January 6 Million MAGA March  
 -Mr. President I am getting so many calls about the rally in DC on January 6 it's going to be huge. I'm helping to fund it and buses of people are coming in from all over the country to support you. It's going to be huge, we are also adding in programming the night of January 5th.  
 - on January 6 congress formally counts the Electoral College. Rep Mo Brooks (AL) is leading the charge to organize electors in both chambers to fight, and he needs just one Republican senator to force a debate and vote in any objection. The five Senators that are leaning yes are Tuberville, Rand Paul, Josh Hawley

"please Kimberly, tell the President to not stop fighting, this was stolen". 74 million people voted for you and right now at least 60 million of those people would follow you off a cliff. They want you to fight for the election you rightfully won and every Republican member of congress that does not fight alongside you, just know that I am keeping a list and we are going to primary every single one of them.

We're now at well over 100 House members and a dozen Senators ready to stand up for election integrity and object to certification.

It's time to fight back.

Dear MAGA- I am one of you. Before I worked for @realDonaldTrump, I worked for @MarkMeadows & @Jim\_Jordan & the @freedomcaucus. I marched in the 2010 Tea Party rallies. I campaigned w/ Trump & voted for him. But I need you to hear me: the Election was NOT stolen. We lost.
