Disaster Relief
Act of 1970.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That this Act may be cited as the “Disaster Relief Act of 1970”.

(2) encouraging the development of comprehensive disaster relief plans, programs, and organizations by the States; and

(3) achieving greater coordination and responsiveness of Federal major disaster relief programs.

(2) "United States" means the fifty States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands;

(A) clearing and removing debris and wreckage in accordance with section 224;

(B) making repairs to, restoring to service, or replacing public facilities (including street, road, and highway facilities) of State and local governments damaged or destroyed by a major disaster, except that the Federal contributions therefor shall not exceed the net cost of restoring each such facility on the basis of the design of such facility as it existed immediately prior to the disaster in conformity with current codes, specifications, and standards;

(h) The Director of the Office of Emergency Preparedness is authorized and directed to make in cooperation with the heads of other affected Federal and State agencies, a full and complete investigation and study for the purpose of determining what additional or improved plans, procedures, and facilities are necessary to provide immediate effective action to prevent or minimize losses of publicly or privately owned property and personal injuries or deaths which could result from fires (forest and grass), earthquakes, tornadoes, freezes and frosts, tsunamis, storm surges and tides, and floods, which are or threaten to become major disasters. FEDERAL GRANT-IN-AID PROGRAMS

Waiver.

SEC. 205. Any Federal agency charged with the administration of a Federal grant-in-aid program is authorized, if so requested by the applicant State or local authorities, to modify or waive, for the dura-

tion of a major disaster proclamation, such administrative procedural conditions for assistance as would otherwise prevent the giving of assistance under such programs if the inability to meet such conditions is a result of the disaster.

STATE DISASTER PLANS

SEC. 206. (a) The President is authorized to provide assistance to the States in developing comprehensive plans and practicable programs for preparation against major disasters, and for relief and assistance for individuals, businesses, and local governments following such disasters. Such plans should include long-range recovery and reconstruction assistance plans for seriously damaged or destroyed public and private facilities.

USE AND COORDINATION OF RELIEF ORGANIZATIONS

SEC. 207. (a) In providing relief and assistance following a major disaster, the Director may utilize, with their consent, the personnel and facilities of the American National Red Cross, the Salvation Army, the Mennonite Disaster Service, and other relief or disaster assistance organizations, in the distribution of medicine, food, supplies, or other items, and in the restoration, rehabilitation, or reconstruction of community services and essential facilities whenever the Director finds that such utilization is necessary.

(b) The Director is authorized to enter into agreements with the American National Red Cross, the Salvation Army, the Mennonite Disaster Service, and other relief or disaster assistance organizations under which the disaster relief activities of such organizations may be coordinated by the Federal coordinating officer whenever such organizations are engaged in providing relief during and after a major disaster. Any such agreement shall include provisions conditioning use of the facilities of the Office of Emergency Preparedness and the

(b) The Director shall assure that no person, business concern, or other entity receives any Federal assistance for any part of a loss suffered as the result of a major disaster if such person, concern, or entity received compensation from insurance or any other source for that part of such a loss. Partial compensation for a loss or a part of a loss resulting from a major disaster shall not preclude additional Federal assistance for any part of such a loss not compensated otherwise.

(c) Whenever the Director determines (1) that a person, business concern, or other entity has received assistance under this Act for a loss and that such person, business concern or other entity received assistance for the same loss from another source, and (2) that the amount received from all sources exceeded the amount of the loss, he shall direct such person, business concern, or other entity to pay to the Treasury an amount, not to exceed the amount of Federal assistance received, sufficient to reimburse the Federal Government for that part of the assistance which he deems excessive.

SEC. 209. (a) The Director shall issue, and may alter and amend, such regulations as may be necessary for the guidance of personnel carrying out emergency relief functions at the site of a major disaster. (b) As a condition of participation in the distribution of assistance or supplies under section 207, relief organizations shall be required to comply with regulations relating to nondiscrimination promulgated by the Director, and such other regulations applicable to activities within a major disaster area as he deems necessary for the effective coordination of relief efforts.

of the accommodations being furnished, adjusted to take into consideration the financial ability of the occupant. Notwithstanding any other provision of law, any such emergency housing acquired by purchase may be sold directly to individuals and families who are occupants thereof at prices that are fair and equitable. Any mobile home or readily fabricated dwelling shall be placed on a site complete with utilities provided by State or local government, or by the owner or occupant of the site who was displaced by the major disaster, without charge to the United States. Grants made under this section may be made for the tax year in which the disaster occurred and for each of the following two tax years. The grant for any tax year shall not exceed the difference between the annual average of all property tax revenues received by the local government during the three-tax-year period immediately preceding the tax year in which the major disaster occurred and the actual property tax revenue received by the local government for the tax year in which the disaster occurred and for each of the two tax years following the major disaster but only if there has been no reduction in the tax rates and the tax assessment valuation factors of the local government. If there has been a reduction in the tax rates or the tax assessment valuation factors then, for the purpose of determining the amount of a grant under this section for the year or years when such reduction is in effect, the President shall use the tax rates and tax assessment valuation factors of the local government in effect at the time of the disaster without reduction, in order to determine the property tax revenues which would have been received by the local government but for such reduction.

TIMBER SALE CONTRACTS

SEC. 242. (a) Where an existing timber sale contract between the Secretary of Agriculture or the Secretary of the Interior and a timber purchaser does not provide relief from major physical change not due to negligence of the purchaser prior to approval of construction of any section of specified road or of any other specified development facility and, as a result of a major disaster, a major physical change results in additional construction work in connection with such road or facility by such purchaser with an estimated cost, as determined by the appropriate Secretary, (1) of more than \$1,000 for sales under one million board feet, (2) of more than \$1 per thousand board feet for sales of one of three million board feet, or (3) of more than \$3,000 for sales over three million board feet, such increased construction cost shall be borne by the United States.

(b) If the Secretary determines that damages are so great that restoration, reconstruction, or construction is not practical under the cost-sharing arrangement authorized by subsection (a) of this section, the Secretary may allow cancellation of the contract notwithstanding contrary provisions therein.

(c) The Secretary of Agriculture is authorized to reduce to seven days the minimum period of advance public notice required by the first section of the Act of June 4, 1897 (16 U.S.C. 476), in connection with the sale of timber from national forests, whenever the Secretary determines that (1) the sale of such timber will assist in the construction of any area of a State damaged by a major disaster, (2) the sale of such timber will assist in sustaining the economy of such area, or (3) the sale of such timber is necessary to salvage the value of timber damaged in such major disaster or to protect undamaged timber.

(d) The President, when he determines it to be in the public interest, and acting through the Director of Emergency Preparedness, is authorized to make grants to any State or local government for the purpose of removing from privately owned lands timber damaged as a result of a major disaster, and such State or local government is

authorized upon application, to make payments out of such grants to any person for reimbursement of expenses actually incurred by such person in the removal of damaged timber, not to exceed the amount that such expenses exceed the salvage value of such timber.

MINIMUM STANDARDS FOR RESIDENTIAL STRUCTURE RESTORATION

SEC. 243. No loan or grant made by any relief organization operating under the supervision of the Director, for the repair, restoration, reconstruction, or replacement of any residential structure located in a major disaster area shall be made unless such structure will be repaired, restored, reconstructed, or replaced in accordance with applicable standards of safety, decency, and sanitation and in conformity with applicable building codes and specifications.

FEDERAL FACILITIES

SEC. 251. The President may authorize any Federal agency to repair, reconstruct, restore, or replace any facility owned by the United States and under the jurisdiction of such agency which is damaged or destroyed by any major disaster if he determines that such repair, reconstruction, restoration, or replacement is of such importance and urgency that it cannot reasonably be deferred pending the enactment of specific authorizing legislation or the making of an appropriation for such purposes. In order to carry out the provisions of this section, such repair, reconstruction, restoration, or replacement may be begun notwithstanding a lack or an insufficiency of funds appropriated for such purpose, where such lack or insufficiency can be remedied by the transfer, in accordance with law, of funds appropriated to that agency for another purpose.

STATE AND LOCAL GOVERNMENT FACILITIES

SEC. 252. (a) The President is authorized to make contributions to State or local governments to repair, restore, reconstruct, or replace public facilities belonging to such State or local governments which were damaged or destroyed by a major disaster, except that the Federal contribution therefor shall not exceed 100 per centum of the net cost of repairing, restoring, reconstructing, or replacing any such facility on the basis of the design of such facility as it existed immediately prior to such disaster and in conformity with applicable codes, specifications, and standards.

Federal contributions.

(b) In the case of any such public facilities which were in the process of construction when damaged or destroyed by a major disaster, the Federal contribution shall not exceed 50 per centum of the net costs of restoring such facilities substantially to their prior to such disaster condition and of completing construction not performed prior to the major disaster to the extent the increase of such cost over the original construction cost is attributable to changed conditions resulting from a major disaster.

Limitation.

(c) For the purposes of this section "public facility" includes any flood control, navigation, irrigation, reclamation, public power, sewage treatment and collection, water supply and distribution, watershed development, or airport facility, any non-Federal-aid street, road, or highway, and any other public building, structure, or system, other than one used exclusively for recreation purposes.
