

Exchange With Reporters Prior to Discussions With President Vladimir Putin of Russia in New York City September 6, 2000

Russia-U.S. Relations

Q. Have you any expectations?

President Putin. Only positive expectations.

President Clinton. I agree with that. This is just part of our ongoing, regular consultation. We're going to have another chance to meet in Asia in a couple of months, and we have a lot of things to talk about. But it's part of our continuing effort to strengthen our relationships and to help our people.

[At this point, a question was asked and answered in Russian, and no translation was provided.]

President Clinton. Thank you. Let me just say one thing about the ABM issue. We have worked together on nuclear issues very closely for virtually the whole time I've been in office and, actually, for quite a long time before that, before I became President. The decision that I made last week on our missile defense will create an opportunity for President Putin and the next American President to reach a common position. And I hope they can, because I think it's very important for the future that we continue to work together.

When we work together, we can destroy thousands of tons of nuclear materials and lots of nuclear weapons and work together in the Bal-

kans for peace. I mean, we can get a lot of things done if we work together. So I hope that the decision that I made will enable my successor and President Putin to resolve this issue and to continue working together on all the arms control issues.

Middle East Peace Process

Q. Mr. President, the deadline set by Israel and the Palestinians is a week from today. Do you have any reason to believe that there might be something worked out by this time, or would you like the parties to discard the deadline?

President Clinton. Well, I haven't met with them yet, but I think that—I think we can work through that if there's a sense of progress—and one of the things I hope I have a chance to talk to President Putin about—but I think the main thing they have to decide is whether there is going to be an agreement within what is the real calendar, which is the calendar that is ticking in the Middle East against the political realities in Israel as well as for the Palestinians. There's a limit to how long they have, and it's not very much longer.

NOTE: The exchange began at 11:25 a.m. at the Waldorf-Astoria. A tape was not available for verification of the content of this exchange.

Joint Statement: Strategic Stability Cooperation Initiative Between the United States of America and Russian Federation September 6, 2000

President William Jefferson Clinton of the United States of America and President Vladimir Putin of the Russian Federation met today in New York and agreed on a Strategic Stability Cooperation Initiative as a constructive basis for strengthening trust between the two sides and for further development of agreed measures to enhance strategic stability and to counter the proliferation of weapons of mass destruction, missiles and missile technologies worldwide. In

furtherance of this initiative, the two Presidents approved an implementation plan developed by their experts as a basis for continuing this work.

The Strategic Stability Cooperation Initiative builds on the Presidents' agreement in their two previous meetings. The Joint Statement on Principles of Strategic Stability, adopted in Moscow on June 4, 2000, and the Joint Statement on Cooperation on Strategic Stability, adopted in

Okinawa on July 21, 2000, establish a constructive basis for progress in further reducing nuclear weapons arsenals, preserving and strengthening the ABM Treaty, and confronting new challenges to international security. The United States and Russia reaffirm their commitment to the ABM Treaty as a cornerstone of strategic stability. The United States and Russia intend to implement the provisions of the START I and INF Treaties, to seek early entry into force of the START II Treaty and its related Protocol, the 1997 New York agreements on ABM issues and the Comprehensive Nuclear Test Ban Treaty, and to work towards the early realization of the 1997 Helsinki Joint Statement on Parameters on Future Reductions in Nuclear Forces. The United States and Russia also intend to seek new forms of cooperation in the area of non-proliferation of missiles and missile technologies with a view to strengthening international security and maintaining strategic stability within the framework of the Strategic Stability Cooperation Initiative between our two countries.

The Strategic Stability Cooperation Initiative could include, along with expansion of existing programs, new initiatives aimed at strengthening the security of our two countries and of the entire world community and without prejudice to the security of any state.

START III Treaty and ABM Treaty. The United States and Russia have presented their approaches to the principal provisions of the START III Treaty and on ABM issues. The United States and Russia have held intensified discussions on further reductions in strategic offensive forces within the framework of a future START III Treaty and on ABM issues, with a view to initiating negotiations expeditiously, in accordance with the Moscow Joint Statement of September 2, 1998, the Cologne Joint Statement of June 20, 1999 and the Okinawa Joint Statement of July 21, 2000 by the two Presidents. They will seek to agree upon additional measures to strengthen strategic stability and confidence, and to ensure predictability in the military field.

NPT, CTBT, FMCT, BWC and Nuclear Weapon-Free Zones. The United States and Russia reaffirm their commitment to the Treaty on the Non-Proliferation of Nuclear Weapons as the foundation of the international nuclear non-proliferation and nuclear disarmament regime.

The United States and Russia will seek to ensure early entry into force and effective implementation of the Comprehensive Nuclear Test Ban Treaty. They will continue to work to begin negotiations to conclude a Fissile Material Cutoff Treaty and to strengthen the Biological Weapons Convention. They will continue to facilitate the establishment of nuclear weapon-free zones in the world, based on voluntary agreements among states in the relevant region, consistent with the relevant 1999 Report of the United Nations Disarmament Commission, as an important avenue for efforts to prevent nuclear weapons proliferation.

Discussions of issues related to the threat of proliferation of missiles and missile technology. The United States and Russia are prepared to expand their discussions of issues related to the threat of proliferation of missiles and missile technologies. These discussions will include annual briefings based on assessments of factors and events related to ballistic and cruise missile proliferation. Annual assessments will address potential threats to international security. With a view to preventing the proliferation of missiles and weapons of mass destruction, political and diplomatic measures will be discussed and undertaken, using bilateral and multilateral mechanisms.

Cooperation in the area of Theater Missile Defense. The United States and Russia are prepared to resume and then expand cooperation in the area of Theater Missile Defense (TMD), and also to consider the possibility of involving other states, with a view to strengthening global and regional stability.

The sides will consider as specific areas of such cooperation:

- Expansion of the bilateral program of joint TMD command and staff exercises.
- Possibility of involving other states in joint TMD command and staff exercises.
- Possibility of development of methods for enhanced interaction for joint use of TMD systems.
- Joint development of concepts for possible cooperation in TMD systems.
- Possibility of reciprocal invitation of observers to actual firings of TMD systems.

Early warning information. The United States and Russia, in implementation of the Memorandum of Agreement between the United States of America and the Russian Federation

on the Establishment of a Joint Center for the Exchange of Data from Early Warning Systems and Notification of Missile Launches signed in Moscow on June 4, 2000, intend to establish and put into operation in Moscow within a year the joint center for exchange of data to preclude the possibility of missile launches caused by a false missile attack warning. The Parties will also make efforts to come to an early agreement on a regime for exchanging notifications of missile launches, consistent with the statement of the Presidents at Okinawa on July 21, 2000.

Missile Non-Proliferation measures. The United States and Russia intend to strengthen the Missile Technology Control Regime. They declare their commitment to seek new avenues of cooperation with a view to limiting proliferation of missiles and missile technologies. Consistent with the July 21, 2000, Joint Statement of the Presidents at Okinawa, they will work together with other states on a new mechanism to integrate, *inter alia*, the Russian proposal for a Global Control System for Non-Proliferation of Missiles and Missile Technologies (GCS), the U.S. proposal for a missile code of conduct, as well as the MTCR.

Confidence and transparency-building measures. Bearing in mind their obligations under the Treaty on the Non-Proliferation of Nuclear Weapons, the United States and Russia will seek to expand cooperation related to the Comprehensive Nuclear Test Ban Treaty (CTBT) to

promote a mutually beneficial technical exchange that will facilitate the implementation of the CTBT after its entry into force. The United States and Russia are prepared to discuss confidence and transparency-building measures as an element of facilitating compliance with, preserving and strengthening the ABM Treaty. These measures could include: data exchanges, pre-notifications of planned events, voluntary demonstrations, participation in observations, organization of exhibitions, and strengthening the ABM Treaty compliance verification process.

The Presidents of the United States and Russia have agreed that officials from the relevant ministries and agencies will meet annually to coordinate their activities in this area, and look forward with interest to such a meeting in the near future.

The United States and Russia call upon all nations of the world to unite their efforts to strengthen strategic stability.

The President of
the United States of America

The President of
the Russian Federation

New York City
September 6, 2000

NOTE: An original was not available for verification of the content of this joint statement. The release issued by the Office of the Press Secretary also included the Strategic Stability Cooperation Initiative Implementation Plan.

Remarks at a Luncheon Hosted by United Nations Secretary-General Kofi Annan in New York City

September 6, 2000

Mr. Secretary-General, Mr. Security Council President; to the Presidents of Finland and Namibia, the Co-Presidents of this remarkable millennial summit. First, let me say again on behalf of the American people, we are deeply honored to host each and every one of you in this largest ever gathering of world leaders. For many of you, this has been a long and difficult journey, and I thank you for coming.

Mr. Secretary-General, I think I speak for all here when I thank you for your hospitality, your leadership, your vision, and your inspiration. A year ago at this luncheon you looked

ahead to the millennial summit and said the following: "It must go beyond a series of statements. It must make decisions, setting the agenda for the United Nations in the new century." You have helped to set that agenda by publishing your millennium report and the report on U.N. peace operations.

You have raised the hardest questions about the U.N.'s responsibilities in this new era and given some of the hard answers. And you have reminded us that the final answers must come from those with the authority and the resources to help the United Nations fulfill its mission.
