## FINDINGS

49 USC 10101a  
note.

## SEC. 2. The Congress hereby finds that—

- (1) historically, railroads were the essential factor in the national transportation system;
- (2) the enactment of the Interstate Commerce Act was essential to prevent an abuse of monopoly power by railroads and to establish and maintain a national railroad network;
- (3) today, most transportation within the United States is competitive;
- (4) many of the Government regulations affecting railroads have become unnecessary and inefficient;
- (5) nearly two-thirds of the Nation's intercity freight is transported by modes of transportation other than railroads;
- (6) earnings by the railroad industry are the lowest of any transportation mode and are insufficient to generate funds for necessary capital improvements;
- (7) by 1985, there will be a capital shortfall within the railroad industry of between \$16,000,000,000 and \$20,000,000,000;
- (8) failure to achieve increased earnings within the railroad industry will result in either further deterioration of the rail system or the necessity for additional Federal subsidy; and
- (9) modernization of economic regulation for the railroad industry with a greater reliance on the marketplace is essential

in order to achieve maximum utilization of railroads to save energy and combat inflation.

#### GOALS

SEC. 3. The purpose of this Act is to provide for the restoration, maintenance, and improvement of the physical facilities and financial stability of the rail system of the United States. In order to achieve this purpose, it is hereby declared that the goals of this Act are—

49 USC 10101a  
note.

(1) to assist the railroads of the Nation in rehabilitating the rail system in order to meet the demands of interstate commerce and the national defense;

(2) to reform Federal regulatory policy so as to preserve a safe, adequate, economical, efficient, and financially stable rail system;

(3) to assist the rail system to remain viable in the private sector of the economy;

(4) to provide a regulatory process that balances the needs of carriers, shippers, and the public; and

(5) to assist in the rehabilitation and financing of the rail system.

### TITLE I—RAIL TRANSPORTATION POLICY

#### RAIL TRANSPORTATION POLICY

SEC. 101. (a) Chapter 101 of title 49, United States Code, is amended by inserting after section 10101 the following new section:

##### “§ 10101a. Rail transportation policy

49 USC 10101a.

“In regulating the railroad industry, it is the policy of the United States Government—

“(1) to allow, to the maximum extent possible, competition and the demand for services to establish reasonable rates for transportation by rail;

“(2) to minimize the need for Federal regulatory control over the rail transportation system and to require fair and expeditious regulatory decisions when regulation is required;

“(3) to promote a safe and efficient rail transportation system by allowing rail carriers to earn adequate revenues, as determined by the Interstate Commerce Commission;

“(4) to ensure the development and continuation of a sound rail transportation system with effective competition among rail carriers and with other modes, to meet the needs of the public and the national defense;

“(5) to foster sound economic conditions in transportation and to ensure effective competition and coordination between rail carriers and other modes;

“(6) to maintain reasonable rates where there is an absence of effective competition and where rail rates provide revenues which exceed the amount necessary to maintain the rail system and to attract capital;

“(7) to reduce regulatory barriers to entry into and exit from the industry;

“(8) to operate transportation facilities and equipment without detriment to the public health and safety;

"(9) to cooperate with the States on transportation matters to assure that intrastate regulatory jurisdiction is exercised in accordance with the standards established in this subtitle;

"(10) to encourage honest and efficient management of railroads and, in particular, the elimination of noncompensatory rates for rail transportation;

"(11) to require rail carriers, to the maximum extent practicable, to rely on individual rate increases, and to limit the use of increases of general applicability;

"(12) to encourage fair wages and safe and suitable working conditions in the railroad industry;

"(13) to prohibit predatory pricing and practices, to avoid undue concentrations of market power and to prohibit unlawful discrimination;

"(14) to ensure the availability of accurate cost information in regulatory proceedings, while minimizing the burden on rail carriers of developing and maintaining the capability of providing such information; and

"(15) to encourage and promote energy conservation."

(b) Section 10101(a) of title 49, United States Code, is amended by striking out "To ensure" and inserting in lieu thereof "Except where policy has an impact on rail carriers, in which case the principles of section 10101a of this title shall govern, to ensure".

*Ante*, p. 1897.

(c) The section analysis of chapter 101 of title 49, United States Code, is amended by inserting after the item relating to section 10101 the following new item:

"10101a. Rail transportation policy."

## TITLE II—RAILROAD RATES AND INTER-CARRIER PRACTICES

### REGULATION OF RAILROAD RATES

SEC. 201. (a) Subchapter I of chapter 107 of title 49, United States Code, is amended by inserting after section 10701 the following new section:

49 USC 10701a.

#### "§ 10701a. Standards for rates for rail carriers

"(a) Except as provided in subsection (b) or (c) of this section and unless a rate is prohibited by a provision of this title, a rail carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title may establish any rate for transportation or other service provided by the carrier.

49 USC 10501.

"(b)(1) If the Commission determines, under section 10709 of this title, that a rail carrier has market dominance over the transportation to which a particular rate applies, the rate established by such carrier for such transportation must be reasonable.

49 USC 10709.

"(2) In any proceeding to determine the reasonableness of a rate described in paragraph (1) of this subsection—

"(A) the shipper challenging such rate shall have the burden of proving that such rate is not reasonable if—

"(i) such rate (I) is authorized under section 10707a of this title, and (II) results in a revenue-variable cost percentage for the transportation to which the rate applies that is less than the lesser of the percentages described in clauses (i) and (ii) of section 10707a(e)(2)(A) of this title; or

*Post*, p. 1901.

“(ii) such rate does not meet the description set forth in clause (i) of this subparagraph, but the Commission does not begin an investigation proceeding under section 10707 of this title to determine whether such rate is reasonable; and  
“(B) the rail carrier establishing the challenged rate shall have the burden of proving that such rate is reasonable if—

49 USC 10707.

“(i) such rate (I) is greater than that authorized under section 10707a of this title, or (II) results in a revenue-variable cost percentage for the transportation to which the rate applies that is equal to or greater than the lesser of the percentages described in clauses (i) and (ii) of section 10707a(e)(2)(A) of this title; and

*Post*, p. 1901.

“(ii) the Commission begins an investigation proceeding under section 10707 of this title to determine whether such rate is reasonable.

“(3) In determining whether a rate established by a rail carrier is reasonable for purposes of this section, the Commission shall recognize the policy of this title that rail carriers shall earn adequate revenues, as established by the Commission under section 10704(a)(2) of this title.

*Post*, p. 1906.

“(c)(1) A rate for transportation or other service provided by a rail carrier subject to the jurisdiction of the Commission under subchapter I of chapter 105 of this title may not be established below a reasonable minimum. Any rate for transportation by such a rail carrier that does not contribute to the going concern value of such carrier is presumed to be not reasonable. A rate that contributes to the going concern value of such carrier is conclusively presumed not to be below a reasonable minimum.

49 USC 10501.

“(2) A rate for transportation by a rail carrier that equals or exceeds the variable cost of providing the transportation is conclusively presumed to contribute to the going concern value of such rail carrier.

“(3)(A) Upon the filing of a complaint alleging that a rate is in violation of this subsection, the Commission shall take final action thereon by the 90th day after the date such complaint is filed.

“(B) If the Commission determines, based on the record after opportunity for a hearing, that a rate is in violation of this subsection, the Commission shall order such rate to be raised, but only to the minimum level required by this subsection. The complainant shall have the burden of proving that such rate is in violation of this subsection.

“(4)(A) For purposes of this subsection, variable costs shall be determined under formulas or procedures prescribed or certified by the Commission.

“(B) In the determination of variable costs for purposes of minimum rate regulation, the Commission shall, on application of the rail carrier proposing the rate, determine only the costs of such carrier and only those costs of the specific service in question unless the specific information is not available. The Commission may not include in such variable costs an expense that does not vary directly with the level of transportation provided under the proposed rate.”

(b)(1) Section 10701(a) of title 49, United States Code, is amended—

(A) by inserting “(other than a rail rate)” immediately after “A rate” in the first sentence;

(B) by inserting “(including a rail carrier)” immediately after “such a carrier” in the second sentence thereof; and

(C) by inserting “(including rail carriers)” immediately after “those carriers” in the third sentence thereof.

## Repeal.

(2) Section 10701(b) of title 49, United States Code, is repealed.

(3) The section analysis of chapter 107 of title 49, United States Code, is amended by inserting immediately below the item relating to section 10701 the following new item:

"10701a. Standards for rates for rail carriers."

## DETERMINATION OF MARKET DOMINANCE

SEC. 202. Section 10709 of title 49, United States Code, is amended by adding at the end thereof the following new subsection:

## Definitions.

"(d)(1) In this subsection—

"(A) 'fixed and variable cost' means all cost incurred by rail carriers in the transportation of freight, but limiting the return on equity capital to a rate equal to the embedded cost of debt.

"(B)(i) 'cost recovery percentage' means the lowest revenue-variable cost percentage which, if all movements that produced revenues resulting in revenue-variable cost percentages in excess of the cost recovery percentage are deemed to have produced only revenues resulting in the cost recovery percentage, would produce revenues which would be equal, when combined with total revenues produced by all other traffic transported by rail carrier, to the total fixed and variable cost of the transportation of all traffic by rail carrier.

"(ii) for purposes of determining the cost recovery percentage only, 'revenue-variable cost percentage' means the quotient, expressed as a percentage figure, obtained by dividing the total revenues produced by the transportation of all traffic received by rail carriers for rail transportation by the total variable cost of such transportation.

"(2) In making a determination under this section, the Commission shall find that the rail carrier establishing the challenged rate does not have market dominance over the transportation to which the rate applies if such rail carrier proves that the rate charged results in a revenue-variable cost percentage for such transportation that is less than—

*Ante*, p. 1895.

"(A) 160 percent during the period beginning on the effective date of the Staggers Rail Act of 1980 and ending September 30, 1981;

"(B) 165 percent during the period beginning October 1, 1981, and ending September 30, 1982;

"(C) 170 percent during the period beginning October 1, 1982, and ending September 30, 1983;

"(D) 175 percent or the cost recovery percentage, whichever is less, during the period beginning October 1, 1983, and ending September 30, 1984; and

"(E) the cost recovery percentage, during each 12-month period beginning on or after October 1, 1984.

Cost recovery percentage.

For purposes of subparagraphs (D) and (E) of this paragraph, the cost recovery percentage shall in no event be less than a revenue-variable cost percentage of 170 percent or more than a revenue-variable cost percentage of 180 percent.

Revenue-variable cost percentage.

*Ante*, p. 1916.

"(3) For purposes of determining the revenue-variable cost percentage for a particular transportation, variable costs shall be determined pursuant to section 10705a(m)(1) of this title, with adjustments specified by the Commission. A rail carrier may meet its burden of proof under this subsection by establishing its variable costs in accordance with such section 10705a(m)(1), but a shipper may rebut

that showing by evidence of such type, and in accordance with such burden of proof, as the Commission shall prescribe.

"(4) A finding by the Commission that a rate charged by a rail carrier results in a revenue-variable cost percentage for the transportation to which the rate applies that is equal to or greater than the applicable percentage under paragraph (2) of this subsection does not establish a presumption that (A) such rail carrier has or does not have market dominance over such transportation, or (B) the proposed rate exceeds or does not exceed a reasonable maximum.

"(5)(A) Within 180 days after the effective date of the Staggers Rail Act of 1980 and on an annual basis thereafter, the Commission shall determine the cost recovery percentage for the transportation of all traffic received by rail carriers. The Commission shall make such determination after considering each individual revenue-variable cost percentage resulting from the revenues and costs of a valid and reliable statistical sample of all movements of commodities transported by class I rail carriers during the most recent calendar year for which such information is available.

"(B) If, on the basis of calculations under subparagraph (A) of this paragraph, the Commission determines that revenues earned by all class I rail carriers during the previous calendar year do not exceed the fixed and variable costs of such carriers, then the cost recovery percentage for purposes of this section shall be deemed to be equal to the cost recovery percentage last determined by the Commission.

"(C) The Commission shall, in its annual report submitted to the Congress under section 10311 of this title, set forth the cost recovery percentage determined for that year under subparagraph (A) of this paragraph."

Cost recovery percentages.

49 USC 10311.

#### ZONE OF RATE FLEXIBILITY

SEC. 203. (a) Subchapter I of chapter 107 of title 49, United States Code, is amended by inserting after section 10707 the following new section:

#### "§ 10707a. Zone of rail carrier rate flexibility

49 USC 10707a.

"(a) In this section—

"(1)(A) 'base rate' means, with respect to the transportation of a particular commodity (i) for the 24-month period beginning on October 1, 1980, the rate in effect on October 1, 1980, (ii) for the 24-month period beginning on October 1, 1982, the rate in effect on October 1, 1982, and (iii) for the 5-year period beginning on October 1, 1984, and for each subsequent 5-year period, the rate in effect on the first day of the applicable 5-year period.

"Base rate."

"(B) If no rate exists for the transportation of a particular commodity on October 1, 1980, the base rate for the transportation of such commodity shall be the rate established by the rail carrier (divided by the latest rail cost adjustment factor published by the Commission), unless such rate is found to be unreasonable by the Commission, in which case the base rate shall be the rate authorized by the Commission (divided by the latest rail cost adjustment factor published by the Commission).

"(2)(A) 'adjusted base rate' means the base rate for the transportation of a particular commodity multiplied by the latest rail cost adjustment factor published by the Commission pursuant to this paragraph.

"Adjusted base rate."

"(B) Commencing with the fourth quarter of 1980, the Commission shall, as often as practicable but in no event less often than

Rail cost adjustment factor.

quarterly, publish a rail cost adjustment factor which shall be a fraction, the numerator of which is the latest published Index of Railroad Costs (which index shall be compiled or verified by the Commission, with appropriate adjustments to reflect the changing composition of railroad costs, including the quality and mix of material and labor), and the denominator of which is the same index for the fourth quarter of 1980, or for the fourth quarter of 1982 or for the fourth quarter of every fifth year thereafter, as appropriate.

Rate increase.

49 USC 10501.

49 USC 10709.

“(b)(1) Except as provided in paragraph (2) of this subsection, a rail carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title may increase any rate over which the Commission has jurisdiction under section 10709 of this title so long as the increased rate is not greater than the adjusted base rate for the transportation involved, plus any rate increases implemented under subsection (c) or (d) of this section.

“(2) A rate increase authorized under this subsection may not be found to exceed a reasonable maximum for the transportation involved.

49 USC 10706.

49 USC 10712.

“(3) A rail carrier may not increase a rate under this subsection to the extent that the cost increases to such carrier due to inflation are recovered through (A) general rate increases pursuant to section 10706 of this title, or (B) inflation-based rate increases under section 10712 of this title applicable to that rate.

*Ante*, p. 1895.

“(c)(1) During the 12-month period beginning on the effective date of the Staggers Rail Act of 1980 and during each of the 3 succeeding 12-month periods, a rail carrier may, in addition to rate increases authorized under subsection (b) of this section, increase any rate over which the Commission has jurisdiction under section 10709 of this title by an annual amount of not more than 6 percent of the adjusted base rate, except that in no event shall the total increase under this subsection result in a rate which is more than 118 percent of the adjusted base rate.

“(2)(A) If any portion of a rate increase under this subsection is not implemented in the year in which it is authorized, such portion may, except as provided in subparagraph (B) of this paragraph, be implemented only in the next succeeding year.

“(B) If any portion of the total rate increase authorized under this subsection is not implemented by the end of the 4-year period beginning on the effective date of the Staggers Rail Act of 1980, such portion may be implemented in the next 2 succeeding years, except that in no event may a rail carrier increase a rate under this subsection or under subsection (d) of this section in either of such 2 succeeding years by an annual amount of more than 10 percent of the adjusted base rate.

“(d)(1) Except as provided in paragraph (3) of this subsection, during the 12-month period beginning on October 1, 1984, and during each succeeding 12-month period, a rail carrier may, in addition to rate increases under subsection (b) of this section, increase any rate over which the Commission has jurisdiction under section 10709 of this title by an annual amount of not more than 4 percent of the adjusted base rate.

“(2) No portion of any rate increase under this subsection which is not implemented in the year in which it is authorized may be implemented in any other year.

“(3)(A) The provisions of this subsection shall not apply to a rail carrier proposing to increase a single line rate if such carrier earns

adequate revenues, as determined by the Commission under section 10704(a)(2) of this title.

“(B) The Commission shall, after a hearing on the record, prescribe such rules with respect to joint rates as necessary to ensure that rail carriers which earn adequate revenues, as determined under section 10704(a)(2) of this title, do not receive the rate increases authorized by this subsection unless the Commission determines that it is unable to prescribe such rules without precluding rail carriers not earning adequate revenues from receiving the rate increases authorized under this subsection.

*Post*, p. 1906.  
Joint rates,  
rules.

“(e)(1) Notwithstanding the provisions of section 10707 of this title, in the case of any rate increase by a rail carrier that is authorized under subsection (c) or (d) of this section—

49 USC 10707.

“(A)(i) the Commission may not suspend such rate increase pending final Commission action; and

“(ii) except as provided in paragraph (2) of this subsection, the Commission may not begin an investigation proceeding under section 10707 of this title with respect to the reasonableness of such rate increase; but

“(B) an interested party may file a complaint under section 11701(b) of this title alleging that such rate increase violates the provisions of this subtitle.

49 USC 11701.

In considering any complaint challenging a rate increase that is authorized under subsection (c) of this section and that results in a revenue-variable cost percentage that is less than the lesser of the percentages described in clauses (i) and (ii) of paragraph (2)(A), the Commission shall, in determining the reasonableness of such rate increase, give due consideration to whether the carrier proposing the rate increase has attained adequate revenues, as determined by the Commission under section 10704(a)(2) of this title, giving regard to preventing a carrier with adequate revenues from realizing excessive profits on the traffic involved and also the policy of bringing to an adequate level the revenues of carriers not having an adequate revenue level.

“(2)(A) If a rate increase authorized under this section in any year results in a revenue-variable cost percentage for the transportation to which the rate applies that is equal to or greater than—

“(i) 20 percentage points above the revenue-variable cost percentage applicable in that year under section 10709(d) of this title; or

*Ante*, p. 1900.

“(ii) a revenue-variable cost percentage of 190 percent, whichever is less, the Commission may, on its own initiative, or on complaint of an interested party, begin an investigation proceeding to determine whether the proposed rate increase violates this subtitle.

“(B) In determining whether to investigate or not to investigate any proposed rate increase that results in a revenue-variable cost percentage for the transportation to which the rate applies that is equal to or greater than the lesser of the percentages described in clauses (i) and (ii) of subparagraph (A) of this paragraph (without regard to whether such rate increase is authorized under this section), the Commission shall set forth its reasons therefor, giving due consideration to the following factors:

“(i) the amount of traffic which is transported at revenues which do not contribute to going concern value and efforts made to minimize such traffic;

“(ii) the amount of traffic which contributes only marginally to fixed costs and the extent to which, if any, rates on such traffic can be changed to maximize the revenues from such traffic; and

*Ante*, p. 1897.

49 USC 10704.

"(iii) the impact of the proposed rate or rate increase on the attainment of the national energy goals and the rail transportation policy under section 10101a of this title, taking into account the railroads' role as a primary source of energy transportation and the need for a sound rail transportation system in accordance with the revenue adequacy goals of section 10704 of this title.

This subparagraph shall not be construed to change existing law with regard to the nonreviewability of such determination.

"(C) In determining whether a rate is reasonable, the Commission shall consider, among other factors, evidence of the following:

"(i) the amount of traffic which is transported at revenues which do not contribute to going concern value and efforts made to minimize such traffic;

"(ii) the amount of traffic which contributes only marginally to fixed costs and the extent to which, if any, rates on such traffic can be changed to maximize the revenues from such traffic; and

"(iii) the carrier's mix of rail traffic to determine whether one commodity is paying an unreasonable share of the carrier's overall revenues.

"(f) In any proceeding under this section, evidence of the underlying rail carrier rate is admissible.

"(g) A finding by the Commission that a rate increase exceeds the increase authorized under this section does not establish a presumption that (1) the rail carrier proposing such rate increase has or does not have market dominance over the transportation to which the rate applies, or (2) the proposed rate exceeds or does not exceed a reasonable maximum.

"(h) The authority of the Commission to determine and prescribe reasonable rules, classifications, and practices may not be used, directly or indirectly, to limit the rates which rail carriers are otherwise authorized to establish under this subtitle."

(b) The section analysis of chapter 107 of title 49, United States Code, is amended by inserting immediately after the item relating to section 10707 the following new item:

"10707a. Zone of rail carrier rate flexibility."

Rail carrier rate increases.  
49 USC 10707a note.

(c)(1) Any rail carrier rate which increased over 70 percent between 1976 and 1979 inclusive for the transportation, in shipper owned equipment over a distance exceeding 1,550 miles between points within the United States, of coal pursuant to a tariff calling for an annual volume of more than 2,000,000 tons per year purchased by a municipally owned utility for the generation of electric power under a 20-year purchase agreement entered into by such utility in the year 1974 shall not be increased so long as coal is purchased under such original agreement, except that—

(A) during the period beginning October 1, 1980, and ending September 30, 1987, the Interstate Commerce Commission may permit increases in such rate which result in a revenue-variable cost percentage of not more than 162 percent; and

(B) after October 1, 1987, such rate shall be subject to section 10701a of title 49, United States Code, and related provisions of such title governing regulation of rail carrier rates, except that until such rate results in a revenue-variable cost percentage that is equal to or greater than the revenue-variable cost percentage applicable under section 10709(d) of such title, such rate may not be increased more than 4 percent, in addition to inflation, in any year.

*Ante*, p. 1898.

*Ante*, p. 1900.

(2) Neither the provisions of this subsection nor any rate subject to this subsection shall be admissible as evidence or considered in any way in any proceeding involving any other rail carrier rate that is commenced to determine market dominance under section 10709 of title 49, United States Code, or to determine reasonableness under section 10701a of such title.

*Ante*, p. 1898.

#### TRANSPORTATION OF RECYCLABLE MATERIALS

SEC. 204. Section 10731 of title 49, United States Code, is amended by adding at the end thereof the following new subsection:

“(e) Notwithstanding any other provision of this title or any other law, within 90 days after the effective date of the Staggers Rail Act of 1980, all rail carriers providing transportation subject to the jurisdiction of the Commission under subchapter I of chapter 105 of this title shall take all actions necessary to reduce and thereafter maintain rates for the transportation of recyclable or recycled materials, other than recyclable or recycled iron or steel, at revenue-to-variable cost ratio levels that are equal to or less than the average revenue-to-variable cost ratio that rail carriers would be required to realize, under honest, economical, and efficient management, in order to cover total operating expenses, including depreciation and obsolescence, plus a reasonable and economic profit or return (or both) on capital employed in the business sufficient to attract and retain capital in amounts adequate to provide a sound transportation system in the United States. As long as any such rate equals or exceeds such average revenue-to-variable cost ratio established by the Commission, such rate shall not be required to bear any further rate increase. The Commission shall have jurisdiction to issue all orders necessary to enforce the requirements of this subsection.”.

49 USC 10501.

#### RATE REGULATION PROCEEDINGS; ADEQUATE REVENUES

SEC. 205. (a)(1) The Interstate Commerce Commission shall commence a proceeding for purposes of determining whether, and to what extent, product competition should be considered in proceedings under subtitle IV of title 49, United States Code, to determine the reasonableness of rail carrier rates. The Commission shall complete its proceeding under this subsection within 230 days after the effective date of this Act.

(2)(A) For purposes of this subsection, the term “product competition” means the availability to a consignee, at a competitive delivered cost and in sufficient quantities, of products or commodities which are of the same type as the commodity or product to which the rate in question applies, without regard to whether such products or commodities are available from the same or a different origin as those to which the rate applies.

(B) Nothing in this subsection shall be construed as altering the meaning, use, or interpretation by the Commission, the courts, or any party of the term "market dominance", as defined in section 10709(a) of title 49, United States Code. The enactment of this subsection shall not be considered by the Commission in any proceeding, or by any court on an appeal from that or any other proceeding, to determine the proper scope of the term "market dominance" or whether there is market dominance over the transportation to which any particular rate applies.

## INVESTIGATION AND SUSPENSION OF RATES

SEC. 207. (a) Section 10707(b)(1) of title 49, United States Code, is amended to read as follows:

"(b)(1) The Commission must complete a proceeding under this section and make its final decision by the end of the 5th month after the rate, classification, rule, or practice was to become effective, except that if the Commission reports to the Congress by the end of such 5th month that it cannot make a final decision by that time and explains the reason for the delay, it may take an additional 3 months to complete the proceeding and make its final decision. If the Commission does not reach a final decision within the applicable time period, the rate, classification, rule, or practice—

"(A) is effective at the end of that time period; or

"(B) if already in effect at the end of that time period, remains in effect."

(b) Section 10707(c) of title 49, United States Code, is amended to read as follows:

"(c)(1) The Commission may not suspend a proposed rate, classification, rule, or practice during the course of a Commission proceeding under this section unless it appears from the specific facts shown by the verified statement of a person that—

"(A) it is substantially likely that the protestant will prevail on the merits;

"(B) without suspension, the proposed rate change will cause substantial injury to the protestant or the party represented by the protestant; and

"(C) because of the peculiar economic circumstances of the protestant, the provisions of subsection (d) of this section do not protect the protestant.

"(2) The burden shall be on the protestant to prove the matters described in paragraph (1) (A), (B), and (C) of this subsection."

(c) Section 10707(d) of title 49, United States Code, is amended to read as follows:

"(d)(1) If the Commission does not suspend a proposed rate increase under subsection (c) of this section, the Commission shall require the rail carrier to account for all amounts received under the increase until the Commission completes its proceedings under subsection (b) of this section. The accounting shall specify by whom and for whom the amounts are paid. When the Commission takes final action, it shall require the carrier to refund to the person for whom the amounts were paid that part of the increased rate found to be unreasonable, plus interest at a rate equal to the average yield (on the date the statement is filed) of marketable securities of the United States Government having a duration of 90 days.

"(2) If a rate is suspended under subsection (c) of this section and any portion of such rate is later found to be reasonable under this title, the carrier shall collect from each person using the transportation to which the rate applies the difference between the original rate and the portion of the suspended rate found to be reasonable for any services performed during the period of suspension, plus interest at a rate equal to the average yield (on the date the statement is filed) of marketable securities of the United States Government having a duration of 90 days, except that this paragraph shall not apply to general rate increases under section 10706 of this title.

"(3) If any portion of a proposed rate decrease is suspended under subsection (c) of this section and later found to be reasonable under this title, the rail carrier may refund any part of the portion of the

decrease found to comply with this title if the carrier makes the refund available to each shipper who participated in the rate, in accordance with the relative amount of such shipper's traffic transported at such rate.

49 USC 10741,  
10761.

"(4) Notwithstanding the provisions of section 10741 or section 10761 of this title, the Commission shall, by rule, establish standards and procedures permitting a rail carrier to waive the collection of amounts due under this subsection if such amounts are not significant."

"(ii) by a port only on the grounds that such port individually will be harmed because the proposed contract will result in unreasonable discrimination against such port.

similar conditions to the contract at issue, and that shipper was ready, willing, and able to enter into such a contract at a time essentially contemporaneous with the period during which the contract at issue was offered; or

“(ii) the proposed contract constitutes a destructive competitive practice under this subtitle.

In making a determination under clause (ii) of this subparagraph, the Commission shall consider the difference between contract rates and published single car rates.

“(C) For purposes of this paragraph, the term ‘unreasonable discrimination’ has the same meaning as such term has under section 10741 of this title.

“(B) If the Commission determines, on the basis of a complaint filed under paragraph (2)(B)(i) of this subsection, that the grounds for a complaint described in such paragraph have been established with respect to a carrier, the Commission shall, subject to the provisions of this section, order such carrier to provide rates and service substantially similar to the contract at issue with such differentials in terms and conditions as are justified by the evidence.

“(f) The Commission may limit the right of a rail carrier to enter into future contracts under this section following a determination that additional contracts would impair the ability of the rail carrier to fulfill its common carrier obligations under section 11101 of this title.

Future contracts.

“(g) The Commission may not require a rail carrier to violate the terms of a contract that has been approved under this section, except to the extent necessary to comply with section 11128 of this title.

49 USC 11101.

49 USC 11128.

“(h) A party to a contract entered into under this section shall have no duty in connection with services provided under such contract other than those duties specified by the terms of the contract.

“(i)(1) A contract that is approved by the Commission under this section, and transportation under such contract, shall not be subject to this subtitle, and may not be subsequently challenged before the Commission or in any court on the grounds that such contract violates a provision of this subtitle.

“(2) The exclusive remedy for any alleged breach of a contract entered into under this section shall be an action in an appropriate State court or United States district court, unless the parties otherwise agree.

“(j) The provisions of this section shall not affect the status of any lawful contract between a rail carrier and one or more purchasers of rail service that is in effect on the effective date of the Staggers Rail Act of 1980. Any such contract shall hereafter have the same force and effect as if it had been entered into in accordance with the

49 USC 11101.

"(2) The Commission may, on request of a rail carrier or other party or on its own initiative, grant such relief from the limitations of paragraph (1) of this subsection as the Commission considers appropriate, if it appears that additional equipment may be made available without impairing the rail carrier's ability to meet its common carrier obligations under section 11101 of this title.

(b) Section 10762(d)(1) of title 49, United States Code, is amended by striking out “30-day” and inserting in lieu thereof “notice”.

## COMPENSATORY JOINT RATE RELIEF

SEC. 217. (a)(1) Chapter 107 of title 49, United States Code, is amended by inserting after section 10705 the following new section:

49 USC 10705a.

**"§ 10705a. Joint rate surcharges and cancellations**

49 USC 10501.

"(a)(1)(A) Except as provided in subparagraph (B) of this paragraph, a rail carrier providing transportation subject to the jurisdiction of the Interstate Commerce Commission under subchapter I of chapter 105 of this title may publish and apply a surcharge increasing or decreasing the through charge applicable to any movement between points designated by the surcharging carrier subject to a joint rate. Such a surcharge may be applied without the concurrence of the other carriers that are party in such joint rate.

*Ante*, p. 1906.

"(B) A carrier earning adequate revenues, as determined under section 10704(a)(2) of this title, may not apply such a surcharge to any movement on a line operated by such carrier which carried more than 3,000,000 gross ton miles of traffic per mile in the preceding calendar year.

"(C) Any surcharge applied pursuant to this subsection must be applied in equal dollar amounts to the movement subject to the surcharge over all routes between the points designated by the surcharging carrier which such carrier participates in under the joint rate involved, and when the surcharge increases the through charges, under any of such carrier's single line rates between the same points.

"(2)(A) Whenever a rail carrier applies a surcharge increasing a through charge pursuant to paragraph (1) of this subsection, any other rail carrier that participates in any movement subject to such surcharge may cancel the application of such surcharge to any route participated in by such other carrier, if such carrier makes the demonstration described in subparagraph (B) of this paragraph.

"(B) A rail carrier may cancel the application of a surcharge under this paragraph if such carrier demonstrates to the Commission that the surcharging carrier's share of the revenues, at the time the surcharge was filed with the Commission, from its participation in the movement over the route involved would have been equal to or greater than 110 percent of its variable costs of providing service over such route, under either—

"(i) the applicable joint rate in effect at the time the surcharge was filed with the Commission, without the surcharge;

"(ii) a new rate division increasing the share of the surcharging carrier;

"(iii) a new higher lawful rate published by the canceling carrier; or

"(iv) a new, lesser surcharge which shall be prescribed by the Commission upon and in conformity with the request of the carrier proposing to cancel the surcharge. Any such prescribed surcharge shall, in conjunction with the surcharging carrier's division of the joint rate in effect on the date the original surcharge was filed with the Commission, provide the carrier proposing the original surcharge revenues equal to or greater than 110 percent of such surcharging carrier's variable cost of providing service over such route.

"(C)(i) The canceling tariff shall only become effective if the rail carrier proposing to cancel the application of the surcharge makes the demonstration described in subparagraph (B) of this paragraph.

"(ii) If the demonstration described in clause (i) of this subparagraph is made on the basis of the applicable joint rate in effect at the

time the surcharge was filed with the Commission, without the surcharge, the tariff shall become effective on one day's notice after such determination is made.

"(iii) If the demonstration described in clause (i) of this subparagraph is made on the basis of a new rate, division, or surcharge prescribed pursuant to subparagraph (B)(iv) of this paragraph, the tariff shall become effective on the date such new rate, division, or surcharge becomes effective.

"(D) The remedy available to a rail carrier canceling the application of a surcharge under this paragraph shall be in addition to any other remedy available to such carrier under this chapter.

"(3)(A) The Commission may cancel the application of a surcharge to a route to which such surcharge applies if a shipper moving traffic over such route demonstrates to the Commission that—

"(i) there is no competitive alternative to such route for the movement of the traffic involved that is not subject to such surcharge; and

"(ii) the surcharging carrier's share of the revenues from its participation in the movement over the route to which such surcharge applies, under the applicable joint rate in effect at the time the surcharge was filed with the Commission, with the surcharge, would be greater than 110 percent of its variable cost of providing service over such route.

"(B) If the Commission cancels the application of a surcharge to a particular route pursuant to subparagraph (A) of this paragraph, the Commission shall determine the level of surcharge which, in conjunction with the surcharging carrier's division of the joint rate in effect at the time the surcharge was filed with the Commission, would equal 110 percent of the surcharging carrier's variable cost of providing service over such route, and shall authorize such carrier immediately to apply such a surcharge without any further proceedings under this subsection.

Surcharge level,  
determination.

"(4) A rail carrier may not apply a surcharge under this subsection unless, for the one-year period preceding the surcharge, such carrier has concurred in all rate increases of general applicability applicable to the joint rate to which such surcharge applies and agreed to by all other carriers that are party to such joint rate.

"(5) A rail carrier may not apply a surcharge under this subsection increasing a through charge applicable to a particular movement more than once each calendar year.

"(6) Notwithstanding any other provision of this subsection, a rail carrier may, by tariff, reduce the total charges applicable to a movement over any specific joint line or single line route or routes in which such carrier participates, if such reduction does not lower the total charges applicable to such movement to a level that is less than the lowest total charges applicable to the same movement over a competing route. Any such reduction may be made without the concurrence of any other rail carrier, and shall be borne solely by the carrier reducing the charge. Nothing in this paragraph shall be construed to limit the right of a carrier to reduce rates over routes not in direct competition between the same points with routes to which it has applied a surcharge.

Total charges,  
reduction.

"(b)(1) Notwithstanding subsection (a) of this section—

"(A) a rail carrier not earning adequate revenues, as determined under section 10704(a)(2) of this title, may publish and apply a surcharge applicable to traffic originating or terminating upon any of its lines that carried less than 3,000,000 gross ton

*Ante*, p. 1906.

miles of traffic per mile in the most recent calendar year for which traffic data is available; and

“(B) a rail carrier earning adequate revenues, as so determined, may publish and apply a surcharge applicable to traffic originating or terminating upon any of its lines that carried less than 1,000,000 gross ton miles of traffic per mile in such most recent calendar year.

Such a surcharge may be applied without the concurrence of any rail carrier. Any such surcharge may be allocated, subject to the provisions of paragraph (4) of this subsection, in different amounts among different movements between different origins and destinations, and shall accrue solely to the surcharging carrier.

“(2) A rail carrier may apply a surcharge under this subsection if, prior to the application of such surcharge, that portion of the charges applicable to traffic to and from the line to which the surcharge applies and accruing to the surcharging carrier does not provide such carrier revenues adequate to cover—

“(A) 110 percent of such carrier’s variable cost of transporting the traffic involved to or from such line; plus

“(B) 100 percent of such carrier’s reasonably expected costs of continuing to operate such line, which shall include all costs necessary to sustain service on the line.

*Ante*, p. 1895.

The Commission shall, within 120 days after the effective date of the Staggers Rail Act of 1980, complete a proceeding to define the term ‘reasonably expected costs’ as used in subparagraph (B) of this paragraph. In the interim, the term shall be construed in accordance with Rail Services Planning Office subsidy standards.

Shipper petition.

“(3)(A) Upon petition of a shipper located upon a line to which a surcharge under this subsection is applied, the Commission may cancel the application of a surcharge under this subsection if such shipper demonstrates to the Commission that, after application of the surcharge, the surcharging carrier’s revenues from all traffic originating or terminating upon the line to which the surcharge applies exceed 110 percent of such carrier’s variable cost of transporting all traffic to or from such line plus such carrier’s reasonably expected costs of continuing to operate such line.

*Ante*, p. 1900.

“(B)(i) A rail carrier’s revenue from all traffic originating or terminating upon a line shall be presumed to exceed 110 percent of its variable cost of transporting all traffic to or from such line plus its reasonably expected costs of continuing to operate such line if the complaining shipper demonstrates that the carrier is earning revenues from all traffic originating or terminating upon such line that result in a revenue-variable cost percentage that is equal to or greater than the revenue-variable cost percentage applicable in that year under section 10709(d) of this title.

“(ii) A surcharging carrier may rebut the presumption set forth in clause (i) of this subparagraph by demonstrating to the Commission that its reasonably expected costs for operating the line to which the surcharge applies exceed the percentage of variable cost set forth in such clause (i).

“(C) Upon a finding by the Commission that application of the surcharge will produce revenues in excess of 110 percent of the surcharging carrier’s variable cost of transporting traffic to or from the line plus its reasonably expected costs for operating the line, the Commission shall determine the level of surcharge which would produce revenues equal to such figure and shall authorize such carrier immediately to apply such surcharges as will generate such

revenues without any further proceedings, subject only to the right of a shipper to proceed under paragraph (4) of this subsection.

"(4)(A) A rail carrier may not apply a surcharge under this subsection that results in any shipper being required to bear more than a reasonable proportion of the reasonably expected costs of continuing to operate the line to which such surcharge applies.

"(B) Upon complaint of a shipper, the Commission shall determine whether the shipper is being required to bear more than a reasonable proportion of the costs described in subparagraph (A) of this paragraph.

Shipper  
complaint.

"(C) If the Commission finds that a complaining shipper is being required to bear more than a reasonable proportion of the costs described in subparagraph (A) of this paragraph, the Commission may reallocate the surcharge among the traffic originating or terminating on the line to which the surcharge applies, but may not order relief which would result in the surcharging carrier earning revenues less than those which the carrier would have earned had the surcharge been applied as filed.

"(5) A shipper may, in a single complaint, seek relief under paragraphs (3) and (4) of this subsection. In any such complaint, the Commission shall first determine the right to relief under paragraph (3) and shall grant such relief as is appropriate under such paragraph.

Relief.

"(6) In any proceeding brought before the Commission challenging the application or amount of a surcharge under this subsection, whether the surcharge is claimed to violate this subsection or some other provision of this chapter, the Commission shall not suspend the application of any such surcharge unless the person filing the verified statement required by section 10707(c) of this title, in addition to the matters required by such section, also makes the demonstration required by paragraph (3)(A) of this subsection. If the demonstration required by such paragraph (3)(A) is made, the Commission may suspend the application of only so much of the surcharge as will produce revenues in excess of the amount so demonstrated.

*Ante*, p. 1907.

"(c)(1) Notwithstanding any other provision of this title, any prior agreement in effect on the effective date of the Staggers Rail Act of 1980, or any requirement of the Commission, a rail carrier may cancel the application of a joint rate to a through route in which it participates, without the concurrence of any other rail carrier that is a party to such joint rate, unless another rail carrier that participates in such through route or a shipper that has no competitive alternative to such route makes the demonstration described in paragraph (2) of this subsection.

*Ante*, p. 1895.

"(2) The application of a joint rate to a through route may not be canceled under this subsection if a rail carrier that participates in such through route or a shipper that has no competitive alternative to such route from an origin or destination served by such route demonstrates to the Commission that the canceling carrier's share of the revenues, under the joint rate in effect at the time the application of the joint rate is canceled, is equal to or greater than—

"(A) 110 percent of the canceling carrier's variable cost of providing service over such route; or

"(B) such lesser percent of the canceling carrier's variable cost as such carrier earns over a competing through route to which application of the joint rate has not been canceled, or over a competing single line route.

"(3) When a complaining party is unable to make the demonstration required by paragraph (2) of this subsection, the Commission may suspend the tariff canceling the joint rate only if—

"(A) a complaining carrier publishes a new rate division or a new higher lawful rate which increases the canceling carrier's share of the revenues over such route to the amount calculated under paragraph (2)(A) or (2)(B) of this subsection, whichever is less; or

"(B) a complaining carrier or shipper petitions the Commission and the Commission imposes a surcharge, in conformity with such petition, upon the joint rate which will accrue solely to the canceling carrier and which, in conjunction with the canceling carrier's division of the joint rate in effect on the date the tariff canceling the joint rate was filed, will provide the canceling carrier revenues equal to or greater than 110 percent of its variable cost of providing service over such route.

Unless a new rate, division, or surcharge described in this paragraph becomes effective within 120 days after the proposed effective date of the rate cancellation, the canceling tariff shall, nevertheless, become effective.

"(4) If the demonstration described in paragraph (2) is made or a new rate, division, or surcharge described in paragraph (3) becomes effective, the tariff canceling the joint rate shall be considered by the Commission in accordance with section 10705 of this title. The existing joint rate or the new rate, division, or surcharge, shall remain in effect during the pendency of the Commission's consideration.

"(5) Whenever the application of a joint rate to a through route is canceled under this subsection and a rate other than a joint rate is or has been published by the canceling carrier to apply to such route, such rate shall thereafter apply in lieu of all other rates (except joint rates subsequently agreed to by such carrier) and any through rate of which such rate is a factor shall divide as the separate factors of such rate are made.

"(6) Nothing in this subsection shall be construed to limit the authority of the Commission under section 10705(a) of this title to prescribe joint rates which provide a rail carrier participating in such joint rate revenues equal to or greater than 110 percent of its variable cost of providing service over each route to which such rate applies.

"(d)(1) Except as provided in paragraph (2) of this subsection, any increase or decrease in revenue resulting from the application of a surcharge under subsection (a) of this section, or from the cancellation of the application of a joint rate under subsection (c) of this section, shall accrue solely to or be borne solely by the carrier applying the surcharge or canceling the application of the joint rate, as the case may be.

"(2) Whenever a class III rail carrier which participates in a through route to which a surcharge has been applied under subsection (a) of this section by a carrier operating in the same rate territory as such class III carrier demonstrates to the Commission that the application of such surcharge to such route provides, in the absence of any increase in the joint rate in effect on the date the surcharge was filed with the Commission, revenues from traffic moving over such route to such surcharging carrier in excess of 110 percent of its variable costs over such route, such surcharging carrier shall, from the date of such demonstration, share those revenues from such route, from the surcharge and the applicable joint rate in effect on the date the surcharge was filed with the Commission, in excess of

49 USC 10705.

Increased or  
decreased  
revenues.

110 percent of its variable costs with all class III rail carriers in the same rate territory participating in such route, on the basis of their existing divisions of the joint rate to which the surcharge applies.

"(e)(1) Except as provided in paragraph (2) of this subsection, whenever a rail carrier proposes to apply a surcharge under subsection (a) of this section or to cancel the application of a joint rate under subsection (c) of this section and another rail carrier subsequently agrees to a new rate division or a new lawful rate that increases the surcharging or canceling carrier's share of the total through charges for a movement over a particular through route subject to a joint rate, such other rail carrier shall also agree to any other new rate division and new lawful rate—

"(A) that is proposed within 120 days after the date of the first agreement; and

"(B) that increases the surcharging or canceling carrier's share of the total through charges for movements over a competing through route subject to such joint rate.

"(2) A rail carrier shall not be required to agree under this subsection to any proposed new division or new rate which would—

"(A) reduce such carrier's share of the total through charges for a movement over any through route to less than (i) 110 percent of its variable costs of providing service over such route, or (ii) such lesser percent of its variable costs as such carrier earns from such movement over a competing through route with respect to which such carrier has agreed to a new division or rate;

"(B) increase the surcharging or canceling carrier's share of the total through charges for a movement over any through route to an amount in excess of 110 percent of its variable costs of providing service over such route;

"(C) reduce such carrier's share of the total through charges for a movement over any through route by a dollar amount in excess of the greatest dollar reduction which such carrier has agreed to make, for purposes of increasing the surcharging or canceling carrier's share, to its share of the total through charges for a movement over any competing through route; or

"(D) reduce such carrier's share of the total through charges for a movement over any through route in an amount in excess of such carrier's pro rata share (based on established divisions for movements over such route) of the increase of the surcharging or canceling carrier's share of the total through charges for movements over such route.

"(f) A rail carrier applying a surcharge or canceling the application of a joint rate under this section shall file a tariff with the Commission in accordance with section 10762 of this title. Such a tariff may not become effective until the expiration of the 45-day period (or such longer period as the filing carrier specifies) beginning on the date such tariff is filed.

Tariff filing.

49 USC 10762.

"(g)(1) Any rail rate to which a surcharge is applied under this section shall be subject to section 10701a and 10709 of this title, and any such surcharge shall constitute a rate increase for purposes of such sections.

*Ante*, p. 1898.  
49 USC 10709.

"(2) For purposes of rate regulation under section 10701a of this title—

"(A) only the rail carrier proposing a surcharge under this section shall be required to defend such surcharge; and

"(B) the reasonableness of the surcharge and the revenues received by the rail carrier proposing the surcharge under the joint rate to which the surcharge applies shall be determined

without regard to amount received and services performed by other rail carriers that are party to such joint rate.

“(3) Except as provided in subsection (i), (j), or (k) of this section, if the application of a surcharge or the cancellation of the application of a joint rate under this section is found to constitute a violation of any provision of this title, such violation shall not be ordered remedied in any manner which—

“(A) requires the carrier applying a surcharge under subsection (a) of this section or canceling the application of a joint rate under subsection (c) of this section to provide service over any rate under a rate that provides revenues to such carrier that are less than 110 percent of its variable costs of providing such service; or

“(B) which requires the carrier applying a surcharge under subsection (b) of this section to provide service over the route to which such surcharge applies in a manner that provides revenues to such carrier that are less than 110 percent of such carrier’s variable cost of transporting the traffic involved to or from the line to which the surcharge applies, plus such carrier’s reasonably expected costs of providing service over such line.

Variable costs  
and revenues,  
determination.

“(h) Within 5 days after the request of a rail carrier participating in a joint rate subject to a surcharge or cancellation under this section, a shipper moving traffic over a route to which such surcharge or cancellation applies, or an affected port, the Commission shall make available to such carrier, shipper, or port the Commission’s determination of the variable costs and revenues, over the route or routes to which the surcharge or cancellation applies, of the carrier applying the surcharge or canceling the application of the joint rate.

Investigation.

“(i)(1) Whenever a class III rail carrier, in a protest filed with the Commission, makes a prima facie showing that the application of a surcharge under subsection (a) of this section or the cancellation of the application of a joint rate under subsection (c) of this section will have an adverse effect on competition, the Commission shall investigate such protest. If, on the basis of such investigation, the Commission finds that the protested surcharge or cancellation is or is intended to be anticompetitive, the Commission shall, within 30 days after the date such protest is filed, enter an order rescinding such surcharge or cancellation, and may, on presentation of an adequate record, prescribe new joint rates or divisions of joint rates.

Rescinding  
order.

“(2) No order prescribed under this subsection shall require a carrier to provide service over any route under a rate which provides revenues less than 110 percent of the variable cost of providing such service unless the Commission determines that the public interest requires a lesser revenue to variable cost ratio to avoid anticompetitive action and to preserve service on the route involved.

“(j)(1) Any class III rail carrier which originates or terminates traffic subject to the application of a surcharge under subsection (a) of this section or the cancellation of the application of a joint rate under subsection (c) of this section may protest such surcharge or cancellation whenever—

“(A) such surcharge or cancellation affects the sole remaining route available to that carrier for that traffic; and

“(B)(i) such carrier demonstrates that alternative transportation is available or that a shipper dependent on that carrier will suffer significant market loss because of such surcharge or cancellation; or

“(ii) such surcharge or cancellation, alone or when considered in conjunction with other surcharges or cancellations affecting

the carrier, is likely to unduly impair a carrier's ability to earn an adequate rate of return.

"(2)(A) The Commission may, after an investigation on the basis of a protest under this subsection, prescribe a lesser surcharge or a different division of the joint rate. The Commission shall grant the surcharging or canceling carrier revenues not less than 110 percent of its variable cost of the movement involved, unless it determines that the public interest requires a lesser revenue to variable cost ratio to preserve service on the route involved. Any action by the Commission based on a protest under this subsection shall be taken within 30 days after the date such protest is filed.

"(B) If the Commission prescribes a different division of a joint rate under this paragraph, the Commission shall, upon petition of the surcharging or canceling carrier or the protesting class III rail carrier, reopen the proceeding in which such division was prescribed to reconsider whether such prescribed division is reasonable. If, on the basis of such reconsideration, the Commission determines that such division is not reasonable, it shall prescribe a new, reasonable division of the joint rate to which the surcharge or cancellation applied.

"(k)(1) Upon the complaint of a class III rail carrier which originates or terminates traffic subject to the application of a surcharge under subsection (a) of this section or the cancellation of the application of a joint rate under subsection (c) of this section that such surcharge or cancellation will result in differences or greater differences in rates, including any surcharges, for the traffic to which the surcharge or cancellation applies over different routes in which the surcharging or canceling carrier participates—

Rail carrier  
complaint,  
investigation.

"(A) from a single origin point to destination points within a 75 mile direct radius from the destination point on such class III rail carrier; or

"(B) to a single destination point from origin points within a 75 mile direct radius from the origin point on such class III rail carrier,

the Commission shall investigate such complaint and shall, within 30 days after the date such complaint is filed, take such actions, including rescinding surcharges or cancellations or prescribing new joint rates or surcharges, as it determines are required to eliminate such differences in rates, unless it finds that such actions are not warranted by the public interest in ensuring effective competition among rail carriers or in the preservation of rail service on the route involved.

"(2) No action taken by the Commission under this subsection shall require a carrier to provide service over any route under a rate which provides a revenue to variable cost ratio over such route less than that provided under the joint rate to which the surcharge or cancellation was applied or less than 110 percent, whichever is greater, unless the Commission determines that the public interest in ensuring effective competition among rail carriers or in preserving service over such route warrants requiring the surcharging or canceling carrier to provide service at a lesser revenue to variable cost ratio.

"(3) Notwithstanding subsection (m)(1) of this section, if, in a proceeding under this subsection or under subsection (i) or (j) of this section, the Commission considers whether to require the revenues of a carrier applying a surcharge under subsection (a) of this section or canceling the application of a joint rate under subsection (c) of this section to be less than 110 percent of its variable costs (as calculated using the Commission's Rail Form A cost finding methodology), such

surcharging or canceling carrier may prove its actual variable costs on the basis of evidence other than unadjusted costs calculated using such Rail Form A cost finding methodology. Such evidence shall be prepared in accordance with generally accepted accounting principles.

New  
compensatory  
through rate.

"(l) Whenever the application of a joint rate to a through route is canceled under subsection (c) of this section, the Commission shall, upon petition by a class II or III rail carrier participating in such route, prescribe a new compensatory through rate or rates over such route within 30 days after the date such petition is filed.

Variable costs  
and revenue  
share.

"(m) For purposes of this section—

"(1) variable costs for a class I rail carrier shall be determined only by using such carrier's unadjusted costs, calculated using the Commission's Rail Form A cost finding methodology (or an alternative methodology adopted by the Commission in lieu thereof) and indexed quarterly to account for current wage and price levels in the region in which the carrier operates;

"(2) variable costs for a rail carrier other than class I shall be presumed to be the average variable costs of all class I rail carriers in the region in which such carrier operates (as determined under paragraph (1) of this subsection) unless a rail carrier rebuts such presumption with other proof of variable costs; and

"(3) at the option of a carrier applying a surcharge or canceling the application of a joint rate under this section, revenue share may be determined by reference to past revenue settlements actually made in the most recent calendar year by connecting lines.

49 USC 10726.

"(n) Surcharges applied under subsection (a) or (c) of this section and cancellations under subsection (c) of this section shall not be subject to the provisions of section 10726 (a)(1)(B) of this title.

*Ante*, p. 1897.

"(o) The Special Counsel of the Commission may, consistent with the rail transportation policy in section 10101a of this title, provide assistance to class III rail carriers and small businesses in preparing actions under this section.

*Ante*, p. 1895.

"(p)(1) The authority to apply a surcharge under subsection (a) of this section, and (except as provided in paragraph (2)) the authority to cancel such a surcharge, shall expire 3 years after the effective date of the Staggers Rail Act of 1980 unless extended for one additional year by the Commission upon petition of any rail carrier and for good cause shown.

"(2) Any surcharge lawfully applied under subsection (a) of this section shall remain in effect in accordance with its terms following the expiration of the provisions of this section. Any such surcharge applied during the 45-day period immediately preceding the date of the expiration of the provisions of this section shall, notwithstanding such expiration, be subject to cancellation under subsection (a)(2) or (a)(3) of this section during the 45-day period beginning on the date such surcharge is applied."

(2) The section analysis of chapter 107 of title 49, United States Code, is amended by inserting immediately after the item relating to section 10705 the following new item:

"10705a. Joint rate surcharges and cancellations."

note.  
*Ante*, p. 1916.

(b) For purposes of section 10705a of title 49, United States Code, the Interstate Commerce Commission shall classify all rail carriers on the basis of revenues, shall from time to time review its regulations setting forth revenue-based classifications for rail carriers, and

shall make appropriate changes in such regulations in order to reflect inflation. The Commission shall not reclassify switching and terminal carriers, or any other rail carriers not classified on the basis of revenues on the effective date of this Act, for any purpose other than for purposes of such section 10705a.

(c)(1) The Interstate Commerce Commission shall include in its annual report to the Congress under section 10311 of title 49, United States Code, a report with respect to the application of surcharges and the cancellation of the application of joint rates by the Consolidated Rail Corporation and other rail carriers, during the preceding year, under section 10705a of title 49, United States Code. Each such report shall include—

(B)(i) the number of surcharges applied by the Consolidated Rail Corporation and all other rail carriers under such section 10705a and the amount of revenue received by the Corporation and all other rail carriers from the application of such surcharges, (ii) the number of surcharges applied by the Corporation and all other rail carriers that were canceled under the procedures of such section 10705a, and (iii) the number of cancellations of the application of a joint rate by the Corporation and all other rail carriers under such section 10705a; and

(C) an analysis of the operation of the remedies made available to class III rail carriers under subsections (i), (j), and (k) of such section 10705a and to class II and class III rail carriers under subsection (l) of such section 10705a.

(2) The Interstate Commerce Commission shall, within 2 years after the effective date of this Act, submit a report to the Congress with respect to whether the provisions of section 10705a of title 49, United States Code, have adequately addressed the joint rate problems of rail carriers. The report shall include such recommendations with respect to such joint rate problems as the Commission considers necessary and appropriate.

#### EXPEDITED DIVISION OF REVENUES PROCEEDINGS

SEC. 218. (a) Section 10705(f)(1) of title 49, United States Code, is amended to read as follows:

“(f)(1)(A) The Commission may begin a proceeding under subsection (a) or (b) of this section on its own initiative or on complaint. The Commission must complete all evidentiary proceedings to adjust the division of joint rates for transportation by a rail carrier within 9 months after the complaint is filed if the proceeding is brought on complaint or within 18 months after the commencement of a proceeding on the initiative of the Commission. The Commission must take final action by the 180th day after completion of the evidentiary proceedings, except that—

“(i) when the proceeding involves a railroad in reorganization or a contention that the divisions at issue do not cover the variable costs of handling the traffic, the Commission shall give the proceedings preference over all other proceedings and shall take final action at the earliest practicable time, which in no event may exceed 100 days after the completion of the evidentiary proceedings; and

“(ii) in all cases other than those specified in clause (i) of this subparagraph, the Commission may decide to extend such a proceeding to permit its fair and expeditious completion, but whenever the Commission decides to extend a proceeding pursuant to this clause, it must report its reasons to Congress.

“(B) The provisions of this paragraph imposing time limitations upon Commission action shall not apply to any division proceeding involving a joint rate participated in by a class III rail carrier.”.

(b) Section 10705(f)(1) of title 49, United States Code, as amended by subsection (a) of this section, is further amended—

(1) by striking out subparagraph (B);

(2) by striking out “(A)” immediately before “The Commission”;

(3) by striking out “(i)” and inserting in lieu thereof “(A)”;

(4) by striking out “(ii)” and inserting in lieu thereof “(B)”;

(5) by striking out “clause (i) of this subparagraph” and inserting in lieu thereof “subparagraph (A) of this paragraph”.

#### RATE BUREAUS

SEC. 219. (a) Section 10706(a)(1) of title 49, United States Code, is amended by adding at the end thereof the following new subparagraph:

“(C) ‘practicably participates in that movement’ shall have such meaning as the Commission shall by regulation prescribe.”.

(b) Section 10706(a)(2)(A) of title 49, United States Code, is amended—

(1) by inserting “publication,” immediately after “initiation,” in the first sentence; and

“(i) permit a rail carrier to discuss, to participate in agreements related to, or to vote on single line rates proposed by another rail carrier, except that for purposes of general rate increases and broad tariff changes only, if the Commission finds at any time that the implementation of this clause is not feasible, it may delay or suspend such implementation in whole or in part;

“(ii) permit a rail carrier to discuss, to participate in agreements related to, or to vote on rates related to a particular interline movement unless that rail carrier practicably participates in that movement; or

“(iii) if there are interline movements over two or more routes between the same end points, permit a carrier to discuss, to participate in agreements related to, or to vote on rates except with a carrier which forms part of a particular single route. This clause shall take effect on January 1, 1984, or on such earlier date as the Commission determines. If the Commission finds at any time that the implementation of this clause is not feasible, it may delay or suspend such implementation in whole or in part.”.

“(ii) broad tariff changes that are of at least substantially general application throughout the area where the changes will apply, except single line rates where subparagraph (A)(i) of this paragraph prohibits the participation of carriers with single line rates.

If the Commission finds at any time that the implementation of this subparagraph is not feasible, it may delay or suspend such implementation in whole or in part.”.

(3) Section 10706(a)(3)(C) of title 49, United States Code, is amended—

“(ii) In any proceeding in which it is alleged that a carrier was a party to an agreement, conspiracy, or combination in violation of a Federal law cited in subsection (a)(2)(A) of this section or of any similar State law, proof of an agreement, conspiracy, or combination may not be inferred from evidence that two or more carriers acted together with respect to an interline rate or related matter and that a party to such action took similar action with respect to a rate or related matter on another route or traffic. In any proceeding in which such a violation is alleged, evidence of a discussion or agreement between or among such carrier and one or more other carriers, or of any rate or other action resulting from such discussion or agreement, shall not be admissible if the discussion or agreement—

“(I) was in accordance with an agreement approved under paragraph (2) of this subsection; or

“(II) concerned an interline movement of the carrier, and the discussion or agreement would not, considered by itself, violate the laws referred to in the first sentence of this clause.

“(2) Within 90 days, or such additional time as the Commission finds necessary, after a rail carrier files its request for final certification under paragraph (1) of this subsection, the Commission shall grant such final certification to such carrier if the Commission determines that the cost accounting system of such carrier is in compliance with the rules promulgated by the Commission under section 11163 of this title. The Commission shall thereupon grant final certification if it determines that such cost accounting system, as revised, is in compliance with such rules. If the Commission again denies final certification to the rail carrier, the Commission shall prescribe a cost accounting system which such carrier shall adopt within a reasonable time and which shall be considered a finally certified cost accounting system for purposes of this section.

“(c) Each rail carrier shall have and maintain a cost accounting system that is in compliance with the rules promulgated by the Commission under section 11163 of this title.

“(d)(1) Certification under this section that the cost accounting system of a rail carrier is in compliance with the rules promulgated by the Commission under section 11163 of this title shall be valid until the promulgation of new rules by the Commission.

“(1) ‘financially responsible person’ means a person who (A) is capable of paying the constitutional minimum value of the railroad line proposed to be acquired, and (B) is able to assure that adequate transportation will be provided over such line for a period of not less than 3 years. Such term includes a government authority but does not include a class I or a class II rail carrier.

“(2) ‘railroad line’ means (A) during the 3-year period beginning on the effective date of the Staggers Rail Act of 1980, a line of railroad which carried less than 3,000,000 gross ton miles of traffic per mile in the preceding calendar year, and (B) after the end of such 3-year period, any line of railroad.

Railroad lines, sale.

“(A)(i) the public convenience and necessity require or permit the sale of a particular railroad line under this section; or

“(ii) a railroad line has been placed on a system diagram map as required under section 10904 of this title, but the rail carrier owning such line has not filed an application to abandon such line under sections 10903 and 10904 of this title; and

49 USC 10904.

“(B) an application to purchase such line has been filed, in accordance with regulations required under subsection (k) of this section, by a financially responsible person,

49 USC 10903.

the Commission shall require the rail carrier owning the railroad line to sell such line to such financially responsible person at a price not less than the constitutional minimum value.

“(2) For purposes of this subsection, the constitutional minimum value of a particular railroad line shall be presumed to be not less than the net liquidation value of such line or the going concern value of such line, whichever is greater, but shall not include the cost of providing a protective arrangement under subsection (j) of this section.

“(c)(1) For purposes of this section, the Commission may determine that the public convenience and necessity require or permit the sale of a railroad line if the Commission determines, after a hearing on the record, that—

“(A) the rail carrier operating such line refuses within a reasonable time to make the necessary efforts to provide adequate service to shippers who transport traffic over such line;

“(B) the transportation over such line is inadequate for the majority of shippers who transport traffic over such line;

“(C) the sale of such line will not have a significantly adverse financial effect on the rail carrier operating such line;

“(D) the sale of such line will not have an adverse effect on the overall operational performance of the rail carrier operating such line; and

- “(E) the sale of such line will be likely to result in improved railroad transportation for shippers that transport traffic over such line.
- “(2) In a proceeding under this subsection, the burden of proving that the public convenience and necessity require or permit the sale of a particular railroad line is on the person filing the application to acquire such line. If the Commission finds under this subsection that the public convenience and necessity require or permit the sale of a particular railroad line, the Commission shall concurrently notify the parties of such finding and publish such finding in the Federal Register.
- Publication in Federal Register.
- Trackage rights. “(d) In the case of any railroad line subject to sale under subsection (a) of this section, the Commission shall, upon the request of the acquiring carrier, require the selling carrier to provide to the acquiring carrier trackage rights to allow a reasonable interchange with the selling carrier or to move power equipment or empty rolling stock between noncontiguous feeder lines operated by the acquiring carrier. The Commission shall require the acquiring carrier to provide the selling carrier reasonable compensation for any such trackage rights.
- “(e) The Commission shall require, to the maximum extent practicable, the use of the employees who would normally have performed work in connection with a railroad line subject to a sale under this section.
- Joint rates. “(f) In the case of a railroad line which carried less than 3,000,000 gross ton miles of traffic per mile in the preceding calendar year, whenever a purchasing carrier under this section petitions the Commission for joint rates applicable to traffic moving over through routes in which the purchasing carrier may practicably participate, the Commission shall, within 30 days after the date such petition is filed and pursuant to section 10705(a) of this title, require the establishment of reasonable joint rates and divisions over such route.
- 49 USC 10705.
- Exemptions. “(g)(1) Any person operating a railroad line acquired under this section may elect to be exempt from any of the provisions of this title, except that such a person may not be exempt from the provisions of chapter 107 of this title with respect to transportation under a joint rate.
- 49 USC 10701 *et seq.*
- “(2) The provisions of paragraph (1) of this subsection shall apply to any line of railroad which was abandoned during the 18-month period immediately prior to the effective date of the Staggers Rail Act of 1980 and was subsequently purchased by a financially responsible person.
- Ante*, p. 1895.
- “(h) If a purchasing carrier under this section proposes to sell or abandon all or any portion of a purchased railroad line, such purchasing carrier shall offer the right of first refusal with respect to such line or portion thereof to the carrier which sold such line under this section. Such offer shall be made at a price equal to the sum of the price paid by such purchasing carrier to such selling carrier for such line or portion thereof and the fair market value (less deterioration) of any improvements made, as adjusted to reflect inflation.
- Preconditions for shippers. “(i) Any person operating a railroad line acquired under this section may determine preconditions, such as payment of a subsidy, which must be met by shippers in order to obtain service over such lines, but such operator must notify the shippers on the line of its intention to impose such preconditions.
- Employee interests, protection. “(j) In the case of any railroad line sold pursuant to this section, the Commission shall require the selling carrier to provide a fair arrange-

ment at least as protective of the interests of employees as that established under section 11347 of this title.

If an initial decision is appealed and considered by the Commission, the Commission shall issue a final decision within 255 days after the date of application. Whenever the Commission decides upon investigation that the present or future public convenience and necessity require or permit the abandonment or discontinuance of rail service, it shall, within 15 days of the final decision, issue a certificate which permits the abandonment or discontinuance to occur within 75 days of the date of the final decision.

(5) Section 10904(e) of title 49, United States Code, as redesignated by paragraph (4) of this subsection, is amended by inserting immediately before the period at the end thereof the following: “, except that the requirement of such description or identification in such diagram may be waived by the Commission if the application was approved by the Secretary of Transportation as part of a plan or proposal under section 5(a)–(d) of the Department of Transportation Act (49 U.S.C. 1654(a)–(d)), or the application is filed by a railroad in bankruptcy”.

(c) Section 10905 of title 49, United States Code, is amended to read as follows:

49 USC 10905. **“§ 10905. Offers of financial assistance to avoid abandonment and discontinuance**

Definitions. “(a) In this section—

“(1) ‘avoidable cost’ means all expenses that would be incurred by a rail carrier in providing transportation that would not be incurred if the railroad line over which the transportation was provided were abandoned or if the transportation were discontinued. Expenses include cash inflows foregone and cash outflows incurred by the rail carrier as a result of not abandoning or discontinuing the transportation. Cash inflows foregone and cash outflows incurred include—

“(A) working capital and required capital expenditure;

“(B) expenditures to eliminate deferred maintenance;

“(C) the current cost of freight cars, locomotives, and other equipment; and

“(D) the foregone tax benefits from not retiring properties from rail service and other effects of applicable Federal and State income taxes.

“(2) ‘reasonable return’ means—

“(A) if a rail carrier is not in reorganization, the cost of capital to the rail carrier, as determined by the Interstate Commerce Commission; and

“(B) if a rail carrier is in reorganization, the mean cost of capital of rail carriers not in reorganization, as determined by the Commission.

“(b) Any rail carrier which has filed an application for a certificate of abandonment or discontinuance shall provide promptly to a party considering an offer of financial assistance and shall provide concurrently to the Commission—

“(1) an estimate of the annual subsidy and minimum purchase price required to keep the line or a portion of the line in operation;

“(2) its most recent reports on the physical condition of that part of the railroad line involved in the proposed abandonment or discontinuance;

“(3) traffic, revenue, and other data necessary to determine the amount of annual financial assistance which would be required to continue rail transportation over that part of the railroad line; and

“(4) any other information that the Commission may deem necessary to allow a potential offeror to calculate an adequate subsidy or purchase offer.

“(c) When the Commission finds under section 10903 of this title that the public convenience and necessity require or permit abandonment or discontinuance of a particular railroad line, it shall, concurrently with service of the decision upon the parties, publish the finding in the Federal Register. Within 10 days following the publication, any person may offer to pay the carrier a subsidy or offer to purchase the line. Such offer shall be filed concurrently with the Commission. If the offer to subsidize or purchase the line is less than the carrier’s estimate provided under subsection (b)(1) of this section, the offer shall explain the basis of the disparity, and the manner in which the offer of subsidy or purchase is calculated.

“(d) If, within 15 days after the publication required in subsection (c) of this section, the Commission finds that—

“(1) a financially responsible person (including a government authority) has offered financial assistance to enable the rail transportation to be continued over that part of the railroad line to be abandoned or over which all rail transportation is to be discontinued; and

“(2) it is likely that the assistance would be equal to—

“(A) the difference between the revenues attributable to that part of the railroad line and the avoidable cost of providing rail freight transportation on the line, plus a reasonable return on the value of the line; or

“(B) the acquisition cost of that part of the railroad line; the Commission shall postpone the issuance of a certificate authorizing abandonment or discontinuance in accordance with subsections (e) and (f) of this section.

“(e) If the carrier and a person offering financial assistance enter into an agreement which will provide continued rail service, the Commission shall postpone the issuance of the certificate for so long as the agreement, or an extension or modification of the agreement,

is in effect. If the carrier and a person offering to purchase a line enter into an agreement which will provide continued rail service, the Commission shall approve the transaction and dismiss the application for abandonment or discontinuance. If the carrier and a financially responsible person (including a government authority) fail to agree on the amount or terms of the subsidy or purchase, either party may, within 30 days after the offer is made, request that the Commission establish the conditions and amount of compensation. If no agreement is reached within 30 days after the offer is made and neither party requests that the Commission establish the conditions and amount of compensation during that same period, the Commission shall immediately issue a certificate authorizing the abandonment or discontinuance.

Subsidy or  
purchase terms,  
establishment.

“(f)(1) Whenever the Commission is requested to establish the conditions and amount of compensation under this section—

“(A) the Commission shall render its decision within 60 days;

“(B) where subsidy has been offered, the Commission shall determine the amount and terms of subsidy based on the avoidable cost of providing continued rail transportation, plus a reasonable return on the value of the line; and

“(C) where an offer of purchase has been made in order to continue rail service on the line, the Commission shall determine the price and other terms of sale. In no case shall the Commission set a price which is below the fair market value of the line (including, unless otherwise mutually agreed, all facilities on the line or portion necessary to provide effective transportation services).

“(2) The decision of the Commission shall be binding on both parties, except that the person who has offered to subsidize or purchase the line may withdraw his offer within 10 days of the Commission's decision. In such a case, the Commission shall immediately issue a certificate authorizing the abandonment or discontinuance, unless other offers are being considered pursuant to paragraph (3) of this subsection.

“(3) If a carrier receives more than one offer to purchase or subsidize, it shall select the offeror with whom it wishes to transact business, and complete the sale or subsidy agreement, or request that the Commission establish the conditions and amount of compensation prior to the 40th day after the date on which notice was published under subsection (c) of this section. If no agreement on subsidy or sale is reached within the 40-day period and the Commission has not been requested to establish the conditions and amount of compensation, any other offeror may request that the Commission establish the conditions and amount of compensation. If the Commission has established the conditions and amount of compensation and the original offer has been withdrawn, any other offeror may accept the Commission's decision within 20 days of such decision, and the Commission shall require the carrier to enter into a sale or subsidy agreement with such offeror, if such sale or agreement incorporates the Commission's decision.

Service  
discontinuance  
or transfer,  
prohibition.

“(4) No purchaser of a line or portion of line sold under this section may transfer or discontinue service on such line prior to the end of the second year after consummation of the sale, nor may such purchaser transfer such line, except to the carrier from whom it was purchased, prior to the end of the fifth year after consummation of the sale.

Subsidy  
discontinuance.

“(5) Any subsidy provided under this section may be discontinued on notice of 60 days. Unless, within such 60-day period, another

financially responsible party enters into a subsidy agreement at least as beneficial to the carrier as that which was or was to be discontinued, the Commission shall, at the carrier's request, immediately issue a certificate authorizing the abandonment or discontinuance of service on the line."

## TITLE V—CONRAIL TITLE V LABOR PROTECTION

## MONTHLY DISPLACEMENT ALLOWANCE

Pay rate.

SEC. 501. Section 505(b) of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 775(b)) is amended to read as follows:

“(b) MONTHLY DISPLACEMENT ALLOWANCE.—A protected employee shall be paid a monthly displacement allowance for any calendar month within the period identified in subsection (c) of this section in which the employee is deprived of employment or adversely affected with respect to such employee’s compensation, in accordance with the following provisions:

Ante, p. 1895.

“(1)(A) Effective on the effective date of the Staggers Rail Act of 1980, the protected rate of pay of a protected nonoperating employee (other than a maintenance-of-way employee) who has been deprived of employment or adversely affected with respect to such employee’s compensation shall be based on the rate of pay of the position held by the employee on September 1, 1979, or

if the employee held no position on that date, the rate of pay of the last position held by the employee prior to that date. A guaranteed hourly rate of pay will be computed for each protected employee, based on the rate described in the preceding sentence, and will be (i) the actual hourly rate for hourly rated employees, (ii) the daily rate divided by 8 for daily rated employees, and (iii) the monthly rate divided by the working days in the claim month, further divided by 8, in the case of monthly rated employees. For employees occupying relief positions, the guarantee shall be computed on the basis of the weighted average daily rate of the positions relieved. Extra list employees will be guaranteed the extra list rate.

“(B) In the event a protected employee’s position is abolished or such employee is displaced and is thereby required to occupy a position paying an hourly rate that is less than such employee’s guaranteed hourly rate, the protected employee shall be paid the difference between the hourly rate of pay of the position such employee is occupying and his guaranteed hourly rate for all hours included in the straight time work schedule of such employee’s position for the month of claim, less any time lost on account of voluntary absences other than vacations. Hours worked in excess of the straight time work schedule shall be paid in addition to the guarantee at the rate applicable to the position occupied, as provided for in the applicable collective bargaining agreement.

“(C) For any month or portion thereof in which a protected employee is deprived of employment, the protected employee shall be paid such employee’s guaranteed hourly rate for the number of hours such employee would have worked in the straight time work schedule of such employee’s previously held position.

“(D) Notwithstanding the provision that the protected rate shall be the rate of the position held on or immediately preceding September 1, 1979, if a protected employee becomes the permanent incumbent of a higher rated position and is not disqualified therefrom, the higher rate shall become such employee’s protected rate.

“(2) Notwithstanding paragraph (1) of this subsection, effective on the effective date of the Staggers Rail Act of 1980, a protected maintenance-of-way employee shall be afforded his average monthly compensation, which is defined as the total compensation received by such employee during the 12 months immediately preceding January 1, 1975, divided by his total time paid for during that period and multiplied by 174 or by his average monthly time paid for, whichever is less, and adjusted to reflect subsequent general wage increases. If a protected employee is deprived of employment or if the employee’s straight-time compensation in his current position is less in any month than the employee’s average monthly compensation, the employee shall be paid the difference between his straight-time earnings, if any, and 80 percent of the average monthly compensation, less any time lost on account of voluntary absences other than vacations. If, at the close of the calendar year, the sum of the protected employee’s annual straight-time compensation, monthly displacement allowance payments and offsets applicable pursuant to this title is less than the employee’s average monthly compensation multiplied by 12, the employee shall receive an additional payment representing the difference. If in the previous calendar

year an employee has received displacement allowance payments in excess of his annual entitlement, the excess payments shall be recovered from any current or future entitlement to monetary benefits afforded by this title, exclusive of benefits afforded by section 505(g) of this title.

“(3) Effective on the effective date of the Staggers Rail Act of 1980 a protected operating employee (as defined in Interstate Commerce Commission classifications 107 through 128) who has been deprived of employment or adversely affected with respect to such employee’s compensation shall be afforded his average monthly compensation computed in accordance with this subsection as in effect prior to such effective date, but subject to a maximum amount equal to one-twelfth of the average annual earnings of all employees in the Interstate Commerce Commission classification, computed by cumulating the employee earnings reported to the Commission by the Corporation on a monthly basis for calendar year 1977 for the Interstate Commerce Commission classification of operating service in which such employee performed the preponderance of such employee’s work in calendar year 1974, increased by applicable general wage increases. If the employee performed no operating service in 1974, the Interstate Commerce Commission classification shall be determined by the preponderance of such employee’s operating service in an immediately preceding calendar year. If the average monthly compensation of a protected operating employee exceeds the maximum amount described in the first sentence of this paragraph, the average monthly compensation of the employee will be reduced to such maximum amount for purposes of computing such employee’s monthly displacement allowance, if any. If the average monthly compensation of a protected operating employee is less than such maximum amount, the average monthly compensation of the employee will be used to compute such employee’s monthly displacement allowance, if any. If a protected employee is deprived of employment, or if the employee is adversely affected with respect to his compensation such that the compensation in such employee’s current position is less in any month than the average monthly compensation of the employee or such maximum amount, whichever is less, the employee shall be paid 75 per centum of the difference between such employee’s earnings, if any, and the lesser figure, minus any time lost on account of voluntary absences other than vacations. If at the close of the calendar year the sum of the protected employee’s annual earnings, monthly displacement allowance payments, and offsets applicable pursuant to this title is less than such employee’s average monthly compensation subject to the maximum amount and multiplied by 12, the employee shall receive an additional payment representing the difference. In the computation of the annual payment, if during the calendar year an employee has been force assigned to, or has been required to exercise seniority to, a position in an Interstate Commerce Commission classification with a lesser maximum amount than the maximum amount applicable to such employee’s 1974 Interstate Commerce Commission classification, such employee shall be paid the difference without credit being taken for compensation earned by virtue of actual working hours in the calendar year in excess of the number of hours paid for in such employee’s average monthly compensation multiplied by 12 or such employee’s annual 1977

maximum amount, whichever is less. An employee's compensation for purposes of this subsection shall not include savings sharing productivity payments received pursuant to paragraph (t) of the Crew Consist Agreement between the Corporation and the United Transportation Union dated September 8, 1978. If, in the previous calendar year, an employee has received displacement allowance payments in excess of such employee's annual entitlement, the excess payments shall be recovered from any current or future entitlement to monetary benefits afforded by this title, exclusive of benefits afforded by subsection (g) of this section.

"(4) Effective on the effective date of the Staggers Rail Act of 1980, a protected noncontract employee who has been deprived of employment or adversely affected with respect to such employee's compensation shall retain his average monthly compensation and monthly displacement allowance computed in accordance with this subsection as in effect prior to such effective date. In the event such noncontract employee exercises or has exercised seniority in a craft or class of operating employees, such employee's entitlement to a monthly displacement allowance and fringe benefits, and such employee's eligibility for transfer, shall be the same as the entitlement and eligibility of other protected employees in the craft or class in which seniority is exercised. In the event such noncontract employee exercises or has exercised seniority in a craft or class of nonoperating employees, the entitlement of such employee to a monthly displacement allowance and fringe benefits, and such employee's eligibility for transfer, shall be consistent with the entitlement and eligibility of other protected employees in the craft or class in which seniority is exercised, except that the protected rate of pay shall be based on the rate of pay of the position first obtained through the exercise of seniority, rather than the rate of any position held on or prior to September 1, 1979.

*Ante*, p. 1895.

"(5) Notwithstanding the preceding provisions of this subsection, employees who, prior to September 1, 1979, accepted transfer to positions requiring a change of residence pursuant to subsection (d) of this section, shall retain their average monthly compensation and monthly displacement allowance computed in accordance with this subsection prior to the effective date of the Staggers Rail Act of 1980.

"(6) In determining compensation in a protected employee's current employment, such employee shall be treated as occupying the position producing the highest rate of pay to which such employee's qualifications and seniority entitle the employee under the applicable collective bargaining agreement and which does not require a change in residence. A protected operating employee will be considered to be occupying the position producing the highest rate of pay if the employee occupies a position producing compensation equal to such employee's average monthly compensation, subject to the maximum amount.

"(7) With respect to a protected employee who has been deprived of employment, the monthly displacement allowance shall be reduced by (A) the full amount of any unemployment compensation benefits received by such employee, and (B) an amount equivalent to any outside earnings of such employee.

"(8) A protected employee's average monthly compensation or protected rate of pay shall be adjusted from time to time thereafter to reflect subsequent general wage increases.

"(9) The average monthly compensation or protected rate of pay provided by this section shall in no event exceed \$2,500 in any month, except that such amount shall be adjusted to reflect general wage increases subsequent to April 1, 1976.

"(10) A protected employee and his representative shall be furnished with such employee's protected rate of pay, or average monthly compensation and average monthly time paid for, subject to the maximum amount, computed in accordance with the terms of this subsection. Each protected employee who has been deprived of employment or his representative and the employer shall agree upon a procedure by which the employee shall keep the employer currently informed of the unemployment compensation benefits received by such employee and the earnings of such employee in employment other than with such employer.

"(11) In the case of a supplemental transaction—

"(A) with respect to an employee described in paragraph (1) of this subsection who was not employed on September 1, 1979, the protected rate of pay of such employee shall be based on the rate of pay of the position held by such employee on the first day of the first month after September 1979 in which such employee was employed;

"(B) with respect to an employee described in paragraph (2) of this subsection who was not employed during the 12 months immediately preceding January 1, 1975, the average monthly compensation of such employee shall be determined on the basis of the first 12-month period after January 1, 1974, during which such employee was employed; and

"(C) with respect to an employee described in paragraph (3) of this subsection—

"(i) if such employee was employed during the 12 months immediately preceding January 1, 1975, the average monthly compensation of such employee shall be determined on the basis of such 12-month period; and

"(ii) if such employee was not employed during the 12 months immediately preceding January 1, 1975, the preponderance of work of such employee shall be determined on the basis of the first 12-month period after January 1, 1974, during which such employee was employed."

#### DURATION OF MONTHLY DISPLACEMENT ALLOWANCE

SEC. 502. Section 505(c) of the Regional Rail Reorganization Act of 1973 (45 U.S.C. 775(c)) is amended to read as follows:

"(c) DURATION OF MONTHLY DISPLACEMENT ALLOWANCE.—The monthly displacement allowance provided for in subsection (b) of this section shall, in the case of a protected employee with 5 or more years of service on the effective date of this Act, continue until the attainment of age 65 by such employee, and shall, in the case of a protected employee who has less than 5 years of service on such date, continue for a period equal to the employee's total prior years of service, except that such monthly displacement allowance—

"(1) shall terminate upon the protected employee's death, retirement, resignation, or dismissal for cause;

"(2) shall not be paid with respect to any period of disciplinary suspension for cause, failure to work due to illness or disability, voluntary furlough, or failure to retain or obtain a position

available to the employee by the exercise of such employee's seniority rights in accordance with the provisions of this section;

"(3) shall not be paid to a protected employee deprived of employment with respect to any period of failure to work due to strike, fire, flood, snowstorm, hurricane, earthquake, tornado, or other similar natural occurrence that causes a suspension of operations in whole or in part and precludes performance of the work which would be performed by the incumbents of the positions to be abolished or the work which would be performed by the employees involved in the force reductions (but the payment of monthly displacement allowances shall be resumed upon termination of the emergency); and

"(4) shall not be paid with respect to any month that commences after the effective date of the Staggers Rail Act of 1980 for which the employee has failed to make a claim for such allowance within 3 full calendar months (unless otherwise agreed upon by the employee or his representative and the employer) after the last day of the month for which such allowance is sought, except that such 3-month limit shall not apply to any claim which is the subject of or is based upon an arbitration decision issued pursuant to section 507 of this title.

*Ante*, p. 1895.

45 USC 777.

Unless otherwise agreed upon by the employee or his representative and the employer, the entitlement of an employee to an allowance shall be approved or denied within 150 days after the claim therefor is made if such claim is filed during the 12-month period beginning on the effective date of the Staggers Rail Act of 1980, and within 90 days after the claim therefor is made if such claim is filed after such 12-month period. Any claim not approved or denied at the expiration of the time limits described in the preceding sentence shall be deemed approved."

“(C) The provisions of this paragraph shall not prevent the adoption of other procedures pursuant to an agreement made by the Corporation and representatives of the class or craft of employees involved.

“(D) When no bona fide vacancies exist in such craft or class, the Corporation may offer such employee comparable employment for which the employee is qualified, or for which the employee can be trained, in another craft or class. The Corporation shall first attempt to locate a comparable position in a seniority district which encompasses the employee's last work location, and if successful, a transfer notice may be tendered pursuant to subparagraph (A) of this paragraph. If no such position exists, the Corporation may tender the employee a transfer notice involving a position elsewhere on the system pursuant to subparagraph (B) of this paragraph. In the event it is necessary to train an employee after such employee's acceptance of a position pursuant to this paragraph, such training shall be provided by the Corporation at no cost to the employee.”.
