

Public Law 100-512  
100th Congress

An Act

To provide for the settlement of the water rights claims of the Salt River Pima-Maricopa Indian Community in Maricopa County, Arizona, and for other purposes.

Oct. 20, 1988  
[H.R. 4102]

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

Salt River  
Pima-Maricopa  
Indian  
Community  
Water  
Rights  
Settlement Act  
of 1988.  
Public lands.

**SECTION 1. SHORT TITLE.**

This Act may be cited as the "Salt River Pima-Maricopa Indian Community Water Rights Settlement Act of 1988".

**SEC. 2. CONGRESSIONAL FINDINGS.**

(a) The Congress finds and declares that—

(1) it is the policy of the United States, in fulfillment of its trust responsibility to Indian tribes, to promote Indian self-determination and economic self-sufficiency, and to settle, wherever possible, the water rights claims of Indian tribes without lengthy and costly litigation;

(2) meaningful Indian self-determination and economic self-sufficiency largely depend on development of viable Indian reservation economies;

(3) quantification of rights to water and development of facilities needed to utilize tribal water supplies effectively is essential to the development of viable Indian reservation economies, particularly in arid western States;

(4) on June 14, 1879, the United States Government established a reservation for the Salt River Pima-Maricopa Indian Community in Maricopa County, Arizona, at the confluence of the Salt and Verde Rivers tributary to the Gila River;

(5) the United States, as trustee for the Community, obtained water entitlements for the Community pursuant to the Kent Decree of 1910 and the Bartlett Dam Agreement of 1935; however, continued uncertainty as to the full extent of the Community's entitlement to water has severely limited the Community's access to the water and financial resources necessary to develop its valuable agricultural lands and frustrated its efforts to reduce its dependence on Federal program funding and achieve meaningful self-determination and economic self-sufficiency;

(6) litigation to determine the full extent and nature of the Community's water rights and those of its allotted land owners, and damages thereto, is currently pending before the United States District Court in Arizona and in the United States Claims Court. The United States, as trustee for the Community, also has filed claims for the Community's water rights in the General Adjudication of the Gila River System and Source currently pending in the Superior Court of the State of Arizona in and for the County of Maricopa;

(7) recognizing that final resolution of pending litigation will take many years and entail great expense to all parties, continue economically and socially damaging limits to the Community's access to water, prolong uncertainty as to the availability of water supplies and seriously impair the long-term economic planning and development of all parties, the Community and neighboring non-Indian communities have sought to settle their disputes to water and reduce the burdens of litigation;

(8) after more than two years of negotiations, which included participation by representatives of the United States Government, the Community and neighboring non-Indian communities of the Salt River Valley, who all are party to the General Adjudication of the Gila River System and Source, the parties have entered into an agreement to resolve all water rights claims between and among themselves, to quantify the Community's entitlement to water, to provide for the orderly development of the Community's lands, and to prescribe a procedure for resolving such remaining claims which the Community and its allottees may have against the United States;

(9) pursuant to the agreement, the neighboring non-Indian communities will transfer rights to approximately thirty-two thousand acre-feet of surface water to the Community, provide for the means of firming existing water supplies of the Community, and make substantial additional contributions to carry out the agreement's provisions; and

(10) to advance the goals of Federal Indian policy and to fulfill the trust responsibility of the United States to the Community, it is appropriate that the United States participate in the implementation of the agreement and contribute funds for the rehabilitation and expansion of existing reservation irrigation facilities so as to enable the Community to utilize fully its water entitlements in developing a diverse, efficient reservation economy.

(b) Therefore, it is the purpose of this Act (1) to approve, ratify and confirm the agreement entered into by the Community and its neighboring non-Indian communities, (2) to authorize and direct the Secretary to execute and perform such agreement, and (3) to authorize the actions and appropriations necessary for the United States to fulfill its legal and trust obligations to the Community as provided in the agreement and this Act.

Contracts.

(a) On or before December 31, 1990, the Secretary shall acquire, from willing irrigation districts and their landowners (hereinafter "sellers"), rights to twenty-two thousand acre-feet of annual consumptive use of water from the main stream of the Colorado River in the State of Arizona with a contractual priority predating September 30, 1968, and which was not included by the Secretary, the Arizona Water Commission, or the Arizona Department of Water Resources in the determination of the water supplies available to the CAP for the purpose of establishing the initial allocations to non-Indian entities. Nothing in this Act shall alter the responsibilities of the United States under article V of the March 9, 1964, Decree of the United States Supreme Court in *Arizona versus California*, 376 U.S. 340.

(b) The Secretary is authorized, as part of consideration to willing sellers for the acquisition of water pursuant to subsection (a), to amend existing repayment contracts with the United States to which such sellers are subject to provide for the discharge of any remaining repayment obligation which the irrigation districts owe the United States as of May 30, 1987, and to certify that the lands within the irrigation districts are free from the ownership and full cost pricing limitations of Federal reclamation law.

(c) The Secretary shall contract to deliver such water to the Arizona cities of Chandler, Glendale, Scottsdale, Tempe, Mesa, and Phoenix, and the Arizona town of Gilbert, in exchange for water provided by these cities and the town to the Community, in the amounts set forth in the Agreement. Such water shall increase the supply available for delivery to CAP non-Indian municipal and industrial subcontractors of CAP water service. The terms of each water delivery contract shall be in a form mutually acceptable to the respective parties thereto and substantially similar to exhibits "3.h.1" through "3.h.7" to the Agreement, which exhibits substantially conform to the terms of the CAP municipal and industrial water service subcontracts to which each of such cities and the town are parties on the effective date of this Act, except that:

(2) In any action asserted within two years after the date of enactment of this Act by the Community against the United States in the United States Claims Court for monetary damages based upon loss or impairment of water rights the United States may assert a limitation as to damages incurred more than eight years before the commencement of the action instead of the six year limitation of section 2501 of title 28, United States Code, and it shall not assert a timeliness defense as to damages incurred within eight years before the commencement of the action.

(c) The benefits realized by the Community under this Act shall constitute full and complete satisfaction of all monetary claims against the United States for any damages alleged to accrue after completion of the requirements of section 12(a).
