SEC. 3. (a)(1) Budget authority and outlays for unmet critical needs of amounts not to exceed the amounts specified in subsection (c) for fiscal year 1987 shall be allocated to the appropriate committees of the House of Representatives and the Senate, and the aggregates for fiscal years 1987, 1988, and 1989 in section 1 of this resolution shall be adjusted accordingly, when—

(B) the President submits a request pursuant to paragraph (2); and

(C) the appropriate committees of the House of Representatives or the Senate have reported legislation as requested by the President that will, if enacted, make funds available for such unmet critical needs.

(2) If the President determines that additional funding is necessary for unmet critical needs, the President shall submit to the Congress a message or messages—

(A) requesting specific amounts of additional funding to meet such needs; and

(B)(i) requesting the enactment of legislation to ensure that the deficits set forth in section 1 of this resolution are not increased as a result of any additional funding provided to carry out such request; or

(ii) identifying legislation enacted before the date of such submission which would result in such additional funding not increasing the deficits set forth in section 1 of this resolution.

(b) The Committees on the Budget of the House of Representatives and the Senate are authorized and directed to report to their respective Houses revised allocations pursuant to section 302(a) of the Congressional Budget Act of 1974, consistent with legislation reported pursuant to subsection (a)(1)(C), and revised budget aggregates to carry out this section. Upon the reporting of such revised allocations, the appropriate committees of such Houses shall report revised allocations pursuant to section 302(b) of such Act to carry out this section. Such revised allocations and budget aggregates shall be considered for the purposes of the Congressional Budget Act of 1974 as allocations and aggregates contained in this resolution.

2 USC 633.

(c)(1) The amounts of budget authority and outlays available for allocation under subsection (a)(1) for funding unmet critical needs shall not exceed amounts as follows:

Fiscal Year 1987:

(A) New budget authority, \$9,950,000,000;

(d) Nothing in this section shall preclude the President requesting or Congress initiating legislation—

(2) to ensure that such levels are not exceeded by reason of changing economic conditions or estimates.

Upon enactment of deficit reduction legislation of the type described in paragraph (1) of this subsection, the aggregates in section 1 of this resolution shall be adjusted accordingly.

GENERAL REVENUE SHARING EXTENSION

SEC. 4. (a) Budget authority and outlays for funding an extension of general revenue sharing under the State and Local Assistance Act of 1972 through the end of fiscal year 1989 would be allocated to the appropriate committees of the House and Senate and the aggregates in section 1 of this resolution would be adjusted accordingly if—

REPORT ON DOD INFLATION FUNDING

SEC. 5. (a) It is the sense of the Congress that the Secretary of Defense should transmit a report to the Speaker of the House of Representatives and the President pro tempore of the Senate setting forth a full and complete accounting of all moneys appropriated to the Department of Defense for fiscal year 1986 in excess of sums

needed to cover inflation. Such report shall be referred to the Committee on Appropriations and Committee on Armed Services of each House. The Committee on the Budget of each House shall be notified upon the transmittal of such report.

(b) It is further the sense of the Congress that the report described in subsection (a) shall also be submitted to the General Accounting Office which shall report to the Congress within a period of 14 days on its findings as to that report, and that upon receipt of the General Accounting Office report the Committees on Armed Services of the House and Senate shall take appropriate action to ensure that only the appropriate levels of funding for inflation are provided.

(c) It is further the sense of the Congress that for fiscal years 1988 and 1989, the Secretary of Defense shall, within 90 days of the close of each such fiscal year, issue to the Speaker of the House of Representatives and the President pro tempore of the Senate, a report accounting for any moneys appropriated for each respective prior fiscal year to cover inflation, which have not been obligated for such purposes.

GNP DEFLATOR

SEC. 6. It is the sense of the Congress that the Committees on Armed Services of the House and Senate should consider legislation prohibiting the Department of Defense from using an arbitrary deflator (one not based on historical or factual data) for major weapons systems which would provide funding for major weapons systems inflation in excess of the GNP deflator.

FEDERAL CREDIT PROGRAM REFORM

SEC. 7. (a) The Congress finds that:

- (1) The Federal Government is a major lender and allocator of capital through direct loan and loan guarantee programs.
- (2) The creation of the Federal Financing Bank was a major step in streamlining and reducing the cost of these programs.
- (3) Despite the improvements in funding brought about by the Federal Financing Bank, however, serious shortcomings remain in the allocation and management of Federal credit programs.
- (4) Current allocation decisions for a loan and loan guarantee programs do not adequately reflect economic costs and, because cost calculations are not uniform across programs, they do not allow accurate comparisons among programs.
- (5) Current Federal credit program controls provide little incentive for sound credit management practices or timely debt collection.

(b) It is therefore the sense of the Congress that the appropriate committees of the Congress should review proposals to change the Federal credit budget, including use of mechanisms which would—

- (1) provide uniform budget treatment of Federal credit programs based on their subsidy cost;
- (2) permit accurate comparison of credit and spending programs based on their true economic cost;
- (3) promote effective management of Federal credit programs, providing accurate and comprehensive data on Federal credit activity and encouraging timely debt collection; and
- (4) undertake accounting and management reforms for Federal credit programs as appropriate.

OIL AND GAS EMPLOYEES

SEC. 8. Since in the last six months the Government of Saudi Arabia has more than doubled its export of petroleum and petroleum products; and

Since these increased export volumes have resulted in a surplus of petroleum and petroleum products within the world marketplace; and

Since this surplus has directly resulted in a dramatic reduction of the weighted average price of international crude from \$27.10 on January 7, 1986, to \$13.08 on April 15, 1986; and

Since the United States has increased its importation of petroleum and petroleum products by 26 percent over the comparable period last year;

Since this dramatic reduction in price and the increased level of imports has resulted in a corresponding reduction in domestic petroleum exploration activities, including a reduction in the number of active rotary drilling rigs in the United States from 4,797 in 1981, to 865 as of April 21, 1986; and

Since the increase in petroleum imports and the reduction in domestic exploration efforts have resulted in a loss of jobs for individuals who are employed by the oil and gas industry and oil and gas service industry; and

Since American firms and employees that are injured by increased imports are eligible for temporary assistance under the Trade Adjustment Assistance Act; and

Since the Administration is narrowly interpreting the Trade Adjustment Assistance Act so as to exclude employees of the oil and gas industry and oil and gas service industry from receiving the benefits of this Act.

It is therefore the sense of the Congress that—

employees of the United States oil and gas industry and oil and gas service industry have been directly injured by a dramatic increase in imported petroleum and petroleum products and by the resulting decline in domestic oil exploration efforts; and

the Administration should immediately broaden its interpretation of the Trade Adjustment Assistance Act so as to allow employees of the United States oil and gas industry and oil and gas service industry to qualify for certification under the Act; and

if the Administration does not act immediately to resolve this matter, the Congress will address this issue on the first appropriate vehicle to be considered by the Congress.

STRATEGIC PETROLEUM RESERVE

SEC. 9. It is the sense of the Congress that the policy to fill the Strategic Petroleum Reserve to an ultimate capacity of 750 million barrels be reaffirmed. It is also recommended that the Federal Government purchase oil for the Reserve in a way designed to help domestic stripper oil well producers so as to minimize the shutting-in of stripper production.

COOPERATIVE EXTENSION SERVICE

SEC. 10. It is the sense of the Congress that Federal funds for the Cooperative Extension Service of the Department of Agriculture

should be maintained at a level sufficient to carry out fully the vital services it is providing to rural America during a time of extreme stress. It is further assumed that this funding will be used especially to support and strengthen such core programs as 4-H Youth Development, Home Economics and Family Living, Natural Resources and Community Development, and services that provide agricultural financial analysis and farm management instruction.

FOREIGN AGRICULTURAL INVESTMENT REFORM

SEC. 11. It is the sense of the Congress that the use of foreign aid funds for financing the foreign production for export use of agricultural commodities already in surplus on world markets is a counterproductive use of American tax dollars as well as devastating to the American farmer who loses export markets from the unfairly subsidized competition.

SOCIAL SECURITY COLAS

SEC. 12. It is the sense of the Congress that legislation should be enacted to provide that social security cost-of-living adjustments, and COLAs in other programs linked to those adjustments, will be paid at the actual rate of inflation, whether it is above or below 3 percent.
