Can I get a general idea of preparedness this smaller group is gear wise? For example do you have a stab vest? Plate carrier and plates? Helmet, bump cap? How about first aid? If you get hurt the medic should be using your supplies for triage not their own

I have everything, multiple plate carriers. Plates, full soft inserts, med pack filled with all kinds of shit. Kevlar helmet, bump helmet, mouth guard that kinds of stuff. Although I try to minimize what I wear, lots of gear to protect you seems like a good idea till you have to do anything important or with any speed.
