

stitution and the laws of the United States, do hereby proclaim October 2014 as National Energy Action Month. I call upon the citizens of the United States to recognize this month by working together to achieve greater energy security, a more robust economy, and a healthier environment for our children.

IN WITNESS WHEREOF, I have hereunto set my hand this thirtieth day of September, in the year of our Lord two thousand fourteen, and of the Independence of the United States of America the two hundred and thirty-ninth.

BARACK OBAMA

Proclamation 9183 of September 30, 2014

National Substance Abuse Prevention Month, 2014

By the President of the United States of America

A Proclamation

Substance abuse disrupts our families, schools, and communities and limits the success of young people across our country. It destroys relationships and stands in the way of academic achievement. Every day, thousands of young Americans try drugs or alcohol for the first time, and for many, this decision will have a profound impact on their health and well-being. This month, we join with families, schools, and local leaders to promote safe and healthy neighborhoods and help ensure all our children have the support and resources they need to achieve their full potential.

Preventing substance use before it begins is the most effective way to eliminate the damage caused by drugs and the abuse of alcohol. That is why my Administration's 2014 *National Drug Control Strategy* supports evidence-based education and outreach programs that connect with young people at schools, on college campuses, and in the workplace. This year, through the Drug-Free Communities Support Program, we are investing in 680 local coalitions that are working to reduce substance use in cities and towns across our country. These partners raise awareness of the harms associated with drug and alcohol use and create supportive environments that foster good decisionmaking.

Substance use affects everyone, and each of us can play a part in helping the next generation make choices that support physical, mental, behavioral, and emotional health. Parents, mentors, and community members can model a healthy lifestyle and should talk with kids early and often about the dangers of drug and alcohol use. During National Substance Abuse Prevention Month, we recognize all those who work to prevent substance use in our neighborhoods, and we renew our commitment to building a safer, drug-free America. Together, we can make sure all children have the opportunity to pursue happy, fulfilling, and productive lives.

NOW, THEREFORE, I, BARACK OBAMA, President of the United States of America, by virtue of the authority vested in me by the Constitution and the laws of the United States, do hereby proclaim October 2014 as National Substance Abuse Prevention Month. I call upon all Americans to engage in appropriate programs and activities to promote

comprehensive substance abuse prevention efforts within their communities.

IN WITNESS WHEREOF, I have hereunto set my hand this thirtieth day of September, in the year of our Lord two thousand fourteen, and of the Independence of the United States of America the two hundred and thirty-ninth.

BARACK OBAMA

Proclamation 9184 of October 2, 2014

National Manufacturing Day, 2014

By the President of the United States of America

A Proclamation

With ingenuity and a determined spirit, hardworking Americans are creating products and unlocking new technologies that will shape our Nation and grow our economy. In uncertain times, our parents and grandparents built a robust manufacturing sector that spurred the world's largest economy and strongest middle class. When our generation faced an economy in free fall and an industry on the brink of collapse, we bet on American resilience and American workers, and today innovative technologies, new wellsprings of manufacturing entrepreneurship, and our country's increasing competitiveness are fueling a revitalization of American manufacturing. On National Manufacturing Day, we celebrate all those who proudly stand behind our goods and services made in America, and we renew our commitment to winning the race for the jobs of tomorrow.

America's manufacturers have created jobs at the fastest pace in decades, adding more than 700,000 new jobs since February 2010. Factories are reopening their doors and businesses are hiring new workers; companies that were shipping jobs overseas are bringing those jobs back to America. As we work to rebuild a foundation of growth and prosperity, we have an opportunity to capitalize on this momentum and accelerate the resurgence of American manufacturing.

Ensuring that America is at the forefront of 21st century manufacturing requires research, investment, and a workforce with high-tech skills. That is why my Administration is investing in regional manufacturing hubs, which bring together private industry, leading universities, and public agencies to solve technology challenges too significant for any one firm. These partnerships will help develop cutting-edge technology and train workers in the skills they need for the next generation of American manufacturing. Across our country, we are creating magnets that attract good, high-tech manufacturing jobs—they have the potential to lift up our communities, spark technology that jumpstarts new industries, and fundamentally change the way we build things in America.

My Administration continues to encourage manufacturing production and investment because the next revolution in manufacturing should be an American revolution, and our Nation's promise of opportunity should be within the reach of everyone willing to work for it. In response to my call to action and as part of the first-ever White House
