AN ACT

March 9, 1965
[S. 3]

To provide public works and economic development programs and the planning and coordination needed to assist in development of the Appalachian region.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the "Appalachian Regional Development Act of 1965".

Appalachian
Regional De-
velopment Act of
1965.

FINDINGS AND STATEMENT OF PURPOSE

SEC. 2. The Congress hereby finds and declares that the Appalachian region of the United States, while abundant in natural resources and rich in potential, lags behind the rest of the Nation in its economic growth and that its people have not shared properly in the Nation's prosperity. The region's uneven past development, with its historical reliance on a few basic industries and a marginal agriculture, has failed to provide the economic base that is a vital prerequisite for vigorous, self-sustaining growth. The State and local governments and the people of the region understand their problems and have been working and will continue to work purposefully toward their solution. The Congress recognizes the comprehensive report of the President's Appalachian Regional Commission documenting these findings and concludes that regionwide development is feasible, desirable, and urgently needed. It is, therefore, the purpose of this Act to assist the region in meeting its special problems, to promote its economic development, and to establish a framework for joint Federal and State efforts toward providing the basic facilities essential to its growth and attacking its common problems and meeting its common needs on a coordinated and concerted regional basis. The public investments made in the region under this Act shall be concentrated in areas where

there is a significant potential for future growth, and where the expected return on public dollars invested will be the greatest. The States will be responsible for recommending local and State projects, within their borders, which will receive assistance under this Act. As the region obtains the needed physical and transportation facilities and develops its human resources, the Congress expects that the region will generate a diversified industry, and that the region will then be able to support itself, through the workings of a strengthened free enterprise economy.

TITLE I—THE APPALACHIAN REGIONAL COMMISSION

MEMBERSHIP AND VOTING

SEC. 101. (a) There is hereby established an Appalachian Regional Commission (hereinafter referred to as the "Commission") which shall be composed of one Federal member, hereinafter referred to as the "Federal Cochairman", appointed by the President by and with the advice and consent of the Senate, and one member from each participating State in the Appalachian region. The Federal Cochairman shall be one of the two Cochairmen of the Commission. Each State member may be the Governor, or his designee, or such other person as may be provided by the law of the State which he represents. The State members of the Commission shall elect a Cochairman of the Commission from among their number.

(b) Except as provided in section 105, decisions by the Commission shall require the affirmative vote of the Federal Cochairman and of a majority of the State members (exclusive of members representing States delinquent under section 105). In matters coming before the Commission, the Federal Cochairman shall, to the extent practicable, consult with the Federal departments and agencies having an interest in the subject matter.

(c) Each State member shall have an alternate, appointed by the Governor or as otherwise may be provided by the law of the State which he represents. The President, by and with the advice and consent of the Senate, shall appoint an alternate for the Federal Cochairman. An alternate shall vote in the event of the absence, death, disability, removal, or resignation of the State or Federal representative for which he is an alternate.

(d) The Federal Cochairman shall be compensated by the Federal Government at level IV of the Federal Executive Salary Schedule of the Federal Executive Salary Act of 1964. His alternate shall be compensated by the Federal Government at not to exceed the maximum scheduled rate for grade GS-18 of the Classification Act of 1949, as amended, and when not actively serving as an alternate for the Federal Cochairman shall perform such functions and duties as are delegated to him by the Federal Cochairman. PART C—GENERAL PROVISIONS

MAINTENANCE OF EFFORT

SEC. 221. No State and no political subdivision of such State shall be eligible to receive benefits under this Act unless the aggregate expenditures of State funds, exclusive of Federal funds, for the benefit of the area within the State located in the region are maintained at a level which does not fall below the average level of such expenditures for its last two full fiscal years preceding the date of enactment of this Act. In computing the average level of expenditure for its last two fiscal years, a State's past expenditure for participation in the National System of Interstate and Defense Highways shall not be included. The Commission shall recommend to the President or such Federal officer or officers as the President may designate, a lesser requirement when it finds that a substantial population decrease in that portion of a State which lies within the region would not justify a State expenditure equal to the average level of the last two years or when it finds that a State's average level of expenditure, within an individual program, has been disproportionate to the present need for that portion of the State which lies within the region.

CONSENT OF STATES

SEC. 222. Nothing contained in this Act shall be interpreted as requiring any State to engage in or accept any program under this Act without its consent.

PROGRAM IMPLEMENTATION

(1) the relationship of the project or class of projects to overall regional development including its location in an area determined by the State have a significant potential for growth;

(2) the population and area to be served by the project or class of projects including the relative per capita income and the unemployment rates in the area;

(3) the relative financial resources available to the State or political subdivisions or instrumentalities thereof which seek to undertake the project;

(4) the importance of the project or class of projects in relation to other projects or classes of projects which may be in competition for the same funds;

(5) the prospects that the project for which assistance is sought will improve, on a continuing rather than a temporary basis, the opportunities for employment, the average level of income, or the economic and social development of the area served by the project.

(b) No financial assistance shall be authorized under this Act to be used (1) in relocating any establishment or establishments from one area to another; (2) to finance the cost of industrial plants, commercial facilities, machinery, working capital, or other industrial facilities or to enable plant subcontractors to undertake work theretofore performed in another area by other subcontractors or contractors; (3) to finance the cost of facilities for the generation, transmission, or distribution of electric energy; or (4) to finance the cost of facilities for the production, transmission, or distribution of gas (natural, manufactured, or mixed).

No grants for administrative expenses shall be made to a local development district for a period in excess of three years beginning on the date the initial grant is made to such development district. Nothing contained in this subsection shall deprive the owner of any background patent relating to any such activity, without his consent, of any right which that owner may have under that patent. Whenever any information, copyright, use, process, patent or development resulting from any such research or development activity conducted in whole or in part with appropriated funds expended under authorization of this Act is withheld or disposed of by any person, organization, or agency in contravention of the provisions of this subsection, the Attorney General shall institute, upon his own motion or upon request made by any person having knowledge of pertinent facts, an action for the enforcement of the provisions of this subsection in the district court of the United States for any judicial district in which any defendant resides, is found, or has a place of business. Such court shall have jurisdiction to hear and determine such action, and to enter therein such orders and decrees as it shall determine to be required to carry into effect fully the provisions of this subsection. Process of the district court for any judicial district in any action instituted under this subsection may be served in any other judicial district of the United States by the United States marshal thereof. Whenever it appears to the court in which any such action is pending that other parties should be brought before the court in such action, the court may cause such other parties to be summoned from any judicial district of the United States.
