

Foreign Affairs Committees as provided in section 123 b. Upon completion of the 30-day continuous session period provided for in section 123 b., the 60-day continuous session period provided for in section 123

d. shall commence.

GEORGE BUSH

The White House,
April 16, 1991.

Message to the Congress Transmitting the Annual Report on the Energy Activities of the Federal Government *April 16, 1991*

To the Congress of the United States:

I transmit herewith the annual report describing the activities of the Federal Government for fiscal year 1990 required by subtitle H, title V of the Energy Security Act (Public Law 96-264; 42 U.S.C. 8286 *et seq.*). These activities include the development of energy conservation and effi-

ciency standards for new commercial and multi-family high rise buildings and for new residential buildings.

Message to the Congress Transmitting the Report on Semiconductors, Fiber Optics, Superconducting Materials, and Advanced Manufacturing *April 16, 1991*

To the Congress of the United States:

Pursuant to the provisions of section 5141, 102 Stat. 1444, of the Omnibus Trade and Competitiveness Act of 1988 (Public Law 100-418) and Executive Order No. 12661, I transmit herewith the Report to the Congress on Federal Policies, Budgets, and Technical Activities in Semiconductors, Fiber Optics, Superconducting Materials, and Advanced Manufacturing.

This report focuses on Federal research and development (R&D) funding levels and policies for four technologies: semiconductors, fiber optics, superconducting materials, and advanced manufacturing. There

is an additional discussion of organizational and management issues that affect innovation. The report makes clear that the Administration continues to support R&D in these technologies as well as in other high-technology areas consistent with U.S. technology policy. It highlights Administration views on the appropriate roles for the Government as well as the private sector in such areas as these four technologies.
