Statement on House of Representatives Passage of Tax Legislation *May 10, 2006*

The tax cuts we passed in recent years are working to fuel America's economic expansion. Our progrowth policies have helped the economy create more than 5.2 million jobs since August of 2003, and last year, our economy grew faster than that of any other major industrialized nation. By extending key Capital Gains and Dividends tax relief, the House has taken an important step to continue to help hard-working

Americans and to keep our economy strong and growing. I appreciate the House Leadership and Chairman Bill Thomas for their hard work.

I urge the Senate to vote swiftly so that I can sign this bill into law and put a stop to a massive tax hike that would be disastrous for small businesses, our economy, and all working Americans.

Remarks on the Terrorist Surveillance Program *May 11, 2006*

After September the 11th, I vowed to the American people that our Government would do everything within the law to protect them against another terrorist attack. As part of this effort, I authorized the National Security Agency to intercept the international communications of people with known links to Al Qaida and related terrorist organizations. In other words, if Al Qaida or their associates are making calls into the United States or out of the United States, we want to know what they're saying.

Today there are new claims about other ways we are tracking down Al Qaida to prevent attacks on America. I want to make some important points about what the Government is doing and what the Government is not doing.

First, our intelligence activities strictly target Al Qaida and their known affiliates. Al Qaida is our enemy, and we want to

know their plans. Second, the Government does not listen to domestic phone calls without court approval. Third, the intelligence activities I authorized are lawful and have been briefed to appropriate Members of Congress, both Republican and Democrat. Fourth, the privacy of ordinary Americans is fiercely protected in all our activities.

We're not mining or trolling through the personal lives of millions of innocent Americans. Our efforts are focused on links to Al Qaida and their known affiliates. So far we've been very successful in preventing another attack on our soil.

As a general matter, every time sensitive intelligence is leaked, it hurts our ability to defeat this enemy. Our most important job is to protect the American people from another attack, and we will do so within the laws of our country.

Thank you.
