Memorandum on Timber Salvage Legislation August 1, 1995

*Memorandum for the Secretary of the Interior;
the Secretary of Agriculture; the Secretary of
Commerce; the Administrator, Environmental
Protection Agency*

*Subject: Implementing Timber-Related
Provisions to Public Law 104-19*

On July 27th, I signed the rescission bill (Public Law 104-19), which provides much-needed supplemental funds for disaster relief and other programs. It also makes necessary cuts in spending, important to the overall balanced budget plan, while protecting key investments in education and training, the environment, and other priorities.

While I am pleased that we were able to work with the Congress to produce this piece of legislation, I do not support every provision, most particularly the provision concerning timber salvage. In fact, I am concerned that the timber salvage provisions may even lead to litigation that could slow down our forest management program. Nonetheless, changes made prior to enactment of Public Law 104-19 preserve our ability to implement the current forest plans' standards and guidelines, and provides sufficient discretion for the Administration to protect other resources such as clean water and fisheries.

With these changes, I intend to carry out the objectives of the relevant timber-related activities authorized by Public Law 104-19. I am also firmly committed to doing so in ways that,

to the maximum extent allowed, follow our current environmental laws and programs. Public Law 104-19 gives us the discretion to apply current environmental standards to the timber salvage program, and we will do so. With this in mind, I am directing each of you, and the heads of other appropriate agencies, to move forward expeditiously to implement these timber-related provisions in an environmentally sound manner, in accordance with my Pacific Northwest Forest Plan, other existing forest and land management policies and plans, and existing environmental laws, except those procedural actions expressly prohibited by Public Law 104-19.

I am optimistic that our actions will be effective, in large part, due to the progress the agencies have already made to accelerate dramatically the process for complying with our existing legal responsibilities to protect the environment. To ensure this effective coordination, I am directing that you enter into a Memorandum of Agreement by August 7, 1995, to make explicit the new streamlining procedures, coordination, and consultation actions that I have previously directed you to develop and that you have implemented under existing environmental laws. I expect that you will continue to adhere to these procedures and actions as we fulfill the objectives of Public Law 104-19.
