- Enclosures: (a) Copy NSA—New York Requisition No. 155, series 1933.
 (b) Copy Contract N140s-44234, series 1933.
 (c) Copy Order N140s-44197, series 1933.
 (d) Copy NPO NY first endorsement Sept. 3, 1932, re bids under NSA—New York Requisition No. 155, series 1933.

NOTE.—The above papers are in folders filed according to the requisition numbers. Each folder also contains duplicates of all bids pertaining to each contract and the originals of all bids that were not accepted by formal orders. The originals of the contracts are on file in the Audit Division of the General Accounting Office, Washington, D. C., and the originals of all bids pertaining to each contract are on file in the Returns Division of that office. The original accepted bids on which formal orders were based are on file with the Audit Division of the General Accounting Office in the accounts of the Disbursing Officer who paid the contractors' invoices. The originals of the bids that were not accepted by formal orders are included in the folders with the other papers listed under items 1 and 2 as above, together with copies of correspondence pertaining to the requisitions, the bids, the contracts and formal orders, as well as copies of informal orders and correspondence relative thereto.

To indicate separately each of the requisition numbers covered by item 1 as above would necessitate opening 110 packing cases and listing the thousands of such papers contained therein. This would involve a vast amount of clerical work. It is believed that the information incorporated in this note is sufficient to establish that the papers in question have no permanent value or historical interest.
