Public Law 116–10
116th Congress

An Act

Mar. 21, 2019
[S. 49]

To designate the outstation of the Department of Veterans Affairs in North Ogden, Utah, as the Major Brent Taylor Vet Center Outstation.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. FINDINGS.

Congress finds the following:

(1) Major Brent Taylor began his military service following the attacks of September 11, 2001. He joined the Army National Guard in 2003, three days after his engagement to his wife, Jennie. Five of his brothers would eventually serve in the Armed Forces following the deadly attacks.

(2) During his time in the Army National Guard, Major Taylor distinguished himself in service to the United States and the State of Utah. He received a commission as a second lieutenant from the Brigham Young University Reserve Officer Training Corps in 2006, while graduating as a member of the National Society of Collegiate Scholars.

(3) During his impressive career with the Utah National Guard, Major Taylor distinguished himself in multiple specialties, including Intelligence and Military Police. One of his earliest assignments included analyzing foreign language documents in support of the Defense Intelligence Agency. He also led document exploitation efforts in multiple European and South American languages for a variety of intelligence community customers. Major Taylor also managed a team that assessed security vulnerabilities at high-profile facilities across the United States, all while maintaining a successful private sector career in Utah.

(4) Major Taylor was continuously ready to take up a call to arms from the United States and deployed four times in support of operations in Iraq and Afghanistan. His deployed duties varied from Platoon Leader and Combat Advisor to Chief of Staff to the Special Operations Advisory Group, responsible for leading a joint task force advising and assisting an elite Afghan special operations unit.

(5) Throughout his deployments, Major Taylor distinguished himself on several occasions, earning a multitude of awards including the Bronze Star. The citation credits the ability of Major Taylor to think calmly and decisively to keep his subordinates safe while traversing 600,000 miles of roads in Iraq, laden with improvised explosive devices (commonly referred to as “IED”) and ripe for ambush.

(6) During one particularly harrowing mission, Major Taylor’s vehicle was struck by an IED. Although he survived the attack, the wounds he received earned him the Purple Heart.

(7) Major Taylor’s amazing record of service was not limited to the battlefield. In 2010, he served as a member of the North Ogden City Council and, in 2013, Major Taylor was elected mayor. His steadfast leadership led to the city being recognized as “Business Friendly” by the Governor of Utah, and as one of the safest, freest cities in the United States by several organizations. His initiatives included improvements to public works and infrastructure, attracting businesses to the area, developing a local community center, and increasing transparency. His action led his constituents to reelect Major Taylor in 2017.

(8) In 2018, Major Taylor placed himself on a leave of absence from his mayoral duties in order to deploy to Afghanistan, explaining to his constituents, “Service is what leadership is all about.”

(9) While serving in Afghanistan, a dear colleague, Afghani Lieutenant Kefayatullah, was killed shortly before the Afghan elections. Major Taylor wrote, “The strong turnout at that election, despite the attacks and challenges, was a success for the long-suffering people of Afghanistan, and for the cause of human freedom. I am proud of the brave Afghan and U.S. soldiers I serve with. Many American, NATO and Afghan troops have died to make moments like this election possible.”. He also extolled the American public to embrace its civic duty, stating, “I hope everyone back home exercises their precious right to vote. And that whether the Republicans or Democrats win, that we all remember that we have far more as Americans that unites us than divides us.”.

(10) Tragically, on Saturday, November 3, 2018, Major Taylor was killed in an attack in Afghanistan. He was survived by his wife, Jennie, and his seven children, Megan, Lincoln, Alex, Jacob, Ellie, Jonathan, and Caroline.

(11) The impression that Major Taylor left was indelible. An Afghan officer who had served with Major Taylor penned a letter to his wife, stating, “Your husband taught me to love my wife Hamida as an equal and treat my children as treasured gifts, to be a better father, to be a better husband, and to be a better man.”. That officer further commented that, “He died on our soil but he died for the success of freedom and democracy in both of our countries.”.

(12) It is only well and fitting that, as a tribute to the amazing life of Major Taylor, Congress name a facility in honor of Major Taylor’s shining example of service and sacrifice.

SEC. 2. DESIGNATION OF MAJOR BRENT TAYLOR VET CENTER OUTSTATION IN NORTH OGDEN, UTAH.

(a) **DESIGNATION.**—The outstation of the Department of Veterans Affairs located at 2357 North 400 East Washington Boulevard, North Ogden, Utah, shall after the date of the enactment of this Act be known and designated as the “Major Brent Taylor Vet Center Outstation”.

(b) **REFERENCE.**—Any reference in any law, regulation, map, document, paper, or other record of the United States to the facility

referred to in subsection (a) shall be considered to be a reference to the Major Brent Taylor Vet Center Outstation.

Joint Resolution

Requesting the Secretary of the Interior to authorize unique and one-time arrangements for displays on the National Mall and the Washington Monument during the period beginning on July 16, 2019 and ending on July 20, 2019.

July 5, 2019
[H.J. Res. 60]

Whereas Congress enacted the Act of August 12, 1946 (60 Stat. 997; ch. 955, 1), to establish a National Air Museum, later known as the Smithsonian’s National Air and Space Museum (NASM), to commemorate and memorialize the American story of human flight in the atmosphere and in outer space;

Whereas Congress enacted the Act of July 29, 1958 (commonly known as the National Aeronautics and Space Act) (72 Stat. 426–438; 42 U.S.C. 2451 et seq.), to declare a policy of peaceful space activities designed for the benefit of humankind and to establish the National Aeronautics and Space Administration (NASA);

Whereas in July of 1960, NASA announced the creation of the Apollo Program, the Nation’s first orchestrated initiative to ferry humankind out of Earth’s orbit and to the Moon;

Whereas on July 20, 1969, the Apollo 11 Mission succeeded in landing the spacecraft Eagle on the surface of the Moon, piloted by two American astronauts, the first humans to ever make landfall on another celestial body;

Whereas on July 20 and 21, 1969, those brave Americans became the first humans to set foot on the surface of the Moon, forever changing Earth’s relationship with the heavens;

Whereas this momentous event was watched in wonder by hundreds of millions of people back on Earth, including the hundreds of thousands of NASA civilian and military staff and partners who made the Apollo Program possible;

Whereas the Apollo Program continued through December of 1972 and spurred the greatest development of human scientific and technological understanding of any decade to that point, leading to advances in rocketry, spaceflight, avionics, telecommunications, and computers, on which the American public still relies today;

Whereas the National Air and Space Museum opened on the American Bicentennial in July 1976 as a birthday gift to the country in celebration of the Nation’s highest achievements, under the leadership and vision of Museum Director, NASA astronaut, and Apollo 11 Command Module Pilot Michael Collins;

Whereas NASA continues to pursue space exploration on behalf of the American people to increase humankind’s understanding of the heavens; and

Whereas the National Air and Space Museum continues to memorialize the history of American discovery and invention, and seeks to educate and inspire new generations of innovators and explorers to ensure that our future achievements in space are fully empowered by the achievements of the past: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That Congress—

36 USC 101 note.

SEC. 2. FINDINGS AND SENSE OF CONGRESS.

36 USC 21703
note.

(a) **FINDINGS.**—Congress makes the following findings:

(1) Since the end of World War II, the Federal Government has designated specific periods of war, the dates of which are important for qualification for certain benefits or membership in veterans organizations established by Congress.

(2) In between those recognized periods of war, during so-called peacetime eras, the United States military has been involved in not fewer than 12 known eras, which are unrecognized by the United States Government as periods of war, resulting in numerous United States personnel combat casualties.

(3) Those 12 unrecognized war eras occurred at the direction of the then President of the United States, with full knowledge and consent of the then Congress.

(4) The first of those 12 unrecognized war eras involving active United States military personnel was the Greek Civil War, fought in Greece from 1946 to 1949 between the army of the Government of Greece, supported by active military personnel of the United States and the United Kingdom, and the Democratic Army of Greece, the military branch of the Communist Party of Greece.

(5) During the Greek Civil War, one member of the Armed Forces of the United States sacrificed his life in service to the United States, and five others suffered non-combat deaths.

(6) The second of those unrecognized war eras involving active United States military personnel was the Chinese Civil War, which occurred during the aftermath of World War II.

(7) During the Chinese Civil War, the United States military equipped, trained, transported, and supplied the Kuomintang-led Government of the Republic of China with approximately \$4,430,000,000 in its resistance to the Communist Party of China.

(8) During the Chinese Civil War, 14 members of the Armed Forces of the United States sacrificed their lives in service to the United States, 150 non-combatants of the United States lost their lives in the war, and 51 were wounded, resulting in 215 United States military casualties.

(9) The third unrecognized war era involving active United States military personnel is known as the Cold War.

(10) The Cold War was a period spanning from approximately 1947 until 1991 when the Soviet Union collapsed.

(11) Although no direct large-scale military fighting occurred between the militaries of the United States and the Soviet Union, active United States military personnel served in multiple regional conflicts during the Cold War, resulting in the deaths of not fewer than 32 members of the Armed Forces who sacrificed their lives in service to the United States and not fewer than 12 additional casualties.

(12) The fourth unrecognized war era involving active United States military personnel is known as the China Cold War.

(13) The China Cold War started when the Kuomintang-led Government of the Republic of China retreated to the island of Taiwan and lasted until 1972, after President Richard Nixon conducted a landmark state visit to China.

(14) During the military operations of the China Cold War, not fewer than 16 members of the Armed Forces of the United States sacrificed their lives in service to the United States.

(15) The fifth unrecognized war era involving active United States military personnel was the Lebanon Crisis of 1958, which involved more than 14,000 United States personnel and resulted in the death of one member of the Armed Forces who sacrificed his life in service to the United States and five non-combat deaths.

(16) The sixth unrecognized war era involving active United States military personnel was the Bay of Pigs invasion in April 1961.

(17) The Bay of Pigs invasion was a failed military invasion of Cuba undertaken by a United States military group sponsored by the Central Intelligence Agency that resulted in not fewer than one death of a member of the Armed Forces who sacrificed his life in service to the United States and 19 non-combat deaths.

(18) The seventh unrecognized war era involving active United States military personnel was the Cuban Missile Crisis, which took place between October 16 and October 28, 1962.

(19) The Cuban Missile Crisis directly related to homeland protection against the deployment of a Soviet ballistic missile in Cuba.

(20) During the Cuban Missile Crisis, one member of the Armed Forces sacrificed his life in service to the United States and 19 others died as non-combatants.

(21) The eighth unrecognized war era involving active United States military personnel was the Dominican Civil War in 1965.

(22) Operations during the Dominican Civil War resulted in the deaths of 27 members of the Armed Forces who sacrificed their lives in service to the United States, 20 non-combat-related deaths, and 283 wounded.

(23) The ninth unrecognized war era involving active United States military personnel was the Iran Hostage Crisis, which lasted from November 4, 1979, through January 20, 1981.

(24) The Iran Hostage Crisis involved military intervention by the United States which resulted in the deaths of 8 members of the Armed Forces who sacrificed their lives in service to the United States.

(25) The tenth unrecognized war era involving active United States military personnel was the Salvadoran Civil War.

(26) The Salvadoran Civil War lasted more than 12 years, through the terms of two Presidential administrations of the United States, and resulted in the deaths of 22 members of the Armed Forces who sacrificed their lives in service to the United States, 15 non-combat deaths, and 35 other casualties.

(27) The 11th unrecognized war era involving active United States military personnel started on April 5, 1986, when the La Belle discotheque in West Berlin, Germany, was bombed, killing two United States soldiers and wounding 79 other members of the Armed Forces, which triggered what became known as the Libyan Conflict.

(28) The military operations of the Libyan Conflict included numerous air strikes by United States military forces and resulted in the deaths of two members of the Armed Forces who sacrificed their lives in service to the United States.

(29) The Libyan Conflict led to the 12th unrecognized war era involving active United States military personnel, known collectively as the Persian Gulf Conflicts, which lasted from July 24, 1987, through September 26, 1988.

(30) The Persian Gulf Conflicts involved United States military missions to protect Kuwaiti-owned oil tankers which represented the largest United States naval convoy operation since World War II.

(31) The Persian Gulf Conflicts resulted in numerous military operations and the deaths of not fewer than 39 members of the Armed Forces who sacrificed their lives in service to the United States and 31 wounded.

(32) Since the armistice that ended the hostilities of the Korean War on January 31, 1955, nearly 100 active United States military personnel have sacrificed their lives in service to the United States in South Korea, and more than 132 people of the United States have been wounded in-country.

(33) Since January 1, 1947, through all of the unrecognized war eras involving active United States military personnel, not fewer than 778 combat and non-combat members of the Armed Forces have sacrificed their lives in service to the United States and not fewer than 797 have been wounded.

(34) Since January 1, 1947, the unrecognized war eras involving active United States military personnel who were wounded and killed serving their country were administered under orders from the commander in chief and with the consent of Congress, proving that the United States has been conducting deadly wartime service to protect the country consistently since December 7, 1941.

(35) Eligibility for membership in The American Legion is determined by Congress through the establishment of specific

dates of declared and officially recognized hostilities in which United States military personnel are on active service.

(36) The American Legion provides invaluable services to its members and supports the community of veterans who sacrificed in service of the United States.

(37) Membership in The American Legion allows veterans to engage in public service activities, such as supporting Boys and Girls State and Nation, youth mentorship programs, and benefit assistance, career fairs, and employment assistance for veterans.

(38) The American Legion has gone on record as supporting the 12 unrecognized war eras involving active United States military personnel since the beginning of World War II.

(39) The American Legion has aided, assisted, and comforted the families of the men and women who were called to serve or volunteered to serve during all of the unrecognized war eras and continues to provide support to veterans of those eras.

(40) The American Legion has commended the heroic actions of all military personnel who risked their lives in defense of freedom during each of the unrecognized war eras involving active United States military personnel.

(b) SENSE OF CONGRESS.—It is the sense of Congress that, in accordance with the history, tradition, and purposes of The American Legion, it is fair, proper, and reasonable that the privilege of membership in The American Legion should be extended to all military personnel who served on active military duty during all of the unrecognized war eras involving active United States military personnel.

amount equal to not more than 5 percent of the cumulative clean water revolving fund Federal grant dollars to the State to the drinking water revolving fund of the State. Funds transferred pursuant to this subsection shall be used by the State to provide additional subsidy to eligible recipients in the form of forgiveness of principal, negative interest loans, or grants (or any combination of these).

Hidden Figures
Congressional
Gold Medal Act.
31 USC 5111
note.

SEC. 2. FINDINGS.

Congress finds the following:

(1) In 1935, the National Advisory Committee for Aeronautics (referred to in this section as “NACA”) hired five women to serve as the first “computer pool” at the Langley Memorial Aeronautical Laboratory where those women took on work making calculations that male engineers had made previously.

(2) During the 1940s, NACA began recruiting African-American women to work as computers and initially separated those women from their White counterparts in a group known as the “West Area Computers” where the women were restricted to segregated dining and bathroom facilities.

(3) Katherine Johnson was born on August 26, 1918, in White Sulphur Springs, West Virginia.

(4) In 1953, Katherine Johnson began her career in aeronautics as a computer in the segregated West Area Computing unit described in paragraph (2).

(5) As a member of the Flight Research Division, Katherine Johnson analyzed data from flight tests. After NACA was reformulated into the National Aeronautics and Space Administration (referred to in this section as “NASA”), Katherine Johnson—

(A) calculated the trajectory for Alan Shepard’s Freedom 7 mission in 1961, which was the first human spaceflight by an individual from the United States;

(B) coauthored a report that provided the equations for describing orbital spaceflight with a specified landing point, which made her the first woman to be recognized as an author of a report from the Flight Research Division;

(C) was asked to verify the calculations when electronic computers at NASA were used to calculate the orbit for John Glenn’s Friendship 7 mission; and

(D) provided calculations for NASA throughout her career, including for the Apollo missions.

(6) Katherine Johnson retired from NASA in 1986.

(7) Dr. Christine Darden was born on September 10, 1942, in Monroe, North Carolina.

(8) In 1962, Dr. Christine Darden graduated from Hampton Institute with a B.S. in Mathematics and a teaching credential.

(9) Dr. Christine Darden attended Virginia State University where she studied aerosol physics and earned an M.S. in Applied Mathematics.

(10) Dr. Christine Darden began her career in aeronautics in 1967 as a data analyst at NASA's Langley Research Center (referred to in this section as “Langley”) before being promoted to aerospace engineer in 1973. Her work in this position resulted in the production of low-boom sonic effects, which revolutionized aerodynamics design.

(11) Dr. Christine Darden completed her education by earning a Ph.D. in Mechanical Engineering from George Washington University in 1983.

(12) While working at NASA, Dr. Christine Darden—

(A) was appointed to be the leader of the Sonic Boom Team, which worked on designs to minimize the effects of sonic booms by testing wing and nose designs for supersonic aircraft;

(B) wrote more than 50 articles on aeronautics design; and

(C) became the first African American to be promoted to a position in the Senior Executive Service at Langley.

(13) Dorothy Vaughan was born on September 20, 1910, in Kansas City, Missouri.

(14) Dorothy Vaughan began working for NACA in 1943. Dorothy Vaughan—

(A) started at NACA as a member of the West Area Computing unit;

(B) was promoted to be the head of the West Area Computing unit, becoming NACA's first African-American supervisor, a position that she held for 9 years; and

(C) became an expert programmer in FORTRAN as a member of NASA's Analysis and Computation Division.

(15) Dorothy Vaughan retired from NASA in 1971 and died on November 10, 2008.

(16) Mary Jackson was born on April 9, 1921, in Hampton, Virginia.

(17) Mary Jackson started her career at NACA in 1951, working as a computer as a member of the West Area Computing unit.

(18) After petitioning the City of Hampton to allow her to take graduate-level courses in math and physics at night at the all-White Hampton High School, Mary Jackson was able to complete the required training to become an engineer, making her NASA's first female African-American engineer.

(19) Mary Jackson—

(A) while at NACA and NASA—

(i) worked in the Theoretical Aerodynamics Branch of the Subsonic-Transonic Aerodynamics Division at Langley where she analyzed wind tunnel and aircraft flight data; and

(ii) published a dozen technical papers that focused on the boundary layer of air around airplanes; and

(B) after 21 years working as an engineer at NASA, transitioned to a new job as Langley’s Federal Women’s Program Manager where she worked to improve the prospects of NASA’s female mathematicians, engineers, and scientists.

(20) Mary Jackson retired from NASA in 1985 and died in 2005.

(21) These four women, along with the other African-American women in NASA’s West Area Computing unit, were integral to the success of the early space program. The stories of these four women exemplify the experiences of hundreds of women who worked as computers, mathematicians, and engineers at NACA beginning in the 1930s and their handmade calculations played an integral role in—

(A) aircraft testing during World War II;

(B) supersonic flight research;

(C) sending the Voyager probes to explore the solar system; and

(D) the United States landing the first man on the lunar surface.

SEC. 3. CONGRESSIONAL GOLD MEDALS.

(a) PRESENTATION AUTHORIZED.—The Speaker of the House of Representatives and the President pro tempore of the Senate shall make appropriate arrangements for the presentation, on behalf of Congress, of five gold medals of appropriate design as follows:

(2) One gold medal to Dr. Christine Darden for her service to the United States as an aeronautical engineer.

(3) In recognition of their service to the United States during the Space Race—

(A) one gold medal commemorating the life of Dorothy Vaughan; and

(B) one gold medal commemorating the life of Mary Jackson.

(4) One gold medal in recognition of all women who served as computers, mathematicians, and engineers at the National Advisory Committee for Aeronautics and the National Aeronautics and Space Administration between the 1930s and the 1970s (referred to in this section as “recognized women”).

- (i) available for display, as appropriate; and
- (ii) made available for research.

(B) SENSE OF CONGRESS.—It is the sense of Congress that the Smithsonian Institution should make the gold medals received under subparagraph (A) available for—

Wanda Jackson.

(2) TRANSFER TO FAMILY.—After the award of the gold medal in honor of Mary Jackson under subsection (a)(3)(B), the medal shall be given to her granddaughter, Wanda Jackson.

(b) PROCEEDS OF SALE.—Amounts received from the sale of duplicate bronze medals authorized under section 4 shall be deposited into the United States Mint Public Enterprise Fund.

SEC. 7. DETERMINATION OF BUDGETARY EFFECTS.

The budgetary effects of this Act, for the purpose of complying with the Statutory Pay-As-You-Go Act of 2010, shall be determined by reference to the latest statement titled “Budgetary Effects of PAYGO Legislation” for this Act, submitted for printing in the

Congressional Record by the Chairman of the House Budget Committee, provided that such statement has been submitted prior to the vote on passage.

Women’s
Suffrage
Centennial
Commemorative
Coin Act.
31 USC 5112
note.

SEC. 2. FINDINGS; PURPOSE.

(a) **FINDINGS.**—Congress finds the following:

(1) Elizabeth Cady Stanton and Lucretia Mott organized the first Women’s Rights Convention in Seneca Falls, New York. 68 women and 32 men signed the Declaration of Sentiments at the Convention in July 1848.

(2) The Declaration of Sentiments was modeled after the Declaration of Independence and declared that “all men and women are created equal”, linking women’s rights directly to the founding ideals of the United States.

(3) Suffrage activists, including Elizabeth Cady Stanton, Susan B. Anthony, Harriet Tubman, Sojourner Truth, Ida B. Wells, Jovita Idar, Inez Millholland, Mary Church Terrell, Anne Dallas Dudley, Carrie Chapman Catt, Alice Paul, Lucy Burns, Esther Hobart Morris, and many others, conducted over 900 local, State, and Federal campaigns over a 72-year time span to win women the right to vote.

(4) On November 6, 1917, New York granted women the right to vote, which was an act that created momentum for the national movement that culminated in the ratification of the 19th Amendment to the Constitution of the United States 3 years later.

(5) The 19th Amendment to the Constitution of the United States (“The Susan B. Anthony Amendment”) guarantees all United States women the right to vote and was passed by the 66th Congress of the United States on June 4, 1919.

(6) On August 9, 1920, right before the ratification period was set to expire, Governor Albert H. Roberts called a special session of the Tennessee General Assembly to consider the amendment. Pro-suffrage and anti-suffrage activists from around the country descended on Nashville, Tennessee, intent on influencing the legislature.

(7) After the amendment was defeated in a 48–48 tie vote, Tennessee State Representative Harry T. Burn from McMinn

County cast the deciding favorable vote after receiving a note from his mother, Phoebe Ensminger Burn, imploring him to vote yes for ratification.

(8) On August 18, 1920, Tennessee became the 36th and final State needed to pass the 19th Amendment, ensuring its ratification pursuant to Article V of the Constitution of the United States.

(9) The 19th Amendment was ratified on August 26, 1920, when Secretary of State Bainbridge Colby issued a proclamation announcing it has become part of the Constitution of the United States.

(10) The ratification of the 19th Amendment marked the single largest extension of voting rights in United States history, enfranchising 27,000,000 American women in the United States.

(b) PURPOSE.—The purpose of this Act is—

(1) to honor and commemorate the work of women suffrage activists in the late 19th and early 20th centuries;

(2) to increase public awareness and appreciation for the history of the women’s suffrage movement; and

(3) to encourage all women in the United States to exercise their hard-won franchise and to become involved in civic life if they so choose.
