needed rail or nonhighway public mass transit facilities and where
this can be accomplished without impairing automotive safety or
future highway improvements, the Administrator may authorize a
State to make such lands and rights-of-way available without charge
to a publicly owned mass transit authority for such purposes wherever

Sec. 137. (a) Paragraph (3) of subsection (e) of section 103 of title 23, United States Code, is amended as follows:

81 Stat. 772; 84 Stat. 1716.

(2) The fourth sentence is amended by striking out “the 1968 Interstate System cost estimate set forth in House Document Numbered 199, Ninetieth Congress, as revised.” and inserting in lieu thereof the following: “the 1972 Interstate System cost estimate set forth in House Public Works Committee Print Numbered 92-29, as revised in House Report Numbered 92-1443.”

(3) The fifth sentence is amended by striking out “due regard” and inserting in lieu thereof the following: “preference, along with due regard for interstate highway type needs on a nationwide basis.”

“(4) Upon the joint request of a State Governor and the local governments concerned, the Secretary may withdraw his approval of any route or portion thereof on the Interstate System within any urbanized area in that State selected and approved in accordance with this title prior to the enactment of this paragraph, if he determines that such route or portion thereof is not essential to completion of a unified and connected Interstate System or will no longer be essential by reason of the application of this paragraph and will not be constructed as a part of the Interstate System, and if he receives assurances that the State does not intend to construct a toll road in the traffic corridor which would be served by such route or portion thereof. The mileage of the route or portion thereof approval of which is withdrawn under this paragraph shall be available for designation on the Interstate System in any other State in accordance with paragraph (1) of this subsection. After the Secretary has withdrawn his approval of any such route or portion thereof, whenever responsible local officials of such urbanized area notify the State highway department that, in lieu of a route or portion thereof approval for which is withdrawn under this paragraph, their needs require a nonhighway public mass transit project involving the construction of fixed rail facilities, or the purchase of passenger equipment, including rolling stock for any mode of mass transit, or both, and the State highway department determines that such public mass transit project is in accordance with the planning process under section 134 of this title and is entitled to priority under such planning process, such public mass transit project shall be submitted for approval to the Secretary. Approval of the plans, specifications, and estimates for such project by the Secretary shall be deemed a contractual obligation of the United States for payment out of the general funds in the Treasury of its proportional share of the cost of such project in an amount equal to the Federal share which would be paid for such a project under the Urban Mass Transportation Act of 1964, except that the total Federal cost of all such projects under this paragraph with respect to such route or portion thereof approval of which is withdrawn under this paragraph, shall not exceed the Federal share of the cost which would have been paid for such route or portion thereof, as such cost is included in the 1972 Interstate System cost estimate set forth in table 5 of House Public Works Committee Print Numbered 92-29, as revised in House Report Numbered 92-1443. Funds apportioned to such State for the Interstate System, which apportionment is based upon an Interstate System cost estimate that includes a route or portion thereof approval of which is withdrawn under this paragraph, shall be reduced by an amount equal to the Federal share of such project as such share is.
becomes a contractual obligation of the United States. No general funds shall be obligated under authority of this paragraph after June 30, 1981. No nonhighway public mass transit project shall be approved under this paragraph unless the Secretary has received assurances satisfactory to him from the State that public mass transportation systems will fully utilize the proposed project. The provision of assistance under this paragraph shall not be construed as bringing within the application of chapter 15 of title 5, United States Code, any nonsupervisory employee of an urban mass transportation system (or of any other agency or entity performing related functions) to whom such chapter is otherwise inapplicable. Funds available for expenditure to carry out the purposes of this paragraph shall be supplementary to and not in substitution for funds authorized and available for obligation pursuant to the Urban Mass Transportation Act of 1964, as amended. The provisions of section 3(e)(4) of the Urban Mass Transportation Act of 1964, as amended, shall apply in carrying out this paragraph."

Such study shall include an analysis of the magnitude of the various potential sources of user tax revenues, the rates at which such taxes could be levied (including possible differential rates), the mechanisms for collection of such taxes, the incidence of such taxes, and the potential impact on transit usage caused by such taxes. The Secretary shall report to the Congress the findings of his study by no later than the 180th day after the date of enactment of this section.

(c) There is hereby authorized not to exceed $10,000,000 to carry out this section.
