

Muriel Bowser
Mayor

Government of the District of Columbia Fire and Emergency Medical Services Department

John A. Donnelly, Sr.
Fire and EMS Chief

MEMORANDUM

TO: John A. Donnelly, Sr.
Fire and EMS Chief

THRU Craig S. Baker **CO/PLT:** SOD
Assistant Fire Chief – Operations

FROM: Daniel W. McCoy
Deputy Fire Chief – HS/SOD

DATE:¹ May 19, 2022

SUBJECT: Final January 6th After Action Quick Look Report

This is a rapid review of the Fire & EMS Department’s preparation and response to the events at the U.S. Capitol on January 6, 2021. A detailed timeline of the incident is attached.

Executive Summary

Planning for this day spanned several days with multiple partner agencies and jurisdictions. The March for Trump rally was organized by the conservative group, Women for America First. The group was projecting an estimated 5,000 Trump supporters to attend the rally on the grounds of the Ellipse. Beyond the Ellipse, there was no exact footprint for this event. It was expected that demonstrations would occur throughout the day and into the evening at multiple locations to include the Ellipse, Freedom Plaza, the Capitol, the Supreme Court, and other areas.

Deployment

An Area Command was established for the day’s activities at the Fire Operations Center with multiple resources deployed to the National Mall. In addition to the pre-staged resources around the Ellipse, additional units were staffed in Operations to support First Amendment Activities.

¹ The content of this report was finalized in December 2021, but not submitted as final in memorandum form, which is why the date is May 2022.

At 0500 hours the following additional Supervisor and EMS units were staffed at the White House and at the Ellipse event:

- Medic 50 (White House)
- Medic 51 and Ambulance 52 (Ellipse)
- Ellipse Medical Tent Liaison – EMS Supervisor 9 (0600 hours)
- Medic 52 and Medic 53

At 0700 hours the following additional positions and units were staffed to support First Amendment Activities:

- Liaison assigned to MPD Joint Operations Command Center
- Liaison assigned to White House EOC
- Additional Fire Liaison Officer (FLO) at Office of Unified Communications (1000 hours)
- Two additional EMS Liaison Officers (ELO) at Office of Unified Communications
- Additional Battalion Fire Chief (BFC-9)
- Additional “Recon” Battalion Fire Chief
- Additional EMS Supervisor 9
- Four additional Engine Companies
- Six additional Ambulances
- Additional Hazardous Materials Unit (HMU-2)
- Two Rapid Detection Teams
- Staffed Brush Unit
- Mobile Command Unit staffed with driver
- Medical Ambulance Buses staffed with drivers

At 0700 hours the Area Command was established, and a White House Division and an Ellipse Division were created under the Area Command.

The Ellipse event permit was the largest in terms of crowd size, expecting to host an estimated 5,000 people. This event did receive Special Event attention and a medical first aid tent was staffed with George Washington Hospital personnel. The event footprint spanned from 15th Street, NW to 17th Street, NW. The crowd increased exponentially, and at 0856 hours, the Ellipse Liaison reported an estimated 4,000 people inside the perimeter. At that point, Fire and EMS identified limited access to one entry point and organizers at this event were ordered to provide an additional exit point on 17th Street, NW. At approximately 0905 hours the Ellipse Liaison reported a crowd of 10,000 people gathering on 15th and Constitution Avenue NW.

At 0931 hours Area Command established the Constitution Avenue Command and Battalion 9 was assigned to manage the Ellipse event and the incident growing around the Ellipse. Engine 13 and Engine 83 were dispatched to the location and then held on the event by command to assist. By 1330 hours, the Ellipse Liaison reported that the crowd dissipated to less than 100 people.

US Capitol Response

At 1300 hours, multiple 911 calls for EMS started to come in for the U. S. Capitol. At 1307 hours, a report from Metropolitan Police indicated that the area around the U.S. Capitol was not secure, followed by two reports of CPR in progress, multiple police officers injured, and the crowd overtaking barriers. These twenty minutes worth of events culminated with a report of unexploded explosive devices at the Republican and Democratic National Committee Headquarters.

It was evident that this was an expanding incident with the potential for mass casualties, fires, active shooter, and hazardous materials incidents that would exceed the resources at hand. Area Command then expanded the Incident Management System by establishing a Capitol Command. Capitol Command then successfully managed multiple requests for EMS assistance throughout the event.

Fire and EMS continued to manage multiple incidents under Area Command for the remainder of the day, including a working fire in the 4th Battalion. Most of the operations started to wind down around 2100 hours. However, Area Command was sustained through 1900 hours on January 7, 2021.

Total recorded responses for the day were:

- 22 EMS responses
- 14 EMS transports, including two cardiac arrests and two critical injury transports.

The above data does not include treatment and release of an estimated 250 injured law enforcement and National Guard personnel and an estimated 50 rioters.

Command and Tactical Observations

The following is a list of command and tactical observations:

- ✓ Communications with US Capitol Police could have been improved with earlier placement of Liaisons in USCP CP and with Field Commanders.
- ✓ Cellular Service interruptions resulted in lost connection/signal to our MDC I/Mobile tablets (which use non-First Net modems); unit First Net Cellular phones worked, members personal devices did not.
- ✓ Radio connectivity challenges occurred inside of the Capitol Building. It is not known if any attempts were made to utilize the Vehicle Repeater System (VRS)
- ✓ Situation Unit reporting needs a method to flag critical events for the Incident Commander.
- ✓ There was a delay in rapidly staffing and mobilizing the Mass Decontamination Unit.
- ✓ The potential need for additional trauma supplies must be an early consideration.
- ✓ There were challenges locating patients in the crowd and in the complex. Call takers must be prepared to give direction to callers for self-evacuation to specific “collection points” outside of the hazard zone when possible and appropriate.

- ✓ Coordination must be improved between Area Command/Incident Commanders and 911 dispatchers concerning the dispatch/deployment of resources within operational area of an event.
- ✓ Command must declare hot, warm, and cold zones as early as possible and be aware that these zones are likely to be “dynamic” due to constantly changing conditions.
- ✓ Early establishment of casualty collection points/zones must be a high priority.
- ✓ Provision for human services needs for crews on this long-duration incidents was not adequate (lack of water, food, and bathrooms) and must be considered earlier in the incident.
- ✓ It was difficult to maintain safety and accountability of members due to rapidly deteriorating, and intermingled battle lines.
- ✓ Members indicated a concern that COVID PPE reduced their visibility while working in the crowd.
- ✓ Early peer support was beneficial to members that were involved in this event.
- ✓ Methods of identification on ballistic equipment worn by our members should be re-evaluated in effort to provide greater distinction between law enforcement members and Fire and EMS personnel.
- ✓ The presence of at least two privately owned retired emergency vehicles used by demonstrators was a concern (Haz-Mat vehicle and an Ambulance with MAGA Markings). Although not used as a direct means for nefarious activity during this event, command staff must consider the potential threat these types of vehicles could present.

January 6, 2021 Timeline

Below is a summary of events as recorded on personal notes, the ICS Form 214, situation reports from the FOC, and CAD data. Due to the time constraints, the audio has not been compared against this timeline. The timeline begins at 0500hrs on January 6th, 2021 and ends at approximately 2400hrs. *It should be noted that summaries of audio include preliminary reports, many of which turned out to be inaccurate. They are left in the timeline for documentation and future training purposes.*

0500: Additional Supervisor and EMS units staffed from 0500 – 2400 hours

Medic 50 (White House)

Medic 51 and Ambulance 52 (Ellipse)

Ellipse Medical Tent Liaison – EMS Supervisor 9 (0600 hours)

Medic 52 and Medic 53

0700: Fire Operations Command Center officially stood up at Engine Co. 2

Assigned Incident # 210002800

Area Command established unit operating on 0A-11- DFC D. McCoy designated IC

0700: Additional positions and units staffed to support anticipated First Amendment activities:

Liaison assigned to MPD Joint Operations Command Center

Liaison assigned to White House EOC

Additional Fire Liaison Officer (FLO) at Office of Unified Communications (1000 hours)

Two Additional EMS Liaison Officer (ELO) at Office of Unified Communications

Additional Battalion Fire Chief (BFC-9)

Additional “Recon” Battalion Fire Chief

Additional EMS Supervisor 9

Four additional Engine Companies

Six additional Ambulances

Additional Hazardous Materials Unit (HMU-2)

Two Rapid Detection Teams

Staffed Brush Unit

Mobile Command Unit staffed with driver

Medical Ambulance Buses staffed with drivers

0744: Recon reports large crowds reported in the area of the mall.

0748: First 911 call is received for the area; 911 handles the incident and FOC monitors

- Incident #210002806 15th St and Constitution Ave NW for Trouble breathing. A23 transport to Hospital 8

0800: Reports of a large fight in Rosslyn, VA between two groups of demonstrators

0822: First 911 call inside the perimeter is received. Notes indicate that the Ellipse and surrounding area are filled with dense crowds and navigating streets to get to patients is a challenge

- Incident #210002817 14th and Constitution Ave NW for a sick person.

- FOC tries the call back to get more information about patient location and units inside the Ellipse handle the call.
- 0830: Speakers at the Ellipse stage begin
- 0856: Ellipse Liaison reports that 4000 + people are in the perimeter of Ellipse and access points are difficult to access
- Fire Marshall requested for lack of fire lanes on Constitution Ave between 15th and 17th St NW
- 0900: Recon advised of protestors between 9th St and 21st St NW on Constitution Ave NW
- 0904: EMS 9 reporting that the best entrance to the Ellipse will be 16th and E ST NW
- Ellipse liaison is reporting 10,000 + people gathering on Constitution Ave NW
 - BFC 9- R. Smith is reporting 200 people gathering on the east side of the Capitol
 - Recon unit reports MPD SOD has been notified of an unattended package at 917 15th St. NW, L'Enfant Plaza SW and Independence Ave / 15th St NW
- 0931: BFC 9- R. Smith establishing the Constitution Ave Command. Command post will be at 18th St and Constitution Ave NW
- EMS 9 reports that casualty collection points will be located at 15th St. and Constitution Ave NW and 17th St and E St. NW
- 0941: EMS-9 reports that it is difficult to move in the perimeter, GW medical staff will bring patients from the medical tent to the collection points
- 0942: Engine 13 dispatched from 911 to 1551 Independence Ave SW for and injured person. Area command kept Engine 13 to handle responses around the perimeter
- 1001: Constitution Ave Command requested an Engine Company to stage at 14th St and Constitution Ave NW
- Engine 83 dispatched
- 1012: MPD JOCC reports rolling road closures are in effect
- Reports a large group of protestors south on 15th St NW toward Ellipse
- 1041: Constitution Ave Command requesting the brush unit to navigate crowds
- 1102: Watch Commander advised all call takers at OUC and JOCC liaisons to give intersections, clothing descriptions along with age and sex of all patients. And to take as much information as possible from callers.
- 1122: MPD JOCC tracking 2 groups that may be armed with rifles 14th and Independence Ave SW and Constitution Ave and 15th St NW
- 1127: MPD JOCC reports the crowd size is growing rapidly at 15th St and Pennsylvania Ave NW
- 1141: US Park is reporting POTUS movement from the White House to the stage.

1221: Recon reports a large crowd rapidly moving toward the Capitol

1230: Constitution Ave Command advises Area Command that they are currently evaluating two ALS patients at 17th St and E St. NW

1253: POTUS still speaking on stage

1300: FOC receives call from USCP Communications that they need EMS for a female on the steps of the Capitol with an injured leg.

1300:30: A13 dispatched for person down at Capitol **(01 DISP time stamped audio)**

1301: FOC receives call from USCP Communications that they need EMS for someone unconscious on the steps of the Capitol

- Second Call from USCP states that CPR is in progress

1303: 911 Dispatches A13, E13 and EMS 6 to 1 Independence Ave SE for Cardiac Arrest-

1305: A13 requests ALS CPR in progress

1307: MPD says the area is not secure

1307: PEC 13 and EMS6 dispatched with A13 to a cardiac arrest at the Capitol **(01 DISP time stamped audio)**

1308: 911 dispatches A18 to Independence Ave SE for a female with a knee injury

1318: MPD JOCC calls and says they have injured law enforcement officers and the crowd is over taking the barrier

- USCP calls FOC and says they have a civilian down and are doing CPR. FOC asks for more information if it is a second patient or one in the same.
- USCP calls back and says they have a second patient CPR in progress

1319:42 E7, A8 dispatched for an injury on the west side of the US Capitol **(01 DISP time stamped audio)**

1319: 911 dispatches A08 and E07 to US Capitol for a traumatic Injury

1322: FOC Receives call that two devices possibly detonated

1325: 911 dispatches E18, A3, and EMS2 to US Capitol for CPR

1326:59 FOC to BFC 6 – go to 1st and Delaware Ave, set up Capitol Command with A65, A66, EMS 5 and E14 **(A10 time stamped audio)**

1327:31 FOC to BFC 6 - You have a working code on the Capitol steps, multiple police officers injured on the steps, working on location; organize that, work on staging for ambulances and ingress, large crowd coming from the ellipse **(A10 time stamped audio)**

1330: MPD JOCC requesting multiple transport units for multiple injured officers

1331: Ellipse Liaison reports less than 100 people inside their perimeter discontinuing Liaison

1332:59 EMS 2 to FOC: EMS 6, E13, A18 CPR on one patient; confirming second CPR, with E7, E18, A8 and EMS 2 on the way **(A10 time stamped audio)**

1334:09 Cardiac arrest patient in A18 being worked by EMS 6 and two members of E13 **(A10 time stamped audio)**

1334: E18 - we are with special events in front of US Capitol with second patient **(A10 time stamped audio)**

1334: A18 reports CPR in Progress requesting assistance from E18 and EMS2

1334: E7 reports CPR in progress

1335: E18 – with crew from E7 with second patient – should have EMS 2 and A3 **(A10 time stamped audio)**

1335:09: EMS 6 to ELO – heading to Hospital 8, CPR in progress, priority 1 **(013 EMS S time stamped audio)**

1337: A18 transporting to Hospital 8

1337:26 EMS 6 to Hospital 8 – en route with 55 yo male [REDACTED]
[REDACTED] **(0H8 GWU time stamped audio)**.

1339: BFC 6 establishing command at 1st and Independence **(A10 time stamped audio)**

1340: MPD JOCC reports two working codes on the Capitol steps

1342:02 E18 report of two minor injuries to Capitol police officers **(A10 time stamped audio)**

1342:30 E18 confirms second CPR to FOC **(A10 time stamped audio)**

1343: Capitol Command established by BFC 6 **(A10 time stamped audio)**.

1344: Deputy Chief of Operations requesting the North and South Mass Casualty units to stage

- North side will stage at E6
- South side will stage at E8
- Operating on A11

1345: BFC6 arrived and established the Capitol Command- operating on A10

Command post will be at the south barricade, all units will enter through the south barricade

Captain Davis directed to report to USCP Headquarters

1346: Capitol command to FOC – no unified command established yet.

13:46:32 EMS 2 to ELO - E7 and A8 traumatic arrest, priority 1 **(013 EMS S time stamped audio)**

13:46:48 ELO - already have a cardiac arrest going to H8 **(013 EMS S time stamped audio)**

13:46:56 EMS 2 - going to Hospital 4 **(013 EMS S time stamped audio)**

13:50:16 A18 to ELO - female patient complaining of laceration to left forearm and side of her head. Bleeding is controlled. Priority 2 **(013 EMS S time stamped audio)**

13:52:15 A3 to ELO - with patient who had a grenade to face, broken teeth, mouth is bleeding – hospital 5 **(013 EMS S time stamped audio)**

1352: A3 has a load and go patient with a traumatic facial injury after an explosive went off in their face, possible flash bang. Transports to hospital 5 without notification

1353:44 A8 to Hospital 8 with medics on board CPR in progress for 20 minutes, meds, patient is intubated, 50 yo male coming from protests, unconfirmed – flash bang exploded next to head and went into cardiac arrest, ETA 4 minutes... Disregard, going to Hospital 4 **(OH8 GWU time stamped audio)**

1353:52 MPD JOCC: MPD has declared a breach and a riot at the Capitol, possibly requesting decon. **(A10 time stamped audio)**

1356: MPD JOCC reporting crowds overwhelming USCP and MPD lines. Multiple officers injured

Brush Unit enroute to 7th St and Madison Dr NW for an outside fire

1359: Captain Davis arrives at USCP Headquarters

1359:08 FOC directs creation of need two Capitol divisions, north and south **(A10 time stamped audio)**

1403: MPD JOCC reports that the barricade has been breached and demonstrators are making their way to the Capitol doors

1419: AFC-O directs city-wide response restructuring for enhanced city-wide resource management and response reduction.

1420: AMR requested to place additional ambulances in service. AMR working to staff 30 additional units.

FM1/DFC Kannry assumes Capitol Command (not time stamped).

1430: FOC creates a second special event at the Capitol - 1st St. and C St. SW

- Command post at 1st St. and C St. SW- TAC A10

1518: USCP now reports it's an officer going in and out of consciousness

- Holding per FOC for on scene units, USCP unsure if area is secure “operator states cannot guarantee crew safety”

1528: Call received from OFC Galindo area is now secure, units can enter through the south barricade into the subway area is secure.

1530: Naval District FD and Fort McNair FD requested to back fill units committed to Capital incident.
E-42 to E-16
E-46 to E-7
TW-21 to T-7

1530: Assistant Chief Edward Smith directed to assist at MPD-JOCC
DFC Griffin placed in service as the 2nd Operations Deputy, operating as Deputy 2

1537: USCP reports second shooting is the same as the first.

1540: Mayor places curfew in effective 1800 hours 1-6-21 to 0600 hours 1-7-21

1542: Capitol Command - States Chambers are secure and holding, shelter in place order has been given

1544: 1 ALS and 1 BLS unit requested from each of the following jurisdictions:
- Prince George's County
- Montgomery County
- Fairfax County

1545: E16 assigned to the Northern Division

1546: E18 assigned to the Southern Division

1626: E18 is reporting 3 injured officers in the Rayburn Building in need of a BLS transport

1628: BFC Holmes working USCP to get a situation update on the interior of the Capitol

1630: USCP reporting possible CPR on a civilian inside of the West Terrace, unable to access the patient due to a possible large crowd

1632:08 FOC to Capitol command – possible unconscious officer on west side of the Capitol grounds? MPD JOCC just gave to us **(A10 time stamped audio)**

1635:48 FOC - we have deconflicted, it's not an officer, it's a civilian down on west side terrace, hostile crowd, so we can't get there, stand by **(A10 time stamped audio)**

1636:41 Recon to Capitol command, on scene with CPR patient, doing CPR and we have an AED **(A10 time stamped audio)**

1637:22 Recon - stand by, crowd in front of us with heavy police presence, stand by for location of stretcher **(A10 time stamped audio)**

1636: MPD requesting EMS for CPR inside the Capitol Building-Recon on the scene
- second call from USCP that the patient is an officer, they are getting an AED

1637: Reports of shots fired in the 900-block of 3rd St. NW
- report of a male shot

1639 Recon (coughing due to gas) – west terrace is no go, police have lost control...Come to south door, MPD has units going that way to secure it.

1649:46 Medic 53 and EMS 7 made contact with Recon and bringing patient out.

1708:01 EMS7 to H8 – requesting [REDACTED] (OH8 GWU time stamped audio)

1708:23 EMS 7 - Inside the Capitol with 40 yo female patient collapsed in ruckus, [REDACTED]
[REDACTED]

1711:21 GW - [REDACTED]
[REDACTED]

1650: MPD calling 10-33 for an injured officer on the steps of the Capitol

1715: USCP communications contacted FOC about several injured officers. The officers are in rooms HC17 and SC17. EMS should use the South Door to the Capitol. The area is secure.

1720: Received call from USCP that someone fell off of the Capitol, no further information except that they fell far and don't look good.

1728: US Capitol PD confirms that south door to the Capitol and will be the best access to get to the interior casualty collection point
- Rooms HC17 and SC17 are casualty collection points for injured USCP officers, the USCP

1728: 911 dispatches units to a stabbing at 12th St and Pennsylvania Ave NW- FOC monitors Ch12.

1751: USCP advised that the 2nd and 3rd floor of the US Capitol are clear of demonstrators they are working on the rest of the building- floors cleared by National Guard

1757: A65 is flagged down for 2 patients hit with a Flash Bang one with a fractured wrist the other with a fractured hip

1810: USCP call FOC to check on status of units coming to the injured officers and now civilians in room HC17 and SC17. FOC advises that we are getting units together to move to them.

1815: PA826, A829, A723 and E41 are in staging

1823: Warming buses - (2) METRO buses are staging at 2nd and C St. SE and waiting to be cleared to enter Capitol grounds.

1830: MPD reports that the Capitol Building is secure

- 1843: Mutual Aid EMS transport units are rotating into the Capitol to relieve units that need relief
- 1847: Rescue Squad 4 placed in-service and is staging at Engine Co. 2
- MPD JOCC is confirming that the Capitol is secure and EMS units can move in and remove patients.
- 1851: A711B and M701 assigned to the South Division
A829 and PA826 assigned to the North Division
- 1853: Units and supervisors are being rotated out for relief
- 1903: Engine 18 is reporting they have a sick, not injured crew member and they need a BLS transport unit to transport them to the PFC. Engine 18 will be OOS for manpower.
- 1907: Capitol Command conducted accountability. All units are even.
- 1912: FOC notified of two large explosions heard in the area of 3rd and K St. NW- Information passed to MPD JOCC
- 1921: USCP situation update from HQ - as of 1855
- US Capitol lock down remains in place
 - Interior of the Capitol is secure and clear of demonstrators
 - Bike racks and fencing being erected to harden perimeter around US Capitol
 - At 2000 hours tonight both bodies of Congress will reconvene
 - Two interior casualty collection points established.
 - US Capitol Crypt
 - Rayburn Building Loading dock. Loading Dock number is 202-225-4997
 - USCP continue to maintain exterior Casualty Collection Points at between C St & D St. NE corner in the grassy area just off of 1st St.
 - Lt. Kelly USCP serving as liaison with FEMS Interior Medical Branch DFC Anunay and Dr. Gerecht.
