

ried or single, gay or straight, natural or adoptive—and every child deserves someone who will step up and fill this role. My Administration proudly supports dads who are not only present but also involved, who meet their commitments to their sons and daughters, even if their own fathers did not.

Today, let us reflect on our fathers' essential contributions to our lives, our society, and our Nation. Let us thank the men who understand there is nothing more important than being the best fathers they can be.

NOW, THEREFORE, I, BARACK OBAMA, President of the United States of America, in accordance with a joint resolution of the Congress approved April 24, 1972, as amended (36 U.S.C. 109), do hereby proclaim June 15, 2014, as Father's Day. I direct the appropriate officials of the Government to display the flag of the United States on all Government buildings on this day, and I call upon all citizens to observe this day with appropriate programs, ceremonies, and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this thirteenth day of June, in the year of our Lord two thousand fourteen, and of the Independence of the United States of America the two hundred and thirty-eighth.

BARACK OBAMA

Proclamation 9143 of June 17, 2014

National Day of Making, 2014

By the President of the United States of America

A Proclamation

Our Nation is home to a long line of innovators who have fueled our economy and transformed our world. Through the generations, American inventors have lit our homes, propelled humanity into the skies, and helped people across the planet connect at the click of a button. American manufacturers have never stopped chasing the next big breakthrough. As a country, we respond to challenge with discovery, determined to meet our great tests while seeking out new frontiers. During the National Day of Making, we celebrate and carry forward this proud tradition.

Today, more and more Americans are gaining access to 21st century tools, from 3D printers and scanners to design software and laser cutters. Thanks to the democratization of technology, it is easier than ever for inventors to create just about anything. Across our Nation, entrepreneurs, students, and families are getting involved in the Maker Movement. My Administration is increasing their access to advanced design and research tools while organizations, businesses, public servants, and academic institutions are doing their part by investing in makerspaces and mentoring aspiring inventors.

I am committed to helping Americans of all ages bring their ideas to life. Alongside our partners, my Administration is getting tens of thousands of young people involved in making. We are supporting an apprenticeship program for modern manufacturing and encouraging

startups to build their products here at home. Because science, technology, engineering, and mathematics (STEM) are essential to invention, we launched a decade-long national effort to train 100,000 excellent STEM teachers. And we are expanding STEM AmeriCorps so that this summer, 18,000 low-income students will have learning opportunities in these vital fields.

As we observe this day, I am proud to host the first-ever White House Maker Faire. This event celebrates every maker—from students learning STEM skills to entrepreneurs launching new businesses to innovators powering the renaissance in American manufacturing. I am calling on people across the country to join us in sparking creativity and encouraging invention in their communities.

Today, let us continue on the path of discovery, experimentation, and innovation that has been the hallmark not only of human progress, but also of our Nation's progress. Together, let us unleash the imagination of our people, affirm that we are a Nation of makers, and ensure that the next great technological revolution happens right here in America.

NOW, THEREFORE, I, BARACK OBAMA, President of the United States of America, by virtue of the authority vested in me by the Constitution and the laws of the United States, do hereby proclaim June 18, 2014, as National Day of Making. I call upon all Americans to observe this day with programs, ceremonies, and activities that encourage a new generation of makers and manufacturers to share their talents and hone their skills.

IN WITNESS WHEREOF, I have hereunto set my hand this seventeenth day of June, in the year of our Lord two thousand fourteen, and of the Independence of the United States of America the two hundred and thirty-eighth.

BARACK OBAMA

Proclamation 9144 of June 20, 2014

70th Anniversary of the GI Bill of Rights

By the President of the United States of America

A Proclamation

In the Second World War, a generation risked their lives for people they had never met and ideals none of us could live without. As they fought to liberate a continent and safeguard the American way of life, our Nation resolved to serve them as well as they were serving us. After months of heated debate and hard-fought compromise, President Franklin D. Roosevelt signed the Servicemen's Readjustment Act of 1944, better known as the GI Bill of Rights.

When patriots who had left our shores as barely more than boys returned as heroes, the GI Bill allowed them to launch their civilian lives. It provided unemployment benefits, home loan guaranties, and subsidies for a college education. This bill marked the first time higher education was available to large cross-sections of the American people. Because veterans took advantage of this unprecedented opportunity, our Nation developed the most talented workforce in history. Millions
