If the bill is not paid on or before the twentieth day after rendition, a charge of 10 percent of the amount of the bill is added.

Minimum charge, 75 cents per month for each meter installed, but not less than \$1.50 for the period during which the service is furnished.

For service taken untransformed from our 60-cycle primary mains, either single or 3-phase, at 2,300 volts (nominal) or 4,000 volts (nominal), a discount of 10 percent is allowed. Minimum charge of \$200 per month.

SCHEDULE E

Commercial.—For any commercial purpose except auxiliary service.

Demand charge (for each month) :	<i>Per kilowatt</i>
First 100 kilowatts of consumer's demand.....	\$2.00
Excess of 100 kilowatts of consumer's demand.....	\$1.30

The demand charge is determined each month by applying the above schedule to the maximum demand which the consumer imposes on the company's system during its peak period (4:30 p. m. to 8:30 p. m.) during that month, subject to the following provisions:

During the off-peak months (March to October, inclusive) the peak period demand charge shall not exceed the charge for the highest-peak period demand for any of the four previous on-peak months (November to February, inclusive) and shall be not less than the charge for two-thirds of said highest-peak-period demand.

During the on-peak months the peak-period-demand charge shall be not less than the charge for two-thirds of the highest-peak-period demand occurring during the 3 previous on-peak months.

The minimum monthly demand charge is \$1 per kilowatt for the first 100 kilowatts of the consumer's maximum demand and 85 cents per kilowatt in excess of the first 100 kilowatts of the consumer's maximum demand, irrespective of the time during the month when this maximum demand occurs, but not less than \$55 for any month; except that in case service is used only during certain consecutive off-peak months, being disconnected at other times, the minimum monthly demand charge for those months during which the service is connected shall be not less than \$20, with no charge for the months during which it is not available.

Energy charge (for each month) :	<i>Cents per kilowatt-hour</i>
First 13,750 kilowatt-hours, monthly consumption.....	1.8
Next 25,000 kilowatt-hours, monthly consumption.....	1.1
Next 150,000 kilowatt-hours, monthly consumption.....	.7
Excess of 188,750 kilowatt-hours, monthly consumption.....	.6

The demand and energy charges included in this schedule are independent of each other, together covering the cost to the consumer of the service which the company furnishes.

If the bill is not paid on or before the 20th day after rendition, a charge of 10 percent of the amount of the bill is added.

For service taken untransformed from our 60-cycle primary mains, either single or 3-phase, at 2,300 volts (nominal) or 4,000 volts (nominal), a discount of 10 percent is allowed. Minimum charge of \$200 per month.

Where low-tension or primary service is being furnished under schedule E, in conjunction with high-tension service under schedule L, the minimum monthly demand charge applies to the combined demands under the two schedules.
