their obligations under section 214 of the Communications Act of 1934 (the Act),[2] as amended, and section 63.71 of the Commission's rules, prior to undertaking a service discontinuance.[3]

Pursuant to section 52.34(a) of the Commission's rules, all interconnected VoIP providers must facilitate local number portability for end-user customers to allow those customers to keep their existing North American Numbering Plan (NANP) telephone number when switching to a new service provider, and must execute porting requests without unreasonable delay.[4] Section 52.34(a) makes no distinction between interconnected VoIP providers that obtain numbering resources directly from the North American Numbering Plan Administrator and interconnected VoIP providers that obtain numbering resources indirectly through what are known as "numbering partners."[5] This requirement also applies to

[1] *See* 47 CFR §§ 52.20-52.37 (number portability rules); 47 CFR § 52.5(h); *Telephone Number Portability et al.,* WC Docket Nos. 07-243 et al., Report and Order, Declaratory Ruling, Order on Remand, and Notice of Proposed Rulemaking, 22 FCC Rcd 19531, 19548-51, paras. 30-38 (2007) *aff'd sub nom. National Telecomms. Cooperative Ass'n v. FCC*, 563 F.3d 536 (D.C. Cir. 2009) (*VoIP LNP Order)* (extending LNP obligations to interconnected VoIP providers). For a summary of LNP orders prior to the *VoIP LNP Order*, *see* VoIP LNP Order, 22 FCC Rcd at 19534-37, paras. 6-11.

[2] 47 U.S.C. § 214.

[3] 47 CFR § 63.71; *see also In the Matter of IP-Enabled* Services, WC Docket No. 04-36, Report and Order, 24 FCC Rcd 6039 (2009) (*VoIP Discontinuance Order*). Although the Bureau highlights two particular regulatory obligations herein, these are two of multiple Commission requirements applicable to interconnected VoIP providers.

[4] 47 CFR § 52.34(a). (Requiring all interconnected VoIP providers to "facilitate local number portability for their end-user customers tor a Registered Internet-based TRS User's valid number portability request," which entails "tak[ing] all steps necessary to initiate or allow a port-in or port-out itself or through the telecommunications carriers, if any, that it relies on to obtain numbering resources, subject to a valid port request, without unreasonable delay or unreasonable procedures that have the effect of delaying or denying porting of the NANP-based telephone number.").

[5] *See id.* Indeed, the Commission observed when initially adopting this requirement that "when an interconnected VoIP provider obtains NANP telephone numbers and LNP capability through a numbering partner, the interconnected VoIP provider does not itself execute the port of the number from a technical perspective. In such

(continued….)

interconnected VoIP providers that resell services not only of numbering partners, but also of other interconnected VoIP providers.[6] In addition, we remind service providers functioning as numbering partners for interconnected VoIP providers, that they, too, are required to facilitate LNP requests to or from the interconnected VoIP providers for which they serve as numbering partners.[7]

Interconnected VoIP providers also have obligations under section 214 of the Act, which requires carriers to obtain authorization from the Commission before discontinuing, reducing, or impairing service to a community or part of a community.[8] The Commission's rules in Part 63 implement section 214 of the Act and give service providers an opportunity to file an application with the Commission to potentially receive an automatic grant of authority after they comply with certain obligations under the rules. The Commission has extended to interconnected VoIP providers the same discontinuance obligations that apply to domestic non-dominant telecommunications carriers.[9] These discontinuance obligations generally include the "requirements to provide written notice to all affected customers, notify relevant state authorities, and file an application for authorization of the planned discontinuance with the Commission."[10] Pursuant to section 63.71 of the Commission's rules, interconnected VoIP providers are specifically required to notify all affected customers of the planned discontinuance, reduction, or impairment of service on or before the date of filing their application with the Commission. They are required to include in the notice, among other things, a specific statement to inform customers of their right to object to the discontinuance and to inform the Commission of "any inability to acquire reasonable substitute service."[11] The application may then be automatically granted 31 days after the Commission releases public notice of the filing, unless the Commission notifies the interconnected VoIP provider that its application will not be automatically granted.[12]

As the Commission reemphasized in the VoIP Discontinuance Order, the requirements under section 63.71 of the Commission's rules balance the Commission's dual objectives of permitting ease of exit from competitive markets and ensuring that the public will be given a reasonable period of time to make other service arrangements."[13] Accordingly, we remind interconnected VoIP providers that they are subject to these obligations, that they must fully comply with the Commission's discontinuance rules whether or not they are subject to bankruptcy, and that they may be exposed to penalties for failure to comply with the Commission's rules.

**WIRELINE COMPETITION BUREAU ANNOUNCES COMPLIANCE DATES FOR THE TEXT-TO-988 GEOROUTING FOURTH REPORT AND ORDER**

**WC Docket No. 18-336**

On July 24, 2025, the Federal Communications Commission (Commission) adopted a *Fourth Report and Order* (*Text-to-988 Georouting Report and Order* or *Order*) in WC Docket No. 18-336. In the *Order*, the Commission adopted rules requiring covered text providers to develop the capability to transmit georouting data in a format that enables the 988 Suicide & Crisis Lifeline to route covered 988 text messages based on the general geographic area where the handset is located, rather than by the area code of the texter's phone number.[1]

On September 16, 2025, a summary of the *Text-to-988 Georouting Report and Order* was published in the Federal Register, and the rules will become effective 30 days later, on October 16, 2025.[2] The *Order* established compliance dates of 18 months for nationwide Commercial Mobile Radio Service (CMRS) providers, and 36 months for non-nationwide providers, following the effective date of the rules.[3] Accordingly, covered text providers that are nationwide CMRS providers must comply with the rules adopted in the *Text-to-988 Georouting Report and Order* no later than **April 16, 2027**, and non-nationwide CMRS providers must comply no later than **October 16, 2028**.[4]

**WIRELINE COMPETITION BUREAU ANNOUNCES OMB APPROVAL OF REVISED IPCS ANNUAL REPORTING AND CERTIFICATION REQUIREMENTS**

**WC Docket Nos. 23-62 and 12-375**

By this Public Notice, the Wireline Competition Bureau (WCB) announces that the Office of Management and Budget (OMB) has approved the revised information collection requirements associated with section 64.6060(a) of the Commission's rules,[1] which were adopted in the Commission's *2024 IPCS Order*,[2] and the *2025 IPCS Annual Reports Order*.[3] Those requirements are now effective.

In the *2024 IPCS Order*, the Commission streamlined the annual reports that providers of incarcerated people's communications services (IPCS) are required to submit.[4] On January 8, 2025, WCB released the *2025 IPCS Annual Reports Order*, which revised the instructions, reporting templates, and certification form for the annual reports and certifications that IPCS providers are required to submit.[5] The Commission submitted to OMB its revisions to the relevant information collection for review and approval under the Paperwork Reduction Act[6] and on September 8, 2025, OMB approved the information collection.[7] On September 19, 2025, the Commission published a notice in the Federal Register

[1] 47 CFR § 64.6060(a).

[2] *Incarcerated People's Communications Services; Implementation of the Martha Wright-Reed Act; Rates for Interstate Inmate Calling Services*, WC Docket Nos. 23-62 and 12-375, Report and Order, Order on Reconsideration, Clarification and Waiver, and Further Notice of Proposed Rulemaking, 39 FCC Rcd 7647, 7940-44, paras. 565-72 (2024) (*2024 IPCS Order*).

[3] *Incarcerated People's Communications Services; Implementation of the Martha Wright-Reed Act; Rates for Interstate Inmate Calling Services*, WC Docket Nos. 23-62 and 12-375, Order, 40 FCC Rcd 149 (WCB 2025) (*2025 IPCS Annual Reports Order*).

[4] *2024 IPCS Order*, 39 FCC Rcd at 7940-44, paras. 565-72; 47 CFR § 64.6060(a).

[6] *2024 IPCS Order*, 39 FCC Rcd at 7944, para. 572 & n.2044; *id*. at 7968, para. 641 (directing WCB to conduct and submit any requisite Paperwork Reduction Act analysis for any changes to the annual report and certification requirements). This information collection, OMB Control No. 3060-1222, is titled "Incarcerated People's Communications Services (IPCS) Provider Annual Reporting, Certification, and Other Requirements, WC Docket Nos. 23-62, 12-375" and, among other things, sets out the requirements for the annual reports and certifications filed by IPCS providers.

[7] *See* Office of Management and Budget, Office of Information and Regulatory Affairs, *Notice of Action*, https://www.reginfo.gov/public/do/PRAViewICR?ref_nbr=202311-3060-001 (last visited Sept. 22, 2025) (approving without change OMB Control No. 3060-1222).

indicating that the revised annual reporting and certification obligations are effective.[8]

In the *2025 IPCS Annual Reports Order*, WCB found good cause to extend the filing deadline for the 2024 IPCS annual reports and certifications from April 1, 2025 to June 2, 2025.[9] WCB later extended the filing deadline from June 2, 2025 to September 15, 2025.[10] On August 12, 2025, WCB further extended the filing deadline to November 3, 2025.[11] Accordingly, we remind IPCS providers that the deadline to submit annual reports and certifications is November 3, 2025.

For additional information regarding this matter, contact Shabbir Hamid, Pricing Policy Division, Wireline Competition Bureau, (202) 418-2328, or email Shabbir.Hamid@fcc.gov.

Dear Mr. Iglesias and Ms. Vasquez:

By this letter order, the Telecommunications and Analysis Division of the Office of International Affairs (OIA) and the Competition Policy Division of the Wireline Competition Bureau of the Federal Communications Commission (Commission) notify Etelix.com USA, LLC (Etelix or Company) that, as described below, it remains in violation of section 214 of the Communications Act, as amended (the Act) and certain Commission rules.[1] To come into compliance, Etelix must submit in the International Communications Filing System (ICFS), the filings set forth below within 30 days of the date of this letter, by **October 27, 2025**.

If Etelix fails to submit the filings by **October 27, 2025**, the Commission or a Bureau or Office acting under delegated authority will:

(1) dismiss the pending assignment application filed by Etelix and Future Voice, LLC d/b/a Voyze (Future Voice) (ITC-ASG-20160609-00166);[2]

(2) initiate a proceeding requiring Etelix to show cause why its blanket domestic section 214

[2] International Application of Future Voice, LLC (Transferor) and Etelix.com USA, LLC (Transferee) for Consent to Transfer and Assign Subscriber Customers Excluding Transfer of Underlying Section 214 International Authority of Transferor, File No. ITC-ASG-20160609-00166 (filed June 9, 2016) (Etelix-Future Voice Assignment Application); *see also International Authorizations Granted* et al., Report No. TEL-00817, Public Notice, 19 FCC Rcd 14146 (2004) (granting Future Voice's international section 214 authorization in File No. ITC-214-20040622-00236).

authority[3] and international section 214 authorization (ITC-214-20090625-00303)[4] should not be revoked[5] and/or why a cease and desist order should not be issued pertaining to Etelix's unauthorized provision of service; and/or

(3) initiate further enforcement action(s) as appropriate.[6]

***Background***

On June 25, 2009, Etelix filed an application with the Commission for international section 214 authority to provide facilities-based service and resale service.[7] In its application, Etelix indicated that it is a Florida limited liability company that is wholly owned by Leandro Iglesias, a citizen of Venezuela.[8] On July 2, 2009, the Commission placed the application on public notice,[9] and on July 17, 2009, the Commission subsequently removed the application from streamlined processing pursuant to section 63.12(c) of the Commission's rules.[10] Then, on March 9, 2010, the Commission granted Etelix's international section 214 authorization.[11]

On June 9, 2016, Etelix filed an application with the Commission for consent to the assignment of Future Voice's international section 214 authorization ITC-214-20040622-00236 to Etelix (ITC-ASG-

[11] Etelix Public Notice Grant.

20160609-00166) (Etelix-Future Voice Assignment Application).[12] The Etelix-Future Voice Assignment Application also indicated that Etelix was wholly owned by Mr. Iglesias.[13] On June 11, 2016, the Department of Justice, with the concurrence of the Department of Defense and the Department of Homeland Security, requested that the Commission defer action on the Etelix-Future Voice Assignment Application to review the application for any national security, law enforcement, and public safety issues.[14]

On August 18, 2016, Etelix filed a request for special temporary authority (STA) so that it could continue to provide service to Future Voice's customers during the pendency of the Etelix-Future Voice Assignment Application.[15] On November 22, 2016, the Commission granted the STA, which expired on May 19, 2017. Etelix to date has not filed with the Commission's Office of International Affairs any request for additional STA and the Etelix-Future Voice Assignment Application remains pending.[16]

During its review of the Etelix-Future Voice Assignment Application, the Committee for the Assessment of Foreign Participation in the United States Telecommunications Services Sector (Committee) discovered that Etelix had apparently engaged in a series of transactions without required Commission approval. On September 30, 2020, the Committee returned the application to the Commission "for further review under the Commission's rules and regulations."[17]

OIA referred the matter to the Commission's Enforcement Bureau, which, on July 20, 2022, issued a Notice of Apparent Liability for Forfeiture (*NAL*) against Etelix.[18] In the *NAL*, the Enforcement Bureau concluded that Etelix apparently had violated section 214 of the Act and sections 1.65, 63.24(f), and 63.25(b) of the Commission's rules[19] by "willfully or repeatedly operating without an authorization, failing to report several *pro forma* changes in Etelix's ownership structure, and failing to update its pending [assignment] application [(ITC-ASG-20160609-00166)] to reflect these ownership changes."[20]

---

[12] In its application, Etelix stated, "[s]ubject to approval by the Commission, the transfer and assignment of these customers/subscribers will take place immediately pursuant to the Court's Order granting settlement." *See* Etelix-Future Voice Assignment Application at 3. *See also Streamlined International Applications for Filing, Section 214 Applications (47 C.F.R. § 63.18)*, Report No. TEL-01823S, Public Notice (Nov. 18, 2016) (Etelix-Future Voice Assignment Application Public Notice); *In RE: Future Voice, Assignor, to John A. [16] Exec. Order No. 13913, 85 Fed. Reg. 19643 (Apr. 4, 2020).

[17] Letter from Christine M. Quinn, Attorney Advisor, Foreign Investment Review Section, National Security Division, U.S. Department of Justice (Sept. 30, 2020). On April 4, 2020, the President signed Executive Order 13913 establishing the Committee. Exec. Order No. 13913, 85 Fed. Reg. 19643 (Apr. 4, 2020).

[18] *Etelix.com USA, LLC,* Notice of Apparent Liability for Forfeiture, 37 FCC Rcd 8622 (EB 2022) (*NAL*).

[19] 47 U.S.C. § 214; 47 CFR §§ 1.65, 63.24(f), 63.25(b).

[20] *NAL*, 37 FCC Rcd at 8622, para. 1.

In particular, the Enforcement Bureau found that in June 2018, Etelix engaged in several reorganizations that resulted in the need to submit two separate *pro forma* transfers of control. First, in June 2018 Etelix became a wholly owned subsidiary of PureSnax (subsequently named iQSTEL, Inc.), a company in which Mr. Iglesias held a 55.02% ownership interest.[21] Second, in August 2019, Mr. Iglesias's ownership interest in Etelix decreased from 55.02% to 11.84%, but Mr. Iglesias retained his positions as President, CEO, and member of the Board of Etelix.[22] A third *pro forma* transfer of control apparently occurred in December 2020 when Mr. Iglesias was issued additional stock increasing his ownership interest in iQSTEL and Etelix, from 11.84% to 70%.[23] Etelix did not notify the Commission of any of these *pro forma* transfers of control within the required 30 days.[24]

The Enforcement Bureau notified Etelix that it was apparently liable for a total forfeiture of $20,000 for its apparent willful or repeated violations of the rules as described above.[25] On September 12, 2022, Etelix acknowledged that it owed a debt of $20,000 to the Commission and subsequently entered into an installment payment plan with the Commission's Office of the Managing Director to pay the debt. Although there was a period of delinquency following the first payment on the installation plan, on September 27, 2024, Etelix paid its $20,000 debt in full to the U.S. Treasury. The Commission then recorded the Etelix payment in its records and on October 10, 2024, removed Etelix from Red Light status.

Since the issuance of the *NAL*, OIA staff have contacted Etelix's counsel of record, Edward Maldonado, regarding Etelix's continued noncompliance and discussed the filings that Etelix must make to come into compliance with the Commission's rules. On November 13, 2022, Etelix filed an Ownership Supplement that purported to "update certain notices of pro forma changes of control as required by 47 CFR § 63.24(f) that occurred over time in its process of it being wholly transferred as a subsidiary of a publicly listed company controlled by its original sole owner."[26] Mr. Maldonado subsequently indicated that Etelix would submit corrective filings by December 2022, and made similar indications to submissions by February 2023, and again by March 2023.[27] On March 1, 2023, OIA staff

Maldonado PA (Mar. 1, 2023, 8:53 EST); Email from

met with Mr. Maldonado to discuss the filings Etelix was required to make to come into compliance with the Commission's rules. On March 20, 2023, Etelix filed three documents similarly titled "Notice of Past Pro Forma Transfer of Control of Licensee Under Transition from Privately Held Company" (Notices).[28]

Accordingly, because Etelix did not properly file the required *pro forma* notifications during the pendency of the Etelix-Future Voice Assignment Application, Etelix has been in violation of section 1.65 of the Commission's rules, which requires applicants to ensure the "continuing accuracy and completeness of information furnished in a pending application" since the transactions noted above took place, a period of at least six years.[29] Finally, because the application is pending and Etelix has failed to file a subsequent STA, if Etelix has provided service to Future Voice customers at any point after the STA expired, such service has not been authorized by the Commission.[30]

***Compliance***

Based on OIA staff review, the filings submitted by Etelix do not meet the procedural or substantive requirements of the Commission's *pro forma* rules for international section 214 authorization[31] or address the statutory and other rule violations set forth in the *NAL*.[32] To come into compliance, Etelix must take the following steps within 30 days of the date of this letter, by **October 27, 2025**.

First, Etelix must file in the Commission's ICFS a request for an STA from the Commission to

---

Edward Maldonado, Esq., Law Offices of Edward A. Maldonado PA to Denise Coca, Chief, Telecommunications Analysis Division, OIA, FCC *et al*. (Mar. 13, 2023, 11:10 EDT).

[28] The three Notices state, "[t]he Pro Forma change of control was a part of a series of restructuring phases to allow the company to be held by a publicly traded holding company, iQSTEL, Inc." and provide time frames of the beneficial ownership and voting changes of IQSTEL, Inc. *See* Etelix.com USA, LLC, Notice of Past Pro Forma Transfer of Control of Licensee Under Transition From Privately Held Company To Publically [sic] Held Company, File Nos. ITC-214-20090625-00303, EB-IHD-20-00031637 (filed Mar. 20, 2023) (stating "[t]he period of time of this Notice is January 30, 2021 onward"); Etelix.com USA, LLC, Notice of Past Pro Forma Transfer of Control of Licensee Under Transition From Privately Held Company To Publically [sic] Held Company, File Nos. ITC-214-20090625-00303, EB-IHD-20-00031637 (filed Mar. 20, 2023) (stating "[t]he period of time of this Notice is from March 31, 202[0] to November 30, 2020, and up and until to January 30, 2021"); Etelix.com USA, LLC, Notice of Past Pro Forma Transfer of Control of Licensee Under Transition From Privately Held Company To Publically [sic] Held Company, File Nos. ITC-214-20090625-00303, EB-IHD-20-00031637 (filed Mar. 20, 2023) (providing information "from original International Section 214 Authority grant until March of 2020").

[29] 47 CFR § 1.65 ("Each applicant is responsible for the continuing accuracy and completeness of information furnished in a pending application…[W]henever the information furnished in the pending application is no longer substantially accurate and complete in all significant respects, the applicant shall as promptly as possible and in any event within 30 days,…amend or request the amendment of the application so as to furnish such additional or corrected information as may be appropriate.").

[30] 47 U.S.C. § 214(a); 47 CFR § 63.24(a) ("Except as otherwise provided in this section, an international section 214 authorization may be assigned, or control of such authorization may be transferred by the transfer of control of any entity holding such authorization, to another party, whether voluntarily or involuntarily, directly or indirectly, only upon application to and prior approval by the Commission."); 47 CFR § 63.24(e)(1) ("In the case of an assignment or transfer of control shall of an international section 214 authorization that is not pro forma, the proposed assignee or transferee must apply to the Commission for authority prior to consummation of the proposed assignment or transfer of control.").

[31] 47 CFR §§ 63.24(d), (f), (h).

[32] *NAL*, 37 FCC Rcd at 8628-29, para. 16-18.

continue to provide international telecommunications services to Future Voice's customers during the pendency of the Etelix-Future Voice Assignment Application.[33] As noted, Etelix is currently not in compliance with the Commission's rules and is operating without Commission authority.[34]

Second, Etelix must file in ICFS, in File No. ITC-214-20090625-00303, three separate *pro forma* notifications: one for each of the unreported transactions that occurred on (1) June 25, 2018, (2) August 2019, and (3) December 2, 2020 as required by section 63.24(f) of the Commission's rules, using the appropriate electronic forms with the appropriate attachments.[35] Etelix did not file the three pro forma notifications in accordance with our rules. Under section 63.24(f) of our rules, Etelix was required to file three separate pro forma notifications in the Commission's ICFS, with each notification having its own file number. Instead of filing three separate notifications, however, Etelix filed three notices (Notices) and an Ownership Supplement in the ICFS file for its original international section 214 authorization. The three *pro forma* notifications must address the time frames identified by the Enforcement Bureau in the *NAL* and include all information required by section 63.24(f).[36]

Third, Etelix must update the ownership information in the pending Etelix-Future Voice Assignment Application (ITC-ASG-20160609-00166). The Ownership Supplement and Notices that Etelix submitted do not substantively address the unreported transactions identified in the *NAL*. The unreported transactions occurred on June 25, 2018, August 2019, and December 2, 2020, whereas the Ownership Supplement and Notices provide information regarding ownership of iQSTEL, Inc. from November 2020 through March 2023. Moreover, the information in the Ownership Supplement and Notices does not explain or account for the June 25, 2018, August 2019, or December 2, 2020 *pro forma* violations identified in the *NAL*.[37] Additionally, Etelix did not include in the Ownership Supplement and Notices the information required by section 63.24(f)(2) of the rules, which requires *pro forma* notifications to include information requested from international section 214 applicants under sections 63.18(a)-(d) and (h).[38] For example, none of the documents submitted by Etelix contain a certification

[33] Etelix-Future Voice Assignment Application, ITC-ASG-20160609-00166; 47 CFR § 63.25(b).

[34] We note that Etelix has apparently been providing unauthorized service since the expiration of its previous STA on May 19, 2017, and that Etelix may be subject to enforcement action for past non-compliance even if it obtains a new STA.

[35] *NAL*, 37 FCC Rcd at 8628-29, para. 16; *see* 47 CFR § 63.24(f)-(h). To file a supplement or other document relevant to an international section 214 application after initial filing, use the ICFS Pleadings and Comments feature. Navigate to https://www.fcc.gov/icfs and locate the "Pleadings and Comments" tab along the top menu bar. Next, provide responses in the required fields of the Pleading and Comment form and attach any documents. Ensure that you have entered all file numbers you wish to contain the attached documents. When you have completed the form, click "Submit."

[36] *NAL*, 37 FCC Rcd at 8628-29, para. 16; *see also* 47 CFR § 63.24(f)-(h).

[37] *NAL*, 37 FCC Rcd at 8628-29, para. 16.

[38] 47 CFR § 63.18(a)-(d) and (h) requires applicants to provide the name, address, and telephone number of each applicant; the Government, State, or Territory under the laws of which each corporate or partnership applicant is organized; the name, title, post office address, and telephone number of the officer and any other contact point, such as legal counsel, to whom correspondence concerning the application is to be addressed; a statement as to whether the applicant has previously received authority under section 214 of the Act and, if so, a general description of the categories of facilities and services authorized (i.e., authorized to provide international switched services on a facilities basis); the name, address, citizenship, and principal businesses of any individual or entity that directly or indirectly owns ten percent or more of the equity interests and/or voting interests, or a controlling interest, of the applicant, and the percentage of equity and/or voting interest owned by each of those entities (to the nearest one percent); an ownership diagram that illustrates the applicant's vertical ownership structure, including the direct and

that the transfers of control were *pro forma* and that, together with all previous pro forma transactions, did not result in a change in the actual controlling party, as required by section 63.24(f)(2)(ii).[39] Furthermore, the documents do not contain the name, address, citizenship, and principal business of all individuals and entities that directly or indirectly own ten percent or more of voting interest in Etelix as required by section 63.18(h)(1).[40] Thus, Etelix has failed to submit the corrective filings that would bring it into compliance.

The updated ownership information must incorporate the information in the three separate *pro forma* transactions identified in the *NAL* and any subsequent transactions that have occurred.[41] The ownership information must also include ownership charts that set forth the pre- and post-transaction ownership information for each *pro forma* transaction and any substantial transaction(s) that have occurred.[42]

Finally, Etelix must provide a description of the services that it provides, confirmation as to whether it continues to provide such services, a description of the types of customers (i.e., residential, small business, enterprise, other carriers) Etelix currently serves, and the approximate number of

---

indirect ownership (equity and voting) interests held by the individuals and entities named in response to paragraph (h)(1) of the section; and any interlocking directorates with a foreign carrier.

customers for each type. We are not aware that Etelix provides domestic telecommunications services pursuant to its section 214 blanket domestic operating authority, but it should confirm whether or not it does in its response.[43]

Pursuant to authority granted by the Communications Act of 1934 and the Commission's rules,[44] we hereby order Etelix to submit its filings in ICFS to comply with the Commission's rules, as described above, within 30 days of the date of this letter, by **October 27, 2025.** If Etelix fails to submit the filings described above by **October 27, 2025,** the Commission or a Bureau or Office acting under delegated authority will: (1) dismiss the pending assignment application (ITC-ASG-20160609-00166); (2) initiate a proceeding requiring Etelix show cause why its domestic section 214 authority and international section 214 authorization (ITC-214-20090625-00303) should not be revoked and/or why a cease and desist order should not be issued pertaining to Etelix's unauthorized provision of service; and/or (3) initiate further enforcement action(s) as appropriate.[45]

We remind Etelix that Section 1001 of Title 18 of the United States Code and section 1.17 of the Commission's rules prohibit misrepresentations and/or willful omissions of material facts in response to Commission inquiries.[46] Failure to provide accurate, truthful and complete responses to the foregoing requests for information may result in the imposition of further sanctions.[47]

If you have any questions, please contact Joseph Meyer at (202) 418-7843 or Joseph.Meyer@fcc.gov.

[43] Even if Etelix does not provide domestic telecommunications services pursuant to its section 214 blanket domestic operating authority, the Commission retains its ability to withdraw such blanket grant on an individual basis for enforcement purposes. *See supra* n.5.

[44] *See, e.g.*, 47 U.S.C. §§ 214, 218, 219, 403; 47 CFR §§ 0.19, 0.91, 0.291, 0.351, 1.65, 63.24, 63.25.

[45] 47 U.S.C. §§ 312(c), 503(b); 47 CFR § 1.80(a)(2) (authorizing the assessment of forfeiture penalties against any person found to have willfully or repeatedly violated the Act, Commission rules, or a Commission order).

## PUBLIC SAFETY AND HOMELAND SECURITY BUREAU HIGHLIGHTS BEST PRACTICES FOR CROSS-SECTOR COOPERATION AND NETWORK RESILIENCY DURING HURRICANE SEASON

**PS Docket Nos. 21-346 and 15-80; ET Docket No. 04-35**

By this Public Notice, the Public Safety and Homeland Security Bureau (Bureau) of the Federal Communications Commission (Commission) identifies best practices for cross-sector cooperation and network resiliency, including those distilled from the Hurricane Season Resiliency Roundtable (Roundtable) that the Commission hosted on July 7, 2025.[1] The Roundtable brought together representatives from the communications and power sectors, as well as federal and state emergency response officials, to discuss preparedness and collaboration between stakeholders before, during, and after a hurricane. Through three expert panels, the Roundtable examined (1) the challenges to hurricane inter-sector cooperation in hurricane response and recovery, (2) current government, intra-industry, and cross-industry resiliency partnerships, and (3) advance preparation frameworks and best practices for power-communications cooperation.[2] Experts from all three panels also provided important information about a wide variety of disasters beyond hurricanes. From these discussions, the Bureau highlights the following best practices:[3]

***Protect cable and fiber lines.*** Protecting cable and fiber lines is critical to disaster recovery. Damage to these networks can cripple communications, delays emergency response, disrupts rescue operations, and cuts off essential services like healthcare, transportation, and banking—severing lifelines for affected communities. Before hurricanes and other disasters, aboveground cable and fiber lines should be clearly tagged to safeguard against inadvertent damage or secondary cuts.[4] Aboveground communications and power lines are vulnerable to weather-related hazards. In order to minimize disruptions to communications, network operators and public safety stakeholders should work with

[1] *Public Safety and Homeland Security Bureau to Host a Public Hurricane Season Resiliency Roundtable on Communications and Power Sector Collaboration on July 7, 2025*, Public Notice, DA 25-498 (PSHSB 2025), https://docs.fcc.gov/public/attachments/DA-25-498A1.pdf. A recording of the Roundtable can be found on the Commission's website. *See* FCC, *Hurricane Season Resiliency Roundtable*, (July 7, 2025), https://www.fcc.gov/news-events/events/2025/07/hurricane-season-resiliency-roundtable (Roundtable Recording).

[2] *See* Press Release, FCC, *FCC Announces Hurricane Season Resiliency Roundtable* (June 10, 2025), https://docs.fcc.gov/public/attachments/DOC-411902A1.pdf.

[3] Many of these best practices are closely aligned with those developed and adopted by the Commission's Communications Security, Reliability and Interoperability Council (CSRIC). The Commission has made CSRIC best practices and general resources on network reliability available online on its open data site. *See* CSRIC Best Practices, FCC Open Data, https://opendata.fcc.gov/Public-Safety/CSRIC-Best-Practices/qb45-rw2t/data (last visited Aug. 27, 2025) (CSRIC BP). We reference CSRIC-developed best practices as relevant below.

[4] Roundtable Recording at 56:32-56:56; 2:12:49-2:13:55; 2:44:52-2:45:40; 3:06:18-3:07:22.

utilities to ensure that aerial power lines that are vulnerable to "high winds or icy conditions" would have redundant paths, so as to not produce a loss of service.[5]

Buried cables and fiber lines are less prone to damage from disasters like hurricanes or from inadvertent damage during recovery efforts (e.g., burying fiber will help prevent it from being cut as debris is cleared).[6] While burying all cables and fiber lines might not be feasible due to cost, an alternative is to "harden overhead transmission lines by building stronger poles, and using storm guying, push braces, pole class uprating, shorter spans, smaller conductor sizes, fewer attachments, and increased vegetation management."[7]

During recovery, "[a]s debris removal services are activated, it is important that there is coordination and sharing of information between industry and government stakeholders regarding observance of markers for underground communications lines, preservation of infrastructure during debris removal, and cutting and clearing of obstructions to key facilities."[8] Responders may need to lay temporary cable on the ground to reestablish connectivity. Because of the risk that these cables will accidentally be cut by emergency workers or debris removal crews trying to clear the road,[9] it is best practice to clearly label temporary fiber so everyone on the ground knows its importance.[10]

Adhering to proper excavation procedures during natural disaster recovery is critical to safeguarding response personnel and minimizing the risk of additional structural damage. Emergency situations involve a wide range of stakeholders—including excavators, locators, facility owners/operators, first responders, 811 centers, and the public—whose actions can significantly impact one another.[11] To mitigate risks and ensure effective coordination, emergency planning and response efforts should be integrated and collaborative. This includes close coordination with emergency responders and both aboveground and underground infrastructure owners/operators, as identified by the Incident Commander through the Incident Command System/Unified Command (ICS/UC) framework during an emergency.[12]

---

[5] *See* CSRIC BP 13-10-0634.

[6] Roundtable Recording at 58:13-1:00:32; 1:01:15-1:01:52; 1:02:13-1:02:27; 2:54:53-2:55:16; 3:06:18-3:07:22. Network operators should dig carefully and use guidance from industry sources to protect underground facilities during excavation or when installing underground facilities. CSRIC BP 13-10-0710 and 13-10-0719. Additionally, CSRIC best practices state that Network Operators and Service Providers "should review, and adopt as appropriate, Best Practices aimed at reducing damage to underground facilities that are maintained by the Common Ground Alliance." *See* CSRIC BP 13-10-0741. Utility companies might consider dialing 811 to ensure that no buried communications lines are in the path of power restoration—e.g., pole repair near buried fiber lines. *See* U.S. Dept. of Transportation, *Call 811 Before You Dig*, https://www.transportation.gov/content/call-811-you-dig-1 (last visited Sept. 16, 2025). Burying cable and fiber lines is not a panacea. Undergrounding is generally beneficial but buried infrastructure is subject to erosion from storm surge and water exposure. Roundtable Recording at 1:04:49-1:05:21.

[12] *See id*.

***Establish and foster relationships across industries before disaster strikes.*** Establishing relationships between stakeholders is crucial to effectively preparing for and responding to disasters.[13] Stakeholders should build these relationships during "blue sky" periods before disasters occur.[14] This includes proactively maintaining a list of relevant points of contact with up-to-date contact information and developing a plan for cross-industry support.[15] Relationships can also be more formal, such as establishing a cross-sector resiliency team that works with local first responders and conducts exercises and demonstrations with local, state, and federal emergency management agencies.[16]

***Prepare, coordinate, and practice centralized response plans in advance; establish and maintain lines of communication.*** Establishing and maintaining an open line of communication among stakeholders is essential to ensuring coordination and collaboration leading up to, during, and in the aftermath of a disaster.[17] Communications providers and utilities should coordinate their preparation and response efforts with emergency management authorities in advance, including by identifying critical infrastructure; exchanging primary, alternate, contingency, and emergency (PACE) contact information; developing a process for coordination; and practicing response scenarios through tabletop exercises or other drills.[18] Planning and preparation is now a 365-day per year exercise.[19] Accordingly, planning should be ongoing at all levels of government and industry, and lessons learned should be evaluated and implemented immediately after the last event to ensure better response in the future.[20] Emergency

management officials should include telecommunications and power sector points of contact in preparation and response efforts, including by inviting them to command centers during disasters and recovery.[21] Providers and utilities should formalize their roles in emergency response plans, which should include a local office presence and address how to interact with local emergency management officials.[22] If possible, companies should consider joining their sector's Information Sharing and Analysis Center (ISAC) to further facilitate preparation and coordination.[23]

***Learn other sectors' critical infrastructure.*** Communications providers and utilities should discuss the location and relative criticality of their various equipment and facilities (including deployable assets) with one another and with emergency response officials before disaster strikes.[24] This helps ensure resources are effectively prioritized to maintain power and communications services during response efforts.[25] Communications providers should clearly mark communications lines (such as fiber lines) to help safeguard against inadvertent damage (e.g., debris removal crews accidentally cutting fiber strands, pole replacements disrupting communications lines, and disturbing or running over fiber when roads are being bulldozed).[26] During a disaster or recovery, communications providers should identify for utilities and emergency managers which telecommunications lines are on downed or damaged poles and train responders to identify fiber tagging to avoid making cuts.[27] Providing geographic information system (GIS) information about infrastructure that emergency officials can overlay with their own mapping resources can help responders prioritize and deploy effectively.[28] Additionally, company representatives should coordinate with stakeholders in advance to ensure access to their sites.[29] This will help emergency response officials to know where the problem is, what needs to be done to fix it, and what resources need to be brought to bear on fixing the problem.[30]

***Learn other sectors' lexicons.*** Providers and utilities should learn the language of each other's sector and know which parts of their respective infrastructure is important.[31] This allows service

restoration efforts to be directed more precisely and understood more quickly to facilitate faster recovery through clear and comprehensible instructions.[32]

***Prioritize shoring up, patching, and clearing transportation routes; communicate alternative routes.*** Making roads safe and passable is necessary to ensure responders can get to the infrastructure that needs to be fixed or maintained (e.g., refueling on-site generators).[33] As part of their response plan, local governments can plan to track impassable roads and share alternative routes for responders who may be unfamiliar with the area and would not be aware of potential obstacles that could delay recovery. For instance, when bridges were destroyed by Hurricane Ian, responders were required to use barges to access island communities. Response plans should also address alternative routes to avoid potential downed infrastructure, road closures, and changes to land as a result of disasters (i.e., mudslides). Emergency managers should consider staffing a hotline to provide local geographic information and directions to enable responders to restore communications and power faster.[34]

***Facilitate alternate communications paths.*** Communications providers and utilities should consider using alternate communication paths, such as broadcast television and AM/FM radio, to publicize information about service status, so that the public is better informed and can make alternative plans.[35] Providers and utilities should consider relying on satellite communications during recovery while terrestrial communications repair work occurs.[36] Several CSRIC best practices are also relevant.[37]

***Mutual cross-sector aid and assistance.*** When establishing response plans, communications providers and utilities should consider including provisions for mutual aid, especially to assist smaller communications and power companies that may not have the resources to house and feed personnel or obtain needed materials and equipment on short notice.[38] Mutual aid and assistance can include the

[34] Roundtable Recording at 48:18-48:46; 2:31:41-2:33:10; 2:42:57-2:43:58; 2:45:50-2:46:32.

[35] Roundtable Recording at 36:09-37:20; 50:51-50:57; 2:17:37-2:17:54.

[36] Roundtable Recording at 1:01:49-1:02:21; 1:02:26-1:02-:56.

[37] *See* CSRIC BP 13-10-1050 (recommending "alternative carrier/transport methods such as satellite, microwave or wireless to further reduce point of failures or as hot transport backup facilities."); CSRIC BP 13-9-8068 (recommending notification plans "should alternate communications channels (e.g., alpha pagers, internet, satellite phones, VOIP, private lines, smart phones) balancing the value of any alternate method against the security and information loss risks introduced."); *see also* CSRIC BP 13-10-1036 (stakeholders "should determine in advance whether they will use wireless alternate backhaul systems (microwave radio, free space optics, and satellite communications systems) to re-establish communications and if these technologies are to be deployed it is recommended that path designs be developed for each critical area in advance of deployment with personnel trained to install and optimize the systems."); *and see* CSRIC BP 13-10-5255 ("[T]emporary wireless networks (e.g., terrestrial microwave, free-space optical, satellite, point-to-point, multi-point, mesh) used during an incident should be subsequently disabled or secured.").

[38] Roundtable Recording at 43:21-46:04; 47:00- 47:34; 2:48:50-2:49:38. The Commission adopted mutual aid and roaming requirements in disaster situations for all facilities-based mobile providers. When activated, the Mandatory Disaster Response Initiative (MDRI) requires facilities-based mobile providers to (1) provide for reasonable roaming under disaster arrangements when technically feasible, (2) establish mutual aid agreements with other facilities-based mobile wireless providers, (3) take reasonable measures to enhance municipal preparedness and restoration, (4) take reasonable measures to increase consumer readiness and preparation, and (5) take reasonable measures to improve public awareness and stakeholder communications on service and restoration status. *See* 47 CFR § 4.17(a); *see also* FCC, *Wireless Network Resiliency During Disasters* (June 4, 2024), https://www.fcc.gov/wireless-network-resiliency-during-disasters.

sharing of assets like fuel and backup generators.[39] Sectors should work together to support communities without power or communications service with a shared goal of restoration and connection as critical functions for all people, regardless of which customers are serviced by which companies.[40]

***Build relationships with experts who can provide advice and assistance.*** Establishing a pipeline of experts from the national to the local level is important for responding to disasters, especially those that may be unusual or unexpected in the area experiencing them.[41] For example, California emergency response officials and local power and communications companies have experience addressing wildfires that can prove helpful to other localities responding to wildfires.[42] Federal agencies and national and regional telecommunications and power companies can lend experts to develop preparation frameworks for novel disaster issues and assist during recovery.[43]

***Publicize and encourage individual action plans.*** State and local governments, communications providers, and utilities should communicate with the public to encourage them to develop a plan for their families to manage the effects of a disaster while response crews do their work.[44] Being transparent with customers about restoration timing, and where to find official sources of information during a disaster, is key.[45] When communicating that people should develop such plans, officials should convey what to expect during a disaster, how long the disaster is expected to last, and how long power or communications service may be impacted.[46] Local and state governments should consider communicating to evacuees when it is best to return, considering the impact of returning on recovery resources deployed in the affected area.[47]

# PUBLIC NOTICE

**FEDERAL COMMUNICATIONS COMMISSION**
**45 L Street NE**
**WASHINGTON D.C. 20554**

News media information 202-418-0500
Internet: http://www.fcc.gov

**DA Number: 25-894**
**Report No. SCL-00575** **Thursday September 25, 2025**

**Section 1.767(a) Submarine Cable Landing Licenses, Modifications, and Assignments or Transfers of Control of Interests in Submarine Cable Landing Licenses (47 C.F.R. § 1.767(a))**

**Actions Taken Under Submarine Cable Landing License Act**

By the Chief, Telecommunications and Analysis Division, Office of International Affairs:

Pursuant to an Act relating to the landing and operation of submarine cables in the United States, 47 U.S.C. §§ 34-39 (Submarine Cable Landing License Act), Executive Order No. 10530, Exec. Ord. No. 10530 reprinted as amended in 3 U.S.C. § 301, and section 1.767 of the Commission's rules, 47 CFR § 1.767, the following applications ARE GRANTED. These grants of authority are taken under section 0.261 of the Commission's rules, 47 CFR § 0.261. Petitions for reconsideration under section 1.106 or applications for review under section 1.115 of the Commission's rules, 47 CFR §§ 1.106, 1.115, may be filed within 30 days of the date of this public notice.

These applications have been coordinated with the Department of State and other Executive Branch agencies pursuant to section 1.767(b) of the Commission's rules, 47 CFR § 1.767(b), and consistent with procedures established with the Department of State. See Review of Commission Consideration of Applications under the Cable Landing License Act, IB Docket No. 00-106, Report and Order, 16 FCC Rcd 22167, 22192-93, paras. 51-52 (2001) (Submarine Cable Landing License Report and Order); Commission Announces Department of State's Revised Procedures for its Consideration of Submarine Cable Landing License Applications, IB Docket No. 16-155, Public Notice, DA 22-435 (rel. Apr. 19, 2022).

This public notice serves as each submarine cable landing licensee's Submarine Cable Landing License, or modification thereto, pursuant to the Cable Landing License Act and sections 1.767 and 1.768 of the Commission's rules. Submarine cable landing licensees should review the terms and conditions of their licenses. Failure to comply with these terms and conditions or relevant Commission rules and policies could result in fines or forfeitures.

**SCL-T/C-20231219-00040** Telxius Cable USA, Inc.
**Date filed:** 2023-12-19
Transfer of Control
Grant of Authority Date of Action: 2025-09-24

On December 19, 2023, Telxius Cable USA, Inc. (Telxius USA), a Florida company that is a cable landing licensee, filed a notification of the *pro forma* transfer of control Telxius USA from Telxius Cable America, S.A. (Telxius America) to Telxius Telecom S.A. (Telxius Parent), effective December 4, 2023. Telxius USA is a licensee on the following submarine cable systems: (1) BRUSA (SCL-LIC-20160330-00011); (2) Marea (SCL-LIC-20160525); (3) Pacific Caribbean Cable System (PCCS) (SCL-LIC-20130122-00001); and (4) South America-1 (SAm-1) (SCL-LIC- 20000204- 00003,SCL-MOD-20061207-00012, SCL-MOD-20180605-00016, SCL-MOD-20180905- 00032, SCLMOD-20190826-00028).

Prior to the transaction, Telxius USA was a direct wholly owned subsidiary of Telxius America, a Uruguay company, which is a direct wholly owned subsidiary of Telxius Parent, a Spain company. In a corporate reorganization, Telxius Parent acquired from Telxius America all of the issued and outstanding shares of Telxius USA. As a result, Telxius USA is now a direct wholly owned subsidiary of Telxius Parent.

**SCL-T/C-20250730-00018** Hawaiian Telcom Communications, Inc.
**Date filed:** 2025-08-25
Transfer of Control
Grant of Authority Date of Action: 2025-09-24

On August 25, 2025, Hawaiian Telcom Services Company, Inc. (HTSC), a Delaware corporation that is a cable landing licensee, filed a notification of the *pro forma* transfer of control of HTSC from Hawaiian Telcom Communications, Inc. (HT Communications) to Hawaiian Telcom, Inc. (HTI), effective June 30, 2025. HTSC is a licensee on the Hawaiian Island Fiber Network (HIFN) (SCL-LIC-20220111-00003) and the Southeast Asia-US submarine cable system (SEA-US) (SCL-LIC-20150626-00016).

Prior to the transaction, HTSC was a direct wholly owned subsidiary of HT Communications which in turn was a direct wholly owned subsidiary of Hawaiian Telcom Holdco, Inc. (HT Holdco). HT Holdco was a direct wholly owned subsidiary of Cincinnati Bell Inc. (CBI), an Ohio corporation. In a corporate reorganization, HT Communications and HT Holdco were merged with HTI, a Hawaii corporation, with HTI being the surviving entity. As a result, HTSC is now a direct wholly owned subsidiary of HTI and remains an indirect wholly owned subsidiary of CBI.

---

**SCL-T/C-20250728-00015** Hawaiian Telcom Communications, Inc.
**Date filed:** 2025-08-25
Transfer of Control
Grant of Authority Date of Action: 2025-09-24

On August 25, 2025, Hawaiian Telcom, Inc. (HTI), a Hawaii corporation that is a cable landing licensee, filed a notification of the *pro forma* transfer of control of HTI from Hawaiian Telcom Communications, Inc. (HT Communications) to Cincinnati Bell Inc. (CBI), an Ohio corporation, effective June 30, 2025. HTI is a licensee on the Hawaiian Island Fiber Network (HIFN) (SCL-LIC-20220111-00003) and the Hawaiian Inter-Island Cable System (HICS) (SCL-LIC-20240320-00009).

Prior to the transaction, HTI was a direct wholly owned subsidiary of HT Communications which in turn was a direct wholly owned subsidiary of Hawaiian Telcom Holdco, Inc. (HT Holdco). HT Holdco was a direct wholly owned subsidiary of CBI. In a corporate reorganization, HT Communications and HT Holdco were merged with HTI with HTI being the surviving entity. As a result, HTI is now a direct wholly owned subsidiary of CBI.

These applications have been coordinated with the Department of State and other Executive Branch agencies pursuant to section 1.767(b) of the Commission's rules, 47 CFR § 1.767(b), and consistent with procedures established with the Department of State. See Review of Commission Consideration of Applications under the Cable Landing License Act, IB Docket No. 00-106, Report and Order, 16 FCC Rcd 22167, 22192-93, paras. 51-52 (2001) (Submarine Cable Landing License Report and Order); Commission Announces Department of State's Revised Procedures for its Consideration of Submarine Cable Landing License Applications, IB Docket No. 16-155, Public Notice, DA 22-435 (rel. Apr. 19, 2022).

This public notice serves as each submarine cable landing licensee's Submarine Cable Landing License, or modification thereto, pursuant to the Cable Landing License Act and sections 1.767 and 1.768 of the Commission's rules. Submarine cable landing licensees should review the terms and conditions of their licenses. Failure to comply with these terms and conditions or relevant Commission rules and policies could result in fines or forfeitures.

**CORRECTION:**

**SCL-LIC-20250423-00013** S250477 Telxius Cable USA, Inc.
**Date filed:** 2025-04-23 Date of Action: 2025-09-10

On September 10, 2025, the Commission granted the application filed by Telxius Cable USA, Inc. (Telxius USA), Telxius Cable Puerto Rico, Inc. (Telxius Puerto Rico), and Telxius Cable America, S.A. (Telxius America) (together, Applicants) for a cable landing license for the South America-1 submarine cable system (SAm-1). *See* SCL-LIC-20250423-0001, Actions Taken Under Submarine Cable Landing License Act, Report No. SCL- 00574, Public Notice (OIA Sep. 11, 2025). That grant inadvertently listed the Dominican Republic, Ecuador and Guatemala as countries in which the Applicants are affiliated with foreign carriers that are presumed to have market power. On September 17, 2025, the Applicants supplemented the record to state that they are no longer affiliated with foreign carriers that are presumed to have market power in Argentina and Peru. Consequently, the grant of the application is corrected and updated to read as follows:

Application filed by Telxius Cable USA, Inc. (Telxius USA), Telxius Cable Puerto Rico, Inc. (Telxius Puerto Rico), and Telxius Cable America, S.A. (Telxius America) (together, Applicants) for a cable landing license for the South America-1 submarine cable system (SAm-1) (SCL-LIC- 20000204-00003,SCL-MOD-20061207-00012, SCL-MOD-20180605-00016, SCL-MOD-20180905- 00032, SCL-MOD-20190826-00028) for a new 25-year term, until March 26, 2051. The application was placed on Public Notice on July 11, 2025. *See* SCL-LIC-20250423-0001, Streamlined Submarine Cable Landing License Applications, Accepted For Filing, Report No. SCL- 00561S, Public Notice (OIA July 11, 2025) (Public Notice). No comments were filed in response to the Public Notice.

SAm-1 is a non-common carrier fiber-optic submarine cable network connecting Florida, Puerto Rico, Argentina, Brazil, Chile, Colombia, Dominican Republic, Ecuador, Guatemala, and Peru. The Applicants state that SAm-1 provides critical industry low-latency connectivity on U.S.-Latin America routes, provides connectivity on routes where capacity demand continues to increase substantially each year, and provides vigorous competition with other submarine cable systems.

Licensing History.

SAm-1 was originally licensed by the Commission on August 10, 2000. Telxius USA and Telxius Puerto Rico were the original licensees of SAm-1. *See Telefónica SAM USA, Inc., and Telefónica SAM Puerto Rico, Inc., Cable Landing License*, ICFS File No. SCL-LIC-20000204-00003, 15 FCC Rcd 14915 (IB 2000) (*SAm-1 License Order*). The system entered into commercial service on March 26, 2001. *See* Letter from Kent Bressie, Counsel for Telxius Cable Landing Licensees, to Marlene H. Dortch, Secretary, FCC, ICFS File No. SCL-LIC- 20000204-00003 (filed June 20, 2018). In 2019, Telxius America was authorized as the third licensee of SAm-1. See SCL-MOD-20180905-00032, *Actions Taken Under Cable Landing License Act*, Public Notice, 34 FCC Rcd 12207 (IB 2019).

SAm-1 was originally authorized to land in Boca Raton, Florida; Isla Verde, Puerto Rico; Fortaleza, Brazil; Salvador, Brazil; Rio de Janeiro, Brazil; Santos, Brazil; Las Toninas, Argentina; Valparaiso, Chile: Arica, Chile; Lurin, Peru; Puerto San Jose, Guatemala; Puerto Barrios, Guatemala. See SAm-1 License Order, 15 FCC Rcd 14915. The license was subsequently modified to authorize additional landings in: (1) Barranquilla, Colombia, see SCL-MOD-20061207-00012, Actions Taken Under Cable Landing License Act, Public Notice, 22 FCC Rcd 6630 (IB 2007); (2) Punta Cana, Dominican Republic, see SCL-MOD-20180905-00032, Actions Taken Under Cable Landing License Act, 34 FCC

Rcd 12, 207 (IB 2019); and (3) Mancora, Peru, and Punta Carnero, Ecuador, see SCL-MOD-20190826-00028, Actions Taken Under Cable Landing License Act, Public Notice, 35 FCC Rcd 1974 (IB 2020).

The SAm-1 cable landing license is subject to a condition that Telxius USA, Telxius Puerto Rico and Telxius America comply with the commitments set out in the Letter of Agreement from Gabriel Zadikian, President Board of Directors, Telxius Cable América, S.A., Guillermo Cañete, President, Telxius Cable USA, Inc., Telxius Cable Puerto Rico, Inc., Rafael Arranz Ruiz, Chief Operating Officer, Telxius Telecom S.A., José Manuel Santero Muñoz, Director, Strategy & Corporate Development Office, Telefónica, S.A., and Jaime Francisco Carro Merchán, General Counsel and Secretary of the Board, Pontegadea Inversiones S.L., to Assistant Secretary for Trade and Economic Security, Office of Strategy, Policy, and Plans, U.S. Department of Homeland Security; Chief, Foreign Investment Review Section (FIRS) and Deputy Chief, Compliance and Enforcement, on behalf of the Assistant Attorney General for National Security, United States Department of Justice; Office of Foreign Investment Review, Director, Undersecretary of Acquisition and Sustainment, U.S. Department of Defense, dated December 9, 2022 (December 9, 2022 LOA). *See* SCL-T/C-20220222-00006, SCL-T/C-20220222-00008 and SCL-T/C-20220222-00009, *Actions Taken Under Cable Landing License Act*, Public Notice, 38 FCC Rcd 344 (IB 2023).

Executive Branch Review.

On July 29, 2025, the Office of International Affairs referred the application to the Department of State (State) as required by Executive Order No. 10530, pursuant to section 1.767(b) of the Commission's rules, and consistent with the established Department of State procedures. Executive Order No. 10530, Section 5(a) reprinted as amended in 3 U.S.C. § 301; 47 CFR § 1.767(b); *Review of Commission Consideration of Applications under the Cable Landing License Act*, IB Docket No. 00-106, Report and Order, 16 FCC Rcd 22167, 22192-93, paras. 51-51 (2001) (*Submarine Cable Landing License Report and Order); Commission Announces Department of State's Revised Procedures for its Consideration of Submarine Cable Landing License Applications, IB Docket No. 16-155, Public Notice, DA 22-435* (rel. Apr. 19, 2022). *See* SCL-LIC-20250423-00013, *Streamlined Submarine Cable Landing License Applications, Accepted For Filing*, Report No. SCL-00565S, Public Notice (OIA July 31,2025).

Action Taken.

Grant of a Cable Landing License to Telxius Cable USA, Inc., Telxius Cable Puerto Rico, Inc., and Telxius Cable America, S.A. for the purpose of continuing operation of the South America-1 submarine cable system, non-common carrier fiber-optic submarine cable system with landing points in Florida, Puerto Rico, Argentina, Brazil, Chile, Colombia, Dominican Republic, Ecuador, Guatemala, and Peru.

Licensee Ownership Information.

Telxius USA, a Florida company, Telxius Puerto Rico, a Puerto Rico company, and Telxius America,

a Uruguay company, are majority-owned, indirect subsidiaries of Telefonica S.A. (Telefonica), whose shares are publicly traded on the Madrid Stock Exchange.

The following individuals and entities have a 10% direct or indirect interest in the Applicants: (1) Telxius America, a Uruguay company (100% direct equity and voting interests in Telxius Puerto Rico); (2) Telxius Telecom S.A. (Telxius Parent), a Spain company (100% direct equity and voting interests in Telxius America and Telxius USA, and indirect 100% equity and voting interests in Telxius Puerto Rico); (3) Telefonica, a Spain company (70% direct equity and voting interests in Telxius Parent and indirect 70% equity and voting interests in Telxius USA, Telxius Puerto Rico, and Telxius America); (4) Pontegadea Inversiones, S.L. (Pontegadea), a Spain company (30% direct equity and voting interests in Telxius Parent and 30% indirect equity and voting interests in Telxius USA, Telxius Puerto Rico, and Telxius America); (5) Mr. Amancio Ortega Gaona, a citizen of Spain (99.99% direct equity and voting interests in Pontegadea and 30% indirect equity and voting interests in Telxius USA, Telxius Puerto Rico, and Telxius America); and (6) Sociedad Estatal de Participaciones Industriales (SEPI), a Spain company (10% equity and voting interests in Telefonica giving it a 10% voting interest in each of the Applicants/Licensees and an indirect 7% equity interest in each of the Applicants/Licensees). The Applicants state that no other individual or entity holds a 10% or greater direct or indirect voting or equity interest in them.

Cable System Design and Capacity.

The SAm-1 Cable is a ring configuration submarine cable system that is approximately 25,000 kilometers in length and consists of the following segments:

1. Boca Raton, Florida – San Juan, Puerto Rico (approximately 1958 kilometers);
2. San Juan, Puerto Rico – Fortaleza, Brazil (approximately 4386 kilometers);
3. Fortaleza, Brazil – Santos, Brazil (approximately 4074 kilometers);
4. Salvador Branch, connecting a branching unit on the Fortaleza-Santos Segment with Salvador, Brazil (approximately 286 kilometers);
5. Rio de Janeiro Branch, connecting a branching unit on the Fortaleza-Santos Segment with Rio de Janeiro, Brazil (approximately 225 kilometers);
6. Santos, Brazil – Las Toninas, Argentina (approximately 2155 kilometers);
7. Valparaiso, Chile – Arica, Chile (approximately 1877 kilometers);
8. Arica, Chile – Lurin, Peru (approximately 1311 kilometers);
9. Lurin, Peru – Puerto San Jose, Guatemala (approximately 3807 kilometers);
10. Segment M1, connecting a branching unit on the Lurin-Puerto San Jose Segment with a second branching unit off the coast of Ecuador (approximately 680 kilometers);
11. Segment M2, connecting the branching unit off the coast of Ecuador with Punta Carnero, Ecuador (approximately 112 kilometers);
12. Segment M3, connecting the branching unit off the coast of Ecuador with Mancora, Peru (approximately 226 kilometers);
13. Segment K-1, connecting Puerto Barrios, Guatemala with Boca Raton, Florida (approximately 1742 kilometers);
14. Segment G1.1-G1.2. connecting San Juan, Puerto Rico with Barranquilla, Colombia (approximately 1417 kilometers); and,
15. Segment G1.3, connecting Punta Cana, Dominican Republic with BU5 (approximately 86

kilometers).

Each segment has up to four fiber pairs per segment, with each fiber pair having a current design capacity of 10.8 Terra bits per second (Tbps), except Segments M1, M3, G1.1-G1.2 and G1.3 each of which have two fiber pairs.

Cable Landings.

SAm-1 has cable landing stations in Boca Raton, Florida; Isla Verde, Puerto Rico; Punta Cana, Dominican Republic; Fortaleza, Brazil; Salvador, Brazil; Rio de Janeiro, Brazil; Santos, Brazil; Las Toninas, Argentina; Valparaiso, Chile; Arica, Chile; Lurin, Peru; Mancora, Peru; Punta Carnero, Ecuador; Puerto San Jose, Guatemala; and Puerto Barrios, Guatemala.

Ownership of the SAm-1 System.

Telxius USA will continue to own and control the cable landing station in Boca Raton, Florida and that portion of the SAm-1 system's wet segment in the U.S. territorial sea extending seaward from Florida. Telxius Puerto Rico will continue to own and control the cable landing station in Isla Verde, Puerto Rico and that portion of the SAm-1 system's wet segment in the U.S. territorial sea extending seaward from Puerto Rico. Telxius America will continue to own and control that portion of the SAm-1's wet segment in international waters.

The other portions of the cable system in foreign territorial waters and the cable landing stations in the foreign points are all owned and controlled by various Telxius entities. The Applicants state that none of these affiliates use the U.S. endpoints of the cable system and thus are not required to be licensees on SAm-1 under section 1.767(h)(2) of the Commission's rules. 47 CFR § 1.767(h)(2).

Regulatory Classification.

SAm-1 is currently operated on a non-common carrier basis and the Applicants propose to continue operation as a non-common carrier cable. They state that they sell capacity through individually negotiated indefensible rights of use (IRUs) and capacity leases, the terms of which will vary depending on the characteristics and needs of the particular capacity purchaser. The Applicants also state that SAm-1 competes with multiple other cables systems including Americas II, ARCOS-1, AMX-1, CFX-1, Curie, GlobeNet, Monet, PCCS, Seabras-1 and South American Crossing.

The Applicants have provided information and demonstrated that the proposed operation of the cable on a non-common carrier basis satisfies the requirements set forth in *National Association of Regulatory Utility Commissioners v. FCC*, 525 F.2d 630, 642 (D.C. Cir 1976) (NARUC I), cert. denied, 425 U.S. 992 (1976*). See also Submarine Cable Landing License Report and Order*, 16 FCC Rcd at 22202-22203, paras. 69-70; *Review of Commission Consideration of Applications under the Cable Landing License Act*, IB Docket No. 00-106, Notice of Proposed Rulemaking, 15 FCC Rcd 20789, 20815-18, paras. 62-67 (2000).

National Security/Law Enforcement Review.

The Applicants request that the Commission condition grant of the application on its continued compliance with the December 9, 2022 LOA. The Applicants state that they are in compliance with the December 9, 2022 LOA and will continue to comply with the LOA. The Applicants also note that ownership and operation details of the SAm-1 have not changed since the Executive Branch agencies last reviewed them in 2022.

Pursuant to Commission rules, we exercised our discretion and did not refer this application to the Executive Branch for national security, law enforcement, foreign policy and trade policy review. Unlike most cable landing license applications, this application involves an existing facility with a mitigation agreement specific to the cable system and that was agreed to in 2022. The application does not propose any changes to the cable system since the December 9, 2022 LOA was entered into and there have been no substantive changes in the foreign ownership since then. Finally, the Applicants requested that the Commission condition grant of the application on its continued compliance with the December 9, 2022 LOA. Thus, we found that this application presents a low or minimal risk to national security, law enforcement, foreign policy, and trade policy. *Public Notice* at 5. Although we did not refer this application, we provided a courtesy copy of the accepted for filing public notice to the Executive Branch agencies. *Id.*, citing Executive Branch Review Process Order, 35 FCC Rcd 10927, 10941, para. 36, n. 99 (2020); *see also id.* at 10957, para 81, n. 205. The agencies did not file comments.

Conditions and Requirements.

The Applicants shall each comply with and abide by the routine reporting requirements specified in section 1.767(g) of the Commission's rules, 47 CFR § 1.767(g).

Telxius USA, Telxius Puerto Rico, and Telxius America each certify that they are affiliated with foreign carriers that are presumed to have market power in Brazil, Chile, and Colombia. The Applicants shall each comply with and abide by the reporting requirements in section 1.767(l), 47 CFR §1.767(l), for the U.S.-Brazil, U.S.-Chile, and U.S.-Colombia routes.

We grant the Applicant's request and condition grant of the application on Telxius USA, Telxius Puerto Rico and Telxius America's continued compliance with commitments and undertakings contained in the December 9, 2022 LOA. A copy of the December 9, 2022 LOA is publicly available and may be viewed on the FCC website through the International Communications Filing System (ICFS) by searching for the appropriate file number (SCL-LIC-20250423-00013) and accessing the "Attachment" tab in the Application Information page for the record.

A failure to comply and/or remain in compliance with any of these commitments and undertakings shall constitute a failure to meet a condition of the cable landing license and thus grounds for declaring the license terminated without further action on the part of the Commission. Failure to meet a condition of the grant of this cable landing license application may also result in monetary sanctions or other enforcement action by the Commission.

License Term.

The South America-1 submarine cable system is currently operating and its present license expires

March 26, 2026. The new license will be effective upon the expiration of the present license and will expire on March 26, 2051.

# PUBLIC NOTICE

**FEDERAL COMMUNICATIONS COMMISSION**
**45 L Street NE**
**WASHINGTON D.C. 20554**

News media information 202-418-0500
Internet: http://www.fcc.gov

**DA Number: 25-896**
**Report No. TEL-02615** **Thursday September 25, 2025**

**International Authorizations Granted**

**Section 214 Applications (47 CFR §§ 63.18, 63.24); Section 310(b) Petitions (47 CFR § 1.5000)**

The following applications have been granted pursuant to the Commission's processing procedures set forth in sections 63.12, 63.20 of the Commission's rules, 47 CFR §§ 63.12, 63.20, other provisions of the Commission's rules, or procedures set forth in an earlier public notice listing the applications as accepted for filing.

Unless otherwise noted, these grants authorize the applicants: (1) to become a facilities-based international common carrier subject to 47 CFR §§ 63.21, 63.22; and/or (2) to become a resale-based international common carrier subject to 47 CFR §§ 63.21, 63.23; (3) to assign or transfer control of international section 214 authority in accordance with 47 CFR § 63.24; or (4) to exceed the foreign ownership benchmarks applicable to common carrier radio licensees under 47 U.S.C. § 310(b); see Subpart T of Part 1 of the Commission's rules, 47 CFR §§ 1.5000-5004.

THIS PUBLIC NOTICE SERVES AS EACH NEWLY AUTHORIZED CARRIER'S SECTION 214 CERTIFICATE. It contains general and specific conditions, which are set forth below. Newly authorized carriers should carefully review the terms and conditions of their authorizations. Failure to comply with general or specific conditions of an authorization, or with other relevant Commission rules and policies, could result in fines and forfeitures.

Petitions for reconsideration under Section 1.106 or applications for review under Section 1.115 of the Commission's rules, 47 CFR §§ 1.106, 1.115, in regard to the grant of any of these applications may be filed within thirty days of this public notice (see 47 CFR § 1.4(b)(2)).

**Date filed:** 2025-07-29
Transfer of Control
Grant of Authority

BT Americas Inc.

Date of Action: 2025-09-19

BT Federal Inc. (BTF), a Delaware corporation that holds international section 214 authorizations to provide global facilities-based and resale service (ITC-214-19981019-00794 and ITC-214-19990609-00340), filed an application for consent to the transfer of control of BTF from BT Americas Inc. (BTA) to 22nd Century Technologies, Inc. (TSCTI). BTF is a direct wholly owned subsidiary of BTA. Pursuant to a July 14, 2025 Stock Purchase Agreement, TSCTI will acquire all of the issued and outstanding shares of common stock of BTF from BTA. As a result, BTA will become a wholly owned subsidiary of TSCTI.

The following individuals and familial trusts own TSCTI, a Delaware corporation: (1) The SS 2023 NV Descendants Trust (SS Descendants Trust), a Nevada entity, holds direct 36% equity and 4% voting interests in TSCTI. The beneficiaries of the SS Descendants Trust are the descendants, born and unborn, of Satvinder Singh, a U.S. citizen. The trustee for the 2023 NV Trust is Peak Trust Company – NV TTEE, a Nevada entity. Satvinder Singhas, as the trust grantor, reserves the right to replace the trustee at-will. (2) Anupama Sharma 2024 Irrevocable Trust (Anupama Sharma Trust), a Virginia entity, holds direct 22.5% equity and voting interests in TSCTI. The beneficiaries of the trust are the descendants, born and unborn, of Anupama Sharma. The trustees are Satvinder Singh and Anil Sharma, the spouse of Anupama Sharma, and all are U.S. citizens. (3) Anupama Sharma holds an indirect 22.5% equity and voting interests in TSCTI as the trust grantor of the Anupama Sharma Trust. (4) Anil Sharma 2024 Irrevocable Trust (Anil Sharma Trust), a Virginia entity, holds direct 22.5% equity and voting interests in TSCTI. The beneficiaries of the trust are the descendants, born and unborn, of Anil Sharma. The trustees are Satvinder Singh and Anupama Sharma, the spouse of Anil Sharma. (5) Anil Sharma holds an indirect 22.5% equity and voting interests in TSCTI as the trust grantor of the Anil Sharma Trust. (6) Satvinder Singh holds a total of 50% equity and voting interests in TSCTU. Satvinder Singh holds direct 14% equity and 46% voting interests in TSCTI. Satvinder Singh also holds indirect 36% equity and 4% equity interests as the trust grantor of the SS Descendants Trust.

This authorization is without prejudice to the Commission's action in any other related pending proceedings.

Transfer of Control
Grant of Authority

Date of Action: 2025-09-24

On July 30, 2025, Hawaiian Telcom Services Company, Inc. (HTSC), a Delaware corporation that holds international 214 authorizations for global facilities-based and resale service (ITC-214-20010503-00269 and ITC-214-20040630-00513), filed a notification of the *pro forma* transfer of control of HTSC from Hawaiian Telcom Communications, Inc. (HT Communications) to Hawaiian Telcom, Inc. (HTI), effective June 30, 2025.

Prior to the transaction, HTSC was a direct wholly owned subsidiary of HT Communications which in turn was a direct wholly owned subsidiary of Hawaiian Telcom Holdco, Inc. (HT Holdco). HT Holdco was a direct wholly owned subsidiary of Cincinnati Bell Inc. (CBI), an Ohio corporation. In a corporate reorganization, HT Communications and HT Holdco were merged with HTI with HTI being the surviving entity. As a result, HTSC is now a direct wholly owned subsidiary of HTI and remains an indirect wholly owned subsidiary of CBI.

Grant of Authority

Date of Action: 2025-09-24

On September 3, 2025, Hunt Telecommunications, LLC (Hunt), a Delaware corporation that holds an international 214 authorization for global facilities-based and resale service (ITC-214-20140114-00010), filed a notification of the *pro forma* transfer of control of Hunt from Uniti Group LP to Windstream Services, LLC (WIN Services), effective August 4, 2025.

Prior to the transaction, Uniti Fiber was a direct wholly owned subsidiary of Uniti Fiber Holdings LLC (Fiber Holdings) which was an indirect wholly owned subsidiary of Uniti Group LP which in turn was an indirect wholly owned subsidiary of Uniti Group LLC, all Delaware entities. Uniti Group LLC was a direct wholly owned subsidiary of New Uniti Holdco LP (Holdco LP) which is an indirect wholly owned subsidiary of Uniti Group Inc., both Delaware entities. In a corporate reorganization, WIN Services, an indirect wholly owned subsidiary of Uniti Group Inc. was made a direct wholly owned subsidiary of Uniti Group LLC and Uniti Group LP was removed from the ownership chain. As a result, Hunt remains direct wholly owned subsidiary of Fiber Holdings and is now an indirect wholly owned subsidiary of WIN Services. Hunt remains an indirect wholly owned subsidiary of Holdco LP and Uniti Group Inc.

**ITC-T/C-20250603-00054** BendTel
**Date filed:** 2025-06-02
Transfer of Control
Grant of Authority

Date of Action: 2025-09-19

BendTel, Inc. (BendTel), an Oregon corporation that holds an international section 214 authorization to provide global resale service (ITC-214-20090514-00222), filed an application for consent to the transfer of control of BendTel from Thomas D. Barret and James R. Neff to Vero Broadband Holdings, Inc. (Vero). Pursuant to a May 26, 2025 Stock Purchase Agreement, Vero will acquire all of the issued and outstanding capital stock of BendTel from Thomas D. Barret and James R. Neff. As a result, BendTel will become a wholly owned subsidiary of Vero.

Vero, a Colorado company, is a wholly owned subsidiary of VFN Holdings, Inc. (VFN), a Delaware corporation. The 10% or greater interest holders in VFN are: (1) NME 2014 Family Trust, a Colorado entity (15.213%). Meg Erikson is the trustee and Haley Erikson and Grace Erikson and the beneficiaries, all are U.S. citizens. (2) Mathew R. Erickson, a U.S. citizen (10.706%). According to the Applicants, no other individuals or entities hold a 10% or greater direct or indirect ownership interest in Vero.

This authorization is without prejudice to the Commission's action in any other related pending proceedings.

CONDITIONS APPLICABLE TO INTERNATIONAL SECTION 214 AUTHORIZATIONS

(1) These authorizations are subject to the Exclusion List for International Section 214 Authorizations, which identifies restrictions on providing service to particular countries or using particular facilities. The

most recent Exclusion List is at the end of this Public Notice. The list applies to all U.S. international carriers, including those that have previously received global or limited global Section 214 authority, whether by Public Notice or specific written order. Carriers are advised that the attached Exclusion List is subject to amendment at any time pursuant to the procedures set forth in Streamlining the International Section 214 Authorization Process and Tariff Requirements, IB Docket No. 95-118, 11 FCC Rcd 12884 (1996), para. 18. A copy of the current Exclusion List is maintained in the FCC Reference Information Center and is available at https://www.fcc.gov/exclusion-list-international-section-214-authorizations. It is also attached to each Public Notice that grants international Section 214 authority.

(2) The export of telecommunications services and related payments to countries that are subject to economic sanctions may be restricted. For information concerning current restrictions, call the Office of Foreign Assets Control, U.S. Department of the Treasury, (202) 622-2520.

(3) Carriers shall comply with the requirements of Section 63.11 of the Commission's rules, which requires notification by, and in certain circumstances prior notification by, U.S. carriers acquiring an affiliation with foreign carriers. A carrier that acquires an affiliation with a foreign carrier will be subject to possible reclassification as a dominant carrier on an affiliated route pursuant to the provisions of Section 63.10 of the rules.

(4) A carrier may provide switched services over its authorized resold private lines in the circumstances specified in Section 63.23(d) of the rules, 47 CFR § 63.23(d).

(5) Carriers shall comply with the "No Special Concessions" rule, Section 63.14, 47 CFR § 63.14.

(6) Carriers regulated as dominant for the provision of a particular communications service on a particular route for any reason other than a foreign carrier affiliation under Section 63.10 of the rules shall file tariffs pursuant to Section 203 of the Communications Act, as amended, 47 U.S.C. § 203, and Part 61 of the Commission's Rules, 47 CFR Part 61. Carriers shall not otherwise file tariffs except as permitted by Section 61.19 of the rules, 47 C.F.R. § 61.19. Except as specified in Section 20.15 with respect to commercial mobile radio service providers, carriers regulated as non-dominant, as defined in Section 61.3, and providing detariffed international services pursuant to Section 61.19, must comply with all applicable public disclosure and maintenance of information requirements in Sections 42.10 and 42.11.

(7) International facilities-based service providers must file and maintain a list of U.S.-international routes on which they have direct termination arrangements with a foreign carrier. 47 CFR § 63.22(h). A new international facilities-based service provider or one without existing direct termination arrangements must file its list within thirty (30) days of entering into a direct termination arrangement(s) with a foreign carrier(s). Thereafter, international facilities-based service providers must update their lists within thirty (30) days after adding a termination arrangement for a new foreign destination or discontinuing an arrangement with a previously listed destination. See Process For The Filing Of Routes On Which International Service Providers Have Direct Termination Arrangements With A Foreign Carrier, ITC-MSC-20181015-00182, Public Notice, 33 FCC Rcd 10008 (IB 2018).

(8) Any U.S. Carrier that owned or leased bare capacity on a submarine cable between the United States and any foreign point must file a Circuit Capacity Report to provide information about the submarine cable capacity it holds. 47 CFR § 43.82(a)(2). See https://www.fcc.gov/circuit-capacity-data-us-international-submarine-cables.

(9) Carriers should consult Section 63.19 of the rules when contemplating a discontinuance, reduction or impairment of service.

(10) If any carrier is reselling service obtained pursuant to a contract with another carrier, the services obtained by contract shall be made generally available by the underlying carrier to similarly situated customers at the same terms, conditions and rates. 47 U.S.C. § 203.

(11) To the extent the applicant is, or is affiliated with, an incumbent independent local exchange carrier, as those terms are defined in Section 64.1902 of the rules, it shall provide the authorized services in compliance with the requirements of Section 64.1903.

(12) Except as otherwise ordered by the Commission, a carrier authorized here to provide facilities-based service that (i) is classified as dominant under Section 63.10 of the rules for the provision of such service on a particular route and (ii) is affiliated with a carrier that collects settlement payments for terminating U.S. international switched traffic at the foreign end of that route may not provide facilities-based switched service on that route unless the current rates the affiliate charges U.S. international carriers to terminate traffic are at or below the Commission's relevant benchmark adopted in International Settlement Rates, IB Docket No. 96-261, Report and Order, 12 FCC Rcd 19806 (1997). See also Report and Order on Reconsideration and Order Lifting Stay in IB Docket No. 96-261, FCC 99-124 (rel. June 11, 1999). For the purposes of this rule, "affiliated" and "foreign carrier" are defined in Section 63.09.

(13) Carriers shall comply with the Communications Assistance for Law Enforcement Act (CALEA), see 47 CFR §§ 1.20000 et seq.

(14) Every carrier must designate an agent for service in the District of Columbia. See 47 U.S.C. § 413, 47 CFR §§ 1.47(h), 64.1195.

Exclusion List for International Section 214 Authorizations

The following is a list of countries and facilities not covered by grant of global Section 214 authority under Section 63.18(e)(1) of the Commission's Rules, 47 CFR § 63.18(e)(1). Carriers desiring to serve countries or use facilities listed as excluded hereon shall file a separate Section 214 application pursuant to Section 63.18(e)(3) of the Commission's Rules. See 47 CFR § 63.22(c).

Countries:

None.

Facilities:

Any non-U.S.-licensed space station that has not received Commission approval to operate in the U.S. market pursuant to the procedures adopted in the Commission's DISCO II Order, IB Docket No. 96-111, Report and Order, FCC 97-399, 12 FCC Rcd 24094, 24107-72 paragraphs 30-182 (1997) (DISCO II Order). Information regarding non-U.S.-licensed space stations approved to operate in the U.S. market pursuant to the Commission's DISCO II procedures is maintained at https://www.fcc.gov/approved-space-station-list.

This list is subject to change by the Commission when the public interest requires. The most current version of the list is maintained at https://www.fcc.gov/exclusion-list-international-section-214-authorizations.

**Internet: https://www.fcc.gov**
**TTY: 1-888-835-5322**

**DA 25-898**
**Released: September 25, 2025**

**NOTICE OF INTERCONNECTED VOIP NUMBERING AUTHORIZATION[1] APPLICATIONS DISMISSED WITHOUT PREJUDICE**

**WC Docket Nos. 24-217, 24-627, 25-112**

The following applications have been submitted to the Wireline Competition Bureau (Bureau), pursuant to section 52.15(g)(3) of the Federal Communications Commission's (Commission) rules, seeking authorization to obtain North American Numbering Plan telephone numbers directly from the Numbering Administrator:[2]

> Interconnected VoIP Numbering Authorization Application Filed by Porting.com. LLC, Pursuant to Section 52.15(g)(3) of the Commission's Rules, WC Docket No. 24-217 (June 24, 2024);
>
> Interconnected VoIP Numbering Authorization Application Filed by CallTower, Inc., Pursuant to Section 52.15(g)(3) of the Commission's Rules, WC Docket No. 24-627 (November 8, 2024);
>
> Interconnected VoIP Numbering Authorization Application Filed by ConnectTo Communications, Inc., Pursuant to Section 52.15(g)(3) of the Commission's Rules, WC Docket No. 25-112 (February 26, 2025).

After a preliminary review of the applications, the Bureau determined that the applications did not include all of the information required by the Commission's rules.[3] The Bureau, pursuant to its normal practice of requesting supplemental information from the applicants via email or telephone conference, requested that the applicants in each of the above-listed applications file an amendment or provide specific, additional information to complete their applications.[4] To date, the applicants have not complied with the requests. As a result, the Commission has not released public notices accepting the applications for

# MANAGING DIRECTOR'S SEPTEMBER 2025 FEE WAIVER DECISIONS

## GN Docket 25-219

## I. INTRODUCTION

1. With this Public Notice, the Office of Managing Director (OMD) is revising its notification procedure for decisions on requests for waiver, reduction and/or deferral of regulatory fees, requests for waiver, reduction and/or deferral of application fees, and petitions for reconsideration of OMD decisions granting, denying and/or dismissing such requests, that are consistent with precedent.

2. Historically, OMD has resolved such requests and petitions for reconsideration by issuing individual letter decisions, sending a copy of each letter decision to the relevant requestor and appending copies of the decisions to a public notice listing all the decisions.[1]

3. Henceforth, and beginning with this Public Notice, OMD will periodically issue public notices in taking action on all requests for waiver, reduction and/or deferral of fees, and related petitions for reconsideration that do not involve novel, complicated or controversial issues. Each public notice will identify the requesting party,[2] the date the request or petition for reconsideration was filed, and a brief description of the relief sought. The decisions will be grouped in categories setting forth the type of action taken, and the basis for the action.

4. This change to our customary procedure implements the Commission's goal of streamlining internal review processes[3] and will enable OMD to more quickly resolve those matters while fulfilling its obligation to thoroughly review the record for each request and petition for reconsideration. OMD will continue to resolve by letter decision or order those requests and petitions for reconsideration that involve novel, complicated or controversial issues, or where issuance of a more expansive decision would benefit the public.[4]

5. OMD takes the actions below on delegated authority.[5] The effective date of these actions is the release date of this Notice, except where an effective date is otherwise specified. Petitions for reconsideration or applications for review of the below decisions must be filed within 30 days of the release of this Public Notice.[6]

---

[1] *See e.g.,* https://www.fcc.gov/licensing-databases/fees/managing-director-fee-decisions.

[2] The Public Notice will redact all such information as is necessary to honor requests for confidential treatment filed with waiver requests pursuant to section 0.459 of the Commission's rules. 47 CFR § 0.459.

[3] *See Report on FCC Process Reform*, GN Docket No. 14-25 (Staff Working Group, Feb. 14, 2014) (*Process Reform Report*).

[4] For example, simultaneously with this Public Notice, OMD has released an Order (DA 25-901) denying a number of waiver requests in which the basis for each denial decision is discussed in some detail.

[5] 47 CFR §§ 0.231(a), 1.1119(c) and 1.1166(a).

[6] *See* 47 CFR § 1.106; 47 CFR § 1.115; *see also* 47 CFR § 1.4(b)(2).

## II. GRANTS

### A. The following requests are granted because the requesting party demonstrated through financial documentation it timely submitted to the Commission that it was experiencing financial hardship sufficient to justify waiver of it regulatory fees for the relevant year.

6. Section 9a of the Communications Act of 1934, as amended (Communications Act or Act), permits the Commission to waive reduce or defer payment of regulatory fees and related penalties and interest charges for good cause if the waiver, reduction or deferral would serve the public interest.[7] The Commission has consistently interpreted this standard to permit only those requests "unambiguously articulating 'extraordinary circumstances' outweighing the public's interest in recouping the Commission's cost of providing regulatory services for a particular regulatee."[8] The Commission recognizes that, "within this standard… in exceptional circumstances, financial hardship may justify waiving and/or deferring a party's regulatory fees."[9] Financial hardship must be conclusively proven and the burden of proof for demonstrating financial hardship lies solely with the fee payor seeking fee relief. Further, mere allegations of financial loss will not support a request for waiver, reduction, or deferral of regulatory fees. Instead, each fee payor seeking regulatory fee relief based on financial hardship must "fully document its financial position and show that it lacks sufficient funds to pay the regulatory fees and to maintain its service to the public."[10]

7. Each of the fee payors listed below submitted financial documents demonstrating financial hardship sufficient to justify waiving its FY 2020 regulatory fees.

Desert Explorer Communications, Inc., request for waiver of FY 2020 regulatory fees, filed September 1, 2020.

Hi-Favor Broadcasting LLC, request for waiver of FY 2020 regulatory fees, filed on September 9, 2020.

ROJO Inc., request for waiver of FY 2020 regulatory fees, filed on September 13, 2020.

Cajun Prairie Broadcasting, LLC**,** request for waiver of FY 2020 regulatory fees, filed on September 19, 2020.

Deer Creek Broadcasting LLC, request for waiver of FY 2020 regulatory fees, filed on September 21, 2020.

Mt. Rushmore Broadcasting, Inc., request for waiver or reduction of FY 2020 regulatory fees, filed on September 21, 2020.

American Asset Management, Inc., request for waiver of FY 2020 regulatory fees, filed on September 25, 2020.

DJ Two Rivers Radio, Inc., request for waiver, reduction and/or deferral of FY 2020 regulatory fees, filed September 24, 2020.

New Life Broadcasting, Inc., request for waiver and deferral of FY 2020 regulatory fees, filed on September 25, 2020.

Western New Life, Inc., request for waiver and deferral of FY 2020 regulatory fees, filed on September 25, 2020.

Forte Family Broadcasting, request for waiver and deferral of FY 2020 regulatory fees, filed on September 25, 2020.

JJIE Corp., request for waiver and deferral of FY 2020 regulatory fees, filed on September 25, 2020.

Mitten News, LLC, request for waiver, reduction, or deferral of FY 2020 regulatory fees, filed on September 25, 2020.

Zip2, LLC, request for waiver, reduction, and/or deferral of FY 2020 regulatory fees, filed on September 25, 2020.

Winchester Radio Broadcasters, LLC, request for waiver, reduction, and/or deferral of FY 2020 regulatory fees, filed on September 25, 2020.

Edward C. Distell, request for waiver of FY 2020 regulatory fees, filed September 25, 2020.

United States CP, LLC, request for waiver of FY 2020 regulatory fees, filed September 25, 2020.

Dwilynda Huth, request for waiver of FY 2020 regulatory fees, filed September 25, 2020.

Northwest Capital Corporation, request for waiver of FY 2020 regulatory fees, filed September 25, 2020.

California Broadcasting Company, LLC, request for waiver or in the alternative, for reduction, deferral, and installment payment of FY 2020 regulatory fees, filed on September 28, 2020.

La Favorita, Inc., request for waiver, reduction, or deferral of FY 2020 regulatory fees, filed on September 28, 2020.

Kasa Family Limited Partnership, request for waiver and deferral of FY 2020 regulatory fees, filed on September 28, 2020.

Pentagon Communications, LLC, request for waiver and deferral of FY 2020 regulatory fees, filed September 28, 2020.

Sound Investments Unlimited, Inc., request for waiver of FY 2020 regulatory fees, filed on September 29, 2020.

Cloudcroft Broadcasting Corporation, request for waiver of FY 2020 regulatory fees, filed on September 28, 2020.

LR Telecasting LLC, request for waiver of FY 2020 regulatory fees, filed on September 29, 2020.

Radio Punjab Dallas, LLC, request for waiver of FY 2020 regulatory fees, filed on September 28, 2020.

Joseph Paul Ferraro, request for waiver or deferral of FY 2020 regulatory fees, filed on September 28, 2020.

**B. The following requests are granted because the requesting party demonstrated that station was silent during the fiscal year in which the fees were owed.**

8. The Commission has a policy of waiving regulatory fees assessed on broadcast stations that are silent during the fiscal year in which the fees are owed without requiring submission of financial documentation to prove financial hardship. Historically, the policy has been based on the Commission's assumption that when a broadcast station is dark, it is "generally based on financial hardship"[11] and that "it is unnecessary to require a licensee to make a further showing of financial hardship" when requesting a waiver of regulatory fees.[12]

9. In FY 2024, the Commission released an order in which it concluded that the policy's underlying assumption that silent or dark stations are experiencing financial hardship is no longer valid. Accordingly, the Commission determined that, beginning in FY 2025, all broadcast licensees seeking a waiver, regardless of station status, must submit financial documentation sufficient to demonstrate financial hardship in accordance with section 1.1166 of the Commission's rules.[13]

10. The regulatory fees associated with the below listed broadcast stations are waived because the licensee of each station submitted documentation showing that the station ceased operation during the relevant fiscal year.

Cross Texas Media Inc., request for waiver and refund of FY 2024 regulatory fee assessed for station KCOX, Facility ID 35710, filed on December 9, 2024.

FM Media Ventures LLC, request for waiver and refund of FY 2024 regulatory fees assessed for stations KGOL, Facility ID 34473 and K278DA, Facility ID 148127, filed on December 9, 2024.

Genesis Multimedia Group, LLC, request for waiver and refund of FY 2024 regulatory fee assessed for station WZKO, Facility ID 39798, filed on December 9, 2024.

Wendolynn Tellez, request for waiver and refund of FY 2023 regulatory fee assessed for station KSAG, Facility ID 165972, filed on December 9, 2024.

Pittman Broadcasting Services, LLC, request for waiver and refund of FY 2024 regulatory fees assessed for stations WOMN, Facility ID 22991 and K274CW, Facility ID 143207, filed on December 2, 2024.

Knight Broadcasting, Inc., request for waiver of FY 2024 regulatory fees assessed for stations KUHL(AM), Facility ID 24952 and K292HD, Facility ID 156143, filed on September 23, 2024.

Estate of Mark Alabaugh, request for waiver of FY 2023 regulatory fees assessed for stations KSEY FM, Facility ID 171535; KSEY(AM), Facility ID 171536; and K289CP, Facility ID 201581, filed on September 9, 2023.

Bustos Media Holdings, LLC, request for waiver of FY 2020 regulatory fees assessed for stations KXET(AM), Facility ID 160794; KZXR(AM), Facility ID 53675; K23GY, Facility ID 200284; and KMIA (AM), Facility ID 33683, filed on September 25, 2020.

## III. DISMISSALS

### A. The following waiver request is dismissed because the requesting party voluntarily withdrew its waiver request.

Petracom of Holbrook, LLC, request for waiver or partial waiver and installment payment of FY 2020 regulatory fees, filed on September 10, 2020.[14]

### B. The following request to defer payment of a regulatory fee is dismissed because the maximum deferral period permitted by Commission rule has passed.[15]

High Impact Communications, Inc., request for 90 day deferral of payment of its FY 2020

[14] Email from Henry A. Ash, President, Petracom of Holbrook, LLC to Sarah Stone and Scott Radcliffe, OMD, FCC, dated July 15, 2021. Shortly thereafter, Petracom paid its FY 2020 regulatory fees in full.

[15] 47 CFR § 1.1166(b) ("Deferrals of fees, interest, or penalties if granted, will be for a designated period of time not to exceed six months.")

regulatory fees, filed on September 25, 2020.

**C. The following requests to waive FY 2020 regulatory fees are dismissed because the FY 2020 regulatory fees for which the parties sought waiver were paid in full after the parties' waiver requests were filed.[16]**

V.I. Stereo Communications Corporation, request for waiver of FY 2020 regulatory fees, filed on September 24, 2020.

Sanchez Broadcasting Corporation, request for waiver, deferral, and/or installment payment of FY 2020 regulatory fees, filed on September 28, 2020.

Radio Vision Cristiana Management, request for waiver or reduction of FY 2020 regulatory fees, filed on September 27, 2020.

Ozark Mountain Media Group, LLC, request for waiver and deferral of FY 2020 regulatory fees, filed September 28, 2020.

TBLC Virginia Holdings LLC, request for waiver and deferral of FY 2020 regulatory fees, filed on September 24, 2020.

Amigo Multimedia, Inc., request for waiver and deferral of FY 2020 regulatory fees, filed on September 15, 2020.

Southern Belle, Inc., request for reduction and installment payment of FY 2020 regulatory fees, filed on September 14, 2020.

**D. The following request was dismissed because the requesting party's obligation to pay its FY 2020 regulatory fee was discharged in bankruptcy.**

American-CV Station Group, Inc., request for reduction and deferral of FY 2019 regulatory fees, filed on September 27, 2019.[17]

---

[16] Each of the listed parties paid their FY 2020 regulatory fees in full after filing waiver requests for those fees and before OMD issued a decision on the pending waiver requests.

[17] American CV Station Group, Inc. (American-CV) filed Chapter 11 bankruptcy on May 14, 2019 initiating *In re American CV Station Group, Inc., et al*.; Case No. 19-13365, in the United States Bankruptcy Court for the Southern District of Florida, Miami Division (*American-CV Station Bankruptcy Case*). American-CV did not pay its FY 2019 regulatory fees; instead it filed with the Commission a request to reduce and defer the fees. By law, the fees, arising after the bankruptcy case was filed were accorded administrative priority under 11 U.S.C. § 503. The American-CV Bankruptcy Court established a bar date of April 24, 2020 for filing administrative claims to preserve them for payment under American-CV's reorganization plan. *American-CV Station Bankruptcy Case*, Order Granting Debtors' Motion to I) Set a Bar Date for the Filing of Motions Seeking the Allowance and/or Payment of Administrative Claims and II) Designate the Form and Manner of Notice of Administrative Claims Bar Date (March 18, 2020, Docket No. 148). The Commission did not file an administrative claim for payment of the FY 2019 regulatory fees by the deadline and as a result American-CV's obligation to pay the claim was discharged. *See* Order Confirming Debtors' Plan of Reorganization Dated February 26, 2020, As Amended, p. 25-7, paras. 10-11 (continued….)

**E. The following request to waive FY 2020 regulatory fees are dismissed because the requesting parties were exempt from payment of the FY 2020 regulatory fees.**

Christian Broadcasting of Greenwood, Inc., request for waiver of FY 2020 regulatory fees, filed on September 28, 2020.[18]

Eternity Media Group WKXG, request for waiver of FY 2020 regulatory fees, filed on September 28, 2020.[19]

**ORDER**

**Adopted: September 25, 2025** **Released: September 25, 2025**

By the Chief, Wireline Competition Bureau:

## I. INTRODUCTION

1. In this Order, we deny a request for review and/or waiver of an Emergency Connectivity Fund (ECF) program decision filed by Grayson County Library Consortium (Grayson) regarding a decision made by the Universal Service Administrative Company (USAC).[1] USAC reduced the requested amount on an ECF funding request to reflect the amount of funding requested by the individual library entity, Pottsboro Area Public Library (Pottsboro Library), rather than by Grayson, and Grayson seeks review or waiver in order to increase the amount of the ECF funding commitment. However, because June 30, 2024 is the statutorily set expiration of the COVID-19 emergency period, the Federal Communications Commission (FCC or Commission) cannot waive or extend the deadline to provide additional time for Grayson to refile its funding application or to purchase ECF-eligible equipment and/or services.

## II. BACKGROUND

2. As part of the American Rescue Plan Act of 2021 (Act), Congress appropriated $7.171 billion and directed the Commission to promulgate rules for distributing funding from the ECF to eligible schools and libraries for the purchase of eligible equipment and/or advanced telecommunications and information services for use by students, school staff, and library patrons for remote learning at locations that include locations other than a school or library.[2] On May 10, 2021, the Commission adopted the *Emergency Connectivity Fund Report and Order* establishing rules for the ECF program to distribute the funding to eligible schools and libraries.[3]

[1] Request for Review and/or Waiver of Grayson County Library Consortium, WC Docket No. 21-93 (filed June 4, 2025), https://www.fcc.gov/ecfs/search/search-filings/filing/1060403871694 (Request for Review and/or Waiver).

[2] American Rescue Plan Act, 2021, H.R. 1319, Pub. L. No. 117-2, 117th Cong., tit. VII, § 7402(a)(1)-(2) (2021) (enacted), available at https://www.congress.gov/bill/117th-congress/house-bill/1319/text (American Rescue Plan Act) (enrolled bill).

[3] *See generally Establishing the Emergency Connectivity Fund to Close the Homework Gap*, WC Docket No. 21-93, Report and Order, 36 FCC Rcd 8696 (2021) (*Emergency Connectivity Fund Report and Order*).

3. The Commission and USAC opened three application filing windows, during which applicants could request funding for eligible equipment and services received or delivered during the applicable funding periods.[4] Applications for ECF support were required to be filed during one of the application filing windows.[5] On May 11, 2023, the COVID-19 public health emergency expired, triggering the sunset date of June 30, 2024 for the ECF program.[6] All ECF purchases of eligible equipment and services had to be completed by this date.[7]

4. Here, Pottsboro Library requested funding during the second application filing window for 3,445 fixed wireless connections with a one-time cost of $7,591,185.[8] Its narrative stated, "[w]e are creating a consortium of public libraries in Grayson County (Pottsboro, Sherman, Denison, Van Alstyne). . . . [with] Pottsboro Library [as] the lead applicant."[9] After review, USAC denied this funding request on June 7, 2022, finding that the cost of the requested services was unreasonable.[10] In the meantime, Pottsboro Library filed a second application during the third application window requesting $8,129,752.15 in funding for the same project and supposed consortium.[11] After review of this second application, USAC modified this funding request from $8,129,752.15 to $549,500 based on additional equipment and service cost reductions submitted by the applicant and by limiting the fixed wireless connections to the 500 patrons served by the Pottsboro Library.[12] On September 22, 2023, the Pottsboro Library filed an appeal with USAC, requesting that USAC reconsider its decision to only fund the connections sought by the Pottsboro Library's patrons, rather than those of each of the other libraries mentioned in the application's narrative.[13] USAC denied the appeal, explaining that the application was filed by an individual library entity and was not filed as a consortium entity.[14]

5. Grayson then filed its Request for Review and/or Waiver with the Commission.[15] In the Request for Review and/or Waiver, Grayson seeks restoration of the full requested amount of funding, arguing that Commission rules do not require a consortium entity to have a separate FCC Registration Number or other unique identifiers in order to be committed funding as a consortium of libraries.[16] In the alternative, Grayson asks that the Bureau waive the procedural requirements for filing as a consortium entity, stating that there was unclear guidance and changing program expectations.[17]

(continued….)

## III. DISCUSSION

6. We deny Grayson's Request for Review. Applicants requesting funding for the ECF program were required to submit a completed ECF FCC Form 471 application to USAC during an application filing window.[18] Unlike the procedural changes made during the funding cycle in the *South Carolina Order*,[19] the procedures for filing as a consortium have been established for many funding years in the E-Rate program and were likewise used in the ECF program.[20] These procedures help inform how USAC reviews an application to ensure compliance with program rules. USAC cannot correct an application error of this type – changing a library entity to a library consortium entity – without the entity filing a new application, which would require a waiver of the ECF program rules.[21] As such, we deny Grayson's Request for Review finding that USAC did not err in not converting Pottsboro Library's application into a consortium application.[22]

7. We also deny Grayson's Request for a Waiver. Generally, the Commission's rules may be waived for good cause shown.[23] The Commission may exercise its discretion to waive a rule where the particular facts make strict compliance inconsistent with the public interest.[24] However, the Commission is unable to waive program rules that would contradict the statutory requirements for receiving ECF funding. Specifically, section 7402(d)(5)(B) of the authorizing statute defined the COVID-19 emergency period as ending on the June 30 that first occurs after the date that is one year after the Secretary of Health and Human Services determines that a public health emergency no longer exists.[25] As explained in the *ECF Sunset Public Notice*, the COVID-19 public health emergency expired at the end of the day on May 11, 2023, and therefore ECF funding would only be available for purchases of eligible equipment and services made by the sunset date for the program, or by June 30, 2024.[26] We recognize that due to the evolving and emergency nature of the program, applicants may have made errors, but we are unable to grant Grayson's waiver request, due to the statutory expiration date that occurred over a year ago, to

*novo* review, we agree that there does not appear to be a violation of the section 54.1706(d) of the Commission's rules, however, this finding does not change our decision to deny Grayson's Request for Review or Waiver because the ECF program has ended and we cannot waive the statutorily-set deadline.

[18] *See* 47 CFR §§ 54.1708(b), 54.1710(a).

[19] *See South Carolina Order*, 21 FCC Rcd at 5990 (explaining that USAC changed the revised consortia requirements halfway through the filing window period).

[20] *See, e.g.*, USAC, Entity Numbers, https://www.usac.org/e-rate/applicant-process/before-you-begin/entity-numbers/ (last visited Sept. 25, 2025) ("A school district or a library system cannot file as a consortium. The school district or library system can still be the consortium leader, however, it must have two organization accounts in [the E-Rate Productivity Center] EPC and two BENs – one BEN and organization account for the school district or library system and a second BEN and organization account for the consortium."); USAC, *Consortium and ESA School District Specific Steps*, https://www.emergencyconnectivityfund.org/ecf-fcc-form-471/consortium-and-esa-school-districts-specific-steps/ (last visited Sept. 25, 2025) (providing the steps for applying as a consortium in the ECF program).

[21] *See* 47 CFR § 54.1708(b) (requiring filing windows to be opened until funds are exhausted or the emergency period ends, whichever is earlier). As the emergency period has ended, the Commission cannot permit new ECF applications to be submitted at this time.

allow for additional funding.[27] The Commission cannot waive this date or provide additional time for Grayson to refile its ECF funding application as a consortium entity.

## IV. ORDERING CLAUSES

8. ACCORDINGLY, IT IS ORDERED, pursuant to the authority contained in sections 1-4 and 254 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 151-154 and 254, and sections 0.91, 0.291, 1.3, and 54.1718(d) of the Commission's rules, 47 CFR §§ 0.91, 0.291, 1.3, and 54.1718(d), that the Request for Review and/or Waiver filed by Grayson County Library Consortium, filed June 4, 2025, IS DENIED.

FEDERAL COMMUNICATIONS COMMISSION

Joseph S. Calascione
Chief
Wireline Competition Bureau

[27] To the extent Grayson considers its efforts to request funding to have been a purchase made prior to June 30, 2024 under the requirements of section 7402(d)(5)(B), we deny the request for waiver and find that there are insufficient special circumstances to warrant a deviation from the rules setting a service delivery deadline of June 30, 2024 for the ECF-funded services. *See* 47 CFR § 54.1711(e) (setting forth the service delivery deadline for ECF-funded services and equipment).

**ORDER**

**Adopted: September 29, 2025** **Released: September 29, 2025**

By the Managing Director, Office of Managing Director:

## I. INTRODUCTION

1. With this Order and a contemporaneously issued Public Notice,[1] the Office of Managing Director (OMD) is revising its notification procedure for decisions on requests for waiver, reduction and/or deferral of regulatory fees, requests for waiver, reduction and/or deferral of application fees, and petitions for reconsideration of OMD decisions granting, denying and/or dismissing such requests, that are consistent with precedent.

2. Historically, OMD has resolved such requests and petitions for reconsideration by issuing individual letter decisions, sending a copy of each letter decision to the relevant requestor and appending copies of the decisions to a public notice listing all the decisions.[2]

3. Henceforth, and beginning with this Order and the above referenced Public Notice, OMD will periodically issue orders and public notices in taking action on all requests for waiver, reduction and/or deferral of fees, and related petitions for reconsideration.[3] Decisions that do not involve novel, complicated or controversial issues will be issued via public notice. Decisions that involve novel or complicated issues, or where issuance of a more expansive decision would benefit the public will be issued by orders such as this one, or by individual letter decision.

4. This change to our customary procedure implements the Federal Communication Commission's (FCC or Commission) goal of streamlining internal review processes[4] and will enable OMD to more quickly resolve those matters while fulfilling its obligation to thoroughly review the record for each request and petition for reconsideration.

5. OMD takes the actions below on delegated authority.[5] The effective date of these actions is the release date of this Order, except where an effective date is otherwise specified. Petitions for

[1] *Managing Director's September 2025 Fee Waiver Decisions*, Public Notice, GN Docket No.25-219, DA 25-899, (OMD Sept. 29, 2025) (September 2025 Fee Waiver PN).

[2] *See e.g.,* https://www.fcc.gov/licensing-databases/fees/managing-director-fee-decisions.

[3] The public notices and orders will redact all such information as is necessary to honor requests for confidential treatment filed with waiver requests pursuant to section 0.459 of the Commission's rules. 47 CFR § 0.459.

[4] *See Report on FCC Process Reform*, GN Docket No. 14-25 (Staff Working Group, Feb. 14, 2014) (*Process Reform Report*).

[5] 47 CFR §§ 0.231(a) and 1.1166(a).

reconsideration or applications for review of the below decisions must be filed within 30 days of the release of this Order.[6] In the event a party elects not to seek further review of the denial of its waiver request, it must pay its FY 2020 regulatory fee in full within 30 days of the release of this Order.

## II. BACKGROUND

6. Section 9 of the Communications Act of 1934, as amended (the Act), requires the Commission to assess regulatory fees each year in an amount that can reasonably be expected to equal the amount of its annual appropriation.[7] Under section 9a of the Act, Congress provided the Commission with authority to waive, reduce, or defer payment of a regulatory fee in any specific instance "for good cause shown, where the waiver would serve the public interest."[8]

7. In FY 2020, the Commission considered the financial harm experienced by fee payors as a result of the COVID-19 pandemic and implemented several changes to simplify and streamline its waiver process to assist fee payors in seeking waiver relief.[9] For example, the Commission permitted regulatees to request multiple forms of relief in a single filing and to file requests by email sent to a dedicated email address.[10] The Commission directed the Managing Director to work with individual regulatees that filed waiver requests if additional documents were needed to render a decision on their requests.[11] The Commission also partially waived its red light rule to permit regulatees with delinquent debt to nonetheless request waiver relief, provided that they resolve their past due debts.[12] The Commission concluded, however, that it could not relax the standard it has historically employed for fee waiver, reduction, or deferral based on financial hardship grounds.[13] That standard requires the requesting party to conclusively prove through financial documentation that it "lacks sufficient funds to pay the regulatory fees and to maintain its service to the public."[14]

## III. DISPOSITIONS OF REQUESTS FOR WAIVER, REDUCTION, AND/OR DEFERRAL OF REGULATORY FEES

8. The following requests for waiver, reduction, and/or deferral of FY 2020 regulatory fees on financial hardship grounds are denied, and in some instances are also dismissed, for the reasons stated

below.

9. **AASAA Media, LLC.** On behalf of AASAA Media, LLC (AASAA), Jacob Hibbard filed a request for waiver of AASAA's FY 2020 regulatory fees asserting financial hardship. In the request, Mr. Hibbard stated that due to AASAA's financial difficulties, in late March of 2020, a state court placed AASAA into receivership and appointed Mr. Hibbard its receiver. In July of 2020, AASAA filed for federal bankruptcy protection. Though multiple requests were made, Mr. Hibbard did not submit any financial documentation to demonstrate AASAA's financial hardship, nor did he provide any proof of his appointment as its receiver, AASAA's bankruptcy filing, or his authority to represent AASAA in AASAA's bankruptcy case. Accordingly, we dismiss the request because Mr. Hibbard failed to show that he had standing to make the request on AASAA's behalf. We also deny the waiver because AASAA failed to meet its burden of proof by demonstrating financial hardship sufficient to justify a waiver of its FY 2020 regulatory fees. .

10. **American Telecommunications Group, Inc.** American Telecommunications Group, Inc. (American Telecommunications) filed a request for waiver of its FY 2020 regulatory fees alleging financial hardship and in support, provided a balance sheet and a profit and loss statement, each for the period from January 2020 through August 31, 2020. Because the documents provided were insufficient for OMD to evaluate financial hardship, OMD sent an email to American Telecommunications requesting that it provide additional financial documents by July 30, 2021 and stating that if the documents were not provided by that date, OMD would render a decision on the waiver request based on the balance sheet and profit and loss statement American Telecommunications submitted with its waiver request. In its reply email, American Telecommunications stated that it would provide the documentation, but it did not do so. Accordingly we deny American Telecommunications' request because it failed to provide documentation sufficient to demonstrate financial hardship justifying a waiver.

11. **Andala Enterprises, Inc.** Andala Enterprises, Inc. (Andala) filed a request for waiver of its FY 2020 regulatory fees on the basis of financial hardship and in support, submitted a compilation of utility payments it made in 2019 and 2020 and another, illegible document. Because the documents Andala submitted were not sufficient to evaluate Andala's financial hardship claim, OMD sent an email to Andala requesting that it submit additional financial documents by June 29, 2021, but Andala did not respond to OMD's request. Accordingly, we deny the request to waive Andala's FY 2020 regulatory fees for failure to prove financial hardship and we also deny the request for failure to resolve delinquent debt Andala owed to the Commission, for which Andala was on red light.[15]

12. **Black Diamond Broadcasting Group, LLC.** Black Diamond Broadcasting Group, LLC (Black Diamond) filed a request for waiver of its FY 2020 regulatory fees on financial hardship grounds. The company provided a descriptive supporting statement from a company principal, financial statements for its 2020 operations through June 2020, and an August 2020 bank statement. According to the documents Black Diamond provided, Black Diamond reported a small net loss through June of 2020. However, when the company's depreciation expenses are backed out of the calculus and loan proceeds received by the company are added, the net loss becomes a positive cash balance, which, even after deducting the company's accrued expenses as of September 4, 2020, was sufficient to pay Black Diamond's regulatory fees. Accordingly, we deny Black Diamond's request for waiver of its FY 2020 regulatory fees.

13. **DuPage Radio, LLC.** DuPage Radio, LLC (DuPage) filed a request for waiver of its FY 2020 regulatory fees asserting financial hardship and provided a profit and loss statement for January through September of 2020. Because the profit and loss statement by itself did not provide sufficient financial information to prove financial hardship, OMD requested that DuPage provide additional documentation. However, DuPage did not provide any additional financial information. Accordingly, we deny DuPage's request for waiver of its FY 2020 because DuPage failed to demonstrate financial

[15] *FY 2020 Report and Order,* 36 FCC Rcd at 1761, para. 84.

hardship to justify a waiver of its FY 2020 regulatory fees.

14. **High Plains Radio Network, LLC.** High Plains Radio Network, LLC (High Plains) filed two waiver requests, one in its own name for FY 2020 regulatory fees assessed against 34 radio stations, and one as Tejas Broadcasting Ltd., LLP (Tejas) for FY 2020 regulatory fees assessed against radio stations that High Plains earlier purchased from Tejas. Because High Plains was the licensee of all of the stations for which a fee waiver is sought, we treat its two separate waiver requests as one, for waiver of the FY 2020 regulatory fees for all of the stations.[16] The stated basis of High Plains' waiver request is financial hardship. To prove financial hardship, High Plains provided its 2019 and 2020 federal tax returns and profit and loss statements covering the first 8 months of 2020 and, subsequently, for the first five months of 2021. While the financial documentation High Plains provided shows significant losses in both 2019 and 2020, some of the losses reflected in the documentation, such as depreciation losses, do not affect High Plains' cashflow, and when backed out, show that High Plains had sufficient cashflow to pay a portion of the FY 2020 regulatory fees assessed against it. Based on the data provided, we find that High Plains had sufficient cashflow in 2020 to pay 50% of its FY 2020 regulatory fee obligation. Accordingly, pursuant to our authority under section 9a of the Act[17] we will reduce by 50% High Plains' FY 2020 regulatory fee obligation, and require payment of the remaining 50%.[18]

15. **Kepler Communications, Inc.** Kepler Communications, Inc. (Kepler) filed a request for waiver of its FY 2020 regulatory fees asserting financial hardship and in support, submitted a number of financial documents, including a profit and loss statement, a balance sheet and a cashflow projection, to support its request. The documents demonstrate that Kepler had sufficient cashflow to pay $100,000 of the regulatory fee. Accordingly, we reduce Kepler's FY 2020 regulatory fee to $100,000 and require payment of that amount.[19]

16. **MBM Radio Bracketville LLC.** MBM Radio Bracketville LLC (MBM Bracketville) filed a request for waiver of its FY 2020 regulatory fees asserting financial hardship and in support, submitted a profit and loss statement for January through September of 2020 titled in the name of an affiliate, MBM Radio Del Rio LLC (MBM Del Rio). It also provided partial year revenue "projections" for 2019 through 2020, again titled in MBM Del Rio's name. OMD requested that MBM Bracketville confirm that the financial data it submitted was MBM Bracketville's financial data and not financial data for another entity, and also requested additional financial information. OMD asked MBM Bracketville to respond within 10 days of OMD's request. MBM never responded to OMD or provided any additional documents.[20] Accordingly, MBM Bracketville's request is denied because it failed to provide financial documentation sufficient to demonstrate financial hardship to justify a waiver of its FY 2020 regulatory fees.

---

[16] Catholic Radio of the Texas High Plans (WTZN), one of the stations licensed to High Plains, is a non-profit corporation, and therefore exempt from payment of regulatory fees. We therefore limit our analysis to whether High Plains had sufficient cashflow to pay the FY 2020 regulatory fees for the remaining stations.

[17] 47 U.S.C. § 9a; *see also* 47 CFR § 1.1166 (Regulatory "fees.. may be waived, reduced or deferred in specific instances, on a case-by-case-basis, where good cause is shown and where waiver, reduction or deferral…would promote the public interest.").

[18] Specifically, OMD's decision is to waive 50% of the FY 2020 regulatory fees assessed against the High Plains' stations, and to require payment of the remaining 50% of those fees.

[19] In other words, OMD waives $123,000 of the $223,000 regulatory fee assessed against Kepler for FY 2020, reducing Kepler's FY 2020 regulatory fee obligation to $100,000.

[20] We note that MBM Del Rio and MBM Bracketville each received an information request from OMD on the same day, sent to the same attorney representing both entities, and with the same response deadline. While MBM Del Rio responded, albeit belatedly, MBM Bracketville did not respond at all. Accordingly, we are confident that the information request we sent to MBM Bracketville was received.

17. **MBM Radio Del Rio LLC.** MBM Del Rio LLC (MBM Del Rio) filed a request for waiver of its FY 2020 regulatory fees based on financial hardship, and in support, submitted a 2020 profit and loss statement (through August 2020) titled in MBM Del Rio's name and "order revenue projections" for 2019 through 2020. OMD requested that MBM Del Rio confirm that the data provided was actually for MBM Del Rio,[21] asked for additional information, and gave MBM Del Rio 10 days to respond. When MBM Del Rio did not respond by the deadline, OMD sent a follow-up email extending the deadline and informing MBM Del Rio that if OMD did not receive the requested information by the extended deadline, OMD would decide the waiver request on the basis of the data it had in hand. MBM Del Rio responded before the extended deadline with a revised profit and loss statement for 2019 and 2020 and a 2020 balance sheet, confirming that the documents depicted MBM Del Rio's financial operations. It also responded to some, but not all, of OMD's questions. Because MBM Del Rio's second submission engendered additional questions, OMD gave MBM Del Rio two weeks to respond OMD's new questions, as well as OMD's previous questions that had not been answered. OMD advised MBM Del Rio that if it did not respond to OMD's questions by the deadline, MBM Del Rio's waiver request would be denied. In lieu of providing specific responses, MBM Del Rio submitted another profit and lost statement for 2020 and another 2020 balance sheet, each of which was different in several striking respects from the immediately preceding set of documents MBM Del Rio provided. MBM did not explain the differences, nor did it or the third set of financial documents answer a number of OMD's pending questions. Accordingly, we deny MBM Del Rio's waiver request, because it failed to prove financial hardship to justify a waiver of its FY 2020 regulatory fees.

18. **South Texas Radio, LLC.** South Texas Radio, LLC (South Texas) filed a request to waive its FY 2020 regulatory fees on financial hardship grounds, submitting in support a 2020 profit and loss statement and balance sheet and 2019 order revenue projections. In response to OMD's follow-up questions, South Texas provided updated financials, including a balance sheet comparing 2019 and 2020 operations. South Texas did not adequately or in some cases, at all respond to several of OMD's questions regarding the updated financials, including OMD's request for more information regarding sizeable increases in income and certain expenses, including a payment listed as "owner's draw."[22] Accordingly, we deny South Texas' waiver request because South Texas failed to demonstrate financial hardship justifying waiver of its FY 2020 regulatory fees.

19. **The Drive LLC.** The Drive LLC (Drive) filed a request for waiver, reduction and/or deferral of its FY 2020 regulatory fees on financial hardship grounds. In support, Drive provided 2019 and 2020 profit and loss statements, a 2020 balance sheet, a cashflow statement for 2019 through 2020 and 2019 and 2020 federal tax returns. While Drive's financial documentation shows a significant decrease in revenues from 2019 to 2020, Drive also reduced its operating costs significantly in 2020, resulting in sufficient cashflow to pay its FY 2020 regulatory fees. Accordingly, we deny Drive's waiver request.

20. **CRC Broadcasting Company.** CRC Broadcasting Company (CRC Broadcasting)[23] filed a request for waiver or reduction and deferral of its FY 2020 regulatory fees, asserting financial hardship and in support, submitted 2019 financial statements and federal tax returns, 2020 actual and projected sales revenues, an August 2020 bank statement, and a list of its highest paid officers and employees and their salaries. In its waiver request, CRC Broadcasting stated that it had filed for Chapter

[21] MBM Bracketville, an affiliate of MBM Del RIO submitted an identical profit and loss statement and identical order revenue projections for 2019 and 2020 in support of its request for waiver of its FY 2020 regulatory fees.

[22] South Texas responded that there were no payments or distributions made to owners in 2020, but did not explain why its updated 2020 financials included a payment for an "owners draw".

[23] CRC Broadcasting and its affiliate CRC Media West, LLC filed a joint request for waiver of their FY 2020 regulatory fees. Because each is a separate legal entity, individually liable for the regulatory fees assessed against it, we consider each entity's waiver request and proof of financial hardship separately.

11 bankruptcy relief in March of 2020 and remained in Chapter 11 when its FY 2020 regulatory fees came due and when it filed its waiver request.

21. CRC Broadcasting did not provide data for its 2020 actual or projected expenditures. However that data is publicly available in the monthly operating reports CRC Broadcasting is required to file in its bankruptcy case.[24] OMD reviewed CRC Broadcasting's monthly operating reports from March 2020 through the March of 2021.[25] The monthly operating reports show that at the end of each month, CRC Broadcasting had a positive closing cash balance and that it had sufficient cashflow to pay its FY 2020 regulatory fees. Accordingly, we deny CRC Broadcasting's waiver request because it failed to demonstrate financial hardship to justify granting the relief sought.

22. **CRC Media West, LLC.** CRC Media West, LLC (CRC Media), an affiliate of CRC Broadcasting, also requested waiver or reduction and deferral of its FY 2020 regulatory fees on financial hardship grounds, and provided 2019 financial statements and federal tax returns, 2020 actual and projected sales revenues, an August 2020 bank statement, and a list of its highest paid officers and employees and their salaries. In its request, CRC Media stated that it had also filed a Chapter 11 bankruptcy case in March of 2020 and was a Chapter 11 debtor when its FY 2020 regulatory fees came due and when = its waiver request was filed.

23. Because CRC Media did not provide data for its 2020 actual or projected expenditures, OMD reviewed the monthly operating reports CRC Media filed in its Chapter 11 bankruptcy case, from March 2020 through March 2021.[26] Those reports show that at the end of each month, CRC Media had a positive closing cash balance and that it had sufficient cashflow to pay its FY 2020 regulatory fees. Accordingly, we deny CRC Broadcasting's waiver request because it failed to demonstrate financial hardship to justify a grant of the relief sought

24. **America-CV Station Group, Inc.** America-CV Station Group, Inc. (America-CV) filed a request for waiver of its FY 2020 fees based on financial hardship and submitting profit and loss statements for January through July of 2020 and for January through July of 2019. OMD requested that America-CV provide additional documentation, including a 2020 cashflow statement, an updated profit and loss statement for 2020 and a list of its ten highest paid employees, within a week. America-CV did not respond until three days after the deadline, and then only provided an updated 2020 profit and loss statement. After reviewing the updated profit and loss statement, OMD sent America-CV a number of questions, and gave America-CV one week to respond. The company did not respond until after the deadline to request a two week extension to provide the information OMD requested. OMD agreed to extend the previously established deadline by two weeks, but advised America-CV that OMD would not consider any information submitted after the extended deadline in evaluating America-CV's waiver request. Two days after the extended deadline, America-CV sent OMD additional financial information. OMD declined to consider the tardy submission as it had warned America-CV it would do. OMD has reviewed the financial information America-CV provided before the extended deadline and determined that it is insufficient to prove financial hardship justifying a waiver. Accordingly, we deny America-CV's request for a waiver of its FY 2020 regulatory fees.

25. **Astro Digital US Inc.** Astro Digital US Inc. (Astro Digital) filed a request for waiver of its FY 2020 regulatory fees on financial hardship grounds and in support, submitted initial and, at OMD's request, supplemental financial documentation to support its financial hardship claim. Contrary to Astro

[24] The monthly operating report requirement for small business Chapter 11debtors such as CRC Broadcasting and CRC Media West, LLC is found in 11 U.S.C. § 308 and 11 FRBP § 2015(a)(6).

[25] *In re CRC Broadcasting Company*, Case No. 2:20-bk-02349-PS; In the United States Bankruptcy Court for the District of Arizona, docket nos. 66, 97, 124, 137, 154, 177, 186, 191, 207, 224, 235, 240, and 252.

[26] *In re CRC Media West, LLC*, Case No. 2:20-bk-02352-PH; In the United States Bankruptcy Court for the District of Arizona, docket nos.47, 49, 50, 54, 64, 71, 76, 77, 88, 93, 101, 106, and114.

Digital's assertion of financial hardship, the financial documents it provided demonstrate that Astro Digital had sufficient cashflow to pay its FY 2020 regulatory fees. Accordingly, we deny Astro Digital's waiver request.

26. **Eternity Media Group WHJA and Eternity Media Group WETI.** Eternity Media Group WHJA (WHJA) and Eternity Media Group WETI (WETI), along with two of their affiliates, Eternity Media Group WETX (WETX) and Eternity Media Group WKXG (WKXG), [27] filed a single request seeking waiver of their respective FY 2020 regulatory fees on financial hardship grounds. In support, the licensees submitted a one page document titled "WHJA, WKXG, WETI, WETX", which appears to summarize the licensees' combined expenses and revenues in four enumerated categories: "Payroll", "Bills", "Gross", and "Total". The document is undated but accompanied by copies of bills, some addressed to an individual licensee and some addressed to another entity, Eternity Media Group LLC (LLC), and checks written on LLC's bank account. All of the bills and checks are dated in 2020.

27. Because WHJA and WETI are individual licensees,[28] OMD requested separate financial documentation for each. In addition, OMD requested that WHJA and WETI resolve their unpaid FY 2019 regulatory fee debt, for which each was on red light. Rather than submit separate financial documentation for each licensee, spreadsheets for the combined expenses and revenues of WHJA, WETI and WKXG for 2019 and for January through September of 2020 were submitted. Neither WHJA nor WETI responded to OMD's request for resolution of the delinquent FY 2019 regulatory fees each owed, nor were the fees paid.

28. Without separate financial documentation for each licensee, we cannot determine whether either experienced financial hardship justifying waiver of its fees.[29] Accordingly, we deny the requests of WHJA and WETI for waiver of their respective FY 2020 regulatory fees, because each failed to submit documentation demonstrating its own financial circumstances, and thus, failed to demonstrate financial hardship meriting a waiver of its FY 2020 regulatory fees. We also deny each of their waiver requests because each failed to pay or otherwise resolve its delinquent debt.[30]

29. **Eternity Media Group WETX.** As noted above, Eternity Media Group WETX (WETX), WHJA, WETI and WKXG filed a joint request for waiver of each licensee's FY 2020 regulatory fees on financial hardship grounds. The request included a document which appears to summarize the four licensees' combined expenses and revenues, copies of bills, addressed to an individual licensee or LLC, and copies of checks written on LLC's account. All of the bills and checks are dated in 2020. OMD did not receive any standalone financial documentation for WETX's 2020 operations, though OMD requested the documentation. Without separate financial documentation for WETX, OMD is unable to determine whether WETX experienced financial hardship sufficient to justify waiver of its fees. Accordingly, WETX's request for waiver of its FY 2020 regulatory fees is denied.

30. **Eternity Media Group WNRR, Eternity Media Group WLNO and Eternity Media Group WABF.** Eternity Media Group WNRR (WNRR), Eternity Media Group WLNO (WLNO), and Eternity Media Group WABF (WABF) each filed a request for waiver of its FY 2020 regulatory fees

[27] WKXG's waiver request has been dismissed because WKXG is exempt from payment of FY 2020 regulatory fees. *See September 2025 Fee Waiver PN*.

[28] As individual licensees and separate legal entities, each is liable for the regulatory fees the Commission assessed against it.

[29] We note also that the documentation provided shows that some if not all of the licensees' expenses, along with the expenses of their affiliates WHJA, WETI, WETX and WKXG, are billed to and paid from a single account held by LLC. Without more information we are unable to determine if the revenues and expenses of any licensee are that licensee's actual revenues and expenses or, for example, if the revenues and expenses are apportioned among the various stations by the LLC.

[30] *FY 2020 Report and Order*, 36 FCC Rcd at 1761, para. 84.

based on financial hardship. Each submitted an undated document which appears to summarize its revenues and expenses, by listing dollar amounts in four enumerated categories: "Payroll", "Bills", "Gross", and "Total". Each licensee also submitted copies of bills issued to it or to LLC, and copies of checks written from a bank account in LLC's name. All of the bills and checks are dated in 2020.

31. OMD requested additional, more detailed financial documentation from each of the licensees, and that WLNO resolve its unpaid FY 2019 regulatory fees, for which it was on red light. In response, each of the three licensees submitted two pages of financial data, one page purporting to be the licensee's 2019 profit and loss statement and one page purporting to be the licensee's profit and loss statement for January through September of 2020. Each page submitted by each licensee is titled in LLC's name, with the individual licensee's call sign listed below, and each page lists expenses and dollar amounts under four categories: "Bill Expenses", "Payroll Expenses", "Gross Profit" and "Profit Loss". None of the licensees provided any payroll expense detail, a balance sheet, or projected or actual cashflow data for the balance of 2020. Moreover, the expense information WNRR, WLNO and WABF provided indicates that some or all of the enumerated expenses were paid on their behalf by LLC from its own account, rather than from the individual licensees' account. We are thus unable to determine with certainty each licensee's actual expenses and revenues. In addition, and as previously noted, none of the licensees provided balance sheets or cashflow projections/numbers for the balance of 2020 operations. In sum, WNRR, WLNO and WABF each failed to adequately demonstrate financial hardship justifying a waiver of its FY 2020 regulatory fees, and we therefore deny each waiver requests. We also deny WLNO's waiver request because it failed to resolve its delinquent debt to the Commission.[31]

32. Accordingly, IT IS ORDERED that, pursuant to the authority contained in section 9a(d) of the Communications Act of 1996, as amended, 47 U.S.C. § 159a(d) and the authority delegated in sections 0.231(a) and 1.1166(a) of the Commission's rules, 47 CFR §§ 0.231(a) and 1.1166, the requests for waiver, reduction, dismissal and/or deferral of FY 2020 regulatory fees filed by the above named parties are denied.

33. IT IS FURTHER ORDERED that, pursuant to sections 1.102(b)(1) of the Commission's rules, 47 CFR §§1.102(b)(1), this order shall be effective upon release.

FEDERAL COMMUNICATIONS COMMISSION

**DA 25-903**
**Released: September 26, 2025**

**DOMESTIC SECTION 214 APPLICATION FILED FOR THE TRANSFER OF CONTROL OF MTCO CORPORATION AND ITS SUBSIDIARIES TO MCC NETWORK SERVICES, LLC**

**NON-STREAMLINED PLEADING CYCLE ESTABLISHED**

**WC Docket No. 25-252**

**Comments Due: October 10, 2025**
**Reply Comments Due: October 17, 2025**

By this Public Notice, the Wireline Competition Bureau seeks comment from interested parties on an application filed by MTCO Corporation and MCC Network Services, LLC d/b/a Conxxus (MCC) (collectively, Applicants), pursuant to section 214(a) of the Communications Act of 1934, as amended, and section 63.04 of the Commission's rules,[1] requesting Commission consent for the transfer of control of MTCO Corporation and its subsidiaries, MTCO Communications, Inc. (MTCO), Metamora Telephone Company (Metamora), and The Marseilles Telephone Company of Marseilles Illinois (Marseilles) (MTCO, Metamora, and Marseilles, together, Licensees), to MCC.[2]

MTCO Corporation, an Illinois corporation, is a holding company that wholly-owns the Licensees.[3] MTCO owns a 75-mile fiber-optic link between Metamora and Marseilles and currently provides communications services in Central Illinois, including Washington, Metamora, Marseilles, and Germantown Hills residential customers.[4] Metamora, an Illinois corporation, is an incumbent local exchange carrier (LEC) serving two exchanges in Central Illinois (Metamora and Germantown Hills exchanges).[5] Marseilles, an Illinois corporation, is an incumbent LEC serving a single exchange in

[1] *See* 47 U.S.C. § 214(a); 47 CFR § 63.04.

[2] Domestic Section 214 Application for the Transfer of Control of MTCO Corporation to MCC Network Services, LLC, WC Docket No. 25-252 (filed Aug. 18, 2025) (Application). Applicants filed supplements to the Application on Sept. 4, 2025 and Sept. 19, 2025. Letter from Michael P. Donahue and Jane L. Wagner, Counsel for MCC Network Services, LLC to Marlene H. Dortch, Secretary, FCC, WC Docket No. 25-252 (filed Sept. 4, 2025) (Sept. 4 Supplement); Letter from Michael P. Donahue and Jane L. Wagner, Counsel for MCC Network Services, LLC to Marlene H. Dortch, Secretary, FCC, WC Docket No. 25-252 (filed Sept. 19, 2025) (Sept. 19 Supplement). Applicants are also filing applications for consent to transfer various satellite authorizations held by MTCO. Any action on the domestic 214 application is without prejudice to Commission action on other related applications.

[3] Application at 3.

[4] *Id.*

[5] *Id*. at 4. Applicants state that Metamora is designated as an Eligible Telecommunications Carrier (ETC) in Illinois, receives High-Cost Loop (HCL) support, CAF Broadband Loop Support (CAF-BLS), and Intercarrier Compensation Recovery (ICC) support, and participates in the Lifeline program. *Id.* at 2, 9; Sept. 4 Supplement at 2.

Central Illinois (Marseilles exchange).[6]

MCC, an Illinois limited liability company, owns a fiber optic network in Central Illinois and manages an all fiber-optic network across Illinois, and into Indiana and Missouri.[7] MCC is authorized to provide service as competitive LEC in Illinois and telecommunications services in Indiana.[8] MCC is indirectly owned by Zachary Horn (100% voting and equity interest), a U.S. citizen.[9]

Pursuant to the terms of the proposed transaction, MCC will acquire all of the outstanding equity interests in MTCO Corporation and, therefore, indirect ownership and control of the Licensees.[10] As a result, Applicants state that MCC will assume control of MTCO Corporation and subsidiaries, including all licenses, physical plant, and operations in Illinois.[11] Metamora and Marseilles will retain their names until fully integrated into MCC.[12]

Applicants assert that a grant of the Application would serve the public interest, convenience, and necessity.[13] Because the proposed transaction would involve the exchange and assumption of Universal Service Fund high-cost mechanism obligations, in order to analyze whether the proposed transaction would serve the public interest, we accept the Application for non-streamlined processing.[14]

Domestic Section 214 Filed for the Transfer of Control of MTCO Corporation and its Subsidiaries to MCC Network Services, LLC, WC Docket No. 25-252 (filed Aug. 18, 2025).

**GENERAL INFORMATION**

The application identified herein has been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any application if, upon further examination, it is determined to be defective and not in conformance with the Commission's rules and policies.

Interested parties may file comments and reply comments on or before the dates indicated on the first page of this document. Comments may be filed using the Commission's Electronic Comment Filing System (ECFS).

- Electronic Filers: Comments may be filed electronically using the Internet by accessing the ECFS: https://www.fcc.gov/ecfs/.
- Paper Filers: Parties who choose to file by paper must file an original and one copy of each filing.
  - Filings can be sent by hand or messenger delivery, by commercial courier, or by the U.S. Postal Service. **All filings must be addressed to the Secretary, Federal Communications Commission.**
  - Hand-delivered or messenger-delivered paper filings for the Commission's Secretary are accepted between 8:00 a.m. and 4:00 p.m. by the FCC's mailing contractor at 9050 Junction Drive, Annapolis Junction, MD 20701. All hand deliveries must be held

together with rubber bands or fasteners. Any envelopes and boxes must be disposed of before entering the building.

- Commercial courier deliveries (any deliveries not by the U.S. Postal Service) must be sent to 9050 Junction Drive, Annapolis Junction, MD 20701.
- Filings sent by U.S. Postal Service First-Class Mail, Priority Mail, and Priority Mail Express must be sent to 45 L Street NE, Washington, DC 20554.

People with Disabilities: To request materials in accessible formats for people with disabilities (braille, large print, electronic files, audio format), send an e-mail to fcc504@fcc.gov or call the Consumer & Governmental Affairs Bureau at 202-418-0530.

**In addition, e-mail one copy of each pleading to each of the following:**

1) Dennis Johnson, Competition Policy Division, Wireline Competition Bureau, dennis.johnson@fcc.gov; and
2) Jim Bird, Office of General Counsel, jim.bird@fcc.gov.

The proceeding in this Notice shall be treated as a "permit-but-disclose" proceeding in accordance with the Commission's *ex parte* rules. Persons making *ex parte* presentations must file a copy of any written presentation or a memorandum summarizing any oral presentation within two business days after the presentation (unless a different deadline applicable to the Sunshine period applies). Persons making oral *ex parte* presentations are reminded that memoranda summarizing the presentation must (1) list all persons attending or otherwise participating in the meeting at which the *ex parte* presentation was made, and (2) summarize all data presented and arguments made during the presentation. If the presentation consisted in whole or in part of the presentation of data or arguments already reflected in the presenter's written comments, memoranda or other filings in the proceeding, the presenter may provide citations to such data or arguments in his or her prior comments, memoranda, or other filings (specifying the relevant page and/or paragraph numbers where such data or arguments can be found) in lieu of summarizing them in the memorandum. Documents shown or given to Commission staff during *ex parte* meetings are deemed to be written *ex parte* presentations and must be filed consistent with rule 1.1206(b), 47 CFR § 1.1206(b). Participants in this proceeding should familiarize themselves with the Commission's *ex parte* rules.

To allow the Commission to consider fully all substantive issues regarding the application in as timely and efficient a manner as possible, petitioners and commenters should raise all issues in their initial filings. New issues may not be raised in responses or replies.[15] A party or interested person seeking to raise a new issue after the pleading cycle has closed must show good cause why it was not possible for it to have raised the issue previously. Submissions after the pleading cycle has closed that seek to raise new issues based on new facts or newly discovered facts should be filed within 15 days after such facts are discovered. Absent such a showing of good cause, any issues not timely raised may be disregarded by the Commission.

For further information, please contact Dennis Johnson, Competition Policy Division, Wireline Competition Bureau, at (202) 418-0809 or dennis.johnson@fcc.gov.

## ESTIMATE OF COMPETITIVE BIDDING SYSTEMS FOR FISCAL YEAR 2026

Each year, the Federal Communication Commission's Office of Economics and Analytics (OEA) publishes its estimate of spectrum auctions that it anticipates will commence over the course of the coming year. Specifically, section 309(j)(18) of the Communications Act of 1934, as amended, requires the Commission to make publicly available an estimate of what systems of competitive bidding for licenses or permits may be initiated during the upcoming 12-month period (Fiscal Year (FY) 2026).[1]

*Background*. On March 9, 2023, the Commission's general authority to grant licenses or permits through systems of competitive bidding lapsed, subject to specified exceptions.[2] On December 23, 2024, the Spectrum and Secure Technology and Innovation Act was signed. Even though it did not restore general spectrum auction authority, the Act directed the Commission to initiate a system of competitive bidding for licenses for AWS-3 spectrum[3] in its inventory as of that date no later than June 23, 2026.[4] Subsequently, on July 4, 2025, amendments to the Communications Act provided the Commission with general authority, subject to specified exceptions, to assign licenses and permits using competitive bidding until September 30, 2034, and deleted the previously specified exceptions to the prior lapse in authority.[5] OEA estimates that the systems of competitive bidding listed below may be initiated during the 12-month period following September 30, 2025. More detailed information concerning each of these matters has been and/or will be provided through orders and public notices.[6]

*AWS-3*. Consistent with the Spectrum and Secure Technology and Innovation Act, the Commission will conduct an auction that will offer flexible-use licenses for spectrum in the AWS-3 band.[7] The AWS-3 spectrum available in the auction will be licensed on a geographic area basis,

[2] Consolidated Appropriations Act, 2023, Pub. L. No. 117-328, 136 Stat. 5232, § 901 (2022) (as codified at 47 U.S.C. § 309(j)(11): "The authority of the Commission to grant a license or permit under this subsection shall expire March 9, 2023, except that, with respect to the electromagnetic spectrum identified under section 1004(a) of the Spectrum Pipeline Act of 2015, such authority shall expire on September 30, 2025, and with respect to the electromagnetic spectrum identified under section 90008(b)(2)(A)(ii) of the Infrastructure Investment and Jobs Act, such authority shall expire on the date that is 7 years after November 15, 2021.").

[3] The AWS-3 bands are 1695–1710 MHz, 1755–1780 MHz, and 2155–2180 MHz.

[4] Servicemember Quality of Life Improvement and National Defense Authorization Act for Fiscal Year 2025, Pub. L. No. 118-159, Div. E, Title LIV, § 5401–5405 (Spectrum and Secure Technology and Innovation Act), § 5403 (mandating that the Commission initiate a system of competitive bidding for licenses for unassigned AWS-3 spectrum within 18 months of Dec. 23, 2024) (2024), https://www.congress.gov/118/plaws/publ159/PLAW-118publ159.pdf.

[5] P. L. No. 119-21, § 40002(b)(1), 139 Stat. 72 (2025) (amending 47 U.S.C. § 309(j)(11)).

[6] This estimate should not be viewed as a substitute for information provided about these matters in Commission releases establishing rules, procedures, dates, and deadlines, along with other pertinent information, which can be found on the Commission's website and through the Electronic Document Management System database.

including licenses based on Economic Areas and Cellular Market Areas. The AWS-3 frequencies will be licensed in five and ten megahertz blocks, with each license having a total bandwidth of five, ten, or twenty megahertz.

*Upper C-band*. To comply with recent appropriations legislation, in FY 2026, the Commission will work toward a system of competitive bidding for licenses for at least 100 megahertz in the 3.98–4.2 GHz band.[8] However, the Commission does not anticipate that bidding will commence in FY 2026.

*Additional inventory.* In the next twelve months, the Commission will also consider competitive bidding for licenses for spectrum in other services in its inventory that is well-suited for 5G and has been licensed in prior auctions, such as, without limitation, 600 MHz spectrum.

**PUBLIC SAFETY AND HOMELAND SECURITY BUREAU ANNOUNCES REGION 21 (MICHIGAN) REGIONAL PLANNING COMMITTEES TO HOLD 700 MHZ AND 800 MHZ MEETINGS**

**PS Docket No. 23-237 and WT Docket No. 02-378**

The Region 21 (Michigan)[1] 700 MHz and 800 MHz Regional Planning Committees (RPCs) will hold two consecutive planning meetings on Thursday, October 23, 2025. Beginning at 10:00 am, the Region 21 800 MHz RPC meeting will convene at Zehnder's Restaurant (lower level), 730 S Main, Frankenmuth, MI 48734.

The agenda for the 800 MHz RPC meeting includes:

- Call to Order/Roll Call
- Approval of Agenda
- Approval of Minutes – September 18, 2025 meeting
- Correspondence
- Review of Applications
  - Old Applications
  - New Applications
- 800 MHz Subcommittee Reports
  - Interoperable Communication Subcommittee
  - Engineering/Technical Subcommittee
  - Ongoing Plan Revision Standing Committee
- Old Business
- New Business
  - 2026 Meeting Schedule
- Next meeting: TBD
- Adjourn

Immediately following the 800 MHz RPC meeting, the 700 MHz RPC meeting will convene.

The agenda for the 700 MHz meeting includes:

- Call to Order/Roll Call
- Approval of Agenda
- Approval of Minutes – September 18, 2025 meeting
- Correspondence
- Review of Applications

[1] The Region 21 (Michigan) 700 MHz regional planning area includes all eighty-three counties in the Upper and Lower Peninsulas in the state of Michigan. The Region 21 800 MHz regional planning area consists of all the Upper Peninsula and all counties in the Lower Peninsula except the counties of Allegan, Barrien, Barry, Cass, Kalamazoo, Ottawa, St. Joseph, and Van Buren, which are part of Region 54 (Great Lakes Area).

  - Website
  - 4.9 MHz
  - Other
- New Business
- Next meeting: TBD
- Adjourn

The Region 21 RPC meetings are open to the public. All public safety providers in Region 21 may utilize these frequencies. It is essential that eligible public safety agencies in all areas of government, including state, municipality, county, and Tribal Nations be represented in order to ensure that each agency's future spectrum needs are considered in the allocation process. Administrators who are not oriented in the communications field should delegate someone with this knowledge to attend, participate, and represent their agency's needs.

All interested parties wishing to participate in planning for the use of public safety spectrum in the 700 MHz and 800 MHz bands within Region 21 should plan to attend. For more information, please contact:

PUBLIC NOTICE

Federal Communications Commission
45 L Street NE
Washington, DC 20554

News Media Information 202-418-0500
Internet: www.fcc.gov

DA 25-907
Released: September 26, 2025

**DOMESTIC SECTION 214 APPLICATION GRANTED FOR THE ACQUISITION OF CERTAIN ASSETS OF TEMPLETON TELEPHONE COMPANY BY CORN BELT TELEPHONE COMPANY**

**WC Docket No. 25-163**

By this Public Notice, the Wireline Competition Bureau (Bureau) grants an application filed by Templeton Telephone Company (TTC) and Corn Belt Telephone Company (CBT) (together, Applicants), pursuant to section 214(a) of the Communications Act of 1934, as amended, and section 63.04 of the Commission's rules,[1] requesting Commission consent for the transfer of TTC's telecommunications assets and customers to CBT.[2]

On July 28, 2025, the Bureau released a public notice seeking comment on the Application.[3] The Bureau did not receive any comments or petitions in opposition to the Application.

TTC, an Iowa corporation and an incumbent local exchange carrier (LEC), provides local, long distance, and other services in the Templeton local exchange in the south central quarter of Carroll County, Iowa.[4] TTC is designated as an eligible telecommunications carrier (ETC) in Iowa.[5] TTC is authorized to receive $351,416 annually (until December 31, 2028) in Revised Alternative Connect America Cost Model (A-CAM) I support to serve 272 locations in Study Area Code (SAC) 351308 (Transferring SAC).[6] Applicants state that TTC is a community-based telecommunications company with

[1] *See* 47 U.S.C. § 214(a); 47 CFR § 63.04.

[2] Domestic Section 214 Application filed for the Acquisition of Certain Assets of Templeton Telephone Company to Corn Belt Telephone Company, WC Docket No. 25-163 (filed Apr. 22, 2025) (Application). Applicants filed a supplement to the Application on June 9, 2025. Letter from Donald L. Herman, Jr., Counsel for Corn Belt Telephone Company and Templeton Telephone Company, to Marlene H. Dortch, Secretary, FCC, WC Docket No. 25-163 (filed June 9, 2025) (Supplement). Applicants also filed an application for the transfer of international authorizations. Any action on the Application is without prejudice to Commission action on other pending applications.

[4] Application at 2.

[5] *Id.* at 2.

[6] *See* Federal Communications Commission, Wireline Competition Bureau, ACAM Authorization Summary, CAF-ACAM 2.3.2 – Authorization Report Version 5.2, Authorized A-CAM Support & Obligations – to Date Offer Authorizations, January 10, 2025, https://www.fcc.gov/document/cam-authorization-reports-52 (January 2025 Authorization Report). TTC also participates in the Lifeline program. Application at 3. In January 2017, the Bureau authorized 182 rate-of-return companies, including TTC, to receive A-CAM support that had elected the revised A-CAM offers, including TTC. *Wireline Competition Bureau Authorizes 182 Rate-of-Return Companies to Receive More than $454 Million Annually in Alternative Connect America Cost Model Support to Expand Rural Broadband*, WC Docket No. 10-90, Public Notice, 32 FCC Rcd 842 (WCB 2017) (*A-CAM Second Authorization*

(continued….)

no 10% or greater interest holders.[7]

CBT, an Iowa corporation, is an incumbent LEC that provides local and long distance service and other services in the Wall Lake local exchange in the southeast half of Sac County, Iowa.[8] CBT is designated as an ETC and is authorized to receive $377,917 annually in Enhanced A-CAM support to serve 762 locations in the Wall Lake Exchange of SAC 351141.[9] In addition, the Bureau authorized CBT to receive $42,237 in Rural Digital Opportunity Fund (RDOF) support to deploy services to approximately 38 locations in the east half of Sac County, Iowa, and in the southwest quarter of Calhoun County, Iowa in this SAC.[10] CBT is affiliated with Quad County Communications, LLC, which provides transport services and other services in Iowa.[11] Applicants state that CBT is a community-based company with no 10% or greater interest holders.[12]

Pursuant to the terms of the proposed transaction, CBT will acquire TTC's fiber-to-the-home local exchange network, customer base, and appropriate support for the Transferring SAC,[13] and will assume TTC's obligation to provide services within the TTC service area, including to TTC customers.[14] Applicants will not modify the service area boundaries of the Transferring SAC or SAC 351141, and indicate that they are not "propos[ing] to merge, consolidate, or otherwise modify their study areas."[15]

Applicants assert that the proposed transaction is in the public interest. Applicants maintain that the proposed transaction will not result in any changes to the services or to the terms and conditions of services provided to TTC's customers.[16] Applicants aver that the proposed transaction will create

(continued….)

efficiencies in operations that will facilitate continued investment in the expansion of broadband availability and enhanced service offerings to customers in both TTC's and CBT's service areas.[17] Applicants state that the '[t]ransaction poses no public interest harm as there is no overlap or adjacency in the Applicants' service areas."[18] Applicants state that "CBT will assume TTC's ETC status in the TTC service area, and CBT will continue to satisfy the managerial, technical, and financial qualifications required to operate as an ETC in the TTC service area."[19] Applicants further state that, in assuming TTC's ETC status, CBT will assume all ETC responsibilities and A-CAM obligations of TTC in the Transferring SAC.[20] Applicants further state that CBT will also continue to fulfill its responsibility as an ETC and RDOF support recipient for its own SAC.[21]

The Bureau finds, upon consideration of the record, that the transfer serves the public interest, convenience, and necessity, and therefore grants the requested authorization.[22] Pursuant to section 1.103 of the Commission's rules, 47 CFR § 1.103, the consent granted herein is effective upon the release of the Public Notice. Petitions for reconsideration under section 1.106 or applications for review under section 1.115 of the Commission's rules, 47 CFR §§ 1.106, 1.115, may be filed within 30 days of the date of this Public Notice.

For further information regarding the grant of the requested authorization, please contact Dennis Johnson at (202) 418-0809, Competition Policy Division, Wireline Competition Bureau.

**DOMESTIC SECTION 214 APPLICATION GRANTED FOR THE ACQUISITION OF CERTAIN ASSETS OF SAVAGE COMMUNICATIONS, INC. BY MIDCONTINENT MEDIA, INC.**

**WC Docket No. 25-207**

By this Public Notice, the Wireline Competition Bureau (Bureau) grants an application filed by Midcontinent Communications (Midcontinent) and Savage Communications, Inc. (Savage) (together, Applicants), pursuant to section 214(a) of the Communications Act of 1934, as amended (the Act), and section 63.04 of the Commission's rules,[1] requesting Commission consent to the transfer of Rural Digital Opportunity Fund (RDOF) support and related buildout and service obligations associated with 14 Census Block Groups (Transferring Area) in Study Area Code (SAC) 369052, a subpart of Savage's authorized RDOF support in Minnesota.[2] We also address the conditional authorization of Midcontinent to receive the RDOF support associated with this transaction.

On August 14, 2025, the Bureau released a Public Notice seeking comment on the Application.[3] The Bureau did not receive comments or petitions in opposition to the Application.

**Applicants and Description of Transaction**

Savage is a Minnesota corporation and rural cable operator that provides video, voice, and broadband services in the state of Minnesota.[4] Savage is a designated Eligible Telecommunications Carrier (ETC) in Minnesota,[5] and the Commission has authorized Savage to receive RDOF support in

[1] *See* 47 U.S.C. § 214(a); 47 CFR § 63.04.

[2] Domestic Section 214 Application for the Assignment of Certain Assets of Savage Communications, Inc to Midcontinent Media, Inc., WC Docket No. 25-207 (filed June 30, 2025) (Application). Applicants also filed a supplement to the Application on August 6, 2025. Letter from Tamar Finn and J.G. Harrington, Counsel for Midcontinent Communications, and Sott Friedman, Counsel for Savage Communications, to Marlene H. Dortch, Secretary, FCC, WC Docket 25-207 (filed Aug. 6, 2025) (Supplement). Any action on the Application is without prejudice to Commission action on other related, pending applications. While bidders were required to bid on one census block group (CBG) or more, RDOF support would only be available to support service in eligible census blocks within those CBGs. *Rural Digital Opportunity Fund Phase I Auction Scheduled for October 29, 2020; Notice and Filing Requirements and Other Procedures for Auction 904*, AU Docket No. 20-34 et al., Public Notice, 35 FCC Rcd 6077, 6146, para. 213 (2020). This area is identified in the Broadband Funding Map, https://fundingmap.fcc.gov/home. Accordingly, with respect to the proposed transaction, CBGs constitute the minimum unit for a partial transfer of support, and any discrepancy in the applicants' description of the area to be transferred and the boundaries of the relevant CBG(s) will be resolved in favor of 2010 U.S. census boundary data.

[3] *See Domestic Section 214 Application Filed for the Acquisition of Certain Assets of Savage Communications, Inc. by Midcontinent Media, Inc*., WC Docket No. 25-207, Public Notice, DA 25-718 (WCB Aug. 14, 2025).

[4] Application at 4.

[5] *Id*.

Minnesota to provide service to an estimated 4,541 locations.[6]

Midcontinent, a South Dakota general partnership, provides cable service, high speed Internet service, and telephone service as a competitive local exchange carrier (LEC) in North Dakota, South Dakota, Kansas, Minnesota, and Wisconsin.[7] Midcontinent offers local and long distance services via its own facilities.[8] Midcontinent is a designated ETC, and the Commission has authorized Midcontinent to receive RDOF and Connect America Fund (CAF) Phase II auction support.[9] Midcontinent Communications Investor (MCI) and Comcast Midcontinent, LLC, an indirectly owned subsidiary of Comcast Corporation, each hold a 50% general partnership interest in Midcontinent.[10] The Commission has previously determined that MCI, a wholly owned subsidiary of Midcontinent Media, Inc. (MMI), controls Midcontinent.[11] MMI is ultimately controlled by U.S. citizens Patrick A. McAdaragh and Steven E. Grosser.[12]

Pursuant to the terms of the proposed transaction, Midcontinent will acquire all of the assets used in Savage's business of providing subscribers with residential and commercial cable television services, high-speed Internet services, and telephone services as well as the RDOF obligations and funding for the Transferring Area.[13]

[13] *Id*. at 2-3.

**Discussion**

Pursuant to section 214(a) of the Act,[14] we must determine whether grant of the proposed transaction will serve the public interest, convenience, and necessity. We first assess whether the proposed transaction complies with the specific provisions of the Act, other applicable statutes, and the Commission's rules.[15] We then consider whether the transaction could result in public interest harms by substantially frustrating or impairing the objectives or implementation of the Act or related statutes.[16] Notably, the Commission has determined it may impose and enforce transaction-related conditions to ensure that the public interest is served by the transaction.[17] We next consider a transaction's public interest benefits. Applicants bear the burden of proving those benefits by a preponderance of the evidence.[18] As part of our public interest authority, we may impose conditions to ensure for the public the transaction-related benefits claimed by the Applicants.[19]

Based on the current record, we find that there are no likely potential public interest harms. First, we find that the proposed transaction will not result in a reduction of competition. Midcontinent does not provide any services in the Transferring Area and there are no facilities that overlap Midcontinent's Minnesota service area and the Transferring Area.[20] Moreover, Applicants state that the proposed transaction will have no adverse impact on the customers being transferred as Midcontinent will transition customers to its most comparable broadband and voice service offerings at substantially the same rates, terms, and conditions.[21] Accordingly, the transaction will not result in any loss or impairment of service for Applicant's subscribers and will have no adverse effect on competition.[22]

[20] Application at 6. Applicants also state that there is "no overlap between Comcast's service footprint and Savage, and Comcast does not offer domestic telecommunications services in Savage's service areas." Supplement at 1.

[21] Application at 5-6.

[22] *Id*. at 2, 6.

Second, Midcontinent commits to meeting all public interest and performance obligations associated with the receipt of the transferred support,[23] and the record indicates that Midcontinent has the technical, financial, and managerial expertise to do so.[24] Applicants state that Midcontinent is a "long-established provider of video, voice, and broadband services, and will be integrating the transferred service area into the portion of its existing network that operates in the area adjacent to the Transferring Area."[25] Applicants also state that Midcontinent has the necessary managerial and operational expertise to meet Savage's RDOF buildout milestones and performance obligations.[26] Midcontinent certifies that Savage's RDOF obligations in the Transferring Area will be met, including buildout milestones and performance obligations established for the Transferring Area.[27] Further, Applicants state that Midcontinent is not taking on any debt repayment obligations or otherwise increasing substantially its costs to deploy service.[28] Overall, we conclude that, based on the record, there are no public interest harms that will arise from the proposed transaction.

We next review the potential public interest benefits. The Commission finds a claimed benefit to be cognizable only if it is transaction-related, verifiable, and is likely to flow through to consumers and not inure solely to the benefit of the company.[29] Applicants state that the proposed transaction will allow Midcontinent to expand its business and achieve economies of scale in Minnesota.[30] Specifically, Applicants contend that Midcontinent will be able to combine its existing assets and the assets acquired from Savage to provide service to customers.[31] Applicants explain that the proposed transaction "will strengthen the ability of Midcontinent to continue to serve its existing customers and compete for future customers utilizing the acquired assets, benefitting consumers" in the affected markets.[32]

The Commission has specified that ensuring consumers receive new or additional services is an important public interest factor,[33] and accelerating private sector deployment of advanced services is one of the aims of the Act.[34] In light of Applicants' commitments to meet all of Savage's federal high cost

[23] *See id.* at 15; *see also infra* notes 35 and 36.

(continued….)

support obligations[35] and the fact that Applicants are prepared to enhance and accelerate facilities-based service offerings,[36] we find it likely that the proposed transaction would result in some public interest benefits. Absent any potential harms, and considering that the proposed transaction is likely to yield some benefits, we find that the proposed transaction serves the public interest.

**RDOF Support Authorized, Subject to, and Effective Upon, Fulfillment of Certain Prerequisites**

As stated above, we find that Midcontinent has sufficiently demonstrated its managerial, financial, and technological capabilities to meet its RDOF obligations and accordingly, we authorize Midcontinent to receive the RDOF support associated with the Transferring Area, provided that, and effective only upon, Midcontinent's satisfaction of the following prerequisites within 90 days from the release date of this public notice: (1) submission and approval of an irrevocable letter of credit (LOC) from a qualifying bank securing the requisite amount of support for the Transferring Area;[37] (2) submission and approval of a supporting Bankruptcy Opinion Letter (Opinion Letter); and (3) submission of a notice of consummation of the transaction and satisfaction of all other prerequisites for authorization.[38]

When submitting this information, Midcontinent must comply with the following procedures:

*Letter of Credit and Opinion Letter*. Midcontinent must submit a hard copy of the LOC and a hard copy of the Opinion Letter to the Universal Service Administrative Agency (USAC), at the following address: Universal Service Administrative Company, High Cost Program, Rural Digital Opportunity Fund LOC, Attn: Stephen Snowman and Daniel Havivi, 700 12th Street, NW, Suite 900, Washington, DC 20005, and electronic copies of the hard copies of the LOC and the Opinion Letter to USAC at hcinfo@usac.org and OGC-LOC@usac.org.

*Completion Notice*. Midcontinent must submit an electronic copy of the Completion Notice to USAC at hcinfo@usac.org and OGC-LOC@usac.org, and file an electronic copy in the Commission's Electronic Comment Filing System (ECFS) under WC Docket No. 25-207. Applicants should also email a copy of this notice directly to Megan Danner at megan.danner@fcc.gov and to Nissa Laughner at nissa.laughner@fcc.gov.

If and when all of these prerequisites are satisfied, the authorization of Midcontinent to receive the support associated with the Transferring Area will become effective. Until such authorization, Savage must maintain an irrevocable LOC securing the support for the Transferring Area and will retain *sole* responsibility for complying with the Universal Service Fund requirements for the Transferring Area and will remain accountable for the failure to meet such responsibilities. Once Midcontinent is authorized, all support and related transferrable assets associated with the Transferring Area, including any

---

purpose of the Act is to "accelerate rapidly private sector deployment of advanced telecommunications and information technologies and services")).

[35] Application at 15.

[36] *Id*. at 6, 11-13.

[37] 47 CFR § 54.804(c).

[38] If Midcontinent fails to meet one or more conditions on its authorization as of this deadline, it must file notice of this failure on or before the 10th calendar day after this deadline in the Commission's Electronic Comment Filing System (ECFS) within Docket No. 25-207. Midcontinent will automatically receive an additional 45 days to meet all prerequisites if, in this notification, it certifies that there have not been nor will be any material changes relevant to the impending grant of its authorization and provides an estimated time frame for the completion of all unfulfilled prerequisites on the authorization. Because, however, of the impending default of Savage on RDOF obligations for all areas of the SAC that are not part of the Transferring Area, a further extension may not be granted. Accordingly, if Midcontinent fails to meet this extended deadline, the Bureau will reassess Midcontinent's continuing eligibility for authorization. It will notify Midcontinent by letter of the new terms of authorization, including, potentially, the imposition of additional prerequisites for authorization and the new deadline for meeting any outstanding prerequisites or its determination that Midcontinent is ineligible for authorization.

disbursements for the Transferring Area received by Savage pending the effective date of Midcontinent's authorization or thereafter, must be transferred to Midcontinent.[39] If USAC cannot modify the payment system before one or more post-authorization payments associated with the Transferring Area comes due, Savage must, consistent with its obligation to transfer all support and assets associated with the Transferring Area, transfer the full amount of support it has received from USAC for the Transferring Area after Midcontinent's authorization.

We remind Midcontinent that once it satisfies all conditions of the RDOF authorization for the Transferring Area, it assumes sole responsibility for complying with universal service fund requirements and Commission rules, regardless of any preexisting or reasonably foreseeable conditions that could impact its ability to meet its obligations in the future, including technical, marketplace, and on-the-ground conditions.[40] Indeed, any carrier seeking authorization to receive high cost support pursuant to a section 214 authorization must conduct the proper due diligence prior to consummation of the transaction and, in doing so, must assume all risks and consequences of noncompliance with program requirements, including default recovery of support and potential forfeiture penalties.[41] In addition, Midcontinent must meet all administrative, performance, and deployment obligations and deadlines,[42] including the requirement to deploy voice and broadband service meeting minimum standards to the requisite number of locations by specific service milestones.[43]

[39] Once Midcontinent is authorized to receive the support, USAC will transfer all future support payments to Midcontinent as of the next month following the authorization or as soon as reasonably practicable thereafter. Unless parties to the transaction satisfy all prerequisites of authorization and give notice of such satisfaction in accordance with the above listed procedures on or before the 10th date of the month, it is unlikely that USAC will be able to transfer the next end-of-month payment to Midcontinent. We note that there may be extenuating circumstances other than this timing that might cause a temporary delay in the transfer of the payment.

[40] *See, e.g.*, *Authorization of Atlink Services, LLC to Receive Connect America Fund (CAF) Phase II Auction Support Transferred from Cherokee Telephone Company Pursuant to a Commission Approved Transaction*, WC Docket No. 10-90, Public Notice, 37 FCC Rcd 6158, 6159 (WCB 2022).

[41] *See Connect America Fund, ETC Annual Reports and Certifications*, WC Docket Nos. 10-90 and 14-58, Report and Order and Further Notice of Proposed Rulemaking, 35 FCC Rcd 686, 717-18, para. 68 (2014) (*Rural Digital Opportunity Fund Order*) (stressing that it is RDOF bidders' "sole responsibility" to complete due diligence by conducting adequate research and analysis before participating in the RDOF auction); *id*. at 725, para. 84 (requiring RDOF short-form applicants to certify that they are solely responsible for compliance with all RDOF requirements).

[42] The Bureau provides a summary of the various obligations of authorized RDOF support recipients in prior authorization public notices. As stated in these public notices, the summary is not intended to be comprehensive, and all authorized parties are responsible for conducting the due diligence required to comply with universal service fund requirements and the Commission's rules. *See, e.g.*, *Rural Digital Opportunity Fund Support Authorized for 1,345 Winning Bids*, AU Docket No. 20-34, WC Docket Nos. 19-126 and 10-90, Public Notice, 37 FCC Rcd 4897, 4898-4905 (WCB 2022). We note that in addition to the requirements and rules specified in the public notices, RDOF support recipients must test and certify compliance with the relevant performance requirements in accordance with the uniform framework that has been adopted for measuring and reporting on high cost performance requirements. *See Rural Digital Opportunity Fund Phase I Auction Scheduled for October 29, 2020; Notice and Filing Requirements and Other Procedures for Auction 904*, AU Docket No. 20-34 et al., Public Notice, 35 FCC Rcd 6077, 6083, para.15 (2020); *Connect America Fund*, WC Docket No. 10-90, Order, 33 FCC Rcd 6509, 6530-33, paras. 56-67 (WCB 2018); *Connect America Fund*, WC Docket No. 10-90, Order on Reconsideration, 34 FCC Rcd 10109, 10110, para. 4 (2019) (expanding performance measure testing requirements); *see generally Connect America Fund*, WC Docket No. 10-90, Order, WC Docket No. 10-90, Order, 35 FCC Rcd 14658 (WCB 2020) (clarifying certain requirements).

[43] Specifically, RDOF support recipients must deploy service to an increasing percentage of authorized locations as of December 31st of each year beginning with a 40% milestone as of the third year of receiving support (for carriers authorized in 2022, the end of 2025), 60% as of the fourth year (2026), 80% as of the fifth year (2027), and 100% as of the sixth year (2028). 47 CFR § 54.802(c); *Rural Digital Opportunity Fund Order*, 35 FCC Rcd at 709-12, paras. 45-55. The Commission will then adjust the initial defined deployment obligation assigned to each RDOF support

(continued….)

**Grant of Application**

We find, upon consideration of the record, that the proposed transfer will serve the public interest, convenience, and necessity.[44]

Therefore, pursuant to section 214 of the Act, 47 U.S.C. § 214, and sections 0.91, 0.291, and 63.04 of the Commission's rules, 47 CFR §§ 0.91, 0.291, and 63.04, the Bureau hereby grants the Application discussed in this Public Notice, subject to Applicants' compliance with all applicable obligations.

Pursuant to section 1.103 of the Commission's rules, 47 CFR § 1.103, the grant is effective upon release of this Public Notice. Petitions for reconsideration under section 1.106 or applications for review under section 1.115 of the Commission's rules, 47 CFR §§ 1.106, 1.115, may be filed within 30 days of the date of this Public Notice.

## EFFECTIVE DATE FOR RULE REQUIRING ALL PROVIDERS TO BLOCK USING A DO-NOT-ORIGINATE LIST SET FOR DECEMBER 15, 2025

**CG Docket No. 17-59**

On February 27, 2025, the Commission adopted the *Eighth Report and Order* in the above-captioned proceeding.[1] In this rulemaking, the Commission adopted a new rule requiring all U.S.-based providers in the call path to block calls using a reasonable do-not-originate (DNO) list.[2] This rule is contained in 47 CFR § 64.1200(o).[3]

The *Eighth Report and Order* provided that this rule would become effective 90 days after publication of a notice of Office of Management and Budget (OMB) approval in the Federal Register. OMB approved the information collection requirement on August 5, 2025.[4] A notice of OMB approval was published in the Federal Register on September 16, 2025.[5] The rule's effective date, accordingly, is December 15, 2025, 90 days after the rule was published in the Federal Register.[6]

**ORDER**

**Issued: September 29, 2025** **Effective: September 29, 2025**

By the Chief, Mobility Division, Wireless Telecommunications Bureau, and Chief, Policy and Rules Division, Office of Engineering and Technology:

## I. INTRODUCTION

1. By this Order, the Wireless Telecommunications Bureau (WTB) and Office of Engineering and Technology (OET) conditionally grant the request of the Los Angeles Organizing Committee for the Olympic and Paralympic Games 2028 (LA28) for a Special Temporary Authority (STA) and waiver of certain Commission rules.[1] The STA and waivers will provide LA28, in partnership with one or more FCC-certified frequency coordinator(s),[2] with enhanced flexibility to facilitate the vital communications needs of the 2028 Olympic and Paralympic Games through primary access to the part 90 Land Mobile Radio spectrum (excluding frequencies dedicated to public safety use) and available part 22 Public Mobile Services spectrum in the VHF and UHF bands.[3] As part of the United States' bid to host the Games the Federal Communications Commission (FCC or Commission) has pledged to help "secure sufficient fixed and mobile telecommunication capacity and service quality to support Games operations…" and is "committed to facilitating the availability of spectrum for all users in connection with" the 2028 Games.[4] President Trump has affirmed a government-wide commitment by establishing a White House Task Force to ensure a unified government-wide approach to supporting the Games.[5] Accordingly, we issue an STA and waivers to facilitate communications during the Games while minimizing the potential for harmful interference. In light of the strong commitment of the US federal government and for the reasons discussed below, we find that granting these waivers and issuing this STA

[1] *See* ULS File No. 0011641696 (filed July 9, 2025; last amended September 26, 2025); *see also* 47 CFR § 1.925 (Waiver Standards) and 47 CFR § 1.931(b) (Special Temporary Authority).

[2] *See* 47 CFR §§ 90.7 (defining frequency coordination), 90.175 (setting forth frequency coordination requirements).

[3] Specifically, the STA covers the following frequencies: 72-76 MHz, 150-174 MHz, and 450-512 MHz. The spectrum regulated under part 22 includes that which is in the Commission's inventory or which existing licensees make available to LA28 through contractual arrangements. The STA establishes primary operating authority for the relevant spectrum, subject to the conditions outlined herein.

[4] Letter from Tom Wheeler, Chairman, Federal Communications Commission, to Thomas Bach, President, International Olympic Committee, Sept. 30, 2016, Exhibit A to ULS File No. 0011641696; Letter from President Donald J. Trump to Thomas Bach, President, International Olympic Committee Feb. 18, 2020, Exhibit A to ULS File No. 0011641696.

[5] Establishing the White House Task Force on the 2028 Summer Olympics, Executive Order 14238 (Aug. 5, 2025).

will serve the public interest. This STA will be in effect from March 5, 2028, through September 1, 2028. Recognizing the importance of providing certainty for LA28 to prepare for the Games, WTB plans to include a condition on future part 90 license grants for the spectrum and geographic areas covered by this STA establishing protections for LA28 during the STA period.[6]

## II. BACKGROUND

2. *STA and Waiver Request*. On July 9, 2025, LA28 submitted a request to the Commission for an STA to "allow access to all Part 90 Land Mobile radio spectrum and Part 22 Public Mobile Services spectrum that overlaps with Part 90, in order to facilitate communications at the Olympic and Paralympic Games."[7] Noting that the STA is requested for the dates of March 5, 2028, to September 1, 2028, LA28 also specifies geographic boundaries for the special temporary authority. LA28 indicates that this request "would include communications necessary for safety and security, as well as to support the significant media interest in the event."[8] LA28 specifies that it will utilize one or more FCC-certified Private Land Mobile Radio (PLMR) frequency coordinator(s) "to help facilitate efforts to access available spectrum, work on potential interference issues," and to precisely define the geographic scope of the request.[9] LA28 also requests waivers of:

- part 90 technical, usage, and eligibility rules, including waiver of the general technical standards, waivers to allow operations in bands not designated as general business, waiver of any short-spacing/separation rules, and waiver of the contour requirements;[10]
- part 22 technical, usage, and eligibility rules, including waiver of the allocation table requirements to allow part 22 spectrum to be used for PLMR;
- section 90.179 of the rules to allow LA28 to share and redistribute spectrum held by others; and
- any additional FCC rule the Commission deems necessary to waive in order to accomplish the purpose of this STA and accompanying waiver request.[11]

3. LA28 argues that the public interest supports the issuance of this STA and grant of the requested waivers, noting the "unique" nature of this "monumental endeavor" and highlighting the dearth of spectrum available in the Los Angeles area for critical communications during the Games. In further support, LA28 includes a letter from the President pledging the "complete support of the United States Government in ensuring a successful 2028 Games," as well as a letter from the FCC indicating that the Commission will facilitate the availability of spectrum, among other commitments.[12]

4. *Olympic and Paralympic Games*. The Olympic and Paralympic Games provide a "premier opportunity to showcase American exceptionalism and drive economic prosperity,"[13] and involve years of

[6] This condition is expected to apply to public safety entities who obtain Industrial/Business spectrum licenses, though as noted, the STA does not include dedicated public safety spectrum.

[7] *See* ULS File No. 0011641696, Attachment at 1.

[8] *Id.*

[9] *Id*.

[10] *Id*. at 1-2.

[11] *Id*. at 2.

[12] *Id*., Exhibit A.

[13] Fact Sheet: President Donald J. Trump Establishes White House Task Force on the 2028 Summer Olympics, White House, Aug. 5, 2025, available at https://www.whitehouse.gov/fact-sheets/2025/08/fact-sheet-president-donald-j-trump-establishes-white-house-task-force-on-the-2028-summer-olympics/.

complex planning and logistics coordination.[14] With about five billion expected viewers, communications will be key for the Games—from team radio communications to wireless cameras to aerial footage.[15] The FCC Chairman is among the participants in a White House Task Force chaired by the President to facilitate the smooth operation of the Games, further highlighting the critical importance of communications to the Games' success. These communications require wireless spectrum, which is a limited resource in the densely populated areas, particularly as to the spectrum for which LA28 seeks STA relief and waivers. The Games require a wide variety of radio technologies including short range (low power) technologies, modern 4G/5G technologies used by wireless carriers, and longer-range voice and data communications offered under our part 90 (and part 22) rules. For the last several Olympic/Paralympic Games held in other countries, organizers have utilized a portal to centrally organize, authorize, and manage the spectrum usage of the various stakeholders within the Olympic venues.[16] Given the unique spectrum environment, the Games depend on advance planning and an approach that maximizes efficient use of the scarce spectrum resources and avoiding harmful interference that could disrupt event operations and broadcasting, and organizers in prior Games have taken a hands-on approach to managing stakeholders' wireless spectrum usage.

5. *PLMR and Public Mobile Service Spectrum*. PLMR systems are used to meet a wide range of communication requirements over a given geographic area, including coordination of people and materials, important safety and security needs, and quick response in times of emergency. These systems often share frequencies with other private users.[17] Generally, particular sets of PLMR frequency assignments, or "pools," are associated with specific categories of users, as delineated in the part 90 rules.[18] In addition, with limited exceptions, frequency coordination is required in advance of the Commission's grant of a PLMR license.[19] In this arrangement, a private, Commission-certified frequency coordinator first recommends frequencies that will most effectively meet the applicant's needs while minimizing the potential for harmful interference to existing licensees, saving Commission resources and streamlining the Commission's issuance of these licenses. This system is not readily compatible with the centralized portal that past Olympic and Paralympic Games have used to manage spectrum. Additionally, Public Mobile Service spectrum is addressed under part 22 rules. Public Mobile Radio spectrum includes auctioned spectrum that shares similar characteristics with part 90 spectrum and comprises some unused spectrum that has been returned to the Commission's inventory.[20] With this STA, we only permit private wireless service uses under our part 90 rules subject to the conditions and waivers herein.

## III. DISCUSSION

6. In the private wireless service, the Commission may grant a 180-day STA for "a temporary, non-recurring service where a regular authorization is not appropriate."[21] Section 1.925(b)(3) of the Commission's rules states that the Commission may grant a waiver when the Commission finds that either (i) "[t]he underlying purpose of the rule(s) would not be served or would be frustrated by application to the instant case, and that a grant of the requested waiver would be in the public interest," or (ii) "[i]n view of unique or unusual factual circumstances of the instant case, application of the rule(s) would be inequitable, unduly burdensome or contrary to the public interest, or the applicant has no reasonable alternative."[22] After consideration of the monumental importance of this unique event and the infeasibility of combining LA28's centralized spectrum management approach with the provisions of the part 90 rules, we find that LA28 has shown that the circumstances warrant application of section 1.925(b)(3) and, accordingly, we waive several Commission's rules, subject to the conditions set forth below.

7. The successful execution of the 2028 Olympic and Paralympic Games is a matter of high national priority.[23] In order to achieve success, we need effective wireless communication. Specifically, PLMR frequencies, which are typically used for handheld radio communication, are expected to be in great demand by key Games stakeholders, including the event organizer, Olympics Broadcasting Services, and participants. It is crucial that PLMR frequencies be available to LA28 in support of this broad range of stakeholders, especially given that these frequencies are heavily utilized, and our conditions are designed to minimize the potential for harmful interference and to address it quickly if it occurs. Further, the regular licensing model for PLMR includes longer license terms, strict rules reserving certain frequencies for specific user bases, and as-needed frequency assignments and license boundaries. Here, these features present significant challenges, burdens, and costs for those seeking to use it in specific geographic areas for a limited period of time for these significant events.

8. The overall PLMR spectral environment and regulatory regime calls for an approach to leverage all spectrum that remains available in Los Angeles and the other venue areas, and imposing the typical licensing process and the usual part 90 rules here is both unduly burdensome and contrary to the public interest. Thus, we issue this STA to LA28, centralizing the PLMR licensing, giving LA28 a greater degree of operational control, leveraging the vast experience of the PLMR frequency coordinators, and providing a path to maximize the spectrum available. The STA includes waivers designed to allow LA28 to maximize its use of any and all available spectrum, including spectrum previously auctioned for part 22 services that is now in FCC's inventory. While LA28 is free to further divide and share spectrum under the STA for purposes of supporting communications during the Games, LA28 remains responsible for operations under this authority.

9. With such a densely populated physical and spectral environment in each location identified by LA28's STA application, there could be potential risk of harmful interference to other PLMR users and to critical public safety and government activities in co-located and adjacent bands. Thus, we require that LA28 must engage one or more FCC-certified PLMR frequency coordinators, which are expert in the local spectral environment(s) and knowledgeable of the FCC rules and underlying technical principles. While this Order includes waiver of the technical rules, we nonetheless require LA28 to engage the frequency coordinators that will advise LA28 how to execute its operations without harmful interference

[21] 47 CFR § 1.931(b)(2)(iv).

[22] 47 CFR § 1.925(b)(3).

[23] *See, e.g.*, Fact Sheet: President Donald J. Trump Establishes White House Task Force on the 2028 Summer Olympics, White House, Aug. 5, 2025.

to the surrounding radiofrequency ecosystem. The engagement of the frequency coordinator(s) is a key condition to safeguard and protect the public interest.[24]

10. For the reasons discussed above, we issue to LA28 an STA for Part 90 Land Mobile radio spectrum and available Part 22 Public Mobile Services spectrum in the UHF and VHF bands, effective March 5, 2028, through September 1, 2028, in an 80-mile radius of a central point in Los Angeles, CA, and the other geographic areas referenced in LA28's ULS application.[25] The exact geographic parameters of the STA coverage are delineated in LA28's STA request.[26] This STA is accompanied by a waiver of the following rules: 47 CFR §§ 2.106,[27] 22.107, 22.131, 22.143, 22.150, 22.165, 22.169, 22.201, 22.213, 22.217, 22.221, 22.223, 22.225, 22.227, 22.229, 22.305, 22.307, 22.313, 22.351, 22.352, 22.353, 22.355, 22.357, 22.365, 22.377, 22.383, 22.501, 22.503, 22.507, 22.509, 22.511, 22.513, 22.515, , 22.529, 22.531, 22.535, 22.537, 22.559, 22.561, 22.567, 22.571, 22.573, 22.575, 22.589, 22.591, 22.621, 22.623, 22.625, 22.651, 22.653, 22.657, 90.31, 90.33, 90.35, 90.119, 90.127, 90.129, 90.135, 90.137, 90.138, 90.149, 90.155, 90.159, 90.165, 90.169, 90.173, 90.175, 90.176, 90.179(a), (b), and (f), 90.187, 90.214, 90.215, 90.261(c), 90.265(a)(3)&(4), 90.415, 90.419, 90.421, 90.425, 90.437, 90.439, 90.441, 90.443, 90.445, and 90.493.[28]

11. This grant is subject to the following conditions:

(1) The STA and waivers cover only the following spectrum: 72-76 MHz, 150-174 MHz, and 450-512 MHz.

(2) The STA and waivers apply only to the geographic areas referenced in LA28's application and included in the Appendix.[29]

(3) For spectrum regulated under part 22 in the above bands, the STA and waiver covers only that spectrum which is available in the Commission's inventory or that which existing licensees make available to LA28 through contractual arrangements.

(4) The STA and waiver cover only private wireless service under part 90.[30]

(5) All operations under the STA and waivers must be recommended by an FCC-certified PLMR frequency coordinator.

[24] This STA does NOT require that the frequency coordinator(s) follow the Commission's typical licensing procedures, nor does it mandate any subsequent filings before the Commission related to PLMR on the part of either LA28 or the Frequency Coordinator(s).

[25] LA28's STA application seeks coverage for radiuses of varying mileage around GPS coordinates across the country.

[26] *See* ULS File No. 0011641696, Attachment at 1.

[27] Waiver of §2.106, the Table of Frequency Allocations, is granted only to the extent necessary to repurpose pt. 22 spectrum for PLMR usage.

[28] Generally, this waiver covers the Table of Frequency Allocations as necessary to repurpose pt. 22 spectrum for PLMR usage, certain pt. 22 licensing requirements and procedures, certain pt. 22 operational and technical requirements, certain pt. 22 paging and radiotelephone service rules, certain pt. 90 industrial/business radio pool rules, certain pt. 90 applications and authorizations, certain pt. 90 policies governing the assignment of frequencies, certain pt. 90 general technical standards, certain pt. 90 standards for special frequencies or frequency bands, certain pt. 90 operating requirements, and certain pt. 90 paging operations rules.

[29] See ULS File No. 0011641696, Attachment at 1.

[30] 47 CFR pt. 90.

(6) LA28 must ensure that, when recommending operation under the rule waivers above, the frequency coordinator(s) documents good cause and reaches a finding that the potential for harmful interference to other primary licensees is either unlikely, or consent has been obtained;

(7) LA28 must maintain control of all operations under the STA, particularly those operations involving a foreign government or representative thereof.

(8) Upon receipt of complaints of interference, LA28 must evaluate and attempt to resolve the matter in the first instance and if unable to resolve the issue, forward to the Commission.

(9) All radiofrequency transmitting equipment operated under the STA and waivers must be approved via the FCC's Part 2 Equipment Authorization process.

(10) Section 2.106, the Table of Frequency Allocations, is waived only to the extent necessary to use part 22 spectrum for PLMR.

12. To protect operations authorized under this STA and waivers and permit spectrum to be available for the Games, WTB plans to include a condition on future part 90 license grants for the spectrum and geographic area covered by this STA establishing protections for LA28 during the STA period.

## IV. ORDERING CLAUSES

13. Accordingly, IT IS ORDERED, pursuant to Sections §§ 301, 307, 308, and 309 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 301, 307, 308, 309, and section 1.931 of the Commission's rules, 47 CFR § 1.931, that the request filed by LA28 for Special Temporary Authority is GRANTED to the extent described, and subject to the conditions specified above, and otherwise denied.

14. Further, IT IS ORDERED, pursuant to Sections 154(i), 301, 307, 308, and 309 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 154(i), 301, 307, 308, and 309, and section 1.925 of the Commission's rules, 47 CFR § 1.925, that the request filed by LA28 for waiver of the Commission's rules listed in paragraph 10 of this Order is GRANTED to the extent described here, and subject to the conditions described above, and otherwise denied.

15. This action is taken under delegated authority pursuant to sections 0.131, 0.31, 0.241, and 0.331 of the Commission's rules, 47 CFR §§ 0.131, 0.31, 0.241, and 0.331.

## WIRELINE COMPETITION BUREAU SEEKS NOMINATIONS TO FILL VACANT UNIVERSAL SERVICE ADMINISTRATIVE COMPANY BOARD OF DIRECTORS POSITION

**CC Docket Nos. 96-45, 97-21**

Nominations Due By: November 28, 2025

Pursuant to sections 54.703(c) and (d) of the Federal Communications Commission's (Commission or FCC) rules, the Wireline Competition Bureau (Bureau) seeks nominations to fill the Universal Service Administrative Company (USAC) Board of Directors (Board) position representing state telecommunications regulators.[1] The position was most recently held by Sarah Freeman, Commissioner, Indiana Utility Regulatory Commission, who stepped down from the Board on September 24, 2025. The term for the position expires on December 31, 2027.

We are persuaded that having Board members with substantive areas of expertise relevant to running a large and complex organization with such skills as accounting, finance, auditing, procurement, data management, and information technology will improve the management, administration, and oversight of USAC. If members of the state telecommunications regulatory group fail to reach consensus on a candidate to serve on the Board, or fail to submit a nomination for the vacant Board member seat, the Chairman of the FCC will select an individual from that group to serve on the Board as outlined in section 54.703(c)(1).[2]

Pursuant to section 54.703(c)(2) of the Commission's rules, each nomination must be captioned "**In the Matter of: Nomination for Universal Service Administrator's Board of Directors, CC Docket Nos. 97-21 and 96-45**."[3] Nominations may be filed using the Commission's Electronic Comment Filing System (ECFS), or by filing paper copies.

- Electronic Filers: Comments may be filed electronically using the Internet by accessing the ECFS: https://www.fcc.gov/ecfs/filings.

- Paper Filers: Parties who choose to file by paper must file an original and one copy of each filing. Because more than one docket appears in the caption of this proceeding, filers must submit two additional copies for the additional docket.

[1] 47 CFR § 54.703(c) and (d).

[2] 47 CFR § 54.703(c)(1).

[3] 47 CFR § 54.703(c)(2).

- Filings can be sent by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail. All filings must be addressed to the Commission's Secretary, Office of the Secretary, Federal Communications Commission.

- Commercial overnight mail (other than U.S. Postal Service Express Mail and Priority Mail) must be sent to 9050 Junction Drive, Annapolis Junction, MD 20701.

- U.S. Postal Service first-class, Express, and Priority mail must be addressed to 45 L Street, NE, Washington, DC 20554.

People with Disabilities: To request materials in accessible formats for people with disabilities (braille, large print, electronic files, audio format), send an e-mail to fcc504@fcc.gov, or call the Consumer & Government Affairs Bureau at 202-418-0530.

In addition to the electronic or paper filing, copies of each nomination should be submitted to Charles Tyler, Telecommunications Access Policy Division, Wireline Competition Bureau, Federal Communications Commission, via email Charles.Tyler@fcc.gov. Each submission should specify the position of the Board of Directors for which such nomination is submitted and should be accompanied by the nominee's professional and biographical information, such as a résumé or professional biography. **All nominations must be filed by November 28, 2025**.

For further information, please contact Philip Bonomo (Philip.Bonomo@fcc.gov), Assistant Division Chief, Telecommunications Access Policy Division, Wireline Competition Bureau at (202) 418-2778.

**ORDER**

By the Chief, Consumer and Governmental Affairs Bureau:

## I. INTRODUCTION

1. The Consumer and Governmental Affairs Bureau (CGB or Bureau) partially waives the Commission's rule prohibiting video relay service (VRS) calls from locations outside of the United States to locations in the United States unless the user, prior to leaving the country, notifies their VRS provider of their travel details.[1] Because numerous VRS users are expected to travel to Tokyo, Japan, this fall for the Deaflympics Games, the waiver is in the public interest. For the reasons explained below, we partially waive section 64.604(d)(6) of the Commission's rules to facilitate VRS international calls during the time period of this event. This waiver shall be in effect from November 1, 2025, through December 10, 2025.

## II. BACKGROUND

2. *The Deaflympics*. The Deaflympics is an international athletic event sanctioned by the International Olympic Committee at which deaf athletes representing their countries compete at an elite level. The Games, held every four years, will be held this year in Tokyo from November 15-26, 2025.[2] Since 1935, U.S. athletes have won over 1,000 medals at the Deaflympics—the most among participating nations.[3] The United States was represented by 137 athletes at the 2022 Summer Deaflympics in Brazil,[4] which was attended by more than 5,000 fans.[5]

3. *International VRS Calling*. We anticipate that VRS users will travel to Japan to participate in, and observe, the Deaflympics Games and will want to make calls to the United States while abroad. Under the current rules, a VRS user must notify their default VRS provider, prior to departure

[1] 47 C.F.R. § 64.604(d)(6). VRS, a form of telecommunications relay service (TRS), "allows people with hearing or speech disabilities who use sign language to communicate with voice telephone users through video equipment." 47 CFR § 64.601(a)(57). The VRS user signs to a communications assistant (CA) who voices the conversation to the telephone user and then signs the conversation back to the VRS user.

from the United States, specifying the locations to which the individual will be traveling and a specified time period during which the user will be on international travel.[6] Only calls made from those locations and during the specified time period are compensable from the TRS Fund, if otherwise in compliance with the Commission's rules.[7]

4. In practice, VRS users frequently do not notify their provider regarding international calling prior to their departure from the United States. When such a user attempts to make a call from abroad to the United States, the VRS provider will not connect the call and refers the user to the Commission's Disability Rights Office (DRO) to obtain a waiver of the pre-departure notification requirement. DRO must, in turn, collect the required travel information from the user, review the request, and, if approved, issue a letter decision for the user to send to the VRS provider. Although the pre-departure notification process has been in place for 15 years,[8] many VRS users either forget or are not aware of the requirement to notify their provider prior to departure from the United States.

5. Recently, following the implementation of the TRS User Registration Database (User Database)[9] and other anti-fraud measures, the Commission has rescinded the requirement for VRS users to notify their default provider before departure from the United States.[10] Pursuant to the revised rule, VRS users need only notify their provider of their travel plans before making their first compensable call from an international endpoint.[11] However, because the revised rule has not yet completed Paperwork Reduction Act review, it is not yet effective.

## III. DISCUSSION

6. *Waiver Standard.* A Commission rule may be waived for "good cause shown."[12] Waiver is appropriate where the particular facts would make strict compliance inconsistent with the public

[6] 47 CFR § 64.604(d)(6). The Commission adopted a general prohibition on international VRS calls in 2011 to address fraud in the VRS program, including international calls by persons unknown. *See Structure and Practices of the Video Relay Service Program*, CG Docket No. 10-51, Report and Order and Further Notice of Proposed Rulemaking, 26 FCC Rcd 5545, 5564, para. 32 (2011) (*2011 VRS Reform Order*). At the same time, the Commission adopted the limited exception now in section 64.604(d)(6) for users who notified their VRS provider prior to departure from the United States. *See id*.

[7] The costs for VRS calls are supported entirely by the Interstate TRS Fund, rather than by users. *See* 47 U.S.C. § 225(d)(3)(B) (costs of intrastate relay calls are borne by the states; costs for interstate TRS calls are funded by subscribers to interstate telephone services). VRS providers are compensated for the provision of the service in accordance with the Commission's rules and orders. *See* 47 CFR § 64.604(c)(5)(iii)(D)-(E).

[8] *See 2011 VRS Reform Order,* 26 FCC Rcd at 5564, para. 32.

[9] The User Database verifies the registration information of each VRS user. *See Video Relay Service Providers May Begin Submitting Data to the TRS User Registration Database,* CG Docket Nos. 10-51 and 03-123, Public Notice, 32 FCC Rcd 10467 (OMD CGB 2017); *Structure and Practices of the Video Relay Service Program*, CG Docket No. 10-51, Report and Order, 28 FCC Rcd 8618, 8649-53, paras. 68-77 (2013) (*2013 VRS Reform Order*); 47 CFR § 64.611(a)(4) (TRS-URD data requirements).

[10] *See Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities*; *Structure and Practices of the Video Relay Service Program*; *Petition for Rulemaking and Interim Waiver of Convo Communications, LLC,* CG Docket Nos. 03-123 and 10-51, 38 FCC Rcd 12750, 12763, paras. 32-33 (2023) (*2023 VRS Improvements Order*).

[11] *See id.* at 12763, para. 32.

[12] 47 CFR § 1.3; *see also ICO Global Communications (Holdings) Limited v. FCC*, 428 F.3d 264 (D.C. Cir. 2005); *Northeast Cellular Telephone Co. v. FCC*, 897 F.2d 1164 (D.C. Cir. 1990); *WAIT Radio v. FCC*, 418 F.2d 1153 (D.C. Cir. 1969).

interest. Good cause for a waiver may be found if special circumstances warrant a deviation from the general rule and such deviation will serve the public interest.[13]

7. We find that a partial waiver of section 64.604(d)(6) is appropriate because special circumstances warrant a deviation from the general rule, and such deviation will serve the public interest. International travel associated with attending the Deaflympics is a special circumstance that will burden an unusually large number of VRS users making international calls during a short span of time, and will require significant resources from VRS providers and the Commission to address. Under these special circumstances, partially waiving section 64.604(d)(6) will reduce the burdens imposed on VRS users, providers, and the Commission by ensuring that VRS users traveling abroad will not have their access to VRS impeded during the period of time surrounding the Deaflympics Games.

8. First, by not requiring VRS users to notify their provider *before* they leave the United States, the waiver will facilitate the users' ability to make calls to the United States by simply notifying their provider before making their first international call, even if they have already departed the United States. Second, the waiver eliminates the need for VRS providers to require users to obtain individual waivers from DRO. This ameliorates the inevitable delay for those users in making international calls while DRO collects the required information from the user, prepares and issues a letter decision, and sends the decision to the user, so the user can send the decision to the VRS provider. As the Commission found when it revised section 64.604(d)(6), this procedure better aligns with functional equivalency for VRS users and reduces administrative costs incurred by VRS providers, the TRS Fund administrator, and Commission staff to enforce the pre-departure notification requirement.[14]

9. Finally, we determine that granting this limited waiver will not lead to a significant risk of fraud, abuse, or waste of the TRS Fund. As noted above, the Commission has amended the pre-departure notice requirement to allow such notice at any time prior to making an international call. A waiver is needed only because this amendment has not yet become effective. As the Commission found when it amended the rule, the User Database registration requirement, which includes vetting of each new VRS user by the User Database administrator, provides sufficient assurance against payment of compensation for fraudulent VRS calls, including calls from unknown persons located outside the United States.[15]

10. Accordingly, we find good cause to waive the pre-departure notification requirement of section 64.604(d)(6). We will allow VRS users traveling abroad to notify their VRS providers at any time before they make their first international call. This waiver shall be in effect from November 1, 2025, through December 10, 2025, two weeks before and two weeks after the Deaflympics Games.

11. Pursuant to this waiver, VRS providers may be compensated for calls to the United States from VRS users on international travel for the duration of the user's travel, as long as they are notified of such travel prior to the user placing an international call within the waiver period specified in this Order. VRS users will still have to specify the locations to which they will be traveling, as well as a finite time period during which they will be on travel.

12. We do not restrict the waiver to users traveling only to Japan during the waiver period. Such a geographic limitation on the waiver would create burdens for VRS providers by requiring them to evaluate whether a user's travel plans qualify the user for post-departure notification. VRS providers would have to keep track of VRS users who visit Japan and then travel to another international point to distinguish them from VRS users who did not travel to Japan and refer the latter users to DRO for a separate waiver. This would impose unnecessary administrative burdens on providers, users, and Commission staff responsible for ruling on requests for waivers on a user-by-user basis. Further, the

[14] *See 2023 VRS Improvements Order*, 38 FCC Rcd at 12763, para. 33.

[15] *See id.* at 12763-64, para. 34.

Commission has already decided that VRS users traveling abroad should be allowed to place international calls by notifying their VRS provider post-departure.[16] Accordingly, we find that waiving the notification requirement for VRS users traveling abroad during the period the waiver is in effect will best serve the public interest for VRS users, VRS providers, and Commission staff.

## IV. PROCEDURAL MATTERS

13. *People with Disabilities*. To request materials in accessible formats for people with disabilities (Braille, large print, electronic files, audio format), send an e-mail to fcc504@fcc.gov or call the Consumer and Governmental Affairs Bureau at 202-418-0530.

14. *Additional Information*. For additional information on this proceeding, contact William Wallace, Disability Rights Office, Consumer and Governmental Affairs Bureau, at 202-418-2716, or William.Wallace@fcc.gov.

## V. ORDERING CLAUSES

15. Accordingly, IT IS ORDERED that, pursuant to sections 1, 2, 3, and 225 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 151, 152, 153, and 225, the foregoing ORDER IS ADOPTED.

16. IT IS FURTHER ORDERED that, pursuant to sections 1, 2, 4(i), 4(j), and 225 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 151, 152, 154(i), 154(j), and 225, and section 1.3 of the Commission's Rules, 47 CFR § 1.3, the pre-U.S.-departure requirement for Video Relay Service users to notify their default provider prior to making international calls in section 64.604(d)(6), 47 CFR § 64.604(d)(6), is TEMPORARILY WAIVED as set forth in the Order, from November 1, 2025, through December 10, 2025.

17. IT IS FURTHER ORDERED that, pursuant to sections 1.4(b) and 1.103(a) of the Commission's rules, 47 CFR §§ 1.4(b) and 1.103(a), this ORDER SHALL BE EFFECTIVE upon release.

FEDERAL COMMUNICATIONS COMMISSION

Eduard Bartholme III
Chief
Consumer and Governmental Affairs Bureau

**ORDER**

**Adopted: July 21, 2025** **Released: September 3, 2025**

By the Commission:

1. Pursuant to section 0.181 of the Federal Communications Commission's (Commission) Rules,[1] we hereby appoint Chairman Brendan Carr to be Defense Commissioner. The Defense Commissioner "directs the homeland security, national security and emergency preparedness, and defense activities of the Commission." The duties and responsibilities of the Defense Commissioner include, *inter alia*: (1) representing the Commission in interagency matters pertaining to public safety, homeland security, national security, emergency preparedness, disaster management, and defense and related matters, including matters pertaining to continuity of the essential functions of the Commission under emergency conditions; (2) serving as the principal point of contact for the Commission on all matters pertaining to the Department of Homeland Security; (3) developing emergency programs covering service provision by wireless and wireline telecommunications carriers and broadcast, cable, and satellite facilities, as well as radio frequency assignment, investigation, and enforcement; and (4) assuming the duties of the Commission under certain emergencies.[2]

2. This Order is procedural in nature and pertains to internal organization and delegations of authority, and hence is not subject to the prior notice and effective date provisions of the Administrative Procedure Act.[3]

3. ACCORDINGLY, IT IS ORDERED, that pursuant to sections 1, 4(i), 5(c), 303(r) and 706 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 151, 154(i), 155(c), 303(r), and 606, and section 0.181 of the Commission's rules, 47 C.F.R. § 0.181, Chairman Brendan Carr is appointed Defense Commissioner EFFECTIVE on adoption of this Order.

## I. INTRODUCTION

1. Each fiscal year (FY), the Commission must adopt a schedule of regulatory fees to be assessed and collected by the end of September in an amount that reasonably can be expected to total the Commission's annual salaries and expenses (S&E) appropriation. Today, pursuant to our statutory obligation in section 9 of the Communications Act of 1934, as amended, (Act or Communications Act) and the Commission's FY 2025 Further Consolidation Appropriations Act, we adopt a regulatory fee schedule for FY 2025, to assess and collect $390,192,000 in regulatory fees.[1]

2. In June, the Commission proposed a regulatory fee schedule for FY 2025.[2] Consistent with the Commission's long-standing regulatory fee methodology and the record gathered, we adopt the proposal in the *FY 2025 NPRM* to reallocate the time of 61 indirect full time equivalents (FTEs) as direct for regulatory fee purposes. This determination rests on our conclusion that certain FTE work in the Office of General Counsel, the Office of Economics and Analytics, and the Public Safety and Homeland Security Bureau is sufficiently linked to the oversight and regulation of regulatory fee payors such that the burden of that work should be considered in applying our regulatory fee methodology.

3. We also implement the targeted amendments the Commission adopted in June 2025 to the methodology we use to assess regulatory fees for space and earth stations.[3] Additionally, we adopt the Commission's proposal in the *FY 2025 NPRM* for the calculation of television broadcaster regulatory fees, as adjusted. We implement these determinations and adopt a schedule of regulatory fees, as set forth in Appendices B and C.

4. Finally, we decline to adopt various proposals to modify our regulatory fee methodology or to add new regulatory fee categories in FY 2025. The arguments supporting such proposals have been fully considered by the Commission in prior proceedings. As discussed in detail below, commenters have provided no basis for us to change the Commission's prior determinations, and we therefore reaffirm the conclusions that the methodology changes and new regulatory fee categories that have been proposed are unworkable and logistically infeasible at this time.

## II. BACKGROUND

5. Pursuant to Section 9 of the Act and the Commission's FY 2025 S&E appropriation, we are required to collect $390,192,000 in regulatory fees in FY 2025.[4] Regulatory fees cover the

[1] *See* 47 U.S.C. §§ 156, 159. *See also* Section 1101(a) of *DIVISION A—Full-Year Continuing Appropriations Act, 2025,* of *H.R.1968—Full-Year Continuing Appropriations and Extensions Act, 2025*, Pub. L. No. 119-4 (Mar. 15, 2025).

[2] *Review of the Commission's Assessment and Collection of Regulatory Fees for Fiscal Year 2025*, MD Docket No. 24-86, Notice of Proposed Rulemaking, FCC 25-30 (rel. June 5, 2025) (*FY 2025 NPRM*). Appendix I contains a list of commenters that addressed the *FY 2025 NPRM*.

[3] *Assessment and Collection of Space and Earth Station Regulatory Fees for Fiscal Year 2024*, MD Docket No. 24-85, Third Report and Order, FCC 25-31 (rel. June 9, 2025) (*FY 2024 Third Report and Order*).

[4] The regulatory fee collection is guided by both the statutory authority in sections 6 and 9 of the Act, 47 U.S.C. §§ 156, 159, and the explicit language of each fiscal year's S&E appropriation directing the amount to be collected as an offsetting collection. 47 U.S.C. § 159. Section 9(a) provides that "[t]he Commission shall assess and collect

(continued….)

Commission's non-auctions direct,[5] indirect,[6] and support[7] costs, including costs to cover statutorily required tasks that do not directly equate with oversight and regulation of a particular fee payor, but instead benefit the Commission and the industry as a whole.[8] Since regulatory fees must recover the total amount of the Commission's S&E appropriation for the fiscal year,[9] they also must cover the costs incurred in oversight and regulation of: (1) entities that are statutorily exempt from paying regulatory fees;[10] (2) entities whose total assessed annual regulatory fees fall below the annual de minimis threshold;[11] and (3) entities whose regulatory fees are waived.[12]

---

regulatory fees to recover the costs of carrying out the activities described in section 156(a) of this title only to the extent, and in the total amounts, provided for in Appropriations Acts." 47 U.S.C. § 159(a). Section 1101(a) of DIVISION A—Full-Year Continuing Appropriations Act, 2025, of H.R.1968—Full-Year Continuing Appropriations and Extensions Act, 2025, Pub. L. No. 119-4 (Mar. 15, 2025) appropriates "such amounts as may be necessary, at the level specific in subsection (c) and under the authority and conditions provided in applicable appropriations Acts for fiscal year 2024, for projects or activities that are not otherwise specifically provided for, and for which appropriations, funds, or other authority were made available in the following appropriations Acts: . . . ." *Id.* Subsection 1101(a)(5), in turn, lists the "division B of Public Law 118-47" which contains the Commission's FY 2024 S&E appropriation. Subsection (b) provides that "level" means amount. *Id*. Accordingly, the Commission's FY 2025 S&E appropriation is in the amount contained in its FY 2024 S&E appropriation. *See* Further Consolidation Appropriations Act, 2024, Pub. L. No. 118-47, Division B—Financial Services and General Government Appropriations Act, 2024 (FY 2024 Consolidated Appropriations Act). The Commission has no discretion regarding the total amount to be collected in any given fiscal year.

[5] Direct costs are those such as salaries and expenses. *See, e.g.*, *Review of the Commission's Assessment and Collection of Regulatory Fees; Assessment and Collection of Regulatory Fees for Fiscal Year 2024*, MD Docket Nos. 24-85, 24-86, Second Report and Order, 39 FCC Rcd 10140, 10143-44, para. 5 (2024) (*FY 2024 Second Report and Order*).

[6] Indirect costs are those such as overhead functions. *Id*.

[7] Support costs include those such as rent, utilities, and equipment. *Id.*

[8] *Assessment and Collection of Regulatory Fees for Fiscal Year 2021*, MD Docket No. 21-190, Report and Order and Notice of Proposed Rulemaking, 36 FCC Rcd 12900, 12991, para. 2 (2021) (*FY 2021 Report and Order*).

[9] FY 2025 started on October 1, 2024, and ends on September 30, 2025.

[10] Entities that are exempt from paying regulatory fees include governmental and nonprofit entities, amateur radio operators, and noncommercial radio and television stations. *See* 47 U.S.C. § 159(e)(1); 47 CFR § 1.1162. The Commission has previously observed that it is consistent with the Act to include those costs that are attributable to the fee paying and exempt regulatees in the revenue requirement because all of the regulatees in that fee category, whether they pay regulatory fees or not, benefit from the oversight and regulation of that bureau. *Assessment and Collection of Regulatory Fees for Fiscal Year 2019*, Report and Order and Further Notice of Proposed Rulemaking, 34 FCC Rcd 8189, 8196-97, para. 19 (2019) (*FY 2019 Report and Order*).

[11] 47 U.S.C. § 159(e)(2). Section 9(e)(2) of the Act provides: "If, in the judgment of the Commission, the cost of collecting a regulatory fee established under this section from a party would exceed the amount collected from such party, the Commission may exempt such party from paying such fee." *Id*. The Commission set the annual de minimis threshold to $1,000 in 2017. *Assessment and Collection of Regulatory Fees for Fiscal Year 2017*, MD Docket No. 17-134, Report and Order and Further Notice of Proposed Rulemaking, 32 FCC Rcd 7057, 7073, para. 40 (2017) (*FY 2017 Report and Order*). In the *FY 2022 Report and Order*, the Commission reviewed the de minimis threshold, calculated the average cost of collecting regulatory fees, and determined that the average cost of collection has not increased above the previously established $1,000 de minimis threshold. *Assessment and Collection of Regulatory Fees for Fiscal Year 2022, Review of the Commission's Assessment and Collection of Regulatory Fees*, MD Docket Nos. 22-223, 22-301, Report and Order and Notice of Inquiry, 37 FCC Rcd 10845, 10876-78, paras. 61-65 (2022) (*FY 2022 Report and Order*).

[12] 47 U.S.C. § 159(d); 47 CFR § 1.1166. We take into consideration the relatively small amount of waivers, exemptions, and non-payors in our calculations each year so that we can recover the full amount of our S&E appropriation.

### A. Regulatory Fees Calculation Methodology

6. Congress has prescribed a method for the Commission to collect the full S&E appropriation by keying our regulatory fee assessment to our FTE burden.[13] The methodology for assessing regulatory fees must "reflect the full-time equivalent number of employees within the bureaus and offices of the Commission, adjusted to take into account factors that are reasonably related to the benefits provided to the payor of the fee by the Commission's activities."[14] Thus, the fee assigned to each regulatory fee category relates to the FTE burden associated with oversight and regulation of each regulatory fee category by the relevant core bureaus[15] (i.e., the Wireless Telecommunications Bureau, the Media Bureau, most of the Wireline Competition Bureau,[16] part of the Office of International Affairs, and most of the Space Bureau[17]).[18]

---

[13] *See* 47 U.S.C. § 159(d). One FTE, a "Full Time Equivalent" or "Full Time Employee," is a unit of measure equal to the work performed annually by a full-time person (working a 40-hour workweek for a full year) assigned to the particular job, and subject to agency personnel staffing limitations established by the U.S. Office of Management and Budget. *See generally* Executive Office of the President, Office of Management and Budget, Circular No. A-11, Preparation, Submission, and Execution of the Budget (Aug. 2022). In this proceeding, if we state 1.5 FTEs work on a particular subject matter, that might mean three individuals spend 50% of their time on that area. Moreover, in this Report and Order, when we discuss FTEs and any change in allocation, it is solely for regulatory fee purposes and does not reflect proposals for the change of personnel in the various organizational work units.

[14] *Id*.

[15] The phrase "core bureaus" was first used in the *FY 2012 Regulatory Fee Reform NPRM* where the Commission explained that, under (prior) section 9(b)(1)(A) of the Act, the Commission was instructed to calculate the regulatory fees by determining the FTEs performing the activities enumerated in section 9(a)(1) within the Private Radio Bureau, Mass Media Bureau, Common Carrier Bureau, and other offices of the Commission (subsequently renamed the Wireless Telecommunications Bureau, Media Bureau, Wireline Competition Bureau, and a new International Bureau). *Procedures for Assessment and Collection of Regulatory Fees for Fiscal Year 2012*, MD Docket No. 12-20, Notice of Proposed Rulemaking, 27 FCC Rcd 8458, 8460, para. 5 & n.5 (2012) (*FY 2012 Regulatory Fee Reform NPRM*). The Commission explained that "[f]or simplicity and ease of reference, in this Notice we will refer to these four bureaus as the 'core' bureaus or the 'core licensing' bureaus." *Id*. *See also FY 2019 Report and Order*, 34 FCC Rcd 8189, 8193, paras. 9-10. While the functions of oversight and regulation remain the same, the names of the core bureaus have changed with time.

[16] The Commission has previously concluded that allocating the work of FTEs in the Wireline Competition Bureau devoted to non-high-cost Universal Service Fund programs as indirect FTEs is consistent with how FTEs working for programs that benefit consumers and the American public are treated elsewhere in the Commission. *See Assessment and Collection of Regulatory Fees for Fiscal Year 2017*, Report and Order and Further Notice of Proposed Rulemaking, 32 FCC Rcd 7057, 7061-64, paras. 10-15 (2017) (*FY 2017 Report and Order*); *see also Assessment and Collection of Regulatory Fees for Fiscal Year 2023, Review of the Commission's Assessment and Collection of Regulatory Fees*, MD Docket Nos. 23-159, 23-301, Report and Order, 38 FCC Rcd 8071, 8090, para. 50 (2023) (*FY 2023 Report and Order*). Moreover, in the non-high-cost universal service fund programs, the E-Rate, Lifeline, and Rural Healthcare programs tie funding eligibility based on the beneficiary, i.e., a school, a library, a low-income individual or family, or a rural healthcare provider and not to Commission regulatory fee payors. *See id.* at 8090, para. 50. Thus, the burden of FTE time devoted to non-high-cost Universal Service Fund programs is properly categorized as indirect. *See id.* at 8092, para. 55. As part of this determination, the Commission also excluded broadcasters from the fee burden associated with these indirect FTEs because broadcasters do not directly participate in the universal service program. *Id.* at 8090-92, paras. 50-55 (explaining that beginning in the *FY 2022 Report and Order*, "Media Services" licensees were excluded from recovery of the funds associated with the indirect FTEs who work on non-high-cost Universal Service Fund issues). The burden of this indirect FTE work is analyzed by staff annually and is deducted from the calculation of the direct FTEs allocated to the Wireline Competition Bureau and, after it excludes broadcasters, the Commission apportions these indirect FTEs among all other fee payors. *Id*. at 8091, para. 51. *See also infra* para. 23.

[17] In the FY 2024 regulatory fee proceeding, the Commission analyzed the reorganization of the International Bureau into the new Space Bureau and the Office of International Affairs (OIA) to determine whether any of their (continued….)

7. The total amount of the offsetting collection generally changes each fiscal year. Therefore, the regulatory fees due from payors also typically change as a mathematical consequence of the total amount that needs to be collected, the number of FTEs, and the projected unit estimates for each regulatory fee category.[19] Insofar as the Communication Act's explicit language requires that fees must reflect FTEs, the Commission has consistently concluded that FTE counts are the most administrable starting point for regulatory fee allocations,[20] and our regulatory fees are based on the direct FTEs in core bureaus.[21] Thus, when considering changes, additions, or deletions to the regulatory fee schedule, we focus on the direct FTE cost burden related to the regulatory fee category at issue within each of the core licensing bureaus.[22]

8. FTEs are not assigned within a bureau to specific fee categories "by rote or at random, but rather in a manner that reflects the time spent by FTEs on a regulatory fee category, which is in itself a reflection of 'benefit' to the fee category."[23] We apportion regulatory fees across fee categories based on the number of direct FTEs in each core bureau to take into account factors that are reasonably related to the payors' benefits.[24] Any decrease to the fees paid by one category of regulatory fee payors necessitates an increase in fees paid by other categories of regulatory fee payors, which means the

---

FTEs should be attributed directly to a particular category of regulatory fee payor. *FY 2024 Second Report and Order*, 39 FCC Rcd 10154-65, paras. 19-45. Historically, all but 28 of the FTEs of the International Bureau have been considered indirect. *See, e.g.*, *Assessment and Collection of Regulatory Fees for Fiscal Year 2013*, MD Docket Nos. 13-140, 12-201, 08-65, Report and Order, 28 FCC Rcd 12351, 12355-56, para. 14 (2013) (*FY 2013 Report and Order*). In 2024, the Commission concluded that given the nature of their work, 48 of the 54 FTEs in the Space Bureau should be categorized as direct and six as indirect. *FY 2024 Second Report and Order*, 39 FCC Rcd at 10154, para. 20. The Commission further explained that, as was the case prior to reorganization, most of the work of OIA, including the work of the Global Strategies and Negotiation Division, does not benefit a specific fee payor, but rather the government as a whole, and is therefore appropriately categorized as indirect. *Id.* at 10164, para. 43. However, the Commission continued to categorize as direct the FTE work of OIA concerning international bearer circuit issues, including the services provided over submarine cables, determining that there were eight FTEs within OIA whose work was direct on that basis. *Id.* at 10165, para. 45.

[18] *See, e.g.*, *Procedures for Assessment and Collection of Regulatory Fees for Fiscal Year 2008*, MD Docket Nos. 12-201, 08-65, Notice of Proposed Rulemaking, 27 FCC Rcd 8458, 8460, para. 5 & n.5 (2012) (*FY 2012 Regulatory Fee Reform NPRM*).

[19] Section 9(c)(1)(B) of the Communications Act contemplates such changes to the fee schedule necessary to result in the collection of the amount required by subsection 159(b). 47 U.S.C. § 159(c)(1)(B). For example, if the number of units in a regulatory fee category increase, the amount due per unit may decrease, depending on other factors. This would also include proportionate increases in a given fee category to reflect an overall increase in the annual FY appropriation. It is rare, however, for the Commission to solely propose adjustments under section 9(c). Such changes under section 9(c) of the Communications Act fall under the section 9A(b)(1) Congressional notification requirements. 47 U.S.C. §§ 159A(b)(1), 159(c).

[20] *Assessment and Collection of Regulatory Fees for Fiscal Year 2019*, Report and Order and Further Notice of Proposed Rulemaking, 34 FCC Rcd 8189, 8193, para. 8 (2019) (*FY 2019 Report and Order*).

[21] *Id.* at 8192-93, paras. 7-9. Our prior decisions to add to, delete from, or amend the regulatory fee schedule are instructive of the detailed analysis that generally accompanies a change to the FTE allocation as direct or indirect, the attribution of FTEs to a regulatory fee category, and the allocation of fees within a regulatory fee category based on the unit measure adopted.

[22] *FY 2021 Report and Order*, 36 FCC Rcd at 12999, para. 17. Changes under section 9(d) of the Communications Act fall under the section 9A(b)(2) 90-day notification to Congress. 47 U.S.C. §§ 159A(b)(2), 159(d).

[23] The Commission has stated that "Section 9 is clear, however, that regulatory fee assessments are based on the burden imposed on the Commission, not benefits realized by regulatees." *Assessment and Collection of Regulatory Fees for Fiscal Year 2007*, MD Docket No. 07-81, Report and Order and Further Notice of Proposed Rulemaking, 22 FCC Rcd 15712, 15719, para. 19 (2007).

[24] *FY 2019 Report and Order*, 34 FCC Rcd at 8193, para. 9.

collection of the Commission's regulatory fees is a zero-sum exercise.[25]

9. The Commission allocates FTEs according to the nature of the work performed by its different organizational units. If FTE work directly relates to the oversight and regulation of a regulatory fee category in one of the five core licensing bureaus then it is considered to be direct.[26] Work that cannot be allocated to one of those regulatory fee categories is counted as indirect FTE time.[27]

10. Indirect FTE time covers a wide range of issues that include services that are not specifically correlated with one core bureau, let alone one specific category of regulatory fee payors.[28] Indirect FTE work also includes matters that are not specific to any regulatory fee category, and many Commission attorneys, economists, engineers, analysts, and other staff work on a variety of issues during a single fiscal year, which benefits the Commission, the telecommunications industry, and the public.[29] Historically, the Commission has categorized FTE work conducted in the Enforcement, Consumer and Governmental Affairs, and Public Safety and Homeland Security Bureaus along with some of the work in the Wireline Competition[30] and the former International Bureau[31] as well as the work of those in the Office of the Chair and the Commissioners' Offices and in the Offices of the Managing Director, General Counsel, Inspector General, Communications Business Opportunities, Engineering and Technology, Legislative Affairs, Workplace Diversity, Media Relations, Economics and Analytics, and Administrative Law Judges as indirect for regulatory fee purposes.[32] Following this framework, the Commission assesses the allocation of FTEs by first determining the number of direct non-auctions FTEs in each of the Commission's core bureaus.[33] Early in each fiscal year, the Human Resources Management office identifies FTEs at the core bureau level. We then validate that data through consultation with the bureaus and offices to determine the number of direct FTEs allocated to each of the five core bureaus. Those numbers are then used to calculate the corresponding percentage of the total amount of regulatory fees to be collected for a given fiscal year from the fee payors of each core bureau.[34]

11. This means fees are apportioned across the regulatory fee categories based on the number of direct FTEs in each core bureau whose time is focused on a particular industry segment and are

---

[25] *Id*. at 8195, para. 16.

[26] *Id*. at 8195, para. 14 ("We have long relied on direct FTE allocations because the Commission has found those allocations best reflect the 'benefits provided to the payor of the fee by the Commission's activities.'").

[28] *Assessment and Collection of Regulatory Fees for Fiscal Year 2015*, MD Docket No. 15-121, Report and Order and Further Notice of Proposed Rulemaking, 30 FCC Rcd 10268, 10275-76, paras. 16-17 (2015) (*FY 2015 Report and Order*).

[29] *See FY 2021 Report and Order*, 36 FCC Rcd at 13001, para. 22.

[30] *See supra* note 16.

[31] The Commission previously reallocated FTEs in the former International Bureau and the Wireline Competition Bureau from direct to indirect for regulatory fee purposes due to the nature of their work assignments. *See, e.g.*, *Assessment and Collection of Regulatory Fees for Fiscal Year 2017*, Report and Order and Further Notice of Proposed Rulemaking, 32 FCC Rcd 7057, 7061-64, paras. 10-15 (2017) (*FY 2017 Report and Order*); *see also Assessment and Collection of Regulatory Rees for Fiscal Year 2020*, Report and Order and Notice of Proposed Rulemaking, 35 FCC Rcd 4976, 4991, para. 33 (2020) (*FY 2020 NPRM*), *aff'd*, *Telesat Canada, et al. v. FCC*, 999 F.3d 707 (D.C. Cir. 2021) (*Telesat*).

[32] *See, e.g.*, *FY 2021 Report and Order*, 36 FCC Rcd at 12994, para. 8.

[33] *See FY 2019 Report and Order*, 34 FCC Rcd at 8193, paras. 8-9; *FY 2021 Report and Order*, 36 FCC Rcd at 12991-92, para. 3. Other factors the Commission takes into consideration include the annual S&E appropriation and the projected unit estimates.

[34] The percentage for each core bureau is the number of direct non-auction FTEs within the core bureau divided by the total number of direct non-auction FTEs in the Commission.

adjusted "to take into account factors that are reasonably related to the benefits provided to the payor of the fee by the Commission's activities."[35] Specifically, we allocate appropriated amounts to be recovered proportionally based on the number of direct FTEs within each core bureau.[36] Those proportions are then subdivided and apportioned within each core bureau into fee categories among those served based on the time spent on each fee category.[37] Finally, within each regulatory fee category the amount to be collected is divided by a unit count that allocates the regulatory fee payor's proportionate share based on an objective measure.

12. The FTE time devoted to developing and implementing the Commission's spectrum auctions is not included in the calculation of regulatory fees and is not offset by the collection of regulatory fees.[38] Thus, the Commission's methodology excludes all spectrum auction-related FTEs and their overhead from the regulatory fee calculations.[39]

### B. Adjustments and Amendments to Regulatory Fees Schedule

13. In order to collect regulatory fees in the amount required by our annual S&E appropriation, the Commission conducts a rulemaking proceeding each year to consider any necessary increases or decreases in the number of units subject to the payment of such fees and to reflect any adjustments needed to the prior year's fees schedule.[40] As necessary, the Commission will also propose

[35] *FY 2019 Report and Order*, 34 FCC Rcd at 8195, para. 14.

[36] As a general matter, there is no additional calculation to attribute indirect costs. Instead, the proportional allocation of the whole S&E appropriation based on the number of direct FTEs effectively attributes all indirect costs among the core bureaus so that the Commission can recover its entire appropriation each year.

[37] Notably, the agency is not required to calculate its costs with "scientific precision." *Central & Southern Motor Freight Tariff Ass'n v. United States*, 777 F.2d 722, 736 (D.C. Cir. 1985). Reasonable approximations will suffice. *Id.*; *Mississippi Power & Light*, 601 F.2d at 232; *National Cable Television Ass'n v. FCC*, 554 F.2d 1094, 1105 (D.C. Cir. 1976). *See also FY 2024 Second Report and Order*, 39 FCC Rcd at 10159, para. 31. The Commission has proposed changes in FTE direct or indirect allocations, which impact its regulatory fee calculations, when it can do so with reasonable certainty for a fiscal year. For example, the Commission reassigned staff to the Office of Economics and Analytics (OEA), effective December 11, 2018, resulting in the reassignment of 95 FTEs (of which 64 were not auctions-funded) as indirect FTEs. *See Establishment of the Office of Economics and Analytics*, Order, 33 FCC Rcd 1539 (2018). This reassignment resulted in a reduction in direct FTEs in the Wireline Competition Bureau, Wireless Telecommunications Bureau, and Media Bureau. That same year, the Commission reassigned Equal Employment Opportunity enforcement staff from the Media Bureau to the Enforcement Bureau, effective March 15, 2019, resulting in a reduction of seven direct FTEs in the Media Bureau. *See Transfer of EEO Audit and Enforcement Responsibilities to Enforcement Bureau*, Public Notice, 34 FCC Rcd 1370 (EB 2019). In FY 2024, the Commission first incorporated the Space Bureau and the Office of International Affairs into its FTE analysis, even though the organizational changes became effective on April 13, 2023. Thus, the increase in direct FTEs in the Space Bureau in FY 2023 was not reflected in FY 2023 regulatory fees for space and earth stations. *See FY 2024 Second Report and Order*, 39 FCC Rcd at 10142-43, 10151-52, paras. 2, 16 (implementing for regulatory fee purposes the reallocation of FTEs from the former International Bureau to the Space Bureau and the Office of International Affairs, effective for FY 2024).

[38] 47 U.S.C. § 309(j)(8)(B) (providing that "the salaries and expenses account of the Commission shall retain as an offsetting collection such sums as may be necessary from such proceeds for the costs of developing and implementing the program required by this subsection"). Each year, Congress provides a cap on such offsetting collection. We are referring to spectrum auctions FTEs when we use the terms "auctions FTEs" and "non-auctions FTEs."

[39] *FY 2019 NPRM*, 34 FCC Rcd at 3276-77, para. 10. To the extent that FTEs within the core bureaus spend a portion of their time on auctions issues and a portion of their time on other issues, their time is split and only the non-auctions portion of their time is reflected in the relevant core bureau's direct FTE count. *See FY 2021 Report and Order*, 36 FCC Rcd at 12999-13000, para. 20.

[40] 47 U.S.C. § 159(c). For example, if the number of units in a regulatory fee category increase, the amount due per unit may decrease. This would also include proportionate increases in a given fee category to reflect an overall

(continued….)

amendments to the fee schedule "if it determines that changes are necessary for the fees to reflect the full-time equivalent number of employees within the bureaus and offices of the Commission, adjusted to take into account factors that are reasonably related to the benefits provided to the payor of the fee by the Commission's activities."[41] Pursuant to the Act, the Commission must notify Congress immediately upon adoption of any adjustment.[42] The Act also requires the Commission to notify Congress at least 90 days prior to making effective any amendments to the regulatory fee schedule.[43]

14. The Commission considers the adoption of a new regulatory fee category or a change in an existing regulatory fee category only when it develops a sufficient basis for making the change, ensuring that our assessment of regulatory fees is fair, administrable, and sustainable.[44] The Commission will adopt new regulatory fee categories and new methodologies for calculating regulatory fees when there is a sufficient basis for doing so based on the record, and under the relevant statutory provisions and precedent.[45]

### C. Commission FY 2025 Regulatory Fee Releases

15. On June 5, 2025, the Commission released the *FY 2025 NPRM*.[46] There, the Commission proposed and sought comment on the regulatory fees and methodology to assess and collect $390,192,000 in congressionally required regulatory fees for FY 2025. The Commission proposed to increase the number of FTEs that are allocated directly to the core licensing bureaus for this fiscal year based upon the determination that burden of the work they are performing is sufficiently linked to the oversight and regulation of certain regulatory fee payors. In particular, the Commission proposed reallocating 61 indirect FTEs as direct FTEs to the Commission's core licensing bureaus.[47] In addition, the Commission sought comment on proposed regulatory fees for space and earth station fee payors either under the existing fee methodology or under the various alternative or amended methodologies on which the Commission was seeking comment at the time.[48] The Commission also proposed to continue the past

---

increase in the annual FY appropriation. Such changes are rarely the subject of dispute and are usually addressed in the more ministerial changes to the fee schedule.

[41] *Id*. § 159(d).

[42] *Id*. § 159A(b)(1).

[43] *Id*. § 159A(b)(2).

[44] The Commission's adopted goals are that its regulatory fees be "fair, administrable, and sustainable." *See 2020 Application Fee Report and Order*, 35 FCC Rcd at 15089-90, 15091-92, paras. 1, 6 & n.11; *Procedures for Assessment and Collection of Regulatory Fees*, Notice of Proposed Rulemaking, 27 FCC Rcd 8458, 8464-65, paras. 14-16 (2012) (providing explanations for the meaning of "fairness," "administrability," and "sustainability"). The concept of administrability includes the difficulty in collecting regulatory fees under a system that could have unpredictable dramatic shifts in assessed fees in certain categories from year to year. Application of our overarching program goals must comport with the language of the statute, and in adopting our fee schedule, we are mindful of other general limits of fee authority. *See National Cable Television Ass'n v. United States*, 415 U.S. 336, 340-41 (1974) (construing Independent Offices Appropriations Act) (IOAA)); *see also National Cable Television Ass'n v. FCC*, 554 F.2d 1094, 1106 & n.42 (D.C. Cir. 1976). While IOAA no longer applies to the Commission, we remain cognizant of broader legal issues raised by user fee and/or regulatory fee precedent. *See* House of Representatives Report No. 99-453 (1985) at page 433 (noting the significance of *National Cable* and explaining that IOAA no longer applies to the Commission with the passage of other specific fee authority, application fees, in COBRA-85).

[45] For example, in 2015, after reviewing the issue over several years, the Commission added Direct Broadcast Satellite (DBS) as a subcategory of the cable television and Internet Protocol television (IPTV) fee category to the regulatory fee schedule, based on the oversight and regulation of this industry by Media Bureau FTEs. *FY 2015 Report and Order*, 30 FCC Rcd at 10276-77, paras. 19-20.

[46] *See supra* note 2.

[47] *See FY 2025 NPRM* at para. 26.

[48] *Id.* at para. 19.

practice of calculating television broadcaster regulatory fees using the methodology based on the population covered by a full-service broadcast television station's contour. The *FY 2025 NPRM* did not propose any amendments that would require congressional notification 90 days before becoming effective.[49]

16. On June 9, 2025, the Commission released the *FY 2024 Third Report and Order*. In that order, the Commission adopted changes to its regulatory fee methodology to (i) assess regulatory fees on space and earth stations once they are authorized, rather than when the stations are certified to be operational, and (ii) split existing regulatory fee categories for Space Stations (Non-Geostationary Orbit) into two new fee categories: small constellations (fewer than 1000 authorized space stations) and large constellations (1000 authorized space stations or more).[50] The *FY 2024 Third Report and Order* was published in the Federal Register on July 7, 2025,[51] and the amendments to the space and earth station regulatory fee methodologies become effective on September 14, 2025.[52]

## III. DISCUSSION

17. We received six comments and nine reply comments in response to the Commission's *FY 2025 NPRM*.[53] As generally supported by the record gathered, and as explained below, we adopt the Commission's proposals in the *FY 2025 NPRM*.[54] Accordingly, using the Commission's historical methodology for allocating FTEs, along with targeted amendments to assess regulatory fees for space and earth stations, we adopt a regulatory fee schedule for FY 2025 to collect $390,192,000, which is an amount that reasonably can be expected to total our annual S&E FY 2025 appropriation, as set forth in Appendices B and C.[55]

### A. Assessment of Regulatory Fees

#### 1. Methodology for Assessing Regulatory Fees

18. Section 9 of the Communications Act requires us to set regulatory fees to "reflect the full-time equivalent number of employees within the bureaus and offices of the Commission adjusted to take into account factors that are reasonably related to the benefits provided to the payor of the fee by the Commission's activities."[56]

19. As a general matter, to establish our regulatory fee schedule, first, we identify changes from the prior fiscal year regulatory fee proceeding, e.g., changes in the (i) FY S&E appropriation, (ii) FTE levels, and (iii) relevant unit measures for each regulatory fee category. After that, we identify the number of direct non-auction FTEs in each core bureau for purposes of the regulatory fee calculation.[57] Once we determine the number of direct FTEs for each core bureau, we calculate the percentage of

[49] *Id*. at para. 14.

[50] *FY 2024 Third Report and Order*, 39 FCC Rcd at 10143, para. 3.

[51] *See Assessment and Collection of Space and Earth Station Regulatory Fees for Fiscal Year 2024*, 90 Fed. Reg. 29760 (July 7, 2025). No petitions for reconsideration were timely filed in response to the Federal Register publication. *See* 47 CFR § 1.429(d) (requiring a petition for reconsideration of a final order in a rulemaking proceeding to be filed within 30 days from the date of public notice of such action); 47 CFR § 1.4(b)(1) (establishing date of public notice in notice and comment rulemakings as the date of publication in the Federal Register).

[52] *Id.* An amendment to our regulatory fee methodology becomes effective only after the expiration of the 90-day notice to Congress required by section 159A of the Act, 47 U.S.C. § 159A(b)(2).

[53] *See* Appendix I.

[54] *See FY 2025 NPRM* at paras. 16-40.

[55] 47 U.S.C. §§ 156, 159.

[56] 47 U.S.C. § 159(d).

[57] The remaining non-auction FTEs are considered indirect and are not part of the regulatory fee calculation.

regulatory fees that we will need to collect for the given fiscal year from each regulatory fee category within each core bureau. These proportional calculations allocate all Commission non-auction related costs across all regulatory fee categories. As explained fully below, for FY 2025 we are implementing the same methodology we have used historically for allocating FTEs as well as the targeted amendments to the methodology used to assess regulatory fees for space and earth stations that were adopted by the Commission in June 2025 in the *FY 2024 Third Report and Order*.[58]

### 2. Adjustment of Reallocations of Certain Indirect FTEs as Direct FTEs

20. Our decision to adopt the Commission's proposal to reallocate certain indirect FTEs as direct to one of the Commission's core bureaus reflects our conclusion that we can again determine, with reasonable accuracy for this fiscal year, that certain FTE time from the Office of General Counsel, the Office of Economics and Analytics, and the Public Safety and Homeland Security Bureau is devoted to work that is sufficiently linked to the oversight and regulation of regulatory fee payors such that the FTE burden of that work should be allocated as direct to a core bureau for regulatory fee purposes.[59] Moreover, commenters support our efforts to ensure that regulatory fees reflect the work performed by Commission FTEs, which benefits fee payors.[60]

21. To conduct our annual review for FY 2025, we evaluated the work being performed by Commission FTEs. According to information provided by our Human Resources Management office, at the start of FY 2025, there were 384.5 direct non-auctions FTEs distributed among the core licensing bureaus. With respect to other bureaus and offices within the Commission, we conducted a high-level, yet comprehensive, analysis of the work being performed by non-auctions FTEs in the Office of Economics and Analytics, Office of General Counsel, and Office of Engineering and Technology as well as the Public Safety and Homeland Security Bureau, Enforcement Bureau and the Consumer and Governmental Affairs Bureau (and other bureaus and offices) to determine if identifiable time of any of the FTEs in those organizational units is directly related to the oversight and regulation of fee payors such that it should be considered in applying our fee methodology. In other words, staff examined and validated the data through consultation with the bureaus and offices to determine whether in applying our regulatory fee methodology any FTE time in the non-core bureaus and offices should be reallocated and be considered as direct FTE time to a core bureau.

22. As discussed herein, based on staff analysis, which we conclude is reasonably accurate for FY 2025, we adopt the Commission's proposal to reallocate 63 indirect FTEs from the Office of Economics and Analytics, the Office of General Counsel, and the Public Safety and Homeland Security Bureau as direct to a core bureaus. We find these reallocations are necessary because, as the Commission concluded in both FY 2024 and FY 2023, the nature of certain FTE work conducted in those

---

[58] *FY 2024 Third Report and Order*, 39 FCC Rcd at 10143, para. 3.

[59] *See, e.g.*, *FY 2023 Report and Order*, 38 FCC Rcd at 8080-81, para. 21; *FY 2024 Second Report and Order*, 39 FCC Rcd at 10151-52, paras. 14-16. As the Commission explained in 2023 and 2024, the Commission will continue to evaluate whether any FTEs should be reallocated for regulatory fee purposes each year when reviewing and validating the FTE data. The Commission, however, will exercise its discretion regarding where to focus its analytical efforts each year to best respond to changes in the Commission's substantive work and organization, and changes in the telecommunications industry itself. *FY 2023 Report and Order* 38 FCC Rcd at 8080, para. 19; *see also Review of the Commission's Assessment and Collection of Regulatory Fees; Assessment and Collection of Regulatory Fees for Fiscal Year 2024*, Notice of Proposed Rulemaking, 39 FCC Rcd 7173, 7181-82, para. 15 (*FY 2024 NPRM*). Thus, the Commission ensures it conducts its annual review in a manner that is fair, administrable, and sustainable.

[60] *See, e.g.*, NAB Comments at 2 (NAB "appreciates the Commission's continued efforts to refine the regulatory fee methodology to more accurately account for the work performed by FTEs in the non-core bureaus and offices of the Commission and largely supports the proposed FY 2025 regulatory fee allocations."); Submarine Cable Coalition Comments at 2, 4; State Broadcasters Associations Reply at 2, 10 (asking the Commission in future years to continue to look for opportunities to reallocate indirect FTEs to direct); CTIA Reply at 1; NCTA Reply at 1 (NTCA "applauds the Commission's work to ensure equitable assessment of regulatory fees.").

organizations remains primarily related to the oversight and regulation of fee payors. Additionally, consistent with the Commission's determination for the past two fiscal years, we also reallocate two FTEs from the Media Bureau to be considered as indirect FTEs because the nature of their work is similar to work performed in the Enforcement Bureau, which we consider to be indirect.[61] We find that our determinations as explained below are consistent with section 9 of the Act, which requires us to base our methodology on the number of FTEs in calculating regulatory fees.[62]

23. These reallocations result in an overall increase of 61 indirect FTEs being reallocated as direct FTEs to core bureaus. Although NAB notes its continued belief that FTE work devoted to certain non-high-cost Universal Service Fund matters also should be reallocated as direct,[63] it provides no new arguments to warrant revisiting the Commission's prior determinations that such work is appropriately categorized as indirect,[64] and we decline to do so.

### B. Reallocations, for Regulatory Fee Purposes, of Certain Indirect FTEs as Direct FTEs

24. As the Commission has previously explained, when we discuss FTEs, we are not referring to any particular employee at the Commission but rather an amount of work performed annually by a full time employee or employees.[65] In analyzing the work of FTEs, our staff applied conservative estimates so as not to imply a false sense of precision in the proposed reallocation.[66] Specifically, where the amount of work under consideration for reallocation of an indirect FTE was half an FTE or less, we rounded down and we only proposed our reallocations in full FTE increments.[67]

25. In evaluating the nature of the work of our FTEs, we note we generally categorize the FTEs in the Commission's non-core bureaus and offices as indirect.[68] For example, the Office of Engineering and Technology provides engineering and technical expertise to the agency as a whole and supports each of the agency's core bureaus.[69] Likewise, the Enforcement Bureau FTE oversight is focused on the integrity of Commission's rules and ensuring the implementation of the Communications Act, which is work that benefits the agency as a whole and the American public, and not one particular group of regulatory fee payors.[70] Similarly, the work of FTEs in the Consumer and Governmental Affairs Bureau is primarily devoted to developing and implementing consumer policies as required by the Communications Act, including disability rights, via rulemaking and declaratory ruling; consumer

[61] *See, e.g.*, *FY 2023 Report and Order*, 38 FCC Rcd at 8096, para. 70.

[62] 47 U.S.C. § 159(d) (providing that "the Commission shall by rule amend the schedule of regulatory fees established under this section if the Commission determines that the schedule requires amendment so that such fees reflect the full-time equivalent number of employees within the bureaus and offices of the Commission, adjusted to take into account factors that are reasonably related to the benefits provided to the payor of the fee by the Commission's activities").

[63] NAB Comments at 3, n.8.

[64] *See supra* note 16. As explained fully above, since 2017, the Commission has repeatedly concluded that work of FTEs devoted to non-high-cost Universal Service Fund programs should be categorized as indirect because that is consistent with how FTEs working for programs that benefit consumers and the American public are treated elsewhere in the Commission.

[70] *Id*. at 8093-96, paras. 61-69.

education; processing informal complaints; outreach to state, local, and Tribal governments; and oversight more generally of the telecommunications industry (e.g., establishing and oversight of the Reassigned Numbers Database).[71] In sum, the Commission has found it would not be equitable for any one regulatory fee group of payors to shoulder the FTE burden of indirect work.[72]

26. While we continue to conclude that much of the work of the FTEs in the Office of Economics and Analytics, the Office of General Counsel, and the Public Safety and Homeland Security Bureau is appropriately considered indirect, in validating the FTE count for this year, we affirm the Commission's conclusion of the past two years that certain work should again be reallocated as direct. Below, we provide details of our analysis as we remain mindful that our consideration of the work of FTEs as direct or indirect may change over time based on our evaluation of the FTE burden associated with the Commission's work assignments, fluctuations within industry segments, the needs of specific regulatory fee payors, and the requests of commenters to continue our review of any necessary reallocations.[73]

### 1. Office of Economics and Analytics (OEA)

27. As a general matter, OEA is responsible for expanding and strengthening the use of economic analysis in Commission policy making, for enhancing the development and use of auctions,[74] and for implementing consistent and effective agency-wide data practices and policies.[75] Much of the work of the non-auctions FTEs in OEA therefore benefits the Commission and the telecommunications industry as a whole and does not specifically focus on a particular category of regulatory fee payors. Thus, as the Commission has previously concluded, it is appropriately considered to be indirect.[76]

28. As the Commission recognized in both FY 2023 and FY 2024, however, and as we have validated again for FY 2025, there continues to be measurable FTE work conducted in OEA that is being done directly in furtherance of the oversight and regulation of regulatory fee payors in certain industry segments.[77] On that basis, in the *FY 2025 NPRM*, the Commission proposed targeted reallocations of OEA FTEs. No commenters disagreed with the Commission's proposal to reallocate 29 indirect FTEs from OEA as direct to a core bureau for regulatory fee purposes.[78] Based on our staff's analysis, we therefore adopt that proposal and reallocate indirect FTEs from OEA as follows: one to the Space Bureau, eight to the Wireless Telecommunications Bureau, 13 to the Wireline Competition Bureau, and seven to the Media Bureau.

### 2. Office of General Counsel (OGC)

29. We also agree with the Commission's past conclusion that much of the work of the OGC,

[71] *Id*. at 8096, para. 71.

[72] *Id*. at 8092-99, paras. 57-76.

[73] *See, e.g.*, NAB Comments at 3; Coalition Comments at 3; State Broadcasters Associations Reply at 4-10.

[74] We do not include auctions-funded OEA FTEs for regulatory fee purposes.

[75] 47 CFR §§ 0.21 (OEA functions); 0.271 (OEA delegation). Specifically, OEA (a) provides economic analysis, including cost-benefit analysis, for rulemakings, transactions, adjudications, and other Commission actions; (b) manages Commission auctions in support of and in coordination with other bureaus and offices; (c) develops policies and strategies to help manage Commission data resources and establish best practices for data use throughout the Commission in coordination with other bureaus and offices; and (d) conducts long-term research on ways to improve the Commission's policies and processes in each of these areas.

[76] *See, e.g.*, *FY 2019 Report and Order*, 34 FCC Rcd at 8194, para. 11 & n.41; *see also FY 2023 Report and Order*, 38 FCC Rcd at 8081-83, paras. 24-30 (discussion of these OEA FTEs).

[77] *See, e.g.*, *FY 2023 Report and Order*, 38 FCC Rcd at 8081-83, paras. 24-30; *FY 2024 Second Report and Order*, 39 FCC Rcd at 10151, para. 15.

[78] *FY 2025 NPRM*, para. 32.

as represented by FTE allocations, is considered to be indirect.[79] OGC serves as the chief legal advisor to the Commission and its various bureaus and offices.[80]

30. Yet, as the Commission recognized in FY 2023 and FY 2024, and as we again have validated for FY 2025, we find that certain aspects of OGC's work are sufficiently linked to the oversight and regulation of individual regulatory fee categories that the associated FTEs should properly be considered direct FTEs for such regulatory fee categories.[81] Specifically, based on the substance of the work that is done directly in furtherance of the oversight and regulation of regulatory fee payors in certain industry segments for FY 2025, we adopt the Commission's proposal to reallocate four indirect FTEs as direct to a core bureau as follows: one to the Wireline Competition Bureau, one to the Wireless Telecommunications Bureau (instead of two as in FY 2024), one to the Space Bureau,[82] and one to the Media Bureau.

### 3. Public Safety and Homeland Security Bureau (PSHSB)

31. We also agree with the Commission's prior conclusions that much of PSHSB's work, as represented by FTE allocations, should be considered to be indirect.[83] PSHSB advises and coordinates within the Commission on all matters pertaining to public safety, homeland security, national security, cybersecurity, emergency management and preparedness, disaster management, and related matters.[84]

32. As the Commission concluded in FY 2024 and FY 2023, and as we have validated again for FY 2025, there remains substantive work done by PSHSB that is directly in furtherance of the oversight and regulation of certain regulatory fee payors. For FY 2025, we therefore find it is appropriate to reallocate 30 indirect FTEs from PSHSB as direct to a core bureau for regulatory fee purposes as follows: 14 to the Wireless Telecommunications Bureau, nine to the Wireline Competition Bureau, and

[79] *Assessment and Collection of Regulatory Fees for Fiscal Year 2022; Review of the Commission's Assessment and Collection of Regulatory Fees*, Report and Order and Notice of Inquiry, 37 FCC Rcd 10845, 10849, 10856, paras. 6 and 20 (2022) (*FY 2022 Report and Order*) (noting the FTE allocation of OGC); *see also FY 2023 Report and Order*, 38 FCC Rcd at 8083-84, paras. 31-34 (discussion of these OGC FTEs).

[80] 47 CFR §§ 0.41 (OGC functions); 0.251 (OGC delegation). OGC's responsibilities are generally described as interpreting new and existing statutes and executive orders as they pertain to the Commission's exercise of its Communications Act authority and other authorities, as well as performing such functions involving implementation of such statutes and executive orders as may be assigned to it by the Commission. OGC advises the Commission in the preparation and revision of our rules, recommends decisions in adjudicatory matters before the Commission, assists the Commission in its decision-making capacity and performs a variety of legal functions regarding internal and other administrative matters. OGC also advises and represents the Commission in matters of litigation. These roles are divided between the Administrative Law Division and the Litigation Division and are overseen by the General Counsel (GC) and the GC's Front Office.

[81] *See, e.g.*, *FY 2023 Report and Order*, 38 FCC Rcd at 8083-84, paras. 31-34; *FY 2024 Second Report and Order*, 39 FCC Rcd at 10152-53, para. 17.

[82] In FY 2024, there was no OGC FTE reallocated to Space Bureau because the Commission found that FTE time devoted to former International Bureau issues was focused on Office of International Affairs matters that are indirect, rather than issues pertaining to regulatory fee payors. *FY 2024 Second Report and Order*, 39 FCC Rcd at 10152-53, para. 17. Based on our review of OGC FTEs for FY 2025, however, there is FTE time devoted to space and earth station matters such that one FTE should be attributed as a direct FTE attributable to the Space Bureau.

[83] *See, e.g.*, *FY 2023 Report and Order*, 38 FCC Rcd at 8084-86, paras. 35-46.

[84] 47 CFR §§ 0.191 (PSHSB functions); 0.392 (PSHSB delegation). PSHSB leads initiatives that strengthen public safety and emergency response capabilities enabling the Commission to assist the public, first responders, law enforcement, hospitals, the communications industry and all levels of government in times of emergency; thus, the majority of the work of its FTEs is best categorized as indirect. *FY 2023 Report and Order*, 38 FCC Rcd at 8084-87, paras. 35-46 (discussion of these PSHSB FTEs).

seven to the Media Bureau.[85]

33. *Conclusion of the Proposal to Reallocate Certain Indirect FTEs from OEA, OGC, and PSHSB as Direct FTEs to a Relevant Core Bureau*. As represented above, FTE time associated with these reallocations will be added to the direct FTE totals for a relevant core bureau. In other words, the reallocation of indirect FTEs will increase the number of direct FTEs in a core bureau and reduce the total number of indirect FTEs within the Commission. Insofar as our underlying methodology for calculating regulatory fees remains unchanged, we conclude that our fee regulatory fee calculation continues to be consistent with section 9 of the Communications Act.[86]

34. As reflected in the table below, the reallocation of 61 indirect FTEs as direct for regulatory fee purposes in FY 2025, results in a 15.86% increase in our overall direct FTE count for FY 2025, and a decrease of 4.25% in the overall direct FTE count from FY 2024.

#### 4. The Result of the FTE Reallocations from the Office of Economic Analytics, Office of General Counsel, and Public Safety and Homeland Security Bureau

35. As the chart below demonstrates, based on these reallocations and after adjustments are made to the direct FTE counts to implement Commission precedent,[87] we have a total of 445.5 non-auctions direct FTEs for FY 2025, and we will collect approximately $7.039 million (1.80%) in fees from the Office of International Affairs regulatory fee payors; $44.872 million (11.50%) in fees from the Space Bureau regulatory fee payors; $105.582 million (27.06%) in fees from Wireless Telecommunications Bureau regulatory fee payors; $116.580 million (29.88%) in fees from Wireline Competition Bureau regulatory fee payors; and $116.119 million (29.76%) in fees from Media Bureau regulatory fee payors. These FTE reallocations, for regulatory fee purposes, will be proportionally distributed within the core bureaus. As explained above, our underlying methodology for calculating regulatory fees remains unchanged; our regulatory fee calculation continues to be consistent with section 9 of the Act, which requires us to base our methodology on the number of FTEs in calculating regulatory fees.[88]

| Core bureau/office | Total FY 2025 direct FTEs *without* reallo-cations | FY 2025 reallocations | Total FY 2025 direct FTEs *with* reallocations | FY 2025 percent of direct FTEs, after reallocation | FY 2025 fee allocation by core bureau/ office ($ millions) |

36. Although the Submarine Cable Coalition generally supports the Commission's efforts to reallocate FTEs that are working on the oversight and regulation of fee payors as direct FTEs, it nonetheless "asserts that further Commission review should be conducted to determine if it is possible to lower the number of direct FTEs attributed to international bearer circuits within OIA, or to convert some or all these direct FTEs into indirect FTEs."[89] In support of this position, it argues that it "should not be the burden of submarine cable operators, nor any one type of international licensee under OIA, to subsidize holders of other license types."[90] The Submarine Cable Coalition renews its claims that the "the benefits submarine cable licensees receive from the Commission's work pale significantly in comparison to the regulatory oversight required of other Commission licensees."[91] CTIA, however, responds to this argument by advocating that the Commission decline to reclassify FTEs in OIA working on international bearer circuits as indirect,[92] because doing so would disregard the requirements of Section 9 and the Commission's core principles underlying its regulatory fee framework.[93] CTIA maintains that the Submarine Cable Coalition has provided no valid reason why the Commission should redo its FTE analysis and reclassify these FTEs based on something other than the work they undertake.[94] We agree with CTIA and find based on our staff analysis that for FY 2025, 8 FTEs are appropriately considered direct in OIA and decline to reclassify some or all as indirect FTEs.

37. We also disagree with the comments of Telesat that repeat a suggestion previously offered by the Satellite Operators in 2023 contending that the Commission should propose regulatory fees

[89] Submarine Cable Coalition Comments at 3.

[93] *Id*. at 4-5.

[94] *Id*.

at the outset of each non-application rulemaking proceeding in order to collect its attendant costs.[95] The Commission rejected this proposal at that time, observing that there was no explanation of "how such an approach would facilitate recovery on an annual basis of the Commission's entire FY S&E appropriation."[96] We agree with the Commission's conclusion there that this proposal "does not appear administrable because it would inject a potentially contentious issue — who bears the FTE burden of the proceeding — into each rulemaking and thereby only increase the possible points of disagreement in each respective rulemaking."[97] As the Commission previously observed, because there is no way to determine at the NPRM stage of a proceeding the entities or interested parties that might file comments and/or challenge a matter in any given rulemaking, any initial allocations regarding the FTE burden of work associated with any category of fee payors for a particular rulemaking would require frequent reassessment.[98]

38. Moreover, as a general matter, rulemakings are not based on a fiscal year, and the work attendant with any particular year can extend, and often evolve, across multiple years. Additionally, if this approach were to replace our current approach, it would fail to capture the FTE burden of work on issues that involve the day-to-day oversight of policies and rules that impact all categories of regulatory fee payors, issues that are often unrelated to any particular proceeding that is active during the fiscal year. Furthermore, it is entirely unclear how the Commission could manage the administration of regulatory fees if a proceeding were to go dormant or close. Such fluctuations in the expectations associated with assessing regulatory fees would be difficult for both fee payors as well as the Commission. We therefore agree with the Commission's prior conclusion that such a proposal is "impractical and thereby unlikely to facilitate the statutorily required recovery, on an annual basis, of the Commission's entire FY S&E appropriation."[99] Telesat has provided no new basis on which to revisit these conclusions or to adopt a revised approach.

### C. Space and Earth Stations

39. We implement for FY 2025 the targeted amendments to the methodology used to assess regulatory fees for space and earth stations that were adopted in the *FY 2024 Third Report and Order*. Specifically, for FY 2025, we will (i) assess regulatory fees on space and earth stations once they are authorized, rather than when the stations are certified to be operational, and (ii) split existing regulatory fee categories for Space Stations (Non-Geostationary Orbit) into two new fee categories: small constellations (fewer than 1000 authorized space stations) and large constellations (1000 or more authorized space stations).[100] The Commission specifically adopted the amendments in time for them to be effective for FY 2025.[101] These changes to the fee categories are reflected within the schedule of regulatory fees for FY 2025 contained in section 1.1156(a) of our rules[102] and in the charts of space stations assessed regulatory fees for FY 2025.[103]

[97] *Id*.

[98] *Id*.

[99] *Id*. ("[It] is inconsistent with the explicit requirement in sections 6 and 9 of the Communications Act and the explicit language of each fiscal year's S&E appropriation directing the amount to be collected as an offsetting collection.").

[100] *FY 2024 Third Report and Order*, 39 FCC Rcd at 10143, para. 3.

[101] *Id.* at 10170, para. 55.

[102] 47 CFR § 1.1156(a); *see also infra* Appendix B (FY 2025 Schedule of Regulatory Fees).

[103] *See infra* Appendix E (Satellite Charts for FY 2025 Regulatory Fees). We have made changes to these charts since their inclusion in the *FY 2025 NPRM* to remove space stations that were not authorized as of October 1, 2025, (continued….)

40. We decline to revisit the decision made in the *FY 2024 Second Report and Order* to adopt a change to the allocation of space station regulatory fees between GSO and NGSO space stations.[104] Specifically, Kuiper urges us to reexamine the prior decision to increase the share of space station regulatory fees assessed to NGSO space stations from 20% to 40%.[105] Kuiper presents no new evidence regarding the amount of FTE burdens attributable to GSO and NGSO space stations, but instead relies on arguments previously made and rejected by the Commission.[106] Likewise, we decline to revisit decisions made in the recent *FY 2024 Third Report and Order*. Commenters urge us to change the 60-40% allocation of NGSO space station FTEs between small and large NGSO constellations, either to assess a greater share of FTE burdens to small constellations,[107] or a greater share of FTE burdens to large constellations.[108] We decline at this time to revisit a decision made a little less than three months ago. As we do each year, however, we continue to examine the appropriate allocation of FTE burdens as part of future annual regulatory fee assessment proceedings. Likewise, we will continue to consider potential amendments to our regulatory fee methodologies in future regulatory fee assessment proceedings, as urged by commenters,[109] although we decline to commence a rulemaking proceeding at this time specifically to address space station regulatory fees for FY 2026.

41. We decline to interpret "authorized stations" solely as stations "that have received unconditional permission to provide service without the need for further agency action," as requested by Kinéis.[110] Kinéis argues that the placement of a condition on an authorization that must be satisfied at a later date leaves unclear the ultimate ability to commence service, and therefore a space station should not be deemed "authorized" until the Commission determines that the condition has been satisfied and grants an unconditional authorization.[111] Kinéis's request returns to a focus on the operational status of the space station as the basis for assessing regulatory fees, although the Commission just recently determined that the operational status of a space or earth station should no longer be the deciding factor of whether space and earth station regulatory fees should be assessed. As discussed in the *FY 2024 Third Report and*

---

and therefore should not be assessed regulatory fees for FY 2025. *See, e.g.*, SiriusXM Comments at 1-2; Telesat Comments at 6. In addition, we have added a small number of space stations that were not included in the *FY 2025 NPRM*, but which were authorized as of October 1, 2024, and therefore should be assessed regulatory fees. Furthermore, on July 25, 2025, the Satellite Programs and Policy Division of the Space Bureau denied the request of Theia Holdings A, Inc. for retroactive waiver of its surety bond requirement necessary to maintain its license, which rendered Theia's license null and void as of May 16, 2024. *See Theia Holding A, Inc.*, Order, DA 25-660 (rel. Jul. 25, 2025). We remove Theia from the list of NGSO small constellation space stations that are assessed regulatory fees for FY 2025.

[105] Kuiper Comments at 3.

[106] *Id.* at 3.

[107] *Id.* at 4; *cf.* Iridium Reply at 2-3; Kinéis Reply at 2 (strongly disagreeing that larger satellite providers are over-assessed regulatory fees for FY 2025).

[108] Kinéis Comments at 6-8.

[109] *See, e.g.*, Kuiper Comments at 5-6 (proposing that for FY 2026 the Commission adopt a fee methodology that establishes a common unit for the first 100 stations in an NGSO constellation, with additional units for every 1,000 space stations); Telesat Comments at 6-7 (proposing to group GSO and NGSO space stations together for fee purposes in future fiscal years); Eutelsat Group Reply at 2 (agreeing that further updates to the allocation of fees between large and small constellations, or to adopt the alternative methodology based on a common space station unit); Iridium Reply at 5 (supporting adoption of the alternative methodology in future years); Kinéis Reply at 1-3 (noting the support among commenters for the alternative fee methodology based on a common space station unit).

[110] Kinéis Comments at 2.

[111] *Id.* at 2.

*Order*, the decision to assess regulatory fees on authorized stations, rather than operational space stations, recognizes that significant FTE burdens are involved with the licensing of space and earth stations, even before a station becomes operational, and that if an authorized space station never becomes operational, then the FTE burdens associated with regulating such space stations would never be recovered and have to be borne by stations that are operational.[112] These considerations equally apply to space stations that are authorized, but subject to a condition that needs to be fulfilled by the licensee or grantee prior to becoming operational, or prior to accessing the U.S. market (in the case of a non-U.S. licensed space station).[113]

42. Furthermore, the Commission found that assessing regulatory fees on authorized stations broadens the base of regulatory fee payors, spreading the recovery of fees from all licensees and grantees that benefit from the Space Bureau's licensing and regulatory activities, and potentially lowering the per unit regulatory fee burden by increasing the number of units on which fees are assessed.[114] This rationale for adopting regulatory fees on authorized stations would be undermined by not assessing regulatory fees on space stations that are authorized, but are subject to conditions that need to be fulfilled prior to commencing operations. Not assessing regulatory fees until all aspects of an application are fully resolved could effectively remove a significant number of current fee payors from regulatory fee assessments.[115] It would also require Commission staff to determine whether the conditions placed on every space and earth station grant prevent the licensee from commencing operations, which risks being subjective and administratively burdensome.

### D. Broadcast Television Stations

43. Having received no response to our *FY 2025 NPRM* proposals for assessing full-power broadcast stations, we will continue to assess fees for full-power broadcast television stations based on the population covered by a full-service broadcast television station's contour as the Commission has since 2020.[116] The population-based methodology conforms with the service authorized here—broadcasting television to the American people. We will also continue the Commission's use of 2020 U.S. Census data to assess fees for full-power broadcast television stations, as we traditionally have over the last few years.[117] The population data for broadcasters' service areas are determined using the TVStudy software and the Licensing and Management System (LMS) database, based on a station's projected noise-limited

[112] *FY 2024 Third Report and Order*, 39 FCC Rcd at 10154-55, para. 21.

[113] In this respect, the assessment of regulatory fees could provide an incentive for licensees to resolve any aspects of their application that are within their control prior to action on the application, or as quickly as possible if the application is granted with conditions subject to the licensee's control.

[114] *FY 2024 Third Report and Order*, 39 FCC Rcd at 10154-55, para. 21.

[115] For example, all the NGSO large constellation fee payors have not received unconditional authorization for all aspects of their applied-for systems. If they are not assessed regulatory fees, their share of NGSO space station regulatory fees would need to be paid by other NGSO space station fee payors.

[116] *FY 2025 NPRM* at para. 40. *See also FY 2020 Report and Order*, 36 FCC Rcd at 1738, para. 19. Previously, from approximately 1995 through 2018, regulatory fees for full-power television stations were based on the Nielsen Designated Market Area (DMA) groupings 1-10, 11-25, 26-50, 51-100, and remaining markets (DMAs 101-210). In the *FY 2018 Report and Order*, the Commission adopted a new methodology for assessing regulatory fees for full-service broadcast stations. The Commission determined that it would fully transition to assessing regulatory fees for full-service television broadcast stations based on the population covered by the station's contour by FY 2020 and, in the interim, for FY 2019, adopted a blended fee based partly on the historical DMA methodology and partly on the new population-based methodology. *See Assessment and Collection of Regulatory Fees for Fiscal Year 2018*, MD Docket No. 18-175, Report and Order and Order, 33 FCC Rcd 8497, 8501-02, para. 14 (2018) (*FY 2018 Report and Order*).

[117] *See id*. at 1738-39, paras. 20-21 (adjusting the fees for Puerto Rico broadcasters).

service contour.[118] However, consistent with the Commission's decision in FY 2024, we base assessments on limiting the population count of full-power television stations that rely on satellite television stations to reach terrain-limited areas in Puerto Rico.[119] We adopt a factor of $.006674 per population served for the FY 2025 full-power broadcast television station fee.[120] The population data for each licensee and the population-based fee (population multiplied by $.006674 for each full-power broadcast television station)[121] are listed in Appendix F.

### E. Proposed New Regulatory Fee Categories

44. In the *FY 2025 NPRM*, the Commission sought comment on whether it should consider any new regulatory fee categories.[122] In exercising our Congressional mandate to collect regulatory fees each fiscal year, we proceed with careful consideration and make changes in our process, including the adoption of new fee categories and the accompanying assessment methodologies, only after fully developing the record. This meticulous approach to making changes serves the goal of ensuring that our actions in assessing regulatory fees are fair, administrable, and sustainable.[123]

45. As we explain below, for FY 2025, we reject the proposals to add new regulatory fee categories because they fail to satisfy this standard. NAB and Telesat propose that the Commission adopt

[118] 47 CFR § 73.622. TVStudy software is released by the Commission's Office of Engineering and Technology. TVStudy uses 2020 U.S. Census data and interfaces with data contained in the LMS to perform coverage and interference analyses of full service digital and Class A television stations. *See generally* https://www.fcc.gov/oet/tvstudy#:~:text=Engineering%20%26%20Technology,-TVStudy%20FAQ&text=The%20FCC's%20Office%20of%20Engineering,and%20Class%20A%20television%20stations.

[119] As previously implemented, the Commission based assessments on a full-power television station and its satellite facility on a maximum of 3.1 million population. Hence, the maximum fee amount that will be paid by a full-power TV station and its associated satellite facility together is 3.1 million times $.006674 (the fee rate ) = $20,689. *See FY 2020 Report and Order*, 36 FCC Rcd at 1738-39, paras. 20-21; *FY 2024 Second Report and* Order, 39 FCC Rcd at 10155-56, para. 24.

[120] The factor of $.006674 was derived by taking the revenue amount required from the full-power broadcast television station fee category and dividing it by the total population count of all "feeable" call signs. The factor is slightly increased from the $.006379 proposed in the *FY 2025 NPRM* because we refined our unit estimates to reflect more accurate information about exempt stations and we adjusted the revenue requirement, consistent with historical practice and trends, to account for non-payors.

[121] For those VHF stations whose power had to be increased to obtain a clearer signal, the Commission will continue to use a population count based on that station's lower VHF power level rather than at the increased power level.

[122] *FY 2025 NPRM* at para. 41.

[123] *Assessment and Collection of Regulatory Fees for Fiscal Year 2020, Assessment and Collection of Regulatory Fees for Fiscal Year 2019*, Report and Order and Notice of Proposed Rulemaking, 35 FCC Rcd 4976, 4979-80, para. 8 (2020). The most recent addition of a new fee category to the regulatory fee schedule was in 2020, when the Commission added non-U.S. licensed space stations with U.S. market access grants to the regulatory fee schedule. *FY 2020 NPRM*, 35 FCC Rcd at 4979-91, paras. 7-34. Prior to that, in 2017, the Commission added non-common carrier terrestrial IBCs to the regulatory fee schedule, in order to include both common carrier and non-common carrier terrestrial IBCs in the schedule. *FY 2017 Report and Order*, 32 FCC Rcd at 7071-72, paras. 34-35. In 2015, the Commission added a new fee category for DBS as a subcategory of the cable television and IPTV fee category, based on the oversight and regulation of this industry by Media Bureau FTEs. *FY 2015 Report and Order*, 30 FCC Rcd at 10276-77, paras. 19-20. Subsequently, the Commission placed all DBS, cable television, and IPTV providers in the same fee category at the same per subscriber regulatory fee. *FY 2021 Report and Order*, 36 FCC Rcd at 13004-05, para. 28. In 2014, the Commission adopted a new regulatory fee category for toll-free numbers because FTEs, primarily in the Wireline Competition Bureau, are devoted to toll-free number oversight and regulation. *FY 2014 Report and Order*, 29 FCC Rcd at 10778, paras. 26-27. In 2013, the Commission broadened the cable television category to include IPTV providers. *FY 2013 Report and Order*, 28 FCC Rcd at 12362-63, paras. 32-33.

five new regulatory fee categories to expand the base of fee payors.[124] Specifically, they suggest that the Commission adopt fee categories for broadband service providers, large technology companies, equipment authorization holders, experimental license holders, and entities that provide database services to enable the provision of unlicensed services.[125] Iridium and the State Broadcasters Associations support these proposals; however, CTIA, the Wi-Fi Alliance, Kinéis, NCTA, the Telecommunications Industry Association (TIA) and the Consumer Technology Association (CTA) strongly oppose them.[126] For the reasons set forth below, we do not adopt new fee categories at this time.

46. We also decline NAB's proposal, supported by Iridium and the State Broadcasters Associations, to hold "roundtables" to discuss such matters in advance of the FY 2026 notice of proposed rulemaking.[127] NAB claims that a lack of access to internal Commission FTE data constrains their and other commenters' ability to offer more detailed proposals and therefore the Commission should work with interested stakeholders to close these information gaps.[128] Notably, some commenters do not agree. The Wi-Fi Alliance describes the proposal to as "unwarranted."[129] CTIA also maintains that there is no need to hold roundtables to gather additional information on creating new fee categories.[130] Specifically, CTIA explains that such roundtables would create a duplicative process for stakeholders to continue to raise issues that the Commission has already considered because the Commission's annual rulemaking process provides "ample" opportunity for the Commission and relevant stakeholders to consider changes to the regulatory fee process.[131] CTA too disagrees with NAB's proposals, explaining that access to Commission staffing data is not a real problem that prevents NAB from defining the new fee categories it wants the Commission to create.[132]

47. We agree with commenters that convening roundtables is unnecessary. The Commission has extensively explained the reasoning with respect to the work of Commission FTEs that is both direct and indirect,[133] and nothing has changed herein. Moreover, parties already have the ability to present new arguments and evidence to Commission staff in advance of the next fiscal year's regulatory fees rulemaking, thus rendering it inefficient for the Commission to host open-ended, presumably contentious stakeholder discussions that appear unlikely to yield a framework for the adoption of new fee categories that is fair, administrable, and sustainable. Hosting a forum for parties to rehash comments from prior years or to explore the granular details of the Commission's FTE work assignments and burdens is

unlikely to persuade the Commission to adopt a new fee category.[134]

### 1. Broadband Internet Access Service Providers and Large Technology Companies

48. At this time, we are not persuaded by NAB's arguments, which Iridium and the State Broadcasters Associations support, that we should create a new regulatory fee category for either broadband Internet service providers or large technology companies to expand the base of fee payors beyond licensees to other entities that benefit from the Commission's activities.[135] Many commenters strongly reject these proposals.[136]

49. Although NAB concedes that some of these types of entities may already pay regulatory fees for certain services, it nonetheless claims that they "escape paying the full amount of fees associated with their operations (e.g., broadband services or equipment authorizations), even when those services directly benefit from FCC activity."[137] NAB maintains that a larger array of entities other than those currently paying regulatory fees benefit from the Commission's work.[138] Notably, however, NAB offers no specific examples of what it believes to be the unaccounted for FTE burden associated with oversight and regulation of these unnamed entities. Similarly, Iridium suggests that the Commission can "add new payors over time as it determines appropriate fees for the activities that benefit them,"[139] but also provides no concrete suggestions as to how to differentiate such activities from those that are already covered by the Commission's existing regulatory fee categories. In support of NAB's proposals, the State Broadcasters Associations generally contend that as a matter of fairness, the Commission must look for entities that benefit from the Commission's work but have escaped paying regulatory fees because their benefits do not include a physical license issued by one of the core bureaus.[140] While the State Broadcasters Associations claim that broadcasters and other licensed entities "unfairly subsidize" much "larger entities in healthy and growing industries that are far more able to bear the operating costs of the Commission,"[141] it also fails to include any specificity as to which larger entities should fall into new fee categories.

50. The Commission will add a new fee category where it can determine that significant FTE resources of a core bureau are being spent on oversight and regulatory activities with respect to a specific service necessitating a new regulatory fee category.[142] Such circumstances have not been presented here. As the Commission has previously explained, there is no specific bureau or office in the Commission with oversight of all broadband services because the work of Commission FTEs on broadband matters is spread out among most of its organizational units, including the core bureaus. Providers offering broadband Internet access services are involved in many Commission initiatives and proceedings and are,

in many cases, already responsible for regulatory fees.[143] Broadband Internet access services are offered through various technical means and by widely differing entities and to distinct user groups, e.g., wireless service providers, wireline service providers (including VoIP), cable operators, and satellite operators, to consumers and businesses, on both a retail and wholesale basis.[144] Thus, such service is offered by different types of providers and is delivered to end users in different ways. Accordingly, we agree with the Commission's conclusion from just last year that "creating a new regulatory fee category for broadband Internet access services appears to be redundant with existing fee categories in the case of those broadband Internet access service providers that otherwise already were subject to the existing fee categories, and thus a new fee category in this regard is not administrable at this time."[145] Additionally, we recognize that these same observations regarding the work being spread throughout the Commission could hold equally true for large technology companies, many of which may offer or rely upon broadband services.

51. As Wi-Fi Alliance points out, NAB's proposal to create a new fee category for large technology companies is too vague in its description of entities that would fall into this category or how the Commission could make such determinations to be administrable.[146] CTA also strongly urges the Commission to reject NAB's proposal to adopt a new fee category for what it calls a "vaguely defined"[147] group because NAB's suggestion is unworkable and lacks clarity.[148] CTA further points out the NAB's proposal reiterates prior flawed arguments.[149]

52. We agree with commenters that NAB's proposal for either of these new fee categories would be inconsistent with our policy goals of having regulatory fees that are fair, administrable, and sustainable.[150] Commenters advocating for these new fee categories have failed to indicate how their adoption would fit within the Commission's current regulatory fee methodology. For example, claims that large technology companies "benefit significantly" from the Commission's work—presumably work promoting the deployment of broadband upon which they rely to reach consumers—are not sufficient.[151] As CTA correctly observes,[152] consumers likewise benefit immensely from having fast and reliable broadband available, but if any benefits—no matter how attenuated—were the criterion, they too would be subject to regulatory fees.

53. By merely reiterating the arguments that NAB acknowledges it has offered before,[153] NAB has failed to present any new basis or evidence to demonstrate that a broadband Internet access service provider or large technology company regulatory fee category is necessary for this fiscal year. Likewise, Iridium's support of adopting new fee payor categories, without explaining a foundational basis or framework to do so, does not offer a workable solution. NAB, and supporting commenters, have not

[143] *FY 2022 Report and Order*, 37 FCC Rcd at 10886-87, para. 84. However, a provider of broadband internet access service that does not also offer a service regulated by the Commission, (e.g., a wireline, wireless, or cable television service, or a submarine cable operator) would not pay regulatory fees.

[153] NAB Comments at 4, n.10.

offered any new reason to revisit the Commission's prior determination that it would be administratively difficult to try to determine the FTEs that should be included in either of these proposed new regulatory fee categories.[154] Likewise, for the reasons explained above, convening roundtables to explore these proposals is not likely to solve such problems with administrable feasibility.[155]

54. It is also worth noting, as the Commission has previously, that because the amount of regulatory fees collected from each core bureau is based on the number of non-auctions FTEs in each bureau, adding a new broadband Internet access or large technology fee category would be unlikely to change the number of Media Bureau FTEs devoted to broadcast issues.[156] Rather, as NCTA reasons, the Commission's efforts to modernize its media rules should, over time, result in decreased regulatory fees for Media Bureau regulatees as the Commission's deregulatory endeavors reduce the amount of time and effort Commission FTEs must devote to regulating the industry.[157]

55. We find no basis to conclude that adopting either of these fee categories would satisfy the factors that the Commission has previously relied on to create a new regulatory fee category.[158] Accordingly, we conclude, as the Commission has over the last several years, that section 9 of the Act does not require the creation of either category.[159]

### 2. Holders of Equipment Authorizations

56. We also decline to adopt Telesat's and NAB's proposals to create a new regulatory fee category for manufacturers or others that hold equipment authorizations.[160] Here too, the record does not provide a sufficient basis, consistent with section 9 of the Act, for the adoption of a new regulatory fee category. In the instances where the Commission has adopted a new fee category, it has done so based on a determination that significant FTE resources of a core bureau were being spent on oversight and regulatory activities with respect to a specific service.[161] As the Commission has previously decided, we again conclude that those circumstances with respect to equipment manufacturers are absent here.[162]

57. Telesat generally maintains that because the Commission has broad authority to regulate services and equipment integral to the nation's communications networks, that authority should extend to recovering the cost of regulating manufacturers of equipment and the Commission should be able to recoup a significant amount of FTE time devoted to equipment authorizations.[163] NAB includes entities that hold equipment authorizations in its broad list of those who "often escape paying the full amount of

fees associated with their operations" even though they benefit directly from Commission activity.[164] Both Iridium and the State Broadcasters Associations support this proposal generally, but neither provides any specificity with respect to how the Commission should administer a new fee category for holders of equipment authorizations.[165]

58. As with other proposed fee categories, several reply commenters strongly maintain that the Commission should reject this proposal as it has in years past. For instance, TIA contends that NAB is recycling its prior rejected arguments that these types of entities are not paying regulatory fees[166] and points out that such entities are not "escaping fees" as NAB alleges because they are already subject to authorization fees to third-party test labs and the Commission's authorized Telecommunication Certification Bodies (TCBs).[167] CTA agrees, explaining that the proposal for such a fee category "ignores how the process actually works."[168] CTA, like TIA, explains that because the Commission has outsourced nearly all testing and certification work, "there is no free regulatory ride" for these entities, but rather "only a system that functions efficiently because the Commission wisely chose to privatize much of the burden."[169] The Wi-Fi Alliance asserts that because there are multiple categories of equipment authorization, this proposal presents challenges in determining a fair, administrable, or sustainable fee system.[170] Finally, Kinéis calls the proposal for this class of regulatory fees "ill-defined" and explains that authorization holders have different and varied interactions with the Commission.[171]

59. We are not persuaded to add a new fee category at this time. Nothing has changed from the Commission's examination last year of the functions of the Office of Engineering and Technology (OET) and its FTE work dedicated to equipment authorizations.[172] As the Commission has repeatedly explained, it classifies OET FTEs as indirect because their work benefits the Commission and the industry as a whole and is not specifically focused on the regulatory fee payors and licensees of a specific core bureau.[173] Many devices, including those operating wholly or in part on an unlicensed basis, are exempt from equipment authorization requirements. Moreover, devices that are not exempt are tested by competent test labs, and if certification is required, applications are submitted to Telecommunications Certification Bodies.[174] Other devices, generally those considered to have reduced potential to cause RF

[174] These devices either are exempt from equipment authorization requirements because the devices are unlikely to cause interference or authorized via a Supplier's Declaration of Conformity (SDoC), a form of self-certification, subject to market surveillance for compliance. Devices in both unlicensed and licensed services may be exempt from equipment authorization requirements. *See, e.g.*, 47 CFR §§ 15.103, 25.129, 90.203. Even with respect to devices that require certification, such certifications are granted by outside third parties (Telecommunication Certification Bodies (TCBs)), under Commission oversight. *See generally* 47 CFR § 2.901 *et seq.* Direct costs of device testing and applicant certifications necessary to demonstrate compliance with our technical and equipment authorization rules are paid directly by manufacturers to FCC-recognized labs and TCBs. Those costs are not borne by the Commission and are not recovered through regulatory fees. 47 CFR § 2.962(f)(3) states that TCBs may establish and assess fees for processing certification applications and other Commission-required tasks. *See Amendment of Parts 0, 1, 2, and 15 of the Commission's Rules regarding Authorization of Radiofrequency*

(continued….)

interference, are authorized pursuant to the Commission's SDoC process, which provides for the equipment to be authorized based on the responsible party's self-declaration that the equipment complies with the pertinent Commission requirements.[175] As the Commission concluded last year, our "regulatory framework does not include an efficient way to identify equipment, specifically that which is exempt from authorization or authorized pursuant to SDoC procedures, that operate on an unlicensed (as opposed to licensed) basis."[176] As was the case last year, commenters have not provided suggestions for an efficient methodology to obtain this type of information.[177] In other words, as the Commission referenced last year, any FTE time devoted to this is proportionately small, and we have no method currently to segregate out the portion of direct FTE time devoted to such matters.[178]

60. CTIA argues that, as in prior years, commenters advocating for this fee category have failed to provide any new reason or basis for the Commission to reverse course on its longstanding policy to exclude equipment authorizations from regulatory fees.[179] Likewise, Wi-Fi Alliance maintains that commenters requesting this fee category have failed to demonstrate why the FTE burden of work conducted by OET for this category should not continue to be classified as indirect. We agree with these commenters and conclude, as the Commission has previously found, that the work of OET FTEs concerning manufacturers and other holders of equipment authorizations benefits the Commission as a whole and industries in each of the core bureaus.[180]

61. Furthermore, as the Commission has also previously opined, "[e]quipment that operates on spectrum on an unlicensed basis is diverse in nature, ubiquitous, and used for many purposes including non-communications purposes."[181] Thus, focusing on the service provided would not create a clear and administrable regulatory fee category, and at this time it remains unclear how we could distill a specific group of users, service providers, or manufacturers to form the core of a regulatory fee category. As in past years, under the current Commission equipment authorization regime, the Commission does not collect information from or communicate with all device manufacturers.[182] Accordingly, we find that a

Moreover, given the ubiquitous nature of such equipment, it [is] at least possible that any regulatory fee assessed on such a category would be below the de minimis threshold.").

[177] *Id*.

[178] *Id*.

[179] CTIA Reply at 3.

[180] Wi-Fi Alliance Reply at 5.

[181] *FY 2024 Second Report and Order*, 39 FCC Rcd at 10168-69, para. 52, nn.173-74. The Commission explained that equipment that operates on spectrum on an unlicensed basis performs various services including: healthcare devices, security systems, thermostats, alarm systems, baby monitors, fitness trackers, home appliances, garage door openers, cordless phones, in-vehicle rear seat passenger detection systems, wireless power transfer, law enforcement radars, microwave ovens, Wi-Fi networks, Bluetooth speakers, Internet of Things (IoT) industrial networks, and other devices. *Id.* As a result, the variety of equipment that operates on spectrum on an unlicensed basis creates a broad group of potential payors, i.e., all such manufacturers of consumer and industrial equipment that operates on spectrum on an unlicensed basis.

[182] A manufacturer with equipment authorized pursuant to SDoC is required to retain certain records, which the Commission can ask for as needed. The FCC currently does not collect information for devices authorized in the United States in accordance with our SDoC process. The FTE time needed to manage a modified SDoC process that would include the collection of information necessary to impose regulatory fees on manufacturers would vastly exceed the minimal FTE time now spent on oversight of this area.

new regulatory fee category for manufacturers and other holders of equipment authorizations, on the basis of the instant record, is not consistent with section 9 of the Communications Act and is not practicable at this time. We therefore decline to adopt such a regulatory fee category.

### 3. Experimental License Holders

62. We also disagree with Telesat that experimental license holders should comprise a category of regulatory fee payors. Telesat proposes that the Commission impose regulatory fees on experimental license holders because such entities have "chosen to invoke the Commission's processes" and should therefore pay their fair share of regulatory expenses.[183] Telesat argues that for-profit companies with experimental authority should be charged regulatory fees, just as they must pay application fees when seeking experimental licenses.[184] Telesat further reasons that it is equitable to impose regulatory fees on experimental license holders because experimental authority confers important benefits that allow commercial entities to develop new technologies, and these parties should reimburse the Commission for the associated regulatory costs, rather than burdening other fee payors with those costs.[185]

63. Other commenters oppose this proposal and advocate that we should reject it as the Commission has in the past. Kinéis asserts that unlike broadcast, wireless, or satellite licensees that hold their licenses for lengthy, defined terms of years, experimental license holders may obtain authority for periods as limited as a few days or weeks (e.g., experimental STAs).[186] CTIA maintains that the Commission should reject calls to create new regulatory fee categories for experimental license holders.[187] CTIA points to the Commission's previously stated reasoning for classifying OET FTEs as indirect, as well as its conclusions that experimental licensing affects multiple core bureaus and that fees for such users would be unworkable and logistically infeasible to collect.[188] Wi-Fi Alliance agrees and states that the Commission has correctly rejected nearly identical proposals in each of the past few years, and commenters proposing these changes for FY 2025 have not identified any material change that warrants the Commission reaching a different decision now.[189]

64. We agree with commenters opposing this proposal. Experimental licenses are granted subject to coordination and as secondary to all licensed services regulated by other bureaus. In the *FY 2022 Report and Order*, the Commission concluded that although "resources are expended on processing experimental applications, these licenses are approved for a proposed experiment or range of experiments, and not for an actual operational service under established service rules providing some level of interference protection."[190] Telesat has not provided any new argument or evidence to convince us that an experimental license is the same as—or even sufficiently similar to—other Commission licenses such that it should be subject to a regulatory fee, even if it incurs an application fee. Nor has Telesat set forth any

[183] Telesat Comments at 8.

[184] *Id*. at 12-13 ("For ease of administration, the Commission could collect in advance, at the time of application, the experimental regulatory fee for the entire license term. It could first determine the annual fee amount and then multiply that amount by the length of the license term. This approach is comparable to how the Commission applies regulatory fees for small multi-year wireless licenses.").

[185] *Id*.; *see generally* Iridium Reply at 4 (agreeing with Telesat that the Commission should begin a comprehensive review of what additional entities should be subject to regulatory fees, but not specifying experimental license holders); State Broadcasters Associations Reply at 14 (asking the Commission to create new categories of fee payors, but not identifying experimental license holders).

[186] Kinéis Reply at 4.

[187] CTIA Reply at 2.

[188] *Id*. at 4.

[189] Wi-Fi Alliance Reply at 2.

[190] *FY 2022 Report and Order*, 37 FCC Rcd at 10884-85, para. 79.

other persuasive reason why we should revisit that decision. Accordingly, for all the reasons the Commission has offered over the last several years,[191] which we incorporate here, as well as the significant record opposing this proposal, we decline to adopt a regulatory fee category for experimental license holders at this time.

#### 4. Entities that Provide Database Services to Unlicensed Spectrum Users

65. We are equally unpersuaded to adopt a regulatory fee category for entities that provide database services to unlicensed spectrum users. Telesat proposes that the Commission adopt a new fee category for entities that provide database services to unlicensed spectrum users,[192] claiming that such fees would be consistent with those the Commission assesses for Responsible Organizations (RespOrgs) that administer the Toll Free Numbers (TFN) database.

66. Notably, this is not the first time this exact suggestion has been raised before the Commission.[193] Telesat offered this same analogy to "RespOrgs" in reply comments offered by the Satellite Operators (of which it was a party) in the Commission's FY 2023 regulatory fees proceeding.[194] The Commission was not persuaded by it then, nor are we now. When it last considered this proposal, the Commission correctly explained:

> [T]he suggestion that we create a regulatory fee category for only these database administrators ignores the fact that, under the Commission's rules, there are a variety of database administrators and spectrum coordinators (e.g., television white space devices, 6 GHz devices, and fixed, personal/portable, and mobile devices). Thus, focusing solely on database administrators enabling the use of spectrum on an unlicensed basis, i.e., selecting one type of database administrator, due to the connection with users of spectrum on an unlicensed basis, appears to be a tactic to assess regulatory fees on certain users of spectrum on an unlicensed basis.[195]

67. Furthermore, the record does not support this proposal. For instance, Wi-Fi Alliance objects, explaining that "relevant FTE activities related to these databases—i.e., rulemakings to establish the databases and ensure the administrators have the requisite technical expertise—benefit a broad range of industries across the Commission, including both licensed and unlicensed entities and are thus consistent with the treatment of these FTEs as indirect." We agree with this observation, which is also consistent with the Commission's decision in FY 2023.[196]

68. Telesat has failed to offer any evidence for us to conclude that there are sufficient benefits (i.e., FTE work in oversight or regulation) provided by the Commission *each* fiscal year to these types of database operators that warrant creating a regulatory fee category at this time. We acknowledge that in establishing any set of rules that allow database operators to support unlicensed spectrum users, FTE time may be devoted to adopting regulations for database operators to perform such functions. But as a general matter, particularly in the absence of specific, contradictory evidence, we would expect such FTE time to be minimal and almost always a one-time effort which provides an insufficient basis upon which to assess regulatory fees each fiscal year. Accordingly, we find that a new regulatory fee category for entities that provide database management for unlicensed spectrum users is not consistent with section

9 of the Communication Act. We therefore decline to adopt such a regulatory fee category.

## IV. PROCEDURAL MATTERS

69. Included below are procedural items as well as our current payment and collection methods. We include these payments and collection procedures here as a useful way of reminding regulatory fee payers and the public about these aspects of the annual regulatory fee collection process.

70. *Commission's Registration System*. To increase efficiency, the Commission is using an all-electronic payment system for regulatory fees, which is contained within the Commission's Registration System (CORES). Before using CORES for the first time, you must obtain an FCC Username through the FCC User Registration System, and subsequently use it to access CORES and either register an FCC Registration Number (FRN) or associate an existing FRN to your Username. If you are unable to register electronically, you may fax your application for a Registration Number (FCC Form 160) to the CORES Helpdesk at (202) 418-7869 for filing procedures.

71. *Credit Card Transaction Levels*. In accordance with *Treasury Financial Manual*, Volume I, Part 5, Chapter 7000, Section 7065.20a—*Credit Card Collections*, the total daily credit card transactions processed from a single customer can be no more than $24,999.99 (hereinafter the "Maximum Daily Limit") and the total monthly transactions processed from a single customer (based on a rolling 30-day period) can be no more than $100,000.00 (hereinafter the "Maximum Monthly Limit").[197] Transactions greater than the Maximum Limits will be rejected. If a customer initiates multiple transactions on the same day with the same credit card, those transactions causing the total charge to exceed the Maximum Limits will also be rejected. This applies to single payments or bundled payments of more than one bill. Multiple transactions to a single agency in one day may be aggregated and treated as a single transaction subject to the $24,999.99 limit. Customers who wish to pay an amount greater than $24,999.99 should consider available electronic alternatives such as debit cards, Automates Clearing House (ACH) debits from a bank account, and wire transfers. Each of these payment options is available after filing regulatory fee information in the Commission's Registration System (CORES). Further details will be provided regarding payment methods and procedures at the time of FY 2025 regulatory fee collection in Fact Sheets, https://www.fcc.gov/regfees.

72. *Payment Methods*. During the fee season for collecting regulatory fees, regulatees can pay their fees by credit card through Pay.gov, ACH, debit card, or by wire transfer. Additional payment instructions are posted on the Commission's website at https://www.fcc.gov/licensing-databases/fees/wire-transfer. The receiving bank for all wire payments is the U.S. Treasury, New York, NY (TREAS NYC). Any other form of payment (e.g., checks, cashier's checks, or money orders) will be rejected. For payments by wire, an FCC Form 159-E should still be transmitted via fax so that the Commission can associate the wire payment with the correct regulatory fee information. The fax should be sent to the Commission at (202) 418-2843 at least one hour before initiating the wire transfer (but on the same business day) so as not to delay crediting their account. Regulatees should discuss arrangements (including bank closing schedules) with their bankers several days before they plan to make the wire transfer to allow sufficient time for the transfer to be initiated and completed before the deadline. Complete instructions for making wire payments are posted at https://www.fcc.gov/licensing-databases/fees/wire-transfer.

73. *De Minimis Regulatory Fees, Section 9(e)(2) Exemption*. Under the de minimis rule, and pursuant to our analysis under section 9(e)(2) of the Act, a regulatee is exempt from paying regulatory

[197] *See* Bureau of the Fiscal Service, Treasury Financial Manual, https://tfx.treasury.gov/tfm/volume1 (Treasury Financial Manual) (last visited Apr. 7, 2025). Customers who owe an amount on a bill, debt, or other obligation due to the federal government are prohibited from splitting the total amount due into multiple payments. Splitting an amount owed into several payment transactions violates the credit card network and Fiscal Service rules. An amount owed that exceeds the Maximum Daily Limit, $24,999.99, may not be split into two or more payment transactions in the same day by using one or multiple cards.

fees if the sum total of all of its annual regulatory fee liabilities is $1,000 or less for the fiscal year.[198] The de minimis threshold applies only to filers of annual regulatory fees, not regulatory fees paid through multi-year filings, and it is not a permanent exemption. Each regulatee will need to reevaluate the total annual fee liability each fiscal year to determine whether it meets the de minimis exemption.

74. *Standard Fee Calculations and Payment Dates*. The Commission will accept fee payments made in advance of the window for the payment of regulatory fees. The responsibility for payment of fees by service category is as follows:

- *Media Services*: Regulatory fees must be paid for initial construction permits that were granted on or before October 1, 2024 for AM/FM radio stations, full-power VHF/UHF broadcast television stations, and satellite television stations. Regulatory fees must be paid for all broadcast facility licenses granted on or before October 1, 2024.[199]
- *Wireline (Common Carrier) Services*: Regulatory fees must be paid for authorizations that were granted on or before October 1, 2024. In instances where an authorization is transferred or assigned after October 1, 2024, responsibility for payment rests with the holder of the authorization as of the fee due date. Audio bridging service providers are included in this category.[200] For Responsible Organizations (RespOrgs) that manage Toll Free Numbers (TFN), regulatory fees should be paid on all working, assigned, and reserved toll free numbers as well as toll free numbers in any other status as defined in section 52.103 of the Commission's rules.[201] The unit count should be based on toll free numbers managed by RespOrgs on or about December 31, 2024.
- *Wireless Services*: Commercial Mobile Radio Service (CMRS) cellular, mobile, and messaging services (fees based on number of subscribers or telephone number count): Regulatory fees must be paid for authorizations that were granted on or before October 1, 2024. The number of subscribers, units, or telephone numbers on December 31, 2024 will be used as the basis from which to calculate the fee payment. In instances where a permit or license is transferred or assigned after October 1, 2024, responsibility for payment rests with the holder of the permit or license as of the fee due date.
- *Wireless Services, Multi-year fees*: The first eight regulatory fee categories in our Schedule of Regulatory Fees (first seven in our Calculation of Fees Appendix) pay "small multi-year wireless regulatory fees."[202] Entities pay these regulatory fees in advance for the entire amount period covered by the five-year or ten-year terms of their initial licenses and pay regulatory fees again only when the license is renewed, or a new license is obtained. We include these fee categories in our rulemaking to publicize our estimates of the number of "small multi-year wireless" licenses that will be renewed or newly obtained in FY 2025.
- *Multichannel Video Programming Distributor (MVPD) Services (cable television operators, Cable Television Relay Service (CARS) licensees, DBS, and IPTV)*: Regulatory fees must be paid for the number of basic cable television subscribers as of December 31, 2024.[203] Regulatory fees

[198] *FY 2019 Report and Order*, 34 FCC Rcd at 8206-07, paras. 46-48; 47 U.S.C. § 159(e)(2).

[199] If a station had both an initial construction permit and a license granted on or before October 1, 2024, the station needs to pay only the regulatory fee for the broadcast facility license.

[200] Audio bridging services are toll teleconferencing services.

[201] 47 CFR § 52.103.

[202] These multiyear licenses are for PLMRS (exclusive), PLMRS (shared), Microwave, Marine (ship), Aviation (aircraft), Marine (coast), and Aviation (ground).

[203] Cable television system operators should compute their number of basic subscribers as follows: Number of single family dwellings + number of individual households in multiple dwelling unit (apartments, condominiums, mobile

(continued….)

also must be paid for CARS licenses that were granted on or before October 1, 2024. In instances where a permit or license is transferred or assigned after October 1, 2024, responsibility for payment rests with the holder of the permit or license as of the fee due date. For providers of DBS service and IPTV-based MVPDs, regulatory fees should be paid based on a subscriber count on or about December 31, 2024. In instances where a permit or license is transferred or assigned after October 1, 2024, responsibility for payment rests with the holder of the permit or license as of the fee due date.

- *Space Services*: Regulatory fees must be paid for earth stations that were licensed (or authorized) on or before October 1, 2024. Regulatory fees must also be paid for geostationary orbit space stations (GSO) and non-geostationary orbit satellite systems (NGSO), and the two NGSO subcategories "Small Constellations " and "Large Constellations," that were authorized or granted U.S. market access on or before October 1, 2024. Licensees of small satellites and RPO, OOS, and OTV space stations that were authorized or granted U.S. market access on or before October 1, 2024 must also pay regulatory fees.[204] In instances where a permit or license is transferred or assigned after October 1, 2024, responsibility for payment rests with the holder of the authorization as of the fee due date.
- *International Services* (*Submarine Cable Systems, Terrestrial and Satellite Services*): Regulatory fees for submarine cable systems are to be paid on a per cable landing license basis based on lit circuit capacity as of December 31, 2024. Regulatory fees for terrestrial and satellite IBCs are to be paid based on active (used or leased) international bearer circuits as of December 31, 2024, in any terrestrial or satellite transmission facility for the provision of service to an end user or resale carrier. When calculating the number of such active circuits, entities must include circuits used by themselves or their affiliates. For these purposes, "active circuits" include backup and redundant circuits as of December 31, 2024. Whether circuits are used specifically for voice or data is not relevant for purposes of determining that they are active circuits.[205] In instances where a permit or license is transferred or assigned after October 1, 2024, responsibility for payment rests with the holder of the permit or license as of the fee due date.

75. *CMRS and Mobile Services Assessments.* The Commission will compile data from the Numbering Resource Utilization Forecast (NRUF) report that is based on "assigned" telephone number (subscriber) counts that have been adjusted for porting to net Type 0 ports ("in" and "out").[206] We have included non-geographic numbers in the calculation of the number of subscribers for each CMRS provider in Appendix A and the CMRS regulatory fee factor proposed in Appendix B. CMRS provider regulatory fees will be calculated and should be paid based on the inclusion of non-geographic numbers. CMRS providers can adjust the total number of subscribers, if needed. This information of telephone

---

home parks, etc.) paying at the basic subscriber rate + bulk rate customers + courtesy and free service. Note: Bulk-Rate Customers = Total annual bulk-rate charge divided by basic annual subscription rate for individual households. Operators may base their count on "a typical day in the last full week" of December 2024, rather than on a count as of December 31, 2024.

[204] In the *Space Station Regulatory Fees Order*, the Commission adopted a new methodology for assessing regulatory fees for small satellites and spacecraft licensed under sections 25.122 and 25.123 of the Commission's rules and included space stations that are principally used for Rendezvous and Proximity Operations or On-Orbit Servicing, including Orbit Transfer Vehicles, in the existing fee category for small satellites on an interim basis. *FY 2024 Space Station Regulatory Fees Order*, 39 FCC Rcd at 7325-29, paras. 9-16. This rule was published in the Federal Register and became effective on September 13, 2024. *See* 89 FR 60572 (July 26, 2024).

[205] We encourage terrestrial and satellite service providers to seek guidance from the Office of International Affairs Telecommunications and Analysis Division to verify their particular IBC reporting processes to ensure that their calculation methods comply with our rules.

[206] *See Assessment and Collection of Regulatory Fees for Fiscal Year 2005*, Report and Order and Order on Reconsideration, 20 FCC Rcd 12259, 12264, paras. 38-44 (2005) (*FY 2005 Report and Order*).

numbers (subscriber count) will be posted on CORES along with the carrier's Operating Company Numbers (OCNs).

76. A carrier wishing to revise its telephone number (subscriber) count can do so by accessing CORES and following the prompts to revise their telephone number counts. Any revisions to the telephone number counts should be accompanied by an explanation.[207] The Commission will then review the revised count and supporting explanation, if any, and either approve or disapprove the submission in CORES. If the submission is disapproved, the Commission will contact the provider to afford the provider an opportunity to discuss its revised subscriber count and/or provide supporting documentation. If the Commission receives no response from the provider, or the Commission does not reverse its initial disapproval of the provider's revised count submission, the fee payment must be based on the number of subscribers listed initially in CORES. Once the timeframe for revision has passed, the telephone number counts are final and are the basis upon which CMRS regulatory fees are to be paid. Providers can view their final telephone counts online in CORES.

77. Because some carriers do not file the NRUF report, they may not see their telephone number counts in CORES. In these instances, the carriers should compute their fee payment using the standard methodology that is currently in place for CMRS Wireless services (i.e., compute their telephone number counts as of December 31, 2024), and submit their fee payment accordingly. Whether a carrier reviews its telephone number counts in CORES or not, the Commission reserves the right to audit the number of telephone numbers for which regulatory fees are paid. If the Commission determines that a carrier paid CMRS or mobile services regulatory fees based on an incorrect number of telephone numbers, the Commission will bill the carrier for the difference between what was paid and what should have been paid.[208]

78. *Effective Date*. Providing a 30-day period after Federal Register publication before this Report and Order becomes effective as normally required by 5 U.S.C. § 553(d) will not allow sufficient time to collect the FY 2025 fees before FY 2025 ends on September 30, 2025. For this reason, pursuant to 5 U.S.C. § 553(d)(3), we find there is good cause to waive the requirements of section 553(d), and this Report and Order will become effective upon publication in the Federal Register. Because payments of the regulatory fees will not actually be due until late September, persons affected by the Report and Order will still have a reasonable period in which to make their payments and thereby comply with the rules established herein.

79. *Regulatory Flexibility Act.* The Regulatory Flexibility Act of 1980, as amended (RFA),[209] requires that an agency prepare a regulatory flexibility analysis for notice and comment rulemakings, unless the agency certifies that "the rule will not, if promulgated, have a significant economic impact on a substantial number of small entities."[210] Accordingly, we have prepared a final Regulatory Flexibility Analysis (FRFA) concerning the potential impact of rule and policy changes contained in this Report and Order. The FRFA is set forth in Appendix H.

80. *Congressional Review Act*. The Commission has determined, and the Administrator of the Office of Information and Regulatory Affairs, Office of Management and Budget, concurs that this rule is non-major under the Congressional Review Act, 5 U.S.C. § 804(2). The Commission will send a

[207] In the supporting documentation, the provider will need to state a reason for the change, such as a purchase or sale of a subsidiary, the date of the transaction, and any other pertinent information that will help to justify a reason for the change.

[208] There would be a 25% penalty plus interest for an incorrect payment per 47 U.S.C. § 159A(c)(2). The penalty is automatic and immediate. Interest accrues according to 31 U.S.C. § 3717. FCC's implementing regulations are sections 1.1164(c) and 1.1940(b).

[209] 5 U.S.C. §§ 601 *et seq*., as amended by the Small Business Regulatory Enforcement and Fairness Act (SBREFA), Pub. L. No. 104-121, 110 Stat. 847 (1996).

[210] 5 U.S.C. § 605(b).

copy of this Report and Order to Congress and the Government Accountability Office pursuant to 5 U.S.C. § 801(a)(1)(A).

81. *Paperwork Reduction Act.* This document does not contain any proposed new or substantively modified information collections subject to the Paperwork Reduction Act of 1995 (PRA), Public Law 104-13. In addition, therefore, it does not contain any new or modified information collection burden for small business concerns with fewer than 25 employees, pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, see 44 U.S.C. § 3506(c)(4).

82. *Materials in Accessible Formats*. To request materials in accessible formats for people with disabilities (Braille, large print, electronic files, audio format), send an e-mail to fcc504@fcc.gov or call the Consumer and Governmental Affairs Bureau at 202-418-0530 (voice).

## V. ORDERING CLAUSES

83. Accordingly, **IT IS ORDERED** that, pursuant to sections 4(i), 4(j), 9, 9A, and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. §§ 154(i), 154(j), 159, 159a, and 303(r), this Report and Order **IS HEREBY ADOPTED**.[211]

84. **IT IS FURTHER ORDERED** that the FY 2025 section 9 regulatory fees assessment requirements **ARE ADOPTED** as specified herein.

85. **IT IS FURTHER ORDERED** that the Commission's Office of the Secretary SHALL SEND a copy of this Report and Order, including the Final Regulatory Flexibility Analysis, to the Chief Counsel for Advocacy of the Small Business Administration.

FEDERAL COMMUNICATIONS COMMISSION

Marlene H. Dortch
Secretary

[211] Pursuant to Executive Order 14215, 90 Fed. Reg. 10447 (Feb. 20, 2025), this regulatory action has been determined to be not significant under Executive Order 12866, 58 Fed. Reg. 68708 (Dec. 28, 1993).

## APPENDIX A

### Calculation of FY 2025 Revenue Requirements and Pro-Rata Fees

Regulatory fees for the categories shaded in gray are collected by the Commission in advance to cover the term of the license and are submitted at the time the application is filed.

| Fee Category | FY 2025 Payment Units | Yrs | FY 2024 Revenue Estimate | Pro-Rated FY 2025 Revenue Require-ment | Computed FY 2025 Regulatory Fee | Rounded FY 2025 Reg. Fee | Expected FY 2025 Revenue |
|---|---|---|---|---|---|---|---|
| PLMRS (Exclusive Use) | 1,280 | 10 | 287,500 | 320,000 | 25 | 25 | 320,000 |
| PLMRS (Shared use) | 26,000 | 10 | 2,330,000 | 2,600,000 | 10 | 10 | 2,600,000 |
| Microwave | 10,400 | 10 | 4,125,000 | 2,600,000 | 25 | 25 | 2,600,000 |
| Marine (Ship) | 7,200 | 10 | 1,050,000 | 1,080,000 | 15 | 15 | 1,080,000 |
| Aviation (Aircraft) | 5,900 | 10 | 580,000 | 590,000 | 10 | 10 | 590,000 |
| Marine (Coast) | 360 | 10 | 112,000 | 144,000 | 40 | 40 | 144,000 |
| Aviation (Ground) | 380 | 10 | 54,000 | 76,000 | 20 | 20 | 76,000 |
| AM Class A[1] | 58 | 1 | 266,800 | 266,294 | 4,591 | 4,590 | 266,220 |
| AM Class B[1] | 1,332 | 1 | 3,308,175 | 3,316,402 | 2,489 | 2,490 | 3,316,680 |
| AM Class C[1] | 752 | 1 | 1,183,840 | 1,185,006 | 1,575 | 1,575 | 1,184,400 |
| AM Class D[1] | 1,288 | 1 | 3,915,375 | 3,924,988 | 3,047 | 3,045 | 3,921,960 |
| FM Classes A, B1 & C3[1] | 3,140 | 1 | 8,262,435 | 8,268,180 | 2,633 | 2,635 | 8,273,900 |
| FM Classes B, C, C0, C1 & C2[1] | 3,088 | 1 | 10,111,200 | 10,128,310 | 3,279 | 3,280 | 10,128,640 |
| AM Construction Permits[2] | 1 | 1 | 1,170 | 570 | 570 | 570 | 570 |
| FM Construction Permits[2] | 15 | 1 | 14,350 | 15,000 | 1,000 | 1000 | 15,000 |
| Digital Television[5] (including Satellite TV) | 3.508 billion population | 1 | 23,363,518 | 23,413,373 | 0.006674 | 0.006674 | 23,412,392 |
| Digital TV Construction Permits[2] | 8 | 1 | 26,000 | 41,600 | 5,200 | 5,200 | 41,600 |
| LPTV/Class A/Translators FM Trans/Boosters | 5,500 | 1 | 1,522,675 | 1,518,473 | 276 | 275 | 1,512,500 |
| CARS Stations | 100 | 1 | 191,625 | 194,577 | 1,945 | 1,945 | 194,500 |
| Cable TV Systems, including IPTV & DBS | 44,000,000 | 1 | 63,500,000 | 64,638,412 | 1.469 | 1.47 | 64,680,000 |
| Interstate Telecommunication Service Providers | $22,000,000,000 | 1 | 123,034,000 | 112,707,157 | 0.005125 | 0.005125 | 112,750,000 |

| **Difference** | | | **2,603,910** | **(89)** | | | **1,542,258** |

Notes on Appendix A

[1] The fee amounts listed in the column entitled "Rounded FY 2025 Reg. Fee" are the result of dividing the revenue requirement by the payment units of each radio class category. The actual FY 2025 regulatory fees for AM/FM radio station are listed on a grid located at the end of Appendix B.

[2] The AM and FM Construction Permit revenues and the full-power (VHF/UHF) Construction Permit revenues were adjusted, respectively, to set the regulatory fee to an amount no higher than the lowest licensed fee for that class of service based on the threshold 10,001-25,000, the traditional basis for identifying the lowest licensed fee. Reductions in the full-power (VHF/UHF) Construction Permit revenues, and in the AM and FM Construction Permit revenues, were offset by increases in the revenue totals for full-power television stations by market size, and in the AM and FM radio stations by class size and population served, respectively.

[3] The MDS/MMDS category was renamed Broadband Radio Service (BRS). *See Amendment of Parts 1,*

*21, 73, 74 and 101 of the Commission's Rules to Facilitate the Provision of Fixed and Mobile Broadband Access, Educational and Other Advanced Services in the 2150-2162 and 2500-2690 MHz Bands*, Report & Order and Further Notice of Proposed Rulemaking, 19 FCC Rcd 14165, 14169, para. 6 (2004).

[4] The chart at the end of Appendix B lists the submarine cable bearer circuit regulatory fees (common and non-common carrier basis) that resulted from the adoption of the *Assessment and Collection of Regulatory Fees for Fiscal Year 2008*, Report and Order and Further Notice of Proposed Rulemaking, 24 FCC Rcd 6388 (2008) and *Assessment and Collection of Regulatory Fees for Fiscal Year 2008*, Second Report and Order, 24 FCC Rcd 4208 (2009). The Submarine Cable fee in Appendix A is a weighted average of the various fee payers in the chart at the end of Appendix B.

[5] The actual full-power television regulatory fees to be paid by call sign are identified in Appendix F.

## APPENDIX B

## FY 2025 Schedule of Regulatory Fees

Regulatory fees for the categories shaded in gray are collected by the Commission in advance to cover the term of the license and are submitted at the time the application is filed.

| Fee Category | Annual Regulatory Fee (U.S. $s) |
|---|---|
| PLMRS (per license) (Exclusive Use) (47 CFR part 90) | 25 |
| Microwave (per license) (47 CFR part 101) | 25 |
| Marine (Ship) (per station) (47 CFR part 80) | 15 |
| Marine (Coast) (per license) (47 CFR part 80) | 40 |
| Rural Radio (47 CFR part 22) (previously listed under the Land Mobile category) | 10 |
| PLMRS (Shared Use) (per license) (47 CFR part 90) | 10 |
| Aviation (Aircraft) (per station) (47 CFR part 87) | 10 |
| Aviation (Ground) (per license) (47 CFR part 87) | 20 |
| CMRS Mobile/Cellular Services (per unit) (47 CFR parts 20, 22, 24, 27, 80 and 90) (Includes Non-Geographic telephone numbers) | 0.16 |
| CMRS Messaging Services (per unit) (47 CFR parts 20, 22, 24 and 90) | 0.08 |
| Broadband Radio Service (formerly MMDS/ MDS) (per license) (47 CFR part 27) | 760 |
| Local Multipoint Distribution Service (per call sign) (47 CFR, part 101) | 760 |
| AM Radio Construction Permits | 570 |
| FM Radio Construction Permits | 1000 |
| AM and FM Broadcast Radio Station Fees | See Table Below |
| Digital TV (47 CFR part 73) VHF and UHF Commercial Fee Factor | $0.006674<br>See Appendix F for fee amounts due, also available at https://www.fcc.gov/licensing-databases/fees/regulatory-fees |
| Digital TV Construction Permits | 5,200 |

| Fee Category | Annual Regulatory Fee (U.S. $s) |
|---|---|
| Low Power TV, Class A TV, TV/FM Translators & FM Boosters (47 CFR part 74) | 275 |
| CARS (47 CFR part 78) | 1,945 |
| Cable Television Systems (per subscriber) (47 CFR part 76), Including IPTV and Direct Broadcast Satellite (DBS) | 1.47 |
| Interstate Telecommunication Service Providers (per revenue dollar) | 0.005125 |
| Toll Free (per toll free subscriber) (47 CFR section 52.101 (f) of the rules) | 0.10 |
| Earth Stations: Transmit/Receive & Transmit only (per authorization or registration) | 2,060 |
| Space Stations (per authorized station in geostationary orbit) (47 CFR part 25) | 141,790 |
| Space Stations (per authorized system in non-geostationary orbit) (47 CFR part 25) – Small Constellation (fewer than 1000 authorized space stations) | 375,140 |
| Space Stations (per authorized system in non-geostationary orbit) (47 CFR part 25) – Large Constellation (1000 or more authorized space stations) | 1,917,390 |
| Space Stations (per license/call sign in non-geostationary orbit) (47 CFR part 25) (Small Satellite) | 12,330 |
| International Bearer Circuits - Terrestrial/Satellites (per Gbps circuit) | 14 |
| Submarine Cable Landing Licenses Fee (per cable system) | See Table Below |

| **1,200,001 – 3,000,000** | $6,915 | $4,980 | $4,330 | $4,750 | $7,600 | $8,665 |
| **3,000,001 – 6,000,000** | $10,365 | $7,460 | $6,490 | $7,120 | $11,390 | $12,985 |
| **>6,000,000** | $15,550 | $11,195 | $9,740 | $10,680 | $17,090 | $19,485 |

**FY 2025 International Bearer Circuits - Submarine Cable Systems**

| **Submarine Cable Systems (capacity as of December 31, 2024)** | **Fee Ratio** | **FY 2025 Regulatory Fees** |
|---|---|---|
| Less than 50 Gbps | .0625 Units | $5,510 |
| 50 Gbps or greater, but less than 250 Gbps | .125 Units | $11,015 |
| 250 Gbps or greater, but less than 1,500 Gbps | .25 Units | $22,030 |
| 1,500 Gbps or greater, but less than 3,500 Gbps | .5 Units | $44,065 |
| 3,500 Gbps or greater, but less than 6,500 Gbps | 1.0 Unit | $88,130 |
| 6,500 Gbps or greater | 2.0 Units | $176,260 |

## APPENDIX C

### Sources Of Payment Unit Estimates For FY 2025

In order to calculate individual service fees for FY 2025, we adjusted FY 2024 payment units for each service to more accurately reflect expected FY 2025 payment liabilities. We obtained our updated estimates through a variety of means and sources. For example, we used Commission licensee databases, actual prior year payment records, and industry and trade association projections, where available. The databases we consulted include our Universal Licensing System (ULS), International Bureau Filing System (IBFS), Licensing and Management System (LMS), and Cable Operations and Licensing System (COALS), as well as reports generated within the Commission such as the Wireless Telecommunications Bureau's *Numbering Resource Utilization Forecast*. Regulatory fee payment units are not all the same for all fee categories. For most fee categories, the term "units" reflect licenses or permits that have been issued, but for other fee categories, the term "units" reflect quantities such as subscribers, population counts, circuit counts, telephone numbers, and revenues. As more current data are received after the *NPRM* is released, the Commission sometimes adjusts the NPRM fee rates to reflect the new information in the *Report and Order*. This is intended to make sure that the fee rates in the *Report and Order* reflect more recent and accurate information. We realize that by adjusting the unit counts as more accurate information is received may adjust the fee rates for certain regulatory fee categories. Certain entities that collect the fees from customers in advance in order to pay the Commission, such as Cable and DBS companies, ITSP providers, Cell Phone and Toll-Free providers, may need to adjust their billings to customers as the Commission adjusts its fee rates. As a result, the Commission understands that these adjustments are necessary so that these regulatees can recover their fee obligations from their customers.

We sought verification for these estimates from multiple sources and, in all cases, we compared FY 2025 estimates with actual FY 2024 payment units to ensure that our revised estimates were reasonable. Where appropriate, we adjusted and/or rounded our final estimates to take into consideration the fact that certain variables that impact on the number of payment units cannot yet be estimated with sufficient accuracy. These include an unknown number of waivers and/or exemptions that may occur in FY 2025 and the fact that, in many services, the number of actual licensees or station operators fluctuates over time due to economic, technical, or other reasons. When we note, for example, that our estimated FY 2025 payment units are based on FY 2024 actual payment units, it does not necessarily mean that our FY 2025 projection is exactly the same number as in FY 2024. We have either rounded the FY 2025 number or adjusted it slightly to account for these variables.

| FEE CATEGORY | SOURCES OF PAYMENT UNIT ESTIMATES |
|---|---|
| Land Mobile (All), Microwave, Marine (Ship & Coast), Aviation (Aircraft & Ground), Domestic Public Fixed | Based on Wireless Telecommunications Bureau (WTB) information as well as prior year payment information. Estimates have been adjusted to take into consideration the licensing of portions of these services. |
| CMRS Cellular/Mobile Services | Based on WTB projection reports, and FY 2024 payment data. |
| CMRS Messaging Services | Based on WTB reports, and FY 2024 payment data. |
| AM/FM Radio Stations | Based on downloaded LMS data, adjusted for exemptions, and actual FY 2024 payment units. |

| FEE CATEGORY | SOURCES OF PAYMENT UNIT ESTIMATES |
|---|---|
| Digital TV Stations (Combined VHF/UHF units) | Based on LMS data, fee rate adjusted for exemptions, and population figures are calculated based on individual station parameters. |
| AM/FM/TV Construction Permits | Based on LMS data, adjusted for exemptions, and actual FY 2024 payment units. |
| LPTV, Translators and Boosters, Class A Television | Based on LMS data, adjusted for exemptions, and actual FY 2024 payment units. |
| BRS (formerly MDS/MMDS) | Based on WTB reports and actual FY 2024 payment units. |
| LMDS | Based on WTB reports and actual FY 2024 payment units. |
| Cable Television Relay Service (CARS) Stations | Based on cable trend data, data from the Media Bureau's COALS database, and actual FY 2024 payment units. |
| Cable Television System Subscribers, Including IPTV Subscribers | Based on publicly available data sources for estimated subscriber counts, trend information from past payment data, and actual FY 2024 payment units. |
| Interstate Telecommunication Service Providers | Based on FCC Form 499-A worksheets due in April 2025, and any data assistance provided by the Wireline Competition Bureau. |
| Earth Stations | Based on Space Bureau licensing data and actual FY 2024 payment units. |
| Space Stations (GSOs & NGSOs) | Based on Space Bureau data reports and actual FY 2024 payment units. |
| International Bearer Circuits | Based on assistance provided by the Office of International Affairs, any data submissions by licensees, adjusted as necessary, and actual FY 2024 payment units. |
| Submarine Cable Licenses | Based on Office of International Affairs license information, and actual FY 2024 payment units. |

## APPENDIX D

## Factors, Measurements, And Calculations That Determine Signal Contours And Associated Population Coverages

### AM Stations

For stations with nondirectional daytime antennas, the theoretical radiation was used at all azimuths. For stations with directional daytime antennas, specific information on each day tower, including field ratio, phase, spacing, and orientation was retrieved, as well as the theoretical pattern root-mean-square of the radiation in all directions in the horizontal plane (RMS) figure (milliVolt per meter (mV/m) @ 1 km) for the antenna system. The standard, or augmented standard if pertinent, horizontal plane radiation pattern was calculated using techniques and methods specified in sections 73.150 and 73.152 of the Commission's rules. Radiation values were calculated for each of 360 radials around the transmitter site. Next, estimated soil conductivity data was retrieved from a database representing the information in FCC Figure R3. Using the calculated horizontal radiation values, and the retrieved soil conductivity data, the distance to the principal community (5 mV/m) contour was predicted for each of the 360 radials. The resulting distance to principal community contours were used to form a geographical polygon. Population counting was accomplished by determining which 2020 block centroids were contained in the polygon. (A block centroid is the center point of a small area containing population as computed by the U.S. Census Bureau.) The sum of the population figures for all enclosed blocks represents the total population for the predicted principal community coverage area.

### FM Stations

The greater of the horizontal or vertical effective radiated power (ERP) (kW) and respective height above average terrain (HAAT) (m) combination was used. Where the antenna height above mean sea level (HAMSL) was available, it was used in lieu of the average HAAT figure to calculate specific HAAT figures for each of 360 radials under study. Any available directional pattern information was applied as well, to produce a radial-specific ERP figure. The HAAT and ERP figures were used in conjunction with the Field Strength (50-50) propagation curves specified in 47 CFR § 73.313 of the Commission's rules to predict the distance to the principal community (70 dBu (decibel above 1 microVolt per meter) or 3.17 mV/m) contour for each of the 360 radials. The resulting distance to principal community contours were used to form a geographical polygon. Population counting was accomplished by determining which 2020 block centroids were contained in the polygon. The sum of the population figures for all enclosed blocks represents the total population for the predicted principal community coverage area.

## APPENDIX G

## FY 2024 Regulatory Fees

Regulatory fees for the categories shaded in gray are collected by the Commission in advance to cover the term of the license and are submitted at the time the application is filed.

| Fee Category | Annual Regulatory Fee (U.S. $s) |
|---|---|
| PLMRS (per license) (Exclusive Use) (47 CFR part 90) | 25 |
| Microwave (per license) (47 CFR part 101) | 25 |
| Marine (Ship) (per station) (47 CFR part 80) | 15 |
| Marine (Coast) (per license) (47 CFR part 80) | 40 |
| Rural Radio (47 CFR part 22) (previously listed under the Land Mobile category) | 10 |
| PLMRS (Shared Use) (per license) (47 CFR part 90) | 10 |
| Aviation (Aircraft) (per station) (47 CFR part 87) | 10 |
| Aviation (Ground) (per license) (47 CFR part 87) | 20 |
| CMRS Mobile/Cellular Services (per unit) (47 CFR parts 20, 22, 24, 27, 80 and 90) (Includes Non-Geographic telephone numbers) | .16 |
| CMRS Messaging Services (per unit) (47 CFR parts 20, 22, 24 and 90) | .08 |
| Broadband Radio Service (formerly MMDS/ MDS) (per license) (47 CFR part 27) | 725 |
| Local Multipoint Distribution Service (per call sign) (47 CFR, part 101) | 725 |
| AM Radio Construction Permits | 585 |
| FM Radio Construction Permits | 1,025 |
| AM and FM Broadcast Radio Station Fees | See Table Below |
| Full Power TV (47 CFR part 73) VHF and UHF Commercial Fee Factor | $.006598<br>See Appendix G for fee amounts due, also available at https://www.fcc.gov/licensing-databases/fees/regulatory-fees |
| Full Power TV Construction Permits | 5,200 |

| Fee Category | Annual Regulatory Fee (U.S. $s) |
|---|---|
| Low Power TV, Class A TV, TV/FM Translators & FM Boosters (47 CFR part 74) | 245 |
| CARS (47 CFR part 78) | 1,825 |
| Cable Television Systems (per subscriber) (47 CFR part 76), Including IPTV and Direct Broadcast Satellite (DBS) | 1.27 |
| Interstate Telecommunication Service Providers (per revenue dollar) | .005420 |
| Toll Free (per toll free subscriber) (47 CFR section 52.101 (f) of the rules) | .12 |
| Earth Stations (47 CFR part 25) | 2,610 |
| Space Stations (per operational station in geostationary orbit) (47 CFR part 25) also includes DBS Service (per operational station) (47 CFR part 100) | 144,155 |
| Space Stations (per operational system in non-geostationary orbit) (47 CFR part 25) (Other) | 964,200 |
| Space Stations (per operational system in non-geostationary orbit) (47 CFR part 25) (Less Complex) | 441,925 |
| Space Stations (per license/call sign in non-geostationary orbit) (47 CFR part 25) (Small Satellite) | 12,215 |
| International Bearer Circuits - Terrestrial/Satellites (per Gbps circuit) | $17 |
| Submarine Cable Landing Licenses Fee (per cable system) | See Table Below |

| FY 2024 RADIO STATION REGULATORY FEES | | | | | | |
|---|---|---|---|---|---|---|

|---|---|---|
| Less than 50 Gbps | .0625 Units | $5,570 |
| 50 Gbps or greater, but less than 250 Gbps | .125 Units | $11,140 |
| 250 Gbps or greater, but less than 1,500 Gbps | .25 Units | $22,275 |
| 1,500 Gbps or greater, but less than 3,500 Gbps | .5 Units | $44,550 |
| 3,500 Gbps or greater, but less than 6,500 Gbps | 1.0 Unit | $89,095 |
| 6,500 Gbps or greater | 2.0 Units | $178,190 |

## APPENDIX H

## Final Regulatory Flexibility Analysis

1. As required by the Regulatory Flexibility Act of 1980, as amended (RFA),[1] the Federal Communications Commission (Commission) incorporated an Initial Regulatory Flexibility Analysis (IRFA) in the *Review of the Commission's Assessment and Collection of Regulatory Fees for Fiscal Year 2025*, released in June 2025.[2] The Commission sought written public comment on the proposals in the *FY 2025 NPRM*, including comment on the IFRA. No comments were filed addressing the IRFA. This Final Regulatory Flexibility Analysis (FRFA) conforms to the RFA and it (or summaries thereof) will be published in the Federal Register.[3]

### A. Need for, and Objectives of, the Report and Order

2. In the FY 2025 Report and Order, the Commission adopts a regulatory fee schedule to meet its objective of fully complying with its congressionally mandated requirement of collecting regulatory fees for fiscal year (FY) 2025. For FY 2025, the Commission is required to collect $390,192,000 in regulatory fees, an amount equal to the Commission's annual salaries and expenses appropriation, pursuant to section 9 of the Communications Act of 1934, as amended (Communications Act or Act),[4] and the Commission's FY 2025 Further Consolidation Appropriations Act.[5] The Commission's methodology for assessing regulatory fees must "reflect the full-time equivalent number of employees within the bureaus and offices of the Commission, adjusted to take into account factors that are reasonably related to the benefits provided to the payor of the fee by the Commission's activities."[6] The total amount the Commission must collect in an offsetting collection generally changes each fiscal year, and payors' regulatory fees will also typically change each fiscal year as a mathematical consequence of the changes in the total amount to be collected, the number of full-time equivalents (FTEs), and projected unit estimates for each regulatory fee category.

3. In the *FY 2025 NPRM*, the Commission sought comment on several regulatory fee issues, including: (i) the proposed regulatory fees and methodology for FY 2025, as set forth in Appendices A, B, and E; (ii) the calculation of television broadcaster regulatory fees as set forth in Appendix F; and (iii) whether any new regulatory fee categories or processes will improve its ability to meet its statutory

[1] 5 U.S.C. §§ 601 *et seq*., as amended by the Small Business Regulatory Enforcement and Fairness Act (SBREFA), Pub. L. No. 104-121, 110 Stat. 847 (1996).

[2] *Review of the Commission's Assessment and Collection of Regulatory Fees for Fiscal Year 2025*, MD Docket No. 24-86, Notice of Proposed Rulemaking, FCC 25-30 (rel. June 5, 2025) (*FY 2025 NPRM*).

[3] 5 U.S.C. § 604.

[4] 47 U.S.C. § 159 (requiring the Commission to assess and collect regulatory fees to recover the costs of carrying out its activities in the total amounts provided for in Appropriations Acts).

[5] The regulatory fee collection is guided by both the statutory authority in sections 6 and 9 of the Communications Act, 47 U.S.C. §§ 156, 159, and the explicit language of each fiscal year's S&E appropriation directing the amount to be collected as an offsetting collection. Section 1101(a) of *DIVISION A—Full-Year Continuing Appropriations Act, 2025,* of *H.R.1968 - Full-Year Continuing Appropriations and Extensions Act, 2025*, Pub. L. No. 119-4 (Mar. 15, 2025) appropriates "such amounts as may be necessary, at the level specific in subsection (c) and under the authority and conditions provided in applicable appropriations Acts for fiscal year 2024, for projects or activities that are not otherwise specifically provided for, and for which appropriations, funds, or other authority were made available in the following appropriations Acts: . . . ." Subsection 1101(a)(5), in turn, lists the "division B of Public Law 118-47" which contains the FCC's S&E FY 2024 appropriation. Subsection (b) provides that "level" means amount. Accordingly, the FCC's FY 2025 S&E appropriation is in the amount contained in our FY 2024 appropriation. *See* Further Consolidation Appropriations Act, 2024, Pub. L. No. 118-47, Division B—Financial Services and General Government Appropriations Act, 2024 (FY 2024 Consolidated Appropriations Act).

[6] 47 U.S.C. § 159(d).

obligations to assess and collect regulatory fees. For FY 2025, the Commission adopts, with modification, the regulatory fee schedule set forth in Appendices A and B to the Report and Order.

### B. Summary of Significant Issues Raised by Public Comments in Response to the IRFA

4. Although not specifically filed in response to the IRFA, comments were filed addressing the impact of the proposed rulemaking by small satellite and constellation entities Telesat Corporation, Iridium Communications, Inc., and Kinéis, arguing that the Commission should revisit its recent determinations regarding the targeted amendments it will implement to the methodology we use to assess regulatory fees for space and earth stations.[7] Additionally, although they also were not filed in response to the IRFA, two commenters, NAB and Telesat, submitted proposals suggesting that the Commission should consider adopting new fee categories, arguing that fairness requires the Commission to expand regulatory fee categories to include additional entities that utilize, and are beneficiaries of Commission resources, but are not currently assessed regulatory fees. The proposals regarding new fee categories were supported by Iridium and the States Broadcasters Association, but strongly opposed by other commenters, including CTIA, the Wi-Fi Alliance, Kinéis, NCTA, TIA and the CTA. In section F below, we address these comments.

### C. Response to Comments by the Chief Counsel for Advocacy of the Small Business Administration

5. Pursuant to the Small Business Jobs Act of 2010, which amended the RFA,[8] the Commission is required to respond to any comments filed by the Chief Counsel for Advocacy of the Small Business Administration (SBA), and provide a detailed statement of any change made to the proposed rules as a result of those comments.[9] The Chief Counsel did not file any comments in response to the proposed rules in this proceeding.

### D. Description and Estimate of the Number of Small Entities to Which the Rules Will Apply

6. The RFA directs agencies to provide a description of, and where feasible, an estimate of the number of small entities that may be affected by the rules adopted herein.[10] The RFA generally defines the term "small entity" as having the same meaning as under the Small Business Act.[11] In addition, the term "small business" has the same meaning as the term "small business concern" under the Small Business Act."[12] A "small business concern" is one which: (1) is independently owned and operated; (2) is not dominant in its field of operation; and (3) satisfies any additional criteria established by the SBA.[13]

7. Our actions, over time, may affect small entities that are not easily categorized at present. We therefore describe, at the outset, three broad groups of small entities that could be directly affected

[7] Telesat Comments 3, 12-17; Iridium Reply at 4; Kinéis Reply at 3-4.

[8] Small Business Jobs Act of 2010, Pub. L. No. 111-240, 124 Stat. 2504 (2010).

[9] 5 U.S.C. § 604 (a)(3).

[10] *Id.* § 604 (a)(4).

[11] *Id.* § 601(6).

[12] *Id*. § 601(3) (incorporating by reference the definition of "small-business concern" in the Small Business Act, 15 U.S.C. § 632). Pursuant to 5 U.S.C. § 601(3), the statutory definition of a small business applies "unless an agency, after consultation with the Office of Advocacy of the Small Business Administration and after opportunity for public comment, establishes one or more definitions of such term which are appropriate to the activities of the agency and publishes such definition(s) in the Federal Register."

[13] 15 U.S.C. § 632.

herein.[14] In general, a small business is an independent business having fewer than 500 employees.[15] These types of small businesses represent 99.9% of all businesses in the United States, which translates to 34.75 million businesses.[16] Next, "small organizations" are not-for-profit enterprises that are independently owned and operated and not dominant their field.[17] While we do not have data regarding the number of non-profits that meet that criteria, over 99 percent of nonprofits have fewer than 500 employees.[18] Finally, "small governmental jurisdictions" are defined as cities, counties, towns, townships, villages, school districts, or special districts with populations of less than fifty thousand.[19] Based on the 2022 U.S. Census of Governments data, we estimate that at least 48,724 out of 90,835 local government jurisdictions have a population of less than 50,000.[20]

8. The rules adopted in the *Report and Order* will apply to small entities in the industries identified in the chart below by their six-digit North American Industry Classification System[21] codes and corresponding SBA size standard.[22]

| **Regulated Industry (NAICS Classification)** | **NAICS Code** | **SBA Size Standard** | **Total Firms**[23] | **Small Firms**[24] | **% Small Firms in Industry** |
|---|---|---|---|---|---|
| All Other Telecommunications | 517810 | $40 million | 1,079 | 1,039 | 96.29 |
| Other Services Related to Advertising[25] | 541890 | $19 million | 5,650 | 3,693 | 65.36 |
| Other Management Consulting Services[26] | 541618 | $19 million | 4,696 | 3,700 | 34.78 |
| Radio Stations | 516110 | $47 million | 2,963 | 1,879 | 63.42 |

| Wireless Telecommunications Carriers (except Satellite)[34] | 585 | 498 | 85.13 |

10. *Cable Companies and Systems (Rate Regulation).* The Commission has developed its own small business size standard for the purpose of cable rate regulation. Under the Commission's rules, a "small cable company" is one serving 400,000 or fewer subscribers nationwide.[35] Based on industry data, there are about 420 cable companies in the U.S.[36] Of these, only seven have more than 400,000 subscribers.[37] In addition, under the Commission's rules, a "small system" is a cable system serving 15,000 or fewer subscribers.[38] Based on industry data, there are about 4,139 cable systems (headends) in the U.S.[39] Of these, about 639 have more than 15,000 subscribers.[40] Accordingly, the Commission estimates that the majority of cable companies and cable systems are small under this size standard.

11. *Cable System Operators (Telecom Act Standard).* The Communications Act of 1934, as amended, contains a size standard for a "small cable operator," which is "a cable operator that, directly or through an affiliate, serves in the aggregate fewer than one percent of all subscribers in the United States and is not affiliated with any entity or entities whose gross annual revenues in the aggregate exceed $250,000,000."[41] For purposes of the Telecom Act Standard, the Commission determined that a cable system operator that serves fewer than 498,000 subscribers, either directly or through affiliates, will meet the definition of a small cable operator.[42] Based on industry data, only six cable system operators have

[33] Local Resellers fall into another U.S. Census Bureau industry (Telecommunications Resellers) and therefore data for these providers is not included in this industry.

[34] Affected Entities in this industry include all reporting wireless carriers and service providers.

[42] *FCC Announces Updated Subscriber Threshold for the Definition of Small Cable Operator*, Public Notice, DA 23-906 (MB 2023) (*2023 Subscriber Threshold PN*). In this Public Notice, the Commission determined that there were approximately 49.8 million cable subscribers in the United States at that time using the most reliable source publicly available. *Id*. This threshold will remain in effect until the Commission issues a superseding Public Notice. *See* 47 CFR § 76.901(e)(1).

more than 498,000 subscribers.[43] Accordingly, the Commission estimates that the majority of cable system operators are small under this size standard.

12. *Direct Broadcast Satellite (DBS) Service*. According to Commission data, only two entities provide DBS service, DIRECTV (owned by AT&T) and DISH Network, which require a great deal of capital for operation.[44] DIRECTV and DISH Network both exceed the SBA size standard for classification as a small business.

| **Broadcast Entities (as of June 30, 2025)** | **SBA Size Standard ($47 Million)** | | |
|---|---|---|---|
| **Affected Entity** | **# Commercial Licensed**[45] [46] | **Small Firms**[47] | **% Small Entities** |

| Television Stations | 1,384 | 1,289 | 93.1 |

### E. Description of Economic Impact and Projected Reporting, Recordkeeping, and Other Compliance Requirements for Small Entities

13. The RFA directs agencies to describe the economic impact of proposed rules on small entities, as well as projected reporting, recordkeeping and other compliance requirements, including an estimate of the classes of small entities which will be subject to the requirement and the type of professional skills necessary for preparation of the report or record.[48]

14. The *Report and Order* does not adopt any changes to the Commission's reporting, recordkeeping, or other compliance requirements for collecting regulatory fees from regulatees. Small and other regulated entities are required to pay regulatory fees on an annual basis. The cost of compliance with the annual regulatory assessment for small entities is the amount assessed for their regulatory fee category, based upon the methodology employed by the Commission in FY 2025 to determine the allocation of direct FTEs within the core bureaus, and indirect FTEs in non-core bureaus and offices.

15. In the *Report and Order*, the Commission adopts the FY 2025 targeted amendments to the regulatory fee methodology adopted in the *FY 2024 Third Report and Order*, expanding the assessment of fees to include authorized—not just operational—space stations. This change broadens the fee base for GSO (Geostationary Orbit) and NGSO (Non-Geostationary Orbit) space station licensees and ensures more equitable cost recovery from all licensees and grantees that benefit from for the Space Bureau's licensing and regulatory activities. Nevertheless, while some small space station regulatees may

[46] *Id.* There were also 4,689 licensed noncommercial (NCE) FM radio stations, 1,977 low power FM (LPFM) stations, 8,880 FM translators and boosters, 383 licensed noncommercial educational (NCE) television stations, 383 Class A TV stations, 1,780 LPTV stations and 3,094 TV translator stations.

[47] In 2024, according to Commission staff review of the BIA Kelsey Inc. Media Access Pro Television Database (BIA) on July 8, 2025.

[48] *Id*. § 604(a)(5).

see a decrease in their assessment fee, other small space station regulatees that may not have been assessed regulatory fees under the prior methodology will now be subject to regulatory fee payment compliance obligation and may have to hire professionals to comply. Small station regulatees that have previously paid regulatory fees should not require professional assistance to comply, as they are generally familiar with the Commission's current collection procedures.

16. Small entities facing financial hardship from the regulatory assessments adopted in the *Report and Order* may qualify for fee relief through waivers, reductions, deferrals, or installment payments. Additionally, small entities may be exempt from regulatory fees if the assessed amount falls below the Commission's established de minimis threshold.

### F. Discussion of Steps Taken to Minimize the Significant Economic Impact on Small Entities, and Significant Alternatives Considered

17. The RFA requires an agency to provide, "a description of the steps the agency has taken to minimize the significant economic impact on small entities … including a statement of the factual, policy, and legal reasons for selecting the alternative adopted in the final rule and why each one of the other significant alternatives to the rule considered by the agency which affect the impact on small entities was rejected."[49]

18. In response to the *FY 2025 NPRM*, the Commission received comments proposing alternatives to various elements of the methodology for assessing regulatory fees, the FY 2025 regulatory fee schedule, as well as proposals advocating the adoption of new fee categories for the collection of regulatory fees. After considering those comments and the Commission's precedent, the regulatory fees adopted in the *Report and Order* reflect the Commission's efforts to minimize significant economic impact on small entities when practicable. Below is a discussion of some of the steps the Commission has taken in the *Report and Order* and alternative proposals it considered in reaching its conclusions.

19. *Assessment of Regulatory Fees.* For FY 2025, we employ the same long-standing methodology as the Commission has applied in FY 2023 and 2024 as well as targeted amendments the Commission adopted in June 2025 to the methodology we use to assess regulatory fees for space and earth stations. However, we conclude as the Commission did in FY 2023 and 2024, that the work of certain FTEs located in the Office of General Counsel, the Office of Economics and Analytics, and the Public Safety and Homeland Security Bureau merits reallocation as direct FTEs to a core bureau. Based on the results of our staff's high-level evaluation of the work conducted within the Commission, we conclude that certain indirect FTEs could be reassigned as direct FTEs, and we incorporate these into the count of FTEs of the relevant core bureau for purposes of calculating regulatory fees for FY 2025, which could reduce regulatory fee obligations for some small and other regulatory fee payees.

20. In the *Report and Order*, we also considered and rejected the alternatives proposed by commenters, including Telesat, Iridium, Kinéis, regarding the targeted amendments the Commission adopted in June 2025 to the methodology we use to assess regulatory fees for space and earth stations as well as the proposals of NAB and Telesat, supported by Iridium and the State Broadcasters Associations, proposing to adopt new regulatory fee categories to include broadband service providers, experimental license holders, equipment authorization holders, and database administrators for unlicensed services as new categories of payors.[50] For the reasons discussed below, the Commission declines to adopt any of these new fee payor categories which would impose new economic burdens on small entities in these categories.

21. For each of the suggested new categories of payors, commenters proposing or supporting these additions failed to provide with specificity the entities that would be included in the new categories,

[49] *Id*. § 604(a)(6).

[50] Telesat Comments at 3; NAB Comments at 5; *see also* Iridium Reply at 4 (offering that NAB and Telesat are correct that the "Commission should start a comprehensive review of what entities should be subject to regulatory fees based on the costs and benefits received from Commission regulation of their operations").

the factors the Commission would use to make such a determination, new information to justify the new categories, and a framework for administration of these new categories within the Commission's current regulatory fee assessment methodology. More specifically, Telesat, NAB, nor Iridium provided specific examples of the FTE burden it associates with the oversight and regulation of the unidentified additional entities, or any new evidence to support assessing regulatory fees for the proposed new categories. Additionally, some of the comments and proposals seek to revisit matters the Commission recently resolved.

22. For example, the Commission addressed the assessment of regulatory fees on broadband service providers last year concluding that "creating a new regulatory fee category for broadband Internet access services appears to be redundant with existing fee categories in the case of those broadband Internet access service providers that otherwise already were subject to the existing fee categories, and thus a new fee category in this regard is not administrable at this time."[51] Similarly, the comments and alternatives proposed by Kuiper and Kinéis attempt to revisit recent Commission space station regulatory fee methodology determinations. Kuiper advocates for a change to the 60-40% allocation of NGSO space station FTEs between small and large NGSO constellations the Commission adopted in the *FY 2024 Second Report and Order*,[52] to allocate a larger share of FTE burdens to small constellations.[53] Kinéis seeks to carve out licensees with conditional authorization from regulatory fee assessments which the Commission determined in the *FY 2024 Third Report and Order* would be based on authorized stations, rather than operational space stations.[54] Kinéis requests that the Commission interpret "authorized stations" solely as stations "that have received unconditional permission to provide service without the need for further agency action."[55]

23. Based on the record, there is no basis for the Commission to conclude that adopting any new fee categories would align with the factors the Commission has previously considered for establishing a new regulatory fee category.[56] Likewise, there is no basis for the Commission to revisit recent regulatory assessment methodology fee determinations, or to change existing regulatory fee assessment methodologies discussed herein.

24. *Broadcast Regulatory Fees.* In the *Report and Order*, the Commission did not receive any comments on the *FY 2025 NPRM* proposals for full-power broadcast stations regulatory fee assessments, and thereforecontinues to assess fees for full-power broadcast television stations based on the population covered by a full-service broadcast television station's contour, which may reduce the economic impact of the regulatory fees for some small licensees. While the population-based methodology used to calculate full-power broadcast television station regulatory fees decreases fees for some licensees and increases fees for others, the Commission believes the population-based metric better conforms with the service of broadcasting television to the American people.

**MEMORANDUM OPINION AND ORDER**

**Adopted: September 2, 2025** **Released: September 2, 2025**

By the Commission:

## I. INTRODUCTION

1. The Commission has before it for comparative consideration and review three groups of mutually exclusive (MX) applications for new Low Power FM (LPFM) station construction permits.[1] By this Memorandum Opinion and Order (Order), we grant one application in LPFM MX Group 39 and use a point system to tentatively select new applications for grant in LPFM MX Groups 60 and 86. Petitions to deny the applications of the new tentative selectees in LPFM MX Groups 60 and 86 must be filed within 30 days of release date of this Order.[2]

2. The Commission previously resolved the conflicting LPFM proposals in LPFM MX Groups 39, 60, and 86 by applying the comparative procedures codified in section 73.872 of the Commission's rules (Rules)[3] and tentatively selected applications for grant. These actions now require additional analysis as a result of subsequent challenges.

## II. BACKGROUND

3. The LPFM MX Groups 39, 60, and 86 applications were filed in December 2023, during the most recent filing window for new LPFM applications.[4] The applicants had an opportunity to enter into settlement agreements to resolve mutual exclusivity and/or to submit technical amendments to

[1] On March 15, 2024, the Media Bureau (Bureau) issued a public notice identifying 109 groups of mutually exclusive LPFM applications. *See Media Bureau Identifies Groups of Mutually Exclusive Applications Submitted in the December 2023, LPFM Filing Window; Opens Window To Accept Settlements and Technical Amendments,* Public Notice, 39 FCC Rcd 2355 (MB 2024) (*Settlement Public Notice*). The Commission subsequently used a point system to tentatively select applications from 93 MX groups for grant. *See Commission Identifies Tentative Selectees in 93 Groups of Mutually Exclusive Applications Submitted in the December 2023, LPFM Filing Window; Announces a 30-Day Petition to Peny Period, 90-Day Period to File Voluntary Time-Share Proposals, and a 60-Day Period to File Major Change Amendments,* Public Notice, FCC 24-113, 2024 WL 4526638 (Oct. 16, 2024) *(Tentative Selectee Public Notice*). Each group analyzed herein was included in the *Tentative Selectee Public Notice.*

[2] *See* 47 CFR § 73.870(d).

[3] *See id*. § 73.872.

[4] *See Media Bureau Announces Filing Procedures and Requirements for November 1 – November 8, 2023, Low Power FM Filing Window*, Public Notice, 38 FCC Rcd 6660 (MB 2023) (*Procedures Public Notice*). Based on a request from LPFM advocates, the Bureau subsequently delayed the window until December 6, 2023. *Media Bureau Announces Revised Dates for LPFM New Station Application Filing Window*, Public Notice, 38 FCC Rcd 9589 (MB 2023). The Bureau subsequently extended the close of the window until December 15, 2023. *Media Bureau Announces Extension of LPFM New Station Application Filing Window*, Public Notice, 38 FCC Rcd 11882 (MB 2023).

resolve conflicts and expedite the grant of applications filed in the LPFM Window.[5] The Commission subsequently resolved LPFM MX Groups 39, 60, and 86 by comparing the applications under the LPFM point system,[6] which is a simplified, "paper hearing" process for selecting among mutually exclusive LPFM applications.[7] The Commission's comparative review of MX applications is based on applicant provided information.[8] To expedite the licensing of new LPFM stations, the Commission relies on applicant certifications and documentation and generally does not independently confirm their accuracy during the review process. Rather, the Bureau and the Commission rely on the petition to deny process to verify the accuracy of the points claimed and certifications.[9]

4. After applying these procedures, the Commission tentatively selected applications for grant from LPFM MX Groups 39, 60, and 86 and initiated a 30-day period for filing petitions to deny, a 90-day period to file voluntary time-share proposals, and a 60-day period to file major change amendments.[10] In this Order, we address informal objections challenging our point system analysis in LPFM MX Groups 39 and 60, and a petition to deny our point system analysis in LPFM MX Group 86.

## III. DISCUSSION

### A. LPFM MX Group 39

5. *Background.* This group consists of two applications proposing service to Des Moines, Iowa: CPC of the WMM USA-Des Moines, IA-One Inc. (CPC), and Climate March (Climate).[11] The Bureau identified the CPC and Climate applications as LPFM MX Group 39.[12] The Commission subsequently awarded both applications five comparative points and identified CPC and Climate as the tentative selectees of the group on a time-sharing basis.[13]

6. CPC claimed a point in its initial application for pledging to maintain a publicly accessible main studio that has local origination capability, is reachable by telephone, is staffed at least 20 hours per week between 7 a.m. and 10 p.m., and is located within 16.1 km (10 miles) of the station's proposed transmitting antenna site for applicants in the top 50 urban markets and within 32.1 km (20

[5] *See Settlement Public Notice*; *see also Media Bureau Provides Further Guidance on Settlement Window for Mutually Exclusive Applications Submitted in the December 2023, LPFM Filing Window*, Public Notice, DA 24-288, 2024 WL 1298572 (MB Mar. 22, 2024) (clarifying that MX applicants may also submit time-share agreements to resolve conflicts).

[6] 47 CFR § 73.872. The LPFM point system awards a maximum of six merit points, based on six criteria, with one point awarded under each criterion: (1) established community presence of at least two years; (2) commitment to originate local programming; (3) commitment to maintain a main studio; (4) commitment both to originate local programming and to maintain a main studio; (5) diversity of ownership; and (6) Tribal applicants serving Tribal lands.

[8] *See Tentative Selectee Public Notice* at *3.

[9] *See id.* at *3 n.27; *Reexamination of the Comparative Standards and Procedures for Licensing Noncommercial Educational Broadcast Stations and Low Power FM Stations*, Notice of Proposed Rulemaking, MB Docket No. 19-3, 34 FCC Rcd 851, 854, para. 6 (2019).

[10] *Tentative Selectee Public Notice* at *1.

[11] *See* Application File Nos. 0000232764 (filed Dec. 13, 2023 (CPC Application), amended May 13, 2024 (Amended CPC Application)); 0000233088 (filed Dec. 15, 2023) (Climate Application).

[12] *Settlement Public Notice* at Attach. A.

[13] *Tentative Selectee Public Notice* at Attach. A.

miles) for applicants outside the top 50 urban markets.[14] CPC also certified in its initial application that it qualified for a point under both the local program origination and the main studio criteria.[15]

7. REC Networks (REC) filed an Informal Objection to the CPC Application.[16] REC argues that the CPC Application is not entitled to a "main studio" point or a "local [program] origination and main studio" point because, as originally filed, the CPC Application listed a main studio address that is over 600 miles away from CPC's proposed transmitting antenna site.[17] On May 13, 2024, five months after the close of the LPFM filing window, CPC filed an amendment to correct its main studio address.[18] However, REC argues that under established LPFM filing procedures, the Commission "will not consider documentation to support a claimed comparative point if it is submitted in an amendment after the application deadline."[19] CPC has not filed an Opposition to REC's Informal Objection.

8. *Discussion*. Section 73.872(b)(3) of the Rules provides that an LPFM applicant may claim a comparative point if it "pledge[s] to maintain a publicly accessible main studio that has local program origination capability, is reachable by telephone, is staffed at least 20 hours per week between 7 a.m. and 10 p.m., and is located within 16.1 km (10 miles) of the proposed site for the transmitting antenna for applicants in the top 50 urban markets and 32.1 km (20 miles) for applicants outside the top 50 urban markets."[20] To claim a point under this criterion, an applicant must specify the proposed address of the proposed main studio in FCC Form 2100, Schedule 318 at the time of filing its application.[21] Section 73.872(b)(4) of the Rules allows an LPFM applicant that makes the local program origination and main studio pledges set forth in sections 73.872(b) and (c) to claim an additional "bonus" comparative point.[22]

9. CPC claimed both the main studio point and the bonus point in its application.[23] The address CPC provided for its proposed main studio in its initial application was over 600 miles away from the proposed transmitting antenna site.[24] Five months after the 2023 LPFM Filing Window deadline had passed, CPC attempted to correct the proposed main studio address in an amendment.[25] However, as explained in the *Procedures Public Notice*, "any change made [to an application] after the Application

[15] *See* CPC Application at Point System Factors Section, Local Program Origination and Main Studio question; 47 CFR § 73.872(b)(4).

[16] Pleading File No. 0000256139 (filed Oct. 23, 2024) (REC CPC Objection).

[17] *See* REC CPC Objection at 3 (citing CPC Application at Point System Factors Section, Main Studio question (listing a main studio address of 1605 E. Belt Line Rd., Carrollton, TX). REC also argues that, according to CPC's application as originally filed, more than one-fifth of CPC's capital stock is owned of record or voted by foreign nationals, and therefore CPC is ineligible for a broadcast license. *See* REC CPC Objection at 2 (citing 47 U.S.C. § 310(b) (providing that "no broadcast . . . radio station license shall be granted to or held by . . . any corporation of which more than one-fifth of the capital stock is owned of record or voted by aliens or their representatives")). Because we dispose of CPC's application on other grounds, we do not address this argument here.

[18] *See* Amended CPC Application (listing a new main studio address of 2301 Capitol Ave., Des Moines, IA).

[19] REC Objection at 3 (citing *Procedures Public Notice*, 38 FCC Rcd at 6668).

[20] 47 CFR § 73.872(b)(3).

[21] *Id.*

[22] *Id.* § 73.872(b)(4).

[23] *See* CPC Application at Point System Factors Section, Main Studio question and Local Program Origination and Main Studio question.

[24] *See* CPC Application at Point System Factors Section, Main Studio question (listing a main studio address of 1605 E. Belt Line Rd., Carrollton, TX).

[25] *See* Amended CPC Application (listing a main studio address of 2301 Capitol Ave., Des Moines, IA).

Deadline may potentially diminish, but cannot enhance, an applicant's comparative position and point total. Therefore, the Commission . . . will *not* consider any amendments, filed after the Application Deadline, which improve an applicant's comparative position."[26]

10. Because CPC's amendment was filed after the December 13, 2023, filing window deadline,[27] and would improve CPC's comparative position, the Commission will not consider CPC's amendment, and therefore CPC is not entitled to either the main studio point or the bonus point (which depends on a valid claim of the main studio point). Accordingly, we find that CPC was improperly granted five comparative points and co-tentative selectee status. We grant the REC CPC Objection, adjust CPC's score to three points rather than five points, and rescind our tentative selection of the CPC Application. Climate, with five comparative points, is the sole remaining tentative selectee of MX Group 39.[28] We have reviewed the Climate Application and find no substantial and material question of fact, and that grant of the Climate Application would be consistent with the public interest, convenience, and necessity. Accordingly, we grant the Climate Application and dismiss the CPC Application as a non-tentative selectee.

### B. LPFM MX Group 60

11. *Background*. This group consists of three applications filed by (1) Yoelkie Media Foundation A NJ Nonprofit Corporation (YMF), (2) Chinese Church of Atlantic City (CCAC), and (3) Transmission Communications Network A Nonprofit Corp (TCN), to serve the community of Atlantic City, New Jersey.[29] The Bureau identified these applications as LPFM MX Group 60.[30] The Commission subsequently awarded four points each to YMF and CCAC, and five points to TCN based on a point system analysis, and identified TCN as the tentative selectee.[31]

12. TCN claimed and was awarded a point for established community presence. TCN certified that, for a period of at least two years prior to the date of its application, it has existed as a nonprofit educational institution or organization and has been physically headquartered, has had a campus, or has had 75% of its board members residing within 16.1 kilometers (10 miles), for the top 50 urban markets, or 32.1 kilometers (20 miles), outside the top 50 urban markets, of the coordinates of the proposed transmitting antenna.[32] To support this claim, TCN lists a local headquarters address of "40 East Washington Ave, Pleasantville, New Jersey" and provides documentation showing that it was incorporated in New Jersey in 2017.[33]

---

[26] *Procedures Public Notice*, 38 FCC Rcd at 6671-72 (emphasis in original).

[27] *See* Amended CPC Application.

[28] As a tentative selectee, the Climate Application was previously accepted for filing, which triggered a 30-day period for the filing of petitions to deny. *See Tentative Selectee Public Notice* at *11-12. No party filed a petition to deny or informal objection to the grant of the Climate Application.

[29] *See* Application File Nos. 0000232896 (YMF Application), 0000232973 (CCAC Application), and 0000232380 (TCN Application). YMF stated that its community of license is "AARP INS", New Jersey, which appears to be a typographical error per its application attachments.

[30] *Settlement Public Notice* at Attach. A.

[31] *Tentative Selectee Public Notice*; *see also* 47 CFR § 73.872.

[32] *See* TCN Application at Point System Factors Section, Established Community Presence question. *See also* 47 CFR §§ 73.872(b)(1); 73.853(b). The 20 mile standard applies here because TCN's proposed station is in the Atlantic City-Cape May, New Jersey radio market, which is outside of the top 50 urban markets. *See* The Nielsen Company (US) LLC, Radio Market Survey Population & Information, Spring 2024, https://www.nielsen.com/wp-content/uploads/sites/2/2024/04/Populations_Rankings.pdf.

[33] TCN Application at Application Information Section, Name, Type, and Contact Information question and Attachment, "501c3doc.pdf".

13. REC filed an Informal Objection to the TCN Application, in which it argues that TCN is not entitled to one point under the established community presence criterion.[34] Specifically, REC argues that TCN is ineligible to claim a point for established community presence because the documentation TCN submitted—three separate filings made with the State of New Jersey—fails to show that it had been local for at least two years prior to filing its application. Rather, REC asserts, and provides documentation, to show that (1) TCN was headquartered in Newark, New Jersey, from 2017 until November 2023, and (2) on November 10, 2023, only a month before it filed the TCN Application, TCN filed a change of address reflecting the local Pleasantville, New Jersey address.[35] Accordingly, REC asserts that "the evidence is clear that while TCN is eligible to be an LPFM licensee, they did not have either 75% of their board members or a headquarters, branch, or campus within 20 miles of the transmitting antenna, two years prior to the December 15, 2023 snapshot date."[36] Tom De Ville also filed two Petitions to Deny and a Supplement (De Ville Petitions and Supplement) against the TCN Application,[37] but subsequently requested withdrawal of those pleadings.[38] Because the Withdrawal Request comports with the requirements of section 73.3588 of the Rules,[39] we grant the Withdrawal Request and dismiss the De Ville Petitions and Supplement.[40]

14. TCN filed an Opposition in which it does not directly address REC's allegations but instead states that it "[a]grees with [the Commission's] determination of 5 points."[41] REC filed a Reply in which it reiterates that TCN did not have a local presence in Atlantic City, New Jersey, until it filed an address change on November 10, 2023, and prior to that was located entirely in Newark, New Jersey, "which is more than 20 miles from the transmitting antenna."[42] REC also references a copy of TCN's original Articles of Incorporation, which was not included in the TCN Application, and shows that TCN was established in 2017 with a main business address in Newark, New Jersey.[43]

15. *Discussion*. Section 73.872(b)(1) of the Rules provides that to be awarded one point for "established community presence," "[a]n applicant must, for a period of at least two years prior to application and at all times thereafter, have qualified as local pursuant to § 73.853(b)."[44] Section

[34] Pleading File No. 0000256594 (filed Nov. 4, 2024) (REC TCN Objection).

[35] REC TCN Objection at 2-3 and Appendix (Change of Registered Agent Certificate from the State of New Jersey, Department of Treasury, affirming a "change was submitted on 11/10/2023" and that TCN changed its registered office from "41 Seymour Ave, Newark, NJ" to "40 East Washington Ave, Pleasantville, NJ").

[36] REC TCN Objection at 3.

[37] *See* Pleading File Nos. 0000243375, 0000256290, and 0000256364 (filed April 10, 2024, October 25, 2024, and October 28, 2024). De Ville argued that TCN (1) fails to meet the localism requirements, and (2) is ineligible for a point for established community presence.

[38] *See* Pleading File No. 0000256586 (filed November 3, 2024) (Withdrawal Request). In his Withdrawal Request, Mr. De Ville states: "I acknowledge that while the applicant has established a valid local presence, they have been in operation for less than two years within 10 miles of the proposed facility. Therefore, they are not eligible for the coveted ECP point. However, to be fair, I recognize that as a valid nonprofit with local status on the filing date, they are eligible to be a licensee." *Id.* REC references Mr. De Ville's earlier pleadings and reasserts Mr. De Ville's initial claim that TCN is ineligible for the established community presence point.

[39] *See* 47 CFR § 73.3588(a); Withdrawal Request (stating that Mr. De Ville "did not receive any consideration in connection with this withdrawal").

[40] *See* 47 CFR §§ 73.3588(a) (withdrawal of informal objection and petitions to deny); 73.801 (making section 73.3588 applicable to LPFM service).

[41] Pleading File No. 0000256681 (filed Nov. 5, 2024).

[42] Pleading File No. 0000257370 at 2-3 (filed Nov. 7, 2024).

[43] *Id.* at 2.

[44] 47 CFR § 73.872(b)(1).

73.853(b) of the Rules provides that an applicant will be deemed local if it can certify that, at the time of the application, it has existed as a nonprofit educational institution or organization and has been physically headquartered, has had a campus, or has had 75% of its board members residing within 16.1 kilometers (10 miles), for the top 50 urban markets, or 32.1 kilometers (20 miles), outside the top 50 urban markets, of the coordinates of the proposed transmitting antenna.[45] Accordingly, to receive the established community presence point, TCN must have been established and operating as a local entity since, at a minimum, December 15, 2021, i.e., for at least two years prior to the close of the December 15, 2023, LPFM filing window.[46]

16. We find that TCN was improperly awarded one point under the established community presence criterion. Although the evidence confirms that TCN was established for over two years before filing its application, TCN provided no evidence to verify that it had been local for at least the requisite two years. Rather, the evidence provided by REC illustrates that TCN had been local for less than two months before filing its application.[47] TCN does not refute this. Accordingly, we find that TCN was improperly designated as the tentative selectee based on the established community presence point. We, therefore, grant the REC TCN Objection, adjust TCN's score to four points rather than five points, and rescind our sole tentative selection of the TCN Application. Accordingly, because YMF, CCAC, and TCN are each now tied and credited with a total of four points, we identify YMF, CCAC, and TCN as the new tentative selectees of LPFM MX Group 60 and direct the applicants to submit, within 90 days of the release of this Order, a voluntary time-sharing proposal in accordance with section 73.872(c) of the Rules.[48]

### C. LPFM MX GROUP 86

17. *Background*. This group consists of two applications filed by (1) Citizens Against Unfair Financial Practices (Citizens) and (2) Universidad Internacional Cristiano de Ministerios (UICM), to serve the communities of Memphis, Tennessee, and Bartlett, Tennessee.[49] The Bureau identified the applications as LPFM MX Group 86.[50] The Commission subsequently conducted a point system analysis and awarded four points to UICM and five points to Citizens, including one point for established community presence, and identified Citizens as the tentative selectee.[51]

18. UICM filed a Petition to Deny the Citizens Application, arguing that Citizens is not entitled to one point under the established community presence criterion because "Citizens provided no

[45] 47 CFR § 73.853(b)(1), (2). To claim a point for this criterion, applicants must submit documentation specified in FCC Form 2100, Schedule 318 at the time of filing applications. *See id.*§ 73.872(b)(1).

[46] *See id.*

[47] TCN certifies that it qualifies as local solely because its physical headquarters (listed as 40 East Washington Ave, Pleasantville, New Jersey), is within 20 miles of its proposed transmitting antenna site. *See* TCN Application at Legal Certifications Section, Community-based criteria questions. As noted, REC submits evidence showing that TCN was headquartered in Newark, New Jersey, not Pleasantville, until November 2023. TCN's former headquarters in Newark is not within 20 miles of the proposed transmitting site, and therefore, does not satisfy the localism criterion.

[48] *See* 47 CFR § 73.872(c).

[49] *See* Application File Nos. 0000232370 (filed Dec. 11, 2023 (Citizens Application), amended Dec. 2, 2024 (Amended Citizens Application)); 0000232577 (filed Dec. 12, 2023) (UICM Application).

[50] *Settlement Public Notice* at Attach. A.

[51] *Tentative Selectee Public Notice*; *see also* 47 CFR § 73.872. Citizens received a point under the following five criteria: (1) established community presence; (2) commitment to originate local programming; (3) commitment to maintain a main studio; (4) commitment to originate local programming and to maintain a main studio; and (5) diversity of ownership. UICM did not receive the point for established community presence.

Exhibit providing evidence of its qualification for this Point."[52] Specifically, UICM asserts that (1) Citizens neglected to provide information "concerning the duration of any of the governing board members 'local' residences" and listed Post Office Boxes for the majority of its board members;[53] and (2) the only address listed for Citizens, "1325 Autumn Avenue, # 41856, Memphis, Tennessee," is "14.534 miles from the coordinates of Citizens proposed transmitter site" and "merely the address of a Post Office Box."[54] Finally, UICM argues that the Citizens Application "must be dismissed in its entirety" because Citizens has not provided sufficient information to establish that it is a "qualified LPFM 'local applicant'" with either a headquarters or at least 75% of its board members residing within 10 miles of its proposed transmitter site.[55]

19. In its Opposition, Citizens states that its corporate headquarters is located at the main studio address specified on its application, "5119 Summer Ave," which is within 10 miles of the proposed antenna.[56] According to Citizens, existing FCC records show that Citizens has been headquartered "at the qualified location for far more than 2 years prior to the LPFM filing window."[57] Citizens explains that it "mistakenly entered the temporary pandemic post-office box mailing address in several places on the CP [Citizens Application] instead of the long-used 5119 Summer Ave corporate address" and submitted an amendment, and supporting information, to rectify the mistake.[58]

20. Finally, in its Reply, UICM argues that "Citizens' timely substantiation of its qualifications of a Point for Local Community Presence was lacking at the close of the Filing Window" and its "attempts to, for the first time, provide documentation via an amendment concerning its local community involvement" is "too little, too late."[59] UICM, therefore, reasserts that Citizens should not have been awarded the established community presence point and "at best, is eligible for time sharing with UICM."[60]

21. *Discussion*. We find that Citizens did not timely submit sufficient documentation to support its established community presence claim and was improperly awarded one point under this criterion. Specifically, to qualify for the "established community presence" point, a nonprofit educational organization applicant, such as Citizens, must certify that "during the two years prior to the application, (a) it has existed as a nonprofit educational organization, and (b) it has been physically headquartered, has had a campus, or has had 75% of its governing board members residing within 10 miles, for applicants in the top 50 urban markets, or 20 miles, for applicants outside the top 50 urban markets, of the coordinates

[52] Pleading File No. 0000258115 (filed Nov. 15, 2024) (Petition) at 2. Citizens filed an Opposition to the Petition on December 2, 2024. *See* Pleading File No. 0000258685 (Opposition). UICM filed a Reply on March 14, 2025. *See* Pleading File No. 0000267971 (Reply).

[53] Petition at 3.

[54] *Id.*

[55] *Id.* at 4-5.

[56] Opposition at 1.

[57] *Id.* (citing BLL-20150512AAL, BMPL-20150323ABP, and BPL-20161114ABJ).

[58] *Id.* at 2. *See also* Amended Citizens Application.

[59] Reply at 2-3.

[60] *Id*. UICM also argues that the Citizens Opposition should be rejected because it was not timely filed or properly served. *Id.* at 3 (citing 47 CFR §§ 1.45(b) (providing that oppositions be filed within 10 days after the original pleading is filed); 1.47(d) (requiring documents to be served in paper form)). Citizens filed its Opposition on December 2, 2024, several days after the 10-day deadline, and served UICM by email. Although we remind Citizens of the importance of both timely responses and proper service, we will consider the Opposition in the interest of a complete record.

of the proposed transmitting antenna."[61] An applicant awarded a point for this criterion must also submit documentation with its application to demonstrate (1) the date of commencement of applicant's existence, and (2) the location of the applicant's headquarters, campus, or governing board members' residences during the two years prior to the application filing.[62] The Bureau cautioned applicants that "no point will be awarded to an applicant that does not timely submit the required documentation."[63]

22. Although Citizens timely submitted documentation to demonstrate its period of existence as a nonprofit entity,[64] Citizens neglected to provide any evidence with its initial application to verify that it had been local for at least the requisite two years.[65] Citizens' December 2, 2024, amendment to demonstrate the location of its local headquarters[66] does not cure the initial lack of documentation.[67] The Commission has consistently held that documentation to support comparative point claims, which is submitted after the close of the filing window (here, December 15, 2023), will not be considered.[68] Accordingly, we find that Citizens was improperly designated as the tentative selectee based on the established community presence point. We, therefore, grant the UICM Petition, reduce Citizens' score to four points, and rescind our sole tentative selection of the Citizens Application. Accordingly, because Citizens and UICM are each now tied and credited with a total of four points, we identify Citizens and UICM as the new tentative selectees of LPFM MX Group 86 and direct the applicants to submit, within 90 days of the release of this Order, a voluntary time-sharing proposal in accordance with section 73.872(c) of the Rules.[69]

---

[61] *Procedures Public Notice*, 38 FCC Rcd at 6667-8; *see also* 47 CFR §§ 73.853(b)(1), (2); 73.872(b)(1). The 10 mile standard applies here because Memphis, Tennessee is in the top 50 radio markets. *See* The Nielsen Company (US) LLC, Radio Market Survey Population & Information, Spring 2024, at 2-3 (2024) https://www.nielsen.com/wp-content/uploads/sites/2/2024/04/Populations_Rankings.pdf.

[62] *See* 47 CFR § 73.872(b) (providing that mutually exclusive applications submit "required documentation" for each point to be awarded); *Procedures Public Notice*, 38 FCC Rcd at 6668.

[63] *Procedures Public Notice*, 38 FCC Rcd at 6668.

[64] *See* Citizens Application at "CAUFP_ARTICLES_OF_INCORPORATION.pdf" (showing that Citizens was incorporated in the State of Tennessee on October 22, 2008).

[65] The December 2023, LPFM filing window closed on December 15, 2023. *See supra* note 4.

[66] Amended Citizens Application at "Address Correction Narrative.pdf".

[67] We do, however, consider the December 2, 2024, amendment to establish that Citizens has a headquarters address at "5119 Summer Ave," within 10 miles of the proposed site of its transmitting antenna, and therefore, qualifies as a "local" entity eligible for a LPFM station. Although our rules prohibit the consideration of documentation to support a claimed comparative point if it is submitted in a post-window amendment (*see* 47 CFR § 73.871(b)), our rules do not prohibit the consideration of post-window amendments to support an applicant's general claim that it qualifies as a local nonprofit entity eligible for a LPFM station. *See* 47 CFR §§ 73.853(b); 73.871(c)(5) (permitting minor LPFM amendments for "changes in general and/or legal information"); *Creation of Low Power Radio Service,* Second Report and Order, 16 FCC Rcd 8026, 8029, para. 7 (2001) (explaining that the Commission "will not restrict the scope of [non-technical LPFM amendments] with two exceptions": amendments that improve an applicant's comparative position and amendments that reflect a more than 50% change in the organization's ownership); *see also, e.g., Big Rapids Wireless Inc.,* Letter Order, DA 24-794 (MB Aug. 12, 2024) (considering post-window amendment to support applicant's eligibility claim).

[68] See, e.g., *Procedures Public Notice*, 38 FCC Rcd at 6670 ("Commission will not consider documentation to support a claimed comparative point if it is submitted in an amendment after the Application Deadline."); 47 CFR § 73.871(b) ("Amendments that would improve the comparative position of new and major change applications will not be accepted after the close of the pertinent filing window."); *WTL Communications*, Memorandum Opinion and Order, 23 FCC Rcd 2475 (2008) (denying established community presence point to applicant that submitted documentation verifying its local headquarters in an amendment after the filing deadline).

[69] *See* 47 CFR § 73.872(c).

## IV. NEXT STEPS

23. *Acceptability Studies and Filing of Petitions – LPFM MX Groups 60 and 86.* Once the Commission identifies a tentative selectee pursuant to the point system, the next step is to consider whether the selectee's application has defects.[70] The Commission has studied the application of each new tentative selectee identified in LPFM MX Groups 60 and 86 for application defects. Each tentative selectee appears to be fully qualified to become the licensee of the new LPFM station it has proposed. We tentatively conclude that the grant of these applications would serve the public interest, convenience and necessity. Accordingly, upon the release of this Order, the new tentative selectees are accepted for filing. This triggers a 30-day period for the filing of petitions to deny.[71]

24. Any argument that a tentatively selected application in LPFM MX Group 60 or 86 should not be granted should be raised in such a petition, even if the objection relates only indirectly to the tentative selectee's qualifications. For example, an applicant that concedes that the tentative selectee is qualified for the points received but believes its own proposal should have received a greater number of points than the tentative selectee's would make its argument in a petition to deny. Likewise a disappointed applicant that believes the tentative selectee should have received fewer points would make such an argument in a petition to deny. Parties should not raise such matters as petitions for reconsideration of the instant Order because the point and tentative selectee determinations do not constitute "final" actions, and petitions for reconsideration do not lie against such interlocutory decisions.[72]

25. *Forthcoming Staff Action—LPFM MX Groups 60 and 86.* We direct the Bureau staff, once the petition to deny period has run, to conduct a final study of the tentatively selected applications in LPFM MX Groups 60 and 86 in accordance with its routine processing procedures. In the case of tied applications, the final study will not be conducted until the tie has been eliminated through amendment, settlement, and/or time-share procedures. The staff studies should consider any petitions, comments, and objections to determine whether there is any substantial and material question of fact concerning whether grant of each tentatively selected application would serve the public interest. If the Bureau finds on the basis of the application, the pleadings filed, or other matters which it may officially notice that there are no substantial and material questions of fact, and that a grant of each application would be consistent with the public interest, convenience, and necessity, it shall make the grant on the basis of the point system determination made herein, dismiss all competing applications, deny any petition to deny, and issue a concise statement of the reasons for denying such petition and disposing of all substantial issues raised by the petition.[73]

26. With the exception of issues that are novel or require Commission consideration as specified below, the staff shall act on the tentatively selected applications pursuant to delegated authority. We delegate to the staff authority to act on any routine matter that may be raised, including whether each

---

[70] If a tentative selectee's application is found unacceptable for filing, it is dismissed. The applicant then has one opportunity to submit a curative amendment and a petition for reconsideration requesting reinstatement *nunc pro tunc* within 30 days, provided that the amendment is minor and does not alter the point system analysis. A tentative selectee that is unable to cure the defect is disqualified. *See* 47 CFR § 73.870(d); *Procedures Public Notice*, 38 FCC Rcd at 6671 (citing *Commission States Future Policy on Incomplete and Patently Defective AM and FM Construction Permit Applications*, Public Notice, 56 RR 2d 776 (1984)).

[71] *See* 47 CFR § 73.870(d); *Procedures Public Notice*, 38 FCC Rcd at 6671.

[72] An interlocutory action is non-final, one that neither denies nor dismisses an application nor terminates an applicant's right to participate in the proceeding. *See* 47 CFR § 1.106 (a)(1) (stating that petitions for reconsideration of interlocutory actions will not be entertained). *See NCE Order on Reconsideration,* 35 FCC Rcd at 10183-84, para. 13 ("A tentative selection is not final until the entire administrative process of resolving petitions to deny, and any subsequent pleadings, is complete"). *See also American Family Assoc., Inc.,* Letter Order, 22 FCC Rcd 11165 (MB 2007); *Harry F. Cole, Esq.,* Letter Order, 27 FCC Rcd 9295 (MB 2012).

[73] 47 U.S.C. § 309(d).

applicant is eligible, as certified, for the points awarded herein, and whether the application complies with all relevant Commission rules and policies.[74] The staff need not refer such matters to the full Commission unless the staff determines that the issues are new or novel, or raise a substantial and material question regarding the award of points.[75] Generally, the staff should refer issues to the Commission where the exclusion or inclusion of challenged or claimed points could alter the outcome in the MX group, or where a new or novel question or substantial and material question of fact otherwise exists.[76] In such cases, the staff would refer the mutually exclusive group to the Commission for resolution of the novel issue and/or the determination of a successor tentative selectee.

27. *Severance for Purposes of Petitions, Appeals and Finality.* We are including a provision in the ordering clauses herein that each decision involving a mutually exclusive group is to be considered distinct and separate for purposes of petitions to deny, petitions for reconsideration, review on the Commission's own motion, and appeals. The timing of any action disposing of a petition or appeal affecting a particular group will not delay the finality of our decision for purposes of administrative or judicial review under section 1.103(b) of our rules with respect to any other group.[77]

## V. ORDERING CLAUSES

28. Accordingly, **IT IS ORDERED**, that each decision involving a mutually exclusive group in this *Memorandum Opinion and Order* shall be deemed a distinct and separate decision for purposes of petitions to deny, subsequent petitions for reconsideration and reconsideration by the Commission or Bureau on its own motion, applications for review and review on the Commission's own motion, and appeals.[78] If any decision in this *Memorandum Opinion and Order* is declared invalid for any reason, the remaining portions shall be severable from the invalid part and **SHALL REMAIN** in full force and effect to the fullest extent permitted by law.

29. **LPFM MX Group 39.** Accordingly, **IT IS ORDERED**, that the Informal Objection, filed on October 23, 2024, by REC Networks (Pleading File No. 0000256139) **IS GRANTED**. **IT IS FURTHER ORDERED** that the tentative selection of the application of CPC of the WMM USA-Des Moines, IA-One Inc. (Application File No. 0000232764) for a construction permit for a new LPFM station in Des Moines, Iowa, **IS RESCINDED** and the application **IS DISMISSED**.

30. **IT IS FURTHER ORDERED**, that the application filed by Climate March (Application File No. 0000233088) for a construction permit for a new LPFM station in Des Moines, Iowa, **IS GRANTED.**

[75] *See* 47 CFR § 0.283(c).

[76] *See generally Comparative Consideration of 76 Groups of Mutually Exclusive Applications for Permits to Construct New or Modified Noncommercial Education FM Stations,* Memorandum Opinion and Order, 22 FCC Rcd 6101, 6162 n.230 (2007) ("If the Bureau finds that there are no new or novel questions, or material questions that would cause the tentative selectee to have fewer than or the same number of points as another applicant in the group, the staff would act on the petition(s) to deny, and by public notice grant the application of the tentative selectee and dismiss the competing mutually exclusive application. This function is consistent with the Bureau's delegated authority. *See* 47 C.F.R. §§ 0.61(h), 0.283."), *rescinded in part on other grounds by Indiana Community Radio Corp*., 23 FCC Rcd 10963 (MB 2008).

[77] *See* 47 CFR § 1.103(b).

[78] *See* 5 U.S.C. §§ 702, 704, 706; 47 U.S.C. §§ 309(d), 402(b), 405; 47 CFR §§ 1.106-08, 1.113, 1.115, 1.117 73.870. In cases that involve separate mutually exclusive groups, but present common issues, the petitions or appeals may be filed jointly or may be consolidated at the discretion of the Commission or the court. *See, e.g.,* FED. R. APP. P. 3(b).

31. **LPFM MX Group 60**. Accordingly, **IT IS ORDERED**, that the request to withdraw the Petitions to Deny and Supplement, filed on November 3, 2024, by Tom De Ville, (Pleading File No. 0000256586) **IS GRANTED**, and the Petitions to Deny and Supplement, filed on April 10, 2024, October 25, 2024, and October 28, 2024, by Tom De Ville, (Pleading File Nos. 0000243375, 0000256290, and 0000256364), **ARE DISMISSED**.

32. **IT IS FURTHER ORDERED**, that the Informal Objection, filed on November 4, 2024, by REC Networks, (Pleading File No. 0000256594), **IS GRANTED**.

33. **IT IS FURTHER ORDERED**, that the sole tentative selection of the application of Transmission Communications Network A Nonprofit Corp (Application File No. 0000232380), for a construction permit for a new LPFM station in Atlantic City, New Jersey, **IS RESCINDED**.

34. **IT IS FURTHER ORDERED**, that the Applications filed by Transmission Communications Network A Nonprofit Corp (Application File No. 0000232380), Yoelkie Media Foundation A NJ Nonprofit Corporation (Application File No. 0000232896), and Chinese Church of Atlantic City (Application File No. 0000232973), are **TENTATIVELY SELECTED** to be awarded construction permits on a **TIME-SHARING BASIS** for new LPFM stations in Atlantic City, New Jersey, and the applications **ARE ACCEPTED FOR FILING**, establishing a deadline thirty (30) days hereafter for the filing of petitions to deny. **IT IS FUTHER ORDERED**, that the tentative selectee applicants electronically submit, within 90 days of the release of this Order, a time-sharing agreement, in accordance with section 73.872(c) of the Commission's rules, 47 CFR § 73.872(c). If, after the petition to deny period has run, the Bureau finds on the basis of the applications, the pleadings filed, or other matters which it may officially notice that there is no substantial and material question concerning whether the tentative selectees' applications can be granted, and it is determined that such grant serves the public interest, and the applicants have submitted an acceptable time-sharing agreement, we direct the Media Bureau, by public notice, **TO GRANT** the applications of Transmission Communications Network A Nonprofit Corp (Application File No. 0000232380), Yoelkie Media Foundation A NJ Nonprofit Corporation (Application File No. 0000232896), and Chinese Church of Atlantic City (Application File No. 0000232973). If the tentative selectees are unable to reach a voluntary time-sharing agreement within the 90-day period, we direct the Media Bureau to assign involuntary time-sharing arrangements and, **TO GRANT** the applications of Transmission Communications Network A Nonprofit Corp (Application File No. 0000232380), Yoelkie Media Foundation A NJ Nonprofit Corporation (Application File No. 0000232896), and Chinese Church of Atlantic City (Application File No. 0000232973) in accordance with section 73.872(d) of the Commission's rules, 47 CFR § 73.872(d).

35. **LPFM MX GROUP 86.** Accordingly, **IT IS ORDERED**, that the Petition to Deny, filed on November 15, 2024, by Universidad Internacional Cristiana de Ministerios, (Pleading File No. 0000258115), **IS GRANTED**.

36. **IT IS FURTHER ORDERED**, that the sole tentative selection of the application of Citizens Against Unfair Financial Practices (Application File No. 0000232370), for a construction permit for a new LPFM station in Memphis, Tennessee, **IS RESCINDED**.

37. **IT IS FURTHER ORDERED**, that the Applications filed by Universidad Internacional Cristiana de Ministerios (Application File No. 0000232577) and Citizens Against Unfair Financial Practices (Application File No. 0000232370), are **TENTATIVELY SELECTED** to be awarded construction permits on a **TIME-SHARING BASIS** for new LPFM stations in Bartlett, Tennessee, and Memphis, Tennessee, and the applications **ARE ACCEPTED FOR FILING**, establishing a deadline thirty (30) days hereafter for the filing of petitions to deny. **IT IS FUTHER ORDERED**, that the tentative selectee applicants electronically submit, within 90 days of the release of this Order, a time-sharing agreement, in accordance with section 73.872(c) of the Commission's rules, 47 CFR § 73.872(c). If, after the petition to deny period has run, the Bureau finds on the basis of the applications, the pleadings filed, or other matters which it may officially notice that there is no substantial and material question concerning whether the tentative selectees' applications can be granted, and it is determined that such grant serves the public interest, and the applicants have submitted an acceptable time-sharing agreement,

we direct the Media Bureau, by public notice, **TO GRANT** the applications of Universidad Internacional Cristiana de Ministerios (Application File No. 0000232577) and Citizens Against Unfair Financial Practices (Application File No. 0000232370). If the tentative selectees are unable to reach a voluntary time-sharing agreement within the 90-day period, we direct the Media Bureau to assign involuntary time-sharing arrangements and, **TO GRANT** the applications of Universidad Internacional Cristiana de Ministerios (Application File No. 0000232577) and Citizens Against Unfair Financial Practices (Application File No. 0000232370) in accordance with section 73.872(d) of the Commission's rules, 47 CFR § 73.872(d).

**NOTICE OF APPARENT LIABILITY FOR FORFEITURE**

**Adopted: September 8, 2025** **Released: September 9, 2025**

By the Commission:

## I. INTRODUCTION

1. In this Notice of Apparent Liability for Forfeiture (NAL), we propose a penalty of $60,000 against Radio Energy, Inc., (REI) and Pelege Marcellin (Marcellin), jointly and severally, for operating an unauthorized radio station, known as "Radio Energy Boston" on 1620 kHz in Mattapan, Massachusetts (1620 Station), and 1640 kHz in Brockton, Massachusetts (1640 Station), by which REI and Marcellin apparently willfully and knowingly did, caused, or suffered to be done pirate radio broadcasting. REI and Marcellin operated the 1620 Station and the 1640 Station on September 11, 2024, resulting in two (2) apparent violations. Operating an unauthorized, or pirate, radio station is illegal under the Communications Act of 1934, as amended (Communications Act or Act)[1] and undermines the primary mission of the Federal Communications Commission (FCC or Commission) to manage radio spectrum. Such illegal operations can interfere with licensed communications, including authorized broadcasts and communications by public safety entities. Moreover, such illegal operations pose a danger to the public because they interfere with licensed stations that inform their listeners of important public safety messages, including Emergency Alert System transmissions that provide vital information regarding weather events and other dangers to the public.

## II. BACKGROUND

### A. Legal Framework

2. On January 24, 2020, Congress passed the Preventing Illegal Radio Abuse Through Enforcement Act (PIRATE Act), which was subsequently codified as section 511 of the Communications Act.[2] Section 511 states that any person who willfully and knowingly does or causes or suffers to be done any pirate radio broadcasting shall be subject to a fine of not more than $2,000,000 and not more than $100,000 for each day during which such offense occurs.[3] Both of these figures are subject to annual

[1] 47 U.S.C. § 511.

[2] *Preventing Illegal Radio Abuse Through Enforcement Act*, Pub. L. 116-109, 134 Stat. 3 (2020) (codified at 47 U.S.C. § 511).

[3] 47 U.S.C. § 511(a)-(b). Prior to the passage of the PIRATE Act, the maximum monetary penalty for pirate radio transmissions was $151,005. *See* 47 CFR §1.80(b)(9)(ii) (2019); *see also Acerome Jean Charles*, Notice of Apparent Liability for Forfeiture, 34 FCC Rcd 12744 (2019) (proposing a penalty of $151,005), *consent decree adopted*, Order, 35 FCC Rcd 6878 (2020). In 2020, that maximum limit was increased to $2,000,000. *See* 47 U.S.C. § 511.

inflation adjustments.[4] Section 511 defines pirate radio broadcasting as "the transmission of communications on spectrum frequencies between 535 and 1705 kilohertz, inclusive [AM band], or 87.7 and 108 megahertz, inclusive [FM band], without a license issued by the Commission, but does not include unlicensed operations in compliance with part 15 of title 47, Code of Federal Regulations."[5] Part 15, among other requirements, states that for unlicensed operation in the AM band, "[t]he total length of the transmission line, antenna and ground lead (if used) shall not exceed 3 meters."[6]

### B. Factual Background

3. After receiving a complaint in 2024 about interference to a licensed radio station transmitting in the 1600 kHz band in Boston, Massachusetts, field agents (Agents) from the FCC's Boston Field Office began an investigation into the nature and source of the interference. Their initial investigation revealed an unlicensed radio station transmitting on 1620 kHz in the Boston suburb of Mattapan. Further investigation by the Agents led to the discovery of the same programming being broadcast on 1640 kHz in Brockton (approximately 16 miles away). Both stations were eventually linked to Radio Energy Boston, operated by Marcellin and REI.

#### i. 1620 Station – Mattapan, Massachusetts

4. On September 11, 2024, in follow up to the complaint, Agents monitored the frequency 1620 kHz in Boston, Massachusetts, and, using direction-finding techniques, traced the source of a signal to a multi-tenant commercial building located at 1601 Blue Hill Avenue in Mattapan, Massachusetts (Mattapan Site). A review of Commission records revealed no authorization for any AM broadcast station to operate at or near the Mattapan Site on any frequency. The Agents made an audio recording of the 1620 Station's over-the-air broadcast, in which the 1620 Station programming identified itself as "Radio Energy Boston."[7] In addition, the over-the-air broadcast matched the online streaming broadcast of "Radio Energy Boston."[8]

5. Also on September 11, 2024, Agents attempted to inspect the 1620 Station's office located at the Mattapan Site.[9] The Agents obtained the telephone number of a 1620 Station on-air personality from a neighboring tenant, and left a message in which the Agents identified themselves and requested a callback. The Agents then accessed the building's roof and photographed the AM broadcast antenna. Its coaxial transmission line led across the roof and into the second floor of the two-story building (where the building directory stated that the 1620 Station office was located).[10] The Agents

[6] 47 CFR § 15.219(b).

[7] *See* September 11, 2024 audio recording of broadcast from Mattapan Site (on file in EB-FIELDNER-24-00036631).

[8] *See* September 11, 2024 video recording comparing the 1620 Station's over-the-air broadcast with Radio Energy Boston's online stream (on file in EB-FIELDNER-24-00036631). Agents recorded the online streaming of the Station's audio. Radio Energy Boston, *TuneIn.com*, https://tunein.com/radio/Radio-Energy-Boston-s251559/ (last visited Feb. 18, 2025).

[9] *See* September 11, 2024 photographs of the Mattapan Site building directory showing the "Radio Energy" office located in Suite 202 (on file in EB-FIELDNER-24-00036631).

[10] *See* September 11, 2024 photographs of AM antenna and transmission line located on roof of Mattapan Site (on file in EB-FIELDNER-24-00036631).

visually confirmed at close range that that the total length of the transmission line and antenna exceeded the limit for unlicensed operation under part 15 of the Commission's rules.[11]

6. Later on September 11, 2024, an Agent received a telephone call from a person identifying himself as {[ ]}(Intermediary).[12] The Intermediary explained that he was a friend of the 1620 Station's owner and was informed of the Agents' message requesting a 1620 Station inspection. The Intermediary noted that the content of the 1620 Station's broadcast was identical to content being broadcast on 1640 kHz from a separate location in Brockton, Massachusetts. The Intermediary offered to host an inspection of the 1640 Station operations at the Brockton location, as it was purportedly located closer to his personal residence.[13]

7. On September 12, 2024, an Agent received text message confirmation from the Intermediary that the 1620 Station at the Mattapan Site had been turned off, along with photos of its transmitter.[14] On September 24, 2024, the Intermediary confirmed, with photos sent via text message, that the antenna at the Mattapan Site had been removed from its roof mount and disconnected from its transmission line.[15]

8. During October and November 2024, an Agent periodically monitored the AM band in the Mattapan area and did not detect further over-the-air broadcasting by the 1620 Station.

ii. **1640 Station – Brockton, Massachusetts**

9. On September 11, 2024, following up on the Intermediary's mention of a broadcast on 1640 kHz, Agents monitored the frequency 1640 kHz in Boston, Massachusetts, and, using direction-finding techniques, traced the source of a signal to a multi-tenant commercial building located at 71 Legion Parkway in Brockton, Massachusetts (Brockton Site). The Agents documented an AM broadcast antenna atop the building's roof,[16] and determined that the total length of the transmission line and antenna exceeded the limit for unlicensed operation under part 15 of the Commission's rules.[17] The Agents also made an audio recording of the over-the-air broadcast;[18] the broadcast matched the online audio stream for Radio Energy Boston.[19] A review of Commission records revealed no authorization for any AM broadcast station to operate at or near the Brockton Site on any frequency.

10. That same day (September 11, 2024), after receiving the Intermediary's offer to inspect the 1640 Station, the Agents met the Intermediary at the Brockton Site. The Intermediary led the Agents to the Brockton Site roof, where they photographed an AM broadcast antenna and a coaxial transmission line leading from the antenna down three stories to the building's first floor (where the 1640 Station

office was located).[20] The Agents visually confirmed at close range that the total length of the transmission line and antenna exceeded the limits for operation under part 15 of the Commission's rules.[21]

11. The Intermediary then escorted the Agents to Suite 16 at the Brockton Site where the 1640 Station's transmitter was located.[22] Agents witnessed and photographed the transmitter operating at a frequency of 1640 kHz.[23] The Intermediary noted that, while Radio Energy Boston's content was also streaming online, the 1620 and 1640 Stations remained actively broadcasting over-the-air. During the inspection, the Intermediary agreed to have both the 1620 Station and 1640 Station permanently shut down and agreed to inform the Agents once the antennas were removed from their respective locations.

12. On September 12, 2024, an Agent received text message confirmation from the Intermediary that the 1640 Station at the Brockton Site had been turned off, along with photos of its transmitter.[24] On September 18, 2024, The Intermediary confirmed with photos sent via text message that the antenna at the Brockton Site had been removed from its roof mount and disconnected from its transmission line.[25]

13. During October and November 2024, an Agent periodically monitored the AM band in the Brockton area and did not detect further over-the-air broadcasting by the 1640 Station.

### iii. REI and Marcellin's Connections to the 1620 Station and 1640 Station

14. An internet search for information on the illegal broadcasting occurring on 1620 kHz and 1640 kHz produced an October 12, 2022 news article detailing Marcellin's purchase of Radio Energy Boston, describing it as a local radio station broadcasting on both 1620 kHz and 1640 kHz and located in Mattapan.[26] The article describes Marcellin's recent renovation of the studio and his "plan to have different programs to cater to many demographics."[27] The article also includes Marcellin's purported photograph, showing him in a broadcast studio with "Radio 1620" stenciled on the window and the Radio

[20] *See* September 11, 2024 photographs and video of AM antenna located on roof of Brockton Site (on file in EB-FIELDNER-24-00036632); September 11, 2024 photographs of Suite 16 at the Brockton Site (on file in EB-FIELDNER-24-00036632).

[27] *Id.*

Energy Boston logo[28] displayed on a door and table.[29] A related October 16, 2022 news article summarized Marcellin's purchase of Radio Energy Boston and included a different photograph of Marcellin in the same broadcast studio, showing a more complete view of the "Radio Energy 1620 AM" window stencil and the table displaying the Radio Energy Boston logo.[30] Marcellin is also listed in Commonwealth of Massachusetts corporate records as the president, treasurer, secretary and director of REI.[31] REI's 2024 annual report lists its corporate business purpose as "radio broadcasting and markerting (sic)."[32] REI's annual reports also show that Marcellin has served as president of REI since 2018[33] and as its sole officer since 2023.[34]

## III. DISCUSSION

15. We find that REI and Marcellin, in apparent violation of section 511 of the Act,[35] willfully and knowingly did, caused, or suffered to be done pirate radio broadcasting through the operation of two unlicensed radio stations on September 11, 2024: (1) on 1620 kHz in Mattapan, Massachusetts; and (2) on 1640 kHz in Brockton, Massachusetts. On that date, Agents determined that the length of the Station's antennas and transmission lines at both the Mattapan Site and Brockton Site exceeded the maximum allowed length for operation under part 15 of the Commission's rules.[36] Therefore, all transmissions from the Mattapan Site and Brockton Site on these dates failed to comply with part 15 of the Commission's rules.[37] A review of Commission records reveals no authorization for any AM broadcast station to operate at or near the Mattapan Site on 1620 kHz or the Brockton Site on 1640 kHz at all times relevant to this case. Evidence collected by the Agents— including media interviews with Marcellin, and Commonwealth of Massachusetts records for REI—shows that REI and Marcellin are the operators of the Station.[38] Accordingly, the Commission finds that REI and Marcellin's unlicensed broadcasting of Radio Energy Boston on September 11, 2024, constituted pirate radio broadcasting in apparent violation of section 511 of the Act.[39]

[37] 47 CFR § 15.219(b); *see also* 47 U.S.C. § 511(h).

[38] *See supra* para. 14.

[39] 47 U.S.C. § 511(a), (h).

### A. Joint and Several Liability

16. As discussed above, we find that REI and Marcellin are each apparently liable for willfully and knowingly doing, or causing, or suffering to be done pirate radio broadcasting under section 511 of the Act, which imposes liability on "any person."[40] The term "person," for purposes of the PIRATE Act, "includes an individual, partnership, association, joint-stock company, or corporation."[41] Marcellin, therefore, is personally liable for doing, causing, or suffering to be done pirate radio broadcasting[42] and for overseeing, authorizing and directing the Station as the sole officer and owner of REI.[43] The Commission has found in previous enforcement cases that joint and several liability is warranted where more than one party was responsible for a particular violation.[44] We find that joint and several liability is appropriate here, in light of REI's and Marcellin's apparent support of and participation in the unauthorized stations at issue.

### B. Proposed Forfeiture

17. Section 511 of the Act authorizes the Commission to impose a forfeiture against any person "who willfully and knowingly does or causes or suffers to be done any pirate radio broadcasting."[45] In exercising our forfeiture authority, we consider the "nature, circumstances, extent, and gravity of the violation and, with respect to the violator, the degree of culpability, any history of prior offenses, ability to pay, and such other matters as justice may require."[46] We may adjust a forfeiture downward for minor violations, good faith or voluntary disclosure, a history of overall compliance, or an inability to pay.[47]

18. Section 511 of the Act and section 1.80 of the Commission's rules authorize enhanced penalties for pirate radio broadcasting.[48] Under these sections, any person who willfully and knowingly does or causes or suffers to be done any pirate radio broadcasting shall be subject to a fine of not more than $122,661 for each day during which the offense occurs, but not more than $2,453,218 in total.[49]

19. The primary intent of the PIRATE Act is to increase financial penalties for pirate radio broadcasting.[50] Accordingly, in 2023, the Commission established a base forfeiture of $20,000 for pirate

[50] *See* S. Rep. No. 116-178, 1 (2019) ("The purpose of S. 1228, the Preventing Illegal Radio Abuse Through Enforcement Act or PIRATE Act, is to increase the financial penalties for pirate radio broadcasting.").

radio broadcasting,[51] which is twice the pre-PIRATE Act base forfeiture level. Consequently, for the operation of two separate unauthorized stations on September 11, 2024, by which REI and Marcellin apparently willfully and knowingly violated section 511 of the Act, we apply this base forfeiture amount, for a total proposed base forfeiture of $40,000.[52]

20. Moreover, given the particular facts of this case, and consistent with the *Forfeiture Policy Statement*,[53] we conclude that an upward adjustment of the forfeiture is warranted based upon the egregiousness of the violations. Specifically, REI and Marcellin's operation of two separate unauthorized stations (the 1620 Station and the 1640 Station) substantially expanded the geographic coverage of the illegal broadcasting activities and significantly increased the likelihood of interference to lawfully operating stations and the potential for harm to the public if such stations needed to transmit emergency alerts.[54] Based on the severity of the facts underlying these factors, we propose a $10,000 upward adjustment of the $20,000 base forfeiture amount for each of the two pirate radio stations operated by REI and Marcellin on September 11, 2024, for a total penalty of $60,000. In applying the applicable statutory factors, we also consider whether there is any basis for a downward adjustment of the proposed forfeiture. We find none. After applying section 1.80 of the Commission's rules and the statutory factors, and consistent with the *Forfeiture Policy Statement*, REI and Marcellin are apparently jointly and severally liable for a proposed total monetary forfeiture of $60,000.[55]

## IV. CONCLUSION

21. We have determined that Radio Energy, Inc., and Pelege Marcellin apparently willfully and knowingly did, caused, or suffered to be done pirate radio broadcasting in violation of section 511 of the Act. As such, Radio Energy, Inc., and Pelege Marcellin are apparently jointly and severally liable for a forfeiture of $60,000.

## V. ORDERING CLAUSES

22. Accordingly, **IT IS ORDERED** that, pursuant to section 511 of the Communications Act of 1934, as amended, 47 U.S.C. § 511, and section 1.80 of the Commission's rules, 47 CFR § 1.80, Radio Energy, Inc., and Pelege Marcellin are hereby **NOTIFIED** of their **APPARENT JOINT AND SEVERAL LIABILITY FOR A FORFEITURE** in the amount of sixty thousand dollars ($60,000) for willful and knowing violations of section 511 of the Act, 47 U.S.C. § 511.

23. **IT IS FURTHER ORDERED** that, pursuant to section 1.80 of the Commission's rules, 47 CFR § 1.80, within thirty (30) calendar days of the release date of this Notice of Apparent Liability for Forfeiture, Radio Energy, Inc. and Pelege Marcellin **SHALL PAY** the full amount of the proposed

[51] The Commission first applied this base forfeiture amount in prior Notices of Apparent Liability for Forfeiture for pirate radio activities. *See e.g., César Ayora and Luis Angel Ayora, Queens, New York*, Notice of Apparent Liability for Forfeiture, 38 FCC Rcd 2562, 2569, para. 15 (2023), *aff'd*, Forfeiture Order, 38 FCC Rcd 9747 (2023); *Thomas Barnes, La Grande, Oregon*, Notice of Apparent Liability for Forfeiture, 38 FCC Rcd 2554, 2558, para. 12 (2023), *aff'd*, Forfeiture Order, 38 FCC Rcd 974 (2023).

[55] Any entity that is a "Small Business Concern" as defined in the Small Business Act (Pub. L. 85-536, as amended) may avail itself of rights set forth in that Act, including rights set forth in 15 U.S.C. § 657, "Oversight of Regulatory Enforcement," in addition to other rights set forth herein.

forfeiture or **SHALL FILE** a written statement seeking reduction or cancellation of the proposed forfeiture consistent with paragraph 26.

24. In order for REI and Pelege Marcellin to pay the proposed forfeiture, they shall notify the Office of the Field Director at field@fcc.gov of their intent to pay, whereupon an invoice will be posted in the Commission's Registration System (CORES) at https://apps.fcc.gov/cores/userLogin.do. Upon payment, REI and Marcellin shall send electronic notification of payment to the Office of the Field Director, Enforcement Bureau, Federal Communications Commission, at field@fcc.gov on the date said payment is made. Payment of the forfeiture must be made by credit card using CORES at https://apps.fcc.gov/cores/userLogin.do, ACH (Automated Clearing House) debit from a bank account, or by wire transfer from a bank account. The Commission no longer accepts Civil Penalty payments by check or money order. Below are instructions that payors should follow based on the form of payment selected:[56]

- Payment by wire transfer must be made to ABA Number 021030004, receiving bank TREAS/NYC, and Account Number 27000001. In the OBI field, enter the 00(s) captioned above and the letters "FORF". In addition, a completed Form 159[57] or printed CORES form[58] must be faxed to the Federal Communications Commission at 202-418-2843 or e-mailed to RROGWireFaxes@fcc.gov on the same business day the wire transfer is initiated. Failure to provide all required information in Form 159 or CORES may result in payment not being recognized as having been received. When completing FCC Form 159 or CORES, enter the Account Number in block number 23A (call sign/other ID), enter the letters "FORF" in block number 24A (payment type code), and enter in block number 11 the FRN(s) captioned above (Payor FRN).[59] For additional detail and wire transfer instructions, go to https://www.fcc.gov/licensing-databases/fees/wire-transfer.
- Payment by credit card must be made by using CORES at https://apps.fcc.gov/cores/user Login.do. To pay by credit card, log-in using the FCC Username associated to the FRN captioned above. If payment must be split across FRNs, complete this process for each FRN. Next, select "Manage Existing FRNs | FRN Financial | Bills & Fees" from the CORES Menu, then select FRN Financial and the view/make payments option next to the FRN. Select the "Open Bills" tab and find the bill number associated with the NAL Acct. No. The bill number is the NAL Acct. No. with the first two digits excluded (e.g., NAL 1912345678 would be associated with FCC Bill Number 12345678). After selecting the bill for payment, choose the "Pay by Credit Card" option. Please note that there is a $24,999.99 limit on credit card transactions.
- Payment by ACH must be made by using CORES at https://apps.fcc.gov/cores/userLogin.do. To pay by ACH, log in using the FCC Username associated to the FRN captioned above. If payment must be split across FRNs, complete this process for each FRN. Next, select "Manage Existing FRNs | FRN Financial | Bills & Fees" on the CORES Menu, then select FRN Financial and the view/make payments option next to the FRN. Select the "Open Bills" tab and find the bill number associated with the NAL Acct. No. The bill number is the NAL Acct. No. with the first two digits excluded (e.g., NAL 1912345678 would be associated with FCC Bill Number 12345678). Finally, choose the "Pay from Bank Account" option. Please contact the appropriate financial institution to confirm the correct Routing Number and the correct account number from which

[56] For questions regarding payment procedures, please contact the Financial Operations Group Help Desk by phone at 1-877-480-3201 (option #6).

[57] FCC Form 159 is accessible at https://www.fcc.gov/licensing-databases/fees/fcc-remittance-advice-form-159.

[58] Information completed using the Commission's Registration System (CORES) does not require the submission of an FCC Form 159. CORES is accessible at https://apps.fcc.gov/cores/userLogin.do.

[59] Instructions for completing the form may be obtained at http://www.fcc.gov/Forms/Form159/159.pdf.

payment will be made and verify with that financial institution that the designated account has authorization to accept ACH transactions.

25. Any request for making full payment over time under an installment plan should be sent to: Chief Financial Officer—Financial Operations, Federal Communications Commission, 45 L Street, N.E., Washington, D.C. 20554.[60] Questions regarding payment procedures should be directed to the Financial Operations Group Help Desk by phone, 1-877-480-3201, or by e-mail, ARINQUIRIES@fcc.gov.

26. The written statement seeking reduction or cancellation of the proposed forfeiture, if any, must include a detailed factual statement supported by appropriate documentation and affidavits pursuant to sections 1.16 and 1.80(g)(3) of the Commission's rules.[61] The written statement must be mailed to the Office of the Secretary, Federal Communications Commission, 45 L Street, N.E., Washington, D.C. 20554, ATTN: Enforcement Bureau – Office of the Field Director, and must include the NAL/Account Number referenced in the caption. The statement must also be e-mailed to the Office of the Field Director at field@fcc.gov.

27. The Commission will not consider reducing or canceling a forfeiture in response to a claim of inability to pay unless the petitioner submits the following documentation: (1) federal tax returns for the past three years; (2) financial statements for the past three years prepared according to generally accepted accounting practices; or (3) some other reliable and objective documentation that accurately reflects the petitioner's current financial status.[62] Any claim of inability to pay must specifically identify the basis for the claim by reference to the financial documentation. Inability to pay, however, is only one of several factors that the Commission will consider in determining the appropriate forfeiture, and we retain the discretion to decline reducing or canceling the forfeiture if other prongs of 47 U.S.C. § 503(b)(2)(E) support that result.[63]

28. **IT IS FURTHER ORDERED** that a copy of this Notice of Apparent Liability for Forfeiture shall be sent by first class mail and certified mail, return receipt requested, to Radio Energy,

**FORFEITURE ORDER**

**Adopted: September 8, 2025** **Released: September 10, 2025**

By the Commission:

1. We impose a penalty of $40,000 against Wilner Baptiste (Baptiste), for operating an unauthorized radio station on 94.1 MHz in Spring Valley, New York. Baptiste engaged in the illicit operation of an unauthorized radio station known as "M-One Radio Live or M-One Live Radio." Operating an unauthorized, or pirate, radio station is illegal under section 511 of the Communications Act of 1934, as amended (Communications Act or Act),[1] and undermines the primary mission of the Federal Communications Commission (FCC or Commission) to manage radio spectrum. Such illegal operations can interfere with licensed communications, including authorized broadcasts and communications by public safety entities. Moreover, such illegal operations pose a danger to the public because they interfere with licensed stations that inform their listeners of important public safety messages, including Emergency Alert System transmissions that provide vital information regarding weather and other dangers to the public.[2]

2. On September 30, 2024, the Commission issued a Notice of Apparent Liability for Forfeiture proposing a $40,000 forfeiture against Baptiste for apparent willful and knowing violations of section 511 of the Act by engaging in pirate radio broadcasting on February 27, 2024 and June 12, 2024.[3] Baptiste has not filed a response to the *NAL*.[4] We incorporate by reference herein, affirm, and adopt as final all of our tentative findings of fact and conclusions of law set forth in the *NAL* and affirm the forfeiture proposed in the *NAL*.[5]

3. Accordingly, **IT IS ORDERED** that, pursuant to section 511 of the Communications Act of 1934, as amended, 47 U.S.C. § 511, and section 1.80 of the Commission's rules, 47 CFR § 1.80, Wilner Baptiste is **LIABLE FOR A MONETARY FORFEITURE** in the amount of forty-thousand dollars ($40,000) for willfully and knowingly violating section 511 of the Act.

[1] 47 U.S.C. § 511.

[2] *See Amendment of Part 11 of the Commission's Rules Regarding the Emergency Alert System*, Report and Order, 37 FCC Rcd 11844, 11845 para. 3 (2022).

[3] *See Wilner Baptiste, Spring Valley, New York*, Notice of Apparent Liability for Forfeiture, 39 FCC Rcd 11210 (2024) (*NAL*); 47 U.S.C. § 511. The *NAL* includes a more complete discussion of the facts and history of this case and is incorporated herein by reference.

[4] On September 30, 2024, a copy of the *NAL* was sent to Wilner Baptiste by first class mail and certified mail, return receipt requested. The certified mailing was claimed, and the first class mail was not returned.

[5] Any entity that is a "Small Business Concern" as defined in the Small Business Act (Pub. L. 85-536, as amended) may avail itself of rights set forth in that Act, including rights set forth in 15 U.S.C. § 657, "Oversight of Regulatory Enforcement," in addition to other rights set forth herein.

4. Payment of the forfeiture shall be made in the manner provided for in section 1.80 of the Commission's rules, 47 CFR § 1.80, within thirty (30) calendar days after the release of this Forfeiture Order. Baptiste shall send electronic notification of payment to the Office of the Field Director, Enforcement Bureau, Federal Communications Commission, at field@fcc.gov on the date said payment is made. If the forfeiture is not paid within the period specified, the case may be referred to the U.S. Department of Justice for enforcement of the forfeiture pursuant to section 504(a) of the Act, 47 U.S.C. § 504(a).

5. In order for Wilner Baptiste to pay the proposed forfeiture, Wilner Baptiste shall notify the Office of the Field Director at field@fcc.gov of his intent to pay, whereupon an invoice will be posted in the Commission's Registration System (CORES) at https://apps.fcc.gov/cores/userLogin.do. Payment of the forfeiture must be made by credit card using CORES at https://apps.fcc.gov/cores/userLogin.do, ACH (Automated Clearing House) debit from a bank account, or by wire transfer from a bank account. The Commission no longer accepts forfeiture payments by check or money order. Below are instructions that payors should follow based on the form of payment selected:[6]

- Payment by wire transfer must be made to ABA Number 021030004, receiving bank TREAS/NYC, and Account Number 27000001. In the OBI field, enter the FRN(s) captioned above and the letters "FORF." In addition, a completed Form 159[7] or printed CORES form[8] must be faxed to the Federal Communications Commission at 202-418-2843 or e-mailed to RROGWireFaxes@fcc.gov on the same business day the wire transfer is initiated. Failure to provide all required information in Form 159 or CORES may result in payment not being recognized as having been received. When completing FCC Form 159 or CORES, enter the Account Number in block number 23A (call sign/other ID), enter the letters "FORF" in block number 24A (payment type code), and enter in block number 11 the FRN(s) captioned above (Payor FRN).[9] For additional detail and wire transfer instructions, go to https://www.fcc.gov/licensing-databases/fees/wire-transfer.
- Payment by credit card must be made by using CORES at https://apps.fcc.gov/cores/userLogin.do. To pay by credit card, log in using the FCC Username associated to the FRN captioned above. If payment must be split across FRNs, complete this process for each FRN. Next, select "Manage Existing FRNs | FRN Financial | Bills & Fees" from the CORES Menu, then select FRN Financial and the view/make payments option next to the FRN. Select the "Open Bills" tab and find the bill number associated with the NAL Acct. No. The bill number is the NAL Acct. No. with the first two digits excluded (e.g., NAL 1912345678 would be associated with FCC Bill Number 12345678). After selecting the bill for payment, choose the "Pay by Credit Card" option. Please note that there is a $24,999.99 limit on credit card transactions.
- Payment by ACH must be made by using CORES at https://apps.fcc.gov/cores/userLogin.do. To pay by ACH, log in using the FCC Username associated to the FRN captioned above. If payment must be split across FRNs, complete this process for each FRN. Next, select "Manage Existing FRNs | FRN Financial | Bills & Fees" on the CORES Menu, then select FRN Financial and the view/make payments option next to the FRN. Select the "Open Bills" tab and find the bill number associated with the NAL Acct. No. The bill number is the NAL Acct. No. with the first two digits excluded (e.g., NAL 1912345678 would be associated with FCC Bill Number 12345678).

[6] For questions regarding payment procedures, please contact the Financial Operations Group Help Desk by phone at 1-877-480-3201 (option #6).

[7] FCC Form 159 is accessible at https://www.fcc.gov/licensing-databases/fees/fcc-remittance-advice-form-159.

[8] Information completed using the Commission's Registration System (CORES) does not require the submission of an FCC Form 159. CORES is accessible at https://apps.fcc.gov/cores/userLogin.do.

[9] Instructions for completing the form may be obtained http://www.fcc.gov/Forms/Form159/159.pdf.

Finally, choose the "Pay from Bank Account" option. Please contact the appropriate financial institution to confirm the correct Routing Number and the correct account number from which payment will be made and verify with that financial institution that the designated account has authorization to accept ACH transactions.

6. Any request for making full payment over time under an installment plan should be sent to: Chief Financial Officer – Financial Operations, Federal Communications Commission, 45 L Street NE, Washington, D.C. 20554. Questions regarding payment procedures should be directed to the Financial Operations Group Help Desk by telephone, 1-877-480-3201, or by e-mail, ARINQUIRIES@fcc.gov.

7. **IT IS FURTHER ORDERED** that a copy of this Forfeiture Order shall be sent by first class mail and certified mail, return receipt requested, to Wilner Baptiste at {[ ]} Gerow Ave, Spring Valley, New York 10977.[10]

**FORFEITURE ORDER**

**Adopted: September 8, 2025** **Released: September 10, 2025**

By the Commission:

1. We impose a penalty of $920,000 against Masner Beauplan (Beauplan), for operating an unauthorized radio station on 91.7 MHz in Irvington, New Jersey. Beauplan engaged in the illicit operation of an unauthorized radio station known as "Radio Leve Kanpe." Operating an unauthorized, or pirate, radio station is illegal under section 511 of the Communications Act of 1934, as amended (Communications Act or Act),[1] and undermines the primary mission of the Federal Communications Commission (FCC or Commission) to manage radio spectrum. Such illegal operations can interfere with licensed communications, including authorized broadcasts and communications by public safety entities. Moreover, such illegal operations pose a danger to the public because they interfere with licensed stations that inform their listeners of important public safety messages, including Emergency Alert System transmissions that provide vital information regarding weather and other dangers to the public.[2]

2. On September 30, 2024, the Commission issued a Notice of Apparent Liability for Forfeiture proposing a $920,000 forfeiture against Beauplan for apparent willful and knowing violations of section 511 of the Act by engaging in pirate radio broadcasting on November 16, 2023 through January 8, 2024, for a total of 46 days.[3] Beauplan has not filed a response to the *NAL*.[4] We incorporate by reference herein, affirm, and adopt as final all of our tentative findings of fact and conclusions of law set forth in the *NAL* and affirm the forfeiture proposed in the *NAL*.[5]

3. Accordingly, **IT IS ORDERED** that, pursuant to section 511 of the Communications Act of 1934, as amended, 47 U.S.C. § 511, and section 1.80 of the Commission's rules, 47 CFR § 1.80, Masner Beauplan is **LIABLE FOR A MONETARY FORFEITURE** in the amount of nine-hundred-twenty-thousand dollars ($920,000) for willfully and knowingly violating section 511 of the Act.

4. Payment of the forfeiture shall be made in the manner provided for in section 1.80 of the Commission's rules, 47 CFR § 1.80, within thirty (30) calendar days after the release of this Forfeiture

[1] 47 U.S.C. § 511.

[2] *See Amendment of Part 11 of the Commission's Rules Regarding the Emergency Alert System*, Report and Order, 37 FCC Rcd 11844, 11845, para. 3 (2022).

[3] *See Masner Beauplan, Middletown, New York*, Notice of Apparent Liability for Forfeiture, 39 FCC Rcd 11193 (2024) (*NAL*); 47 U.S.C. § 511. The *NAL* includes a more complete discussion of the facts and history of this case and is incorporated herein by reference.

[4] On September 30, 2024, a copy of the *NAL* was sent to Masner Beauplan by first class mail and certified mail, return receipt requested. The certified mailing was claimed, and the first class mail was not returned.

[5] Any entity that is a "Small Business Concern" as defined in the Small Business Act (Pub. L. 85-536, as amended) may avail itself of rights set forth in that Act, including rights set forth in 15 U.S.C. § 657, "Oversight of Regulatory Enforcement," in addition to other rights set forth herein.

Order. Beauplan shall send electronic notification of payment to the Office of the Field Director, Enforcement Bureau, Federal Communications Commission, at field@fcc.gov on the date said payment is made. If the forfeiture is not paid within the period specified, the case may be referred to the U.S. Department of Justice for enforcement of the forfeiture pursuant to section 504(a) of the Act, 47 U.S.C. § 504(a).

5. In order for Masner Beauplan to pay the proposed forfeiture, Masner Beauplan shall notify the Office of the Field Director at field@fcc.gov of his intent to pay, whereupon an invoice will be posted in the Commission's Registration System (CORES) at https://apps.fcc.gov/cores/userLogin.do. Payment of the forfeiture must be made by credit card using CORES at https://apps.fcc.gov/cores/userLogin.do, ACH (Automated Clearing House) debit from a bank account, or by wire transfer from a bank account. The Commission no longer accepts forfeiture payments by check or money order. Below are instructions that payors should follow based on the form of payment selected:[6]

- Payment by wire transfer must be made to ABA Number 021030004, receiving bank TREAS/NYC, and Account Number 27000001. In the OBI field, enter the FRN(s) captioned above and the letters "FORF." In addition, a completed Form 159[7] or printed CORES form[8] must be faxed to the Federal Communications Commission at 202-418-2843 or e-mailed to RROGWireFaxes@fcc.gov on the same business day the wire transfer is initiated. Failure to provide all required information in Form 159 or CORES may result in payment not being recognized as having been received. When completing FCC Form 159 or CORES, enter the Account Number in block number 23A (call sign/other ID), enter the letters "FORF" in block number 24A (payment type code), and enter in block number 11 the FRN(s) captioned above (Payor FRN).[9] For additional detail and wire transfer instructions, go to https://www.fcc.gov/licensing-databases/fees/wire-transfer.
- Payment by credit card must be made by using CORES at https://apps.fcc.gov/cores/userLogin.do. To pay by credit card, log in using the FCC Username associated to the FRN captioned above. If payment must be split across FRNs, complete this process for each FRN. Next, select "Manage Existing FRNs | FRN Financial | Bills & Fees" from the CORES Menu, then select FRN Financial and the view/make payments option next to the FRN. Select the "Open Bills" tab and find the bill number associated with the NAL Acct. No. The bill number is the NAL Acct. No. with the first two digits excluded (e.g., NAL 1912345678 would be associated with FCC Bill Number 12345678). After selecting the bill for payment, choose the "Pay by Credit Card" option. Please note that there is a $24,999.99 limit on credit card transactions.
- Payment by ACH must be made by using CORES at https://apps.fcc.gov/cores/userLogin.do. To pay by ACH, log in using the FCC Username associated to the FRN captioned above. If payment must be split across FRNs, complete this process for each FRN. Next, select "Manage Existing FRNs | FRN Financial | Bills & Fees" on the CORES Menu, then select FRN Financial and the view/make payments option next to the FRN. Select the "Open Bills" tab and find the bill number associated with the NAL Acct. No. The bill number is the NAL Acct. No. with the first two digits excluded (e.g., NAL 1912345678 would be associated with FCC Bill Number 12345678). Finally, choose the "Pay from Bank Account" option. Please contact the appropriate financial

[6] For questions regarding payment procedures, please contact the Financial Operations Group Help Desk by phone at 1-877-480-3201 (option #6).

[7] FCC Form 159 is accessible at https://www.fcc.gov/licensing-databases/fees/fcc-remittance-advice-form-159.

[8] Information completed using the Commission's Registration System (CORES) does not require the submission of an FCC Form 159. CORES is accessible at https://apps.fcc.gov/cores/userLogin.do.

[9] Instructions for completing the form may be obtained http://www.fcc.gov/Forms/Form159/159.pdf.

institution to confirm the correct Routing Number and the correct account number from which payment will be made and verify with that financial institution that the designated account has authorization to accept ACH transactions.

6. Any request for making full payment over time under an installment plan should be sent to: Chief Financial Officer – Financial Operations, Federal Communications Commission, 45 L Street NE, Washington, D.C. 20554. Questions regarding payment procedures should be directed to the Financial Operations Group Help Desk by telephone, 1-877-480-3201, or by e-mail, ARINQUIRIES@fcc.gov.

7. **IT IS FURTHER ORDERED** that a copy of this Forfeiture Order shall be sent by first class mail and certified mail, return receipt requested, to Masner Beauplan at {[ ]} Neptune Lane, Middletown, NY 10940.[10]

**MEMORANDUM OPINION AND ORDER**

**Adopted: September 10, 2025** **Released: September 11, 2025**

By the Commission:

## I. INTRODUCTION

1. We have before us an Application for Review filed by Weather Alert Radio Network (WARN) on August 28, 2024.[2] WARN seeks Commission review of a letter decision on reconsideration issued by the Audio Division, Media Bureau (Bureau) on July 30, 2024.[3] The *Reconsideration Letter* upheld the February 23, 2024, dismissal[4] of 105 of WARN's applications for new low power FM (LPFM) stations in communities located in Alabama, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Texas, Virginia, and the U.S. Virgin Islands (Applications).[5] For the reasons stated below, we dismiss and, on alternative and independent grounds, deny the Application for Review.

## II. BACKGROUND

2. WARN filed the Applications during the 2023 LPFM filing window.[6] In each of the Applications, WARN certified that it "proposes a public safety radio service and has jurisdiction within

[1] A list of application file and facility ID numbers is attached in the Appendix hereto.

[2] Pleading File No. 252455.

[3] *Weather Alert Radio Network*, Letter Decision, DA 24-735, Application File Nos. 231542 *et al.* (MB July 30, 2024) (*Reconsideration Letter*).

[4] *Weather Alert Radio Network*, Letter Decision, 39 FCC Rcd 1361 (MB 2024) (*Dismissal Letter*).

[5] *See* Appendix for a list of Applications. While the Commission generally prohibits an entity from holding an attributable interest in more than one LPFM station, WARN sought to rely on an exception to the general prohibition which allows "not-for-profit organizations and governmental entities with a public safety purpose [to] be granted multiple licenses if: (1) one of the multiple applications is submitted as a priority application; and (2) the remaining non-priority applications do not face a mutually exclusive challenge. *See* 47 CFR § 73.855.

[6] *See generally, Media Bureau Announces Filing Procedures and Requirements for November 1 – November 8, 2023, Low Power FM Filing Window*, Public Notice, 38 FCC Rcd 6660 (MB 2023). Based on a request from LPFM advocates, the Bureau subsequently delayed the window until December 6, 2023. *Media Bureau Announces Revised Dates for LPFM New Station Application Filing Window*, Public Notice, 38 FCC Rcd 9589 (MB 2023). The Bureau subsequently extended the close of the window until December 15, 2023. *Media Bureau Announces Extension of LPFM New Station Application Filing Window*, Public Notice, 38 FCC Rcd 11882 (MB 2023).

the service area of the proposed LPFM station."[7] In support of these certifications, WARN attached exhibits to the Applications explaining that it would use the new LPFM stations to "provide current local weather information, preparedness information and local resource information 24 hours per day and 7 days per week."[8] WARN also stated that it had been in contact with various public safety organizations, "each of whom holds jurisdiction as a local, county, state or national government entity" and that these organizations "have agreed to work with [WARN] and have received information and correspondence regarding the programming and proposed application plans of [WARN's] proposed LPFM stations."[9] WARN did not provide any supporting documentation regarding its communications with governmental entities other than listing the names or types of organizations it had contacted, specifically, the National Weather Service, Federal Emergency Management Agency, state and county emergency management departments, and local fire departments.[10]

3. On February 23, 2024, the Bureau dismissed the Applications, finding that WARN did not propose to provide a "public safety radio service" under section 73.853(a)(2) and did not meet the requirements for a "local organization" under section 73.853(b)(3).[11] The Bureau also noted that WARN had not sought waiver of these requirements.[12] Therefore, the Bureau dismissed the Applications as defective pursuant to section 73.3566 of the rules.[13] WARN petitioned for reconsideration of the dismissal of its Applications, arguing that its proposed operations would be in the public interest and requesting waiver of the public safety radio service and local organization requirements.[14]

4. On July 30, 2024, the Bureau issued the *Reconsideration Letter*, denying WARN's waiver requests and affirming that WARN is not a "local organization" within the meaning of section 73.853(b)(3).[15] The Bureau noted that, for an applicant proposing a public safety radio service to be considered a local organization, it must demonstrate that it has jurisdiction within its proposed service area.[16] For a non-governmental entity to have such jurisdiction, the Bureau explained, it must provide written evidence that a governmental entity has contracted with it, designated it, or otherwise authorized it to provide public safety radio services and that the governmental entity has jurisdiction in the service area

[7] Applications, Legal Certifications, Community-Based Criteria.

[8] Applications, Attachments entitled "[State] Exhibit in Support of LPFM Application - Public Safety Radio Program" (Exhibits) at 1.

[9] Exhibits at 2.

[10] *Id*.

[11] *Dismissal Letter*, 39 FCC Rcd at 1361-62 (citing 47 U.S.C. § 309(j)(2)(A) (providing that competitive bidding will not apply to public safety radio services, including private internal radio services used by state and local governments and non-government entities and including emergency road services provided by not-for-profit organizations, that: (i) are used to protect the safety of life, health, or property; and (ii) are not made commercially available to the public), 47 CFR § 73.853(a)(2), (b)(3)); *see also Creation of Low Power Radio Service*, Report and Order, MM Docket No. 99-25, 15 FCC Rcd 2205, 2215, para. 23 (2000) (*2000 LPFM Order*) (stating that "public safety radio services used by state or local governments or not-for-profit organizations, as defined in 47 U.S.C. § 309(j)(2)(A), will be eligible for LPFM licenses").

[12] *Dismissal Letter*, 39 FCC Rcd at 1364.

[13] *See* 47 CFR § 73.3566(a).

[14] Petition for Reconsideration at 2-9. Pleading file numbers for the Petition for Reconsideration with respect to each Application are included in the Appendix.

[15] *Reconsideration Letter* at 3-4. Because it affirmed its finding that WARN had not demonstrated that it was a local organization, the Bureau found that it did not have to reach the issue of whether WARN would be providing a "public safety radio service." *Reconsideration Letter* at 8.

[16] *Reconsideration Letter* at 3.

of the proposed LPFM station.[17] Because WARN had not established that a public safety organization had officially authorized it to provide a public safety radio service on its behalf in the relevant proposed service area, the Bureau affirmed that WARN lacked jurisdiction in those areas and therefore did not qualify as a local organization.[18] The Bureau explained that—although the governmental entity need not have ceded jurisdiction or transferred its authority to the non-governmental applicant—"a [mere] willingness to work or cooperate with WARN is not enough to satisfy the jurisdiction requirement," and that "[t]o find that these types of information sharing relationships satisfy the jurisdiction requirement set forth in section 73.853(b)(3) of the Rules would essentially nullify that requirement."[19]

5. On August 28, 2024, WARN filed the Application for Review. In the Application for Review, WARN argues that, because the Commission had not previously defined "jurisdiction" in a publicly-available rule, regulation, or policy, "the Bureau's position on the question of jurisdiction is not based on any controlling precedent but, rather, is based on an unlawful attempt by the Bureau to *ad hoc* impose an interpretation which is beyond its authorization."[20] WARN contends that by requiring a non-governmental applicant to provide evidence of authority deriving from a governmental source in order to satisfy the jurisdictional requirement, the Bureau had: (1) "effectively adopted new regulatory provisions" in violation of the Administrative Procedures Act (APA);[21] (2) exceeded its delegated authority by promulgating new rules and deciding novel questions of fact, law, or policy;[22] and (3) unlawfully imposed retroactive obligations and restrictions on WARN.[23]

## III. DISCUSSION

6. We dismiss and, as a separate and independent ground for disposal, deny the Application for Review. An application for review of a final action taken on delegated authority will be granted when, *inter alia*, such action: conflicts with statute, regulation, precedent or established Commission policy; involves a question of law or policy which has not previously been resolved by the Commission; involves application of a precedent or policy that should be overturned; or makes an erroneous finding as to an important or material factual question.[24] The Commission's rules do not permit the grant of an application for review "if it relies on questions of fact or law upon which the designated authority has

[17] *Id.* at 4-5.

[18] *Id.* at 4.

[19] *Id.* at 4-5. The Bureau went on to analyze WARN's waiver requests, concluding that they did not meet the waiver standard set out in *WAIT Radio* and *NetworkIP*. *Reconsideration Letter* at 5 (citing *WAIT Radio v. FCC*, 418 F.2d 1153, 1157-58 (D.C. Cir. 1969), *aff'd,* 459 F.2d 1203 (1972), *cert. denied*, 93 S. Ct. 461 (1972); *NetworkIP, LLC v. FCC*, 548 F.3d 116, 127 (D.C. Cir. 2008)).

[20] Application for Review at 7. WARN also argues that "weather" is a permitted public safety service to local communities. *Id*. at 5. The Bureau did not address the issue of whether WARN would be providing a public safety radio service on reconsideration because the Bureau affirmed its "finding that WARN was not eligible to be an LPFM licensee on other grounds, (*i.e.,* WARN's failure to demonstrate that it has jurisdiction in each of the service areas of the LPFM stations proposed in the Applications)." *Reconsideration Letter* at 8; *see also, supra,* note 15 and *infra,* note 26.

[21] *See* 5 U.S.C. § 533(b)-(c) (requiring that new rules must be adopted through notice-and-comment rulemaking procedures, except for interpretive rules, general statements of policy, or rules of agency organization, procedure, or practice, or when the agency finds good cause that such procedures are impracticable, unnecessary, or contrary to the public interest).

[22] *See* 47 CFR § 0.283(c) (requiring that the Bureau refer to the Commission "[m]atters that present novel questions of law, fact or policy that cannot be resolved under existing precedents and guidelines").

[23] Application for Review at 9 (citing *Brown v. Georgetown University Hospital*, 488 U.S. 204, 208 (1988)).

[24] 47 CFR § 1.115(b)(2).

been afforded no opportunity to pass."[25] We first analyze the relevant rule and the Bureau's application of the rule to the facts presented, and then address each of WARN's arguments separately.

7. For the reasons set forth herein, we affirm the Bureau's conclusion in the *Reconsideration Letter* that WARN failed to demonstrate that it meets the jurisdictional requirement necessary for the new LPFM stations proposed in its applications.[26] At issue here is the requirement set out in section 73.853(b)(3) that a non-governmental entity applicant proposing an LPFM public safety radio service must have "jurisdiction within the service area of the proposed LPFM station."[27] The Commission restricts the types of entities that may hold LPFM authorizations and the types of service those entities may provide.[28] Among the entities eligible to hold LPFM authorizations are "[s]tate and local governments and non-government entities that will provide noncommercial public safety radio services."[29] The Commission requires that all entities receiving LPFM authorizations be local (i.e., based in the community their proposed LPFM stations will serve).[30] According to the Commission, the benefits gained by a community-based requirement is that it "maximiz[es] the likelihood that LPFM stations are operated by entities grounded in the communities they serve" and thus will "respond to the highly local interests that are not necessarily being met by full-power stations."[31] In the case of a state or local government or non-governmental entity proposing a noncommercial public safety radio service, the Commission considers the entity to be local if it "has jurisdiction within the service area of the proposed LPFM station."[32] When it adopted this jurisdictional requirement in 2000, the Commission explained that "[a]n organization providing public safety radio services will be considered community-based in the area over which it has jurisdiction," for example, "a Virginia TIS [travelers' information station] entity would be eligible to apply for an LPFM license anywhere in the state of Virginia but not in any other state."[33]

8. Neither section 73.853(b)(3) nor the *2000 LPFM Order* contains a definition of the term "jurisdiction." We thus give the term its ordinary, common meaning by looking to the definition at the time the rule was promulgated.[34] The term "jurisdiction" is defined to mean "a geographic area within

---

[25] 47 CFR § 1.115(c).

[26] *Reconsideration Letter* at 3-4. To the extent that the Application for Review questions the Bureau's prior finding that WARN's proposed service is not a public safety radio service, *see* Application for Review at 4-6, we need not resolve that issue here. As the Bureau explained in the *Reconsideration Letter,* because WARN is not eligible to be an LPFM licensee for failure to establish that it has jurisdiction within the service area of its proposed stations, as discussed herein, we need not reach WARN's other arguments concerning eligibility. *See Reconsideration Letter* at 8; *see also supra* notes 15, 20.

[27] 47 CFR § 73.853(b)(3) ("In the case of any applicant proposing a public safety radio service, the applicant has jurisdiction within the service area of the proposed LPFM station.").

[28] 47 CFR § 73.853(a).

[29] 47 CFR § 73.853(a)(2). The other eligible entities and services are: (1) nonprofit educational organizations that will use their LPFM stations to advance an educational program; and (2) Tribal applicants that will provide noncommercial radio services. *Id*. § 73.853(a)(1),(3).

[30] 47 CFR § 73.853(b).

[31] *2000 LPFM Order,* 15 FCC Rcd at 2219, para. 33.

[32] 47 CFR § 73.853(b)(3).

[33] *2000 LPFM Order*, 15 FCC at 2219, para. 33 and n.65. Travelers' Information Stations or TIS (also called Highway Advisory Radio) was created in 1977 for the purpose of disseminating information by broadcast radio to travelers and is available only to governmental entities and park districts and authorities, but not to individuals or groups. *See* https://www.fcc.gov/media/radio/travelers-information-stations-search; *see also* 47 CFR § 90.242.

[34] "It is fixed law that words of statutes or regulations must be given their 'ordinary, contemporary, common meaning.'" *FTC v. Tarriff,* 584 F.3d 1088, 1090 (D.C. Cir. 2009) (citation omitted). We thus consult the dictionary definition at the time the rule was adopted to determine the meaning of the term in its ordinary sense. *See, e.g., Johnson v. Aljian,* 490 F.3d 778, 780 (9th Cir. 2007) ("[W]e follow the common practice of consulting dictionary definitions to clarify their ordinary meaning [ ] and look to how the terms were defined at the time [the statute] was

(continued….)

which political or judicial authority may be exercised" and "the territorial range of authority."[35] The *2000 LPFM Order* emphasized the need for LPFM public safety radio service applicants (government or otherwise) to demonstrate their "jurisdiction" in the station's proposed service area, citing an example of when a Virginia TIS would (and would not) meet the eligibility requirements to apply for an LPFM license.[36] We thus reject WARN's argument that the "Bureau's position on the question of jurisdiction is not based on controlling precedent" and is an "*ad hoc* … interpretation which is beyond its authority."[37] To the contrary, the Bureau's determination is supported by the language of the rule itself and consistent with the ordinary meaning of the term "jurisdiction." That is, the Bureau properly found that the rule requires "*any* applicant proposing a public safety radio service"—including a non-governmental entity such as WARN—to satisfy the jurisdictional requirement.[38] And, based on the ordinary meaning of the term "jurisdiction," the Bureau properly found that WARN must demonstrate either that it, itself, has the power to exercise authority within the service areas of the proposed LPFM stations or that WARN had established a relationship with a governmental body that would confer such status upon it.[39] Indeed, this is consistent with how the Bureau analyzed other non-governmental LPFM applicants in the 2023 filing window that claimed eligibility based on the provision of a public safety radio service.[40]

9. We reject WARN's argument that dismissal of WARN's application as defective was "an improper utilization of power by the Commission."[41] The *Reconsideration Letter* explained that after reviewing the Applications and Exhibits, the Bureau was unpersuaded and gave no weight to WARN's unsubstantiated assertions that "a mountain of communication, implied contracts, verbal agreements, authorizations and communications by public safety agencies" establishes WARN's "jurisdiction" in the proposed service areas.[42] WARN did not submit any of the supporting materials to the Commission with

(Continued from previous page)
adopted"). Accordingly, there is no merit to WARN's complaints about the term "jurisdiction" not being defined in the rule. *See* Application for Review at 7. Our construction is consistent with commonly accepted interpretive tools. *See, e.g., Tarriff; Aljian.*

[35] *See, e.g., Black's Law Dictionary* 855 (7th ed. 1999) (defining "jurisdiction" as "a government's general power to exercise authority over all persons and things within its territory"; "A geographic area within which political or judicial authority may be exercised"); *see also Webster's New World College Dictionary* 777 (4th ed. 1999), *available at https://archive.org/details/webstersnewworld00agne_0/page/776/mode/2up* (defining "jurisdiction" as "(1) the administration of justice; authority or legal power to hear and decide cases; (2) authority or power in general; (3) a sphere of authority; (4) the territorial range of authority"). Both sources separately list the jurisdiction of a court of law, which is not at issue here.

[39] *Reconsideration Letter* at 2-3.

[40] *See, e.g., Portsonic Communications, LLC*, Letter Decision, 2024 WL 1137977 (MB 2024) (finding that non-governmental entity failed to demonstrate either that it had jurisdiction in its proposed service area or had been authorized "by any of the traditional public safety organizations that do hold jurisdiction in its service area"); *EMC Squared Communications, Inc.*, Letter Decision, 2024 WL 2954005 (MB 2024) (finding that a non-governmental entity had not been authorized by a "traditional public safety organization"); Application File Nos. 233048, 233049, 233050, 233051, 233053, 233054, 233055, 233056. *See also Actions*, Public Notice, Report No. PN-2-240613-01, at 2, 3, 4, 9 (MB June 13, 2024) (granting eight Trinity County Information Service, Inc. LPFM applications that demonstrated jurisdiction by submitting a letter from a local governmental public safety entity designating the LPFM applicant as a "non-governmental public safety information entity").

[41] *See* Application for Review, note 1.

[42] *Reconsideration Letter* at 4. According to WARN, in "a phone call prior to the window, FCC staff requested that WARN send their proposed exhibit regarding its contacts/contracts with the various public safety agencies, which it did" and that it "believed its example list of contacts and relationships with various public safety agencies provided
(continued….)

the Applications.[43] Moreover, despite the fact that the *Dismissal Letter* denounced WARN's failure to offer evidence substantiating its jurisdictional claim, WARN did not seek to cure this defect and/or submit any of the supporting materials with its Petition for Reconsideration.[44] Rather it simply repeated its offer to provide the materials to the Commission if requested to do so.[45] We uphold the Bureau's determination that WARN's unsubstantiated assertions of jurisdiction in the proposed service areas deserved no weight.[46] Accordingly, we find that the Bureau's dismissal of the Applications as defective and denial of the Petition for Reconsideration was proper on these grounds.

10. WARN further argues that the Bureau's actions constitute APA violations and retroactive rulemaking because the Bureau "effectively adopted new regulatory provisions that were not in effect" when WARN's applications were filed.[47] We disagree. At the outset we note that WARN did not present these arguments to the Bureau, although it had the opportunity to do so. Therefore, we dismiss these arguments on procedural grounds.[48] As separate and independent grounds, we also deny these arguments on the merits. In evaluating whether an applicant meets the eligibility requirements for a new LPFM station, Commission staff must examine the Application and supporting documentation to determine compliance with regulatory requirements. That is precisely what the Bureau did here. That is, the Bureau examined whether WARN, a non-governmental entity, satisfied the jurisdictional requirement in section 73.853(b)(3) for new LPFM stations used for public safety purposes. The Bureau found that the information WARN provided fell short because all it indicated was that "various public safety organizations are willing to work with it" and described a relationship in which "all these public safety organizations appear to be doing is providing WARN with access to information that is available to all members of the public through other sources."[49] The Bureau explained that public safety organizations' "willingness to work or cooperate with WARN is not enough to satisfy the jurisdiction requirement."[50] This assessment does not amount to impermissible rulemaking as WARN contends, but rather was a relevant factor and inquiry in analyzing whether WARN's relationship with its various governmental contacts was of a nature that satisfied the jurisdiction requirement of the rule. We also agree with the Bureau that expanding the meaning of "jurisdiction" to include the type of informal information-sharing

(Continued from previous page)
to staff via email" would "suffice" since it did not receive a further response. Application for Review at 4. The *Reconsideration Letter* disposed of this argument, explaining that WARN acknowledged that informal staff advice is not binding and that WARN mischaracterized its interactions with staff. *Reconsideration Letter* at 5-6. The Application for Review does not challenge the Bureau's findings on this point.

[43] *Reconsideration Letter* at 4 (*citing* Applications, at Exhibits). According to WARN, the Exhibits to its Applications "had certified that 'it proposed a public safety radio service and has jurisdiction in the service area of the proposed LPFM stations'"; that WARN "has been in contact with Florida public safety organizations, each of which has jurisdiction as a local county, state or national government entity"; and that the "organizations 'have agreed to work with [WARN] and have received information and correspondence regarding the programming and proposed application plans of [WARN's] proposed LPFM stations' in that state." Application for Review at 2.

[44] *Reconsideration Letter* at 4.

[45] *Id.*

[46] *Id.*

[47] Application for Review at 7-9. We need not address WARN's contention that the Bureau had engaged in *ultra vires* actions because it lacked the delegated authority to promulgate or amend rules. *See id.* Our decision here resolves this question because, as explained herein, the Bureau's actions did not amount to impermissible rulemaking. *See also Murray Energy Corp. v. FERC,* 629 F.3d 231, 236 (D.C. Cir. 2011) (agency's ratification of staff decision resolved any potential problems with staff's exercise of delegated authority).

[48] 47 CFR § 1.115(c).

[49] *Reconsideration Letter* at 4.

[50] *Id.*

arrangement at issue here would not only strain the meaning of the word "jurisdiction" beyond the term's ordinary meaning[51] but, from a practical standpoint, would essentially nullify the requirement.[52]

11. We also affirm the examples provided by the Bureau of ways in which non-governmental entities such as WARN could satisfy the jurisdictional requirement in section 73.853(b)(3). Specifically, a non-government entity proposing to use an LPFM station to provide a public safety radio service could provide documentation demonstrating that a governmental entity with jurisdiction in the relevant area has contracted with, designated, delegated, or otherwise formally authorized the applicant to provide public safety radio services on its behalf.[53] Moreover, we do not preclude other ways in which a non-governmental entity can satisfy the jurisdiction requirement, which will be assessed on a case-by-case basis.

12. *Conclusion.* For the foregoing reasons, we dismiss, and, as a separate and independent basis for disposal, deny the Application for Review.

## IV. ORDERING CLAUSES

13. IT IS ORDERED that, pursuant to Section 5(c)(5) of the Communications Act of 1934, as amended,[54] and Section 1.115(g) of the Commission's Rules,[55] the Application for Review filed by Weather Alert Radio Network on August 28, 2024, (Pleading File No. 252455) IS DISMISSED and, as a separate and independent basis for disposal, IS DENIED.

FEDERAL COMMUNICATIONS COMMISSION

Marlene H. Dortch

**MEMORANDUM OPINION AND ORDER**

**Adopted: September 10, 2025** **Released: September 12, 2025**

By the Commission:

## I. INTRODUCTION

1. By this *Memorandum Opinion and Order*, the Commission considers three Applications for Review (AFR) that each challenge the dismissal by the Media Bureau (Bureau) of the challenger's respective application for a new low power FM (LPFM) construction permit filed in the 2023 LPFM filing window.[1] The Bureau dismissed the applications of (1) the University of Wisconsin-Milwaukee (UWM) for a new LPFM station at Milwaukee, Wisconsin (UWM Application),[2] (2) All Music Portland (AMP) for a new LPFM station at Hillsboro, Oregon (AMP Application),[3] and (3) Creative Arkansas Community Hub & Exchange (CACHE) for a new LPFM station at Springdale, Arkansas (CACHE

[1] *Media Bureau Announces Filing Procedures and Requirements for November 1 – November 8, 2023, Low Power FM Filing Window*, Public Notice, 38 FCC Rcd 6660 (MB 2023) (Procedures Public Notice). Based on a request from LPFM advocates, the Bureau subsequently delayed the window until December 6, 2023. *Media Bureau Announces Revised Dates for LPFM New Station Application Filing Window*, Public Notice, 38 FCC Rcd 9589 (MB 2023). The Bureau subsequently extended the close of the window until December 15, 2023. *Media Bureau Announces Extension of LPFM New Station Application Filing Window*, Public Notice, 38 FCC Rcd 11882 (MB 2023).

[2] Application File No. 0000231836 (filed Dec. 7, 2023).

[3] Application File No. 0000232422 (filed Dec. 12, 2023).

Application),[4] for violating the minimum distance separation requirements of section 73.807 of the Commission's rules (Rules).[5] Under section 73.870(c) of the Rules, the applicants were not permitted to file curative amendments.[6] In substantially similar AFRs, each applicant requests reinstatement of its application, claiming the public interest would be served by allowing applicants to correct clerical errors, particularly for a noncommercial service such as LPFM. For the reasons set forth below, we affirm the dismissal of each application, dismiss in part and otherwise deny the three Applications for Review.

## II. BACKGROUND

2. *Sections 73.807(a) and 73.870(c).* Applicants for new LPFM stations in the 2023 LPFM filing window were required to protect authorized FM stations, pending applications for new and existing FM stations filed prior to the release of the *Procedures Public Notice*, authorized LPFM stations, and vacant FM allotments, by meeting the minimum distance separation (spacing) requirements specified in section 73.807 of the Rules.[7] Pursuant to section 73.870(c), the Bureau was required to dismiss without opportunity to amend any application submitted during a 2023 LPFM filing window that failed to meet the minimum spacing requirements of section 73.807.[8] The Bureau warned LPFM applicants in the *Procedures Public Notice* that, "[c]onsistent with established processing rules, an LPFM application that fails to protect these authorizations . . . will be *dismissed with no opportunity to correct the deficiency*."[9]

3. *Technical Acceptability – Tech Box.* In 2014, the Commission in *Diocese of Portland* announced a "clear policy" explaining how it would resolve inconsistencies in the specification of antenna sites in radio station applications.[10] The Commission acknowledged that there had been "apparent ambiguity" in the law in this area but stated that going forward the Bureau staff should rely *only* on the technical parameters specified within the discrete data fields contained in the technical portion of a radio station application (previously referred to as the "Tech Box," now referred to as "Technical Sections") when determining technical acceptability, without resort to any other data submitted elsewhere in the application or attachments.[11] The Commission stated[12] that this policy would cover applications

[4] Application File No. 0000232505 (filed Dec. 12, 2023).

[5] 47 CFR § 73.807.

[6] *Id.* § 73.870(c). Pursuant to section 73.870(c), any application submitted during an LPFM filing window that fails to meet the minimum distance separation requirements of section 73.807 will be dismissed "without any opportunity to amend."

[7] 47 CFR § 73.807(a).

[8] *See id.* § 73.870(c).

[9] *Procedures Public Notice*, 38 FCC Rcd at 6662, n.14 (emphasis in original) (citing *Low Power FM Filing Window*, Public Notice, 15 FCC Rcd 24817, 24818 (MB 2000). *See also Media Bureau Announces Availability of the Revised FCC Form 318 and the Filing Procedures for October 15-October 29, 2013 Low Power FM Filing Window*, Public Notice, 28 FCC Rcd 8854, 8855 (MB 2013); *see also Christian Charities Deliverance Church*, Memorandum Opinion and Order, 30 FCC Rcd 10548, 10549-50, para. 5 (2015) (*Christian Charities*) (affirming section 73.870(c) dismissal of applications for failure to meet minimum spacing requirements).

[10] *See Roman Catholic Diocese of Portland*, Memorandum Opinion and Order, 29 FCC Rcd 15068, 15069, para. 2 (2014) (*Diocese of Portland*).

[11] *See Diocese of Portland*, 29 FCC Rcd at 15069, 15072, paras. 2, 8 (directing staff to "make any technical and legal evaluations of, and take any actions regarding, such applications based upon the stated antenna location coordinates specified in the Tech Box, without resort to any other data in the Tech Box or elsewhere in the application or attachments. Such staff actions may include, but are not limited to, dismissal of such defective applications and refusal to accept amendments where such amendments would conflict with accurate and rule-compliant window-filed applications." The Commission explicitly applied this guidance to equivalents to the Tech Box in future forms.).

[12] *See id.* at 15062, para. 2.

filed under FCC Form 318, which covers LPFM applications.[13] Moreover, in the *Procedures Public Notice* issued shortly before the 2023 LPFM filing window, the Bureau reminded LPFM applicants of the Commission's policy and cautioned them to "carefully review the channel and antenna location coordinates, and all data specified" in the Technical Sections and "to ensure the information is accurate and contains no typographical errors."[14] The Bureau indicated that "staff will make technical evaluations based on the channel specified in the 'Channel and Facility Information' section and the antenna location coordinates specified in the 'Antenna Location Data' section and will *not* review attachments or information specified elsewhere in the application to resolve discrepancies caused by typographical or other applicant error."[15]

4. *Section 73.807(a) Dismissals and Petitions for Reconsideration.* Each of the disputed applications contained a discrepancy in the required technical data. In each case, the applicant submitted station coordinates or channels in response to the required Technical Questions that differed from the technical information contained in exhibits or attachments to the application.[16] The Bureau dismissed the UWM, AMP, and CACHE applications because each failed to meet the minimum distance separation requirements of section 73.807(a).[17] The Bureau explained that an amendment was not permitted under section 73.870(c) of the Rules.[18] UWM, AMP, and CACHE each filed a separate Petition for Reconsideration.[19] UWM and AMP each requested reinstatement of its respective application in order to amend the UWM Application and AMP Application, respectively, to change the proposed station coordinates listed in the application Technical Sections to the coordinates each applicant had listed in its Second Adjacent Channel Waiver Request.[20] CACHE requested reinstatement of its application to change its proposed station channel as listed in the application Technical Sections from Channel 295 to

[13] Since *Diocese of Portland*, the Bureau has transitioned from the Consolidated Database System (CDBS) to the Licensing and Management System (LMS). In CDBS, the engineering portion of the form included a marked portion titled "Tech Box," which contained specific engineering questions pertinent to the radio service applied for and critical technical data required for engineering review. LMS applications use a different layout and no longer include a subsection explicitly labeled as the "Tech Box." Instead, technical information in the LMS LPFM construction permit application, FCC Form 2100, Schedule 318, is found in the Channel and Facility Information section and the Antenna Location Data section, or "Technical Sections." Thus, the Channel and Facility Information section and the Antenna Location Data section of the FCC Form 2100, Schedule 318, Low Power FM Station Construction Permit Application are the updated LMS version of the "Tech Box." For the purposes of this Order, we refer to them as the "Technical Sections."

[14] *Procedures Public Notice,* 38 FCC Rcd at 6667 (citing *Diocese of Portland*).

[15] *Id.*

[16] *See* UWM, AMP, and CACHE Applications at Technical Sections.

[17] UWM failed to meet the minimum distance spacing requirements of section 73.807(a) with respect to (1) the co-channel license of station WMBI-FM, Chicago, Illinois, and (2) the second adjacent channel license of station WMTH(FM), Park Ridge, Illinois. AMP failed to meet the section 73.807(a) spacing requirements with respect to (1) the co-channel license of station KFFD-LP, Beaverton, Oregon, and (2) the second-adjacent channel licenses of stations KLVP(FM), Aloha, Oregon, and KUPL(FM), Portland, Oregon. CACHE failed to meet the section 73.807(a) spacing requirements with respect to: (1) the co-channel license of station K295BS, Bentonville, Arkansas; (2) the first-adjacent channel license of KTHS-FM, Berryville, Arkansas; and (3) the second-adjacent channel license of station KBVA(FM), Bella Vista, Arkansas.

[20] UWM Petition at 1-2; AMP Petition at 1-2.

Channel 298. While CACHE had listed Channel 295 in the application Technical Section, it specified both Channel 295 and Channel 298 in its Second Adjacent Channel Waiver Request.[21] UWM, AMP, and CACHE each acknowledged that its application Technical Sections listed inaccurate data due to typographical errors but argued that (1) its Second Adjacent Channel Waiver Request clearly identified the correct, intended coordinates, or intended station channel;[22] and (2) the Bureau dismissed similar LPFM applications in the 2013 LPFM filing window due to section 73.807 location typographical errors, but the applicants corrected those errors, and the Bureau reinstated the applications.[23]

5. *Bureau Reconsideration Decisions.* The Bureau denied the UWM, AMP, and CACHE Petitions, upholding its dismissal of the applications and conclusion that each application, based on the coordinates or channel specified within the application Technical Sections, failed to meet the minimum distance separation requirements of section 73.807(a).[24] The Bureau also reiterated that, consistent with established processing rules, dismissed LPFM applicants are prohibited from filing amendments to correct violations of section 73.807.[25] The Bureau held that typographical error claims cannot be used to justify filing an otherwise prohibited amendment.[26] The Bureau further stated that permitting amendments to correct section 73.807 minimum distance separation violations would be unfair to the many applicants who fully complied with the rules and filing requirements, frustrate the processing efficiencies which sections 73.807(a) and 73.870(c) were designed to promote, and would therefore, be contrary to the public interest.[27] Finally, the Bureau found that UWM, AMP, and CACHE's reliance on the 2013 reinstated applications was misplaced. Specifically, the Bureau explained that the 2013 reinstated applications predated *Diocese of Portland*, a 2014 case where the Commission clarified that, going forward, it would rely solely on Technical Sections data to determine technical acceptability and prohibit applicants from curing a location deficiency in an application with a prohibited amendment.[28]

6. *Applications for Review*. UWM, AMP, and CACHE (collectively, Applicants) filed substantially similar Applications for Review (UWM, AMP, and CACHE AFRs, respectively)[29] in which

Also before us is an Informal Objection to the UWM AFR, Pleading File No. 0000246909 (filed June 25, 2024) (UWM AFR Objection). In the UWM AFR Objection, filed by B. Benjamin Evans (Evans), Evans argues that the *UWM Reconsideration Decision* should be affirmed, and the UWM AFR should be denied on the same basis. Evans also argues that aside

(continued….)

they each argue that: (1) as previously raised in the UWM, AMP, and CACHE Petitions, applicants should be able to amend errors that are clerical in nature and not substantive;[30] (2) the Bureau's dismissal of their applications without opportunity to amend was inconsistent with Commission precedent and thus arbitrary, capricious, and contrary to law in violation of the Administrative Procedure Act;[31] (3) there is "good cause" to reinstate the applications because increasing processing flexibility for noncommercial applicants is in the public interest, and the FCC's reliance on processing efficiency is unpersuasive due to vast decreases in the number of new applications, efficiencies from new technologies, and inefficiencies caused by the processing of numerous petitions for reconsideration and applications for review;[32] (4) the section 73.870(c) dismissals are draconian in that the FCC treats LPFM applicants more harshly than other broadcast services by allowing other services *nunc pro tunc* reinstatement;[33] and (5) as previously raised in the UWM, AMP, and CACHE Petitions, prior applications that violated section 73.807 have been reinstated.[34] The Applicants also assert that *Diocese of Portland* is not applicable to their applications because: (1) contrary to the Bureau's interpretation, *Diocese of Portland* does not apply to singleton[35] applications; it only applies in the mutually exclusive comparative consideration context, whereas in the LPFM context, Technical Sections coordinates do not grant an LPFM applicant a comparative advantage;[36] (2) applicants for new noncommercial educational (NCE) FM stations have made Technical Sections amendments after *Diocese of Portland*;[37] (3) *Diocese of Portland* does not apply to typographical errors concerning channel changes, only to those concerning antenna location, and *Diocese of Portland* should not apply to the entire Technical Sections;[38] and (4) the "defer to the Tech Box" approach was only "codified" for commercial stations.[39] Finally, the Applicants argue that (1) unsophisticated LPFM applicants should not be expected to submit error-free applications when the

(Continued from previous page)
from the reasons laid out in the *UWM Reconsideration Decision*, UWM violated the signature rule because the UWM Application was signed by an undergraduate student, not an officer or director, or a party to the UWM Application. In view of our decision today to affirm the Bureau's findings in the *UWM Reconsideration Decision*, the UWM AFR Objection is moot and is hereby dismissed.

[30] UWM AFR at 15-16; AMP AFR at 16-17; CACHE AFR at 16-17.

[38] UWM AFR at 25-26, AMP AFR at 26-27, and CACHE AFR at 26-27.

[39] UWM AFR at 27, AMP AFR at 28, and CACHE AFR at 28, citing *1998 Biennial Regulatory Review - Streamlining of Mass Media Applications, Rules, and Processes*, Report and Order, 13 FCC Rcd 23056, 23082, para. 57 ("[i]n the event of any discrepancies between data in the 'Tech Box' and data submitted elsewhere in the application, the data in the 'Tech Box' will be used.") (1998) (*1998 Streamlining R&O*), recon. granted in part, Memorandum Opinion and Order, 14 FCC Rcd 17525 (1999).

FCC's own LPFM Channel Finder was down or malfunctioning prior to the closing window;[40] and (2) LPFM applicants lack the funds to hire experts to file applications and subsequent petitions for reconsideration and applications for review.[41]

## III. DISCUSSION

7. An application for review of a final action taken on delegated authority will be granted when, *inter alia*, such action: conflicts with statute, regulation, precedent or established Commission policy; involves a question of law or policy which has not previously been resolved by the Commission; involves application of a precedent or policy that should be overturned; or makes an erroneous finding as to an important or material factual question.[42] As set forth below, we find that the Applicants have failed to demonstrate the Bureau erred and thus we affirm the dismissal of the UWM, AMP, and CACHE Applications for the reasons stated in the *UWM, AMP, and CACHE Reconsideration Decisions*, and reject the remaining arguments in the UWM, AMP, and CACHE AFRs.

8. *Procedural Matters*. A number of Applicants' arguments are procedurally defective because they should have been previously presented to the Bureau as required by section 5(c)(5) of the Communications Act[43] and section 1.115(c) of the Commission's Rules, which provides that "[n]o application for review will be granted if it relies on questions of fact or law upon which the designated authority has been afforded no opportunity to pass."[44] The *UWM, AMP, and CACHE Reconsideration Decisions* addressed and rejected Applicants' assertions that clerical, non-substantive errors should be amendable; and that the Bureau has previously reinstated 2013 applications with similar errors.[45] In the UWM, AMP, and CACHE AFRs, Applicants also raise various new arguments regarding section 73.870(c) and *Diocese of Portland*,[46] contending, for the first time that: LPFM applicants are treated more unfairly relative to other broadcast applicants[47] and deserve more flexibility in the processing of their applications;[48] the Commission's reliance on processing efficiency is unpersuasive;[49] and that the dismissal of their applications violates the Administrative Procedure Act.[50] We dismiss the AFRs as procedurally defective to the extent they rely on these new arguments that were not previously presented to the Bureau.[51] As an alternative and independent ground for resolving these issues, we deny them on the merits.

9. *Diocese of Portland*. We uphold the Bureau's finding that the technical information in the LPFM application must satisfy section 73.807 and that applicants cannot rely on exhibits or attachments that contradict the specifications in the Technical Sections part of the application. In *Diocese*

*of Portland,* the Commission announced a new policy, requiring that antenna location coordinates specified in FCC radio applications "be set forth accurately."[52] The Commission directed that Bureau staff may rely *only* on the technical parameters specified within the Technical Sections of a radio station application when determining technical acceptability and that staff may dismiss defective applications without accepting amendments.[53] We reject Applicants' argument that *Diocese of Portland* applies only to mutually exclusive applications, or to applications where a comparative advantage can be gained or lost. While the *Diocese of Portland* decision concerned applications for new NCE FM stations, the Commission did not limit its decision to only NCE FM applicants or mutually exclusive applicants. Rather, the Commission stated that its decision applied to all radio station applications. Specifically, the Commission noted that its decision was based "on an apparent ambiguity in the state of the decisional law in this area . . . [and] announce[d] a clear policy with regard to inconsistencies in the specification of antenna sites for applicants in future radio station applications, under which staff will review an FCC Form 301, 318 [LPFM construction permit application], or 340 application based *solely* on the site coordinates provided by the applicant in response to the specific application question calling for them, without reference to any other information submitted in the application."[54] The Applicants' argument ignores the Commission's explicit application of its holding in *Diocese of Portland* to the LPFM service.[55]

10. We further reject Applicants' assertion that *Diocese of Portland* applies only to antenna location data, and not channel selection errors. Although the Commission emphasized in *Diocese of Portland* that "antenna location coordinates represent perhaps the most crucial technical datum in an application, as it determines the proposed facility's compliance with general technical rules such as channel spacing,"[56] the proposed station channel is equally vital in determining compliance with the spacing requirements in section 73.807.[57] Additionally, the Commission has been clear in both the *1998 Streamlining R&O* and *Diocese of Portland* that when determining technical acceptability, Bureau staff should rely on the technical data specified within the Technical Sections of the application.[58] The antenna location coordinates and channel are both encompassed within the Technical Sections' technical parameters.

11. In any event, any doubt as to the scope and application of *Diocese of Portland* to the

[52] *Diocese of Portland*, 29 FCC Rcd at 15072, para. 8.

[53] *See Diocese of Portland*, *supra* note 10.

[54] *Id.* at 15069, para. 2 (emphasis added).

[55] *Id.* at 15069 and 15072, paras. 2 and 8 (clarifying that "we will require henceforth, for radio station applications, that the antenna location coordinates specified in Item 3 of the FCC Form 340 Tech Box, in Item 2 of the FCC Form 318 Tech Box, and in the Tech Boxes of FCC Form 301, or their equivalents in future form revisions, be set forth accurately."). We also reject Applicants' claims that the processing policy announced in the *1998 Streamlining R&O*, which concluded that staff resources should not be consumed by guesswork when applications contain conflicting information or errors, applies only to commercial station applications. UWM AFR at 27, AMP AFR at 28, and CACHE AFR at 28. While the Commission commenced its streamlining initiative by first reorganizing the commercial broadcast construction permit application (then-FCC Form 301), in *Diocese of Portland*, the Commission, explicitly referencing the *1998 Streamlining R&O*, clearly held that Bureau staff should look only at the Tech Box antenna data for all radio station applications, including LPFM applications. *See Diocese of Portland*, 29 FCC Rcd at 15071, para. 7.

[56] *Diocese of Portland*, 29 FCC Rcd at 15071, para. 7.

[57] When reviewing new LPFM application technical proposals, the key elements needed to determine compliance with the LPFM spacing requirements are the antenna location coordinates and the proposed channel. Without the channel and antenna coordinates data, it is impossible to perform a spacing analysis and thus determine compliance with the section 73.807 minimum distance separation requirements. *See* 47 CFR § 73.807.

[58] *See Diocese of Portland*, 29 FCC Rcd at 15072, para. 8; *1998 Streamlining R&O*, 13 FCC Rcd at 23081 para. 57.

2023 LPFM filing window was resolved in the *Procedures Public Notice* issued before the window opened, where the Bureau explicitly notified LPFM applicants that it would make technical evaluations "based on *the channel* specified in the 'Channel and Facility Information' section and *the antenna location coordinates* specified in the 'Antenna Location Data' section and will *not* review attachments or information specified elsewhere in the application to resolve discrepancies caused by typographical or other applicant error."[59]

12. *2013 Reinstated Applications.* We affirm the Bureau's finding in the *UWM, AMP, and CACHE Reconsideration Decisions* that the staff's reinstatement in 2013 of certain applications after the applicants corrected technical parameters, including to address section 73.807 spacing violations, is irrelevant to the 2023 LPFM filing window. As an initial matter, we note that these staff actions are not binding on the Commission.[60] In addition, mere reinstatement of an application without an accompanying explanation of the basis for the decision has no precedential value.[61] In any event, the Applicants overlook the fact that all the *2013 Reinstated Applications* cases predated *Diocese of Portland*, where the Commission clarified that it would, *going forward*, rely *solely* on Technical Sections data to determine technical acceptability.[62] Further, the Commission declared that the new policy announced in *Diocese of Portland* would overrule any previous, inconsistent precedent.[63] Since *Diocese of Portland*, the Commission has consistently adhered to this practice.[64]

13. We also reject Applicants' assertion that applicants for new NCE FM stations that have been allowed to amend Technical Section errors post-*Diocese of Portland* has any bearing here.[65] Again, as with the reinstatement of the pre-*Diocese of Portland* LPFM applications noted above, such staff actions are not binding on the Commission[66] and, in addition, staff action without an accompanying explanation of the basis for the decision has no precedential value.[67] In any event, unlike the LPFM applications at issue here, NCE FM applications are not subject to the section 73.870(c) prohibition on curative amendments. Accordingly, because LPFM applications are subject to different restrictions on amendments, these staff actions pertaining to NCE FM applications are distinguishable and inapposite. Accordingly, we find that the Bureau acted consistently with the Commission's rules and precedent and

[64] *Infra* note 75.

[65] *Infra* para. 15 and note 74. *See also* Application File Nos. BNPED-20100226AJU (new NCE FM application amendment filed before *Diocese of Portland* in 2010), and 0000166836 (new NCE FM application filed for *nunc pro tunc* reinstatement, which Bureau granted in accordance with NCE FM precedent).

[66] *See supra* note 60.

[67] *See supra* note 61.

that the dismissals were not arbitrary, capricious, or contrary to law in violation of the Administrative Procedure Act.

14. *Section 73.870(c).* We reject the Applicants' attempts to revisit the validity of section 73.870 twenty-five years after it was adopted. Section 73.870(c) of the Rules mandates that any application submitted during an LPFM filing window that fails to meet the minimum distance separation requirements of section 73.807 will be dismissed without opportunity to amend.[68] We reject the Applicants' arguments that section 73.870(c) is somehow unfair and should not be applied in these cases. Section 73.870(c) was adopted in 2000 as part of a notice-and-comment rulemaking.[69] In adopting the rule for the then-new LPFM service, the Commission concluded that prohibiting curative amendments for LPFM applications that fail to protect existing stations would "increase the speed and efficiency with which LPFM applications can be processed by the staff."[70] The rule is now final and no longer subject to challenges on reconsideration.[71] To the extent that Applicants dispute the fairness of, and now request increased processing flexibility to change the applicability of, section 73.870(c) in this proceeding, we note that such a request is not only untimely but inconsistent with the Commission's longstanding policy of altering fundamental components of broadly applicable regulatory schemes in the context of rulemaking proceedings, *not* adjudications.[72]

15. We acknowledge that certain LPFM service rules differ from other broadcast service rules—in this context the section 73.870(c) prohibition on curative amendments for LPFM applicants that fail to meet the minimum distance separation requirements of section 73.807.[73] A number of LPFM rules vary from those in other broadcast services, and that even for other secondary services, such as FM translators, the relevant statutory framework does not require identical licensing procedures.[74] Here, dismissal of Applicants' filings was consistent with the Rules and prior precedent for the LPFM service, and thus, there is no merit to the Applicants' claims regarding other services.[75]

For example, AMP, in its AFR, states "[e]very other broadcast service employs *nunc pro tunc* reconsideration to ameliorate technical errors, but the FCC employs §73.870(c) to prevent this long established reconsideration only for LPFM." *See* AMP AFR at 17.

[74] *See, e.g., Foundation for a Beautiful Life, Inc.*, Memorandum Opinion and Order, 36 FCC Rcd 15933, 15945-46, paras. 16-17 (2021); *People of Progress*, 29 FCC Rcd at 15066, para. 3 (stating that Section 307(b) of the Communications Act does not mandate uniform processing rules for all radio services). *See also Creation of a Low Power Radio Service*, Report and Order, 27 FCC Rcd 15402, 15426, n.139 (2012) (finding nothing in the statute or its legislative history suggests that Congress intended the provision that FM translators and LPFM stations remain 'equal in status' to require the Commission to adopt identical rules for the two services"); *MCRALDIA*, Letter Order, DA-24-1262 (MB Dec. 17, 2024).

[75] *See, e.g., Renew Taylorsville,* Letter Order, 39 FCC Rcd 2971 (MB 2024) and *Tahoma Preservation*, Letter Order, 39 FCC Rcd 3970 (MB 2024) (dismissing application based on 73.807(a) spacing violation and prohibiting amendment in accordance with section 73.870(c)).

16. We also note that Applicants' suggestion that *nunc pro tunc* reinstatement be applied because it is allowed for other broadcast services is misplaced. The 1984 *Nunc Pro Tunc Public Notice*[76] policy is inapplicable in this context because it is superseded by the Commission's adoption of section 73.870(c) in 2000.[77] The Commission has held previously that the Bureau may properly prohibit dismissed LPFM applicants that did not comply with the spacing rules in the filing window from filing amendments to correct violations of section 73.807.[78] Moreover, in the *Procedures Public Notice*, the Bureau explicitly warned LPFM applicants that pursuant to section 73.870(c), applicants would not be provided an opportunity to cure a section 73.807 deficiency.[79]

17. When section 73.870(c) was adopted in 2000, the Commission explained that a rule prohibiting curative amendments for LPFM applications that fail to protect existing stations would "increase the speed and efficiency with which LPFM applications can be processed by the staff."[80] The Commission subsequently affirmed this practice, noting that the approach promotes expedient "introduction of new service by successful applicants and conserve[es] the limited resources of the agency."[81] Applicants assert that the Commission's reliance on processing speed and efficiency is now unpersuasive due to decreases in the number of new applications, efficiencies from new technologies, and inefficiencies caused by the processing of numerous petitions for reconsideration and applications for review. We disagree.[82] Over 1,000 applications were filed during the 2023 LPFM Window, and the Bureau has granted over 760 applications. Efficiency in initial application processing of more than a thousand applications is paramount, and requiring staff to spend additional time to resolve inconsistencies in such applications resulting from errors made by applicants is not a good use of the Commission's limited resources.

18. *LPFM Channel Finder.* We reject Applicants' argument that LPFM applicants should not be required to submit accurate data if the Commission's technology, the LPFM Channel Finder, cannot be relied upon to find available channels. The Bureau clearly cautioned that "the LPFM Channel Finder tool is intended solely to assist LPFM applicants in tentatively identifying available FM channels. There is no guarantee that channels represented as 'available' will be technically acceptable at the time an application is filed."[83] Applicants acknowledge that they read the LPFM Channel Finder disclaimer.[84] Moreover, applicants are responsible for submitting accurate application information, sign a certification attesting to accurate submission, and are encouraged to consider hiring a professional to assist with

---

[76] *Commission States Future Policy on Incomplete and Patently Defective AM and FM Construction Permit Applications,* Public Notice, 56 RR 2d 776 (1984), recon. denied, 57 RR 2d 1603 (1985) (as subsequently published in the Federal Register, 49 Fed. Reg. 47331 (Dec. 3, 1984)).

[77] *See First LPFM Order, supra* note 69; *see also Christian Charities,* 30 FCC Rcd at 10549 (finding the *Nunc Pro Tunc Public Notice* inapplicable to section 73.870(c) dismissals).

[78] *See People of Progress*, 29 FCC Rcd at 15066; *Clifford Brown*, 29 FCC Rcd at 13259 (2014); *see also Christian Charities*, 30 FCC Rcd at 10552-53, paras. 11-12 (affirming section 73.870(c) dismissal of applications for failure to meet minimum spacing requirements).

[79] *See Procedures Public Notice*, 38 FCC Rcd at 6662, n.14 (citing *Low Power FM Filing Window*, Public Notice, 15 FCC Rcd 24817, 24818 (MB 2000)).

[80] *First LPFM Order*, 15 FCC Rcd at 2257, para. 132.

[81] *People of Progress*, 29 FCC Rcd at n.9.

[82] We also reiterate that this is not the appropriate forum to debate the rule. Applicants' qualms with the rule, and suggested changes, are more appropriately considered in the context of a notice and comment rulemaking proceeding, rather than a fact specific adjudicatory proceeding, such as this.

[83] *Procedures Public Notice*, 38 FCC Rcd at 6663. *See also* https://www.fcc.gov/media/radio/lpfm-channel-finder.

[84] UWM, AMP, and CACHE AFRs at 28-29, 30, and 30.

ensuring compliance with LPFM technical rules.[85] While we recognize that hiring technical consultants or legal counsel creates added expense, applicants are ultimately responsible for complying with the Rules, whether or not they are represented by counsel.[86]

## IV. ORDERING CLAUSES

19. Accordingly, **IT IS ORDERED** that each decision involving an Application for Review in this *Memorandum Opinion and Order* shall be deemed a distinct and separate decision for purposes of petitions for reconsideration, review on the Commission's own motion, and appeals.[87] If any decision in this *Memorandum Opinion and Order* is declared invalid for any reason, the remaining portions shall be severable from the invalid part and **SHALL REMAIN** in full force and effect to the fullest extent permitted by law.

20. **IT IS FURTHER ORDERED** that the Application for Review filed by University of Wisconsin-Milwaukee on May 28, 2024, (Pleading File No. 0000245398) **IS DISMISSED** in part, pursuant to section 1.115(c), and otherwise IS DENIED, pursuant to section 5(c)(5) of the Communications Act of 1934, as amended,[88] and section 1.115(g) of the Commission's Rules.[89]

21. **IT IS FURTHER ORDERED** that the Application for Review filed by All Music Portland on June 7, 2024, (Pleading File No. 0000245968) IS DISMISSED in part, pursuant to section 1.115(c), and otherwise **IS DENIED**, pursuant to section 5(c)(5) of the Communications Act of 1934, as amended,[90] and section 1.115(g) of the Commission's Rules.[91]

22. **IT IS FURTHER ORDERED** that the Application for Review filed by Creative Arkansas Community Hub & Exchange on June 12, 2024, (Pleading File No. 0000246172) **IS DISMISSED** in part, pursuant to section 1.115(c), and otherwise **IS DENIED**, pursuant to section 5(c)(5) of the Communications Act of 1934, as amended,[92] and section 1.115(g) of the Commission's Rules.[93]

23. **IT IS FURTHER ORDERED** that the Informal Objection filed by B. Benjamin Evans on June 25, 2024, Pleading File No. 0000246909, **IS DISMISSED AS MOOT**.

# ALASKA CONNECT FUND ORDER ON RECONSIDERATION AND CLARIFICATION, ALASKA PLAN WAIVER ORDER, AND ORDER

**Adopted: September 25, 2025** **Released: September 26, 2025**

By the Commission: Chairman Carr and Commissioner Trusty issuing separate statements.

## TABLE OF CONTENTS

Heading Paragraph #

I. INTRODUCTION ..... 1
II. BACKGROUND ..... 5
III. ALASKA CONNECT FUND ORDER ON RECONSIDERATION AND CLARIFICATION ..... 10
A. Performance Plan Deployment Goals and Commitments ..... 11
1. Clarifications of Performance Plan Requirements ..... 13
2. 5G Deployment Goals for Areas with Broadband Serviceable Locations ..... 22
B. Standards for Determining Ineligibility for ACF Support Due to Alaska Plan Noncompliance ..... 30
C. Clarification and Reconsideration of Eligible Areas Designations ..... 35
1. Modification of Areas Eligible for ACF Support to Make Untestable Hexes Eligible ..... 35
2. Categorization of Areas as Ineligible, Single-, or Duplicate-Support Areas Based on Broadband Data Collection Availability Data as of December 31, 2024 ..... 39
3. Modifications to "Competitive Areas" Eligible for Support ..... 46
4. No Removal of Support in Newly Ineligible Areas Until the Commission Adopts the Methodology for Support Per Hexagon ..... 54
D. Clarification Regarding Service Obligations for Areas Ineligible for ACF Support ..... 59
E. Modification of Implementation and Compliance Obligations of the ACF ..... 63
1. Elimination of Annual Infrastructure Data Filing Requirement ..... 63
2. Reconsideration of the ACF Mobile Speed Test Deadline ..... 65
3. Reconsideration of the Reasonably Comparable Price Requirement To Permit Providers to Use Their Own Anchorage Plans to Meet the Comparable Pricing Benchmark ..... 68

F. Treatment of Transactions Between ACF Supported Providers ..... 72
IV. ALASKA PLAN WAIVER ORDER ..... 75
A. Alaska Population Distribution Model ..... 77
B. Alaska Plan Waterfall Methodology ..... 86
V. ARCC'S CORRECTIVE AREA RETENTION RESERVE PROPOSAL ..... 96
VI. ORDER ..... 102
VII. PROCEDURAL MATTERS ..... 104
VIII. ORDERING CLAUSES ..... 109
Appendix A—Final Rules
Appendix B—Final Regulatory Flexibility Analysis

## I. INTRODUCTION

1. In this Order, we further refine our Alaska high-cost mobile-support programs to ensure efficient use of scarce universal service funds that will bring 5G-NR to Americans living, working, and traveling in Alaska. To this end, this item addresses four matters. The first is a Petition by GCI Communication Corp. (GCI) seeking reconsideration and clarification of various aspects of the *Alaska Connect Fund Order*, which the Commission adopted last year.[1] Like its Alaska Plan predecessor, the *Alaska Connect Fund Order* established a high-cost universal service support program designed to address the distinct challenges of providing mobile voice and broadband service in the hard-to-serve rural and remote areas of Alaska.[2] The Alaska Connect Fund (ACF) will provide ongoing and certain support through 2034 to mobile wireless providers that currently receive high-cost support pursuant to the Alaska Plan.[3] The refinements to the ACF we adopt today will better ensure the continued deployment of affordable and reliable high-speed broadband services to communities throughout Alaska.

2. We grant in part and deny in part the GCI ACF Petition by making certain modifications and providing further clarification of ACF rules and requirements for mobile providers. Specifically, we (1) clarify certain details of mobile providers' performance plan requirements and commitments; (2) provide additional clarification regarding the deployment goals of 5G-NR at 35/3 Mbps for single-support areas and 5/1 Mbps for duplicate-support areas, while denying GCI's request to limit the ACF deployment goals solely to areas with Broadband Serviceable Locations (BSLs); (3) clarify the extent of the Wireless Telecommunications Bureau's (WTB's or Bureau's) discretion to determine a mobile provider's ineligibility for the ACF due to noncompliance with its Alaska Plan commitments; (4) modify and clarify rules governing the categorization of eligible and ineligible areas; (5) clarify that providers have no service obligations for areas that are deemed ineligible for ACF support; (6) eliminate and modify several compliance obligations regarding the annual infrastructure data filing requirement for ACF mobile providers, the ACF speed test data submission deadline, and the reasonably comparable rate requirement; and (7) address the extent to which ACF support and obligations will transfer as a result of mergers or other transactions among participating providers.

3. Next, we address a second Petition by GCI, which seeks modification or waiver of two Bureau-level methodologies adopted to determine mobile providers' compliance with their obligations

Petition for Clarification and Reconsideration of the Alaska Connect Fund Report and Order, WC Docket Nos. 23-328, 16-271, 10-90, 14-58, and 09-197; WT Docket No. 10-208 (filed Jan. 30, 2025) (GCI ACF Petition), https://www.fcc.gov/ecfs/document/10130156599467/1.

[2] *Alaska Connect Fund Order*, 39 FCC Rcd at 12100, para. 1

[3] *Alaska Connect Fund Order*, 39 FCC Rcd at 12102-03, para. 6.

under the Alaska Plan.[4] The Alaska Plan was adopted in 2016 as a ten-year plan to stabilize support to Alaskan mobile providers in remote areas after the universal service fund had undergone reforms.[5] The Alaska Plan required providers to submit performance plans with commitments to bring mobile broadband or maintained mobile voice service to Alaskans living in remote areas of the state.[6] The Commission directed WTB to effectuate Alaska Plan administration for the mobile portion of the Order.[7] WTB adopted methodologies, where appropriate, to determine whether and to what extent providers were meeting their Alaska Plan commitments.[8] GCI petitions for modification or waiver of two of the Bureau-adopted methodologies before GCI's final milestone on December 31, 2026.[9] We grant in part GCI's request for waiver of those methodologies, consistent with the public interest.

4. We also address two additional items related to the Alaska mobile high-cost programs. The Alaska Remote Carrier Coalition (ARCC), which represents five of the eight mobile providers in the Alaska Plan, put forth a proposal affecting both the ACF and Alaska Plan.[10] We dismiss the proposal as untimely filed in both proceedings. Finally, we correct one rule to better reflect the *Alaska Connect Fund Order*.

## II. BACKGROUND

5. In 2016, the Commission adopted the Alaska Plan, establishing flexible universal service rules in order to account for distinct conditions in Alaska, in recognition that rural and high-cost areas of Alaska are some of the hardest and most costly to serve in the country.[11] The Alaska Plan—built on a proposal submitted by the Alaska Telephone Association (ATA)—addressed support for both fixed and mobile voice and broadband service in high-cost areas in the state of Alaska.[12] Given the distinct climate and geographic conditions of Alaska, the Commission found it to be in the public interest to offer Alaska providers the option of receiving fixed amounts of high-cost support over ten years in exchange for participants' individualized commitments to maintain or improve fixed and mobile broadband service in

[4] GCI Communication Corp. Petition for Modification or Waiver of Portion of the Alaska Population-Distribution Model to Permit Use of the Broadband Serviceable Location Fabric for the Alaska Plan Mobile Compliance and for a Waiver to Revise the Mobile Waterfall Methodology, WC Docket No. 16-271 (filed Apr. 14, 2025) (GCI AK Plan Petition), https://www.fcc.gov/ecfs/document/1041111257902/1.

[5] *Connect America Fund; Universal Service Reform—Mobility Fund; Connect America Fund—Alaska Plan*, WC Docket Nos. 10-90, 16-271, WT Docket No. 10-208, Report and Order and Further Notice of Proposed Rulemaking, 31 FCC Rcd 10139, 10140, 10160-62, paras. 1, 68-71 (2016) (*Alaska Plan Order*).

[6] 47 CFR § 54.317(f); *Alaska Plan Order*, 31 FCC Rcd at 10160, 10164-67, paras. 67, 77, 81, 85-86.

[7] *Alaska Plan Order*, 31 FCC Rcd at 10160, para. 67 ("[W]e delegate authority to the Wireless Telecommunications Bureau . . . to effectuate plan implementation and administration as detailed below."); *id.* 10166-67 at 85 ("We delegate to the Wireless Telecommunications Bureau authority to require additional information, . . . from individual participants that it deems necessary to establish clear standards for determining whether or not they meet their five- and 10-year commitments.").

[8] *See, e.g.*, *Connect America Fund—Alaska Plan*, WC Docket No. 16-271, Order, 35 FCC Rcd 10373 (WTB 2020) (*Alaska Population Distribution Order*) (adopting a methodology for estimating the number of Alaskans who receive mobile service within census blocks in remote areas of Alaska); *Connect America Fund—Alaska Plan*, WC Docket No. 16-271, Order and Request for Comment, 37 FCC Rcd 5882 (WTB 2022) (*Alaska Drive Test Order*) (adopting a drive-test model and parameters for the drive tests that are required of certain mobile providers participating in the Alaska Plan).

[12] *See generally Alaska Plan Order*, 31 FCC Rcd 10140, para. 1.

the state.[13] The Alaska Plan was expected to bring broadband to as many as 111,302 fixed locations and 133,788 mobile consumers by the end of the 10-year term on December 31, 2026.[14]

6. Due to the approaching end of support under the Alaska Plan, on January 4, 2023, ATA petitioned for the next version of the Alaska Plan to ensure ongoing support and help bring 5G to remote Alaska.[15] On November 1, 2024, the Commission adopted the *Alaska Connect Fund Order*, establishing a new high-cost support program—the ACF—that would provide ongoing and certain support for mobile wireless services in Alaska through 2034.[16] The ACF will play an important role in ensuring that Alaskans have access to reliable, advanced mobile service, particularly in upgrading networks to 5G and encouraging deployment to unserved and underserved areas.[17] The Commission adopted a two-phase approach for mobile service.[18] The approach balanced the importance of giving mobile providers certainty of funding in particular areas to help meet the Commission's goals of 5G deployment, with the need to ensure funding is not being used for last generation technologies (e.g., 2G and 3G).[19] It also targeted funding to areas where it is needed the most and addressed concerns of duplicate support.[20] The framework the Commission adopted for mobile support relies on the improved mobile coverage data obtained in the Broadband Data Collection (BDC), which is reflected on the Commission's National Broadband Map, and which provides the most comprehensive picture to date of where mobile broadband service is and is not available across the country, including Alaska.[21]

7. The Commission extended support for a set period for mobile providers that: (1) participated in the Alaska Plan and (2) choose to opt into the ACF, subject to conditions set forth in the *Alaska Connect Fund Order*.[22] The terms and goals for mobile support under the ACF are based on whether an eligible area has only one subsidized provider (single-support areas) or multiple subsidized providers (duplicate-support areas).[23] For eligible areas where there is a single subsidized provider, the

[23] *Id.* "Single-support areas" refers to areas that are being covered by only one Alaska Plan mobile-provider participant in Alaska. *Id.* at 12102, 12133, 12134, paras. 6 n.6, 73, 75. "Duplicate-support areas" refers to areas that are being covered by two or more Alaska Plan mobile provider participants in Alaska. *Id.* at 12102, 12133, 12134-

(continued….)

current provider will continue receiving support through the end of 2034 and will be expected to enter into a new performance plan providing for 5G service where technically and financially feasible.[24] For eligible areas with multiple subsidized providers, the Commission adopted a two-phase approach to resolve the problem of duplicative support: (1) an ACF Mobile Phase I that extends support for the mobile providers receiving support in these duplicate-support areas under the current Alaska Plan until December 31, 2029; and (2) an ACF Mobile Phase II that would provide a single provider in those areas with support through the end of 2034.[25] The Commission delegated authority to WTB to implement and administer various components of the mobile portion of the ACF.[26] For example, the Commission delegated authority to WTB to review and approve performance plans for mobile ACF support.[27] The Commission also delegated authority to WTB in coordination with the Office of Economics and Analytics (OEA) to develop and publish a map of areas eligible to receive ACF mobile support.[28] Finally, the Commission delegated authority to WTB to implement accountability and oversight measures for mobile-support recipients.[29]

8. On January 30, 2025, GCI filed the GCI ACF Petition, seeking guidance and adjustments to various aspects of the mobile portion of the *Alaska Connect Fund Order*.[30] WTB sought public comment on the GCI ACF Petition in a Public Notice released March 19, 2025.[31] In its subsequent filings, GCI both proposed specific edits to the Commission's rules consistent with its reconsideration petition and included additional changes to the rules.[32] One other party—the Alaska Remote Carrier Coalition (ARCC)—filed comments in response to the GCI ACF Petition.[33]

(Continued from previous page)
35, paras. 6 n.6, 73, 76-79. However, areas that are ineligible for mobile support under the ACF, such as areas with one unsubsidized provider that offers 5G-New Radio (NR) at 7/1 Mbps, or three or more mobile providers providing at least 4G LTE at 5/1 Mbps mobile service (with at least one being an unsubsidized provider) will not be considered to be single- or duplicate-support areas. *Id.* at 12102, 12143-48, paras. 6 n.6, 98-110.

Dortch, Secretary, FCC, WC Docket Nos. 23-328, 16-271 (filed Aug. 19, 2025) (OptimERA Aug. 19, 2025 *Ex Parte*).

9. On April 14, 2025, GCI filed the GCI AK Plan Petition, seeking changes to two methodologies utilized to evaluate a mobile provider's compliance with its final milestone commitments in the Alaska Plan.[34] WTB sought public comment on the GCI AK Plan Petition in a Public Notice released on May 16, 2025.[35] Two parties filed responses to the GCI AK Plan Petition, ARCC and OptimERA Holdings, Inc (OptimERA).[36] In its comments responding to both GCI Petitions, ARCC introduced its "Corrective Area Retention Reserve" (ARCC Reserve Plan) as a potential "middle ground" solution for noncompliant Alaska Plan carriers to serve as "an alternative to being determined as ineligible for the Alaska Connect Fund."[37]

## III. ALASKA CONNECT FUND ORDER ON RECONSIDERATION AND CLARIFICATION

10. In this section, we grant in part and deny in part the relief requested in the GCI ACF Petition, as provided below.[38]

### A. Performance Plan Deployment Goals and Commitments

11. A competitive eligible telecommunications carrier (ETC) previously receiving support under the Alaska Plan must be subject to a performance plan approved by WTB in order to continue receiving support as part of the ACF (extended support).[39] In the performance plan, the provider must commit to specific deployment obligations and performance requirements sufficient to demonstrate that support is being used in the public interest and in accordance with section 54.318(f) of the Commission's rules and the requirements adopted by the Commission for the ACF.[40]

12. In the *Alaska Connect Fund Order*, the Commission established different performance goals for single-support and duplicate-support areas.[41] For single-support areas, mobile wireless providers are expected to use ACF support to upgrade service to 5G-New Radio (NR) at 35/3 megabits per second (Mbps), where technically and financially feasible, by the end of December 2034.[42] For duplicate-support areas, mobile wireless providers are expected to use ACF support to work on extending service to 4G LTE at 5/1 Mbps, where technically and financially feasible, by the end of December 2029

(i.e., by the end of ACF Mobile Phase I).[43] Providers are required to submit performance plans no later than September 1, 2026, based on BDC data standards and availability data as of December 31, 2024.[44]

### 1. Clarifications of Performance Plan Requirements

13. In the GCI ACF Petition, GCI requests that the Commission clarify several aspects of the performance plan requirements adopted in the *Alaska Connect Fund Order*.[45] Specifically, GCI requests: (i) clarification that performance plans may include multiple technology and speed commitments within a census tract;[46] (ii) clarification that performance plans may include older technologies, at least for interim goals,[47] and (iii) clarification that performance plans and service requirements may take into account available backhaul capacity for fixed and mobile performance goals.[48] We address these issues in turn.

14. *Multiple technology and speed commitments within a census tract*. GCI requests clarification that performance plans do not need to include the same technology and speed throughout a census tract.[49] To the extent necessary, we clarify accordingly. In the *Alaska Connect Fund Order*, the Commission stated that ACF performance plans must "(1) include the name of the census tract that the provider commits to serve; (2) include the minimum technology level and speed in an outdoor stationary environment that the provider commits to provide; (3) specify the number of hex-9s committed to be covered within each census tract at the committed-to technology and speed levels, which shall be no less than the provider's coverage in the Alaska Plan, minus any ineligible areas; and (4) specify how many additional hex-9s committed to within each census tract at the committed-to technology and speed levels are comparable hex-9s."[50] The language does not require performance plans to include only a single technology and speed throughout a census tract. To the contrary, multiple references to "the committed-to technology and speed levels" for hex-9s within each census tract indicate that a provider may have multiple technology and speed commitments in a given census tract.[51] Consistent with the intent of the *Alaska Connect Fund Order* and language in section 54.318(f)(1), we clarify that a single census tract may have multiple areas and commitments. In such cases, a mobile provider would list the same census tract separately in its performance plan for each differing technology and speed commitment. Individual hex-9s, however, will be limited to a single technology. WTB will release a Public Notice providing guidance on what to include in the performance plans and their format.[52]

[50] *Alaska Connect Fund Order*, 39 FCC Rcd at 12160, para. 142 (footnotes omitted); *accord* 47 CFR § 54.318(f)(1).

[51] *Alaska Connect Fund Order*, 39 FCC Rcd at 12160, para. 142.

[52] *Alaska Connect Fund Order*, 39 FCC Rcd at 12160, para. 143 (delegating authority to "WTB to adopt requirements and develop data specifications, after appropriate public process, concerning the format and method of uploading Alaska Connect Fund performance plans."); 47 CFR § 54.318(f)(4).

15. *Use of older technologies*. Additionally, GCI requests that the Commission clarify whether performance plans can include older technologies, at least for interim milestones, to accommodate the time and expense needed to deploy 5G.[53] We make this clarification, with certain adjustments below. As noted in the *Alaska Connect Fund Order*, the Commission delegated authority to WTB to negotiate individualized performance plans with each mobile provider.[54] Section 54.318(f)(7) of the Commission's rules further provides that WTB "may approve lower technology . . . than the minimum technology . . . specified in this section, in some areas[,] as warranted on a case-by-case basis."[55] As part of these negotiations, WTB can consider all relevant and practical circumstances, including middle-mile mapping data and backhaul capacity.[56] The *Alaska Connect Fund Order* also states that "[w]here a hex-9 is more than 50 miles from a microwave or fiber node, this factor alone weighs heavily in favor of allowing a lesser commitment."[57]

16. We clarify that, while WTB in its discretion may approve a lower technology than the minimum specified in section 54.318 of the Commission's rules on a case-by-case basis,[58] a mobile provider must demonstrate to WTB why upgrading to 5G-NR at 35/3 Mbps (for single-support areas) or extending to 4G at 5/1 Mbps (for duplicate-support areas) is not technically or financially feasible and articulate the reasons warranting an exception as a notation under the proposed performance plan for each census tract.[59] Where WTB approves a lower technology commitment in a provider's performance plan, the mobile provider also must annually certify, by census tract, that the basis on which it qualified for a lower technology commitment still applies in the previous calendar year and to describe on FCC Form 481 the efforts that it has taken to improve conditions that served as the basis for the lower technology commitment.[60]

17. WTB will prioritize those commitment areas that did not receive an upgrade during the Alaska Plan in providers' ACF performance plans, with a presumption against approving older technology in those areas at the interim milestone. We find this additional clarification from WTB to be necessary because some areas with 2G[61] and 3G commitments may remain underserved without an

[61] Two providers have 2G commitments for the December 31, 2026 final milestone of the Alaska Plan: GCI and TelAlaska. *See Wireless Telecommunications Bureau Approves the Revised Performance Plan of GCI Pursuant to the Alaska Plan*, WC Docket No. 16-271, Public Notice, DA 25-632 at 3, Appx. A (WTB July 16, 2025) (*2025 GCI Revised AK Plan Performance Plan Public Notice*) (approving GCI's 2025 revised performance plan); *Wireless Telecommunications Bureau Approves Bristol Bay Cellular Partnership's TelAlaska Cellular's, and Windy City Cellular's Revised Performance Plans Pursuant to the Alaska Plan*, WC Docket No. 16-271, Public Notice, 39 FCC Rcd 5898, 5901, Appx. A (WTB 2024) (*2024 Three AK Plan Revised Performance Plans Public Notice*) (accepting TelAlaska's operative performance plan). These are 2G commitments because they are coded as "85" or "86" under the FCC Form 477 technology codes of 2016 when the initial performance plans were accepted. *See* FCC Form 477, Instructions, at 31 (Dec. 5, 2016); *see also 2024 Three AK Plan Revised Performance Plans Public Notice*, 39 FCC Rcd at 5902, Appx. B. These technology codes in the Alaska Plan performance plans mean those areas will be served with CDMA and GSM, respectively, which are considered second generation mobile technologies, mainly known for digital voice capability. *See, e.g*., T-Mobile, *Wireless 101*, https://www.t-mobile.com/dialed-in/wireless/gsm-vs-cdma-what-you-need-to-know-about-phone-bands (last visited Aug. 4, 2025) (noting that GSM and CDMA are two of the oldest mobile technologies and are becoming obsolete). These 2G areas will be

(continued….)

upgrade to their mobile service for an extended duration—from January 2017, when the Alaska Plan began, through the interim milestone for single-support areas of the ACF, which does not end until December 31, 2031.[62] Such a 15-year trajectory would be unacceptable given the Commission's adoption of the *Alaska Plan Order*[63] and *Alaska Connect Fund Order*[64] dedicated to bringing advanced telecommunications capability universally to remote, high-cost areas of Alaska during that time. WTB will have a strong presumption against approving a technology commitment lower than 4G LTE at 5/1 Mbps for any milestone.[65] Should any technology concerns remain following these clarifications, providers may raise them with WTB in the course of their negotiations over their individual performance plans.

18. *Monthly Usage Goals Accounting for Available Backhaul Capacity*. GCI requests that the Commission follow its precedent in the Alaska Plan and clarify that performance plans and service requirements may take into account available backhaul capacity for fixed and mobile performance goals.[66] We grant GCI's request to the extent that we clarify that WTB will consider available backhaul capacity when negotiating individualized performance plans with each mobile provider; however, while this consideration is consistent with the Alaska Plan, we deny GCI's request to the extent that it seeks to have the ACF follow how the Alaska Plan operates.

19. GCI requests that the ACF, "like the Alaska Plan, must recognize simultaneous capacity limitations of microwave and satellite backhaul and permit providers that must use such facilities to

(Continued from previous page)
considered to be a part of mobile data areas to be improved by commitments for the purposes of the ACF. Under the Alaska Plan, TelAlaska committed to cover these areas with 256/256 kbps, *2024 Three Alaska Plan Revised Performance Plans Approved*, 39 FCC Rcd at 5901, Appx. A; GCI refers to these as commitments as "Voice/2G" and committed to cover these areas with "<.2 Mbps," *2025 GCI Revised AK Plan Performance Plan Public Notice* at 3, Appx. A. While it was originally to be tested for a minimum data rate, at the interim milestone for the Alaska Plan, GCI's Voice/2G areas were tested solely to see if a voice call could be completed, as GCI's commitments for less than 200 kbps (i.e., "<.2 Mbps") did not have a minimum data commitment. *See Alaska Drive Test Order*, 37 FCC Rcd at 5887-88, paras. 10-11 (switching to a voice-call based test from a minimum 22.8 kbps data-rate test). For the ACF, 2G areas of the Alaska Plan will be mobile data areas that are to be upgraded pursuant to providers' commitments. In other words, the 2G commitment areas of the Alaska Plan will receive different treatment than the voice areas that are the result of signal bleed beyond the mobile broadband data cell edge: the former needs to be improved pursuant to the mobile provider's ACF commitments; the latter, maintained pursuant to public interest obligations. *See* Letter from John T. Nakahata et al., Counsel for GCI, to Marlene H. Dortch, Secretary, FCC, WC Docket No. 23-328, at A-2 (filed July 25, 2025) (GCI July 25,2025 *ex parte*).

[62] *See* OptimERA Comments, WC Docket Nos. 10-90, 23-328, 14-58, and 09-197; WT Docket No. 10-208, at 3 (rec. Feb. 4, 2025), https://www.fcc.gov/ecfs/document/10204131714981/1 ("Decades of various plans and funding schemes have left dozens of communities with no mobile service whatsoever. Countless other communities still have just 2G service, lagging far behind most of the lower 48 and urban areas in Alaska.") (OptimERA ACF FNPRM Comments); Paul B. Walker Comment, WC Docket No. 23-328 (rec. June 17, 2025) (stating that many parts of rural Alaska have unreliable 2G or 3G service that pose health and safety risks).

[63] *See Alaska Plan Order*, 31 FCC Rcd at 10172, para. 102 (requiring an additional obligation of mobile providers where they could not commit to providing 4G LTE at 10/1 Mbps).

[64] *See Alaska Connect Fund Order*, 39 FCC Rcd 12099.

[65] *See Alaska Connect Fund Order*, 39 FCC Rcd at 12130, 12153, 12167-68, paras. 65 n.173, 126 n.328, 157. Voice-only service areas that extend beyond the mobile broadband data service area are subject to public interest obligations, not ACF broadband-service improvement commitments, unless the providers committed to such upgrades as part of their Alaska Plan commitments. *See Alaska Connect Fund Order*, 39 FCC Rcd at 12152, para. 124.

[66] GCI ACF Petition at 21. We do not address issues impacting fixed providers in this item.

commit to lower monthly usage allowances."[67] In its request for clarification on this issue, GCI contends that the amount of available throughput in Alaska is limited by the state's middle mile infrastructure, so that providers cannot meet the national standard for monthly usage allowances in all areas.[68] GCI notes that microwave and satellite facilities typically have less capacity than fiber facilities because throughput must be shared simultaneously by multiple users, including higher-priority users such as health care providers, schools, libraries, and government entities.[69] GCI urges that fixed and mobile providers need flexibility in their performance obligations to account for these limitations.[70]

20. We grant GCI's request in part and clarify that WTB may accept lesser commitments taking into account available backhaul capacity for mobile provider performance goals. The *Alaska Connect Fund Order* permits WTB to approve performance plans with lesser commitments than the minimum technology and speeds on a case-by-case basis.[71] WTB can negotiate individualized performance plans with each mobile provider, and can consider all relevant and practical circumstances, among other considerations, including middle-mile mapping data and wireline affiliate commitments in the relevant area to help assess a mobile provider's proposed commitment in single-support areas at the ACF support levels.[72]

21. While our action is consistent with Alaska Plan precedent, we deny GCI's request to the extent that GCI is requesting that the ACF process work the same as the Alaska Plan process. Performance plans for the Alaska Plan explicitly list the backhaul available and often allowed ubiquitous, extensive leeway for microwave backhaul. Due to current middle mile map information available to it from the Alaska Plan, the Commission now has more information than it had when the Alaska Plan was adopted in 2016, and staff can use that information to assess which providers have fiber and microwave backhaul that reach competitive transport areas. Moreover, the middle-mile information indicates the capacity on each link. A blanket, lesser standard for microwave transport, as was typical in the Alaska Plan, would not be appropriate for the ACF where there may be a multiple gigabits per second (Gbps) link within reach of a rural community.[73]

### 2. 5G Deployment Goals for Areas with Broadband Serviceable Locations

22. GCI requests that the Commission clarify that 5G-NR at 35/3 Mbps will not be the speed goal for all areas covered by a provider under the ACF and amend section 54.318(f)(2) to limit the 35/3 Mbps goal to eligible hex-9s in a mobile provider's support area with a BSL.[74] We grant GCI's petition

[67] GCI ACF Petition at 21 (citing *Alaska Plan Order*, 31 FCC Rcd at 10154, para. 44 n.90 (pertaining to fixed performance commitments); *id*. at 10166, para. 85 (pertaining to mobile performance commitments); *WCB Announces Voice and Broadband Reasonable Comparability Benchmarks for Alaska Plan Rate-of-Return Carriers and Alaska Communications Systems and Confirms Minimum Usage Allowance Requirements*, WC Docket Nos. 10-90 and 16-271, Public Notice, 32 FCC Rcd 3003, 3005-06 (WCB 2017).

[73] *See, e.g.*, *2025 GCI Revised AK Plan Performance Plan Public Notice* at 3, Appx. A (having a 2/.8 Mbps speed commitment for microwave middle mile areas).

[74] GCI ACF Petition at 2-4; GCI ACF Petition Reply at 3, Appx. at A-1. A BSL is "a business or residential location in the United States at which mass-market fixed broadband Internet access service is, or can be, installed." *Alaska Connect Fund Order*, 39 FCC Rcd at 12162, para. 147 n.383. The Commission's BSL Fabric is a dataset that maps these locations and is used to identify areas where broadband service is available and where it is lacking. *See* FCC Broadband Data Collection Help Center, *About the Fabric: What a Broadband Serviceable Location (BSL) Is and Is Not* (July 31, 2025), https://help.bdc.fcc.gov/hc/en-us/articles/16842264428059-About-the-Fabric-What-a-

(continued….)

in part to reconsider the 5G-NR at 35/3 Mbps deployment goals set forth in the *Alaska Connect Fund Order*, but decline GCI's request to limit deployment goals solely to areas with BSLs.

23. The *Alaska Connect Fund Order* requires mobile providers to improve upon and extend their Alaska Plan coverage.[75] In the Alaska Plan, providers committed to cover a specified number of Alaskans.[76] However, in the ACF, the Commission found that "the population-based approach in the Alaska Plan can be too limiting to effectively meet the program's mandate to ensure mobile network coverage is available where Alaskans live, work, and travel"[77] and instead adopted an area-based approach.[78] Specifically, the Commission directed that in their single-support coverage areas,[79] mobile providers "are expected to use Alaska Connect Fund support to upgrade service beyond the service commitment level they made in the Alaska Plan, with an ultimate goal of achieving 5G-NR at 35/3 Mbps . . . where technically and financially feasible, by the end of December 2034."[80] In their duplicate-support areas, providers are expected to use ACF support to work on extending service to 4G LTE at 5/1 Mbps, where technically and financially feasible, by the end of December 2029 (i.e., by the end of ACF Mobile Phase I).[81]

24. GCI argues that the goal for all areas cannot reasonably be 5G at 35/3 Mbps due to "fall-off" in speeds in the farthest reaches of the mobile signal from the broadband cell site, and it petitions for a reduction of the 35/3 Mbps service goal coverage area.[82] GCI argues that the ACF's approach "spreads support over a much broader area, including areas with low or no population density."[83] Because cell site signals weaken the farther the signal gets from the cell site, GCI argues that "[s]ome outlying areas will be covered at data speeds even below 7/1 Mbps, and some will only have coverage sufficient for voice or text."[84] GCI argues that "[e]xtending 35/3 Mbps to every location that has voice service today, many of which areas have only light or occasional levels of human activity, would require providers to build more infrastructure than necessary to provide the basic connectivity those areas need, such as to summon help

(Continued from previous page)
Broadband-Serviceable-Location-BSL-Is-and-Is-Not. GCI's ACF Petition Reply discusses an area around some radius of a BSL, but its proposed rule indicates that it would limit service to areas at resolution-9 H3 hexagons (hex-9s) with BSLs. GCI ACF Petition Reply, Appx. at A-1 (indicating that the solution is that "the Commission should focus 35/3 (or 7/1) Mbps goals on the areas within some radius of BSLs," but proposing a rule limiting coverage to hex-9s with BSLs).

[75] *See Alaska Connect Fund Order*, 39 FCC Rcd at 12152, para. 124.

[83] GCI ACF Petition at i.

[84] *Id*.

if needed."[85] ARCC observes that the Commission has an "unrealistic expectation of 35/3 speed at every hex edge."[86] In its GCI ACF Petition Reply, GCI asks the Commission to amend section 54.318(f)(2) such that only hex-9s with BSLs would be subject to the 35/3 Mbps goal.[87]

25. We dismiss GCI's requested amendment to section 54.318(f)(2) of the Commission's rules on procedural grounds. As an initial matter, GCI failed to raise this request for an amendment of the rule in its Petition. Under the Commission's rules, petitions for reconsideration in rulemaking proceedings must be filed within 30 days of publication of the final rule in the Federal Register.[88] In its GCI ACF Petition, GCI requests the Commission to "clarify or reconsider the [5G-NR 35/3 Mbps] goal for 'all areas' and provide that in considering performance plans, it recognizes that performance decreases with distance from the cell site and that it may not be cost-effective to add cell sites."[89] Thus, the GCI ACF Petition merely asks for the "flexibility to propose, and have the Wireless Telecommunications Bureau . . . approve, performance plans that provide for less than 35/3 Mbps service at the [cell] edge."[90] GCI did not raise its request for a rule amendment of section 54.318(f)(2) to eliminate the ACF's technology and speed requirements for hex-9s without BSLs until its Petition Reply, submitted on April 29, 2025.[91] Thus, because GCI failed to request the partial elimination of the technology and speed commitments until April 29—almost three months after the statutory deadline for filing a petition for reconsideration (i.e., January 30)[92] —the Commission must dismiss the request as untimely. In addition, we find that GCI's Petition Reply arguments were fully considered and rejected by the Commission in the *Alaska Connect Fund Order* and are therefore not properly before the Commission for reconsideration.[93]

[93] *See* 47 CFR § 1.429(l)(3) (stating that a petition for reconsideration may be dismissed or denied if it "plainly do[es] not warrant consideration by the Commission," which includes petitions that "[r]ely on arguments that have

(continued….)

26. Procedural deficiencies aside, we deny GCI's proposed change to limit deployment goals to areas with BSLs because it would ultimately amount to less service for the same amount of support, undermining the goals of the program. GCI's proposed modification of the goals is not needed to ensure BSLs are covered, nor is it necessary for hex-9s without BSLs to be allowed lesser or no commitments. BSLs, especially in areas with a high density of BSLs, are more likely to be targeted for coverage due to the economic incentives of covering BSLs and the availability of high-cost support for providing fixed service to BSLs. Although the presence of BSLs is a relevant consideration when evaluating where mobile coverage needs to improve,[94] it is not the *only* relevant consideration. Many areas where Americans work and travel do not have BSLs.[95] If we limited mobile providers' service commitments to hex-9s with BSLs, then valuable areas where Americans work and travel—such as roads—may not see any service improvements by the end of 2034. As observed in the *Alaska Connect Fund Order*, "[a] concentration of BSLs is necessarily evidence that an area is valuable to its users, but the absence of BSLs does not always indicate that an area does not need to be covered by mobile networks."[96] In explicitly rejecting the approach that GCI advocates, the Commission observed that "[t]hough the Commission now has the Fabric, which provides information on where people live and work, people frequently travel in and visit areas where there are no Fabric locations, such as along roads, snow mobile routes, hunting areas, bodies of water, or hiking trails."[97] The Commission also emphasized that "covering certain bodies of water is important to meet the 'work and travel' aspect of our universal service goals for Alaskans," and those areas do not have BSLs.[98] Finally, we observe that GCI seemingly appended to its request for reconsideration of the 5G-NR 35/3 Mbps single-support goal a similar request for reconsideration of the 5/1 Mbps goal for duplicate support areas.[99] We interpret GCI's language as such, and deny this request for the same reasons as discussed above.

27. While we deny GCI's specific relief as requested, we amend section 54.318(f)(6) of the Commission's rules and offer mobile providers additional clarification of the "technically and financially feasible" standard. The mobile providers have expressed concern that the "technically and financially feasible" standard does not provide enough guidance for them to determine where WTB will expect 35/3

(Continued from previous page)
been fully considered and rejected by the Commission within the same proceeding"); *Alaska Connect Fund Order*, 39 FCC Rcd at 12161-63, para. 147.

[94] *Alaska Connect Fund Order*, 39 FCC Rcd at 12163, para. 148 ("While we do not require hex-9s to include BSLs or roads, we strongly encourage providers to consider that data in determining their coverage, particularly to the extent they cover areas beyond those that they covered in the Alaska Plan.").

[95] *Alaska Connect Fund Order*, 39 FCC Rcd at 12129, 12143, 12147-48, 12161-63, paras. 64, 98, 109, 145, 147 ("Though the Commission now has the Fabric, . . . people frequently travel in and visit areas where there are no Fabric locations, such as along roads, snow mobile routes, hunting areas, bodies of water, or hiking trails. Therefore, we do not limit support to merely targeting where populations live.").

[96] *Alaska Connect Fund Order*, 39 FCC Rcd at 12162, para. 147.

[97] *Alaska Connect Fund Order*, 39 FCC Rcd at 12162, para. 147 (footnote omitted).

[98] *Alaska Connect Fund Order*, 39 FCC Rcd at 12163, para. 148.

[99] *See* GCI ACF Petition at 4 ("Providers will need flexibility to propose, and have the Wireless Telecommunications Bureau . . . approve, performance plans that provide for less than 35/3 Mbps service at the [cell] edge (or 5/1 Mbps for duplicate-support areas in ACF Mobile Phase I)."); GCI ACF Petition Reply, Appx. at A-1 ("The *ACF Order* requires that . . . all mobile providers must commit to providing 5G at 35/3 Mbps in single-support areas and 4G at 5/1 in duplicate-support areas (until ACF Mobile Phase II) for every hex-9 they currently serve with Alaska Plan support . . . ."). We note that GCI's proposed solution, which is included as part of its rule language recommendations in its Reply Appendix, states that "[t]he goal for all areas that receive service under the Alaska Plan should not be 35/3 Mbps," but does not address the 4G LTE at 5/1 Mbps goal. GCI ACF Petition Reply, Appx. at A-1.

Mbps service.[100] We believe that this uncertainty could impede performance plan negotiations, and therefore, we provide additional clarification regarding where we expect providers to commit to providing 35/3 Mbps service. We begin by reiterating that mobile providers must maintain and improve their Alaska Plan service.[101] In single-support areas, we expect providers to provide 5G-NR where infrastructure and transport pricing makes 5G-NR-based services technically and financially feasible. Based on our internal staff analysis of provider spectrum holdings, link budget, and a standard ITU-R propagation model (Sub-6 GHz), we generally expect a provider to extend 5G-NR at 35/3 Mbps to all portions of its service areas within a 1.5-mile radius of its cell sites unless it can otherwise demonstrate that doing so is technically and financially infeasible, as described below.[102] This expectation is only applicable where the provider has access to fiber or microwave backhaul and to competitive transport pricing rates.[103] This 5G-NR at 35/3 Mbps expectation is also subject to the consideration of other

[100] GCI ACF Petition at 2-4; ARCC ACF Recon Comments at 6.

[101] 47 CFR § 54.308(e) ("Mobile providers receiving support from the Alaska Connect Fund must provide service at the same minimum service levels as required under the Alaska Plan and may not provide less coverage or provide service using a less advanced technology than the provider committed to under the Alaska Plan."); *Alaska Connect Fund Order*, 39 FCC Rcd at 12151, para. 122 ("Alaska Connect Fund mobile support recipients must provide service with at least the same minimum service levels as required under the Alaska Plan and may not provide less coverage or provide service using a less advanced technology than the provider committed to under the Alaska Plan."). This requirement does not apply to areas that are ineligible under the ACF.

[102] The 1.5-mile radius standard is based on staff analysis of provider spectrum holdings, link budget, and a standard ITU-R propagation model (Sub-6 GHz). *See* International Telecommunications Union, *Guidelines for Evaluation of Radio Interface Technologies for IMT-Advanced*, M.2135-1. By using the 5G link budgets of one of the major national providers and the ITU-R model, Commission engineers evaluated the expected 35/3 Mbps coverage distance by applying the spectrum holdings of the providers in the Alaska Plan. Based on propagation model, link budget, and spectrum analysis with 3.5 GHz spectrum or lower band (e.g., 700 MHz), providers should generally be able to provide 35/3 Mbps within 1.5-mile radius of macro cell sites. *Cf.* Letter from Annick M. Banoun, Counsel to GCI, to Marlene H. Dortch, Secretary, FCC, WC Docket No. 23-328 (filed July 9, 2025) ("In terms of a distance from a cell site for a 35/3 Mbps expectation, a 1.5 mile radius may be reasonable as a starting point for performance plan negotiations, provided that the Commission makes clear that it also permits substantial downward flexibility for the number of hex-9s within that 1.5 mile radius that would actually receive 35/3 Mbps service."), https://www.fcc.gov/ecfs/document/10709644301691/1; *see also* GCI July 25, 2025 *Ex Parte* at A-3.

[103] *See* 47 CFR § 54.318(f)(7) (allowing acceptance of lesser commitments but requiring new performance plans when conditions change). For example, reasons for not providing 5G-NR at 35/3 Mbps can include that a particular area has little to no human activity or that the area does not have access to competitively priced transport. *See* ARCC Aug. 21, 2025 *Ex Parte* at 1; Letter from Jeffry H. Smith VP of Public Policy, VPS, ARCC, to Marlene H. Dortch, WC Docket Nos. 23-328, 16-271 (filed May 5, 2025). Where a mobile provider has fiber or microwave infrastructure that runs to the Dalton Highway, nonremote areas as defined by section 54.307(e)(3)(i), or at the Alaskan panhandle, it will be presumed to have access to competitive transport pricing. *See* Letter from Jeffry H. Smith, VP of Public Policy and Advocacy, ARCC, to Marlene H. Dortch, Secretary, FCC, WC Docket No. 23-238 et al., Attach., Cost of Middle Mile/Internet Access at 1 (filed May 3, 2024) (showing $700 per Mbps in some remote parts of Alaska versus $2 per Mbps in competitively priced areas of Alaska). Restricting the 35/3 Mbps goal to areas within 1.5 miles from a cell site under specified conditions decreases the number of single-support areas subject to the 35/3 Mbps goal that extends beyond duplicate-support areas. This further alleviates GCI's concern that it may have a substantially higher speed burden in single-support areas that extend beyond the duplicate-support areas but are served by the same cell. *See* GCI ACF Reply at 3 ("Relatedly, requiring different mandatory performance standards for single- (5G at 35/3 Mbps) and duplicate-support (4G LTE at 5/1 Mbps by the end of 2029) areas does not work. Both types of areas are often served by the same cell site. Single-support hex-9s are likely those that are farther from the cell site, . . . ."). Regarding a technology-portion of the goal, GCI could deploy 5G-NR in a standalone configuration where it finds two different cell radios to be burdensome. However, where providers are deploying a non-standalone 5G-NR configuration, a cell site will have both 4G LTE and 5G-NR radios on the same tower as part of a 5G-NR solution. The 4G LTE duplicate-support area goal allows extra flexibility to the extent that the provider needs to deprioritize an upgrade before 2029 by noting those areas are sufficiently served for ACF purposes by that date.

circumstances as warranted and agreed to by WTB. Where a mobile provider previously committed to cover an area in the Alaska Plan, it is expected to upgrade that area to at least 5G-NR at 7/1 Mbps in eligible areas of the ACF.[104] We find this standard will add clarity to mobile providers' planning and is achievable within the budget and timeline of the ACF, while building upon the success of the Alaska Plan.[105]

28. Although we find we adequately address ARCC's concerns about the 5G deployment obligations with the amendments and clarifications we make to the "technically and financially feasible" standard as described above, we reject the argument that 5G-NR provides inherently less coverage than 4G LTE when controlling for all other variables.

29. We also amend 54.318(f)(6) to clarify instances where 5G-NR is not required. ACF is a broadband plan, but as a user gets farther away from the cell site, the mobile data service becomes slower and a voice-only service area exists between the broadband data service area and the area where there is no service at all—i.e., voice-only areas that exist beyond the cell edge of a provider's broadband data commitment area, based on Alaska Plan service areas.[106] These areas are important for public safety, but are not a part of the broadband data commitments. Accordingly, for voice-only areas that exist beyond the cell edge of the mobile commitment areas—based on Alaska Plan service areas—mobile providers do not need to upgrade those areas to 5G-NR or commit to a minimum data speed and may maintain the facilities and voice service already in place, unless otherwise committed to in the ACF.[107] These public safety voice-only areas are distinguishable from the 2G/voice-only areas that were part of some mobile providers' commitments in the Alaska Plan, the latter of which are required to be upgraded as part of mobile providers' ACF commitments.[108] Mobile providers will be able to demonstrate to WTB other

[104] *See Alaska Connect Fund Order*, 39 FCC Rcd at 12160-61, para. 144 & n.373. WTB will determine Alaska Plan service areas for ACF purposes based on information resulting from the Alaska Plan and BDC availability data as of December 31, 2026. WTB may use a different BDC data set if it determines that another BDC data set more accurately reflects the provider's Alaska Plan coverage. For example, for providers found to be noncompliant with Alaska Plan commitments, WTB may use BDC availability data as of June 30, 2027, or as of December 31, 2027, to determine a provider's initial single-support coverage area.

[105] We note that providers have made arguments regarding the difference in coverage characteristics between 4G LTE and 5G-NR, expressing the view that 5G-NR coverage does not go as far as 4G coverage in support of their opposition to our deployment goals for the ACF. ARCC ACF Recon Comments at 4, 15 ("The move to 5G will cost more money due to needing more cell sites to maintain a comparable footprint."); GCI ACF Petition Reply at 2 (quoting ARCC ACF Recon Comments at 4, 15); *see also* Letter from Jeffry H. Smith, VP of Public Policy, VPS, ARCC, to Marlene H. Dortch, WC Docket Nos. 23-328, 16-271, at 1 (filed June 26, 2025) (ARCC June 26, 2025 *Ex Parte*) ("In the attachments, the footprint for ASTAC continues to reduce significantly between 4G, and 5G, assuming no changes to the supporting infrastructure including antennae and towers."); Letter from Jeffry H. Smith, VP of Public Policy and Advocacy, VPS, ARCC, to Marlene H. Dortch, Secretary, FCC, WC Docket Nos. 23-328, 16-271 (filed June 17, 2025); Letter from Jeffry H. Smith VP of Public Policy, VPS, ARCC, to Marlene H. Dortch, WC Docket Nos. 23-328, 16-271, at 1 (filed June 16, 2025); Letter from Jeffry H. Smith VP of Public Policy, VPS, ARCC, to Marlene H. Dortch, WC Docket Nos. 23-328, 16-271, at 1 (filed June 3, 2025). We disagree with the contention that 5G-NR provides reduced coverage compared to 4G LTE when all other variables are controlled.

[106] *See, e.g.*, Letter from John T. Nakahata et al., Counsel, GCI, to Marlene H. Dortch, Secretary, FCC, WC Docket No. 23-328 at 7, Attach. (filed Apr. 4, 2025) (GCI Apr. 4, 2025 *Ex Parte*).

[107] *See Alaska Connect Fund Order*, 39 FCC Rcd at 12152, para. 124; GCI ACF Petition Reply at 18; *see also* Letter from Jeffry H. Smith, VP of Public Policy and Advocacy, VPS, ARCC, to Marlene H. Dortch, Secretary, FCC, WC Docket No. 23-328 et al., at 3 (filed June 23, 2025) ("A public safety hex is defined as any of the following: (i) A hex containing no BSL's. (ii) A single BSL hex that is at least a one mile radius from any other BSL's in other hexes. (iii) A hex with terrain issues that fails the financially feasible test. (iv) Any hex (or set of hexes) mutually agreed to by the WTB and the carrier based on an examination of the maps developed by the Commission.").

[108] Commitments under the mobile portions of the ACF and Alaska Plan are, on the whole, for providing and improving mobile broadband data service. *See Alaska Plan Order*, 31 FCC Rcd at 10166, para. 85; *Alaska Connect*

(continued….)

reasons why it is not technically and financially feasible to meet these expectations during performance plan discussions, and may propose alternatives. We also reiterate that "[w]here a hex-9 is more than 50 miles from a microwave or fiber node, this factor alone weighs heavily in favor of allowing a lesser commitment" than 5G-NR.[109] In addition, mobile providers providing support in duplicate-support areas do not need to commit to 5G-NR upgrades.[110] WTB also may approve lower technology and speeds than the minimum technology and speeds specified in section 54.318, as warranted, on a case-by-case basis.[111]

### B. Standards for Determining Ineligibility for ACF Support Due to Alaska Plan Noncompliance

30. GCI asserts that WTB has too much discretion to determine ineligibility for ACF support based on Alaska Plan noncompliance and requests that the Commission make two key changes.[112] First, GCI requests that the Commission "clarify that using the 'cure year'[113] to come into full compliance with Alaska Plan commitments is not grounds to eliminate a mobile provider from ACF eligibility or reduce its support, even if some support is delayed pending verification of compliance."[114] Second, GCI requests that the Commission modify the rule to "establish a *de minimis* threshold [of 5 percent][115] for meeting the 10-year performance commitments, below which an Alaska Plan provider will not be disqualified."[116] We grant GCI's petition with respect to limiting WTB's delegated authority to determine ineligibility for the ACF until after the cure year of the Alaska Plan and grant GCI's petition in part regarding the *de minimis* threshold.

31. The *Alaska Connect Fund Order* states that WTB may deem an Alaska Plan mobile provider ineligible for the ACF if it determines that the mobile provider failed to comply with its public interest obligations or other terms and conditions of the Alaska Plan, failed to satisfy its other Alaska Plan commitments, or failed to meet a build-out milestone.[117] The *Alaska Connect Fund Order* also allows WTB to determine whether an Alaska Plan mobile provider is ineligible for the ACF for specific coverage

(Continued from previous page)
*Fund Order*, 39 FCC Rcd at 12152-53, paras. 125-27. However, where a provider makes a commitment to provide mobile broadband data service at a particular speed and technology, it is still under obligation to provide mobile voice service. 47 CFR § 54.308(e)(1); *Alaska Plan Order*, 31 FCC Rcd at 10164, para. 77. Because providers' Alaska Plan and ACF commitments are not for mobile voice service, the providers must provide mobile voice service pursuant to the public interest compliance obligations of section 54.320(c), not 54.320(d). *Compare* 47 CFR § 54.320(c) (providing actions that the Commission may take against a provider that fails to comply with public interest obligations), *with id.* § 54.320(d) (providing actions that the Commission takes when providers fail to meet their buildout milestones pursuant to their commitments).

[109] *See Alaska Connect Fund Order*, 39 FCC Rcd at 12167-68, para. 157.

[110] 47 CFR § 54.318(f)(6).

[111] 47 CFR § 54.318(f)(7).

[112] GCI ACF Petition at 15-18.

[113] The ACF rules allow a twelve-month cure period for the final commitment milestone, during which a noncompliant provider may come into compliance before it is subject to repayment penalties of its support. 47 CFR § 54.320(d)(2) ("Upon notification that the eligible telecommunications carrier has not met a final milestone, the eligible telecommunications carrier will have twelve months from the date of the final milestone deadline to come into full compliance with this milestone.").

[114] GCI ACF Petition at 16.

[115] The *de minimis* threshold refers to the gap in compliance that is not penalized. GCI borrows this five percent threshold from the Commission's existing rules. *See* 47 CFR § 54.320(d)(1)(i).

[116] GCI ACF Petition at 16; *see id.* at 17.

[117] *Alaska Connect Fund Order*, 39 FCC Rcd at 12142, para. 95; *accord* 47 CFR § 54.318(a)(1).

areas, or to delay its ACF support until the provider meets its outstanding obligations under the Alaska Plan or BDC.[118]

32. GCI claims that the *Alaska Connect Fund Order* lacks guidance about when a failure to complete Alaska Plan commitments by the 2026 deadline will result in ineligibility for the ACF.[119] GCI expresses concern that WTB's authority would permit it to "disqualify GCI or any other potential ACF participant from ACF participation for missing Alaska Plan commitments by even one [population count]," or "disqualify that provider from the later competitive selection processes, even if the Commission decides to permit bids from entities with no proven track record of deploying mobile service in Alaska."[120] GCI argues that its requested changes would "ensure that the most qualified providers will be able to continue to work to expand mobile coverage, while still maintaining the Alaska Plan's enforcement regime."[121] ARCC "supports [Commission] clarification when the [Commission] can exercise its best and reasoned judgment on the issue."[122]

33. We grant GCI's request regarding use of the cure year and clarify that WTB is not to make a determination on ACF eligibility until after the cure year of the Alaska Plan. Under the Alaska Plan, upon notification that the mobile provider has not met its final milestone, the mobile provider has twelve months from the date of the final milestone deadline to come into full compliance (cure year).[123] This cure year allows the Alaska Plan mobile provider to meet their final milestone commitments without being penalized for noncompliance during that twelve-month period. Under the ACF, an Alaska Plan mobile provider may be deemed ineligible to participate in the ACF if WTB determines that the provider has failed to comply with its Alaska Plan obligations, including failing to meet its Alaska Plan build-out milestones.[124] WTB may determine whether an Alaska Plan mobile provider is ineligible for ACF based on the mobile provider's compliance with its Alaska Plan and Broadband Data Collection obligations.[125] We read these provisions together as authorizing WTB to determine an Alaska Plan mobile provider's eligibility based on its compliance with, among other things, its Alaska Plan final milestone commitments, and that Alaska Plan mobile providers cannot be penalized (and thus found noncompliant) for failing to meet their final milestone commitments until after the expiration of the twelve-month period from the final milestone deadline. We therefore find that a reasonable interpretation of the Alaska Plan and ACF rules together supports the clarification that WTB will refrain from determining an Alaska Plan mobile provider's ACF eligibility until after the twelve-month cure period.[126] While we expect mobile providers to fulfill their commitments, given that the penalties under the Alaska Plan are not assessed until after the cure year concludes on December 31, 2027,[127] we find that date to be an appropriate time for WTB to initiate its determination of whether a mobile provider is ineligible for the ACF. As such, we clarify that WTB will not determine whether an Alaska Plan provider is ineligible for the ACF until after December 31, 2027. WTB therefore will have until December 15, 2028—subject to reasonable extensions by WTB, not to go beyond July 1, 2029—to notify mobile providers of a final determination that they are ineligible for the ACF or will have support delayed due to Alaska Plan noncompliance. If

[119] *See* GCI ACF Petition at 15; GCI ACF Petition Reply at 4.

[120] GCI ACF Petition at 16; *accord* GCI ACF Petition Reply at 4-5.

[121] GCI ACF Petition Reply at 7.

[122] ARCC ACF Recon Comments at 8.

[123] 47 CFR § 54.320(d)(2).

[124] 47 CFR § 54.318(a)(1).

[125] 47 CFR § 54.318(a)(2).

[126] 47 CFR §§ 54.318, 54.320.

[127] 47 CFR § 54.320(d)(2).

WTB determines that an Alaska Plan mobile provider did not meet its Alaska Plan buildout obligations after the commencement of the ACF, and also determines that the mobile provider is not eligible to receive ACF mobile support, WTB can take all actions necessary to recover all ACF support dating back to January 1, 2027.[128]

34. We also grant in part GCI's request to limit ACF ineligibility to mobile providers that miss more than a *de minimis* amount of their Alaska Plan commitments. While mobile providers are expected to fully meet their Alaska Plan commitments, ineligibility for the ACF is a serious additional penalty that is reserved only for the mobile providers that WTB finds to have more than *de minimis* noncompliance. If a mobile provider misses any of its Alaska Plan commitments, the Universal Service Administration Company (USAC) will recover 1.89 times[129] for each equivalent person[130] for which the mobile provider has missed providing the committed-to service. This penalty remains unchanged and applies to *de minimis* noncompliance at the final Alaska Plan milestone. However, WTB's delegation of authority *could* allow it to limit eligibility in ACF if a compliance gap in Alaska Plan is greater than *de minimis*. While we limit WTB's authority to find a mobile provider to be ineligible to situations in which the provider has greater than *de minimis* noncompliance in the Alaska Plan, we do not define that threshold as 5% noncompliance as GCI requests. We leave that determination to WTB based on its assessment of the circumstances after the cure year concludes.

### C. Clarification and Reconsideration of Eligible Areas Designations

#### 1. Modification of Areas Eligible for ACF Support to Make Untestable Hexes Eligible

35. GCI requests that the Commission reconsider the requirement that hex-9s that cannot be tested are ineligible for ACF support.[131] We deny GCI's request and affirm our determination that areas that are untestable are not eligible for ACF support, but we clarify that this ineligibility determination applies only to areas that are permanently untestable and not to areas that are only temporarily untestable.[132]

36. In the *Alaska Connect Fund Order*, the Commission explained that areas that are inaccessible or unsafe for testing are ineligible for ACF support in order to "ensure that support is

[128] *See* 47 CFR § 54.318(i)(5).

[129] 47 CFR § 54.320(d)(2).

[130] As the mobile portion of the *Alaska Plan Order* is population-based, the Commission "direct[ed] the Wireless Telecommunications Bureau to issue guidance on what constitutes a location for mobile recipients of Alaska Plan support." *Alaska Plan Order*, 31 FCC Rcd at 10173, para. 104 n.204. Subsequent to the *Alaska Plan Order*, WTB adopted the *Alaska Population Distribution Order*, which is used to determine how many people are being covered by the Alaska Plan provider consistent with its commitments. *See generally Alaska Population Distribution Order*, 35 FCC Rcd 10373. We address this issue here. A "location" is a committed-to person for Alaska Plan purposes, and for purposes of determining the number of missed locations for the final Alaska Plan milestone, the number of uncovered committed-to people consistent with the Alaska Population Distribution Model will be equal to the number of missed "locations" for the final milestone. In other words, if a mobile provider committed to cover 1000 Alaskans, and the Alaska Population Distribution Model indicates that the mobile provider only covers 900 Alaskans, then the mobile provider will have covered 900 of the 1000 locations for purposes of final milestone analysis of the Alaska Plan.

[131] GCI ACF Petition at 8-11.

[132] *Alaska Connect Fund Order*, 39 FCC Rcd at 12148, para. 110 ("Hex-9s that are inaccessible during all seasons or are a safety hazard to test at all times of the year are ineligible for support . . . ."). Because we amend the ACF rules to specify that all ineligible areas will be designated as such based on BDC availability data as of December 31, 2024, any untestable areas discovered during speed testing of a provider's commitments will be deemed eligible for support.

targeted to areas where it is needed the most while maintaining accountability for how funds are used."[133] GCI requests that the Commission reconsider its decision to eliminate eligibility for untestable hex-9s, arguing that there is no rationale for eliminating support for those areas when hexes covered by the same cell sites are eligible.[134] ARCC agrees that "hex testing challenges should not eliminate hexes from inclusion"[135] and contends that finding inaccessible hexes ineligible for support misses the point with the goal of ubiquitous mobile service.[136]

37. GCI claims that the large number of hex-9s in its current Alaska Plan service area makes it impossible to assess whether every hex-9 is testable.[137] GCI further argues the Commission should not eliminate support for those areas because the testability of a hex-9 is not a proxy for whether that area is where Alaskans "live, work, or travel"—i.e., areas without any human activity.[138] GCI adds that a number of hexes may be practically difficult to test for security and safety reasons, weather events, or objections from local communities.[139] Though it acknowledges that the *Alaska Connect Fund Order* offers the possibility of performing testing using an uncrewed aircraft (UA), or drone, as an alternative to on-the-ground-testing, GCI maintains that there will still be areas where this alternative will not be a viable option.[140] GCI also argues that to the extent that untestable hexes are not areas with human activity, the Commission should find these areas to be eligible for ACF support anyway because "[s]uch areas are incidentally covered[] and excluding them as ineligible does not reduce the cost to serve adjacent, supported areas."[141] To this end, GCI proposes the amendment of section 54.318(c)(2) and the deletion of sections 54.318(c)(1)(iii) and 54.318(i)(4) of our rules.[142] GCI also asks the Commission to clarify that the speed testing conducted will be outdoors/stationary, consistent with the BDC.[143]

38. We reaffirm the fundamental principle in our rules that areas that are untestable are not eligible for ACF support and clarify how this principle would apply.[144] Generally, if a mobile provider cannot prove it is providing service, then it cannot receive support for that service.[145] We reiterate, however, that the principle applies to areas that are not available for testing on a permanent basis except as described below. In the *Alaska Connect Fund Order*, the Commission stated that "[h]ex-9s that are

[133] *Alaska Connect Fund Order*, 39 FCC Rcd at 12130, para. 66; *see id.* at 12147, para. 108 ("[T]o protect the success and integrity of the ACF, all support areas must be verifiable, and areas that cannot be tested cannot be verified. Consequently, areas that cannot be tested practically and safely are ineligible.").

[144] 47 CFR § 54.318(c)(1)(iii).

[145] *Alaska Connect Fund Order*, 39 FCC Rcd at 12147, para. 108 ("[T]o protect the success and integrity of the ACF, all support areas must be verifiable, and areas that cannot be tested cannot be verified. Consequently, areas that cannot be tested practically and safely are ineligible.").

inaccessible *during all seasons* or are a safety hazard to test *at all times of the year* are ineligible for support."[146] As such, temporarily blocked trails, the inability to test due to weather events, or the presence of construction projects do not render an area ineligible because those areas would become testable at a later date. If an area can be tested using a UA, then such areas would be deemed eligible for ACF support.[147] If an area is permanently restricted from speed testing and a UA also cannot be used to test the area, but the area is nonetheless an area where people live, work, or travel and would use the service, then we direct WTB to work with the ACF participant about the specific areas of concern (e.g., military bases) to determine whether they should be considered eligible for support. We also clarify that any hex-9 with a BSL would be defined as accessible. Finally, we respond to GCI's request and confirm that outdoor/stationary data sets will be used for speed tests.

### 2. Categorization of Areas as Ineligible, Single-, or Duplicate-Support Areas Based on Broadband Data Collection Availability Data as of December 31, 2024

39. In its Petition, GCI requests that the Commission confirm that the categorization of hex-9s as ineligible, single-, or duplicate-support areas will be fixed based on BDC availability data as of December 31, 2024.[148] We grant the GCI ACF Petition in part, and will base our determination of all ineligible and duplicate-support areas on BDC availability data as of December 31, 2024. Given that single-support areas may evolve over the course of the ACF, we decline to determine single-support areas based solely on BDC availability data as of December 31, 2024.

40. Our rules provide that all areas of Alaska are eligible for ACF support except: (1) areas previously ineligible under the Alaska Plan;[149] (2) "competitive areas"[150] based on mobile providers' BDC availability data as of December 31, 2024;[151] and (3) "[a]reas deemed inaccessible or unsafe for testing by [WTB], in coordination with [OEA], and reflected in the Eligible-Areas Map."[152] Section 54.318(c)(2) permits WTB to "periodically update the map(s) throughout the course of the Alaska Connect Fund, as necessary."[153] The *Alaska Connect Fund Order* requires WTB to "compare BDC availability data as of December 31, 2026 with subsequent BDC availability data to ensure that mobile voice and mobile broadband service levels [from the Alaska Plan] are maintained or improve in all previously served areas."[154] We note that the Alaska Plan does not end until December 31, 2026,[155] and the cure period does

[146] *Alaska Connect Fund Order*, 39 FCC Rcd at 12148, para. 110 (emphasis added).

[149] 47 CFR § 54.318(c)(1)(i). "Previously ineligible areas" are defined as (1) "[n]onremote areas, as defined in § 54.307(e)(3)(i); and (2) [a]reas as of December 31, 2014, that received 4G LTE service directly from mobile providers that were either unsubsidized or ineligible to claim the delayed phase down under § 54.307(e)(3) and covering, in the aggregate, at least 85 percent of the population of the census block." *Id.*

[150] 47 CFR § 54.318(c)(1)(ii). "Competitive areas" are defined as (1) "[a]reas with an unsubsidized mobile provider offering 5G-NR service at minimum speeds of 7/1 Mbps in an outdoor stationary environment based on mobile providers' Broadband Data Collection availability data as of December 31, 2024;" or (2) "[a]reas with three or more mobile providers—with at least one of those mobile providers being unsubsidized—offering at least 4G LTE service at minimum speeds of 5/1 Mbps in an outdoor stationary environment based on mobile providers' Broadband Data Collection availability data as of December 31, 2024." *Id.*

[151] 47 CFR § 54.318(c)(1)(ii)(A), (B).

[152] 47 CFR § 54.318(c)(1)(iii); *see also* 47 CFR § 54.318(h)(6) ("If a mobile provider discovers that some areas are inaccessible during required speed testing or during an audit, the mobile provider will be in noncompliance for those hex-9s, and potentially additional hex-9s if the inaccessible hex-9s were selected through random sampling.").

[153] 47 CFR § 54.318(c)(2).

[154] *Alaska Connect Fund Order*, 39 FCC Rcd at 12152, para. 124.

not end until December 31, 2027.[156] WTB can require the filing of updated performance plans[157] and resolve Eligible-Areas classifications of hexes throughout the life of the ACF, as needed.[158]

41. In its Petition, GCI argues that it is critical for the Commission to clarify that "an area cannot become ineligible, or become 'duplicate,' based on BDC availability data for service initiated after December 31, 2024."[159] GCI contends that "if BDC updates can . . . convert a single-support area into a duplicate-support area, the planning basis for the two-support-area structure is lost" and hinders multi-year investment recovery planning.[160] GCI explains that providers plan deployments and order equipment upgrades up to five years in advance and need certainty as to the ACF support they will receive for serving specific areas.[161]

42. ARCC supports GCI's request for a firm date in determining the eligibility status of hexes, although ARCC states it is still evaluating whether December 31, 2024, is the best date for the Commission to establish as the fixed date.[162] ARCC asserts that providers need certainty to support efforts to invest and maintain facilities and be confident that the amount of support will not change over time.[163] Responding to ARCC, GCI states there is no clear alternative date to December 31, 2024, "if the Eligible-Areas Map(s) will be published with the relevant categorization by October 2025."[164] GCI notes that June 30, 2025 BDC data is filed September 1, 2025, leaving Commission staff little time to analyze and vet the data, and create the maps.[165]

43. Based on our review of the record, we grant in part GCI's request and amend section 54.318(c)(1)(iii) and (d)(1)(ii) to set a firm date for determining all ineligible—including "untestable hexes"—and duplicate-support areas. We also grant GCI's request in part that the Commission determine all untestable areas using BDC availability data as of December 31, 2024. All ineligible areas and duplicate-support areas would be determined using BDC availability data as of December 31, 2024.[166] Additionally, any area that is discovered to be "untestable" after the initial Eligible-Areas Map is finalized will count against the provider achieving its commitments, as all eligible areas of the ACF will be formally established after the initial Eligible-Areas Map is finalized. We are persuaded by GCI's and ARCC's arguments that providers need certainty in the amount of support they will receive and which

[166] 47 CFR § 54.318(c)(1). The BDC has mechanisms to improve the accuracy of the data, such as challenge, verification, and audit processes. Areas may be updated if the December 31, 2024 data are revised for accuracy. 47 U.S.C. §§ 642(a)(1)(B)(i), (iii), (b)(4)(B), (b)(5), 644(a); 47 CFR § 1.7006(a), (c), (e)-(f); *see* FCC, Broadband Data Collection Help Center, Data Specifications, https://help.bdc.fcc.gov/hc/en-us/articles/6789299021723-Key-Reference-Documents (providing data specification documents for various data correction mechanisms of the BDC).

areas are eligible for that support for their future network planning.[167] Most of the types of ineligible areas were already locked as of December 31, 2024,[168] and with the addition of the untestable areas, which were the only ineligible areas that were previously not locked using BDC availability data as of December 31, 2024, all of the ineligible areas will be known when the ACF begins for network planning purposes. While duplicate-support areas will be set using BDC availability data as of December 31, 2024, these areas could become single-support areas after December 31, 2029, after the Commission takes action on the Further Notice.[169] We find that setting all ineligible areas and duplicate support areas with BDC availability data as of December 31, 2024, removes the possibility of the hex-9s where a provider could lose support from becoming subject to change or found ineligible during the course of the ACF. For example, a provider could plan deployments only to later find some of its support threatened based on the subsequent change of a hex-9 from eligible to ineligible, or find that an area is ineligible or unexpectedly included in the competitive process because of information revealed later.[170] Ultimately, as most ineligible areas were either known from the Alaska Plan[171] or set with December 31, 2024 data,[172] we find that adding the financial certainty of setting a firm date for the only two remaining types of areas where a provider could lose support—untestable areas and duplicate support areas—outweighs the advantages of allowing classifications of those hex-9s to remain subject to change.

44. Finally, because we grant GCI's request, we delete section 54.318(i)(4), and we amend sections 54.318(h)(6) and 54.318(k)(3) of our rules.[173] It will no longer be possible for untestable areas to become ineligible after the ACF begins.[174] We delete section 54.318(i)(4) because that paragraph wholly addressed a situation which can no longer arise: areas found to be ineligible because they were found to be untestable after the ACF had begun. We amend section 54.318(h)(6) by deleting the sentence: "If this noncompliance is discovered for the interim milestone testing, the mobile provider may identify, in an updated performance plan, comparable hex-9s that it will serve." This language is part of the comparable area process that allowed providers to retain support if they were serving areas that later became ineligible. Because all untestable areas will now be defined before the ACF begins, this language is no longer necessary. We amend section 54.318(k)(3) to allow for areas that are later discovered to be untestable to be deemed noncompliant without also becoming ineligible. While section 54.320(d), which mandates loss of support for the failure of an eligible telecommunications carrier to meet build-out milestones,[175] remains applicable to any noncompliance, a potential permanent reduction of support can no longer be triggered by an area becoming ineligible after the ACF begins.[176]

[172] *See* 47 CFR § 54.318(c)(1)(ii) (making competitive areas ineligible based on "mobile providers' Broadband Data Collection availability data as of December 31, 2024.").

[173] *See* 47 CFR § 54.318(i)(4), (h)(6), (k)(3).

[174] The untestable areas will be set with BDC availability data as of December 31, 2024, and the ACF begins January 1, 2027.

[175] 47 CFR § 54.320(d).

[176] Section 54.318(k)(3) previously read: "If a hex-9 is determined to be untestable and, thus, ineligible and this is discovered during speed testing of a provider's commitments, the hex-9—and any surrounding hex-9s also deemed to be untestable—will be counted as noncompliant with the provider's commitments. The provider's support may be reduced accordingly, consistent with the compliance tiers set forth in § 54.320(d)." It will now read: "If a hex-9 is determined to be untestable and this is discovered during speed testing of a provider's commitments, the hex-9—and any hex-9s represented by that hex-9—will be counted as noncompliant with the provider's commitments." In

(continued….)

45. We, however, deny GCI's request with respect to single-support areas. ACF single-support areas will need to be updated with more recent data, given that the initial map of a mobile provider's Alaska Plan coverage may not be known until December 31, 2026, or later,[177] at which point "uncovered areas [which could] become 'single-support areas' under the comparable service area mechanism" may also need to be adjusted as mobile providers cannot claim as comparable areas the areas they were already covering pursuant to the Alaska Plan.[178] As such, we do not affix the single-support areas to use of BDC availability data as of December 31, 2024.

### 3. Modifications to "Competitive Areas" Eligible for Support

46. The ACF has two types of "competitive areas"—i.e., areas that offer unsubsidized 5G-NR service and areas with three or more providers offering at least 4G LTE mobile service with at least one unsubsidized 4G LTE provider—and mobile providers are prohibited from using ACF support in those competitive areas.[179] GCI requests that the Commission make competitive areas with unsubsidized 4G and areas served by AT&T's FirstNet eligible to use ACF support.[180] We deny GCI's petition to reconsider the ineligibility of competitive areas and reaffirm the decision in the *Alaska Connect Fund Order* to deem "competitive areas" ineligible for use of extended support.

#### a. Areas with Three 4G LTE Providers with At Least One Unsubsidized Provider

47. For competitive 4G LTE areas, GCI argues that one unsupported 4G LTE provider should not render a hex-9 ineligible because the Commission's *5G Fund Second Report & Order* did not similarly make 4G areas ineligible.[181] The Commission in the *Alaska Connect Fund Order* determined that competitive areas should be ineligible because they would receive mobile service without any ACF support.[182] We reaffirm the Commission's decision, and we deny GCI's request to deem these hex-9s eligible for ACF support.[183]

(Continued from previous page)
addition to removing language related to untestable areas becoming ineligible at a later date, we also changed "any surrounding hex-9s" to "any hex-9s represented by that hex-9" for clarity consistent with the wording in the *Alaska Connect Fund Order*. *See Alaska Connect Fund Order*, 39 FCC Rcd at 12173, para. 174 ("If a hex-9 is determined to be untestable, and, thus, ineligible and this is discovered during speed testing of a provider's commitments, the hex-9 will be counted as noncompliant with the provider's commitments. It should be noted that as a result of a random sampling methodology, such a hex-9 will likely represent other, unselected hex-9s.")

[177] *Alaska Connect Fund Order*, 39 FCC Rcd at 12152, para. 124.

[178] *Alaska Connect Fund Order*, 39 FCC Rcd at 12149, para. 112. Where single-support areas expand by claiming "comparable areas," "other eligible areas" may be changed to a provider's single-support area throughout the course of the ACF. *See* 47 CFR § 54.318(d)(1)(i), (d)(1)(iii), (h).

[179] 47 CFR § 54.318(c)(ii); *Alaska Connect Fund Order*, 39 FCC Rcd at 12130, 12145-46, paras. 66, 103-05.

[180] GCI ACF Petition at ii, 11, 12.

[181] *See* GCI ACF Petition at 11 ("The Order does not explain why it deviates from the approach the Commission recently took in the *5G Fund 2d Report and Order*, which categorically declines to consider existing 4G LTE service when determining whether an area is eligible for the upcoming 5G Fund auction, nor does the *Order* explain why Alaska would require a different approach. . . . Consistent with the *5G Fund 2d Report and Order*, the Commission should modify eligibility to consider only whether a hex-9 is already served by unsubsidized 5G at 7/1 Mbps or was ineligible under the Alaska Plan."); GCI May 22, 2025 *Ex Parte*, Appx. at A-7. To effectuate its proposed change, GCI recommends deleting section 54.318(c)(1)(ii)(B) entirely. GCI May 22, 2025 *Ex Parte* at 3, Appx. at A-7; GCI ACF Petition Reply at 16, Appx. at A-6.

[182] *Alaska Connect Fund Order*, 39 FCC Rcd at 12145, para. 103 ("[A]reas that already have an unsubsidized mobile provider that offers at least 5G-NR at 7/1 Mbps or three or more mobile providers that offer at least 4G LTE at 5/1 Mbps in an outdoor stationary environment—with at least one of those providers being unsubsidized—are
(continued….)

48. The *Alaska Connect Fund Order* deems "competitive," and thus ineligible for use of support, "[a]reas with three or more mobile providers—with at least one of those mobile providers being unsubsidized—offering at least 4G LTE service at minimum speeds of 5/1 Mbps in an outdoor stationary environment based on mobile providers' Broadband Data Collection availability data as of December 31, 2024."[184]

49. GCI asks the Commission to "modify eligibility to consider only whether a hex-9 is already served by unsubsidized 5G at 7/1 Mbps or was ineligible under the Alaska Plan."[185] GCI argues that, in the *Alaska Connect Fund Order*, the Commission "does not explain why it deviates from the approach the Commission recently took in the *5G Fund 2d Report and Order*, . . . nor does the *Order* explain why Alaska would require a different approach,"[186] but we note that the 5G Fund follows a different approach. The 5G Fund considers 4G LTE service in weighing bids during the auction and, most importantly, determined that the Commission should not provide high-cost support for the deployment of 4G LTE networks,[187] which is not the case in Alaska. Unlike the 5G Fund, the ACF supports 4G LTE deployments by extending support of the Alaska Plan, which supports 4G LTE service through December 31, 2026.[188] Moreover, the ACF, unlike the 5G Fund, supports 4G LTE commitments.[189] These are material differences from the *5G Fund Second Report and Order* that warrant exclusion of areas with 4G LTE competition from eligibility for ACF support.

50. GCI's argument that "[a] single, unsupported 4G provider should not render a hex ineligible,"[190] misstates the ACF "competitive area" rule. If an ACF provider and a "single, unsupported 4G LTE provider"[191] both provide service to a hex-9, and no other mobile provider offers service to that hex, then the hex-9 would not meet the definition of "competitive area" and could be eligible for support.[192] The area is deemed competitive, and therefore ineligible for support, if at least *three* providers serve that hex-9, with each providing at least 4G LTE service at 5/1 Mbps and one being an unsubsidized mobile provider.[193] The presence of several mobile providers, including at least one unsubsidized mobile provider, providing at least 4G LTE at 5/1 Mbps is evidence that there is a private-sector case for the area.[194] The *Alaska Connect Fund Order* reasoned that where "three mobile providers of at least 4G LTE service at 5/1 Mbps in an area—with at least one of those mobile providers being unsubsidized—there are

(Continued from previous page)
evidence that the area does not need support to yield private-sector investment—there is already competition in that area.").

private sector incentives to offer advanced mobile services to those areas."[195] For these reasons, we deny GCI's request.

### b. Classification of AT&T's FirstNet Areas

51. GCI asks the Commission to make areas served by AT&T's FirstNet network eligible to use ACF support by treating the areas as "subsidized."[196] As explained below, we believe GCI's request would frustrate the goals outlined in the *Alaska Connect Fund Order.* We affirm that FirstNet is considered "unsubsidized" for purposes of the ACF and deny GCI's request.

52. In the *Alaska Connect Fund Order*, the Commission stated that "[f]or purposes of the Alaska Connect Fund an 'unsubsidized provider' is one that does not receive Alaska Plan support."[197] Even though the Commission has never defined AT&T's FirstNet service areas as "subsidized" for high-cost purposes, GCI contends that the Commission's decision is arbitrary and capricious for concluding that such areas should be deemed "unsubsidized" for purposes of the ACF because FirstNet was constructed with public funds and receives uniform nationwide user fees as implicit support.[198] GCI also argues that FirstNet should not be considered to be an unsubsidized provider because its service would be potentially unavailable in the case of emergencies, given that first responders receive priority access to the network over consumers.[199] ARCC supports GCI's position, stating that GCI "corrects a misunderstanding in Alaska with the assertion that 'FirstNet should not be considered "unsubsidized" or otherwise remove an area from eligibility.'"[200]

53. We deny GCI's request to deem FirstNet areas "subsidized" and, thus, continue to prohibit the use of ACF support in areas where AT&T provides FirstNet service, including 5G-NR service. First and most simply, these areas would receive service without ACF support, so making them eligible for support is not a prudent use of high-cost support. Second, allowing ACF support to be used in FirstNet areas would effectively allow high-cost support to subsidize ACF mobile providers' competition with AT&T, and, as the Commission observed in the *Alaska Connect Fund Order*, "the universal service program [is] not intended to subsidize competition."[201] Finally, if we considered AT&T's FirstNet areas to be "subsidized" for the ACF, it would entirely undermine the 5G-NR "competitive areas" exclusion,[202] which excludes all areas with an unsubsidized mobile provider offering 5G-NR at minimum speeds of 7/1 Mbps based on mobile providers' BDC availability data as of December 31, 2024, because AT&T was the only unsubsidized mobile provider of 5G-NR at 7/1 Mbps service in Alaska as of December 31, 2024. For all of these reasons, we deny GCI's request.

### 4. No Removal of Support in Newly Ineligible Areas Until the Commission Adopts the Methodology for Support Per Hexagon

54. GCI requests that the Commission reconsider and not direct the removal of any portion of mobile providers' support attributed to hex-9s determined to be ineligible due to the presence of an

[202] 47 CFR § 54.318(c)(1)(ii)(A).

unsubsidized competitor, as it is premature until the Commission adopts a deaveraging methodology to determine the support-per-hex-9 for such areas.[203] To clarify that the Commission will delay the removal of support until it adopts a deaveraging methodology, GCI requests a revision to the comparable areas requirement[204] by amending section 54.318(h) and deleting section 54.318(i)(3) in order to make the comparable areas requirement permissive instead of mandatory.[205] We grant GCI's requests in part and deny in part as follows.

55. In the *Alaska Connect Fund Order*, the Commission determined that it would allow mobile-provider participants that will no longer receive support for a newly ineligible area to continue receiving the same level of support if they cover a comparable number of hex-9s elsewhere.[206] Mobile providers that are unable to have comparable areas approved by WTB through their performance plans will have a proportional amount of the support that the mobile provider was receiving in the newly ineligible areas phased down.[207] In the *Alaska Connect Fund FNPRM*, the Commission sought comment on a methodology to determine a support amount for areas where more than one mobile provider had been receiving support for overlapping areas.[208] The Commission also noted that this methodology could be used to determine support amounts to claw back for areas that it deemed ineligible in the event that support did not shift to a comparable area.[209] The Commission delegated authority to WTB to resolve

[203] GCI ACF Petition at 13-15; *see also Alaska Connect Fund FNPRM*, 39 FCC Rcd at 12182-84, paras. 194, 198-205 (requesting comment on how to determine support amounts by area for the mobile portion of the ACF). GCI further argues that the Commission should assume that none of a mobile provider's support is being provided to such ineligible areas and thus refrain from removing any support for hexes that are ineligible due to unsubsidized competitors. GCI ACF Petition at 13; GCI ACF Petition Reply at 7-8. While we will address GCI's request in this Order insomuch that it asks for a delay of the removal of ACF support attributed to such ineligible areas until the deaveraging methodology is determined, we find that GCI's further argument speaks to how much support should be attributed to said ineligible areas and is better addressed in the *Alaska Connect Fund FNPRM* proceeding. Finally, GCI argues that the Commission also should not eliminate support from Alaska as a result of competitive selection among duplicate providers. GCI ACF Petition at 13. For the same reasons, we will address this in the *Alaska Connect Fund FNPRM* proceeding.

[204] 47 CFR § 54.318(h). "To be considered 'comparable,' we expect a provider to cover the same number of uncovered hex-9s as the number of hex-9s that were ineligible, unless the mobile-provider participant of the Alaska Connect Fund can provide justification that a lower number of hex-9s that it would be covering elsewhere is 'comparable' to the number of newly ineligible hex-9s . . . ." *Alaska Connect Fund Order*, 39 FCC Rcd at 12150, para. 115. "Specifically, each mobile provider must remove the ineligible hex-9s from its commitment, and in a separate category in the performance plan, specify how many comparable hex-9s it commits to cover, by census tract . . . ." *Id.* at 12150, para. 116. "A provider [that] commits to cover the same number of uncovered hex-9s . . . will be considered . . . safe harbor[ed], and a provider will have such coverage deemed 'comparable' to the coverage where it no longer has support." *Id.* "WTB, in coordination with OEA, [will] work with providers in their submissions of 'comparable number of hex-9s' to meet the requirements . . . ." *Id.*

[205] GCI May 22, 2025 *Ex Parte*, Appx. at A-3; GCI ACF Petition Reply, Appx. at A-3.

[206] *Alaska Connect Fund Order*, 39 FCC Rcd at 12149, para. 113; *accord* 47 CFR § 54.318(h) ("Mobile providers that received support under the Alaska Plan for coverage of newly ineligible areas and that wish to retain their support level must use their Alaska Connect Fund support to cover a comparable number of otherwise uncovered hex-9s elsewhere, subject to claw back in their support if they do not do so.").

[207] 47 CFR § 54.318(i)(3).

[208] *Alaska Connect Fund FNPRM*, 39 FCC Rcd at 12182, para. 194.

[209] *Id*.

support amounts per area after the comment cycle of the Further Notice concluded,[210] which occurred on March 4, 2025.[211] WTB has not yet resolved this issue.

56. GCI states that the Commission "should not direct removal of support for hexes that become ineligible due to unsubsidized competitors," "[p]ending determination of the deaveraging methodology in the *FNPRM*."[212] GCI also states, "the Commission also should not eliminate support from Alaska as a result of competitive selection among duplicate providers."[213]

57. We do not prejudge the outcome of the Further Notice, and WTB cannot remove support before the support amounts per hex-9 are known. We grant GCI's petition to the extent that it asks for a delay in the removal of support for newly ineligible areas until the Commission adopts a deaveraging methodology to determine the support-per-hex-9 for such areas.[214] We agree with GCI that such a delay is reasonable because the Commission will need to know the amount of support per hex before it can direct that such support be removed. We also partially grant GCI's recommended addition to the comparable areas rule—i.e., section 54.318(h)[215]—because it clarifies that the only support that will be subject to claw back is the support attributed to areas deemed newly ineligible. GCI's edits make explicit that the rule only applies to support that the mobile provider was receiving in the areas deemed newly ineligible for the mobile provider.[216]

58. We deny GCI's other suggested edits to the Commission's rules related to its request for reconsideration. GCI recommends deleting the rule that would phase down support if a mobile provider's comparable areas are not approved—section 54.318(i)(3)[217]—and GCI also recommends changing the word "must" to "may" in the comparable areas rule.[218] We find that these changes would upend the ACF

[210] *Alaska Connect Fund Order*, 39 FCC Rcd at 12136, para. 80.

[211] Connect America Fund; Alaska Connect Fund, Connect America Fund—Alaska Plan, ETC Annual Reports and Certifications, Telecommunications Carriers Eligible To Receive Universal Service Support, Universal Service Reform—Mobility Fund, 233 Fed. Reg. 96166, Proposed Rule (Dec. 31, 2024).

[212] GCI May 22, 2025 *Ex Parte*, Appx. at A-3; *see also* GCI ACF Petition at 13-15; GCI ACF Petition Reply at 7-8; GCI May 22, 2025 *Ex Parte* at 3.

[213] *See* GCI ACF Petition at 13-15.

[214] GCI May 22, 2025 *Ex Parte*, Appx. at A-3; *see also* GCI ACF Petition at 13-15; GCI ACF Petition Reply at 7-8; GCI May 22, 2025 *Ex Parte* at 3.

[215] 47 CFR § 54.318(h). After partially accepting this edit, section 54.318(h) would now read: "Mobile providers that received support under the Alaska Plan for coverage of newly ineligible areas and that wish to retain their support level must, for any support attributed to such newly ineligible areas, use their Alaska Connect Fund support to cover a comparable number of otherwise uncovered hex-9s elsewhere, subject to claw back in their support if they do not do so." GCI May 22, 2025 *Ex Parte*, Appx. at A-3.

[216] If the Commission allows the comparable areas system to be applied to duplicate-support areas, where a provider loses support because it is deemed the duplicating provider, the area would be ineligible for use of ACF support for the duplicating provider. *See, e.g.*, 47 CFR § 54.318(a)(2) ("The Wireless Telecommunications Bureau may determine whether an Alaska Plan mobile provider is . . . ineligible for specific coverage areas . . ."); *see also Alaska Connect Fund Order*, 39 FCC Rcd at 12191, para. 229; GCI ACF Petition at 15 ("The Commission . . . should not eliminate support from Alaska as a result of competitive selection among duplicate providers."). The amount of support at issue for the duplicating provider would be the amount of support attributed to the newly ineligible area for that provider (i.e., the previous duplicate-support area). Where this happens, the "duplicate-support" area would become a single-support area, and the area would be ineligible for use of ACF support for other providers, including the duplicating provider. The process for determining which provider should receive the support in areas where it is being duplicated was a part of the Further Notice and has not yet been acted on. *See Alaska Connect Fund Order*, 39 FCC Rcd at 12184-91, paras. 205-29.

[217] 47 CFR § 54.318(i)(3).

[218] 47 CFR § 54.318(h).

comparable areas process, making the need to provide service to comparable areas in the ACF optional in order to receive the same level of support. If the Commission were to delete section 54.318(i)(3), then a mobile provider would not have its support phased down if it did not have comparable areas approved in its performance plan.[219] GCI's proposed change would allow the mobile provider to retain its Alaska Plan support and allow it to provide less service and coverage for the same amount of support. Moreover, because GCI did not adequately raise the issue of effectively eliminating or making permissive the comparable areas regime in its Petition, we also dismiss this request as untimely.[220] We accordingly deny the request to delete 54.318(i)(3) of the Commission's rules.[221] GCI's proposed edit to the comparable areas rule, changing "must" to "may" in section 54.318(h) is also an attempt to make the comparable areas process optional instead of mandatory, and we deny that requested change as well. These changes are also unnecessary to effectuate grant of GCI's request to delay any phase down in support until the methodology for determining each mobile provider's support per hex-9 is determined.[222]

### D. Clarification Regarding Service Obligations for Areas Ineligible for ACF Support

59. GCI requests clarification that mobile providers do not have ACF service obligations in areas where they are prohibited from using ACF support.[223] GCI recommends that the Commission make clear that the *Alaska Connect Fund Order* does not require a mobile provider to continue to serve areas where it is not eligible for ACF support,[224] and it argues that removal of this requirement would comport with the Commission's recent practice for other high-cost programs.[225] We grant GCI's request for clarification that mobile providers do not have service obligations for areas where they cannot use ACF support.

60. Under the *Alaska Connect Fund Order*, mobile support recipients must continue to maintain the minimum service levels—to the same areas—that they achieved under the Alaska Plan, in order to maintain the progress made under the Alaska Plan.[226] This requirement includes all Alaska Plan public interest obligations, such as continuing to provide voice service, as required by all ETCs,[227] to

[219] *See* 47 CFR § 54.318(i)(3).

[220] *See* GCI ACF Petition at 13-15 ("The ACF Order implies, and the FNPRM proposes, that a portion of an Alaska Plan provider's statewide support will be deemed to be associated with ineligible areas starting in 2027, and then decremented, unless WTB approves a sufficient number of "comparable areas" to substitute for the ineligible ones. To the extent the ACF Order directs this result, it should be reconsidered, as it is premature pending the determination in the FNPRM . . ."); 47 CFR § 1.429(d).

[222] *See* GCI May 22, 2025 *Ex Parte*, Appx. at A-3 (suggesting changes to the rule as part of the request to delay phase down until the support-per-hex-9 methodology is created).

[223] GCI ACF Petition at 18-19.

[224] *Id.* at 18.

[225] *See* GCI ACF Petition at 18-19 (citing *Connect America Fund et al.*, Report and Order, 29 FCC Rcd 15644, 15663, paras. 51-52 (2014); *Rural Digital Opportunity Fund; Connect America Fund*, Report and Order, 35 FCC Rcd 686, 743, para. 134 (2020); *Establishing a 5G Fund for Rural America*, Report and Order, 35 FCC Rcd 12174, 12225, para. 124 n.317 (2020)).

[226] *Alaska Connect Fund Order*, 39 FCC Rcd at 12152, para. 124; *see also* 47 CFR § 54.308(e) ("Mobile providers receiving support from the Alaska Connect Fund must provide service at the same minimum service levels as required under the Alaska Plan and may not provide less coverage or provide service using a less advanced technology than the provider committed to under the Alaska Plan.").

[227] All ACF recipients must be designated as an ETC before receiving high-cost support, including ACF support. *Alaska Connect Fund Order*, 39 FCC Rcd at 12106-07, paras. 13-14; *see id.* at 12107, para. 14 ("[B]ecoming an ETC carries with it certain obligations, such as a requirement to provision voice service . . . ."); 47 U.S.C. §§ 214(e), 254(e); 47 CFR §§ 54.201-207 (explaining the requirements for eligible telecommunications carrier designation).

maintain at least the same level of data service they are providing to their previous coverage areas as of the end of the Alaska Plan, and to improve service consistent with their approved performance plans through the end of ACF.[228] Where mobile providers no longer receive support, they are to remove those areas from their performance plans.[229]

61. In its Petition, GCI expresses confusion about whether the *Alaska Connect Fund Order* imposes any obligation on a mobile provider to continue serve areas where it no longer receives support.[230] GCI states that although the *Alaska Connect Fund Order* "implies that it does not impose any obligation on a mobile provider to continue to serve areas for which it no longer receives support," it also "suggests that a provider electing to receive ACF support must 'continue to maintain the minimum service levels—to the same areas—that they achieved under the Alaska Plan.'"[231] GCI argues the Commission should follow its practice with other high-cost initiatives and expressly state that a provider is not required to continue serving areas where it no longer receives support.[232]

62. We agree with GCI that mobile providers do not have ACF service obligations in areas where they are prohibited from using ACF support and find that clarification to be in the public interest by resolving any confusion on the part of ACF mobile providers.[233] Accordingly, we amend section 54.308(e) of our rules to clarify that mobile providers that receive ACF support "must provide service at the same minimum service levels as required under the Alaska Plan and may not provide less coverage or provide service using a less advanced technology than the provider committed to under the Alaska Plan. For areas supported under the Alaska Plan that are ineligible for support under the Alaska Connect Fund, providers must continue to provide service to the extent of their Alaska Plan commitments, but do not have Alaska Connect Fund service obligations for those areas and are prohibited from using Alaska Connect Fund support to serve those areas."[234] We also amend our rules to add a new sentence to the end of section 54.318(e), stating: "A mobile provider does not have Alaska Connect Fund obligations in areas where it is prohibited from using Alaska Connect Fund support for service, and it is prohibited from using Alaska Connect Fund support to provide service in areas other than its own single-support or duplicate-support areas or other eligible areas, as defined in paragraph (d)(1)(iii) of this section."

### E. Modification of Implementation and Compliance Obligations of the ACF

#### 1. Elimination of Annual Infrastructure Data Filing Requirement

63. GCI requests modification of the ACF rules to eliminate the annual infrastructure data filing requirement for ACF mobile providers.[235] We find elimination of this requirement to be in the public interest and thus grant GCI's request. The *Alaska Connect Fund Order* requires recipients of mobile support to annually submit all the infrastructure data that providers would submit as part of the BDC mobile verification process to verify their coverage in areas for which they receive support.[236] GCI

[228] *Alaska Connect Fund Order*, 39 FCC Rcd at 12152, para. 124.

[229] 47 CFR § 54.318(h)(1).

[230] GCI ACF Petition at 18; *accord* GCI ACF Petition Reply at 14.

[231] GCI ACF Petition at 18 (quoting *Alaska Connect Fund Order*, 39 FCC Rcd at 12152, para. 124).

[232] GCI ACF Petition at iii ("Similarly, the Commission should make clear that Alaska Plan providers will not be required to serve areas where a provider loses support either due to areas being designated as ineligible, or as a result of the competitive selection process."); GCI ACF Petition at 18-19.

[233] Alaska Plan obligations are unaffected by the *Alaska Connect Fund Order*. *Alaska Connect Fund Order*, 39 FCC Rcd at 12175, para. 180. To the extent that mobile providers have facilities supported by the Alaska Plan in newly ineligible areas of the ACF, they may continue to provide service, but they may not use ACF support for those areas.

[234] *Infra* Appx. A, § 54.308(e) (emphasis added).

[235] GCI ACF Petition at 23-24.

[236] *Alaska Connect Fund Order*, 39 FCC Rcd at 12170, paras. 164-65; *accord* 47 CFR § 54.318(j)(1).

asks the Commission to reconsider this annual requirement because it "is unduly burdensome" and the *Alaska Connect Fund Order* does not justify the requirement other than citing "'FCC staff's experience in implementing the mobile BDC processes'" and "'accountability of high-cost funds.'"[237] GCI argues that, "if these reasons justified the annual [data submission] requirement, the Commission would also have adopted the requirement for the 5G Fund, which it did not."[238] To effectuate this request, GCI recommends that the Commission either amend the language of section 54.318(j)(1) to accord with section 1.7006(c) of the Commission's rules—i.e., to state that a mobile service provider must submit infrastructure information only in response to a verification request from the Commission—or delete section 54.318(j) in its entirety.[239] GCI asserts that the "upon request" approach under the BDC rules already permits Commission staff to request verification data if there is a concern about a provider's coverage.[240]

64. After considering GCI's proposals, we grant GCI's request and delete section 54.318(j) of the Commission's rules. We find that modifying the language of 54.318(j) to use the "upon request" approach of section 1.7006(c) as GCI proposes simply restates the authority Commission staff already has to request data from broadband mobile providers subject to BDC audits and verifications.[241] We believe that the more prudent approach is to delete section 54.318(j) to eliminate the annual filing requirement for ACF mobile providers. In addition, granting GCI's request to delete 54.318(j) is consistent with the spirit of the Commission's *Delete, Delete, Delete* proceeding, which the Commission initiated to alleviate duplicative or unnecessary regulations that impose disproportionate costs on businesses, particularly small businesses.[242]

### 2. Reconsideration of the ACF Mobile Speed Test Deadline

65. GCI asks the Commission to modify the ACF speed test requirement by adjusting the deadline to submit speed test data to five months after providers receive their sample grid cells to be tested.[243] We grant GCI's petition to adopt language clarifying that the deadline for providers to submit required mobile speed test data under the ACF is no later than five months from the date they receive their final hex-9 grid samples.

66. Pursuant to the *Alaska Connect Fund Order*, mobile providers receiving more than $5 million annually in ACF funds are required to conduct drive tests and submit those data to the Commission when they submit their required milestone certifications,[244] which are due no later than 60 days after the end of each mobile provider's commitment milestone deadline.[245] GCI petitions the Commission to instead "requir[e] speed tests results to be submitted five months after providers receive their samples."[246] GCI notes that it would be impossible for providers to submit their speed test results

[237] GCI ACF Petition at 23-24 (quoting *Alaska Connect Fund Order*, 39 FCC Rcd at 12170-71, paras. 165-66).

[244] *Alaska Connect Fund Order*, 39 FCC Rcd at 12172, para. 170; *accord* 47 CFR § 54.318(k)(1). These speed tests will generally conform to the BDC Data Specifications for Mobile Speed Test Data. *See* 47 CFR § 54.318(k)(2).

[245] 47 CFR § 54.318(f)(10).

[246] GCI ACF Petition at 23.

"along with" their milestone certifications,[247] given that certifications are required no later than two months after milestones are due,[248] but the hex-9 samples needed to begin testing may be provided up to four months after milestones are due.[249] To effectuate this request, GCI asks the Commission to amend section 54.318(k)(1) of its rules as follows: "A mobile provider receiving more than $5 million annually in Alaska Connect Fund support must submit speed test data within five months of receipt of the final sample grid cells for speed testing."[250]

67. We agree that adopting GCI's proposed language for mobile speed tests, making the deadline for submitting speed test data five months after obligated providers receive their hex-9 samples, is in the public interest, and we grant reconsideration on this point. We find that a five-month deadline will ensure mobile providers obligated to meet this requirement have the time they need to adequately perform their drive tests without prejudicing the Commission's ability to assess carriers' compliance. Further, we find that GCI's proposed amendment to section 54.318(k) of our rules is consistent with the speed testing requirement process that was carried out in the Alaska Plan. Though the Commission adopted an identical speed testing requirement in the *Alaska Plan Order*,[251] WTB subsequently waived the original March 1, 2022 deadline for submitting Alaska Plan drive-test data and extended it six months to September 30, 2022, in response to arguments that providers would not have enough time to test their random sample of grids once WTB provided them.[252] We note that several circumstances were present that contributed to the six-month extension in the *Alaska Drive Test Extension Order* that do not apply here,[253] and therefore agree with GCI that five months is a more appropriate deadline in this case. We avoid that result here by granting GCI's request and adopting its suggested amendment to section 54.318(k).

### 3. Reconsideration of the Reasonably Comparable Price Requirement To Permit Providers to Use Their Own Anchorage Plans to Meet the Comparable Pricing Benchmark

68. GCI seeks reconsideration of the prohibition on ACF mobile providers citing their own service plans in Anchorage as evidence of their compliance with the reasonably comparable rate requirement.[254] GCI claims that this prohibition effectively only applies to GCI, as it is the only Alaska

[247] *See* GCI ACF Petition at 23 (citing *Alaska Connect Fund Order*, 39 FCC Rcd at 12171-73, paras. 167, 170, 172; 47 CFR § 54.318(k)(1)).

[248] *See Alaska Connect Fund Order*, 39 FCC Rcd at 12174, para. 175; 47 CFR § 54.318(f)(10).

[249] *See Alaska Connect Fund Order*, 39 FCC Rcd at 12173, para. 172; GCI ACF Petition at 23 (citing *Alaska Connect Fund Order*, 39 FCC Rcd at 12171-73, paras. 167, 170, 172; 47 CFR § 54.318(k)(1)).

[250] GCI ACF Petition Reply, Appx. at A-4.

[251] *See Alaska Plan Order*, 31 FCC Rcd at 10173, para. 103 (requiring milestone certifications from mobile providers who received more than $5 million annually in high-cost support to be supported by data from drive tests showing mobile transmissions to and from the provider's network that meet or exceed the minimum download and upload speeds included in the service provider's approved performance plan); *accord* 47 CFR § 54.321(a) ("For Alaska Plan participants receiving more than $5 million annually in support, this certification shall be accompanied by data received or used from drive tests analyzing network coverage for mobile service covering the population for which support was received and showing mobile transmissions to and from the carrier's network meeting or exceeding the minimum expected download and upload speeds delineated in the approved performance plan."); *see also Connect America Fund—Alaska Plan*, WC Docket No. 16-271, Order, 36 FCC Rcd 15569 (2021) (*Alaska Drive Test Extension Order*).

[252] *Alaska Drive Test Extension Order*, 36 FCC Rcd at 15570-71, paras. 4-6.

[253] The Commission recognized issues such as the delay in adoption of pertinent regulatory requirements for the drive testing and a recent surge in COVID-19 cases in Alaska, as contributing complications to meeting the March 1, 2022 speed test deadline. *Alaska Drive Test Extension Order*, 36 FCC Rcd at 15570-71, para. 5.

[254] GCI ACF Petition at 20-21.

Plan mobile carrier that serves Anchorage, and requests an amendment to section 54.308(f)(4) to remove this prohibition.[255] We grant the request to remove the prohibition.

69. In the *Alaska Connect Fund Order*, providers are prohibited from citing their own plans in Anchorage as evidence that they are providing reasonably comparable rates.[256] Section 254(b)(3) of the Communications Act of 1934, as amended, establishes the universal service principle that consumers in all regions of the nation, including "rural, insular, and high-cost areas," should have access to advanced communications that are reasonably comparable to those services and rates available in urban areas.[257] In the *Alaska Connect Fund Order*, the Commission required every participating mobile provider to certify its compliance with this statutory obligation in annual compliance filings and to demonstrate its compliance by showing that it publishes, on its publicly accessible website, at least one mobile broadband plan and at least one stand-alone voice plan that are: (1) substantially similar to a service plan offered by at least one different mobile wireless service provider in the Cellular Market Area (CMA) for Anchorage, Alaska, and (2) offered for the same or a lower rate than the matching plan in the CMA for Anchorage.[258] However, the Commission included the caveat that providers could not cite to their own plans in Anchorage as evidence of meeting the reasonably comparable rate condition.[259]

70. GCI argues that prohibiting a mobile provider from citing to its own plans as evidence of compliance with the reasonably comparable requirement is inconsistent with other high-cost support programs, such as the Alaska Plan, as well as the requirements for ACF fixed providers.[260] GCI claims that this prohibition effectively only applies to GCI, as it is the only Alaska Plan mobile carrier that serves Anchorage.[261] GCI also argues that the prohibition is unneeded, considering Anchorage market conditions are highly competitive.[262] GCI maintains that its plans "are offered statewide, so by definition its rates in supported areas are the same as its rates in Anchorage."[263] We received no other feedback on this prohibition or GCI's proposal.

71. We grant GCI's request to reconsider the prohibition on mobile providers citing their own plans in Anchorage as evidence of compliance with the reasonably comparable rate condition. To the extent that the Commission was concerned with incentivizing artificially high pricing throughout the state, any mobile provider's plan will face competitive pressures in Anchorage.[264] If a mobile provider were to raise its rates in Anchorage, which contains more than one third of Alaska's population, then it increases the risk of losing subscribers in Alaska's most populated market.[265] As evidence that competition in the Anchorage market is sufficient to restrain prices, when the reasonably comparable rate demonstration was due in the Alaska Plan in 2022,[266] GCI could have cited to its own plan, but instead,

demonstrated that it was offering plans with reasonably comparable rates by submitting a competitor's Anchorage mobile-service plans. Moreover, while the first reasonably comparable rate demonstration is not due until December 31, 2029,[267] at the moment, GCI, as it observes, is the only mobile provider affected by this rule and may continue to be the only mobile provider affected by this condition throughout the course of the ACF.[268] Consequently, we find persuasive GCI's arguments permitting mobile providers to use their own Anchorage service plans as evidence of compliance with the reasonably comparable requirements and grant GCI's request for reconsideration of this condition. Accordingly, we strike this requirement from section 54.308(f)(4).

### F. Treatment of Transactions Between ACF Supported Providers

72. GCI seeks clarification of how ACF support will be impacted by transactions among ACF mobile providers, and requests that the acquiring mobile provider be guaranteed to receive the acquired mobile provider's ACF support.[269] Specifically, GCI argues that the Commission should make two clarifications to give mobile providers certainty to make performance commitments and ensure that there is a continuation of service after the transaction.[270] First, GCI proposes that for situations "where a transaction closes before the resolution of a duplicate-support area, the acquiring company should continue to receive all of the ACF support for the formerly duplicate-support area."[271] GCI claims that this proposal would be consistent with the Commission's approach for the Alaska Plan.[272] GCI also proposes that "if duplicate-support areas are eliminated due to a merger or other transaction, the area should be reclassified as [a] single-support [area]" because it no longer needs a competitive selection process to determine a single mobile provider.[273] Under this proposal, the provider would submit a revised performance plan that reflects the requirements for the reclassified areas.[274] Second, for situations where "a transaction closes after the competitive selection process," GCI proposes that "the successor mobile provider should be permitted to continue to receive ACF support at the competitively selected level, subject to the commitments entered into by its predecessor."[275] To effectuate these clarifications, GCI proposes adding a new paragraph at the end of section 54.318 of the Commission's rules.[276] We

[267] *Alaska Connect Fund Order*, 39 FCC Rcd at 12165, para. 152.

[274] GCI ACF Petition at 8; GCI ACF Petition Reply at 15.

[275] GCI ACF Petition at 8; *accord* GCI ACF Petition Reply at 15.

[276] GCI ACF Petition Reply, Appx. at A-5. The proposed rule amendment would read as follows: "Transfers. Notwithstanding any provisions of § 54.305 or other sections in this part, to the extent an Alaska Connect Fund participant (as defined in § 54.2100 or § 54.318) transfers some or all of its customers in eligible areas or locations in Alaska to another eligible telecommunications carrier, it may also transfer a proportionate amount of its Alaska Connect Fund support and any associated performance obligations as determined by the Wireline Competition Bureau or Wireless Telecommunications Bureau if the acquiring telecommunications carrier certifies it will meet the associated obligations agreed to in the approved performance plan." *Id.* (emphasis omitted).

deny GCI's request to provide blanket guarantees of post-transaction support transfers. We, instead, maintain that such transfers of ACF support between participating Alaska ETCs will be addressed on a case-by-case basis as such transactions come before the Commission for review.

73. Although the Commission had considered the effects of transactions between participating mobile providers on their Alaska Plan support,[277] the *Alaska Connect Fund Order* was silent on the matter. Under the Alaska Plan, WTB was authorized to permit a participating provider transferring some or all of its Alaska customers to another ETC to also transfer a "proportionate amount of its Alaska Plan support" to that ETC, and to determine the extent of the proportionate amount of support and specific performance obligations to be transferred.[278]

74. We deny GCI's request and find no need to amend the rules for transactions involving the potential transfer of ACF support and obligations, as the Commission's statutory transaction review authority already provides the means to sufficiently address these matters as they arise.[279] Unlike the Alaska Plan, the ACF does not just acknowledge that there could be duplicate support, but makes different rules for duplicate-support areas.[280] As part of this different treatment, there are unresolved issues regarding how to address duplicate-support in the Further Notice that could be affected if we were to grant GCI's request.[281] Given the different regulatory regime of the duplicate support areas and the unsettled resolution of the related issues from the Further Notice, we deny GCI's request for clarification regarding transactions between ACF providers. As such, we emphasize that the Commission will determine the extent to which ACF support and obligations will transfer among providers on a fact-specific, case-by-case basis for each transaction.

## IV. ALASKA PLAN WAIVER ORDER

75. Shortly after filing its Petition for Clarification and Reconsideration of the *Alaska Connect Fund Order*, GCI filed a Petition for Modification or Waiver of two Alaska Plan methodologies—the Alaska Population Distribution Model and the Alaska Plan Waterfall Methodology—that affect evaluation of a mobile support recipient's performance of its commitments under its individual plan.[282] Specifically, GCI asks the Commission to: (1) modify or waive the Alaska Population Distribution Model by applying a six-step Fabric-based methodology before applying the Model, which GCI claims "can further improve the Model's approximation of where Alaskans are actually located,"[283] and (2) modify or waive the Alaska Plan Waterfall Methodology,[284] which credits

[284] GCI AK Plan Petition at 1-2, 15-16, 17-20.

overperformance of higher-level technology commitments toward satisfaction of the next-lowest level of technology commitments.[285]

76. We grant in part GCI's request to waive the Alaska Plan's Alaska Population Distribution Model as applied to one specifically identified coastal community location where further evaluation indicates that the Model poorly approximates where the population lives, but otherwise deny GCI's request to completely replace the current Model. We also grant GCI's request to waive the Alaska Plan Waterfall Methodology to allow mobile providers' overperformance at a higher-level speed commitment to be counted toward their next-lowest level of speed commitment.

### A. Alaska Population Distribution Model

77. As discussed above, in the *Alaska Plan Order* the Commission established a plan for the provision of high-cost support to broadband providers in Alaska for a period of ten years, with providers' final milestones for their individual performance plans due December 31, 2026.[286] To determine how many Alaskans each provider covers under the Alaska Plan, WTB adopted the Alaska Population Distribution Model (Model) in 2020.[287] The Model was necessary because the Alaska Plan needed a system for objectively attributing the number of people covered by providers.[288] While 100% coverage of a census block means that 100% of that population is covered, 75% coverage of a geographic area of a census block, for example, does not necessarily mean that 75% of the population is covered, given that population generally is not evenly distributed through a census block in remote areas of Alaska and census blocks may be very large and sparsely populated.[289] The Model identifies areas within a census block where people are likely to live and then evenly distributes the population throughout the livable area of the census block.[290] For example, the Model draws polygons extending 100 meters on either side of local roads, identifying those areas as the areas within the census block that are the populated areas, and evenly distributes the population within those polygons.[291] When FCC Form 477 mobile-coverage

[285] *Alaska Drive Test Order*, 37 FCC Rcd at 5907, para. 57 ("[W]here a provider has committed to multiple tiers of technology (i.e., 2G, 3G, and 4G LTE), any excess coverage would be applied to the next lower tier of technology.").

[286] *Alaska Plan Order*, 31 FCC Rcd at 10159-60, paras. 66-67; *see Alaska Connect Fund Order*, 39 FCC Rcd at 12131, paras. 68, 70; 47 CFR § 54.317(d); *see also* 47 CFR § 54.318(b) ("Mobile providers receiving support pursuant to § 54.317(e) that do not opt into extended ACF support will have their support end with the Alaska Plan on December 31, 2026 . . . .").

[288] *Id.* at 10374, para. 4.

[289] *Id.* at 10377, para. 10.

[290] *See Alaska Population Distribution Order*, 35 FCC Rcd at 10374, 10376, paras. 4, 9. The Alaska Population Distribution Model was based on a model that GCI developed and was adopted after extensive engagement with the Alaska Telecom Association. *See, e.g.*, Letter from Christine O'Connor, Executive Director, ATA, to Marlene H. Dortch, Secretary, FCC, WC Docket No. 16-271, at 1, Attach. (filed Feb. 8, 2019) (ATA Feb. 8, 2019 *Ex Parte*) (suggesting edits to the proposed Alaska population-distribution methodology); *Wireless Telecommunications Bureau Seeks Comment on Population Distribution Model and Eligible Census Block List to Be Applied in the Alaska Plan*, WC Docket No. 16-271, Public Notice, 35 FCC Rcd 1520, 1521-24, paras. 4-12 (WTB 2020) (*Alaska Population Model Public Notice*); *Wireless Telecommunications Bureau Extends Comment Deadlines for Alaska Plan Population Distribution Methodology*, WC Docket No. 16-271, Public Notice, 35 FCC Rcd 2917, 2917 (WTB 2020).

[291] *Alaska Population Distribution Order*, 35 FCC Rcd at 10375, para. 5 ("Specifically, the model uses a multi-step process to identify areas within a census block most likely to be populated and combines those results with service coverage maps to estimate the number of people with mobile wireless service in a partially-served census block. The model uses TIGER road data overlaid onto populated census blocks, under the premise that local roads (not highways or expressways) are a reliable predictor of population locations. Next, the model draws polygons extending 100 meters on either side of those roads, with areas further out assumed to be uninhabited. The model (continued….)

data is superimposed onto the Model, WTB and OEA are able to determine how many people the providers are covering and, thus, whether providers are meeting their commitments.[292] In four areas—in and around Unalaska, near Nome and Unalakleet, in the Prudhoe Bay area, and in the Copper Valley area—the Model uses other location information, such as address-level data from the local government and aerial imagery from Google Earth, to determine the location of the population.[293]

78. The Commission may waive its rules for good cause shown.[294] Good cause exists where "special circumstances warrant a deviation for the general rule and such deviation will serve the public interest."[295] The good cause standard is a "high hurdle," as the "very essence of waiver is the assumed validity of the general rule," and when one seeks "a waiver of a rule, it must plead with particularity the facts and circumstances that warrant such action."[296] The Commission may take into account considerations of hardship, equity, or more effective implementation of overall policy on an individual basis.[297] The Commission may deny waivers that it finds overly broad and, if granted, would provide relief beyond any harms shown or alleged.[298]

79. In its Petition, GCI proposes application of an additional six-step Fabric-based methodology before using the Model methodology.[299] GCI "believes that the Fabric—although imperfect—will, in certain identifiable areas, provide a more accurate estimate of where Alaskans actually live, and thus allow for a better measurement and evaluation of whether Alaska Plan mobile participants have met their commitments to offer qualifying voice and broadband services to specified numbers of population."[300] GCI argues that the Fabric-based methodology (1) would "bring[] within the scope of providers' coverage more BSLs—and thus population—that the Model assumes are currently outside of the provider's polygons for coverage"; and (2) "would eliminate the need to build infrastructure in some areas that have no people in them, just to achieve compliance with the Model."[301] GCI contends that "[i]ncorporating the Fabric into the Model to assess GCI's compliance with its commitments in these areas will serve the public interest by better targeting Alaska Plan mobile

(Continued from previous page)
also overlays General Land Status data maintained by the State of Alaska and removes areas where people are unlikely to reside, such as National Forest Service land. Finally, the model evenly distributes the population of each census block within the remaining polygons to reflect the geographic areas where people are likely to live. For those census blocks where no populated areas are identified, the methodology evenly distributes the Census-reported population of each block across land within that block owned by municipalities, private entities, or Alaska Natives. If there is no land owned by those groups, then the population is distributed across the entire census block.").

[292] *Alaska Population Distribution Order*, 35 FCC Rcd at 10377, para. 11.

[299] GCI AK Plan Petition at 9-13.

[300] *Id.* at 8.

[301] *Id.* at 14.

deployment obligations to where remote Alaskans live, consistent with the Commission's intent in the *Alaska Plan Order*."[302] GCI's proposed additional steps are as follows:

> 1. Identify the [BSLs] in the Fabric that fall within Alaska Plan-supported census blocks, other than census blocks where the Bureau already adopted exceptions to the Model as proposed by [Alaska Telecom Association (ATA)] (after exclusion, "Model Census Blocks")[;]
>
> 2. For the remaining BSLs, within each Model Census Block, identify the total number of units ("BSL Units")[;]
>
> 3. For each Model Census Block, compare the number of BSL Units to the number of housing units as identified in the 2010 census ("Census Housing Units")[;]
>
> 4. Within a Model Census Block, use the BSL Units instead of the Model to identify the location of population if:
>
> a. The total BSL Units in a census block are greater than or equal to the Census Housing Units;
>
> b. The 2010 census population of the Model Census Block ("Block Population") divided by the number of BSL Units is four or less; or
>
> c. The census GEOID is '021800001001139' (Little Diomede)[;]
>
> 5. For Model Census Blocks where the BSL Units are used to identify the location of population, draw a 25-meter polygon around the BSL Units and distribute the Block Population evenly within the polygon(s)[; and]
>
> 6. For all other Model Census Blocks, continue to use the current Model.[303]

80. GCI states that applying its proposed steps "would result in using the Fabric to update the Model in 3,764 of the 4,782 Alaska Plan-supported census blocks" for all mobile providers.[304] GCI also notes that "[g]iven that this is the ninth year of a ten-year mechanism, if necessary to prevent prejudice to a provider that relied on the existing Model, such a provider could be permitted to elect to continue to use the old Model, rather than the Model as modified per this request."[305]

81. ARCC and OptimERA urge the Commission to reject GCI's modification of the Model. ARCC argues "it is appropriate to hold GCI to the commitments they agreed to base[d] on the model that they insisted on be[ing] used for the first ten years of the Alaska Plan. It appears to the ARCC this is[] yet another delay tactic used by GCI to ignore hard to reach customers that GCI has already been paid to reach every year for the first nine years of the Alaska Plan."[306] OptimERA agrees and claims that GCI

---

[302] *Id.* at 8 (footnote omitted) (citing *Alaska Plan Order*, 31 FCC Rcd *passim* (discussing population but not roads); *Alaska Population Distribution Order*, 35 FCC Rcd at 10374, 10375, paras. 4, 5).

[303] GCI AK Plan Petition at 9 (footnote omitted); *see also id.* at 10-13. GCI refers to a correction of an anomaly. We interpret GCI's Petition as referring to Little Diomede, as is evidenced by GCI's separate treatment of Little Diomede in its proposed steps. *See id.* at 1. We grant relief to address this anomaly.

[304] GCI AK Plan Petition at 9. GCI notes that it "does not intend to disturb the distribution of population where the Bureau has already adopted exceptions to the Model." *Id*. at 9 n.30.

[305] GCI AK Plan Petition at 1 n.2 ("[I]f necessary to prevent prejudice to a provider that relied on the existing Model, such a provider could be permitted to elect to continue to use the old Model, rather than the Model as modified per this request."). However, GCI also states that the requested relief would apply only to itself and that other providers must submit their own requests. *Id*. at 8 n.27 ("To the extent that any other Alaska Plan mobile participants agree that the Fabric is a better tool for assessing their compliance than the Model, they are free to submit similar waiver requests.").

[306] ARCC AK Plan Comments at 5.

"now wants to dodge [the Model] at the eleventh hour, when it is imminently facing penalties for failing to comply with its ten-year build-out milestone."[307]

82. Based on GCI's Petition and the record, we find it is in the public interest to waive the application of the Alaska Population Distribution Model with respect to one of the specific locations GCI has identified in its filings.[308] In all other respects, we deny GCI's Petition to modify or waive the Model, because GCI has failed to demonstrate good cause or hardship.[309] We find the arguments from other Alaska providers that GCI should not be seeking to change the methodology regarding how the population is attributed to commitments in year nine of a ten-year plan to be persuasive.[310] We also find that GCI's proposal does not take into account the Alaska Plan's universal service goals. Contrary to GCI's arguments, the *Alaska Plan Order* was not solely concerned with covering where people live; it also aimed to further the goal of ensuring "universal stability of modern networks capable of providing mobile voice and broadband service where Americans live, work, and travel."[311] This continues to be an

[307] OptimERA AK Plan Opposition at 4. In its opposition, OptimERA urges the Commission to adopt its "Support Follows Consumers" (SFC) plan, as a "completely new approach to high-cost mobile support in Alaska." *Id.* at 7. We note that OptimERA previously raised this Support Follows Consumers plan in both its initial comments and reply to the *Alaska Connect Fund FNPRM*. OptimERA Comments, WC Docket Nos. 10-90, 23-328, 14-58, and 09-197; WT Docket No. 10-208, at 12-17 (rec. Feb. 4, 2025) (OptimERA ACF FNPRM Comments), https://www.fcc.gov/ecfs/document/10204131714981/1; OptimERA Reply, WC Docket Nos. 10-90, 23-328, 14-58, and 09-197; WT Docket No. 10-208, at 8-9 (rec. Mar. 5, 2025) (OptimERA ACF FNPRM Reply), https://www.fcc.gov/ecfs/document/10305947314260/1; *see also* Letter from Brooks E. Harlow, Counsel for OptimERA, to Marlene H. Dortch, Secretary, FCC, WC Docket No. 23-328 (filed May 7, 2025); Letter from Brooks E. Harlow, Counsel for OptimERA, to Marlene H. Dortch, Secretary, FCC, WC Docket No. 23-328 (filed May 1, 2025); Letter from Brooks E. Harlow, Counsel for OptimERA, to Marlene H. Dortch, Secretary, FCC, WC Docket No. 23-328 (filed Apr. 29, 2025). Under its SFC plan, each carrier in a service area (designated as an "FCC Tracking Area Code" or "FTAC") would receive a proportional share of the total support attributed to each area. OptimERA ACF FNPRM Comments at 12; *see also* OptimERA AK Plan Opposition at 7-8; OptimERA Aug. 19, 2025 *Ex Parte*. A carrier's support percentage would increase or decrease based on the change in its market share in the service area. OptimERA ACF FNPRM Comments at 12-13; *see also* OptimERA AK Plan Opposition at 7-8. If a carrier drops below a minimum threshold of the market share for that FTAC, it would no longer receive support; and likewise, if a new carrier began to serve a minimum threshold of the market for a defined period of time, it would begin receiving a proportion of that FTAC's support total. OptimERA ACF FNPRM Comments at 12-13; *see also* OptimERA AK Plan Opposition at 7-8. We find that the SFC plan effectively constitutes an alternative to the ACF, rather than a response to GCI's Petition regarding its specific requested changes to the Alaska Plan methodologies, and thus would more appropriately be addressed in a future Report and Order for ACF Phase II. We will therefore respond to the merits of OptimERA's SFC plan at a later time. To the extent OptimERA intends its SFC plan to be an alternative approach to the Alaska Plan, however, we reject it as a procedurally deficient, late-filed petition for reconsideration under Section 1.429 of our rules. *See* 47 CFR § 1.429.

[308] GCI AK Plan Petition at 6. In this Petition, GCI provides five examples demonstrating how its Fabric-based proposal would better estimate where Alaskans live, that is, where the population is located, than the Model. On July 23, 2025, GCI filed an *ex parte* presentation stating that, "[i]f the Commission would prefer to approve specific census blocks in which Broadband Serviceable Location ("BSL") data would be used, rather than adopting a methodological approach that could be applied across census blocks, we submit additional census blocks that address the bulk of the issue. Attached to this letter are all 23 blocks for which we are requesting a modification." (footnotes omitted). *See* Letter from John T. Nakahata et al., Counsel, GCI, to Marlene H. Dortch, Secretary, FCC, WC Docket No. 16-271, at 1-2 (filed July 23, 2025) (GCI July 23 *Ex Parte*). The GCI July 23 *Ex Parte* removes one of the five census blocks that was included in the GCI AK Plan Petition, and adds 19 additional census blocks, bringing the total number of specifically identified census blocks to 23. *Id.* at 3-4, n.16 & Appx. B. Our decision includes consideration of GCI's withdrawal of the one specifically identified census block and the addition of nineteen other specifically identified census blocks in the GCI July 23 *Ex Parte*.

[309] *WAIT Radio*, 418 F.2d at 1157-58.

[310] ARCC AK Plan Comments at 5; OptimERA AK Plan Opposition at 4.

[311] *Alaska Plan Order*, 31 FCC Rcd at 10174, para. 106.

important goal of the universal service program. Indeed, in the *Alaska Connect Fund Order*, the Commission found that one of the shortcomings of the Alaska Plan was that "the population-based approach . . . can be too limiting to effectively meet the program's mandate to ensure mobile network coverage is available where Alaskans live, work, and travel."[312] GCI's argument that its proposal would bring in more BSLs does not account for the detrimental impact the change would have by reducing service commitments in areas where people work and travel. Similarly, GCI's argument that the Model would eliminate the need to build infrastructure in areas with no people does not consider the fact that areas where people work and travel may not have BSLs.[313] We note that the relief GCI requests would affect at least 78% of its Alaska Plan supported census blocks, by its own estimate,[314] and we find it contrary to the public interest to extensively modify this compliance assessment methodology in year nine of the ten-year plan. As noted in the *2020 Alaska Population Distribution Model Order* "[u]sing two different methodologies for the 5- and 10-year evaluations would result in inconsistent evaluation of the commitments and could jeopardize the Commission's ability to enforce those commitments."[315]

83. Moreover, GCI has not adequately demonstrated that the methodological change to the Model it proposes is warranted. Given that the Model was adopted in 2020[316] after years of discussion with ATA[317] and was based on GCI's own model used for the 2016 *Alaska Plan Order*,[318] we find GCI has had sufficient notice regarding where it is required to deploy service under the Model using Alaska Plan support. If GCI were deploying in accordance with the Model, then the BSLs in its cited examples would mostly be covered as well.[319] In four of the examples provided by GCI in its Petition—Akutan, Gambell, Cordova, and Kachemak Selo[320]—the Model already requires coverage of most of the BSLs in the census block.[321] In the case of Akutan and Gambell, the Model also requires coverage of additional

[312] *Alaska Connect Fund Order*, 39 FCC Rcd at 12162, para. 147; *see also id.* at 12130, 12143, 12147-48, 12161, 12162, 12163, paras. 64, 98, 109, 145, 147, 148 ("[C]overing certain bodies of water is important to meet the 'work and travel' aspect of our universal service goals for Alaskans . . . .").

[313] Examples of buildings or structures that are not BSLs are "[a] building that includes one or multiple businesses that would subscribe to enterprise-grade, non-mass-market broadband Internet service . . . includ[ing] large office buildings, corporate campuses, and warehouses" and "[m]ost community anchor institutions (CAIs), such as schools, libraries, community centers, and government buildings." *See* FCC Broadband Data Collection Help Center, *About the Fabric: What a Broadband Serviceable Location (BSL) Is and Is Not* (July 31, 2025), https://help.bdc.fcc.gov/hc/en-us/articles/16842264428059-About-the-Fabric-What-a-Broadband-Serviceable-Location-BSL-Is-and-Is-Not.

[318] *See Alaska Population Model Public Notice*, 35 FCC Rcd at 1520-21, paras. 4-6 (describing GCI's population-distribution methodology).

[319] *See, e.g.*, GCI AK Plan Petition at A-1, B-1, C-1, D-1, Exhs. A-D (showing BSLs mostly in the area required to be covered by the Model).

[320] GCI AK Plan Petition at A-1, B-1, C-1, D-1, Exhs. A-D. GCI notes that while the populations in Akutan, Gambell, Cordova, and Little Diomede are undercounted by the Model, the population in Kachemak Selo is overcounted by the Model. *Id.* at 8-9. GCI subsequently withdrew its request for Kachemak Selo. GCI July 23 *Ex Parte* at 4, n.16. Although GCI refers to twenty additional census blocks, it appears to have mistakenly identified Cordova as an additional location, an area previously identified as an example in the GCI AK Plan Petition. *Id*. at 8, Appx. B; GCI AK Plan Petition at C-1, Exh. C.

areas not seemingly near BSLs—including along roads in the case of Gambell—but as application of the Model would still cover where the population lives, we do not find these examples to be enough evidence to support completely replacing the Model in year nine of the ten-year plan. Similarly, GCI's July 23 *Ex Parte* requests modification of the Model for 19 additional census blocks that would clearly reduce its obligation to provide coverage to roads in the affected areas.[322] GCI does not address how its proposal is consistent with the universal service goals of providing service where people work and travel.[323] It also fails to address the Commission's concern that using different standards at the five- and ten-year compliance dates would result in "inconsistent evaluation of the commitments" and enforcement of the compliance.[324]

84. Not only has GCI failed to demonstrate that significant harm would accrue from using the current Model, but based on the examples GCI provides, the current Model is superior to what GCI proposes. As part of its methodology, the Model "draws polygons extending 100 meters on either side of [local] roads,"[325] which is consistent with the goals of high-cost mobile support to cover where Americans live, work, and travel.[326] As such, the Model's population distribution was a useful interpretation of areas to be drive tested[327] without limiting vehicle testing to too small an area, which may occur if, instead of testing for service continually along a road, testing is done within the 25 meter polygons of BSLs.[328] Even if there are areas beyond building locations in the Model's population-distribution areas, these are areas likely to have a human presence, which captured possible work and travel, and it was worth ensuring that where the population was distributed evenly throughout the census block it had mobile

(Continued from previous page)

[321] *See* GCI AK Plan Petition, Exhs. A-D; GCI AK Plan Petition Reply at 8. On July 23, 2025, GCI submitted additional examples, but like the initial examples, these reveal that where the Model is followed, most of the BSLs would be covered. *See* GCI July 23 *Ex Parte*, Appx. A. GCI subsequently withdrew Kachemak Selo from consideration.

[322] GCI July 23 *Ex Parte* at 3-4, n.16 & Appx. B

[323] GCI is mistaken that the *Alaska Plan Order* was not concerned with covering where people live, work, and travel, merely because the Alaska Plan focused on covering populations. *See, e.g.*, *Alaska Plan Order*, 31 FCC Rcd at 10174, para. 106; *see also* GCI AK Plan Petition at 8-10. The Alaska Population Distribution Model had useful steps to ensure coverage of travel areas to that end, as the model distributed population along roads, which are useful for covering areas where populations travel. The *Alaska Plan Order* required drive testing to ensure coverage while people were mobile. *See, e.g.*, *Alaska Plan Order*, 31 FCC Rcd at 10173, para. 103 (requiring drive tests); Connect America Fund—Alaska Plan; GCI Communication Corp. Petition for Limited Expedited Waiver in the Alaska Plan for Drive-Test Data Collection, WC Docket No. 16-271, Order, 38 FCC Rcd at 6694 (WTB 2023) (affirming "that a speed of at least 15 mph is, in general, a necessary floor for in-motion drive testing for Alaska Plan participants"). GCI's counter proposal no longer rewards greater coverage for these areas, including along roads, and would tighten coverage solely to the locations that are to receive fixed broadband. *See* GCI AK Petition Reply at 6-7. This reward for less coverage is less effective at meeting the universal service goals of "live, work, and travel" than the application of the Model as is.

[324] *See Alaska Population Distribution Order*, 35 FCC Rcd at 10376-77, para. 9.

[325] *See id.* at 10375, para. 5; GCI AK Plan Petition at 9 (requesting that the Commission limit the coverage requirement to 25-meter polygons around the BSL Units). The Model granted exceptions to this methodology in four areas. *Alaska Population Distribution Order*, 35 FCC Rcd at 10375, para. 6.

[326] *See, e.g.*, *Alaska Connect Fund Order*, 39 FCC Rcd at 12143, para. 98; *Alaska Plan Order*, 31 FCC Rcd at 10174, para. 106; *Connect America Fund et al.*, WC Docket No. 10-90 et al., Report and Order and Further Notice of Proposed Rulemaking, 26 FCC Rcd 17663, 17680, para. 48 (2011) (*USF/ICC Transformation Order*).

[327] *Alaska Plan Order*, 31 FCC Rcd at 10173, para. 103.

[328] GCI AK Plan Petition at 9 ("For Model Census Blocks where the BSL Units are used to identify the location of population, draw a 25-meter polygon around the BSL Units and distribute the Block Population evenly within the polygon(s).").

coverage.[329] While the Bureau granted some exceptions to the Model when it was adopted, these were not intended to generally establish how the Model ordinarily required coverage.[330] GCI's counter proposal does not reward greater coverage of populated areas, including along roads,[331] and would limit required coverage which would reduce coverage in the populated areas.[332] Commission staff finds that GCI's proposal significantly decreases the amount of coverage providers are accountable for in the Alaska Plan. Such a change at this late stage of the proceeding would do little to help with mobile providers' network planning. Consequently, we decline to adopt GCI's proposed additional six-step methodology as a general matter.

85. Nonetheless, we waive application of the Model for one location where GCI has demonstrated good cause and grant of the waiver will not undermine the goals of the Commission's rules. We find that for one of these areas—Little Diomede—the Model does not sufficiently capture where the population lives, as 100% of the locations are outside of the modeled area.[333] In Little Diomede, the Model distributes population to the three quarters of the island that lack BSLs entirely and does not account for any population in the only quadrant of the island where people live. We waive application of the Model for this particular location. Instead, WTB may use BSLs, aerial imagery, or other data for determination of population location in Little Diomede, consistent with the current exceptions to the Model to determine the population's location.[334] We find this limited waiver of the Model appropriately tailored for fairness to all providers, because this limited waiver preserves the Alaska Population Distribution Model while improving the results of covering populated areas. By waiving the Model as applied to Little Diomede, providers will be accountable for covering the populated area, which should be the result under the Model, but due to an anomaly, the Model creates the opposite result for Little Diomede. Consequently, a limited waiver of the Model for Little Diomede creates more accountability of area that should be covered and is in the public interest.[335]

### B. Alaska Plan Waterfall Methodology

86. GCI next asks the Commission to modify or waive the Alaska Plan Waterfall Methodology,[336] which credits overperformance of higher-level last-mile *technology* commitments toward satisfaction of lower-level *technology* commitments.[337] GCI seeks instead to have such overperformance credited toward satisfaction of lower-level *speed* commitments of LTE service, and then lower-level technology commitments, such as 3G, in the event that there is surplus LTE coverage.[338] We conclude that most of the advantages of the current version of the Alaska Plan Waterfall Methodology were more

[329] *See Alaska Population Distribution Order*, 35 FCC Rcd at 10375, para. 5.

[338] GCI AK Plan Petition at 1-2, 15, 17-20.

relevant for assessment of the interim milestone commitments. Moreover, we find that the advantages of changing the rule outweigh the disadvantages. Accordingly, we grant GCI's request for relief.

87. The Commission may waive any provision of the rules on its own motion or on petition "for good cause shown."[339] In order to meet the "good cause shown" standard, the Commission must find that: (1) "special circumstances warrant a deviation from the general rule"; and (2) "such deviation will serve the public interest."[340] A rule waiver may serve the public interest when the relief would not undermine the policy objectives of the rule.[341] Blanket waivers are justified in certain limited situations.[342] In granting such a blanket waiver, the Commission should ensure the arguments in favor "are substantially different from those which have been carefully considered at the rulemaking proceeding."[343]

88. WTB adopted the Alaska Plan Waterfall Methodology to give credit to providers that overperform higher level commitments by having the satisfaction of those commitments "waterfall" down toward satisfaction of the lower-level commitments.[344] For the current version of the Alaska Plan Waterfall Methodology, "higher level" commitments were considered by the last-mile generation technology that the provider deployed.[345] As such, "where a provider has committed to multiple tiers of technology (i.e., 2G, 3G, and 4G LTE), any excess coverage would be applied to the next lower tier of technology."[346] For example, "if a provider has committed to cover 25,000 people with 4G LTE and the upper limit of the confidence interval shows adequate coverage for 30,000 people, then the remaining 5,000 [population] coverage can be applied to its 3G commitment."[347] However, because performance plan commitments are broken down by the available middle-mile infrastructure,[348] a provider may have three different speed commitments for 4G LTE based on the type of backhaul: one commitment for fiber-based, another for microwave-based, and a third for satellite-based.

89. For the ten-year benchmark, GCI argues that "[t]he fundamental objectives of the Alaska Plan mobile commitments are best achieved if overperformance 'waterfalls' from the higher performance

A (WTB 2016) (*2016 AK Plan Mobile Provider Initial Commitments Public Notice*) (approving the initial performance plans).

[346] *Alaska Drive Test Order*, 37 FCC Rcd at 5907, para. 57. The terms "level" and "tier" are used interchangeably as they refer to technology, for the purposes of the waterfall methodology. *Compare Alaska Plan Order*, 31 FCC Rcd at 10166, para. 58 (referring to "the *level* of technology (2G, 3G, 4G LTE, etc.)" (emphasis added)) *with Alaska Drive Test Order*, 37 FCC Rcd at 5907, para. 57 (referring to "multiple *tiers* of technology (i.e., 2G, 3G, and 4G LTE)" (emphasis added)). To address any confusion, we shall proceed by using the term "level" to refer to technologies, except when quoting another source.

[347] *Alaska Drive Test Order*, 37 FCC Rcd at 5907, para. 57 (quoting *Wireless Telecommunications Bureau Seeks Comment on Drive Test Parameters and Model for Alaska Plan Participants*, WC Docket No. 16-271, Public Notice 36 FCC Rcd 11279, 11295, Appx. B, Sec. VII (WTB 2021) (*Alaska Drive Test Public Notice*)).

[348] *Alaska Plan Order*, 31 FCC Rcd at 10166, para. 85; *Alaska Drive Test Order*, 37 FCC Rcd at 5891-92, para. 18.

tier to the next lowest performance tier[,] irrespective of backhaul technology, rather than dropping to the next lower tier within the same backhaul technology."[349] In particular, GCI asks the Commission to confirm that "overperformance at fiber-based LTE (which has a minimum speed of 10/1 Mbps) will waterfall to microwave-based LTE (which has a minimum speed of 2/.8 Mbps)[] and [that] overperformance in the microwave-based LTE category will waterfall to satellite-based LTE (which has a minimum speed of 1/.256 Mbps)."[350] In other words, GCI requests that overperformance of, for example, 4G LTE at 10/1 Mbps, be counted toward the next lower speed commitment (i.e., 4G LTE at 2/.8 Mbps), not toward the next lower technology commitment (i.e., 3G).[351] GCI claims that the current Alaska Plan Waterfall Methodology "undercount[s] the achieved data speeds delivered to Alaskans, and thereby potentially impose[s] unwarranted penalties and the claw back of support."[352]

90. ARCC and OptimERA disagree that the Alaska Plan Waterfall Methodology should be altered and argue that GCI has had sufficient notice to meet its commitments under the Alaska Plan rules.[353] ARCC and OptimERA argue that the current Alaska Plan Waterfall Methodology has an implicit geographic component that ensures that upgraded service be provided beyond the areas that have or would have fiber backhaul.[354] According to ARCC, GCI's requests represent "the 'next step' in the campaign of GCI to change the rules late in the Alaska Plan timeline."[355] ARCC warns that granting GCI's request could impact overlap comparisons for ARCC's mobile service areas, and argues that there should be reasonable boundaries on any impact on other Alaska Plan mobile providers.[356] OptimERA argues that GCI has failed to demonstrate special circumstances or good cause for waiver, noting that there is nothing unique about GCI's build-out obligations and that no other provider requested a waiver.[357] OptimERA also notes that "[a]pproving GCI's waiver requests would establish a precedent that would undercut efforts 'to advance, to the extent possible, the number of locations in Alaska that have access to at least 10/1 Mbps 4G LTE.'"[358]

[349] GCI AK Plan Petition at 17.

[350] GCI AK Plan Petition at 18. GCI explicitly asks the Commission to modify paragraph 39 of the *Alaska Drive Test Order* in the Introduction and Executive Summary of its Petition. *Id.* at 1 ("GCI also requests, for the Alaska Plan ten-year benchmarks, that the Commission modify Paragraph 39 of the Wireless Telecommunications Bureau's ('Bureau') *Drive Test Order* to revise the overperformance waterfall . . . ." (footnote omitted)). However, GCI cites paragraph 57 of the *Alaska Drive Test Order* when making its argument. *Id.* at 18, 19.

[356] *Id.* at 3, 5, 8-10.

[357] OptimERA AK Plan Opposition at 4.

[358] *Id.* at 5 (quoting *Alaska Drive Test Order*, 37 FCC Rcd at 5891, para. 17).

91. We grant GCI's request to waive the Alaska Plan Waterfall Methodology, and we grant a waiver of the last-mile technology-based aspect of the Alaska Plan Waterfall Methodology. Providers' Alaska Plan commitments to serve a specified number of Alaskans are based on last-mile technology and minimum speeds, subject to an allowance of lesser commitments if middle mile is limited.[359] The last-mile technology basis of the Waterfall Methodology provided significant incentives at the interim milestone. However, at this stage of the Alaska Plan the advantages of granting GCI's request outweigh the disadvantages. At the interim milestone, four of the eight providers had commitments of less than 4G LTE.[360] Encouraging overperformance of 4G LTE at the interim milestone incentivized overperforming with 4G LTE deployments, modernizing the technology in more legacy areas. At the final milestone, much of those technology improvements have been implemented, and only two providers—GCI and TelAlaska—have remaining 2G or 3G commitments.[361] By waiving the last-mile technology basis of the assessment leaves only the speed component of the commitment remaining. When speed is analyzed, for example, a provider that satisfied a 10/1 Mbps commitment necessarily has met its 5/1 Mbps commitment as well. The formulation GCI proposed, therefore, would incentivize the five mobile providers with different speed commitments to overperform their higher speed commitment versus receiving no benefit for that overperformance at the final milestone.[362] Granting this waiver, accordingly, is in the public interest.

92. Moreover, the fact that most of the lower technology tiers have been upgraded by the final milestone and the goal of rewarding overperformance of high-speed mobile broadband make waiver of the last mile technology-based portion of the Waterfall Methodology in the public interest. While there are three types of middle-mile backhaul—fiber-based, microwave-based, and satellite-based—the reason for granting GCI's Petition is best illustrated through a discussion of its fiber-based backhaul commitment.[363] At the five-year interim milestone, GCI had 4G LTE, 3G, and 2G technology commitments within its fiber-based-backhaul commitment.[364] As such, by targeting the next-lowest level of technology, the Alaska Plan Waterfall Methodology was rewarding overperformance of the fiber-based 4G LTE commitment by awarding credit toward satisfaction of lower-level technologies within that backhaul-commitment category, as this would count toward the early achievement of the final milestone. After all, if GCI converted more Alaskans from 3G to 4G LTE in the fiber-based category at the interim

[359] *See Alaska Plan Order*, 31 FCC Rcd at 10166-67, 10172-73, paras. 85, 102 (adding requirements where a mobile provider cannot commit to 4G LTE at 10/1 Mbps and new backhaul becomes available).

[360] ASTAC, GCI, TelAlaska, and Windy City had less than 4G LTE commitments at the interim milestone. *See 2016 AK Plan Mobile Provider Initial Commitments Public Notice*, 31 FCC Rcd at 13320-23, Appx. (accepting all of the Alaska Plan mobile providers' initial performance plans); *Wireless Telecommunications Bureau Approves ASTAC's and GCI's Revised Performance Plans Pursuant to the Alaska Plan Order*, WC Docket No. 16-271, Public Notice, 34 FCC Rcd 12183, 12185, Appx. (WTB 2019) (*2019 ASTAC Revised AK Plan Performance Plan Public Notice*) (accepting ASTAC's operative performance plan); *Wireless Telecommunications Bureau Approves GCI's Revised Performance Plan Pursuant to the Alaska Plan Order*, 35 FCC Rcd 9539, 9541, Appx. (WTB 2020) (accepting GCI's performance plan that was operative at the interim milestone).

[361] *See 2025 GCI Revised AK Plan Performance Plan Public Notice* at 3, Appx. A; *2024 Three Alaska Plan Revised Performance Plans Approved*, 39 FCC Rcd at 5901, Appx. A (showing technology codes 86 and 80, which are GSM and WCDMA/UMTS/HSPA, respectively).

[362] In addition to GCI and TelAlaska, ASTAC, Bristol Bay, and OTZ Wireless have multiple 4G LTE speed tier commitments. *See 2016 AK Plan Mobile Provider Initial Commitments Public Notice*, 31 FCC Rcd at 13320-23, Appx.; *2019 ASTAC Revised AK Plan Performance Plan Public Notice*, 34 FCC Rcd at 12185, Appx.; *2025 GCI Revised AK Plan Performance Plan Public Notice* at 3, Appx. A; *2024 Three Alaska Plan Revised Performance Plans Approved*, 39 FCC Rcd at 5901, Appx. A (providing Bristol Bay's operative performance plan).

[363] *See 2025 GCI Revised AK Plan Performance Plan Public Notice* at 3, Appx. A.

[364] *Id.* at 3, Appx. A.

milestone, then it should be rewarded for that effort, not penalized for having less 3G than it had committed to because those Alaskans now had 4G LTE.

93. For the final milestone, GCI committed to upgrade all fiber-based-backhaul areas to 4G LTE.[365] If GCI overperforms under the current Alaska Plan Waterfall Methodology, it would only receive credit for satisfying 3G and 2G commitments in the microwave-based and satellite-based areas because GCI does not have any remaining 3G or 2G commitments in fiber-based areas for the final milestone. Unless the Commission grants GCI's request, GCI would not receive credit for overperforming in fiber-based areas and it would be penalized for "missing" currently approved targets in microwave-based areas. For example, if GCI performs more than 100% of its fiber-based commitment at the final milestone and some of its formerly microwave-based customers are attributed to the fiber-based category, GCI would be underperforming in its 4G LTE microwave-based commitment at 2/.8 Mbps, even though it overperforms with its 4G LTE fiber-based commitment at 10/1 Mbps. Such a result would be antithetical to the incentives in the Alaska Plan. We therefore grant GCI's waiver request.

94. We are unpersuaded by ARCC's and OptimERA's concerns about altering the current Alaska Plan Waterfall Methodology. Though ARCC expresses concern with the impact of granting GCI's request for the Waterfall Methodology, it fails to explain how a waterfall based on speed commitments would create more harm to other providers and the populations they serve than a waterfall based on technology.[366] While the Alaska Plan performance plans are made at the statewide level, even if we were to assess the local-level effects of granting GCI's change to the Alaska Plan Waterfall Methodology, any resulting non-fiber-based areas that would not receive buildout would be offset overall by an equal number of Alaskans in areas elsewhere receiving a higher-level of service that they may not otherwise have received. Moreover, by waiving the last mile technology-basis of the Alaska Plan Waterfall Methodology, but requiring satisfaction of speed commitments, GCI is incentivized to overperform its 4G LTE at 10/1 Mbps commitment, which will result in higher speeds in the microwave-based areas that are upgraded as a result of the waterfall effect. As such, we do not agree with OptimERA's argument that "[a]pproving GCI's waiver requests would establish a precedent that would undercut efforts 'to advance, to the extent possible, the number of locations in Alaska that have access to at least 10/1 Mbps 4G LTE,'"[367] as GCI would need to increase its coverage of 10/1 Mbps to receive a benefit from overperformance of fiber-based 4G LTE. However, maintaining the current version of the Alaska Plan Waterfall Methodology may cause the harm OptimERA claims because if GCI fully meets its fiber-based 4G LTE commitment and fully meets 3G and 2G commitments, it may not have any additional incentive under the Alaska Plan to deploy more 4G LTE at 10/1 Mbps. Moreover, because more providers are now incentivized to exceed their higher-level commitments, more people should benefit from higher speeds in more areas throughout Alaska.

95. For these reasons, we waive the last-mile technology-basis of the Alaska Plan Waterfall Methodology. Because we waive the last-mile technology-based portion of the method, over-satisfaction of commitments will have to be made as a speed-based consideration. For the final milestone, mobile providers' overperformance of a higher-level speed commitment—after the commitment is satisfied[368]—

[365] *2025 GCI Revised AK Plan Performance Plan Public Notice* at 3, Appx. A.

[366] ARCC AK Plan Comments at 9-10.

[367] OptimERA AK Plan Opposition at 5. ARCC also expresses concern that granting the requested change to the Alaska Plan Waterfall Methodology could impact ARCC's hex eligibility in the ACF and overlap comparisons. *See* ARCC AK Plan Comments at 3, 5, 8-10. As all ineligible areas and duplicate-support areas in the ACF will be set with BDC availability data as of December 31, 2024, this will not be a concern to the extent that it was the gravamen of ARCC's comments. *See supra* section III.C.2 (discussing locked ineligible areas). For the Alaska Plan, the Commission did not implement overlap rules. *See id.*

[368] Failed tests of a higher-level commitment that are faster than a lower-speed tier commitment cannot be cited as proof of satisfaction of the lesser commitment. Only a provider's testing that overperforms a given commitment can waterfall to the lesser commitment. Although we grant a blanket waiver of the last-mile technology basis of the

(continued….)

will be credited to the next-highest speed tier; the "waterfall" will continue until all overperformance is applied to lower levels of speed commitments. In other words, if a provider satisfies its 10/1 Mbps commitment, it necessarily also satisfies its 5/1 Mbps commitment, if that is its next speed-tier commitment. For GCI, this would mean that if it overperforms its fiber-based 4G LTE commitment at 10/1 Mbps, the overperformance would "waterfall" to the microwave-based 4G LTE commitment at 2/.8 Mbps, and if that leads to overperformance, that in turn would waterfall to the satellite-based 1/.256 Mbps, and so on. We find this is in the public interest, as it incentivizes five mobile providers to overperform their higher-level commitments at the final milestone, instead of just two.[369]

## V. ARCC'S CORRECTIVE AREA RETENTION RESERVE PROPOSAL

96. ARCC filed a set of pleadings pertaining to both the ACF and Alaska Plan. In each proceeding, ARCC filed a pleading asking the Commission to adopt, among other things, a "Corrective Area Retention Reserve" plan (ARCC Reserve Plan) for mobile support recipients that are not in compliance with their Alaska Plan requirements.[370] ARCC subsequently filed a reply.[371] For the reasons discussed below, we decline to adopt the ARCC Reserve Plan on both procedural and substantive grounds.

97. ARCC submitted its proposal as a "middle ground" solution for noncompliant mobile support recipients "that is short of ACF exclusion for a non-compliant carrier" and "an acknowledgment of error."[372] In the *Alaska Connect Fund Order*, the Commission stated that a mobile support recipient's noncompliance with its Alaska Plan requirements will result in one of three penalties with respect to the provider's participation in the ACF: (1) ineligibility for the ACF as a whole; (2) ineligibility for the ACF in specific coverage areas (and an associated reduction in ACF support); or (3) delayed ACF support until the recipient meets its outstanding Alaska Plan requirements.[373] While being noncompliant with Alaska Plan commitments therefore could lead to a mobile support recipient becoming ineligible for the ACF, ARCC asks the Commission to adopt ARCC Reserve Plan as an alternative to a noncompliant mobile support recipient's ineligibility to participate in the ACF.[374] The ARCC Reserve Plan would require the Commission to amend the ACF rules to allow the noncompliant provider to participate in the ACF if the "out of compliance carrier places 20% of its annual ACF funding in escrow, for up to two years, until on its own, or in conjunction with another ACF carrier, it can meet those original Alaska Plan commitments."[375] In other words, ARCC proposes that the Commission should adopt a new type of penalty for a mobile support recipient that fails to meet the 10-year Alaska Plan milestone.[376] Because Alaska Plan compliance can affect ACF eligibility, the proposal, if adopted, would require changes to both the Alaska Plan (new penalty) and ACF (new eligibility requirements).

(Continued from previous page)
methodology, providers nonetheless may choose to have the original formulation of the Waterfall Methodology apply to that company.

[369] Where a mobile provider has a speed tier that has a lower download speed, but a higher upload speed than the previous tier, the download speed will be considered for tier purposes.

[370] ARCC AK Plan Comments at 3, 11; ARCC AK Plan Reply at 10 n.16. The ARCC AK Plan Comments were filed in the ACF docket, WC Docket No. 23-328, but did not list the ACF docket among the dockets in the caption. *See id.* at 1.

[371] ARCC AK Plan Reply at 1. The ARCC AK Plan Reply lists the ACF docket in the caption. *See id.*

[372] ARCC AK Plan Comments at 3, 11.

[373] *See Alaska Connect Fund Order*, 39 FCC Rcd at 12142-43, paras. 95, 97; *accord* 47 CFR § 54.318(a)(1)-(2).

[374] ARCC AK Plan Comments at 3, 11.

[375] ARCC AK Plan Comments at 11 (footnote omitted); *accord id.* at 3.

[376] ARCC AK Plan Comments at 3, 11.

98. We dismiss ARCC's request that we adopt the ARCC Reserve Plan to the extent that it requires amendment of the ACF rules as an untimely petition for reconsideration. Section 405(a) of the Communications Act provides that "[a] petition for reconsideration must be filed within thirty days from the date [of public notice of the underlying action]," as calculated in accordance with section 1.4(b) of the Commission's rules.[377] Section 1.429(d) of the Commission's rules likewise provides that "[t]he petition for reconsideration and any supplement thereto shall be filed within 30 days from the date of public notice of such action."[378] As discussed *supra*, with the ARCC Reserve Plan, ARCC effectively seeks reconsideration of the Commission's decision in the *Alaska Connect Fund Order* to adopt three potential ACF-related penalties for a mobile support recipient's noncompliance with its Alaska Plan commitments. However, the ARCC Reserve Plan is an untimely petition for reconsideration because ARCC failed to file it by the statutory and regulatory deadline.[379] The Commission provided public notice of the *Alaska Connect Fund Order* by publishing it in the Federal Register on December 31, 2024, which means that the deadline for filing a petition for reconsideration was January 30, 2025.[380] Thus, because ARCC filed its proposed plan more than three months after that deadline (i.e., on May 19, 2025) and did not identify any extraordinary circumstances the prevented it from filing by the deadline,[381] the ARCC Reserve Plan must be rejected as untimely.

99. In the alternative, we dismiss the ARCC Reserve Plan to the extent it constitutes an untimely opposition to GCI's Petition for Clarification and Reconsideration of the *Alaska Connect Fund Order*. Section 1.429(f) of the Commission's rules provides that "[o]ppositions to a petition for reconsideration shall be filed within 15 days after the date of public notice of the petition's filing."[382] ARCC does not directly support GCI's requested amendments to the ACF-related penalties for a mobile support recipient's noncompliance with its Alaska Plan requirements—such as GCI's request for a *de minimis* threshold that, if met, would allow a noncompliant Alaska Plan provider to not be disqualified from participating in the ACF[383]—and instead proposes the ARCC Reserve Plan as "an intermediate step before applying the level of penalty of ACF exclusion for a non-compliant carrier."[384] The ARCC Reserve Plan is its solution for allowing providers that are noncompliant with their Alaska Plan commitments to continue to participate in the ACF.[385] As such, the ARCC Reserve Plan can also be

[381] *See Gardner*, 530 F.2d at 1091-92.

[382] 47 CFR § 1.429(f).

[383] *See* GCI ACF Petition at 16-17 (stating that "the Commission should establish a *de minimis* threshold for meeting the 10-year performance commitments, below which an Alaska Plan provider will not be disqualified" and that "if a provider has a compliance gap of under five percent of its Alaska Plan population-based performance commitments, its participation in the ACF should be unaffected").

[384] ARCC AK Plan Reply at 10 n.16; *accord* ARCC AK Plan Comments at 3, 11.

[385] ARCC AK Plan Comments at 3 ("Alaska Remote Carrier Coalition ('ARCC') offers comments on the key petition issues, including the apparent attempt to avoid accountability and avoid becoming ineligible for Alaska Connect Fund ('ACF') support. While the FCC's decision, we recommend a middle ground for the Commission to consider that is short of ACF exclusion for a non-compliant carrier with our Corrective Area Retention Reserve ('CARR') in Section VII. As an acknowledgment of error, a carrier could opt for an alternative to being determined (continued….)

interpreted as an untimely opposition, filed after the close of the designated pleading cycle for GCI's Petition for Clarification and Reconsideration of the *Alaska Connect Fund Order*. The Commission provided public notice of the GCI Petition for Clarification and Reconsideration by publishing it in the Federal Register on April 2, 2025, which means that the deadline for filing oppositions was April 17 and the deadline for filing replies was April 28.[386] Thus, because ARCC filed its proposal in the ACF docket on May 19, 2025—i.e., more than one month after the deadline for oppositions and three weeks after the deadline for replies—the Commission may reject the proposal as untimely.[387]

100. In any event, as a separate and independent basis for rejecting the ARCC Reserve Plan, we deny it on the merits. In particular, we find that the ARCC Reserve Plan is not in the public interest because is not narrowly tailored to the harm it attempts to address. The ARCC Reserve Plan would require withholding 20% of a provider's annual ACF support regardless of the percentage of the Alaska Plan provider's noncompliance with its Alaska Plan requirements.[388] The ARCC Reserve Plan introduces the possibility of a noncompliant Alaska Plan provider "work[ing] with another [ACF] carrier" to meet its Alaska Plan commitments.[389] The ARCC Reserve Plan does not include any recommendation as to how the Commission would allocate support among ACF providers in such a situation, and resolution of that issue would necessarily need to be resolved prior to implementation. Moreover, we agree with OptimERA's admonition, advising against the Commission "further burdening its resources with the even more complex alternative, the Corrective Area Retention Reserve."[390]

101. Insofar as the ARCC Reserve Plan would require alteration of the length of the Alaska Plan "cure year," we also find it subject to dismissal as an untimely petition for reconsideration. In year nine of a ten-year plan, the ARCC Reserve Plan would effectively alter the "cure year"—which allows noncompliant providers one year to come into compliance without penalty—by instead giving the provider two years to come into compliance.[391] This proposal would broadly apply to any Alaska Plan provider that is noncompliant with the Alaska Plan, is incompatible with the Alaska Plan rules, and is therefore an untimely request for reconsideration of the 2016 *Alaska Plan Order*.[392] While we understand

(Continued from previous page)
as ineligible for the Alaska Connect Fund. A Corrective Area Retention Reserve ('CARR') is a proposed middle ground.").

[386] Wireless Telecommunications Bureau Seeks Comment on Petition Seeking Clarification and Reconsideration of the Alaska Connect Fund Order, 90 Fed. Reg. 14429, 14429 (Apr. 2, 2025) ("Oppositions and Comments are due on or before April 17, 2025, and Replies to Opposition and Reply Comments are due April 28, 2025."); *accord GCI ACF Recon Petition Public Notice* at 1; *see* 47 CFR § 1.429(f); *see also, e.g.*, *Amendment of Section 73.3555(e) of the Commission's Rules, National Television Multiple Ownership Rule*, Order on Reconsideration, 32 FCC Rcd 3390, 3398, para. 17 n.59 (2017) (rejecting an *ex parte* filing as an untimely opposition to a petition for reconsideration when the filing was submitted after the end of the designated pleading cycle).

[387] ARCC AK Plan Comments at 1. Although the pleading was styled, "ARCC GCI Waterfall Petition Reply Comments," ARCC also filed it in the ACF as part of the reconsideration proceeding and made ACF specific arguments. *See, e.g.*, ARCC AK Plan Comments at 3.

[388] *See* ARCC AK Plan Comments at 3, 11.

[389] *See id*.

[390] OptimERA AK Plan Opposition at 5.

[391] 47 CFR § 54.320(d)(2) ("Upon notification that the eligible telecommunications carrier has not met a final milestone, the eligible telecommunications carrier will have twelve months from the date of the final milestone deadline to come into full compliance with this milestone."); ARCC AK Plan Comments at 3, 11.

[392] *See* 47 CFR § 1.429(d); *see also Alaska Plan Order*, 31 FCC Rcd at 10186 (adopting the cure year rule and final milestone rule generally at section 54.320(d)(2)). The *Alaska Plan Order* was published in the Federal Register on October 7, 2016, and any petitions for reconsideration were due by November 6, 2016. *See* Connect America Fund, Connect America Fund—Alaska Plan; Universal Service Reform—Mobility Fund, 81 Fed. Reg. 69696, 69696 (Oct. 7, 2016).

that the need for this proposal may not have occurred to ARCC until GCI filed its Petition for Modification or Waiver, the ARCC Reserve Plan would be applicable to any provider that is noncompliant, regardless of whether we grant GCI's AK Plan Waiver Petition, which would make it a generally applicable process and rule change.[393] When assessed on the merits in the context of the Alaska Plan, the ARCC Reserve Plan would delay Alaska Plan accountability, as it allows two years to come into compliance with the Alaska Plan, instead of the one cure year that currently allowed by rule. The extra year allowed by ARCC's proposal would allow an extra year of noncompliance and, therefore, less accountability, which would seem to be the opposite of what ARCC seeks to achieve with its proposal.[394] For all these reasons, we decline to adopt ARCC's proposed changes with respect to either the ACF or the Alaska Plan.

## VI. ORDER

102. Section 54.318(d)(1)(i) of the Commission's rules currently reads: "Support areas are areas covered by one Alaska Plan mobile-provider participant." The *Alaska Connect Fund Order*, however, specifically defined areas that are covered by only one Alaska Plan mobile-provider participant in Alaska as "single-support areas."[395] The text of Section 54.318(d)(1)(i), in its current form, is inconsistent with the Commission's intent and the structure and content of Section 54.318(d).[396] Section 54.318 also generally does not employ the term "support area" in other paragraphs, without a modifier, but rather uses either "single-support area," or "duplicate-support area."[397] Further, the *Alaska Connect Fund Order* comprehensively articulates the geographic-area approach to ACF mobile support and uses specific modifiers for the three types of areas.[398]

103. To ensure that the existing rule is fully consistent with the text and intent of the *Alaska Connect Fund Order*, we find good cause to amend it without notice and comment by adding the inadvertently omitted word "single" before "support."[399] The revised rule would read: "Single-support areas are areas covered by one Alaska Plan mobile-provider participant." Because the rule as currently

[393] Based on the record, commenters are concerned that GCI is petitioning for modification or waiver of the Alaska Plan because it is likely noncompliant. ARCC AK Plan Comments at 8; OptimERA AK Plan Opposition at 5. And, based on the commenters' arguments, GCI seeks these modifications or waivers to make itself more compliant. ARCC AK Plan Comments at 8; OptimERA AK Plan Opposition at 5. This would mean that granting GCI's AK Plan Petition would make it more likely to be compliant, and this would make the ARCC Reserve Plan proposal less likely to come into effect. As such, ARCC's proposal is really not specific to the GCI Petition, as it is more applicable when preserving the status quo than if GCI's AK Plan Petition were granted.

[394] *See* ARCC AK Plan Comments at 3 ("[ARCC] offers comments on the key petition issues, including the apparent attempt to avoid accountability . . . .").

[395] *See, e.g.*, *Alaska Connect Fund Order*, 39 FCC Rcd at 12102-03, para. 6 & n.6.

[396] For example, the introductory sentence in paragraph (d) indicates that there are two types of support areas—i.e., single-support areas and duplicate-support areas. However, paragraph (d)(1) uses the term "support areas" in (d)(1)(i) and the term "duplicate-support areas" in (d)(1)(ii), which suggests that "single-" was inadvertently omitted from (d)(1)(i). Paragraph (d)(2) supports that conclusion because it was drafted in parallel format to (d)(1) and discusses "single-support areas" in (d)(2)(i) and "duplicate-support areas" in (d)(2)(ii).

[397] *See, e.g.*, 47 CFR § 54.318(c)(2), (f)(5)-(6), (h)(4)-(5).

[398] *See, e.g.*, *Alaska Connect Fund Order*, 39 FCC Rcd at 12133, para. 73 ("[M]obile support will have different support term lengths, or extension periods—as well as different requirements—based on whether an area is a single-support area or a duplicate-support area.") (footnote omitted).

[399] 5 U.S.C. § 553(b)(B).

codified has been interpreted consistently with the text of the *Alaska Connect Fund Order* since its adoption, we find that this change would be of negligible impact.[400]

## VII. PROCEDURAL MATTERS

104. *Regulatory Flexibility Act.* The Regulatory Flexibility Act of 1980, as amended (RFA),[401] requires that an agency prepare a regulatory flexibility analysis for notice and comment rulemakings, unless the agency certifies that "the rule will not, if promulgated, have a significant economic impact on a substantial number of small entities."[402] Accordingly, the Commission has prepared a Final Regulatory Flexibility Analysis (FRFA) concerning the possible impact of the rule and policy changes contained in this Order on Reconsideration and Clarification, Waiver Order, and Order on small entities. The FRFA is set forth in Appendix B.

105. *Paperwork Reduction Act.* This document does not contain new or substantively modified information collections subject to the Paperwork Reduction Act of 1995 (PRA), 44 U.S.C. §§ 3501-3521. In addition, therefore, it does not contain any new or modified information collection burden for small business concerns with fewer than 25 employees, pursuant to the Small Business Paperwork Relief Act of 2002, 44 U.S.C. §3506(c)(4).

106. *Congressional Review Act.* The Commission has determined, and the Administrator of the Office of Information and Regulatory Affairs, Office of Management and Budget, concurs, that this rule is "non-major" under the Congressional Review Act, 5 U.S.C. § 804(2). The Commission will send a copy of this *Order on Reconsideration and Clarification, Waiver Order*, and *Order* to Congress and the Government Accountability Office pursuant to 5 U.S.C. § 801(a)(1)(A).

107. *People with Disabilities*. To request materials in accessible formats for people with disabilities (Braille, large print, electronic files, audio format), send an e-mail to fcc504@fcc.gov or call the Consumer and Governmental Affairs Bureau at 202-418-0530 (voice).

108. *Additional Information*. For additional information on this proceeding, contact Matthew Warner of the Competition and Infrastructure Policy Division, Wireless Telecommunications Bureau at Matthew.Warner@fcc.gov or (202) 418-2419; ACF@fcc.gov; AK.Plan@fcc.gov.

## VIII. ORDERING CLAUSES

109. Accordingly, IT IS ORDERED that, pursuant to the authority contained in sections 1-5, 254, 301, 332, and 405 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 151-155, 254, 301, 332, 405, and section 1.429 of the Commission's rules, 47 CFR § 1.429, that the Petition for Clarification and Reconsideration filed by GCI Communications Corp. IS GRANTED IN PART, DENIED IN PART, AND DISMISSED IN PART, to the extent described herein.[403]

110. IT IS FURTHER ORDERED THAT the Petition for Modification or Waiver filed by GCI Communication Corp. IS GRANTED IN PART AND DENIED IN PART, to the extent described herein.

111. IT IS FURTHER ORDERED that, pursuant to the authority contained in sections 1-5, 254, 301, 332, and 405 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 151-155, 254,

---

[400] *See Mack Trucks, Inc. v. EPA*, 682 F.3d 87, 94 (D.C. Cir. 2012) (explaining that courts have held that notice and comment are "unnecessary" when "the administrative rule is a routine determination, insignificant in nature and impact, and inconsequential to the industry and to the public.").

[401] 5 U.S.C. § 601 *et seq.*, as amended by the Small Business Regulatory Enforcement and Fairness Act (SBREFA), Pub. L. No. 104-121, 110 Stat. 847 (1996).

[402] 5 U.S.C. § 605(b).

[403] Pursuant to Executive Order 14215, 90 Fed. Reg. 10447 (Feb. 20, 2025), this regulatory action has been determined to be not significant under Executive Order 12866, 58 Fed. Reg. 68708 (Dec. 28, 1993).

301, 332, 405, and section 1.429 of the Commission's rules, 47 CFR § 1.429, that the "Corrective Area Retention Reserve" Proposal filed by Alaska Remote Carrier Coalition IS DISMISSED, as described herein.

112. IT IS FURTHER ORDERED that, pursuant to the authority contained in sections 1-5, 254, 301, and 332 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 151-155, 254, 301, 332, and 5 U.S.C. § 553(b), that the Order, IS ADOPTED.

113. IT IS FURTHER ORDERED that part 54 of the Commission's rules, 47 CFR pt. 54, IS AMENDED, as set forth in Appendix A.

114. IT IS FURTHER ORDERED that the Office of the Secretary SHALL SEND a copy of this Order on Reconsideration and Clarification, Waiver Order, and Order, including the Final Regulatory Flexibility Analysis, to the Chief Counsel for Advocacy of the Small Business Administration.

115. IT IS FURTHER ORDERED that the Commission SHALL SEND a copy of this Order on Reconsideration and Clarification, Waiver Order, and Order to Congress and the Government Accountability Office pursuant to the Congressional Review Act, see 5 U.S.C. § 801(a)(1)(A).

FEDERAL COMMUNICATIONS COMMISSION

Marlene H. Dortch
Secretary

## APPENDIX A

For the reasons discussed in the preamble, the Federal Communications Commission amends 47 CFR part 54 as follows:

## PART 54—UNIVERSAL SERVICE

1. The authority citation for part 54 continues to read as follows:

**Authority:** 47 U.S.C. 151, 154(i), 155, 201, 205, 214, 219, 220, 229, 254, 303(r), 403, 1004, 1302, 1601-1609, and 1752, unless otherwise noted.

2. Amend § 54.308 by revising paragraphs (e) introductory text and (f)(4) to read as follows:

**§ 54.308 Broadband public interest obligations for recipients of high-cost support.**

* * * * *

(e) Mobile providers receiving support from the Alaska Connect Fund must provide service at the same minimum service levels as required under the Alaska Plan and may not provide less coverage or provide service using a less advanced technology than the provider committed to under the Alaska Plan. For areas supported under the Alaska Plan that are ineligible for support under the Alaska Connect Fund, providers must continue to provide service to the extent of their Alaska Plan commitments, but do not have Alaska Connect Fund service obligations for those areas and are prohibited from using Alaska Connect Fund support to serve those areas.

* * * * *

(f) * * *

(4) The Wireless Telecommunications Bureau may employ alternative benchmarks or dates appropriate for specific competitive Eligible Telecommunications Carriers in assessing carrier offerings.

* * * * *

3. Amend § 54.318 by removing and reserving paragraphs (i)(4) and (j) and revising paragraphs (a)(1), (c)(1)(iii), (d)(1)(i)-(ii), (e), (f)(6), (h), (h)(6), (k)(1), and (k)(3) to read as follows:

**§ 54.318 Alaska Connect Fund for competitive eligible telecommunications carriers receiving mobile support.**

(a) * * *

(1) An Alaska Plan mobile provider that opts into the Alaska Connect Fund may have its Alaska Connect Fund support delayed, or may be deemed ineligible to participate in the Alaska Connect Fund, if the Wireless Telecommunication Bureau determines, after December 31, 2027, but before December 15, 2028—subject to reasonable extensions by WTB, not to go beyond July 1, 2029—that the mobile provider has failed to comply with the public interest obligations or other terms and conditions of the Alaska Plan or its Alaska Plan commitments, or failed to meet its Alaska Plan build-out final milestone by greater than a *de minimis* amount.

* * * * *

(c) * * *

(1) * * *

(iii) Areas deemed inaccessible or unsafe for testing by the Wireless Telecommunications Bureau, in coordination with the Office of Economics and Analytics, and reflected in the Eligible-Areas Map, as described in paragraph (c)(2) of this section, based on mobile providers' Broadband Data Collection availability data as of December 31, 2024.

* * * * *

(d) * * *

(1) * * *

(i) Single-support areas are areas covered by one Alaska Plan mobile-provider participant.

(ii) Duplicate-support areas are areas covered by two or more Alaska Plan mobile provider participants, based on mobile providers' Broadband Data Collection availability data as of December 31, 2024.

* * * * *

(e) *Use of support.* Support allocated through the Alaska Connect Fund may only be used to provide mobile voice and mobile broadband service in eligible areas. Alaska Connect Fund recipients may use their support for both operating expenses and capital expenses for deploying, upgrading, and maintaining mobile voice and broadband-capable networks, including middle-mile improvements needed to those ends. As long as an Alaska Connect Fund recipient is providing service to its awarded area consistent with its public interest obligations service expenditures will be eligible for support. Expenditures for middle-mile facilities may occur outside of eligible areas, so long as they are necessary to provide mobile voice and broadband service in the areas where the Alaska Connect Fund recipient receives support. A mobile provider does not have Alaska Connect Fund obligations in areas where it is prohibited from using Alaska Connect Fund support for service, and it is prohibited from using Alaska Connect Fund support to provide service in areas other than its own single-support or duplicate-support areas or other eligible areas, as defined in paragraph (d)(1)(iii) of this section.

* * * * *

(f) * * *

(6) Alaska Connect Fund mobile providers are required to maintain and improve upon their Alaska Plan service in eligible single- and duplicate-support areas. Subject to exceptions, where a mobile provider previously committed to cover an area in the Alaska Plan, it is expected to upgrade that area to at least 5G-NR at 7/1 Mbps in areas that remain eligible in the Alaska Connect Fund. In addition, mobile providers in single-support areas are expected to provide 5G-NR at speeds of 35/3 Mbps only to portions of their anticipated coverage area that are within a 1.5-mile radius around their cell sites and only where the provider has access to fiber- or microwave-based backhaul and competitively priced transport rates. Further, for voice-only areas that exist beyond the cell edge of the mobile commitment areas—based on Alaska Plan service areas—mobile providers do not need to upgrade those areas to 5G-NR or commit to a minimum data speed and may maintain the facilities and voice service already in place, unless otherwise committed to in the Alaska Connect Fund. Providers in single-support areas are to report to WTB the progress they have made beyond Alaska Plan service levels by December 31, 2029, and to meet their commitments by the December 31, 2031 interim milestone and the December 31, 2034 final milestone. Providers in duplicate-support areas are expected to work to extend at least 4G LTE at 5/1 Mbps in an outdoor stationary environment to areas where they do not currently offer it by the end of December 2029. During performance plan discussions, mobile providers may also demonstrate to WTB other reasons why it is not technically and financially feasible to meet these expectations and may propose alternatives. Where cell sites are more than 50 miles away from a fiber or microwave node, this factor weighs heavily in favor of allowing a lesser commitment.

* * * * *

(h) *Comparable areas.* Mobile providers that received support under the Alaska Plan for coverage of newly ineligible areas and that wish to retain their support level must, for any support attributed to such newly ineligible areas, use their Alaska Connect Fund support to cover a comparable number of otherwise uncovered hex-9s elsewhere, subject to claw back in their support if they do not do so. Mobile providers

must incorporate their comparable areas into their performance plans under the Alaska Connect Fund for Wireless Telecommunications Bureau approval. Specifically, each mobile provider must remove the ineligible hex-9s from its commitment, and in a separate category in the performance plan, specify how many comparable hex-9s it commits to cover, by census tract.

* * * * *

(6) If a mobile provider discovers that some areas are inaccessible during required speed testing or during an audit, the mobile provider will be in noncompliance for those hex-9s, and potentially additional hex-9s if the inaccessible hex-9s were selected through random sampling.

* * * * *

(i) * * *

(4) [Reserved]

* * * * *

(j) [Reserved]

* * * * *

(k) * * *

(1) A mobile provider receiving more than $5 million annually in Alaska Connect Fund support must submit speed test data within five months of receipt of the final sample grid cells for speed testing.

* * * * *

(3) If a hex-9 is determined to be untestable and this is discovered during speed testing of a provider's commitments, the hex-9—and any hex-9s represented by that hex-9—will be counted as noncompliant with the provider's commitments.

* * * * *

## APPENDIX B

### Final Regulatory Flexibility Analysis

1. As required by the Regulatory Flexibility Act of 1980, as amended (RFA),[1] the Federal Communications Commission (Commission) published an Initial Regulatory Flexibility Analysis (IRFA) in the *Alaska Connect Fund Notice of Proposed Rulemaking* (*Alaska Connect Fund Notice*), released in October 2023.[2] The Commission sought written public comment on the proposals in the *Alaska Connect Fund Notice*, including comment on the IFRA. No comments were filed addressing the IRFA. In November 2024, the Commission released the *Alaska Connect Fund Report and Order and Further Notice of Proposed Rulemaking* (*Alaska Connect Fund Order*) and published a Final Regulatory Flexibility Analysis (FRFA), as well as an IRFA for the *Further Notice of Proposed Rulemaking*.[3] On January 5, 2025, GCI Communication Corp. (GCI) filed a Petition for Clarification and Reconsideration of the *Alaska Connect Fund Order* (GCI ACF Petition), which included issues impacting small entities.[4] The Wireless Telecommunications Bureau (WTB) then sought public comment on GCI's petition in a *Public Notice* released March 19, 2025.[5] One party filed comments in response to the GCI ACF Petition.[6] No relevant issues impacting small entities were raised in comments to the GCI ACF Petition. This FRFA incorporates the FRFA for the *Alaska Connect Fund Order*, and reflects the actions we take in the *Order on Reconsideration and Clarification* to revise certain rules established by the *Alaska Connect Fund Order*, conforms to the RFA, and it (or summaries thereof) will be published in the Federal Register.[7]

#### A. Need for, and Objectives of, the Rules

2. In the *Alaska Connect Fund Order*, the Commission adopted new rules establishing a new high-cost support program—Alaska Connect Fund (ACF)—that would provide ongoing and certain support for fixed and mobile wireless services in Alaska through 2034.[8] For mobile service, the Commission adopted two separate approaches, which set goals and terms based on whether an area eligible for funding has one single or multiple subsidized providers.[9] The ACF initially extends support for a set period for mobile providers that (1) participated in the prior high-cost funding program, the

[7] 5 U.S.C. § 604.

[8] *Alaska Connect Fund Order*, 39 FCC Rcd at 12102-03, para. 6. The *Alaska Connect Fund Order* also sought further comment on the implementation of the second phase of ACF mobile support. *Id.* at 12103, para. 7.

[9] *Alaska Connect Fund Order*, 39 FCC Rcd at 12102-03, para. 6.

Alaska Plan, and (2) choose to opt into the ACF, subject to conditions set forth in the *Alaska Connect Fund Order*.[10] For eligible areas where there is only one subsidized provider (single-support areas), the current provider will continue receiving support through the end of 2034 and will be expected to enter into a new performance plan providing for 5G service where technically and financially feasible.[11] For eligible areas with multiple subsidized providers (duplicate-support areas), the Commission adopted a two-phased approach to resolve duplicative support: (1) an ACF Mobile Phase I that extends support for the mobile providers receiving support in these duplicate-support areas under the current Alaska Plan until December 31, 2029; and (2) an ACF Mobile Phase II that would provide a single provider in those areas with support through the end of 2034.[12] The *Alaska Connect Fund Order* also delegated authority to the WTB to implement and administer various components of the mobile portion of the ACF.[13] These actions were taken to address the inherent challenges in providing service to remote areas of Alaska.[14] The Commission also recognized that there are areas of Alaska that still lack high-quality affordable broadband, where residents may be deprived of the opportunity to keep up with the advancements in technology that Americans living elsewhere benefit from.[15] This framework allows for a period of certainty of support so that the mobile-provider participants of the Alaska Plan can continue their network planning and making their contractual arrangements in the short term, thereby continuing to build on the progress and momentum of the Alaska Plan.

3. In response to GCI's requests, this *Order on Reconsideration and Clarification* modifies and provides further clarification on the ACF rules for mobile providers. We clarify several aspects of mobile providers' performance plan requirements and commitments, including: whether providers can have multiple technology and speed commitments within a census tract; the circumstances where WTB may approve the use of older technologies in a provider's performance plan; and whether and to what extent WTB will consider the availability of backhaul capacity when negotiating individualized performance plans with providers. We grant GCI's requests in part to reconsider the deployment goals of 5G-NR at 35/3 Mbps for single-support areas and 5/1 Mbps for duplicate-support areas by providing additional clarification on the expectations for meeting these goals and on exceptions allowing for lesser commitments. We also clarify WTB's delegated authority to find a provider ineligible for ACF participation due to noncompliance with its Alaska Plan commitments. In addition, the *Order on Reconsideration and Clarification* modifies and clarifies rules governing the categorization of eligible and ineligible areas, and confirms that providers have no service obligations for areas that are determined to be ineligible for ACF support. We also address GCI's requests to modify several compliance obligations by eliminating the annual infrastructure data filing requirement for ACF mobile providers, revising the ACF speed test data submission deadline to the date five months after a provider receives its sample grid cells to be tested, and removing a prohibition on the reasonably comparable rate requirement to allow ACF providers to cite their own Anchorage plans as evidence of compliance with the reasonably comparable rate requirement. Finally, the *Order on Reconsideration and Clarification* clarifies that the Commission will consider how ACF support and obligations are affected by transactions between ACF supported providers on a case-by-case basis for each transaction. These modifications and clarifications to our rules will meet the Commission's long-standing objectives of alleviating confusion and reducing difficulties resulting from participating in or complying with the ACF and its requirements, while still ensuring the continued deployment of affordable, reliable, high-speed broadband services to communities throughout Alaska in a fiscally responsible manner. Additionally, this item also furthers the

Commission's overarching goal to reduce regulatory burden on telecommunications providers.

### B. Summary of Significant Issues Raised by Public Comments in Response to the IRFA and Public Notice

4. No comments were filed addressing the impact of the proposed rules on small entities.

### C. Response to Comments by the Chief Counsel for Advocacy of the Small Business Administration

5. Pursuant to the Small Business Jobs Act of 2010, which amended the RFA,[16] the Commission is required to respond to any comments filed by the Chief Counsel for Advocacy of the Small Business Administration (SBA), and provide a detailed statement of any change made to the proposed rules as a result of those comments.[17] The Chief Counsel did not file any comments in response to the proposed rules in this proceeding.

### D. Description and Estimate of the Number of Small Entities to Which the Rules Will Apply

6. The RFA directs agencies to provide a description of, and where feasible, an estimate of the number of small entities that may be affected by the rules adopted herein.[18] The RFA generally defines the term "small entity" as having the same meaning as under the Small Business Act.[19] In addition, the term "small business" has the same meaning as the term "small business concern" under the Small Business Act."[20] A "small business concern" is one which: (1) is independently owned and operated; (2) is not dominant in its field of operation; and (3) satisfies any additional criteria established by the SBA.[21]

7. Our actions, over time, may affect small entities that are not easily categorized at present. We therefore describe three broad groups of small entities that could be directly affected by our actions.[22] In general, a small business is an independent business having fewer than 500 employees.[23] These types of small businesses represent 99.9% of all businesses in the United States, which translates to 34.75 million businesses.[24] Next, "small organizations" are not-for-profit enterprises that are independently owned and operated and not dominant their field.[25] While we do not have data regarding the number of

[16] Small Business Jobs Act of 2010, Pub. L. No. 111-240, 124 Stat. 2504 (2010).

[24] *Id*.

[25] 5 U.S.C. § 601(4).

non-profits that meet that criteria, over 99 percent of nonprofits have fewer than 500 employees.[26] Finally, "small governmental jurisdictions" are defined as cities, counties, towns, townships, villages, school districts, or special districts with populations of less than fifty thousand.[27] Based on the 2022 U.S. Census of Governments data, we estimate that at least 48,724 out of 90,835 local government jurisdictions have a population of less than 50,000.[28]

8. The actions taken in the *Order on Reconsideration and Clarification* will apply to small entities in the industries identified in the chart below by their six-digit North American Industry Classification System[29] codes and corresponding SBA size standard. [30]

| Regulated Industry | NAICS Code | SBA Size Standard | Total Firms[31] | Small Firms[32] | % Small Firms in Industry |
|---|---|---|---|---|---|
| All Other Information Services[33] | 519190 | 1,500 employees | 704 | 556 | 78.98 |
| All Other Telecommunications[34] | 517810 | $40 million | 1,079 | 1,039 | 96.29 |
| Cable and Other Subscription Programming[35] | 515210 | $47 million | 378 | 149 | 39.42 |
| Media Streaming Distribution Services, Social Networks, and Other Media Networks and Content Providers[36] | 516210 | $47 million | 6,417 | 5,710 | 88.98 |

[26] *See* SBA, Office of Advocacy, *Small Business Facts, Spotlight on Nonprofits* (July 2019), https://advocacy.sba.gov/2019/07/25/small-business-facts-spotlight-on-nonprofits/.

[27] 5 U.S.C. § 601(5).

[28] *See* U.S. Census Bureau, 2022 Census of Governments –Organization, https://www.census.gov/data/tables/2022/econ/gus/2022-governments.html, tables 1-11.

[29] The North American Industry Classification System (NAICS) is the standard used by Federal statistical agencies in classifying business establishments for the purpose of collecting, analyzing, and publishing statistical data related to the U.S. business economy. *See* www.census.gov/NAICS for further details regarding the NAICS codes identified in this chart.

[30] The size standards in this chart are set forth in 13 CFR 121.201 by six digit NAICS code.

[31] *See* U.S. Census Bureau, *2017 Economic Census of the United States*, *Employment Size of Firms for the U.S.: 2017,* Table ID: EC1700SIZEEMPFIRM, and *2017 Economic Census of the United States*, *Selected Sectors: Sales, Value of Shipments, or Revenue Size of Firms for the U.S.: 2017,* Table ID: EC1700SIZEREVFIRM.

[32] *Id.*

[33] Per the 2022 NAICS update, the industry name is now "Web Search Portals and All Other Information Services," with a NAICS Code of 519290.

[34] Affected Entities in this industry include Internet Service Providers (Non-Broadband).

[35] The available U.S. Census Bureau data does not provide a more precise estimate of the number of firms that meet the SBA size standard. We note that the U.S. Census Bureau withheld publication of the number of firms that operated with sales/value of shipments/revenue in all categories of revenue less than $500,000 to avoid disclosing data for individual companies (see Cell Notes for the sales/value of shipments/revenue in these categories). Therefore, the number of firms with revenue that meet the SBA size standard would be higher than noted herein. We also note that according to the U.S. Census Bureau glossary, the terms receipts and revenues are used interchangeably, *see* https://www.census.gov/glossary/#term_ReceiptsRevenueServices.

[36] This industry description and NAICS code were added by the U.S. Census Bureau in 2022. Affected Entities in this industry include Cable System Operators (Telecom Act Standard) and Cable Companies and Systems (Rate Regulation).

| Regulated Industry | NAICS Code | SBA Size Standard | Total Firms[31] | Small Firms[32] | % Small Firms in Industry |
|---|---|---|---|---|---|
| **Radio and Television Broadcasting and Wireless Communications Equipment Manufacturing** | 334220 | 1,250 employees | 656 | 624 | 95.12 |
| Satellite Telecommunications | 517410 | $47 million | 275 | 242 | 88.00 |
| Telecommunications Resellers[37] | 517121 | 1,500 Employees | 1,386 | 1,375 | 99.21 |
| Wired Telecommunications Carriers[38] | 517111 | 1,500 employees | 3,054 | 2,964 | 97.05 |
| Wireless Telecommunications Carriers (except Satellite)[39] [40] | 517112 | 1,500 employees | 2,893 | 2,837 | 98.06 |

9. Based on currently available U.S. Census data regarding the estimated number of small firms in each identified industry, we conclude that the adopted rules will impact a substantial number of small entities. Where available, we provide additional information regarding the number of potentially affected entities in the above identified industries, and information for other affected entities, as follows.

| **2024 Universal Service Monitoring Report Telecommunications Service Provider Data** [41] **(Data as of December 2023)** | **SBA Size Standard (1500 Employees)** | | |
|---|---|---|---|
| **Affected Entity** | **Total # FCC Form 499A Filers** | **Small Firms** | **% Small Entities** |
| Competitive Local Exchange Carriers (CLECs) | 3,729 | 3,576 | 95.90 |
| Incumbent Local Exchange Carriers (Incumbent LECs) | 1,175 | 917 | 78.04 |
| Interexchange Carriers (IXCs) | 113 | 95 | 84.07 |
| Local Exchange Carriers (LECs). | 4,904 | 4,493 | 91.62 |
| Local Resellers | 222 | 217 | 97.75 |

[37] Affected Entities in this industry include Local Resellers, Toll Resellers, and Prepaid Calling Providers.

[38] Affected Entities in this industry include Competitive Local Exchange Carriers (CLECs), Incumbent Local Exchange Carriers (Incumbent LECs), Interexchange Carriers (IXCs), Local Exchange Carriers (LECs), Other Toll Carriers, and Wired Broadband Internet Access Service Providers.

[39] Affected Entities in this industry include Fixed Microwave Services, Wireless Broadband Internet Access Service Providers, Wireless Carriers and Service Providers, Wireless Communications Service, and Wireless Telephony.

[40] Affected Entities in this industry that also have a Commission small business size standard involving eligibility for bidding credits and installment payments in the auction of licenses codified in the Commission's rules include: Wireless Communications Services (47 CFR §§ 27.201 – 27.1601).

| Wireless Telecommunications Carriers (except Satellite) | 585 | 498 | 85.13 |

10. *Cable Companies and Systems (Rate Regulation).* The Commission has developed its own small business size standard for the purpose of cable rate regulation. Under the Commission's rules, a "small cable company" is one serving 400,000 or fewer subscribers nationwide.[42] Based on industry data, there are about 420 cable companies in the U.S.[43] Of these, only seven have more than 400,000 subscribers.[44] In addition, under the Commission's rules, a "small system" is a cable system serving 15,000 or fewer subscribers.[45] Based on industry data, there are about 4,139 cable systems (headends) in the U.S.[46] Of these, about 639 have more than 15,000 subscribers.[47] Accordingly, the Commission estimates that the majority of cable companies and cable systems are small under this size standard.

11. *Cable System Operators (Telecom Act Standard).* The Communications Act of 1934, as amended, contains a size standard for a "small cable operator," which is "a cable operator that, directly or through an affiliate, serves in the aggregate fewer than one percent of all subscribers in the United States and is not affiliated with any entity or entities whose gross annual revenues in the aggregate exceed $250,000,000."[48] For purposes of the Telecom Act Standard, the Commission determined that a cable system operator that serves fewer than 498,000 subscribers, either directly or through affiliates, will meet the definition of a small cable operator.[49] Based on industry data, only six cable system operators have

[48] 47 U.S.C. § 543(m)(2).

[49] *FCC Announces Updated Subscriber Threshold for the Definition of Small Cable Operator*, Public Notice, DA 23-906 (MB 2023) (*2023 Subscriber Threshold Public Notice*). In this Public Notice, the Commission determined that there were approximately 49.8 million cable subscribers in the United States at that time using the most reliable source publicly available. *Id*. This threshold will remain in effect until the Commission issues a superseding Public Notice. *See* 47 CFR § 76.901(e)(1).

more than 498,000 subscribers.[50] Accordingly, the Commission estimates that the majority of cable system operators are small under this size standard.

12. *Wired Broadband Internet Access Service Providers (Wired ISPs)*.[51] According to Commission data on Internet access services as of June 30, 2024, nationwide there were approximately 2,204 providers of connections over 200 kbps in at least one direction using various wireline technologies.[52]

13. *Wireless Broadband Internet Access Service Providers (Wireless ISPs or WISPs)*.[53] According to Commission data on Internet access services as of June 30, 2024, nationwide there were approximately 1,157 fixed wireless and 52 mobile wireless providers of connections over 200 kbps in at least one direction.[54]

### E. Description of Economic Impact and Projected Reporting, Recordkeeping, and Other Compliance Requirements for Small Entities

14. The RFA directs agencies to describe the economic impact of proposed rules on small entities, as well as projected reporting, recordkeeping and other compliance requirements, including an estimate of the classes of small entities which will be subject to the requirement and the type of professional skills necessary for preparation of the report or record.[55]

15. The reconsiderations and clarifications to the *Alaska Connect Fund Order* that we make in today's *Order on Reconsideration and Clarification* will modify the reporting, recordkeeping, and/or other compliance obligations on small entities. The *Alaska Connect Fund Order*, in part, adopted public interest obligations, performance requirements, and reporting and certification requirements for small and other mobile participants of the ACF that are described in the FRFA published with the *Alaska Connect Fund Order*.[56] We incorporate by reference those requirements, with the following modifications. While recipients of ACF support for mobile services shall continue to be subject to the reporting obligations set forth in sections 54.308, 54.313, 54.314, 54.320(d), 54.321 of the Commission's rules, as amended, section 54.318, and be subject to the requirements in sections 54.9, 54.10, and 54.11 of the Commission's rules, such recipients are no longer required to submit on an annual basis all of the infrastructure data that providers would submit as part of the BDC mobile verification process for all cell sites and antennas that serve an ACF mobile support recipient's supported area for coverage. Further, ACF mobile participants are no longer prohibited from citing to their own plans in Anchorage as evidence of compliance with the reasonably comparable rate requirement. An Alaska Plan mobile provider that opts into the ACF may have its fund support delayed, or may be deemed ineligible to participate in the ACF, if the WTB determines, after December 31, 2027 but before December 15, 2028 (subject to reasonable extensions by

[50] S&P Global Market Intelligence, S&P Capital IQ Pro, *Top Cable MSOs 06/23Q (*last visited Sept. 27, 2023); S&P Global Market Intelligence, Multichannel Video Subscriptions, Top 10 (April 2022).

[51] Formerly included in the scope of the Internet Service Providers (Broadband), Wired Telecommunications Carriers and All Other Telecommunications small entity industry descriptions.

[52] *See* Federal Communications Commission, Internet Access Services: Status as of June 30, 2024 at 40, Fig. 41 *(IAS Status 2024)*, Industry Analysis Division, Office of Economics & Analytics (May 2025). As of June 30, 2022, FCC Form 477 classifies all fixed wired connections into three mutually exclusive technology categories: (1) Copper Wire, (2) Coaxial Cable (hybrid fiber-coaxial), and (3) Optical Carrier (fiber to the premises). The report can be accessed at https://www.fcc.gov/economics-analytics/industry-analysis- division/iad-data-statistical-reports..

[53] Formerly included in the scope of the Internet Service Providers (Broadband), Wireless Telecommunications Carriers (except Satellite) and All Other Telecommunications small entity industry descriptions.

[54] *See IAS Status 2024,* Fig. 41.

[55] 5 U.S.C. § 604(a)(5).

[56] *Alaska Connect Fund Order*, 39 FCC Rcd at 12239-40, paras. 42-46, Appx. B.

WTB, not to go beyond July 1, 2029), that the mobile provider has failed to comply with the public interest obligations or other terms and conditions of the Alaska Plan or its Alaska Plan commitments, or failed to meet its Alaska Plan build-out final milestone by greater than a *de minimis* amount. Additionally, mobile providers required to submit speed test data for ACF support must submit such data within five months of receipt of the final sample grid cells for speed testing.

16. Accordingly, the modifications to the requirements and rules of the ACF made in this *Order on Reconsideration and Clarification* did not change or impact the cost of compliance analysis and estimates for small and other providers made in the *Alaska Connect Fund Order*.[57] As such, we anticipate that the modifications to be implemented will have minimal cost implications, because we expect that much of the required information is already collected to ensure compliance with the terms and conditions of support for other high-cost programs. We further note that at this time, the record does not provide sufficient information to allow the Commission to determine whether small entities will be required to hire additional attorneys, engineers, consultants or other professionals to comply with the modified rules adopted today.

### F. Discussion of Steps Taken to Minimize the Significant Economic Impact on Small Entities, and Significant Alternatives Considered

17. The RFA requires an agency to provide, "a description of the steps the agency has taken to minimize the significant economic impact on small entities…including a statement of the factual, policy, and legal reasons for selecting the alternative adopted in the final rule and why each one of the other significant alternatives to the rule considered by the agency which affect the impact on small entities was rejected."[58]

18. The Commission has taken several steps in the *Order on Reconsideration and Clarification* to minimize the economic impact of compliance with the *Alaska Connect Fund Order* for small entities. We provide further clarification on several ACF requirements for mobile providers, thereby reducing potential confusion on the part of small and other providers that may have occurred if the requests were denied. These include clarification on performance plan goals and obligations, eligibility standards for ACF participation, categorization of support areas, service obligations for areas deemed ineligible for support, and treatment of transactions between ACF supported providers. Additionally, we modify the existing ACF rules to make compliance easier for providers, by eliminating the infrastructure annual data filing requirement, providing a reasonable deadline for the mobile speed test requirements, and also allowing an additional category of evidence to be used to demonstrate compliance with the reasonably comparable price requirement. Alternatively, we considered, for example, retaining the existing rules regarding the filing requirement, however, our decision to eliminate this requirement reduces compliance burdens for small and other entities and is also in keeping with the objectives of the Commission's *Delete, Delete, Delete* initiative to reduce unnecessary regulations that would strain the limited resources of ACF mobile providers.[59] The updated rules have thus reduced the compliance burden for small and other providers, particularly when compared to taking the alternative of maintaining the rules that were originally adopted in the *Alaska Connect Fund Order*. The system adopted for the ACF was inherently designed with consideration to small businesses, as the eligible participants for ACF extended support fall under the SBA size standard for small businesses as wireless telecommunications carriers.

### G. Report to Congress

19. The Commission will send a copy of the *Order on Reconsideration and Clarification*, including this Final Regulatory Flexibility Analysis, in a report to Congress pursuant to the Congressional

**STATEMENT OF**
**CHAIRMAN BRENDAN CARR**

Re: *Connect America Fund; Alaska Connect Fund; et al.,* WC Docket Nos. 10-90, 23-328, 16-271, 14-58, and 09-197; WT Docket No. 10-208, Order on Reconsideration and Clarification, Waiver Order, and Order.

No part of the country is more remote and faces bigger connectivity challenges than Alaska. In my most recent visit to Alaska in 2022, I saw, first-hand, the challenge of bringing high-speed internet service to The Last Frontier. One of my stops was to the Matanuska Valley, north of Anchorage, where I met with people who were only able to access the Internet because of the FCC's Alaska Plan.

The Alaska Plan was established in 2016 to provide certain, long-term financial support to overcome the distinct challenges of connecting the hardest-to-serve parts of the State. In November 2024, the Commission extended this program through 2034 and re-named it the Alaska Connect Fund.

With today's action, we are fine-tuning the Alaska Connect Fund to ensure that it is more appropriately tailored to the topography and needs of Alaska. For example, this item further clarifies the program's deployment goals of 5G-NR at 35/3 Mbps. We are also ensuring that the obligations associated with the ACF are commensurate to the benefits provided and have eliminated a burdensome filing requirement that is unnecessary to measure compliance in the program.

Today's action also addresses marketplace changes that have occurred since the Alaska Plan was first adopted nearly a decade ago. In that vein, it grants targeted waivers of compliance measurement methodologies to more appropriately reward providers for their deployment accomplishments and incentivize them to continue improving and deploying service as they transition from the Alaska Plan to the ACF.

These actions will improve and further stabilize the FCC's long-standing commitment to supporting connectivity for Alaskans.

**STATEMENT OF**
**COMMISSIONER OLIVIA TRUSTY**

Re: *Connect America Fund; Alaska Connect Fund; et al.,* WC Docket Nos. 10-90, 23-328, 16-271, 14-58, and 09-197; WT Docket No. 10-208, Order on Reconsideration and Clarification, Waiver Order, and Order.

The FCC was established with the goal of ensuring that all Americans have access to rapid, efficient communications networks. Section 254 of the Communications Act built on that foundation by emphasizing the need for advanced services in rural, insular, and high-cost areas.

Alaska is a prime example of territory where assistance is needed to achieve and maintain universal connectivity. In my recent visit to Alaska, I saw first-hand what it takes to bring broadband to some of the nation's most remote and difficult-to-serve areas. I also saw first-hand the benefits that come from broadband access for Alaskans' education, healthcare, commerce, and economic opportunity.

The FCC has recognized the unique needs of Alaska, as well. In 2016, the Commission adopted the Alaska Plan, making support available for most of Alaska's carriers in exchange for tailored deployment commitments. And in 2024, the Commission established a framework for the Alaska Connect Fund to provide predictable, ongoing high-cost support through 2034 for mobile and fixed carriers at increased support levels with higher performance goals.

In this order, we make targeted adjustments to the Alaska Plan and Alaska Connect Fund for mobile providers. The order rightly takes action where the record shows the need for clarifications or adjustments to reflect the technological realities of providing mobile broadband in Alaska's challenging environment. At the same time, the order maintains rules and requirements necessary to ensure that providers keep their promises to Alaska consumers when using high-cost funds.

By ensuring predictable and sufficient support to meet the challenges expected of providers while meeting the Alaska Connect Fund's purpose of expanding and enhancing broadband access where Alaskans live, work, and travel, the Commission is directly advancing its longstanding statutory mission of universal connectivity. I thank the Wireless Telecommunications Bureau for its excellent work on this important issue.
