

tem shall submit to the Congress a report containing recommendations on any regulatory or statutory changes necessary—

“(i) to ensure that finance charges imposed in connection with consumer credit transactions more accurately reflect the cost of providing credit; and

“(ii) to address abusive refinancing practices engaged in for the purpose of avoiding rescission.

“(B) REPORT REQUIREMENTS.—In preparing the report under this paragraph, the Board shall—

“(i) consider the extent to which it is feasible to include in finance charges all charges payable directly or indirectly by the consumer to whom credit is extended, and imposed directly or indirectly by the creditor as an incident to the extension of credit (especially those charges excluded from finance charges under section 106 of the Truth in Lending Act [15 U.S.C. 1605] as of the date of the enactment of this Act), excepting only those charges which are payable in a comparable cash transaction; and

“(ii) consult with and consider the views of affected industries and consumer groups.

“(2) REGULATIONS.—The Board of Governors of the Federal Reserve System shall prescribe any appropriate regulation in order to effect any change included in the report under paragraph (1), and shall publish the regulation in the Federal Register before the end of the 1-year period beginning on the date of enactment of this Act.”

§ 1606. Determination of annual percentage rate

(a) “Annual percentage rate” defined

The annual percentage rate applicable to any extension of consumer credit shall be determined, in accordance with the regulations of the Board,

(1) in the case of any extension of credit other than under an open end credit plan, as

(A) that nominal annual percentage rate which will yield a sum equal to the amount of the finance charge when it is applied to the unpaid balances of the amount financed, calculated according to the actuarial method of allocating payments made on a debt between the amount financed and the amount of the finance charge, pursuant to which a payment is applied first to the accumulated finance charge and the balance is applied to the unpaid amount financed; or

(B) the rate determined by any method prescribed by the Board as a method which materially simplifies computation while retaining reasonable accuracy as compared with the rate determined under subparagraph (A).

(2) in the case of any extension of credit under an open end credit plan, as the quotient (expressed as a percentage) of the total finance charge for the period to which it relates divided by the amount upon which the finance charge for that period is based, multiplied by the number of such periods in a year.

(b) Computation of rate of finance charges for balances within a specified range

Where a creditor imposes the same finance charge for balances within a specified range, the annual percentage rate shall be computed on the median balance within the range, except that if the Board determines that a rate so computed would not be meaningful, or would be materially misleading, the annual percentage rate shall be computed on such other basis as the Board may by regulation require.

(c) Allowable tolerances for purposes of compliance with disclosure requirements

The disclosure of an annual percentage rate is accurate for the purpose of this subchapter if the rate disclosed is within a tolerance not greater than one-eighth of 1 per centum more or less than the actual rate or rounded to the nearest one-fourth of 1 per centum. The Board may allow a greater tolerance to simplify compliance where irregular payments are involved.

(d) Use of rate tables or charts having allowable variance from determined rates

The Board may authorize the use of rate tables or charts which may provide for the disclosure of annual percentage rates which vary from the rate determined in accordance with subsection (a)(1)(A) of this section by not more than such tolerances as the Board may allow. The Board may not allow a tolerance greater than 8 per centum of that rate except to simplify compliance where irregular payments are involved.

(e) Authorization of tolerances in determining annual percentage rates

In the case of creditors determining the annual percentage rate in a manner other than as described in subsection (d) of this section, the Board may authorize other reasonable tolerances.

(4) part A of subtitle VII of title 49, by the Secretary of Transportation with respect to any air carrier or foreign air carrier subject to that part.

(6) the Farm Credit Act of 1971 [12 U.S.C. 2001 et seq.] by the Farm Credit Administration with respect to any Federal land bank, Federal land bank association, Federal intermediate credit bank, or production credit association.

The terms used in paragraph (1) that are not defined in this subchapter or otherwise defined in section 3(s) of the Federal Deposit Insurance Act (12 U.S.C. 1813(s)) shall have the meaning given to them in section 1(b) of the International Banking Act of 1978 (12 U.S.C. 3101).

(b) Violations of this subchapter deemed violations of pre-existing statutory requirements; additional agency powers

For the purpose of the exercise by any agency referred to in subsection (a) of this section of its powers under any Act referred to in that subsection, a violation of any requirement imposed under this subchapter shall be deemed to be a violation of a requirement imposed under that

Act. In addition to its powers under any provision of law specifically referred to in subsection (a) of this section, each of the agencies referred to in that subsection may exercise, for the purpose of enforcing compliance with any requirement imposed under this subchapter, any other authority conferred on it by law.

(c) Federal Trade Commission as overall enforcing agency

For the purposes of this subsection, except where such disclosure error resulted from a willful violation which was intended to mislead the person to whom credit was extended, in determining whether a disclosure error has occurred and in calculating any adjustment, (A) each agency shall apply (i) with respect to the annual percentage rate, a tolerance of one-quarter of 1 percent more or less than the actual rate, determined without regard to section 1606(c) of this title, and (ii) with respect to the finance charge, a corresponding numerical tolerance as generated by the tolerance provided under this subsection for the annual percentage rate; except that (B) with respect to transactions consummated after two years following March 31, 1980, each agency shall apply (i) for
