(b) Any contracts executed by the Secretary to fulfill the requirements of subsections (a)(2) and (a)(3) of this section must be with persons, or Federal or non-Federal governmental entities whose lands or interests in lands are located adjacent to the Colorado River in the State of California who do not hold rights to Colorado River water or whose rights are insufficient to meet their present or anticipated future needs, as determined by the Secretary. No funds are authorized to be appropriated for payment of the operation, maintenance, or replacement costs allocated to non-Federal beneficiaries as determined by the study undertaken under authority of section 2(a)(1).

Such contributions by the city of Needles and other incorporated cities shall be contributed during the construction of the appropriate project features and shall constitute 20 percent of the costs of such project features allocated to the city of Needles and other incorporated cities for repayment.
