An Act

Dec. 28, 2012  
[H.R. 3783]

To provide for a comprehensive strategy to counter Iran’s growing hostile presence and activity in the Western Hemisphere, and for other purposes.

Countering Iran  
in the Western  
Hemisphere Act  
of 2012.  
22 USC 8701  
note.

*Be it enacted by the Senate and House of Representatives of  
the United States of America in Congress assembled,*

**SECTION 1. SHORT TITLE.**

This Act may be cited as the “Countering Iran in the Western Hemisphere Act of 2012”.

**SEC. 2. FINDINGS.**

Congress finds the following:

(1) The United States has vital political, economic, and security interests in the Western Hemisphere.

(2) Iran is pursuing cooperation with Latin American countries by signing economic and security agreements in order to create a network of diplomatic and economic relationships to lessen the blow of international sanctions and oppose Western attempts to constrict its ambitions.

(3) According to the Department of State, Hezbollah, with Iran as its state sponsor, is considered the “most technically capable terrorist group in the world” with “thousands of supporters, several thousand members, and a few hundred terrorist operatives,” and officials from the Iranian Islamic Revolutionary Guard Corps (IRGC) Qods Force have been working in concert with Hezbollah for many years.

(4) The IRGC’s Qods Force has a long history of supporting Hezbollah’s military, paramilitary, and terrorist activities, providing it with guidance, funding, weapons, intelligence, and logistical support, and in 2007, the Department of the Treasury placed sanctions on the IRGC and its Qods Force for their support of terrorism and proliferation activities.

(5) The IRGC’s Qods Force stations operatives in foreign embassies, charities, and religious and cultural institutions to foster relationships, often building on existing socioeconomic ties with the well established Shia Diaspora, and recent years have witnessed an increased presence in Latin America.

(6) According to the Department of Defense, the IRGC and its Qods Force played a significant role in some of the deadliest terrorist attacks of the past two decades, including the 1994 attack on the AMIA Jewish Community Center in Buenos Aires, by generally directing or supporting the groups that actually executed the attacks.

(7) Reports of Iranian intelligence agents being implicated in Hezbollah-linked activities since the early 1990s suggest

direct Iranian government support of Hezbollah activities in the Tri-Border Area of Argentina, Brazil, and Paraguay, and in the past decade, Iran has dramatically increased its diplomatic missions to Venezuela, Bolivia, Nicaragua, Ecuador, Argentina, and Brazil. Iran has built 17 cultural centers in Latin America, and it currently maintains 11 embassies, up from 6 in 2005.

(8) Hezbollah and other Iranian proxies with a presence in Latin America have raised revenues through illicit activities, including drug and arms trafficking, counterfeiting, money laundering, forging travel documents, pirating software and music, and providing haven and assistance to other terrorists transiting the region.

(9) Bolivia, Cuba, Ecuador, Nicaragua, and Venezuela expressed their intention to assist Iran in evading sanctions by signing a statement supporting Iran’s nuclear activities and announcing at a 2010 joint press conference in Tehran their determination to “continue and expand their economic ties to Iran” with confidence that “Iran can give a crushing response to the threats and sanctions imposed by the West and imperialism”.

(10) The U.S. Drug Enforcement Administration concluded in 2008 that almost one-half of the foreign terrorist organizations in the world are linked to narcotics trade and trafficking, including Hezbollah and Hamas.

(11) In October 2011, the United States charged two men, Manssor Arbabsiar, a United States citizen holding both Iranian and United States passports, and Gholam Shakuri, an Iran-based member of Iran’s IRGC Qods Force, with conspiracy to murder a foreign official using explosives in an act of terrorism. Arbabsiar traveled to Mexico with the express intent to hire “someone in the narcotics business” to carry out the assassination of the Saudi Arabian Ambassador in the United States. While in the end, he only engaged a U.S. Drug Enforcement Agency informant posing as an associate of a drug trafficking cartel, Arbabsiar believed that he was working with a member of a Mexican drug trafficking organization and sought to send money to this individual in installments and not in a single transfer.

(12) In February 2011, actions by the Department of the Treasury effectively shut down the Lebanese Canadian Bank. Subsequent actions by the United States Government in connection with the investigation into Lebanese Canadian Bank resulted in the indictment in December 2011 of Ayman Joumaa, an individual of Lebanese nationality, with citizenship in Lebanon and Colombia, and with ties to Hezbollah, for trafficking cocaine to the Los Zetas drug trafficking organization in Mexico City for sale in the United States and for laundering the proceeds.

### **SEC. 3. STATEMENT OF POLICY.**

It shall be the policy of the United States to use a comprehensive government-wide strategy to counter Iran’s growing hostile presence and activity in the Western Hemisphere by working together with United States allies and partners in the region to

mutually deter threats to United States interests by the Government of Iran, the Iranian Islamic Revolutionary Guard Corps (IRGC), the IRGC's Qods Force, and Hezbollah.

**SEC. 4. DEFINITIONS.**

(a) FINDINGS.—Congress finds that—

(1) the legal description of land previously taken into trust by the United States for the benefit of the Barona Band of Mission Indians may be interpreted to refer to private, nontribal land;

(2) there is a continued, unresolved disagreement between the Barona Band of Mission Indians and certain off-reservation property owners relating to the causes of diminishing native groundwater;

(3) Congress expresses no opinion, nor should an opinion of Congress be inferred, relating to the disagreement described in paragraph (2); and

(4) it is the intent of Congress that, if the land described in section 121(b) of the Native American Technical Corrections Act of 2004 (118 Stat. 544) (as amended by section 3) is used to bring water to the Barona Indian Reservation, the effort is authorized only if the effort also addresses water availability for neighboring off-reservation land located along Old Barona Road that is occupied as of the date of enactment of this Act by providing guaranteed access to that water supply at a mutually agreeable site on the southwest boundary of the Barona Indian Reservation.

(b) PURPOSES.—The purposes of this Act are—

(1) to clarify the legal description of the land placed into trust for the Barona Band of Mission Indians in 2004; and

(2) to remove all doubt relating to the specific parcels of land that Congress has placed into trust for the Barona Band of Mission Indians.

**SEC. 3. LAND TRANSFER.**

Section 121 of the Native American Technical Corrections Act of 2004 (Public Law 108–204; 118 Stat. 544) is amended—

(1) by striking subsection (b) and inserting the following:

“(b) DESCRIPTION OF LAND.—The land referred to in subsection (a) is land comprising approximately 86.87 acres in T. 14 S., R. 1 E., San Bernardino Meridian, San Diego County, California, and described more particularly as follows:

“(1) The approximately 69.85 acres located in Section 21 and described as—

“(A) SW $\frac{1}{4}$  SW $\frac{1}{4}$ , excepting the north 475 feet;

“(B) W $\frac{1}{2}$  SE $\frac{1}{4}$  SW $\frac{1}{4}$ , excepting the north 475 feet;

“(C) E $\frac{1}{2}$  SE $\frac{1}{4}$  SW $\frac{1}{4}$ , excepting the north 350 feet;

and

“(D) the portion of W $\frac{1}{2}$  SE $\frac{1}{4}$  that lies southwesterly of the following line: Beginning at the intersection of the southerly line of said SE $\frac{1}{4}$  of Section 21 with the westerly boundary of Rancho Canada De San Vicente Y Mesa Del Padre Barona as shown on United States Government Resurvey approved January 21, 1939, and thence northwesterly along said boundary to an intersection with the westerly line of said SE $\frac{1}{4}$ .

“(2) The approximately 17.02 acres located in Section 28 and described as NW $\frac{1}{4}$  NW $\frac{1}{4}$ , excepting the east 750 feet.”; and

(2) by adding at the end the following:

“(d) CLARIFICATIONS.—

“(1) EFFECT ON SECTION.—The provisions of subsection (c) shall apply to the land described in subsection (b), as in effect on the day after the date of enactment of the Barona Band of Mission Indians Land Transfer Clarification Act of 2012.

“(2) EFFECT ON PRIVATE LAND.—The parcel of private, non-Indian land referenced in subsection (a) and described in subsection (b), as in effect on the day before the date of enactment of the Barona Band of Mission Indians Land Transfer Clarification Act of 2012, but excluded from the revised description of the land in subsection (b) was not intended to be—

“(A) held in trust by the United States for the benefit of the Band; or

“(B) considered to be a part of the reservation of the Band.”.

(2) intends to use the funding for that purpose.

Determination.

**SEC. 123. MULTIYEAR PROCUREMENT AUTHORITY FOR ARLEIGH BURKE CLASS DESTROYERS AND ASSOCIATED SYSTEMS.**

- (1) all relevant records of the Department; and
- (2) all relevant communications between Department officials, whether such communications occurred inside or outside the Federal Government.

**SEC. 129. SENSE OF CONGRESS ON IMPORTANCE OF ENGINEERING IN EARLY STAGES OF SHIPBUILDING.**

It is the sense of Congress that—

(1) placing a priority on engineering dollars in the early stages of shipbuilding programs is a vital component of keeping cost down; and

(2) therefore, the Secretary of the Navy should take appropriate steps to prioritize early engineering in large ship construction including amphibious class ships beginning with the LHA-8.

**SEC. 130. SENSE OF CONGRESS ON NUCLEAR-POWERED BALLISTIC SUBMARINES.**

It is the sense of Congress that—

(1) the continuous at-sea deterrence provided by a robust and modern fleet of nuclear-powered ballistic missile submarines is critical to maintaining nuclear deterrence and assurance and therefore is a central pillar of the national security of the United States;

(2) the Navy should—

(A) carry out a program to replace the Ohio class ballistic missile submarines;

(B) ensure that the first such replacement submarine is delivered and fully operational by not later than 2031 in order to maintain continuous at-sea deterrence; and

(C) develop a risk mitigation plan to ensure that robust continuous at-sea deterrence is provided during the transition from Ohio class ballistic missile submarines to the replacement submarines; and

(3) a minimum of 12 replacement ballistic missile submarines are necessary to provide continuous at-sea deterrence over the lifetime of such submarines and, therefore, the Navy should carry out a program to produce 12 such submarines.

**SEC. 131. SENSE OF CONGRESS ON MARINE CORPS AMPHIBIOUS LIFT AND PRESENCE REQUIREMENTS.**

(a) FINDINGS.—Congress finds the following:

(1) The Marine Corps is a combat force that leverages maneuver from the sea as a force multiplier allowing for a variety of operational tasks ranging from major combat operations to humanitarian assistance.

(2) The Marine Corps is unique in that, while embarked upon naval vessels, they bring all the logistic support necessary for the full range of military operations and, operating “from the sea”, they require no third-party host nation permission to conduct military operations.

(3) The Navy has a requirement for 38 amphibious assault ships to meet this full range of military operations.

(4) Due only to fiscal constraints, that requirement of 38 vessels was reduced to 33 vessels, which adds military risk to future operations.

(5) The Navy has been unable to meet even the minimal requirement of 30 operationally available vessels and has submitted a shipbuilding and ship retirement plan to Congress that will reduce the force to 28 vessels.

(6) Experience has shown that early engineering and design of naval vessels has significantly reduced the acquisition costs and life-cycle costs of those vessels.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the Department of Defense should carefully evaluate the maritime force structure necessary to execute demand for forces by the commanders of the combatant commands;

(2) the Navy should carefully evaluate amphibious lift capabilities to meet current and projected requirements;

(3) the Navy should consider prioritization of investment in and procurement of the next generation of amphibious assault ships as a component of the balanced battle force;

(4) the next generation amphibious assault ships should maintain survivability protection;

(5) operation and maintenance requirements analysis, as well as the potential to leverage a common hull form design, should be considered to reduce total ownership cost and acquisition cost; and

(6) maintaining a robust amphibious ship building industrial base is vital for the future of the national security of the United States.

**SEC. 132. SENSE OF THE SENATE ON DEPARTMENT OF THE NAVY FISCAL YEAR 2014 BUDGET REQUEST FOR TACTICAL AVIATION AIRCRAFT.**

It is the sense of the Senate that, if the budget request of the Department of the Navy for fiscal year 2014 for F–18 aircraft includes a request for funds for more than 13 new F–18 aircraft, the budget request of the Department of the Navy for fiscal year 2014 for F–35 aircraft should include a request for funds for not fewer than six F–35B aircraft and four F–35C aircraft, presuming that development, testing, and production of the F–35 aircraft are proceeding according to current plans.

## **Subtitle D—Air Force Programs**

**SEC. 141. REDUCTION IN NUMBER OF AIRCRAFT REQUIRED TO BE MAINTAINED IN STRATEGIC AIRLIFT AIRCRAFT INVENTORY.**

(a) REDUCTION IN INVENTORY REQUIREMENT.—Section 8062(g)(1) of title 10, United States Code, is amended by adding at the end the following new sentence: “Effective on the date that is 45 days after the date on which the report under section 141(c)(3) of the National Defense Authorization Act for Fiscal Year 2013 is submitted to the congressional defense committees, the Secretary shall maintain a total aircraft inventory of strategic airlift aircraft of not less than 275 aircraft.”

(F) An examination, including a discussion of the sensitivity of any related conclusions and assumptions, of the variations regarding alternative modes (land, air, and sea) and sources (military, civilian, and foreign) of strategic and theater lift, and variations in forward basing, seabasing, prepositioning (afloat and ashore), air-refueling capability, advanced logistics concepts, and destination theater austerity, based on the new global footprint and global presence initiatives.

(G) An identification of mobility capability gaps, shortfalls, overlaps, or excesses, including—

- (i) an assessment of associated risks with respect to the ability to conduct operations; and
- (ii) recommended mitigation strategies where possible.

(H) An identification of mobility capability alternatives that mitigate the potential impacts on the logistic system, including—

- (i) a consideration of traditional, non-traditional, irregular, catastrophic, and disruptive challenges; and
- (ii) a description of how derived mobility requirements and capabilities support the accepted balance of risk in addressing all five categories of such challenges.

(I) The articulation of all key assumptions made in conducting the study with respect to—

- (i) risk;
- (ii) programmed forces and infrastructure;
- (iii) readiness, manning, and spares;
- (iv) scenario guidance from defense planning scenarios and multi-service force deployments;
- (v) concurrency of major operations;
- (vi) integrated global presence and basing strategy;
- (vii) host nation or third-country support;

(d) PRESERVATION OF CERTAIN RETIRED C-5 AIRCRAFT.—The Secretary of the Air Force shall preserve each C-5 aircraft that is retired by the Secretary during a period in which the total inventory of strategic airlift aircraft of the Secretary is less than 301, such that the retired aircraft—

- (1) is stored in flyable condition;
- (2) can be returned to service; and
- (3) is not used to supply parts to other aircraft unless specifically authorized by the Secretary of Defense upon a request by the Secretary of the Air Force.

## (e) DEFINITIONS.—In this section:

## (1) The term “mobility” means the—

(A) deployment, sustainment, and redeployment of the personnel and equipment needed to execute the National Defense Strategy to air and seaports of embarkation, inter-theater deployment to air and seaports of debarkation, and intratheater deployment to tactical assembly areas; and

(B) the employment of aerial refueling assets and intratheater movement and infrastructure in support of deployment and sustainment of combat forces.

#### SEC. 232. SENSE OF CONGRESS ON MISSILE DEFENSE.

(a) FINDINGS.—Congress finds the following:

(1) In a December 18, 2010, letter to the Senate leadership, President Obama wrote that the North Atlantic Treaty Organization (NATO) “invited the Russian Federation to cooperate on missile defense, which could lead to adding Russian capabilities to those deployed by NATO to enhance our common security against common threats. The Lisbon Summit thus demonstrated that the Alliance’s missile defenses can be strengthened by improving NATO-Russian relations. This comes even as we have made it clear that the system we intend to pursue with Russia will not be a joint system, and it will not in any way limit United States’ or NATO’s missile defense capabilities.”.

(2) In a February 2, 2011, message to the Senate concerning its December 22, 2010, Resolution of Advice and Consent to Ratification of the New START Treaty, President Obama certified that “It is the policy of the United States to continue development and deployment of United States missile defense systems to defend against missile threats from nations such as North Korea and Iran, including qualitative and quantitative improvements to such systems. As stated in the Resolution, such systems include all phases of the Phased Adaptive Approach to missile defense in Europe, the modernization of the Ground-based Midcourse Defense system, and the continued development of the two-stage Ground-Based Interceptor as a technological and strategic hedge.”.

(3) In a letter dated December 13, 2011, to Senator Mark Kirk, Robert Nabors, Assistant to the President and Director of the Office of Legislative Affairs, wrote that “The United States remains committed to implementing the European Phased Adaptive Approach to missile defense, and will not agree to any constraints limiting the development or deployment of United States missile defenses” and “[w]e will not provide Russia with sensitive information about our missile defense systems that would in any way compromise our national security. For example, hit-to-kill technology and interceptor telemetry will under no circumstances be provided to Russia.”.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) pursuant to section 2 of the National Missile Defense Act of 1999 (Public Law 106-38; 113 Stat. 205; 10 U.S.C. 2431 note), it is the policy of the United States “to deploy as soon as is technologically possible an effective National Missile Defense system capable of defending the territory of

the United States against limited ballistic missile attack (whether accidental, unauthorized, or deliberate)...”;

(2) defenses against ballistic missiles are essential for new deterrent strategies and for new strategies should deterrence fail;

(3) further limitations on the missile defense capabilities of the United States are not in the national security interest of the United States;

(4) the New Start Treaty and the April 7, 2010, unilateral statement of the Russian Federation on missile defense do not limit in any way, and shall not be interpreted as limiting, activities that the Federal Government of the United States currently plans or that might be required over the duration of the New START Treaty to protect the United States pursuant to the National Missile Defense Act of 1999, or to protect the Armed Forces of the United States and allies of the United States from limited ballistic missile attack, including further planned enhancements to the Ground-based Midcourse Defense system and all phases of the Phased Adaptive Approach to missile defense in Europe;

(5) it was the Understanding of the Senate in its December 22, 2010, Resolution of Advice and Consent to Ratification of the New START Treaty that, “any additional New START Treaty limitations on the deployment of missile defenses beyond those contained in paragraph 3 of Article V, including any limitations agreed under the auspices of the Bilateral Consultative Commission, would require an amendment to the New START Treaty which may enter into force for the United States only with the advice and consent of the Senate, as set forth in Article II, section 2, clause 2 of the Constitution of the United States”; and

(6) section 303(b) of the Arms Control and Disarmament Act (22 U.S.C. 2573(b)) requires that “no action shall be taken pursuant to this or any other Act that would obligate the United States to reduce or limit the Armed Forces or armaments of the United States in a militarily significant manner, except pursuant to the treaty-making power of the President set forth in Article II, Section 2, Clause 2 of the Constitution.”

(c) **NEW START TREATY DEFINED.**—In this section, the term “New START Treaty” means the Treaty between the United States of America and the Russian Federation on Measures for the Further Reduction and Limitation of Strategic Offensive Arms, signed on April 8, 2010, and entered into force on February 5, 2011.

**SEC. 233. SENSE OF CONGRESS ON THE SUBMITTAL TO CONGRESS OF THE HOMELAND DEFENSE HEDGING POLICY AND STRATEGY REPORT OF THE SECRETARY OF DEFENSE.**

It is the sense of the Congress that—

(1) the homeland defense hedging policy and strategy report required by section 233 of the National Defense Authorization Act for Fiscal Year 2012 (Public Law 112–81; 125 Stat. 1340) is necessary to inform Congress on options to protect the United States homeland against the evolving ballistic missile threat, including potential options prior to the deployment of Phase 4 of the European Phased Adaptive Approach to missile defense; and

(2) the Secretary of Defense should comply with the requirements of such section 233 by submitting the homeland defense hedging policy and strategy report to Congress.

**SEC. 253. SENSE OF CONGRESS ON INCREASING THE COST-EFFECTIVENESS OF TRAINING EXERCISES FOR MEMBERS OF THE ARMED FORCES.**

It is the sense of Congress that—

(1) modeling and simulation will continue to play a critical role in the training of the members of the Armed Forces;

(2) while increased modeling and simulation has reduced overall costs of training of members of the Armed Forces,

there are still significant costs associated with the human resources required to execute certain training exercises where role-playing actors for certain characters such as opposing forces, the civilian populace, other government agencies, and non-governmental organizations are required;

(3) technological advances in areas such as varying levels of autonomy for systems, multi-player gaming techniques, and artificial intelligence could reduce the number of personnel required to support certain training exercises for members of the Armed Forces, and thereby reduce the overall cost of the exercises; and

**SEC. 1085. SENSE OF CONGRESS REGARDING SPECTRUM.**

It is the sense of Congress that—

(1) the United States mobile communications industry is a significant economic engine;

(2) while wireless carriers are continually implementing new and more efficient technologies and techniques to maximize their existing spectrum capacity, there is a pressing need for additional spectrum for mobile broadband services;

(3) as the United States faces the growing demand for spectrum, consideration should be given to both the supply of spectrum for licensed networks and for unlicensed devices;

(4) while such growing demand can be met in part by reallocating spectrum from existing non-governmental uses, the long-term solution must include reallocation and sharing of Federal Government spectrum for private sector use;

(5) recognizing the important uses of spectrum by the Federal Government, including for national security, law enforcement, and other critical Federal uses, existing law ensures that Federal operations are not harmed as a result of a reallocation of spectrum for commercial use, including through the establishment of the Spectrum Relocation Fund to reimburse Federal users for the costs of planning and implementing relocation and sharing arrangements and, with respect to spectrum vacated by the Department of Defense, certification under section 1062(b) of the National Defense Authorization Act for Fiscal Year 2000 (Public Law 106-65; 113 Stat. 768) by the Secretary of Defense, the Secretary of Commerce, and the Chairman of the Joint Chiefs of Staff that replacement spectrum provides comparable technical characteristics to restore essential military capability; and

(6) given the need to determine equitable outcomes for the United States in relation to spectrum use that balance the demand of the private sector for spectrum with national security and other critical Federal missions, all interested parties should be encouraged to continue the collaborative efforts between industry and government stakeholders that have been launched by the National Telecommunications and Information Administration to assess and recommend practical frameworks for the development of relocation, transition, and sharing arrangement and plans for 110 megahertz of Federal spectrum in the 1695–1710 MHz and the 1755–1850 MHz bands.
