

TAX ON CHARITABLE BEQUESTS.

JUNE 4, 1900.—Referred to the Committee on Finance and ordered to be printed.

Mr. LODGE presented the following

PETITION FROM THE CONGRESS OF AMERICAN PHYSICIANS AND SURGEONS, PRAYING THE CONGRESS OF THE UNITED STATES TO RELIEVE RELIGIOUS, EDUCATIONAL, AND CHARITABLE INSTITUTIONS FROM THE PROVISIONS OF THE WAR-REVENUE ACT OF 1898 BY WHICH A TAX IS IMPOSED UPON LEGACIES LEFT TO SUCH INSTITUTIONS.

CONGRESS OF AMERICAN PHYSICIANS AND SURGEONS,
SECRETARY'S OFFICE,
87 Elm Street, New Haven, May 7, 1900.

The following resolution, proposed by the executive committee of the Congress of American Physicians and Surgeons, was unanimously adopted by the congress at its second session, held May 2, 1900:

Resolved, That the president of this congress be, and hereby is, authorized to appoint a committee of three with full power to draw up and execute in behalf of the Congress of American Physicians and Surgeons a memorial and petition to the Congress of the United States asking that charitable, religious, and educational institutions be relieved from such provisions of the war-revenue act of 1898 as impose taxes on legacies left to such institutions, and to take such other action as may, in their discretion, seem desirable in securing such relief.

The president of the congress appointed Dr. F. C. Shattuck, of Boston, Dr. Abraham Jacobi, of New York, and Dr. William H. Welch, of Baltimore, such committee.

Attest: A true copy.

W. H. CARMALT,
Secretary of the Congress of American Physicians and Surgeons.

To the Senate and House of Representatives of the United States in Congress assembled:

The undersigned, in behalf of the Congress of American Physicians and Surgeons, a body with a membership of about 1,200 and composed of fourteen societies and associations, each with a national membership, respectfully petition the Congress of the United States to relieve religious, educational, and charitable institutions from the provisions of the war-revenue act of 1898 by which a tax is imposed on legacies left to such institutions.

We submit the following reasons for believing our request to be just, reasonable, and promotive of the best interests of the country:

(1) The revenue of the United States is admittedly larger than is necessary.

(2) The general policy of the nation and of the States which compose it is to intrust the provision and maintenance of all religious, of the higher educational, and of the charitable interests of the country to private beneficence.

This policy has been amply justified by past experience. In a democratic country like ours, with almost unlimited opportunities for the amassing of wealth, it seems of the last importance that every encouragement should be offered those disposed to recognize the responsibilities of their wealth and to help their less fortunate fellow-citizens.

(3) The existing law is a distinct discouragement to public-spirited persons, in that a considerable share of bequests to the above-named institutions goes to the General Government. Persons can give in their lifetime, and thus escape the tax, but most persons are notoriously more willing to give of what they leave than of what they have.

At present, if the estate reaches a million or more, 15 per cent is deducted from every bequest to a college, a hospital, or similar institution.

(4) This tax is levied on the institution, not on the estate.

We have the honor to append a list of the membership of the societies and associations composing the Congress of American Physicians and Surgeons, and a copy of the unanimous vote directing us to petition and memorialize the Congress of the United States.

Respectfully,

FREDK. C. SHATTUCK, *Boston.*
