

DISPOSITION OF USELESS PAPERS—NAVY DEPARTMENT.

L E T T E R

FROM

THE SECRETARY OF THE NAVY,

TRANSMITTING

LIST OF PAPERS THAT HAVE ACCUMULATED IN THE FILES OF
NAVY YARDS, NAVAL STATIONS, AND OTHER OFFICES OF THE
NAVAL ESTABLISHMENT WHICH WERE NOT NEEDED OR USEFUL
IN THE TRANSACTION OF CURRENT BUSINESS.

DECEMBER 3, 1917.—Referred to the Committee on Disposition of Useless Papers
and ordered to be printed.

NAVY DEPARTMENT,
Washington, December 1, 1917.

SIR: I have the honor to transmit herewith lists of papers that had accumulated in the files of navy yards, naval stations, and other offices of the Naval Establishment which were not needed or useful in the transaction of current business, had no permanent value or historical interest, and were disposed of in pursuance of the authority contained in the naval appropriation act of March 3, 1915 (38 Stat., 929-930).

None of the papers embraced in the accompanying lists were less than two years old from the date of the last indorsement thereon.

Very respectfully,

JOSEPHUS DANIELS.

The SPEAKER, HOUSE OF REPRESENTATIVES,
Washington, D. C.

I certify the correspondence on the files listed have no permanent value or historical interest. I have communicated with the supply officer, navy yard, Brooklyn, N. Y., with regard to the disposition of this correspondence as waste paper, and find that it would not be advantageous to dispose of the papers in that manner. I have therefore had the papers burned and certify that none of them were less than 2 years old from the date of the last indorsement thereon.

JOHN C. LEONARD,
Captain, United States Navy, Retired, Acting.

Reference: (a) Bureau's letter 148244-600-2-N, of November 9, 1915, received by this office, November 12, 1915.

1. This office has on hand a considerable number of plans and letters relating to the office of the inspector of boilers, Ossining, N. Y. That office has been out of existence for over two years, the Mosher Water Tube Boiler Co. having gone out of business. It is requested that the destruction of all records and printes dated prior to January 1, 1910, may be authorized. The records preserved will be those relating to repairs to the boilers of the torpedo boat destroyers *Smith* and *Lamson*, and to the inspection of the boilers for the *Kearsarge*, *Kentucky*, *Illinois*, and *Mayflower*, test boiler at the engineering experiment station, Annapolis, and test boiler for navy yard, Boston, and small launch boiler for the *Tacoma*.

2. When material has been incorporated into a boiler for ten years, there would seem to be little reason for questioning the quality of material or the character of work done. The reports of the shipment of material inspected here, and the reports of material shipped from this office, have been preserved ever since the office was started and have become very cumbersome and are of little value for reference purposes. The same can be said of blue prints which have been on hand for a long time. With the exception of prints of pressure parts, such blue prints are seldom, if ever, referred to. Copies of requisitions and public bills, which are three or more years old, are never referred to, unless it is to get the price of articles. I have prepared a list giving the number of sheets and letters under the several headings, which it is desired to destroy on account of the necessity of additional room for filing space in this office. The character of the correspondence is shown in columns headed A, B, C, etc., the name of the vessel to which they refer is given at the left-hand side of the page. These letters and prints are as follows:

MAY 14, 1917.

I certify the correspondence on the files listed have no permanent value or historical interest. I have communicated with the supply officer, navy yard, Brooklyn, N. Y., with regard to the disposition of this correspondence as waste paper and find that it would not be advantageous to dispose of the papers in that manner. I have therefore had the papers burned, and certify that none of them were less than 2 years old from the date of last indorsement thereon.

JOHN E. LEONARD, *Acting.*
