(b) PHASED TRANSFERS.—Transfers of project-based assistance under this section may be done in phases to accommodate the financing and other requirements related to rehabilitating or constructing the project or projects to which the assistance is transferred, to ensure that such project or projects meet the standards under subsection (c).

(c) The transfer authorized in subsection (a) is subject to the following conditions:

(1) NUMBER AND BEDROOM SIZE OF UNITS.—

(A) For occupied units in the transferring project: The number of low-income and very low-income units and the configuration (i.e., bedroom size) provided by the transferring project shall be no less than when transferred to the receiving project or projects and the net dollar amount of Federal assistance provided to the transferring project shall remain the same in the receiving project or projects.

(8) If the transferring project meets the requirements of subsection (d)(2), the owner or mortgagor of the receiving project or projects shall execute and record either a continuation of the existing use agreement or a new use agreement for the project where, in either case, any use restrictions in such agreement are of no lesser duration than the existing use restrictions.

(9) The transfer does not increase the cost (as defined in section 502 of the Congressional Budget Act of 1974, as amended) of any FHA-insured mortgage, except to the extent that appropriations are provided in advance for the amount of any such increased cost.

(2) fails to certify in writing to the Secretary within 3 days that all Exigent Health and Safety deficiencies identified by the inspector at the project have been corrected; or

(3) receives a UPCS score between 31 and 59 and has received consecutive scores of less than 60 on UPCS inspections.

Such requirements shall apply to insured and noninsured projects with assistance attached to the units under section 8 of the United States Housing Act of 1937 (42 U.S.C. 1437f), but do not apply to such units assisted under section 8(o)(13) (42 U.S.C. 1437f(o)(13)) or to public housing units assisted with capital or operating funds under section 9 of the United States Housing Act of 1937 (42 U.S.C. 1437g).

(c)(1) The Secretary shall notify the owner and provide an opportunity for response within 15 days after the results of the UPCS inspection are issued. The Secretary must also provide a copy of the Notice of Default to the tenants, the local government, any mortgagees, and any contract administrator. If the owner's appeal results in a UPCS score of 60 or above, the Secretary may withdraw the Notice of Default.

(2) At the end of the time period for correcting all deficiencies specified in the Notice of Default, if the owner fails to fully correct such deficiencies, the Secretary may—

(A) require immediate replacement of project management with a management agent approved by the Secretary;

(C) abate the section 8 contract, including partial abatement, as determined by the Secretary, until all deficiencies have been corrected;

(D) pursue transfer of the project to an owner, approved by the Secretary under established procedures, which will be obligated to promptly make all required repairs and to accept renewal of the assistance contract as long as such renewal is offered;

(G) seek judicial appointment of a receiver to manage the property and cure all project deficiencies or seek a judicial order of specific performance requiring the owner to cure all project deficiencies;

(H) work with the owner, lender, or other related party to stabilize the property in an attempt to preserve the property through compliance, transfer of ownership, or an infusion of capital provided by a third-party that requires time to effectuate; or

(I) take any other regulatory or contractual remedies available as deemed necessary and appropriate by the Secretary.

(d) The Secretary shall also take appropriate steps to ensure that project-based contracts remain in effect, subject to the exercise of contractual abatement remedies to assist relocation of tenants for major threats to health and safety after written notice to and informed consent of the affected tenants and use of other remedies set forth above. To the extent the Secretary determines, in consultation with the tenants and the local government, that the property is not feasible for continued rental assistance payments under such section 8 or other programs, based on consideration of (1) the costs of rehabilitating and operating the property and all available Federal, State, and local resources, including rent adjustments under section 524 of the Multifamily Assisted Housing Reform and Affordability Act of 1997 (''MAHRAA'') and (2) environmental conditions that cannot be remedied in a cost-effective fashion, the Secretary may, in consultation with the tenants of that property, contract for project-based rental assistance payments with an owner or owners of other existing housing properties, or provide other rental assistance.

(b) ELIGIBILITY.—Public housing agencies that operate public housing programs that meet the demonstration requirements, as determined by the Secretary, shall be eligible for participation in the demonstration.

(c) INCENTIVE.—The Secretary may provide an incentive to an eligible public housing agency that uses capital funds, operating funds, grants, utility rebates, and other resources to reduce its energy and/or water consumption in accordance with a plan approved by the Secretary.

(1) BASE UTILITY CONSUMPTION LEVEL.—The initial base utility consumption level under the approved plan shall be set at the public housing agency's rolling base consumption level immediately prior to the installation of energy conservation measures.

(2) FIRST YEAR UTILITY COST SAVINGS.—For the first year that an approved plan is in effect, the Secretary shall allocate the utility consumption level in the public housing operating fund using the base utility consumption level.

(3) SUBSEQUENT YEAR SAVINGS.—For each subsequent year that the plan is in effect, the Secretary shall decrease the utility consumption level by one percent of the initial base utility consumption level per year until the utility consumption level equals the public housing agency's actual consumption level that followed the installation of energy conservation measures, at which time the plan will terminate.

(4) USE OF UTILITY COST SAVINGS.—The public housing agency may use the funds resulting from the energy conservation measures, in accordance with paragraphs (2) and (3), for either operating expenses, as defined by section 9(e)(1) of the Act, or capital improvements, as defined by section 9(d)(1) of the Act.

(5) DURATION OF PLAN.—The length in years of the utility conservation plan shall not exceed the number of percentage points in utility consumption reduction a public housing agency achieves through the energy conservation measures implemented under this demonstration, but in no case shall it exceed 20 years.

(6) OTHER REQUIREMENTS.—The Secretary may establish such other requirements as necessary to further the purposes of this demonstration.

(7) EVALUATION.—Each public housing agency participating in the demonstration shall submit to the Secretary such performance and evaluation reports concerning the reduction in energy consumption and compliance with the requirements of this section as the Secretary may require.

AUTHORIZATION OF CERTAIN MAJOR MEDICAL FACILITY PROJECTS OF THE DEPARTMENT OF VETERANS AFFAIRS

SEC. 263. (a) FINDINGS.—Congress finds the following:

(1) The Military Construction, Veterans Affairs, and Related Agencies Appropriations Act, 2016, which was passed by the Senate on November 10, 2015, without a single vote cast against the bill, and the Consolidated Appropriations Act, 2016 include the following amounts to be appropriated to the Department of Veterans Affairs:

(A) $35,000,000 to make seismic corrections to Building 208 at the West Los Angeles Medical Center of the Department in Los Angeles, California, which, according to the Department, is a building that is designated as having an exceptionally high risk of sustaining substantial damage or collapsing during an earthquake.

(B) $158,000,000 to provide for the construction of a new research building, site work, and demo-

lition at the San Francisco Veterans Affairs Medical Center.

(C) $161,000,000 to replace Building 133 with a new community living center at the Long Beach Veterans Affairs Medical Center, which, according to the Department, is a building that is designated as having an extremely high risk of sustaining major damage during an earthquake.

(2) The Department is unable to obligate or expend the amounts described in paragraph (1), other than for construction design, because the Department lacks an explicit authorization by an Act of Congress pursuant to section 8104(a)(2) of title 38, United States Code, to carry out the major medical facility projects described in such paragraph.

(3) Among the major medical facility projects described in paragraph (1), three are critical seismic safety projects in California.

(4) Every day that the critical seismic safety projects described in paragraph (3) are delayed increases the risk of a life-threatening building failure in the case of a major seismic event.

(5) According to the United States Geological Survey—

(A) California has more than a 99 percent chance of experiencing an earthquake of magnitude 6.7 or greater in the next 30 years;

(B) even earthquakes of less severity than magnitude 6.7 can cause life threatening damage to seismically unsafe buildings; and

(C) in California, earthquakes of magnitude 6.0 or greater occur on average once every 1.2 years.

(6) On January 20, 2016, the Senate passed this legislation by unanimous consent as S. 2422, 114th Congress.

(b) AUTHORIZATION.—The Secretary of Veterans Affairs may carry out the following major medical facility projects, with each project to be carried out in an amount not to exceed the amount specified for that project:

(5) Realignment of medical facilities in Livermore, California, in an amount not to exceed $194,430,000.

(6) Construction of a medical center in Louisville, Kentucky, in an amount not to exceed $150,000,000.

(7) Construction of a replacement community living center in Perry Point, Maryland, in an amount not to exceed $92,700,000.

(8) Seismic corrections and other renovations to several buildings and construction of a specialty care building in American Lake, Washington, in an amount not to exceed $16,260,000.

(c) AUTHORIZATION OF APPROPRIATIONS FOR CONSTRUCTION.—There is authorized to be appropriated to the Secretary of Veterans Affairs for fiscal year 2016 or the year in which funds are appropriated for the Construction, Major Projects, account, $1,113,802,000 for the projects authorized in subsection (b).

(d) LIMITATION.—The projects authorized in subsection (b) may only be carried out using—

(1) funds appropriated for fiscal year 2016 pursuant to the authorization of appropriations in subsection (c);

(2) funds available for Construction, Major Projects, for a fiscal year before fiscal year 2016 that remain available for obligation;

(6) funds appropriated for Construction, Major Projects, for a fiscal year after fiscal year 2016 for a category of activity not specific to a project.

SEC. 264. (a) None of the funds made available in this Act may be used to deny an Inspector General funded under this Act timely access to any records, documents, or other materials available to the department or agency over which that Inspector General has responsibilities under the Inspector General Act of 1978 (5 U.S.C. App.), or to prevent or impede that Inspector General's access to such records, documents, or other materials, under any provision of law, except a provision of law that expressly refers to the Inspector General and expressly limits the Inspector General's right of access.

(b) A department or agency covered by this section shall provide its Inspector General with access to all such records, documents, and other materials in a timely manner.

(c) Each Inspector General shall ensure compliance with statutory limitations on disclosure relevant to the information provided by the establishment over which that Inspector General has responsibilities under the Inspector General Act of 1978 (5 U.S.C. App.).

SEC. 267. None of the funds appropriated or otherwise made available in this title may be used by the Secretary of Veterans Affairs to enter into an agreement related to resolving a dispute or claim with an individual that would restrict in any way the individual from speaking to members of Congress or their staff on any topic not otherwise prohibited from disclosure by Federal law.

FY 2016 Project Summary

The General Services Administration (GSA) proposes design and construction of an annex of approximately 198,000 gross square feet, including approximately 83 parking spaces, and repair, along with alteration of the Charles R. Jonas Courthouse at 401 West Trade Street in Charlotte, NC. GSA will acquire the site from the City of Charlotte. The project will meet the 10-year space needs of the court and court-related agencies and the site will accommodate the anticipated 30-year needs of the court. The Judiciary's Courthouse Project Priorities list (approved by the Judicial Conference of the United States on September 17, 2015) includes a courthouse project in Charlotte, NC.

Through Public Law 108-199 (FY 2004), Congress appropriated a total of $8,500,000 for site acquisition and design of a new stand-alone courthouse in Charlotte to house the long-term needs of the U.S. District Court. GSA, in collaboration with the Court, has determined that alteration of the existing Jonas Courthouse, in conjunction with the construction of a new courthouse annex can best meet the space requirements of the district courts, with the application of the Judiciary's courtroom sharing policies and allowing for continued occupation of the historic Jonas Courthouse.

Overview of Project

The original Jonas Courthouse was constructed in 1918 and was extended to more than double its size in 1934. The building consists of six courtrooms (two district, one senior, one magistrate, and two bankruptcy). The major tenants in the building are the U.S. District, Bankruptcy Courts, and U S Marshals Service. The building is listed in the National Register of Historic Places.

The construction of the annex will provide additional space needed by the Courts to meet 10-year space needs. The annex will be linked functionally and by building systems to the existing Jonas Courthouse, and will be located on the current parking lot, directly southwest of the existing Courthouse. GSA will reacquire the Jonas courthouse as part of an exchange with the City of Charlotte. The annex and Jonas Courthouse will provide 10 courtrooms and 15 chambers consistent with the application of courtroom sharing policies and limitation on the provision of space for projected judgeships. When complete, the new annex and renovation of the Jonas Courthouse will provide for the 10-year space requirements, and the structures/site will allow for expansion to meet the anticipated 30-year needs of the U.S. District Court in Charlotte.

Renovation of the Jonas Courthouse will address several critical building needs, focusing on replacement and repair of the building's major systems, including plumbing, fire protection and electrical systems, which all require extensive refurbishment or replacement due to their age and lack of energy efficiency. The renovations will also include interior construction and interior finishes.

Justification

The existing Jonas Courthouse is unable to meet the current and future requirements of the Judiciary. The current space and building infrastructure do not meet today's standards for security, operational functionality, accessibility, and environmental efficiency. Originally, the proposed strategy for satisfying the long-term needs of the courts in Charlotte was to consolidate the U.S. District Court for the Western District of North Carolina and various other Court-related agencies into one, newly constructed structure.

As a site acquisition solution in 2004, GSA and the City of Charlotte exchanged the Jonas Courthouse for a 3.2 acre site located at 501 E. Trade Street. To continue housing and operations for the courts until the new stand-alone courthouse could be constructed, GSA leased the Jonas Courthouse back from the city.

At the request of the local court in Charlotte in 2012, GSA began to examine the possibility of satisfying the Courts' requirements through the reacquisition of the Jonas Courthouse from the City (via a return exchange of the 501 E. Trade Street site), and the construction of a new annex. The proposed annex will be constructed on the Jonas Courthouse parking lot. This option allows the Federal Government to reacquire the currently occupied historic facility and continue its long-term use, as well as decrease the size and scope (from the previously authorized 390,724 gsf) of the potential new construction in Charlotte.

Due to the age of the existing Jonas Courthouse, upgrades or replacement of major building systems, including plumbing, heating, ventilating, and air conditioning, electrical, and life safety, are needed to enable continued operation for the Courts and to address energy efficiency. There is no restricted circulation path for judges and they must use the freight elevator and public corridors to access their chambers. The freight elevator and public corridors are also used to transport prisoners, there is no sallyport, and the number of holding cells for courtrooms is inadequate. The addition of the annex will meet the long-term space needs of the Courts, while also addressing security and circulation deficiencies that currently exist in the Jonas Courthouse.

Together, the new annex and renovation of the Jonas Courthouse will improve security, create discrete circulation, provide for future growth, co-locate the court family, and positively impact downtown Charlotte.

FY 2016 Project Summary

The General Services Administration (GSA) proposes design and construction of an annex of approximately 96,000 gross square feet, including approximately 20 inside parking spaces, and repair and alteration of the James M. Ashley and Thomas W.L. Ashley U.S. Courthouse at 1716 Spielbusch Avenue in Toledo, OH. The project will meet the 10-year space needs of the court and court-related agencies and the structure/site will allow for expansion to meet the anticipated 30-year needs of the court. The Judiciary's Courthouse Project Priorities list (approved by the Judicial Conference of the United States on September 17, 2015) includes a courthouse project in Toledo, OH.

Through Public Law 108-199 (FY 2004), Congress appropriated a total of $6,500,000 for site preparation and design of a new stand-alone courthouse in Toledo, OH, to house the long-term needs of the U.S. District Court. GSA, in collaboration with the Court, has determined that alteration of the existing Ashley Courthouse in conjunction with the construction of a new courthouse annex can best meet the space requirements of the district and bankruptcy courts with the application of the Judiciary's courtroom sharing policies and allowing for continued occupation of the historic Ashley Courthouse.

Overview of the Project

The Ashley Courthouse, built in 1932, is located on the northern end of Toledo's Civic Mall. GSA has not conducted a major renovation to the building since construction. The building is listed in the National Register of Historic Places. GSA will modernize the existing Ashley Courthouse in conjunction with the construction of a new adjoining courthouse annex to meet the Judiciary's current and long-term needs in Toledo. When complete, the new annex and renovation of the Ashley Courthouse will provide for the 10-year space requirements, and the structures/site will allow for expansion to meet the anticipated 30-year needs of the U.S. District Court. The project includes a total of six courtrooms and eight chambers. The project reflects senior district and magistrate judge

sharing policies, does not include courtrooms for projected new judgeships, and has no exceptions to the U.S. Courts Design Guide. The project will also support the needs of the United States Attorneys and the United States Marshals Services and court support services.

Justification

The existing Ashley Courthouse is unable to meet the current and future requirements of the Judiciary. The current space and building infrastructure do not meet today's standards for security, operational functionality, accessibility, and environmental efficiency. The courthouse does not have secure circulation for judges or separate circulation for the public and prisoners. In addition, the building's systems are beyond their useful life, do not comply with fire/life safety standards, and do not meet the Architectural Barriers Act Accessibility Standards.

In 2001, a site was acquired in an exchange with the City of Toledo, and, in 2004, design funds were appropriated for a new courthouse project. Requirements for the original stand-alone new courthouse concept were driven by the projected need for courtrooms and chambers for existing and projected new judges. Design development was completed, but the project did not move forward at that time. The proposed project to reconfigure the existing space in the Ashley Courthouse and to construct a new courthouse annex in lieu of the previously proposed stand-alone courthouse is based on several factors, including space reduction efforts undertaken by the Judiciary and reduction in U.S. Marshals Service space requirements. GSA worked in close collaboration with the Court to determine that alteration of the existing Ashley Courthouse in conjunction with the construction of a new courthouse annex can best meet the space requirements of all impacted offices. In addition, the Office of the U.S. Attorney will move from leased space to the Ashley Courthouse, resulting in savings of $594,000 in future annual lease payments to the private sector. The new requirements also reduce the Courts' space needs to meet the Judiciary courtroom sharing policies and do not include courtrooms for projected new judgeships. The project scope includes a reduction of two courtrooms from the original housing plan in support of the new stand-alone courthouse.

* Four of the six spaces used as courtrooms in the Ashley Courthouse are significantly undersized and do not meet minimum U.S. Courts Design Guide (USCDG) standards. The two district judge courtrooms that do meet USCDG standards will be retained and re-purposed for use as bankruptcy courtrooms.
** Per USCDG standards, dedicated courtrooms are not provided for visiting judges.

Summary of Energy Compliance

This project will be designed to conform to requirements of the Facilities Standards for the Public Buildings Service and will implement strategies to meet the Guiding Principles for High Performance and Sustainable Buildings. FY 2016 Project Summary

The General Services Administration (GSA) proposes the design and construction of a new U.S. Courthouse of approximately 193,000 gross square feet, including approximately 70 inside parking spaces in Greenville, SC. GSA will construct the courthouse to meet the 10-year space needs of the court and court-related agencies and the site will accommodate the anticipated 30-year needs of the court. The site has been selected and all land parcels acquired. The Judiciary's Courthouse Project Priorities List (approved by the Judicial Conference of the United States on September 17, 2015) includes a courthouse project in Greenville, SC.

FY 2016 House and Senate Committee Approval Requested
(Additional Site and Design, Construction, Management & Inspection).....$93,999,000

FY 2016 Funding Requested (as outlined in the FY 2016 Spend Plan)
(Additional Site and Design, Construction, Management & Inspection) $93,999,000

Overview of Project

The courts and related agencies are currently located in the C.F. Haynsworth Federal Building and U.S. Courthouse (FB-CT) in Greenville, SC, as well as various leased locations and government-owned locations in Spartanburg and Anderson, SC. The new courthouse will provide seven courtrooms and nine chambers consistent with the application of courtroom sharing policies and limitation on the provision of space for projected judgeships. A portion of those agencies housed in leased space will relocate to the new courthouse.

PROSPECTUS
NEW U.S. COURTHOUSE
GREENVILLE, SC

Justification

The existing Haynsworth FB-CT, constructed in 1937, does not meet the United States Courts Design Guide standards, has significant operational and building condition issues, does not provide for future expansion, and lacks adequate security. There is almost no separation of circulation within the facility among judges, prisoners, and the public and no prisoner sallyport. Circulation to chambers and the central cellblock is via public corridors and the facility's one elevator. Only the first floor courtroom has an adjacent holding cell. A restricted access parking lot is shared by judges, staff, and the USMS for prisoner unloading. The new courthouse will greatly improve the efficiency and security of court operations. As a result of inadequate facilities and lack of available expansion space in the FB-CT, several court-related agencies currently occupy space in leased buildings elsewhere in Greenville. Relocation of agencies from leased space to the new courthouse will result in savings of approximately $377,000 in future annual lease payments to the private sector.

Due to changes in program since previous project approval, courtroom sharing, and exclusion of projected new judgeships, the proposed project has decreased in size and scope (from the previously approved 257,347 gsf).

Design Guide Exceptions

The following exception to the U.S. Courts Design Guide was approved by the Fourth Circuit Council March 3, 2016 and by the Judicial Conference of the United States on March 15, 2016:

- Expanded jury assembly suit (additional 436 usable square feet) with costs for this exception at approximately $291,000.

Future of Existing Federal Building(s)[3]

GSA plans to reuse the existing Haynsworth FB-CT to house the following agencies: U.S. Court of Appeals; U.S. Bankruptcy Court and Clerk; Federal Public Defender; Small Business Administration; and the U.S. Marshals Service. This plan is tentative pending confirmation of agency program requirements and a feasibility study to determine costs and implementation strategy, as well as future use of the Russell FB-CT and Anderson FB-CT.

Challenges with Implementing the Plan: Funding for reuse of the existing Haynsworth FB-CT will likely require a future prospectus-level project. GSA will complete a feasibility study to determine appropriate future funding request, schedule, and implementation of any proposed future project. As the scope and budget are further refined, GSA will update the committee.

FY 2016 Project Summary

The General Services Administration (GSA) proposes the design and construction of a new U.S. Courthouse of approximately 305,000 gross square feet, including approximately 83 inside parking spaces, in San Antonio, Texas. GSA will construct the courthouse to meet the 10-year space needs of the court and court-related agencies and the site will accommodate the anticipated 30-year needs of the court. Construction of the San Antonio courthouse project is on the Judiciary's Courthouse Project Priority list (approved by the Judicial Conference of the United States on September 17, 2015).

FY 2016 House and Senate Committee Approval Requested

(Construction, Management & Inspection).....$130,581,000

FY 2016 Funding (as outlined in the FY 2016 Spend Plan)

(Design, Construction, Management & Inspection) $132,581,000

Overview of Project

The courts currently occupy space in the John H. Wood Jr. Courthouse, the Adrian A. Spears Training Center, and the Federal Building. The site for the new courthouse is the former City Police Headquarters site, located at 214 West Nueva Street. Consistent with the agreement between GSA and the City of San Antonio, the Wood Courthouse and the Spears Training Center will be transferred to the City of San Antonio in exchange for the former Police Headquarters site.

Justification

The Wood Courthouse is an adaptive reuse of a theater built for the 1968 HemisFair. The circular building has no exterior windows except for the glass façade of the main entry. The current judges are all housed in the Wood Courthouse and utilize eight available courtrooms. There are four active district judges, one senior district judge, and three magistrate judges in San Antonio. Three district judges will be eligible for senior status in the 10-year planning period and will require replacement. In addition to the courtrooms and chambers, the court also occupies over 69,000 usable square feet (usf) in the Federal Building for clerks, probation office, pretrial services, and other support space. The U.S. Marshals occupy over 7,300 usf in the Federal Building.

The Wood courthouse does not lend itself to the courts' and Marshals' security needs. There is no separate circulation for the public, judges, and prisoners, no sallyport, and inadequate space for the number of prisoners awaiting court proceedings. The building's circular design reduces the space efficiency factor, results in pie-shaped courtrooms which lack adequate spectator seating, and the curved corridors are narrow with many blind spots. The courtroom holding cells open directly into the restricted corridor, and a majority of the holding cells are too small to adequately meet the requirements for prisoner holding. The main entries to judges' chambers are located off the main public lobby. Due to space constraints, district clerk operations are split between the Wood Courthouse and the adjacent Federal Building. This project will provide for co-location of the courts and related agencies into one location for more efficient and secure operations.

The previously approved courthouse construction project is for a smaller site (3-4 acres), larger building (334,335 gsf), and fewer inside parking spaces (37). Due to changes in program, courtroom sharing, and exclusion of projected new judgeships, the proposed project is approximately 305,000 gsf with approximately 83 inside parking spaces on approximately 7 acres.

After considering more than 18 possible locations and conducting a series of public hearings, the new courthouse site, which was the former location of the San Antonio Police Headquarters, was selected as the site with the greatest benefit to the Federal Government. GSA entered into an exchange arrangement with the City of San Antonio to exchange the Wood Courthouse and the Spears Training Center for the former Police Headquarters site. The larger courthouse site also offers compatibility with the city's Master Plan and potential for future consolidation of federal activities in a city with a growing federal presence. The site has been cleared of all existing structures, the utilities (gas line, storm sewer, sanitary sewer) have all been relocated, and the site has been environmentally cleaned and graded and is ready for construction.

Design Guide Exceptions

The following exceptions to the U.S. Courts Design Guide were approved by the Fifth Circuit Council on March 5, 2016 and by the Judicial Conference of the United States on March 15, 2016:

- Regional urinalysis laboratory (additional 838 usable square feet)
- Expanded jury assembly suite (additional 1150 usable square feet)

Associated costs for these exceptions are approximately $1,199,000.

COMMITTEE RESOLUTION

ALTERATION—CONSOLIDATION ACTIVITIES PROGRAM, VARIOUS BUILDINGS

Resolved by the Committee on Transportation and Infrastructure of the U.S. House of Representatives, that pursuant to 40 U.S.C. §3307, appropriations are authorized for the reconfiguration and renovation of space within government-owned and leased buildings during fiscal year 2017 to improve space utilization, optimize inventory, and decrease reliance on leased space at a total cost of $75,000,000, a prospectus for which is attached to and included in this resolution.

Provided, that an Expenditure Plan be submitted to the Committee prior to the expenditure of any funds.

Provided, that consolidation projects result in reduced annual rent paid by the tenant agency.

Provided, that no consolidation project exceeds $20,000,000 in costs.

Provided further, that preference is given to consolidation projects that achieve an office utilization rate of 130 usable square feet or less per person.

Provided further, that the General Services Administration shall not delegate to any other agency the authority granted by this resolution.

FY 2017 Project Summary

The General Services Administration (GSA) proposes the reconfiguration and renovation of space within Government-owned and leased buildings during Fiscal Year (FY) 2017 to support GSA's ongoing consolidation efforts to improve space utilization, optimize inventory, decrease reliance on leased space, and reduce the Government's environmental footprint.

Beginning in FY 2014, GSA implemented its Consolidation Activities special emphasis program, aimed at helping agencies reduce their reliance on costly leased space to meet long-term housing requirements by developing strategies to use space more efficiently and maximize use of the existing federally owned inventory. Through its FY 2014 and FY 2015 Consolidation Activities projects, GSA is helping its partner agencies reduce space by more than 1 million square feet and reduce agency rent payments to GSA by $36 million and decrease GSA payments to private lessors, avoiding future lease payments totaling an estimated $76 million annually.

FY 2017 Committee Approval and Appropriation Requested $75,000,000

Program Summary

As part of its ongoing effort to improve space utilization, optimize inventory, decrease reliance on leased space, and reduce the Government's environmental footprint, GSA is identifying consolidation opportunities within its inventory of real property assets. These opportunities are presented through surveys and studies, partnering with client agencies, and through agency initiatives, such as Client Portfolio Planning. Projects will vary in size by location and agency mission and operations; however, no single project will exceed $20 million in GSA costs. Funds will support consolidation of tenant agencies and will not be available for GSA internal consolidations. Preference will be given to projects that result in an Office Utilization Rate of 130 usable square feet per person or less and a total project payback period of 10 years or less.

Typical projects include the following:

- Reconfiguration and alteration of existing Federal space to accommodate incoming agency relocation/consolidation. (Note: May include reconfigurations of existing occupied Federal tenant space)

- Incidental alterations and system upgrades, such as fire sprinklers or heating, ventilation and air-conditioning, needed as part of relocation and consolidation.

GSA PBS

PROSPECTUS - ALTERATION
CONSOLIDATION ACTIVITIES PROGRAM
VARIOUS BUILDINGS

Prospectus Number: PCA-0001-MU17

Projects will be evaluated using the following criteria:

- Preference will be given to projects that are identified as a reduction opportunity in a Customer Portfolio Plan that has been agreed to by both GSA and the subject agency and that meet the other criteria.
- Proposed consolidation projects will result in a reduction in annual rent paid by the affected customer agency.
- Preference is given to consolidations within or into owned buildings over consolidations within or into leased space.
- Consolidation of expiring leases into owned buildings will be given preference over those business cases for lease cancellations that include a cancellation cost.
- Co-location with other agencies with shared resources and special space will be given preference.
- Links to other consolidation projects will be given preference.

Justification

Consistent with Administration initiatives, such as the June 2010 Presidential Memorandum, *Disposing of Unneeded Federal Real Estate*, and the Office of Management and Budget Memorandum M-12-12, *Promoting Efficient Spending to Support Agency Operations*, as well as Congressional efforts to dispose of excess and underutilized properties, GSA continually analyzes opportunities to improve space utilization and realize long-term cost savings for the Government. Funding for space consolidations is essential so that GSA can execute those opportunities.

Projects funded under this authorization will enable agencies to consolidate within Government-controlled leased space or relocate from either Government-controlled leased or federally owned space to federally owned space that more efficiently meets mission needs. These consolidations will result in improved space utilization, cost savings for the American taxpayers, and a reduced environmental impact.

Certification of Need

Current Administration and Congressional initiatives call for improved space utilization, lower costs for the Government and a reduced environmental footprint. It has been determined that the proposed consolidation program is the most practical solution to meeting those goals.

PROSPECTUS - ALTERATION
ENERGY AND WATER RETROFIT AND CONSERVATION MEASURES PROGRAM
VARIOUS BUILDINGS

Prospectus Number: PEW-0001-MU17

FY 2017 Project Summary

The General Services Administration (GSA) proposes the implementation of energy and water retrofit and conservation measures, as well as high performance energy projects, in Government-owned buildings during Fiscal Year (FY) 2017.

FY 2017 Committee Approval and Appropriation Requested $10,000,000

Program Summary

GSA proposes the implementation of energy and water retrofit and conservation measures in Government-owned buildings during FY 2017.

The Energy and Water Conservation Measures Program (Program) is designed to reduce on-site energy and water consumption through building alteration projects or retrofits of existing buildings systems. These projects are an important part of GSA's approach to reach mandated percentage reduction goals through 2025.

GSA has identified projects in federal buildings across the country through surveys and studies. These projects will have positive savings-to-investment ratios, must provide reasonable payback periods that reflect GSA's priority of being a green proving ground of next generation technologies and may generate rebates and savings from utility companies and incentives from grid operators.

This prospectus requests approval for proposed projects involving energy and water retrofit work, geothermal and other High Performance Green Building retrofit work, as well as design/construction work for new facilities that incorporate these technologies. The projects contained in this prospectus are for a diverse set of design and retrofit projects with engineering solutions to reduce energy or water consumption or costs, or any combination thereof.

Projects will vary in size by location and by delivery method. Typical projects include the following:

- Upgrading heating, ventilation and air-conditioning (HVAC) systems with new, high-efficiency systems, including the installation of energy management control systems.

- Altering constant volume air distribution systems to variable air flow systems by adding variable air flow boxes, fan volume control dampers and related climatic controls.

- Installing building automation control systems, such as night setback thermostats and time clocks, to control HVAC systems.
- Installing automatic occupancy light controls, lighting fixture modifications and associated wiring to reduce the electrical consumption per square foot through the use of higher efficiency lamps and use of non-uniform task lighting design.
- Installing new or modifying existing temperature control systems.
- Replacing electrical motors with multi-speed or variable-speed motors.
- Insulating roofs, pipes, HVAC duct work, and mechanical equipment.
- Installing and caulking storm windows and doors to prevent the passage of air and moisture into the building envelope.
- Providing advanced metering projects that enable building managers to better monitor and optimize energy performance.
- Providing and implementing water conservation projects.
- Providing and installing renewable projects, including photovoltaic systems, solar hot water systems and wind turbines.
- Providing distributed generation systems.
- Drilling to install vertical and horizontal geothermal loops.
- Installing heat pumps and other types of geothermal equipment.
- Installing building insulation and seals to enhance equipment performance and reduce the size and energy consumption of geothermal and other energy-efficient equipment.
- Installing wastewater recycling processes for use on lawns, in toilets and for washing cars.
- Insulating roofs, pipes, HVAC duct work, and mechanical equipment.

PROSPECTUS - ALTERATION
ENERGY AND WATER RETROFIT AND CONSERVATION MEASURES PROGRAM
VARIOUS BUILDINGS

Prospectus Number: PEW-0001-MU17

Justification

The Energy Policy Act of 2005 (Public Law 109-58) required a two percent energy usage reduction as measured in BTU/GSF per year from 2006 through 2017 over a 2003 baseline. Guidance issued by the Department of Energy pursuant to this requirement states that savings anticipated from advanced metering can range from 2 to 45% annually when used in combination with continuous commissioning efforts. The provisions of Executive Order 13423, "Strengthening Federal Environmental, Energy, and Transportation Management," concerning energy consumption reduction were incorporated into law as the Energy Independence and Security Act of 2007 (EISA). These two statutes increased the energy reduction mandates to three percent per year.

All Federal agencies are directed to reduce overall energy use in buildings they operate by 30% from 2003 levels and reduce overall water use by 16% from 2007 levels. Increased energy and water efficiency in buildings and operations will require capital investment for changes and modifications to physical systems that consume energy and water, as well as other high performance green building initiatives and infrastructure designs and retrofits.

In addition, EISA included provisions that exceed the requirements of the Energy Policy Act of 2005. One such long-term requirement is to eliminate fossil fuel-generated energy consumption in new and renovated Federal buildings by FY 2030 by achieving targeted reductions beginning with projects designed in FY 2010. Other shorter-term measures include increasing the use of solar hot water heating (to 30%), installation of advanced meters for steam and gas (previously only electricity was covered) and broader application of energy efficiency in all major renovations.

Approval of this FY 2017 request will enable GSA to continue to provide leadership in energy/water conservation and efficiency to both the public and private sectors and to continue its efforts to meet or exceed the ambitious statutorily mandated goals.

Prospectus Number: PFP-0001-MU17

FY 2017 Project Summary

This prospectus proposes alterations to upgrade, replace, and improve fire protection systems and life safety features in Government-owned buildings during fiscal year (FY) 2017.

Since FY 2010, GSA has received $7,600,00 in funding in support of the Fire Protection and Life Safety Program. With these funds, GSA has been able to undertake 68 fire protection and life safety projects to remove or reduce code deficiencies, hazards and building-wide and localized risks in 60 Government owned buildings nationwide.

FY 2017 Committee Approval and Appropriation Requested.....$20,000,000

Program Summary

As part of its fire protection and life safety efforts, GSA is currently identifying projects in federal buildings throughout the country through surveys and studies. These projects will vary in size, location, and delivery method. The approval and appropriation requested in this prospectus is for a diverse set of retrofit projects with engineering solutions to reduce fire and life safety hazards. Typical projects include the following:

- Replacing antiquated fire alarm and detection systems that are in need of repair or for which parts are no longer available.
- Installing emergency voice communication systems to facilitate occupant notification and evacuation in Federal buildings during an emergency.
- Installing or expanding, as necessary, fire sprinkler systems to provide a reasonable degree of protection for life and property from fire in Federal buildings.
- Constructing additional exit stairs or enclosing existing exit stairs to facilitate the safe and timely evacuation of building occupants in the event of an emergency.

Justification

GSA periodically assesses all facilities using technical professionals to identify hazards and initiate correction or risk-reduction protection strategies so that its buildings do not present an unreasonable risk to GSA personnel, occupant agencies, or the general public. Completion of these proposed projects will improve the overall level of safety from fire and similar risks in GSA-controlled Federal buildings nationwide.

Resolved by the Committee on Transportation and Infrastructure of the U.S. House of Representatives, that pursuant to 40 U.S.C. §3307, appropriations are authorized for alterations to improve physical security in Government-owned buildings occupied by the Judiciary and U.S. Marshals Service during Fiscal Year 2017 in lieu of future construction of new facilities at a total cost of $26,700,000, a prospectus for which is attached to and included in this resolution.

FY 2017 Project Summary

This prospectus proposes alterations to improve physical security in Government-owned buildings occupied by the Judiciary and the U.S. Marshals Service (USMS) during fiscal year (FY) 2017 in lieu of future construction of new facilities.

FY 2017 Committee Approval and Appropriation Requested $26,700,000

Program Summary

The Judiciary Capital Security Program (JCS) is dedicated to improving physical security in buildings occupied by the Judiciary and USMS in lieu of construction of brand new facilities, thereby providing cost savings and expedited delivery. These projects will vary in size, location, and delivery method and improve the separation of circulation for the public, judges, and prisoners. Funding provided for the security improvement projects would address elements such as additional doors, reconfiguring or adding corridors, reconfiguring or adding elevators and sallyports, and constructing physical or visual barriers.

Justification

The JCS will provide a vehicle for addressing security deficiencies in a timely and less costly manner when constructing a new courthouse is unlikely in the foreseeable future. In FY 2012, FY 2013, and FY 2015, GSA's appropriation included funding for this special emphasis program to undertake security improvements to buildings occupied by the Judiciary. In addition, the FY 2016 President's Budget includes funding for this program. The projects in this program are based on studies undertaken by the Judiciary. This prospectus requests separate funding to address specifically such security conditions at existing Federal Courthouses for locations that are unlikely to be considered for construction of a new courthouse. The Judiciary's asset management planning process serves to help compile a preliminary assessment of potential JCS projects that identify courthouses with poor security ratings nationwide.

Building

The Minton-Capehart Federal Building, built in 1974, is six stories above grade and includes a mezzanine and basement. The attached parking garage, which is original to the building, is two stories, with the first story partially below grade and partially exposed to the elements. The garage provides 464 parking spaces, which are occupied by law enforcement and Government-owned vehicles, including 75 parking spaces for the nearby Birch Bayh Courthouse Federal tenants. The upper deck serves as a partial cover for the lower deck. The garage is elevated and entirely open to the atmosphere and elements. The garage's upper deck is joined to the federal building's first floor entry and plaza. The lower level has a dock area that is attached to the federal building.

Tenant Agencies

Department of Housing and Urban Development, Department of Justice, Department of the Treasury, Department of Veterans Affairs, Department of Labor, Federal Railroad Administration, Department of Homeland Security, GSA, Department of Transportation, National Labor Relations Board, Social Security Administration, and Judiciary (parking only)

Proposed Project

The proposed project scope includes concrete repairs and upgrades to lateral load resistance which will extend the life of the parking structure for several decades. The upper level slab will be replaced and a new traffic-bearing membrane will be installed over the top of the new slab. Existing beams will be repaired at locations where concrete has spalled. New concrete shear walls will be constructed. The project also includes improvements to the supporting columns, shear walls and exterior stairwells, as well as improvements to the lighting and fire protection and installation of bollards at the garage entrance and exits.

Major Work Items

Superstructure Repairs and Demolition	$5,970,000
Electrical Replacement/Upgrades	2,563,000
Fire Protection Replacement/Upgrades	274,000
Total ECC	**$8,807,000**

Justification

The garage is over 40 years old and is in urgent need of a major renovation. The garage is suffering from multiple concrete related failures including: delamination on the floor slabs and beams and slab reinforcement with extensive section loss; concrete spalling, and delamination at some column facades; water leakage on the underside of the supported level; and, deteriorated expansion joints. The current electrical infrastructure will be upgraded/replaced to meet current codes. The installation of bollards on both the entrance and exit ramps of the garage will enhance security.

Interim short-term repairs have been undertaken with minor repair and alteration program funds over the past decade in an attempt to address immediate safety measures. The corrosion, spalling, and delamination of the structure is threatening tenant and property safety. Sections of the garage have been closed down due to the risk. Currently, there are two parking spaces closed in the lower level due to falling concrete. Ten additional

parking spaces are closed in the lower level due to water leaks from the upper deck, which have damaged several vehicles. Until a major repair is completed, tenant safety will continue to be threatened, continued and expanded closures of sections of the garage will be required, and continued degradation of the garage deck will occur.

Summary of Energy Compliance

This project will be designed to conform to requirements of the Facilities Standards for the Public Buildings Service and will implement strategies to meet the Guiding Principles for High Performance and Sustainable Buildings. PROSPECTUS – ALTERATION
F. EDWARD HEBERT FEDERAL BUILDING
NEW ORLEANS, LA

Prospectus Number: PLA-0034-NO17
Congressional District: 2

Justification

While the Hebert Federal Building is structurally sound, the building requires significant interior alterations and systems replacement. Years of interior renovation due to changes in tenant occupancy have resulted in an office environment that is not fully compliant with fire and life safety codes and that has inefficient building circulation and poor telecommunication infrastructure on floors 3-10. Additionally, only one unisex toilet room that conforms to most accessibility requirements has been created on each floor; however, not all are accessible from public spaces and require entering tenant space to gain access. On some floors, tenants must cross through other tenant agency space to reach restrooms and elevators, creating access and egress problems and firetraps in certain locations. The telecommunication infrastructure requires a number of upgrades to make it competitive with commercial space, eliminate safety hazards, and reduce the cost and difficulty of future tenant build-out and technology changes. Miles of abandoned-in-place phone cabling will be removed, freeing up valuable pathways and space on equipment room floors and walls.

Most of the building systems are outdated and have reached the end of their useful lives. The building's central plant and electrical switchgear are located in the basement, which is prone to flooding in heavy rain events. All central plant and electrical equipment will also be replaced and relocated from the basement to the first floor, per city code. The fire alarm and sprinkler systems have exceeded their anticipated life spans and require complete replacement. Currently, only one contractor within a 150-mile radius is capable of working on the old, outdated fire alarm system. Elevators are problematic and also require replacement.

The plumbing and ventilation stacks in the existing restrooms are original to the building and require frequent and extensive maintenance. The existing restrooms will be recaptured as rentable space, realigning space and eliminating pockets of unmarketable vacant space.

Historic elements, such as the original main lobby doors and elevator lobbies on all floors, will be refurbished.

The building's exterior envelope is in very good condition and needs only minor repair to replace sealant and correct damage from corrosion. Minor exterior construction is required to improve accessibility to the building.

Proposed Project

The proposed project replaces the deficient roofing system, including the flashing and sealants, with a new membrane roofing system coupled with high-efficiency insulation on the low-rise, high-rise, and breezeway portions of the building. The roof system will integrate a new roof-mounted photovoltaic array installed on the low-rise roof. In addition, the project contains abatement of potential PCBs during roof demolition work and upgrades the building's permanent roof anchor/fall arrest system providing additional safeguards.

Existing chillers will be replaced with new high efficiency units with non-chlorofluorocarbon refrigerants. Waste condensate from new chiller replacement will be used to provide additional hot water for snowmelt or domestic hot water. The existing VAD system will be replaced and reconfigured with a highly efficient variable air volume system with reheat and a direct digital control system. The existing ductwork will be replaced or cleaned.. Any new equipment will be fully compatible with and tied into the existing building automation system (BAS).

The existing lighting control system will be upgraded to incorporate an occupancy and daylighting strategies throughout the tenant floors and bi-level lighting in the stairways as well as an occupancy/dimming strategy in the garage,

Electrical Upgrades	1,287,000
HVAC Replacement/Upgrades	24,323,000
Hazardous Abatement	5,608,000
Total ECC	**$34,202,000**

Justification

The project will allow for roof replacement prior to full failure of the existing roofing system in a manner that is minimally disruptive to the tenant agencies. The low-rise structure has already suffered leaks that have severely affected tenant operations. If unfunded, recurring localized failures or full roof material failure risk damage to interior finishes, tenant property and mission, and other historic building elements. Increased energy consumption due to deterioration of insulation is also a risk. Additionally, the project will incorporate permanent roof-mounted fall protection features for personnel, ensuring proper life safety compliance.

The current VAD system lacks control and responsiveness. Increased energy consumption, poor tenant comfort, and failing indoor air quality are recurring problems throughout the building. Existing chillers have reached the end of their useful life and require replacement. Upgrading the existing lighting controls and BAS will result in decreased energy consumption, thereby reducing monthly utilities..

FY 2017 Project Summary

The General Services Administration (GSA) requests additional approval and funding for a repair and alteration project to renovate 985 Michigan Avenue in Detroit, MI to extend service life, improve operational efficiency, and undertake interior alterations for reconfiguration and consolidation of federal agencies into the facility. The consolidation of federal agencies will decrease reliance on leased space, improve space utilization, and incorporate alternative workplace solutions. The Government is expected to achieve savings due to lease cost avoidance of approximately $7,900,000 per year.

The building was constructed in 1995 as a build-to-suit lease to be occupied by the Internal Revenue Service (IRS). GSA exercised a $1 lease purchase option at the end of the lease term and assumed ownership of the building on April 16, 2015.

This prospectus amends PMI-1951-DE15, which was approved in FY 2015, to reflect budget increases subsequent to preparation of the FY 2015 prospectus. Further analysis conducted after the execution of the purchase option and submission of the FY 2015 prospectus identified additional elements resulting in increased costs for interior construction work and electrical upgrades and reduced/eliminated costs associated with the elevator systems, parking garage, and exterior repairs.

Building

The office building is 10 stories above grade with a basement and has approximately 866,000 gross square feet. The majority of the mechanical equipment is housed in a three-story structure adjacent to the building. The building has a 10-story parking garage with approximately 850 spaces.

Tenant Agencies

Department of the Treasury, Department of Justice, Department of Homeland Security, Department of Labor, State Department, GSA, U.S. Air Force Reserves, U.S. Office of Special Counsel, Social Security Administration, and Health and Human Services-IG

Proposed Project

GSA proposes to renovate the building to extend its useful life and consolidate federal agencies from leased locations in Detroit, MI. Renovation of the building systems includes improvements to the HVAC systems that will result in energy savings, repairs to elevators for code compliance, repairs to the building's windows and facade, replacement/upgrades of fire protection systems, improvements to the electrical infrastructure, plumbing upgrades, and renovation of common areas.

Department of Treasury – Internal Revenue Service (IRS) is currently located at the 985 Michigan Avenue building and another leased location. Interior alterations will be made to allow for the reconfiguration of IRS space and consolidation of Federal agencies into

space released by the IRS with the other largest consolidations being Department of Homeland Security and Department of Justice. Other proposed backfill agencies are currently housed in leased facilities.

Major Work Items

Interior Construction	$28,075,000
HVAC Replacement/Upgrades	18,283,000
Electrical Replacement/Upgrades	12,545,000

Exterior Construction	3,899,000
Plumbing Upgrades	826,000
Elevator Upgrades	203,000
Total ECC	**$75,647,000**

Justification

This project will create a multi-tenant federal building by significantly reducing the IRS' footprint in the building and consolidating a number of federal agencies (including the IRS) from leased facilities into the 985 Michigan Avenue facility. The Government is expected to achieve savings due to lease cost avoidance of approximately $7,900,000 per year.

The building is 20 years old and was constructed for data center activities, many systems are inefficient and are approaching the end of their useful lives. Mechanical, electrical, elevator, and plumbing systems have operated 24/7, 365-days/year since the building was constructed in 1995. Upgrades to the building's infrastructure are required to extend service life, reduce energy consumption and operating expenses, and ensure long-term occupancy of federal tenants. The HVAC system was built for data center functionality and is inefficient and oversized for office use. Fire and life safety systems are not compliant with current code. Additionally, the building envelope is showing signs of deterioration.

Summary of Energy Compliance

This project will be designed to conform to requirements of the Facilities Standards for the Public Buildings Service and will implement strategies to meet the Guiding Principles

The five-story, steel reinforced concrete Garage structure is approximately 119,000 gross square feet with 215 parking spaces. Three of the five levels are below grade, one level is at grade, and one level is above grade. There is an entrance from the second level of the garage to the basement of the federal building.

Proposed Project

The proposed project includes replacement, with concrete, of portions of the slab, as well as the asphalt driving surfaces. A waterproof membrane will be installed to protect the structural concrete from water infiltration, and the exterior concrete stairs will also be repaired. The project will also include replacement of signage, and improvements to the storm drain, plumbing, electrical, fire protection, and mechanical systems, including the exhaust ventilation system.

Plumbing Replacement/Upgrades	405,000
HVAC Replacement/Upgrades	760,000
Electrical Upgrades	399,000
Total ECC	**$8,822,000**

Justification

The McNamara Federal Building parking garage provides mission-critical parking for federal agencies housed in the federal building, including secure parking for federal law enforcement agencies. Original to the construction of the garage, the existing concrete slab structure is rapidly deteriorating with spalling concrete and rusted reinforced steel visible where sections of concrete have fallen from slabs. The asphalt-topped concrete decks are in very poor condition, with large potholes that have the potential to damage vehicles and injure pedestrians. Portions of the garage have been temporarily closed due to spalling concrete and water–related degradation. Interim repairs put in place over the years are also susceptible to spalling due to the continued water penetration and de-icing salts. Presently, GSA identified two areas that have potential for further structural failure that are being closely monitored. Short-term repairs undertaken over the past 10 years with minor repair and alteration program funds are in need of a permanent solution. In addition to the structural repairs needed, the storm drain, fire and life safety, electrical

and mechanical, and emergency lighting systems are all failing due to age and conditions and are non-compliant with current codes. The majority of storm drains are cracked and inoperable, which forces water to seep through cracks in the concrete, causing further degradation of the structure. Sprinkler pipes and drain lines are corroded throughout the garage, and the incidence of failure is increasing over time. Ruptures in the sprinkler pipe have caused water damage in occupied space in the basement of the federal building due to the inoperable storm drains.

Summary of Energy Compliance

The remaining current warehouse space of 142,163 usf (2312 Bannister) is conditioned and was renovated for new tenants. The proposed project will modernize select 62-year old building systems, address the aging infrastructure, and correct fire and life safety deficiencies to meet the long-term needs of USMC and other federal agencies. The flat roof will be replaced with energy-efficient, light-colored roofing materials with added insulation, drainage improvements, and installation of fall protection. The HVAC system work will replace aging air handling units, boilers, the air distribution system, humidification, and hot water piping. The interior alterations include replacing plumbing fixtures and addressing Architectural Barriers Act Accessibility Standards issues in the restrooms; replacing the ceiling associated with HVAC, ductwork, and fire protection.. The electrical system work will include replacing the interior and exterior lighting, refurbishing two electrical substation transformers, replacing the building automation system, and install sub-metering. The proposed project will address fire and life safety concerns by correcting deficiencies and improving emergency access/egress deficiencies to comply with National Fire Protection Association guidelines and Occupational Safety and Health Administration regulations. Fire and Life Safety Replacement	5,980,000
Hazardous Abatement	1,897,000
Total ECC	**$55,887,000**

Justification

GSA was uncertain of the long-term need for 2306/2312 Bannister Road after the two major tenants, Department of Treasury – Internal Revenue Service and the National Archives and Records Administration, vacated the building and relocated to leased space in 2006 and 2012, respectively. When USMC moved into the 2306 portion of the building in 2008, the agreement was for 3 years allowing USMC to run their Information Technology Data Center. The subsequent commitment from USMC to continue and expand its presence at Bannister Road led GSA to reconsider its holding strategy determining the property to be a long term hold and prompting GSA to identify additional tenants for the building. FEMA, Army North, and the GSA Field Office have relocated from BFC to Bannister Road, thereby avoiding the need to lease space. At the previous closed lease location, USDA-FSA occupied 95,289 rsf. USDA-FSA has already moved into 2312 Bannister and occupy 103,181 usf. Relocating USDA-FSA to federal space allowed the Government to release costly leased space, thereby reducing the Government's annual lease payment to the private sector by approximately $711,872. The current USMC Occupancy Agreement contains a clause that reserves the right of USMC to relocate its enterprise data center to another location if GSA cannot fund this project. If USMC vacates this Federal Building, it would likely mean that GSA would have to dispose of the building displacing the other Federal tenants incurring additional relocation and leased costs.. Relocation by USMC would cause the greater Kansas City, MO, area to lose 600 high-tech jobs, resulting in serious economic ramifications.

Proposed Project

The project proposes to repair the plaza at the Stokes U.S. Courthouse to eliminate water leaks and infiltration into the lower levels of the building. The scope includes refinishing and reinforcing the structural steel that supports the plaza, along with repairs to fireproofing and upgrading the surface parking lot. Installation of renewable energy and sources, such as the addition of wind turbines, solar panels, and a storm water capture system, are proposed for the site as part of this project.

The project also proposes to extend the currently incomplete plaza towards Superior Avenue as was originally designed. Due to a funding shortage when the building was originally constructed, a portion of the plaza was left unfinished.

Major Work Items

Sitework	$12,727,000
Total ECC	**$12,727,000**

Justification

The structural steel that supports the plaza is exposed to the elements and has been since the original construction. The steel has considerable rust damage, and the structural beams that support the plaza and connect into the parking garage are heavily corroded. Part of the unfinished plaza includes the base of the structural steel columns that are at grade with the Cleveland Regional Transit Authority train tracks and support beams that run above and across the train tracks. If the steel continues to be left unattended, it will become difficult to repair and will result in structural issues. The corroded steel is also very unsightly and takes away from the appearance of the modern courthouse.

The plaza has experienced excessive water infiltration in many areas that will worsen until repairs are completed. The leaks have been causing damage to the structure, interior finishes, and the fireproofing in the lower levels of the building.

The project's use of sustainable technologies of solar energy and wind capture will help to generate power to offset energy consumption for site lighting and will enable a small recovery of utility costs. The creation of a water capture system will be used to irrigate

plantings throughout the property and help recharge the heating, ventilating and air conditioning units, which will reduce the facility's reliance on domestic water sources.

The plaza surrounding the Stokes Courthouse remains incomplete from the time of the original construction in 2002. The sidewalk on the northwest side of the site is built on a portion of city-owned/controlled Huron Road. This sidewalk is the only way to access the building from the southeast intersection of Huron Road and Superior Avenue. Once the plaza is completed, the sidewalk will be returned to the city, and this will restore a lane of traffic on Huron Road. Completion of the plaza will protect the structural steel from future damage, improve pedestrian access to the building, incorporate the building into the surrounding urban environment, and significantly improve the appearance of the Stokes Courthouse. The building's location within the city acts as a prominent gateway for those entering into the city from the west. Unfortunately, this impression is lost when visitors reach the intersection of Huron Road and Superior Avenue, where the steel installed for the completion of the plaza is rusting and the appearance of the facility at street level is that of a public building that is difficult to approach.

Summary of Energy Compliance

This project will be designed to conform to requirements of the Facilities Standards for the Public Buildings Service and will implement strategies to meet the Guiding Principles for High Performance and Sustainable Buildings. GSA encourages design opportunities to increase energy and water efficiency above the minimum performance criteria.

FY 2017 Project Summary

The General Services Administration (GSA) proposes a repair and alteration project to undertake structural repairs at the 911 Federal Building located at 911 NE 11th Avenue, Portland, OR. The project will correct seismic and structural deficiencies and include the reconfiguration and alteration of approximately 33,500 rentable square feet (rsf) of vacant space for backfill occupancy by the Department of Commerce's National Oceanic and Atmospheric Administration (NOAA)-National Marine Fisheries Service (Fisheries). NOAA Fisheries will relocate from leased space to the 911 Federal Building, resulting in a reduction of approximately $680,000 in annual lease payments to the private sector.

Building

Constructed in 1953, the 911 Federal Building is an eight-story, steel-framed structure with 312,447 gross square feet of space. The basement has one level of underground parking with 83 spaces. The 911 Federal Building is connected to and shares infrastructure with the neighboring Bonneville Power Administration Federal Building, and together these buildings are known as the Eastside Federal Complex.

Proposed Project

The proposed project includes both structural and non-structural repairs to address existing deficiencies and improve the seismic performance of the 911 Federal Building. The proposed project will also allow GSA to consolidate NOAA- Fisheries from leased space to the 911 Federal Building in approximately 33,500 rsf of vacant space released by the U.S. Fish and Wildlife Service consolidation project.

Major Work Items

Structural Repairs	$16,900,000
Interior Construction	2,300,000
Total ECC	**$19,200,000**

Justification

The wing and tower have seismic deficiencies that must be repaired and the second floor office space cannot be backfilled until the entire Federal Building is in compliance with current seismic code. The hollow clay tile partitions are deteriorating which may create a falling hazard. The tower structure deficiencies will not adequately perform under maximum earthquake loading Deficiencies have also been identified with the concrete shear walls, supporting columns and steel bracing.

Although the tower's structure has a lateral force resisting system, it does not meet seismic code and will not perform under maximum earthquake loading. The tower has insufficient strength in North-South and East-West directions to resist anticipated seismic loads; concrete shear walls that are overstressed and some are discontinuous at the basement levels, resulting in overstressed supporting columns; inadequate or non-existent collector elements to anchor floor diaphragms to stairwell cores; inadequate steel braced frames; hollow clay tile partitions in the basements, stairwells and elevators; and inadequate bracing of fire suppression and gas piping.

Once the structural and non-structural seismic upgrades are complete, NOAA- Fisheries will backfill approximately 33,500 rsf of vacant space. Backfilling the vacated space eliminates approximately $680,000 in annual lease payments to the private sector. The new space layout will allow Fisheries to become more efficient, house 20 additional new

FY 2017 Project Summary

The General Services Administration (GSA) proposes Phase II of a two-phased repair and alteration project for the approximately 841,000 gross square foot William J. Green, Jr., Federal Building located at 600 Arch Street in Philadelphia, PA. This project involves the realignment and reconfiguration of tenant space, multiple building system upgrades/replacements, and security upgrades. Phase II of the repair and alteration project focuses primarily on the upper floors of the building. Phase I of the repair and alteration project was included as part of the fiscal year (FY) 2016 President's budget and primarily focused on the lower floors.

This project will improve the building's overall utilization through the realignment of space resulting in long-term housing solutions in Federal space primarily for the Federal Bureau of Investigation (FBI) Field Office, Drug Enforcement Agency (DEA) Field Division Office, and Internal Revenue Service (IRS) Philadelphia Office. By maximizing space in the Green Building and vacating lease space, GSA will reduce private sector lease costs by approximately $3.0 million annually.

The Green Federal Building, along with the adjoining James A. Byrne U.S. Courthouse, is part of a 1.7-million gross square foot federal complex in downtown Philadelphia known as the Byrne-Green Complex. It is the largest federally owned complex under GSA's jurisdiction, custody, and control in the Philadelphia area. The Green Federal Building was designed along with the Byrne Courthouse to share common mechanical systems. The first floors are linked by a common circulation area, which includes a

ceremonial courtroom and plaza. The complex also shares an underground parking garage. Constructed in 1973, the complex is not eligible for listing in the National Register of Historic Places.

The Green Federal Building amenities currently include a full-service cafeteria, fitness center, child care center, credit union, conference center, health unit, and a plaza area for public gatherings.

Tenant Agencies

Judiciary, Department of Homeland Security, GSA, Department of Justice, Department of the Treasury, Office of Personnel Management, Department of State

Proposed Project

The primary drivers for the proposed renovation is to improve the overall utilization of the Green Federal Building, Improved utilization will be accomplished by merging operations through consolidating additional employees from multiple leases into the Green Federal Building. Through innovative approaches to space management and alternative workplace arrangements, including the realignment of agencies onto contiguous floors and sharing resources such as conference rooms and other specialized space, the overall utilization rate for the building is expected to improve by approximately 20 percent. To adequately support the increased utilization and higher density, this project also includes upgrades/replacement of multiple building systems.

The first phase of the project will focus on the lower half of the building, allowing the tenants occupying these floors to consolidate and reduce their footprint, resulting in the creation of vacant space that will serve as internal swing space for Phase II. Work under the first phase to the mechanical, electrical, plumbing, and fire life safety systems will affect both tenant and building wide components. HVAC work includes replacing mixing boxes and the chiller plant, refurbishing the cooling tower and replacing/reconfiguring ductwork and fan coil units within tenant space. Electrical upgrades/replacements will be made both within tenant suites and in common corridors and joint use spaces, while new domestic water risers will be installed to address plumbing. Sprinklers will be relocated, upgraded, and replaced, where necessary. Additionally, this phase also will upgrade some of the building's joint use space, such as reducing the size of the cafeteria and increasing the number and size of conference spaces

available to the tenants. The security visitor screening station in the building lobby will be upgraded and reconfigured to address challenges with the current layout, reduce wait times, and provide sufficient space for the public.

Phase II will focus on the upper half of the building. Under Phase II, space for the occupying agencies will be realigned and reconfigured providing for contiguous operations. HVAC, electrical and fire protection upgrades/replacements will also be made to both the tenant and common spaces on these floors and upgrades/replacements to the elevator components will be undertaken. Additionally, exhaust fans will be replaced in the underground parking garage to ventilate the area properly and comply with local code.

Cleaning of the curtain wall and repairs to the plaza drainage system originally identified in the FY 2016 submission have been eliminated from the scope of Phase II and replaced with HVAC work. Phase II also includes funds for security upgrades which are comprised of security film, localized column strengthening, and bollards.

Major Work Items

Interior Construction	$13,850,000
Elevator Upgrade/Replacement	1,980,000
Plumbing Upgrade/Replacement	2,700,000
HVAC Upgrade/Replacement	32,940,000
Fire Protection Upgrade/Replacement	1,100,000
Electrical Upgrade/Replacement	21,130,000
Demolition/Abatement	6,700,000
Security Upgrades	8,000,000
Total ECC	**$88,400,000**

Justification

The reconfiguration opportunity in the Green Building has been made, in part, by IRS's aggressive downsizing efforts, which have left the building with various pockets of vacant space. This project realigns and reconfigures vacant space, allowing for other agencies to realize contiguous footprints. The reconfiguration and realignment of space will improve the efficiency of FBI and DEA operations. Contiguous space in the Green Building and consolidating these tenants from leased space will provide a secure work

environment essential to collaborating with local law enforcement and other stakeholders. It will also facilitate improved handling of the expanding intelligence mission of these agencies in the most efficient and cost-effective manner while providing state of the art infrastructure.

As part of the reconfiguration and renovation of tenant space, multiple building systems will be upgraded. It is prudent to accomplish reconfiguration of the ductwork and sprinklers and replacement of fan coil units while space is vacant. The ductwork and electrical system are outdated and in need of upgrades/replacement and reconfiguration to accommodate the proposed open office floor plans. Sprinklers need to be relocated and upgraded/replaced, where necessary, to facilitate a new open office layout. The fan coil units are beyond their useful life and are no longer able to regulate the temperature in the suites properly. The cooling tower and the chiller plant need to be addressed to integrate properly with the needs of the new tenant space. Elevator components need to be upgraded, and one elevator will be converted for prisoner transport use.

At present, the visitor screening area is insufficient to handle the amount of foot traffic the building receives, and long lines result in spillover to the plaza area, posing a potential security risk. The building's current circulation needs to be improved. Paths for the public, tenants, and secure transfer of prisoners are not clear and often overlap. The screening area, along with the circulation paths, will be defined and properly located during the restacking of the building. The Facility Security Committee (FSC) met and voted to incorporate security upgrades into the project, which will improve building performance by reducing hazardous glass failure, reducing the risk of progressive collapse, and mitigating potential injuries under certain threat scenarios. Based on the decisions made by the FSC, GSA is seeking funding to improve the physical security posture of the building with a goal of completing the work without further disruption to the tenants and without the increased costs associated with completing the work after the tenants have moved into the newly renovated space.

Summary of Energy Compliance

This project will be designed to conform to requirements of the Facilities Standards for the Public Buildings Service and will implement strategies to meet the Guiding Principles for High Performance and Sustainable Buildings. GSA encourages design opportunities to increase energy and water efficiency above the minimum performance criteria.

Total ECC	**$17,863,000**

Justification

Historically, the building has been used by Treasury as one of four regional check printing and distribution facilities for federal obligations to vendors and the general public. Treasury's transition to electronic transfer of funds resulted in the removal of all check printing and distribution functions and has significantly altered the type and amount of space the agency requires.

The 46-year-old building has undergone various renovation projects over the years, but never a complete modernization including upgrades. The space converted from light industrial to office use does not include the appropriate lighting, HVAC, ceilings, or finishes for office space. The building systems are outdated and have reached the end of their useful lives. The HVAC equipment has reached or surpassed its life expectancy. The control system and related electronic components need frequent repairs and parts are no longer available. Upgrades to the exterior include replacement of a 22-year-old roof that has required repair numerous times. The storm water and sanitary lines do not meet current code and need to be separated. Runoff from heavy rains often floods the loading dock's storm drain, causing flooding in the building when floor drains back up. All the domestic water lines are old, corroded, and need to be replaced. Restrooms need

DESCRIPTION

The General Services Administration (GSA) proposes $8,500,000 for the design of a repair and alteration project for the Joseph P. Addabbo Federal Building at 155-10 Jamaica Avenue, Queens, New York.

The 932,000 gross square foot Addabbo Federal Building, constructed in 1989, is a 12-story masonry and steel office building with a mechanical penthouse and one level of below grade parking containing 44 spaces. The project will reconfigure space to allow for the consolidation of Social Security Administration (SSA) operations on the lower floors (2-7) within the building. The consolidation of SSA operations will allow for the eventual build-out of office space for future federal tenants currently housed in leased space in the vicinity of Queens, NY. This project also includes the design of some shell office space for future backfill tenants. The project will promote economies of scale and will provide opportunities for maximizing space efficiency, operational flexibility, and sharing special support spaces and building amenities.

The proposed project will support SSA and GSA's ongoing efforts to improve utilization of space occupied by SSA and realize an overall improvement of space from over 400 usable square feet (usf)/per person to approximately 200 usf/per person. The project will support GSA's ongoing efforts to maximize the use of federally owned space by moving Federal tenants currently housed in over 700,000 square feet of leased space into a Federal facility.

PROSPECTUS – CONSTRUCTION
DHS CONSOLIDATION AT ST. ELIZABETHS
WASHINGTON, DC

PDC-0002-WA17

Overview of FY2017 Proposed Project

GSA proposes to continue the ongoing development of the DHS consolidated headquarters at the St. Elizabeths Campus by: 1) continuing design and full construction of a new federal headquarters for FEMA; 2) rehabilitating buildings needed to accommodate components of the Under Secretary of Management (USM) that are currently planned for the Center Building Complex (Holly and Creamery clusters); 3) continuing design of phase 3 construction to house Immigration and Customs Enforcement; 4) ongoing historic preservation activities in support of landscaping and public outreach; and 5) management and inspection funding for these activities.

The FY2017 request includes design completion, management and inspection, and construction of an appropriately sized building to accommodate all of the Headquarters components of FEMA. This funding also includes a related below grade parking structure to be constructed adjacent to Gate No. 2 along Martin Luther King, Jr. Avenue. FEMA Headquarters components are currently located in four leased buildings in the Washington, DC metropolitan area.

The FY2017 request also includes funds to rehabilitate six existing historic structures that comprise the Holly and Creamery clusters. These buildings are located adjacent to the Center Building that is currently being rehabilitated to accommodate the DHS Secretary's office and mission critical leadership components within that office. The Center Building Complex will house components within the Office of the Under Secretary for Management that will not be housed in buildings being rehabilitated with FY2016 appropriations.

The FY2017 request also supports initial design of a new federal building for ICE headquarters leadership components currently located in leased buildings in Washington, DC and ongoing Historic Preservation activities. Historic preservation activities will ensure that the landscape work is consistent with the preservation requirements and public outreach is consistent with the agreements in place in support of the construction of the Consolidated DHS Headquarters at St. Elizabeths.

Overview of Project

GSA and DHS have worked collaboratively to update and revise the original DHS HQ consolidation program at the St. Elizabeths Campus. The updated program, referred to as the Enhanced Plan, seeks a more efficient utilization of space at a lower cost. The West Campus is a 176–acre National Historic Landmark that includes existing buildings containing approximately 1 million gross sq. ft. (GSF) plus newly constructed buildings such as the Douglas A. Munro Coast Guard Headquarters Building.

Under the Enhanced Plan, DHS and GSA cut back on the overall scope of the program. DHS components will require less space through realized efficiencies and improved utilization rates, plus the FEMA headquarters that was planned for the East Campus was moved to the West Campus. The West Campus, however, will continue to be developed in accordance with guidelines set out in the Master Plan as amended and/or as a result of continued compliance with NHPA and NEPA during specific project designs.[3]

Committee approval and appropriations for **Phase 1** of the project – construction of a new headquarters facility for the USCG called the Munro Building – have already been obtained. Development of **Phase 2a** includes: construction of office space to consolidate DHS headquarters and the re-scoped DHS Operations Center (DOC), house various DHS leadership components, and provide amenity space. **Phase 2b** proposes the construction of a new headquarters facility for FEMA plus appropriate amenity space. Parking will also be included with these later phases. **Phase 3** will accommodate portions of the remaining elements of DHS headquarters units such as CBP and ICE. The project will include the rehabilitation of existing space as well as construction of new space.

This prospectus seeks approval for new construction of the FEMA headquarters. Also included will be rehabilitation of existing buildings, historic preservation, and design.

[1] This represents the balance of committee approval needed for this prospectus submission less remaining appropriations needed for the Infrastructure Program which is subject to the requirements of 40 U.S.C. Section 3307.

I. SITE ACQUISITION PROGRAM SUMMARY

Delineated Areas for Site Acquisition

The proposed sites to be acquired are as follows:

1. Approximately two acres of land located on Firth Sterling Avenue in southeast Washington, DC, where it is contiguous to the northwest corner of St. Elizabeths West Campus; the land is currently controlled by DC and CSX Corporation.
2. Approximately one acre of land located along the east side of Martin Luther King, Jr. Avenue in southeast Washington, DC, between the Unified Communications Center and the current tunnel between the East Campus and West Campus. The land is currently controlled by DC.
3. Approximately fourteen (14) acres of land located on Shepherd Parkway in southeast Washington, DC, between the St. Elizabeths West Campus and Malcolm X Avenue, parallel to Interstate 295.[5]

Total Site Acquisition Project Budget

Site Acquisition (Firth Sterling Avenue) (FY2009)	$2,722,000
Site Acquisition (Martin Luther King, Jr. Avenue) (ARRA)	500,000
Site Acquisition (Shepherd Parkway) (ARRA)	3,500,000
Total Acquisition Budget[6]	**$6,722,000**

II. INFRASTRUCTURE PROGRAM SUMMARY

Infrastructure repair / replacement costs include: demolition of specific buildings identified by the Master Plan; replacement of site utilities including electricity substations and local utility requirements, an addition to the existing power plant for a fully functional CUP with co-generation capability; distribution systems for electricity, natural gas, domestic water, storm water, waste water, data systems and telecommunications; roadways, surface parking and sidewalks; refurbishment of historical ornamental landscape and creation of new landscape features as needed including flora; cleanup / repair of existing tunnels on site to improve safety and for potential use as systems distribution pathways; and site security fencing, entry gates, guard stations, and other site security features. There was $46 million for the access road

[5] Per a Transfer of Jurisdiction Agreement between GSA and NPS recorded 05/26/2015, approximately 8 acres of Shepherd Parkway was transferred to the control of GSA for construction of the access road to Malcolm X Avenue.

[6] Unused project funds originally requested for acquisition of parcels along Firth Sterling Avenue were redirected to Phase 1b of the project to cover unforeseen conditions. Please see Section V, Phase 1b footnotes.

construction originally included in the Infrastructure budget in prior years that has been moved to the Highway Interchange program budget in Part III of this prospectus.

The planned alterations are necessary to preserve, maintain, and reuse this historic site. Existing infrastructure and the landscape have suffered from aging and deferred maintenance. The utility distribution systems are antiquated and deteriorated. Building repairs include repair and improvement of structural and life safety systems while maintaining historic integrity. The landscape will be maintained, protected, and preserved to the extent feasible.

III. HIGHWAY INTERCHANGE PROGRAM SUMMARY

The Highway Interchange Program that was developed as part of the Master Plan proposes an access road to the St. Elizabeths West Campus that extends between Firth Sterling Avenue to the north and Malcolm X Avenue to the south, parallel to Interstate-295. Funds for construction of the access road in the amount of $46 million were originally included in the Infrastructure program described above, but additional transportation improvements have subsequently been identified. A new, reconfigured interchange between Malcolm X Avenue and I-295 is one of these improvements. This reconfiguration will be necessary to direct St. Elizabeths traffic onto the access road that, in turn, will mitigate the impacts of additional traffic that is anticipated as the result of the redevelopment of St. Elizabeths. GSA worked closely with FHWA and the DC Department of Transportation to prepare an Interchange Justification Report (IJR) to facilitate required modifications to the Malcolm X Interchange. Other related transportation improvements that are needed as a result of the St. Elizabeths development are also included below as separate line items. These improvements need to be funded in conjunction with Phase 2 of the project to avoid further schedule delays and cost escalations.

Summary of Energy Compliance

Cogeneration and Waste Heat: Approximately 30% of the campus power will be produced on site via cogeneration. This percentage represents 100% of the critical campus electrical needs in times of emergencies. The waste heat generated by the natural gas fired turbines will be converted to both steam and hot water to help heat the buildings and, through steam driven absorption chillers, to help cool the buildings.

Solar Energy: Photovoltaic energy collection arrays were considered for electric street lighting but did not meet historic preservation requirement. Large photovoltaic arrays were also found to be untenable at the site due to the limited acreage that could be used to house the solar panels. However, solar energy collecting panels or roofing membranes have been incorporated on portions of the roof tops, for example, the Detached Dining Hall being rehabilitated for use as a cafeteria.

Geothermal: Geothermal wells will be considered to support heat pump systems for new construction of the support buildings, such as the remote delivery facility and pump house. If viable, future appropriations will be requested.

FY2017 Project Summary

The General Services Administration (GSA) proposes the acquisition of approximately eight acres of land, along with the design and construction of a new 6,685 gross square foot facility for the United States Department of Agriculture (USDA) Animal and Plant Health Inspection Service (APHIS) at the Pembina, ND, U.S. Land Port of Entry (LPOE). Construction of this facility provides a permanent solution for APHIS at a secure location directly on the port, remedies a potential life safety concern with the current location of the temporary modular trailer, improves traffic configuration, places all APHIS operations on the U.S. side of the U.S./Canada border and eliminates rental payments to the private sector of approximately $317,000 annually.

This project was among those previously included in GSA's FY 2015 and FY 2016 Capital Investment Program. The prospectus was approved by the House Committee on Transportation and Infrastructure but not approved by the Senate Committee on Environment and Public Works. The project could not be accommodated within the enacted levels in FY 2015 and FY 2016. GSA is resubmitting the project in FY 2017 with no change in scope and a change in budget to account for escalation since its original submission.

Overview of Project

The proposed permanent housing solution for APHIS at the Pembina LPOE will be constructed to include both on-load and off-load animal inspection facilities with an administrative support wing at one location. The new building will contain two main components: 1) an enclosed off-load animal inspection area with runways, pens, chutes, and loading ramps. 2) an administrative office area with a counter, waiting room, water fountain, and a unisex restroom for customers. The building will include infrastructure for modern mechanical, plumbing and electrical systems. It will adapt design elements that will conform to the rest of the existing port.

The project includes land acquisition and wetland construction. GSA will acquire up to eight acres of vacant land in the Pembina area and convert the land to designated wetlands per National Environmental Policy Act (NEPA) guidelines.

Justification

The Pembina, ND, U.S. LPOE is the busiest northern port between Blaine, Washington and Detroit, Michigan, and the fifth busiest along the U.S./Canada border. The port has seen a steady increase in traffic flow since its completion in 1997. In 2003, in response to the 9/11 terrorist attacks, the original APHIS building was demolished to accommodate new LPOE Vehicle and Cargo Inspection System (VACIS) requirements. A modular trailer was leased and moved to a landscape median island near the center of the port as a temporary housing solution for APHIS. On-load inspections are conducted at this location (in the median with traffic flowing on both sides). Off-load inspections are performed at the Emerson Canadian Port where GSA leases another facility for APHIS approximately one mile north and east of the Pembina LPOE. This is operationally inefficient.

Commercial truck parking and circulation are inadequate with little or no lane control. With the increase in traffic flow this has created a potential life safety concern for APHIS inspectors and truck drivers. In addition to the potential life safety concern, the temporary modular trailer is in poor condition and requires ongoing repairs to keep the building habitable. The proposed project will provide APHIS with a facility that is operationally safe and efficient. Construction of a permanent inspection facility will not materially hinder any operations at the port.

[7] Upon construction completion, the newly converted wetlands will be monitored for a period of at least five years to ensure a successful conversion.

PROSPECTUS – CONSTRUCTION
APHIS BUILDING
PEMBINA, ND

Prospectus Number: PND-0550-PE17
Congressional District: 01

Approximately three acres of undeveloped government-owned wetlands on the southwest corner of the Pembina Port will be used to prepare the new project site. A thorough Feasibility Study has determined the proposed site to be the most advantageous location to maximize traffic flow and security for the Port and its stakeholders. To mitigate the reduction of wetlands to the environment, the NEPA requires the creation of two net new acres of wetlands per each acre of wetlands negatively affected by construction.

Since it is somewhat common for a small portion of newly created human-made wetlands to fail to convert properly to permanent wetlands, an extra two acres of site acquisition have been included in the project for contingency purposes, allowing for the acquisition of up to eight acres of land for wetland mitigation. The newly converted wetlands will be monitored for a period of at least five years to ensure a successful conversion.

Upon project completion, on-load inspections will take place in 15 open-air commercial truck parking stalls just outside of the new building. This will no longer require inspector personnel or truck operators to cross several lanes of oncoming traffic on foot.

Other alternatives (off of the port) pose security challenges to APHIS inspection personnel and U.S. Customs and Border Protection, and logistics issues for commercial truck operators. Alternatives locating the APHIS facility in different areas on the port were problematic due to traffic flow constraints. The proposed plan is in a strategically situated area to facilitate maximum traffic flow at the port.

Summary of Energy Compliance

This project will be designed to conform to requirements of the Facilities Standards for the Public Buildings Service and will implement strategies to meet the Guiding Principles for High Performance and Sustainable Buildings. The GSA encourages design opportunities to increase energy and water efficiency above the minimum performance criteria. The proposed project is Energy Independence and Security Act (EISA) and Energy Policy Act (EPACT) compliant.

Current Total Annual Cost:	$4,457,000 (Leases effective 10/1/1998, 11/1/2007 and 2/22/2010)

Justification

SSA has developed a program of requirements for replacement space to house its Regional Office in Dallas, Texas. The office provides SSA services including retirement benefits, disability insurance, and supplemental security income to Arkansas, Louisiana, New Mexico, Oklahoma, Texas, and the Navajo Nation in part of Arizona and Utah.

The proposed requirements utilize new space standards developed by SSA to improve space efficiency and employee productivity and will reduce SSA's footprint by 62,591 RSF. In the absence of this reduction, the status quo cost of continued occupancy at the proposed market rental rate would be $7,128,000 per year.

Summary of Energy Compliance

GSA will incorporate energy efficiency requirements into the Request for Lease Proposals and other documents related to the procurement of space based on the approved prospectus. GSA encourages offerors to exceed minimum requirements set forth in the procurement and to achieve an energy Star performance rating of 75 or higher.

Resolutions of Approval

Executive Summary

The U.S. General Services Administration (GSA) proposes a lease of approximately 131,000 rentable square feet (RSF) for the Department of Agriculture (USDA), currently located at 3101 Park Center Drive, Alexandria, VA, under a lease that expires May 31, 2017.

The lease will provide continued housing for USDA and improve USDA office and overall utilization rates from 141 to 93 usable square feet (USF) per person and 215 to 150 USF per person, respectively. As a result of the improved utilization, the lease will reduce the rentable square footage (RSF) of the requirement by 29 percent, a 53,216 RSF reduction from its current footprint. In the absence of this reduction, the status quo cost of continued occupancy at the proposed market rate would be $7,184,424.

Description

Occupant:	Department of Agriculture
Current Rentable Square Feet	184,216 (Current RSF/USF = 1.14)
Estimated Maximum RSF[1]:	131,000 (Proposed RSF/USF = 1.20)
Expansion/Reduction RSF:	53,216 (Reduction)
Current Usable Square Feet/Person:	215
Estimated Usable Square Feet/Person:	150
Proposed Maximum Leasing Authority:	15 years
Expiration Dates of Current Lease(s):	5/31/2017
Delineated Area:	Northern Virginia
Number of Official Parking Spaces:	12
Scoring:	Operating Lease
Estimated Rental Rate[2]:	$39.00 / RSF

[1] The RSF/USF at the current location is approximately 1.14; however, to maximize competition, a RSF USF ratio of 1.2 is used for the proposed maximum RSF as indicated in the housing plan.
[2] This estimate is for fiscal year 2017 and may be escalated by 1.95 percent annually to the effective date of the lease to account for inflation. The proposed rental rate is fully serviced including all operating expenses whether paid by the lessor or directly by the Government. GSA will conduct the procurement using prevailing market rental rates as a benchmark for the evaluation of competitive offers and as the basis for negotiating with offerors to ensure that lease award is made in the best interest of the Government.

Estimated Total Annual Cost[3]:	$5,109,000
Current Total Annual Cost:	$5,317,419 (leases effective 6/1 2007)

Justification

The current lease at 3101 Park Center Drive, Alexandria, VA, expires on May 31, 2017 and houses the USDA Food and Nutrition Service (FNS), whose main mission is to increase food security and reduce hunger in partnership with cooperating organizations by providing children and low-income people access to food, a healthy diet, and nutrition education in a manner that supports American agriculture and inspires public confidence.

FNS work has become increasingly collaborative and the current space at 3101 Park Center Drive is not configured to support modern work patterns. A new lease will provide continued housing for 725 personnel currently working in this location and allow for a flexible office layout to adapt to future changes in work practices. The total space requested will reduce USDA's footprint by 53,216 RSF, or 29 percent of the 184,216 RSF currently occupied. In the absence of this reduction, the status quo cost of continued occupancy at the proposed market rate would be $7,184,424 per year.

Summary of Energy Compliance

GSA will incorporate energy efficiency requirements into the Request for Lease Proposals and other documents related to the procurement of space based on the approved prospectus. GSA encourages offerors to exceed minimum requirements set forth in the procurement and to achieve an Energy Star performance rating of 75 or higher.

Resolutions of Approval

Resolutions adopted by the House Committee on Transportation and Infrastructure and the Senate Committee on Environment and Public Works approving this prospectus will constitute approval to make appropriations to lease space in a facility that will yield the required rentable area.

¶68.10 HOLOCAUST VICTIMS

Ms. ROS-LEHTINEN moved to suspend the rules and agree to the following concurrent resolution (H. Con. Res. 129); as amended:

Whereas the annihilation of 6,000,000 Jews during the Holocaust and the murder of millions of others by the Nazi German state constitutes one of the most tragic and heinous crimes in human history;

Whereas hundreds of thousands of Jews survived persecution by the Nazi regime despite being imprisoned, subjected to slave labor, moved into ghettos, forced to live in hiding or under false identity, forced to live under curfew, or required to wear the ''yellow star'';

Whereas in fear of the oncoming Nazi Einsatzgruppen (''Nazi Killing Squads'') and the likelihood of extermination, hundreds of thousands of Jewish Nazi victims fled for their lives;

Whereas whatever type of persecution suffered by Jews during the Holocaust, the common thread that binds these Holocaust victims is that they were targeted for extermination and that they lived with a constant fear for their lives and the lives of their loved ones;

Whereas Holocaust victims immigrated to the United States from Europe, the Middle East and North Africa, and the former Soviet Union from 1933 to today;

Whereas it is estimated that there are at least 100,000 Holocaust victims living in the United States and approximately 500,000 living around the world today, including child survivors;

Whereas tens of thousands of Holocaust victims are in their 80s or 90s or are more than 100 years in age, and the number of Holocaust victims is diminishing;

Whereas at least 50 percent of Holocaust victims alive today will pass away within the next decade, and those alive are becoming frailer and have increasing health and welfare needs;

Whereas Holocaust victims throughout the world continue to suffer from permanent physical and psychological injuries and disabilities and live with the emotional scars of this systematic genocide against the Jewish people;

Whereas many of the emotional and psychological scars of Holocaust victims are exacerbated in their old age, the past haunts and overwhelms many aspects of their lives when their health fails them;

Whereas Holocaust victims suffer particular trauma when their emotional and physical circumstances force them to leave the security of their own home and enter institutional or other group living residential facilities;

Whereas tens of thousands of Holocaust victims live in poverty, cannot afford and do not receive sufficient medical care, home care, mental health care, medicine, food, transportation, and other vital life-sustaining services that allow them to live their final years with comfort and dignity;

Whereas Holocaust victims often lack family support networks and require social worker-supported case management in order to manage their daily lives and access government funded services;

Whereas in response to a letter sent by Members of Congress to Germany's Minister of Finance in December 2015 regarding increased funding for Holocaust victims, German officials acknowledged that ''recent experience has shown that the care financed by the German Government to date is insufficient'' and that ''it is imperative to expand these assistance measures quickly given the advanced age of many of the affected persons'';

Whereas German Chancellor Konrad Adenauer acknowledged in 1951 Germany's responsibility to provide moral and financial compensation to Holocaust victims worldwide;

Whereas every successive German Chancellor has reaffirmed this position, including Chancellor Angela Merkel, who in 2007 reaffirmed that ''only by fully accepting its enduring responsibility for this most appalling period and for the cruelest crimes in its history, can Germany shape the future'';

Whereas in 2015 Chancellor Merkel's spokesperson again confirmed ''all Germans know the history of the murderous race mania of the Nazis that led to the break with civilization that was the Holocaust. . . we know that responsibility for this crime against humanity is German and very much our own''; and

Whereas Congress believes it is Germany's moral and historical responsibility to comprehensively, permanently, and urgently provide the resources for all Holocaust victims' medical, mental health, and long-term care needs: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That Congress—

(1) acknowledges the financial and moral commitment of the Federal Republic of Germany over the past seven decades to provide a measure of justice for Holocaust victims;

(2) supports the goal of ensuring that all Holocaust victims in the United States and around the world are able to live with dignity, comfort, and security in their remaining years;

(3) applauds the nonprofit organizations and agencies that work tirelessly to honor and assist Holocaust victims in their communities;

(4) acknowledges the ongoing process of negotiations between the Federal Republic of Germany and the Conference on Jewish Material Claims Against Germany (Claims Conference) in order to secure funding for Holocaust victims and for vital social services provided through nonprofit organizations and agencies around the world;

(5) acknowledges that the Federal Republic of Germany and the Claims Conference have established a new high-level working group that will develop proposals for extensive assistance for homecare and other social welfare needs of Holocaust victims;

(6) urges the working group to recognize the imperative of immediately and fully funding victims' medical, mental health, and long-term care needs and to do so with full transparency and accountability to ensure all funds for Holocaust victims from the Federal Republic of Germany are administered efficiently, fairly, and without delay; and

(7) urges the Federal Republic of Germany to continue to reaffirm its commitment and fulfill its moral responsibility to Holocaust victims by ensuring that every Holocaust victim receives all of the prescribed medical care, home care, mental health care, and other vital services necessary to live in dignity and by providing, without delay, additional financial resources to address the unique needs of Holocaust victims.

The SPEAKER pro tempore, Mr. WOMACK, assumed the Chair.

When Mr. HULTGREN, Acting Chairman, reported the bill back to the House with an amendment adopted by the Committee.

Pursuant to House Resolution 767, the previous question was ordered.

The following amendment, reported from the Committee of the Whole House on the state of the Union, was agreed to:

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the ''Ozone Standards Implementation Act of 2016''.

SEC. 2. FACILITATING STATE IMPLEMENTATION OF EXISTING OZONE STANDARDS.

(a) DESIGNATIONS.—

(1) DESIGNATION SUBMISSION.—Not later than October 26, 2024, notwithstanding the deadline specified in paragraph (1)(A) of section 107(d) of the Clean Air Act (42 U.S.C. 7407(d)), the Governor of each State shall designate in accordance with such section 107(d) all areas (or portions thereof) of the Governor's State as attainment, nonattainment, or unclassifiable with respect to the 2015 ozone standards.

(2) DESIGNATION PROMULGATION.—Not later than October 26, 2025, notwithstanding the deadline specified in paragraph (1)(B) of section 107(d) of the Clean Air Act (42 U.S.C. 7407(d)), the Administrator shall promulgate final designations under such section 107(d) for all areas in all States with respect to the 2015 ozone standards, including any modifications to the designations submitted under paragraph (1).

(3) STATE IMPLEMENTATION PLANS.—Not later than October 26, 2026, notwithstanding the deadline specified in section 110(a)(1) of the Clean Air Act (42 U.S.C. 7410(a)(1)), each State shall submit the plan required by such section 110(a)(1) for the 2015 ozone standards.

(b) CERTAIN PRECONSTRUCTION PERMITS.—

(1) IN GENERAL.—The 2015 ozone standards shall not apply to the review and disposition of a preconstruction permit application if—

(A) the Administrator or the State, local, or tribal permitting authority, as applicable, determines the application to be complete on or before the date of promulgation of the final designation of the area involved under subsection (a)(2); or

(B) the Administrator or the State, local, or tribal permitting authority, as applicable, publishes a public notice of a preliminary determination or draft permit for the application before the date that is 60 days after the date of promulgation of the final designation of the area involved under subsection (a)(2).

(2) RULES OF CONSTRUCTION.—Nothing in this section shall be construed to—

(A) eliminate the obligation of a preconstruction permit applicant to install best available control technology and lowest achievable emission rate technology, as applicable; or

(B) limit the authority of a State, local, or tribal permitting authority to impose more stringent emissions requirements pursuant to State, local, or tribal law than national ambient air quality standards.

SEC. 3. FACILITATING STATE IMPLEMENTATION OF NATIONAL AMBIENT AIR QUALITY STANDARDS.

(a) TIMELINE FOR REVIEW OF NATIONAL AMBIENT AIR QUALITY STANDARDS.—

(1) TEN-YEAR CYCLE FOR ALL CRITERIA AIR POLLUTANTS.—Paragraphs (1) and (2)(B) of section 109(d) of the Clean Air Act (42 U.S.C. 7409(d)) are amended by striking ''five-year intervals'' each place it appears and inserting ''10-year intervals''.

(2) CYCLE FOR NEXT REVIEW OF OZONE CRITERIA AND STANDARDS.—Notwithstanding section 109(d) of the Clean Air Act (42 U.S.C. 7409(d)), the Administrator shall not—

(A) complete, before October 26, 2025, any review of the criteria for ozone published under section 108 of such Act (42 U.S.C. 7408) or the national ambient air quality standard for ozone promulgated under section 109 of such Act (42 U.S.C. 7409); or

(B) propose, before such date, any revisions to such criteria or standard.

So the bill was passed.

A motion to reconsider the vote whereby said bill was passed was, by unanimous consent, laid on the table.

Ordered, That the Clerk request the concurrence of the Senate in said bill.

¶69.28 ORDER OF BUSINESS—VETO OF H.J. RES. 88

On motion of Mr. SESSIONS, by unanimous consent,

Ordered, That it may be in order that when a veto message on the joint resolution (H.J. Res. 88) disapproving the rule submitted by the Department of Labor relating to the definition of the term ''Fiduciary'', is laid before the House on the legislative day of today, then after the message is read and the objections of the President are spread at large upon the Journal, further consideration of the veto message and the joint resolution shall be postponed until the legislative day of Wednesday, June 22, 2016; and that on that legislative day, the House shall proceed to the constitutional question of reconsideration and dispose of such question without intervening motion.

¶69.29 MESSAGE FROM THE PRESIDENT—VETO OF H.J. RES. 88

The SPEAKER pro tempore, Mr. GRAVES of Louisiana, laid before the House a message from the President, which was read as follows:

To the House of Representatives:

I am returning herewith without my approval H.J. Res. 88, a resolution that would nullify the Department of Labor's final conflict of interest rule. This rule is critical to protecting Americans' hard-earned savings and preserving their retirement security.

The outdated regulations in place before this rulemaking did not ensure that financial advisers act in their clients, best interests when giving retirement investment advice. Instead, some firms have incentivized advisers to steer clients into products that have higher fees and lower returns—costing America's families an estimated $17 billion a year.

The Department of Labor's final rule will ensure that American workers and retirees receive retirement advice that is in their best interest, better enabling them to protect and grow their savings. The final rule reflects extensive feedback from industry, advocates, and Members of Congress, and has been streamlined to reduce the compliance burden and ensure continued access to advice, while maintaining an enforceable best interest standard that protects consumers. It is essential that these critical protections go into effect. Because this resolution seeks to block the progress represented by this rule and deny retirement savers investment advice in their best interest, I cannot support it. I am therefore vetoing this resolution.

BARACK OBAMA.

THE WHITE HOUSE, *June 8, 2016*.

The SPEAKER pro tempore, Mr. GRAVES of Louisiana, by unanimous consent, ordered that the veto message, together with the accompanying joint resolution, be printed (H. Doc. 114–140) and spread upon the pages of the Journal of the House.

The SPEAKER pro tempore, Mr. GRAVES of Louisiana, announced that, pursuant to the previous order of the House, further proceedings were postponed until the legislative day of Wednesday, June 22, 2016.

¶69.30 SAFE PIPES

Mr. DENHAM moved to suspend the rules and pass the bill of the Senate (S. 2276) to amend title 49, United States Code, to provide enhanced safety in pipeline transportation, and for other purposes; as amended.

The SPEAKER pro tempore, Mr. GRAVES of Louisiana, recognized Mr. DENHAM and Mr. CAPUANO, each for 20 minutes.

After debate,

The question being put, viva voce,

Will the House suspend the rules and pass said bill, as amended?

The SPEAKER pro tempore, Mr. GRAVES of Louisiana, announced that two-thirds of the Members present had voted in the affirmative.

So, two-thirds of the Members present having voted in favor thereof, the rules were suspended and said bill, as amended, was passed.

A motion to reconsider the vote whereby the rules were suspended and said bill, as amended, was passed was, by unanimous consent, laid on the table.

Ordered, That the Clerk request the concurrence of the Senate in said amendment.

The SPEAKER pro tempore, Mr. COSTELLO of Pennsylvania, pursuant to clause 12(a) of rule I, declared the House in recess at 7 o'clock and 46 minutes p.m., subject to the call of the Chair.

¶69.32 AFTER RECESS—10:03 P.M.

The SPEAKER pro tempore, Mr. BYRNE, called the House to order.

¶69.33 PROVIDING FOR CONSIDERATION OF H.R. 5278

Mr. WOODALL, by direction of the Committee on Rules, reported (Rept. No. 114–610) the resolution (H. Res. 770) providing for consideration of the bill (H.R. 5278) to establish an Oversight Board to assist the Government of Puerto Rico, including instrumentalities, in managing its public finances, and for other purposes.

When said resolution and report were referred to the House Calendar and ordered printed.

¶69.34 PROVIDING FOR CONSIDERATION OF H.R. 5325

Mr. WOODALL, by direction of the Committee on Rules, reported (Rept. No. 114–611) the resolution (H. Res. 771) providing for consideration of the bill (H.R. 5325) making appropriations for the Legislative Branch for the fiscal year ending September 30, 2017, and for other purposes.

When said resolution and report were referred to the House Calendar and ordered printed.

¶70.6 PROVIDING FOR CONSIDERATION OF H.R. 5278

Mr. BYRNE, by direction of the Committee on Rules, called up the following resolution (H. Res. 770):

Resolved, That at any time after adoption of this resolution the Speaker may, pursuant to clause 2(b) of rule XVIII, declare the House resolved into the Committee of the Whole House on the state of the Union for consideration of the bill (H.R. 5278) to establish an Oversight Board to assist the Government of Puerto Rico, including instrumentalities, in managing its public finances, and for other purposes. The first reading of the bill shall be dispensed with. All points of order against consideration of the bill are waived. General debate shall be confined to the bill and amendments specified in this section and shall not exceed one hour equally divided and controlled by the chair and ranking minority member of the Committee on Natural Resources. After general debate the bill shall be considered for amendment under the five-minute rule. In lieu of the amendment in the nature of a substitute recommended by the Committee on Natural Resources now printed in the bill, it shall be in order to consider as an original bill for the purpose of amendment under the five-minute rule an amendment in the nature of a substitute consisting of the text of Rules Committee Print 114-57. That amendment in the nature of a substitute shall be considered as read. All points of order against that amendment in the nature of a substitute are waived. No amendment to that amendment in the nature of a substitute shall be in order except those printed in the report of the Committee on Rules accompanying this resolution. Each such amendment may be offered only in the order printed in the report, may be offered only by a Member designated in the report, shall be considered as read, shall be debatable for the time specified in the report equally divided and controlled by the proponent and an opponent, shall not be subject to amendment, and shall not be subject to a demand for division of the question in the House or in the Committee of the Whole. All points of order against such amendments are waived. At the conclusion of consideration of the bill for amendment the Committee shall rise and report the bill to the House with such amendments as may have been adopted. Any Member may demand a separate vote in the House on any amendment adopted in the Committee of the Whole to the bill or to the amendment in the

nature of a substitute made in order as original text. The previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions.

SEC. 2. Upon passage of H.R. 5278 the House shall be considered to have: (1) stricken all after the enacting clause of S. 2328 and inserted in lieu thereof the provisions of H.R. 5278, as passed by the House; and (2) passed the Senate bill as so amended.

When said resolution was considered.

After debate,

On motion of Mr. BYRNE, the previous question was ordered on the resolution to its adoption or rejection.

The question being put, viva voce,

Will the House agree to said resolution?

The SPEAKER pro tempore, Mr. DUNCAN of Tennessee, announced that the ayes had it.

Mr. BYRNE demanded that the vote be taken by the yeas and nays, which demand was supported by one-fifth of the Members present, so the yeas and nays were ordered.

The SPEAKER pro tempore, Mr. DUNCAN of Tennessee, pursuant to clause 8 of rule XX, announced that further proceedings on the question were postponed.

¶70.7 PROVIDING FOR CONSIDERATION OF H.R. 5325

Mr. WOODALL, by direction of the Committee on Rules, called up the following resolution (H. Res. 771):

Resolved, That at any time after adoption of this resolution the Speaker may, pursuant to clause 2(b) of rule XVIII, declare the House resolved into the Committee of the Whole House on the state of the Union for consideration of the bill (H.R. 5325) making appropriations for the Legislative Branch for the fiscal year ending September 30, 2017, and for other purposes. The first reading of the bill shall be dispensed with. All points of order against consideration of the bill are waived. General debate shall be confined to the bill and shall not exceed one hour equally divided and controlled by the chair and ranking minority member of the Committee on Appropriations. After general debate the bill shall be considered for amendment under the five-minute rule. The bill shall be considered as read. All points of order against provisions in the bill for failure to comply with clause 2 of rule XXI are waived. No amendment to the bill shall be in order except those printed in the report of the Committee on Rules accompanying this resolution. Each such amendment may be offered only in the order printed in the report, may be offered only by a Member designated in the report, shall be considered as read, shall be debatable for the time specified in the report equally divided and controlled by the proponent and an opponent, shall not be subject to amendment, and shall not be subject to a demand for division of the question in the House or in the Committee of the Whole. All points of order against such amendments are waived. At the conclusion of consideration of the bill for amendment the Committee shall rise and report the bill to the House with such amendments as may have been adopted. The previous question shall be considered as ordered on the bill and amendments thereto to final passage without intervening motion except one motion to recommit with or without instructions.

SEC. 2. During consideration of H.R. 5325 pursuant to this resolution, section 3304 of Senate Concurrent Resolution 11 shall not apply.

Pending consideration of said resolution,

¶70.8 POINT OF ORDER

Mr. CASTRO of Texas, made a point of order against consideration of the resolution, and said:

''Mr. Speaker, I raise a point of order against House Resolution 771 because the resolution violates section 426(a) of the Congressional Budget Act.

''The resolution, in waiving all points of order against consideration of the bill, waives section 425 of the Congressional Budget Act, thereby causing a violation of section 426(a).''.

The SPEAKER pro tempore, Mr. DUNCAN of Tennessee, responded to the point of order, and said:

''The gentleman from Texas makes a point of order that the resolution violates section 426(a) of the Congressional Budget Act of 1974.

''The gentleman has met the threshold burden under the rule, and the gentleman from Texas and a Member opposed each will control 10 minutes of debate on the question of consideration. Following debate, the Chair will put the question of consideration as the statutory means of disposing of the point of order.''.

Mr. CASTRO of Texas, was further recognized and said:

''Mr. Speaker, this year's appropriations process has been rocky to say the least. That trend is poised to continue this evening and tomorrow as the House considers the fiscal year '17 Legislative appropriations bill.

''Buried in this bill's committee report is controversial language that forces the Library of Congress to continue using the derogatory term 'illegal alien' in its subject headings. Mr. Speaker, I will explain the background on this issue.

''Last month, the Library of Congress announced proposed changes to its subject headings that would replace the term 'aliens' with 'noncitizens' and replace the term 'illegal aliens' with 'noncitizens' and 'unauthorized immigration.'

''It is not unusual for the Library of Congress to make changes to its subject headings. In fact, each year it makes thousands of such changes. In 2015 alone, there were 4,934 new subject headings that were added. An example of one such change that the Library has made in the past was to replace the word 'Negro' with a less offensive word.

''This sort of evolution of the Library's subject headings is not unprecedented by any stretch of the imagination. However, what is unprecedented is Congress' weighing in on these changes. In fact, the Library has confirmed that this is the first time that Congress will have legislated on any of its subject headings in the history of the Library of Congress. So never before in history has Congress so much as communicated with the Library of Congress about its subject headings, let alone introduced legislation concerning them.

''With this bill, that is all about to change. House Republicans are poised to make history by—for the first time ever—interfering in the Library of Congress' subject headings process to preserve a prejudicial term.

''Now, I am not going to lump everybody on the other side of the aisle together on this issue. When this bill was marked up in the Appropriations Committee, Ranking Member WASSERMAN SCHULTZ introduced an amendment that would remove the 'alien'-related language from the legislation's committee report. In fact, four Republicans in the committee joined Democrats to vote in favor of that measure, and the amendment only failed by one vote.

''So there is bipartisan consensus on this matter, and it deserves debate and a vote in the full House of Representatives so that all of us can take a vote where, for the first time—again, this is the first time in its history—where the Congress is legislating on a subject heading of the Library of Congress, and it is to force the Library of Congress to continue using the word 'illegal alien' rather than allowing them to do their job and, as they were considering doing, retiring that term.

''Yesterday, three amendments were presented to the Rules Committee that would allow this to occur. Astoundingly, the Rules Committee rejected all three of those amendments. In other words, they would have allowed us to debate this and take a vote on it, but the Rules Committee rejected all three of these amendments, preventing a vote on this issue on the House floor.

''As I mentioned before, Mr. Speaker, the language in the committee report that has sparked this debate refers to a portion of U.S. Code that contains the term 'alien.' I have introduced legislation that would remove 'alien' from U.S. Code in instances where it refers to immigrants to this Nation. My bill, which is H.R. 3785, the CHANGE Act, would replace the terms 'alien' and 'illegal alien' in Federal law with the terms 'foreign national' and 'undocumented foreign national.'

''Let me be clear about why I am doing that. First, these folks may not be American citizens, but they are human beings. They are not people from outer space. When we think of the term 'alien,' we don't think of human beings; we think of people that are from somewhere else.

''The word 'illegal alien' has also been used oftentimes—although not by everyone—in a pejorative way, in a way that is meant to be pejorative and offensive. It stigmatizes immigrants in this Nation and diminishes the quality of discussion around immigration issues in the United States. When ugly, belittling names are used to describe groups of people, those terms can make discrimination seem okay.

''There is precedent for changing language in our laws as words' meanings evolve over time. For example, our Federal code previously used the terms

'lunatic' and 'mentally retarded.' Those words have since been taken out.

''Just last month, President Obama signed into law a bill that I believe we can all be proud of, which was introduced by my colleague, Congresswoman GRACE MENG of New York, that removes the terms 'Oriental' and 'Negro' from Federal code. It is also time for 'alien' to be added to the list of words we remove from Federal code.

''So I urge my colleagues, both Republican and Democrat, to stand up for the dignity of all people who call America home and vote in favor of the CHANGE Act.''.

Mr. WOODALL was recognized to speak to the point of order and said:

''Mr. Speaker, I understand that my friend has great passion on this issue. What I love about this Chamber is that it allows people to come and express their passions.

''But I serve on the Rules Committee. The Rules Committee has original jurisdiction of the unfunded mandate point of order, and it is designed to prevent Congress from imposing unfunded mandates—rules that we are not going to pay for—on outside institutions: State governments, local governments, and tribal governments.

''By definition, this is the legislative branch appropriations bill. It funds the Library of Congress. We are absolutely funding what this bill is asked to do. To debate the merits of the underlying language is absolutely legitimate debate. But to use this point of order, which is almost a textbook definition of what this point of order does not apply to, is a dilatory tactic, Mr. Speaker.

''I would ask that we vote to dispense with that, oppose this point of order, and get on to the underlying legislation.''.

Mr. CASTRO of Texas, was further recognized and said:

''Mr. Speaker, I would make two points. The first is that this is an unfunded mandate because the Library of Congress was already well on its way to changing this term. Now, Congress is instructing it that it cannot do that. There is no way that money is not spent in following the instruction of Congress. So I disagree with the gentleman. This is an unfunded mandate.

''To the issue itself, there was no argument from the other side that these words are pejorative, that this word is an anachronism. And, by the way, Mr. Speaker, this word is used in Federal code and applies to people who are here who are undocumented and also people who are here legally who are residents. So this is not only an issue of the undocumented. This is an issue of immigrants generally.

''I know that, over the years, ours has been a very devout nation, a nation of faith, and that includes many of the people in this body. I, for example, have had an opportunity to visit with the faith study group that meets once a week that talks about the issues of their own personal faith, their own journeys, and the work that they do for their constituents.

''As I think about my own district, which is 64 percent Hispanic in San Antonio, it is a town whose creativity, entrepreneurism, and spirit has been infused by the immigrant spirit. These are hardworking, often humble people who don't ask for much from their government, who work hard to provide for their families and who hardly ever will be heard to complain. Most of them, obviously, are documented; some are not.

''But those people who are not and those who are considered resident aliens are human beings, and I believe that our faith would tell us that God considers those folks human beings, not illegals. I don't imagine that God thinks of those people as illegal. They are fundamentally human beings, and they should be respected.

''They are not American citizens. We understand that, and there has been much debate over the last few years about passing comprehensive immigration reform or at least considering it here on the House floor. That hasn't happened yet. But I do think that each of us can at least extend some modicum of respect to these people.

''Mr. Speaker, I call on my colleagues to join me in voting for the CHANGE Act.''.

Mr. WOODALL was further recognized and said:

''Mr. Speaker, again, I applaud my friend for coming down here and speaking on the underlying bill. I think it is very important that we have the conversations that we will have on the underlying bill. But it is also important, in the name of good government, to use these points of order for the purpose these points of order were intended to be used.

''The Library of Congress cannot spend one penny except for those dollars provided in the underlying legislation. Yes, the underlying legislation has mandates for the Library of Congress, but those mandates are funded because that is the only way the Library of Congress can be funded.

''This is an incredibly important point of order, Mr. Speaker. The power that we have in this body to dictate to State, local, and tribal governments what they must do and then refuse to pay the bill is a dangerous practice that this institution recognized when it created this point of order to avoid.

''I hope my friends on both side of the aisle will continue to bring up unfunded mandates points of order when they are applicable. But I implore my colleagues: Do not take a vote to suggest that a point of order designed to prevent us from putting unfunded costs on local governments should apply when we are funding the responsibilities of the Federal Government. That perverts the intent, and it undermines our ability to use this point of order effectively in the future.

''Mr. Speaker, I urge us to allow the House to continue our business for the day. Vote 'yes' on the question of consideration of the resolution.''.

After debate,

The question being put, viva voce,

Will the House now consider the resolution?

The SPEAKER pro tempore, Mr. DUNCAN of Tennessee, announced that the ayes had it.

So the resolution was agreed to.

A motion to reconsider the vote whereby said resolution was agreed to was, by unanimous consent, laid on the table.

¶70.12 COMMUNICATION FROM THE CLERK—CERTIFICATE OF ELECTION

The SPEAKER laid before the House a communication, which was read as follows:

OFFICE OF THE CLERK,
U.S. HOUSE OF REPRESENTATIVES,
Washington, DC, June 8, 2016.

Hon. PAUL D. RYAN,
The Speaker, U.S. Capitol, House of Representatives, Washington, DC.

DEAR MR. SPEAKER: I have the honor to transmit herewith a facsimile copy of a letter received from Ms. Patricia Wolfe, Elections Administrator, State of Ohio, indicating that, according to the preliminary results of the Special Election held June 7, 2016, the Honorable Warren Davidson was elected Representative to Congress for the Eighth Congressional District, State of Ohio.

With best wishes, I am

Sincerely,

KAREN L. HAAS,
Clerk of the House.

OHIO SECRETARY OF STATE,
Columbus, Ohio, June 8, 2016.

Hon. KAREN L. HAAS,
Clerk, House of Representatives, Washington, DC.

DEAR MS. HAAS: This is to advise you that the unofficial results of the Special Election held on Tuesday, June 7, 2016, for Representative in Congress from the Eighth Congressional District of Ohio, show that Warren Davidson received 21,537 or 76.79% of the total number of votes cast for that office.

It would appear from these unofficial results that Warren Davidson was elected as Representative in Congress from the Eighth Congressional District of Ohio.

To the best of our knowledge and belief at this time, there is no contest to this election.

As soon as the official results are certified to this office by all Eighth Congressional District of Ohio boards of elections involved, an official Certificate of Election will be prepared for transmittal as required by law.

Sincerely,

PATRICIA WOLFE,
Elections Administrator.

¶70.13 ORDER OF BUSINESS—SWEARING IN OF MEMBER-ELECT

On motion of Ms. KAPTUR, by unanimous consent,

Ordered, That, notwithstanding the fact that the certificate of election of Mr. Davidson, 8th District of the State of Ohio, has not been received by the Clerk of the House of Representatives, Mr. DAVIDSON be permitted to take the oath of office as prescribed by law, there being no contest and no question with regard to his election.

Mr. DAVIDSON then presented himself at the bar of the House and took the oath of office prescribed by law.

¶70.14 WHOLE NUMBER OF THE HOUSE OF REPRESENTATIVES ADJUSTED

The SPEAKER announced, under clause 5(d) of rule XX, that, in light of the administration of the oath to Representative DAVIDSON, the whole number of the House is adjusted to 435.

(c) DEVELOPMENT, REVIEW, APPROVAL, AND CERTIFICATION OF FISCAL PLANS.—

(1) TIMING REQUIREMENT.—The Governor may not submit to the Legislature a Territory Budget under section 202 for a fiscal year unless the Oversight Board has certified the Territory Fiscal Plan for that fiscal year in accordance with this subsection, unless the Oversight Board in its sole discretion waives this requirement.

(2) FISCAL PLAN DEVELOPED BY GOVERNOR.—The Governor shall submit to the Oversight Board any proposed Fiscal Plan required by the Oversight Board by the time specified in the notice delivered under subsection (a).

(3) REVIEW BY THE OVERSIGHT BOARD.—The Oversight Board shall review any proposed Fiscal Plan to determine whether it satisfies the requirements set forth in subsection (b) and, if the Oversight Board determines in its sole discretion that the proposed Fiscal Plan—

(c) BUDGETS DEVELOPED BY GOVERNOR.—

(1) GOVERNOR'S PROPOSED BUDGETS.—The Governor shall submit to the Oversight Board proposed Budgets by the time specified in the notice delivered under subsection (a). In consultation with the Governor in accordance with the process specified in the notice delivered under subsection (a), the Oversight Board shall determine in its sole discretion whether each proposed Budget is compliant with the applicable Fiscal Plan and—

(A) if a proposed Budget is a compliant budget, the Oversight Board shall—

(i) approve the Budget; and

(ii) if the Budget is a Territory Budget, submit the Territory Budget to the Legislature; or

(B) if the Oversight Board determines that the Budget is not a compliant budget, the Oversight Board shall provide to the Governor—

The Governor may submit as many revised Budgets to the Oversight Board as the schedule established in the notice delivered under subsection (a) permits. If the Governor fails to develop a Budget that the Oversight Board determines is a compliant budget by the time specified in the notice delivered under subsection (a), the Oversight Board shall develop and submit to the Governor, in the case of an Instrumentality Budget, and to the Governor and the Legislature, in the case of a Territory Budget, a revised compliant budget.

(d) BUDGET APPROVAL BY LEGISLATURE.—

(1) LEGISLATURE ADOPTED BUDGET.—The Legislature shall submit to the Oversight Board the Territory Budget adopted by the Legislature by the time specified in the notice delivered under subsection (a). The Oversight Board shall determine whether the adopted Territory Budget is a compliant budget and—

(A) if the adopted Territory Budget is a compliant budget, the Oversight Board shall issue a compliance certification for such compliant budget pursuant to subsection (e); and

(B) if the adopted Territory Budget is not a compliant budget, the Oversight Board shall provide to the Legislature—

(ii) an opportunity to correct the violation in accordance with paragraph (2).

(2) LEGISLATURE'S REVISIONS.—The Legislature may correct any violations identified by the Oversight Board and submit a revised Territory Budget to the Oversight Board in accordance with the process established under paragraph (1) and by the time specified in the notice delivered under subsection (a). The Legislature may submit as many revised adopted Territory Budgets to the Oversight Board as the schedule established in the notice delivered under subsection (a) permits. If the Legislature fails to adopt a Territory Budget that the Oversight Board determines is a compliant budget by the time specified in the notice delivered under subsection (a), the Oversight Board shall develop a revised Territory Budget that is a compliant budget and submit it to the Governor and the Legislature.

(e) CERTIFICATION OF BUDGETS.—

(1) CERTIFICATION OF DEVELOPED AND APPROVED TERRITORY BUDGETS.—If the Governor and the Legislature develop and approve a Territory Budget that is a compliant budget by the day before the first day of the fiscal year for which the Territory Budget is being developed and in accordance with the process established under subsections (c) and (d), the Oversight Board shall issue a compliance certification to the Governor and the Legislature for such Territory Budget.

(2) CERTIFICATION OF DEVELOPED INSTRUMENTALITY BUDGETS.—If the Governor develops an Instrumentality Budget that is a compliant budget by the day before the first day of the fiscal year for which the Instrumentality Budget is being developed and in accordance with the process established under subsection (c), the Oversight Board shall issue a compliance certification to the Governor for such Instrumentality Budget.

(3) DEEMED CERTIFICATION OF TERRITORY BUDGETS.—If the Governor and the Legislature fail to develop and approve a Territory Budget that is a compliant budget by the day before the first day of the fiscal year for which the Territory Budget is being developed, the Oversight Board shall submit a Budget to the Governor and the Legislature (including any revision to the Territory Budget made by the Oversight Board pursuant to subsection (d)(2)) and such Budget shall be—

(A) deemed to be approved by the Governor and the Legislature;

(B) the subject of a compliance certification issued by the Oversight Board to the Governor and the Legislature; and

(C) in full force and effect beginning on the first day of the applicable fiscal year.

(4) DEEMED CERTIFICATION OF INSTRUMENTALITY BUDGETS.—If the Governor fails to develop an Instrumentality Budget that is a compliant budget by the day before the first day of the fiscal year for which the Instrumentality Budget is being developed, the Oversight Board shall submit an Instrumentality Budget to the Governor (including any revision to the Instrumentality Budget made by the Oversight Board pursuant to subsection (c)(2)) and such Budget shall be—

(A) deemed to be approved by the Governor;

(B) the subject of a compliance certification issued by the Oversight Board to the Governor; and

(C) in full force and effect beginning on the first day of the applicable fiscal year.

(f) JOINT DEVELOPMENT OF BUDGETS.—Notwithstanding any other provision of this section, if, in the case of a Territory Budget, the Governor, the Legislature, and the Oversight Board, or in the case of an Instrumentality Budget, the Governor and the Oversight Board, jointly develop such Budget for the fiscal year that meets the requirements under this section, and that the relevant parties certify that such budget reflects a consensus among them, then such Budget shall serve as the Budget for the territory or territorial instrumentality for that fiscal year.

SEC. 203. EFFECT OF FINDING OF NONCOMPLIANCE WITH BUDGET.

(a) SUBMISSION OF REPORTS.—Not later than 15 days after the last day of each quarter of a fiscal year (beginning with the fiscal year determined by the Oversight Board), the Governor shall submit to the Oversight Board a report, in such form as the Oversight Board may require, describing—

(1) the actual cash revenues, cash expenditures, and cash flows of the territorial government for the preceding quarter, as compared to the projected revenues, expenditures, and cash flows contained in the certified Budget for such preceding quarter; and

(2) any other information requested by the Oversight Board, which may include a balance sheet or a requirement that the Governor provide information for each covered territorial instrumentality separately.

(b) INITIAL ACTION BY OVERSIGHT BOARD.—

(1) IN GENERAL.—If the Oversight Board determines, based on reports submitted by the Governor under subsection (a), independent audits, or such other information as the Oversight Board may obtain, that the actual quarterly revenues, expenditures, or cash flows of the territorial government are not consistent with the projected revenues, expenditures, or cash flows set forth in the certified Budget for such quarter, the Oversight Board shall—

(A) require the territorial government to provide such additional information as the Oversight Board determines to be necessary to explain the inconsistency; and

(B) if the additional information provided under subparagraph (A) does not provide an explanation for the inconsistency that the Oversight Board finds reasonable and appropriate, advise the territorial government to correct the inconsistency by implementing remedial action.

(2) DEADLINES.—The Oversight Board shall establish the deadlines by which the territorial government shall meet the requirements of subparagraphs (A) and (B) of paragraph (1).

(c) CERTIFICATION.—

(1) INCONSISTENCY.—If the territorial government fails to provide additional information under subsection (b)(1)(A), or fails to correct an inconsistency under subsection (b)(1)(B), prior to the applicable deadline under subsection (b)(2), the Oversight Board shall certify to the President, the House of Representatives Committee on Natural Resources, the Senate Committee on Energy and Natural Resources, the Governor, and the Legislature that the territorial government is inconsistent with the applicable certified Budget, and shall describe the nature and amount of the inconsistency.

(2) CORRECTION.—If the Oversight Board determines that the territorial government has initiated such measures as the Oversight Board considers sufficient to correct an inconsistency certified under paragraph (1), the Oversight Board shall certify the correction to the President, the House of Representatives Committee on Natural Resources, the Senate Committee on Energy and Natural Resources, the Governor, and the Legislature.

(d) BUDGET REDUCTIONS BY OVERSIGHT BOARD.—If the Oversight Board determines that the Governor, in the case of any then-applicable certified Instrumentality Budgets, and the Governor and the Legislature, in the case of the then-applicable certified Territory Budget, have failed to correct an inconsistency identified by the Oversight Board under subsection (c), the Oversight Board shall—

(1) with respect to the territorial government, other than covered territorial instrumentalities, make appropriate reductions in nondebt expenditures to ensure that the actual quarterly revenues and expenditures for the territorial government are in compliance with the applicable certified Territory Budget or, in the case of the fiscal year in which the Oversight Board is established, the budget adopted by the Governor and the Legislature; and

(2) with respect to covered territorial instrumentalities at the sole discretion of the Oversight Board—

(A) make reductions in nondebt expenditures to ensure that the actual quarterly revenues and expenses for the covered territorial instrumentality are in compliance with the applicable certified Budget or, in the case of the fiscal year in which the Oversight Board is established, the budget adopted by the Governor and the Legislature or the covered territorial instrumentality, as applicable; or

(B)(i) institute automatic hiring freezes at the covered territorial instrumentality; and

(ii) prohibit the covered territorial instrumentality from entering into any contract or engaging in any financial or other transactions, unless the contract or transaction was previously approved by the Oversight Board.

(e) TERMINATION OF BUDGET REDUCTIONS.—The Oversight Board shall cancel the reductions, hiring freezes, or prohibition on contracts and financial transactions under subsection (d) if the Oversight Board determines that the territorial government or covered territorial instrumentality, as applicable, has initiated appropriate measures to reduce expenditures or increase revenues to ensure that the territorial government or covered territorial instrumentality is in compliance with the applicable certified Budget or, in the case of the fiscal year in which the Oversight Board is established, the budget adopted by the Governor and the Legislature.

SEC. 204. REVIEW OF ACTIVITIES TO ENSURE COMPLIANCE WITH FISCAL PLAN.

(a) SUBMISSION OF LEGISLATIVE ACTS TO OVERSIGHT BOARD.—

(1) SUBMISSION OF ACTS.—Except to the extent that the Oversight Board may provide otherwise in its bylaws, rules, and procedures, not later than 7 business days after a territorial government duly enacts any law during any fiscal year in which the Oversight Board is in operation, the Governor shall submit the law to the Oversight Board.

(2) COST ESTIMATE; CERTIFICATION OF COMPLIANCE OR NONCOMPLIANCE.—The Governor shall include with each law submitted to the Oversight Board under paragraph (1) the following:

(A) A formal estimate prepared by an appropriate entity of the territorial government with expertise in budgets and financial management of the impact, if any, that the law will have on expenditures and revenues.

(B) If the appropriate entity described in subparagraph (A) finds that the law is not significantly inconsistent with the Fiscal Plan for the fiscal year, it shall issue a certification of such finding.

(C) If the appropriate entity described in subparagraph (A) finds that the law is significantly inconsistent with the Fiscal Plan for the fiscal year, it shall issue a certification of such finding, together with the entity's reasons for such finding.

(3) NOTIFICATION.—The Oversight Board shall send a notification to the Governor and the Legislature if—

(A) the Governor submits a law to the Oversight Board under this subsection that is not accompanied by the estimate required under paragraph (2)(A);

(B) the Governor submits a law to the Oversight Board under this subsection that is not accompanied by either a certification described in paragraph (2)(B) or (2)(C); or

(C) the Governor submits a law to the Oversight Board under this subsection that is accompanied by a certification described in paragraph (2)(C) that the law is significantly inconsistent with the Fiscal Plan.

(4) OPPORTUNITY TO RESPOND TO NOTIFICATION.—

(A) FAILURE TO PROVIDE ESTIMATE OR CERTIFICATION.—After sending a notification to the Governor and the Legislature under paragraph (3)(A) or (3)(B) with respect to a law, the Oversight Board may direct the Governor to provide the missing estimate or certification (as the case may be), in accordance with such procedures as the Oversight Board may establish.

(B) SUBMISSION OF CERTIFICATION OF SIGNIFICANT INCONSISTENCY WITH FISCAL PLAN AND BUDGET.—In accordance with such procedures as the Oversight Board may establish, after sending a notification to the Governor and Legislature under paragraph (3)(C) that a law is significantly inconsistent with the Fiscal Plan, the Oversight Board shall direct the territorial government to—

(i) correct the law to eliminate the inconsistency; or

(ii) provide an explanation for the inconsistency that the Oversight Board finds reasonable and appropriate.

(5) FAILURE TO COMPLY.—If the territorial government fails to comply with a direction given by the Oversight Board under paragraph (4) with respect to a law, the Oversight Board may take such actions as it considers necessary, consistent with this Act, to ensure that the enactment or enforcement of the law will not adversely affect the territorial government's compliance with the Fiscal Plan, including preventing the enforcement or application of the law.

(6) PRELIMINARY REVIEW OF PROPOSED ACTS.—At the request of the Legislature, the Oversight Board may conduct a preliminary review of proposed legislation before the Legislature to determine whether the legislation as proposed would be consistent with the applicable Fiscal Plan under this subtitle, except that any such preliminary review shall not be binding on the Oversight Board in reviewing any law subsequently submitted under this subsection.

(b) EFFECT OF APPROVED FISCAL PLAN ON CONTRACTS, RULES, AND REGULATIONS.—

(1) TRANSPARENCY IN CONTRACTING.—The Oversight Board shall work with a covered territory's office of the comptroller or any functionally equivalent entity to promote compliance with the applicable law of any covered territory that requires agencies and instrumentalities of the territorial government to maintain a registry of all contracts executed, including amendments thereto, and to remit a copy to the office of the comptroller for inclusion in a comprehensive database available to the public. With respect to Puerto Rico, the term ''applicable law'' refers to 2 L.P.R.A. 97, as amended.

(2) AUTHORITY TO REVIEW CERTAIN CONTRACTS.—The Oversight Board may establish policies to require prior Oversight Board approval of certain contracts, including leases and contracts to a governmental entity or government-owned corporations rather than private enterprises that are proposed to be executed by the territorial government, to ensure such proposed contracts promote market competition and are not inconsistent with the approved Fiscal Plan.

(3) SENSE OF CONGRESS.—It is the sense of Congress that any policies established by the Oversight Board pursuant to paragraph (2) should be designed to make the government contracting process more effective, to increase the public's faith in this process, to make appropriate use of the Oversight Board's time and resources, to make the territorial government a facilitator and not a competitor to private enterprise, and to avoid creating any additional bureaucratic obstacles to efficient contracting.

(4) AUTHORITY TO REVIEW CERTAIN RULES, REGULATIONS, AND EXECUTIVE ORDERS.—The provisions of this paragraph shall apply with respect to a rule, regulation, or executive order proposed to be issued by the Governor (or the head of any department or agency of the territorial government) in the same manner as such provisions apply to a contract.

(5) FAILURE TO COMPLY.—If a contract, rule, regulation, or executive order fails to comply with policies established by the Oversight Board under this subsection, the Oversight Board may take such actions as it considers necessary to ensure that such contract, rule, executive order or regulation will not adversely affect the territorial government's compliance with the Fiscal Plan, including by preventing the execution or enforcement of the contract, rule, executive order or regulation.

(c) RESTRICTIONS ON BUDGETARY ADJUSTMENTS.—

(1) SUBMISSIONS OF REQUESTS TO OVERSIGHT BOARD.—If the Governor submits a request to the Legislature for the reprogramming of any amounts provided in a certified Budget, the Governor shall submit such request to the Oversight Board, which shall analyze whether the proposed reprogramming is significantly inconsistent with the Budget, and submit its analysis to the Legislature as soon as practicable after receiving the request.

(2) NO ACTION PERMITTED UNTIL ANALYSIS RECEIVED.—The Legislature shall not adopt a reprogramming, and no officer or employee of the territorial government may carry out any reprogramming, until the Oversight Board has provided the Legislature with an analysis that certifies such reprogramming will not be inconsistent with the Fiscal Plan and Budget.

(3) PROHIBITION ON ACTION UNTIL OVERSIGHT BOARD IS APPOINTED.—

(A) During the period after a territory becomes a covered territory and prior to the appointment of all members and the Chair of the Oversight Board, such covered territory shall not enact new laws that either permit the transfer of any funds or assets outside the ordinary course of business or that are inconsistent with the constitution or laws of the territory as of the date of enactment of this Act, provided that any executive or legislative action authorizing the movement of funds or assets during this time period may be subject to review and rescission by the Oversight Board upon appointment of the Oversight Board's full membership.

(B) Upon appointment of the Oversight Board's full membership, the Oversight Board may review, and in its sole discretion, rescind, any law that—

(i) was enacted during the period between, with respect to Puerto Rico, May 4, 2016; or with respect to any other territory, 45 days prior to the establishment of the Oversight Board for such territory, and the date of appointment of all members and the Chair of the Oversight Board; and

(ii) alters pre-existing priorities of creditors in a manner outside the ordinary course of business or inconsistent with the terri-

tory's constitution or the laws of the territory as of, in the case of Puerto Rico, May 4, 2016, or with respect to any other territory, 45 days prior to the establishment of the Oversight Board for such territory;
but such rescission shall only be to the extent that the law alters such priorities.

(d) IMPLEMENTATION OF FEDERAL PROGRAMS.—In taking actions under this Act, the Oversight Board shall not exercise applicable authorities to impede territorial actions taken to—

(1) comply with a court-issued consent decree or injunction, or an administrative order or settlement with a Federal agency, with respect to Federal programs;

(2) implement a federally authorized or federally delegated program;

(3) implement territorial laws, which are consistent with a certified Fiscal Plan, that execute Federal requirements and standards; or

(4) preserve and maintain federally funded mass transportation assets.

SEC. 205. RECOMMENDATIONS ON FINANCIAL STABILITY AND MANAGEMENT RESPONSIBILITY.

(a) IN GENERAL.—The Oversight Board may at any time submit recommendations to the Governor or the Legislature on actions the territorial government may take to ensure compliance with the Fiscal Plan, or to otherwise promote the financial stability, economic growth, management responsibility, and service delivery efficiency of the territorial government, including recommendations relating to—

(1) the management of the territorial government's financial affairs, including economic forecasting and multiyear fiscal forecasting capabilities, information technology, placing controls on expenditures for personnel, reducing benefit costs, reforming procurement practices, and placing other controls on expenditures;

(2) the structural relationship of departments, agencies, and independent agencies within the territorial government;

(3) the modification of existing revenue structures, or the establishment of additional revenue structures;

(4) the establishment of alternatives for meeting obligations to pay for the pensions of territorial government employees;

(5) modifications or transfers of the types of services that are the responsibility of, and are delivered by the territorial government;

(6) modifications of the types of services that are delivered by entities other than the territorial government under alternative service delivery mechanisms;

(7) the effects of the territory's laws and court orders on the operations of the territorial government;

(8) the establishment of a personnel system for employees of the territorial government that is based upon employee performance standards;

(9) the improvement of personnel training and proficiency, the adjustment of staffing levels, and the improvement of training and performance of management and supervisory personnel; and

(10) the privatization and commercialization of entities within the territorial government.

(b) RESPONSE TO RECOMMENDATIONS BY THE TERRITORIAL GOVERNMENT.—

(1) IN GENERAL.—In the case of any recommendations submitted under subsection (a) that are within the authority of the territorial government to adopt, not later than 90 days after receiving the recommendations, the Governor or the Legislature (whichever has the authority to adopt the recommendation) shall submit a statement to the Oversight Board that provides notice as to whether the territorial government will adopt the recommendations.

(2) IMPLEMENTATION PLAN REQUIRED FOR ADOPTED RECOMMENDATIONS.—If the Governor or the Legislature (whichever is applicable) notifies the Oversight Board under paragraph (1) that the territorial government will adopt any of the recommendations submitted under subsection (a), the Governor or the Legislature (whichever is applicable) shall include in the statement a written plan to implement the recommendation that includes—

(A) specific performance measures to determine the extent to which the territorial government has adopted the recommendation; and

(B) a clear and specific timetable pursuant to which the territorial government will implement the recommendation.

(3) EXPLANATIONS REQUIRED FOR RECOMMENDATIONS NOT ADOPTED.—If the Governor or the Legislature (whichever is applicable) notifies the Oversight Board under paragraph (1) that the territorial government will not adopt any recommendation submitted under subsection (a) that the territorial government has authority to adopt, the Governor or the Legislature shall include in the statement explanations for the rejection of the recommendations, and the Governor or the Legislature shall submit such statement of explanations to the President and Congress.

SEC. 206. OVERSIGHT BOARD DUTIES RELATED TO RESTRUCTURING.

(a) REQUIREMENTS FOR RESTRUCTURING CERTIFICATION.—The Oversight Board, prior to issuing a restructuring certification regarding an entity (as such term is defined in section 101 of title 11, United States Code), shall determine, in its sole discretion, that—

(2) the entity has—

(A) adopted procedures necessary to deliver timely audited financial statements; and

(B) made public draft financial statements and other information sufficient for any interested person to make an informed decision with respect to a possible restructuring;

(4)(A) no order approving a Qualifying Modification under section 601 has been entered with respect to such entity; or

(B) if an order approving a Qualifying Modification has been entered with respect to such entity, the entity is unable to make its debt payments notwithstanding the approved Qualifying Modification, in which case, all claims affected by the Qualifying Modification shall be subject to a title III case.

(b) ISSUANCE OF RESTRUCTURING CERTIFICATION.—The issuance of a restructuring certification under this section requires a vote of no fewer than 5 members of the Oversight Board in the affirmative, which shall satisfy the requirement set forth in section 302(2) of this Act.

SEC. 207. OVERSIGHT BOARD AUTHORITY RELATED TO DEBT ISSUANCE.

For so long as the Oversight Board remains in operation, no territorial government may, without the prior approval of the Oversight Board, issue debt or guarantee, exchange, modify, repurchase, redeem, or enter into similar transactions with respect to its debt.

(2) the assistance provided by the Oversight Board to the territorial government in meeting the purposes of this Act during the fiscal year;

(1) nothing in this Act shall be interpreted to limit the power of the territorial government or any territorial instrumentality to execute or modify discretionary tax abatement or similar tax relief agreements, or to enforce compliance with the terms and conditions of any discretionary tax abatement or similar tax relief agreement, to which the territorial government or any territorial instrumentality is a party; and

(2) the members and staff of the Oversight Board shall not disclose the contents of the report described in this subsection, and shall otherwise comply with all applicable territorial and Federal laws and regulations regarding the handling of confidential taxpayer information.

(c) QUARTERLY REPORTS OF CASH FLOW.—The Oversight Board, when feasible, shall report on the amount of cash flow available for the payment of debt service on all notes, bonds, debentures, credit agreements, or other instruments for money borrowed whose enforcement is subject to a stay or moratorium hereunder, together with any variance from the amount set forth in the debt sustainability analysis of the Fiscal Plan under section 201(b)(1)(I).

SEC. 209. TERMINATION OF OVERSIGHT BOARD.

An Oversight Board shall terminate upon certification by the Oversight Board that—

(c) STAY NOT OPERABLE.—The establishment of an Oversight Board for Puerto Rico in accordance with section 101 does not operate as a stay—

(1) solely under subsection (b)(1) of this section, of the continuation of, including the issuance or employment of process, of a judicial, administrative, or other action or proceeding against the Government of Puerto Rico that was commenced on or before December 18, 2015; or

(f) TERMINATION OF STAY; HEARING.—Forty-five days after a request under subsection (e)(2) for relief from the stay of any act against property of the Government of Puerto Rico under subsection (b), such stay is terminated with respect to the party in interest making such request, unless the court, after notice and a hearing, orders such stay continued in effect pending the conclusion of, or as a result of, a final hearing and determination under subsection (e)(2). A hearing under this subsection may be a preliminary hearing, or may be consolidated with the final hearing under subsection (e)(2). (g) RELIEF TO PREVENT IRREPARABLE DAMAGE.—Upon request of a party in interest, the court, with or without a hearing, shall grant such relief from the stay provided under subsection (b) as is necessary to prevent irreparable damage to the interest of an entity in property, if such interest will suffer such damage before there is an opportunity for notice and a hearing under subsection (e) or (f).

(h) ACT IN VIOLATION OF STAY IS VOID.—Any order, judgment, or decree entered in violation of this section and any act taken in violation of this section is void, and shall have no force or effect, and any person found to violate this section may be liable for damages, costs, and attorneys' fees incurred in defending any action taken in violation of this section, and the Oversight Board or the Government of Puerto Rico may seek an order from the court enforcing the provisions of this section.

(i) GOVERNMENT OF PUERTO RICO.—For purposes of this section, the term ''Government of Puerto Rico'', in addition to the definition set forth in section 5(11) of this Act, shall include—

(1) the individuals, including elected and appointed officials, directors, officers of and employees acting in their official capacity on behalf of the Government of Puerto Rico; and

(2) the Oversight Board, including the directors and officers of and employees acting in their official capacity on behalf of the Oversight Board.

(j) NO DEFAULT UNDER EXISTING CONTRACTS.—

(1) Notwithstanding any contractual provision or applicable law to the contrary and so long as a stay under this section is in effect, the holder of a Liability Claim or any other claim (as such term is defined in section 101 of title 11, United States Code) may not exercise or continue to exercise any remedy under a contract or applicable law in respect to the Government of Puerto Rico or any of its property—

(A) that is conditioned upon the financial condition of, or the commencement of a restructuring, insolvency, bankruptcy, or other proceeding (or a similar or analogous process) by, the Government of Puerto Rico, including a default or an event of default thereunder; or

(B) with respect to Liability Claims—

(i) for the non-payment of principal or interest; or

(ii) for the breach of any condition or covenant.

(2) The term ''remedy'' as used in paragraph (1) shall be interpreted broadly, and shall include any right existing in law or contract, including any right to—

(A) setoff;

(B) apply or appropriate funds;

(C) seek the appointment of a custodian (as such term is defined in section 101(11) of title 11, United States Code);

(D) seek to raise rates; or

(E) exercise control over property of the Government of Puerto Rico.

(3) Notwithstanding any contractual provision or applicable law to the contrary and so long as a stay under this section is in effect, a contract to which the Government of Puerto Rico is a party may not be terminated or modified, and any right or obligation under such contract may not be terminated or modified, solely because of a provision in such contract is conditioned on—

(A) the insolvency or financial condition of the Government of Puerto Rico at any time prior to the enactment of this Act;

(B) the adoption of a resolution or establishment of an Oversight Board pursuant to section 101 of this Act; or

(C) a default under a separate contract that is due to, triggered by, or a result of the occurrence of the events or matters in paragraph (1)(B).

(4) Notwithstanding any contractual provision to the contrary and so long as a stay under this section is in effect, a counterparty to a contract with the Government of Puerto Rico for the provision of goods and services shall, unless the Government of Puerto Rico agrees to the contrary in writing, continue to perform all obligations under, and comply with the terms of, such contract, provided that the Government of Puerto Rico is not in default under such contract other than as a result of a condition specified in paragraph (3).

(k) EFFECT.—This section does not discharge an obligation of the Government of Puerto Rico or release, invalidate, or impair any security interest or lien securing such obligation. This section does not impair or

affect the implementation of any restructuring support agreement executed by the Government of Puerto Rico to be implemented pursuant to Puerto Rico law specifically enacted for that purpose prior to the enactment of this Act or the obligation of the Government of Puerto Rico to proceed in good faith as set forth in any such agreement.

(l) PAYMENTS ON LIABILITIES.—Nothing in this section shall be construed to prohibit the Government of Puerto Rico from making any payment on any Liability when such payment becomes due during the term of the stay, and to the extent the Oversight Board, in its sole discretion, determines it is feasible, the Government of Puerto Rico shall make interest payments on outstanding indebtedness when such payments become due during the length of the stay.

(m) FINDINGS.—Congress finds the following:

(1) A combination of severe economic decline, and, at times, accumulated operating deficits, lack of financial transparency, management inefficiencies, and excessive borrowing has created a fiscal emergency in Puerto Rico.

(2) As a result of its fiscal emergency, the Government of Puerto Rico has been unable to provide its citizens with effective services.

(3) The current fiscal emergency has also affected the long-term economic stability of Puerto Rico by contributing to the accelerated outmigration of residents and businesses.

(4) A comprehensive approach to fiscal, management, and structural problems and adjustments that exempts no part of the Government of Puerto Rico is necessary, involving independent oversight and a Federal statutory authority for the Government of Puerto Rico to restructure debts in a fair and orderly process.

(5) Additionally, an immediate—but temporary—stay is essential to stabilize the region for the purposes of resolving this territorial crisis.

(A) The stay advances the best interests common to all stakeholders, including but not limited to a functioning independent Oversight Board created pursuant to this Act to determine whether to appear or intervene on behalf of the Government of Puerto Rico in any litigation that may have been commenced prior to the effectiveness or upon expiration of the stay.

(B) The stay is limited in nature and narrowly tailored to achieve the purposes of this Act, including to ensure all creditors have a fair opportunity to consensually renegotiate terms of repayment based on accurate financial information that is reviewed by an independent authority or, at a minimum, receive a recovery from the Government of Puerto Rico equal to their best possible outcome absent the provisions of this Act.

(6) Finally, the ability of the Government of Puerto Rico to obtain funds from capital markets in the future will be severely diminished without congressional action to restore its financial accountability and stability.

(n) PURPOSES.—The purposes of this section are to—

(1) provide the Government of Puerto Rico with the resources and the tools it needs to address an immediate existing and imminent crisis;

(2) allow the Government of Puerto Rico a limited period of time during which it can focus its resources on negotiating a voluntary resolution with its creditors instead of defending numerous, costly creditor lawsuits;

(3) provide an oversight mechanism to assist the Government of Puerto Rico in reforming its fiscal governance and support the implementation of potential debt restructuring;

(4) make available a Federal restructuring authority, if necessary, to allow for an orderly adjustment of all of the Government of Puerto Rico's liabilities; and

(5) benefit the lives of 3.5 million American citizens living in Puerto Rico by encouraging the Government of Puerto Rico to resolve its longstanding fiscal governance issues and return to economic growth.

(o) VOTING ON VOLUNTARY AGREEMENTS NOT STAYED.—Notwithstanding any provision in this section to the contrary, nothing in this section shall prevent the holder of a Liability Claim from voting on or consenting to a proposed modification of such Liability Claim under title VI of this Act.

The Revitalization Coordinator shall respond to the comments within 30 days of closing the coming period and make the responses publicly available.

(3) SUBMISSION TO OVERSIGHT BOARD.—Not later than 5 days after the Revitalization Coordinator has responded to the comments under paragraph (2), the Revitalization Coordinator shall submit the Critical Project Report to the Oversight Board.

(1) ESTABLISHMENT.—Not later than 60 days after the date on which the Revitalization Coordinator is appointed, the Interagency Environmental Subcommittee shall be established and shall evaluate environmental documents required under Puerto Rico law for any Critical Project within the Expedited Permitting Process established by the Revitalization Coordinator under section 503(a)(3).

(2) COMPOSITION.—The Interagency Environmental Subcommittee shall consist of the Revitalization Coordinator, and a representative selected by the Governor in consultation with the Revitalization Coordinator representing each of the following agencies: The Environmental Quality Board, the Planning Board, the Puerto Rico Department of Natural and Environmental Resources, and any other Puerto Rico Agency determined to be relevant by the Revitalization Coordinator.

(b) LENGTH OF EXPEDITED PERMITTING PROCESS.—With respect to a Puerto Rico Agency's activities related only to a Critical Project, such Puerto Rico Agency shall operate as if the Governor has declared an emergency pursuant to section 2 of Act 76 (3 L.P.R.A. 1932). Section 12 of Act 76 (3 L.P.R.A. 1942) shall not be applicable to Critical Projects. Furthermore, any transactions, processes, projects, works, or programs essential to the completion of a Critical Project shall continue to be processed and completed under such Expedited Permitting Process regardless of the termination of the Oversight Board under section 209.

The Oversight Board may take such enforcement action as necessary as provided by section 104(l).

(d) REVIEW OF LEGISLATURE ACTS.—

(e) ESTABLISHMENT OF CERTAIN TERMS AND CONDITIONS.—No Puerto Rico Agency may include in any certificate, right-of-way, permit, lease, or other authorization issued for a Critical Project any term or condition that may be permitted, but is not required, by any applicable Puerto Rico law, if the Revitalization Coordinator determines the term or condition would prevent or impair the expeditious construction, operation, or expansion of the Critical Project. The Revitalization Coordinator may request a Puerto Rico Agency to include in any certificate, right-of-way, permit, lease, or other authorization, a term or condition that may be permitted in accordance with applicable laws if the Revitalization Coordinator determines such inclusion would support the expeditious construction, operation, or expansion of any Critical Project.

(f) DISCLOSURE.—All Critical Project reports, and justifications for approval or rejection of Critical Project status, shall be made publicly available online within 5 days of receipt or completion.

SEC. 505. FEDERAL AGENCY REQUIREMENTS.

(b) FEDERAL GRANTS AND LOANS.—For each Critical Project with a pending or potential Federal grant, loan, or loan guarantee application, the Revitalization Coordinator and the relevant Point of Contact shall cooperate with each other to ensure expeditious review of such application.

(c) EXPEDITED REVIEWS AND ACTIONS OF FEDERAL AGENCIES.—All reviews conducted and actions taken by any Federal agency relating to a Critical Project shall be expedited in a manner consistent with completion of the necessary reviews and approvals by the deadlines under the Expedited Permitting Process, but in no way shall the deadlines established through the Expedited Permitting Process be binding on any Federal agency.

(15) TERRITORY GOVERNMENT ISSUER.—The term ''Territory Government Issuer'' means the Government of Puerto Rico or such covered territory for which an Oversight Board has been established pursuant to section 101.

(b) OUTSTANDING BONDS.—In determining whether holders of the requisite principal amount of Outstanding Bonds have voted in favor of, or consented to, a proposed Qualifying Modification, a Bond will be deemed not to be outstanding, and may not be counted in a vote or consent solicitation for or against a proposed Qualifying Modification, if on the record date for the proposed Qualifying Modification—

(1) Not less than one Pool shall be established for each Issuer.

(2) A Pool that contains one or more Bonds that are secured by a lien on property shall be a Secured Pool.

(3) The Administrative Supervisor shall establish Pools according to the following principles:

(A) For each Issuer that has issued multiple Bonds that are distinguished by specific provisions governing priority or security arrangements, including Bonds that have been issued as general obligations of the Territory Government Issuer to which the Territory Government Issuer pledged the full or good faith, credit, and taxing power of the Territory Government Issuer, separate Pools shall be established corresponding to the relative priority or security arrangements of each holder of Bonds against each Issuer, as applicable, provided, however, that the term ''priority'' as used in this section shall not be understood to mean differing payment or maturity dates.

(B) For each Issuer that has issued senior and subordinated Bonds, separate Pools shall be established for the senior and subordinated Bonds corresponding to the relative priority or security arrangements.

(C) For each Issuer that has issued multiple Bonds, for at least some of which a guarantee of repayment has been provided by the Territory Government Issuer, separate Pools shall be established for such guaranteed and non-guaranteed Bonds.

(D) Subject to the other requirements contained in this section, for each Issuer that has issued multiple Bonds, for at least some of which a dedicated revenue stream has been pledged for repayment, separate Pools for such Issuer shall be established as follows—

(i) for each dedicated revenue stream that has been pledged for repayment, not less than one Secured Pool for Bonds for which such revenue stream has been pledged, and separate Secured Pools shall be established for Bonds of different priority; and

(ii) not less than one Pool for all other Bonds issued by the Issuer for which a dedicated revenue stream has not been pledged for repayment.

(E) The Administrative Supervisor shall not place into separate Pools Bonds of the same Issuer that have identical rights in security or priority.

(4) Notwithstanding the preceding provisions of this subsection, solely with respect to a preexisting voluntary agreement as described in section 104(i)(3) of this Act, such voluntary agreement may classify Insured Bonds and uninsured bonds in different Pools and provide different treatment thereof so long as the preexisting voluntary agreement has been agreed to by—

(A) holders of a majority in amount of all uninsured bonds outstanding in the modified Pool; and

(B) holders (including insurers with power to vote) of a majority in amount of all Insured Bonds.

(e) AUTHORIZATION OF TERRITORY INSTRUMENTALITIES.—A covered territorial instrumentality is an Authorized Territorial Instrumentality if it has been specifically authorized to be eligible to avail itself of the procedures under this section by the Administrative Supervisor.

(f) INFORMATION DELIVERY REQUIREMENT.—Before solicitation of acceptance or rejection of a Modification under subsection (h), the Issuer shall provide to the Calculation Agent, the Information Agent, and the Administrative Supervisor, the following information—

(1) a description of the Issuer's economic and financial circumstances which are, in the Issuer's opinion, relevant to the request for the proposed Qualifying Modification, a description of the Issuer's existing debts, a description of the impact of the proposed Qualifying Modification on the territory's or its territorial instrumentalities' public debt;

(2) if the Issuer is seeking Modifications affecting any other Pools of Bonds of the Territory Government Issuer or its Authorized Territorial Instrumentalities, a description of such other Modifications;

(3) if a Fiscal Plan with respect to such Issuer has been certified, the applicable Fiscal Plan certified in accordance with section 201; and

(4) such other information as may be required under applicable securities laws.

(g) QUALIFYING MODIFICATION.—A Modification is a Qualifying Modification if one of the following processes has occurred:

(1) CONSULTATION PROCESS.—

(A) the Issuer proposing the Modification has consulted with holders of Bonds in each Pool of such Issuer prior to soliciting a vote on such Modification;

(B) each exchanging, repurchasing, converting, or substituting holder of Bonds of any series in a Pool affected by that Modification is offered the same amount of consideration per amount of principal, the same amount of consideration per amount of interest accrued but unpaid and the same amount of consideration per amount of past due interest, respectively, as that offered to each other exchanging, repurchasing, converting, or substituting holder of Bonds of any series in a Pool affected by that Modification (or, where a menu of instruments or other consideration is offered, each exchanging, repurchasing, converting, or substituting holder of Bonds of any series in a Pool affected by that Modification is offered the same amount of consideration per amount of principal, the same amount of consideration per amount of interest accrued but unpaid and the same amount of consideration per amount of past due interest, respectively, as that offered to each other exchanging, repurchasing, converting, or substituting holder of Bonds of any series in a Pool affected by that Modification electing the same option under such menu of instruments); and

(C) the Modification is certified by the Administrative Supervisor as being consistent with the requirements set forth in section 104(i)(1) and is in the best interests of the creditors and is feasible.

(2) VOLUNTARY AGREEMENT PROCESS.—The Administrative Supervisor has issued a certification that—

(A) the requirements set forth in section 104(i)(2) and section 601(g)(1)(B) have been satisfied; or

(B) the Modification is consistent with a restructuring support or similar agreement to be implemented pursuant to the law of the covered territory executed by the Issuer prior to the establishment of an Oversight Board for the relevant territory.

(h) SOLICITATION.—

(1) Upon receipt of a certification from the Administrative Supervisor under subsection (g), the Information Agent shall, if practical and except as provided in paragraph (2), submit to the holders of any Outstanding Bonds of the relevant Issuer, including holders of the right to vote such Outstanding Bonds, the information submitted by the relevant Issuer under subsection (f)(1) in order to solicit the vote of such holders to approve or reject the Qualifying Modification.

(2) If the Information Agent is unable to identify the address of holders of any Outstanding Bonds of the relevant Issuer, the Information Agent may solicit the vote or consent of such holders by—

(A) delivering the solicitation to the paying agent for any such Issuer or Depository Trust Corporation if it serves as the clearing system for any of the Issuer's Outstanding Bonds; or

(B) delivering or publishing the solicitation by whatever additional means the Information Agent, after consultation with the Issuer, deems necessary and appropriate in order to make a reasonable effort to inform holders of any Outstanding Bonds of the Issuer which may include, notice by mail, publication in electronic media, publication on a website of the Issuer, or publication in newspapers of national circulation in the United States and in a newspaper of general circulation in the territory.

(i) WHO MAY PROPOSE A MODIFICATION.—For each Issuer, a Modification may be proposed to the Administrative Supervisor by the Issuer or by one or more holders of the right to vote the Issuer's Outstanding Bonds. To the extent a Modification proposed by one or more holders of the right to vote Outstanding Bonds otherwise complies with the requirements of this title, the Administrative Supervisor may accept such Modification on behalf of the Issuer, in which case the Administrative Supervisor will instruct the Issuer to provide the information required in subsection (f).

(j) VOTING.—For each Issuer, any Qualifying Modification may be made with the affirmative vote of the holders of the right to vote at least two-thirds of the Outstanding Principal amount of the Outstanding Bonds in each Pool that have voted to approve or reject the Qualifying Modification, provided that holders of the right to vote not less than a majority of the aggregate Outstanding Principal amount of all the Outstanding Bonds in each Pool have voted to approve the Qualifying Modification. The holder of the right to vote the Outstanding Bonds that are Insured Bonds shall be the monoline insurer insuring such Insured Bond to the extent such insurer is granted the right to vote Insured Bonds for purposes of directing remedies or consenting to proposed amendments or modifications as provided in the applicable documents pursuant to which such Insured Bond was issued and insured.

(k) CALCULATION AGENT.—For the purpose of calculating the principal amount of the Bonds of any series eligible to participate in such a vote or consent solicitation and tabulating such votes or consents, the Territory Government Issuer may appoint a Calculation Agent for each Pool reasonably acceptable to the Administrative Supervisor.

(l) INFORMATION AGENT.—For the purpose of administering a vote of holders of Bonds, including the holders of the right to vote such Bonds, or seeking the consent of holder of Bonds, including the holders of the right to vote such Bonds, to a written action under this section, the Territory Government Issuer may appoint an Information Agent for each Pool reasonably acceptable to the Administrative Supervisor.

(m) BINDING EFFECT.—

(1) A Qualifying Modification will be conclusive and binding on all holders of Bonds whether or not they have given such consent, and on all future holders of those Bonds whether or not notation of such Qualifying Modification is made upon the Bonds, if—

(A) the holders of the right to vote the Outstanding Bonds in every Pool of the Issuer pursuant to subsection (j) have consented to or approved the Qualifying Modification;

(B) the Administrative Supervisor certifies that—

(i) the voting requirements of this section have been satisfied;

(ii) the Qualifying Modification complies with the requirements set forth in section 104(i)(1); and

(iii) except for such conditions that have been identified in the Qualifying Modification as being non-waivable, any conditions

on the effectiveness of the Qualifying Modification have been satisfied or, in the Administrative Supervisor's sole discretion, satisfaction of such conditions has been waived;

(C) with respect to a Bond Claim that is secured by a lien on property and with respect to which the holder of such Bond Claim has rejected or not consented to the Qualifying Modification, the holder of such Bond—

(i) retains the lien securing such Bond Claims; or

(ii) receives on account of such Bond Claim, through deferred cash payments, substitute collateral, or otherwise, at least the equivalent value of the lesser of the amount of the Bond Claim or of the collateral securing such Bond Claim; and

(D) the district court for the territory or, for any territory that does not have a district court, the United States District Court for the District of Hawaii, has, after reviewing an application submitted to it by the applicable Issuer for an order approving the Qualifying Modification, entered an order that the requirements of this section have been satisfied.

(2) Upon the entry of an order under paragraph (1)(D), the conclusive and binding Qualifying Modification shall be valid and binding on any person or entity asserting claims or other rights, including a beneficial interest (directly or indirectly, as principal, agent, counterpart, subrogee, insurer or otherwise) in respect of Bonds subject to the Qualifying Modification, any trustee, any collateral agent, any indenture trustee, any fiscal agent, and any bank that receives or holds funds related to such Bonds. All property of an Issuer for which an order has been entered under paragraph (1)(D) shall vest in the Issuer free and clear of all claims in respect of any Bonds of any other Issuer. Such Qualifying Modification will be full, final, complete, binding, and conclusive as to the territorial government Issuer, other territorial instrumentalities of the territorial government Issuer, and any creditors of such entities, and should not be subject to any collateral attack or other challenge by any such entities in any court or other forum. Other than as provided herein, the foregoing shall not prejudice the rights and claims of any party that insured the Bonds, including the right to assert claims under the Bonds as modified following any payment under the insurance policy, and no claim or right that may be asserted by any party in a capacity other than holder of a Bond affected by the Qualifying Modification shall be satisfied, released, discharged, or enjoined by this provision.

(n) JUDICIAL REVIEW.—

(1) The district court for the territory or, for any territory that does not have a district court, the United States District Court for the District of Hawaii shall have original and exclusive jurisdiction over civil actions arising under this section.

(2) Notwithstanding section 106(e), there shall be a cause of action to challenge unlawful application of this section.

(3) The district court shall nullify a Modification and any effects on the rights of the holders of Bonds resulting from such Modification if and only if the district court determines that such Modification is manifestly inconsistent with this section.

¶71.4 DETRIMENTAL CARBON TAX

Mrs. BLACK, pursuant to House Resolution 767, called up for consideration the following concurrent resolution (H. Con. Res. 89):

Whereas a carbon tax is a Federal tax on carbon released from fossil fuels;

Whereas a carbon tax will increase energy prices, including the price of gasoline, electricity, natural gas, and home heating oil;

Whereas a carbon tax will mean that families and consumers will pay more for essentials like food, gasoline, and electricity;

Whereas a carbon tax will fall hardest on the poor, the elderly, and those on fixed incomes;

Whereas a carbon tax will lead to more jobs and businesses moving overseas;

Whereas a carbon tax will lead to less economic growth;

Whereas American families will be harmed the most from a carbon tax;

Whereas, according to the Energy Information Administration, in 2011, fossil fuels share of energy consumption was 82 percent;

Whereas a carbon tax will increase the cost of every good manufactured in the United States;

Whereas a carbon tax will impose disproportionate burdens on certain industries, jobs, States, and geographic regions and would further restrict the global competitiveness of the United States;

Whereas American ingenuity has led to innovations in energy exploration and development and has increased production of domestic energy resources on private and State-owned land which has created significant job growth and private capital investment;

Whereas United States energy policy should encourage continued private sector innovation and development and not increase the existing tax burden on manufacturers;

Whereas the production of American energy resources increases the United States ability to maintain a competitive advantage in today's global economy;

Whereas a carbon tax would reduce America's global competitiveness and would encourage development abroad in countries that do not impose this exorbitant tax burden; and

Whereas the Congress and the President should focus on pro-growth solutions that encourage increased development of domestic resources: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That it is the sense of Congress that a carbon tax would be detrimental to American families and businesses, and is not in the best interest of the United States.

When said concurrent resolution was considered.

After debate,

Pursuant to House Resolution 767, the previous question was ordered.

The question being put, viva voce,

Will the House agree to said concurrent resolution?

The SPEAKER pro tempore, Mr. POE of Texas, announced that the ayes had it.

Mrs. BLACK demanded that the vote be taken by the yeas and nays, which demand was supported by one-fifth of the Members present, so the yeas and nays were ordered.

The SPEAKER pro tempore, Mr. POE of Texas, pursuant to clause 8 of rule XX, announced that further proceedings on the question were postponed.

¶71.5 OPPOSING PROPOSED TAX ON EVERY BARREL OF OIL

Mr. BOUSTANY, pursuant to House Resolution 767, called up for consideration the following concurrent resolution (H. Con. Res. 112):

Whereas raising revenue and spending money are powers reserved to Congress by the Constitution;

Whereas according to global economists, the United States oil and gas industry is currently experiencing the worst industry decline since similar commodity price collapses in the 1980s and 1990s forced oil companies to slash payrolls and dividends;

Whereas global oil production exceeds demand by more than one million barrels a day, and Iran has promised to provide an additional 500,000 barrels a day to the world market, now that several sanctions have been lifted after the recent implementation of the Joint Comprehensive Plan of Action;

Whereas the price of a barrel of oil is currently around $30, less than a third of the $90-plus it was selling for 18 months ago; which would mean the President's proposal would be equivalent to a 33.3 percent tax, making the United States Federal excise tax on oil the highest of any domestic product;

Whereas this tax could translate into as much as an additional 25 cents on a gallon of gas, when the Federal tax on gasoline is currently 18.40 cents per gallon;

Whereas the oil and gas industry accounts for significant employment and is an even more significant driver of investment spend-

ing and growth along the supply chain, ranging from aggregates to steelmaking and specialist equipment;

Whereas more than 258,000 people employed in oil and gas extraction and support activities globally, including more than 100,000 across the United States, have lost their jobs since October 2014;

Whereas every lost oil and gas job leads to an additional 3.43 jobs cut in other sectors;

Whereas that means the 114,000 job losses in the oil and gas sector wiped out an additional 391,000 jobs in other sectors last year and sliced economic growth to about 2.1 percent from 2.6 percent;

Whereas more layoffs are virtually certain in the months ahead in oil and gas production, as well as along the supply chain and in petroleum-dependent economies, as the continued price slump filters through to even less drilling activity;

Whereas the number of rigs drilling for oil and gas has fallen from over 1,900 in October 2014, to 744 at the end of November 2015, and just 619 at the end of January 2016, according to oilfield services firm Baker Hughes;

Whereas manufacturers, for example, announced 37,221 layoffs in the past 12 months;

Whereas shipments of steel in the United States—used to make oil and gas pipelines—were down 11.4 percent through the first 11 months of 2015 and the industry announced more than 12,000 layoffs during the past year, according to the American Steel and Iron Institute;

Whereas believing that oil companies will pay the fee with no effect on consumer prices requires also believing that the producers won't pass their increased cost on to refiners, who won't in turn pass their costs on to the public; in other words, requires suspending belief in basic economics;

Whereas this tax could also put American oil companies, at a competitive disadvantage with foreign oil companies, as imported oil may not face the same treatment;

Whereas the domestic midstream and downstream stages of oil and gas production will be at a competitive disadvantage to their global competitors due to a $10 higher cost for every barrel of oil;

Whereas in combination with a stronger dollar, slowing growth in international markets, and an overaccumulation of inventories through much of the economy, the oil slump is creating headwinds for manufacturers, freight firms, and the wider economy; and

Whereas the oil and natural gas industry anchors our economy in terms of jobs, economic activity, and even State and local tax revenue in a challenging price environment: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That Congress finds that—

(1) any new tax placed on the struggling oil and gas industry will further prevent growth and development throughout the sector and encourage additional layoffs; and

(2) the effect of a $10 tax on each barrel of oil sold in the United States—

(A) would raise the price of oil, and by extension gasoline; and

(B) would result in a decrease in the consumption of oil.

SEC. 2. SENSE OF CONGRESS.

It is the sense of Congress that—

(1) a new tax should not be placed on oil, and

(2) in considering future policy, Congress should carefully review the detrimental impacts of placing any new taxes on any industry that has seen a slash in jobs, revenue, and production.

When said concurrent resolution was considered.

After debate,

Pursuant to House Resolution 767, the previous question was ordered.

The question being put, viva voce,

Will the House agree to said concurrent resolution?

The SPEAKER pro tempore, Mr. WOODALL, announced that the ayes had it.

Mr. BOUSTANY demanded that the vote be taken by the yeas and nays, which demand was supported by one-fifth of the Members present, so the yeas and nays were ordered.

The SPEAKER pro tempore, Mr. WOODALL, pursuant to clause 8 of rule XX, announced that further proceedings on the question were postponed.

¶71.6 LEGISLATIVE BRANCH APPROPRIATIONS FY 2017

The SPEAKER pro tempore, Mr. WOODALL, pursuant to House Resolution 771 and rule XVIII, declared the House resolved into the Committee of the Whole House on the state of the Union for the further consideration of the bill (H.R. 5325) making appropriations for the Legislative Branch for the fiscal year ending September 30, 2017, and for other purposes.

Ms. FOXX, Acting Chairman, assumed the chair; and after some time spent therein,

The SPEAKER pro tempore, Mr. WOMACK, laid before the House a communication, which was read as follows:

OFFICE OF THE CLERK,
U.S. HOUSE OF REPRESENTATIVES,
Washington, DC, June 10, 2016.

Hon. PAUL D. RYAN,
The Speaker, U.S. Capitol, House of Representatives, Washington, DC.

DEAR MR. SPEAKER: Pursuant to the permission granted in Clause 2(h) of Rule II of the Rules of the U.S. House of Representatives, I have the honor to transmit a sealed envelope received from the White House on June 10, 2016, at 3:23 p.m., and said to contain a message from the President whereby he submits a copy of a notice filed earlier with the Federal Register continuing the emergency with respect to Belarus. Clerk of the House.

¶72.8 NATIONAL EMERGENCY WITH RESPECT TO BELARUS

The Clerk then read the message from the President, as follows:

To the Congress of the United States:

Section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)) provides for the automatic termination of a national emergency unless, within 90 days prior to the anniversary date of its declaration, the President publishes in the *Federal Register* and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent to the *Federal Register* for publication the enclosed notice stating that the national emergency with respect to the actions and policies of certain members of the Government of Belarus and other persons to undermine Belarus's democratic processes or institutions that was declared in Executive Order 13405 of June 16, 2006, is to continue in effect beyond June 16, 2016.

The actions and policies of certain members of the Government of Belarus and other persons to undermine Belarus's democratic processes or institutions, to commit human rights abuses related to political repression, and to engage in public corruption continue to pose an unusual and extraordinary threat to the national security and foreign policy of the United States. For this reason, I have determined that it is necessary to continue the national emergency declared in Executive Order 13405 with respect to Belarus.

BARACK OBAMA.

THE WHITE HOUSE, *June 10, 2016*.

¶72.16 FALUN GONG ORGAN HARVESTING

Ms. ROS-LEHTINEN moved to suspend the rules and agree to the following resolution (H. Res. 343); as amended:

Whereas when performed in accordance with ethical standards, the medical discipline of organ transplantation is one of the great achievements of modern medicine;

Whereas voluntary and informed consent is the precondition for ethical organ donation and international medical organizations state that prisoners, deprived of their freedom, are not in the position to give free consent and that the practice of sourcing organs from prisoners is a violation of ethical guidelines in medicine;

Whereas the Government of the People's Republic of China and Communist Party of

China continue to deny reports that many organs are taken without the consent of prisoners yet at the same time prevents independent verification of its transplant system;

Whereas the organ transplantation system in China does not comply with the World Health Organization's requirement of transparency and traceability in organ procurement pathways;

Whereas the United States Department of State Country Report on Human Rights for China for 2014 stated, ''Advocacy groups continued to report instances of organ harvesting from prisoners'';

Whereas Huang Jiefu, director of the China Organ Donation Committee, announced in December 2014 that China would end the practice of organ harvesting from executed prisoners by January 1, 2015, did not directly address organ harvesting from prisoners of conscience;

Whereas Falun Gong, a spiritual practice involving meditative ''qigong'' exercises and centered on the values of truthfulness, compassion, and tolerance, became immensely popular in the 1990s;

Whereas in July 1999, the Chinese Communist Party launched an intensive, nationwide persecution designed to eradicate the spiritual practice of Falun Gong, reflecting the party's long-standing intolerance of large independent civil society groups;

Whereas since 1999, hundreds of thousands of Falun Gong practitioners have been detained extra-legally in reeducation-through-labor camps, detention centers, and prisons, where torture and abuse are routine;

Whereas in many detention facilities and labor camps, Falun Gong prisoners of conscience comprise the majority of the population, and have been said to receive the longest sentences and the worst treatment;

Whereas Freedom House reported in 2015 that Falun Gong practitioners comprise the largest portion of prisoners of conscience in China, and face an elevated risk of dying or being killed in custody;

Whereas in 2006, Canadian researchers David Matas, human rights attorney, and David Kilgour, former Canadian Secretary of State for Asia-Pacific, conducted an independent investigation into allegations of organ harvesting from Falun Gong prisoners in China, and concluded that Falun Gong practitioners being killed for their organs was highly probable;

Whereas Matas and Kilgour have implicated state and party entities in illicit organ harvesting, including domestic security services and military hospitals;

Whereas researcher and journalist Ethan Gutmann published findings that Chinese security agencies began harvesting organs from members of the predominantly Muslim Uyghur ethnic minority group in the 1990s, including from Uyghur political prisoners;

Whereas the United Nations Committee Against Torture and the Special Rapporteur on Torture have expressed concern over the allegations of organ harvesting from Falun Gong prisoners, and have called on the Government of the People's Republic of China to increase accountability and transparency in the organ transplant system and punish those responsible for abuses; and

Whereas the killing of religious or political prisoners for the purpose of selling their organs for transplant is an egregious and intolerable violation of the fundamental right to life: Now, therefore, be it

Resolved, That the House of Representatives—

(1) condemns the practice of state-sanctioned forced organ harvesting in the People's Republic of China;

(2) calls on the Government of the People's Republic of China and Communist Party of China to immediately end the practice of organ harvesting from all prisoners of conscience;

(3) demands an immediate end to the 17-year persecution of the Falun Gong spiritual practice by the Government of the People's Republic of China and the Communist Party of China, and the immediate release of all Falun Gong practitioners and other prisoners of conscience;

(4) encourages the United States medical community to help raise awareness of unethical organ transplant practices in China;

(5) calls on the People's Republic of China to allow a credible, transparent, and independent investigation into organ transplant abuses; and

(6) calls on the United States Department of State to conduct a more detailed analysis on state-sanctioned organ harvesting from non-consenting prisoners of conscience in the annual Human Rights Report, and report annually to Congress on the implementation of section 232 of the Department of State Authorization Act, Fiscal Year 2003 (8 U.S.C. 1182f), barring provision of visas to Chinese and other nationals engaged in coerced organ or bodily tissue transplantation.

The SPEAKER pro tempore, Mr. RIGELL, recognized Ms. ROS-LEHTINEN and Mr. ENGEL, each for 20 minutes.

After debate,

The question being put, viva voce,

Will the House suspend the rules and agree to said resolution, as amended?

So, two-thirds of the Members present having voted in favor thereof, the rules were suspended and said resolution, as amended, was agreed to.

A motion to reconsider the vote whereby the rules were suspended and said resolution, as amended, was agreed to was, by unanimous consent, laid on the table.

¶72.17 H.R. 4939—UNFINISHED BUSINESS

The SPEAKER pro tempore, Mr. RIGELL, pursuant to clause 8 of rule XX, announced the unfinished business to be the motion to suspend the rules and pass the bill (H.R. 4939) to increase engagement with the governments of the Caribbean region, the Caribbean diaspora community in the United States, and the private sector and civil society in both the United States and the Caribbean, and for other purposes; as amended.

¶73.22 MESSAGE FROM THE PRESIDENT—NUCLEAR ENERGY AGREEMENT BETWEEN THE UNITED STATES AND NORWAY

The SPEAKER pro tempore, Mr. MOOLENAAR, laid before the House a message from the President, which was read as follows:

To the Congress of the United States:

I am pleased to transmit to the Congress, pursuant to sections 123 b. and 123 d. of the Atomic Energy Act of 1954, as amended (42 U.S.C. 2153(b), (d)) (the ''Act''), the text of a proposed Agreement for Cooperation Between the Government of the United States of America and the Government of the Kingdom of Norway Concerning Peaceful Uses of Nuclear Energy (the ''Agreement''). I am also pleased to transmit my written approval, authorization, and determination concerning the Agreement, and an unclassified Nuclear Proliferation Assessment Statement (NPAS) concerning the proposed Agreement. (In accordance with section 123 of the Act, as amended by Title XII of the Foreign Affairs Reform and Restructuring Act of 1998 (Public Law 105–277), a classified annex to the NPAS, prepared by the Secretary of State, in consultation with the Director of National Intelligence, summarizing relevant classified information, will be submitted to the Congress separately.) The joint memorandum submitted to me by the Secretaries of State and Energy and a letter from the Chairman of the Nuclear Regulatory Commission stating the views of the Commission are also enclosed. An addendum to the NPAS containing a comprehensive analysis of Norway's export control system with respect to nuclear-related matters, including interactions with other countries of proliferation concern and the actual or suspected nuclear, dual-use, or missile-related transfers to such countries, pursuant to section 102A(w) of the National Security Act of 1947 (50 U.S.C. 3024(w)), is being submitted separately by the Director of National Intelligence.

The proposed Agreement has been negotiated in accordance with the Act and other applicable law. In my judgment, it meets all applicable statutory requirements and will advance the nonproliferation and other foreign policy interests of the United States.

The proposed Agreement contains all the provisions required by section 123 a. of the Act, and provides a comprehensive framework for peaceful nuclear cooperation with Norway based on a mutual commitment to nuclear nonproliferation. It would permit the transfer of unclassified information, material, equipment (including reactors), and components for nuclear research and nuclear power production. Norway has no nuclear power program, and no current plans for establishing one, but the proposed Agreement would facilitate cooperation on such a program if Norway's plans change in the future. Norway does have an active nuclear research program and the focus of cooperation under the proposed Agreement, as under the previous agreement, is expected to be in the area of nuclear research. The proposed Agreement would not permit transfers of Restricted Data, sensitive nuclear technology, sensitive nuclear facilities or major critical components of such facilities.

The proposed Agreement would provide advance, long-term (programmatic) consent to Norway for the retransfer for storage or reprocessing of irradiated nuclear material (spent fuel) subject to the Agreement to France, the United Kingdom, or other countries or destinations as may be agreed upon in writing. The United States has given similar advance consent to various other partners, including to Norway under the previous U.S.-Norway Peaceful Nuclear Cooperation Agreement that was in force from 1984 to 2014. The proposed Agreement would give the United States the option to revoke the advance consent if it considers that it cannot be continued without a significant increase of the risk of proliferation or without jeopardizing national security.

The proposed Agreement will have a term of 30 years from the date of its entry into force, unless terminated by either party on 1 year's advance written notice. In the event of termination or expiration of the proposed Agreement, key nonproliferation conditions and controls will continue in effect as long as any material, equipment, or component subject to the proposed Agreement remains in the territory of the party concerned or under its jurisdiction or control anywhere, or until such time as the parties agree that such items are no longer usable for any nuclear activity relevant from the point of view of safeguards.

Norway is a non-nuclear-weapon State party to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT). Norway has concluded a safeguards agreement and additional protocol with the International Atomic Energy Agency. Norway is a party to the Convention on the Physical Protection of Nuclear Material, which establishes international standards of physical protection for the use, storage, and transport of nuclear material. It is also a member of the Nuclear Suppliers Group, whose non-legally binding guidelines set forth standards for the responsible export of nuclear commodities for peaceful use. A more detailed discussion of Norway's domestic civil nuclear activities and its nuclear nonproliferation policies and practices is provided in the NPAS and the NPAS classified annex submitted to the Congress separately.

I have considered the views and recommendations of the interested departments and agencies in reviewing the proposed Agreement and have determined that its performance will promote, and will not constitute an unreasonable risk to, the common defense and security. Accordingly, I have approved the proposed Agreement and authorized its execution and urge that the Congress give it favorable consideration.

This transmission shall constitute a submittal for purposes of both sections 123 b. and 123 d. of the Act. My Administration is prepared to begin immediately consultations with the Senate Foreign Relations Committee and the House Foreign Affairs Committee as provided in section 123 b. Upon completion of the 30 days of continuous session review provided for in section 123 b., the 60 days of continuous session review provided for in section 123 d. shall commence.

BARACK OBAMA.

THE WHITE HOUSE, *June 14, 2016*.

By unanimous consent, the message, together with the accompanying papers, was referred to the Committee on Foreign Affairs and ordered to be printed (H. Doc. 114–142).

¶73.23 RECESS—6:54 P.M.

¶77.28 MESSAGE FROM THE PRESIDENT—NATIONAL EMERGENCY WITH RESPECT TO THE WESTERN BALKANS

The SPEAKER pro tempore, Mr. HOLDING, laid before the House a message from the President, which was read as follows:

To the Congress of the United States:

Section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)) provides for the automatic termination of a national emergency unless, within 90 days prior to the anniversary date of its declaration, the President publishes in the *Federal Register* and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent to the *Federal Register* for publication the enclosed notice stating that the national emergency with respect to the Western Balkans that was declared in Executive Order 13219 of June 26, 2001, is to continue in effect beyond June 26, 2016.

The threat constituted by the actions of persons engaged in, or assisting, sponsoring, or supporting (i) extremist violence in the Republic of Macedonia and elsewhere in the Western Balkans region, or (ii) acts obstructing implementation of the Dayton Accords in Bosnia and Herzegovina or United Nations Security Council Resolution 1244 of June 10, 1999, in Kosovo, has not been resolved. In addition, Executive Order 13219 was amended by Executive Order 13304 of May 28, 2003, to take additional steps with respect to acts obstructing implementation of the Ohrid Framework Agreement of 2001 relating to Macedonia.

Because the acts of extremist violence and obstructionist activity outlined in these Executive Orders are hostile to U.S. interests and continue to pose an unusual and extraordinary threat to the national security and foreign policy of the United States, I have determined that it is necessary to continue the national emergency declared with respect to the Western Balkans.

BARACK OBAMA.

THE WHITE HOUSE, *June 21, 2016*.

By unanimous consent, the message, together with the accompanying papers, was referred to the Committee on Foreign Affairs and ordered to be printed (H. Doc. 114–143).

¶77.29 MESSAGE FROM THE PRESIDENT—NATIONAL EMERGENCY WITH RESPECT TO NORTH KOREA

The SPEAKER pro tempore, Mr. HOLDING, laid before the House a message from the President, which was read as follows:

To the Congress of the United States:

Section 202(d) of the National Emergencies Act (50 U.S.C. 1622(d)) provides for the automatic termination of a national emergency unless, within 90 days prior to the anniversary date of its declaration, the President publishes in the *Federal Register* and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent to the *Federal Register* for publication the enclosed notice stating that the national emergency with respect to North Korea that was declared in Executive Order 13466 of June 26, 2008, expanded in scope in Executive Order 13551 of August 30, 2010, addressed further in Executive Order 13570 of April 18, 2011, further expanded in scope in Executive Order 13687 of January 2, 2015, and under which additional steps were taken in Executive Order 13722 of March 15, 2016, is to continue in effect beyond June 26, 2016.

The existence and risk of proliferation of weapons-usable fissile material on the Korean Peninsula; the actions and policies of the Government of North Korea that destabilize the Korean Peninsula and imperil U.S. Armed Forces, allies, and trading partners in the region, including its pursuit of nuclear and missile programs; and other provocative, destabilizing, and repressive actions and policies of the Government of North Korea, continue to constitute an unusual and extraordinary threat to the national security, foreign policy, and economy of the United States. For this reason, I have determined that it is necessary to continue the national emergency with respect to North Korea.

BARACK OBAMA.

THE WHITE HOUSE, *June 21, 2016*.

By unanimous consent, the message, together with the accompanying papers, was referred to the Committee on Foreign Affairs and ordered to be printed (H. Doc. 114–144).

¶80.4 RESIGNATION AS MEMBER OF HOUSE OF REPRESENTATIVES

The SPEAKER pro tempore, Mr. POMPEO, laid before the House the following communication, which was read as follows:

CONGRESS OF THE UNITED STATES,
HOUSE OF REPRESENTATIVES,
June 23, 2016.

Hon. PAUL RYAN,
Speaker, House of Representatives, Washington, DC.

DEAR MR. SPEAKER: Upon reflection, I hereby make official my resignation from the U.S. House of Representatives effective immediately.

In my previous letter I indicated a later resignation date in order to provide for an orderly transition of my office after 21 years of service in the House. However, out of respect for the entire House Leadership, and so as not to cause a distraction from the House's work for the people, I have changed my effective date.

I am proud of the work we have accomplished during my tenure in the House, as we have passed legislation that has helped tens of millions of families. Through GEAR UP more than 12 million young people have been able to achieve their dream of a college education; hundreds of thousands of families were able to stave off foreclosure because of the Homeowner's Emergency Relief Fund; across the nation new policies at all levels of government have been established to ensure all children have access to a high-quality education as a result of the work from the Equity and Excellence Commission; local and state governments have implemented comprehensive energy efficiency policies because of the Energy Efficiency and Conservation Block Grant Program; and most importantly, millions who suffer from brain related diseases have a renewed sense of hope for a cure or treatment because of the groundbreaking work being conducted under the Fattah Neuroscience Initiative and the President's BRAIN Initiative.

As a result of my work in Congress tens of thousands of families throughout the Philadelphia region now live in affordable revitalized housing; major investments have been in the city's infrastructure; and millions of dollars have been invested in K–12 education and University research and outreach efforts.

None of my success in the Congress would have been possible without the bipartisan support of my colleagues; the hard and dedicated work of my staff; the votes of the citizens of the Second Congressional District; and the strong support of my family.

I am honored to have had the privilege to serve.

Very truly yours,

CHAKA FATTAH,
Member of Congress.
