SUBCHAPTER II—ADOPTION OPPORTUNITIES

§5111. Congressional findings and declaration of purpose

(a) Findings

Congress finds that—

(1) on the last day of fiscal year 2009, some 424,000 children were living in temporary foster family homes or other foster care settings;

(2) most children in foster care are victims of child abuse or neglect by their biological parents and their entry into foster care brought them the additional trauma of separation from their homes and often their communities;

(3) on average, children entering foster care have more physical and mental health needs than do children in the general population, and some require intensive services because the children entering foster care—

(A) were born to mothers who did not receive prenatal care; and

(B) were born with life-threatening conditions or disabilities;
(C) were born addicted to alcohol or other drugs; or
(D) have HIV/AIDS;

(4) each year, thousands of children in foster care, regardless of their age, the size of the sibling group they are a part of, their racial or ethnic status, their medical condition, or any physical, mental or emotional disability they may have, are in need of placement with permanent, loving, adoptive families;
(5)(A) States have made important strides in increasing the number of children who are placed in permanent homes with adoptive parents  and in reducing the length of time children wait for such a placement; and
(B) many thousands of children, however, still remain in institutions or foster homes solely because of legal and other barriers to such a placement;

(6)(A) on the last day of fiscal year 2009, there were 115,000 children waiting for adoption;
(B) children waiting for adoption have had parental rights of all living parents terminated or the children have a permanency goal of adoption;

(C)(i) the average age of children adopted with public child welfare agency involvement during fiscal year 2009 was a little more than 6 years; and

(ii) the average age of children waiting for adoption on the last day of that fiscal year was a little more than 8 years of age and more than 30,000 of those children were 12 years of age or older; and

(D)(i) 25 percent of the children adopted with public child welfare agency involvement during fiscal year 2009 were African-American; and

(ii) 30 percent of the children waiting for adoption on the last day of fiscal year 2009 were African-American;

(7) adoption may be the best alternative for assuring the healthy development of children placed in foster care;

(8) there are qualified persons seeking to adopt such children who are unable to do so because of barriers to their placement and adoption; and

(9) in order both to enhance the stability of and love in the home environments of such children and to avoid wasteful expenditures of public funds, such children—

(A) should not have medically indicated treatment withheld from them; or

(B) be maintained in foster care or institutions when adoption is appropriate and families can be found for such children.

(b) Purpose

It is the purpose of this subchapter to facilitate the elimination of barriers, including geographic barriers, to adoption and to provide permanent and loving home environments for children who would benefit from adoption, particularly older children, minority children, and children with special needs, including disabled infants with life-threatening conditions, by providing a mechanism to—

(1) promote quality standards for adoption services, pre-placement, post-placement, and post-legal adoption counseling, and standards to protect the rights of children in need of adoption;

(2) maintain an Internet-based national adoption information exchange system to—

(A) bring together children who would benefit from adoption and qualified prospective adoptive parents who are seeking such children;

(B) conduct national recruitment efforts in order to reach prospective parents for children awaiting adoption;

(C) connect placement agencies, prospective adoptive parents, and adoptive parents to resources designed to reduce barriers to adoption, support adoptive families, and ensure permanency; and

(3) demonstrate expeditious ways to free children for adoption for whom it has been determined that adoption is the appropriate plan.

(A) bring together children who would benefit from adoption and qualified prospective adoptive parents who are seeking such children, and conduct national recruitment efforts in order to reach prospective parents for children awaiting adoption; and

(B) maintain an Internet-based national adoption information exchange system to bring together children who would benefit from adoption and qualified prospective adoptive parents who are seeking such children, and conduct national recruitment efforts in order to reach prospective parents for children awaiting adoption; and

(C) connect placement agencies, prospective adoptive parents, and adoptive parents to resources designed to reduce barriers to adoption, support adoptive families, and ensure permanency; and

(D) have HIV/AIDS;

redesignated subsxs. (a) to (C) of former par. (2) as pars. (1) to (3), respectively, and realigned margins.

(a) and (b), inserting findings relating to the number of children in substitute care, foster care, and children with complex problems which require intensive services, infants born without prenatal care, addicted to alcohol or other drugs, or exposed to infection with the etiologic agent for human immunodeficiency virus, and percentage of children awaiting adoption who are minorities, inserting as purposes of this subchapter to provide a mechanism to recruit prospective parents for children awaiting adoption and to demonstrate expeditious ways to free children for adoption, and striking out as a purpose to provide a mechanism to coordinate with Federal departments and agencies to provide national adoption and foster care information data-gathering and analysis system.

(1), inserted "the welfare of thousands of children in institutions and foster homes and disabled infants with life-threatening conditions may be in serious jeopardy and that some such children are in need of placement in permanent, adoptive homes, that" and substituted "should not have medically indicated treatment withheld from them, nor be maintained in foster care" for "should not be maintained in foster care" and "children with special needs, including disabled infants with life-threatening conditions" for "children with special needs by".
