

Sept. 16 / Administration of William J. Clinton, 1999

of education, math, science, and engineering. These landmark scholarships will help address important needs: the need to encourage young people to become teachers, the need to ensure that our children are well-prepared in math and science, and the need to open the doors of

higher learning to all students. The Gates millennium scholarships remind us what vital role philanthropies can play in American life and how urgent it is for all of us to invest now in our Nation's young people.

Statement on Robert E. Rubin's Decision To Accept the Position as Local Initiatives Support Corporation Chairman of the Board *September 16, 1999*

I am pleased that Bob Rubin has accepted the job as chairman of the board of LISC. This service is consistent with his longstanding commitment to bring economic opportunities to America's most underserved communities. His

selection is not only a tremendous boost for LISC but also for those who advocate community economic development to ensure that all Americans share in our economic prosperity.

Statement on the Montreal Protocol on Ozone-Depleting Substances *September 16, 1999*

Today, on the International Day for the Preservation of the Ozone Layer, I am transmitting to the Senate for its advice and consent an amendment to the Montreal Protocol on Substances that Deplete the Ozone Layer.

Preservation of the ozone layer is critical to life on Earth. The Montreal Protocol has led to a dramatic reduction in the production and use of ozone-depleting chemicals, and scientists report that the ozone layer is on its way to recovery. The amendment I transmit today builds on this progress, in part by strengthening

measures to promote compliance with the protocol. I urge the Senate to approve this amendment.

It also is critical that the United States support efforts by developing countries to phase out their use of ozone-depleting chemicals. Regrettably, appropriations measures now before Congress would deny funds I have requested for the Montreal Protocol Fund, which has a long record of success in these efforts. I call on Congress to approve the funds needed to help preserve the Earth's protective ozone layer.

Message to the Senate Transmitting an Amendment to the Montreal Protocol on Ozone-Depleting Substances *September 16, 1999*

To the Senate of the United States:

I transmit herewith, for the advice and consent of the Senate to ratification, the Amendment to the Montreal Protocol on Substances that Deplete the Ozone Layer (the "Montreal Protocol"), adopted at Montreal on September 15-17, 1997, by the Ninth Meeting of the Par-

ties to the Montreal Protocol. The report of the Department of State is also enclosed for the information of the Senate.

The principal features of the 1997 Amendment, which was negotiated under the auspices of the United Nations Environment Program (UNEP), are the addition of methyl bromide
