DESIGNATION OF THE NATIONAL PETROLEUM RESERVE IN ALASKA

SEC. 102. The area known as Naval Petroleum Reserve Numbered 4, Alaska, established by Executive order of the President, dated February 27, 1923, except for tract Numbered 1 as described in Public Land Order 2344, dated April 24, 1961, shall be transferred to and administered by the Secretary of the Interior in accordance with the provisions of this Act. Effective on the date of transfer all lands within such area shall be redesignated as the "National Petroleum Reserve in Alaska" (hereinafter in this title referred to as the "reserve"). Subject to valid existing rights, all lands within the exterior boundaries of such reserve are hereby reserved and withdrawn from all forms of entry and disposition under the public land laws, including the mining and mineral leasing laws, and all other Acts; but the Secretary is authorized to (1) make dispositions of mineral materials pursuant to the Act of July 31, 1947 (61 Stat. 681), as amended (30 U.S.C. 601), for appropriate use by Alaska Natives, (2) make such dispositions of mineral materials and grant such rights-of-way, licenses, and permits as may be necessary to carry out his responsibilities under this Act, and (3) convey the surface of lands properly selected on or before December 18, 1975, by Native village corporations pursuant to the Alaska Native Claims Settlement Act. All other provisions of law heretofore enacted and actions heretofore taken reserving such lands as a Naval Petroleum Reserve shall remain in full force and effect to the extent not inconsistent with this Act.

of the enactment of this title. As soon as possible, but not later than the effective date of transfer, the Secretary of the Interior may promulgate such rules and regulations as he deems necessary and appropriate for the protection of such values within the reserve.

(c) The Secretary of the Interior shall, upon the effective date of the transfer of the reserve, assume the responsibilities and functions of the Secretary of the Navy under any contracts which may be in effect with respect to activities within the reserve.

(d) On the date of transfer of jurisdiction of the reserve, all equipment, facilities, and other property of the Department of the Navy used in connection with the operation of the reserve, including all records, maps, exhibits, and other informational data held by the Secretary of the Navy in connection with the reserve, shall be transferred without reimbursement from the Secretary of the Navy to the Secretary of the Interior who shall thereafter be authorized to use them to carry out the provisions of this title.

(e) On the date of transfer of jurisdiction of the reserve, the Secretary of the Navy shall transfer to the Secretary of the Interior all unexpended funds previously appropriated for use in connection with the reserve and all civilian personnel ceilings assigned by the Secretary of the Navy to the management and operation of the reserve as of January 1, 1976.

**ADMINISTRATION OF THE RESERVE**

**Petroleum  
production,  
prohibition.  
42 USC 6504.**

SEC. 104. (a) Except as provided in subsection (e) of this section, production of petroleum from the reserve is prohibited and no development leading to production of petroleum from the reserve shall be undertaken until authorized by an Act of Congress.

**Explorations.**

(b) Any exploration within the Utukok River, the Teshekpuk Lake areas, and other areas designated by the Secretary of the Interior containing any significant subsistence, recreational, fish and wildlife, or historical or scenic value, shall be conducted in a manner which will assure the maximum protection of such surface values to the extent consistent with the requirements of this Act for the exploration of the reserve.

(c) The Secretary of the Navy shall continue the ongoing petroleum exploration program within the reserve until the date of the transfer of jurisdiction specified in section 103(a). Prior to the date of such transfer of jurisdiction the Secretary of the Navy shall—

(1) cooperate fully with the Secretary of the Interior providing him access to such facilities and such information as he may request to facilitate the transfer of jurisdiction;

(2) provide to the Committees on Interior and Insular Affairs of the Senate and the House of Representatives copies of any reports, plans, or contracts pertaining to the reserve that are required to be submitted to the Committees on Armed Services of the Senate and the House of Representatives; and

(3) cooperate and consult with the Secretary of the Interior before executing any new contract or amendment to any existing contract pertaining to the reserve and allow him a reasonable opportunity to comment on such contract or amendment, as the case may be.

(d) The Secretary of the Interior shall commence further petroleum exploration of the reserve as of the date of transfer of jurisdiction specified in section 103(a). In conducting this exploration effort, the Secretary of the Interior—

(1) is authorized to enter into contracts for the exploration of the reserve, except that no such contract may be entered into until

at least thirty days after the Secretary of the Interior has provided the Attorney General with a copy of the proposed contract and such other information as may be appropriate to determine legal sufficiency and possible violations under, or inconsistencies with, the antitrust laws. If, within such thirty day period, the Attorney General advises the Secretary of the Interior that any such contract would unduly restrict competition or be inconsistent with the antitrust laws, then the Secretary of the Interior may not execute that contract;

(2) shall submit to the Committees on Interior and Insular Affairs of the Senate and the House of Representatives any new plans or substantial amendments to ongoing plans for the exploration of the reserve. All such plans or amendments submitted to such committees pursuant to this section shall contain a report by the Attorney General of the United States with respect to the anticipated effects of such plans or amendments on competition. Such plans or amendments shall not be implemented until sixty days after they have been submitted to such committees; and

(3) shall report annually to the Committees on Interior and Insular Affairs of the Senate and the House of Representatives on the progress of, and future plans for, exploration of the reserve.

(e) Until the reserve is transferred to the jurisdiction of the Secretary of the Interior, the Secretary of the Navy is authorized to develop and continue operation of the South Barrow gas field, or such other fields as may be necessary, to supply gas at reasonable and equitable rates to the native village of Barrow, and other communities and installations at or near Point Barrow, Alaska, and to installations of the Department of Defense and other agencies of the United States located at or near Point Barrow, Alaska. conclusions developed as a result of such study together with appropriate supporting data and such recommendations as he deems desirable. The study shall be completed and submitted to such committees, together with recommended procedures and any proposed legislation necessary to implement such procedures not later than January 1, 1980.

42 USC 6505.

(c) (1) The Secretary of the Interior shall establish a task force to conduct a study to determine the values of, and best uses for, the lands contained in the reserve, taking into consideration (A) the natives who live or depend upon such lands, (B) the scenic, historical, recreational, fish and wildlife, and wilderness values, (C) mineral potential, and (D) other values of such lands.

(2) Such task force shall be composed of representatives from the government of Alaska, the Arctic slope native community, and such offices and bureaus of the Department of the Interior as the Secretary of the Interior deems appropriate, including, but not limited to, the Bureau of Land Management, the United States Fish and Wildlife Service, the United States Geological Survey, and the Bureau of Mines.

The Secretary of the Interior shall carry out the provisions of this section through existing Federal programs and he shall consult with the heads of the departments or agencies of the Federal Government concerned with the type of services and facilities for which financial assistance is being made available.

10 USC 7422.

“(a) The Secretary, directly or by contract, lease, or otherwise, shall explore, prospect, conserve, develop, use, and operate the naval petroleum reserves in his discretion, subject to the provisions of subsection

(c) and the other provisions of this chapter; except that no petroleum leases shall be granted at Naval Petroleum Reserves Numbered 1 and 3.

“(b) Except as otherwise provided in this chapter, particularly subsection (c) of this section, the naval petroleum reserves shall be used and operated for—

“(1) the protection, conservation, maintenance, and testing of those reserves; or

Any pipeline in the vicinity of a naval petroleum reserve not otherwise operated as a common carrier may be acquired by the Secretary by condemnation, if necessary, if the owner thereof refuses to accept, convey, and transport without discrimination and at reasonable rates any petroleum produced at such reserve. With the approval of the Secretary, rights-of-way for new pipelines and associated facilities may be acquired by the exercise of the right of eminent domain in the appropriate United States district court. Such rights-of-way may be acquired in the manner set forth in the Act of February 26, 1931, chapter 307 (46 Stat. 1421; 40 U.S.C. 258(a)), and the prospective holder of the right-of-way is ‘the authority empowered by law to acquire the lands’ within the meaning of that Act. “(3) The production authorization set forth in paragraph (1)(B) of this subsection, in the case of Naval Petroleum Reserve Numbered 1, is conditioned upon the private owner of any lands or interests therein within such reserve agreeing with the Secretary to continue operations of such reserve under a unitized plan contract which adequately protects the public interest; however, if such agreement is not reached within ninety days after the date of enactment of the Naval Petroleum Reserves Production Act of 1976 the Secretary is authorized to exercise the authority for condemnation conferred by section 7425 of this chapter.”.

(10) The first sentence of section 7429 is amended by deleting “of the Navy”. 10 USC 7429.

(11) The text of section 7430 is amended to read as follows: 10 USC 7430.

“(a) In administering the naval petroleum reserves under this chapter, the Secretary shall use, store, or sell the petroleum produced from the naval petroleum reserves and lands covered by joint, unit, or other cooperative plans.

“(b) Notwithstanding any other provision of law, each sale of the United States share of petroleum shall be made by the Secretary at public sale to the highest qualified bidder, for periods of not more than one year, at such time, in such amounts, and after such advertising as the Secretary considers proper and without regard to Federal, State, or local regulations controlling sales or allocation of petroleum products. “(d) Each proposal for sale under this title shall provide that the terms of every sale of the United States share of petroleum from the naval petroleum reserves shall be so structured as to give full and

equal opportunity for the acquisition of petroleum by all interested persons, including major and independent oil producers and refiners alike. When the Secretary, in consultation with the Secretary of the Interior, determines that the public interests will be served by the sale of petroleum to small refiners not having their own adequate sources of supply of petroleum, the Secretary is authorized and directed to set aside a portion of the United States share of petroleum produced for sale to such refiners under the provisions of this section for processing or use in such refineries, except that—

“(1) none of the production sold to small refiners may be resold in kind;

“(2) production must be sold at a cost of not less than the prevailing local market price of comparable petroleum;

“(3) the set-aside portion may not exceed 25 per centum of the estimated annual United States share of the total production from all producing naval petroleum reserves; and

“(4) notwithstanding the provisions of subsection (b) of this section, the Secretary may, at his discretion if he deems it to be in the public interest, prorate such petroleum among such refiners for sale, without competition, at not less than the prevailing local market price of comparable petroleum.

“(e) Any petroleum produced from the naval petroleum reserves, except such petroleum which is either exchanged in similar quantities for convenience or increased efficiency of transportation with persons or the government of an adjacent foreign state, or which is temporarily exported for convenience or increased efficiency of transportation across parts of an adjacent foreign state and reenters the United States, shall be subject to all of the limitations and licensing requirements of the Export Administration Act of 1969 (83 Stat. 841) and, in addition, before any petroleum subject to this section may be exported under the limitations and licensing requirement and penalty and enforcement provisions of the Export Administration Act of 1969, the President must make and publish an express finding that such exports will not diminish the total quality or quantity of petroleum available to the United States and that such exports are in the national interest and are in accord with the Export Administration Act of 1969.

“(f) During the period of production or any extension thereof authorized by section 7422(c), the consultation and approval requirements of section 7431(a)(3) are waived.

“(g) (1) Prior to the promulgation of any rules and regulations, plans of development and amendments thereto, and in the entering and making of contracts and operating agreements relating to the development, production, or sale of petroleum in or from the reserves, the Secretary shall consult with and give due consideration to the views of the Attorney General of the United States with respect to matters which may affect competition.

“(2) No contract or operating agreement may be made, issued, or executed under this chapter until at least thirty days after the Secretary notifies the Attorney General of the proposed contract or operating agreement. Such notification shall contain such information as the Attorney General may require in order to advise the Secretary as to whether such contract or operating agreement may create or maintain a situation inconsistent with the antitrust laws. If, within such thirty day period, the Attorney General advises the Secretary that a contract or operating agreement may create or maintain a situation inconsistent with the antitrust laws, then the Secretary may not make, issue, or execute that contract or operating agreement.
