

FUNDS AND PROPERTY OF THE CHIPPEWA INDIANS OF
MINNESOTA.

REPORT OF THE SECRETARY OF THE INTERIOR AND OF THE COMMISSIONER OF THE GENERAL LAND OFFICE ON HOUSE JOINT RESOLUTION 144, SIXTY-SECOND CONGRESS, RELATING TO THE FUNDS AND PROPERTY OF THE CHIPPEWA INDIANS OF MINNESOTA ARISING OUT OF THE SALE OF THE LANDS AND TIMBER OF SAID INDIANS UNDER THE ACT OF CONGRESS DATED JANUARY 14, 1889, AND ACTS AMENDATORY THEREOF.

MARCH 26, 1912.—Ordered to be printed.

DEPARTMENT OF THE INTERIOR,
Washington, March 22, 1912.

Hon. JOHN H. STEPHENS,
*Chairman of the Committee on Indian Affairs,
House of Representatives.*

DEAR SIR: By your letter of January 17, 1912, you inclose a copy of House joint resolution 144, "relating to the administration of the funds and property of the Chippewa Indians," requesting the Secretary of the Interior and the Secretary of the Treasury to prepare and to submit to Congress a statement of account between the United States and the Chippewa Indians of the State of Minnesota arising out of the sale of lands or timber, or both, under the provisions of the act of January 14, 1889 (25 Stat., 642), and acts amendatory thereof or supplementary thereto, showing fully and in detail how much land was actually ceded to the United States under said act, how much of the same has been allotted to the Chippewa Indians, how much remains unallotted and unsold, and on which reservations the same is located, how much timber there was on the lands so sold, how much timber remains on the lands unallotted and unsold, how much money has been expended for the removal of Indians and making allotments to them, how much has been paid to the employees at the several reservations, how much in the estimating and appraising of the timber, and in otherwise administering the fund, together with a full and complete list of all persons employed in the administration of the fund and paid therefrom. You request that the desired information be furnished without further proceedings.

So far as the Interior Department is concerned, a portion of the information desired is obtainable from the General Land Office and a portion from the Indian Office. The following data have been prepared from the records of the General Land Office. A separate report will be prepared giving the information as it appears on the Indian Office records. There will necessarily be a duplication of the figures so far as the receipts and disbursements of moneys are concerned, for the reason that in the sale of the lands, and originally the timber on the lands as well as the lands, the money is received by employees of

the General Land Office and by them deposited in the Treasury of the United States; and as soon as the money is credited to the Indians the Treasury Department issues a warrant to the Indian Office notifying them of the fact and the Indian Office credits the Indians with the amount of the money thus received, on account of sales of lands, etc. Consequently both offices report these amounts on receipts. Again, in the disposals of timber under the act of June 27, 1902 (32 Stat., 400), the Chippewa logging operations are conducted by the General Land Office, but the moneys therefor are paid to an agent of the Indian Office. The disbursements mentioned herein will also be included in the report of the Indian Office. The Indian Office reports should show all moneys received from all sources which are credited to the Chippewa Indians under the act of January 14, 1889 (25 Stat., 642), and amendments thereof, and all moneys expended therefrom.

AREAS, ALLOTMENTS, AND LANDS CEDED.

The following statement shows the areas of the different Chippewa reservations, as they existed at the date of the passage of the act of January 14, 1889. These areas are taken from the official plats of survey, and include the land surface only, for the reason that in the disposal of the lands no account is taken of the water surface. In this statement the Chippewa of the Mississippi, Winnibigoshish, Cass Lake, and White Oak Point Reservations are taken together for the reason that the reservations are contiguous, embrace parts of some of the same townships, and the Chippewa of the Mississippi and Winnibigoshish Reservations overlap. There is also included a statement of lands allotted to Indians and of lands reserved for other purposes. The last column shows lands ceded, but includes the Mille Lac and Vermilion Lake Reservations, which are not disposed of under the act of 1889, as stated in footnotes. Omitting the lands in said reservations, the total area ceded is 3,699,200.99 acres. The figures heretofore published are 2,984,297.98 acres. On the other hand, the combined areas of all the reservations has heretofore been given as 4,747,941 acres, against 5,351,641.93, as stated below.

¹ The Mille Lac lands were disposed of under the joint resolutions of Dec. 19, 1893 (28 Stat., 576), and May 17, 1898 (30 Stat., 745). A suit involving their claim for these lands is now pending before the Court of Claims.

² Original area of diminished reservation. Subsequently 256,152.28 acres were opened under the act of Feb. 23, 1904 (33 Stat., 46). The proceeds from the disposal of these lands are deposited in the Treasury of the United States to the credit of the Red Lake Indians, as provided in said act, and no account is taken thereof in connection with the Chippewa permanent fund.

³ Reserved for governmental purposes.

⁴ Area of diminished reservation; includes allotments. The Indian Office report for 1908 states that 402,516.06 acres were allotted to White Earth Indians and 1,899.61 acres reserved for agency, school, and religious purposes, and 223,928.91 acres allotted to Mississippi and Otter Tail Pillager Chippewas.

⁵ Since the schedules were approved showing the allotment of the areas mentioned there have been numerous changes in allotments, but it is believed the total areas will not be materially changed.

OPENING OF CEDED CHIPPEWA AGRICULTURAL LANDS.

The act of January 14, 1889, provided for the classification of the ceded Chippewa lands into two classes, "pine" and "agricultural." Under section 6 of the act there were openings of the agricultural lands in the years 1896, 1898, 1900, 1903, 1904, 1905, 1907, 1908, 1910, and 1911, aggregating 3,091,076.79 acres. The agricultural lands were at first opened from time to time as fast as they were classified, and now the lands are opened after the timber has been cut from the pine lands. The acreage of "cut-over" lands already opened to agricultural entry is 147,120.85 acres.

The following statement shows by land districts and reservations the areas of the lands opened under said act, viz:

Reservation.	Cass Lake district.	Crookston district.	Duluth district.	Total.
	Acres.	Acres.	Acres.	Acres.
Boise Fort.....	92.92	38,692.06	38,784.98	
Deer Creek.....	12,790.98	12,790.98	
Fond du Lac.....	53,243.16	53,243.16	
Grand Portage.....	12,670.42	12,670.42	
Leech Lake.....	37,487.72	37,487.72	
Red Lake.....	245,811.85	2,178,551.55	330,101.54	2,753,464.94
White Earth.....	37,076.09	37,076.09
Chippewa of Mississippi, Winnibigoshish and White Oak Point.....	143,558.50	143,558.50
Total.....	439,741.97	2,216,627.64	434,707.18	3,091,076.79

CHIPPEWA AGRICULTURAL LAND ENTRIES.

The schedules of entries and statistics in regard thereto are not kept by reservations, and to ascertain how much land has been entered in each reservation would involve a great amount of work and take a long time.

The following statement shows the acreage opened as set forth above, the number of acres which have been entered at the district land offices, and the acreage apparently unentered:

Land district.	Acreage opened.	Acreage entered.	Acreage unentered.
Cass Lake.....	439,741.97	407,345.16	32,396.81
Crookston.....	2,216,627.64	1,735,622.66	481,004.98
Duluth.....	434,707.18	148,132.40	286,574.78
Total.....	3,091,076.79	2,291,100.22	799,976.57

This statement takes no account of relinquished entries which involve probably 10 per cent of the lands entered. Furthermore, the figures by land districts, except as to acreage entered, are not accurate, for the reason that there have been changes of land districts in all the districts since these lands were first opened. The Cass Lake district was largely carved out of the land districts of Crookston and Duluth in the year 1903.

Final proof has been submitted on 7,713 agricultural entries, including about 1,079,820 acres.

DISPOSALS OF "PINE" LANDS.

Under section 5 of the act of January 14, 1899, as originally passed, the timber and the lands on which the timber was located were sold together, the valuation of which was not less than \$3 per thousand feet, as fixed in section 4 of said act. Under said act there were four offerings of the "pine" lands, one each in the years 1896, 1898, 1899, and 1900. The offering in 1896 was of Red Lake lands, 115,342.78 acres, estimated to contain 225,977,000 feet, appraised at \$686,333. At the public offering 32,820 acres sold for \$759,339.77. Because of alleged incorrectness of the estimates 41,843.44 acres of the unsold lands, estimated to contain 95,620 feet appraised at \$280,651.66, were ordered to be reexamined. A portion of the lands thus reexamined were included in the offering in the year 1898. In 1898, the lands and timber on 61,151.57 acres of Red Lake lands containing 129,379,000 feet of timber, appraised at \$391,975.86, were offered for sale.

There were sold at the public offering 21,144.35 acres for \$174,069.37. In 1899, 251.50 acres, comprised in the present town site of Cass Lake, containing 560,000 feet of timber appraised at \$1,684.38, were sold for \$17,994.38. The offering in 1900 was of 40,809.80 acres of White Earth pine lands, containing 76,872,000 feet, appraised at \$232,269.17. There were sold at the public offering 31,087.88 acres for \$214,832.31. After the public offering of the lands the unsold lands in each sale were subject to disposal at private sale at not less than the appraised value. The total amount of timber and lands sold at such public and private sales was 171,167.48 acres, estimated to contain 316,848,000 feet of timber, for \$1,044,528.62. The average amount of timber sold was less than 2,000 feet per acre, according to the estimates, and the average price of the timber was \$3.29 per thousand feet, or at the rate of \$6.11 per acre. About 39 per cent of the lands offered were sold at the public offerings. The unsold timber lands offered under said act were held to be subject to disposal under section 5, as amended, mentioned below.

SALE OF PINE TIMBER.

Said section 5 was amended by the act of June 27, 1902 (32 Stat., 400), and under said act the timber is sold under sealed bids, a minimum price being fixed at \$5 per thousand feet for white pine and \$4 for Norway, and after the removal thereof the lands are disposed of to homestead settlers, who are required to pay \$1.25 per acre. Under said amended act there have been eight sales of timber. The timber was sold under sealed bids, and in the following statement the amount of timber sold is according to the Government estimates, and the prices mentioned are based on said estimates.

Sales.	Acres.	Feet.	Price.	Average per thousand feet.
Mar. 2, 1903.....	7,912.33	13,636,000	\$68,559.70	\$5.03

Total.....	381,045.44	886,923,500	6,467,445.44	7.29

The average of the estimates was two and one-third thousand feet per acre.

The sales of December 28, 1903, and November 17, 1904, were for lands in the Minnesota National Forest, and only 95 per cent of the timber was sold. A considerable portion of the timber sold September 15, 1910, and October 21, 1911, was also within the limits of said national forest, and under the act of May 23, 1908 (35 Stat., 268), only 90 per cent of the timber was sold. The sale of March 15, 1910, was of certain blown-down timber.

The following statement shows the amount of timber logged up to July 1, 1911, sold at the sales mentioned, as well as the sale of July 17, 1907, which was a sale of windfalls and water-logged timber.

¹ Sale completed, all timber sold having been logged.

The trespass statement includes trespass on Indian allotments and State swamp selections.

The average price realized per thousand feet has been \$6.51 $\frac{1}{2}$.

Between July 1, 1911, and January 31, 1912, there have been logged 53,438,160 feet of timber, of the value of \$452,175.05, but it is impracticable at this time to give said figures by sales. The totals of the timber logged to January 31, 1912, are 959,917,000 feet, the price of which is \$6,380,475.03. These figures include trespass, interest, etc.

It clearly appears, therefore, that the amount of timber cut from the land largely overruns the estimates. A computation recently made shows that on a portion of the lands involved in the sales, where the contracts have been completed, viz., 215,085.54 acres, there were cut 779,072,078 feet, and the price paid for this timber was \$5,018,625.57. It is impossible to determine how much timber there is on the 165,959.90 acres on which the contracts are not reported as completed. Some of this area is, however, largely "cut over," and the amounts are included in the figures above given under the different sales.

UNSOLED TIMBER.

The following statement shows the amount of timber remaining unsold. In schedule A the figures are for 90 per cent of the Government estimate, the lands being within the limits of the Minnesota National Forest.

Total.....	573,822.52	1,224,089,500

The average amount of timber on the pine lands, according to these estimates, is 2,130 feet per acre.

SWAMP LANDS.

The State of Minnesota asserted a claim to the swamp lands in the Chippewa Reservations, and the claim was allowed as to such of the reservations as were not made in pursuance of any law enacted prior to the swamp land act of March 12, 1860 (12 Stat., 3). The following statement shows the areas for which patents have issued, except as to approved list 198, Cass Lake, patent on which has not yet issued.

Patent list.	Reservation.	Acres.
No. 112, Crookston.....	White Earth (ceded), patented May 17, 1900.....	11,093.14
No. 188, Cass Lake.....	Chippewa of Mississippi, White Oak Point, patented Dec. 13, 1909.	11,413.30

Approved list, No. 198, Cass Lake.....	Chippewa of Mississippi, Leech Lake, Winnibigoshish (not yet patented).	25,598.44
		152,364.18

In addition, there are also a number of swamp selections pending for adjudication. Most of the lands approved to the State, except as to White Earth Reservation, not ceded, had previously been opened to settlement and homestead entry, or the timber on the pine lands had been offered for sale.

MINNESOTA NATIONAL FOREST.

The act of May 23, 1908 (35 Stat., 268), created the Minnesota National Forest out of certain portions of the Chippewa of the Mississippi and Winnibigoshish Reservations. The total area of the lands

embraced within the limits of the forest reserve is 312,678.99 acres. Included in this area are a large number of Indian allotments and large portions of the swamp lands in the Chippewa of the Mississippi and Winnibigoshish Indian Reservations, which have been selected by and patented to the State, as above set out.

Recapitulation.

	Acres.

The excess of lands in the latter statement above the acreage of lands ceded is due to duplication, viz, the acreage reserved for the Minnesota National Forest includes swamp selections, Indian allotments, and uncut and unsold timber; the lands selected as swamp includes lands opened to entry. It is impracticable at this time to give the figures accurately. As stated elsewhere, numerous changes of Indian allotments are pending, as well as a large number of swamp selections.

FINANCIAL STATEMENT.

The following statement is from the records of the General Land Office, and includes moneys earned for Chippewa timber to February 1, 1912, but not yet covered into the United States Treasury. For instance, the scale bill for timber logged during the month of January, 1912, viz, \$185,892.71, is included therein. This money, however, is actually not due until some time during the current month, or 30 days from the date the bill was rendered.

The amount of 20 per cent deposit for all sales made under the act of June 27, 1902 (32 Stat., 400), was \$1,312,891.20. Of this amount credit has been given purchasers on monthly scale bills to the extent of \$901,640.20, and are included in the receipts of \$6,380,475.02, from sales of pine timber, act of June 27, 1902; \$132,778.99 have been returned to purchasers on completion of their contracts, as provided in the act of March 3, 1905 (33 Stat., 1069), and the remainder, \$283,302.87, is on deposit to the credit of the Chippewa Indians and will be deducted from the amounts yet to be paid by depositors. The amounts given below therefore indicate the amounts received, with the deductions mentioned, on account of sale of lands and timber.

The General Land Office does not keep a full account of these funds and does not keep an account of the expenditures of the funds. The only item which it is fully informed about is that of Mr. William O'Neil, superintendent of logging, whose expenditures for nine and one-half years have been \$266,638.51, or about $4\frac{2}{3}$ per cent of the total receipts of the timber logged.

RECEIPTS.

From sales of pine lands, act of 1889, not including \$4,959.21, repayments made for lands erroneously sold.....	\$1,044,528.62
From sale of pine timber, act of 1902, to Feb. 1, 1912, not including \$38.27 excess payments returned to purchasers under act of June 21, 1906 (34 Stat., 351).....	6,380,475.02
From homestead entrymen to Jan. 1, 1912.....	631,425.65
Amount of 20 per cent deposit under act of June 27, 1902 (32 Stat., 400), unreturned and uncredited on scale bills.....	283,302.87

These figures do not include amount paid expense of logging, and \$194,261.38 paid to the Indians per capita under act of May 27, 1902 (32 Stat., 388).	79,007.59
Total net receipts.....	8,466,321.06

GOVERNMENT ACCOUNTABILITY.

It appears that there were opened in the years 1896 and 1898 1,401,876.57 acres of Chippewa ceded agricultural lands, and under section 6 of the act of January 14, 1889 (25 Stat., 642), settlers therefore were required to pay at the rate of \$1.25 per acre. The total value of said land at the rate mentioned is \$1,752,345.71. Of this amount it appears that there were paid prior to the passage of the free homestead act of May 17, 1900 (31 Stat., 179), the sum of \$82,365.17, leaving unpaid the sum of \$1,669,980.54. This amount, however, may be reduced by the payment by settlers of the price for the land upon submitting commutation proof on their entries. The United States assumed the responsibility for the payment for the land when it passed the free homestead act. The amount of moneys due under said act has not been definitely ascertained, but steps looking to this end have been taken and it is believed that by the next session of Congress the department will be able to accurately inform you as to the amount due the Indians under said act.

Furthermore, the act of May 23, 1908 (35 Stat., 268), created the Minnesota National Forest Reserve and provided that the United States should compensate the Indians for the ceded lands taken for such purposes, and also for the 10 per cent and 5 per cent, respectively, of the timber left standing on said lands in accordance with the provisions of the act of June 27, 1902, above cited, and the act of May 23, 1908, above cited. The law provided that commissioners should be appointed, and allowed them 10 days within which to make an appraisement of the lands and timber. There is still pending before the General Land Office selections of swamp lands within the area set aside for the Minnesota National Forest, as well as applications under the act to exchange allotments embracing lands inside thereof so as to include lands outside thereof. There has been a considerable overrun in the amount of timber cut over the original Government estimates under the act of June 27, 1902, and data is not in shape at the present time to enable the commissioners to be appointed and arrive at a correct conclusion. Therefore, the commissioners to appraise the lands and timber in said national forest have not yet been appointed.

LIST OF EMPLOYEES.

The following is a list of examiners of Chippewa lands, Minnesota, appointed under the act of January 14, 1889:

Otis Staples corps, August 26, 1891, to May 29, 1893: William Bull, Eustace L. Brockway, Henry Brace, Frank Brackett, William C. Branhan, Irvin Church, Monroe P. De Wolf, Ephraim J. DEPARTMENT OF THE INTERIOR,
Washington, March 25, 1912.

Hon. JOHN H. STEPHENS,

*Chairman Committee on Indian Affairs,
House of Representatives.*

SIR: On January 25, 1912, the department acknowledged the receipt of your letter of January 17, transmitting a copy of House joint resolution 144, Sixty-second Congress, first session, wherein this department is requested to prepare and submit to the Congress certain detailed information regarding the Chippewa Indians in the State of Minnesota, and stated that the data wanted would be collected as far as possible and would be transmitted to you at a later date.

In compliance with the request contained in the resolution, there is transmitted herewith that part of the data assembled and prepared by the Indian Office. This comprises tabulated statements as follows:

1. Data concerning the Indian reservations in Minnesota, showing the area in 1889, area allotted to the Indians, and area to be disposed of, together with remarks and explanations.

2. Statement of the account between the United States and the Chippewa Indians of Minnesota, arising from the sale of timber and timber lands under the provisions of the acts of January 14, 1889 (25 Stat. L., 642-645), February 26, 1896 (29 Stat. L., 17), and June 27, 1902 (32 Stat. L., 400), known as the "Chippewa in Minnesota fund," to June 30, 1911.

3. Expenditures in connection with the examination of surveys by W. B. Douglass.

4. List of employees engaged in checking scale and general timber operations, including timber inspectors, surveyors of Indian allotments, etc., at Leech Lake Agency.

5. List of employees engaged in the scaling of timber, etc., under the supervision of William O'Neill, superintendent of logging.

6. Interest on Chippewa in Minnesota fund. *Act of January 14, 1889 (25 Stat. L., 642).*

Other data has been assembled by the General Land Office and was transmitted to you with another communication under date of March 22, 1912.

Respectfully,

SAMUEL ADAMS,
First Assistant Secretary.

[H. J. Res. 144, Sixty-second Congress, first session.]

JOINT RESOLUTION Relating to administration of the funds and property of the Chippewa Indians.

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That the Secretary of the Interior and the Secretary of the Treasury be requested to prepare and to submit to the Congress of the United States a statement of account between the United States and the Chippewa Indians of the State of Minnesota, arising out of the sale of lands or timber, or both, under the provisions of the act of January fourteenth, eighteen hundred and eighty-nine, entitled "An act for the relief and civilization of the Chippewa Indians in the State of Minnesota" (Twenty-fifth Statutes, page six hundred and forty-two), and acts amendatory thereof or supplemental thereto, showing fully and in detail how much land was actually ceded to the United States under the said act, how much of the same has been allotted to the said Indians, how much remains unallotted and unsold and on which reservations the same is located, how much timber there was on the lands so sold, how much timber remains on the land unallotted and unsold, how much money has been expended for the removal of Indians and making allotments to them, how much has been paid to the employees at the several reservations, how much in the estimating and appraising of the timber, and in otherwise administering the fund, together with a full and complete list of all persons employed in the administration of the fund and paid therefrom.
