TITLE II

Sec. 201. This title may be cited as the "Small Business Act of 1953".

Sec. 202. The essence of the American economic system of private enterprise is free competition. Only through full and free competition can free markets, free entry into business, and opportunities for the expression and growth of personal initiative and individual judgment be assured. The preservation and expansion of such competition is basic not only to the economic well-being but to the security of this Nation. Such security and well-being cannot be realized unless the actual and potential capacity of small business is encouraged and developed. It is the declared policy of the Congress that the Government should aid, counsel, assist, and protect insofar as is possible the interests of small-business concerns in order to preserve free competitive enterpise, to insure that a fair proportion of the total purchases and contacts for supplies andd services for the Government be placed with small-business enterprises, and to maintain and strengthen the overall economy of the Nation.

Further, it is the declared policy of the Congress that the Government should aid and assist victims of floods or other catastropes.

Sec. 203. For the purposes of this title, a small-business concern shall be deemed to be one which is independently owned and operated and which is not dominant in its field of operation. In addition to the foregoing criteria the Administration, in making a detailed definition, may use these criteria, among others: Number of employees and dollar volume of business.

Sec. 204. (a) In order to carry out the policies of this title there is hereby created an agency under the name "Small Business Administration" (herein referred to as the Administration), which Administration shall be under the general direction and supervision of the President and shall not be affiliated with or be within any other agency or department of the Federal Government. The principal office of the Administration shall be located in the District of Columbia, but the Administration may establish such branch offices in other places in the United States as may be determined by the Administrator of the Administration.

(b) The Administration is authorized to obtain money from the Treasury of the United States for use in the performance of the powers and duties granted to or imposed upon it by law, not to exceed a total of $275,000,000 outstanding at any one time. Advances shall be made to the Administration from the revolving fund when requested by the Administration. This revolving fund shall be used for the purposes enumerated subsequently in section 207 (a), (b), (c), and (d). Not to exceed an aggregated of $25,000,000 shall be outstanding at any one time for the purposes enumerated in section 207 (b). Not to exceed an aggregate of $100,000,000 shall be outstanding at any one time for the purposes enumerated in sections 207 (c) and (d). The Administration shall pay into miscellaneous receipts of the Treasury at the close of each fiscal year, interest on the amount of advances outstanding at a rate determined by the Secretary of the Treasury, taking into consideration the current average rate on outstanding interest-bearing marketable public debt obligations of the United States of comparable maturities.

(c) The management of the Administration shall be vested in an Administrator who shall be appointed from civilian life by the President, by and with the advice and consent of the Senate, and who shall be a person of outstanding qualifications known to be familiar and sympathetic with small-business needs and problems. The Administrator shall receive compensation at the rate of $17,500 per annum. The Administrator shall not engage in any other business, vocation, or employment than that of serving as Administrator. The Administrator is authorized to appoint three deputy administrators to assist in the execution of the functions vested in the Administration. Deputy administrators shall be paid at the rate of $15,000 per annum.

(d) There is hereby created the Loan Policy Board of the Small Business Administration, which shall consist of the following members, all ex officio: The Administrator, as Chairman, the Secretary of the Treasury, and the Secretary of Commerce. Either of the said Secretaries may designate an officer of his Department, who has been appointed by the President by and with the advice and consent of the Senate, to act in his stead as a member of the Loan Policy Board with respect to any matter or matters. The Loan Policy Board shall establish general policies (particularly with reference to the public interest involved in the granting and denial of applications for financial assistance by the Administration and with reference to the coordination of the functions of the Administration with other activities and policies of the Government) which shall govern the granting and denial of applications for financial assistance by the Administration.

Sec. 205. (a) The Administration shall have power to adopt, alter, and use a seal, which shall be judicially noticed. The Administrator is authorized, subject to the civil-service and classification laws, to select, employ, appoint, and fix the compensation of such officers, employees, attorneys, and agents as shall be necessary to carry out the provisions of this title; to define their authority and duties, require bonds of them, and fix the penalties thereof. Nothing in this section shall be construed to prevent the Administrator from delegating such power by order or by power of attorney, in his discretion, to any officer or agent he may appoint;

S. C. 5).

Sec. 206. (a) All moneys of the Administration not otherwise employed may be deposited with the Treasurer of the United States subject to check by authority of the Administration. Sec. 220. To the fullest extent the Administration deems practicable, it shall make a fair charge for the use of Government-owned property and make and let contracts on a basis that will result in a recovery of the direct costs incurred by the Administration.

Sec. 221. (a) This title and all authority conferred thereunder shall terminate at the close of June 30, 1955, but the President may continue the Administration for purposes of liquidation for not to exceed six months after such termination.

(b) The termination of this title shall not affect the disbursement of funds under, or the carrying out of, any contract, commitment, or other obligation entered into pursuant to this title prior to the date of such such termination, or the taking of any action necessary to preserve or protect the interests of the United States.

Sec. 222. There are hereby authorized to be appropriated such sums as may be necessary and appropriate for the carrying out of the provisions and purposes of this Act.

Sec. 223. If any provision of this Act, or the application thereof to any person or circumstances, is held invalid, the remainder of this Act, and the application of such provision to other persons or circumstances, shall not be affected thereby.

DISPOSAL OF GOVERNMENT-OWNED RUBBER PLANTS

Mr. CAPEHART submitted the following conference report:

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H. R. 5728) to authorize the disposal of the Government-owned rubber-producing facilities, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

That this Act shall be known as the "Rubber Producing Facilities Disposal Act of 1953".

Sec. 2. It is hereby declared that disposal of the Government-owned rubber-producing facilities pursuant to the provisions of this Act is consistent with the national security and will further effectuate the policy set forth in section 2 of the Rubber Act of 1948, as amended (62 Stat. 101, 50 U. S. C. App. 1921), with respect to the development within the United States of a free, competitive, synthetic rubber industry.

Sec. 3. (a) There is hereby established a Rubber Producing Facilities Disposal Commission, hereinafter referred to as the Commission, to be composed of three persons, to be appointed by the President. Members of the Commission shall be appointed from civilian life and shall receive compensation at the rate of $50 per diem for each day engaged in the business of the Commission, and shall be allowed transportation and a per diem of $9 while away from their homes or places of business pursuant to such business. No person who is employed in or at any time since January 1, 1950, has been an employee of, or who receives a substantial part of his income from, the rubber or petroleum industry, or that part of the chemical industry which supplies, or is capable of supplying, feedstocks for the manufacture of synthetic rubber, shall serve as a Commissioner.

(b) With respect to the Government-owned rubber-producing facilities it shall be the duty of the Commission, and it is authorized in accordance with the provisions of this Act (1) to invite and receive proposals for the purchase of the facilities; to negotiate for their sale and make recommendations therefor to the Congress; to enter into appropriate contracts for their sale, which contracts shall be binding upon the Government and the prospective purchasers upon their execution subject only to the further provisions of this Act; and in the performance of such contracts to execute and deliver such deeds or other instruments appropriate to effectively transfer to the purchaser thereof title to the facilities, no matter by what officer, agent, department, Government corporation, or instrumentality of the United States the same is held; (2) to lease and thereunder deliver possession of the alcohol butadiene facilities, if practicable; and (3) to take such action and exercise such powers as may be necessary or appropriate to effectuate the purposes of this Act.

(c) From the time of its appointment and throughout the course of the performance of its duties, the Commission shall consult and advise with the Attorney General in order (1) to secure guidance as to the type of disposal program which would best foster the development of a free competitive synthetic rubber industry not in violation of the antitrust laws, and (2) to supply the Attorney General with such information as he may deem requisite to enable him to provide the advice contemplated by this section and sections 9 (a) (4) and 9 (f) of this Act.

(d) Nothing in this Act shall impair, amend, or modify the antitrust laws or limit and prevent their application to persons who acquire property under the provisions of this Act. As used in this section, the term "antitrust laws" includes the Act of July 2, 1890 (ch. 647, 26 Stat. 209), as amended; the Act of October 15, 1914 (ch. 323, 38 Stat. 730), as amended; the Federal Trade Commission Act; and the Act of August 27, 1894 (ch. 349, secs. 73, 74, 28 Stat. 570), as amended.

Sec. 4. The Commission shall be furnished upon its request all available information concerning the Government-owned rubber-producing facilities in the possession of any department, agency, officer, Government corporation, or instrumentality of the United States concerned with Government-owned rubber-producing facilities.

Sec. 5. The Commission shall proceed as promptly as practicable, conducting such hearings as may be necessary, with the disposal of the rubber-producing facilities in compliance with the provisions of this Act.

Sec. 6. (a) Without regard to the civil-service laws or the Classification Act of 1949, the Commission shall be authorized to employ professional, clerical, and stenographic assistance, and shall be further authorized to request and, with the consent of the head of any department, agency, Government corporation, or instrumentality of the United States concerned with the Government-owned rubber-producing facilities, receive the assistance of any employee thereof: Provided, That rates of pay for personnel employed by the Commission shall be in accordance with the Classification Act of 1949.

(b) No member of the Commission and no person employed by the Commission as an attorney, agent, or employee in activities involving discretion with respect to negotiations or contracts of sale of the Government-owned rubber-producing facilities, shall, during the period of such employment, or for a period of two years thereafter, be employed in any capacity by any purchaser, or affiliate thereof. No purchaser or affiliate thereof shall employ in any capacity any person, who has served as a member of the Commission or who was employed by the Commission and served the Commission as an attorney, agent, or employee in activities involving discretion with respect to negotiations or contracts of sale of the Government-owned rubber-producing facilities, while any such person is serving as a member or employee of the Commission or for a period of two years thereof. Any person violating the provisions of this subsection shall be fined not more than $10,000 or imprisoned not more than one year, or both.

Sec. 7. (a) The Commission shall invite, upon adequate notice and advertisement, proposals for the purchase of the Government-owned rubber-producing facilities, hereafter referred to as the "facilities". The period for the receipt of proposals shall be determined and publicly announced by the Commission, and in no event shall be less than six months after the first day on which proposals may be received pursuant to the advertisement. The advertisement shall be in such form, contain such specifications and reservations, and be published in such manner as the Commission in its discretion determines will best effectuate the purposes of this Act. All data concerning such facilities which in the judgment of the Commission may be reasonably required for the submission of a bona fide proposal shall be furnished by the Commission upon request by any prospective purchaser unless the Commission has reason to believe that such prospective purchaser has not identified his principal, or is not financially responsible, or is a poor security risk.

(b) Proposals shall be in writing, and shall contain, among other things—

(1) identification of the person in whose behalf the proposal is submitted, including the business affiliation of such person;

(2) the facility or facilities which are proposed to be purchased, and the order of preference if more than one facility is proposed to be purchased; or the order of preference if proposals are submitted on more than one facility, if only one facility is proposed to be purchased;

(3) the arrangements or plans, if any, formal or informal, for the supply of feedstock to, and the disposition of the end products of, the respective facilities proposed to be purchased;

(4) the amount proposed to be paid for each of the facilities, and, if such amount is not to be paid in cash, then the principal terms of the financing arrangement proposed;

(5) the general terms and conditions which the prospective purchaser of a copolymer facility would be willing to accept in order to make the end product of such facility available for sale to small business enterprises, and the general terms and conditions which the prospective purchaser of a butadiene or styrene facility would be willing to accept in order to make the end product of such facility available for sale to purchasers of copolymer facilities; and

(6) such other information as the Commission in its notice and advertisement for proposals shall require be set forth in proposals including the prospective purchaser's acceptance of the terms, conditions, restrictions and reservations contained in subsection (h) of this section, and the interest rate to be charged on the purchase-money mortgage referred to in subsection (e) of this section.

(c) Should it become necessary to the effective prosecution of the disposal program, the Commission may, after the termination of the period for the submission of proposals provided for in subsection (a) of this section, disclose the contents of the proposals at such time, in such manner, and to such extent as it deems appropriate.

(d) Proposals shall be accompanied by a deposit of cash or United States Government bonds of face amount equal to 2½ per centum of the gross amount proposed to be paid but not exceeding $250,000 for each facility: Provided, however, That the deposit required in the case of a proposal for one of a number of facilities on an alternative basis shall be the same as would be required if such proposal were for only the facility for which the particular prospective purchaser proposed to pay the highest amount. Except in the case of purchasers, deposits made hereunder shall be refunded without interest and not later than upon the termination of the period for congressional review as provided in section 9 of this Act. In the case of purchasers, deposits made hereunder shall be applied without interest to the purchase price: Provided, however, That upon the closing of the contract of sale the purchaser shall be required to substitute cash equal to the face amount of the Government bonds then held in connection with such purchaser's proposal.

(e) Payment of the purchase price may be made in part by a first lien purchase-money mortgage, in an amount not to exceed 75 per centum of the purchase price. The terms of any such mortgage obligation, to be determined by negotiation, shall provide among other things for a maturity of not more than ten years, periodic amortization, and a uniform interest rate of not less than 3 per centum per annum.

(f) Promptly after the termination of the period for the receipt of proposals, pursuant to subsection (a) of this section, and for such period thereafter not less than seven months as may be determined and publicly announced by the Commission, it shall negotiate with those submitting proposals for the purpose of entering into definitive contracts of sale.

(g) Nothing contained in this Act shall be construed to prevent the Commission from securing such additional information from those submitting proposals at any time as the Commission may deem necessary or appropriate to fulfill its responsibilties under this Act.

(h) All contracts of sale and instruments in execution thereof shall contain a national security clause having terms, conditions, restrictions and reservations which will assure the prompt availability of the rubber-producing facilities, or facilities of equivalent capacity, for the production of synthetic rubber and the component materials thereof for a period of ten years from the date of the contract.

(i) All contracts of sale shall become fully effective upon the expiration of the period for congressional review provided for in section 9 of this Act if the Congress within such period has not disapproved the report of the Commission. The transfer of possession of all of the rubber-producing facilities to be sold shall be made as promptly as is practicable after the effective date, in accordance with the terms of the contracts, but in any event within a period terminating sixty days after the expiration of the period for congressional review as provided in section 9 (b) of this Act. The failure to complete transfer of possession prior to said termination date shall not give rise to or be the basis of recission of the contract of sale.

(j) Upon termination of the transfer period, as provided in subsection (i) of this section, the operating agency last designated by the President shall make no further sales of synthetic rubber and its component materials except as otherwise provided in this Act.

(k) During the period of one year following the termination of the transfer period, the operating agency last designated by the President shall offer for sale to the purchasers of the facilities the synthetic rubber and its component materials held by it at a price determined in accordance with its pricing policy prevailing at the close of the transfer period, in amounts prorated in accordance with the ratio of the capacity of each such facility purchased to the total capacity of all facilities of the same type sold. Any synthetic rubber or component materials not purchased by an eligible purchaser during periodic intervals, as determined by the operating agency, shall be made available to other eligible purchasers on a like equitable basis. Any synthetic rubber or component materials not sold during such one-year period shall thereafter be disposed of in such manner as said agency deems advisable.

Sec. 8. (a) Upon the termination of the transfer period, the operating agency last designated by the President, shall, as promptly as possible consistent with sound operating procedures, take out of production and place in adequate standby condition the rubber-producing facilities which shall not have been sold. At any time after the termination of production, such facilities may be transferred without reimbursement or transfer of funds to the General Services Administration and administered in accordance with the provisions of sections 6, 7, and 8 of the National Industrial Reserve Act of 1948, as amended (62 Stat. 1227, 50 U. S. C. 456–458) or to such other agency as the President may designate for administration in such manner as he may direct. In such event (1) no such facility shall thereafter be operated as a rubber-producing facility for the account of, or by, the Government except pursuant to further Act of Congress; (2) no such facility, other than alcohol-butadiene facilities, shall be leased for operation as a rubber-producing facility at any time: Provided, That nothing contained in this Act shall preclude the leasing of alcohol-butadiene facilities for purposes other than after the manufacture of alcohol butadiene so long as such leases are in accordance with the provisions of section 8 (a) or section 9 (f) of this Act; and (3) no such facility shall be disposed of by sale within a period of three years from the termination of the transfer period, and in any subsequent lease or sale, the Government agency acting under authority of this section shall within a reasonable time and in no event less than sixty days prior to the lease or sale, request the advice of the Attorney General as to whether the proposed lease or sale would tend to create or maintain a situation inconsistent with the antitrust laws. The Attorney General shall give his advice within forty-five days of the receipt of such request. Upon the request of the Attorney General, the Government agency shall furnish, or cause to be furnished, such information as it may possess which the Attorney General determines to be appropriate or necessary to enable him to give the advice called for by this section.

(b) Whenever any transfer to any Government agency is made pursuant to this section, all unexpended funds budgeted as provided in section 9 (e) for standby and maintenance in such condition shall also be transferred.

Sec. 9. (a) Not later than thirty days after the termination of the negotiating period provided in section 7 of this Act, and in no event later than January 31, 1955, the Commission shall prepare and submit to the Congress a report setting forth—

(1) the steps taken to elicit proposals and the proposals which have been received;

(2) the principal terms of all sales contracted for and the Commission's recommendations in respect thereto;

(3) in the event that there may have been a financially more advantageous proposal for any rubber-producing facility than the sale recommended, a statement of the reasons why such sale is nevertheless proposed;

(4) a statement from the Attorney General setting forth his advice with respect to the proposed disposals in accordance with the standards set forth in section 3 (c) of this Act;

(5) the program to be followed to place in standby condition the rubber-producing facilities not sold;

(6) an inventory report concerning the Government's current stocks of synthetic rubber and its component materials;

(7) a program for the continuance, to the extent it deems necessary, during the fiscal year following the fiscal year in which the transfer period terminates, of the research program on synthetic rubber and its component materials then being carried on by the operating agency; and

(8) the names of persons who have represented the Government or the purchasers in conducting negotiations or in making contracts for disposal of the rubber-producing facilities.

(b) The report shall be submitted to both Houses of Congress on the same day. Upon the expiration of thirty days of continuous session of the Congress following the date upon which the report is submitted to it, the Commission shall proceed to carry out the contracts and proposals, as outlined in its report, unless the report is disapproved by either House of Congress by a resolution within the thirty-day period.

(c) For the purposes of subsection (b) of this section—

(1) continuity of session shall be considered as broken only by an adjournment of the Congress sine die; but

(2) in the computation of the thirty-day period there shall be excluded the days on which either House is not in session because of an adjournment of more than three days to a day certain.

(d) No rubber-producing facility shall be sold or leased except in accordance with this Act, or in accordance with section 7 (d) (4) of the Rubber Act of 1948, as amended.

(e) Such sums as may be required for the foregoing purposes may be provided out of the proceeds of disposal, and annual budgets for the expenses necessary for such purposes shall be submitted in accordance with the Government Corporation Control Act of 1945, as amended (59 Stat. 579, 31 U. S. C. 841).

(f) Notwithstanding any other provisions of this Act, the Commission may, after securing the advice of the Attorney General as to whether the proposed lease would tend to create or maintain a situation inconsistent with the antitrust laws, enter into leases for the alcohol-butadiene facilities for a period of not less than one year, nor more than three years: Provided, That any such lease shall contain among other things (1) a national security clause, and (2) provisions for the recapture of such facilities by the Government and the termination of the lease, if the President determines that the national interest so requires. Not less than sixty days prior to said lease the Commission shall request such advice from the Attorney General who shall give the same within forty-five days of the receipt of such request.

Sec. 10. At the expiration of one year after the transfer period or as soon thereafter as the Congress is in session, the President shall report to the Congress concerning the Nation's rubber requirements and resources, and the need, if any, for further research by the Government relative to the production or use of synthetic rubber and its component materials.

Sec. 11. The term "rubber-producing ficilities" as used in this Act shall not include the Government-owned evaluation laboratory at Akron, Ohio.

Sec. 12. All final net proceeds from disposal of the rubber-producing facilities shall be covered into the Treasury as miscellaneous receipts except as otherwise provided by this Act.

Sec. 13. The sales, leases, or other dispositions made prior to the enactment of this Act, pursuant to section 9 (b) of the Rubber Act of 1948, as amended, shall not be affected by this Act.

Sec. 14. Notwithstanding the provisions of section 20 of the Rubber Act of 1948, as amended, (1) if no report is submitted by the Commission, or if the report submitted by the Commission pursuant to section 9 of this Act is disapproved by either House of the Congress, as provided in this Act, then the Rubber Act of 1948, as amended, shall be extended until March 31, 1956; and (2) if the Commission submits a report and it is not disapproved by either House of the Congress, the Rubber Act of 1948, as amended, shall terminate at the termination of the transfer period as provided in section 7 (i) of this Act.

Sec. 15. Thirty days following the receipt of proposals, as provided in section 7 of this Act, the Commission shall submit to the Congress a report stating the amount of funds expended by or obligated by the operating agency for the repair, replacement, additions, improvements, or maintenance of each synthetic rubber-producing facility for which proposals have been submitted. Thereafter reports shall be made monthly until such time as the Congress shall have permitted or disapproved the disposal recommended by the Commission.

Sec. 16. In arriving at its recommendations for the disposal of the facilities the Commission shall use, as the basis for negotiating the sale of each facility the highest amount proposed to be paid for each facility, if, in the opinion of the Commission, the highest amount proposed to be paid was a bona fide proposal and was submitted by a person competent to operate a rubber-producing facility: Provided, That the words "competent to operate a rubber-producing facility" shall not be interpreted so as to require prior experience in the operation of a rubber-producing facility: Provided further, That in using such highest proposed amount as a basis for negotiations the Commission may negotiate with respect to any facility with any person who submitted a proposal on that or any similar facility and may recommend sale of any facility to any person who submitted a proposal on that or any similar facility at a price which is equal to, higher than, or lower than the highest amount proposed to be paid for each facility as the Commission determines will best effectuate the purposes of this Act.

Sec. 17. The following criteria, together with such other criteria as the Commission deems necessary or desirable to best effectuate the purposes of this Act, shall be used by the Commission in arriving at its recommendations for disposal:

(1) That the disposal program be designed best to afford small business enterprises and users, other than the purchaser of a facility, the oportunity to obtain a fair share of the end products of the facilities sold at fair prices;

(2) That the prospective purchaser has the technical competence necessary to operate a rubber-producing facility, except that prior experience in operating a rubber-producing facility shall not be required as a basis for determinging whether a prospective purchaser has the technical competence necessary to operate a rubber-producing facility;

(3) That the recommended sales shall provide for the development within the United States of a free, competitive, synthetic rubber industry, and do not permit any persons to possess unreasonable control over the manufacture of synthetic rubber or its component materials;

(4) That the prospective purchaser is acting in good faith, and actually intends to operate the facility or facilities for the purposes of manufacturing synthetic rubber or its component materials;

(5) That full fair value for the facility or facilities will be received by the Government, taking into consideration the policy set forth in section 2 of this Act;

(6) That disposal of the facility or facilities to the purchasers is consistent with national security; and

(7) That the facilities recommended for sale will in the aggregate be capable of annually producing not less than five hundred thousand long tons of general-purpose synthetic rubber, and not less than forty-three thousand long tons annually of butyl rubber.

Sec. 18. Unless otherwise provided in this Act, the disposal of the Government-owned rubber-producing facilities shall be authorized notwithstanding the provisions of the Rubber Act of 1948, as amended.

Sec. 19. (2) Such motion may be made only by a person favoring the resolution, shall be highly privileged (except that it may not be made after the committee has reported a resolution), and debate thereon shall be limited to not to exceed one hour, to be equally divided between those favoring and those opposing the resolution. Mr. MALONE, by unanimous consent, submitted the following concurrent resolution (S. Con. Res. 49); which was referred to the Committee on Finance:

Whereas the public debt has reached an amount close to the public debt limit as set by action of the Congress; and

Whereas an exceeding of such statutory public debt limit would cause the value of Government obligations and money to decline, and would reflect seriously upon the integrity of the American economy; and

Whereas it is difficult to ascertain the exact amount of the public debt to any instant so that it may be possible, though inadvertently, to issue Government obligations in excess of the statutory public debt limit unless great care, is exercised to prevent such violation of law: Therefore be it

Resolved by the Senate (the House of Representatives concurring), That it is the sense of the Congress that (1) the public debt does not exceed the statutory limit of $275 billion; and (2) the heads of various departments and agencies in the executive branch of Government take such action as may be necessary to keep the rate of expenditures during the current fiscal year below the danger point where any inadvertent exceeding of the statutory debt limit may occur; and (3) the Secretary of the Treasury be directed to exercise such close supervision over public-debt transactions as to preclude the possibility of such violation.

AMENDMENT OF SUBMERGED LANDS ACT

Mr. CORDON submitted the following conference report:

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the

bill (H. R. 5134) to amend the Submerged Lands Act, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate to the text of the bill and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following: *That this Act may be cited as the "Outer Continental Shelf Lands Act".*

Sec. 2. Definitions.—When used in this Act—

(a) The term "outer Continental Shelf" means all submerged lands lying seaward and outside of the area of lands beneath navigable waters as defined in section 2 of the Submerged Lands Act (Public Law 31, Eighty-third Congress, first session), and of which the subsoil and seabed appertain to the United States and are subject to its jurisdiction and control;

(b) The term "Secretary" means the Secretary of the Interior;

(c) The term "mineral lease" means any form of authorization for the exploration for, or development or removal of deposits of, oil, gas, or other minerals; and

(d) The term "person" includes, in addition to a natural person, an association, a State, a political subdivision of a State, or a private, public, or municipal corporation.

Sec. 3. Jurisdiction Over Outer Continental Shelf.—(a) It is hereby declared to be the policy of the United States that the subsoil and seabed of the outer Continental Shelf appertain to the United States and are subject to its jurisdiction, control, and power of disposition as provided in this Act.

(b) This Act shall be construed in such manner that the character as high seas of the waters above the outer Continental Shelf and the right to navigation and fishing therein shall not be affected.

Sec. 4. Laws Applicable to Outer Continental Shelf.—(a) (1) The Constitution and laws and civil and political jurisdiction of the United States are hereby extended to the subsoil and seabed of the outer Continental Shelf and to all artificial islands and fixed structures which may be erected thereon for the purpose of exploring for, developing, removing, and transporting resources therefrom, to the same extent as if the outer Continental Shelf were an area of exclusive Federal jurisdiction located within a State: Provided, however, That mineral leases on the outer Continental Shelf shall be maintained or issued only under the provisions of this Act.

(2) To the extent that they are applicable and not inconsistent with this Act or with other Federal laws and regulations of the Secretary now in effect or hereafter adopted, the civil and criminal laws of each adjacent State as of the effective date of this Act are hereby declared to be the law of the United States for that portion of the subsoil and seabed of the outer Continental Shelf, and artificial islands and fixed structures erected thereon, which would be within the area of the State if its boundaries were extended seaward to the outer margin of the outer Continental Shelf, and the President shall determine and publish in the Federal Register such projected lines extending seaward and defining each such area. All of such applicable laws shall be administered and enforced by the appropriate officers and courts of the United States. State taxation laws shall not apply to the outer Continental Shelf.

(3) The provisions of this section for adoption of State law as the law of the United States shall never be interpreted as a basis for claiming any interest in or jurisdiction on behalf of any State for any purpose over the seabed and subsoil of the outer Continental Shelf, or the property and natural resources thereof or the revenues therefrom.

(b) The United States district courts shall have original jurisdiction of cases and controversies arising out of or in connection with any operations conducted on the outer Continental Shelf for the purpose of exploring for, developing, removing or transporting by pipeline the natural resources, or involving rights to the natural resources of the subsoil and seabed of the outer Continental Shelf, and proceedings with respect to any such case or controversy may be instituted in the judicial district in which any defendant resides or may be found, or in the judicial district of the adjacent State nearest the place where the cause of action arose.

(c) With respect to disability or death of an employee resulting from any injury occurring as the result of operations described in subsection (b), compensation shall be payable under the provisions of the Longshoremen's and Harbor Workers' Compensation Act. For the purposes of the extension of the provisions of the Longshoremen's and Harbor Workers' Compensation Act under this section—

(1) the term "employee" does not include a master or member of a crew of any vessel, or an officer or employee of the United States or any agency thereof or of any State or foreign government, or of any political subdivision thereof;

(2) the term "employer" means an employer any of whose employees are employed in such operations; and

(3) the term "United States" when used in a geographical sense includes the outer Continental Shelf and artificial islands and fixed structures thereon.

(d) For the purposes of the National Labor Relations Act, as amended, any unfair labor practice, as defined in such Act, occurring upon any artificial island or fixed structure referred to in subsection (a) shall be deemed to have occurred within the judicial district of the adjacent State nearest the place of location of such island or structure.

(e) (1) The head of the Department in which the Coast Guard is operating shall have authority to promulgate and enforce such reasonable regulations with respect to lights and other warning devices, safety equipment, and other matters relating to the promotion of safety of life and property on the islands and structures referred to in subsection (a) or on the waters adjacent thereto, as he may deem necessary.

(2) The head of the Department in which the Coast Guard is operating may mark for the protection of navigation any such island or structure whenever the owner has failed suitably to mark the same in accordance with regulations issued hereunder, and the owner shall pay the cost thereof. Any person, firm, company, or corporation who shall fail or refuse to obey any of the lawful rules and regulations issued hereunder shall be guilty of a misdemeanor and shall be fined not more than $100 for each offense. Each day during which such violation shall continue shall be considered a new offense.

(f) The authority of the Secretary of the Army to prevent obstruction to navigation in the navigable waters of the United States is hereby extended to artificial islands and fixed structures located on the outer Continental Shelf.

(g) The specific application by this section of certain provisions of law to the subsoil and seabed of the outer Continental Shelf and the artificial islands and fixed structures referred to in subsection (a) or to acts or offenses occurring or committed thereon shall not give rise to any inference that the application to such islands and structures, acts, or offenses of any other provision of law is not intended.

Sec. 5. Administration of Leasing of the Outer Continental Shelf.—(a) (1) The Secretary shall administer the provisions of this Act relating to the leasing of the outer Continental Shelf, and shall prescribe such rules and regulations as may be necessary to carry out such provisions. The Secretary may at any time prescribe and amend such rules and regulations as he determines to be necessary and proper in order to provide for the prevention of waste and conservation of the natural resources of the outer Continental Shelf, and the protection of correlative rights therein, and, notwithstanding any other provisions herein, such rules and regulations shall apply to all operations conducted under a lease issued or maintained under the provisions of this Act. In the enforcement of conservation laws, rules, and regulations the Secretary is authorized to cooperate with the conservation agencies of the adjacent States. Without limiting the generality of the foregoing provisions of this section, the rules and regulations prescribed by the Secretary thereunder may provide for the assignment or relinquishment of leases, for the sale of royalty oil and gas accruing or reserved to the United States at not less than market value, and, in the interest of conservation, for unitization, pooling, drilling agreements, suspension of operations or production, reduction of rentals or royalties, compensatory royalty agreements, subsurface storage of oil or gas in any of said submerged lands, and

drilling or other easements necessary for operations or production.

(2) Any person who knowingly and willfully violates any rule or regulation prescribed by the Secretary for the prevention of waste, the conservation of the natural resources, or the protection of correlative rights shall be deemed guilty of a misdemeanor and punishable by a fine of not more than $2,000 or by imprisonment for not more than six months, or by both such fine and imprisonment, and each day of violation shall be deemed to be a separate offense. The issuance and continuance in effect of any lease, or of any extension, renewal, or replacement of any lease under the provisions of this Act shall be conditioned upon compliance with the regulations issued under this Act and in force and effect on the date of the issuance of the lease if the lease is issued under the provisions of section 8 hereof, or with the regulations issued under the provisions of section 6 (b), clause (2), hereof if the lease is maintained under the provisions of section 6 hereof.

(b) (1) Whenever the owner of a nonproducing lease fails to comply with any of the provisions of this Act, or of the lease, or of the regulations issued under this Act and in force and effect on the date of the issuance of the lease if the lease is issued under the provisions of section 8 hereof, or of the regulations issued under the provisions of section 6 (b), clause (2), hereof, if the lease is maintained under the provisions of section 6 hereof, such lease may be canceled by the Secretary, subject to the right of judicial review as provided in section 8 (j), if such default continues for the period of thirty days after mailing of notice by registered letter to the lease owner at his record post office address.

(2) Whenever the owner of any producing lease fails to comply with any of the provisions of this Act, or of the lease, or of the regulations issued under this Act and in force and effect on the date of the issuance of the lease if the lease is issued under the provisions of section 8 hereof, or of the regulations issued under the provisions of section 6 (b), clause (2), hereof, if the lease is maintained under the provisions section 6 hereof, such lease may be forfeited and canceled by an appropriate proceeding in any United States district court having jurisdiction under the provisions of section 4 (b) of this Act.

(c) Rights-of-way through the submerged lands of the outer Continental Shelf, whether or not such lands are included in a lease maintained or issued pursuant to this Act, may be granted by the Secretary for pipeline purposes for the transportation of oil, natural gas, sulphur, or other mineral under such regulations and upon such conditions as to the application therefor and the survey, location and width thereof as many be prescribed by the Secretary, and upon the express condition that such oil or gas pipelines shall transport or purchase without discrimination, oil or natural gas produced from said submerged lands in the vicinity of the pipeline in such proportionate amounts as the Federal Power Commission, in the case of gas, and the Interstate Commerce Commission, in the case of oil, may, after a full hearing with due notice thereof to the interested parties, determine to be reasonable, taking into account, among other things, conservation and the prevention of waste. Failure to comply with the provisions of this section or the regulations and conditions prescribed thereunder shall be ground for forfeiture of the grant in an appropriate judicial proceeding instituted by the United States in any United States district court having jurisdiction under the provisions of section 4 (b) of this Act.

Sec. 6. Maintenance of Leases on Outer Continental Shelf.—(a) The provisions of this section shall apply to any mineral lease covering submerged lands of the outer Continental Shelf issued by any State (including any extension, renewal, or replacement thereof heretofore granted pursuant to such lease or under the laws of such State) if—

(1) such lease, or a true copy thereof, is filed with the Secretary by the lessee or his duly authorized agent within ninety days from the effective date of this Act, or within such further period or periods as provided in section 7 hereof or as may be fixed from time to time by the Secretary;

(2) such lease was issued prior to December 21, 1948, and would have been on June 5, 1950, in force and effect in accordance with its terms and provisions and the law of the State issuing it had the State had authority to issue such lease;

(3) there is filed with the Secretary, within the period or periods specified in paragraph (1) of this subsection, (A) a certificate issued by the State official or agency having jurisdiction over such lease stating that it would have been in force and effect as required by the provisions of paragraph (2) of this subsection, or (B) in the absence of such certificate, evidence in the form of affidavits, receipts, canceled checks, or other documents that may be required by the Secretary, sufficient to prove that such lease would have been so in force and effect;

(4) except as otherwise provided in section 7 hereof, all rents, royalties, and other sums payable under such lease between June 5, 1950, and the effective date of this Act, which have not been paid in accordance with the provisions thereof, or to the Secretary or to the Secretary of the Navy, are paid to the Secretary within the period or periods specified in paragraph (1) of this subsection, and all rents, royalties, and other sums payable under such lease after the effective date of this Act, are paid to the Secretary, who shall deposit such payments in the Treasury in accordance with section 9 of this Act;

(5) the holder of such lease certifies that such lease shall continue to be subject to the overriding royalty obligations existing on the effective date of this Act;

(6) such lease was not obtained by fraud or misrepresentation;

(7) such lease, if issued on or after June 23, 1947, was issued upon the basis of competitive bidding;

(8) such lease provides for a royalty to the lessor on oil and gas of not less than 12½ per centum and on sulphur of not less than 5 per centum in amount or value of the production saved, removed, or sold from the lease, or, in any case in which the lease provides for a lesser royalty, the holder thereof consents in writing, filed with the Secretary, to the increase of the royalty to the minimum herein specified;

(9) the holder thereof pays to the Secretary within the period or periods specified in paragraph (1) of this subsection an amount equivalent to any severance, gross production, or occupation taxes imposed by the State issuing the lease on the production from the lease, less the State's royalty interest in such production, between June 5, 1950, and the effective date of this Act and not heretofore paid to the State, and thereafter pays to the Secretary as an additional royalty on the production from the lease, less the United States royalty interest in such production, a sum of money equal to the amount of the severance, gross production, or occupation taxes which would have been payable on such production to the State issuing the lease under its laws as they existed on the effective date of this Act;

(10) such lease will terminate within a period of not more than five years from the effective date of this Act in the absence of production or operations for drilling, or, in any case in which the lease provides for a longer period, the holder thereof consents in writing, filed with the Secretary, to the reduction of such period so that it will not exceed the maximum period herein specified; and

(11) the holder of such lease furnishes such surety bond, if any, as the Secretary may require and complies with such other reasonable requirements as the Secretary may deem necessary to protect the interests of the United States.

(b) Any person holding a mineral lease, which as determined by the Secretary meets the requirements of subsection (a) of this section, may continue to maintain such lease, and may conduct operations thereunder in accordance with (1) its provisions as to the area, the minerals covered, rentals and, subject to the provisions of paragraphs (8), (9) and (10) of subsection (a) of this section, as to royalties and as to the term thereof and of any extensions, renewals, or replacements authorized therein or heretofore authorized by the laws of the State issuing such lease, or, if oil or gas was not being produced in paying quantities from such lease on or before December 11, 1950, or if production in paying quantities has ceased since June 5, 1950, or if the primary term of such lease has expired since December 11, 1950, then for a term from the effective date hereof

equal to the term remaining unexpired on December 11, 1950, under the provisions of such lease or any extensions, renewals, or replacements authorized therein, or heretofore authorized by the laws of such State, and (2) such regulations as the Secretary may under section 5 of this Act prescribe within ninety days after making his determination that such lease meets the requirements of subsection (a) of this section: Provided, however, That any rights to sulphur under any lease maintained under the provisions of this subsection shall not extend beyond the primary term of such lease or any extension thereof under the provisions of such subsection (b) unless sulphur is being produced in paying quantities or drilling, well reworking, plant construction, or other operations for the production of sulphur, as approved by the Secretary, are being conducted on the area covered by such lease on the date of expiration of such primary term or extension: Provided further, That if sulphur is being produced in paying quantities on such date, then such rights shall continue to be maintained in accordance with such lease and the provisions of this Act: Provided further, That, if the primary term of a lease being maintained under subsection (b) hereof has expired prior to the effective date of this Act and oil or gas is being produced in paying quantities on such date, then such rights to sulphur as the lessee may have under such lease shall continue for twenty-four months from the effective date of this Act and as long thereafter as sulphur is produced in paying quantities, or drilling, well working, plant construction, or other operations for the production of sulphur, as approved by the Secretary, are being conducted on the area covered by the lease.

(c) The permission granted in subsection (b) of this section shall not be construed to be a waiver of such claims, if any, as the United States may have against the lessor or the lessee or any other person respecting sums payable or paid for or under the lease, or respecting activities conducted under the lease, prior to the effective date of this Act.

(d) Any person complaining of a negative determination by the Secretary of the Interior under this section may have such determination reviewed by the United States District Court for the District of Columbia by filing a petition for review within sixty days after receiving notice of such action by the Secretary.

(e) In the event any lease maintained under this section covers lands beneath navigable waters, as that term is used in the Submerged Lands Act, as well as lands of the outer Continental Shelf, the provisions of this section shall apply to such lease only insofar as it covers lands of the outer Continental Shelf.

Sec. 7. Contorversy over jurisdiction.—In the event of a controversy between the United States and a State as to whether or not lands are subject to the provisions of this Act, the Secretary is authorized, notwithstanding the provisions of subsections (a) and (b) of section 6 of this Act, and with the concurrence of the Attorney General of the United States, to negotiate and enter into agreements with the State, its political subdivision or grantee or a lessee thereof, respecting operations under existing mineral leases and payment and impounding of rents, royalties, and other sums payable thereunder, or with the State, its political subdivision or grantee, respecting the issuance or nonissuance of new mineral leases pending the settlement or adjudication of the controversy. The authorization contained in the preceding sentence of this section shall not be construed to be a limitation upon the authority conferred on the Secretary in other sections of this Act. Payments made pursuant to such agreement, or pursuant to any stipulation between the United States and a State, shall be considered as compliance with section 6 (a) (4) hereof. Upon the termination of such agreement or stipulation by reason of the final settlement or adjudication of such controversy, if the lands subject to any mineral lease are determined to be in whole or in part lands subject to the provisions of this Act, the lessee, if he has not already done so, shall comply with the requirements of section 6 (a), and thereupon the provisions of section 6 (b) shall govern such lease. The notice concerning "Oil and Gas Operations in the Submerged Coastal Lands of the Gulf of Mexico" issued by the Secretary on December 11, 1950 (15 F. R. 8835), as amended by the notice dated January 26, 1951 (16 F. R. 953), and as supplemented by the notices dated February 2, 1951 (16 F. R. 1203), March 5, 1951 (16 F. (d) A sulphur lease issued by the Secretary pursuant to this section shall (1) cover an area of such size and dimensions as the Secretary may determine, *(2) be for a period of not more than ten years and so long thereafter as sulphur may be produced from the area in paying quantities or drilling, well reworking, plant construction, or other operations for the production of sulphur, as approved by the Secretary, are conducted thereon, (3) require the payment to the United States of such royalty as may be specified in the lease but not less than 5 per centum of the gross production or value of the sulphur at the wellhead, and (4) contain such rental provisions and such other terms and provisions as the Secretary may by regulation prescribe at the time of offering the area for lease.*

(e) The Secretary is authorized to grant to the qualified persons offering the highest cash bonuses on a basis of competitive bidding leases of any mineral other than oil, gas, and sulphur in any area of the outer Continental Shelf not then under lease for such mineral upon such royalty, rental, and other terms and conditions as the Secretary may prescribe at the time of offering the area for lease.

(f) Notice of sale of leases, and the terms of bidding, authorized by this section shall be published at least thirty days before the date of sale in accordance with rules and regulations promulgated by the Secretary.

(i) The Secretary may cancel any lease obtained by fraud or misrepresentation.

(j) Any person complaining of a cancellation of a lease by the Secretary may have the Secretary's action reviewed in the United States District Court for the District of Columbia by filing a petition for review within sixty days after the Secretary takes such action.

Sec. 9. Disposition of Revenues.—All rentals, royalties, and other sums paid to the Secretary or the Secretary of the Navy under any lease on the outer Continental Shelf for the period from June 5, 1950, to date, and thereafter shall be deposited in the Treasury of the United States and credited to miscellaneous receipts.

Sec. 10. Refunds.—(a) Subject to the provisions of subsection (b) hereof, when it appears to the satisfaction of the Secretary that any person has made a payment to the United States in connection with any lease under this Act in excess of the amount he was lawfully required to pay, such excess shall be repaid without interest to such person or his legal representative, if a request for repayment of such excess is filed with the Secretary within two years after the making of the payment, or within ninety days after the effective date of this Act. The Secretary shall certify the amounts of all such repayments to the Secretary of the Treasury, who is authorized and directed to make such repayments out of any moneys in the special account established under section 9 of this Act and to issue his warrant in settlement thereof.

(b) No refund of or credit for such excess payment shall be made until after the expiration of thirty days from the date upon which a report giving the name of the person to whom the refund or credit is to be made, the amount of such refund or credit, and a summary of the facts upon which the determination of the Secretary was made is submitted to the President of the Senate and the Speaker of the House of Representatives for transmittal to the appropriate legislative committee of each body, respectively: Provided, That if the Congress shall not be in session on the date of such submission or shall adjourn prior to the expiration of thirty days from the date of such submission, then such payment or credit shall not be made until thirty days after the opening day of the next succeeding session of Congress.

(b) In time of war, or when the President shall so prescribe, the United States shall have the right of first refusal to purchase at the market price all or any portion of any mineral produced from the outer Continental Shelf.

(c) All leases issued under this Act, and leases, the maintenance and operation of which are authorized under this Act, shall contain or be construed to contain a provision whereby authority is vested in the Secretary, upon a recommendation of the Secretary of Defense, during a state of war or national emergency declared by the Congress or the President of the United States after the effective date of this Act, to suspend operations under any lease; and all such leases shall contain or be construed to contain provisions for the payment of just compensation to the lessee whose operations are thus suspended.

(d) The United States reserves and retains the right to designate by and through the Secretary of Defense, with the approval of the President, as areas restricted from exploration and operation that part of the outer Continental Shelf needed for national defense; and so long as such designation remains in effect no exploration or operations may be conducted on any part of the surface of such area except with the concurrence of the Secretary of Defense; and if operations or production under any lease theretofore issued on lands within any such restricted area shall be suspended, any payment of rentals, minimum royalty, and royalty prescribed by such lease likewise shall be suspended during such period of suspension of operation and production, and the term of such lease shall be extended by adding thereto any such suspension period, and the United States shall be liable to the lessee for such compensation as is required to be paid under the Constitution of the United States.

DISPOSAL OF GOVERNMENT-OWNED RUBBER PLANTS

Mr. CAPEHART submitted the following conference report:

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H. R. 5728) to authorize the disposal of

the Government-owned rubber-producing facilities, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following:

That this Act shall be known as the "Rubber Producing Facilities Disposal Act of 1953".

Sec. 2. It is hereby declared that disposal of the Government-owned rubber-producing facilities pursuant to the provisions of this Act is consistent with the national security and will further effectuate the policy set forth in section 2 of the Rubber Act of 1948, as amended (62 Stat. 101, 50 U. S. C. App. 1921), with respect to the development within the United States of a free, competitive, synthetic rubber industry.

Sec. 3. (a) There is hereby established a Rubber Producing Facilities Disposal Commission, hereinafter referred to as the Commission, to be composed of three persons, to be appointed by the President. Members of the Commission shall be appointed from civilian life and shall receive compensation at the rate of $50 per diem for each day engaged in the business of the Commission, and shall be allowed transportation and a per diem of $9 while away from their homes or places of business pursuant to such business. No person who is employed in or at any time since January 1, 1950, has been on employee of, or who receives a substantial part of his income from, the rubber or petroleum industry, or that part of the chemical industry which supplies, or is capable of supplying, feedstocks for the manufacture of synthetic rubber, shall serve as a Commissioner.

(b) With respect to the Government-owned rubber-producing facilities it shall be the duty of the Commission, and it is authorized in accordance with the provisions of this Act (1) to invite and receive proposals for the purchase of the facilities; to negotiate for their sale and make recommendations therefor to the Congress; to enter into appropriate contracts for their sale, which contracts shall be binding upon the Government and the prospective purchasers upon their execution subject only to the further provisions of this Act; and in the performance of such contracts to execute and deliver such deeds or other instruments appropriate to effectively transfer to the purchaser thereof title to the facilities, no matter by what officer, agent, department, Government corporation, or instrumentality of the United States the same is held; (2) to lease and thereunder deliver possession of the alcohol butadiene facilities, if practicable; and (3) to take such action and exercise such powers as may be necessary or appropriate to effectuate the purposes of this Act.

(c) From the time of its appointment and throughout the course of the performance of its duties, the Commission shall consult and advise with the Attorney General in order (1) to secure guidance as to the type of disposal program which would best foster the development of a free competitive synthetic rubber industry, and (2) to supply the Attorney General with such information as he may deem requisite to enable him to provide the advice contemplated by this section and sections 9 (a) (4) and 9 (f) of this Act.

(d) Before submission of its proposed disposal report to the Congress, as provided for in section 9 of this Act, the Commission shall submit it to the Attorney General, who shall within a reasonable time, in no event to exceed ninety days, after receiving such report, advise the Commission whether, in his opinion, the proposed disposition will violate the antitrust laws.

(e) Nothing in this Act shall impair, amend, or modify the antitrust laws or limit and prevent their application to persons who acquire property under the provisions of this Act. As used in this section, the term "antitrust laws" includes the Act of July 2, 1890 (ch. 647, 26 Stat. 209), as amended; the Act of October 15, 1914 (ch. 323, 38 Stat. 730), as amended; the Federal Trade Commission Act; and the Act of August 27, 1894 (ch. 349, secs. 73, 74, 28 Stat. 570), as amended.

Sec. 4. The Commission shall be furnished upon its request all available information concerning the Government-owned rubber-producing facilities in the possession of any department, agency, officer, Government corporation, or instrumentality of the United States concerned with Government-owned rubber-producing facilities.

Sec. 5. The Commission shall proceed as promptly as practicable, conducting such hearings as may be necessary, with the disposal of the rubber-producing facilities in compliance with the provisions of this Act.

Sec. 6. (a) Without regard to the civil-service laws or the Classification Act of 1949, the Commission shall be authorized to employ professional, clerical, and stenographic assistance, and shall be further authorized to request and, with the consent of the head of any department, agency, Government corporation, or instrumentality of the United States concerned with the Government-owned rubber-producing facilities, receive the assistance of any employee thereof: Provided, That rates of pay for personnel employed by the Commission shall be in accordance with the Classification Act of 1949.

(b) No member of the Commission and no person employed by the Commission as an attorney, agent, or employee in activities involving discretion with respect to negotiations or contracts of sale of the Government-owned rubber-producing facilities, shall, during the period of such employment, or for a period of two years thereafter, be employed in any capacity by any purchaser, or affiliate thereof. No purchaser or affiliate thereof shall employ in any capacity any person, who has served as a member of the Commission or who was employed by the Commission and served the Commission as an attorney, agent, or employee in activities involving discretion with respect to negotiations or contracts of sale of the Government-owned rubber-producing facilities, while any such person is serving as a member or employee of the Commission or for a period of two years thereafter. Any person violating the provisions of this subsection shall be fined not more than $10,000 or imprisoned not more than one year, or both.

Sec. 7 (a) The Commission shall invite, upon adequate notice and advertisement, proposals for the purchase of the Government-owned rubber-producing facilities, hereafter referred to as the "facilities." The period for the receipt of proposals shall be determined and publicly announced by the Commission, and in no event shall be less than six months after the first day on which proposals may be received pursuant to the advertisement. The advertisement shall be in such form, contain such specifications and reservations, and be published in such manner as the Commission in its discretion determines will best effectuate the purposes of this Act. All data concerning such facilities which in the judgment of the Commission may be reasonably required for the submission of a bona fide proposal shall be furnished by the Commission upon request by any prospective purchaser unless the Commission has reason to believe that such prospective purchaser has not identified his principal, or is not financially responsible, or is a poor security risk.

(b) Proposals shall be in writing and shall contain, among other things—

(1) identification of the person in whose behalf the proposal is submitted, including the business affiliation of such person;

(2) the facility or facilities which are proposed to be purchased, and the order of preference if more than one facility is proposed to be purchased; or the order of preference if proposals are submitted on more than one facility, if only one facility is proposed to be purchased;

(3) the arrangements or plans, if any, formal or informal, for the supply of feedstock to, and the disposition of the end products of, the respective facilities proposed to be purchased;

(4) the amount proposed to be paid for each of the facilities, and, if such amount is not to be paid in cash, then the principal terms of the financing arrangement proposed;

(5) the general terms and conditions which the prospective purchaser of a copolymer facility would be willing to accept in order to make the end product of such facility available for sale to small business enterprises, and the general terms and conditions which the prospective purchaser of a butadiene or styrene facility would be willing to accept in order to make the end product of such facility available for sale to purchasers of copolymer facilities; and

(6) such other information as the Commission in its notice and adver-

tisement for proposals shall require be set forth in proposals including the prospective purchaser's acceptance of the terms, conditions, restrictions and reservations contained in subsection (h) of this section, and the interest rate to be charged on the purchase money mortgage referred to in subsection (e) of this section.

(c) Should it become necessary to the effective prosecution of the disposal program, the Commission may, after the termination of the period for the submission of proposals provided for in subsection (a) of this section, disclose the contents of the proposals at such time, in such manner, and to such extent as it deems appropriate.

(d) Proposals shall be accompanied by a deposit of cash or United States Government bonds of face amount equal to 2½ per centum of the gross amount proposed to be paid but not exceeding $250,000 for each facility: Provided, however, That the deposit required in the case of a proposal for one of a number of facilities on an alternative basis shall be the same as would be required if such proposal were for only the facility for which the particular prospective purchaser proposed to pay the highest amount. Except in the cast of purchasers, deposits made hereunder shall be refunded without interest and not later than upon the termination of the period for congressional review as provided in section 9 of this Act. In the case of purchasers, deposits made hereunder shall be applied without interest to the purchase price: Provided, however, That upon the closing of the contract of sale the purchaser shall be required to substitute cash equal to the face amount of the Government bonds then held in connection with such purchaser's proposal.

(e) Payment of the purchase price may be made in part by a first lien purchase-money mortgage, in an amount not to exceed 75 per centum of the purchase price. The terms of any such mortgage obligation, to be determined by negotiation, shall provide among other things for a maturity of not more than ten years, periodic amortization, and a uniform interest rate of not less than 3 per centum per annum.

(f) Promptly after the termination of the period for the receipt of proposals, pursuant to subsection (a) of this section, and for such period thereafter not less than seven months as may be determined and publicly announced by the Commission, it shall negotiate with those submitting proposals for the purpose of entering into definitive contracts of sale.

(g) Nothing contained in this Act shall be construed to prevent the Commission from securing such additional information from those submitting proposals at any time as the Commission may deem necessary or appropriate to fulfill its responsibilities under this Act.

(h) All contracts of sale and instruments in execution thereof shall contain a national security clause having terms, conditions, restrictions and reservations, which will assure the prompt availability of the rubber-producing facilities, or facilities of equivalent capacity, for the production of synthetic rubber and the component materials thereof for a period of ten years from the date of the contract.

(i) Subject to the conditions prescribed in section 24 of this Act, any contract of sale shall become fully effective upon the expiration of the period for congressional review provided for in section 9 of this Act unless the Congress within such period has disapproved such sale. The transfer of possession of all of the rubber-producing facilities to be sold shall be made as promptly as is practicable after the effective date, in accordance with the terms of the contracts, but in any event within a period terminating sixty days after the expiration of the period for congressional review as provided in section 9 (b) of this Act. The failure to complete transfer of possession prior to said termination date shall not give rise to or be the basis of rescission of the contract of sale.

(j) Upon termination of the transfer period, as provided in subsection (i) of this section, the operating agency last designated by the President shall make no further sales of synthetic rubber and its component materials except as otherwise provided in this Act.

(k) During the period of one year following the termination of the transfer period the operating agency last designated by the President shall offer for sale to the purchasers of the facilities the synthetic rubber and its component materials held by it at a price determined in accordance with its pricing policy prevailing at the close of the transfer period, in amounts prorated in accordance with the ratio of the capacity of each such facility purchased to the total capacity of all facilities of the same type sold. Any synthetic rubber or component materials not purchased by an eligible purchaser during periodic intervals, as determined by the operating agency, shall be made available to other eligible purchasers on a like equitable basis. Any synthetic rubber or component materials not sold during such one-year period shall thereafter be disposed of in such manner as said agency deems advisable.

Sec. 8. (a) Upon the termination of the transfer period, the operating agency last designated by the President, shall, as promptly as possible consistent with sound operating procedures, take out of production and place in adequate standby condition the rubber-producing facilities which shall not have been sold. At any time after the termination of production, such facilities may be transferred without reimbursement or transfer of funds to the General Services Administration and administered in accordance with the provisions of sections 6, 7, and 8 of the National Industrial Reserve Act of 1948, as amended (62 Stat. 1227, 50 U. S. C. 456–458), or to such other agency as the President may designate for administration in such manner as he may direct. In such event (1) no such facility shall thereafter be operated as a rubber-producing facility for the account of, or by, the Government except pursuant to further Act of Congress; (2) no such facility, other than alcohol-butadiene facilities, shall be leased for operation as a rubber-producing facility at any time: Provided, That nothing contained in this Act shall preclude the leasing of alcohol-butadiene facilities for purposes other than the manufacture of alcohol butadiene so long as such leases are in accordance with the provisions of section 8 (a) or section 9 (f) of this Act; and (3) no such facility shall be disposed of by sale within a period of three years from the termination of the transfer period, and in any subsequent lease or sale, the Government agency acting under authority of this section shall within a reasonable time and in no event less than sixty days prior to the lease or sale, request the advice of the Attorney General as to whether the proposed lease or sale would tend to create or maintain a situation inconsistent with the antitrust laws. The Attorney General shall give his advice within forty-five days of the receipt of such request. Upon the request of the Attorney General, the Government agency shall furnish, or cause to be furnished, such information as it may possess which the Attorney General determines to be appropriate or necessary to enable him to give the advice called for by this section.

(b) Whenever any transfer to any Government agency is made pursuant to this section, all unexpended funds budgeted as provided in section 9 (e) for standby and maintenance in such condition shall also be transferred.

Sec. 9. (a) Not later than thirty days after the termination of the negotiating period provided in section 7 of this Act, and in no event later than January 31, 1955, the Commission shall prepare and submit to the Congress a report setting forth—

(1) the steps taken to elicit proposals and the proposals which have been received;

(2) the principal terms of all sales contracted for and the Commission's recommendations in respect thereto;

(3) in the event that there may have been a financially more advantageous proposal for any rubber-producing facility than the sale recommended, a statement of the reasons why such sale is nevertheless proposed;

(4) the statement from the Attorney General setting forth findings approving the proposed disposals in accordance with the standards set forth in section 3 (c) of this Act;

(5) the program to be followed to place in standby condition the rubber-producing facilities not sold;

(6) an inventory report concerning the Government's current stocks of synthetic rubber and its component materials;

(7) a program for the continuance, to the extent it deems necessary, during the fiscal year following the fiscal year in which the transfer period terminates, of the research program on synthetic rubber and its component

materials then being carried on by the operating agency; and

(8) the names of persons who have represented the Government or the purchasers in conducting negotiations or in making contracts for disposal of the rubber-producing facilities.

(b) The report shall be submitted to both Houses of Congress on the same day. Upon the expiration of sixty days of continuous session of the Congress following the date upon which the report is submitted to it, the Commission shall proceed to carry out the contracts and proposals, as outlined in its report, to the extent that such contracts and proposals are not disapproved by either House of Congress by a resolution within the sixty-day period.

(c) For the purposes of subsection (b) of this section—

(1) continuity of session shall be considered as broken only by an adjournment of the Congress sine die; but

(2) in the computation of the sixty-day period there shall be excluded the days on which either House is not in session because of an adjournment of more than three days to a day certain.

(d) No rubber-producing facility shall be sold or leased except in accordance with this Act, or in accordance with section 7 (d) (4) of the Rubber Act of 1948, as amended.

(e) Such sums as may be required for the foregoing purposes may be provided out of the proceeds of disposal, and annual budgets for the expenses necessary for such purposes shall be submitted in accordance with the Government Corporation Control Act of 1945, as amended (59 Stat. 597, 31 U. S. C. 841).

(f) Notwithstanding any other provisions of this Act, the Commission may, after securing the advice of the Attorney General as to whether the proposed lease would tend to create or maintain a situation inconsistent with the antitrust laws, enter into leases for the alcohol-butadiene facilities for a period of not less than one year, nor more than three years: Provided, That any such lease shall contain among other things (1) a national security clause, and (2) provisions for the recapture of such facilities by the Government and the termination of the lease, if the President determines that the national interest so requires. Not less than sixty days prior to said lease the Commission shall request such advice from the Attorney General who shall give the same within forty-five days of the receipt of such request.

Sec. 10. At the expiration of one year after the transfer period or as soon thereafter as the Congress is in session, the President shall report to the Congress concerning the Nation's rubber requirements and resources, and the need, if any, for further research by the Government relative to the production or use of synthetic rubber and its component materials.

Sec. 11. The term "rubber-producing facilities" as used in this Act shall not include the Government-owned evaluation laboratory at Akron, Ohio.

Sec. 12. All final net proceeds from disposal of the rubber-producing facilities shall be covered into the Treasury as miscellaneous receipts except as otherwise provided by this Act.

Sec. 13. The sales, leases, or other dispositions made prior to the enactment of this Act, pursuant to section 9 (b) of the Rubber Act of 1948, as amended, shall not be affected by this Act.

Sec. 14. Notwithstanding the provisions of section 20 of the Rubber Act of 1948, as amended, (1) if no report is submitted by the Commission, or if the report submitted by the Commission pursuant to section 9 of this Act is disapproved in its entirety, then the Rubber Act of 1948, as amended, shall be extended until March 31, 1956; and (2) if the Commission submits a report and it is not disapproved in its entirety, the Rubber Act of 1948, as amended, shall terminate at the termination of the transfer period as provided in section 7 (i) of this Act.

Sec. 15. Thirty days following the receipt of proposals, as provided in section 7 of this Act, the Commission shall submit to the Congress a report stating the amount of funds expended by or obligated by the operating agency for the repair, replacement, additions, improvements, or maintenance of each synthetic rubber-producing facility for which proposals have been submitted. Thereafter reports shall be made monthly until such time as the Congress shall have permitted or disapproved in whole or in part the disposal recommended by the Commission.

Sec. 16. In arriving at its recommendations for the disposal of the facilities, the Commission shall use, as the basis for negotiating the sale of each facility the highest amount proposed to be paid for each facility, if, in the opinion of the Commission, the highest amount proposed to be paid was a bona fide proposal and was submitted by a person competent to operate a rubber-producing facility: Provided, That the words "competent to operate a rubber-producing facility" shall not be interpreted so as to require prior experience in the operation of a rubber-producing facility: Provided further, That in using such highest proposed amount as a basis for negotiations the Commission may negotiate with respect to any facility with any person who submitted a proposal on that or any similar facility and may recommend sale of any facility to any person who submitted a proposal on that or any similar facility at a price which is equal to, higher than, or lower than the highest amount proposed to be paid for each facility as the Commission determines will best effectuate the purposes of this Act.

Sec. 17. The following criteria, together with such other criteria as the Commission deems necessary or desirable to best effectuate the purposes of this Act, shall be used by the Commission in arriving at its recommendations for disposal:

(1) That the disposal program be designed best to afford small-business enterprises and users, other than the purchaser of a facility, the opportunity to obtain a fair share of the end products of the facilities sold and at fair prices;

(2) That the prospective purchaser has the technical competence necessary to operate a rubber-producing facility, except that prior experience in operating a rubber-producing facility shall not be required as a basis for determining whether a prospective purchaser has the technical competence necessary to operate a rubber-producing facility;

(3) That the recommended sales shall provide for the development within the United States of a free, competitive, synthetic rubber industry, and do not permit any person to possess unreasonable control over the manufacture of synthetic rubber or its component materials;

(4) That the prospective purchaser is acting in good faith, and actually intends to operate the facility or facilities for the purpose of manufacturing synthetic rubber or its component materials;

(5) That full fair value for the facility or facilities will be received by the Government, taking into consideration the policy set forth in section 2 of this Act;

(6) That disposal of the facility or facilities to the purchasers is consistent with the national security; and

(7) That the facilities recommended for sale will in the aggregate be capable of annually producing not less than five hundred thousand long tons of general-purpose synthetic rubber, and not less than forty-three thousand long tons annually of butyl rubber.

Sec. 18. Unless otherwise provided in this Act, the disposal of the Government-owned rubber-producing facilities shall be authorized notwithstanding the provisions of the Rubber Act of 1948, as amended.

Sec. 19. Unless otherwise provided in this Act, all costs incurred by the Commission or any other department, agency, officer, Government corporation, or instrumentality of the United States pursuant to the provisions of this Act shall, so long as synthetic rubber is produced for the account of the Government in the Government-owned rubber-producing facilities, be paid from and charged against the operating income of the Government-owned synthetic rubber program, administered by the operating agency.

Sec. 20. The Commission shall cease to exist thirty days after the termination of the transfer period as provided by section 7 (i) of this Act, but nothing contained in this section shall be construed in any way so as to abrogate, modify, or adversely affect any contract of sale or lease of the Government-owned rubber-producing facilities pursuant to this Act. After the Commission ceases to exist, such contracts and leases and other matters involving the Commission shall be administered by such agency of the Government as the President may designate.

Sec. 21. (a) The term "synthetic rubber" means any product of chemical synthesis similar in general properties and

applications to natural rubber and specifically capable of vulcanization, produced in the United States, not including reclaimed synthetic rubber.

(b) The term "general-purpose synthetic rubber" means a synthetic rubber of the butadiene-styrene type generally suitable for use in the manufacture of transportation items such as tires or camelback, as well as any other type of synthetic rubber equally or better suited for use in the manufacture of transportation items such as tires or camelback as determined from time to time by the President.

(c) The term "rubber-producing facilities" means facilities, in whole or in part, for the manufacture of synthetic rubber, and the component materials thereof, including, but not limited to, buildings and land in which or on which such facilities may be located and all machinery and utilities associated therewith.

(d) The term "component materials" means the material, raw, semifinished, and finished, necessary for the manufacture of synthetic rubber.

(e) The term "standby condition" means the condition in which rubber-producing facilities, in whole or in part, are placed if not sold or leased in accordance with this Act, but are maintained so as to be readily available for the production of synthetic rubber or component materials.

(f) The term "person" means any individual, firm, copartnership, business trust, corporation, or any organized group of persons whether incorporated or not.

(g) The term "operating agency" means the Department, agency, officer, Government corporation, or instrumentality of the United States designated from time to time by the President pursuant to section 7 (a) of the Rubber Act of 1948, as amended.

Sec. 22. Section 20 of the Rubber Act of 1948, as amended, is further amended as follows: In lieu of the date "March 31, 1954" insert the date "May 1, 1955".

Sec. 23. (a) The provisions of this section are enacted by the Congress:

(1) As an exercise of the rule-making power of the Senate and the House of Representatives, respectively, and as such they shall be considered as part of the rules of each House, respectively, but applicable only with respect to the procedure to be followed in such House in the case of resolutions (as defined in subsection (b)); and such rules shall supersede other rules only to the extent that they are inconsistent therewith; and

(c) A resolution with respect to a facility or facilities shall be referred to a committee (and all such resolutions shall be referred to the same committee) by the President of the Senate or the Speaker of the House of Representatives, as the case may be.

(d) (1) If the committee to which has been referred a resolution with respect to a facility or facilities has not reported it before the expiration of ten calendar days after its introduction, it shall then (but not before) be in order to move either to discharge the committee from further consideration of such resolution, or to discharge the committee from further consideration of any other resolution with respect to such facility or facilities which has been referred to the committee.

(2) Such motion may be made only by a person favoring the resolution, shall be highly privileged (except that it may not be made after the committee has reported a resolution with respect to the same facility or facilities), and debate thereon shall be limited to not to exceed one hour, to be equally divided between those favoring and those opposing the resolution. No amendment to such motion shall be in order, and it shall not be in order to move to reconsider the vote by which such motion is agreed to or disagreed to.

(3) If the motion to discharge is agreed to or disagreed to, such motion may not be renewed, or may another motion to discharge the committee be made with respect to any other resolution with respect to the same facility or facilities.

(e) (1) Where the committee has reported, or has been discharged from further consideration of, a resolution with respect to a facility or facilities, it shall at any time thereafter be in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of such resolution. Sec. 24. Notwithstanding any provisions of this Act, in the event that the recommended sale of any facility is disapproved by either House of the Congress, any prospective purchaser of any other facility shall have a period of thirty days after the termination of the period for review by the Congress in which to reject the recommended sales contract with regard to the facility or facilities which he has agreed to purchase: Provided, That if as a result of the disapproval by either House of the Congress of the sale of any facility or facilities, or as a result of the rejection of one or more sales contracts by any prospective purchaser as provided in this section, the remaining facilities to be sold will in the aggregate not be capable of annually producing at least 500,000 long tons of general purpose synthetic rubber and at least 43,000 long tons of butyl rubber, then no facility shall be sold under this Act, and for the purposes of this Act the report of the Commission shall be deemed to have been disapproved in its entirety.

RAISING THE DEBT LIMIT

The VICE PRESIDENT laid before the Senate the following message from the President of the United States, which was read and referred to the Committee on Finance:

To the Congress of the United States:

The administration in cooperation with the Congress has moved promptly and vigorously to reduce earlier recommendations for appropriations for the fiscal year 1953–54 by about $13 billion and to reduce the prospective deficit by about one-half.

However, operations for the fiscal year just ended have produced a deficit of $9.4 billion. In addition, the Government on June 30 was faced with $81 billion of appropriations authorizing expenditures for which the money must be provided as the bills are presented from time to time.

Despite our joint vigorous efforts to reduce expenditures, it is inevitable that the public debt will undergo some further increase.

On June 30 last the public debt was $266 billion. To meet the Government's cash requirements for this current quarter it was necessary to borrow over $6 billion in July, bringing the national debt now to over $272 billion. To meet necessary expenditures and to maintain a safe working balance of funds it will be necessary to borrow more money before the next session of the Congress. This will carry the debt above the present legal limit of $275 billion. Under present circumstances, the existing statutory debt limit is so restrictive that it does not allow the financial operating leeway necessary to conduct the Government's fiscal affairs effectively. This is specific with respect to the seasonal variations of Federal receipts and disbursements and also in view of the uncertainty as to future income and expenditure levels.

I must, therefore, request of the Congress legislation raising the statutory debt limit. It is my recommendation that the limit should be increased to $290 billion.

DWIGHT D. EISENHOWER.

THE WHITE HOUSE, *July 30, 1953.*

To the Congress of the United States:

I transmit herewith, pursuant to the United Nations Participation Act, the seventh annual report, covering the year 1952, on United States participation in the United Nations. Senators WILEY and GREEN, as members of the United States delegation to the seventh session of the General Assembly, have already given you their reports on that part of the session that took place in 1952.

On my inauguration I stated that we would strive to make the United Nations "not merely an eloquent symbol but an effective force," and in my message to the seventh session of the General Assembly when it reconvened in February of this year I said:

"The United Nations has already accomplished much. I hope it will grow in strength and become an increasingly effective instrument of peace."

Therefore, though the report for 1952 describes developments in a period before this administration took office, I commend it to your careful attention for such guidance on our future course of action toward this goal as may be drawn from past experience.

DWIGHT D. EISENHOWER.

CONSERVATION OF NATURAL RESOURCES

The VICE PRESIDENT laid before the Senate the following message from the President of the United States, which was read and referred to the Committee on Interior and Insular Affairs:

To the Congress of the United States:

In the stress of dealing with urgent problems of peace and security and budget appropriations and tax revenues, we sometimes overlook the fundamental importance to our national well-being of constructive, forward-looking policies designed to conserve and improve the Nation's natural renewable resources.

Before the Congress adjourns, therefore, I believe it will be useful to focus attention on some of our basic land and water resource problems and to point the way for constructive efforts to improve the management and use of these resources.

In my state of the Union message, I called attention to the vast importance to this Nation now and in the future of our soil and water, our forests and minerals, and our wildlife resources. I indicated the need for a strong Federal program in the field of resource development. At the same time I pointed to the necessity for a cooperative partner-

ship of the States and local communities, private citizens, and the Federal Government in carrying out a sound natural resources program.

In addition to the immediate danger of waste resulting from inadequate conservation measures, we must bear in mind the needs of a growing population and an expanding economy. At present we are faced with excess reserves of some agricultural commodities and the need for production adjustments to gear our agricultural economy to current demands. But in the long run, we shall need to give increased attention to the improvement and reclamation of land in its broadest aspects, including soil productivity, irrigation, drainage, and the replenishing of ground water reserves, if we are adequately to feed and clothe our people, to provide gainful employment, and to continue to improve our standard of living.

Our basic problem is to carry forward the tradition of conservation, improvement, and wise use and development of our land and water resources—a policy initiated 50 years ago under the leadership of President Theodore Roosevelt. To do this within the framework of a sound fiscal policy and in the light of defense needs will require the maximum cooperation among the States and local communities, farmers, businessmen, and other private citizens, and the Federal Government. It will require the development of clear guidelines to be established by the Congress as to the proper functions of the Federal Government. It will require the revitalization of renewable resources by users who should be entitled to reasonable assurances in connection with authorized uses. It will require adherence to sound principles for the financing and the sharing of the cost of multiple-purpose land and water resource development. It will require improved Federal organization to accomplish a more logical division of responsibilities among the various Federal agencies in order that resource development programs may be carried on with the greatest efficiency and the least duplication. And it will require comprehensive river basin planning with the cooperation of State and local interests.

This administration is moving ahead in the formulation of sound organization and improved policies for the use of our soil, our public lands, and our water resources. I have requested, and the Congress has granted through Reorganization Plan No. 2, increased authority for the Secretary of Agriculture to improve the organization of the Department of Agriculture. I have recently established by Executive order a National Agricultural Advisory Commission. A review is being made of the basic power policies of the Federal Government in connection with multiple-purpose river basin development as it relates to private economic development. The Corps of Engineers is making a study of the basis for State and local financial participation in local flood protection works. There are under detailed study various proposals for dealing with the complicated problems of overlapping and duplicative authority among the several resource development agencies. And the Bureau of the Budget and the resource agencies are reviewing the present standards and procedures for evaluation and cost allocation of water resource development projects.

It is fortunate that today there is a growing recognition on the part of land users and the public generally of the need to strengthen conservation in our upstream watersheds and to minimize flood damage. Inadequate conservation measures and unsound land use patterns vastly increase the danger of loss of valuable topsoil from wind erosion in time of subnormal rainfall and from water erosion in time of floods.

This should be done as an integral part of our total flood control and water use program. In our past efforts to better utilize our water resources, to control floods and to prevent loss of life and property, we have made large investments on the major waterways of the Nation. Yet we have tended to neglect the serious waste involved in the loss of topsoil from the Nation's farms and the clogging of our streams and channels which results from erosion on the upper reaches of the small streams and tributaries of the Nation's rivers.

It is important, too, for groups of farmers banded together in local organizations, such as soil conservation districts and watershed associations, to take the initiative, with the technical advice and guidance of the appropriate Federal and State agencies in developing adequate plans for proper land use and resource improvement in watersheds throughout the Nation. As these plans are prepared and local agreement and cooperation are assured, I believe that we should move ahead in the construction of works of improvement and the installation of land treatment measures as rapidly as possible consistent with a sound overall fiscal program.

As we move forward in a cooperative and coordinated soil and water conservation program we must not overlook the essential role played by the Federal Government in the management of public lands. Approximately 50 percent of the land area of the Western States is owned and managed by a number of Federal agencies. The National Park Service administers parks and monuments having national significance. The Forest Service administers the national forests, with their valuable timberlands and grazing resources, and in cooperation with State and local interests protects critical watersheds. The Bureau of Reclamation and the Corps of Engineers manage lands in connection with water resource projects built by these agencies. Fish and wildlife are protected by the Fish and Wildlife Service. The Bureau of Indian Affairs administers Indian lands, and the great public domain remaining is administered by the Bureau of Land Management.

The Federal Government has a responsibility to manage wisely those public lands and forests under its jurisdiction necessary in the interest of the public as a whole. Important values exist in these lands for forest and mineral products, grazing (fish and wildlife, and for recreation. Moreover, it is imperative to the welfare of thousands of communities and millions of acres of irrigated land that such lands be managed to protect the water supply and water quality which come from them. In the utilization of these lands, the people are entitled to expect that their timber, minerals, streams and water supply, wildlife and recreational values should be safeguarded, improved, and made available not only for this but for future generations. At the same time, public lands should be made available for their best use under conditions that promote stability for communities and individuals and encourage full development of the resources involved.

While, as I have indicated, our major problem is to carry forward a tradition of improvement and conservation of our natural resources, the best means of achieving this objective depends on keeping up with changing conditions. For example, the problems of water-resource development in the West are undergoing considerable change. The pattern of western growth has broadened substantially in recent years. Industrial expansion has been extensive and varied. Increased activities in mineral and fuel processing have occurred. Urban expansion has been well above the national average in many communities. These developments have brought about strong competition for existing water supplies and have stimulated the need for a broader approach in planning new water-resource developments. As a consequence, the Federal role in the cooperative development of thse resources should now be reexamined in the interest of achieving a better balanced program for western growth.

Conserving and improving our land and water resources is high priority business for all of us. It is the purpose of this administration to present to the next session of the Congress suitable recommendations for achieving the objectives set forth in this message. I am confident that the studies of governmental organization and functions authorized by this Congress can also make an important contribution to the solution of these problems. As the Congress moves ahead on a constructive legislative program in the resource field, it will have my full support and cooperation. We must build a balanced program for the use and development of all our natural resources. Such a program is indispensable to maintaining and improving our standard of living as we make the future secure for a growing America.

DWIGHT D. EISENHOWER.

Adjustment of status

Sec. 6. Any alien who establishes that prior to July 1, 1953, he lawfully entered the United States as a bona fide nonimmigrant and that because of events which have occurred subsequent to his entry into the United States he is unable to return to the country of his birth, or nationality, or last residence, because of persecution or fear of persecution on account of race, religion, or political opinion, may, within one year after the effective date of this Act, apply to the Attorney General of the United States for an adjustment of his immigration status. If the Attorney General shall, upon

consideration of all the facts and circumstances of the case, determine that such alien has been of good moral character for the preceding five years and that the alien was physically present in the United States on the date of the enactment of this Act and is otherwise qualified under all other provisions of the Immigration and Nationality Act except that the quota to which he is chargeable is oversubscribed, the Attorney General shall report to the Congress all the pertinent facts in the case. If, during the session of the Congress in which a case is reported or prior to the end of the session of the Congress next following the session in which a case is reported, the Congress passes a concurrent resolution stating in substance that it approves the granting of the status of an alien lawfully admitted for permanent residence to such alien, the Attorney General is authorized, upon the payment of the required visa fee, which shall be deposited in the Treasury of the United States to the account of miscellaneous receipts, to record the alien's lawful admission for permanent residence as of the date of the passage of such concurrent resolution. If, within the above specified time, the Congress does not pass such a concurrent resolution, or, if either the Senate or the House of Representatives passes a resolution stating in substance that it does not approve the grant of the status of an alien lawfully admitted for permanent residence, the Attorney General shall thereupon deport such alien in the manner provided by law: Provided, That the provisions of this section shall not be applicable to any aliens admitted into the United States under the provisions of Public Law 584, Seventy-ninth Congress, second session (60 Stat. 754), Public Law 402, Eighteenth Congress, second session (62 Stat. 6): Provided further, That the number of aliens who shall be granted the status of aliens lawfully admitted for permanent residence pursuant to this section shall not exceed five thousand.

Assurances

Sec. 7. The spouse and unmarried dependent sons and daughters under twenty-one years of age, including stepsons and stepdaughters and sons or daughters adopted prior to July 7, 1953, of such alien, shall not be required to have such assurances made in their behalf. The assurances shall be submitted to the Administrator and it shall be the duty of the Administrator to verify the authenticity and bona fides of such assurances and such assurances shall be subject to final acceptance and approval by consular and immigration officers. Blanket assurances, or assurances not submitted by a responsible individual citizen or citizens, shall not be considered as satisfying the requirements of this section. The assurances for employment and housing shall be indexed and filed in such manner so as to show the specific address or addresses in the United States in which both the employment and housing are available, the type of employment and housing which are available, and the conditions and terms of the employment. Each assurance shall be a personal obligation of the individual citizen or citizens giving or submitting such assurance. This subsection shall have no applicability to the alien eligible under paragraph (6), (8), or (10) of section 4 (a) of this Act, if such alien provides satisfactory evidence that he will not become a public charge.

(b) Any alien admitted under this Act and subsequently determined to have been inadmissible under the provisions of this Act at the time of entry shall, irrespective of the date of his entry, be taken into custody and deported in the manner provided by sections 242 and 243 of the Immigration and Nationality Act (66 Stat. 208–214).

(c) Assistance rendered an alien in connection with his transportation to and resettlement in the United States shall not be regarded as a cause for excludability as an alien likely to become a public charge. No alien with respect to whom assurances have been furnished as provided in this section shall be deemed to be a pauper under paragraph (8) of section 212 (a) of the Immigration and Nationality Act (66 Stat. 182).

(d) No alien shall be issued a visa under this Act or be admitted into the United States unless he shall present to the consular officer at the time of making application for a visa or to the immigration officer at the time of application for admission (1) a valid unexpired passport or other suitable travel document, or document of identity or nationality, or other documentary evidence that he will be assured of readmission to the country of his nationality, foreign residence or in which he obtains a visa under this Act and (2) a certificate of readmission guaranteeing his readmission to the country in which he obtains a visa under this Act if it is subsequently found that he obtained a visa under this Act by fraud or by misrepresenting a material fact.

Intergovernmental Arrangements

Sec. 8. (a) The Secretary of State may, for the purposes of this Act, make such arrangements with foreign governments and with the Intergovernmental Committee for European Migration as are necessary and appropriate for the purpose of financing the overseas transportation of persons who may be issued visas under this Act, such arrangements to be mutually beneficial to the economies of the United States and the countries concerned, as well as to such persons. Such arrangements, where appropriate, may seek to enable immigrants under this Act to transfer into dollar currency personal assets necessary for defraying the cost of transportation and for use in the United States. Arrangements between the United States and the other governments concerned and the Intergovernmental Committee for European Migration should also provide for such cooperation and assistance as may be required in the administration of the program authorized under this Act in the territory of the intending immigrant's residence. All transportation by ships or airplanes of aliens under this Act to the United States, the cost of which is defrayed in whole or in part by the Government of the United States, shall be by ships or airplanes registered under the United States flag, if available.

Sec. 9. Within the categories established in section 4 of this Act the determination of the eligibility of persons to receive visas and of the admissibility of such persons into the United States under this Act shall be made without discrimination in favor of or against a race, religion, or the national origin of such persons.

Security and Other Investigation; Effect of Misrepresentation

Sec. 11. (a) No alien shall be issued a visa under this Act or be admitted into the United States unless there shall have first been a thorough investigation and written report made and prepared by such investigative agency or agencies of the Government of the United States as the President shall designate, regarding such person's character, reputation, mental and physical health, history and eligibility under this Act, and such investigations in each case shall be conducted in a manner and in such time as the investigative agency or agencies shall determine to be necessary.

(b) No person shall be issued a visa or be admitted into the United States under this Act if the consular officer or the immigration officer knows or has reason to believe that such person is ineligible for a visa or is subject to exclusion from the United States under any provision of the immigration laws or is not eligible under the terms of this Act.

(c) No person shall be issued a visa or be admitted into the United States under this Act unless the consular officer and the immigration officer, after an inspection and examination of such person abroad, are entirely satisfied upon the basis of affirmative evidence adduced by the applicant that the applicant has established his eligibility for a visa and his admissibility into the United States under this Act and under the immigration laws and regulations: Provided, That no person to whom a visa shall be issued shall be exempt from inspection and examination at a port of entry.

(d) No person shall be issued a visa under this Act or be admitted into the United States unless complete information shall be available regarding the history of such person covering a period of at least two years immediately preceding his application for a visa: Provided, That this provision may be waived on the recommendation of the Secretaries of State and Defense when determined by them to be in the national interest.

(e) Any person who shall make a material misrepresentation to any agency of the Government entrusted directly or indirectly with the administration, investigation, enforcement, or any other function relating to the implementation of this Act, for the purpose of gaining admission into the United States as an alien eligible hereunder, shall be excluded from admission into the United States under section 212 (a) (19) of the Immigration and Nationality Act (66 Stat. 183).

Priorities

Sec. 12. (a) Priorities in the consideration of visa applications under this Act, except in the case of applications filed under paragraph (6), (8) or (10) of section 4 (a), without priority in time of issuance of visas as between such priorities or as between priority and nonpriority cases under this Act shall be given to—

(1) Persons whose services or skills are needed in the United States, if such need has been certified to the Administrator, at his request, by the United States Employment Service and who are to be employed in a capacity calling for such services or such skills; and

(2) Persons who are (A) the parents of citizens of the United States, such citizens being at least twenty-one years of age, or (B) spouses or unmarried sons or daughters under twenty-one years of age, including stepsons or stepdaughters and sons or daughters adopted prior to July 1, 1953, of aliens lawfully admitted for permanent residence, or (C) brothers, sisters, sons or daughters of citizens of the United States.

Sec. 13. No priority in the consideration of visa applications under this Act shall be given to persons who were determined to be eligible or preliminarily eligible under the provisions of section (2) (c) of Public Law 774, Eightieth Congress, as amended, solely because such persons were determined to be so eligible or preliminarily eligible.

Persons Ineligible: Oath on Admission; Penalties

Sec. 14. (a) No visa shall be issued under this Act to any person who personally advocated or assisted in the persecution of any person or group of persons because of race, religion, or national origin.

If any alien not entitled to be issued a visa under this Act and not entitled to be admitted into the United States shall nevertheless gain admission, such alien shall, regardless of the date of his entry, be taken into custody and deported in the manner provided in sections 242 and 243 of the Immigration and Nationality Act (66 Stat. 208–214).

(c) Any person or persons who shall knowingly violate, conspire to violate, induce or attempt to induce any person to violate any provision of this Act shall be guilty of a felony, and upon conviction thereof shall be fined not more than $10,000 or shall be imprisoned not more than ten years, or both.

Sec. 16. Notwithstanding the provisions of any other law, the Secretary of the Treasury is authorized and directed to make loans not to exceed $5,000,000 in the aggregate, to public or private agencies of the United States for the purpose of financing the transportation from ports of entry within the United States to the places of their resettlement, of persons receiving immigrant visas under this Act, and who lack resources to finance the expenses involved. IMPROVEMENT OF SOCIAL SECURITY PROGRAM

The PRESIDING OFFICER (Mr. GOLDWATER in the chair) laid before the Senate the following message from the President of the United States, which was read and referred to the Committee on Finance:

To the Congress of the United States:

In my message to the Congress on the state of the Union, I pointed out that there is urgent need for making our social-security programs more effective.

I stated that the provisions of the old-age and survivor's insurance law should cover millions of our citizens who thus far have been excluded from participation in the social-security program.

Retirement systems, by which individuals contribute to their own security according to their own respective abilities, have become an essential part of our economic and social life. These systems are but a reflection of the American heritage of sturdy self-reliance which has made our country strong and kept it free; the self-reliance without which we would have had no Pilgrim Fathers, no hardship-defying pioneers, and no eagerness today to push to ever-widening horizons in every aspect of our national life.

The social-security program furnishes, on a national scale, the oppor-

tunity for our citizens, through that same self-reliance, to build the foundation for their security. We are resolved to extend that opportunity to millions of our citizens who heretofore have been unable to avail themselves of it.

The Department of Health, Education, and Welfare, with the counsel and assistance of 12 outstanding consultants, has been carefully studying the difficult technical and administrative aspects of this effort.

The Secretary of that Department has now recommended the specific additional groups which, in the judgment of the Department and its consultants, should be covered under this program. The Secretary has also recommended the means by which these additional groups can be brought into the system most equitably, with full consideration for the new groups as well as those who have heretofore contributed to the insurance system. The Secretary's recommendations would effectively carry out the objectives that I expressed in my message to the Congress on the state of the Union and I am pleased to transmit them to the Congress for its consideration.

Under the attached plan, approximately 10½ million individuals would be offered social-security protection for the first time. About 6½ million of these would be brought into the system; the remaining 4 million would be eligible for coverage under voluntary group arrangements. New groups to be covered would include self-employed farmers; many more farm workers and domestic workers than are now covered; doctors, dentists, lawyers, architects, accountants, and other professional people; members of many State and local retirement systems on a voluntary group basis; clergymen on a voluntary group basis, and several other smaller groups.

As the Committee on Ways and Means of the House of Representatives proceeds with its studies to improve the Social Security Act, I strongly commend to it this plan for the extension of coverage to most of the major groups not now covered by any social-insurance or public-retirement system. This is a specific plan for a specific purpose—the extension of coverage. Other important improvements in the Social Security Act are now under study and will be the subject of further recommendations.

There are two points about these proposals which I cannot stress too strongly. One is my belief that they would add immeasurably to the peace of mind and security of the individual citizens who would be covered for the first time under this plan; the second is my belief that they would add greatly to the national sense of domestic security. The systematic practice of setting aside funds during the productive years to build the assurance of basic retirement benefits when the productive years are over—or to one's survivors in the event of death—is important to the strength of our traditions and our economy. We must not only preserve this systematic practice, but extend it at every desirable opportunity. We now have both such an opportunity and a definite plan. I commend it to the Congress for its consideration.

DWIGHT D. EISENHOWER.

Whereas high officials of the present government of the Republic of the Philippines have taken exception to the alleged actions of United States officials in this connection on the ground that said actions favor the candidates of one political party over those of the other in the current political campaign which will culminate in a presidential election in November; and

Whereas the matter has received wide currency in the Philippines press to the extent that it has become a major controversy and issue in the forthcoming election campaign; and

Whereas the Philippine Government has been friendly and cooperative with the United States in the execution of a democratic policy in the Far East; and

Whereas the Philippine Government has repeatedly demonstrated its opposition to communism in the Far East and throughout the world; and

Whereas it is the stated policy of the United States to refrain from interference in the internal affairs of friendly nations; and

Whereas the United States maintains a special interest in and friendship for the Philippines, having at one time administered the affairs of that country as a colony and sponsored its independence: Therefore be it

Resolved, That it is the sense of the Senate that the United States emphatically restates its general policy of strict neutrality and noninterference in the internal affairs of the Republic of the Philippines and applies that policy in the current presidential election campaign in the Philippines and reaffirms its friendship for that nation.

SCHOOL CONSTRUCTION ASSISTANCE IN FEDERALLY AFFECTED AREAS

Mr. AIKEN submitted the following conference report:

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H. R. 6049) to amend Public Law 815, Eighty-first Congress, to provide a temporary program of assistance in the construction of minimum school facilities in areas affected by Federal activities, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following: *That the Act of September 23, 1950 (Public Law 815, Eighty-first Congress), is amended by adding at the end thereof the following new titles:*

"TITLE III—SCHOOL CONSTRUCTION ASSISTANCE IN AREAS WITH SUBSTANTIAL INCREASES IN FEDERALLY-CONNECTED SCHOOL CHILDREN

"Purpose and appropriation

"Sec. 301. The purpose of this title is to provide assistance for the construction

of urgently needed minimum school facilities in school districts which, since the school year 1951–1952, have had substantial increases in school membership as a result of new or increased Federal activities. There are hereby authorized to be appropriated for the fiscal year ending June 30, 1954, and the succeeding fiscal year such sums as the Congress may determine to be necessary for such purpose.

"Portion of appropriations available for payments

"Sec. 302. For each fiscal year the Commissioner shall determine the portion of the funds appropriated pursuant to section 301 which shall be available for carrying out the provisions of sections 309 and 310. The remainder of such funds shall be available for paying to local educational agencies the Federal share of the cost of projects for the construction of school facilities for which applications have been approved under section 306.

"Establishment of priorities

"Sec. 303. The Commissioner shall from time to time set dates, the last of which shall be not later than June 30, 1954, by which applications for payments under this title with respect to construction projects must be filed. If the funds appropriated under this title and remaining available on any such date for payments to local educational agencies are less than the Federal share of the cost of the projects with respect to which applications have been filed prior to such date (and for which funds under this title have not already been obligated), the Commissioner shall by regulation prescribe an order of priority, based on relative urgency of need, for approval of such applications. Only applications meeting the conditions for approval under this title (other than section 306 (b) (3)) shall be considered applications for purposes of the preceding sentence.

"Federal share for any project

"Sec. 304. Subject to section 305 (which imposes limitations on the total of the payments which may be made to any local educational agency), the Federal share of the cost of a project under this title shall be equal to such cost, but in no case to exceed the cost, in the school district of the applicant, of constructing minimum school facilities, and in no case to exceed the cost in such district of constructing minimum school facilities for the estimated number of children who will be in the membership of the schools of such agency at the close of the regular school year 1953–1954 and who will otherwise be without such facilities at such time. For the purposes of the preceding sentence, the number of such children who will otherwise be without such facilities at such time shall be determined by reference to those facilities which (A) are built or under contract as of the date set by the Commissioner under section 303 for filing applications for payments from the funds out of which such Federal share is to be paid, or (B) as of the date the application for such project is approved, are included in a project for which funds have been set aside under title II or in a project the application for which has been approved under this title.

"Limitation on total payments to any local educational agency

"Sec. 305. (a) Subject to the limitations in subsections (c) and (d), the total of the payments to a local educational agency under this title may not exceed the sum of the following:

"(1) The estimated increase, since the regular school year 1951–1952, in the number of children residing on Federal property with a parent employed on Federal property (situated in whole or in part in the same State as the school district of such agency or within reasonable commuting distance from such school district), multiplied by 95 per centum of the average per pupil cost of constructing minimum school facilities in the State in which the school district of such agency is situated; and

"(2) The estimated increase, since the regular school year 1951–1952, in the number of children residing on Federal property, or residing with a parent employed on Federal property (situated in whole or in part in the same State as the school district of such agency or within reasonable commuting distance from such school district), multiplied by 50 per centum of the average per pupil cost of constructing minimum school facilities in the State in which the school district of such agency is situated; and

"(3) The estimated increase, since the regular school year 1951–1952, in the number of children whose membership results directly from activities of the United States (carried on either directly or through a contractor), multiplied by 45 per centum of the average per pupil cost of constructing minimum school facilities in the State in which the school district of such agency is situated; but this paragraph (3) shall not apply unless the school district of such agency is partly or wholly situated within an area with respect to which, for the purposes of this Act, the President finds: (A) that a new defense plant or installation has been or is to be provided therein, or an existing defense plant or installation therein has been or is to be reactivated or its operation substantially expanded, and (B) that substantial in-migration of defense workers or military personnel is required to carry out activities at such plant or installation, and (C) after consultation with the Commissioner, that the minimum school facilities required for the free public education of the children of such defense workers or military personnel are not available. For purposes of this paragraph, the Commissioner shall not consider as activities of the United States those activities which are carried on in connection with real property excluded from the definition of Federal property by the last sentence of paragraph (1) of section 210, but shall (if the local educational agency so elects pursuant to subsection (b)) consider as children whose membership results directly from activities of the United States children residing on Federal property or residing with a parent employed on Federal property.

In computing for any local educational agency the number of children in an increase under paragraph (1), (2), or (3), the estimated number of children described in such paragraph who will be in the membership of the schools of such agency at the close of the regular school year 1953–1954 shall be compared with the estimated number of such children in the average daily membership of the schools of such agency during the regular school year 1951–1952.

"(b) If two or more of the paragraphs of subsection (a) apply to a child, the local educational agency shall elect which of such paragraphs shall apply to such child.

"(c) A local educational agency shall not be eligible to have any amount included in its maximum by reason of paragraph (1), (2), or (3) of subsection (a) unless the increase in children referred to in such paragraph, prior to the application of the limitation in subsection (d), is at least 20 and is equal to at least 5 per centum in the case of paragraph (1) or (2), and 10 per centum in the case of paragraph (3), of the number of all children who were in the average daily membership of the schools of such agency during the regular school year 1951–1952. and unless, in the case of paragraph (3), the construction of additional minimum school facilities for the number of children in such increase will, in the judgment of the Commissioner of Education, impose on undue financial burden on the taxing and borrowing authority of such agency.

"() If (1) the estimated number of non-Federally-connected children who will be in the membership of the schools of a local educational agency at the close of the regular school year 1953–1954 is less than (2) 110 per centum of the number of such children who were in the average daily membership of such agency during the regular school year 1951–1952, the total number of children counted for purposes of subsection (a) with respect to such agency shall be reduced by the difference between (1) and (2) hereof. For purposes of this subsection, all children in the membership of a local educational agency shall be counted as non-Federally-connected children except children whose membership in the school years 1951–1952 and 1953–1954 was compared in computing an increase which meets the requirements of subsection (c).

"(e) Notwithstanding the provisions of subsections (c) and (d) of this section, whenever and to the extent that, in his judgment, exceptional circumstances exist which make such action necessary to avoid inequity and avoid defeating the purposes of this title, the Commissioner may do any one or more of the following: (1) He may waive or reduce any percentage requirement or requirements in subsection (c); (2) he may waive the requirement contained in the first sentence of subsection (d) or reduce the percentage specified in clause (2) of such sentence.

"Applications

"Sec. 306. (a) No payment may be made to any local educational agency under this title except upon application therefor which is submitted through the appropriate State educational agency and is filed with the Commissioner in accordance with regulations prescribed by him.

"(b) The Commissioner shall approve any application if he finds (1) that the requirements of section 205 (b) (1) have been met and that approval of the project would not result in payments in excess of those permitted by sections 304 and 305, (2), after consultation with the State and local educational agencies, that the project is not inconsistent with over-all State plans for the construction of school facilities, and (3) that there are sufficient Federal funds available to pay the Federal share of the cost of such project and of all other projects for which Federal funds have not already been obligated and applications for which, under section 303, have a higher priority.

"(c) No application under this title shall be disapproved in whole or in part until the Commissioner of Education has afforded the local educational agency reasonable notice and opportunity for hearing.

"Payments

"Sec. 307. (a) Upon approving the application of any local educational agency under section 306, the Commissioner of Education shall pay to such agency an amount equal to 10 per centum of the Federal share of the cost of the project. After final drawings and specifications have been approved by the Commissioner of Education and the construction contract has been entered into, the Commissioner shall, in accordance with regulations prescribed by him and at such times and in such installments as may be reasonable, pay to such agency the remainder of the Federal share of the cost of the project. Payments under this title shall be made through the disbursing facilities of the Department of the Treasury and prior to audit or settlement by the General Accounting Office.

"(b) Any funds paid to a local educational agency under this title and not expended for the purposes for which paid shall be repaid to the Treasury of the United States.

"Additional payments

"Sec. 308. Sums appropriated pursuant to this title, other than sums appropriated for administration, shall remain available until expended. Not to exceed 10 per centum of the amount so appropriated for any fiscal year (exclusive of any sums appropriated for administration) may be used by the Commissioner, under regulations prescribed by him, to make grants to local educational agencies where (1) the application of such agencies would be approved under this title but for the agencies' inability, unless aided by such grants, to finance the non-Federal share of the cost of the projects set forth in their applications, or (2) although the applications of such agencies have been approved, the projects covered by such applications could not, without such grants, be completed, because of flood, fire, or similar emergency affecting either the work on the projects or the agencies' ability to finance the non-Federal share of the cost of the projects. Such grants shall be in addition to the payments otherwise provided under this title, shall be made to those local educational agencies whose need for additional aid is the most urgent and acute, and in so far as practicable shall be made in the same manner and upon the same terms and conditions as such other payments.

"Where effect of Federal activities will be temporary

"Sec. 309. Notwithstanding the preceding provisions of this title, whenever the Commissioner determines that the membership of some or all of the children, who may be included in computing under section 305 the maximum on the total of the payments for any local educational agency, will be of temporary duration only, such membership shall not be included in computing such maximum. Instead, the Commissioner may make available to such agency such temporary school facilities as may be necessary to take care of such membership; or he may, where the local educational agency gives assurance that at least minimum school facilities will be provided for such children, pay (on such terms and conditions as he deems appropriate to carry out the purposes of this title) to such agency for use in constructing school facilities an amount equal to the amount which he estimates would be necessary to make available such temporary facilities. In no case, however, may the amount so paid exceed the cost, in the school district of such agency, of constructing minimum school facilities for such children.

"Children for whom local agencies are unable to provide education

"Sec. 310. In the case of children who, it is estimated, will reside on Federal property on June 30, 1954—

"(1) if no tax revenues of the State or any political subdivision thereof may be expended for the free public education of such children; or

"(2) if it is the judgment of the Commissioner, after he has consulted with the appropriate State educational agency, that no local educational agency is able to provide suitable free public education for such children,

the Commissioner shall make arrangements for constructing or otherwise providing the minimum school facilities necessary for the education of such children. To the maximum extent practicable school facilities provided under this section shall be comparable to minimum school facilities provided for children in comparable communities in the State. This section shall not apply (A) to children who reside on Federal property under the control of the Atomic Energy Commission, and (B) to Indian children attending Federally-operated Indian schools. Whenever it will be necessary for the Commissioner to provide school facilities for children residing on Federal property under this section, the membership of such children may not be included in computing under section 305 the maximum on the total of the payments for any local educational agency.

"Withholding of payments

"Sec. 311. Whenever the Commissioner of Education, after reasonable notice and opportunity for hearing to a local educational agency, finds (1) that there is a substantial failure to comply with the drawings and specifications for the project, (2) that any funds paid to a local educational agency under this title have been diverted from the purposes for which paid, or (3) that any assurance given in an application is not being or cannot be carried out, the Commissioner may forthwith notify such agency that no further payment will be made under this title with respect to such agency until there is no longer any failure to comply or the diversion or default has been corrected or, if compliance or correction is impossible, until such agency repays or arranges for the repayment of Federal moneys which have been diverted or improperly expended.

"TITLE IV—SCHOOL CONSTRUCTION ASSISTANCE IN OTHER FEDERALLY-AFFECTED AREAS

"Sec. 401. (a) If the Commissioner determines with respect to any local educational agency that—

"(1) such agency is providing or, upon completion of the school facilities for which provision is made herein, will provide free public education for children who reside on Federal property, and whose membership in the schools of such agency has not formed and will not form the basis for payments under title II or III of this Act, and that the total number of such children represents a substantial percentage of the total number of children for whom such agency provides free public education;

"(2) the immunity of such Federal property to taxation by such agency has created a substantial and continuing impairment of its ability to finance needed school facilities;

"(3) such agency is making a reasonable tax effort and is exercising due diligence in availing itself of State and other financial assistance available for the purpose; and

"(4) such agency does not have sufficient funds available to it from other Federal, State, and local sources to provide the minimum school facilities required for free public education in its school district,

he may provide the additional assistance necessary to enable such agency to provide such facilities, upon such terms and in such amounts (subject to the provisions of this section) as the Commissioner may consider to be in the public interest; but such additional assistance may not exceed the portion of the cost of such facilities which the Commis-

sioner estimates is attributable to children who reside on Federal property, and which has not been, and is not to be, recovered by the local educational agency from other sources, including payments by the United States under any other provisions of this Act or any other law.

"(b) There are hereby authorized to be appropriated for the fiscal year ending June 30, 1954, and the succeeding fiscal year such sums, not to exceed $20,000,000 in the aggregate, as may be necessary to carry out the provisions of this section. There are also authorized to be appropriated such sums as may be necessary for administration of such provisions. Amounts so appropriated, other than amounts appropriated for administration, shall remain available until expended, except that after June 30, 1955, no agreement may be made to extend assistance under this section.

"(c) No payment may be made to any local educational agency under subsection (a) except upon application therefor which is submitted through the appropriate State educational agency and is filed with the Commissioner in accordance with regulations prescribed by him, and which meets the requirements of section 205 (b) (1). In determining the order in which such applications shall be approved, the Commissioner shall consider the relative educational and financial needs of the local educational agencies which have submitted approvable applications and the nature and extent of the Federal responsibility. No payment may be made under subsection (a) unless the Commissioner finds, after consultation with the State and local educational agencies, that the project or projects with respect to which it is made are not inconsistent with over-all State plans for the construction of school facilities. All determinations made by the Commissioner under this section shall be made only after consultation with the appropriate State educational agency and the local educational agency.

"(d) Amounts paid by the Commissioner to local educational agencies under subsection (a) may be paid in advance of, or by way of reimbursement for, work performed or purchases made pursuant to the agreement with the Commissioner under this title, and may be paid in such installments as the Commissioner may determine. All such payments shall be made through the disbursing facilities of the Department of the Treasury and prior to audit or settlement by the General Accounting Office. Any funds paid to a local educational agency and not expended or otherwise used for the purposes for which paid shall be repaid to the Treasury of the United States."

Sec. 2. (a) Section 205 (b) (1) (F) of such Act is amended by striking out "title" and inserting "Act" in lieu thereof.

(b) Section 207 (b) of such Act is amended by inserting "or title III" after "this title" and inserting "or under section 311" after "this section".

(c) Section 209 (a) of such Act is amended by striking out "title" and inserting "Act" in lieu thereof.

(d) Section 209 (b) of such Act is amended by striking out "title" and inserting "Act" in lieu thereof.

(e) Section 209 (c) of such Act is amended by inserting after the first sentence the following new sentence: "There are hereby authorized to be appropriated for the fiscal year ending June 30, 1954, such sums as may be necessary to carry out the provisions of this title other than sections 203 and 204; but such sums (exclusive of any sums appropriated for administration) shall not exceed $55,000,000 in the aggregate. Sums appropriated pursuant to the preceding sentence shall be available for paying unpaid entitlements, but no local educational agency shall be paid from such sums an amount which exceeds 70 per centum of its unpaid entitlement. For the purposes of the preceding sentence, the term 'unpaid entitlement' means the amount which the Commissioner would be authorized to pay to a local educational agency from funds appropriated before July 1, 1953, to carry out this title, if such funds were sufficient to make such payment, but which cannot be paid from such funds; except that such amount shall not include any amount to reimburse such agency for any expenditure for construction of school facilities under a contract entered into before September 30, 1950."

(f) Section 209 (e) of such Act is amended by striking out "title" each time it appears in such section and inserting "Act" in lieu thereof, by striking out "June 30, 1953" and inserting "June 30, 1955" in lieu thereof, and by inserting "authorized, prior to the date of enactment of this Act, for the construction of school facilities to be attended by Indian children or appropriations" immediately before clause (1) thereof.

(g) The second sentence of section 210 (1) of such Act is amended to read as follows: "Such term includes real property which is owned by the United States and leased therefrom and the improvements thereon, even though the lessee's interest, or any improvement on such property, is subject to taxation by a State or a political subdivision of a State or by the District of Columbia." The last sentence of such section 210 (1) is amended by striking out "Such" and inserting in lieu thereof "Notwithstanding the foregoing provisions of this paragraph, such".

(h) Section 210 (5) of such Act is amended to read as follows:

"(5) Average daily attendance at, and the membership and average daily membership of, schools shall be determined in accordance with State law or, in the absence of State law governing such a determination, in accordance with regulations of the Commissioner; except that, notwithstanding any other provision of this title, title III, or title IV, where the local educational agency of the school district in which any child resides makes or contracts to make a tuition payment for the free public education of such child in a school situated in another school district, for purposes of this title the attendance of such child, and for purposes of titles III and IV the membership of such child, shall be held and considered—

"(A) if the two local educational agencies concerned so agree, and if such agreement is approved by the Commissioner, as attendance at (or membership of) a school of the local educational agency receiving such tuition payment;

"(B) in the absence of any such approved agreement, as attendance at (or membership of) a school of the local educational agency so making or contracting to make such tuition payment.

In any determination of average daily attendance at or membership of schools, children who are not provided free public education (as defined in paragraph (4)) shall not be counted."

(i) Section 210 (7) of such Act is amended by inserting "or minimum" after "complete" in the first sentence thereof and by adding at the end thereof the following new sentence: "The cost of constructing minimum school facilities in the school district of a local educational agency shall be determined by the Commissioner, after consultation with the State and local educational agencies, on the basis of such information as may be contained in the application of such local educational agency and such other information as he may obtain."

(j) The last sentence of section 210 (10) of such Act is amended to read: "Except as used in sections 203, 204, 309, and 310, such term does not include interests in land and off-site improvements."

(k) Section 210 (11) of such Act is amended by inserting at the end thereof the following new sentence: "Whether or not school facilities are minimum school facilities shall be determined by the Commissioner, after consultation with the State and local educational agencies, in accordance with regulations prescribed by him."

(l) The second sentence of section 210 (12) of such Act it amended by inserting before the period at the end thereof "or which has responsibility for the provision of such facilities."

(m) Section 105 (a) of such Act is amended by striking out "title" and inserting "Act" in lieu thereof.

Sec. 3. The amendments made by the preceding sections of this Act shall become effective July 1, 1953.

And the Senate agree to the same.

EXPENSES OF SCHOOL DISTRICTS AFFECTED BY FEDERAL ACTIVITIES

Mr. AIKEN submitted the following conference report:

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H. R. 6078) to amend Public Law 874 of the Eighty-first Congress so as to make improvements in its provisions and extend its duration for a two-year period, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate and agree to the same with an amendment as follows: In lieu of the matter proposed to be inserted by the Senate amendment insert the following: *That (a) the first sentence of section 2 (a) of the Act of September 30, 1950 (Public Law 874, Eighty-first Congress), is amended by striking out "three succeeding fiscal years" and inserting in lieu thereof "five succeeding fiscal years".*

(b) Such section 2 (a) is further amended by inserting "with respect to the property so acquired" after the phrase "other Federal payments" wherever such phrase appears therein.

(c) Section 2 (b) (1) of such Act is amended by inserting after "Act" the following: ", and property taxes paid with respect to Federal property, whether or not such taxes are paid by the United States".

Sec. 2. (a) (1) Subsections (a) and (b) of section 3 of such Act are amended to read as follows:

"Children Residing on, or Whose Parents Are Employed on, Federal Property

"Children of persons who reside and work on Federal property

"Sec. 3. (a) For the purpose of computing the amount to which a local educational agency is entitled under this section for any fiscal year ending prior to July 1, 1956, the Commissioner shall determine the number of children who were in average daily attendance at the schools of such agency, and for whom such agency provided free public education, during the preceding fiscal year, and who, while in attendance at such schools, resided on Federal property and (1) did so with a parent employed on Federal property situated in whole or in part in the same State as the school district of such agency or situated within reasonable commuting distance from the school district of such agency, or (2) had a parent who was on active duty in the uniformed services (as defined in section 102 of the Career Compensation Act of 1949).

"Children of persons who reside or work on Federal property

"(b) For such purpose, the Commissioner shall also determine the number of children who were in average daily attendance at the schools of a local educational agency, and for whom such agency provided free public education, during the preceding fiscal year (other than those specified in subsection (a) hereof) and who, while in attendance at such schools, either resided on Federal property, or resided with a parent employed on Federal property situated in whole or in part in the same State as such agency or situated within reasonable commuting distance from the school district of such agency."

(2) Such section is further amended by striking out subsections (d), (e), and (f), by redesignating subsections (c) and (g) as subsections (d) and (e), respectively, and by inserting after subsection (b) the following new subsection:

"Computation of amount of entitlement

"(c) (1) The amount to which a local educational agency is entitled under this section for any fiscal year ending prior to July 1, 1956, shall be an amount equal to (A) the local contribution rate (determined under subsection (d) multiplied by (B) the sum of the number of children determined under subsection (a) and one-half of the number determined under subsection (b), minus 3 per centum of the difference between such sum and the total number of children who were in average daily attendance at the schools of such agency, and for whom such agency provided free public education, during the preceding fiscal year; except that no local educational agency shall be entitled to any payment under this section for any fiscal year unless the sum of the number of children determined under subsection (a) and one-half of the number of children determined under subsection (b) is ten or more. Notwithstanding the foregoing provisions of this paragraph, whenever and to the extent that, in his judgment, exceptional circumstances exist which make such action necessary to avoid inequity and avoid defeating the purposes of this Act, the Commissioner may waive or reduce the 3 per centum deduction, or the requirement of ten or more children, contained in this paragraph, or both.

"(2) If—

"(A) the amount computed under paragraph (1) for a local educational agency for any fiscal year ending prior to July 1, 1956, together with the funds available to such agency from State, local, and other Federal sources (including funds available under section 4 of this Act) is, in the judgment of the Commissioner, less than the amount necessary to enable such agency to provide a level of education equivalent to that maintained in the school districts of the State which, in the judgment of the Commissioner, are generally comparable to the school district of such agency;

"(B) such agency is, in the judgment of the Commissioner, making a reasonable tax effort and exercising due diligence in availing itself of State and other financial assistance;

"(C) not less than 50 per centum of the total number of children who were in average daily attendance at the schools of such agency, and for whom such agency provided free public education, during the preceding fiscal year resided on Federal property; and

"(D) effective for the fiscal year beginning July 1, 1955, the eligibility of such agency under State law for State aid with respect to the free public education of children residing on Federal property, and the amount of such aid, is determined on a basis no less favorable to such agency than the basis used in determining the eligibility of local educational agencies for State aid, and the amount thereof, with respect to the free public education of other children in the State,

the Commissioner may increase the amount computed under paragraph (1) to the extent necessary to enable such agency to provide a level of education equivalent to that maintained in such comparable school districts, except that this paragraph shall in no case operate to increase the amount computed for any fiscal year under paragraph (1) for a local educational agency above the amount determined by the Commissioner to be the cost per pupil of providing a level of education equivalent to that maintained in such comparable school districts, multiplied by the number of children who were in average daily attendance at the schools of such agency, and for whom such agency provided free public education, during the preceding year and who resided on Federal property during such preceding year, minus the amount of State aid which the Commissioner determines to be available with respect to such children for the year for which the computation is being made."

(b) (1) So much of the subsection of such section 3 herein redesignated as subsection (d) as precedes clause (1) thereof is amended to read as follows:

"Local contribution rate

"(d) The local contribution rate for a local educational agency (other than a local educational agency in Alaska, Hawaii, Puerto Rico, Wake Island, or the Virgin Islands) for any fiscal year shall be computed by the Commissioner of Education, after consultation with the State educational agency and the local

educational agency, in the following manner:"

(2) Clause (1) of such subsection is amended by striking out "most nearly comparable" and inserting in lieu thereof "generally comparable".

(c) Such subsection is further amended by adding at the end thereof the following new sentences: "In no event shall the local contribution rate for any local educational agency in any State in the continental United States for any fiscal year be less than 50 per centum of (i) the aggregate current expenditures, during the second fiscal year preceding such fiscal year, made by all local educational agencies in such State (without regard to the source of the funds from which such expenditures were made), divided by (ii) the aggregate number of children in average daily attendance to whom such agencies provided free public education during such second preceding fiscal year. The local contribution rate for any local educational agency in Alaska, Hawaii, Puerto Rico, Wake Island, or the Virgin Islands, shall be determined for any fiscal year by the Commissioner in accordance with policies and principles which will, in his judgment, best effectuate the purposes of this Act and most nearly approximate the policies and principles provided herein for determining local contribution rates in other States."

(d) The subsection of such section herein redesignated as subsection (e) is amended by inserting "(other than subsection (c) (2) thereof)" after "this section". The second parenthetical clause contained in such subsection is amended to read as follows: "(but only to the extent such payments are not deducted under the last sentence of section 2 (a); and, in the case of Federal payments representing an allotment to the local educational agency from United States Forestry Reserve funds, Taylor Grazing Act funds, United States Mineral Lease Royalty funds, Migratory Bird Conservation Act funds, or similar funds, only to the extent that children who reside on or with a parent employed on the property with respect to which such funds are paid are included in determining the amount to which such agency is entitled under this section)".

Sec. 3. Subsection (a) of section 4 of such Act is amended to read as follows:

"Increases hereafter occurring

"Sec. 4. (a) If the Commissioner determines for any fiscal year ending prior to July 1, 1956—

"(1) that, as a direct result of activities of the United States (carried on either directly or through a contractor), an increase in the number of children in average daily attendance at the schools of any local educational agency has occurred in such fiscal year, which increase so resulting from activities of the United States is equal to at least 5 per centum of the number of all children in average daily attendance at the schools of such agency during the preceding fiscal year; and

"(2) that such activities of the United States have placed on such agency a substantial and continuing financial burden; and

"(3) that such agency is making a reasonable tax effort and is exercising due diligence in availing itself of State and other financial assistance but is unable to secure sufficient funds to meet the increased educational costs involved,

then such agency shall be entitled to receive for such fiscal year an amount equal to the product of—

"(A) the number of children which the Commissioner determines to be the increase, so resulting from activities of the United States, in such year in average daily attendance; and

"(B) the amount which the Commissioner determines to be the current expenditures per child necessary to provide free public education to such additional children during such year, minus the amount which the Commissioner determines to be available from State, local, and Federal sources for such purpose (not counting as available for such purpose either payments under section 2 of this Act or funds from local sources necessary to provide free public education to other children).

For the next fiscal year (except where the determination under the preceding sentence has been made with respect to the fiscal year ending June 30, 1956) such agency shall be entitled to receive 50 per centum of such product, but not to exceed for such year the amount which the Commissioner determines to be necessary to enable such agency, with the State, local, and other Federal funds available to it for such purpose, to provide a level of education equivalent to that maintained in the school districts in such State which in his judgment are generally comparable to the school district of such agency. The determinations whether an increase has occurred for purposes of clause (1) hereof and whether such increase meets the 5 per centum requirement contained in such clause, for any fiscal year, shall be made on the basis of estimates by the Commissioner made prior to the close of such year, except that an underestimate made by the Commissioner pursuant to the foregoing provisions of this sentence shall not operate to deprive an agency of its entitlement to any payments under this section to which it would be entitled had the estimate been accurate. The determination under clause (B) shall be made by the Commissioner after considering the current expenditures per child in providing free public education in those school districts in the State which, in the judgment of the Commissioner, are generally comparable to the school district of the local educational agency for which the computation is being made."

Sec. 4. Subsection (c) of section 4 of such Act is amended to read as follows:

"Counting of certain children

"(c) In determining under subsection (a) whether there has been an increase in attendance in any fiscal year directly resulting from activities of the United States and the number of children with respect to whom payment is to be made for any fiscal year, the Commissioner shall not count children whose attendance is attributable to activities of the United States carried on in connection with real property which has been excluded from the definition of Federal property by the last sentence of paragraph (1) of section 9, but shall count as an increase directly resulting from activities of the United States an increase in the number of children who reside on Federal property or reside with a parent employed on Federal property."

Sec. 5. Subsection (d) of section 4 of such Act is amended to read as follows:

"Adjustment for certain decreases in Federal activities

"(d) Whenever the Commissioner determines that—

"(1) a local educational agency has made preparations to provide during a fiscal year free public education for a certain number of children to whom subsection (a) applies;

"(2) such preparations were in his judgment reasonable in the light of the information available to such agency at the time such preparations were made; and

"(3) such number has been substantially reduced by reason of a decrease in or cessation of Federal activities or by reason of a failure of any such activities to occur,

the amount to which such agency is otherwise entitled under this section for such year shall be increased to the amount to which, in the judgment of the Commissioner, such agency would have been entitled but for such decrease in or cessation of Federal activities or the failure of such activities to occur, minus any reduction in current expenditures for such year which the Commissioner determines that such agency has effected, or reasonably should have effected, by reason of such decrease in or cessation of Federal activities or the failure of such activities to occur."

Sec. 6. Subsection (b) of section 5 of such Act is amended to read as follows:

"Payment

"(b) The Commissioner shall, subject to the provisions of subsection (c), from time to time pay to each local educational agency, in advance or otherwise, the amount which he estimates such agency is entitled to receive under this Act. Such estimates shall take into account the extent (if any) to which any previous estimate of the amount to be paid such agency under this Act (whether or not in the same fiscal year) was greater or less than the amount which should have been paid to it. Such payments shall be made through the disbursing facilities of the Department of the Treasury and prior to audit or settlement by the General Accounting Office."

Sec. 7. Subsection (c) of section 5 of such Act is amended to read as follows:

"Adjustments where necessitated by appropriations

"(c) If the funds appropriated for a fiscal year for making the payments provided in this Act are not sufficient to pay in full the total amounts which the Commissioner estimates all local educational agencies will be entitled to receive under this Act for such year, the Commissioner shall, subject to any limitation contained in the Act appropriating such funds, allocate such funds, other than so much thereof as he estimates to be required for section 6, among sections 2, 3, and 4 (a) in the proportion that the amount he estimates to be required under each such section bears to the total estimated to be required under all such sections. The amount thus allocated to any such section shall be available for payment of a percentage of the amount to which each local educational agency is entitled under such section (including, in the case of section 3, any increases under subsection (c) (2) thereof), such percentage to be equal to the percentage which the amount thus allocated to such section is of the amount to which all such agencies are entitled under such section. In case the amount so allocated to a section for a fiscal year exceeds the total to which all local educational agencies are entitled under such section for such year or in case additional funds become available for carrying out such sections, the excess, or such additional funds, as the case may be, shall be allocated by the Commissioner, among the sections for which the previous allocations are inadequate, on the same basis as is provided above for the initial allocation."

Sec. 8. (a) Section 6 of such Act is amended by inserting "(a)" after "Sec. 6."

(b) Such section is further amended by striking out the second sentence and inserting the following in lieu thereof: "To the maximum extent practicable, the local educational agency, or the head of the Federal department or agency, with which any arrangement is made under this section shall take such action as may be necessary to ensure that the education provided pursuant to such arrangement is comparable to free public education provided for children in comparable communities in the State, or, in the case of education provided under this section outside the continental United States, Alaska, and Hawaii, comparable to free public education provided for children in the District of Columbia. For the purpose of providing such comparable education, personnel may be employed without regard to the civil-service or classification laws."

(c) Such section is further amended by adding at the end thereof the following new subsections:

"(b) In any case in which the Commissioner makes such arrangements for the provision of free public education in facilities situated on Federal property, he may also make arrangements for providing free public education in such facilities for children residing in any area adjacent to such property with a parent who, during some portion of the fiscal year in which such education is provided, was employed on such property, but only if the Commissioner determines after consultation with the appropriate State educational agency (1) that the provision of such education is appropriate to carry out the purposes of this Act, (2) that no local educational agency is able to provide suitable free public education for such children, and (3) in any case where in the judgment of the Commissioner the need for the provision of such education will not be temporary in duration, that the local educational agency of the school district in which such children reside, or the State educational agency, or both, will make reasonable tuition payments to the Commissioner for the education of such children. Such payments may be made either directly or through deductions from amounts to which the local educational agency is entitled under this Act, or both, as may be agreed upon between such agency and the Commissioner. Any amounts paid to the Commissioner by a State or local educational agency pursuant to this section shall be covered into the Treasury as miscellaneous receipts.

"(c) In any case in which the Commissioner makes arrangements under this section for the provision of free public education in facilities situated on Federal property in Puerto Rico, Wake Island, or the Virgin Islands, he may also make arrangements for providing free public education in such facilities for children residing with a parent employed by the United States, but only if the Commissioner determines after consultation with the appropriate State educational agency (1) that the provision of such education is appropriate to carry out the purposes of this Act, and (2) that no local educational agency is able to provide suitable free public education for such children.

"(d) The Commissioner may make an arrangement under this section only with a local educational agency or with the head of a Federal department or agency administering Federal property on which children reside who are to be provided education pursuant to such arrangement. Arrangements may be made under this section only for the provision of education in facilities of a local educational agency or in facilities situated on Federal property.

"(e) To the maximum extent practicable, the Commissioner shall limit the total payments made pursuant to any such arrangement for educating children within the continental United States, Alaska, or Hawaii, to an amount per pupil which will not exceed the per pupil cost of free public education provided for children in comparable communities in the State. The Commissioner shall limit the total payments made pursuant to any such arrangement for educating children outside the continental United States, Alaska, or Hawaii, to an amount per pupil which will not exceed the amount he determines to be necessary to provide education comparable to the free public education provided for children in the District of Columbia.

"(f) In the administration of this section, the Commissioner shall not exercise any direction, supervision, or control over the personnel, curriculum, or program of instruction of any school or school system."

Sec. 9. (a) Effective as of July 1, 1953, subsection (a) of section 8 of such Act is amended by adding the following new sentence at the end thereof: "The Commissioner is authorized to delegate to any officer or employee of the Office of Education any of his functions under this Act except the making of regulations."

(b) Effective as of July 1, 1953, subsection (d) of section 8 of such Act is amended to read as follows:

"(d) No appropriation to any department or agency of the United States, other than an appropriation to carry out this Act, shall be available during the period beginning July 1, 1953, and ending June 30, 1956, for the employment of teaching personnel for the provision of free public education for children in any State or for payments to any local educational agency (directly or through the State educational agency) for free public education for children, except that nothing in the foregoing provisions of this subsection shall affect the availability of appropriations for the maintenance and operation of school facilities (1) on Federal property under the control of the Atomic Energy Commission or (2) by the Bureau of Indian Affairs."

Sec. 10. (a) The second sentence of section 9 (1) of such Act is amended to read as follows: "Such term includes real property which is owned by the United States and leased therefrom and the improvements thereon, even though the lessee's interest, or any improvement on such property, is subject to taxation by a State or a political subdivision of a State or by the District of Columbia." The last sentence of such section 9 (1) is amended by striking out "Such" and inserting in lieu thereof "Notwithstanding the foregoing provisions of this paragraph, such".

(b) Section 9 (8) of such Act is amended by inserting "Wake Island," after "Puerto Rico,".

Sec. 11. Such Act is amended by adding at the end thereof the following new section:

"Election to receive certain payments with respect to the education of Indian children

"Sec. 10. (a) The Governor of any State may elect to have the provisions of this section apply with respect to such State for the fiscal year ending June 30, 1955, or the succeeding fiscal year. Notice of such an election shall be filed with the Secretary of the Interior and with the Commissioner of Education (1) before January 1, 1954, in the case of an election for the fiscal year ending June 30, 1955, and (2) before January 1, 1955, in the case of an election for the fiscal year ending June 30, 1956.

"(b) Whenever the Governor of a State has made such an election and has so filed notice thereof, then with respect to such State for the fiscal year for which such election was made—

"(1) an Indian child who does not meet the requirements of clause (1) of section 3 (a) shall be deemed to meet such requirements if neither of his parents was regularly employed on non-Federal property; and

"(2) notwithstanding the second sentence of section 9 (2), the term 'child' as used in this Act (other than section 6) shall be deemed to include an Indian child.

"(c) As used in this section, the term 'Indian child' means any child of one-fourth or more degree of Indian blood who is recognized as such under the laws of the United States relating to Indian affairs."

Sec. 12. (a) Except where a different effective date is specified, the amendments made by the preceding sections of this Act shall become effective July 1, 1954. In the case of any local educational agency which is entitled to payments for the fiscal year ending June 30, 1954, under section 4 (a) of the Act of September 30, 1950, as in effect prior to the enactment of this Act, with respect to an increase in average daily attendance occurring in such fiscal year, such agency shall be entitled to payments for the fiscal year ending June 30, 1955, in accordance with the provisions following clause (B) of such section as amended by this Act; and for such purpose the amount to which such agency is so entitled for the fiscal year ending June 30, 1954, shall be deemed to be the product referred to in such section as amended by this Act.

(b) The amendments made by the following provisions of this Act shall become effective as of July 1, 1953:

(1) Subsections (b) and (c) of the first section;

(2) Subsections (b) (1) and (c) of section 2, and the second sentence of subsection (d) of such section 2;

FELICITATIONS OF THE PRESIDENT

THE WHITE HOUSE,
Washington, August 3, 1953.

The Honorable RICHARD M. NIXON,
The Vice President of the United States,
Washington, D. C.

DEAR MR. VICE PRESIDENT: As the 1st session of the 83d Congress comes to an end, I want to extend my warm thanks and appreciation to the Members of the Senate for what they have accomplished during the past 7 months. For my part, I am truly grateful for the cooperative spirit you have displayed toward the executive branch during this session. The Congress has been confronted with many grave problems in both the domestic and foreign fields, and I believe that its record will be recognized as one that advances the Nation substantially toward the goals sought by our people.

Each of you has my very best wishes as you return to your homes. I realize that there will be little respite from work in your home States, but there will be much profit in the exchange of views with constituents and in the reexamination of local problems. I know that all of you will return to Washington next year with new vigor and strength of purpose to cope with the tasks that lie ahead.

Sincerely,

DWIGHT EISENHOWER.

PRESIDENTIAL DISAPPROVALS

The President of the United States, subsequent to the sine die adjournment of the 1st session of the 83d Congress, transmitted to the Secretary of the Senate a statement of his disapproval of the following Senate bills, with his reasons for such action, as follows:

On August 7, 1953:

ETHEL HUDSON MORRISON

S. 754. I am withholding approval from S. 754, for the relief of Ethel Hudson Morrison.

This measure was enacted to overcome, for the benefit of the claimant, the provisions of the general law governing entitlement to the remaining proceeds of a national service life insurance policy which matured in July 1943. It does this by resorting to legislative directive requiring the Administrator of Veterans' Affairs to assume, in the administration of the National Service Life Insurance Act of 1940, as amended, that the claimant "stood in loco parentis" to the insured and that she was the "designated sole contingent beneficiary" of his insurance policy.

The facts in this case are not disputed. The policy of the deceased designated his mother as principal beneficiary and the claimant, Ethel Hudson Morrison and William McKee Morrison, Jr., aunt and cousin, respectively, as contingent beneficiaries. The mother died in 1948. The aunt alone seeks to recover the remaining unpaid installments under the policy.

Prior to August 1, 1946, the law governing national service life insurance policies did not permit either an aunt or a cousin to be named as a beneficiary. The law did recognize, as proper beneficiaries persons who, under certain circumstances, stood in loco parentis to the insured. Mrs. Morrison attempted, unsuccessfully, to establish such a relationship. The original application was administratively denied, and affirming decision of the Board of Veterans' Appeals was not appealed to the courts, as was the claimant's right.

I consider this measure unacceptable for a number of reasons:

First. It is desirable, generally, in accordance with the right granted by the National Service Life Insurance Act of 1940, as amended, that disagreements with rulings of the Veterans' Administration be reviewed by the courts, thus exhausting all the remedies provided by the terms of general legislation.

Second. The directives of the bill, in providing for this claimant alone, seemingly defeat the intent of the insured that the cousin also should share. I find nothing in the record of the case to justify or explain setting aside the wishes of the insured in this respect.

Third. The National Service Life Insurance trust fund would become obligated for the liability were the bill approved. In view of the contract rights of existing policyholders, I share the doubt of the Veterans' Administration as to the legality of the proposed action.

Fourth. This legislative overruling of the decision of the Board of Veterans' Appeals seems to be based only on the less dominant considerations of the in loco parentis proceedings. Nowhere in the legislative history is any reason advanced for dismissing the considerations which the administrative decision found dominant and controlling. Even though Mrs. Morrison did care for the insured after his father's death, the fact remains that he was at no time actually living apart from his mother.

Far more fundamental is the objection I have heretofore expressed to setting aside the principles and rules of administration prescribed in the general laws governing veterans' benefit programs. Uniformity and equality of

treatment to all who are similarly situated must be the rule if the Federal programs for veterans and their beneficiaries are to be operated successfully. Otherwise, inequity is added to inequity, as is fully revealed by statistics reported by the Veterans' Administration. More than 3,200 claims of designated beneficiaries for the proceeds of national service life insurance have been denied because they were not within the permitted classes of beneficiaries. There may be cases in which the circumstances are unique and justify waiver of the law. In my judgment, this is not such a case.

DWIGHT D. EISENHOWER.

THE WHITE HOUSE, *August 7, 1953.*

MARY THAILA WOMACK WEBB

S. 953. I am withholding my approval from S. 953, an act for the relief of Mary Thaila Womack Webb.

This measure, in providing a special exception from the general laws administered by the Veterans' Administration, would render this claimant potentially eligible to receive a pension for the nonservice-connected death of a veteran of World War I. It does this by resorting to a legislative directive that she shall "be deemed to be the widow" of the deceased veteran.

Under existing law the establishment of legal widowhood is prerequisite to death benefits administered by the Veterans' Administration. The claimant cannot meet this prescription because a prior marriage of the veteran was never legally dissolved. Both the veteran and the beneficiary had a contrary belief, and they married in good faith. The Congress has accepted the good faith of the claimant in entering into the marriage and the belief that she was the legal wife of the veteran during the 18 years of their association.

I understand fully the motivation of the action taken by the Congress in this case but I cannot agree that the principles and rules of administration prescribed in the general law should be set aside except in unique and most compelling circumstances of equity. The Federal programs for veterans and their beneficiaries, if they are to be successful, require unswerving uniformity of rule and equality of treatment to all who are similarly situated. If the law is to be changed, it should be changed for all.

We must not, in this benefits field, heed the special plea or the emotional appeal of the hardship case. Legal requirements of fact should not be supplanted by fiat or legislative fiction applying to an individual. To do so would result only in the compounding of inequities, as is apparent from statistics reported by the Veterans' Administration. More than 2,700 claims for death benefits were disallowed by the Veterans' Administration during the last fiscal year for the reason that relationship to the deceased veteran could not be established. I am informed that at least a majority were cases similar to that of the present claimant.

In the light of these facts I could take no other action than to withhold approval of this bill.

DWIGHT D. EISENHOWER.
