

## Statement on Signing the Second Continuing Resolution for Fiscal Year 2001

*October 6, 2000*

Today I have signed into law H.J. Res. 110, the second short-term continuing resolution for FY 2001.

The Act provides 2001 appropriations for continuing projects and activities of the Federal Government through October 14, 2000, except those funded by the Department of Defense Appropriations Act, 2001, and the Military Construction Appropriations Act, 2001, which I have signed into law.

In February, I sent a budget to the Congress that funded critical investments in our future. I urge the Congress to fund these important national initiatives, including investing in education so that we can stay on a path to hiring 100,000 teachers and reduce class size, modernize and repair our schools, and expand our efforts to strengthen the quality of teachers, the performance of schools, and the accomplishments of our students.

It is also essential that we strengthen our efforts to protect and preserve the environment. Our national security must be provided for, both at home and abroad. Putting more police on the street, and fighting gun violence, helps make this Nation safer for its citizens. Similarly, supporting global leadership and the Nation's diplo-

macy helps make the world safer and more secure for all Americans.

It is important that we fund scientific research and technology, upon which advancements in our economy and sustained prosperity depend. Our Nation's priorities must include the expansion of this current wave of prosperity to all Americans. I urge the Congress to support my efforts to expand this prosperity, including closing the digital divide and funding efforts to bring economic development to underserved areas. I also urge the Congress to support the Equal Pay initiative and civil rights enforcement.

The health of our Nation must not be neglected, and I urge the Congress to act accordingly, including by supporting efforts to help family planning for low-income women.

I urge the Congress to continue to work with my Administration to come to mutually acceptable agreements on the remaining 2001 spending bills and to do so as quickly as possible.

## Statement on the National Economy *October 6, 2000*

Today, thanks to our economic strategy and the hard work of the American people, we reached another dramatic milestone in our unprecedented economic expansion—the unemployment rate has fallen to 3.9 percent, matching the lowest level in 30 years. Unemployment for African-Americans fell to the lowest level

ever recorded, and for Hispanics it remains at historic lows. This is more good news for the American people and another reminder that those who advocate irresponsible tax plans that would jeopardize our fiscal progress are taking America down the wrong economic path.
