is less than three thousand two hundred pounds, in the case of flue-cured tobacco, and two thousand four hundred pounds in the case of other kinds of tobacco: *Provided*, That the normal yield of the estimated number of acres so added to farm acreage allotments in any State shall be considered as a part of the State marketing quota in applying the proviso in subsection (a). The actual production of the acreage allotment established for a farm pursuant to this subsection shall be the amount of the farm marketing quota. If any amount of tobacco shall be marketed as having been produced on the acreage allotment for any farm which in fact was produced on a different farm, the acreage allotments next established for both such farms shall be reduced by that percentage which such amount was of the respective farm marketing quota, except that such reduction for any such farm shall not be made if the Secretary through the local committees finds that no person connected with such farm caused, aided, or acquiesced in such marketing; and if proof of the disposition of any amount of tobacco is not furnished as required by the Secretary, the acreage allotment next established for the farm on which such tobacco is produced shall be reduced by a percentage similarly computed."
