Proclamation 7647 of February 7, 2003**Establishment of the Governors Island National Monument**

By the President of the United States of America
A Proclamation

On the north tip of Governors Island, at the confluence of the Hudson and East Rivers, stand two fortifications that served as an outpost to protect New York City from sea attack. These two important historic objects, Castle Williams and Fort Jay, are part of a National Historic Landmark District designated in 1985. Between 1806 and 1811, these fortifications were constructed as part of the First and Second American Systems of Coastal Fortification. Castle Williams and Fort Jay represent two of the finest examples of defensive structures in use from the Renaissance to the American Civil War. They also played important roles in the War of 1812, the American Civil War, and World Wars I and II.

These fortifications were built on the most strategic defensive positions on the island. Fort Jay, constructed between 1806 and 1809, is on the highest point of the island from which its glacis originally sloped
