

I especially support the use of ETBE, a fuel derived from ethanol, because of its special environmental promise.

Relying on renewable fuels also presents a major opportunity to farmers and other members of rural communities to get to work helping America. The rule could boost demand for corn by 250 million bushels a year.

Again, I commend EPA on this important decision to use renewable fuels to help achieve the objectives of the Clean Air Act. I believe our economy and our environment can go hand in hand. This policy is good for our environment, our public health, and our Nation's farmers, and that's good for America.

### Statement on Congressional Action on Health Care Reform *June 30, 1994*

Chairman Gibbons and the Ways and Means Committee stepped up to their responsibility today and took a giant stride forward on the road to comprehensive health care for all Americans. I want to commend Chairman Gibbons for his leadership and longstanding dedication to quality health care for every American.

The Ways and Means Committee understands what the American people want. They want universal coverage. They want shared employer-employee responsibility. And they want costs controlled. Others pretend that piecemeal tinkering with the health care system will satisfy the American people. But the 78 percent of the public that supports universal coverage knows they are wrong.

The Ways and Means Committee joins two other committees which have approved bills that

build on the current system of workplace-based insurance, providing quality and affordable care for working Americans. The real progress that is being achieved in these committees is proving the naysayers wrong.

In a mere few weeks' time, Congress and the Nation have made extraordinary progress in the fight for real health care reform. While the special interests will continue to try and stand in the way of history, they will not succeed. The voices of doctors, nurses, hospitals, hundreds of thousands of large and small businesses, and American families must and will be heard. The Ways and Means Committee answered their call today. We must all answer the call this year. There is no turning back.

### Statement on the Defense Base Closure and Realignment Commission *June 30, 1994*

I would like to offer, on behalf of our Nation, my heartfelt thanks and appreciation for Jim Courter's important contributions in leading the 1991 and 1993 base realignment and closure reviews.

I am proud of the success of the Base Closure Commission during my administration. The base closure process has been nonpartisan, very effective, and continues to be of the highest importance to our efforts to reduce unnecessary base infrastructure in order to keep our military forces ready and strong.

While serving as Chair to the Commission, Mr. Courter recommended base closures and realignments which will enable the Federal Government to save billions of dollars over the next several years.

I am grateful for Jim Courter's tenacity, hard work, and commitment to building a stronger economy, and I wish him the very best in his new endeavors.
