JURISDICTION OF THE COMMITTEE ON WAYS AND MEANS

RULES OF THE HOUSE OF REPRESENTATIVES

RULE X

ESTABLISHMENT AND JURISDICTION OF STANDING COMMITTEES

THE COMMITTEES AND THEIR JURISDICTION

There shall be in the House the following standing committees, each of which shall have the jurisdiction and related functions assigned by this clause and clauses 2, 3, and 4. All bills, resolutions, and other matters relating to subjects within the jurisdiction of the standing committees listed in this clause shall be referred to those committees, in accordance with clause 2 of rule XII, as follows:

* * * * *

(t) Committee on Ways and Means.

- (1) Customs revenue, collection districts, and ports of entry and delivery.
- (2) Reciprocal trade agreements.
- (3) Revenue measures generally.
- (4) Revenue measures relating to insular possessions.
- (5) Bonded debt of the United States, subject to the last sentence of clause 4(f).
- (6) Deposit of public monies.
- (7) Transportation of dutiable goods.
- (8) Tax exempt foundations and charitable trusts.
- (9) National social security (except health care and facilities programs that are supported from general revenues as opposed to payroll deductions and except work incentive programs).

Note. As a select committee, the Committee on Ways and Means dates from 1789. It was made a standing committee in 1802. Originally it considered both revenue and appropriations, but in 1865 the appropriation bills were given to the Committee on Appropriations, and certain other bills to what is now the Committee on Banking and Financial Services. The subject of recesses and final adjournments, formerly within the jurisdiction of this committee was, under the Reorganization Act of 1946, transferred to the Committee on Rules.

SUMMARIES OF BILLS AND RESOLUTIONS

ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

H.R. 1 (Mr. Obey); Public Law 111-5; app. Feb. 17, 2009.

H.R. 1, The American Recovery and Reinvestment Act Of 2009, passed the House on Jan. 28, 2009 by a vote of 244-188. The bill passed the Senate, with an amendment, on Feb. 10, 2009 by a vote of 61-37. The Senate insisted on its amendment and asked for a conference. The House disagreed to the Senate amendment and agreed to a conference on Feb. 10, 2009. The conference report was filed in the House on Feb. 12, 2009 (H.Rept. 111-16). The House agreed to the conference report on Feb. 13, 2009 by a vote of 246-183. The Senate agreed to the conference report on Feb. 13, 2009 by a vote of 60-38. H.R. 1 was signed into law by the President on Feb. 17, 2009 as P.L. 111-5.

TAX RELIEF FOR INDIVIDUALS AND FAMILIES

“Making Work Pay” Tax Credit. The Act would provide a refundable tax credit of up to \$400 for working individuals and \$800 for working families for 2009 and 2010. This tax credit is calculated at a rate of 6.2% of earned income, and phases out for taxpayers with adjusted gross income in excess of \$75,000 (\$150,000 for married couples filing jointly). Taxpayers can receive this benefit through a reduction in the amount of income tax that is withheld from their paychecks, or through claiming the credit on their tax returns.

Economic Recovery Payment to Recipients of Social Security, SSI, Railroad Retirement and Veterans Disability Compensation Benefits. The Act provides a one-time payment of \$250 to retirees, disabled individuals and SSI recipients receiving benefits from the Social Security Administration, Railroad Retirement beneficiaries, and disabled veterans receiving benefits from the U.S. Department of Veterans Affairs. The one-time payment is a reduction to any allowable Making Work Pay credit.

Refundable Credit for Certain Federal and State Pensioners. The Act provides a one-time refundable tax credit of \$250 in 2009 to certain government retirees who are not eligible for Social Security benefits. This one-time credit is a reduction to any allowable Making Work Pay credit.

Increase in Earned Income Tax Credit. The Act temporarily increases the earned income tax credit for working families with three or more children. Under prior law, working families with two or more children qualified for an earned income tax credit equal to forty percent (40%) of the family’s first \$12,570 of earned income. This credit was subject to a phase-out for working families with adjusted gross income in excess of \$16,420 (\$19,540 for

married couples filing jointly). The Act increases the earned income tax credit to forty-five percent (45%) of the family’s first \$12,570 of earned income for families with three or more children and increases the beginning point of the phase-out range for all married couples filing a joint return (regardless of the number of children) by \$1,880.

Increase Eligibility for the Refundable Portion of Child Credit. The Act increases the eligibility for the refundable child tax credit in 2009 and 2010. For 2008, the child tax credit is refundable to the extent of 15 percent of the taxpayer’s earned income in excess of \$8,500. The Act reduces this floor for 2009 and 2010 to \$3,000.

“American Opportunity” Education Tax Credit. The Act provides financial assistance for individuals seeking a college education. For 2009 and 2010, the Act provides taxpayers with a new “American Opportunity” tax credit of up to \$2,500 of the cost of tuition and related expenses paid during the taxable year. Under this new tax credit, taxpayers will receive a tax credit based on one hundred percent (100%) of the first \$2,000 of tuition and related expenses (including books) paid during the taxable year and twenty-five percent (25%) of the next \$2,000 of tuition and related expenses paid during the taxable year. Forty percent (40%) of the credit would be refundable. This tax credit will be subject to a phase-out for taxpayers with adjusted gross income in excess of \$80,000 (\$160,000 for married couples filing jointly).

Computers as Qualified Education Expenses in 529 Education Plans. Section 529 Education Plans are tax-advantaged savings plans that cover all qualified education expenses, including: tuition, room & board, mandatory fees and books. The Act provides that computers and computer technology qualify as qualified education expenses.

Refundable First-time Home Buyer Credit. Last year, Congress provided taxpayers with a refundable tax credit that was equivalent to an interest-free loan equal to 10 percent of the purchase of a home (up to \$7,500) by first-time home buyers. The provision applies to homes purchased on or after Apr. 9, 2008 and before July 1, 2009. Taxpayers receiving this tax credit were required to repay any amount received under this provision back to the government over 15 years in equal installments, or, if earlier, when the home is sold. The credit phases out for taxpayers with adjusted gross income in excess of \$75,000 (\$150,000 in the case of a joint return). The Act eliminates the repayment obligation for taxpayers that purchase homes after Jan. 1, 2009, increases the maximum value of the credit to \$8,000, and removes the prohibition on financing by mortgage revenue bonds, and extends the availability of the credit for homes purchased before Dec. 1, 2009. The

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

provision retains the credit recapture if the house is sold within three years of purchase.

Sales Tax Deduction for Vehicle Purchases. The Act provides all taxpayers with a deduction for State and local sales and excise taxes paid on the purchase of new cars, light truck, recreational vehicles, and motorcycles through 2009. This deduction is subject to a phase-out for taxpayers with adjusted gross income in excess of \$125,000 (\$250,000 in the case of a joint return).

Temporary suspension of taxation of unemployment benefits. Under prior law, all federal unemployment benefits were subject to taxation. The average unemployment benefit is approximately \$300 per month. The Act temporarily suspends federal income tax on the first \$2,400 of unemployment benefits per recipient. Any unemployment benefits over \$2,400 are subject to federal income tax. This provision is in effect for taxable year 2009.

Extension of AMT relief for 2009. The Act provides more than 26 million families with tax relief in 2009 by extending AMT relief for nonrefundable personal credits and increasing the AMT exemption amount by \$70,950 for joint filers and \$46,700 for individuals.

TAX INCENTIVES FOR BUSINESSES

Extension of Bonus Depreciation. Businesses are allowed to recover the cost of capital expenditures over time according to a depreciation schedule. Last year, Congress temporarily allowed businesses to recover the costs of capital expenditures made in 2008 faster than the ordinary depreciation schedule would allow by permitting these businesses to immediately write-off fifty percent of the cost of depreciable property (e.g., equipment, tractors, wind turbines, solar panels, and computers) acquired in 2008 for use in the United States. The Act extends this temporary benefit for capital expenditures incurred in 2009.

Election to Accelerate Recognition of Historic AMT/R&D Credits. Last year, Congress temporarily allowed businesses to accelerate the recognition of a portion of their historic AMT or research and development (R&D) credits in lieu of bonus depreciation. The amount that taxpayers may accelerate is calculated based on the amount that each taxpayer invests in property that would otherwise qualify for bonus depreciation. This amount is capped at the lesser of six percent (6%) of historic AMT and R&D credits or \$30 million. The Act extends this temporary benefit through 2009.

Extension of Enhanced Small Business Expensing. In order to help small businesses quickly recover the cost of certain capital expenses, small business taxpayers may elect to write-off the cost of these expenses in the year of acquisition in lieu of recovering these costs over time through depreciation. Until the end of 2010, small business taxpayers are allowed to write-off up to \$125,000 (indexed for inflation) of capital expenditures subject to a phase-out

once capital expenditures exceed \$500,000 (indexed for inflation). Last year, Congress temporarily increased the amount that small businesses could write-off for capital expenditures incurred in 2008 to \$250,000 and increased the phase-out threshold for 2008 to \$800,000. The Act extends these temporary increases for capital expenditures incurred in 2009.

5-Year Carryback of Net Operating Losses for Small Businesses. Under prior law, net operating losses ("NOLs") could be carried back to the two taxable years before the year that the loss arises (the "NOL carryback period") and carried forward to each of the succeeding twenty taxable years after the year that the loss arises. For 2008, the Act extends the maximum NOL carryback period from two years to five years for small businesses with gross receipts of \$15 million or less.

Delayed Recognition of Certain Cancellation of Debt Income. Under prior law, a taxpayer generally has income where the taxpayer cancels or repurchases its debt for an amount less than its adjusted issue price. The amount of cancellation of debt income ("CODI") is the excess of the old debt's adjusted issue price over the repurchase price. Certain businesses are allowed to recognize CODI over 10 years (defer tax on CODI for the first four or five years and recognize this income ratably over the following five taxable years) for specified types of business debt repurchased by the business after Dec. 31, 2008 and before Jan. 1, 2011.

Incentives to Hire Unemployed Veterans and Disconnected Youth. Under prior law, businesses were allowed to claim a work opportunity tax credit equal to 40 percent of the first \$6,000 of wages paid to employees of one of nine targeted groups. The Act creates two new targeted groups of prospective employees: (1) unemployed veterans; and (2) disconnected youth. An individual qualifies as an unemployed veteran if they were discharged or released from active duty from the Armed Forces during the five-year period prior to hiring and received unemployment compensation for more than four weeks during the year before being hired. An individual qualifies as a disconnected youth if they are between the ages of 16 and 25 and have not been regularly employed or attended school in the past 6 months.

Small Business Capital Gains. Under prior law, Section 1202 provided a fifty percent (50%) exclusion for the gain from the sale of certain small business stock held for more than five years. The amount of gain eligible for the exclusion was limited to the greater of 10 times the taxpayer's basis in the stock, or \$10 million gain from stock in that small business corporation. This provision is limited to individual investments and not the investments of a corporation. The non-excluded portion of section 1202 gain is taxed at the lesser of ordinary income rates or 28 percent, instead of the lower capital gains rates for individuals. The provision allows a seventy-five percent (75%) exclusion for individuals on the gain from the sale of

**SUMMARIES OF BILLS AND RESOLUTIONS
ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS**

certain small business stock held for more than five years. This change is for stock issued after the date of enactment and before Jan. 1, 2011.

Temporary Small Business Estimated Tax Payment Relief. The Act reduces the 2009 required estimated tax payments for certain small businesses. This provision has been estimated to have no revenue effect over 10 years.

Temporary Reduction of S Corporation Built-In Gains Holding Period from 10 Years to 7 Years. Under prior law, if a taxable corporation converts into an S corporation, the conversion is not a taxable event. However, following such a conversion, an S corporation had to hold its assets for ten years in order to avoid a tax on any built-in gains that existed at the time of the conversion. The Act temporarily reduces this holding period from ten years to seven years for sales occurring in 2009 and 2010.

Repeal of Treasury Section 382 Notice. Last year, the Treasury Department issued Notice 2008-83, which liberalized rules in the tax code that are intended to prevent taxpayers that acquire companies from claiming losses that were incurred by the acquired company prior to the taxpayer's ownership of the company. The Act repeals this Notice prospectively.

Treatment of Certain Ownership Changes. The Act clarifies the application of section 382 to certain companies restructuring pursuant to the Emergency Economic Stabilization Act of 2008.

MANUFACTURING RECOVERY PROVISIONS

Industrial Development Bonds (IDB). Under prior law, certain manufacturing facilities are eligible for tax exempt bond financing. Section 144(a)(12)(C) specifically limits the definition of a manufacturing facility for the purposes of such financing to facilities that are used in the manufacturing or production of tangible personal property. The Act amends the definition of manufacturing facility to any facility used in the manufacturing, creation, or production of tangible or intangible property described in section 197(d)(1)(C)(iii). Intangible property is any patent, copyright, formula, process, design, pattern, knowhow, format, or other similar item. The Act also clarifies which physical components of a manufacturing facility qualify as "ancillary" and therefore are subjected to a 25% limitation in the amount of bond issuance used to build or reconstruct those components.

Advanced Energy Investment Credit. The Act establishes a new 30% investment tax credit for facilities engaged in the manufacture of advanced energy property. Credits are available only for projects certified by the Secretary of Treasury, in consultation with the Secretary of Energy, through a competitive bidding process. The Secretary of Treasury must establish a certification program no later than 180 days after date of enactment, and may allocate up to \$2.3 billion in credits. Advanced energy property includes technology for the production of

renewable energy, energy storage, energy conservation, efficient transmission and distribution of electricity, and carbon capture and sequestration.

ECONOMIC RECOVERY TOOLS

New Markets Tax Credit. Under prior law, there were \$3.5 billion of New Markets Tax Credits (NMTC) available for each of 2008 and 2009. The provision increases the available credits for 2008 to \$5 billion and the available credits for 2009 to \$5 billion.

Recovery Zone Bonds. The Act creates a new category of tax credit bonds for investment in economic recovery zones. The Act authorizes \$10 billion in recovery zone economic development bonds and \$15 billion in recovery zone facility bonds. These bonds could be issued during 2009 and 2010. Each state would receive a share of the national allocation based on that state's job losses in 2008 as a percentage of national job losses in 2008 (each state will receive a minimum allocation of these bonds). These allocations would be sub-allocated to local municipalities. Municipalities receiving an allocation of these bonds are permitted to use these bonds to invest in infrastructure, job training, education, and economic development in areas within the boundaries of the State, city or county (as the case may be) that has significant poverty, unemployment or home foreclosures.

Tribal Economic Development Bonds. Under prior law, tribal governments were limited in their ability to issue tax-exempt bonds. Projects funded by bonds issued by tribal governments must satisfy an "essential governmental function" requirement. This requirement is not imposed on projects funded by bonds issued by State and local governments, and can limit the ability of tribal governments to use tax-exempt bonds for economic development. The Act temporarily allows tribal governments to issue \$2 billion in tax-exempt bonds for projects without this restriction in order to spur economic development on tribal lands, and requires the Secretary of the Treasury to study whether this restriction should be repealed on a permanent basis.

Modify Speed Requirement for High-Speed Rail Exempt Facility Bonds. Under prior law, States were allowed to issue private activity bonds for high-speed rail facilities. Under prior law, a high-speed rail facility was a facility for the transportation of passengers between metropolitan areas using vehicles that are reasonably expected to operate at speeds in excess of 150 miles per hour between scheduled stops. The Act allows these bonds to be used to develop rail facilities that are used by trains that are capable of attaining speeds in excess of 150 miles per hour.

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

INFRASTRUCTURE FINANCING TOOLS

De Minimis Safe Harbor Exception for Tax-Exempt Interest Expense for Financial Institutions. Under prior law, financial institutions were not allowed to take a deduction for the portion of their interest expense that is allocable to such institution's investments in tax-exempt municipal bonds. In determining the portion of interest expense that is allocable to investments in tax-exempt municipal bonds, the Act excludes investments in tax-exempt municipal bonds issued during 2009 and 2010 to the extent that these investments constitute less than two percent (2%) of the average adjusted bases of all the assets of the financial institution.

Modification of Small Issuer Exception to Tax-Exempt Interest Expense Allocation Rules for Financial Institutions. As described above, financial institutions were not allowed to take a deduction for the portion of their interest expense that is allocable to such institution's investments in tax-exempt municipal bonds. For purposes of this interest disallowance rule, bonds that were issued by a "qualified small issuers" were not taken into account as investments in tax-exempt municipal bonds. Under prior law, a "qualified small issuer" was defined as any issuer that reasonably anticipates that the amount of its tax-exempt obligations (other than certain private activity bonds) will not exceed \$10,000,000. The Act increases this dollar threshold to \$30,000,000 when determining whether a tax-exempt obligation issued in 2009 and 2010 qualifies for this small issuer exception. The small issuer exception also applies to an issue if all of the ultimate borrowers in such issue separately qualify for the exception. For these purposes, the issuer of a qualified 501(c)(3) bond is deemed to be the ultimate borrower on whose behalf a bond was issued.

Eliminate Costs Imposed on State and Local Governments by the Alternative Minimum Tax. The alternative minimum tax (AMT) can increase the costs of issuing tax-exempt private activity bonds imposed on State and local governments. Under prior law, interest on tax-exempt private activity bonds is generally subject to the AMT. This limits the marketability of these bonds and, therefore, forces State and local governments to issue these bonds at higher interest rates. Last year, Congress excluded one category of private activity bonds (i.e., tax-exempt housing bonds) from the AMT. The Act excludes the remaining categories of private activity bonds from the AMT if the bond is issued in 2009 or 2010. The Act also allows AMT relief for current refunding of private activity bonds issued after 2003 and refunded during 2009 and 2010.

Delay Application of Withholding Requirement on Certain Governmental Payments for Goods and Services. For payments made after Dec.31, 2010, the Code requires withholding at a three percent rate on certain payments to persons providing property or services made by Federal,

State, and local governments. The withholding is required regardless of whether the government entity making the payment is the recipient of the property or services (those with less than \$100 million in annual expenditures for property or services are exempt). Numerous government entities and small businesses raised concerns about the application of this provision. The Act delays for one year (through Dec. 31, 2011) the application of the three percent withholding requirement on government payments for goods and services in order to provide time for the Treasury Department to study the impact of this provision on government entities and other taxpayers.

Qualified School Construction Bonds. The Act creates a new category of tax credit bonds for the construction, rehabilitation, or repair of public school facilities or for the acquisition of land on which a public school facility will be constructed. There is a national limitation on the amount of qualified school construction bonds that may be issued by State and local governments of \$22 billion (\$11 billion allocated initially in 2009 and the remainder allocated in 2010). There is a national limitation on the amount of qualified school construction bonds that may be issued by Indian tribal governments of \$400 million (\$200 million allocated initially in 2009 and the remainder allocated in 2010).

Extension and Increase in Authorization for Qualified Zone Academy Bonds (QZABs). The Act allows an additional \$1.4 billion of QZAB issuing authority to State and local governments in 2009 and 2010, which can be used to finance renovations, equipment purchases, developing course material, and training teachers and personnel at a qualified zone academy. In general, a qualified zone academy is any public school (or academic program within a public school) below college level that is located in an empowerment zone or enterprise community and is designed to cooperate with businesses to enhance the academic curriculum and increase graduation and employment rates. QZABs are a form of tax credit bonds which offer the holder a Federal tax credit instead of interest.

Tax Credit Bond Option for State and Local Governments ("Build America Bonds"). The Federal government provides significant financial support to State and local governments through the federal tax exemption for interest on municipal bonds. Both tax credit bonds and tax-exempt bonds provide a subsidy to municipalities by reducing the cash interest payments that a State or local government must make on its debt. Tax credit bonds differ from tax-exempt bonds in two principal ways: (1) interest paid on tax credit bonds is taxable; and (2) a portion of the interest paid on tax credit bonds takes the form of a Federal tax credit. The Federal tax credit offsets a portion of the cash interest payment that the State or local government would otherwise need to make on the borrowing. For 2009 and 2010, the Act provides State and local governments with the option of issuing a tax credit bond instead of a tax-

SUMMARIES OF BILLS AND RESOLUTIONS
ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

exempt governmental obligation bond. Because the market for tax credits is currently small given current economic conditions, the Act allows the State or local government to elect to receive a direct payment from the Federal government equal to the subsidy that would have otherwise been delivered through the Federal tax credit for bonds.

REINVESTMENT IN RENEWABLE ENERGY

Long-term Extension and Modification of Renewable Energy Production Tax Credit. The Act extends the placed-in-service date for wind facilities for three years (through Dec. 31, 2012). The Act also extends the placed-in-service date for three years (through Dec. 31, 2013) for certain other qualifying facilities: closed-loop biomass; open-loop biomass; geothermal; small irrigation; hydropower; landfill gas; waste-to-energy; and marine renewable facilities.

Temporary Election to Claim the Investment Tax Credit in Lieu of the Production Tax Credit. Under prior law, facilities that produce electricity from solar facilities were eligible to take a thirty percent (30%) investment tax credit in the year that the facility was placed in service. Facilities that produce electricity from wind, closed-loop biomass, open-loop biomass, geothermal, small irrigation, hydropower, landfill gas, waste-to-energy, and marine renewable facilities were eligible for a production tax credit. The production tax credit was payable over a ten-year period. Because of current market conditions, it is difficult for many renewable projects to find financing due to the uncertain future tax positions of potential investors in these projects. The Act allows facilities to elect to claim the investment tax credit in lieu of the production tax credit.

Repeal Subsidized Energy Financing Limitation on the Investment Tax Credit. Under prior law, the investment tax credit was reduced if the property qualifying for the investment tax credit was also financed with industrial development bonds or through any other Federal, State, or local subsidized financing program. The Act repeals this subsidized energy financing limitation on the investment tax credit in order to allow businesses and individuals to qualify for the full amount of the investment tax credit even if such property is financed with industrial development bonds or through any other subsidized energy financing.

Removal of Dollar Limitations on Certain Energy Credits. Under prior law, businesses were allowed to claim a thirty percent (30%) tax credit for qualified small wind energy property (capped at \$4,000). Individuals were allowed to claim a thirty percent (30%) tax credit for qualified solar water heating property (capped at \$2,000), qualified small wind energy property (capped at \$500 per kilowatt of capacity, up to \$4,000), and qualified geothermal heat pumps (capped at \$2,000). The Act repeals the individual dollar caps. As a result, each of these

properties are eligible for an uncapped thirty percent (30%) credit.

Clean Renewable Energy Bonds ("CREBs"). The Act authorizes an additional \$1.6 billion of new clean renewable energy bonds to finance facilities that generate electricity from the following resources: wind; closed-loop biomass; open-loop biomass; geothermal; small irrigation; hydropower; landfill gas; marine renewable; and trash combustion facilities. This \$1.6 billion authorization is subdivided into thirds: 1/3 is available for qualifying projects of State/local/tribal governments; 1/3 for qualifying projects of public power providers; and 1/3 for qualifying projects of electric cooperatives.

Qualified Energy Conservation Bonds. The Act authorizes an addition \$2.4 billion of qualified energy conservation bonds to finance State, municipal and tribal government programs and initiatives designed to reduce greenhouse gas emissions. The Act also clarifies that qualified energy conservation bonds may be issued to make loans and grants for capital expenditures to implement green community programs. The Act also clarifies that qualified energy conservation bonds may be used for programs in which utilities provide ratepayers with energy-efficient property and recoup the costs of that property over an extended period of time.

Tax Credits for Energy-Efficient Improvements to Existing Homes. The Act extends the tax credits for improvements to energy-efficient existing homes through 2010. Under prior law, individuals were allowed a tax credit equal to ten percent (10%) of the amount paid or incurred by the taxpayer for qualified energy efficiency improvements installed during the taxable year. This tax credit is capped at \$50 for any advanced main air circulating fan, \$150 for any qualified natural gas, propane, oil furnace or hot water boiler, and \$300 for any item of energy-efficient building property. For 2009 and 2010, the Act increases the amount of the tax credit to thirty percent (30%) of the amount paid or incurred by the taxpayer for qualified energy efficiency improvements during the taxable year. The Act also eliminates the property-by-property dollar caps on this tax credit and provides an aggregate \$1,500 cap on all property qualifying for the credit. The Act updates the energy-efficiency standards of the property qualifying for the credit.

Tax Credits for Alternative Refueling Property. The alternative refueling property credit provides a tax credit to businesses (e.g., gas stations) that install alternative fuel pumps, such as fuel pumps that dispense E85 fuel, electricity, hydrogen, and natural gas. For 2009 and 2010, the Act increases the 30% alternative refueling property credit for businesses (capped at \$30,000) to 50% (capped at \$50,000). Hydrogen refueling pumps remain at a 30% credit percentage; however, the cap for hydrogen refueling pumps is increased to \$200,000. In addition, the Act

**SUMMARIES OF BILLS AND RESOLUTIONS
ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS**

increases the 30% alternative refueling property credit for individuals (capped at \$1,000) to 50% (capped at \$2,000).

Plug-in Electric Drive Vehicle Credit. The Act modifies and increases a tax credit passed into law at the end of last Congress for each qualified plug-in electric drive vehicle placed in service during the taxable year. The base amount of the credit is \$2,500. If the qualified vehicle draws propulsion from a battery with at least 5 kilowatt hours of capacity, the credit is increased by \$417, plus another \$417 for each kilowatt hour of battery capacity in excess of 5 kilowatt hours up to 16 kilowatt hours. Taxpayers may claim the full amount of the allowable credit up to the end of the first calendar quarter in which the manufacturer records its 200,000th sale of a plug-in electric drive vehicle. The credit is reduced in following calendar quarters. The credit is allowed against the alternative minimum tax (AMT). The Act also restores and updates the electric vehicle credit for plug-in electric vehicles that would not otherwise qualify for the larger plug-in electric drive vehicle credit and provides a tax credit for plug-in electric drive conversion kits.

Addition of Permanent Sequestration Requirement to CO₂ Capture Tax Credit. Last year, Congress provided a \$10 credit per ton for the first 75 million metric tons of carbon dioxide captured and transported from an industrial source for use in enhanced oil recovery, and \$20 credit per ton for carbon dioxide captured and transported from an industrial source for permanent storage in a geologic formation. Facilities were required to capture at least 500,000 metric tons of carbon dioxide per year to qualify. The Act requires that any taxpayer claiming the \$10 credit per ton for carbon dioxide captured and transported for use in enhanced oil recovery must also ensure that such carbon dioxide is permanently stored in a geologic formation.

Parity for Transit Benefits. Prior law provided a tax-free fringe benefit employers can provide to employees for transit and parking. Those benefits were set at different dollar amounts. This provision equalizes the tax-free benefit employers can provide for transit and parking. The Act sets both the parking and transit benefits at \$230 a month for 2009, indexes them equally for 2010, and clarifies that certain transit benefits apply to federal employees.

OTHER PROVISIONS

Treasury Department Energy Grants in Lieu of Tax Credits. Under prior law, taxpayers were allowed to claim a production tax credit for electricity produced by certain renewable energy facilities and an investment tax credit for certain renewable energy property. These tax credits helped attract private capital to invest in renewable energy projects. Current economic conditions have severely undermined the effectiveness of these tax credits. As a result, the Act allows taxpayers to receive a grant from the

Treasury Department in lieu of tax credits. This grant will operate like the prior-law investment tax credit. The Treasury Department will issue a grant in an amount equal to thirty percent (30%) of the cost of the renewable energy facility within sixty days of the facility being placed in service or, if later, within sixty days of receiving an application for such grant.

Treasury Department Low-Income Housing Grants in Lieu of Tax Credits. Under prior law, taxpayers were allowed to claim a low-income housing tax credit for certain investments made in low-income housing. These tax credits helped attract private capital to invest in the construction, acquisition, or rehabilitation of qualified low-income housing buildings. Current economic conditions have severely undermined the effectiveness of these tax credits. As a result, the Act allows taxpayers to receive a grant from the Treasury Department in lieu of tax credits. Under this provision, States housing agencies receive a grant equal to up to eighty-five percent (85%) of forty percent (40%) of the state's low-income housing tax credit allocation in lieu of the low-income housing tax credits they would have received. The subawards are subject to the same requirements (including rent, income, and use restrictions on such buildings) as the low-income housing tax credit allocations. The grant program applies to each state's 2009 low-income housing tax credit allocation.

**ASSISTANCE FOR FAMILIES AND UNEMPLOYED
WORKERS**

Extension of Emergency Unemployment Compensation. Through Dec. 31, 2009, the Act continues the Emergency Unemployment Compensation program, which provides up to 33 weeks of extended unemployment benefits to workers exhausting their regular benefits.

Increase in Unemployment Compensation Benefits. The Act increases unemployment weekly benefits by an additional \$25 through 2009.

Unemployment Compensation Modernization. The Act provides one-time grants to reward and encourage States enacting specific reforms designed to increase unemployment compensation coverage among low-wage, part-time and other jobless workers, as well as provides an additional \$500 million in administrative funding to all States.

Temporary Assistance to States with Advances to Unemployment Trust Funds. The Act temporarily waives interest payments and the accrual in interest on loans received by state unemployment trust funds through Dec. 31, 2010.

Additional Unemployment Provisions. Additional provisions extend unemployment compensation for 13 weeks to railroad workers, who are not included in the Federal/state unemployment system (this provision is estimated to cost \$21 million), and provide temporary federal assistance to states for the administration of the

**SUMMARIES OF BILLS AND RESOLUTIONS
ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS**

Extended Benefits program (this provision is estimated to cost \$138 million).

Temporary Assistance for Needy Families Contingency Fund. The Act creates through FY 2010 a capped, temporary TANF Emergency Contingency Fund to provide states with relief during this recession.

Extension of TANF Supplemental Grants. Through FY 2010, the Act provides additional assistance to qualifying states with high population growth and/or increased poverty at the same amount awarded in FY 2009.

Child Support Enforcement. The Act repeals cuts to child support enforcement funding through Sept. 30, 2010.

HEALTH INSURANCE ASSISTANCE

Premium Subsidies for COBRA Continuation Coverage for Unemployed Workers. Recession-related job loss threatens health coverage for many families. To help people maintain coverage, the Act provides a 65% subsidy for COBRA continuation premiums for up to 9 months for workers who have been involuntarily terminated, and for their families. This subsidy also applies to health care continuation coverage if required by states for small employers. With COBRA premiums averaging more than \$1000 a month, this assistance is vitally important. To qualify for premium assistance, a worker must be involuntarily terminated between Sept. 1, 2008 and Dec. 31, 2009. The subsidy would terminate upon offer of any new employer-sponsored health care coverage or Medicare eligibility. Workers who were involuntarily terminated between Sept. 1, 2008 and enactment, but failed to initially elect COBRA because it was unaffordable, would be given an additional 60 days to elect COBRA and receive the subsidy. To ensure that this assistance is targeted at workers who are most in need, participants must attest that their same year income will not exceed \$125,000 for individuals and \$250,000 for families. The Joint Committee on Taxation estimates that this provision would help 7 million people maintain their health insurance by providing a vital bridge for workers who have been forced out of their jobs in this recession.

Medicare Payments for Teaching Hospitals. The Act blocks a FY09 Medicare payment reduction to teaching hospitals related to capital payments for indirect medical education (IME).

Medicare Payments to Hospice. The Act blocks FY09 Medicare payment cut to Hospice providers related to a wage index payment add-on.

Medicare Payments to Long Term Care Hospitals. The Act makes technical corrections to the Medicare, Medicaid, and SCHIP Extension Act of 2007 related to Medicare payments for long-term care hospitals.

STATE FISCAL RELIEF AND MEDICAID

Temporary Federal Medical Assistance Percentage (FMAP) Increase. The Act increases FMAP funding for a 27-month period beginning 10/1/2008 through 12/31/2010, with an across-the-board increase to all states of 6.2% and a similar increase for territories. A bonus structure (in addition to the across-the-board increase) provides an additional decrease in State financial obligations for Medicaid based on increases in the State's unemployment rate. States will also be required to maintain effort on eligibility.

Temporary Increase in Disproportionate Share Hospital (DSH) Payments. The Act increases states' FY2009 annual DSH allotments by 2.5 percent, and increases states' FY 2010 by 2.5 percent above the new FY2009 DSH allotment. After FY2010, states' annual DSH allotments would return to 100% of the annual DSH allotments as determined under prior law.

Extension of Moratoria on Medicaid Regulations. The Act extends moratoria on Medicaid regulations for targeted case management, provider taxes, and school-based administration and transportation services through June 30, 2009. The Act also adds a moratorium on the Medicaid regulation for hospital outpatient services through June 30, 2009. The provision includes a Sense of Congress that the Secretary of HHS should not promulgate regulations concerning payments to public providers, graduate medical education, and rehabilitative services.

Extension of Transitional Medical Assistance (TMA). The Act extends TMA beyond the current expiration date of June 30, 2009, to December 31, 2010.

Extension of the Qualified Individual Program. The Act extends the Qualified Individual program, which assists certain low-income individuals with Medicare Part B premiums, through Dec. 31, 2010.

Provisions from the Indian Health Care Improvement Act. The Act eliminates cost-sharing for Americans Indians and Alaska Natives in Medicaid, protects Indian Tribal property, and maintains access to Indian health facilities.

Prompt Payment Requirements for Nursing Facilities and Hospitals. The Act temporarily applies Medicaid prompt pay requirements to nursing facilities and hospitals.

HEALTH INFORMATION TECHNOLOGY

Funding for Health Information Technology (IT) through Medicare and Medicaid Incentives. This Act promotes the use of health information technology (health IT), such as electronic health records, by: requiring the government to take a leadership role to develop standards by 2010 that allow for the nationwide electronic exchange and use of health information to improve quality and coordination of care; investing \$19 billion in health information technology infrastructure and Medicare and

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

Medicaid incentives to encourage doctors, hospitals, and other providers to use health IT to electronically exchange patients' health information; and strengthening Federal privacy and security law to protect identifiable health information from misuse as the health care sector increases use of health IT. If the bill is enacted, approximately 90% of doctors and 70% of hospitals would adopt and use certified electronic health records within the next decade, according to the Congressional Budget Office. In turn, that would save the government more than \$12 billion (through reduced spending on Medicare, Medicaid, and other programs) and generate additional savings throughout the health sector through improvements in quality of care, care coordination, and reductions in medical errors and duplicative care.

TRADE PROVISIONS

Expansion of Trade Adjustment Assistance (TAA) Programs. The Act significantly expands current Trade Adjustment Assistance Programs. Among other things, it extends TAA to trade-affected services sector workers and workers affected by offshoring or outsourcing to all countries, including China or India. It increases training funds available to states by 160 percent to \$575 million per fiscal year, creates a new TAA program for trade-affected communities, allows for automatic TAA eligibility for workers suffering from import surges and unfair trade, makes training, healthcare and reemployment TAA benefits more accessible and flexible, and improves the TAA for Firms and TAA for Farmers programs. It reauthorizes all TAA programs (which expired Dec.31, 2007) through Dec. 31, 2010.

Duty Refund Recollection. The Act prohibits U.S. Customs and Border Protection (CBP) from demanding that U.S. lumber, steel, and other companies repay duties that CBP collected on Canadian and Mexican imports, and then distributed to the companies between 2001 and 2005.

DEBT LIMIT

Debt Limit Increase. The Act increases the statutory limit on the public debt by \$789 billion, from \$11.315 billion to \$12.104 billion.

H.R. 2 (Mr. Pallone with cosponsors); Public Law 111-3; app. Feb. 4, 2009.

H.R. 2, Children's Health Insurance Program Reauthorization Act of 2009, passed the House on Jan. 14, 2009 by a vote of 289-129. The Senate passed the bill, with amendment, on Jan. 29, 2009, by a vote of 66-32. The Senate insisted on its amendment and asked for a conference on Jan. 29, 2009. The House agreed to the Senate amendment on Feb. 4, 2009 by a vote of 290-135.

H.R. 2 was signed into law by the President on Feb. 4, 2009 as P.L. 111-3. A summary of the provisions under the jurisdiction of the Committee on Ways and Means follows.

Title VII of the Act, revenue provisions, offset the cost of expanding Children's Health Insurance Program. The Act increases excise tax rates on cigars, cigarettes, cigarette papers and tubes, smokeless tobacco, pipe tobacco, and roll-your-own tobacco. The Act imposes a tax on floor stocks of tobacco products (other than certain cigars and cigarette papers and tubes), reduced by a \$500 tax credit, and requires payment of such floor stock taxes on or before Aug. 1, 2009. The Act extends the floor stock tax to articles located in a foreign trade zone on any tax increase date.

The Act applies administrative tax law provisions relating to permits, inventories, reporting, and recordkeeping to manufacturers and importers of processed tobacco (i.e., any tobacco other than tobacco products). The Act expands the authority of the Secretary of the Treasury to deny, suspend, or revoke permits for manufacturing or importing tobacco products. The Act revises the definition of "roll-your-own tobacco" to include cigars or cigar wrappers.

The Act amends the Tariff Act of 1930 to apply limitation periods for assessment of tax under the Internal Revenue Code to alcohol and tobacco excise taxes, and Imposes an immediate excise tax on any tobacco products, cigarette paper, or tubes produced in the United States at any place other than the premises of a lawful manufacturer of such products.

The Act directs the Secretary of the Treasury to study and report to Congress on: (1) the magnitude of tobacco smuggling in the United States; and (2) any recommendations for the most effective steps to reduce it. In addition, the Act amends the Tax Increase Prevention and Reconciliation Act of 2005 to increase by 0.5% the amount of any required installment of corporate estimated tax otherwise due in July, August, or September 2013.

H.R. 384 (Mr. Frank); passed the House Jan 21, 2009.

H.R. 384, TARP Reform and Accountability Act of 2009, the American Recovery and Reinvestment Act of 2009, passed the House, amended, by a vote of 260-166 on Jan. 21, 2009.

The bill was referred to the Committee on Financial Services, and in addition to the Committees on Ways and Means and the Judiciary. Included under the jurisdiction of the Committee on Ways and Means, is a provision which would prohibit the use of TARP funds by a TARP-assisted institution for mergers or acquisitions unless such a transaction: (1) would reduce risk to the taxpayer; or (2) could have been consummated without such funds.

H.R. 403 (Mr. Green with cosponsors); passed the House June 16, 2009.

H.R. 403, Homes for Heroes Act of 2009, passed the House, under suspension of the rules, by a vote of 417-2, on June 16, 2009.

Homes for Heroes Act of 2009 amends the Department of Housing and Urban Development Act to establish in the Department of Housing and Urban Development (HUD) a Special Assistant for Veterans Affairs to: (1) ensure veteran access to HUD housing and homeless assistance programs; (2) coordinate all HUD programs and activities relating to veterans; and (3) serve as a HUD liaison with the Department of Veterans Affairs. The bill would direct the Secretary of Housing and Urban Development in issuing a capital advance for projects, to delegate review and processing of such projects to a state or local housing agency that: (1) is in geographic proximity to the property; (2) has demonstrated experience in and capacity for underwriting multifamily housing loans that provide housing and supportive services; (3) may or may not be providing low-income housing tax credits in combination with such capital advance; and (4) agrees to issue a firm commitment within 12 months of delegation.

H.R. 598 (Mr. Rangel with cosponsors); reported to the House Jan. 27, 2009.

H.R. 598, American Recovery and Reinvestment Tax Act of 2009, was ordered reported, amended, on Jan. 22, 2009 TARP Reform and Accountability Act of 2009, by a vote of 24-13 H.R. 598 was reported to the House, amended, on Jan. 27, 2009 (H.Rept. 111-8). The legislation was combined with other components of the recovery package from other House Committees into H.R. 1. For a complete summary and further action see the summary for H.R. 1.

H.R. 847 (Ms. Maloney with cosponsors); Public Law 111-347; app. Jan. 2, 2010.

H.R. 847, James Zadroga 9/11 Health and Compensation Act of 2010, passed the House on Sept. 29, 2010. The Senate passed the bill, amended, on Dec. 22, 2010. The House agreed to the Senate amendment by a vote of 206-60 on Dec. 22, 2010. H.R. 847 was signed into law by the President on Jan. 2, 2010 as P.L. 111-347.

James Zadroga 9/11 Health and Compensation Act of 2010 Amends the Public Health Service Act to establish the World Trade Center Health Program (WTC Program) within the Department of Health and Human Services (HHS) and to provide: (1) medical monitoring and treatment benefits to eligible emergency responders and

recovery and cleanup workers (including those who are federal employees) who responded to the September 11, 2001, terrorist attacks; and (2) initial health evaluation, monitoring, and treatment benefits to residents and other building occupants and area workers in New York City who were directly impacted and adversely affected by such attacks. Title III of the Act Amends the Internal Revenue Code to impose on any foreign person a tax equal to 2% of the amount of any payment received pursuant to a contract with the U.S. government for the provision of goods or services, if such goods are manufactured or produced or such services are provided in any country that is not a party to an international procurement agreement with the United States. The Act requires the head of each executive agency to take measures necessary to ensure that no funds are disbursed to any foreign contractor in order to reimburse the tax imposed under this title.

H.R. 915 (Mr. Oberstar with cosponsors); passed the House May 21, 2009.

H.R. 915, the FAA Reauthorization Act of 2009, was reported, amended, by the Committee on Transportation and Infrastructure on May 19, 2009 (H.Rept. 111-119, pt. 1). The measure passed the House on May 21, 2009 by a vote of 277-136. H.Res. 464, providing for consideration of H.R. 915, incorporated tax provisions under the jurisdiction of the Committee on Ways and Means regarding the Airport and Airway Trust Fund.

Title X of the bill would amend the Internal Revenue Code to (1) impose an excise tax on aviation-grade kerosene of 35.9 cents per gallon (4.3 cents per gallon for commercial aviation uses); (2) increase to 24.1 cents per gallon the tax rate for aviation gasoline; and (3) extend through FY2012 the excise tax on the transportation by air of persons and property and the excise tax on aviation gasoline and aviation-grade kerosene.

H.R. 915 would extend through FY2012 the expenditure authority for the Airport and Airway Trust Fund, and would dedicate revenues from the taxes imposed on aviation gasoline and aviation-grade kerosene to carry out air traffic control modernization.

H.R. 1253 (Mr. Burgess with cosponsor); passed the House Apr. 1, 2009.

H.R. 1253, Health Insurance Restrictions and Limitations Clarification Act of 2009 was reported by the Energy and Commerce Committee on Mar. 30, 2009 (H.Rept. 111-62, pt. 1). On Mar. 31, 20089, the bill passed the House, under suspension of the rules by a vote of 422-3.

The bill would amend the Employee Retirement Income Security Act (ERISA), the Public Health Service Act, and the Internal Revenue Code to exclude a group

health plan from prohibitions against limitations or restrictions on the amount, level, extent, or nature of the benefits of coverage for similarly situated individuals enrolled in the plan so long as: (1) such limitations and restrictions are explicit and clear; (2) such limitations and restrictions have been disclosed to the plan sponsor in writing in advance of the point of sale; (3) the plan sponsor provides a description of such limitations and restrictions to participants and beneficiaries in a form that is easily understandable before enrollment; and (4) the plan sponsor and the issuer of the coverage provide such description to the participants and beneficiaries upon their enrollment under the plan at the earliest opportunity that other materials are provided

H.R. 1512 (Mr. Rangel with cosponsors); Public Law 111-12; app. Mar. 30, 2009.

H.R. 1512, Federal Aviation Administration Extension Act of 2009, passed the House, under suspension of the rules on Mar. 18, 2009, by voice vote. That same day, the Senate passed the bill without amendment by unanimous consent. H.R. 1517 was signed into law by the President on Mar. 30, 2009 as P.L. 111-12.

The Act extends the various taxes that fund the aviation trust fund and the authority to spend monies in the trust fund for 6 months, until the end of the fiscal year. They would have expired at the end of March. The Act also extends a number of authorizing provisions under the Committee on Transportation and Infrastructure jurisdiction for 6 months.

H.R. 1586 (Mr. Rangel with cosponsors); passed the House Mar. 19, 2009.

H.R. 1586, to impose an additional tax on bonuses received from certain TARP recipients. passed the House, under suspension of the rules, on Mar. 18, 2009 by a vote of 328-93.

The bill would impose a 90 percent tax on bonuses paid after Dec. 31, 2008, by companies that have received over \$5 billion in TARP funds, Fannie Mae, and Freddie Mac. The tax would also apply to bonuses paid by entities affiliated with these companies. Three-fourths of the TARP funds that have been spent went to companies that would be covered by this bill. This tax will not apply to any bonus that is returned to the company in the same taxable year that the bonus is paid. The bill would not affect taxpayers with adjusted gross income below \$250,000 or employees of companies that have received \$5 billion or less in TARP funds.

H.R. 1586 Education jobs and Medicaid funding bill (vehicle for Senate amendment); Public Law 111-226; app. Aug. 10, 2010.

H.R. 1586, Education jobs and Medicaid funding, passed the Senate with an amendment and an amendment to the Title on Mar. 22, 2010. On Mar. 25, 2010, the House agreed with an amendment to the Senate amendments. On Aug. 5, 2010 the Senate concurred in the House amendment to the Senate amendment to the bill with an amendment. The House agreed to the Senate amendment to the House amendment to the Senate amendment on Aug. 10, 2010. H.R. 1586 was signed into law by the President on Mar. 30, 2009 as P.L. 111-226.

The Act extends and phases out increases in the Medicaid matching rate for six months, through June 30, 2011. This will ensure that states continue to receive these increases throughout state fiscal year 2011. The Act provides \$10 billion for additional support to local school districts to prevent imminent layoffs. It is estimated that this fund will help keep nearly 140,000 educators employed next year.

Below are provisions descriptions within the jurisdiction of the Committee on Ways and Means.

Closing Foreign Tax Loopholes. The Act includes changes developed jointly by the Treasury Department, the Committee on Ways and Means and the Senate Finance Committee to curtail abuses of the U.S. foreign tax credit system and other targeted abuses. Foreign tax credits are intended to ensure that U.S.-based multinational companies are not subject to double taxation. However, taxpayers have taken advantage of the U.S. foreign tax credit system to reduce the U.S. tax due on completely unrelated foreign income in a manner that has nothing to do with eliminating double taxation. The Act eliminates \$9.6 billion of foreign tax credit loopholes.

Repeal Advanced EITC. The Act repeals the advanced EITC payment, which is not widely used by those eligible for the credit.

HR. 1875 (Mr. DeFazio with cosponsors); passed the House July 28, 2010.

H.R. 1875, End the Trade Deficit Act, passed the House, under suspension of the rules, on July 28, 2010.

The bill would establish the Emergency Trade Deficit Commission to examine, and report to the President and Congress on, the causes of the U.S. trade deficit, together with recommendations on how to address and reduce trade imbalances, such as the U.S. merchandise trade deficit, in order to promote sustainable economic growth that provides broad-based income and employment gains.

SUMMARIES OF BILLS AND RESOLUTIONS
ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

HR. 1886 (Mr. Berman with cosponsors); passed the House June 11, 2009.

H.R. 1886, Pakistan Enduring Assistance and Cooperation Enhancement Act of 2009 or the PEACE Act of 2009, was reported, amended, by the Committee on Foreign Affairs on May 22, 2009 (H.Rept. 111-129, pt. 1). On Jun. 11, 2009, the bill passed the House on a vote of 234-185. By virtue of House Resolution 522 of the Committee on Rules, the text of H.R. 1886, as passed by the House, was appended as new matter at the end of the engrossment of H.R. 2410.

The Afghanistan-Pakistan Security and Prosperity Enhancement Act would allow a range of products to be shipped duty-free to the United States if they were made in designated "Reconstruction Opportunity Zones" (or "ROZs"). The primary product focus of the bill is certain textiles and apparel products considered to be "non-import sensitive" by the U.S. domestic industry.

Before extending any duty-free treatment, the President would first have to designate ROZs within the permitted areas after considering whether Pakistan/Afghanistan are meeting the enumerated eligibility criteria (for example—establishing the rule of law, meeting core labor standards, and cooperating with international human rights and anti-terrorism efforts). The President must also assess the appropriateness of the designation given factors such as the potential for creating employment, the infrastructure of the area, and the capacity to permit monitoring of labor conditions.

To promote protection of basic worker rights, the bill would condition duty-free treatment on a producer meeting core international labor standards and providing acceptable conditions of work. Working with the International Labor Organization, Afghanistan and Pakistan would have to establish an extensive program to monitor these producers. Producers who fail to meet the conditions after attempts at remediation would face the possibility of losing their duty-free access to the U.S. market under the bill.

The bill also includes extensive protections against Customs fraud, requiring termination of preferences for any entity engaged in illegal circumvention for a period of five years.

H.R. 2194 (Mr. Berman with cosponsors); passed the House December 15, 2009.

H.R. 2194, the Iran Refined Petroleum Sanctions Act of 2009, was ordered reported, amended, by the Committee on Foreign Affairs on Nov. 19, 2009 (H. Rept. 111-342, pt. 1). On Dec. 15, 2009, the House passed the bill under suspension of the rule by a 412-12 vote. The bill passed the Senate, amended, by unanimous consent on

Mar. 11, 2010, and insisted on its amendment and asked for a conference. The House disagreed to the Senate amendment and agreed to a conference on Apr. 22, 2010.

The Act would amend the Iran Sanctions Act of 1996 to provide additional sanctions specifically related to Iran's production of refined petroleum products and the export to Iran of such products, among other measures. The purpose of the legislation is to pressure the Government of Iran to verifiably suspend, and ultimately dismantle its weapons-applicable nuclear program, including, but not exclusive to, the ceasing of all uranium enrichment activities through the application of targeted sanctions. The sanctions would terminate once the President determines that Iran has ceased its efforts to design, develop, manufacture or acquire a nuclear explosive device or related materials and technology, and has ceased nuclear-related activities, including uranium enrichment, that would facilitate such efforts.

HR. 2378 (Mr. Ryan with cosponsors); passed the House Sept. 29, 2010.

H.R. 2378, Currency Reform for Fair Trade Act, was reported, amended, by the Committee on Sept. 28, 2010 (H.rept. 111-342). The bill passed the House on Sept. 29, 2010.

Currency Reform for Fair Trade Act would amend the Tariff Act of 1930 to include as a "countervailable subsidy" requiring action under a countervailing duty or antidumping duty proceeding the benefit conferred on merchandise imported into the United States from foreign countries with fundamentally undervalued currency. The bill defines "benefit conferred," in cases where the currency of a foreign country is exchanged for foreign currency (i.e., U.S. dollars) obtained from export transactions, as the difference between: (1) the amount of currency provided by a foreign country in which the subject merchandise is produced; and (2) the amount of currency such country would have provided if the real effective exchange rate of its currency were not fundamentally undervalued. The bill would declare that the fact that such a subsidy is also provided in circumstances not involving export shall not, for that reason alone, mean it cannot be considered export contingent and actionable under a countervailing duty and antidumping duty proceeding.

The bill would require the administering authority to determine that the currency of a foreign country is fundamentally undervalued if for an 18-month period: (1) the government of the country engages in protracted, large-scale intervention in one or more foreign exchange markets; (2) the country's real effective exchange rate is undervalued by at least 5%; (3) the country has experienced significant and persistent global current account surpluses; and (4) the country's government has

foreign asset reserves exceeding the amount necessary to repay all its debt obligations falling due within the coming 12 months, 20% percent of the country's money supply, and the value of the country's imports during the previous 4 months. The legislation would require the use, for calculating a country's "real effective exchange rate undervaluation," of certain guidelines of the Consultative Group on Exchange Rate Issues of the International Monetary Fund (IMF) or, if those guidelines are not available, generally accepted economic and econometric techniques and methodologies, and would require the use, also, of inflation-adjusted, trade-weighted exchange rates.

H.R. 3200 (Mr. Dingell with cosponsors); reported to the House Oct. 14, 2009.

H.R. 3200, America's Affordable Health Choices Act of 2009, was ordered reported, amended, by the Ways and Means Committee on July 17, 2009 by a vote of 23-18. The Committees on Ways and Means, Energy and Commerce, and Education and Labor reported to the House, amended, on Oct. 14, 2009 (H.Rept. 111-299, pt. 1,2,3). For further action see H.R. 3961 and H.R. 3962.

DIVISION A: AFFORDABLE HEALTH CARE
CHOICES

Protections and Standards for
Qualified Health Benefits Plans

Protecting the choice to keep current coverage. The legislation would allow the maintenance of current individual health plans as "grandfathered plans" and provides for a five year grace period for current group health plans to meet specified standards (insurance and benefit requirements).

Prohibiting pre-existing condition exclusions. It would prohibit the application of pre-existing condition exclusions.

Guaranteed issue and renewal for insured plans. The legislation would require guaranteed issue (no one can be denied health insurance) and renewal of insurance policies and prohibit the use of rescissions except in instances of fraud.

Insurance rating rules. H.R. 3200 would limit age rating to a ratio of 2 to 1; it would allow variation based on geographic area and family size as permitted by state insurance commissioners and the Health Choices Commissioner. It would require a study by the Health Choices Commissioner describing the differences between insured and self-insured plans and providing recommendations as appropriate to ensure that the law would not create incentives for small and midsize employers to self insure or create adverse selection in the risk pools of insured plans.

Nondiscrimination in benefits; parity in mental health and substance abuse disorder benefit. The measure would provide authority to the Health Choices Commissioner to set non-discrimination rules and would ensure that mental health and substance use disorder parity and genetic nondiscrimination laws apply to qualified health benefits plans.

Ensuring adequacy of provider networks. The bill would provide authority to the Health Choices Commissioner to set network adequacy standards that qualified plans must meet.

Ensuring value and lower premiums. The legislation would require qualified plans to meet a specified medical loss ratio as defined by the Health Choices Commissioner. If plans exceed that limit, rebates to enrollees would be required.

Coverage of essential benefits package. The measure would require qualified plans to meet the benefit standards recommended by the Benefits Advisory Committee and adopted by the Secretary of HHS. Plans outside the Exchange would have to offer at least the essential benefits and others as they choose. Plans within the Exchange would need to meet the specified benefit packages, which includes a tier with offerings of additional benefits. The bill would also allow for the continued offering of separate excepted benefits packages as in current law outside of the Exchange.

Essential benefits package defined. The bill outlines the broad categories of benefits required to be included in the essential benefits package, would prohibit any cost-sharing for preventive benefits (including well child and well baby care), and would limit annual out-of-pocket spending in the essential benefits package to \$5,000 for an individual and \$10,000 (indexed to CPI) for a family. The bill would define the initial essential benefit package as being actuarially equivalent to 70% of the package if there were no cost-sharing imposed.

Health Benefits Advisory Committee. The legislation would establish a Health Benefits Advisory Committee, chaired by the Surgeon General, with private members appointed by the President, the Comptroller General, and representatives of relevant federal agencies. The Advisory Committee would make recommendations to the Secretary of HHS regarding the details of covered health benefits, including the establishment of the three tiers of coverage: basic, enhanced and premium.

Process for adoption of recommendations; adoption of benefit standards. H.R. 3200 would establish the timeline for the initial adoption of benefits by the Secretary of HHS and the period updating of standards in the future.

Requiring fair marketing practices by health insurers. The bill would provide the Health Choices Commissioner with the authority to define marketing standards that qualified plans are required to meet.

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

Requiring fair grievance and appeals mechanisms. The legislation would require each qualified plan to meet standards defined by the Health Choices Commissioner for timely internal grievance and appeals mechanisms and to establish an external review process that provides for an impartial, independent and *de novo* review of denied claims. The determination would be binding.

Requiring information transparency and plan disclosure. The measure would require qualified plans to meet standards established by the Health Choices Commissioner relating to transparency and timely disclosure of plan documents and information, including providing health care providers with information regarding their payments. It also would require the use of plain language in the disclosures (including the issuance of guidance as to what “plain language” means) and advance notice of changes to the plans.

Application to qualified health benefits plans not offered through the Health Insurance Exchange. The bill would provide flexibility to the Health Choices Commissioner to decide what protections of sections 131-133 should apply to qualified plans outside of the Health Insurance Exchange.

Timely payment of claims. The legislation would apply Medicare’s timely payment of claims standards to the plans offering coverage through the Exchange.

Standardized rules for coordination and subrogation of benefits. H.R. 3200 would require the Health Choices Commissioner to establish standards for the coordination of benefits and reimbursement of payments in cases involving individuals and multiple sources of coverage (like workers’ compensation coordination).

Application of Administrative Simplification. The bill would require insurers and providers to use common standards for transactions such as claims payment, eligibility and enrollment building on the Health Insurance Portability and Accountability Act of 1996.

Health Choices Administration; Health Choices Commissioner. The measure would establish the Health Choices Administration, an independent executive branch agency. The Health Choices Commissioner would be appointed by the President.

Duties and authority of Commissioner. The Health Choices Commissioner would carry out functions including: establishment of qualified plan standards, establishment and operation of the Health Insurance Exchange, administration of affordability credits, and additional functions as laid out within the bill. The Commissioner could collect data necessary to carry out his or her duties and to promote quality and value and address disparities in health care. Such information could also be shared with HHS. The Commissioner also would have oversight and enforcement authority, including the authority to impose sanctions and suspend enrollment of a plan. This authority would require the Commissioner to

coordinate with the Department of HHS, the Department of Labor and state insurance regulators.

Consultation and coordination. The provision would require the Health Choices Commissioner to consult with other regulatory bodies and state and federal agencies in carrying out his duties and to ensure appropriate oversight and enforcement.

Health Insurance Ombudsman. The bill would establish a Qualified Health Benefits Plan Ombudsman to assist individuals in navigating the new health reform system and report to Congress on recommendations for improvements in administration of the program.

Relation to other requirements. The measure would clarify that this act does not supersede COBRA or HIPAA, including mental health parity and the genetic nondiscrimination act, unless their requirements prevent the application of a requirement of this title.

Prohibiting discrimination in health care. The legislation would prohibit discrimination by health insurers with regard to the provision of high quality care or services.

Whistleblower protection. The bill would protect employees from retaliation by their employer for the reporting of any violations of this act and provide remedies for such retaliation in accordance with existing law in the Consumer Product Safety Act.

Collective bargaining. H.R. 3200 would preserve statutory obligations of employers to bargain collectively with employee representatives over health care.

Ensuring value and lower premiums. The provision would amend the Public Health Service Act to require health insurance issuers to meet a specified medical loss ratio as defined by the Secretary effective for plan years on or after Jan. 1, 2011. If plans exceed that limit, rebates to enrollees would be required. In setting the medical loss ratio, the Secretary would set this highest level possible to ensure adequate participation by issuers, competition in the market, and value for consumers.

Ending health insurance rescission abuse. The bill would prohibit health insurance companies from rescinding coverage except in instances of clear fraud and would require independent review of any rescission determination, effective Oct. 1, 2010.

Administrative simplification. The legislation would require the Secretary of HHS to adopt standards for typical transactions between insurers and providers such as claims, eligibility, enrollment, and prior authorization building on the standards in the Health Insurance Portability and Accountability Act of 1996. The bill would establish implementation and enforcement mechanisms for such standards.

Reinsurance program for retirees. H.R. 3200 would establish a temporary reinsurance program to provide reimbursement to participating employment-based plans for part of the cost of providing health benefits to retirees

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

and their families. Employment-based plans would need to apply to participate and be approved by the Secretary. The program would reimburse participating employment-based plans for 80% of the cost of benefits provided per enrollee in excess of \$15,000 and below \$90,000. The plans would be required to use the funds to lower costs borne directly by participants and beneficiaries. The act would appropriate \$10 billion for this fund and those funds are available until expended.

Health Insurance Exchange and Related Provisions

Establishment of Health Insurance Exchange; outline of duties; definitions. The Act would establish a Health Insurance Exchange under the purview of the Health Choices Administration that will facilitate the offering of health insurance choices. The Health Choices Commissioner would establish a process through which to obtain bids, negotiate and enter into contracts with qualified plans, and ensure that the different levels of benefits are offered with appropriate oversight and enforcement. The Commissioner would also facilitate outreach and enrollment, creates and operates a risk pooling mechanism, and ensures consumer protections.

Exchange-eligible individuals and employers. The bill would define who would be eligible for participation in the Health Insurance Exchange including employers and individuals. In year one, individuals not enrolled in other acceptable coverage could participate in the Exchange as well as small employers with 10 or fewer employees. In year two, employers with 20 and fewer employees could participate in the Exchange. In subsequent years, the Health Choices Commissioner would be granted authority to expand employer participation as appropriate, with the goal of allowing all employers access to the Exchange. Defines acceptable coverage to include enrollment in other qualified coverage and most other federal health programs. Medicaid-eligible individuals would generally be enrolled in Medicaid, not the Exchange. An exception would be made for childless adults with incomes under 133% of poverty (\$14,400 per year for an individual) who had other qualifying coverage within the previous six months. They would have the choice to obtain coverage through Medicaid or the Exchange. Once an individual or an employer enrolls in coverage through the Exchange, they would remain eligible for Exchange coverage even if their circumstance changes and would otherwise exclude them. The bill would require that employers who offer coverage through the Exchange contribute at least the required contribution toward such coverage and permit their employees the freedom to choose any plan within the Exchange. The bill would also require the Commissioner to conduct periodic surveys of Exchange-eligible individuals and employers to measure satisfaction. The bill would also

require the Commissioner to conduct a study regarding access to the Exchange to determine if there are significant groups and types of individuals and employers who are not Exchange-eligible, but who would have improved benefits and affordability if made eligible. The report would be due in year three and year six of the Exchange and continued thereafter. It would include recommendations as appropriate for changes to the eligibility standards.

Benefits package levels. The Health Choices Commissioner specifies the benefits that must be made available in each year – including a requirement that each participating plan provide one basic plan in each service area in which they operate. It would then be optional for the plan to offer one enhanced and one premium plan. The differences between the three main plans (i.e. basic, enhanced and premium) would be the levels of cost-sharing required, not the benefits covered. The Commissioner shall establish a permissible range of cost-sharing variation that is not to exceed plus or minus 10% with regard to each benefit category. There would be a fourth tier called premium-plus. In this package, plans would be able to offer extra benefits like dental or vision coverage for adults, or other non-covered benefits. It would ensure consumers know what they are paying extra for, these packages must detail the cost of the extra benefits separately. States could require the application of state benefit mandates to all Exchange participating plans, but only if there is an agreement with the Commissioner that the state will reimburse the Commissioner for any additional costs of affordability credits in that state due to the State benefit requirements.

The bill lays out the responsibilities for the Health Choices Commissioner's contracting authority including solicitation of bids, negotiation with plans and the entering into contracts with approved plans (that will be for at least one year of duration and can be automatically renewed). Requirements include that plans be licensed in the state in which they will do business, abide by data reporting requirements as outlined by the Commissioner, provide for the implementation of affordability credits, participate in risk pooling, provide for culturally and linguistically appropriate services and communications, and with respect to the basic plan, contract for outpatient services with essential community providers as defined in the 340B program. The Commissioner outlines the bid process; the term of the contract would be a minimum of one year; and the Commissioner would enforce network adequacy, including an allowance for enrollees to receive services out-of-network at no greater cost if the provider network does not meet the standards for adequacy. The Commissioner would be required to establish processes to oversee, monitor, and enforce requirements on the plans. The Commissioner would have the authority to terminate plans that fail to meet the required standards.

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

Outreach and enrollment of Exchange-eligible individuals and employers in Exchange-participating health benefits plan. The legislation would require the Health Choices Commissioner to conduct outreach and enrollment activities to ensure Exchange-eligible individuals and businesses are enrolled into the Exchange in a timely manner, including a toll-free hotline, maintenance of a website, creation of outreach materials written in culturally and linguistically appropriate language, and community locations for enrollment. The bill would set up an annual open enrollment period as well as special enrollment periods for special circumstances and would require the Commissioner to create an auto-enrollment process for individuals who are Exchange-eligible but have not selected a plan. The Commissioner would provide for broad dissemination of information on exchange-participating health plans in a comparative manner and could work with other appropriate entities to ensure the dissemination of this information. The bill would also establish rules to ensure continuity of coverage for certain newborns in Medicaid and for children eligible for CHIP. The act would also allow the Commissioner to enter into memorandums of understanding with state Medicaid agencies to coordinate enrollment in Medicaid and the Exchange for Medicaid-eligible individuals.

Other functions. The Health Choices Commissioner would coordinate affordability credits and riskpooling. In order to prevent waste, fraud, and abuse, the act would institute a special inspector general to oversee operation of the program.

Health Insurance Exchange Trust Fund. The measure would create a Health Insurance Trust Fund to provide necessary funding for the Health Choices Administration.

Optional operation of State-based health insurance exchanges. The bill would permit states to offer their own Exchange or join with a group of states to create their own exchange in lieu of the federal Health Insurance Exchange, provided that the state(s) perform all of the duties of the federal Exchange as approved by the Health Choices Commissioner. The Commissioner would have authority to terminate state exchanges if they failed to meet their obligations.

Establishment and administration of a public health insurance option as an Exchange-qualified health benefits plan. The legislation would require the Secretary of Health and Human Services to develop a public health insurance option to be offered starting in 2013 as a plan choice within the Health Insurance Exchange. The public option would participate on a level playing field with private plan choices. Like private plans, it must offer the same benefits, abide by the same insurance market reforms, follow provider network requirements and other consumer protections.

Premiums and financing. Premiums for the public option would be geographically-adjusted and would need to be set to fully cover the cost of coverage as well as administrative costs of the plan. This includes a requirement that the public option, like private plans, would include a contingency margin in its premium to cover unexpected cost variations. There would be an initial appropriation of \$2 billion for administrative costs to provide for initial claims reserves before the collection of premiums. These start up funds would be amortized into the premiums for the public option to be recouped over the first 10 years of operation. The bill would require that the public option be self-sustaining after this initial funding.

Payment rates for items and services. The Secretary of HHS would establish geographically-adjusted provider payment rates for the public option. For the first three years, those rates would be based on Medicare rates with a 5% add-on for practitioners who also participate in the Medicare program. This increase would also apply to practitioners, like pediatricians, who do not typically participate in Medicare. After the first three years, the Secretary would be granted greater flexibility in setting rates, but the general rule is that overall spending should remain consistent with the initial levels. Flexibility would be provided to the Secretary to create payment rates for services not covered by Medicare, pursue delivery system reforms, make adjustments to offset geographic variations and adjust rates as necessary to assure competitiveness with Exchange-participating plans or for excessive or deficient payments. Medicare providers would be presumed to also be participating in the public option unless they opt out. There would be no penalties for opting out. The Secretary would also have authority to negotiate prescription drug prices for the public option.

Modernized payment initiatives and delivery system reform. The Secretary would be empowered to move forward with delivery system reforms to change the way the public option pays for medical services to promote better quality and more efficient use of medical care. Such payment changes would have to seek to reduce cost for enrollees, improve health outcomes, reduce health disparities, address geographic variation in the provision of medical services, prevent or manage chronic illnesses, or promote integrated patient-centered care.

Provider participation. The bill would provide the Secretary of HHS with the authority to develop conditions of participation for the public health insurance option. Providers would be licensed in the state in which they do business. Physician participation would come in two types: preferred physicians are those physicians who agree to accept the public option's payment rate (without regard to cost-sharing) as payment in full, participating nonpreferred physicians are those who agree not to impose charges in excess of the balance billing limitations in Medicare. Providers would be excluded from participating in the

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

public option if they are excluded from other federal health programs.

Application of fraud and abuse provisions. The legislation would apply Medicare's anti-fraud and abuse protections to the public health insurance option.

Availability through Health Insurance Exchange. H.R. 3200 would create affordability credits to ensure that people with incomes up to 400% of federal poverty have affordable health coverage. These credits would be phased out according to a schedule defined in the act as individual and family incomes up to 400% of poverty and the credits apply only to Exchange-participating plans. Affordability credits would reduce the costs of both premium and annual out-of-pocket spending. Individuals would apply through the Commissioner or Health Insurance Exchange for the credits, or through other entities approved by the Commissioner. The Commissioner would be able to enter into Memorandums of Understanding with State Medicaid agencies for such determinations as well and will reimburse such agency for the costs of conducting such determinations. In the first two years, affordability credits could only be used to purchase a basic plan. After that, the Commissioner would establish a process to allow them to be used for enhanced and premium plans in a way that makes clear the individuals who select those options will be responsible for any difference in costs.

Affordable credit eligible individual. In order to receive affordability credits, individuals would need individual coverage through an Exchange-participating health benefits plan (though not through an employer purchasing coverage through the Exchange). Family and individual incomes must be below 400% of the federal poverty limit to access the affordability credits, and the individual generally must not be eligible for Medicaid. In general, employees who are offered employer coverage would be ineligible for affordability credits within the Exchange. Beginning in year two, employees who meet an affordability test showing that coverage under their employer-provided plan would cost more than 11% of income, are eligible to obtain income-based affordability credits in the Exchange.

Affordable premium credit. The affordable premium amount would be calculated on a sliding scale starting at 1.5% of income for those at or below 133% of poverty and phasing out at 11% of income for those at 400% of poverty. The way this phaseout works is specifically detailed in the act. The reference premium is the average premium for the three lowest cost basic plans in the area in which the individual resides.

Affordability cost-sharing credit. The affordability cost-sharing credit would reduce cost-sharing for individuals and families at or below 133% of poverty up to 400% of the federal poverty limit as specified in the Act.

Income determinations. To determine income, the Health Choices Commissioner would use income data from the individual's most recent tax return. The federal poverty level applied would be the level in effect as of the date of the application. The Commissioner would take such steps as are appropriate to ensure accuracy of determinations and redeterminations to protect program integrity. Processes would be established for individuals with significant changes in income to inform the Commissioner of such change. There would be penalties for misrepresentation of income. The Commissioner would be required to conduct a study examining the feasibility and implication of adjusting the application of the federal poverty level for different geographic areas to reflect the variations in the cost-of-living among various areas in the country.

No Federal payment for undocumented aliens. The bill would prohibit anyone not lawfully present in the United States from obtaining affordability credits.

Shared Responsibility

Individual responsibility. The legislation would cross-reference the shared responsibility provision in the Internal Revenue Code where an individual has the choice of maintaining acceptable coverage or paying a tax.

Health coverage participation requirements. The bill would provide the rules that apply to an employer that elects to provide health coverage (an "offering employer") in lieu of the payroll tax that applies to a non-offering employer. An offering employer generally would have to offer all of its employees the option of selecting individual or family health coverage.

Employer responsibility to contribute towards employee and dependent coverage. H.R. 3200 would set the minimum employer contribution to 72.5% of the premium for individual coverage, and 65% of the premium for family coverage or a proportional amount for non-fulltime employees. Family coverage for this purpose includes the employee's spouse and qualifying children.

Employer contributions in lieu of coverage. The bill would require an offering employer to contribute to the Exchange for each employee who declines the employer's coverage offer and enters the Exchange via the affordability test outlined in the act. The contribution is generally 8% of the average salary for the employer.

Authority related to improper steering. The legislation would authorize the creation of rules that would prohibit employers from engaging in practices that steer employees away from employer-offered coverage and into coverage offered under the Exchange.

Satisfaction of health coverage participation requirements under the Employee Retirement Income Security Act of 1974. H.R. 3200 would provide rules under which an employer that is subject to ERISA makes an election to offer health coverage (an "offering employer")

**SUMMARIES OF BILLS AND RESOLUTIONS
ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS**

in lieu of the payroll tax that applies to a non-offering employer. The employer would make a separate election for full-time employees, non-full time employees, and separate lines of business. The section also would provide remedies to the Department of Labor and employees of an offering employer if the employer does not follow the rules that apply to a coverage offer.

Satisfaction of health coverage participation requirements under the Internal Revenue Code of 1986. The bill would cross-reference the rules in the Internal Revenue Code relating to an employer's election to be an offering employer.

Satisfaction of health coverage participation requirements under the Public Health Service Act. The legislation would provide rules under which an employer that is subject to the Public Health Service Act makes an election to offer health coverage (an "offering employer") in lieu of the payroll tax that applies to a non-offering employer. The employer would be able to make a separate election for full-time employees and non-full time employees. The section also would provide remedies to the Department of Health and Human Services and employees of an offering employer if the employer does not follow the rules that apply to a coverage offer.

Additional rules relating to health coverage participation requirements. The bill would require the Exchange and the Departments of HHS, Labor, and Treasury to develop coordinated interpretative and enforcement measures with respect to offering employers.

Amendments to the
Internal Revenue Code of 1986

Tax on individuals without acceptable health care coverage. H.R. 3200 would provide for a 2.5% additional tax on the modified adjusted gross income of an individual who does not obtain acceptable health coverage for the individual or dependents claimed on the individual's tax return. Would authorize the Department of Treasury and the Exchange to establish a hardship exemption from the additional tax. Acceptable coverage would include grandfathered individual and employer coverage, certain government coverage (e.g., Medicare, Medicaid, certain coverage provided to veterans, military employees, retirees, and their families), and coverage obtained pursuant to the Exchange or an employer offer of coverage.

Election to satisfy health coverage participation requirements. The bill would provide rules under which an employer could make an election to offer health coverage (an "offering employer") in lieu of the payroll tax that applies to a non-offering employer. This section also would provide for an excise tax that applies to an offering employer if the employer fails to follow the rules governing an offer of coverage.

Responsibilities of nonselecting employers. The legislation would establish a payroll tax of 8% of the wages that an employer pays to its employees for employers who choose not to offer coverage. Certain small employers would be exempt from this or be subject to a graduated tax rate. An exempt small business is an employer with an annual payroll that does not exceed \$250,000. The 8% payroll tax phases in for employers with annual payroll from \$250,000 through \$400,000.

Credit for small business employee health coverage expenses. H.R. 3200 would provide for a tax credit equal to 50% of the amount paid by a small employer for employee health coverage. The tax credit would be phased out in the case of an employer with 10 to 25 employees, and is also phased out in the case of an employer with average wages of \$20,000 to \$40,000 per year.

Disclosures to carryout health insurance exchange subsidies. The bill would permit the Exchange to receive taxpayer return information from the Internal Revenue Service in order to assist the Exchange in determining subsidy eligibility.

Health care surcharge on the top 1.2% of earners. The bill would require the top 1.2% of earners – households with modified adjusted gross income in excess of \$350,000 (married filing a joint return) and \$280,000 (single) – to contribute towards the cost of providing access to affordable health care for all Americans through a new health care surcharge. According to the nonpartisan Joint Committee on Taxation, this surcharge would have no impact on 98.8% of households in the United States and would only affect, at most, 4.1% of all small business owners in the United States. The health care surcharge would be imposed at progressive rates so that for married households, income in excess of \$350,000 and below \$500,000 would be subject to a surcharge of 1%, income in excess of \$500,000 and below \$1 million would be subject to a surcharge of 1.5% and income in excess of \$1 million would be subject to a surcharge of 5.4%. The first two rates would be increased to 2% and 3%, respectively, in the event that certain health cost savings are not achieved.

Distributions for Medicine Qualified only if for Prescribed Drug or Insulin. The bill provides that an excludable expense reimbursement for a medicine or drug from a health savings account or Archer medical savings account, or under a health reimbursement or flexible spending arrangement, is limited to a prescribed drug or insulin.

Delay implementation of worldwide allocation of interest. In 2004, Congress provided taxpayers with an election to take advantage of a liberalized rule for allocating interest expense between United States sources and foreign sources for purposes of determining a taxpayer's foreign tax credit limitation. Although enacted in 2004, this election was not available to taxpayers until taxable years beginning after 2008. Last year, the House of Representatives delayed the phase-in of this new liberalized

**SUMMARIES OF BILLS AND RESOLUTIONS
ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS**

rule for two years (for taxable years beginning after 2010) as part of the Housing and Economic Recovery Act of 2008 (P.L. 108-289). The bill would further delay the phase-in of this new rule for an additional nine years (for taxable years beginning after 2019).

Limitation on treaty benefits for certain deductible payments. The bill would prevent foreign multinational corporations incorporated in tax haven countries from avoiding tax on income earned in the United States by routing their income through structures in which a United States subsidiary of the foreign multinational corporation makes a deductible payment to a country with which the United States has a tax treaty before ultimately repatriating these earnings in the tax haven country.

Clarification of the economic substance doctrine. The economic substance doctrine is a judicial doctrine that has been used by the courts to deny tax benefits when the transaction generating these tax benefits lacks economic substance. The courts have not applied the economic substance doctrine uniformly. The bill would clarify the manner in which the economic substance doctrine should be applied by the courts. However, the bill does not change current-law standards used by courts in determining when to utilize an economic substance analysis. Under the provision, in any case in which the economic substance doctrine is relevant to a transaction, the economic substance doctrine would be satisfied only if (1) the transaction changes in a meaningful way (apart from federal income tax consequences) the taxpayer's economic position, and (2) the taxpayer has a substantial non-federal tax purpose for entering into such transaction. The provision also imposes a 20% penalty on understatements attributable to a transaction lacking economic substance (penalty increased to 40% in the case of transactions in which the relevant facts affecting the tax treatment of the transaction are not adequately disclosed).

Certain health related benefits applicable for spouses and dependents extended to eligible individuals. The legislation provides that the income and payroll tax exclusion for employer provided health coverage includes an individual who is eligible to receive coverage under the employer's health plan, and makes similar changes with respect to the deduction for health coverage for self-employed individuals.

**DIVISION B: MEDICARE AND MEDICAID
IMPROVEMENTS**

Improving Health Care Values

Medicare Part A Provisions

Skilled nursing facility payment update. The bill would provide for a market basket freeze for the second, third and fourth quarters of fiscal year 2010.

Inpatient rehabilitation facility payment update. The legislation would provide for a market basket freeze for the second, third and fourth quarters of fiscal year 2010.

Incorporating productivity improvements into market basket updates that do not already incorporate such improvements. H.R. 3200 would incorporate a productivity adjustment into the market basket update for inpatient hospitals, skilled nursing facilities, inpatient rehabilitation hospitals, psychiatric hospitals and hospice care beginning in 2010. Sets a floor for the inpatient hospital market basket update so that the combination of the productivity adjustment and any adjustments for quality reporting or meaningful use of electronic health records cannot cause the market basket update to go below zero.

Payments to skilled nursing facilities. The legislation would codify the recalibration factor included in the FY 2010 Notice of Proposed Rulemaking for the Medicare skilled nursing facility prospective payment system. Provides a budget neutral adjustment within the payment system to improve payment accuracy for non-therapy ancillary services and therapy services, directs the Secretary to analyze payments for non-therapy ancillary services and proceed to include in a future SNF case mix reclassification system, and creates an outlier payment for nontherapy ancillary services.

Medicare DSH report and payment adjustments in response to coverage expansion. The bill would direct the Secretary to submit a report to Congress by Jan. 1, 2016 on Medicare disproportionate share hospital (DSH) payments. If the uninsured rate drops a certain number of percentage points between 2012 and 2014, directs the Secretary to adjust Medicare DSH payments starting in FY 2017 to the empirically justified level plus an adjustment reflecting uncompensated care costs.

Extension of Hospice Regulation Moratorium. The legislation would extend the hospice moratorium regulation enacted in section 4301(a) of the American Recovery and Reinvestment Act of 2009 through fiscal year 2010.

Medicare Part B Provisions

Sustainable growth rate reform. H.R. 3200 would permanently reform the formula that annually updates reimbursement rates for physician services in Medicare. The revised formula recognizes the importance of primary care by allowing these services to grow at a higher rate than other services, and does not reduce physician pay rates for increases in spending on drugs or lab services. The policy also encourages physicians to form Accountable Care Organizations by providing these organizations with their own targets and update factors. Updates payment rates by the Medicare Economic Index in 2010 as these reforms are implemented.

Misvalued codes under the physician fee schedule. The bill would direct the Secretary to regularly review fee

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

schedule rates for physician services paid for by Medicare, including services that have experienced high growth rates. The bill would strengthen the Secretary's authority to adjust fees schedule rates that are found to be misvalued or inaccurate.

Payments for efficient areas. The bill would provide incentive payments in the Medicare program to physicians practicing in areas that are identified as being the most cost-efficient areas of the country.

Modifications to the Physician Quality Reporting Initiative (PQRI). H.R. 3200 would extend through 2012 payments under the PQRI program, which provide incentives to physicians who report quality data to Medicare. Creates a review process for physicians who choose to have their PQRI submissions reviewed and directs the Secretary to integrate the PQRI program and the "meaningful use" measures used by the health information technology incentive program.

Adjustment to Medicare payment localities. The bill would update the method used to determine the localities used for Medicare's geographic adjustment factor in California, utilizing an approach that is based on metropolitan statistical areas.

Incorporating productivity adjustment into market basket updates that do not already incorporate such improvements. The legislation would incorporate a productivity adjustment into the market basket update for outpatient hospital services beginning in 2010. Sets a floor for the outpatient hospital market basket update so that the combination of the productivity adjustment and any adjustments for quality reporting cannot cause the market basket update to go below zero. The bill would incorporate a productivity adjustment beginning in 2010 for ambulance services, ambulatory surgical centers, and durable medical equipment not subject to competitive bidding. The legislation would replace the existing update for laboratory services of CPI minus 0.5 with an update of CPI less productivity, beginning in 2010.

Rental and purchase of power-driven wheelchairs. The legislation would eliminate the option for Medicare to purchase power-driven wheelchairs with a lump-sum payment at the time the chair is supplied. Medicare would continue to make the same payments for power-driven chairs over a 13-month period. Purchase option for complex rehabilitative power wheelchairs would be maintained.

Extension of payment rule for brachytherapy. The bill would extend payment at cost for brachytherapy for two years through 2011.

Home infusion therapy report to Congress. In many situations, Medicare does not cover equipment and services related to home infusion of prescription drugs. This provision directs the Secretary to make recommendations on the most appropriate way for Medicare to cover and pay for home infusion services.

Require ambulatory surgical centers (ASCs) to submit cost data and other data. H.R. 3200 would direct the Secretary to develop a cost report for ASCs within two years of enactment and to require reporting of cost data by ASCs for cost reporting periods beginning on or after the date when the cost report is developed. It would direct the Secretary to require ASCs to submit quality data beginning in 2012.

Treatment of certain cancer hospitals. The bill would direct the Secretary to study whether existing cancer hospitals that are exempt from the inpatient prospective payment system have costs under the outpatient prospective payment system (OPPS) that exceed costs of other hospitals, and to make an appropriate payment adjustment under OPPS based on that analysis.

Medicare Improvement Fund. H.R. 3200 would place \$8 billion in the Medicare Improvement Fund.

Payment for imaging services. The legislation would increase the practice expense units for imaging services to reflect a presumed utilization rate of 75% instead of 50%. Excludes low-tech imaging such as ultrasound, x-rays and EKGs from this adjustment. Also adjusts the technical component discount on single session imaging studies on contiguous body parts from 25% to 50%.

Durable medical equipment program improvements. The bill would provide protections for beneficiaries receiving oxygen therapy in the event an oxygen supplier goes out of business. It would exempt certain pharmacies from the surety bond requirement and the need to be accredited to sell diabetic testing supplies and certain other items.

MedPAC study and report on bone mass measurement. The legislation would instruct MedPAC to conduct a study on the adequacy of Medicare payment for bone mass measurement services under the physician fee schedule.

Medicare Part A and B Provisions

Reducing potentially preventable hospital readmissions. Beginning in fiscal year 2012, the bill would adjust payments for 1886(d) hospitals, critical access hospitals and hospitals paid under 1814(b)(3) based on the dollar value of each hospital's percentage of potentially preventable Medicare readmissions for 3 conditions with risk adjusted readmission measures that are endorsed by the National Quality Forum. Directs the Secretary to expand the policy to additional conditions in future years and authorizes the Secretary to modify the adjustment based on a hospital's performance in readmissions compared to a ranking of hospitals nationally. The bill would provide assistance to certain hospitals for transitional care activities to address patient noncompliance issues that may result in high readmission rates. It would create an interim readmissions policy for post-acute providers beginning in

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

FY 2012, and directs the Secretary to develop risk adjusted readmission rates for post-acute providers and implement a readmissions payment system for those providers similar to the hospital system on or after FY 2015. Directs the Secretary to submit a report to Congress no later than one year after date of enactment on how physicians can be incorporated into the readmissions policy. It would direct the Secretary to monitor inappropriate changes in admission practices by hospitals and post-acute providers and authorizes the Secretary to penalize providers that are avoiding patients at risk of a readmission.

Post acute care (PAC) services payment reform plan. H.R. 3200 would direct the Secretary to submit to Congress no later than 3 years after date of enactment a detailed plan on how to implement post-acute bundled payments. Converts the existing Acute Care Episode demonstration project to a pilot program and expands the program so that it may include bundling of payments for hospitals and post-acute providers, effective Jan. 1, 2011. Also it would require a study and demonstration authority for bundling of payments for outpatient services.

Home health payment update for 2010. Provides a freeze in the market basket update for homehealth agencies for 2010.

Payment adjustments for home health care. The bill would accelerate the regulatory adjustment for case mix currently scheduled for 2011 so that it occurs in 2010. It would direct the Secretary to rebase the home health prospective payment system for 2011, taking into account changes in the average number and types of visits per episode, change in intensity of visits, and growth in cost per episode.

Incorporating productivity improvements into market basket update for home health services. The legislation would incorporate a productivity adjustment into the market basket update for home health agencies beginning in 2010. The bill would set a floor for the home health market basket so that the combination of the productivity adjustment and any adjustments for quality reporting cannot cause the market basket update to go below zero.

Limitation on Medicare exceptions to the prohibition on certain physician referrals made to hospitals. The legislation would close a loophole in the self-referral rules that allows physicians to refer patients to hospitals in which they have a direct financial interest. It would prohibit physician ownership in hospitals that are new as of January 1, 2009. It would grandfather the ownership structures of all physician-owned hospitals existing prior January 1, 2009. The bill would allow for growth of existing physician-owned hospitals within certain parameters.

Institute of Medicine study on geographic adjustment factors under Medicare. Within one year of enactment, the Institute of Medicine would report to CMS on the validity and effects of the geographic adjusters used for Medicare

physician and hospital payments, and any recommendations for improvements.

Revision of Medicare payment systems to address geographic inequities. CMS would be instructed to respond to recommendations under section 1157 and may spend up to \$4 billion per year, for two years, to affect any needed increases in payment rates.

Institute of Medicine study of geographic variation in health care spending and promoting high-value care. The bill would initiate a study by the Institute of Medicine on geographic variation in health care spending. It would direct the Institute to make recommendations on how to incentivize providers to furnish high-value care.

Medicare Advantage Reforms

Phase-in of payment based on fee-for-service costs. H.R. 3200 would reduce Medicare Advantage benchmarks to fee-for-service levels over three years, reaching equality of payment rates in 2013.

Quality bonus payments. The legislation would create an incentive system to increase payments to high quality plans, phased-in over 2011-2013, consistent with the changes in section 1161.

Extension of Secretarial coding intensity adjustment authority. The bill would extend CMS authority to adjust risk scores in Medicare Advantage for observed differences in coding patterns relative to fee-for-service.

Simplification of annual beneficiary election periods. The legislation would provide extra time for CMS and health plans to process enrollment paperwork during annual enrollment periods and eliminates a duplicative open enrollment period for Medicare Advantage plans.

Extension of reasonable cost contracts. The measure would extend the period of time for which Cost plans may operate in areas that have other health plan options.

Limitation of waiver authority for employer group plans. H.R. 3200 would restrict the ability of Medicare Advantage plans to offer coverage outside their service area and grandfathers current contracts.

Improving risk adjustment for payments. H.R. 3200 would require a study on the effectiveness of the Medicare Advantage risk adjustment system for low-income and chronically ill populations.

Elimination of MA Regional Plan Stabilization Fund. The provision would eliminate the Medicare Advantage regional plan Stabilization fund.

Limitation on cost-sharing for individual health services. The bill would ensure that beneficiaries in Medicare Advantage plans are not subjected to higher cost-sharing than they would face in fee-for-service Medicare. It would ensure that beneficiaries dually eligible for Medicare and Medicaid are not subject to higher cost-sharing than they would face under Medicaid were they not enrolled in Medicare.

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

Continuous open enrollment for enrollees in plans with enrollment suspension. The legislation would allow beneficiaries in Medicare Advantage plans facing sanctions for failure to meet program rules to opt out of the plan at any time for another plan or fee-for-service Medicare.

Information for beneficiaries on MA plan administrative costs. The measure would require CMS to publish standardized information on medical loss ratios and other plan information to beneficiaries and the public. For plans with medical loss ratios below 85%, it would require rebates and increasing penalties over time, including eventual termination of contracts.

Strengthening audit authority. The bill would strengthen the ability of CMS to recover overpayments to plans discovered by audits.

Authority to deny plan bids. The legislation would clarify that CMS is not obligated to accept any or every bid submitted by a Medicare Advantage or Part D plan. Limitation on enrollment outside open enrollment period of individuals into chronic care specialized MA plans for special needs individuals. The bill would ensure that chronic condition special needs plans (SNPs) enroll beneficiaries only during their eligibility periods.

Extension of authority of special needs plans to restrict enrollment. The legislation would extend the SNP program through 2012, and extends certain fully integrated dual eligible SNPs through 2015.

Medicare Part D Reforms

Elimination of coverage gap. H.R. 3200 would eliminate Part D donut hole, beginning with a \$500 reduction in 2011, and completing phase-out by 2023. It would pay for the elimination of the gap with funds raised by requiring drug manufacturers to provide Medicaid rebates for drugs used by full dual eligibles.

Discounts for certain Part D drugs in original coverage gap. The measure would incorporate voluntary PhRMA agreement to provide discounts of 50% for brand-name drugs used by Part D enrollees in the Part D donut hole into the bill.

Repeal of provision relating to submission of claims by pharmacies located in or contracting with long-term care facilities. The bill would eliminate deadlines for long-term care pharmacists to file Part D claims to allow more time for improved coordination with state Medicaid programs.

Including costs incurred by AIDS Drug Assistance Programs and Indian Health Service in providing prescription drugs towards the annual out-of-pocket threshold under Part D. The legislation would allow drugs provided to patients by AIDS Drug Assistance Programs or the Indian Health Service to count toward out-of-pocket costs, allowing these individuals to qualify for Part D catastrophic benefits.

Permitting mid-year changes in enrollment for formulary changes that adversely impact an Enrollee. The measure would allow Part D enrollees to change drug plans if the plan makes a change to the formulary that increases cost-sharing or otherwise reduces coverage.

Medicare Rural Access Provisions

Telehealth expansion and enhancements. The legislation would expand Medicare's telehealth benefit to beneficiaries who are receiving care at freestanding dialysis centers. Also it would establish a Telehealth Advisory Committee to provide HHS with additional expertise on the telehealth program.

Extension of outpatient hold harmless provision. H.R. 3200 would extend the existing outpatient hold harmless provision through FY 2011.

Extension of section 508 hospital reclassifications. The bill would extend reclassifications under section 508 of the Medicare Modernization Act through FY 2011.

Extension of geographic floor for work. The measure would provide Medicare adjusts fees paid for physician services based on geographic variations in costs. It would extend a floor on geographic adjustments to the work portion of the fee schedule through the end of 2011, with the effect of increasing practitioner fees in rural areas.

Extension of payment for technical component of certain physician pathology services. The legislation would extend a provision that directly reimburses qualified rural hospitals for certain clinical laboratory services through the end of 2011.

Extension of ambulance add-ons. The bill would extend bonus payments made by Medicare for ground and air ambulance services in rural and other areas through the end of 2011.

Medicare Beneficiary Improvements

Improving assets tests for Medicare Savings Program and low-income subsidy program. H.R. 3200 would increase the assets test for eligibility for the Part D low-income subsidy and Medicare Savings Programs to \$17,000 for individuals and \$34,000 for couples indexed annually by CPI.

Elimination of Part D cost-sharing for certain non-institutionalized full-benefit dual eligible individuals. The legislation would eliminate cost sharing for people receiving care under a home and community based waiver who would otherwise require institutional care in a facility for the mentally retarded.

Eliminating barriers to enrollment. The measure would reduce barriers to the low-income subsidy by allowing self-certification and administrative verification of income and data sharing between IRS and SSA.

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

Enhanced oversight relating to reimbursements for retroactive low income subsidy enrollment. The bill would enhance oversight to make sure that low-income beneficiaries who are owed retroactive reimbursement payments from their drug plans receive them.

Intelligent assignment in enrollment. H.R. 3200 would give HHS authority to use an enrollment process for subsidy-eligible individuals into Part D plans that accounts for the quality, cost and/or formulary of plans.

Special enrollment period and automatic enrollment process for certain subsidy eligible individuals. The measure would give HHS authority to enroll subsidy-eligible beneficiaries into plans using a process that accounts for the quality, cost and/or formulary of plans, while also giving beneficiaries the option of choosing another plan.

Application of MA premiums prior to rebate in calculation of low income subsidy benchmark. The legislation would remove Medicare Advantage rebates from the calculation of the low-income subsidy benchmark in order to reduce involuntary switching of full low-income subsidy Part D enrollees.

Ensuring effective communication in Medicare. The bill would require the Secretary of HHS to conduct a study that examines the extent to which Medicare providers utilize, offer or make available language services for beneficiaries who are limited English proficient and ways that Medicare should develop payment systems for language services.

Demonstration to promote access for Medicare beneficiaries with limited English proficiency by providing reimbursement for culturally and linguistically appropriate services. The legislation would instruct the Secretary to carry out a demonstration program to reimburse Medicare providers, in multiple provider settings, for the provision of language services. It would require the Secretary to evaluate the demonstration program and make recommendations on the expansion of such services to the entire Medicare program.

IOM Report on impact of language access services. The bill would require the Secretary to contract with the Institute of Medicine to conduct a study that examines the impact on the quality of care, access to care, the reduction in medical errors and costs or savings associated with the provision of language access services to limited English proficient populations.

Definitions. The legislation would define certain terms such as “Competent Interpreter Services”, “Language Services” and “Limited English Proficient” used in Subtitle B.

Extension of therapy caps exceptions process. The bill would extend the process allowing exceptions to limitations on medically necessary therapy through 2011.

Extended months of coverage of immunosuppressive drugs for kidney transplant patients and other renal

dialysis provisions. H.R. 3200 would lift the current 36-month limitation on Medicare coverage of immunosuppressive drugs for kidney transplant patients who would otherwise lose this coverage on or after January 1, 2012 and makes technical changes to the bundled payment system for End Stage Renal Disease.

Advance care planning consultation. The measure would provide coverage for consultation between enrollees and practitioners to discuss orders for life-sustaining treatment. It would instruct CMS to modify ‘Medicare & You’ handbook to incorporate information on end-of-life planning resources and to incorporate measures on advance care planning into the physician’s quality reporting initiative.

Part B special enrollment period and waiver of limited premium enrollment penalty for TRICARE

Beneficiaries. The legislation would provide for a 12-month Medicare Part B special enrollment period for disabled TRICARE beneficiaries and waives increased premium penalties if beneficiaries sign up during such period.

Part B Premium Adjusted for Capital Gains. The bill would allow capital gains from the sale of a primary residence to count as a life-changing event for purposes of using a more recent tax year for determination of the Part B income related premium.

Demonstration program on use of patient decision aids. The measure would create a demonstration program that uses decision aids and other technologies to help patients and consumers improve their understanding of the risks and benefits of their treatment options and make informed decisions about their medical care.

Promoting Primary Care,
Mental Health Services, and Coordinated Care

Accountable Care Organization pilot program. The legislation would create an alternative payment model within fee-for-service Medicare to reward physician-led organizations that take responsibility for the costs and quality of care received by their patient panel over time. Accountable Care Organizations (ACOs) can include groups of physicians organized around a common delivery system (including a hospital), an independent practice association, a group practice, or other common practice organizations. ACOs can include nurse practitioners and physician assistants and other providers as designated by the ACO. ACOs that would reduce the costs of their patients relative to a spending benchmark would be rewarded with a share of the programmatic savings, conditional on meeting quality targets as well. CMS would allow ACOs to continue operating so long as they are reducing costs while maintaining quality or improving quality while maintaining costs.

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

Medical home pilot program. The bill would provide an expansion/reorientation of the medical home demo in Medicare. It would establish a medical home pilot program to assess the feasibility of reimbursing for qualified patient-centered medical homes. There would be two models in the program: 1) the independent patient-centered medical home, structured around a provider, is targeted at the top half of high-need Medicare beneficiaries with multiple chronic diseases, and 2) the community based medical home, is targeted at a broader population of Medicare beneficiaries with chronic diseases and allows for State-based or non-profit entities to provide care management supervised by a beneficiary designated primary care provider. It would provide approximately \$1.6 billion from the Trust Fund for the 5 year pilot programs. The Secretary would be authorized to expand the program only if quality measures have been met and budget neutrality is demonstrated.

Payment incentive for selected primary care services. The bill would increase the Medicare payment rate by 5% for primary care services of physicians specializing in primary care. Physicians specializing in primary care are defined both by specialty (e.g., family practitioners, internists, and others) and by share of a practice in primary care (at least 50% of allowed charges are for primary care services). Eligible practitioners practicing in health professions shortage areas would receive an additional 5%.

Increased reimbursement rate for certified nurse-midwives. Increases the payment rate for nurse midwives for covered services from 65% of the rate that would be paid were a physician performing a service to the full rate.

Coverage and waiver of cost-sharing for preventive services. The legislation would waive all Medicare cost sharing (both co-insurance and deductibles) for preventive services.

Waiver of deductible for colorectal cancer screening tests regardless of coding, subsequent diagnosis, or ancillary tissue removal. The bill would clarify that the deductible is waived for a screening colonoscopy even if a diagnosis is established as a result of a test or tissue is removed during the procedure.

Excluding clinical social worker services from coverage under the Medicare skilled nursing facility prospective payment system and consolidated payment. The legislation would remove clinical social worker services from coverage under the skilled nursing facility prospective payment system, which allows clinical social workers to bill separately for their services in the skilled nursing facility setting.

Coverage of marriage and family therapist services and mental health counselor services. The measure would add state-licensed or certified marriage and family therapists and mental health counselors as Medicare providers and pays them at the same rate as social workers.

Extension of physician fee schedule mental health add-on. The bill would increase the payment rate for psychiatric services by 5% for two years, through the end of 2011.

Expanding access to vaccines. H.R. 3200 would transfer coverage from Medicare Part D to Medicare Part B for all Medicare-covered vaccines.

Expansion of Medicare-Covered Preventive Services at Federally Qualified Health Centers. It would expand the number of preventive services reimbursed by Medicare.

Quality

Comparative effectiveness research. The legislation would establish a Center for Comparative. It would provide effectiveness Research within the Agency for Healthcare Research and Quality (AHRQ) to conduct, support and synthesize research relevant to the comparative effectiveness of the full spectrum of health care items, services, and systems. It would establish a public/private stakeholder commission known as the "Comparative Effectiveness Research Commission" to oversee the Center, determine national priorities for research, identify research methods and standards of evidence, support forums to increase stakeholder feedback, appoint advisory panels on specific national priorities to advise the center on research questions and methods, and make recommendations for the dissemination of findings. The 17-member Commission would be appointed by the Secretary with input from the Comptroller General and the Institute of Medicine and will include the Director of AHRQ, the Chief Medical Officer of CMS and stakeholders including clinicians, patients, researchers, third-party payers and consumers. Clinical perspective advisory panels will provide advice on specific research questions, methods and gaps in evidence in terms of clinical outcomes for priorities identified by the Commission in order to ensure that the research is clinically relevant. The Commission and the advisory panels it appoints would be subject to strict conflict of interest requirements. The Center and the Commission would be prohibited from mandating coverage, reimbursement or other policies to any public or private payer. The Center and the research it conducts would be funded out of the Comparative Effectiveness Research Trust Fund (CERTF) which would receive contributions from Medicare and private health insurance plans.

Nursing Home Provisions

Required disclosure of ownership and additional disclosable parties information. The measure would require skilled nursing facilities (SNFs) and nursing facilities (NFs) to disclose information on ownership and facility organizational structure and requires the Secretary

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

to develop a standardized format for such information within two years of date of enactment.

Accountability requirements. The legislation would require SNFs and NFs to operate compliance and ethics programs on or after the date that is 36 months after enactment. It would direct the Secretary to develop a quality assurance and improvement program for SNFs and NFs no later than Dec. 31, 2011.

Nursing home compare Medicare website. The bill would direct the Secretary to include additional information on the Nursing Home Compare website, include staffing data based on information collected under section 1416 and summary information on complaints filed for SNFs and NFs.

Reporting of expenditures. The measure would require SNFs to separately report expenditures for direct care services, indirect care services, capital assets, and administrative costs on cost reports for cost reporting periods beginning on or after two years after date of enactment.

Standardized complaint form. The bill would direct the Secretary to create a standardized complaint form and requires states to establish complain resolution processes. It would provide whistleblower protection for employees who complain in good faith about the quality of care or services at a facility.

Ensuring staffing accountability. The legislation would require the Secretary to develop a program for facilities to report staffing information in a uniform format based on payroll data, including information on agency or contract staff. It would be effective two years after date of enactment.

Civil money penalties. H.R. 3200 would authorizes the Secretary to impose civil monetary penalties for a deficiency that results in the direct proximate cause of death of a resident. It would provide additional authority to the Secretary to raise or adjust CMPs under certain circumstances.

National independent monitor pilot program. The bill would direct the Secretary to establish, in consultation with the HHS Inspector General, a pilot program to develop, test and implement use of an independent monitor to oversee interstate and large intrastate chains of SNFs and NFs.

Notification of facility closure. The legislation would require the administrator of a facility that is preparing to close to provide written notification to residents and other parties and to prepare a plan for closing that ensure safe transfer of residents to new facilities.

Dementia and abuse prevention training. The bill would require SNFs and NFs to conduct dementia management and abuse prevention training prior to employment and, if the Secretary determines appropriate, as part of ongoing training.

Study and report on training required for certified nurse aides and supervisory staff. The measure would require the Secretary to study the content of training

requirements for certified nurse aids and supervisory staff of SNFs and NFs and to submit a report with recommendations on content and length of training to Congress within two years of date of enactment.

Quality Provisions

Establishment of national priorities for quality improvement. The legislation would direct the Secretary to establish national priorities for performance improvement, incorporating recommendations from outside entities. These priorities should reflect areas that contribute to a large burden of disease, have high potential to decrease morbidity and mortality and improve performance, address health disparities, and have the potential to produce the most rapid change based on current evidence.

Development of new quality measures; GAO evaluation of data collection process for quality measurement. Based on the national priorities for performance improvement established in this part, the Secretary would develop, test and update new patient-centered and population-based quality measures for the assessment of health care services. It would provide \$25 million for this section. It would instruct GAO to periodically evaluate the program to determine the effectiveness of the quality measures and the extent to which these measures can result in quality improvement and cost savings, and report to Congress.

Multi-stakeholder pre-rulemaking input into selection of quality measures. The legislation would provide for stakeholder input into the use of quality measures for purposes of payment. Each year, the Secretary would make public a list of measures being considered for usage for payment systems. Under a transparent process, a consensus-based entity would convene a multi-stakeholder group to provide recommendations for the usage of measures in a timely fashion, and the Secretary would consider these recommendations.

Application of quality measures. The bill would ensure that quality measures selected by the Secretary are endorsed by a consensus-based entity with a contract with the Secretary under section 1890, except in certain circumstances, e.g., the measure has not been evaluated and no comparable endorsed measure exists. If the Secretary would choose to use a measure that the entity considers but does not endorse, the Secretary would include the rationale for continued use in rulemaking. It would apply this standard to inpatient hospitals, physician services, and renal dialysis services.

Consensus-based entity funding. For the consensus based entity with a contract under section 1890, the contract amount would be increased to \$12 million for the years 2010-2012.

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

Reports on financial relationships between manufacturers and distributors of covered drugs, devices, biologicals, or medical supplies under Medicare, Medicaid, or CHIP and physicians and other health care entities and between physicians and other health care entities. The legislation would require manufacturers or distributors to electronically report to the HHS OIG any payments or other transfers of value above a \$5 minimum made to a "covered recipient" and requires hospitals or entities that bill Medicare to report any ownership share by a physician. The failure to report would be subject to civil monetary penalties from \$1000 to \$10,000 (max \$150,000 per year) per payment, transfer of value, or investment interest not disclosed; penalties for knowing failure to report range from \$10,000 to \$100,000 per payment, not to exceed \$1,000,000 in one year or .1% of revenues for that year.

Requirement for public reporting by hospitals and ambulatory surgical centers on healthcare-associated Infections. The bill would require hospitals and ambulatory surgical centers to report public health information on healthcare-associated infections to the Centers for Disease Control and Prevention.

Medicare Graduate Medical Education

Distribution of unused residency positions. The measure would direct the Secretary to redistribute residency positions that have been unfilled for the prior 3 cost reports and direct those slots for training of primary care physicians. Special preference would be given to programs that saw a reduction in their slots under this section, have formal arrangements to train residents in ambulatory settings or shortage areas, operate three-year primary care residency programs, currently operate residency programs over their cap, or are located in states with a low physician resident to general population ratio.

Increasing training in non-provider settings. The bill would modify rules governing when hospitals can receive indirect medical education (IME) and direct graduate medical education (DGME) funding for residents who train in a non-provider setting so that any time spent by the resident in a non-provider setting shall be counted toward DGME and IME if the hospital incurs the costs of the stipends and fringe benefits. It would direct the HHS Office of the Inspector General to study the level of training in non-provider settings. It would establish a demonstration project whereby approved teaching health centers (which may be non-provider settings such as rural health clinics and federally qualified health centers) may become a primary care training program and receive DGME and the DGME of its contracting hospitals for such residents.

Rules for counting resident time for didactic and scholarly activities and other activities. The measure would modify current law to allow hospitals to count

resident time spent in didactic conferences toward IME costs in the provider (i.e., hospital) setting and toward DGME in the non-provider (i.e., non-hospital) setting.

Preservation of resident cap positions from closed hospitals. The legislation would direct the Secretary to redistribute medical residency slots from a hospital that closes on or after the date that is 2 years before the enactment of this clause to other hospitals in the same State, taking into account recommendations by the senior health official in the State. Such recommendations would be submitted not later than 180 days after the date of the hospital closure involved, or in the case of a hospital that closed within two years of date of enactment, not later than 180 days after enactment.

Improving accountability for approved medical residency training. The bill would set goals for approved medical residency training programs by setting broad goal that include: (1) training to work in non-acute traditional settings; (2) coordination of care within and across settings; (3) understanding cost and value of diagnostic and treatment options; (4) working in multi-disciplinary teams; (5) participating in quality improvement projects; and, (6) demonstrating meaningful use of electronic health records in improving quality of patient care. It would direct the GAO to evaluate the extent to which residency training programs are meeting the goals cited.

Program Integrity

Increased funding and flexibility to fight fraud and abuse. The legislation would provide an additional \$100 million annually in funding for the Health Care Fraud and Abuse Control Fund. It would allow expanded use of funds by the CMS Medicare Integrity Program.

Enhanced penalties for false statements on provider or supplier enrollment applications. The bill would establish civil monetary penalties of \$50,000 per violation for providers, suppliers, Medicare Advantage, or Part D plans that knowingly make false statements or misrepresentation of material fact on enrollment applications for any federal health care program.

Enhanced penalties for submission of false statements material to a false claim. The measure would establish civil monetary penalties of \$50,000 per violation for the knowing submission of false statements or misrepresentation of material fact in information submitted to support a claim for payment.

Enhanced penalties for delaying inspections. The bill would establish civil monetary penalties of \$15,000 per day for delaying or refusing to grant timely access to the HHS OIG for audits, investigations, or evaluations.

Enhanced hospice program safeguards. The legislation would require the Secretary to take immediate action to remedy any violation in a hospice facility that jeopardizes the health and safety of patients. It would allow

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

intermediate sanctions such as civil monetary penalties, suspension or partial payments, appointment of temporary management to oversee operation, plans of correction, or in-service staff training, for violations that do not endanger patients.

Enhanced penalties for individuals excluded from program participation. The measure would establish civil monetary penalties of \$50,000 per violation for any person who orders or prescribes an item or service while excluded from a federal health care program if that person knows or should know that the program from which they are excluded will be billed for the item or service.

Enhanced penalties for provision of false information by Medicare Advantage and Part D plans. H.R. 3200 would establish civil monetary penalties for misrepresentations or false information provided by an MA or Part D plan of up to three times the payment made to the plan or plan sponsor based on the misrepresentation or false information.

Enhanced penalties for Medicare Advantage and Part D marketing violations. The bill would establish new criteria for determining marketing violations, and provides greater discretion to the Secretary or the CMS Administrator to impose penalties on Medicare Advantage and Part D plans that violate marketing requirements.

Enhanced penalties for obstruction of program audits. The legislation would allow for permissive exclusion of individuals or entities found to have obstructed an investigation into or audit of fraud.

Exclusion of certain individuals and entities from participation in Medicare and State Health Care Programs. The measure would clarify definition of exclusion of Medicare and Medicaid entities under section 1128 to mean exclusion from all federal health care programs.

Enforcement of Medicare Secondary Payer Provisions. The bill would clarify that any person may bring an action on behalf of Medicare to enforce the secondary payer statute; that the Department of Justice may choose to intervene in the case; and the realtor may receive twenty to thirty percent of the recovery of a successful case. It would require a qui tam plaintiff to pay CMS for the reasonable costs of producing data associated with such suits.

Enhanced CMS program protection authority. H.R. 3200 would allow the Secretary to designate program areas of "significant risk" in which enhanced oversight can be applied to prohibit waste, fraud, and abuse. It would call for the Secretary to establish screening procedures for new providers, which may include: licensing board checks, screening lists of those excluded from other federal or state health programs, background checks, unannounced pre-enrollment or other site visits. It would allow for enhanced oversight periods (to include site visits, prepayment review, enhanced claims review) for new providers or suppliers in these areas of high risk, and

allows for a moratorium on enrollment of new suppliers or service providers in areas of high risk if the Secretary determines that there would be no adverse impact on beneficiaries.

Enhanced Medicare, Medicaid, and CHIP program disclosure requirements relating to previous Affiliations. The bill would require new suppliers or providers of services to disclose affiliations within the past 10 years with any provider or supplier that has uncollected debt or has been suspended from Medicare, Medicaid, or CHIP.

Required inclusion of payment modifier for certain evaluation and management services. The legislation would establish a "payment modifier" when service results in ordering additional services, prescription drugs, or durable medical equipment, in order to assist efforts to identify fraud.

Evaluations and reports required under Medicare Integrity Program. H.R. 3200 would require MIP contractors to conduct periodic evaluations and report on the effectiveness of their activities.

Require providers and suppliers to adopt programs to reduce waste, fraud, and abuse. The legislation would require all providers and suppliers (other than physicians) to adopt compliance programs and authorizes the Secretary to disenroll a supplier or impose civil monetary penalties or other intermediate sanctions for failure to establish such a program.

Maximum period for submission of Medicare claims reduced to not more than 12 months. The measure would reduce the period for Medicare claims submission in order to reduce "gaming" of payment systems.

Physicians who order durable medical equipment or home health services required to be Medicare enrolled physicians or eligible professionals. The bill would require that physicians ordering durable medical equipment or home health services billable to Medicare must be Medicare-enrolled physicians. It would allow the Secretary discretion to expand this requirement to other areas if such an extension would help reduce waste, fraud, and abuse.

Requirement for physicians to provide documentation on referrals to programs at high risk of waste and abuse. The legislation would require physician or supplier to maintain and provide upon request of the Secretary, documentation related to the ordering of durable medical equipment, home health services, or other areas of high risk.

Face to face encounter with patient required before physicians may certify eligibility for home health services or durable medical equipment under Medicare. H.R. 3200 would require a face-to-face (or telemedicine) encounter with a patient before a physician may certify home health services or durable medical equipment. It would allow the Secretary discretion to expand this requirement to other

SUMMARIES OF BILLS AND RESOLUTIONS

areas if such an extension would help reduce waste, fraud, and abuse.

Extension of testimonial subpoena authority to program exclusion investigations. The bill would clarify that the Secretary (or designee) may subpoena documents or testimony for purposes of a program exclusion investigation.

Required repayments of Medicare and Medicaid overpayments. The measure would clarify that when a provider or supplier, MA or Part D plan (but not a beneficiary) becomes aware of a Medicare or Medicaid overpayment, it would be reported and returned within 60 days.

Expanded application of hardship waivers for OIG exclusions to beneficiaries of any Federal health care program. The legislation would clarify that the hardship waiver provision applies to “beneficiaries,” as defined elsewhere in the title.

Access to certain information on renal dialysis facilities. H.R. 3200 would provide authority for the OIG to access ownership or compensation agreements between renal dialysis facilities and physicians.

Billing agents, clearinghouses, or other alternate payees required to register under Medicare and Medicaid. The bill would require billing agents, clearinghouses, or other alternate payees required to be registered under Medicare and Medicaid in a form and manner to be specified by the Secretary.

Conforming civil monetary penalties to False Claims Act amendments. The legislation would conform key definitions and criteria regarding civil monetary penalty authority under the Social Security Act to match those contained in the 2009 False Claims Act amendments.

Access to information necessary to identify fraud, waste, and abuse. The measure would clarify that the Department of Justice, working with OIG in consultation with CMS, has access to Medicare and Medicaid claims and payment databases, in a manner that complies with privacy and security laws, including HIPAA.

Elimination of duplication between the Healthcare Integrity and Protection Data Bank and the National Practitioner Data Bank. The bill would direct the Secretary to reduce duplication between the two databases. It would allow access to the National Practitioner Databank by the VA.

Compliance with HIPAA privacy and security standards. H.R. 3200 would clarify that HIPAA applies to the subtitle and all amendments.

Revenue-Related Provisions

Disclosures to facilitate identification of individuals likely to be ineligible for the low-income assistance under the Medicare prescription drug program to assist Social Security Administration’s outreach to eligible individuals. The bill would authorize the IRS to disclose to SSA certain

taxpayer return information to assist SSA in its outreach program to identify individuals who are eligible for Medicare Part D assistance.

Comparative Effectiveness Research Trust Fund; financing for Trust Fund. The bill would establish the trust fund for the comparative effectiveness research program. The legislation would also establish a fee that is assessed on private insurance on the basis of the number of insured individuals to fund the research program.

Miscellaneous Provisions

Repeal of trigger provision. The legislation would repeal Subtitle A of Title VIII of the Medicare Prescription Drug, Improvement and Modernization act, commonly referred to as the “45% trigger”.

Repeal of comparative cost adjustment (CCA) program. H.R. 3200 would repeal section 1860-1 of the Social Security Act, as added by section 241(a) of the Medicare, Prescription Drug, Improvement and Modernization Act of 2003, commonly referred to as the “premium support demonstration project.”

Extension of gainsharing demonstration. The bill would extend Gainsharing Demonstration of the Deficit Reduction Act of 2005 from Dec. 31, 2009 to Sept. 30, 2011.

Grants to States for quality home visitation programs for families with young children and families expecting children. The measure would provide grants to States to support voluntary, evidence-based home visitation programs for pregnant women and for families with pre-school age children in order to improve the well-being, health and development of children.

Improved coordination and protection for dual eligibles. The provision would require CMS to establish a dedicated office to improve coordination of benefits and other policies for beneficiaries dually eligible for Medicare and Medicaid.

Assessment of Medicare cost-intensive diseases and conditions. The bill would direct the Administrator of the Centers for Medicare and Medicaid Services to conduct an assessment of the diseases and conditions that are most cost-intensive for the Medicare program. It would direct the Administrator to review and update that assessment and create a fund for research into such diseases and conditions.

consent. H.R. 3325 was signed into law by the President on Sept. 18, 2009 as P.L. 111-63.

WIPA and PABSS Reauthorization Act of 2009 amends the Social Security Act to extend through FY2010 the authorization of appropriations for the Work Incentives Planning and Assistance (WIPA) and the Protection and Advocacy for Beneficiaries of Social Security (PABSS) programs.

H.R. 3326 (Mr. Murtha); Public Law 111-118; app. Dec. 19, 2009.

H.R. 3326, the Department of Defense Appropriations Act of 2010, passed the House by a vote of 400-30 on Jul. 30, 2009. The Senate passed the bill with an amendment by a vote of 93-7 on Oct. 6, 2009. On Dec. 16, 2009 the House agreed to the Senate amendment with an amendment by a vote of 395-34. The Senate agreed to the House amendment to the Senate amendment on Dec. 19, 2009. H.R. 3326 was signed into law by the President on Dec. 19, 2009 as P.L. 111-18.

The public law amends the American Recovery and Reinvestment Act of 2009 to extend the job eligibility lost date to Feb. 28, 2010, for health insurance premium assistance under the Consolidated Omnibus Budget Reconciliation Act (COBRA) and extend from 9 to 15 months the COBRA health insurance subsidy for individuals who have lost jobs.

Also, the public law extends through Feb. 28, 2010 federal-state agreements for emergency unemployment compensation and increases unemployment compensation benefits. The bill provides full federal funding of extended unemployment compensation.

H.R. 3357 (Mr. Rangel with cosponsors); Public Law 111-46; app. Aug. 7, 2009.

H.R. 3357, to restore sums to the Highway Trust Fund, and for other purposes, passed the House, under suspension of the rules, by a vote of 363-68 on July 29, 2009. The Senate agreed to the bill, without amendment, by a vote of 79-17, on July 30, 2009. H.R. 3357 was signed into law by the President on Aug. 7, 2009 as P.L. 111-46.

The Act amends the Internal Revenue Code with respect to determination of the balances of the Highway Trust Fund on Sept. 30, 1998. The Act replaces the \$8.017 billion Restoration of Fund balance appropriation with a \$7 billion Increase in Fund balance appropriation (without fiscal year limitation).

In addition the Act amends the Omnibus Appropriations Act, 2009 with respect to advances to the Unemployment Trust Fund and to the Black Lung Disability Trust Fund under the Employment and Training

Administration of the Department of Labor. The Act removes the FY2010 limitation on the appropriation as well as the specific dollar amount for such advances, replacing them with such appropriations as may be necessary.

The House agreed to the Senate amendment under suspension of the rules on Nov. 5, by a vote of 403-12. H.R. 3548 was signed into law by the President on Nov. 6, 2009 as P.L. 111-92.

**EMERGENCY UNEMPLOYMENT BENEFITS
EXTENSION**

The Act extends unemployment insurance by up to 14 additional weeks for jobless workers and extend benefits for six additional weeks for workers in states with unemployment levels over 8.5 percent.

The Act ensures that the additional \$25 per week in unemployment insurance benefits provided by the *Recovery Act* do not count against a family's eligibility for the Supplemental Nutritional Assistance Program, formerly known as food stamps. The Unemployment Insurance Modernization provisions in the *Recovery Act* are updated to provide that victims of sexual assault who have left their jobs have a "compelling family reason" for benefits; and specifies that railroad workers who face expiring unemployment benefits will be eligible for the extension of benefits. The Act allows states to temporarily pay tier three benefits before tier two benefits in order to avoid payment delay and to ease implementation of Emergency Unemployment Compensation benefits. Tier two and tier three benefits must be exhausted before an individual may qualify for tier four benefits. This provision of the Act is fully offset by an extension of the Federal Unemployment Tax Act (FUTA) until June 30, 2011.

BUSINESS AND HOMEBUYER ASSISTANCE

Homebuyer credit. Under prior law, the First-Time Homebuyer Tax Credit was a refundable tax credit available to an individual buying a principal residence for the first time. The credit phased out for individuals with income between \$75,000 and \$95,000 and for joint filers with income between \$150,000 and \$170,000. For purchases made on or after Jan. 1, 2009 and before Dec. 1,

**SUMMARIES OF BILLS AND RESOLUTIONS
ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS**

2009 the tax credit was equal to the lesser of \$8,000 or 10 percent of the purchase price of the residence. Individuals must repay the credit only if the principal residence is disposed of within 36 months of purchase. For purchases made on or after April 9, 2008 and before January 1, 2009, the tax credit was equal to the lesser of \$7,500 or 10 percent of the purchase price of the residence. Individuals purchasing homes in 2008 were also required to repay the credit over 15 years. The Act extends the availability of a homebuyer credit to homes under a binding contract before Apr. 30, 2010, allowing 60 days to close.

The credit is phased out for individuals with income above \$125,000 and for joint filers with income about \$225,000. An \$8,000 credit is available to all first-time homebuyers. And, a \$6,500 credit is available to homebuyers who have been in their current residence for the last five years or more. The credit is available only for the purchase of principal residences with a purchase price of \$800,000 or less.

The Act eliminates the recapture requirement for military personnel, including members of the Foreign Service and intelligence community, forced to sell as a result of an official extended duty of service and to allow military personnel serving outside the United States for at least 90 days in 2009 or 2010 one additional year to qualify for the credit.

The Act includes anti-fraud language, and also includes math error authority for the IRS.

Five-Year Carryback of Net Operating Losses. Under prior law, net operating losses may generally be carried back for two years. In the American Recovery and Reinvestment Act of 2009, the net operating loss carryback period was extended from two to five years for tax years beginning in or ending in 2008 for small businesses with gross receipts of \$15 million or less. The Act allows all businesses to carryback net operating losses for up to five years for losses incurred either in 2008 or 2009, but not both (at the election of the taxpayer). Businesses are able to offset 50 percent of the available income from the fifth year and 100 percent of all income in the remaining four carryback years. Small businesses who have already elected to carry back 2008 under the American Recovery and Reinvestment Act may also elect to carry back losses from 2009.

Military Homeowner Assistance Program (HAP). Under prior law, military personnel who sell a home that has declined in value as a result of a base closure could receive a HAP payment to adjust for the decline. These payments were tax exempt. In the 2009 stimulus bill, the HAP program was expanded to military personnel selling their home as a result of a permanent reassignment and other purposes. Payments received as a result of the 2009 stimulus bill expansion are not tax exempt. The proposal makes all HAP payments tax exempt

OFFSETS

Delay implementation of worldwide allocation of interest. In 2004, Congress provided taxpayers with an election to take advantage of a rule for allocating interest expense between United States sources and foreign sources for purposes of determining a taxpayer's foreign tax credit limitation. Although enacted in 2004, this election was not available to taxpayers until taxable years beginning after 2008. Last year, the phase-in of this rule was delayed for two years (for taxable years beginning after 2010). The Act delays the phase-in of this rule for an additional seven years (for taxable years beginning after 2017)

Increases the penalty for failure to file a partnership or S corporation return. The Act increases the penalties for failure to file a partnership return or an S corporation return. For taxable years beginning after 2010, the base penalty will be increased by \$106 (from \$89 to \$195).

H.R. 3590 (Mr. Rangel with cosponsors); passed the House Oct. 8, 2009.

H.R. 3590, Service Members Home Ownership Tax Act of 2009, passed the House under suspension of the rules, by a vote of 416-0 on Oct. 8, 2009.

Clarify tax treatment of amounts received under the Department of Defense Homeowner's Assistance Program. The American Recovery and Reinvestment Act of 2009 ("Recovery Act") expanded the Homeowner's Assistance Program ("HAP"), which is administered by the Department of Defense to assist military personnel selling a home that has declined in value as a result of a base closure or realignment. Payments made to military personnel under the HAP as in effect on Nov. 11, 2003 are tax exempt. To address the mortgage crisis, the Recovery Act modified the HAP to make it easier for military personnel to qualify for this assistance and also expanded the HAP to include similar payments to (1) wounded members (and their spouses) of the Armed Forces, Department of Defense, or the United States Coast Guard and (2) members of the Armed Forces that purchased a home before July 1, 2006 and are subsequently permanently reassigned between July 1, 2006 and Sept. 30, 2012. However, the Recovery Act did not include a corresponding expansion of the tax exemption for these new beneficiaries of the HAP. As a result, any payments made as a result of the HAP expansion included in the Recovery Act are not tax exempt. The bill would extend the tax exemption for HAP benefits to the expanded benefits included in the Recovery Act. This proposal has been estimated to cost \$232 million over ten years.

Waiver of recapture of first-time homebuyer credit for individuals on qualified official extended duty. First-time homebuyers would allow to claim a tax credit of up to \$8,000 in connection with the purchase of a home before Dec. 1, 2009. This credit phases out for taxpayers with

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

adjusted gross income in excess of \$75,000 (\$150,000 in the case of a joint return). For homes purchased in 2009, this credit must be paid back to the government if the house is sold (or ceases to be used as a principal residence) within three years of purchase. For purchases in 2008, additional recapture rules apply. This recapture provision can prevent military families, members of the Foreign Service, and members of the intelligence community from benefiting from the homebuyer credit because these families may be forced to sell their homes within the three year period if they are ordered by the U.S. Government to deploy to a different location. The bill would clarify that the first-time homebuyer credit does not need to be paid back to the government if the house is sold (or ceases to be used as a principal residence) by a member of the U.S. uniformed services, a member of the Foreign Service of the United States, or a member of the U.S. intelligence community in connection with a government order for qualified official extended duty service. This proposal and the proposal below have been estimated to cost \$77 million over ten years.

Extension of first-time homebuyer credit for individuals on qualified official extended duty outside of the United States. First-time homebuyers are allowed to claim a tax credit of up to \$8,000 in connection with the purchase of a home before Dec. 1, 2009. This credit phases out for taxpayers with adjusted gross income in excess of \$75,000 (\$150,000 in the case of a joint return). Military families, members of the Foreign Service, and members of the intelligence community that serve on qualified official extended duty during 2009 may be prevented from benefiting from the homebuyer credit because these families may be outside the country and unable to purchase a home before the Dec. 1, 2009 expiration date. The bill would provide members of the U.S. uniformed services, members of the U.S. Foreign Service, and members of the U.S. intelligence community with an additional year to qualify for the first-time homebuyer credit if such member served on qualified official extended duty service outside of the United States for at least 90 days in calendar year 2009. This proposal and the proposal above have been estimated to cost \$77 million over ten years.

Increases the penalty for failure to file a partnership or S corporation return. The bill would increase the penalties for failure to file a partnership return or an S corporation return. For taxable years beginning after 2010, the penalty will be increased by \$21 (from \$89 to \$110). This provision is estimated to raise \$327 million over ten years.

H.R. 3590 Patient Protection and Affordable Care Act (vehicle for the version of health care reform in the Senate); Public Law 111-148; app. Mar. 23, 2010.

H.R. 3590, Patient Protection and Affordable Care Act, passed the Senate, amended, on Dec. 24, 2009 by a

vote of 60-39. The House agreed to the Senate amendment on Mar. 21, 2010 by a vote of 219-212. H.R. 3590 was signed into law by the President on Mar. 23, 2010 as P.L. 111-148.

Health Insurance Market Reform. Beginning in 2014, more significant insurance reforms will be implemented. Across individual and small group health insurance markets in all states, new rules will end medical underwriting and pre-existing condition exclusions. Insurers will be prohibited from denying coverage or setting rates based on gender, health status, medical condition, claims experience, genetic information, evidence of domestic violence, or other health-related factors. Premiums will vary only by family structure, geography, actuarial value, tobacco use, participation in a health promotion program, and age (by not more than three to one).

Available Coverage. No out-of-pocket requirements can exceed those in Health Savings Accounts, and deductibles in the small group market cannot exceed \$2,000 for an individual and \$4,000 for a family. Coverage will be offered at four levels with actuarial values defining how much the insurer pays: Platinum – 90 percent; Gold – 80 percent; Silver – 70 percent; and Bronze – 60 percent. A less costly catastrophic-only plan will be offered to individuals under age 30 and to others who are exempt from the individual responsibility requirement.

American Health Benefit Exchanges. By 2014, each state will establish an Exchange to help individuals and small employers obtain coverage. Plans participating in the Exchanges will be accredited for quality, will present their benefit options in a standardized manner for easy comparison, and will use one, simple enrollment form. Individuals qualified to receive tax credits for Exchange coverage must be ineligible for affordable, employer-sponsored insurance any form of public insurance coverage. Undocumented immigrants are ineligible for premium tax credits. Federal support will be available for new non-profit, member run insurance cooperatives, and the Office of Personnel Management will supervise the offering by private insurers of multi-State plans, available nationwide. States will have flexibility to establish basic health plans for non-Medicaid, lower-income individuals; states may also seek waivers to explore other reform options; and states may form compacts with other states to permit cross-state sale of health insurance. No federal dollars may be used to pay for abortion services.

Making Coverage Affordable. New, refundable tax credits will be available for Americans with incomes between 100 and 400 percent of the federal poverty line (FPL) (about \$88,000 for a family of four). The credit is calculated on a sliding scale beginning at two percent of income for those at 100 percent FPL and phasing out at 9.8 percent of income at 300-400 percent FPL. If an employer offer of coverage exceeds 9.8 percent of a worker's family income, or the employer pays less than 60 percent of the

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

premium, the worker may enroll in the Exchange and receive credits. Out of pocket maximums (\$5,950 for individuals and \$11,900 for families) are reduced to one-third for those with income between 100-200 percent FPL, one-half for those with incomes between 200-300 percent FPL, and two-thirds for those with income between 300-400 percent FPL. Credits are available for eligible citizens and legally-residing aliens. A new credit will assist small businesses with fewer than 25 workers for up to 50 percent of the total premium cost.

Shared Responsibility. Beginning in 2014, most individuals will be responsible for maintaining minimum essential coverage or paying a penalty of \$95 in 2014, \$495 in 2015 and \$750 in 2016, or up to two percent of income by 2016, with a cap at the national average bronze plan premium. Families will pay half the amount for children up to a cap of \$2,250 for the entire family. After 2016, dollar amounts will increase by the annual cost of living adjustment. Exceptions to this requirement are made for religious objectors, those who cannot afford coverage, taxpayers with incomes less than 100 percent FPL, Indian tribe members, those who receive a hardship waiver, individuals not lawfully present, incarcerated individuals, and those not covered for less than three months. Any individual or family who currently has coverage and would like to retain that coverage can do so under a “grandfather” provision. This coverage is deemed to meet the individual responsibility to have health coverage. Similarly, employers that currently offer coverage are permitted to continue offering such coverage under the “grandfather” policy. Employers with more than 200 employees must automatically enroll new full-time employees in coverage. Any employer with more than 50 full-time employees that does not offer coverage and has at least one full-time employee receiving the premium assistance tax credit will make a payment of \$750 per full-time employee. An employer with more than 50 employees that offers coverage that is deemed unaffordable or does not meet the standard for minimum essential coverage and has at least one full-time employee receiving the premium assistance tax credit because the coverage is either unaffordable or does not cover 60 percent of total costs, will pay the lesser of \$3,000 for each of those employees receiving a credit or \$750 for each of their full-time employees total.

The Role of Public Programs

Children’s Health Insurance Program. States will be required to maintain income eligibility levels for CHIP through Sept. 30, 2019. The current reauthorization period of CHIP is extended for two years, to Sept. 30, 2015. Between fiscal years 2016 and 2019, states would receive a 23 percentage point increase in the CHIP federal match rate, subject to a 100 percent cap.

Simplifying Enrollment. Individuals will be able to apply for and enroll in Medicaid, CHIP and the Exchange through state-run websites. Medicaid and CHIP programs and the Exchange will coordinate enrollment procedures to provide seamless enrollment for all programs. Hospitals will be permitted to provide Medicaid services during a period of presumptive eligibility to members of all Medicaid eligibility categories.

Dual Eligible Coverage and Payment Coordination. The Secretary of Health and Human Services (HHS) will establish a Federal Coordinated Health Care Office by Mar. 1, 2010 to integrate care under Medicare and Medicaid, and improve coordination among the federal and state governments for individuals enrolled in both programs (dual eligibles).

Improving the Quality and Efficiency of Health Care

Linking Payment to Quality Outcomes in Medicare. A value-based purchasing program for hospitals will launch in FY2013 to link Medicare payments to quality performance on common, high-cost conditions. The Physician Quality Reporting Initiative (PQRI) is extended through 2014, with incentives for physicians to report Medicare quality data – physicians will receive feedback reports beginning in 2012. Long-term care hospitals, inpatient rehabilitation facilities, certain cancer hospitals, and hospice providers will participate quality measure reporting starting in FY2014, with penalties for non-participating providers.

Strengthening the Quality Infrastructure. The HHS Secretary will establish a national strategy to improve health care service delivery, patient outcomes, and population health. The President will convene an Interagency Working Group on Health Care Quality to collaborate on the development and dissemination of quality initiatives consistent with the national strategy.

Encouraging Development of New Patient Care Models. A new Center for Medicare & Medicaid Innovation will research, develop, test, and expand innovative payment and delivery arrangements. Accountable Care Organizations (ACOs) that take responsibility for cost and quality of care will receive a share of savings they achieve for Medicare. The HHS Secretary will develop a national, voluntary pilot program encouraging hospitals, doctors, and post-acute providers to improve patient care and achieve savings through bundled payments. A new demonstration program for chronically ill Medicare beneficiaries will test payment incentives and service delivery using physician and nurse practitioner-directed home-based primary care teams. Beginning in 2012, hospital payments will be adjusted based on the dollar value of each hospital’s percentage of potentially preventable Medicare readmissions.

Ensuring Beneficiary Access to Physician Care and Other Services. The Act extends a floor on geographic

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

adjustments to the Medicare fee schedule to increase provider fees in rural areas and gives immediate relief to areas affected by geographic adjustment for practice expenses. The Act extends Medicare bonus payments for ground and air ambulance services in rural and other areas. The Act creates a 12 month enrollment period for military retirees, spouses (and widows/widowers) and dependent children, who are eligible for TRICARE and entitled to Medicare Part A based on disability or ESRD, who have declined Part B.

Rural Protections. The Act extends the outpatient hold harmless provision, allowing small rural hospitals and Sole Community Hospitals to receive this adjustment through FY2010 and reinstates cost reimbursement for lab services provided by small rural hospitals from July 1, 2010 to July 1, 2011. The Act extends the Rural Community Hospital Demonstration Program for five years and expands eligible sites to additional states and hospitals.

Improving Payment Accuracy. The HHS Secretary will rebase home health payments starting in 2014 to better reflect the mix of services and intensity of care provided to patients. The Secretary will update Medicare hospice claims forms and cost reports to improve payment accuracy and revise the underlying payment system to better reflect the cost of providing care to hospice patients. The Secretary will revise Disproportionate Share Hospital (DSH) payments to better account for hospitals' costs of treating the uninsured and underinsured, including adjustments to DSH payments to reflect lower uncompensated care costs resulting from increases in the number of insured patients. The bill also makes changes to improve payment accuracy for imaging services and power-driven wheelchairs. The Secretary will study and report to Congress on reforming the Medicare hospital wage index system and will establish a demonstration program to allow hospice eligible patients to receive all other Medicare covered services during the same period.

Medicare Advantage (Part C). Medicare Advantage (MA) payments will be based on the average of the bids submitted by insurance plans in each market. Bonus payments will be available to improve the quality of care and will be based on an insurer's level of care coordination and care management, as well as achievement on quality rankings. New payments will be implemented over a four-year transition period. MA plans will be prohibited from charging beneficiaries cost sharing for covered services greater than what is charged under fee-for-service. Plans providing extra benefits must give priority to cost sharing reductions, wellness and preventive care prior to covering benefits not currently covered by Medicare.

Medicare Prescription Drug Plan Improvements (Part D). In order to have their drugs covered under the Medicare Part D program, drug manufacturers will provide a 50 percent discount to Part D beneficiaries for brand-

name drugs and biologics purchased during the coverage gap beginning July 1, 2010. The initial coverage limit in the standard Part D benefit will be expanded by \$500 for 2010.

Ensuring Medicare Sustainability. A productivity adjustment will be added to the market basket update for inpatient hospitals, home health providers, nursing homes, hospice providers, inpatient psychiatric facilities, long-term care hospitals and inpatient rehabilitation facilities. The Act creates a 15-member Independent Payment Advisory Board to present Congress with proposals to reduce costs and improve quality for beneficiaries. When Medicare costs are projected to exceed certain targets, the Board's proposals will take effect unless Congress passes an alternative measure to achieve the same level of savings. The Board will not make proposals that ration care, raise taxes or beneficiary premiums, or change Medicare benefit, eligibility, or cost-sharing standards.

Health Care Quality Improvements. The Act will create a new program to develop community health teams supporting medical homes to increase access to community-based, coordinated care. It supports a health delivery system research center to conduct research on health delivery system improvement and best practices that improve the quality, safety, and efficiency of health care delivery. And, it support medication management services by local health providers to help patients better manage chronic disease.

Health Care Workforce

Innovations in the Health Care Workforce. The Act establishes a National Health Workforce commission to review current and projected workforce needs and to provide comprehensive information to Congress and the Administration to align federal policies with national needs. It will also establish competitive grants to enable state partnerships to complete comprehensive workforce planning and to create health care workforce development strategies.

Increasing the Supply of Health Care Workers. The federal student loan program will be modified to ease criteria for schools and students, shorten payback periods, and to make the primary care student loan program more attractive. The Nursing Student Loan Program will be expanded and updated. A loan repayment program is established for pediatric subspecialists and providers of mental and behavioral health services to children and adolescents who work in a Health Professional Shortage Area, a Medically Underserved Area, or with a Medically Underserved Population. Loan repayment will be offered to public health students and workers in exchange for working at least three years at a federal, state, local, or tribal public health agency. Loan repayment will be offered to allied health professionals employed at public health agencies or

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

in health care settings located in Health Professional Shortage Areas, Medically Underserved Areas, or with Medically Underserved Populations. A mandatory fund for the National Health Service Corps scholarship and loan repayment program is created. A \$50 million grant program will support nurse-managed health clinics. A Ready Reserve Corps within the Commissioned Corps is established for service in times of national emergency. Ready Reserve Corps members may be called to active duty to respond to national emergencies and public health crises and to fill critical public health positions left vacant by members of the Regular Corps who have been called to duty elsewhere.

Supporting the Existing Health Care Workforce.

The Act reauthorizes the Centers of Excellence program for minority applicants for health professions, expands scholarships for disadvantaged students who commit to work in medically underserved areas, and authorizes funding for Area Health Education Centers (AHECs) and Programs. A Primary Care Extension Program is established to educate and provide technical assistance to primary care providers about evidence-based therapies, preventive medicine, health promotion, chronic disease management, and mental health.

Strengthening Primary Care and Other Workforce Improvements. Beginning in 2011, the HHS Secretary may redistribute unfilled residency positions, redirecting those slots for training of primary care physicians. A demonstration grant program is established to serve low-income persons including recipients of assistance under Temporary Assistance for Needy Families (TANF) programs to develop core training competencies and certification programs for personal and home care aides. Also, a grant program is established to provide grant funding and payments to teaching health centers that are focused on training primary care providers in the community. Medicare is also directed to test new models for improving the training of advance practice nurses.

Improving Access to Health Care Services. The Act authorizes new and expanded funding for federally qualified health centers and reauthorizes a program to award grants to states and medical schools to support the improvement and expansion of emergency medical services for children needing trauma or critical care treatment. Also supported are grants for coordinated and integrated services through the co-location of primary and specialty care in community-based mental and behavioral health settings. A Commission on Key National Indicators is established.

Transparency and Program Integrity

Physician Ownership and Other Transparency. Physician-owned hospitals that do not have a provider agreement prior to August 2010 will not be able to participate in Medicare. Drug, device, biological and medical supply manufacturers must report gifts and other

transfers of value made to a physician, physician medical practice, a physician group practice, and/or a teaching hospital. Referring physicians for imaging services must inform patients in writing that the individual may obtain such service from a person other than the referring physician, a physician who is a member of the same group practice, or an individual who is supervised by the physician or by another physician in the group. Prescription drug makers and distributors must report to the HHS Secretary information pertaining to drug samples currently being collected internally. Pharmacy benefit managers (PBM) or health benefits plans that provide pharmacy benefit management services that contract with health plans under Medicare or the Exchange must report information regarding the generic dispensing rate; rebates, discounts, or price concessions negotiated by the PBM.

Nursing Home Transparency and Improvement.

The Act requires that skilled nursing facilities (SNFs) under Medicare and nursing facilities (NFs) under Medicaid make available information on ownership. SNFs and NFs will be required to implement a compliance and ethics program. The Secretary of HHS will publish new information on the Nursing Home Compare Medicare website such as standardized staffing data, links to state internet websites regarding state survey and certification programs, a model standardized complaint form, a summary of complaints, and the number of instances of criminal violations by a facility or its employee. The Secretary also will develop a standardized complaint form for use by residents in filing complaints with a state survey and certification agency or a state long-term care ombudsman.

Targeting Enforcement. The Secretary may reduce civil monetary penalties for facilities that self-report and correct deficiencies. The Secretary will establish a demonstration project to test and implement a national independent monitoring program to oversee interstate and large intrastate chains. The administrator of a facility preparing to close must provide written notice to residents, legal representatives of residents, the state, the Secretary and the long-term care ombudsman program in advance of the closure.

Improving Staff Training. Facilities must include dementia management and abuse prevention training as part of pre-employment training for staff.

Nationwide Program for Background Checks on Direct Patient Access Employees of Long Term Care Facilities and Providers. The Secretary will establish a nationwide program for national and state background checks of direct patient access employees of certain long-term supports and services facilities or providers.

Patient-Centered Outcomes Research. The Act establishes a private, nonprofit entity (the Patient-Centered Outcomes Research Institute) governed by a public-private board appointed by the Comptroller General to provide for the conduct of comparative clinical outcomes research. No

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

findings may be construed as mandates on practice guidelines or coverage decisions and important patient safeguards will protect against discriminatory coverage decisions by HHS based on age, disability, terminal illness, or an individual's quality of life preference.

Medicare, Medicaid, and CHIP Program Integrity Provisions. The Secretary will establish procedures to screen providers and suppliers participating in Medicare, Medicaid, and CHIP. Providers and suppliers enrolling or re-enrolling will be subject to new requirements including a fee, disclosure of current or previous affiliations with any provider or supplier that has uncollected debt, has had their payments suspended, has been excluded from participating in a Federal health care program, or has had their billing privileges revoked. The Secretary is authorized to deny enrollment in these programs if these affiliations pose an undue risk.

Enhanced Medicare and Medicaid Program Integrity Provisions. CMS will include in the integrated data repository (IDR) claims and payment data from Medicare (Parts A, B, C, and D), Medicaid, CHIP, health-related programs administered by the Departments of Veterans Affairs (VA) and Defense (DOD), the Social Security Administration, and the Indian Health Service (IHS). New penalties will exclude individuals who order or prescribe an item or service, make false statements on applications or contracts to participate in a Federal health care program, or who know of an overpayment and do not return the overpayment. Each violation would be subject to a fine of up to \$50,000. The Secretary may suspend payments to a provider or supplier pending a fraud investigation. Health Care Fraud and Abuse Control (HCFAC) funding will be increased by \$10 million each year for fiscal years 2011 through 2020. The Secretary will establish a national health care fraud and abuse data collection program for reporting adverse actions taken against health care providers, suppliers, and practitioners, and submit information on the actions to the National Practitioner Data Bank (NPDB). The Secretary will have the authority to disenroll a Medicare enrolled physician or supplier who fails to maintain and provide access to written orders or requests for payment for durable medical equipment (DME), certification for home health services, or referrals for other items and services. The HHS Secretary will expand the number of areas to be included in round two of the DME competitive bidding program from 79 of the largest metropolitan statistical areas (MSAs) to 100 of the largest MSAs, and to use competitively bid prices in all areas by 2016.

Additional Medicaid Program Integrity Provisions. States must terminate individuals or entities from their Medicaid programs if the individuals or entities were terminated from Medicare or another state's Medicaid program. Medicaid agencies must exclude individuals or entities from participating in Medicaid for a specified period of time if the entity or individual owns, controls, or

manages an entity that: (1) has failed to repay overpayments; (2) is suspended, excluded, or terminated from participation in any Medicaid program; or (3) is affiliated with an individual or entity that has been suspended, excluded, or terminated from Medicaid participation. Agents, clearinghouses, or other payees that submit claims on behalf of health care providers must register with the state and the Secretary. States and Medicaid managed care entities must submit data elements for program integrity, oversight, and administration. States must not make any payments for items or services to any financial institution or entity located outside of the United States.

Additional Program Integrity Provisions. Employees and agents of multiple employer welfare arrangements (MEWAs) will be subject to criminal penalties if they provide false statements in marketing materials regarding a plan's financial solvency, benefits, or regulatory status. A model uniform reporting form will be developed by the National Association of Insurance Commissioners, under the direction of the HHS Secretary. The Department of Labor will adopt regulatory standards and/or issue orders to prevent fraudulent MEWAs from escaping liability for their actions under state law by claiming that state law enforcement is preempted by federal law. The Department of Labor is authorized to issue "cease and desist" orders to temporarily shut down operations of plans conducting fraudulent activities or posing a serious threat to the public, until hearings can be completed. MEWAs will be required to file their federal registration forms, and thereby be subject to government verification of their legitimacy, before enrolling anyone. 12

Sense of the Senate Regarding Medical Malpractice. The Act expresses the sense of the Senate that health reform presents an opportunity to address issues related to medical malpractice and medical liability insurance, states should be encouraged to develop and test alternative models to the existing civil litigation system, and Congress should consider state demonstration projects to evaluate such alternatives.

REVENUE PROVISIONS

Excise Tax on High Cost Employer-Sponsored Health Coverage. The Act levies a new excise tax of 40 percent on insurance companies or plan administrators for any health coverage plan with an annual premium that is above the threshold of \$8,500 for single coverage and \$23,000 for family coverage. The tax applies to self-insured plans and plans sold in the group market, and not to plans sold in the individual market (except for coverage eligible for the deduction for self-employed individuals). The tax applies to the amount of the premium in excess of the threshold. A transition rule increases the threshold for the 17 highest cost states for the first three years. An additional threshold amount of \$1,350 for singles and

**SUMMARIES OF BILLS AND RESOLUTIONS
ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS**

\$3,000 for families is available for retired individuals age 55 and older and for plans that cover employees engaged in high risk professions.

Increasing Transparency in Employer W-2 Reporting of Value of Health Benefits. This provision requires employers to disclose the value of the benefit provided by the employer for each employee's health insurance coverage on the employee's annual Form W-2.

Distributions for Medicine Qualified Only if for Prescribed Drug or Insulin. This provision conforms the definition of qualified medical expenses for HSAs, FSAs, and HRAs to the definition used for the medical expense itemized deduction. Over-the-counter medicine obtained with a prescription continues to qualify as qualified medical expenses.

Increase in Additional Tax on Distributions from HSAs and Archer MSAs Not Used for Qualified Medical Expenses. Increases the additional tax for HSA withdrawals prior to age 65 that are used for purposes other than qualified medical expenses from 10 percent to 20 percent and increases the additional tax for Archer MSA withdrawals from 15 percent to 20 percent.

Limiting Health FSA Contributions. This provision limits the amount of contributions to health FSAs to \$2,500 per year, indexed to CPI-U for years after December 31, 2011.

Corporate Information Reporting. This provision requires businesses that pay any amount greater than \$600 during the year to corporate providers of property and services to file an information report with each provider and with the IRS.

Non-profit Hospitals. This provision would establish new requirements applicable to nonprofit hospitals. The requirements would include a periodic community needs assessment.

Pharmaceutical Manufacturers Fee. This provision imposes an annual flat fee of \$2.3 billion on the pharmaceutical manufacturing sector beginning in 2010 allocated across the industry according to market share. The fee does not apply to companies with sales of branded pharmaceuticals of \$5 million or less.

Medical Device Manufacturers Fee. This provision imposes an annual fee of \$2 billion in years 2011 through 2017 and \$3 billion in years thereafter on the medical device manufacturing sector. The fee is allocated across the industry according to market share. The fee does not apply to companies with sales of medical devices in the U.S. of \$5 million or less. The fee also does not apply to any sale of a Class I product or any sale of a Class II product that is primarily sold to consumers at retail for not more than \$100 per unit (under the FDA product classification system).

Health Insurance Provider Fee. This provision imposes an annual fee on the health insurance sector allocated across the industry according to market share. The fee will be \$2 billion for 2011, \$4 billion for 2012, \$7

billion for 2013, \$9 billion for years 2014 through 2016, and \$10 billion for years after 2016. The fee does not apply to companies whose net premiums written are \$25 million or less, and there is a limited exemption from the fee for certain non-profit insurers with a medical loss ratio (MLR) of 90 percent or more in the individual, small group and large group markets and whose overall MLR is at least 92 percent.

Department of Veterans Affairs Report. The Secretary of the U.S. Department of Veterans Affairs will review and report to Congress on the effect that the fees assessed on pharmaceutical and medical device manufacturers and health insurance providers have on the cost of medical care provided to veterans and veterans' access to medical devices and branded drugs.

Eliminating the Deduction for Employer Part D Subsidy. This provision eliminates the deduction for the subsidy for employers who maintain prescription drug plans for their Medicare Part D eligible retirees.

Modification of the Threshold for Claiming the Itemized Deduction for Medical Expenses. This provision increases the adjusted gross income threshold for claiming the itemized deduction for medical expenses from 7.5 percent to 10 percent. Individuals age 65 and older would be able to claim the itemized deduction for medical expenses at 7.5 percent of adjusted gross income through 2016.

Executive Compensation Limitations. This provision limits the deductibility of executive compensation for insurance providers if at least 25 percent of the insurance provider's gross premium income is derived from health insurance plans that meet the minimum essential coverage requirements in the bill ("covered health insurance provider"). The deduction is limited to \$500,000 per taxable year and applies to all officers, employees, directors, and other workers or service providers performing services for or on behalf of a covered health insurance provider.

Additional Hospital Insurance Tax for High Wage Workers. The provision increases the hospital insurance tax rate by 0.9 percentage points on an individual taxpayer earning over \$200,000 (\$250,000 for married couples filing jointly).

Special Deduction for Blue Cross Blue Shield (BCBS). Requires that non-profit BCBS organizations have a medical loss ratio of 85 percent or higher in order to take advantage of the special tax benefits provided to them, including the deduction for 25 percent of claims and expenses and the 100 percent deduction for unearned premium reserves.

Indian Tribal Health Services. The provision would provide an exclusion from gross income for the value of specified Indian tribal health benefits.

Simple Cafeteria Plans for Small Businesses. This provision would establish a new employee benefit cafeteria

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

plan to be known as a Simple Cafeteria Plan. This eases the participation restrictions so that small businesses can provide tax-free benefits to their employees and it includes self-employed individuals as qualified employees.

Credit to Encourage Investment in New Therapies. This provision creates a two-year temporary tax credit subject to an overall cap of \$1 billion to encourage investments in new therapies to prevent, diagnose, and treat acute and chronic diseases.

STRENGTHENING QUALITY, AFFORDABLE CARE

Coverage Improvements. The bill requires employers that offer and make a contribution towards employee coverage to provide free choice vouchers to qualified employees for the purchase of qualified health plans through Exchanges. It requires the Secretary to consult stakeholders and the National Committee on Vital and Health Statistics and the Health Information Technology Standards and Policy Committees to identify opportunities to create uniform standards for financial and administrative health care transactions, not already named under HIPAA, that would improve the operation of the health system and reduce costs.

Improvements in the Role of Public Programs. The bill creates financial incentives, including Federal Medical Assistance Percentage (FMAP) increases, for States to shift Medicaid beneficiaries out of nursing homes and into home and community based services (HCBS). It establishes a Pregnancy Assistance Fund for the purpose of awarding competitive grants to States to assist pregnant and parenting teens and women, with a matching requirement.

Indian Health Care Improvement. The bill authorizes appropriations for the Indian Health Care Improvement Act, including programs to increase the Indian health care workforce, new programs for innovative care delivery models, behavioral health care services, new services for health promotion and disease prevention, efforts to improve access to health care services, construction of Indian health facilities, and an Indian youth suicide prevention grant program.

Medicare Improvements. The legislation makes improvements to Medicare beneficiary services, including coverage for individuals exposed to environment health hazards, prescription drug review through medication therapy management programs, development of a "Physician Compare" website to help beneficiaries learn more about their doctors, and a study on beneficiary access to dialysis services. Medicare payment changes include financial protections for states in which at least 50 percent of counties are frontier, an additional 0.5 percent bonus for physicians who report quality measures, delay of certain skilled nursing facility "RUGs-IV" payment changes, authority for the Secretary of HHS to test value-based purchasing programs for certain providers, and

authorization for release and use of certain Medicare claims data to measure provider and supplier performance in a way that protects patient privacy. Other changes in this section include grants to develop networks of providers to deliver coordinated care to low-income populations, a requirement for the Secretary of HHS to develop a methodology to measure health plan value and to develop a plan to modernize computer and data systems at the Centers for Medicare & Medicaid Services, codification of the Office of Minority Health and elevation of the National Center on Minority Health and Health Disparities at NIH to the Institute level.

Public Health Program Improvements. The legislation directs the Secretary of HHS to develop a national report card on diabetes to be updated every two years, and to work with States to improve data collection related to diabetes and other chronic diseases. Authorizes grants for small businesses to provide comprehensive workplace wellness programs. It authorizes the Cures Acceleration Network, within the National Institutes of Health (NIH), to award grants and contracts to develop cures and treatments of diseases. The bill directs the Administrator of the Substance Abuse and Mental Health Services Administration to award grants to centers of excellence in the treatment of depressive disorders. Allows the Secretary of HHS to enhance and expand existing infrastructure to track the epidemiology of congenital heart disease. Amends and reauthorizes the Automated Defibrillation in Adam's Memory Act. It directs the Secretary of HHS to develop a national education campaign for young women and health care professionals about breast health and risk factors for breast cancer.

Workforce Improvements. The bill authorizes grants for medical schools to establish programs that recruit students from underserved rural areas who have a desire to practice in their hometowns. Amends and reauthorizes the preventive medicine and public health residency program. The legislation improves the National Health Service Corps program by increasing the loan repayment amount, allowing for half-time service, and allowing for teaching to count for up to 20 percent of the Corps service commitment. It provides funding to HHS for construction or debt service on hospital construction costs for a new health facility meeting certain criteria. The bill establishes a Community Health Centers and National Health Service Corps Fund. It directs the Secretary of HHS to establish a 3-year demonstration project in States to provide comprehensive health care services to the uninsured at reduced fees.

Transparency and Program Integrity Improvements. The bill enhances the fraud sentencing guidelines, changes the intent requirement for fraud under the anti-kickback statute, and increases subpoena authority relating to health care fraud. Authorizes grants to States to test alternatives to civil tort litigation that emphasize

SUMMARIES OF BILLS AND RESOLUTIONS
ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

patient safety, the disclosure of health care errors, and the early resolution of disputes, and allow patients to opt-out of these alternatives at any time. The Secretary of HHS would be required to conduct an evaluation to determine the effectiveness of the alternatives. Extends the protections from liability contained in the Federal Tort Claims Act to free clinics. It modifies requirements applicable to the labeling of generic drugs.

Revenue Changes. The legislation imposes a ten percent tax on amounts paid for indoor tanning services for services provided on or after July 1, 2010. It excludes from gross income payments made under any State loan repayment or loan forgiveness program that is intended to provide for the increased availability of health care services in underserved or health professional shortage areas. Increases the adoption tax credit and adoption assistance exclusion (\$12,170 for 2009) by \$1,000, and makes the credit refundable. The credit is extended through 2011.

H.R. 3607 (Mr. Oberstar with cosponsors); Public Law 111-69; app. Oct. 1, 2009.

H.R. 3607, Fiscal Year 2010 Federal Aviation Administration Extension Act, passed the House, under suspension of the rules, by voice vote on Sept. 23, 2009. The Senate passed the bill, without amendment, by unanimous consent on Sept. 24, 2009. H.R. 3607 was signed into law by the President on Oct. 1, 2009 as P.L. 111-69.

The Act amends the Internal Revenue Code to extend through Dec. 31, 2009: (1) excise taxes on aviation fuels and air transportation of persons and property; and (2) the expenditure authority for the Airport and Airway Trust Fund.

H.R. 3617 (Mr. Oberstar with cosponsors); passed the House Sept 23, 2009.

H.R. 3617, Surface Transportation Extension Act of 2009, passed the House on Sept. 23, 2009, under suspension of the rules, by a vote of 335-85.

H.R. 3617 would reauthorize the federal-aid highway, highway safety, motor carrier safety, transit, boating safety, and other programs funded out of the Highway Trust Fund for the period beginning Oct. 1, 2009, and ending on the earlier of: (1) the enactment of a multiyear law reauthorizing such programs; and (2) Dec. 31, 2009.

H.R. 3631 (Ms. Titus with cosponsors); passed the House Sept 24, 2009.

H.R. 3631, Medicare Premium Fairness Act, passed the House, under suspension of the rules, by a vote of 406-18 on Sept. 24, 2009.

The Medicare Premium Fairness Act would amend title XVIII of the Social Security Act with respect to the part B (Supplementary Medical Insurance Benefits for Aged and Disabled) premium for 2010. The bill would make such premium, and the related monthly actuarial rate, the same as those for 2009.

H.R. 3631 would extend the current hold harmless policy to all Medicare enrollees, meaning that no seniors would see a decrease in their Social Security checks due to Medicare Part B premiums. The Congressional Budget Office estimates the cost of the bill at \$2.8 billion for 2010 and the bill would be fully paid for by reducing the Medicare Improvement Fund, a non-controversial set-aside fund in Medicare.

H.R. 3663 (Mr. Space with cosponsors); Public Law 111-72; app. Oct. 13, 2009.

H.R. 3663, To amend title XVIII of the Social Security Act to delay the date on which the accreditation requirement under the Medicare Program applies to suppliers of durable medical equipment that are pharmacies, passed the House, under suspension of the rules, by voice vote on Sept. 30, 2009. The Senate passed the bill, without amendment, by unanimous consent, on Oct. 5, 2009. H.R. 3663 was signed into law by the president on Oct. 13, 2009 as P.L. 111-72.

The Act amends title XVIII of the Social Security Act to postpone until Jan. 1, 2010, the effective date of the requirement that pharmacies, as suppliers of Medicare items and services (including durable medical equipment [DME]), must be accredited by an independent accreditation organization approved by the Secretary of Health and Human Services.

The Act declares that nothing in this Act shall be construed to affect the application of an accreditation requirement for pharmacies to qualify for bidding in a competitive acquisition area.

H.R. 3961 (Mr. Dingell with cosponsors); Public Law 111-141, app. Feb. 27, 2010.

H.R. 3961, Medicare Physician Payment Reform Act of 2009, passed the House on Nov. 19, 2009, by a vote of 243-183. The Senate passed the bill with an amendment on Feb. 24, 2010 by voice vote. On Feb. 25, 2010 the House agreed to the Senate amendment by a vote of 315-

97. H.R. 3961 was signed into law by the President on Feb. 27, 2010 as P.L. 111-141.

**MEDICARE PHYSICIAN PAYMENT REFORM ACT
OF 2009**

The bill would revise the sustainable growth rate (SGR) payment system for determining the annual updates to the Medicare physician fee schedule. The bill would set as a transitional update for 2010 to the single conversion factor in the formula for determining the schedule the percentage increase in the Medicare economic index (MEI, a price index of inputs required to produce physician services).

The bill would rebase the update adjustment factor for 2011 and subsequent years by: (1) making the allowed expenditures for 2009 under the schedule equal to the actual expenditures for physicians' services during 2009; and (2) changing from 1996 to 2009 (or, if later, the fifth year before the year involved) the reference point for calculating the cumulative adjustment component to expenditure targets in the formula. H.R. 3961 would limit to physicians' services under the fee schedule (excluding those incidental to a physician visit) the services covered in the target growth rate computation. The bill would establish two categories of physician services: (1) evaluation, management, and preventive services; and (2) all other physician services. The bill prescribes a separate target growth rate and conversion factor update for each such category.

STATUTORY PAY-AS-YOU-GO ACT OF 2009

The Medicare Physician Payment Reform legislation was considered in the House under a procedure which added the text of H.R. 2920, the Statutory PAYGO Act of 2009, as passed by the House on July 22nd before being sent to the Senate. The "pay as you go" principle of budget discipline requires Congress to find a way to pay for any new spending, outside of an economic crisis. The Statutory PAYGO Act would make that principle law. A previous Congress established the policy for paying Medicare doctors, so the update for 2010 is not a new policy to be paid for. The Statutory PAYGO Act would apply this principle to all new tax and spending policies, and would allow Congress to exclude the impact of continuing policies currently in place, including Medicare payments to physicians. The Medicare Physician Payment Reform Act would not increase total payments to physicians above what they are today and therefore, would not be subject to the paygo requirement.

H.R. 3962 (Mr. Dingell with cosponsors); passed the House Nov. 7, 2009.

H.R. 3962, the Affordable Health Care for America Act passed the House, amended, on Nov. 7, 2009, by a vote of 220-215.

The Act would require individuals to maintain health insurance and employers to either provide insurance or pay a payroll assessment, with some exceptions. Several market reforms would be made, such as modified community rating and guaranteed issue and renewal, which would help to level the playing field for access to and affordability of health insurance. Also, there is the authorization to appropriate funds to create health cooperatives, in addition to a public option. In Division A, there would be an individual and employer mandates linked to acceptable health insurance coverage, which would meet required minimum standards and incorporate the market reforms included in the bill. Division B details Medicaid eligibility expansions and payment reforms in Medicare, Medicaid, and CHIP. Division C encompasses a series of provisions intended to improve the delivery of health care services. They include provisions to expand the primary care workforce, emphasize clinical community-based prevention and wellness, and promote high-quality care.

H.R. 3962, Preservation of Access to Care for Medicare Beneficiaries and Pension Relief Act (vehicle for physician payment update); Public Law 111-192; app. June 25, 2010.

H.R. 3962, Preservation of Access to Care for Medicare Beneficiaries and Pension Relief Act, passed the House on Nov. 11, 2009 as Affordable Health Care for America Act. On June 18, 2010, the Senate passed the bill with an amendment and an amendment to the Title (Preservation of Access to Care for Medicare Beneficiaries and Pension Relief Act), by unanimous consent. The House passed the Senate amendment on June 24, 2010, under suspension of the rules, by a vote of 417-1. H.R. 3962 was signed into public law by the President on June 25, 2010 as Public Law 111-192.

Preservation of Access to Care for Medicare Beneficiaries and Pension Relief Act of 2010 sets 2.2% as the update to the single conversion factor in the formula for determining physician payment rates for June 1, 2010, through November 30, 2010.

The Act revises requirements for calculating payments to hospitals for inpatient hospital services with respect to the three-day payment window regarding other services related to an admission which are performed during the three days before an admission. It includes among such services, in addition to diagnostic services all services that are not diagnostic services (other than ambulance and maintenance renal dialysis services) for

SUMMARIES OF BILLS AND RESOLUTIONS
ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

which Medicare payment may be made that are provided to a patient by a hospital (or an entity wholly owned or operated by the hospital).

The Act prohibits any administrative or judicial review of the determination of whether services provided during the three days before a patient's inpatient admission is related to the admission.

The Act prohibits the Secretary of Health and Human Services (HHS) from reopening a claim, adjusting a claim, or making a payment pursuant to any request for Medicare payment (previously bundled claims) submitted by a hospital or an entity wholly owned or operated by the hospital for specified other services related to a patient's inpatient admission for purposes of treating, as unrelated to such admission, services provided during the three days (or in the case of a hospital that is not a subsection [d] hospital, during the one day) immediately preceding the date of the patient's inpatient admission.

The Act amends the Internal Revenue Code to authorize the Secretary of the Treasury to disclose to HHS officers and employees tax return information regarding delinquent tax debt with respect to taxpayers who apply to enroll or reenroll as Medicare service providers or suppliers. It requires the HHS Secretary to take this information into account in determining whether to deny such an application or to apply enhanced oversight to a service provider or supplier who owes such a debt.

The Act amends the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code (IRC) with respect to the shortfall amortization charge in the formula for determining the minimum required contribution for any plan year of a single-employer defined benefit plan in which the value of plan assets is less than the plan's funding target for the plan year. (The shortfall amortization charge for a plan for any plan year is the aggregate total of the shortfall amortization installments in amortizing unfunded liabilities for such plan year with respect to the shortfall amortization bases for the plan year and each of the six preceding plan years. Shortfall amortization installments are the amounts necessary to amortize the shortfall amortization base of the plan for any plan year in level annual installments over the seven-plan-year period beginning with such plan year.)

The Act allows a sponsor of a single-employer defined benefit pension plan to elect in any two plan years 2008-2011 extended amortization periods (of 9 or 15 years instead of the usual 7 years).

The Act requires an increase in alternate required shortfall amortization installments by an installment acceleration amount, during a specified restriction period (beginning after December 31, 2009), in cases of excess compensation or extraordinary dividends or stock redemptions, as determined according to specified formulae. It defines installment acceleration amount as the sum of the aggregate amount of excess employee compensation (over \$1 million) for a plan year after

February 28, 2010, plus the aggregate amount of extraordinary dividends and stock redemptions for such plan year.

The Act amends the Pension Protection Act of 2006 (PPA 2006) to allow sponsors of certain eligible cooperative pension plans, Pension Benefit Guaranty Corporation (PBGC) settlement plans, and government contractor cooperative plans or eligible charity plans with delayed effective dates to elect, in certain plan years 2008-2011, to apply specified pre-PPA 2006 minimum funding rules with respect to unfunded new liabilities (under 90% funded) for either: (1) a two-year lookback for determining deficit reduction contributions for certain plans with 9-year extended amortization periods; or (2) a new applicable percentage in the determination of a 15-year extended amortization period. The Act revises the formula for determining the adjusted funding target attainment percentage of single-employer benefit plans for plan years between October 1, 2008, and October 1, 2010 (FY2009 and FY2010), to make a special FY2007 plan year lookback rule with respect to determining when an unpredictable contingent event benefit may not be paid.

The Act revises requirements for the reduction of the minimum required contribution (by elected credits for a prefunding balance and a funding standard carryover balance) to a single-employer defined benefit pension plan maintained by a charity (charity benefit plan). It prescribes a special lookback for credit balance rule limiting such a reduction of the minimum required contribution for charity benefit plans that are less than 80% funded for plan years beginning after August 31, 2009, and before September 1, 2011. The Act amends ERISA and IRC relating to minimum funding standards for multiemployer pension plans. It makes a special relief rule to allow such plans to elect alternative amortization plans and valuation methods for amortization of net investment losses incurred in either or both of the first two plan years ending after August 31, 2008, with a specified expanded smoothing period in asset valuation methods.

H.R. 4154 (Mr. Pomeroy with cosponsors); passed the House Dec. 3, 2009.

H.R. 4154, the Permanent Estate Tax Relief for Families, Farmers, and Small Businesses Act of 2009, passed the House on Dec. 3, 2009 by a vote of 225 - 200. The legislation would permanently extend current law which would exempt estates up to \$3.5 million per individual (\$7 million total for married couples) with a maximum rate of 45 percent on estates above this threshold.

Additionally, the bill would repeal the enactment of carryover basis rules that would require many heirs, even those exempt from paying estate tax, to pay additional

taxes on the built-in gains of property inherited starting in 2010.

H.R. 4154 was considered in the House under a procedure that added the text of H.R. 2920, the Statutory PAYGO Act of 2009, as passed by the House on July 22nd before being sent to the Senate. The "pay as you go" principle of budget discipline requires Congress to pay for any new spending, outside of an economic crisis. The Statutory PAYGO Act would make that principle law. A previous Congress established the estate tax, so H.R. 4154 is not a new policy to be paid for.

H.R. 4168 (Mr. Teague with cosponsors); passed the House Sept. 28, 2010.

H.R. 4168, Algae-based Renewable Fuel Promotion Act of 2010, passed the House, under suspension of the rules, on Sept. 28, 2010.

The bill would amend the Internal Revenue Code to modify the definition of "cellulosic biofuel" for purposes of the cellulosic biofuel producer tax credit and the special depreciation allowance to mean any liquid fuel which is derived solely from qualified feedstocks. The legislation would define "qualified feedstocks" as any lignocellulosic or hemicellulosic matter that is available on a renewable or recurring basis and any cultivated algae, cyanobacteria, or lemna.

H.R. 4213 (Mr. Rangel); Public Law 111-205, app. July 22, 2010.

H.R. 4213, American Jobs and Closing Tax Loopholes Act of 2010, passed the House on Dec. 9, 2009 by a vote of 241-181. The bill passed the Senate with an amendment by a vote of 62-36 on Mar. 10, 2010. The House agreed to the Senate amendment with an amendment on May 28, 2010 by a vote of 215-204. On July 21, 2010, the Senate concurred in the House amendment to the Senate amendment to the bill with an amendment in the nature of a substitute (unemployment extension) by vote of 59-39. On July 22, 2010, the House agreed to the Senate amendment in the nature of a substitute to the House amendment to the Senate amendment to the bill by a vote of 272-152. H.R. 4213 was signed into law by the President as P.L. 111-205 on July 22, 2010.

The Act will retroactively restore these emergency unemployment benefits and continue the EUC program through November. In addition, the bill will restore full Federal funding for the permanent-law Extended Benefits program through November. The bill also includes two beneficiary protections: the continuation of an assurance that States are not cutting the level of regular unemployment benefits; and a safeguard that prevents EUC claimants from having their benefits reduced

if modest earnings requalifies them for regular, State unemployment benefits at lower weekly payment levels.

H.R. 4217 (Mr. Rangel with cosponsors); Public Law 111-116; app. Dec. 16, 2009.

H.R. 4217, the Fiscal Year 2010 Federal Aviation Administration Extension Act, Part II, passed the House under suspension of the rules by voice vote on December 8, 2009. The Senate passed the bill without amendment by unanimous consent on Dec. 10, 2009. H.R. 4217 was signed into law by the President on Dec. 16, 2009 as P.L. 111-116.

H.R. 4217 allows most aviation taxes to continue to be collected until Mar. 31, 2010. The bill also allows the Airport and Airway Trust Fund to continue to finance Federal Aviation Administration operations and airport improvement projects until Mar. 31, 2010.

H.R. 4218 (Mr. Tanner with cosponsor); Public Law 111-115; app. Dec. 15, 2009.

H.R. 4218, the No Social Security Benefits for Prisoners Act of 2009, passed the House, under suspension of the rules, by voice vote on Dec. 8, 2009. The bill passed the Senate, without amendment, by unanimous consent on Dec. 10, 2009. H.R. 4218 was signed into law by the President on Dec. 15, 2009 as P.L. 111-115.

The Act amends titles II (Old Age, Survivors and Disability Insurance) (OASDI) and XVI (Supplemental Security Income) (SSI) of the Social Security Act to prohibit retroactive payments to individuals during periods for which such individuals are prisoners, fugitive felons, or probation or parole violators.

H.R. 4284 (Mr. Rangel with cosponsor); Public Law 111-124; app. Dec. 28, 2009.

H.R. 4284, a bill to extend the Generalized System of Preferences and the Andean Trade Preference Act, and for other purposes, passed the House under suspension of the rules by voice vote on Dec. 14, 2009. The bill passed the Senate, without amendment, by unanimous consent on Dec. 22, 2009. H.R. 4284 was signed into law by the President on Dec. 28, 2009 as P.L. 111-124.

H.R. 4284 extends by one year the Generalized System of Preference (GSP) Program and the Andean Trade Preferences Program (ATPA), which were set to expire on Dec. 31, 2009. The Act also requires that the United States Trade Representative conduct a review of the operation of the ATPA program, including compliance with eligibility criteria, submit a report to Congress by June 30, 2010.

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

Under the basic GSP scheme implemented in 1976, 132 beneficiary developing countries are eligible to export approximately 3,400 types of products duty-free to the United States. The GSP program also provides additional benefits to the 44 GSP countries that are designated "least developed" under the program. These countries may export an additional 1,400 types of products. To qualify for GSP benefits, participants must meet eligibility criteria (e.g., whether the country has taken, or is taking, steps to afford internationally recognized worker rights; whether the country provides certain protections for U.S. investors).

The Andean Trade Preference Act (ATPA) was enacted in Dec. 1991, to help Bolivia, Colombia, Ecuador and Peru develop economic alternatives to drug production and trafficking. ATPA provides benefits beyond those under GSP, including additional product coverage. To qualify for ATPA benefits, countries must meet certain eligibility criteria (e.g., related to counter-narcotics cooperation). The Andean Trade Promotion and Drug Eradication Act (ATPDEA), enacted in August 2002, renewed and amended ATPA to provide duty-free treatment for certain products previously excluded under ATPA, subject to additional eligibility criteria (e.g., evaluating the extent to which each beneficiary country is providing internationally-recognized worker rights). H.R. 4284 extends the ATPA program by one year for Columbia, Ecuador and Peru.

H.R. 4314 (Mr. Rangel); Public Law 111-123; app. Dec. 28, 2009.

H.R. 4314, a bill to permit continued financing of Government operations, passed the House on Dec. 16, 2009 by a vote of 218-214. The bill passed the Senate, without amendment, on Dec. 24, 2009 by a vote of 60-39. H.R. 4314 was signed into law by the President on Dec. 28, 2009 as P.L. 111-123.

H.R. 4314 increases the public debt limit from \$12.104 trillion to \$12.394 trillion.

H.R. 4337 (Mr. Rangel with cosponsors); Public Law 111-325; app. Dec. 22, 2010.

H.R. 4337, Regulated Investment Company Modernization Act of 2010, passed the House, under suspension of the rules, as amended by voice vote on Sept. 28, 2010. On Dec. 8, 2010, the Senate passed the bill with an amendment by unanimous consent. The House, under suspension of the rules, agreed to the Senate amendment by voice vote on Dec. 15, 2010. H.R. 4337 was signed into law by the President on Dec. 22, 2010 as P.L. 111-325.

The Act modernizes various technical rules governing the tax treatment of regulated investment companies (RICs) under the Internal Revenue Code.

I. CAPITAL LOSS CARRYOVERS OF REGULATED INVESTMENT COMPANIES

Capital loss carryovers of regulated investment companies. RICs are designed to provide individual investors with the ability to invest in a diversified pool of professionally-managed investments. As a result, the tax rules are generally designed so that investors are taxed similarly whether they invest directly in securities or indirectly through a RIC. Individuals investing directly in securities are permitted unlimited carryforwards of their net capital losses. The Act updates the capital loss carryforward rules for RICs so that they match the capital loss carryforward rules for individuals. As a result, a RIC is permitted unlimited carryforwards of their net capital losses under the Act and a net long term capital loss will retain its character when carried forward instead of being treated as a short term capital loss.

II. MODIFICATION OF GROSS INCOME AND ASSET TESTS OF REGULATED INVESTMENT COMPANIES

Income from commodities counted toward gross income test of regulated investment companies. Under prior law, a RIC had to derive at least ninety percent (90%) of its income from certain enumerated sources of "good income" (e.g., dividends, interest, gains from the sale or other disposition of stock, etc). Under prior law, commodities are not one of these enumerated sources. As a result, a RIC could not derive more than ten percent (10%) of its gross income from commodities. Financial advisors today encourage clients to diversify across a broad range of asset classes, including commodity investments. This aspect of prior law prevented shareholders from accessing commodity investments through mutual funds. The Act includes commodities as a source of good income.

Savings provision for failures of regulated investment companies to satisfy gross income test. The Act permits a RIC to cure inadvertent failures to comply with the gross income test by paying a tax equal to the amount by which the RIC failed the gross income test.

Savings provision for failures of regulated investment companies to satisfy gross asset test. In addition to the gross income test mentioned above, a RIC must also satisfy certain asset diversification tests. Similar requirements apply to real estate investment trusts (REITs). Unlike RICs, REITs have statutory means to remedy inadvertent failures of such tests. For example, if a REIT fails the asset tests by a de minimis amount and the REIT comes into compliance within six months after it identifies the failure, then the REIT is treated as satisfying the asset tests. For non-de minimis asset test failures, a REIT can avoid

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

disqualification under subchapter M if the failure is due to reasonable cause (and not willful neglect) and the REIT notifies the IRS, disposes of the assets, and pays an excise tax equal to the greater of (i) \$50,000 or (ii) the highest corporate tax rate times the net income from the bad assets during the period of failure. The Act extends these REIT remedies to RICs.

III. MODIFICATIONS OF RULES RELATED TO DIVIDENDS AND OTHER DISTRIBUTIONS

Modification of dividend designation requirements for RICs. The Act eliminates the now-obsolete requirement that RICs must send a written designation notice to shareholders within sixty (60) days of the end of the RIC's taxable year.

Modification of dividend allocation rules for RICs. Rather than force funds and taxpayers to file amended returns for the prior calendar year, the Act allows the fund to first reduce capital gain dividends in the subsequent calendar year by the amount of the excess capital gain dividends reported in the prior calendar year. Similar rules apply to other types of specially-designated dividends (e.g., exempt-interest dividends, short-term capital gain dividends and interest-related dividends).

Earnings and profits of regulated investment companies. Under prior law, the current earnings and profits of a RIC are not reduced by any amount which is not allowable as a deduction in computing its taxable income for such taxable year. In the case of tax-exempt bond funds, this rule can cause inappropriate results that result in shareholders being overtaxed. In particular, if a RIC that invests exclusively in tax-exempt obligations distributes an amount greater than its net tax-exempt interest income for the year, that excess is economically a return of capital to shareholders. However, because certain deductions associated with tax-exempt income are disallowed, such excess is treated under prior law as a dividend out of current earnings and profits. The Act fixes this aspect of prior law by allowing certain disallowed deductions associated with tax-exempt income to be taken into account in calculating earnings and profits.

Pass-through of exempt-interest dividends and foreign tax credits in fund-of-funds structure. The Act allows a fund of funds that invests fifty percent (50%) of its assets in interests in other RICs to pass-through tax-exempt interest and foreign tax credits without regard to the fifty percent (50%) requirement.

Modification of rules for spillover dividends of regulated investment companies. The Act would allow a RIC to make a spillover dividend with the first dividend payment of the same type of dividend. It would also limit the time period for making a spillover dividend to the 15th day of the ninth month following the close of the taxable year or, in the case of an extension of time for filing the

company's return for the taxable year, the due date for filing such extended return.

Return of capital distributions of regulated investment companies. The Act provides that a RIC's earnings and profits shall be allocated first to distributions made prior to December 31 and then to distributions occurring after December 31 instead of requiring earnings and profits be allocated pro rata over all distributions during the taxable year.

Exchange treatment for redemptions of stock of a regulated investment company. The Act simplifies the determination by allowing all publicly-offered RICs with shares that are redeemable upon demand to treat distributions in redemption of stock as an exchange.

Loss-deferral rule for redemptions of stock in fund-of-funds structures. The Act provides that the loss-deferral rule does not apply to the redemption of stock of a RIC if the redemption is upon the demand of a shareholder which is another RIC..

Repeal of preferential dividend rule for publicly offered regulated investment companies. The Act repeals the preferential dividend rules contained in the tax code for publicly offered RICs.

Deferral of late-year losses of regulated investment companies for income tax purposes. The bill would allow a RIC to elect to treat a post-December 31 loss (or, in the case of capital gains, a post-October 31 loss) as arising on the first day of the fund's next taxable year.

Exception to holding period requirement for certain regularly declared exempt-interest dividends. Under prior law, if a shareholder of a RIC received an exempt-interest dividend with respect to any share that had been held by the taxpayer for 6 months or less, then any loss on the sale or exchange of such share would be disallowed to the extent of the amount of the exempt-interest dividend. The Secretary of the Treasury had the authority under prior law to shorten this holding period requirement. The Act eliminates this holding period in the case of daily-dividend RICs (i.e., RICs that declare exempt-interest dividends on a daily basis in an amount equal to at least 90 percent of its net tax-exempt interest and distributes such dividends on a monthly or more frequent basis).

IV. MODIFICATIONS OF RULES RELATED TO THE REGULATED INVESTMENT COMPANY EXCISE TAX

Excise tax exemption for certain regulated investment companies owned by tax-exempt entities. The Act extends the excise tax exemption to RICs that are owned by these other tax-exempt entities as well.

Deferral of certain gains and losses of regulated investment companies for excise tax purposes. Solely for purposes of the annual RIC excise tax, a RIC was allowed to treat certain ordinary income derived after October 31 as being derived on the first day of the following calendar

SUMMARIES OF BILLS AND RESOLUTIONS

year. The Act expands this rule to cover all ordinary gains or losses from the sale, exchange, or other disposition of (or termination of a position with respect to) property, including foreign currency gains and losses. Distributed amount for excise tax purposes determined on the basis of taxes paid by regulated investment company. The Act allows estimated tax payments to be taken into account for purposes of the annual RIC excise tax.

Increase in required distribution of capital gain net income. Under prior law, a RIC was required to distribute to its shareholders prior to December 31 of any year 98 percent of its capital gain net income for the 1-year period ending on October 31 of such calendar year. The purpose of this requirement was to prevent RICs from deferring the distribution of such income to the calendar year after it was recognized (a practice which provides the benefit of one year's deferral to the RIC's shareholders). The Act increases this percentage to 98.2 in calendar years beginning after the date of enactment.

V. OTHER PROVISIONS

Repeal of assessable penalty with respect to liability for tax for regulated investment companies. Under prior law, a RIC could distribute a "deficiency dividend" if it had a tax deficiency with respect to a previous tax year because it failed to distribute all of its investment company taxable income. Such a deficiency dividend was treated by the RIC as a deductible dividend paid with respect to the prior taxable year. As a result, the deficiency dividend eliminated the deficiency in the prior taxable year. As a penalty for making a deficiency dividend, a RIC was subject to an interest charge plus an additional penalty equal to the lesser of (i) the amount of the interest charge or (ii) fifty percent (50%) of the amount of the deficiency dividend. REITs could also make deficiency dividends. However, REITs were only subject to the interest charge. They are not subject to the additional penalty that RICs must pay under prior law. The Act conforms the RIC and REIT deficiency dividend rules and repeal the additional penalty that applies to RICs making a deficiency dividend. RICs, like REITs, continue to be subject to the interest charge.

Modification of sales load basis deferral rule for regulated investment companies. The Act limits the application of this rule to cases where a taxpayer acquires new RIC stock before January 31 of the calendar year after disposing of the initial RIC stock that bore the load charge.

H.R. 4380 (Mr. Levin with cosponsor); Public Law 111-227; app. Aug. 11, 2010.

H.R. 4380, United States Manufacturing Enhancement Act of 2010, passed the House, as amended,

under suspension of the rules by a vote of 378-43 on July 21, 2010. On July 27, 2010, the bill passed the Senate without amendment by unanimous consent. H.R. 4380 was signed into law by the President on Aug. 11, 2010 as P.L. 111-227.

The Act amends the Harmonized Tariff Schedule of the United States to provide for duty suspensions and reductions through December 31, 2012, for specified chemicals and other products. It extends existing suspensions and reductions of duties through December 31, 2012, for other specified chemicals and products. The Act imposes, suspends, and increases and/or decreases the duty on certain chemicals through December 31, 2012. H.R. 4389 imposes, through December 31, 2012, a duty on: (1) brakes designed for bicycles; and (2) certain 12V lead-acid storage batteries. It suspends, through December 31, 2012, the duty on: (1) certain catalytic converter mats of ceramic fibers; and (2) certain herbicides. The Act extends the duty on aspirin through December 31, 2012.

H.R. 4462 (Mr. Rangel); Public Law 111-126; app. Jan. 22, 2010.

H.R. 4462, a bill to accelerate the income tax benefits for charitable cash contributions for the relief of victims of the earthquake in Haiti, passed the House, under suspension of the rules, by voice vote on Jan. 20, 2010. The bill passed the Senate, without amendment, by unanimous consent on Jan. 21, 2010. H.R. 4462 was signed into law by the President on Jan. 22, 2010 as P.L. 111-126.

The Act treats cash contributions made after Jan. 11, 2010 and before Mar. 1, 2010, for the relief of earthquake victims in Haiti as having been made on Dec. 31, 2009, for purposes of the tax deduction for charitable contributions. The public law deems a contribution as meeting the recordkeeping requirements of the Internal Revenue Code if the taxpayer produces a telephone bill showing the name of the donor organization and the date and amount of the contribution. The public law designated the provisions of this Act as emergency provisions, this exempting them from the pay-as-you go requirement of budget neutrality.

H.R. 4532 (Mr. Tanner); Public Law 111-142; app. Feb. 27, 2010.

H.R. 4532, the Social Security Disability Applicants' Access to Professional Representation Act of 2010, passed the House on Feb. 4, 2010 by a vote of 412-6. The bill passed the Senate, without amendment, by unanimous consent on Feb. 22, 2010. H.R. 4532 was signed into law by the President on Feb. 27, 2010 as P.L. 111-142.

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

The Act amends the Social Security Protection Act of 2004 to provide for permanent extension of the attorney fee withholding procedures under title II to title XVI of the Social Security Act. The public law also provides for the permanent extension of such procedure to qualified non-attorney claimant representatives.

H.R. 4691 (Mr. Rangel); Public Law 111-114; app. Mar. 2, 2010.

H.R. 4691, the Temporary Extension Act of 2010, passed the House on Feb. 25, 2010, under suspension of the rules, by voice vote. The bill passed the Senate, without amendment, by a vote of 78-19 on Mar. 2, 2010. H.R. 4691 was signed into law by the President on Mar. 2, 2010 as P.L. 111-144.

The public law extends federal unemployment programs, including the Emergency Unemployment Compensation Program, through Apr. 5, 2010 and extends eligibility for 65% subsidy for COBRA premiums, Medicare payment rates for physicians, Medicare therapy cap exceptions and 2009 poverty guidelines through the end of Mar. 2010.

The Act allows temporary federal matching for the first week of extended benefits for states with no waiting period for unemployment compensation.

H.R. 4783 (Mr. Levin); passed the House Mar. 10, 2010.

H.R. 4783, to accelerate the income tax benefits for charitable cash contributions for the relief of victims of the earthquake in Chile, and to extend the period from which such contributions for the relief of victims of the earthquake in Haiti may be accelerated, passed the House, under suspension of the rules, by voice vote on Mar. 10, 2010. The Senate passed the bill with an amendment and an amendment to the Title: The Claims Resettlement Act of 2010, by unanimous consent on Nov. 19, 2010. The House agreed to the Senate amendments by a vote of 256-152 on Nov. 30, 2010. H.R. 4783 was signed into law by the President on Dec. 8, 2010 as P.L. 111-291.

The legislation as enacted contained several provisions under the jurisdiction of the Committee on Ways and Means providing funds for pay-go.

The cost of providing funds for the settlements is fully offset over the next ten years so there is no impact on the budget.

The Act includes a proposal from the President's budget to seize federal tax refunds from individuals who have received overpayments from the Unemployment Insurance program because they failed to fully report their earnings. This is an expansion of existing authority and raises about \$2.7 billion over 10 years. There is also an extension of existing custom user fees, which raises \$2.1

billion. These fees are imposed by the United States for the cost of processing passengers, conveyances and merchandise entering the U.S. Additionally, the legislation includes a rescission of certain Women, Infants and Children (WIC) program funding, saving \$562 million. Finally, the Act extends through the remainder of FY 2011 the Temporary Assistance for Needy Families or TANF program. This extension is budget neutral. The provision reduces funding in FY 2011 for the TANF contingency fund to offset the cost of extending the TANF supplemental grants through the 3rd quarter of FY 2011. The Act also includes new reporting requirements within the TANF program, as well as changes to the Healthy Marriage and Responsible Fatherhood program. The Act does not extend the TANF Emergency Fund, which expired at the end of September.

H.R. 4849 (Mr. Levin); passed the House Mar. 24, 2010.

H.R. 4849, the Small Business and Infrastructure Jobs Tax Act of 2010, passed the House on Mar. 24, 2010 by a vote of 246-178.

The bill would extend for one year the TANF Emergency Fund that 35 States are using or planning to use for a jobs program that subsidizes employers, including small businesses, who hire unemployed workers. The bill would also extend the provisions to allow Build America Bonds to be issued in 2011, 2012, and before Apr. 1, 2013. The bill would allow issuers to issue Build America Bonds to effect a current refunding of outstanding Build America Bonds.

The Act would make an additional allocation of Recovery Zone bonds to ensure that each local municipality receives a minimum allocation equal to at least its share of national unemployment in December 2009. The bill would also extend the authorization for issuing Recovery Zone bonds through 2011.

The bill would prevent foreign multinational corporations incorporated in tax haven countries from avoiding tax on income earned in the United States by routing their income through structures in which a United States subsidiary of the foreign multinational corporation makes a deductible payment to a country with which the United States has a tax treaty before ultimately sending these earnings to the tax haven country.

The bill would adopt the President's Budget proposal to repeal the 80/20 company rules. (If at least eighty percent (80%) of a corporation's gross income during a three-year period is foreign source income and is attributable to the active conduct of a foreign trade or business (a so-called "80/20 company"), dividends and interest paid by the corporation will generally not be subject to the gross basis withholding rules. Furthermore, interest received from an 80/20 company can increase the amount of foreign tax credits that may be claimed by U.S.

SUMMARIES OF BILLS AND RESOLUTIONS
ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

multinational corporations.) The bill would also repeal the 80/20 rules for interest paid by resident alien individuals.

The bill would allow owners of tax-exempt bond-financed buildings, placed in service after date of enactment and prior to Dec. 31, 2010, to elect to receive a direct payment in lieu of these tax credits. The amount of the direct payment would be equal to eighty-five percent (85%) of the present value of the low-income housing tax credits that would otherwise have been awarded with respect to such building.

The legislation would increase the penalties for failing to file correct returns, failing to furnish correct payee statements, and failing to comply with other information reporting requirements. If a taxpayer fails to file a correct information return before August 1st, current law imposes a \$50 penalty per return. The bill would increase this penalty to \$100 per information return, with the maximum penalty increased from \$250,000 to \$1,500,000 (an increase in the maximum penalty from \$100,000 to \$500,000 in the case of a small business). Where a taxpayer files a correct information return after the filing date but before 30 days after the filing date, the current law \$15 penalty would be increased to \$30 per return, with a maximum penalty increased from \$75,000 to \$250,000 per calendar year (an increase in the maximum penalty from \$25,000 to \$75,000 in the case of a small business). Where a taxpayer files a correct information return more than 30 days after the filing date but before August 1st, the penalty for information returns would be increased from \$30 to \$60, with a maximum penalty increased from \$150,000 to \$500,000 (an increase in the maximum penalty from \$50,000 to \$200,000 in the case of a small business). If the failure is due to intentional disregard of a filing requirement, the current law minimum penalty for each failure is increased from \$100 to \$250 with no annual limit.

H.R. 4851 (Mr. Levin); Public Law 111-157; app. Apr. 15, 2010.

H.R. 4851, the Continuing Extension Act of 2010, passed the House on Mar. 17, 2010, under suspension of the rules, by voice vote. The bill passed the Senate with an amendment by a vote of 59-38 on Apr. 15, 2010. On Apr. 15, 2010 the House agreed to the Senate amendment by a vote of 289-112. H.R. 4851 was signed into law by the President on Apr. 15, 2010 as P.L. 111-157.

The public law amends the Assistance for Unemployed Workers and Struggling Families Act to extend until June 2, 2010: (1) Federal-state agreements increasing regular unemployment compensation payments to individuals; and (2) requirements that Federal payments to states cover 100% of EUC.

The Act amends the American Recovery and Reinvestment Act of 2009 (ARRA) to extend through May

31, 2010, provide premium assistance for COBRA benefits (health insurance continuation benefits under the Consolidated Omnibus Budget Reconciliation Act of 1985) and extends the small business loan guarantee program.

The public law prohibits incentive payments to hospital-based eligible professionals for use of certified electronic health record technology. The Act also allows the Highway Trust Fund to compensate federal employees for lapse in expenditure authority.

H.R. 4853 (Mr. Oberstar); Public Law 111-312; app. Dec. 17, 2010.

H.R. 4853, the Federal Aviation Administration Extension Act of 2010 passed the House, under suspension of the rules, by voice vote on Mar. 17, 2010. 2010, the bill passed the Senate with an amendment by unanimous consent. On Dec. 2, 2010, the House agreed to the Senate amendment with an amendment by a vote of 234-188. The House amendment to the Senate amendment was an amendment in the nature of a substitute and title: Middle Class Tax Relief Act of 2010. The Senate concurred in the House amendment to the Senate amendment with an amendment by a vote of 81-19 on Dec. 15, 2010. The Senate amendment included a change to the title: Tax Relief, Unemployment Insurance Reauthorization, and Job Creation Act of 2010. On Dec. 16, 2010, the House agreed to the Senate amendment to the House amendment to the Senate amendment by a vote of 277-148. H.R. 4853 was signed into law by the President on Dec. 17, 2010 as P.L. 111-312.

Title I: Temporary Extension of Tax Relief. The Act extends through December 31, 2012: (1) the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA), Public Law 107-16; (2) provisions of the Jobs and Growth Tax Relief Reconciliation Act of 2003, Public Law 108-27, reducing income tax rates on dividend and capital gain income; (3) increases in the Hope Scholarship tax credit, the child tax credit, and the earned income tax credit; and (4) increases in the tax credit for adoption expenses and the tax exclusion for employer-provided adoption assistance.

Title II: Temporary Extension of AMT Relief. The Act extends through 2011 the increased exemption from the alternative minimum tax (AMT) for married and single taxpayers. It also repeals the terminating date in EGTRRA (i.e., December 31, 2010) applicable to increases in the AMT exemption amounts.

Title III: Temporary Estate Tax Relief. The Act reinstates the estate, gift, and generation-skipping transfer tax, subject to modifications to such tax made by this Act. The law allows estates of decedents dying after December 31, 2009, and before January 1, 2011, an election to apply current estate tax provisions of EGTRRA.

ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS**

Title IV: Temporary Extension of Investment Incentives. The Act extends through 2012: (1) the additional depreciation allowance for business and investment property; (2) the 100% expensing allowance for business and investment property; and (3) the election to accelerate the AMT and research tax credits in lieu of bonus depreciation. The Act also extends through 2012 the increased expensing allowance (i.e., \$125,000) for depreciable business and investment property and the adjusted gross income threshold (i.e., \$500,000) for calculating reductions in such allowance. The Act allows an inflation adjustment to such increased amounts beginning in 2012, and extends through 2012 the designation of certain computer software as depreciable property for purposes of such allowance.

Title V: Temporary Extension of Unemployment Insurance. The Act extends unemployment benefits at their current level for 13 months, through the end of 2011.

Title VI: Temporary Employee Payroll Tax Cut. The Act reduces by 2% in calendar year 2011 (the payroll tax holiday period) employment and self-employment tax rates. The Act requires a transfer of amounts from the Treasury to the Federal Old Age and Survivors Trust Fund, the Federal Disability Insurance Trust Fund, and the Social Security Equivalent Benefit Account to compensate for revenue lost as a result of such reduction in the employment and self-employment tax rates.

Title VII: Temporary Extension of Certain Expiring Provisions – Energy. The Act extends through 2011 expiring tax provisions related to energy production and conservation, including: (1) income and excise tax credits (and outlay payments) for biodiesel and renewable diesel used as fuel; (2) the tax credit for investment in refined coal facilities; and (3) the new energy efficient home tax credit.

Individual Tax Relief. The Act extends through 2011: (1) the tax deduction for certain expenses of elementary and secondary school teachers; (2) the deduction of state and local sales taxes in lieu of state and local income taxes; (3) the deduction for contributions of capital gain real property made for conservation purposes; (4) the deduction (from gross income) for qualified tuition and related expenses; and (5) the tax exemption for distributions from individual retirement accounts (IRAs) for charitable purposes.

Business Tax Relief. The Act extends through 2011: (1) the tax credit for increasing research activities; (2) the Indian employment tax credit; (3) the new markets tax credit; (4) the railroad track maintenance tax credit; (5) the mine rescue team training tax credit; (6) the tax credit for differential payments to employees who are active duty members of the uniformed services; (7) accelerated depreciation (15-year recovery period) of qualified leasehold improvements, qualified restaurant buildings and improvements, and qualified retail improvements; (8)

accelerated depreciation (7-year recovery period) for motorsports entertainment complexes; (9) accelerated depreciation for business property on an Indian reservation; (10) the expansion of the tax deductions for charitable contributions of food and book inventories and for charitable deductions for contributions by corporations of computer technology and equipment for educational purposes; (11) the election to expense mine safety equipment; (12) expensing of certain film and television production costs; (13) expensing of environmental remediation costs; and (14) the tax deduction with respect to income attributable to domestic production activities in Puerto Rico; and (15) the exclusion from gross income of 100% of the gain from the sale of qualified small business stock held for more than five years.

Other provisions. The Act extends through 2011 tax-exempt bond financing for investment in the New York Liberty Zone. The Act extends through 2011 (1) the increase in the rehabilitation tax credit in the Gulf Opportunity (GO) Zone, and the placed-in-service deadline for buildings in the GO Zone for purposes of the low-income housing tax credit. In addition, tax-exempt financing for GO Zone investments and bonus depreciation allowances for qualified GO Zone property are extended.

H.R. 4872 (Mr. Spratt); Public Law 111-152; app. Mar. 30, 2010.

H.R. 4872, the Health Care and Education Reconciliation Act of 2010, passed the House by a vote of 220-211 on Mar. 21, 2010. The bill passed the Senate with an amendment on Mar. 25, 2010 by a vote of 56-43. On Mar. 25, 2010 the House agreed to the Senate amendment by a vote of 220-207. H.R. 4872 was signed into law by the President on Mar. 30, 2010 as P.L. 111-152.

TITLE I – COVERAGE, MEDICARE, MEDICAID AND REVENUES

Subtitle A – Coverage

Tax Credits. The Act improves the financing for premiums and cost sharing for individuals with incomes up to 400% of the federal poverty level. Subsection (a) improves tax credits to make premiums more affordable as a percent of income; and subsection (b) improves the support for cost sharing, focusing on those with incomes below 250 percent of the federal poverty level. Starting in 2019, the Act constrains the growth in tax credits if premiums are growing faster than the consumer price index, unless spending is more than 10 percent below current CBO projections.

Individual responsibility. The Act modifies the assessment that individuals who choose to remain

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

uninsured pay in three ways: (a) exempts the income below the filing threshold, (b) lowers the flat payment from \$495 to \$325 in 2015 and from \$750 to \$695 in 2016 and (c) raises the percent of income that is an alternative payment amount from 0.5 to 1.0 percent in 2014, 1.0 to 2.0 percent in 2015, and 2.0 to 2.5 percent for 2016 and subsequent years to make the assessment more progressive.

Employer responsibility. The Act improves the transition to the employer responsibility policy for qualifying employers by subtracting the first 30 full time employees from the payment calculation (e.g., a firm with 51 workers full-time that does not offer coverage will pay an amount equal to 51 minus 30, or 21 times the applicable payment amount per employee). It applies the same size threshold for all employers. The provision also changes the applicable payment amount for firms that do not offer coverage to \$2,000 per full-time employee. Employers who offer coverage but whose employees receive tax credits will also see the aggregate cap on payments increased to \$2,000. Also, the Act eliminates the assessment for workers in a waiting period, while applying the same size threshold for all firms subject to the employer responsibility requirement.

Income definitions. The Act modifies the definition of income that is used for purposes of tax credit and subsidy eligibility and the individual responsibility requirement. The modifications conform the income definition to information that is currently reported on the Form 1040 and to the present law income tax return filing thresholds. The provision also extends the exclusion from gross income for employer provided health coverage for adult children up to the end of the calendar year in which the child turns age 26.

Implementation funding. The Act provides \$1 billion to the Secretary of Health and Human Services to finance the administrative costs of implementing health insurance reform.

Subtitle B – Medicare

Closing the Medicare prescription drug —donut hole. The Act provides a \$250 rebate for all Medicare Part D enrollees who enter the donut hole in 2010. It builds on pharmaceutical manufacturers' 50 percent discount on brand-name drugs beginning in 2011 to provide 75 percent coverage for brand-name and generic drugs by 2020 to fill the donut hole.

Medicare Advantage payments. The Act freezes Medicare Advantage payments in 2011. Beginning in 2012, the Act reduces Medicare Advantage benchmarks relative to current levels. The benchmarks will vary from 95 percent of Medicare spending in high-cost areas to 115 percent of Medicare spending in low-cost areas, with benchmarks increased by five percentage points in all areas for high-quality plans. The changes will be phased-in over three, five or seven years, depending on the level of

payment reductions. It extends CMS authority to adjust risk scores in Medicare Advantage for observed differences in coding patterns relative to fee-for-service and phases up the adjustment beginning in 2014.

Savings from limits on MA plan administrative costs. The Act ensures Medicare Advantage plans spend at least 85 percent of revenue on medical costs or activities that improve quality of care, rather than profit and overhead.

Disproportionate share hospital (DSH) payments. The Act advances Medicare disproportionate share hospital cuts to begin in fiscal year 2014 but lowers the ten-year reduction by \$3 billion.

Market basket updates. The Act revises the hospital market basket reduction that is in addition to the productivity adjustment as follows: -0.3 in FY2014 and -0.75 in FY2017, FY2018 and FY2019. The providers affected are inpatient hospitals, long-term care hospitals, inpatient rehabilitation facilities, psychiatric hospitals and outpatient hospitals.

Physician ownership-referral. The Act changes the date after which physician ownership of hospitals to which they self refer is prohibited to Dec. 31, 2010, and provides a limited exception to the growth restrictions for grandfathered physician owned hospitals that treat the highest percentage of Medicaid patients in their county (and are not the sole hospital in a county).

Payment for imaging services. The Act changes the effective date of imaging cuts to Jan. 1, 2011. It takes into account the CMS imaging rule that went into effect on Jan. 1, 2010, but sets the assumed utilization rate at 75 percent for the practice expense portion of advanced diagnostic imaging services.

PE GPCI adjustment for 2010. The Act accelerates phase-in of Medicare physician practice expense adjustment for areas with below average practice expense payment rates. In 2010, the national blend would be increased from $\frac{1}{4}$ to $\frac{1}{2}$.

Payment for qualifying hospitals. The Act provides an additional payment under the Medicare inpatient prospective payment system to hospitals located in counties in the bottom quartile of counties as ranked by risk adjusted spending per Medicare enrollee.

Subtitle C – Medicaid

Federal funding for States. The Act strikes the provision for a permanent 100 percent federal matching rate for Nebraska for the Medicaid costs of newly eligible individuals. It provides federal Medicaid matching payments for the costs of services to newly eligible individuals at the following rates: 100 percent in 2014, 2015, and 2016; 95 percent in 2017; 94 percent in 2018; 93 percent in 2019; and 90 percent thereafter. In the case of expansion states, additional federal support for covering nonpregnant childless adults is phased-in so that in 2019

SUMMARIES OF BILLS AND RESOLUTIONS ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

and thereafter, expansion states would receive the same FMAP as other states for newly-eligible and previously-eligible nonpregnant childless adults.

Payments to primary care physicians. The Act requires that Medicaid payment rates to primary care physicians for furnishing primary care services be no less than 100 percent of Medicare payment rates in 2013 and 2014. It provides 100 percent federal funding for the additional costs to States of meeting this requirement.

Disproportionate share hospital payments. The Act lowers the reduction in federal Medicaid DSH payments from \$18.1 billion to \$14.1 billion and advances the reductions to begin in fiscal year 2014. It directs the Secretary to develop a methodology for reducing DSH allotments to all states in order to achieve the mandated reductions. The legislation extends through FY 2013 the federal DSH allotment for a state that has a \$0 allotment after FY 2011.

Funding for the territories. The Act increases federal funding for Puerto Rico, Virgin Islands, Guam, American Samoa, and the Northern Marianas Islands by \$2 billion. It raises the caps on federal Medicaid funding for each of the territories. The Act allows each territory to elect to operate a Health Benefits Exchange.

Delay in Community First Choice Option. The Act postpones from Oct. 1, 2010 until Oct. 1, 2011 the effective date of the option established for State Medicaid programs to provide community-based long term services and supports for individuals who require an institutional level of care.

Drug rebates for new formulations of existing drugs. For purposes of applying the additional rebate, the Act narrows the definition of a new formulation of a drug to a line extension of a single source or innovator multiple source drug that is an oral solid dosage form of the drug.

Subtitle D – Reducing Fraud, Waste, and Abuse

Community mental health centers. The public law establishes new requirements for community mental health centers that provide Medicare partial hospitalization services in order to prevent fraud and abuse.

Medicare prepayment medical review limitations. The Act streamlines procedures to conduct Medicare prepayment reviews to facilitate additional reviews designed to reduce fraud and abuse.

Funding to fight fraud, waste and abuse. The Act increases funding for the Health Care Fraud and Abuse Control Fund by \$250 million over the next decade. Indexes funds to fight Medicaid fraud based on the increase in the Consumer Price Index.

90-day period of enhanced oversight for initial claims of DME suppliers. The Act allows a 90-day period of enhanced oversight and withholding of payment in cases where the HHS Secretary identifies a significant risk of fraud among DME suppliers.

Subtitle E – Revenues

High-cost plan excise tax. The Act levies an excise tax of 40 percent on insurance companies and plan administrators for any health coverage plan to the extent its cost is above the threshold of \$10,200 for single coverage and \$27,500 for family coverage. This threshold will be increased if growth in the cost of group coverage before 2018 is higher than expected. The tax applies to self-insured plans and plans sold in the group market, but not to plans sold in the individual market (except for coverage eligible for the deduction for self-employed individuals). The threshold does not include stand-alone dental and vision coverage. The threshold is indexed at CPI-U plus one percentage point in year 2019 and CPI-U in years thereafter. An additional threshold amount of \$1,650 for self-only and \$3,450 for family coverage is available for retired individuals age 55 and older and for plans that cover employees engaged in high risk professions. An adjustment to the thresholds is also available for employers whose health costs are higher due to the age or gender of their workers. This provision is effective beginning after Dec. 31, 2017.

Unearned income Medicare contribution. The Act equalizes the tax treatment of earned and unearned income under the Medicare contribution for taxpayers with income above \$200,000 for singles (\$250,000 for married couples filing jointly). The provision imposes a 3.8 percent tax (identical to the combined employer/employee tax rates on earned income) on income from interest, dividends, annuities, royalties and rents which are not derived in the ordinary course of trade or business, excluding active S corporation or partnership income. Only income in excess of the thresholds is subject to the tax. The Act is effective for taxable years beginning after Dec. 31, 2012.

Delay of the annual limitation on contributions to a health FSA. The Act delays for two additional years the \$2,500 cap on contributions to health Flexible Spending Arrangements so that it is effective for years beginning after Dec. 31, 2012.

Brand name pharmaceuticals. The applicable amount of the fee on pharmaceutical manufacturers is changed to be as follows: \$2.5 billion in 2011, \$2.8 billion in years 2012-2013, \$3.0 billion in 2014-2016, \$4.0 billion in 2017, \$4.1 billion in 2018 and \$2.8 billion in 2019 and years thereafter. This provision is delayed for one year and is effective for years beginning after Dec. 31, 2010.

Excise tax on medical device manufacturers. The Act strikes the fee on medical device manufacturers and replaces it with an excise tax on the sale of medical devices by the manufacturer or importer equal to 2.3 percent of the sales price. The tax is deductible for federal income tax purposes. The excise tax does not apply to any sale of eyeglasses, contact lenses, hearing aids, or any medical device of a type generally purchased by the public at retail. In addition, sales for export and sales of devices for use in

SUMMARIES OF BILLS AND RESOLUTIONS
ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

further manufacturing are exempt from the excise tax. The provision is effective for sales after December 31, 2012.

Health insurance providers. The applicable amount of the fee on health insurance providers is changed to be as follows: \$8.0 billion in 2014, \$11.3 billion in years 2015-2016, \$13.9 billion in 2017, and \$14.3 billion in 2018. For years after 2018, the amount of the annual fee is the amount for the preceding year increased by the rate of premium growth for the preceding calendar year. This provision alters the exemptions from the fee to include non-profits which receive more than 80 percent of their gross revenues from government programs that target low-income, elderly, or disabled populations. In addition, only 50 percent of net premiums written by entities who are exempt from federal income tax under Internal Revenue Code sections 501(c)(3), (4), (26), and (29) are included for purposes of determining an entity's market share. This provision is delayed for three years and is effective for years beginning after Dec. 31, 2013.

Delay of elimination of deduction for expenses allocable to Medicare part D subsidy. The Act delays for two years the elimination of the deduction for the Part D subsidy so that it is effective for years beginning after Dec. 31, 2012.

Elimination of unintended application of cellulosic biofuel producer credit. The Act adds an additional revenue provision. It modifies the \$1.01 per gallon cellulosic biofuel producer credit to exclude fuels with significant water, sediment, or ash content, such as black liquor. The provision excludes from the definition of cellulosic biofuel any fuels that (1) are more than four percent (according to weight) water and sediment in any combination, or (2) have an ash content of more than one percent (according to weight). The provision is effective for fuel sold or used after Jan. 1, 2010.

Codification of economic substance doctrine and penalties. The Act clarifies the application of the economic substance doctrine which has been used by courts to deny tax benefits for transactions lacking economic substance. The provision would also impose a 40 percent strict liability penalty on underpayments attributable to a transaction lacking economic substance (unless the transaction was disclosed, in which case the penalty is 20 percent). This provision is effective for transactions entered into after the date of enactment.

Time for payment of corporate estimated taxes. The Act provides for a one-time adjustment to corporate estimated taxes for payments made during calendar year 2014.

Subtitle F – Other Provisions

TAA for communities. The Act appropriates \$500 million a year for fiscal years 2010 through 2014 in the Community College and Career Training Grant program for community colleges to develop and improve

educational or career training programs. It ensures that each state receives at least 0.5 percent of the total funds appropriated.

Insurance Reforms. The Act extends the prohibition of lifetime limits, prohibition on rescissions, and a requirement to provide coverage for adult children up to age 26 to all existing health insurance plans starting six months after enactment. It extends the limitation on excessive waiting periods to all existing group plans, effective in 2014. For group health plans, prohibits pre-existing condition exclusions in 2014, restricts annual limits beginning six months after enactment, and prohibits them starting in 2014. For coverage of adult children prior to 2014, the requirement on group health plans is limited to those adult children without an employer offer of coverage.

Drugs Purchased by Covered Entities. The public law repeals the underlying 340B expansion to inpatient drugs and exemptions to GPO exclusion. Exempts orphan drugs from required discounts for new 340B entities.

Community Health Centers. The legislation increases mandatory funding for community health centers to \$11 billion over five years (FY 2011 – FY 2015).

H.R. 4887 (Mr. Skelton); Public Law 111-159; app. Apr. 26, 2010.

H.R. 4887, the TRICARE Affirmation Act, passed the House on Mar. 20, 2010, under suspension of the rules, by a vote of 403-0. The bill passed the Senate, without amendment, by unanimous consent on Apr. 12, 2010. H.R. 4887 was signed into law by the President on Apr. 26, 2010 as P.L. 111-159.

The public law amends the Internal Revenue Code to provide that health care coverage provided by the TRICARE program will provide essential health care coverage as required by the Patient Protection and Affordable Care Act.

H.R. 4994 (Mr. Lewis with cosponsors); Public Law 111-309; app. Dec. 15, 2010.

H.R. 4994, was introduced as Taxpayer Assistance Act of 2010. The bill passed the House, under suspension of the rules by a vote of 399-9 on Apr. 14, 2010. On Dec. 8, 2010 the bill passed the Senate with an amendment and an amendment to the Title: Medicare and Medicaid Extenders Act of 2010. The House agreed to the Senate amendments by a vote of 409-2 on Dec. 9, 2010. H.R. 4994 was signed into law by the President on Dec. 15, 2010 as P.L. 111-309.

Extensions

Physician payment update. Medicare physician payment rates are scheduled to be reduced by 25 percent on January 1, 2011. The Act reverses that reduction and extends current Medicare payment rates through December 31, 2011.

Extension of MMA section 508 reclassifications. The Act extends MMA section 508 reclassifications through FY 2011.

Extension of Medicare work geographic adjustment floor. Under prior law, the Medicare fee schedule was adjusted geographically for three factors to reflect differences in the cost of resources needed to produce physician services: physician work, practice expense, and medical malpractice insurance. This provision extends the existing 1.0 floor on the "physician work" index through December 31, 2011.

Extension of exceptions process for Medicare therapy caps. Prior law placed annual per beneficiary payment limits for all outpatient therapy services provided by non-hospital providers. The Secretary was required to implement an exceptions process for cases in which the provision of additional therapy services was determined to be medically necessary. The provision extends the therapy caps exception process through December 31, 2011.

Extension of payment for technical component of certain physician pathology services. The provision extends the ability of independent laboratories to receive direct payments for the technical component for certain pathology services through December 31, 2011.

Extension of ambulance add-ons. The provision extends the increased Medicare rates for ambulance services, including in super rural areas, through December 31, 2011.

Extension of physician fee schedule mental health add-on payment. The provision extends the five percent increase in payments for certain Medicare mental health services through December 31, 2011.

Extension of outpatient hold harmless provision. Under prior law, the outpatient hold harmless provision expired on December 31, 2010. This provision extends the

outpatient hold harmless provision through December 31, 2011.

Extension of Medicare reasonable costs payments for certain clinical diagnostic laboratory tests furnished to hospital patients in certain rural areas. Under prior law, laboratory services provided by certain rural hospitals receive reasonable cost reimbursement through July 1, 2011. This provision extends this policy until July 1, 2011..

Extension of the qualifying individual (QI) program. This program allows Medicaid to pay the Medicare part B premiums for low-income Medicare beneficiaries with incomes between 120 percent and 135 percent of poverty. The QI would have expired December 31, 2010.

Extension of Transitional Medical Assistance (TMA). Transitional Medical Assistance (TMA) allows low-income families to maintain their Medicaid coverage as they transition into employment and increase their earnings. TMA would have expired December 31, 2010.

Special Diabetes Programs. Funds research for type I diabetes and supports diabetes treatment and prevention initiatives for American Indians and Alaska Natives. The Special Diabetes Program (SDP) would have expired at the end of 2011, but early reauthorization is critical to the continuation of the existing research initiatives. This provision would extend the SDP for two years.

Other provisions

Clarification of effective date of part B special enrollment period for disabled TRICARE beneficiaries. Under prior law, disabled Medicare beneficiaries who are also eligible for TRICARE were eligible for a 12-month special enrollment period (SEP) for Medicare Part B in order to ensure that they properly enroll in Medicare Part B and retain their TRICARE eligibility. This provision clarifies the effective date of this SEP to ensure that beneficiaries can use it.

Repeal of delay of RUG-IV. Under prior law, implementation of Version four of the Resource Utilization Groups ("RUG IV") for purposes of reimbursing skilled nursing facilities under Medicare is delayed until October 1, 2011. The provision would repeal the delay and allow RUG IV to go into effect on October 1, 2010, consistent with the final SNF payment regulation for FY2011.

Clarification for affiliated hospitals for distribution of additional residency positions. The provision makes a technical correction to clarify that residency positions that are being shared between teaching hospitals under an "affiliation agreement" would not be redistributed to other hospitals.

Continued inclusion of orphan drugs in definition of covered outpatient drugs with respect to children's hospitals under the drug discount program. The provision makes a technical correction to ensure the continued inclusion of orphan drugs in the definition of covered

SUMMARIES OF BILLS AND RESOLUTIONS
ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

outpatient drugs with respect to children's hospitals under the 340B drug discount program.

Medicaid and CHIP technical corrections. The provision makes technical corrections to Medicaid and CHIP relating to exclusion from participation, income eligibility levels for children, measurement of payment error rates, coverage of children of state employees, and payment for electronic health records.

Funding for claims reprocessing. Extensions of Medicare payment policies for calendar year 2010 were enacted into law on March 23, 2010, requiring the Centers for Medicare & Medicaid Services (CMS) to reprocess Medicare claims back to January 1, 2010. The provision allocates funding for CMS to reprocess these claims.

Revision to the Medicare Improvement Fund. The Medicare Improvement Fund makes a limited amount of money available to make improvements to the Medicare program.

Limitations on aggregate amount recovered on reconciliation of the health insurance tax credit and the advance of that credit. Under prior law, if an individual's income turns out to be higher than the amount that was used to calculate the advanced premium tax credit, the individual must return part or all of the excess payment to the government. The amount repaid by the individual is limited to \$250 for individuals and \$400 for families for those at or below 400 percent of the Federal Poverty Level. This provision increases the existing limits of \$250 and \$400, and replaces the across-the-board structure with a scaled structure that starts with lower limits for those with lower incomes.

ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS**

H.R. 5486 (Mr. Levin); passed the House June 15, 2010.

H.R. 5486, to amend the Internal Revenue Code of 1986 to provide tax incentives for small business job creation, and for other purposes, passed the House on June 15, 2010 by a vote of 247-170. Pursuant to the provisions of H. Res. 1436, the rule for consideration of H.R. 5486, the bill was laid on the table and language was incorporated into H.R. 5297. See H.R. 5297 for further legislative action.

The bill would amend the Internal Revenue Code to increase from 50% to 100% the exclusion from gross income of the gain from the sale or exchange of qualified small business stock acquired after March 15, 2010, and before January 1, 2012. It would limit the penalty for failure to disclose a reportable transaction (a transaction determined by the Internal Revenue Service as having a potential for tax avoidance or evasion) to 75% of the decrease in tax resulting from such transaction. The bill would also require the Commissioner of Internal Revenue to report by December 31, 2010, and annually thereafter, to the House Committee on Ways and Means and the Senate Committee on Finance on penalties assessed for certain tax shelters and reportable transactions. H.R. 5486 would increase the tax deduction for trade or business start-up expenditures from \$5,000 to \$20,000 in 2010 and 2011.

H.R. 5552 (Mr. Kind with cosponsors); Public Law 111-237; app. Aug. 16, 2010.

The Act amends the Internal Revenue Code to require: (1) excise taxes on recreational equipment to be due and payable on the date for filing the return for such taxes (i.e., quarterly); and (2) the Secretary of the Treasury to assess and collect, in the same manner as delinquent taxes are assessed and collected, mandatory orders of restitution for victims of crime.

H.R. 5611; Public Law 111-197; app. July 2, 2010.

H.R. 5611, the Airport and Airway Extension Act of 2010, passed the House on June 29, 2010, under suspension of the rules, by voice vote. The Senate passed the bill, without amendment, by unanimous consent on June 30, 2010. H.R. 5611 was signed into law by the President on July 2, 2010 as P.L. 111-197.

The Act amends the Internal Revenue Code to extend through August 1, 2010 the increased excise taxes on

aviation fuels and the excise tax on air transportation of persons and property; and the expenditure authority for the Airport and Airway Trust Fund. The public law increases the authorization of appropriations for FY2010 for airport planning and development and noise compatibility planning projects. It extends through August 1, 2010, the authority of the Secretary of Transportation to make airport improvement project (AIP) grants.

The Act extends through August 1, 2010 the pilot program for passenger facility fee authorizations at non-hub airports; and disclosure requirements for large and medium hub airports applying for AIP grants. The Act directs the Secretary of Transportation to extend through August 1, 2010, the termination date of insurance coverage for domestic or foreign-flag aircraft. It grants the Secretary discretionary authority to further extend such coverage through October 31, 2010.

The Act extends through August 1, 2010 the grant eligibility for airports located in the Marshall Islands, Micronesia, and Palau; the grants to state and local governments for land use compatibility projects under the AIP; and the authority for approving an application of the Metropolitan Washington Airports Authority for an airport development project grant or for permission to impose a passenger facility fee.

The public law amends the Vision 100 Century of Aviation Reauthorization Act to extend through August 1, 2010 the temporary increase to 95% of the federal government's share of certain AIP project costs; and the funding for airport development at Midway Island Airport. The Act extends through August 1, 2010, and increases for the period beginning on October 1, 2009, the authorization of appropriations for: (1) Federal Aviation Administration (FAA) operations; (2) air navigation facilities and equipment; and (3) civil aviation research and development.

H.R. 5618 (Mr. McDermott with cosponsor); passed the House July 1, 2010.

H.R. 5618, the Restoration of Emergency Unemployment Compensation Act of 2010, passed the House on July 1, 2010 by a vote of 270-153. The bill would amend the Supplemental Appropriations Act, 2008 with respect to the state-established individual emergency unemployment compensation account (EUCA). It would extend the final date for entering a federal-state agreement under the Emergency Unemployment Compensation (EUC) program through November 30, 2010. It would postpone the termination of the program until April 30, 2011.

The legislation would amend the Assistance for Unemployed Workers and Struggling Families Act to extend until December 1, 2010, requirements that federal payments to states cover 100% of EUC.

SUMMARIES OF BILLS AND RESOLUTIONS
ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS

The bill would amend the Unemployment Compensation Extension Act of 2008 to exempt weeks of unemployment between enactment of this Act and April 30, 2011, from the prohibition in the Federal-State Extended Unemployment Compensation Act of 1970 against federal matching payments to a state for the first week in an individual's eligibility period for which extended compensation or sharable regular compensation is paid if the state law provides for payment of regular compensation to an individual for his or her first week of otherwise compensable unemployment. The legislation would amend the Supplemental Appropriations Act, 2008 to apply to claims for EUC payments the terms and conditions of state unemployment compensation law relating to availability of work, active search for work, and refusal to accept work.

The bill would require a state to determine whether an individual is to be paid EUC or regular compensation for a week of unemployment by using one of four specified methods if an individual has been determined to be entitled to EUC for a benefit year; that benefit year has expired; and such individual has remaining entitlement to EUC for that benefit year, and would qualify for a new benefit year in which the weekly benefit amount of regular compensation is at least either \$100 or 25% less than the individual's weekly benefit amount in such benefit year. The legislation would declare that federal-state agreements under which the state agency makes EUC payments to certain individuals shall not apply (or shall cease to apply) with respect to a state whose method for computing regular compensation under such state's law has been modified in a manner that reduces the average weekly benefit amount of regular compensation payable on or after June 2, 2010, to less than the average weekly benefit amount of regular compensation otherwise payable under the state law as in effect on such date.

H.R. 5623; (Mrs. Dahlkemper with cosponsors); Public Law 111-198; app. July 2, 2010.

H.R. 5623, the Homebuyer Assistance and Improvement Act of 2010, passed the House on June 29, 2010, under suspension of the rules, by a vote of 409-5. The Senate passed the bill on June 30, 2010, without amendment, by unanimous consent. H.R. 5623 was signed into law by the President on July 2, 2010 as P.L. 111-198.

The Homebuyer Assistance and Improvement Act of 2010 amends the Internal Revenue Code to extend the eligibility for the first-time homebuyer tax credit until September 30, 2010, for taxpayers who entered into a binding contract to purchase a principal residence before May 1, 2010. The Act extends the penalty for tendering a bad check to the Internal Revenue Service. The Act also authorizes the Secretary of the Treasury to disclose

prisoner tax return information to state agencies charged with the responsibility for administration of prisons.

The public law amends the Immigration and Nationality Act to extend through FY2015 the authority of the Secretary of Homeland Security (DHS) to collect a fee for the use of the electronic travel authorization system. The Act amends the Travel Promotion Act of 2009 to extend the implementation of such Act until after the collection of fees for use of the electronic travel authorization system and extend until FY2015 the authority of the Secretary of the Treasury to transfer such fees to the Corporation for Travel Promotion.

H.R. 5712; (Mr. Levin with cosponsors); Public Law 111-286; app. Nov. 30, 2010.

H.R. 5712, Veterans', Seniors', and Children's Health Technical Corrections Act, passed the House, under suspension of the rules, by voice vote on July 14, 2010. On Nov. 18, 2010, the Senate passed the bill with an amendment and an amendment to the title: The Physician Payment and Therapy Relief Act of 2010, by unanimous consent. On Nov. 28, 2010, the House agreed to the Senate amendment by voice vote. H.R. 5712 was signed into law by the President on Nov. 30, 2010 as P.L. 111-286.

A summary of the bill as passed the House follows.

The bill would provide for certain clarifications and extensions under Medicare, Medicaid and the Children's Health Insurance Program pertaining to veterans and other beneficiaries, as well as providers including skilled nursing facilities, teaching hospitals, and children's hospitals.

Clarification of effective date of Part B special enrollment period for disabled TRICARE beneficiaries—The bill would clarify that disabled veterans making Medicare Part B elections on and after March 23, 2010 would be eligible for a 12-month special enrollment period to ensure that they properly enroll in Medicare Part B and would retain their TRICARE eligibility.

Repeal of delay of RUG-IV—The legislation would ensure that a refined payment system reimbursing skilled nursing facilities (known as Version 4 of the Resource Utilization Groups, or "RUG IV") could be implemented on Oct. 1, 2010.

Addition of clarification for affiliated hospitals for distribution of residency positions—H.R. 5712 would make a technical correction to clarify that residency positions that are being shared between teaching hospitals under an "affiliation agreement" would not be redistributed to other hospitals. There are more than 300 hospitals in 36 states with affiliation agreements in place that are currently using these residency slots.

**SUMMARIES OF BILLS AND RESOLUTIONS
ON WHICH ACTION WAS TAKEN BY THE COMMITTEE ON WAYS AND MEANS**

Inclusion of orphan drugs for children's hospitals under the 340B drug discount program.—The bill would clarify that eligible children's hospitals would retain access to 340B drug discounts on orphan drugs.

Medicaid and CHIP technical corrections—The bill would make technical corrections to Medicaid and CHIP relating to exclusion from participation, income eligibility levels for children, measurement of payment error rates, coverage of children of state employees, and payment for electronic health records.

Funding for claims reprocessing—The bill would provide funding to CMS to implement a law enacted on March 23, 2010 that requires the Center on Medicare and Medicaid Services (CMS) to reprocess certain provider claims back to Jan. 1, 2010.

Extension of Section 508 reclassifications—The legislation would extend through FY 2011 hospital geographic reclassifications authorized under section 508 of the Medicare Modernization Act that otherwise expire on Sept. 30, 2010.

Revision to the Medicare Improvement Fund—The bill would ensure the overall bill is fully paid for by reducing the amount of funds otherwise available in the Medicare Improvement Fund.

A summary of the bill as enacted, The Physician Payment and Therapy Relief Act of 2010, follows.

Physician Payment and Therapy Relief Act of 2010 amends title XVIII (Medicare) of the Social Security Act to continue the existing 2.2% physician payment update that expires November 30, 2010, for an additional month through December 31, 2010. The Act applies a 20% reduction, rather than the current 25% reduction, in the discount for certain multiple therapy services furnished on or after January 1, 2011. The Act exempts reduced expenditures attributable to the multiple procedure payment reduction from budget-neutrality requirements.

H.R. 5900; (Mr. Oberstar with cosponsors); Public Law 111-216; app. Aug. 1, 2010.

The House agreed to the Senate amendment by a vote of 233 to 187 on Feb. 4, 2010. H.J.Res 45 was signed into law by the President on Feb. 12, 2010 as P.L. 111-139.

The public law increases the statutory limit on the public debt from \$12.394 trillion to \$14.294 trillion.

H.J.Res. 56 (Mr. Crowley with cosponsor); Public Law 111-42, app. July 28, 2009.

H.J.Res. 56, approving the renewal of import restrictions contained in the Burmese Freedom and Democracy Act of 2003, and for other purposes, passed the House on July 7, 2009, under suspension of the rules, by voice vote. The bill passed the Senate without amendment by unanimous consent on July 23, 2009. H.J.Res. 56 was signed into law by the President on July 28, 2009 as P.L. 111-42.

The Act Amends the Burmese Freedom and Democracy Act of 2003 to renew, for three years, the President's authority to ban the import of Burmese products, and approves the renewal of certain import restrictions.

The Act makes inapplicable to any installment of corporate estimated tax otherwise due after December 31, 2009, the percentages of estimated tax liability of corporations with at least \$1 billion in assets required by the Tax Increase Prevention and Reconciliation Act of 2005 for the third quarters of 2010 through 2013. In addition, the Act increases the estimated tax payments of such corporations in the third quarter of 2014 by .25%, and

reduces the fourth quarter installment to reflect such increase.

H.J.Res. 83 (Mr. Crowley with cosponsor); Public Law 111-210; app. July 27, 2010.

H.J.Res. 83, approving the renewal of import restrictions contained in the Burmese Freedom and Democracy Act of 2003, and for other purposes, passed the House on July 14, 2010, under suspension of the rules, by voice vote. The bill passed the Senate, without amendment on July 22, 2010. H.J.Res. 83 was signed into law by the President on July 27, 2010 as P.L. 111-210.

The Act approves the renewal of certain import restrictions contained in the Burmese Freedom and Democracy Act of 2003.

The Act amends the Hiring Incentives to Restore Employment Act to increase required estimated tax payments of corporations with at least \$1 billion in assets in the third quarter of 2015 by 0.25% to 121.75% of such amount, and declares that the budgetary effects of this Act, for the purpose of complying with the Statutory Pay-As-You-Go Act of 2010, shall be determined by reference to "Budgetary Effects of PAYGO Legislation" for this Act.

H.Res. 391 (Mr. McDermott with cosponsor); passed the House May. 6, 2009.

H.Res. 391, recognizing May as "National Foster Care Month" and acknowledging that the House of Representatives should continue to work to improve the Nation's foster care system, passed the House, under suspension of the rules, on May 6, 2009 by voice vote. The resolution supports the designation of a National Foster Care Month, and acknowledges the needs of children in the foster care system. The measure honors the commitment and dedication of those individuals who work tirelessly to provide assistance and services to children in the foster care system.

The bill recognizes the need to continue work to improve outcomes of all children in the foster care system through the title IV program in the Social Security Act and other programs designed to: (1) help children in the foster care system reunite with their biological parents; and (2) find them a permanent, safe, and loving home when they are unable to return to their biological parents.

H.Res. 831 (Ms. Brown-Waite with cosponsor); passed the House Oct. 10, 2009.

H.Res. 831, supporting the goals and ideals of National Adoption Day and National Adoption Month by

promoting national awareness of adoption and the children in foster care awaiting families, celebrating children and families involved in adoption, recognizing current programs and efforts designed to promote adoption, and encouraging people in the United States to seek improved safety, permanency, and well-being for all children, passed the House, under suspension of the rules, by voice vote on Oct. 28, 2009.

The Resolution supports the goals and ideals of National Adoption Day and National Adoption Month. In addition, it recognizes that every child in foster care deserves a permanent and loving family and the significant commitment of taxpayers to support adoption.

H.Res. 1127 (Mr. Doggett); passed the House Mar. 3, 2010.

H.Res. 1127, expressing concern regarding the suicide plane attack on Internal Revenue Service employees in Austin, Texas, passed the House, under suspension of the rules, by a vote of 408-2. The bill condemns the suicide plane attack against the Internal Revenue Service (IRS) in Austin, Texas, on Feb. 18, 2010, and commends IRS employees for their dedication and public service. It honors Vernon Hunter, a victim of the attack, Shane Hill, who suffered severe injuries, and all those who were injured while serving their country. The Act recognizes the heroic actions of the first responders, emergency services personnel, IRS employees, and citizens on the ground, such as Robert De Haven, whose actions minimized the loss of life. The bill rejects any statement or act that incites hatred or expresses sympathy for those who would attack public employees.

H.Res. 1339 (Mr. McDermott with cosponsors); passed the House May 20, 2010.

H.Res. 1339, expressing support for designation of May as National Foster Care Month and acknowledging the responsibility that Congress has to promote safety, well-being, improved outcomes, and permanency for the Nation's collective children, passed the House, under suspension of the rules, on May 20, 2010 by voice vote.

The bill supports the designation of May as National Foster Care Month.

H.Res. 1481, supporting the goals and ideals of "National Save for Retirement Week", including raising public awareness of the various tax-preferred retirement

vehicles and increasing personal financial literacy, passed the House, under suspension of the rules by voice vote on July 28, 2010.

The Resolution supports the goals and ideals of National Save for Retirement Week, including raising public awareness of: (1) tax-preferred retirement vehicles for personal savings and retirement financial security; (2) the availability of a variety of ways to save for retirement favored under the Internal Revenue Code; and (3) saving for retirement and the availability of tax-preferred employer-sponsored retirement savings vehicles.

H.Res. 1595 (Mr. Levin with cosponsors); passed the House Sept. 15, 2010.

H.Res. 1595, recognizing the 50th anniversary of the passage of legislation that created real estate investment trusts (REITs) and gave millions of Americans new investment opportunities that helped them build a solid foundation for retirement security and has contributed to the overall strength of our economy, passed the House, under suspension of the rules, by voice vote on Sept. 15, 2010.

H. Res. 1595 recognizes the 50th anniversary of the passage of the legislation that created real estate investment trusts (REITs) and the enhanced opportunities for investment and retirement security that have been afforded to Americans as a result of this landmark legislation.

H.Res. 1653 (Mr. Levin); passed the House Sept. 23, 2010.

H.Res. 1653, returning several measures to the Senate, passed the House, without objection on Sept. 23, 2010.

The resolution returns to the Senate specified bills, (S. 951, S. 1023, S. 2799, S. 3162, and S. 3187), including the Senate amendment to H.R. 5875 (Emergency Border Security Supplemental Appropriations Act, 2010), because, in the opinion of the House of Representatives, they contravene the Constitution and infringe upon the privileges of the House.

S. 735 (Senator Baucus with cosponsor); Public Law 111-20; app. May 15, 2009.

S. 735, Protecting Incentives for the Adoption of Children with Special Needs Act of 2009, passed the Senate, without amendment, by unanimous consent on Apr. 3, 20089. The House agreed to the measure, under suspension of the

rules, by voice vote on Apr. 29, 2009. S. 735 was signed into law by the President on May 15, 2009 as P.L. 111-20. The Act amends the Omnibus Appropriations Act of 2009 to repeal the limitation on FY2008 adoption incentive payments to States to the same manner as such incentives were awarded in FY2008 for the previous fiscal year.

S. 2949 (Senator Baucus with cosponsors); Public Law 111-127; app. Jan. 27, 2010.

S. 2949, Emergency Aid to American Survivors of the Haiti Earthquake Act, passed the Senate by unanimous consent on Jan. 25, 2010. The House agreed to the bill, under suspension of the rules, by voice vote on Jan. 26, 2010. S. 2949 was signed into law by the President on Jan. 27, 2010 as P.L. 111-127.

The public law amends title XI of the Social Security Act to increase the funding cap under the US Repatriation Program to \$25 million for FY 2010 for temporary assistance to US citizens returning from foreign countries in the event of destitution, illness, war, threat or war, invasion or similar crisis.

The Act also amends SSA title XIX (Medicaid) to provide \$65 million for Medicare part B premium costs for low-income seniors.

S. 3774 (Senator Cornyn with cosponsors); Public Law 111-285; app. Nov. 24, 2010.

S. 3774, A bill to extend the deadline for Social Services Block Grant expenditures of supplemental funds appropriated following disasters occurring in 2008, passed the Senate, with amendments, by unanimous consent on Sept. 29, 2010. The House passed the bill, under suspension of the rules by a vote of 366-40, on Nov. 18, 2010. S. 3774 was signed into law by the President on Nov. 24, 2010 as P.L. 111-285.

The Act extends through FY2011 the deadline for state expenditure of certain emergency supplemental appropriations to the Department of Health and Human Services for the Administration for Children and Families provided for recovery from Hurricanes Ike and Rita and other 2008 natural disasters.
