***SEC. 9211. STUDY ON THE TITLE I FORMULA.***

*(a) FINDINGS.—Congress finds the following:*

*(1) Part A of title I of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6311 et seq.) provides funding to local educational agencies through four separate formulas that have been added to the law over time, and which have ''distinct allocation patterns, providing varying shares of allocated funds to different types of local educational agencies or States,'' according to a 2015 report from the Congressional Research Service.*

*(2) Minimal effort has been made by the Federal Government to determine if the four formulas are adequately delivering funds to local educational agencies with the highest districtwide poverty averages.*

*(3) The formulas for distributing Targeted Grants and Education Finance Incentive grants use two weighting systems, one based on the percentage of children included in the determination of grants to local educational agencies (percentage weighting), and another based on the absolute number of such children (number weighting). Both weighting systems have five quintiles with a roughly equal number of children in each quintile. Whichever of these weighting systems results in the highest total weighted formula child count for a local educational agency is the weighting system used for that agency in the final allocation of Targeted and Education Finance Incentive Grant funds.*

*(4) The Congressional Research Service has also said the number weighting alternative is generally more favorable to large local educational agencies with much larger geographic boundaries and larger counts of eligible children than smaller local educational agencies with smaller counts, but potentially higher percentages, of eligible children, because large local educational agencies have many more children in the higher weighted quintiles.*

*(5) In local educational agencies that are classified by the National Center for Education Statistics as ''Large City'', 47 percent of all students attend schools with 75 percent or higher poverty.*

*(b) STUDY.—*

*(1) IN GENERAL.—Not later than 18 months after the date of enactment of this Act, the Director of the Institute of Education Sciences shall complete a study on the effectiveness of the four part A of title I formulas, described in subsection (a), to deliver funds to the most economically disadvantaged communities.*

*(2) CONTENTS.—The study described in paragraph (1) shall include—*

*(A) an analysis of the distribution of part A of title I funds under the four formulas;*

*(B) an analysis of how part A of title I funds are distributed among local educational agencies in each of the 12 locale types classified by the National Center on Education Statistics.*

*(C) the extent to which the four formulas unduly benefit or unduly disadvantage any of the local educational agencies described in subparagraph (B);*

*(D) the extent to which the four formulas unduly benefit or unduly disadvantage high-poverty eligible school attendance areas in the local educational agencies described in subparagraph (B);*

*(E) the extent to which the four formulas unduly benefit or unduly disadvantage lower population local educational agencies with relatively high percentages of districtwide poverty;*

*(F) the impact of number weighting and percentage weighting in the formulas for distributing Targeted Grants and Education Finance Incentive Grants on each of the local educational agencies described in subparagraph (B);*

*(G) the impact of number weighting and percentage weighting on targeting part A of title I funds to eligible school attendance areas with the highest concentrations of poverty in local educational agencies described in subparagraph (B), and local educational agencies described in subparagraph (B) with higher percentages of districtwide poverty;*

*(H) an analysis of other studies and reports produced by public and non-public entities examining the distribution of part A of title I funds under the four formulas; and*

*(I) recommendations, as appropriate, for amending or consolidating the formulas to better target part A of title I funds to the most economically disadvantaged communities and most economically disadvantaged eligible school attendance areas.*

*(3) PUBLIC DISSEMINATION.—The Director of the Institute of Education Sciences shall widely disseminate the findings of the study conducted under this section—*

*(A) in a timely fashion;*

*(B) to—*

*(i) the public; and*

*(ii) the Committee on Education and the Workforce of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate; and*

*(C) through electronic transfer and other means, such as posting to the website of the Institute of Education Sciences or the Department of Education.*

''(6) NOT A MAJOR FEDERAL ACTION.—Designation of a Corridor under this subsection, and incorporation of Corridors into agency plans under paragraph (1)(B), shall not be treated as a major Federal action for purpose of section 102 of the National Environmental Policy Act of 1969 (42 U.S.C. 4332).

''(8) OTHER AUTHORITY NOT AFFECTED.—Nothing in this subsection affects the authority of the Secretary to issue rights-of-way on Federal land that is not located in a Corridor designated under this subsection.

''(9) NEPA CLARIFICATION.—All applications for rights-of-way for natural gas transmission facilities across Corridors designated under this subsection shall be subject to the environmental protections outlined in subsection (h).''.

(b) APPLICATIONS RECEIVED BEFORE DESIGNATION OF CORRIDORS.—Any application for a right-of-way under section 28 of the Mineral Leasing Act (30 U.S.C. 185) that is received by the Secretary of the Interior before designation of National Energy Security Corridors under the amendment made by subsection (a) of this section shall be reviewed and acted upon independently by the Secretary without regard to the process for such designation.

(c) DEADLINE.—Within 2 years after the date of the enactment of this Act, the Secretary of the Interior shall designate at least 10 National Energy Security Corridors under the amendment made by subsection (a) in States referred to in section 368(b) of the Energy Policy Act of 2005 (42 U.S.C. 15926(b)).

**SEC. 1112. VEGETATION MANAGEMENT, FACILITY INSPECTION, AND OPERATION AND MAINTENANCE ON FEDERAL LANDS CONTAINING ELECTRIC TRANSMISSION AND DISTRIBUTION FACILITIES.**

(a) IN GENERAL.—Title V of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1761 et seq.) is amended by adding at the end the following new section:

**''SEC. 512. VEGETATION MANAGEMENT, FACILITY INSPECTION, AND OPERATION AND MAINTENANCE RELATING TO ELECTRIC TRANSMISSION AND DISTRIBUTION FACILITY RIGHTS-OF-WAY.**

''(a) GENERAL DIRECTION.—In order to enhance the reliability of the electric grid and reduce the threat of wildfires to and from electric transmission and distribution rights-of-way and related facilities and adjacent property, the Secretary, with respect to public lands and other lands under the jurisdiction of the Secretary, and the Secretary of Agriculture, with respect to National Forest System lands, shall provide direction to ensure that all existing and future rights-of-way, however established (including by grant, special use authorization, and easement), for electric transmission and distribution facilities on such lands include provisions for utility vegetation management, facility inspection, and operation and maintenance activities that, while consistent with applicable law—

''(1) are developed in consultation with the holder of the right-of-way;

''(2) enable the owner or operator of an electric transmission and distribution facility to operate and maintain the facility in good working order and to comply with Federal, State, and local electric system reliability and fire safety requirements, including reliability standards established by the North American Electric Reliability Corporation and plans to meet such reliability standards;

''(3) minimize the need for case-by-case or annual approvals for—

''(A) routine vegetation management, facility inspection, and operation and maintenance activities within existing electric transmission and distribution rights-of-way; and

''(B) utility vegetation management activities that are necessary to control hazard trees within or adjacent to electric transmission and distribution rights-of-way; and

''(4) when review is required, provide for expedited review and approval of utility vegetation management, facility inspection, and operation and maintenance activities, especially activities requiring prompt action to avoid an adverse impact on human safety or electric reliability to avoid fire hazards.

''(b) VEGETATION MANAGEMENT, FACILITY INSPECTION, AND OPERATION AND MAINTENANCE PLANS.—

''(1) DEVELOPMENT AND SUBMISSION.—Consistent with subsection (a), the Secretary and the Secretary of Agriculture shall provide owners and operators of electric transmission and distribution facilities located on lands described in such subsection with the option to develop and submit a vegetation management, facility inspection, and operation and maintenance plan, that at each owner or operator's discretion may cover some or all of the owner or operator's electric transmission and distribution rights-of-way on Federal lands, for approval to the Secretary with jurisdiction over the lands. A plan under this paragraph shall enable the owner or operator of an electric transmission and distribution facility, at a minimum, to comply with applicable Federal, State, and local electric system reliability and fire safety requirements, as provided in subsection (a)(2). The Secretaries shall not have the authority to modify those requirements.

''(2) REVIEW AND APPROVAL PROCESS.—The Secretary and the Secretary of Agriculture shall jointly develop a consolidated and coordinated process for review and approval of—

''(A) vegetation management, facility inspection, and operation and maintenance plans submitted under paragraph (1) that—

''(i) assures prompt review and approval not to exceed 90 days;

''(ii) includes timelines and benchmarks for agency comments on submitted plans and final approval of such plans;

''(iii) is consistent with applicable law; and

''(iv) minimizes the costs of the process to the reviewing agency and the entity submitting the plans; and

''(B) amendments to the plans in a prompt manner if changed conditions necessitate a modification to a plan.

''(3) NOTIFICATION.—The review and approval process under paragraph (2) shall—

''(A) include notification by the agency of any changed conditions that warrant a modification to a plan;

''(B) provide an opportunity for the owner or operator to submit a proposed plan amendment to address directly the changed condition; and

''(C) allow the owner or operator to continue to implement those elements of the approved plan that do not directly and adversely affect the condition precipitating the need for modification.

''(4) CATEGORICAL EXCLUSION PROCESS.—The Secretary and the Secretary of Agriculture shall apply his or her categorical exclusion process under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) to plans developed under this subsection on existing electric transmission and distribution rights-of-way under this subsection.

''(5) IMPLEMENTATION.—A plan approved under this subsection shall become part of the authorization governing the covered right-of-way and hazard trees adjacent to the right-of-way. If a vegetation management plan is proposed for an existing electric transmission and distribution facility concurrent with the siting of a new electric transmission or distribution facility, necessary reviews shall be completed as part of the siting process or sooner. Once the plan is approved, the owner or operator shall provide the agency with only a notification of activities anticipated to be undertaken in the coming year, a description of those activities, and certification that the activities are in accordance with the plan.

''(c) RESPONSE TO EMERGENCY CONDITIONS.—If vegetation on Federal lands within, or hazard trees on Federal lands adjacent to, an electric transmission or distribution right-of-way granted by the Secretary or the Secretary of Agriculture has contacted or is in imminent danger of contacting one or more electric transmission or distribution lines, the owner or operator of the electric transmission or distribution lines—

''(1) may prune or remove the vegetation to avoid the disruption of electric service and risk of fire; and

''(2) shall notify the appropriate local agent of the relevant Secretary not later than 24 hours after such removal.

''(d) COMPLIANCE WITH APPLICABLE RELIABILITY AND SAFETY STANDARDS.—If vegetation on Federal lands within or adjacent to an electric transmission or distribution right-of-way under the jurisdiction of each Secretary does not meet clearance requirements under standards established by the North American Electric Reliability Corporation, or by State and local authorities, and the Secretary having jurisdiction over the lands has failed to act to allow an electric transmission or distribution facility owner or operator to conduct vegetation management activities within 3 business days after receiving a request to allow such activities, the owner or operator may, after notifying the Secretary, conduct such vegetation management activities to meet those clearance requirements.

''(e) REPORTING REQUIREMENT.—The Secretary or Secretary of Agriculture shall report requests and actions made under subsections (c) and (d) annually on each Secretary's website.

''(f) LIABILITY.—An owner or operator of an electric transmission or distribution facility shall not be held liable for wildfire damage, loss, or injury, including the cost of fire suppression, if—

''(1) the Secretary or the Secretary of Agriculture fails to allow the owner or operator to operate consistently with an approved vegetation management, facility inspection, and operation and maintenance plan on Federal lands under the relevant Secretary's jurisdiction within or adjacent to a right-of-

way to comply with Federal, State, or local electric system reliability and fire safety standards, including standards established by the North American Electric Reliability Corporation; or

''(2) the Secretary or the Secretary of Agriculture fails to allow the owner or operator of the electric transmission or distribution facility to perform appropriate vegetation management activities in response to an identified hazard tree, or a tree in imminent danger of contacting the owner's or operator's electric transmission or distribution facility.

''(g) TRAINING AND GUIDANCE.—In consultation with the electric utility industry, the Secretary and the Secretary of Agriculture are encouraged to develop a program to train personnel of the Department of the Interior and the Forest Service involved in vegetation management decisions relating to electric transmission and distribution facilities to ensure that such personnel—

''(1) understand electric system reliability and fire safety requirements, including reliability standards established by the North American Electric Reliability Corporation;

''(2) assist owners and operators of electric transmission and distribution facilities to comply with applicable electric reliability and fire safety requirements; and

''(3) encourage and assist willing owners and operators of electric transmission and distribution facilities to incorporate on a voluntary basis vegetation management practices to enhance habitats and forage for pollinators and for other wildlife so long as the practices are compatible with the integrated vegetation management practices necessary for reliability and safety.

''(h) IMPLEMENTATION.—The Secretary and the Secretary of Agriculture shall—

''(1) not later than one year after the date of the enactment of this section, propose regulations, or amended existing regulations, to implement this section; and

''(2) not later than two years after the date of the enactment of this section, finalize regulations, or amended existing regulations, to implement this section.

''(i) EXISTING VEGETATION MANAGEMENT, FACILITY INSPECTION, AND OPERATION AND MAINTENANCE PLANS.—Nothing in this section requires an owner or operator to develop and submit a vegetation management, facility inspection, and operation and maintenance plan if one has already been approved by the Secretary or Secretary of Agriculture before the date of the enactment of this section.

''(j) DEFINITIONS.—In this section:

''(1) HAZARD TREE.—The term 'hazard tree' means any tree inside the right-of-way or located outside the right-of-way that has been found by the either the owner or operator of an electric transmission or distribution facility, or the Secretary or the Secretary of Agriculture, to be likely to fail and cause a high risk of injury, damage, or disruption within 10 feet of an electric power line or related structure if it fell.

''(2) OWNER OR OPERATOR.—The terms 'owner' and 'operator' include contractors or other agents engaged by the owner or operator of an electric transmission and distribution facility.

''(3) VEGETATION MANAGEMENT, FACILITY INSPECTION, AND OPERATION AND MAINTENANCE PLAN.—The term 'vegetation management, facility inspection, and operation and maintenance plan' means a plan that—

''(A) is prepared by the owner or operator of one or more electric transmission or distribution facilities to cover one or more electric transmission and distribution rights-of-way; and

''(B) provides for the long-term, cost-effective, efficient, and timely management of facilities and vegetation within the width of the right-of-way and adjacent Federal lands to enhance electric reliability, promote public safety, and avoid fire hazards.''.

(b) CLERICAL AMENDMENT.—The table of sections for the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1761 et seq.), is amended by inserting after the item relating to section 511 the following new item:

¶147.19 RECORDED VOTE

A recorded vote by electronic device was ordered in the Committee of the Whole on the following amendment numbered 14, printed in House Report 114-359, submitted by Mr. Gene GREEN of Texas:

At the end of title III, insert the following new section:

**SEC. 3007. AUTHORIZATION OF CROSS-BORDER INFRASTRUCTURE PROJECTS.**

(a) FINDING.—Congress finds that the United States should establish a more uniform, transparent, and modern process for the construction, connection, operation, and maintenance of pipelines and electric transmission facilities for the import and export of liquid products, including water and petroleum, and natural gas and the transmission of electricity to and from Canada and Mexico.

(b) AUTHORIZATION OF CERTAIN INFRASTRUCTURE PROJECTS AT THE NATIONAL BOUNDARY OF THE UNITED STATES.—

(1) REQUIREMENT.—No person may construct, connect, operate, or maintain a cross-border segment of a pipeline or electric transmission facility for the import or export of liquid products or natural gas, or the transmission of electricity, to or from Canada or Mexico without obtaining a certificate of crossing for such construction, connection, operation, or maintenance under this subsection.

(2) CERTIFICATE OF CROSSING.—

(A) ISSUANCE.—

(i) IN GENERAL.—Not later than 120 days after final action is taken under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) with respect to a cross-border segment described in paragraph (1), the relevant official identified under subparagraph (B), in consultation with appropriate Federal agencies, shall issue a certificate of crossing for the cross-border segment unless the relevant official finds that the construction, connection, operation, or maintenance of the cross-border segment is not in the public interest of the United States.

(ii) NATURAL GAS.—For the purposes of natural gas pipelines, a finding with respect to the public interest under section 3(a) of the Natural Gas Act (15 U.S.C. 717b(a)) shall serve as a finding under clause (i) of this subparagraph.

(B) RELEVANT OFFICIAL.—The relevant official referred to in subparagraph (A) is—

(i) the Secretary of State with respect to liquid pipelines;

(ii) the Federal Energy Regulatory Commission with respect to natural gas pipelines; and

(iii) the Secretary of Energy with respect to electric transmission facilities.

(C) ADDITIONAL REQUIREMENT FOR ELECTRIC TRANSMISSION FACILITIES.—The Secretary of Energy shall require, as a condition of issuing a certificate of crossing for an electric transmission facility, that the cross-border segment be constructed, connected, operated, or maintained consistent with all applicable policies and standards of—

(i) the Electric Reliability Organization and the applicable regional entity; and

(ii) any Regional Transmission Organization or Independent System Operator with operational or functional control over the cross-border segment of the electric transmission facility.

(4) EFFECT OF OTHER LAWS.—Nothing in this subsection shall affect the application of any other Federal statute (including the Natural Gas Act and the Energy Policy and Conservation Act) to a project for which a certificate of crossing is sought under this subsection.

(c) IMPORTATION OR EXPORTATION OF NATURAL GAS TO CANADA AND MEXICO.—Section 3(c) of the Natural Gas Act (15 U.S.C. 717b(c)) is amended by adding at the end the following: ''In the case of an application for the importation or exportation of natural gas to or from Canada or Mexico, the Commission shall grant the application not later than 30 days after the date of receipt of the complete application.''.

(B) SEASONAL DIVERSITY ELECTRICITY EXCHANGE.—Section 602(b) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 824a–4(b)) is amended by striking ''the Commission has conducted hearings and made the findings required under section 202(e) of the Federal Power Act'' and all that follows through the period at the end and inserting ''the Secretary has conducted hearings and finds that the proposed transmission facilities would not impair the sufficiency of electric supply within the United States or would not impede or tend to impede the coordination in the public interest of facilities subject to the jurisdiction of the Secretary''.

(e) EFFECTIVE DATE; RULEMAKING DEADLINES.—

(1) EFFECTIVE DATE.—Subsections (b) through (d), and the amendments made by such subsections, shall take effect on January 20, 2017.

(2) DEMAND RESPONSE.—The term ''demand response'' means changes in electric usage by electric utility customers from the normal consumption patterns of the customers in response to—

(A) changes in the price of electricity over time; or

(B) incentive payments designed to induce lower electricity use at times of high wholesale market prices or when system reliability is jeopardized.

(3) DISTRIBUTED ENERGY.—The term ''distributed energy'' means energy sources and systems that—

(A) produce electric or thermal energy close to the point of use using renewable energy resources or waste thermal energy;

(B) generate electricity using a combined heat and power system;

(D) store electric or thermal energy; or

(E) distribute thermal energy or transfer thermal energy to building heating and cooling systems through a district energy system.

(4) DISTRICT ENERGY SYSTEM.—The term ''district energy system'' means a system that provides thermal energy to buildings and other energy consumers from 1 or more plants to individual buildings to provide space heating, air conditioning, domestic hot water, industrial process energy, and other end uses.

(5) ISLANDING.—The term ''islanding'' means a distributed generator or energy storage device continuing to power a loca-

tion in the absence of electric power from the primary source.

(6) LOAN.—The term ''loan'' has the meaning given the term ''direct loan'' in section 502 of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a).

(7) MICROGRID.—The term ''microgrid'' means an integrated energy system consisting of interconnected loads and distributed energy resources, including generators and energy storage devices, within clearly defined electrical boundaries that—

(A) acts as a single controllable entity with respect to the grid; and

(B) can connect and disconnect from the grid to operate in both grid-connected mode and island mode.

(8) RENEWABLE ENERGY SOURCE.—The term ''renewable energy source'' includes—

¶147.31 RECORDED VOTE

A recorded vote by electronic device was ordered in the Committee of the Whole on the following amendment numbered 25, printed in House Report 114-359, submitted by Mr. BARTON:

At the end of the bill, add the following:

**TITLE VII—CHANGING CRUDE OIL MARKET CONDITIONS**

**SEC. 7001. FINDINGS.**

The Congress finds the following:

(1) The United States has enjoyed a renaissance in energy production, establishing the United States as the world's leading oil producer.

(2) By authorizing crude oil exports, the Congress can spur domestic energy production, create and preserve jobs, help maintain and strengthen our independent shipping fleet that is essential to national defense, and generate State and Federal revenues.

(3) An energy-secure United States that is a net exporter of energy has the potential to transform the security environment around the world, notably in Europe and the Middle East.

(4) For our European allies and Israel, the presence of more United States oil in the market will offer more secure supply options, which will strengthen United States strategic alliances and help curtail the use of energy as a political weapon.

(5) The 60-ship Maritime Security Fleet is a vital element of our military's strategic sealift and global response capability. It assures United States-flag ships and United States crews will be available to support the United States military when it needs to mobilize to protect our allies, and is the most prudent and economical solution to meet current and projected sealift requirements for the United States.

(6) The Maritime Security Fleet program provides a labor base of skilled American mariners who are available to crew the United States Government-owned strategic sealift fleet, as well as the United States commercial fleet, in both peace and war.

(7) The United States has reduced its oil consumption over the past decade, and increasing investment in clean energy technology and energy efficiency will lower energy prices, reduce greenhouse gas emissions, and increase national security.

**SEC. 7002. REPEAL.**

Section 103 of the Energy Policy and Conservation Act (42 U.S.C. 6212) and the item relating thereto in the table of contents of that Act are repealed.

**SEC. 7003. NATIONAL POLICY ON OIL EXPORT RESTRICTIONS.**

Notwithstanding any other provision of law, to promote the efficient exploration, production, storage, supply, marketing, pricing, and regulation of energy resources, including fossil fuels, no official of the Federal Government shall impose or enforce any restriction on the export of crude oil.

**SEC. 7004. STUDIES.**

(a) GREENHOUSE GAS EMISSIONS.—Not later than 120 days after the date of enactment of this Act, the Secretary of Energy shall conduct, and transmit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate the results of, a study on the net greenhouse gas emissions that will result from the repeal of the crude oil export ban under section 7002.

(b) CRUDE OIL EXPORT STUDY.—

(1) IN GENERAL.—The Department of Commerce, in consultation with the Department of Energy, and other departments as appropriate, shall conduct a study of the State and national implications of lifting the crude oil export ban with respect to consumers and the economy.

(2) CONTENTS.—The study conducted under paragraph (1) shall include an analysis of—

(A) the economic impact that exporting crude oil will have on the economy of the United States;

(B) the economic impact that exporting crude oil will have on consumers, taking into account impacts on energy prices;

(C) the economic impact that exporting crude oil will have on domestic manufacturing, taking into account impacts on employment; and

(D) the economic impact that exporting crude oil will have on the refining sector, taking into account impacts on employment.

(3) REPORT TO CONGRESS.—Not later than 1 year after the date of enactment of this Act, the Bureau of Industry and Security shall submit to Congress a report containing the results of the study conducted under paragraph (1).

**SEC. 7005. SAVINGS CLAUSE.**

Nothing in this title limits the authority of the President under the Constitution, the International Emergency Economic Powers Act (50 U.S.C. 1701 et seq.), the National Emergencies Act (50 U.S.C. 1601 et seq.), part B of title II of the Energy Policy and Conservation Act (42 U.S.C. 6271 et seq.), the Trading With the Enemy Act (50 U.S.C. App. 1 et seq.), or any other provision of law that imposes sanctions on a foreign person or foreign government (including any provision of law that prohibits or restricts United States persons from engaging in a transaction with a sanctioned person or government), including a foreign government that is designated as a state sponsor of terrorism, to prohibit exports.

**SEC. 7006. PARTNERSHIPS WITH MINORITY SERVING INSTITUTIONS.**

(a) IN GENERAL.—The Department of Energy shall continue to develop and broaden

partnerships with minority serving institutions, including Hispanic Serving Institutions (HSI) and Historically Black Colleges and Universities (HBCUs) in the areas of oil and gas exploration, production, midstream, and refining.

(b) PUBLIC-PRIVATE PARTNERSHIPS.—The Department of Energy shall encourage public-private partnerships between the energy sector and minority serving institutions, including Hispanic Serving Institutions and Historically Black Colleges and Universities.

**SEC. 7007. REPORT.**

Not later than 10 years after the date of enactment of this Act, the Secretary of Energy and the Secretary of Commerce shall jointly transmit to Congress a report that reviews the impact of lifting the oil export ban under this title as it relates to promoting United States energy and national security.

**SEC. 7008. REPORT TO CONGRESS.**

Not later than 180 days after the date of enactment of this Act, the Secretary of Energy and the Secretary of Commerce shall jointly transmit to Congress a report analyzing how lifting the ban on crude oil exports will help create opportunities for veterans and women in the United States, while promoting energy and national security.

**SEC. 7009. PROHIBITION ON EXPORTS OF CRUDE OIL, REFINED PETROLEUM PRODUCTS, AND PETROCHEMICAL PRODUCTS TO THE ISLAMIC REPUBLIC OF IRAN.**

Nothing in this title shall be construed to authorize the export of crude oil, refined petroleum products, and petrochemical products by or through any entity or person, wherever located, subject to the jurisdiction of the United States to any entity or person located in, subject to the jurisdiction of, or sponsored by the Islamic Republic of Iran.

The SPEAKER pro tempore, Mr. WOMACK, assumed the Chair.

When Mr. Rodney DAVIS of Illinois, Acting Chairman, reported the bill back to the House with an amendment adopted by the Committee.

Pursuant to House Resolution 542, the previous question was ordered.

The following amendment, reported from the Committee of the Whole House on the state of the Union, was agreed to:

Strike out all after the enacting clause and insert:

**SECTION 1. SHORT TITLE; TABLE OF CONTENTS.**

(a) SHORT TITLE.—This Act may be cited as the ''North American Energy Security and Infrastructure Act of 2015''.

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

**TITLE I—MODERNIZING AND PROTECTING INFRASTRUCTURE**

**Subtitle A—Energy Delivery, Reliability, and Security**

**SEC. 1101. FERC PROCESS COORDINATION.**

Section 15 of the Natural Gas Act (15 U.S.C. 717n) is amended—

(1) by amending subsection (b)(2) to read as follows:

''(2) OTHER AGENCIES.—

''(A) IN GENERAL.—Each Federal and State agency considering an aspect of an application for Federal authorization shall cooperate with the Commission and comply with the deadlines established by the Commission.

''(B) IDENTIFICATION.—The Commission shall identify, as early as practicable after it is notified by a prospective applicant of a potential project requiring Commission authorization, any Federal or State agency, local government, or Indian tribe that may consider an aspect of an application for that Federal authorization.

''(C) NOTIFICATION.—

''(i) IN GENERAL.—The Commission shall notify any agency identified under subparagraph (B) of the opportunity to cooperate or participate in the review process.

''(ii) DEADLINE.—A notification issued under clause (i) shall establish a deadline by which a response to the notification shall be submitted, which may be extended by the Commission for good cause.'';

(2) in subsection (c)—

(A) in paragraph (1)—

(i) by striking ''and'' at the end of subparagraph (A);

(ii) by redesignating subparagraph (B) as subparagraph (C); and

''(2) DEADLINE FOR FEDERAL AUTHORIZATIONS.—A final decision on a Federal authorization is due no later than 90 days after the Commission issues its final environmental document, unless a schedule is otherwise established by Federal law.

''(3) CONCURRENT REVIEWS.—Each Federal and State agency considering an aspect of an application for a Federal authorization shall—

''(A) carry out the obligations of that agency under applicable law concurrently, and in conjunction, with the review required by the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), unless doing so would impair the ability of the agency to conduct needed analysis or otherwise carry out those obligations;

''(B) formulate and implement administrative, policy, and procedural mechanisms to enable the agency to ensure completion of required Federal authorizations no later than 90 days after the Commission issues its final environmental document; and

''(C) transmit to the Commission a statement—

''(B) ISSUE RESOLUTION.—The Commission may forward any issue of concern identified under subparagraph (A) to the heads of the relevant agencies (including, in the case of a failure by the State agency, the Federal agency overseeing the delegated authority) for resolution.

''(5) FAILURE TO MEET SCHEDULE.—If a Federal or State agency does not complete a proceeding for an approval that is required for a Federal authorization in accordance with the schedule established by the Commission under paragraph (1)—

''(A) the applicant may pursue remedies under section 19(d); and

''(B) the head of the relevant Federal agency (including, in the case of a failure by a State agency, the Federal agency overseeing the delegated authority) shall notify Congress and the Commission of such failure and set forth a recommended implementation plan to ensure completion of the proceeding for an approval.'';

''(e) APPLICATION PROCESSING.—The Commission, and Federal and State agencies, may allow an applicant seeking Federal authorization to fund a third-party contractor to assist in reviewing the application.

''(f) ACCOUNTABILITY, TRANSPARENCY, EFFICIENCY.—For applications requiring multiple Federal authorizations, the Commission, with input from any Federal or State agency considering an aspect of an application, shall track and make available to the public on the Commission's website information related to the actions required to complete permitting, reviews, and other actions required. Such information shall include the following:

''(1) The schedule established by the Commission under subsection (c)(1).

''(2) A list of all the actions required by each applicable agency to complete permitting, reviews, and other actions necessary to obtain a final decision on the Federal authorization.

**SEC. 1102. RESOLVING ENVIRONMENTAL AND GRID RELIABILITY CONFLICTS.**

(a) COMPLIANCE WITH OR VIOLATION OF ENVIRONMENTAL LAWS WHILE UNDER EMERGENCY ORDER.—Section 202(c) of the Federal Power Act (16 U.S.C. 824a(c)) is amended—

(1) by inserting ''(1)'' after ''(c)''; and

(2) by adding at the end the following:

''(2) With respect to an order issued under this subsection that may result in a conflict with a requirement of any Federal, State, or local environmental law or regulation, the Commission shall ensure that such order requires generation, delivery, interchange, or transmission of electric energy only during hours necessary to meet the emergency and serve the public interest, and, to the maximum extent practicable, is consistent with any applicable Federal, State, or local environmental law or regulation and minimizes any adverse environmental impacts.

''(3) To the extent any omission or action taken by a party, that is necessary to comply with an order issued under this subsection, including any omission or action taken to voluntarily comply with such order, results in noncompliance with, or causes such party to not comply with, any Federal, State, or local environmental law or regulation, such omission or action shall not be considered a violation of such environmental law or regulation, or subject such party to any requirement, civil or criminal liability, or a citizen suit under such environmental law or regulation.

''(4)(A) An order issued under this subsection that may result in a conflict with a requirement of any Federal, State, or local environmental law or regulation shall expire not later than 90 days after it is issued. The Commission may renew or reissue such order pursuant to paragraphs (1) and (2) for subsequent periods, not to exceed 90 days for each period, as the Commission determines necessary to meet the emergency and serve the public interest.

''(B) In renewing or reissuing an order under subparagraph (A), the Commission shall consult with the primary Federal agency with expertise in the environmental interest protected by such law or regulation, and shall include in any such renewed or reissued order such conditions as such Federal agency determines necessary to minimize any adverse environmental impacts to the extent practicable. The conditions, if any, submitted by such Federal agency shall be made available to the public. The Commission may exclude such a condition from the renewed or reissued order if it determines that such condition would prevent the order from adequately addressing the emergency necessitating such order and provides in the order, or otherwise makes publicly available, an explanation of such determination.

''(5) If an order issued under this subsection is subsequently stayed, modified, or set aside by a court pursuant to section 313 or any other provision of law, any omission or action previously taken by a party that was necessary to comply with the order while the order was in effect, including any omission or action taken to voluntarily comply with the order, shall remain subject to paragraph (3).''.

(b) TEMPORARY CONNECTION OR CONSTRUCTION BY MUNICIPALITIES.—Section 202(d) of the Federal Power Act (16 U.S.C. 824a(d)) is amended by inserting ''or municipality'' before ''engaged in the transmission or sale of electric energy''.

**SEC. 1103. EMERGENCY PREPAREDNESS FOR ENERGY SUPPLY DISRUPTIONS.**

(a) FINDING.—Congress finds that recent natural disasters have underscored the importance of having resilient oil and natural gas infrastructure and energy storage and effective ways for industry and government to communicate to address energy supply disruptions.

(b) AUTHORIZATION FOR ACTIVITIES TO ENHANCE EMERGENCY PREPAREDNESS FOR NATURAL DISASTERS.—The Secretary of Energy shall develop and adopt procedures to—

(1) improve communication and coordination between the Department of Energy's energy response team, Federal partners, and industry;

(2) leverage the Energy Information Administration's subject matter expertise within the Department's energy response team to improve supply chain situation assessments;

(3) establish company liaisons and direct communication with the Department's energy response team to improve situation assessments;

(4) streamline and enhance processes for obtaining temporary regulatory relief to speed up emergency response and recovery;

(5) facilitate and increase engagement among States, the oil and natural gas industry, the energy storage industry, and the Department in developing State and local energy assurance plans;

(6) establish routine education and training programs for key government emergency response positions with the Department and States; and

(7) involve States, the energy storage industry, and the oil and natural gas industry in comprehensive drill and exercise programs.

(c) COOPERATION.—The activities carried out under subsection (b) shall include collaborative efforts with State and local government officials and the private sector.

(d) REPORT.—Not later than 180 days after the date of enactment of this Act, the Secretary of Energy shall submit to Congress a report describing the effectiveness of the activities authorized under this section.

**SEC. 1104. CRITICAL ELECTRIC INFRASTRUCTURE SECURITY.**

**''SEC. 215A. CRITICAL ELECTRIC INFRASTRUCTURE SECURITY.**

''(a) DEFINITIONS.—For purposes of this section:

''(1) BULK-POWER SYSTEM; ELECTRIC RELIABILITY ORGANIZATION; REGIONAL ENTITY.—The terms 'bulk-power system', 'Electric Reliability Organization', and 'regional entity' have the meanings given such terms in paragraphs (1), (2), and (7) of section 215(a), respectively.

''(2) CRITICAL ELECTRIC INFRASTRUCTURE.—The term 'critical electric infrastructure' means a system or asset of the bulk-power system, whether physical or virtual, the incapacity or destruction of which would negatively affect national security, economic security, public health or safety, or any combination of such matters.

''(3) CRITICAL ELECTRIC INFRASTRUCTURE INFORMATION.—The term 'critical electric infrastructure information' means information related to critical electric infrastructure, or proposed critical electrical infrastructure, generated by or provided to the Commission or other Federal agency, other than classified national security information, that is designated as critical electric infrastructure information by the Commission under subsection (d)(2). Such term includes information that qualifies as critical energy infrastructure information under the Commission's regulations.

''(4) DEFENSE CRITICAL ELECTRIC INFRASTRUCTURE.—The term 'defense critical electric infrastructure' means any electric infrastructure located in the United States (including the territories) that serves a facility designated by the Secretary pursuant to subsection (c), but is not owned or operated by the owner or operator of such facility.

''(5) ELECTROMAGNETIC PULSE.—The term 'electromagnetic pulse' means 1 or more pulses of electromagnetic energy emitted by a device capable of disabling or disrupting operation of, or destroying, electronic devices or communications networks, including hardware, software, and data, by means of such a pulse.

''(6) GEOMAGNETIC STORM.—The term 'geomagnetic storm' means a temporary disturbance of the Earth's magnetic field resulting from solar activity.

''(7) GRID SECURITY EMERGENCY.—The term 'grid security emergency' means the occurrence or imminent danger of—

''(A)(i) a malicious act using electronic communication or an electromagnetic pulse, or a geomagnetic storm event, that could disrupt the operation of those electronic devices or communications networks, including hardware, software, and data, that are essential to the reliability of critical electric infrastructure or of defense critical electric infrastructure; and

''(ii) disruption of the operation of such devices or networks, with significant adverse effects on the reliability of critical electric infrastructure or of defense critical electric infrastructure, as a result of such act or event; or

''(ii) significant adverse effects on the reliability of critical electric infrastructure or of defense critical electric infrastructure as a result of such physical attack.

''(8) GRID SECURITY VULNERABILITY.—The term 'grid security vulnerability' means a weakness that, in the event of a malicious act using an electromagnetic pulse, would pose a substantial risk of disruption to the operation of those electrical or electronic devices or communications networks, including hardware, software, and data, that are essential to the reliability of the bulk-power system.

''(9) SECRETARY.—The term 'Secretary' means the Secretary of Energy.

''(b) AUTHORITY TO ADDRESS GRID SECURITY EMERGENCY.—

''(1) AUTHORITY.—Whenever the President issues and provides to the Secretary a written directive or determination identifying a grid security emergency, the Secretary may, with or without notice, hearing, or report, issue such orders for emergency measures as are necessary in the judgment of the Secretary to protect or restore the reliability of critical electric infrastructure or of defense critical electric infrastructure during such emergency. As soon as practicable but not later than 180 days after the date of enactment of this section, the Secretary shall, after notice and opportunity for comment, establish rules of procedure that ensure that such authority can be exercised expeditiously.

''(2) NOTIFICATION OF CONGRESS.—Whenever the President issues and provides to the Secretary a written directive or determination under paragraph (1), the President shall promptly notify congressional committees of relevant jurisdiction, including the Committee on Energy and Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate, of the contents of, and justification for, such directive or determination.

''(3) CONSULTATION.—Before issuing an order for emergency measures under paragraph (1), the Secretary shall, to the extent practicable in light of the nature of the grid security emergency and the urgency of the need for action, consult with appropriate governmental authorities in Canada and Mexico, entities described in paragraph (4), the Electricity Sub-sector Coordinating Council, the Commission, and other appropriate Federal agencies regarding implementation of such emergency measures.

''(4) APPLICATION.—An order for emergency measures under this subsection may apply to—

''(A) the Electric Reliability Organization;

''(B) a regional entity; or

''(C) any owner, user, or operator of critical electric infrastructure or of defense critical electric infrastructure within the United States.

''(5) EXPIRATION AND REISSUANCE.—

''(A) IN GENERAL.—Except as provided in subparagraph (B), an order for emergency measures issued under paragraph (1) shall expire no later than 15 days after its issuance.

''(B) EXTENSIONS.—The Secretary may reissue an order for emergency measures issued under paragraph (1) for subsequent periods, not to exceed 15 days for each such period, provided that the President, for each such period, issues and provides to the Secretary a written directive or determination that the grid security emergency identified under paragraph (1) continues to exist or that the emergency measure continues to be required.

''(6) COST RECOVERY.—

''(A) CRITICAL ELECTRIC INFRASTRUCTURE.—If the Commission determines that owners, operators, or users of critical electric infrastructure have incurred substantial costs to comply with an order for emergency measures issued under this subsection and that such costs were prudently incurred and cannot reasonably be recovered through regulated rates or market prices for the electric energy or services sold by such owners, operators, or users, the Commission shall, consistent with the requirements of section 205, after notice and an opportunity for comment, establish a mechanism that permits such owners, operators, or users to recover such costs.

''(B) DEFENSE CRITICAL ELECTRIC INFRASTRUCTURE.—To the extent the owner or operator of defense critical electric infrastructure is required to take emergency measures pursuant to an order issued under this subsection, the owners or operators of a critical defense facility or facilities designated by the Secretary pursuant to subsection (c) that rely upon such infrastructure shall bear the full incremental costs of the measures.

''(7) TEMPORARY ACCESS TO CLASSIFIED INFORMATION.—The Secretary, and other appropriate Federal agencies, shall, to the extent practicable and consistent with their obligations to protect classified information, provide temporary access to classified information related to a grid security emergency for which emergency measures are issued under paragraph (1) to key personnel of any entity subject to such emergency measures to enable optimum communication between the entity and the Secretary and other appropriate Federal agencies regarding the grid security emergency.

''(c) DESIGNATION OF CRITICAL DEFENSE FACILITIES.—Not later than 180 days after the date of enactment of this section, the Secretary, in consultation with other appropriate Federal agencies and appropriate owners, users, or operators of infrastructure that may be defense critical electric infrastructure, shall identify and designate facilities located in the United States (including the territories) that are—

''(1) critical to the defense of the United States; and

''(2) vulnerable to a disruption of the supply of electric energy provided to such facility by an external provider.

The Secretary may, in consultation with appropriate Federal agencies and appropriate owners, users, or operators of defense critical electric infrastructure, periodically revise the list of designated facilities as necessary.

''(d) PROTECTION AND SHARING OF CRITICAL ELECTRIC INFRASTRUCTURE INFORMATION.—

''(1) PROTECTION OF CRITICAL ELECTRIC INFRASTRUCTURE INFORMATION.—Critical electric infrastructure information—

''(A) shall be exempt from disclosure under section 552(b)(3) of title 5, United States Code; and

''(B) shall not be made available by any Federal, State, political subdivision or tribal authority pursuant to any Federal, State, political subdivision or tribal law requiring public disclosure of information or records.

''(2) DESIGNATION AND SHARING OF CRITICAL ELECTRIC INFRASTRUCTURE INFORMATION.—Not later than one year after the date of enactment of this section, the Commission, in consultation with the Secretary of Energy, shall promulgate such regulations and issue such orders as necessary to—

''(A) designate information as critical electric infrastructure information;

''(B) prohibit the unauthorized disclosure of critical electric infrastructure information;

''(C) ensure there are appropriate sanctions in place for Commissioners, officers, employees, or agents of the Commission who knowingly and willfully disclose critical electric infrastructure information in a manner that is not authorized under this section; and

''(D) taking into account standards of the Electric Reliability Organization, facilitate voluntary sharing of critical electric infrastructure information with, between, and by—

''(i) Federal, State, political subdivision, and tribal authorities;

''(ii) the Electric Reliability Organization;

''(iii) regional entities;

''(iv) information sharing and analysis centers established pursuant to Presidential Decision Directive 63;

''(v) owners, operators, and users of critical electric infrastructure in the United States; and

''(vi) other entities determined appropriate by the Commission.

''(3) CONSIDERATIONS.—In promulgating regulations and issuing orders under paragraph (2), the Commission shall take into consideration the role of State commissions in reviewing the prudence and cost of investments, determining the rates and terms of conditions for electric services, and ensuring the safety and reliability of the bulk-power system and distribution facilities within their respective jurisdictions.

''(4) PROTOCOLS.—The Commission shall, in consultation with Canadian and Mexican authorities, develop protocols for the voluntary sharing of critical electric infrastructure information with Canadian and Mexican authorities and owners, operators, and users of the bulk-power system outside the United States.

''(5) NO REQUIRED SHARING OF INFORMATION.—Nothing in this section shall require a person or entity in possession of critical electric infrastructure information to share such information with Federal, State, political subdivision, or tribal authorities, or any other person or entity.

''(6) SUBMISSION OF INFORMATION TO CONGRESS.—Nothing in this section shall permit or authorize the withholding of information from Congress, any committee or subcommittee thereof, or the Comptroller General.

''(7) DISCLOSURE OF PROTECTED INFORMATION.—In implementing this section, the Commission shall segregate critical electric infrastructure information or information that reasonably could be expected to lead to the disclosure of the critical electric infrastructure information within documents and electronic communications, wherever feasible, to facilitate disclosure of information that is not designated as critical electric infrastructure information.

''(8) DURATION OF DESIGNATION.—Information may not be designated as critical electric infrastructure information for longer than 5 years, unless specifically re-designated by the Commission.

''(9) REMOVAL OF DESIGNATION.—The Commission shall remove the designation of critical electric infrastructure information, in whole or in part, from a document or electronic communication if the Commission determines that the unauthorized disclosure of such information could no longer be used to impair the security or reliability of the bulk-power system or distribution facilities.

''(10) JUDICIAL REVIEW OF DESIGNATIONS.—Notwithstanding section 313(b), any determination by the Commission concerning the designation of critical electric infrastructure information under this subsection shall be subject to review under chapter 7 of title 5, United States Code, except that such review shall be brought in the district court of the United States in the district in which the complainant resides, or has his principal place of business, or in the District of Columbia. In such a case the court shall examine in camera the contents of documents or electronic communications that are the subject of the determination under review to determine whether such documents or any part

thereof were improperly designated or not designated as critical electric infrastructure information.

''(e) MEASURES TO ADDRESS GRID SECURITY VULNERABILITIES.—

''(1) COMMISSION AUTHORITY.—

''(A) RELIABILITY STANDARDS.—If the Commission, in consultation with appropriate Federal agencies, identifies a grid security vulnerability that the Commission determines has not adequately been addressed through a reliability standard developed and approved under section 215, the Commission shall, after notice and opportunity for comment and after consultation with the Secretary, other appropriate Federal agencies, and appropriate governmental authorities in Canada and Mexico, issue an order directing the Electric Reliability Organization to submit to the Commission for approval under section 215, not later than 30 days after the issuance of such order, a reliability standard requiring implementation, by any owner, operator, or user of the bulk-power system in the United States, of measures to protect the bulk-power system against such vulnerability. Any such standard shall include a protection plan, including automated hardware-based solutions. The Commission shall approve a reliability standard submitted pursuant to this subparagraph, unless the Commission determines that such reliability standard does not adequately protect against such vulnerability or otherwise does not satisfy the requirements of section 215.

''(B) MEASURES TO ADDRESS GRID SECURITY VULNERABILITIES.—If the Commission, after notice and opportunity for comment and after consultation with the Secretary, other appropriate Federal agencies, and appropriate governmental authorities in Canada and Mexico, determines that the reliability standard submitted by the Electric Reliability Organization to address a grid security vulnerability identified under subparagraph (A) does not adequately protect the bulk-power system against such vulnerability, the Commission shall promulgate a rule or issue an order requiring implementation, by any owner, operator, or user of the bulk-power system in the United States, of measures to protect the bulk-power system against such vulnerability. Any such rule or order shall include a protection plan, including automated hardware-based solutions. Before promulgating a rule or issuing an order under this subparagraph, the Commission shall, to the extent practicable in light of the urgency of the need for action to address the grid security vulnerability, request and consider recommendations from the Electric Reliability Organization regarding such rule or order. The Commission may establish an appropriate deadline for the submission of such recommendations.

''(2) RESCISSION.—The Commission shall approve a reliability standard developed under section 215 that addresses a grid security vulnerability that is the subject of a rule or order under paragraph (1)(B), unless the Commission determines that such reliability standard does not adequately protect against such vulnerability or otherwise does not satisfy the requirements of section 215. Upon such approval, the Commission shall rescind the rule promulgated or order issued under paragraph (1)(B) addressing such vulnerability, effective upon the effective date of the newly approved reliability standard.

''(3) GEOMAGNETIC STORMS AND ELECTROMAGNETIC PULSE.—Not later than 6 months after the date of enactment of this section, the Commission shall, after notice and an opportunity for comment and after consultation with the Secretary and other appropriate Federal agencies, issue an order directing the Electric Reliability Organization to submit to the Commission for approval under section 215, not later than 6 months after the issuance of such order, reliability standards adequate to protect the bulk-power system from any reasonably foreseeable geomagnetic storm or electromagnetic pulse event. The Commission's order shall specify the nature and magnitude of the reasonably foreseeable events against which such standards must protect. Such standards shall appropriately balance the risks to the bulk-power system associated with such events, including any regional variation in such risks, the costs of mitigating such risks, and the priorities and timing associated with implementation. If the Commission determines that the reliability standards submitted by the Electric Reliability Organization pursuant to this paragraph are inadequate, the Commission shall promulgate a rule or issue an order adequate to protect the bulk-power system from geomagnetic storms or electromagnetic pulse as required under paragraph (1)(B).

''(4) LARGE TRANSFORMER AVAILABILITY.—Not later than 1 year after the date of enactment of this section, the Commission shall, after notice and an opportunity for comment and after consultation with the Secretary and other appropriate Federal agencies, issue an order directing the Electric Reliability Organization to submit to the Commission for approval under section 215, not later than 1 year after the issuance of such order, reliability standards addressing availability of large transformers. Such standards shall require entities that own or operate large transformers to ensure, individually or jointly, adequate availability of large transformers to promptly restore the reliable operation of the bulk-power system in the event that any such transformer is destroyed or disabled as a result of a geomagnetic storm event or electromagnetic pulse event. The Commission's order shall specify the nature and magnitude of the reasonably foreseeable events that shall provide the basis for such standards. Such standards shall—

''(1) DESIGNATION.—In addition to other authorities under this section, the Secretary shall—

''(A) identify and designate suitable Federal lands as National Energy Security Corridors (in this subsection referred to as a 'Corridor'), which shall be used for construction, operation, and maintenance of natural gas transmission facilities; and

''(B) incorporate such Corridors upon designation into the relevant agency land use and resource management plans or equivalent plans.

''(2) CONSIDERATIONS.—In evaluating Federal lands for designation as a National Energy Security Corridor, the Secretary shall—

''(A) employ the principle of multiple use to ensure route decisions balance national energy security needs with existing land use principles;

''(B) seek input from other Federal counterparts, State, local, and tribal governments, and affected utility and pipeline industries to determine the best suitable, most cost-effective, and commercially viable acreage for natural gas transmission facilities;

''(C) focus on transmission routes that improve domestic energy security through increasing reliability, relieving congestion, reducing natural gas prices, and meeting growing demand for natural gas; and

''(D) take into account technological innovations that reduce the need for surface disturbance.

''(3) PROCEDURES.—The Secretary shall establish procedures to expedite and approve applications for rights-of-way for natural gas pipelines across National Energy Security Corridors, that—

''(A) ensure a transparent process for review of applications for rights-of-way on such corridors;

''(B) require an approval time of not more than 1 year after the date of receipt of an application for a right-of-way; and

''(B) ensure Corridors can connect effectively across Federal lands; and

''(C) utilize input from utility and pipeline industries submitting applications for rights-of-way to site corridors in economically feasible areas that reduce impacts, to the extent practicable, on local communities.

''(6) NOT A MAJOR FEDERAL ACTION.—Designation of a Corridor under this subsection, and incorporation of Corridors into agency plans under paragraph (1)(B), shall not be treated as a major Federal action for purpose of section 102 of the National Environmental Policy Act of 1969 (42 U.S.C. 4332).

''(7) NO LIMIT ON NUMBER OR LENGTH OF CORRIDORS.—Nothing in this subsection limits the number or physical dimensions of Corridors that the Secretary may designate under this subsection.

(a) IN GENERAL.—Title V of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1761 et seq.) is amended by adding at the end the following new section:

**''SEC. 512. VEGETATION MANAGEMENT, FACILITY INSPECTION, AND OPERATION AND MAINTENANCE RELATING TO ELECTRIC TRANSMISSION AND DISTRIBUTION FACILITY RIGHTS-OF-WAY.**

''(a) GENERAL DIRECTION.—In order to enhance the reliability of the electric grid and reduce the threat of wildfires to and from electric transmission and distribution rights-of-way and related facilities and adjacent property, the Secretary, with respect to public lands and other lands under the jurisdiction of the Secretary, and the Secretary of Agriculture, with respect to National Forest System lands, shall provide direction to ensure that all existing and future rights-of-way, however established (including by grant, special use authorization, and easement), for electric transmission and distribution facilities on such lands include provisions for utility vegetation management, facility inspection, and operation and maintenance activities that, while consistent with applicable law—

''(1) are developed in consultation with the holder of the right-of-way;

''(2) enable the owner or operator of an electric transmission and distribution facility to operate and maintain the facility in good working order and to comply with Federal, State, and local electric system reliability and fire safety requirements, including reliability standards established by the North American Electric Reliability Corporation and plans to meet such reliability standards;

''(3) minimize the need for case-by-case or annual approvals for—

''(A) routine vegetation management, facility inspection, and operation and maintenance activities within existing electric transmission and distribution rights-of-way; and

''(B) utility vegetation management activities that are necessary to control hazard trees within or adjacent to electric transmission and distribution rights-of-way; and

''(4) when review is required, provide for expedited review and approval of utility vegetation management, facility inspection, and operation and maintenance activities, especially activities requiring prompt action to avoid an adverse impact on human safety or electric reliability to avoid fire hazards.

''(b) VEGETATION MANAGEMENT, FACILITY INSPECTION, AND OPERATION AND MAINTENANCE PLANS.—

''(1) DEVELOPMENT AND SUBMISSION.—Consistent with subsection (a), the Secretary and the Secretary of Agriculture shall provide owners and operators of electric transmission and distribution facilities located on lands described in such subsection with the option to develop and submit a vegetation management, facility inspection, and operation and maintenance plan, that at each owner or operator's discretion may cover some or all of the owner or operator's electric transmission and distribution rights-of-way on Federal lands, for approval to the Secretary with jurisdiction over the lands. A plan under this paragraph shall enable the owner or operator of an electric transmission and distribution facility, at a minimum, to comply with applicable Federal, State, and local electric system reliability and fire safety requirements, as provided in subsection (a)(2). The Secretaries shall not have the authority to modify those requirements.

''(2) REVIEW AND APPROVAL PROCESS.—The Secretary and the Secretary of Agriculture shall jointly develop a consolidated and coordinated process for review and approval of—

''(A) vegetation management, facility inspection, and operation and maintenance plans submitted under paragraph (1) that—

''(i) assures prompt review and approval not to exceed 90 days;

''(ii) includes timelines and benchmarks for agency comments on submitted plans and final approval of such plans;

''(iii) is consistent with applicable law; and

''(iv) minimizes the costs of the process to the reviewing agency and the entity submitting the plans; and

''(B) amendments to the plans in a prompt manner if changed conditions necessitate a modification to a plan.

''(3) NOTIFICATION.—The review and approval process under paragraph (2) shall—

''(A) include notification by the agency of any changed conditions that warrant a modification to a plan;

''(B) provide an opportunity for the owner or operator to submit a proposed plan amendment to address directly the changed condition; and

''(C) allow the owner or operator to continue to implement those elements of the approved plan that do not directly and adversely affect the condition precipitating the need for modification.

''(4) CATEGORICAL EXCLUSION PROCESS.—The Secretary and the Secretary of Agriculture shall apply his or her categorical exclusion process under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) to plans developed under this subsection on existing electric transmission and distribution rights-of-way under this subsection.

''(5) IMPLEMENTATION.—A plan approved under this subsection shall become part of the authorization governing the covered right-of-way and hazard trees adjacent to the right-of-way. If a vegetation management plan is proposed for an existing electric transmission and distribution facility concurrent with the siting of a new electric transmission or distribution facility, necessary reviews shall be completed as part of the siting process or sooner. Once the plan is approved, the owner or operator shall provide the agency with only a notification of activities anticipated to be undertaken in the coming year, a description of those activities, and certification that the activities are in accordance with the plan.

''(c) RESPONSE TO EMERGENCY CONDITIONS.—If vegetation on Federal lands within, or hazard trees on Federal lands adjacent to, an electric transmission or distribution right-of-way granted by the Secretary or the Secretary of Agriculture has contacted or is in imminent danger of contacting one or more electric transmission or distribution lines, the owner or operator of the electric transmission or distribution lines—

''(1) may prune or remove the vegetation to avoid the disruption of electric service and risk of fire; and

''(2) shall notify the appropriate local agent of the relevant Secretary not later than 24 hours after such removal.

''(d) COMPLIANCE WITH APPLICABLE RELIABILITY AND SAFETY STANDARDS.—If vegetation on Federal lands within or adjacent to an electric transmission or distribution right-of-way under the jurisdiction of each Secretary does not meet clearance requirements under standards established by the North American Electric Reliability Corporation, or by State and local authorities, and the Secretary having jurisdiction over the lands has failed to act to allow an electric transmission or distribution facility owner or operator to conduct vegetation management activities within 3 business days after receiving a request to allow such activities, the owner or operator may, after notifying the Secretary, conduct such vegetation management activities to meet those clearance requirements.

''(e) REPORTING REQUIREMENT.—The Secretary or Secretary of Agriculture shall report requests and actions made under subsections (c) and (d) annually on each Secretary's website.

''(f) LIABILITY.—An owner or operator of an electric transmission or distribution facility shall not be held liable for wildfire damage, loss, or injury, including the cost of fire suppression, if—

''(1) the Secretary or the Secretary of Agriculture fails to allow the owner or operator to operate consistently with an approved vegetation management, facility inspection, and operation and maintenance plan on Fed-

eral lands under the relevant Secretary's jurisdiction within or adjacent to a right-of-way to comply with Federal, State, or local electric system reliability and fire safety standards, including standards established by the North American Electric Reliability Corporation; or

''(2) the Secretary or the Secretary of Agriculture fails to allow the owner or operator of the electric transmission or distribution facility to perform appropriate vegetation management activities in response to an identified hazard tree, or a tree in imminent danger of contacting the owner's or operator's electric transmission or distribution facility.

''(g) TRAINING AND GUIDANCE.—In consultation with the electric utility industry, the Secretary and the Secretary of Agriculture are encouraged to develop a program to train personnel of the Department of the Interior and the Forest Service involved in vegetation management decisions relating to electric transmission and distribution facilities to ensure that such personnel—

''(1) understand electric system reliability and fire safety requirements, including reliability standards established by the North American Electric Reliability Corporation;

''(2) assist owners and operators of electric transmission and distribution facilities to comply with applicable electric reliability and fire safety requirements; and

''(3) encourage and assist willing owners and operators of electric transmission and distribution facilities to incorporate on a voluntary basis vegetation management practices to enhance habitats and forage for pollinators and for other wildlife so long as the practices are compatible with the integrated vegetation management practices necessary for reliability and safety.

''(h) IMPLEMENTATION.—The Secretary and the Secretary of Agriculture shall—

''(1) not later than one year after the date of the enactment of this section, propose regulations, or amended existing regulations, to implement this section; and

''(2) not later than two years after the date of the enactment of this section, finalize regulations, or amended existing regulations, to implement this section.

''(i) EXISTING VEGETATION MANAGEMENT, FACILITY INSPECTION, AND OPERATION AND MAINTENANCE PLANS.—Nothing in this section requires an owner or operator to develop and submit a vegetation management, facility inspection, and operation and maintenance plan if one has already been approved by the Secretary or Secretary of Agriculture before the date of the enactment of this section.

''(j) DEFINITIONS.—In this section:

''(1) HAZARD TREE.—The term 'hazard tree' means any tree inside the right-of-way or located outside the right-of-way that has been found by the either the owner or operator of an electric transmission or distribution facility, or the Secretary or the Secretary of Agriculture, to be likely to fail and cause a high risk of injury, damage, or disruption within 10 feet of an electric power line or related structure if it fell.

''(2) OWNER OR OPERATOR.—The terms 'owner' and 'operator' include contractors or other agents engaged by the owner or operator of an electric transmission and distribution facility.

''(3) VEGETATION MANAGEMENT, FACILITY INSPECTION, AND OPERATION AND MAINTENANCE PLAN.—The term 'vegetation management, facility inspection, and operation and maintenance plan' means a plan that—

''(A) is prepared by the owner or operator of one or more electric transmission or distribution facilities to cover one or more electric transmission and distribution rights-of-way; and

''(B) provides for the long-term, cost-effective, efficient, and timely management of facilities and vegetation within the width of the right-of-way and adjacent Federal lands to enhance electric reliability, promote public safety, and avoid fire hazards.''.

(b) CLERICAL AMENDMENT.—The table of sections for the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1761 et seq.), is amended by inserting after the item relating to section 511 the following new item:

''Sec. 512. Vegetation management, facility inspection, and operation and maintenance relating to electric transmission and distribution facility rights-of-way.''.

''(B) QUALIFYING CRITERIA.—The term 'qualifying criteria' means, with respect to a project license under this part, a change to the project that—

''(i) if carried out, would be unlikely to adversely affect any species listed as threatened or endangered under the Endangered Species Act of 1973 or result in the destruction or adverse modification of critical habitat, as determined in consultation with the Secretary of the Interior or Secretary of Commerce, as appropriate, in accordance with section 7 of the Endangered Species Act of 1973;

''(ii) is consistent with any applicable comprehensive plan under section 10(a)(2);

''(iii) includes only changes to project lands, waters, or operations that, in the judgment of the Commission, would result in only insignificant or minimal cumulative adverse environmental effects;

''(iv) would be unlikely to adversely affect water quality and water supply; and

''(v) proposes to implement—

''(I) capacity increases, efficiency improvements, or other enhancements to hydropower generation at the licensed project;

''(II) environmental protection, mitigation, or enhancement measures to benefit fish and wildlife resources or other natural and cultural resources; or

''(III) improvements to public recreation at the licensed project.

''(b) AMENDMENT APPROVAL PROCESSES.—

''(1) RULE.—Not later than 1 year after the date of enactment of this section, the Commission shall, after notice and opportunity for public comment, issue a rule establishing new standards and procedures for license amendment applications under this part. Such rule shall account for differences in environmental effects across a wide range of categories of license amendment applications.

''(2) CAPACITY.—In issuing a rule under this subsection, the Commission shall take into consideration that a change in generating or hydraulic capacity may indicate the potential environmental effects of a proposed amendment but is not determinative of such effects.

''(3) PROCESS OPTIONS.—In issuing a rule under this subsection, the Commission shall take into consideration the range of process options available under the Commission's regulations for new and original license applications and adapt such options to amendment applications, where appropriate.''.

Such annual charges shall be equivalent to the annual charges for use of a Government dam under section 10(e), unless the Commission determines, by rule, that a lower charge is appropriate to protect exemptees' investment in the project or avoid increasing the price to consumers of power due to such charges. The proceeds of charges made by the Commission under this paragraph shall be paid into the Treasury of the United States and credited to miscellaneous receipts. Subject to annual appropriation Acts, such proceeds shall be available to Federal and State fish and wildlife agencies for purposes of carrying out specific environmental enhancement projects in watersheds in which one or more facilities exempted under this subsection are located. ## TITLE II—ENERGY SECURITY AND DIPLOMACY

### SEC. 2001. SENSE OF CONGRESS.

Congress finds the following:

(1) North America's energy revolution has significantly enhanced energy security in the United States, and fundamentally changed the Nation's energy future from that of scarcity to abundance.

(C) the stakeholders believe these negotiations are likely to result in a consensus recommendation, but several of the stakeholders do not support suspending the current rulemaking.

(2) PURPOSE.—It is the purpose of this section to provide the stakeholders described in paragraph (1) with an opportunity to continue negotiations for a limited time period to facilitate the proposal for adoption of standards that enjoy consensus support, while not delaying the current rulemaking except to the extent necessary to provide such opportunity.

(b) OPPORTUNITY FOR A NEGOTIATED FURNACE STANDARD.—Section 325(f)(4) of the Energy Policy and Conservation Act (42 U.S.C. 6295(f)(4)) is amended by adding after subparagraph (D) the following:

Reg. 13119), to provide notice and an opportunity for comment on—

''(I) dividing nonweatherized gas furnaces into two or more product classes with separate energy conservation standards based on capacity; and

''(II) any other matters the Secretary determines appropriate.

''(ii) On receipt of a statement that is submitted on or before January 1, 2016, jointly by interested persons that are fairly representative of relevant points of view, that contains recommended standards for nonweatherized gas furnaces and mobile home gas furnaces that are consistent with the requirements of this part (except that the date on which such standards will apply may be earlier or later than the date required under this part), the Secretary shall evaluate the standards proposed in the joint statement for consistency with the requirements of subsection (o), and shall publish notice of the potential adoption of the standards proposed in the joint statement, modified as necessary to ensure consistency with subsection (o). The Secretary shall solicit public comment for a period of at least 30 days with respect to such notice.

''(iii) Not later than July 31, 2016, but not before July 1, 2016, the Secretary shall publish a final rule containing a determination of whether the standards for nonweatherized gas furnaces and mobile home gas furnaces should be amended. Such rule shall contain any such amendments to the standards.''.

## TITLE IV—CHANGING CRUDE OIL MARKET CONDITIONS

**SEC. 4001. FINDINGS.**

The Congress finds the following:

(1) The United States has enjoyed a renaissance in energy production, establishing the United States as the world's leading oil producer.

(2) By authorizing crude oil exports, the Congress can spur domestic energy production, create and preserve jobs, help maintain and strengthen our independent shipping fleet that is essential to national defense, and generate State and Federal revenues.

(3) An energy-secure United States that is a net exporter of energy has the potential to transform the security environment around the world, notably in Europe and the Middle East.

(4) For our European allies and Israel, the presence of more United States oil in the market will offer more secure supply options, which will strengthen United States strategic alliances and help curtail the use of energy as a political weapon.

(5) The 60-ship Maritime Security Fleet is a vital element of our military's strategic sealift and global response capability. It assures United States-flag ships and United States crews will be available to support the United States military when it needs to mobilize to protect our allies, and is the most prudent and economical solution to meet current and projected sealift requirements for the United States.

(6) The Maritime Security Fleet program provides a labor base of skilled American mariners who are available to crew the United States Government-owned strategic sealift fleet, as well as the United States commercial fleet, in both peace and war.

(7) The United States has reduced its oil consumption over the past decade, and increasing investment in clean energy technology and energy efficiency will lower energy prices, reduce greenhouse gas emissions, and increase national security.

**SEC. 4002. REPEAL.**

Section 103 of the Energy Policy and Conservation Act (42 U.S.C. 6212) and the item relating thereto in the table of contents of that Act are repealed.

(A) the economic impact that exporting crude oil will have on the economy of the United States;

(B) the economic impact that exporting crude oil will have on consumers, taking into account impacts on energy prices;

(C) the economic impact that exporting crude oil will have on domestic manufacturing, taking into account impacts on employment; and

(D) the economic impact that exporting crude oil will have on the refining sector, taking into account impacts on employment.

(b) DISADVANTAGED BUSINESS ENTERPRISES.—

(1) FINDINGS.—Congress finds that—

(A) while significant progress has occurred due to the establishment of the disadvantaged business enterprise program, discrimination and related barriers continue to pose significant obstacles for minority- and women-owned businesses seeking to do business in federally assisted surface transportation markets across the United States;

(B) the continuing barriers described in subparagraph (A) merit the continuation of the disadvantaged business enterprise program;

(C) Congress has received and reviewed testimony and documentation of race and gender discrimination from numerous sources, including congressional hearings and roundtables, scientific reports, reports issued by public and private agencies, news stories, reports of discrimination by organizations and individuals, and discrimination lawsuits, which show that race- and gender-neutral efforts alone are insufficient to address the problem;

(D) the testimony and documentation described in subparagraph (C) demonstrate that discrimination across the United States poses a barrier to full and fair participation in surface transportation-related businesses of women business owners and minority business owners and has impacted firm development and many aspects of surface transportation-related business in the public and private markets; and

(E) the testimony and documentation described in subparagraph (C) provide a strong basis that there is a compelling need for the continuation of the disadvantaged business enterprise program to address race and gender discrimination in surface transportation-related business.

(2) DEFINITIONS.—In this subsection, the following definitions apply:

(A) SMALL BUSINESS CONCERN.—

(i) IN GENERAL.—The term ''small business concern'' means a small business concern (as the term is used in section 3 of the Small Business Act (15 U.S.C. 632)).

(ii) EXCLUSIONS.—The term ''small business concern'' does not include any concern or group of concerns controlled by the same socially and economically disadvantaged individual or individuals that have average annual gross receipts during the preceding 3 fiscal years in excess of $23,980,000, as adjusted annually by the Secretary for inflation.

(B) SOCIALLY AND ECONOMICALLY DISADVANTAGED INDIVIDUALS.—The term ''socially and economically disadvantaged individuals'' has the meaning given the term in section 8(d) of the Small Business Act (15 U.S.C. 637(d)) and relevant subcontracting regulations issued pursuant to that Act, except that women shall be presumed to be socially and economically disadvantaged individuals for purposes of this subsection.

(3) AMOUNTS FOR SMALL BUSINESS CONCERNS.—Except to the extent that the Secretary determines otherwise, not less than 10 percent of the amounts made available for any program under titles I, II, III, and VI of this Act and section 403 of title 23, United States Code, shall be expended through small business concerns owned and controlled by socially and economically disadvantaged individuals.

(4) ANNUAL LISTING OF DISADVANTAGED BUSINESS ENTERPRISES.—Each State shall annually—

(A) survey and compile a list of the small business concerns referred to in paragraph (3) in the State, including the location of the small business concerns in the State; and

(B) notify the Secretary, in writing, of the percentage of the small business concerns that are controlled by—

(i) women;

(ii) socially and economically disadvantaged individuals (other than women); and

(iii) individuals who are women and are otherwise socially and economically disadvantaged individuals.

(5) UNIFORM CERTIFICATION.—

(A) IN GENERAL.—The Secretary shall establish minimum uniform criteria for use by State governments in certifying whether a concern qualifies as a small business concern for the purpose of this subsection.

(B) INCLUSIONS.—The minimum uniform criteria established under subparagraph (A) shall include, with respect to a potential small business concern—

(i) on-site visits;
(ii) personal interviews with personnel;
(iii) issuance or inspection of licenses;
(iv) analyses of stock ownership;
(v) listings of equipment;
(vi) analyses of bonding capacity;
(vii) listings of work completed;
(viii) examination of the resumes of principal owners;
(ix) analyses of financial capacity; and
(x) analyses of the type of work preferred.

(6) REPORTING.—The Secretary shall establish minimum requirements for use by State governments in reporting to the Secretary—

(A) information concerning disadvantaged business enterprise awards, commitments, and achievements; and

(B) such other information as the Secretary determines to be appropriate for the proper monitoring of the disadvantaged business enterprise program.

(7) COMPLIANCE WITH COURT ORDERS.—Nothing in this subsection limits the eligibility of an individual or entity to receive funds made available under titles I, II, III, and VI of this Act and section 403 of title 23, United States Code, if the entity or person is prevented, in whole or in part, from complying with paragraph (3) because a Federal court issues a final order in which the court finds that a requirement or the implementation of paragraph (3) is unconstitutional.

(8) SENSE OF CONGRESS ON PROMPT PAYMENT OF DBE SUBCONTRACTORS.—It is the sense of Congress that—

(A) the Secretary should take additional steps to ensure that recipients comply with section 26.29 of title 49, Code of Federal Regulations (the disadvantaged business enterprises prompt payment rule), or any corresponding regulation, in awarding federally funded transportation contracts under laws and regulations administered by the Secretary; and

(B) such additional steps should include increasing the Department's ability to track and keep records of complaints and to make that information publicly available.

***SEC. 1102. OBLIGATION CEILING.***

(a) GENERAL LIMITATION.—Subject to subsection (e), and notwithstanding any other provision of law, the obligations for Federal-aid highway and highway safety construction programs shall not exceed—

(5) $46,365,092,000 for fiscal year 2020.

(b) EXCEPTIONS.—The limitations under subsection (a) shall not apply to obligations under or for—

(1) section 125 of title 23, United States Code;

(2) section 147 of the Surface Transportation Assistance Act of 1978 (23 U.S.C. 144 note; 92 Stat. 2714);

(3) section 9 of the Federal-Aid Highway Act of 1981 (95 Stat. 1701);

(4) subsections (b) and (j) of section 131 of the Surface Transportation Assistance Act of 1982 (96 Stat. 2119);

(5) subsections (b) and (c) of section 149 of the Surface Transportation and Uniform Relocation Assistance Act of 1987 (101 Stat. 198);

(6) sections 1103 through 1108 of the Intermodal Surface Transportation Efficiency Act of 1991 (105 Stat. 2027);

(7) section 157 of title 23, United States Code (as in effect on June 8, 1998);

(8) section 105 of title 23, United States Code (as in effect for fiscal years 1998 through 2004, but only in an amount equal to $639,000,000 for each of those fiscal years);

(9) Federal-aid highway programs for which obligation authority was made available under the Transportation Equity Act for the 21st Century (112 Stat. 107) or subsequent Acts for multiple years or to remain available until expended, but only to the extent that the obligation authority has not lapsed or been used;

*(1) IN GENERAL.—Subject to paragraphs (2) and (3)(B), beginning on the date that a new allocation formula for the motor carrier safety assistance program is established under this subtitle, upon the request of a State, the Secretary may waive or modify the baseline maintenance of effort required of the State by section 31102(f) of title 49, United States Code, as amended by this subtitle, for the purpose of establishing a new baseline maintenance of effort if the Secretary determines that a waiver or modification—*

*(A) is equitable due to reasonable circumstances;*

*(B) will ensure the continuation of commercial motor vehicle enforcement activities in the State; and*

*(C) is necessary to ensure that the total amount of State maintenance of effort and matching expenditures required under sections 31102 and 31104 of title 49, United States Code, as amended by this subtitle, does not exceed a sum greater than the average of the total amount of State maintenance of effort and matching expenditures required under those sections for the 3 fiscal years prior to the date of enactment of this Act.*

*(2) ADJUSTMENT METHODOLOGY.—If requested by a State, the Secretary may modify the maintenance of effort baseline referred to in paragraph (1) for the State according to the following methodology:*

*(B) The Secretary shall calculate the average required match by a lead State commercial motor vehicle safety agency for fiscal years 2013, 2014, and 2015 for motor carrier safety assistance grants established at 20 percent by section 31103 of title 49, United States Code, as that section was in effect on the day before the date of enactment of this Act.*

*(C) The Secretary shall calculate the estimated match required under section 31104(b) of title 49, United States Code, as amended by this subtitle.*

*(D) The Secretary shall subtract the amount in subparagraph (B) from the amount in subparagraph (C) and—*

*(i) if the number is greater than 0, the Secretary shall subtract the number from the amount in subparagraph (A); or*

*(ii) if the number is not greater than 0, the Secretary shall calculate the maintenance of effort using the methodology in subparagraph (A).*

*(3) MAINTENANCE OF EFFORT AMOUNT.—*

*(A) IN GENERAL.—The Secretary shall use the amount calculated under paragraph (2) as the baseline maintenance of effort required under section 31102(f) of title 49, United States Code, as amended by this subtitle.*

*(B) DEADLINE.—If a State does not request a waiver or modification under this subsection before September 30 during the first fiscal year that the Secretary implements a new allocation formula for the motor carrier safety assistance program under this subtitle, the Secretary shall calculate the maintenance of effort using the methodology described in paragraph (2)(A).*

*(4) MAINTENANCE OF EFFORT DESCRIBED.—The maintenance of effort calculated under this section is the amount required under section 31102(f) of title 49, United States Code, as amended by this subtitle.*

*(c) TERMINATION OF EFFECTIVENESS.—The authority of the Secretary under this section shall terminate effective on the date that a new maintenance of effort baseline is calculated based on a new allocation formula for the motor carrier safety assistance program implemented under section 31102 of title 49, United States Code.*
