### TITLE III—WHEAT

#### SEC. 301. LOANS, PAYMENTS, AND ACREAGE REDUCTION PROGRAMS FOR THE 1991 THROUGH 1995 CROPS OF WHEAT.

The Agricultural Act of 1949 is amended—

(1) by repealing sections 107A and 107B (7 U.S.C. 1445b and 1445b-1);

(2) by redesignating section 107D (7 U.S.C. 1445b-3) as section 107A; and

(3) by inserting after section 107A (as so redesignated) the following new section:

7 USC 1445b-3a. "SEC. 107B. LOANS, PAYMENTS, AND ACREAGE REDUCTION PROGRAMS FOR THE 1991 THROUGH 1995 CROPS OF WHEAT.

"(a) LOANS AND PURCHASES.—

"(1) IN GENERAL.—Except as otherwise provided in this subsection, the Secretary shall make available to producers on a farm loans and purchases for each of the 1991 through 1995 crops of wheat produced on the farm at such level as the Secretary determines will maintain the competitive relationship of wheat to other grains in domestic and export markets after taking into consideration the cost of producing wheat, supply and demand conditions, and world prices for wheat.

"(2) MINIMUM LOAN AND PURCHASE LEVEL.—Except as provided in paragraphs (3) and (4), the loan and purchase level determined under paragraph (1) shall not be less than 85 percent of the simple average price received by producers of wheat, as determined by the Secretary, during the marketing years for the immediately preceding 5 crops of wheat, excluding the year in which the average price was the highest and the year in which the average price was the lowest in such period, except that the loan and purchase level for a crop determined under this paragraph may not be reduced by more than 5 percent from the level determined for the preceding crop.

"(3) ADJUSTMENTS TO SUPPORT LEVEL.—

"(A) STOCKS TO USE RATIO.—If the Secretary estimates for any marketing year that the ratio of ending stocks of wheat to total use for the marketing year will be—

"(i) equal to or greater than 30 percent, the Secretary may reduce the loan and purchase level for wheat for

the corresponding crop by an amount not to exceed 10 percent in any year;

“(ii) less than 30 percent but not less than 15 percent, the Secretary may reduce the loan and purchase level for wheat for the corresponding crop by an amount not to exceed 5 percent in any year; or

“(iii) less than 15 percent, the Secretary may not reduce the loan and purchase level for wheat for the corresponding crop.

“(B) REPORT TO CONGRESS.—

“(i) IN GENERAL.—If the Secretary adjusts the level of loans and purchases for wheat under subparagraph (A), the Secretary shall submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report—

“(I) certifying such adjustment as necessary to prevent the accumulation of stocks and to retain market share; and

“(II) containing a description of the need for such adjustment.

“(ii) EFFECTIVE DATE OF ADJUSTMENT.—The adjustment shall become effective no earlier than 60 calendar days after the date of submission of the report to the Committees, except that in the case of the 1991 crop of wheat, the adjustment shall become effective on the date of the submission of the report.

“(C) COMPETITIVE POSITION.—Notwithstanding subparagraph (A), if the Secretary determines, not later than 60 days prior to the beginning of a marketing year for a crop, that the effective loan rate established for such crop will not maintain a competitive market position for wheat, the Secretary may reduce the loan and purchase level for wheat for the marketing year by an amount, in addition to any reduction under subparagraph (A), not to exceed 10 percent in any year.

“(D) NO EFFECT ON FUTURE YEARS.—Any reduction in the loan and purchase level for wheat under this paragraph shall not be considered in determining the loan and purchase level for wheat for subsequent years.

“(E) MINIMUM LOAN RATE.—Notwithstanding subparagraph (A), the loan rate for wheat shall not be less than \$2.44 per bushel, unless such rate would exceed 80 percent of the 5-year average market price determination.

“(4) MARKETING LOAN PROVISIONS.—

“(A) IN GENERAL.—The Secretary may permit a producer to repay a loan made under this subsection for a crop at a level (except as provided in subparagraph (C)) that is the lesser of—

“(i) the loan level determined for the crop;

“(ii) the higher of—

“(I) 70 percent of such level;

“(II) if the loan level for a crop was reduced under paragraph (3), 70 percent of the loan level that would have been in effect but for the reduction under paragraph (3); or

## Regulations.

“(iii) the prevailing world market price for wheat (adjusted to United States quality and location), as determined by the Secretary.

“(B) PREVAILING WORLD MARKET PRICE.—If the Secretary permits a producer to repay a loan in accordance with subparagraph (A), the Secretary shall prescribe by regulation—

“(i) a formula to determine the prevailing world market price for wheat, adjusted to United States quality and location; and

“(ii) a mechanism by which the Secretary shall announce periodically the prevailing world market price for wheat.

“(C) ALTERNATIVE REPAYMENT RATES.—For each of the 1991 through 1995 crops of wheat, if the world market price for wheat (adjusted to United States quality and location) as determined by the Secretary, is less than the loan level determined for the crop, the Secretary may permit a producer to repay a loan made under this subsection for a crop at such level (not in excess of the loan level determined for the crop) as the Secretary determines will—

“(i) minimize potential loan forfeitures;

“(ii) minimize the accumulation of wheat stocks by the Federal Government;

“(iii) minimize the cost incurred by the Federal Government in storing wheat; and

“(iv) allow wheat produced in the United States to be marketed freely and competitively, both domestically and internationally.

“(5) SIMPLE AVERAGE PRICE.—For purposes of this section, the simple average price received by producers for the immediately preceding marketing year shall be based on the latest information available to the Secretary at the time of the determination.

“(b) LOAN DEFICIENCY PAYMENTS.—

“(1) IN GENERAL.—The Secretary may, for each of the 1991 through 1995 crops of wheat, make payments (hereafter in this section referred to as ‘loan deficiency payments’) available to producers who, although eligible to obtain a loan or purchase agreement under subsection (a), agree to forgo obtaining the loan or agreement in return for payments under this subsection.

“(2) COMPUTATION.—A payment under this subsection shall be computed by multiplying—

“(A) the loan payment rate; by

“(B) the quantity of wheat the producer is eligible to place under loan (or obtain a purchase agreement) but for which the producer forgoes obtaining the loan or agreement in return for payments under this subsection.

“(3) LOAN PAYMENT RATE.—For purposes of this subsection, the loan payment rate shall be the amount by which—

“(A) the loan level determined for the crop under subsection (a); exceeds

“(B) the level at which a loan may be repaid under subsection (a).

“(c) PAYMENTS.—

“(1) DEFICIENCY PAYMENTS.—

“(A) IN GENERAL.—The Secretary shall make available to producers payments (hereafter in this section referred to as

'deficiency payments') for each of the 1991 through 1995 crops of wheat in an amount computed by multiplying—

"(i) the payment rate; by

"(ii) the payment acres for the crop; by

"(iii) the farm program payment yield established for the crop for the farm.

**"(B) PAYMENT RATE.—**

**"(i) PAYMENT RATE FOR 1991 THROUGH 1993 CROPS.—**

The payment rate for each of the 1991 through 1993 crops of wheat shall be the amount by which the established price for the crop of wheat exceeds the higher of—

"(I) the national weighted average market price received by producers during the first 5 months of the marketing year for the crop, as determined by the Secretary; or

"(II) the loan level determined for the crop, prior to any adjustment made under subsection (a)(3) for the marketing year for the crop of wheat.

**"(ii) PAYMENT RATE OF 1994 AND 1995 CROPS.—**The payment rate for each of the 1994 and 1995 crops of wheat shall be calculated as provided in clause (i).

**"(iii) MINIMUM ESTABLISHED PRICE.—**The established price for wheat shall not be less than \$4.00 per bushel for each of the 1991 through 1995 crops.

**"(C) PAYMENT ACRES.—**Payment acres for a crop shall be the lesser of—

"(i) the number of acres planted to the crop for harvest within the permitted acreage; or

"(ii) 100 percent of the crop acreage base for the crop for the farm less the quantity of reduced acreage (as determined under subsection (e)(2)(D)).

**"(D) EMERGENCY COMPENSATION.—**

**"(i) IN GENERAL.—**Notwithstanding the foregoing provisions of this section, if the Secretary adjusts the level of loans and purchases for wheat under subsection (a)(3), the Secretary shall provide emergency compensation by increasing the deficiency payments for wheat by such amount as the Secretary determines necessary to provide the same total return to producers as if the adjustment in the level of loans and purchases had not been made.

**"(ii) CALCULATION.—**In determining the payment rate, per bushel, for emergency compensation payments for a crop of wheat under this subparagraph, the Secretary shall use the national weighted average market price, per bushel of wheat, received by producers during the marketing year for the crop, as determined by the Secretary.

**"(iii) DEADLINES FOR ESTIMATES AND AVAILABILITY.—**Notwithstanding any other provision of this Act, the Secretary shall—

"(I) by December 1 of the marketing year for the crop, estimate the national weighted average market price, per bushel of wheat, received by producers during the marketing year;

"(II) by December 15 of the marketing year, use the estimate to make available to producers who have elected the payment option authorized by this clause not less than 75 percent of the increase in payments estimated to be payable with respect to the crop under this subparagraph; and

"(III) adjust the amount of each final payment for wheat to reflect any difference between the amount of any estimated payment made under this clause and the amount of actual payment due under this subparagraph.

"(iv) TIME FOR ELECTING PAYMENT OPTION.—Producers shall elect the payment option authorized by clause (iii) at the time of entering into a contract to participate in the program established by this section for the crop.

"(E) 0/92 PROGRAM.—

"(i) IN GENERAL.—If an acreage limitation program under subsection (e)(2) is in effect for a crop of wheat and the producers on a farm devote a portion of the maximum payment acres for wheat as calculated under subparagraph (C)(ii) of the farm equal to more than 8 percent of such wheat acreage of the farm for the crop to conservation uses (except as provided in subparagraph (F))—

"(I) such portion of the maximum payment acres in excess of 8 percent of such acreage devoted to conservation uses (except as provided in subparagraph (F)) shall be considered to be planted to wheat for the purpose of determining the acreage on the farm required to be devoted to conservation uses in accordance with subsection (e)(2)(D); and

"(II) the producers shall be eligible for payments under this paragraph with respect to such acreage.

"(ii) DEFICIENCY PAYMENTS.—Notwithstanding any other provision of this section, any producer who devotes a portion of the maximum payment acres for wheat for the farm to conservation uses (or other uses as provided in subparagraph (F)) under this subparagraph shall receive deficiency payments on the acreage that is considered to be planted to wheat and eligible for payments under this subparagraph for the crop at a per-bushel rate established by the Secretary, except that the rate may not be established at less than the projected deficiency payment rate for the crop, as determined by the Secretary. Such projected payment rate for the crop shall be announced by the Secretary prior to the period during which wheat producers may agree to participate in the program for the crop.

"(iii) ADVERSE EFFECT ON AGRIBUSINESS AND OTHER INTERESTS.—The Secretary shall implement this subparagraph in such a manner as to minimize the adverse effect on agribusiness and other agriculturally related economic interests within any county, State, or region. In carrying out this subparagraph, the Secretary is authorized to restrict the total quantity of wheat acreage that may be taken out of production under this subparagraph, taking into consideration the

total quantity of acreage that has or will be removed from production under other price support, production adjustment, or conservation program activities. No restrictions on the quantity of acreage that may be taken out of production in accordance with this subparagraph in a crop year shall be imposed in the case of a county in which producers were eligible to receive disaster emergency loans under section 321 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1961) as a result of a disaster that occurred during the crop year.

“(iv) CROP ACREAGE AND PAYMENT YIELD.—The wheat crop acreage base and wheat farm program payment yield of the farm shall not be reduced due to the fact that a portion of the permitted wheat acreage of the farm was devoted to conserving uses (except as provided in subparagraph (F)) under this subparagraph.

“(v) LIMITATION.—Other than as provided in clauses (i) through (iv), payments may not be made under this paragraph for any crop on a greater acreage than the acreage actually planted to wheat.

“(vi) CONSERVATION USE ACREAGE UNDER OTHER PROGRAMS.—Any acreage considered to be planted to wheat in accordance with clauses (i) and (iv) may not also be designated as conservation use acreage for the purpose of fulfilling any provisions under any acreage limitation or land diversion program requiring that the producers devote a specified acreage to conservation uses.

“(F) ALTERNATIVE CROPS.—

“(i) INDUSTRIAL AND OTHER CROPS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (E) to be devoted to sweet sorghum, guar, sesame, castor beans, crambe, plantago ovato, triticale, rye, mung beans, commodities for which no substantial domestic production or market exists but that could yield industrial raw material being imported, or likely to be imported, into the United States, or commodities grown for experimental purposes (including kenaf and milkweed), subject to the following sentence. The Secretary may permit the acreage to be devoted to the production only if the Secretary determines that—

“(I) the production is not likely to increase the cost of the price support program and will not affect farm income adversely; and

“(II) the production is needed to provide an adequate supply of the commodity, or, in the case of commodities for which no substantial domestic production or market exists but that could yield industrial raw materials, the production is needed to encourage domestic manufacture of the raw material and could lead to increased industrial use of the raw material to the long-term benefit of United States industry.

"(ii) OILSEEDS.—The Secretary shall permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (E) to be devoted to sunflowers, rapeseed, canola, safflower, flaxseed, mustard seed, and other minor oilseed designated by the Secretary (excluding soybeans). In implementing this clause, the Secretary shall provide that, in order to receive payments under subparagraph (E), the producers shall agree to forgo eligibility to receive a loan under section 205 for the crop of any such oilseed produced on the farm.

"(G) REDUCTION FOR DISASTER PAYMENTS.—The total quantity of wheat on which payments would otherwise be payable to a producer on a farm for any crop under this paragraph shall be reduced by the quantity on which any disaster payment is made to the producer for the crop under paragraph (2).

"(2) DISASTER PAYMENTS.—

"(A) PREVENTED PLANTING.—Except as provided in subparagraph (C), if the Secretary determines that the producers on a farm are prevented from planting any portion of the acreage intended for wheat to wheat or other nonconserving crops because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the Secretary shall make a prevented planting disaster payment to the producers in an amount equal to the product obtained by multiplying—

"(i) the number of acres so affected but not to exceed the acreage planted to wheat for harvest (including any acreage that the producers were prevented from planting to wheat or other nonconserving crops in lieu of wheat because of drought, flood, or other natural disaster, or other condition beyond the control of the producers) in the immediately preceding year; by

"(ii) 75 percent of the farm program payment yield established for the farm by the Secretary; by

"(iii) a payment rate equal to 33⅓ percent of the established price for the crop.

"(B) REDUCED YIELDS.—Except as provided in subparagraph (C), if the Secretary determines that because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the total quantity of wheat that the producers are able to harvest on any farm is less than the result of multiplying 60 percent of the farm program payment yield established by the Secretary for the crop by the acreage planted for harvest for the crop, the Secretary shall make a reduced yield disaster payment to the producers at a rate equal to 50 percent of the established price for the crop for the deficiency in production below 60 percent for the crop.

"(C) CROP INSURANCE.—Producers on a farm shall not be eligible for—

"(i) prevented planting disaster payments under subparagraph (A), if prevented planting crop insurance is available to the producers under the Federal Crop

Insurance Act (7 U.S.C. 1501 et seq.) with respect to the wheat acreage of the producers; or

“(ii) reduced yield disaster payments under subparagraph (B), if reduced yield crop insurance is available to the producers under such Act with respect to the wheat acreage of the producers.

“(D) ADMINISTRATION.—

“(i) ECONOMIC EMERGENCIES.—Notwithstanding subparagraph (C), the Secretary may make a disaster payment to the producers on a farm under this paragraph if the Secretary determines that—

Disaster assistance.

“(I) as the result of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the producers have suffered substantial losses of production either from being prevented from planting wheat or other nonconserving crops or from reduced yields;

“(II) the losses have created an economic emergency for the producers;

“(III) crop insurance indemnity payments under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) and other forms of assistance made available by the Federal Government to the producers for the losses are insufficient to alleviate the economic emergency; and

“(IV) additional assistance must be made available to the producers to alleviate the economic emergency.

“(ii) ADJUSTMENTS.—The Secretary may make such adjustments in the amount of payments made available under this paragraph with respect to an individual farm as necessary to ensure the equitable allotment of the payments among producers, taking into account other forms of Federal disaster assistance provided to the producers for the crop involved.

“(d) PAYMENT YIELDS.—The farm program payment yields for farms for each crop of wheat shall be determined under title V.

“(e) ACREAGE REDUCTION PROGRAMS.—

“(1) IN GENERAL.—

“(A) ESTABLISHMENT.—Notwithstanding any other provision of this Act, if the Secretary determines that the total supply of wheat, in the absence of an acreage limitation program, will be excessive taking into account the need for an adequate carry-over to maintain reasonable and stable supplies and prices and to meet a national emergency, the Secretary may provide for any crop of wheat an acreage limitation program as described in paragraph (2).

“(B) AGRICULTURAL RESOURCES CONSERVATION PROGRAM.—In making a determination under subparagraph (A), the Secretary shall take into consideration the number of acres placed in the agricultural resources conservation program established under subtitle D of title XII of the Food Security Act of 1985 (16 U.S.C. 3831 et seq.).

“(C) ANNOUNCEMENTS.—If the Secretary elects to implement an acreage limitation program for any crop year, the Secretary shall announce any such program not later than June 1 prior to the calendar year in which the crop is

harvested, except that in the case of the 1991 crop, the Secretary shall announce the program as soon as practicable after the date of enactment of this section.

“(D) ADJUSTMENTS.—Not later than July 31 of the year previous to the year in which the crop is harvested, the Secretary may make adjustments in the program announced under subparagraph (C) if the Secretary determines that there has been a significant change in the total supply of wheat since the program was first announced.

“(E) COMPLIANCE.—As a condition of eligibility for loans, purchases, and payments for any such crop of wheat, except as provided in subsections (f) and (g) and section 504, the producers on a farm must comply with the terms and conditions of the acreage limitation program and, if applicable, a land diversion program as provided in paragraph (5).

“(F) ACREAGE LIMITATION PROGRAM FOR 1991 CROP.—In the case of the 1991 crop of wheat, the Secretary shall provide for an acreage limitation program (as described in paragraph (2)) under which the acreage planted to wheat for harvest on a farm would be limited to the wheat crop acreage base for the farm for the crop reduced by not less than 15 percent.

“(G) ACREAGE LIMITATION PROGRAMS FOR 1992 THROUGH 1995 CROPS.—In the case of each of the 1992 through 1995 crops of wheat, if the Secretary estimates for a marketing year for the crop that the ratio of ending stocks of wheat to total disappearance of wheat for the preceding marketing year will be—

“(i) more than 40 percent, the Secretary shall provide for an acreage limitation program (as described in paragraph (2)) under which the acreage planted to wheat for harvest on a farm would be limited to the wheat crop acreage base for the farm for the crop reduced by not less than 10 percent nor more than 20 percent; or

“(ii) equal to or less than 40 percent, the Secretary may provide for such an acreage limitation program under which the acreage planted to wheat for harvest on a farm would be limited to the wheat crop acreage base for the farm for the crop reduced by not more than 0 to 15 percent.

For the purpose of this subparagraph, the term ‘total disappearance’ means all wheat utilization, including total domestic, total export, and total residual disappearance.

“(2) ACREAGE LIMITATION PROGRAM.—

“(A) PERCENTAGE REDUCTIONS.—Except as provided in paragraph (3), if a wheat acreage limitation program is announced under paragraph (1), such limitation shall be achieved by applying a uniform percentage reduction (from 0 to 20 percent) to the wheat crop acreage base for the crop for each wheat-producing farm.

“(B) COMPLIANCE.—Except as provided in subsection (g) and section 504, producers who knowingly produce wheat in excess of the permitted wheat acreage for the farm shall be ineligible for wheat loans, purchases, and payments with respect to that farm.

“(C) CROP ACREAGE BASES.—Wheat crop acreage bases for each crop of wheat shall be determined under title V.

“(D) ACREAGE DEVOTED TO CONSERVATION USES.—A number of acres on the farm shall be devoted to conservation uses, in accordance with regulations issued by the Secretary. Such number shall be determined by multiplying the wheat crop acreage base by the percentage reduction required by the Secretary. The number of acres so determined is hereafter in this subsection referred to as ‘reduced acreage’. The remaining acreage is hereafter in this subsection referred to as ‘permitted acreage’. Permitted acreage may be adjusted by the Secretary as provided in paragraph (3) and in section 504.

Regulations.

“(E) INDIVIDUAL FARM PROGRAM ACREAGE.—Except as otherwise provided in subsection (c), the individual farm program acreage shall be the acreage planted on the farm to wheat for harvest within the permitted wheat acreage for the farm as established under this paragraph.

“(F) PLANTING DESIGNATED CROPS ON REDUCED ACREAGE.—

“(i) DEFINITION OF DESIGNATED CROP.—As used in this subparagraph, the term ‘designated crop’ means a crop defined in section 504(b)(1), excluding any program crop as defined in section 502(3).

“(ii) IN GENERAL.—Subject to clause (iii), the Secretary may permit producers on a farm to plant a designated crop on no more than one-half of the reduced acreage on the farm.

“(iii) LIMITATIONS.—If the producers on a farm elect to plant a designated crop on reduced acreage under this subparagraph—

“(I) the amount of the deficiency payment that the producers are otherwise eligible to receive under subsection (c) shall be reduced, for each acre (or portion thereof) that is planted to the designated crop, by an amount equal to the deficiency payment that would be made with respect to a number of acres of the crop that the Secretary considers appropriate, except that if the producers on the farm are participating in a program established for more than one program crop, the amount of the reduction shall be determined by prorating the reduction based on the acreage planted or considered planted on the farm to all of such program crops; and

“(II) the Secretary shall ensure that reductions in deficiency payments under subclause (I) are sufficient to ensure that this subparagraph will result in no additional cost to the Commodity Credit Corporation.

“(3) TARGETED OPTION PAYMENTS.—

“(A) IN GENERAL.—Notwithstanding any other provision of this section, if the Secretary implements an acreage limitation program with respect to any of the 1991 through 1995 crops of wheat, the Secretary may make available to producers on a farm who do not receive payments under subsection (c)(1)(E) for such crop on the farm, adjustments in the level of deficiency payments that would otherwise be

made available to the producers if the producers exercise the payment options provided in this paragraph.

“(B) PAYMENT OPTIONS.—If the Secretary elects to carry out this paragraph, the Secretary shall make the payment options specified in subparagraphs (C) and (D) available to producers who agree to make adjustments in the quantity of acreage diverted from the production of wheat under an acreage limitation program in accordance with this paragraph.

“(C) INCREASED ACREAGE LIMITATION OPTION.—

“(i) INCREASE IN ESTABLISHED PRICE.—If the Secretary elects to carry out this paragraph, a producer shall be eligible to receive an increase in the established price for wheat under clause (ii) if the producer agrees to an increase in the acreage limitation percentage to be applied to the producers’ wheat acreage base above the acreage limitation percentage announced by the Secretary.

“(ii) METHOD OF CALCULATION.—For the purposes of calculating deficiency payments to be made available to producers who participate in the program under this paragraph, the Secretary shall increase the established price for wheat by an amount determined by the Secretary, but not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point increase in the acreage limitation percentage applied to the producers’ wheat acreage base.

“(iii) LIMITATION.—The acreage limitation percentage to be applied to the producers’ wheat acreage base shall not be increased by more than 10 percentage points for the 1991 crop and 15 percentage points for each of the 1992 through 1995 crops above the acreage limitation percentage announced by the Secretary for the crop or above 25 percent total for the crop.

“(D) DECREASED ACREAGE LIMITATION OPTION.—

“(i) DECREASE IN ACREAGE LIMITATION REQUIREMENT.—If the Secretary elects to carry out this paragraph, a producer shall be eligible to decrease the acreage limitation percentage applicable to the producers’ wheat acreage base (as announced by the Secretary) if the producer agrees to a decrease in the established price for wheat under clause (ii) for the purpose of calculating deficiency payments to be made available to the producer.

“(ii) METHOD OF CALCULATION.—For the purposes of calculating deficiency payments to be made available to producers who choose the option set forth in this subparagraph, the Secretary shall decrease the established price for wheat by an amount to be determined by the Secretary, but not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point decrease in the acreage limitation percentage applied to the producers’ wheat acreage base.

“(iii) LIMITATION.—A producer may not choose to decrease the acreage limitation percentage applicable to the producers’ wheat acreage base under this para-

graph by more than one-half of the announced acreage limitation percentage.

“(E) PARTICIPATION AND PRODUCTION EFFECTS.—Notwithstanding any other provision of this paragraph, the Secretary shall, to the extent practicable, ensure that the program provided for in this paragraph does not have a significant effect on program participation or total production and shall be offered in such a manner that the Secretary determines will result in no additional budget outlays. The Secretary shall provide an analysis of the Secretary’s determination to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

“(4) ADMINISTRATION.—

“(A) PROTECTION FROM WEEDS AND EROSION.—The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall assure protection of the acreage from weeds and wind and water erosion.

Regulations.

“(B) ANNUAL OR PERENNIAL COVER.—

“(i) IN GENERAL.—Except as provided in paragraph (2), a producer who participates in an acreage reduction program established for a crop of wheat under this subsection shall be required to plant to an annual or perennial cover 50 percent (or more, at the option of the producer) of the acreage that is required to be removed from the production of wheat, but not to exceed 5 percent (or more, at the option of the producer) of the crop acreage base established for the crop. This requirement shall not apply with respect to arid areas (including summer fallow areas), as determined by the Secretary.

“(ii) MULTIYEAR PROGRAM.—

“(I) COST-SHARE ASSISTANCE.—If a producer elects to establish a perennial cover capable of improving water quality or wildlife habitat on the acreage, the Commodity Credit Corporation shall make available cost-share assistance for 25 percent of the approved cost of establishing the cover on not more than 50 percent of the acreage that is required to be diverted from production, but not to exceed 5 percent (or more, at the option of the producer) of the crop acreage base established for a crop.

“(II) AGREEMENT OF PRODUCER.—If a producer elects to establish a perennial cover on the acreage under this subparagraph and receives cost-share assistance from the Corporation with respect to the cover, the producer, under such terms and conditions as may be prescribed by the Secretary, taking into consideration guidelines established by the State technical committees established in subtitle G of title XII of the Food Security Act of 1985, shall agree to maintain the perennial cover for a minimum of 3 years.

“(iii) CONSERVING CROPS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of the acreage to be

devoted to sweet sorghum, guar, sesame, castor beans, crambe, plantago ovato, triticale, rye, mung beans, milkweed, or other commodity, if the Secretary determines that the production is needed to provide an adequate supply of the commodities, is not likely to increase the cost of the price support program, and will not affect farm income adversely.

“(C) HAYING AND GRAZING.—

“(i) IN GENERAL.—Except as provided in clause (ii), haying and grazing of reduced acreage, acreage devoted to a conservation use under subsection (c)(1)(E), and acreage diverted from production under a land diversion program established under this section shall be permitted, except during any consecutive 5-month period that is established by the State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) for a State. The 5-month period shall be established during the period beginning April 1, and ending October 31, of a year.

“(ii) NATURAL DISASTERS.—In the case of a natural disaster, the Secretary may permit unlimited haying and grazing on the acreage. The Secretary may not exclude irrigated or irrigable acreage not planted in alfalfa when exercising the authority under this clause.

“(D) WATER STORAGE USES.—

“(i) IN GENERAL.—The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall provide that land that has been converted to water storage uses shall be considered to be devoted to conservation uses if the land was devoted to wheat, feed grains, cotton, rice, or oilseeds in at least 3 of the immediately preceding 5 years. The land shall be considered to be devoted to conservation uses for the period that the land remains in water storage uses, but not to exceed 5 years subsequent to its conversion to water storage uses.

“(ii) LIMITATIONS.—Land converted to water storage uses for the purposes of this subparagraph may not be devoted to any commercial use, including commercial fish production. The water stored on the land may not be ground water. The farm on which the land is located must have been irrigated with ground water during at least 1 of the preceding 5 crop years.

“(E) SUMMER FALLOW.—In determining the quantity of land to be devoted to conservation uses under an acreage limitation program with respect to land that has been farmed under summer fallow practices, as defined by the Secretary, the Secretary shall consider the effects of soil erosion and such other factors as the Secretary considers appropriate.

“(5) LAND DIVERSION PAYMENTS.—

“(A) IN GENERAL.—The Secretary may make land diversion payments to producers of wheat, whether or not an acreage limitation program for wheat is in effect, if the Secretary determines that the land diversion payments are

Regulations.

necessary to assist in adjusting the total national acreage of wheat to desirable goals. The land diversion payments shall be made to producers who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with the producers.

“(B) AMOUNTS.—The amounts payable to producers under land diversion contracts may be determined through the submission of bids for the contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted.

Government  
contracts.

“(C) LIMITATION ON DIVERTED ACREAGE.—The Secretary shall limit the total acreage to be diverted under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

“(6) CONSERVATION PRACTICES.—

“(A) WILDLIFE FOOD PLOTS OR HABITAT.—The reduced acreage and additional diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out the purposes of this subparagraph.

“(B) SOIL AND WATER CONSERVATION PRACTICES.—The Secretary may also pay an appropriate share of the cost of approved soil and water conservation practices (including practices that may be effective for a number of years) established by the producer on acreage required to be devoted to conservation uses or on additional diverted acreage.

“(C) PUBLIC ACCESSIBILITY.—The Secretary may provide for an additional payment on the acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

“(7) PARTICIPATION AGREEMENTS.—

“(A) IN GENERAL.—Producers on a farm desiring to participate in the program conducted under this subsection shall execute an agreement with the Secretary providing for the participation not later than such date as the Secretary may prescribe.

“(B) MODIFICATION OR TERMINATION.—The Secretary may, by mutual agreement with producers on a farm, modify or terminate any such agreement if the Secretary determines the action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities. The Secretary may modify the agreement under this subparagraph for the purpose of alleviating a shortage in the supply of agricultural commodities only if there has been a signifi-

cant change in the estimated stocks of the commodity since the Secretary announced the final terms and conditions of the program for the crop of wheat.

"(8) SPECIAL OATS PLANTINGS.—In any crop year that the Secretary determines that projected domestic production of oats will not fulfill the projected domestic demand for oats, notwithstanding the foregoing provisions of this subsection, the Secretary—

"(A) may provide that any reduced acreage may be planted to oats for harvest;

"(B) may make program benefits (including loans, purchases, and payments) available under the annual program for oats under section 105B available to producers with respect to acreage planted to oats under this paragraph; and

"(C) shall not make program benefits other than the benefits specified in subparagraph (B) available to producers with respect to acreage planted to oats under this paragraph.

"(f) INVENTORY REDUCTION PAYMENTS.—

"(1) IN GENERAL.—The Secretary may, for each of the 1991 through 1995 crops of wheat, make payments available to producers who meet the requirements of this subsection.

"(2) FORM.—The payments may be made in the form of marketing certificates.

"(3) PAYMENTS.—Payments under this subsection shall be determined in the same manner as provided in subsection (b).

"(4) ELIGIBILITY.—A producer shall be eligible to receive a payment under this subsection for a crop if the producer—

"(A) agrees to forgo obtaining a loan or purchase agreement under subsection (a);

"(B) agrees to forgo receiving payments under subsection (c);

"(C) does not plant wheat for harvest in excess of the crop acreage base reduced by one-half of any acreage required to be diverted from production under subsection (e); and

"(D) otherwise complies with this section.

"(g) PILOT VOLUNTARY PRODUCTION LIMITATION PROGRAM.—

"(1) IN GENERAL.—Effective for the 1992 or 1993 crops (and, if the Secretary so determines, the 1994 and 1995 crops), if a wheat acreage limitation program or a land diversion program is announced under subsection (d) for such crops, the Secretary shall carry out a pilot program in at least 15 counties in at least 2 States where producers express an interest in participating in the pilot program under which the producers on a farm shall be considered to have met the requirements of such acreage limitation or land diversion program if the producers meet the requirements of the voluntary production limitation program established under this subsection.

"(2) LIMITATION ON MARKETING.—In order to comply with the voluntary production limitation program, the producers on a farm must agree not to market, barter, donate, or use on the farm (including use as feed for livestock) in a marketing year a quantity of wheat in excess of the wheat production limitation quantity for the farm for the marketing year.

"(3) PRODUCTION LIMITATION QUANTITY.—For purposes of this subsection, the production limitation quantity for a farm for a

marketing year for a crop shall equal the product obtained by multiplying—

“(A) the acreage permitted to be planted to wheat under the acreage reduction program or land diversion program in effect for the crop for the farm; by

“(B) the higher of—

“(i) the farm program payment yield for the farm; or

“(ii) the average of the yield per harvested acre for wheat for the farm for each of the 5 crop years immediately preceding the crop year during which the producers first participate in the program established under this subsection, excluding the crop years with the highest and lowest yield per harvested acre and any crop year in which the commodity was not planted on the farm.

“(4) **TERMS AND CONDITIONS.**—Producers on a farm who elect to participate in the program established under this subsection for a crop of wheat shall—

“(A) enter into an agreement with the Secretary providing that the producers shall comply with the program for the crop;

Cooperative  
agreements.

“(B) not plant program commodities for harvest in a quantity in excess of the sum of the crop acreage bases for the farm; and

“(C) be considered to have complied with the terms and conditions of the wheat acreage reduction program or land diversion program for the crop, even though the acreage planted to wheat on the farm exceeds the permitted acreage provided under the acreage reduction or land diversion program.

“(5) **EXCESS PRODUCTION.**—

“(A) **IN GENERAL.**—Any quantity of wheat produced in a crop year on a farm in excess of the production limitation quantity for the farm may be stored by the producers for a period of not to exceed 5 marketing years and may be used only in accordance with this paragraph.

“(B) **MARKETING IN SUBSEQUENT YEAR.**—

“(i) **PARTICIPANTS IN PROGRAM.**—Producers on a farm who are participating in the program established under this subsection may market, barter, or use a quantity of the excess wheat referred to in subparagraph (A) equal to the difference between the production limitation quantity for the farm for the crop year subsequent to the crop year in which the excess wheat is produced less the quantity of wheat produced on the farm during the crop year.

“(ii) **PARTICIPANTS IN ACREAGE REDUCTION PROGRAM.**—Producers on a farm who are participating in an acreage reduction or a land diversion program for a crop of wheat may market, barter, or use a quantity of the excess wheat referred to in subparagraph (A) in an amount that reflects the quantity of wheat that would be expected to be produced on acreage that the producers agree to devote to approved conservation uses (in excess of any acreage reduction or land diversion requirements) during a crop year, as determined by the Secretary.

## Regulations.

“(6) DUTIES OF SECRETARY.—In carrying out the pilot program established under this subsection, the Secretary—

“(A) shall issue such regulations as are necessary to carry out the program;

“(B) may require increased acreage reduction or land diversion requirements with respect to producers who have had excess wheat production in order to allow the producers to market, barter, or use the production in subsequent years;

“(C) shall take appropriate measures designed to prevent the circumvention of the program established under this subsection, including the imposition of penalties;

“(D) may require producers who participate in the program for a crop, but who fail to comply with the terms and conditions of the program, to refund all or a part of any deficiency payments received with respect to the crop;

“(E) may require the forfeiture to the Commodity Credit Corporation of any wheat that is produced in excess of the production limitation quantity and that is not marketed, bartered, or used within 5 marketing years; and

“(F) shall ensure equitable treatment for producers who participate in the pilot program if the Secretary allows increases (based on actual production levels) in the determination of farm program payment yields for wheat for the farm.

“(7) REPORT.—

“(A) IN GENERAL.—The Comptroller General of the United States shall prepare a report that evaluates the pilot program carried out under this subsection.

“(B) SUBMISSION.—The Comptroller General shall submit a copy of the report required by subparagraph (A) to the Committee on Agriculture of the House of Representatives, the Committee on Agriculture, Nutrition, and Forestry of the Senate, and the Secretary.

“(h) EQUITABLE RELIEF.—

“(1) LOANS, PURCHASES, AND PAYMENTS.—If the failure of a producer to comply fully with the terms and conditions of the program conducted under this section precludes the making of loans, purchases, and payments, the Secretary may, nevertheless, make such loans, purchases, and payments in such amounts as the Secretary determines are equitable in relation to the seriousness of the failure. The Secretary may consider whether the producer made a good faith effort to comply fully with the terms and conditions of such program in determining whether equitable relief is warranted under this paragraph.

“(2) DEADLINES AND PROGRAM REQUIREMENTS.—The Secretary may authorize the county and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet such other requirements does not affect adversely the operation of the program.

“(i) REGULATIONS.—The Secretary may issue such regulations as the Secretary determines necessary to carry out this section.

“(j) COMMODITY CREDIT CORPORATION.—The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.

“(k) **ASSIGNMENT OF PAYMENTS.**—The provisions of section 8(g) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(g)) (relating to assignment of payments) shall apply to payments under this section.

“(l) **SHARING OF PAYMENTS.**—The Secretary shall provide for the sharing of payments made under this section for any farm among the producers on the farm on a fair and equitable basis.

“(m) **TENANTS AND SHARECROPPERS.**—The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

“(n) **CROSS-COMPLIANCE.**—

“(1) **IN GENERAL.**—Compliance on a farm with the terms and conditions of any other commodity program, or compliance with crop acreage base requirements for any other commodity, may not be required as a condition of eligibility for loans, purchases, or payments under this section.

“(2) **COMPLIANCE ON OTHER FARMS.**—The Secretary may not require producers on a farm, as a condition of eligibility for loans, purchases, or payments under this section for the farm, to comply with the terms and conditions of the wheat program with respect to any other farm operated by the producers.

“(o) **PUBLIC COMMENT ON WHEAT PROGRAM.**—

“(1) **IN GENERAL.**—In order to ensure that producers and consumers of wheat are provided with reasonable opportunity to comment on the annual program determinations concerning the price support and acreage reduction program for each of the 1992 and subsequent crops of wheat, the Secretary shall request public comment regarding the wheat program in accordance with this subsection.

“(2) **OPTIONS.**—Not less than 60 days before the program is announced for a crop of wheat under this section, the Secretary shall propose for public comment various program options for the crop of wheat.

“(3) **ANALYSES.**—Each option proposed by the Secretary shall be accompanied by an analysis that includes the estimated planted acreage, production, domestic and export use, ending stocks, season average producer price, program participation rate, and cost to the Federal Government that would likely result from each option.

“(4) **ESTIMATES.**—In announcing the program for a crop of wheat under this section, the Secretary shall include an estimate of the planted acreage, production, domestic and export use, ending stocks, season average producer price, program participation rate, and cost to the Federal Government that is expected to result from the program as announced.

“(p) **SPECIAL PROVISIONS FOR WHEAT PLANTED IN 1990.**—Effective with respect to producers of the 1991 crop of wheat that was planted in 1990, a producer may, when participating in the production adjustment program for the 1991 crop of wheat specified in this section elect to participate in the program with the following modifications:

“(1) **DEFICIENCY PAYMENTS.**—The producer's deficiency payment shall be the amount by which the established price for the crop of wheat exceeds the higher of—

“(A) the lesser of—

“(i) the national weighted average market price received by producers during the marketing year for the crop, as determined by the Secretary; or

“(ii) the national weighted average market price received by producers during the first 5 months of the marketing year for the crop, as determined by the Secretary, plus 10 cents per bushel; or

“(B) the loan level determined for the crop, prior to any adjustment made under subsection (a)(3) for the marketing year for the crop of wheat.

“(2) PAYMENT ACRES.—The producer’s payment acres shall be the lesser of—

“(A) the number of acres planted to the crop for harvest within the permitted acreage; or

“(B) 100 percent of the crop acreage base for the crop for the farm less the quantity of reduced acreage (as determined under subsection (e)(2)(D)).

“(q) CROPS.—Notwithstanding any other provision of law, this section shall be effective only for the 1991 through 1995 crops of wheat.”.

## TITLE IV—FEED GRAINS

#### SEC. 401. LOANS, PAYMENTS, AND ACREAGE REDUCTION PROGRAMS FOR THE 1991 THROUGH 1995 CROPS OF FEED GRAINS.

The Agricultural Act of 1949 is amended—

(1) by repealing sections 105A and 105B (7 U.S.C. 1444c and 1444d);

(2) by redesignating section 105C (7 U.S.C. 1444e) as section 105A; and

(3) by inserting after section 105A (as so redesignated) the following new section:

**"SEC. 105B. LOANS, PAYMENTS, AND ACREAGE REDUCTION PROGRAMS 7 USC 1444f.  
FOR THE 1991 THROUGH 1995 CROPS OF FEED GRAINS.**

**"(a) LOANS AND PURCHASES.—**

**"(1) IN GENERAL.—**Except as otherwise provided in this subsection, the Secretary shall make available to producers on a farm loans and purchases for each of the 1991 through 1995 crops of corn produced on the farm at such level as the Secretary determines will encourage the exportation of feed grains and not result in excessive total stocks of feed grains after taking into consideration the cost of producing corn, supply and demand conditions, and world prices for corn.

**"(2) MINIMUM LOAN AND PURCHASE LEVEL.—**Except as provided in paragraphs (3) and (4), the loan and purchase level determined under paragraph (1) shall not be less than 85 percent of the simple average price received by producers of corn, as determined by the Secretary, during the marketing years for the immediately preceding 5 crops of corn, excluding the year in which the average price was the highest and the year in which the average price was the lowest in such period, except that the loan and purchase level for a crop determined under this paragraph may not be reduced by more than 5 percent from the level determined for the preceding crop.

**"(3) ADJUSTMENTS TO SUPPORT LEVEL.—**

**"(A) STOCKS TO USE RATIO.—**If the Secretary estimates for any marketing year that the ratio of ending stocks of corn to total use for the marketing year will be—

**"(i) equal to or greater than 25 percent,** the Secretary may reduce the loan and purchase level for corn for the corresponding crop by an amount not to exceed 10 percent in any year;

**"(ii) less than 25 percent but not less than 12.5 percent,** the Secretary may reduce the loan and purchase level for corn for the corresponding crop by an amount not to exceed 5 percent in any year; or

**"(iii) less than 12.5 percent** the Secretary may not reduce the loan and purchase level for corn for the corresponding crop.

**"(B) REPORT TO CONGRESS.—**

**"(i) IN GENERAL.—**If the Secretary adjusts the level of loans and purchases for corn under subparagraph (A), the Secretary shall submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report—

**"(I) certifying** such adjustment as necessary to prevent the accumulation of stocks and to retain market share; and

**"(II) containing** a description of the need for such adjustment.

**"(ii) EFFECTIVE DATE OF ADJUSTMENT.—**The adjustment shall become effective no earlier than 60 calendar days after the date of submission of the report to the Committees, except that in the case of the 1991 crop of

feed grains, the adjustment shall become effective on the date of the submission of the report.

“(C) **COMPETITIVE POSITION.**—Notwithstanding subparagraph (A), if the Secretary determines, not later than 60 days prior to the beginning of a marketing year for a crop, that the effective loan rate established for such crop will not maintain a competitive market position for corn, the Secretary may reduce the loan and purchase level for corn for the marketing year by an amount, in addition to any reduction under subparagraph (A), not to exceed 10 percent in any year.

“(D) **NO EFFECT ON FUTURE YEARS.**—Any reduction in the loan and purchase level for corn under this paragraph shall not be considered in determining the loan and purchase level for corn for subsequent years.

“(E) **MINIMUM LOAN RATE.**—Notwithstanding subparagraph (A), the loan rate for corn shall not be less than \$1.76 per bushel, unless such rate would exceed 80 percent of the 5-year average market price determination.

“(4) **MARKETING LOAN PROVISIONS.**—

“(A) **IN GENERAL.**—The Secretary may permit a producer to repay a loan made under this subsection for a crop at a level (except as provided in subparagraph (C)) that is the lesser of—

“(i) the loan level determined for the crop;

“(ii) the higher of—

“(I) 70 percent of such level;

“(II) if the loan level for a crop was reduced under paragraph (3), 70 percent of the loan level that would have been in effect but for the reduction under paragraph (3); or

“(iii) the prevailing world market price for feed grains (adjusted to United States quality and location), as determined by the Secretary.

“(B) **PREVAILING WORLD MARKET PRICE.**—If the Secretary permits a producer to repay a loan in accordance with subparagraph (A), the Secretary shall prescribe by regulation—

“(i) a formula to determine the prevailing world market price for feed grains, adjusted to United States quality and location; and

“(ii) a mechanism by which the Secretary shall announce periodically the prevailing world market price for feed grains.

“(C) **ALTERNATIVE REPAYMENT RATES.**—For each of the 1991 through 1995 crops of feed grains, if the world market price for feed grains (adjusted to United States quality and location) as determined by the Secretary, is less than the loan level determined for the crop, the Secretary may permit a producer to repay a loan made under this subsection for a crop at such level (not in excess of the loan level determined for the crop) as the Secretary determines will—

“(i) minimize potential loan forfeitures;

“(ii) minimize the accumulation of feed grain stocks by the Federal Government;

“(iii) minimize the cost incurred by the Federal Government in storing feed grains; and

“(iv) allow feed grains produced in the United States to be marketed freely and competitively, both domestically and internationally.

“(5) SIMPLE AVERAGE PRICE.—For purposes of this section, the simple average price received by producers for the immediately preceding marketing year shall be based on the latest information available to the Secretary at the time of the determination.

“(6) OTHER FEED GRAINS.—The Secretary shall make available to producers loans and purchases for each of the 1991 through 1995 crops of grain sorghums, barley, oats, and rye, respectively, produced on the farm at such level as the Secretary determines is fair and reasonable in relation to the level that loans and purchases are made available for corn, taking into consideration the feeding value of the commodity in relation to corn and other factors specified in section 401(b).

“(b) LOAN DEFICIENCY PAYMENTS.—

“(1) IN GENERAL.—The Secretary may, for each of the 1991 through 1995 crops of feed grains, make payments (hereafter in this section referred to as ‘loan deficiency payments’) available to producers who, although eligible to obtain a loan or purchase agreement under subsection (a), agree to forgo obtaining the loan or agreement in return for payments under this subsection.

“(2) COMPUTATION.—A payment under this subsection shall be computed by multiplying—

“(A) the loan payment rate; by

“(B) the quantity of feed grains the producer is eligible to place under loan (or obtain a purchase agreement) but for which the producer forgoes obtaining the loan or agreement in return for payments under this subsection.

“(3) LOAN PAYMENT RATE.—For purposes of this subsection, the loan payment rate shall be the amount by which—

“(A) the loan level determined for the crop under subsection (a); exceeds

“(B) the level at which a loan may be repaid under subsection (a).

“(c) PAYMENTS.—

“(1) DEFICIENCY PAYMENTS.—

“(A) IN GENERAL.—The Secretary shall make available to producers payments (hereafter in this section referred to as ‘deficiency payments’) for each of the 1991 through 1995 crops of corn, grain sorghums, oats, and barley, in an amount computed by multiplying—

“(i) the payment rate; by

“(ii) the payment acres for the crop; by

“(iii) the farm program payment yield established for the crop for the farm.

“(B) PAYMENT RATE.—

“(i) PAYMENT RATE FOR 1991 THROUGH 1993 CROPS.—The payment rate for each of the 1991 through 1993 crops of corn, grain sorghums, oats, and barley shall be the amount by which the established price for the respective crop of feed grains exceeds the higher of—

“(I) the national weighted average market price received by producers during the first 5 months of the marketing year for the crop, as determined by the Secretary; or

"(II) the loan level determined for the crop, prior to any adjustment made under subsection (a)(3) for the marketing year for the crop.

"(ii) PAYMENT RATE OF 1994 AND 1995 CROPS.—The payment rate for each of the 1994 and 1995 crops of corn, grain sorghums, oats, and barley shall be determined as provided in clause (i).

"(iii) MINIMUM ESTABLISHED PRICES.—

"(I) CORN.—The established price for corn shall not be less than \$2.75 per bushel for each of the 1991 through 1995 crops of corn.

"(II) OATS.—The established price for oats shall be such price as the Secretary determines is fair and reasonable in relation to the established price for corn, but not less than \$1.45 per bushel.

"(III) GRAIN SORGHUMS.—The established price for each of the 1991 through 1995 crops of grain sorghums shall not be less than \$2.61 per bushel.

"(IV) BARLEY.—

"(aa) IN GENERAL.—The established price for barley shall be such price as the Secretary determines is fair and reasonable in relation to the established price for corn, taking into consideration the various feed and food uses for barley. The established price for barley shall not be less than 85.8 percent of the established price for corn.

"(bb) BARLEY CALCULATIONS.—The Secretary shall, for purposes of determining the payment rate for barley under clause (i)(I) and subparagraph (D)(ii), use the national weighted average market price received by producers of barley sold primarily for feed purposes.

"(cc) ADVANCE PAYMENTS.—In the case of the 1991 crop of barley, the Secretary shall, for purposes of determining any advance deficiency payment made to the producers of barley under section 114, use the national weighted average market price received by producers for all barley, as determined by the Secretary.

"(dd) EQUITY.—In implementing this subsection, the Secretary shall make available to producers of the 1991 crop of barley, notwithstanding the method of calculation or the amount of the advance deficiency payment, the total amount of payments as calculated under clause (bb).

"(C) PAYMENT ACRES.—Payment acres for a crop shall be the lesser of—

"(i) the number of acres planted to the crop for harvest within the permitted acreage; or

"(ii) 100 percent of the crop acreage base for the crop for the farm less the quantity of reduced acreage (as determined under subsection (e)(2)(D)).

"(D) EMERGENCY COMPENSATION.—

"(i) **IN GENERAL.**—Notwithstanding the foregoing provisions of this section, if the Secretary adjusts the level of loans and purchases for feed grains under subsection (a)(3), the Secretary shall provide emergency compensation by increasing the deficiency payments for feed grains by such amount as the Secretary determines necessary to provide the same total return to producers as if the adjustment in the level of loans and purchases had not been made.

"(ii) **CALCULATION.**—In determining the payment rate, per bushel, for emergency compensation payments for a crop of feed grains under this subparagraph, the Secretary shall use the national weighted average market price, per bushel of feed grains, received by producers during the marketing year for the crop, as determined by the Secretary.

"(E) **0/92 PROGRAM.**—

"(i) **IN GENERAL.**—If an acreage limitation program under subsection (e)(2) is in effect for a crop of feed grains and the producers on a farm devote a portion of the maximum payment acres for feed grains as calculated under subparagraph (C)(ii) of the farm equal to more than 8 percent of such feed grain acreage of the farm for the crop, to conservation uses (except as provided in subparagraph (F))—

"(I) such portion of the maximum payment acres of the farm in excess of 8 percent of such acreage devoted to conservation uses (except as provided in subparagraph (F)) shall be considered to be planted to feed grains for the purpose of determining the acreage on the farm required to be devoted to conservation uses in accordance with subsection (e)(2)(D); and

"(II) the producers shall be eligible for payments under this paragraph with respect to such acreage.

"(ii) **DEFICIENCY PAYMENTS.**—Notwithstanding any other provision of this section, any producer who devotes a portion of the maximum payment acres for feed grains for the farm to conservation uses (or other uses as provided in subparagraph (F)) under this subparagraph shall receive deficiency payments on the acreage that is considered to be planted to feed grains and eligible for payments under this subparagraph for the crop at a per-bushel rate established by the Secretary, except that the rate may not be established at less than the projected deficiency payment rate for the crop, as determined by the Secretary. Such projected payment rate for the crop shall be announced by the Secretary prior to the period during which feed grain producers may agree to participate in the program for the crop.

"(iii) **ADVERSE EFFECT ON AGRIBUSINESS AND OTHER INTERESTS.**—The Secretary shall implement this subparagraph in such a manner as to minimize the adverse effect on agribusiness and other agriculturally related economic interests within any county, State, or region. In carrying out this subparagraph, the Secretary is authorized to restrict the total quantity of

feed grain acreage that may be taken out of production under this subparagraph, taking into consideration the total quantity of acreage that has or will be removed from production under other price support, production adjustment, or conservation program activities. No restrictions on the quantity of acreage that may be taken out of production in accordance with this subparagraph in a crop year shall be imposed in the case of a county in which producers were eligible to receive disaster emergency loans under section 321 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1961) as a result of a disaster that occurred during the crop year.

“(iv) CROP ACREAGE AND PAYMENT YIELD.—The feed grain crop acreage base and feed grain farm program payment yield of the farm shall not be reduced due to the fact that a portion of the permitted feed grain acreage of the farm was devoted to conserving uses (except as provided in subparagraph (F)) under this subparagraph.

“(v) LIMITATION.—Other than as provided in clauses (i) through (iv), payments may not be made under this paragraph for any crop on a greater acreage than the acreage actually planted to feed grains.

“(vi) CONSERVATION USE ACREAGE UNDER OTHER PROGRAMS.—Any acreage considered to be planted to feed grains in accordance with clauses (i) and (iv) may not also be designated as conservation use acreage for the purpose of fulfilling any provisions under any acreage limitation or land diversion program requiring that the producers devote a specified acreage to conservation uses.

“(F) ALTERNATIVE CROPS.—

“(i) INDUSTRIAL AND OTHER CROPS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (E) to be devoted to sweet sorghum, guar, sesame, castor beans, crambe, plantago ovato, triticale, rye, mung beans, commodities for which no substantial domestic production or market exists but that could yield industrial raw material being imported, or likely to be imported, into the United States, or commodities grown for experimental purposes (including kenaf and milkweed), subject to the following sentence. The Secretary may permit the acreage to be devoted to the production only if the Secretary determines that—

“(I) the production is not likely to increase the cost of the price support program and will not affect farm income adversely; and

“(II) the production is needed to provide an adequate supply of the commodity, or, in the case of commodities for which no substantial domestic production or market exists but that could yield industrial raw materials, the production is needed to encourage domestic manufacture of the raw

material and could lead to increased industrial use of the raw material to the long-term benefit of United States industry.

“(ii) OILSEEDS.—The Secretary shall permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (E) to be devoted to sunflowers, rapeseed, canola, safflower, flaxseed, mustard seed, and other minor oilseeds designated by the Secretary (excluding soybeans). In implementing this clause, the Secretary shall provide that, in order to receive payments under subparagraph (E), the producers shall agree to forgo eligibility to receive a loan under section 205 for the crop of any such oilseed produced on the farm.

“(G) REDUCTION FOR DISASTER PAYMENTS.—The total quantity of feed grains on which payments would otherwise be payable to a producer on a farm for any crop under this paragraph shall be reduced by the quantity on which any disaster payment is made to the producer for the crop under paragraph (2).

“(2) DISASTER PAYMENTS.—

“(A) PREVENTED PLANTING.—Except as provided in subparagraph (C), if the Secretary determines that the producers on a farm are prevented from planting any portion of the acreage intended for feed grains to feed grains or other nonconserving crops because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the Secretary shall make a prevented planting disaster payment to the producers in an amount equal to the product obtained by multiplying—

“(i) the number of acres so affected but not to exceed the acreage planted to feed grains for harvest (including any acreage that the producers were prevented from planting to feed grains or other nonconserving crops in lieu of feed grains because of drought, flood, or other natural disaster, or other condition beyond the control of the producers) in the immediately preceding year; by

“(ii) 75 percent of the farm program payment yield established for the farm by the Secretary; by

“(iii) a payment rate equal to 33⅓ percent of the established price for the crop.

“(B) REDUCED YIELDS.—Except as provided in subparagraph (C), if the Secretary determines that because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the total quantity of feed grains that the producers are able to harvest on any farm is less than the result of multiplying 60 percent of the farm program payment yield established by the Secretary for the crop by the acreage planted for harvest for the crop, the Secretary shall make a reduced yield disaster payment to the producers at a rate equal to 50 percent of the established price for the crop for the deficiency in production below 60 percent for the crop.

“(C) CROP INSURANCE.—Producers on a farm shall not be eligible for—

“(i) prevented planting disaster payments under subparagraph (A), if prevented planting crop insurance is available to the producers under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) with respect to the feed grain acreage of the producers; or

“(ii) reduced yield disaster payments under subparagraph (B), if reduced yield crop insurance is available to the producers under such Act with respect to the feed grain acreage of the producers.

“(D) ADMINISTRATION.—

“(i) ECONOMIC EMERGENCIES.—Notwithstanding subparagraph (C), the Secretary may make a disaster payment to the producers on a farm under this paragraph if the Secretary determines that—

“(I) as the result of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the producers have suffered substantial losses of production either from being prevented from planting feed grains or other nonconserving crops or from reduced yields;

“(II) the losses have created an economic emergency for the producers;

“(III) crop insurance indemnity payments under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) and other forms of assistance made available by the Federal Government to the producers for the losses are insufficient to alleviate the economic emergency; and

“(IV) additional assistance must be made available to the producers to alleviate the economic emergency.

“(ii) ADJUSTMENTS.—The Secretary may make such adjustments in the amount of payments made available under this paragraph with respect to an individual farm as necessary to ensure the equitable allotment of the payments among producers, taking into account other forms of Federal disaster assistance provided to the producers for the crop involved.

“(d) PAYMENT YIELDS.—The farm program payment yields for farms for each crop of feed grains shall be determined under title V.

“(e) ACREAGE REDUCTION PROGRAMS.—

“(1) IN GENERAL.—

“(A) ESTABLISHMENT.—Notwithstanding any other provision of this Act, if the Secretary determines that the total supply of corn, grain sorghum, barley, or oats, in the absence of an acreage limitation program, will be excessive taking into account the need for an adequate carry-over to maintain reasonable and stable supplies and prices and to meet a national emergency, the Secretary may provide for any crop of corn, grain sorghum, barley, or oats an acreage limitation program as described in paragraph (2).

“(B) AGRICULTURAL RESOURCES CONSERVATION PROGRAM.—In making a determination under subparagraph (A), the Secretary shall take into consideration the number of acres placed in the agricultural resources conservation program

established under subtitle D of title XII of the Food Security Act of 1985 (16 U.S.C. 3831 et seq.).

“(C) ANNOUNCEMENTS.—If the Secretary elects to implement an acreage limitation program for any crop year, the Secretary shall announce the program not later than September 30 prior to the calendar year in which the crop is harvested, except that in the case of the 1991 crop, the Secretary shall announce the program as soon as practicable after the date of enactment of this section.

“(D) ADJUSTMENTS.—Not later than November 15 of the year previous to the year in which the crop is harvested, the Secretary may make adjustments in the program announced under subparagraph (C) if the Secretary determines that there has been a significant change in the total supply of feed grains since the program was first announced.

“(E) COMPLIANCE.—As a condition of eligibility for loans, purchases, and payments for any such crop of feed grains, except as provided in subsections (f) and (g) and section 504, the producers on a farm must comply with the terms and conditions of the acreage limitation program and, if applicable, a land diversion program as provided in paragraph (5).

“(F) ACREAGE LIMITATION PROGRAM FOR 1991 CROP.—In the case of the 1991 crop of corn, the Secretary shall provide for an acreage limitation program (as described in paragraph (2)) as provided in subparagraph (G).

“(G) ACREAGE LIMITATION PROGRAMS FOR 1992 THROUGH 1995 CROPS.—In the case of each of the 1992 through 1995 crops of corn, if the Secretary estimates for a marketing year for the crop that the ratio of ending stocks of corn to total disappearance of corn for the preceding marketing year will be—

“(i) more than 25 percent, the Secretary shall provide for an acreage limitation program (as described in paragraph (2)) under which the acreage planted to corn for harvest on a farm would be limited to the corn crop acreage base for the farm for the crop reduced by not less than 10 percent nor more than 20 percent; or

“(ii) equal to or less than 25 percent, the Secretary may provide for such an acreage limitation program under which the acreage planted to corn for harvest on a farm would be limited to the corn crop acreage base for the farm for the crop reduced by not more than 0 to 12.5 percent.

For the purpose of this subparagraph, the term ‘total disappearance’ means all corn utilization, including total domestic, total export, and total residual disappearance.

“(H) ACREAGE LIMITATION PROGRAM FOR 1991 THROUGH 1995 CROPS OF OATS.—In the case of each of the 1991 through 1995 crops of oats, the Secretary shall provide for an acreage limitation program (as described in paragraph (2)) under which the acreage planted to oats for harvest on a farm would be limited to the oat crop acreage base for the farm for the crop reduced by not more than 0 percent.

“(2) ACREAGE LIMITATION PROGRAM.—

“(A) PERCENTAGE REDUCTIONS.—Except as provided in paragraph (3), if a feed grain acreage limitation program is announced under paragraph (1), such limitation shall be achieved by applying a uniform percentage reduction (from 0 to 20 percent) to the crop acreage base for corn, grain sorghum, barley, or oats, respectively, for each feed grain-producing farm.

“(B) COMPLIANCE.—Except as provided in subsection (g) and section 504, producers who knowingly produce a feed grain in excess of the respective permitted feed grain acreage for the farm shall be ineligible for feed grain loans, purchases, and payments with respect to that farm.

“(C) CROP ACREAGE BASES.—Feed grain crop acreage bases for each crop of feed grains shall be determined under title V.

“(D) ACREAGE DEVOTED TO CONSERVATION USES.—A number of acres on the farm shall be devoted to conservation uses, in accordance with regulations issued by the Secretary. Such number shall be determined by multiplying the respective feed grain crop acreage base by the percentage reduction required by the Secretary. The number of acres so determined is hereafter in this subsection referred to as ‘reduced acreage’. The remaining acreage is hereafter in this subsection referred to as ‘permitted acreage’. Permitted acreage may be adjusted by the Secretary as provided in paragraph (3) and in section 504.

“(E) INDIVIDUAL FARM PROGRAM ACREAGE.—Except as otherwise provided in subsection (c), the individual farm program acreage shall be the acreage planted on the farm to feed grains for harvest within the permitted feed grain acreage for the farm as established under this paragraph.

“(F) PLANTING DESIGNATED CROPS ON REDUCED ACREAGE.—

“(i) DEFINITION OF DESIGNATED CROP.—As used in this subparagraph, the term ‘designated crop’ means a crop defined in section 504(b)(1), excluding any program crop as defined in section 502(3).

“(ii) IN GENERAL.—Subject to clause (iii), the Secretary may permit producers on a farm to plant a designated crop on no more than one-half of the reduced acreage on the farm.

“(iii) LIMITATIONS.—If the producers on a farm elect to plant a designated crop on reduced acreage under this subparagraph—

“(I) the amount of the deficiency payment that the producers are otherwise eligible to receive under subsection (c) shall be reduced, for each acre (or portion thereof) that is planted to the designated crop, by an amount equal to the deficiency payment that would be made with respect to a number of acres of the crop that the Secretary considers appropriate, except that if the producers on the farm are participating in a program established for more than one program crop, the amount of the reduction shall be determined by prorating the reduction based on the acreage planted or considered planted on the farm to all of such program crops; and

Regulations.

“(II) the Secretary shall ensure that reductions in deficiency payments under subclause (I) are sufficient to ensure that this subparagraph will result in no additional cost to the Commodity Credit Corporation.

“(G) EXCEPTION FOR MALTING BARLEY.—The Secretary may provide that no producer of malting barley shall be required as a condition of eligibility for feed grain loans, purchases, and payments to comply with any acreage limitation under this paragraph if the producer has previously produced a malting variety of barley for harvest, plants barley only of an acceptable malting variety for harvest, and meets such other conditions as the Secretary may prescribe.

“(3) TARGETED OPTION PAYMENTS.—

“(A) IN GENERAL.—Notwithstanding any other provision of this section, if the Secretary implements an acreage limitation program with respect to any of the 1991 through 1995 crops of feed grains, the Secretary may make available to producers on a farm who do not receive payments under subsection (c)(1)(E) for such crop on the farm, adjustments in the level of deficiency payments that would otherwise be made available to the producers if the producers exercise the payment options provided in this paragraph.

“(B) PAYMENT OPTIONS.—If the Secretary elects to carry out this paragraph, the Secretary shall make the payment options specified in subparagraphs (C) and (D) available to producers who agree to make adjustments in the quantity of acreage diverted from the production of feed grains under an acreage limitation program in accordance with this paragraph.

“(C) INCREASED ACREAGE LIMITATION OPTION.—

“(i) INCREASE IN ESTABLISHED PRICE.—If the Secretary elects to carry out this paragraph, a producer shall be eligible to receive an increase in the established price for corn under clause (ii) if the producer agrees to an increase in the acreage limitation percentage to be applied to the producers’ corn acreage base above the acreage limitation percentage announced by the Secretary.

“(ii) METHOD OF CALCULATION.—For the purposes of calculating deficiency payments to be made available to producers who participate in the program under this paragraph, the Secretary shall increase the established price for corn by an amount determined by the Secretary, but not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point increase in the acreage limitation percentage applied to the producers’ corn acreage base.

“(iii) LIMITATION.—The acreage limitation percentage to be applied to the producers’ corn acreage base shall not be increased by more than 5 percentage points for the 1991 crop and 10 percentage points for each of the 1992 through 1995 crops above the acreage limitation percentage announced by the Secretary for the crop or above 20 percent total for the crop.

“(D) DECREASED ACREAGE LIMITATION OPTION.—

"(i) **DECREASE IN ACREAGE LIMITATION REQUIREMENT.**—If the Secretary elects to carry out this paragraph, a producer shall be eligible to decrease the acreage limitation percentage applicable to the producers' corn acreage base (as announced by the Secretary) if the producer agrees to a decrease in the established price for corn under clause (ii) for the purpose of calculating deficiency payments to be made available to the producer.

"(ii) **METHOD OF CALCULATION.**—For the purposes of calculating deficiency payments to be made available to producers who choose the option set forth in this subparagraph, the Secretary shall decrease the established price for corn by an amount to be determined by the Secretary, but not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point decrease in the acreage limitation percentage applied to the producers' corn acreage base.

"(iii) **LIMITATION.**—A producer may not choose to decrease the acreage limitation percentage applicable to the producers' corn acreage base under this paragraph by more than one-half of the announced acreage limitation percentage.

"(E) **OTHER FEED GRAINS.**—The Secretary shall implement the program provided for by this paragraph for other feed grains similar to the manner in which the program is implemented for corn.

"(F) **PARTICIPATION AND PRODUCTION EFFECTS.**—Notwithstanding any other provision of this paragraph, the Secretary shall, to the extent practicable, ensure that the program provided for in this paragraph does not have a significant effect on program participation or total production and shall be offered in such a manner that the Secretary determines will result in no additional budget outlays. The Secretary shall provide an analysis of the Secretary's determination to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

"(4) **ADMINISTRATION.**—

"(A) **PROTECTION FROM WEEDS AND EROSION.**—The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall assure protection of the acreage from weeds and wind and water erosion.

"(B) **ANNUAL OR PERENNIAL COVER.**—

"(i) **IN GENERAL.**—Except as provided in paragraph (2), a producer who participates in an acreage reduction program established for a crop of feed grains under this subsection shall be required to plant to an annual or perennial cover 50 percent (or more, at the option of the producer) of the acreage that is required to be removed from the production of feed grains, but not to exceed 5 percent (or more, at the option of the producer) of the crop acreage base established for the crop. This requirement shall not apply with respect to arid areas (including summer fallow areas), as determined by the Secretary.

Regulations.

“(ii) **MULTIYEAR PROGRAM.**—

“(I) **COST-SHARE ASSISTANCE.**—If a producer elects to establish a perennial cover capable of improving water quality or wildlife habitat on the acreage, the Commodity Credit Corporation shall make available cost-share assistance for 25 percent of the approved cost of establishing the cover on not more than 50 percent of the acreage that is required to be diverted from production, but not to exceed 5 percent (or more, at the option of the producer) of the crop acreage base established for a crop.

“(II) **AGREEMENT OF PRODUCER.**—If a producer elects to establish a perennial cover on the acreage under this subparagraph and receives cost-share assistance from the Corporation with respect to the cover, the producer, under such terms and conditions as may be prescribed by the Secretary, taking into consideration guidelines established by the State technical committees established in subtitle G of title XII of the Food Security Act of 1985, shall agree to maintain the perennial cover for a minimum of 3 years.

“(iii) **CONSERVING CROPS.**—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of the acreage to be devoted to sweet sorghum, guar, sesame, castor beans, crambe, plantago ovato, triticale, rye, mung beans, milkweed, or other commodity, if the Secretary determines that the production is needed to provide an adequate supply of the commodities, is not likely to increase the cost of the price support program, and will not affect farm income adversely.

“(C) **HAYING AND GRAZING.**—

“(i) **IN GENERAL.**—Except as provided in clause (ii), haying and grazing of reduced acreage, acreage devoted to a conservation use under subsection (c)(1)(E), and acreage diverted from production under a land diversion program established under this section shall be permitted, except during any consecutive 5-month period that is established by the State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) for a State. The 5-month period shall be established during the period beginning April 1, and ending October 31, of a year.

“(ii) **NATURAL DISASTERS.**—In the case of a natural disaster, the Secretary may permit unlimited haying and grazing on the acreage. The Secretary may not exclude irrigated or irrigable acreage not planted in alfalfa when exercising the authority under this clause.

“(D) **WATER STORAGE USES.**—

“(i) **IN GENERAL.**—The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall provide that land that has been converted to water storage uses shall be considered to be devoted to conservation uses if the land was devoted to wheat, feed grains,

Regulations.

cotton, rice, or oilseeds in at least 3 of the immediately preceding 5 years. The land shall be considered to be devoted to conservation uses for the period that the land remains in water storage uses, but not to exceed 5 years subsequent to its conversion to water storage uses.

“(ii) LIMITATIONS.—Land converted to water storage uses for the purposes of this subparagraph may not be devoted to any commercial use, including commercial fish production. The water stored on the land may not be ground water. The farm on which the land is located must have been irrigated with ground water during at least 1 of the preceding 5 crop years.

“(E) SUMMER FALLOW.—In determining the quantity of land to be devoted to conservation uses under an acreage limitation program with respect to land that has been farmed under summer fallow practices, as defined by the Secretary, the Secretary shall consider the effects of soil erosion and such other factors as the Secretary considers appropriate.

“(5) LAND DIVERSION PAYMENTS.—

“(A) IN GENERAL.—The Secretary may make land diversion payments to producers of feed grains, whether or not an acreage limitation program for feed grains is in effect, if the Secretary determines that the land diversion payments are necessary to assist in adjusting the total national acreage of feed grains to desirable goals. The land diversion payments shall be made to producers who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with the producers.

“(B) AMOUNTS.—The amounts payable to producers under land diversion contracts may be determined through the submission of bids for the contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted.

“(C) LIMITATION ON DIVERTED ACREAGE.—The Secretary shall limit the total acreage to be diverted under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

“(6) CONSERVATION PRACTICES.—

“(A) WILDLIFE FOOD PLOTS OR HABITAT.—The reduced acreage and additional diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out the purposes of this subparagraph.

“(B) SOIL AND WATER CONSERVATION PRACTICES.—The Secretary may also pay an appropriate share of the cost of approved soil and water conservation practices (including practices that may be effective for a number of years)

established by the producer on acreage required to be devoted to conservation uses or on additional diverted acreage.

“(C) PUBLIC ACCESSIBILITY.—The Secretary may provide for an additional payment on the acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

“(7) PARTICIPATION AGREEMENTS.—

“(A) IN GENERAL.—Producers on a farm desiring to participate in the program conducted under this subsection shall execute an agreement with the Secretary providing for the participation not later than such date as the Secretary may prescribe.

“(B) MODIFICATION OR TERMINATION.—The Secretary may, by mutual agreement with producers on a farm, modify or terminate any such agreement if the Secretary determines the action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities. The Secretary may modify the agreement under this subparagraph for the purpose of alleviating a shortage in the supply of agricultural commodities only if there has been a significant change in the estimated stocks of the commodity since the Secretary announced the final terms and conditions of the program for the crop of feed grains.

“(8) SPECIAL OATS PLANTINGS.—In any crop year that the Secretary determines that projected domestic production of oats will not fulfill the projected domestic demand for oats, notwithstanding the foregoing provisions of this subsection, the Secretary—

“(A) may provide that any reduced acreage may be planted to oats for harvest;

“(B) may make program benefits (including loans, purchases, and payments) available under the annual program for oats under this section available to producers with respect to acreage planted to oats under this paragraph; and

“(C) shall not make program benefits other than the benefits specified in subparagraph (B) available to producers with respect to acreage planted to oats under this paragraph.

“(f) INVENTORY REDUCTION PAYMENTS.—

“(1) IN GENERAL.—The Secretary may, for each of the 1991 through 1995 crops of feed grains, make payments available to producers who meet the requirements of this subsection.

“(2) FORM.—The payments may be made in the form of marketing certificates.

“(3) PAYMENTS.—Payments under this subsection shall be determined in the same manner as provided in subsection (b).

“(4) ELIGIBILITY.—A producer shall be eligible to receive a payment under this subsection for a crop if the producer—

“(A) agrees to forgo obtaining a loan or purchase agreement under subsection (a);

“(B) agrees to forgo receiving payments under subsection (c);

“(D) otherwise complies with this section.

“(g) **PILOT VOLUNTARY PRODUCTION LIMITATION PROGRAM.**—

“(1) **IN GENERAL.**—Effective for the 1992 or 1993 crops (and, if the Secretary so determines, the 1994 and 1995 crops), if a feed grain acreage limitation program or a land diversion program is announced under subsection (d) for such crops, the Secretary shall carry out a pilot program in at least 15 counties in at least 2 States where producers express an interest in participating in the pilot program under which the producers on a farm shall be considered to have met the requirements of such acreage limitation or land diversion program if the producers meet the requirements of the voluntary production limitation program established under this subsection.

“(2) **LIMITATION ON MARKETING.**—In order to comply with the voluntary production limitation program, the producers on a farm must agree not to market, barter, donate, or use on the farm (including use as feed for livestock) in a marketing year a quantity of feed grains in excess of the feed grain production limitation quantity for the farm for the marketing year.

“(3) **PRODUCTION LIMITATION QUANTITY.**—For purposes of this subsection, the production limitation quantity for a farm for a marketing year for a crop shall equal the product obtained by multiplying—

“(A) the acreage permitted to be planted to feed grains under the acreage reduction program or land diversion program in effect for the crop for the farm; by

“(B) the higher of—

“(i) the farm program payment yield for the farm; or

“(ii) the average of the yield per harvested acre for feed grains for the farm for each of the 5 crop years immediately preceding the crop year during which the producers first participate in the program established under this subsection, excluding the crop years with the highest and lowest yield per harvested acre and any crop year in which the commodity was not planted on the farm.

“(4) **TERMS AND CONDITIONS.**—Producers on a farm who elect to participate in the program established under this subsection for a crop of feed grains shall—

“(A) enter into an agreement with the Secretary providing that the producers shall comply with the program for the crop;

“(B) not plant program commodities for harvest in a quantity in excess of the sum of the crop acreage bases for the farm; and

“(C) be considered to have complied with the terms and conditions of the feed grain acreage reduction program or land diversion program for the crop, even though the acreage planted to feed grains on the farm exceeds the permitted acreage provided under the acreage reduction or land diversion program.

“(5) EXCESS PRODUCTION.—

“(A) IN GENERAL.—Any quantity of feed grains produced in a crop year on a farm in excess of the production limitation quantity for the farm may be stored by the producers for a period of not to exceed 5 marketing years and may be used only in accordance with this paragraph.

“(B) MARKETING IN SUBSEQUENT YEAR.—

“(i) PARTICIPANTS IN PROGRAM.—Producers on a farm who are participating in the program established under this subsection may market, barter, or use a quantity of the excess feed grains referred to in subparagraph (A) equal to the difference between the production limitation quantity for the farm for the crop year subsequent to the crop year in which the excess feed grains are produced less the quantity of feed grains produced on the farm during the crop year.

“(ii) PARTICIPANTS IN ACREAGE REDUCTION PROGRAM.—Producers on a farm who are participating in an acreage reduction or a land diversion program for a crop of feed grains may market, barter, or use a quantity of the excess feed grains referred to in subparagraph (A) in an amount that reflects the quantity of feed grains that would be expected to be produced on acreage that the producers agree to devote to approved conservation uses (in excess of any acreage reduction or land diversion requirements) during a crop year, as determined by the Secretary.

“(6) DUTIES OF SECRETARY.—In carrying out the pilot program established under this subsection, the Secretary—

“(A) shall issue such regulations as are necessary to carry out the program; Regulations.

“(B) may require increased acreage reduction or land diversion requirements with respect to producers who have had excess feed grain production in order to allow the producers to market, barter, or use the production in subsequent years;

“(E) may require the forfeiture to the Commodity Credit Corporation of any feed grains that is produced in excess of the production limitation quantity and that is not marketed, bartered, or used within 5 marketing years; and

“(F) shall ensure equitable treatment for producers who participate in the pilot program if the Secretary allows increases (based on actual production levels) in the determination of farm program payment yields for feed grains for the farm.

“(7) REPORT.—

“(A) IN GENERAL.—The Comptroller General of the United States shall prepare a report that evaluates the pilot program carried out under this subsection.

“(B) SUBMISSION.—The Comptroller General shall submit a copy of the report required by subparagraph (A) to the Committee on Agriculture of the House of Representatives, the Committee on Agriculture, Nutrition, and Forestry of the Senate, and the Secretary.

“(h) EQUITABLE RELIEF.—

“(1) LOANS, PURCHASES, AND PAYMENTS.—If the failure of a producer to comply fully with the terms and conditions of the program conducted under this section precludes the making of loans, purchases, and payments, the Secretary may, nevertheless, make such loans, purchases, and payments in such amounts as the Secretary determines are equitable in relation to the seriousness of the failure. The Secretary may consider whether the producer made a good faith effort to comply fully with the terms and conditions of such program in determining whether equitable relief is warranted under this paragraph.

“(2) DEADLINES AND PROGRAM REQUIREMENTS.—The Secretary may authorize the county and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet such other requirements does not affect adversely the operation of the program.

“(o) PUBLIC COMMENT ON FEED GRAINS PROGRAM.—

“(1) IN GENERAL.—In order to ensure that producers and consumers of feed grains are provided with reasonable opportunity to comment on the annual program determinations concerning the price support and acreage reduction program for each of the 1992 and subsequent crops of feed grains, the Secretary shall request public comment regarding the feed grains program in accordance with this subsection.

“(2) **OPTIONS.**—Not less than 60 days before the program is announced for a crop of feed grains under this section, the Secretary shall propose for public comment various program options for the crop of feed grains.

“(3) **ANALYSES.**—Each option proposed by the Secretary shall be accompanied by an analysis that includes the estimated planted acreage, production, domestic and export use, ending stocks, season average producer price, program participation rate, and cost to the Federal Government that would likely result from each option.

(B) **TO PRODUCERS.**—The Secretary shall make available to each producer of 1988 or 1989 crop barley, on request, a statement detailing the effect of the calculation of refunds described in paragraph (1) on the producer's 1988 or 1989 refund.

(b) **DISCRETIONARY USE OF CALCULATION.**—

(1) **IN GENERAL.**—The Secretary may use the calculation described in subsection (a) to determine whether or not to reduce the total refund owed by a producer of 1988 or 1989 crop barley under section 107C of the Agricultural Act of 1949 (as it existed immediately before the date of enactment of this Act).

(2) **PROCEDURE FOR USE OF CALCULATION.**—If the Secretary decides to use the calculation described in subsection (a) as provided under paragraph (1), in the case of a producer of 1988 or 1989 crop barley who paid the refund of the advance deficiency payment for the crop calculated prior to the date of enactment of this Act (or any amount of refund in excess of the amount of the refund determined in accordance with paragraph (1)), the Secretary—

### SEC. 501. LOANS, PAYMENTS, AND ACREAGE REDUCTION PROGRAMS FOR THE 1991 THROUGH 1995 CROPS OF UPLAND COTTON.

The Agricultural Act of 1949 is amended by inserting after section 103A (7 U.S.C. 1444-1) the following new section:

### “SEC. 103B. LOANS, PAYMENTS, AND ACREAGE REDUCTION PROGRAMS FOR THE 1991 THROUGH 1995 CROPS OF UPLAND COTTON. 7 USC 1444-2.

#### “(a) **LOANS.**—

“(1) **IN GENERAL.**—Except as otherwise provided in this subsection, the Secretary shall, on presentation of warehouse receipts or other acceptable evidence of title, as determined by

the Secretary, reflecting accrued storage charges of not more than 60 days, make available for the 1991 through 1995 crops of upland cotton to producers on a farm nonrecourse loans for upland cotton produced on the farm for a term of 10 months from the first day of the month in which the loan is made at such loan level, per pound, as will reflect for the base quality of upland cotton, as determined by the Secretary, at average location in the United States a level that is not less than the smaller of—

“(A) 85 percent of the average price (weighted by market and month) of the base quality of cotton as quoted in the designated United States spot markets during 3 years of the 5-year period ending July 31 in the year in which the loan level is announced, excluding the year in which the average price was the highest and the year in which the average price was the lowest in the period; or

“(B) 90 percent of the average, for the 15-week period beginning July 1 of the year in which the loan level is announced, of the 5 lowest-priced growths of the growths quoted for Middling one and three-thirty-seconds inch cotton C.I.F. Northern Europe (adjusted downward by the average difference during the period April 15 through October 15 of the year in which the loan is announced between the average Northern European price quotation of such quality of cotton and the market quotations in the designated United States spot markets for the base quality of upland cotton, as determined by the Secretary.

“(2) ADJUSTMENTS TO LOAN LEVEL.—

“(A) LIMITATION ON DECREASE IN LOAN LEVEL.—The loan level for any crop determined under paragraph (1) may not be reduced by more than 5 percent from the level determined for the preceding crop, and may not be reduced below 50 cents per pound.

“(B) LIMITATION ON INCREASE IN LOAN LEVEL.—If for any crop the average Northern European price determined under paragraph (1)(B) is less than the average United States spot market price determined under paragraph (1)(A), the Secretary may increase the loan level to such level as the Secretary may consider appropriate, not in excess of the average United States spot market price determined under paragraph (1)(A).

“(3) ANNOUNCEMENT OF LOAN LEVEL.—The loan level for any crop of upland cotton shall be determined and announced by the Secretary not later than November 1 of the calendar year preceding the marketing year for which the loan is to be effective or, in the case of the 1991 crop, as soon as is practicable after the date of enactment of this Act. The loan level shall not thereafter be changed.

“(4) EXTENSION OF LOAN PERIOD.—

“(A) IN GENERAL.—Except as provided in subparagraph (B), nonrecourse loans provided for in this section shall, on request of the producer during the 10th month of the loan period for the cotton, be made available for an additional term of 8 months.

“(B) LIMITATION.—A request to extend the loan period shall not be approved in any month in which the average price of the base quality of upland cotton, as determined by

the Secretary, in the designated spot markets for the preceding month exceeded 130 percent of the average price of such base quality of cotton in the designated United States spot markets for the preceding 36-month period.

**"(5) MARKETING LOAN PROVISIONS.—**

**"(A) IN GENERAL.—**If the Secretary determines that the prevailing world market price for upland cotton (adjusted to United States quality and location) is below the loan level determined under the foregoing provisions of this subsection, in order to make United States upland cotton competitive in world markets, the Secretary shall permit a producer to repay a loan made for any crop at—

**"(i) a level that is the lesser of—**

**"(I) the loan level determined for the crop; or**

**"(II) the higher of—**

**"(aa) the loan level determined for the crop multiplied by 70 percent; or**

**"(bb) the prevailing world market price for upland cotton (adjusted to United States quality and location), as determined by the Secretary; or**

**"(ii) such other level (not in excess of the loan level determined for the crop nor less than 70 percent of such loan level) that the Secretary determines will—**

**"(I) minimize potential loan forfeitures;**

**"(II) minimize the accumulation of cotton stocks by the Federal Government;**

**"(III) minimize the cost incurred by the Federal Government in storing cotton; and**

**"(IV) allow cotton produced in the United States to be marketed freely and competitively, both domestically and internationally.**

**"(B) FIRST HANDLER MARKETING CERTIFICATES.—**

**"(i) IN GENERAL.—**During the period beginning August 1, 1991, and ending July 31, 1996, if a program carried out under subparagraph (A) or subsection (b) fails to make United States upland cotton fully competitive in world markets and the prevailing world market price of upland cotton (adjusted to United States quality and location), as determined by the Secretary, is below the current loan repayment rate for upland cotton determined under subparagraph (A), to make United States upland cotton competitive in world markets and to maintain and expand domestic consumption and exports of upland cotton produced in the United States, the Secretary shall provide for the issuance of marketing certificates in accordance with this subparagraph.

**"(ii) PAYMENTS.—**The Commodity Credit Corporation, under such regulations as the Secretary may prescribe, shall make payments, through the issuance of marketing certificates, to first handlers of cotton (persons regularly engaged in buying or selling upland cotton) who have entered into an agreement with the Commodity Credit Corporation to participate in the program established under this subparagraph. The payments shall be made in such monetary amounts and subject to

such terms and conditions as the Secretary determines will make upland cotton produced in the United States available at competitive prices, consistent with the purposes of this subparagraph.

“(iii) **VALUE.**—The value of each certificate issued under clause (ii) shall be based on the difference between—

“(I) the loan repayment rate for upland cotton; and

“(II) the prevailing world market price of upland cotton (adjusted to United States quality and location), as determined by the Secretary.

“(iv) **REDEMPTION, MARKETING, OR EXCHANGE.**—The Commodity Credit Corporation, under regulations prescribed by the Secretary, may assist any person receiving marketing certificates under this subparagraph in the redemption of certificates for cash, or marketing or exchange of the certificates for agricultural commodities or products owned by the Commodity Credit Corporation, at such times, in such manner, and at such price levels as the Secretary determines will best effectuate the purposes of the program established under this subparagraph. Any price restrictions that may otherwise apply to the disposition of agricultural commodities by the Commodity Credit Corporation shall not apply to the redemption of certificates under this subparagraph.

“(v) **DESIGNATION OF COMMODITIES AND PRODUCTS; CHARGES.**—Insofar as practicable, the Secretary shall permit owners of certificates to designate the commodities and the products thereof, including storage sites thereof, the owners would prefer to receive in exchange for certificates. If any certificate is not presented for redemption, marketing, or exchange within a reasonable number of days after the issuance of the certificate (as determined by the Secretary), reasonable costs of storage and other carrying charges, as determined by the Secretary, shall be deducted from the value of the certificate for the period beginning after the reasonable number of days and ending with the date of the presentation of the certificate to the Commodity Credit Corporation.

“(vi) **DISPLACEMENT.**—The Secretary shall take such measures as may be necessary to prevent the marketing or exchange of agricultural commodities and products for certificates under this subsection from adversely affecting the income of producers of the commodities or products.

“(vii) **TRANSFERS.**—Under regulations prescribed by the Secretary, certificates issued to cotton handlers under this subparagraph may be transferred to other handlers and persons approved by the Secretary.

“(C) **PREVAILING WORLD MARKET PRICE.**—

“(i) **IN GENERAL.**—The Secretary shall prescribe by regulation—

“(I) a formula to define the prevailing world market price for upland cotton (adjusted to United States quality and location); and

“(II) a mechanism by which the Secretary shall announce periodically the prevailing world market price for upland cotton (adjusted to United States quality and location).

“(ii) USE.—The prevailing world market price for upland cotton (adjusted to United States quality and location) established under this subparagraph shall be used under subparagraphs (A) and (B).

“(D) ADJUSTMENT OF PREVAILING WORLD MARKET PRICE.—

Northern  
Europe.

“(i) IN GENERAL.—During the period beginning August 1, 1991, and ending July 31, 1996, the prevailing world market price for upland cotton (adjusted to United States quality and location) established under subparagraph (C) shall be further adjusted if—

“(I) the adjusted prevailing world market price is less than 115 percent of the current crop year loan level for the base quality of upland cotton, as determined by the Secretary; and

“(II) the Friday through Thursday average price quotation for the lowest-priced United States growth as quoted for Middling (M) one and three-thirty seconds inch cotton delivered C.I.F. Northern Europe is greater than the Friday through Thursday average price of the five lowest-priced growths of upland cotton, as quoted for Middling (M) one and three-thirty seconds inch cotton, delivered C.I.F. Northern Europe (hereafter in this subsection referred to as the ‘Northern Europe price’).

“(ii) FURTHER ADJUSTMENT.—Except as provided in clause (iii), the adjusted prevailing world market price shall be further adjusted on the basis of some or all of the following data, as available:

“(I) The United States share of world exports.

“(II) The current level of cotton export sales and cotton export shipments.

“(III) Other data determined by the Secretary to be relevant in establishing an accurate prevailing world market price for upland cotton (adjusted to United States quality and location).

“(iii) LIMITATION ON FURTHER ADJUSTMENT.—The adjustment under clause (ii) may not exceed the difference between—

“(I) the Friday through Thursday average price for the lowest-priced United States growth as quoted for Middling one and three-thirty seconds inch cotton delivered C.I.F. Northern Europe; and

“(II) the Northern Europe price.

“(E) COTTON USER MARKETING CERTIFICATES.—

Northern  
Europe.

“(i) ISSUANCE.—During the period beginning August 1, 1991, and ending July 31, 1996, if for any consecutive 4-week period, the Friday through Thursday average price quotation for the lowest-priced United States growth, as quoted for Middling (M) one and three-thirty

seconds inch cotton, delivered C.I.F. Northern Europe exceeds the Northern Europe price by more than 1.25 cents per pound, the Secretary shall issue marketing certificates to domestic users or exporters for documented sales made in the week following such consecutive 4-week period.

“(ii) VALUE.—The value of the marketing certificates shall be based on the amount of the difference (reduced by 1.25 cents per pound) in such prices during the 4th week of the consecutive 4-week period multiplied by the quantity of upland cotton included in the documented sales.

“(iii) ADMINISTRATION.—Clauses (iv) through (vii) of subparagraph (B) shall apply to marketing certificates issued under this subparagraph. Any such certificates may be transferred to other persons in accordance with regulations issued by the Secretary.

“(F) SPECIAL IMPORT QUOTA.—

“(i) ESTABLISHMENT.—The President shall, within 180 days after the date of enactment of this section, establish an import quota program which shall provide that, during the period beginning August 1991 and ending July 31, 1996, whenever the Secretary determines and announces that for any consecutive 10-week period, the Friday through Thursday average price quotation for the lowest-priced United States growth, as quoted for Middling (M) one and three-thirty seconds inch cotton, delivered C.I.F. Northern Europe, adjusted for the value of any certificates issued under subparagraph (E), exceeds the Northern Europe price by more than 1.25 cents per pound, there shall immediately be in effect a special limited global import quota.

“(ii) QUANTITY.—The quota shall be equal to 1 week’s consumption of upland cotton by domestic mills at the seasonally adjusted average rate of the most recent 3 months for which data are available.

“(iii) APPLICATION.—The quota shall apply to upland cotton purchased not later than 90 days after the date of the Secretary’s announcement under clause (i) and entered into the United States not later than 180 days after such date.

“(6) RECOURSE LOANS FOR SEED COTTON.—In order to encourage and assist producers in the orderly ginning and marketing of their production of upland cotton, the Secretary shall make recourse loans available to such producers on seed cotton in accordance with authority vested in the Secretary under the Commodity Credit Corporation Charter Act (15 U.S.C. 714 et seq.).

“(b) LOAN DEFICIENCY PAYMENTS.—

“(1) IN GENERAL.—The Secretary shall, for each of the 1991 through 1995 crops of upland cotton, make payments (hereafter

President.  
Northern  
Europe.

in this section referred to as 'loan deficiency payments') available to producers who, although eligible to obtain a loan under subsection (a), agree to forgo obtaining the loan in return for payments under this subsection.

"(2) COMPUTATION.—A payment under this subsection shall be computed by multiplying—

"(A) the loan payment rate; by

"(B) the quantity of upland cotton the producer is eligible to place under loan but for which the producer forgoes obtaining the loan in return for payments under this subsection.

"(3) LOAN PAYMENT RATE.—For purposes of this subsection, the loan payment rate shall be the amount by which—

"(A) the loan level determined for the crop under subsection (a); exceeds

"(B) the level at which a loan may be repaid under subsection (a).

"(4) MARKETING CERTIFICATES.—The Secretary may make up to one-half the amount of a payment under this subsection available in the form of marketing certificates, subject to the terms and conditions provided in subsection (a)(5)(B).

"(c) PAYMENTS.—

"(1) DEFICIENCY PAYMENTS.—

"(A) IN GENERAL.—The Secretary shall make available to producers payments (hereafter in this section referred to as 'deficiency payments') for each of the 1991 through 1995 crops of upland cotton in an amount computed by multiplying—

"(i) the payment rate; by

"(ii) the payment acres for the crop; by

"(iii) the farm program payment yield established for the crop for the farm.

"(B) PAYMENT RATE.—

"(i) IN GENERAL.—The payment rate for upland cotton shall be the amount by which the established price for the crop of upland cotton exceeds the higher of—

"(I) the national average market price received by producers during the calendar year that includes the first 5 months of the marketing year for the crop, as determined by the Secretary; or

"(II) the loan level determined for the crop.

"(ii) MINIMUM ESTABLISHED PRICE.—The established price for upland cotton shall not be less than \$0.729 per pound for each of the 1991 through 1995 crops.

"(C) PAYMENT ACRES.—Payment acres for a crop shall be the lesser of—

"(i) the number of acres planted to the crop for harvest within the permitted acreage; or

"(ii) 100 percent of the crop acreage base for the crop for the farm less the quantity of reduced acreage (as determined under subsection (e)(2)(D)).

"(D) 50/92 PROGRAM.—

"(i) IN GENERAL.—If an acreage limitation program under subsection (e)(2) is in effect for a crop of upland cotton and the producers on a farm devote a portion of the maximum payment acres for upland cotton as cal-

Conservation.

culated under subparagraph (C)(ii) of the farm equal to more than 8 percent of such upland cotton acreage of the farm for the crop to conservation uses (except as provided in subparagraph (E))—

“(I) such portion of the maximum payment acres in excess of 8 percent of such acreage devoted to conservation uses (except as provided in subparagraph (E)) shall be considered to be planted to upland cotton for the purpose of determining the acreage on the farm required to be devoted to conservation uses in accordance with subsection (e)(2)(D); and

“(II) the producers shall be eligible for payments under this paragraph with respect to such acreage, subject to the compliance of the producers with clause (ii).

“(ii) **MINIMUM PLANTING REQUIREMENT.**—To be eligible for payments under clause (i), except as provided in clauses (iv) and (v), the producers on a farm must actually plant upland cotton for harvest on at least 50 percent of the maximum payment acres for cotton for the farm.

“(iii) **DEFICIENCY PAYMENTS.**—Notwithstanding any other provision of this section, any producer who devotes a portion of the maximum payment acres for upland cotton for the farm to conservation uses (or other uses as provided in subparagraph (E)) under this subparagraph shall receive deficiency payments on the acreage that is considered to be planted to upland cotton and eligible for payments under this subparagraph for the crop at a per-pound rate established by the Secretary, except that the rate may not be established at less than the projected deficiency payment rate for the crop, as determined by the Secretary. Such projected payment rate for the crop shall be announced by the Secretary prior to the period during which upland cotton producers may agree to participate in the program for the crop.

“(iv) **QUARANTINES.**—If a State or local agency has imposed in an area of a State or county a quarantine on the planting of upland cotton for harvest on farms in the area, the State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) may recommend to the Secretary that payments be made under this paragraph, without regard to the requirement imposed under clause (ii), to producers in the area who were required to forgo the planting of upland cotton for harvest on acreage to alleviate or eliminate the condition requiring the quarantine. If the Secretary determines that the condition exists, the Secretary may make payments under this paragraph to the producers. To be eligible for payments under this clause, the producers must devote the acreage to conservation uses (except as provided in subparagraph (E)).

“(v) **PREVENTED PLANTING.**—If an acreage limitation program under subsection (e) is in effect for any crop of

upland cotton and if the Secretary determines that producers on a farm are prevented from planting the acreage intended for upland cotton to upland cotton because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the Secretary shall make available to such producers payments under this subparagraph without regard to the requirement imposed under clause (ii). To be eligible for payments under this clause, the producers must devote the acreage to conservation uses (except as provided in subparagraph (E)). Any such acreage shall be considered to be planted to upland cotton.

“(vi) CROP ACREAGE AND PAYMENT YIELD.—The upland cotton crop acreage base and upland cotton farm program payment yield of the farm shall not be reduced due to the fact that a portion of the permitted cotton acreage of the farm was devoted to conserving uses (except as provided in subparagraph (E)) under this subparagraph.

“(vii) LIMITATION.—Other than as provided in clauses (i) through (vi), payments may not be made under this paragraph for any crop on a greater acreage than the acreage actually planted to upland cotton.

“(viii) CONSERVATION USE ACREAGE UNDER OTHER PROGRAMS.—Any acreage considered to be planted to upland cotton in accordance with clauses (i) and (vi) may not also be designated as conservation use acreage for the purpose of fulfilling any provisions under any acreage limitation or land diversion program requiring that the producers devote a specified acreage to conservation uses.

“(E) ALTERNATIVE CROPS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (D) to be devoted to sweet sorghum, guar, sesame, castor beans, crambe, plantago ovato, triticale, rye, mung beans, commodities for which no substantial domestic production or market exists but that could yield industrial raw material being imported, or likely to be imported, into the United States, or commodities grown for experimental purposes (including kenaf and milkweed), subject to the following sentence. The Secretary may permit the acreage to be devoted to the production only if the Secretary determines that—

“(i) the production is not likely to increase the cost of the price support program and will not affect farm income adversely; and

“(ii) the production is needed to provide an adequate supply of the commodity, or, in the case of commodities for which no substantial domestic production or market exists but that could yield industrial raw materials, the production is needed to encourage domestic manufacture of the raw material and could lead to increased industrial use of the raw material to the long-term benefit of United States industry.

“(F) REDUCTION FOR DISASTER PAYMENTS.—The total quantity of upland cotton on which payments would otherwise be payable to a producer on a farm for any crop under this paragraph shall be reduced by the quantity on which any disaster payment is made to the producer for the crop under paragraph (2).

“(2) DISASTER PAYMENTS.—

“(A) PREVENTED PLANTING.—Except as provided in subparagraph (C), if the Secretary determines that the producers on a farm are prevented from planting any portion of the acreage intended for upland cotton to upland cotton or other nonconserving crops because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the Secretary shall make a prevented planting disaster payment to the producers in an amount equal to the product obtained by multiplying—

“(i) the number of acres so affected but not to exceed the acreage planted to upland cotton for harvest (including any acreage that the producers were prevented from planting to upland cotton or other nonconserving crops in lieu of upland cotton because of drought, flood, or other natural disaster, or other condition beyond the control of the producers) in the immediately preceding year; by

“(ii) 75 percent of the farm program payment yield established for the farm by the Secretary; by

“(iii) a payment rate equal to 33⅓ percent of the established price for the crop.

“(B) REDUCED YIELDS.—Except as provided in subparagraph (C), if the Secretary determines that because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the total quantity of upland cotton that the producers are able to harvest on any farm is less than the result of multiplying 75 percent of the farm program payment yield established by the Secretary for the crop by the acreage planted for harvest for the crop, the Secretary shall make a reduced yield disaster payment to the producers at a rate equal to 33⅓ percent of the established price for the crop for the deficiency in production below 75 percent for the crop.

“(C) CROP INSURANCE.—Producers on a farm shall not be eligible for—

“(i) prevented planting disaster payments under subparagraph (A), if prevented planting crop insurance is available to the producers under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) with respect to the upland cotton acreage of the producers; or

“(ii) reduced yield disaster payments under subparagraph (B), if reduced yield crop insurance is available to the producers under such Act with respect to the upland cotton acreage of the producers.

“(D) ADMINISTRATION.—

“(i) ECONOMIC EMERGENCIES.—Notwithstanding subparagraph (C), the Secretary may make a disaster payment to the producers on a farm under this paragraph if the Secretary determines that—

“(I) as the result of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the producers have suffered substantial losses of production either from being prevented from planting upland cotton or other nonconserving crops or from reduced yields;

“(II) the losses have created an economic emergency for the producers;

“(III) crop insurance indemnity payments under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) and other forms of assistance made available by the Federal Government to the producers for the losses are insufficient to alleviate the economic emergency; and

“(IV) additional assistance must be made available to the producers to alleviate the economic emergency.

“(ii) ADJUSTMENTS.—The Secretary may make such adjustments in the amount of payments made available under this paragraph with respect to an individual farm as necessary to ensure the equitable allotment of the payments among producers, taking into account other forms of Federal disaster assistance provided to the producers for the crop involved.

“(d) PAYMENT YIELDS.—The farm program payment yields for farms for each crop of upland cotton shall be determined under title V.

“(e) ACREAGE REDUCTION PROGRAMS.—

“(1) IN GENERAL.—

“(A) ESTABLISHMENT.—Notwithstanding any other provision of this Act, if the Secretary determines that the total supply of upland cotton, in the absence of an acreage limitation program, will be excessive taking into account the need for an adequate carry-over to maintain reasonable and stable supplies and prices and to meet a national emergency, the Secretary may provide for any crop of upland cotton an acreage limitation program as described in paragraph (2).

“(B) AGRICULTURAL RESOURCES CONSERVATION PROGRAM.—In making a determination under subparagraph (A), the Secretary shall take into consideration the number of acres placed in the agricultural resources conservation program established under subtitle D of title XII of the Food Security Act of 1985 (16 U.S.C. 3831 et seq.).

“(C) ANNOUNCEMENTS.—

“(i) PRELIMINARY ANNOUNCEMENT.—If the Secretary elects to implement an acreage limitation program for any crop year, the Secretary shall make a preliminary announcement of any such program not later than November 1 of the calendar year preceding the year in which the crop is harvested, except that in the case of the 1991 crop, the Secretary shall announce the program as soon as practicable after the date of enactment of this section. The announcement shall include, among other information determined necessary by the Secretary, an announcement of the uniform percentage

reduction in the upland cotton crop acreage base described in paragraph (2)(A).

"(ii) FINAL ANNOUNCEMENT.—Not later than January 1 of the calendar year in which the crop is harvested, the Secretary shall make a final announcement of the program. The announcement shall include, among other information determined necessary by the Secretary, an announcement of the uniform percentage reduction in the upland cotton crop described in paragraph (2)(A).

"(iii) OPTIONAL PROGRAMS IN EARLY PLANTING AREAS.—The Secretary shall allow producers in early planting areas to elect to participate in the program on the terms of the acreage limitation program—

"(I) first announced for the crop under clause (i);

or

"(II) as subsequently revised under clause (ii), if the Secretary determines that the producers may be unfairly disadvantaged by the revision.

"(D) DESIRED CARRY-OVER.—The Secretary shall carry out an acreage limitation program described in paragraph (2) for a crop of upland cotton in a manner that will result in a ratio of carry-over to total disappearance of 30 percent, based on the Secretary's most recent projection of carry-over and total disappearance at the time of announcement of the acreage limitation program. For the purpose of this subparagraph, the term 'total disappearance' means all upland cotton utilization, including total domestic, total export, and total residual disappearance.

"(2) ACREAGE LIMITATION PROGRAM.—

"(A) UNIFORM PERCENTAGE REDUCTION.—Except as provided in paragraph (3), if an upland cotton acreage limitation program is announced under paragraph (1), the limitation shall be achieved by applying a uniform percentage reduction (from 0 to 25 percent) to the upland cotton crop acreage base for the crop for each upland cotton-producing farm.

"(B) COMPLIANCE.—Except as provided in section 504, producers who knowingly produce upland cotton in excess of the permitted upland cotton acreage for the farm, as established in accordance with subparagraph (A), shall be ineligible for upland cotton loans and payments with respect to that farm.

"(C) CROP ACREAGE BASES.—Upland cotton crop acreage bases for each crop of upland cotton shall be determined under title V.

"(D) ACREAGE DEVOTED TO CONSERVATION USES.—A number of acres on the farm shall be devoted to conservation uses, in accordance with regulations issued by the Secretary. Such number shall be determined by multiplying the upland cotton crop acreage base by the percentage reduction required by the Secretary. The number of acres so determined is hereafter in this subsection referred to as 'reduced acreage'. The remaining acreage is hereafter in this subsection referred to as 'permitted acreage'. Permitted acreage may be adjusted by the Secretary as provided in paragraph (3) and in section 504.

“(E) **INDIVIDUAL FARM PROGRAM ACREAGE.**—Except as otherwise provided in subsection (c), the individual farm program acreage shall be the acreage planted on the farm to upland cotton for harvest within the permitted upland cotton acreage for the farm as established under this paragraph.

“(F) **PLANTING DESIGNATED CROPS ON REDUCED ACREAGE.**—

“(i) **DEFINITION OF DESIGNATED CROP.**—As used in this subparagraph, the term ‘designated crop’ means a crop defined in section 504(b)(1), excluding any program crop as defined in section 502(3).

“(ii) **IN GENERAL.**—Subject to clause (iii), the Secretary may permit producers on a farm to plant a designated crop on no more than one-half of the reduced acreage on the farm.

“(iii) **LIMITATIONS.**—If the producers on a farm elect to plant a designated crop on reduced acreage under this subparagraph—

“(I) the amount of the deficiency payment that the producers are otherwise eligible to receive under subsection (c) shall be reduced, for each acre (or portion thereof) that is planted to the designated crop, by an amount equal to the deficiency payment that would be made with respect to a number of acres of the crop that the Secretary considers appropriate, except that if the producers on the farm are participating in a program established for more than one program crop, the amount of the reduction shall be determined by prorating the reduction based on the acreage planted or considered planted on the farm to all of such program crops; and

“(II) the Secretary shall ensure that reductions in deficiency payments under subclause (I) are sufficient to ensure that this subparagraph will result in no additional cost to the Commodity Credit Corporation.

“(3) **TARGETED OPTION PAYMENTS.**—

“(A) **IN GENERAL.**—Notwithstanding any other provision of this section, if the Secretary implements an acreage limitation program with respect to any of the 1991 through 1995 crops of upland cotton, the Secretary may make available to producers on a farm who do not receive payments under subsection (c)(1)(D) for such crop on the farm, adjustments in the level of deficiency payments that would otherwise be made available to the producers if the producers exercise the payment options provided in this paragraph.

“(B) **PAYMENT OPTIONS.**—If the Secretary elects to carry out this paragraph, the Secretary shall make the payment options specified in subparagraphs (C) and (D) available to producers who agree to make adjustments in the quantity of acreage diverted from the production of upland cotton under an acreage limitation program in accordance with this paragraph.

“(C) **INCREASED ACREAGE LIMITATION OPTION.**—

“(i) **INCREASE IN ESTABLISHED PRICE.**—If the Secretary elects to carry out this paragraph, a producer shall be

eligible to receive an increase in the established price for upland cotton under clause (ii) if the producer agrees to an increase in the acreage limitation percentage to be applied to the producers' upland cotton acreage base above the acreage limitation percentage announced by the Secretary.

"(ii) METHOD OF CALCULATION.—For the purposes of calculating deficiency payments to be made available to producers who participate in the program under this paragraph, the Secretary shall increase the established price for upland cotton by an amount determined by the Secretary, but not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point increase in the acreage limitation percentage applied to the producers' upland cotton acreage base.

"(iii) LIMITATION.—The acreage limitation percentage to be applied to the producers' upland cotton acreage base shall not be increased by more than 10 percentage points above the acreage limitation percentage announced by the Secretary for the crop or above 25 percent total for the crop.

"(iv) ADJUSTMENT FOR UNDERPLANTINGS.—In determining the increased acreage limitation percentage that is applied to the producer's upland cotton base under this paragraph, the Secretary shall exclude an amount of acreage equal to the average difference between the producer's permitted upland cotton acreage and the acreage actually planted (including acreage devoted to conserving uses under subsection (c)(1)(D)) to upland cotton for harvest during the previous 2 years.

"(D) DECREASED ACREAGE LIMITATION OPTION.—

"(i) DECREASE IN ACREAGE LIMITATION REQUIREMENT.—If the Secretary elects to carry out this paragraph, a producer shall be eligible to decrease the acreage limitation percentage applicable to the producers' upland cotton acreage base (as announced by the Secretary) if the producer agrees to a decrease in the established price for upland cotton under clause (ii) for the purpose of calculating deficiency payments to be made available to the producer.

"(ii) METHOD OF CALCULATION.—For the purposes of calculating deficiency payments to be made available to producers who choose the option set forth in this subparagraph, the Secretary shall decrease the established price for upland cotton by an amount to be determined by the Secretary, but not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point decrease in the acreage limitation percentage applied to the producers' upland cotton acreage base.

"(iii) LIMITATION.—A producer may not choose to decrease the acreage limitation percentage applicable to the producers' upland cotton acreage base under this paragraph by more than one-half of the announced acreage limitation percentage.

"(E) PARTICIPATION AND PRODUCTION EFFECTS.—Notwithstanding any other provision of this paragraph, the Secretary shall, to the extent practicable, ensure that the

program provided for in this paragraph does not have a significant effect on program participation or total production and shall be offered in such a manner that the Secretary determines will result in no additional budget outlays. The Secretary shall provide an analysis of the Secretary's determination to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

“(4) ADMINISTRATION.—

“(A) PROTECTION FROM WEEDS AND EROSION.—The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall assure protection of the acreage from weeds and wind and water erosion.

Regulations.

“(B) ANNUAL OR PERENNIAL COVER.—

“(i) IN GENERAL.—Except as provided in paragraph (2), a producer who participates in an acreage reduction program established for a crop of upland cotton under this subsection shall be required to plant to an annual or perennial cover 50 percent (or more, at the option of the producer) of the acreage that is required to be removed from the production of upland cotton, but not to exceed 5 percent (or more, at the option of the producer) of the crop acreage base established for the crop. This requirement shall not apply with respect to arid areas (including summer fallow areas), as determined by the Secretary.

“(ii) MULTIYEAR PROGRAM.—

“(I) COST-SHARE ASSISTANCE.—If a producer elects to establish a perennial cover capable of improving water quality or wildlife habitat on the acreage, the Commodity Credit Corporation shall make available cost-share assistance for 25 percent of the approved cost of establishing the cover on not more than 50 percent of the acreage that is required to be diverted from production, but not to exceed 5 percent (or more, at the option of the producer) of the crop acreage base established for a crop.

“(II) AGREEMENT OF PRODUCER.—If a producer elects to establish a perennial cover on the acreage under this subparagraph and receives cost-share assistance from the Corporation with respect to the cover, the producer, under such terms and conditions as may be prescribed by the Secretary, taking into consideration guidelines established by the State technical committees established in subtitle G of title XII of the Food Security Act of 1985, shall agree to maintain the perennial cover for a minimum of 3 years.

“(iii) CONSERVING CROPS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of the acreage to be devoted to sweet sorghum, guar, sesame, castor beans, crambe, plantago ovato, triticale, rye, mung beans, milkweed, or other commodity, if the Secretary determines that the production is needed to provide an adequate supply of the commodities, is not likely to

increase the cost of the price support program, and will not affect farm income adversely.

“(C) HAYING AND GRAZING.—

“(i) IN GENERAL.—Except as provided in clause (ii), haying and grazing of reduced acreage, acreage devoted to a conservation use under subsection (c)(1)(D), and acreage diverted from production under a land diversion program established under this section shall be permitted, except during any consecutive 5-month period that is established by the State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) for a State. The 5-month period shall be established during the period beginning April 1, and ending October 31, of a year.

“(ii) NATURAL DISASTERS.—In the case of a natural disaster, the Secretary may permit unlimited haying and grazing on the acreage. The Secretary may not exclude irrigated or irrigable acreage not planted in alfalfa when exercising the authority under this clause.

“(D) WATER STORAGE USES.—

“(i) IN GENERAL.—The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall provide that land that has been converted to water storage uses shall be considered to be devoted to conservation uses if the land was devoted to wheat, feed grains, cotton, rice, or oilseeds in at least 3 of the immediately preceding 5 years. The land shall be considered to be devoted to conservation uses for the period that the land remains in water storage uses, but not to exceed 5 years subsequent to its conversion to water storage uses.

“(ii) LIMITATIONS.—Land converted to water storage uses for the purposes of this subparagraph may not be devoted to any commercial use, including commercial fish production. The water stored on the land may not be ground water. The farm on which the land is located must have been irrigated with ground water during at least 1 of the preceding 5 crop years.

“(5) LAND DIVERSION PROGRAM.—

“(A) PAYMENTS.—

“(i) IN GENERAL.—The Secretary may make land diversion payments to producers of upland cotton, whether or not an acreage limitation program for upland cotton is in effect, if the Secretary determines that the land diversion payments are necessary to assist in adjusting the total national acreage of upland cotton to desirable goals. The land diversion payments shall be made to producers who, to the extent prescribed by the Secretary, devote to approved conservation uses an acreage of cropland on the farm in accordance with land diversion contracts entered into by the Secretary with the producers.

“(ii) EXCESS CARRY-OVER.—If, at the time of final announcement of the acreage limitation program established under this subsection, the projected carry-over of

upland cotton for the crop year is equal to or greater than 8 million bales, the Secretary shall offer a paid land diversion program to producers of upland cotton. Payments to producers under such a program shall be determined by multiplying—

“(I) the payment rate, of not less than 35 cents per pound of cotton, established by the Secretary; by

“(II) the program payment yield established for the crop for the farm; by

“(III) the number of permitted upland cotton acres diverted on the farm.

“(B) BIDS FOR CONTRACTS.—The amounts payable to producers under land diversion contracts may be determined through the submission of bids for the contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. In determining the acceptability of contract offers, the Secretary shall take into consideration the extent of the diversion to be undertaken by the producers and the productivity of the acreage diverted.

“(C) LIMITATIONS ON DIVERTED ACREAGE.—

“(i) MAXIMUM ACREAGE PER FARM, COUNTY, OR COMMUNITY.—The Secretary shall limit the total acreage to be diverted under this paragraph—

“(I) to not more than 15 percent of the upland cotton crop acreage base for a farm; and

“(II) under agreements in any county or local community so as not to affect adversely the economy of the county or local community.

“(ii) LOWER PARTICIPATION LEVELS.—The Secretary may allow producers to participate in a land diversion program under this paragraph at a level lower than the maximum level announced by the Secretary, at the option of the producer, if the Secretary determines that it will increase participation in the program.

“(6) CONSERVATION PRACTICES.—

“(A) WILDLIFE FOOD PLOTS OR HABITAT.—The reduced acreage and additional diverted acreage may be devoted to wildlife food plots or wildlife habitat in conformity with standards established by the Secretary in consultation with wildlife agencies. The Secretary may pay an appropriate share of the cost of practices designed to carry out the purposes of this subparagraph.

“(B) PUBLIC ACCESS.—The Secretary may provide for an additional payment on the acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

“(7) PARTICIPATION AGREEMENTS.—

“(A) IN GENERAL.—Producers on a farm desiring to participate in the program conducted under this subsection shall execute an agreement with the Secretary providing

for the participation not later than such date as the Secretary may prescribe.

“(B) MODIFICATION OR TERMINATION.—The Secretary may, by mutual agreement with producers on a farm, modify or terminate any such agreement if the Secretary determines the action necessary because of an emergency created by drought or other disaster or to prevent or alleviate a shortage in the supply of agricultural commodities. The Secretary may modify the agreement under this subparagraph for the purpose of alleviating a shortage in the supply of agricultural commodities only if there has been a significant change in the estimated stocks of the commodity since the Secretary announced the final terms and conditions of the program for the crop of upland cotton.

“(f) INVENTORY REDUCTION PAYMENTS.—

“(1) IN GENERAL.—The Secretary may, for each of the 1991 through 1995 crops of upland cotton, make payments available to producers who meet the requirements of this subsection.

“(2) FORM.—The payments may be made in the form of marketing certificates.

“(3) PAYMENTS.—

“(A) IN GENERAL.—Payments under this subsection shall be determined in the same manner as provided in subsection (b).

“(B) QUANTITY OF COTTON MADE AVAILABLE.—The quantity of upland cotton to be made available to a producer under this subsection shall be equal in value to the payments so determined under this subsection.

“(4) ELIGIBILITY.—A producer shall be eligible to receive a payment under this subsection for a crop if the producer—

“(A) agrees to forgo obtaining a loan under subsection (a);

“(B) agrees to forgo receiving payments under subsection (c);

“(C) does not plant upland cotton for harvest in excess of the crop acreage base reduced by one-half of any acreage required to be diverted from production under subsection (e); and

“(D) otherwise complies with this section.

“(g) EQUITABLE RELIEF.—

“(1) LOANS AND PAYMENTS.—If the failure of a producer to comply fully with the terms and conditions of the program conducted under this section precludes the making of loans and payments, the Secretary may, nevertheless, make such loans and payments in such amounts as the Secretary determines are equitable in relation to the seriousness of the failure. The Secretary may consider whether the producer made a good faith effort to comply fully with the terms and conditions of the program in determining whether equitable relief is warranted under this paragraph.

“(2) DEADLINES AND PROGRAM REQUIREMENTS.—The Secretary may authorize the county and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet such other requirements does not affect adversely the operation of the program.

"(h) REGULATIONS.—The Secretary may issue such regulations as the Secretary determines necessary to carry out this section.

"(i) COMMODITY CREDIT CORPORATION.—The Secretary shall carry out the program authorized by this section through the Commodity Credit Corporation.

"(j) ASSIGNMENT OF PAYMENTS.—The provisions of section 8(g) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(g)) (relating to assignment of payments) shall apply to payments under this section.

"(k) SHARING OF PAYMENTS.—The Secretary shall provide for the sharing of payments made under this section for any farm among the producers on the farm on a fair and equitable basis.

"(l) TENANTS AND SHARECROPPERS.—The Secretary shall provide adequate safeguards to protect the interests of tenants and sharecroppers.

"(m) CROSS-COMPLIANCE.—

"(1) IN GENERAL.—Compliance on a farm with the terms and conditions of any other commodity program, or compliance with crop acreage base requirements for any other commodity, may not be required as a condition of eligibility for loans or payments under this section.

"(2) COMPLIANCE ON OTHER FARMS.—The Secretary may not require producers on a farm, as a condition of eligibility for loans or payments under this section for the farm, to comply with the terms and conditions of the upland cotton program with respect to any other farm operated by the producers.

"(n) SPECIAL LIMITED GLOBAL IMPORT QUOTA.—

"(1) IN GENERAL.—The President shall, within 180 days after the date of enactment of this section, establish an import quota program which shall provide that whenever the Secretary determines and announces that the average price of the base quality of upland cotton, as determined by the Secretary, in the designated spot markets for a month exceeded 130 percent of the average price of such quality of cotton in such markets for the preceding 36 months, notwithstanding any other provision of law, there shall immediately be in effect a special limited global import quota subject to the following conditions:

President.

"(A) QUANTITY.—The quantity of the special quota shall be equal to 21 days of domestic mill consumption of upland cotton at the seasonally adjusted average rate of the most recent 3 months for which data are available.

"(B) QUANTITY IF PRIOR QUOTA.—If a special quota has been established under this subsection during the preceding 12 months, the quantity of the quota next established under this subsection shall be the smaller of 21 days of domestic mill consumption calculated as set forth in subparagraph (A) or the quantity required to increase the supply to 130 percent of the demand.

"(C) DEFINITIONS.—As used in subparagraph (B):

"(i) SUPPLY.—The term 'supply' means, using the latest official data of the Bureau of the Census, the Department of Agriculture, and the Department of the Treasury—

"(I) the carry-over of upland cotton at the beginning of the marketing year (adjusted to 480-pound bales) in which the special quota is established; plus

“(II) production of the current crop; plus  
 “(III) imports to the latest date available during the marketing year.

“(ii) DEMAND.—The term ‘demand’ means—

“(I) the average seasonally adjusted annual rate of domestic mill consumption in the most recent 3 months for which data are available; plus

“(II) the larger of—

“(aa) average exports of upland cotton during the preceding 6 marketing years; or

“(bb) cumulative exports of upland cotton plus outstanding export sales for the marketing year in which the special quota is established.

“(D) QUOTA ENTRY PERIOD.—When a special quota is established under this subsection, cotton may be entered under the quota during the 90-day period beginning on the effective date of the proclamation.

“(2) NO OVERLAP.—Notwithstanding paragraph (1), a special quota period may not be established that overlaps an existing quota period or a special quota period established under subsection (a)(5)(F).

“(o) CROPS.—Notwithstanding any other provision of law, this section shall be effective only for the 1991 through 1995 crops of upland cotton.”.

#### SEC. 507. COTTONSEED AND COTTONSEED OIL PRICE SUPPORT.

Section 203 of the Agricultural Act of 1949 (7 U.S.C. 1446d) is amended to read as follows:

##### “SEC. 203. COTTONSEED AND COTTONSEED OIL PRICE SUPPORT.

“(a) **IN GENERAL.**—If the Secretary determines that any oilseed program or programs cause, or are likely to cause, a reduction in prices received by producers for cottonseed or by processors for cottonseed oil, the Secretary shall take such actions as are necessary to offset the actual or anticipated impact of the program on prices for cottonseed or cottonseed oil. The actions shall only include actions to stabilize or increase the price of cottonseed, and shall not include actions to decrease the prices of other oilseeds.

“(b) **CROPS.**—Notwithstanding any other provision of law, this section shall be effective only for the 1991 through 1995 crops of upland cotton.”.

#### SEC. 508. SECURITY INTERESTS.

Records.

(a) **IN GENERAL.**—Section 17 of the United States Warehouse Act (7 U.S.C. 259) is amended by adding at the end the following new subsections:

“(c)(1)(A) The Secretary of Agriculture, or the designated representative of the Secretary, may provide that in lieu of issuing a

receipt for cotton stored in a warehouse licensed under this Act the information required to be included in a receipt under section 18 shall be recorded instead in a central filing system or systems maintained in one or more locations in accordance with regulations issued by the Secretary.

"(B) Any such record shall state that the cotton shall be delivered to a specified person, or to a specified person or to the order of the person.

"(C) This subsection and subsection (d) shall not apply to a warehouse that does not have facilities to electronically transmit and receive information to and from the central filing system. Nothing in this subsection shall be construed as to require a warehouseman to obtain the facilities.

"(2) Notwithstanding any other provision of law—

"(A) the record of the ownership interests of persons in cotton included in any such central filing system shall be deemed to be a receipt for the purposes of this Act and shall establish the ownership interest of persons in the cotton; and

"(B) the Secretary may provide for the recording of liens in the central filing system that shall represent the perfected security interest of persons whose liens are so recorded and for liens that are so recorded to be the only liens that are enforceable against owners and purchasers of cotton registered in the central filing system, except that nothing in this paragraph shall be construed to alter the enforceability of the warehouseman's lien.

"(3) A warehouseman conducting a warehouse licensed under this Act, in the absence of a lawful excuse, shall, without unnecessary delay, deliver the cotton stored in the warehouse on demand made by the person named in the record in the central filing system as the owner of the receipt representing the cotton, if demand is accompanied by—

"(A) an offer to satisfy a valid warehouseman's lien, as determined by the Secretary; and

"(B) an offer to provide an acknowledgement in the central filing system, if requested by the warehouseman, that the cotton has been delivered.

Regulations.

"(d)(1) The Secretary shall (under such regulations as the Secretary may prescribe) charge and provide for the collection of reasonable fees to cover the estimated costs to the Department of Agriculture incident to the functioning and the maintenance of any central filing system or systems referred to in subsection (c) that is administered by the Department of Agriculture.

"(2) The Secretary may provide for the fees to be collected by persons operating the central filing system administered by the Department from those persons recording information in the central filing system at such time and in such manner as may be prescribed in regulations issued by the Secretary.

"(3) The fees shall be deposited into a fund which shall be available without fiscal year limitation for the expenses of the Secretary incurred in carrying out subsection (c) and this subsection. Any sums collected or received by the Secretary under this Act and deposited to the fund and any late payment penalties collected by the Secretary and credited to the fund may be invested by the Secretary in insured or fully collateralized, interest-bearing accounts or, at the discretion of the Secretary, by the Secretary of the Treasury in United States Government debt instruments. The in-

terest earned on the sums and any late payment penalties collected by the Secretary shall be credited to the fund and shall be available without fiscal year limitations for the expenses of the Service incurred in carrying out subsection (c) and this subsection.”

(b) **PENALTY.**—Section 30 of such Act (7 U.S.C. 270) is amended by inserting after “who shall issue or utter a false or fraudulent receipt or certificate,” the following: “or furnish false or fraudulent information to a central filing system maintained under section 17,”.

## TITLE VI—RICE

### SEC. 601. LOANS, PAYMENTS, AND ACREAGE REDUCTION PROGRAMS FOR THE 1991 THROUGH 1995 CROPS OF RICE.

The Agricultural Act of 1949 is amended by inserting after section 101A (7 U.S.C. 1441-1) the following new section:

### “SEC. 101B. LOANS, PAYMENTS, AND ACREAGE REDUCTION PROGRAMS FOR THE 1991 THROUGH 1995 CROPS OF RICE. 7 USC 1441-2.

#### “(a) LOANS AND PURCHASES.—

“(1) **IN GENERAL.**—Except as otherwise provided in this subsection, the Secretary shall make available to producers on a farm nonrecourse loans and purchases for each of the 1991 through 1995 crops of rice produced on the farm at a level that is not less than the higher of—

“(A) 85 percent of the simple average price received by producers, as determined by the Secretary, during the marketing years for the immediately preceding 5 crops of rice, excluding the year in which the average price was the highest and the year in which the average price was the lowest in the period; or

“(B) \$6.50 per hundredweight.

“(2) **MAXIMUM REDUCTION.**—The loan level for any crop of rice determined under paragraph (1) may not be reduced by more than 5 percent from the level determined for the preceding crop.

“(3) **ANNOUNCEMENT OF LOAN LEVEL AND ESTABLISHED PRICE.**—The loan and purchase level and the established price for each of the 1991 through 1995 crops of rice shall be announced not later than January 31 of each calendar year for the crop harvested in the calendar year or, in the case of the 1991 crop, as soon as practicable after the date of enactment of this section.

“(4) **TERM.**—A loan made under this subsection shall have a term of not more than 9 months beginning after the month in which the application for the loan is made.

#### “(5) **MARKETING LOAN PROVISIONS.**—

“(A) **IN GENERAL.**—In order to ensure that a competitive market position is maintained for rice, the Secretary shall permit a producer to repay a loan made under paragraph (1) for a crop at a level that is the lesser of—

“(i) the loan level determined for the crop; or

“(ii) the higher of—

“(I) the loan level determined for the crop multiplied by 70 percent; or

“(II) the prevailing world market price for rice, as determined by the Secretary.

## Regulations.

"(B) PREVAILING WORLD MARKET PRICE.—The Secretary shall prescribe by regulation—

"(i) a formula to define the prevailing world market price for rice; and

"(ii) a mechanism by which the Secretary shall announce periodically the prevailing world market price for rice.

"(C) PRODUCER PURCHASE OF MARKETING CERTIFICATES.—

"(i) IN GENERAL.—As a condition of permitting a producer to repay a loan as provided in subparagraph (A), the Secretary may require a producer to purchase marketing certificates equal in value to an amount that does not exceed one-half the difference, as determined by the Secretary, between the amount of the loan obtained by the producer and the amount of the loan repayment.

"(ii) REDEMPTION FOR RICE OR CASH.—The certificates shall be redeemable for agricultural commodities owned by the Commodity Credit Corporation valued at the prevailing market price, as determined by the Secretary or for cash, under such terms and conditions as the Secretary may prescribe.

"(iii) REDEMPTION, MARKETING, OR EXCHANGE.—The Commodity Credit Corporation, under regulations prescribed by the Secretary, shall assist any person receiving marketing certificates under this subparagraph in the redemption or marketing or exchange of the certificates at such times, in such manner, and at such price levels as the Secretary determines will best effectuate the purposes of the program established under this section.

"(iv) CHARGES.—If any such certificate is not presented for redemption or marketing within a reasonable number of days after issuance, as determined by the Secretary, reasonable costs of storage and other carrying charges, as determined by the Secretary, shall be deducted from the value of the certificate for the period beginning after the reasonable number of days and ending with the date of the presentation of the certificate to the Commodity Credit Corporation.

"(v) DESIGNATION OF COMMODITIES AND PRODUCTS.—Insofar as practicable, the Secretary shall permit owners of certificates to designate the commodities and the products thereof, including storage sites thereof, the owners would prefer to receive in exchange for certificates.

"(vi) SALES PRICE RESTRICTIONS.—Notwithstanding any other provision of law, any price restrictions that may otherwise apply to the disposition of agricultural commodities by the Commodity Credit Corporation shall not apply to the redemption of certificates under this subparagraph.

"(vii) DISPLACEMENT.—The Secretary shall take such measures as may be necessary to prevent the marketing or exchange of agricultural commodities and the products thereof for certificates under this subpara-

graph from adversely affecting the income of producers of the commodities or products.

“(viii) TRANSFERS.—Under regulations prescribed by the Secretary, certificates issued under this subparagraph may be transferred to other persons approved by the Secretary.

“(D) CERTIFICATES TO MAINTAIN COMPETITIVENESS.—

“(i) IN GENERAL.—Notwithstanding any other provision of law, whenever, during the period beginning August 1, 1991, and ending July 31, 1996, the prevailing world market price for a class of rice (adjusted to United States quality and location), as determined by the Secretary, is below the current loan repayment rate for that class of rice, to make United States rice competitive in world markets and to maintain and expand exports of rice produced in the United States, the Commodity Credit Corporation shall make payments, through the issuance of marketing certificates, to persons who have entered into an agreement with the Commodity Credit Corporation to participate in the program established under this subparagraph. The payments shall be made in such monetary amounts and subject to such terms and conditions as the Secretary determines will make rice produced in the United States available at competitive prices consistent with the purposes of this subparagraph.

Exports.  
Cooperative  
agreements.

“(ii) VALUE.—The value of each certificate issued under this subparagraph shall be based on the difference between—

“(I) the loan repayment rate for the class of rice; and

“(II) the prevailing world market price for the class of rice, as determined by the Secretary.

“(iii) TERMS AND CONDITIONS OF CERTIFICATES.—Marketing certificates issued under this subparagraph shall be subject to the same terms and conditions as certificates issued under subparagraph (C).

“(6) SIMPLE AVERAGE PRICE.—For purposes of this section, the simple average price received by producers for the immediately preceding marketing year shall be based on the latest information available to the Secretary at the time of the determination.

“(b) LOAN DEFICIENCY PAYMENTS.—

“(1) IN GENERAL.—The Secretary shall, for each of the 1991 through 1995 crops of rice, make payments (hereafter in this section referred to as ‘loan deficiency payments’) available to producers who, although eligible to obtain a loan or purchase agreement under subsection (a), agree to forgo obtaining the loan or agreement in return for payments under this subsection.

“(2) COMPUTATION.—A payment under this subsection shall be computed by multiplying—

“(A) the loan payment rate; by

“(B) the quantity of rice the producer is eligible to place under loan (or obtain a purchase agreement) but for which the producer forgoes obtaining the loan or agreement in return for payments under this subsection.

“(3) LOAN PAYMENT RATE.—For purposes of this subsection, the loan payment rate shall be the amount by which—

"(A) the loan level determined for the crop under subsection (a); exceeds

"(B) the level at which a loan may be repaid under subsection (a).

"(4) **MARKETING CERTIFICATES.**—The Secretary may make up to one-half the amount of a payment under this subsection available in the form of marketing certificates, subject to the terms and conditions provided in subsection (a)(5)(C).

"(c) **PAYMENTS.**—

"(1) **DEFICIENCY PAYMENTS.**—

"(A) **IN GENERAL.**—The Secretary shall make available to producers payments (hereafter in this section referred to as 'deficiency payments') for each of the 1991 through 1995 crops of rice in an amount computed by multiplying—

"(i) the payment rate; by

"(ii) the payment acres for the crop; by

"(iii) the farm program payment yield established for the crop for the farm.

"(B) **PAYMENT RATE.**—

"(i) **PAYMENT RATE FOR 1991 THROUGH 1993 CROPS.**—The payment rate for each of the 1991 through 1993 crops of rice shall be the amount by which the established price for the crop of rice exceeds the higher of—

"(I) the national average market price received by producers during the first 5 months of the marketing year for the crop, as determined by the Secretary; or

"(II) the loan level determined for the crop.

"(ii) **PAYMENT RATE OF 1994 AND 1995 CROPS.**—The payment rate for the 1994 and 1995 crops of rice shall be determined in accordance with clause (i).

"(ii) **MINIMUM ESTABLISHED PRICE.**—The established price for rice shall not be less than \$10.71 per hundred-weight for each of the 1991 through 1995 crops.

"(C) **PAYMENT ACRES.**—Payment acres for a crop shall be the lesser of—

"(i) the number of acres planted to the crop for harvest within the permitted acreage; or

"(ii) 100 percent of the crop acreage base for the crop for the farm less the quantity of reduced acreage (as determined under subsection (e)(2)(D)).

"(D) **50/92 PROGRAM.**—

"(i) **IN GENERAL.**—If an acreage limitation program under subsection (e)(2) is in effect for a crop of rice and the producers on a farm devote a portion of the maximum payment acres for rice as calculated under subparagraph (C)(ii) for equal to more than 8 percent of such rice acreage of the farm for the crop to conservation uses (except as provided in subparagraph (E))—

"(I) such portion of the maximum payment acres in excess of 8 percent of such acreage devoted to conservation uses (except as provided in subparagraph (E)) shall be considered to be planted to rice for the purpose of determining the acreage on the farm required to be devoted to conservation uses in accordance with subsection (e)(2)(D); and

“(II) the producers shall be eligible for payments under this paragraph with respect to such acreage, subject to the compliance of the producers with clause (ii).

“(ii) MINIMUM PLANTING REQUIREMENT.—To be eligible for payments under clause (i), except as provided in clauses (iv) and (v), the producers on a farm must actually plant rice for harvest on at least 50 percent of the maximum payment acres for rice for the farm.

“(iii) DEFICIENCY PAYMENTS.—Notwithstanding any other provision of this section, any producer who devotes a portion of the maximum payment acres for rice for the farm to conservation uses (or other uses as provided in subparagraph (E)) under this subparagraph shall receive deficiency payments on the acreage that is considered to be planted to rice and eligible for payments under this subparagraph for the crop at a per-hundredweight rate established by the Secretary, except that the rate may not be established at less than the projected deficiency payment rate for the crop, as determined by the Secretary. Such projected payment rate for the crop shall be announced by the Secretary prior to the period during which rice producers may agree to participate in the program for the crop.

“(iv) QUARANTINES.—If a State or local agency has imposed in an area of a State or county a quarantine on the planting of rice for harvest on farms in the area, the State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) may recommend to the Secretary that payments be made under this paragraph, without regard to the requirement imposed under clause (ii), to producers in the area who were required to forgo the planting of rice for harvest on acreage to alleviate or eliminate the condition requiring the quarantine. If the Secretary determines that the condition exists, the Secretary may make payments under this paragraph to the producers. To be eligible for payments under this clause, the producers must devote the acreage to conservation uses (except as provided in subparagraph (E)).

“(v) PREVENTED PLANTING.—If an acreage limitation program under subsection (e) is in effect for any crop of rice and if the Secretary determines that producers on a farm are prevented from planting the acreage intended for rice to rice because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the Secretary shall make available to such producers payments under this subparagraph without regard to the requirement imposed under clause (ii). To be eligible for payments under this clause, the producers must devote the acreage to conservation uses (except as provided in subparagraph (E)). Any such acreage shall be considered to be planted to rice.

“(vi) CROP ACREAGE AND PAYMENT YIELD.—The rice crop acreage base and rice farm program payment yield of the farm shall not be reduced due to the fact

that a portion of the permitted rice acreage of the farm was devoted to conserving uses (except as provided in subparagraph (E)) under this subparagraph.

“(vii) LIMITATION.—Other than as provided in clauses (i) through (vi), payments may not be made under this paragraph for any crop on a greater acreage than the acreage actually planted to rice.

“(viii) CONSERVATION USE ACREAGE UNDER OTHER PROGRAMS.—Any acreage considered to be planted to rice in accordance with clauses (i) and (vi) may not also be designated as conservation use acreage for the purpose of fulfilling any provisions under any acreage limitation or land diversion program requiring that the producers devote a specified acreage to conservation uses.

“(E) ALTERNATIVE CROPS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of acreage otherwise required to be devoted to conservation uses as a condition of qualifying for payments under subparagraph (D) to be devoted to sweet sorghum, guar, sesame, castor beans, crambe, plantago ovato, triticale, rye, mung beans, commodities for which no substantial domestic production or market exists but that could yield industrial raw material being imported, or likely to be imported, into the United States, or commodities grown for experimental purposes (including kenaf and milkweed), subject to the following sentence. The Secretary may permit the acreage to be devoted to the production only if the Secretary determines that—

“(i) the production is not likely to increase the cost of the price support program and will not affect farm income adversely; and

“(ii) the production is needed to provide an adequate supply of the commodity, or, in the case of commodities for which no substantial domestic production or market exists but that could yield industrial raw materials, the production is needed to encourage domestic manufacture of the raw material and could lead to increased industrial use of the raw material to the long-term benefit of United States industry.

“(F) REDUCTION FOR DISASTER PAYMENTS.—The total quantity of rice on which payments would otherwise be payable to a producer on a farm for any crop under this paragraph shall be reduced by the quantity on which any disaster payment is made to the producer for the crop under paragraph (2).

“(2) DISASTER PAYMENTS.—

“(A) PREVENTED PLANTING.—Except as provided in subparagraph (C), if the Secretary determines that the producers on a farm are prevented from planting any portion of the acreage intended for rice to rice or other nonconserving crops because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the Secretary shall make a prevented planting disaster payment to the producers in an amount equal to the product obtained by multiplying—

“(i) the number of acres so affected but not to exceed the acreage planted to rice for harvest (including any acreage that the producers were prevented from planting to rice or other nonconserving crops in lieu of rice because of drought, flood, or other natural disaster, or other condition beyond the control of the producers) in the immediately preceding year; by

“(ii) 75 percent of the farm program payment yield established for the farm by the Secretary; by

“(iii) a payment rate equal to 33 $\frac{1}{3}$  percent of the established price for the crop.

“(B) **REDUCED YIELDS.**—Except as provided in subparagraph (C), if the Secretary determines that because of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the total quantity of rice that the producers are able to harvest on any farm is less than the result of multiplying 75 percent of the farm program payment yield established by the Secretary for the crop by the acreage planted for harvest for the crop, the Secretary shall make a reduced yield disaster payment to the producers at a rate equal to 33 $\frac{1}{3}$  percent of the established price for the crop for the deficiency in production below 75 percent for the crop.

“(C) **CROP INSURANCE.**—Producers on a farm shall not be eligible for—

“(i) prevented planting disaster payments under subparagraph (A), if prevented planting crop insurance is available to the producers under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) with respect to the rice acreage of the producers; or

“(ii) reduced yield disaster payments under subparagraph (B), if reduced yield crop insurance is available to the producers under such Act with respect to the rice acreage of the producers.

“(D) **ADMINISTRATION.**—

“(i) **ECONOMIC EMERGENCIES.**—Notwithstanding subparagraph (C), the Secretary may make a disaster payment to the producers on a farm under this paragraph if the Secretary determines that—

“(I) as the result of drought, flood, or other natural disaster, or other condition beyond the control of the producers, the producers have suffered substantial losses of production either from being prevented from planting rice or other nonconserving crops or from reduced yields;

“(II) the losses have created an economic emergency for the producers;

“(III) crop insurance indemnity payments under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) and other forms of assistance made available by the Federal Government to the producers for the losses are insufficient to alleviate the economic emergency; and

“(IV) additional assistance must be made available to the producers to alleviate the economic emergency.

“(ii) ADJUSTMENTS.—The Secretary may make such adjustments in the amount of payments made available under this paragraph with respect to an individual farm as necessary to ensure the equitable allotment of the payments among producers, taking into account other forms of Federal disaster assistance provided to the producers for the crop involved.

“(d) PAYMENT YIELDS.—The farm program payment yields for farms for each crop of rice shall be determined under title V.

“(e) ACREAGE REDUCTION PROGRAMS.—

“(1) IN GENERAL.—

“(A) ESTABLISHMENT.—Notwithstanding any other provision of this Act, if the Secretary determines that the total supply of rice, in the absence of an acreage limitation program, will be excessive taking into account the need for an adequate carry-over to maintain reasonable and stable supplies and prices and to meet a national emergency, the Secretary may provide for any crop of rice an acreage limitation program as described in paragraph (2).

“(B) AGRICULTURAL RESOURCES CONSERVATION PROGRAM.—In making a determination under subparagraph (A), the Secretary shall take into consideration the number of acres placed in the agricultural resources conservation program established under subtitle D of title XII of the Food Security Act of 1985 (16 U.S.C. 3831 et seq.).

“(C) ANNOUNCEMENTS.—If the Secretary elects to implement an acreage limitation program for any crop year, the Secretary shall announce any such program not later than January 31 of the calendar year in which the crop is harvested, except that in the case of the 1991 crop, the Secretary shall announce the program as soon as practicable after the date of enactment of this section.

“(D) CARRY-OVER.—The Secretary shall carry out an acreage limitation program described in paragraph (2) for a crop of rice in a manner that will result in carry-over stocks equal to 16.5 to 20 percent of the simple average of the total disappearance of rice for each of the 3 marketing years preceding the year for which the announcement is made. For the purpose of this subparagraph, the term ‘total disappearance’ means all rice utilization, including total domestic, total export, and total residual disappearance.

“(2) ACREAGE LIMITATION PROGRAM.—

“(A) PERCENTAGE REDUCTIONS.—Except as provided in paragraph (3), if a rice acreage limitation program is announced under paragraph (1), such limitation shall be achieved by applying a uniform percentage reduction (from 0 to 35 percent) to the rice crop acreage base for the crop for each rice-producing farm.

“(B) COMPLIANCE.—Except as provided in section 504, producers who knowingly produce rice in excess of the permitted rice acreage for the farm, as established in accordance with subparagraph (A), shall be ineligible for rice loans, purchases, and payments with respect to that farm.

“(C) CROP ACREAGE BASES.—Rice crop acreage bases for each crop of rice shall be determined under title V.

Securities.

"(D) ACREAGE DEVOTED TO CONSERVATION USES.—A Regulations.  
number of acres on the farm shall be devoted to conservation uses, in accordance with regulations issued by the Secretary. Such number shall be determined by multiplying the rice crop acreage base by the percentage reduction required by the Secretary. The number of acres so determined is hereafter in this subsection referred to as 'reduced acreage'. The remaining acreage is hereafter in this subsection referred to as 'permitted acreage'. Permitted acreage may be adjusted by the Secretary as provided in paragraph (3) and in section 504.

"(E) INDIVIDUAL FARM PROGRAM ACREAGE.—Except as otherwise provided in subsection (c), the individual farm program acreage shall be the acreage planted on the farm to rice for harvest within the permitted rice acreage for the farm as established under this paragraph.

"(F) PLANTING DESIGNATED CROPS ON REDUCED ACREAGE.—

"(i) DEFINITION OF DESIGNATED CROP.—As used in this subparagraph, the term 'designated crop' means a crop defined in section 504(b)(1), excluding any program crop as defined in section 502(3).

"(ii) IN GENERAL.—Subject to clause (iii), the Secretary may permit producers on a farm to plant a designated crop on no more than one-half of the reduced acreage on the farm.

"(iii) LIMITATIONS.—If the producers on a farm elect to plant a designated crop on reduced acreage under this subparagraph—

"(I) the amount of the deficiency payment that the producers are otherwise eligible to receive under subsection (c) shall be reduced, for each acre (or portion thereof) that is planted to the designated crop, by an amount equal to the deficiency payment that would be made with respect to a number of acres of the crop that the Secretary considers appropriate, except that if the producers on the farm are participating in a program established for more than one program crop, the amount of the reduction shall be determined by prorating the reduction based on the acreage planted or considered planted on the farm to all of such program crops; and

"(II) the Secretary shall ensure that reductions in deficiency payments under subclause (I) are sufficient to ensure that this subparagraph will result in no additional cost to the Commodity Credit Corporation.

"(3) TARGETED OPTION PAYMENTS.—

"(A) IN GENERAL.—Notwithstanding any other provision of this section, if the Secretary implements an acreage limitation program with respect to any of the 1991 through 1995 crops of rice and announces an acreage limitation percentage of 20 percent or less, the Secretary may make available to producers on a farm who do not receive payments under subsection (c)(1)(D) for such crop on the farm, adjustments in the level of deficiency payments that would otherwise be made available to the producers if the produc-

ers exercise the payment options provided in this paragraph.

“(B) PAYMENT OPTIONS.—If the Secretary elects to carry out this paragraph, the Secretary shall make the payment options specified in subparagraphs (C) and (D) available to producers who agree to make adjustments in the quantity of acreage diverted from the production of rice under an acreage limitation program in accordance with this paragraph.

“(C) INCREASED ACREAGE LIMITATION OPTION.—

“(i) INCREASE IN ESTABLISHED PRICE.—If the Secretary elects to carry out this paragraph, a producer shall be eligible to receive an increase in the established price for rice under clause (ii) if the producer agrees to an increase in the acreage limitation percentage to be applied to the producers’ rice acreage base above the acreage limitation percentage announced by the Secretary.

“(ii) METHOD OF CALCULATION.—For the purposes of calculating deficiency payments to be made available to producers who participate in the program under this paragraph, the Secretary shall increase the established price for rice by an amount determined by the Secretary, but not less than 0.5 percent, nor more than 1 percent, for each 1 percentage point increase in the acreage limitation percentage applied to the producers’ rice acreage base.

“(iii) LIMITATION.—The acreage limitation percentage to be applied to the producers’ rice acreage base shall not be increased by more than 5 percentage points above the acreage limitation percentage announced by the Secretary.

“(iv) ADJUSTMENT FOR UNDERPLANTINGS.—In determining the increased acreage limitation percentage that is applied to the producer’s rice acreage base under this paragraph, the Secretary shall exclude an amount of acreage equal to the average difference between the producer’s permitted rice acreage and the acreage actually planted (including acreage devoted to conserving uses under subsection (c)(1)(D)) to rice for harvest during the previous 2 years.

“(D) DECREASED ACREAGE LIMITATION OPTION.—

“(i) DECREASE IN ACREAGE LIMITATION REQUIREMENT.—If the Secretary elects to carry out this paragraph, a producer shall be eligible to decrease the acreage limitation percentage applicable to the producers’ rice acreage base (as announced by the Secretary) if the producer agrees to a decrease in the established price for rice under clause (ii) for the purpose of calculating deficiency payments to be made available to the producer.

“(ii) METHOD OF CALCULATION.—For the purposes of calculating deficiency payments to be made available to producers who choose the option set forth in this subparagraph, the Secretary shall decrease the established price for rice by an amount to be determined by the Secretary, but not less than 0.5 percent, nor more

than 1 percent, for each 1 percentage point decrease in the acreage limitation percentage applied to the producers' rice acreage base.

"(iii) LIMITATION.—A producer may not choose to decrease the acreage limitation percentage applicable to the producers' rice acreage base under this paragraph by more than one-half of the announced acreage limitation percentage.

"(E) PARTICIPATION AND PRODUCTION EFFECTS.—Notwithstanding any other provision of this paragraph, the Secretary shall, to the extent practicable, ensure that the program provided for in this paragraph does not have a significant effect on program participation or total production and shall be offered in such a manner that the Secretary determines will result in no additional budget outlays. The Secretary shall provide an analysis of the Secretary's determination to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate.

"(4) ADMINISTRATION.—

"(A) PROTECTION FROM WEEDS AND EROSION.—The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall assure protection of the acreage from weeds and wind and water erosion.

"(B) ANNUAL OR PERENNIAL COVER.—

"(i) IN GENERAL.—Except as provided in paragraph (2), a producer who participates in an acreage reduction program established for a crop of rice under this subsection shall be required to plant to an annual or perennial cover 50 percent (or more, at the option of the producer) of the acreage that is required to be removed from the production of rice, but not to exceed 5 percent (or more, at the option of the producer) of the crop acreage base established for the crop. This requirement shall not apply with respect to arid areas (including summer fallow areas), as determined by the Secretary.

"(ii) MULTIYEAR PROGRAM.—

"(I) COST-SHARE ASSISTANCE.—If a producer elects to establish a perennial cover capable of improving water quality or wildlife habitat on the acreage, the Commodity Credit Corporation shall make available cost-share assistance for 25 percent of the approved cost of establishing the cover on not more than 50 percent of the acreage that is required to be diverted from production, but not to exceed 5 percent (or more, at the option of the producer) of the crop acreage base established for a crop.

"(II) AGREEMENT OF PRODUCER.—If a producer elects to establish a perennial cover on the acreage under this subparagraph and receives cost-share assistance from the Corporation with respect to the cover, the producer, under such terms and conditions as may be prescribed by the Secretary, taking into consideration guidelines established by the State technical committees established in subtitle

G of title XII of the Food Security Act of 1985, shall agree to maintain the perennial cover for a minimum of 8 years.

“(iii) CONSERVING CROPS.—The Secretary may permit, subject to such terms and conditions as the Secretary may prescribe, all or any part of the acreage to be devoted to sweet sorghum, guar, sesame, castor beans, crambe, plantago ovato, triticale, rye, mung beans, milkweed, or other commodity, if the Secretary determines that the production is needed to provide an adequate supply of the commodities, is not likely to increase the cost of the price support program, and will not affect farm income adversely.

“(C) HAYING AND GRAZING.—

“(i) IN GENERAL.—Except as provided in clause (ii), haying and grazing of reduced acreage, acreage devoted to a conservation use under subsection (c)(1)(D), and acreage diverted from production under a land diversion program established under this section shall be permitted, except during any consecutive 5-month period that is established by the State committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) for a State. The 5-month period shall be established during the period beginning April 1, and ending October 31, of a year.

“(ii) NATURAL DISASTERS.—In the case of a natural disaster, the Secretary may permit unlimited haying and grazing on the acreage. The Secretary may not exclude irrigated or irrigable acreage not planted in alfalfa when exercising the authority under this clause.

“(D) WATER STORAGE USES.—

“(i) IN GENERAL.—The regulations issued by the Secretary under paragraph (2) with respect to acreage required to be devoted to conservation uses shall provide that land that has been converted to water storage uses shall be considered to be devoted to conservation uses if the land was devoted to wheat, feed grains, cotton, rice, or oilseeds in at least 3 of the immediately preceding 5 years. The land shall be considered to be devoted to conservation uses for the period that the land remains in water storage uses, but not to exceed 5 years subsequent to its conversion to water storage uses.

“(ii) LIMITATIONS.—Land converted to water storage uses for the purposes of this subparagraph may not be devoted to any commercial use, including commercial fish production. The water stored on the land may not be ground water. The farm on which the land is located must have been irrigated with ground water during at least 1 of the preceding 5 crop years.

“(5) LAND DIVERSION PROGRAM.—

“(A) IN GENERAL.—The Secretary may make land diversion payments to producers of rice, whether or not an acreage limitation program for rice is in effect, if the Secretary determines that the land diversion payments are necessary to assist in adjusting the total national acreage of

“(B) AMOUNTS.—The amounts payable to producers under land diversion contracts may be determined through the submission of bids for the contracts by producers in such manner as the Secretary may prescribe or through such other means as the Secretary determines appropriate. The Secretary may pay an appropriate share of the cost of practices designed to carry out the purposes of this subparagraph.

“(B) PUBLIC ACCESS.—The Secretary may provide for an additional payment on the acreage in an amount determined by the Secretary to be appropriate in relation to the benefit to the general public if the producer agrees to permit, without other compensation, access to all or such portion of the farm, as the Secretary may prescribe, by the general public, for hunting, trapping, fishing, and hiking, subject to applicable State and Federal regulations.

The Secretary may modify the agreement under this subparagraph for the purpose of alleviating a shortage in the supply of agricultural commodities only if there has been a significant change in the estimated stocks of the commodity since the Secretary announced the final terms and conditions of the program for the crop of rice.

“(g) EQUITABLE RELIEF.—

“(1) LOANS AND PAYMENTS.—If the failure of a producer to comply fully with the terms and conditions of the program conducted under this section precludes the making of loans, purchases, and payments, the Secretary may, nevertheless, make such loans, purchases, and payments in such amounts as the Secretary determines are equitable in relation to the seriousness of the failure. The Secretary may consider whether the producer made a good faith effort to comply fully with the terms and conditions of the program in determining whether equitable relief is warranted under this paragraph.

“(2) DEADLINES AND PROGRAM REQUIREMENTS.—The Secretary may authorize the county and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) to waive or modify deadlines and other program requirements in cases in which lateness or failure to meet the other requirements does not affect adversely the operation of the program.

“(2) COMPLIANCE ON OTHER FARMS.—The Secretary may not require producers on a farm, as a condition of eligibility for loans, purchases, or payments under this section for the farm, to comply with the terms and conditions of the rice program with respect to any other farm operated by the producers.

“(n) CROPS.—Notwithstanding any other provision of law, this section shall be effective only for the 1991 through 1995 crops of rice.”

### SEC. 802. NATIONAL POUNDAGE QUOTAS AND ACREAGE ALLOTMENTS.

The Agricultural Adjustment Act of 1938 is amended by inserting after section 358 the following new section:

“SEC. 358-1. **NATIONAL POUNDAGE QUOTAS AND ACREAGE ALLOTMENTS FOR 1991 THROUGH 1995 CROPS OF PEANUTS.** 7 USC 1358-1.

“(a) **NATIONAL POUNDAGE QUOTAS.**—

“(1) **ESTABLISHMENT.**—The national poundage quota for peanuts for each of the 1991 through 1995 marketing years shall be established by the Secretary at a level that is equal to the quantity of peanuts (in tons) that the Secretary estimates will be devoted in each such marketing year to domestic edible, seed, and related uses. Notwithstanding any other provision of this

paragraph, the national poundage quota for a marketing year shall not be less than 1,350,000 tons.

"(2) ANNOUNCEMENT.—The national poundage quota for a marketing year shall be announced by the Secretary not later than December 15 preceding the marketing year.

"(3) APPORTIONMENT AMONG STATES.—The national poundage quota established under paragraph (1) shall be apportioned among the States so that the poundage quota allocated to each State shall be equal to the percentage of the national poundage quota allocated to farms in the State for 1990.

"(b) FARM POUNDAGE QUOTAS.—

"(1) IN GENERAL.—

"(A) ESTABLISHMENT.—A farm poundage quota for each of the 1991 through 1995 marketing years shall be established—

"(i) for each farm that had a farm poundage quota for peanuts for the 1990 marketing year;

"(ii) if the poundage quota apportioned to a State under subsection (a)(3) for any such marketing year is larger than the quota for the immediately preceding marketing year, for each other farm on which peanuts were produced for marketing in at least 2 of the 3 immediately preceding crop years, as determined by the Secretary; and

"(iii) as approved and determined by the Secretary under section 358c, for each farm on which peanuts are produced in connection with experimental and research programs.

"(B) QUANTITY.—The farm poundage quota for each of the 1991 through 1995 marketing years for each farm described in subparagraph (A)(i) shall be the same as the farm poundage quota for the farm for the immediately preceding marketing year, as adjusted under paragraph (2), but not including—

"(i) any increases for undermarketings from previous years; or

"(ii) any increases resulting from the allocation of quotas voluntarily released for 1 year under paragraph (7).

The farm poundage quota, if any, for each of the 1991 through 1995 marketing years for each farm described in subparagraph (A)(ii) shall be equal to the quantity of peanuts allocated to the farm for the year under paragraph (2).

"(C) TRANSFERS.—For purposes of this subsection, if the farm poundage quota, or any part thereof, is permanently transferred in accordance with section 358a or 358b, the receiving farm shall be considered as possessing the farm poundage quota (or portion thereof) of the transferring farm for all subsequent marketing years.

"(2) ADJUSTMENTS.—

"(A) ALLOCATION OF INCREASED QUOTA GENERALLY.—

Except as provided in subparagraph (B) and subject to subparagraph (D), if the poundage quota apportioned to a State under subsection (a)(3) for any of the 1991 through 1995 marketing years is increased over the poundage quota apportioned to farms in the State for the immediately preceding marketing year, the increase shall be allocated

proportionately, based on farm production history for peanuts for the 3 immediately preceding years, among—

“(i) all farms in the State for each of which a farm poundage quota was established for the marketing year immediately preceding the marketing year for which the allocation is being made; and

“(ii) all other farms in the State on each of which peanuts were produced in at least 2 of the 3 immediately preceding crop years, as determined by the Secretary.

“(B) ALLOCATION OF INCREASED QUOTA IN TEXAS.—

“(i) IN GENERAL.—In Texas, and subject to terms and conditions prescribed by the Secretary, beginning with the 1991 marketing year, 33 percent of the increased quota referred to in subparagraph (A) shall be allocated to farms having poundage quotas for the 1990 marketing year in any county in which the production of additional peanuts exceeded the total quota allocated to the county for the 1989 marketing year.

“(ii) BASIS FOR ALLOCATION TO COUNTIES.—The allocation of the quota to eligible counties shall be based on the total production of additional peanuts in the respective counties for the 1988 crop, except that the total quota allocated to any county under this subparagraph and paragraph (6)(C) shall not be increased by more than 100 percent of the basic quota assigned to the county for the 1989 marketing year if that county had more than 10,000 tons of quota for the 1989 marketing year.

“(iii) ALLOCATION TO OTHER COUNTIES.—If the total quota for any such county is so increased by 100 percent, all of the remaining quota percentage set aside under this subparagraph shall be allocated to farms in other counties otherwise meeting the requirements of this subparagraph.

“(iv) ALLOCATION TO ELIGIBLE FARMS.—The percentage of increased quota in any county shall be allocated under this subparagraph only to quota farms from which additional peanuts were delivered under contract with handlers for the marketing year immediately preceding the marketing year for which the allocation is being made. The percentage of the increased quota in each county shall be allocated among the eligible farms in the county on the following basis:

“(I) FACTOR.—A factor shall be established for each such eligible farm by dividing the quantity of additional peanuts contracted and delivered to handlers from the farm by the total remaining peanuts produced on the farm for the marketing year immediately preceding the marketing year for which the allocation is being made.

“(II) ALLOCATION.—Each such eligible farm shall be allocated the percentage of the increased quota for the county as its factor bears to the total of the factors for all eligible farms in the county.

“(v) REMAINING PERCENTAGE.—In Texas, the remaining 67 percent of the increased quota referred to in

subparagraph (A) shall be allocated to farms in the State in accordance with subparagraph (A).

“(C) DECREASE.—If the poundage quota apportioned to a State under subsection (a)(3) for any of the 1991 through 1995 marketing years is decreased from the poundage quota apportioned to farms in the State under subsection (a)(3) for the immediately preceding marketing year, the decrease shall be allocated among all the farms in the State for each of which a farm poundage quota was established for the marketing year immediately preceding the marketing year for which the allocation is being made.

“(D) SPECIAL RULE ON TENANT'S SHARE OF INCREASED QUOTA.—Subject to terms and conditions prescribed by the Secretary, on farms that were leased to a tenant for peanut production, the tenant shall share equally with the owner of the farm in that percentage of the quota referred to in subparagraph (A) and otherwise allocated to the farm as the result of the tenant's production on the farm of additional peanuts. Not later than April 1 of each year or as soon as practicable, the tenant's share of any such quota shall be allocated to a farm within the county owned by the tenant or sold by the tenant to the owner of any farm within the county and permanently transferred to that farm. Any quota not so disposed of as provided in this subparagraph shall be allocated to other quota farms in the State under paragraph (6) as part of the quota reduced from farms in the State due to the failure to produce the quota.

“(3) QUOTA NOT PRODUCED.—

“(A) IN GENERAL.—Insofar as practicable and on such fair and equitable basis as the Secretary may by regulation prescribe, the farm poundage quota established for a farm for any of the 1991 through 1995 marketing years shall be reduced to the extent that the Secretary determines that the farm poundage quota established for the farm for any 2 of the 3 marketing years preceding the marketing year for which the determination is being made was not produced, or considered produced, on the farm.

“(B) EXCLUSIONS.—For the purposes of this paragraph, the farm poundage quota for any such preceding marketing year shall not include—

“(i) any increases for undermarketing of quota peanuts from previous years; or

“(ii) any increase resulting from the allocation of quotas voluntarily released for 1 year under paragraph (7).

“(4) QUOTA CONSIDERED PRODUCED.—For purposes of this subsection, the farm poundage quota shall be considered produced on a farm if—

“(A) the farm poundage quota was not produced on the farm because of drought, flood, or any other natural disaster, or any other condition beyond the control of the producer, as determined by the Secretary;

“(B) the farm poundage quota for the farm was released voluntarily under paragraph (7) for only 1 of the 3 marketing years immediately preceding the marketing year for which the determination is being made; or

“(C) the farm poundage quota was leased to another owner or operator of a farm within the same county for transfer to such farm for only 1 of the 3 marketing years immediately preceding the marketing year for which the determination is being made.

“(5) QUOTA PERMANENTLY RELEASED.—Notwithstanding any other provision of law—

“(A) the farm poundage quota established for a farm under this subsection, or any part of the quota, may be permanently released by the owner of the farm, or the operator with the permission of the owner; and

“(B) the poundage quota for the farm for which the quota is released shall be adjusted downward to reflect the quota that is so released.

“(6) ALLOCATION OF QUOTAS REDUCED OR RELEASED.—

“(A) IN GENERAL.—Except as provided in subparagraphs (B) and (C), the total quantity of the farm poundage quotas reduced or voluntarily released from farms in a State for any marketing year under paragraphs (3) and (5) shall be allocated, as the Secretary may by regulation prescribe, to other farms in the State on which peanuts were produced in at least 2 of the 3 crop years immediately preceding the year for which the allocation is being made.

“(B) SET-ASIDE FOR FARMS WITH NO QUOTA.—Not more than 25 percent of the total amount of farm poundage quota to be allocated in the State under subparagraph (A) shall be allocated to farms in the State for which no farm poundage quota was established for the immediately preceding year's crop. The allocation to any such farm shall not exceed the average farm production of peanuts for the 3 immediately preceding years during which peanuts were produced on the farm.

“(C) ALLOCATION OF QUOTAS REDUCED OR RELEASED IN TEXAS.—

“(i) IN GENERAL.—In Texas, and subject to terms and conditions prescribed by the Secretary, beginning with the 1991 marketing year, the total quantity of the farm poundage quota, except the percentage allocated to new farms under subparagraph (B), shall be allocated to other farms having poundage quotas for the 1990 marketing year in all counties in which the production of additional peanuts exceeded the total quota allocated to the county for the 1989 marketing year.

“(ii) BASIS FOR ALLOCATION TO COUNTIES.—The allocation of the quota to eligible counties shall be based on the total production of additional peanuts in the respective county for the 1988 crop, except that the total quota allocated to any county under this subparagraph and paragraph (2)(B) shall not be increased by more than 100 percent of the basic quota allocated to the county for the 1989 marketing year, if that county had more than 10,000 tons of quota for the 1989 marketing year.

“(iii) ALLOCATION TO OTHER COUNTIES.—If the total quota for any such county is so increased by 100 percent, all of the remaining quota set aside under this subparagraph shall be allocated to farms in other coun-

ties otherwise meeting the requirements of this subparagraph.

"(iv) **ALLOCATION TO ELIGIBLE FARMS.**—The percentage of farm poundage quota available for allocation under this subparagraph shall be allocated only to quota farms from which additional peanuts were delivered under contract with handlers for the marketing year immediately preceding the marketing year for which the allocation is being made. The percentage of the increased quota in each county shall be allocated among the eligible farms in the county on the following basis:

"(I) **FACTOR.**—A factor shall be established for each such eligible farm by dividing the amount of additional peanuts contracted and delivered to handlers from the farm by the total remaining peanuts produced on the farm for the marketing year immediately preceding the marketing year for which the allocation is being made.

"(II) **ALLOCATION.**—Each such eligible farm shall be allocated the percentage of the increased quota for the county as its factor bears to the total of the factors for all eligible farms in the county.

"(7) **QUOTA TEMPORARILY RELEASED.**—

"(A) **IN GENERAL.**—The farm poundage quota, or any portion thereof, established for a farm for a marketing year may be voluntarily released to the Secretary to the extent that the quota, or any part thereof, will not be produced on the farm for the marketing year. Any farm poundage quota so released in a State shall be allocated to other farms in the State on such basis as the Secretary may by regulation prescribe.

"(B) **EFFECTIVE PERIOD.**—Except as otherwise provided in this section, any adjustment in the farm poundage quota for a farm under subparagraph (A) shall be effective only for the marketing year for which it is made and shall not be taken into consideration in establishing a farm poundage quota for the farm from which the quota was released for any subsequent marketing year.

"(8) **INCREASE FOR UNDERMARKETINGS IN PREVIOUS MARKETING YEARS.**—

"(A) **IN GENERAL.**—Except as provided in subparagraph (B), the farm poundage quota for a farm for any marketing year shall be increased by the number of pounds by which the total marketings of quota peanuts from the farm during previous marketing years (excluding any marketing year before the marketing year for the 1989 crop) were less than the total amount of applicable farm poundage quotas (disregarding adjustments for undermarketings from previous marketing years) for the marketing years.

"(B) **QUOTA NOT PRODUCED.**—For purposes of subparagraph (A), no increase for undermarketings in previous marketing years shall be made to the poundage quota for any farm to the extent that the poundage quota for the farm for the marketing year was reduced under paragraph (3) for failure to produce.

“(C) NATIONAL POUNDAGE QUOTA.—Any increases in farm poundage quotas under this paragraph shall not be counted against the national poundage quota for the marketing year involved.

“(D) TRANSFER OF ADDITIONAL PEANUTS.—Any increase in the farm poundage quota for a farm for a marketing year under this paragraph may be used during the marketing year by the transfer of additional peanuts produced on the farm to the quota loan pool for pricing purposes on such basis as the Secretary shall by regulation prescribe.

“(9) LIMIT ON INCREASES FOR UNDERMARKETINGS.—Notwithstanding the foregoing provisions of this subsection, if the total of all increases in individual farm poundage quotas under paragraph (8) exceeds 10 percent of the national poundage quota for the marketing year in which the increases shall be applicable, the Secretary shall adjust the increases so that the total of all the increases does not exceed 10 percent of the national poundage quota.

“(c) FARM YIELDS.—

“(1) IN GENERAL.—For each farm for which a farm poundage quota is established under subsection (b), and when necessary for purposes of this Act, a farm yield of peanuts shall be determined for each such farm.

“(2) QUANTITY.—The yield shall be equal to the average of the actual yield per acre on the farm for each of the 3 crop years in which yields were highest on the farm out of the 5 crop years 1973 through 1977.

“(3) APPRAISED YIELDS.—If peanuts were not produced on the farm in at least 3 years during the 5-year period or there was a substantial change in the operation of the farm during the period (including a change in operator, lessee who is an operator, or irrigation practices), the Secretary shall have a yield appraised for the farm. The appraised yield shall be that quantity determined to be fair and reasonable on the basis of yields established for similar farms that are located in the area of the farm and on which peanuts were produced, taking into consideration land, labor, and equipment available for the production of peanuts, crop rotation practices, soil and water, and other relevant factors.

“(d) REFERENDUM RESPECTING POUNDAGE QUOTAS.—

“(1) IN GENERAL.—Not later than December 15 of each calendar year, the Secretary shall conduct a referendum of producers engaged in the production of quota peanuts in the calendar year in which the referendum is held to determine whether the producers are in favor of or opposed to poundage quotas with respect to the crops of peanuts produced in the 5 calendar years immediately following the year in which the referendum is held, except that, if as many as two-thirds of the producers voting in any referendum vote in favor of poundage quotas, no referendum shall be held with respect to quotas for the second, third, fourth, and fifth years of the period.

“(2) PROCLAMATION.—The Secretary shall proclaim the result of the referendum within 30 days after the date on which it is held.

“(3) VOTE AGAINST QUOTAS.—If more than one-third of the producers voting in the referendum vote against quotas, the Secretary also shall proclaim that poundage quotas will not be

in effect with respect to the crop of peanuts produced in the calendar year immediately following the calendar year in which the referendum is held.

“(e) **DEFINITIONS.**—For the purposes of this part and title I of the Agricultural Act of 1949 (7 U.S.C. 1441 et seq.):

“(1) **ADDITIONAL PEANUTS.**—The term ‘additional peanuts’ means, for any marketing year—

“(A) any peanuts that are marketed from a farm for which a farm poundage quota has been established and that are in excess of the marketings of quota peanuts from the farm for the year; and

“(B) all peanuts marketed from a farm for which no farm poundage quota has been established in accordance with subsection (b).

“(2) **CRUSHING.**—The term ‘crushing’ means the processing of peanuts to extract oil for food uses and meal for feed uses, or the processing of peanuts by crushing or otherwise when authorized by the Secretary.

“(3) **DOMESTIC EDIBLE USE.**—The term ‘domestic edible use’ means use for milling to produce domestic food peanuts (other than those described in paragraph (2)) and seed and use on a farm, except that the Secretary may exempt from this definition seeds of peanuts that are used to produce peanuts excluded under section 359(c), are unique strains, and are not commercially available.

“(4) **QUOTA PEANUTS.**—The term ‘quota peanuts’ means, for any marketing year, any peanuts produced on a farm having a farm poundage quota, as determined in subsection (b), that—

“(A) are eligible for domestic edible use as determined by the Secretary;

“(B) are marketed or considered marketed from a farm; and

“(C) do not exceed the farm poundage quota of the farm for the year.

“(f) **CROPS.**—Notwithstanding any other provision of law, this section shall be effective only for the 1991 through 1995 crops of peanuts.”.

#### SEC. 803. SALE, LEASE, OR TRANSFER OF FARM POUNDAGE QUOTA.

The Agricultural Adjustment Act of 1938 is amended by inserting after section 358a the following new section:

“(a) **IN GENERAL.**—

“(1) **AUTHORITY.**—Subject to such terms, conditions, or limitations as the Secretary may prescribe, the owner, or operator with the permission of the owner, of any farm for which a farm poundage quota has been established under this Act may sell or lease all or any part of the poundage quota to any other owner or operator of a farm within the same county for transfer to the farm, except that any such lease of poundage quota may be entered into in the fall or after the normal planting season—

“(A) if not less than 90 percent of the basic quota (the farm quota exclusive of undermarketings and temporary quota transfers), plus any poundage quota transferred to the farm under this subsection, has been planted or consid-

ered planted on the farm from which the quota is to be leased; and

“(B) under such terms and conditions as the Secretary may by regulation prescribe.

In the case of a fall transfer or a transfer after the normal planting season by a cash lessee, the landowner shall not be required to sign the transfer authorization. A fall transfer or a transfer after the normal planting season may be made not later than 72 hours after the peanuts that are the subject of the transfer are inspected and graded.

“(2) TRANSFERS TO OTHER SELF-OWNED FARMS.—The owner or operator of a farm may transfer all or any part of the farm poundage quota for the farm to any other farm owned or controlled by the owner or operator that is in the same county or in a county contiguous to the county in the same State and that had a farm poundage quota for the preceding year's crop. Any farm poundage quota transferred under this paragraph shall not result in any reduction in the farm poundage quota for the transferring farm if the transferred quota is produced or considered produced on the receiving farm.

“(3) TRANSFERS IN STATES WITH SMALL QUOTAS.—Notwithstanding paragraphs (1) and (2), in the case of any State for which the poundage quota allocated to the State was less than 10,000 tons for the preceding year's crop, all or any part of a farm poundage quota may be transferred by sale or lease or otherwise from a farm in one county to a farm in another county in the same State.

“(b) CONDITIONS.—Transfers (including transfer by sale or lease) of farm poundage quotas under this section shall be subject to all of the following conditions:

“(1) LIENHOLDERS.—No transfer of the farm poundage quota from a farm subject to a mortgage or other lien shall be permitted unless the transfer is agreed to by the lienholders.

“(2) TILLABLE CROPLAND.—No transfer of the farm poundage quota shall be permitted if the county committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) determines that the receiving farm does not have adequate tillable cropland to produce the farm poundage quota.

“(3) RECORD.—No transfer of the farm poundage quota shall be effective until a record thereof is filed with the county committee of the county to which the transfer is made and the committee determines that the transfer complies with this section.

“(4) OTHER TERMS.—Such other terms and conditions that the Secretary may by regulation prescribe.

“(c) CROPS.—Notwithstanding any other provision of law, this section shall be effective only for the 1991 through 1995 crops of peanuts.”.

The penalty shall not apply to the marketing of breeder or Foundation seed peanuts grown and marketed by a publicly owned agricultural experiment station (including a State operated seed organization) under such regulations as the Secretary may prescribe.

**"(B) MARKETING YEAR.—**For purposes of this section, the marketing year for peanuts shall be the 12-month period beginning August 1 and ending July 31.

The person or agent may deduct an amount equivalent to the penalty from the price paid to the producer.

**"(3) FAILURE TO COLLECT.—**If the person required to collect the penalty fails to collect the penalty, the person and all persons entitled to share in the peanuts marketed from the farm or the proceeds thereof shall be jointly and severally liable with such persons who failed to collect the penalty for the amount of the penalty.

**"(4) APPLICATION OF QUOTA.—**Peanuts produced in a calendar year in which farm poundage quotas are in effect for the marketing year beginning therein shall be subject to the quotas even though the peanuts are marketed prior to the date on which the marketing year begins.

Regulations.

“(7) DE MINIMIS VIOLATIONS.—Errors in weight that do not exceed one-tenth of 1 percent in the case of any one marketing document shall not be considered to be marketing violations except in cases of fraud or conspiracy.

“(b) USE OF QUOTA AND ADDITIONAL PEANUTS.—

“(1) QUOTA PEANUTS.—Only quota peanuts may be retained for use as seed or for other uses on a farm. When peanuts are so retained, such retention shall be considered as marketings of quota peanuts, except that the Secretary may exempt from consideration as marketings of quota peanuts seeds of peanuts for the quantity involved that are used to produce peanuts excluded under section 359(c), are unique strains, and are not commercially available.

“(2) ADDITIONAL PEANUTS.—Additional peanuts shall not be retained for use on a farm and shall not be marketed for domestic edible use, except as provided in subsection (g).

“(3) SEED.—Except as provided in paragraph (1), seed for planting of any peanut acreage in the United States shall be obtained solely from quota peanuts marketed or considered marketed for domestic edible use.

“(c) MARKETING PEANUTS WITH EXCESS QUANTITY, GRADE, OR QUALITY.—On a finding by the Secretary that the peanuts marketed from any crop for domestic edible use by a handler are larger in quantity or higher in grade or quality than the peanuts that could reasonably be produced from the quantity of peanuts having the grade, kernel content, and quality of the quota peanuts acquired by the handler from the crop for the marketing, the handler shall be subject to a penalty equal to 140 percent of the loan level for quota peanuts on the quantity of peanuts that the Secretary determines are in excess of the quantity, grade, or quality of the peanuts that could reasonably have been produced from the peanuts so acquired.

“(d) HANDLING AND DISPOSAL OF ADDITIONAL PEANUTS.—

“(1) IN GENERAL.—Except as provided in paragraph (2), the Secretary shall require that the handling and disposal of additional peanuts be supervised by agents of the Secretary or by area marketing associations designated pursuant to section 108B(c)(1) of the Agricultural Act of 1949.

“(2) SUPERVISION BY NONHANDLERS.—

“(A) IN GENERAL.—Supervision of the handling and disposal of additional peanuts by a handler shall not be required under paragraph (1) if the handler agrees in writing, prior to any handling or disposal of the peanuts, to comply with regulations that the Secretary shall issue.

"(i) TYPES OF EXPORTED OR CRUSHED PEANUTS.—Handlers of shelled or milled peanuts may export or crush peanuts classified by type in all of the following quantities:

"(II) SOUND MATURE KERNEL PEANUTS.—Sound mature kernel peanuts (which term includes sound split kernel peanuts and sound whole kernel peanuts) in an amount equal to the poundage of the peanuts purchased by the handler as additional peanuts, less the total poundage of sound split kernel peanuts described in subclause (I).

"(III) REMAINDER.—The remaining quantity of total kernel content of peanuts purchased by the handler as additional peanuts.

"(ii) DOCUMENTATION.—Handlers shall ensure that any additional peanuts exported or crushed are evidenced by onboard bills of lading or other appropriate documentation as may be required by the Secretary, or both.

"(iii) LOSS OF PEANUTS.—If a handler suffers a loss of peanuts as a result of fire, flood, or any other condition beyond the control of the handler, the portion of the loss allocated to contracted additional peanuts shall not be greater than the portion of the handler's total peanut purchases for the year attributable to contracted additional peanuts purchased for export or crushing by the handler during the year.

"(iv) SHRINKAGE ALLOWANCE.—

"(I) IN GENERAL.—The obligation of a handler to export or crush peanuts in quantities described in this subparagraph shall be reduced by a shrinkage allowance, to be determined by the Secretary, to reflect actual dollar value shrinkage experienced by handlers in commercial operations, except that the allowance shall not be less than 4 percent, except as provided in subclause (II).

"(II) COMMON INDUSTRY PRACTICES.—The Secretary may provide a lower shrinkage allowance for a handler who fails to comply with restrictions on the use of peanuts, as may be specified by the Commodity Credit Corporation, to take into account common industry practices.

"(3) ADEQUATE FINANCES AND FACILITIES.—A handler shall submit to the Secretary adequate financial guarantees, as well as evidence of adequate facilities and assets, with the facilities under the control and operation of the handler, to ensure the handler's compliance with the obligation to export peanuts.

"(4) COMMINGLING OF LIKE PEANUTS.—Quota and additional peanuts of like type and segregation or quality may, under regulations issued by the Secretary, be commingled and ex-

“(B) NONDELIVERY.—A handler shall not be subject to a penalty for failure to export additional peanuts if the peanuts were not delivered to the handler.

“(6) REENTRY OF EXPORTED PEANUTS.—If any additional peanuts exported by a handler are reentered into the United States in commercial quantities as determined by the Secretary, the importer thereof shall be subject to a penalty at a rate equal to 140 percent of the loan level for quota peanuts on the quantity of peanuts reentered.

“(e) SPECIAL EXPORT CREDITS.—

Regulations.

“(1) IN GENERAL.—The Secretary shall, with due regard for the integrity of the peanut program, promulgate regulations that will permit any handler of peanuts who manufactures peanut products from domestic edible peanuts to export the products and receive credit for the fulfillment of export obligations for the peanut content of the products against which the export credits the handler may thereafter apply, up to the amount thereof, equivalent quantities of additional peanuts of the same type acquired by the handler and used in the domestic edible market. The peanuts so acquired for the domestic edible market as provided in this subsection shall be of the same crop year as the peanuts used in the manufacture of the products so exported.

“(2) CERTIFICATION.—Under such regulations, the Secretary shall require all handlers who are peanut product manufacturers to submit annual certifications of peanut product content on a product-by-product basis. Any changes in peanut product formulas as affecting peanut content shall be recorded within 90 days of the changes. The Secretary shall conduct an annual review of the certifications. The Secretary shall pursue all available remedies with respect to persons who fail to comply with this paragraph.

“(3) RECORDS.—The Secretary shall require handlers who are peanut product manufacturers to maintain and provide such documents as are necessary to ensure compliance with this subsection and to maintain the integrity of the peanut program.

“(f) CONTRACTS FOR PURCHASE OF ADDITIONAL PEANUTS.—

“(1) IN GENERAL.—Handlers may, under such regulations as the Secretary may issue, contract with producers for the purchase of additional peanuts for crushing or export, or both.

“(2) SUBMISSION TO SECRETARY.—

“(A) CONTRACT DEADLINE.—Any such contract shall be completed and submitted to the Secretary (or if designated by the Secretary, the area marketing association) for approval not later than September 15 of the year in which the crop is produced.

The Secretary shall announce the extension no later than September 5 of the year in which the crop is produced.

“(3) FORM.—The contract shall be executed on a form prescribed by the Secretary. The form shall require such information as the Secretary determines appropriate to ensure the proper handling of the additional peanuts, including the identity of the contracting parties, the poundage, and category of the peanuts, the disclosure of any liens, and the intended disposition of the peanuts.

“(4) INFORMATION FOR HANDLING AND PROCESSING ADDITIONAL PEANUTS.—Notwithstanding any other provision of this section, any person wishing to handle and process additional peanuts as a handler shall submit to the Secretary (or if designated by the Secretary, the area marketing association), such information as may be required under subsection (d) by such date as prescribed by the Secretary so as to permit final action to be taken on the application by July 1 of each marketing year.

“(5) TERMS.—Each such contract shall contain the final price to be paid by the handler for the peanuts involved and a specific prohibition against the disposition of the peanuts for domestic edible or seed use.

“(6) SUSPENSION OF RESTRICTIONS ON IMPORTED PEANUTS.—Notwithstanding any other provision of this Act, if the President issues a proclamation under section 22 of the Agricultural Adjustment Act (7 U.S.C. 624), reenacted with amendments by the Agricultural Marketing Agreement Act of 1937, temporarily suspending restrictions on the importation of peanuts, the Secretary shall, subject to such terms and conditions as the Secretary may prescribe, permit a handler, with the written consent of the producer, to purchase additional peanuts from any producer who contracted with the handler and to offer the peanuts for sale for domestic edible use.

Additional peanuts received under loan shall be offered for sale for domestic edible use at prices not less than those required to cover all costs incurred with respect to the peanuts for such items as inspection, warehousing, shrinkage, and other expenses, plus—

“(A) not less than 100 percent of the loan value of quota peanuts if the additional peanuts are sold and paid for during the harvest season on delivery by and with the written consent of the producer;

“(B) not less than 105 percent of the loan value of quota peanuts if the additional peanuts are sold after delivery by

the producer but not later than December 31 of the marketing year; or

"(C) not less than 107 percent of the loan value of quota peanuts if the additional peanuts are sold later than December 31 of the marketing year.

"(2) ACCEPTANCE OF BIDS BY AREA MARKETING ASSOCIATIONS.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), for the period from the date additional peanuts are delivered for loan to March 1 of the calendar year following the year in which the additional peanuts were harvested, the area marketing association designated pursuant to section 108B(c)(1) of the Agricultural Act of 1949 shall have sole authority to accept or reject lot list bids when the sales price, as determined under this subsection, equals or exceeds the minimum price at which the Commodity Credit Corporation may sell its stocks of additional peanuts.

"(B) MODIFICATION.—The area marketing association and the Commodity Credit Corporation may agree to modify the authority granted by subparagraph (A) to facilitate the orderly marketing of additional peanuts.

"(3) PRODUCER MARKETING AND EXPENSES.—Notwithstanding any other provision of this Act, the Secretary shall, in any determination required under subsections (a)(2) and (b)(1) of section 108B of the Agricultural Act of 1949, include any additional marketing expenses required by law, excluding the amount of any assessment required under the Omnibus Budget Reconciliation Act of 1990.

"(h) ADMINISTRATION.—

"(1) INTEREST.—The person liable for payment or collection of any penalty provided for in this section shall be liable also for interest thereon at a rate per annum equal to the rate per annum of interest that was charged the Commodity Credit Corporation by the Treasury of the United States on the date the penalty became due.

"(2) DE MINIMIS QUANTITY.—This section shall not apply to peanuts produced on any farm on which the acreage harvested for nuts is one acre or less if the producers who share in the peanuts produced on the farm do not share in the peanuts produced on any other farm.

"(3) LIENS.—Until the amount of the penalty provided by this section is paid, a lien on the crop of peanuts with respect to which the penalty is incurred, and on any subsequent crop of peanuts subject to farm poundage quotas in which the person liable for payment of the penalty has an interest, shall be in effect in favor of the United States.

"(4) PENALTIES.—

"(A) PROCEDURES.—Notwithstanding any other provision of law, the liability for and the amount of any penalty assessed under this section shall be determined in accordance with such procedures as the Secretary by regulation may prescribe. The facts constituting the basis for determining the liability for or amount of any penalty assessed under this section, when officially determined in conformity with the applicable regulations prescribed by the Secretary, shall be final and conclusive and shall not be reviewable by any other officer or agency of the Government.

Regulations.

“(B) JUDICIAL REVIEW.—Nothing in this section shall be construed as prohibiting any court of competent jurisdiction from reviewing any determination made by the Secretary with respect to whether the determination was made in conformity with the applicable law and regulations.

“(C) CIVIL PENALTIES.—All penalties imposed under this section shall for all purposes be considered civil penalties.

“(5) REDUCTION OF PENALTIES.—

“(A) IN GENERAL.—Notwithstanding any other provision of law and except as provided in subparagraph (B), the Secretary may reduce the amount of any penalty assessed against handlers under this section by any appropriate amount, including, in an appropriate case, eliminating the penalty entirely, if the Secretary finds that the violation on which the penalty is based was minor or inadvertent, and that the reduction of the penalty will not impair the operation of the peanut program.

“(B) FAILURE TO EXPORT CONTRACTED ADDITIONAL PEANUTS.—The amount of any penalty imposed on a handler under this section that resulted from the failure to export or crush contracted additional peanuts shall not be reduced by the Secretary.

“(i) CROPS.—Notwithstanding any other provision of law, this section shall be effective only for the 1991 through 1995 crops of peanuts.”.

“**SEC. 359b. MARKETING ALLOTMENTS FOR SUGAR AND CRYSTALLINE FRUCTOSE.**

“(a) **SUGAR ESTIMATES.**—

“(1) **IN GENERAL.**—Before the beginning of each of the fiscal years 1992 through 1996, the Secretary shall estimate—

“(A) the quantity of sugar that will be consumed in the customs territory of the United States during the fiscal year (other than sugar imported for purposes other than human consumption);

“(B) the quantity of sugar that will be available from carry-in stocks or from domestically-produced sugarcane and sugar beets for consumption in the United States during the year; and

“(C) the quantity of sugar that will be imported for consumption during the year (other than sugar imported for purposes other than human consumption), based on the difference between—

“(i) the quantity of estimated consumption; and

“(ii) the quantity of sugar estimated to be available from domestically-produced sugarcane and sugar beets and from carry-in stocks.

“(2) **QUARTERLY REESTIMATES.**—The Secretary shall make quarterly reestimates of sugar consumption, availability, and imports for a fiscal year no later than the beginning of each of the second through fourth quarters of the fiscal year.

“(b) **SUGAR ALLOTMENTS.**—

“(1) **IN GENERAL.**—For any fiscal year in which the Secretary estimates, under subsection (a), that imports of sugar for consumption in the United States will be less than 1,250,000 short tons, raw value, the Secretary shall establish for that year appropriate allotments under section 359c for the marketing by processors of sugar processed from domestically-produced sugarcane and sugar beets in a manner that is fair, efficient, and equitable to producers, processors, and refiners, at a level that the Secretary estimates will result in imports of sugar of not less than 1,250,000 short tons, raw value, for that year.

“(2) **PRODUCTS.**—The Secretary may include products of sugar in the allotments under paragraph (1) if the Secretary determines it to be appropriate for purposes of this part.

“(c) **CRYSTALLINE FRUCTOSE ALLOTMENTS.**—For any fiscal year in which the Secretary establishes allotments for the marketing of sugar under section 359c, the Secretary shall establish for that year appropriate allotments for the marketing by manufacturers of crystalline fructose manufactured from corn, at a total level not to exceed the equivalent of 200,000 tons of sugar, raw value, during the

fiscal year, in a manner that is fair, efficient, and equitable to manufacturers.

“(d) PROHIBITIONS.—

“(1) SUGAR.—

“(A) EXCEEDING ALLOCATION.—At any time allotments are in effect and allocated to processors under section 359d, the total of—

“(i) the quantity of sugar marketed by a processor, plus

“(ii) the quantity of sugar pledged as collateral by the processor for a price support loan under section 206 of the Agricultural Act of 1949, shall not exceed the quantity of the allocation of the allotment made to the processor.

“(B) EXCEPTIONS.—Subparagraph (A) shall not apply—

“(i) to the marketing during a fiscal year of sugar pledged in that fiscal year as collateral for a price support loan under section 206 of the Agricultural Act of 1949 after the sugar has been subsequently redeemed; or

“(ii) to any sale of sugar by a processor to another processor made to enable the other processor to fulfill the quantity of the allocation of the allotment made to the other processor.

“(2) CRYSTALLINE FRUCTOSE.—At any time crystalline fructose allotments are in effect for manufacturers under subsection (c), no manufacturer may market crystalline fructose in excess of the manufacturer's allotment. No restrictions or allotments shall be established on the marketings of any liquid fructose produced from corn.

“(3) CIVIL PENALTY.—Any processor who violates paragraph (1) or manufacturer who violates paragraph (2) shall be liable to the Commodity Credit Corporation for a civil penalty in an amount equal to 3 times the United States market value, at the time of the commission of the violation, of that quantity of sugar or crystalline fructose involved in the violation.

“(4) DEFINITION OF MARKET.—For purposes of this part, the term ‘market’ shall mean to sell or otherwise dispose of in commerce in the United States.

“SEC. 359c. ESTABLISHMENT OF MARKETING ALLOTMENTS.

7 USC 1359cc.

“(a) IN GENERAL.—The Secretary shall establish marketing allotments for sugar for any fiscal year in which the allotments are required under section 359b(b) in accordance with this section.

“(b) OVERALL ALLOTMENT QUANTITY.—

“(1) IN GENERAL.—The Secretary shall establish the overall quantity of sugar to be allotted for the fiscal year (hereafter in this part referred to as the ‘overall allotment quantity’) by deducting from the estimated sugar consumption for the fiscal year, as determined under section 359b(a)—

“(A) 1,250,000 short tons, raw value (representing minimum imports of sugar for consumption in the United States during the fiscal year); and

“(B) carry-in stocks of sugar, including sugar in Commodity Credit Corporation inventory.

(2) ADJUSTMENT.—The Secretary shall adjust the overall allotment quantity to the maximum extent practicable to prevent

the accumulation of sugar acquired by the Commodity Credit Corporation.

“(c) ALLOTMENT.—The overall allotment quantity for the fiscal year shall be allotted among—

- “(1) sugar derived from sugar beets; and
- “(2) sugar derived from sugarcane.

“(d) PERCENTAGE FACTORS.—

“(1) IN GENERAL.—The Secretary shall establish percentage factors for the overall beet sugar and cane sugar allotments applicable for a fiscal year. The Secretary shall establish the percentage factors in a fair and equitable manner on the basis of past marketings of sugar (considering for such purposes the marketings of sugar processed from sugarcane and sugar beets of any or all of the 1985 through 1989 crops), processing and refining capacity, and the ability of processors to market the sugar covered under the allotments.

“(2) PUBLICATION.—The Secretary shall publish these percentage factors in the Federal Register, along with a description of the Secretary's reasons for establishing the factors, as provided in section 359h(c).

“(e) MARKETING ALLOTMENT.—The marketing allotment for sugar derived from sugarcane and the marketing allotment for sugar derived from sugar beets for a fiscal year, in each case, shall be a quantity equal to the product of multiplying the overall allotment quantity for the fiscal year by the percentage factor established by the Secretary under subsection (d)(1) for the allotment.

“(f) STATE SUGARCANE ALLOTMENT.—The allotment for sugar derived from sugarcane shall be further allotted among the 5 States in the United States in which sugarcane is produced in a fair and equitable manner on the basis of past marketings of sugar (considering for such purposes the average of marketings of sugar processed from sugarcane in the 2 highest years of production from each State from the 1985 through 1989 crops), processing capacity, and the ability of processors to market the sugar covered under the allotments.

“(g) ADJUSTMENT OF MARKETING ALLOTMENTS.—

“(1) IN GENERAL.—The Secretary shall, based on reestimates under section 359b(a)(2), adjust upward or downward marketing allotments established under subsections (a) through (f) in a fair and equitable manner, or suspend the allotments, as the Secretary determines appropriate, to reflect changes in estimated sugar consumption, availability, or imports.

“(2) ALLOCATION TO PROCESSORS.—In the case of any increase or decrease in an allotment, each allocation to a processor of the allotment under section 359d, and each proportionate share established with respect to the allotment under section 359f(b), shall be increased or decreased by the same percentage that the allotment is increased or decreased.

“(3) REDUCTIONS.—Whenever a marketing allotment for a fiscal year is required to be reduced during the fiscal year under this paragraph—

“(A) if the quantity of the sugar marketed, including sugar pledged as collateral for a price support loan under section 206 of the Agricultural Act of 1949, for the fiscal year at the time of the reduction under the allotment by all processors covered by the allotment exceeds the reduced

Register,

allotment, the quantity of the excess sugar marketed shall be deducted—

“(i) if beet sugar is involved, from the marketing allotment, if any, next established for beet sugar; or

“(ii) if cane sugar is involved, from the marketing allotment next established for the State; and

“(B) if the quantity of sugar marketed, including sugar pledged as collateral for a price support loan under section 206 of the Agricultural Act of 1949, for the fiscal year at the time of the reduction by any individual processor covered by the allotment exceeds the processor's reduced allocation, the quantity of the excess sugar marketed shall be deducted from the allocation of an allotment, if any, next established for the processor.

“(h) FILLING SUGARCANE AND SUGAR BEET ALLOTMENTS.—Except as otherwise provided in section 359e, each marketing allotment of sugarcane established under this section may only be filled with sugar processed from domestically grown sugarcane, and each marketing allotment of sugar beets established under this section may only be filled with sugar processed from domestically grown sugar beets.

“SEC. 359d. ALLOCATION OF MARKETING ALLOTMENTS.

7 USC 1359dd.

“(a) IN GENERAL.—

“(1) ALLOCATION TO PROCESSORS.—Whenever marketing allotments are established for a fiscal year under section 359c, in order to afford all interested persons an equitable opportunity to market sugar under an allotment, the Secretary shall allocate each such allotment among the processors covered by the allotment.

“(2) HEARING AND NOTICE.—

“(A) CANE SUGAR.—The Secretary shall make allocations for cane sugar after such hearing and on such notice as the Secretary by regulation may prescribe, in such manner and in such quantities as to provide a fair, efficient, and equitable distribution of the allocations by taking into consideration processing capacity, past marketings of sugar, and the ability of each processor to market sugar covered by that portion of the allotment allocated. Each such allocation shall be subject to adjustment under section 359c(g).

“(B) BEET SUGAR.—The Secretary shall make allocations for beet sugar after such hearing and on such notice as the Secretary by regulation may prescribe, in such manner and in such quantities as to provide a fair, efficient, and equitable distribution of the allocations by taking into consideration processing capacity, past marketings of sugar (considering for the purposes the marketings of sugar processed from sugar beets of any or all of the 1985 through 1989 crops), and the ability of each processor to market sugar covered by that portion of the allotment allocated. Each such allocation shall be subject to adjustment under section 359c(g).

“(b) FILLING CANE SUGAR ALLOTMENTS.—Except as otherwise provided in section 359e, the marketing allotment established for cane sugar under this part for a fiscal year may be filled only with sugar processed from sugarcane grown in the State covered by the allotment.

7 USC 1359ee.

**"SEC. 359e. ASSIGNMENTS OF DEFICITS.**

"(a) **ESTIMATES OF MARKETING.**—At any time allotments are in effect under this part, the Secretary, from time to time, shall determine whether (in view of then-current inventories of sugar, the estimated production of sugar and expected marketings, and other pertinent factors) processors of sugarcane in each State covered by an allotment will be able to market the sugar covered by the allotment applicable to them and whether processors of sugar beets will be able to market sugar covered by the portion of the beet sugar allotment applicable to them.

**"(b) REASSIGNMENT OF DEFICITS.**—

"(1) **CANE SUGAR.**—If the Secretary determines that the sugarcane processors subject to a State allotment will be unable to market the State's allotment for the fiscal year—

"(A) the Secretary first shall reassign the estimated quantity of the deficit proportionately to the allocations for other processors within that State;

"(B) if after the reassignments the deficit cannot be completely eliminated, the Secretary shall reassign the estimated quantity of the deficit proportionately to the allotments for other cane sugar States, depending on the capacity of each other State to fill the portion of the deficit to be assigned to it, with the reassigned quantity to each State to be allocated among processors in that State in proportion to the allocations of the processors; and

"(C) if after the reassignments, the deficit cannot be completely eliminated, the Secretary shall reassign the remainder to imports.

"(2) **BEET SUGAR.**—If the Secretary determines that a sugar beet processor subject to an allotment will be unable to market that allotment—

"(A) the Secretary first shall reassign the estimated quantity of the deficit proportionately to the allotments for other sugar beet processors, depending on the capacity of each other processor to fill the portion of the deficit to be assigned to it; and

"(B) if after the reassignments, the deficit cannot be completely eliminated, the Secretary shall reassign the remainder to imports.

"(3) **CORRESPONDING INCREASE.**—The allocation of each processor receiving a reassigned quantity of an allotment under this subsection for a fiscal year shall be increased to reflect the reassignment.

Imports.

7 USC 1359ff.

**"SEC. 359f. PROVISIONS APPLICABLE TO PRODUCERS.**

"(a) **PROCESSOR ASSURANCES.**—Whenever allotments for a fiscal year are allocated to processors under section 359d, the Secretary shall obtain from the processors such assurances as the Secretary considers adequate that the allocation will be shared among producers served by the processor in a fair and equitable manner that adequately reflects producers' production histories. Any dispute between a processor and a producer, or group of producers, with respect to the sharing of the processor's allocation shall be resolved through arbitration by the Secretary on the request of either party.

**"(b) PROPORTIONATE SHARES OF CERTAIN ALLOTMENTS.**—**"(1) IN GENERAL.**—

"(A) STATES AFFECTED.—In any case in which a State allotment is established under section 359c(f) and there are in excess of 250 producers in such State, the Secretary shall make a determination under subparagraph (B).

"(B) DETERMINATION.—The Secretary shall determine, for each State allotment described in subparagraph (A), whether the production of sugar, in the absence of proportionate shares, will be greater than the quantity needed to enable processors to fill the allotment and provide a normal carryover inventory.

"(2) ESTABLISHMENT OF PROPORTIONATE SHARES.—If the Secretary determines under paragraph (1) that the quantity of sugar processed from all crops by all processors covered by a State allotment for a fiscal year will be in excess of the quantity needed to enable processors to fill the allotment for the fiscal year and provide a normal carryover inventory, the Secretary shall establish proportionate shares for the crop of sugarcane that is harvested during the fiscal year the allotment is in effect as provided in this subsection. Each such proportionate share shall be subject to adjustment under section 359c(g).

"(3) METHOD OF DETERMINING.—For purposes of determining proportionate shares for any crop of sugarcane:

"(A) The Secretary shall establish the State's per-acre yield goal for a crop at a level (not less than the average per-acre yield in the State for the preceding 5 years, as determined by the Secretary) that will ensure an adequate net return per pound to producers in the State, taking into consideration any available production research data that the Secretary deems relevant.

"(B) The Secretary shall convert the State allotment for the fiscal year involved into a State acreage allotment for the crop by dividing the State allotment by the per-acre yield goal for the State, as established under subparagraph (A).

"(C) The Secretary shall establish a uniform reduction percentage for the crop by dividing the State acreage allotment, as determined for the crop under subparagraph (B), by the sum of all acreage bases in the State, as determined by the Secretary, that the Secretary estimates would otherwise be harvested for the production of the crop of sugarcane.

"(D) The uniform reduction percentage for the crop, as determined under subparagraph (C), shall be applied to the acreage base for each farm covered by the State allotment to determine the farm's proportionate share for the crop.

"(4) ACREAGE BASE.—For purposes of this subsection, the acreage base for each sugarcane-producing farm shall be determined by the Secretary, as follows:

"(A) The acreage base for any crop shall be the number of acres that is equal to the average of the acreage planted and considered planted for harvest for sugar or seed on the farm in each of the 5 crop years preceding the crop year.

"(B) Acreage that producers on a farm were unable to harvest to sugarcane for sugar or seed because of drought, flood, other natural disaster, or other condition beyond the control of the producers shall be considered as harvested to sugarcane for sugar or seed for purposes of this paragraph.

“(5) VIOLATION.—

“(A) IN GENERAL.—Whenever proportionate shares are in effect in a State for a crop of sugarcane, no producer in the State knowingly may harvest for sugar or seed an acreage of sugarcane of the crop in excess of the farm’s proportionate share for the crop or otherwise violate proportionate share regulations issued by the Secretary under section 359h(a).

“(B) CIVIL PENALTY.—Any producer who violates subparagraph (A) shall be liable to the Commodity Credit Corporation for a civil penalty in an amount equal to 3 times the United States market value, at the time of the commission of the violation, of that quantity of sugar involved in the violation. The quantity of sugar involved shall be determined based on the per-acre yield goal established under paragraph (3).

“(6) WAIVER.—Notwithstanding the preceding subparagraph, the Secretary may authorize the county and State committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590h(b)) to waive or modify deadlines and other proportionate share requirements in cases in which lateness or failure to meet the other requirements does not affect adversely the operation of proportionate shares.

7 USC 1359gg.

“SEC. 359g. SPECIAL RULES.

“(a) TRANSFER OF PRODUCTION HISTORY.—For the purpose of establishing proportionate shares for producers under section 359f, the Secretary, on application of any producer, may transfer the production history of land owned, operated, or controlled by the producers to any other parcels of land of the applicant.

“(b) RESERVATION OF PRODUCTION HISTORY.—If for reasons beyond the control of an owner of a farm, the owner is unable to use all or a portion of the proportionate share established for the farm under section 359f, the Secretary may reserve for a period of not more than 3 consecutive years the production history of the farm to the extent of the proportionate share involved. The proportionate share may be redistributed to other farm owners or operators, but no production history shall accrue to the other farm owners or operators, by virtue of the redistribution of the proportionate share so redistributed.

“(c) REVISIONS OF ALLOCATIONS AND PROPORTIONATE SHARES.—The Secretary, after such hearing and notice as the Secretary by regulation may prescribe, may revise or amend any allocation of a marketing allotment under section 359d, or any proportionate share established for a farm under section 359f, on the same basis as the initial allocation or proportionate share was established.

7 USC 1359hh.

“SEC. 359h. REGULATIONS; VIOLATIONS; PUBLICATION OF SECRETARY’S DETERMINATIONS; JURISDICTION OF THE COURTS; UNITED STATES ATTORNEYS.

“(d) JURISDICTION OF COURTS; UNITED STATES ATTORNEYS.—

“(1) JURISDICTION OF COURTS.—The several district courts of the United States are vested with jurisdiction specifically to enforce, and to prevent and restrain any person from violating, this part or any regulation issued thereunder.

“(2) UNITED STATES ATTORNEYS.—Whenever the Secretary shall so request, it shall be the duty of the several United States attorneys, in their respective districts, to institute proceedings to enforce the remedies and to collect the penalties provided for in this part. The Secretary may elect not to refer to a United States attorney any violation of this part or regulation when the Secretary determines that the administration and enforcement of this part would be adequately served by written notice or warning to any person committing the violation.

“(e) NONEXCLUSIVITY OF REMEDIES.—The remedies and penalties provided for in this part shall be in addition to, and not exclusive of, any remedies or penalties existing at law or in equity.

#### “SEC. 359i. APPEALS.

“(2) HEARING.—The Secretary shall provide each appellant an opportunity for a hearing. The Secretary shall appoint an administrative law judge to conduct a hearing on the record on each appeal under this section. “(a) **ESTABLISHMENT.**—

“(1) **IN GENERAL.**—The Secretary shall provide for the establishment and maintenance of crop acreage bases for each program crop, including any program crop produced under an established practice of double cropping.

“(2) **LIMITATION.**—The sum of the crop acreage bases on the farm may not exceed the cropland on the farm, except to the extent there is an established practice of double cropping on the farm.

“(3) **DEFINITION OF DOUBLE CROPPING.**—As used in this subsection, the term ‘double cropping’ means a farming practice, as defined by the Secretary, that has been carried out on a farm during at least 3 of the 5 crop years immediately preceding the crop year for which the crop acreage base for the farm is established.

“(b) **CALCULATION.**—

“(1) **IN GENERAL.**—Except as provided in paragraph (2), the crop acreage base for each program crop for a farm for a crop year shall be the number of acres that is equal to the average of the acreage planted and considered planted to the program crop for harvest on the farm in each of the 5 crop years preceding the crop year.

“(2) **COTTON AND RICE.**—

“(A) **IN GENERAL.**—In the case of upland cotton and rice, except as provided in subparagraph (B), the crop acreage base for such crop shall be equal to the average of the acreage planted and considered planted to such crop for harvest on the farm in each of the 3 crop years preceding such crop year.

“(B) **EXCEPTION.**—

“(i) 1991 CROPS.—In the case of each of the 1991 crops of upland cotton and rice, if the producers on a farm did not participate in the production adjustment program established for the 1989 and 1990 crops of upland cotton and rice, respectively, the crop acreage base for the 1991 crop shall be equal to the average of the acreage planted and considered planted to such crop for harvest on the farm in each of the 5 crop years preceding the 1991 crop year, excluding all crop years in which planted and considered planted acreage was not established for the farm. Any crop acreage base established in accordance with this subparagraph shall not exceed a number of acres equal to the average of the acreage planted and considered planted to such crop for harvest on the farm in each of the 2 crop years preceding the 1991 crop year.

“(ii) 1992 CROPS.—In the case of each of the 1992 crops of upland cotton and rice, if the producers on a farm did not participate in the production adjustment program established for the 1990 and 1991 crops of upland cotton and rice, respectively, the crop acreage base for the 1992 crop shall be equal to the average of the acreage planted and considered planted to such crop for harvest on the farm in each of the 5 crop years preceding the 1992 crop year, excluding all crop years in which planted and considered planted acreage was not established for the farm. Any crop acreage base established in accordance with this subparagraph shall not exceed a number of acres equal to the average of the acreage planted and considered planted to such crop for harvest on the farm in each of the 2 crop years preceding the 1992 crop year.

“(c) ACREAGE CONSIDERED PLANTED.—For purposes of this Act, acreage considered planted to a program crop shall consist of—

“(1) any reduced acreage and diverted acreage on the farm;

“(2) any acreage on the farm that producers were prevented from planting to the crop because of drought, flood, or other natural disaster, or other condition beyond the control of the producers;

“(3) acreage in an amount equal to the difference between the permitted acreage for a program crop and the acreage planted to the crop, if the acreage considered to be planted is devoted to conservation uses or the production of commodities permitted by the Secretary under the 0/92 or 50/92 programs established for any of the 1991 through 1995 crops of wheat, feed grains, upland cotton, and rice established under sections 107B(c)(1)(E), 105B(c)(1)(E), 103B(c)(1)(D), and 101B(c)(1)(D), respectively;

“(4) acreage in an amount equal to the difference between the permitted acreage for a program crop and the acreage planted to the crop, if the acreage considered to be planted is devoted to the production of commodities in accordance with section 504;

“(5) any acreage on the farm that the Secretary determines is necessary to be included in establishing a fair and equitable crop acreage base;

“(6) the crop acreage base for the crop, if producers on the farm forgo receiving any payments under the program estab-

lished under title I for the crop and certify that no acreage on the farm was planted to—

“(A) the crop; or

“(B) any fruit or vegetable crop (including potatoes and dry edible beans) not designated as an industrial or experimental crop by the Secretary, in excess of normal plantings; and

“(7) any acreage on the farm for which the crop acreage base for the crop on the farm was adjusted because of a condition or occurrence beyond the control of the producer pursuant to subsection (h).

“(d) CONSTRUCTION OF PLANTING HISTORY.—For the purpose of determining the crop acreage base for the 1991 and subsequent crop years for any farm, the county committee, in accordance with regulations prescribed by the Secretary, may construct a planting history for such crop if—

“(1) planting records for such crop for any of the 5 crop years preceding such crop year are incomplete or unavailable; or

“(2) during at least one but not more than 4 of the 5 crop years preceding such crop year, the program crop was not produced on the farm.

“(e) CROP ROTATION AND OTHER FACTORS.—The Secretary shall make adjustments to reflect crop rotation practices and to reflect such other factors as the Secretary determines should be considered in determining a fair and equitable crop acreage base, including adjustments necessary to enable producers to meet the requirements of title XII of the Food Security Act of 1985 (16 U.S.C. 3801 et seq.).

“(f) PREVENTED PLANTING.—If a county committee determines, in accordance with regulations prescribed by the Secretary, that the occurrence of a natural disaster or other similar condition beyond the control of the producer prevented the planting of a program crop on any farm within the county (or substantially destroyed any such program crop after it had been planted but before it had been harvested), the producer may plant any other crop, including any other program crop, on the acreage of such farm that, but for the occurrence of such disaster or other condition, would have been devoted to the production of a program crop. For purposes of determining the crop acreage base, any acreage on the farm on which a substitute crop, including any program crop, is planted under this subsection shall be taken into account as if such acreage had been planted to the program crop for which the other crop was substituted.

“(g) SUBSEQUENT CROP YEARS.—A producer who is eligible to receive a deficiency payment for any program crop or crop of extra long staple cotton in any crop year with respect to a farm may not use the acreage planted or considered planted to any program crop or crop of extra long staple cotton on the farm in the crop year to increase any crop acreage base established for the farm in a subsequent crop year.

“(h) ADJUSTMENT OF BASES.—The county committee, in accordance with regulations prescribed by the Secretary, may adjust any crop acreage base for any program crop for any farm if the crop acreage base for the crop on the farm would otherwise be adversely affected by a condition or occurrence beyond the control of the producer.

7 USC 1464.

**"SEC. 504. PLANTING FLEXIBILITY.**

"(a) **IN GENERAL.**—The producers on a farm may, in accordance with this section, plant for harvest on the crop acreage base established for a program crop a commodity, other than the specific program crop, without suffering a reduction in the crop acreage base as a result of the production.

"(b) **SPECIFIED COMMODITIES.**—

"(1) **PERMITTED CROPS.**—Except as provided in paragraph (2), for purposes of this section, the commodities that may be planted for harvest on a crop acreage base are—

"(A) any program crop;

"(B) any oilseed;

"(C) any industrial or experimental crop designated by the Secretary; and

"(D) any other crop, except any fruit or vegetable crop (including potatoes and dry edible beans) not designated by the Secretary as—

"(i) an industrial or experimental crop; or

"(ii) a crop for which no substantial domestic production or market exists.

"(2) **LIMITATION.**—For purposes of this section, the Secretary may, at the discretion of the Secretary, prohibit the planting on a crop acreage base of any crop specified in paragraph (1).

"(3) **NOTIFICATION.**—With regard to commodities that may be planted pursuant to this subsection, the Secretary shall make a determination in each crop year of the commodities that may not be planted pursuant to this subsection and shall make available a list of the commodities.

"(c) **LIMITATION ON ACREAGE.**—

"(1) **IN GENERAL.**—Except as provided in paragraph (2), the quantity of the crop acreage base that may be planted to a commodity, other than the specific program crop, under this section may not exceed 25 percent of the crop acreage base.

"(2) **EXCEPTION FOR SOYBEANS.**—If on January 1 of any calendar year the Secretary estimates that the national average price of soybeans during the following marketing year for soybeans would be less than 105 percent of the nonrecourse loan level for soybeans established in section 205 if soybeans were allowed to be planted on up to 25 percent of the crop acreage base under this section, the quantity of the crop acreage base that may be planted to soybeans under this section may not exceed 15 percent of the crop acreage base.

"(d) **PLANTINGS IN EXCESS OF PERMITTED ACREAGE.**—Notwithstanding any other provision of this Act, producers of a program crop who are participating in the production adjustment program for that program crop under this Act shall be allowed to plant that program crop in a quantity that exceeds the permitted acreage for that crop without losing their eligibility for loans, purchases, or payments with respect to that crop under this Act if—

"(1) the acreage planted to the program crop on the farm in excess of the permitted acreage does not exceed 25 percent of the crop acreage bases on the farm for other program crops; and

"(2) the producer agrees to a reduction in permitted acreage for the other program crops produced on the farm by a quantity equal to the overplanting.

"(e) **LOAN ELIGIBILITY.**—

“(1) IN GENERAL.—Producers of a specific program crop (referred to in this subsection as the ‘original program crop’) who plant for harvest on the crop acreage base established for such original program crop another program crop in accordance with this section and who are not participants in the program established for such other program crop shall be eligible to receive loans, purchases, or loan deficiency payments for such other program crop on the same terms and conditions as are provided to participants in a production adjustment program established for such other program crop.

“(2) REQUIREMENTS.—Producers shall be eligible to receive loans, purchases, or loan deficiency payments under this subsection if the producers—

“(A) plant such other program crop in an amount that does not exceed 25 percent of the crop acreage base established for the original program crop; and

“(B) agree to a reduction in the permitted acreage for the original program crop for the particular crop year.

“SEC. 505. FARM PROGRAM PAYMENT YIELDS.

7 USC 1465.

“(a) ESTABLISHMENT.—The Secretary shall provide for the establishment of a farm program payment yield for each farm for each program crop for each crop year in accordance with subsection (b) or (c).

“(b) FARM PROGRAM PAYMENT YIELDS BASED ON 1990 CROP YEAR.—

“(1) IN GENERAL.—If the Secretary determines that farm program payment yields shall be established in accordance with this subsection, except as provided in paragraphs (2) and (3), the farm program payment yield for each of the 1991 through 1995 crop years shall be the farm program payment yield for the 1990 crop year for the farm.

“(2) ADDITIONAL YIELD PAYMENTS.—In the case of each of the 1991 through 1995 crop years for a commodity, if the farm program payment yield for a farm is reduced more than 10 percent below the farm program payment yield for the 1985 crop year, the Secretary shall make available to producers established price payments for the commodity in such amount as the Secretary determines is necessary to provide the same total return to producers as if the farm program payment yield had not been reduced more than 10 percent below the farm program payment yield for the 1985 crop year. The payments shall be made available not later than the time final deficiency payments are made.

“(3) NO CROP OR YIELD AVAILABLE.—If no crop of the commodity was produced on the farm or no farm program payment yield was established for the farm for any of the 1981 through 1985 crop years (or, as appropriate, the 1986 through 1990 crop years), the farm program payment yield shall be established on the basis of the average farm program payment yield for the crop years for similar farms in the area.

“(4) NATIONAL, STATE, OR COUNTY YIELDS.—If the Secretary determines the action is necessary, the Secretary may establish national, State, or county program payment yields on the basis of—

“(A) historical yields, as adjusted by the Secretary to correct for abnormal factors affecting the yields in the historical period; or

“(B) the Secretary’s estimate of actual yields for the crop year involved if historical yield data is not available.

“(5) **BALANCING YIELDS.**—If national, State, or county program payment yields are established, the farm program payment yields shall balance to the national, State, or county program payment yields.

“(c) **DETERMINATION OF YIELDS.**—

“(1) **ACTUAL YIELDS.**—With respect to the 1991 and subsequent crop years, the Secretary may—

“(A) establish the farm program payment yield as provided in subsection (a); or

“(B) establish a farm program payment yield for any program crop for any farm on the basis of the average of the yield per harvested acre for the crop for the farm for each of the 5 crop years immediately preceding the crop year, excluding the crop year with the highest yield per harvested acre, the crop year with the lowest yield per harvested acre, and any crop year in which such crop was not planted on the farm.

“(2) **PRIOR YIELDS.**—For purposes of the preceding sentence, the farm program payment yield for the 1986 crop year and the actual yield per harvested acre with respect to the 1987 and subsequent crop years shall be used in determining farm program payment yields.

“(3) **REDUCTION LIMITATION.**—Notwithstanding any other provision of this paragraph, for purposes of establishing a farm program payment yield for any program crop for any farm for the 1991 and subsequent crop years, the farm program payment yield for the 1986 crop year may not be reduced more than 10 percent below the farm program payment yield for the farm for the 1985 crop year.

“(4) **ADJUSTMENT OF YIELDS.**—The county committee, in accordance with regulations prescribed by the Secretary, may adjust any farm program payment yield for any program crop for any farm if the farm program payment yield for the crop on the farm does not accurately reflect the productive potential of the farm.

“(d) **ASSIGNMENT OF YIELDS.**—In the case of any farm for which the actual yield per harvested acre for any program crop referred to in subsection (c) for any crop year is not available, the county committee may assign the farm a yield for the crop for the crop year on the basis of actual yields for the crop for the crop year on similar farms in the area.

“(e) **ACTUAL YIELD DATA.**—

“(1) **PROVISION.**—The Secretary shall, under such terms and conditions as the Secretary may prescribe, allow producers to provide to county committees data with respect to the actual yield for each farm for each program crop.

“(2) **MAINTENANCE.**—The Secretary shall maintain the data for at least 5 crop years after receipt in a manner that will permit the data to be used, if necessary, in the administration of the commodity programs.

“(3) **NOTIFICATION.**—The Secretary shall provide timely notification to producers of the provisions of this subsection.

**"SEC. 506. PLANTING AND PRODUCTION HISTORY OF FARMS.**

7 USC 1466.

"Each county committee, in accordance with regulations prescribed by the Secretary, may require any producer who seeks to establish a crop acreage base or farm program payment yield for a farm for a crop year to provide planting and production history of the farm for each of the 5 crop years immediately preceding the crop year.

**"SEC. 507. ESTABLISHMENT OF BASES AND YIELDS BY COUNTY COMMITTEES.**

7 USC 1467.

"Each county committee may, in accordance with regulations prescribed by the Secretary, provide for the establishment of a crop acreage base, and farm program payment yield with respect to any farm administratively located within the county if the crop acreage base or farm program payment yield cannot otherwise be established under this title. The crop acreage bases and farm program payment yields shall be established in a fair and equitable manner, but no such bases or farm program payment yields shall be established for a farm if the producer on the farm is subject to sanctions under any provision of Federal law for cultivating highly erodible land or converted wetland.

**"SEC. 508. APPEALS.**

7 USC 1468.

"The Secretary shall establish an administrative appeal procedure that provides for an administrative review of determinations made with respect to crop acreage bases and farm program payment yields.

**"SEC. 509. CROPS.**

7 USC 1469.

"Notwithstanding any other provision of law, this title shall be effective only for the 1991 through 1995 program crops."

"(1) A portion of the deficiency payment shall be made in advance in accordance with subsection (a)(2).

(C) shall permit the producers to make the refund in three equal installments during each of the crop years 1990, 1991, and 1992, if the producers enter into an agreement to obtain multiperil crop insurance for each of the crop years, to the extent that the Secretary determines is similar to section 107 of the Disaster Assistance Act of 1989 (7 U.S.C. 1421 et seq.).

(2) APPLICATION.—This subparagraph shall apply if—

(A) the producers received an advance deficiency payment for the 1988 or 1989 crop of a commodity under section 107C(a) of the Agricultural Act of 1949 (7 U.S.C. 1445b-2(a));

“(1) the number of acres so affected but not to exceed the acreage planted to peanuts, soybeans, sugar beets, or sugarcane for harvest (including any acreage that the producers were prevented from planting to the commodity or to other nonconserving crops in lieu of peanuts, soybeans, sugar beets, or sugarcane because of drought, flood or other natural disaster, or other condition beyond the control of the producers) in the immediately preceding year; by

Beginning with the 1991 crop, the quality differences (premiums and discounts for quality factors) for the upland cotton loan program shall be established by the Secretary by giving equal weight to (1) loan differences for the preceding crop, and (2) market differences for such crop in the designated United States spot markets.

“(b) INVENTORIES.—In determining sales policies for basic agricultural commodities or storable nonbasic commodities, the Corporation should consider the establishment of such policies with respect to prices, terms, and conditions as the Corporation determines will not discourage or deter manufacturers, processors, and dealers from acquiring and carrying normal inventories of the commodity of the current crop.

“(c) SALES PRICE RESTRICTIONS.—

“(1) IN GENERAL.—Except as otherwise provided in this section, the Corporation shall not sell any basic agricultural commodity or storable nonbasic commodity at less than 115 percent of the lower of—

“(2) EXTRA LONG STAPLE COTTON.—The Corporation may sell extra long staple cotton for unrestricted use at such price as the

Corporation determines is appropriate to maintain and expand export and domestic markets.

"(B) 115 percent of the loan repayment level.

"(4) WHEAT AND FEED GRAINS.—Whenever the producer reserve program for wheat and feed grains established under section 110 is in effect, the Corporation may not sell any of its stocks of wheat or feed grains at a level that is less than 150 percent of the then current loan rate for wheat or feed grains.

"(5) UPLAND COTTON.—The Commodity Credit Corporation shall sell upland cotton for unrestricted use at the same price the Corporation sells upland cotton for export, but in no event at less than the amount provided for in paragraph (1).

"(d) NONAPPLICATION OF SALES PRICE RESTRICTIONS.—The foregoing restrictions of this section shall not apply to—

"(1) sales for new or byproduct uses;

"(2) sales of peanuts and oilseeds for the extraction of oil;

“(f) EFFICIENT OPERATIONS.—

“(1) IN GENERAL.—Subject to paragraph (2), the foregoing restrictions of this section shall not apply to sales of commodities the disposition of which is desirable in the interest of the effective and efficient conduct of the operations of the Corporation because of the small quantities involved, or because of age, location or questionable continued storability of the commodity.

“(2) OFFSETS.—The sales shall be offset (if necessary) by the purchases of commodities as the Corporation determines is appropriate to prevent the sales from substantially impairing any price support program or unduly affecting market prices, except that the purchase price shall not exceed the Corporation's minimum sales price for the commodities for unrestricted use.

“(3) COMPETITIVE BID BASIS.—Subject to the sales price restrictions contained in this section, the Corporation may sell any basic agricultural commodity or storable nonbasic commodity on a competitive bid basis, if the sale is determined to be appropriate by the Secretary.

### SEC. 1201. SHORT TITLE.

This title may be cited as the “Forest Stewardship Act of 1990”.

## Subtitle A—Cooperative Forestry Assistance Act of 1978

### SEC. 1211. REFERENCES.

Whenever in this subtitle an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Cooperative Forestry Assistance Act of 1978 (16 U.S.C. 2101 et seq.).

### SEC. 1212. FINDINGS, PURPOSE, AND POLICY.

Section 2 of the Act (16 U.S.C. 2101) is amended to read as follows:

Forest  
Stewardship Act  
of 1990.  
Fish.  
Wildlife.  
Technical  
assistance.  
Public lands.  
16 USC 2101  
note.

**"SEC. 2. FINDINGS, PURPOSE, AND POLICY.****"(a) FINDINGS.—Congress finds that—**

"(1) most of the productive forest land of the United States is in private, State, and local governmental ownership, and the capacity of the United States to produce renewable forest resources is significantly dependent on such non-Federal forest lands;

"(2) adequate supplies of timber and other forest resources are essential to the United States, and adequate supplies are dependent on efficient methods for establishing, managing, and harvesting trees and processing, marketing, and using wood and wood products;

"(3) nearly one-half of the wood supply of the United States comes from nonindustrial private timberlands and such percentage could rise with expanded assistance programs;

"(4) managed forest lands provide habitats for fish and wildlife, as well as aesthetics, outdoor recreation opportunities, and other forest resources;

"(5) the soil, water, and air quality of the United States can be maintained and improved through good stewardship of privately held forest resources;

"(6) insects and diseases affecting trees occur and sometimes create emergency conditions on all land, whether Federal or non-Federal, and efforts to prevent and control such insects and diseases often require coordinated action by both Federal and non-Federal land managers;

"(7) fires in rural areas threaten human lives, property, forests and other resources, and Federal-State cooperation in forest fire protection has proven effective and valuable;

"(8) trees and forests are of great environmental and economic value to urban areas;

"(9) managed forests contribute to improving the quality, quantity, and timing of water yields that are of broad benefit to society;

"(10) over half the forest lands of the United States are in need of some type of conservation treatment;

"(11) forest landowners are being faced with increased pressure to convert their forest land to development and other purposes;

"(12) increased population pressures and user demands are being placed on private, as well as public, landholders to provide a wide variety of products and services, including fish and wildlife habitat, aesthetic quality, and recreational opportunities;

"(13) stewardship of privately held forest resources requires a long-term commitment that can be fostered through local, State, and Federal governmental actions;

"(14) the Department of Agriculture, through the coordinated efforts of its agencies with forestry responsibilities, cooperating with other Federal agencies, State foresters, and State political subdivisions, has the expertise and experience to assist private landowners in achieving individual goals and public benefits regarding forestry;

"(15) the products and services resulting from nonindustrial private forest land stewardship provide income and employ-

ment that contribute to the economic health and diversity of rural communities; and

“(16) sustainable agroforestry systems and tree planting in semiarid lands can improve environmental quality and maintain farm yields and income.

“(b) PURPOSE.—It is the purpose of this Act to authorize the Secretary of Agriculture (hereafter in this Act referred to as the ‘Secretary’), with respect to non-Federal forest lands of the United States, to assist in—

“(1) the establishment of a coordinated and cooperative Federal, State, and local forest stewardship program for management of the non-Federal forest lands;

“(2) the encouragement of the production of timber;

“(3) the prevention and control of insects and diseases affecting trees and forests;

“(4) the prevention and control of rural fires;

“(5) the efficient utilization of wood and wood residues, including the recycling of wood fiber;

“(6) the improvement and maintenance of fish and wildlife habitat;

“(7) the planning and conduct of urban forestry programs;

“(8) broadening existing forest management, fire protection, and insect and disease protection programs on non-Federal forest lands to meet the multiple use objectives of landowners in an environmentally sensitive manner;

“(9) providing opportunities to private landowners to protect ecologically valuable and threatened non-Federal forest lands; and

“(10) strengthening educational, technical, and financial assistance programs that provide assistance to owners of non-Federal forest lands.

“(c) POLICY.—It is the policy of Congress that it is in the national interest for the Secretary to work through and in cooperation with State foresters, or equivalent State officials, nongovernmental organizations, and the private sector in implementing Federal programs affecting non-Federal forest lands.

“(d) CONSTRUCTION.—This Act shall be construed to complement the policies and direction under the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1600 et seq.).”

“(1) protecting, maintaining, enhancing, restoring, and preserving forest lands and the multiple values and uses that depend on such lands;

"(2) identifying, protecting, maintaining, enhancing, and preserving wildlife and fish species, including threatened and endangered species, and their habitats;

"(3) implementing forest management technologies;

"(4) selecting, producing, and marketing alternative forest crops, products and services from forest lands;

"(5) protecting forest land from damage caused by fire, insects, disease, and damaging weather;

"(6) managing the rural-land and urban-land interface to balance the use of forest resources in and adjacent to urban and community areas;

"(7) identifying and managing recreational forest land resources;

"(C) the planning, management, and treatment of forest land, including site preparation, reforestation, thinning, prescribed burning, and other silvicultural activities designed to increase the quantity and improve the quality of timber and other forest resources;

"(D) ensuring that forest regeneration or reforestation occurs if needed to sustain long-term resource productivity;

"(E) protecting and improving forest soil fertility and the quality, quantity, and timing of water yields; and

"(F) encouraging the investment of a portion of the proceeds from the sale of timber or other forest resources in stewardship activities that preserve, protect, maintain, and enhance their forest land.

"(1) develop genetically improved tree seeds;

SEC. 1246. BLUE MOUNTAIN NATURAL RESOURCE INSTITUTE.

(a) FINDINGS.—The Congress finds that—

(1) the forests and rangelands in the States of Washington and Oregon east of the Cascade Crest do not yield their productive capacity of multiple products, services and benefits, yet these forests and rangelands are expected to yield more;

(2) these forests are among the most insect infested and disease infected in North America due to previous management practices, including the exclusion of fire and past management treatments, which have allowed these forests to become overstocked or to succeed to pest-susceptible forest types;

(3) forage productivity of these forests and rangelands is reduced due to the spread of nonactive grasses, juniper, and noxious weeds;

(4) the unprecedented build-up of fuel loads in these forests places them under continual threat of catastrophic fire;

(5) losses due to insects, disease, and fire and reduced productivity of these forests and rangelands have far reaching environmental and economic consequences to local communities and a region entirely dependent on land-based resources; and

(6) concerns over global climate change, water quality and quantity, air quality, fish and wildlife habitat, biodiversity, long-term forest and rangeland health and productivity, welfare of resource-dependent communities and regional economies, catastrophic fire, and scenic quality of landscapes set the dimensions of multifaceted resources issues which are straining the effectiveness of policy makers and land managers.

(b) ESTABLISHMENT OF RESEARCH AND DEMONSTRATION PROGRAM.—The Secretary of Agriculture shall establish, plan, and initiate a research, development, and application program for the forests and rangelands of the States of Oregon and Washington located east of the Cascade Crest which shall address research, development, and application needs of the Blue Mountain area in Washington and

Oregon. The program, through research, technology development and application, and public involvement, shall—

(1) compile and develop basic biological and ecological information to improve forest and rangeland health and vigor;

(2) focus research on joint management and production of timber, wildlife, grazing, fish, water quality, and recreation;

(3) stimulate cooperative research between universities and Federal and State agencies;

(4) identify and evaluate opportunities to enhance the long-term economic and social benefits derived from the region's forest and rangeland resources in concert with county and regional economic strategies;

(5) convert results of research into technology development products and apply new information in a timely manner;

(6) develop technology to guide intensive multiresource management and policy decisions for sustaining long-term productivity and ecological values into the early decades of the 21st century;

(7) develop new technologies that will enable forest and range managers to maximize multiresource benefits and minimize the hazards of fire, insect, and disease outbreaks;

(8) develop forest management practices for use by land managers and landowners that are appropriate at the wildland-urban interface and in concert with public values for these areas;

(9) demonstrate the application of technology and resource knowledge on specific management areas; and

(10) establish mutually beneficial relations with the public to inform them regarding research and technology development and new management directions and to obtain feedback.

(c) **PARTNERSHIP.**—The Secretary of Agriculture shall establish and carry out the program under subsection (b) in consultation and cooperation with Federal, State, and local agencies, universities, and the private sector. without action by the producer that destroys a natural wetland characteristic; or

“(2) for the conversion of—

“(2) such wetland has been frequently cropped prior to the date of such action and the wetland values, acreage, and functions are mitigated by the producer through the restoration of a converted wetland, the conversion of which occurred or was commenced prior to December 23, 1985, where such restoration is—

“(A) in accordance with a restoration plan;

“(B) in advance of, or concurrent with, such action;

“(C) not at the expense of the Federal Government;

“(D) on not greater than a one-for-one acreage basis unless more acreage is needed to provide equivalent functions and values that will be lost as a result of such wetland conversion to be mitigated;

“(E) on lands in the same general area of the local watershed as the converted wetland; and

“(F) with respect to such restored wetland, made subject to an easement to be recorded on public land records, and which shall remain in force for as long as the converted wetland for which the restoration is to mitigate remains in

agricultural use or is not returned to its original wetland classification with equivalent functions and values, and which easement prohibits making alterations to such restored wetland that lower the restored wetland's functions and values; or

"(3) such wetland was converted subsequent to December 23, 1985, but prior to the date of enactment of this section, and the wetland values, acreage, and functions are mitigated by the producer through the restoration of a converted wetland, the conversion of which occurred or was commenced prior to December 23, 1985, if such restoration meets the requirements of subparagraphs (A), (B), (C), (D), (E), and (F) of paragraph (2).

### SEC. 1451. INTEGRATED FARM MANAGEMENT PROGRAM OPTION.

7 USC 5822.

Regulations.

(a) **ESTABLISHMENT.**—The Secretary of Agriculture (hereafter in this section referred to as the "Secretary") shall, by regulation, establish a voluntary program, to be known as the "Integrated Farm Management Program Option" (hereafter referred to in this section as the "program"), designed to assist producers of agricultural commodities in adopting integrated, multiyear, site-specific farm management plans by reducing farm program barriers to resource stewardship practices and systems.

#### (b) DEFINITIONS.—

(1) **IN GENERAL.**—For purposes of this section—

(A) The term "resource-conserving crop" means legumes, legume-grass mixtures, legume-small grain mixtures, legume-grass-small grain mixtures, and alternative crops.

(B) The term "resource-conserving crop rotation" means a crop rotation that includes at least one resource-conserving crop and that reduces erosion, maintains or improves soil fertility and tilth, interrupts pest cycles, or conserves water.

(C) The term "farming operations and practices" includes the integration of crops and crop-plant variety selection, rotation practices, tillage systems, soil conserving and soil building practices, nutrient management strategies, biological control and integrated pest management strategies, livestock production and management systems, animal waste management systems, water and energy conservation measures, and health and safety considerations.

(D) The term "integrated farm management plan" means a comprehensive, multiyear, site-specific plan that meets the requirements of subsection (e).

(2) **CROPS.**—For purposes of paragraph (1)(A)—

(A) The term "grass" means perennial grasses commonly used for haying or grazing.

(B) The term "legume" means forage legumes (such as alfalfa or clover) or any legume grown for use as a forage or green manure, but not including any bean crop from which the seeds are harvested.

(C) The term "small grain" shall not include malting barley or wheat, except for wheat interplanted with other small grain crops for nonhuman consumption.

(D) The term "alternative crops" means experimental and industrial crops grown in arid and semiarid regions that conserve soil and water.

(c) **ELIGIBILITY.**—To be eligible to participate in the program established by this section, a producer must—

- (1) prepare and submit to the Secretary for approval an integrated farm management plan (hereafter referred to in this section as the “plan”);
- (2) actively apply the terms and conditions of the plan, as approved by the Secretary;
- (3) devote to a resource-conserving crop, on the average through the life of the contract, not less than 20 percent of the crop acreage bases enrolled under such program;
- (4) comply with the terms and conditions of any annual acreage limitation program in effect for the crop acreage bases contracted under the terms of this subsection; and
- (5) keep such records as the Secretary may reasonably require.

(d) **ACREAGE.**—In accepting contracts for the program, the Secretary, to the extent practicable, shall enroll not more than 3,000,000, nor more than 5,000,000, acres of cropland in the calendar years 1991 through 1995.

(e) **CONTRACTS.**—The Secretary shall enter into contracts with producers to enroll acreage in the program. Such contracts shall be for a period of not less than 3 years, but may, at the producer's option, be for a longer period of time (up to 5 years) and may be renewed upon mutual agreement between the Secretary and the producer.

(f) **REQUIREMENTS OF THE PLANS.**—Each plan approved by the Secretary shall—

- (1) specify the acreage and the crop acreage bases to be enrolled in the program;
- (2) describe the resource-conserving crop rotation to be implemented and maintained on such acreage during the contract period to fulfill the purposes of the program;
- (3) contain a schedule for the implementation, improvement and maintenance of the resource-conserving crop rotation described in the plan;
- (4) describe the farming operations and practices to be implemented on such acreage and how such operations and practices could reasonably be expected to result in—
  - (A) the maintenance or enhancement of the overall productivity and profitability of the farm;
  - (B) the prevention of the degradation of farmland soils, the long-term improvement of the fertility and physical properties of such soils; and
  - (C) the protection of water supplies from contamination by managing or minimizing agricultural pollutants if their management or minimization results in positive economic and environmental benefits;
- (5) assisting the producer to comply with all Federal, State, and local requirements designed to protect soil, wetland, wildlife habitat, and the quality of groundwater and surface water; and
- (6) contain such other terms as the Secretary may, by regulation, require.

(g) **ADMINISTRATION; CERTIFICATION; TERMINATION.**—

- (1) **ADMINISTRATION; TECHNICAL ASSISTANCE; FLEXIBILITY; IMPLEMENTATION; DISPLACEMENT.**—

(A) **ADMINISTRATION.**—The program shall be administered by the Secretary.

(B) **TECHNICAL ASSISTANCE.**—In administering the program, the Secretary, in consultation with the local conservation districts, and any State or local authorities deemed appropriate by the Secretary, shall provide technical assistance to producers in developing and implementing plans, evaluating the effectiveness of plans, and assessing the costs and benefits of farming operations and practices. The plans may draw on handbooks and technical guides and may also include other practices appropriate to the particular circumstances of the producer and the purposes of the program.

(C) **FLEXIBILITY.**—In administering the program, the Secretary shall provide sufficient flexibility for a producer to adjust or modify the producer's plan consistent with this section, except that such adjustments or modifications must be approved by the Secretary.

(D) **MINIMIZATION OF ADVERSE EFFECT.**—

(i) **IN GENERAL.**—Notwithstanding any other provision of this section, the Secretary shall implement this section in such a manner as to minimize any adverse economic effect on the agribusinesses and other agriculturally related economic interests within any county, State, or region that may result from a decrease of harvested acres due to the operation of this section. In carrying out this section, the Secretary may restrict the total amount of crop acreage that may be removed from production, taking into consideration the total amount of crop acreage that has, or will be, removed from production under other price support, production adjustment, or conservation program activities.

(ii) **MAXIMIZE CONSERVATION GOALS.**—The Secretary shall, to the greatest extent practicable, permit producers on a farm that desire to participate in the program authorized under this section to enroll acreage adequate to maximize conservation goals on such farm and ensure economic effectiveness of the program in each individual application.

(E) **DISPLACEMENT.**—The Secretary shall not approve any plan that will result in the involuntary displacement of farm tenants or lessees by landowners through the removal of substantial portions of the farm from production of a commodity. In the case of any tenant or lessee who has rented or leased the farm (with or without a written option for annual renewal or periodic renewals) for a period of two or more of the immediately preceding years, the Secretary shall consider the refusal by a landlord, without reasonable cause other than simply for the purpose of enrollment in the program, to renew such rental or lease as an involuntary displacement in the absence of a written consent to such nonrenewal by the tenant or lessee.

(2) **CERTIFICATION.**—The Secretary shall certify compliance by producers with the terms and conditions of the plans.

(3) **TERMINATION.**—The Secretary may terminate a contract entered into with a producer under this program if—

(A) the producer agrees to such termination, or

(B) the producer violates the terms and conditions of such contract.

(h) PROGRAM RULES.—

(1) BASE AND YIELD PROTECTION.—Notwithstanding any other provision of law, the Secretary shall not, except as provided in paragraph (6), reduce crop acreage bases, or farm program payment yields, as a result of the planting of a resource-conserving crop as part of a resource-conserving crop rotation.

(2) RESOURCE-CONSERVING CROPS ON REDUCED ACREAGE.—Notwithstanding the provisions of title I of the Agricultural Act of 1949, acreage devoted to resource-conserving crops as part of a resource-conserving crop rotation under this program may also be designated as conservation use acreage for the purpose of fulfilling any provisions under any acreage limitation or land diversion program and up to 50 percent of the acreage so designated shall be without restrictions on haying and grazing, except as provided in paragraph (5)(B), except that such acreage that is devoted to perennial cover on which cost-share assistance for the establishment of the perennial cover has been provided, shall not be credited towards the producer's resource-conserving crop requirement under a contract under this section.

(3) BARLEY, OATS, AND WHEAT.—Notwithstanding any other provisions of this section, barley, oats, or wheat planted as part of a resource-conserving crop on reduced acreage may not be harvested in kernel form.

(4) PAYMENT ACRES.—Notwithstanding any other provision of this Act, the Secretary shall not reduce farm program payments of participants in this program as a result of the planting a resource-conserving crop as part of a resource-conserving crop rotation on payment acres.

(5) HAYING AND GRAZING RESTRICTION.—

(A) IN GENERAL.—The Secretary shall not make any program payments to a producer who is otherwise eligible to receive with respect to acreage enrolled in the program if such producer hays or grazes such acreage (excluding acreage designated as conservation use acreage) during the 5-month period in each State during which haying and grazing of conserving use acres is not allowed under the provisions of the Agricultural Act of 1949, or, if the crop planted on such acreage includes a small grain, before the producer harvests the small grain crop in kernel form.

(B) LIMITATION ON PERMITTED HAYING AND GRAZING.—Notwithstanding any other provision of this section, if the Secretary determines that implementation of this section will result in a significant adverse economic impact on hay or livestock prices in a particular geographic area, the Secretary may limit the quantity of hay that can be harvested or grazed from that area. Such limit may include restrictions on the number of times that hay may be harvested or grazed from the acres per year, the timing of such harvesting and grazing, or the number of years that such land may remain in the same hay stand, or a prohibition on the harvesting or grazing of hay from acres on which a small grain was not originally interplanted with the hay crop and harvested for grain.

(6) **BASE ACRE ADJUSTMENTS.**—The Secretary, only for the purpose of establishing a producer's crop acreage base under the Agricultural Act of 1949, may make such adjustments as the Secretary determines to be fair and equitable to reflect resource-conserving crop rotation practices that were maintained by producers prior to participation in the program and to reflect such other factors as the Secretary determines should be considered, except that the total of such adjustments in any year shall not exceed the total farm program savings in the same year that would result from the implementation of plans.

(7) **PAYMENT ACREAGE LIMITATION.**—

(A) **IN GENERAL.**—No producers enrolled in a resource-conserving crop rotation shall not be eligible to receive payments under farm programs for wheat, feed grains, cotton, or rice under the Agricultural Act of 1949 on acreage equal to the average number of traditionally underplanted acres for the three years prior to enrolling in this program.

(B) **DEFINITION.**—

(i) **IN GENERAL.**—Subject to clause (ii), for the purposes of this paragraph the term “traditionally underplanted acreage” means the difference in a particular year between the acreage that is part of a producer's crop acreage base that is not planted to the program crop and the part of the crop acreage base subject to an acreage limitation program or required to be set aside. In no case shall such acreage be less than zero.

(ii) **EXCEPTION.**—In the case of a producer participating in a particular year in a program authorized under section 101B(c)(1)(B), section 103B(c)(1)(B), section 105A(c)(1)(B), or section 107A(c)(1)(B) of the Agricultural Act of 1949, the term “traditionally underplanted acreage” means 8 percent of the producer's permitted acreage for such year.

All funds so designated for the program established under this section shall remain available until expended.

**SEC. 1544. ASSISTANCE IN FURTHERANCE OF NARCOTICS CONTROL OBJECTIVES OF THE UNITED STATES.**

22 USC 2151x-2.

(b) **DESCRIPTION OF RESTRICTIONS WAIVED.**—The provisions of law made inapplicable by subsection (a) are any other provisions of law that would otherwise restrict the use of economic assistance funds with respect to the production, processing, or marketing of agricultural commodities (or the products thereof) or other products, including sections 521, 546, and 547 (but excluding section 510) of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1990, and comparable provisions of subsequent Acts appropriating funds for foreign operations, export financing, and related programs.

(b) **REPORT TO CONGRESS.**—Not later than 6 months after the date of enactment of this Act, the Secretary shall report the results of the study conducted under subsection (a) to the Congress, together with any recommendation of the Secretary on how the domestic rose and fresh cut flower industry can compete fairly with the practice of consignment sales.

### SEC. 1553. COMMODITY TRANSPORTATION AND TECHNOLOGY ASSESSMENT AND REPORT.

(a) **ASSESSMENT.**—The Secretary of Agriculture shall conduct an assessment of the impact upon prices received by producers, costs to consumers, and the overall effect upon the ability of the United States to fulfill export goals and expand foreign markets for domestic commodities, of the current agricultural transportation situation, focusing especially on rail transportation capabilities including rail abandonments, periodic shortages of adequate rail car equipment suitable for transporting agricultural commodities, and the practice of rail carriers selling in advance certificates of transportation.

(b) **ADDITIONAL REQUIREMENTS.**—In preparing the assessment required by this section, the Secretary shall consult with rail, truck, and waterborne carriers who have experience in the transportation of agricultural commodities, and shall also examine the feasibility of—

(1) providing technical and financial assistance to producers, marketers, and exporters in the design and construction of alternatives to covered rail hopper cars (such as freight containers which could be carried aboard flatbed trucks, flatbed rail cars, river barges, and oceangoing container vessels) for the purpose of transporting bulk commodities to appropriate terminal market facilities; and

(2) encouraging the establishment of a computerized network which would assist producers, marketers, exporters, and carriers in identifying, matching, and coordinating potential cargoes of agricultural commodities with carriers having proper

capabilities and equipment in an effort to expedite transportation needs.

(c) **REPORT.**—Within 240 days after the date of enactment of this Act, the Secretary of Agriculture shall report to the Committee on Agriculture, Nutrition, and Forestry of the Senate and to the Committee on Agriculture of the House of Representatives the results of the assessment conducted under this section, and any recommendations the Secretary may have as a result of such assessment.

**SEC. 1554. REPORT ON SECTION 22 SUSPENSION OR TERMINATION.**

7 USC 624 note.

(a) **REQUIREMENT OF REPORT.**—If section 22 of the Agricultural Adjustment Act (7 U.S.C. 624) is repealed or all measures proclaimed under such section are suspended, the Secretary of Agriculture shall, prior to the effective date of the suspension or termination of any quantitative limitation or fee in effect under that section, report to the Congress.

(b) **CONTENTS OF REPORT.**—The report under subsection (a) shall assess each material consequence of the lifting of such limitation or fee, including the impact on—

- (1) the Farmers Home Administration and agricultural credit in general;
- (2) the prices paid to farmers generally for the affected commodity; and
- (3) United States food security needs.

**SEC. 1555. AGRICULTURAL EXPORTS TO THE EUROPEAN COMMUNITY.**

(a) **FINDINGS.**—The Congress finds that—

(1) the European Community has established a system, as part of its Europe 1992 economic integration plan, to set product standards and requirements, including those related to agricultural commodities and products thereof, and that system has not been transparent insofar as the European Community has refused reasonable requests to allow United States Government or industry experts to observe meetings of European standards-setting institutions;

(2) the European Community is also currently writing the rules by which United States exporters of agricultural commodities and products thereof will be able to show compliance with European Community product standards and requirements, and has refused to guarantee that such United States exporters will be able to show compliance with European Community product standards and requirements by using United States laboratories or through self-certification;

(3) the United States maintains an open, transparent system to set standards and requirements for agricultural commodities and products thereof, and many reciprocal arrangements currently in place allow European Community exporters of agricultural commodities and products thereof to show compliance with United States product standards and requirements by using European Community laboratories or through self-certification;

(4) the value of United States exports of agricultural commodities and products thereof to the European Community in 1989 was \$6,600,000,000, constituting 17 percent of all United States exports of agricultural commodities and products thereof; and

(5) the product standards and testing policies of the European Community are consequently unfair and discriminatory, and have great potential to reduce significantly exports from the United States of agricultural commodities and products thereof.

(b) STATEMENTS OF POLICY.—

(1) The Congress denounces the European Community's nontransparent process of setting standards and requirements for agricultural commodities and products thereof, and the Congress further denounces the refusal by the European Community to guarantee that United States exporters of such commodities and products will be able to show compliance with European Community standards and requirements by using United States laboratories or through self-certification.

(2) The Congress deplores the adverse consequences of the standards and testing policies of the European Community on the bilateral agricultural trade relationship between the United States and the European Community.

(3) The Congress urges the President to use all available means to bring about significant and far-reaching changes in the standards and testing policies of the European Community in order to protect and maintain United States access to the European Community market for agricultural commodities and products thereof.

7 USC 5694 note.

SEC. 1556. LANGUAGE PROFICIENCY AND EVALUATION OF FOREIGN AGRICULTURAL SERVICE OFFICERS.

(a) ASSESSMENT OF FOREIGN LANGUAGE COMPETENCE.—The Foreign Agricultural Service shall revise its evaluation reports for its Foreign Service officers so as to require in a separate entry an assessment of the officer's effectiveness in using, in his or her work, a foreign language or foreign languages tested at the General Professional Speaking Proficiency level or above, in cases where the supervisor is capable of making such an assessment.

(b) PRECEDENCE IN PROMOTION.—The Director of Personnel of the Foreign Agricultural Service shall instruct promotion panels to take account of language ability and, all criteria for promotion otherwise being equal, to give precedence in promotions to officers who have achieved at least the General Professional Speaking Proficiency level in 1 or more foreign languages over officers who lack that level of proficiency.

(c) REPORT TO CONGRESS.—Within 6 months after the effective date of this title, the Administrator of the Foreign Agricultural Service shall submit a report to the Committee on Foreign Affairs, the Committee on Agriculture, and the Committee on Post Office and Civil Service of the House of Representatives, and the Committee on Agriculture, Nutrition, and Forestry of the Senate, which—

(1) details the extent to which, in the 3 years before the effective date of this title, Foreign Service officers of the Foreign Agricultural Service achieved General Professional Speaking Proficiency level in a primary foreign language of the host countries in which they served before arriving in such countries or within 1 year after such arrival; and

(2) makes specific, new proposals to the Congress on how to ensure that at least 75 percent of Foreign Service officers of the Foreign Agricultural Service have achieved General Professional Speaking Proficiency level in a primary foreign language

of the host countries in which they serve before arriving in such countries or within 1 year after such arrival.

**SEC. 1557. REPORTING REQUIREMENTS RELATING TO TOBACCO.**

The Tobacco Adjustment Act of 1983 is amended by inserting after section 213 (7 U.S.C. 511r) the following new section:

**“SEC. 214. REPORTING REQUIREMENTS RELATING TO TOBACCO.**

Records.

industry.  
7 USC 509.

“(b) **SPECIAL RULE.**—Manufacturers of tobacco products shall prepare and maintain records on all finished cigarettes and cigarette ready tobacco. Information contained in such records shall be aggregated on a quarterly basis, certified as accurate by the entity preparing such aggregation, and submitted to the Secretary of Agriculture as provided for in this section. Tobacco manufacturers shall maintain records utilized to prepare the aggregation for a period of 5 years.

“(c) **SCOPE.**—Records maintained under this section shall include the crop year, grade, type, country of origin, poundage, and such other information relating to the tobacco products as the Secretary determines appropriate.

“(d) **REPORTS.**—Records, reports, and aggregations submitted to the Secretary of Agriculture under this section shall be provided by the Secretary to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate, in a timely manner.

“(e) **PENALTY.**—Any exporter who violates the provisions of this section with respect to the provision of false information or the failure to provide required information shall be subject to section 1001 of title 18, United States Code, for each such violation.

“(f) **CONFIDENTIALITY OF INFORMATION.**—The personally identifiable information contained in reports under this section may be withheld in accordance with section 552(b)(4) of title 5, United States Code. Any officer or employee of the Department of Agriculture who knowingly discloses confidential information as defined by section 1905 of title 18, United States Code, shall be subject to section 1905 of title 18, United States Code. Nothing in this subsection shall be construed to authorize the withholding of information from Congress.”.

**SEC. 1558. REPORT ON ORIGIN OF EXPORTS OF PEANUTS.**

7 USC 958.

(a) **EXPORTERS OF PEANUTS.**—Any exporter of raw peanuts, shelled or in shell, shall indicate the country of origin of such peanuts on the export documentation that such exporter is required to complete under other provisions of law.

(b) **COLLECTION OF INFORMATION.**—The Secretary of Agriculture shall collect the information contained on such export documentation and annually report to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate concerning the country of origin of all such peanuts exported from the United States during the calendar year.

(c) **CONFIDENTIALITY OF INFORMATION.**—The personally identifiable information contained in reports under this section may be withheld in accordance with section 552(b)(4) of title 5, United States Code. Any officer or employee of the Department of Agriculture who knowingly discloses confidential information as defined by section 1905 of title 18, United States Code, shall be subject to section 1905 of title 18, United States Code. Nothing in this subsection shall be construed to authorize the withholding of information from Congress.

**SEC. 1559. SENSE OF CONGRESS CONCERNING REBALANCING PROPOSAL OF THE EUROPEAN COMMUNITY.**

(a) **FINDINGS.**—Congress finds that—

(1) the success of the agriculture negotiations under the Uruguay Round of the General Agreement on Tariffs and Trade (GATT) is important to the liberalization of world agricultural trade and the development of the markets for United States commodities;

(2) in order to correct distortions and restrictions in world agricultural markets, the participants in GATT negotiations have committed to substantial and progressive reductions in agricultural protection and support;

(3) the history of establishing more market-oriented trade since World War II has been progressive liberalization through a series of multilateral trade negotiations;

(4) the European Community's proposal to "rebalance" import protections could actually permit the European Community to increase import barriers for some products, including products which have enjoyed barrier free trade status as a result of earlier trade negotiations;

(5) this rebalancing proposal could pose a particularly severe threat to United States exports of corn gluten feed and oilseeds to the European Community, products whose duty-free status the European Community has long sought to undercut; and

(6) the European Community market for United States exports of corn gluten feed and oilseeds has been a successful fixture of United States-European Community trade relations for approximately 30 years, and should not be restricted.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that—

(1) the European Community's proposed rebalancing of import protections is fundamentally at odds with the important goals of liberalizing world agricultural trade and eliminating trade-distorting policies;

(2) such rebalancing could have a particularly severe impact on United States exports of corn gluten feed and oilseeds to the European Community, leaving them vulnerable to unfair treatment and increased trade barriers; and

(3) the United States, throughout the remainder of the Uruguay Round of the GATT negotiations on agriculture, should forcefully reject the European Community's proposal to rebalance import protections.

**SEC. 1560. SENSE OF THE SENATE REGARDING MULTILATERAL TRADE NEGOTIATIONS.**

(a) **IN GENERAL.**—It is the sense of the Senate that the objective of the Uruguay Round of Multilateral Trade Negotiations concerning agricultural trade should be to—

(1) obtain a reform of global agricultural trade and an elimination of the policies and practices that distort agricultural trade; and

(2) to reach an agreement that—

(A) provides United States farmers and agricultural community with the opportunity to compete fairly in international markets;

(B) permits United States farmers to have a safety net to protect them against market instability;

(C) assures consumers of an adequate supply of high quality food and fiber at reasonable prices, both now and in the future; and

(D) assures that humanitarian food needs are met.

(b) CONDUCT OF NEGOTIATIONS.—It is the sense of the Senate that, in conducting the agricultural trade negotiations in the Uruguay Round of Multilateral Trade Negotiations and in meeting the principal negotiating objectives contained in section 1101(b) of the Omnibus Trade and Competitiveness Act of 1988 and in this section, the United States should—

(1) ensure that any agreement—

(A) is beneficial to United States agricultural producers and businesses;

(B) does not leave an individual commodity vulnerable to unfair treatment or increased barriers and that the various sectors of United States agriculture receive equitable and fair treatment;

(C) permits countries to provide income support and stability from the vagaries of the market directly or indirectly through self-help efforts;

(D) provides a period of adjustment in cases where the reduction or elimination of trade barriers or subsidies would cause industry adjustment and resource reallocation; and

(E) does not sacrifice the interests of the agricultural sector for other sectors of the United States economy;

(2) seek the immediate elimination of all export subsidies that are conditioned on the export of agricultural commodities and products, except bona fide food aid;

(3) not enter into any self-executing agreement that would unduly restrict the authority of the United States to provide for the stabilization of its agricultural economy;

(4) not enter into any agreement that would have the effect of repealing or materially interfering with any existing legal authority designed to promote or protect any domestic agricultural program, the purpose of which is to stabilize prices, or eliminate any existing waiver granted to the United States under the General Agreement on Tariffs and Trade permitting the imposition of quantitative limitations on the entry of commodities into the United States unless the agreement meets the objectives described in this section; and

(5) ensure that any provision for special and differential treatment for developing countries contains guidelines and limitations providing for the phasing out of such treatment as such countries become more competitive.

## **Subtitle F—Conforming Provisions and Technical Changes**

### **SEC. 1571. AMENDMENTS TO THE OMNIBUS TRADE AND COMPETITIVENESS ACT OF 1988.**

(hereafter in this subsection referred to as an ‘eligible household’) shall be issued monthly allotments following the rules and procedures of programs under part A of title IV of the Social Security Act, and without regard to the eligibility, benefit, and administrative rules established under this Act other than those terms and conditions specified under this subsection or established by the Secretary to ensure program integrity.

“(2) In carrying out the demonstration projects, the Secretary shall ensure the following:

“(A) The third sentence of section 3(i), subsections (b) and (d)(2) of section 6, the first sentence of section 6(c), paragraphs (1)(B), (3), (4), and (9) of section 11(e), and all applicable provi-

“(F) Uninterrupted food stamp assistance shall be provided to households who become ineligible to receive the assistance under this subsection but are determined otherwise eligible for food stamp assistance and to households receiving food stamp assistance other than under this subsection who are determined eligible under this subsection.

“(G) Any other requirements and administrative procedures equivalent to those applicable under part A of title IV of the Social Security Act (42 U.S.C. 601 et seq.) may be used in implementing the demonstration projects required under this subsection, if the Secretary determines that the requirements or procedures further the purposes of this subsection and do not undermine program integrity.

“(3) In establishing the projects, the Secretary shall solicit proposals from, and consult with, interested State and local agencies and shall consult with the Secretary of Health and Human Services on waivers of Federal rules under part A of title IV of the Social Security Act that would assist in carrying out the projects required under this subsection.

“(2) In establishing the wetland conservation easements on land that is considered to be cropland as of the date of enactment of this subsection, the Secretary shall avoid, to the extent practicable, an adverse impact on the productivity of the croplands, as provided in this subsection.

“(3) In order to avoid the adverse impact, the Secretary shall—

“(A) not establish the wetland conservation easements with respect to wetlands that were converted prior to December 23, 1985, and that have been in cropland use, as determined by the Secretary, in excess of 10 percent of the existing cropland available for production of agricultural commodities on the particular parcel of inventoried property;

“(D) ensure that access to other portions of the property for farming and other uses is provided.

“(4) The wetland conservation easements shall be placed on wetlands that have a history of haying and grazing, as determined by the Secretary, except that in no case shall the quantity of the wetland subject to the easements exceed 50 percent of the existing forage lands on the parcel of inventoried property. All haying and grazing practices on the wetlands (including the timing and intensity of haying and grazing) shall conform to forage management standards designed to protect wetlands.

being a marketable agricultural production unit that is comparable to the parcel as acquired, the Secretary may—

“(6) The Secretary shall provide prior written notification to a borrower considering preservation loan servicing that a wetlands conservation easement may be placed on land for which the borrower is negotiating a lease option.

“(7) The appraised value of the farm shall reflect the value of the land due to the placement of wetland conservation easements.

(ii) the costs and benefits associated with the making of such inventory land subject to such an easement.

7 USC 6101 note.

### Subtitle B—Mushrooms

#### SEC. 1921. SHORT TITLE.

This subtitle may be cited as the “Mushroom Promotion, Research, and Consumer Information Act of 1990”.

## SEC. 1922. FINDINGS AND DECLARATION OF POLICY.

7 USC 6101.

## (a) FINDINGS.—Congress finds that—

(1) mushrooms are an important food that is a valuable part of the human diet;

(2) the production of mushrooms plays a significant role in the Nation's economy in that mushrooms are produced by hundreds of mushroom producers, distributed through thousands of wholesale and retail outlets, and consumed by millions of people throughout the United States and foreign countries;

(3) mushroom production benefits the environment by efficiently using agricultural byproducts;

(4) mushrooms must be high quality, readily available, handled properly, and marketed efficiently to ensure that the benefits of this important product are available to the people of the United States;

(5) the maintenance and expansion of existing markets and uses, and the development of new markets and uses, for mushrooms are vital to the welfare of producers and those concerned with marketing and using mushrooms, as well as to the agricultural economy of the Nation;

(6) the cooperative development, financing, and implementation of a coordinated program of mushroom promotion, research, and consumer information are necessary to maintain and expand existing markets for mushrooms; and

(7) mushrooms move in interstate and foreign commerce, and mushrooms that do not move in such channels of commerce directly burden or affect interstate commerce in mushrooms.

(2) the production of soybeans plays a significant role in the economy of the United States in that soybeans are produced by thousands of soybean producers, processed by numerous processing entities, and soybeans and soybean products produced in the United States are consumed by people and livestock throughout the United States and foreign countries;

(3) soybeans and soybean products should be readily available and marketed efficiently to ensure that consumers have an adequate supply of soybean products at a reasonable price;

(4) the maintenance and expansion of existing markets and development of new markets for soybeans and soybean products are vital to the welfare of soybean producers and processors and those concerned with marketing soybeans and soybean products, as well as to the general economy of the United States, and are necessary to ensure the ready availability and efficient marketing of soybeans and soybean products;

(5) there exist established State and national organizations conducting soybean promotion, research, and consumer education programs that are valuable to the efforts of promoting the consumption of soybeans and soybean products;

(6) the cooperative development, financing, and implementation of a coordinated national program of soybean promotion, research, consumer information, and industry information are necessary to maintain and expand existing markets and develop new markets for soybeans and soybean products; and

(7) soybeans and soybean products move in interstate and foreign commerce, and soybeans and soybean products that do not move in such channels of commerce directly burden or affect interstate commerce in soybeans and soybean products.

(b) POLICY.—Congress declares that it is in the public interest to authorize the establishment, through the exercise of the powers provided in this subtitle, of an orderly procedure for developing, financing through assessments on domestically-produced soybeans, and implementing a program of promotion, research, consumer information, and industry information designed to strengthen the soybean industry's position in the marketplace, to maintain and expand existing domestic and foreign markets and uses for soybeans and soybean products, and to develop new markets and uses for soybeans and soybean products.

(2) **SEATS.**—The Secretary shall establish State units and combined units and seats on the Board for such units, as follows:

(A) **STATE UNITS.**—Except as provided in subparagraph (B), each State shall be considered as a unit.

(B) **COMBINED UNITS.**—A State in which average annual soybean production is less than 3,000,000 bushels shall be grouped with other States into a combined unit. To the extent practicable, each State with average annual soybean production of less than 3,000,000 bushels shall be grouped with other States with average annual soybean production of less than 3,000,000 bushels into a combined unit, in a manner prescribed in the order, and each combined unit shall consist of geographically contiguous States. To the extent practicable, each combined unit shall have an average annual production of soybeans of at least 3,000,000 bushels.

(C) **NUMBER OF SEATS PER UNIT.**—Subject to subparagraph (F), each unit, as established under subparagraph (A) or (B)—

(ii) BY BOARD.—During the period referred to in clause (i), refunds shall be provided equally from the Board and, where applicable, the qualified State soybean board, as determined by the Secretary.

(B) ADMINISTRATION.—Subject to subparagraph (C)(i), any demand by a producer for a refund of an assessment under this paragraph shall be made in accordance with regulations, on a form, and within the time period (not to exceed 90 days) prescribed by the Board.

## (C) SUBMISSION OF REFUND DEMANDS.—

(i) IN GENERAL.—In each State in which a qualified State soybean board collects assessments, as provided

in paragraph (1)(A)(i), producers shall submit demands for refunds of assessments to the qualified State soybean board. Such board shall provide notice to producers, in a manner prescribed by the Board, of their right to such refunds, and shall process such submissions under procedures established by State law applicable to refunds of assessments on soybeans, except that if no refunds are allowed under State law, such submissions shall be processed under procedures established under this paragraph.

(ii) **NO QUALIFIED STATE SOYBEAN BOARD.**—In each State in which there is no qualified State soybean board, producers shall submit demands for refunds of assessments directly to the Board.

(D) **TIME LIMIT FOR MAKING REFUND.**—Subject to subparagraph (C)(i), each refund to a producer of an assessment under this paragraph shall be made as soon as practicable, but in no event more than 60 days, after submission of proof satisfactory to the qualified State soybean board or the Board that the producer paid the assessment for which refund is demanded.

(E) **ORDER NOT FAVORED.**—If the Secretary determines that producers do not favor the continuation of the order in the referendum provided for in section 1970(a), refunds shall be made under this paragraph on collected assessments until such collections are terminated, as provided in section 1970(a).

(F) **REFUNDS AFTER THE INITIAL REFERENDUM.**—

(i) **IN GENERAL.**—The order shall contain provisions relating to refunds after the approval of the order in the initial referendum under section 1970(a) as required in this subparagraph.

(ii) **AVAILABILITY.**—Effective for the period beginning on the date the Secretary determines the result of the initial referendum under section 1970(a) and ending on a date (not later than 18 months thereafter) established by the Secretary, the qualified State soybean board and, where no qualified State soybean board exists, the Board shall make refunds available to soybean producers at the end of the fiscal year from escrowed funds, as provided for in clause (vii). Such refunds shall be made available, under the procedures specified in subparagraphs (A) through (D) to the extent not inconsistent with this subparagraph, to producers who have requested refunds during such period.

(iii) **POLL.**—Not later than the end of the period provided for in clause (ii), the Secretary shall conduct a poll of soybean producers, using the procedures provided for in section 1970(b)(3), to determine if producers support the conduct of a referendum on the continuance of the payment of refunds under the order.

(iv) **REFERENDUM.**—If the Secretary determines, based on the poll conducted under clause (iii), that the conduct of a referendum is supported by at least 20 percent of the producers (not in excess of one-fifth of which may be producers in any one State) who, during a representative period, have been engaged in the

production of soybeans, the Secretary shall conduct a referendum among all such producers for the purpose of determining whether such producers favor the continuation of the payment of refunds under the order. Such referendum shall be conducted, under the procedures provided for in section 1970, not later than 1 year after the Secretary determines, based on the poll, that the referendum is required.

(v) **CONTINUED REFUNDS.**—If the Secretary conducts a referendum under clause (iv), the qualified State soybean board and, where no qualified State soybean board exists, the Board shall continue to make refunds available to producers as provided for in clause (ii) during the period prior to the conduct of the referendum, which shall be payable at the end of the period from the escrowed funds, as provided in clause (vii).

(vi) **CONTINUATION OR CESSATION OF REFUNDS.**—If the Secretary determines, in the referendum conducted under clause (iv), that continuation of the payment of refunds is favored by a majority of the producers voting in such referendum, the qualified State soybean board and, where no qualified State soybean board exists, the Board shall continue to make refunds available to producers as provided for in clause (ii) for each 1-year period that follows until such time as soybean producers approve an amendment to the order to eliminate such refunds. Such refunds shall be payable at the end of each such 1-year period from escrowed funds, as provided in clause (vii). If the Secretary determines in the referendum that continuation of such refunds is not favored by a majority of producers voting in the referendum, the right to such refunds shall cease immediately.

(vii) **ESCROW ACCOUNTS.**—

(I) **ESTABLISHMENT.**—The qualified State soybean board and, for producers in States where no qualified State soybean board exists, the Board shall establish escrow accounts to be used to pay refunds under clause (ii) and, if necessary, clauses (v) and (vi).

(II) **SEPARATE ACCOUNTS.**—The qualified State soybean board and, where no qualified State soybean board exists, the Board shall establish separate escrow accounts for each State from which producer assessments are collected for the purpose of making refunds under clauses (ii), (v), and (vi), respectively.

(III) **DEPOSITS.**—The qualified State soybean board and, where no qualified State soybean board exists, the Board shall deposit into its escrow account for refunds under clause (ii), (v), or (vi), as appropriate, 10 percent of the total assessment collected by the qualified State soybean board and, where no qualified State soybean board exists, the Board (including the assessment provided under paragraph (2) and contributions by producers to

qualified State soybean boards under paragraph (4)), during the time period involved.

(IV) REFUNDS MADE FROM ESCROW ACCOUNT.—Refunds requested by producers from a State under clause (ii) (or if refunds are available under clause (v) or (vi)) during the time period involved shall be made from the escrow account that is applicable to that clause for such State.

(V) PRORATION.—If the funds deposited in a State account established under subclause (I) for purposes described under clauses (ii), (v), and (vi) are not sufficient to honor all requests for refunds made by producers from that State during the time period involved, the qualified State soybean board and, where no qualified State soybean board exists, the Board shall prorate the amount of such refunds from the State's account among all producers from that State that requests refunds.

(VI) SURPLUS FUNDS.—Any funds not refunded to producers in a State under this clause shall be divided equally between the Board and the qualified State soybean board of such State. Such funds shall be used to carry out programs under this subtitle.

(VII) REFUND PERIOD.—In applying this clause to refunds under clause (vi), each annual refund period shall be treated separately.

(3) USE.—The assessments (net of any refunds under paragraph (2)) shall be used for—

(A) payment of the expenses incurred in implementation and administration of the order;

(B) the establishment of a reasonable reserve; and

(C) reimbursement to the Secretary of administrative costs incurred by the Secretary to implement and administer the order, other than one-half of the cost incurred for the referendum conducted under paragraph (2)(F).

For purposes of this subtitle, there shall be only one qualified State soybean board in each State. A producer may receive a credit under this paragraph only if the contribution is to the qualified State soybean board in the State in which the soybeans are produced, except that the Board, with the approval of the Secretary, may authorize exceptions to such State-of-origin rule as are appropriate to ensure effective coordination of collection procedures among States.

(5) SINGLE PROCESS OF ASSESSMENT.—The procedures in the order for the collection of assessments shall ensure, to the extent practicable, that such soybeans are subject to a single process of assessment under the order.

(m) CREDIT FOR CERTAIN COSTS TO STATES.—The order shall provide that the Board may provide a credit to each qualified State soybean

board of an amount not to exceed one-half of any fees paid to State governmental agencies or first purchasers for collection of the assessments if the payment of such fees by the qualified State soybean board is required by State law enacted prior to the date of enactment of this Act, except that the Board may not provide a credit to any qualified State soybean board of an amount that exceeds 2.5 percent of the amount of assessments collected and remitted to the Board under subsection (1).

(n) MINIMUM LEVEL OF ASSESSMENTS TO STATES.—

(1) PRE-REFERENDUM PERIOD.—The order shall contain provisions to ensure that, during the period prior to the conduct of the referendum provided for in section 1970(a), each qualified State soybean board receives annually an amount of funds equal to the average amount that the State board collected from assessments during each of the State board's fiscal years 1984 through 1988 (excluding the year in which such collections were the highest and the year in which such collections were the lowest), as determined by the Secretary and subject to paragraph (3).

(2) POST-REFERENDUM PERIOD.—The order shall provide, effective after the conduct of the referendum provided for in section 1970(a), subject to paragraph (3), that the Board annually shall provide a credit to each qualified State soybean board of an amount by which—

(A) the amount equal to 1 cent times the average number of bushels of soybeans produced in the State during each of the preceding 5 years (excluding the year in which the production is the highest and the year in which the production is the lowest); exceeds

(B) the total amount collected by the qualified State soybean board from assessments on producers minus the amount of assessments remitted to the Board during such year under subsection (1).

(3) LIMITATION.—The total amount of credits under paragraph (1) or (2) and assessments retained by the qualified State soybean board for a year may not exceed the total amount of assessments collected in that State under subsection (1) (net of any refunds made under paragraph (2) of subsection (1)) in that year.

(C) any action designed to market soybeans or soybean products directly to a foreign government or political subdivision thereof.

(q) **BOOKS AND RECORDS OF FIRST PURCHASERS AND CERTAIN PRODUCERS.**—

(1) **RECORDKEEPING.**—

(A) **IN GENERAL.**—The order shall require that each first purchaser of soybeans and any person processing soybeans of that person's own production maintain and make available for inspection by the Board or the Secretary such books and records as may be required by the order and file reports at the time, in the manner, and having the content prescribed by the order. The order shall exempt small producers processing soybeans of their own production from such recordkeeping and reporting requirements if they are not required to pay assessments under the order.

(ii) the publication, by direction of the Secretary, of the name of any person violating any order, together with a statement of the particular provisions of the order violated by such person.

(4) **PENALTY.**—Any person who willfully violates the provisions of this subsection, upon conviction, shall be subject to a fine of not more than \$1,000, or to imprisonment for not more than one year, or both, and if a member or an agent of the Board; or an officer or employee of the Department, shall be removed from office.

## Subtitle I—Miscellaneous Provisions

### SEC. 1999S. PRODUCER RESEARCH AND PROMOTION BOARD ACCOUNTABILITY.

#### (a) FINDINGS.—Congress finds that—

(1) United States agricultural producers and importers contribute approximately \$600,000,000 annually to support agricultural promotion and research, and consumer information relating to food and nutrition, under federally-authorized check-off programs;

(2) these federally-authorized checkoff programs are self-help efforts that enable the industry members that contribute to these checkoff programs to take an active role in enhancing the marketing of their farm products;

(3) the federally-authorized checkoff programs, while relatively new, have substantially contributed to strengthening markets for the agricultural products covered by the programs;

(4) the authorizing legislation for these agricultural check-off programs provides for the Secretary of Agriculture to appoint boards or councils comprised of producers and importers to assist the Secretary in administering the programs under the Secretary's oversight;

(5) the boards and councils that participate in administering the federally-authorized checkoff programs, in each instance, have important responsibilities under, and make substantial contributions to the effective management of, the programs while serving as a valuable link between the industry members that are funding the promotion, research, and information activities under the programs and the Department of Agriculture;

(6) the producers and importers that pay assessments to support the programs must have confidence in, and strongly support, the checkoff programs if these programs are to continue to succeed; and

(7) the checkoff programs cannot operate efficiently and effectively, nor can producer confidence and support for these programs be maintained, unless the boards and councils faithfully and diligently perform the functions assigned to them under the authorizing legislation.

(b) SENSE OF THE CONGRESS.—It is the sense of Congress that, to ensure the continued success of the federally-authorized checkoff programs, boards or councils that participate in the administration of the checkoff programs should take care to faithfully and diligently perform the functions assigned to them under the authorizing legislation and otherwise meet their crucial program responsibilities. It further is the sense of Congress that each of these boards and councils, in carrying out the responsibilities assigned to it, is accountable to the Secretary of Agriculture, Congress, and the industry contributing funds for the checkoff program involved, and that each currently operational checkoff board or council should review its charter and activities to ensure that its responsibilities and duties have not been inappropriately delegated or otherwise relinquished to another organization.

(B) for tobacco, the national average loan rate for the type of tobacco involved, or (if there is none) the market price, as determined under section 2244(a)(2); and

(C) for sugar beets and sugarcane, a level determined by the Secretary to be fair and reasonable in relation to the level of price support established for the 1990 crops of sugar beets and sugarcane, and that, insofar as is practicable, shall reflect no less return to the producer than under the 1990 price support levels.

(b) **PREVENTED PLANTING CREDIT.**—

(1) **IN GENERAL.**—The Secretary shall provide prevented planting credit under subsection (a) with respect to acreage that producers on a farm were prevented from planting to the 1990 crop of the commodity for harvest because of damaging weather or related condition in 1989 or 1990, as determined by the Secretary.

(2) **MAXIMUM ACREAGE.**—Such acreage may not exceed the greater of—

(A) a quantity equal to the acreage on the farm planted (or prevented from being planted due to a natural disaster or other condition beyond the control of the producers) to the commodity for harvest in 1989 minus acreage actually planted to harvest in 1990; or

(B) a quantity equal to the average of the acreage on the farm planted (or prevented from being planted due to a natural disaster or other condition beyond the control of the producers) to the commodity for harvest in 1987, 1988, and 1989 minus acreage actually planted to the commodity for harvest in 1990.

(d) **SPECIAL RULES FOR PEANUTS.**—Notwithstanding any other provision of law—

(1) a deficiency in production of quota peanuts from a farm, as otherwise determined under this section, shall be reduced by the quantity of peanut poundage quota that was the basis of such anticipated production that has been transferred from the farm;

(2) payments made under this section shall be made taking into account whether the deficiency for which the deficiency in production is claimed was a deficiency in production of quota or additional peanuts and the payment rate shall be established accordingly; and

(3) the quantity of undermarketings of quota peanuts from a farm for the 1990 crop that may otherwise be claimed under section 358 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1358) for purposes of future quota increases shall be reduced by the quantity of the deficiency of production of such peanuts for which payment has been received under this section.

(e) **SPECIAL RULES FOR TOBACCO.**—Notwithstanding any other provision of law—

(1) the quantity of undermarketings of quota tobacco from a farm for the 1990 crop that may otherwise be claimed under section 317 or 319 of the Agricultural Adjustment Act of 1938 (7 U.S.C. 1314c or 1314e) for purposes of future quota increases shall be reduced by the quantity of the deficiency of production of such tobacco for which payment has been received under this section; and

**(a) DISASTER PAYMENTS.—**

**(1) IN GENERAL.—**

**(A) ELIGIBILITY.**—Effective only for the 1990 crops of soybeans and nonprogram crops, to the extent that assistance was not made available under the Disaster Assistance Act of 1989 for a producer's losses, if the Secretary of Agriculture determines that, because of damaging weather or related condition in 1989 or 1990, the total quantity of the 1990 crop of the commodity that the producers on a farm are able to harvest is less than—

(i) with respect to soybeans and sunflowers, the result of multiplying 60 percent (or in the case of producers who obtained crop insurance, if available, for the 1990 crop year of the commodity under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.), 65 percent) of the State, area, or county yield, adjusted for adverse weather conditions during the 1987, 1988, and 1989 crop years, as determined by the Secretary, for such crop by the sum of the acreage planted for harvest and the acreage for which prevented planting credit is approved by the Secretary for such crop under subsection (b);

(ii) with respect to nonprogram crops (other than as provided in clauses (i) and (iii)), the result of multiplying 60 percent (or in the case of producers who obtained crop insurance, if available, for the 1990 crop year of the commodity under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.), 65 percent) of the yield established by the Commodity Credit Corporation under subsection (d)(2) for such crop by the sum of the acreage planted for harvest and the acreage for which prevented planting credit is approved by the Secretary for such crop under subsection (b); and

(iii) with respect to crops covered in section 201(b) of the Agricultural Act of 1949 (7 U.S.C. 1446(b)), 60 percent (or in the case of producers who obtained crop insurance, if available, for the 1990 crop year of the commodity under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.), 65 percent) of the historical annual

yield of the producers for such crops, as determined by the Secretary, the Secretary shall make a disaster payment available to such producers.

(B) **PAYMENT RATE.**—The payment shall be made to such producers at a rate equal to 65 percent of the applicable payment level under paragraph (2), as determined by the Secretary, for any deficiency in production greater than 40 percent for soybeans, sunflowers and for other nonprogram crops for the crop, except that in the case of producers who obtained crop insurance, if available, for the 1990 crop under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.), 35.

(2) **PAYMENT LEVEL.**—For purposes of paragraph (1), the payment level for a commodity shall equal the simple average price received by producers of the commodity, as determined by the Secretary subject to paragraph (3), during the marketing years for the immediately preceding 5 crops of the commodity, excluding the year in which the average price was the highest and the year in which the average price was the lowest in such period.

(3) **CALCULATION OF PAYMENTS FOR DIFFERENT VARIETIES.**—

(A) **CROP-BY-CROP BASIS.**—The Secretary shall make disaster payments under this subsection on a crop-by-crop basis, with consideration given to markets and uses of the crops, under regulations issued by the Secretary.

(B) **DIFFERENT VARIETIES.**—For purposes of determining the payment levels on a crop-by-crop basis, the Secretary shall consider as separate crops, and develop separate payment levels insofar as is practicable for, different varieties of the same commodity, and commodities for which there is a significant difference in the economic value in the market.

(C) **DOUBLE CROPPING.**—

(i) **TREATED SEPARATELY.**—In the case of a crop that is historically double cropped (including two crops of the same commodity) by the producers on a farm, the Secretary shall treat each cropping separately for purposes of determining whether the crop was affected by damaging weather or related conditions and the total quantity of the crop that the producers are able to harvest.

(ii) **APPLICATION OF PARAGRAPH.**—This paragraph shall not apply in the case of a replacement crop.

(4) **EXCLUSIONS FROM HARVESTED QUANTITIES.**—For purposes of determining the total quantity of the 1990 nonprogram crop of the commodity that the producers on a farm are able to harvest under paragraph (1), the Secretary shall exclude—

(A) commodities that cannot be sold in normal commercial channels of trade; and

(B) dockage, including husks and shells, if such dockage is excluded in determining yields under subsection (d)(2).

(b) **PREVENTED PLANTING CREDIT.**—

(1) **IN GENERAL.**—The Secretary shall provide prevented planting credit under subsection (a) with respect to acreage that producers on a farm were prevented from planting to the 1990 crop of the commodity for harvest because of damaging weather

Regulations.

or related condition in 1989 or 1990, as determined by the Secretary.

(2) **MAXIMUM ACREAGE.**—Such acreage may not exceed the greater of—

(A) a quantity equal to the acreage on the farm planted (or prevented from being planted due to a natural disaster or other condition beyond the control of the producers) to the commodity for harvest in 1989 minus acreage actually planted for harvest in 1990; or

(B) a quantity equal to the average of the acreage on the farm planted (or prevented from being planted due to a natural disaster or other condition beyond the control of the producers) to the commodity for harvest in 1987, 1988, and 1989 minus acreage actually planted to the commodity for harvest in 1990.

(3) **ADJUSTMENTS.**—The Secretary shall make appropriate adjustments in applying the limitations contained in paragraph

(2) to take into account crop rotation practices of the producers.

(c) **LIMITATION.**—Payments provided under subsection (a) for a crop of a commodity may not be made available to the producers on a farm unless such producers enter into an agreement to obtain multiperil crop insurance, to the extent required under section 2247.

(d) **SPECIAL RULES FOR NONPROGRAM CROPS.**—

(1) **DEFINITION OF NONPROGRAM CROP.**—As used in this section, the term “nonprogram crop” means all crops for which crop insurance through the Federal Crop Insurance Corporation was available for crop year 1990, and other commercial crops (including ornamentals which shall include flowering shrubs, flowering trees, and field or container grown roses or turf and sweet potatoes for which such insurance was not available for crop year 1990), except that such term shall not include a crop covered under section 2241, 2242, or 2243, soybeans, or sunflowers.

(2) **FARM YIELDS.**—

(A) **ESTABLISHMENT.**—The Commodity Credit Corporation shall establish disaster program farm yields for nonprogram crops to carry out this section.

(B) **PROVEN YIELDS AVAILABLE.**—If the producers on a farm can provide satisfactory evidence to the Commodity Credit Corporation of actual crop yields on the farm for at least 1 of the immediately preceding 3 crop years, the yield for the farm shall be based on such proven yield.

(C) **PROVEN YIELDS NOT AVAILABLE.**—If such data do not exist for any of the 3 preceding crop years, the Commodity Credit Corporation shall establish a yield for the farm by using a county average yield for the commodity, or by using other data available to it.

(D) **COUNTY AVERAGE YIELDS.**—In establishing county average yields for nonprogram crops, the Commodity Credit Corporation shall use the best available information concerning yields. Such information may include extension service records, credible nongovernmental studies, and yields in similar counties.

(3) **RESPONSIBILITY OF PRODUCERS.**—It shall be the responsibility of the producers of nonprogram crops to provide satisfactory evidence of 1990 crop losses resulting from damaging weather or

related condition in 1989 or 1990 in order for such producers to obtain disaster payments under this section.

**SEC. 2245. CROP QUALITY REDUCTION DISASTER PAYMENTS.**

(a) **IN GENERAL.**—To ensure that all producers of 1990 crops covered under sections 2241 through 2244 are treated equitably, the Secretary of Agriculture may make additional disaster payments to producers of such crops who suffer losses resulting from the reduced quality of such crops caused by damaging weather or related condition in 1989 or 1990, as determined by the Secretary.

(b) **ELIGIBLE PRODUCERS.**—If the Secretary determines to make crop quality disaster payments available to producers under subsection (a), producers on a farm of a crop described in subsection (a) shall be eligible to receive reduced quality disaster payments only if such producers incur a deficiency in production of not less than 35 percent and not more than 75 percent for such crop (as determined under section 2241, 2242, 2243, or 2244, as appropriate).

(c) **MAXIMUM PAYMENT RATE.**—The Secretary shall establish the reduced quality disaster payment rate, except that such rate shall not exceed 10 percent, as determined by the Secretary, of—

(1) the established price for the crop, for commodities covered under section 2241;

(2) the basic county loan rate for the crop (or a comparable price if there is no current basic county loan rate), for commodities covered under section 2242;

(3) the payment level under section 2243(a)(3), for commodities covered by section 2243; and

(4) the payment level under section 2244(a)(2), for commodities covered under section 2244.

(d) **DETERMINATION OF PAYMENT.**—The amount of payment to a producer under this section shall be determined by multiplying the payment rate established under subsection (c) by the portion of the actual harvested crop on the producer's farm that is reduced in quality by such natural disaster in 1989 or 1990, as determined by the Secretary.

**SEC. 2246. EFFECT OF FEDERAL CROP INSURANCE PAYMENTS.**

In the case of producers on a farm who obtained crop insurance for the 1990 crop of a commodity under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.), the Secretary of Agriculture shall reduce the amount of payments made available under this chapter for such crop to the extent that the amount determined by adding the net amount of crop insurance indemnity payment (gross indemnity less premium paid) received by such producers for the deficiency in the production of the crop and the disaster payment determined in accordance with this chapter for such crop exceeds the amount determined by multiplying—

(1) 100 percent of the yield used for the calculation of disaster payments made under this chapter for such crop; by

(2) the sum of the acreage of such crop planted to harvest and the acreage for which prevented planting credit is approved by the Secretary (or, in the case of disaster payments under section 2241, the eligible acreage established under sections 2241(a)(1) and 2241(a)(2)(A)); by

(3)(A) in the case of producers who participated in a production adjustment program for the 1990 crop of wheat, feed grains,

upland cotton, extra long staple cotton, or rice, the established price for the 1990 crop of the commodity;

(B) in the case of producers who did not participate in a production adjustment program for the 1990 crop of wheat, feed grains, upland cotton, extra long staple cotton, or rice, the basic county loan rate (or a comparable price, as determined by the Secretary, if there is no current basic county loan rate) for the 1990 crop of the commodity;

(C) in the case of producers of sugar beets, sugarcane, peanuts, or tobacco, the payment level for the commodity established under section 2243(a)(3); and

(D) in the case of producers of soybeans or a nonprogram crop (as defined in section 2244(d)(1)), the simple average price received by producers of the commodity, as determined by the Secretary, during the marketing years for the immediately preceding 5 crops of the commodity, excluding the year in which the average price was the highest and the year in which the average price was the lowest in such period.

#### SEC. 2247. CROP INSURANCE COVERAGE FOR THE 1991 CROPS.

(a) **REQUIREMENT.**—Subject to the limitations under subsection (b), producers on a farm, to be eligible to receive a disaster payment under this chapter, an emergency loan under subtitle C of the Consolidated Farm and Rural Development Act (7 U.S.C. 1961 et seq.) for crop losses due to damaging weather or related condition in 1989 or 1990, or forgiveness of the repayment of advance deficiency payments under section 2241(b), must agree to obtain multiperil crop insurance under the Federal Crop Insurance Act (7 U.S.C. 1501 et seq.) for the 1991 crop of the commodity for which such payments, loans, or forgiveness are sought.

(b) **LIMITATIONS.**—Producers on a farm shall not be required to agree to obtain crop insurance under subsection (a) for a commodity—

(1) unless such producers' deficiency in production, with respect to the crop for which a disaster payment under this chapter otherwise may be made, exceeds 65 percent;

(2) where, or if, crop insurance coverage is not available to the producers for the commodity for which the payment, loan, or forgiveness is sought;

(3) if the producers' annual premium rate for such crop insurance is an amount greater than 125 percent of the average premium rate for insurance on that commodity for the 1990 crop in the county in which the producers are located;

(4) in any case in which the producers' annual premium for such crop insurance is an amount greater than 25 percent of the amount of the payment, loan, or forgiveness sought; or

(5) if the producers can establish by appeal to the county committee established under section 8(b) of the Soil Conservation and Domestic Allotment Act (16 U.S.C. 590(b)), or to the county committee established under section 332 of the Consolidated Farm and Rural Development Act (17 U.S.C. 1982), as appropriate, that the purchase of crop insurance would impose an undue financial hardship on such producers and that a waiver of the requirement to obtain crop insurance should, in the discretion of the county committee, be granted.

(c) **IMPLEMENTATION.**—

(1) **COUNTY COMMITTEES.**—The Secretary of Agriculture shall ensure (acting through the county committees established under section 8(b) of the Soil Conservation and Domestic Allotment Act and located in the counties in which the assistance programs provided for under sections 2241 through 2245 are implemented and through the county committees established under section 332 of the Consolidated Farm and Rural Development Act in counties in which emergency loans, as described in subsection (a), are made available) that producers who apply for assistance, as described in subsection (a), obtain multiperil crop insurance as required under this section.

(2) **OTHER SOURCES.**—Each producer who is subject to the requirements of this section may comply with such requirements by providing evidence of multiperil crop insurance coverage from sources other than through the county committee office, as approved by the Secretary.

Regulations.  
Brokers.

(3) **COMMISSIONS.**—The Secretary shall provide by regulation for a reduction in the commissions paid to private insurance agents, brokers, or companies on crop insurance contracts entered into under this section sufficient to reflect that such insurance contracts principally involve only a servicing function to be performed by the agent, broker, or company.

(d) **REPAYMENT OF BENEFITS.**—Notwithstanding any other provision of law, if (prior to the end of the 1991 crop year for the commodity involved) the crop insurance coverage required of the producer under this section is canceled by the producer, the producer—

(1) shall make immediate repayment to the Secretary of any disaster payment or forgiven advance deficiency payment that the producer otherwise is required to repay; and

(2) shall become immediately liable for full repayment of all principal and interest outstanding on any emergency loan described in subsection (a) made subject to this section.

#### SEC. 2248. CROPS HARVESTED FOR FORAGE USES.

The civil penalties provided for in this subsection shall accrue to the United States and may be recovered in a civil action brought by the Board.

(2) **EXEMPTION.**—At any time before a failure under paragraph (1), and after notice and opportunity for hearing, the Board may through rules and regulations, or on application of an interested party, by order, exempt in whole or in part, any entity from the provisions of paragraph (1), on such terms and conditions and for such period of time as the Board determines necessary and appropriate, if the Board finds that such action is not inconsistent with the public interest or the protection of the Board. The Board may for purposes of this subsection impose any alternative requirements appropriate to the situation.

## CHAPTER 2—NATIONAL FOREST-DEPENDENT RURAL COMMUNITIES

### SEC. 2372. SHORT TITLE.

This chapter may be cited as the "National Forest-Dependent Rural Communities Economic Diversification Act of 1990".

7 USC 6611.

### SEC. 2373. FINDINGS AND PURPOSES.

#### (a) FINDINGS.—The Congress finds that—

(1) the economic well-being of rural America is vital to our national growth and prosperity;

(2) the economic well-being of many rural communities depends upon the goods and services that are derived from national forests;

(3) the economies of many of these communities suffer from a lack of industrial and business diversity;

(4) this lack of diversity is particularly serious in communities whose economies are predominantly dependent on timber and recreation resources and where management decisions made on the national forests by Federal and private organizations may disrupt the supply of those resources;

(5) the Forest Service has expertise and resources that could be directed to promote modernization and economic diversification of existing industries and services based on forest resources;

(6) the Forest Service has the technical expertise to provide leadership, in cooperation with other governmental agencies and the private sector, to assist rural communities dependent upon national forest resources to upgrade existing industries and diversify by developing new economic activity in non-forest-related industries; and

(7) technical assistance, training, education, and other assistance provided by the Department of Agriculture can be targeted to provide immediate help to those rural communities in greatest need.

#### (b) PURPOSES.—The purposes of this chapter are—

(1) to provide assistance to rural communities that are located in or near national forests and that are economically dependent upon forest resources or are likely to be economically disadvantaged by Federal or private sector land management practices;

(2) to aid in diversifying such communities' economic bases; and

(3) to improve the economic, social, and environmental well-being of rural America.

7 USC 6612.

#### SEC. 2516. RECORDKEEPING IMPROVEMENT.

Agricultural  
Program  
Reporting and  
Recordkeeping  
Improvement  
Act of 1990.

7 USC 1421 note.

(a) **SHORT TITLE.**—This section may be cited as the “Agricultural Program Reporting and Recordkeeping Improvement Act of 1990”.

(b) **GOAL.**—To the extent practicable, it shall be the goal of this section to bring about, within 3 years following the date of enactment of this Act, a substantial reduction in the volume of documentation, and in the amount of time devoted and the number of visits to Department of Agriculture offices, that are necessary to complete paperwork required of the typical producer participating in programs administered by the Secretary of Agriculture.

(c) **REPORTED.**—Not later than 240 days after the date of enactment of this Act, the Secretary of Agriculture (hereafter referred to in this section as the “Secretary”) shall prepare and submit to the Committee on Agriculture of the House of Representatives and the Committee on Agriculture, Nutrition, and Forestry of the Senate a report containing specific proposals for reducing and simplifying the recordkeeping and other paperwork required of agricultural producers and cooperatives (hereinafter referred to in this section as “producers”) who apply for participation in, or in complying with the requirements of—

(1) agricultural price and income support programs administered by the Secretary, including programs under the Agricultural Act of 1949 (7 U.S.C. 1421, et seq.);

(2) voluntary or mandatory soil or water conservation programs administered by the Secretary, including programs under the Food Security Act of 1985 (7 U.S.C. 1281, note, et seq.); and

(3) any other related programs administered by the Secretary, including programs under the Consolidated Farm and Rural Development Act (7 U.S.C. 1981, et. seq.) and programs of crop insurance under the Federal Crop Insurance Corporation.

(d) CONTENTS OF REPORT.—

(1) IN GENERAL.—In the report required by subsection (c), the Secretary shall set forth the results of a thorough examination of the feasibility of reducing current levels of paperwork and recordkeeping required of producers by providing such producers with access to a computerized departmental network or system (including the utilization of computer capability and equipment which has been or will be acquired by the Department of Agriculture) that could be used by producers to—

(A) communicate by voice, data, video, or a combination thereof for the purpose of submitting electronically all of, or a significant portion of, any necessary and appropriate applications, reports, or other documentation; and

(B) provide updated electronic information and data pertinent to the producer's agricultural operation and marketing activities, or information sharing by means of video conferencing.

For the purpose of preparing the report required by this subsection, the Secretary is authorized to retain the consulting service of at least one private sector business firm having experience and possessing technical expertise in the fields of wide area computer network design, function, installation, and maintenance, integrated video conferencing, and data base management systems.

(2) SCHEDULE OF FEES.—In determining the feasibility and costs of providing a computerized network or system as described in paragraph (1), the Secretary may recommend a schedule of nominal fees which could be charged to producers and others for a pro rata share of a portion of the costs associated with the producers' access to and use of such system. Such fees would partially or entirely defray the costs (after taking into consideration any ongoing savings to the Department of Agriculture) associated with the operation and maintenance and future expansion of such portion of the network or system and its capabilities, but shall not be applied in a manner that would include any reimbursement for existing equipment and capabilities or for the costs associated with the initial establishment of the network or system. The report should also contain recommendations outlining additional categories of users who might be permitted access to the network or system for a fee, and the types of safeguards which would be reasonably necessary to limit file access as may be necessitated in accordance with provisions of the Privacy Act of 1974 (5 U.S.C. 552a) and other relevant authorities governing the disclosure of individual or proprietary information.

(e) RECOMMENDATIONS OF NATIONAL COMMISSION.—

(1) GENERALLY.—To the maximum extent practicable, in preparing the report required by subsection (c), the Secretary shall take into consideration and incorporate the recommendations of the commission created by title V, section 501 of the

Farm Credit Amendments Act of 1985 as contained in the Report of the National Commission on Agricultural Finance, dated February 22, 1989, to the extent that such recommendations relate to the need to develop a universal loan application form and uniform accounting standards for farm businesses. In considering such recommendations, the Secretary shall attempt to design and adopt forms and standards that are as brief and succinct as possible, and shall consult with representatives of the Farm Credit System, the commercial banking system, and other significant providers of farm ownership and operating credit.

(2) **PAPERWORK REDUCTION.**—In order to increase the efficiency of agricultural programs administered by the Secretary and to reduce the burden of paperwork on participants in such programs, the Secretary shall design and adopt, to the maximum extent practicable, one brief application form to be used by applicants for participation in the agricultural programs administered by the Secretary, including, the programs described in subsection (c). The report required by subsection (c) shall include information with regard to the progress made by the Department toward compliance with this subsection, and shall also identify any statutory impediments to the use of such single brief form.

(f) **INTEGRATION OF DATA BASES.**—Notwithstanding any other provisions of this section, the Secretary of Agriculture shall take appropriate action to integrate the various data bases of the Department of Agriculture relating to agricultural program data, and shall facilitate the sharing of relevant data among the various agencies of the Department of Agriculture.

(1) the transportation of fertilizer, fuels (such as liquid propane gas, diesel, gasoline heating oil, methane, and others), and agricultural pesticides to farms by farmers, hired farm labor, and agribusiness, including—

(A) safety practices used, the type of the equipment used, roads traveled, and employees engaged in such transportation; and

(B) any significant distinctions between transportation by retail dealers and transportation by farmers;
