OFFICE OF THE POSTMASTER GENERAL,  
*Washington, D. C., January 3, 1938.*

THE SPEAKER OF THE HOUSE OF REPRESENTATIVES.

SIR: On behalf of the board of trustees, I have the honor to submit herewith, as required by section 1 of the act approved June 25, 1910, the report of operations of the Postal Savings System for the fiscal year ended June 30, 1937.

At the close of the year there were 8,068 depositories in operation, including 802 branches and stations, a net decrease of 35 depositories during the year.

The outstanding principal to the credit of postal-savings depositors, represented by certificates of deposit, was \$1,267,673,740, an increase of \$36,000,584 over the amount for the corresponding date last year.

In the following table the distribution of deposits, by zones, is shown and compared with the corresponding classification of a year ago:

| Geographical divisions  | June 30, 1936 | June 30, 1937 | Increase   |

| Territorial.....        | 3,029,554     | 3,478,821     | 449,267    |

| Total.....              | 1,231,673,156 | 1,267,673,740 | 36,000,584 |

The number of depositors increased from 2,705,152 to 2,791,371, the gain in accounts being 86,219, or 3.2 percent. The average principal per depositor decreased from \$455.31 to \$454.14, a loss per capita of \$1.17 or 0.3 percent.

Postal-savings funds were held at the close of the year by 3,220 banks, as against 3,582 a year ago, of which 1,736 were national banks, 276 State banks, members of the Federal Reserve System, and 1,208 State banks nonmembers. At the close of the year, these banks, as shown elsewhere in this report, held postal-savings funds in the amount of \$136,094,899.42 to the credit of the board of trustees.

The board of trustees, under the authority of the Postal Savings Act, invested \$4,076,460 during the year in postal-savings bonds, having purchased them from the holders at par and accrued interest, which makes the total holdings of such bonds \$22,210,120, after deducting matured 20-year bonds of the eleventh and twelfth series. During the year the board of trustees increased their holdings of other United States securities in the amount of \$128,858,000, par value, representing a net investment of \$130,745,860. The aggregate investment, as of June 30, 1937, in securities of the United States Government was \$1,090,681,770, par value, and \$1,099,929,054.82, book value, allowing for amortization charges.

Six thousand and forty-nine accounts, aggregating \$46,939, were transferred to the division at Washington and held by the board of trustees on June 30, 1937, as unclaimed, having been inactive for 20 years.

The System, which has always been self-supporting, realized a net profit in the fiscal year 1937 of \$5,170,965.52, after deducting departmental and Postal Service expenditures amounting to \$4,767,074.67.

Financial statements and statistical tables, giving detailed information as to the operations of the System, are appended.

Respectfully,

JAMES A. FARLEY,

*Postmaster General, Chairman Board of Trustees.*
