The pooling order shall designate a unit operator who shall be authorized to drill and operate the spacing unit. The pooling order shall provide that any entity claiming an ownership interest in the coalbed methane within such spacing unit which does not make an election under the pooling order shall be deemed to have leased its coalbed methane interest to the unit operator under such terms and conditions as the pooling order may provide. No pooling order may be issued under this paragraph for any spacing unit if all entities claiming an ownership interest in the coalbed methane in the spacing unit have entered into a voluntary agreement providing for the drilling and operation of the coalbed methane gas well for the spacing unit.

(h) Escrow account

(1) Each pooling order issued under subsection (g) of this section shall provide for the establishment of an escrow account into which the payment of costs and proceeds attributable to the conflicting interests shall be deposited and held for the interest of the claimants as follows:

(A) Each participating working interest owner, except for the unit operator, shall deposit in the escrow account its proportionate share of the costs allocable to the ownership interest claimed by each such participating working interest owner as set forth in the pooling order issued by the Secretary of the Interior.

(B) The unit operator shall deposit in the escrow account all proceeds attributable to the
§ 13368

The Secretary of the Interior shall order payment of principal and accrued interest from the escrow account to all legally entitled entities within 30 days of receipt by the Secretary of the Interior of notification of the final legal determination of entitlement or upon agreement of all entities claiming an ownership interest in the coalbed methane gas. Upon such final determination—

(A) each legally entitled participating working interest owner shall receive a proportionate share of the proceeds attributable to the conflicting ownership interest;

(B) each legally entitled nonparticipating working interest owner shall receive a proportionate share of the proceeds attributable to the conflicting working interest owner (as determined by the election of the entity under the applicable pooling order);

(C) each entity leasing (or deemed to have leased) its coalbed methane ownership interest to the unit operator shall receive a share of the royalty proceeds (as set out in the applicable pooling order) attributable to the conflicting interests of lessees; and

(D) the unit operator shall receive the costs contributed to the escrow account by each legally entitled participating working interest owner.

The Secretary of the Interior shall enact rules and regulations for the administration and protection of funds delivered to the escrow accounts.

(i) Approval of Secretary of the Interior

No entity may drill any well for the production of coalbed methane gas from a coal seam, subject to the provisions of subsection (g) of this section, in an Affected State unless the drilling of such well has been approved by the Secretary of the Interior.

(j) Authorization to stimulate coal seam

(1) No operator of a coalbed methane well may stimulate a coal seam without the written consent of each entity which, at the time that the coalbed methane operator applies for a drilling permit, is operating a coal mine, or has by virtue of his property rights in the coal the ability to operate a coal mine, located within a horizontal or vertical distance from the point of stimulation as established by the Secretary of the Interior pursuant to paragraph (3) of this subsection. In seeking the coal operator's consent, a coalbed methane well operator shall provide the coal operator with necessary information about such stimulation, including relevant information to ensure compliance with coal mine safety laws and rules.

(2) In the absence of a written consent pursuant to paragraph (1) and at the request of a coalbed methane operator, the Secretary of the Interior shall make a determination regarding stimulation of a coal seam. Such request shall include an affidavit which shall—

(A) state that an entity from which consent is required pursuant to paragraph (1) has refused to provide written consent;

(B) set forth in detail the efforts undertaken by the applicant to obtain such written consent;

(C) state the known reasons for the consent not being provided;

(D) set forth the conditions and compensation, if any, offered by the applicant as part of the efforts to obtain consent; and

(E) provide prima facie evidence that the method of stimulation proposed by the coalbed methane operator will not (i) cause unreasonable loss or damage to the coal seam considering all factors, including the prospect, taking into consideration the economics of the coal industry, that coal seams for which no actual or proposed mining plans exist will be mined at some future date, or (ii) violate mine safety requirements. If a denial of consent by a coal operator is based on reasons related to safety, the Secretary of the Interior shall seek the views and recommendations of the appropriate State or Federal coal mine safety agency. Any determination by the Secretary of the Interior shall be in accordance with all applicable Federal and State coal mine safety laws and such views and recommendations. A determination by the Secretary of the Interior approving a method of stimulation may include reasonable conditions including, but not limited to, conditions to mitigate, to the extent practicable, economic damage to the coal seam. Any determination approving or denying a method of stimulation by the Secretary of the Interior shall be subject to appeal. Interested entities shall be allowed to participate in and comment on proceedings under this paragraph.

(3) The Secretary of the Interior shall by rule establish, for an Affected State, a region thereof, or a multi-State region comprised of Affected States, the boundaries within which a coalbed methane operator shall be required to obtain written consent from a coal operator pursuant to paragraph (1). Such boundaries shall be stated in terms of a horizontal and a vertical distance from the point of stimulation and shall be determined based on an evaluation of the maximum length, height and depth of fracture producible in a coal seam in such Affected State, region thereof, or multi-State region comprised of Affected States.

(4) The consent required under this subsection shall in no way be deemed to impair, abridge, or affect any contractual rights or objections arising out of a coalbed methane gas contract or coalbed methane gas lease in existence as of October 24, 1992 between the coalbed methane operator and the coal operator, and the existence of such lease or contractual agreement and any extensions or renewals of such lease shall be deemed to fully meet the requirements of this section.

(5) Nothing in this subsection precludes either a coal operator or a coalbed methane operator from seeking in the appropriate State forum compensation for the consequences of a deter-

mination by the Secretary of the Interior pursuant to paragraph (2).

(k) Notice and objection

(1) The Secretary of the Interior shall not approve the drilling of any coalbed methane well unless the unit operator has notified each entity which is operating, or has the ability, by virtue of his property rights in the coal, to operate, a coal mine in any portion of the coalbed that would be affected by such well within the distances established pursuant to the rules promulgated under subsection (j)(3) of this section. Any notified entity may object to the drilling of such well within 30 days after receipt of a notice. Upon receipt of a timely objection to the drilling of any coalbed methane gas well submitted by a notified entity, the Secretary of the Interior may refuse to approve the drilling of the well based on any of the following:

(A) The proposed activity, due to its proximity to any coal mine opening, shaft, underground workings, or to any proposed extension of the coal mine, would adversely affect any operating, inactive or abandoned coal mine, including any coal mine already surveyed and platted but not yet being operated.

(B) The proposed activity would not conform with a coal operator’s development plan for an existing or proposed operation.

(C) There would be an unreasonable interference from the proposed activity with present or future coal mining operations, including the ability to comply with other applicable laws and regulations.

(D) The presence of evidence indicating that the proposed drilling activities would be unsafe, taking into consideration the dangers from creeps, squeezes or other disturbances due to the extraction of coal.

(E) The proposed activity would unreasonably interfere with the safe recovery of coal, oil and gas.

(2) In the event the Secretary of the Interior does not approve the drilling of a coalbed methane well pursuant to paragraph (1), the Secretary of the Interior shall consider whether such drilling could be approved if the unit operator modifies the proposed activities to take into account any of the following:

(A) The proposed activity could instead be reasonably done through an existing or planned pillar of coal, or in close proximity to an existing well or such pillar of coal, taking into consideration surface topography.

(B) The proposed activity could instead be moved to a mined-out area, below the coal outcrop or to some other feasible area.

(C) The unit operator agrees to a drilling moratorium of not more than two years in order to permit completion of coal mining operations.

(D) The practicality of locating the proposed spacing unit or well on a uniform pattern with other spacing units or wells.

(l) Plugging

All coalbed methane wells drilled after October 24, 1992, that penetrate coal seams with remaining reserves shall provide for subsequent safe mining through the well in accordance with standards prescribed by the Secretary of the Interior, in consultation with any Federal and State agencies having authority over coal mine safety. Well plugging costs should be allocated in accordance with State law or private contractual arrangement, as the case may be.

(m) Notice and objection by other parties

The Secretary of the Interior shall not approve the drilling of any coalbed methane well unless such well complies with the spacing and other requirements established by the Secretary of the Interior and each of the following:

(1) The unit operator of such well has notified, or has made a reasonable and diligent effort to notify, all entities claiming ownership of coalbed methane to be drained by such well and provided an opportunity to object in accordance with requirements established by the Secretary of the Interior.

(2) Where conflicting interests exist, an order under subsection (g) of this section establishing pooling requirements has been issued.

The notification requirements of this subsection shall be additional to the notification referred to in subsection (k) of this section. The Secretary of the Interior shall establish the conditions under which entities claiming ownership of coalbed methane may object to the drilling of a coalbed methane well.

(n) Venting for safety

Nothing in this section shall be construed to prevent or inhibit the entity which has the right to develop and mine coal in any mine from venting coalbed methane gas to ensure safe mine operations.

(o) Other laws

The Secretary of the Interior shall comply with all applicable Federal and State coal mine safety laws and regulations.

§ 13555. Consultative Commission on Western Hemisphere Energy and Environment

(a) Findings

The Congress finds that—

(1) there is growing mutual economic interdependence among the countries of the Western Hemisphere;

(2) energy and environmental issues are intrinsically linked and must be considered to-
gather when formulating policy on the broader issue of sustainable economic development for the Western Hemisphere as a whole;
(3) when developing their respective energy infrastructures, countries in the Western Hemisphere must consider existing and emerging environmental constraints, and do so in a way that results in sustainable long-term economic growth;
(4) the coordination of respective national energy and environmental policies of the governments of the Western Hemisphere could be substantially improved through regular consultation among these countries;
(5) the development, production and consumption of energy can affect environmental quality, and the environmental consequences of energy-related activities are not confined within national boundaries, but are regional and global in scope;
(6) although the Western Hemisphere is richly endowed with indigenous energy resources, an insufficient energy supply would severely constrain future opportunities for sustainable economic development and growth in each of these member countries; and
(7) the energy markets of the United States are linked with those in other countries of the Western Hemisphere and the world.

(b) “Commission” defined

For purposes of this section, the term “Commission” means the Consultative Commission on Western Hemisphere Energy and Environment.

c) Negotiations

The President is authorized to direct the United States representative to the Organization of American States to initiate negotiations with the Organization of American States for the establishment of a Consultative Commission on Western Hemisphere Energy and Environment under the auspices of the Organization of American States.

(d) The Commission

In the course of the negotiations, the following shall be pursued:

(1) Objectives

The objectives of the Commission shall be—
(A) to evaluate from the viewpoint of the Western Hemisphere as a whole the energy and environmental situations, trends, and policies of the countries of the participating governments necessary to support sustainable economic development;
(B) to recommend to the participating governments actions, policies, and institutional arrangements that will enhance cooperation and policy coordination among their respective countries in the future development and use of indigenous energy resources and technologies, and in the future development and implementation of measures to protect the environment of the Western Hemisphere; and
(C) to recommend to the participating governments actions and policies that will enhance energy and environmental cooperation and coordination among the countries of the Western Hemisphere and the world.

(2) Composition of Commission

The Commission shall include representatives of—
(A) the respective foreign energy and environmental ministries or departments of the participating governments;
(B) the parliamentary or legislative bodies with legislative responsibilities for energy and environmental matters; and
(C) other governmental and non-governmental observers appointed by the heads of each participating government on the basis of their experience and expertise.

(3) Secretariat

A small secretariat shall be chosen by the participating governments for their expertise in the areas of energy and the environment.

(b) Ineligibility of illegal drug users and alcohol abusers
(1) In general
Notwithstanding any other provision of law, a public housing agency or an owner of federally assisted housing, as determined by the Secretary, shall establish standards that prohibit admission to the program or admission to federally assisted housing for any household with a member—
(A) who the public housing agency or owner determines is illegally using a controlled substance; or
(B) with respect to whom the public housing agency or owner determines that it has reasonable cause to believe that such household member’s illegal use (or pattern of illegal use) of a controlled substance, or abuse (or pattern of abuse) of alcohol, may interfere with the health, safety, or right to peaceful enjoyment of the premises by other residents.

(2) Consideration of rehabilitation

In determining whether, pursuant to paragraph (1)(B), to deny admission to the program or federally assisted housing to any household based on a pattern of illegal use of a controlled substance or a pattern of abuse of alcohol by a household member, a public housing agency or an owner may consider whether such household member—

(A) has successfully completed a supervised drug or alcohol rehabilitation program (as applicable) and is no longer engaging in the illegal use of a controlled substance or abuse of alcohol (as applicable);

(B) has otherwise been rehabilitated successfully and is no longer engaging in the illegal use of a controlled substance or abuse of alcohol (as applicable); or

(C) is participating in a supervised drug or alcohol rehabilitation program (as applicable) and is no longer engaging in the illegal use of a controlled substance or abuse of alcohol (as applicable).

(c) Authority to deny admission to criminal offenders

Except as provided in subsections (a) and (b) of this section and in addition to any other authority to screen applicants, in selecting among applicants for admission to the program or to federally assisted housing, if the public housing agency or owner of such housing (as applicable) determines that an applicant or any member of the applicant’s household is or was, during a reasonable time preceding the date when the applicant household would otherwise be selected for admission, engaged in any drug-related or violent criminal activity or other criminal activity which would adversely affect the health, safety, or right to peaceful enjoyment of the premises by other residents, the owner, or public housing agency employees, the public housing agency or owner may—

(1) deny such applicant admission to the program or to federally assisted housing; and

(2) after the expiration of the reasonable period beginning upon such activity, require the applicant, as a condition of admission to the program or to federally assisted housing, to submit to the public housing agency or owner evidence sufficient (as the Secretary shall by regulation provide) to ensure that the individual or individuals in the applicant’s household who engaged in criminal activity for which denial was made under paragraph (1) have not engaged in any criminal activity during such reasonable period.

§ 13662. Termination of tenancy and assistance for illegal drug users and alcohol abusers in federally assisted housing

(a) In general

Notwithstanding any other provision of law, a public housing agency or an owner of federally assisted housing (as applicable), shall establish standards or lease provisions for continued assistance or occupancy in federally assisted housing that allow the agency or owner (as applicable) to terminate the tenancy or assistance for any household with a member—

(1) who the public housing agency or owner determines is illegally using a controlled substance; or

(2) whose illegal use (or pattern of illegal use) of a controlled substance, or whose abuse (or pattern of abuse) of alcohol, is determined by the public housing agency or owner to interfere with the health, safety, or right to peaceful enjoyment of the premises by other residents.

(b) Consideration of rehabilitation

In determining whether, pursuant to subsection (a)(2) of this section, to terminate tenancy or assistance to any household based on a pattern of illegal use of a controlled substance or a pattern of abuse of alcohol by a household member, a public housing agency or an owner may consider whether such household member—

(1) has successfully completed a supervised drug or alcohol rehabilitation program (as applicable) and is no longer engaging in the illegal use of a controlled substance or abuse of alcohol (as applicable);

(2) has otherwise been rehabilitated successfully and is no longer engaging in the illegal use of a controlled substance or abuse of alcohol (as applicable); or

(3) is participating in a supervised drug or alcohol rehabilitation program (as applicable) and is no longer engaging in the illegal use of a controlled substance or abuse of alcohol (as applicable).

§ 13663. Ineligibility of dangerous sex offenders for admission to public housing

(a) In general

Notwithstanding any other provision of law, an owner of federally assisted housing shall pro-
hibit admission to such housing for any household that includes any individual who is subject to a lifetime registration requirement under a State sex offender registration program.

(b) Obtaining information
As provided in regulations issued by the Secretary to carry out this section—

(1) a public housing agency shall carry out criminal history background checks on applicants for federally assisted housing and make further inquiry with State and local agencies as necessary to determine whether an applicant for federally assisted housing is subject to a lifetime registration requirement under a State sex offender registration program; and

(2) State and local agencies responsible for the collection or maintenance of criminal history record information or information on persons required to register as sex offenders shall comply with requests of public housing agencies for information pursuant to this section.

(c) Requests by owners for PHAs to obtain information
A public housing agency may take any action under subsection (b) of this section regarding applicants for, or tenants of, federally assisted housing other than federally assisted housing described in subparagraph (A) or (B) of section 13664(a)(2) of this title, but only if the housing is located within the jurisdiction of the agency and the owner of such housing has requested that the agency take such action on behalf of the owner. Upon such a request by the owner, the agency shall take the action requested under subsection (b) of this section. The agency may not make any information obtained pursuant to the action under subsection (b) of this section available to the owner but shall perform determinations for the owner regarding screening, lease enforcement, and eviction based on criteria supplied by the owner.

(d) Opportunity to dispute
Before an adverse action is taken with respect to an applicant for federally assisted housing on the basis that an individual is subject to a lifetime registration requirement under a State sex offender registration program, the public housing agency obtaining the record shall provide the tenant or applicant with a copy of the registration information and an opportunity to dispute the accuracy and relevance of that information.

(e) Fee
A public housing agency may be charged a reasonable fee for taking actions under subsection (b) of this section. In the case of a public housing agency taking actions on behalf of another owner of federally assisted housing pursuant to subsection (c) of this section, the agency may pass such fee on to the owner making the request and may charge an additional reasonable fee for making the request on behalf of the owner.

(f) Records management
Each public housing agency shall establish and implement a system of records management that ensures that any criminal record or information regarding a lifetime registration requirement under a State sex offender registration program that is obtained under this section by the public housing agency is—

(1) maintained confidentially;

(2) not misused or improperly disseminated; and

(3) destroyed, once the purpose for which the record was requested has been accomplished.

(1) to build or expand correctional facilities to increase the bed capacity for the confinement of persons convicted of a part 1 violent crime or adjudicated delinquent for an act which if committed by an adult, would be a part 1 violent crime;

(2) to build or expand temporary or permanent correctional facilities, including facilities on military bases, prison barges, and boot camps, for the confinement of convicted non-violent offenders and criminal aliens, for the purpose of freeing suitable existing prison space for the confinement of persons convicted of a part 1 violent crime;

(3) Limitation on receipt of funds

No State may receive a grant under this part both individually and as part of a compact.

(c) Applicability

Notwithstanding the eligibility requirements of section 13704 of this title, a State that certifies to the Attorney General that, as of April 26, 1996, such State has enacted legislation in reliance on this part, as enacted on September 13, 1994, and would in fact qualify under those provisions, shall be eligible to receive a grant for fiscal year 1996 as though such State qualifies under section 13704 of this title.

§ 13703. Violent offender incarceration grants

(a) Eligibility for minimum grant

To be eligible to receive a minimum grant under this section, a State shall submit an application to the Attorney General that provides assurances that the State has implemented, or will implement, correctional policies and programs, including truth-in-sentencing laws that ensure that violent offenders serve a substantial portion of the sentences imposed, that are designed to provide sufficiently severe punishment for violent offenders, including violent juvenile offenders, and that the prison time served is appropriately related to the determination that the inmate is a violent offender and for a period of time deemed necessary to protect the public.

(b) Additional amount for increased percentage of persons sentenced and time served

A State that received a grant under subsection (a) of this section is eligible to receive additional grant amounts if such State demonstrates that it has, since 1993—

(1) increased the percentage of persons arrested for a part 1 violent crime sentenced to prison; or

(B) such State has truth-in-sentencing laws that have been enacted, but not yet implemented, that require such State, not later than 3 years after such State submits an application to the Attorney General, to provide that persons convicted of a part 1 violent crime serve not less than 85 percent of the sentence imposed (without counting time not actually served, such as administrative or statutory incentives for good behavior); or

Notwithstanding any other provision of this part, if a State, or unit of local government located in a State that otherwise meets the requirements of section 13703 or 13704 of this title, certifies to the Attorney General that exigent circumstances exist that require the State to expend funds to build or expand facilities to confine juvenile offenders other than juvenile offenders adjudicated delinquent for an act which, if committed by an adult, would be a part 1 violent crime, the State may use funds received under this part to build or expand juvenile correctional facilities or pretrial detention facilities for juvenile offenders.

(b) Use of truth-in-sentencing and violent offender incarceration grants

Funds provided under section 13703 or 13704 of this title may be applied to the cost of—

(B) The amount remaining after application of subparagraph (A) shall be allocated to each State that meets the requirements of section 13703(b) of this title, in the ratio that the number of part 1 violent crimes reported by such State to the Federal Bureau of Investigation for the 3 years preceding the year in which the determination is made, bears to the average annual number of part 1 violent crimes reported by all States that meet the requirements of section 13703(b) of this title to the Federal Bureau of Investigation for the 3 years preceding the year in which the determination is made.

(2) Additional allocation

15 percent of the amount available for grants under section 13703 of this title for any fiscal year shall be allocated to each State that meets the requirements of section 13703(c) of this title as follows:

(A) 3.0 percent shall be allocated to each State that meets the requirements of section 13703(c) of this title, except that the United States Virgin Islands, American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands, if eligible under such subsection, shall each be allocated 0.03 percent.

(B) The amount remaining after application of subparagraph (A) shall be allocated to each State that meets the requirements of section 13703(c) of this title, in the ratio that the number of part 1 violent crimes reported by such State to the Federal Bureau of Investigation for the 3 years preceding the year in which the determination is made, bears to the average annual number of part 1 violent crimes reported by all States that meet the requirements of section 13703(c) of this title to the Federal Bureau of Investigation for the 3 years preceding the year in which the determination is made.

(b) Allocation of truth-in-sentencing grants under section 13704

(c) Unavailable data

If data regarding part 1 violent crimes in any State is substantially inaccurate or is unavailable for the 3 years preceding the year in which the determination is made, the Attorney General shall utilize the best available comparable data regarding the number of violent crimes for the previous year for the State for the purposes of allocation of funds under this part.

(d) Regional compacts

In determining the amount of funds that States organized as a regional compact may receive, the Attorney General shall first apply the formula in either subsection (a) or (b) and (c) of this section to each member State of the compact. The States organized as a regional compact may receive the sum of the amounts so determined.

The study required by subsection (a) of this section shall be completed not later than the date that is 180 days after September 13, 1994.

(d) Construction of Federal prisons

(B) consider whether such use is consistent with a reutilization and redevelopment plan; and

(C) give consideration to any installation located in a rural area the closure of which will have a substantial adverse impact on the economy of the local communities and on the ability of the communities to sustain an economic recovery from such closure.

§ 13726. Findings

Congress finds the following:

(1) Increasingly, States are turning to private prisoner transport companies as an alternative to their own personnel or the United States Marshals Service when transporting violent prisoners.

(2) The transport process can last for days if not weeks, as violent prisoners are dropped off and picked up at a network of hubs across the country.

(3) Escapes by violent prisoners during transport by private prisoner transport companies have occurred.

(4) Oversight by the Attorney General is required to address these problems.

(5) While most governmental entities may prefer to use, and will continue to use, fully trained and sworn law enforcement officers when transporting violent prisoners, fiscal or logistical concerns may make the use of highly specialized private prisoner transport companies an option. Nothing in sections 13726 to

NATIONAL POLICE ATHLETIC/ACTIVITIES LEAGUE YOUTH ENRICHMENT

“SECTION 1. SHORT TITLE.

“This Act may be cited as the ‘National Police Athletic/Activities League Youth Enrichment Act of 2000’.

“SEC. 2. FINDINGS.

“Congress makes the following findings:

“(1) The goals of the Police Athletic/Activities League are to—

“(A) increase the academic success of youth participants in PAL programs;

“(B) promote a safe, healthy environment for youth under the supervision of law enforcement personnel where mutual trust and respect can be built;

“(C) develop life enhancing character and leadership skills in young people;

“(D) increase school attendance by providing alternatives to suspensions and expulsions;

“(E) reduce the juvenile crime rate in participating designated communities and the number of police calls involving juveniles during nonschool hours;

“(F) provide youths with alternatives to drugs, alcohol, tobacco, and gang activity;

“(G) create positive communications and interaction between youth and law enforcement personnel; and

“(H) prepare youth for the workplace.

“(2) The Police Athletic/Activities League, during its 90-year history as a national organization, has proven to be a positive force in the communities it serves.

“(3) The Police Athletic/Activities League is a network of 1,700 facilities serving over 3,000 communities. There are 350 PAL chapters throughout the United States, the Virgin Islands, and the Commonwealth of Puerto Rico, serving 2,000,000 youth, ages 5 to 18, nationwide.

“(4) Based on PAL chapter demographics, approximately 65 percent of the youths who benefit from PAL programs live in inner cities and urban areas.

“(5) PAL chapters are locally operated, volunteer-driven organizations. Although most PAL chapters are sponsored by a law enforcement agency, PAL chapters rarely receive direct funding from law enforcement agencies and are dependent in large part on support from the private sector, such as individuals, business leaders, corporations, and foundations. PAL chapters have been exceptionally successful in balancing public funds with private sector donations and maximizing community involvement.

“(6) Today’s youth face far greater risks than did their parents and grandparents. Law enforcement statistics demonstrate that youth between the ages of 12 and 18 are at risk of committing violent acts and being victims of violent acts between the hours of 3 p.m. and 8 p.m.

“(7) Greater numbers of students are dropping out of school and falling in school, even though the consequences of academic failure are more dire in 2005 than ever before.

“(8) Many distressed areas in the United States are still underserved by PAL chapters.

“SEC. 3. PURPOSE.

“The purpose of this Act is to provide adequate resources in the form of—

“(1) assistance for the 342 established PAL chapters to increase services to the communities they are serving;

“(2) seed money for the establishment of 250 (50 per year over a 5-year period) additional local PAL chapters in public housing projects and other distressed areas, including distressed areas with a majority population of Native Americans, by not later than fiscal year 2010; and

“(3) support of an annual gathering of PAL chapters and designated youth leaders from such chapters to participate in a 3-day conference that addresses national and local issues impacting the youth of America and includes educational sessions to advance character and leadership skills.

“SEC. 4. DEFINITIONS.

“In this Act:

“(1) ASSISTANT ATTORNEY GENERAL.—The term ‘Assistant Attorney General’ means the Assistant Attorney
ney General for the Office of Justice Programs of the Department of Justice.

(2) Distressed Area.—The term ‘distressed area’ means an urban, suburban, or rural area with a high percentage of high-risk youth, as defined in section 509A of the Public Health Service Act (42 U.S.C. 290aa–8(7)) (now 42 U.S.C. 290bb–3(g)).

(3) PAL chapter.—The term ‘PAL chapter’ means a chapter of a Police or Sheriff’s Athletic/Activities League.

(4) request donations of computer equipment and other materials and equipment; and

(5) work with State and local park and recreation agencies so that activities funded with amounts made available under a grant under this Act will not duplicate activities funded from other sources in the community served.

Sec. 7. Reports.

(a) Report to Assistant Attorney General.—For each fiscal year for which a grant is awarded under this Act, the Police Athletic/Activities League shall submit to the Assistant Attorney General a report on the use of amounts made available under the grant.

(b) Report to Congress.—Not later than May 1 of each fiscal year for which amounts are made available to carry out this Act, the Assistant Attorney General shall submit to the Committees on the Judiciary of the Senate and the House of Representatives a report that details the progress made under this Act in establishing and expanding PAL chapters in public housing projects and other distressed areas, and the effectiveness of the PAL programs in reducing drug abuse, school dropouts, and juvenile crime.

(11) Problems of domestic violence are exacerbated for immigrants when spouses control the immigration status of their family members, and abusers use threats of refusal to file immigration papers and threaten to deport spouses and children as powerful tools to prevent battered immigrant women from seeking help, trapping battered immigrant women in violent homes because of fear of deportation.

(12) Battered immigrant women who attempt to flee abusive relationships may not have access to bilingual shelters or bilingual professionals, and face restrictions on public or financial assistance. They may also lack assistance of a certified interpreter in court, when reporting complaints to the police or a 9-1-1 operator, or even in acquiring information about their rights and the legal system.

(13) More than 500 men and women call the National Domestic Violence Hotline every day to get immediate, informed, and confidential assistance to help deal with family violence.

(14) The National Domestic Violence Hotline service is available, toll-free, 24 hours a day and 7 days a week, with bilingual staff, access to translators in 150 languages, and a TTY line for the hearing-impaired.

(15) With access to over 5,000 shelters and service providers across the United States, Puerto Rico, and the United States Virgin Islands, the National Domestic Violence Hotline provides crisis intervention and immediately connects callers with sources of help in their local community.

(16) Approximately 60 percent of the callers indicate that calling the Hotline is their first attempt to address a domestic violence situation and that they have not called the police or any other support services.

(17) Between 2000 and 2003, there was a 27 percent increase in call volume at the National Domestic Violence Hotline.

(18) Improving technology infrastructure at the National Domestic Violence Hotline and training advocates, volunteers, and other staff on upgraded technology will drastically increase the Hotline’s ability to answer more calls quickly and effectively.

(c) Reporting

All grants under this section are contingent upon the filing of a report with the Secretary and the Department of Justice, Office of Victims of Crime, showing crime rates in or adjacent to public transportation before, and for a 1-year period after, the capital improvement. Statistics shall be compiled on the basis of the type of crime, sex, race, ethnicity, language, and relationship of victim to the offender.

(d) Increased Federal share

Notwithstanding any other provision of law, the Federal share under this section for each capital improvement project that enhances the safety and security of public transportation systems and that is not required by law (including any other provision of this Act) shall be 90 percent of the net project cost of the project.

(1) study and evaluate the manner in which the States have taken measures to protect the confidentiality of communications between sexual assault or domestic violence victims and their therapists or trained counselors;

(A) the danger that counseling programs for victims of sexual assault and domestic violence will be unable to achieve their goal of helping victims recover from the trauma associated with these crimes if there is no assurance that the records of the counseling sessions will be kept confidential;
(B) consideration of the appropriateness of an absolute privilege for communications between victims of sexual assault or domestic violence and their therapists or trained counselors, in light of the likelihood that such an absolute privilege will provide the maximum guarantee of confidentiality but also in light of the possibility that such an absolute privilege may be held to violate the rights of criminal defendants under the Federal or State constitutions by denying them the opportunity to obtain exculpatory evidence and present it at trial; and
(C) consideration of what limitations on the disclosure of confidential communications between victims of these crimes and their counselors, short of an absolute privilege, are most likely to ensure that the counseling programs will not be undermined, and specifically whether no such disclosure should be allowed unless, at a minimum, there has been a particularized showing by a criminal defendant of a compelling need for records of such communications, and adequate procedural safeguards are in place to prevent unnecessary or damaging disclosures; and

(b) Report and recommendations

Section 14099 of this title, referred to in subsec. (c), was in the original “section 10”, and was translated as reading “section 200110”, meaning section 200110 of Pub. L. 103–322, to reflect the probable intent of Congress, because Pub. L. 103–322 does not contain a section 10, and section 14099 of this title relates to requirements for State Police Corps plans.

Amendments

1998—Subsec. (b). Pub. L. 105–277, § 138(a)(1), added subsec. (b) and struck out heading and text of former subsec. (b). Text read as follows: “A participant in a State Police Corps program shall attend two 8-week training sessions at a training center, one during the summer following completion of sophomore year and one during the summer following completion of junior year. If a participant enters the program after sophomore year, the participant shall complete 16 weeks of training at times determined by the Director.”

§ 14098. Service obligation

(a) Swearing in

Upon satisfactory completion of the participant’s course of education and training program established in section 14097 of this title and meeting the requirements of the police force to which the participant is assigned, a participant shall be sworn in as a member of the police force to which the participant is assigned pursuant to the State Police Corps plan, and shall serve for 4 years as a member of that police force.

(b) Rights and responsibilities

A participant shall have all of the rights and responsibilities of and shall be subject to all rules and regulations applicable to other members of the police force of which the participant

is a member, including those contained in applicable agreements with labor organizations and those provided by State and local law.

(c) Discipline

If the police force of which the participant is a member subjects the participant to discipline as would preclude the participant’s completing 4 years of service, and result in denial of educational assistance under section 14095 of this title, the Director may, upon a showing of good cause, permit the participant to complete the service obligation in an equivalent alternative law enforcement service and, if such service is satisfactorily completed, section 14095(d)(1)(B)(iii) of this title shall not apply.

(d) Layoffs

If the police force of which the participant is a member lays off the participant such as would preclude the participant’s completing 4 years of service, and result in denial of educational assistance under section 14095 of this title, the Director may permit the participant to complete the service obligation in an equivalent alternative law enforcement service and, if such service is satisfactorily completed, section 14095(d)(1)(B)(iii) of this title shall not apply.

SENSE OF CONGRESS REGARDING THE OBLIGATION OF GRANTEE STATES TO ENSURE ACCESS TO POST-CONVICTION DNA TESTING AND COMPETENT COUNSEL IN CAPITAL CASES

Pub. L. 106–561, § 4, Dec. 21, 2000, 114 Stat. 2791, provided that:

“(a) FINDINGS.—Congress finds that—

“(1) over the past decade, deoxyribonucleic acid testing (referred to in this section as ‘DNA testing’) has emerged as the most reliable forensic technique for identifying criminals when biological material is left at a crime scene;

“(2) because of its scientific precision, DNA testing can, in some cases, conclusively establish the guilt or innocence of a criminal defendant;

“(3) in other cases, DNA testing may not conclusively establish guilt or innocence, but may have significant probative value to a finder of fact;

“(4) DNA testing was not widely available in cases tried prior to 1994;

“(5) new forensic DNA testing procedures have made it possible to get results from minute samples that could not previously be tested, and to obtain more informative and accurate results than earlier forms of forensic DNA testing could produce, resulting in some cases of convicted inmates being exonerated by new DNA tests after earlier tests had failed to produce definitive results;

“(6) DNA testing can and has resulted in the post-conviction exonerations of more than 75 innocent men and women, including some under sentence of death;

“(7) in more than a dozen cases, post-conviction DNA testing that has exonerated an innocent person has also enhanced public safety by providing evidence that led to the apprehension of the actual perpetrator;

“(8) experience has shown that it is not unduly burdensome to make DNA testing available to inmates in appropriate cases;

“(9) under current Federal and State law, it is difficult to obtain post-conviction DNA testing because of time limits on introducing newly discovered evidence; and

“(10) the National Commission on the Future of DNA Evidence, a Federal panel established by the Department of Justice and comprised of law enforcement, judicial, and scientific experts, has urged that post-conviction DNA testing be permitted in the relatively small number of cases in which it is appropriate, notwithstanding procedural rules that could be invoked to preclude such testing, and notwithstanding the inability of an inmate to pay for the testing;

“(11) only a few States have adopted post-conviction DNA testing procedures;

“(12) States have received millions of dollars in DNA-related grants, and more funding is needed to improve State forensic facilities and to reduce the nationwide backlog of DNA samples from convicted offenders and crime scenes that need to be tested or retested using upgraded methods;

“(13) States that accept such financial assistance should not deny the promise of truth and justice for both sides of our adversarial system that DNA testing offers;

“(14) post-conviction DNA testing and other post-conviction investigative techniques have shown that innocent people have been sentenced to death in this country;

“(15) a constitutional error in capital cases is incompetent defense lawyers who fail to present important evidence that the defendant may have been innocent or does not deserve to be sentenced to death; and

“(16) providing quality representation to defendants facing loss of liberty or life is essential to fundamental due process and the speedy final resolution of judicial proceedings.

“(b) SENSE OF CONGRESS.—It is the sense of Congress that—

“(1) Congress should condition forensic science-related grants to a State or State forensic facility on the State’s agreement to ensure post-conviction DNA testing in appropriate cases; and

“(2) Congress should work with the States to improve the quality of legal representation in capital cases through the establishment of standards that will assure the timely appointment of competent counsel with adequate resources to represent defendants in capital cases at each stage of the proceedings.”

(2) clearly explain that participation in the program means that, if the participating vehicle is being operated under the specified conditions, law enforcement officials may stop the vehicle and take reasonable steps to determine whether it is being operated by or with the consent of the owner, even if the law enforcement officials have no other basis for believing that the vehicle is being operated unlawfully; (3) include an express statement that the vehicle is not normally operated under the specified conditions and that the operation of the vehicle under those conditions would provide sufficient grounds for a prudent law enforcement officer to reasonably believe that the vehicle was not being operated by or with the consent of the owner; and

After the program has begun, the conditions under which a vehicle may be stopped if affixed with a certain decal or device design may not be expanded without the consent of the owner.
(4) Limited participation by States and localities

A State or locality need not authorize the stopping of motor vehicles under all sets of conditions specified under the program in order to participate in the program.

The notice required by this subsection shall—

(A) be in writing;

(B) be in a prominent format to be determined by the Attorney General; and

(A) is easily removable from the rechargeable consumer product; or
(B) is sold separately.

(2) Application

Paragraph (1) does not apply to any of the following:

(A) The sale of a remanufactured product unit unless paragraph (1) applied to the sale of the unit when originally manufactured.
(B) The sale of a product unit intended for export purposes only.

(b) Labeling

Each regulated battery or rechargeable consumer product without an easily removable battery manufactured on or after the date that is 1 year after May 13, 1996, whether produced domestically or imported shall bear the following labels:

(1) 3 chasing arrows or a comparable recycling symbol.
(2)(A) On each regulated battery which is a nickel-cadmium battery, the chemical name or the abbreviation “Ni-Cd” and the phrase “BATTERY MUST BE RECYCLED OR DISPOSED OF PROPERLY.”.
(B) On each regulated battery which is a lead-acid battery, “Pb” or the words “LEAD”, “RETURN”, and “RECYCLE” and if the regulated battery is sealed, the phrase “BATTERY MUST BE RECYCLED.”.
(3) On each rechargeable consumer product containing a regulated battery that is not easily removable, the phrase “CONTAINS NICKEL-Cadmium BATTERY. BATTERY MUST BE RECYCLED OR DISPOSED OF PROPERLY.” or “CONTAINS SEALED LEAD BATTERY. BATTERY MUST BE RECYCLED.”, as applicable.
(4) On the packaging of each rechargeable consumer product, and the packaging of each regulated battery sold separately from such a product, unless the required label is clearly visible through the packaging, the phrase “CONTAINS NICKEL-Cadmium BATTERY. BATTERY MUST BE RECYCLED OR DISPOSED OF PROPERLY.” or “CONTAINS SEALED LEAD BATTERY. BATTERY MUST BE RECYCLED.”, as applicable.

(c) Existing or alternative labeling

(1) Initial period

For a period of 2 years after May 13, 1996, regulated batteries, rechargeable consumer products containing regulated batteries, and rechargeable consumer product packages that
are labeled in substantial compliance with subsection (b) of this section shall be deemed to comply with the labeling requirements of subsection (b) of this section.

(2) Certification

(A) In general

On application by persons subject to the labeling requirements of subsection (b) of this section or the labeling requirements promulgated by the Administrator under subsection (d) of this section, the Administrator shall certify that a different label meets the requirements of subsection (b) or (d) of this section, respectively, if the different label—

(i) conveys the same information as the label required under subsection (b) or (d) of this section, respectively; or

(ii) conforms with a recognized international standard that is consistent with the overall purposes of this subchapter.

(B) Constructive certification

Failure of the Administrator to object to an application under subparagraph (A) on the ground that a different label does not meet either of the conditions described in subparagraph (A)(i) or (ii) within 120 days after the date on which the application is made shall constitute certification for the purposes of this chapter.

(d) Rulemaking authority of Administrator

(1) In general

If the Administrator determines that other rechargeable batteries having electrode chemistries different from regulated batteries are toxic and may cause substantial harm to human health and the environment if discarded into the solid waste stream for land disposal or incineration, the Administrator may, with the advice and counsel of State regulatory authorities and manufacturers of rechargeable batteries and rechargeable consumer products, and after public comment—

(A) promulgate labeling requirements for the batteries with different electrode chemistries, rechargeable consumer products containing such batteries that are not easily removable batteries, and packaging for the batteries and products; and

(B) promulgate requirements for easy removability of regulated batteries from rechargeable consumer products designed to contain such batteries.

(2) Substantial similarity

The regulations promulgated under paragraph (1) shall be substantially similar to the requirements set forth in subsections (a) and (b) of this section.

(e) Uniformity

After the effective dates of a requirement set forth in subsection (a), (b), or (c) of this section or a regulation promulgated by the Administrator under subsection (d) of this section, no Federal agency, State, or political subdivision of a State may enforce any easy removability or environmental labeling requirement for a rechargeable battery or rechargeable consumer product that is not identical to the requirement or regulation.

(f) Exemptions

(1) In general

With respect to any rechargeable consumer product, any person may submit an application to the Administrator for an exemption from the requirements of subsection (a) of this section in accordance with the procedures under paragraph (2). The application shall include the following information:

(A) A statement of the specific basis for the request for the exemption.

(B) The name, business address, and telephone number of the applicant.

(2) Granting of exemption

Not later than 60 days after receipt of an application under paragraph (1), the Administrator shall approve or deny the application. On approval of the application the Administrator shall grant an exemption to the applicant. The exemption shall be issued for a period of time that the Administrator determines to be appropriate, except that the period shall not exceed 2 years. The Administrator shall grant an exemption on the basis of evidence supplied to the Administrator that the manufacturer has been unable to commence manufacturing the rechargeable consumer product in compliance with the requirements of this section and with an equivalent level of product performance without the product—

(A) posing a threat to human health, safety, or the environment; or

(B) violating requirements for approvals from governmental agencies or widely recognized private standard-setting organizations (including Underwriters Laboratories).

(3) Renewal of exemption

A person granted an exemption under paragraph (2) may apply for a renewal of the exemption in accordance with the requirements and procedures described in paragraphs (1) and (2). The Administrator may grant a renewal of such an exemption for a period of not more than 2 years after the date of the granting of the renewal.

§ 14323. Requirements

(a) Batteries subject to certain regulations

The collection, storage, or transportation of used rechargeable batteries, batteries described in section 14302(5)(C) of this title or in subchapter III of this chapter, and used rechargeable consumer products containing rechargeable batteries that are not easily removable rechargeable batteries, shall, notwithstanding any law of a State or political subdivision thereof governing such collection, storage, or transportation, be regulated under applicable provisions of the regulations promulgated by the Environmental Protection Agency at 60 Fed. Reg. 25492 (May 11, 1995), as effective on May 11, 1995, except as provided in paragraph (2) of subsection (b) of this section and except that—
(1) the requirements of 40 CFR 260.20, 260.40, and 260.41 and the equivalent requirements of an approved State program shall not apply, and

(2) this section shall not apply to any lead acid battery managed under 40 CFR 266 subpart G or the equivalent requirements of an approved State program.

(b) Enforcement under Solid Waste Disposal Act

(1) Any person who fails to comply with the requirements imposed by subsection (a) of this section may be subject to enforcement under applicable provisions of the Solid Waste Disposal Act [42 U.S.C. 6901 et seq.].

(2) States may implement and enforce the requirements of subsection (a) of this section if the Administrator finds that—

(A) the State has adopted requirements that are identical to those referred to in subsection (a) of this section governing the collection, storage, or transportation of batteries referred to in subsection (a) of this section; and

(B) the State provides for enforcement of such requirements.

(a) Prohibition

On or after May 13, 1996, no person shall sell, offer for sale, or offer for promotional purposes a mercuric-oxide battery for use in the United States unless the battery manufacturer, or the importer of such a battery—

(1) identifies a collection site in the United States that has all required Federal, State, and local government approvals, to which persons may send used mercuric-oxide batteries for recycling or proper disposal;

(2) informs each of its purchasers of mercuric-oxide batteries of the collection site identified under paragraph (1); and

(3) informs each of its purchasers of mercuric-oxide batteries of a telephone number that the purchaser may call to get information about sending mercuric-oxide batteries for recycling or proper disposal.

(b) Application of section

§ 14336. New product or use

On petition of a person that proposes a new use for a battery technology described in this subchapter or the use of a battery described in this subchapter in a new product, the Administrator may exempt from this subchapter the new use of the technology or the use of such a battery in the new product on the condition, if appropriate, that there exist reasonable safeguards to ensure that the resulting battery or product without an easily removable battery will not be disposed of in an incinerator, composting facility, or landfill (other than a facility regulated under subtitle C of the Solid Waste Disposal Act (42 U.S.C. 6921 et seq.)).

§ 14401. Findings and purpose

(a) Findings

Congress finds the following:

(1) The Federal Government provides financial support for the provision of and payment for health care services, as well as for advocacy activities to protect the rights of individuals.

(2) Assisted suicide, euthanasia, and mercy killing have been criminal offenses throughout the United States and, under current law, it would be unlawful to provide services in support of such illegal activities.

(3) Because of recent legal developments, it may become lawful in areas of the United States to furnish services in support of such activities.

(4) Congress is not providing Federal financial assistance in support of assisted suicide, euthanasia, and mercy killing and intends that Federal funds not be used to promote such activities.

(b) Purpose

It is the principal purpose of this chapter to continue current Federal policy by providing explicitly that Federal funds may not be used to pay for items and services (including assistance) the purpose of which is to cause (or assist in causing) the suicide, euthanasia, or mercy killing of any individual.

CHAPTER 139—VOLUNTEER PROTECTION

Sec.
14501. Findings and purpose.
14502. Preemption and election of State nonapplicability.
14503. Limitation on liability for volunteers.
14504. Liability for noneconomic loss.
14505. Definitions.

§ 14501. Findings and purpose

(a) Findings

The Congress finds and declares that—
(1) the willingness of volunteers to offer their services is deterred by the potential for liability actions against them;
(2) as a result, many nonprofit public and private organizations and governmental entities, including voluntary associations, social service agencies, educational institutions, and other civic programs, have been adversely affected by the withdrawal of volunteers from boards of directors and service in other capacities;
(3) the contribution of these programs to their communities is thereby diminished, resulting in fewer and higher cost programs than would be obtainable if volunteers were participating;
(4) because Federal funds are expended on useful and cost-effective social service programs, many of which are national in scope, depend heavily on volunteer participation, and represent some of the most successful public-private partnerships, protection of volunteerism through clarification and limitation of the personal liability risks assumed by the volunteer in connection with such participation is an appropriate subject for Federal legislation;
(5) services and goods provided by volunteers and nonprofit organizations would often otherwise be provided by private entities that operate in interstate commerce;
(6) due to high liability costs and unwarranted litigation costs, volunteers and nonprofit organizations face higher costs in purchasing insurance, through interstate insurance markets, to cover their activities; and
(7) clarifying and limiting the liability risk assumed by volunteers is an appropriate subject for Federal legislation because—
(A) of the national scope of the problems created by the legitimate fears of volunteers about frivolous, arbitrary, or capricious lawsuits;
(B) the citizens of the United States depend on, and the Federal Government expends funds on, and provides tax exemptions and other consideration to, numerous social programs that depend on the services of volunteers;
(C) it is in the interest of the Federal Government to encourage the continued operation of volunteer service organizations and contributions of volunteers because the Federal Government lacks the capacity to carry out all of the services provided by such organizations and volunteers; and
(D) (i) liability reform for volunteers, will promote the free flow of goods and services, lessen burdens on interstate commerce and
uphold constitutionally protected due process rights; and

(ii) therefore, liability reform is an appropriate use of the powers contained in article 1, section 8, clause 3 of the United States Constitution, and the fourteenth amendment to the United States Constitution.

(b) Purpose

The purpose of this chapter is to promote the interests of social service program beneficiaries and taxpayers and to sustain the availability of programs, nonprofit organizations, and governmental entities that depend on volunteer contributions by reforming the laws to provide certain protections from liability abuses related to volunteers serving nonprofit organizations and governmental entities.

Effective Date

Section 7 of Pub. L. 105–19 provided that:

"(a) In GENERAL.—This Act [enacting this chapter] shall take effect 90 days after the date of enactment of this Act [June 18, 1997].

"(b) APPLICATION.—This Act applies to any claim for harm caused by an act or omission of a volunteer where that claim is filed on or after the effective date of this Act but only if the harm that is the subject of the claim or the conduct that caused such harm occurred after such effective date."

Short Title

Section 1 of Pub. L. 105–19 provided that: "This Act [enacting this chapter] may be cited as the 'Volunteer Protection Act of 1997'."

§ 14502. Preemption and election of State nonapplicability

(a) Preemption

This chapter preempts the laws of any State to the extent that such laws are inconsistent with this chapter, except that this chapter shall not preempt any State law that provides additional protection from liability relating to volunteers or to any category of volunteers in the performance of services for a nonprofit organization or governmental entity.

(b) Election of State regarding nonapplicability

This chapter shall not apply to any civil action in a State court against a volunteer in a State that the organization or governmental entity will be financially secure source of recovery for individuals who suffer harm as a result of actions taken by a volunteer on behalf of the organization or entity.

(d) Exceptions to volunteer liability protection

If the laws of a State limit volunteer liability subject to one or more of the following conditions, such conditions shall not be construed as inconsistent with this section:

(1) A State law that requires a nonprofit organization or governmental entity to adhere to risk management procedures, including mandatory training of volunteers.

(2) A State law that makes the organization or entity liable for the acts or omissions of its volunteers to the same extent as an employer is liable for the acts or omissions of its employees.

(3) A State law that makes a limitation of liability inapplicable if the civil action was brought by an officer of a State or local government pursuant to State or local law.

(4) A State law that makes a limitation of liability applicable only if the nonprofit organization or governmental entity provides a financially secure source of recovery for individuals who suffer harm as a result of actions taken by a volunteer on behalf of the organization or entity. A financially secure source of recovery may be an insurance policy within specified limits, comparable coverage from a risk pooling mechanism, equivalent assets, or alternative arrangements that satisfy the State that the organization or entity will be able to pay for losses up to a specified amount. Separate standards for different types of liability exposure may be specified.
(e) Limitation on punitive damages based on actions of volunteers

(1) General rule

Punitive damages may not be awarded against a volunteer in an action brought for harm based on the action of a volunteer acting within the scope of the volunteer’s responsibilities to a nonprofit organization or governmental entity unless the claimant establishes by clear and convincing evidence that the harm was proximately caused by an action of such volunteer which constitutes willful or criminal misconduct, or a conscious, flagrant indifference to the rights or safety of the individual harmed.

(2) Construction

Paragraph (1) does not create a cause of action for punitive damages and does not preempt or supersede any Federal or State law to the extent that such law would further limit the award of punitive damages.

(f) Exceptions to limitations on liability

(1) In general

The limitations on the liability of a volunteer under this chapter shall not apply to any misconduct that—

(A) constitutes a crime of violence (as that term is defined in section 16 of title 18) or act of international terrorism (as that term is defined in section 2331 of title 18) for which the defendant has been convicted in any court;

(B) constitutes a hate crime (as that term is used in the Hate Crime Statistics Act (28 U.S.C. 534 note));

(C) involves a sexual offense, as defined by applicable State law, for which the defendant has been convicted in any court;

(D) involves misconduct for which the defendant has been found to have violated a Federal or State civil rights law; or

(E) where the defendant was under the influence (as determined pursuant to applicable State law) of intoxicating alcohol or any drug at the time of the misconduct.

(2) Rule of construction

Nothing in this subsection shall be construed to effect subsection (a)(3) or (e) of this section.

§ 14505. Definitions

For purposes of this chapter:

(1) Economic loss

The term “economic loss” means any pecuniary loss resulting from harm (including the loss of earnings or other benefits related to employment, medical expense loss, replacement services loss, loss due to death, burial costs, and loss of business or employment opportunities) to the extent recovery for such loss is allowed under applicable State law.

(2) Harm

The term “harm” includes physical, nonphysical, economic, and noneconomic losses.

(3) Noneconomic losses

The term “noneconomic losses” means losses for physical and emotional pain, suffering, inconvenience, physical impairment, mental anguish, disfigurement, loss of enjoyment of life, loss of society and companionship, loss of consortium (other than loss of domestic service), hedonic damages, injury to reputation and all other nonpecuniary losses of any kind or nature.

(4) Nonprofit organization

The term “nonprofit organization” means—

(A) any organization which is described in section 501(c)(3) of title 26 and exempt from tax under section 501(a) of such title and which does not practice any action which constitutes a hate crime referred to in subsection (b)(1) of the first section of the Hate Crime Statistics Act (28 U.S.C. 534 note); or

enhancing the lives of individuals with developmental disabilities, especially when the family members, friends, and community members are provided with the necessary community services, individualized supports, and other forms of assistance.

(10) current research indicates that 88 percent of individuals with developmental disabilities live with their families or in their own households;

(11) many service delivery systems and communities are not prepared to meet the impending needs of the 479,862 adults with developmental disabilities who are living at home with parents who are 60 years old or older and who serve as the primary caregivers of the adults;

(12) in almost every State, individuals with developmental disabilities are waiting for appropriate services in their communities, in the areas of emphasis;

(13) the public needs to be made more aware of the capabilities and competencies of individuals with developmental disabilities, particularly in cases in which the individuals are provided with necessary services, supports, and other assistance;

(14) as increasing numbers of individuals with developmental disabilities are living, learning, working, and participating in all aspects of community life, there is an increasing need for a well trained workforce that is able to provide the services, supports, and other forms of direct assistance required to enable the individuals to carry out those activities;

(15) there needs to be greater effort to recruit individuals from minority backgrounds into professions serving individuals with developmental disabilities and their families;

(16) the goals of the Nation properly include a goal of providing individuals with developmental disabilities with the information, skills, opportunities, and support to—

(A) make informed choices and decisions about their lives;

(B) live in homes and communities in which such individuals can exercise their full rights and responsibilities as citizens;

(C) pursue meaningful and productive lives;

(D) contribute to their families, communities, and States, and the Nation;

(E) have interdependent friendships and relationships with other persons;

(F) live free of abuse, neglect, financial and sexual exploitation, and violations of their legal and human rights; and

(G) achieve full integration and inclusion in society, in an individualized manner, consistent with the unique strengths, resources, priorities, concerns, abilities, and capabilities of each individual; and

(17) as the Nation, States, and communities maintain and expand community living options for individuals with developmental disabilities, there is a need to evaluate the access to those options by individuals with developmental disabilities and the effects of those options on individuals with developmental disabilities.

(b) Purpose

The purpose of this subchapter is to assure that individuals with developmental disabilities and their families participate in the design of and have access to needed community services, individualized supports, and other forms of assistance that promote self-determination, independence, productivity, and integration and inclusion in all facets of community life, through culturally competent programs authorized under this subchapter, including specifically—

(1) State Councils on Developmental Disabilities in each State to engage in advocacy, capacity building, and systemic change activities that—

(A) are consistent with the purpose described in this subsection and the policy described in subsection (c) of this section; and

(B) contribute to a coordinated, consumer- and family-centered, consumer- and family-directed, comprehensive system that includes needed community services, individualized supports, and other forms of assistance that promote self-determination for individuals with developmental disabilities and their families;

(2) protection and advocacy systems in each State to protect the legal and human rights of individuals with developmental disabilities;

(3) University Centers for Excellence in Developmental Disabilities Education, Research, and Service—

(A) to provide interdisciplinary pre-service preparation and continuing education of students and fellows, which may include the preparation and continuing education of leadership, direct service, clinical, or other personnel to strengthen and increase the capacity of States and communities to achieve the purpose of this subchapter;

(B) to provide community services—

(i) that provide training and technical assistance for individuals with developmental disabilities, their families, professionals, paraprofessionals, policymakers, students, and other members of the community; and

(ii) that may provide services, supports, and assistance for the persons described in clause (i) through demonstration and model activities;

(C) to conduct research, which may include basic or applied research, evaluation, and the analysis of public policy in areas that affect or could affect, either positively or negatively, individuals with developmental disabilities and their families; and

(D) to disseminate information related to activities undertaken to address the purpose of this subchapter, especially dissemination of information that demonstrates that the network authorized under this part is a national and international resource that includes specific substantive areas of expertise that may be accessed and applied in diverse settings and circumstances; and

(4) funding for—

(A) national initiatives to collect necessary data on issues that are directly or in-
§ 15001

(8) individuals with developmental disabilities have access to opportunities and the necessary support to be included in community life, have interdependent relationships, live in homes and communities, and make contributions to their families, communities, and States, and the Nation;

(9) efforts undertaken to maintain or expand community-based living options for individuals with disabilities should be monitored in order to determine and report to appropriate individuals and entities the extent of access by individuals with developmental disabilities to those options and the extent of compliance by entities providing those options with quality assurance standards;

(10) families of children with developmental disabilities need to have access to and use of safe and appropriate child care and before-school and after-school programs, in the most integrated settings, in order to enrich the participation of the children in community life;

(11) individuals with developmental disabilities need to have access to and use of public transportation, in order to be independent and directly contribute to and participate in all facets of community life; and

(12) individuals with developmental disabilities need to have access to and use of recreational, leisure, and social opportunities in the most integrated settings, in order to enrich their participation in community life.

SUBCHAPTER II—FAMILY SUPPORT

§ 15091. Findings, purposes, and policy

(a) Findings
Congress makes the following findings:

(1) It is in the best interest of our Nation to preserve, strengthen, and maintain the family.

(2) Families of children with disabilities provide support, care, and training to their children that can save States millions of dollars. Without the efforts of family caregivers, many persons with disabilities would receive care through State-supported out-of-home placements.

(3) Most families of children with disabilities, especially families in unserved and underserved populations, do not have access to family-centered and family-directed services to support such families in their efforts to care for such children at home.

(4) Medical advances and improved health care have increased the life span of many people with disabilities, and the combination of the longer life spans and the aging of family caregivers places a continually increasing demand on the finite service delivery systems of the States.

(5) In 1996, 49 States provided family support initiatives in response to the needs of families of children with disabilities. Such initiatives included the provision of cash subsidies, respite care, and other forms of support. There is a need in each State, however, to strengthen,
expand, and coordinate the activities of a system of family support services for families of children with disabilities that is easily accessible, avoids duplication, uses resources efficiently, and prevents gaps in services to families in all areas of the State.

(6) The goals of the Nation properly include the goal of providing to families of children with disabilities the family support services necessary—

(A) to support the family;
(B) to enable families of children with disabilities to nurture and enjoy their children at home;
(C) to enable families of children with disabilities to make informed choices and decisions regarding the nature of supports, resources, services, and other assistance made available to such families; and
(D) to support family caregivers of adults with disabilities.

(b) Purposes

The purposes of this subchapter are—

(1) to promote and strengthen the implementation of comprehensive State systems of family support services, for families with children with disabilities, that are family-centered and family-directed, and that provide families with the greatest possible decisionmaking authority and control regarding the nature and use of services and support;
(2) to promote leadership by families in planning, policy development, implementation, and evaluation of family support services for families of children with disabilities;
(3) to promote and develop interagency coordination and collaboration between agencies responsible for providing the services; and
(4) to increase the availability of, funding for, access to, and provision of family support services for families of children with disabilities.

(c) Policy

It is the policy of the United States that all programs, projects, and activities funded under this subchapter shall be family-centered and family-directed, and shall be provided in a manner consistent with the goal of providing families of children with disabilities with the support the families need to raise their children at home.

§ 15208. Law enforcement tribute acts

(a) Short title
This section may be cited as the “Law Enforcement Tribute Act”.

(b) Findings
Congress finds the following:
(1) The well-being of all citizens of the United States is preserved and enhanced as a
through permanent tributes, men and women of the United States who were killed or disabled while serving as law enforcement or public safety officers.

(3) Nationwide, 51 law enforcement officers were killed in the line of duty in 2000, according to statistics released by the Federal Bureau of Investigation. This number is an increase of 9 from the 1999 total of 42.

(4) In 1999, 112 firefighters died while on duty, an increase of 21 deaths from the previous year.

(5) Every year, 1 in 9 peace officers is assaulted, 1 in 25 is injured, and 1 in 4,400 is killed in the line of duty.

(6) In addition, recent statistics indicate that 83 officers were accidentally killed in the performance of their duties in 2000, an increase of 18 from the 65 accidental deaths in 1999.

(7) A permanent tribute is a powerful means of honoring the men and women who have served our Nation with distinction. However, many law enforcement and public safety agencies lack the resources to honor their fallen colleagues.

c) Program authorized

From amounts made available to carry out this section, the Attorney General may make grants to States, units of local government, and Indian tribes to carry out programs to honor, through permanent tributes, men and women of the United States who were killed or disabled while serving as law enforcement or public safety officers.

d) Uses of funds

Grants awarded under this section shall be distributed directly to the State, unit of local government, or Indian tribe, and shall be used for the purposes specified in subsection (c) of this section.

e) $150,000 limitation

A grant under this section may not exceed $150,000 to any single recipient.

f) Matching funds

(1) The Federal portion of the costs of a program provided by a grant under this section may not exceed 50 percent.

(2) Any funds appropriated by Congress for the activities of any agency of an Indian tribal government or the Bureau of Indian Affairs performing law enforcement or public safety functions on any Indian lands may be used to provide the non-Federal share of a matching requirement funded under this subsection.

g) Applications

To request a grant under this section, the chief executive of a State, unit of local government, or Indian tribe shall submit an application to the Attorney General at such time, in such manner, and accompanied by such information as the Attorney General may require.

(h) Annual report to Congress

Not later than November 30 of each year, the Attorney General shall submit a report to the Congress regarding the activities carried out under this section. Each such report shall include, for the preceding fiscal year, the number of grants funded under this section, the amount of funds provided under those grants, and the activities for which those funds were used.

(i) Authorization of appropriations

There are authorized to be appropriated to carry out this section $3,000,000 for each of fiscal years 2002 through 2009.

Conspicuation

Section was enacted as the Law Enforcement Tribute Act, and as part of the 21st Century Department of Justice Appropriations Authorization Act, and not as part of the Public Safety Officer Medal of Valor Act of 2001 which comprises this chapter.

(1) In general

(A) Except as provided in subparagraph (B), the voting system (including any lever voting system, optical scanning voting system, or direct recording electronic system) shall—

(i) permit the voter to verify (in a private and independent manner) the votes selected by the voter on the ballot before the ballot is cast and counted;

(ii) provide the voter with the opportunity (in a private and independent manner) to change the ballot or correct any error before the ballot is cast and counted (including the opportunity to correct the error through the issuance of a replacement ballot if the voter was otherwise unable to change the ballot or correct any error); and

(iii) if the voter selects votes for more than one candidate for a single office—

(1) notify the voter that the voter has selected more than one candidate for a single office;

(2) notify the voter before the ballot is cast and counted of the effect of casting multiple votes for the office; and

(3) provide the voter with the opportunity to correct the ballot before the ballot is cast and counted.

(B) A State or jurisdiction that uses a paper ballot voting system, a punch card voting system, or a central count voting system (including mail-in absentee ballots and mail-in ballots), may meet the requirements of subparagraph (A)(iii) by—

(i) establishing a voter education program specific to that voting system that notifies each voter of the effect of casting multiple votes for an office; and

(ii) providing the voter with instructions on how to correct the ballot before it is cast and counted (including instructions on how to correct the error through the issuance of a replacement ballot if the voter was otherwise unable to change the ballot or correct any error).

(C) The voting system shall ensure that any notification required under this paragraph preserves the privacy of the voter and the confidentiality of the ballot.
(2) Audit capacity
   (A) In general
       The voting system shall produce a record with an audit capacity for such system.
   (B) Manual audit capacity
       (i) The voting system shall produce a permanent paper record with a manual audit capacity for such system.
       (ii) The voting system shall provide the voter with an opportunity to change the ballot or correct any error before the permanent paper record is produced.
       (iii) The paper record produced under subparagraph (A) shall be available as an official record for any recount conducted with respect to any election in which the system is used.
   (3) Accessibility for individuals with disabilities
       The voting system shall—
       (A) be accessible for individuals with disabilities, including nonvisual accessibility for the blind and visually impaired, in a manner that provides the same opportunity for access and participation (including privacy and independence) as for other voters;
       (B) satisfy the requirement of subparagraph (A) through the use of at least one direct recording electronic voting system or other voting system equipped for individuals with disabilities at each polling place; and

       The voting system shall provide alternative language accessibility pursuant to the requirements of section 1973aa–1a of this title.
   (5) Error rates
       The error rate of the voting system in counting ballots (determined by taking into account only those errors which are attributable to the voting system and not attributable to an act of the voter) shall comply with the error rate standards established under section 3.2.1 of the voting systems standards issued by the Federal Election Commission which are in effect on October 29, 2002.
   (6) Uniform definition of what constitutes a vote
       Each State shall adopt uniform and nondiscriminatory standards that define what constitutes a vote and what will be counted as a vote for each category of voting system used in the State.
   (b) Voting system defined
       In this section, the term "voting system" means—
       (1) the total combination of mechanical, electromechanical, or electronic equipment (including the software, firmware, and documentation required to program, control, and support the equipment) that is used—
           (A) to define ballots;

       (2) Protection of paper ballot voting systems
           For purposes of subsection (a)(1)(A)(i) of this section, the term "verify" may not be defined in a manner that makes it impossible for a paper ballot voting system to meet the requirements of such subsection or to be modified to meet such requirements.
   (d) Effective date
       Each State and jurisdiction shall be required to comply with the requirements of this section on and after January 1, 2006.
(3) An election official at the polling place shall transmit the ballot cast by the individual or the voter information contained in the written affirmation executed by the individual under paragraph (2) to an appropriate State or local election official for prompt verification under paragraph (4).

(4) If the appropriate State or local election official to whom the ballot or voter information is transmitted under paragraph (3) determines that the individual is eligible under State law to vote, the individual’s provisional ballot shall be counted as a vote in that election in accordance with State law.

(5)(A) At the time that an individual casts a provisional ballot, the appropriate State or local election official shall give the individual written information that states that any individual who casts a provisional ballot will be able to ascertain under the system established under subparagraph (B) whether the vote was counted, and, if the vote was not counted, the reason that the vote was not counted.

(B) The appropriate State or local election official shall establish a free access system (such as a toll-free telephone number or an Internet website) that any individual who casts a provisional ballot may access to discover whether the vote of that individual was counted, and, if the vote was not counted, the reason that the vote was not counted.

(c) Voters who vote after the polls close

Any individual who votes in an election for Federal office as a result of a Federal or State court order or any other order extending the time established for closing the polls by a State law in effect 10 days before the date of that election may only vote in that election by casting a provisional ballot under subsection (a) of this section. Any such ballot cast under the preceding sentence shall be separated and held apart from other provisional ballots cast by those not affected by the order.

(iv) The computerized list shall be coordinated with other agency databases within the State.

(v) Any election official in the State, including any local election official, may obtain immediate electronic access to the information contained in the computerized list.

(vi) All voter registration information obtained by any local election official in the State shall be electronically entered into the computerized list on an expedited

basis at the time the information is provided to the local official.

(vii) The chief State election official shall provide such support as may be required so that local election officials are able to enter information as described in clause (vi).

(viii) The computerized list shall serve as the official voter registration list for the conduct of all elections for Federal office in the State.

(B) Exception

The requirement under subparagraph (A) shall not apply to a State in which, under a State law in effect continuously on and after October 29, 2002, there is no voter registration requirement for individuals in the State with respect to elections for Federal office.

(2) Computerized list maintenance

(A) In general

The appropriate State or local election official shall perform list maintenance with respect to the computerized list on a regular basis as follows:

(i) If an individual is to be removed from the computerized list, such individual shall be removed in accordance with the provisions of the National Voter Registration Act of 1993 (42 U.S.C. 1973gg et seq.), including subsections (a)(4), (c)(2), (d), and (e) of section 8 of such Act (42 U.S.C. 1973gg–6).

(ii) For purposes of removing names of ineligible voters from the official list of eligible voters—

(I) under section 8(a)(3)(B) of such Act (42 U.S.C. 1973gg–6(a)(3)(B)), the State shall coordinate the computerized list with State agency records on felony status; and

(II) by reason of the death of the registrant under section 8(a)(4)(A) of such Act (42 U.S.C. 1973gg–6(a)(4)(A)), the State shall coordinate the computerized list with State agency records on death.

(iii) Notwithstanding the preceding provisions of this subparagraph, if a State is described in section 4(b) of the National Voter Registration Act of 1993 (42 U.S.C. 1973gg–2(b)), that State shall remove the names of ineligible voters from the computerized list in accordance with State law.

(B) Conduct

The list maintenance performed under subparagraph (A) shall be conducted in a manner that ensures that—

(i) the name of each registered voter appears in the computerized list;

(ii) only voters who are not registered or who are not eligible to vote are removed from the computerized list; and

(iii) duplicate names are eliminated from the computerized list.

(3) Technological security of computerized list

The appropriate State or local official shall provide adequate technological security measures to prevent the unauthorized access to the computerized list established under this section.

(4) Minimum standard for accuracy of State voter registration records

The State election system shall include provisions to ensure that voter registration records in the State are accurate and are updated regularly, including the following:

(A) A system of file maintenance that makes a reasonable effort to remove registrants who are ineligible to vote from the official list of eligible voters. Under such system, consistent with the National Voter Registration Act of 1993 (42 U.S.C. 1973gg et seq.), registrants who have not responded to a notice and who have not voted in 2 consecutive general elections for Federal office shall be removed from the official list of eligible voters, except that no registrant may be removed solely by reason of a failure to vote.

(B) Safeguards to ensure that eligible voters are not removed in error from the official list of eligible voters.

(5) Verification of voter registration information

(A) Requiring provision of certain information by applicants

(i) In general

Except as provided in clause (ii), notwithstanding any other provision of law, an application for voter registration for an election for Federal office may not be accepted or processed by a State unless the application includes—

(I) in the case of an applicant who has been issued a current and valid driver’s license, the applicant’s driver’s license number; or

(II) in the case of any other applicant (other than an applicant to whom clause (ii) applies), the last 4 digits of the applicant’s social security number.

(ii) Special rule for applicants without driver’s license or social security number

If an applicant for voter registration for an election for Federal office has not been issued a current and valid driver’s license or a social security number, the State shall assign the applicant a number which will serve to identify the applicant for voter registration purposes. To the extent that the State has a computerized list in effect under this subsection and the list assigns unique identifying numbers to registrants, the number assigned under this clause shall be the unique identifying number assigned under the list.

(iii) Determination of validity of numbers provided

The State shall determine whether the information provided by an individual is sufficient to meet the requirements of this subparagraph, in accordance with State law.
(B) Requirements for State officials

(i) Sharing information in databases

The chief State election official and the official responsible for the State motor vehicle authority of a State shall enter into an agreement to match information in the database of the statewide voter registration system with information in the database of the motor vehicle authority to the extent required to enable each such official to verify the accuracy of the information provided on applications for voter registration.

(ii) Agreements with Commissioner of Social Security

The official responsible for the State motor vehicle authority shall enter into an agreement with the Commissioner of Social Security under section 405(r)(8) of this title (as added by subparagraph (C)).

In the case of a State which is permitted to use social security numbers, and provides for the use of social security numbers, on applications for voter registration, in accordance with section 7 of the Privacy Act of 1974 (5 U.S.C. 552a note), the provisions of this paragraph shall be optional.

(b) Requirements for voters who register by mail

(1) In general

Notwithstanding section 6(c) of the National Voter Registration Act of 1993 (42 U.S.C. 1973gg–4(c)) and subject to paragraph (3), a State shall, in a uniform and nondiscriminatory manner, require an individual to meet the requirements of paragraph (2) if—

(A) the individual registered to vote in a jurisdiction by mail; and

(B)(i) the individual has not previously voted in an election for Federal office in the State; or

(ii) the individual has not previously voted in such an election in the jurisdiction and the jurisdiction is located in a State that does not have a computerized list that complies with the requirements of subsection (a) of this section.

(2) Requirements

(A) In general

An individual meets the requirements of this paragraph if the individual—

(i) in the case of an individual who votes in person—

(I) presents to the appropriate State or local election official a current and valid photo identification; or

(II) presents to the appropriate State or local election official a copy of a current utility bill, bank statement, government check, paycheck, or other government document that shows the name and address of the voter; or

(ii) By mail

An individual who desires to vote by mail but who does not meet the requirements of subparagraph (A)(ii) may cast such a ballot by mail and the ballot shall be counted as a provisional ballot in accordance with section 15482(a) of this title.

(3) Inapplicability

Paragraph (1) shall not apply in the case of a person—

(A) who registers to vote by mail under section 6 of the National Voter Registration Act of 1993 (42 U.S.C. 1973gg–4) and submits as part of such registration either—

(i) a copy of a current and valid photo identification; or

(ii) a copy of a current utility bill, bank statement, government check, paycheck, or government document that shows the name and address of the voter;

(B)(i) who registers to vote by mail under section 6 of the National Voter Registration Act of 1993 (42 U.S.C. 1973gg–4) and submits with such registration either—

(C) who is—

(i) entitled to vote by absentee ballot under the Uniformed and Overseas Citizens Absentee Voting Act (42 U.S.C. 1973ff et seq.);

(ii) provided the right to vote otherwise than in person under section 1973ee–1(b)(2)(B) of this title; or

(i) The question “Are you a citizen of the United States of America?” and boxes for the applicant to check to indicate whether the applicant is or is not a citizen of the United States.

(ii) The question “Will you be 18 years of age on or before election day?” and boxes
for the applicant to check to indicate whether or not the applicant will be 18 years of age or older on election day.

(iii) The statement “If you checked ‘no’ in response to either of these questions, do not complete this form.”.

(iv) A statement informing the individual that if the form is submitted by mail and the individual is registering for the first time, the appropriate information required under this section must be submitted with the mail-in registration form in order to avoid the additional identification requirements upon voting for the first time.

(B) Incomplete forms

If an applicant for voter registration fails to answer the question included on the mail voter registration form pursuant to subparagraph (A)(i), the registrar shall notify the applicant of the failure and provide the applicant with an opportunity to complete the form in a timely manner to allow for the completion of the registration form prior to the next election for Federal office (subject to State law).

(5) Construction

Nothing in this subsection shall be construed to require a State that was not required to comply with a provision of the National Voter Registration Act of 1993 (42 U.S.C. 1973gg et seq.) before October 29, 2002, to comply with such a provision after October 29, 2002.

(c) Permitted use of last 4 digits of social security numbers

The last 4 digits of a social security number described in subsections (a)(5)(A)(i)(II) and (b)(3)(B)(1)(II) of this section shall not be considered to be a social security number for purposes of section 7 of the Privacy Act of 1974 (5 U.S.C. 552a note).

If a State or jurisdiction certifies to the Commission not later than January 1, 2004, that the State or jurisdiction will not meet the deadline described in subparagraph (A) for good cause and includes in the certification the reasons for the failure to meet such deadline, subparagraph (A) shall apply to the State or jurisdiction as if the reference in such subparagraph to “January 1, 2004” were a reference to “January 1, 2006”.

(2) Requirement for voters who register by mail

(A) In general

Each State and jurisdiction shall be required to comply with the requirements of subsection (b) of this section on and after January 1, 2004, and shall be prepared to receive registration materials submitted by individuals described in subparagraph (B) on and after the date described in such subparagraph.

CHAPTER 147—PRISON RAPE ELIMINATION

Sec.
15601. Findings.
15602. Purposes.
15603. National prison rape statistics, data, and research.
15604. Prison rape prevention and prosecution.
15605. Grants to protect inmates and safeguard communities.
15607. Adoption and effect of national standards.
15608. Requirement that accreditation organizations adopt accreditation standards.
15609. Definitions.

§ 15601. Findings

Congress makes the following findings:

(1) 2,100,146 persons were incarcerated in the United States at the end of 2001: 1,324,465 in Federal and State prisons and 631,240 in county and local jails. In 1999, there were more than 10,000,000 separate admissions to and discharges from prisons and jails.

(2) Insufficient research has been conducted and insufficient data reported on the extent of prison rape. However, experts have conservatively estimated that at least 13 percent of the inmates in the United States have been sexually assaulted in prison. Many inmates have suffered repeated assaults. Under this estimate, nearly 200,000 inmates now incarcerated have been or will be the victims of prison rape. The total number of inmates who have been sexually assaulted in the past 20 years likely exceeds 1,000,000.

(3) Inmates with mental illness are at increased risk of sexual victimization. America’s jails and prisons house more mentally ill individuals than all of the Nation’s psychiatric hospitals combined. As many as 16 percent of inmates in State prisons and jails, and 7 percent of Federal inmates, suffer from mental illness.

(4) Young first-time offenders are at increased risk of sexual victimization. Juveniles are 5 times more likely to be sexually assaulted in adult rather than juvenile facilities—often within the first 48 hours of incarceration.

(5) Most prison staff are not adequately trained or prepared to prevent, report, or treat inmate sexual assaults.

(6) Prison rape often goes unreported, and inmate victims often receive inadequate treatment for the severe physical and psychological effects of sexual assault—if they receive treatment at all.

(7) HIV and AIDS are major public health problems within America’s correctional facilities. In 2000, 25,088 inmates in Federal and State prisons were known to be infected with HIV/AIDS. In 2000, HIV/AIDS accounted for more than 6 percent of all deaths in Federal and State prisons. Infection rates for other sexually transmitted diseases, tuberculosis, and hepatitis B and C are also far greater for prisoners than for the American population as a whole. Prison rape undermines the public health by contributing to the spread of these diseases, and often giving a potential death sentence to some victims.

(8) Prison rape endangers the public safety by making brutalized inmates more likely to commit crimes when they are released—as 600,000 inmates are each year.

(9) The frequently interracial character of prison sexual assaults significantly exacerbates interracial tensions, both within prison and, upon release of perpetrators and victims from prison, in the community at large.

(10) Prison rape increases the level of homicides and other violence against inmates and staff, and the risk of insurrections and riots.

(11) Victims of prison rape suffer severe physical and psychological effects that hinder their ability to integrate into the community and maintain stable employment upon their release from prison. They are thus more likely to become homeless and/or require government assistance.

(12) Members of the public and government officials are largely unaware of the epidemic character of prison rape and the day-to-day horror experienced by victimized inmates.

(13) The high incidence of sexual assault within prisons involves actual and potential violations of the United States Constitution. In Farmer v. Brennan, 511 U.S. 825 (1994), the Supreme Court ruled that deliberate differen-
ence to the substantial risk of sexual assault violates prisoners’ rights under the Cruel and Unusual Punishments Clause of the Eighth Amendment. The Eighth Amendment rights of State and local prisoners are protected through the Due Process Clause of the Fourteenth Amendment. Pursuant to the power of Congress under Section Five of the Fourteenth Amendment, Congress may take action to enforce those rights in States where officials have demonstrated such indifference. States that do not take basic steps to abate prison rape by adopting standards that do not generate significant additional expenditures demonstrate such indifference. Therefore, such States are not entitled to the same level of Federal benefits as other States.

(14) The high incidence of prison rape undermines the effectiveness and efficiency of United States Government expenditures through grant programs such as those dealing with health care; mental health care; disease prevention; crime prevention, investigation, and prosecution; prison construction, maintenance, and operation; race relations; poverty; unemployment and homelessness. The effectiveness and efficiency of these federally funded grant programs are compromised by the failure of State officials to adopt policies and procedures that reduce the incidence of prison rape in that the high incidence of prison rape—

(A) increases the costs incurred by Federal, State, and local jurisdictions to administer their prison systems;
(B) increases the levels of violence, directed at inmates and at staff, within prisons;
(C) increases health care expenditures, both inside and outside of prison systems, and reduces the effectiveness of disease prevention programs by substantially increasing the incidence and spread of HIV, AIDS, tuberculosis, hepatitis B and C, and other diseases;
(D) increases mental health care expenditures, both inside and outside of prison systems, by substantially increasing the rate of post-traumatic stress disorder, depression, suicide, and the exacerbation of existing mental illnesses among current and former inmates;
(E) increases the risks of recidivism, civil strife, and violent crime by individuals who have been brutalized by prison rape; and

(F) increases the level of interracial tensions and strife within prisons and, upon release of perpetrators and victims, in the community at large.

(15) The high incidence of prison rape has a significant effect on interstate commerce because it increases substantially—

(A) the costs incurred by Federal, State, and local jurisdictions to administer their prison systems;
(B) the incidence and spread of HIV, AIDS, tuberculosis, hepatitis B and C, and other diseases, contributing to increased health and medical expenditures throughout the Nation;
(C) the rate of post-traumatic stress disorder, depression, suicide, and the exacerbation of existing mental illnesses among current and former inmates, contributing to increased health and medical expenditures throughout the Nation; and

(D) the risk of recidivism, civil strife, and violent crime by individuals who have been brutalized by prison rape.

§ 15602. Purposes

The purposes of this chapter are to—

(1) establish a zero-tolerance standard for the incidence of prison rape in prisons in the United States;
(2) make the prevention of prison rape a top priority in each prison system;
(3) develop and implement national standards for the detection, prevention, reduction, and punishment of prison rape;
(4) increase the available data and information on the incidence of prison rape, consequently improving the management and administration of correctional facilities;
(5) standardize the definitions used for collecting data on the incidence of prison rape;

The statistical review and analysis shall include, but not be limited to the identification of the common characteristics of—

(A) both victims and perpetrators of prison rape; and

(B) prisons and prison systems with a high incidence of prison rape.

(2) Considerations

In carrying out paragraph (1), the Bureau shall consider—

(A) how rape should be defined for the purposes of the statistical review and analysis;
(B) how the Bureau should collect information about staff-on-inmate sexual assault;
(C) how the Bureau should collect information beyond inmate self-reports of prison rape;
(D) how the Bureau should adjust the data in order to account for differences among prisons as required by subsection (c)(3);
(E) the categorization of prisons as required by subsection (c)(4); and
(F) whether a preliminary study of prison rape should be conducted to inform the methodology of the comprehensive statistical review.

(3) Solicitation of views

The Bureau of Justice Statistics shall solicit views from representatives of the following: State departments of correction; county and municipal jails; juvenile correctional facilities; former inmates; victim advocates; researchers; and other experts in the area of sexual assault.

(4) Sampling techniques

The review and analysis under paragraph (1) shall be based on a random sample, or other scientifically appropriate sample, of not less than 10 percent of all Federal, State, and county prisons, and a representative sample of municipal prisons. The selection shall include at least one prison from each State. The selection of facilities for sampling shall be made at the latest practicable date prior to conducting the surveys and shall not be disclosed to any facility or prison system official prior to the time period studied in the survey. Selection of a facility for sampling during any year shall not preclude its selection for sampling in any subsequent year.

(5) Surveys

In carrying out the review and analysis under paragraph (1), the Bureau shall, in addition to other methods as the Bureau considers appropriate, use surveys and other statistical studies of current and former inmates from a sample of Federal, State, county, and municipal prisons. The Bureau shall ensure the confidentiality of each survey participant, except as authorized in paragraph (7).

(6) Participation in survey

Federal, State, or local officials or facility administrators that receive a request from the Bureau under subsection (a)(4) or (5) will be required to participate in the national survey and provide access to any inmates under their legal custody.

(7) Reporting on child abuse and neglect

Nothing in section 3735 or 3789g of this title or any other provision of law, including paragraph (5), shall prevent the Bureau (including its agents), in carrying out the review and analysis under paragraph (1), from reporting to the designated public officials such information (and only such information) regarding child abuse or child neglect with respect to which the statutes or regulations of a State (or a political subdivision thereof) require prompt reporting.

(b) Review Panel on Prison Rape

The Panel shall hold a separate hearing regarding the three Federal or State prisons with the highest incidence of prison rape. The purpose of these hearings shall be to collect evidence to aid in the identification of common characteristics of both victims and perpetrators of prison rape, and the identification of common characteristics of prisons and prison systems with a high incidence of prison rape, and the identification of common characteristics of prisons and prison systems that appear to have been successful in deterring prison rape.

(B) Testimony at hearings

(i) Public officials

In carrying out the hearings required under subparagraph (A), the Panel shall request the public testimony of Federal, State, and local officials (and organizations that represent such officials), including the warden or director of each prison, who bears responsibility for the prevention, detection, and punishment of prison rape at each entity, and the head of the prison system encompassing such prison.

(ii) Victims

The Panel may request the testimony of prison rape victims, organizations representing such victims, and other appropriate individuals and organizations.

(C) a listing of any prisons in the representative sample that did not cooperate with the survey conducted pursuant to this section.

(3) Data adjustments
In preparing the information specified in paragraph (2), the Attorney General shall use established statistical methods to adjust the data as necessary to account for differences among institutions in the representative sample, which are not related to the detection, prevention, reduction and punishment of prison rape, or which are outside the control of the State, prison, or prison system, in order to provide an accurate comparison among prisons. Such differences may include the mission, security level, size, and jurisdiction under which the prison operates. For each such adjustment made, the Attorney General shall identify and explain such adjustment in the report.

(4) Categorization of prisons
The report shall divide the prisons surveyed into three categories. One category shall be composed of all Federal and State prisons. The other two categories shall be defined by the Attorney General in order to compare similar institutions.

CHAPTER 148—WINDSTORM IMPACT REDUCTION

Sec.
15701. Findings.
15702. Definitions.
§ 15701. Findings

The Congress finds the following:

1. Hurricanes, tropical storms, tornadoes, and thunderstorms can cause significant loss of life, injury, destruction of property, and economic and social disruption. All States and regions are vulnerable to these hazards.

2. The United States currently sustains several billion dollars in economic damages each year due to these windstorms. In recent decades, rapid development and population growth in high-risk areas has greatly increased overall vulnerability to windstorms.

3. Improved windstorm impact reduction measures have the potential to reduce these losses through:
   (A) cost-effective and affordable design and construction methods and practices;
   (B) effective mitigation programs at the local, State, and national level;
   (C) improved data collection and analysis and impact prediction methodologies;
   (D) engineering research on improving new structures and retrofitting existing ones to better withstand windstorms, atmospheric-related research to better understand the behavior and impact of windstorms on the built environment, and subsequent application of those research results; and
   (E) public education and outreach.

4. There is an appropriate role for the Federal Government in supporting windstorm impact reduction. An effective Federal program in windstorm impact reduction will require interagency coordination, and input from individuals, academia, the private sector, and other interested non-Federal entities.

§ 15702. Definitions

In this chapter:

1. Director—The term "Director" means the Director of the Office of Science and Technology Policy.

2. Program—The term "Program" means the National Windstorm Impact Reduction Program established by section 15703(a) of this title.

3. State—The term "State" means each of the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the United States Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any other territory or possession of the United States.

4. Windstorm—The term "windstorm" means any storm with a damaging or destructive wind component, such as a hurricane, tropical storm, tornado, or thunderstorm.

§ 15703. National Windstorm Impact Reduction Program

(a) Establishment

There is established the National Windstorm Impact Reduction Program.

(b) Objective

The objective of the Program is the achievement of major measurable reductions in losses of life and property from windstorms. The objective is to be achieved through a coordinated Federal effort, in cooperation with other levels of government, academia, and the private sector, aimed at improving the understanding of windstorms and their impacts and developing and encouraging implementation of cost-effective mitigation measures to reduce those impacts.

(c) Interagency Working Group

Not later than 90 days after October 25, 2004, the Director shall establish an Interagency Working Group consisting of representatives of the National Science Foundation, the National Oceanic and Atmospheric Administration, the National Institute of Standards and Technology, the Federal Emergency Management Agency, and other Federal agencies as appropriate. The Director shall designate an agency to serve as Chair of the Working Group and be responsible for the planning, management, and coordination of the Program, including budget coordination. Specific agency roles and responsibilities under the Program shall be defined in the implementation plan required under subsection (e). General agency responsibilities shall include the following:

1. The National Institute of Standards and Technology shall support research and development to improve building codes and standards and practices for design and construction of buildings, structures, and lifelines.

2. The National Science Foundation shall support research in engineering and the atmospheric sciences to improve the understanding of the behavior of windstorms and their impact on buildings, structures, and lifelines.

3. The National Oceanic and Atmospheric Administration shall support atmospheric sciences research to improve the understanding of the behavior of windstorms and their impact on buildings, structures, and lifelines.

4. The Federal Emergency Management Agency shall support the development of risk
assessment tools and effective mitigation techniques, windstorm-related data collection and analysis, public outreach, information dissemination, and implementation of mitigation measures consistent with the Agency’s all-hazards approach.

(d) Program components

(1) In general

The Program shall consist of three primary mitigation components: improved understanding of windstorms, windstorm impact assessment, and windstorm impact reduction. The components shall be implemented through activities such as data collection and analysis, risk assessment, outreach, technology transfer, and research and development. To the extent practicable, research activities authorized under this chapter shall be peer-reviewed, and the components shall be designed to be complementary to, and avoid duplication of, other public and private hazard reduction efforts.

(2) Understanding of windstorms

Activities to enhance the understanding of windstorms shall include research to improve knowledge of and data collection on the impact of severe wind on buildings, structures, and infrastructure.

(3) Windstorm impact assessment

Activities to improve windstorm impact assessment shall include—

(A) development of mechanisms for collecting and inventorying information on the performance of buildings, structures, and infrastructure in windstorms and improved collection of pertinent information from sources, including the design and construction industry, insurance companies, and building officials;

(B) research, development, and technology transfer to improve loss estimation and risk assessment systems; and

(C) research, development, and technology transfer to improve simulation and computational modeling of windstorm impacts.

(4) Windstorm impact reduction

Activities to reduce windstorm impacts shall include—

(A) development of improved outreach and implementation mechanisms to translate existing information and research findings into cost-effective and affordable practices for design and construction professionals, and State and local officials;

(B) development of cost-effective and affordable windstorm-resistant systems, structures, and materials for use in new construction and retrofit of existing construction; and

(C) outreach and information dissemination related to cost-effective and affordable construction techniques, loss estimation and risk assessment methodologies, and other pertinent information regarding windstorm phenomena to Federal, State, and local officials, the construction industry, and the general public.

(e) Implementation plan

Not later than 1 year after October 25, 2004, the Interagency Working Group shall develop and transmit to the Congress an implementation plan for achieving the objectives of the Program. The plan shall include—

(1) an assessment of past and current public and private efforts to reduce windstorm impacts, including a comprehensive review and analysis of windstorm mitigation activities supported by the Federal Government;

(2) a description of plans for technology transfer and coordination with natural hazard mitigation activities supported by the Federal Government;

(3) a statement of strategic goals and priorities for each Program component area;

(4) a description of how the Program will achieve such goals, including detailed responsibilities for each agency; and

(5) a description of plans for cooperation and coordination with interested public and private sector entities in each program component area.

(f) Biennial report

The Interagency Working Group shall, on a biennial basis, and not later than 180 days after the end of the preceding 2 fiscal years, transmit a report to the Congress describing the status of the windstorm impact reduction program, including progress achieved during the preceding two fiscal years. Each such report shall include any recommendations for legislative and other action the Interagency Working Group considers necessary and appropriate. (3) provides assurances satisfactory to the Secretary that the State will use the allocation to supplement, but not supplant, funds made available to carry out the State program.

(e) Amount of allocations

(1) In general

Subject to paragraph (2), for each fiscal year, the Secretary shall allocate to the State energy office of each eligible State to carry out subsection (d) an amount equal to the product obtained by multiplying the amount made available under subsection (f) for the fiscal year by the ratio that the population of the State in the most recent calendar year for which data are available bears to the total population of all eligible States in that calendar year.

(2) Minimum allocations

For each fiscal year, the amounts allocated under this subsection shall be adjusted proportionately so that no eligible State is allocated a sum that is less than an amount determined by the Secretary.

(b) Implementation

(1) In general

On a determination by the Secretary (in consultation with the Secretary of the Interior) that a project is feasible under subsection (a) and a commitment by an electric utility to operate and maintain the project, the Secretary may provide such technical and financial assistance as the Secretary determines is appropriate for the implementation of the project.

The Secretary may, notwithstanding section 3302 of title 31, retain and use a portion of the revenues from the sale of oil and gas taken in-kind that otherwise would be deposited to miscellaneous receipts, without regard to fiscal year limitation, or may use oil or gas received as royalty taken in-kind (referred to in this paragraph as “royalty production”) to pay the cost of—

(A) transporting the royalty production;

(B) processing the royalty production;

(C) disposing of the royalty production; or

(D) any combination of transporting, processing, and disposing of the royalty production.

(2) allow the lessee to deduct the transportation or processing costs in reporting and paying royalties in-value for other Federal oil and gas leases.

(d) Benefit to the United States required

The Secretary may receive oil or gas royalties in-kind only if the Secretary determines that receiving royalties in-kind provides benefits to the United States that are greater than or equal to the benefits that are likely to have been received had royalties been taken in-value.

(e) Reports

(1) In general

Not later than September 30, 2006, the Secretary shall submit to Congress a report that addresses—

(A) actions taken to develop business processes and automated systems to fully support the royalty-in-kind capability to be used in tandem with the royalty-in-value approach in managing Federal oil and gas revenue; and

(2) Accounting for deductions

When the Secretary allows the lessee to deduct transportation or processing costs under subsection (c), the Secretary may not reduce any payments to recipients of revenues derived from any other Federal oil and gas lease as a consequence of that deduction.

(g) Consultation with States

The Secretary—

(1) shall consult with a State before conducting a royalty in-kind program under this part within the State;

(2) may delegate management of any portion of the Federal royalty in-kind program to the State except as otherwise prohibited by Federal law; and

(3) shall consult annually with any State from which Federal oil or gas royalty is being taken in-kind to ensure, to the maximum extent practicable, that the royalty in-kind program provides revenues to the State greater than or equal to the revenues likely to have been received had royalties been taken in-value.

(h) Small refineries

(1) Preference

If the Secretary finds that sufficient supplies of crude oil are not available in the open market to refineries that do not have their own source of supply for crude oil, the Secretary may grant preference to those refineries in the sale of any royalty oil accruing or reserved to the United States under Federal oil and gas leases issued under any mineral leasing law, for processing or use in those refineries at private sale at not less than the market price.

(b) Conditions for reduction of royalty rate

Until such time as the Secretary issues regulations under subsection (e) that prescribe different standards or requirements, the Secretary shall reduce the royalty rate on—

(1) oil production from marginal properties as prescribed in subsection (c) if the spot price of West Texas Intermediate crude oil at Cushing, Oklahoma, is, on average, less than $2.00 per barrel (adjusted in accordance with the Consumer Price Index for all-urban consumers, United States city average, as published by the Bureau of Labor Statistics) for 90 consecutive trading days; and

(2) gas production from marginal properties as prescribed in subsection (c) if the spot price of natural gas delivered at Henry Hub, Louisiana, is, on average, less than $2.00 per million British thermal units (adjusted in accordance with the Consumer Price Index for all-urban consumers, United States city average, as published by the Bureau of Labor Statistics) for 90 consecutive trading days.

(c) Reduced royalty rate

(1) In general

When a marginal property meets the conditions specified in subsection (b), the royalty rate shall be the lesser of—

(A) 5 percent; or

(B) the applicable rate under any other statutory or regulatory royalty relief provision that applies to the affected production.

§ 15910. Enhanced oil and natural gas production through carbon dioxide injection

(a) Production incentive

(1) Findings

Congress finds the following:

(A) Approximately two-thirds of the original oil in place in the United States remains unproduced.

(B) Enhanced oil and natural gas production from the sequestering of carbon dioxide and other appropriate gases has the potential to increase oil and natural gas production.

(C) Capturing and productively using carbon dioxide would help reduce the carbon intensity of the economy.

(2) Purpose

The purpose of this section is—
(A) to promote the capturing, transportation, and injection of produced carbon dioxide, natural carbon dioxide, and other appropriate gases or other matter for sequestration into oil and gas fields; and
(B) to promote oil and natural gas production from the outer Continental Shelf and onshore Federal lands under lease by providing royalty incentives to use enhanced recovery techniques using injection of the substances referred to in subparagraph (A).

(b) Suspension of royalties

(1) In general
If the Secretary determines that reduction of the royalty under a Federal oil and gas lease that is an eligible lease is in the public interest and promotes the purposes of this section, the Secretary shall undertake a rulemaking to provide for such reduction for an eligible lease.

(2) Rulemakings
The Secretary shall publish the advanced notice of proposed rulemaking within 180 days after August 8, 2005, and complete the rulemaking implementing this section within 365 days after August 8, 2005.

(3) Eligible leases
A lease shall be an eligible lease for purposes of this section if—
(A) it is a lease for production of oil and gas from the outer Continental Shelf or Federal onshore lands;
(B) the injection of the substances referred to in subsection (a)(2)(A) will be used as an enhanced recovery technique on such lease; and
(C) the Secretary determines that the lease contains oil or gas that would not likely be produced without the royalty reduction provided under this section.

(4) Amount of relief
The rulemaking shall provide for a suspension volume, which shall not exceed 5,000,000 barrels of oil equivalent for each eligible lease. Such suspension volume shall be applied to any production from an eligible lease occurring on or after the date of publication of any advanced notice of proposed rulemaking under this subsection.

(5) Limitation
The Secretary may place limitations on the royalty reduction granted under this section based on market price.

(6) Application
This section shall apply to any eligible lease issued before, on, or after August 8, 2005.

PART D—Refinery Revitalization

§ 15951. Findings and definitions

(a) Findings

Congress finds that—

(1) it serves the national interest to increase petroleum refining capacity for gasoline, heating oil, diesel fuel, jet fuel, kerosene, and petrochemical feedstocks wherever located within the United States, to bring more supply to the markets for the use of the American people;

(2) United States demand for refined petroleum products currently exceeds the country’s petroleum refining capacity to produce such products;

(3) this excess demand has been met with increased imports;

(4) due to lack of capacity, refined petroleum product imports are expected to grow from 7.9 percent to 10.7 percent of total refined product by 2025;

(5) refineries are still subject to significant environmental and other regulations and face several new requirements under the Clean Air Act (42 U.S.C. 7401 et seq.) over the next decade; and

(6) better coordination of Federal and State regulatory reviews may help facilitate siting and construction of new refineries to meet the demand in the United States for refined products.

(b) Definitions

In this part:

(1) Administrator

The term “Administrator” means the Administrator of the Environmental Protection Agency.

(2) State

The term “State” means—

(A) a State;

(B) the Commonwealth of Puerto Rico; and

(C) any other territory or possession of the United States.

REFERENCES IN TEXT

The Clean Air Act, referred to in subsec. (a)(5), is act July 14, 1955, ch. 360, 69 Stat. 322, as amended, which is classified generally to chapter 85 (§7401 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 7401 of this title and Tables.

§ 15952. Federal-State regulatory coordination and assistance

(a) In general

(b) Authority under agreement

The Administrator shall be authorized to—
(1) accept from a refiner a consolidated application for all permits required from the Environmental Protection Agency, to the extent consistent with other applicable law;
(2) enter into memoranda of agreement with other Federal agencies to coordinate consideration of refinery applications and permits among Federal agencies; and
(3) enter into memoranda of agreement with a State, under which Federal and State review of refinery permit applications will be coordinated and concurrently considered, to the extent practicable.

(c) State assistance

The Administrator is authorized to provide financial assistance to State governments to facilitate the hiring of additional personnel with expertise in fields relevant to consideration of refinery permits.

(d) Other assistance

(5) The Federal Government, through the Victims of Crime Act [42 U.S.C. 10601 et seq.], Violence Against Women Act, and other laws, has long played a role in providing services to sexual assault victims and in seeking policies to increase the number of rapists brought to justice.

(6) Research suggests that sexual assault victims who receive counseling support are more likely to report their attack to the police and to participate in the prosecution of the offender.

(7) Due in part to the combined efforts of law enforcement officials at the local, State, and Federal level, as well as the efforts of the Rape, Abuse & Incest National Network (RAINN) and its affiliated rape crisis centers across the United States, sexual violence in America has fallen by more than half since 1994.

(8) RAINN, a 501(c)(3) nonprofit corporation headquartered in the District of Columbia, has since 1994 provided help to victims of sexual assault and educated the public about sexual assault prevention, prosecution, and recovery.

(9) RAINN established and continues to operate the National Sexual Assault Hotline, a free, confidential telephone hotline that provides help, 24 hours a day, to victims nationally.

(10) More than 1,100 local rape crisis centers in the 50 States and the District of Columbia partner with RAINN and are members of the National Sexual Assault Hotline network (which has helped more than 970,000 people since its inception in 1994).

(11) To better serve victims of sexual assault, 80 percent of whom are under age 30 and 44 percent of whom are under age 18, RAINN will soon launch the National Sexual Assault Online Hotline, the web's first secure hotline service offering live help 24 hours a day, to victims nationally.

(12) Congress and the Department of Justice have given RAINN funding to conduct its crucial work.

(13) RAINN is a national model of public/private partnership, raising private sector funds to match congressional appropriations and receiving extensive private in-kind support, including advanced technology provided by the communications and technology industries to launch the National Sexual Assault Hotline and the National Sexual Assault Online Hotline.

(14) Worth magazine selected RAINN as one of “America's 100 Best Charities”, in recognition of the organization's "efficiency and effectiveness." ¹

(15) In fiscal year 2005, RAINN spent more than 91 cents of every dollar received directly on program services.

(16) The demand for RAINN's services is growing dramatically, as evidenced by the fact that, in 2005, the National Sexual Assault Hotline helped 137,039 people, an all-time record.

(17) The programs sponsored by RAINN and its local affiliates have contributed to the increase in the percentage of victims who report their rape to law enforcement.

(18) According to a recent poll, 92 percent of American women said that fighting sexual and domestic violence should be a top public policy priority (a higher percentage than chose health care, child care, or any other issue).

(19) Authorizing Federal funds for RAINN’s national programs would promote continued progress with this interstate problem and would make a significant difference in the prosecution of rapists and the overall incidence of sexual violence.

§ 17373. Convention on Supplementary Compensation for Nuclear Damage contingent cost allocation

(a) Findings and purpose

(1) Findings

Congress finds that—

(A) section 2210 of this title (commonly known as the "Price-Anderson Act")—

(i) provides a predictable legal framework necessary for nuclear projects; and

(ii) ensures prompt and equitable compensation in the event of a nuclear incident in the United States;
(B) the Price-Anderson Act, in effect, provides operators of nuclear powerplants with insurance for damage arising out of a nuclear incident and funds the insurance primarily through the assessment of a retrospective premium from each operator after the occurrence of a nuclear incident; (C) the Convention on Supplementary Compensation for Nuclear Damage, done at Vienna on September 12, 1997, will establish a global system—
   (1) to provide a predictable legal framework necessary for nuclear energy projects; and
   (2) to ensure prompt and equitable compensation in the event of a nuclear incident;
   (D) the Convention benefits United States nuclear suppliers that face potentially unlimited liability for nuclear incidents that are not covered by the Price-Anderson Act by replacing a potentially open-ended liability with a predictable liability regime that, in effect, provides nuclear suppliers with insurance for damage arising out of such an incident; (E) the Convention also benefits United States nuclear facility operators that may be publicly liable for a Price-Anderson incident by providing an additional early source of funds to compensate damage arising out of the Price-Anderson incident; (F) the combined operation of the Convention, the Price-Anderson Act, and this section will augment the quantity of assured funds available for victims in a wider variety of nuclear incidents while reducing the potential liability of United States suppliers without increasing potential costs to United States operators; (G) the cost of those benefits is the obligation of the United States to contribute to the supplementary compensation fund established by the Convention; (H) any such contribution should be funded in a manner that does not—
   (i) upset settled expectations based on the liability regime established under the Price-Anderson Act; or
   (ii) shift to Federal taxpayers liability risks for nuclear incidents at foreign installations; (I) with respect to a Price-Anderson incident, funds already available under the Price-Anderson Act should be used; and (J) with respect to a nuclear incident outside the United States not covered by the Price-Anderson Act, a retrospective premium should be prorated among nuclear suppliers relieved from potential liability for which insurance is not available.

(2) Purpose

The purpose of this section is to allocate the contingent costs associated with participation by the United States in the international nuclear liability compensation system established by the Convention on Supplementary Compensation for Nuclear Damage, done at Vienna on September 12, 1997—
   (A) with respect to a Price-Anderson incident, by using funds made available under section 2210 of this title to cover the contingent costs in a manner that neither increases the burdens nor decreases the benefits under section 2210 of this title; and
   (B) with respect to a covered incident outside the United States that is not a Price-Anderson incident, by allocating the contingent costs equitably, on the basis of risk, among the class of nuclear suppliers relieved by the Convention from the risk of potential liability resulting from any covered incident outside the United States.

SUBCHAPTER IX—SMART GRID

§ 17381. Statement of policy on modernization of electricity grid

It is the policy of the United States to support the modernization of the Nation’s electricity transmission and distribution system to maintain a reliable and secure electricity infrastructure that can meet future demand growth and to achieve each of the following, which together characterize a Smart Grid:

(1) Increased use of digital information and control technologies to improve reliability, security, and efficiency of the electric grid.

(2) Dynamic optimization of grid operations and resources, with full cyber-security.

(3) Deployment and integration of distributed resources and generation, including renewable resources.

(4) Development and incorporation of demand response, demand-side resources, and energy-efficiency resources.

(5) Deployment of “smart” appliances and consumer devices.

(6) Integration of “smart” appliances and consumer devices.

(7) Deployment and integration of advanced electricity storage and peak-shaving technologies, including plug-in electric and hybrid electric vehicles, and thermal-storage air conditioning.

(8) Provision to consumers of timely information and control options.

(9) Development of standards for communication and interoperability of appliances and equipment connected to the electric grid, including the infrastructure serving the grid.

(10) Identification and lowering of unreasonable or unnecessary barriers to adoption of smart grid technologies, practices, and services.

§ 17382. Smart grid system report

The Secretary, acting through the Assistant Secretary of the Office of Electricity Delivery and Energy Reliability (referred to in this section as the “OEDER”) and through the Smart Grid Task Force established in section 17383 of this title, shall, after consulting with any interested individual or entity as appropriate, no later than 1 year after December 19, 2007, and every 2 years thereafter, report to Congress concerning the status of smart grid deployments nationwide and any regulatory or government barriers to continued deployment. The report shall provide the current status and prospects of smart grid development, including information on technology penetration, communications network capabilities, costs, and obstacles. It may include recommendations for State and Federal policies or actions helpful to facilitate the transition to a smart grid. To the extent appropriate, it should take a regional perspective.

In preparing this report, the Secretary shall solicit advice and contributions from the Smart Grid Advisory Committee created in section 17383 of this title; from other involved Federal agencies including but not limited to the Federal Energy Regulatory Commission (“Commission”), the National Institute of Standards and Technology (“Institute”), and the Department of Homeland Security; and from other stakeholder groups not already represented on the Smart Grid Advisory Committee.

Codification

December 19, 2007, referred to in text, was in the original “enactment” and was translated as meaning the date of enactment of Pub. L. 110–140 to reflect the probable intent of Congress.

§ 17383. Smart Grid Advisory Committee and Smart Grid Task Force

(a) Smart Grid Advisory Committee

(1) Establishment

The Secretary shall establish, within 90 days of December 19, 2007, a Smart Grid Advisory Committee (either as an independent entity or as a designated sub-part of a larger advisory committee on electricity matters). The Smart Grid Advisory Committee shall include eight or more members appointed by the Secretary who have sufficient experience and expertise to represent the full range of smart grid technologies and services, to represent both private and non-Federal public sector stakeholders. One member shall be appointed by the Secretary to Chair the Smart Grid Advisory Committee.

(2) Mission

The mission of the Smart Grid Advisory Committee shall be to advise the Secretary, the Assistant Secretary, and other relevant Federal officials concerning the development of smart grid technologies, the progress of a national transition to the use of smart-grid technologies and services, the evolution of widely-accepted technical and practical standards and protocols to allow interoperability and inter-communication among smart-grid capable devices, and the optimum means of using Federal incentive authority to encourage such progress.
§ 17384 Smart grid technology research, development, and demonstration

(b) Smart grid regional demonstration initiative

(1) In general

The Secretary shall establish a smart grid regional demonstration initiative (referred to in this subsection as the “Initiative”) composed of demonstration projects specifically focused on advanced technologies for use in power grid sensing, communications, analysis, and power flow control. The Secretary shall seek to leverage existing smart grid deployments.

(2) Goals

The goals of the Initiative shall be—

(A) to demonstrate the potential benefits of concentrated investments in advanced grid technologies on a regional grid;

(B) to facilitate the commercial transition from the current power transmission and distribution system technologies to advanced technologies;

(C) to facilitate the integration of advanced technologies in existing electric net-

works to improve system performance, power flow control, and reliability;
(D) to demonstrate protocols and standards that allow for the measurement and validation of the energy savings and fossil fuel emission reductions associated with the installation and use of energy efficiency and demand response technologies and practices; and
(E) to investigate differences in each region and regulatory environment regarding best practices in implementing smart grid technologies.

(3) Demonstration projects
(A) In general
In carrying out the initiative, the Secretary shall provide financial support to smart grid demonstration projects in urban, suburban, tribal, and rural areas, including areas where electric system assets are controlled by nonprofit entities and areas where electric system assets are controlled by investor-owned utilities.

(B) Cooperation
A demonstration project under subparagraph (A) shall be carried out in cooperation with the electric utility that owns the grid facilities in the electricity control area in which the demonstration project is carried out.

(C) Federal share of cost of technology investments
The Secretary shall provide to an electric utility described in subparagraph (B) financial assistance for use in paying an amount equal to not more than 50 percent of the cost of qualifying advanced grid technology investments made by the electric utility or other party to carry out a demonstration project.

(D) Ineligibility for grants
No person or entity participating in any demonstration project conducted under this subsection shall be eligible for grants under section 17386 of this title for otherwise qualifying investments made as part of that demonstration project.

(E) Availability of data
The Secretary shall establish and maintain a smart grid information clearinghouse in a timely manner which will make data from smart grid demonstration projects and other sources available to the public. As a condition of receiving financial assistance under this subsection, a utility or other participant in a smart grid demonstration project shall provide such information as the Secretary may require to become available through the smart grid information clearinghouse in the form and within the timeframes as directed by the Secretary. The Secretary shall assure that business proprietary information and individual customer information is not included in the information made available through the clearinghouse.

(F) Open protocols and standards
The Secretary shall require as a condition of receiving funding under this subsection that demonstration projects utilize open protocols and standards (including Internet-based protocols and standards) if available and appropriate.

(e) Authorization of appropriations
There are authorized to be appropriated—
(1) to carry out subsection (a), such sums as are necessary for each of fiscal years 2008 through 2012; and
(2) to carry out subsection (b), such sums as may be necessary.

2So in original. Probably should be “Initiative.”

§ 17385. Smart grid interoperability framework
(a) Interoperability framework
The Director of the National Institute of Standards and Technology shall have primary responsibility to coordinate the development of a framework that includes protocols and model standards for information management to achieve interoperability of smart grid devices and systems. Such protocols and standards shall further align policy, business, and technology approaches in a manner that would enable all electric resources, including demand-side resources, to contribute to an efficient, reliable electricity network. In developing such protocols and standards—
(1) the Director shall seek input and cooperation from the Commission, OEDER and its Smart Grid Task Force, the Smart Grid Advisory Committee, other relevant Federal and State agencies; and
(2) the Director shall also solicit input and cooperation from private entities interested in such protocols and standards, including but not limited to the Gridwise Architecture Council, the International Electrical and Electronics Engineers, the National Electric Reliability Organization recognized by the Federal Energy Regulatory Commission, and National Electrical Manufacturer’s Association.
(b) Scope of framework

The framework developed under subsection (a) shall be flexible, uniform and technology neutral, including but not limited to technologies for managing smart grid information, and designed—

(1) to accommodate traditional, centralized generation and transmission resources and consumer distributed resources, including distributed generation, renewable generation, energy storage, energy efficiency, and demand response and enabling devices and systems;

(2) to be flexible to incorporate—

(A) regional and organizational differences; and

(B) technological innovations;

(3) to consider the use of voluntary uniform standards for certain classes of mass-produced electric appliances and equipment for homes and businesses that enable customers, at their election and consistent with applicable State and Federal laws, and are manufactured with the ability to respond to electric grid emergencies and demand response signals by curtailing all, or a portion of, the electrical power consumed by the appliances or equipment in response to an emergency or demand response signal, including through—

(A) load reduction to reduce total electrical demand;

(B) adjustment of load to provide grid ancillary services; and

(C) in the event of a reliability crisis that threatens an outage, short-term load shedding to help preserve the stability of the grid; and

(4) such voluntary standards should incorporate appropriate manufacturer lead time.1

c) Timing of framework development

The Institute shall begin work pursuant to this section within 60 days of December 19, 2007. The Institute shall provide and publish an initial report on progress toward recommended or consensus standards and protocols within 1 year after December 19, 2007, further reports at such times as developments warrant in the judgment of the Institute, and a final report when the Institute determines that the work is completed or that a Federal role is no longer necessary.

d) Standards for interoperability in Federal jurisdiction

At any time after the Institute’s work has led to sufficient consensus in the Commission’s judgment, the Commission shall institute a rulemaking proceeding to adopt such standards and protocols as may be necessary to insure smart-grid functionality and interoperability in interstate transmission of electric power, and regional and wholesale electricity markets.

e) Authorization

There are authorized to be appropriated for the purposes of this section $5,000,000 to the Institute to support the activities required by this subsection2 for each of fiscal years 2008 through 2012.

§ 17501. Purposes; findings

(a) Purposes

The purposes of the Act are—

(1) to break the cycle of criminal recidivism, increase public safety, and help States, local units of government, and Indian Tribes, better address the growing population of criminal offenders who return to their communities and commit new crimes;

(2) to rebuild ties between offenders and their families, while the offenders are incarcerated and after reentry into the community, to promote stable families and communities;

(3) to encourage the development and support of, and to expand the availability of, evidence-based programs that enhance public safety and reduce recidivism, such as substance abuse treatment, alternatives to incarceration, and comprehensive reentry services;

(6) to provide offenders in prisons, jails or juvenile facilities with educational, literacy, vocational, and job placement services to facilitate re-entry into the community.

(b) Findings

Congress finds the following:

(1) In 2002, over 7,000,000 people were incarcerated in Federal or State prisons or in local jails. Nearly 650,000 people are released from Federal and State incarceration into communities nationwide each year.

(2) There are over 3,200 jails throughout the United States, the vast majority of which are operated by county governments. Each year, these jails will release more than 10,000,000 people back into the community.

(3) Recent studies indicate that over 2/3 of released State prisoners are expected to be re-arrested for a felony or serious misdemeanor within 3 years after release.

(4) According to the Bureau of Justice Statistics, expenditures on corrections alone increased from $9,000,000,000 in 1982, to $59,600,000,000 in 2002. These figures do not include the cost of arrest and prosecution, nor do they take into account the cost to victims.

(5) The Serious and Violent Offender Reentry Initiative (SVORI) provided $139,000,000 in funding for State governments to develop and implement education, job training, mental
health treatment, and substance abuse treatment for serious and violent offenders. This Act seeks to build upon the innovative and successful State reentry programs developed under the SVORI, which terminated after fiscal year 2005.

(6) Between 1991 and 1999, the number of children with a parent in a Federal or State correctional facility increased by more than 100 percent, from approximately 900,000 to approximately 2,000,000. According to the Bureau of Prisons, there is evidence to suggest that inmates who are connected to their children and families are more likely to avoid negative incidents and have reduced sentences.

(7) Released prisoners cite family support as the most important factor in helping them stay out of prison. Research suggests that families are an often underutilized resource in the reentry process.

(8) Approximately 100,000 juveniles (ages 17 years and under) leave juvenile correctional facilities, State prison, or Federal prison each year. Juveniles released from secure confinement still have their likely prime crime years ahead of them. Juveniles released from secure confinement have a recidivism rate ranging from 55 to 70 percent. The chances that young people will successfully transition into society improve with effective reentry and aftercare programs.

(9) Studies have shown that between 15 percent and 27 percent of prisoners expect to go to homeless shelters upon release from prison.

(10) Fifty-seven percent of Federal and 70 percent of State inmates used drugs regularly before going to prison, and the Bureau of Justice statistics report titled “Trends in State Parole, 1990–2000” estimates the use of drugs or alcohol around the time of the offense that resulted in the incarceration of the inmate at as high as 84 percent.

(11) Family-based treatment programs have proven results for serving the special populations of female offenders and substance abusers with children. An evaluation by the Substance Abuse and Mental Health Services Administration of family-based treatment for substance-abusing mothers and children found that 6 months after such treatment, 60 percent of the mothers remained alcohol and drug free, and drug-related offenses declined from 28 percent to 7 percent. Additionally, a 2003 evaluation of residential family-based treatment programs revealed that 60 percent of mothers remained clean and sober 6 months after treatment, criminal arrests declined by 43 percent, and 88 percent of the children treated in the program with their mothers remained stabilized.

(12) A Bureau of Justice Statistics analysis indicated that only 33 percent of Federal inmates and 36 percent of State inmates had participated in residential in-patient treatment programs for alcohol and drug abuse 12 months before their release. Further, over one-third of all jail inmates have some physical or mental disability and 25 percent of jail inmates have been treated at some time for a mental or emotional problem.

(13) State Substance Abuse Agency Directors, also known as Single State Authorities, manage the publicly funded substance abuse prevention and treatment system of the Nation. Single State Authorities are responsible for planning and implementing statewide systems of care that provide clinically appropriate substance abuse services. Given the high rate of substance use disorders among offenders reentering our communities, successful reentry programs require close interaction and collaboration with each Single State Authority as the program is planned, implemented, and evaluated.

(14) According to the National Institute of Literacy, 70 percent of all prisoners function at the lowest literacy levels.

(15) Less than 32 percent of State prison inmates have a high school diploma or a higher level of education, compared to 82 percent of the general population.

(16) Approximately 38 percent of inmates who completed 11 years or less of school were not working before entry into prison.

(17) The percentage of State prisoners participating in educational programs decreased by more than 8 percent between 1991 and 1997, despite growing evidence of how educational programming while incarcerated reduces recidivism.

(18) The National Institute of Justice has found that 1 year after release, up to 60 percent of former inmates are not employed.

(19) Transitional jobs programs have proven to help people with criminal records to successfully return to the workplace and to the community, and therefore can reduce recidivism.

(c) Qualified high risk pool

(1) In general

Amounts made available under this section shall be used to establish a qualified high risk pool that meets the requirements of paragraph (2).

(2) Requirements

A qualified high risk pool meets the requirements of this paragraph if such pool—

(B) provides health insurance coverage—

(i) in which the issuer’s share of the total allowed costs of benefits provided under such coverage is not less than 65 percent of such costs; and

(2) Sanctions

An issuer or employment-based health plan shall be responsible for reimbursing the program under this section for the medical expenses incurred by the program for an individual who, based on criteria established by the Secretary, the Secretary finds was encouraged by the issuer to disenroll from health benefits coverage prior to enrolling in coverage through the program. The criteria shall include at least the following circumstances:

(A) In the case of prior coverage obtained through an employer, the provision by the employer, group health plan, or the issuer of money or other financial consideration for disenrolling from the coverage.
(B) In the case of prior coverage obtained directly from an issuer or under an employment-based health plan—

(i) the provision by the issuer or plan of money or other financial consideration for disenrolling from the coverage; or
(ii) in the case of an individual whose premium for the prior coverage exceeded
the premium required by the program (adjusted based on the age factors applied to the prior coverage)—

(I) the prior coverage is a policy that is no longer being actively marketed (as defined by the Secretary) by the issuer; or

(II) the prior coverage is a policy for which duration of coverage form issue or health status are factors that can be considered in determining premiums at renewal.

(3) Construction

Nothing in this subsection shall be construed as constituting exclusive remedies for violations of criteria established under paragraph (1) or as preventing States from applying or enforcing such paragraph or other provisions under law with respect to health insurance issuers.

The Secretary shall establish—

(2) procedures to protect against waste, fraud, and abuse.

(A) In general

Except as provided in subparagraph (B), coverage of eligible individuals under a high risk pool in a State shall terminate on January 1, 2014.

(B) Transition to Exchange

The Secretary shall develop procedures to provide for the transition of eligible individuals enrolled in health insurance coverage offered through a high risk pool established under this section into qualified health plans offered through an Exchange. Such procedures shall ensure that there is no lapse in coverage with respect to the individual and may extend coverage after the termination of the risk pool involved, if the Secretary determines necessary to avoid such a lapse.

(4) Limitations

The Secretary has the authority to stop taking applications for participation in the program under this section to comply with the funding limitation provided for in paragraph (1).

(5) Relation to State laws

The standards established under this section shall supersede any State law or regulation (other than State licensing laws or State laws relating to plan solvency) with respect to qualified high risk pools which are established in accordance with this section.

(ii) provides health benefits to early retirees.

(C) Early retirees

The term “early retirees” means individuals who are age 55 and older but are not eligible for coverage under title XVIII of the Social Security Act [42 U.S.C. 1395 et seq.], and who are not active employees of an employer maintaining, or currently contributing to, the employment-based plan or of any employer that has made substantial contributions to fund such plan.

(b) Participation

(1) Employment-based plan eligibility

A participating employment-based plan is an employment-based plan that—

(A) meets the requirements of paragraph (2) with respect to health benefits provided under the plan; and

(B) submits to the Secretary an application for participation in the program, at such time, in such manner, and containing such information as the Secretary shall require.

(2) Employment-based health benefits

An employment-based plan meets the requirements of this paragraph if the plan—

(A) implements programs and procedures to generate cost-savings with respect to participants with chronic and high-cost conditions;

(B) provides documentation of the actual cost of medical claims involved; and

(C) is certified by the Secretary.

(c) Payments

(1) Submission of claims

(A) In general

A participating employment-based plan shall submit claims for reimbursement to the Secretary which shall contain documentation of the actual costs of the items and services for which each claim is being submitted.

(B) Basis for claims

Claims submitted under subparagraph (A) shall be based on the actual amount expended by the participating employment-based plan involved within the plan year for the health benefits provided to an early retiree or the spouse, surviving spouse, or dependent of such retiree. In determining the amount of a claim for purposes of this subsection, the participating employment-based plan shall take into account any negotiated price concessions (such as discounts, direct or indirect subsidies, rebates, and direct or indirect remunerations) obtained by such plan with respect to such health benefit. For purposes of determining the amount of any such claim, the costs paid by the early retiree or the retiree’s spouse, surviving spouse, or dependent in the form of deductibles, co-payments, or co-insurance shall be included in the amounts paid by the participating employment-based plan.

(2) Program payments

If the Secretary determines that a participating employment-based plan has submitted a valid claim under paragraph (1), the Secretary shall reimburse such plan for 80 percent of that portion of the costs attributable to such claim that exceed $15,000, subject to the limits contained in paragraph (3).

(3) Limit

To be eligible for reimbursement under the program, a claim submitted by a participating employment-based plan shall not be less than $15,000 nor greater than $90,000. Such amounts shall be adjusted each fiscal year based on the percentage increase in the Medical Care Component of the Consumer Price Index for all urban consumers (rounded to the nearest multiple of $1,000) for the year involved.

(4) Use of payments

Amounts paid to a participating employment-based plan under this subsection shall be used to lower costs for the plan. Such payments may be used to reduce premium costs for an entity described in subsection (a)(2)(B)(i) or to reduce premium contributions, co-payments, deductibles, co-insurance, or other out-of-pocket costs for plan participants. Such payments shall not be used as general revenues for an entity described in subsection (a)(2)(B)(i). The Secretary shall develop a mechanism to monitor the appropriate use of such payments by such entities.

(5) Payments not treated as income

Payments received under this subsection shall not be included in determining the gross income of an entity described in subsection (a)(2)(B)(i) that is maintaining or currently contributing to a participating employment-based plan.

(d) Audits

The Secretary shall conduct annual audits of claims data submitted by participating employment-based plans under this section to ensure that such plans are in compliance with the requirements of this section.

(e) Funding

There is appropriated to the Secretary, out of any moneys in the Treasury not otherwise appropriated, $5,000,000,000 to carry out the program under this section. Such funds shall be available without fiscal year limitation.

(f) Limitation

(E) provide that a qualified health plan shall not be treated as providing coverage for the essential health benefits described in paragraph (1) unless the plan provides that—

(i) coverage for emergency department services will be provided without imposing any requirement under the plan for prior authorization of services or any limitation on coverage where the provider of services does not have a contractual relationship with the plan for the providing of services that is more restrictive than the requirements or limitations that apply to emergency department services received from providers who do have such a contractual relationship with the plan; and

(ii) if such services are provided out-of-network, the cost-sharing requirement (expressed as a copayment amount or coinsurance rate) is the same requirement that would apply if such services were provided in-network;

(F) provide that if a plan described in section 18031(b)(2)(B)(ii) of this title (relating to stand-alone dental benefits plans) is offered through an Exchange, another health plan offered through such Exchange shall not fail to be treated as a qualified health plan solely because the plan does not offer coverage of benefits offered through the stand-alone plan that are otherwise required under paragraph (1)(J); and

(G) periodically review the essential health benefits under paragraph (1), and provide a report to Congress and the public that contains—

(i) an assessment of whether enrollees are facing any difficulty accessing needed services for reasons of coverage or cost;

(ii) an assessment of whether the essential health benefits needs to be modified or updated to account for changes in medical evidence or scientific advancement;

(iii) information on how the essential health benefits will be modified to address any such gaps in access or changes in the evidence base;

(iv) an assessment of the potential of additional or expanded benefits to increase costs and the interactions between the addition or expansion of benefits and reductions in existing benefits to meet actuarial limitations described in paragraph (2); and

(H) periodically update the essential health benefits under paragraph (1) to address any gaps in access to coverage or changes in the evidence base the Secretary identifies in the review conducted under subparagraph (G).

(5) Rule of construction

Nothing in this title\(^3\) shall be construed to prohibit a health plan from providing benefits in excess of the essential health benefits described in this subsection.

##### (B) 2015 and later

In the case of any plan year beginning in a calendar year after 2014, the limitation under this paragraph shall—

The amounts under clauses (i) and (ii) may be increased by the maximum amount of reimbursement which is reasonably available to a participant under a flexible spending arrangement described in section 106(c)(2) of title 26 (determined without regard to any salary reduction arrangement).

##### (B) Indexing of limits

In the case of any plan year beginning in a calendar year after 2014—

(i) the dollar amount under subparagraph (A)(i) shall be increased by an amount equal to the product of that amount and the premium adjustment percentage under paragraph (4) for the calendar year; and

(ii) the dollar amount under subparagraph (A)(ii) shall be increased to an amount equal to twice the amount in effect under subparagraph (A)(i) for plan years beginning in the calendar year, determined after application of clause (i).

Ex. Ord. No. 13535, ENSURING ENFORCEMENT AND IMPLEMENTATION OF HYDE PROVISIONS IN THE PATIENT PROTECTION AND AFFORDABLE CARE ACT

Ex. Ord. No. 13535, Mar. 24, 2010, 75 F.R. 15599, provided:

By the authority vested in me as President by the Constitution and the laws of the United States of America, including the “Patient Protection and Affordable Care Act” (Public Law 111–148), I hereby order as follows:

SECTION 1. Policy. Following the recent enactment of the Patient Protection and Affordable Care Act (the “Act”), it is necessary to establish an adequate enforcement mechanism to ensure that Federal funds are not used for abortion services (except in cases of rape or incest, or when the life of the woman would be endangered), consistent with a longstanding Federal statutory restriction that is commonly known as the Hyde Amendment. The purpose of this order is to establish a comprehensive, Government-wide set of policies and procedures to achieve this goal and to make certain that all relevant actors—Federal officials, State officials (including insurance regulators) and health care providers—are aware of their responsibilities, new and old.

The Act maintains current Hyde Amendment restrictions governing abortion policy and extends those restrictions to the newly created health insurance exchanges. Under the Act, longstanding Federal laws to protect conscience (such as the Church Amendment, 42 U.S.C. 300c-1, and the Weldon Amendment, section 508(d)(1) of Public Law 111–8) remain intact and new protections prohibit discrimination against health care facilities and health care providers because of an unwillingness to provide, pay for, provide coverage of, or refer for abortions.

Numerous executive agencies have a role in ensuring that these restrictions are enforced, including the Department of Health and Human Services (HHS), the Office of Management and Budget (OMB), and the Office of Personnel Management.

Sect. 2. Strict Compliance with Prohibitions on Abortion Funding in Health Insurance Exchanges. The Act specifically prohibits the use of tax credits and cost-sharing reduction payments to pay for abortion services (except in cases of rape or incest, or when the life of the woman would be endangered) in the health insurance exchanges that will be operational in 2014. The Act also imposes strict payment and accounting requirements to ensure that Federal funds are not used for abortion services in exchange plans (except in cases of rape or incest, or when the life of the woman would be endangered) and requires State health insurance commissioners to ensure that exchange plan funds are segregated by insurance companies in accordance with generally accepted accounting principles, OMB funds management circulars, and accounting guidance provided by the Government Accountability Office.

I hereby direct the Director of the OMB and the Secretary of HHS to consult with executive agencies and offices that have relevant expertise in accounting principles, including, but not limited to, the Department of the Treasury, and with the Government Accountability Office. Upon completion of those model guidelines, the Secretary of HHS should promptly initiate a rulemaking to issue regulations, which will have the force of law, to interpret the Act’s segregation requirements, and shall provide guidance to State health insurance commissioners on how to comply with the model guidelines.

Sect. 3. Community Health Center Program. The Act establishes a new Community Health Center (CHC) Fund within HHS, which provides additional Federal funds for the community health center program. Existing law prohibits these centers from using Federal funds to provide abortion services (except in cases of rape or incest, or when the life of the woman would be endangered), as a result of both the Hyde Amendment and longstanding regulations containing the Hyde language. Under the Act, the Hyde language shall apply to the authorization and appropriations of funds in Community Health Centers under section 1003 and all other relevant provisions. I hereby direct the Secretary of HHS to ensure that program administrators and recipients of Federal funds are aware of and comply with the limitations on abortion services imposed on CHCs by existing law. Such actions should include, but are not limited to, updating Grant Policy Statements that accompany CHC grants and issuing new interpretive rules.

Sect. 4. General Provisions. (a) Nothing in this order shall be construed to impair or otherwise affect: (i) authority granted by law or Presidential directive to an agency, or the head thereof; or (ii) functions of the Director of the OMB relating to budgetary, administrative, or legislative proposals.

(b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(c) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees or agents, or any other person.

Barack Obama.

REFERENCES IN TEXT

Subtitle C enacted subchapter II of this chapter and sections 300gg–2 to 300gg–7 of this title, transferred section 300gg of this title to section 300gg–3 of this title, amended sections 300gg–1 and 300gg–4 of this title, and enacted provisions set out as a note under section 300gg of this title. For complete classification of subtitles A and C to the Code, see Tables.

This title, referred to in subsec. (b)(1) and (e)(3)(A)(viii), is title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 130, which enacted this chapter and enacted, amended, and transferred numerous other sections and notes in the Code. For complete classification of title I to the Code, see Tables.

Section 2716 of the Public Health Service Act, referred to in subsec. (c)(5), probably should be section 2715 of the Public Health Service Act, act July 1, 1944, which is classified to section 300gg–15 of this title and requires the Secretary to develop a uniform explanation of coverage documents and standardized definitions. Section 2716 of act July 1, 1944, which is classified to section 300gg–16 of this title, relates to prohibition on discrimination in favor of highly compensated individuals.

Section 2794 of the Public Health Service Act, referred to in subsec. (e)(2), probably means section 2794 of act July 1, 1944, as added by section 1003 of Pub. L. 111–148, which relates to premium increases for consumers and is classified to section 300gg–94 of this title. Another section 2794 of act July 1, 1944, relates to uniform fraud and abuse referral format and is classified to section 300gg–9 of this title.

This subchapter, referred to in subsec. (k), was in the original “‘this subtitile’, meaning subtitle D of title I of Pub. L. 111–148, Mar. 23, 2010, 124 Stat. 162, which enacted this subchapter and amended sections 501, 4958, and 6633 of Title 26, Internal Revenue Code.

AMENDMENTS

Subsec. (d)(3)(B)(ii). Pub. L. 111–148, §10104(e)(1), added cl. (ii) and struck out former cl. (ii). Prior to amendment, text read as follows: “A State shall make payments to or on behalf of an individual eligible for the premium tax credit under section 36B of title 26 and any cost-sharing reduction under section 36B of title 26 and section 18071(c)(4) of this title.”

Subsec. (e)(2). Pub. L. 111–148, §10104(f)(1), which directed substitution of “shall” for “may” in second sentence, was executed by making the substitution in
third sentence before “take” to reflect the probable intent of Congress because the word “shall” already appeared in second sentence.

Subsec. (i)(2)(B). Pub. L. 111–148, §10104(h), substituted “resource partners of the Small Business Administration” for “small business development centers”.

(ii) Specific requirements

The Secretary shall make the determination under clause (i) on a per enrollee basis and shall take into account all relevant factors necessary to determine the value of the premium tax credits and cost-sharing reductions that would have been provided to eligible individuals described in clause (i), including the age and income of the enrollee, whether the enrollment is for self-only or family coverage, geographic differences in average spending for health care across rating areas, the health status of the enrollee for purposes of determining risk adjustment payments and reinsurance payments that would have been made if the enrollee had enrolled in a qualified health plan through an Exchange, and whether any reconciliation of the credit or cost-sharing reductions would have occurred if the enrollee had been so enrolled. This determination shall take into consideration the experience of other States with respect to participation in an Exchange and such credits and reductions provided to residents of the other States, with a special focus on enrollees with income below 200 percent of poverty.

(iii) Certification

The Chief Actuary of the Centers for Medicare & Medicaid Services, in consultation with the Office of Tax Analysis of the Department of the Treasury, shall certify whether the methodology used to make determinations under this subparagraph, and such determinations, meet the requirements of clause (ii). Such certifications shall be based on sufficient data from the State and from comparable States about their experience with programs created by this Act.

(B) Corrections

The Secretary shall adjust the payment for any fiscal year to reflect any error in the determinations under subparagraph (A) for any preceding fiscal year.

(4) Application of special rules

The provisions of section 18023 of this title shall apply to a State basic health program, and to standard health plans offered through such program, in the same manner as such rules apply to qualified health plans.

(D) who has not attained age 65 as of the beginning of the plan year.

Such term shall not include any individual who is not a qualified individual under section 18032 of this title who is eligible to be covered by a qualified health plan offered through an Exchange.

An eligible individual shall not be treated as a qualified individual under section 18032 of this title eligible for enrollment in a qualified health plan offered through an Exchange established under section 18033 of this title.

(f) Secretarial oversight

The Secretary shall each year conduct a review of each State program to ensure compliance with the requirements of this section, including ensuring that the State program meets—

(3) the quality and performance standards under this section.

(g) Standard health plan offerors

A State may provide that persons eligible to offer standard health plans under a basic health program established under this section may include a licensed health maintenance organization, a licensed health insurance insurer, or a network of health care providers established to offer services under the program.

Any term used in this section which is also used in section 36B of title 26 shall have the meaning given such term by such section.

(1) In general

The Director of the Office of Personnel Management (referred to in this section as the “Director”) shall enter into contracts with health insurance issuers (which may include a group of health insurance issuers affiliated either by common ownership and control or by the common use of a nationally licensed service mark), without regard to section 6101 of title 41 or other statutes requiring competitive bidding, to offer at least 2 multi-State qualified health plans through each Exchange in each State. Such plans shall provide individual, or in the case of small employers, group coverage.

(2) Terms

Each contract entered into under paragraph (1) shall be for a uniform term of at least 1 year, but may be made automatically renewable from term to term in the absence of notice of termination by either party. In entering into such contracts, the Director shall ensure that health benefits coverage is provided in accordance with the types of coverage provided for under section 2701(a)(1)(A)(i) of the Public Health Service Act [42 U.S.C. 300gg(a)(1)(A)(i)].

(3) Non-profit entities

In entering into contracts under paragraph (1), the Director shall ensure that at least one contract is entered into with a non-profit entity.

(B) a profit margin;

(C) the premiums to be charged; and

(7) Withdrawal

Approval of a contract under this subsection may be withdrawn by the Director only after notice and opportunity for hearing to the issuer concerned without regard to subchapter II of chapter 5 and chapter 7 of title 5.

(1) agrees to offer a multi-State qualified health plan that meets the requirements of subsection (c) in each Exchange in each State;

(2) is licensed in each State and is subject to all requirements of State law not inconsistent with this section, including the standards and requirements that a State imposes that do not prevent the application of a requirement of part A of title XXVII of the Public Health Service Act [42 U.S.C. 300gg et seq.] or a requirement of this title;

(3) otherwise complies with the minimum standards prescribed for carriers offering health benefits plans under section 8902(e) of title 5 to the extent that such standards do not conflict with a provision of this title; and

(4) Effective oversight

The Director may appoint such additional personnel as may be necessary to enable the Director to carry out activities under this section.

(5) Assurance of separate program

In carrying out this section, the Director shall ensure that the program under this section is separate from the Federal Employees Health Benefit Program under chapter 89 of title 5. Premiums paid for coverage under a multi-State qualified health plan under this section shall not be considered to be Federal funds for any purposes.

(6) FEHBP plans not required to participate

Nothing in this section shall require that a carrier offering coverage under the Federal Employees Health Benefit Program under chapter 89 of title 5 also offer a multi-State qualified health plan under this section.

(h) Advisory board

The contribution amount for any plan year may be based on the percentage of revenue of each issuer and the costs of coverage administered by the issuer as a third party administrator; or

(i) the purpose of which is to help stabilize premiums for coverage in the individual market in a State during the first 3 years of operation of an Exchange for such markets within the State when the risk of adverse selection related to new rating rules and market changes is greatest; and

(ii) the duties of which shall be to carry out the reinsurance program under this section by coordinating the funding and operation of the risk-spreading mechanisms designed to implement the reinsurance program.

(B) Specific requirements

The method under this paragraph shall be designed so that—

(ii) the contribution amount can include an additional amount to fund the administrative expenses of the applicable reinsurance entity:

(iii) the aggregate contribution amounts for all States shall, based on the best estimates of the NAIC and without regard to amounts described in clause (ii), equal $10,000,000,000 for plan years beginning in 2014, $6,000,000,000 for plan years beginning in 2015, and $4,000,000,000 for plan years beginning in 2016; and

(iv) in addition to the aggregate contribution amounts under clause (iii), each issuer's contribution amount for any calendar year under clause (iii) reflects its proportionate share of an additional $2,000,000,000 for 2014, an additional $2,000,000,000 for 2015, and an additional $1,000,000,000 for 2016.

Nothing in this subparagraph shall be construed to preclude a State from collecting additional amounts from issuers on a voluntary basis.

(4) Expenditure of funds

The provisions under paragraph (1) shall provide that—

(A) the contribution amounts collected for any calendar year may be allocated and used in any of the three calendar years for which amounts are collected based on the reinsurance needs of a particular period or to reflect experience in a prior period; and

(B) amounts remaining unexpended as of December, 2016, may be used to make payments under any reinsurance program of a State in the individual market in effect in the 2-year period beginning on January 1, 2017.

Notwithstanding the preceding sentence, any contribution amounts described in paragraph (3)(B)(iv) shall be deposited into the general fund of the Treasury of the United States and may not be used for the program established under this section.

(c) Applicable reinsurance entity

For purposes of this section—

(1) In general

The term "applicable reinsurance entity" means a not-for-profit organization—

(d) Coordination with State high-risk pools

In the case of an eligible insured enrolled in a qualified health plan—
(1) the Secretary shall notify the issuer of the plan of such eligibility; and
(2) the issuer shall reduce the cost-sharing under the plan at the level and in the manner specified in subsection (c).

(b) Eligible insured
In this section, the term “eligible insured” means an individual—
(1) who enrolls in a qualified health plan in the silver level of coverage in the individual market offered through an Exchange; and
(2) whose household income exceeds 100 percent but does not exceed 400 percent of the poverty line for a family of the size involved.

In the case of an individual described in section 36B(c)(1)(B) of title 26, the individual shall be treated as having household income equal to 100 percent for purposes of applying this section.

(c) Determination of reduction in cost-sharing
(1) Reduction in out-of-pocket limit
(A) In general
The reduction in cost-sharing under this subsection shall first be achieved by reducing the applicable out-of-pocket limit under section 18022(c)(1) of this title in the case of—

(I) 94 percent in the case of an eligible insured described in paragraph (2)(A);
(II) 87 percent in the case of an eligible insured described in paragraph (2)(B);

The Secretary shall adjust the out-of-pocket limit under paragraph (1) if necessary to ensure that such limits do not cause the respective actuarial values to exceed the levels specified in clause (i).

(2) Additional reduction for lower income insureds
The Secretary shall establish procedures under which the issuer of a qualified health plan to which this section applies shall further reduce cost-sharing under the plan in a manner sufficient to—

(2) Changes in circumstances

The Secretary shall provide procedures for making advance determinations on the basis of information other than that described in paragraph (1)(B) in cases where information included with an application form demonstrates substantial changes in income, changes in family size or other household circumstances, change in filing status, the filing of an application for unemployment benefits, or other significant changes affecting eligibility, including—

(A) allowing an individual claiming a decrease of 20 percent or more in income, or filing an application for unemployment benefits, to have eligibility for the credit determined on the basis of household income for a later period or on the basis of the individual’s estimate of such income for the taxable year; and

§ 18083. Streamlining of procedures for enrollment through an Exchange and State medical, CHIP, and health subsidy programs

(a) In general

The Secretary shall establish a system meeting the requirements of this section under which residents of each State may apply for enrollment in, receive a determination of eligibility
for participation in, and continue participation in, applicable State health subsidy programs. Such system shall ensure that if an individual applying to an Exchange is found through screening to be eligible for medical assistance under the State medicaid plan under title XIX [42 U.S.C. 1396 et seq.], or eligible for enrollment under a State children’s health insurance program (CHIP) under title XXI of such Act [42 U.S.C. 1397aa et seq.], the individual is enrolled in, applicable State health subsidy programs.

(b) Requirements relating to forms and notice

(1) Requirements relating to forms

(A) In general

The Secretary shall develop and provide to each State a single, streamlined form that—

(i) may be used to apply for all applicable State health subsidy programs within the State;

(ii) may be filed online, in person, by mail, or by telephone;

(iii) may be filed with an Exchange or with State officials operating one of the other applicable State health subsidy programs; and

(iv) is structured to maximize an applicant’s ability to complete the form satisfactorily, taking into account the characteristics of individuals who qualify for applicable State health subsidy programs.

(B) State authority to establish form

A State may develop and use its own single, streamlined form as an alternative to the form developed under subparagraph (A) if the alternative form is consistent with standards promulgated by the Secretary under this section.

(C) Supplemental eligibility forms

The Secretary may allow a State to use a supplemental or alternative form in the case of individuals who apply for eligibility that is not determined on the basis of the household income (as defined in section 36B of title 26).

(2) Notice

The Secretary shall provide that an applicant filing a form under paragraph (1) shall receive notice of eligibility for an applicable State health subsidy program without any need to provide additional information or paperwork unless such information or paperwork is specifically required by law when information provided on the form is inconsistent with data used for the electronic verification under paragraph (3) or is otherwise insufficient to determine eligibility.

(c) Requirements relating to eligibility based on data exchanges

(1) Development of secure interfaces

Each State shall develop for all applicable State health subsidy programs a secure, electronic interface allowing an exchange of data (including information contained in the application forms described in subsection (b)) that allows a determination of eligibility for all such programs based on a single application. Such interface shall be compatible with the method established for data verification under section 18081(c)(4) of this title.

(2) Data matching program

Each applicable State health subsidy program shall participate in a data matching arrangement for determining eligibility for participation in the program under paragraph (3) that—

(A) provides access to data described in paragraph (3);

(B) applies only to individuals who—

(i) receive assistance from an applicable State health subsidy program; or

(ii) apply for such assistance—

(I) by filing a form described in subsection (b); or

(II) by requesting a determination of eligibility and authorizing disclosure of the information described in paragraph (3) to applicable State health coverage subsidy programs for purposes of determining and establishing eligibility; and

(C) consistent with standards promulgated by the Secretary, including the privacy and data security safeguards described in section 1942 of the Social Security Act [42 U.S.C. 1396w-2] or that are otherwise applicable to such programs.

(3) Determination of eligibility

(A) In general

Each applicable State health subsidy program shall, to the maximum extent practicable—

(i) establish, verify, and update eligibility for participation in the program using the data matching arrangement under paragraph (2); and

(ii) determine such eligibility on the basis of reliable, third party data, including information described in sections 1137, 453(l), and 1942(a) of the Social Security Act [42 U.S.C. 1320b-7, 659(l), 1396w-2(a)], obtained through such arrangement.

(B) Exception

This paragraph shall not apply in circumstances with respect to which the Secretary determines that the administrative and other costs of use of the data matching arrangement under paragraph (2) outweigh its expected gains in accuracy, efficiency, and program participation.

(4) Secretarial standards

The Secretary shall, after consultation with persons in possession of the data to be matched and representatives of applicable State health subsidy programs, promulgate standards governing the timing, contents, and procedures for data matching described in this subsection. Such standards shall take into account administrative and other costs and the value of data matching to the establishment, verification, and updating of eligibility for applicable State health subsidy programs.

Subject to section 18081 of this title and section 6103(j)(21) of title 26 and any other requirement providing safeguards of privacy and data integrity, the Secretary may establish model agreements, and enter into agreements, for the sharing of data under this section.

(2) Authority of exchange to contract out

Nothing in this section shall be construed to—

(A) prohibit contractual arrangements through which a State medicaid agency determines eligibility for all applicable State health subsidy programs, but only if such agency complies with the Secretary’s requirements ensuring reduced administrative costs, eligibility errors, and disruptions in coverage; or

(B) change any requirement under title XIX that eligibility for participation in a State’s medicaid program must be determined by a public agency.

(e) Applicable State health subsidy program

In this section, the term “applicable State health subsidy program” means—

(1) the program under this title for the enrollment in qualified health plans offered through an Exchange, including the premium tax credits under section 36B of title 26 and cost-sharing reductions under section 18071 of this title;

SUBCHAPTER V—SHARED RESPONSIBILITY FOR HEALTH CARE

PART A—INDIVIDUAL RESPONSIBILITY

§18091. Requirement to maintain minimum essential coverage; findings

Congress makes the following findings:

(1) In general

The individual responsibility requirement provided for in this section (in this section referred to as the “requirement”) is commercial and economic in nature, and substantially affects interstate commerce, as a result of the effects described in paragraph (2).

(2) Effects on the national economy and interstate commerce

The effects described in this paragraph are the following:

(A) The requirement regulates activity that is commercial and economic in nature: economic and financial decisions about how and when health care is paid for, and when health insurance is purchased. In the absence of the requirement, some individuals would make an economic and financial decision to forego health insurance coverage and attempt to self-insure, which increases financial risks to households and medical providers.

(B) Health insurance and health care services are a significant part of the national economy. National health spending is projected to increase from $2,500,000,000,000, or 17.6 percent of the economy, in 2009 to $4,700,000,000,000 in 2019. Private health insurance spending is projected to be $834,000,000,000 in 2009, and pays for medical supplies, drugs, and equipment that are shipped in interstate commerce. Since most health insurance is sold by national or regional health insurance companies, health insurance is sold in interstate commerce and claims payments flow through interstate commerce.

(C) The requirement, together with the other provisions of this Act, will add mil-

1 See References in Text note below.
lions of new consumers to the health insurance market, increasing the supply of, and demand for, health care services, and will increase the number and share of Americans who are insured.

(D) The requirement achieves near-universal coverage by building upon and strengthen-
ing the private employer-based health insurance system, which covers 176,000,000 Americans nationwide. In Massachusetts, a similar requirement has strengthened pri-
vate employer-based coverage; despite the economic downturn, the number of workers offered employer-based coverage has actu-
ally increased.

(E) The economy loses up to $207,000,000,000 a year because of the poorer health and shorter lifespan of the uninsured. By signifi-
cantly reducing the number of the un-
insured, the requirement, together with the other provisions of this Act, will signifi-
cantly reduce this economic cost.

(F) The cost of providing uncompensated care to the uninsured was $53,000,000,000 in 2008. To pay for this cost, health care provid-
ers pass on the cost to private insurers, which pass on the cost to families. This cost-
shifting increases family premiums by on average over $1,000 a year. By significantly reducing the number of the uninsured, the
requirement, together with the other provi-
sions of this Act, will lower health insurance premiums.

(G) 62 percent of all personal bankruptcies are caused in part by medical expenses. By signifi-
cantly increasing health insurance cover-
age, the requirement, together with the other provisions of this Act, will im-
prove financial security for families.

(H) Under the Employee Retirement In-
come Security Act of 1974 (29 U.S.C. 1001 et seq.), the Public Health Service Act (42 U.S.C. 201 et seq.), and this Act, the Federal Government has a significant role in regu-
lating health insurance. The requirement is an essential part of this larger regulation of economic activity, and the absence of the re-
quirement would undercut Federal regula-
tion of the health insurance market.

(I) Under sections 2704 and 2705 of the Pub-
lic Health Service Act (42 U.S.C. 300gg-3, 300gg-4) (as added by section 1201 of this Act), if there were no requirement, many in-
dividuals would wait to purchase health in-
urance until they needed care. By signifi-
cantly increasing health insurance coverage, the requirement, together with the other provisions of this Act, will minimize this ad-
verse selection and broaden the health insurance risk pool to include healthy individu-
als, which will lower health insurance pre-
miums. The requirement is essential to cre-
at ing effective health insurance markets in
which improved health insurance products that are guaranteed issue and do not exclude coverage of pre-existing conditions can be sold.

(J) Administrative costs for private health insurance, which were $90,000,000,000 in 2006, are 26 to 30 percent of premiums in the cur-
rent individual and small group markets. By

significantly increasing health insurance coverage and the size of purchasing pools, which will increase economies of scale, the
requirement, together with the other provi-
sions of this Act, will significantly reduce administrative costs and lower health insurance premiums. The requirement is essential to creating effective health insurance mar-
kets that do not require underwriting and eliminate its associated administrative costs.

(3) Supreme Court ruling

In United States v. South-Eastern Underwriters Association (322 U.S. 533 (1944)), the
Supreme Court of the United States ruled that insurance is interstate commerce subject to
Federal regulation.

§ 18301. Findings

Congress makes the following findings:

(1) The United States human space flight program has, since the first Mercury flight on May 5, 1961, been a source of pride and inspiration for the Nation.

(2) The establishment of and commitment to human exploration goals is essential for providing the necessary long term focus and programmatic consistency and robustness of the United States civilian space program.

(3) The National Aeronautics and Space Administration is and should remain a multi-mission agency with a balanced and robust set of core missions in science, aeronautics, and human space flight and exploration.

(4) In the 50 years since the establishment of NASA, the arena of space has evolved substantially. As the uses and users of space continue to expand, the issues and operations in the regions closest to Earth have become increasingly complex, with a growing number of overlaps between civil, commercial, and national security activities. These developments present opportunities and challenges to the space activities of NASA and the United States.

(5) The extraordinary challenges of achieving access to space both motivated and accelerated the development of technologies and industrial capabilities that have had widespread applications which have contributed to the technological excellence of the United States. It is essential to tie space activity to human challenges ranging from enhancing the influence, relationships, security, economic development, and commerce of the United States to improving the overall human condition.

(6) It is essential to the economic well-being of the United States that the aerospace industrial capacity, highly skilled workforce, and embedded expertise remain engaged in demanding, challenging, and exciting efforts that ensure United States leadership in space exploration and related activities.

(7) Crewmembers provide the essential component to ensure the return on investment from and the growth and safe operation of the ISS. The Russian Soyuz vehicle has allowed continued human presence on the ISS for United States crewmembers with its ability to serve as both a routine and backup capability for crew delivery, rescue, and return. With the impending retirement of the Space Shuttle, the United States will find itself with no national crew delivery and return system. Without any other system, the United States and all the ISS partners will have no redundant system for human access to and from the ISS. It is therefore essential that a United States capability be developed as soon as possible.

(8) Existing and emerging United States commercial launch capabilities and emerging launch capabilities offer the potential for providing crew support assets. New capabilities for human crew access to the ISS should be developed in a manner that ensures ISS mission assurance and safety. Commercial services offer the potential to broaden the availability and access to space at lower costs.

(9) While commercial transportation systems have the promise to contribute valuable services, it is in the United States national interest to maintain a government operated space transportation system for crew and cargo delivery to space.

(10) Congress restates its commitment, expressed in the National Aeronautics and Space Administration Authorization Act of 2005 (Public Law 109–155) and the National Aeronautics and Space Administration Authorization Act of 2008 (Public Law 110–422), to the development of commercially developed launch and delivery systems to the ISS for crew and cargo missions. Congress reaffirms that NASA shall make use of United States commercially provided ISS crew transfer and crew rescue services to the maximum extent practicable.

(11) It is critical to identify an appropriate combination of NASA and related United States Government programs, while providing a framework that allows partnering, leveraging and stimulation of the existing and emerging commercial and international efforts in both near Earth space and the regions beyond.

(12) The designation of the United States segment of the ISS as a National Laboratory, as provided by the National Aeronautics and Space Administration Authorization Act of 2005 and the National Aeronautics and Space Administration Authorization Act of 2008, provides an opportunity for United States Government agencies, university-based researchers, research organizations, and others to utilize the unique environment of microgravity for fundamental scientific research and potential economic development.

(13) For some potential replacement elements necessary for ISS sustainability, the Space Shuttle may represent the only vehicle, existing or planned, capable of carrying those elements to the ISS in the near term. Additional or alternative transportation capabilities must be identified as contingency delivery options, and accompanied by an independent analysis of projected availability of such capabilities.

(14) The United States must develop, as rapidly as possible, replacement vehicles capable of providing both human and cargo launch capability to low-Earth orbit and to destinations beyond low-Earth orbit.

(15) There is a need for national space and export control policies that protect the national security of the United States while also enabling the United States and its aerospace industry to undertake cooperative programs in science and human space flight in an effective and efficient manner and to compete effectively in the global market place.

SUBCHAPTER I—POLICY, GOALS, AND OBJECTIVES FOR HUMAN SPACE FLIGHT AND EXPLORATION

§ 18311. United States human space flight policy

(a) Use of non-United States human space flight transportation capabilities

It is the policy of the United States that reliance upon and use of non-United States human space flight capabilities shall be undertaken only as a contingency in circumstances where no United States-owned and operated human space flight capability is available, operational, and certified for flight by appropriate Federal agencies.

(b) United States human space flight capabilities

Congress reaffirms the policy stated in section 70501(a) of title 51, that the United States shall maintain an uninterrupted capability for human space flight and operations in low-Earth orbit, and beyond, as an essential instrument of national security and of the capacity to ensure continued United States participation and leadership in the exploration and utilization of space.

CODIFICATION

§ 18312. Goals and objectives

(a) Long term goal

The long term goal of the human space flight and exploration efforts of NASA shall be to expand permanent human presence beyond low-Earth orbit and to do so, where practical, in a manner involving international partners.

(b) Key objectives

The key objectives of the United States for human expansion into space shall be—

(1) to sustain the capability for long-duration presence in low-Earth orbit, initially through continuation of the ISS and full utilization of the United States segment of the ISS
as a National Laboratory, and through assisting and enabling an expanded commercial presence in, and access to, low-Earth orbit, as elements of a low-Earth orbit infrastructure;

(2) to determine if humans can live in an extended manner in space with decreasing reliance on Earth, starting with utilization of low-Earth orbit infrastructure, to identify potential roles that space resources such as energy and materials may play, to meet national and global needs and challenges, such as potential cataclysmic threats, and to explore the viability of and lay the foundation for sustainable economic activities in space;

(3) to maximize the role that human exploration of space can play in advancing overall knowledge of the universe, supporting United States national and economic security and the United States global competitive posture, and inspiring young people in their educational pursuits; and

(4) to build upon the cooperative and mutually beneficial framework established by the ISS partnership agreements and experience in developing and undertaking programs and meeting objectives designed to realize the goal of human space flight set forth in subsection (a).

§ 18313. Assurance of core capabilities

(a) Sense of Congress

It is the sense of Congress that—

(1) the ISS, technology developments, the current Space Shuttle program, and follow-on transportation systems authorized by this chapter form the foundation of initial capabilities for missions beyond low-Earth orbit to a variety of lunar and Lagrangian orbital locations; and

(2) these initial missions and related capabilities should be utilized to provide operational experience, technology development, and the placement and assured use of in-space infrastructure and in-space servicing of existing and future assets.

(b) Space Shuttle capability assurance

(1) Development of follow-on space transportation systems

The Administrator shall proceed with the development of follow-on space transportation systems in a manner that ensures that the national capability to restart and fly Space Shuttle missions can be initiated if required by the Congress, in an Act enacted after October 11, 2010, or by a Presidential determination transmitted to the Congress, before the last Space Shuttle mission authorized by this chapter is completed.

(2) Required actions

In carrying out the requirement in paragraph (1), the Administrator shall authorize refurbishment of the manufactured external tank of the Space Shuttle, designated as ET–94, and take all actions necessary to enable its readiness for use in the Space Launch System development as a critical skills and capability retention effort or for test purposes, while preserving the ability to use this tank if needed for an ISS contingency if deemed necessary under paragraph (1).

SUBCHAPTER II—EXPANSION OF HUMAN SPACE FLIGHT BEYOND THE INTERNATIONAL SPACE STATION AND LOW-EARTH ORBIT

§ 18321. Human space flight beyond low-Earth orbit

(a) Findings

Congress makes the following findings:

(1) The extension of the human presence from low-Earth orbit to other regions of space beyond low-Earth orbit will enable missions to the surface of the Moon and missions to deep space destinations such as near-Earth asteroids and Mars.

(2) The regions of cis-lunar space are accessible to other national and commercial launch capabilities, and such access raises a host of national security concerns and economic implications that international human space endeavors can help to address.

(3) The ability to support human missions in regions beyond low-Earth orbit and on the surface of the Moon can also drive developments in emerging areas of space infrastructure and technology.

(4) Developments in space infrastructure and technology can stimulate and enable increased space applications, such as in-space servicing, propellant resupply and transfer, and in situ resource utilization, and open opportunities for additional users of space, whether national, commercial, or international.

(5) A long term objective for human exploration of space should be the eventual international exploration of Mars.

(6) Future international missions beyond low-Earth orbit should be designed to incorporate capability development and availability, affordability, and international contributions.

(7) Human space flight and future exploration beyond low-Earth orbit should be based around a pay-as-you-go approach. Requirements in new launch and crew systems authorized in this chapter should be scaled to the minimum necessary to meet the core national mission capability needed to conduct cis-lunar missions. These initial missions, along with the development of new technologies and in-space capabilities can form the foundation for missions to other destinations. These initial missions also should provide operational experience prior to the further human expansion into space.

(b) Report on international collaboration

(1) Report required

Not later than 120 days after October 11, 2010, the Administrator shall submit to the appropriate committees of Congress a report on the following assets and capabilities:

(A) Any effort by NASA to expand and ensure effective international collaboration on the ISS.
(2) NASA contributions

In preparing the report required by paragraph (1), the Administrator shall assume that NASA will contribute to the efforts described in that paragraph the following:

(A) A Space Launch System.

(B) A multi-purpose crew vehicle.

(C) Such other technology elements the Administrator may consider appropriate, and which the Administrator shall specifically identify in the report.

§ 18322. Space Launch System as follow-on launch vehicle to the Space Shuttle

(a) United States policy

It is the policy of the United States that NASA develop a Space Launch System as a follow-on to the Space Shuttle that can access cis-lunar space and the regions of space beyond low-Earth orbit in order to enable the United States to participate in global efforts to access and develop this increasingly strategic region.

(b) Initiation of development

(1) In general

The Administrator shall, as soon as practicable after October 11, 2010, initiate development of a Space Launch System meeting the minimum capabilities requirements specified in subsection (c).

(2) Modification of current contracts

In order to limit NASA's termination liability costs and support critical capabilities, the Administrator shall, to the extent practicable, extend or modify existing vehicle development and associated contracts necessary to meet the requirements in paragraph (1), including contracts for ground testing of solid rocket motors, if necessary, to ensure their availability for development of the Space Launch System.

(c) Minimum capability requirements

(1) In general.—The Space Launch System developed pursuant to subsection (b) shall be designed to have, at a minimum, the following:

(A) The initial capability of the core elements, without an upper stage, of lifting payloads weighing between 70 tons and 100 tons into low-Earth orbit in preparation for transit for missions beyond low-Earth orbit.

(B) The capability to carry an integrated upper Earth departure stage bringing the total lift capability of the Space Launch System to 130 tons or more.

(C) The capability to lift the multipurpose crew vehicle.

(D) The capability to serve as a backup system for supplying and supporting ISS cargo requirements or crew delivery requirements not otherwise met by available commercial or partner-supplied vehicles.

(2) Flexibility.—The Space Launch System shall be designed from inception as a fully-integrated vehicle capable of carrying a total payload of 130 tons or more into low-Earth orbit in preparation for transit for missions beyond low-Earth orbit. The Space Launch System shall, to the extent practicable, incorporate capabilities for evolutionary growth to carry heavier payloads. Developmental work and testing of the core elements and the upper stage should proceed in parallel subject to appropriated. Priority should be placed on the core elements with the goal for operational capability for the core elements not later than December 31, 2016.

(3) Transition needs.—The Administrator shall ensure critical skills and capabilities are retained, modified, and developed, as appropriate, in areas related to solid and liquid engines, large diameter fuel tanks, rocket propulsion, and other ground test capabilities for an effective transition to the follow-on Space Launch System.

(4) The capacity for efficient and timely evolution, including the incorporation of new technologies, competition of sub-elements, and commercial operations.

§ 18323. Multi-purpose crew vehicle

(a) Initiation of development

(1) In general

The Administrator shall continue the development of a multi-purpose crew vehicle to be available as soon as practicable, and no later than for use with the Space Launch System. The vehicle shall continue to advance development of the human safety features, designs, and systems in the Orion project.

(2) Goal for operational capability

It shall be the goal to achieve full operational capability for the transportation vehicle developed pursuant to this subsection by not later than December 31, 2016. For purposes of meeting such goal, the Administrator may undertake a test of the transportation vehicle at the ISS before that date.

(b) Minimum capability requirements

§ 18385. On-going restoration of radioisotope thermoelectric generator material production

(a) Findings

The Congress finds the following:

(1) The United States has led the world in the scientific exploration of space for nearly 50 years.

(2) Missions such as Viking, Voyager, Cassini, and New Horizons have greatly expanded knowledge of our solar system and planetary characteristics and evolution.

(3) Radioisotope power systems are the only available power sources for deep space missions making it possible to travel to such distant destinations as Mars, Jupiter, Saturn, Pluto, and beyond and maintain operational control and systems viability for extended mission durations.

(4) Current radioisotope power systems supplies and production will not fully support NASA missions planned even in the next decade and, without a new domestic production capability, the United States will no longer have the means to explore the majority of the solar system by the end of this decade.

(5) Continuing to rely on Russia or other foreign sources for radioisotope power system fuel production is not a secure option.

(6) Reestablishing domestic production will require a long lead-time. Thus, meeting future space exploration mission needs requires that a restart project begin at the earliest opportunity.

(b) In general

The Administrator shall, in coordination with the Secretary of Energy, pursue a joint approach beginning in fiscal year 2011 towards restarting and sustaining the domestic production of radioisotope thermoelectric generator material for deep space and other science and exploration missions. Funds authorized by this chapter for NASA shall be made available under a reimbursable agreement with the Department of Energy for the purpose of reestablishing facilities to produce fuel required for radioisotope thermoelectric generators to enable future missions.

(c) Report

Within 120 days after October 11, 2010, the Administrator and the Secretary of Energy shall submit a joint report to the appropriate committees of Congress on coordinated agreements, planned implementation, and anticipated schedule, production quantities, and mission applications under this section.

§ 18386. Collaboration with ESMD and SOMD on robotic missions

The Administrator shall ensure that the Exploration Systems Mission Directorate and the Space Operations Mission Directorate coordinate with the Science Mission Directorate on an
overall approach and plan for interagency and international collaboration on robotic missions that are NASA or internationally developed, including lunar, Lagrangian, near-Earth orbit, and Mars spacecraft, such as the International Lunar Network. Within 90 days after October 11, 2010, the Administrator shall provide a plan to the appropriate committees of Congress for implementation of the collaborative approach required by this section. The Administrator may not cancel or initiate any Exploration Systems Mission Directorate or Science Mission Directorate robotic project before the plan is submitted to the appropriate committees of Congress.

§ 18441. National and international orbital debris mitigation

(a) Findings

Congress makes the following findings:

(1) A national and international effort is needed to develop a coordinated approach towards the prevention, negation, and removal of orbital debris.

(2) The guidelines issued by the Inter-Agency Space Debris Coordination Committee provide a consensus understanding of 10 national space agencies (including NASA) plus the European Space Agency on the necessity of mitigating the creation of space debris and measures for doing so. NASA’s participation on the Committee should be robust, and NASA should urge other space-relevant Federal agencies (including the Departments of State, Defense, and Commerce) to work to ensure that their counterpart agencies in foreign governments are aware of these national commitments and the importance in which the United States holds them.

(3) Key components of such an approach should include—
   (A) a process for debris prevention through agreements regarding spacecraft design, operations, and end-of-life disposition plans to minimize orbiting vehicles or elements which are nonfunctional;
   (B) the development of a robust Space Situational Awareness network that can identify potential collisions and provide sufficient trajectory and orbital data to enable avoidance maneuvers;
   (C) the interagency development of an overall strategy for review by the President, with recommendations for proposed international collaborative efforts to address this challenge.

(b) International discussion

(1) In general

The Administrator shall, in consultation with such other departments and agencies of the Federal Government as the Administrator considers appropriate, continue and strengthen discussions with the representatives of other space-faring countries, within the Inter-Agency Space Debris Coordination Committee and elsewhere, to deal with this orbital debris mitigation.

(2) Interagency effort

For purposes of carrying out this subsection, the Director of OSTP, in coordination with the Director of the National Security Council and using the President’s Council of Advisors on Science and Technology coordinating mechanism, shall develop an overall strategy for review by the President, with recommendations for proposed international collaborative efforts to address this challenge.
