SEC. 603. (a) Except as provided in subsection (b), any of the amounts specified in titles I, II, III, and IV of this Act, may, in the discretion of the Secretary concerned, be increased by 5 per centum when inside the United States (other than Hawaii and Alaska), and by 10 per centum when outside the United States or in Hawaii and Alaska, if he determines that such increase (1) is required for the sole purpose of meeting unusual variations in cost, and (2) could not have been reasonably anticipated at the time such estimate was submitted to the Congress. However, the total cost of all construction and acquisition in each such title may not exceed the total amount authorized to be appropriated in that title.

Cost variations.

(b) When the amount named for any construction or acquisition in title I, II, III, or IV of this Act involves only one project at any military installation and the Secretary of Defense, or his designee, determines that the amount authorized must be increased by more than the applicable percentage prescribed in subsection (a), the Secre-

tary concerned may proceed with such construction or acquisition if the amount of the increase does not exceed by more than 25 per centum the amount named for such project by the Congress.

Conditions.

(c) Subject to the limitations contained in subsection (a), no individual project authorized under title I, II, III, or IV of this Act for any specifically listed military installation may be placed under contract if—

(1) the estimated cost of such project is \$250,000 or more, and

(2) the current working estimate of the Department of Defense, based on bids received, for the construction of such project exceeds by more than 25 per centum the amount authorized for such project by the Congress, until after the expiration of thirty days from the date on which a written report of the facts relating to the increased cost of such project, including a statement of the reasons for such increase has been submitted to the Committees on Armed Services of the House of Representatives and the Senate.

Report to congressional committees.

Annual report to Congress.

(d) The Secretary of Defense shall submit an annual report to the Congress identifying each individual project which has been placed under contract in the preceding twelve-month period and with respect to which the then current working estimate of the Department of Defense based upon bids received for such project exceeded the amount authorized by the Congress for that project by more than 25 per centum. The Secretary shall also include in such report each individual project with respect to which the scope was reduced in order to permit contract award within the available authorization for such project. Such report shall include all pertinent cost information for each individual project, including the amount in dollars and percentage by which the current working estimate based on the contract price for the project exceeded the amount authorized for such project by the Congress.

Contracts for construction made by the United States for performance within the United States and its possessions under this Act shall be executed under the jurisdiction and supervision of the Corps of Engineers, Department of the Army, or the Naval Facilities Engineering Command, Department of the Navy, or such other department or Government agency as the Secretaries of the military departments recommend and the Secretary of Defense approves to assure the most efficient, expeditious and cost-effective accomplishment of the construction herein authorized. The Secretaries of the military departments shall report annually to the President of the Senate and the Speaker of the House of Representatives a breakdown of the dollar value of construction contracts completed by each of the several construction agencies selected, together with the design, construction, supervision, and overhead fees charged by each of the several agents in the execution of the assigned construction. Further, such contracts (except architect and engineering contracts which, unless specifically authorized by the Congress, shall continue to be awarded in accordance with presently established procedures, customs, and practice) shall be awarded, insofar as practicable, on a competitive basis to the lowest responsible bidder, if the national security will not be impaired and the award is consistent with chapter 137 of title 10, United States Code. (a) The Secretary of Defense is authorized to assist communities located near Grand Forks Air Force Base, Grand Forks, North Dakota, and Malmstrom Air Force Base, Great Falls, Montana, in meeting the costs of providing increased municipal services and facilities to the residents of such communities, if the Secretary determines that there is an immediate and substantial increase in the need for such services and facilities in such communities as a direct result of work being carried out in connection with the construction, installation, testing, and operation of the Safeguard Anti-ballistic Missile System and that an unfair and excessive financial burden will be incurred by such communities as a result of the increased need for such services and facilities.

(b) The Secretary of Defense shall carry out the provisions of this section through existing Federal programs. The Secretary is authorized to supplement funds made available under such Federal programs to the extent necessary to carry out the provisions of this section, and is authorized to provide financial assistance to communities described in subsection (a) of this section to help such communities pay their share of the costs under such programs. The heads of all departments and agencies concerned shall cooperate fully with the Secretary of Defense in carrying out the provisions of this section on a priority basis.

(c) In determining the amount of financial assistance to be made available under this section to any local community for any community service or facility, the Secretary of Defense shall consult with the head of the department or agency of the Federal Government concerned with the type of service or facility for which financial assistance is being made available and shall take into consideration (1) the time lag between the initial impact of increased population in any such community and any increase in the local tax base which will result from such increased population, (2) the possible temporary nature of the increased population and the long-range cost impact on the permanent residence of any such community and (3) such other pertinent factors as the Secretary of Defense deems appropriate.

Funds, availa-

SEC. 611. (a) The Secretary of Defense is directed to undertake a study and to prepare a report on the weapons training now being conducted in the Culebra complex of the Atlantic Fleet Weapons Range. This study shall consider all possible alternatives, geographical and technological, to the training now taking place in the Culebra complex, and shall contain specific recommendations for, together with the estimated costs of, moving all or a part of such activities to a new site or sites, and appropriately modifying such activities to minimize danger to human health and safety. In addition, such study shall consider the feasibility of resettling the people of Culebra to another location in the Commonwealth of Puerto Rico, the cost of such a move, and the attitude of the people of Culebra to a generous resettlement plan that would have to be approved by a majority of the qualified electors of Culebra in a plebiscite. In preparing such study, the Secretary is directed to consider the impact of each of the alternatives on:

- (1) the safety and well-being of the people who live on Culebra;
- (2) the natural and physical environment of Culebra and adjoining cays and their recreational value;

- (4) the unique political relationship of Culebra and Puerto Rico to the United States;
- (5) the operational readiness and proficiency of the Atlantic Fleet; and
- (6) national security.

(b) In preparing the report required by this section, the Secretary shall consult with the people of Culebra, the Government of Puerto Rico, and all appropriate Federal agencies having jurisdiction or special expertise on the subject matter involved. The report required by this subsection shall be transmitted to the President of the United States and to the chairmen of the Committees on Armed Services of the Senate and the House of Representatives no later than April 1, 1971.

(c) Pending the completion of the report required by this section and its review by the President of the United States, the appropriate committee and the Congress, the Department of Navy is directed to avoid any increase or expansion of the present weapons range activities in the Culebra complex and, wherever possible, without degrading the activities, to institute procedures which will minimize interference with the normal activities and the solitude of the people of Culebra.
