

to do. And we know that the only way we can succeed is if we all work together.

So let us all be guided, as I try to be guided every day, by the words of the Scripture which teaches that “to those to whom much is given, much is required.” So as we set our sights on a joyous holiday season, let us all pledge by

our devotion to God and family and community to keep the spirit of Thanksgiving alive all year long.

Thanks for listening.

NOTE: The President spoke at 10:06 a.m. from Camp David, MD.

Letter to Congressional Leaders Transmitting a Report on Imports of Broom Corn Brooms

November 28, 1996

Dear Mr. Speaker: (Dear Mr. President:)

Pursuant to section 203(b)(1) of the Trade Act of 1974, attached is a report concerning my actions in response to the ITC safeguards investigation of broom corn brooms.

Sincerely,

WILLIAM J. CLINTON

NOTE: Identical letters were sent to Newt Gingrich, Speaker of the House of Representatives, and Albert Gore, Jr., President of the Senate. This letter was released by the Office of the Press Secretary on December 2. The related proclamation and memorandum of November 28 are listed in Appendix D at the end of this volume.

Remarks on Presenting the Congressional Space Medal of Honor to Astronaut Shannon Lucid and an Exchange With Reporters

December 2, 1996

The President. Good morning. It's a pleasure to have all these dignitaries here today. I want to especially acknowledge Senators Glenn and Burns; the NASA Administrator, Dan Goldin; Dr. Jack Gibbons; the Russian Ambassador, Mr. Vorontsov, who is here on behalf of the two cosmonauts that Dr. Lucid roomed with in space. She just told me she made them Jell-O every Sunday morning. *[Laughter]* I want to welcome Michael Lucid and the shuttle crew that brought her home: Commander Bill Readdy, Pilot Terry Wilcutt, Mission Specialists Tom Akers, Jay Apt, and Carl Walz.

I can think of no better way to begin this season of hope than by presenting the Congressional Space Medal to Dr. Shannon Lucid. The United States has always been sparing in its honors because the medals and official recognition we bestow are more than simple congratulations. They are public declarations of outstanding achievement and extraordinary service to the Nation. Dr. Lucid achieved that kind

of service for 188 days this year, the longest flight by an American in space, the longest mission for any woman of any nation in space, five shuttle missions altogether.

Her accomplishments should come as no surprise. She has always been a determined visionary. I think many of us have now heard the story of how, as an eighth grader, she wrote a school paper about wanting to be a rocket scientist, and she was told by the teacher that there was no such job and, even if there were, a girl couldn't get it. Fortunately, she didn't listen to everything her teacher said.

In 1978 she was chosen as one of NASA's first six women astronauts. As a biochemist, she's done important work on the effects of weightlessness on the human body, including her own. She surprised just about everyone when, after 6 months in space, she stood up to gravity and walked right off the space shuttle.

Most pioneers set their sights on just one frontier. Shannon Lucid has pushed to the fur-
