Public Law 102-584
102d Congress

An Act

To authorize an exchange of lands in the States of Arkansas and Idaho.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Arkansas-Idaho Land Exchange Act of 1992”.

SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds that—

(1) the Potlatch Corporation has offered to the United States Government an exchange of lands under which Potlatch would receive approximately 17,625 acres of scattered tracts of Federal lands in the State of Idaho in return for conveying to the United States lands owned by Potlatch consisting of approximately 40,922 acres of undisturbed bottomland hardwood lands in the State of Arkansas and approximately 1,170 acres of lands with important recreational and fisheries values in the State of Idaho;

(2) the lands in Arkansas that Potlatch has offered to convey to the United States are surrounded by Federal and State lands on the Cache and White Rivers which are designated as a “Wetland of International Importance” under the Convention on Wetlands of International Importance (commonly referred to as the “Ramsar Convention”), one of only 10 areas in the United States so designated;

(3) acquisition of these lands by the United States will remove the lands from sustained timber production and other development in the heart of this critical wetland ecosystem;

(4) the lands Potlatch has offered to convey to the United States will qualify for inclusion as a Wetland of International Importance under the Ramsar Convention;

(5) the lands Potlatch has offered to convey to the United States are outstanding fish and wildlife habitat and should continue to be made available for activities such as public hunting, fishing, trapping, nature observation, enjoyment, and education;

(6) the lands the United States would convey to Potlatch do not contain comparable fish, wildlife, or wetland values;

(7) appraisals of all lands to be conveyed in the exchange have been completed; and

(8) the United States and Potlatch have agreed to the values and boundaries of all lands to be conveyed in the exchange and concur that the lands to be conveyed by Potlatch and the lands to be conveyed by the United States are of equal value.

(b) PURPOSE.—The purpose of this Act is to authorize and require the Secretary and the Secretary of Agriculture to participate
in an exchange of lands that will provide environmental and economic benefits to the States of Arkansas and Idaho and to the Nation.

the Department of Justice standards for the preparation of title evidence in land acquisitions by the United States.

(c) GENERAL PROVISIONS.—

(1) MAPS CONTROLLING.—To ensure the management benefits of consolidating isolated tracts of lands, any conflict between a number of acres of lands referred to in this Act and a depiction of the lands on a map referenced in this Act shall be resolved in favor of the map.

(2) CANCELLATION.—Prior to implementation of the exchange required by subsection (b), if Potlatch notifies the Secretary in writing that it no longer intends to complete the exchange, the lands referenced in subsection (a) shall revert to their status as of the day before the date of enactment of this Act, and shall be managed in accordance with applicable management plans.

Such withdrawal shall terminate on the date of completion of the exchange required by subsection (b) or on the date of any notification by Potlatch of a decision not to complete the exchange pursuant to paragraph (2).

Upon completion of the survey, the Secretary shall issue a patent for such lands. The boundaries of such lands shall be those which were defined in and conveyed by the interim conveyance, except that the boundaries shall be corrected and redescribed in the patent, where necessary, as a result of the survey of such lands.

Nothing in this Act shall be construed as permitting or prohibiting continued use of motorized vehicles on existing routes within such area at the level of such use as was permitted on August 1, 1992.
   (3) PLAN AMENDMENTS AND ENVIRONMENTAL ANALYSIS.—Within 24 months after the completion of the exchange under section 3(b), the Secretary and the Secretary of Agriculture shall prepare amendments to applicable resource management plans and accompanying documents pursuant to section 202 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1712), section 6 of the Forest and Rangeland Renewable Resources Planning Act of 1974 (16 U.S.C. 1604), and section 102(2) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)) for lands in Idaho conveyed to the United States pursuant to section 3(b).
