(1) IN GENERAL.—Notwithstanding any other provision of law (including section 1307(e) of the National Flood Insurance Act of 1968 (42 U.S.C. 4014(e))), a person residing in a community that the Administrator determines has made adequate progress on the reconstruction or improvement of a flood protection system that will afford flood protection for a 100-year floodplain (without regard to the level of Federal funding of

or participation in the construction, reconstruction, or improvement), shall be eligible for flood insurance coverage under the National Flood Insurance Program—

(A) if the person resides in a community that is a participant in the National Flood Insurance Program; and

## **TITLE IX—DRUG APPROVAL AND PATIENT ACCESS**

**SEC. 901. ENHANCEMENT OF ACCELERATED PATIENT ACCESS TO NEW MEDICAL TREATMENTS.**

21 USC 356 note.

(a) FINDINGS; SENSE OF CONGRESS.—

(1) FINDINGS.—Congress finds as follows:

(A) The Food and Drug Administration (referred to in this section as the “FDA”) serves a critical role in helping to assure that new medicines are safe and effective. Regulatory innovation is 1 element of the Nation’s strategy to address serious and life-threatening diseases or conditions by promoting investment in and development of innovative treatments for unmet medical needs.

(B) During the 2 decades following the establishment of the accelerated approval mechanism, advances in medical sciences, including genomics, molecular biology, and bioinformatics, have provided an unprecedented understanding of the underlying biological mechanism and pathogenesis of disease. A new generation of modern, targeted medicines is under development to treat serious and life-threatening diseases, some applying drug development strategies based on biomarkers or pharmacogenomics, predictive toxicology, clinical trial enrichment techniques, and novel clinical trial designs, such as adaptive clinical trials.

(C) As a result of these remarkable scientific and medical advances, the FDA should be encouraged to implement more broadly effective processes for the expedited development and review of innovative new medicines intended to address unmet medical needs for serious or life-threatening diseases or conditions, including those for rare diseases or conditions, using a broad range of surrogate or clinical endpoints and modern scientific tools earlier in the drug development cycle when appropriate. This may result in fewer, smaller, or shorter clinical trials for the intended patient population or targeted subpopulation

without compromising or altering the high standards of the FDA for the approval of drugs.

(D) Patients benefit from expedited access to safe and effective innovative therapies to treat unmet medical needs for serious or life-threatening diseases or conditions.

(E) For these reasons, the statutory authority in effect on the day before the date of enactment of this Act governing expedited approval of drugs for serious or life-threatening diseases or conditions should be amended in order to enhance the authority of the FDA to consider appropriate scientific data, methods, and tools, and to expedite development and access to novel treatments for patients with a broad range of serious or life-threatening diseases or conditions.

(2) SENSE OF CONGRESS.—It is the sense of Congress that the Food and Drug Administration should apply the accelerated approval and fast track provisions set forth in section 506 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 356), as amended by this section, to help expedite the development and availability to patients of treatments for serious or life-threatening diseases or conditions while maintaining safety and effectiveness standards for such treatments.

(b) EXPEDITED APPROVAL OF DRUGS FOR SERIOUS OR LIFE-THREATENING DISEASES OR CONDITIONS.—Section 506 (21 U.S.C. 356) is amended to read as follows:

**“SEC. 506. EXPEDITED APPROVAL OF DRUGS FOR SERIOUS OR LIFE-THREATENING DISEASES OR CONDITIONS.**

**“(a) DESIGNATION OF DRUG AS FAST TRACK PRODUCT.—**

**“(1) IN GENERAL.—**The Secretary shall, at the request of the sponsor of a new drug, facilitate the development and expedite the review of such drug if it is intended, whether alone or in combination with one or more other drugs, for the treatment of a serious or life-threatening disease or condition, and it demonstrates the potential to address unmet medical needs for such a disease or condition. (In this section, such a drug is referred to as a ‘fast track product’.)

**“(2) REQUEST FOR DESIGNATION.—**The sponsor of a new drug may request the Secretary to designate the drug as a fast track product. A request for the designation may be made concurrently with, or at any time after, submission of an application for the investigation of the drug under section 505(i) or section 351(a)(3) of the Public Health Service Act.

**“(3) DESIGNATION.—**Within 60 calendar days after the receipt of a request under paragraph (2), the Secretary shall determine whether the drug that is the subject of the request meets the criteria described in paragraph (1). If the Secretary finds that the drug meets the criteria, the Secretary shall designate the drug as a fast track product and shall take such actions as are appropriate to expedite the development and review of the application for approval of such product.

Deadline.  
Determination.

**“(b) ACCELERATED APPROVAL OF A DRUG FOR A SERIOUS OR LIFE-THREATENING DISEASE OR CONDITION, INCLUDING A FAST TRACK PRODUCT.—**

**“(1) IN GENERAL.—**

**“(A) ACCELERATED APPROVAL.—**The Secretary may approve an application for approval of a product for a

serious or life-threatening disease or condition, including a fast track product, under section 505(c) or section 351(a) of the Public Health Service Act upon a determination that the product has an effect on a surrogate endpoint that is reasonably likely to predict clinical benefit, or on a clinical endpoint that can be measured earlier than irreversible morbidity or mortality, that is reasonably likely to predict an effect on irreversible morbidity or mortality or other clinical benefit, taking into account the severity, rarity, or prevalence of the condition and the availability or lack of alternative treatments. The approval described in the preceding sentence is referred to in this section as ‘accelerated approval’.

“(B) EVIDENCE.—The evidence to support that an endpoint is reasonably likely to predict clinical benefit under subparagraph (A) may include epidemiological, pathophysiological, therapeutic, pharmacologic, or other evidence developed using biomarkers, for example, or other scientific methods or tools.

“(2) LIMITATION.—Approval of a product under this subsection may be subject to 1 or both of the following requirements:

“(A) That the sponsor conduct appropriate postapproval studies to verify and describe the predicted effect on irreversible morbidity or mortality or other clinical benefit.

“(B) That the sponsor submit copies of all promotional materials related to the product during the preapproval review period and, following approval and for such period thereafter as the Secretary determines to be appropriate, at least 30 days prior to dissemination of the materials.

“(3) EXPEDITED WITHDRAWAL OF APPROVAL.—The Secretary may withdraw approval of a product approved under accelerated approval using expedited procedures (as prescribed by the Secretary in regulations which shall include an opportunity for an informal hearing) if—

“(A) the sponsor fails to conduct any required postapproval study of the drug with due diligence;

“(B) a study required to verify and describe the predicted effect on irreversible morbidity or mortality or other clinical benefit of the product fails to verify and describe such effect or benefit;

“(C) other evidence demonstrates that the product is not safe or effective under the conditions of use; or

“(D) the sponsor disseminates false or misleading promotional materials with respect to the product.

“(c) REVIEW OF INCOMPLETE APPLICATIONS FOR APPROVAL OF A FAST TRACK PRODUCT.—

“(2) **HEALTH SYSTEM.**—The term ‘health system’ means a collection of hospitals that are owned and operated by the same entity and that share access to databases with drug order information for their patients.

“(3) **REPACKAGE.**—For the purposes of this section only, the term ‘repackage’, with respect to a drug, means to divide the volume of a drug into smaller amounts in order to—

“(A) extend the supply of a drug in response to the placement of the drug on a drug shortage list under section 506E; and

“(B) facilitate access to the drug by hospitals within the same health system.

“(b) **EXCLUSION FROM REGISTRATION.**—Notwithstanding any other provision of this Act, a hospital shall not be considered an establishment for which registration is required under section 510 solely because it repackages a drug and transfers it to another hospital within the same health system in accordance with the conditions in subsection (c)—

(1) What are the dominant characteristics of drugs that have gone into a drug shortage over the preceding 3 years?

(2) Are there systemic high-risk factors (such as drug pricing structure, including Federal reimbursements, or the number of manufacturers producing a drug product) that have led to the concentration of drug shortages in certain drug products that have made such products vulnerable to drug shortages?

(3) Is there a reason why drug shortages have occurred primarily in the sterile injectable market and in certain therapeutic areas?

(4)(A) How have regulations, guidance documents, regulatory practices, policies, and other actions of Federal departments and agencies (including the effectiveness of interagency and intra-agency coordination, communication, strategic planning, and decisionmaking), including those used to enforce statutory requirements, affected drug shortages?

(B) Do any such regulations, guidances, policies, or practices cause, exacerbate, prevent, or mitigate drug shortages?

(C) How can regulations, guidances, policies, or practices be modified, streamlined, expanded, or discontinued in order to reduce or prevent such drug shortages?

(D) What effect would the changes described in subparagraph (C) have on the public health?

(5) How does hoarding affect drug shortages?

(6) How would incentives alleviate or prevent drug shortages?

(7) To what extent are health care providers, including hospitals and physicians responding to drug shortages, able to adjust care effectively to compensate for such shortages, and what impediments exist that hinder provider ability to adjust to such shortages?

(8)(A) Have drug shortages led market participants to stockpile affected drugs or sell such drugs at inflated prices?

(B) What has been the impact of any such activities described in subparagraph (A) on Federal revenue, and are there any economic factors that have exacerbated or created a market for such activities?

(C) Is there a need for any additional reporting or enforcement actions to address such activities?

(9)(A) How have the activities under section 506D of the Federal Food, Drug, and Cosmetic Act (as added by section 1003 of this Act) improved the efforts of the Food and Drug Administration to mitigate and prevent drug shortages?

(B) Is there a need to continue the task force and strategic plan under such section 506D, or are there any other recommendations to increase communication and coordination

inside the Food and Drug Administration, between the Food and Drug Administration and other agencies, and between the Food and Drug Administration and stakeholders?

(c) **CONSULTATION WITH STAKEHOLDERS.**—In conducting the study under this section, the Comptroller General shall consult with relevant stakeholders, including physicians, pharmacists, hospitals, patients, drug manufacturers, and other health providers.

(d) **REPORT.**—Not later than 18 months after the date of the enactment of this Act, the Comptroller General shall submit a report to the Committee on Energy and Commerce of the House of Representatives and the Committee on Health, Education, Labor, and Pensions of the Senate on the results of the study under this section.

To award a Congressional Gold Medal to Raoul Wallenberg, in recognition of his achievements and heroic actions during the Holocaust.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

Raoul  
Wallenberg  
Centennial  
Celebration Act.  
31 USC 5111  
note.

**SECTION 1. SHORT TITLE.**

This Act may be cited as the “Raoul Wallenberg Centennial Celebration Act”.

**SEC. 2. FINDINGS.**

The Congress finds as follows:

(1) Raoul Wallenberg was born in Europe on August 4, 1912, to Swedish Christian parents.

(2) In 1935, he graduated from the University of Michigan in Ann Arbor, completing a five-year program in three-and-a-half years.

(3) In a letter to his grandfather, Wallenberg wrote of his time in America: “I feel so at home in my little Ann Arbor that I’m beginning to sink down roots here and have a hard time imagining my leaving it. . . . Every now and then I feel strange when I think about how tiny my own country is and how large and wonderful America is.”

(4) Raoul returned to Sweden, where he began a career as a businessman, and afterwards, a Swedish diplomat.

(5) In 1936, Raoul’s grandfather arranged a position for him at the Holland Bank in Haifa, Palestine. There Raoul began to meet young Jews who had already been forced to flee from Nazi persecution in Germany. Their stories affected him deeply.

(6) He was greatly troubled by the fate of Jews in Europe, confiding to actress Viveca Lindfors the horrific plight of Jews under Nazi Europe.

(7) Under the direction of President Franklin D. Roosevelt, the War Refugee Board was established in January 1944 to aid civilians that fell victim to the Nazi and Axis powers in Europe.

(8) One of War Refugee Board’s top priorities was protection of the 750,000 Hungarian Jews still alive.

(9) It was decided that Raoul Wallenberg, aged 31 at the time, would be most effective in protecting Jews and victims of the Nazis in Hungary under the War Refugee Board. He was recruited by Iver Olsen, an agent for the Office of Strategic Services and sent to Budapest, Hungary, under his official profession as a Swedish diplomat. He was instructed to use

passports and other creative means to save as many lives as possible.

(10) Wallenberg created a new Swedish passport, the Schutzpass, which looked more imposing and official than the actual Swedish passport. He reportedly put up huge place cards of it throughout Budapest to make the Nazis familiar with it. He unilaterally announced that it granted the holder immunity from the death camps. The Schutzpasses alone are credited with saving 20,000 Jewish lives.

(11) In one example of his heroism, Wallenberg was told of a Nazi plot to round up several thousand Jewish women and acted swiftly to save them. Former Wallenberg staffer, Agnes Adachi, recalls the time when she and other staff, spent the whole night making around 2,000 Schutzpasses before 6 a.m. They were all completed and personally delivered to the women in time to save their lives.

(12) Using the money the United States put into the War Refugee Board, Wallenberg was able to purchase about thirty buildings, which he used as hospitals, schools, soup kitchens, and safe houses for over 8,000 children whose parents have already been deported or killed.

(13) Tommy Lapid, a young boy who was staying with his mother in a Swedish safe house (his father was already dead), gave an eyewitness account of how his family was helped by Wallenberg and the War Refugee Board: “One morning, a group of Hungarian Fascists came into the house and said that all the able-bodied women must go with them. We knew what this meant. My mother kissed me and I cried and she cried. We knew we were parting forever and she left me there, an orphan to all intents and purposes. Then two or three hours later, to my amazement, my mother returned with the other women. It seemed like a mirage, a miracle. My mother was there—she was alive and she was hugging me and kissing me, and she said one word: Wallenberg.”.

(14) Even as the war was coming to a close, Wallenberg remained vigilant and attentive to the people under his care. Adolf Eichmann, the SS colonel charged with the extermination of Jews in Eastern Europe, was determined to exterminate the 70,000 Jews kept as prisoners in a guarded ghetto in Budapest. As soon as Wallenberg heard of the plot, he sent Pal Szalay, an Arrow-Crossman senior official, who defected and turned to Wallenberg. Szalay was sent to speak to General Schmidhuber, who was ordered to spearhead the ghetto extermination in Budapest. Szalay informed Schmidhuber that, seeing as the war was coming to an end, if the planned massacre took place, Wallenberg would see to it personally that Schmidhuber would be prosecuted as a war criminal and hanged. The plans were ultimately abandoned and considered Wallenberg’s last big victory.

(15) Of the 120,000 Hungarian Jews that survived, Raoul Wallenberg, acting under the War Refugee Board, is credited with saving an estimated 100,000 of them in a six-month period.

(16) Raoul Wallenberg’s fate remains a mystery. In January 13, 1945, he contacted the Russians in an effort to secure food for the Jews under his protection—as he was still working hard to protect them.

(17) In 1981, President Ronald Reagan made Raoul Wallenberg an honorary citizen of the United States, an honor only previously extended to Winston Churchill.

(18) These findings show that Raoul Wallenberg showed exceptional heroism and bravery with his actions during the holocaust. Working with the War Refugee Board, a United State's agency, he was able to save about 100,000 Hungarian Jews, many of which were later able to immigrate to the United States.

(19) Indeed, hundreds of thousands of American Jews can directly or indirectly attribute their own lives to Raoul Wallenberg's actions during World War II. Many of the people Wallenberg saved have been influential citizens contributing to American institutions and culture, including Congressman Tom Lantos (February 1, 1928–February 11, 2008), Annette Lantos, and the Liska Rebbe, Rabbi Yoizef (Joseph) Friedlander, who carried forth the Liska Hassidic dynasty from Hungary to the United States after being saved by Raoul Wallenberg.

(20) His actions and character make him an excellent contender for a Congressional Gold Medal in time for the centennial of his birth, to celebrate his achievements and humanitarian accomplishments.

### **SEC. 3. CONGRESSIONAL GOLD MEDAL.**

(a) **PRESENTATION AUTHORIZED.**—The Speaker of the House of Representatives and the President pro tempore of the Senate shall make appropriate arrangements for the presentation, on behalf of the Congress, of a gold medal of appropriate design to the next of kin or personal representative of Raoul Wallenberg, in recognition of his achievements and heroic actions during the Holocaust.

(b) **DESIGN AND STRIKING.**—For the purpose of the presentation referred to in subsection (a), the Secretary of the Treasury shall strike a gold medal with suitable emblems, devices, and inscriptions to be determined by the Secretary.

### **SEC. 4. DUPLICATE MEDALS.**

Under such regulations as the Secretary of the Treasury may prescribe, the Secretary may strike duplicate medals in bronze of the gold medal struck pursuant to section 3 and sell such duplicate medals at a price sufficient to cover the costs of the duplicate medals (including labor, materials, dies, use of machinery, overhead expenses) and the cost of the gold medal.

### **SEC. 5. STATUS OF MEDALS.**

(a) **NATIONAL MEDALS.**—The medals struck pursuant to this Act are national medals for purposes of chapter 51 of title 31, United States Code.

(b) **NUMISMATIC ITEMS.**—For purposes of section 5134 of title 31, United States Code, all medals struck under this Act shall be considered to be numismatic items.

### **SEC. 6. AUTHORITY TO USE FUND AMOUNTS; PROCEEDS OF SALE.**

(a) **AUTHORIZATION OF CHARGES.**—There is authorized to be charged against the United States Mint Public Enterprise Fund, such amounts as may be necessary to pay for the costs of the medals struck pursuant to this Act.

(b) PROCEEDS OF SALE.—Amounts received from the sale of duplicate bronze medals under section 4 shall be deposited in the United States Mint Public Enterprise Fund.

Approved July 26, 2012.

An Act

July 27, 2012  
[S. 2165]

To enhance strategic cooperation between the United States and Israel, and for other purposes.

United States-  
Israel Enhanced  
Security  
Cooperation Act  
of 2012.  
22 USC 8601  
note.  
22 USC 8601.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. SHORT TITLE.**

This Act may be cited as the “United States-Israel Enhanced Security Cooperation Act of 2012”.

**SEC. 2. FINDINGS.**

Congress makes the following findings:

(1) Since 1948, United States Presidents and both houses of Congress, on a bipartisan basis and supported by the American people, have repeatedly reaffirmed the special bond between the United States and Israel, based on shared values and shared interests.

(2) The Middle East is undergoing rapid change, bringing with it hope for an expansion of democracy but also great challenges to the national security of the United States and our allies in the region, particularly to our most important ally in the region, Israel.

(3) The Government of the Islamic Republic of Iran is continuing its decades-long pattern of seeking to foment instability and promote extremism in the Middle East, particularly in this time of dramatic political transition.

(4) At the same time, the Government of the Islamic Republic of Iran continues to enrich uranium in defiance of multiple United Nations Security Council resolutions.

(5) A nuclear-weapons capable Iran would fundamentally threaten vital United States interests, encourage regional nuclear proliferation, further empower Iran, the world’s leading state sponsor of terror, and pose a serious and destabilizing threat to Israel and the region.

(6) Over the past several years, with the assistance of the Governments of the Islamic Republic of Iran and Syria, Hizbollah and Hamas have increased their stockpile of rockets, with more than 60,000 now ready to be fired at Israel. The Government of the Islamic Republic of Iran continues to add to its arsenal of ballistic missiles and cruise missiles, which threaten Iran’s neighbors, Israel, and United States Armed Forces in the region.

(7) As a result, Israel is facing a fundamentally altered strategic environment.

(8) Pursuant to chapter 5 of title 1 of the Emergency Wartime Supplemental Appropriations Act, 2003 (Public Law 108–11; 117 Stat. 576), the authority to make available loan guarantees to Israel is currently set to expire on September 30, 2012.

**SEC. 3. STATEMENT OF POLICY.**

22 USC 8602.

It is the policy of the United States:

(1) To reaffirm our unwavering commitment to the security of the State of Israel as a Jewish state. As President Barack Obama stated on December 16, 2011, “America’s commitment and my commitment to Israel and Israel’s security is unshakeable.” And as President George W. Bush stated before the Israeli Knesset on May 15, 2008, on the 60th anniversary of the founding of the State of Israel, “The alliance between our governments is unbreakable, yet the source of our friendship runs deeper than any treaty.”

(2) To help the Government of Israel preserve its qualitative military edge amid rapid and uncertain regional political transformation.

(3) To veto any one-sided anti-Israel resolutions at the United Nations Security Council.

(4) To support Israel’s inherent right to self-defense.

(5) To pursue avenues to expand cooperation with the Government of Israel both in defense and across the spectrum of civilian sectors, including high technology, agriculture, medicine, health, pharmaceuticals, and energy.

(6) To assist the Government of Israel with its ongoing efforts to forge a peaceful, negotiated settlement of the Israeli-Palestinian conflict that results in two states living side-by-side in peace and security, and to encourage Israel’s neighbors to recognize Israel’s right to exist as a Jewish state.

(7) To encourage further development of advanced technology programs between the United States and Israel given current trends and instability in the region.

**SEC. 4. UNITED STATES ACTIONS TO ASSIST IN THE DEFENSE OF ISRAEL AND PROTECT UNITED STATES INTERESTS.**

22 USC 8603.

It is the sense of Congress that the United States Government should take the following actions to assist in the defense of Israel:

(1) Seek to enhance the capabilities of the Governments of the United States and Israel to address emerging common threats, increase security cooperation, and expand joint military exercises.

(2) Provide the Government of Israel such support as may be necessary to increase development and production of joint missile defense systems, particularly such systems that defend against the urgent threat posed to Israel and United States forces in the region.

(3) Provide the Government of Israel assistance specifically for the production and procurement of the Iron Dome defense system for purposes of intercepting short-range missiles, rockets, and projectiles launched against Israel.

(4) Provide the Government of Israel defense articles and defense services through such mechanisms as appropriate, to include air refueling tankers, missile defense capabilities, and specialized munitions.

(5) Provide the Government of Israel additional excess defense articles, as appropriate, in the wake of the withdrawal of United States forces from Iraq.

(6) Examine ways to strengthen existing and ongoing efforts, including the Gaza Counter Arms Smuggling Initiative, aimed at preventing weapons smuggling into Gaza pursuant to the 2009 agreement following the Israeli withdrawal from Gaza, as well as measures to protect against weapons smuggling and terrorist threats from the Sinai Peninsula.

(7) Offer the Air Force of Israel additional training and exercise opportunities in the United States to compensate for Israel's limited air space.

(8) Work to encourage an expanded role for Israel with the North Atlantic Treaty Organization (NATO), including an enhanced presence at NATO headquarters and exercises.

(9) Expand already-close intelligence cooperation, including satellite intelligence, with Israel.

#### **SEC. 5. ADDITIONAL STEPS TO DEFEND ISRAEL AND PROTECT AMERICAN INTERESTS.**

(a) EXTENSION OF WAR RESERVES STOCKPILE AUTHORITY.—

(1) DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2005.—Section 12001(d) of the Department of Defense Appropriations Act, 2005 (Public Law 108–287; 118 Stat. 1011) is amended by striking “more than 8 years after” and inserting “more than 10 years after”.

(2) FOREIGN ASSISTANCE ACT OF 1961.—Section 514(b)(2)(A) of the Foreign Assistance Act of 1961 (22 U.S.C. 2321h(b)(2)(A)) is amended by striking “fiscal years 2011 and 2012” and inserting “fiscal years 2013 and 2014”.

(b) EXTENSION OF LOAN GUARANTEES TO ISRAEL.—Chapter 5 of title I of the Emergency Wartime Supplemental Appropriations Act, 2003 (Public Law 108–11; 117 Stat. 576) is amended under the heading “LOAN GUARANTEES TO ISRAEL”—

(1) in the matter preceding the first proviso, by striking “September 30, 2011” and inserting “September 30, 2015”; and

(2) in the second proviso, by striking “September 30, 2011” and inserting “September 30, 2015”.

President.  
22 USC 8604.

#### **SEC. 6. REPORTS REQUIRED.**

(a) REPORT ON ISRAEL'S QUALITATIVE MILITARY EDGE (QME).—

(1) IN GENERAL.—Not later than 180 days after the date of the enactment of this Act, the President shall submit to the Committee on Foreign Relations of the Senate and the Committee on Foreign Affairs of the House of Representatives a report on the status of Israel's qualitative military edge in light of current trends and instability in the region.

(2) SUBSTITUTION FOR QUADRENNIAL REPORT.—If submitted within one year of the date that the first quadrennial report required by section 201(c)(2) of the Naval Vessel Transfer Act of 2008 (Public Law 110–429; 22 U.S.C. 2776 note) is due to be submitted, the report required by paragraph (1) may substitute for such quadrennial report.

(b) REPORTS ON OTHER MATTERS.—Not later than 180 days after the date of the enactment of this Act, the President shall submit to the appropriate congressional committees a report on each of the following matters:

(1) Taking into account the Government of Israel's urgent requirement for F–35 aircraft, actions to improve the process relating to its purchase of F–35 aircraft, particularly with respect to cost efficiency and timely delivery.

(2) Efforts to expand cooperation between the United States and Israel in homeland security, counter-terrorism, maritime security, energy, cyber-security, and other related areas.

(3) Actions to integrate Israel into the defense of the Eastern Mediterranean.

**SEC. 7. DEFINITIONS.**

22 USC 8605.

In this Act:

(1) **APPROPRIATE CONGRESSIONAL COMMITTEES.**—The term “appropriate congressional committees” means—

(A) the Committee on Appropriations, the Committee on Armed Services, the Committee on Foreign Relations, and the Select Committee on Intelligence of the Senate; and

To require the Secretary of the Treasury to mint coins in recognition and celebration of the National Baseball Hall of Fame.

Aug. 3, 2012  
[H.R. 2527]

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. SHORT TITLE.**

This Act may be cited as the “National Baseball Hall of Fame Commemorative Coin Act”.

National  
Baseball Hall of  
Fame  
Commemorative  
Coin Act.  
31 USC 5112  
note.

**SEC. 2. FINDINGS.**

The Congress finds the following:

(1) On June 12, 1939, the National Baseball Hall of Fame and Museum opened in Cooperstown, New York. Ty Cobb, Walter Johnson, Christy Mathewson, Babe Ruth, and Honus Wagner comprised the inaugural class of inductees. This class set the standard for all future inductees. Since 1939, just one percent of all Major League Baseball players have earned induction into the National Baseball Hall of Fame.

(2) The National Baseball Hall of Fame and Museum is dedicated to preserving history, honoring excellence, and connecting generations through the rich history of our national pastime. Baseball has mirrored our Nation’s history since the Civil War, and is now an integral part of our Nation’s heritage.

(3) The National Baseball Hall of Fame and Museum chronicles the history of our national pastime and houses the world’s largest collection of baseball artifacts, including more than 38,000 three dimensional artifacts, 3,000,000 documents, 500,000 photographs, and 12,000 hours of recorded media. This collection ensures that baseball history and its unique connection to American history will be preserved and recounted for future generations.

(4) Since its opening in 1939, more than 14,000,000 baseball fans have visited the National Baseball Hall of Fame and Museum to learn about the history of our national pastime and the game’s connection to the American experience.

(5) The National Baseball Hall of Fame and Museum is an educational institution, reaching 10,000,000 Americans annually. Utilizing video conference technology, students and teachers participate in interactive lessons led by educators from the National Baseball Hall of Fame Museum. These award-winning educational programs draw upon the wonders of baseball to reach students in classrooms nationwide. Each educational program uses baseball as a lens for teaching young Americans important lessons on an array of topics, including

mathematics, geography, civil rights, women’s history, economics, industrial technology, arts, and communication.

### SEC. 3. COIN SPECIFICATIONS.

(d) SENSE OF CONGRESS.—It is the sense of Congress that, to the extent possible without significantly adding to the purchase price of the coins, the \$1 coins and \$5 coins minted under this Act should be produced in a fashion similar to the 2009 International Year of Astronomy coins issued by Monnaie de Paris, the French Mint, so that the reverse of the coin is convex to more closely resemble a baseball and the obverse concave, providing a more dramatic display of the obverse design chosen pursuant to section 4(c).

### SEC. 4. DESIGN OF COINS.

(a) IN GENERAL.—The design for the coins minted under this Act shall be—

(1) selected by the Secretary after consultation with—

- (A) the National Baseball Hall of Fame;

The Secretary shall encourage 3-dimensional models to be submitted as part of the design proposals.

(3) **PROPOSALS.**—As part of the competition described in this subsection, the Secretary may accept proposals from artists, engravers of the United States Mint, and members of the general public.

(4) **COMPENSATION.**—The Secretary shall determine compensation for the winning design under this subsection, which shall be not less than \$5,000. The Secretary shall take into account this compensation amount when determining the sale price described in section 6(a).

(d) **REVERSE DESIGN.**—The design on the common reverse of the coins minted under this Act shall depict a baseball similar to those used by Major League Baseball.

#### **SEC. 5. ISSUANCE OF COINS.**

(a) **QUALITY OF COINS.**—Coins minted under this Act shall be issued in uncirculated and proof qualities.

(b) **PERIOD FOR ISSUANCE.**—The Secretary may issue coins minted under this Act only during the 1-year period beginning on January 1, 2014.

#### **SEC. 6. SALE OF COINS.**

(a) **SALE PRICE.**—The coins issued under this Act shall be sold by the Secretary at a price equal to the sum of—

(1) the face value of the coins;

(2) the surcharge provided in section 7(a) with respect to such coins; and

(3) the cost of designing and issuing the coins (including labor, materials, dies, use of machinery, winning design compensation, overhead expenses, marketing, and shipping).

(b) **BULK SALES.**—The Secretary shall make bulk sales of the coins issued under this Act at a reasonable discount.

(c) **PREPAID ORDERS.**—

(a) **IN GENERAL.**—All sales of coins minted under this Act shall include a surcharge as follows:

(1) A surcharge of \$35 per coin for the \$5 coin.

(2) A surcharge of \$10 per coin for the \$1 coin.

(3) A surcharge of \$5 per coin for the half-dollar coin.

(b) **DISTRIBUTION.**—Subject to section 5134(f) of title 31, United States Code, all surcharges received by the Secretary from the sale of coins issued under this Act shall be promptly paid by the Secretary to the National Baseball Hall of Fame to help finance its operations.

(c) AUDITS.—The National Baseball Hall of Fame shall be subject to the audit requirements of section 5134(f)(2) of title 31, United States Code, with regard to the amounts received under subsection (b).

(d) LIMITATION.—Notwithstanding subsection (a), no surcharge may be included with respect to the issuance under this Act of any coin during a calendar year if, as of the time of such issuance, the issuance of such coin would result in the number of commemorative coin programs issued during such year to exceed the annual commemorative coin program issuance limitation under section 5112(m)(1) of title 31, United States Code (as in effect on the date of the enactment of this Act). The Secretary of the Treasury may issue guidance to carry out this subsection.

#### **SEC. 8. FINANCIAL ASSURANCES.**

The Secretary shall take such actions as may be necessary to ensure that—

(1) minting and issuing coins under this Act will not result in any net cost to the United States Government; and

(2) no funds, including applicable surcharges, are disbursed to any recipient designated in section 7 until the total cost of designing and issuing all of the coins authorized by this Act (including labor, materials, dies, use of machinery, winning design compensation, overhead expenses, marketing, and shipping) is recovered by the United States Treasury, consistent with sections 5112(m) and 5134(f) of title 31, United States Code.

#### **SEC. 9. BUDGET COMPLIANCE.**

The budgetary effects of this Act, for the purpose of complying with the Statutory Pay-As-You-Go Act of 2010, shall be determined by reference to the latest statement titled “Budgetary Effects of PAYGO Legislation” for this Act, submitted for printing in the Congressional Record by the Chairman of the Committee on the Budget of the House of Representatives, provided that such statement has been submitted prior to the vote on passage.

## **TITLE I—EXPANSION OF MULTILATERAL SANCTIONS REGIME WITH RESPECT TO IRAN**

22 USC 8711.

#### **SEC. 101. SENSE OF CONGRESS ON ENFORCEMENT OF MULTILATERAL SANCTIONS REGIME AND EXPANSION AND IMPLEMENTATION OF SANCTIONS LAWS.**

It is the sense of Congress that the goal of compelling Iran to abandon efforts to acquire a nuclear weapons capability and other threatening activities can be effectively achieved through a comprehensive policy that includes economic sanctions, diplomacy,

and military planning, capabilities and options, and that this objective is consistent with the one stated by President Barack Obama in the 2012 State of the Union Address: “Let there be no doubt: America is determined to prevent Iran from getting a nuclear weapon, and I will take no options off the table to achieve that goal”. Among the economic measures to be taken are—

(1) prompt enforcement of the current multilateral sanctions regime with respect to Iran;

(2) full, timely, and vigorous implementation of all sanctions enacted into law, including sanctions imposed or expanded by this Act or amendments made by this Act, through—

(A) intensified monitoring by the President and the designees of the President, including the Secretary of the Treasury, the Secretary of State, and senior officials in the intelligence community (as defined in section 3(4) of the National Security Act of 1947 (50 U.S.C. 401a(4)), as appropriate;

(B) more extensive use of extraordinary authorities provided for under the International Emergency Economic Powers Act (50 U.S.C. 1701 et seq.) and other sanctions laws;

(C) reallocation of resources to provide the personnel necessary, within the Department of the Treasury, the Department of State, and the Department of Commerce, and, where appropriate, the intelligence community, to apply and enforce sanctions; and

(D) expanded cooperation with international sanctions enforcement efforts;

(3) urgent consideration of the expansion of existing sanctions with respect to such areas as—

(A) the provision of energy-related services to Iran;

(B) the provision of insurance and reinsurance services to Iran;

(C) the provision of shipping services to Iran; and

(D) those Iranian financial institutions not yet designated for the imposition of sanctions that may be acting as intermediaries for Iranian financial institutions that are designated for the imposition of sanctions; and

(4) a focus on countering Iran’s efforts to evade sanctions, including—

(A) the activities of telecommunications, Internet, and satellite service providers, in and outside of Iran, to ensure that such providers are not participating in or facilitating, directly or indirectly, the evasion of the sanctions regime with respect to Iran or violations of the human rights of the people of Iran;

(B) the activities of financial institutions or other businesses or government agencies, in or outside of Iran, not yet designated for the imposition of sanctions; and

(C) urgent and ongoing evaluation of Iran’s energy, national security, financial, and telecommunications sectors, to gauge the effects of, and possible defects in, particular sanctions, with prompt efforts to correct any gaps in the existing sanctions regime with respect to Iran.

22 USC 8712.

**SEC. 102. DIPLOMATIC EFFORTS TO EXPAND MULTILATERAL SANCTIONS REGIME.**

(a) **MULTILATERAL NEGOTIATIONS.**—Congress urges the President to intensify diplomatic efforts, both in appropriate international fora such as the United Nations and bilaterally with allies of the United States, for the purpose of—

(1) expanding the United Nations Security Council sanctions regime to include—

(A) a prohibition on the issuance of visas to any official of the Government of Iran who is involved in—

(i) human rights violations in or outside of Iran;

(ii) the development of a nuclear weapons program and a ballistic missile capability in Iran; or

(iii) support by the Government of Iran for terrorist organizations, including Hamas and Hezbollah; and

(B) a requirement that each member country of the United Nations—

(i) prohibit the Islamic Republic of Iran Shipping Lines from landing at seaports, and cargo flights of Iran Air from landing at airports, in that country because of the role of those organizations in proliferation and illegal arms sales; and

(ii) apply the prohibitions described in clause (i) to other Iranian entities designated for the imposition of sanctions on or after the date of the enactment of this Act;

(2) expanding the range of sanctions imposed with respect to Iran by allies of the United States;

(3) expanding efforts to limit the development of petroleum resources and the importation of refined petroleum products by Iran;

(4) developing additional initiatives to—

(A) increase the production of crude oil in countries other than Iran; and

(B) assist countries that purchase or otherwise obtain crude oil or petroleum products from Iran to eliminate their dependence on crude oil and petroleum products from Iran; and

(5) eliminating the revenue generated by the Government of Iran from the sale of petrochemical products produced in Iran to other countries.

President.

(b) **REPORTS TO CONGRESS.**—Not later than 180 days after the date of the enactment of this Act, and every 180 days thereafter, the President shall submit to the appropriate congressional committees a report on the extent to which diplomatic efforts described in subsection (a) have been successful that includes—

Public Law 112–168  
112th Congress

An Act

To require a report on the designation of the Haqqani Network as a foreign terrorist organization and for other purposes.

Aug. 10, 2012  
[S. 1959]

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. SHORT TITLE.**

This Act may be cited as the “Haqqani Network Terrorist Designation Act of 2012”.

Haqqani  
Network  
Terrorist  
Designation  
Act of 2012.

**SEC. 2. REPORT ON DESIGNATION OF THE HAQQANI NETWORK AS A FOREIGN TERRORIST ORGANIZATION.**

(a) FINDINGS.—Congress makes the following findings:

(1) A report of the Congressional Research Service on relations between the United States and Pakistan states that “[t]he terrorist network led by Jalaluddin Haqqani and his son Sirajuddin, based in the FATA, is commonly identified as the most dangerous of Afghan insurgent groups battling U.S.-led forces in eastern Afghanistan”.

Jalaluddin  
Haqqani.

(2) The report further states that, in mid-2011, the Haqqanis undertook several high-visibility attacks in Afghanistan. First, a late June assault on the Intercontinental Hotel in Kabul by 8 Haqqani gunmen and suicide bombers left 18 people dead. Then, on September 10, a truck bomb attack on a United States military base by Haqqani fighters in the Wardak province injured 77 United States troops and killed 5 Afghans. A September 13 attack on the United States Embassy compound in Kabul involved an assault that sparked a 20-hour-long gun battle and left 16 Afghans dead, 5 police officers and at least 6 children among them.

(3) The report further states that “U.S. and Afghan officials concluded the Embassy attackers were members of the Haqqani network”.

(4) In September 22, 2011, testimony before the Committee on Armed Services of the Senate, Chairman of the Joint Chiefs of Staff Admiral Mullen stated that “[t]he Haqqani network, for one, acts as a veritable arm of Pakistan’s Inter-Services Intelligence agency. With ISI support, Haqqani operatives plan and conducted that [September 13] truck bomb attack, as well as the assault on our embassy. We also have credible evidence they were behind the June 28th attack on the Intercontinental Hotel in Kabul and a host of other smaller but effective operations”.

(5) In October 27, 2011, testimony before the Committee on Foreign Affairs of the House of Representatives, Secretary

of State Hillary Clinton stated that “we are taking action to target the Haqqani leadership on both sides of the border. We’re increasing international efforts to squeeze them operationally and financially. We are already working with the Pakistanis to target those who are behind a lot of the attacks against Afghans and Americans. And I made it very clear to the Pakistanis that the attack on our embassy was an outrage and the attack on our forward operating base that injured 77 of our soldiers was a similar outrage.”

(6) At the same hearing, Secretary of State Clinton further stated that “I think everyone agrees that the Haqqani Network has safe havens inside Pakistan; that those safe havens give them a place to plan and direct operations that kill Afghans and Americans.”

Haji Mali Kahn.

(7) On November 1, 2011, the United States Government added Haji Mali Kahn to a list of specially designated global terrorists under Executive Order 13224. The Department of State described Khan as “a Haqqani Network commander” who has “overseen hundreds of fighters, and has instructed his subordinates to conduct terrorist acts.” The designation continued, “Mali Khan has provided support and logistics to the Haqqani Network, and has been involved in the planning and execution of attacks in Afghanistan against civilians, coalition forces, and Afghan police”. According to Jason Blazakis, the chief of the Terrorist Designations Unit of the Department of State, Khan also has links to al-Qaeda.

Sirajuddin  
Haqqani.

(8) Five other top Haqqani Network leaders have been placed on the list of specially designated global terrorists under Executive Order 13224 since 2008, and three of them have been so placed in the last year. Sirajuddin Haqqani, the overall leader of the Haqqani Network as well as the leader of the Taliban’s Mira shah Regional Military Shura, was designated by the Secretary of State as a terrorist in March 2008, and in March 2009, the Secretary of State put out a bounty of \$5,000,000 for information leading to his capture. The other four individuals so designated are Nasiruddin Haqqani, Khalil al Rahman Haqqani, Badruddin Haqqani, and Mullah Sangeen Zadrani.

Nasiruddin  
Haqqani.  
Khalil al  
Rahman  
Haqqani.  
Badruddin  
Haqqani.  
Mullah Sangeen  
Zadrani.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) the Haqqani Network meets the criteria for designation as a foreign terrorist organization as set forth in section 219 of the Immigration and Nationality Act (8 U.S.C. 1189); and

(2) the Secretary of State should so designate the Haqqani Network as a foreign terrorist organization under such section 219.

(c) REPORT.—

(1) REPORT REQUIRED.—Not later than 30 days after the date of the enactment of this Act, the Secretary of State shall submit to the appropriate committees of Congress—

(A) a detailed report on whether the Haqqani Network meets the criteria for designation as a foreign terrorist organization as set forth in section 219 of the Immigration and Nationality Act (8 U.S.C. 1189); and

(B) if the Secretary determines that the Haqqani Network does not meet the criteria set forth under such section 219, a detailed justification as to which criteria have not been met.

(2) FORM.—The report required by paragraph (1) shall be submitted in unclassified form, but may include a classified annex.

(3) APPROPRIATE COMMITTEES OF CONGRESS DEFINED.—In this subsection, the term “appropriate committees of Congress” means—

(A) the Committee on Armed Services, the Committee on Foreign Relations, the Committee on the Judiciary, and the Select Committee on Intelligence of the Senate; and

(B) the Committee on Armed Services, the Committee on Foreign Affairs, the Committee on the Judiciary, and the Permanent Select Committee on Intelligence of the House of Representatives.

(d) CONSTRUCTION.—Nothing in this Act may be construed to infringe upon the sovereignty of Pakistan to combat militant or terrorist groups operating inside the boundaries of Pakistan.

An Act

To reauthorize the North Korean Human Rights Act of 2004, and for other purposes.

Aug. 16, 2012  
[H.R. 4240]

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. SHORT TITLE.**

This Act may be cited as the “Ambassador James R. Lilley and Congressman Stephen J. Solarz North Korea Human Rights Reauthorization Act of 2012”.

Ambassador  
James R. Lilley  
and  
Congressman  
Stephen J. Solarz  
North Korea  
Human Rights  
Reauthorization  
Act of 2012.  
22 USC 7801  
note.  
22 USC 7801  
note.

**SEC. 2. FINDINGS.**

Congress finds the following:

(1) The North Korean Human Rights Act of 2004 (Public Law 108–333; 22 U.S.C. 7801 et seq.) and the North Korean Human Rights Reauthorization Act of 2008 (Public Law 110–346) were the product of broad, bipartisan consensus regarding the promotion of human rights, transparency in the delivery of humanitarian assistance, and the importance of refugee protection.

(2) In addition to the longstanding commitment of the United States to refugee and human rights advocacy, the United States is home to the largest Korean population outside of northeast Asia, and many in the two-million strong Korean-American community have family ties to North Korea.

(3) Although the transition to the leadership of Kim Jong-Un after the death of Kim Jong-Il has introduced new uncertainties and possibilities, the fundamental human rights and humanitarian conditions inside North Korea remain deplorable, North Korean refugees remain acutely vulnerable, and the findings in the 2004 Act and 2008 Reauthorization remain substantially accurate today.

Kim Jong-Un.  
Kim Jong-Il.

(4) Media and nongovernmental organizations have reported a crackdown on unauthorized border crossing during the North Korean leadership transition, including authorization for on-the-spot execution of attempted defectors, as well as an increase in punishments during the 100-day official mourning period after the death of Kim Jong-Il.

(5) Notwithstanding high-level advocacy by the United States, the Republic of Korea, and the United Nations High Commissioner for Refugees, China has continued to forcibly repatriate North Koreans, including dozens of presumed refugees who were the subject of international humanitarian appeals during February and March of 2012.

(6) The United States, which has the largest international refugee resettlement program in the world, has resettled 128

North Koreans since passage of the 2004 Act, including 23 North Koreans in fiscal year 2011.

(7) In a career of Asia-focused public service that spanned more than half a century, including service as a senior United States diplomat in times and places where there were significant challenges to human rights, Ambassador James R. Lilley also served as a director of the Committee for Human Rights in North Korea until his death in 2009.

(8) Following his 18 years of service in the House of Representatives, including as Chairman of the Foreign Affairs Subcommittee on East Asian and Pacific Affairs, Stephen J. Solarz committed himself to, in his words, highlighting “the plight of ordinary North Koreans who are denied even the most basic human rights, and the dramatic and heart-rending stories of those who risk their lives in the struggle to escape what is certainly the world’s worst nightmare”, and served as co-chairman of the Committee for Human Rights in North Korea until his death in 2010.

#### **SEC. 3. SENSE OF CONGRESS.**

It is the sense of Congress that—

(1) the United States should continue to seek cooperation from foreign governments to allow the United States to process North Korean refugees overseas for resettlement in the United States, through persistent diplomacy by senior officials of the United States, including United States ambassadors to Asia-Pacific countries, and close cooperation with its ally, the Republic of Korea; and

(2) because there are genuine refugees among North Koreans fleeing into China who face severe punishments upon their forcible return, the United States should urge the People’s Republic of China to—

(A) immediately halt its forcible repatriation of North Koreans;

(B) fulfill its obligations pursuant to the 1951 United Nations Convention Relating to the Status of Refugees, the 1967 Protocol Relating to the Status of Refugees, and the 1995 Agreement on the Upgrading of the UNHCR Mission in the People’s Republic of China to UNHCR Branch Office in the People’s Republic of China; and

(C) allow the United Nations High Commissioner for Refugees (UNHCR) unimpeded access to North Koreans inside China to determine whether such North Koreans are refugees requiring protection.

#### **SEC. 4. SUPPORT FOR HUMAN RIGHTS AND DEMOCRACY PROGRAMS.**

Section 102(b)(1) of the North Korean Human Rights Act of 2004 (22 U.S.C. 7812(b)(1)) is amended by striking “2012” and inserting “2017”.

#### **SEC. 5. RADIO BROADCASTING TO NORTH KOREA.**

Not later than 120 days after the date of the enactment of this Act, the Broadcasting Board of Governors (BBG) shall submit to the appropriate congressional committees, as defined in section 5(1) of the North Korean Human Rights Act of 2004 (22 U.S.C. 7803(1)), a report that describes the status and content of current United States broadcasting to North Korea and the extent to which the BBG has achieved the goal of 12-hour-per-day broadcasting

**SEC. 6. ACTIONS TO PROMOTE FREEDOM OF INFORMATION.**

Subsections (b)(1) and (c) of section 104 of the North Korean Human Rights Act of 2004 (22 U.S.C. 7814) is amended by striking “2012” and inserting “2017” each place it appears.

**SEC. 7. SPECIAL ENVOY ON NORTH KOREAN HUMAN RIGHTS ISSUES.**

Section 107(d) of the North Korean Human Rights Act of 2004 (22 U.S.C. 7817(d)) is amended by striking “2012” and inserting “2017”.

**SEC. 8. REPORT ON UNITED STATES HUMANITARIAN ASSISTANCE.**

Section 201(a) of the North Korean Human Rights Act of 2004 (22 U.S.C. 7831(a)) is amended, in the matter preceding paragraph (1), by striking “2012” and inserting “2017”.

**SEC. 9. ASSISTANCE PROVIDED OUTSIDE OF NORTH KOREA.**

Section 203(c)(1) of the North Korean Human Rights Act of 2004 (22 U.S.C. 7833(c)(1)) is amended—

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. FINDINGS.**

Congress finds the following:

(2) The contributions of Frederick Douglass over many decades were crucial to the abolition of slavery, the passage of the 13th, 14th, and 15th Amendments to the Constitution of the United States, the support for women’s suffrage, and the advancement of African-Americans after the Civil War.

(3) After living in New Bedford, Massachusetts, Frederick Douglass resided for 25 years in Rochester, New York, where he published and edited “The North Star”, the leading African-American newspaper in the United States, and other publications.

(4) Self-educated, Frederick Douglass wrote several influential books, including his best-selling first autobiography, “Narrative of the Life of Frederick Douglass, an American Slave”, published in 1845.

(5) Frederick Douglass worked tirelessly for the emancipation of African-American slaves, was a pivotal figure in Underground Railroad activities, and was an inspiration to enslaved Americans who aspired to freedom.

(6) As a well-known speaker in great demand, Frederick Douglass traveled widely, visiting countries such as England and Ireland, to spread the message of emancipation and equal rights.

(7) Frederick Douglass was the only African-American to attend the Seneca Falls Convention, a women’s rights convention held in Seneca Falls, New York in 1848.

(8) During the Civil War, Frederick Douglass recruited African-Americans to volunteer as soldiers for the Union Army, including 2 of his sons, who served nobly in the Fifty-Fourth Massachusetts Regiment.

(9) In 1872, Frederick Douglass moved to Washington, DC, after a fire destroyed his home in Rochester, New York.

(10) Frederick Douglass was appointed as a United States Marshal in 1877 and was named Recorder of Deeds for the District of Columbia in 1881.

(11) Frederick Douglass became the first African-American to receive a vote for nomination as President of the United States at a major party convention for the 1888 Republican National Convention.

(1) A decision review time that would otherwise end on a Saturday, Sunday, or federal holiday, will be extended to end on the next business day.

(2) All requests for new uses (food and/or nonfood) contained in any application for a new active ingredient or a first food use are covered by the base fee for that new active ingredient or first food use application and retain the same decision time review period as the new active ingredient or first food use application. The application must be received by the agency in one package. The base fee for the category covers a maximum of five new products. Each application for an additional new product registration and new inert approval that is submitted in the new active ingredient application package or first food use application package is subject to the registration service fee for a new product or a new inert approval. All such associated applications that are submitted together will be subject to the new active ingredient or first food use decision review time. In the case of a new active ingredient application, until that new active ingredient is approved, any subsequent application for another new product containing the same active ingredient or an amendment to the proposed labeling will be deemed a new active ingredient application, subject to the registration service fee and decision review time for a new active ingredient. In the case of a first food use application, until that first food use is approved, any subsequent application for an additional new food use or uses will be subject to the registration service fee and decision review time for a first food use. Any information that (a) was neither requested nor required by the Agency, and (b) is submitted by the applicant at the applicant's initiative to support the application after completion of the technical deficiency screening, and (c) is not itself a covered registration application, must be assessed 25% of the full registration service fee for the new active ingredient or first food use application.

(3) Where the action involves approval of a new or amended label, on or before the end date of the decision review time, the Agency shall provide to the applicant a draft accepted label, including any changes made by the Agency that differ from the applicant-submitted label and relevant supporting data reviewed by the Agency. The applicant will notify the Agency that the applicant either (a) agrees to all of the terms associated with the draft accepted label as amended by the Agency and requests that it be issued as the accepted final Agency-stamped label; or (b) does not agree to one or more of the terms of the draft accepted label as amended by the Agency and requests additional time to resolve the difference(s); or (c) withdraws the application without prejudice for subsequent resubmission, but forfeits the associated registration service fee. For cases described in (b), the applicant shall have up to 30 calendar days to reach agreement with the Agency on the final terms of the Agency-accepted label. If the applicant agrees to all of the terms of the accepted label as in (a), including upon resolution of differences in (b), the Agency shall provide an accepted final Agency-stamped label to the registrant within 2 business days following the registrant's written or electronic confirmation of agreement to the Agency.

(4) Amendment applications to add the new use(s) to registered product labels are covered by the base fee for the new use(s). All items in the covered application must be submitted together in one package. Each application for an additional new product registration and new inert approval(s) that is submitted in the new use application package is subject to the registration service fee for a new product or a new inert approval. However, if a new use application only proposes to register the new use for a new product and there are no amendments in the application, then review of one new product application is covered by the new use fee. All such associated applications that are submitted together will be subject to the new use decision review time. Any application for a new product or an amendment to the proposed labeling (a) submitted subsequent to submission of the new use application and (b) prior to conclusion of its decision review time and (c) containing the same new uses, will be deemed a separate new-use application, subject to a separate registration service fee and new decision review time for a new use. If the new-use application includes non-food (indoor and/or outdoor), and food (outdoor and/or indoor) uses, the appropriate fee is due for each type of new use and the longest decision review time applies to all of the new uses requested in the application. Any information that (a) was neither requested nor required by the Agency, and (b) is submitted by the applicant at the applicant's initiative to support the application after completion of the technical deficiency screen, and (c) is not itself a covered registration application, must be assessed 25% of the full registration service fee for the new use application.

Extension.

(1) A decision review time that would otherwise end on a Saturday, Sunday, or federal holiday, will be extended to end on the next business day.

(2) All requests for new uses (food and/or nonfood) contained in any application for a new active ingredient or a first food use are covered by the base fee for that new active ingredient or first food use application and retain the same decision time review period as the new active ingredient or first food use application. The application must be received by the agency in one package. The base fee for the category covers a maximum of five new products. Each application for an additional new product registration and new inert approval that is submitted in the new active ingredient application package or first food use application package is subject to the registration service fee for a new product or a new inert approval. All such associated applications that are submitted together will be subject to the new active ingredient or first food use decision review time. In the case of a new active ingredient application, until that new active ingredient is approved, any subsequent application for another new product containing the same active ingredient or an amendment to the proposed labeling will be deemed a new active ingredient application, subject to the registration service fee and decision review time for a new active ingredient. In the case of a first food use application, until that first food use is approved, any subsequent application for an additional new food use or uses will be subject to the registration service fee and decision review time for a first food use. Any information that (a) was neither requested nor required by the Agency, and (b) is submitted by the applicant at the applicant's initiative to support the application after completion of the technical deficiency screening, and (c) is not itself a covered registration application, must be assessed 25% of the full registration service fee for the new active ingredient or first food use application.

(3) Where the action involves approval of a new or amended label, on or before the end date of the decision review time, the Agency shall provide to the applicant a draft accepted label, including any changes made by the Agency that differ from the applicant-submitted label and relevant supporting data reviewed by the Agency. The applicant will notify the Agency that the applicant either (a) agrees to all of the terms associated with the draft accepted label as amended by the Agency and requests that it be issued as the accepted final Agency-stamped label; or (b) does not agree to one or more of the terms of the draft accepted label as amended by the Agency and requests additional time to resolve the difference(s); or (c) withdraws the application without prejudice for subsequent resubmission, but forfeits the associated registration service fee. For cases described in (b), the applicant shall have up to 30 calendar days to reach agreement with the Agency on the final terms of the Agency-accepted label. If the applicant agrees to all of the terms of the accepted label as in (a), including upon resolution of differences in (b), the Agency shall provide an accepted final Agency-stamped label to the registrant within 2 business days following the registrant's written or electronic confirmation of agreement to the Agency.

(3) If EPA data rules are amended to newly require clearance under section 408 of the FFDCA for an ingredient of an antimicrobial product where such ingredient was not previously subject to such a clearance, then review of the data for such clearance of such product is not subject to a registration service fee for the tolerance action for two years from the effective date of the rule.

(4) Where the action involves approval of a new or amended label, on or before the end date of the decision review time, the Agency shall provide to the applicant a draft accepted label, including any changes made by the Agency that differ from the applicant-submitted label and relevant supporting data reviewed by the Agency. The applicant will notify the Agency that the applicant either (a) agrees to all of the terms associated with the draft accepted label as amended by the Agency and requests that it be issued as the accepted final Agency-stamped label; or (b) does not agree to one or more of the terms of the draft accepted label as amended by the Agency and requests additional time to resolve the difference(s); or (c) withdraws the application without prejudice for subsequent resubmission, but forfeits the associated registration service fee. (5) Amendment applications to add the new use(s) to registered product labels are covered by the base fee for the new use(s). All items in the covered application must be submitted together in one package. Each application for an additional new product registration and new inert approval(s) that is submitted in the new use application package is subject to the registration service fee for a new product or a new inert approval. However, if a new use application only proposes to register the new use for a new product and there are no amendments in the application, then review of one new product application is covered by the new use fee. All such associated applications that are submitted together will be subject to the new use decision review time. Any application for a new product or an amendment to the proposed labeling (a) submitted subsequent to submission of the new use application and (b) prior to conclusion of its decision review time and (c) containing the same new uses, will be deemed a separate new-use application, subject to a separate registration service fee and new decision review time for a new use. If the new-use application includes non-food (indoor and/or outdoor), and food (outdoor and/or indoor) uses, the appropriate fee is due for each type of new use and the longest decision review time applies to all of the new uses requested in the application. Any information that (a) was neither requested nor required by the Agency, and (b) is submitted by the applicant at the applicant's initiative to support the application after completion of the technical deficiency screen, and (c) is not itself a covered registration application, must be assessed 25% of the full registration service fee for the new use application.

Extension.

(1) A decision review time that would otherwise end on a Saturday, Sunday, or federal holiday, will be extended to end on the next business day.

(2) All requests for new uses (food and/or nonfood) contained in any application for a new active ingredient or a first food use are covered by the base fee for that new active ingredient or first food use application and retain the same decision time review period as the new active ingredient or first food use application. The application must be received by the agency in one package. The base fee for the category covers a maximum of five new products. Each application for an additional new product registration and new inert approval that is submitted in the new active ingredient application package or first food use application package is subject to the registration service fee for a new product or a new inert approval. All such associated applications that are submitted together will be subject to the new active ingredient or first food use decision review time, except where the new inert approval decision review time is greater than that for the new active ingredient, in which case the associated new active ingredient will be subject to the new inert approval decision review time. In the case of a new active ingredient application, until that new active ingredient is approved, any subsequent application for another new product containing the same active ingredient or an amendment to the proposed labeling will be deemed a new active ingredient application, subject to the registration service fee and decision review time for a new active ingredient. In the case of a first food use application, until that first food use is approved, any subsequent application for an additional new food use or uses will be subject to the registration service fee and decision review time for a first food use. Any information that (a) was neither requested nor required by the Agency, and (b) is submitted by the applicant at the applicant's initiative to support the application after completion of the technical deficiency screening, and (c) is not itself a covered registration application, must be assessed 25% of the full registration service fee for the new active ingredient or first food use application.

(3) An application for a new end-use product using a source of active ingredient that (a) is not yet registered but (b) has an application pending with the Agency for review, will be considered an application for a new product with an unregistered source of active ingredient.

(4) (a) EPA-initiated amendments shall not be charged registration service fees. (b) Registrant-initiated fast-track amendments are to be completed within the timelines specified in FIFRA Section 3(c)(3)(B) and are not subject to registration service fees. (c) Registrant-initiated fast-track amendments handled by the Antimicrobials Division are to be completed within the timelines specified in FIFRA Section 3(h) and are not subject to registration service fees. (d) Registrant initiated amendments submitted by notification under PR Notices, such as PR Notice 98-10, continue under PR Notice timelines and are not subject to registration service fees. (e) Submissions with data and requiring data review are subject to registration service fees.

(5) Amendment applications to add the new use(s) to registered product labels are covered by the base fee for the new use(s). All items in the covered application must be submitted together in one package. Each application for an additional new product registration and new inert approval(s) that is submitted in the new use application package is subject to the registration service fee for a new product or a new inert approval. However, if a new use application only proposes to register the new use for a new product and there are no amendments in the application, then review of one new product application is covered by the new use fee. All such associated applications that are submitted together will be subject to the new use decision review time. Any application for a new product or an amendment to the proposed labeling (a) submitted subsequent to submission of the new use application and (b) prior to conclusion of its decision review time and (c) containing the same new uses, will be deemed a separate new-use application, subject to a separate registration service fee and new decision review time for a new use. If the new-use application includes non-food (indoor and/or outdoor), and food (outdoor and/or indoor) uses, the appropriate fee is due for each type of new use and the longest decision review time applies to all of the new uses requested in the application. Any information that (a) was neither requested nor required by the Agency, and (b) is submitted by the applicant at the applicant's initiative to support the application after completion of the technical deficiency screen, and (c) is not itself a covered registration application, must be assessed 25% of the full registration service fee for the new use application.

Extension.

(1) A decision review time that would otherwise end on a Saturday, Sunday, or federal holiday, will be extended to end on the next business day.

(2) New PIP = a PIP with an active ingredient that has not been registered.

(3) Registered PIP = a PIP with an active ingredient that is currently registered.

(4) Transfer registered PIP through conventional breeding for new food/feed use, such as from field corn to sweet corn.

(5) The scientific data involved in this category are complex. EPA often seeks technical advice from the Scientific Advisory Panel on risks that pesticides pose to wildlife, farm workers, pesticide applicators, non-target species, as well as insect resistance, and novel scientific issues surrounding new technologies. The scientists of the SAP neither make nor recommend policy decisions. They provide advice on the science used to make these decisions. Their advice is invaluable to the EPA as it strives to protect humans and the environment from risks posed by pesticides. Due to the time it takes to schedule and prepare for meetings with the SAP, additional time and costs are needed.

(6) Registered PIPs stacked through conventional breeding.

(7) Deployment of a registered PIP with a different IRM plan (e.g., seed blend).

(8) The negotiated acreage cap will depend upon EPA's determination of the potential environmental exposure, risk(s) to non-target organisms, and the risk of targeted pest developing resistance to the pesticidal substance. The uncertainty of these risks may reduce the allowable acreage, based upon the quantity and type of non-target organism data submitted and the lack of insect resistance management data, which is usually not required for seed-increase registrations. Registrants are encouraged to consult with EPA prior to submission of a registration application in this category.

(9) Application can be submitted prior to or concurrently with an application for commercial registration.

(10) For example, IRM plan modifications that are applicant-initiated.

(11) EPA-initiated amendments shall not be charged fees.

Extension.

(1) A decision review time that would otherwise end on a Saturday, Sunday, or federal holiday, will be extended to end on the next business day.

(2) If another covered application is associated with and dependent upon a pending application for an inert ingredient action, each application will be subject to its respective registration service fee. The decision review time for the other associated covered application will be extended to match the PRIA due date of the pending inert ingredient action, unless the PRIA due date for the other associated covered action is further out, in which case it will be subject to its own decision review time. If the application covers multiple ingredients grouped by EPA into one chemical class, a single registration service fee will be assessed for approval of those ingredients.

(3) If EPA data rules are amended to newly require clearance under section 408 of the FFDCA for an ingredient of an antimicrobial product where such ingredient was not previously subject to such a clearance, then review of the data for such clearance of such product is not subject to a registration service fee for the tolerance action for two years from the effective date of the rule.

(4) Any other covered application that is associated with and dependent on the HSRB review will be subject to its separate registration service fee. The decision review times for the associated actions run concurrently, but will end at the date of the latest review time.

(5) Any other covered application that is associated with and dependent on the SAP review will be subject to its separate registration service fee. The decision review time for the associated action will be extended by the decision review time for the SAP review.

(6) An application for a new end-use product using a source of active ingredient that (a) is not yet registered but (b) has an application pending with the Agency for review, will be considered an application for a new product with an unregistered source of active ingredient.

(7) Where the action involves approval of a new or amended label, on or before the end date of the decision review time, the Agency shall provide to the applicant a draft accepted label, including any changes made by the Agency that differ from the applicant-submitted label and relevant supporting data reviewed by the Agency. The applicant will notify the Agency that the applicant either (a) agrees to all of the terms associated with the draft accepted label as amended by the Agency and requests that it be issued as the accepted final Agency-stamped label; or (b) does not agree to one or more of the terms of the draft accepted label as amended by the Agency and requests additional time to resolve the difference(s); or (c) withdraws the application without prejudice for subsequent resubmission, but forfeits the associated registration service fee. For cases described in (b), the applicant shall have up to 30 calendar days to reach agreement with the Agency on the final terms of the Agency-accepted label. To establish a Border Enforcement Security Task Force program to enhance border security by fostering coordinated efforts among Federal, State, and local border and law enforcement officials to protect United States border cities and communities from trans-national crime, including violence associated with drug trafficking, arms smuggling, illegal alien trafficking and smuggling, violence, and kidnapping along and across the international borders of the United States, and for other purposes.

Dec. 7, 2012  
[H.R. 915]

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. SHORT TITLE.**

This Act may be cited as the “Jaime Zapata Border Enforcement Security Task Force Act”.

**SEC. 2. FINDINGS AND DECLARATION OF PURPOSES.**

Congress finds the following:

(1) The Department of Homeland Security’s (DHS) over-riding mission is to lead a unified national effort to protect the United States. United States Immigration and Customs Enforcement (ICE) is the largest investigative agency within DHS and is charged with enforcing a wide array of laws, including laws related to securing the border and combating criminal smuggling.

(2) Mexico’s northern border with the United States has experienced a dramatic surge in border crime and violence in recent years due to intense competition between Mexican drug cartels and criminal smuggling organizations that employ predatory tactics to realize their profits.

(3) Law enforcement agencies at the United States northern border also face challenges from transnational smuggling organizations.

(4) In response, DHS has partnered with Federal, State, local, tribal, and foreign law enforcement counterparts to create the Border Enforcement Security Task Force (BEST) initiative as a comprehensive approach to addressing border security threats. These multi-agency teams are designed to increase information-sharing and collaboration among the participating law enforcement agencies.

(5) BEST teams incorporate personnel from ICE, United States Customs and Border Protection (CBP), the Drug Enforcement Administration (DEA), the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATFE), the Federal Bureau of Investigation (FBI), the United States Coast Guard (USCG), and the U.S. Attorney’s Office (USAO), along with other key Federal, State and local law enforcement agencies.

(6) Foreign law enforcement agencies participating in BEST include Mexico’s Secretaria de Seguridad Publica (SSP), the Canada Border Services Agency (CBSA), the Ontario Provincial Police (OPP), and the Royal Canadian Mounted Police (RCMP).

**SEC. 3. BORDER ENFORCEMENT SECURITY TASK FORCE.**

(a) **IN GENERAL.**—Subtitle C of title IV of the Homeland Security Act of 2002 (6 U.S.C. 231 et seq.) is amended by adding at the end the following:

“(a) **ESTABLISHMENT.**—There is established within the Department a program to be known as the Border Enforcement Security Task Force (referred to in this section as ‘BEST’).

“(b) **PURPOSE.**—The purpose of BEST is to establish units to enhance border security by addressing and reducing border security threats and violence by—

“(1) facilitating collaboration among Federal, State, local, tribal, and foreign law enforcement agencies to execute coordinated activities in furtherance of border security, and homeland security; and

“(2) enhancing information-sharing, including the dissemination of homeland security information among such agencies.

“(c) **COMPOSITION AND ESTABLISHMENT OF UNITS.**—

“(1) **COMPOSITION.**—BEST units may be comprised of personnel from—

“(A) U.S. Immigration and Customs Enforcement;

“(B) U.S. Customs and Border Protection;

“(C) the United States Coast Guard;

“(D) other Department personnel, as appropriate

“(E) other Federal agencies, as appropriate;

“(F) appropriate State law enforcement agencies;

“(G) foreign law enforcement agencies, as appropriate;

“(H) local law enforcement agencies from affected border cities and communities; and

“(I) appropriate tribal law enforcement agencies.

“(2) **ESTABLISHMENT OF UNITS.**—The Secretary is authorized to establish BEST units in jurisdictions in which such units can contribute to BEST missions, as appropriate. Before establishing a BEST unit, the Secretary shall consider—

“(A) whether the area in which the BEST unit would be established is significantly impacted by cross-border threats;

“(B) the availability of Federal, State, local, tribal, and foreign law enforcement resources to participate in the BEST unit;

“(C) the extent to which border security threats are having a significant harmful impact in the jurisdiction in which the BEST unit is to be established, and other jurisdictions in the country; and

“(D) whether or not an Integrated Border Enforcement Team already exists in the area in which the BEST unit would be established.

“(3) **DUPLICATION OF EFFORTS.**—In determining whether to establish a new BEST unit or to expand an existing BEST unit in a given jurisdiction, the Secretary shall ensure that the BEST unit under consideration does not duplicate the

efforts of other existing interagency task forces or centers within that jurisdiction.

“(d) OPERATION.—After determining the jurisdictions in which to establish BEST units under subsection (c)(2), and in order to provide Federal assistance to such jurisdictions, the Secretary may—

“(1) direct the assignment of Federal personnel to BEST, subject to the approval of the head of the department or agency that employs such personnel; and

“(2) take other actions to assist Federal, State, local, and tribal entities to participate in BEST, including providing financial assistance, as appropriate, for operational, administrative, and technological costs associated with the participation of Federal, State, local, and tribal law enforcement agencies in BEST.

“(e) REPORT.—Not later than 180 days after the date on which BEST is established under this section, and annually thereafter for the following 5 years, the Secretary shall submit a report to Congress that describes the effectiveness of BEST in enhancing border security and reducing the drug trafficking, arms smuggling, illegal alien trafficking and smuggling, violence, and kidnapping along and across the international borders of the United States, as measured by crime statistics, including violent deaths, incidents of violence, and drug-related arrests.”.

Sergei Magnitsky  
Rule of Law  
Accountability  
Act of 2012.  
22 USC 5811  
note.

**TITLE IV—SERGEI MAGNITSKY RULE OF LAW ACCOUNTABILITY ACT OF 2012****SEC. 401. SHORT TITLE.**

This title may be cited as the “Sergei Magnitsky Rule of Law Accountability Act of 2012”.

**SEC. 402. FINDINGS; SENSE OF CONGRESS.**

(a) **FINDINGS.**—Congress finds the following:

(1) The United States aspires to a mutually beneficial relationship with the Russian Federation based on respect for human rights and the rule of law, and supports the people of the Russian Federation in their efforts to realize their full economic potential and to advance democracy, human rights, and the rule of law.

(2) The Russian Federation—

(A) is a member of the United Nations, the Organization for Security and Co-operation in Europe, the Council of Europe, and the International Monetary Fund;

(B) has ratified the Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment, the International Covenant on Civil and Political Rights, and the United Nations Convention against Corruption; and

(C) is bound by the legal obligations set forth in the European Convention on Human Rights.

(3) States voluntarily commit themselves to respect obligations and responsibilities through the adoption of international agreements and treaties, which must be observed in good faith in order to maintain the stability of the international order. Human rights are an integral part of international law, and lie at the foundation of the international order. The protection of human rights, therefore, particularly in the case of a country that has incurred obligations to protect human rights under an international agreement to which it is a party, is not left exclusively to the internal affairs of that country.

(4) Good governance and anti-corruption measures are instrumental in the protection of human rights and in achieving

sustainable economic growth, which benefits both the people of the Russian Federation and the international community through the creation of open and transparent markets.

(5) Systemic corruption erodes trust and confidence in democratic institutions, the rule of law, and human rights protections. This is the case when public officials are allowed to abuse their authority with impunity for political or financial gains in collusion with private entities.

(6) The Russian nongovernmental organization INDEM has estimated that bribes by individuals and businesses in the Russian Federation amount to hundreds of billions of dollars a year, an increasing share of the country's gross domestic product.

(7) Sergei Leonidovich Magnitsky died on November 16, 2009, at the age of 37, in Matrosskaya Tishina Prison in Moscow, Russia, and is survived by a mother, a wife, and 2 sons.

(8) On July 6, 2011, Russian President Dmitry Medvedev's Human Rights Council announced the results of its independent investigation into the death of Sergei Magnitsky. The Human Rights Council concluded that Sergei Magnitsky's arrest and detention was illegal; he was denied access to justice by the courts and prosecutors of the Russian Federation; he was investigated by the same law enforcement officers whom he had accused of stealing Hermitage Fund companies and illegally obtaining a fraudulent \$230,000,000 tax refund; he was denied necessary medical care in custody; he was beaten by 8 guards with rubber batons on the last day of his life; and the ambulance crew that was called to treat him as he was dying was deliberately kept outside of his cell for one hour and 18 minutes until he was dead. The report of the Human Rights Council also states the officials falsified their accounts of what happened to Sergei Magnitsky and, 18 months after his death, no officials had been brought to trial for his false arrest or the crime he uncovered. The impunity continued in April 2012, when Russian authorities dropped criminal charges against Larisa Litvinova, the head doctor at the prison where Magnitsky died.

(9) The systematic abuse of Sergei Magnitsky, including his repressive arrest and torture in custody by officers of the Ministry of the Interior of the Russian Federation that Mr. Magnitsky had implicated in the embezzlement of funds from the Russian Treasury and the misappropriation of 3 companies from his client, Hermitage Capital Management, reflects how deeply the protection of human rights is affected by corruption.

(10) The politically motivated nature of the persecution of Mr. Magnitsky is demonstrated by—

(A) the denial by all state bodies of the Russian Federation of any justice or legal remedies to Mr. Magnitsky during the nearly 12 full months he was kept without trial in detention; and

(B) the impunity since his death of state officials he testified against for their involvement in corruption and the carrying out of his repressive persecution.

(11) The Public Oversight Commission of the City of Moscow for the Control of the Observance of Human Rights in Places of Forced Detention, an organization empowered by

Russian law to independently monitor prison conditions, concluded on December 29, 2009, “A man who is kept in custody and is being detained is not capable of using all the necessary means to protect either his life or his health. This is a responsibility of a state which holds him captive. Therefore, the case of Sergei Magnitsky can be described as a breach of the right to life. The members of the civic supervisory commission have reached the conclusion that Magnitsky had been experiencing both psychological and physical pressure in custody, and the conditions in some of the wards of Butyrka can be justifiably called torturous. The people responsible for this must be punished.”.

(12) Sergei Magnitsky’s experience, while particularly illustrative of the negative effects of official corruption on the rights of an individual citizen, appears to be emblematic of a broader pattern of disregard for the numerous domestic and international human rights commitments of the Russian Federation and impunity for those who violate basic human rights and freedoms.

(13) The second trial, verdict, and sentence against former Yukos executives Mikhail Khodorkovsky and Platon Lebedev evoke serious concerns about the right to a fair trial and the independence of the judiciary in the Russian Federation. The lack of credible charges, intimidation of witnesses, violations of due process and procedural norms, falsification or withholding of documents, denial of attorney-client privilege, and illegal detention in the Yukos case are highly troubling. The Council of Europe, Freedom House, and Amnesty International, among others, have concluded that they were charged and imprisoned in a process that did not follow the rule of law and was politically influenced. Furthermore, senior officials of the Government of the Russian Federation, including First Deputy Prime Minister Igor Shuvalov, have acknowledged that the arrest and imprisonment of Khodorkovsky were politically motivated.

(14) According to Freedom House’s 2011 report entitled “The Perpetual Battle: Corruption in the Former Soviet Union and the New EU Members”, “[t]he highly publicized cases of Sergei Magnitsky, a 37-year-old lawyer who died in pretrial detention in November 2009 after exposing a multimillion-dollar fraud against the Russian taxpayer, and Mikhail Khodorkovsky, the jailed business magnate and regime critic who was sentenced at the end of 2010 to remain in prison through 2017, put an international spotlight on the Russian state’s contempt for the rule of law \* \* \*. By silencing influential and accomplished figures such as Khodorkovsky and Magnitsky, the Russian authorities have made it abundantly clear that anyone in Russia can be silenced.”.

(15) The tragic and unresolved murders of Nustap Abdurakhmanov, Maksharip Aushev, Natalya Estemirova, Akhmed Hadjimagomedov, Umar Israilov, Paul Klebnikov, Anna Politkovskaya, Saihadji Saihadjiev, and Magomed Y. Yevloyev, the death in custody of Vera Trifonova, the disappearances of Mokhmadalakh Masaev and Said-Saleh Ibragimov, the torture of Ali Israilov and Islam Umarpashaev, the near-fatal beatings of Mikhail Beketov, Oleg Kashin, Arkadiy Lander, and Mikhail Vinyukov, and the harsh and ongoing

imprisonment of Mikhail Khodorkovsky, Alexei Kozlov, Platon Lebedev, and Fyodor Mikheev further illustrate the grave danger of exposing the wrongdoing of officials of the Government of the Russian Federation, including Chechen leader Ramzan Kadyrov, or of seeking to obtain, exercise, defend, or promote internationally recognized human rights and freedoms.

(b) SENSE OF CONGRESS.—It is the sense of Congress that the United States should continue to strongly support, and provide assistance to, the efforts of the Russian people to establish a vibrant democratic political system that respects individual liberties and human rights, including by enhancing the provision of objective information through all relevant media, such as Radio Liberty and the internet. The Russian Government's suppression of dissent and political opposition, the limitations it has imposed on civil society and independent media, and the deterioration of economic and political freedom inside Russia are of profound concern to the United States Government and to the American people.

**SECTION 1. SHORT TITLE.**

This Act may be cited as the “March of Dimes Commemorative Coin Act of 2012”.

**SEC. 2. FINDINGS.**

The Congress finds the following:

(1) President Franklin Roosevelt’s personal struggle with polio led him to create the National Foundation for Infantile Paralysis (now known as the March of Dimes) on January 3, 1938, at a time when polio was on the rise.

(2) The Foundation established patient aid programs and funded research for polio vaccines developed by Jonas Salk, MD, and Albert Sabin, MD.

(3) Tested in a massive field trial in 1954 that involved 1.8 million schoolchildren known as “polio pioneers”, the Salk vaccine was licensed for use on April 12, 1955 as “safe, effective, and potent”. The Salk and Sabin polio vaccines funded by the March of Dimes ended the polio epidemic in the United States.

(4) With its original mission accomplished, the Foundation turned its focus to preventing birth defects, prematurity, and infant mortality in 1958. The Foundation began to fund research into the genetic, prenatal, and environmental causes of over 3,000 birth defects.

(5) The Foundation’s investment in research has led to 13 scientists winning the Nobel Prize since 1954, including Dr. James Watson’s discovery of the double helix.

(6) Virginia Apgar, MD, creator of the Apgar Score, helped develop the Foundation’s mission for birth defects prevention; joining the Foundation as the head of its new birth defects division in 1959.

(7) In the 1960s, the Foundation created over 100 birth defects treatment centers, and then turned its attention to assisting in the development of Neonatal Intensive Care Units, or NICUs.

(8) With March of Dimes support, a Committee on Perinatal Health released *Toward Improving the Outcome of Pregnancy* in 1976, which included recommendations that led to the regionalization of perinatal health care in the United States.

(9) Since 1998, the March of Dimes has advocated for and witnessed the passage of the Birth Defects Prevention Act, Children’s Health Act, PREEMIE Act, and Newborn Screening Save Lives Act.

(10) In 2003, the March of Dimes launched a Prematurity Campaign to increase awareness about and reduce the incidence of preterm birth, infant mortality, birth defects, and lifelong disabilities and disorders.

(11) The March of Dimes actively promotes programs for and funds research into newborn screening, pulmonary surfactant therapy, maternal nutrition, smoking cessation, folic acid consumption to prevent neural tube defects, increased access to maternity care, and similar programs to improve maternal and infant health.
