

STATUTORY LEGISLATIVE PROCEDURES

§ 1130(13)

“(2) The other events permitting an exercise of authority under this subsection are either—

“(A) an adjustment under section 5303 of title 5, United States Code, in rates of pay under the General Schedule; or

“(B) an adjustment in rates of pay for Members of the House of Representatives (other than an adjustment which occurs by virtue of an adjustment described in subparagraph (A)).

“(3) The pay relationship described in this paragraph is the relationship in existence as of the effective date of the amendments made by section 212 of the Legislative Branch Appropriations Act, 2020 between—

“(A) an annual rate of pay of \$173,900; and

“(B) the annual rate of pay of a Member of the House of Representatives who is not the Speaker, Majority Leader, or Minority Leader of the House.

“(4) For the purpose of this subsection, the term ‘Member of the House of Representatives’ means a Member of the House of Representatives, a Delegate to the House of Representatives, and the Resident Commissioner from Puerto Rico.”

13. Energy Policy and Conservation Act [42 U.S.C. 6421]

PART C—CONGRESSIONAL REVIEW

PROCEDURE FOR CONGRESSIONAL REVIEW OF PRESIDENTIAL REQUESTS TO IMPLEMENT CERTAIN AUTHORITIES

SEC. 551. (a) For purposes of this section, the term “energy action” means any matter required to be transmitted, or submitted to the Congress in accordance with the procedures of this section.

(b) The President shall transmit any energy action (bearing an identification number) to both Houses of Congress on the same day. If both Houses are not in session on the day any energy action is received by the appropriate officers of each House, for purposes of this section such energy action shall be deemed to have transmitted on the first succeeding day on which both Houses are in session.

(c)(1) Except as provided in paragraph (2) of this subsection, if energy action is transmitted to the Houses of Congress, such action shall take effect at the end of the first period of 15 calendar days of continuous session of Congress after the date on which such action is transmitted to such Houses, unless between the date of transmittal and the end of such 15-day period, either House

passes a resolution stating in substance that such House does not favor such action.

(2) An energy action described in paragraph (1) may take effect prior to the expiration of the 15-calendar-day period after the date on which such action is transmitted, if each House of Congress approves a resolution affirmatively stating in substance that such House does not object to such action.

(d) For the purpose of subsection (c) of this section—

(1) continuity of session is broken only by an adjournment of Congress sine die; and

(2) the days on which either House is not in session because of an adjournment of more than 3 days to a day certain are excluded in the computation of the 15-calendar-day period.

(e) Under provisions contained in an energy action, a provision of such an action may take effect on a date later than the date on which such action otherwise takes effect pursuant to the provisions of this section.

(f)(1) This subsection is enacted by Congress—

(A) as an exercise of the rulemaking power of the Senate and the House of Representatives, respectively, and as such it is deemed a part of the rules of each House, respectively, but applicable only with respect to the procedure to be followed in that House in the case of resolutions described by paragraph (2) of this subsection; and it supersedes other rules only to the extent that is inconsistent therewith; and

(B) with full recognition of the constitutional right of either House to change the rules (so far as relating to the procedure of that House) at any time, in the same manner and to the same extent as in the case of any other rule of the House.

(2) For purposes of this subsection, the term “resolution” means only a resolution of either House of Congress described in subparagraph (A) or (B) of this paragraph.

(A) A resolution the matter after the resolving clause of which is as follows: “That the _____ does not object to the energy action numbered _____ submitted to the Congress on _____, 19__,” the first blank space therein being filled with the name of the resolving House and the other blank spaces being appropriately filled; but does not include a resolution which specifies more than one energy action.

(B) A resolution the matter after the resolving clause of which is as follows: “That the _____ does

STATUTORY LEGISLATIVE PROCEDURES

§ 1130(13)

not favor the energy action numbered ____ transmitted to Congress on _____, 19__.”, the first blank space therein being filled with the name of the resolving House and other blank spaces therein being appropriately filled; but does not include a resolution which specifies more than one energy action.

(3) A resolution once introduced with respect to an energy action shall immediately be referred to a committee (and all resolutions with respect to the same plan shall be referred to the same committee) by the President of the Senate or the Speaker of the House of Representatives, as the case may be.

(4)(A) If the committee to which a resolution with respect to an energy action has been referred has not reported it at the end of 5 calendar days after its referral, it shall be in order to move either to discharge the committee from further consideration of such resolution or to discharge the committee from further consideration of any other resolution with respect to such energy action which has been referred to the committee.

(B) A motion to discharge may be made only by an individual favoring the resolution, shall be highly privileged (except that it may not be made after the committee has reported a resolution with respect to the same energy action), and debate thereon shall be limited to not more than one hour, to be divided equally between those favoring and those opposing the resolution. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

(C) If the motion to discharge is agreed to or disagreed to, the motion may not be renewed, nor may another motion to discharge the committee be made with respect to any other resolution with respect to the same energy action.

(5)(A) When the committee has reported, or has been discharged from further consideration of, a resolution, it shall be at any time thereafter in order (even though a previous motion to the same effect has been disagreed to) to move to proceed to the consideration of the resolution. The motion shall be highly privileged and shall not be debatable. An amendment to the motion shall not be in order, and it shall not be in order to move to reconsider the vote by which the motion was agreed to or disagreed to.

(B) Debate on the resolution referred to in subparagraph (A) of this paragraph shall be limited to not more than 10 hours, which shall be divided equally between those favoring and those opposing such resolution. A motion further to limit debate shall not be debatable. An amendment to, or motion to recommit, the resolution shall not be in order, and it shall not be in order to move to reconsider the vote by which such resolution was agreed to or disagreed to; except that it shall be in order—

(i) to offer an amendment in the nature of a substitute, consisting of the text of a resolution described in paragraph (2)(A) of this subsection with respect to an energy action, for a resolution described in paragraph (2)(B) of this subsection with respect to the same such action, or

(ii) to offer an amendment in the nature of a substitute, consisting of the text of a resolution described in paragraph (2)(B) of this subsection with respect to an energy action, for a resolution described in paragraph (2)(A) of this subsection with respect to the same such action.

The amendments described in clauses (i) and (ii) of this subparagraph shall not be amendable.

(6)(A) Motions to postpone, made with respect to the discharge from committee, or the consideration of a resolution and motions to proceed to the consideration of other business, shall be decided without debate.

(B) Appeals from the decision of the Chair relating to the application of the rules of the Senate or the House of Representatives, as the case may be, to the procedure relating to a resolution shall be decided without debate.

(7) Notwithstanding any of the provisions of this subsection, if a House has approved a resolution with respect to an energy action, then it shall not be in order to consider in that House any other resolution with respect to the same such action.

These statutory procedures have been used for consideration of a motion to discharge a committee from consideration of a resolution disapproving an “energy action” under Public Law 94–163 (Apr. 13, 1976, p. 10794; May 27, 1976, p. 15772).

14. Extensions of Emergency Energy Authorities [42 U.S.C. 8374]

SEC. 404. EMERGENCY AUTHORITIES.—(a) COAL ALLOCATION AUTHORITY.—(1) If the President—

(A) declares a severe energy supply interruption, as defined in section 3(8) of the Energy Policy and Conservation Act [42 U.S.C. 6202(8)], or

(B) finds, and publishes such finding, that a national or regional fuel supply shortage exists or may exist which the President determines—

(i) is, or is likely to be, of significant scope and duration, and of an emergency nature;

(ii) causes, or may cause, major adverse impact on public health, safety, or welfare or on the economy; and

(iii) results, or is likely to result, from an interruption in the supply of coal or from sabotage, or an act of God;

the President may, by order, allocate (and require the transportation thereof) for the use of any electrical powerplant or major fuel-burning installation, in accordance with such terms and conditions as he may prescribe, to insure reliability of electric service or prevent unemployment, or protect public health, safety, or welfare.

(2) For purposes of this subsection, the term “coal” means anthracite and bituminous coal and lignite (but does not mean any fuel derivative thereof).

(b) EMERGENCY PROHIBITION ON USE OF NATURAL GAS OR PETROLEUM.—If the President declares a severe energy supply interruption, as defined in section 3(8) of the Energy Policy and Conservation Act [42 U.S.C. 6202(8)], the President may, by order, prohibit any electric powerplant or major fuelburning installation from using natural gas or petroleum, or both, as a primary energy source for the duration of such interruption. Notwithstanding any other provision of this section, any suspension of emission limitations or other requirements of applicable implementation plans, as defined in section 110(d) of the Clean Air Act [42 U.S.C. 7410(d)], required by such prohibition shall be issued only in accordance with section 110(f) of the Clean Air Act [42 U.S.C. 7410(f)].

(c) EMERGENCY STAYS.—The President may, by order, stay the application of any provision of this act, or any rule or order thereunder, applicable to any new or existing
