''(a) DEVELOPMENT OF NEW INFORMATION ON CHEMICAL SUBSTANCES AND MIXTURES.—

''(1) IN GENERAL.—The Administrator may require the development of new information relating to a chemical substance or mixture in accordance with this section if the Administrator determines that the information is necessary—

''(A) to review a notice under section 5(d) or to perform a safety assessment or safety determination under section 6;

''(B) to implement a requirement imposed in a consent agreement or order issued under section 5(d)(4) or under a rule promulgated under section 6(d)(3);

''(C) pursuant to section 12(a)(4); or

''(D) at the request of the implementing authority under another Federal law, to meet the regulatory testing needs of that authority.

''(2) LIMITED TESTING FOR PRIORITIZATION PURPOSES.—

''(A) IN GENERAL.—Except as provided in subparagraph (B), the Administrator may require the development of new information for the purposes of section 4A.

''(B) PROHIBITION.—Testing required under subparagraph (A) shall not be required for the purpose of establishing or implementing a minimum information requirement.

''(C) LIMITATION.—The Administrator may require the development of new information pursuant to subparagraph (A) only if the Administrator determines that additional information is necessary to establish the priority of a chemical substance.

''(3) FORM.—The Administrator may require the development of information described in paragraph (1) or (2) by—

''(A) promulgating a rule;

''(B) entering into a testing consent agreement; or

''(C) issuing an order.

''(4) CONTENTS.—

''(A) IN GENERAL.—A rule, testing consent agreement, or order issued under this subsection shall include—

''(i) identification of the chemical substance or mixture for which testing is required;

''(ii) identification of the persons required to conduct the testing;

''(iii) test protocols and methodologies for the development of information for the chemical substance or mixture, including specific reference to any reliable nonanimal test procedures; and

''(iv) specification of the period within which individuals and entities required to conduct the testing shall submit to the Administrator the information developed in accordance with the procedures described in clause (iii).

''(B) CONSIDERATIONS.—In determining the procedures and period to be required under subparagraph (A), the Administrator shall take into consideration—

''(i) the relative costs of the various test protocols and methodologies that may be required;

''(ii) the reasonably foreseeable availability of facilities and personnel required to perform the testing; and

''(iii) the deadlines applicable to the Administrator under section 6(a).

''(5) CONSIDERATION OF FEDERAL AGENCY RECOMMENDATIONS.—The Administrator shall consider the recommendations of other Federal agencies regarding the chemical substances and mixtures to which the Administrator shall give priority consideration under this section.

''(b) STATEMENT OF NEED.—

''(1) IN GENERAL.—In promulgating a rule, entering into a testing consent agreement, or issuing an order for the development of additional information (including information on exposure or exposure potential) pursuant to this section, the Administrator shall—

''(A) identify the need intended to be met by the rule, agreement, or order;

''(B) explain why information reasonably available to the Administrator at that time is inadequate to meet that need, including a reference, as appropriate, to the information identified in paragraph (2)(B); and

''(C) explain the basis for any decision that requires the use of vertebrate animals.

''(2) EXPLANATION IN CASE OF ORDER.—

''(A) IN GENERAL.—If the Administrator issues an order under this section, the Administrator shall issue a statement providing a justification for why issuance of an order is warranted instead of promulgating a rule or entering into a testing consent agreement.

''(B) CONTENTS.—A statement described in subparagraph (A) shall contain a description of—

''(i) information that is readily accessible to the Administrator, including information submitted under any other provision of law;

''(ii) the extent to which the Administrator has obtained or attempted to obtain the information through voluntary submissions; and

''(iii) any information relied on in safety assessments for other chemical substances relevant to the chemical substances that would be the subject of the order.

''(c) REDUCTION OF TESTING ON VERTEBRATES.—

''(1) IN GENERAL.—The Administrator shall minimize, to the extent practicable, the use of vertebrate animals in testing of chemical substances or mixtures, by—

''(A) prior to making a request or adopting a requirement for testing using vertebrate animals, taking into consideration, as appropriate and to the extent practicable, reasonably available—

''(i) toxicity information;

''(ii) computational toxicology and bioinformatics;

''(iii) high-throughput screening methods and the prediction models of those methods; and

''(iv) scientifically reliable and relevant alternatives to tests on animals that would provide equivalent information;

''(B) encouraging and facilitating—

''(i) the use of integrated and tiered testing and assessment strategies;

''(ii) the use of best available science in existence on the date on which the test is conducted;

''(iii) the use of test methods that eliminate or reduce the use of animals while providing information of high scientific quality;

''(iv) the grouping of 2 or more chemical substances into scientifically appropriate categories in cases in which testing of a chemical substance would provide reliable and useful information on other chemical substances in the category;

''(v) the formation of industry consortia to jointly conduct testing to avoid unnecessary duplication of tests; and

''(vi) the submission of information from—

''(I) animal-based studies; and

''(II) emerging methods and models; and

''(2) IMPLEMENTATION OF ALTERNATIVE TESTING METHODS.—To promote the development and timely incorporation of new testing methods that are not based on vertebrate animals, the Administrator shall—

''(A) not later than 2 years after the date of enactment of the Frank R. Lautenberg Chemical Safety for the 21st Century Act, develop a strategic plan to promote the development and implementation of alternative test methods and testing strategies to generate information under this title that can reduce, refine, or replace the use of vertebrate animals, including toxicity pathway-based risk assessment, in vitro studies, systems biology, computational toxicology, bioinformatics, and high-throughput screening;

''(B) as practicable, ensure that the strategic plan developed under subparagraph (A) is reflected in the development of requirements for testing under this section;

''(C) identify in the strategic plan developed under subparagraph (A) particular alternative test methods or testing strategies that do not require new vertebrate animal testing and are scientifically reliable, relevant, and capable of providing information of equivalent scientific reliability and quality to that which would be obtained from vertebrate animal testing;

''(D) provide an opportunity for public notice and comment on the contents of the plan developed under subparagraph (A), including the criteria for considering scientific reliability, relevance, and equivalent information and the test methods and strategies identified in subparagraph (C);

''(E) beginning on the date that is 5 years after the date of enactment of the Frank R. Lautenberg Chemical Safety for the 21st Century Act and every 5 years thereafter, submit to Congress a report that describes the progress made in implementing this subsection and goals for future alternative test methods implementation;

''(F) fund and carry out research, development, performance assessment, and translational studies to accelerate the development of test methods and testing strategies that reduce, refine, or replace the use of vertebrate animals in any testing under this title; and

''(G) identify synergies with the related information requirements of other jurisdictions to minimize the potential for additional or duplicative testing.

''(3) CRITERIA FOR ADAPTING OR WAIVING ANIMAL TESTING REQUIREMENTS.—On request from a manufacturer or processor that is required to conduct testing of a chemical substance or mixture on vertebrate animals under this section, the Administrator may adapt or waive the requirement, if the Administrator determines that—

''(A) there is sufficient evidence from several independent sources of information to support a conclusion that a chemical substance or mixture has, or does not have, a particular property if the information from each individual source alone is insufficient to support the conclusion;

''(B) as a result of 1 or more physical or chemical properties of the chemical substance or mixture or other toxicokinetic considerations—

''(i) the substance cannot be absorbed; or

''(ii) testing for a specific endpoint is technically not practicable to conduct; or

''(C) a chemical substance or mixture cannot be tested in vertebrate animals at concentrations that do not result in significant pain or distress, because of physical or chemical properties of the chemical substance or mixture, such as a potential to cause severe corrosion or severe irritation to the tissues of the animal.

''(4) VOLUNTARY TESTING.—

''(A) IN GENERAL.—Any person developing information for submission under this title on a voluntary basis and not pursuant to any request or requirement by the Administrator shall first attempt to develop the information by means of an alternative or nonanimal test method or testing strategy that the Administrator has determined under paragraph (2)(C) to be scientifically reliable, relevant, and capable of providing equivalent information, before conducting new animal testing.

''(B) EFFECT OF PARAGRAPH.—Nothing in this paragraph—

''(i) requires the Administrator to review the basis on which the person is conducting testing described in subparagraph (A);

''(ii) prohibits the use of other test methods or testing strategies by any person for purposes other than developing information for submission under this title on a voluntary basis; or

''(iii) prohibits the use of other test methods or testing strategies by any person, subsequent to

the attempt to develop information using the test methods and testing strategies identified by the Administrator under paragraph (2)(C).

''(d) TESTING REQUIREMENTS.—

''(1) IN GENERAL.—The Administrator may require the development of information by—

''(A) manufacturers and processors of the chemical substance or mixture; and

''(B) persons that begin to manufacture or process the chemical substance or mixture after the effective date of the rule, testing consent agreement, or order.

''(2) DESIGNATION.—The Administrator may permit 2 or more persons identified in subparagraph (A) or (B) of paragraph (1) to designate 1 of the persons or a qualified third party—

''(A) to develop the information; and

''(B) to submit the information on behalf of the persons making the designation.

''(3) EXEMPTIONS.—

''(A) IN GENERAL.—A person otherwise subject to a rule, testing consent agreement, or order under this section may submit to the Administrator an application for an exemption on the basis that submission of information by the applicant on the chemical substance or mixture would be duplicative of—

''(i) information on the chemical substance or mixture that—

''(I) has been submitted to the Administrator pursuant to a rule, consent agreement, or order under this section; or

''(II) is being developed by a person designated under paragraph (2); or

''(ii) information on an equivalent chemical substance or mixture that—

''(I) has been submitted to the Administrator pursuant to a rule, consent agreement, or order under this section; or

''(II) is being developed by a person designated under paragraph (2).

''(B) FAIR AND EQUITABLE REIMBURSEMENT TO DESIGNEE.—

''(i) IN GENERAL.—If the Administrator accepts an application submitted under subparagraph (A), before the end of the reimbursement period described in clause (iii), the Administrator shall direct the applicant to provide to the person designated under paragraph (2) fair and equitable reimbursement, as agreed to between the applicant and the designee.

''(ii) ARBITRATION.—If the applicant and a person designated under paragraph (2) cannot reach agreement on the amount of fair and equitable reimbursement, the amount shall be determined by arbitration.

''(iii) REIMBURSEMENT PERIOD.—For the purposes of this subparagraph, the reimbursement period for any information for a chemical substance or mixture is a period—

''(I) beginning on the date the information is submitted in accordance with a rule, testing consent agreement, or order under this section; and

''(II) ending on the later of—

''(aa) 5 years after the date referred to in subclause (I); or

''(bb) the last day of the period that begins on the date referred to in subclause (I) and that is equal to the period that the Administrator determines was necessary to develop the information.

''(C) TERMINATION.—If, after granting an exemption under this paragraph, the Administrator determines that no person designated under paragraph (2) has complied with the rule, testing consent agreement, or order, the Administrator shall—

''(i) by order, terminate the exemption; and

''(ii) notify in writing each person that received an exemption of the requirements with respect to which the exemption was granted.

''(4) TIERED TESTING.—

''(A) IN GENERAL.—Except as provided in subparagraph (D), the Administrator shall employ a tiered screening and testing process, under which the results of screening-level tests or assessments of available information inform the decision as to whether 1 or more additional tests are necessary.

''(B) SCREENING-LEVEL TESTS.—

''(i) IN GENERAL.—The screening-level tests required for a chemical substance or mixture may include tests for hazard (which may include in silico, in vitro, and in vivo tests), environmental and biological fate and transport, and measurements or modeling of exposure or exposure potential, as appropriate.

''(ii) USE.—Screening-level tests shall be used—

''(I) to screen chemical substances or mixtures for potential adverse effects; and

''(II) to inform a decision of the Administrator regarding whether more complex or targeted additional testing is necessary.

''(C) ADDITIONAL TESTING.—If the Administrator determines under subparagraph (B) that additional testing is necessary to provide more definitive information for safety assessments or safety determinations, the Administrator may require more advanced tests for potential health or environmental effects or exposure potential.

''(D) ADVANCED TESTING WITHOUT SCREENING.—The Administrator may require more advanced testing without conducting screening-level testing when other information available to the Administrator justifies the advanced testing, pursuant to guidance developed by the Administrator under this section.

''(e) TRANSPARENCY.—Subject to section 14, the Administrator shall make available to the public all testing consent agreements and orders and all information submitted under this section.''.

(b) CONFORMING AMENDMENT.—Section 104(i)(5)(A) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9604(i)(5)(A)) is amended in the third sentence by inserting ''(as in effect on the day before the date of enactment of the Frank R. ''(5) POSTPONING A DECISION.—If the Administrator determines that additional information is needed to establish the priority of a chemical substance under this section, the Administrator may postpone a prioritization screening decision for a reasonable period—

''(A) to allow for the submission of additional information by an interested person and for the Administrator to evaluate the additional information; or

''(B) to require the development of information pursuant to a rule, testing consent agreement, or order issued under section 4(a)(2).

''(6) DEADLINES FOR SUBMISSION OF INFORMATION.—If the Administrator requests the development or submission of information under this section, the Administrator shall establish a deadline for submission of the information.

''(7) NOTICE AND COMMENT.—The Administrator shall—

''(A) publish, including in the Federal Register, the proposed decisions made under paragraphs (3), (4), and (5) and the basis for the decisions;

''(B) identify the information and analysis on which the decisions are based; and

''(C) provide 90 days for public comment.

''(8) REVISIONS OF PRIOR DESIGNATIONS.—

''(A) IN GENERAL.—At any time, the Administrator may revise the designation of a chemical substance as a high-priority substance or a low-priority substance based on information available to the Administrator after the date of the determination under paragraph (3) or (4).

''(B) LIMITED AVAILABILITY.—If limited availability of relevant information was a basis in the designation of a chemical substance as a high-priority substance, the Administrator shall reevaluate the prioritization screening of the chemical substance on receiving the relevant information.

''(9) OTHER INFORMATION RELEVANT TO PRIORITIZATION.—

''(A) IN GENERAL.—If, after the date of enactment of the Frank R. Lautenberg Chemical Safety for the 21st Century Act, a State proposes an administrative action or enacts a statute or takes an administrative action to prohibit or otherwise restrict the manufacturing, processing, distribution in commerce, or use of a chemical substance that the Administrator has not designated as a high-priority substance, the Governor or State agency with responsibility for implementing the statute or administrative action shall notify the Administrator.

''(B) REQUESTS FOR INFORMATION.—Following receipt of a notification provided under subparagraph (A), the Administrator may request any available information from the Governor or the State agency with respect to—

''(i) scientific evidence related to the hazards, exposures and risks of the chemical substance under the conditions of use which the statute or administrative action is intended to address;

''(ii) any State or local conditions which warranted the statute or administrative action;

''(iii) the statutory or administrative authority on which the action is based; and

''(iv) any other available information relevant to the prohibition or other restriction, including information on any alternatives considered and their hazards, exposures, and risks.

''(C) PRIORITIZATION SCREENING.—The Administrator shall conduct a prioritization screening under this subsection for all substances that—

''(i) are the subject of notifications received under subparagraph (A); and

''(ii) the Administrator determines—

''(I) are likely to have significant health or environmental impacts;

''(II) are likely to have significant impact on interstate commerce; or

''(III) have been subject to a prohibition or other restriction under a statute or administrative action in 2 or more States.

''(D) POST-PRIORITIZATION NOTICE.—If, after the date of enactment of the Frank R. Lautenberg Chemical Safety for the 21st Century Act, a State proposes or takes an administrative action or enacts a statute to prohibit or otherwise restrict the manufacturing, processing, distribution in commerce, or use of a high-priority substance, after the date on which the deadline established pursuant to subsection (a) of section 6 for completion of the safety determination under that subsection expires but before the date on which the Administrator publishes the safety determination under that subsection, the Governor or State agency with responsibility for implementing the statute or administrative action shall—

''(i) notify the Administrator; and

''(ii) provide the scientific and legal basis for the action.

''(E) AVAILABILITY TO PUBLIC.—Subject to section 14 and any applicable State law regarding the protection of confidential information provided to the State or to the Administrator, the Administrator shall make information received from a Governor or State agency under subparagraph (A) publicly available.

''(F) EFFECT OF PARAGRAPH.—Nothing in this paragraph shall preempt a State statute or administrative action, require approval of a State statute or administrative action, or apply section 15 to a State.

''(10) REVIEW.—Not less frequently than once every 5 years after the date on which the process under this subsection is established, the Administrator shall—

''(A) review the process on the basis of experience and taking into consideration resources available to efficiently and effectively screen and prioritize chemical substances; and

''(11) EFFECT.—Subject to section 18, a designation by the Administrator under this section with respect to a chemical substance shall not affect—

''(A) the manufacture, processing, distribution in commerce, use, or disposal of the chemical substance; or

''(B) the regulation of those activities.

''(c) ADDITIONAL PRIORITIES FOR SAFETY ASSESSMENTS AND DETERMINATIONS.—

''(1) REQUIREMENTS.—

''(A) IN GENERAL.—The rule promulgated under subsection (a) shall—

''(i) include a process by which a manufacturer or processor of an active chemical substance that has not been designated a high-priority substance or is not in the process of a prioritization screening by the Administrator, may request that the Administrator designate the substance as an additional priority for a safety assessment and safety determination, subject to the payment of fees pursuant to section 26(b)(3)(D);

''(ii) specify the information to be provided in such requests; and

''(iii) specify the criteria (which may include criteria identified in subsection (a)(4)) that the Administrator shall use to determine whether or not to grant such a request, which shall include whether the substance is subject to restrictions imposed by statutes enacted or administrative actions taken by 1 or more States on the manufacture, processing, distribution in commerce, or use of the substance.

''(B) PREFERENCE.—Subject to paragraph (2), in deciding whether to grant requests under this subsection the Administrator shall give a preference to requests concerning substances for which the Administrator determines that restrictions imposed by 1 or more States have the potential to have a significant impact on interstate commerce or health or the environment.

''(C) EXCEPTIONS.—Chemical substances for which requests have been granted under this subsection shall not be subject to subsection (a)(3)(A)(iii) or section 18(b).

''(2) LIMITATIONS.—In considering whether to grant a request submitted under paragraph (1), the Administrator shall ensure that—

''(A) the number of substances designated to undergo safety assessments and safety determinations under the process and criteria pursuant to paragraph (1) is not less than 25 percent, or more than 30 percent, of the cumulative number of substances designated to undergo safety assessments and safety determinations under subsections (a)(2) and (b)(3) (except that if less than 25 percent are received by the Administrator, the Administrator shall grant each request that meets the requirements of paragraph (1));

''(B) the resources allocated to conducting safety assessments and safety determinations for additional priorities designated under this subsection are proportionate to the number of such substances relative to the total number of substances currently designated to undergo safety assessments and safety determinations under this section; and

''(C) the number of additional priority requests stipulated under subparagraph (A) is in addition to the total number of high-priority substances identified under subsections (a)(2) and (b)(3).

''(3) ADDITIONAL REVIEW OF WORK PLAN CHEMICALS FOR SAFETY ASSESSMENT AND SAFETY DETERMINATION.—In the case of a request under paragraph (1) with respect to a chemical substance identified by the Administrator in the October 2014 TSCA Work Plan—

''(A) the 30-percent cap specified in paragraph (2)(A) shall not apply and the addition of Work Plan chemicals shall be at the discretion of the Administrator; and

''(B) notwithstanding paragraph (1)(C), requests for additional Work Plan chemicals under this subsection shall be considered high-priority chemicals subject to section 18(b) but not subsection (a)(3)(A)(iii).

''(4) REQUIREMENTS.—

''(A) IN GENERAL.—The public shall be provided notice and an opportunity to comment on requests submitted under this subsection.

''(B) DECISION BY ADMINISTRATOR.—Not later than 180 days after the date on which the Administrator receives a request under this subsection, the Administrator shall decide whether or not to grant the request.

''(C) ASSESSMENT AND DETERMINATION.—If the Administrator grants a request under this subsection, the safety assessment and safety determination—

''(i) shall be conducted in accordance with the deadlines and other requirements of sections 3A(i) and 6; and

''(ii) shall not be expedited or otherwise subject to special treatment relative to high-priority substances designated pursuant to subsection (b)(3) that are undergoing safety assessments and safety determinations.''.

''(B) INTEGRATION OF PRIOR POLICIES AND PROCEDURES.—As policies and procedures under section 3A and 4A are established, to the maximum extent practicable, the Administrator shall integrate the policies and procedures into ongoing safety assessments and safety determinations.

''(2) ACTIONS COMPLETED PRIOR TO COMPLETION OF POLICIES AND PROCEDURES.—Nothing in this Act requires the Administrator to revise or withdraw a completed safety assessment, safety determination, or rule solely because the action was completed prior to the completion of a policy or procedure established under section 3A or 4A, and the validity of a completed assessment, determination, or rule shall not be determined based on the content of such a policy or procedure.

''(3) NOTICE OF EXISTING INFORMATION.—

''(A) IN GENERAL.—The Administrator shall, where such information is available, take notice of existing information regarding hazard and exposure published by other Federal agencies and the National Academies and incorporate the information in safety assessments and safety determinations with the objective of increasing the efficiency of the safety assessments and safety determinations.

''(II) in the case of a ban or phase-out of the chemical substance, shall implement the ban or phase-out in as short a period as practicable;

''(III) as determined by the Administrator, may vary for different affected persons; and

''(IV) following a determination by the Administrator that compliance is technologically or economically infeasible within the timeframe specified in subclause (I), shall provide up to an additional 18 months for compliance to be mandatory;

''(iii) shall exempt replacement parts that are manufactured prior to the effective date of the rule for articles that are first manufactured prior to the effective date of the rule unless the Administrator finds the replacement parts contribute significantly to the identified risk;

''(iv) shall, in selecting among prohibitions and other restrictions, apply such prohibitions or other restrictions to an article or category of articles containing the chemical substance only to the extent necessary to address the identified risks from exposure to the chemical substance from the article or category of articles, in order to determine that the chemical substance meets the safety standard; and

''(v) shall, when the Administrator determines that the chemical substance does not meet the safety standard for a potentially exposed or susceptible population, apply prohibitions or other restrictions necessary to ensure that the substance meets the safety standard for that population.

''(B) PERSISTENT AND BIOACCUMULATIVE SUBSTANCES.—For a chemical substance the Administrator determines, with respect to persistence and bioaccumulation, scores high for 1 and either high or moderate for the other, pursuant to the TSCA Work Plan Chemicals Methods Document published by the Administrator in February 2012, the Administrator shall, in selecting among prohibitions and other restrictions that the Administrator determines are sufficient to ensure that the chemical substance meets the safety standard, reduce exposure to the substance to the maximum extent practicable.

''(C) WORKPLACE EXPOSURES.—The Administrator shall consult with the Assistant Secretary of Labor for Occupational Safety and Health before adopting any prohibition or other restriction under this subsection to address workplace exposures.

''(D) DEFINITION OF REQUIREMENT.—For the purposes of this Act, the term 'requirement' as used in this section does not displace common law.

''(3) RESTRICTIONS.—Subject to section 18, a restriction under paragraph (1) may include, as appropriate—

''(A) a requirement that a chemical substance shall be marked with, or accompanied by, clear and adequate minimum warnings and instructions with respect to use, distribution in commerce, or disposal, or any combination of those activities, with the form and content of the minimum warnings and instructions to be prescribed by the Administrator;

''(B) a requirement that manufacturers or processors of the chemical substance shall—

''(i) make and retain records of the processes used to manufacture or process the chemical substance;

''(ii) describe and apply the relevant quality control procedures followed in the manufacturing or processing of the substance; or

''(iii) monitor or conduct tests that are reasonably necessary to ensure compliance with the requirements of any rule under this subsection;

''(C) a restriction on the quantity of the chemical substance that may be manufactured, processed, or distributed in commerce;

''(D) a requirement to ban or phase out, or otherwise restrict the manufacture, processing, or distribution in commerce of the chemical substance for—

''(i) a particular use;

''(ii) a particular use at a concentration in excess of a level specified by the Administrator; or

''(iii) all uses;

''(E) a restriction on the quantity of the chemical substance that may be manufactured, processed, or distributed in commerce for—

''(H) a requirement directing manufacturers or processors of the chemical substance to give notice of the Administrator's determination under subsection (c)(1)(B) to distributors in commerce of the chemical substance and, to the extent reasonably ascertainable, to other persons in the chain of commerce in possession of the chemical substance.

''(4) ANALYSIS FOR RULEMAKING.—

''(A) CONSIDERATIONS.—In deciding which restrictions to impose under paragraph (3) as part of developing a rule under paragraph (1), the Administrator shall take into consideration, to the extent practicable based on reasonably available information, the quantifiable and nonquantifiable costs and benefits of the proposed regulatory action and of the 1 or more primary alternative regulatory actions considered by the Administrator.

''(B) ALTERNATIVES.—As part of the analysis, the Administrator shall review any 1 or more technically and economically feasible alternatives to the chemical substance that the Administrator determines are relevant to the rulemaking.

''(C) PUBLIC AVAILABILITY.—In proposing a rule under paragraph (1), the Administrator shall make publicly available any analysis conducted under this paragraph.

''(D) STATEMENT REQUIRED.—In making final a rule under paragraph (1), the Administrator shall include a statement describing how the analysis considered under subparagraph (A) was taken into account.

''(5) EXEMPTIONS.—

''(A) IN GENERAL.—The Administrator may, as part of a rule promulgated under paragraph (1) or in a separate rule, exempt 1 or more uses of a chemical substance from any restriction in a rule promulgated under paragraph (1) if the Administrator determines that—

''(i) the restriction cannot be complied with, without—

''(I) harming national security;

''(II) causing significant disruption in the national economy due to the lack of availability of a chemical substance; or

''(III) interfering with a critical or essential use for which no technically and economically feasible safer alternative is available, taking into consideration hazard and exposure; or

''(ii) the use of the chemical substance, as compared to reasonably available alternatives, provides a substantial benefit to health, the environment, or public safety.

''(C) STATEMENT REQUIRED.—In making final a rule under this paragraph, the Administrator shall include a statement describing how the analysis considered under subparagraph (B) was taken into account.

''(D) ANALYSIS IN CASE OF BAN OR PHASE-OUT.—In determining whether an exemption should be granted under this paragraph for a chemical substance for which a ban or phase-out is included in a proposed or final rule under paragraph (1), the Administrator shall take into consideration, to the extent practicable based on reasonably available information, the quantifiable and nonquantifiable costs and benefits of the 1 or more alternatives to the chemical substance the Administrator determines to be technically and economically feasible and most likely to be used in place of the chemical substance under the conditions of use.

''(E) CONDITIONS.—As part of a rule promulgated under this paragraph, the Administrator shall include conditions, including reasonable recordkeeping, monitoring, and reporting requirements, to the extent that the Administrator determines the conditions are necessary to protect health and the environment while achieving the purposes of the exemption.

''(F) DURATION.—

''(i) IN GENERAL.—The Administrator shall establish, as part of a rule under this paragraph, a time limit on any exemption for a time to be determined by the Administrator as reasonable on a case-by-case basis.

''(ii) AUTHORITY OF ADMINISTRATOR.—The Administrator, by rule, may extend, modify, or eliminate an exemption if the Administrator determines, on the basis of reasonably available information and after adequate public justification, the exemption warrants extension or is no longer necessary.

''(B) the content and form of the statements of need and agreements required under paragraphs (4), (5), and (6) of subsection (e).

''(4) CERTIFICATION.—An authorized official of a person described in paragraph (1)(A) shall certify that the statement required to assert a claim submitted pursuant to paragraph (1)(B) and any information required to substantiate a claim submitted pursuant to paragraph (2) are true and correct.

''(e) EXCEPTIONS TO PROTECTION FROM DISCLOSURE.—Information described in subsection (a)—

''(1) shall be disclosed if the information is to be disclosed to an officer or employee of the United States in connection with the official duties of the officer or employee—

''(A) under any law for the protection of health or the environment; or

''(B) for a specific law enforcement purpose;

''(2) shall be disclosed if the information is to be disclosed to a contractor of the United States and employees of that contractor—

''(A) if, in the opinion of the Administrator, the disclosure is necessary for the satisfactory performance by the contractor of a contract with the United States for the performance of work in connection with this Act; and

''(B) subject to such conditions as the Administrator may specify;

''(3) shall be disclosed if the Administrator determines that disclosure is necessary to protect health or the environment;

''(4) shall be disclosed if the information is to be disclosed to a State or political subdivision of a State, on written request, for the purpose of development, administration, or enforcement of a law, if 1 or more applicable agreements with the Administrator that are consistent with the guidance issued under subsection (d)(3)(B) ensure that the recipient will take appropriate measures, and has adequate authority, to maintain the confidentiality of the information in accordance with procedures comparable to the procedures used by the Administrator to safeguard the information;

''(5) shall be disclosed if a health or environmental professional employed by a Federal or State agency or a treating physician or nurse in a nonemergency situation provides a written statement of need and agrees to sign a written confidentiality agreement with the Administrator, subject to the conditions that—

''(A) the statement of need and confidentiality agreement are consistent with the guidance issued under subsection (d)(3)(B);

''(B) the written statement of need shall be a statement that the person has a reasonable basis to suspect that—

''(i) the information is necessary for, or will assist in—

''(I) the diagnosis or treatment of 1 or more individuals; or

''(II) responding to an environmental release or exposure; and

''(ii) 1 or more individuals being diagnosed or treated have been exposed to the chemical substance concerned, or an environmental release or exposure has occurred; and

''(C) the confidentiality agreement shall provide that the person will not use the information for any purpose other than the health or environmental needs asserted in the statement of need, except as otherwise may be authorized by the terms of the agreement or by the person submitting the information to the Administrator, except that nothing in this Act prohibits the disclosure of any such information through discovery, subpoena, other court order, or any other judicial process otherwise allowed under applicable Federal or State law;

''(6) shall be disclosed if in the event of an emergency, a treating physician, nurse, agent of a poison control center, public health or environmental official of a State or political subdivision of a State, or first responder (including any individual duly authorized by a Federal agency, State, or political subdivision of a State who is trained in urgent medical care or other emergency procedures, including a police officer, firefighter, or emergency medical technician) requests the information, subject to the conditions that—

''(A) the treating physician, nurse, agent, public health or environmental official of a State or a political subdivision of a State, or first responder shall have a reasonable basis to suspect that—

''(i) a medical or public health or environmental emergency exists;

''(ii) the information is necessary for, or will assist in, emergency or first-aid diagnosis or treatment; or

''(iii) 1 or more individuals being diagnosed or treated have likely been exposed to the chemical substance concerned, or a serious environmental release of or exposure to the chemical substance concerned has occurred;

''(B) if requested by the person submitting the information to the Administrator, the treating physician, nurse, agent, public health or environmental official of a State or a political subdivision of a State, or first responder shall, as described in paragraph (5)—

''(i) provide a written statement of need; and

''(ii) agree to sign a confidentiality agreement; and

''(C) the written confidentiality agreement or statement of need shall be submitted as soon as practicable, but not necessarily before the information is disclosed;

''(7) may be disclosed if the Administrator determines that disclosure is relevant in a proceeding under this Act, subject to the condition that the disclosure shall be made in such a manner as to preserve confidentiality to the maximum extent practicable without impairing the proceeding;

''(8) shall be disclosed if the information is to be disclosed, on written request of any duly authorized congressional committee, to that committee; or

''(9) shall be disclosed if the information is required to be disclosed or otherwise made public under any other provision of Federal law.

''(f) DURATION OF PROTECTION FROM DISCLOSURE.—

''(1) IN GENERAL.—

''(A) INFORMATION NOT SUBJECT TO TIME LIMIT FOR PROTECTION FROM DISCLOSURE.—Subject to paragraph (2), the Administrator shall protect from disclosure information described in subsection (b) that meets the requirements of subsections (a) and (d), unless—

''(i) the person that asserted the claim notifies the Administrator that the person is withdrawing the claim, in which case the Administrator shall promptly make the information available to the public; or

''(ii) the Administrator otherwise becomes aware that the information does not qualify or no longer qualifies for protection against disclosure under subsection (a), in which case the Administrator shall take any actions required under subsection (g)(2).

''(B) INFORMATION SUBJECT TO TIME LIMIT FOR PROTECTION FROM DISCLOSURE.—Subject to paragraph (2), the Administrator shall protect from disclosure information, other than information described in subsection (b), that meets the requirements of subsections (a) and (d) for a period of 10 years, unless, prior to the expiration of the period—

''(i) the person that asserted the claim notifies the Administrator that the person is withdrawing the claim, in which case the Administrator shall promptly make the information available to the public; or

''(ii) the Administrator otherwise becomes aware that the information does not qualify or

no longer qualifies for protection against disclosure under subsection (a), in which case the Administrator shall take any actions required under subsection (g)(2).

''(C) EXTENSIONS.—

''(i) IN GENERAL.—Not later than the date that is 60 days before the expiration of the period described in subparagraph (B), the Administrator shall provide to the person that asserted the claim a notice of the impending expiration of the period.

''(ii) STATEMENT.—

''(I) IN GENERAL.—Not later than the date that is 30 days before the expiration of the period described in subparagraph (B), a person reasserting the relevant claim shall submit to the Administrator a request for extension substantiating, in accordance with subsection (d)(2), the need to extend the period.

''(II) ACTION BY ADMINISTRATOR.—Not later than the date of expiration of the period described in subparagraph (B), the Administrator shall, in accordance with subsection (g)(1)(C)—

''(aa) review the request submitted under subclause (I);

''(bb) make a determination regarding whether the claim for which the request was submitted continues to meet the relevant criteria established under this section; and

''(cc)(AA) grant an extension of 10 years; or

''(BB) deny the request.

''(D) NO LIMIT ON NUMBER OF EXTENSIONS.—There shall be no limit on the number of extensions granted under subparagraph (C), if the Administrator determines that the relevant request under subparagraph (C)(ii)(I)—

''(i) establishes the need to extend the period; and

''(ii) meets the requirements established by the Administrator.

''(2) REVIEW AND RESUBSTANTIATION.—

''(A) DISCRETION OF ADMINISTRATOR.—The Administrator may review, at any time, a claim for protection of information against disclosure under subsection (a) and require any person that has claimed protection for that information, whether before, on, or after the date of enactment of the Frank R. Lautenberg Chemical Safety for the 21st Century Act, to withdraw or reassert and substantiate or resubstantiate the claim in accordance with this section—

''(i) after the chemical substance is identified as a high-priority substance under section 4A;

''(ii) for any chemical substance for which the Administrator has made a determination under section 6(c)(1)(C);

''(iii) for any inactive chemical substance identified under section 8(b)(5); or

''(iv) in limited circumstances, if the Administrator determines that disclosure of certain information currently protected from disclosure would assist the Administrator in conducting safety assessments and safety determinations under subsections (b) and (c) of section 6 or promulgating rules pursuant to section 6(d).

''(B) REVIEW REQUIRED.—The Administrator shall review a claim for protection of information against disclosure under subsection (a) and require any person that has claimed protection for that information, whether before, on, or after the date of enactment of the Frank R. Lautenberg Chemical Safety for the 21st Century Act, to withdraw or reassert and substantiate or resubstantiate the claim in accordance with this section—

''(i) as necessary to determine whether the information qualifies for an exemption from disclosure in connection with a request for information received by the Administrator under section 552 of title 5, United States Code;

''(ii) if the Administrator has a reasonable basis to believe that the information does not qualify for protection against disclosure under subsection (a); or

''(iii) for any substance for which the Administrator has made a determination under section 6(c)(1)(B).

''(C) ACTION BY RECIPIENT.—If the Administrator makes a request under subparagraph (A) or (B), the recipient of the request shall—

''(i) reassert and substantiate or resubstantiate the claim; or

''(ii) withdraw the claim.

''(D) PERIOD OF PROTECTION.—Protection from disclosure of information subject to a claim that is reviewed and approved by the Administrator under this paragraph shall be extended for a period of 10 years from the date of approval, subject to any subsequent request by the Administrator under this paragraph.

''(3) UNIQUE IDENTIFIER.—The Administrator shall—

''(A)(i) develop a system to assign a unique identifier to each specific chemical identity for which the Administrator approves a request for protection from disclosure, other than a specific chemical identity or structurally descriptive generic term; and

''(ii) apply that identifier consistently to all information relevant to the applicable chemical substance;

''(B) annually publish and update a list of chemical substances, referred to by unique identifier, for which claims to protect the specific chemical identity from disclosure have been approved, including the expiration date for each such claim;

''(C) ensure that any nonconfidential information received by the Administrator with respect to such a chemical substance during the period of protection from disclosure—

''(i) is made public; and

''(ii) identifies the chemical substance using the unique identifier; and

''(D) for each claim for protection of specific chemical identity that has been denied by the Administrator or expired, or that has been withdrawn by the submitter, provide public access to the specific chemical identity clearly linked to all nonconfidential information received by the Administrator with respect to the chemical substance.

''(g) DUTIES OF ADMINISTRATOR.—

''(1) DETERMINATION.—

''(A) IN GENERAL.—Except as provided in subsection (b), the Administrator shall, subject to subparagraph (C), not later than 90 days after the receipt of a claim under subsection (d), and not later than 30 days after the receipt of a request for extension of a claim under subsection (f), review and approve, modify, or deny the claim or request.

''(B) REASONS FOR DENIAL OR MODIFICATION.—If the Administrator denies or modifies a claim or request under subparagraph (A), the Administrator shall provide to the person that submitted the claim or request a written statement of the reasons for the denial or modification of the claim or request.

''(C) SUBSETS.—The Administrator shall—

''(i) except for claims described in subsection (b)(8), review all claims or requests under this section for the protection against disclosure of the specific identity of a chemical substance; and

''(ii) review a representative subset, comprising at least 25 percent, of all other claims or requests for protection against disclosure.

''(D) EFFECT OF FAILURE TO ACT.—The failure of the Administrator to make a decision regarding a claim or request for protection against disclosure or extension under this section shall not be the basis for denial or elimination of a claim or request for protection against disclosure.

''(2) NOTIFICATION.—

''(A) IN GENERAL.—Except as provided in subparagraph (B) and subsections (c), (e), and (f), if the Administrator denies or modifies a claim or request under paragraph (1), intends to release information pursuant to subsection (e), or promulgates a rule under section 6(d) establishing a ban or phase-out of a chemical substance, the Administrator shall notify, in writing and by certified mail, the person that submitted the claim of the intent of the Administrator to release the information.

''(B) RELEASE OF INFORMATION.—Except as provided in subparagraph (C), the Administrator shall not release information under this subsection until the date that is 30 days after the date on which the person that submitted the request receives notification under subparagraph (A).

''(C) EXCEPTIONS.—

''(i) IN GENERAL.—For information under paragraph (3) or (8) of subsection (e), the Administrator shall not release that information until the date that is 15 days after the date on which the person that submitted the claim or request receives a notification, unless the Administrator determines that release of the information is necessary to protect against an imminent and substantial harm to health or the environment, in which case no prior notification shall be necessary.

''(ii) NOTIFICATION AS SOON AS PRACTICABLE.—For information under paragraphs (4) and (6) of subsection (e), the Administrator shall notify the person that submitted the information that the information has been disclosed as soon as practicable after disclosure of the information.

''(iii) NO NOTIFICATION REQUIRED.—Notification shall not be required—

''(I) for the disclosure of information under paragraph (1), (2), (7), or (9) of subsection (e); or

''(II) for the disclosure of information for which—

''(aa) a notice under subsection (f)(1)(C)(i) was received; and

''(bb) no request was received by the Administrator on or before the date of expiration of the period for which protection from disclosure applies.

''(3) REBUTTABLE PRESUMPTION.—

''(A) IN GENERAL.—With respect to notifications provided by the Administrator under paragraph (2) with respect to information pertaining to a chemical substance subject to a rule as described in subsection (c)(3), there shall be a rebuttable presumption that the public interest in disclosing confidential information related to a chemical substance subject to a rule promulgated under section 6(d) that establishes a ban or phase-out of the manufacture, processing, or distribution in commerce of the substance outweighs the proprietary interest in maintaining the protection from disclosure of that information.

''(B) REQUEST FOR NONDISCLOSURE.—A person that receives a notification under paragraph (2) with respect to the information described in subparagraph (A) may submit to the Administrator, before the date on which the information is to be released pursuant to paragraph (2)(B), a request with supporting documentation describing why the person believes some or all of that information should not be disclosed.

''(C) DETERMINATION BY ADMINISTRATOR.—

''(i) IN GENERAL.—Not later than 30 days after the Administrator receives a request under subparagraph (B), the Administrator shall determine whether the documentation provided by the person making the request rebuts or does not rebut the presumption described in subparagraph (A), for all or a portion of the information that the person has requested not be disclosed.

''(ii) OBJECTIVE.—The Administrator shall make the determination with the objective of ensuring that information relevant to protection of health and the environment is disclosed to the maximum extent practicable.

''(D) TIMING.—Not later than 30 days after making the determination described in subparagraph (C), the Administrator shall make public the information the Administrator has determined is not to be protected from disclosure.

''(E) NO TIMELY REQUEST RECEIVED.—If the Administrator does not receive, before the date on which the information described in subparagraph (A) is to be released pursuant to paragraph (2)(B), a request pursuant to subparagraph (B), the Administrator shall promptly make public all of the information.

''(4) APPEALS.—

''(A) IN GENERAL.—If a person receives a notification under paragraph (2) and believes disclosure of the information is prohibited under subsection (a), before the date on which the infor-

mation is to be released pursuant to paragraph (2)(B), the person may bring an action to restrain disclosure of the information in—

''(i) the United States district court of the district in which the complainant resides or has the principal place of business; or

''(ii) the United States District Court for the District of Columbia.

''(B) NO DISCLOSURE.—The Administrator shall not disclose any information that is the subject of an appeal under this section before the date on which the applicable court rules on an action under subparagraph (A).

''(5) REQUEST AND NOTIFICATION SYSTEM.—The Administrator, in consultation with the Director of the Centers for Disease Control and Prevention, shall develop a request and notification system that allows for expedient and swift access to information disclosed pursuant to paragraphs (5) and (6) of subsection (e) in a format and language that is readily accessible and understandable.

''(h) CRIMINAL PENALTY FOR WRONGFUL DISCLOSURE.—

''(1) OFFICERS AND EMPLOYEES OF UNITED STATES.—

''(A) IN GENERAL.—Subject to paragraph (2), a current or former officer or employee of the United States described in subparagraph (B) shall be guilty of a misdemeanor and fined under title 18, United States Code, or imprisoned for not more than 1 year, or both.

''(B) DESCRIPTION.—A current or former officer or employee of the United States referred to in subparagraph (A) is a current or former officer or employee of the United States who—

''(i) by virtue of that employment or official position has obtained possession of, or has access to, material the disclosure of which is prohibited by subsection (a); and

''(ii) knowing that disclosure of that material is prohibited by subsection (a), willfully discloses the material in any manner to any person not entitled to receive that material.

''(2) OTHER LAWS.—Section 1905 of title 18, United States Code, shall not apply with respect to the publishing, divulging, disclosure, making known of, or making available, information reported or otherwise obtained under this Act.

''(3) CONTRACTORS.—For purposes of this subsection, any contractor of the United States that is provided information in accordance with subsection (e)(2), including any employee of that contractor, shall be considered to be an employee of the United States.

''(i) APPLICABILITY.—

''(1) IN GENERAL.—Except as otherwise provided in this section, section 8, or any other applicable Federal law, the Administrator shall have no authority—

''(A) to require the substantiation or resubstantiation of a claim for the protection from disclosure of information reported to or otherwise obtained by the Administrator under this Act before the date of enactment of the Frank R. Lautenberg Chemical Safety for the 21st Century Act; or

''(B) to impose substantiation or resubstantiation requirements under this Act that are more extensive than those required under this section.

''(2) ACTIONS PRIOR TO PROMULGATION OF RULES.—Nothing in this Act prevents the Administrator from reviewing, requiring substantiation or resubstantiation for, or approving, modifying or denying any claim for the protection from disclosure of information before the effective date of such rules applicable to those claims as the Administrator may promulgate after the date of enactment of the Frank R. Lautenberg Chemical Safety for the 21st Century Act.''.

''(a) IN GENERAL.—

''(1) ESTABLISHMENT OR ENFORCEMENT.—Except as provided in subsections (c), (d), (e), (f), and (g), and subject to paragraph (2), no State or political subdivision of a State may establish or continue to enforce any of the following:

''(A) TESTING.—A statute or administrative action to require the development of information on a chemical substance or category of substances that is reasonably likely to produce the same information required under section 4, 5, or 6 in—

''(i) a rule promulgated by the Administrator;

''(ii) a testing consent agreement entered into by the Administrator; or

''(iii) an order issued by the Administrator.

''(B) CHEMICAL SUBSTANCES FOUND TO MEET THE SAFETY STANDARD OR RESTRICTED.—A statute or administrative action to prohibit or otherwise restrict the manufacture, processing, or distribution in commerce or use of a chemical substance—

''(i) found to meet the safety standard and consistent with the scope of the determination made under section 6; or

''(ii) found not to meet the safety standard, after the effective date of the rule issued under section 6(d) for the substance, consistent with the scope of the determination made by the Administrator.

''(C) SIGNIFICANT NEW USE.—A statute or administrative action requiring the notification of a use of a chemical substance that the Administrator has specified as a significant new use and for which the Administrator has required notification pursuant to a rule promulgated under section 5.

''(2) EFFECTIVE DATE OF PREEMPTION.—Under this subsection, Federal preemption of statutes and administrative actions applicable to specific substances shall not occur until the effective date of the applicable action described in paragraph (1) taken by the Administrator.

''(b) NEW STATUTES OR ADMINISTRATIVE ACTIONS CREATING PROHIBITIONS OR OTHER RESTRICTIONS.—

''(1) IN GENERAL.—Except as provided in subsections (c), (d), (e), (f), and (g), beginning on the date on which the Administrator defines and publishes the scope of a safety assessment and safety determination under section 6(a)(2) and ending on the date on which the deadline established pursuant to section 6(a) for completion of the safety determination expires, or on the date on which the Administrator publishes the safety determination under section 6(a), whichever is earlier, no State or political subdivision of a State may establish a statute or administrative action prohibiting or restricting the manufacture, processing, distribution in commerce or use of a chemical substance that is a high-priority substance designated under section 4A.

''(2) EFFECT OF SUBSECTION.—

''(A) IN GENERAL.—This subsection does not restrict the authority of a State or political subdivision of a State to continue to enforce any statute enacted, or administrative action taken, prior to the date on which the Administrator defines and publishes the scope of a safety assessment and safety determination under section 6(a)(2).

''(B) LIMITATION.—Subparagraph (A) does not allow a State or political subdivision of a State to enforce any new prohibition or restriction under a statute or administrative action described in that subparagraph, if the prohibition or restriction is established after the date described in that subparagraph.

''(c) SCOPE OF PREEMPTION.—Federal preemption under subsections (a) and (b) of statutes and administrative actions applicable to specific substances shall apply only to—

''(1) the chemical substances or category of substances subject to a rule, order, or consent agreement under section 4;

''(2) the hazards, exposures, risks, and uses or conditions of use of such substances that are identified by the Administrator as subject to review in a safety assessment and included in the scope of the safety determination made by the Administrator for the substance, or of any rule the Administrator promulgates pursuant to section 6(d); or

''(3) the uses of such substances that the Administrator has specified as significant new uses and for which the Administrator has required notification pursuant to a rule promulgated under section 5.

''(d) EXCEPTIONS.—

''(1) NO PREEMPTION OF STATUTES AND ADMINISTRATIVE ACTIONS.—

''(A) IN GENERAL.—Nothing in this Act, nor any amendment made by this Act, nor any rule, standard of performance, safety determination, or scientific assessment implemented pursuant to this Act, shall affect the right of a State or a political subdivision of a State to adopt or enforce any rule, standard of performance, safety determination, scientific assessment, or any protection for public health or the environment that—

''(i) is adopted or authorized under the authority of any other Federal law or adopted to satisfy or obtain authorization or approval under any other Federal law;

''(ii) implements a reporting, monitoring, disclosure, or other information obligation for the chemical substance not otherwise required by the Administrator under this Act or required under any other Federal law;

''(iii) is adopted pursuant to authority under a law of the State or political subdivision of the State related to water quality, air quality, or waste treatment or disposal, except to the extent that the action—

''(I) imposes a restriction on the manufacture, processing, distribution in commerce, or use of a chemical substance; and

''(II)(aa) addresses the same hazards and exposures, with respect to the same conditions of use as are included in the scope of the safety determination pursuant to section 6, but is inconsistent with the action of the Administrator; or

''(bb) would cause a violation of the applicable action by the Administrator under section 5 or 6; or

''(iv) subject to subparagraph (B), is identical to a requirement prescribed by the Administrator.

''(B) IDENTICAL REQUIREMENTS.—

''(i) IN GENERAL.—The penalties and other sanctions applicable under a law of a State or political subdivision of a State in the event of noncompliance with the identical requirement shall be no more stringent than the penalties and other sanctions available to the Administrator under section 16 of this Act.

''(ii) PENALTIES.—In the case of an identical requirement—

''(I) a State or political subdivision of a State may not assess a penalty for a specific violation for which the Administrator has assessed an adequate penalty under section 16; and

''(II) if a State or political subdivision of a State has assessed a penalty for a specific violation, the Administrator may not assess a penalty for that violation in an amount that would cause the total of the penalties assessed for the violation by the State or political subdivision of a State and the Administrator combined to exceed the maximum amount that may be assessed for that violation by the Administrator under section 16.

''(2) APPLICABILITY TO CERTAIN RULES OR ORDERS.—Notwithstanding subsection (e)—

''(A) nothing in this section shall be construed as modifying the effect under this section, as in effect on the day before the effective date of the Frank R. Lautenberg Chemical Safety for the 21st Century Act, of any rule or order promulgated or issued under this Act prior to that effective date; and

''(B) with respect to a chemical substance or mixture for which any rule or order was promulgated or issued under section 6 prior to the effective date of the Frank R. Lautenberg Chemical Safety for the 21st Century Act with regards to manufacturing, processing, distribution in commerce, use, or disposal of a chemical substance, this section (as in effect on the day before the effective date of the Frank R. Lautenberg Chemical Safety for the 21st Century Act) shall govern the preemptive effect of any rule or order that is promulgated or issued respecting such chemical substance or mixture under section 6 of this Act after that effective date, unless the latter rule or order is with respect to a chemical substance or mixture containing a chemical substance and follows a designation of that chemical substance as a high-priority substance under subsection (b) or (c) of section 4A or as an additional priority for safety assessment and safety determination under section 4A(c).

''(e) PRESERVATION OF CERTAIN LAWS.—

''(1) IN GENERAL.—Nothing in this Act, subject to subsection (g) of this section, shall—

''(A) be construed to preempt or otherwise affect the authority of a State or political subdivision of a State to continue to enforce any action taken before August 1, 2015, under the authority of a law of the State or political subdivision of the State that prohibits or otherwise restricts manufacturing, processing, distribution in commerce, use, or disposal of a chemical substance; or

''(B) be construed to preempt or otherwise affect any action taken pursuant to a State law that was in effect on August 31, 2003.

''(2) EFFECT OF SUBSECTION.—This subsection does not affect, modify, or alter the relationship between Federal law and laws of a State or political subdivision of a State pursuant to any other Federal law.

''(f) WAIVERS.—

''(1) DISCRETIONARY EXEMPTIONS.—Upon application of a State or political subdivision of a State, the Administrator may by rule, exempt from subsection (a), under such conditions as may be prescribed in the rule, a statute or administrative action of that State or political subdivision of the State that relates to the effects of, or exposure to, a chemical substance under the conditions of use if the Administrator determines that—

''(A) compelling conditions warrant granting the waiver to protect health or the environment;

''(B) compliance with the proposed requirement of the State or political subdivision of the State would not unduly burden interstate commerce in the manufacture, processing, distribution in commerce, or use of a chemical substance;

''(C) compliance with the proposed requirement of the State or political subdivision of the State would not cause a violation of any applicable Federal law, rule, or order; and

''(D) in the judgment of the Administrator, the proposed requirement of the State or political subdivision of the State is designed to address a risk of a chemical substance, under the conditions of use, that was identified—

''(i) consistent with the best available science;

''(ii) using supporting studies conducted in accordance with sound and objective scientific practices; and

''(iii) based on the weight of the scientific evidence.

''(2) REQUIRED EXEMPTIONS.—Upon application of a State or political subdivision of a State, the Administrator shall exempt from subsection (b) a statute or administrative action of a State or political subdivision of a State that relates to the effects of exposure to a chemical substance under the conditions of use if the Administrator determines that—

''(A) compliance with the proposed requirement of the State or political subdivision of the State would not unduly burden interstate commerce in the manufacture, processing, distribution in commerce, or use of a chemical substance;

''(B) compliance with the proposed requirement of the State or political subdivision of the State would not cause a violation of any applicable Federal law, rule, or order; and

''(C) the State or political subdivision of the State has a concern about the chemical substance or use of the chemical substance based in peer-reviewed science.

''(3) DETERMINATION OF A WAIVER REQUEST.—The duty of the Administrator to grant or deny a waiver application shall be nondelegable and shall be exercised—

''(A) not later than 180 days after the date on which an application under paragraph (1) is submitted; and

''(B) not later than 110 days after the date on which an application under paragraph (2) is submitted.

''(4) FAILURE TO MAKE DETERMINATION.—If the Administrator fails to make a determination under paragraph (3)(B) during the 110-day period beginning on the date on which an application under paragraph (2) is submitted, the statute or administrative action of the State or political subdivision of the State that was the subject of the application shall not be considered to be an existing statute or administrative action for purposes of subsection (b) by reason of the failure of the Administrator to make a determination.

''(5) NOTICE AND COMMENT.—Except in the case of an application approved under paragraph (9), the application of a State or political subdivision of a State shall be subject to public notice and comment.

''(6) FINAL AGENCY ACTION.—The decision of the Administrator on the application of a State or political subdivision of a State shall be—

''(A) considered to be a final agency action; and

''(B) subject to judicial review.

''(7) DURATION OF WAIVERS.—A waiver granted under paragraph (2) or approved under paragraph (9) shall remain in effect until such time as the Administrator publishes the safety determination under section 6(a)(4).

''(8) JUDICIAL REVIEW OF WAIVERS.—Not later than 60 days after the date on which the Administrator makes a determination on an application of a State or political subdivision of a State under paragraph (1) or (2), any person may file a petition for judicial review in the United States Court of Appeals for the District of Columbia Circuit, which shall have exclusive jurisdiction over the determination.

''(9) APPROVAL.—

''(2) IMPLEMENTATION OF ALTERNATIVE TESTING METHODS.—To promote the development and timely incorporation of new scientifically valid test methods and strategies that are not based on vertebrate animals, the Administrator shall—

''(A) not later than 2 years after the date of enactment of the Frank R. Lautenberg Chemical Safety for the 21st Century Act, develop a strategic plan to promote the development and implementation of alternative test methods and strategies to reduce, refine, or replace vertebrate animal testing and provide information of equivalent or better scientific quality and relevance for assessing risks of injury to health or the environment of chemical substances or mixtures through, for example—

''(3) VOLUNTARY TESTING.—

''(A) IN GENERAL.—Any person developing information for submission under this title on a voluntary basis and not pursuant to any request or requirement by the Administrator shall first attempt to develop the information by means of an alternative test method or strategy identified by the Administrator pursuant to paragraph (2)(C), if the Administrator has identified such a test method or strategy for the development of such information, before conducting new vertebrate animal testing.

''(B) LIMITATIONS.—(i) A refund of applicable fees under subparagraph (A) shall not be made if the Administrator certifies that the submitter has not provided information required under subsection (b) or has otherwise unduly delayed the process such that the Administrator is unable to render a determination within the applicable review period.

''(ii) A failure of the Administrator to render a decision shall not be deemed to constitute a withdrawal of the notice.

''(iii) Nothing in this paragraph shall be construed as relieving the Administrator or the submitter of the notice from any requirement of this section.

''(5) ARTICLE CONSIDERATION.—The Administrator may require notification under this section for the import or processing of a chemical substance as part of an article or category of articles under paragraph (1)(A)(ii) if the Administrator makes an affirmative finding in a rule under paragraph (2) that the reasonable potential for exposure to the chemical substance through the article or category of articles subject to the rule justifies notification.'';

''(b) RISK EVALUATIONS.—

''(1) PRIORITIZATION FOR RISK EVALUATIONS.—

''(A) ESTABLISHMENT OF PROCESS.—Not later than 1 year after the date of enactment of the Frank R. Lautenberg Chemical Safety for the 21st Century Act, the Administrator shall establish, by rule, a risk-based screening process, including criteria for designating chemical substances as high-priority substances for risk evaluations or low-priority substances for which risk evaluations are not warranted at the time. The process to designate the priority of chemical substances shall include a consideration of the hazard and exposure potential of a chemical substance or a category of chemical substances (including consideration of persistence and bioaccumulation, potentially exposed or susceptible subpopulations and storage near significant sources of drinking water), the conditions of use or significant changes in the conditions of use of the chemical substance, and the volume or significant changes in the volume of the chemical substance manufactured or processed.

''(B) IDENTIFICATION OF PRIORITIES FOR RISK EVALUATION.—

''(i) HIGH-PRIORITY SUBSTANCES.—The Administrator shall designate as a high-priority substance a chemical substance that the Administrator concludes, without consideration of costs or other nonrisk factors, may present an unreasonable risk of injury to health or the environment because of a potential hazard and a potential route of exposure under the conditions of use, including an unreasonable risk to a potentially exposed or susceptible subpopulation identified as relevant by the Administrator.

''(ii) LOW-PRIORITY SUBSTANCES.—The Administrator shall designate a chemical substance as a low-priority substance if the Administrator concludes, based on information sufficient to establish, without consideration of costs or other nonrisk factors, that such substance does not meet the standard identified in clause (i) for designating a chemical substance a high-priority substance.

''(C) INFORMATION REQUEST AND REVIEW AND PROPOSED AND FINAL PRIORITIZATION DESIGNATION.—The rulemaking required in subparagraph (A) shall ensure that the time required to make a priority designation of a chemical substance be no shorter than nine months and no longer than 1 year, and that the process for such designations includes—

''(i) a requirement that the Administrator request interested persons to submit relevant information on a chemical substance that the Administrator has initiated the prioritization process on, before proposing a priority designation for the chemical substance, and provide 90 days for such information to be provided;

''(ii) a requirement that the Administrator publish each proposed designation of a chemical substance as a high- or low-priority substance, along with an identification of the information, analysis, and basis used to make the proposed designations, and provide 90 days for public comment on each such proposed designation; and

''(iii) a process by which the Administrator may extend the deadline in clause (i) for up to three months in order to receive or evaluate information required to be submitted in accordance with section 4(a)(2)(B), subject to the limitation that if the information available to the Administrator at the end of such an extension remains insufficient to enable the designation of the chemical substance as a low-priority substance, the Administrator shall designate the chemical substance as a high-priority substance.

''(2) INITIAL RISK EVALUATIONS AND SUBSEQUENT DESIGNATIONS OF HIGH- AND LOW-PRIORITY SUBSTANCES.—

''(A) INITIAL RISK EVALUATIONS.—Not later than 180 days after the date of enactment of the Frank R. Lautenberg Chemical Safety for the 21st Century Act, the Administrator shall ensure that risk evaluations are being conducted on 10 chemical substances drawn from the 2014 update of the TSCA Work Plan for Chemical Assessments and shall publish the list of such chemical substances during the 180 day period.

''(B) ADDITIONAL RISK EVALUATIONS.—Not later than three and one half years after the date of enactment of the Frank R. Lautenberg Chemical Safety for the 21st Century Act, the Administrator shall ensure that risk evaluations are being conducted on at least 20 high-priority substances and that at least 20 chemical substances have been designated as low-priority substances, subject to the limitation that at least 50 percent of all chemical substances on which risk evaluations are being conducted by the Administrator are drawn from the 2014 update of the TSCA Work Plan for Chemical Assessments.

''(C) CONTINUING DESIGNATIONS AND RISK EVALUATIONS.—The Administrator shall continue to designate priority substances and conduct risk evaluations in accordance with this subsection at a pace consistent with the ability of the Administrator to complete risk evaluations in accordance with the deadlines under paragraph (4)(G).

''(D) PREFERENCE.—In designating high-priority substances, the Administrator shall give preference to—

''(i) chemical substances that are listed in the 2014 update of the TSCA Work Plan for Chemical Assessments as having a Persistence and Bioaccumulation Score of 3; and

''(ii) chemical substances that are listed in the 2014 update of the TSCA Work Plan for Chemical Assessments that are known human carcinogens and have high acute and chronic toxicity.

''(E) METALS AND METAL COMPOUNDS.—In identifying priorities for risk evaluation and conducting risk evaluations of metals and metal compounds, the Administrator shall use the Framework for Metals Risk Assessment of the Office of the Science Advisor, Risk Assessment Forum, and dated March 2007, or a successor document that addresses metals risk assessment and is peer reviewed by the Science Advisory Board.

''(3) INITIATION OF RISK EVALUATIONS; DESIGNATIONS.—

''(A) RISK EVALUATION INITIATION.—Upon designating a chemical substance as a high-priority substance, the Administrator shall initiate a risk evaluation on the substance.

''(B) REVISION.—The Administrator may revise the designation of a low-priority substance based on information made available to the Administrator.

''(C) ONGOING DESIGNATIONS.—The Administrator shall designate at least one high-priority substance upon the completion of each risk evaluation (other than risk evaluations for chemical substances designated under paragraph (4)(C)(ii)).

''(4) RISK EVALUATION PROCESS AND DEADLINES.—

''(A) IN GENERAL.—The Administrator shall conduct risk evaluations pursuant to this paragraph to determine whether a chemical substance presents an unreasonable risk of injury to health or the environment, without consideration of costs or other nonrisk factors, including an unreasonable risk to a potentially exposed or susceptible subpopulation identified as relevant to the risk evaluation by the Administrator, under the conditions of use.

''(B) ESTABLISHMENT OF PROCESS.—Not later than 1 year after the date of enactment of the Frank R. Lautenberg Chemical Safety for the 21st Century Act, the Administrator shall establish, by rule, a process to conduct risk evaluations in accordance with subparagraph (A).

''(C) REQUIREMENT.—The Administrator shall conduct and publish risk evaluations, in accordance with the rule promulgated under subparagraph (B), for a chemical substance—

''(i) that has been identified under paragraph (2)(A) or designated under paragraph (1)(B)(i); and

''(ii) subject to subparagraph (E), that a manufacturer of the chemical substance has requested, in a form and manner and using the criteria prescribed by the Administrator in the rule promulgated under subparagraph (B), be subjected to a risk evaluation.

''(D) SCOPE.—The Administrator shall, not later than 6 months after the initiation of a risk evaluation, publish the scope of the risk evaluation to be conducted, including the hazards, exposures, conditions of use, and the potentially exposed or susceptible subpopulations the Administrator expects to

consider, and, for each designation of a high-priority substance, ensure not less than 12 months between the initiation of the prioritization process for the chemical substance and the publication of the scope of the risk evaluation for the chemical substance, and for risk evaluations conducted on chemical substances that have been identified under paragraph (2)(A) or selected under subparagraph (E)(iv)(II) of this paragraph, ensure not less than 3 months before the Administrator publishes the scope of the risk evaluation.

''(E) LIMITATION AND CRITERIA.—

''(i) PERCENTAGE REQUIREMENTS.—The Administrator shall ensure that, of the number of chemical substances that undergo a risk evaluation under clause (i) of subparagraph (C), the number of chemical substances undergoing a risk evaluation under clause (ii) of subparagraph (C) is—

''(I) not less than 25 percent, if sufficient requests are made under clause (ii) of subparagraph (C); and

''(II) not more than 50 percent.

''(ii) REQUESTED RISK EVALUATIONS.—Requests for risk evaluations under subparagraph (C)(ii) shall be subject to the payment of fees pursuant to section 26(b), and the Administrator shall not expedite or otherwise provide special treatment to such risk evaluations.

''(iii) PREFERENCE.—In deciding whether to grant requests under subparagraph (C)(ii), the Administrator shall give preference to requests for risk evaluations on chemical substances for which the Administrator determines that restrictions imposed by 1 or more States have the potential to have a significant impact on interstate commerce or health or the environment.

''(iv) EXCEPTIONS.—(I) Chemical substances for which requests have been granted under subparagraph (C)(ii) shall not be subject to section 18(b).

''(II) Requests for risk evaluations on chemical substances which are made under subparagraph (C)(ii) and that are drawn from the 2014 update of the TSCA Work Plan for Chemical Assessments shall be granted at the discretion of the Administrator and not be subject to clause (i)(II).

''(F) REQUIREMENTS.—In conducting a risk evaluation under this subsection, the Administrator shall—

''(i) integrate and assess available information on hazards and exposures for the conditions of use of the chemical substance, including information that is relevant to specific risks of injury to health or the environment and information on potentially exposed or susceptible subpopulations identified as relevant by the Administrator;

''(ii) describe whether aggregate or sentinel exposures to a chemical substance under the conditions of use were considered, and the basis for that consideration;

''(iii) not consider costs or other nonrisk factors;

''(iv) take into account, where relevant, the likely duration, intensity, frequency, and number of exposures under the conditions of use of the chemical substance; and

''(v) describe the weight of the scientific evidence for the identified hazard and exposure.

''(G) DEADLINES.—The Administrator—

''(i) shall complete a risk evaluation for a chemical substance as soon as practicable, but not later than 3 years after the date on which the Administrator initiates the risk evaluation under subparagraph (C); and

''(ii) may extend the deadline for a risk evaluation for not more than 6 months.

''(H) NOTICE AND COMMENT.—The Administrator shall provide no less than 30 days public notice and an opportunity for comment on a draft risk evaluation prior to publishing a final risk evaluation.'';

(4) by amending subsection (c) to read as follows:

''(c) PROMULGATION OF SUBSECTION (a) RULES.—

''(1) DEADLINES.—If the Administrator determines that a chemical substance presents an unreasonable risk of injury to health or the environment in accordance with subsection (b)(4)(A), the Administrator—

''(A) shall propose in the Federal Register a rule under subsection (a) for the chemical substance not later than 1 year after the date on which the final risk evaluation regarding the chemical substance is published;

''(B) shall publish in the Federal Register a final rule not later than 2 years after the date on which the final risk evaluation regarding the chemical substance is published; and

''(C) may extend the deadlines under this paragraph for not more than two years, subject to the condition that the aggregate length of extensions under this subparagraph and subsection (b)(4)(G)(ii) does not exceed two years, and subject to the limitation that the Administrator may not extend a deadline for the publication of a proposed or final rule regarding a chemical substance drawn from the 2014 update of the TSCA Work Plan for Chemical Assessments or a chemical substance that, with respect to persistence and bioaccumulation, scores high for 1 and either high or moderate for the other, pursuant to the TSCA Work Plan Chemicals Methods Document published by the Administrator in February 2012 (or a successor scoring system), without adequate public justification that demonstrates, following a review of the information reasonably available to the Administrator, that the Administrator cannot complete the proposed or final rule without additional information regarding the chemical substance.

''(2) REQUIREMENTS FOR RULE.—

''(A) STATEMENT OF EFFECTS.—In proposing and promulgating a rule under subsection (a) with respect to a chemical substance or mixture, the Administrator shall consider and publish a statement based on reasonably available information with respect to—

''(III) the cost effectiveness of the proposed regulatory action and of the 1 or more primary alternative regulatory actions considered by the Administrator.

''(B) SELECTING REQUIREMENTS.—In selecting among prohibitions and other restrictions, the Administrator shall factor in, to the extent practicable, the considerations under subparagraph (A) in accordance with subsection (a).

''(C) CONSIDERATION OF ALTERNATIVES.—Based on the information published under subparagraph (A), in deciding whether to prohibit or restrict in a manner that substantially prevents a specific condition of use of a chemical substance or mixture, and in setting an appropriate transition period for such action, the Administrator shall consider, to the extent practicable, whether technically and economically feasible alternatives that benefit health or the environment, compared to the use so proposed to be prohibited or restricted, will be reasonably available as a substitute when the proposed prohibition or other restriction takes effect.

''(D) REPLACEMENT PARTS.—

''(i) IN GENERAL.—The Administrator shall exempt replacement parts for complex durable goods and complex consumer goods that are designed prior to the date of publication in the Federal Register of the rule under subsection (a), unless the Administrator finds that such replacement parts contribute significantly to the risk, identified in a risk evaluation conducted under subsection (b)(4)(A), to the general population or to an identified potentially exposed or susceptible subpopulation.

''(ii) DEFINITIONS.—In this subparagraph—

''(I) the term 'complex consumer goods' means electronic or mechanical devices composed of multiple manufactured components, with an intended useful life of 3 or more years, where the product is typically not consumed, destroyed, or discarded after a single use, and the components of which would be impracticable to redesign or replace; and

''(II) the term 'complex durable goods' means manufactured goods composed of 100 or more manufactured components, with an intended useful life of 5 or more years, where the product is typically not consumed, destroyed, or discarded after a single use.

''(E) ARTICLES.—In selecting among prohibitions and other restrictions, the Administrator shall apply such prohibitions or other restrictions to an article or category of articles containing the chemical substance or mixture only to the extent necessary to address the identified risks from exposure to the chemical substance or mixture from the article or category of articles so that the substance or mixture does not present an unreasonable risk of injury to health or the environment identified in the risk evaluation conducted in accordance with subsection (b)(4)(A).

''(3) PROCEDURES.—When prescribing a rule under subsection (a) the Administrator shall proceed in accordance with section 553 of title 5, United States Code (without regard to any reference in such section to sections 556 and 557 of such title), and shall also—

''(A) publish a notice of proposed rulemaking stating with particularity the reason for the proposed rule;

''(B) allow interested persons to submit written data, views, and arguments, and make all such submissions publicly available;

''(C) promulgate a final rule based on the matter in the rulemaking record; and

''(D) make and publish with the rule the determination described in subsection (a).'';

(5) in subsection (d)—

(A) by redesignating paragraph (2) as paragraph (3);

(B) by striking paragraph (1) and inserting the following:

''(1) CRITERIA FOR EXEMPTION.—The Administrator may, as part of a rule promulgated under subsection (a), or in a separate rule, grant an exemption from a requirement of a subsection (a) rule for a specific condition of use of a chemical substance or mixture, if the Administrator finds that—

''(A) the specific condition of use is a critical or essential use for which no technically and economically feasible safer alternative is available, taking into consideration hazard and exposure;

''(B) compliance with the requirement, as applied with respect to the specific condition of use, would significantly disrupt the national economy, national security, or critical infrastructure; or

''(C) the specific condition of use of the chemical substance or mixture, as compared to reasonably available alternatives, provides a substantial benefit to health, the environment, or public safety.

''(2) EXEMPTION ANALYSIS AND STATEMENT.—In proposing an exemption under this subsection, the Administrator shall analyze the need for the exemption, and shall make public the analysis and a statement describing how the analysis was taken into account.

''(3) PERIOD OF EXEMPTION.—The Administrator shall establish, as part of a rule under this subsection, a time limit on any exemption for a time to be determined by the Administrator as reasonable on a case-by-case basis, and, by rule, may extend, modify, or eliminate an exemption if the Administrator determines, on the basis of reasonably available information and after adequate public justification, the exemption warrants extension or modification or is no longer necessary.

''(4) CONDITIONS.—As part of a rule promulgated under this subsection, the Administrator shall include conditions, including reasonable recordkeeping, monitoring, and reporting requirements, to the extent that the Administrator determines the conditions are necessary to protect health and the environment while achieving the purposes of the exemption.

''(h) CHEMICALS THAT ARE PERSISTENT, BIOACCUMULATIVE, AND TOXIC.—

''(1) EXPEDITED ACTION.—Not later than 3 years after the date of enactment of the Frank R. Lautenberg Chemical Safety for the 21st Century Act, the Administrator shall propose rules under subsection (a) with respect to chemical substances identified in the 2014 update of the TSCA Work Plan for Chemical Assessments—

Lautenberg Chemical Safety for the 21st Century Act; and

''(B) exposure to which under the conditions of use is likely to the general population or to a potentially exposed or susceptible subpopulation identified by the Administrator, or the environment, on the basis of an exposure and use assessment conducted by the Administrator.

''(2) NO RISK EVALUATION REQUIRED.—The Administrator shall not be required to conduct risk evaluations on chemical substances that are subject to paragraph (1).

''(3) FINAL RULE.—Not later than 18 months after proposing a rule pursuant to paragraph (1), the Administrator shall promulgate a final rule under subsection (a).

''(4) SELECTING RESTRICTIONS.—In selecting among prohibitions and other restrictions promulgated in a rule under subsection (a) pursuant to paragraph (1), the Administrator shall address the risks of injury to health or the environment that the Administrator determines are presented by the chemical substance and shall reduce exposure to the substance to the extent practicable.

''(5) RELATIONSHIP TO SUBSECTION (b).—If, at any time prior to the date that is 90 days after the date of enactment of the Frank R. Lautenberg Chemical Safety for the 21st Century Act, the Administrator makes a designation under subsection (b)(1)(B)(i), or receives a request under subsection (b)(4)(C)(ii), such chemical substance shall not be subject to this subsection, except that in selecting among prohibitions and other restrictions promulgated in a rule pursuant to subsection (a), the Administrator shall both ensure that the chemical substance meets the rulemaking standard under subsection (a) and reduce exposure to the substance to the extent practicable.

''(i) FINAL AGENCY ACTION.—Under this section and subject to section 18—

''(1) a determination by the Administrator under subsection (b)(4)(A) that a chemical substance does not present an unreasonable risk of injury to health or the environment shall be issued by order and considered to be a final agency action, effective beginning on the date of issuance of the order; and

''(2) a final rule promulgated under subsection (a), including the associated determination by the Administrator under subsection (b)(4)(A) that a chemical substance presents an unreasonable risk of injury to health or the environment, shall be considered to be a final agency action, effective beginning on the date of promulgation of the final rule.

''(j) DEFINITION.—For the purposes of this Act, the term 'requirement' as used in this section shall not displace statutory or common law.''.

''(i) be consistent with guidance developed by the Administrator under paragraph (4)(A); and

''(ii) describe the chemical structure of the chemical substance as specifically as practicable while protecting those features of the chemical structure—

''(I) that are claimed as confidential; and

''(II) the disclosure of which would be likely to cause substantial harm to the competitive position of the person.

''(2) INFORMATION GENERALLY NOT SUBJECT TO SUBSTANTIATION REQUIREMENTS.—Subject to subsection (f), the following information shall not be subject to substantiation requirements under paragraph (3):

''(A) Specific information describing the processes used in manufacture or processing of a chemical substance, mixture, or article.

''(G) Prior to the date on which a chemical substance is first offered for commercial distribution, the specific chemical identity of the chemical substance, including the chemical name, molecular formula, Chemical Abstracts Service number, and other information that would identify the specific chemical substance, if the specific chemical identity was claimed as confidential at the time it was submitted in a notice under section 5.

''(3) SUBSTANTIATION REQUIREMENTS.—Except as provided in paragraph (2), a person asserting a claim to protect information from disclosure under this section shall substantiate the claim, in accordance with such rules as the Administrator has promulgated or may promulgate pursuant to this section.

''(4) GUIDANCE.—The Administrator shall develop guidance regarding—

''(A) the determination of structurally descriptive generic names, in the case of claims for the protection from disclosure of specific chemical identity; and

''(B) the content and form of the statements of need and agreements required under paragraphs (4), (5), and (6) of subsection (d).

''(5) CERTIFICATION.—An authorized official of a person described in paragraph (1)(A) shall certify that the statement required to assert a claim submitted pursuant to paragraph (1)(B), and any information required to substantiate a claim submitted pursuant to paragraph (3), are true and correct.

''(B) subject to such conditions as the Administrator may specify;

''(3) shall be disclosed if the Administrator determines that disclosure is necessary to protect health or the environment against an unreasonable risk of injury to health or the environment, without consideration of costs or other nonrisk factors, including an unreasonable risk to a potentially exposed or susceptible subpopulation identified as relevant by the Administrator under the conditions of use;

''(4) shall be disclosed to a State, political subdivision of a State, or tribal government, on written request, for the purpose of administration or enforcement of a law, if such entity has 1 or more applicable agreements with the Administrator that are consistent with the guidance developed under subsection (c)(4)(B) and ensure that the entity will take appropriate measures, and has adequate authority, to maintain the confidentiality of the information in accordance with procedures comparable to the procedures used by the Administrator to safeguard the information;

''(5) shall be disclosed to a health or environmental professional employed by a Federal or State agency or tribal government or a treating physician or nurse in a nonemergency situation if such person provides a written statement of need and agrees to sign a written confidentiality agreement with the Administrator, subject to the conditions that—

''(A) the statement of need and confidentiality agreement are consistent with the guidance developed under subsection (c)(4)(B);

''(B) the statement of need shall be a statement that the person has a reasonable basis to suspect that—

''(i) the information is necessary for, or will assist in—

''(I) the diagnosis or treatment of 1 or more individuals; or

''(II) responding to an environmental release or exposure; and

''(ii) 1 or more individuals being diagnosed or treated have been exposed to the chemical substance or mixture concerned, or an environmental release of or exposure to the chemical substance or mixture concerned has occurred; and

''(A) have a reasonable basis to suspect that—

''(i) a medical, public health, or environmental emergency exists;

''(ii) the information is necessary for, or will assist in, emergency or first-aid diagnosis or treatment; or

protection from disclosure under this section, in which case the Administrator shall take any actions required under subsections (f) and (g); and

''(B) in the case of information other than information described in subsection (c)(2)—

''(i) for a period of 10 years from the date on which the person asserts the claim with respect to the information submitted to the Administrator; or

''(ii) if applicable before the expiration of such 10-year period, until such time as—

''(I) the person that asserted the claim notifies the Administrator that the person is withdrawing the claim, in which case the information shall not be protected from disclosure under this section; or

''(B) REQUEST.—

''(i) IN GENERAL.—Not later than the date that is 30 days before the expiration of the period described in paragraph (1)(B)(i), a person reasserting the relevant claim shall submit to the Administrator a request for extension substantiating, in accordance with subsection (c)(3), the need to extend the period.

''(ii) ACTION BY ADMINISTRATOR.—Not later than the date of expiration of the period described in paragraph (1)(B)(i), the Administrator shall, in accordance with subsection (g)(1)—

''(I) review the request submitted under clause (i);

''(III)(aa) grant an extension of 10 years; or

''(bb) deny the request.

''(C) NO LIMIT ON NUMBER OF EXTENSIONS.—There shall be no limit on the number of extensions granted under this paragraph, if the Administrator determines that the relevant request under subparagraph (B)(i)—

''(i) establishes the need to extend the period; and

''(ii) meets the requirements established by the Administrator.

''(f) REVIEW AND RESUBSTANTIATION.—

''(1) DISCRETION OF ADMINISTRATOR.—The Administrator may require any person that has claimed protection for information from disclosure under this section, whether before, on, or after the date of enactment of the Frank R. Lautenberg Chemical Safety for the 21st Century Act, to reassert and substantiate or resubstantiate the claim in accordance with this section—

''(A) after the chemical substance is designated as a high-priority substance under section 6(b);

''(B) for any chemical substance designated as an active substance under section 8(b)(5)(B)(iii); or

''(C) if the Administrator determines that disclosure of certain information currently protected from disclosure would be important to assist the Administrator in conducting risk evaluations or promulgating rules under section 6.

''(2) REVIEW REQUIRED.—The Administrator shall review a claim for protection of information from disclosure under this section and require any person that has claimed protection for that information, whether before, on, or after the date of enactment of the Frank R. Lautenberg Chemical Safety for the 21st Century Act, to reassert and substantiate or resubstantiate the claim in accordance with this section—

''(A) as necessary to determine whether the information qualifies for an exemption from disclosure in connection with a request for information received by the Administrator under section 552 of title 5, United States Code;

''(B) if the Administrator has a reasonable basis to believe that the information does not qualify for protection from disclosure under this section; or

''(C) for any chemical substance the Administrator determines under section 6(b)(4)(A) presents an unreasonable risk of injury to health or the environment.

''(3) PERIOD OF PROTECTION.—If the Administrator requires a person to reassert and substantiate or resubstantiate a claim under this subsection, and determines that the claim continues to meet the relevant requirements of this section, the Administrator shall protect the information subject to the claim from disclosure for a period of 10 years from the date of such determination, subject to any subsequent requirement by the Administrator under this subsection.

''(g) DUTIES OF ADMINISTRATOR.—

''(1) DETERMINATION.—

''(A) IN GENERAL.—Except for claims regarding information described in subsection (c)(2), the Administrator shall, subject to subparagraph (C), not later than 90 days after the receipt of a claim under subsection (c), and not later than 30 days after the receipt of a request for extension of a claim under subsection (e) or a request under subsection (b)(4)(C), review and approve, approve in part and deny in part, or deny the claim or request.

''(B) REASONS FOR DENIAL.—If the Administrator denies or denies in part a claim or request under subparagraph (A) the Administrator shall provide to the person that asserted the claim or submitted the request a written statement of the reasons for the denial or denial in part of the claim or request.

''(C) SUBSETS.—The Administrator shall—

''(i) except with respect to information described in subsection (c)(2)(G), review all claims or requests under this section for the protection from disclosure of the specific chemical identity of a chemical substance; and

''(ii) review a representative subset, comprising at least 25 percent, of all other claims or requests for protection from disclosure under this section.

''(D) EFFECT OF FAILURE TO ACT.—The failure of the Administrator to make a decision regarding a claim or request for protection from disclosure or extension under this section shall not have the effect of denying or eliminating a claim or request for protection from disclosure.

''(E) DETERMINATION OF REQUESTS UNDER SUBSECTION (b)(4)(C).—With respect to a request submitted under subsection (b)(4)(C), the Administrator shall, with the objective of ensuring that information relevant to the protection of health and the environment is disclosed to the extent practicable, determine whether the documentation provided by the person rebuts what shall be the presumption of the Administrator that the public interest in the disclosure of the information outweighs the public or proprietary interest in maintaining the protection for all or a portion of the information that the person has requested not be disclosed or for which disclosure be delayed.

''(2) NOTIFICATION.—

''(A) IN GENERAL.—Except as provided in subparagraph (B) and subsections (b), (d), and (e), if the Administrator denies or denies in part a claim or request under paragraph (1), concludes, in accordance with this section, that the information does not qualify for protection from disclosure, intends to disclose information pursuant to subsection (d), or promulgates a rule under section 6(a) establishing a ban or phase-out with respect to a chemical substance or mixture, the Administrator shall notify, in writing, the person that asserted the claim or submitted the request of the intent of the Administrator to disclose the information or not protect the information from disclosure under this section. The notice shall be furnished by certified mail (return receipt requested), by personal delivery, or by other means that allows verification of the fact and date of receipt.

''(B) DISCLOSURE OF INFORMATION.—Except as provided in subparagraph (C), the Administrator shall not disclose information under this subsection until the date that is 30 days after the date on which the person that asserted the claim or submitted the request receives notification under subparagraph (A).

''(i) FIFTEEN DAY NOTIFICATION.—For information the Administrator intends to disclose under subsections (d)(3), (d)(4), (d)(5), and (j), the Administrator shall not disclose the information until the date that is 15 days after the date on which the person that asserted the claim or submitted the request receives notification under subparagraph (A), except that, with respect to information to be disclosed under subsection (d)(3), if the Administrator determines that disclosure of the information is necessary to protect against an imminent and substantial harm to health or the environment, no prior notification shall be necessary.

''(ii) NOTIFICATION AS SOON AS PRACTICABLE.—For information the Administrator intends to disclose under paragraph (6) of subsection (d), the Administrator shall notify the person that submitted the information that the information has been disclosed as soon as practicable after disclosure of the information.

''(iii) NO NOTIFICATION REQUIRED.—Notification shall not be required—

''(I) for the disclosure of information under paragraphs (1), (2), (7), or (8) of subsection (d); or

''(II) for the disclosure of information for which—

''(aa) the Administrator has provided to the person that asserted the claim a notice under subsection (e)(2)(A); and

''(bb) such person does not submit to the Administrator a request under subsection (e)(2)(B) on or before the deadline established in subsection (e)(2)(B)(i).

''(D) APPEALS.—

''(i) ACTION TO RESTRAIN DISCLOSURE.—If a person receives a notification under this paragraph and believes the information is protected from disclosure under this section, before the date on which the information is to be disclosed pursuant to subparagraph (B) or (C) the person may bring an action to restrain disclosure of the information in—

''(I) the United States district court of the district in which the complainant resides or has the principal place of business; or

''(II) the United States District Court for the District of Columbia.

''(ii) NO DISCLOSURE.—

''(I) IN GENERAL.—Subject to subsection (d), the Administrator shall not disclose information that is the subject of an appeal under this paragraph before the date on which the applicable court rules on an action under clause (i).

''(II) EXCEPTION.—Subclause (I) shall not apply to disclosure of information described under subsections (d)(4) and (j).

''(3) REQUEST AND NOTIFICATION SYSTEM.—The Administrator, in consultation with the Director of the Centers for Disease Control

and Prevention, shall develop a request and notification system that, in a format and language that is readily accessible and understandable, allows for expedient and swift access to information disclosed pursuant to paragraphs (5) and (6) of subsection (d).

''(4) UNIQUE IDENTIFIER.—The Administrator shall—

''(A)(i) develop a system to assign a unique identifier to each specific chemical identity for which the Administrator approves a request for protection from disclosure, which shall not be either the specific chemical identity or a structurally descriptive generic term; and

''(ii) apply that identifier consistently to all information relevant to the applicable chemical substance;

''(B) annually publish and update a list of chemical substances, referred to by their unique identifiers, for which claims to protect the specific chemical identity from disclosure have been approved, including the expiration date for each such claim;

''(C) ensure that any nonconfidential information received by the Administrator with respect to a chemical substance included on the list published under subparagraph (B) while the specific chemical identity of the chemical substance is protected from disclosure under this section identifies the chemical substance using the unique identifier; and

''(D) for each claim for protection of a specific chemical identity that has been denied by the Administrator or expired, or that has been withdrawn by the person who asserted the claim, and for which the Administrator has used a unique identifier assigned under this paragraph to protect the specific chemical identity in information that the Administrator has made public, clearly link the specific chemical identity to the unique identifier in such information to the extent practicable.

''(h) CRIMINAL PENALTY FOR WRONGFUL DISCLOSURE.—

''(1) INDIVIDUALS SUBJECT TO PENALTY.—

''(A) IN GENERAL.—Subject to subparagraph (C) and paragraph (2), an individual described in subparagraph (B) shall be fined under title 18, United States Code, or imprisoned for not more than 1 year, or both.

''(B) DESCRIPTION.—An individual referred to in subparagraph (A) is an individual who—

''(i) pursuant to this section, obtained possession of, or has access to, information protected from disclosure under this section; and

''(ii) knowing that the information is protected from disclosure under this section, willfully discloses the information in any manner to any person not entitled to receive that information.

''(C) EXCEPTION.—This paragraph shall not apply to any medical professional (including an emergency medical technician or other first responder) who discloses any information obtained under paragraph (5) or (6) of subsection (d) to a patient treated by the medical professional, or to a person authorized to make medical or health care decisions on behalf of such a patient, as needed for the diagnosis or treatment of the patient.

''(2) OTHER LAWS.—Section 1905 of title 18, United States Code, shall not apply with respect to the publishing, divulging, disclosure, or making known of, or making available, information reported to or otherwise obtained by the Administrator under this Act.

''(i) APPLICABILITY.—

''(1) IN GENERAL.—Except as otherwise provided in this section, section 8, or any other applicable Federal law, the Administrator shall have no authority—

''(A) to require the substantiation or resubstantiation of a claim for the protection from disclosure of information reported to or otherwise obtained by the Administrator under this Act prior to the date of enactment of the Frank R. Lautenberg Chemical Safety for the 21st Century Act; or

''(B) to impose substantiation or resubstantiation requirements, with respect to the protection of information described in subsection (a), under this Act that are more extensive than those required under this section.

''(2) ACTIONS PRIOR TO PROMULGATION OF RULES.—Nothing in this Act prevents the Administrator from reviewing, requiring substantiation or resubstantiation of, or approving, approving in part, or denying any claim for the protection from disclosure of information before the effective date of such rules applicable to those claims as the Administrator may promulgate after the date of enactment of the Frank R. Lautenberg Chemical Safety for the 21st Century Act.

''(j) ACCESS BY CONGRESS.—Notwithstanding any limitation contained in this section or any other provision of law, all information reported to or otherwise obtained by the Administrator (or any representative of the Administrator) under this Act shall be made available, upon written request of any duly authorized committee of the Congress, to such committee.''.

(1) by amending subsection (a) to read as follows:

''(a) IN GENERAL.—

''(1) ESTABLISHMENT OR ENFORCEMENT.—Except as otherwise provided in subsections (c), (d), (e), (f), and (g), and subject to paragraph (2), no State or political subdivision of a State may establish or continue to enforce any of the following:

''(A) DEVELOPMENT OF INFORMATION.—A statute or administrative action to require the development of information about a chemical substance or category of chemical substances that is reasonably likely to produce the same information required under section 4, 5, or 6 in—

''(i) a rule promulgated by the Administrator;

''(ii) a consent agreement entered into by the Administrator; or

''(iii) an order issued by the Administrator.

''(B) CHEMICAL SUBSTANCES FOUND NOT TO PRESENT AN UNREASONABLE RISK OR RESTRICTED.—A statute, criminal penalty, or administrative action to prohibit or otherwise restrict the manufacture, processing, or distribution in commerce or use of a chemical substance—

''(i) for which the determination described in section 6(i)(1) is made, consistent with the scope of the risk evaluation under section (6)(b)(4)(D); or

''(ii) for which a final rule is promulgated under section 6(a), after the effective date of the rule issued under section 6(a) for the chemical substance, consistent with the scope of the risk evaluation under section (6)(b)(4)(D).

''(C) SIGNIFICANT NEW USE.—A statute or administrative action requiring the notification of a use of a chemical substance that the Administrator has specified as a significant new use and for which the Administrator has required notification pursuant to a rule promulgated under section 5.

''(2) EFFECTIVE DATE OF PREEMPTION.—Under this subsection, Federal preemption of statutes and administrative actions applicable to specific chemical substances shall not occur until the effective date of the applicable action described in paragraph (1) taken by the Administrator.'';

(2) by amending subsection (b) to read as follows:

''(b) NEW STATUTES, CRIMINAL PENALTIES, OR ADMINISTRATIVE ACTIONS CREATING PROHIBITIONS OR OTHER RESTRICTIONS.—

''(1) IN GENERAL.—Except as provided in subsections (c), (d), (e), (f), and (g), beginning on the date on which the Administrator defines the scope of a risk evaluation for a chemical substance under section 6(b)(4)(D) and ending on the date on which the deadline established pursuant to section 6(b)(4)(G) for completion of the risk evaluation expires, or on the date on which the Administrator publishes the risk evaluation under section 6(b)(4)(C), whichever is earlier, no State or political subdivision of a State may establish a statute, criminal penalty, or administrative action prohibiting or otherwise restricting the manufacture, processing, distribution in commerce, or use of such chemical substance that is a high-priority substance designated under section 6(b)(1)(B)(i).

''(2) EFFECT OF SUBSECTION.—This subsection does not restrict the authority of a State or political subdivision of a State to continue to enforce any statute enacted, criminal penalty assessed, or administrative action taken, prior to the date on which the Administrator defines and publishes the scope of a risk evaluation under section 6(b)(4)(D).''; and

(3) by adding at the end the following:

''(c) SCOPE OF PREEMPTION.—Federal preemption under subsections (a) and (b) of statutes, criminal penalties, and administrative actions applicable to specific chemical substances shall apply only to—

''(1) with respect to subsection (a)(1)(A), the chemical substances or category of chemical substances subject to a rule, order, or consent agreement under section 4, 5, or 6.

''(4) with respect to subsection (a)(1)(C), the uses of such chemical substances that the Administrator has specified as significant new uses and for which the Adminis-

trator has required notification pursuant to a rule promulgated under section 5.

''(d) EXCEPTIONS.—

''(1) NO PREEMPTION OF STATUTES AND ADMINISTRATIVE ACTIONS.—

''(A) IN GENERAL.—Nothing in this Act, nor any amendment made by the Frank R. Lautenberg Chemical Safety for the 21st Century Act, nor any rule, standard of performance, risk evaluation, or scientific assessment implemented pursuant to this Act, shall affect the right of a State or a political subdivision of a State to adopt or enforce any rule, standard of performance, risk evaluation, scientific assessment, or any other protection for public health or the environment that—

''(i) is adopted or authorized under the authority of any other Federal law or adopted to satisfy or obtain authorization or approval under any other Federal law;

''(ii) implements a reporting, monitoring, or other information obligation for the chemical substance not otherwise required by the Administrator under this Act or required under any other Federal law;

''(iii) is adopted pursuant to authority under a law of the State or political subdivision of the State related to water quality, air quality, or waste treatment or disposal, except to the extent that the action—

''(I) imposes a restriction on the manufacture, processing, distribution in commerce, or use of a chemical substance; and

''(II)(aa) addresses the same hazards and exposures, with respect to the same conditions of use as are included in the scope of the risk evaluation published pursuant to section 6(b)(4)(D), but is inconsistent with the action of the Administrator; or

''(bb) would cause a violation of the applicable action by the Administrator under section 5 or 6; or

''(iv) subject to subparagraph (B), is identical to a requirement prescribed by the Administrator.

''(B) IDENTICAL REQUIREMENTS.—

''(i) IN GENERAL.—The penalties and other sanctions applicable under a law of a State or political subdivision of a State in the event of noncompliance with the identical requirement shall be no more stringent than the penalties and other sanctions available to the Administrator under section 16 of this Act.

''(ii) PENALTIES.—In the case of an identical requirement—

''(I) a State or political subdivision of a State may not assess a penalty for a specific violation for which the Administrator has assessed an adequate penalty under section 16; and

''(II) if a State or political subdivision of a State has assessed a penalty for a specific violation, the Administrator may not assess a penalty for that violation in an amount that would cause the total of the penalties assessed for the violation by the State or political subdivision of a State and the Administrator combined to exceed the maximum amount that may be assessed for that violation by the Administrator under section 16.

''(2) APPLICABILITY TO CERTAIN RULES OR ORDERS.—

''(A) PRIOR RULES AND ORDERS.—Nothing in this section shall be construed as modifying the preemptive effect under this section, as in effect on the day before the effective date of the Frank R. Lautenberg Chemical Safety for the 21st Century Act, of any rule or order promulgated or issued under this Act prior to that effective date.

''(B) CERTAIN CHEMICAL SUBSTANCES AND MIXTURES.—With respect to a chemical substance or mixture for which any rule or order was promulgated or issued under section 6 prior to the effective date of the Frank R. Lautenberg Chemical Safety for the 21st Century Act with respect to manufacturing, processing, distribution in commerce, use, or disposal of the chemical substance or mixture, nothing in this section shall be construed as modifying the preemptive effect of this section as in effect prior to the enactment of the Frank R. Lautenberg Chemical Safety for the 21st Century Act of any rule or order that is promulgated or issued with respect to such chemical substance or mixture under section 6 after that effective date, unless the latter rule or order is with respect to a chemical substance or mixture containing a chemical substance and follows a designation of that chemical substance as a high-priority substance under section 6(b)(1)(B)(i), the identification of that chemical substance under section 6(b)(2)(A), or the selection of that chemical substance for risk evaluation under section 6(b)(4)(E)(iv)(II).

''(e) PRESERVATION OF CERTAIN LAWS.—

''(1) IN GENERAL.—Nothing in this Act, subject to subsection (g) of this section, shall—

''(A) be construed to preempt or otherwise affect the authority of a State or political subdivision of a State to continue to enforce any action taken or requirement imposed or requirement enacted relating to a specific chemical substance before April 22, 2016, under the authority of a law of the State or political subdivision of the State that prohibits or otherwise restricts manufacturing, processing, distribution in commerce, use, or disposal of a chemical substance; or

''(B) be construed to preempt or otherwise affect any action taken pursuant to a State law that was in effect on August 31, 2003.

''(2) EFFECT OF SUBSECTION.—This subsection does not affect, modify, or alter the relationship between Federal law and laws of a State or political subdivision of a State pursuant to any other Federal law.

''(f) WAIVERS.—

''(1) DISCRETIONARY EXEMPTIONS.—Upon application of a State or political subdivision of a State, the Administrator may, by rule, exempt from subsection (a), under such conditions as may be prescribed in the rule, a statute, criminal penalty, or administrative action of that State or political subdivision of the State that relates to the effects of exposure to a chemical substance under the conditions of use if the Administrator determines that—

''(A) compelling conditions warrant granting the waiver to protect health or the environment;

''(B) compliance with the proposed requirement of the State or political subdivision of the State would not unduly burden interstate commerce in the manufacture, processing, distribution in commerce, or use of a chemical substance;

''(C) compliance with the proposed requirement of the State or political subdivision of the State would not cause a violation of any applicable Federal law, rule, or order; and

''(D) in the judgment of the Administrator, the proposed requirement of the State or political subdivision of the State is designed to address a risk of a chemical substance, under the conditions of use, that was identified—

''(i) consistent with the best available science;

''(ii) using supporting studies conducted in accordance with sound and objective scientific practices; and

''(iii) based on the weight of the scientific evidence.

''(2) REQUIRED EXEMPTIONS.—Upon application of a State or political subdivision of a State, the Administrator shall exempt from subsection (b) a statute or administrative action of a State or political subdivision of a State that relates to the effects of exposure to a chemical substance under the conditions of use if the Administrator determines that—

''(A)(i) compliance with the proposed requirement of the State or political subdivision of the State would not unduly burden interstate commerce in the manufacture, processing, distribution in commerce, or use of a chemical substance;

''(ii) compliance with the proposed requirement of the State or political subdivision of the State would not cause a violation of any applicable Federal law, rule, or order; and

''(iii) the State or political subdivision of the State has a concern about the chemical substance or use of the chemical substance based in peer-reviewed science; or

SEC. 20. NO RETROACTIVITY.

Nothing in sections 1 through 19, or the amendments made by sections 1 through 19, shall be interpreted to apply retroactively to any State, Federal, or maritime legal action filed before the date of enactment of this Act.

SEC. 21. TREVOR'S LAW.

(a) PURPOSES.—The purposes of this section are—

(1) to provide the appropriate Federal agencies with the authority to help conduct investigations into potential cancer clusters;

(2) to ensure that Federal agencies have the authority to undertake actions to help address cancer clusters and factors that may contribute to the creation of potential cancer clusters; and

(3) to enable Federal agencies to coordinate with other Federal, State, and local agencies, institutes of higher education, and the public in investigating and addressing cancer clusters.

(b) DESIGNATION AND INVESTIGATION OF POTENTIAL CANCER CLUSTERS.—Part P of title III of the Public Health Service Act (42 U.S.C. 280g et seq.) is amended by adding at the end the following:

''SEC. 399V–6. DESIGNATION AND INVESTIGATION OF POTENTIAL CANCER CLUSTERS.

''(a) DEFINITIONS.—In this section:

''(1) CANCER CLUSTER.—The term 'cancer cluster' means the incidence of a particular cancer within a population group, a geographical area, and a period of time that is greater than expected for such group, area, and period.

''(2) PARTICULAR CANCER.—The term 'particular cancer' means one specific type of cancer or a type of cancers scientifically proven to have the same cause.

''(3) POPULATION GROUP.—The term 'population group' means a group, for purposes of calculating cancer rates, defined by factors such as race, ethnicity, age, or gender.

''(b) CRITERIA FOR DESIGNATION OF POTENTIAL CANCER CLUSTERS.—

''(1) DEVELOPMENT OF CRITERIA.—The Secretary shall develop criteria for the designation of potential cancer clusters.

''(2) REQUIREMENTS.—The criteria developed under paragraph (1) shall consider, as appropriate—

''(A) a standard for cancer cluster identification and reporting protocols used to determine when cancer incidence is greater than would be typically observed;

''(B) scientific screening standards that ensure that a cluster of a particular cancer involves the same type of cancer, or types of cancers;

''(C) the population in which the cluster of a particular cancer occurs by factors such as race, ethnicity, age, and gender, for purposes of calculating cancer rates;

''(D) the boundaries of a geographic area in which a cluster of a particular cancer occurs so as not to create or obscure a potential cluster by selection of a specific area; and

''(E) the time period over which the number of cases of a particular cancer, or the calculation of an expected number of cases, occurs.

''(c) GUIDELINES FOR INVESTIGATION OF POTENTIAL CANCER CLUSTERS.—The Secretary, in consultation with the Council of State and Territorial Epidemiologists and representatives of State and local health departments, shall develop, publish, and periodically update guidelines for investigating potential cancer clusters. The guidelines shall—

''(1) recommend that investigations of cancer clusters—

''(A) use the criteria developed under subsection (b);

''(B) use the best available science; and

''(C) rely on a weight of the scientific evidence;

''(2) provide standardized methods of reviewing and categorizing data, including from health surveillance systems and reports of potential cancer clusters; and

''(3) provide guidance for using appropriate epidemiological and other approaches for investigations.

''(d) INVESTIGATION OF CANCER CLUSTERS.—

''(1) SECRETARY DISCRETION.—The Secretary—

''(A) in consultation with representatives of the relevant State and local health departments, shall consider whether it is appropriate to conduct an investigation of a potential cancer cluster; and

''(B) in conducting investigations shall have the discretion to prioritize certain potential cancer clusters, based on the availability of resources.

''(2) COORDINATION.—In investigating potential cancer clusters, the Secretary shall coordinate with agencies within the Department of Health and Human Services and other Federal agencies, such as the Environmental Protection Agency.

''(3) BIOMONITORING.—In investigating potential cancer clusters, the Secretary shall rely on all appropriate biomonitoring information collected under other Federal programs, such as the National Health and Nutrition Examination Survey. The Secretary may provide technical assistance for relevant biomonitoring studies of other Federal agencies.

''(e) DUTIES.—The Secretary shall—

''(1) ensure that appropriate staff of agencies within the Department of Health and Human Services are prepared to provide timely assistance, to the extent practicable, upon receiving a request to investigate a potential cancer cluster from a State or local health authority;

''(2) maintain staff expertise in epidemiology, toxicology, data analysis, environmental health and cancer surveillance, exposure assessment, pediatric health, pollution control, community outreach, health education, laboratory sampling and analysis, spatial mapping, and informatics;

''(3) consult with community members as investigations into potential cancer clusters are conducted, as the Secretary determines appropriate;

''(4) collect, store, and disseminate reports on investigations of potential cancer clusters, the possible causes of such clusters, and the actions taken to address such clusters; and

''(5) provide technical assistance for investigating cancer clusters to State and local health departments through existing programs, such as the Epi-Aids program of the Centers for Disease Control and Prevention and the Assessments of Chemical Exposures Program of the Agency for Toxic Substances and Disease Registry.''.

(a) COMPLIANCE WITH OR VIOLATION OF ENVIRONMENTAL LAWS WHILE UNDER EMERGENCY ORDER.—Section 202(c) of the Federal Power Act (16 U.S.C. 824a(c)) is amended—

(1) by inserting ''(1)'' after ''(c)''; and

(2) by adding at the end the following:

''(2) With respect to an order issued under this subsection that may result in a conflict with a requirement of any Federal, State, or local environmental law or regulation, the Commission shall ensure that such order requires generation, delivery, interchange, or transmission of electric energy only during hours necessary to meet the emergency and serve the public interest, and, to the maximum extent practicable, is consistent with any applicable Federal, State, or local environmental law or regulation and minimizes any adverse environmental impacts.

''(3) To the extent any omission or action taken by a party, that is necessary to comply with an order issued under this subsection, including any omission or action taken to voluntarily comply with such order, results in noncompliance with, or causes such party to not comply with, any Federal, State, or local environmental law or regulation, such omission or action shall not be considered a violation of such environmental law or regulation, or subject such party to any requirement, civil or criminal liability, or a citizen suit under such environmental law or regulation.

''(4)(A) An order issued under this subsection that may result in a conflict with a requirement of any Federal, State, or local environmental law or regulation shall expire not later than 90 days after it is issued. The Commission may renew or reissue such order pursuant to paragraphs (1) and (2) for subsequent periods, not to exceed 90 days for each period, as the Commission determines necessary to meet the emergency and serve the public interest.

''(B) In renewing or reissuing an order under subparagraph (A), the Commission shall consult with the primary Federal agency with expertise in the environmental interest protected by such law or regulation, and shall include in any such renewed or reissued order such conditions as such Federal agency determines necessary to minimize any adverse environmental impacts to the extent practicable. The conditions, if any, submitted by such Federal agency shall be made available to the public. The Commission may exclude such a condition from the renewed or reissued order if it determines that such condition would prevent the order from adequately addressing the emergency necessitating such order and provides in the order, or otherwise makes publicly available, an explanation of such determination.

''(5) If an order issued under this subsection is subsequently stayed, modified, or set aside by a court pursuant to section 313 or any other provision of law, any omission or action previously taken by a party that was necessary to comply with the order while the order was in effect, including any omission or action taken to voluntarily comply with the order, shall remain subject to paragraph (3).''.

''(a) GENERAL DIRECTION.—In order to enhance the reliability of the electric grid and reduce the threat of wildfires to and from electric transmission and distribution rights-of-way and related facilities and adjacent property, the Secretary, with respect to public lands and other lands under the jurisdiction of the Secretary, and the Secretary of Agriculture, with respect to National Forest System lands, shall provide direction to ensure that all existing and future rights-of-way, however established (including by grant, special use authorization, and easement), for electric transmission and distribution facilities on such lands include provisions for utility vegetation management, facility inspection, and operation and maintenance activities that, while consistent with applicable law—

''(1) are developed in consultation with the holder of the right-of-way;

''(2) enable the owner or operator of an electric transmission and distribution facility to operate and maintain the facility in good working order and to comply with Federal, State, and local electric system reliability and fire safety requirements, including reliability standards established by the North American Electric Reliability Corporation and plans to meet such reliability standards;

''(3) minimize the need for case-by-case or annual approvals for—

''(A) routine vegetation management, facility inspection, and operation and maintenance activities within existing electric transmission and distribution rights-of-way; and

''(B) utility vegetation management activities that are necessary to control hazard trees within or adjacent to electric transmission and distribution rights-of-way; and

''(4) when review is required, provide for expedited review and approval of utility vegetation management, facility inspection, and operation and maintenance activities, especially activities requiring prompt action to avoid an adverse impact on human safety or electric reliability to avoid fire hazards.

''(b) VEGETATION MANAGEMENT, FACILITY INSPECTION, AND OPERATION AND MAINTENANCE PLANS.—

''(1) DEVELOPMENT AND SUBMISSION.—Consistent with subsection (a), the Secretary and the Secretary of Agriculture shall provide owners and operators of electric transmission and distribution facilities located on lands described in such subsection with the option to develop and submit a vegetation management, facility inspection, and operation and maintenance plan, that at each owner or operator's discretion may cover some or all of the owner or operator's electric transmission and distribution rights-of-way on Federal lands, for approval to the Secretary with jurisdiction over the lands. A plan under this paragraph shall enable the owner or operator of an electric transmission and distribution facility, at a minimum, to comply with applicable Federal, State, and local electric system reliability and fire safety requirements, as provided in subsection (a)(2). The Secretaries shall not have the authority to modify those requirements.

''(2) REVIEW AND APPROVAL PROCESS.—The Secretary and the Secretary of Agriculture shall jointly develop a consolidated and coordinated process for review and approval of—

''(A) vegetation management, facility inspection, and operation and maintenance plans submitted under paragraph (1) that—

''(i) assures prompt review and approval not to exceed 90 days;

''(ii) includes timelines and benchmarks for agency comments on submitted plans and final approval of such plans;

''(3) NOTIFICATION.—The review and approval process under paragraph (2) shall—

''(A) include notification by the agency of any changed conditions that warrant a modification to a plan;

''(B) provide an opportunity for the owner or operator to submit a proposed plan amendment to address directly the changed condition; and

''(C) allow the owner or operator to continue to implement those elements of the approved plan that do not directly and adversely affect the condition precipitating the need for modification.

''(4) CATEGORICAL EXCLUSION PROCESS.—The Secretary and the Secretary of Agriculture shall apply his or her categorical exclusion process under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) to plans developed under this subsection on existing electric transmission and distribution rights-of-way under this subsection.

''(5) IMPLEMENTATION.—A plan approved under this subsection shall become part of the authorization governing the covered right-of-way and hazard trees adjacent to the right-of-way. If a vegetation management plan is proposed for an existing electric transmission and distribution facility concurrent with the siting of a new electric transmission or distribution facility, necessary reviews shall be completed as part of the siting process or sooner. Once the plan is approved, the owner or operator shall provide the agency with only a notification of activities anticipated to be undertaken in the coming year, a description of those activities, and certification that the activities are in accordance with the plan.

''(c) RESPONSE TO EMERGENCY CONDITIONS.—If vegetation on Federal lands within, or hazard trees on Federal lands adjacent to, an electric transmission or distribution right-of-way granted by the Secretary or the Secretary of Agriculture has contacted or is in imminent danger of contacting one or more electric transmission or distribution lines, the owner or operator of the electric transmission or distribution lines—

''(1) may prune or remove the vegetation to avoid the disruption of electric service and risk of fire; and

''(2) shall notify the appropriate local agent of the relevant Secretary not later than 24 hours after such removal.

''(d) COMPLIANCE WITH APPLICABLE RELIABILITY AND SAFETY STANDARDS.—If vegetation on Federal lands within or adjacent to an electric transmission or distribution right-of-way under the jurisdiction of each Secretary does not meet clearance requirements under standards established by the North American Electric Reliability Corporation, or by State and local authorities, and the Secretary having jurisdiction over the lands has failed to act to allow an electric transmission or distribution facility owner or operator to conduct vegetation management activities within 3 business days after receiving a request to allow such activities, the owner or operator may, after notifying the Secretary, conduct such vegetation management activities to meet those clearance requirements.

''(e) REPORTING REQUIREMENT.—The Secretary or Secretary of Agriculture shall report requests and actions made under subsections (c) and (d) annually on each Secretary's website.

''(f) LIABILITY.—An owner or operator of an electric transmission or distribution facility shall not be held liable for wildfire damage, loss, or injury, including the cost of fire suppression, if—

''(1) the Secretary or the Secretary of Agriculture fails to allow the owner or operator to operate consistently with an approved vegetation management, facility inspection, and operation and maintenance plan on Federal lands under the relevant Secretary's jurisdiction within or adjacent to a right-of-way to comply with Federal, State, or local electric system reliability and fire safety standards, including standards established by the North American Electric Reliability Corporation; or

''(2) the Secretary or the Secretary of Agriculture fails to allow the owner or operator of the electric transmission or distribution facility to perform appropriate vegetation management activities in response to an identified hazard tree, or a tree in imminent danger of contacting the owner's or operator's electric transmission or distribution facility.

''(g) TRAINING AND GUIDANCE.—In consultation with the electric utility industry, the Secretary and the Secretary of Agriculture are encouraged to develop a program to train personnel of the Department of the Interior and the Forest Service involved in vegetation management decisions relating to electric transmission and distribution facilities to ensure that such personnel—

''(1) understand electric system reliability and fire safety requirements, including reliability standards established by the North American Electric Reliability Corporation;

''(2) assist owners and operators of electric transmission and distribution facilities to comply with applicable electric reliability and fire safety requirements; and

''(3) encourage and assist willing owners and operators of electric transmission and distribution facilities to incorporate on a voluntary basis vegetation management practices to enhance habitats and forage for pollinators and for other wildlife so long as the practices are compatible with the integrated vegetation management practices necessary for reliability and safety.

''(h) IMPLEMENTATION.—The Secretary and the Secretary of Agriculture shall—

''(1) not later than one year after the date of the enactment of this section, propose regulations, or amended existing regulations, to implement this section; and

''(2) not later than two years after the date of the enactment of this section, finalize regulations, or amended existing regulations, to implement this section.

Such petition shall be filed not later than 30 days prior to such deadline. The court shall only grant an extension if the agency or tribe demonstrates, based on the record maintained under section 34, that it otherwise complied with the requirements of section 34 and that complying with the schedule set by the Commission would have prevented the agency or tribe from complying with applicable Federal or State law. If the court grants the extension, the court shall set a reasonable schedule and deadline, not to exceed 90 days, for the agency to act on remand. If the court denies the extension, or if an agency or tribe does not file for an extension as provided in this subsection and does not complete its disposition of a Federal authorization by the applicable deadline, the Commission and applicant may move forward with the proposed action.''.

Such annual charges shall be equivalent to the annual charges for use of a Government dam under section 10(e), unless the Commission determines, by rule, that a lower charge is appropriate to protect exemptees' investment in the project or avoid increasing the price to consumers of power due to such charges. The proceeds of charges made by the Commission under this paragraph shall be paid into the Treasury of the United States and credited to miscellaneous receipts. Subject to annual appropriation Acts, such proceeds shall be available to Federal and State fish and wildlife agencies for purposes of carrying out specific environmental enhancement projects in watersheds in which one or more facilities exempted under this subsection are located. ''(4) QUALIFYING NONPOWERED DAM.—The term 'qualifying nonpowered dam' means any dam, dike, embankment, or other barrier—

''(C) that, as of the date of enactment of this section, is not equipped with hydropower generating works that are licensed under, or exempted from the license requirements contained in, this part; and

''(D) that, in the case of a non-Federal dam, has been certified by an independent consultant approved by the Commission as complying with the Commission's dam safety requirements.''.

Reg. 13119), to provide notice and an opportunity for comment on—

''(I) dividing nonweatherized gas furnaces into two or more product classes with separate energy conservation standards based on capacity; and

''(II) any other matters the Secretary determines appropriate.

''(ii) On receipt of a statement that is submitted on or before January 1, 2016, jointly by interested persons that are fairly representative of relevant points of view, that contains recommended standards for nonweatherized gas furnaces and mobile home gas furnaces that are consistent with the requirements of this part (except that the date on which such standards will apply may be earlier or later than the date required under this part), the Secretary shall evaluate the standards proposed in the joint statement for consistency with the requirements of subsection (o), and shall publish notice of the potential adoption of the standards proposed in the joint statement, modified as necessary to ensure consistency with subsection (o). The Secretary shall solicit public comment for a period of at least 30 days with respect to such notice.

''(iii) Not later than July 31, 2016, but not before July 1, 2016, the Secretary shall publish a final rule containing a determination of whether the standards for nonweatherized gas furnaces and mobile home gas furnaces should be amended. Such rule shall contain any such amendments to the standards.''.

TITLE IV—CHANGING CRUDE OIL MARKET CONDITIONS

SEC. 4001. FINDINGS.

The Congress finds the following:

(1) The United States has enjoyed a renaissance in energy production, establishing the United States as the world's leading oil producer.

(2) By authorizing crude oil exports, the Congress can spur domestic energy production, create and preserve jobs, help maintain and strengthen our independent shipping fleet that is essential to national defense, and generate State and Federal revenues.

(3) An energy-secure United States that is a net exporter of energy has the potential to transform the security environment around the world, notably in Europe and the Middle East.

(4) For our European allies and Israel, the presence of more United States oil in the market will offer more secure supply options, which will strengthen United States strategic alliances and help curtail the use of energy as a political weapon.

(5) The 60-ship Maritime Security Fleet is a vital element of our military's strategic sealift and global response capability. It assures United States-flag ships and United States crews will be available to support the United States military when it needs to mobilize to protect our allies, and is the most prudent and economical solution to meet current and projected sealift requirements for the United States.

(6) The Maritime Security Fleet program provides a labor base of skilled American mariners who are available to crew the United States Government-owned strategic sealift fleet, as well as the United States commercial fleet, in both peace and war.

(7) The United States has reduced its oil consumption over the past decade, and increasing investment in clean energy technology and energy efficiency will lower energy prices, reduce greenhouse gas emissions, and increase national security.

SEC. 4002. REPEAL.

Section 103 of the Energy Policy and Conservation Act (42 U.S.C. 6212) and the item relating thereto in the table of contents of that Act are repealed.

DIVISION C—NATURAL RESOURCES

TITLE I—WESTERN WATER AND AMERICAN FOOD SECURITY ACT

SEC. 1001. SHORT TITLE.

This title may be cited as the ''Western Water and American Food Security Act of 2015''.

SEC. 1002. FINDINGS.

Congress finds as follows:

(1) As established in the Proclamation of a State of Emergency issued by the Governor of the State on January 17, 2014, the State is experiencing record dry conditions.

(2) Extremely dry conditions have persisted in the State since 2012, and the drought conditions are likely to persist into the future.

(3) The water supplies of the State are at record-low levels, as indicated by the fact that all major Central Valley Project reservoir levels were at 20–35 percent of capacity as of September 25, 2014.

(4) The lack of precipitation has been a significant contributing factor to the 6,091 fires experienced in the State as of September 15, 2014, and which covered nearly 400,000 acres.

(5) According to a study released by the University of California, Davis in July 2014, the drought has led to the fallowing of 428,000 acres of farmland, loss of $810 million in crop revenue, loss of $203 million in dairy and other livestock value, and increased groundwater pumping costs by $454 million. The statewide economic costs are estimated to be $2.2 billion, with over 17,000 seasonal and part-time agricultural jobs lost.

(6) CVPIA Level II water deliveries to refuges have also been reduced by 25 percent in the north of Delta region, and by 35 percent in the south of Delta region.

(7) Only one-sixth of the usual acres of rice fields are being flooded this fall, which leads to a significant decline in habitat for migratory birds and an increased risk of disease at the remaining wetlands due to overcrowding of such birds.

(8) The drought of 2013 through 2014 constitutes a serious emergency that poses immediate and severe risks to human life and safety and to the environment throughout the State.

(9) The serious emergency described in paragraph (4) requires—

(A) immediate and credible action that respects the complexity of the water system of the State and the importance of the water system to the entire State; and

(B) policies that do not pit stakeholders against one another, which history shows only leads to costly litigation that benefits no one and prevents any real solutions.

(10) Data on the difference between water demand and reliable water supplies for various regions of California south of the Delta, including the San Joaquin Valley, indicate there is a significant annual gap between reliable water supplies to meet agricultural, municipal and industrial, groundwater, and refuges water needs within the Delta Division, San Luis Unit and Friant Division of the Central Valley Project and the State Water Project south of the Sacramento-San Joaquin River Delta and the demands of those areas. This gap varies depending on the methodology of the analysis performed, but can be represented in the following ways:

(A) For Central Valley Project South-of-Delta water service contractors, if it is assumed that a water supply deficit is the difference in the amount of water available for allocation versus the maximum contract quantity, then the water supply deficits that have developed from 1992 to 2014 as a result of legislative and regulatory changes besides natural variations in hydrology during this timeframe range between 720,000 and 1,100,000 acre-feet.

(B) For Central Valley Project and State Water Project water service contractors south of the Delta and north of the Tehachapi mountain range, if it is assumed that a water supply deficit is the difference between reliable water supplies, including maximum water contract deliveries, safe yield of groundwater, safe yield of local and surface supplies and long-term contracted water transfers, and water demands, including water demands from agriculture, municipal and industrial and refuge contractors, then the water supply deficit ranges between approximately 2,500,000 to 2,700,000 acre-feet.

(11) Data of pumping activities at the Central Valley Project and State Water Project delta pumps identifies that, on average from Water Year 2009 to Water Year 2014, take of Delta smelt is 80 percent less than allowable take levels under the biological opinion issued December 15, 2008.

(12) Data of field sampling activities of the Interagency Ecological Program located in the Sacramento-San Joaquin Estuary identifies that, on average from 2005 to 2013, the program ''takes'' 3,500 delta smelt during annual surveys with an authorized ''take'' level of 33,480 delta smelt annually—according to the biological opinion issued December 9, 1997.

(13) In 2015, better information exists than was known in 2008 concerning conditions and operations that may or may not lead to high salvage events that jeopardize the fish populations, and what alternative management actions can be taken to avoid jeopardy.

(14) Alternative management strategies, removing non-native species, enhancing habitat, monitoring fish movement and location in real-time, and improving water quality in the Delta can contribute significantly to protecting and recovering these endangered fish species, and at potentially lower costs to water supplies.

(15) Resolution of fundamental policy questions concerning the extent to which application of the Endangered Species Act of 1973 affects the operation of the Central Valley Project and State Water Project is the responsibility of Congress.

SEC. 1012. REVISE INCIDENTAL TAKE LEVEL CALCULATION FOR DELTA SMELT TO REFLECT NEW SCIENCE.

(a) REVIEW AND MODIFICATION.—Not later than October 1, 2016, and at least every five years thereafter, the Director, in cooperation with other Federal, State, and local agencies, shall use the best scientific and commercial data available to complete a review and, modify the method used to calculate the incidental take levels for adult and larval/juvenile Delta smelt in the smelt biological opinion that takes into account all life stages, among other considerations—

(2) updated or more recently developed statistical models;

(3) updated scientific and commercial data; and

(4) the most recent information regarding the environmental factors affecting Delta smelt salvage.

(b) MODIFIED INCIDENTAL TAKE LEVEL.—Unless the Director determines in writing that one or more of the requirements described in paragraphs (1) through (4) are not appropriate, the modified incidental take level described in subsection (a) shall—

(1) be normalized for the abundance of prespawning adult Delta smelt using the Fall Midwater Trawl Index or other index;

(2) be based on a simulation of the salvage that would have occurred from 1993 through 2012 if OMR flow has been consistent with the smelt biological opinions;

(3) base the simulation on a correlation between annual salvage rates and historic water clarity and OMR flow during the adult salvage period; and

(4) set the incidental take level as the 80 percent upper prediction interval derived from simulated salvage rates since at least 1993.

SEC. 1013. FACTORING INCREASED REAL-TIME MONITORING AND UPDATED SCIENCE INTO DELTA SMELT MANAGEMENT.

(a) IN GENERAL.—The Director shall use the best scientific and commercial data available to implement, continuously evaluate, and refine or amend, as appropriate, the reasonable and prudent alternative described in the smelt biological opinion, and any successor opinions or court order. The Secretary shall make all significant decisions under the smelt biological opinion, or any successor opinions that affect Central Valley Project and State Water Project operations, in writing, and shall document the significant facts upon which such decisions are made, consistent with section 706 of title 5, United States Code.

(b) INCREASED MONITORING TO INFORM REAL-TIME OPERATIONS.—The Secretary shall conduct additional surveys, on an annual basis at the appropriate time of the year based on environmental conditions, in collaboration with other Delta science interests.

(1) In implementing this section, the Secretary shall—

(A) use the most accurate survey methods available for the detection of Delta smelt to determine the extent that adult Delta smelt are distributed in relation to certain levels of turbidity, or other environmental factors that may influence salvage rate; and

(B) use results from appropriate survey methods for the detection of Delta smelt to determine how the Central Valley Project and State Water Project may be operated more efficiently to minimize salvage while maximizing export pumping rates without causing a significant negative impact on the long-term survival of the Delta smelt.

(2) During the period beginning on December 1, 2015, and ending March 31, 2016, and in each successive December through March period, if suspended sediment loads enter the Delta from the Sacramento River and the suspended sediment loads appear likely to raise turbidity levels in the Old River north of the export pumps from values below 12 Nephelometric Turbidity Units (NTU) to values above 12 NTU, the Secretary shall—

(A) conduct daily monitoring using appropriate survey methods at locations including, but not limited to, the vicinity of Station 902 to determine the extent that adult Delta smelt are moving with turbidity toward the export pumps; and

(B) use results from the monitoring surveys referenced in paragraph (A) to determine how increased trawling can inform daily real-time Central Valley Project and State Water Project operations to minimize salvage while maximizing export pumping rates without causing a significant negative impact on the long-term survival of the Delta smelt.

(c) PERIODIC REVIEW OF MONITORING.—Within 12 months of the date of enactment of this title, and at least once every 5 years thereafter, the Secretary shall—

(1) evaluate whether the monitoring program under subsection (b), combined with other monitoring programs for the Delta, is providing sufficient data to inform Central Valley Project and State Water Project operations to minimize salvage while maximizing export pumping rates without causing a significant negative impact on the long-term survival of the Delta smelt; and

(2) determine whether the monitoring efforts should be changed in the short or long term to provide more useful data.

(d) DELTA SMELT DISTRIBUTION STUDY.—

(1) IN GENERAL.—No later than January 1, 2016, and at least every five years thereafter, the Secretary, in collaboration with the California Department of Fish and Wildlife, the California Department of Water Resources, public water agencies, and other interested entities, shall implement new targeted sampling and monitoring specifically designed to understand Delta smelt abundance, distribution, and the types of habitat occupied by Delta smelt during all life stages.

(B) be designed to understand Delta smelt abundance, distribution, habitat use, and movement throughout the Delta, Suisun Marsh, and other areas occupied by the Delta smelt during all seasons;

(C) consider areas not routinely sampled by existing monitoring programs, including wetland channels, near-shore water, depths below 35 feet, and shallow water; and

(D) use survey methods, including sampling gear, best suited to collect the most accurate data for the type of sampling or monitoring.

(e) SCIENTIFICALLY SUPPORTED IMPLEMENTATION OF OMR FLOW REQUIREMENTS.—In implementing the provisions of the smelt biological opinion, or any successor biological opinion or court order, pertaining to management of reverse flow in the Old and Middle Rivers, the Secretary shall—

(1) consider the relevant provisions of the biological opinion or any successor biological opinion;

(2) to maximize Central Valley project and State Water Project water supplies, manage export pumping rates to achieve a reverse OMR flow rate of −5,000 cubic feet per second unless information developed by the Secretary under paragraphs (3) and (4) leads the Secretary to reasonably conclude that a less negative OMR flow rate is necessary to avoid a negative impact on the long-term survival of the Delta smelt. If information available to the Secretary indicates that a reverse OMR flow rate more negative than −5,000 cubic feet per second can be established without an imminent negative impact on the long-term survival of the Delta smelt, the Secretary shall manage export pumping rates to achieve that more negative OMR flow rate;

(3) document in writing any significant facts about real-time conditions relevant to the determinations of OMR reverse flow rates, including—

(A) whether targeted real-time fish monitoring in the Old River pursuant to this section, including monitoring in the vicinity of Station 902, indicates that a significant negative impact on the long-term survival of the Delta smelt is imminent; and

(B) whether near-term forecasts with available salvage models show under prevailing conditions that OMR flow of −5,000 cubic feet per second or higher will cause a significant negative impact on the long-term survival of the Delta smelt;

(4) show in writing that any determination to manage OMR reverse flow at rates less negative than −5,000 cubic feet per second is necessary to avoid a significant negative impact on the long-term survival of the Delta smelt, including an explanation of the data examined and the connection between those data and the choice made, after considering—

(A) the distribution of Delta smelt throughout the Delta;

(B) the potential effects of documented, quantified entrainment on subsequent Delta smelt abundance;

(C) the water temperature;

(D) other significant factors relevant to the determination; and

(E) whether any alternative measures could have a substantially lesser water supply impact; and

(5) for any subsequent biological opinion, make the showing required in paragraph (4) for any determination to manage OMR reverse flow at rates less negative than the most negative limit in the biological opinion if the most negative limit in the biological opinion is more negative than −5,000 cubic feet per second.

(f) MEMORANDUM OF UNDERSTANDING.—No later than December 1, 2015, the Commissioner and the Director will execute a Memorandum of Understanding (MOU) to ensure that the smelt biological opinion is implemented in a manner that maximizes water supply while complying with applicable laws and regulations. If that MOU alters any procedures set out in the biological opinion, there will be no need to reinitiate consultation if those changes will not have a significant negative impact on the long-term survival on listed species and the implementation of the MOU would not be a major change to implementation of the biological opinion. Any change to procedures that does not create a significant negative impact on the long-term survival to listed species will not alter application of the take permitted by the incidental take statement in the biological opinion under section 7(o)(2) of the Endangered Species Act of 1973.

(g) CALCULATION OF REVERSE FLOW IN OMR.—Within 90 days of the enactment of this title, the Secretary is directed, in consultation with the California Department of Water Resources to revise the method used to calculate reverse flow in Old and Middle Rivers for implementation of the reasonable and prudent alternatives in the smelt biological opinion and the salmonid biological opinion, and any succeeding biological opinions, for the purpose of increasing Central Valley Project and State Water Project water supplies. The method of calculating reverse flow in Old and Middle Rivers shall be reevaluated not less than every five years thereafter to achieve maximum export pumping rates within limits established by the smelt biological opinion, the salmonid biological opinion, and any succeeding biological opinions.

In this subtitle:

(1) ASSISTANT ADMINISTRATOR.—The term ''Assistant Administrator'' means the Assistant Administrator of the National Oceanic and Atmospheric Administration for Fisheries.

(2) SECRETARY.—The term ''Secretary'' means the Secretary of Commerce.

(3) OTHER AFFECTED INTERESTS.—The term ''other affected interests'' means the State of California, Indian tribes, subdivisions of the State of California, public water agencies and those who benefit directly and indirectly from the operations of the Central Valley Project and the State Water Project.

(4) COMMISSIONER.—The term ''Commissioner'' means the Commissioner of the Bureau of Reclamation.

(5) DIRECTOR.—The term ''Director'' means the Director of the United States Fish and Wildlife Service.

SEC. 1022. PROCESS FOR ENSURING SALMONID MANAGEMENT IS RESPONSIVE TO NEW SCIENCE.

(a) GENERAL DIRECTIVE.—The reasonable and prudent alternative described in the salmonid biological opinion allows for and anticipates adjustments in Central Valley Project and State Water Project operation parameters to reflect the best scientific and commercial data currently available, and authorizes efforts to test and evaluate improvements in operations that will meet applicable regulatory requirements and maximize Central Valley Project and State Water Project water supplies and reliability. Implementation of the reasonable and prudent alternative described in the salmonid biological opinion shall be adjusted accordingly as new scientific and commercial data are developed. The Commissioner and the Assistant Administrator shall fully utilize these authorities as described below.

(b) ANNUAL REVIEWS OF CERTAIN CENTRAL VALLEY PROJECT AND STATE WATER PROJECT OPERATIONS.—No later than December 31, 2016, and at least annually thereafter:

(1) The Commissioner, with the assistance of the Assistant Administrator, shall examine and identify adjustments to the initiation of Action IV.2.3 as set forth in the Biological Opinion and Conference Opinion on the Long-Term Operations of the Central Valley Project and State Water Project, Endangered Species Act Section 7 Consultation, issued by the National Marine Fisheries Service on June 4, 2009, pertaining to negative OMR flows, subject to paragraph (5).

(2) The Commissioner, with the assistance of the Assistant Administrator, shall examine and identify adjustments in the timing, triggers or other operational details relating to the implementation of pumping restrictions in Action IV.2.1 pertaining to the inflow to export ratio, subject to paragraph (5).

(3) Pursuant to the consultation and assessments carried out under paragraphs (1) and (2) of this subsection, the Commissioner and the Assistant Administrator shall jointly make recommendations to the Secretary of the Interior and to the Secretary on adjustments to project operations that, in the exercise of the adaptive management provisions of the salmonid biological opinion, will reduce water supply impacts of the salmonid biological opinion on the Central Valley Project and the California State Water Project and are consistent with the requirements of applicable law and as further described in subsection (c).

(4) The Secretary and the Secretary of the Interior shall direct the Commissioner and Assistant Administrator to implement recommended adjustments to Central Valley Project and State Water Project operations for which the conditions under subsection (c) are met.

(5) The Assistant Administrator and the Commissioner shall review and identify adjustments to Central Valley Project and State Water Project operations with water supply restrictions in any successor biological opinion to the salmonid biological opinion, applying the provisions of this section to those water supply restrictions where there are references to Actions IV.2.1 and IV.2.3.

(c) IMPLEMENTATION OF OPERATIONAL ADJUSTMENTS.—After reviewing the recommendations under subsection (b), the Secretary of the Interior and the Secretary shall direct the Commissioner and the Assistant Administrator to implement those operational adjustments, or any combination, for which, in aggregate—

(1) the net effect on listed species is equivalent to those of the underlying project operational parameters in the salmonid biological opinion, taking into account both—

(A) efforts to minimize the adverse effects of the adjustment to project operations; and

(B) whatever additional actions or measures may be implemented in conjunction with the adjustments to operations to offset the adverse effects to listed species, consistent with (d), that are in excess of the adverse effects of the underlying operational parameters, if any; and

(2) the effects of the adjustment can be reasonably expected to fall within the incidental take authorizations.

(d) EVALUATION OF OFFSETTING MEASURES.—When examining and identifying opportunities to offset the potential adverse effect of adjustments to operations under subsection (c)(1)(B), the Commissioner and the Assistant Administrator shall take into account the potential species survival improvements that are likely to result from other measures which, if implemented in conjunction with such adjustments, would offset adverse effects, if any, of the adjustments. When evaluating offsetting measures, the Commissioner and the Assistant Administrator shall consider the type, timing and nature of the adverse effects, if any, to specific species and ensure that the measures likely provide equivalent overall benefits to the listed species in the aggregate, as long as the change will not cause a significant negative impact on the long-term survival of a listed salmonid species.

(e) FRAMEWORK FOR EXAMINING OPPORTUNITIES TO MINIMIZE OR OFFSET THE POTENTIAL ADVERSE EFFECT OF ADJUSTMENTS TO OPERATIONS.—Not later than December 31, 2015, and every five years thereafter, the Assistant Administrator shall, in collaboration with the Director of the California Department of Fish and Wildlife, based on the best scientific and commercial data available and for each listed salmonid species, issue estimates of the increase in through-Delta survival the Secretary expects to be achieved—

(1) through restrictions on export pumping rates as specified by Action IV.2.3 as compared to limiting OMR flow to a fixed rate of −5,000 cubic feet per second within the time period Action IV.2.3 is applicable, based on a given rate of San Joaquin River inflow to the Delta and holding other relevant factors constant;

(2) through San Joaquin River inflow to export restrictions on export pumping rates specified within Action IV.2.1 as compared to the restrictions in the April/May period imposed by the State Water Resources Control Board decision D–1641, based on a given rate of San Joaquin River inflow to the Delta and holding other relevant factors constant;

(3) through physical habitat restoration improvements;

(4) through predation control programs;

(5) through the installation of temporary barriers, the management of Cross Channel Gates operations, and other projects affecting flow in the Delta;

(6) through salvaging fish that have been entrained near the entrance to Clifton Court Forebay;

(7) through any other management measures that may provide equivalent or better protections for listed species while maximizing export pumping rates without causing a significant negative impact on the long-term survival of a listed salmonid species; and

(8) through development and implementation of conservation hatchery programs for salmon and steelhead to aid in the recovery of listed salmon and steelhead species.

(f) SURVIVAL ESTIMATES.—

(1) To the maximum extent practicable, the Assistant Administrator shall make quantitative estimates of survival such as a range of percentage increases in through-Delta survival that could result from the management measures, and if the scientific information is lacking for quantitative estimates, shall do so on qualitative terms based upon the best available science.

(2) If the Assistant Administrator provides qualitative survival estimates for a species resulting from one or more management measures, the Secretary shall, to the maximum extent feasible, rank the management measures described in subsection (e) in terms

of their most likely expected contribution to increased through-Delta survival relative to the other measures.

(3) If at the time the Assistant Administrator conducts the reviews under subsection (b), the Secretary has not issued an estimate of increased through-Delta survival from different management measures pursuant to subsection (e), the Secretary shall compare the protections to the species from different management measures based on the best scientific and commercial data available at the time.

(g) COMPARISON OF ADVERSE CONSEQUENCES FOR ALTERNATIVE MANAGEMENT MEASURES OF EQUIVALENT PROTECTION FOR A SPECIES.—

(1) For the purposes of this subsection and subsection (c)—

(A) the alternative management measure or combination of alternative management measures identified in paragraph (2) shall be known as the ''equivalent alternative measure'';

(B) the existing measure or measures identified in subparagraphs (2) (A), (B), (C), or (D) shall be known as the ''equivalent existing measure''; and

(C) an ''equivalent increase in through-Delta survival rates for listed salmonid species'' shall mean an increase in through-Delta survival rates that is equivalent when considering the change in through-Delta survival rates for the listed salmonid species in the aggregate, and not the same change for each individual species, as long as the change in survival rates will not cause a significant negative impact on the long-term survival of a listed salmonid species.

(2) As part of the reviews of project operations pursuant to subsection (b), the Assistant Administrator shall determine whether any alternative management measures or combination of alternative management measures listed in subsection (e) (3) through (8) would provide an increase in through-Delta survival rates for listed salmonid species that is equivalent to the increase in through-Delta survival rates for listed salmonid species from the following:

(A) Through restrictions on export pumping rates as specified by Action IV.2.3, as compared to limiting OMR flow to a fixed rate of −5,000 cubic feet per second within the time period Action IV.2.3 is applicable.

(B) Through restrictions on export pumping rates as specified by Action IV.2.3, as compared to a modification of Action IV.2.3 that would provide additional water supplies, other than that described in subparagraph (A).

(C) Through San Joaquin River inflow to export restrictions on export pumping rates specified within Action IV.2.1, as compared to the restrictions in the April/May period imposed by the State Water Resources Control Board decision D–1641.

(D) Through San Joaquin River inflow to export restrictions on export pumping rates specified within Action IV.2.1, as compared to a modification of Action IV.2.1 that would reduce water supply impacts of the salmonid biological opinion on the Central Valley Project and the California State Water Project, other than that described in subparagraph (C).

(3) If the Assistant Administrator identifies an equivalent alternative measure pursuant to paragraph (2), the Assistant Administrator shall determine whether—

(A) it is technically feasible and within Federal jurisdiction to implement the equivalent alternative measure;

(B) the State of California, or subdivision thereof, or local agency with jurisdiction has certified in writing within 10 calendar days to the Assistant Administrator that it has the authority and capability to implement the pertinent equivalent alternative measure; or

(C) the adverse consequences of doing so are less than the adverse consequences of the equivalent existing measure, including a concise evaluation of the adverse consequences to other affected interests.

(4) If the Assistant Administrator makes the determinations in subparagraph (3)(A) or (3)(B), the Commissioner shall adjust project operations to implement the equivalent alternative measure in place of the equivalent existing measure in order to increase export rates of pumping to the greatest extent possible while maintaining a net combined effect of equivalent through-Delta survival rates for the listed salmonid species.

(h) TRACKING ADVERSE EFFECTS BEYOND THE RANGE OF EFFECTS ACCOUNTED FOR IN THE SALMONID BIOLOGICAL OPINION AND COORDINATED OPERATION WITH THE DELTA SMELT BIOLOGICAL OPINION.—

(1) Among the adjustments to the project operations considered through the adaptive management process under this section, the Assistant Administrator and the Commissioner shall—

(A) evaluate the effects on listed salmonid species and water supply of the potential adjustment to operational criteria described in subparagraph (B); and

(B) consider requiring that before some or all of the provisions of Actions IV.2.1. or IV.2.3 are imposed in any specific instance, the Assistant Administrator show that the implementation of these provisions in that specific instance is necessary to avoid a significant negative impact on the long-term survival of a listed salmonid species.

(2) The Assistant Administrator, the Director, and the Commissioner, in coordination with State officials as appropriate, shall establish operational criteria to coordinate management of OMR flows under the smelt and salmonid biological opinions, in order to take advantage of opportunities to provide additional water supplies from the coordinated implementation of the biological opinions.

(3) The Assistant Administrator and the Commissioner shall document the effects of any adaptive management decisions related to the coordinated operation of the smelt and salmonid biological opinions that prioritizes the maintenance of one species at the expense of the other.

(i) REAL-TIME MONITORING AND MANAGEMENT.—Notwithstanding the calendar based triggers described in the salmonid biological opinion Reasonable and Prudent Alternative (RPA), the Assistant Administrator and the Commissioner shall not limit OMR reverse flow to −5,000 cubic feet per second unless current monitoring data indicate that this OMR flow limitation is reasonably required to avoid a significant negative impact on the long-term survival of a listed salmonid species.

(j) EVALUATION AND IMPLEMENTATION OF MANAGEMENT MEASURES.—If the quantitative estimates of through-Delta survival established by the Secretary for the adjustments in subsection (b)(2) exceed the through-Delta survival established for the RPAs, the Secretary shall evaluate and implement the management measures in subsection (b)(2) as a prerequisite to implementing the RPAs contained in the Salmonid Biological Opinion.

(k) ACCORDANCE WITH OTHER LAW.—Consistent with section 706 of title 5, United States Code, decisions of the Assistant Administrator and the Commissioner described in subsections (b) through (j) shall be made in writing, on the basis of best scientific and commercial data currently available, and shall include an explanation of the data examined at the connection between those data and the decisions made.

SEC. 1023. NON-FEDERAL PROGRAM TO PROTECT NATIVE ANADROMOUS FISH IN THE STANISLAUS RIVER.

(a) ESTABLISHMENT OF NONNATIVE PREDATOR FISH REMOVAL PROGRAM.—The Secretary and the districts, in consultation with the Director, shall jointly develop and conduct a nonnative predator fish removal program to remove nonnative striped bass, smallmouth bass, largemouth bass, black bass, and other nonnative predator fish species from the Stanislaus River. The program shall—

(1) be scientifically based;

(2) include methods to quantify the number and size of predator fish removed each year, the impact of such removal on the overall abundance of predator fish, and the impact of such removal on the populations of juvenile anadromous fish found in the Stanislaus River by, among other things, evaluating the number of juvenile anadromous fish that migrate past the rotary screw trap located at Caswell;

(3) among other methods, use wire fyke trapping, portable resistance board weirs, and boat electrofishing; and

(4) be implemented as quickly as possible following the issuance of all necessary scientific research.

(b) MANAGEMENT.—The management of the program shall be the joint responsibility of the Secretary and the districts. Such parties shall work collaboratively to ensure the performance of the program, and shall discuss and agree upon, among other things, changes in the structure, management, personnel, techniques, strategy, data collection, reporting, and conduct of the program.

(c) CONDUCT.—

(1) IN GENERAL.—By agreement between the Secretary and the districts, the program may be conducted by their own personnel, qualified private contractors hired by the districts, personnel of, on loan to, or otherwise assigned to the National Marine Fisheries Service, or a combination thereof.

(2) PARTICIPATION BY THE NATIONAL MARINE FISHERIES SERVICE.—If the districts elect to conduct the program using their own personnel or qualified private contractors hired by them in accordance with paragraph (1), the Secretary may assign an employee of, on loan to, or otherwise assigned to the National Marine Fisheries Service, to be present for all activities performed in the field. Such presence shall ensure compliance with the agreed-upon elements specified in subsection (b). The districts shall pay the cost of such participation in accordance with subsection (d).

(3) TIMING OF ELECTION.—The districts shall notify the Secretary of their election on or before October 15 of each calendar year of the program. Such an election shall apply to the work performed in the subsequent calendar year.

(d) FUNDING.—

(1) IN GENERAL.—The districts shall be responsible for 100 percent of the cost of the program.

(2) CONTRIBUTED FUNDS.—The Secretary may accept and use contributions of funds from the districts to carry out activities under the program.

(3) ESTIMATION OF COST.—On or before December 1 of each year of the program, the Secretary shall submit to the districts an estimate of the cost to be incurred by the National Marine Fisheries Service for the program in the following calendar year, if any, including the cost of any data collection and posting under subsection (e). If an amount equal to the estimate is not provided through contributions pursuant to paragraph (2) before December 31 of that year—

(A) the Secretary shall have no obligation to conduct the program activities otherwise scheduled for such following calendar year

until such amount is contributed by the districts; and

(B) the districts may not conduct any aspect of the program until such amount is contributed by the districts.

(4) ACCOUNTING.—On or before September 1 of each year, the Secretary shall provide to the districts an accounting of the costs incurred by the Secretary for the program in the preceding calendar year. If the amount contributed by the districts pursuant to paragraph (2) for that year was greater than the costs incurred by the Secretary, the Secretary shall—

(A) apply the excess contributions to costs of activities to be performed by the Secretary under the program, if any, in the next calendar year; or

(B) if no such activities are to be performed, repay the excess contribution to the districts.

(e) POSTING AND EVALUATION.—On or before the 15th day of each month, the Secretary shall post on the Internet website of the National Marine Fisheries Service a tabular summary of the raw data collected under the program in the preceding month.

(f) IMPLEMENTATION.—The program is hereby found to be consistent with the requirements of the Central Valley Project Improvement Act (Public Law 102–575). No provision, plan or definition established or required by the Central Valley Project Improvement Act (Public Law 102–575) shall be used to prohibit the imposition of the program, or to prevent the accomplishment of its goals.

(g) TREATMENT OF STRIPED BASS.—For purposes of the application of the Central Valley Project Improvement Act (title XXXIV of Public Law 102–575) with respect to the program, striped bass shall not be treated as anadromous fish.

(h) DEFINITION.—For the purposes of this section, the term ''districts'' means the Oakdale Irrigation District and the South San Joaquin Irrigation District, California.

SEC. 1024. PILOT PROJECTS TO IMPLEMENT CALFED INVASIVE SPECIES PROGRAM.

(1) IN GENERAL.—On request by the Governor of the State, the Secretaries shall use the expedited procedures under this subsection to make final decisions relating to a Federal project or operation, or to local or State projects or operations that require decisions by the Secretary of the Interior or the Secretary of Commerce to provide additional water supplies if the project's or operation's purpose is to provide relief for emergency drought conditions pursuant to subsections (a) and (b).

(2) REQUEST FOR RESOLUTION.—

(A) IN GENERAL.—On request by the Governor of the State, the Secretaries referenced in paragraph (1), or the head of another Federal agency responsible for carrying out a review of a project, as applicable, the Secretary of the Interior shall convene a final project decision meeting with the heads of all relevant Federal agencies to decide whether to approve a project to provide relief for emergency drought conditions.

(B) MEETING.—The Secretary of the Interior shall convene a meeting requested under subparagraph (A) not later than 7 days after the date on which the meeting request is received.

SEC. 1033. OPERATION OF CROSS-CHANNEL GATES.

(a) IN GENERAL.—The Secretary of Commerce and the Secretary of the Interior shall jointly—

(1) authorize and implement activities to ensure that the Delta Cross Channel Gates remain open to the maximum extent practicable using findings from the United States Geological Survey on diurnal behavior of juvenile salmonids, timed to maximize the peak flood tide period and provide water supply and water quality benefits for the duration of the drought emergency declaration of the State, and for the period of time such that in any year that the Sacramento Valley index is 6.5 or lower, or at the request of the State of California, and until two succeeding years following either of those events have been completed where the final Sacramento Valley Index is 7.8 or greater, consistent with operational criteria and monitoring criteria set forth into the Order Approving a Temporary Urgency Change in License and Permit Terms in Response to Drought Conditions of the California State Water Resources Control Board, effective January 31, 2014 (or a successor order) and other authorizations associated with it;

(2) with respect to the operation of the Delta Cross Channel Gates described in paragraph (1), collect data on the impact of that operation on—

(A) species listed as threatened or endangered under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.);

(B) water quality; and

(C) water supply;

(4) evaluate the combined salmonid survival in light of activities carried out pursuant to paragraphs (1) through (3) in deciding how to operate the Delta Cross Channel gates to enhance salmonid survival and water supply benefits; and

(5) not later than May 15, 2016, submit to the appropriate committees of the House of Representatives and the Senate a notice and explanation on the extent to which the gates are able to remain open.

(b) RECOMMENDATIONS.—After assessing the information collected under subsection (a), the Secretary of the Interior shall recommend revisions to the operation of the Delta Cross-Channel Gates, to the Central Valley Project, and to the State Water Project, including, if appropriate, any reasonable and prudent alternative contained in the biological opinion issued by the National Marine Fisheries Service on June 4, 2009, that are likely to produce water supply benefits without causing a significant negative impact on the long-term survival of the listed fish species within the Delta or on water quality.

SEC. 1034. FLEXIBILITY FOR EXPORT/INFLOW RATIO.

For the period of time such that in any year that the Sacramento Valley index is 6.5 or lower, or at the request of the State of California, and until two succeeding years following either of those events have been completed where the final Sacramento Valley Index is 7.8 or greater, the Commissioner of the Bureau of Reclamation shall continue to vary the averaging period of the Delta Export/Inflow ratio pursuant to the California State Water Resources Control Board decision D1641—

(1) to operate to a 35-percent Export/Inflow ratio with a 3-day averaging period on the rising limb of a Delta inflow hydrograph; and

(2) to operate to a 14-day averaging period on the falling limb of the Delta inflow hydrograph.

SEC. 1035. EMERGENCY ENVIRONMENTAL REVIEWS.

(a) NEPA COMPLIANCE.—To minimize the time spent carrying out environmental reviews and to deliver water quickly that is needed to address emergency drought conditions in the State during the duration of an emergency drought declaration, the Secretaries shall, in carrying out this Act, consult with the Council on Environmental Quality in accordance with section 1506.11 of title 40, Code of Federal Regulations (including successor regulations), to develop alternative arrangements to comply with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) during the emergency.

(b) DETERMINATIONS.—For the purposes of this section, a Secretary may deem a project to be in compliance with all necessary environmental regulations and reviews if the Secretary determines that the immediate implementation of the project is necessary to address—

(1) human health and safety; or

(2) a specific and imminent loss of agriculture production upon which an identifiable region depends for 25 percent or more of its tax revenue used to support public services including schools, fire or police services, city or county health facilities, unemployment services or other associated social services.

SEC. 1036. INCREASED FLEXIBILITY FOR REGULAR PROJECT OPERATIONS.

The Secretaries shall, consistent with applicable laws (including regulations)—

(1) in coordination with the California Department of Water Resources and the California Department of Fish and Wildlife, implement offsite upstream projects in the Delta and upstream of the Sacramento River and San Joaquin basins that offset the effects on species listed as threatened or endangered under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.) due to activities carried out pursuant this Act, as determined by the Secretaries;

(2) manage reverse flow in the Old and Middle Rivers at −6,100 cubic feet per second if real-time monitoring indicates that flows of −6,100 cubic feet per second or more negative can be established for specific periods without causing a significant negative impact on the long-term survival of the Delta smelt, or if real-time monitoring does not support flows of −6,100 cubic feet per second than manage OMR flows at −5,000 cubic feet per second subject to section 1013(e)(3) and (4); and

(3) use all available scientific tools to identify any changes to real-time operations of the Bureau of Reclamation, State, and local water projects that could result in the availability of additional water supplies.

SEC. 1037. TEMPORARY OPERATIONAL FLEXIBILITY FOR FIRST FEW STORMS OF THE WATER YEAR.

(a) IN GENERAL.—Consistent with avoiding a significant negative impact on the long-term survival in the short term upon listed fish species beyond the range of those authorized under the Endangered Species Act of 1973 and other environmental protections under subsection (e), the Secretaries shall authorize the Central Valley Project and the State Water Project, combined, to operate at levels that result in negative OMR flows at −7,500 cubic feet per second (based on United States Geological Survey gauges on Old and Middle Rivers) daily average for 56 cumulative days after October 1 as described in subsection (c).

(b) DAYS OF TEMPORARY OPERATIONAL FLEXIBILITY.—The temporary operational flexibility described in subsection (a) shall be authorized on days that the California Department of Water Resources determines the daily average river flow of the Sacramento River is at, or above, 17,000 cubic feet per second as measured at the Sacramento River at Freeport gauge maintained by the United States Geologic Survey.

(c) COMPLIANCE WITH ENDANGERED SPECIES ACT AUTHORIZATIONS.—In carrying out this section, the Secretaries may continue to impose any requirements under the smelt and salmonid biological opinions during any period of temporary operational flexibility as they determine are reasonably necessary to avoid an additional significant negative impacts on the long-term survival of a listed fish species beyond the range of those authorized under the Endangered Species Act of 1973, provided that the requirements imposed do not reduce water supplies available for the Central Valley Project and the State Water Project.

(d) OTHER ENVIRONMENTAL PROTECTIONS.—

(1) STATE LAW.—The Secretaries' actions under this section shall be consistent with applicable regulatory requirements under State law.

(2) FIRST SEDIMENT FLUSH.—During the first flush of sediment out of the Delta in each water year, and provided that such determination is based upon objective evidence, OMR flow may be managed at rates less negative than −5,000 cubic feet per second for a minimum duration to avoid movement of adult Delta smelt (Hypomesus transpacificus) to areas in the southern Delta that would be likely to increase entrainment at Central Valley Project and State Water Project pumping plants.

(3) APPLICABILITY OF OPINION.—This section shall not affect the application of the salmonid biological opinion from April 1 to May 31, unless the Secretary of Commerce finds that some or all of such applicable requirements may be adjusted during this time period to provide emergency water supply relief without resulting in additional adverse effects beyond those authorized under the Endangered Species Act of 1973. In addition to any other actions to benefit water supply, the Secretary of the Interior and the Secretary of Commerce shall consider allowing through-Delta water transfers to occur during this period if they can be accomplished consistent with section 3405(a)(1)(H) of the Central Valley Project Improvement Act. Water transfers solely or exclusively through the State Water Project are not required to be consistent with section 3405(a)(1)(H) of the Central Valley Project Improvement Act.

(4) MONITORING.—During operations under this section, the Commissioner of Reclamation, in coordination with the Fish and Wildlife Service, National Marine Fisheries Service, and California Department of Fish and Wildlife, shall undertake a monitoring program and other data gathering to ensure incidental take levels are not exceeded, and to identify potential negative impacts and actions, if any, necessary to mitigate impacts of the temporary operational flexibility to species listed under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.).

(e) TECHNICAL ADJUSTMENTS TO TARGET PERIOD.—If, before temporary operational flexibility has been implemented on 56 cumulative days, the Secretaries operate the Central Valley Project and the State Water Project combined at levels that result in OMR flows less negative than −7,500 cubic feet per second during days of temporary operational flexibility as defined in subsection (c), the duration of such operation shall not be counted toward the 56 cumulative days specified in subsection (a).

(f) EMERGENCY CONSULTATION; EFFECT ON RUNNING AVERAGES.—

(1) If necessary to implement the provisions of this section, the Commissioner is authorized to take any action necessary to implement this section for up to 56 cumulative days. If during the 56 cumulative days the Commissioner determines that actions necessary to implement this section will exceed 56 days, the Commissioner shall use the emergency consultation procedures under the Endangered Species Act of 1973 and its implementing regulation at section 402.05 of title 50, Code of Federal Regulations, to temporarily adjust the operating criteria under the biological opinions—

(A) solely for extending beyond the 56 cumulative days for additional days of temporary operational flexibility—

(i) no more than necessary to achieve the purposes of this section consistent with the environmental protections in subsections (d) and (e); and

(ii) including, as appropriate, adjustments to ensure that the actual flow rates during the periods of temporary operational flexibility do not count toward the 5-day and 14-day running averages of tidally filtered daily OMR flow requirements under the biological opinions, or

(B) for other adjustments to operating criteria or to take other urgent actions to address water supply shortages for the least amount of time or volume of diversion necessary as determined by the Commissioner.

(2) Following the conclusion of the 56 cumulative days of temporary operational flexibility, or the extended number of days covered by the emergency consultation procedures, the Commissioner shall not reinitiate consultation on these adjusted operations, and no mitigation shall be required, if the effects on listed fish species of these operations under this section remain within the range of those authorized under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.). If the Commissioner reinitiates consultation, no mitigation measures shall be required.

(g) LEVEL OF DETAIL REQUIRED FOR ANALYSIS.—In articulating the determinations required under this section, the Secretaries shall fully satisfy the requirements herein but shall not be expected to provide a greater level of supporting detail for the analysis than feasible to provide within the short timeframe permitted for timely decision-making in response to changing conditions in the Delta.

Subtitle E—WATER RIGHTS PROTECTIONS

SEC. 1061. OFFSET FOR STATE WATER PROJECT.

(a) IMPLEMENTATION IMPACTS.—The Secretary of the Interior shall confer with the California Department of Fish and Wildlife in connection with the implementation of this Act on potential impacts to any consistency determination for operations of the State Water Project issued pursuant to California Fish and Game Code section 2080.1.

(b) ADDITIONAL YIELD.—If, as a result of the application of this Act, the California Department of Fish and Wildlife—

(1) revokes the consistency determinations pursuant to California Fish and Game Code section 2080.1 that are applicable to the State Water Project;

(2) amends or issues one or more new consistency determinations pursuant to California Fish and Game Code section 2080.1 in a manner that directly or indirectly results in reduced water supply to the State Water Project as compared with the water supply available under the smelt biological opinion and the salmonid biological opinion; or

(3) requires take authorization under California Fish and Game Code section 2081 for operation of the State Water Project in a manner that directly or indirectly results in reduced water supply to the State Water Project as compared with the water supply available under the smelt biological opinion and the salmonid biological opinion, and as a consequence of the Department's action, Central Valley Project yield is greater than it would have been absent the Department's actions, then that additional yield shall be made available to the State Water Project for delivery to State Water Project contractors to offset losses resulting from the Department's action.

(c) NOTIFICATION RELATED TO ENVIRONMENTAL PROTECTIONS.—The Secretary of the Interior shall immediately notify the Director of the California Department of Fish and Wildlife in writing if the Secretary of the Interior determines that implementation of the smelt biological opinion and the salmonid biological opinion consistent with this Act reduces environmental protections for any species covered by the opinions.

SEC. 1062. AREA OF ORIGIN PROTECTIONS.

(a) IN GENERAL.—The Secretary of the Interior is directed, in the operation of the Central Valley Project, to adhere to California's water rights laws governing water rights priorities and to honor water rights senior to those held by the United States for operation of the Central Valley Project, regardless of the source of priority, including any appropriative water rights initiated prior to December 19, 1914, as well as water rights and other priorities perfected or to be perfected pursuant to California Water Code Part 2 of Division 2. Article 1.7 (commencing with section 1215 of chapter 1 of part 2 of division 2, sections 10505, 10505.5, 11128, 11460, 11461, 11462, and 11463, and sections 12200 to 12220, inclusive).

(2) cause redirected adverse water supply or fiscal impacts to those within the Sacramento River watershed, the San Joaquin River watershed or the State Water Project service area.

(b) COSTS.—To the extent that costs are incurred solely pursuant to or as a result of this Act and would not otherwise have been incurred by any entity or public or local agency or subdivision of the State of California, such costs shall not be borne by any such entity, agency, or subdivision of the State of California, unless such costs are incurred on a voluntary basis.

(c) RIGHTS AND OBLIGATIONS NOT MODIFIED OR AMENDED.—Nothing in this Act shall modify or amend the rights and obligations of the parties to any existing—

(1) water service, repayment, settlement, purchase, or exchange contract with the United States, including the obligation to satisfy exchange contracts and settlement contracts prior to the allocation of any other Central Valley Project water; or

(E) In all other years not identified herein, the allocation percentage for existing Central Valley Project agricultural water service contractors within the Sacramento River Watershed shall not be less than twice the allocation percentage to south-of-Delta Central Valley Project agricultural water service contractors, up to 100 percent; provided, that nothing herein shall preclude an allocation to existing Central Valley Project agricultural water service contractors within the Sacramento River Watershed that is greater than twice the allocation percentage to south-of-Delta Central Valley Project agricultural water service contractors.

(2) CONDITIONS.—The Secretary's actions under paragraph (a) shall be subject to—

(A) the priority of individuals or entities with Sacramento River water rights, including those with Sacramento River Settlement Contracts, that have priority to the diversion and use of Sacramento River water over water rights held by the United States for operations of the Central Valley Project;

(B) the United States obligation to make a substitute supply of water available to the San Joaquin River Exchange Contractors; and

(C) the Secretary's obligation to make water available to managed wetlands pursuant to section 3406(d) of the Central Valley Project Improvement Act (Public Law 102–575).

(3) affect or limit the authority of the Secretary to implement municipal and industrial water shortage policies; or

(4) affect allocations to Central Valley Project municipal and industrial contractors pursuant to such policies.

Neither subsection (a) nor the Secretary's implementation of subsection (a) shall constrain, govern or affect, directly, the operations of the Central Valley Project's American River Division or any deliveries from that Division, its units or facilities.

(c) NO EFFECT ON ALLOCATIONS.—This section shall not—

(1) affect the allocation of water to Friant Division contractors; or

(2) result in the involuntary reduction in contract water allocations to individuals or entities with contracts to receive water from the Friant Division.

(d) PROGRAM FOR WATER RESCHEDULING.—The Secretary of the Interior shall develop and implement a program, not later than 1 year after the date of the enactment of this Act, to provide for the opportunity for existing Central Valley Project agricultural water service contractors within the Sacramento River Watershed to reschedule water, provided for under their Central Valley Project water service contracts, from one year to the next.

(e) DEFINITIONS.—In this section:

(1) The term ''existing Central Valley Project agricultural water service contractors within the Sacramento River Watershed'' means water service contractors within the Shasta, Trinity, and Sacramento River Divisions of the Central Valley Project, that have a water service contract in effect, on the date of the enactment of this section, that provides water for irrigation.

(2) The year type terms used in subsection (a) have the meaning given those year types in the Sacramento Valley Water Year Type (40–30–30) Index.

(A) provide for the repayment, either in lump sum or by accelerated prepayment, of the remaining construction costs identified in water project specific irrigation rate repayment schedules, as adjusted to reflect payment not reflected in such schedule, and properly assignable for ultimate return by the contractor, or if made in approximately equal installments, no later than 3 years after the effective date of the repayment contract, such amount to be discounted by ½ the Treasury rate. An estimate of the remaining construction costs, as adjusted, shall be provided by the Secretary to the contractor no later than 90 days following receipt of request of the contractor;

(B) require that construction costs or other capitalized costs incurred after the effective date of the contract or not reflected in the rate schedule referenced in subparagraph (A), and properly assignable to such contractor shall be repaid in not more than 5 years after notification of the allocation if such amount is a result of a collective annual allocation of capital costs to the contractors exercising contract conversation under this subsection of less than $5,000,000. If such amount is $5,000,000 or greater, such cost shall be repaid as provided by applicable reclamation law;

(C) provide that power revenues will not be available to aid in repayment of construction costs allocated to irrigation under the contract; and

(D) continue so long as the contractor pays applicable charges, consistent with section 9(d) of the Act of August 4, 1939 (53 Stat. 1195), and applicable law.

(3) CONTRACT REQUIREMENTS.—Except for those repayment contracts under which the contractor has previously negotiated for prepayment, the following shall apply with regard to all repayment contracts under subsection (c)(1) of section 9 of that Act (53 Stat. 1195) in effect on the date of enactment of this Act at the request of the contractor, and all contracts converted pursuant to paragraph (1)(B):

(A) Provide for the repayment in lump sum of the remaining construction costs identified in water project specific municipal and industrial rate repayment schedules, as adjusted to reflect payments not reflected in such schedule, and properly assignable for ultimate return by the contractor. An estimate of the remaining construction costs, as adjusted, shall be provided by the Secretary to the contractor no later than 90 days after receipt of request of contractor.

(B) The contract shall require that construction costs or other capitalized costs incurred after the effective date of the contract or not reflected in the rate schedule referenced in subparagraph (A), and properly assignable to such contractor, shall be repaid in not more than 5 years after notification of the allocation if such amount is a result of a collective annual allocation of capital costs to the contractors exercising contract conversation under this subsection of less than $5,000,000. If such amount is $5,000,000 or greater, such cost shall be repaid as provided by applicable reclamation law.

(b) ACCOUNTING.—The amounts paid pursuant to subsection (a) shall be subject to adjustment following a final cost allocation by the Secretary of the Interior. In the event that the final cost allocation indicates that the costs properly assignable to the contractor are greater than what has been paid by the contractor, the contractor shall be obligated to pay the remaining allocated costs. The term of such additional repayment contract shall be not less than one year and not more than 10 years, however, mutually agreeable provisions regarding the rate of repayment of such amount may be developed by the parties. In the event that the final cost allocation indicates that the costs properly assignable to the contractor are less than what the contractor has paid, the Secretary shall credit such overpayment as an offset against any outstanding or future obligation of the contractor.

(c) APPLICABILITY OF CERTAIN PROVISIONS.—

(1) EFFECT OF EXISTING LAW.—Upon a contractor's compliance with and discharge of the obligation of repayment of the construction costs pursuant to a contract entered into pursuant to subsection (a)(2)(A), subsections (a) and (b) of section 213 of the Reclamation Reform Act of 1982 (96 Stat. 1269) shall apply to affected lands.

Subtitle F—Recreational Fishing and Hunting Heritage Opportunities Act

SEC. 2061. SHORT TITLE.

This subtitle may be cited as the ''Recreational Fishing and Hunting Heritage and Opportunities Act''.

SEC. 2062. FINDINGS.

Congress finds that—

(1) recreational fishing and hunting are important and traditional activities in which millions of Americans participate;

(2) recreational anglers and hunters have been and continue to be among the foremost supporters of sound fish and wildlife management and conservation in the United States;

(3) recreational fishing and hunting are environmentally acceptable and beneficial activities that occur and can be provided on Federal lands and waters without adverse effects on other uses or users;

(4) recreational anglers, hunters, and sporting organizations provide direct assistance to fish and wildlife managers and enforcement officers of the Federal Government as well as State and local governments by investing volunteer time and effort to fish and wildlife conservation;

(5) recreational anglers, hunters, and the associated industries have generated billions of dollars of critical funding for fish and wildlife conservation, research, and management by providing revenues from purchases of fishing and hunting licenses, permits, and stamps, as well as excise taxes on fishing, hunting, and recreational shooting equipment that have generated billions of dollars of critical funding for fish and wildlife conservation, research, and management;

(6) recreational shooting is also an important and traditional activity in which millions of Americans participate;

(7) safe recreational shooting is a valid use of Federal lands, including the establishment of safe and convenient recreational shooting ranges on such lands, and participation in recreational shooting helps recruit and retain hunters and contributes to wildlife conservation;

(8) opportunities to recreationally fish, hunt, and shoot are declining, which depresses participation in these traditional activities, and depressed participation adversely impacts fish and wildlife conservation and funding for important conservation efforts; and

(9) the public interest would be served, and our citizens' fish and wildlife resources benefitted, by action to ensure that opportunities are facilitated to engage in fishing and hunting on Federal land as recognized by Executive Order No. 12962, relating to recreational fisheries, and Executive Order No. 13443, relating to facilitation of hunting heritage and wildlife conservation.

SEC. 3001. SHORT TITLE.

This title may be cited as the ''National Strategic and Critical Minerals Production Act of 2015''.

SEC. 3002. FINDINGS.

Congress finds the following:

(1) The industrialization of developing nations has driven demand for nonfuel minerals necessary for telecommunications, military technologies, healthcare technologies, and conventional and renewable energy technologies.

(2) The availability of minerals and mineral materials are essential for economic growth, national security, technological innovation, and the manufacturing and agricultural supply chain.

(3) The exploration, production, processing, use, and recycling of minerals contribute significantly to the economic well-being, security, and general welfare of the Nation.

(4) The United States has vast mineral resources, but is becoming increasingly dependent upon foreign sources of these mineral materials, as demonstrated by the following:

(A) Twenty-five years ago the United States was dependent on foreign sources for 45 nonfuel mineral materials, 8 of which the United States imported 100 percent of the Nation's requirements, and for another 19 commodities the United States imported more than 50 percent of the Nation's needs.

(B) By 2014 the United States import dependence for nonfuel mineral materials increased from 45 to 65 commodities, 19 of which the United States imported for 100 percent of the Nation's requirements, and an additional 24 of which the United States imported for more than 50 percent of the Nation's needs.

(C) The United States share of worldwide mineral exploration dollars was 7 percent in 2014, down from 19 percent in the early 1990s.

(D) In the 2014 Ranking of Countries for Mining Investment (out of 25 major mining countries), found that 7- to 10-year permitting delays are the most significant risk to mining projects in the United States.
