(1) In furtherance of world peace and the security and foreign policy of the United States, the President is authorized to control the import and the export of defense articles and defense services and to provide foreign policy guidance to persons of the United States involved in the export and import of such articles and services. The President is authorized to designate those items which shall be considered as defense articles and defense services for the purposes of this section and to promulgate regulations for the import and export of such articles and services. The items so designated shall constitute the United States Munitions List.

(2) Decisions on issuing export licenses under this section shall take into account whether the export of an article would contribute to an arms race, aid in the development of weapons of mass destruction, support international terrorism, increase the possibility of outbreak or escalation of conflict, or prejudice the development of bilateral or multilateral arms control or non-proliferation agreements or other arrangements.

(3) In exercising the authorities conferred by this section, the President may require that any defense article or defense service be sold under this chapter as a condition of its eligibility for export, and may require that persons engaged in the negotiation for the export of defense articles and services keep the President fully and currently informed of the progress and future prospects of such negotiations.

(b) Registration and licensing requirements for manufacturers, exporters, or importers of designated defense articles and defense services

(1)(A)(i) As prescribed in regulations issued under this section, every person (other than an officer or employee of the United States Government acting in an official capacity) who engages in the business of manufacturing, exporting, or importing any defense articles or defense services designated by the President under subsection (a)(1) of this section shall register with the United States Government agency charged with the administration of this section, and shall pay a registration fee which shall be prescribed by such regulations. Such regulations shall prohibit the return to the United States for sale in the United States (other than for the Armed Forces of the United States and its allies or for any State or local law enforcement agency) of any military firearms or ammunition of United States manufacture furnished to foreign governments by the United States under this chapter or any other foreign assistance or sales program of the United States, whether or not enhanced in value or improved in condition in a foreign country. This prohibition shall not extend to similar firearms that have been so substantially transformed as to become, in effect, articles of foreign manufacture.

(ii)(I) As prescribed in regulations issued under this section, every person (other than an officer or employee of the United States Government acting in official capacity) who engages in the business of brokering activities with respect to the manufacture, export, import, or transfer of any defense article or defense service designated by the President under subsection (a)(1) of this section, or in the business of brokering activities with respect to the manufacture, export, import, or transfer of any foreign defense article or defense service (as defined in subclause (IV)), shall register with the United States Government agency charged with the administration of this section, and shall pay a registration fee which shall be prescribed by such regulations.

(ii) such foreign government certifies to the United States Government that such firearms are owned by such foreign government.

(B)¹ A copy of each registration made under this paragraph shall be transmitted to the Secretary of the Treasury for review regarding law enforcement concerns. The Secretary shall report to the President regarding such concerns as necessary.

(2) Except as otherwise specifically provided in regulations issued under subsection (a)(1) of this section, no defense articles or defense services designated by the President under subsection (a)(1) of this section may be exported or imported without a license for such export or import, issued in accordance with this chapter and regulations issued under this chapter, except that no license shall be required for exports or imports made by or for an agency of the United States Government (A) for official use by a department or agency of the United States Government, or (B) for carrying out any foreign assistance or sales program authorized by law and subject to the control of the President by other means.

App. 2410(c), (d), (e), and (g)], and by subsections (a) and (c) of section 12 of such Act [50 U.S.C. App. 2411(a) and (c)], subject to the same terms and conditions as are applicable to such powers under such Act [50 U.S.C. Nothing in this subsection shall be construed as authorizing the withholding of information from the Congress. Notwithstanding section 11(c) of the Export Administration Act of 1979, the civil penalty for each violation involving controls im-

posed on the export of defense articles and defense services under this section may not exceed \$500,000.

(f) Periodic review of items on Munitions List; exemptions

(1) The President shall periodically review the items on the United States Munitions List to determine what items, if any, no longer warrant export controls under this section. The results of such reviews shall be reported to the Speaker of the House of Representatives and to the Committee on Foreign Relations and the Committee on Banking, Housing, and Urban Affairs of the Senate. The President may not remove any item from the Munitions List until 30 days after the date on which the President has provided notice of the proposed removal to the Committee on International Relations of the House of Representatives and to the Committee on Foreign Relations of the Senate in accordance with the procedures applicable to reprogramming notifications under section 2394-1(a) of this title. Such notice shall describe the nature of any controls to be imposed on that item under any other provision of law.

(A) a description of the scope of the exemption, including a detailed summary of the defense articles, defense services, and related technical data covered by the exemption; and

(B) a determination by the Attorney General that the bilateral agreement concluded under subsection (j) of this section requires the compilation and maintenance of sufficient documentation relating to the export of United States defense articles, defense services, and related technical data to facilitate law enforcement efforts to detect, prevent, and prosecute criminal violations of any provision of this chapter, including the efforts on the part of countries and factions engaged in international terrorism to illicitly acquire sophisticated United States defense items.

(3) Paragraph (2) shall not apply with respect to an exemption for Canada from the licensing requirements of this chapter for the export of defense items.

(4) Paragraph (2) shall not apply with respect to an exemption under subsection (j)(1) to give effect to a treaty referred to in subsection (j)(1)(C)(i) (and any implementing arrangements to such treaty), provided that the President promulgates regulations to implement and enforce such treaty under this section and section 2779 of this title.

LANDMINE EXPORT MORATORIUM

B, §1000(a)(2) [title V, §553], Nov. 29, 1999, 113 Stat. 1535, 1501A-99; Pub. L. 107-115, title V, §548, Jan. 10, 2002, 115 Stat. 2156; Pub. L. 110-161, div. J, title VI, §634(j), Dec. 26, 2007, 121 Stat. 2329, provided that:

“(a) FINDINGS.—The Congress makes the following findings:

“(1) Anti-personnel landmines, which are specifically designed to maim and kill people, have been used indiscriminately in dramatically increasing numbers, primarily in insurgencies in poor developing countries. Noncombatant civilians, including tens of thousands of children, have been the primary victims.

“(2) Unlike other military weapons, landmines often remain implanted and undiscovered after conflict has ended, causing untold suffering to civilian populations. In Afghanistan, Cambodia, Laos, Vietnam, and Angola, tens of millions of unexploded landmines have rendered whole areas uninhabitable. In Afghanistan, an estimated hundreds of thousands of people have been maimed and killed by landmines during the 14-year civil war. In Cambodia, more than 20,000 civilians have lost limbs and another 60 are being maimed each month from landmines.

“(3) Over 35 countries are known to manufacture landmines, including the United States. However, the United States is not a major exporter of landmines. During the past ten years the Department of State has approved ten licenses for the commercial export of anti-personnel landmines valued at \$980,000, and during the past five years the Department of Defense has approved the sale of 13,156 anti-personnel landmines valued at \$841,145.

“(4) The United States signed, but has not ratified, the 1981 Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed To Be Excessively Injurious or To Have Indiscriminate Effects. The Convention prohibits the indiscriminate use of landmines.

“(5) When it signed the Convention, the United States stated: ‘We believe that the Convention represents a positive step forward in efforts to minimize injury or damage to the civilian population in time of armed conflict. Our signature of the Convention reflects the general willingness of the United States to adopt practical and reasonable provisions concerning the conduct of military operations, for the purpose of protecting noncombatants.’

“(6) The President should submit the Convention to the Senate for its advice and consent to ratification, and the President should actively negotiate under United Nations auspices or other auspices an international agreement, or a modification of the Convention, to prohibit the sale, transfer or export of anti-personnel landmines. Such an agreement or modification would be an appropriate response to the end of the Cold War and the promotion of arms control agreements to reduce the indiscriminate killing and maiming of civilians.

“(7) The United States should set an example for other countries in such negotiations, by implementing a one-year moratorium on the sale, transfer or export of anti-personnel landmines.

“(b) STATEMENT OF POLICY.—(1) It shall be the policy of the United States to seek verifiable international

agreements prohibiting the sale, transfer, or export, and further limiting the use, production, possession, and deployment of anti-personnel landmines.

“(2) It is the sense of the Congress that the President should actively seek to negotiate under United Nations auspices or other auspices an international agreement, or a modification of the Convention, to prohibit the sale, transfer, or export of anti-personnel landmines.

“(c) MORATORIUM ON TRANSFERS OF ANTI-PERSONNEL LANDMINES ABROAD.—During the 22 year period beginning on October 23, 1992—

“(1) no sale may be made or financed, no transfer may be made, and no license for export may be issued, under the Arms Export Control Act [22 U.S.C. 2751 et seq.], with respect to any anti-personnel landmine; and

“(2) no assistance may be provided under the Foreign Assistance Act of 1961 [22 U.S.C. 2151 et seq.], with respect to the provision of any anti-personnel landmine.

“(d) DEFINITION.—For purposes of this section, the term ‘anti-personnel landmine’ means—

“(1) any munition placed under, on, or near the ground or other surface area, or delivered by artillery, rocket, mortar, or similar means or dropped from an aircraft and which is designed to be detonated or exploded by the presence, proximity, or contact of a person;

“(2) any device or material which is designed, constructed, or adapted to kill or injure and which functions unexpectedly when a person disturbs or approaches an apparently harmless object or performs an apparently safe act;

“(3) any manually-emplaced munition or device designed to kill, injure, or damage and which is actuated by remote control or automatically after a lapse of time.”

[Section 634(j) of title VI of div. J of Pub. L. 110-161, which directed the amendment of section 1365(c) of Pub. L. 102-484, set out above, by substituting “During the 22 year period beginning on October 23, 1992” for “During the 16 year period beginning on October 23, 1992” before the period at the end, was executed by making the substitution in the introductory provisions, to reflect the probable intent of Congress.]

[Section 1000(a)(2) [title V, §553] of div. B of Pub. L. 106-113, which directed the amendment of section 1365(c) of Pub. L. 102-484, set out above, by substituting “During the 11-year” for “During the five-year”, was executed by making the substitution for “During the eight-year”.]

ARMS TRANSFERS RESTRAINT POLICY FOR MIDDLE EAST AND PERSIAN GULF REGION

Pub. L. 102-138, title IV, Oct. 28, 1991, 105 Stat. 718, provided that:

“SEC. 401. FINDINGS.

“The Congress finds that—

“(1) nations in the Middle East and Persian Gulf region, which accounted for over 40 percent of the international trade in weapons and related equipment and services during the decade of the 1980’s, are the principal market for the worldwide arms trade;

“(2) regional instability, large financial resources, and the desire of arms-supplying governments to gain influence in the Middle East and Persian Gulf region, contribute to a regional arms race;

“(3) the continued proliferation of weapons and related equipment and services contribute further to a regional arms race in the Middle East and Persian Gulf region that is politically, economically, and militarily destabilizing;

“(4) the continued proliferation of unconventional weapons, including nuclear, biological, and chemical weapons, as well as delivery systems associated with those weapons, poses an urgent threat to security and stability in the Middle East and Persian Gulf region;

“(5) the continued proliferation of ballistic missile technologies and ballistic missile systems that are

capable of delivering conventional, nuclear, biological, or chemical warheads undermines security and stability in the Middle East and Persian Gulf region;

“(6) future security and stability in the Middle East and Persian Gulf region would be enhanced by establishing a stable military balance among regional powers by restraining and reducing both conventional and unconventional weapons;

“(7) security, stability, peace, and prosperity in the Middle East and Persian Gulf region are important to the welfare of the international economy and to the national security interests of the United States;

“(8) future security and stability in the Middle East and Persian Gulf region would be enhanced through the development of a multilateral arms transfer and control regime similar to those of the Nuclear Suppliers’ Group, the Missile Technology Control Regime, and the Australia Chemical Weapons Suppliers Group;

“(9) such a regime should be developed, implemented, and agreed to through multilateral negotiations, including under the auspices of the 5 permanent members of the United Nations Security Council;

“(10) confidence-building arms control measures such as the establishment of a centralized arms trade registry at the United Nations, greater multinational transparency on the transfer of defense articles and services prior to agreement or transfer, cooperative verification measures, advanced notification of military exercises, information exchanges, on-site inspections, and creation of a Middle East and Persian Gulf Conflict Prevention Center, are important to implement an effective multilateral arms transfer and control regime;

“(11) as an interim step, the United States should consider introducing, during the ongoing negotiations on confidence security-building measures at the Conference on Security and Cooperation in Europe (CSCE) [now the Organization for Security and Cooperation in Europe], a proposal regarding the international exchange of information, on an annual basis, on the sale and transfer of major military equipment, particularly to the Middle East and Persian Gulf region; and

“(12) such a regime should be applied to other regions with the ultimate objective of achieving an effective global arms transfer and control regime, implemented and enforced through the United Nations Security Council, that—

“(A) includes a linkage of humanitarian and developmental objectives with security objectives in Third World countries, particularly the poorest of the poor countries; and

“(B) encourages countries selling military equipment and services to consider the following factors before making conventional arms sales: the security needs of the purchasing countries, the level of defense expenditures by the purchasing countries, and the level of indigenous production of the purchasing countries.

“SEC. 402. MULTILATERAL ARMS TRANSFER AND CONTROL REGIME.

“(a) IMPLEMENTATION OF THE REGIME.—

“(1) CONTINUING NEGOTIATIONS.—The President shall continue negotiations among the 5 permanent members of the United Nations Security Council and commit the United States to a multilateral arms transfer and control regime for the Middle East and Persian Gulf region.

“(2) PROPOSING A TEMPORARY MORATORIUM DURING NEGOTIATIONS.—In the context of these negotiations, the President should propose to the 5 permanent members of the United Nations Security Council a temporary moratorium on the sale and transfer of major military equipment to nations in the Middle East and Persian Gulf region until such time as the 5 permanent members agree to a multilateral arms transfer and control regime.

“(b) PURPOSE OF THE REGIME.—The purpose of the multilateral arms transfer and control regime should be—

“(1) to slow and limit the proliferation of conventional weapons in the Middle East and Persian Gulf region with the aim of preventing destabilizing transfers by—

“(A) controlling the transfer of conventional major military equipment;

“(B) achieving transparency among arms suppliers nations through advanced notification of agreement to, or transfer of, conventional major military equipment; and

“(C) developing and adopting common and comprehensive control guidelines on the sale and transfer of conventional major military equipment to the region;

“(2) to halt the proliferation of unconventional weapons, including nuclear, biological, and chemical weapons, as well as delivery systems associated with those weapons and the technologies necessary to produce or assemble such weapons;

“(3) to limit and halt the proliferation of ballistic missile technologies and ballistic missile systems that are capable of delivering conventional, nuclear, biological, or chemical warheads;

“(4) to maintain the military balance in the Middle East and Persian Gulf region through reductions of conventional weapons and the elimination of unconventional weapons; and

“(5) to promote regional arms control in the Middle East and Persian Gulf region.

“(c) ACHIEVING THE PURPOSES OF THE REGIME.—

“(1) CONTROLLING PROLIFERATION OF CONVENTIONAL WEAPONS.—In order to achieve the purposes described in subsection (b)(1), the United States should pursue the development of a multilateral arms transfer and control regime which includes—

“(A) greater information-sharing practices among supplier nations regarding potential arms sales to all nations of the Middle East and Persian Gulf region;

“(B) applying, for the control of conventional major military equipment, procedures already developed by the International Atomic Energy Agency, the Multilateral Coordinating Committee on Export Controls (COCOM), and the Missile Technology Control Regime (MTCR); and

“(C) other strict controls on the proliferation of conventional major military equipment to the Middle East and Persian Gulf region.

“(2) HALTING PROLIFERATION OF UNCONVENTIONAL WEAPONS.—In order to achieve the purposes described in subsections (b)(2) and (3), the United States should build on existing and future agreements among supplier nations by pursuing the development of a multilateral arms transfer and control regime which includes—

“(A) limitations and controls contained in the Enhanced Proliferation Control Initiative;

“(B) limitations and controls contained in the Missile Technology Control Regime (MTCR);

“(C) guidelines followed by the Australia Group on chemical and biological arms proliferation;

“(D) guidelines adopted by the Nuclear Suppliers Group (the London Group); and

“(E) other appropriate controls that serve to halt the flow of unconditional [unconventional] weapons to the Middle East and Persian Gulf region.

“(3) PROMOTION OF REGIONAL ARMS CONTROL AGREEMENTS.—In order to achieve the purposes described in subsections (b)(4) and (5), the United States should pursue with nations in the Middle East and Persian Gulf region—

“(A) the maintenance of the military balance within the region, while eliminating nuclear, biological, and chemical weapons and associated delivery systems, and ballistic missiles;

“(B) the implementation of confidence-building and security-building measures, including advance

notification of certain ground and aerial military exercises in the Middle East and the Persian Gulf; and

“(C) other useful arms control measures.

“(d) MAJOR MILITARY EQUIPMENT.—As used in this title, the term ‘major military equipment’ means—

“(1) air-to-air, air-to-surface, and surface-to-surface missiles and rockets;

“(2) turbine-powered military aircraft;

“(3) attack helicopters;

“(4) main battle tanks;

“(5) submarines and major naval surface combatants;

“(6) nuclear, biological, and chemical weapons; and

“(7) such other defense articles and defense services as the President may determine.

“SEC. 403. LIMITATION ON UNITED STATES ARMS SALES TO THE REGION.

“Beginning 60 days after the date of enactment of the International Cooperation Act of 1991 [probably means H.R. 2508, which had not been enacted into law by the end of the first session of the 102d Congress] or the Foreign Relations Authorization Act, Fiscal Years 1992 and 1993 [Oct. 28, 1991], whichever is enacted first, no sale of any defense article or defense service may be made to any nation in the Middle East and Persian Gulf region, and no license may be issued for the export of any defense article or defense service to any nation in the Middle East and Persian Gulf region, unless the President—

“(1) certifies in writing to the relevant congressional committees that the President has undertaken good faith efforts to convene a conference for the establishment of an arms suppliers regime having elements described in section 402; and

“(2) submits to the relevant congressional committees a report setting forth a United States plan for leading the world community in establishing such a multilateral regime to restrict transfers of advanced conventional and unconventional arms to the Middle East and Persian Gulf region.

“SEC. 404. REPORTS TO THE CONGRESS.

“(a) QUARTERLY REPORTS.—Beginning on January 15, 1992, and quarterly thereafter through October 15, 1993, the President shall submit to the relevant congressional committees a report—

“(1) describing the progress in implementing the purposes of the multilateral arms transfer and control regime as described in section 402(b); and

“(2) describing efforts by the United States and progress made to induce other countries to curtail significantly the volume of their arms sales to the Middle East and Persian Gulf region, and if such efforts were not made, the justification for not making such efforts.

“(b) INITIAL REPORT ON TRANSFERS AND REGIONAL MILITARY BALANCE.—Not later than 60 days after the date of enactment of the International Cooperation Act of 1991 or the Foreign Relations Authorization Act, Fiscal Years 1992 and 1993, whichever is enacted first, the President shall submit to the relevant congressional committee a report—

“(1) documenting all transfers of conventional and unconventional arms by any nation to the Middle East and Persian Gulf region over the previous calendar year and the previous 5 calendar years, including sources, types, and recipient nations of weapons;

“(2) analyzing the current military balance in the region, including the effect on the balance of transfers documented under paragraph (1);

“(3) describing the progress in implementing the purposes of the multilateral arms transfer and control regime as described in section 402(b);

“(4) describing any agreements establishing such a regime; and

“(5) identifying supplier nations that have refused to participate in such a regime or that have engaged in conduct that violates or undermines such a regime.

“(c) ANNUAL REPORTS ON TRANSFERS AND REGIONAL MILITARY BALANCE.—Beginning July 15, 1992, and every 12 months thereafter, the President shall submit to the relevant congressional committees a report—

“(1) documenting all transfers of conventional and unconventional arms by any nation to the Middle East and Persian Gulf region over the previous calendar year, including sources, types, and recipient nations of weapons;

“(2) analyzing the current military balance in the region, including the effect on the balance of transfer documented under paragraph (1);

“(3) describing the progress in implementing the purposes of the multilateral arms transfer and control regime as described in section 402(b); and

“(4) identifying supplier nations that have refused to participate in such a regime or that have engaged in conduct that violates or undermines such a regime.
